Frequency of response: Initial and Annually.

Total estimated burden: 32,155 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: $2,899,331.40 (per year), which includes $0 annualized capital or operation & maintenance costs

Changes in the Estimates: There is a decrease of 1,065 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to a reduction in the number of forms submitted. There was a decrease in the number of respondents submitting each form, which decreased the total burden hours, but there is an overall increase in the total estimated cost of respondent burden due to an increase in the estimated labor costs (increase in hourly wages). The total estimated increase in respondent costs from these changes in labor costs and adjustment to the total hours is $163,363.26.

Deputy Director, Data and Enterprise Programs Division.
