Subpart F—California

■ 2. Amend § 52.220, paragraph (c), table 29 by:

■ a. Revising the entry for ''1020'' under the heading ''Regulation I—General Provisions''; and

■ b. Revising the entries for ''2020'' and ''2201'' under the heading ''Regulation II—Permits''.

The revisions read as follows:

§ 52.220 Identification of plan.

[FR Doc. 2026–23572 Filed 11–18–26; 8:45 am]

BILLING CODE 6569–60–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R03–OAR–2026–3764; FRL–13384–03–R3]

Air Plan Approval; Reasonably Available Control Technology (RACT) for Volatile Organic Compounds (VOC) Control Technique Guidelines (CTG) Under the 2008 and 2015 Ozone National Ambient Air Quality Standards (NAAQS)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving four State implementation plan (SIP) revisions submitted by the Commonwealth of Pennsylvania on May 10, 2023, January 20, 2026, February 17, 2026, and April 10, 2026, through the Pennsylvania Department of Environmental Protection (PADEP). The SIP revisions address reasonably available control technology (RACT) requirements for the 2008 and 2015 ozone national ambient air quality standards (NAAQS) relating to control technique guidelines (CTGs) for volatile organic compounds (VOC) via previously adopted CTG regulations, three new CTG regulations and permits for four facilities covered by the CTG for the Manufacture of High-Density Polyethylene, Polypropylene, and Polystyrene Resins respectively. The EPA is approving these revisions to the Pennsylvania SIP in accordance with the requirements of the Clean Air Act (CAA).

DATES: This final rule is effective on December 21, 2026.

ADDRESSES: The EPA has established a docket for this action under Docket ID Number EPA–R03–OAR–2026–3764. All documents in the docket are listed on the *www.regulations.gov* website. Although listed in the index, some information is not publicly available, *e.g.,* confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through *www.regulations.gov,* or please contact the person identified in the **FOR FURTHER INFORMATION**

CONTACT section for additional availability information.

FOR FURTHER INFORMATION CONTACT: Sean Silverman, Planning & Implementation Branch (3AD30), Air & Radiation Division, U.S. Environmental Protection Agency, Region III, 1600 John F Kennedy Boulevard, Philadelphia, Pennsylvania 19103. The telephone number is (215) 814–5511. Mr. Silverman can also be reached via electronic mail at *silverman.sean@epa.gov.*

SUPPLEMENTARY INFORMATION: Throughout this rule, the use of ''we,'' ''us,'' or ''our'' is intended to refer to the EPA. We use multiple abbreviations and terms in this rule. While this list may not be exhaustive, for ease of reading and for reference purposes, the EPA defines the following terms and acronyms here:

CAA—Clean Air Act
CBI—Confidential Business Information
CFR—Code of Federal Regulations
CTG—Control Technique Guidelines
EPA—Environmental Protection Agency
FR—Federal Register
IFD—Interim Final Determination
NAAQS—National Ambient Air Quality Standards
NPRM—Notice of Proposed Rulemaking
PADEP—Pennsylvania Department of Environmental Protection
NSR—New Source Review
RACT– Reasonably Available Control Technology
ppb—Parts per billion
PSD—Prevention of Significant Deterioration
SIP—State Implementation Plan
SOCMI—Synthetic Organic Chemical Manufacturing Industry
tpy—Tons per year
TSD—Technical Support Document
VOC—Volatile Organic Compounds

Table of Contents

I. Background
II. Summary of SIP Revision and EPA Analysis
III. EPA's Response to Comments Received
IV. Final Action
V. Incorporation by Reference
VI. Statutory and Executive Order Reviews

I. Background

On August 16, 2024,[1] the EPA took final action to disapprove portions of two Pennsylvania SIP revisions received on August 13, 2018, that among other things, were intended to satisfy the VOC CTG RACT requirements for the 2008 ozone NAAQS. Specifically, the EPA disapproved the portions of both SIP submittals related to CTGs for the 2008 8-hour ozone NAAQS but approved certain clarifying amendments and a negative declaration submitted by PADEP. In that disapproval, the EPA determined that it erred in its previous December 14, 2020 approval[2] of the VOC CTG RACT portion of PADEP's RACT certification SIP, as the record did not provide sufficient support that the regulations identified by PADEP implemented the VOC CTG RACT requirements of the 2008 8-hour ozone NAAQS.

On May 10, 2023, January 20, 2026, February 17, 2026, and April 10, 2026, PADEP submitted four SIP revisions to the EPA to address VOC CTG RACT SIP requirements for the 2008 and 2015 ozone NAAQS. On July 16, 2026, the EPA proposed approval of these SIP revisions.[3] In that July 16, 2026 notice of proposed rulemaking (NPRM), the EPA proposed that through a combination of new CTG regulations, permits adopting standards from CTGs incorporated into the SIP, recertification of previously approved CTG regulations, and a robust record and supporting analysis that Pennsylvania met the VOC CTG RACT standards for the 2008 and 2015 ozone NAAQS. Furthermore, in that NPRM the EPA proposed that PADEP had addressed the deficiencies laid out in the August 16, 2024 disapproval, and as a result, simultaneously issued an Interim Final Determination (IFD)[4] staying the application of the offset sanction and deferring the application of the highway sanction triggered by the EPA's August 16, 2024 disapproval. The reasons for the proposed approval and the IFD were stated in the proposal for this action and will not be restated here.

The public comment period for the proposed approval and IFD ended on August 17, 2026. The EPA received no comments on either the proposed approval or IFD.

II. Summary of SIP Revision and EPA Analysis

On January 20, 2026, PADEP submitted a revision to its SIP certifying that through a combination of: (1) regulations previously approved into the SIP; (2) regulations proposed to be approved into the SIP; and (3) portions of redacted permits proposed to be incorporated into the SIP that RACT is being implemented for VOC sources covered by a CTG to meet Pennsylvania's RACT requirements under the CAA and implementing regulations for the 2008 and 2015 ozone NAAQS. PADEP submitted four SIP revisions to accomplish this (herein collectively referred to as the VOC CTG RACT SIP) and a robust supporting analysis. A description of these submissions is summarized below.

On May 10, 2023, PADEP submitted the first of the four revisions to its SIP establishing RACT requirements to control VOC emissions from sources covered by the following CTGs: (1) Shipbuilding and Ship Repair Operations (Surface Coating), 61 FR 44050 (August 27, 1996);[5] (2) Large Petroleum Dry Cleaners, EPA–450/3–82–009;[6] (3) Control of Volatile Organic Compound Leaks from Synthetic Organic Chemical Polymer and Resin Manufacturing Equipment, EPA–450/3–83–006;[7] (4) Control of Volatile Organic Compound Emissions from Air Oxidation Processes in Synthetic Organic Chemical Manufacturing Industry (SOCMI), EPA–450/3–84–015;[8] and (5) Control of Volatile Organic Compound Emissions from Reactor Processes and Distillation Operations in Synthetic Organic Chemical Manufacturing Industry, EPA–450/4–91–031.[9]

On January 20, 2026, a second SIP submission was received which contained supporting analysis for all four SIP submissions demonstrating that the submittals meet VOC CTG RACT requirements for the 2008 and 2015 ozone NAAQS. The bulk of this submission relates to PADEP's previously SIP-adopted regulations and associated analysis.

On February 17, 2026, a third SIP submission was received containing portions of three redacted permits for specific facilities. In lieu of adopting new regulations to address VOC CTG RACT from manufacturing high density polyethylene, polypropylene and polystyrene resins (CTG EPA 450/3–83–008, November 1983),[10] PADEP sought to incorporate by reference into the Pennsylvania SIP portions of redacted permits for each source subject to this

[1] *See* 89 FR 66599 (Aug. 16, 2024).

[2] *See* 85 FR 80625 (Dec. 14, 2020).

[4] *See* 91 FR 43544 (July 16, 2026).

[5] The CTG for Shipbuilding and Ship Repair Operations (Surface Coating) has no standalone document, it is a combination of the information in 61 FR 44050 (August 27, 1996) and the previously published ACT. Alternative Control Technology Document—Surface Coating Operations at Shipbuilding and Ship Repair Facilities.

[6] Control of Volatile Organic Compound Emissions from Large Petroleum Dry Cleaners.

[7] Control of Volatile Organic Compound Leaks from Synthetic Organic Chemical Polymer and Resin Manufacturing Equipment.

[8] Control of Volatile Organic Compound Emissions from Air Oxidation Processes in Synthetic Organic Chemical Manufacturing Industry.

[9] Control of Volatile Organic Compound Emissions from Reactor Processes and Distillation Operations in Synthetic Organic Chemical Manufacturing Industry.

[10] See Control of Volatile Organic Compound Emissions from Manufacture of High-Density Polyethylene, Polypropylene, and Polystyrene Resins.

CTG. The February 17, 2026 SIP submission certifies that these redacted permits contain conditions that are consistent with or more stringent than the CTG and implement VOC CTG RACT Requirements for these sources for the 2008 and 2015 ozone NAAQS. The February 17th submission contained the redacted permits for Multiplastics Extrusions Hazelton (permit 40–00083), Rohm & Haas Co Bristol (permit 09–00015), and Shell Chemical Appalachia (permit 04–00740).

On April 10, 2026, a fourth SIP submission was received from PADEP certifying that a permit for the BASF Monaca Plant (permit 04–00306), which was submitted to and approved by the EPA as RACT for the 1997 ozone NAAQS, meets or exceeds the CTG requirements for controlling VOC emissions from manufacturing high density polyethylene, polypropylene and polystyrene resins (EPA–450/3–83–008, November 1983) and remains sufficient to implement VOC CTG RACT for the 2008 and 2015 ozone NAAQS.

Other specific requirements of Pennsylvania's VOC CTG RACT SIP revisions for the 2008 and 2015 ozone NAAQS and the rationale for the EPA's proposed (and now final) action are explained in the NPRM, and its associated technical support document (TSD) and will not be restated here.

III. EPA's Response to Comments Received

No public comments were received on the NPRM.

IV. Final Action

The EPA is approving Pennsylvania's May 10, 2023, January 20, 2026, February 17, 2026, and April 10, 2026 SIP revisions to the Pennsylvania SIP as proposed in the EPA's July 16, 2026 NPRM. In addition, the EPA is determining that these SIP revisions addressed the requirements of the 2008 and 2015 ozone NAAQS for CTGs and addressed the deficiencies identified in EPA's August 16, 2024 partial disapproval. Finalization of this approval permanently stops the offset sanctions which took effect on March 16, 2026 and prevents the imposition of highways sanctions which were set to take effect on September 16, 2026.

V. Incorporation by Reference

In this document, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the amendments to 25 Pa. Code Chapters 121.1, 129.52, and newly added 25 Pa. Code Chapters 129.63b and 129.71a effective January 21, 2023 (see annex A of the May 10, 2023 submission). The EPA is also finalizing the incorporation by reference of portions of permits described in section II of this preamble as redacted in Pennsylvania's February 20, 2026 SIP revision. The EPA has made, and will continue to make, these materials generally available through *www.regulations.gov* and at the EPA Region III Office (please contact the person identified in the For Further Information Contact section of this preamble for more information). Therefore, these materials have been approved by the EPA for inclusion in the SIP, have been incorporated by reference by the EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rule of the EPA's approval, and will be incorporated by reference in the next update to the SIP compilation.[11]

VI. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Clean Air Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve State choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Is not an Executive Order 14192 (90 FR 9065, February 6, 2025) regulatory action because this action is not significant under Executive Order 12866;
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because it approves a State program;
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act.

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian Tribe has demonstrated that a Tribe has jurisdiction. In those areas of Indian country, the rule does not have Tribal implications and will not impose substantial direct costs on Tribal governments or preempt Tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

This action is subject to the Congressional Review Act, and the EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a ''major rule'' as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by January 19, 2027. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Amy Van Blarcom-Lackey,

Regional Administrator, Region III.

For the reasons stated in the preamble, the EPA amends 40 CFR part 52 as follows:

[11] 62 FR 27968 (May 22, 1997).

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart NN—Pennsylvania

■ 2. In § 52.2020:

■ a. The table in paragraph (c)(1) is amended:

■ i. Under ''Chapter 121—General Provisions'' by revising the first entry for ''Section 121.1''; and

■ ii. Under ''Chapter 129—Standards for Sources'' by:

■ A. Revising the entry for ''Section 129.52''; and

■ B. Adding the entries for ''Section 129.63b'' and ''Section 129.71a'' in alphanumerical order;

■ b. The table in paragraph (d)(1) is amended by adding entries for ''Multiplastics Extrusions Inc/Hazelton'', ''Rohm & Haas Co/Bristol'', and ''Shell Chem Appalachia/Petrochemicals Complex'' at the end of the table; and

■ c. The table in paragraph (e)(1) is amended by adding entries for ''PA VOC CTG RACT Certification for the 2008 and 2015 Ozone National Ambient Air Quality Standard'' and ''PA BASF VOC CTG RACT Certification'' at the end of the table.

The revisions and additions read as follows:

§ 52.2020 Identification of plan.

BILLING CODE 6569–60–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 62

[EPA–R06–OAR–2023–0478; FRL–12671–02–R6]

Approval and Promulgation of State Air Quality Plans for Designated Facilities and Pollutants; Texas; Control of Emissions From Existing Municipal Solid Waste Landfills

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: Pursuant to the Federal Clean Air Act (CAA or the Act), the Environmental Protection Agency (EPA) is approving the CAA section 111(d) State plan submitted by the State of Texas for sources subject to the Municipal Solid Waste (MSW) Landfills Emission Guidelines (EG). The Texas MSW landfills plan was submitted to fulfill the State's obligations under CAA section 111(d) to implement and enforce the requirements under the MSW Landfills EG. The EPA is approving the State plan and amending the agency regulations in accordance with the requirements of the CAA.

DATES: This rule is effective on December 21, 2026. The incorporation by reference of certain material listed in this rule is approved by the Director of the Federal Register as of December 21, 2026.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R06–OAR–2023–0478. All documents in the docket are listed on the *https://www.regulations.gov* website. Although listed in the index, some information is not publicly available, *e.g.,* Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet. Publicly available docket materials are available electronically through *https://www.regulations.gov.*

FOR FURTHER INFORMATION CONTACT: Kevin Kim, EPA Region 6 Office, SO_2 and Regional Haze Section; telephone number: 214–665–8554; email address: *kim.kevin@epa.gov.* Please call or email the contact listed above if you need alternative access to material indexed but not provided in the docket.

SUPPLEMENTARY INFORMATION: Throughout this document ''we,'' ''us,'' and ''our'' means the EPA.

I. Background

The background for this action is discussed in detail in our March 4, 2026, proposed rule (91 FR 10556) and accompanying Technical Support
