Participating Agencies

SSA and DOL.

Authority for Conducting the Matching Program

Legal authority for the FECA payment data disclosures under this matching program is section 224(a) and (h)(1) of the Social Security Act (Act), 42 U.S.C. 424(a) and (h)(1), as well as 5 U.S.C. 8116(d)(1). Notably, section 224(h)(1) of the Act requires Federal agencies to provide SSA with information in their possession that SSA may require for making timely determinations as to the amounts of reduction required under section 224(a) of the Act.

Purpose(s)

This matching program establishes the terms, safeguards, and procedures under which DOL as the source agency, will disclose FECA payment data to SSA, the recipient agency. SSA will use the DOL's FECA payment data for the purpose of facilitating the administration of DI benefits to both beneficiaries and their auxiliaries. SSA will utilize this data to improve SSA's ability to accurately offset Title II DI benefits in accordance with applicable laws and regulations.

Categories of Individuals

The individuals whose information is involved in this matching program are DI beneficiaries and their auxiliaries who are concurrently receiving FECA benefit payments.

Categories of Records

The API (Application Programming Interface) communication of DI beneficiaries DOL provides to SSA every 28 days consistent with its pay cycle for FECA benefit payments will contain the FECA payment amount of approximately 40,000 FECA beneficiaries. DOL FECA payment records will be matched against SSA's Master Beneficiary Record and Master Files of Social Security Numbers (SSN) Holders and SSN Applications. SSA will match DOL FECA payment records with SSA records to identify DI beneficiaries and eligible auxiliaries who may be concurrently receiving FECA payments. The records will include the individual's SSN; primary or auxiliary beneficiary claimant name; address information (address lines, city, state, ZIP code, and country); date of

birth; roll type; time lost; weekly pay rate; compensation rate; cancellation payment flag; payee relationship code; payment details, including gross payment amount, Consumer Price Index adjustment, health benefit insurance, basic life insurance, optional life insurance, post-retirement basic life insurance, miscellaneous deductions, attendant allowance, and net payment amount; entitlement period beginning and ending dates; benefit type code; date paid; FECA case number; Federal agency employer; date of injury or illness; case status; and adjudication status. SSA will use this information to determine whether a reduction of DI benefits is applicable to the DI beneficiary or any eligible auxiliary.

System(s) of Records

DOL will provide SSA with FECA benefit data from DOL's system of records: DOL/GOVT–1, Office of Workers' Compensation Programs, Federal Employees' Compensation Act File, 81 **Federal Register** (FR) 47,418 (July 21, 2016).

SSA will match the DOL data with two SSA's systems of records:

1. Master Beneficiary Record, 60–0090, last fully published at 71 FR 1826 (January 11, 2006) and updated at 72 FR 69723 (December 10, 2007), 78 FR 40542 (July 5, 2013), 83 FR 31250–31251 (July 3, 2018), 83 FR 54969 (November 1, 2018), 89 FR 825 (January 5, 2024), 89 FR 14554 (February 27, 2024), and 90 FR 53413 (November 25, 2025); and

2. Master Files of SSN Holders and SSN Applications (Enumeration System) (60–0058), last fully published at 90 FR 10025 (February 20, 2025).

SUPPLEMENTARY INFORMATION:

A. Purpose

Under the PRA, (44 U.S.C. 3501–3520) Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. ''Collection of information'' is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, the Department of State is publishing notice of the proposed collection of information set forth in this document.

Whether seeking a loan, Social Security benefits, veteran's benefits, or other services provided by the Federal Government, individuals and businesses expect Government customer services to be efficient and intuitive, just like services from leading private-sector organizations. Yet the 2016 American Consumer Satisfaction Index and the 2017 Forrester Federal Customer Experience Index show that, on average, Government services lag nine percentage points behind the private sector.

A modern, streamlined and responsive customer experience means: raising government-wide customer experience to the average of the private sector service industry; developing indicators for high-impact Federal programs to monitor progress towards excellent customer experience and mature digital services; and providing the structure (including increasing transparency) and resources to ensure customer experience is a focal point for agency leadership. To support this, OMB Circular A–11 Section 280
