Type of Review: Extension of a currently approved data collection.

Current Expiration Date: January 30, 2027.

Title: Terrorism Risk Insurance Program; Commutations under Final Netting Rule.

Abstract: Under 31 CFR 50.76(b), the Secretary may set a final netting date, at which time all claims relating to an insured loss or act of terrorism become final. As part of a final netting determination, Treasury may require (or consider the request of a particular insurer for) a commutation of an insurer's future claims for the federal share of compensation. This process could require the insurer to produce information justifying a final payment estimate, including supporting actuarial factors and methodology. This information collection is not subject to any common form or generalized reporting requirement, as it will necessarily be tailored to the circumstances presented by a particular insurer, which will need to be determined at the time any particular commutation process takes place.

Type of Review: Extension of a currently approved data collection.

Current Expiration Date: January 30, 2027.

Affected Public: Business/Financial Institutions.

Estimated Number of Respondents: 15

Estimated Average Time per Respondent: 40 hours.

Estimated Total Annual Burden Hours: 600 hours.

Title: Terrorism Risk Insurance Program; Rebuttal of Controlling Influence Submissions.

Abstract: Treasury has promulgated procedures at 31 CFR 50.7 for an insurer to follow in seeking to rebut a regulatory presumption of ''controlling influence'' over another insurer (which, because of the way in which the Program operates, would affect the amount of direct earned premium attributable to the insurer's deductible calculation). These procedures require insurers to provide Treasury necessary information to determine whether a ''controlling influence'' exists, and if it does, whether it has been rebutted. This information collection is not subject to any common form or generalized reporting requirement, as it will necessarily be tailored to the circumstances presented by the ''controlling influence'' issue presented by a particular insurer. No assurance of confidentiality is provided, although applicable exemptions under the Freedom of Information Act could apply, *e.g.,* to any confidential business or trade secret material submitted.

Type of Review: Extension of a currently approved data collection.

Current Expiration Date: January 30, 2027.

Affected Public: Business/Financial Institutions.

Estimated Number of Respondents: 10.

Estimated Average Time per Respondent: 40 hours.

Estimated Total Annual Burden Hours: 400 hours.

[11] The burden estimate includes the assumption that the monthly report will need to be completed each month over a 48-month period as all claims are resolved. Each monthly report will take 2 hours during this 48-month period, resulting in 96 hours per each insurer, or 9,600 hours for all 100 insurers combined.
