SUPPLEMENTARY INFORMATION: The Department, in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. The Department is soliciting comments on the proposed information collection request (ICR) that is described below. The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Guaranty Agencies Security Self-assessment and Attestation.

OMB Control Number: 1845–0134.

Type of Review: Revision of a currently approved ICR.

Respondents/Affected Public: Private Sector.

Total Estimated Number of Annual Responses: 9.

Total Estimated Number of Annual Burden Hours: 5,058.

Abstract: This is a request for a revision of the approved information collection used by Federal Student Aid (FSA) to ensure that all data collected and managed by Guaranty Agencies (GAs) in support Federal student financial aid programs are secure. FSA continues to use a formal assessment program that ensures the GAs have security protocols in place to protect the confidentiality and integrity of data entrusted to FSA by students and families. This assessment will identify security deficiencies based on the federal standards described in the National Institute of Standards and Technology (NIST) publications.

Exelon Corporation v. PJM Interconnection, L.L.C.; Notice Establishing Comment Period

On November 4, 2026, PJM Interconnection, L.L.C. (PJM) filed a preliminary answer opposing fast-track processing and a motion requesting a four-week extension of time, until December 21, 2026, to answer the complaint filed by Exelon Corporation (Exelon) in the above-captioned proceeding. PJM argues that there is good cause to grant the extension because the additional time will permit PJM to incorporate into its response the outcome of the deliberations by the PJM Board, which will meet on November 17, 2026. PJM also argues that Exelon has failed to demonstrate any compelling reason for Commission action by the requested January 31, 2027, date and therefore a four-week extension of the answer deadline will not impair the Commission's ability to act.

On November 9, 2026, Exelon filed a motion for leave to answer and answer. Exelon supports an extension of the comment period to December 7, 2026, but argues that the scale of PJM's proposed extension is excessive for the narrow scope of the allegations it must answer. Exelon also urges the Commission to act sufficiently in advance of the May 2027 Base Residual Auction.

Upon consideration, notice is hereby given that PJM's motion for extension of time is granted and the deadline to file the answer to Exelon's complaint, comments, and interventions is December 21, 2026.

(Authority: 16 U.S.C. 824e)

Dated: November 13, 2026.

Carlos D. Clay,

Deputy Secretary.

Freeport LNG Development, L.P., FLNG Liquefaction, LLC, FLNG Liquefaction 2, LLC, FLNG Liquefaction 3, LLC, FLNG Liquefaction 4, LLC; Notice of Application and Establishing Intervention Deadline

Take notice that on October 30, 2026, Freeport LNG Development, L.P., FLNG Liquefaction, LLC, FLNG Liquefaction 2, LLC, FLNG Liquefaction 3, LLC, and FLNG Liquefaction 4, LLC (collectively, Freeport LNG), 333 Clay Street, Suite 5050, Houston, Texas 77002, filed an application under section 3 of the Natural Gas Act (NGA) and Part 153 of the Commission's regulations requesting an amendment to Freeport LNG's FERC authorizations in Docket Nos. CP12–29–000 and CP12–509–000 to install a flare gas recovery system at the existing natural gas pretreatment facility (PTF) of the Freeport LNG Liquefaction Project, located on Quintana Island, Brazoria County, Texas (PTF Flaring Reduction Project or Project). Freeport LNG states that the Project is designed to capture and reprocess gas currently being sent to the flare header in order to reduce flaring and the resultant air emissions at the pretreatment facility, all as more fully set forth in the application which is on file with the Commission and open for public inspection.
