SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act (PRA; 44 U.S.C. 3501 *et seq.*) and its implementing regulations at 5 CFR part 1320, all information collections require approval under the PRA. We may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB control number.

On June 12, 2023, we published in the **Federal Register** (88 FR 38358) an interim rule (RIN 1018–BH23) which announced our intention to request OMB approval of the information collections contained in this rule. In that interim rule, we solicited comments for 60 days on the information collections, ending on August 11, 2023. All comments received in response to the interim rule were addressed with the ICR for that interim rule submitted to OMB on October 20, 2023 and approved on December 4, 2023. The Service expects to publish a final rule by summer 2027.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again inviting the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: Due to delays in publishing the final rule under RIN 1018–BH23, ''Regulations to Implement the Big Cat Public Safety Act,'' pursuant to the Big Cat Public Safety Act (BCPSA; Pub. L. 117–243, December 20, 2022, 136 Stat. 2336), this submission serves as an interim renewal to prevent the information collection from lapsing into noncompliance. As required by 5 CFR 1320, we intend to publish this 30-day **Federal Register** notice to provide the public with an additional opportunity to comment on the information collection, supplementing the 60-day comment period associated with the interim rule (88 FR 38358; June 12, 2023). We are not implementing any changes to the information collection contained in the final rule at this time. Any revisions will be incorporated into the PRA submission when the final rule is published.

The BCPSA was signed into law on December 20, 2022. The purpose of the BCPSA is to amend the Lacey Act Amendments of 1981 (16 U.S.C. 3371–3378) to clarify provisions enacted by the Captive Wildlife Safety Act (CWSA; Pub. L. 108–191, December 19, 2003) and to further the conservation of certain wildlife species. ''Prohibited wildlife species'' (also referred to as ''big cats'') is defined as ''any live species of lion, tiger, leopard, cheetah, jaguar, or cougar or any hybrid of such species'' (16 U.S.C. 3371(h)). This includes any of the following species, or hybrids of any of these species: Lion (*Panthera leo*), tiger (*Panthera tigris*), leopard (*Panthera pardus*), snow leopard (*Uncia uncia*), clouded leopard (*Neofelis nebulosa*), jaguar (*Panthera onca*), cheetah (*Acinonyx jubatus*), cougar (*Puma concolor*) (50 CFR14.252).

The BCPSA built on and amended the CWSA by making it unlawful to import, export, transport, sell, receive, acquire, or purchase in interstate or foreign commerce, or in a manner substantially affecting interstate or foreign commerce, or breed or possess prohibited wildlife species (lions, tigers, leopards, snow leopards, clouded leopards, jaguars,
