estimated total case value increased by $0.5 to $2.0 billion.

This transmittal notifies the inclusion of the following MDE items: one (1) GPNTS. The following non-MDE items will also be included: Military Code (M-Code) units; and KIV–78A upgrade kits and units. The estimated total value of the new items is $6 million. The estimated total cost of the new MDE items is $3 million and does not result in a net increase in total cost of MDE. The estimated total MDE cost remains $0.5 billion. The estimated total cost of the new non-MDE items is $3 million and does not result in a net increase in total cost of non-MDE. The estimated total non-MDE cost remains $1.5 billion. The total case value does not increase and remains $2 billion.

(iv) *Significance:* This notification accounts for requested additional MDE and non-MDE items not included in the original notification. The inclusion of this MDE and non-MDE represents an increase in capability over what was previously notified. The proposed articles and services will support Australia's ability to effectively maintain its current force projection capability that enhances interoperability with U.S. forces.

(v) *Justification:* This proposed sale will support the foreign policy and national security objectives of the United States. Australia is one of our most important allies in the Western Pacific. The strategic location of this political and economic power contributes significantly to ensuring peace and economic stability in the Western Pacific. It is vital to the U.S. national interest to assist our ally in developing and maintaining a strong and ready self-defense capability.

(vi) *Sensitivity of Technology:*

GPNTS is the U.S. Navy's next generation Positioning, Navigation, and Timing (PNT) distribution system with a GPS based security architecture. GPNTS supports mission critical real time PNT data services for weapons, combat, navigation, communications, and other Command, Control, Communications, Computers, and Intelligence systems.

The KIV–78A is an advanced cryptographic hardware module used for military IFF systems. It provides secure Mode 5 and Mark XIIA combat identification capabilities for aircraft, ships, and ground units.

The M-Code is a GPS receiver that utilizes the military M-Code for enhanced security and anti-jamming capabilities. The GPS Miniature Precision Lightweight GPS Receiver Engine M-Code provides highly accurate positioning, navigation, and timing data in environments where GPS signals may be contested or denied.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

Arms Sales Notification

AGENCY: Defense Security Cooperation Agency (DSCA), Department of Defense (DoD).

ACTION: Arms sales notice.

SUMMARY: The DoD (referred to herein as ''the Department,'' ''Department of War'' or ''DoW'') is publishing the unclassified text of an arms sales notification.

FOR FURTHER INFORMATION CONTACT: Urooj Zahra at (703) 695–6233, *urooj.zahra.civ@mail.mil,* or *dsca.ncr.rsrcmgmt.list.cns-mbx@mail.mil.*

SUPPLEMENTARY INFORMATION: This 36(b) arms sales notification is published to fulfill the requirements of section 155 of Public Law 104–164 dated July 21, 1996. The following is a copy of the attached Transmittal 26–79, Policy Justification, and Sensitivity of Technology.

Dated: November 17, 2026.

Stephanie J. Bost,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Transmittal No. RSAT 26–79

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act; as amended

(i) *Prospective Purchaser:* Government of Argentina

Major Defense Equipment * ..	$ 12 million
Other	$128 million
TOTAL	$140 million

Funding Source: National Funds

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

Major Defense Equipment (MDE):

Four (4) UH–60L Black Hawk helicopters

Two (2) T700–GE–701D engines

Non-MDE:

The following non-MDE items will also be included: single or dual attitude heading reference system; APX–100 Identification Friend or Foe (IFF) transponder; APX–123 IFF transponder; AN/ARN–123 or AN/ARN–147 visual omnirange/instrument landing system receiver; AN/ARN–89 or AN/ARN–149 automatic direction finder radio receiver; AN/ARC–220 high-frequency radio; ARC–186 very high frequency radio; Garmin GTN–750 global positioning system; Cobham C–5000 multiband radio; EBC 406HM emergency locator transmitter; internal auxiliary fuel tank systems; fast rope insertion extraction system; rescue hoist; rescue hoist equipment sets; cargo hook; Bambi bucket; maintenance and aircrew training devices/software; helmets; transportation; organizational equipment; spare and repair parts; support equipment; tools and test equipment; technical data and publications; personnel training and training equipment; U.S. Government and contractor engineering; technical and logistics support services; and other related elements of logistics and program support.

(iv) *Military Department:* Army (AR–B–UZI)

(v) *Prior Related Cases, if any:* None

(vi) *Sales Commission; Fee, etc., Paid, Offered, or Agreed to be Paid:* None known at this time

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex

(viii) *Date Report Delivered to Congress:* September 10, 2026

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Argentina—UH–60L Blackhawk Helicopters

The Government of Argentina has requested to buy four (4) UH–60L Black Hawk helicopters; and two (2) T700–GE–701D engines. The following non-major defense equipment items will also be included: single or dual attitude heading reference system; APX–100 Identification Friend or Foe (IFF) transponder; APX–123 IFF transponder; AN/ARN–123 or AN/ARN–147 visual omnirange/instrument landing system receiver; AN/ARN–89 or AN/ARN–149 automatic direction finder radio receiver; AN/ARC–220 high-frequency radio; ARC–186 very high frequency radio; Garmin GTN–750 global positioning system; Cobham C–5000

multiband radio; EBC 406HM emergency locator transmitter; internal auxiliary fuel tank systems; fast rope insertion extraction system; rescue hoist; rescue hoist equipment sets; cargo hook; Bambi bucket; maintenance and aircrew training devices/software; helmets; transportation; organizational equipment; spare and repair parts; support equipment; tools and test equipment; technical data and publications; personnel training and training equipment; U.S. Government and contractor engineering; technical and logistics support services; and other related elements of logistics and program support. The estimated total cost is $140 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a major non-NATO Ally that is a force for political stability and economic progress in South America.

The proposed sale will improve Argentina's capability to meet current and future threats by providing the additional capacity to conduct Border security, counter-transnational crime, and humanitarian assistance/disaster response. Argentina will have no difficultly absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Sikorsky, a Lockheed Martin Company, located in Stratford, CT. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Argentina.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 26–79

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) Sensitivity *of Technology:*

1. The UH–60L aircraft is a medium lift, four-bladed helicopter which includes two (2) T–701D engines.

a. The AN/ARC–220 very high frequency-frequency modulation, single channel ground and airborne radio system, airborne radio is a reliable, field-proven voice and data communication system used with the UH–60L.

b. The AN/APX–123, Identification Friend or Foe transponder is a space diversity transponder installed on various military platforms. When installed in conjunction with platform antennas and remote-control unit (or other appropriate control unit), the transponder provides identification, altitude, and surveillance reporting in response to interrogations from airborne, ground-based, and/or surface interrogators. No Mode-4, Mode-5, or Mode-S is installed in the equipment with a crypto device.

2. The highest level of classification of defense articles, components, and services included in this potential sale is UNCLASSIFIED.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Argentina can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles, technical data, and services listed in this transmittal have been authorized for release and export to the Government of Argentina.

Transmittal No. 26–1J

REPORT OF ENHANCEMENT OR UPGRADE OF SENSITIVITY OF TECHNOLOGY OR CAPABILITY (SEC. 36(B)(5)(C), AECA)

(i) *Prospective Purchaser:* Republic of Korea

(ii) *Sec. 36(b)(1), AECA Transmittal No.:* 19–48

Date: July 29, 2019

Implementing Agency: Air Force

(iii) *Description:* On July 29, 2019, Congress was notified by congressional certification transmittal number 19–48 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of Contractor Logistics Support; program management; training for pilots maintenance, logistics and communications personnel; depot and organizational level maintenance; minor modifications and upgrades; spares and repair/return parts; operational flight support; program analysis; publications and technical documentation; U.S. Government and contractor technical and logistics services; and other related elements of logistics and program support for RQ–4 Global Hawks. The estimated total cost was $950 million. There was no Major Defense Equipment (MDE) associated with this sale.

On July 15, 2022, Congress was notified by congressional certification transmittal number 0K–22 of the possible sale, under section 36(b)(5)(A) of the Arms Export Control Act of the addition of the following MDE items: three (3) Kearfott Inertial Navigation System/Global Positioning System units. The estimated total value of the MDE items was $0.472 million. The total estimated case value remained $950 million.

This transmittal notifies the inclusion of the following non-MDE items: aircraft components, parts, and accessories; personnel training and training equipment; and other related elements of logistics and program support. The estimated total value of the new items is $399 million. No additional MDE items will be added and will remain at $0.472 million. The estimated total case value will increase by $399 million to a revised $1.349 billion.
