Expiration Date of Approval: January 31, 2027.

Type of Request: Request for a revision of a currently approved information collection.

Abstract: The Agricultural Marketing Act of 1946 (7 U.S.C. 1621–1627), as amended, authorizes the Secretary of Agriculture to provide timely nationwide coverage of prices, supply, demands, trends, movement, and other pertinent information affecting the trading of livestock, poultry, meat, eggs, grain, and their related products, as well as locally produced and marketed products. The market reports compiled and disseminated by the Livestock, Poultry, and Grain Market News (LPGMN) Division provide current, unbiased, and factual information to all stakeholders in the U.S. agricultural industry. Market News reports assist producers, processors, wholesalers, retailers, and others to make informed production, purchasing, and sales decisions. LPGMN reports also promote orderly marketing by placing buyers and sellers on a more equal negotiation basis.

LPGMN reporters communicate with buyers and sellers of livestock, poultry, meat, eggs, grain, local products, and their respective commodities on a daily basis to accomplish the Division's mission. This communication and information gathering is accomplished through the use of telephone conversations, facsimile transmissions, face-to-face meetings, and email messages. The information provided by respondents underpins Market News reporting, which must be timely, accurate, unbiased, and continuous if it is to be meaningful to the industry. AMS collects information on price, supply, demand, trends, movement, and other information regarding livestock, poultry, meat, grain, eggs, local products, and their respective commodities.
