impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. For more information about motions to intervene, refer to the FERC website at *https://www.ferc.gov/resources/guides/how-to/intervene.asp.*

There are two ways to submit your motion to intervene. In both instances, please reference the Project docket number CP27–13–000 in your submission.

(1) You may file your motion to intervene by using the Commission's eFiling feature, which is located on the Commission's website (*www.ferc.gov)* under the link to Documents and Filings. New eFiling users must first create an account by clicking on ''eRegister.'' You will be asked to select the type of filing you are making; first select ''General'' and then select ''Intervention.'' The eFiling feature includes a document-less intervention option; for more information, visit *https://www.ferc.gov/docs-filing/efiling/document-less-intervention.pdf.;* or

(2) You can file a paper copy of your motion to intervene, along with three copies, by mailing the documents to the address below. Your motion to intervene must reference the Project docket number CP27–13–000.

To file via USPS: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

To file via any other courier: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

The Commission encourages electronic filing of motions to intervene (option 1 above) and has eFiling staff available to assist you at (202) 502–8258 or *FercOnlineSupport@ferc.gov.*

Protests and motions to intervene must be served on the applicant either by mail at: Grace Pietro, Associate Regulatory Analyst, Eastern Gas Transmission and Storage, Inc., 10700 Energy Way, Glen Allen, VA 23060 or by email (with a link to the document) at *Grace.Pietro@bhegts.com.* Any subsequent submissions by an intervenor must be served on the applicant and all other parties to the proceeding. Contact information for parties can be downloaded from the service list at the eService link on FERC Online. Service can be via email with a link to the document.

All timely, unopposed [9] motions to intervene are automatically granted by operation of Rule 214(c)(1).[10] Motions to intervene that are filed after the intervention deadline are untimely, and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules and Regulations.[11] A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic) of all documents filed by the applicant and by all other parties.

Tracking the Proceeding

Throughout the proceeding, additional information about the project will be available from OPP at (202) 502–6595 or on the FERC website at *www.ferc.gov* using the ''eLibrary'' link as described above. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. For more information and to register, go to *www.ferc.gov/docs-filing/esubscription.asp.*

[Docket No. CP27–18–000]

Enable Gas Transmission, LLC; Notice of Request Under Blanket Authorization and Establishing Intervention and Protest Deadline

Take notice that on November 11, 2026, Enable Gas Transmission, LLC (EGT), 1300 Main Street, Houston, Texas 77002, filed in the above-referenced docket a prior notice request pursuant to sections 157.205 and 157.208(f)(2) of the Commission's regulations under the Natural Gas Act (NGA), and EGT's blanket certificate issued in Docket No. CP82–384–000, as amended in Docket No. CP82–384–001, for authorization to permanently reduce the maximum allowable operating pressure (MAOP) of five existing pipeline delivery laterals designated as Line Nos. AM–69, AM–25, AM–98, AM–107, and KM–43. The facilities are located in Saline, Dallas, and Cleveland Counties, Arkansas respectively. (2026–Q4 MAOP Reduction Project). The project will allow EGT to maintain compliance with Pipeline and Hazardous Materials Safety Administration regulations and provide more efficient operations of the delivery facilities. The proposed MAOP reductions will also allow EGT to avoid unnecessary expenses associated with hydrotesting, lateral pipe replacement, and other measures that would otherwise be required to maintain the existing MAOP. No construction or modification of facilities is proposed, and therefore, no construction costs are associated with the proposed MAOP reductions, all as more fully set forth in the request, which is on file with the Commission and open to public inspection.
