[Project No. 2943–007]

The City of Columbus, Ohio; Notice of Intent To Prepare an Environmental Assessment

On July 6, 2026, the City of Columbus, Ohio (exemptee) filed an application for surrender of exemption from licensing for the O'Shaughnessy Dam Hydroelectric Facility Project No. 2943. The project is located on the Scioto River, in Delaware County, Ohio. The project does not occupy federal lands.

The exemptee proposes to surrender its exemption from licensing and decommission the project by sealing off the intakes and backfilling all major components with cementitious materials and securing the site by placing fill within the existing structure walls. The dam and reservoir would remain in place to provide the water supply for the City of Columbus, Ohio.

On September 28, 2026, the Commission issued a Notice of Application for Surrender of Exemption Accepted for Filing and Soliciting Comments, Motions to Intervene, and Protest. No stakeholders submitted comments.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) under the National Environmental Policy Act (42 U.S.C. 4321 *et seq)* for the project.[1] Commission staff plans to issue an EA by June 25, 2027.

Commission staff may revise the schedule as appropriate. Commission staff will issue the EA for a 30-day comment period and will review all comments filed on the EA and consider them in the Commission's final decision on the proceeding.
