related to the determination of a dominant industry, which is used to ensure DoD is capturing relevant data compared to the workforce itself.

7. *Explanation of why the committee/subcommittee is essential to the conduct of agency business:* The DoD Wage Committee's work is directed by 5 CFR 532.209, 532.227, 532.231(e), and 532.243 and the Office of Personnel Management Operating Manual, Federal Wage System, Appropriated and Nonappropriated Funds, S3–2 Agency Level. The DoD Wage Committee shall: (a) consider and make recommendations to the DoD on any matter involved in developing specifications for a wage survey on which the DoD proposes not to accept the recommendations of a local wage survey committee and any matters on which a minority report has been filed; (b) consider the survey data, upon completion of a wage survey, of the local wage survey committee's report and recommendations, and the statistical analyses and proposed pay schedules derived from them, as well as any other data or recommendations pertinent to the survey, and recommends wage schedules to the pay-fixing authority; and (c) have a majority of the DoD Wage Committee to constitute a decision and recommendation of the DoD Wage Committee, but a member of the minority may file a report with the DoD Wage Committee's recommendations. Meetings are scheduled to be held approximately 24 times a year on a bi-weekly schedule to receive, review, and consider wage survey specifications; wage survey data; local wage survey committee reports and recommendations; and to approve wage schedule adjustments. Schedules are then issued on the same schedule throughout the year. The Committee is also critical in guaranteeing labor-management involvement in determining the wage schedules. Without these committee meetings, wage surveys would not occur and pay schedule adjustments would cease for the entire Federal Wage System (FWS) population.
