The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

The NRC has prepared a draft EIS as part of its environmental review of Orano's application for a license to construct and operate a uranium enrichment facility on a 188-acre portion of 624 acres of undeveloped land on a former U.S. Department of Energy site in Roane County, Tennessee. This draft EIS assesses the potential environmental impacts of the Orano license application and the associated proposal to construct, operate, and decommission the enrichment facility, as well as the no-action alternative to the proposed action (*i.e.,* denying the license application).

The proposed Federal action is the issuance of a license that would authorize Orano to receive title to, own, acquire, receive, possess, use, transfer, and/or deliver source material, special nuclear material, and byproduct material as specified in the license for the purposes of constructing, and then operating for up to 40 years, a facility that uses gaseous centrifuge technology to enrich uranium. The facility would be authorized to produce uranium enriched up to 10 percent by weight in the isotope uranium-235 for use in nuclear fuel applications.

The draft EIS contains the NRC staff's preliminary analysis of the environmental impacts of the proposed action and the no-action alternative to the proposed action. The draft EIS also contains the NRC staff's preliminary recommendation on the proposed action, which is based on the following factors: The NRC staff's review of Orano's environmental report (included as part of the Orano license application) and associated responses from Orano to request from the NRC staff for clarifying information; NRC staff's review of comments received as part of the scoping process; NRC staff's communications with Federal, State, and local agencies, as well as Tribal officials; and the NRC staff's independent environmental review.

The NRC staff's preliminary recommendation, unless safety issues mandate otherwise, is that the NRC issue the license to construct and operate the proposed enrichment facility to Orano.

Authority: 42 U.S.C. 2011 *et seq.*

Dated: November 23, 2026.

For the Nuclear Regulatory Commission.

Joseph O'Hara,

Acting Chief, Environmental Review Materials Branch, Division of Storage of Fuel, Transportation, and Environmental, Office of Nuclear Material Safety, and Safeguards.

PEACE CORPS

Information Collection Request; Submission for OMB Review

AGENCY: Peace Corps.

ACTION: 60-Day notice and request for comments.

SUMMARY: The Peace Corps is seeking Office of Management and Budget (OMB) approval for the information collection described in this notice. In accordance with the Paperwork Reduction Act of 1995, we are requesting comments on this collection from all interested individuals and organizations. The purpose of this notice is to allow 60 days for public comment in the **Federal Register** preceding submission to OMB.

DATES: Submit comments on or before January 25, 2027.

ADDRESSES: Comments should be addressed to James Olin, Supervisory Government Information Specialist. Mr. Olin may be contacted by email at *pcfr@peacecorps.gov* or by telephone at (202) 692–2507. Email comments must be made in text and not in attachments.

FOR FURTHER INFORMATION CONTACT: James Olin, Peace Corps, at (202) 692–2507, or *pcfr@peacecorps.gov.*

SUPPLEMENTARY INFORMATION:

Title: Peace Corps Application.

OMB Control Number: 0420–0005.

Type of Request: Renewal of a currently approved collection with change.

Affected Public: Individuals or households.

Respondents Obligation to Reply: Voluntary.

Burden to the Public:

a. *Estimated Number of Applicants:* 16,500.

b. *Frequency of Response:* One time.

c. *Completion Time:* 55–60 minutes.

d. *Annual Burden Hours:* 16,500 hours.

General Description of Collection: The information collected by the Peace Corps Application is used by the Peace Corps to collect essential information from individual applicants, including technical and language skills, and availability for Peace Corps service. The information is used by the Peace Corps Office of Volunteer Entry and Return (OVER) in its assessment of an individual's eligibility and qualifications to serve as a Peace Corps Volunteer. The information collected through the Peace Corps Application will be used by OVER staff to support the Peace Corps selection process.

Request for Comment: Peace Corps invites comments on whether the proposed collection of information is necessary for proper performance of the functions of the Peace Corps, including whether the information will have practical use; the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodogy and information to be collected; and, ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

This notice is issued in Washington, DC.

James Olin,

Supervisory Government Information Specialist.
