Airport, AK, to contain three private-use special instrument flight procedures.

The newly established Class E airspace encompasses a 3.9-mile radius west and a 7-mile radius east, both bounded by a north-south line centered approximately 250 feet west of the airport reference point to contain IFR aircraft transitioning to or from Trader Bay Production Airport. The airspace contains arriving aircraft descending below 1,500 feet above the surface while on the Area Navigation (RNAV) (Global Positioning System [GPS]) M Runway (RWY) 17 and RNAV (GPS) M RWY 35 approach procedures and departing aircraft while on the Special Obstacle Departure Procedures until the aircraft reaches 1,200 feet above the surface.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a ''significant regulatory action'' under Executive Order 12866; (2) is not a ''significant rule'' under DOT Order 2100.6B, ''Rulemaking and Guidance Procedure'' (March 10, 2025); and (3) is expected to result in, at most, de minimis costs from compliance with applicable operating requirements or minor flight rerouting for operators choosing to navigate around the controlled airspace. Since these amendments are routine and the expected impact to operators is de minimis, the FAA certifies that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act (42 U.S.C. 4321, *et seq.*) and in accordance with FAA Order 1050.1G, ''FAA National Environmental Policy Act Implementing Procedures,'' paragraph B–2.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

[Docket No. 261123–0006]

RIN 0694–AK59

Additions to the Entity List

AGENCY: Bureau of Industry and Security, Department of Commerce.

ACTION: Final rule.

SUMMARY: In this rule, the Bureau of Industry and Security (BIS) amends the Export Administration Regulations (EAR) by adding 7 entities to the Entity List, under the destinations of Malaysia, Singapore, and Thailand. These entities have been determined by the U.S. Government to be acting contrary to the national security or foreign policy interests of the United States.

DATES: This rule is effective November 23, 2026.

FOR FURTHER INFORMATION CONTACT: Chair, End-User Review Committee, Office of the Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, Phone: (202) 482–5991, Email: *ERC@bis.doc.gov.*

SUPPLEMENTARY INFORMATION:

Background

The Entity List

The Entity List (supplement no. 4 to part 744 of the EAR (15 CFR parts 730–774)) identifies entities for which there is reasonable cause to believe, based on specific and articulable facts, that the entities have been involved, are involved, or pose a significant risk of being or becoming involved in activities contrary to the national security or foreign policy interests of the United States, pursuant to § 744.11(b). The EAR imposes additional license requirements on, and limits the availability of, most license exceptions for exports, reexports, and transfers (in-country) when a listed entity is a party to the transaction, as described in § 748.5(c) through (f) of the EAR. The license review policy for each listing is identified in the ''License Review Policy'' column on the Entity List, and the impact on the availability of license exceptions is described in the relevant **Federal Register** document that added the listing to the Entity List. BIS amends the Entity List pursuant to parts 744 (Control Policy: End-User and End-Use Based) and 746 (Embargoes and Other Special Controls) of the EAR.

The End-User Review Committee (ERC), composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, where appropriate, the Treasury, makes all decisions regarding additions to, removals from, or other modifications to the Entity List. The ERC makes all decisions to add an entry to the Entity List by majority vote and makes all decisions to remove or modify an entry by unanimous vote.

Entity List Decisions

Additions to the Entity List

The ERC determined to add the following 7 entities to the Entity List: MSFusion Sdn. Bhd., PT Megaspeed International, and Speedmatrix Sdn Bhd, under the destination of Malaysia; Apex Enterprise Solutions (Singapore) Private Limited, Megaspeed International Pte. Ltd, and Swiftdata

Pte. Ltd., under the destination of Singapore; and Megaspeed (Thailand) Co., Ltd. under the destination of Thailand. These additions are being made because of the significant risk of these entities being or becoming involved in the diversion of advanced computing commodities to unauthorized end uses or end users. These entities will be added with a license requirement for all items subject to the EAR and licenses will be reviewed under a presumption of denial.

For the reasons described above, this final rule adds the following 7 entities, including aliases where appropriate, to the Entity List:

Malaysia

- MSFusion Sdn. Bhd.;
- PT Megaspeed International; and
- Speedmatrix Sdn Bhd.

Singapore

- Apex Enterprise Solutions (Singapore) Private Limited;
- Megaspeed International Pte. Ltd.; and
- Swiftdata Pte. Ltd.

Thailand

- Megaspeed (Thailand) Co., Ltd.

Savings Clause

For the changes being made in this IFR, shipments of items removed from eligibility for a License Exception or export, reexport, or transfer (in-country) without a license (NLR) as a result of this regulatory action that were en route aboard a carrier to a port of export, reexport, or transfer (in-country), on November 23, 2026, pursuant to actual orders for export, reexport, or transfer (in-country) to or within a foreign destination, may proceed to that destination under the previous eligibility for a License Exception or export, reexport, or transfer (in-country) without a license (NLR), provided the export, reexport, or transfer (in-country) is completed no later than December 23, 2026.

Export Control Reform Act of 2018

On August 13, 2018, the President signed into law the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which included the Export Control Reform Act of 2018 (ECRA) (50 U.S.C. 4801–4852). ECRA provides the legal basis for BIS's principal authorities and serves as the authority under which BIS issues this rule. In particular, Section 1753 of ECRA (50 U.S.C. 4812) authorizes the regulation of exports, reexports, and transfers (in-country) of items subject to U.S. jurisdiction. Further, Section 1754(a)(1)–(16) of ECRA (50 U.S.C. 4813(a)(1)–(16)) authorizes, inter alia, establishing and maintaining a list of foreign persons and end uses that are determined to be a threat to the national security and foreign policy of the United States pursuant to the policy set forth in Section 1752(2)(A), and restricting exports, reexports, and in-country transfers of any controlled items to any foreign person or end use so listed; apprising the public of changes in policy, regulations, and procedures; and any other action necessary to carry out ECRA that is not otherwise prohibited by law. Pursuant to Section 1762(a) of ECRA (50 U.S.C. 4821(a)), these changes can be imposed in a final rule without prior notice and comment.

Rulemaking Requirements

1. This rule has been determined to be not significant for purposes of Executive Order 12866. This rule is exempt from the requirements of E.O. 14192 because it is being issued with respect to a national security function of the United States, per section 5(a) of E.O. 14192.

2. Notwithstanding any other provision of law, no person is required to respond to or be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.,* (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves an information collection approved by OMB under control number 0694–0088, Simplified Network Application Processing System. BIS does not anticipate a change to the burden hours associated with this collection as a result of this rule. Information regarding the collection, including all supporting materials, can be accessed at *https://www.reginfo.gov/public/do/PRAMain.*

3. This rule does not contain policies with federalism implications as that term is defined in Executive Order 13132.

4. Pursuant to Section 1762 of ECRA, 50 U.S.C. 4821, this action is exempt from the Administrative Procedure Act (APA) 5 U.S.C. 553 requirements for notice of proposed rulemaking, opportunity for public participation, and delay in effective date.

5. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.,* are not applicable. Accordingly, no regulatory flexibility analysis is required, and none has been prepared.
