DOE may issue an ALRD as described herein, may issue an ALRD that is significantly different than what is described herein, or may not issue an ALRD at all. Any information contained within this NOI is subject to change.

No concept papers, letters of intent, or full applications are being requested nor accepted in response to this NOI. The DOE is not seeking comments on the information in this notice and will not respond to questions concerning this Notice. Upon release of an ALRD, an avenue for potential applicants to submit questions will be provided.

Signing Authority

This document of the Department of Energy was signed on November 20, 2026, by Catherine Jereza, Assistant Secretary, Office of Electricity, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on November 20, 2026.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

DEPARTMENT OF ENERGY

National Nuclear Security Administration

Molybdenum-99 Stakeholders Meeting

AGENCY: National Nuclear Security Administration (NNSA), Department of Energy (DOE).

ACTION: Notice of open meeting.

SUMMARY: This notice announces an NNSA Molybdenum-99 (Mo-99) Stakeholders Meeting. This meeting will be held virtually.

DATES: Thursday, December 3, 2026, 10:00–11:00 a.m. EST.

ADDRESSES: The meeting will be held virtually. Attendees can participate via webcast using *Zoomgov.com.* Instructions for *Zoomgov.com,* as well as any updates to meeting times or agenda, will be posted at *https://mo99.ne.anl.gov/2026stakeholders/.* Attendance also requires registration through this link.

FOR FURTHER INFORMATION CONTACT: Send requests for additional information to Brett Cox, Office of Reactor Conversion and Uranium Supply: *brett.cox@nnsa.doe.gov;* (202) 287–5191.

SUPPLEMENTARY INFORMATION:

Purpose of the Meeting

Section 3173(a) of the *American Medical Isotopes Production Act of 2012* (AMIPA) (Pub. L. 112–239, Division C, Title XXXI, Subtitle F, codified at 42 U.S.C. 2065(a)) directs the Secretary of Energy to carry out a technology-neutral program to support the domestic production of the medical isotope molybdenum-99 (Mo-99) without the use of highly enriched uranium and to develop a program plan and annually update the program plan through public workshops. NNSA satisfies this requirement by holding a Mo-99 Stakeholders Meeting.

Tentative Agenda

- NNSA Mo-99 Program Updates (20 minutes).
- Open Discussion and Q&A.

Public Participation

The meeting is open to the public. Attendees can request registration for virtual attendance no later than 5 p.m. EST on Tuesday, December 1, 2026, via a link that will be posted at *https://mo99.ne.anl.gov/2026stakeholders/.* NNSA welcomes the participation of the public at the Mo-99 Stakeholders Meeting and will make every effort to accommodate persons with disabilities or special needs. If you require special accommodations due to a disability, please include that information in your online registration submission.

Signing Authority

This document of the Department of Energy was signed on November 23, 2026, by Scott W. Pappano, Principal Deputy Administrator, National Nuclear Security Administration, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on November 23, 2026.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

Federal Energy Regulatory Commission

[Docket No. IC27–2–000]

Commission Information Collection Activities (FERC–153); Comment Request; Extension

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of information collection and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. 3506(c)(2)(A), the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the currently approved information collection FERC–153, *Generic Clearance for the Collection of Qualitative Feedback on Commission Service Delivery* (OMB Control No 1902–0293). There are no proposed changes to the reporting requirements.

DATES: Comments on the collections of information are due January 25, 2027.

ADDRESSES: Please submit comments via email to *DataClearance@FERC.gov.* You must specify Docket No. (IC27–2–000) and the FERC Information Collection number (FERC–153) in your email. If you are unable to file electronically, comments may be filed by USPS mail or by hand (including courier) delivery:

- *Mail via U.S. Postal Service only, addressed to:* Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE, Washington, DC 20426.
- *Hand (including courier) Delivery to:* Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852.

Docket: To view comments and issuances in this docket, please visit *https://elibrary.ferc.gov/eLibrary/search.*

FOR FURTHER INFORMATION CONTACT: Kayla Williams may be reached by email at *DataClearance@FERC.gov,* or by telephone at (202) 502–6468.

SUPPLEMENTARY INFORMATION:

Title: FERC–153, Generic Clearance for the Collection of Qualitative Feedback on Commission Service Delivery

OMB Control No.: 1902–0293

Type of Request: Three-year extension of the FERC–153 information collection requirements with no changes to the generic information collection.

Abstract: This information collection provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback, we mean data that provides useful insights on perceptions and opinions but are not statistical surveys that yield quantitative results that can be generalized to the population of study. The feedback provides insights into customer or stakeholder perceptions, experiences, and expectations, as well as an early warning of service issues and helps focus attention on areas where communication, training, or changes in operations might improve delivery of products or services. This collection allows for ongoing, collaborative and actionable communications between FERC and its customers and stakeholders. It also allows feedback to contribute directly to the improvement of program management. The solicitation of feedback will target topics such as: timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Commission's services will be unavailable.

The Commission will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low burden for respondents (based on considerations of total burden hours, total number of respondents, or burden hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- The collection is targeted at the solicitation of opinions from respondents who have experience with the program or may have experience with the program soon;
- Personal identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered is intended to be used only internally for general service improvement and program management purposes and is not intended for release outside of the Commission (if released, the Commission must indicate the qualitative nature of the information);
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalized to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study.

As a general matter, this information collection will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Type of Respondents/Affected Public: Individuals and households; Businesses or other for-profit and not-for-profit organizations; State, Local, or Tribal government.

Estimate of Annual Burden: [1] The Commission estimates the annual public reporting burden for the information collection as:

	Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden & cost per response [2]	Total annual burden hours & total annual cost	Cost per respondent ($)
	(1)	(2)	(1) * (2) = (3)	(4)	(3) * (4) = (5)	(5) ÷ (1)
Requirement 1	27,000	1	27,000	10 min $17	4,500 hrs. $459,000	17
Total			27,000		4,500 hrs. 459,000	

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Dated: November 20, 2026.

Debbie-Anne A. Reese,

Secretary.

[FR Doc. 2026–24005 Filed 11–24–26; 8:45 am]

BILLING CODE 6717–01–P

[1] The Commission defines burden as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, reference 5 Code of Federal Regulations 1320.3.

[2] FERC estimates that industry hourly costs are similar to the Commission FY 2026 average salary plus benefits of $213,003 per year (or $102/hour).
