Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276–0361.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: 988 Cooperative Agreements Monitoring Program (OMB No. 0930–0394)—Revision

The Substance Abuse and Mental Health Services Administration (SAMHSA) is seeking Office of Management and Budget (OMB) approval for the revision to the information collection activities for monitoring all of SAMHSA's 988 Cooperative Agreements.

In order to help meet the standards and requirements set forth in legislation, ongoing communication of key outcomes within this OMB request must be received and reviewed to ensure connection and quality of care through 988. A revision is needed to update and streamline existing materials, add new, and remove discontinued instruments to support the 988 Suicide and Crisis Lifeline network administrator grants, the 988 state and territory grant program, the Crisis Center Follow-up grant program, and the 988 Tribal Response grant program.

Congress designated 988 in 2020 and the National Suicide Prevention Lifeline transitioned to the 3-digit number in July 2022. As a part of the federal government's commitment to addressing the mental health crisis in America, unprecedented federal resources have been invested to expand crisis centers in support of 988. In 2023 appropriations funding and again in 2026 appropriations funding, Congress called for enhanced program evaluation, including performance measures to assess program response and improve readiness and performance of the service, including review of each contact to ensure timely connection of service and quality provision in line with evidence-based care. Congress called for enhanced program evaluation, including performance measures to assess program response and improve readiness and performance of the service, including review of each contact to ensure timely connection of
