SUPPLEMENTARY INFORMATION: In the **Federal Register** of October 28, 2026, FDA published a notice with a 30-day comment period to request comments on the draft guidance for industry titled ''Individualized Human Genome Editing Products: Considerations for BLA Submission and Postapproval Management.'' The Agency has received two requests for a 30-day extension of the comment period. The requests conveyed concern that the current 30-day comment period does not allow sufficient time to develop a meaningful or thoughtful response to the draft guidance.

FDA has considered the request and is extending the comment period for 30 days, until December 28, 2026. The Agency believes that a 30-day extension allows adequate time for interested persons to submit comments on this draft guidance.

Grace R. Graham,

Deputy Commissioner for Policy, Legislation, and International Affairs.
