SUPPLEMENTARY INFORMATION:

Title: Grant and Agreement Applications and Reporting for Activities in International Research, Extension, and Teaching.

OMB Number: 0551–0057.

Expiration Date of Approval: Three years from the approval date.

Type of Request: Extension of a currently approved information collection.

Abstract: Section 503 of the Agricultural Trade Expansion Act of 1978 (7 U.S.C. 5693), as implemented via 7 CFR 2.601, empowers the Foreign Agricultural Service (FAS) to assist the Secretary of Agriculture by, inter alia, providing agricultural technical assistance and training; and by carrying out other legislated programs, including international agricultural research, extension, and teaching as authorized by 7 U.S.C. Chapter 64). FAS currently operates seven (7) distinct grant and cooperative agreement programs under both general and specific authorities provided by this chapter, of which four (4) are expected to make new awards in the next three years.

In order to ensure that the most meritorious projects are supported, that funds are supporting activities that are advancing the public purpose prescribed in law, and to validate compliance with governmentwide and program-specific requirements, FAS collects a variety of information related to each activity. Responses are voluntary, however, a non-respondent will not be considered for participation in the program. This describes the information to be collected from the recipients of these grants and cooperative agreements. A separate information collection approval exists related to beneficiaries of these programs.

Estimate of Burden: The public reporting burden for each respondent resulting from information collection under these grant programs varies in direct relation to the number of voluntary applications that each respondent submits.

Respondents: State agricultural experiment stations, State cooperative extension services, all colleges and universities, other research or education institutions and organizations, Federal and private agencies and organizations, individuals, and any other contractor or recipient, either foreign or domestic.

Estimated Number of Respondents: 35 per annum.

Estimated Time per Respondent: 15.27 hours per annum.

Estimated Total Annual Burden on Respondents: 531.5 hours per annum.

Copies of this information collection can be obtained from Kenneth Vernon, the Agency Information Collection Coordinator, at *kenneth.vernon@usda.gov.*

Request for Comments: Send comments regarding (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information including validity of the methodology and assumption used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be available without change, including any personal information provided, for inspection online at *http://www.regulations.gov* and at the mail address listed above between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays.

Comments will be summarized and included in the submission for Office of Management and Budget approval.

Persons with disabilities who require an alternative means for communication of information (Braille, large print, audiotape, etc.) should contact *FAS-ReasonableAccommodation@usda.gov.*

SUPPLEMENTARY INFORMATION:

Title: Foreign Market Development Program and Market Access Program.

OMB Number: 0551–0026.

Expiration Date of Approval: October 31, 2025.

Type of Request: Extension of a currently approved information collection.

Abstract: The primary objective of the FMD and MAP programs is to encourage and aid in the creation, maintenance, and expansion of commercial export markets for U.S. agricultural products through cost–share assistance to eligible trade organizations. The programs are a cooperative effort between CCC and eligible trade organizations.

Currently, there are approximately 70 organizations participating directly in the programs with activities in more than 100 countries.

Prior to initiating program activities, each FMD or MAP participant must submit a detailed application to FAS which includes an assessment of overseas market potential; market or country strategies, constraints, goals, and benchmarks; proposed market development activities; estimated budgets; and performance measurements. Each FMD or MAP participant is also responsible for submitting: (1) reimbursement claims for approved costs incurred in carrying out approved activities, (2) an end–of–year contribution report, (3) travel reports, and (4) progress reports/evaluation studies. FMD or MAP participants must maintain records on all information submitted to FAS. The information collected is used by FAS to manage, plan, evaluate, and account for government resources. The reports and records are required to ensure the proper and judicious use of public funds.

Estimate of Burden: Public reporting burden for this collection of information is currently estimated to average 21 hours per response.

Type of Respondents: Nonprofit agricultural trade organizations, non-profit state regional trade groups, agricultural cooperatives, and state agencies.

Estimated Number of Respondents: 67.

Estimated Number of Responses per Respondent: 64.

Estimated Total Annual Burden on Respondents: 89,324 hours.

Copies of this information collection can be obtained from Kenneth Vernon, the Agency Information Collection Coordinator, at *Kenneth.Vernon@usda.gov.*

Request for Comments: Send comments regarding (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information including validity of the methodology and assumption used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.
