The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on May 21, 2026, 91 FR 29988.

1. *The title of the information collection:* Suspicious Activity Reporting Using the Protective Web Server.

Entities that may voluntarily send reports include, but are not limited to: applicants for 10 CFR part 50 or 52 licenses; holders of construction permits under 10 CFR part 50; fuel fabrication facilities; uranium conversion/deconversion facilities; and holders of certificates of compliance under 10 CFR part 72.

unmanned aircraft flyovers) and actions taken by the reporting organization. This information is shared with authorized nuclear industry officials and Federal, State, and local government agencies using the Protected Web Server. Information provided by licensees is considered OFFICIAL USE ONLY and is not made public.

II. Discussion

By letters dated September 27, 2026 (ADAMS package Accession No. ML26273A126), GeM submitted to the NRC an application for a license that would be used by GeM to construct and operate an enrichment facility in McCracken County, Kentucky, to be known as the General Matter Paducah Enrichment Facility (GMPEF). The requested license would authorize GeM to possess and use source material, special nuclear material, and byproduct material for the purposes of constructing, and then operating a facility for up to 40 years that enriches uranium.

The site proposed for the GMPEF is situated on approximately 107 acres of land leased from the U.S. Department of Energy Paducah Site, which includes the former Paducah Gaseous Diffusion Plant. This GeM Land Parcel, zoned for heavy industrial land use, spans between latitudes (North) 37°5′48.9″ and 37°6′13.8″, and between longitudes (west) 88°49′10.9″ and 88°48′20.5″, and is approximately 10 miles west of the City of Paducah in McCracken County, Kentucky. The GMPEF site is bordered by the Paducah Site to the north, Hobbs Road to the west, and Dyke Road to the south and east. The applicant's environmental report can be found in ADAMS under Accession No. ML26273A150.

The NRC staff completed an acceptance review of GeM's license application and determined it contains sufficient information for the NRC to conduct a detailed technical review. An acceptance letter was issued to GeM on October 29, 2026 (ADAMS Accession No. ML26300A017). Pursuant to 36 CFR
