DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Coastal Barrier Improvement Act of 1990; Amendments to the Coastal Barrier Resources System

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: We, the Fish and Wildlife Service, have changed the boundaries on three maps of the Coastal Barrier Resources System, in Florida and South Carolina, as directed by Congress. In addition, recent legislation reactivates changes to eight maps in Florida that had been invalidated by a court decision on March 8, 1998. These changes are effective without the need to revise maps. We are using this notice to inform the public about the distribution and availability of the revised and reactivated maps.

DATES: The boundary revisions for these units became effective on October 21, 1998.

FOR FURTHER INFORMATION CONTACT: Dr. Benjamin N. Tuggle, Department of the Interior, U.S. Fish and Wildlife Service, Division of Habitat Conservation, (703) 358-2161.

SUPPLEMENTARY INFORMATION:

Background

In 1982, Congress passed the Coastal Barrier Resources Act (P.L. 97-348) to restrict Federal spending that could foster development of undeveloped coastal barriers along the Atlantic and Gulf of Mexico coasts. In the Coastal Barrier Improvement Act of 1990 (P.L. 101-591), Congress amended the CBRA to broaden the definition of a coastal barrier, and approved a series of maps entitled "Coastal Barrier Resources System" dated October 24, 1990. These maps identify and depict those coastal

barriers located on the coasts of the Atlantic Ocean, Gulf of Mexico, and the Great Lakes, and in Puerto Rico and the Virgin Islands that are subject to the Federal funding limitations outlined in the CBRA.

The CBRA also defines our responsibilities regarding the System maps. We have official custody of these maps, and prepare and distribute copies of the maps. We published a notice of the filing, distribution, and availability of the maps entitled "Coastal Barrier Resources System" dated October 24, 1990, in the **Federal Register** on June 6, 1991, (56 FR 26304-26312). We have announced all subsequent map revisions in the **Federal Register**.

Section 101(e) of Public Law 105-277, enacted on October 21, 1998, requires us to revise the maps of Coastal Barrier Resources System Unit FL-35/FL-35P in Monroe County, Florida, and Unit SC-03 in Georgetown County, South Carolina. Section 134 of Public Law 105-277 requires us to revise the map of Unit M09 in Colleton County, South Carolina. Section 335 of Public Law 105-277 gives "the force and effect of law" to a set of eight maps entitled "Coastal Barrier Resources System", dated October 24, 1990, revised November 12, 1996, that were previously announced in the **Federal Register** on May 28, 1997 (62 FR 28891-28892). These eight maps were invalidated by a court order on March 5, 1998 (*Coastal Alliance v. Babbitt*, Civil Action No. 97-1344 (D. D.C.)), but were reinstated as of October 21, 1998, by Section 335 of Public Law 105-277.

Three Revised Maps in Florida and South Carolina

Consistent with Congressional instructions, the following three maps were modified:

North Key Largo Unit FL-35/FL-35P—Congress excluded Pumpkin Key from the System. Congress also removed some developed property of the Ocean Reef community from the System.

Huntington Beach Unit SC-03—Congress changed the western boundary of this unit to remove developed property from the System.

Edisto Island Unit M09—Congress changed the southern and western boundary of this unit back to the boundary it established in 1982.

Eight Reactivated Maps in Florida

We substituted the eight maps dated "October 24, 1990, revised November 12, 1996," for the previous maps for the units. These maps are described in the May 28, 1997, **Federal Register** (62 FR 28891-28892) and pertain to the following units:
