Colorado Interstate Gas Company; Notice of Tariff Filing

October 5, 1999.

Take notice that on October 1, 1999, Colorado Interstate Gas Company (CIG), tendered for filing to become part of its FERC Gas Tariff, First Revised Volume No. 1, tariff sheets listed in Appendix A to the filing, to be effective November 1, 1999.

CIG states it is making this filing to replace Spot Index Price with Cash Out Index Price to be used for the following:

1. The imbalance cash-out provisions,
2. The penalty imposed on a park-loan shipper pursuant to Rate Schedule PAL–1 that fails to return loaned gas by the deadline imposed by CIG (currently 150% of the Spot Index Price),
3. The penalty imposed on a swing service operator pursuant to Rate Schedule SS–1 (currently 150% of the Spot Index Price), and
4. Calculating the fuel quantity attributable to revenue from gas processing.

Use of the Spot Index Price as a basis for calculation of unauthorized overrun fees is unaffected by this filing.

CIG avers that currently it calculates the Spot Index Price based on published first-of-the-month index prices. CIG is proposing to add a new term to be called the Cash Out Index Price, to be calculated using an average of the daily mid-point index prices for the pertinent production month. CIG states that an average daily index price is more representative than a first of the month
