ORDER FOR HEARING

[Project No. 44]

At a meeting of the Federal Power Commission on the 18th day of February, 1936.

Present: Chairman McNinch; Commissioners Draper, Manly, and Seavey.

The following order was adopted:

It appearing to the Commission—

(1) That on June 14, 1928, a preliminary permit was issued to Hugh L. (3) That the Commission on January 28, 1935, adopted an order requiring the applicant to show cause, on or before March 28, 1935, why his application for a license for project No. 44 should not be denied by reason of failure to comply with the rules and regulations of the Commission and failure to secure the necessary water rights;

AUTHORIZATION UNDER SECTION 305 (b) AND ORDER FOR HEARING

At a meeting of the Federal Power Commission on the 21st day of February 1936.

Present: Chairman McNinch; Commissioners Drane, Draper, Manly, and Seavey.

The Commission having under consideration the matter of the authorization of persons to hold the position of officer or director of more than one public utility or to hold the position of officer or director of a public utility and the position of officer or director of a bank, trust company, banking association, or firm that is authorized by law to underwrite or participate in the marketing of securities of a public utility or officer or director of any company supplying electrical equipment to such utility, as provided in section 305 (b) of Part III of the Federal Power Act:

The following finding and order was adopted:

It appearing to the Commission:

(1) That applications have been filed by certain persons, being those named in Exhibit "A" attached to and made a part of this order, under section 305 (b) of Part III of the Federal Power Act pursuant to Order No. 32 for authorization to hold certain positions of officer or director as set forth in such applications;

(2) That by reason of the fact that appropriations were not available prior to the approval of the Deficiency Act on February 11, 1936, which would permit the Commission to make a full, complete, and adequate investigation of said applications, and it not being possible for the Commission prior to said date to make such investigation; and

(3) That a hearing with reference to such applications appears to be necessary and desirable:

Now, therefore, the Commission having considered such applications, and upon the information therein contained, *finds*:

That the persons named in Exhibit A attached hereto have severally made due showing in form and manner prescribed by the Commission in Order No. 32 with respect to positions of officer or director in corporations within the purview of section 305 (b) and for which authorization is sought that neither public nor private interests will be adversely affected by the holding of such positions in such corporations during the period of further consideration thereof by the Commission and until final determination with respect thereto shall have been made by the Commission.

Now, therefore, it is *ordered*:

(a) That the persons named in said Exhibit A be and they are hereby severally authorized to hold the positions for

which authorization has been sought as aforesaid in corporations within the purview of said section 305 (b) of the Federal Power Act during the period of further consideration thereof by the Commission and until final determination with respect thereto shall be made.

(b) That a hearing on the applications filed by the persons named in said Exhibit A be held on March 30, 1936, at the offices of the Commission, 1003 K Street NW., Washington, D. C.

INTERSTATE COMMERCE COMMISSION.

NOTICE

RECEIPTS AND BILLS OF LADING

MARCH 25, 1936.

Section 219 of the Motor Carrier Act, 1935, effective April 1, 1936, requires common carriers of property by motor vehicle to issue a receipt or bill of lading for any property received for transportation by them in interstate or foreign commerce. The Commission is in receipt of numerous inquiries regarding the proper form and contents of receipts and bills of lading to be issued by common carriers of property in compliance with this requirement of the law.

Such carriers, in order to comply with the above requirements, must provide and have ready for use on and after April 1, 1936, appropriate forms of receipts or bills of lading, the contents and provisions of which must be just and reasonable. The responsibility for including any unlawful conditions or provisions in receipts or bills of lading rests with the carriers. If experience proves that it is necessary for the Commission to take action in this matter, conferences and formal hearings may be held at which interested parties will have an opportunity to present their views.

A bill of lading may not contain any condition or provision which purports to limit the liability of a common carrier of property by motor vehicle for any loss, damage, or injury to the property transported, unless such carrier has been previously authorized by the Commission, after application, to establish and maintain rates dependent upon the value declared or agreed upon in writing as the released value of the property.

ADMINISTRATION ORDER 118 (REVISION 1)

LEASING FARM LANDS TO BE SUBLEASED TO RURAL REHABILITATION CLIENTS

MARCH 24, 1936.

1. Purpose:

(a) This Order defines policy with regard to lease arrangements, prescribes general procedure applicable thereto, and delegates authority to lease farm lands and sublease the same to rural rehabilitation clients.

2. General policy:

(a) It is the policy of the Resettlement Administration, in this phase of its activities:

I. To encourage a system of land tenure which permits the tenant to preserve and build up the soil resources of the farm he operates. To this end Rural Rehabilitation field representatives are requested to encourage landowners to make three to five year leases to rural rehabilitation clients to enable them to execute well-balanced farm and home plans.

II.¹ That insofar as possible rural rehabilitation clients enter into lease arrangements directly with landowners, and that such leases be on a basis acceptable to the Resettlement Administration and executed on a form approved by

¹ Paragraph revised.

the General Counsel in order that the interests of the lessees may be protected. Such leases will be on a share or cash basis, but may provide that improvements will be made upon the landlord's property in lieu of part or all of the rent. The terms and conditions with respect to such improvements MUST be properly set forth in a written agreement between the landlord and tenant, and be acceptable to the Resettlement Administration. Such agreement MUST make adequate provision for relating the improvements to be made to the length of the lease and be in furtherance of the farm management plan agreed upon by the Resettlement Administration and the client.

III. That when farm land is not available to rural rehabilitation clients in accordance with the practice prescribed under paragraph 2a II hereof, the Resettlement Administration may enter into lease arrangements as lessee directly with landowners and sublease the land in suitable parcels to rural rehabilitation clients.

3. Procedure:

(a) The following procedure will be followed with regard to leasing farm lands on behalf of the United States and the Resettlement Administration as lessee:

I. Regional directors will be held responsible for determining that the farm lands leased are suitable for the purposes intended.

II. The lease will be for a specific term, to terminate not later than June 30, 1937, and if the lease provides for privilege to renew, renewal, if desirable, must be exercised before June 30, 1937.

III. The lease, drafted to include all proposed terms, will be submitted to the regional attorney's office for approval, and will be executed on the lease form approved by the General Counsel for that purpose.

IV. The consideration written into the terms of such leases will be a specified amount payable in one or more cash payments.

V. The terms of the lease relating to rental payments will provide that the rent will be paid at the end of the term of the lease or periods thereof.

VI. Rental payments under such leases will be paid from Rural Rehabilitation funds allotted to the state in which the land is located, and regional directors will ascertain from regional Finance and Control managers, prior to the execution of a lease, that funds are available which may be obligated in the full amount of the consideration written in the lease. The regional director will obligate said funds in the full amount of the rent to be paid during the full period of the lease immediately subsequent to the execution of the lease.

VII. Regional directors will be responsible for the recording of leases in those states where local statutes require recording to protect the interest of the lessee. An opinion will be obtained from the regional attorney's office regarding the legal necessity of recording the lease.

VIII. An original and two copies of Standard Government Form No. 1036 (Revised), "Statement of Certificate of Award" (sometimes called "Abstract of Agreement"), will be executed by the regional director certifying the reason why advertisement for bids was not made. This certification and two additional copies will be made and attached to the lease for disposition, in accordance with an Administration Instruction to be issued.

IX. The lease will be executed in duplicate with as many copies thereof as may be required by an Administration Instruction to be issued.

X. In advance of executing a lease on behalf of the United States and the Resettlement Administration as lessee, regional directors will ascertain that there is available immediately a sufficient number of rural rehabilitation clients with approved or approvable farm and home management plans to absorb as sublessees the acreage which it is intended to lease.

XI. Since the execution of subleasing agreements covering the acreage leased by the United States and the Resettlement Administration as lessee might constitute, for purposes of audit by the General Accounting Office, evidence that the

original lease was made in furtherance of rural rehabilitation and relief in stricken agricultural areas, the making of such subleases will be accomplished as soon as possible following the execution of the original lease.

(b) The following procedure will be followed with regard to subleasing farm lands, leased on behalf of the Resettlement Administration as lessee, to rural rehabilitation clients as sublessees:

I. Such subleases, drafted to include all proposed terms, will be submitted to the regional attorney's office for approval, and will be executed on a lease form approved by the General Counsel for such purpose.

II. The consideration written into the terms of such subleases will be a specified amount payable in one or more cash payments.

III. The sum of the total of the considerations written into one or more subleases to rural rehabilitation clients on a given tract of land will be equal in amount to the consideration written into the terms of the lease on the same tract of land to the United States and the Resettlement Administration as lessee, for the same or like period of time.

IV. The farm and home management plan approved for a rural rehabilitation client who is to be a sublessee of the Resettlement Administration will set forth provisions for the payment of land rent to the Resettlement Administration, and security will be taken to secure the obligation of the client for such land rent to the Resettlement Administration.

4. Administrative authorization:

(a) In order to effectuate the alternative policy prescribed under paragraph 2a III hereof:

I. Regional directors are authorized to lease farm lands on behalf of the United States and the Resettlement Administration as lessee, and are authorized to execute, acknowledge, record, and perform such other acts on behalf of the United States and the Resettlement Administration as may be necessary to enter legally into a lease agreement with a private person or agency or any other non-Federal agency as lessor.

II. Regional directors are authorized to sublease farm lands, leased under authority granted in paragraph 4a I hereof, to rural rehabilitation clients on the basis of approved farm and home management plans, and are further authorized to execute, acknowledge, record, and perform such other acts on behalf of the United States and the Resettlement Administration as may be necessary to enter legally into a sublease agreement with a rural rehabilitation client as sublessee.

III. Regional directors are further authorized to delegate to assistant regional directors in charge of Rural Rehabilitation and to state Rural Rehabilitation directors the authority vested in them under the provisions of this Order. State Rural Rehabilitation directors may, in turn, redelegate such authority to Rural Rehabilitation loan officers. Such delegation and redelegation of authority will be made in writing and the same will be made a matter of record. A signed copy of such delegation or redelegation of authority will be sent to the district Finance manager.

5. Reports:

(a) Regional directors will make such periodic or special reports on leases executed on behalf of the United States and Resettlement Administration as lessee and on subleases to rural rehabilitation clients, as may be required by the Administrator.

(Signed) R. G. TUGWELL, Administrator.

relief in stricken agricultural areas as authorized by the Emergency Relief Appropriation Act of 1935, Executive Order No. 7027 of April 30, 1935, Executive Order No. 7143 of August 19, 1935, Executive Order No. 7200 of September 26, 1935, and otherwise.

2. Conditions of grants:

(a) Persons eligible:

I. Farm owners, farm tenants, share-croppers, farm laborers, or other persons who are, or will be, certified as eligible for public aid by public welfare agencies who are authorized to determine need for public aid (including county or local rural rehabilitation advisory committees in areas not otherwise adequately served), and persons now on the official rolls of the Resettlement Administration and persons on the official rolls of a state rural rehabilitation corporation will be eligible for grants, provided all aforementioned persons now live on farms or in farm areas and did when last employed receive the major portion of their income from farming operations, and provided that such persons fall within one of the following classifications:

A. Persons who, in the opinion of the Resettlement Administration, are potential standard rehabilitation cases and are in need of immediate aid, the granting of which cannot, without causing human suffering, be deferred until regular farm management plans have been fully developed.

B. Persons who, in the opinion of the Resettlement Administration, are potential standard cases, for whom a satisfactory farm management plan cannot be made based entirely on rehabilitation loans, but who are capable of being rehabilitated if all or part of their subsistence needs are provided through grants in the early part of the rehabilitation period.

C. Persons who, in the opinion of the Resettlement Administration, are in distress because of drouth, flood, hail, tornadoes, and so forth, who are in need of temporary aid to tide them over the emergency, and who do not require plans for reorganizing their farm management operations.

(b) Special cases:

I. Authority is hereby given to regional directors to make grants to persons classified as standard rehabilitation cases to enable them to meet unforeseen and extraordinary emergencies not anticipated in the farm management plans accepted by the Resettlement Administration as a basis for rehabilitation loans, provided such grants are consistent with the purpose of this Order, and are within the limitations of the authorities set forth in paragraph 1a hereof.

(c) No note or other evidence of indebtedness will be taken from the recipient of a grant.

(d) Due to a ruling of the United States Employees' Compensation Commission, no voluntary work agreements may be accepted from recipients of grants, nor may such recipients be permitted to perform voluntary work.

3. Purpose for which grants may be made:

(a) Grants may be made under this Order to persons who qualify under paragraph 2 hereof to meet emergency needs for food, fuel, clothing, shelter, indispensable medical service, or other subsistence goods or services.

4. Administrative authorization:

(a) Regional directors are authorized to make grants as provided in this Order on behalf of the Resettlement Administration.

(b) A regional director may delegate his authority under this Order to an assistant regional director in charge of Rural Rehabilitation and to a state Rural Rehabilitation director who may in turn delegate it to a loan officer, state farm management supervisor or district Rural Rehabilitation supervisor. Each such delegation of authority will be made in writing and signed copies thereof will be made available to the regional Finance and Control manager and the appropriate state Finance manager.

5. Reports:

(a) Regional Finance and Control managers will submit to the Administrator such reports as may be required by him covering grants issued pursuant to this order.

TO REGULATIONS ADOPTED JUNE 1, 1928, GOVERNING THE GRANTING OF AUTHORITY TO WRITE INSURANCE UNDER THE DISTRICT OF COLUMBIA WORKMEN'S COMPENSATION ACT OF MAY 17, 1928

WASHINGTON, D. C., February 29, 1936.

The regulations adopted June 1, 1928, by the United States Employees' Compensation Commission governing the granting of authority to write insurance under the District of Columbia Workmen's Compensation Act of May 17, 1928, are hereby amended by striking out of the form of endorsement therein prescribed for use in connection with a standard form of workmen's compensation policy in writing insurance under the District of Columbia workmen's compensation law the following optional paragraph:

If any such officer is exposed to varying hazards, premium shall be charged on the basis of the highest rate for any hazard to which he is exposed.

and inserting in lieu thereof the following:

If this employer is a corporation, the entire remuneration of the President, any Vice-President, Secretary, Treasurer, and other executive officers elected or appointed in accordance with the charter and by-laws of such corporation shall be disclosed and premium shall be paid thereon, subject to a minimum individual remuneration of \$30 per week, if the actual remuneration is less than such amount, and to a maximum individual remuneration of \$100 per week, if the actual remuneration is greater than such amount. The remuneration so determined of each executive shall be assigned without division to the classification which is applicable to the actual operations in which such executive officer is primarily engaged, provided the remuneration so determined of each executive officer who performs such duties as are ordinarily undertaken by a superintendent, foreman, or workman, or whose duties include direct charge of the actual performance of any operations of this employer, shall be assigned without division to the highest rated classification which is applicable to any such duties undertaken by such executive officer for any part of his time.
