Federal Register

Monday
September 20, 1999

The **FEDERAL REGISTER** is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 is the exclusive distributor of the official edition.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, see http://www.nara.gov/fedreg.

The seal of the National Archives and Records Administration authenticates the Federal Register as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge as one of the databases on GPO Access, a service of the U.S. Government Printing Office.

The online edition of the **Federal Register** is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6 a.m. each day the **Federal Register** is published and it includes both text and graphics from Volume 59, Number 1 (January 2, 1994) forward.

GPO Access users can choose to retrieve online **Federal Register** documents as TEXT (ASCII text, graphics omitted), PDF (Adobe Portable Document Format, including full text and all graphics), or SUMMARY (abbreviated text) files. Users should carefully check retrieved material to ensure that documents were properly downloaded.

On the World Wide Web, connect to the **Federal Register** at http://www.access.gpo.gov/nara. Those without World Wide Web access can also connect with a local WAIS client, by Telnet to swais.access.gpo.gov, or by dialing (202) 512-1661 with a computer and modem. When using Telnet or modem, type swais, then log in as guest with no password.

For more information about GPO Access, contact the GPO Access User Support Team by E-mail at gpoaccess@gpo.gov; by fax at (202) 512–1262; or call (202) 512–1530 or 1–888–293–6498 (toll free) between 7 a.m. and 5 p.m. Eastern time, Monday–Friday, except Federal holidays.

The annual subscription price for the **Federal Register** paper edition is $555, or $607 for a combined **Federal Register,** Federal Register Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the Federal Register Index and LSA is $220. Six month subscriptions are available for one-half the annual rate. The charge for individual copies in paper form is $8.00 for each issue, or $8.00 for each group of pages as actually bound; or $1.50 for each issue in microfiche form. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard or Discover. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250–7954.

There are no restrictions on the republication of material appearing in the **Federal Register.**

How To Cite This Publication: Use the volume number and the page number. Example: 64 FR 12345.

Printed on recycled paper.

Title 3—

The President

Proclamation 7221 of September 15, 1999

National POW/MIA Recognition Day, 1999

By the President of the United States of America

A Proclamation

As we look back over this century that is swiftly drawing to a close, we recognize that the light of freedom still burns brightly in our world today because of the service and sacrifice of America's men and women in uniform. Through the devastation of two world wars and the brutality of numerous regional conflicts; on peacekeeping assignments and humanitarian missions; from the darkest days of the Cold War to the fall of the Berlin Wall, our Nation's service men and women have fought the forces of tyranny and won signal victories for liberty, human dignity, and the ideals of democracy. On every continent, on the seas, and in the air, gallant young Americans have paid for our future with their own, and many have preserved our freedom by sacrificing their own.

On National POW/MIA Recognition Day, we remember with profound gratitude those who suffered captivity and those whose fate remains unknown. Many American POWs were tortured at the hands of their captors; all experienced the ordeal of being held against their will and the anguish of indefinite separation from their families and their homeland.

Today we also honor the valiant families of our fellow citizens who remain missing—families who have had to suffer not only the absence of their loved ones, but also the uncertainty of their fate. As Americans, we remain unshakable in our resolve to achieve the fullest possible accounting of those missing and to strive to bring home the remains of those who have died. Only by doing so can we begin to acknowledge the debt we owe to these patriots and assuage the grief of the families they left behind for the sake of our Nation.

On September 17, 1999, the flag of the National League of Families of American Prisoners of War and Missing in Southeast Asia, a black and white banner symbolizing America's missing and our unwavering determination to account for them, will be flown over the White House, the U.S. Capitol, the Departments of State, Defense, and Veterans Affairs, the Selective Service System Headquarters, the Vietnam Veterans Memorial, the Korean War Veterans Memorial, national cemeteries, and other locations across our country.

NOW, THEREFORE, I, WILLIAM J. CLINTON, by virtue of the authority vested in me by the Constitution and laws of the United States, do hereby proclaim September 17, 1999, as National POW/MIA Recognition Day. I ask all Americans to join me in honoring former American prisoners of war and those whose fate is still undetermined. I also encourage the American people to remember with compassion and concern the courageous families who persevere in their quest to know the fate of their missing loved ones. Finally, I urge Federal, State, and local officials and private organizations to observe this day with appropriate ceremonies, programs, and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this fifteenth day of September in the year of our Lord nineteen hundred and ninety-nine, and of the Independence of the United States of America the two hundred and twenty-fourth.

Presidential Documents

Executive Order 13137 of September 15, 1999

Amendment to Executive Order 12975, as Amended, National Bioethics Advisory Commission

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to more accurately describe the expertise requirements for members selected for the National Bioethics Advisory Commission, it is hereby ordered that Executive Order 12975, as amended (''Order''), is further amended as follows:

Section 1. Section 3 of the order shall read as follows: ''**Sec. 3.** *Establishment of National Bioethics Advisory Commission.* There is established in the Department of Health and Human Services a National Bioethics Advisory Commission (NBAC). The NBAC shall be subject to the Federal Advisory Committee Act, as amended (5 U.S.C. App.).''

Sec. 2. A new section 4 shall be added to the order to read: ''**Sec. 4.** *Structure.* (a) The National Bioethics Advisory Commission shall be composed of not more than 18 nongovernment members appointed by the President. At least one member shall be selected from each of the following categories of primary expertise: (1) philosophy/theology; (2) social/behavioral science; (3) law; (4) medicine/allied health professions; and (5) biological research. At least three members shall be selected from the general public, bringing to the Commission expertise other than that listed. The membership shall be approximately evenly balanced between scientists and non-scientists. Close attention will be given to equitable geographic distribution and to ethnic and gender representation.

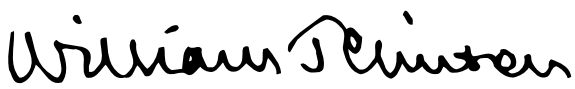
(b) Members of the Commission will serve for terms of 2 years and may continue to serve after the expiration of their term until a successor is appointed. A member appointed to fill an unexpired term will be appointed to the remainder of such term.

(c) The President shall designate a Chairperson from among the members of the NBAC.''

Sec. 3. (a) ''[S]ection 5'' in the third sentence of section 1(b) of the order shall be deleted and ''section 6'' shall be inserted in lieu thereof.

(b) Current sections 4 through 7 of Executive Order 12975 shall be renumbered sections 5 through 8.

(c) New section 8(b) is amended by deleting ''October 3, 1999'' and inserting ''October 3, 2001'' in lieu thereof.



THE WHITE HOUSE,
September 15, 1999.

Rules and Regulations

Federal Register
Vol. 64, No. 181
Monday, September 20, 1999

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

7 CFR parts 210, 215, 220, 235 and 245

RIN 0584–AC01

School Nutrition Programs: Nondiscretionary Technical Amendments

AGENCY: Food and Nutrition Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule makes a number of technical changes to the regulations governing the National School Lunch Program, the Special Milk Program for Children, the School Breakfast Program, State Administrative Expense Funds, Determining Eligibility for Free and Reduced Price Meals and Free Milk in Schools. A number of these changes are a direct result of statutory changes made under the Child Nutrition and WIC Reauthorization Act of 1989, the Healthy Meals for Healthy Americans Act of 1994, the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, and the William F. Goodling Child Nutrition Reauthorization Act of 1998. This rule also removes and updates obsolete provisions in these regulations. These amendments are nondiscretionary and technical in nature and will conform these regulations to statutory requirements.

EFFECTIVE DATE: October 20, 1999.

FOR FURTHER INFORMATION CONTACT: Ms. Mary Jane Whitney, Section Chief, School Programs Section, Policy and Program Development Branch, Child Nutrition Division, Food and Nutrition Service at 703–305–2620.

SUPPLEMENTARY INFORMATION:

Background

Four different public laws, Public Law (Pub. L.) 101–147 (the Child Nutrition and WIC Reauthorization Act of 1989), Pub. L. 103–448 (the Healthy Meals for Healthy Americans Act of 1994), Pub. L. 104–193 (the Personal Responsibility and Work Opportunity Reconciliation Act of 1996), and Pub. L. 105–336 (the William F. Goodling Child Nutrition Reauthorization Act of 1998), made specific changes to the National School Lunch Act and the Child Nutrition Act of 1966, necessitating changes in the regulations that guide the National School Lunch Program, the School Breakfast Program, the Special Milk Program, State Administrative Expense Funds, and Determining Eligibility for Free and Reduced Price Meals and Free Milk in Schools.

In section 201 of Pub. L. 101–147, the Child Nutrition and WIC Reauthorization Act of 1989, enacted on November 10, 1989, Congress amended the National School Lunch Act (NSLA) (42 U.S.C. 1751 et. seq.) to make changes in the way the National School Lunch Program (NSLP) and School Breakfast Program (SBP) operate. Specifically, section 201 amended Section 8 of the NSLA by making permanent the agreements between the State agencies (SA) and school food authorities (SFA) for carrying out the school lunch program and school breakfast program.

In section 112 of Pub. L. 103–448, the Healthy Meals for Healthy Americans Act of 1994, enacted on November 2, 1994, Congress amended the definition of *School* in section 12(d) of the NSLA to make child care centers in Puerto Rico ineligible to participate in the NSLP and SBP. Additionally, section 202 of Pub. L. 103–448 amended section 7(a) of the Child Nutrition Act of 1966 (CNA) (42 U.S.C. 1771 *et seq.*) to authorize the Secretary to withhold State Administrative Expense (SAE) funds when the Secretary determines that the SA's administration of the program is seriously deficient.

Section 703 of Pub. L. 104–193, the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, amended section 9(b)(2) of the NSLA. The amendment requires that after initial submission, an SFA would not be required to submit a new free and reduced price policy statement to a State educational agency unless there is a substantive change in the free and reduced price policy of the SFA. Section 707 of Pub. L. 104–193 amended section 14(e) of the NSLA by removing the requirement for States to have State food distribution advisory councils and adding in its place a requirement that SAs which receive food assistance payments for any school year must consult with schools regarding the selection and distribution of donated foods. Furthermore, section 723 of Pub. L. 104–193 removed section 4(f) of the CNA which dealt with breakfast outreach activities. Section 724(b) of Pub. L. 104–193 amended section 7(e) of the CNA by removing the requirement that State administrative expense plans be submitted annually by State agencies for approval by FNS and revising the regulation to require that States only need submit substantive changes to approved plans. In section 726 of Pub. L. 104–193 Congress amended section 11(a) of the CNA by revising the prohibition regarding the imposition of any requirements with respect to teaching personnel, curriculum, instruction and methods and materials of instruction. Section 726 removed references to State, thus directing the prohibition only to USDA.

In section 102(c) of Pub. L. 105–336, the William F. Goodling Child Nutrition Reauthorization Act of 1998, Congress added section 9(h) to the NSLA to establish new requirements regarding annual food safety inspections for schools participating in the NSLP or SBP. Section 102(d) added section 9(i) to the NSLA to require each SFA to submit a single agreement and a common claim form for programs administered by the SA. Section 104(b) amended section 12(g) of the NSLA to make changes in criminal penalties for attempting to defraud the program. Section 104(d) added section 12(n) to the NSLA to incorporate a provision to require that schools purchase, to the maximum extent practicable, domestic commodities or products. Finally, section 202(b) revised section 7(a)(6) of the CNA to eliminate the 10% transfer limitation for SAE funds.

The following chart summarizes the statutory provisions:

Statute	Provision	Regulatory section affected
Pub. L. 101–147:		
Section 201	Mandates permanent agreements	§§ 210.9, 215.7 and 220.7(e).
Pub. L. 103–448:		
Section 112	Revises definition of ''school''	§§ 210.2 and 220.2(u).
Section 202	Authorizes USDA to withhold SAE funds when State agencies are deemed seriously deficient.	§ 235.4.
Pub. L. 104–193:		
Section 703	Mandates permanent Free and Reduced Price Policy Statement.	§ 245.10.
Section 707	Removes requirement for State Food Distribution Advisory Council.	§ 210.28
Section 723	Removes breakfast outreach activities	§ 220.13(k).
Section 724	Replaces annual State Administrative Expense Plan with a permanent base plan updated for substantive changes.	§ 235.5
Section 726	Revises educational prohibitions	§ § 210.27 and 220.17(a).
Pub. L. 105–336:		
Section 102(c)	Mandates food safety inspections	§§ 210.13(b), 220.7(a–2).
Section 102(d)	Mandates single agreements and common claim forms for SFAs.	§§ 210.8(c), 210.9(b), 215.7(d), 215.10(b), 220.7(e) and 220.11(b).
Section 104(b)	Changes criminal penalties for fraud	§§ 210.26, 215.6(b), 220.6(b), 2356(g) and 245.12.
Section 104(d)	Mandates purchase of domestic commodities or products	§§ 210.21(d) and 220.16d.
Section 202(b)	Eliminates 10% transfer for SAD funds	§ 235.6(a).

Additionally, the Department is taking the opportunity to remove obsolete provisions from and make technical corrections to 7 CFR parts 210, 215, 220, 235 and 245. For example, the obsolete references to ''handicapped'' children are removed, using instead the term ''children with disabilities''. The rule also incorporates technical conforming amendments to 7 CFR parts 210, 215, 220, 235 and 245. The remainder of this preamble discusses these amendments.

What Specific Revisions and Additions are Being Made to the Regulations?

The changes being made fall under four categories. They are:

- Changes to definitions
- New, updated or removed requirements
- Removal of obsolete references
- Technical amendments

What Changes are Being Made to the Definition Sections?

Definition of Child

The definition of the term *Child* in §§ 210.2 and 220.2(c) and the definition of the term *Children* in § 215.2(e–1) are amended to remove references to *handicapped* children, adding in their place the term *disabled*, thus conforming the definition to operating terminology.

Definition of Handicapped Student

The definition of the term *Handicapped student* in § 210.2 is removed, in order to remove references to *handicapped* children. A new definition, *Student with disabilities*, is used in its place.

Definition of School

Section 112(a) of Pub. L. 103–448 amended the definition of *School* in section 12(d)(5) of the NSLA. This amendment removed child care centers in the Commonwealth of Puerto Rico from the definition of *School*, effective October 1, 1995. As of that date, child care centers in Puerto Rico were no longer eligible to participate in the NSLP and SBP. However, these child care centers could provide meals and snacks to children under the Child and Adult Care Food Program, 7 CFR part 226, or milk under the Special Milk Program, the same as other child care centers in the contiguous United States. Affected child care centers were advised of their change in status. This rule codifies the provision by amending the definition of *School* in §§ 210.2 and 220.2(u) to remove child care centers in Puerto Rico from the definition of school to conform to this nondiscretionary statutory provision. Corresponding technical changes are made to the definition of *School* in § 235.2(o) to reflect these amendments.

Definition of Financial Management Circulars

The definition, *7 CFR part 3015*, in §§ 210.2, 215.2(x–1), 220.2(x–1), and 235.2(q–1) is revised to remove obsolete references to A–124 and A–128, as well as the Single Audit Act of 1984 (31 U.S.C. 7501 et seq.). New definitions, *7 CFR part 3017, 7 CFR part 3018*, and *7 CFR part 3052* are added to §§ 210.2, 215.2, 220.2 and 235.2. Part 3017 refers to the Department's Common Rule regarding Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants). Part 3018 refers to the Department's Common Rule regarding New Restrictions on Lobbying. Part 3052 refers to the Department's rule regarding Audits of States, Local Governments and Non-Profit Organizations.

Definition of State

The definition of *State* (§§ 210.2; 215.2(y); 220.2(y); 235.2(r)) is revised to accommodate the elimination of the territories under the Compact of Free Association and the block grant status of American Samoa and the Commonwealth of the Northern Marianas. Because both American Samoa and the Commonwealth may elect to forego the block grant and participate under part 210, 215, 220 and 235, they continue to be included in the definition of *State agency*, ''as applicable''.

What Requirements are Being Added, Updated or Removed?

Agreements/Claims

Section 201 of Pub. L. 101–147 amended section 8 of the NSLA by making permanent the agreements between SAs and SFAs for carrying out the NSLP and SBP. On May 28, 1991, USDA issued a proposed rule which would have implemented the provision to make these agreements permanent, to be amended as necessary (56 FR 24033). Fifty comments were received on that proposed rule during the 60-day public comment period, which closed on July 29, 1991. Commenters represented 19 different SAs, 22 SFAs, 4 State or local Departments of Human Services and 2

professional organizations. Only one commenter was opposed to having the agreement made permanent, stating that the agreement is a legal document that should have a beginning and ending date. All other commenters who addressed this provision viewed it as a paperwork reduction measure and supported the proposal. On May 12, 1991, USDA issued a memorandum implementing this provision. This memorandum stated that, because the Department did not anticipate any changes to the proposal for permanent agreements, the SAs would be able to accept current agreements as permanent, at their discretion. This was effective as of school year 1992—1993. This final rule codifies this provision in § § 210.9(b), 215.7(d) and 220.7(e).

Section 102 (d) of Pub. L. 105–336 amended section 9 (c) of the NSLA by establishing two requirements with respect to SFAs which administer any combination of the Child Nutrition Programs under the same State administering agency. First, the SA must use a single State/local agreement for all programs operated by the SFA under that SA. This also means that multiple SFA programs operated under an alternate SA must be combined into a single agreement. This rule makes the necessary changes to §§ 210.9(b), 215.7(d), and 220.7(e).

Second, an SFA must be able to use a common reimbursement form to claim meals under all of the programs. Previously, single agreements and common claim forms were permitted at SA option for SFAs administering multiple Child Nutrition Programs under a single SA. This rule makes the necessary changes to 7 CFR 210.8(c), 215.10(b), and 220.11(b) to reflect the implementation of the statutory requirements.

Free and Reduced Price Policy Statement

As noted above, on May 28, 1991, the Department had proposed to make the agreement between the SA and SFA a permanent document to be amended as necessary (56 FR 24033). Although Pub. L. 101–147 had not directed the Department to make the SFA's free and reduced price policy permanent, the Department used its discretionary authority to include the policy statement in the permanency provision, because the Department considers the policy statement part of the agreement. The Department had proposed in that rule to (1) Increase the number of provisions required in an SFA's policy statement and (2) remove the requirement for annual resubmission of the policy statement to the SA for approval, unless there was a substantive change to the SFA's free and reduced price policy. Of the 50 comments received on the proposal, only one commenter supported the increase in the required provisions to be included in the policy statement. Before the department could issue a final rule, section 703 of Pub. L. 104–193 amended section 9(b)(2) of the NSLA by making permanent the free and reduced price policy statement. Unless there is a substantive change made to the free and reduced price policy of the SFA, the policy statement need not be changed and resubmitted. Routine changes, such as an annual adjustment of the income eligibility guidelines, are not sufficient to require resubmission. This rule implements this provision by making the necessary amendments to §§ 245.10 and 245.11.

Food Safety Inspections

Section 102(c) of Pub. L. 105–336 amended section 9 of the NSLA by adding subsection (h) to require schools participating in the NSLP or the SBP to obtain food safety inspections conducted by a State or local government agency responsible for such inspections at least once a year if a State or local governmental agency does not otherwise require inspections. This provision does not apply to schools that must comply with State or local requirements for food safety inspections even if the time frames for these inspections are less frequent than annual. Moreover, if a State or local governmental agency responsible for food safety inspections conducts voluntary inspections in schools, these inspections may be counted toward meeting this requirement. This rule implements this provision by amending §§ 210.13 and 220.7 by adding a new paragraph, *Food safety inspections*.

State Agency Consultation With Schools

Section 707 of Pub. L. 104–193 removed the requirement for the State to establish a food distribution advisory council and in its place required SAs that receive food assistance payments to consult with schools that receive commodities in order to make the best assessment of the specific needs of that school relating to the manner of selection and the distribution of commodity goods. This rule removes § 210.28, *State Food Distribution Advisory Council*, and amends § 210.19 (b) to implement this provision. To accommodate the changes, the definition of *State Food Distribution Advisory Council* is removed and sections are redesignated.

Buy American

Section 104(d) of Pub. L. 105–336 amended section 12 of the NSLA to require SFAs participating in the NSLP and SBP in the contiguous United States (U.S.) to purchase for those programs, to the maximum extent practicable, domestic commodities or products. This requirement will help ensure that Federal funds dispensed to States support the U.S. agricultural economy to the extent feasible. For purposes of this provision, Pub. L. 105–336 defines the term ''domestic commodity or product'' to mean an agricultural commodity that is produced in the U.S. and a food product that is processed in the U.S. substantially using agricultural commodities that are produced in the U.S. The Conference Report accompanying Pub. L. 105–336 makes it clear that the term ''substantially'' means that over 51 percent of the processed food comes from American produced products. Pub. L. 105–336 also stipulates that an SFA in Hawaii is required to purchase commodities or products that are produced in Hawaii, to the extent that such products are in adequate supply for program purposes. This rule implements this provision by adding new paragraphs (d), *Buy American* to §§ 210.21 and 220.16.

Criminal Penalties

Section 104(b) of Pub. L. 105–336 amended section 12(g) of the NSLA to increase from $10,000 to $25,000 the maximum fine for embezzling, willfully misapplying, stealing or obtaining by fraud any funds, assets or property acquired under the NSLA or CNA. This rule reflects this provision by amending §§ 210.26, 215.6(b), 220.6(b), 235.6(g) and 245.12(a).

Educational Prohibitions

Prior to Pub. L. 104–193, section 12 of the NSLA prohibited SAs and USDA from imposing any educational requirements with respect to teaching personnel, curriculum, instruction, methods of instruction, and materials of instruction in any school. Section 726 of Pub. L. 104–193, recognizing the educational responsibilities of the State education agencies, amended section 11 of the CNA by removing the reference to the State. This rule implements this provision by amending §§ 210.27 and 220.17 to limit the prohibition to USDA.

Removal of School Breakfast Outreach Requirements

Prior to Pub. L. 104–193, Section 4(f) of the CNA mandated that the Department and SAs initiate outreach and education on the benefits of the SBP. Section 723 of Pub. L. 104–193

removed the SBP outreach activities. This rule removes paragraph (k) of § 220.13 to implement this provision.

Withholding State Administrative Expense Funds

Section 202(a) of Pub. L. 103–448 amended section 7(a) of the CNA to stipulate that USDA may withhold SAE funds when SAs are seriously deficient in either their administration of the Child Nutrition Programs or their compliance with regulations issued to implement the Child Nutrition Programs, and that USDA may restore those withheld funds when performance improves. This rule adds a new paragraph (h) to § 235.4 to implement this provision.

State Administrative Expense Plans

Section 724(b) of Pub. L. 104–193 amended section 7(e) of the CNA by removing the requirement that SAE plans be submitted annually by State agencies for approval by FNS and revising the regulation to require that States only need submit substantive changes to approved plans. FNS notified State agencies of this change on June 5, 1997. The SAE plan used for fiscal year 1997 is the permanent plan document (*i.e.*, the ''base year'' SAE plan). For SAs not participating in the Child Nutrition Programs in FY 1997, the first SAE plan submitted will be considered the base year plan. After submitting the base plan, the SA is only required to submit substantive changes, as defined in the June 5, 1997 guidance, for approval by FNS. When those substantive changes are submitted and the plan is amended, the fiscal year in which those changes are effective becomes the plan's base year. This rule implements this provision by amending § 235.5.

Transfer of State Administrative Expense Funds

Section 202(b) of Pub. L. 105–336 amended section 7(a)(6) of the CNA by eliminating the previous 10 percent limit on SAE funds that may be transferred from one child nutrition program to another. Now, SAs may transfer their SAE funds among the programs as they deem necessary for efficient administration of the programs. This rule implements the limitation by amending § 235.6(a).

Which References are Being Removed as Obsolete?

The Department is taking this opportunity to remove the obsolete § 210.18a, Assessment, Improvement and Monitoring system, in its entirety and to make technical changes throughout 7 CFR part 210 and 235 to reflect its removal. The Department is removing the Appendix to 7 CFR part 215, which shows the apportionment of funds to States for the SMP for 1976. Finally, the Department is removing § 245.13 in its entirety because the Department of Health, Education and Welfare Public School Civil Rights Survey no longer exists.

What Technical Amendments are Being Made?

Audit Requirements in §§ 215.13 and 220.15

The audit requirements contained in §§ 215.13 and 220.15 are revised to match those set forth in § 210.22. This revision will not result in changes in program operation.

Coordinated Review

In § 210.18, a technical error is corrected. The review threshold set forth for Performance Standard I at § 210.18(i)(3)(B) is revised by revising the parenthetical phrase (but not less than 10 lunches) to read (but not less than 100 lunches).

Correction of OMB Numbers

The regulations governing the SAE funds (7 CFR part 235) are being revised to reflect corrected Office of Management and Budget information collection/ recordkeeping control numbers. This rule amends § 235.12 to reflect this change.

Correction of an Incorrect Reference

Section 245.5 requires SFAs to publicly announce the eligibility criteria for free and reduced price school meals and free milk. An announcement is not required for certain schools, including schools defined in § 210.2 paragraph (c) of the definition of *School.* Section 245.5(a) currently makes an incorrect reference. This rule corrects that error.

The following chart restates the changes affected in this regulation:

Provision	Affected section of regulation	Reason for change
Definition of ''child'' and ''children''	§§ 210.2, 215.2(e-1) and 220.2(c)	Updated to reflect commonly accepted terminology.
Definition of ''handicapped student''	§ 210.2	Updated to reflect commonly accepted terminology.
Definition of ''school''	§§ 210.2, 220.2(u) and 235.2(o)	Excluding Puerto Rico child care centers from participation in NSLP and SBP because they may now participate in the CACFP (Statutory Provision).
Definition of Financial Management Circulars	§§ 210.2, 215.2, 220.2 and 235.2	Updated to reflect current terminology.
Definition of ''State''	§§ 210.2, 215.2 (y), 220.2 (y),and 235.2(r)	Accommodates the elimination of the territories under the Compact of Free Association and the block grant status of American Samoa and the Commonwealth of the Northern Marianas.
Single Agreements/Claims	§§ 210.8(c), 210.9(b), 215.7(d), 215.10(b), 220.7(e) and 220.11(b).	Paperwork reduction (Statutory Provision).
Permanent Free and Reduced Price Policy Statement.	§§ 245.10 and 245.11	Paperwork reduction (Statutory Provision).
Food safety inspections	§§ 210.13 and 220.7(a-2)	Raising health standards (Statutory Provision).
State agency consultation with schools	§§ 210.2, 210.19(b) and 210.28	Food distribution advisory council was eliminated (Statutory Provision).
Buy American	§§ 210.21 and 220.16	Supporting American farmers and industries (Statutory Provision).
Criminal penalties	§§ 210.26, 215.6(b), 220.6(b) 235.6(g) and 245.12(a).	Updating penalties for fraud (Statutory Provision).

Provision	Affected section of regulation	Reason for change
Educational prohibitions	§§ 210.27 and 220.17	Recognizing educational responsibilities of SAs (Statutory Provision).
Removal of School Breakfast Outreach Requirements.	§ 220.13(k)	No longer required by law (Statutory Provision).
Withholding SAE funds	§ 235.4(h)	Monitoring SA performance (Statutory Provision).
Permanent State Administrative Expense Plans	§ 235.5	Paperwork reduction (Statutory Provision).
Transfer of SAE funds	§ 235.6(a)	Greater efficiency in program administration (Statutory Provision).
Removal of § 210.18a	Technical changes throughout 210 and 235	Obsolete reference.
Removal of Appendix, § 215	§ 215, Appendix	The appendix is obsolete.
Removal of Welfare Public School Civil Rights Survey.	§ 245.13	Obsolete reference to a Department of Health and Human Services Civil Rights survey that no longer exists.
Audit requirements	§§ 215.13 and 220.15	Intent to show continuity throughout the administration of the programs.
Coordinated review	§ 210.18(i)(3)(B)	Corrects technical error.
OMB numbers	§ 235.12	Reflect corrected numbers.
Announcement of eligibility criteria	§ 245.5(a)	Corrects technical error.

Executive Order 12866

This rule has been determined to be not significant for purposes of Executive Order 12866 and therefore has not been reviewed by the Office of Management and Budget.

Public Law 104–4

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), Public Law 104–4, establishes requirements for Federal agencies to assess the effects of their regulatory actions on State, local, and tribal governments and the private sector. Under section 202 of the UMRA, the Food and Nutrition Service (FNS) must generally prepare a written statement, including a cost-benefit analysis, for proposed and final rules with ''Federal mandates'' that may result in expenditures to State, local, or tribal governments, in the aggregate, or to the private sector, of $100 million or more in any one year. When such a statement is needed for a rule, section 205 of the UMRA generally requires FNS to identify and consider a reasonable number of regulatory alternatives and adopt the least costly, most cost-effective or least burdensome alternative that achieves the objectives of the rule.

This final rule contains no Federal mandates (under regulatory provisions of Title II of the UMRA) for State, local, and tribal governments or the private sector of $100 million or more in any one year. Thus, this final rule is not subject to the requirements of Sections 202 and 205 of the UMRA.

Regulatory Flexibility Act

This final rule has been reviewed with regard to the requirements of the Regulatory Flexibility Act (5 U.S.C. 601 through 612). The Administrator of the FNS has certified that this rule will not have a significant economic impact on a substantial number of small entities. Additionally, the Department of Agriculture (the Department or USDA) does not anticipate any adverse fiscal impact on local schools.

Executive Order 12372

The National School Lunch Program, Special Milk Program for Children, School Breakfast Program, and State Administrative Expense Funds are listed in the Catalog of Federal Domestic Assistance under Nos. 10.555, 10.556, 10.553, and 10.560, respectively. They are subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials. (7 CFR part 3015, subpart V and final rule-related notice at 48 FR 29112. June 24, 1983.)

Executive Order 12988

This final rule has been reviewed under Executive Order 12988, Civil Justice Reform. This final rule is intended to have preemptive effect with respect to any State or local laws, regulations or policies which conflict with its provisions or which would impede its full implementation. This final rule is not intended to have retroactive effect unless so specified in the **EFFECTIVE DATE** section of this preamble. Prior to any judicial challenge to the provisions of this final rule, all applicable administrative procedures must be exhausted. In the National School Lunch Program, the Special Milk Program, and School Breakfast Program, the administrative procedures are set forth under the following regulations: (1) SFA appeals of SA fiscal action resulting from an administrative review must follow SA hearing procedures as established pursuant to 7 CFR 210.18(q); (2) SFA appeals of FNS fiscal action resulting from an administrative review must follow FNS hearing procedures as established pursuant to 7 CFR 210.30(d)(3); (3) FNS claims against SAs must follow hearing procedures as established pursuant to 7 CFR 215.12(e); and (4) SA appeals of State Administrative Expense fund sanctions (7 CFR 235.11(b)) must follow the FNS administrative review process as established pursuant to 7 CFR 235.11(f).

Paperwork Reduction Act

This final rule does not contain reporting or recordkeeping requirements subject to approval by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3507).

Public Participation

This action is being finalized without prior notice or public comment under authority of 5 U.S.C. 553(b)(3)(A) and (B). The amendments contained herein are nondiscretionary in nature and therefore not subject to change as a result of public comment. Thus, the Department has determined in accordance with 5 U.S.C. 553(b) that Notice of Proposed Rulemaking and Opportunity for Public Comments is unnecessary and contrary to the public interest and, in accordance with 5 U.S.C. 553(d), that this action will be effective 30 days after the date of publication.

List of Subjects

7 CFR Part 210

Food and Nutrition Service, Grant programs-education, Grant programs-health, Infants and children, Nutrition, Penalties, Reporting and recordkeeping requirements, School breakfast and lunch programs, Surplus agricultural commodities.

7 CFR Part 215

Food and Nutrition Service, Food assistance programs, Grant programs-education, Grant programs-health, Infants and children, Milk, Reporting and recordkeeping requirements.

7 CFR Part 220

Food and Nutrition Service, Grant programs-education, Grant programs-health, Infants and children, Nutrition, Reporting and recordkeeping requirements, School breakfast and lunch programs.

7 CFR Part 235

Administrative practice and procedure, Food and Nutrition Service, Food assistance programs, Grant programs-education, Grant programs-health, Infants and children, reporting and recordkeeping requirements, School breakfast and lunch programs.

7 CFR Part 245

Civil rights, Food and Nutrition Service, Food assistance programs, Grant programs-education, Grant programs-health, Infants and children, Milk, Reporting and recordkeeping requirements, School breakfast and lunch programs.

Accordingly, 7 CFR parts 210, 215, 220, 235, and 245 are amended as follows:

Part 210—NATIONAL SCHOOL LUNCH PROGRAM

1. The authority citation for 7 CFR part 210 continues to read as follows:

Authority: 42 U.S.C. 1751–1760, 1779.

2. In § 210.2,

a. The definition of *Child* is amended by removing the words ''handicapped'' and ''handicaps'' wherever they appear and adding in their place the words ''disabled'' and ''disabilities'' respectively.

b. The definition of *Handicapped student* is amended by removing the words ''Handicapped student'', adding in their place the words ''Student with disabilities'', and redesignating the paragraph in alphabetical order.

c. The definition of *School* is amended by adding the word ''or'' before paragraph (c) and by removing the words ''; or (d) with respect to the Commonwealth of Puerto Rico, nonprofit child care centers certified as such by the Governor of Puerto Rico''.

d. The definition of *7 CFR part 3015* is revised, and the Note following the definition is removed.

e. New definitions *7 CFR part 3017, 7 CFR part 3018* and *7 CFR part 3052* are added.

f. The definition of *State* is revised, and

g. The definition of *State food distribution advisory council* is removed in its entirety.

The additions and revisions read as follows:

§ 210.2 Definitions.

* * * * *

7 CFR part 3015 means the Uniform Federal Assistance Regulations published by the Department to implement OMB Circulars A–21, A–87, A–102, A–110, and A–122; and Executive Order 12372. (For availability of OMB Circulars referenced in this definition, see 5 CFR 1310.3.)

7 CFR part 3017 means the Department's regulation to implement Executive Order 12549, covering governmentwide rules on suspension and debarment as well as The Drug Free Workplace Act of 1988.

7 CFR part 3018 means the Department's Common Rule regarding Governmentwide New Restrictions on Lobbying. Part 3018 implements the requirements established by section 319 of the 1990 Appropriations Act for the Department of Interior and Related Agencies (Pub. L. 101–121).

7 CFR part 3052 means the Department's regulations implementing OMB Circular A–133, ''Audits of State, Local Governments, and Non-Profit Organizations.'' (For availability of OMB Circulars referenced in this definition, see 5 CFR 1310.3.)

State means any of the 50 States, District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and, as applicable, American Samoa and the Commonwealth of the Northern Marianas.

* * * * *

3. In § 210.8, a new sentence is added to the end of paragraph (c)(1) to read as follows:

§ 210.8 Claims for reimbursement.

* * * * *

(c) * * *

(1) * * * If a single State agency administers any combination of the Child Nutrition Programs, a school food authority shall be able to use a common claim form with respect to claims for reimbursement for meals served under those programs.

* * * * *

4. In § 210.9, the heading of paragraph (b) and the first two sentences of the introductory text are revised, and a new sentence is added after the second sentence.

The addition and revisions read as follows:

§ 210.9 Agreement with State agency.

* * * * *

(b) *Agreement.* Each school food authority approved to participate in the program shall enter into a written agreement with the State agency that may be amended as necessary. Nothing in the preceding sentence shall be construed to limit the ability of the State agency to suspend or terminate the agreement in accordance with § 210.25. If a single State agency administers any combination of the Child Nutrition Programs, that State agency shall provide each school food authority with a single agreement with respect to the operation of those programs. * * *

* * * * *

5. In § 210.13, paragraph (b) is redesignated as paragraph (c), and a new paragraph (b) is added, to read as follows:

§ 210.13 Facilities management.

* * * * *

(b) *Food safety inspections.*—(1) *In general.* Except as provided in paragraph (b)(2) of this section, schools shall, at least once during each school year, obtain a food safety inspection conducted by a State or local governmental agency responsible for food safety inspections.

(2) *Exception.* Paragraph (b)(1) of this section shall not apply to a school if a food safety inspection of the school is required by a State or local governmental agency responsible for food safety inspections.

* * * * *

§ 210.18 [Amended]

6. In § 210.18,

a. The third sentence of paragraph (a) is amended by removing the words '', in lieu of implementing the provisions of § 210.18a of this part for school year 1991/1992''.

b. The fourth sentence of paragraph (a) is amended by removing the reference ''§ 210.30 of this part'' and adding in its place the reference ''§ 210.29''.

c. The undesignated paragraph after paragraph (i)(3)(i)(B) is amended by removing the parenthetical phrase ''(but not less than 10 lunches)'' and adding in its place the new parenthetical phrase ''(but not less than 100 lunches)''.

d. The seventh sentence of paragraph (j) is amended by removing the reference ''§ 210.30 (d)(3)'' and adding in its place the reference ''§ 210.29 (d)(3)''.

e. The first sentence paragraph (q) is amended by removing the reference ''§ 210.30 (d)(2) of this part'' and adding in its place the reference ''§ 210.29 (d)(2)'', and

f. The first sentence of paragraph (r) is amended by removing the reference ''§ 210.30 (d)(2) of this part'' and adding in its place the reference ''§ 210.29 (d)(2)''.

§ 210.18a [Removed]

7. Section 210.18a is removed in its entirety.

8. In § 210.19,

a. The third sentence of paragraph (a)(6) is amended by removing the reference ''or § 210.18a of the part''.

b. Paragraph (b) is revised.

c. The third sentence of paragraph (c)(2)(ii) is amended by removing the reference ''or § 210.18a of this part''.

The revision reads as follows:

§ 210.19 Additional responsibilities.

* * * * *

(b) *Donated food distribution information.* Information on schools eligible to receive donated foods available under section 6 of the National School Lunch Act (42 U.S.C. 1755) shall be prepared each year by the State agency with accompanying information on the average daily number of lunches to be served in such schools. This information shall be prepared as early as practicable each school year and forwarded no later than September 1 to the Distributing agency. The State agency shall be responsible for promptly revising the information to reflect additions or deletions of eligible schools, and for providing such adjustments in participation as are determined necessary by the State agency. Schools shall be consulted by the Distributing agency with respect to the needs of such schools relating to the manner of selection and distribution of commodity assistance.

* * * * *

§ 210.20 [Amended]

9. In § 210.20,

a. Paragraph (a)(7) is amended by removing the reference ''§ 210.28 (d)'' adding in its place the reference ''§ 250.13(k) of this chapter''.

b. Paragraph (b)(11) is amended by removing the reference ''§ 210.28 (d)'' and adding in its place the reference ''§ 250.13(k) of this chapter''.

10. In § 210.21, a new paragraph (d) is added to read as follows:

§ 210.21 Procurement.

* * * * *

(d) *Buy American.*—(1) *Definition of domestic commodity or product.* In this paragraph (d), the term 'domestic commodity or product' means—

(i) An agricultural commodity that is produced in the United States; and

(ii) A food product that is processed in the United States substantially using agricultural commodities that are produced in the United States.

(2) *Requirement.* (i) *In general.* Subject to paragraph (d)(2)(ii) of this section, the Department shall require that a school food authority purchase, to the maximum extent practicable, domestic commodities or products.

(ii) *Limitations.* Paragraph (d)(2)(i) of this section shall apply only to—

(A) A school food authority located in the contiguous United States; and

(B) A purchase of domestic commodity or product for the school lunch program under this part.

(3) *Applicability to Hawaii.* Paragraph (d)(2)(i) of this section shall apply to a school food authority in Hawaii with respect to domestic commodities or products that are produced in Hawaii in sufficient quantities to meet the needs of meals provided under the school lunch program under this part.

§ 210.23 [Amended]

11. In § 210.23, the first sentence of paragraph (b) is amended by removing the word ''handicap'' and adding in its place the word ''disability''.

§ 210.26 [Amended]

12. In § 210.26, the first sentence of the paragraph is amended by removing the word ''$10,000'' and adding in its place the word ''$25,000''.

§ 210.27 [Amended]

13. In § 210.27, the paragraph is amended by removing the words ''neither the Department nor the State agency shall'' and adding the words ''the Department shall not''.

§ 210.28 [Removed]

14. § 210.28 is removed in its entirety.

§§ 210.29, 210.30, 210.31, and 210.32 [Redesignated as §§ 210.28, 210.29, 210.30 and 210.31]

15. Sections 210.29, 210.30, 210.31, and 210.32 are redesignated as 210.28, 210.29, 210.30, and 210.31, respectively.

Part 215—SPECIAL MILK PROGRAM FOR CHILDREN

1. The authority citation for 7 CFR part 215 continues to read as follows:

Authority: 42 U.S.C. 1772, 1779.

2. In § 215.2,

a. Paragraph (e–1) is amended by removing the word ''handicapped'' wherever it appears and adding in its place the word ''disabled''.

b. Paragraph (x–1) is revised, and the Note following the definition is removed.

c. Paragraph (x–2) is redesignated as paragraph (x–5).

d. New paragraphs (x–2), (x–3) and (x–4) are added, and

e. Paragraph (y) is revised.

The additions and revisions read as follows:

§ 215.2 Definitions.

* * * * *

(x–1) *7 CFR part 3015* means the Uniform Federal Assistance Regulations published by the Department to implement OMB Circulars A–21, A–87, A–102, A–110, and A–122; and Executive Order 12372. (For availability of OMB Circulars referenced in this definition, see 5 CFR 1310.3.)

(x–2) *7 CFR part 3017* means the Department's regulation to implement Executive Order 12549, covering governmentwide rules on suspension and debarment as well as The Drug Free Workplace Act of 1988.

(x–3) *7 CFR part 3018* means the Department's Common Rule regarding Governmentwide New Restrictions on Lobbying. Part 3018 implements the requirements established by section 319 of the 1990 Appropriations Act for the Department of Interior and Related Agencies (Pub. L. 101–121).

(x–4) *7 CFR part 3052* means the Department's regulations implementing OMB Circular A–133, ''Audits of State, Local Governments, and Non-Profit Organizations.'' (For availability of OMB Circulars referenced in this definition, see 5 CFR 1310.3.)

* * * * *

(y) *State* means any of the 50 States, District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and, as applicable, American Samoa and the Commonwealth of the Northern Marianas.

* * * * *

§ 215.6 [Amended]

3. In § 215.6, paragraph (b) is amended by removing ''$10,000'' and adding in its place ''$25,000''.

4. In § 215.7,

a. The second sentence of paragraph (b) introductory text is amended by removing the words ''and thereafter at least annually'', and

b. The first sentence of paragraph (d) introductory text is removed and three sentences are added in its place to read as follows:

§ 215.7 Requirements for participation.

* * * * *

(d) Each school food authority or child care institution approved to participate in the program shall enter into a written agreement with the State agency or FNSRO, as applicable, that may be amended as necessary. Nothing in the preceding sentence shall be construed to limit the ability of the State

agency to suspend or terminate the agreement in accordance with § 215.15. If a single State agency administers any combination of the Child Nutrition Programs, that State agency shall provide each SFA with a single agreement with respect to the operation of those programs. * * *

* * * * *

5. In § 215.10, paragraph (b) is amended by adding a new sentence between the second and third sentences to read as follows:

§ 215.10 Reimbursement procedures.

* * * * *

(b) * * * If a single State agency administers any combination of the Child Nutrition Programs, the SFA shall be able to use a common claim form with respect to claims for reimbursement for meals served under those programs. * * *

* * * * *

6. In § 215.13,

a. Paragraphs (a) through (c) are removed.

b. Paragraphs (d) and (e) are redesignated as (c) and (d), respectively, and

c. New paragraphs (a) and (b) are added to read as follows:

§ 215.13 Management evaluations and audits.

(a) State agencies and school food authorities shall comply with the requirements of part 3015 of this title concerning the audit requirements for recipients and subrecipients of the Department's financial assistance.

(b) These requirements call for organization-wide financial and compliance audits to ascertain whether financial operations are conducted properly; financial statements are presented fairly; recipients and subrecipients comply with the laws and regulations that affect the expenditures of Federal funds; recipients and subrecipients have established procedures to meet the objectives of federally assisted programs; and recipients and subrecipients are providing accurate and reliable information concerning grant funds. States and school food authorities shall use their own procedures to arrange for and prescribe the scope of independent audits, provided that such audits comply with the requirements set forth in part 3015 of this title.

* * * * *

Appendix to Part 215 [Removed]

7. In part 215, the Appendix is removed in its entirety.

PART 220—SCHOOL BREAKFAST PROGRAM

1. The authority citation for 7 CFR part 220 continues to read as follows:

Authority: 42 U.S.C. 1773, 1779, unless otherwise noted.

2. In § 220.2,

a. Paragraph (c) is amended by removing the word ''handicapped'' wherever it appears and adding in its place the word ''disabled''.

b. Paragraph (u) is amended by adding the word ''or'' before paragraph (u)(3), and by removing the words ''; or (4) with respect to the Commonwealth of Puerto Rico, nonprofit child care centers certified as such by the Governor of Puerto Rico''.

c. Paragraph (x–1) is revised, and the Note following the definition is removed.

d. New paragraphs (x–2), (x–3) and (x–4) are added, and

e. Paragraph (y) is revised.

The additions and revisions read as follows:

§ 220.2 Definitions.

* * * * *

(x–1) *7 CFR part 3015* means the Uniform Federal Assistance Regulations published by the Department to implement OMB Circulars A–21, A–87, A–102, A–110, and A–122; and Executive Order 12372. (For availability of OMB Circulars referenced in this definition, see 5 CFR 1310.3.)

(x–2) *7 CFR part 3017* means the Department's regulation to implement Executive Order 12549, covering governmentwide rules on suspension and debarment as well as The Drug Free Workplace Act of 1988.

(x–3) *7 CFR part 3018* means the Department's Common Rule regarding Governmentwide New Restrictions on Lobbying. Part 3018 implements the requirements established by section 319 of the 1990 Appropriations Act for the Department of Interior and Related Agencies (Pub. L. 101–121).

(x–4) *7 CFR part 3052* means the Department's regulations implementing A–133, ''Audits of State, Local Governments, and Non-Profit Organizations.'' (For availability of OMB Circulars referenced in this definition, see 5 CFR 1310.3.)

(y) *State* means any of the 50 States, District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and, as applicable, American Samoa and the Commonwealth of the Northern Marianas.

* * * * *

§ 220.6 [Amended]

3. In § 220.6, paragraph (b)(1) is amended by removing ''$10,000'' and adding in its place ''$25,000''.

4. In § 220.7, a.

a. New paragraph (a–2) is added, and

b. The first sentence of paragraph (e) introductory text is removed and three new sentences are added in its place.

The additions read as follows:

§ 220.7 Requirements for participation.

* * * * *

(a–2) Schools shall, at least once during each school year, obtain a food safety inspection conducted by a State or local governmental agency responsible for food safety inspections. However, this requirement shall not apply to a school if a food safety inspection of the school is required by a State or local governmental agency responsible for food safety inspections.

* * * * *

(e) Each school food authority approved to participate in the program shall enter into a written agreement with the State agency or the Department through the FNSRO, as applicable, that may be amended as necessary. Nothing in the preceding sentence shall be construed to limit the ability of the State agency or the FNSRO to suspend or terminate the agreement in accordance with § 220.18. If a single State agency administers any combination of the Child Nutrition Programs, that State agency shall provide each SFA with a single agreement with respect to the operation of those programs.* * *

* * * * *

5. In § 220.11, paragraph (b) is amended by adding a new sentence between the second and third sentences to read as follows:

§ 220.11 Reimbursement procedures.

* * * * *

(b) * * * If a single State agency administers any combination of the Child Nutrition Programs, the SFA shall be able to use a common claim form with respect to claims for reimbursement for meals served under those programs. * * *

* * * * *

§ 220.13 [Amended]

6. In § 220.13, paragraph (k) is removed in its entirety.

7. In § 220.15,

a. Paragraphs (a), (b), (c), and (d) are removed and paragraphs (e) and (f) are redesignated as paragraphs (c) and (d), respectively, and

b. New paragraphs (a) and (b) are added.

The additions read as follows:

§ 220.15 Management evaluations and audits.

(a) State agencies and school food authorities shall comply with the requirements of part 3015 of this title concerning the audit requirements for recipients and subrecipients of the Department's financial assistance.

(b) These requirements call for organization-wide financial and compliance audits to ascertain whether financial operations are conducted properly; financial statements are presented fairly; recipients and subrecipients comply with the laws and regulations that affect the expenditures of Federal funds; recipients and subrecipients have established procedures to meet the objectives of federally assisted programs; and recipients and subrecipients are providing accurate and reliable information concerning grant funds. States and school food authorities shall use their own procedures to arrange for and prescribe the scope of independent audits, provided that such audits comply with the requirements set forth in part 3016 of this title.

* * * * *

8. In § 220.16, a new paragraph (d) is added to read as follows:

§ 220.16 Procurement standards.

* * * * *

(d) *Buy American.*—(1) *Definition of domestic commodity or product.* In this paragraph (d), the term ''domestic commodity or product'' means—

(i) An agricultural commodity that is produced in the United States; and

(ii) A food product that is processed in the United States substantially using agricultural commodities that are produced in the United States.

(2) *Requirement.*—(i) *In general.* Subject to paragraph (d)(2)(ii) of this section, the Department shall require that a school food authority purchase, to the maximum extent practicable, domestic commodities or products.

(ii) *Limitations.* Paragraph (d)(2)(i) of this section shall apply only to—

(A) A school food authority located in the contiguous United States; and

(B) A purchase of domestic commodity or product for the school breakfast program under this part.

(3) *Applicability to Hawaii.* Paragraph (d)(2)(i) of this section shall apply to a school food authority in Hawaii with respect to domestic commodities or products that are produced in Hawaii in sufficient quantities to meet the needs of meals provided under the school breakfast program under this part.

§ 220.17 [Amended]

9. In § 220.17, paragraph (a) is amended by removing the words ''neither the Department nor the State shall'' and adding the words ''the Department shall not''.

Part 235—STATE ADMINISTRATIVE EXPENSE FUNDS

1. The authority citation for 7 CFR part 235 continues to read as follows:

Authority: Secs. 7 and 10 of the Child Nutrition Act of 1966, 80 Stat. 888, 889, as amended (42 U.S.C. 1776, 1779).

2. In § 235.2,

a. Paragraph (o) is revised.

b. Paragraph (q–1) is revised, and the Note following the definition is removed.

c. New paragraphs (q–2), (q–3) and (q–4) are added, and

d. Paragraph (r) is revised.

The additions and revisions read as follows:

§ 235.2 Definitions.

* * * * *

(o) *School* means the term as defined in sections 210.2, 215.2(v), 220.2(u), and 226.2 of this chapter, as applicable.

* * * * *

(q–1) 7 *CFR part 3015* means the Uniform Federal Assistance Regulations published by the Department to implement OMB Circulars A–21, A–87, A–102, A–110, and A–122; and Executive Order 12372. (For availability of OMB Circulars referenced in this definition, see 5 CFR 1310.3.)

(q–2) *7 CFR part 3017* means the Department's regulation to implement Executive Order 12549, covering governmentwide rules on suspension and debarment as well as The Drug Free Workplace Act of 1988.

(q–3) *7 CFR part 3018* means the Department's Common Rule regarding Governmentwide New Restrictions on Lobbying. Part 3018 implements the requirements established by section 319 of the 1990 Appropriations Act for the Department of Interior and Related Agencies (Pub. L. 101–121).

(q–4) *7 CFR part 3052* means the Department's regulations implementing OMB Circular A–133, ''Audits of State, Local Governments, and Non-Profit Organizations.'' (For availability of OMB Circulars referenced in this definition, see 5 CFR 1310.3.)

(r) *State* means any of the 50 States, District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and, as applicable, American Samoa and the Commonwealth of the Northern Marianas.

* * * * *

3. In § 235.4,

a. Paragraph (b) is amended by removing the words ''or § 210.18a of this title'' wherever they appear; and

b. A new paragraph (h) is added to read as follows.

§ 235.4 Allocation of funds to States.

* * * * *

(h) *Withholding SAE funds.* The Secretary may withhold some or all of the funds allocated to the State agency under this section if the Secretary determines that the State agency is seriously deficient in the administration of any program for which State administrative expense funds are provided under this part or in the compliance of any regulation issued pursuant to those programs. On a subsequent determination by the Secretary that State agency administration of the programs or compliance with regulations is no longer seriously deficient and is operated in an acceptable manner, the Secretary may allocate some or all of the funds withheld.

4. In § 235.5,

a. The third sentence of paragraph (a) introductory text is amended by removing the words ''for the fiscal year'',

b. The fifth sentence of paragraph (a) is amended by removing the word ''fiscal'' and adding in its place the word ''base'',

c. Paragraphs (b) and (c) are revised, and

d. The fourth sentence of paragraph (d) is revised.

The revisions read as follows:

§ 235.5 Payments to States.

* * * * *

(b) *Administrative plan.* (1) Each State agency shall submit, subject to FNS approval, an initial State Administrative Expense plan based upon guidance provided by FNS. This base year plan shall include:

(i) The staffing pattern for State level personnel;

(ii) A budget for the forthcoming fiscal year showing projected amounts (combined SAE and State funds) by cost category;

(iii) The total amount of budgeted funds to be provided from State sources;

(iv) The total amount of budgeted funds to be provided under this part;

(v) The State agency's estimate of the total amount of budgeted funds (combined SAE and State funds) attributable to administration of the School Nutrition Programs (National School Lunch, School Breakfast and Special Milk Programs), Child and Adult Care Food Program, and/or Food

Distribution Program in schools and child and adult care institutions and to each of the major activity areas of the State agency; and

(vi) The State agency's estimate of the total Child and Adult Care Food Program audit funds to be used for the forthcoming fiscal year.

(2) These activity areas shall be defined and described by the State agency in accordance with guidance issued by FNS and may include such activities as program monitoring, technical assistance, Federal reporting/claims processing, policy implementation, and allocation of foods to recipient agencies.

(3) Except in specific instances where determined necessary by FNS, State agencies shall not be required to maintain expenditure records by activity area or program. State agencies shall refer to Office of Management and Budget Circular A–87, Attachment B, to establish cost categories.

(4) FNS shall approve a State agency's plan, or any amendment to such plan under paragraph (c) of this section, if it determines that the plan or amendment is consistent with program administrative needs and SAE requirements under this part.

(5) To the extent practicable, State agencies shall implement their approved plans (as amended). FNS shall monitor State agency implementation of the plans through management evaluations, State agency reports submitted under this part, audits, and through other available means.

(6) FNS may expand plan requirements for individual State agencies in order to address specific administrative deficiencies which affect compliance with program requirements and which have been identified by FNS through its monitoring activities.

(c) *Amendments to the administrative plan.* A State agency may amend its plan at any time to reflect changes in funding or activities, except that, if such changes are substantive as defined in the June 5, 1997 guidance, and any amendments or updates to this guidance, the State agency shall amend its plan in accordance with guidance provided by FNS. Plan amendments shall provide information in a format consistent with that provided in the State agency's plan, but shall only require FNS approval if it results in a substantive change as defined by FNS.

(d) * * * Reallocated funds shall be made available for payment to a State agency upon approval by FNS of the State agency's amendment to the base year plan which covers the reallocated funds, if applicable. * * *

* * * * *

§ 235.6 [Amended]

5. In § 235.6,

a. The second sentence of paragraph (a) is amended by removing the words ''up to ten percent of the'',

b. Paragraph (a–2) is amended by removing the reference ''or § 210.18a of this title'', and

c. Paragraph (g)(1) is amended by removing ''$10,000'' and adding in its place ''$25,000''.

§ 235.11 [Amended]

6. In § 235.11, paragraph (b)(2) is amended by removing the references ''or § 210.18a of this title'', ''or § 210.18a'' and '', § 210.18a,'' wherever they appear.

7. Section 235.12 is revised to read as follows:

§ 235.12 Information collection/recordkeeping-OMB assigned control numbers.

7 CFR section where requirements are described	Current OMB control number
235.3(b).	
235.4(d), (e)	0584–0067

PART 245—DETERMINING ELIGIBILITY FOR FREE AND REDUCED PRICE MEALS AND FREE MILK IN SCHOOLS

1. The authority citation for 7 CFR part 245 continues to read as follows:

Authority: Secs. 3, 4, and 10 of the Child Nutrition Act of 1966, 80 Stat. 885, 886, 889, as amended (42 U.S.C. 1772, 1773, 1779); secs. 2–12, 60 Stat. 230, as amended (42 U.S.C. 1751–1760).

§ 245.5 [Amended]

2. In § 245.5,

a. The first sentence of paragraph (a) introductory text, is amended by removing the reference ''(o)(2) of part 210''; and

b. Paragraph (a)(1)(x) is amended by removing the word ''handicap'' and adding in its place the word ''disability''.

§ 245.6a [Amended]

3. In § 245.6a, paragraph (d) is amended by removing the word ''handicap'' and adding in its place the word ''disability''.

4. In § 245.10,

a. Paragraph (a) introductory text is amended by adding a sentence between the first and second sentences.

b. Paragraph (a)(2) is revised, and

c. Paragraph (c) is amended by adding two new sentences to the beginning of the paragraph.

The revision and additions read as follows:

§ 245.10 Action by School Food Authorities.

(a) * * * Once approved, the policy statement shall be a permanent document which may be amended as necessary, except as specified in paragraph (c) of this section. * * *

* * * * *

(2) An assurance that for children who are not categorically eligible for free and reduced price benefits the school food authority will determine eligibility for free and reduced price meals or free milk in accordance with the current Income Eligibility Guidelines.

* * * * *

(c) Each school food authority shall amend its permanent free and reduced price policy statement to reflect substantive changes. Any amendment to a policy shall be approved by the State agency prior to implementation, or as provided in paragraph (e) of this section. * * *

* * * * *

5. In § 245.11, the first sentence of paragraph (a)(1) revised to read as follows:

§ 245.11 Action by State agencies and FNSRO's.

(a) * * *

(1) As necessary, each State agency or FNSRO, as applicable, shall issue a prototype free and reduced price policy statement and any other instructions to ensure that each school food authority is fully informed of the provisions of this part. * * *

* * * * *

§ 245.12 [Amended]

6. In § 245.12, paragraph (a)(1) is amended by removing ''$10,000'' and adding in its place ''$25,000''.

§ 245.13 [Removed]

7. Section 245.13 is removed in its entirety.

§ 245.14 [Redesignated as § 245.13]

8. Section 245.14 is redesignated as § 245.13.

Dated: September 10, 1999.

BILLING CODE 3410–30–U

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 930

[Docket No. FV99–930–2 FIR]

Tart Cherries Grown in the States of Michigan, et al.; Revision of the Sampling Techniques for Whole Block and Partial Block Diversions and Increasing the Number of Partial Block Diversions Per Season for Tart Cherries

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: The Department of Agriculture (Department) is adopting, as a final rule, without change, the provisions of an interim final rule revising the sampling techniques for whole and partial block diversions and increasing the number of allowable partial block diversions under the Federal marketing order for tart cherries. This rule continues in effect making the voluntary grower diversion program more flexible for grower participants. The order regulates the handling of tart cherries grown in the States of Michigan, New York, Pennsylvania, Oregon, Utah, Washington, and Wisconsin and is administered locally by the Cherry Industry Administrative Board (Board).

EFFECTIVE DATE: October 20, 1999.

FOR FURTHER INFORMATION CONTACT: Patricia A. Petrella or Kenneth G. Johnson, Marketing Order Administration Branch, F&V, AMS, USDA, room 2530–S, P.O. Box 96456, Washington, DC 20090–6456, telephone: (202) 720–2491.

Small businesses may request information on complying with this regulation by contacting Jay Guerber, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, P.O. Box 96456, room 2525–S, Washington, DC 20090–6456; telephone (202) 720–2491; Fax: (202) 720–5698; or E-mail: Jay.Guerber@usda.gov.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement and Order No. 930 (7 CFR part 930) regulating the handling of tart cherries grown in the States of Michigan, New York, Pennsylvania, Oregon, Utah, Washington, and Wisconsin, hereinafter referred to as the ''order.'' This order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the ''Act.''

The Department of Agriculture (Department or USDA) is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have retroactive effect. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. A handler is afforded the opportunity for a hearing on the petition. After the hearing the Secretary would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review the Secretary's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

This rule continues in effect modifications to the handling regulations that revise the sampling techniques used in determining the amount of production diverted from whole blocks and partial blocks of cherry trees, and increases the number of allowable partial block diversions per season under the order. Whole block diversion results when an entire orchard block is left unharvested. Partial block diversion occurs when a contiguous portion of a definable block is diverted. An orchard block is defined as a group of cherry trees of similar age, with rows aligned in the same direction, and having definable boundaries (e.g., roads, ditches, or other permanent landmarks).

Section 930.58 of the tart cherry marketing order provides authority for voluntary grower diversion. Growers can divert all or a portion of their cherries which otherwise, upon delivery to a handler, would be subject to volume regulation. One of the ways handlers can satisfy their restricted percentage obligations is by redeeming grower diversion certificates. After the Board confirms that the grower diverted his/her crop, the Board issues a diversion certificate to the grower stating the weight of cherries diverted. The grower can present the certificate to a handler in lieu of actual cherries. The handler, in turn, can present the certificate to the Board. The Board then applies the weight of cherries represented by the certificate against the handler's restricted percentage obligation, which reduces the handler's restricted obligation.

Section 930.158 provides rules and regulations for grower diversion. Included in this section are procedures and deadline dates for applying for diversion and choosing the type of diversion available to growers. There are four types of diversion-random row, whole block, partial block, and in-orchard tank. This rule only makes changes to the whole and partial block diversion.

Grower applications for diversion must be filed by April 15 and growers must inform the Board by July 1 whether they elect to whole or partial block divert their tart cherries. If whole block or partial block diversion is not selected by July 1, the grower would have to choose the random row method or the in-orchard tank methods of diversion.

In whole and partial block diversion, the quantity of the fruit diverted is determined by application of a statistical sampling protocol. Prior to the issuance of the interim final rule published June 7, 1999, (64 FR 30229), § 930.158 specified that, if a block had 5 rows or less, 3 rows were randomly chosen to be sampled. If a block had 6 to 15 rows, 4 rows were randomly chosen to be sampled. If a block had 16 or more rows, 5 rows were randomly chosen to be sampled. The rows chosen had to be contiguous, and 10 contiguous tree sites were sampled from each row.

During its review of the grower diversion program the Board concluded that the sampling procedure mentioned above, which is based solely on the number of rows in a block, required more trees to be sampled on smaller blocks or on blocks that had shorter rows than was necessary to accurately determine the amount of tart cherries diverted. The Board determined that a sample size of approximately 10 to 15 percent, which had been taken on larger orchard blocks with more trees in a row, was adequate to accurately calculate the quantity of fruit diverted from such orchard blocks. Therefore, the Board recommended that the regulations be amended so that the sample taken from both large and small orchard blocks would be about 10 to 15 percent.

To achieve this goal, the Board recommended that the sampling procedure be revised by taking into account the number of rows and number of tree sites in each particular block. The sampling method used would be

the one requiring the smaller number of trees. A tree site is a planted tree or an area where a tree was planted and may have been uprooted or died. The revised sampling procedure continues in effect as follows: If a block has 5 rows or less, or 200 or less tree sites, 3 rows would be randomly chosen to be sampled. If a block has 6 to 15 rows or 201–400 tree sites, 4 rows would be randomly chosen to be sampled. If a block has 16 or more rows and greater than 400 tree sites, 5 rows would be randomly chosen to be sampled. This procedure is expected to result in a sample size of about 12 to 15 percent whether the orchard block has long rows or short rows.

For example, under the old sampling criteria, if a grower had 10 rows with 20 tree sites per row (10×20 equals 200 tree sites), 4 rows would have to be sampled. Under the revised rules in effect, only 3 rows would have to be sampled since there are 200 tree sites.

As required, prior to sampling, the grower must notify the Board to allow observation of the sampling process by a compliance officer. The sampling method used would continue to be the one requiring the smaller number of trees to be sampled. The compliance officer will use an orchard map in determining how many trees to sample.

To determine the yield for whole block diversion when five rows are to be sampled, 10 contiguous tree sites in each of the five rows are sampled. A total of 50 tree sites would be sampled ((10 original tree sites) $\times$ (5 rows)=50 trees). If a total of 4,600 pounds is harvested from the sample trees and this is divided by 50 tree sites, a yield of 92 pounds per tree site will be obtained. The yield for the block is found by multiplying the calculated 92 pounds per tree site yield by the 880 trees that were mapped in the block to yield 80,960 pounds for that block.

For partial block diversion, the yield for the partial block is found by multiplying the calculated pounds per tree site yield by the number of trees in the rows mapped in the partial block. Partial blocks shall consist of contiguous rows.

After harvest, the compliance officer could again visit the grower's orchard to verify that diversion actually took place. A diversion certificate would be issued for an amount equal to the volume of cherries diverted. The grower could then present the certificate to a handler to be redeemed.

The second change to the regulations that continue in effect increased the number of partial blocks that growers may divert each season. Partial block diversion is when a contiguous portion of a definable block is diverted. Using this method of diversion, a grower having a block with 35 rows could divert contiguous rows 1 through 22 and harvest rows 23 through 35. Section 930.158(b)(3) previously limited the number of partial block diversions to one partial block diversion for each grower per year. This limitation was intended to alleviate the time that compliance officers needed to spend observing sampling and diversion activities at growers' orchards and the administrative costs involved.

After one year of diversion under these rules, the Board reevaluated the program and determined that the number of partial block diversions per grower per year could be increased from one to five, or 50 percent of a producer's total number of blocks. For example, if a grower had 12 separate orchard blocks mapped by the Board, such grower would now be able to divert up to 6 partial blocks. After reviewing last year's operations, the Board believed that its administrative costs would not increase materially by making this change. Because this method of diversion allows growers to divert cherries based on quality, the Board further believed that the ability to take advantage of partial block diversion on a larger scale would continue to foster increased participation in the voluntary program.

The Regulatory Flexibility Act and Effects on Small Businesses

The Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities and has prepared this final regulatory flexibility analysis. The Regulatory Flexibility Act (RFA) would allow AMS to certify that regulations do not have a significant economic impact on a substantial number of small entities. However, as a matter of general policy, AMS' Fruit and Vegetable Programs (Programs) no longer opt for such certification, but rather perform regulatory flexibility analyses for any rulemaking that would generate the interest of a significant number of small entities. Performing such analyses shifts the Programs' efforts from determining whether regulatory flexibility analyses are required to the consideration of regulatory options and economic or regulatory impacts.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 40 handlers of tart cherries who are subject to regulation under the order and approximately 900 producers of tart cherries in the regulated area. The number of reported tart cherry producers in the regulated area is lower this crop year than in previous years (down from 1,220 producers) due to the Board receiving more accurate producer information. Small agricultural service firms, which includes handlers, have been defined by the Small Business Administration (13 CFR 121.601) as those having annual receipts of less than $5,000,000, and small agricultural producers are defined as those having annual receipts of less than $500,000. The majority of handlers and producers of tart cherries may be classified as small entities.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at the following website: *http://www.ams.usda.gov/fv/moab.html*. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

The principal demand for tart cherries is in the form of processed products. Tart cherries are dried, frozen, canned, juiced and pureed. During the period 1994/95 through 1998/99, approximately 90 percent of the U.S. tart cherry crop, or 288.3 million pounds, were processed annually. Of the 288.3 million pounds of tart cherries processed, 63 percent was frozen, 25 percent canned and 4 percent utilized for juice. The remaining 8 percent was dried or assembled into juice packs.

In 1998, 37.7 million pounds of cherries were diverted in the orchard. Of that total, 16.3 million pounds were whole block diversions and 8.4 million were partial block diversions. The balance of the grower diversions was random row and in-orchard tank diversions.

Section 930.58 of the tart cherry marketing order provides authority for voluntary grower diversion. Growers can divert all or a portion of their cherries which otherwise, upon delivery to a handler, would be subject to volume regulation. One of the ways handlers can satisfy their restricted percentage obligations is by redeeming grower diversion certificates. After the Board confirms that the grower diverted his/her crop, the Board issues the grower a diversion certificate stating the weight of cherries diverted. The grower

can then present the certificate to a handler in lieu of actual cherries. The handler, in turn, can present the certificate to the Board. The Board then applies the weight of cherries represented by the certificate against the handler's restricted percentage obligation, which reduces the handler's restricted obligation.

Section 930.158 provides rules and regulations for grower diversion. Included in this section are procedures and dates for applying for diversion. There are four types of diversion. However, this action only makes changes to the rules and regulations for whole and partial block diversion.

Grower applications for diversion must be filed by April 15 and growers must inform the Board by July 1 whether they elect to whole or partial block divert their tart cherries. If whole block or partial block diversion is not selected by July 1, the grower would have to choose the random row method or the in-orchard tank methods of diversion.

In whole and partial block diversion, the quantity of the fruit diverted is determined by application of a statistical sampling protocol. Prior to the issuance of the interim final rule published June 7, 1999, (64 FR 30229), § 930.158 specified that, if a block had 5 rows or less, 3 rows were randomly chosen to be sampled. If a block had 6 to 15 rows, 4 rows were randomly chosen to be sampled. If a block had 16 or more rows, 5 rows were randomly chosen to be sampled. Ten contiguous tree sites were sampled from each row.

During its review of the grower diversion program, the Board concluded that the sampling procedure mentioned previously, which was based solely on the number of rows in a block, required more trees to be sampled on smaller blocks or on blocks that had shorter rows than was necessary to accurately determine the amount of tart cherries diverted. The Board determined that a sample size of approximately 10 to 15 percent, which had been taken on larger orchard blocks with more trees in a row, was adequate to accurately calculate the quantity of fruit diverted from such orchard blocks. That sample size could easily be twice as large in small orchards having fewer trees per row. Therefore, the Board recommended that the regulations be amended so that the sample taken from both large and small orchard blocks would be about 10 to 15 percent.

To achieve this goal, the Board recommended that the sampling procedure be revised by taking into account the number of rows and number of tree sites in each particular block. The sampling method used would be the one requiring the smaller number of trees. A tree site is a planted tree or an area where a tree was planted and may have been uprooted or died. The revised sampling procedure continues in effect as follows: If a block has 5 rows or less, or 200 or less tree sites, 3 rows would be randomly chosen to be sampled. If a block has 6 to 15 rows or 201–400 tree sites, 4 rows would be randomly chosen to be sampled. If a block has 16 or more rows and greater than 400 tree sites, 5 rows would be randomly chosen to be sampled. This procedure is expected to result in a sample size of about 12 to 15 percent whether the orchard block has long rows or short rows.

The second change to the regulations that continue in effect increased the number of partial blocks that growers may divert each season. Partial block diversion is when a contiguous portion of a definable block is diverted. Using this method of diversion, a grower having a block with 35 rows could divert contiguous rows 1 through 22 and harvest rows 23 through 35. Section 930.158(b)(3) previously limited the number of partial block diversions to one partial block diversion for each grower per year. This limitation was intended to alleviate the time that compliance officers needed to spend observing sampling and diversion activities at growers' orchards and the administrative costs involved.

After one year of diversion under these rules, the Board reevaluated the program and determined that the number of partial block diversions per grower per year could be increased from one to five, or 50 percent of a producer's total number of blocks without materially increasing administrative costs. Because this method of diversion allows growers to divert cherries based on quality, the Board further believed that the ability to take advantage of partial block diversion on a larger scale would continue to foster increased participation in the voluntary program.

The Board considered not changing the partial block diversion limitation as well as allowing an unlimited number of diversions. However, after much discussion, the Board decided that the diversion program could best be improved by increasing the opportunities for grower diversion, but believed a reasonable limit was needed to keep Board administrative costs as low as possible. Last year's experience showed that partial block diversion is the most flexible diversion option available to the grower because it allows growers to divert tart cherries based on quality. For example, if a grower observes that part of a block of tart cherries is of low quality, the problem rows can be diverted allowing the grower to deliver high quality fruit to a handler. The ability to choose in this manner benefits growers, handlers, and the industry as a whole.

At the end of the upcoming season, the Board plans to review the number of partial block diversions approved and decide if the number of such diversions is appropriate for upcoming crop years.

This rule does not require any new forms and will not impose any additional recordkeeping requirements on either small or large tart cherry diversion participants. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sectors. In addition, the Department has not identified any relevant Federal rules that duplicate, overlap or conflict with this rule.

In compliance with Office of Management and Budget (OMB) regulations (5 CFR part 1320) which implement the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the information collection and recordkeeping requirements imposed by this order have been previously approved by OMB and assigned OMB Number 0581–0177.

The Board's meetings were widely publicized throughout the tart cherry industry and all interested persons were invited to attend them and participate in Board deliberations. Like all Board meetings, the December 11–12, 1998, meeting was a public meeting and all entities, both large and small, were able to express their views on these issues. The Board itself is composed of 18 members, of whom 17 members are growers and handlers and one represents the public. Also, the Board has a number of appointed committees to review program issues and make recommendations.

An interim final rule concerning this action was published in the **Federal Register** on June 7, 1999. The Board's staff mailed copies of the rule to all Board members and cherry handlers. In addition, the Office of the Federal Register made the rule available through the Internet. That rule provided a 60-day comment period that ended August 6, 1999. No comments were received.

After consideration of all relevant material presented, including the Board's recommendation, and other information, it is found that finalizing this interim final rule, as published in the **Federal Register** (64 FR 30229), will tend to effectuate the declared policy of the Act.

List of Subjects in 7 CFR Part 930

Marketing agreements, Reporting and recordkeeping requirements, Tart cherries.

For the reasons set forth in the preamble, 7 CFR part 930 is amended as follows:

PART 930—TART CHERRIES GROWN IN THE STATES OF MICHIGAN, NEW YORK, PENNSYLVANIA, OREGON, UTAH, WASHINGTON, AND WISCONSIN

Accordingly, the interim final rule amending 7 CFR part 930 which was published at 64 FR 30229 on June 7, 1999, is adopted as a final rule without change.

Dated: September 14, 1999.

Robert C. Keeney,

Deputy Administrator, Fruit and Vegetable Programs.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1131

[DA–99–05]

Milk in the Central Arizona Marketing Area; Suspension of Certain Provisions of the Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule; suspension.

SUMMARY: This document suspends certain provisions of the Central Arizona Federal milk marketing order (Order 131) from the day after publication in the **Federal Register** until the implementation of Federal order reform on October 1, 1999. The suspension eliminates the requirement that a cooperative association ship at least 50 percent of its receipts to other handler pool plants to maintain pool plant status of a manufacturing plant operated by the cooperative. United Dairymen of Arizona, a cooperative association that represents nearly all of the producers who supply milk to the market, requested the suspension. The suspension is necessary to prevent uneconomical and inefficient movements of milk and to ensure that producers historically associated with the market will continue to have their milk pooled under Order 131.

EFFECTIVE DATE: September 21, 1999, through September 30, 1999.

FOR FURTHER INFORMATION CONTACT: Clifford M. Carman, Marketing Specialist, USDA/AMS/Dairy Programs, Order Formulation Branch, Room 2971, South Building, PO Box 96456, Washington, DC 20090–6456, (202)720–9368, e-mail address clifford.carman@usda.gov.

SUPPLEMENTARY INFORMATION: Prior document in this proceeding:

Notice of Proposed Suspension: Issued July 9, 1999; published July 15, 1999 (64 FR 38144).

The Department is issuing this final rule in conformance with Executive Order 12866.

This final rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have a retroactive effect. This rule will not preempt any state or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may request modification or exemption from such order by filing with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with the law. A handler is afforded the opportunity for a hearing on the petition. After a hearing, the Secretary would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has its principal place of business, has jurisdiction in equity to review the Secretary's ruling on the petition, provided a bill in equity is filed not later than 20 days after the date of the entry of the ruling.

Small Business Consideration

In accordance with the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Agricultural Marketing Service has considered the economic impact of this action on small entities and has certified that this rule will not have a significant economic impact on a substantial number of small entities. For the purpose of the Regulatory Flexibility Act, a dairy farm is considered a ''small business'' if it has an annual gross revenue of less than $500,000, and a dairy products manufacturer is a ''small business'' if it has fewer than 500 employees. For the purposes of determining which dairy farms are ''small businesses,'' the $500,000 per year criterion was used to establish a production guideline of 326,000 pounds per month. Although this guideline does not factor in additional monies that may be received by dairy producers, it should be an inclusive standard for most ''small'' dairy farmers. For purposes of determining a handler's size, if the plant is part of a larger company operating multiple plants that collectively exceed the 500-employee limit, the plant will be considered a large business even if the local plant has fewer than 500 employees.

For the month of March 1999, 100 dairy farmers were producers under Order 131. Of these producers, three were considered small businesses. For the same month, there were five regulated handlers under Order 131. Two of these handlers were considered small businesses.

This final rule will suspend the requirement that a cooperative association ship at least 50 percent of its receipts to other handler pool plants to maintain pool status of a manufacturing plant operated by the cooperative. This rule lessens the regulatory impact of the order on certain milk handlers and tends to ensure that dairy farmers will continue to have their milk priced under the order and thereby receive the benefits that accrue from such pricing. This rule will not result in any additional regulatory burden on handlers in the Central Arizona marketing area since this suspension has been in effect since April 1995.

Preliminary Statement

This order of suspension is issued pursuant to the provisions of the Agricultural Marketing Agreement Act and of the order regulating the handling of milk in the Central Arizona milk marketing area.

Notice of proposed rulemaking was published in the **Federal Register** on July 15, 1999 (64 FR 38144), concerning a proposed suspension of certain provisions of the order. Interested persons were afforded opportunity to file written data, views and arguments thereon. One comment supporting the proposed suspension was received from United Dairymen of Arizona.

After consideration of all relevant material, including the proposal in the notice, the comment received, and other available information, it is hereby found and determined that from the day after publication of this rule in the **Federal Register** through September 30, 1999, the following provisions of the order do not tend to effectuate the declared policy of the Act:

In § 1131.7, paragraph (c), the words ''50 percent or more of'', ''(including the skim milk and butterfat in fluid milk products transferred from its own plant pursuant to this paragraph that is not in

excess of the skim milk and butterfat contained in member producer milk actually received at such plant)'', and ''or the previous 12-month period ending with the current month.''

Statement of Consideration

The rule suspends certain provisions of the Central Arizona Federal milk order through September 30, 1999. Implementation of Federal order reform begins on October 1, 1999. The suspension removes the requirement that a cooperative association that operates a manufacturing plant in the marketing area must ship at least 50 percent of its milk supply during the current month or the previous 12-month period ending with the current month to other handlers' pool plants to maintain the pool status of its manufacturing plant.

The order permits a cooperative association's manufacturing plant, located in the marketing area, to be a pool plant if at least 50 percent of the producer milk of members of the cooperative association is physically received at pool plants of other handlers during the current month or the previous 12-month period ending with the current month.

Reinstatement of the suspension which expired on March 31, 1999, was requested by United Dairymen of Arizona (UDA), a cooperative association that represents nearly all of the dairy farmers who supply the Central Arizona market. UDA states that the pool status of their manufacturing plant is threatened if the suspension is not reinstated. UDA states that the same marketing conditions that warranted the suspension for the past four years still exist. UDA maintains that members who increased their milk production to meet the projected demands of fluid handlers for distribution into Mexico continue to suffer the adverse impact of the collapse of the Mexican peso. Absent a suspension, UDA projects that costly and inefficient movements of milk would have to be made to maintain the pool status of producers who have historically supplied the market and to prevent disorderly marketing in the Central Arizona marketing area.

A review of the current marketing conditions indicates that, absent the suspension, the pool plant status of UDA's manufacturing plant will not be maintained. Thus, costly and inefficient movements of milk would have to be made to maintain pool status of producers who have historically supplied the market and to prevent disorderly marketing in the Central Arizona marketing area. Therefore, the suspension is found to be necessary for the purpose of assuring that producers' milk will not have to be moved in an uneconomic and inefficient manner to assure that producers whose milk has long been associated with the Central Arizona marketing area will continue to benefit from pooling and pricing under the order. In addition, suspension of these provisions through September 30, 1999, will ensure that disorderly marketing conditions that may result from these provisions do not negatively impact producers in the future as these provisions have been modified in the Federal order reform regulatory language.

Accordingly, it is appropriate to suspend the aforesaid provisions from the day after publication of this rule in the **Federal Register** through September 30, 1999.

It is hereby found and determined that thirty days' notice of the effective date hereof is impractical, unnecessary and contrary to the public interest in that:

(a) The suspension is necessary to reflect current marketing conditions and to assure orderly marketing conditions in the marketing area, in that such rule is necessary to permit the continued pooling of the milk of dairy farmers who have historically supplied the market without the need for making costly and inefficient movements of milk;

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Notice of proposed rulemaking was given interested parties and they were afforded opportunity to file written data, views or arguments concerning this suspension. One comment was received.

Therefore, good cause exists for making this order effective less than 30 days from the date of publication in the **Federal Register**.

List of Subjects in 7 CFR Part 1131

Milk marketing orders.

For the reasons set forth in the preamble, 7 CFR part 1131 is amended for the period of one day following publication of this rule in the **Federal Register** through September 30, 1999, as follows:

PART 1131—MILK IN THE CENTRAL ARIZONA MARKETING AREA

1. The authority citation for 7 CFR Part 1131 continues to read as follows:

Authority: 7 U.S.C. 601–674.

§ 1131.7 [Suspended in part]

2. In § 1131.7, paragraph (c), the words ''50 percent or more of'', ''(including the skim milk and butterfat in fluid milk products transferred from its own plant pursuant to this paragraph that is not in excess of the skim milk and butterfat contained in member producer milk actually received at such plant)'', and ''or the previous 12-month period ending with the current month'' during the month'' are suspended.

Dated: September 13, 1999.

Richard M. McKee

Deputy Administrator, Dairy Programs.

RIN 2120–AA64

Airworthiness Directives; Airbus Model A340 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain Airbus Model A340 series airplanes. This action requires repetitive inspections to detect cracking of the right inboard attachment lug of the main fitting of the center landing gear (CLG), and replacement with a new or serviceable CLG, if necessary. This action also provides for replacement of the CLG with an improved CLG as an optional terminating action for the repetitive inspections. This amendment is prompted by issuance of mandatory continuing airworthiness information by a foreign civil airworthiness authority. The actions specified in this AD are intended to detect and correct cracks in the attachment lug, which could result in failure of the CLG.

DATES: Effective October 5, 1999.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of October 5, 1999.

Comments for inclusion in the Rules Docket must be received on or before October 20, 1999.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM–114,

Attention: Rules Docket No. 99–NM–175–AD, 1601 Lind Avenue, SW., Renton, Washington 98055–4056.

The service information referenced in this AD may be obtained from Airbus Industrie, 1 Rond Point Maurice Bellonte, 31707 Blagnac Cedex, France. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Norman B. Martenson, Manager, International Branch, ANM–116, FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington 98055–4056; telephone (425) 227–2110; fax (425) 227–1149.

SUPPLEMENTARY INFORMATION: The Direction Générale de l'Aviation Civile (DGAC), which is the airworthiness authority for France, notified the FAA that an unsafe condition may exist on certain Airbus Model A340 series airplanes. The DGAC advises that an operator has found a cracked attachment lug located on the inboard side of the right-hand main fitting of the center landing gear (CLG) [which is part of the main landing gear (MLG)]. The operator found the failed lug during the weekly visual inspection of the MLG. The cause of the cracking is unknown at this time. Such cracking, if not corrected, could result in failure of the CLG.

Explanation of Relevant Service Information

Airbus has issued Service Bulletin A340–32–4091, Revision 01, dated June 3, 1998, which describes procedures for repetitive inspections to detect cracking of the right inboard attachment lug of the main fitting of the CLG, and replacement with a new or serviceable CLG, if necessary. The DGAC classified these service bulletins as mandatory and issued French airworthiness directive 97–363–076(B) R2, dated July 15, 1998, as revised by Erratum, dated August 12, 1998, in order to assure the continued airworthiness of these airplanes in Francea.

Airbus has also issued Service Bulletin A340–32–4097, Revision 02, dated June 24, 1998, which describes procedures for replacement of the CLG with an improved CLG. Such replacement eliminates the need for the repetitive inspections.

FAA's Conclusions

This airplane model is manufactured in France and is type certificated for operation in the United States under the provisions of § 21.29 of the Federal Aviation Regulations (14 CFR 21.19) and the applicable bilateral airworthiness agreement. Pursuant to this bilateral airworthiness agreement, the DGAC has kept the FAA informed of the situation described above. The FAA has examined the findings of the DGAC, reviewed all available information, and determined that AD action is necessary for products of this type design that are certificated for operation in the United States.

Explanation of Requirements of the Rule

Since an unsafe condition has been identified that is likely to exist or develop on other airplanes of the same type design registered in the United States, this AD is being issued to detect cracks of the right inboard attachment lug of the main fitting of the CLG. This AD requires accomplishment of the actions specified in Airbus Service Bulletin A340–32–4091, described previously. This AD also provides for optional terminating action for the repetitive inspections.

Operators should note that, in consonance with the findings of the DGAC, the FAA has determined that the repetitive inspections in this AD can be allowed to continue in lieu of accomplishment of a terminating action. In making this determination, the FAA considers that, in this case, long-term continued operational safety will be adequately assured by accomplishing the repetitive inspections to detect cracking before it represents a hazard to the airplane.

Cost Impact

None of the airplanes affected by this action are on the U.S. Register. All airplanes included in the applicability of this rule currently are operated by non-U.S. operators under foreign registry; therefore, they are not directly affected by this AD action. However, the FAA considers that this rule is necessary to ensure that the unsafe condition is addressed in the event that any of these subject airplanes are imported and placed on the U.S. Register in the future.

Should an affected airplane be imported and placed on the U.S. Register in the future, it would require approximately 1 work hour to accomplish the required inspection, at an average labor rate of $60 per work hour. Based on these figures, the cost impact of this AD would be $60 per airplane, per inspection cycle.

Determination of Rule's Effective Date

Since this AD action does not affect any airplane that is currently on the U.S. register, it has no adverse economic impact and imposes no additional burden on any person. Therefore, prior notice and public procedures hereon are unnecessary and the amendment may be made effective in less than 30 days after publication in the **Federal Register**.

Comments Invited

Although this action is in the form of a final rule and was not preceded by notice and opportunity for public comment, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified under the caption **ADDRESSES**. All communications received on or before the closing date for comments will be considered, and this rule may be amended in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of the AD action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this AD will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this rule must submit a self-addressed, stamped postcard on which the following statement is made: ''Comments to Docket Number 99–NM–175–AD.'' The postcard will be date stamped and returned to the commenter.

Regulatory Impact

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) Is not a ''significant regulatory action'' under

Executive Order 12866; (2) is not a ''significant rule'' under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption **ADDRESSES**.

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

99–19–31 Airbus Industrie: Amendment 39–11318. Docket 99–NM–175–AD.

Applicability: Model A340 series airplanes, certificated in any category; except those on which Airbus Modification 45302 has been accomplished.

Note 1: This AD applies to each airplane identified in the preceding applicability provision, regardless of whether it has been otherwise modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (f) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required as indicated, unless accomplished previously.

To detect and correct cracking of the right inboard attachment lug of the main fitting of the center landing gear (CLG), which could result in failure of the CLG, accomplish the following:

Inspection

(a) For airplanes on which Airbus Industrie Modification 43028 (reference Airbus Service Bulletin A340–32–4083) has not been accomplished: Prior to the accumulation of 150 flight cycles on the CLG, or within 7 days after the effective date of this AD, whichever occurs later, perform a detailed visual inspection to detect cracking of the right inboard attachment lug of the main fitting of the CLG, in accordance with Airbus Service Bulletin A340–32–4091, Revision 01, dated June 3, 1998.

Note 2: For the purposes of this AD, a detailed visual inspection is defined as: ''An intensive visual examination of a specific structural area, system, installation, or assembly to detect damage, failure, or irregularity. Available lighting is normally supplemented with a direct source of good lighting at intensity deemed appropriate by the inspector. Inspection aids such as mirror, magnifying lenses, etc., may be used. Surface cleaning and elaborate access procedures may be required.''

(b) For airplanes on which Airbus Industrie Modification 43028 (reference Airbus Service Bulletin A340–32–4083) has been accomplished: Prior to the accumulation of 1,020 flight cycles on the CLG, or within 7 days after the effective date of this AD, whichever occurs later, perform a detailed visual inspection to detect cracking of the right inboard attachment lug of the main fitting of the CLG, in accordance with Airbus Service Bulletin A340–32–4091, Revision 01, dated June 3, 1998.

(c) If any cracking is found during any inspection required by paragraph (a) or (b) of this AD: Prior to further flight, replace the CLG with a new or serviceable CLG in accordance with Airbus Service Bulletin A340–32–4091, Revision 01, dated June 3, 1998; or accomplish the optional terminating action specified in paragraph (e).

Note 3: Accomplishment of the detailed visual inspections or replacement of the CLG in accordance with Airbus Service Bulletin A340–32–4091, dated February 17, 1997, is acceptable for compliance with the actions specified by paragraphs (a), (b), and (c) of this AD.

(d) Repeat the inspections required by paragraph (a) or (b), as applicable, at intervals not to exceed 7 days until accomplishment of the optional terminating action specified in paragraph (e) of this AD.

Optional Terminating Action

(e) Installation of an improved CLG in accordance with Airbus Service Bulletin A340–32–4097, Revision 01, dated April 16, 1998, or Revision 02, dated June 24, 1998, constitutes terminating action for the repetitive inspection requirement of paragraph (d) of this AD.

Alternative Methods of Compliance

(f) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, International Branch, ANM–116, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, International Branch, ANM–116.

Note 4: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the International Branch, ANM–116.

Special Flight Permits

(g) Special flight permits may be issued in accordance with §§ 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

Incorporation by Reference

(h) The actions shall be done in accordance with Airbus Service Bulletin A340–32–4091, Revision 01, dated June 3, 1998. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Airbus Industrie, 1 Rond Point Maurice Bellonte, 31707 Blagnac Cedex, France. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

Note 5: The subject of this AD is addressed in French airworthiness directive 97–363–076(B) R2, dated July 15, 1998, as revised by Erratum, dated August 12, 1998.

(i) This amendment becomes effective on October 5, 1999.

Issued in Renton, Washington, on September 8, 1999.

D.L. Riggin,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–U

DEPARTMENT OF STATE

22 CFR Part 40

[Public Notice 3105]

RIN 1400–AA79

VISAS: Regulations Regarding Public Charge Requirements Under the Immigration and Nationality Act, as Amended

AGENCY: Bureau of Consular Affairs, State.

ACTION: Final rule.

SUMMARY: This final rule amends Department of State regulations pertaining to the issuance of visas by establishing uniform procedures for the acceptance of affidavits of support by consular posts abroad as required by the Immigration and Nationality Act (INA). Publication of this rule is necessary to ensure proper adjudication of immigrant

visas pursuant to changes made to the INA by the Illegal Immigration Reform and Immigration Responsibility Act of 1996 (IIRIRA). The rule imposes new requirements on immigrant visa applicants.

EFFECTIVE DATES: This final rule is effective as of December 17, 1997.

FOR FURTHER INFORMATION CONTACT: Ron Acker, Visa Regulations Coordinator, Legislation and Regulations Division, Visa Office, Room L603–C, SA–1, Washington, DC, 20520–0106 (ackerrl@sa1wpoa.us-state.gov).

SUPPLEMENTARY INFORMATION: The Department published an interim rule, Public notice 2674 at 62 FR 67563, December 29, 1997, with a request for comments, for title 22, § 40.41, Code of the Federal Regulations. The rule was proposed to fully implement the provisions of section 343 of the Illegal Immigration Reform and Immigration Responsibility Act of 1996 (IIRIRA), Pub. L. 104–208. That section requires changing the previous subparagraph (C) of INA 212(a)(4) to subparagraph (D) and adding a new subparagraph (C). The new subparagraph (C) provided that aliens applying in the immediate-relative, family-based and certain employment visa categories must be found ineligible unless the applicant is the beneficiary of an affidavit of support filed under INA 213A which is sufficient (meaning one that demonstrates the sponsor has income and assets equaling at least 125% of the current minimum Federal Poverty Guidelines to meet the requirements of that section). The employment based petitions are limited to those instances where a sponsoring relative is the petitioning employer or owns a 5% or more interest in the entity that is the petitioning employer.

The Immigration and Naturalization Service has promulgated rules and forms for the implementation of this procedure. Accordingly, the Department is adding to and/or changing its regulations at 22 CFR 40.41 to reflect the new affidavit of support requirements.

Comments

The interim rule for comment was published at 62 FR 67563. The comment period was closed on February 27, 1998 and the Department received 3 timely comments in response to the interim rule. After considering the comments received, the Department has adopted the interim rule in its entirety.

Analysis of Comments

The commentators' primary focus regarded the ability of a Consular Officer to find a visa applicant inadmissible, based on a likelihood of becoming a public charge, even if a qualifying Form I–864, Affidavit of Support, had been submitted. Since the affidavit of support requirements had been met, the commentators argued, Consular Officers should be limited in their discretion to find an applicant inadmissible.

While the Department appreciates the commentators' concern, the language of INA 212 (a)(4) supports consular discretion and the examination of multiple factors in determining the likelihood of an individual becoming a public charge, as opposed to the mere acceptance of a facially sufficient affidavit of support. According to the language of INA 212 (a)(4)(A), if it is the Consular Officer's opinion the applicant is likely to become a public charge, then such applicant is inadmissible and, therefore, unqualified for visa issuance. INA 212 (a)(4)(B) states that the Consular Officer shall consider, ''at a minimum,'' factors including the applicant's age, health, family status, assets, resources, financial status, and education and skills. In addition to those requirements, the affidavit of support may be considered.

Any regulations promulgated pursuant to this statute should reflect the language of the INA. Such is the case with the interim rule as proposed. It incorporates the requirements of new INA 212 (A)(4)(C) by requiring the completion of an affidavit of support, but permits the Consular Officer to base his adjudication of the case on the totality of the circumstances surrounding the applicant. The rule makes clear that although Form I–864 is a necessary part of certain immigrant visa applications, it is not, in and of itself, wholly adequate to find that an applicant satisfies the public charge requirements. It is a threshold requirement necessary to begin public charge considerations, but it is not an end.

This is not to say, however, that a sufficient affidavit of support is not given great weight in the Consular Officer's determination. In many cases, the affidavit will be enough to issue a visa. And, in the event the Consular Officer finds the affidavit of support inadequate, a Consular Officer is instructed to be sure that there is a clear, well-documented basis for the determination that the applicant is likely to become a public charge. The Department has issued guidance to Consular Officers to this effect.

One commentator expressed a concern that the myriad factors that are within a Consular Officer's discretion to consider, in addition to a sufficient affidavit of support, would harm an applicant's chances of obtaining a visa since these other factors would add prejudicial uncertainty to the process. Although the commentator is correct that the additional factors can be complicated, there is no change in this respect as a result of the regulation since public charge determinations historically have contemplated numerous factors. In any event, under the statute a consular officer must consider such additional factors.

Another commentator maintained that an applicant who had met the minimum income requirement, but was otherwise unemployable, should be allowed to submit a non-legally-binding affidavit of support (presumably from another individual) if the Consular Officer, in his discretion, determines that a Joint Sponsor is not warranted. INA 213A(a)(1)(B) states that an affidavit is not acceptable by a consular officer to establish non-excludibility as a public charge unless it is legally enforceable. Therefore, the submission of a non-legally-binding affidavit of support by an alien in any of those categories for which Form I–864, is required while not precluded, will not establish that an applicant is not excludable as a public charge.

Finally, one commentator was concerned that Consular Officers would be influenced by what was perceived as a more stringent interpretation of the statute as stated by INS in its interim regulation at 8 CFR 213a.2(c)(2)(v), published at 62 FR 54346, October 10, 1997. This concern, however, is based upon an inaccurate interpretation of the regulation. It does not burden an applicant with any greater requirements. The regulation merely restates, albeit in different language than the Department's regulation, that a Consular Officer is to use his or her statutorily authorized discretion in determining public charge issues. This construction is supported by the Department.

Final Rule

The interim rule amended the Department's regulations at 22 CFR 40.41 to establish uniform procedures for using the affidavit of support in adjudicating immigrant visas. Since the Department does not feel it necessary to further amend the regulations as published in the interim rule, the interim rule is being incorporated herein as a final rule.

List of Subjects in 22 CFR Part 40

Aliens, Immigrants, Nonimmigration, Passports and visas.

Accordingly, the interim rule amending 22 CFR part 40 which was

published on December 29, 1997 is adopted as a final rule without change.

Dated: August 27, 1999.

Mary A. Ryan,

Assistant Secretary for Consular Affairs.

BILLING CODE 4710–06–P

DEPARTMENT OF THE INTERIOR

Minerals Management Service

30 CFR Part 290

RIN 1010–AC21

Appeal Procedures; Correction

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Correcting amendments.

SUMMARY: MMS is correcting an amendment to rules governing the appeal of Royalty Management Program and Delegated States Orders. This correction results from a technical error made in a recent final rule.

EFFECTIVE DATE: Effective on May 13, 1999.

FOR FURTHER INFORMATION CONTACT: David S. Guzy, Chief, Rules and Publications Staff, telephone (303) 231–3432, FAX (303) 231–3385, e-Mail David.Guzy@mms.gov.

SUPPLEMENTARY INFORMATION:

Background

MMS is making corrections to a final rule published in the **Federal Register** on May 13, 1999 (64 FR 26240). The final rule, effective May 13, 1999, amended among other things, 30 CFR part 290, Subpart B—Appeals of Royalty Management Program and Delegated States Orders. Subpart B applies to all Federal and Indian mineral leases onshore and on the Outer Continental Shelf regardless of the statutory authority under which the lease was issued or maintained. This correction adds two sections to 30 CFR part 290, subpart B. Before May 13, 1999, these sections were found in 30 CFR 243.3 Exhaustion of administrative remedies, and in 30 CFR 243.4 Service of official correspondence. These sections were inadvertently omitted from the May 13, 1999, final rule.

Amendments to these sections were proposed in the **Federal Register** on January 12, 1999 (64 FR 1986), under part 242, subpart D—Appeals and Service, sections 242.302 through 242.305. However, we are not adopting those amendments at this time. Rather, we simply are replacing former sections 30 CFR 243.3 and 243.4 with minor modifications to reflect changes in the final rule published May 13, 1999, and other changes to conform to the plain language of part 290.

Need for Correction

As published, the final regulations in 30 CFR part 290, subpart B, inadvertently omitted the provisions regarding exhaustion of administrative remedies and service of official correspondence. Without these provisions, it is unclear where recipients of orders should seek resolution to royalty disputes and how those orders must be served. Therefore, because this was an administrative error, MMS determines under 5 U.S.C. 553(b) that notice and comment are unnecessary and contrary to public interest. Thus, good cause exists to issue this final rule. MMS also determines for the same reasons to make this rule effective immediately. Further, to avoid any gap in coverage, we are adding those provisions in this correction, effective retroactively to the date of the final rule, i.e., May 13, 1999.

Although we received public comments on sections 242.302 through 242.305 of the proposed rule, we are not addressing those comments at this time because we are not finalizing those sections of the proposed rule in this correction. We will address those comments at the same time we address all the remaining matters from the January 12, 1999, proposed rule.

List of Subjects in 30 CFR Part 290

Administrative practice and procedure.

Dated: September 10, 1999.

Sylvia V. Baca,

Acting Assistant Secretary—Land and Minerals Management.

Accordingly, 30 CFR part 290, subpart B, is corrected by making the following correcting amendments:

PART 290—APPEALS PROCEDURES

1. The authority citation for part 290 remains as follows:

Authority: 5 U.S.C. 301 *et seq.*; 43 U.S.C. 1331 *et seq.*

2. Add §§ 290.110 and 290.111 to Subpart B—Appeals of Royalty Management Program and Delegated State Orders to read as follows:

* * * * *

§ 290.110 How do I exhaust administrative remedies?

(a) To exhaust administrative remedies, you must appeal an MMS Royalty Management Program (RMP) or delegated State order:

(1) To the MMS Director (or the Deputy Commissioner of Indian Affairs when Indian lands are involved); and

(2) Subsequently to the Interior Board of Land Appeals under 30 CFR part 290, subpart B, and 43 CFR part 4.

(b) This section does not apply if an order was made effective by:

(1) The Director;

(2) The Assistant Secretary for Land and Minerals Management;

(3) The Assistant Secretary for Indian Affairs; or

(4) The Interior Board of Land Appeals under 43 CFR part 4.

§ 290.111 How will MMS and delegated States serve official correspondence?

(a) *Method of service.* The Royalty Management Program (RMP) or a delegated State will serve official correspondence by sending the document by certified or registered mail, return receipt requested, to the addressee of record established in paragraph (b) of this section. Instead of certified or registered mail, RMP or a delegated State may deliver the document personally to the addressee of record and obtain a signature acknowledging the addressee's receipt of the document. Official correspondence includes all orders that are appealable under this subpart.

(b) *Addressee of record.* (1) The addressee of record for administrative correspondence for refiners participating in the Government's Royalty-in-Kind (RIK) Program is the position title, department name and address, or individual name and address identified in the executed royalty oil sale contract. The refiner/purchaser may identify, in writing, a different position title, department name and address, or individual name and address for billing purposes. The refiner must notify MMS, in writing, of all addressee changes.

(2) The addressee of record for serving official correspondence on anyone required to report energy and mineral resources removed from Federal and Indian leases to the RMP Production Accounting and Auditing System is the most recent position title, department name and address, or individual name and address that RMP has in its records for the reporter/payor. The reporter/payor is responsible for notifying RMP, in writing, of any addressee changes.

(3) The addressee of record for serving official correspondence concerning onshore Federal leases is the current lessee of record with the Bureau of Land Management. For Indian leases, the addressee of record is the current lessee of record with the Bureau of Indian Affairs. For offshore leases, the addressee of record is the current lessee

of record with the MMS Offshore Minerals Management Program. The lessee is responsible for notifying the appropriate Government office of any addressee changes.

(4) The addressee of record for serving official correspondence in connection with reviews and audits of payor records is the position title, department name and address, or individual name and address designated, in writing, by the company at the initiation of the audit, or the most recent addressee that was specified, in writing, by the payor.

(5) The addressee of record for serving official correspondence relating to reporting on the ''Report of Sales and Royalty Remittance'' (Form MMS–2014) is the most recent position title, department name and address, or individual name and address specified, in writing, by the payor. The payor is responsible for notifying RMP, in writing, of any addressee changes.

(6) The addressee of record for serving official correspondence in connection with remittances pertaining to rental and bonuses from nonproducing Federal leases is the most recent position title, department name and address, or individual name and address maintained in RMP records. The payor is responsible for notifying RMP, in writing, of any addressee changes.

(7) The addressee of record for serving official correspondence including orders, demands, invoices, or decisions, and other actions identified with payors reporting to the RMP Auditing and Financial System not identified above is the position title, department name and address or individual name and address for the payor identified on the most recent Payor Confirmation Report (Report No. RPI140R1) of a Payor Information Form (PIF) (Form MMS–4025 or Form MMS–4030) returned by RMP to the payor for the Federal or Indian lease (see 30 CFR 210.51 and 210.201).

(8) If correspondence applies to more than one category identified in paragraphs (b)(1) through (7) of this section, MMS may serve the official correspondence in accordance with the requirements of any one paragraph.

(c) *Dates of service.* Except as provided in paragraph (d) of this section, MMS considers official correspondence as served on the date that it is received at the address of record established under paragraph (b) of this section. A receipt signed by any person at that address is evidence of service. If official correspondence is served both personally and by registered or certified mail, the date of service is the earlier of the two dates, if they are different.

(d) *Constructive service.* (1) If delivery cannot be made after reasonable effort at the address of record established under paragraph (b) of this section, MMS deems official correspondence as constructively served 7 days after the date that the document is mailed.

(2) This provision covers such situations as nondelivery because the addressee has moved without filing a forwarding address, the forwarding order had expired, delivery was expressly refused, or the document was unclaimed where the attempt to deliver is substantiated by U.S. Postal Service authorities.

BILLING CODE 4310–MR–P

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 904

[SPATS No. AR–029–FOR]

Arkansas Abandoned Mine Land Reclamation Plan

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSM) is approving an amendment to the Arkansas abandoned mine land reclamation plan (Arkansas plan) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). Arkansas proposed revisions to its plan concerning definitions, purposes of the reclamation program, identification of eligible lands and water, ranking and selection procedures, coordination of reclamation work, acquisition management and disposition of land and water, reclamation on private land, rights of entry, public participation, organizational structure, personnel and staffing policies, purchasing and procurement systems, management accounting, and AML problem description. Arkansas intends to revise its plan to be consistent with the corresponding Federal regulations and SMCRA.

EFFECTIVE DATE: September 20, 1999.

FOR FURTHER INFORMATION CONTACT: Michael C. Wolfrom, Director, Tulsa Field Office, Office of Surface Mining Reclamation and Enforcement, 5100 East Skelly Drive, Suite 470, Tulsa, Arkansas 74135–6547. Telephone: (918) 581–6430. Internet: mwolfrom@tokgw.osmre.gov.

SUPPLEMENTARY INFORMATION:

I. Background on the Arkansas Plan
II. Submission of the Proposed Amendment
III. Director's Findings
IV. Summary and Disposition of Comments
V. Director's Decision
VI. Procedural Determinations

I. Background on the Arkansas Plan

On May 2, 1983, the Secretary of the Interior approved the Arkansas plan. You can find background information on the Arkansas plan, including the Secretary's findings, the disposition of comments, and the approval of the plan in the May 2, 1983, **Federal Register** (48 FR 19710). You can find later actions on the Arkansas plan at 30 CFR 904.25 and 904.26.

II. Submission of the Proposed Amendment

By letter dated June 16, 1999 (Administrative Record No. AAML–27), Arkansas sent us an amendment to its plan pursuant to SMCRA. Arkansas sent the amendment in response to our letter dated September 26, 1994, that we sent to Arkansas under 30 CFR 884.15(d). The amendment also included changes Arkansas made at its own initiative.

We announced receipt of the amendment in the July 9, 1999, **Federal Register** (64 FR 37067). In the same document, we opened the public comment period and provided an opportunity for a public hearing on the adequacy of Arkansas' amendment. The public comment period closed on August 9, 1999. Because no one requested a public hearing or meeting, we did not hold one.

III. Director's Findings

Following, under SMCRA and the Federal regulations at 30 CFR 884.14 and 884.15, are our findings concerning the amendment. Any revisions that we do not discuss below are about minor wording changes, or revised cross-references and paragraph notations to reflect organizational changes resulting from this amendment.

A. Arkansas proposed to add to the reclamation plan a table of contents with numbered headings and lettered sub-headings. We are approving this addition.

B. Arkansas proposed to add Part III—''Definitions,'' to the reclamation plan. We are approving the addition of this part because it complies with Federal definitions found at 30 CFR 870.5.

C. Part IV—''Policies and Procedures for the State Abandoned Mine Land Reclamation Program.''

1. Arkansas proposed to change the name of section 884.13(c)(1) from ''Introduction'' to ''Purposes of the State

Reclamation Program'' and to remove the old SMCRA priority 4 (Research and Demonstration) project selection criteria. We are approving the revisions because they meet the requirements of the Federal regulations at 30 CFR 884.13(c)(2) and section 403(a) of SMCRA, as revised by the Energy Policy Act of 1992 (Pub. L. 102–486). Effective October 24, 1992, this Act amended section 403(a) of SMCRA by removing the priority 4 (Research and Demonstration) project selection criteria. Arkansas also proposed to move descriptions of abandoned mine problem types from this section to section 884.13(e)(3). We are approving this revision because it meets the requirements of the Federal regulations at 30 CFR 884.13(e)(3). Arkansas also proposed to move the section entitled, ''Corrective Measures to be used in Reclamation of Abandoned Mine Lands,'' to section 884.13(e)(3) and to substantially shorten it. We are approving the revision because it is not inconsistent with the requirements of the Federal regulations in 30 CFR Subchapter R.

2. Arkansas proposed to add a section, ''Identification of Eligible Lands and Water.'' The section pertains to reclamation of interim program and bond insolvency sites. We are approving this addition because it complies with previous revisions to the State statutes at Arkansas Code Annotated (ACA) 15–58–401 and the State regulations at Arkansas Surface Coal Mining and Reclamation Code (ASCMRC) 874.12 which we approved on January 5, 1994 (59 FR 540), and April 29, 1997 (62 FR 23129), respectively. Also, the addition of the language is not inconsistent with the Federal regulations at 30 CFR 874.12 and 875.12.

3. Arkansas proposed to add a new subsection to section 884.13(c)(2), ''Ranking and Selection Procedures.'' We are approving this addition because it meets the requirements of the Federal regulations at 30 CFR 874.12 and 874.13. Also, Arkansas proposed to remove the project ranking matrix form contained in the original reclamation plan and to replace it with a reference to the evaluation criteria contained in its regulations at ASCMRC 874.14. We are approving the revision because it does not constitute a policy change and because it meets the requirements of the Federal regulations at 30 CFR 884.13(c)(2).

4. Arkansas proposed to make editorial modifications to section 884.13(c)(3), ''Coordination of Reclamation Work,'' primarily to update the names and relationships of agencies and their roles in abandoned mine land reclamation projects. We are approving these revision. Arkansas also proposed to revise and enhance the description of AML project coordination efforts related to resource issues. We are approving the revision because it meets the requirements of 30 CFR 884.13(c)(3).

5. Arkansas proposed to revise section 884.13(c)(4) to reduce redundancy within the state regulations. In addition, Arkansas proposed to remove most of the description of land and water acquisition, directing the reader, instead, to follow procedures established in ASCMRC 879.11. We are approving the revisions because they meet the requirements of 30 CFR 884.13(c)(4).

6. Arkansas proposed to revise section 884.13(c)(5), ''Policies and Procedures for Reclamation on Private Land,'' to reduce redundancy within the state regulations. The proposed revision provides a brief overview of policies for placement, waiver, and satisfaction of liens, and refers the reader to ASCMRC 882.13 and 882.14. Arkansas also proposed to add a new paragraph on appraisals to clarify under what circumstances appraisals should be conducted and by whom. We are approving these revisions because they meet the requirements of 30 CFR Part 882.

7. Arkansas proposed to revise section 884.13(c)(6), ''Rights of Entry,'' to reduce redundancy within the state regulations. The proposed revision provides a brief overview of policies for entry on private land and refers the reader to ASCMRC 882.13 and 882.14. We are approving the revisions because they are not inconsistent with the Federal regulations at 30 CFR Part 877.

8. Arkansas proposed to revise section 884.13(c)(7), ''Public Participation Policies,'' to reduce redundancy within the state regulations and to eliminate obsolete information. The proposed revision provides a brief overview of current public participation practices. We are approving the revisions because they meet the requirements of the Federal regulations at 30 CFR 884.13(c)(6).

D. Part V—''Administrative and Management Structure.''

1. Arkansas proposed to revise section 884.13(d)(1), ''Organizational Structure,'' to update the organizational charts. We are approving this revision because it meets the requirements of the Federal regulation at 30 CFR 884.13(d)(1).

2. Arkansas proposed to revise section 884.13(d)(2), ''Personnel and Staffing Policies,'' to update the list of State and Federal laws, regulations, and policies related to personnel practices. We are approving this revision because it meets the requirements of the Federal regulation at 30 CFR 884.13(d)(2).

3. Arkansas proposed to revise section 884.13(d)(3), ''Purchasing and Procurement Systems,'' to comply with OSM's 30 CFR Part 884 letter, dated September 26, 1994, regarding ''Contractor Responsibility (30 CFR 874.16 and 875.20)'' and to identify 43 CFR Part 12 as the guidance by which Federal grant funds will be administered in the state program. We are approving the revisions because they satisfy the requirements of the above 30 CFR Part 884 letter and also meet the requirements of the Federal regulation at 30 CFR 884.13(d)(3).

4. Arkansas proposed to revise section 884.13(d)(4), ''Management Accounting,'' to identify 43 CFR Part 12 as the guidance for administering Federal grant funds in the state program and to make minor editorial corrections. We are approving the revisions because they meet the requirements of the Federal regulation at 30 CFR 884.13(d)(4).

E. Part VI—''General Description of AML Problems.''

Arkansas proposed to add section 884.13(e) to replace information previously contained in the ''Introduction'' section of the reclamation plan. Section 884.13(e) contains an overview of reclamation problem types and guides the reader to the OSM Abandoned Mine Land Inventory Directive and to OSM's December 30, 1996 (61 FR 68777), AML Program Guidelines for additional information. We are approving the revisions because they meet the requirements of the Federal regulation at 30 CFR 884.13(e)(1)–(3).

IV. Summary and Disposition of Comments

Public Comments

We asked for public comments on the amendment, but did not receive any.

Federal Agency Comments

Under 30 CFR 884.14(a)(2) and 884.15(a), we requested comments on the amendment from various Federal agencies with an actual or potential interest in the Arkansas plan (Administrative Record Nos. AAML–27.01, AAML–27.02, and AAML–27.03). We received a comment from the U.S. Army Corps of Engineers dated July 13, 1999 (Administrative Record No. AAML–27.04), stating that they found the proposed amendment to be satisfactory.

U.S. Environmental Protection Agency (EPA)

Under 30 CFR 884.14(a)(6), we are required to get a written agreement from the EPA for those provisions of the program amendment that relate to air or water quality standards issued under the authority of the Clean Water Act (33 U.S.C. 1251 *et seq.*) or the Clean Air Act (42 U.S.C. 7401 *et seq.*). None of the revisions that Arkansas proposed to make in this amendment pertain to air or water quality standards. Therefore, we did not ask the EPA to agree on the amendment.

U.S. Fish and Wildlife Service (FWS)

Under section 7 of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq*), we are required to ask the FWS to determine whether those provisions of the program amendment that relate to fish, wildlife, or plants and their habitat are likely to jeopardize the continued existence of species listed as endangered or threatened (under the authority of section 4 of the Endangered Species Act of 1973) or result in the destruction or adverse modification of their habitat. None of the revisions that Arkansas proposed to make in this amendment pertain to fish, wildlife, or plants and their habitat. Therefore, we did not ask the FWS for its determination under section 7 of the Endangered Species Act of 1973.

State Historical Preservation Officer (SHPO) and the Advisory Council on Historic Preservation (ACHP)

Under 30 CFR 884.14(a)(6), we are required to request comments from the SHPO and ACHP on amendments that may have an effect on historic properties. On July 1, 1999, we requested comments on Arkansas' amendment (Administrative Record No. AAML–27.02), but neither responded to our request.

V. Director's Decision

Based on the above findings, we approve the proposed plan amendment as submitted by Arkansas on June 16, 1999. We approve the plan that Arkansas proposed with the provision that it be published in identical form to the plan sent to and reviewed by OSM and the public.

To implement this decision, we are amending the Federal regulations at 30 CFR Part 904, which codify decisions concerning the Arkansas plan. We are making this final rule effective immediately to expedite the State program amendment process and to encourage Arkansas to bring its plan into conformity with the Federal standards. SMCRA requires consistency of State and Federal standards.

VI. Procedural Determinations

Executive Order 12866

The Office of Management and Budget (OMB) exempts this rule from review under Executive Order 12866 (Regulatory Planning and Review).

Executive Order 12988

The Department of the Interior has conducted the reviews required by section 3 of Executive Order 12988 (Civil Justice Reform) and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State and Tribal abandoned mine land reclamation plans and revisions since each such plan is drafted and promulgated by a specific State or Tribe, not by OSM. Decisions on proposed abandoned mine land reclamation plans and revisions submitted by a State or Tribe are based on a determination of whether the submittal meets the requirements of Title IV of SMCRA (30 U.S.C. 1231–1243) and 30 CFR Part 884.

National Environmental Policy Act

This rule does not require an environmental impact statement since agency decisions on proposed State and Tribal abandoned mine land reclamation plans and revisions are categorically excluded from compliance with the National Environmental Policy Act (42 U.S.C. 4332) by the Manual of the Department of the Interior (516 DM 6, appendix 8, paragraph 8.4B(29)).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 *et seq.*).

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The submittal which is the subject of this rule is based upon corresponding Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions in the analyses for the corresponding Federal regulations.

Unfunded Mandates

OSM has determined and certifies under the Unfunded Mandates Reform Act (2 U.S.C. 1502 *et seq.*) that this rule will not impose a cost of $100 million or more in any given year on local, state, or tribal governments or private entities.

List of Subjects in 30 CFR Part 904

Intergovernmental relations, Surface mining, Underground mining.

Dated: September 8, 1999.

Brent Wahlquist,

Regional Director, Mid-Continent Regional Coordinating Center.

For the reasons set out in the preamble, 30 CFR Part 904 is amended as set forth below:

PART 904—ARKANSAS

1. The authority citation for Part 904 continues to read as follows:

Authority: 30 U.S.C. 1201 *et seq.*

2. Section 904.25 is amended in the table by adding a new entry in chronological order by ''Date of final publication'' to read as follows:

§ 904.25 Approval of Arkansas abandoned mine land reclamation plan amendments.

* * * * *

Original amendment submission date	Date of final publication	Citation/description
* *	*	* * * * *
June 16, 1999	9–20–99	Definitions; Purposes of the state reclamation program; Identification of eligible lands and water; Ranking and selection procedures; Coordination of reclamation work; Acquisition management and disposition of land and water; Reclamation on private land; Rights of entry; Public participation; Organizational structure; Personnel and staffing policies; Purchasing and procurement systems; Management accounting; and Abandoned mine land problem description.

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 100

[CGD07–99–063]

RIN 2115–AE46

Special Local Regulations; Biscayne Bay, Miami, Florida

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: Temporary Special Local Regulations are being adopted for the Columbus Day Regatta. The event will be held in Biscayne Bay from 9 a.m. to 5 p.m. Eastern Daylight Time (EDT) on October 9 and 10, 1999. These regulations are needed to provide for the safety of life on navigable waters during the event.

DATES: These regulations become effective at 9 a.m. and terminate at 5 p.m. EDT each day on October 9 and 10, 1999.

FOR FURTHER INFORMATION CONTACT: BM1 J. P. Storey Coast Guard Group Miami, Florida at (305) 535–4472.

SUPPLEMENTARY INFORMATION:

Background and Purpose

Columbus Day Regatta, Inc., is sponsoring a sail boat race, with approximately 500 sailboats, ranging in length form 20 to 60 feet participating in the event. The race will take place in Biscayne Bay from Dinner Key to Soldier Key on October 9 and 10, 1999. There will also be approximately fifty (50) spectator craft. These regulations are intended to promote safe navigation on the waters of Biscayne Bay by controlling the traffic entering, exiting, and traveling within the regulated area.

In accordance with 5 U.S.C. 553, a notice of proposed rulemaking has not been published for these regulations. Following normal rulemaking procedures would have been impracticable, as there was not sufficient time remaining after the receipt of the permit request to publish proposed rules in advance of the event or to provide for a delayed effective date.

Regulatory Evaluation

This regulation is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that order. The Office of Management and Budget has exempted it from review under that order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979). The Coast Guard expects the economic impact of this proposal to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of DOT is unnecessary. Entry into the regulated area is prohibited for only approximately 8 hours each day of the event and the regulated area does not block any channels.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Coast Guard must consider whether this rule will have a significant economic impact on a substantial number of small entities. ''Small entities'' include small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their field, and governmental jurisdictions with populations of less than 50,000.

Therefore, the Coast Guard certifies that this rule will not have a significant economic impact on a substantial number of small entities, as the regulations will only be in effect a total of two days in areas of limited commercial traffic.

Collection of Information

This rule contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

Federalism

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the rulemaking does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environmental Assessment

The Coast Guard has considered the environmental impact of this action and has determined under Figure 2–1, paragraph 34(h) of Commandant Instruction M16475.1C, that this rule is categorically excluded from further environmental documentation.

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water), Reporting and recordkeeping requirements, Waterways.

Temporary Regulations: In consideration of the foregoing, the Coast Guard amends Part 100 of Title 33, Code of Federal Regulations, as follows:

PART 100—[AMENDED]

1. The authority citation for Part 100 continues to read as follows:

Authority: 33 U.S.C. 1233, 49 CFR 1.46 and 33 CFR 100.35.

2. Add temporary § 100.35T–07–063 to read as follows:

§ 100.35T–07–063 Columbus Day Regatta Sail Boat Race, Miami, FL

(a) *Regulated Area:* A regulated area is established for the race by joining the following points (All coordinates referenced use Datum NAD:83):

(1) 25°43′399″N, 080°12′500″W
(2) 25°43′399″N, 080°10′500″W
(3) 25°33′000″N, 080°11′500″W
(4) 25°33′000″N, 080°15′900″W
(5) 25°40′000″N, 080°15′000″W.

(b) *Special local regulations.*

(1) Entry into the regulated area by other than event participants is prohibited unless otherwise authorized by the Patrol Commander. At the completion of scheduled races and exhibitions, and departure of participants from the regulated areas,

traffic may resume normal operations. At the discretion of the Patrol Commander, between scheduled racing events, traffic may be permitted to resume normal operations.

(2) A succession of not fewer than 5 short whistle or horn blasts from a patrol vessel will be the signal for any and all vessels to take immediate steps to avoid collision. The display of an orange distress smoke signal from a patrol vessel will be the signal for any and all vessels to stop immediately.

(3) Spectators are required to maintain a safe distance from the racecourse at all times.

(c) *Dates.* This section is effective at 9 a.m. and terminates at 5 p.m. EDT each day on October 9 and 10, 1999.

Dated: September 3, 1999.

G.W. Sutton,

Captain U.S. Coast Guard, Acting Commander, Seventh Coast Guard District.

BILLING CODE 4910–15–P

LIBRARY OF CONGRESS

Copyright Office

37 CFR Part 201

[Docket No. RM 99–5A]

Notice and Recordkeeping for Nonsubscription Digital Transmissions

AGENCY: Copyright Office, Library of Congress.

ACTION: Interim rule amendment.

SUMMARY: To adjust for changes brought about by the passage of the Digital Millennium Copyright Act of 1998, the Copyright Office of the Library of Congress is amending the regulation that requires the filing of an initial notice of digital transmissions of sound recordings under statutory license with the Copyright Office.

EFFECTIVE DATE: September 20, 1999.

FOR FURTHER INFORMATION CONTACT: David O. Carson, General Counsel, or Tanya M. Sandros, Attorney Advisor, Copyright GC/I&R, P.O. Box 70400, Southwest Station, Washington, DC 20024. Telephone: (202) 707–8380. Telefax: (202) 707–8366.

SUPPLEMENTARY INFORMATION:

Background

On November 1, 1995, Congress enacted the Digital Performance Right in Sound Recordings Act of 1995 (''DPRA''), Public Law 104–39, 109 Stat. 336 (1995). The DPRA gave to sound recording copyright owners an exclusive right to perform their works publicly by means of a digital audio transmission. 17 U.S.C. 106(6). The new right, however, was subject to certain limitations, including exemptions for certain digital transmissions, 17 U.S.C. 114(d)(1), and the creation of a statutory license for nonexempt digital subscription services. 17 U.S.C. 114(d)(2).

The statutory license requires adherence to regulations under which copyright owners may receive reasonable notice of use of their sound recordings under the statutory license, and under which entities performing the sound recordings shall keep and make available records of such use. 17 U.S.C. 114(f)(2). On May 13, 1996, the Copyright Office initiated a rulemaking proceeding to promulgate regulations to govern the notice and recordkeeping requirements. 61 FR 22004 (May 13, 1996). This rulemaking concluded with the issuance of interim rules governing the filing of an initial notice of digital transmissions of sound recordings under the statutory license, 37 CFR 201.35, and the filing of reports of use of sound recordings under statutory license, 37 CFR 201.36. *See* 63 FR 34289 (June 24, 1998).

At the time these regulations were issued, only three noninteractive, subscription, digital transmissions services (DMX, Inc., Digital Cable Radio Associates/Music Choice, and Muzak, Inc.)[1] were in operation and considered eligible for the license. Consequently, the Office prescribed a period for filing initial notices which required any service already operating in accordance with the section 114 license to submit its notice within 45 days of the effective date of the regulation. Section 201.35(f) reads, in part, as follows: ''A Service shall file the Initial Notice with the Licensing Division of the Copyright Office prior to the first transmission of sound recordings under the license, or within 45 days of the effective date of this regulation.'' (Emphasis added).

Subsequently, the President signed into law the Digital Millennium Copyright Act of 1998 (''DMCA''). Among other things, the DMCA expanded the section 114 compulsory license to allow a nonexempt, eligible nonsubscription transmission service and a preexisting satellite digital audio radio service to perform publicly a sound recording by means of certain digital audio transmissions, subject to compliance with notice and recordkeeping requirements. 17 U.S.C. 114(f).

[1] These services were incorrectly identified in the August 4, 1999, notice as nonsubscription services.

The notice and recordkeeping requirements found in §§ 201.35 and 201.36 would appear to apply to any service eligible for the section 114 license, including those newly eligible to use the license under the amended provisions of the license. However, these regulations provide no opportunity for a newly eligible nonsubscription transmission service which was in service prior to the passage of the DMCA to make a timely filing of its initial notice of transmission. Therefore, the Copyright Office proposed an amendment to § 201.35(f) which would extend the period for filing the initial notice to October 15, 1999, in order to allow the eligible nonsubscription services which were in operation prior to the passage of the DMCA an opportunity to file their initial notice timely. 64 FR 42316 (August 4, 1999).

On September 2, 1999, the Recording Industry of America, Inc. (''RIAA'') filed a comment supporting, in general, the Office's proposal to amend the date by which a nonexempt, eligible nonsubscription service already in operation could file a timely initial notice. RIAA expressed concern, however, that the proposed language is overly broad and would allow not only the newly eligible nonsubscription services an opportunity to file an initial notice timely, but inadvertently extend the filing period for any preexisting digital subscription services which had not filed in accordance with the original rule. To avoid any confusion on this point, the Office is amending the rule to indicate that any subscription service in operation prior to September 3, 1998, had until that date to file its initial notice with the Copyright Office, in addition to establishing an October 15, 1999, filing deadline for any eligible, nonsubscription service which is currently in operation. Of course, any new service which chooses to make use of the license may file its initial notice after these dates, so long as the service files its initial notice with the Licensing Division prior to the first transmission of a sound recording.

Regulatory Flexibility Act

Although the Copyright Office, located in the Library of Congress which is part of the legislative branch, is not an ''agency'' subject to the Regulatory Flexibility Act, 5 U.S.C. 601–612, the Register of Copyrights has considered the effect of the amendment on small businesses. The Register has determined that the amendment would not have a significant economic impact on a substantial number of small entities that would require provision of special relief

for small entities. The amendment is designed to minimize any significant economic impact on small entities.

List of Subjects in 37 CFR Part 201

Copyright.

Final Regulations

For the reasons set forth in the preamble, part 201 of title 37 of the Code of Federal Regulations is amended as follows:

PART 201—GENERAL PROVISIONS

1. The authority citation for part 201 continues to read as follows:

Authority: 17 U.S.C. 702.

§ 201.35 [Amended]

2. Section 201.35(f) is amended by removing the phrase ''or within 45 days of the effective date of this regulation.'' and adding in its place the folllowing: * * * or by September 3, 1998, in the case of a Service that makes subscription transmissions before or on that date, or by October 15, 1999, in the case of a Service that makes eligible nonsubscription transmissions before, or on, that date. * * *

Dated: September 10, 1999.

Marybeth Peters,

Register of Copyrights.

Approved by:

James H. Billington,

The Librarian of Congress.

BILLING CODE 1410–31–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[AZ 086–0017a FRL–6438–1]

Approval and Promulgation of Implementation Plans; Arizona State Implementation Plan Revision, Maricopa County

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is taking direct final action on a revision to the Arizona State Implementation Plan. This revision concerns two rules from Maricopa County: Rule 336—Surface Coating Operations; and, Rule 348—Aerospace Manufacturing and Rework Operations. This final action will incorporate these rules into the federally approved SIP and stop the sanctions and Federal Implementation Plan clocks started on February 9, 1998 when EPA published a final limited disapproval of the State's previous submittal of Rule 336. The intended effect of approving these rules is to regulate emissions of volatile organic compounds (VOCs) according to the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). Rule 336 controls VOC emissions from different surface coating operations using primarily metal and plastic substrates. Rule 348 controls VOC emissions from aerospace manufacturing and rework operations. EPA is finalizing the approval of this revision into the Arizona SIP under provisions of the CAA regarding EPA action on SIP submittals, SIPs for national primary and secondary ambient air quality standards, and plan requirements for nonattainment areas.

DATES: This rule is effective on November 19, 1999 without further notice, unless EPA receives adverse comments by October 20, 1999. If EPA receives such comment, it will publish a timely withdrawal **Federal Register** informing the public that this rule will not take effect.

ADDRESSES: Written comments must be submitted to Andrew Steckel at the Region IX office listed below. Copies of the rule revisions and EPA's evaluation report for each rule are available for public inspection at EPA's Region IX office during normal business hours. Copies of the submitted rule revisions are available for inspection at the following locations:

Rulemaking Office (AIR–4), Air Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105;

Environmental Protection Agency, Air Docket (6102), 401 ''M'' Street, SW., Washington, D.C. 20460;

Arizona Department of Environmental Quality, 3003 North Central Avenue, Phoenix, AZ 85012; and,

Maricopa County Environmental Services Department, 1001 N. Central Ave., Phoenix, AZ 85004.

FOR FURTHER INFORMATION CONTACT: Jerald S. Wamsley, Rulemaking Office, AIR–4, Air Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105, Telephone: (415) 744–1226.

SUPPLEMENTARY INFORMATION:

I. Applicability

The Maricopa County rules being approved into the Arizona SIP are Rule 336—Surface Coating Operations and Rule 348—Aerospace Manufacturing and Rework Operations. These rules were submitted by the Arizona Department of Environmental Quality to EPA on August 4, 1999.

II. Background

On March 3, 1978, EPA promulgated a list of ozone nonattainment areas under the provisions of the Clean Air Act, as amended in 1977 (1977 CAA or pre-amended Act), that included Maricopa County. 43 FR 8964; 40 CFR 81.305. On March 19, 1979, EPA changed the name and modified the geographic boundaries of the ozone nonattainment area to the Maricopa Association of Governments (MAG) Urban Planning Area. 44 FR 16391, 40 CFR 81303. On February 24, 1984, EPA notified the Governor of Arizona, pursuant to section 110(a)(2)(H) of the pre-amended Act, that MAG's portion of the Arizona SIP was inadequate to attain and maintain the ozone standard and requested that deficiencies in the existing SIP be corrected (EPA's SIP-Call, 49 FR 18827, May 3, 1984). On May 26, 1988, EPA again notified the Governor of Arizona that MAG's portion of the SIP was inadequate to attain and maintain the ozone standard and requested that deficiencies relating to VOC controls and the application of reasonably available control technology (RACT) in the existing SIP be corrected (EPA's second SIP-Call, 53 FR 34500, September 7, 1988). On November 15, 1990, the Clean Air Act Amendments of 1990 were enacted. Public Law 101–549, 104 Stat. 2399, codified at 42 U.S.C. 7401–7671q. In amended section 182(a)(2)(A) of the CAA, Congress statutorily adopted the requirement that nonattainment areas fix their deficient reasonably available control technology (RACT) rules for ozone and established a deadline of May 15, 1991 for states to submit corrections of those deficiencies. Section 182(a)(2)(A) applies to areas designated as nonattainment prior to enactment of the amendments and classified as marginal or above as of the date of enactment. It requires such areas to adopt and correct RACT rules pursuant to pre-amended section 172(b) as interpreted in pre-amendment guidance.[1] EPA's SIP-Call used that guidance to indicate the necessary corrections for specific nonattainment areas. The MAG Urban Planning Area is classified as serious;[2] therefore, this

[1] Among other things, the pre-amendment guidance consists of those portions of the proposed post-1987 ozone and carbon monoxide policy that concern RACT, 52 FR 45044 (November 24, 1987); ''Issues Relating to VOC Regulation Cutpoints, Deficiencies, and Deviations, Clarification to Appendix D of November 24, 1987 **Federal Register** Notice'' (Blue Book) (notice of availability was published in the **Federal Register** on May 25, 1988); and the existing control technique guidelines (CTGs).

[2] The MAG Urban Planning Area retained its designations of nonattainment and was classified by

Continued

area was subject to the RACT fix-up requirement and the May 15, 1991 deadline.

The State of Arizona submitted many revised RACT rules for incorporation into its SIP on August 4, 1999, including Maricopa County's Rule 336 and Rule 348 being acted on today. This document addresses EPA's direct-final action for Maricopa County Rule 336—Surface Coating Operations and Rule 348—Aerospace Manufacturing and Rework Operations. Maricopa County adopted both Rule 336 and Rule 348 on April 7, 1999. These submitted rules were found to be complete on August 25, 1999 pursuant to EPA's completeness criteria that are set forth in 40 CFR part 51 Appendix V.[3] Now, EPA is approving Rule 336 and Rule 348 for inclusion within the SIP.

These two rules reduce volatile organic compound (VOC) emissions in different industries. Rule 336 reduces VOC emissions at industrial sites engaged in preparing and coating a variety of substrates such as metal, paper, film, fabric, vinyl, and plastic. The provisions of Rule 336 apply to surface preparation and coating operation in the following industries: metal can and coil, metal furniture, large appliances, miscellaneous metal parts and products, paper, film, fabric, vinyl, plastic, and other flexible parts and products. Rule 348 controls VOC emissions from aerospace manufacturing and rework operations where various coatings are applied to primarily metal substrates.

VOCs contribute to the production of ground level ozone and smog. Rule 336 and Rule 348 were adopted originally as part of Maricopa County's effort to achieve the National Ambient Air Quality Standard (NAAQS) for ozone and in response to EPA's SIP-Call and the section 182(a)(2)(A) CAA requirement. EPA's evaluation and final action for this rule follow in the next section.

III. EPA Evaluation and Action

In determining the approvability of a VOC rule, EPA must evaluate the rule for consistency with the requirements of the CAA and EPA regulations, as found in section 110 and part D of the CAA and 40 CFR part 51 (Requirements for Preparation, Adoption, and Submittal of Implementation Plans). The EPA interpretation of these requirements, which forms the basis for today's action, appears in the various EPA policy guidance documents listed in footnote one. Among those provisions is the requirement that a VOC rule must, at a minimum, provide for the implementation of RACT for stationary sources of VOC emissions. This requirement was carried forth from the pre-amended Act.

For the purpose of assisting state and local agencies in developing RACT rules, EPA prepared a series of Control Technique Guideline (CTG) documents. The CTGs are based on the underlying requirements of the Act and specify the presumptive norms for what is RACT for specific source categories. Under the CAA, Congress ratified EPA's use of these documents, as well as other Agency policy, for requiring States to ''fix-up'' their RACT rules. See section 182(a)(2)(A). The following CTGs are applicable to Rule 336:

—''Control of Volatile Organic Emission from Existing Stationary Sources Volume II: Surface Coating of Cans, Coils, Paper, Fabrics, Automobiles, and light Duty Trucks,'' USEPA, May 1977, EPA–450/2–77–008;

—''Control of Volatile Organic Emission from Existing Stationary Sources Volume III: Surface Coating of Metal Furniture,'' USEPA, December 1977, EPA–450/2–77–034; and,

—''Control of Volatile Organic Emission from Existing Stationary Sources Volume VI: Surface Coating of Miscellaneous Metal Parts and Products,'' USEPA, June 1978, EPA–450/2–78–015.

The following Alternative Control Techniques (ACT) document was consulted for its recommended emission limits and other applicable provisions:

—''Surface Coating of Automotive/Transportation and Business Machine Plastic Parts,'' USEPA, EPA 453/R–94–017.

The following CTG was used to evaluate Rule 348:

—''Guideline Series: Control of Volatile Organic Compound Emissions from Coating Operations at Aerospace Manufacturing and Rework Operations,'' USEPA, EPA–453/R–97–004, December, 1997.

Further interpretations of EPA policy are found in the Blue Book, referred to in footnote one. In general, these guidance documents have been set forth to ensure that VOC rules are fully enforceable and strengthen or maintain the SIP.

On February 9, 1998, EPA finalized a limited approval and limited disapproval of Rule 336. Although Rule 336 strengthened the SIP, the rule contained deficiencies that were required to be corrected pursuant to the section 182(a)(2)(A) requirements of Part D of the CAA. EPA required that the following sections be amended to be consistent with the applicable CTG and EPA policy:

—Section 306.4, Exemptions, Special Facilities/Operations;

—Section 306.5, Exemptions Small Sources; and,

—Section 402, Administrative Requirements, Minimal Use Days.

Further discussion of these deficiencies can be found at 62 FR 66040 (December 17, 1997) or in EPA's Technical Support Document for that December 1997 rulemaking.

Maricopa County's submitted Rule 336—Surface Coating Operations includes the following significant changes from the current SIP version:

—Requirements for more efficient paint application equipment;

—More stringent clean-up requirements;

—VOC limits for adhesives used on paper and metal substrates;

—More explicit recordkeeping requirements;

—Aerospace coating limits and requirements were deleted and included within Rule 348—Aerospace Manufacturing and Rework Operations; and,

—Two exemptions were deleted and one was added for bond rubber sheets for abrasion protection on metal machinery.

Within the version of Rule 336 adopted on April 7, 1999, the deficiencies identified by EPA in its February 9, 1998 rulemaking were corrected in the following ways:

—Section 306.4, Exemptions, Special Facilities/Operations and its 40 pounds per day size cutoff was deleted and the CTG size cut-off of 15 lbs per day was retained;

—Section 306.5, Exemptions, Small Sources was amended at Sections 243 and 305.4(d) to address EPA's ''once in, always in'' policy; and,

—Section 402, Administrative Requirements, Minimal Use Days and its waiver provisions was deleted.

The submitted Rule 336 does not interfere with reasonable further progress, attainment, or other provisions of the CAA. The amendments to Rule 336 are consistent with the CAA's Section 110(1) requirement for several reasons. First, Rule 336's amendments correct the deficiencies within the rule

---

operation of law pursuant to sections 107(d) and 181(a) upon the date of enactment of the CAA. See 56 FR 56694 (November 6, 1991). On November 6, 1997 EPA published a final rule reclassifying the MAG Urban Planning Area from moderate to serious (FR 62 60001). This reclassification became effective on December 8, 1997.

[3] EPA adopted the completeness criteria on February 16, 1990 (55 FR 5830) and, pursuant to section 110(k)(1)(A) of the CAA, revised the criteria on August 26, 1991 (56 FR 42216).

and increase VOC emission reductions compared to the previous 1996 version of the rule within the SIP. Emission reductions are estimated to be 40 tons per year resulting from the Section 302 requirement to use an efficient coating application method. Second, the emission limits within Rule 336 meet the relevant CTG. Finally, although aerospace coating limits and requirements were deleted from Rule 336, they were included within Rule 348—Aerospace Manufacturing and Rework Operations. Rule 348 and its emission limits are being approved concurrently with this rulemaking action on Rule 336.

EPA has evaluated the submitted Rule 336 and has determined that it is consistent with the CAA, EPA regulations, and EPA policy. Therefore, Maricopa County Rule 336—Surface Coating Operations is being approved under section 110(k)(3) of the CAA as meeting the requirements of section 110(a) and part D. This approval action will incorporate this rule into the federally approved SIP and also stop the sanctions process and Federal Implementation Plan clock, which were started on February 9, 1998 when a limited disapproval action was published in the **Federal Register** (see 63 FR 6487.)

There is no version of Maricopa County Rule 348—Aerospace Manufacturing and Rework Operations in the SIP. The submitted Rule 348 includes the following general provisions:

—General purpose and applicability;
—Definitions of terms used within the rule;
—Requirements for VOC content of coatings, surface preparation, and storage of VOC containing materials;
—Exemptions from the rule;
—Requirements for using air pollution control equipment;—record keeping to demonstrate compliance with the rule; and,
—Test methods for determining compliance with the rule.

EPA has evaluated Rule 348 and has determined that it is consistent with the CAA, EPA regulations, and EPA policy. Therefore, Maricopa County Rule 348—Aerospace Manufacturing and Rework Operations is being approved under section 110(k)(3) of the CAA as meeting the requirements of section 110(a) and part D.

EPA is publishing this approval action without prior proposal because the Agency views this as a noncontroversial amendment and anticipates no adverse comments. However, in the proposed rules section of this **Federal Register** publication, EPA is publishing a separate document that will serve as the proposal to approve the SIP revision should adverse comments be filed. This rule will be effective November 19, 1999 without further notice unless the Agency receives adverse comments by October 20, 1999.

If the EPA receives such comments, then EPA will publish a timely withdrawal in the **Federal Register** informing the public that the rule did not take effect. All public comments received will then be addressed in a subsequent final rule based on the proposed rule. The EPA will not institute a second comment period. Any parties interested in commenting on this rule should do so at this time. If no such comments are received, the public is advised that this rule is effective on November 19, 1999 and no further action will be taken on the proposed rule.

IV. Administrative Requirements

A. Executive Order 12866

The Office of Management and Budget (OMB) has exempted this regulatory action from Executive Order 12866, Regulatory Planning and Review.

B. Executive Order 12875

Under Executive Order 12875, Enhancing the Intergovernmental Partnership, EPA may not issue a regulation that is not required by statute and that creates a mandate upon a State, local or tribal government, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by those governments, or EPA consults with those governments. If EPA complies by consulting, Executive Order 12875 requires EPA to provide to the Office of Management and Budget a description of the extent of EPA's prior consultation with representatives of affected State, local and tribal governments, the nature of their concerns, copies of any written communications from the governments, and a statement supporting the need to issue the regulation. In addition, Executive Order 12875 requires EPA to develop an effective process permitting elected officials and other representatives of State, local and tribal governments ''to provide meaningful and timely input in the development of regulatory proposals containing significant unfunded mandates.'' Today's rule does not create a mandate on State, local or tribal governments. The rule does not impose any enforceable duties on these entities. Accordingly, the requirements of section 1(a) of Executive Order 12875 do not apply to this rule.

C. Executive Order 13045

Protection of Children from Environmental Health Risks and Safety Risks (62 FR 19885, April 23, 1997), applies to any rule that: (1) is determined to be ''economically significant'' as defined under Executive Order 12866, and (2) concerns an environmental health or safety risk that EPA has reason to believe may have a disproportionate effect on children. If the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children, and explain why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the Agency. This rule is not subject to Executive Order 13045 because it does not involve decisions intended to mitigate environmental health or safety risks.

D. Executive Order 13084

Under Executive Order 13084, Consultation and Coordination with Indian Tribal Governments, EPA may not issue a regulation that is not required by statute, that significantly or uniquely affects the communities of Indian tribal governments, and that imposes substantial direct compliance costs on those communities, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by the tribal governments, or EPA consults with those governments. If EPA complies by consulting, Executive Order 13084 requires EPA to provide to the Office of Management and Budget, in a separately identified section of the preamble to the rule, a description of the extent of EPA's prior consultation with representatives of affected tribal governments, a summary of the nature of their concerns, and a statement supporting the need to issue the regulation. In addition, Executive Order 13084 requires EPA to develop an effective process permitting elected officials and other representatives of Indian tribal governments ''to provide meaningful and timely input in the development of regulatory policies on matters that significantly or uniquely affect their communities.'' Today's rule does not significantly or uniquely affect the communities of Indian tribal governments. Accordingly, the requirements of section 3(b) of Executive Order 13084 do not apply to this rule.

E. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) generally requires an agency to conduct a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and small governmental jurisdictions. This final rule will not have a significant impact on a substantial number of small entities because SIP approvals under section 110 and subchapter I, part D of the Clean Air Act do not create any new requirements but simply approve requirements that the State is already imposing. Therefore, because the Federal SIP approval does not create any new requirements, I certify that this action will not have a significant economic impact on a substantial number of small entities. Moreover, due to the nature of the Federal-State relationship under the Clean Air Act, preparation of flexibility analysis would constitute Federal inquiry into the economic reasonableness of state action. The Clean Air Act forbids EPA to base its actions concerning SIPs on such grounds. *Union Electric Co.*, v. *U.S. EPA*, 427 U.S. 246, 255–66 (1976); 42 U.S.C. 7410(a)(2).

F. Unfunded Mandates

Under Section 202 of the Unfunded Mandates Reform Act of 1995 (''Unfunded Mandates Act''), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a Federal mandate that may result in estimated annual costs to State, local, or tribal governments in the aggregate; or to private sector, of $100 million or more. Under Section 205, EPA must select the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the approval action promulgated does not include a Federal mandate that may result in estimated annual costs of $100 million or more to either State, local, or tribal governments in the aggregate, or to the private sector. This Federal action approves pre-existing requirements under State or local law, and imposes no new requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action.

G. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a ''major'' rule as defined by 5 U.S.C. 804(2).

H. Petitions for Judicial Review

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 19, 1999. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[AZ 086–0017c; FRL–6438–3]

Interim Final Determination that State Has Corrected the Deficiency State of Arizona; Maricopa County

AGENCY: Environmental Protection Agency (EPA).

ACTION: Interim final determination.

SUMMARY: Elsewhere in today's **Federal Register**, EPA has published a direct final rulemaking fully approving the State of Arizona's submittal of Maricopa County's Rule 336—Surface Coating Operations. EPA has also published a proposed rulemaking to provide the public with an opportunity to comment on EPA's action. If a person submits adverse comments on EPA's final action, EPA will withdraw its direct final rule and will consider any comments received before taking final action on the State's submittal. Based on the full approval, EPA is making an interim final determination by this action that the State has corrected the deficiency for which a sanctions clock began on March 11, 1998. This action will defer both the imposition of the offset sanction and the imposition of the highway sanction. Although this action is effective upon publication, EPA will take comment. If no comments are received on EPA's approval of the State's submittal, the direct final action published in today's **Federal Register** will also finalize EPA's determination that the State has corrected the deficiency that started the sanctions clock. If comments are received on EPA's proposed approval and this interim final action, EPA will publish a final action taking into consideration any comments received.

DATES: *Effective date:* September 20, 1999.

Comment date: Comments must be received by October 20, 1999.

ADDRESSES: Written comments should be sent to Andrew Steckel at the Region IX office listed below. The state submittal and EPA's analysis for that submittal, which are the basis for this action, are available at EPA's Region IX office during normal business hours. Copies of the submitted rule revisions are available for public review at the following locations:

Rulemaking Office (AIR–4), Air Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105;
Environmental Protection Agency, Air Docket (6102), 401 ''M'' Street, SW., Washington, D.C. 20460;
Arizona Department of Environmental Quality, 3003 North Central Avenue, Phoenix, AZ 85012; and,
Maricopa County Environmental Services Department, 1001 North Central Ave., Phoenix, AZ 85004

FOR FURTHER INFORMATION CONTACT: Jerald S. Wamsley, Rulemaking Office, AIR–4, Air Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105, Telephone: (415) 744–1226.

SUPPLEMENTARY INFORMATION:

I. Background

On February 26, 1997, Arizona submitted Maricopa County Rule 336—Surface Coating Operations, which EPA disapproved in part on February 9, 1998. (See 63 FR 6487.) Beginning on March 11, 1998, EPA's disapproval action started an 18-month clock for the imposition of one sanction (followed by a second sanction 6 months later) and a 24-month clock for promulgation of a Federal Implementation Plan (FIP).

The State submitted a revised rule on August 4, 1999. EPA has taken direct final action on this submittal pursuant to its modified direct final policy set forth at 59 FR 24054 (May 10, 1994). In the Rules section of today's **Federal Register**, EPA has issued a direct final full approval of Arizona's submittal of Maricopa County Rule 336. In addition, in the Proposed Rules section of today's **Federal Register**, EPA has proposed full approval of the State's submittal.

Based on the direct final full approval set forth in today's **Federal Register**, EPA believes that it is more likely than not that Maricopa County has corrected the original disapproval deficiency. Therefore, EPA is taking this final rulemaking action, effective on publication, finding that Maricopa County has corrected the deficiency. However, EPA is also providing the public with an opportunity to comment on this final action. If, based on any comments on this action and any comments on EPA's proposed full approval of the State's submittal, EPA determines that the State's submittal is not fully approvable and this final action was inappropriate, EPA will either propose or take final action finding that the State has not corrected the original disapproval deficiency. As appropriate, EPA will also issue an interim final determination or a final determination that the deficiency has been corrected.

This action does not stop the sanctions clock that started for this area on March 11, 1998. However, this action will defer the imposition of the offsets sanction and will defer the imposition of the highway sanction. *See* 59 FR 39832 (August 4, 1994). If EPA's direct final action fully approving the State's submittal becomes effective, such action will permanently stop the sanctions clock and will permanently lift any imposed, stayed or deferred sanctions. If EPA must withdraw the direct final action based on adverse comments and EPA subsequently determines that the State, in fact, did not correct the disapproval deficiency, EPA will also determine that the State did not correct the deficiency and the sanctions consequences described in the sanctions rule will apply. See 59 FR 39832, to be codified at 40 CFR 52.31.

II. EPA Action

EPA is taking interim final action finding that Maricopa County has corrected the disapproval deficiency that started the sanctions clock. Based on this action, imposition of the offset sanction will be deferred and imposition of the highway sanction will be deferred until EPA's direct final action fully approving the State's submittal becomes effective or until EPA takes action proposing or finally disapproving in whole or part the State submittal. If EPA's direct final action fully approving the State submittal becomes effective, at that time any sanctions clocks will be permanently stopped and any imposed, stayed or deferred sanctions will be permanently lifted.

Because EPA has determined preliminarily that the State has an approvable rule, relief from sanctions should be provided as quickly as possible. Therefore, EPA is invoking the good cause exception to the 30-day notice requirement of the Administrative Procedure Act because the purpose of this action is to relieve a restriction. *See* 5 U.S.C. 553(d)(1).

III. Administrative Requirements

A. Executive Order 12866

The Office of Management and Budget (OMB) has exempted this regulatory action from Executive Order 12866, Regulatory Planning and Review.

B. Executive Order 12875

Under Executive Order 12875, Enhancing the Intergovernmental Partnership, EPA may not issue a regulation that is not required by statute and that creates a mandate upon a State, local or tribal government, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by those governments, or EPA consults with those governments. If EPA complies by consulting, Executive Order 12875 requires EPA to provide to the Office of Management and Budget a description of the extent of EPA's prior consultation with representatives of affected State, local and tribal governments, the nature of their concerns, copies of any written communications from the governments, and a statement supporting the need to issue the regulation. In addition, Executive Order 12875 requires EPA to develop an effective process permitting elected officials and other representatives of State, local and tribal governments ''to provide meaningful and timely input in the development of regulatory proposals containing significant unfunded mandates.'' Today's rule does not create a mandate on State, local or tribal governments. The rule does not impose any enforceable duties on these entities. Accordingly, the requirements of section 1(a) of Executive Order 12875 do not apply to this rule.

C. Executive Order 13045

Protection of Children from Environmental Health Risks and Safety Risks (62 FR 19885, April 23, 1997), applies to any rule that: (1) is determined to be ''economically significant'' as defined under Executive Order 12866, and (2) concerns an environmental health or safety risk that EPA has reason to believe may have a disproportionate effect on children. If the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children, and explain why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the Agency. This rule is not subject to Executive Order 13045 because it does not involve decisions intended to mitigate environmental health or safety risks.

D. Executive Order 13084

Under Executive Order 13084, Consultation and Coordination with Indian Tribal Governments, EPA may not issue a regulation that is not required by statute, that significantly or uniquely affects the communities of Indian tribal governments, and that imposes substantial direct compliance costs on those communities, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by the tribal governments, or EPA consults with those governments. If EPA complies by consulting, Executive Order 13084 requires EPA to provide to the Office of Management and Budget, in a separately identified section of the preamble to the rule, a description of the extent of EPA's prior consultation with representatives of affected tribal governments, a summary of the nature of their concerns, and a statement supporting the need to issue the regulation. In addition, Executive Order 13084 requires EPA to develop an effective process permitting elected officials and other representatives of Indian tribal governments ''to provide meaningful and timely input in the development of regulatory policies on matters that significantly or uniquely affect their communities.'' Today's rule does not significantly or uniquely affect the communities of Indian tribal governments. Accordingly, the requirements of section 3(b) of Executive Order 13084 do not apply to this rule.

E. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) generally requires an agency to conduct a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and small governmental jurisdictions. This final rule will not have a significant impact on a substantial number of small entities because SIP approvals under section 110 and subchapter I, part D of the Clean Air Act do not create any new requirements but simply approve requirements that the State is already imposing. Therefore, because the Federal SIP approval does not create any new requirements, I certify that this action will not have a significant economic impact on a substantial number of small entities. Moreover, due to the nature of the Federal-State relationship under the Clean Air Act, preparation of flexibility analysis would constitute Federal inquiry into the economic reasonableness of state action. The Clean Air Act forbids EPA to base its actions concerning SIPs on such grounds. *Union Electric Co.*, v. *U.S. EPA*, 427 U.S. 246, 255–66 (1976); 42 U.S.C. 7410(a)(2).

F. Unfunded Mandates

Under Section 202 of the Unfunded Mandates Reform Act of 1995 (''Unfunded Mandates Act''), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a Federal mandate that may result in estimated annual costs to State, local, or tribal governments in the aggregate; or to private sector, of $100 million or more. Under Section 205, EPA must select the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the approval action promulgated does not include a Federal mandate that may result in estimated annual costs of $100 million or more to either State, local, or tribal governments in the aggregate, or to the private sector. This Federal action approves pre-existing requirements under State or local law, and imposes no new requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action.

G. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a ''major'' rule as defined by 5 U.S.C. 804(2).

H. Petitions for Judicial Review

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 19, 1999. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: September 3, 1999.

Laura Yoshii,

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 62

[NV 015–MSWa; FRL–6440–4]

Approval and Promulgation of State Plans for Designated Facilities and Pollutants: Nevada

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is approving the Nevada State Plan for implementing the emissions guidelines (EG) applicable to existing municipal solid waste (MSW) landfills. The Plan was submitted by the Nevada Division of Environmental Protection (NDEP) for the State of Nevada to satisfy requirements of section 111(d) of the Clean Air Act (the Act).

DATES: This direct final rule is effective on November 19, 1999 without further notice, unless EPA receives relevant adverse comments by October 20, 1999. If EPA receives such comments, then it will publish a timely withdrawal in the **Federal Register** informing the public that this rule will not take effect.

ADDRESSES: Comments must be submitted to Andrew Steckel at the Region IX office listed below. Copies of the submitted Plan and EPA's evaluation report are available for public inspection at EPA's Region IX

office during normal business hours. Copies of the submitted Plan are available for inspection at the following locations:

Rulemaking Office (AIR–4), Air Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105

Bureau of Air Quality, Division of Environmental Protection, Department of Conservation and Natural Resources, 333 W. Nye Lane, Carson City, Nevada 89706–0851.

FOR FURTHER INFORMATION CONTACT: Patricia A. Bowlin, (AIR–4), Air Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105–3901, Telephone: (415) 744–1188.

SUPPLEMENTARY INFORMATION:

I. Background

Under section 111(d) of the Act, EPA has established procedures whereby States submit plans to control certain existing sources of ''designated pollutants.'' Designated pollutants are defined as pollutants for which a standard of performance for new sources applies under section 111 but which are not ''criteria pollutants'' (*i.e.*, pollutants for which National Ambient Air Quality Standards (NAAQS) are set pursuant to sections 108 and 109 of the Act) or hazardous air pollutants (HAPs) regulated under section 112 of the Act. As required by section 111(d) of the Act, EPA established a process at 40 CFR part 60, subpart B, which States must follow in adopting and submitting a section 111(d) plan. Whenever EPA promulgates new source performance standards (NSPS) that control a designated pollutant, EPA establishes EG in accordance with 40 CFR 60.22 which contain information pertinent to the control of the designated pollutant from that NSPS source category (*i.e.*, the ''designated facility'' as defined at 40 CFR 60.21(b)). Thus, a State's section 111(d) plan for a designated facility must comply with the EG for that source category as well as 40 CFR part 60, subpart B (40 CFR 60.23 through 60.26).

On March 12, 1996, EPA promulgated NSPS for new MSW landfills at 40 CFR part 60, subpart WWW (Standards of Performance for Municipal Solid Waste Landfills) and EG for existing MSW landfills at 40 CFR part 60, subpart Cc (Emission Guidelines and Compliance Times for Municipal Solid Waste Landfills) (see 61 FR 9905). The pollutants regulated by the NSPS and EG are MSW landfill emissions, which contain a mixture of volatile organic compounds (VOC), other organic compounds, methane, and HAPs. VOC emissions contribute to ozone formation which can result in adverse effects to human health and vegetation. The health effects of HAPs include cancer, respiratory irritation, and damage to the nervous system. Methane emissions contribute to global climate change and can result in fires or explosions when they accumulate in structures on or off the landfill site. To determine whether control is required, nonmethane organic compounds (NMOC) are measured as a surrogate for MSW landfill emissions. Thus, NMOC is considered the designated pollutant. The designated facility which is subject to the EG is each existing MSW landfill (as defined in 40 CFR 60.32c) for which construction, reconstruction or modification was commenced before May 30, 1991.

Pursuant to 40 CFR 60.23(a), States were required within nine months after promulgation of subpart Cc (by December 12, 1996) to submit either a plan to implement and enforce the EG or, if there are no existing MSW landfills subject to the EG in the State, a negative declaration letter.

EPA published a direct final rulemaking on June 16, 1998, in which EPA amended 40 CFR part 60, subpart Cc (and subpart WWW), to add clarifying language, make editorial amendments, and to correct typographical errors (see 63 FR 32743). EPA published additional technical amendments and corrections on February 24, 1999 (see 64 FR 9258). These amendments did not change the submittal date or the requirements for State plans for existing MSW landfills.

On June 3, 1998, NDEP submitted to EPA the Nevada State Plan for implementing the MSW landfill EG. NDEP submitted a technical revision to the Nevada State Plan on May 21, 1999.

The Nevada State Plan does not apply to landfills in the two counties that are not under the jurisdiction of the NDEP: Clark and Washoe. Washoe County submitted a negative declaration letter on May 7, 1997 certifying that there are no existing MSW landfills that are subject to the control requirements of the emission guidelines within the County. Clark County has affected existing landfills but has not submitted its portion of the Nevada State Plan. Existing landfills in Clark County will be subject to the requirements of the Federal Plan upon its promulgation until EPA receives and approves Clark County's portion of the Nevada State Plan.

The following provides a brief discussion of the requirements for an approvable State plan for existing MSW landfills and EPA's review of the Nevada State Plan with respect to those requirements. A detailed discussion of the State Plan and EPA's evaluation can be found in the Technical Support Document for the Nevada Plan (8/99).

II. Review of the Nevada MSW Landfill Plan

EPA has reviewed the Nevada section 111(d) plan for existing MSW landfills against the requirements of 40 CFR part 60, subparts B and Cc, as follows:

A. Identification of Enforceable State Mechanism for Implementing the EG

Subpart B at 40 CFR 60.24(a) requires that the section 111(d) plan include emissions standards, defined in 40 CFR 60.21(f) as ''a legally enforceable regulation setting forth an allowable rate of emissions into the atmosphere, or prescribing equipment specifications for control of air pollution emissions.'' The Nevada State Plan uses the following State regulation as the enforceable mechanism: Nevada Administrative Code (NAC) 445B.383 ''Municipal Solid Waste Landfills,'' as amended on April 9, 1999 by the Nevada State Environmental Commission (SEC). This State regulation controls air emissions from existing MSW landfills in the NDEP's jurisdiction.[1] Thus, Nevada has met the requirement of 40 CFR 60.24(a) to have legally enforceable emission standards.

B. Demonstration of Legal Authority

Subpart B at 40 CFR 60.26 requires that the section 111(d) plan demonstrate that the State has legal authority to adopt and implement the emission standards and compliance schedules. The State has demonstrated that the Nevada SEC has sufficient legal authority to adopt rules governing MSW landfills and that the NDEP has sufficient legal authority to enforce these rules and to develop and administer this MSW landfill plan. The State statutes providing such authority are sections 233B (Nevada Administrative Procedure Act) and 445B (Air Pollution) of the Nevada Revised Statutes (NRS).

C. Inventory of Existing MSW Landfills in the State Affected by the State Plan

Subpart B at 40 CFR 60.25(a) requires that the section 111(d) plan include a complete source inventory of all designated facilities regulated by the EG: existing MSW landfills (*i.e.*, those MSW landfills that constructed, reconstructed, or modified prior to May 30, 1991) that have accepted waste since

[1] The Air Quality Bureau of NDEP has jurisdiction over the landfills within the State of Nevada, excluding the landfills within the counties of Clark and Washoe.

November 8, 1987 or have additional capacity for future waste deposition (see 40 CFR 60.32c(a)(1)). NDEP submitted a list of the existing MSW landfills in Nevada as part of the State Plan.

D. Inventory of Emissions From Existing MSW Landfills in the State

Subpart B at 40 CFR 60.25(a) requires that the 111(d) plan include an emissions inventory that estimates emissions of the designated pollutant regulated by the EG: NMOC. NDEP has submitted an estimate of annual NMOC emissions from the landfills in the source inventory as part of the State Plan. NDEP used the procedures in 40 CFR 60.754 to estimate the NMOC emissions.

E. Emission Standards for MSW Landfills

Subpart B at 40 CFR 60.24(c) specifies that the State plan must include emission standards that are no less stringent than the EG (except as specified in 40 CFR 60.24(f) which allows for less stringent emission standards on a case-by-case basis if certain conditions are met). The State regulation, NAC 445B.383, contains the emission standards that are in subpart Cc. Thus, Nevada's State Plan complies with this requirement.

F. A Process for State Review and Approval of Site-Specific Gas Collection and Control System Design Plans

Subpart Cc at 40 CFR 60.33c(b) requires State plans to include a process for State review and approval of site-specific design plans for required gas collection and control systems. The process for NDEP review and approval of site-specific gas collection and control systems is specified in the State Plan. Thus, Nevada's section 111(d) plan adequately addresses this requirement.

G. Compliance Schedules

The State's section 111(d) plan must include a compliance schedule that owners and operators of affected MSW landfills must meet in complying with the requirements of the plan. Subpart Cc at 40 CFR 60.36c provides that planning, awarding of contracts, and installation of air emission collection and control equipment capable of meeting the EG must be accomplished within 30 months of the date on which the NMOC emission rate equals or exceeds 50 megagrams per year. The State regulation, NAC 445B.383, contains the same compliance schedule as subpart Cc.

H. Testing, Monitoring, Recordkeeping and Reporting Requirements

Subpart Cc at 40 CFR 60.34c specifies the testing and monitoring provisions that State plans must include (60.34c specifically refers to the requirements found in 40 CFR 60.754 to 60.756), and 40 CFR 60.35c specifies the reporting and recordkeeping requirements (60.35c refers to the requirements found in 40 CFR 60.757 and 60.758). The Nevada landfill regulation incorporates by reference the requirements found in 40 CFR 60.754 to 60.758. Thus, the State Plan satisfies the requirements of 40 CFR 60.34c and 60.35c.

I. A Record of Public Hearings on the State Plan

Subpart B at 40 CFR 60.23 contains the requirements for public hearings that must be met by the State in adopting a section 111(d) plan. NDEP included documents in its plan submittal demonstrating that these requirements, as well as the State's administrative procedures, were complied with in adopting the State landfill regulation and in developing the State Plan. Therefore, EPA finds that Nevada has met this requirement.

J. Submittal of Annual State Progress Reports to EPA

Subpart B at 40 CFR 60.25(e) and (f) requires States to submit to EPA annual reports on the progress of plan enforcement. Nevada committed in its section 111(d) plan to submit annual progress reports to EPA. The first progress report will be submitted by the State one year after EPA approval of the State Plan. Therefore, EPA finds that Nevada has adequately met this requirement.

In summary, EPA finds that the Nevada State Plan meets all of the requirements applicable to such plans in 40 CFR part 60, subparts B and Cc.

III. Final Action

Based on the rationale discussed above, EPA is approving the State of Nevada section 111(d) plan for the control of landfill gas emissions from existing MSW landfills.[2] As provided by 40 CFR 60.28(c), any revisions to the Nevada State Plan or associated regulations will not be considered part of the applicable plan until submitted by the NDEP in accordance with 40 CFR 60.28(a) or (b), as applicable, and until approved by EPA in accordance with 40 CFR part 60, subpart B.

The EPA is publishing this rule without prior proposal because the Agency views this as a noncontroversial action and anticipates no adverse comments. However, in the proposed rules section of this **Federal Register** publication, EPA is publishing a separate document that will serve as the proposal to approve the 111(d) plan should relevant adverse or critical comments be filed. This rule will be effective November 19, 1999 without further notice unless the Agency receives relevant adverse comments by October 20, 1999.

If EPA receives such comments, then EPA will publish a document withdrawing the final rule and informing the public that the rule did not take effect. All public comments received will be addressed in a subsequent final rule based on the proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. If no such comments are received, the public is advised that this action will be effective on November 19, 1999 and no further action will be taken on the proposed rule.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any section 111(d) plan. Each request for revision to the section 111(d) plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

IV. Administrative Requirements

A. Executive Order 12866

The Office of Management and Budget (OMB) has exempted this regulatory action from review under Executive Order 12866, entitled ''Regulatory Planning and Review.''

B. Executive Order 12875

Under Executive Order 12875, EPA may not issue a regulation that is not required by statute and that creates a mandate upon a state, local, or tribal government, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by those governments. If EPA complies by consulting, Executive Order 12875 requires EPA to provide to the Office of Management and Budget a description of the extent of EPA's prior consultation with representatives of affected state, local, and tribal governments, the nature of their

[2] The State did not submit evidence of authority to regulate existing MSW landfills in Indian Country; therefore, EPA is not approving this Plan as it relates to those sources.

concerns, copies of written communications from the governments, and a statement supporting the need to issue the regulation. In addition, Executive Order 12875 requires EPA to develop an effective process permitting elected officials and other representatives of state, local, and tribal governments ''to provide meaningful and timely input in the development of regulatory proposals containing significant unfunded mandates.'' Today's rule does not create a mandate on state, local or tribal governments. The rule does not impose any enforceable duties on these entities. Accordingly, the requirements of section 1(a) of Executive Order 12875 do not apply to this rule.

C. Executive Order 13045

Protection of Children from Environmental Health Risks and Safety Risks (62 FR 19885, April 23, 1997), applies to any rule that: (1) Is determined to be ''economically significant'' as defined under Executive Order 12866, and (2) concerns an environmental health or safety risk that EPA has reason to believe may have a disproportionate effect on children. If the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children, and explain why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the Agency.

This rule is not subject to Executive Order 13045 because it does not involve decisions intended to mitigate environmental health or safety risks.

D. Executive Order 13084

Under Executive Order 13084, EPA may not issue a regulation that is not required by statute, that significantly affects or uniquely affects the communities of Indian tribal governments, and that imposes substantial direct compliance costs on those communities, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by the tribal governments. If EPA complies by consulting, Executive Order 13084 requires EPA to provide to the Office of Management and Budget, in a separately identified section of the preamble to the rule, a description of the extent of EPA's prior consultation with representatives of affected tribal governments, a summary of the nature of their concerns, and a statement supporting the need to issue the regulation. In addition, Executive Order 13084 requires EPA to develop an effective process permitting elected and other representatives of Indian tribal governments ''to provide meaningful and timely input in the development of regulatory policies on matters that significantly or uniquely affect their communities.''

Today's rule does not significantly or uniquely affect the communities of Indian tribal governments. This action does not involve or impose any requirements that affect Indian Tribes. Accordingly, the requirements of section 3(b) of Executive Order 13084 do not apply to this rule.

E. Regulatory Flexibility

The Regulatory Flexibility Act (RFA) generally requires an agency to conduct a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and small governmental jurisdictions. This final rule will not have a significant impact on a substantial number of small entities because State Plan approvals under section 111(d) of the Clean Air Act do not create any new requirements but simply approve requirements that the State is already imposing. Therefore, because the Federal State Plan approval does not create any new requirements, I certify that this action will not have a significant economic impact on a substantial number of small entities. Moreover, due to the nature of the Federal-State relationship under the Clean Air Act, preparation of flexibility analysis would constitute Federal inquiry into the economic reasonableness of state action. The Clean Air Act forbids EPA to base its actions concerning State Plans on such grounds. *Union Electric Co.* v. *U.S. EPA*, 427 U.S. 246, 255–66 (1976); 42 U.S.C. 7410(a)(2).

F. Disclaimer Language Approving State Plans in Audit Law States

Nothing in this action should be construed as making any determination or expressing any position regarding Nevada's audit privilege and penalty immunity law (NRS Chapter 445C.010–.120) or its impact upon any approved State Plan, including the plan at issue here. The action taken herein does not express or imply any viewpoint on the question of whether there are legal deficiencies in this or any other Clean Air Act program resulting from the effect of Nevada's audit privilege and immunity law. A state audit privilege and immunity law can affect only state enforcement and cannot have any impact on federal enforcement authorities. EPA may at any time invoke its authority under the Clean Air Act, including, for example, sections 113, 167, 205, 211 or 213, to enforce the requirements or prohibitions of the State Plan, independently of any state enforcement effort. In addition, citizen enforcement under section 304 of the Clean Air Act is likewise unaffected by a state audit privilege or immunity law.

G. Unfunded Mandates

Under section 202 of the Unfunded Mandates Reform Act of 1995 (''Unfunded Mandates Act''), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a Federal mandate that may result in estimated costs to State, local, or tribal governments in the aggregate; or to private sector, of $100 million or more. Under section 205, EPA must select the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the approval action promulgated does not include a Federal mandate that may result in estimated costs of $100 million or more to either State, local, or tribal governments in the aggregate, or to the private sector. This Federal action approves pre-existing requirements under State or local law, and imposes no new requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action.

H. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a ''major rule'' as defined by 5 U.S.C. 804(2).

I. Petitions for Judicial Review

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 19, 1999. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 62

Environmental protection, Administrative practice and procedure, Air pollution control, Intergovernmental relations, Non-methane organic compounds, Methane, Municipal solid waste landfills, Reporting and recordkeeping requirements.

Dated: September 10, 1999.

David P. Howekamp,

Acting Regional Administrator, Region IX.

40 CFR part 62 is amended as follows:

PART 62—[AMENDED]

1. The authority citation for part 62 continues to read as follows:

Authority: 42 U.S.C. 7401–7671q.

2. Subpart DD is added to part 62 to read as follows:

Subpart DD—Nevada

Landfill Gas Emissions From Existing Municipal Solid Waste Landfill

Sec.

62.7100 Identification of plan.
62.7101 Identification of sources.
62.7102 Effective date.

Subpart DD—Nevada

Landfill Gas Emissions From Existing Municipal Solid Waste Landfills

§ 62.7100 Identification of plan.

(a) The Washoe County Department of Health submitted on May 7, 1997 a letter certifying that there are no existing municipal solid waste landfills in Washoe County subject to 40 CFR part 60, subpart Cc.

(b) The Nevada Division of Environmental Protection submitted on June 3, 1998 and May 21, 1999 the State of Nevada's Section 111(d) Plan for Existing Municipal Solid Waste Landfills.

§ 62.7101 Identification of sources.

The plan applies to all existing municipal solid waste landfills for which construction, reconstruction, or modification was commenced before May 30, 1991, as described in 40 CFR part 60, subpart Cc.

§ 62.7102 Effective date.

The effective date of EPA approval of the plan is November 19, 1999.

[FR Doc. 99–24261 Filed 9–17–99; 8:45 am]

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 62

[AZ 014–MSWa; FRL–6440–2]

Approval and Promulgation of State Plans for Designated Facilities and Pollutants: Arizona

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is approving the Arizona State Plan for implementing the emissions guidelines (EG) applicable to existing municipal solid waste (MSW) landfills. The Plan was submitted by the Arizona Department of Environmental Quality (ADEQ) for the State of Arizona to satisfy requirements of section 111(d) of the Clean Air Act (the Act).

DATES: This direct final rule is effective on November 19, 1999 without further notice, unless EPA receives relevant adverse comments by October 20, 1999. If EPA receives such comments, then it will publish a timely withdrawal in the **Federal Register** informing the public that this rule will not take effect.

ADDRESSES: Comments must be submitted to Andrew Steckel at the Region IX office listed below. Copies of the submitted Plan and EPA's evaluation report are available for public inspection at EPA's Region IX office during normal business hours. Copies of the submitted Plan are available for inspection at the following locations:

Rulemaking Office (AIR–4), Air Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105

Air Quality Division, Arizona Department of Environmental Quality, 3033 N. Central Avenue, Phoenix, Arizona 85012

FOR FURTHER INFORMATION CONTACT: Patricia A. Bowlin, (AIR–4), Air Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105–3901, Telephone: (415) 744–1188.

SUPPLEMENTARY INFORMATION:

I. Background

Under section 111(d) of the Act, EPA has established procedures whereby States submit plans to control certain existing sources of ''designated pollutants.'' Designated pollutants are defined as pollutants for which a standard of performance for new sources applies under section 111 but which are not ''criteria pollutants'' (i.e., pollutants for which National Ambient Air Quality Standards (NAAQS) are set pursuant to sections 108 and 109 of the Act) or hazardous air pollutants (HAPs) regulated under section 112 of the Act. As required by section 111(d) of the Act, EPA established a process at 40 CFR part 60, subpart B, which States must follow in adopting and submitting a section 111(d) plan. Whenever EPA promulgates new source performance standards (NSPS) that control a designated pollutant, EPA establishes EG in accordance with 40 CFR 60.22 which contain information pertinent to the control of the designated pollutant from that NSPS source category (i.e., the ''designated facility'' as defined at 40 CFR 60.21(b)). Thus, a State's section 111(d) plan for a designated facility must comply with the EG for that source category as well as 40 CFR part 60, subpart B (40 CFR 60.23 through 60.26).

On March 12, 1996, EPA promulgated NSPS for new MSW landfills at 40 CFR part 60, subpart WWW (Standards of Performance for Municipal Solid Waste Landfills) and EG for existing MSW landfills at 40 CFR part 60, subpart Cc (Emission Guidelines and Compliance Times for Municipal Solid Waste Landfills) (see 61 FR 9905). The pollutants regulated by the NSPS and EG are MSW landfill emissions, which contain a mixture of volatile organic compounds (VOC), other organic compounds, methane, and HAPs. VOC emissions can contribute to ozone formation which can result in adverse effects to human health and vegetation. The health effects of HAPs include cancer, respiratory irritation, and damage to the nervous system. Methane emissions contribute to global climate change and can result in fires or explosions when they accumulate in structures on or off the landfill site. To determine whether control is required, nonmethane organic compounds (NMOC) are measured as a surrogate for MSW landfill emissions. Thus, NMOC is considered the designated pollutant. The designated facility which is subject

to the EG is each existing MSW landfill (as defined in 40 CFR 60.32c) for which construction, reconstruction or modification was commenced before May 30, 1991.

Pursuant to 40 CFR 60.23(a), States were required within nine months after promulgation of subpart Cc (by December 12, 1996) to submit either a plan to implement and enforce the EG or, if there are no existing MSW landfills subject to the EG in the State, a negative declaration letter.

EPA published a direct final rulemaking on June 16, 1998, in which EPA amended 40 CFR part 60, subpart Cc (and subpart WWW), to add clarifying language, make editorial amendments, and to correct typographical errors (see 63 FR 32743). EPA published additional technical amendments and corrections on February 24, 1999 (see 64 FR 9258). These amendments did not change the submittal date or the requirements for State plans for existing MSW landfills.

On June 17, 1997, ADEQ submitted to EPA the Arizona State Plan for implementing the MSW landfill EG. ADEQ submitted an amendment to the Arizona State Plan on June 29, 1999. The following provides a brief discussion of the requirements for an approvable State plan for existing MSW landfills and EPA's review of the Arizona State Plan with respect to those requirements. A detailed discussion of the State Plan and EPA's evaluation can be found in the Technical Support Document for the Arizona Plan (8/99).

II. Review of the Arizona MSW Landfill Plan

EPA has reviewed the Arizona section 111(d) plan for existing MSW landfills against the requirements of 40 CFR part 60, subparts B and Cc, as follows:

A. Identification of Enforceable State Mechanism for Implementing the EG

Subpart B at 40 CFR 60.24(a) requires that the section 111(d) plan include emissions standards, defined in 40 CFR 60.21(f) as ''a legally enforceable regulation setting forth an allowable rate of emissions into the atmosphere, or prescribing equipment specifications for control of air pollution emissions.'' In the State of Arizona, ADEQ has jurisdiction over stationary sources of air pollution in twelve of the fifteen counties of Arizona. The enforceable mechanism in the areas under ADEQ jurisdiction is a state air regulation: Arizona Administrative Code (AAC) R18–2–731 ''Standards of Performance for Existing Municipal Solid Waste Landfills'' (adopted April 4, 1997). In each of the three counties—Maricopa, Pima, and Pinal—that are not under ADEQ jurisdiction, the enforceable mechanism is a county air regulation: Maricopa County Rule 321 ''Municipal Solid Waste Landfills'' (adopted May 14, 1997); Pima County Code Section 17.16.390 ''Standards of Performance for Existing Municipal Solid Waste Landfills'' (adopted October 7, 1997); and Pinal County Article 5–34 ''Standards of Performance for Existing Municipal Solid Waste Landfills'' (adopted May 14, 1997). Thus, Arizona has met the requirement of 40 CFR 60.24(a) to have legally enforceable emission standards.

B. Demonstration of Legal Authority

Subpart B at 40 CFR 60.26 requires that the section 111(d) plan demonstrate that the State has legal authority to adopt and implement the emission standards and compliance schedules. The State has demonstrated that ADEQ and the three county air agencies have sufficient legal authority to adopt and enforce rules governing MSW landfills in their respective jurisdictions. The State statutes providing such authority are Article 2 (State Air Pollution Control) and Article 3 (County Air Pollution Control) of Chapter 3 (Air Quality) of Title 49 of the Arizona Revised Statutes (ARS).

C. Inventory of Existing MSW Landfills in the State Affected by the State Plan

Subpart B at 40 CFR 60.25(a) requires that the section 111(d) plan include a complete source inventory of all designated facilities regulated by the EG: existing MSW landfills (i.e., those MSW landfills that constructed, reconstructed, or modified prior to May 30, 1991) that have accepted waste since November 8, 1987 or have additional capacity for future waste deposition (see 40 CFR 60.32c(a)(1)). ADEQ has submitted an inventory of all existing MSW landfills in Arizona as part of the State Plan.

D. Inventory of Emissions from Existing MSW Landfills in the State

Subpart B at 40 CFR 60.25(a) requires that the 111(d) plan include an emissions inventory that estimates emissions of the designated pollutant regulated by the EG: NMOC. ADEQ has submitted an estimate of annual NMOC emissions from the landfills in the source inventory as part of the State Plan. ADEQ used the procedures in AP–42 ''Compilation of Air Pollutant Emission Factors'' to estimate the NMOC emissions.

E. Emission Standards for MSW Landfills

Subpart B at 40 CFR 60.24(c) specifies that the State plan must include emission standards that are no less stringent than the EG (except as specified in 40 CFR 60.24(f) which allows for less stringent emission standards on a case-by-case basis if certain conditions are met). The State and county regulations in the Arizona Plan contain emission standards that are no less stringent than the EG. Thus, Arizona's section 111(d) plan complies with this requirement.

F. A Process for State Review and Approval of Site-Specific Gas Collection and Control System Design Plans

Subpart Cc at 40 CFR 60.33c(b) requires State plans to include a process for State review and approval of site-specific design plans for required gas collection and control systems. The process for ADEQ and county air district review and approval of site-specific gas collection and control systems is specified in the State Plan. Thus, Arizona's section 111(d) plan adequately addresses this requirement.

G. Compliance Schedules

The State's section 111(d) plan must include compliance schedules that owners and operators of affected MSW landfills must meet in complying with the requirements of the plan. Subpart Cc at 40 CFR 60.36c provides that planning, awarding of contracts, and installation of air emission collection and control equipment capable of meeting the EG must be accomplished within 30 months of the date on which the NMOC emission rate equals or exceeds 50 megagrams per year. The State and county regulations in the Arizona Plan contain the same compliance schedule as subpart Cc.

H. Testing, Monitoring, Recordkeeping and Reporting Requirements

Subpart Cc at 40 CFR 60.34c specifies the testing and monitoring provisions that State plans must include (60.34c specifically refers to the requirements found in 40 CFR 60.754 to 60.756), and 40 CFR 60.35c specifies the reporting and recordkeeping requirements (60.35c refers to the requirements found in 40 CFR 60.757 and 60.758). The State and county regulations in the Arizona Plan incorporate by reference the requirements found in 40 CFR 60.754 to 60.758. Thus, the State Plan satisfies the requirements of 40 CFR 60.34c and 60.35c.

I. A Record of Public Hearings on the State Plan

Subpart B at 40 CFR 60.23 contains the requirements for public hearings that must be met by the State in adopting a section 111(d) plan. The public hearing requirements were fulfilled during the State and county rulemakings. ADEQ included documents in the Plan submittal demonstrating that ADEQ and the county air districts complied with these requirements, as well as the State's administrative procedures. Therefore, EPA finds that Arizona has met this requirement.

J. Submittal of Annual State Progress Reports to EPA

Subpart B at 40 CFR 60.25(e) and (f) requires States to submit to EPA annual reports on the progress of plan enforcement. Arizona committed in its section 111(d) plan to submit annual progress reports to EPA. The first progress report will be submitted by the State one year after EPA approval of the State Plan. Therefore, EPA finds that Arizona has adequately met this requirement.

In summary, EPA finds that the Arizona State Plan meets all of the requirements applicable to such plans in 40 CFR part 60, subparts B and Cc.

III. Final Action

Based on the rationale discussed above, EPA is approving the State of Arizona section 111(d) plan for the control of landfill gas emissions from existing MSW landfills.[1] As provided by 40 CFR 60.28(c), any revisions to the Arizona State Plan or associated regulations will not be considered part of the applicable plan until submitted by the ADEQ in accordance with 40 CFR 60.28(a) or (b), as applicable, and until approved by EPA in accordance with 40 CFR part 60, subpart B.

The EPA is publishing this rule without prior proposal because the Agency views this as a noncontroversial action and anticipates no adverse comments. However, in the proposed rules section of this **Federal Register** publication, EPA is publishing a separate document that will serve as the proposal to approve the 111(d) plan should relevant adverse or critical comments be filed. This rule will be effective November 19, 1999 without further notice unless the Agency receives relevant adverse comments by October 20, 1999.

If EPA receives such comments, then EPA will publish a document withdrawing the final rule and informing the public that the rule did not take effect. All public comments received will be addressed in a subsequent final rule based on the proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. If no such comments are received, the public is advised that this action will be effective on November 19, 1999 and no further action will be taken on the proposed rule.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any section 111(d) plan. Each request for revision to the section 111(d) plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

IV. Administrative Requirements

A. Executive Order 12866

The Office of Management and Budget (OMB) has exempted this regulatory action from review under Executive Order 12866, entitled ''Regulatory Planning and Review.''

B. Executive Order 12875

Under Executive Order 12875, EPA may not issue a regulation that is not required by statute and that creates a mandate upon a state, local, or tribal government, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by those governments. If EPA complies by consulting, Executive Order 12875 requires EPA to provide to the Office of Management and Budget a description of the extent of EPA's prior consultation with representatives of affected state, local, and tribal governments, the nature of their concerns, copies of written communications from the governments, and a statement supporting the need to issue the regulation. In addition, Executive Order 12875 requires EPA to develop an effective process permitting elected officials and other representatives of state, local, and tribal governments ''to provide meaningful and timely input in the development of regulatory proposals containing significant unfunded mandates.'' Today's rule does not create a mandate on state, local, or tribal governments. The rule does not impose any enforceable duties on these entities. Accordingly, the requirements of section 1(a) of Executive Order 12875 do not apply to this rule.

C. Executive Order 13045

Protection of Children from Environmental Health Risks and Safety Risks (62 FR 19885, April 23, 1997), applies to any rule that: (1) is determined to be ''economically significant'' as defined under Executive Order 12866, and (2) concerns an environmental health or safety risk that EPA has reason to believe may have a disproportionate effect on children. If the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children, and explain why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the Agency.

This rule is not subject to Executive Order 13045 because it does not involve decisions intended to mitigate environmental health or safety risks.

D. Executive Order 13084

Under Executive Order 13084, EPA may not issue a regulation that is not required by statute, that significantly affects or uniquely affects the communities of Indian tribal governments, and that imposes substantial direct compliance costs on those communities, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by the tribal governments. If EPA complies by consulting, Executive Order 13084 requires EPA to provide to the Office of Management and Budget, in a separately identified section of the preamble to the rule, a description of the extent of EPA's prior consultation with representatives of affected tribal governments, a summary of the nature of their concerns, and a statement supporting the need to issue the regulation. In addition, Executive Order 13084 requires EPA to develop an effective process permitting elected and other representatives of Indian tribal governments ''to provide meaningful and timely input in the development of regulatory policies on matters that significantly or uniquely affect their communities.''

Today's rule does not significantly or uniquely affect the communities of Indian tribal governments. This action does not involve or impose any requirements that affect Indian Tribes. Accordingly, the requirements of section 3(b) of Executive Order 13084 do not apply to this rule.

[1] The State did not submit evidence of authority to regulate existing MSW landfills in Indian Country; therefore, EPA is not approving this Plan as it relates to those sources.

E. Regulatory Flexibility

The Regulatory Flexibility Act (RFA) generally requires an agency to conduct a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and small governmental jurisdictions. This final rule will not have a significant impact on a substantial number of small entities because State Plan approvals under section 111(d) of the Clean Air Act do not create any new requirements but simply approve requirements that the State is already imposing. Therefore, because the Federal State Plan approval does not create any new requirements, I certify that this action will not have a significant economic impact on a substantial number of small entities. Moreover, due to the nature of the Federal-State relationship under the Clean Air Act, preparation of flexibility analysis would constitute Federal inquiry into the economic reasonableness of state action. The Clean Air Act forbids EPA to base its actions concerning State Plans on such grounds. *Union Electric Co.* v. *U.S. EPA*, 427 U.S. 246, 255–66 (1976); 42 U.S.C. 7410(a)(2).

F. Unfunded Mandates

Under section 202 of the Unfunded Mandates Reform Act of 1995 (''Unfunded Mandates Act''), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a Federal mandate that may result in estimated costs to State, local, or tribal governments in the aggregate; or to private sector, of $100 million or more. Under section 205, EPA must select the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the approval action promulgated does not include a Federal mandate that may result in estimated costs of $100 million or more to either State, local, or tribal governments in the aggregate, or to the private sector. This Federal action approves pre-existing requirements under State or local law, and imposes no new requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action.

G. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a ''major rule'' as defined by 5 U.S.C. 804(2).

H. Petitions for Judicial Review

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 19, 1999. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 62

Environmental protection, Administrative practice and procedure, Air pollution control, Intergovernmental relations, Non-methane organic compounds, Methane, Municipal solid waste landfills, Reporting and recordkeeping requirements.

Dated: September 10, 1999.

David P. Howekamp,

Acting Regional Administrator, Region IX.

40 CFR part 62 is amended as follows:

PART 62—[AMENDED]

1. The authority citation for part 62 continues to read as follows:

Authority: 42 U.S.C. 7401–7671q.

2. Subpart D is added to part 62 to read as follows:

Subpart D—Arizona

Landfill Gas Emissions From Existing Municipal Solid Waste Landfills

Sec.

62.600 Identification of plan.
62.601 Identification of sources.
62.602 Effective date.

Subpart D—Arizona

Landfill Gas Emissions From Existing Municipal Solid Waste Landfills

§ 62.600 Identification of plan.

The Arizona Department of Environmental Quality submitted on June 17, 1997 and June 29, 1999 the State of Arizona's Section 111(d) Plan for Existing Municipal Solid Waste Landfills.

§ 62.601 Identification of sources.

The plan applies to all existing municipal solid waste landfills for which construction, reconstruction, or modification was commenced before May 30, 1991, as described in 40 CFR part 60, subpart Cc.

§ 62.602 Effective date.

The effective date of EPA approval of the plan is November 19, 1999.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[FRL–6440–8]

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency.

ACTION: Notice of deletion of the Hebelka Auto Salvage Yard site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) Region III announces the deletion of the Hebelka Auto Salvage Yard Site (Site) from the National Priorities List (NPL). The NPL constitutes appendix B of 40 CFR part 300 which is the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), which EPA promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), as amended. EPA and the Pennsylvania Department of Environmental Protection (PADEP) have determined that all appropriate CERCLA response actions have been implemented and that no further cleanup by responsible parties is appropriate. Moreover, EPA and PADEP have determined that remedial activities conducted at the Site to date have been

protective of public health, welfare and the environment.

EFFECTIVE DATE: September 20, 1999.

ADDRESSES: Comprehensive information on this release is available for viewing at the Site information repositories at the following locations: U.S. EPA, Region 3, Regional Center for Environmental Information, 1650 Arch Street, Philadelphia, PA 19103, (215) 814–5364. Weisenberg Township Building, 2175 Seipstown Road, Fogelsville, PA 18051, (610) 285–6660.

FOR FURTHER INFORMATION CONTACT: Ms. Deanna Moultrie (3HS21), U.S. Environmental Protection Agency, Region 3, 1650 Arch Street, Philadelphia, PA, 19103, (215) 814–5125.

SUPPLEMENTARY INFORMATION: The release to be deleted from the NPL is: Hebelka Auto Salvage Yard Site, Weisenberg Township, Pennsylvania

A Notice of Intent to Delete for this site was published June 24, 1999 (64 FR 33812). The closing date for comments on the Notice of Intent to Delete was July 26, 1999. EPA received no comments.

The EPA identifies releases which appear to present a significant risk to public health, welfare, or the environment and it maintains the NPL as the list of those releases. Releases on the NPL may be the subject of remedial actions financed by the Hazardous Substance Superfund Response Trust Fund (Fund). Pursuant to § 300.66(c)(8) of the NCP, any release deleted from the NPL remains eligible for Fund-financed remedial actions in the unlikely event that conditions at the Site warrant such action.

Deletion of a release from the NPL does not affect responsible party liability or impede agency efforts to recover costs associated with response efforts.

List of Subjects in 40 CFR Part 300

Environmental protection, Air pollution control, Chemicals, Hazardous substances, Hazardous waste, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements, Superfund, Water pollution control, Water supply.

Dated: September 1, 1999.

W. Michael McCabe,

Regional Administrator, Region III.

For the reasons set out in the preamble, 40 CFR part 300 is amended as follows:

PART 300—[AMENDED]

1. The authority citation for part 300 continues to read as follows:

Authority: 33 U.S.C. 1321(c)(2); 42 U.S.C. 9601–9657; E.O. 12777, 56 FR 54757, 3 CFR, 191 Comp., p. 351; E.O. 12580, 52 FR 2923, 3 CFR, 1987 Comp., p. 193.

Appendix B—[Amended]

2. Table 1 of Appendix B to part 300 is amended by removing the site: Hebelka Auto Salvage Yard, Weisenberg Township, Pennsylvania.

BILLING CODE 6560–50–P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 99–1839 ; MM Docket No. 97–216; RM–9153]

Radio Broadcasting Services; Berlin and North Conway, NH

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission, at the request of Fuller-Jeffrey Radio of New England, Inc., reallots Channel 279C from Berlin to North Conway, NH, as the community's first local aural service, and modifies the license of Station WPKQ's license to specify North Conway as its community of license. *See* 62 FR 54819, October 22, 1997. The Commission found that a waiver of Section 73.207 of the Commission's Rules was warranted in this case since Station WPKQ is a grandfathered short-spaced station with respect to Station WKNE, Channel 279B, Keene, NH, and the allotment will not alter any of the existing short-spacings. Channel 279C can be allotted to North Conway at Station WPKQ's presently licensed transmitter site, 44–16–14 NL; 71–18–15 WL. With this action, this proceeding is terminated.

DATES: Effective October 25, 1999.

FOR FURTHER INFORMATION CONTACT: Leslie K. Shapiro, Mass Media Bureau, (202) 418–2180.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 97–216, adopted September 8, 1999, and released September 10, 1999. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Reference Center (Room 239), 445 12th Street, SW, Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Services, Inc., (202) 857–3800, 1231 20th Street, NW, Washington, DC 20036.

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Part 73 of Title 47 of the Code of Federal Regulations is amended as follows:

PART 73—[AMENDED]

1. The authority citation for part 73 continues to read as follows:

Authority: 47 U.S.C. 154, 303, 334. 336.

§ 73.202 [Amended]

2. Section 73.202(b), the Table of FM Allotments under New Hampshire, is amended by removing Channel 279C at Berlin, and by adding North Conway, Channel 279C.

Federal Communications Commission.

John A. Karousos,

Chief, Allocations Branch, Policy and Rules Division, Mass Media Bureau.

BILLING CODE 6712–01–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Parts 622 and 648

[Docket No. 981014259–8312–02; I.D. 091499B]

Fisheries of the Northeastern United States; Black Sea Bass Fishery; Commercial Quota Harvested for Quarter 3 Period; Fisheries of the Caribbean, Gulf and South Atlantic

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Commercial quota harvest for Quarter 3 period.

SUMMARY: NMFS announces that the black sea bass commercial quota available in the Quarter 3 period to the coastal states from Maine through North Carolina will have been harvested as of September 25, 1999. Commercial vessels may not land black sea bass in the Northeast Region for the remainder of the 1999 Quarter 3 quota period (through September 30, 1999). Regulations governing the black sea bass fishery require publication of this notification to advise the coastal states from Maine through North Carolina that the quota has been harvested and to advise vessel permit holders and dealer permit holders that no commercial

quota is available for landing black sea bass in these states north of 35°15.3' N. lat.

DATES: Effective 0001 hours, September 25, 1999, through 2400 hrs September 30, 1999 (local time).

FOR FURTHER INFORMATION CONTACT: Walter J. Gardiner, Fishery Management Specialist, (978) 281-9326.

SUPPLEMENTARY INFORMATION: Regulations governing the black sea bass fishery north of 35°15.3' N. lat. are found at 50 CFR part 648. Regulations governing the black sea bass fishery south of 35°15.3' N. lat. as part of the South Atlantic snapper-grouper fishery (also known as the NMFS Southeast Region snapper-grouper fisheries) are found at 50 CFR part 622. The regulations for black sea bass at 50 CFR part 648 require annual specification of a commercial quota that is allocated into four quota periods, based upon percentages of the annual quota. The Quarter 3 commercial quota (July through September) is distributed to the coastal states from Maine through North Carolina. The process to set the total annual commercial quota and the percent allocated to each state is described in § 648.140.

The initial total commercial quota for black sea bass for the 1999 calendar year was set equal to 3,025,000 lb (1,372,117 kg) (63 FR 72203, December 31, 1998). The Quarter 3 period quota, which is equal to 12.33 percent of the annual commercial quota, was set at 372,983 lb (169,182 kg).

Section 648.141 requires the Administrator, Northeast Region, NMFS (Regional Administrator) to monitor the commercial black sea bass quota for each quota period and, based upon dealer reports, state data, and other available information, to determine when the commercial quota has been harvested. The Regional Administrator is further required to publish notification in the **Federal Register** advising and notifying commercial vessels and dealer permit holders that, effective upon a specific date, the black sea bass commercial quota has been harvested and no commercial quota is available for landing black sea bass for the remainder of the Quarter 3 period north of 35°15.3' N. lat. The Regional Administrator has determined, based upon dealer reports and other available information, that the black sea bass commercial quota for the 1999 Quarter 3 period will have been harvested as of September 25, 1999.

The regulations at § 648.4(b) provide that, if the commercial black sea bass quota for a period is harvested and the coastal states are closed to the landing of black sea bass north of 35°15.3' N. lat., any vessel owner that holds valid commercial permits for both the black sea bass and the NMFS Southeast Region Snapper-Grouper fisheries may surrender their moratorium black sea bass permit by certified mail addressed to the Regional Administrator (See Table 1 to § 600.502) and fish pursuant to their Snapper-Grouper permit, as long as fishing is conducted exclusively in waters, and landings are made, south of 35°15.3' N. lat. A moratorium permit for the black sea bass fishery that is voluntarily relinquished or surrendered will be reissued upon the receipt of the vessel owner's written request after a minimum period of 6 months from the date of cancellation.

Classification

This action is required by 50 CFR part 648 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 14, 1999.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510–22–F

Proposed Rules

Federal Register
Vol. 64, No. 181
Monday, September 20, 1999

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 51

[Docket Number FV–99–302]

RIN 0581–AB63

Fees for Destination Market Inspections of Fresh Fruits, Vegetables and Other Products

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed rule would revise the regulations governing the inspection and certification for fresh fruits, vegetables and other products by increasing by approximately 14 percent for most of the fees charged for the inspection of these products at destination markets. The fees for inspecting multiple lots of the same product during inspections would be increased more significantly and the per package fees for dock-side inspections would be increased and changed from a three interval schedule, based on weight, to a two interval schedule based on different weight thresholds. These revisions are necessary in order to recover, as nearly as practicable, the costs of performing inspection services at destination markets under the Agricultural Marketing Act of 1946. The fees charged to persons required to have inspections on imported commodities in accordance with the Agricultural Marketing Agreement Act of 1937 and for imported peanuts under the Agricultural Act of 1949 would also be affected.

DATES: Comments must be postmarked or courier dated on or before November 19, 1999.

ADDRESSES: Interested persons are invited to submit written comments concerning this proposal. Comments are to be sent to the Fresh Products Branch, Fruit and Vegetable Programs, Agricultural Marketing Service, U.S. Department of Agriculture, P.O. Box 96456, Room 2049-South, Washington, DC 20090–6456; faxed to (202) 720–5136 or sent via e-mail to *FPB.DocketClerk@usda.gov*. Comments should make reference to the date and page number of this issue of the **Federal Register** and will be made available for public inspection in the above office during regular business hours.

FOR FURTHER INFORMATION CONTACT: Rob Huttenlocker, Assistant Chief, Fresh Products Branch, at the above address or call (202) 720–9771.

SUPPLEMENTARY INFORMATION:

Executive Order 12866 and Regulatory Flexibility Act

This rule has been reviewed by the Office of Management and Budget and has been determined to be not significant for the purposes of Executive Order 12866.

Also, pursuant to the requirements set forth in the Regulatory Flexibility Act (RFA), the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities.

AMS regularly reviews its user-fee financed programs to determine if the fees are adequate. The Fresh Products Branch (FPB) of the Fruit and Vegetable Programs, AMS, has and will continue to seek out cost saving opportunities and implement appropriate changes to reduce its costs. Such actions can provide alternatives to fee increases. However, even with these efforts, FPB's existing fee schedule will not generate sufficient revenues to cover program costs while maintaining an adequate reserve balance. Current revenue projections for FPB's destination market inspection work during FY 99 are $13.7 million with costs projected at $13.9 million and an end-of-year reserve of $2.2 million. However, FPB's trust fund balance for this program will be approximately $2.4 million under the approximate $4.6 million deemed necessary to provide an adequate reserve balance in light of increasing program costs. Further, FPB's costs of operating the destination market program are expected to increase to approximately $14.5 million during FY 00 and to approximately $15.0 million during FY 01. These cost increases will result from inflationary increases with regard to current FPB operations and services (primarily salary and benefits), the training and equipment required to promote improved workplace safety, and the acquisition of additional computer-related technology.

Employee salaries and benefits are major program costs that account for approximately 80 percent of FPB's total operating budget. A general and locality salary increase for Federal employees, ranging from 3.54 to 4.02 percent depending on locality, effective January 1999, has significantly increased program costs. In addition, inflation also impacts FPB's non-salary costs. These factors have increased FPB's costs of operating this program by approximately $500,000 per year. In addition, a general and locality salary increase of at least 4.4 percent is anticipated in January 2000. This salary adjustment will increase FPB's costs by over $600,000 per year.

Additional revenues are also necessary in order for FPB to cover the costs of the additional staff, office space, and equipment ($150,000) needed in two federal market offices that were established during FY 99 (*e.g.*, Brooklyn, New York, and Oklahoma City, Oklahoma). Additional, revenues are also needed to cover the costs of providing safety orientation training to FPB's personnel and purchasing safety shoes for FPB's inspection personnel ($50,000). Finally, FPB needs an additional $200,000 per year to cover the costs of securing the equipment (*e.g.*, digital imaging cameras and computers and necessary information systems upgrades) needed to expand FPB's services and to make existing services more efficient in the future.

This proposed fee increase should result in an estimated $2.5 million in additional revenues per year (only $1.8 million during FY 00 since any fee increase would be effective on or after January 1, 2000) and should enable FPB to cover its costs while building its reserves from the current level of $2.2 million to closer to the $4.6 million level by the end of FY 2001.

The purpose of the RFA is to fit regulatory actions to the scale of businesses subject to such actions in order that small businesses will not be unduly or disproportionately burdened. The proposed action described herein is being taken for several reasons, including that additional user fee revenues are needed to cover the costs of: (1) Providing current program operations and services; (2) improving

the timeliness with which inspection services are provided; (3) creating a safer working environment; and (4) acquiring technological advancements (*e.g.*, digital imaging cameras and computers and necessary information systems upgrades) aimed at expanding FPB's services and making them more efficient in the future. This proposed rule should increase user fee revenue generated under the destination market program by approximately $2.5 million or approximately 18 percent per year. While most of the fees would increase by approximately 14 percent, the fee for inspections of multiple lots of the same product during inspections, commonly referred to as ''sublots,'' would be increased from $14–$32 because FPB's current fee does not nearly cover the costs of performing these inspections (between 20–25 percent of the destination market inspections conducted by FPB involve sublots). In addition, the per package rates for dock-side inspections would be increased and changed from a three interval schedule (based on package weight) to a two interval schedule (based on different weight thresholds). The two interval schedule would be simpler to administer and more appropriate given current packaging trends. This action is authorized under the Agricultural Marketing Act (AMA) of 1946 (see 7 U.S.C. 1622(h)) which states that the Secretary of Agriculture may assess and collect ''such fees as will be reasonable and as nearly as may be to cover the costs of services rendered * * *.''

There are more than 2,000 users of FPB's destination market grading services (including applicants who must meet import requirements [1]— inspections which amount to under 2.5 percent of all lot inspections performed). A small portion of these users are small entities under the criteria established by the Small Business Administration (13 CFR 121.601). There would be no additional reporting, recordkeeping, or other compliance requirements imposed upon small entities as a result of this proposed rule. In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the information collection and recordkeeping requirements in Part 51 have been approved previously by OMB and assigned OMB No. 0581-0125. FPB has not identified any other Federal rules which may duplicate, overlap or conflict with this proposed rule.

The destination market grading services are voluntary (except when required for imported commodities) and the fees charged to users of these services vary with usage. However, the impact on all businesses, including small entities, is very similar. Further, even though fees would be raised, the increase would not be excessive (approximately fourteen percent for the most common fees) and should not significantly affect these entities. Finally, except for those persons who are required to obtain inspections, most of these businesses are typically under no obligation to use these inspection services, and, therefore, any decision on their part to discontinue the use of the services should not prevent them from marketing their products.

Executive Order 12988

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. This proposed action is not intended to have retroactive effect. This proposed rule will not preempt any state or local laws, regulations or policies, unless they present an irreconcilable conflict with this rule. There are no administrative procedures which must be exhausted prior to any judicial challenge to the provisions of this proposed rule.

Proposed Action

The AMA authorizes official inspection, grading and certification, on a user-fee basis, of fresh fruits, vegetables and other products such as raw nuts, Christmas trees and flowers. The AMA provides that reasonable fees be collected from the users of the services to cover, as nearly as practicable, the costs of the services rendered. This proposed rule would amend the schedule for fees and charges for inspection services rendered to the fresh fruit and vegetable industry to reflect the costs necessary to operate the program.

AMS regularly reviews its user-fee programs to determine if the fees are adequate. While FPB continues to search for opportunities to reduce its costs, the existing fee schedule will not generate sufficient revenues to cover program costs while maintaining an adequate reserve balance. Current revenue projections for destination market inspection work during FY 99 are $13.7 million with costs projected at $13.9 million and an end-of-year reserve of $2.2 million. However, FPB's trust fund balance for this program will be approximately $2.4 million under the approximate $4.6 million deemed necessary to provide an adequate reserve balance in light of increasing program costs. Further, FPB's costs of operating the destination market program are expected to increase to approximately $14.5 million during FY 00 and to approximately $15.0 million during FY 01. These cost increases (which are outlined below) will result from inflationary increases with regard to current FPB operations and services (primarily salary and benefits), the training and equipment required to promote improved workplace saftey, and the acquisition of additional computer and related technology.

Employee salaries and benefits are major program costs that account for approximately 80 percent of FPB's total operating budget. A general and locality salary increase for Federal employees, ranging from 3.54 to 4.02 percent depending on locality, effective January 1999, significantly increased program costs. In addition, inflation also impacts FPB's non-salary costs. These factors have increased FPB's costs of operating this program by approximately $500,000 per year. In addition, a general and locality salary increase of at least 4.4 percent is anticipated in January 2000. This salary adjustment will increase FPB's costs by over $600,000 per year.

Additional revenues are also necessary in order for FPB to cover the costs of the additional staff, office space, and equipment ($150,000) needed in two federal market offices that were established during FY 99 (*e.g.*, Brooklyn, New York, and Oklahoma City, Oklahoma). Additional, revenues are also needed to cover the costs of providing safety orientation training to FPB's personnel and purchasing safety shoes for FPB's inspection personnel ($50,000). Finally, FPB needs an additional $200,000 per year to cover the costs of securing the equipment (*e.g.*, digital imaging cameras and computers and information systems upgrades) needed to expand FPB's

[1] Section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), requires that whenever the Secretary of Agriculture issues grade, size, quality or maturity regulations under domestic marketing orders for certain commodities, the same or comparable regulations on imports of those commodities must be issued. Import regulations apply during those periods when domestic marketing order regulations are in effect.

Currently, there are 15 commodities subject to 8e import regulations: avocados, dates (other than dates for processing), filberts, grapefruit, kiwifruit, limes, olives (other than Spanish-style green olives), onions, oranges, Irish potatoes, prunes, raisins, table grapes, tomatoes and walnuts. A current listing of the regulated commodities can be found under 7 CFR parts 944, 980 and 999. Section 999.600 establishes minimum quality, identification, certification and safeguard requirements for foreign produced farmers stock, shelled and cleaned in-shell peanuts presented for importation into the United States. Import requirements applicable to peanuts may be found under subparagraph (f)(2) of section 108B of the Agricultural Act of 1949 (7 U.S.C. 1445c–3), as amended November 28, 1990, and August 10, 1993, and section 155 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7271).

services and to make existing services more efficient in the future.

This proposed fee increase should result in an estimated $2.5 million in additional revenues per year (only $1.8 million during FY 00 since any fee increase would be effective on or after January 1, 2000) and should enable FPB to cover its costs while building its reserves from the current level of $2.2 million to closer to the $4.6 million level by the end of FY 2001.

Based on the aforementioned analysis of this program's increasing costs, AMS proposes to increase the fees for destination market inspection services. The following table compares current fees and charges with the proposed fees and charges for fresh fruit and vegetable inspection as found in 7 CFR 51.38. This table also reflects the proposed change to the per package fees for dock-side inspections that are currently on a three interval schedule based on weight, to a two interval schedule based on different weight thresholds. Unless otherwise provided for by regulation or written agreement between the applicant and the Administrator, the charges in the schedule of fees as found in § 51.38 are:

Service	Current	Proposed
Quality and condition inspections of one to four products each in quantities of 51 or more packages and unloaded from the same land or air conveyance:		
—Over a half carlot equivalent of each product	$86	$98.
—Half carlot equivalent or less of each product	$72	$82.
—For each additional lot of the same product	$14	$32.
Condition only inspections of one to four products each in quantities of 51 or more packages and unloaded from the same land or air conveyance:		
—Over a half carlot equivalent of each product	$72	$82.
—Half carlot equivalent or less of each product	$66	$75.
—For each additional lot of the same product	$14	$32.
Quality and condition and condition only inspections of five or more products each in quantities of 51 or more packages and unloaded from the same land or air conveyance:		
—For the first five products	$305	$348.
—For each additional product	$43	$49.
—For each additional lot of any of the same product	$14	$32.
Quality and condition and condition only inspections of products each in quantities of 50 or less packages unloaded from the same land or air conveyance:		
—For each product	$43	$49.
—For each additional lot of any of the same product	$14	$32.
Dock-side inspections of an individual product unloaded directly from the same ship:		
—For each package weighing less than 15 pounds	1.1 cents	NA.
—For each package weighing 15 to 29 pounds	2.2 cents	NA.
—For each package weighing 30 or more pounds	3.3 cents	NA.
—For each package weighing less than 26 pounds	NA	2.5 cents.
—For each package weighing 26 or more pounds	NA	3.5 cents.
—For each additional lot of any of the same product	$14	$32.
—Minimum charge per individual product	$86	$98.
Inspections performed for other purposes during the grader's regularly scheduled work week	$43 per hour	$49 per hour.
Overtime or holiday premium rate (per hour additional) for all inspections performed outside the grader's regularly scheduled work week.	$21.50 per hour	$24.50 per hour.

List of Subjects in 7 CFR Part 51

Agricultural commodities, Food grades and standards, Fruits, Nuts, Reporting and recordkeeping requirements, Trees, Vegetables.

For reasons set forth in the preamble, 7 CFR Part 51 is proposed to be amended as follows:

PART 51—[AMENDED]

1. The authority citation for 7 CFR part 51 continues to read as follows:

Authority: 7 U.S.C. 1621–1627.

2. Section 51.38 is revised to read as follows:

§ 51.38 Basis for fees and rates.

(a) When performing inspections of product unloaded directly from land or air transportation, the charges shall be determined on the following basis:

(1) For products in quantities of 51 or more packages:

(i) Quality and condition inspection of 1 to 4 products unloaded from the same conveyance:

(A) $98 for over a half carlot equivalent of an individual product.

(B) $82 for a half carlot equivalent or less of an individual product.

(C) $32 for each additional lot of the same product.

(ii) Condition only inspection of 1 to 4 products unloaded from the same conveyance:

(A) $82 for over a half carlot equivalent of an individual product.

(B) $75 for a half carlot equivalent or less of an individual product.

(C) $32 for each additional lot of the same product.

(iii) Quality and condition inspection and/or condition only inspection of 5 or more products unloaded from the same conveyance:

(A) $348 for the first 5 products.

(B) $49 for each additional product.

(C) $32 for each additional lot of any of the same product.

(2) For quality and condition inspection and/or condition only inspection of products in quantities of 50 or less packages unloaded from the same conveyance:

(i) $49 for each individual product.

(ii) $32 for each additional lot of any of the same product.

(b) When performing inspections of palletized products unloaded directly from sea transportation or when palletized product is first offered for inspection before being transported from the dock-side facility, charges shall be determined on the following basis:

(1) For each package inspected according to the following rates:

(i) 2.5 cents per package weighing less than 26 pounds; and

(ii) 3.5 cents per package weighing 26 or more pounds.

(2) $32 for each additional lot of any of the same product.

(3) A minimum charge of $98 for each product inspected.

(c) When performing inspections of products from sea containers unloaded directly from sea transportation or when palletized products unloaded directly from sea transportation are not offered for inspection at dock-side, the carlot fees in § 51.38(a) shall apply.

(d) When performing inspections for Government agencies, or for purposes other than those prescribed in the preceding paragraphs, including weight-only and freezing-only inspections, fees for inspection shall be based on the time consumed by the grader in connection with such inspections, computed at a rate of $49 an hour: Provided, That:

(1) Charges for time shall be rounded to the nearest half hour;

(2) The minimum fee shall be two hours for weight-only inspections, and one-half hour for other inspections; and

(3) When weight certification is provided in addition to quality and/or condition inspection, a one-hour charge shall be added to the carlot fee.

(4) When inspections are performed to certify product compliance for Defense Personnel Support Centers, the daily or weekly charge shall be determined by multiplying the total hours consumed to conduct inspections by the hourly rate. The daily or weekly charge shall be prorated among applicants by multiplying the daily or weekly charge by the percentage of product passed and/or failed for each applicant during that day or week. Waiting time and overtime charges shall be charged directly to the applicant responsible for their incurrence.

(e) When performing inspections at the request of the applicant during periods which are outside the grader's regularly scheduled work week, a charge for overtime or holiday work shall be made at the rate of $24.50 per hour or portion thereof in addition to the carlot equivalent fee, package charge, or hourly charge specified in this subpart. Overtime or holiday charges for time shall be rounded to the nearest half hour.

(f) When an inspection is delayed because product is not available or readily accessible, a charge for waiting time shall be made at the prevailing hourly rate in addition to the carlot equivalent fee, package charge, or hourly charge specified in this subpart. Waiting time shall be rounded to the nearest half hour.

Dated: September 15, 1999.

Robert C. Keeney,

Deputy Administrator, Fruit and Vegetable Programs.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1137

[DA–99–07]

Milk in the Eastern Colorado Marketing Area; Proposed Suspension of Certain Provisions of the Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule; suspension.

SUMMARY: This document invites written comments on a proposal to suspend certain sections of the Eastern Colorado Federal milk marketing order until implementation of Federal milk order reform on October 1, 1999. The proposed rule would reinstate a suspension that expired on August 31, 1999, which makes it easier for cooperative associations to qualify milk for pooling under the order. Dairy Farmers of America, Inc. (DFA), a cooperative association that represents nearly all of the producers who supply milk to the Eastern Colorado market, has requested continuation of the suspension. DFA asserts that the suspension is necessary to prevent uneconomical and inefficient movements of milk.

DATES: Comments must be submitted on or before September 27, 1999.

ADDRESSES: Comments (two copies) should be filed with USDA/AMS/Dairy Division, Order Formulation Branch, Room 2971, South Building, PO Box 96456, Washington, DC 20090–6456. Advance, unofficial copies of such comments may be faxed to (202) 690–0552. Reference should be given to the title of the action and its docket number.

FOR FURTHER INFORMATION CONTACT: Clifford M. Carman, Marketing Specialist, USDA/AMS/Dairy Programs, Order Formulation Branch, Room 2971, South Building, PO Box 96456, Washington, DC 20090–6456, (202) 720–9368, e-mail address: clifford.carman@usda.gov.

SUPPLEMENTARY INFORMATION: The Department is issuing this proposed rule in conformance with Executive Order 12866.

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have a retroactive effect. If adopted, this proposed rule will not preempt any state or local laws, regulations, or policies, unless they present an irreconcilable conflict with the rule.

The Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may request modification or exemption from such order by filing with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law. A handler is afforded the opportunity for a hearing on the petition. After a hearing, the Secretary would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has its principal place of business, has jurisdiction in equity to review the Secretary's ruling on the petition, provided a bill in equity is filed not later than 20 days after the date of the entry of the ruling.

Small Business Consideration

In accordance with the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Agricultural Marketing Service considered the economic impact of this action on small entities and has certified that this proposed rule will not have a significant economic impact on a substantial number of small entities. For the purpose of the Regulatory Flexibility Act, a dairy farm is considered a ''small business'' if it has an annual gross revenue of less than $500,000, and a dairy products manufacturer is a ''small business'' if it has fewer than 500 employees. For the purposes of determining which dairy farms are ''small businesses,'' the $500,000 per year criterion was used to establish a production guideline of 326,000 pounds per month. Although this guideline does not factor in additional monies that may be received by dairy producers, it should be an inclusive standard for most ''small'' dairy farmers. For purposes of determining a handler's size, if the plant is part of a larger company operating multiple plants that collectively exceed the 500-employee limit, the plant will be considered a large business even if the local plant has fewer than 500 employees.

For the month of June 1999, the milk of 203 producers was pooled on the Eastern Colorado milk order. Of these producers, 105 were below the 326,000-pound production guideline and are considered small businesses.

For June 1999, there were eight handlers operating pool plants under the Eastern Colorado milk order. Of these handlers, five are considered small businesses.

This rule would lessen the regulatory impact of the order on certain milk

handlers and would tend to ensure that dairy farmers would have their milk priced under the order and thereby receive the benefits that accrue from such pricing.

Interested parties are invited to submit comments on the probable regulatory and informational impact of this proposed rule on small entities. Also, parties may suggest modifications of this proposal for the purpose of tailoring their applicability to small businesses.

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act, the suspension of the following provisions of the order regulating the handling of milk in the Eastern Colorado marketing area is being considered until Federal milk order reform is implemented October 1, 1999:

In § 1137.12(a)(1), the words ''from whom at least three deliveries of milk are received during the month at a distributing pool plant'; and in the second sentence ''30 percent in the months of March, April, May, June, July, and December and 20 percent in other months of'', and the word ''distributing''.

All persons who want to submit written data, views or arguments about the proposed suspension should send two copies of their views to USDA/AMS/Dairy Programs, Order Formulation Branch, Room 2971, South Building, PO Box 96456, Washington, DC 20090–6456, by the 7th day after publication of this notice in the **Federal Register**. The period for filing comments is limited to 7 days because a longer period would not provide the time needed to complete the required procedures before the start of the next marketing period.

All written submissions made pursuant to this notice will be made available for public inspection in Dairy Programs during regular business hours (7 CFR 1.27(b)).

Statement of Consideration

The proposed rule would suspend certain provisions of the Eastern Colorado order until implementation of Federal Order Reform. The proposed suspension would make it easier for a cooperative association to qualify milk for pooling under the order.

Continuation of the suspension that expired on August 31, 1999, was requested by DFA, a cooperative association which represents nearly all of the dairy farmers who supply the Eastern Colorado market. DFA contends that milk from some producers is required every day of the month in order to meet market demands, while milk from some other producers is required most days of the month and milk from a few producers is required only a few days each month to meet market demands. DFA asserts that with the suspension in place the market can be served in the most efficient manner possible because milk required by the market only a few days each month can maintain association with the market without being required to be delivered to pool distributing plants each month. DFA projects that, without the suspension, inefficient and costly movements of milk would have to be made to maintain the pool status of producers who historically have supplied the market.

Accordingly, it may be appropriate to suspend the aforesaid provisions until completion of Federal Order Reform.

BILLING CODE 3410–02–P

NUCLEAR REGULATORY COMMISSION

10 CFR Part 61

Proposed Compatibility Designation Change and Draft Emplacement Criticality Guidance for Low-Level Waste

AGENCY: Nuclear Regulatory Commission.

ACTION: Request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is requesting public comment as to whether the compatibility designation of 10 CFR 61.16(b)(2) should be changed. The compatibility designation relates to the extent which an Agreement State's regulations must be compatible with NRC requirements. The section of the Commission's regulations under consideration requires low-level waste (LLW) disposal facility licensees who receive and possess special nuclear material (SNM) to describe proposed procedures to avoid accidental criticality for storage of SNM waste prior to disposal and after disposal in the ground. In addition, NRC also is requesting comment on draft guidance on emplacement criticality at LLW disposal facilities.

DATES: Submit comments by October 20, 1999. Comments received after this date will be considered, if it is practical to do so, but assurance of consideration can only be given to comments received on or before this date.

ADDRESSES: Submit comments to David L. Meyer, Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Hand deliver comments to 11545 Rockville Pike, Rockville, MD between 5:15 am and 4:30 pm on Federal workdays.

You may also provide comments via the NRC's interactive rulemaking website through the NRC home page (*http://www.nrc.gov*). From the home page, select ''Rulemaking'' from the tool bar. The interactive rulemaking website can then be accessed by selecting ''New Rulemaking Website.'' This site provides the ability to upload comments as files (any format), if your web browser supports that function. For information about the interactive rulemaking website, contact Ms. Carol Gallagher, (301) 415–5905; e-mail cag@nrc.gov.

A copy of the draft guidance (NUREG/CR–6626, Emplacement Guidance for Criticality Safety in Low-Level Waste Disposal) can be obtained from the Internet at ''http://ruleforum.llnl.gov,'' or contact Mr. Tim Harris (see **FOR FURTHER INFORMATION CONTACT**).

FOR FURTHER INFORMATION CONTACT: Tim Harris, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington DC, 20555, telephone (301) 415–6613, or e-mail at TEH@NRC.GOV.

Background

Section 274 of the Atomic Energy Act of 1954 (AEA), as amended, provides a statutory basis for discontinuance by the NRC, and the assumption by the State, of regulatory authority for byproduct material, source material, and SNM in quantities not sufficient to form a critical mass. As stated in the Commission's Policy Statement on Adequacy and Compatibility of Agreement State Programs (62FR46517, September 3,1997), NRC and Agreement States have the responsibility to ensure that there is adequate protection of public health and safety and that radiation control programs are administered consistent and compatible with NRC's program.

Quantities of SNM not sufficient to form a critical mass are defined in 10 CFR 150.11 as enriched uranium not exceeding 350 grams, uranium-233 not exceeding 200 grams, plutonium not

exceeding 200 grams, or mixtures where the sum of the fractions is less than unity. These quantities of SNM can be regulated by the Agreement States. In both Agreement States and non-Agreement States, an NRC license is required for persons who possess quantities of SNM in excess of the § 150.11 limits. As it pertains to disposal facilities, the possession limits apply to material above-ground. Once the SNM waste is disposed of (i.e., placed in the disposal trench), SNM waste is not restricted by the § 150.11 limits.

Currently 10 CFR 61.16 is not a regulation required for Agreement State adoption; therefore, there is no equivalent Agreement State regulatory requirement for Agreement State licensees of existing or future LLW facilities to follow the equivalent of § 61.16(b)(2) and to evaluate emplacement criticality safety. This section of 10 CFR Part 61 requires LLW disposal facility licensees who receive and possess SNM waste to describe proposed procedures to avoid accidental criticality for storage of SNM waste prior to disposal and after disposal in the ground. Although the SNM mass limits in Part 150 restrict above-ground possession and ensure criticality safety above-ground (during receipt and storage), there is no equivalent mass restriction or other controls which limit the amount of SNM waste that can be placed in a disposal trench; and therefore, the question of criticality safety below-ground after disposal is left open. A technical basis for NRC's concern regarding emplacement criticality safety is presented in the DISCUSSION section of this document.

LLW containing SNM is currently disposed of at three facilities: Barnwell, South Carolina; Hanford, Washington; and Clive, Utah. All of these facilities are licensed by Agreement States. From the 1970's to 1997, NRC licensed the Barnwell and Hanford facilities under 10 CFR Part 70, to receive, possess, store, and dispose of kilogram quantities of SNM waste. In 1997, these facilities requested that the SNM possession limits be reduced to the Section 150.11 limits, and that NRC licenses be transferred to the respective Agreement States. These actions have been taken for both (Barnwell and Hanford).

The State of Washington incorporated NRC criticality controls for emplaced waste in license conditions in its Hanford license. Although not in the license, the State of South Carolina has required the licensee to implement the SNM waste emplacement procedures that address criticality safety. These procedures cannot be changed by the operator without State approval. NRC recently issued an Order to Envirocare that exempts Envirocare from the licensing requirements in 10 CFR Part 70 for possession of SNM waste at concentration limits in the Order, which ensures criticality safety. The conditions of the Order have been incorporated into the State of Utah license.

If NRC changes the compatibility designation for § 61.16(b)(2), then LLW disposal facility licensees would be required to develop procedures for avoiding accidental criticality, during both storage of SNM waste prior to disposal and after disposal in the ground. These procedures would then be reviewed and approved by Agreement State staffs. Given that licensees and Agreement State staffs may not have experience in criticality safety, NRC has developed guidance that could be used by licensees and Agreement State staffs to demonstrate compliance with § 61.16(b)(2). A summary of this draft guidance and how the guidance is envisioned to be used are provided in the DISCUSSION section of this document.

Discussion

This section presents a discussion of the following: (1) the technical basis for requiring emplacement criticality controls; (2) NRC staff's assessment of the compatibility designation for 10 CFR 61.16(b)(2); (3) a summary of the draft guidance; (4) the envisioned implementation if the compatibility of § 61.16(b)(2) is changed; and (5) NRC staff's assessment of potential resource impacts on Agreement States.

Technical Basis

Spontaneous nuclear fission occurs naturally in a very small percent of radioactive decays in some elements. When fission occurs, neutrons are emitted, along with fission fragments (e.g., cesium and strontium). The neutrons that are produced may be absorbed by an atom without causing a fission, may be absorbed by an SNM atom and cause a fission, or may not collide with any atoms. SNM (i.e., uranium-235, uranium-233, and plutonium) is unique from most materials in that a fission, not associated with a radioactive decay, can occur when a neutron collides with its nucleus. In natural materials such as soils containing natural uranium, neutrons produced by spontaneous fission are typically absorbed by uranium-238 atoms and do not collide with a uranium-235 atom possibly resulting in fission. Criticality is a chain reaction where large numbers of neutrons are produced, and can occur when sufficient SNM is present.

For a criticality to occur, special conditions involving a number of factors must occur. Important factors that affect the criticality safety of a LLW disposal site are: (1) the isotope; (2) enrichment; (3) mass; (4) concentration; and (5) presence of neutron moderating and absorbing materials. Each of these is discussed below. (Following this is a discussion of these factors relative to possible scenarios).

(1) Isotope: The SNM isotopes present in LLW are dependent on the waste stream. The vast majority of SNM waste is generated from the production of nuclear fuel for nuclear power plants and from LLW generated by nuclear power plants. Of the SNM isotopes, uranium-235 is the most common. Large quantities of plutonium and uranium-233 (the other SNM isotopes) are not present in the commercial waste. However, these materials are present in Department of Energy (DOE) facility waste, and some DOE waste is being shipped to commercial LLW disposal facilities.

(2) Enrichment: Enrichment is a ratio of the weight of uranium-235 to the weight of the total uranium and is commonly expressed as a percent. Natural uranium, found in most soils, has an average enrichment of 0.71 percent. In order to be used as nuclear fuel, natural uranium must be enriched in uranium-235. Most nuclear fuel is enriched to less than 6 percent, which is considered low-enriched uranium; however, some nuclear fuel for special reactors such as those in naval vessels is enriched to much higher values, which is considered high enriched uranium. At enrichments less than about 0.96 percent, criticality is not possible regardless of the mass or concentration. As enrichment increases, criticality becomes a greater concern. Although most of the SNM waste contains low-enriched uranium, some waste contains high-enriched uranium.

(3) Mass: As discussed above, disposal facilities that are licensed by Agreement States and do not have an NRC license are subject to the SNM possession limits in Part 150 for above ground possession. These limits are based on a fraction of the minimum mass required to achieve a criticality. Under these limits, there is simply not enough SNM to cause a criticality regardless of the enrichment or concentration. However, these limits have been applied to above-ground possession, and SNM waste that has been disposed of is no longer be subject to these limits. Historic records at disposal sites indicate that some

disposal units (trenches) have a mass of uranium-235 in the hundreds of kilogram range. Therefore, it is reasonable to assume that large masses of SNM waste will be disposed of in disposal units in the future.

In some cases, the mass of SNM in individual packages is limited by the requirements in Part 71 (Packaging and Transportation of Radioactive Material). The majority of SNM waste shipped to a LLW disposal facility is transported under 10 CFR 71.53 as ''fissile exempt.'' This means it does not have to comply with the fissile material package standards in §§ 71.55 and 71.59. In order to be ''fissile exempt'', the quantity of unusual moderators (beryllium, graphite, or deuterium) is limited as is either the mass per package, the amount of moderator (water), concentration, enrichment, or mass per consignment. For example, SNM waste can be shipped as fissile exempt, if it contains no more than 15 grams of SNM per package. However, some general licenses in Part 71 allow for SNM waste to be shipped at higher masses per package. For example,10 CFR 71.22 allows up to 500 grams per shipment, which could be in a single container, provided unusual moderators are limited to 0.1 percent of the mass of the fissile material. This general license does not restrict concentration or enrichment. Therefore, mass cannot be eliminated as a factor of concern based solely on packaging and transportation regulations. As mass increases, criticality becomes a greater concern.

(4) Concentration: In some cases, the concentration of SNM received by a LLW disposal facility is limited by the requirements in Part 71. While significant quantities of SNM waste can be shipped under a number of general licenses, the majority of SNM waste shipped to a LLW disposal facility is transported as ''fissile exempt''. As noted above, in order to be ''fissile exempt'', the quantity of unusual moderators (beryllium, graphite, or deuterium) is limited, as is either the mass per package, the amount of moderator (water), the concentration, the enrichment, or the mass per consignment. For example, SNM waste can be shipped as fissile exempt, if it contains no more than 5 grams of SNM in any 10 liter volume. However, some general licenses in Part 71 allow for SNM waste to be shipped at higher concentrations per package. Therefore, concentration cannot be eliminated as a factor of concern based solely on packaging and transportation regulations.

(5) Presence of neutron moderator and absorbers: Neutrons that are produced during a fission have a relatively high energy and are termed ''fast'' neutrons. Moderators are materials that reduce the energy, or slow neutrons. This is important because uranium-235 is much more likely to be fissioned by slow neutrons than by fast neutrons. Therefore, the presence of moderator materials can increase the criticality concern. Elements such as hydrogen and carbon are particularly good moderators. Because water is abundant and is a very efficient moderator, assuming water is present is a common approach in evaluating the criticality significance of situations. However, there are certain materials such as beryllium, graphite, and deuterium that are more efficient moderators than water. These material are commonly termed ''unusual'' moderators.

Absorbers are materials that absorb or capture neutrons. Because capturing neutrons prevents those neutrons from possibly causing a fission, the presence of absorber materials will decrease the criticality concern. Most materials act both as a moderator and an absorber to varying degrees.

In some cases the presence of moderator material is limited by the requirements in Part 71. However, this is not always the case. It is reasonable to assume that moderators, such as water, will be present in the waste. In analyzing the criticality hazard of waste at LLW disposal facilities, it is conservative to assume that moderators will be present in optimal amounts. The presence of absorber materials is not limited by regulations. These materials, such as iron, calcium, etc., are present in LLW and in the waste containers. However, the amount and distribution of absorbers cannot be assured, so they are typically omitted in analyzing criticality hazards. For example, although a steel drum acts as an absorber, the drum will corrode within tens of years and can no longer be depended on to contain the waste and act as an absorber.

Possible Scenarios

In order for a criticality to occur, several of the above factors must be above certain values. For instance, a criticality cannot occur if the mass of the SNM is below a certain value regardless of the enrichment or concentration. A criticality cannot occur if the concentration of the SNM is below a certain value regardless of the enrichment or mass. A criticality cannot occur if the enrichment is below a certain value regardless of the mass or concentration.

Considering what can be controlled by Parts 71 and 150, several scenarios can be postulated. For waste shipped as ''fissile exempt'', concentrations can be limited to 5 grams of SNM per 10 liters. This translates to 104 grams of enriched uranium for a typical waste container (i.e., 55-gallon drum). In addition, under the fissile exemption unusual moderators are limited. Assuming a density of waste of 68 pounds per cubic foot, this concentration (4.6E–4 gram of uranium-235 per gram of waste) is smaller than the allowable operational concentration limit in the draft guidance (NUREG/CR–6626, Emplacement Guidance for Criticality Safety in Low-Level Waste Disposal) and therefore is considered safe. The limits in the draft guidance have been developed considering that absorbers are not present and that moderation with water is optimal to maximize the possibility of fissions.

For waste that does not meet the fissile exemption criteria, concentration, enrichment, and mass are not controlled. Given that disposal facilities licensed by Agreement States can only possess 350 grams, a package containing 350 grams of highly enriched uranium could be shipped to a disposal facility. Using the example of waste shipped in 55-gallon drums with a waste density of 68 pounds per cubic foot, the uranium-235 concentration is 1.5E–3 gram of uranium-235 per gram of waste. This concentration exceeds the limit for high enriched uranium in the draft guidance (8.3E–4 gram U–235/gram of waste for a 10-foot high disposal unit). While a single container would not represent a criticality concern, an array of such drums could represent a criticality concern.

Using the criticality calculations in NUREG/CR–6505 Volumes 1 and 2, ''The Potential for Criticality Following Disposal of Uranium at Low-Level Waste Facilities,'' an array of low-enriched uranium (10 percent enrichment) drums stacked more than 15 feet high could pose a criticality concern. An array of high-enriched uranium (100 percent enrichment) drums stacked more than 11 feet high could pose a criticality concern. Trenches at burial sites are deeper than 15 feet. These calculations assume optimal water moderation and no absorbers. Although there is significant uncertainty associated with a waste facility receiving and disposing of numerous drums containing large amounts of SNM, there are no regulatory limitations to preclude this situation.

NRC Staff Assessment of Compatibility Designation

At the time the compatibility designations were originally selected for Part 61 (1983), the NRC directly regulated SNM at LLW disposal facilities. Becuase the NRC is responsible for SNM in greater than critical mass quantities and regulated SNM at LLW disposal facilities, there was no need for Agreement States to adopt these requirements. These requirements were designated ''Not Required for Compatibility.'' As noted above, LLW disposal facilities reduced their SNM possession limits to those provided in 10 CFR 150.11 (350 grams or less). This authority was assumed by the respective Agreement State; thus, the NRC no longer directly regulates SNM at LLW disposal facilities, including the authority to administer waste emplacement criticality controls. Therefore, the NRC is considering changing the compatibility designation of § 61.16(b)(2) to ensure these safety measures are applied in the disposal of SNM.

NRC staff used the procedures outlined in Management Directive 5.9, ''Adequacy and Compatibility of Agreement State Programs,'' and concluded that the compatibility designation for § 61.16(b)(2) should be revised from category ''Not Required for Compatibility'', to category ''Health and Safety''. ''Health and Safety'' applies to activities that could result directly in an exposure to an individual in excess of basic radiation protection standards, if the essential objectives of the provision were not adopted by an Agreement State. If an inadvertent criticality were to occur at a LLW disposal facility, workers could receive doses in excess of the 10 CFR Part 20 limits. Under the ''Health and Safety'' category, Agreement States that have currently operating LLW disposal facilities and those States which will be establishing LLW disposal facilities in the future, would need to adopt legally binding requirements that encompass the essential objectives of 10 CFR 61.16(b)(2) within three years of the change of designation in compatibility. This requirement would continue to be designated as ''Not Required for Compatibility,'' for other Agreement States.

Summary of Draft Emplacement Criticality Guidance

The draft guidance provides a general approach to emplacement criticality safety. Five different SNM isotopic compositions were studied: uranium-235 at 10 and 100 percent enrichment; uranium-233; plutonium-239; and a mixture of plutonium-239, -240, and -241. Three different graded approaches are presented. The first graded approach is the most conservative, and can be used easily for facilities that dispose of very low levels of SNM, or dispose of material with a low average enrichment. This approach relies on the calculation of average areal density, or grams of SNM per square foot, or on the average enrichment of SNM. The area over which averaging may be performed also is specified, but the emplacement depth and concentration are not limited.

The second graded approach relies on limiting the average concentration by weight of SNM in the waste, and on limiting the depth of the emplacement. This method may be useful for facilities that emplace somewhat higher areal densities of SNM, but which do not use vaults or segmentation in the disposal emplacement.

The third graded approach relies on limiting the average concentration by weight of SNM in the waste, and on the presence of segmenting barriers, such as vaults, that will prevent movement of SNM waste from one side of the barrier to the other. This method may be useful for facilities that use concrete vaults in their disposal areas.

Envisioned Implementation of Guidance and Change in Compatibility

If the compatibility designation of 10 CFR 61.16(b)(2) were changed from ''Not Required for Compatibility'' to ''Health and Safety'', Agreement States would have three years to implement regulations or other legally binding requirements compatible with § 61.16(b)(2). As noted earlier, the States of Washington and South Carolina currently have emplacement criticality controls. The compatibility change will assure that future LLW disposal facilities in Agreement States will have criticality safety controls for emplaced SNM waste.

After these legally binding requirements have been implemented, the Agreement State regulatory program would require their licensees (disposal facility operators) to prepare and submit information demonstrating compliance with their equivalent of 10 CFR 61.16(b)(2).

To assist the States and licensees, NRC has prepared emplacement criticality safety guidance. Licensees would review the types of waste and disposal operations and determine which of the graded approaches in the guidance were appropriate for its facility. For each of the graded approaches, the NRC draft guidance includes criticality safety limits and a description of how to calculate the limits based on readily available information. The draft guidance also indicates the type of procedures that would need to be developed for each of the graded approaches. This guidance would serve as a technical basis for preparing the license amendment requests submitted to the Agreement States.

The Agreement State regulator would then review this amendment request and modify the license as appropriate. Again, the guidance would serve as the technical basis for the State regulator.

NRC Staff Assessment of Potential Resource Impact on Agreement States

NRC staff has estimated the potential resource impacts on Agreement States to implement a change in the compatibility of 10 CFR 61.16(b)(2). As indicated above, the first step would be to modify its regulations or other legally binding requirements to be compatible with § 61.16(b)(2). We consider that only a minor modification would be necessary to the existing Agreement State Part 61 equivalent regulations, or that the compatibility change could be administered through other legally binding requirements. We estimate that this will take four to six-State staff weeks. The next step of an Agreement State would be to review the licensee's amendment request and/or procedure changes. We estimate that this will take two-State staff weeks. Some additional effort would be required for inspection of the facility; however, this effort is not estimated to be significant.

Dated at Rockville, Maryland this 9th day of September, 1999.

For the Nuclear Regulatory Commission.

Daniel M. Gillen,

Acting Chief, Uranium Recovery and Low-Level Waste Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguards.

Federal Aviation Administration

14 CFR Part 39

[Docket No. 99–NE–21–AD]

RIN 2120–AA64

Airworthiness Directives; Hartzell Propeller Inc. ()HC–()()Y()–() Series Propellers

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the adoption of a new airworthiness directive (AD) that is applicable to certain Hartzell Propeller Inc. ()HC–()()Y()–() series propellers, identified by hub serial numbers, that were returned to service by Brothers Aero Services Company, Inc. (BASCO). This proposal would require maintenance actions amounting to an overhaul of affected propellers. This proposal is prompted by reports of propellers returned to service by BASCO as overhauled that had numerous unsafe conditions after being returned to service by BASCO. The actions specified by the proposed AD are intended to prevent propeller failure from the conditions present after being returned to service by BASCO, and possible airplane loss of control.

DATES: Comments must be received by November 19, 1999.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), New England Region, Office of the Regional Counsel, Attention: Rules Docket No. 99–NE–21–AD, 12 New England Executive Park, Burlington, MA 01803–5299. Comments may also be sent via the Internet using the following address: ''9-ane-adcomment@faa.gov''. Comments sent via the Internet must contain the docket number in the subject line. Comments may be inspected at this location between 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

The service information referenced in the proposed rule may be obtained from Hartzell Propeller Inc., Technical Publications Department, One Propeller Place, Piqua, OH 45356; telephone (937) 778–4200, fax (937) 778–4365.

FOR FURTHER INFORMATION CONTACT: Tomaso DiPaolo, Aerospace Engineer, Chicago Aircraft Certification Office, FAA, Small Airplane Directorate, 2300 East Devon Avenue, Des Plaines, IL 60018; telephone (847) 294–7031, fax (847) 294–7834.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: ''Comments to Docket Number 99–NE–21–AD.'' The postcard will be date stamped and returned to the commenter.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, New England Region, Office of the Regional Counsel, Attention: Rules Docket No. 99–NE–21–AD, 12 New England Executive Park, Burlington, MA 01803–5299.

Discussion

The Federal Aviation Administration (FAA) has examined the results of teardown inspections of six Hartzell Propeller Inc ()HC–()()Y()–() series propellers returned to service as overhauled by Brothers Aero Services Company, Inc. (BASCO) that contained numerous unsafe conditions. BASCO, formerly Air Agency Certificate Number B4TR903J, had their certificate revoked by Amended Order of Revocation, dated May 12, 1999. The investigation further revealed that an additional 71 specific propellers had been returned to service by BASCO from November 1996 through October 1998 that potentially have the same conditions present. In total, 77 specific propellers have been identified by hub serial number (S/N). The following unsafe conditions have been found with propellers returned to service by BASCO:

1. BASCO either introduced or failed to remove potential failure sites (nicks and scratches) in the shank area of the blades,
2. BASCO failed to perform a cold rolling operation on propeller blade shanks,
3. Scratches were found in the blade internal bearing bore radius,
4. Blades were found to be below minimum dimensions,
5. Alodine and paint were applied over corrosion on hubs and blades,
6. Low pitch blade angles were out of specification,
7. The blade surface, beneath the de-ice boots, was not painted nor treated with a chemical conversion coating (Alodine),
8. Bolts were incorrectly torqued,
9. Wrong parts were used or parts were incorrectly installed,
10. Parts intended for removal from service at overhaul and to be replaced with new, unused parts, were reused.

These conditions, if not corrected, could result in propeller failure from the conditions present after being returned to serve by BASCO, and possible airplane loss of control.

Proposed Actions

Since unsafe conditions have been identified that are likely to exist or develop on other products of this same type design, the proposed AD would require maintenance actions that amount to an overhaul of the affected propellers, identified by hub S/N. One of the required actions is a cold rolling operation on the blade shanks, which is part of the manufacturer's recommended overhaul. Not all propeller repair facilities have the equipment to properly perform this operation. Additionally, repair facilities must first be qualified by the manufacturer to perform the process and then repetitively requalify and recalibrate the machine used in the process.

Economic Analysis

The FAA estimates that 77 propellers installed on aircraft of U.S. registry would be affected by this proposed AD and that it would cost on average approximately $1,300 to overhaul each propeller. Based on these figures, the total cost impact of the proposed AD on U.S. operators is estimated to be $100,100.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this proposed regulation (1) is not a ''significant regulatory action'' under Executive Order 12866; (2) is not a ''significant rule'' under the DOT Regulatory Policies and Procedures (44

FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**.

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Hartzell Propeller Inc.: Docket No. 99–NE–21–AD.

Applicability: Hartzell Propeller Inc. ( )HC–( )( )Y( )–( ) series propellers, identified by hub serial numbers (S/Ns) listed in Table 1 of this airworthiness directive (AD).

Note 1: This AD applies to each propeller identified in the preceding applicability provision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For propellers that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (b) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Note 2: This AD is limited to propellers returned to service from November 1996 to October 1998 by Brothers Aero Service Company, Inc. (BASCO), Air Agency Certificate Number B4TR903J, revoked by Amended Order of Revocation, dated May 12, 1999.

Compliance: Required as indicated, unless accomplished previously.

To prevent propeller failure from the conditions present after being returned to service by BASCO, and possible airplane loss of control, accomplish the following:

(a) Within 10 hours time-in-service after the effective date of this AD, accomplish the following:

(1) Disassemble,

(2) Clean,

(3) Inspect for the following:

(i) Nicks,

(ii) Scratches,

(iii) Failure of blades to meet minimum dimensions,

(iv) Alodine and/or paint applied over corrosion,

(v) Lack of chemical conversion coating applied beneath the de-ice boots,

(vi) Bolts incorrectly torqued,

(vii) Incorrect parts,

(viii) Incorrect installation of parts, and

(ix) Reinstallation of parts intended for one-time use.

(4) Repair and replace with serviceable parts, as necessary.

(5) Perform a cold roll operation on the blade shanks,

(6) Reassemble and test.

Note 3: Information on performing an overhaul of the affected propellers may be found in the applicable Hartzell Propeller Inc. Overhaul Manual.

Note 4: For a current list of propeller overhaul facilities approved to perform the blade shank cold rolling procedure contact Hartzell Product Support, telephone (937) 778–4379. Not all propeller repair facilities have the equipment to properly perform a cold roll of the blade shanks.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Chicago Aircraft Certification Office. Operators shall submit their request through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Chicago Aircraft Certification Office.

Note 5: Information concerning the existence of approved alternative methods of compliance with this airworthiness directive, if any, may be obtained from the Chicago Aircraft Certification Office.

(c) Special flight permits may be issued in accordance with §§ 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

Issued in Burlington, Massachusetts, on September 13, 1999.

Jay J. Pardee,

Manager, Engine and Propeller Directorate, Aircraft Certification Service.

RIN 1545–AW16

Qualified Lessee Construction Allowances for Short-Term Leases

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice of proposed rulemaking and notice of public hearing.

SUMMARY: This document contains proposed regulations concerning an exclusion from gross income for qualified lessee construction allowances provided by a lessor to a lessee for the purpose of constructing long-lived property to be used by the lessee pursuant to a short-term lease. The proposed regulations affect a lessor and a lessee paying and receiving, respectively, qualified lessee construction allowances that are depreciated by a lessor as nonresidential real property and excluded from the lessee's gross income. The proposed regulations provide guidance on the exclusion, the information required to be furnished by the lessor and the lessee, and the time and manner for providing that information to the IRS. This document also provides notice of a public hearing on these proposed regulations.

DATES: Written and electronic comments must be received by December 20, 1999. Outlines of topics to be discussed at the public hearing scheduled for January 19, 2000, must be received by December 29, 1999.

ADDRESSES: Send submissions to: CC:DOM:CORP:R (REG–106010–98), room 5226, Internal Revenue Service, POB 7604, Ben Franklin Station, Washington, DC 20044. Submissions may be hand delivered Monday through

Friday between the hours of 8 a.m. and 5 p.m. to: CC:DOM:CORP:R (REG–106010–98), Courier's Desk, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, DC. Alternatively, taxpayers may submit comments electronically via the Internet by selecting the ''Tax Regs'' option on the IRS Home Page, or by submitting comments directly to the IRS Internet site at http://www.irs.ustreas.gov/tax__regs/regslist.html. The public hearing will be held in room 2615, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Concerning the regulations, Paul Handleman, (202) 622–3040; concerning submissions, the hearing, and/or to be placed on the building access list to attend the hearing, Michael Slaughter, (202) 622–7180 (not toll-free numbers).

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

The collection of information contained in this notice of proposed rulemaking has been submitted to the Office of Management and Budget for review in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3507(d)). Comments on the collection of information should be sent to the Office of Management and Budget, Attn: Desk Officer for the Department of the Treasury, Office of Information and Regulatory Affairs, Washington, DC 20503, with copies to the Internal Revenue Service, Attn: IRS Reports Clearance Officer, OP:FS:FP, Washington, DC 20224. Comments on the collection of information should be received by November 19, 1999.

Comments are specifically requested concerning:

Whether the proposed collection of information is necessary for the proper performance of the functions of the IRS, including whether the information will have practical utility;

The accuracy of the estimated burden associated with the proposed collection of information (see below);

How the quality, utility, and clarity of the information to be collected may be enhanced;

How the burden of complying with the proposed collection of information may be minimized, including through the application of automated collection techniques or other forms of information technology; and

Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

The requirement for the collection of information in this notice of proposed rulemaking is in § 1.110–1(c). The information is required so that a taxpayer receiving a construction allowance as lessee from the lessor may establish the amount qualifying for the safe harbor under section 110(a). The collection of information is mandatory. The likely respondents are businesses and other for-profit organizations.

Estimated total annual reporting burden: 10,000 hours.

The estimated annual burden per respondent varies from .5 hours to 1.5 hours, depending on individual circumstances, with an estimated average of 1 hour.

Estimated number of respondents: 10,000.

Estimated annual frequency of responses: once.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid control number assigned by the Office of Management and Budget.

Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

Background

This document contains proposed amendments to the Income Tax Regulations (26 CFR part 1) to provide regulations under section 110 of the Internal Revenue Code of 1986. Section 110 was added to the Code by section 1213(a) of the Taxpayer Relief Act of 1997, Public Law 105–34 (Act). Under section 1213(e) of the Act, the amendment made by section 1213(a) applies to leases entered into after August 5, 1997.

Explanation of Provisions

Tax Treatment of Lessee Construction Allowances

Section 61(a) provides that gross income means ''all income from whatever source derived'' except as otherwise provided in subtitle A of the Internal Revenue Code. Generally, the receipt of a construction allowance by a lessee from a lessor for property to be constructed and used by the lessee pursuant to a lease represents an accession to wealth includible in gross income in the year of receipt. However, amounts received by a lessee that are expended by the lessee on assets owned by the lessor are not includible in the lessee's gross income because there is no accession to wealth. Thus, the proper tax treatment of construction allowances turns on whether the lessee or the lessor owns the property constructed with the allowance.

Ownership for tax purposes generally is determined by applying a ''benefits and burdens of ownership'' test to the facts and circumstances surrounding the transaction. The benefits and burdens of ownership test was developed by the Tax Court to determine whether a purported lease should be treated as a sale for Federal income tax purposes. The court set forth the following factors to determine whether the taxpayer had the benefits and burdens of ownership of the leased property: (1) whether legal title passes; (2) how the parties treat the transaction; (3) whether an equity interest was acquired in the property; (4) whether the contract creates a present obligation on the seller to execute and deliver a deed and a present obligation on the purchaser to make payments; (5) whether the right of possession is vested in the purchaser; (6) which party pays the property taxes; (7) which party bears the risk of loss or damage to the property; and (8) which party receives the profits from the operation and sale of the property. *See Grodt & McKay Realty, Inc.* v. *Commissioner,* 77 T.C. 1221 (1981), and *Coleman* v. *Commissioner,* T.C. Memo. 1987–195, *aff'd,* 16 F.3d 821 (7th Cir. 1994).

In a coordinated issue paper dated October 7, 1996, the IRS enumerated certain specific factors that help establish whether the benefits and burdens of ownership of the leasehold improvements are with the lessee or the lessor; *i.e.*, who carries personal property and liability insurance on the leasehold improvements; who is the beneficiary under those policies; who is responsible for replacing the leasehold improvements if they wear out prior to the end of the lease term; and, if the usefulness of the leasehold improvements extends beyond the lease term, who has the remainder interest in the improvements.

To the extent the lessee holds the benefits and burdens of ownership of the leasehold improvements constructed with the construction allowance, the lessee has an accession to wealth and income under section 61(a). However, to the extent the lessor holds the benefits and burdens of ownership, the lessee is acting merely as an agent of the lessor and the construction allowance is not includible in the gross income of the lessee.

Congress was concerned that the traditional factors used by the IRS in making the determination of who is the

tax owner of property may be applied differently by the lessor and the lessee and may lead to controversies between the IRS and taxpayers.

H.R. Rep. No. 148, 105th Cong., 1st Sess. 423 (1997) (House Report); S. Rep. No. 33, 105th Cong., 1st Sess. 232–33 (1997) (Senate Report). Consequently, the Act provides a safe harbor whereby it is assumed that a construction allowance is used to construct or improve lessor property (and is properly excludable by the lessee) when long-lived property is constructed or improved and used pursuant to a short-term lease. The Act also provides a reporting requirement to ensure that both the lessee and the lessor consistently treat the property subject to the construction allowance as nonresidential real property owned by the lessor. House Report at page 424; Senate Report at page 233.

Safe Harbor Under Section 110

Section 110(a) provides, in general, that gross income of a lessee does not include any amount received in cash (or treated as a rent reduction) by a lessee from a lessor under a short-term lease of retail space, for the purpose of such lessee's constructing or improving qualified long-term real property for use in such lessee's trade or business at such retail space, but only to the extent that such amount does not exceed the amount expended by the lessee for such construction or improvement.

Section 110(c)(1) defines the term ''qualified long-term real property'' as nonresidential real property which is part of, or otherwise present at, the retail space referred to in section 110(a) and which reverts to the lessor at the termination of the lease. Section 110(c)(2) defines the term ''short-term lease'' as a lease (or other agreement for occupancy or use) of retail space for 15 years or less (as determined under the rules of section 168(i)(3)). Section 110(c)(3) defines the term ''retail space'' as real property leased, occupied, or otherwise used by a lessee in its trade or business of selling tangible personal property or services to the general public.

Consistent with section 110(c)(1), the proposed regulations define the term ''qualified long-term real property'' as nonresidential real property under section 168(e)(2)(B), which is section 1250 property other than residential rental property and property with a class life of less than 27.5 years. The proposed regulations do not require a direct tracing of the construction allowance, but assume that the construction allowance is used to construct or improve the lessor's property if qualified long-term real property is constructed by the lessee at the leased retail space. The IRS and the Department of Treasury specifically request comments on whether the definition of ''retail space'' needs to be clarified.

The proposed regulations recognize that a lessee may not be able to construct the qualified long-term real property in the same taxable year as it receives the construction allowance from the lessor. Thus, the proposed regulations give the lessee additional time to satisfy the safe harbor by allowing the construction allowance to be expended for qualified long-term real property until 8½ months after the close of the taxable year in which the construction allowance was received by the lessee.

The legislative history of the Act states that no inference is intended as to the treatment of amounts that are not subject to the safe harbor provision. In such cases, the provisions of IRS coordinated issue paper and present law (including case law) will continue to apply where applicable. H.R. Conf. Rep. No. 220, 105th Cong., 1st Sess. 658–59 (1997). Thus, a construction allowance failing to qualify under the safe harbor provision is not includible in the lessee's gross income if the lessor has the benefits and burdens of ownership of the property constructed with the construction allowance. Ownership of the property is determined under general principles of Federal tax law based on all the facts and circumstances.

Consistency Between Lessee and Lessor and Reporting Requirements

Section 110(b) provides that qualified long-term real property constructed or improved in connection with any amount excluded from a lessee's income by reason of section 110(a) shall be treated as nonresidential real property of the lessor (including for purposes of section 168(i)(8)(B)).

Section 110(d) provides that, under regulations, the lessee and lessor described in section 110(a) must, at such times and in such manner as may be provided in such regulations, furnish to the Secretary information concerning the amounts received (or treated as a rent reduction) and expended as described in section 110(a), and any other information which the Secretary deems necessary to carry out the provisions of section 110.

The Act provides that the lessor will treat any qualified long-term real property constructed or improved with a construction allowance excluded from the lessee's gross income under section 110(a) as nonresidential real property owned by the lessor. However, the lessee's exclusion is not dependent upon the lessor's treatment of the property as nonresidential real property. House Report at page 424; Senate Report at page 233.

The proposed regulations prescribe the information required to be furnished by the lessor and the lessee and the time and manner for providing that information to the IRS. A lessor or a lessee that fails to furnish the required information may be subject to a penalty under section 6721.

Proposed Effective Date

The regulations are proposed to be applicable to leases entered into on or after the date final regulations are published in the **Federal Register**.

Special Analyses

It has been determined that this notice of proposed rulemaking is not a significant regulatory action as defined in Executive Order 12866. Therefore, a regulatory assessment is not required. It is hereby certified that the collection of information in these regulations will not have a significant economic impact on a substantial number of small entities. This certification is based upon the fact that any burden on taxpayers is minimal. Accordingly, a Regulatory Flexibility Analysis under the Regulatory Flexibility Act (5 U.S.C. chapter 6) is not required. Pursuant to section 7805(f) of the Internal Revenue Code, this notice of proposed rulemaking will be submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on its impact on small business.

Comments and Public Hearing

Before these proposed regulations are adopted as final regulations, consideration will be given to any written comments (a signed original and eight (8) copies) or electronic comments that are submitted timely to the IRS. The IRS and Treasury Department specifically request comments on the clarity of the proposed rule and how it may be made easier to understand. All comments will be available for public inspection and copying.

A public hearing has been scheduled for Wednesday, January 19, 2000, at 10 a.m. in room 2615, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, DC. Due to building security procedures, visitors must enter at the 10th Street entrance, located between Constitution and Pennsylvania Avenues, NW. In addition, all visitors must present photo identification to enter the building. Because of access

restrictions, visitors will not be admitted beyond the immediate entrance area more than 15 minutes before the hearing starts. For information about having your name placed on the building access list to attend the hearing, see the **FOR FURTHER INFORMATION CONTACT** section of this preamble.

The rules of 26 CFR 601.601(a)(3) apply to the hearing.

Persons who wish to present oral comments at the hearing must submit an outline of the topics to be discussed and the time to be devoted to each topic (signed original and eight (8) copies) by December 29, 1999.

A period of 10 minutes will be allotted to each person for making comments.

An agenda showing the scheduling of the speakers will be prepared after the deadline for receiving outlines has passed. Copies of the agenda will be available free of charge at the hearing.

Drafting information. The principal author of these regulations is Paul F. Handleman, Office of the Assistant Chief Counsel (Passthroughs and Special Industries), IRS. However, other personnel from the IRS and Treasury Department participated in their development.

List of Subjects in 26 CFR Part 1

Income taxes, Reporting and recordkeeping requirements.

Proposed Amendments to the Regulations

Accordingly, 26 CFR part 1 is proposed to be amended as follows:

PART 1—INCOME TAXES

Paragraph 1. The authority citation for part 1 is amended by adding an entry in numerical order to read in part as follows:

Authority: 26 U.S.C. 7805 * * *

Section 1.110–1 also issued under 26 U.S.C. 110(d); * * *

Par. 2. Section 1.110–1 is added to read as follows:

§ 1.110–1 Qualified lessee construction allowances.

(a) *Overview.* Amounts provided to a lessee by a lessor for property to be constructed and used by the lessee pursuant to a lease are not includible in the lessee's gross income if the amount is a qualified lessee construction allowance under paragraph (b) of this section.

(b) *Qualified lessee construction allowance*—(1) *In general.* A qualified lessee construction allowance means any amount received in cash (or treated as a rent reduction) by a lessee from a lessor—

(i) Under a short-term lease of retail space;

(ii) For the purpose of constructing or improving qualified long-term real property for use in the lessee's trade or business at that retail space; and

(iii) To the extent the amount is expended by the lessee in the taxable year received on the construction or improvement of qualified long-term real property for use in the lessee's trade or business at that retail space.

(2) *Definitions*—(i) *Qualified long-term real property* is nonresidential real property under section 168(e)(2)(B) that is part of, or otherwise present at, the retail space referred to in paragraph (b)(1)(i) of this section and which reverts to the lessor at the termination of the lease. Thus, qualified long-term real property does not include property qualifying as section 1245 property under section 1245(a)(3).

(ii) *Short-term lease* is a lease (or other agreement for occupancy or use) of retail space for 15 years or less (as determined pursuant to section 168(i)(3)).

(iii) *Retail space* is nonresidential real property under section 168(e)(2)(B) that is leased, occupied, or otherwise used by the lessee in its trade or business of selling tangible personal property or services to the general public.

(3) *Purpose requirement.* An amount will meet the requirement in paragraph (b)(1)(ii) of this section only to the extent that the lease agreement for the retail space expressly provides that the construction allowance is for the purpose of constructing or improving qualified long-term real property for use in the lessee's trade or business at that retail space.

(4) *Expenditure requirement*—(i) *In general.* Expenditures referred to in paragraph (b)(1)(iii) of this section will be treated as being made first from the lessee's construction allowance. Tracing of the construction allowance to the actual lessee expenditures for the construction or improvement of qualified long-term real property is not required. However, the lessee should maintain accurate records of the amount of the qualified lessee construction allowance received and the expenditures made for qualified long-term real property.

(ii) *Time when expenditures deemed made.* For purposes of paragraph (b)(1)(iii) of this section, an amount is deemed to have been expended by a lessee in the taxable year in which the construction allowance was received by the lessee if the amount is expended within 8½ months after the close of that taxable year.

(5) *Consistent treatment by lessor.* Qualified long-term real property constructed or improved with any amount excluded from a lessee's gross income by reason of paragraph (a) of this section must be treated as nonresidential real property owned by the lessor (for purposes of depreciation under 168(e)(2)(B) and determining gain or loss under section 168(i)(8)(B)). For purposes of the preceding sentence, the lessor must treat the construction allowance as fully expended in the manner required by paragraph (b)(1)(iii) of this section unless the lessor is notified by the lessee in writing to the contrary. General tax principles apply for purposes of determining when the lessor may begin depreciation of its nonresidential real property. The lessee's exclusion from gross income under paragraph (a) of this section, however, is not dependent upon the lessor's treatment of the property as nonresidential real property.

(c) *Information required to be furnished*—(1) *In general.* The lessor and the lessee described in paragraph (b) of this section who are paying and receiving a qualified lessee construction allowance, respectively, must furnish the information described in paragraph (c)(3) of this section in the time and manner prescribed in paragraph (c)(2) of this section.

(2) *Time and manner for furnishing information.* The requirement to furnish information under paragraph (c)(1) of this section is met by attaching a statement with the information described in paragraph (c)(3) of this section to the lessor's or the lessee's, as applicable, timely filed (including extensions) Federal income tax return for the taxable year in which the construction allowance was paid by the lessor or received by the lessee (either in cash or treated as a rent reduction), as applicable. A lessor or a lessee may report the required information for several qualified lessee construction allowances on a combined statement. However, a lessor's or a lessee's failure to provide information with respect to each lease will be treated as a separate failure to provide information for purposes of paragraph (c)(4) of this section.

(3) *Information required*—(i) *Lessor.* The statement provided by the lessor must contain the lessor's name (and, in the case of a consolidated group, the parent's name), employer identification number, taxable year and the following information for each lease:

(A) The lessee's name (in the case of a consolidated group, the parent's name).

(B) The address of the lessee.

(C) The employer identification number of the lessee.

(D) The location of the retail space (including mall or strip center name, if applicable, and store name).

(E) The amount of the construction allowance.

(F) The amount of the construction allowance treated by the lessor as nonresidential real property owned by the lessor.

(ii) *Lessee.* The statement provided by the lessee must contain the lessee's name (and, in the case of a consolidated group, the parent's name), employer identification number, taxable year and the following information for each lease:

(A) The lessor's name (in the case of a consolidated group, the parent's name).

(B) The address of the lessor.

(C) The employer identification number of the lessor.

(D) The location of the retail space (including mall or strip center name, if applicable, and store name).

(E) The amount of the construction allowance.

(F) The amount of the construction allowance that is a qualified lessee construction allowance under paragraph (b) of this section.

(4) *Failure to furnish information.* A lessor or a lessee that fails to furnish the information required in this paragraph (c) may be subject to a penalty under section 6721.

(d) *Effective date.* This section is applicable to leases entered into on or after the date final regulations are published in the **Federal Register**.

[AZ 086–0017b; FRL–6438–2]

Approval and Promulgation of State Implementation Plans; Arizona State Implementation Plan Revision, Maricopa County

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve revisions to the Arizona State Implementation Plan (SIP) which concern the control of volatile organic compounds (VOC) emissions from different surface coating operations using primarily metal and plastic substrates and the aerospace manufacturing and rework industry.

The intended effect of this action is to regulate emissions of VOCs according to the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). In the Final Rules Section of this **Federal Register**, the EPA is approving the state's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period. Any parties interested in commenting should do so at this time.

DATES: Written comments must be received by October 20, 1999.

ADDRESSES: Comments should be addressed to: Andrew Steckel, Rulemaking Office (AIR–4), Air Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105–3901.

Copies of the rule revisions and EPA's evaluation report of each rule are available for public inspection at EPA's Region 9 office during normal business hours. Copies of the submitted rule revisions are also available for inspection at the following locations:

Rulemaking Office (AIR–4), Air Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105;

Environmental Protection Agency, Air Docket (6102), 401 ''M'' Street, SW., Washington, D.C. 20460;

Arizona Department of Environmental Quality, 3003 North Central Avenue, Phoenix, AZ 85012; and,

Maricopa County Environmental Services Department, 1001 North Central Ave., Phoenix, AZ 85004.

FOR FURTHER INFORMATION CONTACT: Jerald S. Wamsley, [AIR–4], Air Division, U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, CA 94105–3901, Telephone: (415) 744–1226.

SUPPLEMENTARY INFORMATION: This document concerns Maricopa County Rule 336, Surface Coating Operations and Rule 348, Aerospace Manufacturing and Rework Operations, submitted to EPA on August 4, 1999 by the Arizona Department of Environmental Quality. For further information, please see the information provided in the direct final action that is located in the rules section of this **Federal Register**.

Dated: September 3, 1999.

Approval and Promulgation of State Plans for Designated Facilities and Pollutants: Nevada

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the Nevada State Plan for implementing the emissions guidelines applicable to existing municipal solid waste (MSW) landfills. The Plan was submitted by the Nevada Division of Environmental Protection (NDEP) for the State of Nevada to satisfy requirements of section 111(d) of the Federal Clean Air Act. In the Final Rules section of this **Federal Register**, EPA is approving the Nevada State Plan as a direct final rule without prior proposal because the Agency views this as a noncontroversial action and anticipates that it will not receive any significant, material, and adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no significant, material, and adverse comments are received in response to this action, no further activity is contemplated in relation to this proposed rule. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action.

DATES: Comments must be received in writing by October 20, 1999.

ADDRESSES: Written comments should be addressed to Andrew Steckel, Rulemaking Office (AIR–4), Air Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105–3901.

Copies of the documents relevant to this proposed rule are available for public inspection at EPA's Region IX office during normal business hours. Copies of the submitted State Plan are also available for inspection at the following location: Bureau of Air Quality, Division of Environmental Protection, Department of Conservation and Natural Resources, 333 W. Nye Lane, Carson City, Nevada 89706–0851.

EPA Report to Congress on Fossil Fuel Combustion; Request for Comments

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule; reopening of period for public comment.

SUMMARY: The Environmental Protection Agency (EPA) is today announcing an extension of the public comment period (see 64 FR 22820) for its Report to Congress on Wastes from the Combustion of Fossil Fuels until September 24, 1999.

DATES: The comment period of the Report to Congress on Wastes from the Combustion of Fossil Fuels is reopened and will close on September 24, 1999.

ADDRESSES: Those persons wishing to submit public comments must send an original and two copies of their comments referencing EPA docket number F–1999–FF2P–FFFFF to: RCRA Docket Information Center (5305W), U.S. Environmental Protection Agency Headquarters (EPA,HQ), 401 M Street, SW., Washington, DC, 20460. Hand deliveries of comments, including courier, postal and non-postal express deliveries, should be made to the Arlington, VA address below.

Comments may also be submitted electronically through the Internet to: rcra-docket@epa.gov. Comments in electronic format should also identify the docket number F–1999–FF2P–FFFFF. All electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Commenters should not submit electronically any confidential business information (CBI). An original and two copies of CBI must be submitted under separate cover to: RCRA CBI Document Control Officer, Office of Solid Waste (5305W), U.S. EPA, 401 M Street, SW, Washington, DC 20460.

Public comments and supporting materials are available for viewing in the RCRA Docket Information Center (RIC), located at Crystal Gateway I Building, First Floor, 1235 Jefferson Davis Highway, Arlington, VA. The RIC is open from 9 a.m. to 4 p.m., Monday through Friday, excluding federal holidays. To review docket materials, it is recommended that the public make an appointment by calling (703) 603–9230. The public may copy a maximum of 100 pages from any regulatory docket at no charge. Additional copies cost $0.15 per page. The Report to Congress is also available electronically. See the Supplementary Information section below for information on electronic access.

FOR FURTHER INFORMATION CONTACT: For general information, contact the RCRA Hotline at (800) 424–9346 or TDD (hearing impaired) (800) 553–7672. In the Washington, DC metropolitan area, call (703) 412–9810 or TDD (703) 412–3323. For more detailed information on specific aspects of today's action, contact Dennis Ruddy, U.S. Environmental Protection Agency (5306W), 401 M Street, SW., Washington, DC 20460, at (703) 308–8430, or e-mail: ruddy.dennis@epa.gov.

SUPPLEMENTARY INFORMATION:

Customer Service

In developing the Report to Congress, we tried to address the concerns of all our stakeholders. Your comments will help us improve this regulatory action. We invite you to provide different views on options we propose, new approaches

we have not considered, new data, how this regulatory action may affect you, or other relevant information. We welcome your views on all aspects of this action, but we request comments in particular on the items discussed in the Report to Congress. Your comments will be most effective if you follow the suggestions below:

- Explain your views as clearly as possible and why you feel that way.
- Provide solid technical and cost data to support your views.
- If you estimate potential costs, explain how you arrived at the estimate.
- Tell us which parts you support, as well as those you disagree with.
- Provide specific examples to illustrate your concerns.
- Offer specific alternatives.
- Refer your comments to specific sections of the report.
- Make sure to submit your comments by the deadline in this notice.
- Be sure to include the name, date, and docket number with your comments.

Copies of the full report, titled Report to Congress: Wastes from the Combustion of Fossil Fuels; Volume 2—Methods, Findings, and Recommendations (EPA publication number EPA 530–R–99–010), are available for inspection and copying at the EPA Headquarters library, at the RCRA Docket (RIC) office identified in **ADDRESSES** above, at all EPA Regional Office libraries, and in electronic format at the following EPA Web site: http://www.epa.gov/osw/special.htm. Printed copies of Volume 2 and the executive summary, titled Report to Congress: Wastes from the Combustion of Fossil Fuels; Volume 1—Executive Summary (EPA publication number EPA 530–S–99–010), can also be obtained by calling the RCRA/Superfund Hotline at (800) 424–9346 or (703) 412–9810. The Executive Summary is also available in electronic format at the EPA Web site identified above.

Background

RCRA section 3001(b)(3) (hereafter referred to as the Bevill Exemption) exempts, among other things, fossil fuel combustion wastes from regulation under RCRA subtitle C, pending completion of a Report to Congress and a subsequent determination of whether such regulation is warranted. In RCRA section 8002(n), Congress directed EPA to conduct a detailed and comprehensive study based on eight study factors, and submit a Report to Congress on ''the adverse effects on human health and the environment, if any, of the disposal and utilization of fossil fuel combustion wastes.'' RCRA section 3001(b)(3)(C) then requires that EPA determine, within six months of the date of submission of the Report to Congress, either to promulgate regulations for fossil fuel combustion wastes under subtitle C or determine that subtitle C regulation is unwarranted.

The Bevill Exemption was added to RCRA on October 12, 1980, as part of the 1980 Solid Waste Disposal Act Amendments. In response to the 1980 RCRA amendments, EPA published an interim final amendment to its hazardous waste regulations to reflect the provisions of the Bevill Exemption (40 CFR 261.4(b)(4)). In 1991, a suit was filed against EPA for failure to complete a regulatory determination on fossil fuel combustion (FFC) wastes. *Gearhart* versus *Reilly* Civil No. 91–2345 (D.D.C.). On June 30, 1992, the Agency entered into a Consent Decree which established a schedule for EPA to complete the regulatory determinations for all fossil fuel combustion (FFC) wastes. FFC wastes were divided into two categories: (1) fly ash, bottom ash, boiler slag, and flue gas emission control waste from the combustion of coal by electric utilities and independent commercial power producers, when such wastes are managed separately, and (2) all remaining wastes subject to RCRA sections 3001(b)(3)(A)(i) and 8002(n). On August 9, 1993, EPA published a determination for the first category of wastes, concluding that regulation under subtitle C for these wastes was not warranted. To make an appropriate determination for the second category, or ''remaining wastes,'' EPA decided that additional study was necessary. Under consent-decree deadlines, the Agency completed the Report to Congress by March 31, 1999, and was to issue the regulatory determination by October 1, 1999. To meet this deadline, EPA established a 45-day public comment period following completion of the report, which closed on June 14, 1999. Subsequently, the plaintiffs in *Gearhart* versus *Reilly* moved to modify the consent decree to allow EPA until March 10, 2000 to complete the regulatory determination to allow EPA to reopen the comment period. EPA supported the motion and, on September 2, 1999, the Court granted the motion. The comment period will now extend until September 24, 1999, and the regulatory determination will be issued by March 10, 2000.

Dated: September 8, 1999.

Elizabeth Cotsworth,

Director, Office of Solid Waste.

Notices

Federal Register

Vol. 64, No. 181

Monday, September 20, 1999

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forest Service

Nez Perce Fork Vegetation Management Project; Bitterroot National Forest, Ravalli County, MT

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The USDA Forest Service will prepare an environmental impact statement (EIS) to disclose the environmental effects of management activities proposed in the Nez Perce Fork area on the West Fork Ranger District of the Bitterroot National Forest. Proposed management activities include management ignited prescribed fire, timber harvest, reforestation, and road reconstruction. The Nez Perce Fork area is located in Ravalli County, Montana, approximately 30 miles southwest of the city of Hamilton. The Nez Perce Fork area includes the entire Nez Perce Fork drainage and several other tributary drainages of the West Fork Bitterroot River, including Boulder Creek, Christisen Creek, Baker Creek and Pierce Creek.

A variety of management activities proposed in the project are being considered together because they represent either connected or cumulative actions as defined by the Council on Environmental Quality (40 CFR 1508.25). The purposes of the project are: (1) To restore fire and its associated ecological benefits, (2) to reduce fuel accumulations, (3) to modify timber stand structure and species composition in order to maintain or restore ecosystem diversity, (4) modify the edges of two older clear cut units so they better comply with visual quality objectives, (5) improve habitat conditions for bighorn sheep and other big game species, (6) reduce sediment sources on open roads and stabilize a segment of one road by constructing a retaining wall, and (7) to utilize surplus biomass removed in fulfilling purposes 1 through 5, above, by providing raw materials for forest products. This project level EIS will tier to the Bitterroot National Forest Land and Resource Management Plan (Forest Plan) and Final EIS (September, 1987), which provides overall guidance for all land management activities on the Bitterroot National Forest.

DATES: Written comments and suggestions should be received by October 22, 1999.

ADDRESSES: The Responsible Official is David M. Campbell, District Ranger, West Fork Ranger District, Bitterroot National Forest, Darby, Montana 59829. Written comments and suggestions concerning the scope of the analysis or a request to be included on the project mailing list should be sent to him at that address.

FOR FURTHER INFORMATION CONTACT: Stuart Lovejoy, Resource Team Leader, Sula Ranger Station, Bitterroot National Forest, Phone (406) 821–3201.

SUPPLEMENTARY INFORMATION: The project encompasses approximately 86,000 acres of land in southwestern Montana on the Bitterroot National Forest. The Nez Perce Fork area includes lands drained by the Nez Perce Fork and several other tributaries of the West Fork Bitterroot River including Boulder Creek, Christisen Creek, Baker Creek and Pierce Creek. A map and legal descriptions are available on request.

Management ignited prescribed fire and timber harvest are proposed on approximately 10,500 acres and 1,400 acres, respectively. Proposed management ignited fire and harvest activities focus primarily on low to mid elevations and drier aspects, which are considered more at risk ecologically due to fire absence.

An analysis of the Nez Perce Fork area reveals changes in how the forest vegetation currently looks and functions compared to the past. Natural patterns and stand structures have changed, largely due to the absence of fire during this century in this fire dependent ecosystem. This has caused notable changes in vegetation species composition, plant density, stand structures, fuels, seral species regeneration, and the health and vigor of forest stands. The primary purpose of prescribed fire and timber harvest in the Nez Perce Fork area is to maintain or restore ecosystem diversity, function, and health. There is also an opportunity to address ecological trends and at the same time utilize surplus biomass for forest products. Maintaining plant community diversity will promote the range of habitats that native plants and animals evolved in. Management prescriptions to promote diversity include low to moderate intensity management ignited prescribed fire, and on some sites prescribed fire would be used in combination with silvicultural practices. Silvicultural treatments proposed include pre-commercial thinning, commercial thinning, irregular shelterwood harvest, seed tree harvest, sanitation salvage harvest, improving cutting, and reforestation.

Managing fuels using fire and silvicultural practices would decrease the risk of uncharacteristically intense fires and associated undesirable effects. These activities could also increase the ability of the Forest Service to allow more naturally occurring fires to burn in the adjoining Selway Bitterroot Wilderness Area by reducing fuels near private property at lower elevations. This would to some degree reduce the risks to private property from natural fires allowed to burn in the Wilderness.

Prescribed fire is proposed in 13 acres totaling about 9,700 acres, with special focus on the ponderosa pine/Douglas-fir community, which have been most altered due to fire absence.

Big game forage, including some winter range areas, would be improved in the areas to be understory burned. Bighorn sheep forage vigor would also be improved in four underburn areas that are located within the Nez Perce sheep herds range.

Fire would also be reintroduced in a portion of the Boulder Creek Research Natural Area, presenting the opportunity to conduct research on the effects of fire absence and reintroduction. These opportunities have been discussed with representatives of the Rocky Mountain Research Station from Missoula, Montana and the research would fulfill a need for additional information regarding fire absence and the effects of fire reintroduction.

Seven areas totaling 307 acres are proposed for commercial thinning. Following the thinning, understory burning is prescribed in the areas within the ponderosa pine/Douglas-fir

community. Pre-commercial thinning is also needed on 311 acres of densely stocked sub-merchantable trees in order to maintain desirable species composition, tree growth, and vigor.

Four areas totaling 93 acres would be harvested using an ''irregular shelterwood'' method to regenerate them. All areas would be treated with understory burning following harvest in order to reduce fuels, prepare sites for regeneration, and to maintain fire as an ecosystem process. The irregular shelterwood treatment would provide the relatively open conditions necessary for ponderosa pine tree seedlings to become established and provide for future stands that are dominated by large ponderosa pines.

One even aged mature lodgepole pine stand is prescribed for seed tree harvest and prescribed burning. Within the Nez Perce area, there has been a shift toward more late seral stands during this century due to fire absence. This treatment would to some degree simulate a stand replacing fire event, thereby increasing early seral stage habitat.

Two areas totalling 177 acres are proposed to receive a sanitation salvage harvest, an intermediate harvest treatment designed to remove individual dead, dying, and diseased trees. One of these areas would be understory burned following harvest and activity fuels in the other area would be limbed and lopped and/or hand-piled and burned. Fire absence in the Nez Perce area has allowed for higher than historic levels of dwarf mistletoe and other disease or insect disturbance levels, adding to heavy fuel accumulations.

Improvement cutting and prescribed fire would be used to restore more favorable conditions for wintering big game animals and spring/early summer range for bighorn sheep in one area. The resulting open stand with an increased ratio of ponderosa pine would provide improved sheep habitat and would more closely resemble historic conditions that can be maintained with fire.

Two older clear-cut units that are visible from main roads are proposed to have their edges modified in order to better meet visual quality objectives. The visual impact of these two openings is proposed to be reduced by modifying their geometric shape and straight edges.

The fill slope of Soda Springs Road (#5365) is eroding and is proposed to be stabilized by construction of a bin retaining wall. The bin wall is needed to stabilize the chronic sediment source from the fill slope and to provide a safer and easier to maintain road facility. Roads on which timber would be hauled would have surface improvement work completed, such as installing drivable dips and gravelling. These are needed to reduce sediment sources, thereby protecting water quality and aquatic habitat.

The Bitterroot Forest Plan provides guidance for management activities through its goals, objectives, standards, and management area direction. The areas of proposed timber harvest occur in Management Areas 1, 2, and 3a. Prescribed burning is proposed on lands within Forest Plan Management Areas 1, 2, 3a, 3b, 5, and 6. The management direction for these areas are briefly described, as follows. Management Area 1 emphasizes timber management, livestock and big game forage production, and roaded dispersed recreation activities. Management Area 2 emphasizes elk winter range habitat, allows for timber management and providing roaded dispersed recreation opportunities. Management Area 3a emphasizes visual quality, allows timber management, and providing roaded dispersed recreation opportunities. Management Area 3b emphasizes protection of riparian habitat and water quality and providing for water-related recreation. Management Area 5 emphasizes semi-primitive recreation and elk security. Management Area 6 includes areas recommended for Wilderness designation.

This project proposal was analyzed in an Environmental Assessment (EA) that was issued in February, 1998. Public scopeing meetings and opportunities for interested parties to review and comment on the EA were included in that analysis effort. That planning effort lead to the decision to prepare an EIS. Public participation is also an important part of this analysis, commencing with additional scoping (40 CFR 1501.7), which will occur during September and October, 1999. In addition, the public is encouraged to visit with Forest Service officials at any time during the analysis and prior to the decision. The Forest Service will be seeking information, comments, and assistance from Federal, State, and local agencies and other individuals or organizations who may be interested in or affected by the proposed action. No additional public meetings are scheduled at this time.

Comments from the public and other agencies will be used in preparation of the Draft EIS. The scoping process will be used to identify issues and alternatives to the proposed action. Some public comments have already been received in conjunction with an analysis documented in the Nez Perce Fork Vegetation Management Project EA (February, 1998). The following issues have already been identified: 1. How would the proposed timber harvest (improvement cutting) between Watchtower and Sheepshead Creeks and above the Nez Perce Road change the undeveloped character of this portion of the Selway Bitterroot Roadless area? 2. How would the proposed activities affect threatened, endangered and sensitive fish and wildlife species that inhabit the area? 3. How would the proposed activities affect the movement of wildlife through the area? 4. Can the vegetation diversity and ecological purposes of the project be met without any further timber extraction in the area? 5. To what degree would the proposed activities contribute to the spread of noxious weeds in the area? Other issues commonly associated with prescribed fire and timber harvest include: potential effects on cultural resources, water quality, air quality, soils, old growth, and scenery values. This list may be verified; expanded, or modified based on public scoping for this proposal.

The Forest Service will consider a range of alternatives in the EIS. One of these will be the ''no action'' alternative, in which none of the proposed activities would be implemented. Additional alternatives will examine varying levels and locations for the proposed activities to achieve the proposal's purposes, as well as to respond to the issues and other resource values. the EIS will analyze the direct, indirect, and cumulative environmental effects of the alternatives. Past, present, and scheduled activities on both private and National Forest lands will be considered. The EIS will disclose the analysis of site specific mitigation measures and their effectiveness.

The Draft EIS is expected to be filed with the Environmental Protection Agency (EPA) and available for public review in December, 1999. At that time, the EPA will publish a Notice of Availability of the Draft EIS in the **Federal Register**. The comment period on the Draft EIS will be 45 days from the date the EPA's notice of availability appears in the **Federal Register**. It is very important that those interested in management of the Nez Perce Fork area participate at that time. To be most helpful, comments on the Draft EIS should be as specific as possible. The Final EIS is scheduled to be completed in April, 2000.

The Forest Service believes, at this early stage it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First,

reviewers of draft environment impact statements must structure their participation in the Environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp.* v. *NRDC,* 435 U.S. 519,553 (1978). Also environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon* v. *Hodel,* 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages* v. *Harris,* 490 F. Supp.–1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the scoping comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in developing issues and alternatives.

To assist the Forest Service in identifying and considering issues on the proposed action, comments should be as specific as possible. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

The responsible official for this environmental impact statement is David M. Campbell, West Fork District Ranger. His address is West Fork Ranger District, Bitterroot National Forest, 6735 West Fork Road, Darby, Montana 59829. He will decide which, if any, of the proposed actions will be implemented and will document the decision and reasons for the decision in a Record of Decision. That decision will be subject to Forest Service Appeal Regulations.

Dated: September 9, 1999.

Jeff Amoss,

Acting Forest Supervisor, Bitterroot National Forest.

BILLING CODE 3410–83–M

DEPARTMENT OF AGRICULTURE

Natural Resources Conservation Service

Dry Run Watershed, Allegany County, Maryland

AGENCY: USDA, Natural Resources Conservation Service.

ACTION: Notice of a Finding of No Significant Impact.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40 CFR part 1500); and the Soil Conservation Service Regulations (7 CFR part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Dry Run Watershed, Allegany County, Maryland.

FOR FURTHER INFORMATION CONTACT: David D. Doss, State Conservationist, USDA-Natural Resources Conservation Service, 339 Busch's Frontage Road, Suite 301, Annapolis, Maryland 21401–5534, Telephone (410) 757–0861; fax (410) 757–0687.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, David P. Doss, State Conservationist, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project proposed are flood control and watershed protection. The planned works of improvement include floodplain acquisition and stream restoration.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting David P. Doss.

No administrative action or implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

(This activity is listed in the Catalog of Federal Domestic Assistance under NO. 10.904, Watershed Protection and Flood Prevention, and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials)

David P. Doss,

State Conservationist.

BILLING CODE 3410–16–M

DEPARTMENT OF AGRICULTURE

Rural Business-Cooperative Service

Notice of Request for Extension of a Currently Approved Information Collection

AGENCY: Rural Business-Cooperative Service, USDA.

ACTION: Proposed collection; comments requested.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the Rural Business-Cooperative Service (RBS) to request an extension of a currently approved information collection in support of the Servicing of Business and Industry Guaranteed Loans Program.

DATES: Comments on this notice must be received by November 19, 1999, to be assured of consideration.

FOR FURTHER INFORMATION CONTACT: David W. Lewis, Senior Loan Specialist, RBS, U.S. Department of Agriculture (USDA), Stop 3224, Washington, DC 20250–3224, telephone 202–690–0797.

SUPPLEMENTARY INFORMATION:

Title: Servicing Business and Industry Guaranteed Loans.

OMB Number: 0570–0016

Expiration Date of Approval: September 30, 1999.

Type of Request: Extension of a Currently Approved Information Collection.

Abstract: RBS, an agency within the Rural Development (RD) mission area of the USDA, operates several programs that provide guaranteed loans to banks, insurance companies, and other traditional lenders. The purpose of the Business and Industry Guaranteed Loan Program is to improve, develop, or finance business, industry and employment and improve the economic and environmental climate in rural communities, including pollution abatement and control. This purpose is achieved through bolstering the existing private credit structure through guarantee of quality loans, which will provide lasting community benefits.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 0.51 hours per response.

Respondents: Guaranteed lenders.

Estimated Number of Respondents: 2,681.

Estimated Number of Responses per Respondent: 7.26.

Estimated Number of Responses: 19,466.

Estimated Total Annual Burden on Respondents: 9,992.

Copies of this information collection can be obtained from Cheryl Thompson, Regulations and Paperwork Management Branch, at (202) 692–0043.

Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of RBS, including whether the information will have practical utility; (b) the accuracy of RBS's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to Cheryl Thompson, Regulations and Paperwork Management Branch, U.S. Department of Agriculture, Rural Development, STOP 0742, 1400 Independence Ave. SW, Washington, DC 20250–0742. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: September 10, 1999.

Randall E. Torgerson,

Acting Administrator, Rural Business-Cooperative Service.

[FR Doc. 99–24318 Filed 9–17–99; 8:45 am]

BILLING CODE 3410–XY–P

DEPARTMENT OF AGRICULTURE

Rural Business-Cooperative Service

Notice of Request for Extension of a Currently Approved Information Collection

AGENCY: Rural Business-Cooperative Service, USDA.

ACTION: Proposed collection; comments requested.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Rural Business-Cooperative Service's intention to request an extension for a currently approved information collection in support of the program for Guaranteed Loanmaking.

DATES: Comments on this notice must be received by November 19, 1999, to be assured of consideration.

FOR FURTHER INFORMATION CONTACT: Rick Bonnet, Senior Commercial Loan Specialist, Business Programs Processing Division, Rural Business-Cooperative Service, U.S. Department of Agriculture, STOP 3221, 1400 Independence Avenue SW, Washington, DC 20250–3221, Telephone (202) 720–1804, E-mail ''rbonnet@rurdev.usda.gov''.

SUPPLEMENTARY INFORMATION:

Title: Guaranteed Loanmaking (General).

OMB Number: 0570–0018.

Expiration Date of Approval: September 30, 1999.

Type of Request: Extension of Currently Approved Information Collection.

Abstract: The purpose of the program is to improve, develop, or finance businesses, industries, and employment and improve the economic and environmental climate in rural communities. This purpose is achieved through bolstering the existing private credit structure through the guaranteeing of quality loans made by lending institutions, thereby providing lasting community benefits. This subpart contains general requirements applicable to all guaranteed loan programs administered by the Agency.

Information being collected from lenders on guaranteed loan borrowers is typically collected by lenders. There are no new data collection requirements contained in the renewal notice. In contrast to the burden package approved in 1996, the estimates no longer include burden hours for customary and usual business practices. However, the total burden hours is higher because of a significant increase in the program funding level.

Estimate of Burden: Public reporting for this collection of information is estimated to average 0.44 hours per response.

Respondents: Business or other for-profit; State, Local or Tribal; Accounts, and Attorneys.

Estimated Number of Respondents: 1117.

Estimated Number of Responses per Respondent: 1.

Estimated Number of Responses: 1117.

Estimated Total Annual Burden on Respondents: 1,734 hours.

Copies of this information collection can be obtained from Cheryl Thompson, Regulations and Paperwork Management Branch, at (202) 692-0043.

Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of RBS, including whether the information will have practical utility; (b) the accuracy of RBS's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to Cheryl Thompson, Regulations and Paperwork Management Branch, U.S. Department of Agriculture, Rural Development, STOP 0742, 1400 Independence Ave. SW, Washington, DC 20250–0742. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: September 9, 1999.

William F. Hagy III,

Acting Administrator, Rural Business-Cooperative Service.

BILLING CODE 3410–XY–P

DEPARTMENT OF AGRICULTURE

Rural Housing Service

Notice of Request for Extension of a Currently Approved Information Collection

AGENCY: Rural Housing Service, USDA.

ACTION: Proposed collection; comments requested.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Rural Housing Service's (RHS) intention to request an extension for a currently approved information collection in support of the Section 502 Direct and the Section 504 Rural Housing Loans and Grants Programs.

DATES: Comments on this notice must be received by November 19, 1999 to be assured of consideration.

FOR FURTHER INFORMATION CONTACT: Gloria L. Denson, Loan Specialist, Single Family Housing Direct Loan Division, RHS, U.S. Department of Agriculture, STOP 0783, 1400 Independence Ave., SW, Washington, DC 20250–0783, Telephone 202–720–1474. (This is not a toll free number.)

SUPPLEMENTARY INFORMATION:

Title: RD Form 410–8, ''Applicant Reference Letter''.

OMB Number: 0575–0091.

Expiration Date of Approval: December 31, 1999.

Type of Request: Extension of a currently approved information collection.

Abstract: The rural housing loan program under Section 502 of title V of the Housing Act of 1949, as amended, provides eligible persons who live in rural areas with an opportunity to own adequate but modest, decent, safe, and sanitary dwellings and related facilities. Also, the Section 504 loan/grant programs assist eligible very low-income owner/occupants to repair or rehabilitate single family homes in rural areas. Applicants are required to furnish information concerning their credit history to RHS when they apply for assistance. In both programs, RD Form 410–8 is used to obtain information about an applicant's credit history that might not appear on a credit report. It is used to document an ability to handle credit effectively for applicants who have not used sources of credit that appear on a credit report. It also provides a mechanism for following up on repayment history for debts reported by the applicant on the application that do not appear on the credit report. This information is used by the Loan Originator serving the area in which the applicant or borrower will live to determine whether the applicant's credit history meets the Agency criteria. In addition to supplementing or verifying other debts when a credit report is limited and unavailable to determine the applicant's eligibility and credit worthiness, the RD Form 410–8 is used because credit reports are not always used when an applicant/borrower lives in a remote area; therefore, the form is widely used by the Agency to obtain credit information.

RHS must, by law, make available to the applicant, upon request, the source of information used to make an adverse decision. Individual references may be solicited with the clear understanding that if the information is used to deny credit, the information will be made available to the applicant upon request. If this information was not collected, RHS would be unable to evaluate an applicant's credit history.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 20 minutes per response.

Respondents: Individuals or households.

Estimated Number of Respondents: 28,523.

Estimated Number of Responses per Respondent: 3.

Estimated Total Annual Burden on Respondents: 28,238 hours.

Copies of this information collection can be obtained from Brenda Frost, Regulations and Paperwork Management Branch, at (202) 692–0037.

Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of RHS, including whether the information will have practical utility; (b) the accuracy of RHS's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to Brenda Frost, Regulation and Paperwork Management Branch, U.S. Department of Agriculture, Rural Development, Stop 0742, 1400 Independence Ave., SW, Washington, DC 20250–0742. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: September 2, 1999.

Alan Stephens,

Acting Administrator Rural Housing Service.

DEPARTMENT OF COMMERCE

International Trade Administration

Texas A&M University; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, NW, Washington, DC.

Docket Number: 99–012. *Applicant:* Texas A&M University, College Station, TX 77843–3122. *Instrument:* Densitometer and Balance. *Manufacturer:* Rubotherm, Germany. *Intended Use:* See notice at 64 FR 35126, June 30, 1999.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. *Reasons:* The foreign instrument provides: (1) Density measurements for corrosive materials using a magnetic suspension balance for weighing the sample with a mechanism located outside the measuring chamber and (2) a load capacity of 100 gm and resolution of 0.02 mg. A domestic manufacturer of similar equipment advised August 18, 1999 that (1) these capabilities are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

Frank W. Creel,

Director, Statutory Import Programs Staff.

National Oceanic and Atmospheric Administration

[I.D. 091499A]

Gulf of Mexico Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council will convene a public meeting of the Red Drum Stock Assessment Panel (RDSAP).

DATES: This meeting will begin at 9:00 a.m. on Monday, October 4, 1999, and will conclude by 3:00 p.m. on Thursday, October, 7, 1999.

ADDRESSES: The meeting will be held at the National Marine Fisheries Service Southeast Fisheries Science Center, 75 Virginia Beach Drive, Miami, Florida.

FOR FURTHER INFORMATION CONTACT: Peter Hood, Fishery Biologist, Gulf of Mexico Fishery Management Council, 3018 U.S. Highway 301 North, Suite 1000, Tampa, Florida 33619; telephone: 813–228–2815.

SUPPLEMENTARY INFORMATION: The RDSAP will convene to review a stock assessment on the status of the red drum stocks in the Gulf of Mexico prepared by NMFS. The RDSAP will consider available information including, but not limited to, commercial and recreational catches, natural and fishing mortality estimates, recruitment, fishery-dependent and fishery-independent data, and data needs. These analyses will be used to determine the condition of the stocks and the levels of acceptable biological catch. The RDSAP may also review estimates of stock size (biomass at maximum sustainable yield) and minimum stock size thresholds. Currently it is illegal to harvest or possess red drum in Federal waters.

The conclusions of the RDSAP will be reviewed by the Council's Standing and Special Reef Fish Scientific and Statistical Committee, and Red Drum Advisory Panel at meetings to be held in late October, 1999.

Although non-emergency issues not contained in this agenda may come before this Council for discussion, those issues may not be the subject of formal Council action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Anne Alford at 813–228–2815 by September 27, 1999.

Dated: September 14, 1999.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Department of the Navy

Notice of Intent To Prepare an Environmental Impact Statement for Construction of Military Family Housing at Marine Corps Air Station Miramar, San Diego, CA

AGENCY: Department of the Navy, DOD.

ACTION: Notice.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969 (NEPA), as implemented by the Council on Environmental Quality regulations (40 CFR parts 1500–1508), the Department of the Navy announces its intent to prepare an Environmental Impact Statement (EIS) to evaluate the environmental effects of the development of suitable and affordable housing for enlisted military personnel and their families assigned to installations in the San Diego region.

DATES: Two public scoping meetings will be held to receive oral and written comments on the scope of the EIS. The first meeting will be held on October 6, 1999, at the Serra High School located at 5156 Santo Road, San Diego, California. The second meeting will be held on October 13, 1999, at the Scripps Ranch High School located at 10410 Treena Street, San Diego, California. Both meetings will begin at 7 p.m.

ADDRESSES: Regional Planning Team, Southwest Division, Naval Facilities Engineering Command, 1220 Pacific Highway, San Diego, CA 92132–5190.

FOR FURTHER INFORMATION CONTACT: Ms. Sheila Donovan (Code 04PLR.sd), Regional Planning Team, Southwest Division, Naval Facilities Engineering Command, at telephone (619) 523–1253; fax (619) 532–3979; or e-mail at donovansm@efdsw.navfac. navy.mil.

SUPPLEMENTARY INFORMATION: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969 (NEPA), as implemented by the Council on Environmental Quality regulations (40 CFR parts 1500–1508), the Department of the Navy announces its intent to prepare an Environmental Impact Statement (EIS) to evaluate the environmental effects of the development of suitable and affordable housing for enlisted military personnel and their families assigned to installations in the San Diego region. Navy is proposing the construction of up to 1600 MFH units and supporting infrastructure. The EIS will address alternative sites that meet MFH housing suitability factors. Currently, four possible sites on government property, all at MCAS Miramar, have been identified for study: (1) A 211 acre site located off Missile Road in the northwest portion of East MCAS Miramar; (2) a 268 acre site located in the southeast corner of East Miramar; (3) a 283 acre site located in the north central portion of East Miramar; and (4) a Main Station site of approximately 100 acres located in the northern portion of the Station adjacent to Miramar Road. While no suitable private sites have been identified based upon preliminary real estate reviews, suitable private sites identified during the scoping process will be considered in the EIS. The EIS will also evaluate the No Action Alternative that would provide for no further construction of MFH.

Preliminary MFH justification studies for the San Diego area estimate the current MFH deficit to be about 2,400 units. Current projections show the MFH deficit substantially increasing through Fiscal Year 2004. However, because of constraints such as funding and land availability, it is unlikely that the Navy would be able to eradicate the shortfall through military construction.

The EIS will evaluate the environmental effects associated with each of the alternatives. Issues to be addressed include, but are not limited to: geology and soils; biological resources; water resources and hydrology; traffic; cultural resources; air quality; public services and utilities; land use and aesthetics; noise; socio-economics; public health and safety; hazardous materials and wastes; and environmental justice. The analysis will include an evaluation of the direct, indirect, short-term, and cumulative impacts. No decision to implement any alternative, including the No Action Alternative, will be made until the NEPA process is complete.

Two public scoping meetings will be held to receive oral and written comments on the scope of the EIS. A brief presentation describing the proposed action, potential alternatives, and the NEPA process will precede the public's opportunity to comment relating to the scope of the EIS. Navy and Marine Corps representatives will be available at this meeting to receive comments from the public regarding issues of concern. Federal, state and local agencies, and any potentially affected Indian tribes as well as interested organizations and individuals, may take this opportunity to identify environmental concerns that they believe should be addressed during the preparation of the EIS. Agencies and the public are invited and encouraged to provide written comments in addition to, or in lieu of, oral comments at the public meeting. Written comments regarding the scope of the EIS may also be submitted to Regional Planning Team, Southwest Division, Naval Facilities Engineering Command, 1220 Pacific Highway, San Diego, CA 92132–5190. To be most helpful, comments should clearly describe specific issues or topics that the commentor believes the EIS should address. Written comments must be postmarked no later than November 13, 1999.

Dated: September 8, 1999.

J.L. Roth,

Lieutenant Commander, Judge Advocate General's Corps, U.S. Navy, Federal Liaison Officer.

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Leader, Information Management Group, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before November 19, 1999.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: September 14, 1999.

William Burrow,

Leader Information Management Group, Office of the Chief Information Officer.

Office of Postsecondary Education

Type of Review: New.

Title: Performance Report for the Jacob K. Javits Fellowship Program.

Frequency: Annually.

Affected Public: Not-for-profit institutions.

Reporting and Recordkeeping Burden: Responses: 115; Burden Hours: 690.

Abstract: This information collection provides the U.S. Department of Education with information needed to determine if grantees have made substantial progress toward meeting the program's objectives and allow program staff to monitor and evaluate the program. Congress has mandated (through the Government's Performance and Results Act of 1993) that the U.S. Department of Education provide documentation about the progress being made by the program.

Written comments and requests for copies of the proposed information collection request should be addressed to Vivian Reese, Department of Education, 400 Maryland Avenue, SW, Room 5624, Regional Office Building 3, Washington, DC 20202–4651, or should be electronically mailed to the internet address OCIO__IMG__Issues@ed.gov, or should be faxed to 202–708–9346.

For questions regarding burden and/or the collection activity requirements, contact Joseph Schubart at 202–708–9266 or by e-mail at joe__schubart@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339.

DEPARTMENT OF ENERGY

Record of Decision: Site-Wide Environmental Impact Statement for Continued Operation of the Los Alamos National Laboratory in the State of New Mexico

AGENCY: Department of Energy.

ACTION: Record of decision.

SUMMARY: The Department of Energy (DOE) is issuing this Record of Decision on the continued operation of the Los Alamos National Laboratory (LANL) in the State of New Mexico. This Record of Decision is based on the information and analysis contained in the Site-Wide Environmental Impact Statement for Continued Operation of the Los Alamos National Laboratory, DOE/EIS–0238 (including the classified supplement), and other factors, including the mission responsibilities of the Department, and comments received on the final Site-Wide Environmental Impact Statement. DOE has decided to implement the Preferred Alternative, which, with certain limitations, is the Expanded Operations Alternative. This alternative would expand operations at LANL, as the need arises, to increase the level of existing operations to the highest reasonably foreseeable levels, and to fully implement the mission elements assigned to LANL.

FOR FURTHER INFORMATION CONTACT: For further information on the Site-Wide Environmental Impact Statement or to receive a copy of the Site-Wide Environmental Impact Statement or other information related to this Record of Decision, contact: Corey Cruz, Document Manager, U.S. Department of Energy, Albuquerque Operations Office, P.O. Box 5400, Albuquerque, NM 87185, (505) 845–4282.

For information on the DOE National Environmental Policy Act (NEPA) process, contact: Carol M. Borgstrom, Director, Office of NEPA Policy and Assistance (EH–42), U.S. Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585, (202) 586–4600, or leave a message at (800) 472–2756.

SUPPLEMENTARY INFORMATION:

Background

DOE prepared this Record of Decision pursuant to the regulations of the Council on Environmental Quality for implementing NEPA (40 CFR Parts 1500–1508) and DOE's NEPA Implementing Procedures (10 CFR Part 1021). This Record of Decision is based, in part, on DOE's Site-Wide Environmental Impact Statement for Continued Operation of the Los Alamos National Laboratory, (DOE/EIS–0238). LANL is located in north-central New Mexico, 60 miles (96 kilometers) north-northeast of Albuquerque, 25 miles (40 kilometers) northwest of Santa Fe, and 20 miles (32 kilometers) southwest of Española. LANL occupies an area of approximately 27,832 acres (11,272 hectares), or approximately 43 square miles (111 square kilometers), of which 86 percent lies within Los Alamos County and 14 percent within Santa Fe County. The Fenton Hill site (Technical Area [TA]–57), a remote site 20 miles (32 kilometers) west of LANL, occupies 15 acres (6 hectares) in Sandoval County on land leased from the U.S. Forest Service. LANL is divided into 49 separate Technical Areas. LANL is a multi-disciplinary, multipurpose national laboratory engaged in theoretical and experimental research and development. DOE has assigned elements of each of its four principal missions (National Security, Energy Resources, Environmental Quality, and Science) to LANL, and has established and maintains several capabilities in support of these mission elements, including applications of science and technology to the nuclear weapons program. These capabilities also support applications for other Federal agencies and other organizations in accordance with national priorities and policies.

DOE is currently engaged in other NEPA reviews that include LANL as an alternate location for the action under consideration. These other NEPA reviews include programmatic and project Environmental Impact Statements for Waste Management and Surplus Plutonium Disposition. Since these other Environmental Impact Statements identify potential new or expanded activities for LANL, the impacts of these activities are described under the Preferred Alternative in the Site-Wide Environmental Impact Statement. The nature of the decisions in this Record of Decision with regard to the Waste Management programmatic and project proposals is simply to reserve infrastructure at LANL pending completion of these programmatic and project reviews and the corresponding decision document. With regard to the Surplus Plutonium Disposition program, the nature of the decision in this Record of Decision is to maintain the competency and capability to fabricate the Lead Assemblies as evaluated in the Surplus Plutonium Disposition Environmental Impact Statement (SPD EIS). However, the availability and capacity of facilities to perform such work may be limited because of competing priorities from the weapons program. DOE's resolution of any such competing priorities will be reflected in the Record of Decision for the SPD EIS.

DOE was directed by Congress (Pub. L. 105–119) to convey or transfer parcels of DOE land in the vicinity of LANL to the Incorporated County of Los Alamos, New Mexico, and the Secretary of the Interior, in trust for the San Ildefonso Pueblo. Such parcels, or tracts of land, must not be required to meet the national security mission of LANL and must also meet other criteria established by the Act. DOE has issued a Draft Environmental Impact Statement to examine the potential environmental impacts associated with the conveyance or transfer of 10 specific parcels. EPA published a Notice of Availability for the Draft Environmental Impact Statement for the Conveyance and Transfer of Certain Land Tracts Administered by the Department of Energy and Located at Los Alamos National Laboratory, Los Alamos and Santa Fe Counties, New Mexico, in the **Federal Register** on February 26, 1999.

The Site-Wide Environmental Impact Statement considers the environmental impacts of ongoing and proposed activities at LANL. DOE expects that it will continue to suggest new programs, projects, and facilities for LANL (or consider LANL as an alternative site for such facilities or activities). These new proposals will be analyzed in programmatic or project-specific NEPA reviews, as they become ripe for decision. Subsequent NEPA reviews

will make reference to, and be tiered from, the Site-wide Environmental Impact Statement; and subsequent DOE decisions on these proposals may amend this Record of Decision.

Alternatives Considered

DOE analyzed four broad alternative levels of operation at the Los Alamos National Laboratory. The four alternatives are as follows:

Alternative 1—No Action

The No Action Alternative reflects the levels of operation at LANL that are currently planned. This includes operations that provide for continued support of DOE's four primary missions, but would not include an increase in the existing pit manufacturing capacity (beyond the current capacity of 14 pits per year) nor expansion of the low-level waste disposal facility at Technical Area–54 (the remaining space in the existing Area G footprint would be used, but some low-level waste would be shipped off-site for disposal). This alternative includes the maintenance of existing capabilities, continued support/infrastructure activities, and implementation of several facility construction or modification projects throughout LANL that have previous NEPA reviews.

Alternative 2—Expanded Operations (DOE's Preferred Alternative Except for Pit Manufacturing)

The Expanded Operations Alternative would expand operations at LANL, as the need arises, to increase the level of existing operations to the highest reasonably foreseeable levels, and to fully implement the mission elements assigned to LANL. This includes the impacts of the full implementation of pit manufacturing up to a capacity of 50 pits per year under single-shift operations (80 pits per year using multiple shifts). This alternative includes the expansion of the low-level waste disposal site at Technical Area–54, including receipt of off-site wastes. In addition, this alternative includes the continued maintenance of existing and expanded capabilities, continued support/infrastructure activities, and implementation of several facility construction or modification projects at Technical Area–53 (i.e., the Long-Pulse Spallation Source, the 5-Megawatt Target/Blanket Experimental Area, the Dynamic Experiment Laboratory, and the Isotope Production Facility).

Alternative 3—Reduced Operations

The Reduced Operations Alternative reflects the minimum levels of operation at LANL considered necessary to maintain the capabilities to support DOE missions over the near-term (through the year 2007). While the capabilities are maintained under this alternative, this may not constitute full support of the mission elements currently assigned to LANL. This alternative reflects pit manufacturing at a level below the existing capacity (at 6 to 12 pits per year) and reflects shipment of much of the low-level waste generated at LANL for off-site disposal (on-site disposal would be limited to those waste types for which LANL has a unique capability at Area G). This alternative includes the maintenance of existing capabilities, continued support/infrastructure activities, and implementation of several facility construction or modification projects throughout LANL that have previous NEPA reviews; some of the projects previously reviewed under NEPA would be reduced in scope or eliminated (e.g., the Low-Energy Demonstration Accelerator would only be operated at the lower end of its energy range).

Alternative 4—''Greener''

The ''Greener'' Alternative reflects increased levels of operation at LANL in support of nonproliferation, basic science, and materials recovery/stabilization mission elements, and reduced levels of operation in support of defense and nuclear weapons mission elements. All LANL capabilities are maintained for the short term under this alternative; however, this may not constitute full support of the nuclear weapons mission elements currently assigned to LANL. This alternative reflects pit manufacturing at a level below the existing capacity (at 6 to 12 pits per year) and reflects shipment of much of the low-level waste generated at LANL for off-site disposal (on-site disposal would be limited to those waste types for which LANL has a unique capability at Area G). This alternative includes the maintenance of existing capabilities, continued support/infrastructure activities, and implementation of several facility construction or modification projects at Technical Area–53 (i.e., the Long-Pulse Spallation Source, the 5-Megawatt Target/Blanket Experimental Area, the Dynamic Experiment Laboratory, and the Isotope Production Facility.) The name and general description for this alternative were provided by interested public stakeholders as a result of the scoping process.

Preferred Alternative

In the draft Site-Wide Environmental Impact Statement, the Preferred Alternative was the Expanded Operations Alternative. In the final Site-Wide Environmental Impact Statement, the Expanded Operations Alternative is the Preferred Alternative with one modification, which involves the level at which pit manufacturing would be implemented at LANL. Under the Expanded Operations Alternative, DOE would expand operations at LANL, as the need arises, to increase the level of existing operations to the highest reasonably foreseeable levels. This expansion of operations would apply broadly to the essential science and technology activities across LANL, and would apply to the level of activity for those operations (e.g., increased throughput or increased numbers of experiments). The Expanded Operations alternative includes expansion to fully implement pit manufacturing up to the capacity of 50 pits per year under single-shift operations (80 pits per year using multiple shifts) assigned to LANL in the Record of Decision for the Stockpile Stewardship and Management Programmatic Environmental Impact Statement.

However, as a result of delays in the implementation of the Capability Maintenance and Improvement Project and recent additional controls and operational constraints applied to work conducted in the Chemistry and Metallurgy Research (CMR) Building, DOE has determined, as a matter of policy, to postpone any decision to expand pit manufacturing beyond a level of a nominal 20 pits per year in the near future (through the year 2007), and to study further methods for implementing the 50 pits per year production capacity. The revised Preferred Alternative reflects implementing pit manufacturing at the 20-pit-per-year level. This postponement does not modify the long-term goal announced in the Record of Decision for the Stockpile Stewardship and Management Programmatic Environmental Impact Statement of 50 pits per year (up to 80 pits per year using multiple shifts).

The Preferred Alternative includes the expansion of the low-level waste disposal site at Technical Area–54. The Preferred Alternative also includes the continued maintenance of existing and expanded capabilities, continued support/infrastructure activities, and implementation of several facility construction or modification projects at Technical Area–53 (i.e., the Long-Pulse Spallation Source, the 5-Megawatt Target/Blanket Experimental Area, the Dynamic Experiment Laboratory, and the Isotope Production Facility).

Environmentally Preferable Alternative

The Council on Environmental Quality, in its ''Forty Most Asked Questions Concerning CEQ's NEPA Regulations'' (46 FR 18026, 2/23/81), with regard to 40 CFR 1505.2, defined the ''environmentally preferable alternative'' as the alternative ''that will promote the national environmental policy as expressed in NEPA's Section 101. Ordinarily, this means the alternative that causes the least damage to the biological and physical environment; it also means the alternative which best protects, preserves, and enhances historic, cultural, and natural resources.''

After considering impacts to each resource area by alternative, DOE has identified Alternative 3, Reduced Operations, as the environmentally preferable alternative. Alternative 3 was identified as having the fewest direct impacts to the physical environment and to worker and public health and safety because all operations would be at the lowest levels. However, the analyses indicate that there would be very little difference in the environmental impacts among the alternatives analyzed. The major discriminators among alternatives are collective worker risks due to radiation exposure, socioeconomic effects due to LANL employment changes, and electrical power demand. Therefore, Reduced Operations would have the fewest impacts and Expanded Operations would have the most.

Environmental Impacts of Alternatives

DOE weighed environmental impacts as one factor in its decision making. DOE analyzed the potential impacts that might occur to land resources; geology, geological conditions, and soils; water resources, air quality; ecological and biological resources, human health, environmental justice, cultural resources; and socioeconomic, infrastructure, and waste management for the four alternatives. DOE considered the impacts that might occur from use of special nuclear materials, facility accidents, and the transportation of radioactive and other materials associated with LANL operations. DOE considered the impacts of projects and activities associated with each alternative, the irreversible or irretrievable commitments of resources, and the relationship between short-term uses of the environment and the maintenance and enhancement of long-term productivity.

The highest resource impacts under any of the alternatives will be to the electrical power infrastructure. Peak electrical demand under the Reduced Operations Alternative exceeds supply during the winter months and may result in periodic brownouts. Peak electrical demand under the No Action, Expanded Operations, and Greener Alternatives exceeds the power supply in both winter and summer, when this may result in periodic brownouts. (Power supply to the Los Alamos area has been a concern for a number of years, and DOE continues to work with other users in the area and power suppliers to increase supply and reduce use.)

Nonradioactive hazardous air pollutants would not be expected to degrade air quality or affect human health under any of the alternatives. The differences in activities among the alternatives do not result in large differences in chemical usage. The activities at LANL are such that large amounts of chemicals are not typically used in any industrial process at LANL (compared to what may be used in commercial manufacturing facilities); but research and development activities involving many users dispersed throughout the site are the norm. Air emissions are, therefore, not expected to change by a magnitude that would, for example, trigger more stringent regulatory requirements or warrant continuous monitoring. Radioactive air emissions change slightly, but are within a narrow range due to the controls placed on these types of emissions and the need to assure compliance with regulatory standards. The collective population radiation doses from these emissions range from about 11 person-rem per year to 33 person-rem per year across the alternatives, and the radiation dose to the maximally exposed individual ranges from 1.9 millirem per year to 5.4 millirem per year across the alternatives. These doses were considered in the human health impact analysis.

The total radiological doses from normal operations over the next 10 years to the public under any of the alternatives are relatively small and are not expected to result in any excess latent cancer fatalities (LCFs) to members of the public. Additionally, exposure to chemicals due to LANL operations under any of the alternatives is not expected to result in significant effects to either workers or the public. Exposure pathways associated with the traditional practices of communities in LANL area (special pathways) would not be expected to result in human health effects under any of the alternatives. The annual collective radiation dose to workers at LANL ranges from 170 person-rem per year to 833 person-rem per year across the alternatives. These dose levels would be expected to result in from 0.07 to 0.33 excess LCFs per year of operation, respectively, among the exposed workforce. These impacts, in terms of excess LCFs per year of operation, reflect the numbers of excess fatal cancers estimated to occur among the exposed members of the work force over their lifetimes per year of LANL operations. These impacts form an upper bound, and the actual consequences could be less, but probably would not be worse.

Worker exposures to physical safety hazards are expected to result in a range of 417 (Reduced Operations) to 507 (Expanded Operations) reportable cases each year; typically, such cases would result in minor or short-term effects to workers, but some of these incidents could result in long-term health effects or even death.

LANL employment (including the University of California employees and those of the two subcontractors with the largest employment among LANL subcontractors) ranges from 9,347 (Reduced Operations) to 11,351 (Expanded Operations) full-time equivalents across the alternatives, as compared to 9,375 LANL full-time equivalents in 1996. These changes in employment would result in changes in regional population, employment, personal income, and other socioeconomic measures. Under any of the alternatives, these secondary effects would change existing conditions in the region by less than 5 percent.

Water demand for LANL ranges from 602 million gallons (2,279 million liters) per year to 759 million gallons (2,873 million liters) per year across the alternatives; the total water demand (including LANL and the residences and other businesses and agencies in the area) is within the existing DOE Rights to Water, and would result in average drops of 10 to 15 feet (3.1 to 4.6 meters) in the water levels in DOE well fields over the next 10 years. Usage, therefore, will remain within a fairly tight range among the alternatives. The related aspect of wastewater discharges is also within a narrow range for that reason. Outfall flows range from 218 to 278 million gallons (825 to 1,052 million liters) per year across the alternatives, and these flows are not expected to result in substantial changes to existing surface or groundwater quantities. Outfall flows are not expected to result in substantial surface contaminant transport under any of the alternatives. However, since mechanisms for recharge to groundwater are highly

uncertain, it is possible that discharges under any of the alternatives could result in contaminant transport in groundwater and off the site, particularly beneath Los Alamos Canyon and Sandia Canyon, which have increased outfall flows. The outfall flows associated with the Expanded Operations and Greener Alternatives reflect the largest potential for such contaminant transport, and the flows associated with the Reduced Operations Alternative have the least potential for such transport.

There is little difference in the impacts to geology, geological conditions, and soils across the alternatives. Wastewater discharge volumes with associated contaminants do change across the alternatives, but not to a degree noticeable in terms of impacts (such as causing soil erosion, for example). Under all of the alternatives, small quantities (as compared to existing conditions) of contaminants would be deposited in soils due to continued LANL operations, and the Environmental Restoration Project would continue to remove existing contaminants at sites to be remediated. Geological mapping and fault trenching studies at LANL are currently under way or recently completed to better define the rates of fault movements, specifically of the Pajarito Fault, and the location and possible southern termination of the Rendija Canyon Fault. Ongoing and recently completed seismic hazard studies indicate that slip rates (recurrence intervals for earthquakes) are within the parameters assumed in the 1995 seismic hazards study at LANL.

There is little difference in the impacts to land resources between the No Action, Reduced Operations, and the Greener Alternatives. Differences among the alternatives are primarily associated with operations in existing facilities, and very little new development is planned. Therefore, these impacts are essentially the same as currently experienced. The Expanded Operations Alternative has very similar land resources impacts to those of the other three alternatives, with the principal differences being attributable to the visual impacts of lighting along the proposed transportation corridor between the Plutonium Facility and the Chemistry and Metallurgy Research Building (this corridor will not be built under the Preferred Alternative) and the noise and vibration associated with increased frequency of high explosives testing (as compared to the other three alternatives).

No significant adverse impact to ecological and biological resources is projected under any of the alternatives. The separate analyses of impacts to air and water resources constitute some of the source information for analysis of impacts in this area; as can be seen from the above discussion, the variation across the alternatives is not of a sufficient magnitude to cause large differences in effects. The impacts of the Expanded Operations Alternative differ from those of the other alternatives in that there is some projected loss of habitat; however, this habitat loss is small (due to limited new construction) compared to available similar habitat in the immediate vicinity.

DOE expects no environmental justice impacts from the operation of LANL under any of the alternatives, i.e., projected impacts are not disproportionately high for minority or low-income populations in the area. DOE also analyzed human health impacts from exposure through special pathways, including ingestion of game animals, fish, native vegetation, surface waters, sediments, and local produce; absorption of contaminants in sediments through the skin; and inhalation of plant materials. The special pathways have the potential to be important to the environmental justice analysis because some of these pathways may be more important or viable for the traditional or cultural practices of minority populations in the area. However, human health impacts associated with these special pathways also will not present disproportionately high and adverse impacts to minority or low-income populations.

Under all of the Site-Wide Environmental Impact Statement alternatives, there is a negligible to low potential for impacts to archaeological and historic resources due to shrapnel and vibration caused by explosives testing and contamination from emissions. Potential impacts will vary in intensity in accordance with the frequency of explosives tests and the operational levels that generate emissions (e.g., Reduced Operations would reflect the lowest potential, and Expanded Operations would reflect the highest potential). Recent assessments of prehistoric resources indicate a low potential compared to the effects of natural conditions (wind, rain, etc.). In addition to these potential impacts, the Expanded Operations Alternative includes the expansion of the low-level waste disposal site at Technical Area-54, which contains several National Register of Historic Places sites; if any significant cultural resources will be adversely effected by the undertaking, DOE will consult with the New Mexico State Historic Preservation Office and other consulting parties to resolve the adverse effect.

The potential impacts to specific traditional cultural properties would depend on their number, characteristics, and location. Such resources could be adversely affected by changes in water quality and quantity, erosion, shrapnel from explosives testing, noise and vibration from explosives testing, and contamination from ongoing operations. Such impacts would vary in intensity in accordance with the frequency of explosive tests and the operational levels that generate emissions. The current practice of consultation would continue to be used to provide opportunities to avoid or minimize adverse impacts to any traditional cultural properties located at LANL.

LANL chemical waste generation ranges from 3,173 to 3,582 tons (2,878,000 to 3,249,300 kilograms) per year across the alternatives. LANL low-level waste generation, including low-level mixed waste, ranges from 338,210 to 456,530 cubic feet (9,581 to 12,837 cubic meters) per year across the alternatives. LANL transuranic (TRU) waste generation, including mixed TRU waste, ranges from 6,710 to 19,270 cubic feet (190 to 547 cubic meters) across the alternatives. Disposal of these wastes at on-site or off-site locations is projected to constitute a relatively small portion of the existing capacity for disposal sites; disposal of all LANL low-level waste on the site would require expansion of the low-level waste disposal capacity beyond the existing footprint of Technical Area-54 Area G under all alternatives (although this is only included in the analysis of the Expanded Operations Alternative).

Radioactively contaminated space in LANL facilities would increase by about 63,000 square feet (5,853 square meters) under the No Action, Reduced Operations, and Greener Alternatives (due primarily to actions previously reviewed under NEPA but not fully implemented at the time the existing contaminated space estimate was established [May 1996]). The Expanded Operations Alternative would increase contaminated space in LANL facilities by about 73,000 square feet (6,782 square meters). The creation of new contaminated space causes a clean-up burden in the future, including the generation of radioactive waste for treatment and disposal; the actual impacts of such clean-up actions are highly uncertain because they are dependent on the actual characteristics of the facilities, the technologies

available, and the applicable requirements at the time of the cleanup.

Incident-free transportation associated with LANL activities over the next 10 years would be conservatively expected to cause radiation doses that would result in about one excess latent cancer fatality to a member of the public and two excess latent cancer fatalities to members of LANL workforce over their lifetimes under each of the Site-Wide Environmental Impact Statement alternatives. There is little variation in impacts because effects are small, and the increased transport of radioactive materials is not enough to make a significant change in those small effects.

Transportation accidents without an associated cargo release over the next 10 years of LANL operations are conservatively projected to result in from 33 to 76 injuries and 3 to 8 fatalities (including workers and the public) across the alternatives. The bounding off-site and on-site transportation accidents over the next 10 years involving a release of cargo would not be expected to result in any injuries or fatalities to members of the public for any of the alternatives. Accidents were analyzed by type of material, and the maximum quantities were selected for analysis. These parameters do not change across the alternatives. Total risk also does not change appreciably across the alternatives because the frequency of shipments does not vary enough to substantially influence the result.

The accident analyses (other than transportation and worker physical safety incidents/accidents) considered a variety of initiators (including natural and manmade phenomena), the range of activities at LANL, and the range of radioactive and other hazardous materials at LANL. Transportation accidents and the relatively frequent worker physical safety incidents/accidents were considered separately. The accidents discussed below are those that bound the accident risks at LANL (other than transportation and physical safety incidents/accidents).

The operational accident analysis included four scenarios that would result in multiple source releases of hazardous materials: three due to a site-wide earthquake and one due to a wildfire, resulting in three different degrees of consequences and one wildfire scenario. These four scenarios dominate the radiological risk due to accidents at LANL because they involve radiological releases at multiple facilities and are considered credible (that is, they would be expected to occur more often than once in a million years), with the wildfire considered likely. Another earthquake-initiated accident, labeled RAD–12, is facility-specific (to Building Technical Area–16–411) and is dominated by the site-wide earthquake accidents due to its very low frequency (about 1.5×10^{-6} per year). It is noteworthy that the consequences of such earthquakes are dependent on the frequency of the earthquake event, the facility design, and the amount of material that could be released due to the earthquake; such features do not change across the alternatives, so the impacts of these accidents are the same for all four alternatives. The risks were estimated conservatively in terms of both the frequency of the events and the consequences of such events. (In particular, it is noteworthy that the analysis assumes that any building that would sustain structural or systems damage in an earthquake scenario does so in a manner that creates a path for release of material outside of the building.) The total risk of an accident is the product of the accident frequency and the consequences to the total population within 50 miles (80 kilometers). This risk ranges from 0.046 (SITE–01, i.e., seismic event) and 0.034 (SITE–04, i.e., wildfire event) excess latent cancer fatalities per year of operation, to extremely small numbers for most of the radiological accidents. The risk for release of chemicals, such as chlorine, is calculated similarly as the product of the frequency and numbers of people exposed to greater than the selected guideline concentration, Emergency Response Planning Guideline (ERPG)–2. (ERPG–2 is the maximum airborne concentration below which it is believed that nearly all individuals could be exposed for up to 1 hour without irreversible or serious health effects or symptoms that could impair their abilities to take protective action). Under all alternatives, the risks for chemical releases range from 6.4 (SITE–01) people exposed per year of operation to extremely small numbers for some chemical releases. In general, such earthquakes would be expected to cause fatalities due to falling structures or equipment; this also would be true for LANL facilities. Thus, worker fatalities due to the direct effects of the earthquakes would be expected. Worker injuries or fatalities due to the release of radioactive or other hazardous materials would be expected to be small or modest increments to the injuries and fatalities due to the direct effects of the earthquakes.

Comments on the Final Site-Wide Environmental Impact Statement

DOE distributed approximately 500 copies of the final Site-Wide Environmental Impact Statement to Congressional members and committees, the State of New Mexico, various American Indian Tribal governments and organizations, local governments, other Federal agencies, and the general public. Comments were received from the U.S. Department of the Interior (DOI) and Chestnut Law Offices, representing San Ildefonso Pueblo. The U.S. Environmental Protection Agency (EPA) did not provide comments on the final Site-Wide Environmental Impact Statement stating in the **Federal Register** (64 FR 18901) that ''Review of the FEIS was not deemed necessary. No formal comment letter was sent to the preparing agency.''

DOI identified two areas of concern with the final Site-Wide Environmental Impact Statement. The first concern is that the Site-Wide Environmental Impact Statement does not adequately assess the direct, indirect, and cumulative effects of programs and activities associated with the continued operation of LANL either on or off the site. DOI maintains that the existing impacts from the environmental baseline should be quantified and not restricted to the evaluation of only two site-specific projects. DOI further states that while programs and activities that are proposed or under way may help to reduce adverse impacts, these programs and activities were not adequately evaluated in the Site-Wide Environmental Impact Statement.

Chapter 4 (Volume I) of the Site-Wide Environmental Impact Statement presents the environmental setting and existing conditions associated with LANL operations. The information presented in Chapter 4 forms a baseline for use in evaluating the environmental impacts of the four Site-Wide alternatives. For all alternatives, assessment of significance was accomplished both quantitatively where data and analysis were available, and qualitatively. The assessment of the potential effects, both positive and adverse, of the Expanded Operations, Reduced Operations, Greener, and No Action Alternatives was based on the degree of change from baseline conditions and was presented in Chapter 5 (Volume I) of the Site-Wide Environmental Impact Statement. DOE integrated many programs and activities, including the Natural Resources Management Plan (see Mitigation Measures), that would reduce adverse impacts in its analysis of environmental impacts.

DOI's second concern is threatened and endangered species protection at LANL. DOI does not concur with DOE's determination that implementation of

the Expanded Operation Alternative may affect but would not likely adversely affect four listed species at LANL. The DOI believes that measures necessary to reduce impacts to threatened and endangered species that are identified through the consultation process should be incorporated into the Site-Wide Environmental Impact Statement as required measures.

On April 29, 1999, subsequent to DOI's submittal of comments on the final Site-Wide Environmental Impact Statement, DOE initiated formal section 7 consultation between the DOI and DOE for DOE's proposal to expand existing operations at LANL. DOE sees this consultation process as an opportunity to further the stewardship of listed species provided by the recently implemented Threatened and Endangered Species Management Plan for LANL. Based on communications with the U.S. Fish and Wildlife Service, DOE anticipates that the Service will issue a Biological Opinion in the near future. Upon its receipt DOE will continue to coordinate with the Service the integration into the operation of LANL of any needed measures recommended in the Biological Opinion that will contribute to the welfare of listed species. DOE believes that this process should proceed on a separate, parallel track from that of the Site-Wide Environmental Impact Statement process.

The Chestnut Law Offices, representing San Ildefonso Pueblo, identified three issues of concern with the final Site-Wide Environmental Impact Statement. First, Chestnut Law Offices states that the environmental justice analysis is flawed because it divides San Ildefonso Pueblo into several different segments thereby not indicating any adverse impacts to the Pueblo. Chestnut Law Offices states that most environmental risk is at the perimeter of the laboratory directly affecting San Ildefonso Pueblo, and that the Site-Wide Environmental Impact Statement determines there is no greater impact on the Pueblo than on other disadvantaged communities. Chestnut Law Offices states that this approach in environmental justice analysis does not comply with Federal law and is inadequate.

DOE prepared the environmental justice analysis in accordance with guidance from the Council on Environmental Quality and Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations. The segments referred to in the comments were used to identify and highlight the locations of low-income and/or minority populations for the impact analyses. Using this tool, the San Ildefonso Pueblo was identified as housing minority and/or low-income populations for consideration in the Environmental Justice analysis. DOE has not identified any disproportionately high and adverse human health or environmental impacts on minority or low-income populations under any of the alternatives analyzed in the Site-Wide Environmental Impact Statement. To the extent that there is a potential for adverse impacts, DOE analysis has shown that most of the impact would affect all populations equally. In the cases of air emissions and on-site transportation, the residential populations nearest to LANL, which have a relatively low percentage of minority and low-income populations, would be affected to a greater extent than other populations within the 50-mile radius.

The impacts addressed in the environmental justice analysis in the Site-Wide Environmental Impact Statement include land resources, geology, soils, water resources, ecological resources, air quality, human health, waste management, socioeconomic, and transportation. This analysis includes the projected impacts due to contamination in the area from past LANL activities. As part of its human health impact analysis, DOE looked at potential exposure through special pathways, including ingestion of game animals, fish, native vegetation, surface waters, sediments, and local produce; absorption of contaminants in sediments through the skin; and inhalation of plant materials. For LANL, the special pathways influence the environmental justice analysis because some of these pathways are more important or viable to the traditional or cultural practices of minority populations in the area. Even considering these special pathways, DOE did not find disproportionately high and adverse health impacts to minority or low-income populations.

The Chestnut Law Offices' second concern is groundwater contamination due to LANL activities. The Chestnut Law Offices states that the final Site-Wide Environmental Impact Statement does not address the recent groundwater contamination but downplays it, and that this section of the Site-Wide Environmental Impact Statement should be re-evaluated.

DOE believes that drinking water quality in the Los Alamos area continues to meet all Federal and New Mexico chemical and radiological standards. In February 1999 DOE discovered, as part of implementing the Hydrogeologic Workplan (the multi-year effort to characterize the flow and extent of contamination of the main aquifer), high explosives contamination while drilling a well (R–25) in the western part of the Laboratory. Based on current knowledge, DOE believes it will take at least 50 years for these contaminants to reach the drinking water production wells approximately three and a half miles to the East of R–25. DOE has and will continue to sample the drinking water to ensure it is safe. Groundwater monitoring data from implementation of the Hydrogeologic Workplan is still under review and evaluation. As new information becomes available, the LANL Environmental Surveillance and Compliance Program will be revised to incorporate the additional data.

Chestnut Law Offices' third concern is that the Site-Wide Environmental Impact Statement does not consider the shutdown of the low-level waste disposal area, Area G, a reasonable alternative. The commentor states the alternatives in the Site-Wide Environmental Impact Statement are based on the assumption that LANL will be a regional low-level waste disposal site. The commentor believes the Site-Wide Environmental Impact Statement does not analyze the possibility that another site may be chosen as the regional low-level waste disposal site, thereby providing the opportunity for the waste to be removed from Area G. The commentor states this is a serious flaw since it does not anticipate a clearly reasonable alternative in light of existing planning documents.

The shutdown of the low-level waste disposal area, Area G, was not considered a reasonable alternative for analysis in the Site-Wide Environmental Impact Statement because Area G has a unique capability for the disposal of certain wastes generated by LANL. Such wastes include classified wastes and other wastes that would be difficult to transport to other sites. The Expanded Operations Alternative was the only alternative that analyzed the impacts of LANL being chosen as a regional low-level waste disposal site.

Under the Waste Management Programmatic Environmental Impact Statement, which evaluated locations for treatment and disposal of low-level radioactive waste and mixed low-level radioactive waste, these wastes would be treated on the site at LANL and disposed of at a regional site to be determined after consultation with stakeholders. One of the potential regional disposal sites for low-level waste is LANL. Therefore, in the Expanded Operations Alternative, the Site-Wide Environmental Impact

Statement addressed treatment and disposal of LANL-generated low-level waste, as well as disposal of off-site generated low-level waste. The Expanded Operations Alternative analyzes the environmental impacts and the footprint needed at Area G to allow for the implementation of this alternative.

If LANL is not selected as a regional disposal site, some low-level waste could be sent off-site for disposal, as reflected in the No Action, Reduced, and Greener Alternatives. The current low-level waste capacity available at Area G is limited. If LANL were selected as a regional disposal site, the expansion of Area G would occur at the fastest rate. If LANL continues to dispose of its own wastes, the expansion would still occur, but at a slower rate. Currently LANL generates some low-level waste that, primarily because of its size and shape, does not meet the acceptance criteria for disposal at other DOE sites, such as the Nevada Test Site. However, the decision as to the ultimate treatment and disposal of low-level waste and mixed low-level waste will be made in a Record of Decision for the Waste Management Programmatic Environmental Impact Statement.

It should also be noted that the EPA, State of New Mexico, and representatives of the Pueblos (four Accord Pueblos) near LANL were invited to review and comment on the Classified Supplement for the Draft Site-Wide Environmental Impact Statement (EPA declined the invitation). Comments from that review were received shortly after the final Site-Wide Environmental Impact Statement was issued. This final Classified Supplement and all comments provided were considered in reaching the decisions in this Record of Decision.

Other Decision Factors

As noted in the final Site-Wide Environmental Impact Statement, LANL houses unique facilities and expertise that have been developed over the past 50 years. These have served several National Security and other national needs in the past. It is expected that, for the foreseeable future, the U.S. will maintain a nuclear weapons stockpile and require ''cutting edge'' science and manufacturing capabilities to address issues of national importance for the maintenance of that stockpile and for other purposes, including assuring the safety and reliability of that stockpile. The unique facilities and expertise at LANL are needed to assist in finding solutions to these issues. As noted in the final Site-Wide Environmental Impact Statement, LANL's role in supporting DOE's missions has expanded as the DOE nuclear weapons complex has been downsized over the last decade. Additionally, it is expected that there will be continued emphasis on applying the unique capabilities at LANL to support DOE's basic science mission and to apply technologies developed in DOE laboratories to improve the U.S. technological position and competitiveness. These factors were also considered (in addition to the human health and environmental impact information discussed above) in reaching this Record of Decision.

Decisions

DOE has decided to continue to operate LANL for the foreseeable future and to expand the scope and level of its operations at LANL. DOE is implementing the Preferred Alternative, that is Alternative 2, Expanded Operations, but with pit production limited to a capacity that can be accommodated within the limited space currently set aside for this activity in the plutonium facility (estimated at nominally 20 pits per year). This alternative reflects a broad expansion of science and technology research, and applications of this research to a variety of issues of national importance; this alternative also includes the continued maintenance of existing and expanded capabilities, and continued support/infrastructure activities. The following discussion describes the major actions to be taken, with an emphasis on those areas that have had the most extensive programmatic or public interest.

It should be noted that the decisions in this Record of Decision will be reflected in DOE budget requests and management practices. However, the actual implementation of these decisions is dependent on DOE funding levels and allocations of DOE budget across competing priorities.

Pit Production and Other Plutonium Operations

DOE remains committed to meeting pit production requirements to support the enduring nuclear weapons stockpile. As part of its implementation of the Preferred Alternative, DOE will establish, over time, a pit production capability at LANL with a capacity of nominally 20 pits per year; this decision reflects an intent to establish a pit production capability at LANL within the existing floor space set aside for this operation (about 11,400 ft^2 [1060 m^2]). This will eliminate the need to transfer several Technical Area-55 plutonium operations (to ''make room'' for pit production activities in Technical Area-55) either to the CMR Building, or to newly constructed nuclear space, as contemplated in the Site-Wide Environmental Impact Statement. Thus, the Preferred Alternative for Pit Production can be implemented without an expansion of the plutonium operations floor space at LANL. The exact production capacity of this floor space is not known with certainty (pending process optimization studies), but has been characterized as nominally 20 pits per year. This level provides adequate capacity to meet the near-term pit production requirements to maintain the enduring stockpile (about 20 pits per year), as expressed in the Record of Decision for the Stockpile Stewardship and Management Programmatic Environmental Impact Statement. While this does not change the 50-pit-per-year mission assignment made in the Stockpile Stewardship and Management Programmatic Environmental Impact Statement Record of Decision, it does suspend full implementation of that decision until an undetermined time in the future.

Implementation of the pit production mission at LANL will be phased. The first pit for delivery to the U.S. nuclear weapons stockpile will be made in 2001. It is expected that, through equipment installation in existing facilities, the limited production capacity of nominally 20 pits per year will be achieved in 2007. At these levels of production, there is no need to move plutonium operations from the Plutonium Facility, Technical Area-55, to the CMR Building, and there is no need to construct a corridor between Technical Area-55 and Technical Area-3. Thus, DOE has decided not to move these operations or construct the road at this time.

Chemistry and Metallurgy Research Building—As the Site-Wide Environmental Impact Statement was being prepared, DOE was working on two sets of information associated with CMR operations: (1) Establishment of a modern authorization basis for these operations (referred to as the CMR Basis for Interim Operations, or BIO); and, (2) studies of the seismicity of the Technical Area-55 and Technical Area-3 areas. Both sets of information are included in the impact analyses in the Site-Wide Environmental Impact Statement (where details were not known, the analyses in the Site-Wide Environmental Impact Statement were, in fact, bounding of the details determined through these efforts). Through this effort, it became apparent that the subprojects included in the CMR Upgrades Construction Project should be reprioritized and oriented to provide for the continued safe operation

of the CMR Building through about 2010. The single most substantive change in this project was to replace the proposed seismic upgrades with a combination of material containerization, a reduction in the amount of Material at Risk (or MAR, which is the amount of in-process material that would be subject to release if there were a catastrophic accident), and a substantial reduction in the amount of combustible material allowed in the CMR Building. With these controls in place, the worst-case plausible accidents involving the CMR Building would have minimal effects on public health (effects would be within applicable guidelines intended to protect human health).

The 1996 Stockpile Stewardship and Management Programmatic Environmental Impact Statement analyzed the environmental impacts of locating a pit manufacturing capability at either LANL or the Savannah River Site. In December 1996, DOE issued a Record of Decision reestablishing the pit manufacturing mission at LANL. In August 1998, the U.S. District Court for the District of Columbia, while ruling in DOE's favor in litigation challenging the adequacy of the Stockpile Stewardship and Management Programmatic Environmental Impact Statement, directed DOE to take another look at certain new studies regarding seismic hazards at LANL, and to provide a factual report and technical analysis of the plausibility of a building-wide fire at LANL's plutonium facility (PF–4 at Technical Area-55). The Court directed that DOE prepare a Supplement Analysis, pursuant to DOE's NEPA regulations (10 CFR 1021.314(c)), to help determine whether a supplemental Stockpile Stewardship and Management Programmatic Environmental Impact Statement should be issued to address these studies. These seismic studies have been released to the public and are examined in more detail in the draft Supplement Analysis released for public review and comment on July 1, 1999. On September 2, 1999, DOE issued a final Supplement Analysis and determined that none of the issues analyzed in the Supplement Analysis represents substantial changes to the actions considered in the Stockpile Stewardship and Management Programmatic Environmental Impact Statement, nor do those issues provide significant new information relevant to the environmental concerns discussed in that Programmatic Environmental Impact Statement. Therefore no supplement to that Programmatic Environmental Statement is required.

Secondaries

While LANL was considered as a production site for secondaries (components of a nuclear weapon that contains elements needed to initiate the fusion reaction in a thermonuclear reaction) in the Stockpile Stewardship and Management Programmatic Environmental Impact Statement, this mission was assigned to the Y–12 plant at Oak Ridge, Tennessee. However, DOE expects LANL to maintain an understanding of secondary production technologies, as well as the characteristics of War Reserve secondaries in the stockpile.

Tritium

LANL will continue to support both research and development and production activities involving tritium (neutron tube target loading for nuclear weapons stockpile components). These will include development of new reservoirs and reservoir fill operations, surveillance and performance testing on tritium components, tritium recovery and purification technologies, and production operations associated with neutron generator production for the stockpile. The expansion of these activities results in: (1) tritium throughputs on an annual basis increase by a factor of up to 2.5; and (2) the on-site inventory of tritium increases by a factor of 10.

High Explosives Processing and Testing

Operations in this area will increase such that annual explosives throughput will increase to about 82,700 pounds, and the annual mock explosives throughput will increase to about 2,910. These quantities include continued research, development, and fabrication of high-power detonators, including support of up to 40 major product lines per year in support of the Stockpile Stewardship and Management program. In addition, the number of hydrodynamic tests will increase to about 100 per year; the annual amount of depleted uranium will increase to about 6,900 pounds.

Accelerator Operations

DOE will implement several facility construction or modification projects at Technical Area–53: the Long-Pulse Spallation Source, the 5-Megawatt Target/Blanket Experimental Area, the Dynamic Experiment Laboratory, and the Isotope Production Facility.

Expansion of Technical Area–54/Area G Low-Level Waste Disposal Area

As part of the implementation of the Preferred Alternative, DOE will continue the on-site disposal of LANL generated low-level waste using the existing footprint at Area G low-level waste disposal area and will expand disposal capacity into Zones 4 and 6 at Area G (this expansion would cover up to 72 acres [29 hectares]). DOE will develop both Zones 4 and 6 in a step-wise fashion, expanding these areas as demand requires.

Mitigation Measures

The Site-Wide Environmental Impact Statement included a discussion of existing programs and plans and controls built into the operations at LANL, including operating within applicable regulations, DOE Orders, contractual requirements and approved policies and procedures. The following discussion outlines the mitigation measures that DOE will undertake to reduce the impacts of continuing to operate LANL at the levels outlined in this Record of Decision.

Electrical Power

The Site-Wide Environmental Impact Statement recognizes the need for an increase in electrical power supply and reliability under the Preferred Alternative as well as other alternatives analyzed. The impact analyses emphasize the severity of these issues and consequences if they are not resolved, e.g., brownouts. Solutions to power supply issues are essential to mitigate the effects of power demand under all alternatives. An operating plan for improved load monitoring, equipment upgrades, and optimization of some available power sources was discussed. Additional measures under consideration by DOE include: (1) Limiting operation of large users of electricity to periods of low demand, and contractual mechanisms to bring additional electric power to the region and some form of on-site cogeneration as an incremental resource. DOE and other users of electrical power in the area have been working with suppliers to resolve these foreseeable power and reliability issues. One solution under consideration for improved reliability is the provision of a third power line from the existing Public Service Company of New Mexico Norton substation to the existing LANL substations. This solution could include a new LANL substation. In any case, DOE is committed to manage electric power demands to prevent periods of brownouts by adjusting to the limitations of available power until a solution for a long-term increase in power is in place. DOE is also committed to approve and begin implementing a Utility Procurement Plan by November 1999.

Water Supply and Demand

Prior to September 8, 1998, DOE supplied all potable water for LANL, Bandelier National Monument, and Los Alamos County, including the towns of Los Alamos and White Rock. This water was derived from DOE's groundwater right to withdraw 5,541.3 acre-feet or about 1,806 million gallons of water per year from the main aquifer. On this date, DOE leased these rights to the County of Los Alamos. This lease also included DOE's contracted annual right obtained in 1976 to 1,200 acre-feet of San Juan-Chama Transmountain Diversion Project water. This lease agreement is effective for three years, at which point DOE expects to convey 70 percent of the water right to the County of Los Alamos and lease the remaining 30 percent to them. The San Juan-Chama rights will be transferred in their entirety to the County. On several occasions since 1986 through 1998, LANL operations have exceeded 30 percent of the total DOE annual water right. The agreement between DOE and the County does not preclude provision of additional waters in excess of the 30 percent agreement, if available. However, the agreement also states that should the County be unable to provide water to its customers, the County shall be entitled to reduce water services to DOE in an amount equal to the water rights deficit.

DOE is committed to managing water demand to prevent exceedances of DOE water rights. LANL will develop and implement by June 2000 procedures to assure that all new projects will implement water conservation design and techniques. LANL will also develop water conservation goals and begin implementing them by October 2001.

Waste Management

DOE is committed to the proper management and minimization of all wastes. LANL will integrate waste minimization into Integrated Safety Management by October 2000. By June 2000 LANL will develop and implement procedures to assure that all new projects will implement waste minimization for TRU and mixed TRU waste streams. In addition LANL will reduce by December 2005 waste from routine operations by 80% using 1993 as a baseline for hazardous, low-level radioactive, and mixed low-level radioactive wastes. Also, LANL will recycle 40% of sanitary waste from routine operations by December 2005.

LANL will also purchase EPA-designated items with recycled content according to the conditions of Executive Order 12873. A LANL Implementing Requirement for waste minimization activities is currently in draft.

Wildfire

The final Site-Wide Environmental Impact Statement included an accident scenario from a wildfire that was initiated on land adjacent to LANL and spread to the LANL site. The analysis concluded that a major fire is not only credible but also likely. The current and future risks of wildfires at LANL can only be mitigated through purposeful environmental intervention and active land management. LANL will develop by December 1999 a preliminary program plan for comprehensive wildfire mitigation, including construction and maintenance of strategic fire roads and fire breaks, creation of defensible space surrounding key facilities, and active forest management to reduce fuel loadings. LANL will prepare and begin implementation of a long-term strategy for wildfire mitigation actions before the start of the 2000 fire season.

Cultural Resources

DOE is committed through ongoing consultation processes with affected Native American tribes to ensure protection of cultural resources and sites of cultural, historic, or religious importance to the tribes. With input from the tribes participating in the Los Alamos Pueblos Project (LAPP), DOE will develop a strategy to increase the understanding of traditional cultural properties at LANL, to determine strategies for the long-term management of identified traditional cultural properties and sacred sites and to determine appropriate mitigation measures for specific traditional cultural properties. The strategies could include the development of access agreements to traditional cultural properties and sacred sites. In the past, attempts to identify specific traditional cultural properties at LANL have encountered concerns from traditional groups because of the potential for increased risk to these resources if they are individually identified; thus, DOE will explore the potential benefits and risks of such a study, and options to such a study, with the LAPP tribes. This approach is intended to ensure appropriate respect and consideration regarding cultural concerns, while attempting to provide the information and ability to mitigate or avoid potential impacts to traditional cultural properties (which are currently not specifically known, to a large extent). The goal of the consultation and coordination would be an agreement with the relevant Native American tribes for the management of these resources.

DOE will complete an Integrated Cultural Resource Management Plan (ICRMP) by April 2002. The ICRMP will detail how LANL will manage, preserve, and protect cultural resources within the scope of Federal and State laws, regulations, Executive Orders, standards, as well as to the extent practicable, follow Tribal criteria and guidelines. The ICRMP will provide a basis for a unified approach to address the multiplicity of cultural resources located on LANL lands. The plan will serve to streamline many of the administrative steps required by Federal and State laws and regulations. The scope of activities for the ICRMP would include development of the plan, completion of surveys of archeological resources and historic buildings, and implementation of long-term monitoring.

Natural Resources

DOE will develop and begin implementation of an integrated Natural Resources Management Plan (NRMP) by October 2002, which will integrate the principles of ecosystem management into the critical missions of LANL to conserve ecosystem processes and biodiversity. The NRMP will support DOE's policy to manage all of its land and facilities as valuable national resources. This stewardship will integrate LANL's mission and operations with its biological, water, soil, and air resources in a comprehensive plan that will guide land and facility use decisions. The plan will consider the site's larger regional context and be developed in consultation with regional land managing agencies and owners (particularly Bandelier National Monument, Santa Fe National Forest, and Native American Pueblos), State agencies, and the U.S. Fish and Wildlife Service. This cooperative effort will ensure a consistent, integrated, and structured approach to regional natural resource management.

The NRMP is viewed as a sequenced planning document that will include specific tasks and studies as part of the process of development. It will include new initiatives as well as integrating ongoing programs, plans, and activities at LANL, some of which may be reassessed to ensure their contribution to the goals and objectives of integrated ecosystem management.

Mitigation Action Plan

In accordance with 10 CFR 1021.331, DOE is preparing a Mitigation Action Plan that will identify specific actions

needed to implement these mitigation measures and provide schedules for completion. These mitigation measures represent all practicable means to avoid or minimize harm from the alternative selected.

Conclusion

DOE has considered environmental impacts, stakeholder concerns, and National policy in its decisions regarding the management and use of LANL. The analysis contained in the Site-Wide Environmental Impact Statement is both programmatic and site specific in detail. It is programmatic from the broad multi-use facility management perspective and site specific in the detailed project and program activity analysis. The impacts identified in the Site-Wide Environmental Impact Statement were based on conservative estimates and assumptions. In this regard, the analyses bound the impacts of the alternatives evaluated in the Site-Wide Environmental Impact Statement. The Expanded Operations Alternative was defined to include activities to implement the programmatic decisions made or that may be made as a result of other DOE Environmental Impact Statements (some of which are currently in progress). This Site-Wide Environmental Impact Statement and the analyses it contains can be used to support these future programmatic or project decisions.

In accordance with the provisions of NEPA, its implementing procedures and regulations, and DOE's NEPA regulations, I have considered the information contained within the Site-Wide Environmental Impact Statement, including the classified supplement and public comments received in response to the final Site-Wide Environmental Impact Statement. Being fully apprised of the environmental consequences of the alternatives and other decision factors described above, I have decided to continue and expand the use of LANL and its resources as described. This will enhance DOE's ability to meet its primary National security mission responsibility and create an environment that fosters technological innovation in both the public and private sectors.

Issued at Washington, DC, September 13, 1999.

Thomas F. Gioconda,

Brigadier General, USAF, Acting Assistant Secretary for Defense Programs.

DEPARTMENT OF ENERGY

Withdrawal of Notice of Intent to Prepare an Environmental Impact Statement for the Proposed Minnesota Agri-Power Plant and Associated Facilities

AGENCY: Department of Energy.

ACTION: Notice of withdrawal.

SUMMARY: On October 7, 1998 (63 FR 53885), U.S. Department of Energy (DOE) and the Minnesota Environmental Quality Board [MEQB, a Minnesota State agency] announced its intent to prepare a joint Environmental Impact Statement (EIS) regarding a proposal by the Minnesota Valley Alfalfa Producers (MnVAP) to construct and operate a 75–103 megawatt biomass fueled gasifier and electric generating facility, known as the Minnesota Agri-Power Plant (MAPP), and associated transmission lines and alfalfa processing facilities. After careful review of this proposed biopower gasification project, DOE has determined that it will no longer participate in the cooperative agreement with MnVAP. This determination terminates DOE's financial support for the MAPP project, thus DOE will not provide funding toward the cost of constructing the proposed biomass power plant and the associated alfalfa processing facilities. As a result of DOE's decision not to fund the construction of the power plant and the associated processing facilities, there is no longer a federal requirement to conduct an EIS. Accordingly, DOE is withdrawing its notice of intent to prepare an EIS.

FOR FURTHER INFORMATION CONTACT: For general information on the DOE's NEPA process, please contact: Ms. Carol Borgstrom, Director, Office of NEPA Policy and Assistance, EH–42, U.S. Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585–0119, Phone: 202–586–4600 or leave a message at 1–800–472–2756.

For general information about the NEPA process relating to MnVAP's proposed biopower gasification project, please contract Mr. Tim Howell, Acting NEPA Compliance Officer, U.S. Department of Energy, Golden Field Office, 1617 Cole Blvd., Golden, CO 80401; Telephone: 303–275–4700 or toll-free 1–800–644–6735 extension 4700; Fax: 303–275–4790; E-mail: tim—howell@nrel.gov.

For information regarding the MEQB process please contact: Mr. John Hynes, Permit Compliance Officer, Minnesota Environmental Quality Board, 300 Centennial Building, St. Paul, Minnesota 55155, Phone: 651–296–4095, Fax: 651–296–2871, E-mail: john.hynes@mnplan.state.mn.us.

SUPPLEMENTARY INFORMATION: MnVAP is a farmer-owned cooperative, incorporated in 1994 to increase the value of farm products grown in and near the State of Minnesota. In response to a joint Department of Energy and U.S. Department of Agriculture, Solicitation for Financial Assistance for Biomass Power for Rural Development (DE–PS36–95GO10052), MnVAP submitted a proposal to establish Minnesota Agri-Power as a limited liability corporation, with MnVAP as the majority stock holder, for the purposes of siting, constructing, and operating a 75–103 megawatt power plant fueled with gasified alfalfa stems. DOE selected the MnVAP project as one of several promising efforts to meet the goals of the Energy Policy Act of 1992 to develop and ultimately commercialize biomass energy systems for the purposes of positively affecting global climate change and the revitalization of rural America. Under the terms of the solicitation, MnVAP and DOE would each share the financial burden of taking a biomass gasification technology from the demonstration phase to full commercial production.

The proposed power plant was to partially meet the Minnesota ''Biomass Power Mandate,'' Minnesota State Law, 216B.2424, which requires that:

> A public utility * * * that operates a nuclear-powered electric generating plant within this state must construct and operate, purchase, or contract to construct and operate (1) by December 31, 1998, 50 megawatts of electric energy installed capacity generated by farm-grown closed-loop biomass scheduled to be operational by December 31, 2001; and (2) by December 31, 1998, an additional 75 megawatts of installed capacity so generated scheduled to be operational by December 31, 2002.

The MAPP project, as proposed, was to use an ''integrated gasification combined-cycle'' or IGCC system where the gasifier would process approximately 1,100 tons of alfalfa stems per day (i.e., this would produce approximately 750 million British thermal units per hour). As proposed, the gross output of the power plant could be as high as 103 megawatts. The alfalfa stems were to be rapidly heated in the gasifier to approximately 1,650 degrees Fahrenheit to produce alfalfa gas, cooled to 1,020 degrees Fahrenheit, and then cleaned to meet air quality standards and the requirements for the combustion turbine. The combustion turbine was to be designed to operate efficiently on the low energy biomass fuel produced by the gasifier unit with

a gross electric power output of 66 megawatts (the alfalfa gas was to be supplemented with natural gas as needed). Another 37 megawatts were to be generated from the super-heated, high-pressure steam recovered from the hot combustion gases leaving the combustion turbine. Since the biomass gasification technology proposed for MAPP has yet to be successfully demonstrated at full commercial scale, DOE was proposing to fund $44 million (up to 30%) of the cost of construction of the plant and associated facilities (approximately $140 to $200 million) as part of the Department's mission to support biomass technology commercialization. Other key participants in the MAPP project have included the University of Minnesota, Stone and Webster Engineering Corporation, Kvaerner/Carbona Corporation, Enron Capital and Trade Resources Corporation, the National Renewable Energy Laboratory, and the Oak Ridge National Laboratory. Enron Capital and Trade Resources Corporation, however, terminated its co-development participation in the MAPP project in early 1999.

In the event that MnVAP elects to proceed with the MAPP project without funding from DOE, an analysis of the relative impact of the proposed project on the environment would still be required under applicable Minnesota laws and regulations. In such an event, the MEQB, in accordance with applicable laws and regulations, would be the lead agency for the environmental analysis. While DOE may be asked by the MEQB to assist by providing relevant information to any Minnesota led environmental analysis, DOE would no longer participate as a lead agency or as a co-preparer.

Issued in Golden, Colorado, on September 10, 1999.

Frank M. Stewart,

Manager, Golden Field Office, U.S. Department of Energy.

DEPARTMENT OF ENERGY

Idaho Operations Office; Notice of Availability of Solicitation for Awards of Financial Assistance

AGENCY: Idaho Operations Office, DOE.

ACTION: Notice of availability of solicitation number DE–PS07–00ID13860—Nuclear Engineering Education Research (NEER) Program.

SUMMARY: The U.S. Department of Energy, Idaho Operations Office, is soliciting applications for special research grant awards that will support nuclear engineering research. It is anticipated that on September 16, 1999, the full text for Solicitation Number DE–PS07–00ID13860 for the 2000 NEER Program will be made available on the Internet under, ''current solicitation'', at the following URL address: *http://www.id.doe.gov/doeid/PSD/proc-div.html*, under current solicitation.

DATES: The deadline for receipt of applications will be November 22, 1999.

ADDRESSES: Applications should be submitted to: Dallas L. Hoffer, Procurement Services Division, U.S. Department of Energy, Idaho Operations Office, 850 Energy Drive, Mail Stop 1221, Idaho Falls, Idaho 83401–1563.

FOR FURTHER INFORMATION CONTACT: Dallas Hoffer, Contract Specialist at *hofferdl@id.doe.gov*.

SUPPLEMENTARY INFORMATION: The solicitation will be issued in accordance with 10 CFR 600.6(b). Eligibility for awards under this program will be restricted to U.S. colleges and universities with nuclear engineering degree programs or options or an operating research reactor. The purpose of the Nuclear Engineering Education Research (NEER) program is to (1) support basic research in nuclear engineering; (2) assist in developing nuclear engineering students; and (3) contribute to strengthening the academic community's nuclear engineering infrastructure.

The statutory authority for this program is Public Law 95–91.

Issued in Idaho Falls on September 13, 1999.

R.J. Hoyles,

Director, Procurement Services Division.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

International Energy Agency Meetings

AGENCY: Department of Energy.

ACTION: Notice of meetings.

SUMMARY: The Industry Advisory Board (IAB) to the International Energy Agency (IEA) will meet during the week of September 27, 1999 at the headquarters of the IEA in Paris, France in connection with a Seminar on IEA Oil Stock Strategy, a Disruption Simulation Exercise, and a meeting of the IEA's Standing Group on Emergency Questions (SEQ).

FOR FURTHER INFORMATION CONTACT: Samuel M. Bradley, Assistant General Counsel for International and National Security Programs, Department of Energy, 1000 Independence Avenue, S.W., Washington, D.C. 20585, 202–586–6738.

SUPPLEMENTARY INFORMATION: In accordance with section 252(c)(1)(A)(i) of the Energy Policy and Conservation Act (42 U.S.C. 6272(c)(1)(A)(i)), the following notice of meetings is provided:

A meeting of the Industry Advisory Board (IAB) to the International Energy Agency (IEA) will be held at the headquarters of the IEA, 9, rue de la Fédération, Paris, France, commencing on September 27, 1999, at approximately 10 a.m.. The purpose of this notice is to permit attendance by representatives of U.S. company members of the IAB at:

(1) A Seminar on IEA Oil Stock Strategy (''Stock Seminar'') commencing on September 27 at approximately 10 a.m. and ending on September 28 at approximately 12:45 p.m.;

(2) A brief meeting of the IAB, on September 28 from approximately 1:45 p.m. to 2 p.m., in preparation of the Simulation Exercise;

(3) A Disruption Simulation Exercise (the ''Simulation Exercise''), commencing on September 28 at approximately 2 p.m. and ending on September 30 at approximately 12:30 p.m.;

(4) A meeting of the IEA Standing Group on Emergency Questions (SEQ) on September 30 from approximately 2:30 p.m. to approximately 5 p.m. and on October 1 from approximately 9:30 a.m. to 1 p.m.; and

(5) A meeting of the IAB on September 30 from approximately 5 p.m. to 6:30 p.m.

The Agendas for the Stock Seminar (item 1 above), the Simulation Exercise (item 3), and the SEQ (item 4) are under the control of the IEA Secretariat and the SEQ. It is expected that the following Agendas will be followed:

I. Seminar on IEA Oil Stock Strategy (September 27 and 28 (a.m.))

- Welcome by SEQ Chairman, and IEA Executive Director
- Presentation by Secretariat of Background Note on Global Oil Stock Situation and Synopsis of Replies to SEQ Questionnaire on Stockholding and Stockdraw
- Session 1—Stocks as a Means of Rapid Response, and Demand Restraint Operations

  How the Administrations and the industry would ensure quick and effective response to a major disruption: presentations and discussion

- Session 2—IEA Stock Strategies: Key Issues
  Trends and Issues in Industry Inventories, Minimum Operating Rates and Usable Stocks: presentations and discussion
  For What Disruption Should We Prepare?: presentations and discussion
  Crude Oil v Products; What is the Most Effective Weapon in an Emergency?: presentations and discussion
  The Governmental Control Issue: Under What Conditions Can Governments Ensure Drawdown? How can adequate legislation be put in place?: presentations and discussion
- Session 3—Experience Sharing with Non-Member Countries (NMCs) in Emergency Response
  How would NMCs react in a disruption? How can stockholding be promoted as an NMC priority?: presentations and discussions
- Chairman's Summary

II. Disruption Simulation Exercise Program—September 28 (p.m.)–September 30 (a.m.)

Disruption—Stage 1

Plenary

- Introduction by SEQ Chairman and IEA Oil Markets & Emergency Preparedness Director
- Introduction of Simulation Facilitator, External Market Group, Internal Market Group and Steering Group
- Logistics are described by Head of Emergency Planning and Preparations Department (EPPD)
- Rules of the game are defined and simulation initiated
- The Stage 1 event is announced
- A brief analysis of the market impact by the Internal Market Group

Participants break out into Teams; Teams will:

- Respond to specific questions on market analysis and IEA decision making
- Report on what action(s) if any the IEA should take at this point
- Submit a report to the Facilitator

Plenary

- Presentation of four team reports (more if sufficiently diverse)
- Reactions from the External Market Group to each team report presentation
- Reactions from Internal Market Group on fundamentals following all team reports
- Discussions on the recommendations
- Review and critique of the first day of the exercise
- Chairman's Summary of the Stage 1 Session

Disruption—Stage 2

Plenary

- Introduction by SEQ Chairman
- Simulation is initiated by Facilitator
- The Stage 2 event is announced
- A brief analysis of the market impact by the Internal Market Team

Participants break out into Teams; Teams will:

- Respond to specific questions on market analysis, and IEA policy decisions
- Report on what action(s) the IEA should take at this point
- Submit a report to the Facilitator

Plenary

- Presentation of four team reports (more if sufficiently diverse)
- Reactions from the External Market Group to each team report presentation
- Reactions from Internal Market Group on fundamentals following all team reports
- Discussion and conclusions
- Chairman's Summary

Cross Sector Y2K Session

Plenary

- Background briefings: presentation covering IEA findings on Y2K and results of IEA member country survey
- Cross-Sectoral panel, chaired by Deputy Executive Director, IEA, on potential disruptions and cross-sectoral issues.
- Introduction to pre-Y2K oil market situation: Internal Market Group
- Logistics are described by Head of EPPD

Participants break out into Teams; Teams will:

- Respond to specific questions
- Make pre-January 1st policy recommendations for the IEA (e.g. an IEA contingency plan)

Plenary

- Presentation of four team reports (more if sufficiently diverse)
- Reaction from the External Market Group to each presentation

Y2K Simulation Session

Plenary

- Presentation by Deputy Executive Director of pre-Y2K policy recommendations
- Simulation is initiated by the Facilitator
- News Flash: Y2K disruption announced
- A brief analysis of the market impact by the Internal Market Group

Participants Break Out Into Groups

Review IEA policy recommendations discussed on September 29 in light of disruption scenario Teams will:

- Develop recommendations on an IEA response(s) to the event
- Recommend arrangements to monitor situation after January 1 and follow-up evaluations
- Recommend process and timing of IEA decisions (e.g. October 27 Governing Board, November 19 SEQ and December 10 Governing Board and possible SEQ/Governing Board meetings in early January 2000)

Plenary

- Presentation of team reports
- Reactions from the External Market Group to each team report presentation
- Reactions from Internal Market Group on fundamentals following all team reports
- Discussions and formulation of IEA policy recommendations (content, process and timing)
- Recommendations for monitoring situation after January 1 and follow-up arrangements
- Chairman's summary

III. The Standing Group On Emergency Questions—September 30 (p.m.)–October 1 (a.m.)

1. Adoption of the Agenda
2. Approval of the Summary Record of the 95th Meeting
3. SEQ Work Program
   —The Year 2000 Work Program of the SEQ
   —The Result of the Questionnaire Survey on Program of Work 2000
4. Evaluation of Seminar on IEA Oil Stock Strategy
5. Evaluation of Disruption Simulation Exercise Stages 1 and 2
6. The Year 2000 Problems and IEA Response Plans
   —Replies to Questionnaires on Y2K Issues
   —Results of IEA 1999 Regional Seminars
   —Initial Discussion of Possible IEA Actions
7. Policy and Legislative Developments in Member Countries
   —Recent Strategic Petroleum Reserve Developments
   —Developments in other IEA Countries
8. Current IAB Activities
9. Report on Petroleum Coke Production, Trade, Use and Treatment in IEA Statistics by Working Group

10. Emergency Reserve Situation of IEA Countries
—Emergency Reserve and Net Import Situation of IEA Countries on 1 April 1999
—Emergency Reserve and Net Import Situation of IEA Countries on 1 July 1999
11. Emergency Response Issues of IEA Candidate Countries
—Emergency Response Review of the Czech Republic
—Emergency Reserve Situation of IEA Candidate Countries
12. Emergency Data System and Related Questions
—Base Period Final Consumption—'' Q398–Q299
—Monthly Oil Statistics (MOS) April 1999
—MOS May 1999
—MOS June 1999
13. Emergency Response Reviews of IEA Countries
—Emergency Response Review of Germany
—Emergency Response Review of France
—Emergency Response Review of Turkey
—Updated Schedule of Emergency Response Reviews
14. Emergency Reference Guide
—Update of Emergency Contact Points
15. Other Business
—Celebration of 25 years of SEQ work on energy security at November SEQ meeting

IV. The Agenda for the Brief Meeting of the IAB on September 27 (Item 2) Is Preparation for the Simulation Exercise

V. The Agenda for the IAB Meeting on September 30 (Item 5) is

- Approval of the Record Notes of Previous IAB Meetings
- Lessons learned at the Seminar on IEA Oil Stock Strategy and the Disruption Simulation Exercise
- Future IAB activities in support of the SEQ Work Program for 2000
- Succession of the IAB Chairmanship

As provided in section 252(c)(1)(A)(ii) of the Energy Policy and Conservation Act (42 U.S.C. 6272(c)(1)(A)(ii)), these meetings are open only to representatives of members of the IAB and their counsel, representatives of members of the SEQ, representatives of the Departments of Energy, Justice, and State, the Federal Trade Commission, the General Accounting Office, Committees of Congress, the IEA, and the European Commission, and invitees of the IAB, the SEQ, or the IEA.

Issued in Washington, D.C., September 15, 1999.

Mary Anne Sullivan,

General Counsel.

[FR Doc. 99–24539 Filed 9–17–99; 8:45 am]

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Amendment of License and Soliciting Comments, Motions To Intervene, and Protests

September 15, 1999.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

a. *Applciation Type:* Change in Land and Water Rights.

b. *Project No.:* 2576–021.

c. *Date Filed:* August 6, 1999.

d. *Applicant:* Connecticut Light and Power Company.

e. *Name of Project:* Housatonic.

f. *Location:* The Housatonic project is located on the Houstonic River and its tributaries in Fairfield, New Haven, and Litchfield Counties, Connecticut. This project does not utilize Federal or Tribal lands.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Raul de Brigard, Connecticut Light and Power Company, P.O. Box 270 Hartford, CT 06141–0270 (860) 665–3561.

i. *FERC Contact:* Any questions on this notice should be addressed to Jon Confrancesco at *Jon.Cofrancesco@ferc.fed.us* or telephone 202–219–0079.

j. *Deadline for filing comments and or motions:* October 15, 1999.

All documents (original and eight copies) should be filed with: David P. Boergers, Secretary, Federal Energy Regulatory Commission, Mail Code: DLC, HL–11.1, 888 First Street, NE., Washington, DC 20426.

Please include the project number on any comments or motions filed.

k. *Description of Project:* Connecticut Light and Power Company, license for the Housatonic Project, requests Commission approval of a proposed change in land rights involving Candlewood Lake, a reservoir within the project's Rocky River Development. Specifically, the licensee proposes to enter into an agreement with the five municipalities that surround Candlewood Lake (Brookfield, Danbury, New Fairfield, New Milford, and Sherman) that would grant the municipalities a conservation restriction at Candlewood Lake. The conservation restriction will enable the municipalities to ensure that Candlewood Lake remains a lake consistent with its recreational and environmental values in the event of a future termination of the Commission's jurisdiction over the project. The conservation restriction contains specific requirements related to the water level and use of the lake. The licensee states the proposed conservation restriction is subject to and subordinate to the project license; is in the public interest; and will preserve the scenic, recreational, and environmental values of Candlewood Lake while at the same time allowing the licensee to use if for hydroelectric operations.

l. *Locations of the application:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE, Room 2A, Washington, DC 20426, or by calling (202) 208–1371. The application may be viewed on the web at www.ferc.fed.us. Call (202) 208–2222 for assistance. A copy is also available for inspection and reproduction at the address in item h above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title ''COMMENTS'', ''RECOMMENDATIONS FOR TERMS AND CONDITIONS'', ''PROTEST'', OR ''MOTION TO INTERVENE'', as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426.

A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Linwood A. Watson, Jr.,

Acting Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–6440–9]

National Advisory Council for Environmental Policy and Technology, (NACEPT) Standing Committee on Sectors

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notification of public advisory NACEPT standing committee on sectors meeting; open meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act, Public Law 92–463, notice is hereby given that the Standing Committee on Sectors will meet on the date and time described below. The meeting is open to the public. Seating at the meeting will be a first-come basis and limited time will be provided for public comment. For further information concerning this meeting, please contact the individual listed with the announcement below.

NACEPT Standing Committee on Sectors; October 13–14, 1999

Notice is hereby given that the Environmental Protection Agency will hold an open meeting of the NACEPT Standing Committee on Sectors on Wednesday, October 13, 1999 from 9 a.m. to 5 p.m., and October 14, 1999 from 8:30–12. The meeting will be held at the Renaissance Hotel, 999 9th St. NW, Washington, DC 20001–4427. Phone: 202/898–9000.

The agenda for the meeting will be focused primarily on the completion of the fiscal year 2000 Sector-Based Environmental Protection Action Plan. A formal Agenda will be available at the meeting.

SUPPLEMENTARY INFORMATION: NACEPT is a federal advisory committee under the Federal Advisory Committee Act, Public Law 92–463. NACEPT provides advice and recommendations to the Administrator and other EPA officials on a broad range of domestic and international environmental policy issues. NACEPT consists of a representative cross-section of EPA's partners and principal constituents who provide advice and recommendations on policy issues and serve as a sounding board for new strategies that the Agency is developing.

In follow-up to completion of work by EPA's Common Sense Initiative (CSI) Council, the Administrator asked NACEPT to create a Standing Committee on Sectors. This Committee began its work in March 1999 and will provide a multi-stakeholder forum through which the Agency can continue to receive advice and recommendations on sector-based approaches to environmental protection. (A sector is generally defined a discrete production system of the economy, e.g., petroleum refining, printing, metal finishing.) Further information on sectors is available electronically on our web site at http.//www.epa.gov/sectors.

For further information concerning the NACEPT Standing Committee on Sectors, including the upcoming meeting, contact Kathleen Bailey, Designated Federal Officer (DFO), on (202) 260–7417, or E-mail: bailey.kathleen@epa.gov.

INSPECTION OF SUBCOMMITTEE DOCUMENTS: Documents relating to the above topics will be publicly available at the meeting. Thereafter, key documents and the minutes of the meeting will be available electronically on the web site, or by calling the DFO.

Dated: September 10, 1999.

Gregory Ondich,

Acting Designated Federal Officer.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

[FRL–6441–1]

Public Meetings of the Urban Wet Weather Flows Advisory Committee, the Storm Water Phase II Advisory Subcommittee, and the Sanitary Sewer Overflow Advisory Subcommittee

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: Notice is given that the Environmental Protection Agency (EPA) is rescheduling the September 27–30, 1999 public meeting of the *Sanitary Sewer Overflow (SSO) Advisory Subcommittee* (published in the **Federal Register** (FR–6433–8), dated September 8, 1999). The SSO Subcommittee meeting is to discuss the draft National Pollutant Discharge Elimination System (NPDES) regulation and policy for municipal sanitary sewer collection systems. This meeting is open to the public. Advance registration is required by October 8 since public seating is limited. Attendees should register by faxing their name, address, daytime telephone, fax number, and days of attendance to Sharie Centilla at 202–260–1460.

A limited number of government-rate hotel rooms ($98.55 single) are available. Hotel reservations should be made by calling the Ramada Inn and Conference Center at 1–800–666–8888 by October 4, 1999. The block is listed as ''USEPA SSO FAC.''

DATES: October 18–20, 1999.

ADDRESSES: Ramada Inn and Conference Center, 500 Merrimac Trail, Williamsburg, VA 23185.

TIME: The meetings will start each day at approximately 9:00 a.m. EDT and end at approximately 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Sharie Centilla, Office of Wastewater Management, at (202) 260–6052

daytime; 202–260–1460 fax, or Internet: centilla.sharie@epa.gov

Background information is available on the EPA website: *http://www.epa.gov/owm/wet.htm.*

Dated: September 14, 1999.

Michael B. Cook,

Director, Office of Wastewater Management, Designated Federal Official.

BILLING CODE 6560–50–P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted to OMB for Review and Approval

September 13, 1999.

SUMMARY: The Federal Communications Commissions, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before October 20, 1999. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commission, Room 1–A804, 445 12th Street, S.W., Washington, DC 20554 or via the Internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les Smith at (202) 418–0217 or via the Internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0209.

Title: Section 73.1920, Personal Attacks.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 698.

Estimate Time Per Response: 30 mins.

Frequency of Response: On occasion reporting requirements.

Total Annual Burden: 349.

Total Annual Costs: None.

Needs and Uses: During the presentation of views on a controversial issue of public importance, an attack may be made upon the honesty, character, integrity, or like personal qualities of an identified person or group. Section 73.1920 requires that a licensee of a broadcast station must transmit to the person or group attacked, a notification of the date, time, and identification of the broadcast of a personal attack, a script or tape of the attack, and an offer of a reasonable opportunity to respond to the attack over the licensee's facilities. These data are used to notify a person or group that a personal attack has been made and to afford that person or group attacked, an opportunity to respond to the attack over the licensee's facilities.

OMB Control Number: 3060–0648.

Title: Section 21.902, Frequency.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 1,824.

Estimate Time Per Response: 15 mins. (0.25 hrs.).

Frequency of Response: On occasion reporting requirements; Third party disclosure.

Total Annual Burden: 456 hours.

Total Annual Costs: $491,250.

Needs and Uses: Section 21.902(b)(5) requires that respondents engineer the MDS station to limit the calculated free space power flux density at the boundary of the protected service area (PSA). As an alternative, the respondent may obtain the written consent on the entity authorized for the adjoining area when the calculated free space power flux density exceeds the standard. Section 21.902(g)(2) requires applicants with 35 mile PSA to notify in writing the holders of authorizations for adjoining basic trading areas (BTAs) or PSAs of the application filings for modified station licenses, provided the proposed facility would produce an unobserved signal path to any location within the adjoining BTA or PSA. This service must include a copy of the application and occur on or before the date the application is filed with the Commission. Section 21.902(i) requires each applicant for a new station or modified MDS, or amendment thereof, to provide notice of its application to cochannel and adjacent-channel authorized ITFS stations within 50 miles. The ITFS study must be prepared and served on the affected ITFS station, but is not required to be filed as part of the MDS application. Each applicant is required to file a written notice with the Commission before the 30th day after the applicant or amendment is initially filed with the Commission. This notice must contain the items specified in Section 21.902(i)(4). Section 21.902(i)(6) requires that a petition to deny filed by an ITFS licensee contain specific information. The requirements contained in Section 21.902(c), (f), (g), (j), and (k) have OMB approval under separate control numbers. The data are used to ensure that no harmful interference is caused to other authorized stations.

Federal Communications Commission.

Magalie Roman Salas,

Secretary.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted to OMB for Review and Approval

September 10, 1999.

SUMMARY: The Federal Communications Commissions, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the

information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before October 20, 1999. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commission, Room 1–A804, 445 12th Street, SW, Washington, DC 20554 or via the Internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les Smith at (202) 418–0217 or via the Internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0059

Title: Statement Regarding the Importance of Radio Frequency Devices Capable of Harmful Interference

Form Number: FCC 740

Type of Review: Revision of a currently approved collection

Respondents: Business or other for-profit entities; Individuals or households; Not-for-profit institutions; State, Local, or Tribal Government

Number of Respondents: 5,077

Estimate Time Per Response: 1 to 5 mins. (330 responses annually/ respondent)

Frequency of Response: On occasion reporting requirements

Total Annual Burden: 28,030 hours

Total Annual Costs: None

Needs and Uses: Radio frequency (RF) devices (examples: microwaves, computer microprocessors, computers, computer peripherals, telephones with memory or other advanced features, video cameras, recorders, transmitters, electronic musical instruments, video games, and radio remote control toys) imported into the United States are capable of causing harmful interference (safety of life) to radio systems. The FCC working in conjunction with U.S. Customs is responsible for the regulations of both authorized radio services and devices that can cause interference. FCC Form 740 must be completed for each radio frequency device as defined in 47 U.S.C. 302 and D.F.R 2.802, which is imported into the Customs territory of the United States. Purpose of this information is to keep non-compliant devices from being distributed to the general public thereby reducing the potential for harmful interference being caused to authorized communications. Form 740 can be filed electronically.

OMB Control Number: 3060–0207.

Title: 47 CFR 11.35, Equipment Operational Readiness; 47 CFR 11.51 EAS Code and Attention Signal Transmission Requirements; 47 CFR 11.52, EAS Code and Attention Signal Monitoring Requirements; 47 CFR 11.61, Participating Broadcasting Stations to Test EAS Equipment Requirement.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities

Number of Respondents: 15,000

Estimate Time Per Response: 9 secs./ test/wk.

Frequency of Response: Weekly reporting requirement

Total Annual Burden: 1,950 hours

Total Annual Costs: None

Needs and Uses: The Commission recently adopted Rules that revised the Emergency Alert System testing requirements. The new Rule requires all broadcasting stations (AM, FM & TV) including Cable Television nationwide to receive the Emergency Alert System (EAS) electronic signal test (3 seconds) and to transmit the Emergency Alert System (EAS) electronic signal test (3 seconds) once a week with 3 seconds to record test. Records of this information are necessary in order to document compliance with these Rules, and to enhance awareness and participation in the national, state and local EAS. Accurate record keeping of this data is vital in determining the location and nature of possible equipment failure on the part of the transmitting and/or receiving entity. Furthermore, since the national level EAS is solely for the President's use, its proper operation must be assured. The purpose of the information is to ensure that the Emergency Alert Systems throughout the United States are in good working condition thus ensuring that communities will have access to communications systems in time of national emergency and/or local weather related or man made disasters.

Federal Communications Commission.

Magalie Roman Salas,

Secretary.

[FR Doc. 99–24374 Filed 9–17–99; 8:45 am]

BILLING CODE 6712–01–P

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than October 14, 1999.

A. Federal Reserve Bank of Atlanta (Cynthia Goodwin, Vice President) 104 Marietta Street, N.W., Atlanta, Georgia 30303-2713:

1. Equitex, Inc., Englewood, Colorado; to become a bank holding company by acquiring 100 percent of the voting shares of First TeleBanc Corporation, Boca Raton, Florida, and thereby indirectly acquire Net First National Bank, Boca Raton, Florida.

1. SNB Holdings, Inc., Slocomb, Alabama; to become a bank holding company by acquiring 100 percent of the voting shares of Slocomb National Bank, Slocomb, Alabama.

B. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St. Louis, Missouri 63102-2034:

1. Miles Independent Bancorporation, Inc., Advance, Missouri; to become a bank holding company by acquiring 100 percent of the voting shares of Miles Bancshares, Inc., Advance, Missouri; and thereby indirectly acquire The Bank

of Advance, Advance, Missouri; The First National Bank of Lerna, Lerna, Illinois; and Bowen State Bank, Bowen, Illinois.

Board of Governors of the Federal Reserve System, September 14, 1999.

Robert deV. Frierson,

Associate Secretary of the Board.

BILLING CODE 6210–01–F

DEPARTMENT OF COMMERCE

National Telecommunications and Information Administration

FEDERAL TRADE COMMISSION

[Docket No. 990811219–9219–01]

Public Workshop on Online Profiling

AGENCIES: National Telecommunications and Information Administration, Commerce; Federal Trade Commission.

ACTION: Notice; request for public comment.

SUMMARY: The National Telecommunications and Information Administration (''NTIA'') of the United States Department of Commerce and the Federal Trade Commission have determined to hold a public workshop on ''online profiling,'' the practice of aggregating information about consumers' preferences and interests, gathered primarily by tracking their movements online, and using the resulting consumer profiles to create targeted advertising on Web sites. The workshop will be divided into three sessions. Session I will explore developments in information technology that facilitate online profiling. Session II will examine the implications of online profiling technologies for consumer privacy. Session III will focus on the online profiling industry's self-regulatory efforts to protect consumers' privacy online. Any person who wishes to participate as a panelist in one or more of the workshop sessions must file a written request to participate. In addition, the agencies are requesting public comment addressing various issues related to the practice of online profiling.

DATES: The workshop will be held on November 8, 1999 at the U.S. Department of Commerce, Main Auditorium, 1401 Constitution Ave., NW, Washington, DC 20230. The workshop is open to the public.

Written comments and requests to participate as a panelist in the workshop must be filed on or before October 18, 1999. Persons filing requests to participate as a panelist will be notified on or before October 25, 1999, if they have been selected to participate.

ADDRESSES: Written comments and requests to participate as a panelist in the workshop should be submitted to Secretary, Federal Trade Commission, Room H–159, 600 Pennsylvania Avenue NW, Washington, DC 20580.

Submission of Documents

Parties sending written comments and/or requests to participate should submit an original and two copies of each document. To enable prompt review and public access, paper submissions should include a version on diskette in PDF, ASCII, WordPerfect (please specify version) or Microsoft Word (please specify version) format. Diskettes should be labeled with the name of the party, and the name and version of the word processing program used to create the document. Alternatively, documents may be submitted to the following email address: profile@ftc.gov.

Written Comments

Comments should be captioned ''Online Profiling Project—Comment, P994809 / Docket No. 990811219–9219–01.'' Rebuttal comments should be submitted following the procedures described above. All comments will be posted on the Federal Trade Commission's Web site: www.ftc.gov and on the NTIA's Web site: www.ntia.doc.gov.

Requests To Participate as Panelist in the Workshop

Requests to participate as a panelist should be captioned ''Online Profiling Project—Request to Participate, P994809 / Docket No. 990811219–9219–01.''

Parties may apply to participate as a panelist in more than one workshop session. Requests to participate, however, must specify the session(s) in which participation is sought. Parties applying to participate are also encouraged to file written comments.

Requesters will be notified on or before October 25, 1999, if they have been selected to participate in workshop sessions. To assist staff of the Department of Commerce and the Federal Trade Commission in making this notification, parties are asked to include in their request to participate a telephone number, facsimile number, and email address if available.

FOR FURTHER INFORMATION CONTACT: Wendy S. Lader, NTIA, U.S. Department of Commerce, 1401 Constitution Avenue, NW, Washington, DC 20230, telephone (202) 482–1880, email wlader@ntia.doc.gov; or Martha K. Landesberg, Division of Financial Practices, Federal Trade Commission, 600 Pennsylvania Avenue, NW, Mail Stop 4429, Washington, DC 20580, telephone (202) 326–2825, email mlandesberg@ftc.gov.

SUPPLEMENTARY INFORMATION:

Authority: 15 U.S.C. 41 *et seq.*; 47 U.S.C. 902(b)(2)(H); 47 U.S.C. 902(b)(2)(M).

1. Background

In July 1998, Vice President Gore asked the Department of Commerce to work with the Federal Trade Commission to encourage companies that build dossiers (profiles) about individuals by integrating information from a variety of database sources to implement effective self-regulatory mechanisms. The Department of Commerce and the Federal Trade Commission have been working together to explore ways in which consumer privacy can be protected in light of the rise of new technologies that facilitate ''online profiling,'' the practice of aggregating information about consumers' preferences and interests, gathered primarily by tracking their movements online, and using the resulting consumer profiles to create targeted advertising on Web sites. Profiling typically employs ''cookies,'' text files placed on users' computers to store information about their computers and their online activities. Companies are involved in a wide array of activities that support online profiling. For example, some companies develop profiling software and license it to Web sites that wish to track their own visitors; others manage networks of sites, pool data about consumers who visit sites in those networks, and sell or place online advertising based upon inferences about consumers drawn from the pooled data; still others specialize in measuring the popularity of particular online advertisements for advertisers. Privacy concerns have been raised by many of these practices. Consumers are largely unaware of the creation of online profiles, and the implementation of core fair information practices of notice, choice, access and security with respect to the collection of information in online profiles remains a significant challenge. The Department of Commerce and the Federal Trade Commission are announcing a public workshop to be held on November 8, 1999, to inform government officials and the public about these and related issues, and about industry's current self-regulatory efforts to develop privacy protections for online consumers.

2. Workshop Agenda

The workshop will be held on November 8, 1999 at the U.S. Department of Commerce, Main Auditorium, 1401 Constitution Ave., NW, Washington, DC 20230. The tentative schedule for the workshop is as follows: the workshop will begin at 8:30 a.m. and will consist of three sessions, which will run consecutively.

Session I: Online Profiling Technology

This session will explore information technologies that facilitate profiling of consumers online, both technologies that are currently in use and those in development. This session will focus particularly on the extent to which these technologies permit the integration of information that identifies consumers as individuals with non-identifying information.

Session II: Implications of Online Profiling Technology for User Privacy

This session will examine the extent to which online profiling technologies impinge upon consumer privacy, as well as the costs and benefits of online profiling for both consumers and businesses.

Session III: The Role of Self Regulation

This session will examine the potential of self-regulation as a means of addressing the privacy concerns raised by online profiling. This session will also examine ways in which profiling technology can be deployed to promote adherence to fair information practices. Current efforts to implement fair information practices in the profiling industry will be discussed.

3. Participation in Workshop Sessions

Those parties who wish to participate as panelists in the workshop must notify the Secretary of the Federal Trade Commission, in writing, of their interest in participating in Sessions I, II, and/or III on or before October 18, 1999. Parties may participate in more than one workshop session; requests to participate must specify the session(s) in which participation is sought. All workshop sessions are open to the public.

Staff of the Department of Commerce and the Federal Trade Commission will select a limited number of panelists to participate in the Workshop Sessions. In order to promote a thorough examination of the issues and to facilitate an effective discussion, participants will be chosen to represent different points of view and interests. Parties requesting to participate are therefore encouraged to file written comments. The agencies may invite parties to participate as panelists who have not filed requests to participate.

Parties will participate in an open discussion of the issues. It is contemplated that the selected panelists will ask and answer questions based on their respective comments, including questions posed by staff of the Department of Commerce and the Federal Trade Commission, at the workshop. The discussion will be transcribed and the transcription placed on the public record.

To the extent possible, staff of the Department of Commerce and the Federal Trade Commission will select panelists to represent the following affected interests, as well as any other interests that staff may identify and deem appropriate for representation. For Session I: online profiling companies; Web site operators; online advertisers; experts in profiling technology and software. For Session II: consumer and privacy advocacy groups; industry groups; Internet service providers; Web site operators; online marketers; Internet ''portal'' sites; consumers who are active on the World Wide Web. For Session III: online profiling companies; Web site operators; online advertisers; Internet ''portal'' sites; industry groups; consumer and privacy advocacy groups. Each session may also include members of the academic or research community with expertise in privacy, fair information practices, and/or consumer preferences with respect to the use of personal information in the online environment.

Parties to represent the above-referenced interests will be selected on the basis of the following criteria:

1. The party's participation would promote a balance of interests being represented at the workshop.

2. The party has expertise in or knowledge of the issues that are the focus of the workshop.

3. The party adequately reflects the views of the affected interest(s) which it purports to represent, not simply a single entity or firm within that interest.

4. The party has been designated by one or more interested parties (who timely file written comments and requests to participate) as a party who shares group interests with the designator(s).

5. The number of parties selected will not be so large as to inhibit effective discussion among them.

If it is necessary to limit the number of panelists, those not selected to participate may be afforded an opportunity at the end of the workshop to present their views during a limited time period. The time allotted for these statements will be determined on the basis of the time necessary for discussion of the issues by the selected parties, as well as by the number of persons who wish to make statements.

4. Invitation To Comment

Interested parties are requested to submit written comments on any issue of fact, law, or policy that may inform the U. S. Department of Commerce and the Federal Trade Commission's study of online profiling. Specifically, comment is requested on the questions set forth below. These questions are designed to assist the public, however, and should not be construed as a limitation on the issues on which public comment may be submitted. Comments should cite the number of the question(s) addressed. Please provide copies of any studies, research, or other empirical data referenced in comments.

1. What types of companies are engaged in online profiling or in the development of online profiling technologies? What are the relevant business models?

2. What types of information are currently being collected by online profiling companies from or about Web site visitors?

3. What technologies do online profiling companies use to collect information about consumers? Please describe how these technologies function.

4. Do these technologies currently enable creation of anonymous profiles?

5. Do these technologies currently enable the creation of consumer profiles that identify individual consumers? Do the profiles include information originally collected anonymously but later linked to an individual? Are online profiling companies currently creating such profiles?

6. Are there technologies in development that will enable the creation of consumer profiles that identify individual consumers? If so, please describe.

7. How is the information collected by online profiling companies used?

8. Is the information collected by online profiling companies being merged with other databases? If so, what kinds of information are included in such databases? How is the merged information being used?

9. What are the costs and benefits, to both industry and consumers, of online profiling?

10. What are consumers' perceptions about online profiling? Please provide the results of any studies or surveys addressing this question.

11. What are the beneficial uses of the information collected by online profiling companies?

12. Are consumers' privacy interests implicated by the collection, compilation, sale and use of information collected by online profiling companies? If so, please describe.

13. Do online profiling companies disclose the ultimate uses of the information they collect? If so, what is the nature of such disclosures? Where possible, please provide examples of such disclosures.

14. Do online profiling companies provide effective mechanisms for a consumer to remove his or her information from their databases or otherwise control the use of such information?

15. Do online profiling companies provide consumers an opportunity to choose whether and how their information will be collected and used? If so, please describe the choices that consumers are given and how consumers can exercise these choices.

16. What is current industry practice, with respect to information already collected from individuals, when there is a later change in the company's policies? What is the current industry practice, with respect to information already collected from individuals, when there is a material change in the corporate structure or business contracts governing such information, such as through a merger, joint venture, or sale of customer lists? Do online profiling companies provide notice and choice with respect to how already-collected information is handled under changed circumstances?

17. What, if any, legal or other practical issues would be implicated in the creation of effective self-regulatory programs to govern the sorts of changed circumstances described in Question 16?

18. Do online profiling companies provide consumers the opportunity to see what information has been collected from or about them and the ability to correct errors? If so, please describe.

19. What procedures have online profiling companies instituted to maintain the security of the information they collect?

20. What self-regulatory efforts have online profiling companies undertaken to address concerns raised by their collection, compilation, sale, and use of consumer information? How do these efforts address the fair information practice of notice, choice, access, security, and enforcement? What are the costs and benefits, to both consumers and businesses, of such self-regulatory efforts?

21. Are there any efforts currently underway or planned to educate consumers and businesses about online profiling? If so, please describe.

5. Form and Availability of Comments

Comments should indicate the number(s) of the specific question(s) being answered, provide responses to questions in numerical order, and use a new page for each question answered.

Written comments will be available for public inspection in accordance with the Freedom of Information Act, 5 U.S.C. 552, and Federal Trade Commission regulations, 16 CFR part 4.9, Monday through Friday between the hours of 8:30 a.m. and 5:00 p.m. at the Public Reference Room 130, Federal Trade Commission, 600 Pennsylvania Avenue, NW, Washington, DC 20580. The agencies will make this notice and, to the extent technically possible, all comments received in response to this notice available to the public through the Internet at the following addresses: www.ftc.gov and www.ntia.doc.gov.

By direction of the Commission.

Donald S. Clark,

Secretary, Federal Trade Commission.

Kathy D. Smith,

Acting Chief Counsel, National Telecommunications and Information Administration, U.S. Department of Commerce.

[FR Doc. 99–24252 Filed 9–17–99; 8:45 am]

BILLING CODE 3510–60–P 6750–01–P

FEDERAL TRADE COMMISSION

[File No. 991 0288]

The Associated Octel Company Limited; Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Proposed consent agreement.

SUMMARY: The consent agreement in this matter settles alleged violations of federal law prohibiting unfair or deceptive acts or practices or unfair methods of competition. The attached Analysis to Aid Public Comment describes both the allegations in the draft complaint that accompanies the consent agreement and the terms of the consent order—embodied in the consent agreement—that would settle these allegations.

DATES: Comments must be received on or before November 19, 1999.

ADDRESSES: Comments should be directed to: FTC/Office of the Secretary, Room 159, 600 Pennsylvania Ave., NW, Washington, DC 20580.

FOR FURTHER INFORMATION CONTACT: William Baer, FTC/H–374, 600 Pennsylvania, Ave., NW, Washington, DC 20580. (202) 326–2932.

SUPPLEMENTARY INFORMATION: Pursuant to Section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and Section 2.34 of the Commission's Rules of Practice (16 CFR 2.34), notice is hereby given that the above-captioned consent containing a consent order to cease and desist, having been filed with and accepted, subject to final approval, by the Commission, has been placed on the public record for a period of sixty (60) days. The following Analysis to Aid Public Comment describes the terms of the consent agreement, and the allegations in the complaint. An electronic copy of the full text of the consent agreement package can be obtained from the FTC Home Page (for September 7, 1999), on the World Wide Web, at ''http://www.ftc.gov/os/actions97.htm.'' A paper copy can be obtained from the FTC Public Reference Room, Room H–130, 600 Pennsylvania Avenue, NW., Washington, DC 20580, either in person or by calling (202) 326–3627.

Public comment is invited. Comments should be directed to: FTC/Office of the Secretary, Room 159, 600 Pennsylvania Ave., NW, Washington, DC 20580. Two paper copies of each comment should be filed, and should be accompanied, if possible, by a 3½ inch diskette containing an electronic copy of the comment. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with Section 4.9(b)(6)(ii) of the Commission's Rules of Practice (16 CFR 4.9(b)(6)(ii)).

Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission (''Commission'') has accepted, subject to final approval, an agreement containing a proposed Consent Order from The Associated Octel Company Limited (''Octel''), which is designed to resolve competitive concerns arising out of Octel's proposed acquisition of Oboadler Company Limited (''Oboadler''). Under the terms of the agreement, Octel will be required, among other things, to supply lead antiknock compounds to Oboadler's current U.S. distributor, Allchem Industries, Inc., for resale in the United States.

The proposed Consent Order has been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the

proposed Consent Order and the comments received, and will decide whether it should withdraw from the proposed Consent Order or make final the proposed Order.

Pursuant to a Share Purchase Agreement dated June 1, 1999, Octel has agreed to acquire 100 percent of the share capital of Oboadler for approximately $100 million. Oboadler controls three operating companies that, collectively, are engaged in the business of manufacturing and selling lead antiknock compounds: Alcor Chemie AG, Alcor Chemie Vertriebs AG, and Novoktan GmbH. The proposed Complaint alleges that the acquisition of Oboadler, if consummated, would violate Section 7 of the Clayton Act, as amended, 15 U.S.C. 18, and Section 5 of the Federal Trade Commission Act, as amended, 15 U.S.C. 45, in the world market for lead antiknock compounds.

Lead antiknock compounds are gasoline additives that contain tetraethyl lead. The product is used to increase the octane rating of gasoline, and thereby eliminate engine knock during the combustion cycle and improve fuel efficiency. Worldwide use of lead antiknocks has declined substantially since the early 1970's, and a continuing decline in demand is forecast. Driven by public health concerns, nations around the world are requiring refiners to adopt alternative methods of increasing the octane level of gasoline. Currently in the United States, lead antiknock compounds are added to aviation fuel for piston engine aircraft, and to certain motor gasoline for racing cars.

The proposed Complaint alleges that the world market for the manufacture and sale of lead antiknock compounds is highly concentrated. Octel and Oboadler are two of only three firms in the world that manufacture lead antiknock compounds. In the United States, lead antiknock compounds manufactured by Octel are distributed by two firms: Octel America Inc. (a subsidiary of Octel) and Ethyl Corporation (''Ethyl'').[1] In the United States, lead antiknock compounds manufactured by Oboadler are distributed by Allchem Industries, Inc. (''Allchem'').

The proposed Complaint further alleges that entry into the market would not be timely, likely and sufficient to deter or counteract the adverse competitive effects of the acquisition on competition. Entry is unlikely to occur because of the length of time and expense necessary to construct production facilities, environmental regulations, and ongoing decline in worldwide demand for lead antiknock compounds, and the cost of environmental remediation at the manufacturing site when, due to decline in demand, production is no longer commercially practicable.

According to the proposed Complaint, the effect of the proposed acquisition may be substantially to lessen competition by, among other things, eliminating direct actual competition between Octel and Oboadler in the relevant market, increasing the likelihood of coordinated interaction between the remaining competitors in the relevant market, and increasing the likelihood that consumers of lead antiknock compounds will be forced to pay higher prices.

The proposed Consent Order is designed to protect U.S. consumers of lead antiknock compounds from the exercise of market power resulting from Octel's proposed acquisition. The foundation for the Consent Order is a long-term supply agreement that Octel has entered into with Allchem, Oboadler's U.S. distributor.[2] The Supply Agreement provides that Octel shall provide Allchem with unlimited quantities of lead antiknock compounds for resale to customers in the United States. Further, Allchem shall have the sole right to determine the customers in the U.S. to whom the product will be resold, as well as the terms and conditions of such resale.

The proposed Consent Order requires Octel to supply product to Allchem for fifteen years in accordance with the terms and conditions of the Supply Agreement, and subject to the termination provision thereof.[3] (Paragraph II) In addition, Octel is prohibited from modifying certain key terms of the Supply Agreement except with the prior approval of the Commission.[4] (Paragraph III)

The wholesale price to be charged to Allchem for lead antiknock compounds is the product of negotiations between Octel and Allchem. If the wholesale price is too high (relative to the price at which Allchem, absent the acquisition, could have obtained product from Oboadler), then prices to U.S. consumers may likewise be supra-competitive. The proposed remedy relies upon Allchem's incentive to negotiate the lowest possible price. The Supply Agreement negotiated by the parties, should it take effect, will afford Allchem a reduction in the wholesale price of lead antiknock compounds (relative to Allchem's existing agreement with Oboadler).

The purpose of this analysis is to facilitate public comment on the proposed Order, and it is not intended to constitute an official interpretation of the agreement and proposed Order or to modify their terms in any way.

By direction of the Commission.

Donald S. Clark,

Secretary.

[FR Doc. 99–24308 Filed 9–17–99; 8:45 am]

BILLING CODE 6750–01–M

[1] *See The Associated Octel Company Limited and Great Lakes Chemical Corporation*, FTC Docket No. C–3815 (1998) (Commission order requiring, *inter alia*, that Octel supply Ethyl with whatever volumes of lead antiknock compounds Ethyl requires for resale to U.S. customers).

[2] Agreement for the Supply of Tetra Ethyl Lead Additive dated July 19, 1999, as amended by the Supplemental Agreement for the Supply of Tetra Ethyl Lead Additive dated July 30, 1999 (hereinafter collectively referred to as the ''Supply Agreement''). The Supply Agreement goes into effect when Octel acquires Oboadler.

[3] At any time after year ten, Octel can terminate the Supply Agreement provided that Octel has ceased to manufacture lead antiknocks and has exited from the worldwide lead antiknocks business.

[4] The purpose of this provision is to prevent Octel and Allchem from modifying the Supply Agreement in a manner that is beneficial to each of them but harmful to U.S. consumers. To take an extreme example, the Commission would likely disapprove a proposed modification in which Allchem received a cash payment in return for surrendering its right to purchase and resell lead antiknocks.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Meeting of the Secretary's Advisory Committee on Genetic Testing

AGENCY: Office of the Secretary, DHHS.

ACTION: Notice of meeting.

Pursuant to Public Law 92–463, notice is hereby given of a meeting of the Secretary's Advisory Committee on Genetic Testing (SACGT), U.S. Public Health Service. The meeting will be held at the Doubletree Hotel, Regency Ballroom, 1750 Rockville Pike, Bethesda, MD 20852, starting on October 25, 1999 at approximately 9:00 a.m. and will recess at approximately 5:30 p.m. The meeting will reconvene on October 26, 1999 at approximately 8:00 a.m. and will adjourn at approximately 5:00 p.m. The meeting will be open to the public. Attendance by the public will be limited by the space available. The committee will continue deliberations begun at its first meeting in June on questions related to the oversight of genetic testing, and it will finalize plans for gathering public perspectives on those questions. A limited period of time will be provided for public comment, and individuals

interested in participating in the public comment period should contact Ms. Sarah Carr, SACGT Executive Secretary, as shown below.

Under authority of 42 U.S.C. 217a, Section 222 of the Public Health Service Act, as amended, the Department of Health and Human Services (DHHS) established the SACGT to advise and make recommendations to the Secretary through the Assistant Secretary for Health on all aspects of the development and use of genetic tests. The SACGT is directed to: (1) Recommended policies and procedures for the safe and effective incorporation of genetic technologies into health care; (2) assess the effectiveness of existing and future measures for oversight of genetic tests; (3) and identify research needs related to the Committee's purview.

Further information about the SACGT is available at the following web site: http://www.nih.gov/od/orda/sacgtdocs.htm. A draft meeting agenda will be posted to the site prior to the meeting. Individuals who wish to provide public comments should notify Ms. Carr, by telephone at 301–496–9838 or E-mail at *sc112c@nih.gov* as soon as possible and provide a copy of their remarks to Ms. Carr by October 15, 1999. Those who plan to attend the meeting and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify Ms. Carr at 301–496–9838. The SACGT office is located at 6000 Executive Boulevard, Suite 302, Bethesda, Maryland 20892.

Dated: September 13, 1999.

Sarah Carr,

Executive Secretary, SACGT.

BILLING CODE 4140–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Toxic Substances and Disease Registry

[INFO–99–38]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Agency for Toxic Substances and Disease Registry (ATSDR) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the ATSDR Reports Clearance Officer on (404) 639–7090.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques for other forms of information technology. Send comments to Nancy Cheal, Ph.D., ATSDR Reports Clearance Officer, 1600 Clifton Road, MS–D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project

Exposure to Volatile Organic Compounds and Childhood Leukemia Incidence at MCB Camp Lejeune, North Carolina—Extension—Agency for Toxic Substances and Disease Registry (ATSDR). There is limited evidence that in utero exposure to volatile organic compounds (VOCs) such as trichloroethylene and tetrachloroethylene (PCE) in drinking water may be strongly associated with childhood leukemia (CL). In 1982, VOC contamination was identified in certain groundwater supply wells which supplied drinking water to housing units at U.S. Marine Corps Base Camp Lejeune in Jacksonville, North Carolina. In a previous health study of approximately 6,000 infants exposed in utero to this contaminated water and 6,000 unexposed births, it was shown that gestational PCE exposure was related to lower birth weights for certain subgroups. The purpose of the proposed nested case-control study is to investigate the potential relationship between exposure to VOCs in drinking water and incidence of CL at Camp Lejeune. A secondary objective of the proposed study is to investigate the potential relationship between VOCs in drinking water and birth defects in this population.

During this phase of the proposed study, an attempt will be made to locate as many of the children born to base residents between 1968 and 1985 as well as offspring from pregnancies that occurred during this time period but were not delivered at Camp Lejeune. A brief screening questionnaire will be interviewer-administered to identify potential cancer and birth defect cases. Some of the data to be collected by the questionnaire includes: confirmation of the name(s) of children and date(s) of birth; dates and location of residence on base during the pregnancy and/or at the time of delivery; current vital status of each child; the determination of diagnosis with cancer or birth defects before age 20. As a result of delays in obtaining data necessary to trace potential respondents, a renewal for this project has been requested.

It is necessary to identify each respondent in order to assess place of residence at Camp Lejeune as a measure of possible VOC exposure as well as to determine possible case status, i.e. reported diagnosis of childhood cancer or birth defect. This information will be used during the next study phase to identify potential cases and controls for the proposed nested case-control study.

With help from the U. S. Navy and U. S. Marine Corps sources, we will obtain current address information and attempt to contact respondents directly. For respondents with unknown current addresses, tracing efforts will include advertising in the general media as well as in publications directed toward Marine Corps and Navy personnel. Once the respondent is located, the questionnaire will be administered by trained interviewers over the telephone.

Respondents will be one of the following: (1) a parent who gave birth or was pregnant while residing at MCB Camp Lejeune between 1968 and 1985; (2) a parent who was pregnant while residing at MCB Camp Lejeune between 1968 and 1985 but gave birth elsewhere; or (3) an offspring of said parents. The number of births that occurred at MCB Camp Lejeune during this period is approximately 12,000. It has been estimated that approximately one-third of women who seek prenatal care while residing at Camp Lejeune are relocated before delivery. Therefore, attempts will be made to contact and interview up to an additional 4,000 respondents. Of the 16,000 total possible respondents, a conservative estimate of the number that will be located and subsequently interviewed is 13,000 (about 80%).

The hourly burden has been modified since the first submittal. This was a result of pretesting of the data collection instrument. It was found that the average completion time per survey was closer to 15 minutes as opposed to the original estimate of 9 minutes.

Type of respondents	Number of respondents	Number of responses/respondent	Avg. burden of response (In hrs.)	Total burden (In hrs.)
Parent/Child born at Camp Lejeune; 1968–1985	9,650	1	0.25	2,412.50
Pregnancy at Camp Lejeune, delivery else-where; 1968–1985	3,350	1	0.25	837.50
Total				3,250.00

Dated: September 14, 1999.

Nancy Cheal,

Acting Associate Director for Policy, Planning and Evaluation, Centers for Disease Control and Prevention (CDC).

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639–7090.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques for other forms of information technology. Send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS–D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project

National Coal Workers' Autopsy Study Consent Release and History Form—(0920–0021)—Extension—National Institute for Occupational Safety and Health (NIOSH)—Under the Federal Coal Mine Health & Safety Act of 1977, PL91–173 (amended the Federal Coal Mine & Safety Act of 1969), the Public Health Service has developed a nationwide autopsy program (NCWAS) for underground coal miners. The Consent Release and History Form is primarily used to obtain written authorization from the next-of-kin to perform an autopsy on the deceased miner. The study is a service program to aid surviving relatives in establishing eligibility for black lung compensation. Because a basic reason for the post-mortem exam is research (both epidemiological and clinical), included are a minimum of essential information regarding the deceased miner, his occupational history, and his smoking history. The data collected will be used by the staff at NIOSH for research purposes in defining the diagnostic criteria for coal workers' pneumoconiosis (black lung) and will be correlated with pathologic changes and x-ray findings.

It is estimated that only 5 minutes is required for the pathologist to put a statement on the invoice affirming that no other compensation is received for the autopsy. From past experience, it is estimated that 15 minutes is required for the next-of-kin to complete form CDC/NIOSH 2.6. In as much as an autopsy report is routinely completed by a pathologist, the only additional burden is the specific request of abstract of terminal illness and final diagnosis relating to pneumoconiosis. Therefore, only 5 minutes of additional burden is estimated for the autopsy report.

Respondent Costs

25 Burden Hours (Pathologists) @ $60/hour = $ 1,500

37.5 Burden Hours (Next-of-Kin) @ $12/hour = $ 450

Total: $ 1,950

The total cost to respondents is estimated at $1,950.

Data Collection:

Respondents	Number of respondents	Number of responses/respondent	Avg. burden of response (In hrs.)	Total burden (In hrs.)
Pathologist Invoice	150	1	5/60	12.5
Report	150	1	5/60	12.5
Next-of-Kin	150	1	15/60	37.5
Total				62.5

Dated: September 14, 1999.

Nancy Cheal,

Acting Associate Director for Policy, Planning and Evaluation, Centers for Disease Control and Prevention (CDC).

Centers for Disease Control and Prevention

Advisory Committee on Immunization Practices: Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), the Centers for Disease Control and Prevention (CDC) announces the following committee meeting:

Name: Advisory Committee on Immunization Practices (ACIP).

Times and Dates: 8 a.m.–6 p.m., October 20, 1999; 8 a.m.–6 p.m., October 21, 1999; 8 a.m.–12 p.m., October 22, 1999.

Place: Auditorium B, Centers for Disease Control and Prevention, 1600 Clifton Road, N.E., Atlanta, Georgia 30333.

Status: Open to the public, limited only by the space available.

Purpose: The Committee is charged with advising the Director, CDC, on the appropriate uses of immunizing agents. In addition, under 42 U.S.C. 1396s, the Committee is mandated to establish and periodically review and, as appropriate, revise the list of vaccines for administration to vaccine-eligible children through the Vaccines for Children (VFC) program, along with schedules regarding the appropriate periodicity, dosage, and contraindications applicable to the vaccines.

Matters To Be Discussed: The agenda will include a review of issues relating to the goal of eliminating or reducing the thimerosal content of vaccines; adoption of the harmonized immunization schedule for the year 2000; recommendations for use of meningococcal polysaccharide vaccine for college students; an update on the use of meningococcal conjugate vaccine in the United Kingdom; recommendations for use of pneumococcal conjugate vaccine; inclusion of the pneumococcal vaccine in the Vaccines for Children program; recommendations for use of neuraminidase inhibitors; use of influenza vaccine in pregnant women and young children; plans to revise the adult immunization recommendations; approval of standing orders for adult immunization, adolescent/adults acellular pertussis products; adverse events reported after use of yellow fever vaccine in older adults; prevention of pneumococcal disease in adults <65 years old; an update on the bioterrorism work group; military experience on use of anthrax vaccine; an update from the Food and Drug Administration; update from the National Center for Infectious Diseases; update from the National Immunization Program; update from the Vaccine Injury Compensation Program; update from the National Vaccine Program; rotavirus vaccine and intussusception; and resumption or continued suspension of use of rotavirus vaccine. Other matters of relevance among the committee's objectives may be discussed.

Agenda items are subject to change as priorities dictate.

Contact Person For More Information: John R. Livengood, M.D., Director, Epidemiology and Surveillance Division, National Immunization Program, CDC, CDC, 1600 Clifton Road, NE, m/s E61, Atlanta, Georgia 30333. Telephone 404/639–8254.

The Director, Management Analysis and Services office has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Dated: September 14, 1999.

John C. Burckhardt,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

Advisory Council for the Elimination of Tuberculosis: Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), the Centers for Disease Control and Prevention (CDC) announces the following council meeting.

Name: Advisory Council for the Elimination of Tuberculosis (ACET).

Times And Dates:

8:30 a.m.–5 p.m., October 6, 1999.
8:30 a.m.–12 p.m., October 7, 1999.

Place: Corporate Square Office Park, Corporate Square Boulevard, Building 11, Room 1413, Atlanta, Georgia 30329.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 100 people.

Purpose: This council advises and makes recommendations to the Secretary of Health and Human Services, the Assistant Secretary for Health, and the Director, CDC, regarding the elimination of tuberculosis. Specifically, the Council makes recommendations regardindg policies, strategies, objectives, and priorities; addresses the development and application of new technologies; and reviews the extent to which progress has been made toward eliminating tuberculosis.

Matters To Be Discussed: Agenda items include update on latent TB infection, TB vaccine issues, and other TB related topics. Agenda items are subject to change as priorities dictate.

Contact Person for More Information: Paulette Ford, National Center for HIV, STD, and TB Prevention, 1600 Clifton Road, NE, M/S E–07, Atlanta, Georgia 30333, telephone 404/639–8008.

The Director, Management Analysis and Services Office, has been delegated the authority to sign Federal Register Notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Dated: September 14, 1999.

BILLING CODE 4163–18–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Medical Child Support Working Group

AGENCY: Administration for Children and Families, DHHS.

ACTION: Notice of open meeting.

SUMMARY: Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (FACA), notice is given of the fifth meeting of the Medical Child Support Working Group (MCSWG). The Medical Child Support Working Group was jointly established by the Secretaries of the Department of Labor (DOL) and the Department of Health and Human Services (DHHS) under section 401(a) of the Child Support Performance and Incentive Act of 1998. The purpose of the MCSWG is to identify the impediments to the effective enforcement of medical support by State child support enforcement agencies, and to submit to the Secretaries of DOL and DHHS a report containing recommendations for appropriate measures to address those impediments.

DATES: The meeting of the MCSWG will be held on Monday, October 4, 1999 and on Tuesday, October 5, 1999, from 8:30 a.m. to approximately 6:00 p.m., and on Wednesday, October 6, 1999, from 8:30 a.m. to approximately noon.

ADDRESSES: The meeting will be held in the Conference Center of the Quality Inn Iwo Jima, 1501 Arlington Boulevard (US Route 50) at Fairfax Drive, Arlington, Virginia, 22209, telephone number (703) 524–5000. All interested parties are invited to attend this public meeting. Seating may be limited and will be available on a first-come, first-serve basis. Persons needing special assistance, such as sign language interpretation or other special accommodation, should contact the Executive Director of the Medical Child Support Working Group, Office of Child Support Enforcement at the address listed below.

FOR FURTHER INFORMATION CONTACT: Ms. Samara Weinstein, Executive Director, Medical Child Support Working Group, Office of Child Support Enforcement, Fourth Floor East, 370 L'Enfant Promenade, SW, Washington, DC 20447 (telephone (202) 401–6953; fax (202) 401–5559; e-mail: sweinstein@acf.dhhs.gov). These are not toll-free numbers. The date, location and time for subsequent MCSWG meetings will be announced in advance in the **Federal Register.**

SUPPLEMENTARY INFORMATION: Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2) (FACA), notice is given of a meeting of the Medical Child Support Working Group (MCSWG). The Medical Child Support Working Group was jointly established by the Secretaries of the Department of Labor (DOL) and the Department of Health and

Human Services (DHHS) under section 401(a) of the Child Support Performance and Incentive Act of 1998 (P.L. 105–200).

The purpose of the MCSWG is to identify the impediments to the effective enforcement of medical support by State child support enforcement agencies, and to submit to the Secretaries of DOL and DHHS a report containing recommendations for appropriate measures to address those impediments. This report will include: (1) Recommendations based on assessments of the form and content of the National Medical Support Notice, as issued under interim regulations; (2) appropriate measures that establish the priority of withholding of child support obligations, medical support obligations, arrearages in such obligations, and in the case of a medical support obligation, the employee's portion of any health care coverage premium, by such State agencies in light of the restrictions on garnishment provided under title III of the Consumer Credit Protection Act (15 U.S.C. 1671–1677); (3) appropriate procedures for coordinating the provision, enforcement, and transition of health care coverage under the State programs for child support, Medicaid and the Child Health Insurance Program; (4) appropriate measures to improve the availability of alternate types of medical support that are aside from health care coverage offered through the noncustodial parent's health plan, and unrelated to the noncustodial parent's employer, including measures that establish a noncustodial parent's responsibility to share the cost of premiums, co-payments, deductibles, or payments for services not covered under a child's existing health coverage; (5) recommendations on whether reasonable cost should remain a consideration under section 452(f) of the Social Security Act; and (6) appropriate measures for eliminating any other impediments to the effective enforcement of medical support orders that the MCSWG deems necessary.

The membership of the MCSWG was jointly appointed by the Secretaries of DOL and DHHS, and includes representatives of: (1) DOL; (2) DHHS; (3) State Child Support Enforcement Directors; (4) State Medicaid Directors; (5) employers, including owners of small businesses and their trade and industry representatives and certified human resource and payroll professionals; (6) plan administrators and plan sponsors of group health plans (as defined in section 607(1) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1167(1)); (7) children potentially eligible for medical support, such as child advocacy organizations; (8) State medical child support organizations; and (9) organizations representing State child support programs.

Agenda

The agenda for this meeting includes a discussion of the issues to be contained in the MCSWG's report to the Secretaries containing recommendations for appropriate measures to address the impediments to the effective enforcement of medical child support as listed above. At the May, 1999, meeting, the MCSWG formed four (4) sub-committees to discuss barriers, issues, options, and recommendations in the interim between full MCSWG meetings. At this October, 1999, meeting, the four sub-committees will present their issues and recommendations to the full MCSWG for further discussion and consideration.

Public Participation

Members of the public wishing to present oral statements to the MCSWG should forward their requests to Samara Weinstein, MCSWG Executive Director, as soon as possible and at least four days before the meeting. Such request should be made by telephone, fax machine, or mail, as shown above. Time permitting, the Chairs of the MCSWG will attempt to accommodate all such requests by reserving time for presentations. The order of persons making such presentations will be assigned in the order in which the requests are received. Members of the public are encouraged to limit oral statements to five minutes, but extended written statements may be submitted for the record. Members of the public also may submit written statements for distribution to the MCSWG membership and inclusion in the public record without presenting oral statements. Such written statements should be sent to the MCSWG Executive Director, as shown above, by mail or fax at least five business days before the meeting.

Minutes of all public meetings and other documents made available to the MCSWG will be available for public inspection and copying at both the DOL and DHHS. At DHHS, these documents will be available at the MCSWG Executive Director's Office, Office of Child Support Enforcement (OCSE), Administration for Children and Families, U.S. Department of Health and Human Services, Aerospace Building, Fourth Floor—East, 370 L'Enfant Promenade, SW, Washington, DC from 8:30 a.m. to 5:30 p.m. Questions regarding the availability of documents from DHHS should be directed to Andrew J. Hagan, OCSE (telephone (202) 401–5375). This is not a toll-free number. Any written comments on the minutes should be directed to Ms. Samara Weinstein, Executive Director of the Working Group, as shown above.

Dated: September 14, 1999.

David Gray Ross,

Commissioner, Office of Child Support Enforcement.

BILLING CODE 4184–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 96N–0393]

Agency Information Collection Activities; Submission for OMB Review; Comment Request; MedWatch: The FDA Medical Products Reporting Program

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that the proposed collection of information listed below has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995 (the PRA).

DATES: Submit written comments on the collection of information by October 20, 1999.

ADDRESSES: Submit written comments on the collection of information to the Office of Information and Regulatory Affairs, OMB, New Executive Office Building, 725 17th St. NW., rm. 10235, Washington, DC 20503, Attn: Desk Officer for FDA.

FOR FURTHER INFORMATION CONTACT: Mark L. Pincus, Office of Information Resources Management (HFA–250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–827–1471.

SUPPLEMENTARY INFORMATION: In compliance with section 3507 of the PRA (44 U.S.C. 3507), FDA has submitted the following proposed collection of information to OMB for review and clearance.

MedWatch—The FDA Medical Products Reporting Program (Forms FDA 3500 and FDA 3500A) (OMB Control Number 0910–0291)—Extension

Under sections 505, 512, 513, 515, and 903 of the Federal Food, Drug, and

Cosmetic Act (the act) (21 U.S.C. 355, 360b, 360c, 360e, and 393); and section 351 of the Public Health Service Act (42 U.S.C. 262), FDA has the responsibility to ensure the safety and effectiveness of drugs, biologics, and devices. Under section 502(a) of the act (21 U.S.C. 352(a)), a drug or device is misbranded if its labeling is false or misleading. Under section 502(f)(1) of the act, it is misbranded if it fails to bear adequate warnings, and under section 502(j), it is misbranded if it is dangerous to health when used as directed in its labeling.

Under section 4 of the Dietary Supplement Health and Education Act of 1994 (the DSHEA) (21 U.S.C. 301), FDA must bear the burden of proof to show a dietary supplement is unsafe.

To carry out its responsibilities, the agency needs to be informed whenever an adverse event or product problem occurs. Only if FDA is provided with such information will the agency be able to evaluate the risk, if any, associated with the product, and take whatever regulatory action is necessary to reduce or eliminate the public's exposure to the risk through actions ranging from labeling changes to the rare product withdrawal. To ensure the marketing of safe and effective products, certain adverse events must be reported. Requirements regarding mandatory reporting of adverse events or product problems have been codified in parts 310, 312, 314, 600, and 803 (21 CFR parts 310, 312, 314, 600, and 803), specifically §§ 310.305, 312.32, 312.33, 314.80, 314.98, 600.80, 803.30, 803.50, 803.53, and 803.56.

To implement these provisions for reporting of adverse events and product problems with all medications, devices, and biologics, as well as any other products that are regulated by FDA, two very similar forms are used. Form FDA 3500 is used for voluntary (i.e., not mandated by law or regulation) reporting of adverse events and product problems by health professionals and the public. Form FDA 3500A is used for mandatory reporting (i.e., required by law or regulation). Respondents to this collection of information are health professionals, hospitals and other user-facilities (e.g., nursing homes, etc.), consumers, manufacturers of biologics, drugs and medical devices, distributors, and importers.

I. Use of the Voluntary Version (Form FDA 3500)

Individual health professionals are not required by law or regulation to submit adverse event or product problem reports to the agency or the manufacturer. There is one exception. The National Childhood Vaccine Injury Act of 1986 (the NCVIA) mandates that certain adverse events following the administration of vaccines specified in the NCVIA be reported by physicians to the joint FDA/Centers for Disease Control and Prevention Vaccine Adverse Event Reporting System.

Hospitals are not required by Federal law or regulation to submit adverse event reports on medications. However, hospitals and other medical facilities are required by Federal law to report medical device-related deaths and serious injuries.

Manufacturers of dietary supplements do not have to prove safety or efficacy of their products prior to marketing, nor do they have mandatory requirements for reporting adverse reactions to FDA. However, the DSHEA of 1994 puts the onus on FDA to prove that a particular product is unsafe. Consequently, the agency is totally dependent on voluntary reporting by health professionals and consumers about problems with the use of dietary supplements.

The voluntary version of the form is used to submit all adverse event and product problem reports not mandated by Federal law or regulation.

II. Use of the Mandatory Version (Form FDA 3500A)

A. Drug and Biologic Products

In sections 505(j) and 704 (21 U.S.C. 374) of the act, Congress has required that important safety information relating to all human prescription drug products be made available to FDA so that it can take appropriate action to protect the public health when necessary. Section 702 of the act (21 U.S.C. 372) authorizes investigational powers to FDA for enforcement of the act. These statutory requirements regarding mandatory reporting have been codified by FDA under parts 310, 312 and 314 (drugs), and part 600 (biologics). Parts 310, 314, and 600 mandate the use of the Form FDA 3500A for reporting to FDA on adverse events that occur with drugs and biologics; under § 312.32, written IND safety report notifications may be submitted on Form FDA 3500A.

B. Medical Device Products

Section 519 of the act (21 U.S.C. 360i) requires manufacturers, importers, or distributors of devices intended for human use to establish and maintain records, make reports, and provide information as the Secretary of Health and Human Services may by regulation reasonably require to ensure that such devices are not adulterated or misbranded and to otherwise ensure its safety and effectiveness. Furthermore, the Safe Medical Device Act of 1990, signed into law on November 28, 1990, amends section 519 of the act. The amendment requires that user facilities such as hospitals, nursing homes, ambulatory surgical facilities, and outpatient treatment facilities report deaths related to medical devices to FDA and to the manufacturer, if known. Serious illnesses and injuries are to be reported to the manufacturer or to FDA if the manufacturer is not known. These statutory requirements regarding mandatory reporting have been codified by FDA under part 803. Part 803 mandates the use of Form FDA 3500A for reporting to FDA on medical devices.

C. Other Products Used in Medical Therapy

There are no mandatory requirements for the reporting of adverse events or product problems with products such as dietary supplements. However, the DSHEA puts the onus on FDA to prove that a particular product is unsafe. Consequently, the agency is totally dependent on voluntary reporting by health professionals and consumers about problems with the use of dietary supplements.

The agency requested comments on proposed changes to the forms which comprise this collection of information in the **Federal Register** of November 10, 1998 (63 FR 63064). FDA received 21 comments from interested parties.

Comments were made about the estimate of the ''hours per response.'' One comment correctly stated that the ''estimate may be about right for the physical act of filling out the form itself.'' Because Form FDA 3500A is used for mandatory reporting subject to different regulations (i.e., §§ 310.305, 312.32, 314.80, 600.80, and 803), this estimate for reporting burden is limited to completing the form. Estimates of the burden placed on user-facilities, distributors, and manufacturers to investigate a report and compile the necessary information would be addressed in the final rules for those regulations.

Comments on the mandatory version of the form generally addressed the perceived major impact such a revision would have on the pharmaceutical and medical device industry, particularly the financial burden that would result from having to both reprogram their computer systems to handle new data elements and produce printed copies of the new form. Two major reasons for not revising the form at this time were presented by multiple respondents as follows:

(1) The medical product industry (particularly the medical device industry) is focused on ensuring Year 2000 compliance. To dedicate computer personnel to totally revamp their computer systems to handle the new form would not be possible at this time because of the impact it would have on meeting absolute deadlines; and

(2) Given that the goal is for both the pharmaceutical and medical device industries to submit the majority of mandatory reports electronically, it would present a financial burden to revamp systems to accommodate a paper form that will be virtually obsolete in the future.

While the comments on the proposed revisions to the voluntary form were mainly favorable, the agency has decided to not revise either form at this time. This decision reflects both concern about the financial burden that would be placed on FDA if the voluntary form underwent revision, and the availability of other avenues by which use of the voluntary and mandatory forms can be optimized, namely appropriate revision of documents related to their completion.

Regarding voluntary reporting, updated instructions for completing the Form FDA 3500 were posted on the Internet on the MedWatch home page in December 1998, and are available by mail/fax upon request. Questions/comments about adverse event/product problem reporting received by the agency over time were used as a major focus for revising the instructions. This updating included such changes as incorporation of information designed to solicit information specific to special nutritional products (e.g., dietary supplements) and current Department of Health and Human Services names and definitions for race to facilitate reporting of this aspect of the medical history.

In the same vein, an omnibus entitled ''Guidance on How to Complete Form FDA 3500A'' for use by user facilities, distributors, importers, and manufacturers for mandatory adverse event and product problem reporting is being drafted. Also utilizing questions/comments about adverse event/product problem reporting received by the agency over time as a major focus for revision, the guidance will be designed to minimize possible ambiguity and maximize the utility of Form FDA 3500A as a tool for soliciting important safety-related information and data. It is planned that this guidance will replace instructions that are currently available.

As both the Forms FDA 3500 (instructions) and 3500A (guidance) can be updated periodically based on questions/comments from stakeholders and statutory/regulatory changes, changing the forms themselves is not seen as necessary at this point.

At such time it is decided to repropose revisions, FDA will consult all interested parties for input into the design.

FDA estimates the burden for this collection of information as follows:

TABLE 1.—ESTIMATED ANNUAL REPORTING BURDEN

FDA Center(s)[1] (21 CFR Section)	No. of Respondents	Annual Frequency Per Response	Total Annual Responses	Hours per Response	Total Hours
CBER/CDER					
Form 3500[2]	15,456	1	15,456	0.5	7,728
Form 3500A[3] (310.305, 312.32, 314.80, 314.98, and 600.80)	410	529.3	217,014	1	217,014
CDRH					
Form 3500[2]	2,789	1	2,789	0.5	1,395
Form 3500A[3] (part 803)	3,100	30.25	93,786	1	93,786
CFSAN					
Form 3500[2]	316	1	316	0.5	158
Form 3500A[3] (No mandatory requirements)	0	0	0	1	0
Total Hours					320,081
Form 3500[2]					9,281
Form 3500A[3]					310,800

[1] CBER (Center for Biologics Evaluation and Research), CDER (Center for Drug Evaluation and Research), CDRH (Center for Devices and Radiological Health), and CFSAN (Center for Food Safety and Applied Nutrition).

[2] Form FDA 3500 is for voluntary reporting.

[3] Form FDA 3500A is for mandatory reporting.

Note.—The figures in Table 1 of this document are based on actual calendar year 1998 reporting experience. It is assumed that the number of reports will remain stable.

The increase in reporting burden reflects a natural increase in the number of reports coming into the agency. As more medical products are approved by FDA and marketed, and as knowledge increases of the importance of notifying FDA when adverse events and product problems are observed, it can be expected that more reports will be submitted to the agency either directly (voluntary Form FDA 3500) or via the manufacturer/user-facility (mandatory Form FDA 3500A).

Dated: September 7, 1999.

William K. Hubbard,

Senior Associate Commissioner for Policy, Planning and Legislation.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Health Resources and Services Administration (HRSA) publishes abstracts of information collection requests under review by the Office of Management and Budget, in compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). To request a copy of the clearance requests submitted to OMB for

review, call the HRSA Reports Clearance Office on (301)–443–1129.

The following request has been submitted to the Office of Management and Budget for review under the Paperwork Reduction Act of 1995:

Proposed Project: Organ Procurement and Transplantation Network (OPTN) Data System (OMB No. 0915–0157)—Revision

This is a request for revision of the data system for the Organ Procurement and Transplantation Network (OPTN) and the Scientific Registry of Transplant Recipients (SRTR) and the following associated forms: (1) cadaver donor registration/referral; (2) living donor registration; (3) donor histocompatibility; (4) potential recipient form; (5) recipient histocompatibility; (6) transplant candidate registration; (7) thoracic organ recipient registration; (8) thoracic organ recipient follow-up; (9) kidney transplant recipient registration; (10) kidney transplant recipient follow-up form; (11) liver transplant recipient registration; (12) liver transplant recipient follow-up; (13) pancreas transplant recipient registration; (14) pancreas transplant recipient follow-up; (15) intestine transplant recipient registration; and (16) intestine transplant recipient follow-up. New forms are related to intestine transplants to collect data similar to other types of transplants.

The estimated respondent burden is as follows:

	Number of respondents	Responses per respondent	Hours per response	Total hour burden
Cadaveric Registration or Referral	65	277	0.3	5,400
Living Donor Registration	687	7	0.2	920
Living Donor Follow-up	687	14	0.1	952
Donor Histocompatibility	159	75	0.1	1,200
Potential Recipient Form	65	385	0.3	7,500
Recipient Histocompatibility	159	157	0.1	2,500
Transplant Candidate Registration	687	114	0.2	15,600
Thoracic Registration	153	27	0.3	1,230
Thoracic Follow-up	153	144	0.2	4,400
Kidney Registration	252	58	0.3	4,380
Kidney Follow-up	252	500	0.2	25,200
Liver Registration	125	40	0.4	2,000
Liver Follow-up	125	192	0.3	7,200
Pancreas Registration	125	11	0.3	420
Pancreas Follow-up	125	56	0.2	1,400
Intestine Registration	33	3	0.2	20
Intestine Follow-up	33	6	0.2	40
Total	911	.....	.....	80,362

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: Wendy A Taylor, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC.

Dated: September 14, 1999.

Jane Harrison,

Director, Division of Policy Review and Coordination.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

National Institutes of Health; Notice of Listing of Members of the National Institutes of Health's Senior Executive Service Performance Review Board (PRB)

The National Institutes of Health (NIH) announces the persons who will serve on the National Institutes of Health's Senior Executive Service Performance Review Board. This action is being taken in accordance with Title 5, U.S.C., Section 4314(c)(4), which requires that members of performance review boards be appointed in a manner to ensure consistency, stability, and objectivity in performance appraisals, and requires that notice of the appointment of an individual to serve as a member be published in the **Federal Register**.

The following persons will serve on the NIH Performance Review Board, which oversees the evaluation of performance appraisals of NIH Senior Executive Service (SES) members:

Ruth L. Kirschstein, Chairperson
Wendy Baldwin
Colleen Barros
Marvin Cassman
Naomi Churchill-Earp
Robert Desimone
Stephen Ficca
Michael Gottesman
Barry Hoffer
Anthony Itteilag
Alan Leshner
Yvonne Maddox
Louise Ramm

For further information about the NIH Performance Review Board, contact the Office of Human Resource Management, Senior and Scientific Employment Division, National Institutes of Health, Building 31/B3C08, Bethesda, Maryland 20892, telephone (301) 496–1443 (not a toll-free number).

Dated: September 9, 1999.

Ruth L. Kirschstein,

Deputy Director, NIH.

Substance Abuse and Mental Health Services Administration

Center for Substance Abuse Prevention; Notice of Meeting

Pursuant to Public Law 92–463, notice is hereby given of a Telephone Conference Call meeting of the Center for Substance Abuse Prevention (CSAP) National Advisory Council September 1999.

The agenda will include the review, discussion and evaluation of individual grant applications. Therefore this

meeting will be closed to the public as determined by the Administrator, SAMHSA, in accordance with Title 5 U.S.C. 552b(c)(6) and 5 U.S.C. App. 2, Section 10(d).

Substantive program information may be obtained from the contact listed below.

Committee Name: Center for Substance Abuse Prevention National Advisory Council.

Meeting Date: September 28, 1999.

Place: The Center for Substance Abuse Prevention, 5515 Security Lane, Rockwall II Building, 9th Floor, Room 901, Rockville, Maryland 20852.

Closed: September 28, 1999, 1:00 p.m. to 2:00 p.m.

Contact: Yuth Nimit, 5515 Security Lane, Rockwall II Building, Suite 901, Rockville, Maryland 20852, Telephone: (301) 443–8455.

Dated: September 9, 1999.

Sandra Stephens,

Acting Committee Management Officer, Substance Abuse and Mental Health Services Administration.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Little River Band of Ottawa Indians Liquor Control Ordinance

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: This Notice is published in accordance with authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 209 DM 8, and in accordance with the Act of August 15, 1953, 67 Stat. 586, 18 U.S.C. 1161, as interpreted by the Supreme Court in *Rice* v. *Rehner,* 463 U.S. 713 (1983). I certify that the Little River Band of Ottawa Indians Liquor Control Ordinance was duly adopted and certified by Ordinance No. 99–0710–01 of the Little Band of Ottawa Indians' Tribal Council on July 10, 1999. The Ordinance provides for the regulation of the sale, possession and consumption of liquor in the area of the Little River Band of Ottawa Indians, under the jurisdiction of the Little River Band of Ottawa Indians, and is in conformity with the laws of the State of Michigan.

DATES: This ordinance is effective as of September 20, 1999.

FOR FURTHER INFORMATION CONTACT: Jim D. James, Office of Tribal Services, 1849 C Street, NW, MS 4641 MIB, Washington, DC 20240–4401; telephone (202) 208–4400.

SUPPLEMENTARY INFORMATION: The Little River Band of Ottawa Indians Liquor Control Ordinance is to read as follows:

Section 1. General Provisions

1.01. *Title.* This Ordinance shall be known as the ''Little River Band of Ottawa Indians Liquor Control Ordinance.''

1.02. *Purpose.* The purpose of this Ordinance is to regulate and control the importation, manufacture, distribution, and sale of alcoholic beverages on the Little River Band of Ottawa Indians Reservation.

1.03. *Legislative Findings.* The Little River Band of Ottawa Indians Tribal Council hereby finds as follows:

a. The Tribal Council has the authority to adopt this Ordinance pursuant to the powers vested in it by Article IV, Section 7 of the Constitution, approved on July 10, 1998.

b. Federal law prohibits the introduction and sale of liquor into Indian country unless such transaction is in conformity both with the laws of the State in which such act or transaction occurs and with an Ordinance duly adopted by the tribe having jurisdiction over such area of Indian country.

c. The regulation and control of alcoholic beverages on the Tribe's reservation is necessary to protect the health, security and general welfare of the Tribe.

d. The enactment of this Ordinance is an exercise of the inherent sovereign powers of the Tribe.

1.04. *Declaration of Policy.* The importation, distribution, manufacture, and sale of alcoholic beverages on the Tribe's reservation shall be lawful, provided that such activity is licensed by the Tribe in accordance with this Ordinance and the laws of the State of Michigan relating to the sale and regulation of alcoholic beverages.

1.05. *Application of 18 U.S.C. 1161.* The importation, distribution, manufacture, and sale of alcoholic beverages on the Tribe's reservation shall be ''in conformity with'' this Ordinance and the laws of the State of Michigan as that phrase is used in 18 U.S.C. 1161.

1.06. *Incorporation of Michigan Laws by Reference.*

a. In accordance with 18 U.S.C. 1161, the Tribe hereby adopts and applies as tribal law those Michigan laws, as amended, relating to the sale and regulation of alcoholic beverages encompassing the following areas: sale to a minor; sale to a visibly intoxicated individual; sale of adulterated or misbranded liquor; hours of operation; and similar substantive provisions, including such other laws prohibiting the sale of alcoholic beverages to certain categories of individuals. The tribal laws that are defined by reference to the substantive areas of Michigan laws referred to in this section shall apply in the same manner and to the same extent as such laws apply elsewhere in Michigan to off-reservation transactions unless otherwise agreed by the Tribe and State.

b. In the event any provision of this Ordinance is in conflict with the substantive provisions of Michigan law adopted and applied pursuant to this Ordinance, the terms of this Ordinance shall govern.

c. Whenever such Michigan laws are incorporated herein by reference, amendments thereto shall also be deemed to be incorporated upon their effective adoption by the Tribe or the Tribal Council.

d. Nothing in this Ordinance shall be construed as a consent by the Tribe to the jurisdiction of the State of Michigan or any of its courts or subordinate political subdivisions or municipalities within the Reservation over any activity arising under or related to the subject of this Ordinance nor shall anything in this Ordinance constitute an express or implied waiver of the sovereign immunity of the Tribe.

1.07. *Severability Clause.* In the event any provision of this Ordinance shall be found or declared to be invalid by a court of competent jurisdiction, all of the remaining provisions of this Ordinance shall be unaffected and shall remain in full force and effect.

1.08. *Effective Date.* The effective date of this Ordinance is the date the Secretary of the Interior publishes the same in the **Federal Register**.

Section 2. Terms Defined.

As used in this Ordinance, the following words shall have the following meanings unless the context clearly requires otherwise:

2.01. *Alcohol* means the product of distillation of fermented liquid, whether or not rectified or diluted with water, but does not mean ethyl or industrial alcohol, diluted or not, that has been denatured or otherwise rendered unfit for beverage purposes.

2.02. *Alcoholic beverage* or *liquor* means any spirituous, vinous, malt, or fermented liquid and compounds, whether or not medicated, proprietary, patented, and by whatever name called, containing half (½) of 1% or more of alcohol by volume which is fit for use for beverage purposes. Alcoholic beverage or liquor includes the following eight subclassifications: beer, wine, spirits, alcohol, sacramental wine, brandy, mixed wine drink, and mixed spirit drink. Alcoholic beverage or liquor does not include the exceptions set forth in Mich. Comp. Laws § 436.4 (Mich. St. Ann. § 18.974).

2.03. *Applicant* means any person who submits an application to the Tribe for a liquor license or who applies for or requests a license required by this Ordinance.

2.04. *Beer* means any beverage obtained by alcoholic fermentation of an infusion or decoction of barley, malt, hops, or other cereal in potable water.

2.05. *Constitution* means the Constitution of the Little River Band of Ottawa Indians ratified by the members of the Tribe on May 27, 1998, and approved by the Deputy Commissioner of Indian Affairs on July 10, 1998.

2.06. *Council* or *Tribal Council* means the elected Tribal Council of the Little River Band of Ottawa Indians.

2.07. *License* means a liquor license issued by the Tribal Council pursuant to this Ordinance.

2.08. *Licensee* means any holder of a valid liquor license issued by the Tribal Council.

2.09. *Manufacturer* means any person engaged in the manufacture of alcoholic beverages.

2.10. *Ogema* or *Tribal Ogema* means the chief executive officer of the Tribe elected by

majority vote of the members of the Tribe or the person authorized to perform the duties of the Ogema in his/her absence.

2.11. *Person* means an individual, receiver, assignee, trustee in bankruptcy, trust, estate, tribe, firm, partnership, joint venture, corporation, association, society, or any group of individuals acting as a unit, whether mutual, cooperative, fraternal, non-profit, or otherwise.

2.12. *Reservation* means (i) all lands acquired by the Secretary of the Interior in trust for the benefit of the Tribe; (ii) upon the proclamation of the reservation, all lands within the exterior boundaries of the Tribe's reservation; and (iii) any and all lands made part of the reservation in the future.

2.13. *Sacramental wine* means wine containing not more than 24% of alcohol by volume which is used for sacramental purposes.

2.14. *Sale* means the exchange, barter, traffic, furnishing, or giving away for commercial purposes any alcoholic beverages.

2.15. *Spirits* means any beverage which contains alcohol obtained by distillation, mixed with potable water or other substances, or both, in solution, and includes wine containing an alcoholic content of more than 21% by volume, except sacramental wine and mixed spirit drink.

2.16. *Tribal Court* means the Tribal Court of the Little River Band of Ottawa Indians.

2.17. *Tribal Enterprise* means any activity or business owned, managed, or controlled by the Tribe or any agency, subordinate organization, or other entity of the Tribe.

2.18. *Tribal law* means the Tribal Constitution and all laws, ordinances, codes, resolutions, and regulations now and hereafter duly enacted by the Tribal Council.

2.19. *Tribe* means, and *tribal* refers to, the Little River Band of Ottawa Indians.

2.20. *Wine* means the product made by the normal alcoholic fermentation of the juice of sound, ripe grapes, or any other fruit with the usual cellar treatment, and containing not more than 21% of alcohol by volume, including fermented fruit juices other than grapes and mixed wine drinks.

Section 3. Licenses

3.01. *Licensing Authority of Tribal Council.* The Council shall exercise all of the powers necessary to accomplish the purposes of this Ordinance, which may include the following actions:

(a) Adopt and enforce rules and regulations for the purpose of effectuating this Ordinance, which includes setting of fees;

(b) execute all necessary documents;

(c) perform all matters and things incidental to and necessary to conduct its business and carry out its duties and functions under this Ordinance;

(d) establish a commission and delegate to such commission the authority to regulate licensees and enforce this Ordinance; and

(e) to establish procedures to issue, suspend, revoke or transfer licenses under this Ordinance.

3.02. *Prohibition of Unlicensed Sale of Liquor.* This Ordinance prohibits the importation, manufacture, distribution, or sale of liquor for commercial purposes other than where conducted by a person licensed in accordance with this Ordinance. The federal laws relating to the importation, manufacture, distribution and sale of liquor are intended to remain applicable to any act or transaction that is not authorized by this Ordinance, and violators shall be subject to federal law.

3.03. *Purchases only from State licensed Distributors.* All persons shall purchase spirits, for resale by the person, from the Michigan Liquor Control Commission, and beer and wine from distributors licensed by the Michigan Liquor Control Commission, on the same basis that such beverages are purchased by similar licensees.

3.04. *Authorization to Sell Liquor.* Any person applying for and obtaining a license under the provisions of this Ordinance shall have the right to engage only in those alcoholic liquor transactions expressly authorized by such license and only at those specific places or areas designated in said license.

3.05. *Classes of Licenses.* The Council shall have the authority to issue any one or more of the following classes of liquor licenses within the reservation:

a. *Retail on-site general license* means a license authorizing the applicant to sell alcoholic beverages at retail to be consumed by the buyer only on the premises or at the location designated in the license. This class includes hotels where alcoholic beverages may be sold for consumption on the premises and in the rooms of bona fide registered guests.

b. *Retail on-site beer and wine license* means a license authorizing the applicant to sell beer and wine at retail to be consumed by the buyer only on the premises or at the location designated in the license. This class includes hotels where beer and/or wine may be sold for consumption on the premises and in the rooms of bona fide registered guests.

c. *Retail off-site general license* means a license authorizing the applicant to sell alcoholic beverages at retail to be consumed by the buyer off of the premises or at a location other than the one designated in the license.

d. *Retail off-site beer and wine license* means a license authorizing the applicant to sell beer and wine at retail to be consumed by the buyer off of the premises or at a location other than the one designated in the license.

e. *Manufacturer's license* means a license authorizing the applicant to manufacture alcoholic beverages for the purpose of sale on the Reservation.

f. *Temporary license* means a license authorizing the sale of alcoholic liquor on a temporary basis for premises temporarily occupied by the licensee for a picnic, social gathering, or similar occasion.

3.06. *Responsibility to Complete Application and Obtain License.* Except in the case of an application for a temporary license, the owner of the premises on which liquor is or will be imported, manufactured, distributed, or sold for commercial purposes shall complete a License application and obtain a License for the premises as required by Section 3.05. If the Tribe or a tribal enterprise is the owner of the premises on which liquor is or will be imported, manufactured, distributed, or sold for commercial purposes, the manager or general manager of the premises shall file an application on behalf of the Tribe or tribal enterprise for a license under Section 3.07. In the case of a Temporary License, the person(s) organizing or sponsoring the event for which a Temporary license is required shall complete the License application.

3.07. *Application Form and Content.* An application for a license shall be made to the Council for consideration at a Regular Meeting of the Tribal Council and shall contain the following information:

a. The name and address of the licensee, including the names and addresses of all of the principal officers and directors, and other employees with primary management responsibility related to the sale of alcoholic liquor;

b. The specific area, location, and/or premise(s) for which the license is applied for;

c. The class of license under Section 3.05 applied for;

d. Whether the applicant has a state liquor license; and

e. The application shall be verified under oath and notarized by a duly authorized representative.

3.08. *Investigation.* Upon receipt of an application for the issuance, renewal, or transfer of a license, the Tribal Council shall make an investigation to determine whether the applicant and the premises for which a license is applied for, qualify for a license, shall ensure that the applicant and premises are in compliance with this Ordinance, and shall investigate all matters connected therewith which may affect the public health, welfare, and morals.

3.09. *Public Hearing.* Upon receipt of an application for issuance, renewal, or transfer of a license, and the payment of all fees if required by regulations promulgated under Section 3.01(a), the Tribal Council may issue a license or set the matter for a public hearing at a Special Meeting of the Tribal Council. Notice of the time and place of the hearing shall be given to the applicant and the public at least twenty (20) calendar days before the hearing. Notice shall be given to the applicant by United States mail, postage prepaid, at the address listed in the application. Notice shall be given to the public by publication in a newspaper of general circulation sold on the reservation. The notice published in the newspaper shall include the name of the applicant, whether the action involves a new issuance, renewal, or transfer, the class of license applied for under Section 3.05, and a general description of the area where the alcoholic beverage will be or has been sold. At the hearing, the Tribal Council shall hear from any person who wishes to speak for or against the application. The Tribal Council shall have the authority to place time limits on each speaker and to limit or prohibit repetitive testimony.

3.10. *Tribal Council Action on the Application.* The Tribal Council shall act on the application within sixty (60) days of receipt of the application or within sixty (60) days of the conclusion of the public hearing if one is held pursuant to Section 3.09. The

Tribal Council shall have the authority to deny, approve, or approve with conditions the application. Provided, however, that the Tribal Council shall afford an applicant a hearing on the application before denying or approving with conditions any application. Upon approval of an application, the Tribal Council shall issue a license to the applicant in a form to be approved from time to time by Tribal Council resolution.

3.11. *Denial of License, Renewal, or Transfer.* An application for a license, license renewal, or license transfer may be denied for one or more of the following reasons:

a. The applicant has knowingly and materially misrepresented facts contained in the application;

b. The applicant (or premises) is not in compliance with tribal or applicable Federal or state laws;

c. Granting of the license (or renewal or transfer thereof) would create a threat to the peace, safety, morals, health, or welfare of the Tribe;

d. The applicant has failed to complete the application properly or has failed to tender the appropriate fee; or

e. If the applicant (or premise) is not in compliance with or does not meet the requirements of Michigan law incorporated as tribal law pursuant to this Ordinance.

3.12. *Multiple Locations.* Separate licenses shall be issued for each of the premises at which liquor is imported, distributed, manufactured or sold.

3.13. *Posting of License.* Every license shall be posted and kept in a conspicuous place(s) on the licensed premises.

3.14. *Transfer of License.* Each license issued or renewed under this Ordinance is separate and distinct and is transferable from one licensee to another or from one premises to another only with the approval of the Tribal Council. The Tribal Council shall have the authority to approve, deny, or approve with conditions, any application for the transfer of any license. The transfer application shall contain all of the information required of an original applicant under section 3.07 of this Ordinance. In the case of a transfer to a new premises, the application shall contain an exact description of the location where the liquor is proposed to be sold.

3.15. *Term and Renewal of License.* All licenses shall be issued on a calendar year basis and shall be renewed annually. The applicant shall renew a license by, prior to the license's expiration date, submitting a written renewal application to the Tribal Council on the provided form, and paying the annual license fee for the next year. License renewals may be issued without a hearing.

3.16. *Consent to Tribal Jurisdiction.* Anyone who imports, manufactures, distributes, or sells liquor for commercial purposes on the Tribe's reservation, and anyone who submits an application for a license, shall be deemed to have consented to the jurisdiction of the Tribe and the Tribal Court.

Section 4. License Suspension and Revocation; Inspections; Seizure

4.01. *Suspension or Revocation of License.* Whenever it is brought to the attention of the Tribal Ogema, Tribal Council, or any other person, that a licensee (or licensed premises), through action or inaction

a. Has knowingly and materially misrepresented facts contained in any license application;

b. Is not in compliance with tribal or applicable state and federal laws;

c. Failed to comply with any condition of a license, including failure to pay a required fee;

d. Failed to take reasonable steps to correct objectionable conditions constituting a nuisance on the licensed premises or any adjacent area within a reasonable time after receipt of a notice to make such corrections has been issued by the Tribal Council or its authorized representative; or

e. If applicable, suspension or revocation of the licensee's Michigan liquor license, proceedings to suspend or revoke a licensee's Tribal license may be initiated in accordance with this Section.

4.02. *Initiation of Suspension or Revocation Proceedings.*

(a) *Persons or Entities Authorized to Initiate Proceedings.* Suspension or revocation proceedings for any license held by a gaming operation may be initiated by the Tribal Gaming Commission by filing a complaint with the Tribal Council. All other suspension or revocation proceedings may be initiated by the Tribal Ogema or his/her designee, or by any person who files a complaint with the Tribal Council Recorder.

(b) *Interim Hearings Commission.* Until such time as the Tribal Council creates a regulatory commission vested with authority to adjudicate alleged violations of this Ordinance, suspension, revocation and other enforcement proceedings shall be heard by a Hearings Commission consisting of the Tribal Council Speaker, the Council Recorder, and one (1) other member of the Tribal Council.

(c) *Form of Complaint.* All complaints shall be in writing and signed by the complainant. The complaint shall state facts showing that there are specific grounds under this Ordinance which would authorize the suspension or revocation of the license(s). If the complaint does not state such grounds, the Hearings Commission shall dismiss the complaint and duly notify the complainant and the licensee.

(d) *Notice of Hearing.* If the complaint states such grounds, the Tribal Council Recorder shall cause the matter to be set for a hearing before the Hearings Commission on a date no later than thirty (30) days from the Tribal Council's receipt of the complaint. Notice of the time, date, and place of the hearing shall be given the licensee and the public in the same manner as set forth in Section 3.09. The notice shall state that the licensee has the right to file a written response to the complaint or resolution, verified under oath and signed by the licensee ten (10) days prior to the hearing date.

4.03. *Hearing.* A hearing held on any complaint shall be held before the Hearings Commission under such rules of procedure as it may adopt. Both the licensee and the complainant shall have the right to present witnesses, testify, and present written documents in support of their positions to the Hearings Commission at such hearing. The Hearings Commission shall render its decision within sixty (60) days after the date of the hearing. The decision of the Hearings Commission shall be final, unless appealed pursuant to Section 5.03.

4.04. *Delivery of License.* Upon suspension or revocation of a license, the owner of the premise shall return the license to the Recorder of the Tribal Council. In cases involving suspension, the Tribal Council shall return the license to the owner of the premise at the expiration or termination of the suspension period.

4.05. *General Penalties.* Any person adjudged to be in violation of this Ordinance, including any lawful regulation promulgated pursuant thereto, shall be subject to a civil fine of not more than five hundred dollars ($500.00) for each such violation. The Tribal Council may adopt by resolution a separate schedule for fines for each type of violation, taking into account the seriousness and threat the violation may pose to the general health and welfare of the Tribe, its members and those on reservation lands. The penalties provided for herein shall be in addition to any criminal penalties which may be imposed under applicable law. Each calendar day during which a violation occurs shall be deemed a separate violation.

4.06. *Initiation of Action.* The Tribal Ogema or Tribal Council, on behalf of and in the name of the Tribe, may initiate and maintain an action in Tribal Court or any court of competent jurisdiction to abate and permanently enjoin any violation of this Ordinance. Any action taken under this section shall be in addition to any other penalties provided for in this Ordinance.

4.07. *Inspection.* All licensed premises or any parts used or in any way connected physically or otherwise with the licensed premise, and any premise whether licensed or not used in the importation , distribution, manufacture or sale of liquor shall at all times be opened to inspection by any tribal inspector appointed by the Tribal Ogema. Any licensed premises operated by a person holding a gaming license shall be open to inspection by the Tribal Gaming Commission or any inspector acting on behalf of the Gaming Commission.

4.08. *Contraband; Seizure; Forfeiture.*

a. All alcoholic beverages within the reservation that are stored, held, owned, or possessed by any person, or licensee operating in violation of this Ordinance, are hereby declared to be contraband and subject to forfeiture to the Tribe.

b. Within thirty (30) calendar days following the seizure of the contraband, a hearing shall be held before the Tribal Court, at which time the licensee or owner of the premises or contraband shall be given an opportunity to present evidence.

c. Notice of the hearing shall be given to the persons identified in Section 4.08(b) or the person from whom the property was seized, if known, ten (10) calendar days prior to the hearing. If the person is unknown, notice of the hearing shall be posted at the place where the contraband was seized and at other public places on the reservation. The notice shall describe the property seized, and the time, place, and cause of seizure and give

the name and place of residence, if known, of the person from whom the property was seized.

d. If upon hearing, the evidence warrants, or if no person appears as a claimant, the Tribal Court shall thereupon enter a determination of forfeiture and order such contraband forfeited to the Tribe and sold or destroyed forthwith.

Section 5. Sovereign Immunity; Appeals

5.01. *Sovereign Immunity.*

a. The Tribe, and all of its instrumentalities, including, but not limited to tribal enterprises, subordinate organizations, boards, committees, officers, attorneys and agents, are immune from suit in any jurisdiction except to the extent that such immunity has been expressly and unequivocally waived in writing by the Tribe.

b. Except as provided in Section 5.02, nothing in this Ordinance, and no enforcement action taken pursuant to this Ordinance or otherwise, including but not limited to, the holding of any hearing, the grant, denial, suspension, modification, conditioning or revocation of any license, the filing of suit by the Tribal Ogema or Tribal Council to enforce any provision of this Ordinance or other law, shall constitute a waiver of such immunity, either as to the original action, any counterclaim, regardless of whether an asserted counterclaim arises out of the same transaction or occurrence, or in any other respect.

5.02. *Limited Waiver of Sovereign Immunity of the Tribe.* The Tribe hereby expressly waives its sovereign immunity from suit in the Tribal Court for the limited purpose of an appeal of any decision of the Tribal Council to grant, deny, modify, or condition a license or of the Tribal Council Hearings Commission to suspend or revoke a license or to impose fines. Nothing contained in this section or this Ordinance or in any express waiver of sovereign immunity by resolution of the Tribal Council relating to the regulation of alcoholic beverages shall be deemed a consent to levy of any judgment, lien or attachment upon any property or revenues of the Tribe.

5.03. *Appeal to Tribal Court.* A person directly affected by any grant, denial, suspension, modification, conditioning or revocation of any license or imposition of fines under this Ordinance, shall have the right to appeal such decision to the Tribal Court. Any such appeal must be filed with the Tribal Court in writing on or before the thirtieth (30th) day following the decision of the Tribal Council or Tribal Ogema, as the case may be. In any case which has been appealed to the Tribal Court for final action, the Tribal Court shall review all findings of fact and of law of the Hearings Commission on the record and pursuant to an ''arbitrary and capricious'' standard and shall have power to affirm, modify or reverse the decision. Pursuant to Section 5.02, the Tribal Court may only grant injunctive relief and may not grant damages against the Tribe. The Tribal Court's decision shall be final, and no further appeal may be had.

Dated: September 14, 1999.

Kevin Gover,

Assistant Secretary—Indian Affairs.

BILLING CODE 4310–02–P

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Indian Gaming

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice; correction.

SUMMARY: This notice corrects the amendment to the Burns-Paiute Tribe of Oregon Tribal-State gaming compact which was published on Wednesday, September 1, 1999, 64 FR 47857. The document contained an incorrect amendment number.

FOR FURTHER INFORMATION CONTACT: George T. Skibine, (202) 219–4066.

Correction

In the **Federal Register** of September 1, 1999, in FR Doc. 99–22706, on page 47857, correct the Amendment number to read:

SUMMARY: Pursuant to Section 11 of the Indian Gaming Regulatory Act of 1988, Pub. L. 100–497, 25 U.S.C. 2710, the Secretary of the Interior shall publish in the **Federal Register**, notice of approved Tribal-State Compacts for the purpose of engaging in Class III gaming activities on Indian lands. The Assistant Secretary—Indian Affairs, Department of the Interior, through his delegated authority, has approved Amendment III to the Tribal-State Compact for Regulation of Class III Gaming Between the Burns-Paiute Tribe and the State of Oregon, which was executed on June 28, 1999.

Dated: September 9, 1999.

Kevin Gover,

Assistant Secretary—Indian Affairs.

[FR Doc. 99–24362 Filed 9–17–99; 8:45 am]

BILLING CODE 4310–02–P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[OR–957–00–1420–00: GP9–0319]

Filing of Plats of Survey: Oregon/ Washington

In Reply Refer to: 1500 (957).

AGENCY: Bureau of Land Management.

ACTION: Notice.

SUMMARY: The plats of survey of the following described lands are scheduled to be officially filed in the Oregon State, Office, Portland, Oregon, thirty (30) calendar days from the date of this publication.

Willamette Meridian

Oregon

T. 28 S., R 31 E., accepted August 6, 1999.
T. 28 S., R 32 E., accepted August 6, 1999.
T. 29 S., R 32 E., accepted August 6, 1999.
T. 21 S., R 11 W., accepted August 9, 1999.
T. 22 S., R 11 W., accepted August 9, 1999.
T. 4 S., R 7 W., accepted August 16, 1999.
T. 7 S., R 7 W., accepted August 16, 1999.
T. 24 S., R 4 W., accepted August 16, 1999.

Washington

T. 32 N., R 37 E., accepted August 31, 1999.

If protests against a survey, as shown on any of the above plat(s), are received prior to the date of official filing, the filing will be stayed pending consideration of the protest(s). A plat will not be officially filed until the day after all protests have been dismissed and become final or appeals from the dismissal affirmed.

The plat(s) will be placed in the open files of the Oregon State Office, Bureau of Land Management, 1515 S.W. 5th Avenue, Portland, Oregon 97201, and will be available to the public as a matter of information only. Copies of the plat(s) may be obtained from the above office upon required payment. A person or party who wishes to protest against a survey must file with the State Director, Bureau of Land Management, Portland, Oregon, a notice that they wish to protest prior to the proposed official filing date given above. A statement of reasons for a protest may be filed with the notice of protest to the State Director, or the statement of reasons must be filed with the State Director within thirty (30) days after the proposed official filing date.

The above-listed plats represent dependent resurveys, survey, and subdivision.

FOR FURTHER INFORMATION CONTACT: Bureau of Land Management (1515 S.W. 5th Avenue), P.O. Box 2965, Portland, Oregon 97208.

Dated: September 8, 1999.

NATIONAL FOUNDATION OF THE ARTS AND THE HUMANITIES

National Endowment for the Arts

Combined Arts Advisory Panel

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), as amended, notice is hereby given that a meeting of the Combined Arts Advisory Panel, Media Arts section (Arts on Broadcasting), to the National Council on the Arts will be held from October 4–6, 1999 in Room 716 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW, Washington, DC, 20506. The Panel will meet from 9:00 a.m. to 6:00 p.m. on October 4th, from 9:00 a.m. to 6:30 p.m. on October 5th, and from 9:00 a.m. to 5:00 p.m. on October 6th. A portion of this meeting, from 1:15 p.m. to 2:15 p.m. on October 6th, will be open to the public for policy discussions.

The remaining portions of this meeting, from 9:00 a.m. to 6:00 p.m. on October 4th, from 9:00 a.m. to 6:30 p.m. on October 5th, and from 9:00 a.m. to 1:15 p.m. and 2:15 p.m. to 5:00 p.m. on October 6th, are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman of May 12, 1999, these sessions will be closed to the pubic pursuant to (c)(4)(6) and (9)(B) of section 552b of Title 5, United States Code.

Any person may observe meetings, or portions thereof, of advisory panels which are open to the public, and, if time allows, may be permitted to participate in the panel's discussions at the discretion of the panel chairman and with the approval of the full-time Federal employee in attendance.

If you need special accommodations due to a disability, please contact the Office of AccessAbility, National Endowment for the Arts, 1100 Pennsylvania Avenue, NW, Washington, DC 20506, 202/682–5532, TDY–TDD 202/682–5496, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Ms. Kathy Plowitz-Worden, Office of Guidelines & Panel Operations, National Endowment for the Arts, Washington, DC, 20506, or call 202/682–5691.

Dated: September 13, 1999.

Kathy Plowitz-Worden,

Panel Coordinator, Panel Operations, National Endowment for the Arts.

Advisory Panel for Biomolecular Structure and Function: Notice of Meeting

In accordance with Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Panel for Biomolecular Structure and Function—(1134) (Panel B).

Date/Time: October 25–27, 1999, 8:30 a.m. to 6 p.m.

Place: National Science Foundation, Room 340, 4201 Wilson Boulevard, Arlington, VA 22230.

Type of Meeting: Closed.

Contact Person: Kamal Shukla, Program Director, Molecular Biophysics, National Science Foundation, Room 655, 4201 Wilson Boulevard, Arlington, VA 22230. (703) 306–1444.

Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.

Agenda: To review and evaluate Molecular Biophysics Proposals as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the

proposals. These matters are exempt under 5 U.S.C. 552b.(c) (4) and (6) of the Government in the Sunshine Act.

Dated: September 14, 1999.

Karen J. York,

Committee Management Officer.

Advisory Panel for Cell Biology: Notice of Meeting

In accordance with Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Panel for Cell Biology—(1136) (Panel B).

Dates/Time: October 27–29, 1999 8:30 a.m. to 6:00 p.m.

Place: National Science Foundation, Room 360, 4201 Wilson Boulevard, Arlington, VA 22230.

Type of Meeting: Closed.

Contact Persons: Eve Barak Philip Youderian, Program Directors, Cell Biology, National Science Foundation, Room 655, 4201 Wilson Boulevard, Arlington, VA 22230. (703) 306–1442

Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.

Agenda: To review and evaluate research proposals submitted to the Cellular Organization Program as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b. (c) (4) and (6) of the Government in the Sunshine Act.

Dated: September 14, 1999.

Special Emphasis Panel in Chemical and Transport Systems; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended) the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Chemical and Transport Systems (1190).

Date and Time: October 20–21, 1999; 8:00 a.m. to 5:00 p.m.

Place: National Science Foundation, 4201 Wilson Boulevard, Room 320, Arlington, VA 22230, (703) 306–1371.

Type of Meeting: Closed.

Contact Person: Dr. Maria K. Burka, Program Director, Division of Chemical and Transport Systems (CTS), Room 525, (703) 306–1371.

Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.

Agenda: To review and evaluate nominations for the FY99 PRE/TSE Panel proposals as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c)(4) and (6) of the Government in the Sunshine Act.

Dated: September 14, 1999.

Advisory Committee for Computer and Information Science and Engineering; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Committee for Computer and Information Science and Engineering (1115).

Date and Time: October 13, 1999; 8:30 a.m. to 5:00 p.m.; October 14, 1999, 8:30 a.m. to 3:00 p.m.

Place: The University of Washington, 309 Parrington Hall, Seattle, WA 98195.

Type of Meeting: Open.

Contact Person: Gwen Barber-Blount, Office of the Assistant Director, Directorate for Computer and Information Science and Engineering, National Science Foundation, 4201 Wilson Blvd., Suite 1105, Arlington, VA 22230 (703) 306–1900.

Minutes: May be obtained from the contact person listed above.

Purpose of Meeting: To advise NSF on the impact of its policies, programs and activities on the CISE community; to provide advice to the Assistant Director/CISE on issues related to long range planning, and to form ad hoc subcommittees to carry out needed studies and tasks.

Agenda:

Day 1—Discussion of IT and CISE GPRA Report.

Day 2—Post-vBNS Networking, presentation on Information Science and complete writing assignments on recommendations to the Director and Assistant Director.

Dated: September 14, 1999.

Special Emphasis Panel in Computer—Communications Research; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting. Special Emphasis Panel in Computer—Communications Research.

Name: Special Emphasis Panel in Computer—Communications Research (1192).

Date: November 1, 1999.

Time: 8:00 a.m. to 5:00 p.m.

Place: National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230, November 1, 1999 Room 370.

Type of Meeting: Closed.

Contact person(s): Zeke Zalcstein, Program Director, Theory of Computing Program, CISE/C–CR, Room 1145, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

Telephone: (703) 306–1914.

Purpose of Meeting: To provide advice and recommendations for the Theory of Computing Program (TOC) by providing review of a group of approximately 12 proposals with special attention to changing emphases for that program.

Agenda: Review and evaluate TOC CAREER proposals as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information, financial data, such as salaries, and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act.

Agenda:

Open Session: October 19, 1999, 4:00 p.m. to 5:00 p.m.—discussion on research trends, opportunities and assessment procedures in Integrative Plant Biology.

Closed Session: October 18, 1999, 8:30 a.m.–6:00 p.m.; October 19, 1999, 8:30 a.m. to

4:00 p.m. and 5:00 p.m. to 6:00 p.m.; and October 20, 1999, 8:30 a.m. to 6:00 p.m. To review and evaluate Integrative Plant Biology proposals as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act.

Dated: September 14, 1999.

Karen J. York,

Committee Management Officer.

BILLING CODE 7555–01–M

NATIONAL SCIENCE FOUNDATION

Special Emphasis Panel in Polar Programs; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub L. 92–463, as amended), the National Science Foundation announces the following meeting.

Name: Special Emphasis Panel in Polar Programs (1209).

Date and Time: October 20, 1999; 6 pm–10pm, October 21, 1999; 8 am–6pm; October 22, 1999; 9 am–5 pm.

Place: University of Chicago, Ida Noyes Hall, 1212 E. 59th Street, Chicago, IL.

Type of Meeting: Closed.

Contact Person: Dr. Dennis Peacock, Section Head, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230, (703) 306–1033.

Purpose of Meeting: To provide advice and recommendations concerning support for the Center for Astrophysical Research in the Antarctic, Science and Technology Center, University of Chicago.

Agenda: To review and evaluate progress so far and provide advice and recommendations on plans for the future.

Reason for Closing: The proposal being reviewed includes information of a proprietary or confidential nature, including technical information; financial data, such as salaries and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c)(4) and (6) of the Government in the Sunshine Act.

Dated: September 14, 1999.

Karen J. York,

Committee Management Officer.

NATIONAL SCIENCE FOUNDATION

Special Emphasis Panel in Research Evaluation and Communication; Notice of Meeting

In accordance with Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Research Evaluation and Communication (CAREER) (1210).

Date/Time: October 28, 1999, 8:00 a.m.–5:00 p.m., October 29, 1999, 8:00 a.m.–4:00 p.m., November 1, 1999, 8:00 a.m.–5:00 p.m., November 2, 1999, 8:00 a.m.–4:00 p.m.

Place: National Science Foundation, Room 130, 4201 Wilson Boulevard, Arlington, VA 22230.

Type of Meeting: Closed.

Contact Person: Elizabeth VanderPutten, Program Director, Research Evaluation and Communications Division, National Science Foundation, Room 855, 4201 Wilson Boulevard, Arlington, VA 22230. (703) 306–1650.

Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.

Agenda: To review and evaluate CAREER Proposals as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b. (c) (4) and (6) of the Government in the Sunshine Act.

Dated: September 14, 1999.

Karen J. York,

Committee Management Officer.

BILLING CODE 7555–01–M

NUCLEAR REGULATORY COMMISSION

[Docket No. STN 50–528, STN 50–529, and STN 50–530]

Arizona Public Service Company; Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating Licenses Nos. NPF–41, NPF–51, and NPF–74 issued to Arizona Public Service Company for operation of the Palo Verde Nuclear Generating Station Units 1, 2, and 3 located in Maricopa County, Arizona.

The proposed amendments would revise Technical Specification (TS) 3.7.15, ''Fuel Storage Pool Boron Concentration,'' TS 3.7.17, ''Spent Fuel Assembly Storage,'' and TS 4.3.1, ''Criticality,'' to increase spent fuel pool storage capacity by crediting soluble boron and decay time in the safety analysis for the spent fuel pool storage racks. The proposed amendments would also increase the maximum radially averaged fuel enrichment from 4.3 weight percent to 4.8 weight percent.

Before issuance of the proposed license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendments would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

Standard 1. Does the proposed change involve a significant increase in the probability or consequences of an accident previously evaluated?

No. Analyses to support the proposed amendment have been developed using conservative methodology. An analysis and review of relevant plant operations shows that there is no significant increase in the probability of an accident previously evaluated. The analysis of the potential events and of the increase in fuel enrichment discussed below also show that there is no significant increase in the consequences of an accident previously evaluated.

The fuel handling accident described in the Updated Final Safety Analysis Report (UFSAR) section 15.7.4, ''Radiological Consequences of Fuel Handling Accidents'' was reviewed for this proposed amendment. The fuel handling accident that is of concern in the UFSAR is the dropping of a single fuel assembly during fuel handling. Changing the fuel assembly storage array and burnup versus enrichment criteria, crediting soluble boron in the spent fuel pool, and increasing

enrichment does not [a]ffect the method of handling spent fuel or the design of the fuel handling equipment. The fuel assembly design (clad material and structural components) is not affected by this change. Therefore, this change will not increase the probability that a fuel handling accident will occur.

The current fuel handling accident analysis for Palo Verde assumes a TID–14844 (Technical Information Document), ''Calculation of Distance Factors for Power and Test Reactor Sites'' equilibrium source term. The TID–14844 equilibrium source term is based on rated core thermal power and an infinite cycle. Therefore, the source term is independent of fuel assembly enrichment and fuel cycle length. As such, the proposed increase in maximum radially averaged enrichment for fuel assemblies stored in the spent fuel storage racks and the new fuel storage racks from 4.3 weight percent to 4.8 weight percent does not affect the dose calculation for the Palo Verde fuel handling accident analysis. Changing the fuel assembly storage array and burnup versus enrichment criteria, crediting soluble boron in the spent fuel pool, and increasing enrichment does not affect the spent fuel pool water level, water depth over a damaged fuel assembly, or the systems (e.g., fuel building essential ventilation system and radiation monitoring system) that may be available to reduce the doses associated with the current fuel handling accident analysis for Palo Verde. The radiological consequences of the fuel handling accident discussed in UFSAR section 15.7.4.1 remain bounding with these changes and are less than 10 CFR 100 limits, and therefore, this change will not increase the consequences of a fuel handling accident.

Fuel assembly placement in the spent fuel pool will continue to be controlled by approved procedures and in accordance with the Technical Specification fuel storage configuration limits as it currently is. Therefore, this change will not increase the probability of an accidental misloading of a fuel assembly in the spent fuel pool.

The consequences of a single fuel assembly misloaded into a region in the spent fuel pool intended for a less reactive fuel assembly were reviewed based on the proposed amendment. The maximum increase in the spent fuel pool effective multiplication factor (k_{eff}) due to a single misloaded fuel assembly was one of the factors used to determine the minimum soluble boron credit requirement. The minimum soluble boron credit required to maintain k_{eff} [less than or equal to] 0.95 (including all biases and uncertainties) assuming the most limiting single fuel assembly misloading event was determined to be 900 ppm. This is much less than the Technical Specification 3.7.15, ''Fuel Storage Pool Boron Concentration'' minimum boron requirement of 2150 ppm. Therefore, taking credit for soluble boron in the spent fuel pool to offset an increase in the number of fuel assemblies stored in the spent fuel pool and increasing maximum radially averaged enrichment does not [a]ffect the consequences of a fuel assembly misloading event since the k_{eff} for the spent fuel pool remains less than 0.95.

The spent fuel pool cooling requirements are described in UFSAR section 9.1.3, ''Spent Fuel Pool Cooling and Cleanup System.'' The design basis of the spent fuel cooling system is to provide adequate cooling to the spent fuel during all operating conditions (including full core offload) for up to 1205 fuel assemblies. The proposed amendment will increase the spent fuel pool storage limit [to] 1205 assemblies. This change does not affect the design basis spent fuel pool heat load calculation since the spent fuel pool will be limited to the design basis limit of 1205 fuel assemblies. This change does not affect the operation or function of the spent fuel pool cooling system. Therefore, since the design basis and operation of the spent fuel pool cooling system are not affected by this change, this change will not increase the probability or the consequences of a loss of spent fuel pool cooling event.

Technical Specification 4.3.1.2 requires that the new fuel storage racks be designed and maintained with a k_{eff} [less than or equal to] 0.95 when fully flooded with unborated water and k_{eff} [less than or equal to] 0.98 if moderated with aqueous foam (including all biases and uncertainties). The current analysis of record assumes a maximum radially averaged fuel enrichment of 4.3 weight percent to determine that the k_{eff} for the new fuel storage racks met these limits. A new analysis was performed to determine that the proposed increase in maximum radially averaged enrichment (i.e., from 4.3 to 4.8 weight percent) would still meet the limits. The new analysis conservatively assumed a radially averaged enrichment of 5.0 weight percent U–235. Using a maximum radially averaged fuel enrichment of 5.0 weight percent U–235, the new analysis determined that the k_{eff} for the new fuel storage racks would continue to be [less than or equal to] 0.95 when fully flooded with unborated water and [less than or equal to] 0.98 if moderated by aqueous foam (including all biases and uncertainties). The increased radially averaged enrichment will not affect the requirement to maintain the new fuel subcritical (Technical Specification 4.3.1.2.b and c) when stored in the new fuel storage racks. There will be no dose consequences associated with these changes, since the new fuel will continue to remain subcritical at all times. Therefore, since the criticality requirements are maintained, this change will not involve a significant increase in the probability or consequences of a criticality event in the new fuel storage racks.

The current analysis of record for the new fuel elevator, the fuel upender and transfer machine, and the intermediate fuel storage rack assumes a maximum radially averaged fuel enrichment of 4.3 weight percent with a resultant k_{eff} in unborated water of [less than or equal to] 0.95. Using a radially averaged enrichment of 5.0 weight percent, the new analysis determined that the k_{eff} in unborated water would continue to be [less than or equal to] 0.95 (including all biases and uncertainties). The increased radially averaged enrichment will not affect the requirement to maintain the fuel subcritical when in the new fuel elevator, the fuel upender and transfer machine, or the intermediate fuel storage rack. There will be no dose consequences associated with these changes, since the fuel will continue to remain subcritical at all times. Therefore, since the criticality requirements are maintained, this change will not involve a significant increase in the probability or consequences of a criticality event in this equipment.

Therefore, the proposed change crediting soluble boron and the increased maximum radially averaged enrichment will not involve a significant increase in the probability or consequences of an accident previously evaluated.

Standard 2. Does the proposed change create the possibility of a new or different kind of accident from any accident previously evaluated?

No. The proposed amendment credits the negative reactivity associated with some of the soluble boron present in the spent fuel pool. Based on these changes, an analysis was performed to verify that the Palo Verde design has sufficient margin to detect and mitigate a boron dilution of the spent fuel pool prior to exceeding the spent fuel pool k_{eff} limit of 0.95 (including all biases and uncertainties). The analysis determined that the most limiting boron dilution event was a fire in the fuel building. Assuming a spent fuel pool average bulk boron concentration of 2150 ppm (Technical Specification 3.7.15), this event would result in boron dilution to a minimum average bulk boron concentration of 1900 ppm. This is much greater than the minimum 900 ppm boron concentration required to maintain k_{eff} [less than or equal to] 0.95 (assuming the most limiting single fuel assembly misloading event). Therefore, the spent fuel pool will remain subcritical following a boron dilution event. The analysis shows that there is no credible boron dilution event that would result in an inadvertent criticality in the spent fuel pool. In addition, the criticality analysis shows that even if the spent fuel pool were filled with unborated water, the spent fuel pool would remain subcritical.

Taking credit for soluble boron does not make any change to the design or operation of the spent fuel racks, fuel assemblies, fuel handling equipment, or plant systems that can deliver non-borated water to the spent fuel pool. Increasing the maximum allowable radially averaged enrichment of the fuel assemblies in storage does not make any change to the design or operation of the fuel assemblies except to increase the allowed reactivity and fission product inventory of future assemblies, both of which are bounded by the new criticality analyses and the current fuel handling accident analysis (UFSAR 15.7.4). Since system interfaces and operating characteristics remain the same, no new fuel handling-related accident can be postulated.

Therefore, the proposed change crediting soluble boron and the increased maximum radially averaged enrichment does not create the possibility of a new or different kind of accident from any accident previously evaluated.

Standard 3. Does the proposed change involve a significant reduction in a margin of safety?

No. The Technical Specification changes in the proposed amendment, the proposed

spent fuel pool storage configuration, and the Technical Specification 3.7.15 requirement for minimum spent fuel boron concentration provide sufficient safety margin to ensure that the fuel assemblies stored in the spent fuel pool will remain subcritical. The criticality analysis, performed using the approved NRC methodology, shows that the minimum spent fuel pool soluble boron concentration in current Technical Specifications (2150 ppm) will maintain k_{eff} less than the maximum limit of 0.95. The criticality analyses determined that even with the spent fuel pool filled with unborated water, k_{eff} would remain below 1.0 (including all biases and uncertainties). Soluble boron is used to offset uncertainties, tolerances, and off-normal conditions and to provide subcritical margin so that the spent fuel pool k_{eff} will remain less than or equal to 0.95 at all times. A boron dilution was also evaluated and it was determined that the spent fuel pool boron concentration could not be reduced below the minimum boron concentration (900 ppm) required by the criticality analysis. Therefore, even with a boron dilution event the spent fuel pool k_{eff} will remain less than or equal to 0.95.

Therefore, the proposed change crediting soluble boron and the increased maximum radially averaged enrichment does not involve a significant reduction in a margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendments until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendments before the expiration of the 30-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received. Should the Commission take this action, it will publish in the **Federal Register** a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

Written comments may be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, and should cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to Room 6D59, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland, from 7:30 a.m. to 4:15 p.m. Federal workdays. Copies of written comments received may be examined at the NRC Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC.

The filing of requests for hearing and petitions for leave to intervene is discussed below.

By October 20, 1999, the licensee may file a request for a hearing with respect to issuance of the amendments to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's ''Rules of Practice for Domestic Licensing Proceedings'' in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.714 which is available at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Phoenix Public Library, 1221 N. Central Avenue, Phoenix, Arizona 85004. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition; and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to 15 days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than 15 days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective,

notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment request involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, by close of business on the above date. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, and to Nancy C. Loftin, Esq., Corporate Secretary and Counsel, Arizona Public Service Company, P.O. Box 53999, Mail Station 9068, Phoenix, Arizona 85072–3999, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)–(v) and 2.714(d).

The Commission hereby provides notice that this is a proceeding on an application for a license amendment falling within the scope of section 134 of the Nuclear Waste Policy Act of 1982 (NWPA), 42 U.S.C. 10154. Under section 134 of the NWPA, the Commission, at the request of any party to the proceeding, must use hybrid hearing procedures with respect to ''any matter which the Commission determines to be in controversy among the parties.''

The hybrid procedures in section 134 provide for oral argument on matters in controversy, preceded by discovery under the Commission's rules and the designation, following argument of only those factual issues that involve a genuine and substantial dispute, together with any remaining questions of law, to be resolved in an adjudicatory hearing. Actual adjudicatory hearings are to be held on only those issues found to meet the criteria of section 134 and set for hearing after oral argument.

The Commission's rules implementing section 134 of the NWPA are found in 10 CFR part 2, subpart K, ''Hybrid Hearing Procedures for Expansion of Spent Fuel Storage Capacity at Civilian Nuclear Power Reactors'' (published at 50 FR 41662 dated October 15, 1985). Under those rules, any party to the proceeding may invoke the hybrid hearing procedures by filing with the presiding officer a written request for oral argument under 10 CFR 2.1109. To be timely, the request must be filed within ten (10) days of an order granting a request for hearing or petition to intervene. The presiding officer must grant a timely request for oral argument. The presiding officer may grant an untimely request for oral argument only upon a showing of good cause by the requesting party for the failure to file on time and after providing the other parties an opportunity to respond to the untimely request. If the presiding officer grants a request for oral argument, any hearing held on the application must be conducted in accordance with the hybrid hearing procedures. In essence, those procedures limit the time available for discovery and require that an oral argument be held to determine whether any contentions must be resolved in an adjudicatory hearing. If no party to the proceeding timely requests oral argument, and if all untimely requests for oral argument are denied, then the usual procedures in 10 CFR part 2, subpart G apply.

For further details with respect to this action, see the application for amendment dated June 8, 1999, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Phoenix Public Library, 1221 N. Central Avenue, Phoenix, Arizona 85004.

For the Nuclear Regulatory Commission.

Dated at Rockville, Maryland, this 9th day of September, 1999.

Nageswaran Kalyanam,

Project Manager, Section 2, Project Directorate IV & Decommissioning, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

[FR Doc. 99–24382 Filed 9–17–99; 8:45 am]

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

Draft Federal Register Notice; U.S. Nuclear Regulatory Commission Seeks Qualified Candidates for the Advisory Committee on Nuclear Waste

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Request for résumés.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is seeking qualified candidates for appointment to its Advisory Committee on Nuclear Waste (ACNW).

ADDRESSES: Submit résumés to: Ms. Robin Avent, Office of Human Resources, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

FOR APPLICATION MATERIALS, CALL: 1–800–952–9678. Please refer to Announcement Number 9999902.

SUPPLEMENTARY INFORMATION: The Commission established the ACNW to provide independent technical review of and advice on the disposal of nuclear waste, including all aspects of nuclear waste disposal facilities, as directed by the NRC. This includes activities related to both high- and low-level radioactive waste disposal facilities including the licensing, operation, and closure of the facilities and associated rulemakings, regulatory guides, and technical positions developed to clarify the intent of NRC's high- and low-level waste regulations. The ACNW also reviews performance assessment evaluations of waste disposal facilities.

A wide variety of engineering and scientific skills are needed to conduct the broadly based review processes required in the committee's work. Engineers and scientists with work experience in the high- and low-level radioactive waste disposal programs, coupled with broad experience in a pertinent technical field such as nuclear chemistry, nuclear science and technology, risk assessment, or systems engineering, are being sought.

Criteria used to evaluate candidates include education and experience, demonstrated skills in nuclear waste matters, and the ability to solve problems. Additionally, the Commission considers the need for specific expertise in relationship to current and future tasks. Consistent with the requirements of the Federal Advisory Committee Act, the Commission seeks candidates with varying views so that the membership on the Committee will be fairly balanced in terms of the points of view represented and functions to be performed by the Committee.

Because conflict-of-interest regulations restrict the participation of members actively involved in the regulated aspects of the nuclear industry, the degree and nature of any such involvement will be weighed. Each qualified candidate's financial interests must be reconciled with applicable Federal and NRC rules and regulations prior to final appointment. This might

require divestiture of securities issued by nuclear industry entities, or discontinuance of industry-funded research contracts or grants.

Copies of a résumé describing the educational and professional background of the candidate, including any special accomplishments, professional references, current address and telephone number should be provided. All qualified candidates will receive careful consideration.

Appointment will be made without regard to such factors as race, color, religion, national origin, sex, age, or disabilities. Candidates must be citizens of the United States and be able to devote approximately 50–100 days per year to Committee business. Applications will be accepted until November 30, 1999.

Dated: September 14, 1999.

Andrew L. Bates,

Advisory Committee Management Officer.

BILLING CODE 7590–01–M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–369 and 50–370]

Duke Energy Corporation; McGuire Nuclear Station, Units 1 and 2; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of exemptions from Facility Operating Licenses Nos. NPF–9 and NPF–17, issued to Duke Energy Corporation (the licensee), for operation of the McGuire Nuclear Station, Units 1 and 2, located in Mecklenberg County, North Carolina.

Environmental Assessment

Identification of Proposed Action

The proposed action would exempt McGuire Nuclear Station, Units 1 and 2, from certain requirements of Title 10 of the Code of Federal Regulations (10 CFR) Part 50, Appendix A, General Design Criterion (GDC) 57, regarding isolation of main steam branch lines penetrating the containment. The proposed action is in response to the licensee's application dated April 20, 1999.

The Need for the Proposed Action

The licensee requested an exemption from GDC 57 for Containment Penetrations M261 and M393. GDC 57 imposes isolation requirements on lines that penetrate primary reactor containment and are neither part of the reactor coolant pressure boundary nor connected directly to the containment atmosphere. These are penetrations on main steam branch lines. These lines penetrate the containment and are not part of the reactor coolant pressure boundary or connected directly to the containment atmosphere. Outside of containment, these lines branch into various separate, individual lines before reaching the respective main steam isolation valves. From each of these main steam lines, one branch supplies main steam to the turbine-driven auxiliary feedwater (TDCA, using the licensee's abbreviation) pump.

Valves SA–1, SA–2, SA–77, and SA–78 are locally operated, locked open, manual gate valves. Valves SA–5 and SA–6 are stop check valves. All of these valves are located in the branch lines that supply main steam to the TDCA. Valves SA–1, SA–2, SA–77, and SA–78 are required to be open, and SA–5 and SA–6 are required to be capable of opening for Engineered Safety Features (ESF) operations of the TDCA pump by Technical Specifications (TS). The TDCA is also part of the ESF. Valves SA–1, SA–2, SA–77, and SA–78 are not identified as Containment Isolation Valves in the TS or the Updated Final Safety Analysis Report, but perform that function. To comply literally with GDC 57, the licensee would have to add motor operators to valves SA–1, SA–2, SA–77, and SA–78, such that they become automatic or capable of remote operation. The licensee has requested an exemption from literal compliance with GDC 57. The licensee would rely instead on manual action to close the valves SA–1, SA–2, SA–77, and SA–78, or valves SA–5, and SA–6. The time needed to do so has been factored into the accident analyses. Further, the applicable design-basis accident scenarios and consequences continue to be bounding.

Environmental Impacts of the Proposed Action

The Commission has completed its evaluation of the proposed action and concludes that there is no significant environmental impact if the exemptions are granted. No changes will be made to the as-built design, and existing applicable procedures at the two units at the McGuire Nuclear Station will remain the same.

The proposed action will not increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released offsite, and there is no significant increase in the allowable individual or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does not involve any historic sites. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts associated with the proposed action.

Accordingly, the Commission concludes that there are no significant environmental impacts associated with the proposed action.

Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the ''no action'' alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Impact Statement related to the McGuire Nuclear Station.

Agencies and Persons Contacted

In accordance with its stated policy, on September 13, 1999, the staff consulted with the North Carolina State official, Mr. John James, of the Bureau of Land and Waste Management Department of Health and Environmental Control, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the Commission concludes that the proposed exemptions will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's request for the exemptions dated April 20, 1999, which is available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, NW., Washington DC, and at the local public document room located at the J. Murrey Atkins Library, University of North Carolina at Charlotte, 9201 University City Boulevard, Charlotte, North Carolina.

Dated at Rockville, Maryland, this 14th day of September 1999.

For the Nuclear Regulatory Commission.

Frank Rinaldi,

Project Manager, Section 1, Project Directorate II, Division of Licensing and Project Management, Office of Nuclear Reactor Regulation.

[FR Doc. 99–24381 Filed 9–17–99; 8:45 am]

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–245, 50–336, and 50–423]

Northeast Nuclear Energy Company (NNECO), et al., Millstone Nuclear Power Station, Unit Nos. 1, 2, and 3, Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of exemptions from Facility Operating License Nos. DPR–21, DPR–65, and NPF–49, issued to Northeast Nuclear Energy Company (NNECO/the licensee), for operation of Millstone Nuclear Power Station, Units 1, 2, and 3 (Millstone), located in New London County, Connecticut.

Environmental Assessment

Identification of the Proposed Action

The proposed action would exempt the licensee from the requirements of 10 CFR Part 50, Appendix E, Item IV.F.2.c regarding conduct of a full participation exercise of the offsite emergency plan every 2 years. Under the proposed exemption, the licensee would reschedule the Federally-observed full-participation emergency exercise from September 1999 to March 2000 and all future Nuclear Regulatory Commission (NRC)—and Federal Emergency Management Agency (FEMA)—evaluated exercises would occur biennially from the year 2000.

The proposed action is in accordance with the licensee's application for exemption dated August 3, 1999.

The Need for the Proposed Action

Title 10 of the Code of Federal Regulation, (10 CFR) Part 50, Appendix E, Item IV.F.2.c requires each licensee at each site to conduct an exercise of its offsite emergency plan biennially. The NRC and FEMA observe these exercises and evaluate the performance of the licensee, State and local authorities having a role under the emergency plan.

The licensee had initially planned to conduct an exercise of its onsite and offsite emergency plans in September 1999, which is at the end of the required interval. To support the efficient and effective use of Federal resources, as discussed during the annual NRC Region I and FEMA (Regions I, II, and III) exercise scheduling meeting held in White Plains, New York, in December 1998, the planned September 1999 exercise for Millstone was shifted to March 2000, which is beyond the required interval.

Environmental Impacts of the Proposed Action

The Commission has completed its evaluation of the proposed action and concludes that the proposed action involves an administrative activity (a schedular change in conducting an exercise) unrelated to plant operations.

The proposed action will not increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released off site, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed action does not involve any historic sites. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the Commission concludes that there are no significant environmental impacts associated with the proposed action.

Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the ''no-action'' alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the ''Final Environmental Statement Related to the Continuation of Construction of Unit 2 and the Operation of Units 1 and 2, Millstone Nuclear Power Station, Millstone Point Company,'' dated June 1973 or ''Final Environmental Statement Related to the Operation of Millstone Nuclear Power Station, Unit No. 3,'' dated December 1984 (NUREG–1064).

Agencies and Persons Consulted

In accordance with its stated policy, on August 5, 1999, the staff consulted with the Connecticut State official, Mr. Fred Scheuritzel of the Department of Environmental Protection, regarding the environmental impact of the proposed action. The State official had no comments. In addition, by letter dated July 14, 1999, from Ms. Vanessa Quinn, the Federal Emergency Management Agency indicated support for rescheduling the exercise.

Finding of No Significant Impact

On the basis of the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated August 3, 1999, which is available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document rooms located at the Learning Resources Center, Three Rivers Community-Technical College, 574 New London Turnpike, Norwich, Connecticut, and the Waterford Public Library, 49 Rope Ferry Road, Waterford, Connecticut.

Dated at Rockville, Maryland, this 10th day of September 1999.

For the Nuclear Regulatory Commission.

John A. Nakoski,

Senior Project Manager, Section 2, Project Directorate I, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

[FR Doc. 99–24380 Filed 9–17–99; 8:45 am]

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards; Meeting Notice

In accordance with the purposes of Sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b), the Advisory Committee on Reactor Safeguards will hold a meeting on September 30–October 2, 1999, in Conference Room T–2B3, 11545 Rockville Pike, Rockville, Maryland. The date of this meeting was previously published in the **Federal Register** on Wednesday, November 18, 1998 (63 FR 64105).

Thursday, September 30, 1999

8:30 a.m.–8:45 a.m.: Opening Remarks by the ACRS Chairman (Open)—The ACRS Chairman will make opening remarks regarding the conduct of the meeting.

8:45 a.m.–10:15 a.m.: NRC Safety Research Programs (Open)—The Committee will discuss the proposed ACRS report to the Commission on the NRC Safety Research Program and related matters. The Committee will hear presentations by and hold discussions with representatives of the NRC staff on the proposed Mission Statement for the NRC's Office of Research.

10:30 a.m.–12:00 Noon: Combustion Engineering Owners Group (CEOG) Proposal to Eliminate the Post-Accident Sampling System Requirements (Open)—The Committee will hear presentations by and hold discussions with representatives of CEOG and the NRC staff regarding CEOG proposal to eliminate the post-accident sampling system requirements.

1:30 p.m.–2:30 p.m.: Rulemaking and Review Plans Associated with the Development of Risk-Informed Revisions to 10 CFR Part 50 (Open)—The Committee will hear presentations by and hold discussions with representatives of the NRC staff and the Nuclear Energy Institute (NEI) regarding the proposed rulemaking and review plans associated with the development of risk-informed revisions to 10 CFR part 50, ''Domestic Licensing of Production and Utilization Facilities.''

2:45 p.m.–3:45 p.m.: Proposed Resolution of Generic Safety Issue (GSI)–148, ''Smoke Control and Manual Fire Fighting Effectiveness'' (Open)—The Committee will hear presentations by and hold discussions with representatives of the NRC staff regarding the proposed resolution of GSI–148.

3:45 p.m.–4:30 p.m.: Discussion of Proposed ACRS Reports (Open)—The Committee will discuss the proposed guidelines for applying risk-informed decisionmaking in the licensing process.

4:30 p.m.–5:30 p.m.: Break and Preparation of Draft ACRS Reports (Open)—Cognizant ACRS members will prepare draft reports for consideration by the full Committee.

5:30 p.m.–6:30 p.m.: Joint ACRS/ACNW Report on the Proposed Framework for Risk-Informed Regulation in NMSS (Open)—The Committee will discuss the Joint ACRS/ACNW report.

6:30 p.m.–7:30 p.m.: Discussion of Proposed ACRS Reports (Open)—The Committee will discuss proposed ACRS reports on matters considered during this meeting.

Friday, October 1, 1999

8:30 a.m.–8:35 a.m.: Opening Remarks by the ACRS Chairman (Open)—The ACRS Chairman will make opening remarks regarding the conduct of the meeting.

8:35 a.m.–10:00 a.m.: Proposed Resolution of Generic Safety Issue (GSI)–23, ''Reactor Coolant Pump Seal Failures'' (Open)—The Committee will hear presentations by and hold discussions with representatives of the NRC staff regarding the proposed resolution of GSI–23.

10:15 a.m.–12:15 p.m.: Proposed Final Amendment to 10 CFR 50.55a, ''Codes and Standards'' (Open)—The Committee will hear presentations by and hold discussions with representatives of the NRC staff, NEI and the American Society for Mechanical Engineers regarding the proposed final amendment to 10 CFR 50.55a related to elimination of the requirement to update the inservice inspection and inservice testing programs every 120 months, and the status of resolution of the issues associated with the volumetric examination of the small-bore piping of the high-pressure safety injection system.

1:15 p.m.–2:45 p.m.: Proposed Regulatory Guide on Design Bases Information (Open)—The Committee will hear presentations by and hold discussions with representatives of the NRC staff and NEI regarding the proposed regulatory guide, which endorses NEI 97–04 document, ''Design Bases Program Guidelines,'' and related matters.

3:00 p.m.–4:00 p.m.: Proposed Resolution of Generic Safety Issue B–55, ''Improved Reliability of Target Rock Safety Relief Valves'' (Open)—The Committee will hear presentations by and hold discussions with representatives of the NRC staff regarding proposed resolution of GSI B–55.

4:00 p.m.–5:15 p.m.: Break and Preparation of Draft ACRS Reports (Open)—Cognizant ACRS members will prepare draft reports for consideration by the full Committee.

5:15 p.m.–7:15 p.m.: Discussion of Proposed ACRS Reports (Open)—The Committee will discuss proposed ACRS reports on matters considered during this meeting.

Saturday October 2, 1999

8:30 a.m.–10:15 a.m.: Discussion of ACRS Meeting with the Commission (Open)—The Committee will discuss the topics for the meeting with the NRC Commissioners on November 4, 1999.

10:15 a.m.–11:00 a.m.: Report of the Planning and Procedures Subcommittee (Open)—The Committee will hear a report of the Planning and Procedures Subcommittee on matters related to the conduct of ACRS business, and organizational and personnel matters relating to the ACRS.

11:00 a.m.–11:15 a.m.: Future ACRS Activities (Open)—The Committee will discuss the recommendations of the Planning and Procedures Subcommittee regarding items proposed for consideration by the full Committee during future meetings.

11:15 a.m.–12:00 Noon: Subcommittee Chairman Reports (Open)—The Committee will hear reports by ACRS members on the proposed final revision to Regulatory Guide 1.8 on the training and qualification of personnel at nuclear power plants, possible modifications to the NRC PRA Implementation plan, and control room habitability issues.

12:00 Noon–12:45 p.m.: Reconciliation of ACRS Comments and Recommendations (Open)—The Committee will discuss the responses from the EDO to comments and recommendations included in recent ACRS reports and letters. The EDO responses are expected to be made available to the Committee prior to the meeting.

12:45 p.m.–5:00 p.m.: Discussion of Proposed ACRS Reports (Open)—The Committee will continue its discussion of proposed ACRS reports on matters considered during this meeting.

5:00 p.m.–5:30 p.m.: Miscellaneous (Open)—The Committee will discuss matters related to the conduct of Committee activities and matters and specific issues that were not completed during previous meetings, as time and availability of information permit.

Procedures for the conduct of and participation in ACRS meetings were published in the **Federal Register** on September 29, 1998 (63 FR 51968). In accordance with these procedures, oral or written views may be presented by members of the public, including representatives of the nuclear industry. Electronic recordings will be permitted only during the open portions of the meeting and questions may be asked only by members of the Committee, its consultants, and staff. Persons desiring to make oral statements should notify Mr. Sam Duraiswamy, ACRS, five days before the meeting, if possible, so that appropriate arrangements can be made to allow necessary time during the meeting for such statements. Use of still, motion picture, and television cameras

during this meeting may be limited to selected portions of the meeting as determined by the Chairman. Information regarding the time to be set aside for this purpose may be obtained by contacting Mr. Sam Duraiswamy prior to the meeting. In view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with Mr. Sam Duraiswamy if such rescheduling would result in major inconvenience.

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor, can be obtained by contacting Mr. Sam Duraiswamy (telephone 301/415–7364), between 7:30 a.m. and 4:15 p.m. EDT.

ACRS meeting agenda, meeting transcripts, and letter reports are available for downloading or viewing on the internet at http://www.nrc.gov/ACRSACNW.

Videoteleconferencing service is available for observing open sessions of ACRS meetings. Those wishing to use this service for observing ACRS meetings should contact Mr. Theron Brown, ACRS Audio Visual Technician (301–415–8066), between 7:30 a.m. and 3:45 p.m. EDT at least 10 days before the meeting to ensure the availability of this service. Individuals or organizations requesting this service will be responsible for telephone line charges and for providing the equipment facilities that they use to establish the videoteleconferencing link. The availability of videoteleconferencing services is not guaranteed.

Dated: September 14, 1999.

Andrew L. Bates,

Advisory Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

Twenty-Seventh Water Reactor Safety Information Meeting

AGENCY: Nuclear Regulatory Commission

ACTION: Notice of meeting.

SUMMARY: The Twenty-Seventh Water Reactor Safety Information Meeting will be held on October 25–27, 1999, 9:00 a.m. to 5:00 p.m. at the Bethesda Marriott Hotel, 5151 Pooks Hill Road, Bethesda, Maryland.

The Water Reactor Safety Information Meeting will be opened by the NRC Office of Nuclear Regulatory Research Office Director, Ashok C. Thadani. Commissioner Jeffrey S. Merrifield will be the keynote speaker for the plenary session on Monday, October 25, 1999 at 9:00 a.m. and will be followed by an expert panel addressing the issue of the impact of emerging technologies on nuclear safety research. Panel members include NRC Commissioner Edward McGaffigan, Jr.; Sigma Xi Director and Former NRC Chairman, John Ahearne; EPRI Vice President, S&T Development & Chief Nuclear Officer, Robin Jones; NEI President & CEO, Joe Colvin; Framatome's Vice President of Corporate Research, Technology & Quality, M. A. Vallee; and the Department of Energy's Director of Nuclear Energy Science, & Technology, Bill Magwood. Technical sessions will be held in the afternoon. Chairman Greta J. Dicus will be the guest speaker on Tuesday morning at 8:30 a.m. and will be followed by technical sessions that will last until 5:00 p.m. On Wednesday, technical sessions will be held in the morning beginning at 8:30 a.m. and a plenary session featuring an expert panel addressing the issue of how best to focus both on safety and unnecessary burden reduction—the research role, will be held in the afternoon. Panel members include former NRC Office of Nuclear Reactor Regulation Office Director, Thomas Murley; NRC ACRS Chairman, Dana Powers; and representatives from the NEI and utility.

This meeting is international in scope and includes presentations by personnel from the NRC, U.S. Government, laboratories, private contractors, universities, the Electric Power Research Institute, reactor vendors, and a number of foreign organizations. This meeting is sponsored by the NRC and conducted by the Brookhaven National Laboratory.

The preliminary agenda for this year's meeting includes 8 sessions, along with discussions, on the following topics: Risk-Informed Regulation; Integrity of Primary Coolant Pressure Boundary; Regulatory Effectiveness Assessments; High Burnup and Mixed Fuel Oxide Fuel Under Reactivity Accident Conditions; Fuel Burnup Credit; Fission Product, Source Terms, and Applications; and Research Supporting New Technology.

Those who wish to attend are encouraged to register in advance on the newly established WRSM website (*www.wrsm.bnl.gov*) or by contacting Susan Monteleone, Brookhaven National Laboratory, Department of Nuclear Energy, Building 130, Upton, NY 11973, telephone (516) 344–7235; or Sandra Nesmith (301) 415–6437, Office of Nuclear Regulatory Research, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

Dated at Rockville, Maryland, this 8th Day of September, 1999.

For the Nuclear Regulatory Commission.

Charles E. Ader,

Director, Program Management, Policy Development, & Analysis Staff, Office of Nuclear Regulatory Research.

[FR Doc. 99–24379 Filed 9–17–99; 8:45 am]

BILLING CODE 7590–01–P

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon Written Request; Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension:

Regulations 13D and 13G; Schedules 13D and 13G; SEC File No. 270–137; OMB Control No. 3235–0145.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), the Securities and Exchange Commission (''Commission'') has submitted to the Office of Management and Budget a request for extension of the previously approved collection of information discussed below.

Schedules 13D and 13G are filed pursuant to Sections 13(d) and 13(g) of the Securities Exchange Act of 1934 (''Exchange Act'') and Regulations 13D and 13G thereunder to report beneficial ownership of equity securities registered under Section 12 of the Exchange Act. Regulations 13D and 13G are intended to provide investors and the subject issuers with information about accumulations of securities that may have the potential to change or influence control of the issuer. Schedules 13D and 13G are used by persons including small entities to report their ownership of more than 5% of a class equity securities registered under Section 12. It is estimated that approximately 10,690 respondents file Schedules 13D and 13G for a total burden of 114,718 hours. Respondents file Schedule 13D or Schedule 13G only when necessary.

The information provided by respondents is mandatory. All information provided to the Commission is public. However, Rules 0–6 and 24b-2 under the Exchange Act

permits reporting persons to request confidential treatment for certain sensitive information concerning national security, trade secrets, or privileged commercial or financial information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

Written comments regarding the above information should be directed to the following persons: (i) Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10102, New Executive Office Building, Washington, D.C. 20503; and (ii) Michael E. Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549. Comments must be submitted to OMB within 30 days of this notice.

Dated: September 7, 1999.

Margaret H. McFarland,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

Sunshine Act Meeting

FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT: [To Be Published]

STATUS: Closed Meeting.

PLACE: 450 Fifth Street, N.W., Washington, D.C.

DATE PREVIOUSLY ANNOUNCED: To Be Published.

CHANGE IN THE MEETING: Time Change.

The closed meeting scheduled for Thursday, September 16, 1999, at 11:00 a.m., has been changed to Thursday, September 16, 1999, at 2:30 p.m.

Commissioner Hunt, as duty officer, determined that Commission business required the above change and that no earlier notice thereof was possible.

At times, changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact:

The Office of the Secretary at (202) 942–7070.

Dated: September 15, 1999.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–41864; File No. SR–Amex–98–19]

Self-Regulatory Organizations; Notice of Withdrawal of Proposed Rule Change and Amendment Nos. 1 and 2 by the American Stock Exchange LLC Relating to Solicitation of Options Transactions

September 10, 1999.

On May 18, 1998, the American Stock Exchange LLC (''Amex'' or ''Exchange'') filed with the Securities and Exchange Commission (''Commission'') a proposed rule change, pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] to amend Amex Rule 950(d), Commentary .03 to: (1) Allow a member representing an originating order to solicit a customer (as well as another member, member organization, or non-member broker-dealer) to participate in the transaction; and (2) provide that a Registered Options Trader, when establishing or increasing a position, may retain priority over an off-floor order (including that of a customer) that is subject to Commentary .03. The Amex submitted Amendment No. 1 to the proposal on July 7, 1998,[3] and Amendment No. 2 to the proposal on August 19, 1998.[4] Notice of the proposed rule change, as amended, was published in the **Federal Register** on August 26, 1998, to solicit comment from interested persons.[5] The Commission received one comment letter regarding the proposal.[6] On September 3, 1999, the Amex withdrew the proposed rule change.[7]

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–41847; File No. SR–Amex–99–34]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the American Stock Exchange LLC Regarding the Extension of the Pilot Program Eliminating Position and Exercise Limits in FLEX Equity Options

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on August 27, 1999, the American Stock Exchange LLC (''Amex'' or ''Exchange'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Amex. The Exchange has designated the proposed rule change as constituting a ''non-controversial'' rule change under paragraph (f)(6) of Rule 19b–4 under the Act[3] which renders the proposal effective upon receipt of this filing by the Commission.[4] The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons and to accelerate the operative date of the proposed rule change.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Amex proposes a three month extension of the pilot program

[8] 17 CFR 200.30–3(a)(12).

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] 17 CFR 240.19b–4(f)(6).

[4] The Exchange has represented that the proposed rule change: (i) will not significantly affect the protection of investors or the public interest; (ii) will not impose any significant burden on competition; and (iii) will not become operative for 30 days after the date of this filing, unless otherwise accelerated by the Commission. The Commission is waiving the minimum five business day notice requirement as permitted by Rule 19b–4(f)(6) under the Act. *Id.* The Commission notes that the Exchange has requested that the Commission accelerate the operative date of the rule change to permit uninterrupted operation of the pilot program.

eliminating position and exercise limits for FLEX Equity options.

The text of the proposed rule change is available at the Office of the Secretary, Amex, and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On June 19, 1996, the Commission approved the Exchange's proposal to list and trade FLEX Equity options on specified equity securities.[5] Thereafter, on September 9, 1997, to allow the Exchange to better compete with the over the counter (OTC) market in customized equity options, the Exchange received approval to eliminate position and exercise limits for FLEX Equity options pursuant to a two-year pilot program.[6] The pilot program, which is in place at other options exchanges, also provides that a member or member organization (other than a Specialist or Registered Options Trader) must report to the Exchange information for each amount that maintains a position on the same side of the market in excess of three times the position limit level established pursuant to the applicable exchange rule for Non-FLEX Equity options of the same class. The report should include information regarding the FLEX Equity option position, positions in any related instrument, the purpose or strategy for the position, and the collateral used by the account.[7]

The Commission, in its order approving the pilot program, required the Exchange to submit a report containing a description of: (i) The types of strategies used by FLEX Equity options market participants and whether FLEX Equity options are being used in lieu of existing standardized equity options; (ii) the type of market participants using FLEX Equity option both before and during the pilot program, including how the utilization of FLEX Equity options has changed; (iii) the average size of FLEX Equity option contracts both before and during the pilot program, the size of the largest FLEX Equity option contract on any given day both before and during the pilot program, and the size of the largest FLEX Equity option held by any single customer/member both before and during the pilot program; and (iv) any impact on the prices of underlying stocks during the establishment or unwinding of FLEX positions that are greater than three times the standard position limit. The Exchange filed this report with the Commission by letter, dated May 28, 1999.

The program will expire September 9, 1999. Accordingly, the Exchange is requesting a temporary three month extension of the current program to permit the program to continue without interruption. All of the terms and conditions applicable under the order approving the elimination of position and exercise limits for FLEX Equity options will remain in effect throughout the temporary extension of the program. During the temporary three month extension of the current program, the Exchange anticipates submitting a request to permanently approve the pilot program as contemplated in the order approving the program.

2. Statutory Basis

The Exchange represents that the proposed rule change is consistent with Section 6(b)[8] of the Act in general and furthers the objectives of Section 6(b)(5)[9] in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and is not designed to permit unfair discrimination between customers, issuers, brokers or dealers.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has neither solicited nor received written comments with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

This proposed rule filing has been filed by the Exchange as a ''non-controversial'' rule change pursuant to Section 19(b)(3)(A)(i) of the Act[10] and subparagraph (f)(6) of Rule 19b-4 thereunder.[11] Because the foregoing proposed rule change: (1) Does not significantly affect the protection of investors or the public interest, (2) does not impose any significant burden on competition, (3) by its term does not become operative for 30 days after the date of filing, or such shorter time as the Commission may designate, and because (4) the Commission is waiving the required written notice of intent to file the proposed rule change at least five days prior to the filing date, it has become effective, for a pilot period until December 9, 1999, pursuant to Section 19(b)(3)(A) of the Act[12] and Rule 19b-4(f)(6) thereunder.[13]

The Commission has determined, consistent with the protection of investors and the public interest, to make the proposed rule change operative upon filing, pursuant to Section 19(b)(3)(A) of the Act[14] and Rule 19b-4(f)(6)(iii).[15] Under Rule 19b-4(f)(6)(iii), a proposed ''non-controversial'' rule change does not become operative for 30 days after the date of filing, unless the Commission designates a shorter time.[16] The Commission believes that because the two-year pilot program is scheduled to expire on September 9, 1999, and the three month extension is based on the same terms and conditions of the original pilot, it is consistent with the protection of investors and the public

[5] FLEX Equity options are equity options that give investors the ability, within specified limits, to designate certain of the terms of the option. See order approving FLEX Equity options trading, Securities Exchange Act Release No. 37336 (June 19, 1996), 61 FR 33558 (June 27, 1996).

interest to make the proposed rule change operative upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in the furtherance of the purposes of the Act.[17]

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549–0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of such filing will also be available for inspection and copying at the principal office of the Amex. All submissions should refer to file number SR–Amex–99–34 and should be submitted by October 12, 1999.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[18]

Margaret H. McFarland,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–41856; File No. SR–CBOE–99–49]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the Chicago Board Options Exchange, Inc. Amending the Market-Maker Surcharge Fee Schedule

September 10, 1999.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on August 31, 1999, the Chicago Board Options Exchange, Inc. (''CBOE'' or ''Exchange'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the CBOE. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CBOE is proposing to make changes to its fee schedule pursuant to CBOE Rule 2.40, *Market-Maker Surcharge for Brokerage*.[3]

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the CBOE included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The CBOE has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Pursuant to CBOE Rule 2.40, on August 30, 1999, the Equity Floor Procedure Committee (''Committee'') approved the following fees for the option classes listed in the chart below. The Order Book Official Brokerage Rate (per contract) shall be set at $.00 for these option classes.[4]

Option class	Market-maker surcharge (per contract)
EMC Corporation (EMC)	$0.15
Eastman Kodak Co. (EK)	0.15
Merck & Co., Inc. (MRK)	0.10

These fees will be effective as of August 31, 1999. Exchange rules provide that an option be listed for trading on another exchange before a surcharge fee can be assessed. Since the option classes listed above have been certified by the Options Clearing Corporation to be listed on the Philadelphia Stock Exchange, Inc., and were subsequently listed for trading on August 31, 1999, the CBOE will assess these three surcharges beginning on that date. The Exchange interprets its rules to allow the Committee to vote on market-maker surcharges before the relevant option class has been listed for trading on another exchange. However, CBOE Rule 2.40 provides that the surcharge may not actually be assessed until the relevant class has been listed for trading on another exchange.

These fees will remain in effect until such time as the Committee or the Board determines to change these fees and file the appropriate rule change with the Commission.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with Section 6(b)(4)[5] of the Act because it is designed to provide for the equitable allocation of reasonable dues, fees, and other charges among CBOE members.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments on the proposed rule change were neither solicited nor received.

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] *See* Securities Exchange Act Release No. 41121 (February 26, 1999), 64 FR 11523 (March 9, 1999) (order approving CBOE Rule 2.40).

[4] The surcharge will be used to reimburse the Exchange for the reduction in the Order Book Official brokerage rate (per contract) from $.20 to $.00 in the relevant option classes. Any remaining funds generated by the surcharge will be paid to Stationary Floor Brokers as provided in Exchange Rule 2.40.

[5] 15 U.S.C. 78f(b)(4).

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change establishes or changes a due, fee, or other charge imposed by the Exchange and, therefore, has become effective pursuant to Section 19(b)(3)(A)(ii)[6] of the Act and subparagraph (f)(2) of Rule 19b–4 thereunder.[7] At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.[8]

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549–0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Room. Copies of such filing also will be available for inspection and copying at the principal office of the CBOE. All submissions should refer to File No. SR–CBOE–99–49 and should be submitted by October 12, 1999.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[9]

Margaret H. McFarland,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–41848; File No. SR–CBOE–99–53]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the Chicago Board Options Exchange, Inc. Regarding the Extension of the Pilot Program Eliminating Position and Exercise Limits in FLEX Equity Options

September 9, 1999.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on September 8, 1999, the Chicago Board Options Exchange, Inc. (''CBOE' or ''Exchange'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the DBOE. The Exchange has designated the proposed rule change as constituting a ''non-controversial'' rule change under paragraph (f)(6) of rule 19b–4 under the Act [3] which renders the proposal effective upon receipt of this filing by the Commission.[4] The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons and to accelerate the operative date of the proposed rule change.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CBOE proposes to extend the pilot period for the elimination of position and exercise limits on FLEX Equity options for three months, or until December 9, 1999.

The text of the proposed rule change is available at the Office of the Secretary, CBOE, and at the Commission.

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] 17 CFR 240.19b–4(f)(6).

[4] The Exchange has represented that the proposed rule change: (i) Will not significantly affect the protection of investors or the public interest; (ii) will not impose any significant burden on competition; and (iii) will not become operative for 30 days after the date of this filing, unless otherwise accelerated by the Commission. The Commission is waiving the minimum five business day notice requirement as permitted by rule 19b–4(f)(6) under the Act. *Id.* The Commission notes that the Exchange has requested that the Commission accelerate the operative date of the rule change to permit uninterrupted operation of the pilot program.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to extend the pilot program allowing for the elimination of position and exercise limits in FLEX Equity options for another three months. On September 9, 1997, the Commission approved separate proposals by the CBOE, the American Stock Exchange, and the Pacific Exchange (the ''Exchanges'') to eliminate position and exercise limits for FLEX Equity options under a two-year pilot program.[5]

The Approval Order required the Exchanges to report to the Commission on the status of the program so that the Commission could use this information to evaluate the consequences of the program and to determine whether to approve the elimination of position and exercise limits for these products on a permanent basis. The CBOE submitted the required report to the Commission on June 2, 1999. It is our understanding, however, that the Commission staff is still evaluating the CBOE's report and those of the other Exchanges and thus, will not be prepared to approve the elimination of position and exercise limits for these products on a permanent basis by the end of the pilot program period on September 9, 1999.[6] Consequently, the CBOE requests that the pilot program be extended for another three months, until December 9, 1999, so that the Commission staff may

[5] Securities Exchange Act Release No. 39032 (September 9, 1997), 62 FR 48683 (September 16, 1997) approving SR–CBOE–96–79, SR–Amex–96–19, and SR–PCX–97–09. (''Approval Order'')

[6] The Commission notes that the report required pursuant to the current pilot program was due in March 1999. The Commission did not receive the CBOE's report until June 1999. The Commission also notes that it did not receive a rule filing relating to this program until September 1999.

have the appropriate time to consider the information it has been provided.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6[7] of the Act in general and in particular with Section 6(b)(5)[8] in that it is designed to promote just and equitable principles of trade, as well as to protect investors and the public interest, by allowing for the continuation of a pilot program that has enabled more business to be transacted on the exchanges that might otherwise have been transacted in the OTC market without the benefit of Exchange transparency and the guarantee of The Options Clearing Corporation.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has neither solicited nor received written comments with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

This proposed rule filing has been filed by the Exchange as a ''non-controversial'' rule change pursuant to Section 19(b)(3)(A) of the Act[9] and subparagraph (f)(6) of Rule 19b–4 thereunder.[10] Because the foregoing proposed rule change: (1) does not significantly affect the protection of investors or the public interest, (2) does not impose any significant burden on competition, (3) by its terms does not become operative for 30 days after the date of filing, or such shorter time as the Commission may designate, and because (4) the Commission is waiving the required written notice of intent to file the proposed rule change at least five days prior to the filing date, it has become effective, for a pilot period until December 9, 1999, pursuant to Section 19(b)(3)(A) of the Act[11] and Rule 19b–4(f)(6) thereunder.[12]

The Commission has determined, consistent with the protection of investors and the public interest, to make the proposed rule change operative upon filing, pursuant to Section 19(b)(3)(A) of the Act[13] and Rule 19b–4(f)(6)(iii).[14] Under rule 19b–4(f)(6)(iii), a proposed ''non-controversial'' rule change does not become operative for 30 days after the date of filing, unless the Commission designates a shorter time.[15] The Commission believes that because the two-year pilot program is scheduled to expire on September 9, 1999, and the three month extension is based on the same terms and conditions of the original pilot, it is consistent with the protection of investors and the public interest to make the proposed rule change operative upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in the furtherance of the purposes of the Act.[16]

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549–0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of such filing will also be available for inspection and copying at the principal office of the CBOE. All submissions should refer to file number SR–CBOE–99–53 and should be submitted by October 12, 1999.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[17]

Margaret H. McFarland,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–41854; File No. SR–CBOE–99–50]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the Chicago Board Options Exchange, Inc. To Increase the Size of Orders Eligible for Automatic Execution for Certain Classes of Options

September 10, 1999.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'')[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on August 31, 1999, the Chicago Board Options Exchange, Inc. (''CBOE'' or ''Exchange'') filed with the Securities and Exchange Commission (''SEC'' or ''Commission'') the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the CBOE. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CBOE is proposing to increase the size limit of orders in certain classes of options contracts which are eligible for entry into the CBOE's Retail Automatic Execution System (''RAES'') in order to match the size limits of orders which will be eligible for entry into the automatic execution system of the Philadelphia Stock Exchange (''Phlx'').

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the CBOE included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it receive on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The CBOE has prepared summaries, set forth in

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

CBOE Rule 6.8(e) generally limits the size of RAES orders to twenty or fewer contracts. On August 31, 1999, options on Oracle Corporation (ORQ), Eastman Kodak Company (EK), EMC Corporation (EMC), Merck & Company, Inc. (MRK), Hewlett Packard Company (HWP), Texas Instruments, Inc. (TXN), and Exxon Corporation (XON) were dually listed on the CBOE and the Phlx. Before August 31, each of these option classes was listed solely on the CBOE. The Phlx has announced that the automatic execution size limit for each of these seven option classes is 50 contracts pursuant to Phlx Rule 1080(c).

Therefore, pursuant to CBOE Rule 6.8 and Interpretation and Policy .01, the CBOE proposes to increase the RAES eligible order size limit in ORQ, EK, EMC, MRK, HWP, TXN, and XON to 50 contracts, to match the eligible order size on the automatic execution system of the Phlx, effective August 31, 1999.[3]

The Exchange represents that RAES has the capacity to accommodate at RAES order limit size of up 50 contracts in ORQ, EK, EMC, MRK, HWP, TXN, and XON, both in terms of systems capacity as well as the market-making capacity of market-makes participating in RAES.

2. Statutory Basis

The exchange believes that the proposed rule change is consistent with Section 6(b) of the Act in general, and furthers the objectives of sections 6(b)(5) and 6(b)(8) of the Act in particular, in that it is designed to remove unnecessary burdens on competition, as well as remove impediments to and perfect the mechanism of a free and open market and a national market system, for the benefit of investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The CBOE does not believe that the proposed rule change will impose any burden on competition.

[3] Subsequently, the Commission approved a proposed rule filing by the CBOE to increase the size limit of RAES orders in most options classes to 50 contracts. *See* Securities Exchange Act Release No. 41821 (September 1, 1999) (SR–CBOE–99–17).

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing rule change constitutes a stated policy, practice, or interpretation with respect to the meaning, administration, or enforcement of an existing rule of the Exchange, it has become effective pursuant to Section (19)(b)(3)(A)(i) of the Act and subparagraph (f)(1) of Rule 19b–4 thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549–0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing also will be available for inspection and copying at the principal office of the CBOE. All submissions should refer to File No. SR–CBOE–99–50 and should be submitted October 12, 1999.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[4]

Margaret H. McFarland,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–41855; File No. SR–CHX–99–10]

Self-Regulatory Organizations; Notice of Filing and Order Granting Accelerated Approval of Proposed Rule Change by the Chicago Stock Exchange, Inc., To Expand the SuperMax Plus Price Improvement Algorithm to Nasdaq/NM Securities

September 10, 1999.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on August 6, 1999, the Chicago Stock Exchange, Inc. (''CHX'' or ''Exchange'') filed with the Securities and Exchange Commission (''SEC'' or ''Commission'') the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons and to grant accelerated approval to the proposed rule change.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to expand its SuperMax Plus price improvement algorithm, located in CHX Rule 37(d) of Article XX, to cover Nasdaz/National Market (''Nasdaq/NM'') securities. The text of the proposed rule change is available at the Office of the Secretary, CHX and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On May 22, 1995, the Commission approved a proposed rule change allowing CHX specialists to provide order execution guarantees through the Exchange's MAX system that are more favorable than those required under CHX Rule 37(a), Article XX.[3] That approval order contemplated that the CHX would file with the Commission specific modifications to the parameters of MAX that are required to implement various options available under the new rule, as approved.

SuperMax Plus is an existing CHX program within the MAX System that uses a computerized algorithm to provide automated price improvement.[4] Currently, the SuperMax Plus program, like all other automated price-improvement programs at the CHX, is limited to Dual Trading System issues (*i.e.*, issues traded on both the CHX and either the New York Stock Exchange or the American Stock Exchange). The CHX now proposes to expand the SuperMax Plus program to include Nasdaq/NM securities traded on the Exchange. The CHX represents that this change will provide orders in Nasdaq/NM securities with the same automated price improvement benefits that are available for orders in Dual Trading System issues.[5]

The expanded SuperMax Plus program will be part of the existing voluntary price improvement programs in which specialists may choose to participate. Participation will continue to be on a security-by-security basis. A specialist will only be able to activate and deactivate the program with respect to a given security once a month.

Under the SuperMax Plus algorithm for Nasdaq/NM securities, if the SuperMax Plus program has been engaged for such security, small agency market orders (*i.e.*, orders from 100 shares to 199 shares (or a greater amount chosen by the specialist and approved by the Exchange)) will automatically receive 1/16th of a point price improvement from the National Best Bid or Offer (''NBBO'') if the market for the security is quoted with a spread of 1/8th of a point or greater. If the spread between the national best bid and national best offer for such a security is less than 1/8th of a point, the order will automatically be immediately executed at such NBBO (*i.e.*, a buy order will be executed at the offer and a sell order will be executed at the bid).

Timing of Effectiveness of System Changes. The addition of SuperMax Plus to Nasdaq/NM securities will become operative shortly after approval of this proposed rule change on a date to be determined by the Exchange. The Exchange will announce this date in a Notice to Members issued within 30 days of the date of Commission approval of the proposed rule change.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b)(5)[6] of the Act in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. The Exchange believes that the proposed rule change accomplishes these ends by increasing the number of trades that will receive automated price improvement.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange represents that the proposed rule change will impose no burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549–0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the Exchange. All submissions should refer to File No. SR–CHX–99–10 and should be submitted by October 12, 1999.

IV. Commission's Findings and Order Granting Accelerated Approval of the Proposed Rule Change

The CHX requests accelerated approval of the proposed rule change. The Commission has reviewed the CHX's proposed rule change and finds, for the reasons set forth below, that the proposal is consistent with the requirements of Section 6 of the Act[7] and the rules and regulations thereunder applicable to a national securities exchange. Specifically, the Commission believes the proposal is consistent with Section 6(b)(5) of the Act,[8] which requires that the rules of an exchange be designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.[9] The Commission believes expanding the SuperMax Plus program to Nasdaq/NM securities will provide investors with enhanced investment opportunities because price improvement from the NBBO will be available if the market for a Nasdaq/NM security is quoted with a spread of 1/8th of a point or greater. The Commission notes that while SuperMax Plus is a voluntary program that specialists choose to participate in for Dual Trading

[3] *See* Securities Exchange Act Release No. 35753 (May 22, 1995), 60 FR 28007 (May 26, 1995) (File No. SR–CHX–95–08).

[4] *See* Securities Exchange Act Release Nos. 40017 (May 20, 1998), 63 FR 29277 (May 28, 1998) and 40235 (July 17, 1998), 63 FR 40147 (July 27, 1998) (File No. SR–CHX–98–09) (approving revised SuperMax and Enhanced SuperMax algorithms).

[5] The execution algorithm for SuperMax Plus, as it applies to Dual Trading System issues, will differ from the execution algorithm for SuperMax Plus, as it is proposed to be applied to Nasdaq/NM Securities. The existing SuperMax Plus algorithm uses primary market sales and the Intermarket Trading System (''ITS'') best bid or offer as factors in determining price improvement. Nasdaq/NM Securities do not have a primary market equivalent and do not have an ITS best bid or offer. In addition, the existing SuperMax and Enhanced SuperMax algorithms will continue to be available only for Dual Trading System issues. *See* Securities Exchange Act Release No. 41480 (June 4, 1999), 64 FR 32570 (June 17, 1999).

[6] 15 U.S.C. 78f(b)(5).

[7] 15 U.S.C. 78f.

[8] 15 U.S.C. 78f(b)(5).

[9] In approving this rule, the Commission notes that it has also considered the proposed rule's impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

System issues and, now, Nasdaq/NM securities, providing a greater number of investors an opportunity to achieve price improvement is compatible with the views expressed in the Order Handling Rules release.[10]

Because the provision of price improvement for Nasdaq/NM securities should enhance small investor participation in the securities market, without sacrificing investor protection and the public interest, the Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice in the **Federal Register**.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,[11] that the proposed rule change (SR–CHX–99–10) is hereby approved on an accelerated basis.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–41858; File No. SR–NASD–99–38]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the National Association of Securities Dealers, Inc., To Increase the Examination Development Fee Payable to the New York Stock Exchange, Inc.

September 10, 1999.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'')[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on August 6, 1999, the National Association of Securities Dealers, Inc. (''NASD'' or ''Association'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the NASD. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The NASD proposes to amend Section 2(d) of Schedule A of the NASD By-Laws to reflect a recent increase to the examination development fee payable to the New York Stock Exchange, Inc. (''NYSE''), by NASD members taking the General Securities Representative Examination (''Series 7 Exam''). Additions are italicized; deletions are bracketed.

Section 2—Fees

* * * * *

(d) There shall be a New York Stock Exchange examination development fee of [$40.00] *$90.00* assessed as to each individual who takes a Series 7 examination for registration as a general securities representative. This fee is in addition to the registration and examination fees described in paragraphs (b) and (c) respectively.

* * * * *

II. Self Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The NASD has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The NASD proposes to amend Schedule A of its By-Laws to reflect an increase in the NYSE Series 7 Exam development fee from $40 to $90.[3] The NASD has represented that it collects this fee from its members in connection with its administration of the Central Registration Depository (''CRD'') program.[4] After it collects the fee, the NASD passes the proceeds of the fee to the NYSE to cover the costs of providing qualification examination programs.

The NASD proposes to make the rule change effective on or about September 15, 1999. The effective date was announced on August 18, 1999, in a Notice To Members.[5]

2. Statutory Basis

The NASD represents that it believes the proposed rule change is consistent with the provisions of Section 15A(b)(5)[6] of the Act, which requires, among other things, that the Association's rules must provide for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facility or system which the Association operates or controls.

B. Self-Regulatory Organization's Statement on Burden on Competition

The NASD represents that it does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii)[7] of the Act and subparagraph (f)(2) of Rule 19b–4[8] thereunder in that it is a change to a due, fee, or other charge imposed by the NASD. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors,

or otherwise in furtherance of the purposes of the Act.[9]

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549–0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the NASD. All submissions should refer to file No. SR–NASD–99–38 and should be submitted by October 12, 1999.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[10]

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–41849; File No. SR–PCX–99–29]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the Pacific Exchange, Inc. Regarding the Extension of the Pilot Program Eliminating Position and Exercise Limits in FLEX Equity Options

September 9, 1999.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b-4 thereunder,[2] notice is hereby given that on August 13, 1999, the Pacific Exchange, Inc. (''PCX'' or ''Exchange'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the PCX. The Exchange has designated the proposed rule change as constituting a ''non-controversial'' rule change under paragraph (f)(6) of Rule 19b-4 under the Act[3] which renders the proposal effective upon receipt of this filing by the Commission.[4] The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons and to accelerate the operative date of the proposed rule change.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The PCX proposes a three month extension of the pilot program, set to expire on September 9, 1999, relating to the elimination of position and exercise limits for FLEX Equity options. The Exchange proposes that the three month extension expire on December 9, 1999.

The text of the proposed rule change is available at the Office of the Secretary, PCX, and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On February 14, 1996, the Commission approved the Exchange's proposal to trade FLEX Equity options on specified equity securities.[5] On September 9, 1997, the Commission approved the Exchange's proposal to eliminate position and exercise limits for FLEX Equity options pursuant to a two-year pilot program.[6] Under the two-year pilot program, position and exercise limits for FLEX Equity options pursuant to PCX Rules 8.107 and 8.108 were eliminated. The current pilot program expires on September 9, 1999. The Exchange proposes a three month extension of the current pilot program to expire on December 9, 1999. The Exchange requests the extension to be able to complete a report required pursuant to the original approval order for the two-year pilot program.[7]

2. Statutory Basis

The Exchange believes that this proposed rule change is consistent with Section 6(b)[8] of the Act in general and furthers the objectives of Section 6(b)(5)[9] in particular in that it is designed to facilitate transactions in securities, promote just and equitable principles of trade, and protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has neither solicited nor received written comments with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

This proposed rule filing has been filed by the Exchange as a ''non-controversial'' rule change pursuant to Section 19(b)(3)(A)(i) of the Act[10] and subparagraph (f)(6) of Rule 19b-4

---

[9] In reviewing this proposal, the Commission has considered the proposal's impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

[10] 17 CFR 200.30–3(a)(12).

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b-4.

[3] 17 CFR 240.19b-4(f)(6).

[4] The Exchange has represented that the proposed rule change: (i) will not significantly affect the protection of investors or the public interest; (ii) will not impose any significant burden on competition; and (iii) will not become operative for 30 days after the date of this filing, unless otherwise accelerated by the Commission. The Commission is waiving the minimum five business day notice requirement as permitted by Rule 19b-4(f)(6) under the Act. *Id.* The Commission notes that the Exchange has requested that the Commission accelerate the operative date of the rule change to permit uninterrupted operation of the pilot program.

[5] Securities Exchange Act Release No. 36841 (February 14, 1996), 61 FR 6666 (February 21, 1996).

[6] Securities Exchange Act Release No. 39032 (September 9, 1997), 62 FR 48683 (September 16, 1997).

[7] Under the current pilot program, the Exchange was required to submit a status report eighteen months following the commencement of the program. Although the PCX has not submitted such report, it intends to do so within the proposed three month extension period.

[8] 15 U.S.C. 78f(b).

[9] 15 U.S.C. 78f(b)(5).

[10] 15 U.S.C. 78s(b)(3)(A)(i).

thereunder.[11] Because the foregoing proposed rule change: (1) Does not significantly affect the protection of investors or the public interest, (2) does not impose any significant burden on competition, (3) by its terms does not become operative for 30 days after the date of filing, or such shorter time as the Commission may designate, and because (4) the Commission is waiving the required written notice of intent to file the proposed rule change at least five days prior to the filing date, it has become effective for a pilot period until December 9, 1999, pursuant to Section 19(b)(3)(A) of the Act[12] and Rule 19b-4(f)(6) thereunder.[13]

The Commission has determined, consistent with the protection of investors and the public interest, to make the proopsed rule change operative upon filing, pursuant to Section 19(b)(3)(A) of the Act[14] and Rule 19b-4(f)(6)(iii).[15] Under Rule 19b-4(f)(6)(iii), a proposed ''non-controversial'' rule change does not become operative for 30 days after the date of filing, unless the Commission designates a shorter time.[16] The Commission believes that because the two-year pilot program is scheduled to expire on September 9, 1999, and the three month extension is based on the same terms and conditions of the original pilot, it is consistent with the protection of investors and the public interest to make the proposed rule change operative upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in the furtherance of the purposes of the Act.[17]

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Secruities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549–0609. Copies of submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of such filing will also be available for inspection and copying at the principal office of the PCX. All submissions should refer to file number SR–PCX–99–29 and should be submitted by October 12, 1999.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[18]

RTCA Program Management Committee

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463, 5 U.S.C., Appendix 2), notice is hereby given for Program Management Committee meeting to be held October 6, 1999, starting at 9:00 a.m. The meeting will be held at National Business Aviation Association, 1200 18th Street, NW., Suite 400, Washington, D.C. 20036.

The agenda will include: (1) Welcome and Introductions; (2) Review/Approve Summary of previous meeting; (3) Discussion: A. Special Committee 194, ATM Data Link Implementation, 1. Consider proposed revision to the Terms of Reference; 2. Consider a new Co-Chairman; B. Proposed New Special Committee for Night Vision Goggles, 1. Consider Terms of Reference and Proposed Co-Chairs; C. Status report on Special Committee 147, Traffic Alert and Collision Avoidance System; D. Update on Special Committee 165, Aeronautical Mobile Satellite Services; (4) Publication Consideration/Approval: A. Final Draft, First Annual Report for Clarification of DO–178B, Software Consideration in Airborne System and Equipment Certification (RTCA Paper No. 163–99/PMC–053, prepared by SC–190); B. Final Draft, Development and Implementation Planning Guide for Automatic Dependent Surveillance Broadcast (ADS–B) Applications, (RTCA Paper No. 221–99/PMC–059, prepared by SC–186); C. Final Draft, DO–229B, Minimum Operational Performance Standards for Global Positioning System/Wide Area Augmentation System Airborne Equipment (RTCA Paper No. 183–99/PMC–054, prepared by SC–159); (5) Action Item Review: A. Action Item 99–09. Comment on RTCA's process for facilitating the FAA's External Relations Program and value of input provided for the first Mission Needs review. B. Action Item 99–10. Proposed policy for PMC Member Attendance; C. Action Item 99–11. Update of deliverables and completion schedule for Special Committee 189, Air Traffic Service Safety & Interoperability Requirements; D. Action Item 99–12. Recommendation for changes to Terms of Reference for: 1. SC–186, Automatic Dependent Surveillance-Broadcast; 2. SC–193, Terrain and Airport Databases; 3. SC–195, Flight Information Services Communications. Changes have been suggested by the FAA to focus work programs and better support the Safe Flight 21 Program; E. Action Item 99–13. Proposed policy for termination/extension of Special Committees that have completed their assigned work programs; (6) Other Business; (7) Review Document Production Schedule and Future Meetings Dates; (8) Closing.

Attendance is open to the interested public but limited to space availability. With the approval of the chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the RTCA Secretariat, 1140 Connecticut Avenue, NW., Suite 1020, Washington, DC 20036; (202) 833–9339 (phone); (202) 833–9434 (fax); or http://www.rtca.org (web site). Members of the public may present a written statement to the committee at any time.

Issued in Washington, DC, on September 14, 1999.

October 5: Ad Hoc, Recommendation Support; 9:00 a.m.–12:00 p.m.: Working Group 6, Interference; Precision Landing Guidance (LAAS) 1:30–4:30 p.m. October 6: Working Group 4, Precision Landing Guidance (LAAS CAT I/II/III). Working Group 2, WAAS; 1:30–4:30 p.m. October 7: 9:00 a.m.–12:00 p.m., Working Group 4, Precision Landing Guidance (LAAS CAT I/II/III); 9:00 a.m.–12:00 p.m., Working Group 2, WAAS.

October 7, 1:30–4:30 p.m., Plenary Session (continuing on October 8, 9:00 a.m.–4:30 p.m.): (1) Chairman's Introductory Remarks; (2) Review/Approval of Minutes of Previous Meeting; (3) Review WG Progress and Identify Issues for Resolution: (a) GPS/Third Civil Frequency (WG–1); (b) GPS/WAAS (WG–2); (c) GPS/GLONASS (WG–2A); (d) GPS/Inertial (WG–2C); (e) GPS/Precision Landing Guidance (WG–4); (f) GPS/Airport Surface Surveillance (WG–5); (g) GPS/Interference (WG–6); (h) SC–159 Ad Hoc; (4) Review of EUROCAE Activities; (5) Review/Approval of Minimum Operational Performance Standards for Global Positioning System Local Area Augmentation System Airborne Equipment (RTCA Paper No. 227–99/159–826); and Global Navigation Satellite System (GNSS) Based Precision Approach Local Area Augmentation System (LLAS) Signal-In-Space Interface Control Document (RTCA Paper No. 227–99/159–826); (6) Assignment/Review of Future Work; (7) Other Business; (8) Date and Location of Next Meeting; (9) Closing.

Attendance is open to the interested public but limited to space availability. With the approval of the chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact Mr. Harold Moses, RTCA Program Director, at (202) 833–9339 (phone), (202) 833–9434 (fax), or hmoses@rtca.org (electronic mail). Members of the public may present a written statement to the committee at any time.

Issued in Washington, DC, on September 14, 1999.

Janice L. Peters,

Designated Official.

BILLING CODE 4410–13–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Intent To Rule on Application To Impose a Passenger Facility Charge (PFC) at Chicago O'Hare International Airport, Chicago, Illinois and Use PFC Revenue at Gary/Chicago Airport, Gary, Indiana

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Notice of intent to rule on application.

SUMMARY: The FAA proposes to rule and invites public comment on the application to impose a PFC at Chicago O'Hare International Airport and use the revenue from a PFC at Gary/Chicago Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Public Law 101–508) and Part 158 of the Federal Aviation Regulations (14 CFR Part 158).

DATES: Comments must be received on or before October 20, 1999.

ADDRESSES: Comments on this application may be mailed or delivered in triplicate to the FAA at the following address: Federal Aviation Administration, Chicago Airports District Office, 2300 East Devon Avenue, Room 101, Des Plaines, Illinois 60018.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Ms. Mary Rose Loney, Commissioner, of the City of Chicago Department of Aviation at the following address: Chicago O'Hare International Airport, P. O. Box 66142, Chicago, Illinois 60666.

Air carriers and foreign air carriers may submit copies of written comments previously provided to the City of Chicago Department of Aviation under section 158.23 of Part 158.

FOR FURTHER INFORMATION CONTACT: Mr. Philip M. Smithmeyer, Manager, Chicago Airports District Office, 2300 East Devon Avenue, Room 101, Des Plaines, Illinois 60018, (847) 294–7335. The application may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA proposes to rule and invites public comment on the application to impose a PFC at Chicago O'Hare International Airport and use the revenue from a PFC at Gary/Chicago Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Public Law 101–508) and Part 158 of the Federal Aviation Regulations (14 CFR Part 158).

On September 7, 1999, the FAA determined that the application to impose and use the revenue from a PFC submitted by City of Chicago Department of Aviation was substantially complete within the requirements of section 158.25 of Part 158. The FAA will approve or disapprove the application, in whole or in part, no later than December 18, 1999.

The following is a brief overview of the application.

PFC application number: 99–11–C–00–ORD.

Level of the proposed PFC: $3.00.

Original charge effective date: September 1, 1993.

Proposed charge expiration date: October 1, 2017.

Total estimated PFC revenue: $1,500,000.00.

Brief description of proposed projects:

a. Acquire Airport Rescue and Firefighting Vehicle

b. Terminal Building Improvements

Class or classes of air carriers which the public agency has requested not be required to collect PFCs: air taxi operators.

Any person may inspect the application in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT.**

In addition, any person may, upon request, inspect the application, notice and other documents germane to the application in person at the City of Chicago Department of Aviation.

Issued in Des Plaines, Illinois on September 18, 1999.

Cameron Bryan,

Acting Manager, Planning/Programming Branch, Airports Division, Great Lakes Region.

BILLING CODE 4910–13–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Intent To Rule on Application To Impose and Use a Passenger Facility Charge (PFC) at San Jose International Airport, San Jose, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Amendment to the notice requesting comments and announcing the FAA's intent to rule on a PFC application.

SUMMARY: This amendment is in response to a written request from Mr. Bill Dunn, Vice President, Regional Affairs, Aircraft Owners and Pilots Association (AOPA) to the FAA, dated August 27, 1999, requesting additional time to provide comments on the FAA's notice of intent to rule on a PFC application requesting authority to impose and use a PFC at San Jose International Airport.

Specifically, this amendment revises the date that comments must be received by the FAA regarding the FAA's intent to rule on a PFC application.

In FR Vol. 64, No. 150 at page 42752 (Thursday, August 5, 1999), FR Doc. 99–20085, on the second column under **DATES**, replace sentence ''Comments must be received on or before September 7, 1999'' with ''Comments must be received on or before October 7, 1999.''

FOR FURTHER INFORMATION CONTACT: Marlys Vandervelde, Airports Program Analyst, San Francisco Airports District Office, 831 Mitten Road, Room 210, Burlingame, CA 94010–1303, Telephone: (650) 876–2806. The application may be reviewed in person at this same location.

Issued in Hawthorne, California, on September 3, 1999.

Herman C. Bliss,

Manager, Airports Division, Western-Pacific Region.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Federal Transit Administration

Transportation Equity Act for the 21st Century; Guidelines for the Evaluation of Operational Tests and Deployment Projects for Intelligent Transportation Systems (ITS)

AGENCIES: Federal Highway Administration (FHWA), Federal Transit Administration (FTA), Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: This document provides implementation guidance for section 5204(j)(1) of the Transportation Equity Act for the 21st Century (TEA–21) 23 U.S.C 502 Note. Guidelines and requirements for the evaluation of

operational tests and deployment projects for ITS ensure the objectivity and independence of project evaluators to avoid any real or apparent conflict of interest or potential influence on the outcome by parties to such tests and projects. They also establish evaluation funding levels based on the size and scope of each test or project to ensure adequate evaluation. The ITS Joint Program Office (ITS JPO) plans to disseminate the TEA–21 Evaluation Guidelines to affected program offices within the DOT. Should it be deemed necessary to establish any requirements for the evaluation of operational tests and/or deployment projects, these would be established pursuant to rulemaking to be issued in the future.

FOR FURTHER INFORMATION CONTACT: For technical information: Mr. Joe Peters, (202) 366–2202, ITS Joint Program Office, (HOIT–1) FHWA. *For legal information:* Mr. Wilbert Baccus, Office of the Chief Counsel, FHWA (HCC–32), (202) 366–0780; Ms. Linda Sorkin, Office of the Chief Counsel, FTA (TCC–24), (202) 366–1936. All are located at the U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 8 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Electronic Access

An electronic copy of the document may be downloaded using a modem and suitable communications software from the Government Printing Office's Electronic Bulletin Board Service at (202) 512–1661. Internet users may reach the **Federal Register**'s home page at: *http://www.nara.gov/fedreg* and the Government Printing Office's database at: *http://www.access.gpo.gov/nara.* The TEA–21 Evaluation Guidelines may also be accessed at the U.S. DOT's ITS home page, through the evaluation link, at *http://www.its.dot.gov.*

Background

Section 5204(j)(1) of TEA–21, Pub. L. 105–178, 112 Stat. 107, 455 (1998), states that the Secretary of Transportation (Secretary) shall issue guidelines and requirements for the evaluation of operational tests and deployment projects for the ITS. This document sets forth TEA–21 Guidelines that are required to include provisions to ensure objectivity and independence of evaluators so as to avoid real or apparent conflicts of interest on the outcome of project evaluations. The guidelines are further required to establish evaluation funding levels based on the size and scope of each test or project to ensure adequate project or operational test evaluations. Should it be deemed necessary to establish any requirements for the evaluation of operational tests and/or deployment projects, these would be established pursuant to rulemaking to be issued in the future.

The objective of the TEA–21 Evaluation Guidelines is to fulfill the requirements imposed on the Secretary in the referenced section by accomplishing the following:

1. Defining the different categories of projects carried out under subtitle C;

2. Defining, in general terms, different types of evaluations to be conducted by projects in the categories defined;

3. Establishing criteria to guide the selection of evaluations to be performed;

4. Defining, in general terms, procedures for ensuring objectivity and independence of evaluating organizations;

5. Defining the funding mechanism to provide project evaluation resources;

6. Providing a general description of the procedures [and requirements] that project partnerships can expect when participating in the types of evaluations defined;

7. Providing access through web site address to detailed evaluation procedures to include examples of specific evaluation plans, test plans, and reports.

The TEA–21 Evaluation Guidelines are published in the **Federal Register** for informational purposes on our approach to satisfying the requirements prescribed in section 5204(j)(1). Specific questions on any of the material published in this notice should be directed to the appropriate contact person named in the caption **FOR FURTHER INFORMATION CONTACT.**

Authority: 23 U.S.C. 315; sec. 5204(j), Pub. L. 105–178, 112 Stat. 455 (1998) 23 U.S.C. 502 Note.

Issued on: September 13, 1999.

Kenneth R. Wykle,

Federal Highway Administrator.

Gordon J. Linton,

Federal Transit Administrator.

The text of the TEA–21 Evaluation Guidelines is presented as follows:

United States Department of Transportation

Intelligent Transportation Systems

Evaluation Guidelines for the Transportation Equity Act for the 21st Century

Operational Tests and Deployment Projects

I. Introduction

A. Background

The enactment of the Transportation Equity Act for the 21st Century (TEA–21) [Pub. L. 105–178, 112 Stat. 107 (1998)] has expanded the focus of the Intelligent Transportation Systems (ITS) program from one of research and operational tests to one that now includes deployment of ITS across the Nation. Subtitle C (Intelligent Transportation Systems Act of 1998) under title V of TEA–21 authorizes investment to accelerate the rate at which intelligent transportation systems are incorporated in the Nation's surface transportation network to improve transportation safety and efficiency, and to reduce costs and negative impacts on communities and the environment. The effective implementation of the deployment and integration activities specified in subtitle C will rely heavily on active and rigorous evaluations of those activities. Recognizing the evolving nature of the ITS program, Congress included a mandate in TEA–21 which requires the Secretary of Transportation (Secretary) to issue guidelines and requirements for the evaluation of operational tests and deployment projects carried out under the program. A prerequisite for the continuing support of decision makers addressing policy and investment issues will be a clear understanding of ITS system effectiveness. At the Federal level, the Government Performance and Results Act [Pub. L. 103–62, 107 Stat. 285 (1993)] has established a formal process for program and budget planning. ITS benefits information will be needed for assessing the efficacy of Federal investment in ITS. At the project level, agencies and partners in public-private project initiatives require the means to monitor costs and system effectiveness on a continuing basis to support management of systems and operations.

B. Legislative Requirements

The Congress has recognized the critical role of ITS evaluation in section 5204(j)(1)(A) of subtitle C which prescribes that:

Subparagraph (A):

In General.—The Secretary shall issue guidelines and requirements for the evaluation of operational tests and deployment projects carried out under this subtitle.

Subparagraph (B):

Objectivity and Independence.—The guidelines and requirements issued under Subparagraph (A) shall include provisions to ensure the objectivity and

independence of the evaluator so as to avoid any real or apparent conflict of interest or potential influence on the outcome by parties to any such test or deployment project or by any other formal evaluation carried out under this subtitle.

Subparagraph (C):

Funding.—The guidelines and requirements issued under Subparagraph (A) shall establish evaluation funding levels based on the size and scope of each test or project to ensure adequate evaluation of the results of the test or project.

C. Objective

The objective of this document is to fulfill the ''guidelines'' requirement imposed on the Secretary by TEA–21, title V, subtitle C, section 5204(j)(1)(A), (B), and (C) as referenced above.

D. Purposes of Evaluation Guidelines

In order to satisfy the applicable title V subtitle C criterion imposed by TEA–21, guidelines must be issued which accomplish the following purposes:

1. Define different categories of projects carried out under subtitle C;
2. Define, in general terms, different types of evaluations to be conducted by projects in the categories defined;
3. Establish criteria to guide the selection of evaluations to be performed;
4. Define, in general terms, procedures for ensuring objectivity and independence of evaluating organizations;
5. Define the funding mechanism to provide resources for evaluations;
6. Provide a general description of the procedures [and requirements] that project partnerships can expect when participating in the types of evaluations defined;
7. Provide access through web site address to detailed evaluation procedures including examples of specific evaluation plans and reports. Guidelines in this document do not address detailed evaluation procedures.

II. Terms of Reference

The establishment of clearly understood guidelines for evaluation of projects funded with Federal ITS funding requires identification of the categories of projects specified in the law. Similarly, understanding of the Department's concept for conducting project evaluations requires differentiation between types of evaluation.

A. Project Categorization

Projects to be carried out with Federal ITS funds are identified as follows:

1. *Operational Tests*—Section 5207(c) specifies the conduct of operational tests of intelligent vehicles and intelligent infrastructure systems. Section 5207(c) further specifies that operational tests conducted under this section shall be designed for the collection of data to permit objective evaluation of the results of the tests, derivation of cost-benefit information that is useful to others contemplating deployment of similar systems, and the development and implementation of standards.

2. *ITS Deployment Program*—The ITS Deployment Program provides funding for two major project categories specified in sections 5208 and 5209. The two components are the ITS Integration Program and the Commercial Vehicle Intelligent Transportation Infrastructure Deployment Program, commonly known as the Commercial Vehicle Information Systems and Networks (CVISN) Program.

a. *Intelligent Transportation System Integration Program*—Section 5208(a) specifies projects to be carried out under the Intelligent Transportation System Integration Program in metropolitan and rural areas. These projects comprise one major component of the ITS Deployment Program defined above. The ITS Integration Program provides Federal funding for the integration of multi-modal ITS components in a variety of settings, including large regional areas (for example, Statewide, multi-State, or multi-city), metropolitan areas, non-metropolitan areas, and rural areas. ITS integration projects should improve transportation efficiency; promote safety; enhance transit integration; improve paratransit/demand-responsive transit operations, including operations of health and human services providers; improve traffic flow, including the flow of intermodal freight at ports of entry; reduce emissions of air pollutants; improve traveler information; promote tourism; enhance alternative transportation modes; or support improved transportation systems operations, management and maintenance.

As part of the Intelligent Transportation System Integration Program, section 5208(g), Corridor Deployment and Coordination, requires the Secretary to encourage multistate cooperative agreements, coalitions, or other arrangements intended to promote regional cooperation, planning, and shared project implementation for intelligent transportation system projects. There are two areas of implementation: Great Lakes ITS Implementation and Northeast ITS Implementation.

(a) Great Lakes Implementation—Section 5208(g)(2)(A): The Secretary is required to make grants under this subsection to the State of Wisconsin to continue ITS activities in the corridor serving the Greater Milwaukee, Wisconsin; Chicago, Illinois; and Gary, Indiana, areas initiated under the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) [Pub. L. 102–240, 105 Stat. 1914 (1991)] and other areas in the State.

(b) Northeast ITS Implementation—Section 5208(g)(3)(A): The Secretary is required to make grants under this subsection to the states to continue ITS activities in the Interstate Route I–95 Corridor in the northeastern United States initiated under ISTEA.

b. *Commercial Vehicle Intelligent Transportation System Infrastructure Deployment*—Section 5209 specifies that the Secretary shall carry out a comprehensive program to deploy intelligent transportation systems that improve safety and productivity of commercial vehicles and drivers, while reducing costs of commercial vehicle operations and regulatory requirements. The term ''Commercial Vehicle Information Systems and Networks'' is defined (section 5211) as the information systems and communications networks that support commercial vehicle operations. Funding in section 5209 is used to support CVISN projects which comprise the second major component of the ITS Deployment Program defined above. CVISN objectives focus on advancing technological capabilities and promoting the deployment of intelligent transportation system applications to commercial vehicle operations, including commercial vehicle, commercial driver, and carrier-specific information systems and networks. Priority areas for projects are those that encourage multi-state cooperation and corridor development; improve the safety of commercial vehicle operations; increase the efficiency of regulatory inspection processes to reduce administrative burdens; improve the efficiency of enforcement efforts; advance electronic processing of registration, driver licensing and fuel tax information, inspection and crash data; promote communication of information among the States; and, enhance safe passage of commercial vehicles across international borders.

B. Evaluation Categorization

For the purpose of the guidelines, there are two categories of project evaluations.

1. *Self-Evaluations*—In the interests of accepted sound management practice, it is expected that ITS Deployment Program participants should conduct locally executed and funded evaluations under the auspices of the project partners. These self-evaluations, also identified as local evaluations, incorporate certain minimum evaluation and reporting requirements. Cross-cutting assessments of these local evaluations will be conducted by the ITS Joint Program Office (ITS JPO) at Headquarters (HQ), U.S. DOT, and will include gathering data and dissemination of results.

2. *National Evaluations*—National evaluations are formal, in-depth, independently conducted evaluations of operational tests of intelligent infrastructure systems and selected projects carried out under the ITS Deployment Program. In the case of selected ITS Deployment Program projects, these evaluations will supplement and expand on the activities of self-evaluations. The added resources available for national evaluations will facilitate assessment of quantitative performance measures and other aspects of project evaluation difficult to pursue with the potentially limited resources assigned for self-evaluations. National evaluations will be conducted under the auspices of U.S. DOT, and will be closely monitored by a designated U.S. DOT representative. The U.S. DOT has established the Intelligent Vehicle Initiative (IVI) to improve the safety and efficiency of motor vehicle operations by reducing the probability of motor vehicle crashes. Evaluations of IVI field operational tests will be conducted under the auspices of the IVI Program Manager in accordance with procedures defined within the IVI Program and not associated with requirements for national evaluations discussed in these guidelines.

Features and requirements of these categories are described below in these guidelines.

III. Concept for Project Selection and Evaluation Funding

A. National Evaluations

1. *Operational Tests*—All operational tests of intelligent infrastructure systems carried out under section 5207 shall be administered formal, national evaluations under the auspices of the ITS JPO Program Assessment Coordinator.

2. *ITS Deployment Program*—Projects carried out under the ITS Deployment Program will be reviewed as follows:

(a) *ITS Integration Program*—Projects selected for funding under section 5208 shall be reviewed, and a limited number will be selected for national evaluations in accordance with appropriate criteria described in these guidelines.

- Corridor Development and Coordination—Projects resulting from grants made to the State of Wisconsin to continue activities in the corridor serving Milwaukee, Wisconsin; Chicago, Illinois; and Gary, Indiana, in accordance with section 5208(g)(2)(A) and projects resulting from grants made to the I–95 Northeast ITS Priority Corridors, in accordance with section 5208(g)(3)(A), may be reviewed for incorporation in a national evaluation as determined by the Department's evaluation needs in corridor settings.

(b) *Commercial Vehicle ITS Infrastructure Deployment*—A limited number of CVISN deployment sites funded under section 5209 will be selected for national evaluations in accordance with appropriate criteria described in these guidelines.

B. Self-Evaluations

All project partnerships are expected to perform locally conducted self-evaluations.

C. Funding for Project Evaluations

In order to fulfill the mandate specified in section 5204(j)(1)(C) that these guidelines ''shall establish evaluation funding levels based on the size and scope of each test or project that ensure adequate evaluation of the results of the test or project,'' the following procedures apply:

1. *Operational Tests*—Funding for evaluations of operational tests of intelligent infrastructure systems will be provided by the ITS JPO.

2. *ITS Deployment Program*—(a) Projects funded under the Intelligent Transportation System Integration Program (section 5208) and the Commercial Vehicle Intelligent Transportation System Infrastructure Deployment Program (section 5209) selected for national evaluations will use a pooled funding mechanism. During each year authorized by TEA–21, two percent of the amount authorized for the ITS Deployment Program will be placed into a deployment evaluation fund. National evaluations for selected projects will be funded by this account.

(b) All projects will fund locally conducted self-evaluations from project resources.

D. Selection Criteria for National Evaluation

1. *Intelligent Transportation System Integration Program*

Projects carried out under section 5208 are designed to accelerate the integration and interoperability of intelligent transportation systems in metropolitan and rural areas. Projects resulting from corridor grants may also be reviewed for inclusion in a national evaluation. Projects selected for funding should support the goals of the program as defined in section 5208.

Projects selected for funding will be reviewed by the ITS Program Assessment Working Group (ITS PAWG) chaired by the ITS JPO Program Assessment Coordinator. The ITS PAWG is comprised of representatives from the modal administrations at HQ, U.S. DOT, and field representatives from the Federal Highway Administration (FHWA) Resource Centers and Division Offices, to include the Office of Technology Evaluation and Deployment within the Office of Motor Carrier and Highway Safety. Federal Transit Administration field representation is included as well.

The ITS PAWG will consider projects for national evaluation through successive iterations designed to narrow the list of candidate projects consistent with available funding and the ITS Program's most compelling information needs. While the specific considerations for project selection may vary in any given year of TEA–21 authorization, the criteria described below will guide the review process.

a. Major consideration will be given to ITS areas for which insufficient knowledge was developed during the operational test experience under ISTEA authorization.

Metropolitan ITS Integration Program projects will be assessed for their potential to provide benefits-related data in areas where evaluation data are still needed.

b. Rural ITS Integration Program projects will be assessed for their potential to provide benefits-related data.

It is anticipated that, over the life of TEA–21, the areas reflecting shortfalls in ITS Program evaluation needs will vary. The ITS Program reserves the flexibility to develop a working document with annual updates of these areas of shortfall which would be used to guide the selection process. These areas will be addressed in annual Departmental project guidance documents.

2. CVISN Deployment Projects

The FHWA's State CVISN Level 1 deployment strategy consists of three key steps: Planning; Design; and, Implementation and Deployment.

Step 1, Planning, includes participation in two ITS/Commercial Vehicle Operations (ITS/CVO) training

courses (Introduction to ITS/CVO and ITS/CVO Technical Project Management for Non-Technical Managers) and the development of an ITS/CVO State business plan. This step is essential to promote ITS/CVO awareness and coalition building among the State agencies involved in CVO and with industry.

The focus of Step 2, Design, is for the State to establish its CVISN project team, including at a minimum a CVISN project manager and a system architect. Once these individuals have been selected, a State can participate in the Understanding ITS/CVO Technology training course and in three CVISN workshops. These activities will assist the State in developing its CVISN Project Plan and Top-Level Design.

Step 3 is the Implementation and Deployment of CVISN Level 1 capabilities.

Only CVISN sites selected for Step 3 funding will be considered for national evaluation. The three elements of Level 1 capabilities subject to national evaluation are:

- Safety Information Exchange,
- Credentials Administration, and
- Electronic Screening.

During each year of TEA–21 authorization, the ITS PAWG will convene its CVO Subcommittee comprised of subject matter experts from FHWA's Office of Technology Evaluation and Deployment within the Office of Motor Carrier and Highway Safety. Based on the ITS/CVO Program's information needs about Level 1 capabilities in different operating environments, a limited number of State CVISN deployment sites engaged in Step 3 (Implementation and Deployment) activities will be selected for national evaluation.

IV. Selection of Evaluating Organizations

A. General

Subtitle C, section 5204(j)(1)(B) requires that these guidelines include provisions to ensure objectivity and independence of the evaluator so as to avoid any real or apparent conflict of interest or potential influence on the outcome by parties to any such test or deployment project or by any other formal evaluation carried out under this subtitle.

B. Provisions for National Evaluations

The required provisions are outlined as follows:

1. Organizations demonstrating technical qualifications are eligible for selection to perform a national evaluation of designated operational tests or deployment projects.

2. In the process of submitting necessary documentation demonstrating qualifications to perform a national evaluation, interested organizations should include a statement certifying commitment to the conduct of a completely objective and independent evaluation, and its commitment to ensuring any subcontracting organizations will adhere to that standard. It is expected that this would include a provision for voluntary recusal from evaluating selected aspects of, or technologies involved in, the project to be evaluated, if appropriate.

3. For national evaluations conducted under the auspices of U.S. DOT, the ITS JPO Program Assessment Coordinator will convene selected members of the ITS PAWG to participate in the selection of an evaluating organization with consultations as follows:

a. *Operational Tests*—For operational tests of intelligent infrastructure systems, the ITS JPO Program Assessment Coordinator, in consultation with project partners and the ITS PAWG, will select the evaluating organization. For IVI field operational tests, the selection of organizations will be conducted in accordance with procedures established by the IVI Program Manager.

b. *ITS Deployment Program*—Participants in the evaluating organization selection process are as follows:

(1) *Intelligent Transportation System Integration Program*—For projects in this category selected for national evaluations, the ITS JPO Program Assessment Coordinator in consultation with project partners will conduct a selection process. The selected evaluator will receive direction and oversight by a U.S. DOT representative, and will be required to document compliance with the ''OBJECTIVITY and INDEPENDENCE'' requirements imposed by section 5204(j)(1)(B) of subtitle C, and will forward authenticated certifications described in IV.B.2 of these guidelines to the designated U.S. DOT representative. This representative, in coordination with the ITS JPO Program Assessment Coordinator, will conduct an expeditious review of selected organizations prior to completion of contract arrangements.

(2) *CVISN Project Evaluations*—The selection of an evaluation organization for the conduct of national evaluations of selected CVISN project sites will be led by the ITS JPO Program Assessment Coordinator and the ITS PAWG representative from the Office of Technology Evaluation and Deployment in the Office of Motor Carrier and Highway Safety who will convene a CVO subcommittee of the ITS PAWG. This subcommittee will be comprised of the ITS JPO Commercial Vehicle Operations Coordinator and subject matter experts on the staff of the Office of Motor Carrier and Highway Safety, HQ, FHWA.

C. Provisions for Self-Evaluations

The guidelines for the conduct of self-evaluations in ITS Deployment Program projects include the following: (1) The evaluations should be conducted under the auspices of the project partners; (2) The partners should form evaluation organizations; and, (3) The process for forming evaluation organizations should strive to adhere to the objectivity and independence principles cited in section 5204(j)(1)(B) of subtitle C.

V. Evaluation—Definition, Process, and Guidelines

A. General—The purposes of this section are to accomplish the following:

- Define evaluation as a management process;
- In general terms, differentiate between procedures and expectations to be encountered in national evaluations and self-evaluations;
- Convey reporting requirements.

These guidelines are not intended to provide detailed procedures for the conduct of evaluations. Extensive documentation addressing detailed procedures, to include examples of evaluation plans and reports will be available at the ITS JPO web site. (See Section V.G.).

B. Definition of Evaluation

Evaluation is the reasoned consideration of how well project goals and objectives are being achieved. The primary purpose of evaluation is to cause changes in the project so that it eventually meets or exceeds its goals and objectives. Evaluation is an essential ingredient to good project management. Evaluations can be qualitative and quantitative; however, the best evaluations employ the combination of qualitative and quantitative information that compare and contrast converging, non-converging, and diverging evidence to result in a complete diagnosis. The most effective evaluations occur when goals and objectives are explicitly stated, are measurable, and are agreed to by all project partners.

Evaluation should be considered as part of the project development process that iterates across stages of strategy

formulation, detailed planning, system design and implementation, data collection, data analysis, and reporting of results. Evaluations should be performed by a party who has had no vested interest or stake in the project itself.

Independence of the evaluator does not mean uninvolvement with the project. Key roles of the evaluator requiring early evaluator involvement are: (1) Identification of key stakeholder partners; (2) eliciting from the partners a meaningful set of goals and objectives for the project and their relative priorities; (3) obtaining insight and consensus regarding which measures will best reflect the degree of success in achieving prioritized goals; and, (4) communicating changes in goals, objectives, and measures as the project evaluation matures. Data can be collected either by the partners in the project (as long as the independent evaluator maintains some oversight of the process) or by the independent evaluator, or by both. The data analysis phase must be performed completely independently of the partners; however, draft results should be shared to obtain partners' expert insights regarding possible flaws in assumptions or errors in analysis. The best evaluation results are those that can bring about positive and timely changes in system operations or maintenance. In such instances, documentation of results may not be as important as the positive changes influenced by the results. Nevertheless, documentation has tremendous importance to the national interest.

A significant goal influencing the approach to ITS Program evaluation planning is the expansion of the knowledge base among transportation community professionals. To the extent that policy makers, planners, engineers, and other influence brokers become better informed about successful ITS deployment practices, project evaluations will make significant contributions. Effective information dissemination techniques will be critical. Information drawn from interim and final evaluation reports will be summarized in electronic media normally accessed by transportation professionals.

Project evaluation reports will be crucial to the ITS Program during the years funded by TEA–21. As the tempo of project deployments accelerates, newly formed project partnerships preparing to undertake deployments will need any available experience-based information relevant to their projects. The need for timely information will emphasize the value of interim reports capturing valuable, recent, lessons learned.

C. General Evaluation Process

The following are general steps successfully used to accomplish an ITS project evaluation for national or local evaluations:

1. Form the *Evaluation Team*. Each of the project partners and stakeholders designates one member to participate on the evaluation team. The program manager should designate an evaluation team leader. In the interests of conducting an effective evaluation, this team should interact with the independent evaluator periodically throughout the project development and deployment. Experience has demonstrated that formation of this team early in the project is essential to facilitating evaluation planning along a ''no surprises'' path. Participation by every project stakeholder is particularly crucial during the development of the ''Evaluation Strategy.''

2. Develop the *Evaluation Strategy*. This evaluation strategy document includes a description of the project to be evaluated and identifies the key stakeholders committed to the success of the project. It also relates the purpose of the project to the general goal areas of an ITS project.

Projects deploying intelligent metropolitan or rural infrastructure are expected to allocate resources adequate for evaluating the impact (or impacts) their projects exert in certain major goal areas which can be pursued through deploying and integrating ITS technologies. ITS goal areas include:

- Traveler Safety
- Traveler Mobility
- Transportation System Efficiency
- Productivity of Transportation Providers
- Conservation of Energy and Protection of the Environment
- Others as may be appropriate to unique features of a project

A major purpose of the evaluation strategy document is to focus partner attention on identifying which of the above goal areas has priority for their project. Partners assign ratings of importance to goal areas and evaluation priorities and resources are consequently aligned to the prioritized set. This rating process gives partners valuable insights regarding areas of agreement and disagreement and assists in reconciling differences and bolstering common causes.

Each of these goal areas can be associated with outcomes of deployment that lend themselves to measurement. These outcomes resulting from project deployment are identified as *measures* and have been adopted as useful metrics. The association of goal areas and measures is depicted as follows:

Goal area	Measure
Safety	• Reduction in the Overall Rate of Crashes. • Reduction in the Rate of Crashes Resulting in Fatalities. • Reduction in the Rate of Crashes Resulting in Injuries.
Mobility	• Reduction in Delay. • Reduction in Transit Time Variability. • Improvement in Customer Satisfaction.
Efficiency	• Increases in Freeway and Arterial Throughput or Effective Capacity*.
Productivity	• Cost Savings.
Energy and Environment	• Decrease in Emissions Levels. • Decrease in Energy Consumption.

*A discussion of the distinction between Throughput and Effective Capacity is included in the *ITS Evaluation Resource Guide* referred to in Section V.G. at the end of this document.

The ''few good measures'' in the preceding table constitute the framework of benefits expected to result from deploying and integrating ITS technologies. While each project partnership will establish its unique evaluation goals, the measures serve to maintain the focus of goal setting on how the project can contribute to reaping the benefits of one or more of the measures. A sample Evaluation Strategy document is provided as part of the *ITS Evaluation Resource Guide* (see Section V.G. at the end of this document).

3. Develop the *Evaluation Plan.* After the goals are identified and priorities are set by the partners, the evaluation plan should refine the evaluation approach by formulating hypotheses. Hypotheses are merely ''if-then'' statements about expected outcomes after the project is deployed. For example, a possible goal of coordinating jurisdictions' signal systems is improving safety by reducing rear-end crashes. If the evaluation strategy included this goal, the evaluation plan would formulate hypotheses that could be tested. In this case, one hypothesis might be, ''If jurisdictions coordinate signal timing, then rear-end collisions will be significantly reduced at intersections at jurisdictional boundaries.'' An even more aggressive hypothesis might suggest that such collisions would be reduced by ten percent. The evaluation plan identifies all such hypotheses and then outlines the number of different tests that might be needed to test all hypotheses.

In addition to hypotheses regarding system and subsystem performance, the evaluation plan identifies qualitative studies that will be performed. The evaluation should address key components of the project, such as, (but not limited to):

- Implications of achieving consistency with the National ITS Architecture;
- Standards implementation;
- Consumer acceptance;
- Others as appropriate to local considerations;
- Institutional issues.

Institutional issues require brief elaboration. An area of special emphasis in all evaluation endeavors should be the non-technical factors influencing project performance. ITS projects conducted under ISTEA were profoundly influenced by considerations such as procurement practices, contracting policy, organizational structure, and relationships among major participants such as prime contractors and their subcontractors. The transportation community stands to reap significant benefit from understanding how the varied range of non-technical factors impacts directly on traditional project performance parameters, such as, cost, schedule, and final functionality.

As these critical aspects of the project are addressed, the value of the evaluation increases in proportion to its ability to produce lessons learned that can improve project performance. Thus, the measures serve as the foundations of the evaluation as project implementation seeks the best mix of approaches to ensure achieving some level of benefits described by the measures.

To the extent that projects define evaluation goals derived from one or more of the *few good measures* and document the impacts of deployment on transportation performance in their communities, they will have made significant contributions to the ITS Program and the Nation. A sample Evaluation Plan document is provided as part of the *ITS Evaluation Resource Guide* (see Section V.G. at the end of this document).

4. Develop one or more *Test Plans.* A test plan will be needed for each test identified in the evaluation plan. A test plan lays out all of the details regarding how the test will be conducted. It identifies the number of evaluator personnel, equipment and supplies, procedures, schedule, and resources required to complete the test. A sample test plan is provided as part of the *ITS Evaluation Resource Guide* (see Section V.G. at the end of this document).

5. Collect and analyze data and information. This step is the implementation of each test plan. It is in this phase where careful cooperation between partners and evaluators can save money. By early planning, it is possible to build into the ITS project capabilities for automatic data collection. Such data collection can be used by partners after the evaluation is completed to provide valuable feedback with regard to the performance of the system. Such feedback can help in detecting system failures and to improve system performance.

6. Document strategy, plans, results, conclusions, and recommendations in a *Final Report.* A sample Final Report document is provided as part of the *ITS Evaluation Resource Guide* (see Section V.G. at the end of this document).

D. Self-Evaluation Process

1. ITS Integration Program Evaluation Procedures

To the extent that resources allow, project partners should strive to follow the General Evaluation Process outlined in Section V.C. of this document. Partners should also utilize the *ITS Evaluation Resource Guide* described in Section V.G. at the end of this document.

Projects conducting self-evaluation should respond to a minimum of two reporting requirements.

a. In an attempt to satisfy significant and critical data needs in the ITS Program, projects should collect and document cost accounting data to include acquisition, life-cycle, and operations and maintenance costs capturing both start-up and sustaining cost factors. Reporting of cost data will be solicited annually for the duration of the deployed system's (or systems'') life cycle(s). Cost data collection guidelines are provided as part of the *ITS Evaluation Resource Guide* (see Section V.G. at the end of this document).

b. Additionally, self-evaluations should result in one or more of the following efforts:

- Evaluating institutional issues associated with achieving cooperation among public sector agencies and documenting how they were overcome.
- Providing a brief lessons learned report on the technical and institutional issues encountered in integrating ITS components.
- Providing an evaluation report on the lessons learned in employing innovative financing or procurement and/or public-private partnering techniques.
- Producing a lessons learned report on the experiences, challenges, and approaches used in achieving consistency with the National ITS Architecture and/or implementation of ITS standards.
- Producing a case study on the planning process used to achieve integration into an approved plan and program developed under an area-wide (statewide and/or metropolitan) planning process which also complies with applicable State air quality implementation plans.
- Providing the appropriate metropolitan planning process with data generated by ITS technologies and services, and provide a report on plans or intentions for archiving the data and using it.

2. Commercial Vehicle Intelligent Transportation System Infrastructure Deployment Projects

All projects participating in the Commercial Vehicle Intelligent Transportation System Infrastructure Deployment Program are expected to accomplish the following:

- Document lessons learned in the areas of:
  - —institutional issues
  - —technical challenges
  - —employment of innovating financing
  - —public-private partnering
  - —achieving consistency with the National ITS Architecture and implementation of ITS Standards.
- Document benefits data.
- Collect cost data, especially with regard to operations and maintenance cost factors, and briefly address their implications for sustaining the project.

E. National Evaluations

1. Initial Procedures for Operational Tests of Intelligent Infrastructure

Upon selection of the organization to conduct a national evaluation of a designated ITS operational test of intelligent infrastructure, the ITS JPO Program Assessment Coordinator will establish the initial communications between involved parties. The detailed procedures for the conduct of the evaluation and the scope of the evaluating organization's tasks will be defined in accordance with procedures established by the ITS JPO Program Assessment Coordinator.

2. Requirements for ITS Integration Program Projects

During the annual project definition and proposal process, participants in the ITS Integration Program will be offered the opportunity to commit to cooperate with evaluators in the event of selection for a national evaluation. This commitment includes participation in evaluation planning and in-progress reviews to ensure a consensus-based, successfully implemented national evaluation as described in sections V.B. and V.C. of these guidelines.

3. Requirements for CVISN Deployment Projects

During the annual project definition and proposal process, participants in the Commercial Vehicle Intelligent Transportation System Infrastructure Program will be offered the opportunity to commit to cooperate with evaluators in the event of selection for a national evaluation. This commitment includes participation in evaluation planning and in-progress reviews to ensure consensus-based, successfully implemented national evaluations.

4. Timing Considerations for ITS Deployment Program Projects Selected for National Evaluations

Participants in ITS Deployment Program projects selected for national evaluations may experience a time delay between receipt of notification for project funding and, in the event of selection for national evaluation, notification of such selection. Upon notification of project funding approval, the project participants should proceed with the preparatory steps required for evaluation. The preparatory measures will lay the foundation for an effective self-evaluation. In the event of selection for a national evaluation, that process will build on this foundation. An evaluation team should be formed and an evaluation strategy, based upon the example in the *ITS Evaluation Resource Guide,* should be developed.

It is anticipated that U.S. DOT notification of selection for national evaluation will be accomplished prior to a project's development of an evaluation plan. This will facilitate coordination between the independent evaluating organization and the project partners in proceeding with the development of a consensus-based evaluation plan.

F. Reporting Requirements

This section prescribes reporting procedures for the categories of evaluations.

1. Projects conducting self-evaluations in the ITS Integration Program are expected to produce: (1) an annual cost report based upon guidelines in the *ITS Evaluation Resource Guide;* and, (2) a final evaluation report. Projects conducting self-evaluations of the CVISN are expected to produce a final report. All project partnerships conducting self-evaluations are expected to submit two camera-ready reproducible copies and one electronic file to the ITS JPO Program Assessment Coordinator at: Intelligent Transportation Systems, Joint Program Office (HOIT–1), Attn: JPO Program Assessment Coordinator, U.S. Department of Transportation, 400 Seventh St., SW., Washington, D.C. 20590.

Copies which may be required for other addressees will be defined in annual guidance documents transmitting instructions.

2. Reporting procedures in national evaluations will be defined in the appropriate documentation governing the contract entered into by the evaluating organization.

G. References

In lieu of incorporating detailed procedural guidance for the conduct of evaluations in this document, an *ITS Evaluation Resource Guide* has been developed. This comprehensive resource for supporting evaluation planning is accessible at the ITS JPO web site (*http://www.its.dot.gov*) through the Program Assessment/Evaluation Link.

BILLING CODE 4910–22–P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

Child Passenger Protection Education Grants

AGENCY: National Highway Traffic Safety Administration, DOT

ACTION: Announcement of grants for child passenger protection education.

SUMMARY: The National Highway Traffic Safety Administration (NHTSA) announces a grant program under Section 2003(b) of the Transportation Equity Act for the 21st Century (TEA–21) to implement child passenger protection programs that are designed to prevent deaths and injuries to children, educate the public concerning the proper installation of child restraints, and train child passenger safety personnel concerning child restraint use. This notice solicits applications from the States, the District of Columbia, Puerto Rico, the U.S. Territories and the Indian Tribes through the Secretary of the Interior.

DATES: Applications must be received by the office designated below on or before December 15, 1999.

ADDRESSES: Applications must be submitted to the appropriate National Highway Traffic Safety Administration Regional Administrator.

FOR FURTHER INFORMATION CONTACT: For program issues contact Ms. Joan Tetrault, State and Community Services, NSC–01, NHTSA, 400 Seventh Street, S.W., Washington, D.C. 20590; telephone (202) 366–2121. For legal issues contact Mr. John Donaldson, Office of the Chief Counsel, NCC–30, NHTSA, 400 Seventh Street, S.W., Washington, D.C. 20590, telephone (202) 366–1834.

SUPPLEMENTARY INFORMATION:

Background

Motor vehicle crashes remain the leading cause of unintentional injury-related deaths among children under the age of 15 years, despite a seven percent decline in the motor vehicle occupant death rate from 1987 to 1996. During the same time period, the motor vehicle occupant nonfatal injury rate among children has increased by four percent. Motor vehicle injuries and fatalities occur when children ride unrestrained or are improperly restrained. This grant program is intended to help reduce injuries and deaths by educating the public about the importance of correctly installing and using child safety seats, booster seats and seat belts.

1. Children Riding Unrestrained

Approximately 40 percent of children ages 1 through 15 years ride unrestrained, placing them at more than twice the risk of death and injury as those riding restrained. Child safety seats reduce the risk of fatal injury in a crash by 69 percent for infants (less than 1 year old) and by 47 percent for toddlers (1–4 years old). In 1997, there were 594 occupant fatalities in passenger motor vehicles among children under 5 years of age. Of those 594 fatalities, an estimated 298 (54 percent) were totally unrestrained. The problem of riding unrestrained is not limited to infants and young children. From 1975 through 1997, the lives of an estimated 3,894 children were saved by the use of child restraints (child safety seats or adult safety belts). Among children under age 15 who were killed as occupants in motor vehicle crashes in 1997, 63 percent were not using safety restraints at the time of the collision.

Examination of the demographics of children killed in motor vehicle crashes (for which the most recent available year is 1995) shows that safety restraint use differs markedly by race. For example, while somewhat less than half (43.3%) of white children up to age 9 riding in passenger motor vehicles were using safety restraints at the time of their deaths, that was true of only about one-quarter (28.2%) of black children. Native American children under age 15 have a motor vehicle occupant death rate twice that of white children. (Injury and fatality data for other minority groups is currently being collected.) Restraint use is also lower in rural areas and low-income communities. Lack of access to affordable child safety seats and booster seats contributes to a lower usage rate among low-income families. However, research shows that 95 percent of low-income families who own a child safety seat use it. Improving access to affordable child restraint systems and educating parents and care givers about proper installation and use are key components to improving use rates in these communities.

2. Misuse of Child Safety Seats and Improper Seating Positions

In 1997, 85 percent of infants (children under age 1) were restrained while riding in motor vehicles, as were 60 percent of children ages 1 to 5. However, it is estimated that approximately 80 percent of children who are placed in child safety seats are improperly restrained. Furthermore, adult safety belts do not adequately protect children ages 4 to 8 (about 40 to 80 pounds) from injury in a crash. Although car booster seats are the best way to protect them, only six percent of booster-age children are properly restrained in car booster seats.

In addition, there is a high risk of severe injury or fatality to children riding in the front seat of vehicles equipped with a passenger side air bag, due to the deployment force of the air bag. However, even if the air bag is shut off or there is no air bag, the back seat is the safest place for children to ride. Under no circumstances should a parent place a rear-facing infant seat in front of an air bag. It is estimated that children ages 12 and under are 36 percent less likely to die in a crash if seated in the rear seat of a passenger vehicle.

Child passenger safety professionals, educators, emergency personnel and others need to be adequately trained on all aspects of child restraint use in order to help reduce the problems of misuse and encourage the safest seating positions for children riding in motor vehicles. With these concerns in mind, the Transportation Equity Act for the 21st Century (TEA–21), which the President signed into law on June 9, 1998, established a new grant program under Section 2003(b) of Title 23, United States Code, to promote child passenger protection education and training.

New Grants for Child Passenger Protection

Section 2003 (b) provides Federal funds to States for activities that are designed to prevent deaths and injuries to children; educate the public concerning the design, selection, placement, and installation of child restraints; and train and retrain child passenger safety professionals, police officers, fire and emergency medical personnel, and other educators concerning all aspects of child restraint use. A State may expend the funds itself or elect to distribute some or all of the funds to carry out the public education and training activities as grants to political subdivisions of the State or appropriate private entities. States are encouraged to direct funds obtained through this grant program to organizations that can deliver training and education to ensure positive impact in minority and low income communities where lack of child passenger protection is especially severe. Section 2003(b) provides that the Federal share of the cost of a program carried out with the grant funds is not to exceed 80 percent. A State that receives a grant must submit a report describing the program activities carried out with the funds.

Application Procedures

A. Use of Funds

To be eligible for funding under Section 2003(b), a State must submit an application that addresses how the State will implement child passenger protection programs that meet each of the three requirements listed below. For the education and training components, the grant application must identify expected program accomplishments, such as the estimated number of public education messages to be distributed (e.g. public service announcements or printed materials) and the type of audience to be targeted by these messages (e.g. minority or low-income communities); the estimated number of and type of training classes conducted; the number of child safety seat clinics or check-ups performed; and the number of fitting stations established.

Specifically, the State must implement a child passenger protection program that:

1. Is designed to prevent deaths and injuries to children. The State should provide a statement describing how their program supports efforts to prevent deaths and injuries to children.

2. Educates the public on all aspects of child passenger safety. The public education program may include strategies to increase child restraint use for children up to age 16, increase use among targeted populations (e.g., minority, rural, low-income, or special needs populations), or develop and implement child safety seat clinics and/or permanent locations where consumer's can have child safety seats and booster seats inspected. Additional information under public education may be included relevant to proper use of child restraint systems, booster seats and FMVSS 225, the Universal Child Safety Seat System (UCSSS).

At a minimum, the public education program must:

(a) Provide a summary of the information that the State intends to include or develop in the public education program. The information must address at least the following topics:

- All aspects of proper installation of child restraints using standard seat belt hardware, supplemental hardware, and modification devices (if needed), including special installation techniques;
- Appropriate child restraint design, selection, and placement [NHTSA interprets this to include instruction about proper seating positions for children in air bag equipped vehicles]; and

• Harness threading and harness adjustment on child restraints.

(b) Include a description of the public education information methods that the State intends to employ, how these messages will be delivered to the target population, and expected accomplishments. The methods could include billboards, public service announcements, and published materials. It is also important to deliver this information in the language of the targeted group.

3. Trains and retrains child passenger safety professionals, police officers, fire and emergency medical personnel, and other educators concerning all aspects of child restraint use. At a minimum, States should include in the application a description of or reference to the curricula that the State will use to train and retrain child passenger safety experts to reach the targeted population and expected accomplishments.

All persons selected for training and retraining as child passenger safety professionals should achieve and maintain at least some minimum standards of expertise. In collaboration with several partners, NHTSA has developed several model curricula including: ''Mobilizing America to Buckle Up Children'' and ''Operation Kids'' for law enforcement officers; and the ''Standardized Child Passenger Safety Training Program'' for child passenger safety professional candidates. States are not restricted to using only these curricula, but States are encouraged to incorporate the learning objectives of these courses into the training and retraining provided to child passenger safety experts. Funding for this grant program is intended to help States develop and sustain adequate cadres of persons with technical expertise in child passenger protection who will directly serve the public through child safety seat clinics, checkpoints, workshops, fitting stations and other training and educational opportunities.

B. Certification

The State must submit certifications that: (i) It will use the funds awarded under this grant program exclusively to implement a child passenger protection program in accordance with the requirements of 23 U.S.C. 2003(b); (ii) It will administer the funds in accordance with 49 CFR Part 18 and OMB Circular A–87; and (iii) It will provide to the NHTSA Regional Administrator no later than 15 months after the grant award a report of activities carried out with grant funds and accomplishments to date.

C. Eligibility Requirements

Eligibility is limited to the 50 States, the District of Columbia, Puerto Rico, the U.S. Territories (which include the Virgin Islands, Guam, American Samoa and the Commonwealth of the Northern Mariana Islands) through their Governor's Office of Highway Safety, and Indian Tribes through the Secretary of the Interior.

Award Procedures

The authorization for this program is $7,500,000 for each fiscal year of 2000 and 2001, and is subject to appropriations. (Separate applications must be submitted for each fiscal year.) Awards to applicants meeting the requirements of this notice will be made based upon the formula used for Section 402 apportionment, subject to the availability of funds. The amount awarded to each State qualifying under this program shall be determined by multiplying the amount appropriated for this grant program for the fiscal year by the ratio that the amount of funds apportioned to each such State under 23 U.S.C. 402 for the fiscal year bears to the total amount of funds apportioned to all such States under Section 402 for such fiscal year. Applicants will be required to submit to NHTSA within 30 days of notification that an award is made, a program cost summary (HS Form 217) obligating the Section 2003(b) funds to child passenger protection education programs. The Federal funding share may not exceed 80% of the program cost, and States should clearly identify their share in the program cost summary (HS Form 217).

Each State must submit one original and two copies of the application package to the appropriate NHTSA Regional Administrator. Only complete application packages submitted by a Governor's Highway Safety Representative and received on or before December 15, 1999 will be considered for funding in fiscal year 2000. The agency will publish a future notice covering grant funds for fiscal year 2001.

NHTSA Publications Available To Support Public Education

A number of NHTSA publications are available through the *Traffic Safety Materials Catalog* that address child passenger safety program topics. The *Are You Using It Right?* brochure illustrates a number of errors and the correct method of installing and using child passenger safety seats. *Parents' Guide to Booster Seats* illustrates the proper way to use different types of booster seats and includes information about purchasing and installing booster seats. Nine of fourteen ''tips'' in *Child Transportation Safety Tips* address child passenger safety issues including proper installation, appropriate child restraint design, selection, and placement, harness threading and harness adjustment, and proper seating positions for children in air bag equipped vehicles. *Child Transportation Safety Tips* is available in English, Spanish, Chinese, French, Russian, Haitian Creole, Portuguese and Vietnamese. These materials may be ordered from the NHTSA web site at >HTTP://WWW.NHTSA.DOT.GOV< or contacting the Media and Marketing Division, NTS–21 by fax at (202) 493–2062.

Issued on: September 15, 1999.

Ricardo Martinez,

Administrator, National Highway Traffic Safety Administration.

BILLING CODE 4910–59–P

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Docket No. AB–33 (Sub–No. 140)]

Union Pacific Railroad Company—Abandonment—in Lancaster and Gage Counties, NE, and Marshall County, KS

On August 31, 1999, Union Pacific Railroad Company (UP) filed an application with the Surface Transportation Board (Board) for permission to abandon a 57.72-mile line known as the Beatrice Branch extending from milepost 66 near Jamaica, NE, to milepost 125 near Marietta, KS, in Lancaster and Gage Counties, NE, and Marshall County, KS.[1] The information contained in the application is bifurcated into two segments—the 29-mile northern segment between milepost 66 and milepost 95 north of Beatrice, and the 28.72-mile southern segment between mileposts 95 and 125.[2] The line includes the following stations in Nebraska: Aldo Jct., milepost 69.8; Princeton, milepost 74.7; Cortland, milepost 79.5; Pickrell, milepost 88.9; Beatrice, milepost 96.8; Holmesville, milepost 105.7; Blue Springs, milepost 110.3; and Barneston, milepost 118; and

[1] The track mileage is 1.28 miles less than the milepost differential because a track relocation on the line between Beatrice and Holmesville, NE, created a milepost discontinuity. (Milepost 101.72 now coincides with milepost 103.)

[2] UP states that the bifurcated information is based on the different origins for the service and the absence of any traffic projected for the northern segment. It did not provide bifurcated cost data for the base year.

traverses United States Postal Service ZIP Codes 68404, 68331, 68422, 68310, 68374, 68318, 68309, and 66518.

In a decision served July 29, 1999, UP was granted a waiver of the requirements of 49 CFR 1152.22(c)–(d) to the extent those provisions require submission of revenue, cost, and service data relating to overhead or bridge traffic on the line.

The line does not contain federally granted rights-of-way. Any documentation in UP's possession will be made available promptly to those requesting it. UP's entire case for abandonment was filed with the application.

This line of railroad has been included in UP's system diagram map in category 1 since April 1, 1999.

The interests of railroad employees will be protected by the conditions set forth in *Oregon Short Line R. Co.—Abandonment—Goshen,* 360 I.C.C. 91 (1979).

Any interested person may file with the Board written comments concerning the proposed abandonment, or a protest (including the protestant's entire opposition case), by October 15, 1999. All interested persons should be aware that following any abandonment of rail service and salvage of the line, the line may be suitable for other public use, including interim trail use. Any request for a public use condition under 49 U.S.C. 10905 (49 CFR 1152.28) or for a trail use condition under 16 U.S.C. 1247(d) (49 CFR 1152.29) must be filed by October 15, 1999. Each trail use request must be accompanied by a $150 filing fee. *See* 49 CFR 1002.2(f)(27). UP's reply to any opposition statements and its response to trail use requests must be filed by November 1, 1999. *See* 49 CFR 1152.26(a).

Persons opposing the proposed abandonment who wish to participate actively and fully in the process should file a protest. Persons who may oppose the abandonment but who do not wish to participate fully in the process by appearing at any oral hearings or by submitting verified statements of witnesses containing detailed evidence should file comments. Persons interested only in seeking public use or trail use conditions should also file comments.

In addition, a commenting party or protestant may provide:

(i) An offer of financial assistance (OFA) for continued rail service under 49 U.S.C. 10904 (due 120 days after the application is filed or 10 days after the application is granted by the Board, whichever occurs sooner);

(ii) Recommended provisions for protection of the interests of employees;

(iii) A request for a public use condition under 49 U.S.C. 10905; and

(iv) A statement pertaining to prospective use of the right-of-way for interim trail use and rail banking under 16 U.S.C. 1247(d) and 49 CFR 1152.29.

All filings in response to this notice must refer to STB Docket No. AB–33 (Sub-No. 140) and must be sent to: (1) Surface Transportation Board, Office of the Secretary, Case Control Unit, 1925 K Street, NW, Washington, DC 20423–0001; and (2) Joseph D. Anthofer, 1416 Dodge Street, Omaha, NE 68179. The original and 10 copies of all comments or protests shall be filed with the Board with a certificate of service. Except as otherwise set forth in part 1152, every document filed with the Board must be served on all parties to the abandonment proceeding. 49 CFR 1104.12(a).

The line sought to be abandoned will be available for subsidy or sale for continued rail use if the Board decides to permit the abandonment in accordance with applicable laws and regulations (49 U.S.C. 10904 and 49 CFR 1152.27). Each OFA must be accompanied by a $1,000 filing fee. *See* 49 CFR 1002.2(f)(25). No subsidy arrangement approved under 49 U.S.C. 10904 shall remain in effect for more than 1 year unless otherwise agreed by the parties (49 U.S.C. 10904(f)(4)(B)). UP will promptly provide upon request to each interested party an estimate of the subsidy and minimum purchase price required to keep the line in operation. UP's representative to whom inquiries may be made concerning sale or subsidy terms is set forth above.

Persons seeking further information concerning the abandonment procedures may contact the Board's Office of Congressional and Public Services at (202) 565–1592 or refer to the full abandonment regulations at 49 CFR part 1152. Questions concerning environmental issues may be directed to the Board's Section of Environmental Analysis (SEA) at (202) 565–1545. [TDD for the hearing impaired is available at (202) 565–1695.]

An environmental assessment (EA) (or environmental impact statement (EIS), if necessary), prepared by SEA, will be served upon all parties of record and upon any agencies or other persons who commented during its preparation. Other interested persons may contact SEA to obtain a copy of the EA (or EIS). EAs in abandonment proceedings normally will be made available within 33 days of the filing of the application. The deadline for submission of comments on the EA will generally be within 30 days of its service date. The comments received will be addressed in the Board's decision. A supplemental EA or EIS may be issued where appropriate.

Board decisions and notices are available on our website at ''WWW.STB.DOT.GOV.''

By the Board, David M. Konschnik, Director, Office of Proceedings.

Decided: September 9, 1999.

Vernon A. Williams,

Secretary.

[FR Doc. 99–24081 Filed 9–17–99; 8:45 am]

BILLING CODE 4915–00–P

DEPARTMENT OF THE TREASURY

Submission for OMB Review; Comment Request

September 10, 1999.

The Department of Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 2110, 1425 New York Avenue, NW., Washington, DC 20220.

DATES: Written comments should be received on or before October 20, 1999 to be assured of consideration.

Internal Revenue Service (IRS)

OMB Number: 1545–0295.

Notice Number: Notice 210.

Type of Review: Extension.

Title: Preparation Instructions for Media Labels.

Description: Notice 210, Preparation Instructions for Media Labels, instructs the filers on how to prepare their own pressure sensitive label. This label must be attached to each and every piece of magnetic media to identify specific items needed so that the media can be processed by the Internal Revenue Service.

Respondents: Business or other for-profit, Not-for-profit institutions.

Estimated Number of Respondents: 150,000.

Estimated Burden Hours Per Respondent: 5 minutes.

Frequency of Response: On occasion.

Estimated Total Reporting Burden: 12,765 hours.

Clearance Officer: Garrick Shear, Internal Revenue Service, Room 5244, 1111 Constitution Avenue, NW, Washington, DC 20224.

OMB Reviewer: Alexander T. Hunt (202) 395–7860, Office of Management and Budget, Room 10202, New Executive Office Building, Washington, DC 20503.

Lois K. Holland,

Departmental Reports Management Officer.

BILLING CODE 4830–01–P

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Proposed Collection; Comment Request For 941 TeleFile

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice and request for comments.

SUMMARY: The Department of the Treasury, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3506(c)(2)(A)). Currently, the IRS is soliciting comments concerning 941 TeleFile, Employer's Quarterly Federal Tax Return.

DATES: Written comments should be received on or before November 19, 1999 to be assured of consideration.

ADDRESSES: Direct all written comments to Garrick R. Shear, Internal Revenue Service, room 5244, 1111 Constitution Avenue NW., Washington, DC 20224.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the form(s) and instructions should be directed to Carol Savage, (202) 622–3945, Internal Revenue Service, room 5242, 1111 Constitution Avenue NW., Washington, DC 20224.

SUPPLEMENTARY INFORMATION:

Title: Employer's Quarterly Federal Tax Return.

OMB Number: 1545–1509.

Form Number: 941 TeleFile.

Abstract: 941 TeleFile is used by employers to report by telephone payments made to employees subject to income and social security/Medicare taxes and the amounts of these taxes. It may be used instead of filing Form 941.

Current Actions: There are no changes being made to the form at this time.

Type of Review: Extension of a currently approved collection.

Affected Public: Business or other for-profit organizations, not-for-profit institutions, and state, local, or tribal governments.

Estimated Number of Responses: 920,000.

Estimated Time Per Response: 5 hours, 53 minutes.

Estimated Total Annual Burden Hours: 5,418,800.

The following paragraph applies to all of the collections of information covered by this notice:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

Request for Comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Approved: September 9, 1999.

Garrick R. Shear,

IRS Reports Clearance Officer.

BILLING CODE 4830–01–U

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[PS–55–93]

Proposed Collection; Comment Request For Regulation Project

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice and request for comments.

SUMMARY: The Department of the Treasury, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3506(c)(2)(A)). Currently, the IRS is soliciting comments concerning an existing notice of proposed rulemaking and temporary regulation, PS–55–93 (TD 8528), Certain Elections For Intangible Property (§ 1.197–1T).

DATES: Written comments should be received on or before November 19, 1999 to be assured of consideration.

ADDRESSES: Direct all written comments to Garrick R. Shear, Internal Revenue Service, room 5244, 1111 Constitution Avenue NW., Washington, DC 20224.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the regulation should be directed to Carol Savage, (202) 622–3945, Internal Revenue Service, room 5242, 1111 Constitution Avenue NW., Washington, DC 20224.

SUPPLEMENTARY INFORMATION:

Title: Certain Elections For Intangible Property.

OMB Number: 1545–1425.

Regulation Project Number: PS–55–93.

Abstract: These regulations provide procedures for taxpayers to make elections regarding the amortization and depreciation of certain intangible property pursuant to sections 197 and 167(f) of the Internal Revenue Code. The information will be used to verify that a taxpayer is properly reporting its amortization and income taxes.

Current Actions: There is no change to these existing regulations.

Type of Review: Extension of a currently approved collection.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 100.

Estimated Time Per Respondent: 1 hour.

Estimated Total Annual Burden Hours: 100.

The following paragraph applies to all of the collections of information covered by this notice:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and

tax return information are confidential, as required by 26 U.S.C. 6103.

Request for Comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Approved: September 10, 1999.

Garrick R. Shear,

IRS Reports Clearance Officer.

BILLING CODE 4830–01–U

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[REG–209828–96]

Proposed Collection; Comment Request For Regulation Project

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice and request for comments.

SUMMARY: The Department of the Treasury, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3506(c)(2)(A)).

Currently, the IRS is soliciting comments concerning an existing final regulation, REG–209828–96 (TD 8758), Nuclear Decommissioning Funds; Revised Schedules of Ruling Amounts (§ 1.468A–3).

DATES: Written comments should be received on or before November 19, 1999 to be assured of consideration.

ADDRESSES: Direct all written comments to Garrick R. Shear, Internal Revenue Service, room 5244, 1111 Constitution Avenue NW., Washington, DC 20224.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the regulation should be directed to Carol Savage, (202) 622–3945, Internal Revenue Service, room 5242, 1111 Constitution Avenue NW., Washington, DC 20224.

SUPPLEMENTARY INFORMATION:

Title: Nuclear Decommissioning Funds; Revised Schedules of Ruling Amounts.

OMB Number: 1545–1511.

Regulation Project Number: REG–209828–96.

Abstract: This regulation relates to requests for revised schedules of ruling amounts for nuclear decommissioning reserve funds under section 468A(d) of the Internal Revenue Code. The regulation eases the burden on affected taxpayers by permitting electing taxpayers with qualifying interests in nuclear power plants to adjust their ruling amounts under a formula or method rather than by filing a request for a revised schedule of ruling amounts.

Current Actions: There is no change to this existing regulation.

Type of Review: Extension of a currently approved collection.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 20.

Estimated Time Per Respondent: 5 hours.

Estimated Total Annual Burden Hours: 100.

The following paragraph applies to all of the collections of information covered by this notice:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

Request for Comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Approved: September 10, 1999.

BILLING CODE 4830–01–U

DEPARTMENT OF VETERANS AFFAIRS

[OMB Control No. 2900–0121]

Proposed Information Collection Activity: Proposed Collection; Comment Request

AGENCY: Veterans Benefits Administration, Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: The Veterans Benefits Administration (VBA), Department of Veterans Affairs (VA), is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act (PRA) of 1995, Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed reinstatement, without change, of a previously approved collection for which approval has expired, and allow 60 days for public comment in response to the notice. This notice solicits comments for information needed to determine the insured's eligibility for continued disability insurance benefits.

DATES: Written comments and recommendations on the proposed collection of information should be received on or before November 19, 1999.

ADDRESSES: Submit written comments on the collection of information to Nancy J. Kessinger, Veterans Benefits Administration (20S52), Department of Veterans Affairs, 810 Vermont Avenue, NW, Washington, DC 20420. Please refer to ''OMB Control No. 2900–0121'' in any correspondence.

FOR FURTHER INFORMATION CONTACT: Nancy J. Kessinger at (202) 273–7079 or FAX (202) 275–5947.

SUPPLEMENTARY INFORMATION: Under the PRA of 1995 (Pub. L. 104–13; 44 U.S.C., 3501—3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. This request for comment is being made pursuant to Section 3506(c)(2)(A) of the PRA.

With respect to the following collection of information, VBA invites comments on: (1) whether the proposed collection of information is necessary for the proper performance of VBA's functions, including whether the information will have practical utility; (2) the accuracy of VBA's estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or the use of other forms of information technology.

Title: Obtaining Supplemental Information from Hospital or Doctor, VA FL 29–551b.

OMB Control Number: 2900–0121.

Type of Review: Reinstatement, without change, of a previously approved collection for which approval has expired.

Abstract: This form letter is used to request medical evidence from an insured's attending physician or hospital in connection with continuing disability insurance benefits.

Affected Public: Individuals or households.

Estimated Annual Burden: 61 hours.

Estimated Average Burden Per Respondent: 15 minutes.

Frequency of Response: On occasion.

Estimated Number of Respondents: 244.

Dated: August 12, 1999.

By direction of the Secretary.

Sandra McIntyre,

Management and Program Analyst, Information Management Service.

DEPARTMENT OF VETERANS AFFAIRS

[OMB Control No. 2900–0205]

Proposed Information Collection Activity: Proposed Collection; Comment Request

AGENCY: Veterans Health Administration, Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: The Veterans Health Administration (VHA), Department of Veterans Affairs (VA), is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act (PRA) of 1995, Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed reinstatement, without change, of a previously approved collection for which approval has expired, and allow 60 days for public comment in response to the notice. This notice solicits comments for information needed to evaluate applicant's education, professional experience and credentials to determine suitability and grade level.

DATES: Written comments and recommendations on the proposed collection of information should be received on or before November 19, 1999.

ADDRESSES: Submit written comments on the collection of information to Ann W. Bickoff, Veterans Health Administration (193B1), Department of Veterans Affairs, 810 Vermont Avenue, NW, Washington, DC 20420. Please refer to ''OMB Control No. 2900–0205'' in any correspondence.

FOR FURTHER INFORMATION CONTACT: Ann W. Bickoff at (202) 273–8310 or FAX (202) 273–9381.

SUPPLEMENTARY INFORMATION: Under the PRA of 1995 (Pub. L. 104–13; 44 U.S.C., 3501—3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. This request for comment is being made pursuant to Section 3506(c)(2)(A) of the PRA.

With respect to the following collection of information, VHA invites comments on: (1) whether the proposed collection of information is necessary for the proper performance of VHA's functions, including whether the information will have practical utility; (2) the accuracy of VHA's estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or the use of other forms of information technology.

Form Numbers and Titles

a. VA Form 10–2850, Application for Physicians, Dentists, Podiatrists and Optometrists.

b. VA Form 10–2850a, Application for Nurses and Nurse Anesthetists.

c. VA Form 10–2850b, Application for Residents.

d. VA Form 10–2850c, Application for Associated Health Occupations.

e. VA Form FL 10–341a, Appraisal of Applicant.

OMB Control Number: 2900–0205.

Type of Review: Reinstatement, without change, of a previously approved collection for which approval has expired.

Abstract: VA Forms 10–2850 and 10–2850a through c are applications designed specifically to elicit appropriate information about each candidate's qualifications for employment with VA. VHA officials use the information to evaluate education, professional experience and credentials and to determine suitability and grade level of applications of physicians, dentists, podiatrists, optometrists, nurses and nurse anesthetists, residents, and associated health occupations, and appraisal of applicants. The forms require disclosure of details about all licenses ever held, Drug Enforcement Administration certification, board certification, clinical privileges, revoked certification or registrations, liability insurance history, and involvement in malpractice proceedings. Form Letter 10–341a is a pre employment reference form used to elicit information concerning the prior education and/or performance of the Title 38 applicant.

Affected Public: Individuals or households, Business or other for-profit, Not-for-profit Institutions, Federal Government, State, Local or Tribal Government.

Estimated Annual Burden: 68,610 hours.

a. VA Form 10–2850, Application for Physicians, Dentists, Podiatrists and Optometrists—12,900 hours.

DEPARTMENT OF VETERANS AFFAIRS

[OMB Control No. 2900–0003]

Agency Information Collection: Emergency Submission for OMB Review; Comment Request

AGENCY: Veterans Benefits Administration, Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C., 3501 *et seq.*), this notice announces that the Veterans Benefits Administration (VBA), Department of Veterans Affairs, has submitted to the Office of Management and Budget (OMB) the following emergency proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. 3507(j)(1)). The reason for the emergency clearance request is that the ongoing survey is essential to VA's mission. Disruption of the collection of information will harm VBA's efforts to carry out VA's mission. OMB has been requested to act on this emergency clearance request by September 30, 1999.

DATES: Comments must be submitted on or before September 23, 1999.

FOR FURTHER INFORMATION OR A COPY OF THE SUBMISSION CONTACT: Denise McLamb, Information Management Service (045A4), Department of Veterans Affairs, 810 Vermont Avenue, NW, Washington, DC 20420, (202) 273–8030 or FAX (202) 273–5981. Please refer to ''OMB Control No. 2900–0003.''

SUPPLEMENTARY INFORMATION:

Title: Application for Burial Benefits, VA Form 21–530.

OMB Control Number: 2900–0003.

Type of Review: Reinstatement, without change, for a previously approved collection for which approval has expired.

Abstract: The form is used to apply for burial benefits, including transportation expenses. The information is used by VBA to determine if the deceased veteran had appropriate service and/or disability and that the applicant has made

payment for burial or has contracted to make appropriate payment.

Affected Public: Individuals or households and Business or other for-profit.

Estimated Annual Burden: 100,000 hours.

Estimated Average Burden Per Respondent: 20 minutes.

Frequency of Response: One time for most beneficiaries.

Estimated Number of Respondents: 300,000.

Send comments and recommendations concerning any aspect of the information collection to VA's OMB Desk Officer, Allison Eydt, OMB Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503 (202) 395–4650. Please refer to ''OMB Control No. 2900–0003'' in any correspondence.

By direction of the Secretary.

Dated: September 1, 1999.

Donald L. Neilson,

Director, Information Management Service.

DEPARTMENT OF VETERANS AFFAIRS

[OMB Control No. 2900–0028]

Agency Information Collection: Emergency Submission for OMB Review; Comment Request

AGENCY: Office of Information and Technology, Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C., 3501 *et seq.*), this notice announces that the Information and Technology (IT), Department of Veterans Affairs, has submitted to the Office of Management and Budget (OMB) the following emergency proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. 3507(j)(1)). The reason for the emergency clearance request is that the ongoing survey is essential to VA's mission. Disruption of the collection of information will harm IT's efforts to carry out VA's mission. OMB has been requested to act on this emergency clearance request by September 30, 1999.

DATES: Comments must be submitted on or before September 23, 1999.

FOR FURTHER INFORMATION OR A COPY OF THE SUBMISSION CONTACT: Denise McLamb, Information Management Service (045A4), Department of Veterans Affairs, 810 Vermont Avenue, NW, Washington, DC 20420, (202) 273–8030 or FAX (202) 273–5981. Please refer to ''OMB Control No. 2900–0028.''

SUPPLEMENTARY INFORMATION:

Title: Application of Service Representative for Placement on Mailing List, VA Form 3215.

OMB Control Number: 2900–0028.

Type of Review: Reinstatement, without change, of a previously approved collection for which approval has expired.

Abstract: VA operates an outreach services program to ensure veterans and beneficiaries have information about benefits and services to which they may be entitled. To support the program, VA distributes copies of publications to veterans service organizations representatives. The information collected on VA Form 3215 is used to process a request from a service organization to be placed on the mailing list for specific VA publications.

Affected Public: Individuals or households.

Estimated Annual Burden: 25 hours.

Estimated Average Burden Per Respondent: 10 minutes.

Frequency of Response: Generally one time.

Estimated Number of Respondents: 150.

Send comments and recommendations concerning any aspect of the information collection to VA's OMB Desk Officer, Allison Eydt, OMB Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503 (202) 395–4650. Please refer to ''OMB Control No. 2900–0028'' in any correspondence.

Dated: September 1, 1999.

By direction of the Secretary.

DEPARTMENT OF VETERANS AFFAIRS

Research and Development Cooperative Studies Evaluation Committee Notice of Meeting

The Department of Veterans Affairs gives notice under Public Law 92–463 (Federal Advisory Committee Act) as amended, by section 5(c) of Public Law 94–409, that a meeting of the Research and Development Cooperative Studies Evaluation Committee will be held at the Hilton Alexandria Mark Center, 5000 Seminary Road, Alexandria, VA 22311, October 7, 1999. The session is scheduled to begin at 7:30 a.m. and end at 5:00 p.m. The meeting will be for the purpose of reviewing the following two new proposals: Cost and Outcome of Varying Primary Care Revisit Intervals and Effects of Treatment of Sleep Apnea with Oxygen on Hospitalization and Survival of Patients with Stable Heart Failure. The committee will also review the resubmission of two cooperative trials: A Randomized Prospective Comparison of Bilateral Subthalamic Nucleus Stimulation to a Staged Pallidal Procedure for Patients with Refractory Parkinson's Disease and Homycystinemia in Kidney and End Stage Renal Disease.

The Committee advises the Chief Research and Development Officer through the Chief of the Cooperative Studies Program on the relevance and feasibility of the studies, the adequacy of the protocols, and the scientific validity and propriety of technical details, including protection of human subjects.

The meeting will be open to the public from 7:30 a.m. to 8:00 a.m. to discuss the general status of the program. Those who plan to attend should contact Dr. Ping Huang, Coordinator, Research and Development Cooperative Studies Evaluation Committee, Department of Veterans Affairs, Washington, DC, (202.273.8295) prior to October 1, 1999.

The meeting will be closed from 8:00 a.m. to 5:00 p.m. This portion of the meeting involves consideration of specific proposals in accordance with provisions set forth in section 10(d) of Public Law. 92–463, as amended by section 5(c) of Public Law 94–409, and 5 U.S.C. 552b(c)(6). During the closed session of the meeting, discussions and recommendations will deal with qualifications of personnel conducting the studies, staff and consultant critiques of research protocols, and similar documents, and the medical records of patients who are study subjects, the disclosures of which would constitute a clearly unwarranted invasion of personal privacy.

Dated: September 8, 1999.

By Direction of the Secretary.

Martin R. Eason,

Committee Management Officer.

Part II

Department of Health and Human Services

Health Resources and Services Administration

Lists of Designated Primary Medical Care, Mental Health, and Dental Health Professional Shortage Areas; Notice

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Lists of Designated Primary Medical Care, Mental Health, and Dental Health Professional Shortage Areas

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice.

SUMMARY: This notice provides lists of all areas, population groups, and facilities designated as primary medical care, mental health, and dental health professional shortage areas (HPSAs) as of July 30, 1999. HPSAs are designated or withdrawn by the Secretary of Health and Human Services (HHS) under the authority of section 332 of the Public Health Service (PHS) Act.

FOR FURTHER INFORMATION CONTACT: Requests for further information on the HPSA designations listed below and requests for additional designations, withdrawals, or reinstatement of a withdrawn designation should be submitted to Jerilyn A. Thornburg, R.N., M.P.H., Director, Division of Shortage Designation, Bureau of Primary Health Care, Health Resources and Services Administration, 4350 East-West Highway, Bethesda, Maryland 20814 (301–594–0816).

SUPPLEMENTARY INFORMATION:

1. Background

Section 332 of the PHS Act,42 U.S.C. 254e, provides that the Secretary of HHS shall designate HPSAs based on criteria established by regulation. HPSAs are defined in section 332 to include (1) urban and rural geographic areas, (2) population groups, and (3) facilities with shortages of health professionals. Section 332 further requires that the Secretary annually publish a list of the designated geographic areas, population groups, and facilities. The list of HPSAs is to be reviewed at least annually and revised as necessary. The Health Resources and Services Administration's (HRSA) Bureau of Primary Health Care (BPHC) has the responsibility for designating and updating HPSAs.

Public or private nonprofit entities are eligible to apply for assignment of National Health Service Corps (NHSC) personnel to provide primary health services in or to these HPSAs. NHSC health professionals with a service obligation may serve only in federally designated HPSAs. Programs with clinical training sites located in HPSAs are eligible to receive priority for certain residency training program grants administered by HRSA's Bureau of Health Professions.

Several programs administered by the Health Care Financing

Administration also use the HPSA designation. Certain qualified providers in HPSAs are eligible for increased levels of Medicare and Medicaid reimbursement.

2. Development of the Designation and Withdrawal Lists

Criteria for designating HPSAs were published as final regulations (42 CFR Part 5) in 1980. Criteria were then defined for each of seven health professional types (primary medical care, dental, psychiatric, vision care, podiatric, pharmacy, and veterinary care). The criteria for correctional facility HPSAs were revised at 54 FR 8738 in 1989, and the criteria for psychiatric HPSAs were expanded to mental health HPSAs at 57 FR 2477 in 1992. The currently-funded PHS programs which use the HPSA designations involve only the primary medical care, mental health, or dental HPSAs.

Individual requests for designation or withdrawal of a particular area, population group, or a facility as a HPSA are received and reviewed continuously by the BPHC. The review process includes routine submission of such requests to the appropriate State Health Planning and Development Agency (SHPDA) and/or a unit of the State Health Department, the Governor, and other interested organizations and individuals for their comments and recommendations. Requests regarding primary medical care and mental health HPSAs are also submitted to the appropriate State medical society for comment, and dental HPSA requests are submitted to the appropriate State dental society.

Annually, lists of designated HPSAs are provided to all

SHPDAs and/or State health departments, State medical and dental societies and others, together with a request to review and update the data on which the designations are based. Emphasis is placed on updating those designations which are more than three years old or where significant changes relevant to the designation criteria have occurred.

Recommendations for possible additions, continuations, revisions or withdrawals from the HPSA list are reviewed by the BPHC, and the review findings are provided by letter to the agency or individual requesting action or providing data, with copies to other interested organizations and individuals. These letters constitute the official notice of designation as a HPSA, rejection of recommendations for HPSA designation, revision of a HPSA designation, and/or advance notice of pending withdrawals from the HPSA list. Designations (or revisions of designations) are effective as of the date of the notification letter from BPHC. Proposed withdrawals become effective only after interested parties in the area affected have been afforded the opportunity to submit additional information to the BPHC in support of its continued or revised designation. If no new data are submitted or if the BPHC review confirms the proposed withdrawal, it becomes effective upon publication in the **Federal Register** of a list of HPSAs that does not include the proposed withdrawals.

This notice contains three lists of designated HPSAs. Each list (primary medical care, mental health, and dental) includes all those areas, population groups, and facilities which were designated HPSAs as of July 30, 1999. This notice incorporates the most recent annual review of designated HPSAs and supersedes the HPSA list published in the **Federal Register** on May 30, 1997.

The lists below include 2,790 primary medical care, 653 mental health, and 1,157 dental HPSAs.

3. Format of Lists

Each list of designated HPSAs (primary medical care, mental health, and dental) is arranged by State. Within each State, the list is first presented by county. If only a portion (or portions) of a county is (are) designated, or if the county is part of a larger designated service area, or if a population group residing in the county or a facility located in the county has been designated, the name of the service area, population group, or facility involved is listed under the county name. Counties which have a geographic HPSA designation in addition to one or more facility designations within the county are indicated by a (g) following the county name.

Following the county listing, a list of any designated service areas is presented, identifying their component parts-counties, towns, townships, census tracts (CTs), minor civil divisions (MCDs), census county divisions (CCDs), block numbering areas (BNAs), or magisterial districts, as defined by the Bureau of the Census. Those counties (or parts of counties included in service areas) which are classified as nonmetropolitan are indicated by an asterisk (*). ''Nonmetropolitan'' refers to those counties not included in the definition

of metropolitan areas established by the Office of Management and Budget (OMB Bulletin 94–07 dated July 5, 1994).

Following the service area listing, a list of designated population groups (if any) is presented identifying each group and the geographic area wherein it resides. Following the population group listing, a list by name and location of any separately designated facilities (including prisons, correctional institutions, health centers, or hospitals) is presented.

In addition to the specific listings included in this notice, all Indian tribes which meet the definition of such tribes in the Indian Health Care Improvement Act of 1976, 25 U.S.C. 1603(d), are automatically designated as population groups with primary medical care and dental health professional shortages.

4. Future Updates of Lists of Designated HPSAs

The lists of HPSAs below consist of all those which were designated as of July 30, 1999. It should be noted that additional HPSAs may have been designated by letter since July 30. The appropriate agencies and individuals have been or will be notified of these actions by letter.

Any designated HPSA listed below is subject to withdrawal from designation if new information received and confirmed by HRSA indicates that the relevant data for the area involved have significantly changed since its designation or that incorrect or incomplete data were used in making the original designation.

All requests for new designations, updates, or withdrawals should be based on the relevant criteria in regulations published at 42 CFR Part 5 (1997).

(Authority: 42 U.S.C. 254e).

5. Electronic Access Address

Information on HPSAs is also available at http://www.bphc.hrsa.gov.

Dated: August 30, 1999.

Claude Earl Fox,

Administrator.

LIST OF PUBLIC LAWS

This is a continuing list of public bills from the current

session of Congress which have become Federal laws. It may be used in conjunction with ''PLUS'' (Public Laws Update Service) on 202–523–6641. This list is also available online at http://www.nara.gov/fedreg.

The text of laws is not published in the **Federal Register** but may be ordered in ''slip law'' (individual pamphlet) form from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone, 202–512–1808). The text will also be made available on the Internet from GPO Access at http://www.access.gpo.gov/nara/index.html. Some laws may not yet be available.

H.R. 211/P.L. 106–48

To designate the Federal building and United States courthouse located at 920 West Riverside Avenue in Spokane, Washington, as the ''Thomas S. Foley United States Courthouse'', and the plaza at the south entrance of such building and courthouse as the ''Walter F. Horan Plaza''. (Aug. 17, 1999; 113 Stat. 230)

H.R. 1219/P.L. 106–49

Construction Industry Payment Protection Act of 1999 (Aug. 17, 1999; 113 Stat. 231)

H.R. 1568/P.L. 106–50

Veterans Entrepreneurship and Small Business Development Act of 1999 (Aug. 17, 1999; 113 Stat. 233)

H.R. 1664/P.L. 106–51

Emergency Steel Loan Guarantee and Emergency Oil and Gas Guaranteed Loan Act of 1999 (Aug. 17, 1999; 113 Stat. 252)

H.R. 2465/P.L. 106–52

Military Construction Appropriations Act, 2000 (Aug. 17, 1999; 113 Stat. 259)

S. 507/P.L. 106–53

Water Resources Development Act of 1999. (Aug. 17, 1999; 113 Stat. 269)

S. 606/P.L. 106–54

For the relief of Global Exploration and Development Corporation, Kerr-McGee Corporation, and Kerr-McGee Chemical, LLC (successor to Kerr-McGee Chemical Corporation), and for other purposes. (Aug. 17, 1999; 113 Stat. 398)

S. 1546/P.L. 106–55

To amend the International Religious Freedom Act of 1998 to provide additional administrative authorities to the United States Commission on International Religious Freedom, and to make technical corrections to that Act, and for other purposes. (Aug. 17, 1999; 113 Stat. 401)

Last List August 18, 1999

Public Laws Electronic Notification Service (PENS)

PENS is a free electronic mail notification service of newly enacted public laws. To subscribe, send E-mail to **listserv@www.gsa.gov** with the text message:

SUBSCRIBE PUBLAWS-L Your Name.

Note: This service is strictly for E-mail notification of new public laws. The text of laws is not available through this service. **PENS** cannot respond to specific inquiries sent to this address.

CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, stock numbers, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The CFR is available free on-line through the Government Printing Office's GPO Access Service at http://www.access.gpo.gov/nara/cfr/index.html. For information about GPO Access call the GPO User Support Team at 1-888-293-6498 (toll free) or 202-512-1530.

The annual rate for subscription to all revised paper volumes is $951.00 domestic, $237.75 additional for foreign mailing.

Mail orders to the Superintendent of Documents, Attn: New Orders, P.O. Box 371954, Pittsburgh, PA 15250–7954. All orders must be accompanied by remittance (check, money order, GPO Deposit Account, VISA, Master Card, or Discover). Charge orders may be telephoned to the GPO Order Desk, Monday through Friday, at **(202) 512–1800** from 8:00 a.m. to 4:00 p.m. eastern time, or FAX your charge orders to **(202) 512-2250**.

[1] Because Title 3 is an annual compilation, this volume and all previous volumes should be retained as a permanent reference source.

[2] The July 1, 1985 edition of 32 CFR Parts 1–189 contains a note only for Parts 1–39 inclusive. For the full text of the Defense Acquisition Regulations in Parts 1–39, consult the three CFR volumes issued as of July 1, 1984, containing those parts.

[3] The July 1, 1985 edition of 41 CFR Chapters 1–100 contains a note only for Chapters 1 to 49 inclusive. For the full text of procurement regulations in Chapters 1 to 49, consult the eleven CFR volumes issued as of July 1, 1984 containing those chapters.

[4] No amendments to this volume were promulgated during the period July 1, 1997 to June 30, 1998. The volume issued July 1, 1997, should be retained.

[5] No amendments to this volume were promulgated during the period January 1, 1998 through December 31, 1998. The CFR volume issued as of January 1, 1997 should be retained.

[7] No amendments to this volume were promulgated during the period April 1, 1998, through April 1, 1999. The CFR volume issued as of April 1, 1998, should be retained.

[8] No amendments to this volume were promulgated during the period July 1, 1998, through July 1, 1999. The CFR volume issued as of July 1, 1998, should be retained.
