

FEDERAL REGISTER

Vol. 89

Friday,

No. 235

December 6, 2024

Pages 96855–97458

OFFICE OF THE FEDERAL REGISTER

The **FEDERAL REGISTER** (ISSN 0097-6326) is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Publishing Office, is the exclusive distributor of the official edition. Periodicals postage is paid at Washington, DC.

The **FEDERAL REGISTER** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, see www.federalregister.gov.

The seal of the National Archives and Records Administration authenticates the **Federal Register** as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge at www.govinfo.gov, a service of the U.S. Government Publishing Office.

The online edition of the **Federal Register** is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6:00 a.m. each day the **Federal Register** is published and includes both text and graphics from Volume 1, 1 (March 14, 1936) forward. For more information, contact the GPO Customer Contact Center, U.S. Government Publishing Office. Phone 202-512-1800 or 866-512-1800 (toll free). E-mail, gpocusthelp.com.

The annual subscription price for the **Federal Register** paper edition is \$860 plus postage, or \$929, for a combined **Federal Register**, **Federal Register** Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the **Federal Register** Index and LSA is \$330, plus postage. Six month subscriptions are available for one-half the annual rate. The prevailing postal rates will be applied to orders according to the delivery method requested. The price of a single copy of the daily **Federal Register**, including postage, is based on the number of pages: \$11 for an issue containing less than 200 pages; \$22 for an issue containing 200 to 400 pages; and \$33 for an issue containing more than 400 pages. Single issues of the microfiche edition may be purchased for \$3 per copy, including postage. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard, American Express, or Discover. Mail to: U.S. Government Publishing Office—New Orders, P.O. Box 979050, St. Louis, MO 63197-9000; or call toll free 1-866-512-1800, DC area 202-512-1800; or go to the U.S. Government Online Bookstore site, see bookstore.gpo.gov.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 89 FR 12345.

Postmaster: Send address changes to the Superintendent of Documents, Federal Register, U.S. Government Publishing Office, Washington, DC 20402, along with the entire mailing label from the last issue received.

The Federal Register Printing Savings Act of 2017 (Pub. L. 115-120) placed restrictions on distribution of official printed copies of the daily **Federal Register** to members of Congress and Federal offices. Under this Act, the Director of the Government Publishing Office may not provide printed copies of the daily **Federal Register** unless a Member or other Federal office requests a specific issue or a subscription to the print edition. For more information on how to subscribe use the following website link: <https://www.gpo.gov/frsubs>.

Title 3—

Proclamation 10868 of December 3, 2024

The President

International Day of Persons With Disabilities, 2024

By the President of the United States of America

A Proclamation

The over one billion disabled people around the world have made incredible contributions—propelling us all forward in the pursuit of progress. This International Day of Persons with Disabilities, we recommit to ensuring that people with disabilities are treated with dignity and respect and have every opportunity to reach their full potential.

I remain proud that one of my earliest acts as a United States Senator was co-sponsoring the Rehabilitation Act, banning discrimination on the basis of disability by any entity funded by the Federal Government. And later, I co-sponsored the Americans with Disabilities Act, which banned discrimination against disabled people in workplaces, schools, public transit, and more—finally making a commitment to build an America for all Americans. Together, these laws declared what we have always known to be true: that Americans with disabilities deserve dignity, respect, and an equal chance at the American Dream.

Over 180 nations have passed similar laws in the years since, codifying their commitment to equal justice and opportunities for people with disabilities. Still, these laws have not brought an end to the work we need to do. Around the world, people with disabilities are subject to shameful discrimination, harassment, exploitation, abuse, and violence. And too often, they struggle to get by—whether it is finding an accommodating job, enjoying public spaces, receiving quality education, or getting to and from school or work.

That is why my Administration has worked to uplift people with disabilities in everything we do. My American Rescue Plan provided \$37 billion to strengthen home-based services so that more people with disabilities have the option to live independently at home. My Bipartisan Infrastructure Law makes historic investments in making transit, rail, and airports more accessible, so that people with disabilities can commute and travel with dignity. The Department of Justice issued a rule that ensures State and local governments make their web content and mobile apps more accessible to Americans with disabilities so they can more easily access local government services, emergency services, voting information, and publicly funded education. And today, the Department of Labor announced a proposed rule that would gradually phase out certificates that permit employers to pay workers with disabilities less than the full minimum wage.

My Administration has also worked with partners around the world to secure the rights of people with disabilities. I released the first-ever Memorandum on Advancing Worker Empowerment, Rights, and High Labor Standards Globally, which is working to ensure that people with disabilities are represented in our work to promote labor rights. And I re-established the role of Special Advisor on International Disability Rights at the Department of State to ensure our foreign policy reflects our commitment to this community. In October, my Administration participated in the first-ever G7 Ministerial on Inclusion and Disability, joining leaders around the world to advance disability rights. Together with leaders from Central Asia, I launched a joint disability rights initiative to help make education and

infrastructure more accessible. And as a co-chair of the Global Action on Disability Network, the United States is continuing to advocate for disability rights on the world stage.

Today, I am thinking of a quote from disability rights activist Judy Heumann, who once wrote: “Change never happens at the pace we think it should. It happens over years of people joining together, strategizing, sharing, and pulling all the levers they possibly can.” On International Day of Persons with Disabilities, we show our gratitude for all the leaders and activists who have advocated and worked to make real our Nation’s founding promise—that every American has a right to be recognized and respected for who they are. And we recommit to building a world where we support disability pride and give everyone an equitable chance at achieving their highest aspirations.

NOW, THEREFORE, I, JOSEPH R. BIDEN JR., President of the United States of America, by virtue of the authority vested in me by the Constitution and the laws of the United States, do hereby proclaim December 3, 2024, as International Day of Persons with Disabilities. I call on all Americans to observe this day with appropriate ceremonies, activities, and programs.

IN WITNESS WHEREOF, I have hereunto set my hand this third day of December, in the year of our Lord two thousand twenty-four, and of the Independence of the United States of America the two hundred and forty-ninth.

A handwritten signature in black ink, appearing to read "Joe Biden", with a long, sweeping horizontal line extending to the left.

Rules and Regulations

Federal Register

Vol. 89, No. 235

Friday, December 6, 2024

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents.

DEPARTMENT OF AGRICULTURE

Rural Housing Service

7 CFR Parts 1942, 3560, 3570, and 5001

[Docket Number: RHS–24–ADMIN–0040]

Multi-Family Housing and Community Facilities Updates to Federal Financial Assistance Guidance

AGENCY: Rural Housing Service, USDA.

ACTION: Final rule.

SUMMARY: The Rural Housing Service (RHS or Agency), an agency in the United States Department of Agriculture (USDA) Rural Development (RD) Mission area, is issuing a final rule to update the Multi-Family Housing (MFH) and Community Facility (CF) regulations by updating the audit and financial statement language to align with the Office of Management and Budget (OMB) 2024 revisions.

DATES: Effective December 6, 2024.

FOR FURTHER INFORMATION CONTACT:

Julie Felhofer, Policy & Budget Branch Chief, United States Department of Agriculture, 1400 Independence Avenue SW, Washington, DC 20250–1548. Telephone: (715) 295–4069. Email: Julie.Felhofer@usda.gov.

Nathan Chitwood, Director, Community Facilities, United States Department of Agriculture, 1400 Independence Avenue SW, Washington, DC 20250–1548. Telephone: (573) 876–0965. Email: Nathan.Chitwoodt@usda.gov.

SUPPLEMENTARY INFORMATION:

I. Background

RD is a mission area within USDA comprised of the RHS, the Rural Business-Cooperative Service, and Rural Utilities Service, that strives to increase economic opportunity and improve the quality of life for all rural Americans. RD invests in rural America with loan, grant, and loan guarantee programs to help drive economic security and prosperity.

USDA's RHS offers a variety of programs to build or improve housing and essential community facilities in rural areas. The Agency offers loans, grants and loan guarantees for single- and multi-family housing, childcare centers, fire and police stations, hospitals, libraries, nursing homes, schools, first responder vehicles and equipment, housing for farm laborers and much more.

Multi-Family housing programs assist rural property owners through loans, loan guarantees, and grants that enable owners to develop and rehabilitate properties for low-income, elderly, and disabled individuals and families as well as domestic farm laborers.

Community Facilities Programs offer direct loans, loan guarantees and grants to develop or improve essential public services and facilities in communities across rural America. These amenities help increase the competitiveness of rural communities in attracting and retaining businesses that provide employment and services for their residents.

OMB revised several parts of OMB Guidance for Grants and Agreements which is now called OMB Guidance for Federal Financial Assistance which are applicable to all federal agencies. This guidance can be found in Title 2 of the Code of Federal Regulations (CFR) (2 CFR part 200). The revisions were published in the **Federal Register** on April 22, 2024, at 89 FR 30046, and are required to be implemented by October 1, 2024. This final rule is being published as a technical-administrative correction to ensure the Agency's audit and financial statement requirements align with the OMB revisions made to 2 CFR part 200.

II. Summary of Changes

This rulemaking makes the following changes:

- (1) Updates § 1942.17 to increase the \$750,000 audit threshold to \$1,000,000.
- (2) Updates § 3560.308 to increase the \$750,000 audit threshold to \$1,000,000.
- (3) Updates § 3570.51 to remove the 2 CFR issue date.
- (4) Updates § 3570.80 to replace the term “applicant” with “recipient” or “subrecipient.”

III. Executive Orders

Executive Order 12372—Intergovernmental Consultation

These loans are subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials. RHS conducts intergovernmental consultations for each loan in accordance with 2 CFR part 415, subpart C.

Executive Order 12866—Regulatory Planning and Review

This final rule is exempt from OMB review for purposes of Executive Order 12866 and, therefore, has not been reviewed by OMB.

Executive Order 12988—Civil Justice Reform

This final rule has been reviewed under Executive Order 12988. In accordance with this rule: (1) unless otherwise specifically provided, all State and local laws that conflict with this rule will be preempted; (2) no retroactive effect will be given to this rule except as specifically prescribed in the rule; and (3) administrative proceedings of the National Appeals Division of the Department of Agriculture (7 CFR part 11) must be exhausted before bringing suit in court that challenges action taken under this rule.

Executive Order 13132—Federalism

The policies contained in this final rule do not have any substantial direct effect on States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. Nor does this final rule impose substantial direct compliance costs on State and local governments. Therefore, consultation with the States is not required.

Executive Order 13175—Consultation and Coordination With Indian Tribal Governments

This final rule has been reviewed in accordance with the requirements of Executive Order 13175, Consultation and Coordination with Indian Tribal Governments. Executive Order 13175 requires Federal agencies to consult and coordinate with tribes on a government-to-government basis on policies that have tribal implications, including

regulations, legislative comments or proposed legislation, and other policy statements or actions that have substantial direct effects on one or more Indian tribes, on the relationship between the Federal government and Indian tribes or on the distribution of power and responsibilities between the Federal government and Indian tribes. Consultation is also required for any regulation that preempts tribal law or that imposes substantial direct compliance costs on Indian tribal governments and that is not required by statute.

The Agency has determined that this final rule does not, to its knowledge, have tribal implications that require formal tribal consultation under Executive Order 13175. If a Tribe requests consultation, the RHS will work with the Office of Tribal Relations to ensure meaningful consultation is provided where changes, additions and modifications identified herein are not expressly mandated by Congress.

Congressional Review Act

This final rule is not subject to the Congressional Review Act (“CRA”) (5 U.S.C. 801 *et seq.*), as the CRA provides an exemption for any rule relating to agency management or personnel and for rules relating to agency organization, procedure, or practice that does not substantially affect the rights or obligations of non-agency parties.

Assistance Listing Number

The Assistance Listing Numbers assigned to the programs affected by this final rule are 10.405—“Farm Labor Housing Loans and Grants,” 10.415—“Rural Rental Housing Loans,” 10.427—“Rural Rental Assistance Payments,” and 10.766—“Community Facilities Loans and Grants.” The Assistance Listings are available at [SAM.gov](https://www.sam.gov).

Paperwork Reduction Act

This final rule contains no reporting or recordkeeping provisions under OMB Control Numbers 0575–0015 and 0575–0089 requiring OMB approval under the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35).

National Environmental Policy Act

In accordance with the National Environmental Policy Act of 1969, Public Law 91–190, this final rule has been reviewed in accordance with 7 CFR part 1970 (“Environmental Policies and Procedures”). The Agency has determined that: (i) this action meets the criteria established in 7 CFR 1970.53(f); (ii) no extraordinary circumstances exist; and (iii) the action is not “connected” to other actions with

potentially significant impacts, is not considered a “cumulative action” and is not precluded by 40 CFR 1506.1. Therefore, the Agency has determined that this action does not have a significant effect on the human environment, and therefore neither an Environmental Assessment nor an Environmental Impact Statement is required.

Regulatory Flexibility Act Certification

This final rule has been reviewed with regard to the requirements of the Regulatory Flexibility Act (5 U.S.C. 601–612). The undersigned has determined and certified by signature on this document that this final rule will not have a significant economic impact on a substantial number of small entities since this rulemaking action does not involve a new or expanded program nor does it require any more action on the part of a small business than required of a large entity.

Administrative Pay-As-You-Go Act of 2023

Section 270 of the Administrative Pay-As-You-Go Act of 2023 (Pub. L. 118–5, div. B, title III, 137 Stat 31) amended 5 U.S.C. 801(a)(2)(A) to require U.S. Government Accountability Office (GAO) to assess agency compliance with the Act, which establishes requirements for administrative actions that affect direct spending, in GAO’s major rule reports. The Act does not apply to this rule because it does not increase direct spending.

Unfunded Mandates Reform Act

Title II of the Unfunded Mandates Reform Act (UMRA), Public Law 104–4 (2 U.S.C. 1501 *et seq.*), establishes requirements for Federal Agencies to assess the effects of their regulatory actions on State, local, and tribal Governments and on the private sector. Under section 202 of the UMRA, Federal Agencies generally must prepare a written statement, including cost-benefit analysis, for proposed and final rules with “Federal mandates” that may result in expenditures to State, local, or tribal Governments, in the aggregate, or to the private sector, of \$100 million or more in any one year. When such a statement is needed for a rule, section 205 of the UMRA generally requires a Federal Agency to identify and consider a reasonable number of regulatory alternatives and adopt the least costly, most cost-effective, or least burdensome alternative that achieves the objectives of the rule.

This final rule contains no Federal mandates (under the regulatory

provisions of title II of the UMRA) for State, local, and tribal Governments or for the private sector. Therefore, this final rule is not subject to the requirements of sections 202 and 205 of the UMRA.

E-Government Act Compliance

RD is committed to the E-Government Act (44 U.S.C. 101 *et seq.*), which requires Government agencies in general to provide the public the option of submitting information or transacting business electronically to the maximum extent possible and to promote the use of the internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

Civil Rights Impact Analysis

RD has reviewed this final rule in accordance with USDA Regulation 4300–4, Civil Rights Impact Analysis, to identify any major civil rights impacts the rule might have on program participants on the basis of age, race, color, national origin, sex, disability, or marital or familial status. Based on the review and analysis of this final rule and all available data, issuance of this final rule is not likely to negatively impact low and moderate-income populations, minority populations, women, Indian tribes, or persons with disability, by virtue of their age, race, color, national origin, sex, disability, or marital or familial status. No major civil rights impact is likely to result from this final rule.

USDA Non-Discrimination Statement

In accordance with Federal civil rights laws and USDA civil rights regulations and policies, the USDA, its Mission Areas, agencies, staff offices, employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication to obtain program information (*e.g.*, Braille, large print,

audiotape, American Sign Language) should contact the responsible Mission Area, agency, or staff office; or the 711 Relay Service.

To file a program discrimination complaint, a complainant should complete a Form AD-3027, USDA Program Discrimination Complaint Form, which can be obtained online at www.usda.gov/sites/default/files/documents/ad-3027.pdf, from any USDA office, by calling (866) 632-9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD-3027 form or letter must be submitted to USDA by:

(1) *Mail*: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue SW, Washington, DC 20250-9410; or

(2) *Fax*: (833) 256-1665 or (202) 690-7442; or

(3) *Email*: Program.Intake@usda.gov.

List of Subjects

7 CFR Part 1942

Business and industry, Community facilities, Fire prevention, Grant programs—business, Grant programs—housing and community development, Grant programs—Indians, Indians, Loan programs—agriculture, Loan programs—housing and community development, Loan programs—Indians, Loan programs—natural resources, Reporting and recordkeeping requirements, Rural areas, Soil conservation, Waste treatment and disposal, Water supply, Watersheds.

7 CFR Part 3560

Accounting, Administrative practice and procedure, Aged, Conflicts of interest, Government property management, Grant programs—housing and community development, Insurance, Loan programs—agriculture, Loan programs—housing and community development, Low- and moderate-income housing, Migrant labor, Mortgages, Nonprofit organizations, Public housing, Rent subsidies, Reporting and recordkeeping requirements, Rural areas.

7 CFR Part 3570

Administrative practice and procedure, Fair housing, Grant programs—housing and community development, Housing, Low- and

moderate-income housing, Reporting and recordkeeping requirements, Rural areas.

7 CFR Part 5001

Business and industry, Community development, Community facilities, Energy conservation, Fees, Loan programs—natural resources, Renewable energy, Rural areas, Rural development, Water and waste disposal.

Accordingly, for the reasons set forth in the preamble, the Agency amends 7 CFR parts 1942, 3560, 3570, and 5001 as follows:

PART 1942—ASSOCIATIONS

- 1. The authority citation for part 1942 continues to read as follows:

Authority: 5 U.S.C. 301; 7 U.S.C. 1989.

Subpart A—Community Facility Loans

§ 1942.17 Community facilities.

- 2. Revise and republish § 1942.17 paragraphs (q)(4) and (5) to read as follows:

* * * * *

(q) * * *

(4) *Audits.* Any applicant that expends \$1 million or more in Federal financial assistance during their fiscal year must submit an audit report conducted in accordance with 2 CFR part 200, subpart F, “Audit Requirements.” Applicants expending less than \$1 million in Federal financial assistance per fiscal year are exempt from 2 CFR part 200 audit requirements. All audits are to be performed in accordance with the latest revision of the Generally Accepted Government Accounting Standards (GAGAS), developed by the Comptroller General of the United States. Further guidance on preparing an acceptable audit can be obtained from any Agency office. It is not intended that audits required by this part be separate and apart from audits performed in accordance with State and local laws. To the extent feasible, the audit work should be done in conjunction with those audits. Audits should be supplied to the Processing Official within the timeframes stated in paragraph (f) of this section. OMB Circulars and Agency Compliance Supplements are available in any USDA/Agency office or OMB's website. Any state, local government, or Indian tribe that is required by constitution or state statute, in effect on January 1, 1987, to undergo its audits less frequently than annually, is permitted to undergo its audits biennially, pursuant to 2 CFR 200.504(a). This requirement must still be in effect for the biennial period. Any nonprofit organization that

had biennial audits for all biennial periods ending between July 1, 1992, and January 1, 1995, is permitted to undergo its audits biennially, pursuant to 2 CFR 200.504(b). All biennial audits must cover both years within the biennial period.

(5) *Exemption from audits.* Except as noted in 2 CFR 200.503, “Relation to other audit requirement,” public bodies or nonprofits expending less than \$1 million in Federal awards during its fiscal year, whose payments are current, and are having no signs of operational or financial difficulty may submit a management report. A management report, at a minimum, will include a balance sheet and income and expense statement. Financial information may be reported on Form RD 442-2, “Statement of Budget, Income and Equity” and RD Form 442-3, “Balance Sheet”, or similar. The following management data will be submitted by the borrower to the servicing office. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO).

* * * * *

PART 3560—DIRECT MULTI-FAMILY HOUSING LOANS AND GRANTS

- 3. The authority citation for part 3560 continues to read as follows:

Authority: 42 U.S.C. 1480.

Subpart G—Financial Management

- 4. Revise and republish § 3560.308 paragraphs (a)(2) and (3) to read as follows:

§ 3560.308 Annual financial reports.

* * * * *

(a) * * *

(2) Non-profit borrowers that receive \$1 million or more in combined Federal financial assistance must meet the audit requirements set forth by OMB, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, found at 2 CFR parts 200 and 400. Borrowers must provide a copy of this audit to RHS in compliance with these financial reporting requirements.

(3) Non-profit borrowers that receive less than \$1 million, and for-profit borrowers that receive less than \$500,000 in combined Federal financial assistance will submit annual owner certified prescribed forms on the accrual method of accounting in accordance with the Statements on Standards for Accounting and Review Services promulgated by the Accounting and

Review Services Committee of the American Institute of Certified Public Accountants (AICPA). Borrowers may use a CPA to prepare this compilation report of the prescribed forms.

* * * * *

PART 3570—COMMUNITY PROGRAMS

■ 5. The authority citation for part 3570 continues to read as follows:

Authority: 5 U.S.C. 301; 7 U.S.C. 1989.

Subpart B—Community Facilities Grant Program

■ 6. Revise and republish § 3570.51 paragraph (j) to read as follows:

§ 3570.51 General.

* * * * *

(j) The Office of Management and Budget (OMB) issued guidance on Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards at 2 CFR part 200. In 2 CFR part 400.1, the Department adopted OMB's guidance in subparts A through F of 2 CFR part 200, as supplemented by 2 CFR part 400, as the Department's policies and procedures for uniform administrative requirements, cost principles, and audit requirements for federal awards. As a result, this regulation contains references to 2 CFR part 200 as it has regulatory effect for the Department's programs and activities.

* * * * *

■ 8. Revise and republish § 3570.80 to read as follows:

§ 3570.80 Grant closing and delivery of funds.

(a) "Community Facilities Grant Agreement" will be used as the grant agreement between the Agency and the grantee and will be signed by the grantee before grant funds are advanced.

(b) Approval officials may require recipients to record liens or other appropriate notices of record to indicate that personal or real property has been acquired or improved with Federal grant funds and that use and disposition conditions apply to the property as provided by 2 CFR part 200, as subsequently modified.

(c) Approval officials may require recipients to record liens or other appropriate notices of record to indicate that personal or real property has been acquired or improved with Federal grant funds and that use and disposition conditions apply to the property as provided by 2 CFR part 200 as adopted by USDA through 2 CFR part 400 as subsequently modified.

(d) Grant funds will not be disbursed until they are actually needed by the recipient and all borrower or other funds are expended, except when:

(1) Interim financing of the total estimated amount of loan funds needed during construction is arranged,

(2) All interim funds have been disbursed, and

(3) Agency grant funds are needed before RHS or other loans can be closed.

(e) If grant funds are available from other agencies and are transferred for disbursement by RHS, these grant funds will be disbursed in accordance with the agreement governing such other agencies' participation in the project.

PART 5001—GUARANTEED LOANS

■ 7. The authority citation for part 5001 continues to read as follows:

Authority: 5 U.S.C. 301; 7 U.S.C. 1926(a); 7 U.S.C. 1932(a); 7 U.S.C. 8107.

Subpart F—Servicing Provisions

■ 8. Revise and republish § 5001.504 paragraph (c) to read as follows:

§ 5001.504 Financial reports.

* * * * *

(c) Annual financial statements must be in accordance with accounting practices acceptable to the Agency as prescribed in § 5001.9 for all borrowers with a guaranteed loan balance in excess of \$600,000. The lender may determine the type and frequency of financial statements for borrowers with a total guaranteed loan balance below \$600,000 upon notification and justification to the Agency. This section does not supersede the borrower financial statement requirements of 2 CFR part 200, subpart F.

BILLING CODE 3410–XV–P

DEPARTMENT OF AGRICULTURE

Rural Housing Service

7 CFR Part 3560

[Docket No. RHS–24–MFH–0041]

Multi-Family Housing Simple Transfer Pilot Program

AGENCY: Rural Housing Service, USDA.

ACTION: Extension of pilot program.

SUMMARY: The Rural Housing Service (RHS or the Agency), a Rural Development (RD) agency of the United

States Department of Agriculture (USDA), is announcing the extension of a pilot program with updates for simple transfers of USDA Section 514 Farm Labor Housing & 515 Rural Rental Housing properties through December 9, 2025. The Agency's intention is to evaluate the existing regulations and remove regulatory barriers to reduce application requirements for certain types of transfers, resulting in lower transaction-related costs for applicants and improved processing times.

DATES: The effective date of the Simple Transfer Pilot Program is extended to December 9, 2025, at which time the RHS may extend the pilot program (with or without modifications) or terminate it depending on the workload, budget and resources needed to administer the program, feedback from the public, and the effectiveness of the program. If the pilot program is extended or terminated, the RHS will notify the public.

FOR FURTHER INFORMATION CONTACT: For general information about the pilot program, contact Jessica Long, Asset Management Division at jessica.long@usda.gov or at 270–392–4526.

Owners that are interested in participating in the pilot program should contact the project's assigned servicing specialist in the Field Operations Division. The assigned specialist can be found on the Agency's website at <https://www.sc.egov.usda.gov/data/MFH.html>. Select the file under the heading "Multi-Family Housing 514 & 515 Property Assignments." The servicing specialist is listed in the column labeled "Assigned To" and their email is in the column "Assigned To Email."

SUPPLEMENTARY INFORMATION:

Authority

Title V, Section 506(b) of the Housing Act of 1949, as amended; 42 U.S.C. 1476(b).

Background

RHS is committed to helping improve the economy and quality of life in rural areas by offering a variety of programs such as loans, grants, and loan guarantees to help create jobs, expand economic development, and provide critical infrastructure investments. RHS also provides technical assistance, loans, and grants by partnering with agricultural producers, cooperatives, Indian tribes, non-profits, and other local, state, and federal agencies.

The Multi-family Housing Program (MFH), an RHS program, assists rural property owners through loans, loan guarantees, and grants that enable owners to develop and rehabilitate

properties for low-income, elderly, and disabled individuals and families as well as domestic farm laborers. MFH works with the owners of its direct and farm labor housing loan properties to subsidize rents for low-income tenants who cannot afford to pay their full rent. These programs assist qualified applicants that cannot obtain commercial credit on terms that will allow them to charge rents that are affordable to low-income tenants.

Summary of Updates to the Pilot Program

1. The pilot program is extended by one year until December 9, 2025.
2. Section 514 properties are now included in the pilot program.
3. The RHS contact person is updated.
4. Under Option 1, an exception for extending terms for imminent maturing mortgages has been added.
5. The Agency has made clarifications to Option 2 by removing (iii) (c) which was repetitive of (iii)(a) and (b).

Transfer Types: Simple and Standard Transfers

MFH utilizes a variety of tools to revitalize and preserve the physical and financial health of more than 13,000 properties currently in USDA's rural rental portfolio. The Agency may authorize limited demonstration programs to test new approaches to offering housing under the statutory authority granted to the Secretary, as set forth in 42 U.S.C. 1476(b) and 7 CFR 3560.53(t). Such demonstration programs may authorize procedures and requirements that differ from those set forth in statute or regulation. However, any program requirements that are not expressly waived, whether statutory or regulatory, remain in effect.

There are two primary types of ownership changes that require approval by MFH which are (1) a change in the borrower entity's organizational structure or (2) a transfer of ownership to a new entity. Organizational changes that include changes in a borrower's current ownership entity structure are addressed in 42 U.S.C. 1485(h) and 7 CFR 3560.405. Transfers, which are sales of projects to new owners that continue to operate the projects in the 515 program, are detailed in 42 U.S.C. 1485(h) and 7 CFR 3560.406.

MFH has identified the need to simplify the transfer of ownership for certain types of transactions. The current process places the same submission requirements on applicants regardless of the complexity of the transaction, resulting in undue burdens for relatively uncomplicated transfers, thereby reducing potential transfer and

preservation activity in the portfolio. To address this issue, MFH is implementing the Simple Transfer Pilot Program which will offer three additional transfer options as a way to encourage preservation and revitalize its portfolio. MFH expects that by reducing application requirements for certain types of transfers, the result will be lower transaction-related costs for applicants and improved processing times. At the end of the pilot program, MFH will evaluate the findings with consideration towards, if successful, future regulatory changes that could be codified into 7 CFR part 3560 and applied program wide.

Discussion of the Transfer Pilot Program

(1) *Simple Transfer Pilot Program:* For a simple transfer, under certain conditions the Agency will process an application for an ownership change without requiring full rehabilitation financing and or reserve account funding typically needed to approve a standard transfer. Simple transfers include restrictions on new debt, equity payouts, and other limitations that are not included for standard transfers.

The Agency must determine that the new owner can operate the property successfully and that the ownership change will benefit the government and tenants even if there are remaining rehabilitation needs post-transfer. The property must meet the required conditions to be processed as a simple transfer. The Asset Management Division (AMD) will process simple transfers.

(2) *Standard Transfer:* All transfers that do not meet the requirements for a simple transfer are considered standard transfers. Standard transfers often include third-party financing, such as Low-Income Housing Tax Credits (LIHTC), and may include one property or multiple properties in a portfolio. Standard transfers follow the guidance in 7 CFR 3560.406. The Production and Preservation Division (P2) will continue to process standard transfers.

Implementation of the Simple Transfer Pilot Program

Eligible properties include Section 514 Farm Labor Housing and Section 515 Rural Rental Housing properties. Eligibility for the pilot program will be based on property conditions and the ability and willingness of the buyer and seller to meet required simple transfer conditions. Buyers must meet the eligibility criteria in 7 CFR 3560.406. Applicants must be able to clearly demonstrate that the property can operate successfully under new

ownership. Applicants must abide by the regulatory requirements set forth in 7 CFR part 3560 and the requirements set forth in applicable statutes, except for the exceptions made available through this pilot program, as detailed in this Notice.

Under the pilot program, three simple transfer options are available to address different property circumstances, which are outlined below:

Option 1: Simple Transfer With Expedited Ownership Change Required

Option 1 is the most streamlined transfer process. It is available in circumstances where the Agency determines that an expedited ownership change is in the best interest of the Government, property, and tenants.

(1) Requirements

(i) Property is in acceptable physical condition as determined by the Agency based on information submitted by the applicant, available in Agency files, or available from third parties, AND

(ii) Conditions exist that require an expedited transfer, including but not limited to: deceased borrower or general partner, hardship, insolvency, receivership, imminent loan maturity, or sale to nonprofit under prepayment, AND

(iii) No additional debt will be incurred by the Buyer or secured by the property as part of the transfer, AND

(iv) New owner (nonprofit or for-profit) will provide a plan for the long-term viability of the property, which may include recapitalization/rehabilitation or resetting of reserves. The Agency must determine that the proposed viability plan demonstrates the continued physical and financial viability of the property.

(2) Pilot Program Modification to Current Standard Transfer Requirements in 7 CFR 3560

(i) No Capital Needs Assessment (CNA) is required with the transfer application (the CNA requirement in 7 CFR 3560.406(d)(5) is waived for transfers qualifying for Option 1).

(ii) No new valuation of the property is required with the transfer application (the requirement in 3560.406(d)(3)(i) and (ii) that the security value of the housing project be determined at the time of transfer is waived for transfers qualifying for Option 1).

(iii) The maturity date and amortization period of the loan will not be changed or extended unless the Agency determines that an extension of the term is in the best interests of the Government, property and tenants.

(iv) No equity payout can be included as part of the transaction. Equity payout to transferor shall not be paid for by project funds and shall not be secured by the property. If agreed to by both parties, equity may be paid outside of the transaction.

(v) The project must meet minimum reserve account requirements as determined by the Agency. The Agency may require a post-transfer analysis to reset annual reserve deposits as a condition of the approved viability plan, which could include completion of a property conditions survey, a CNA, or another analysis acceptable to the Agency.

Option 2: Simple Transfer With Rehabilitation

Option 2 is designed for properties that require rehabilitation and or resetting of the annual deposit to the reserve account.

(1) Requirements

(i) Property is or will be fully subsidized post-transfer OR rents can be increased without adversely impacting occupancy and without a term extension, AND

(ii) No additional amortizing debt will be incurred by the Buyer or secured by the property as part of the transfer, AND

(iii) One of the following conditions applies:

(a) Based on a CNA, rehabilitation is needed that cannot be funded by the current reserve account, OR

(b) Property is in acceptable condition, with only minor upfront rehabilitation or repairs needed, as determined by the Agency based on information submitted by the applicant, available in Agency files, or available from third parties. Reserves are sufficient to meet any upfront rehabilitation needs but are inadequate to address future rehabilitation needs,

(2) Pilot Program Modification to Current Standard Transfer Requirements in 7 CFR 3560

(i) No new valuation of the property is required with the transfer application (the requirement in § 3560.406(d)(3)(i) and (ii) that the security value of the housing project be determined at the time of transfer is waived for transfers qualifying for Option 2).

(ii) The Agency may approve a junior lien for deferred financing as provided in 3560.409, except that: (a) deferred financing must at a minimum be coterminous with the Agency's loan(s), and (b) the Agency may set a maximum per unit limit on rehabilitation that can be approved under Option 2.

(iii) The maturity date and amortization period of the loan will not be changed or extended, except that a term extension may be permitted in accordance with 7 CFR 3560.409(j) if required by the deferred lender to preserve affordability for a longer period.

(iv) No equity payout can be included as part of the transaction. Equity payout to transferor shall not be paid for by project funds and shall not be secured by the property. If agreed to by both parties, equity may be paid outside of the transaction.

Option 3: Simple Transfer With Future Rehabilitation/Recapitalization Plan

Option 3 provides flexibility to nonprofits and government agencies to complete an acquisition of a preservation-worthy property even if resources for rehabilitation of the property are not available at the time of the transfer. An appraisal and CNA are required as part of the transfer application.

(1) Requirements

(i) Based on a CNA, rehabilitation is needed that cannot be fully funded by the current reserve account or resetting of the existing reserve deposits, AND

(ii) The purchaser is a nonprofit organization or government agency, AND

(iii) The new nonprofit or government agency owner will pursue a strategy to rehabilitate/recapitalize the property with Agency and or third-party funds within two years of the transfer closing date. The Agency must determine that the recapitalization plan will meet the physical and financial needs of the property, the new owner is likely to obtain the Agency and or third-party funds, and the property can function successfully until either rehabilitation or recapitalization is complete.

(2) Pilot Program Modification to Current Standard Transfer Requirements in 7 CFR 3560

(i) The Agency will waive the necessary reserve requirement adjustment under 7 CFR 3560.406(d)(5). The new owner must address the rehabilitation needs identified in the CNA over a period not to exceed two years after the closing date of the transfer. The Agency must approve the new owner's proposed rehabilitation plan and the new owner's plan to obtain funding for the rehabilitation prior to approval of the transfer.

(ii) The Agency will monitor the progress and implementation of the approved plan as part of routine project servicing. The new owner may propose

changes to the approved plan; however, RD must authorize in writing any changes before they are implemented.

For all simple transfer options, health, safety, environmental, civil rights, and applicable accessibility requirements must be resolved at the time of transfer. The property must be rated "performing" in the internal risk rating tool unless an exception is approved by the Agency.

In cases where MFH determines that none of the simple transfer options are viable for a project, the property owner should follow the standard transfer requirements in 7 CFR 3560.406. The Agency may also determine that other servicing actions are more appropriate based on the property's circumstances.

Standard transfer requirements have not changed and are outlined in 7 CFR 3560.406 (<https://ecfr.federalregister.gov/current/title-7/subtitle-B/chapter-XXXV/part-3560/subpart-I/section-3560.406>). A checklist and other information have been developed and are available by: (1) going to the MFH website at <https://www.rd.usda.gov/programs-services/multifamily-housing-programs/multifamily-housing-direct-loans> (click on the To Apply tab), (2) contacting the assigned servicing specialist, which can be found at USDA Service Center Agencies Online Services; or (3) refer to the **FOR FURTHER INFORMATION CONTACT** section in this Notice.

Transfer Processing Steps

A property owner should contact the assigned Field Operations Division (FOD) servicing specialist if interested in a transfer under the pilot program. The servicing specialist will take lead in intake of the information and in partnership with AMD and lead the concept call with the applicant. After the conversation with the applicant, the package will either be transferred to AMD for processing, or the servicing specialist will notify the applicant in writing of the decision to not proceed with the simple transfer process and the reasons.

Paperwork Reduction Act

The regulatory waivers for this pilot contain no new reporting or recordkeeping burdens under OMB control number 0575-0179 that would require approval under the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Non-Discrimination Statement

In accordance with Federal civil rights laws and USDA civil rights regulations and policies, the USDA, its Mission Areas, agencies, staff offices,

employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication to obtain program information (e.g., Braille, large print, audiotope, American Sign Language) should contact the responsible Mission Area, agency, staff office; or the 711 Relay Service.

To file a program discrimination complaint, a complainant should complete a Form AD-3027, *USDA Program Discrimination Complaint Form*, which can be obtained online at <https://www.usda.gov/sites/default/files/documents/ad-3027.pdf>, from any USDA office, by calling (866) 632-9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD-3027 form or letter must be submitted to USDA by:

(1) *Mail*: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue SW, Washington, DC 20250-9410; or

(2) *Fax*: (833) 256-1665 or (202) 690-7442; or

(3) *Email*: Program.Intake@usda.gov.

Joaquin Altoro,

Administrator, Rural Housing Service.

[FR Doc. 2024-28299 Filed 12-5-24; 8:45 am]

BILLING CODE 3410-XV-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. FAA-2024-2546; Project Identifier AD-2024-00574-A; Amendment 39-22902; AD 2024-24-11]

RIN 2120-AA64

Airworthiness Directives; Cirrus Design Corporation Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: The FAA is adopting a new airworthiness directive (AD) for certain Cirrus Design Corporation (Cirrus) Model SR20, SR22, and SR22T airplanes. This AD was prompted by a report of failure of the upper power lever. This AD requires repetitively inspecting (visual) the upper power lever for any crack(s) and depending on the results of any visual inspection, either inspecting (fluorescent penetrant) or replacing the upper power lever. This AD also requires reporting all inspection results to the FAA. The FAA is issuing this AD to address the unsafe condition on these products.

DATES: This AD is effective December 23, 2024.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of December 23, 2024.

The FAA must receive comments on this AD by January 21, 2025.

ADDRESSES: You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:

- *Federal eRulemaking Portal*: Go to [regulations.gov](https://www.regulations.gov). Follow the instructions for submitting comments.

- *Fax*: (202) 493-2251.

- *Mail*: U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590.

- *Hand Delivery*: Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

AD Docket: You may examine the AD docket at [regulations.gov](https://www.regulations.gov) under Docket No. FAA-2024-2546; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this final rule, any comments received, and other information. The street address for Docket Operations is listed above.

Material Incorporated by Reference:

- For Cirrus material identified in this AD, contact Cirrus Design Corporation, 4515 Taylor Circle, Duluth, MN 55811; phone: (218) 788-3000; fax: (218) 788-3525; email: fieldservice@cirrusaircraft.com; website: [cirrusaircraft.com](https://www.cirrusaircraft.com).

- You may view this material at the FAA, Airworthiness Products Section, Operational Safety Branch, 901 Locust, Kansas City, MO 64106. For information on the availability of this material at the FAA, call (817) 222-5110. It is also available at [regulations.gov](https://www.regulations.gov) under Docket No. FAA-2024-2546.

FOR FURTHER INFORMATION CONTACT:

Gregory Koenig, Aviation Safety Engineer, FAA, 1801 S Airport Road, Wichita, KS 67209; phone: (847) 294-7127; email: gregory.l.koenig@faa.gov.

SUPPLEMENTARY INFORMATION:

Comments Invited

The FAA invites you to send any written data, views, or arguments about this final rule. Send your comments to an address listed under the **ADDRESSES** section. Include "Docket No. FAA-2024-2546; Project Identifier AD-2024-00574-A" at the beginning of your comments. The most helpful comments reference a specific portion of the final rule, explain the reason for any recommended change, and include supporting data. The FAA will consider all comments received by the closing date and may amend this final rule because of those comments.

Except for Confidential Business Information (CBI) as described in the following paragraph, and other information as described in 14 CFR 11.35, the FAA will post all comments received, without change, to [regulations.gov](https://www.regulations.gov), including any personal information you provide. The agency will also post a report summarizing each substantive verbal contact received about this final rule.

Confidential Business Information

CBI is commercial or financial information that is both customarily and actually treated as private by its owner. Under the Freedom of Information Act (FOIA) (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to this AD contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to this AD, it is important that you clearly designate the submitted comments as CBI. Please mark each page of your submission containing CBI as "PROPIN." The FAA will treat such marked submissions as

confidential under the FOIA, and they will not be placed in the public docket of this AD. Submissions containing CBI should be sent to Gregory Koenig, Aviation Safety Engineer, FAA, 1801 S Airport Road, Wichita, KS 67209. Any commentary that the FAA receives which is not specifically designated as CBI will be placed in the public docket for this rulemaking.

Background

The FAA is issuing this AD to correct an unsafe condition on certain Cirrus Model SR20, SR22, and SR22T airplanes. The FAA received a report that a Cirrus Model SR20 airplane was involved in an incident where the upper power lever failed while advancing to full throttle in preparation for takeoff. The flight was successfully aborted by cutting fuel to the airplane. After the incident, an additional 26 upper power levers have been reported to have cracks. The available data indicates that the probability of visual inspection methods to detect cracks in the upper power levers are inadequate, and therefore a fluorescent penetrant inspection (FPI) is also necessary if cracks are not detected during the visual inspection. These cracks have only been discovered on upper power levers that include a takeoff/go-around switch. This condition, if not addressed, could result in loss of engine thrust control and reduced control of the airplane. The FAA is issuing this AD to address the unsafe condition on these products.

FAA's Determination

The FAA is issuing this AD because the agency determined the unsafe condition described previously is likely to exist or develop in other products of the same type design.

Material Incorporated by Reference Under 1 CFR Part 51

The FAA reviewed Cirrus SR2X Service Bulletin SB2X-76-05, dated October 29, 2024 (Cirrus SB2X-76-05). This material specifies procedures for inspecting the upper power lever and replacement of the upper power lever if cracks are found. This material is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in the ADDRESSES section.

AD Requirements

This AD requires accomplishing the actions specified in the material described previously, except as discussed under "Differences Between this AD and the Referenced Material."

This AD also requires sending all inspection results to the FAA.

Differences Between This AD and the Referenced Material

The effectivity in Cirrus SB2X-76-05 specifies certain airplane serial numbers through 9749, but this AD is applicable to Model SR20, SR22, and SR22T airplanes, certificated in any category, that are equipped with upper power lever part number (P/N) 19181-001, 19181-002, or 46505-001.

Cirrus SB2X-76-05 specifies that the compliance time is within 10 flight hours for airplanes with 2,000 flight hours or more, but this AD has a compliance time of before an upper power lever accumulates 1,200 hours time-in-service (TIS), within 10 hours TIS on the upper power lever after the effective date of this AD, or within 15 days after the effective date of this AD, whichever occurs later. This compliance time was developed based on data received from the 27 reported incidents, which indicated that an incident occurred as low as 2,948 hours TIS and that this unsafe condition could occur on airplanes with 1,200 hours TIS accumulated on the upper power lever. Based on this incident data, coupled with the fact that a large number of airplanes are either approaching or over 1,200 hours TIS and the propagation rate for this unsafe condition is unknown, the FAA's risk assessment was that the accumulation of 2,000 flight hours or more would not adequately mitigate the unsafe condition.

Cirrus SB2X-76-05 includes an action to revise the aircraft maintenance manual (AMM) by including a temporary revision that specifies repetitive inspections every 2,000 hours TIS, but this AD does not require this AMM revision. Instead, this AD requires repetitive inspections at intervals not to exceed 110 hours TIS. While Cirrus specifies a repetitive inspection every 2,000 hours TIS, the FAA is requiring a repetitive inspection at a frequency that considers the potential development and propagation of these cracks beyond 1,200 hours TIS.

Cirrus SB2X-76-05 does not specify reporting inspection results and this AD requires reporting inspection results to the FAA.

Cirrus SB2X-76-05 specifies to return cracked (damaged) upper power levers to Cirrus, but this AD does not require this action. This AD, instead, requires removing any cracked (damaged) upper power lever from service.

Replacing the upper power lever with P/N 19181-001, 19181-002, or 46505-001 does not terminate the requirements

of this AD. The inspection would be required before any affected upper power lever accumulates 1,200 hours TIS.

Interim Action

The FAA considers this AD to be an interim action. The manufacturer is currently developing a terminating action that will address the unsafe condition identified in this AD. Once the modification is developed, approved, and available, the FAA might consider additional rulemaking.

Justification for Immediate Adoption and Determination of the Effective Date

Section 553(b) of the Administrative Procedure Act (APA) (5 U.S.C. 551 *et seq.*) authorizes agencies to dispense with notice and comment procedures for rules when the agency, for "good cause," finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under this section, an agency, upon finding good cause, may issue a final rule without providing notice and seeking comment prior to issuance. Further, section 553(d) of the APA authorizes agencies to make rules effective in less than thirty days, upon a finding of good cause.

An unsafe condition exists that requires the immediate adoption of this AD without providing an opportunity for public comments prior to adoption. The FAA has found that the risk to the flying public justifies forgoing notice and comment prior to adoption of this rule because cracking in the upper power lever leads to failure of the upper power lever, which could result in loss of engine thrust control and reduced control of the airplane. The FAA's initial analysis based on crack data from the reported incidents shows that this condition could occur on airplanes with 1,200 hours TIS accumulated on the upper power lever. Since a large percentage of the Cirrus Model SR20, SR22, and SR22T airplanes have exceeded or are approaching 1,200 hours TIS and because the propagation rate for this unsafe condition is unknown, an inspection of the upper power lever is required within 10 hours TIS or 15 days after the effective date of this AD, whichever occurs later, for airplanes before accumulating 1,200 hours TIS to detect cracks in the upper power lever. These compliance times are shorter than the time necessary for the public to comment and for publication of the final rule. Accordingly, notice and opportunity for prior public comment are unnecessary, pursuant to 5 U.S.C. 553(b).

In addition, for the foregoing reason(s), the FAA finds that good cause

exists pursuant to 5 U.S.C. 553(d) for making this amendment effective in less than 30 days.

Regulatory Flexibility Act

The requirements of the Regulatory Flexibility Act (RFA) do not apply when

an agency finds good cause pursuant to 5 U.S.C. 553 to adopt a rule without prior notice and comment. Because FAA has determined that it has good cause to adopt this rule without prior notice and comment, RFA analysis is not required.

Costs of Compliance

The FAA estimates that this AD affects 6,811 airplanes of U.S. registry.

The FAA estimates the following costs to comply with this AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Perform visual inspection	2 work-hours × \$85 per hour = \$170 per inspection.	\$0	\$170 per inspection	\$1,157,870 per inspection.
Report inspection results	1 work-hour × \$85 per hour = \$85 per inspection.	0	\$85 per inspection	\$578,935 per inspection.

The FAA estimates the following costs to do any necessary replacements that would be required based on the

results of the inspection. The agency has no way of determining the number of

airplanes that might need this replacement:

ON-CONDITION COSTS

Action	Labor cost	Parts cost	Cost per product
Perform FPI	2 work-hours × \$85 per hour = \$170 per inspection ...	\$0	\$170
Replace upper power lever	1 work-hour × \$85 per hour = \$85	50	135

The FAA has included all known costs in its cost estimate. According to the manufacturer, however, some of the costs of this AD may be covered under warranty, thereby reducing the cost impact on affected operators.

Paperwork Reduction Act

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB Control Number. The OMB Control Number for this information collection is 2120–0056. Public reporting for this collection of information is estimated to be approximately 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. All responses to this collection of information are mandatory. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Information Collection Clearance Officer, Federal Aviation Administration, 10101 Hillwood Parkway, Fort Worth, TX 76177–1524.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs describes in more detail the scope of the Agency's authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: General requirements. Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

This AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

(1) Is not a “significant regulatory action” under Executive Order 12866, and

(2) Will not affect intrastate aviation in Alaska.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA amends 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive:

2024–24–11 Cirrus Design Corporation:

Amendment 39–22902; Docket No. FAA–2024–2546; Project Identifier AD–2024–00574–A.

(a) Effective Date

This airworthiness directive (AD) is effective December 23, 2024.

(b) Affected ADs

None.

(c) Applicability

This AD applies to Cirrus Design Corporation Model SR20, SR22, and SR22T airplanes, certificated in any category, that are equipped with upper power lever part number (P/N) 19181-001, 19181-002, or 46505-001.

(d) Subject

Joint Aircraft System Component (JASC) Code 7603, Power Lever.

(e) Unsafe Condition

This AD was prompted by a report of failure of the upper power lever. The FAA is issuing this AD to detect and address cracks in the upper power lever. The unsafe condition, if not addressed, could result in loss of engine thrust control and reduced control of the airplane.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Required Actions

(1) Initially, at whichever time occurs latest in paragraphs (g)(1)(i) through (iii) of this AD and thereafter at intervals not to exceed 110 hours time-in-service (TIS), visually inspect the upper power lever in accordance with paragraphs A. through F. of the Accomplishment Instructions in Cirrus SR2X Service Bulletin SB2X-76-05, dated October 29, 2024 (Cirrus SB2X-76-05).

(i) Before any upper power lever identified in paragraph (c) of this AD accumulates 1,200 hours TIS,

Note 1 to paragraph (g)(1)(i): These parts are not serialized. If by checking the logbook, you cannot determine how many hours the upper power lever has since installation, then you may use the hours TIS of the airplane.

(ii) Within 10 hours TIS on the upper power lever after the effective date of this AD; or

(iii) Within 15 days after the effective date of this AD.

(2) If any crack(s) are found during any inspection required by paragraph (g)(1) of this AD, before further flight, replace the upper power lever with a new (zero hours TIS) upper power lever and do the actions in accordance with paragraphs L. through N. of the Accomplishment Instructions in Cirrus SB2X-76-05, as applicable.

(3) If no crack(s) are found during any inspection required by (g)(1) of this AD, before further flight, perform a fluorescent penetrant inspection in accordance with paragraphs G. through J. of the Accomplishment Instructions in Cirrus SB2X-76-05.

(i) If any crack(s) are found during any inspection required by paragraph (g)(3) of this AD, before further flight, replace the upper power lever with a new (zero hours TIS) upper power lever and do the actions in accordance with paragraphs L. through N. of the Accomplishment Instructions in Cirrus SB2X-76-05, as applicable.

(ii) If no crack(s) are found during any inspection required by paragraph (g)(3) of this AD, reinstall the existing upper power

lever and do the actions in accordance with paragraphs L. through N. of the Accomplishment Instructions in Cirrus SB2X-76-05, as applicable.

(4) Cirrus SB2X-76-05 specifies to return cracked (damaged) upper power levers to Cirrus, this AD does not require that action but requires removing any cracked (damaged) upper power lever from service.

(h) Reporting Requirement

Within 5 days after the inspections required by paragraphs (g)(1) and (3) of this AD or within 5 days after the effective date of this AD, whichever occurs later, report all inspection results to the FAA at the address specified in paragraph (j) of this AD. The report must include the airplane registration and serial number, results of each inspection, the airplane's hours TIS, and any additional operator/mechanic comments.

(i) Alternative Methods of Compliance (AMOCs)

The Manager, Central Certification Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the Central Certification Branch, send it to the attention of the person identified in paragraph (j) of this AD. Information may be emailed to: AMOC@faa.gov. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(j) Additional Information

For more information about this AD, contact Gregory Koenig, Aviation Safety Engineer, FAA, 1801 S Airport Road, Wichita, KS 67209; phone: (847) 294-7127; email: gregory.l.koenig@faa.gov.

(k) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the material listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this material as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(i) Cirrus SR2X Service Bulletin SB2X-76-05, dated October 29, 2024.

(ii) [Reserved]

(3) For Cirrus material identified in this AD, contact Cirrus Design Corporation, 4515 Taylor Circle, Duluth, MN 55811; phone: (218) 788-3000; fax: (218) 788-3525; email: fieldservice@cirrusaircraft.com; website: cirrusaircraft.com.

(4) You may view this material at the FAA, Airworthiness Products Section, Operational Safety Branch, 901 Locust, Kansas City, MO 64106. For information on the availability of this material at the FAA, call (817) 222-5110.

(5) You may view this material at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, visit www.archives.gov/federal-register/cfr/ibr-locations or email fr.inspection@nara.gov.

Issued on November 27, 2024.

Steven W. Thompson,

Acting Deputy Director, Compliance & Airworthiness Division, Aircraft Certification Service.

[Docket No. FAA-2024-1396; Airspace Docket No. 24-AEA-3]

RIN 2120-AA66

Amendment of VOR Federal Airways V-258, V-519, and RNAV Route T-426; and Revocation of Jet Routes J-213 and J-526, and VOR Federal Airway V-59 in the Vicinity of Beckley, WV

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Very High Frequency Omnidirectional Range (VOR) Federal Airways V-519 and Area Navigation (RNAV) Route T-426; and revokes Jet Routes J-213 and J-526, and VOR Federal Airways V-59 and V-258. The FAA is taking this action due to the planned decommissioning of the VOR portion of the Beckley, WV (BKW), VOR/Distance Measuring Equipment (VOR/DME) navigational aid (NAVAID). The Beckley VOR is being decommissioned in support of the FAA's VOR Minimum Operational Network (MON) program.

DATES: Effective date 0901 UTC, February 20, 2025. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: A copy of the Notice of Proposed Rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at www.regulations.gov using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours each day, 365 days each year.

FAA Order JO 7400.11J, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies the National Airspace System as necessary to preserve the safe and efficient flow of air traffic.

History

The FAA published a notice of proposed rulemaking for Docket No. FAA-2024-1396 in the **Federal Register** (89 FR 42824; May 16, 2024), proposing to amend VOR Federal Airways V-258 and V-519, and RNAV Route T-426; and revoke Jet Routes J-213 and J-526, and VOR Federal Airway V-59. The FAA proposed this action due to the planned decommissioning of the VOR portion of the Beckley, WV, VOR/DME NAVAID. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal. No comments were received.

Differences From the NPRM

Subsequent to the NPRM, the FAA published a final rule for Docket No. FAA-2023-2314 in the **Federal Register** (89 FR 52357; June 24, 2024), amending VOR Federal Airway V-258 by removing the airway segment between the Roanoke, VA, VOR/DME and the Danville, VA, VOR. That airway amendment, effective September 5, 2024, is included in this rule.

Incorporation by Reference

Jet Routes are published in paragraph 2004, VOR Federal Airways are published in paragraph 6010(a), and United States Area Navigation Routes are published in paragraph 6011 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This

document amends the current version of that order, FAA Order JO 7400.11J, dated July 31, 2024, and effective September 15, 2024. FAA Order JO 7400.11J is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next update to FAA Order JO 7400.11.

FAA Order JO 7400.11J lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends 14 CFR part 71 by amending VOR Federal Airway V-519 and RNAV Route T-426; and revoking Jet Routes J-213 and J-526, and VOR Federal Airways V-59 and V-258 due to the planned decommissioning of the VOR portion of the Beckley, WV, VOR/DME NAVAID. The Air Traffic Service route actions are described below.

J-213: Prior to this final rule, J-213 extended between the Armel, VA, VOR/DME and the Beckley, WV, VOR/DME. The route is removed in its entirety.

J-526: Prior to this final rule, J-526 extended between the Beckley, WV, VOR/DME and the Louisville, KY, VOR/Tactical Air Navigation (VORTAC). The route is removed in its entirety.

V-59: Prior to this final rule, V-59 extended between the Pulaski, VA, VORTAC and the Parkersburg, WV, VOR/DME. The airway is removed in its entirety.

V-258: Prior to this final rule, V-258 extended between the Charleston, WV, VOR/DME and the Roanoke, VA, VOR/DME due to the final rule for Docket No. FAA-2023-2314 that published previously in the **Federal Register** (89 FR 52357; June 24, 2024). This action removes the airway segment between the Charleston VOR/DME and the Roanoke VOR/DME, resulting in the airway being removed in its entirety.

V-519: Prior to this final rule, V-519 extended between the Volunteer, TN, VORTAC and the Beckley, WV, VOR/DME. The airway segment between the Bluefield, WV, VOR/DME and the Beckley VOR/DME is removed. As amended, the airway is changed to now extend between the Volunteer VORTAC and the Bluefield VOR/DME.

T-426: Prior to this final rule, T-426 extended between the DANCO, WV, WP and the MCDON, VA, WP. The route is extended northward from the DANCO WP to the Parkersburg, WV, VOR/DME. As amended, T-426 is changed and now extends between the Parkersburg VOR/DME and the MCDON WP. The full T-426 route description is listed in the regulatory text of this final rule.

The NAVAID radials listed in the VOR Federal Airway V-519 description

in the regulatory text of this final rule are unchanged and stated in degrees True north.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action amending VOR Federal Airway V-519 and RNAV Route T-426; and revoking Jet Routes J-213 and J-526, and VOR Federal Airways V-59 and V-258, due to the planned decommissioning of the VOR portion of the Beckley, WV, VOR/DME NAVAID, qualifies for categorical exclusion under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) and its implementing regulations at 40 CFR part 1500, and in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 5-6.5a, which categorically excludes from further environmental impact review rulemaking actions that designate or modify classes of airspace areas, airways, routes, and reporting points (see 14 CFR part 71, Designation of Class A, B, C, D, and E Airspace Areas; Air Traffic Service Routes; and Reporting Points); and paragraph 5-6.5i, which categorically excludes from further environmental impact review the establishment of new or revised air traffic control procedures conducted at 3,000 feet or more above ground level (AGL); procedures conducted below 3,000 feet AGL that do not cause traffic to be routinely routed over noise sensitive areas; modifications to currently approved procedures conducted below 3,000 feet AGL that do not significantly increase noise over noise sensitive areas; and increases in minimum altitudes and landing minima. As such, this action is not expected to result in any potentially significant environmental impacts. In

accordance with FAA Order 1050.1F, paragraph 5–2 regarding Extraordinary Circumstances, the FAA has reviewed this action for factors and circumstances in which a normally categorically excluded action may have a significant environmental impact requiring further analysis. The FAA has determined that no extraordinary circumstances exist that warrant preparation of an environmental assessment or environmental impact study.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

T–426 Parkersburg, WV (JPU) to MCDON, VA [Amended]

Parkersburg, WV (JPU)	VOR/DME	(Lat. 39°26′28.25″ N, long. 081°22′29.14″ W)

authority of the FAA Administrator.
Subtitle VII, Aviation Programs,
describes in more detail the scope of the
agency’s authority. This rulemaking is
promulgated under the authority
described in Subtitle VII, Part A,
Subpart I, Section 40103. Under that
section, the FAA is charged with
prescribing regulations to assign the use
of the airspace necessary to ensure the
safety of aircraft and the efficient use of
airspace. This regulation is within the
scope of that authority as it modifies the
Air Traffic Service (ATS) route structure
as necessary to preserve the safe and
efficient flow of air traffic within the
National Airspace System.

History

The FAA published a NPRM for
Docket No. FAA 2024–1934 in the
Federal Register (89 FR 59862; July 24,
2024), proposing to amend Q–8 and
revoke Q–18 in Alaska. Interested
parties were invited to participate in
this rulemaking effort by submitting
written comments on the proposal to the
FAA. No comments were received.

Differences From the NPRM

The NPRM published for Docket No.
FAA–2024–1934 in the **Federal Register**
(89 FR 59862; July 24, 2024) listed the
route points for Q8 in the incorrect
order in the regulatory text.
Additionally, the route point
coordinates in the regulatory text for Q–

8 did not list the coordinates to the nearest 100th degree as required. This rule corrects these errors.

Incorporation by Reference

United States Area Navigation Routes are published in paragraph 2006 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11J, dated July 31, 2024, and effective September 15, 2024. FAA Order JO 7400.11J is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next update to FAA Order JO 7400.11.

FAA Order JO 7400.11J lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

The FAA is amending 14 CFR part 71 by amending RNAV Route Q–8 and revoking RNAV Route Q–18 in Alaska.

Q–8: This action amends RNAV Route Q–8 by extending it to overlie the track of Q–18 that is being revoked by this action. As amended, Q–8 extends between the Barrow, AK, VOR/DME and the Anchorage, AK, VOR/DME.

Q–18: This action revokes Q–18 in its entirety.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under

Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this airspace action of amending Q–8 and revoking Q–18 in Alaska qualifies for categorical exclusion under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) and its implementing regulations at 40 CFR part 1500, and in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 5–6.5a, which categorically excludes from further environmental impact review rulemaking actions that designate or modify classes of airspace areas, airways, routes, and reporting points (see 14 CFR part 71, Designation of Class A, B, C, D, and E Airspace Areas; Air Traffic Service Routes; and Reporting Points), and paragraph 5–6.5k, which categorically excludes from further environmental review the publication of existing air traffic control procedures that do not essentially change existing tracks, create new tracks, change altitude, or change concentration of aircraft on these tracks. As such, this action is not expected to result in any potentially significant environmental impacts. In accordance

with FAA Order 1050.1F, paragraph 5–2 regarding Extraordinary Circumstances, the FAA has reviewed this action for factors and circumstances in which a normally categorically excluded action may have a significant environmental impact requiring further analysis. Accordingly, the FAA has determined that no extraordinary circumstances exist that warrant preparation of an environmental assessment or environmental impact study.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11J, Airspace Designations and Reporting Points, dated July 31, 2024, and effective September 15, 2024, is amended as follows:

Paragraph 2006 United States Area Navigation Routes.

* * * * *

Q–8 Anchorage, AK (TED) to Barrow, AK (BRW) [Amended]

Barrow, AK (BRW)	VOR/DME	(Lat. 71°16′24.33″ N, long. 156°47′17.22″ W)
Galena, AK (GAL)	VOR/DME	(Lat. 64°44′17.26″ N, long. 156°46′37.69″ W)

[Docket No. FAA–2024–2525; Airspace
Docket No. 24–AEA–13]

RIN 2120–AA66

**Amendment of United States Area
Navigation (RNAV) Routes Q–117 and
Q–135; Eastern United States**

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends United States Area Navigation (RNAV) Routes Q–117 and Q–135 by changing the name of the “CUDLE”, NC, waypoint (WP) to “RREGG”. The FAA is taking this action due to a similarly pronounced and sounding route point (KALDA, VA) located 186 nautical miles (NM) northeast of the CUDLE WP. This action is an administrative change and does not affect the airspace boundaries or operating requirements.

DATES: Effective date 0901 UTC, February 20, 2025. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: A copy of this final rule and all background material may be viewed online at www.regulations.gov using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours each day, 365 days each year.

FAA Order JO 7400.11J, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. FOR FURTHER INFORMATION CONTACT: Brian Vidis, Rules and Regulations Group, Policy Directorate, Federal Aviation Administration, 600 Independence Avenue SW, Washington, DC 20597; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs,

describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies the Air Traffic Service (ATS) route structure as necessary to preserve the safe and efficient flow of air traffic within the National Airspace System (NAS).

Background

The FAA identified a safety issue with similar sounding route point names, the CUDLE, NC, WP and the KALDA, VA, WP located 186 NM to the northeast of the CUDLE WP which contributes to communications errors resulting from the similar-sounding route point names in radio communications. To remedy this, the FAA is changing the name of the CUDLE, NC, WP to the RREGG, NC, WP in RNAV Routes Q–117 and Q–135.

Incorporation by Reference

United States Area Navigation routes (Q-routes) are published in paragraph 2006 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11J, dated July 31, 2024, and effective September 15, 2024. FAA Order JO 7400.11J is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next update to FAA Order JO 7400.11.

FAA Order JO 7400.11J lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends 14 CFR part 71 by changing the name of the “CUDLE”, NC, WP to “RREGG” in RNAV Route Q–117 and Q–135 to overcome the similar-sounding pronunciation of the CUDLE, NC, WP and the KALDA, VA, WP which contributes to communications errors resulting from the similar-sounding route point names in radio communications. The amendment is described below.

Q–117: Prior to this final rule, Q–117 extended between the PRONI, NC, WP and the SAWED, VA, WP. The FAA replaces the CUDLE, NC, WP with the RREGG, NC, WP at the same location. As amended, the route continues to

extend between the PRONI WP and the SAWED WP.

Q–135: Prior to this final rule, Q–135 extended between the JROSS, SC, WP and the CUDLE, NC, WP. The FAA replaces the CUDLE, NC, WP with the RREGG, NC, WP at the same location. As amended, the route is changed to extend between the JROSS WP and the RREGG WP.

This action is an administrative change and does not affect the airspace boundaries or operating requirements; therefore, notice and public procedure under 5 U.S.C. 553(b) is unnecessary.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this airspace action of amending RNAV Route Q–117 and Q–135 by changing the name of the “CUDLE”, NC, WP to “RREGG” qualifies for categorical exclusion under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) and its implementing regulations at 40 CFR part 1500, and in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 5–6.5a, which categorically excludes from further environmental impact review rulemaking actions that designate or modify classes of airspace areas, airways, routes, and reporting points (see 14 CFR part 71, Designation of Class A, B, C, D, and E Airspace Areas; Air Traffic Service Routes; and Reporting Points); and paragraph 5–6.5b, which categorically excludes from further environmental impact review “Actions regarding establishment of jet routes and Federal airways (see 14 CFR 71.15, *Designation of jet routes and VOR Federal airways*) . . .”. As such, this action is not expected to result in any potentially significant environmental

impacts. In accordance with FAA Order 1050.1F, paragraph 5–2 regarding Extraordinary Circumstances, the FAA has reviewed this action for factors and circumstances in which a normally categorically excluded action may have a significant environmental impact requiring further analysis. Accordingly, the FAA has determined that no extraordinary circumstances exist that warrant preparation of an environmental assessment or environmental impact statement.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Q-117 PRONI, NC to SAWED, VA [Amended]

PRONI, NC	WP	(Lat. 34°33′40.63″ N, long. 077°40′27.89″ W)
RREGG, NC	WP	(Lat. 35°08′19.48″ N, long. 077°32′36.22″ W)
KTEEE, NC	WP	(Lat. 35°54′55.66″ N, long. 076°57′30.45″ W)

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2024–1364; Airspace Docket No. 24–ACE–1]

RIN 2120–AA66

Amendment of VOR Federal Airways V–216 and V–380, and Revocation of VOR Federal Airways V–549 and V–551 in the Vicinity of Mankato, KS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Very High Frequency Omnidirectional Range (VOR) Federal Airway V–216 and revokes VOR Federal Airways V–549 and V–551. VOR Federal Airway V–380 was revoked by a separate airspace docket and is removed from this action. The FAA is taking this action due to the planned decommissioning of the VOR

portion of the Mankato, KS (TKO), VOR/Tactical Air Navigation (VORTAC) navigational aid (NAVAID). The Mankato VOR is being decommissioned in support of the FAA’s VOR Minimum Operational Network (MON) program.

DATES: Effective date 0901 UTC, February 20, 2025. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments. **ADDRESSES:** A copy of the Notice of Proposed Rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at www.regulations.gov using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours each day, 365 days each year.

FAA Order JO 7400.11J, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 600 Independence Avenue SW, Washington, DC 20597; telephone: (202) 267–8783.

Authority: 49 U.S.C. 106(f); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11J, Airspace Designations and Reporting Points, dated July 31, 2024, and effective September 15, 2024, is amended as follows:

Paragraph 2006 United States Area Navigation Routes.

* * * * *

Independence Avenue SW, Washington, DC 20597; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies the National Airspace System as necessary to preserve the safe and efficient flow of air traffic.

History

The FAA published a notice of proposed rulemaking for Docket No. FAA–2024–1364 in the **Federal Register** (89 FR 42828; May 16, 2024), proposing to amend VOR Federal Airways V–216 and V–380, and revoke VOR Federal Airways V–549 and V–551 due to the planned decommissioning of the VOR portion of the Mankato, KS, VORTAC

NAVAID. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal. No comments were received.

Differences From the NPRM

Subsequent to the NPRM, the FAA published a final rule for Docket No. FAA–2023–2483 in the **Federal Register** (89 FR 48504; June 7, 2024), amending VOR Federal Airway V–216 by removing the airway segment between the Lamoni VOR/Distance Measuring Equipment (VOR/DME) and the Iowa City, IA, VOR/DME. That airway amendment, effective September 5, 2024, is included in this rule.

Additionally, subsequent to the NPRM, the FAA published a final rule for Docket No. FAA–2023–2466 in the **Federal Register** (89 FR 48506; June 7, 2024), revoking VOR Federal Airway V–380 effective September 5, 2024. As a result, VOR Federal Airway V–380 is removed from this docket action.

Incorporation by Reference

VOR Federal Airways are published in paragraph 6010(a) of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11J, dated July 31, 2024, and effective September 15, 2024. FAA Order JO 7400.11J is publicly available as listed in the ADDRESSES section of this document. These amendments will be published in the next update to FAA Order JO 7400.11.

FAA Order JO 7400.11J lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends 14 CFR part 71 by amending VOR Federal Airway V–216 and revoking VOR Federal Airways V–549 and V–551. The FAA is taking this action due to the planned decommissioning of the VOR portion of the Mankato, KS, VORTAC. The airway actions are described below.

V–216: Prior to this final rule, V–216 extended between the Lamar, IA, VOR/DME and the Mankato, KS, VORTAC; and between the Iowa City, IA, VOR/DME and the Janesville, WI, VOR/DME. The airway segment between the Hill City, KS, VORTAC and the Mankato VORTAC is removed. As amended, the airway is changed to now extend between the Lamar VOR/DME and the Hill City VORTAC, and between the Iowa City VOR/DME and the Janesville VOR/DME.

V–549: Prior to the final rule, V–549 extended between the Hays, KS,

VORTAC and the Mankato, KS, VORTAC. The airway is removed in its entirety.

V–551: Prior to this final rule, V–551 extended between the Salina, KS, VORTAC and the Mankato, KS, VORTAC. The airway is removed in its entirety.

The NAVAID radials listed in the V–216 description in the regulatory text of this final rule are unchanged and stated in degrees True north.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action amending VOR Federal Airway V–216 and revoking VOR Federal Airways V–549 and V–551, due to the planned decommissioning of the VOR portion of the Mankato, KS, VORTAC NAVAID, qualifies for categorical exclusion under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) and its implementing regulations at 40 CFR part 1500, and in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 5–6.5a, which categorically excludes from further environmental impact review rulemaking actions that designate or modify classes of airspace areas, airways, routes, and reporting points (see 14 CFR part 71, Designation of Class A, B, C, D, and E Airspace Areas; Air Traffic Service Routes; and Reporting Points). As such, this action is not expected to result in any potentially significant environmental impacts. In accordance with FAA Order 1050.1F, paragraph 5–2 regarding Extraordinary Circumstances, the FAA has reviewed this action for factors and circumstances in which a normally categorically excluded action may have a significant environmental impact

requiring further analysis. The FAA has determined that no extraordinary circumstances exist that warrant preparation of an environmental assessment or environmental impact study.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11J, Airspace Designations and Reporting Points, dated July 31, 2024, and effective September 15, 2024, is amended as follows:

Paragraph 6010(a) Domestic VOR Federal Airways.

* * * * *

V–216 [Amended]

From Lamar, CO; to Hill City, KS. From Iowa City, IA; INT Iowa City 062° and Janesville, WI, 240° radials; to Janesville.

DEPARTMENT OF COMMERCE

15 CFR Part 791

[Docket No. 241112–0292]

RIN 0605–AA51

Securing the Information and Communications Technology and Services Supply Chain

AGENCY: U.S. Department of Commerce
ACTION: Final rule.

SUMMARY: On January 19, 2021, the Department of Commerce (Department) issued an interim final rule establishing procedures for its review of transactions involving information and communications technology and services (ICTS) designed, developed, manufactured, or supplied by persons owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary that may pose undue or unacceptable risk to the United States or U.S. persons. In the interim final rule, the Department solicited public comments and committed to promulgating a final rule. This final rule responds to public comments on the interim final rule and finalizes the practices guiding review of ICTS Transactions, amending and, in some cases, removing terms or concepts which experience has shown to be unnecessary, inefficient, or ineffective.

DATES: This rule is effective February 4, 2025.

ADDRESSES: Supporting documents:

SUPPLEMENTARY INFORMATION:

I. Background

A. Authority

In E.O. 13873, “Securing the Information and Communications Technology and Services Supply Chain,” the President delegated to the Secretary of Commerce (Secretary) pursuant to 3 U.S.C. 301, to the extent necessary to implement the order, the authority granted under the International Emergency Economic Powers Act (IEEPA) (50 U.S.C. 1701, *et seq.*), “to deal with any unusual and extraordinary” foreign threat to the United States’ national security, foreign policy, or economy, if the President declares a national emergency with respect to such threat. 50 U.S.C. 1701(a). In E.O. 13873, the President declared a national emergency with respect to the “unusual and extraordinary” foreign threat posed to the ICTS supply chain and has, in accordance with the National Emergencies Act (NEA) (50 U.S.C. 1601, *et seq.*), extended the declaration of this national emergency in each year since E.O. 13873’s publication. *See* 85 FR 29321 (May 14, 2020); 86 FR 26339 (May 13, 2021); 87 FR 29645 (May 13, 2022); 88 FR 30635 (May 11, 2023); 89 FR 40353 (May 9, 2024).

Specifically, the President identified the “unrestricted acquisition or use in the United States of [ICTS] designed, developed, manufactured, or supplied

by persons owned by, controlled by, or subject to the jurisdiction or direction of foreign adversaries” as “an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States” that “exists both in the case of individual acquisitions or uses of such technology or services, and when acquisitions or uses of such technologies are considered as a class.” E.O. 13873; *see also* 50 U.S.C. 1701(a) and (b).

Once the President declares a national emergency, IEEPA empowers the President to, among other acts, investigate, regulate, prevent, or prohibit, any “acquisition, holding, withholding, use, transfer, withdrawal, transportation, importation or exportation of, or dealing in, or exercising any right, power, or privilege with respect to, or transactions involving, any property in which any foreign country or a national thereof has any interest by any person, or with respect to any property, subject to the jurisdiction of the United States.” 50 U.S.C. 1702(a)(1)(B).

To address the identified risks to national security from ICTS transactions, the President in E.O. 13873 imposed a prohibition on transactions determined by the Secretary, in consultation with relevant agency heads, to involve foreign adversary ICTS and to pose certain risks to U.S. national security, technology, or critical infrastructure. Specifically, to fall within the scope of the prohibition, the Secretary, in consultation with relevant agency heads, must determine that any acquisition, importation, transfer, installation, dealing in, or use of any information and communications technology and services (an ICTS Transaction): (1) “involves [ICTS] designed, developed, manufactured, or supplied, by persons owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary,” defined in E.O. 13873 as “any foreign government or foreign non-government person engaged in a long-term pattern or serious instances of conduct significantly adverse to the national security of the United States or security and safety of United States persons;” and (2):

A. “poses an undue risk of sabotage to or subversion of the design, integrity, manufacturing, production, distribution, installation, operation, or maintenance of information and communications technology or services in the United States;”

B. “poses an undue risk of catastrophic effects on the security or resiliency of United States critical

infrastructure or the digital economy of the United States;" or

C. "otherwise poses an unacceptable risk to the national security of the United States or the security and safety of United States persons."

These factors are collectively referred to as "undue or unacceptable risks." Further, E.O. 13873 section 1(b) grants the Secretary the authority to design or negotiate mitigation measures that would allow an otherwise prohibited transaction to proceed.

B. ICTS Transaction Review Regulations

On November 27, 2019, the Department of Commerce (Department) published a proposed rule to implement the terms of E.O. 13873 (84 FR 65316). The proposed rule set forth processes for how: (1) the Secretary would evaluate and assess transactions involving ICTS with a nexus to foreign adversaries to determine whether they pose an undue risk of sabotage to or subversion of the ICTS supply chain, or an unacceptable risk to the national security of the United States or the security and safety of U.S. persons; (2) parties to transactions reviewed by the Secretary could comment on the Secretary's preliminary decisions; and (3) the Secretary would notify parties to transactions of the Secretary's decision regarding ICTS Transactions under review, including whether the Secretary would prohibit the transaction or mitigate the risks posed by the transaction. The proposed rule also provided that the Secretary could act without complying with the proposed procedures where required by national security. Finally, it provided that the Secretary would establish penalties for violations of mitigation agreements, the regulations, or E.O. 13873.

After receiving and reviewing comments to the proposed rule, on January 19, 2021, the Department published an interim final rule titled, "Securing the Information and Communications Technology and Services Supply Chain," (the interim final rule or the IFR; 86 FR 4909). The interim final rule responded to comments to the proposed rule, many of which requested greater specificity about what constitutes ICTS, an ICTS Transaction, or transactions that would be subject to the Department's review.

In response to these and other comments, the IFR defined "ICTS" as "any hardware, software, or other product or service, including cloud-computing services, primarily intended to fulfill or enable the function of information or data processing, storage, retrieval, or communication by electronic means (including

electromagnetic, magnetic, and photonic), including through transmission, storage, or display" (86 FR at 4923). The interim final rule further defined an "ICTS Transaction" as "any acquisition, importation, transfer, installation, dealing in, or use of any information and communications technology or service, including ongoing activities, such as managed services, data transmission, software updates, repairs, or the platforming or data hosting of applications for consumer download . . . [t]he term ICTS Transaction includes a class of ICTS Transactions."

On November 26, 2021, the Department published a notice of proposed rulemaking (NPRM) (86 FR 67379), titled "Securing the Information and Communications Technology and Services Supply Chain; Connected Software Applications," seeking comments on amendments to Part 7 incorporating provisions of E.O. 14034, titled "Protecting Americans' Sensitive Data From Foreign Adversaries" (86 FR 31423). On June 21, 2023, the Department published a final rule implementing E.O. 14034. That final rule incorporated the term "connected software applications" into the regulations at 15 CFR part 7 and added specific factors for the Department to consider when reviewing ICTS Transactions involving connected software applications (88 FR 39353). However, that final rule included only the changes to the regulations that were necessary to implement E.O. 14034 and within the scope of the November 26, 2021, NPRM on connected software applications. The June 21, 2023, final rule for connected software applications was more limited in scope than the January 19, 2021, interim final rule and did not fully respond to public comments on the interim final rule.

On July 18, 2024, the Department published a procedural rule entitled "Redesignation of Regulations for Securing the Information and Communications Technology and Services Supply Chain" (89 FR 58263) moving the regulations implementing E.O. 13873 and E.O. 14034 from 15 CFR part 7 to 15 CFR part 791. Consistent with the placement of the Office of Information and Communications Technology and Services (OICTS) within the Bureau of Industry and Security (BIS) on March 15, 2022, following the Consolidated Appropriations Act for Fiscal Year 2022, the action moved OICTS regulations from subtitle A in the CFR, which is generally reserved for Secretarial actions and Department-wide activities and operations, to chapter VII in title 15 of

the CFR, where BIS regulations are located. Specifically, this action removed the regulations in title 15, subtitle A, part 7 (under the "Office of the Secretary of Commerce"), reserving that part, and redesignated them as title 15, subtitle B, chapter VII, subchapter E part 791 (under the "Bureau of Industry and Security, Department of Commerce"). This procedural rule also established Subchapter E entitled "Information and Communications Technology and Services Regulations." This rule was of a purely procedural nature and did not and does not affect, impact, or alter any of the rules or regulations discussed herein other than moving their location in the CFR. The Department issued the procedural rule to bring the OICTS regulations into the same location in the CFR as the other BIS regulations. The redesignation is reflected in this final rule—any citation to 15 CFR part 7 in the interim final rule is now revised to 15 CFR part 791.

C. Overview of the January 2021 Interim Final Rule

Sections 7.1 through 7.3 of the interim final rule explained the overall purpose of the rule, defined terms used in the regulatory text, and specified the types of ICTS and users of ICTS about which the regulations are primarily concerned, such as those in critical and emerging technologies or critical infrastructure. Sections 7.100 through 7.109 provided procedures for the Department's review of ICTS Transactions to determine whether the transactions pose "undue" or "unacceptable" risks as those terms are specified in E.O. 13873. Under the procedures set forth in the IFR, the Department could accept a referral of an ICTS Transaction from another agency or could undertake a review of an ICTS Transaction *sua sponte* based on information it possesses or receives. If the Department determined that an ICTS Transaction posed an "undue" or "unacceptable" risk, the Department could, after consulting with the appropriate agency heads about the potential risks posed by the ICTS Transaction under review, issue an Initial Determination that identifies the risks generally and contains a proposal to prohibit, mitigate, or allow such ICTS Transaction.

The IFR also required that the Initial Determination be followed by a period during which a party to the transaction that is the subject of the Initial Determination could provide the Department with additional information to respond to the Initial Determination or seek to negotiate with the Department to allow the ICTS Transaction, with modifications. Following that period,

and upon reviewing any information provided by parties, and seeking consensus from the appropriate agencies to determine whether to prohibit, mitigate, or allow the ICTS Transaction under review, the Department would issue a Final Determination. Under the IFR, the Final Determination provided information supporting a finding that an ICTS Transaction does or does not pose an undue or unacceptable risk, and assessed any information provided by the party to the transaction under review. Under the IFR, the results of Final Determinations to prohibit an ICTS Transaction were printed in the **Federal Register** without any confidential business information, and they were also provided to the appropriate agency heads as well as the party or parties to the transaction that was the subject of the Final Determination.

Violating orders under IEEPA could result in civil penalties, criminal penalties, or both. Section 7.200 of the IFR captured the authorized penalties for violating a Final Determination order or requirement (in the case of mitigation or prohibition). The penalties could be administrative or criminal in nature, and § 7.200 set out both the standards for when civil or criminal penalties may apply to a violation, as well as the nature and value or duration of any punishment applied for violating a Final Determination order.

II. Overview of Changes Implemented in This Final Rule

After the benefit of two years of implementation experience, the Department is amending some of the provisions of the IFR to improve and make more efficient the ICTS Transaction review process as outlined in 15 CFR part 791. In addition, the Department received and has considered the comments to the IFR and responds to those comments in this final rule.

This final rule specifically adds new definitions and revises existing definitions in § 791.2; amends § 791.3 to remove the requirement that a party must collect sensitive personal data from more than one million U.S. persons to be included in the scope of certain aspects of the regulations, as well as to reorganize and clarify the software, hardware, and other products and services that may be considered for review; adds the Special Administrative Region of Macau as part of the People's Republic of China to the foreign adversary list in § 791.4; clarifies procedures to initiate a review set forth in § 791.103; amends for additional clarity the requirements to notify and

consult with appropriate agency heads regarding the Secretary's assessment in §§ 791.104 and 791.108; clarifies who are considered parties to an ICTS Transaction and will be notified of an Initial Determination in § 791.105; clarifies certain procedures for parties' responses to Initial Determinations in § 791.107; lists prohibited activities in § 791.200; and makes clarifying changes to other provisions.

Many of the changes in this final rule are non-substantive in nature. For example, the Department is adding a definition for "Covered ICTS Transaction" to clearly distinguish in the rule text between ICTS Transactions generally and ICTS Transactions that meet specific criteria in § 791.3. This change is meant to clarify for the public and parties to ICTS Transactions the process the Department will follow after determining a transaction is a Covered ICTS Transaction.

Although this is a final action, the Department will continue to review its procedures and may consider future rulemakings to further clarify aspects of these regulations, which would involve additional opportunity for stakeholder input.

III. Response to Comments and Discussion of Changes From the Interim Final Rule

During the public comment period for the IFR, which closed on March 22, 2021, the Department received 33 comment letters from a variety of sources, including members of industry, commercial trade groups, and private individuals. All comments received by the end of the comment period are available on the public rulemaking docket for the IFR (see **ADDRESSES** above). Many commenters were generally supportive of the Department's efforts to clarify the scope of the regulations, but commenters believed that the IFR did not completely resolve concerns stakeholders had expressed about the proposed rule. Additionally, commenters expressed concerns about multiple sections of the IFR, including: definitions; the scope of covered ICTS Transactions; foreign adversary determinations; and certain aspects of the Department's process to review ICTS Transactions. The Department has carefully considered all comments and addresses them below. The Department's discussion of comments on the IFR and changes implemented by this final rule are organized in numerical order by section of the rule and comments are addressed in the section to which they pertain. Comments that are either no longer relevant or that are outside the scope of

this final rule are summarized at the end of the discussion section below.

Section 791.2—Definitions

The majority of comments the Department received to the IFR requested that the Department develop, amend, or clarify various definitions to provide the public with further clarity about the Department's specific concerns regarding ICTS Transactions and classes of ICTS Transactions and about what the Department intends to regulate. Commenters stated that the definitions in the IFR, which largely were adopted directly from E.O. 13873 without change, were vague and overly broad. In particular, commenters indicated that the terms "dealing in," "person owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary," and "transfer," were not defined sufficiently to provide a reasonable understanding of which transactions are subject to prohibition or mitigation under the rule.

Commenters also noted that certain terms used within the definition of "ICTS Transaction" were undefined in the IFR. Commenters were concerned that the potential breadth of these terms could discourage U.S. and foreign entities from engaging in ICTS Transactions out of concern that any such transactions could be reviewed and prohibited. Other commenters expressed concerns that leaving undefined the term "ongoing activities" in the definition of ICTS Transactions might discourage beneficial activities such as software updates.

As described in detail below, although the Department does not believe it is necessary to provide new definitions for all the terms mentioned by commenters, the Department does agree that certain terms needed additional clarity and, accordingly, is revising and adding definitions for terms in § 791.2. The revised terms are: "party or parties to a transaction," "Secretary," "United States person," "person owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary," and "appropriate agency heads." The newly defined terms are: "covered ICTS transaction," "dealing in," and "importation." These include definitions for some of the terms that were used but not defined in the IFR's definition of ICTS Transactions, discussed below. The Department believes that its chosen changes address commenters' concerns and clarify the scope of the definitions in the rule, and does not believe it is necessary to provide definitions for the other terms, for reasons that are discussed below.

(1) Terms within the definition of “ICTS Transaction.”

The IFR defined an ICTS Transaction as any acquisition, importation, transfer, installation, dealing in, or use of any ICTS, including ongoing activities, such as managed services, data transmission, software updates, repairs, or the platforming or data hosting of applications for consumer download. The IFR also clarified that an ICTS Transaction includes any other transaction designed or intended to evade or circumvent the application of E.O. 13873 and that the term ICTS Transaction includes a class of ICTS Transactions.

This final rule continues to use the definition of “ICTS Transaction,” consistent with the IFR, but the Department has clarified this definition by further defining the terms “dealing in” and “importation” that appear within the definition of ICTS Transaction, as discussed below.

(2) New definition of “Dealing in” as used within the definition of “ICTS Transaction.”

To clarify the definition of “ICTS Transaction” this final rule defines “dealing in,” as the “activity of buying, selling, reselling, receiving, licensing, or acquiring ICTS, or otherwise doing or engaging in business involving the conveyance of ICTS.” This change responds to commenters’ concerns that “dealing in” is a vague term that could have broad implications for ICTS importers, by emphasizing the provision of ICTS to or into the United States through sales, resales, licensing, or acquisition, rather than other means. Some commenters suggested that the term “dealing in” could be defined as “engaging directly in a financial transaction for the offering, buying, selling, or trading of prohibited ICTS,” consistent with the Securities and Exchange Act of 1934. However, the Department has not adopted the Securities Exchange Act of 1934 definition of “dealing in” because that definition would focus on the financial transaction resulting in a purchase, sale, or trade of ICTS. Because there may be instances in which ICTS is provided as a technology transfer or as a free service, such as some tax services or antivirus detection services, that definition would not capture the full scope of ICTS Transactions of concern in E.O. 13873.

Therefore, the definition of “dealing in” in this final rule, which also includes “receiving,” “acquiring,” or “licensing” ICTS, provides more clarity while remaining sufficiently broad to encompass the many ways in which ICTS enters the United States.

(3) New definition of “Importation” as used within the definition of “ICTS Transaction.”

To further clarify the definition of “ICTS Transaction,” this final rule adds a definition for the term “importation” as “the process or activity of bringing foreign ICTS to or into the United States, regardless of the means of conveyance, including via electronic transmission.” This definition is consistent with U.S. import laws, *see, e.g.*, 21 U.S.C. 951, and the generally understood meaning of the term. This change will clarify that the Department interprets the term “importation” as used in E.O. 13873 and the defined term “ICTS Transaction” to encompass ICTS Transactions in which ICTS is brought to or into the United States and does not include exports, as some commenters had suggested.

The Department notes that, in the execution of its authorities, the Department may, in the context of specific technologies addressed in regulations under this part, further specify the particular meaning of “importation” with respect to those technologies. For example, the Department may tailor the scope of “importation” for a specific class of ICTS or a specific industry covered by a regulation under this part. In this final rule, the definition of “importation” applies broadly to any ICTS, including ICTS transmitted electronically, that is subject to the Department’s jurisdiction under E.O. 13873.

(4) Other terms used in the definition of “ICTS Transaction.”

Some commenters requested that the Department remove the term “use” from the definition of “ICTS Transaction” or define “use” as “employing ICTS for its intended purpose.” Other commenters requested that the term “use” in “ICTS Transaction” apply only to the delivery of goods or services to U.S. consumers and not to research, testing, or standards development. The Department declines to remove “use” from the definition of “ICTS Transaction” because “use” is included in the description of prohibited ICTS Transactions in section 1 of E.O. 13873. Moreover, this final rule does not define “use” as suggested by commenters because the Department believes such change would define the term in a way to narrow the term beyond its ordinary meaning. Moreover, the Department does not interpret commenters’ proposed limitations of the term “use” to be consistent with the objective of E.O. 13873. The Department does not intend to exclude certain uses or misuses of ICTS that present undue or unacceptable risks. Therefore, consistent with E.O. 13873, the

Department declines to define “use” to avoid limiting the types of transactions that could fall within the definition of “ICTS Transaction.”

Commenters also noted that the terms “acquisition,” “transfer,” “installation,” and “ongoing activities” were not defined in the IFR and could have multiple meanings, resulting in confusion if left undefined. Some of these commenters suggested that the Department either remove these terms from the definition of ICTS Transaction, further elaborate on their meaning, or define these terms in a way that would impact the scope of the regulations. The Department will not remove these terms from the definition of “ICTS Transaction,” as removing the terms would be inconsistent with how E.O. 13873 describes ICTS Transactions that could pose undue or unacceptable risk. The Department is also not defining these terms in this final rule. Similar to the Department’s decision not to define “use,” the Department’s interpretation of each of these terms is consistent with their ordinary meanings and their use in E.O. 13873. Defining these terms inconsistently with their ordinary meanings could add unnecessary complexity to the regulatory text. The Department believes that providing definitions for the terms “acquisition” and “installation,” in particular, is unnecessary. Many comments requesting these definitions focused on the scope of the rule and how the terms “acquisition” or “installation” could impact the parties that may be subject to a transaction review. In this final rule, the Department is addressing such concerns, to the extent consistent with E.O. 13873, by revising the definition for “party or parties to a transaction” and implementing changes in other sections that more directly address the parties that may be subject to an ICTS Transaction review.

(5) Revised definition of “Party or parties to a transaction.”

As previewed above, the Department is revising the definition of “party or parties to a transaction.” The IFR defined this term as a person engaged in an ICTS Transaction, including the person acquiring the ICTS and the person from whom the ICTS is acquired. Party or parties to a transaction include entities designed, or otherwise used with the intention, to evade or circumvent application of the Executive Order. The IFR definition excluded common carriers, except to the extent that a common carrier knew or should have known (as the term “knowledge” is defined in 15 CFR 772.1) that it was providing transportation services of ICTS to one or more of the parties to a

transaction that has been prohibited in a final written determination made by the Secretary or, if permitted subject to mitigation measures, in violation of such mitigation measures.

Commenters stated that the definition of this term in the IFR was unclear in part because it included many undefined terms. Commenters requested that the Department narrow the scope of the definition to exclude certain groups or industries, such as telecommunications carriers and transportation entities not engaged in the direct sale or purchase of ICTS.

The revised definition of “party or parties to a transaction” in this final rule is intended to clarify the types of activities in which a person would engage to be considered a party to a transaction. Specifically, this final rule amends the definition to provide that a party to a transaction is “a person or persons engaged in an ICTS Transaction or class of ICTS Transactions, including but not limited to the following: designer, developer, provider, buyer, purchaser, seller, transferor, licensor, broker, acquirer, intermediary (including consignee), and end user.” The new definition retains the existing exclusion for common carriers who operate without knowledge that they are providing transportation services of ICTS in connection with an ICTS Transaction that is prohibited or in violation of mitigation measures.

These changes are consistent with the reality that many of the risks related to ICTS Transactions result from the fact that the designer, developer, manufacturer, or supplier of the ICTS is owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary. This change also recognizes that, as described in the IFR and E.O. 13873, regardless of who receives the ICTS, it is possible that a single ICTS provider or class of ICTS designed, developed, manufactured, or supplied by a person owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary poses an undue or unacceptable risk to the United States or to U.S. persons. The change to the definition of “party or parties to a transaction,” in combination with changes to §§ 791.105 and 791.109 described below, is intended to better describe the parties the Department expects to identify in, and provide specific notice of, Initial and Final Determinations. These are the parties that have the greatest ability to control or address the risks identified in an Initial Determination, and therefore are the most appropriate parties for the Department’s focus.

Nevertheless, the Department is not precluded from notifying the public at large or a targeted group of consumers of an Initial Determination, though it expects to do so only when an ICTS Transaction or party or parties providing ICTS present a national security risk that the Department believes must be addressed immediately. Notably, these changes preserve parties’ ability to provide information to the Department about ICTS Transactions in which they engage.

(6) Definition of “Person owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary.”

The Department is making clarifying edits to the definition of “person owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary.” Many commenters requested that the Department revise or clarify the definition, or the terms within the definition, of “person owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary,” noting the potential breadth of entities covered by the definition.

Commenters specifically requested that the Department remove from the definition the language, “any corporation, partnership, association, or other organization organized under the laws of a nation-state controlled by a foreign adversary” because it could be construed to include U.S. companies’ non-U.S. subsidiaries or operations located in foreign adversary countries. Commenters believed such a reading could cover intra-company transactions, and they did not view such subsidiaries and operations as posing any risk to U.S. national security or to the safety and security of U.S. persons.

This final rule retains the concept that an entity organized under the laws of a country controlled by a foreign adversary may be a person who is “owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary.” The Department understands commenters’ concerns that U.S. companies’ subsidiaries or operations located in foreign adversary countries may be considered subject to the jurisdiction or direction of a foreign adversary merely because of their location. However, the Department notes that the location of a U.S. entity’s foreign subsidiary in the jurisdiction of a foreign adversary could pose a risk in some circumstances because the subsidiary might be required to comply with the rules, laws, or other requirements of that foreign adversary.

The Department believes that these commenters’ concerns are addressed by

the Department’s procedures that require that the Secretary assess whether an ICTS Transaction falls within the scope of § 791.3(a) and § 791.103 before issuing an Initial Determination in connection with a transaction review. If the requirements of § 791.3(a) are met, the Secretary then assesses whether the ICTS Transaction:

- Involves ICTS designed, developed, manufactured, or supplied, by persons owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary; and

- Poses an undue or unacceptable risk under § 791.103.

The Department emphasizes that a foreign subsidiary’s ICTS Transactions with its U.S. parent would be subject to further review only if those transactions present undue or unacceptable risks as identified in E.O. 13873 and under the criteria of § 791.103(c).

Other commenters expressed concern about the difficulty associated with determining whether a person is “directly or indirectly supervised, directed, controlled, financed, or subsidized in whole or in majority part by a foreign adversary.” Some questioned, for example, whether an ICTS Transaction by a U.S. citizen who resides in a foreign adversary country could be subject to review, or whether employing individual nationals of a foreign adversary country might make a U.S. company or its foreign subsidiaries “subject to the jurisdiction or direction of a foreign adversary.” These factors, commenters argued, could significantly impact the business models and outcomes for U.S. entities that conduct business in foreign adversary countries.

The Department is revising the definition to clarify that a U.S. citizen or permanent resident would not be considered a “person owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary” merely due to dual citizenship, or residency in a country controlled by a foreign adversary. Moreover, the Department will carefully review particular ICTS Transactions connected to “persons owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary” that may pose an undue or unacceptable risk as identified in E.O. 13873 to account for the unique operations and risks specific to foreign adversary activities. The Department notes that if the Secretary finds as part of the initial review of a potential ICTS Transaction that it does not involve “ICTS designed, developed, manufactured, or supplied by persons owned by, controlled by, or subject to the jurisdiction or direction of a foreign

adversary,” the transaction would no longer be under review. Therefore, absent other factors, mere participation in an ICTS Transaction by a U.S. person located in a foreign adversary or country controlled by a foreign adversary or by any individual national of a foreign adversary or country controlled by a foreign adversary would not be sufficient for the Secretary to continue a review because an ICTS Transaction must also pose an undue or unacceptable risk. For example, if a U.S. person uses a software application in a foreign adversary country, the ICTS Transaction would not necessarily be subject to review under the regulation if the software application was designed, developed, manufactured or supplied by a company that is not owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary. Additionally, even if the software application were developed by a company that is owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary, the Department would not continue its review of an ICTS Transaction if it determined that the transaction does not pose an undue or unacceptable risk to the United States or U.S. persons as described in E.O. 13873. However, if a U.S. person designed, developed, manufactured, or supplied a software application in collaboration with a foreign adversary-controlled entity and the Department found that the acquisition, importation, transfer, installation, dealing in, or use of the software application may pose an undue or unacceptable risk, ICTS Transactions involving that software application would be subject to review under these regulations.

Regarding commenters’ concern that a U.S. entity or foreign subsidiary of a U.S. entity might be considered “owned by, controlled by, or subject to the jurisdiction or direction of” a foreign adversary because it employs nationals of a foreign adversary country, the Department notes that, absent other indicia of ownership, control, or influence by a foreign adversary, solely employing nationals of a foreign adversary country would not independently trigger an ICTS Transaction review.

Several commenters noted that the IFR’s definition of “person owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary” was overbroad and did not meaningfully clarify which ICTS Transactions might be subject to review. Based on this feedback, the Department has revised the definition of “person owned by, controlled by, or subject to

the jurisdiction or direction of a foreign adversary” in this final rule to align with its original intent for the term’s meaning. Specifically, the Department makes three clarifying edits to the definition. First, as noted above, the definition now makes clear that an individual would not be considered controlled by or subject to the jurisdiction of a foreign adversary solely due to their status as a citizen or resident of a foreign adversary or a country controlled by a foreign adversary, if that individual is also a U.S. citizen or permanent resident. Second, the Department clarifies that an entity may be subject to the jurisdiction of a foreign adversary if it has a principal place of business in, is headquartered in, is incorporated in, or is otherwise organized under the laws of a foreign adversary or a country controlled by a foreign adversary. Third, the definition now specifies that a person may be owned or controlled by a foreign adversary if another person that is owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary possesses the direct or indirect power, whether or not exercised, through the ownership of a majority or a dominant minority of the total outstanding voting interest in an entity, board representation, proxy voting, a special share, contractual arrangements, formal or informal arrangements to act in concert, or other means, to determine, direct, or decide important matters affecting an entity. This change more directly reflects the Department’s intent that, for example, foreign subsidiaries of U.S. companies or U.S. subsidiaries of foreign companies may in some cases be considered owned or controlled by a foreign adversary.

These edits address public comments expressing that the IFR’s definition was confusing and unclear regarding the individuals or entities that might be “owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary.” The revisions also better align the definition with the type of persons that the Department would consider to be “owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary,” though the Department notes that a determination of the persons who meet this definition will be fact specific and made on a case-by-case basis.

(7) Definition of “Appropriate agency heads.”

The Department received no comments on the definition of “appropriate agency heads” in the interim final rule but is revising the term in this final rule to make it clear

that “appropriate agency heads” may refer to the designees of the agency heads listed in E.O. 13873. This addition is meant to clarify which officials may participate in the interagency notification and consultation processes described in §§ 791.104 and 791.108. This revision does not imply that agency heads must delegate any authority under E.O. 13873, but reflects current practice and will have no practical effect on the public or parties to an ICTS Transaction under review.

(8) Definition of “Covered ICTS Transaction.”

This final rule adds a definition for the new term “Covered ICTS Transaction,” which was not defined in the IFR. This rule employs this new term to distinguish between transactions involving ICTS generally and ICTS Transactions that meet the criteria set forth in § 791.3. The new term “Covered ICTS Transaction” does not implement any substantive changes from the interim final rule, but is intended to clarify when the regulatory text refers to an ICTS Transaction, generally, and an ICTS Transaction that meets the criteria described in § 791.3 of the rule. For additional discussion of comments about defining terms used in § 791.3, see the preamble section below related to *Section 791.3 Scope of Covered ICTS Transactions*.

(9) Definition of “Secretary.”

The Department is revising the definition of “Secretary” to identify the Under Secretary of Commerce for Industry and Security and the Executive Director of the Office of Information and Communications Technology and Services (OICTS) as designees to whom the Secretary may delegate authority under this final rule. Section 2(c) of E.O. 13873 permits the Secretary to redelegate within the Department the authority conferred on the Secretary pursuant to the E.O. Similar to the Department’s revision of the term “appropriate agency heads,” this change reflects current practice and is meant to clarify which officials within the Department might be designated by the Secretary to take actions described in the regulation. This revision also addresses a question from commenters about which office within the Department will be primarily responsible for carrying out activities outlined in this final rule.

(10) Definition of “United States person.”

This final rule adds “any person in the United States” to the definition of “United States person” to correct an inadvertent omission in the IFR. E.O. 13873 specifically defines the term

“United States person” to mean “any United States citizen, permanent resident alien, entity organized under the laws of the United States or any other jurisdiction within the United States (including foreign branches), or any person in the United States.” This addition does not change the Department’s practice, but it is intended to completely align the regulatory definition with the definition in E.O. 13873. Adding “or any person in the United States” ensures that persons who are not citizens or permanent resident aliens, but who are physically located in the United States, are considered “United States persons” as intended by E.O. 13873.

Section 791.3—Scope of Covered ICTS Transactions

The Department received many comments relating to the scope of the transactions covered by the interim final rule. Most of these commenters argued that the scope was too broad or not clearly defined, and commenters suggested that the rule could create burdens affecting technologies and ICTS Transactions that benefit the United States and chill routine and beneficial economic activity. Commenters also requested that the Department limit the scope of transactions covered by the rule to exclude activities already under review pursuant to existing regulations, and that the rule expand the existing exception for transactions reviewed by the Committee on Foreign Investment in the United States (CFIUS) to also include any ICTS Transaction by an individual or entity subject to a CFIUS mitigation agreement. Other commenters asked the Department to adopt a specific methodology for risk and threat analyses, and to review only those transactions with a “strong nexus” to the United States and that have the potential to have “significant” impacts on U.S. networks and infrastructure.

In this final rule, the Department declines to narrow the scope of transactions covered by the rule because it believes that the existing scope is appropriate and necessary to address undue or unacceptable risks as identified in E.O. 13873. E.O. 13873 describes the risk that certain ICTS Transactions could be used by malicious foreign actors to commit industrial or economic espionage, or that the unrestricted acquisition or use in the United States of ICTS with a foreign adversary nexus could be leveraged by foreign adversaries to find, create, and exploit vulnerabilities and undermine the resiliency of U.S. critical infrastructure or the safety and security of U.S. persons.

To protect U.S. ICTS supply chains from risks posed by malicious foreign actors’ ICTS, it is necessary that the scope of transactions covered by this final rule encompass critical and emerging technologies and industries throughout the ICTS supply chain. The risks posed by ICTS Transactions are not always correlated with the transaction’s scale and exist regardless of where or when the ICTS enters into the ICTS supply chain. The list of technologies in § 791.3 allows the Department to effectively address these risks by targeting different points of entry into the ICTS supply chain. The broad scope of § 791.3 gives the Department discretion to properly pinpoint and mitigate risks wherever they appear in the supply chain. The ICTS Transaction review process outlined in this final rule is consistent with the goals of E.O. 13873, while prioritizing the ICTS Transactions that pose the highest degree of undue or unacceptable risk, as identified in E.O. 13873, and minimizing the impact to digital and physical trade and commerce.

The Department notes that its reviews of transactions under the IFR have thus far been limited to the review of transactions involving all ICTS produced or provided by a single entity, rather than individual transactions between the entity and other parties, because the provision of ICTS by that entity was the basis of the undue or unacceptable risks. Therefore, the broad scope of the rule does not create undue burden but allows the Department to review ICTS Transactions to determine if an ICTS Transaction is in scope, pinpoint the source of the undue or unacceptable risk, and take action in the most efficient way to avoid tangential or unintended impacts on the U.S. economy or the ICTS supply chain.

In response to comments related to the CFIUS review exception, this final rule simplifies the language in § 791.3(b)(2) and consolidates the previous exception in § 791.3(b) and (c) of the IFR for CFIUS reviews, while preserving the safe harbor granted by CFIUS pursuant to its statute and regulations related to reviews of foreign investments into U.S. businesses and certain real estate transactions by foreign persons. ICTS Transaction reviews are limited to ICTS or classes of ICTS designed, developed, manufactured, or supplied by persons owned by, controlled by, or subject to the jurisdiction or direction of one of the listed foreign adversaries, and the review of ICTS Transactions focuses on the undue or unacceptable risk posed by those ICTS Transactions. These reviews

differ in scope from the focus on national security risk arising from certain transactions by foreign persons with or involving U.S. businesses or real estate under CFIUS. The revised provision in § 791.3(b)(2) clarifies that the Department will not review an ICTS Transaction that is also a covered transaction or covered real estate transaction under review, investigation, or assessment by CFIUS, or for which all action has concluded under section 721 of the Defense Production Act of 1950, as amended. This approach avoids duplicative reviews while eliminating potential gaps in mechanisms to review or address undue or unacceptable risks posed by transactions that are not or have not been in the CFIUS process. For the exception to apply, the ICTS Transaction must be the same transaction that CFIUS has determined is a covered transaction or covered real estate transaction under its authorities; a separate transaction, even if involving the same transaction parties subject to a CFIUS mitigation agreement, would not be subject to this exception. The mere fact that an individual or entity has participated in a CFIUS filing or is a party to a CFIUS mitigation agreement would not restrict the Secretary in reviewing any ICTS Transaction to which the individual or entity is party if the ICTS Transaction is distinct from the CFIUS transaction giving rise to a mitigation agreement. Otherwise, a foreign person that has obtained safe harbor for its investment into a U.S. company could then use that company to conduct or engage in malicious activities using ICTS Transactions that were not reviewed by CFIUS. Where CFIUS does not provide safe harbor with regard to the specific ICTS Transaction, the Department may review that ICTS Transaction for potential risks.

Several commenters requested that the Department implement additional exemptions or exclusions so that specific industries or technologies would not be subject to review under the rule. One commenter requested that arrangements for interconnection and the exchange of communications traffic (such as through fiberoptic cables) be exempted from the rule, while another noted that the rule should not be limited to any particular segment of the optical fiber communications industry. Other commenters sought exclusions in the rule for transactions involving information in the public domain, data transmission by telecommunication carriers on behalf of the general public, or technical research or standards development efforts. Others suggested

express safe harbor provisions for transportation companies like common carriers that merely transport ICTS, or safe harbors to create incentives to achieve ICTS supply chain security. Finally, several commenters requested clarification of the statement in the preamble of the IFR that ICTS Transactions solely involving personal hardware devices would not warrant particular scrutiny.

This final rule does not adopt any further exceptions or exclusions to the ICTS Transactions that would fall under § 791.3 of the rule. The Department notes that § 791.3 now refines the ICTS Transactions subject to further review by listing broad technology categories to indicate that the Department is concerned about ICTS Transactions involving information and communications hardware and software; ICTS integral to data hosting, computing or storage that uses, processes or retains sensitive personal data; connected software applications; ICTS integral to critical infrastructure; and ICTS integral to critical and emerging technologies. Section 791.3 is tailored to ensure that the regulations address risks posed by transactions involving the most critical elements and functions of ICTS. Therefore, the rule does not categorically exclude technologies, such as software operating on personal devices listed in E.O. 14034. In addition, the Department believes that the broad technology categories now included in § 791.3 address risks involving ICTS Transactions in the fiber communications and other industries by not implying that technologies that are not specifically listed as part of a category are excluded from possible review. The Department remains open to considering exclusions if further experience with the rule demonstrates that certain types of ICTS Transactions do not pose an undue or unacceptable risk as described in E.O. 13873 to national security, critical infrastructure, or U.S. persons.

Although this final rule does not implement suggestions to revise § 791.3 to exclude additional ICTS Transactions from the scope of transactions subject to review for prohibition or mitigation determinations, the Department has, in response to comments, simplified the list of technologies in § 791.3. In addition to improving clarity about the types of ICTS Transactions the Department may review, this final rule revises the list to focus on ICTS Transactions most likely to pose undue or unacceptable risks due to their foreign adversary nexus. The Department describes below additional

changes in § 791.3 affecting the scope of transactions subject to review for prohibition or mitigation, broken out to provide clarity on each change and its corresponding rationale.

(1) Removal of One Million Unit or Person Threshold

This final rule removes the qualification that ICTS Transactions that involve the use, processing, or retention of sensitive personal data must include the data of more than one million U.S. persons to be subject to review. Additionally, this final rule removes the one-million-unit sales minimum for internet-enabled sensors, webcams, or other end-point surveillance or monitoring devices; routers, modems, or any other home networking device; or drones or other unmanned aerial systems. This final rule also removes the qualification that software designed primarily for connecting with and communicating via the internet be in use by over one million people to be considered ICTS for the purposes of the rule. The Department did not receive many comments regarding these provisions, except to note that it is common for multinational companies to collect and retain data on more than one million individuals and to request an explanation of how the Department would calculate whether a transaction met the numeric threshold.

The Department is removing these thresholds in § 791.3 because the use of a threshold to review an ICTS Transaction is not necessary. The numerical threshold served as a proxy for “undue or unacceptable risk” under the rationale that only transactions involving a large number of sales or users would constitute a true national security risk. However, numerical thresholds do not necessarily correlate with the risks presented by ICTS Transactions involving sensitive personal data. It is possible, for example, that an ICTS Transaction that results in the storage, retention, or use of sensitive personal data of relatively few U.S. persons (such as persons with restricted access to sensitive governmental information) could result in significant risks to U.S. national security or to the safety and security of U.S. persons. Furthermore, as one commenter pointed out; there is nothing inherently riskier about collecting, storing, or retaining data on a specific number of people, or of a certain number of sales. Put another way, the risks presented by ICTS Transactions involving sensitive personal data relate to the type of data collected and the identity of persons from whom that data is collected, rather than the volume of

transactions. Moreover, the Secretary, with other appropriate agency heads, is separately tasked with evaluating the national security risk. That evaluation may include, as one factor, the number of sales or users.

Limiting review of transactions to only those that involve a certain number of users, units, or sales, would be contrary to the objective articulated in E.O. 13873 to reduce, remove, or minimize the risks posed by certain ICTS Transactions, as it would fail to address significant risks posed by ICTS Transactions that fall below the existing thresholds, especially where those ICTS Transactions involve sensitive personal data. Furthermore, such thresholds could result in strategic circumventive behavior by malicious foreign actors who might attempt to limit ICTS Transactions involving sensitive personal data or otherwise posing risks under a particular threshold so as to evade review. For these reasons, the Department is eliminating the thresholds referencing one million persons, units, or sales.

(2) Connected Software Applications

In addition to the changes noted above, the Department is consolidating the examples of software applications from what was § 791.3(a)(4)(v)(A) through (D) into revised § 791.3(a)(4)(iii) to clarify that desktop, mobile, gaming, and web-based applications are all non-exclusive examples of connected software applications that are subject to this final rule, so as to not suggest that those applications are distinct from connected software applications. This revision is consistent with E.O. 14034 but is not a substantive change from the interim final rule.

(3) Definitions of Terms Related to Covered ICTS Transactions

Several commenters requested that the Department clarify the meaning of certain phrases used in § 791.3. First, some commenters proposed that the Department define the phrase “any person subject to the jurisdiction of the United States” in § 791.3(a)(1) to have the same meaning as “United States person,” which they argued would clarify the status of foreign subsidiaries of U.S. companies. Alternatively, commenters suggested the term be defined to include only transactions in which the ICTS enters the United States or is used in the United States.

This final rule uses the phrase “person subject to the jurisdiction of the United States” in § 791.3(a)(1) because that is the phrase used in E.O. 13873. Specifically, section 1 of the E.O. describes the scope of conduct subject

to prohibition as transactions “by any person, or with respect to any property, subject to the jurisdiction of the United States.” Therefore, this final rule does not change the phrase “person subject to the jurisdiction of the United States” in § 791.3(a)(1), which is meant to reflect the language and the requirements of E.O. 13873, to remain consistent with the Department’s authorities under E.O. 13873.

Additionally, some commenters requested an explanation of the meaning of the term “integral” as it was used in § 791.3(a)(4)(ii), (iii), and (vi). However, like the IFR, this final rule uses “integral” in § 791.3 consistent with the word’s common meaning as something that is important or necessary for the operation of ICTS. The Department believes it is not necessary to further define the term “integral” beyond its commonly understood meaning, because any such attempt might add to rather than reduce confusion and might widen or narrow the scope of the rule in ways detrimental to the Department’s ability to identify and address risks.

Finally, a commenter asked the Department to define the term “interest” in § 791.3(a)(2). That provision states that the rule applies to ICTS Transactions that involve “any property in which any foreign country or a national thereof has an interest (including through an interest in a contract for the provision of the technology or service).” The commenter stated that, without a definition, the term “interest” could make ICTS Transactions in which a foreign person has only a tangential, non-controlling interest subject to Departmental review. However, unless an ICTS Transaction also involves “ICTS designed, developed, manufactured, or supplied by persons owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary” under § 791.103(b), a foreign person’s tangential interest in property alone would not be sufficient to warrant review by the Secretary. The Department does not provide a general definition for the term “interest.” To explain the term as it is used in section 791.3, the Department is adding language in § 791.3(a)(2) to clarify that the Secretary may review any ICTS Transactions that involve any property in which a foreign national or foreign country has any direct or indirect interest of any nature whatsoever. In the context of § 791.3, the term “interest” includes any interest whatsoever, direct or indirect. This is similar to the term “interest” as defined by the Office of Foreign Assets Control, which also include any interest whatsoever, direct or indirect.

(4) Critical Infrastructure

One commenter requested that the Department provide guidance on the sectors that are included in the term “critical infrastructure” and suggested that the Department draw on definitions in CFIUS regulations for this definition. Like the IFR, this final rule continues to use an Executive Office of the President publication to identify critical infrastructure sectors. The IFR considered “critical infrastructure” sectors as those identified in Presidential Policy Directive 21—Critical Infrastructure Security and Resilience (PPD–21), and the final rule continues to identify the almost identical sectors that are listed in National Security Memorandum 22 on Critical Infrastructure Security and Resilience (NSM–22). However, whereas the IFR referred to the sectors designated as critical infrastructure by PPD–21, § 791.3 of this final rule specifically lists the individual critical infrastructure sectors identified in NSM–22 in § 791.3(a)(4)(iv) to provide additional clarity to the public. NSM–22 includes subsectors of the designated critical infrastructure sectors, and the Department may consider revising the list in § 791.3(a)(4)(iv) to conform to future changes related to critical infrastructure sectors identified in NSM–22. A further description of these sectors can be found here: <https://www.whitehouse.gov/briefing-room/presidential-actions/2024/04/30/national-security-memorandum-on-critical-infrastructure-security-and-resilience/>. Additional details on critical infrastructure sectors are also available at the U.S. Department of Homeland Security’s Cybersecurity & Infrastructure Security Agency’s website, <https://www.cisa.gov/>. NSM–22 uses a similar definition of “critical infrastructure” as CFIUS, though the Department is not adopting the commenter’s suggestion to use the definition of the term “critical infrastructure” directly from CFIUS regulations. By listing the sixteen critical infrastructure sectors identified in NSM–22, the Department provides guidance to stakeholders about which sectors are of particular concern to the Department and represent the Department’s highest priority.

(5) List of Critical and Emerging Technologies

Certain commenters expressed concern that specific critical and emerging technology categories in § 791.3 were too broad, and recommended that only facets of particular critical and emerging technologies should be specifically

identified. In this final rule, the Department is not narrowing the scope of specific critical and emerging technologies but notes that the primary concern is with ICTS Transactions that pose undue or unacceptable risks related to critical and emerging technologies, as opposed to critical and emerging technology in general. The Department is amending the list of critical and emerging technologies in § 791.3(a)(4)(v) to indicate that the Department is not solely concerned about artificial intelligence and machine learning; quantum key distribution; quantum computing; drones; autonomous systems; or advanced robotics. Rather, the Department is concerned about potential situations where ICTS Transactions involving critical and emerging technologies with a foreign adversary nexus may pose undue or unacceptable risks to U.S. national and economic security. While quantum information and enabling technologies, artificial intelligence, autonomous systems, advanced robotics, and drones remain in scope, the critical and emerging technology list now includes eleven technology categories to reflect technological advancements and changes in the risk landscape since the Department issued the IFR. The list of eleven technologies is based on a comparison of common technologies between the 2023 United States Government National Standards Strategy for Critical and Emerging Technology and the White House’s Office of Science and Technology Policy 2024 list of Critical and Emerging Technologies.

(6) Retroactivity of Rule’s Applicability

Under § 791.3, the regulations apply to ICTS Transactions that were initiated, pending, or completed on or after January 19, 2021. Several commenters were concerned that an investigation could require parties to divest entities or “unwind” long closed transactions. These commenters asserted that review of closed transactions could increase uncertainty for industry, disrupt ongoing business relationships, and deter U.S. innovation and technology investment.

Some commenters raised concerns about the retroactive application of the regulations to services under contract prior to January 19, 2021. A common example cited by commenters was the potential investigation of a transaction involving services provided under a purchase order or statement of work pursuant to a master service agreement entered by the parties prior to January 19, 2021. Commenters were concerned that the Department’s review could

disrupt the underlying service contract and requested that such arrangements be excluded from review.

The Department reiterates that this final rule does not apply retroactively to transactions that were completed prior to January 19, 2021. Nevertheless, under this final rule, the Department may review ICTS Transactions initiated, pending, or completed on or after January 19, 2021, even if they are related to a contractual or other agreement established prior to January 19, 2021. While the regulations could change expectations about how parties' multi-year arrangements would operate relative to before the rule took effect, the regulations nevertheless only apply to ICTS Transactions initiated, pending, or completed on or after January 19, 2021.

To clarify, using an example provided by commenters: ICTS obtained using a purchase order dated on or after January 19, 2021, may be subject to review by the Secretary, even if an agreement regarding the provision of such ICTS was established prior to the purchase order date. This is because the provision of ICTS after January 19, 2021, is considered a new ICTS Transaction that is distinct from the underlying contract. If reviews were limited to only transactions with no connection to business arrangements entered into prior to January 19, 2021 the Department would be prevented from examining and mitigating or prohibiting ongoing risks arising from the current provision of ICTS. Thus, like the IFR, this final rule provides that new activity—for example, provision of ICTS, service updates, or operations—under contracts that existed on or prior to January 19, 2021, constitute new ICTS Transactions that may be subject to review.

The Department's experience to date has involved reviews focused on systemic risks posed by classes of ICTS Transactions involving a particular ICTS provider, rather than risks posed by individual ICTS Transactions. The risks arising from such ICTS Transactions exist regardless of when a contract may have been entered into, and in fact the risks might persist because of such contracts. Therefore, under this final rule, the Department may review ICTS Transactions that occur after January 19, 2021, even if they occur pursuant to a contract or agreement entered into prior to that date.

Some commenters explained that—even for contracts initially entered after January 19, 2021—an investigation initiated by the Department several years after an arrangement's effective date could require the termination of long-settled business relationships.

These commenters requested that the Department establish a statute of limitations of sorts, establishing a time limit beyond which the Department could not review an ICTS Transaction. However, the Department's reviews are focused on the timely elimination or mitigation of undue or unacceptable risks as identified in E.O. 13873, and changed circumstances over time may affect the risks posed by a closed transaction. Therefore, this final rule does not establish a limitations period separate from the statute of limitations for violations of IEEPA because the Department's experience with the procedures set out in the regulations has not suggested that implementing a fixed limitations period is necessary.

Section 791.4—Determination of Foreign Adversaries

Some commenters raised concerns about the process in § 791.4 by which the Secretary determines foreign adversaries. These commenters argued that the process is unclear and could potentially be overly broad. Some commenters requested that the Department provide additional information about the criteria used to determine foreign adversaries, publish unclassified information supporting the Secretary's determination of foreign adversaries, or provide prior notice before any revisions to the Secretary's determination of foreign adversaries under § 791.4 take effect. Others requested that the Secretary focus on specific entities or persons rather than foreign governments, and another commenter requested that the Department exclude governments with whom the United States has a defense treaty alliance from designation as a foreign adversary. The commenters stated that these suggested revisions would avoid disproportionate responses to potential risks and would allow stakeholders time to comply with new regulatory requirements.

This final rule does not revise or amend the provisions on determinations of foreign adversaries, nor is the Department proposing specific procedures for such determinations. Although the Department appreciates commenters' desire for clarity about the determination process, a requirement for the Secretary to follow specific procedures in making a determination could undermine the security and safety of the United States, as a foreign adversary determination indicates that those entities pose significant risks to U.S. national security. Nonetheless, any new foreign adversary determination would apply only to actions taken after such a determination.

Regarding commenters' request that certain governments be excluded from designation as foreign adversaries, such as those with whom the United States has a defensive treaty alliance, or that the Department not designate entire governments as foreign adversaries, the Department notes two points. First, that the definition of "foreign adversary" in E.O. 13873 includes foreign governments and foreign non-government persons and is not subject to revision by this final rule. Second, E.O. 13873 grants the Secretary discretion to consider all aspects of entities before determining whether they are a "foreign adversary" that should be listed in the regulation. The Department declines to categorically exclude certain types of entities from possible foreign adversary determinations because doing so could limit the Department's ability to address future risks facing the ICTS supply chain.

Although this final rule does not exclude any foreign governments or foreign non-government persons from § 791.4 in response to comments, it does correct the definition to include the "Macau Special Administrative Region" in § 791.4(a)(1) within the People's Republic of China in the list of foreign adversaries. Section 791.4(a)(1) is updated to read "The People's Republic of China, including the Hong Kong Special Administrative Region and the Macau Special Administrative Region (China)." Macau is a part of the People's Republic of China, just as is Hong Kong, and should be included in the definition to remove any uncertainty as to the geographic scope of the term.

Section 791.100—Information Available to the Secretary

Several commenters expressed concerns that the Department may initiate an ICTS Transaction review solely on the basis of a referral of information from industry, and that accepting such referrals may encourage anti-competitive behavior. In response, the Department has updated § 791.100(a)(8) and (9) in this final rule to distinguish between a referral from another U.S. Government agency and information from private industry provided voluntarily. This final rule uses the term "referral" to mean information from or a recommendation made by other U.S. Government agencies to the Department. In some cases, information provided by an industry entity may assist the Department in assessing an ICTS Transaction and the potential risks such transactions may pose to U.S. national security or U.S. persons, and the

Department would not reject that information. Even so, the Department emphasizes it does not encourage abuse of its processes for anti-competitive purposes. As with all information received by the Department, the Department will carefully vet information provided voluntarily by private industry pursuant to § 791.100(a)(9). This information will be treated holistically and will be used in the same ways as other information that is generally available to the U.S. Government.

Additionally, some commenters requested further explanation of how the Secretary will assess whether an ICTS Transaction involves ICTS designed, developed, manufactured, or supplied by persons owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary under § 791.100(c). Specifically, commenters requested that the Department define “ties between the person—including its officers, directors or similar officials, employees, consultants, or contractors—and a foreign adversary,” in § 791.100(c)(2). Some suggested that “ties” be defined to mean that a person is a business partner, close associate, or family member of a foreign adversary. The Department believes that § 791.100(c) currently captures the relationships that the Secretary may consider when assessing whether a transaction involves ICTS designed, developed, manufactured, or supplied, by persons owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary and that limiting the Secretary’s consideration as suggested by commenters could hinder the Secretary’s ability to appropriately respond to risks in a given case.

Section 791.101—Information to be Furnished Upon Demand

The IFR specified that “persons involved in an ICTS Transaction” may be required to furnish information under oath. In this final rule, the Department updates § 791.101 to note that, pursuant to the authority granted to the Department by E.O. 13873 and IEEPA, the Department may require any person to furnish, under oath, complete information relative to a transaction involving ICTS. This revision is made to better reflect the authorities granted to the Department under IEEPA and E.O. 13873.

Section 791.102—Confidentiality of Information

While generally supportive of the interim final rule’s confidentiality provisions, a few commenters stressed

that confidential information provided to the Department should not be disclosed publicly. Other commenters requested that the rule clearly establish the obligations of any third-party contractors to protect confidential information.

The Department appreciates these comments and the need to protect business confidential information or other sensitive information from disclosure, particularly as such information may be necessary for the Department to assess potential or actual risks related to ICTS Transactions or classes of ICTS Transactions. The Department believes that these confidentiality concerns are addressed by the protections for such information already afforded in § 791.102, along with the applicable disclosure exemptions under the Freedom of Information Act and criminal penalties for Federal employees who disclose business confidential information (18 U.S.C. 1905).

This final rule implements a few changes to § 791.102. First, it removes duplication within § 791.102(b) to make clear that all potential disclosures pursuant to the regulations of information or documentary materials that are not otherwise publicly or commercially available would be “subject to appropriate confidentiality and classification requirements.” It also revises § 791.102(b)(4), correcting an inadvertent typographical error in the IFR to permit the Secretary to disclose confidential information in response to “a request by” a governmental entity or a foreign government entity of a U.S. ally or partner, but only to the extent such disclosure is necessary for national security purposes.

Second, this final rule amends § 791.102(b)(6) to provide that, when otherwise permitted by law, the Secretary may disclose information or documentary materials that are not otherwise publicly or commercially available if necessary to prevent imminent harm to U.S. national security or the security and safety of U.S. persons. The Department anticipates that disclosure of information under this paragraph would only occur in the exceptional case where public or commercially available information would not suffice to prevent an imminent and specifically identified harm.

Section 791.103—Review of ICTS Transactions

The Department received several comments about the Secretary’s review of ICTS Transactions under § 791.103. Commenters generally raised concerns

about the breadth of these provisions and sought greater clarity in the procedures the Secretary will follow when determining whether to initiate review of an ICTS Transaction. One commenter suggested that the initial review of the risks posed by an ICTS Transaction should include an analysis of the potential costs that would be required to remediate any identified risks. Several commenters questioned the circumstances under which the Secretary should be able to consider referrals for review of ICTS Transactions or classes of ICTS Transactions based on information received from private parties due to the potential for anti-competitive behavior. Those commenters provided multiple suggestions, including to eliminate the option for the Secretary to consider a transaction based on information submitted by private parties, implementation of a process for entities to review and respond to information from private parties that prompts review of a transaction, or a requirement that any private party submitting information that prompts a review also provide a sworn affirmation that the information supplied is true and correct.

As noted above in the discussion of *Section 791.100 “Information Available to the Secretary,”* the Department will consider all available information when reviewing an ICTS Transaction, including information received from private industry. The Secretary critically assesses all information received during a transaction review. Specifically, as outlined in § 791.103, the Secretary will assess whether an ICTS Transaction falls within the scope described in § 791.3, involves ICTS designed, developed, manufactured, or supplied by persons owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary as described in § 791.100(c), and poses an undue or unacceptable risk as described in §§ 791.100(d) and 791.103(c).

In response to commenters’ concerns about anti-competitive conduct in connection with ICTS Transaction reviews initiated following the receipt of information from industry, as discussed further below, this final rule amends § 791.105 to clarify that the Secretary will provide a party or parties to a transaction with information regarding the factual basis supporting the Secretary’s Initial Determination. Section 791.107 affords parties an opportunity to respond to the Initial Determination and identify potential errors in that document or argue that the circumstances leading to the Initial Determination no longer apply, prior to the Secretary taking any final action.

Accordingly, pursuant to § 791.107, if the parties believe that information used for the Initial Determination is incorrect, the parties can correct that information during the response period. Consistent with the approach outlined above to address commenters' concerns about anti-competitive acts by parties, the Department expects that § 791.200, which authorizes penalties for, among other acts, submitting false or fraudulent statements to the Department, will deter submissions of false information for anti-competitive purposes.

This final rule also includes several procedural changes to § 791.103. First, this final rule revises § 791.103(a) to clarify that the Secretary has the discretion to initiate review of an ICTS Transaction after considering any of the information described in § 791.100(a), including referrals from other U.S. Government agencies. Section 791.103(b) specifies that the Secretary will make determinations during this review about whether a transaction is a Covered ICTS Transaction as described in § 791.3, involves ICTS that is designed, developed, manufactured, or supplied by persons owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary as described in § 791.100(c), and poses an undue or unacceptable risk as identified in E.O. 13873 and described in §§ 791.100(d) and 791.103(c). In assessing whether an ICTS Transaction poses an undue or unacceptable risk, the Secretary may evaluate the criteria listed in § 791.103(c) and the materials described in § 791.100(d). These revisions to § 791.103(a) and (b) in this final rule do not reflect substantive changes from the IFR, but the revisions clarify that, consistent with E.O. 13873, the Secretary may commence a review on the Secretary's own initiative or following a referral from another U.S. Government agency.

In addition, this final rule revises § 791.103(c) regarding the criteria the Secretary may consider when evaluating whether a Covered ICTS Transaction poses an undue or unacceptable risk. To provide more detail and to acknowledge the potential economic impacts of actions under this rule, this final rule amends § 791.103(c)(7), which previously specified that the Secretary would consider the "nature of the vulnerability implicated by the ICTS Transaction," to state that the Secretary will consider the "nature and characteristics of the customer base, business relationships, and operating locations of the parties to the Covered ICTS Transaction." Additionally, to streamline criteria that the Secretary

will use to assess undue or unacceptable risks posed by covered ICTS Transactions, § 791.103(c) now combines certain aspects of the criteria for evaluating connected software applications listed in E.O. 14034 with the criteria for all other types of ICTS Transactions, when applicable. Under this final rule, the criteria previously listed in the IFR's § 791.103(d)(1), (3), and (4) related to connected software applications are now included in § 791.103(c)(2), streamlining the regulatory text and eliminating redundancies. Specifically, for all ICTS Transactions the Secretary may evaluate the ownership, control, or management by persons subject to the jurisdiction or direction of a foreign adversary, including connections to foreign adversary military and connections to persons involved in malicious cyber activities.

The criteria that specifically apply to connected software applications are now listed under § 791.103(c)(11), and the list consists of:

- The number and sensitivity of users;
- The scope and sensitivity of data that the application collects;
- Use of the connected software application to conduct surveillance that enables espionage;
- Regular, reliable third-party auditing of the application; and
- The extent to which identified risks can be mitigated and verified.

This reorganization clarifies the factors that the Secretary may evaluate when determining whether ICTS Transactions involving connected software applications pose undue or unacceptable risks pursuant to the authority granted by E.O. 14034, and it better integrates the criteria that may be relevant to reviews of ICTS Transactions involving connected software applications as well as to reviews of other ICTS Transactions.

Section 791.104—Interagency Notification

Several commenters expressed uncertainty about the interagency consultation requirements in the IFR. Some suggested that the Department should further explain the meaning of "interagency consultation" mentioned in §§ 791.104 and 791.108, noting that the IFR did not establish a formal consultative process. Other commenters recommended that the rule specifically reference other agency or executive department heads for inclusion in the consultation process to avoid duplicative reviews of ICTS Transactions, particularly in the context of government procurement.

Commenters also requested a definition of the term "consultation" to ensure it is more than a "mere notification" to other agencies, and that it require an interagency vote and interagency consensus on whether an ICTS Transaction is subject to the rule prior to elevating any disagreement to the President. Commenters argued that consensus-seeking would ensure a "whole of government" approach to addressing ICTS Transactions and avoid duplicate or conflicting actions taken by the agencies tasked with securing ICTS. In response, this final rule makes several changes to clarify the nature of the consultations with other agencies required prior to Initial Determinations and Final Determinations.

Consultations between agencies can take many forms and may have different meanings or requirements in specific contexts. Consultation may be "formal," or "informal," and result in a memorandum of agreement between agencies, written decisions, or more informal understandings or discussions between agencies. The IFR required consultation in certain circumstances but did not describe what such consultation would entail. In this final rule, the Department amends the consultation provisions to better describe the types of interagency consultation required prior to the production of the Initial Determination and the issuance of the Final Determination.

This final rule amends § 791.104 (Initial Determination) and § 791.108 (Final Determination) to clarify what is required of the Department and the appropriate agency heads during the processes prior to issuing Initial or Final Determinations. These changes are procedural in nature and will have a limited impact on the public or the parties to a transaction under review. The changes do not expand the list of agency heads included in the definition of "appropriate agency heads," because the list consists of agencies specifically identified in E.O. 13873. Both the E.O. and this final rule provide that, where the Secretary determines it to be appropriate, other agency heads may be consulted, which allows for sufficient latitude to avoid redundant regulatory efforts.

This final rule amends § 791.104 to describe the Secretary's process of notifying and receiving comments from appropriate agency heads if the Secretary assesses that an ICTS Transaction meets the criteria in § 791.103. If the Secretary assesses that an ICTS Transaction meets the criteria described in § 791.103(b), as part of the consultation process the Secretary will

notify the appropriate agency heads of such and provide each agency head the opportunity to submit to the Department, within 21 days, any comments in writing regarding the assessment. If an agency head does not provide written comments within that time, the Secretary may presume that the agency has no comments. Under this final rule, as under the IFR, if an agency head provides comments, the Secretary may use those comments to inform further assessment of whether the ICTS Transaction meets the criteria in § 791.103 and to inform the development of the Initial Determination issued under § 791.105. In such circumstances, if an agency head disagrees with the Secretary's assessment, the Secretary will carefully consider the agency head's position in determining how to proceed. The Department will notify appropriate agency heads of an Initial Determination at least twenty-one (21) calendar days prior to issuing and notifying a party or the parties to the Covered ICTS Transaction of the Initial Determination under § 791.105(b)(3).

E.O. 13873 does not require the Secretary to seek consensus from the appropriate agency heads prior to issuing an Initial Determination and this final rule does not add a consensus requirement to § 791.104. However, in all cases, the Secretary will carefully weigh the comments received from appropriate agency heads and will consult with the appropriate agency heads to avoid redundant regulatory efforts.

The amendments to § 791.108 in this final rule, covering the interagency consultation regarding the Final Determination, are discussed in more detail below in the discussion of *Section 791.108 "Interagency Consultation on the Final Determination."*

Section 791.105—Initial Determination

The interim final rule established a process for the Secretary to issue an Initial Determination in § 7.105. The Department received relatively few comments addressing this section of the rule, but some commenters requested that the Department amend §§ 791.105 and 791.109(f) to strike provisions authorizing publication of the Initial Determination or Final Determination in the **Federal Register**, to require the Department to omit from public notices information that would reveal the identities of the parties to an ICTS Transaction, or to require party consent before publication in the **Federal Register**. Commenters acknowledged that the rule does not generally permit public disclosure of confidential

information, but some argued that the Initial Determination and Final Determination should themselves be treated as confidential and noted that publication of the Secretary's determinations could lead to financial or reputational harm.

In consideration of the comments about publication of Initial Determinations, the Department is revising § 791.105(d) to note that the Secretary retains discretion to publish a notice of an Initial Determination—rather than the full text of an Initial Determination—in the **Federal Register**. The Department is committed to appropriately safeguarding confidential information in its possession and, when possible, mitigating unnecessary economic impact to parties to an ICTS Transaction. While some commenters asserted that, in all situations, Initial Determinations and Final Determinations should not be made public, the Department maintains its discretion to publish notices of Initial Determinations in the **Federal Register** when warranted; for example, to mitigate undue or unacceptable risks, or when an ICTS Transaction significantly impacts members of the public.

The Department disagrees with commenters who maintain that, if the Department publishes a notice of an Initial Determination in the **Federal Register**, the names of parties should be omitted from the notice. Because Initial Determinations do not represent final decisions, and because the Department recognizes that there may be an economic impact on parties named in those publications, the Department may choose not to publish notices of Initial Determinations in the **Federal Register**. However, the Department may choose to do so in certain situations, particularly when non-parties or parties that cannot be individually identified will be affected by a determination, such as when classes of ICTS Transactions are involved. The discretion to publish Initial Determinations, including the names of parties, allows the Department to address situations in which national security risks are significant or imminent and publication will assist the public, including U.S. businesses, in avoiding those risks.

In such cases, publishing a notice of an Initial Determination in the **Federal Register** allows for such persons to receive notice of a decision. In the circumstance in which the Department decides to publish a notice of an Initial Determination, the Department would also publish a notice of a Final Determination to inform the public of the final outcome of its review.

This final rule amends § 791.105(a) and (b) to reflect the new interagency notification procedures in § 791.104. These revisions explain that the Secretary will consider comments received from appropriate agency heads regarding the Secretary's assessment of whether an ICTS Transaction meets the criteria under § 791.103(b). However, the Secretary retains discretion to determine whether the transaction poses an undue or unacceptable risk and, therefore, the discretion to end review of an ICTS Transaction, amend the assessment, or proceed to making an Initial Determination.

This final rule also amends § 791.105(b)(1) to note that the Initial Determination will provide parties with information regarding the factual basis supporting the Secretary's decision to either prohibit an ICTS Transaction or permit the ICTS Transaction with mitigation measures. This clarification will ensure that parties receive notice of the material facts underlying the Secretary's Initial Determination and will help parties provide more specific and complete responses to the Secretary's Initial Determination under § 791.107. As discussed previously, this revision also responds to comments requesting that the rule provide parties an opportunity to respond to information that private parties submit to the Department. These changes allow for parties to review and respond to facts submitted by private parties when such information is part of the factual basis supporting an Initial Determination.

In addition, this final rule modifies § 791.105(b)(3) to clarify how the Department identifies parties to an ICTS Transaction that must be served with an Initial Determination. New § 791.105(b)(3)(i) addresses the situation in which the Department identifies a limited number of parties to a single or set of ICTS Transactions who would be served the Initial Determination. New § 791.105(b)(3)(ii) addresses situations, which the Department expects will be common, in which the Department reviews a class of ICTS Transactions involving a single person owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary, as well as unidentified U.S. persons or U.S. persons whom it is not practical to identify. These situations may involve a large number of U.S. consumers, many of whom cannot be individually identified or whom it would be impractical to individually identify. In such case, individual service of the Initial Determination on every party may not be feasible or may be unnecessary or inappropriate. The

unknown or unidentifiable U.S. parties in many cases will not have unique information that would affect the Final Determination or, for example, enable the Department to negotiate effective mitigation measures. New § 791.105(b)(3)(ii) therefore recognizes that seeking to notify all potential parties who have purchased or accessed ICTS that the Department deems to entail undue or unacceptable risk may not be possible or practical, nor would it help the Department to mitigate or eliminate risks associated with the ICTS.

The Department may still publish a notice of an Initial Determination in the **Federal Register**, pursuant to § 791.105(d), where, for example, notice would be beneficial to warn the public about an identified risk. These changes to § 791.105(b)(3) and (d) are procedural in nature. The Department will employ the method of service that is best suited to notifying the affected parties to an ICTS Transaction and provide them with an opportunity to respond to an Initial Determination.

Section 791.106—Recordkeeping Requirement

The Department received no comments about the recordkeeping requirements in § 791.106. This final rule revises § 791.106, based on the Department's experience, to provide examples of the types of notification that require notified individuals or entities to retain records related to an ICTS Transaction, and to implement a time limit for record retention. In addition to directly notifying a person that an ICTS Transaction is under review, the Department may notify a person through other means, such as a demand for information or documents under § 791.101. Under revised § 791.106, upon receipt of this notification, a person must promptly take steps to retain records related to the identified ICTS Transaction. Revised § 791.106 also clarifies that any records that a notified person must retain in connection with an ICTS Transaction must be retained for ten years following issuance of a Final Determination unless the Final Determination specifies otherwise. Instead of retaining the interim final rule's indefinite record retention requirement, the Department intends for the ten-year time limit to reduce any costs associated with record retention pursuant to the rule. If the Department does not issue an Initial Determination to a person within ten years of providing notice that an ICTS Transaction is under review, that person can assume their recordkeeping

obligation has been satisfied unless otherwise informed by the Department.

Section 791.107—Procedures Governing Response and Mitigation

The interim final rule provided that, after being notified of an Initial Determination, parties to an ICTS Transaction would have 30 days to respond to the Initial Determination or to assert that the circumstances resulting in the Initial Determination no longer apply. Several commenters expressed concern that the time provided in § 791.107 for a party's response to the Secretary's Initial Determination was not long enough. Commenters explained that it may take a party to an ICTS Transaction longer than 30 days to respond or propose mitigation measures if the issues or business relationships identified in an Initial Determination are particularly complex. Some commenters also requested a maximum timespan for imposed mitigations, or a periodic review of the mitigation measures to determine whether they should remain in effect.

This final rule does not establish a maximum timespan for imposed mitigations because the Department continues to believe that such an across-the-board maximum would hinder the Department in fully evaluating any implemented mitigations, resulting in national security vulnerabilities. Risks will be specific to each case, and because the rule provides that the Department may negotiate mitigation measures with the parties to an ICTS Transaction, the mitigation measures (when applicable) will also be specific to each case and tailored to address the identified risks. In some cases, a mitigation measure might be appropriate for a limited time; in other cases, a limited time frame might merely delay the realization of the identified risks or even increase them. Furthermore, under § 791.6, which states that "any determinations, prohibitions, or decisions issued under this part may be amended, modified, or revoked, in whole or in part, at any time," the Secretary is already permitted to modify mitigation measures when necessary or appropriate. Therefore, the Department believes that amending the rule as suggested by these comments is unnecessary.

However, this final rule does make several changes to the procedures governing response and mitigation in § 791.107, including some minor stylistic edits. Because 30 days may not always be sufficient time for a party to prepare a response to the Initial Determination or propose remedial

steps, this final rule amends § 791.107, in response to comments, to allow an initial 30 days to respond to an Initial Determination. Additionally, § 791.107 allows parties to seek, and the Secretary to allow for good cause shown, an extension of another 30 days. In total, parties may receive up to 60 days to respond to an Initial Determination (30 days initially with a potential 30-day extension). The Secretary retains discretion to grant an extension and may consider factors such as the complexity of the ICTS Transaction under review, the severity of the risks identified in the Initial Determination, and the impact that granting an extension might have on the overall timeframe for review.

Additionally, this final rule amends § 791.107(c) to clarify that all written submissions from a party in response to an Initial Determination may not exceed 50 pages unless a party obtains prior approval from the Secretary. The Department believes that a page limit will facilitate more efficient communications between the Department and the party or parties to an ICTS Transaction. The Department also clarifies in new § 791.107(c)(3) that parties may include business confidential information in written submissions to the Department, but that any business confidential information included in a submission must be clearly and specifically identified. The clear demarcation of business confidential information in parties' submissions will help the Department be responsive to concerns raised by commenters about protecting this type of information.

Section 791.108—Interagency Consultation on the Final Determination

In response to comments expressing uncertainty about the process the Secretary will use to consult with appropriate agency heads regarding a proposed Final Determination, this final rule amends § 791.108 to provide the public with more clarity about the procedures governing the interagency consultation on the Final Determination.

E.O. 13873 requires the Secretary to consult with appropriate agency heads when determining whether an ICTS Transaction involves ICTS designed, developed, manufactured, or supplied, by persons owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary, whether the ICTS Transaction poses an undue or unacceptable risk, and when designing or negotiating measures to mitigate the risks posed by an ICTS Transaction that would otherwise be prohibited. The IFR

implemented the directive in E.O. 13873 for the Secretary to make certain determinations “in consultation” with heads of agencies by specifying in § 791.108 that the Secretary would “consult with and seek the consensus of all appropriate agency heads prior to issuing a final determination as to whether the ICTS Transaction shall be prohibited, not prohibited, or permitted pursuant to the adoption of negotiated mitigation measures.” However, as commenters noted, the IFR did not clearly explain that consensus requirement.

This final rule clarifies the requirement for the Secretary to seek the concurrence of all appropriate agency heads before issuing a Final Determination. With this final rule, the Secretary may presume concurrence if no response is received within fourteen days from one of the appropriate agency heads or the designee of appropriate agency heads. This final rule also clarifies that if an agency objects to the Final Determination, the objection must be received by the Secretary within the 14 days, and the objection must come from the agency’s Deputy Secretary or equivalent level.

Under the final rule, the Secretary will consult with and seek concurrence of appropriate agency heads and will carefully consider views from the appropriate agency heads to inform a Final Determination. The Department has established procedures to ensure robust interagency participation in the process. Consultation will allow the Secretary to update Final Determinations based on interagency input.

Section—791.109 Final Determination

Section 791.109 sets forth the process the Secretary will follow when issuing a Final Determination and the information that must be included in the Final Determination. Section 791.109(b) of the interim final rule required the Secretary, absent a finding that additional time is necessary, to issue a Final Determination within 180 days of accepting a referral and commencing the initial review of a Transaction. One commenter suggested that transactions should be deemed approved if the Secretary does not reach an Initial Determination or Final Determination within a fixed period, with the option for extensions under narrow and defined circumstances. This approach, the commenter argued, would reduce uncertainty for parties to an ICTS Transaction and avoid costly delays. Other commenters asserted that the 180-day limit was too long, given

the fast pace of many commercial transactions.

After careful consideration, the Department believes that maintaining the interim final rule’s 180-day time limit to issue a Final Determination strikes an appropriate balance between reducing potentially costly delays and ensuring the Department has sufficient time to thoroughly review ICTS Transactions. Notably, to date the Department has not delayed or sought to delay any ICTS Transactions during the pendency of an investigation. However, the Department agrees with commenters that the timeline for reviews was unclear and could create confusion because, among other things, the IFR did not specify when a review is initiated. To improve clarity, this final rule revises the 180-day time limit so that it begins when a party or parties to a transaction are served a copy of an Initial Determination pursuant to § 791.105(b)(3) and grants the Secretary sole discretion to extend this timeline.

Some commenters also requested that the Department implement a formal appeal process following issuance of a Final Determination or a mechanism to allow parties to seek reconsideration based on a change in circumstances. As discussed in the preamble to the IFR, the Department continues to believe that an administrative appeals process is unnecessary in this final rule. The Department directly engages with each party to the ICTS Transaction under review concerning the Department’s finding that the party has engaged in a Covered ICTS Transaction, the Department’s risk assessment, and whether the Department has initially determined that an ICTS Transaction is prohibited or permitted subject to the adoption of mitigation measures, as described in § 791.107. Each party has an opportunity to respond to the Initial Determination pursuant to § 791.107, including by asserting that there is an insufficient factual or legal basis for the Initial Determination. The Department carefully considers each party’s arguments, evidence, or proposed remedial steps prior to making a Final Determination. The Department agrees that reconsideration of a Final Determination may be warranted in some cases, such as if there is a change of circumstances that materially alters the prior assessment. Section 791.6, which remains unchanged from the IFR, permits the Secretary to reconsider Final Determinations unless otherwise provided by law.

This final rule also revises § 791.109(c) in response to a comment which pointed out that the IFR implied that the Secretary has discretion to

direct prohibitions that are more restrictive than necessary to address the undue or unacceptable risk resulting from an ICTS Transaction because of the IFR text saying the Secretary has “discretion to direct the least restrictive means necessary to tailor the prohibition to address the undue or unacceptable risk.” The Department notes that, in most cases, what amounts to the least restrictive means to fully address the risks posed by a Covered ICTS Transaction could be open to different interpretations. Accordingly, this final rule revises § 791.109(c) to clarify that the Secretary will direct the means that the Secretary determines to be necessary to address the undue or unacceptable risk posed by the Covered ICTS Transaction. E.O. 13873 does not require the Secretary to implement the least restrictive means to address undue or unacceptable risk; it provides the Secretary certain discretion to craft mitigation measures that address the overall undue or unacceptable risks posed by ICTS Transactions or classes of ICTS Transactions.

This final rule also amends § 791.109(a) to provide that the Secretary must issue a Final Determination when the Secretary has previously issued an Initial Determination. The interim final rule required a Final Determination only following an Initial Determination that proposed to prohibit an ICTS Transaction. The Department believes that it is important to issue a Final Determination if it has issued an Initial Determination, regardless of whether the Initial Determination proposed to prohibit the ICTS Transaction or permit the ICTS Transaction with mitigation measures, to describe potential risks the Department has identified in connection with an ICTS Transaction, provide a record of decisions, and explain any changes from an Initial Determination.

In addition, this rule includes a new paragraph (9) to § 791.109(d) to clarify that, in cases where the Secretary determines to permit an ICTS Transaction subject to the implementation of measures to mitigate undue or unacceptable risk, the transaction may subsequently be prohibited if a party fails to comply with the terms or obligations of a mitigation agreement. This is not a substantive change from the IFR, but a clarification. Specific criteria for violations that would lead to prohibiting a previously mitigated transaction would be covered in the individual mitigation agreements implemented following the review of an ICTS Transaction or class of ICTS Transactions.

Finally, this action revises § 791.109(f) to clarify that the Secretary publishes notices of Final Determinations in the **Federal Register**, whereas under the IFR the Secretary published the results of Final Determinations to prohibit an ICTS Transaction in the **Federal Register**. This change more accurately represents the intention to publish the outcome of the determination proceedings, without necessarily sharing extensive details about those proceedings. The decision on whether to publish a notice of a Final Determination will vary based on the following new requirements.

The final rule continues to require publication of any Final Determination to prohibit an ICTS Transaction, but as a notice in the **Federal Register**. Publishing a notice of a Final Determination—especially in the case of a determination that a transaction will be prohibited—provides notice to persons about any steps they can take to reduce the risk associated with the ICTS Transaction or to comply with the Final Determination. Additionally, in some cases, the Department may need to inform members of the public about a Final Determination to mitigate risks with the parties to a transaction even if an ICTS Transaction is not prohibited. In those cases, the Secretary may publish a **Federal Register** notice of its Final Determination to mitigate the risk of an ICTS Transaction. Also, if the Department were to issue a **Federal Register** notice about its Initial Determination, the Department will also publish a notice of its Final Determination to inform the public of the Department's final decision to prohibit, mitigate, or permit an ICTS Transaction. In some cases, publication of notices of Final Determinations to prohibit, mitigate, or allow an ICTS Transaction may be valuable to warn the public about identified undue or unacceptable risks or to provide guidance to persons contemplating similar ICTS Transactions. Publication of a Final Determination in the **Federal Register** also provides notice of the Final Determination to persons that are not a party to an ICTS Transaction and who may also be subject to a prohibition in a Final Determination. This final rule also retains the protections for confidential information discussed above, and any published notice of a Final Determination will omit confidential business information under § 791.109(f).

Section 791.200—Penalties

The Department received a few comments on the penalty provisions of § 791.200. Citing the nuances of

subcontracting government contracts, some commenters requested that the rule employ an intentionality standard for any violations of the regulation that lead to civil penalties. These commenters argued that the current standard, especially regarding the authorization of penalties for causing any knowing violation, risks confusion and higher compliance costs for contractors with multiple layers of subcontractors. Another commenter suggested that only the parties to a transaction should be held liable for a violation of a Final Determination.

It is possible for a non-party to an ICTS Transaction reviewed by the Department to engage in activities that are contrary to a Final Determination to prohibit an ICTS Transaction, and for those persons to be held liable for violating a prohibition on an ICTS Transaction and therefore these regulations. Also, a person or entity does not need to be a party to an ICTS Transaction to have notice that certain activity is prohibited and to assist or seek to assist others to violate a Final Determination to prohibit an ICTS Transaction (such as by attempting to import a prohibited ICTS) or a Final Determination to mitigate the risk of an ICTS Transaction (for example, directing a party to a mitigation agreement to procure ICTS that does not comply with a mitigation agreement with knowledge that such a mitigation agreement exists). Generally, persons must comply with direction that the Department publishes in the **Federal Register** with regards to mitigating undue or unacceptable risk posed by foreign adversary-nexus ICTS Transactions. The purpose of these rules and of E.O. 13873 is to protect against risks to the ICTS supply chain. In that regard, the penalty provisions serve to encourage U.S. entities engaging in ICTS Transactions with entities with a nexus to a foreign adversary to conduct appropriate due diligence about those transactions or face potential liability.

Although this final rule continues to authorize penalties against persons who are not parties to a transaction, the Department has revised § 791.200 to address commenter concerns about the mental state requirement for a civil violation in certain instances as described in § 791.200(a). Under this final rule, persons can be held responsible for assisting a violation of a Final Determination to mitigate an ICTS Transaction through a mitigation agreement between the U.S. Government and identified parties to an ICTS Transaction, if they have knowledge (as defined at 15 CFR 772.1) that such a mitigation agreement exists.

Activities that are prohibited for those with knowledge of the existence of a mitigation agreement includes aiding and abetting violations, commanding a violation, procuring a product that is violative, and other prohibited activities. Finally, providing false information to the Department in connection with an ICTS Transaction under review is also prohibited.

This final rule also amends § 791.200 to clarify the conduct that may lead to penalties under the rule. Section 791.200(a) now provides a list of activities that may lead to civil or criminal penalties under the rule. This list provides more clarity and certainty about prohibited conduct. Section 791.200(b) adds references to the new list of prohibited activities in § 791.200(a) and consolidates and removes duplicative provisions covering civil penalties.

Other Comments

The Department received other comments, discussed below, that were not germane to the rulemaking and outside the scope of this action, or that, for the reasons explained below, the Department does not otherwise address in this final rule.

First, many commenters requested that the Department develop a variety of processes to provide stakeholders with licenses, and guidance about specific transactions that would not be subject to review, or “pre-clearance,” before commencing ICTS Transactions. Commenters explained that these processes would provide more certainty to businesses so that they can proactively develop compliance programs and avoid high-risk transactions. Several commenters addressed the potential licensing mechanism that the Department discussed in the preamble to the IFR, but without suggesting a framework for applying for or receiving licenses. Most commenters were in favor of a licensing process, either for parties to seek pre-approval of individual ICTS Transactions, or to exempt all transactions by vetted ICTS manufacturers or suppliers for a fixed period. These commenters stressed, however, that any licensing process should be entirely voluntary and non-duplicative of licensing regimes established by other regulations and should not unnecessarily delay contemplated transactions. Similarly, some commenters requested that the Department establish a list of restricted persons like the Entity List (Supplement No. 4 to Part 744 of the Export Administration Regulations) (15 CFR part 744, Supp.) or develop categories of

transactions that could receive a presumption of approval or denial.

More generally, commenters sought the creation of additional avenues for the Department to provide guidance about the application of the rule. For example, one commenter requested that the Department issue enforcement guidelines and create a mechanism for entities to voluntarily disclose potential violations, while other commenters requested that the Department create a process to issue advisory opinions at the request of entities contemplating ICTS Transactions.

Given the complexity of the issues, the Department appreciates commenters' thoughtful suggestions. The Department is still considering the concepts related to providing licenses, but this final rule does not include a licensing process. Additionally, while the Department anticipates that published Final Determinations will provide guidance to the public about applications of this final rule, the Department understands that additional guidance materials may be useful to those planning compliance with this rule. However, developing procedures to issue guidance or for parties to obtain advisory opinions is outside the scope of this rulemaking, and the Department will seek further comment prior to implementing any rule on that topic.

Second, several commenters asserted that the IFR generally lacked transparency and suggested a number of ways that the Department could assist industry with the interpretation and application of the interim final rule and provide context for the reviews it undertakes. For example, several commenters suggested creating ongoing opportunities for direct industry consultation and engagement such as by hosting industry roundtables. Other commenters suggested that the Department provide an avenue for formal industry comments on reviews before the Secretary issues a Final Determination. Taking a contrary view, other commenters expressed concerns about potential anti-competitive behavior that could result from consultation with industry. The Department appreciates these comments and commenters' willingness to engage with the Department on implementing this rule, but the Department is not adopting any formal avenues for industry and stakeholder engagement in this rule at this time.

IV. Classification

A. Executive Order 12866 (Regulatory Policies and Procedures)

This final rule has been determined to be a "significant regulatory action" under section 3(f)(1) of Executive Order 12866, as amended by Executive Order 14094. The Department has examined the expected impact of this final rule as required by those Executive Orders and has conducted a regulatory impact analysis (RIA).

B. Regulatory Flexibility Analysis

The Department has examined the economic implications of this final rule on small entities as required by the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*). The RFA requires an agency to describe the impact of a rule on small entities by providing a regulatory flexibility analysis. The Department published an initial regulatory flexibility analysis in the proposed rule issued on November 27, 2019 (84 FR 65316), published a final regulatory flexibility analysis (FRFA) for the interim final rule (86 FR 4909), and has posted an updated FRFA as part of the RIA for this final rule (see **ADDRESSES** above). The revised FRFA incorporates more recent datasets that have been published since the Department issued the interim final rule and updates the economic analysis to conform to the provisions in the final rule. A summary of the FRFA follows. The Department assesses that the changes in this final rule, relative to the interim final rule, will have a limited economic impact.

Statement of the Objectives of, and Legal Basis for, the Final Rule

A description of this final rule, why it is being implemented, the legal basis, and the purpose of this final rule are contained in the **SUMMARY** and **SUPPLEMENTARY INFORMATION** sections of this preamble, in the preamble to the Notice of Proposed Rulemaking issued on November 27, 2019, and in the preamble to the Interim Final Rule issued on January 19, 2021 (86 FR 4909) and are not repeated here.

A Statement of the Significant Issues Raised by Public Comments or by the Chief Counsel for Advocacy of the Small Business Administration in Response to the FRFA, a Statement of the Assessment of the Agency of Such Issues, and a Statement of Any Changes Made to the Rule as a Result of Such Comments

Many commenters discussed the possibility that this rule would impose significant costs, both on businesses that

need to develop compliance plans and on the U.S. economy generally due to the rule's potential effect on corporate profits and viability. Commenters remarked on the RIA's wide range of estimated affected entities and cost to the U.S. economy but questioned whether the RIA included the full range of potential costs or adequately quantified the rule's benefits.

In particular, one commenter noted that the RIA identified, but did not quantify, the cost of the following potential harms: the restriction of imports from adversarial nations, which could increase production costs for many firms; the potential loss of producer profits and lower profits for persons in an industry impacted by a prohibition or mitigation of an ICTS Transaction; the possibility that those who do not engage in transactions affected by the rule may still face higher production costs; the impacts of the rule are not confined to the firms in the industries that produce the products subject to the rule; investors will likely take extra time to evaluate potential transactions, which could result in delays and impose costs on consumers; and higher prices and lower consumer and producer surplus that could arise among inter-related industries. Commenters also critiqued the RIA's failure to quantify the rule's expected benefits to national security and asked for examples of the types of transactions the rule is meant to address to demonstrate its anticipated benefits more clearly and provide a point of reference for the rule's potential scope.

The Department understands commenters' desire for greater certainty in the calculations of the rule's potential costs and benefits. The unquantified harms discussed in the RIA to the interim final rule and listed by a commenter were meant to transparently identify potential downstream effects of the rule. These are not direct costs imposed by the rule and, due to the uncertainty regarding the extent to which they might arise, if at all, the portion of such costs attributable to the rule cannot reasonably be quantified. None of the commenters identified data sources or methods that the Department could use to concretely estimate these costs. As a result, the Department is not changing its earlier analysis of these potential harms.

Regarding the potential benefits of the rule, as discussed in the **SUMMARY** and **SUPPLEMENTARY INFORMATION** sections of this preamble, two years of experience with the interim final rule has shown that the Department's reviews are primarily reviews of classes of transactions involving all or a subset of

all ICTS provided by a single person rather than individual transactions involving a single product or service. As a result, the Department anticipates that such reviews will have a greater impact on national security than would reviews of individual transactions, despite being more limited in number. The Department continues to assess that the actual benefits of this rule are incalculable because it is not possible to predict the type and extent of malicious actions that will be directed at the ICTS supply chain. Moreover, the Department is not providing examples of the types of transactions the rule is meant to address, as requested by commenters. The Department's experience to date has shown that ICTS Transactions present unique risks that would be difficult to describe in generic terms.

Additionally, two commenters asked the Department about the rule's potential impact on commercial items. These commenters asked whether commercial items are exempted from the rule and whether the Secretary has authority over all ICTS, even those with no impact on national security. As discussed in further detail below, the Department considered as an alternative to the rule whether to exclude ICTS Transactions that involve only the acquisition of commercial products as defined by Federal Acquisition Regulation Part 2.101. The Department decided against adopting this alternative to avoid creating an avenue that malicious actors could use to evade the rule. That said, the Secretary's reviews are targeted to ICTS Transactions or classes of Transactions that pose undue risks of sabotage or subversion to the ICTS supply chain and U.S. critical infrastructure or an unacceptable risk to the national security of the United States or the security and safety of U.S. persons. As such, the Department intends to devote its resources to reviewing ICTS Transactions with a potentially negative impact on national security. The Department's modifications to § 791.103 in the final rule to clarify the process that the Secretary will follow to determine which ICTS Transactions are within the scope of the rule are responsive to these comments.

A Description and, Where Feasible, Estimate of the Number of Small Entities to Which the Final Rule Applies

Small Business Administration (SBA) size standards for businesses are based on annual receipts and average employment. For this analysis, as for the analysis for the interim final rule, we define a small business as one employing fewer than 500 persons. This

definition allows us to use Census data on firm employment by NAICS industry to estimate the number of affected small entities.

In the RIA, the Department identified 4,533,000 firms in industries that imported significant amounts of goods and services potentially subject to review under the Rule. This formed our upper bound estimate for the total number of affected entities. By replicating this methodology with firm employment data, the Department finds that 4,516,000 of these firms, about 99.6 percent, have fewer than 500 employees. Assuming the lower bound estimate of 268,000 affected entities is also made up of 99.6 percent small businesses, the Department estimates that between 266,995 and 4,516,000 small businesses will be potentially affected by this Rule. The Department's estimate of the number of potentially affected small businesses remains unchanged from the interim final rule.

Federal Rules That May Duplicate, Overlap or Conflict With the Final Rule

The Department did not identify any Federal rule that duplicates, overlaps, or conflicts with this final rule.

Description and Estimate of Economic Effects on Entities, by Entity Size and Industry

In the Costs section of the RIA, the Department estimates that costs to all affected entities will range between approximately \$238 million and \$20.3 billion (annualized at 7%), or about \$2,800 to \$6,300 per entity. The Department estimated the costs to small entities using the same methodology, adjusting for changes in hourly wages of operations managers and lawyers over time. As a result of these adjustments, the Department estimates that costs to affected small entities will range between approximately \$112 million and \$11.1 billion, or about \$1,800 and \$4,000 per small entity.

Potential Economic Impact of the Rule on Small Entities

Small businesses, as opposed to larger firms, may not have the same ability to deal with the burdens, both direct and indirect, associated with the final rule. Faced with the various costs associated with compliance, firms will have to absorb those costs and/or pass them along to their consumers in the form of higher prices. Either action will reduce the profits of firms. Due to their lack of market power, and their lower profit margins, small firms may find it difficult to pursue either or both of those responses while remaining viable.

A similar situation will hold with respect to the indirect impacts of the final rule. Small firms downstream of impacted industries are likely to face increases in the prices of ICTS they use as inputs and either absorb the increase in cost and/or raise their prices. Given this situation, it is possible that the final rule will have a more substantial adverse impact on small firms relative to larger firms.

However, most of the changes in the final rule, relative to the interim final rule, affect the Department's internal procedures when implementing the rule and will have little impact on small businesses or the broader public. Additionally, many of the changes made from the interim final rule further clarify the scope of ICTS Transactions that the Department may review. These changes may benefit small businesses by reducing uncertainty and, therefore, compliance costs. For example, adding definitions for the terms used in the definition of "ICTS Transaction" and specifying who may be considered a "party or parties to a transaction" that will receive notice of, and an opportunity to respond to, an Initial Determination, may reduce the cost of learning about the final rule by making it easier to understand which entities and transactions are within the rule's scope.

Similarly, removing the requirement that certain ICTS needs to be in use by at least one million persons to be considered ICTS for purposes of the rule will not specifically increase costs to small entities. While eliminating this threshold means more ICTS Transactions could meet the criteria for review, as noted above, the reality is that most transactions reviewed involve the ICTS from one entity, so removal of the threshold will not increase the number of ICTS Transactions the Department reviews. It might, however, reduce the risk (and associated costs) of U.S. companies feeling pressure to track sales counts of ICTS they suspect or know to be connected to foreign adversaries. Again, the Department is removing the threshold not because the Department intends to or seeks to review more ICTS Transactions by small entities, but rather to indicate to the public that the risks associated with ICTS Transactions are not always related to the volume of or number of people involved in such transactions. The Department's reviews focus on risk posed by foreign adversaries and the ICTS involved.

The Department is also implementing changes to facilitate parties' responses to the Secretary's Initial Determination following an ICTS Transaction review

by, for example, explaining the factual basis supporting the Secretary's Initial Determination. Finally, the Secretary is retaining discretion to publish notices of Final Determinations in the **Federal Register** after determining to prohibit or permit an ICTS Transaction with mitigation measures. The Department's publication of notices of certain Final Determinations enables small business to determine whether their ICTS Transactions are substantially similar to those that have been prohibited or to assess, based on published mitigations, whether they can proactively take any steps to reduce the risks potentially associated with the ICTS Transactions in which they engage.

A Description of, and an Explanation of the Basis for, Assumptions Used

SBA size standards for businesses are based on annual receipts and average employment. For the purpose of this analysis, the Department defines a small business as one employing fewer than 500 persons. This definition allows the Department to use recent Census data on firm employment by NAICS industry to estimate the number of affected small entities. The Department does not have access to sufficiently detailed data on firm employment and receipts to make use of the full set of SBA size standard thresholds.

The Department notes, however, that 84% of SBA employee thresholds are above 500, and 91% of SBA receipt thresholds are above \$6 million. Census data show that average receipts for firms employing fewer than 500 employees are \$2.2 million. Thus, using our threshold of 500 employees we estimate that about 99.6% of affected entities are small businesses.

Description of Any Significant Alternatives to the Final Rule That Accomplish the Stated Objectives of Applicable Statutes and That Minimize Any Significant Economic Impact of the Rule on Small Entities

This final rule allows the Secretary to review ICTS Transactions to determine whether they present an undue or unacceptable risk to national security, a function which is currently not performed by any other private or public entity. Private industry often lacks the incentive, information, or resources to review their ICTS purchases for malicious suppliers or other potentially bad actors in the ICTS supply chain. The U.S. Government is uniquely situated to determine threats and protect national security, including economic security.

The Department considered two regulatory alternatives to reduce the

burden on small entities: (1) excluding small entities with 5 or fewer employees, and (2) excluding certain industries and sectors. However, the Department determined that neither of these alternatives would achieve the goal of protecting national security, nor would they eliminate the Rule's significant economic impact on a substantial number of small entities.

- *No-action alternative:* Rescinding the interim final rule and, accordingly, not implementing a rule under the E.O. is not a viable alternative because E.O. 13873 expressly directs that the Secretary "shall publish rules or regulations implementing the authorities delegated to the Secretary by this order," to address the national security concerns associated with ICTS Transactions in the United States involving foreign adversaries that may create or exploit vulnerabilities in ICTS.

- *Alternative that would categorically exclude small entities or groups of small entities:* The Department considered providing an exemption for small entities that have 5 or fewer employees (smallest entities). According to Census Bureau data, about 6 in 10 employer firms have fewer than 5 employees. The Department also examined the feasibility of eliminating the application of the rule to certain small entities involved in specific industries or sectors by excluding: (a) ICTS Transactions that involve only the acquisition of commercial products as defined by Federal Acquisition Regulation Part 2.101; (b) ICTS Transactions that are used solely for the purpose of cybersecurity mitigation or legitimate cybersecurity research; or (c) ICTS Transactions under which a U.S. person is subject to a security control agreement, special security agreement, or proxy agreement approved by a cognizant security agency to offset foreign ownership, control, or influence pursuant to the National Industrial Security Program regulations (32 CFR part 2004). Ultimately, the Department decided against adopting these regulatory alternatives. Exempting certain industries or sectors or eliminating the application of the final rule to smallest entities could inadvertently allow potentially problematic transactions that are substantially similar to those conducted by non-exempt entities to avoid review, undermining the national security objectives of E.O. 13873. For example, a company that is headquartered in a foreign adversary country, regardless of its size or main industry sector, may be involved in legitimate cybersecurity research and development initiatives performed under the National

Cooperative Research and Production Act (15 U.S.C. 4301–06) and the foreign company may study foreign equipment to gain insights on new innovations or potential network security risks. However, that same company may also be conducting operations during other ICTS Transactions that could harm U.S. national security interests. By promulgating the chosen alternative for the rule, the Department sought to remove both the possibility for confusion as well as the ability for malicious actors to argue that some legitimate cybersecurity research performed by a company would exempt all cybersecurity research by a company, legitimate or otherwise. Thus, the rule applies to types of ICTS Transactions most affecting U.S. national security and does not exempt categories of industries, sectors, or entities from review.

- *Preferred alternative:* The final rule is the preferred alternative. It would achieve the objectives of E.O. 13873 by implementing procedures that will allow the Secretary to apply a case-by-case, fact-specific review of ICTS Transactions or classes of Transactions that may pose an undue or unacceptable risk to U.S. national security, critical infrastructure, or U.S. persons and address any identified risks by prohibiting transactions or requiring the implementation of mitigation measures.

Section 212 of the Small Business Regulatory Enforcement Fairness Act of 1996 states that, for each rule or group of related rules for which an agency is required to prepare a FRFA, the agency shall publish one or more guides to assist small entities in complying with the rule and shall designate such publications as "small entity compliance guides." The Department shall explain the actions a small entity is required to take to comply with a rule or group of rules.

C. Paperwork Reduction Act

The Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA) provides that an agency generally cannot conduct or sponsor a collection of information, and no person is required to respond to nor be subject to a penalty for failure to comply with a collection of information, unless that collection has obtained Office of Management and Budget (OMB) approval and displays a currently valid OMB Control Number. This final rule does not contain a collection of information requirement subject to review and approval by OMB under the PRA.

D. Unfunded Mandates Reform Act of 1995

This rule would not create a Federal mandate (under the regulatory provisions of Title II of the Unfunded Mandates Reform Act of 1995) for State, local, and tribal governments or the private sector.

E. Executive Order 13132 (Federalism)

This rule does not contain policies having federalism implications requiring preparations of a Federalism Summary Impact Statement.

F. Executive Order 12630

(Governmental Actions and Interference With Constitutionally Protected Property Rights)

This rule does not contain policies that have unconstitutional takings implications.

G. Executive Order 13175 (Consultation and Coordination With Indian Tribes)

The Department has analyzed this rule under Executive Order 13175 and has determined that the action would not have a substantial direct effect on one or more Indian tribes, would not impose substantial direct compliance costs on Indian tribal governments, and would not preempt tribal law.

H. National Environmental Policy Act

The Department has reviewed this rulemaking action for the purposes of the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*). It has determined that this final rule would not have a significant impact on the quality of the human environment.

I. Congressional Review Act

This rule has been determined to be a “major rule” under the Congressional Review Act (5 U.S.C. 801 *et seq.*).

List of Subjects in 15 CFR Part 791

Administrative practice and procedure, Business and industry, Communications, Computer technology, Critical infrastructure, Executive orders, Foreign persons, Investigations, National security, Penalties, Technology, Telecommunications.

For the reasons stated in the preamble, the Department amends 15 CFR part 791 as follows:

PART 791—SECURING THE INFORMATION AND COMMUNICATIONS TECHNOLOGY AND SERVICES SUPPLY CHAIN

■ 1. The authority citation for 15 CFR Part 791 continues to read as follows:

Authority: 50 U.S.C. 1701 *et seq.*; 50 U.S.C. 1601 *et seq.*; E.O. 13873, 84 FR 22689; E.O. 14034, 86 FR 31423.

■ 2. In Part 791, remove the text “initial determination” wherever it appears, and add, in its place, the text “Initial Determination”.

■ 3. In Part 791, remove the text “final determination” wherever it appears, and add, in its place, the text “Final Determination”.

■ 4. Amend § 791.1 by revising paragraph (a)(1) to read as follows:

§ 791.1 Purpose.

(a) * * *

(1) Determine whether any acquisition, importation, transfer, installation, dealing in, or use of any information and communications technology or service, including but not limited to connected software applications, (ICTS Transaction) that has been designed, developed, manufactured, or supplied by persons owned by, controlled by, or subject to the jurisdiction or direction of foreign adversaries poses certain undue or unacceptable risks as identified in the Executive Order 13873. For purposes of these regulations, the Secretary will consider information and communications technology and services (ICTS) to be designed, developed, manufactured, or supplied by a person owned by, controlled by, or subject to the jurisdiction of a foreign adversary where such a person operates, manages, maintains, repairs, updates, or services the ICTS;

* * * * *

■ 5. Amend § 791.2 by:

■ a. Revising the definition of “Appropriate agency heads”;

■ b. Adding in alphabetical order definitions for “Covered ICTS Transaction”, “Dealing in”, and “Importation”;

■ c. Revising the definitions of “Party or parties to a Transaction”, “Person owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary”, “Secretary”, and “United States Person”.

The additions and revisions read as follows:

§ 791.2 Definitions.

Appropriate agency heads means the Secretary of the Treasury, the Secretary of State, the Secretary of Defense, the Attorney General, the Secretary of Homeland Security, the United States Trade Representative, the Director of National Intelligence, the Administrator of General Services, the Chairman of the Federal Communications Commission, and the heads of any other executive departments and agencies the Secretary determines is appropriate, or their designees.

* * * * *

Covered ICTS Transaction means an ICTS Transaction or a class of ICTS Transactions that meets the criteria set forth in § 791.3.

Dealing in means the activity of buying, selling, reselling, receiving, licensing, or acquiring ICTS, or otherwise doing or engaging in business involving the conveyance of ICTS.

* * * * *

Importation means the process or activity of bringing foreign ICTS to or into the United States, regardless of the means of conveyance, including via electronic transmission.

* * * * *

Party or parties to a Transaction means a person or persons engaged in an ICTS Transaction or class of ICTS Transactions, including, but not limited to the following: designer, developer, provider, buyer, purchaser, seller, transferor, licensor, broker, acquirer, intermediary (including consignee), and end user. Party or parties to a Transaction include entities designed, or otherwise used with the intention, to evade or circumvent application of the Executive Order. For purposes of this rule, this definition does not include common carriers, except to the extent that a common carrier knew or should have known (as the term “knowledge” is defined in 15 CFR 772.1) that it was providing transportation services of ICTS to one or more of the parties to a Transaction that has been prohibited in a final written determination made by the Secretary or, if permitted subject to mitigation measures, in violation of such mitigation measures.

* * * * *

Person owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary means:

(1) Any person, wherever located, who acts as an agent, representative, or employee, or any person who acts in any other capacity at the order, request, or under the direction or control, of a foreign adversary or of a person whose activities are directly or indirectly supervised, directed, controlled, financed, or subsidized in whole or in majority part by a foreign adversary;

(2) Any person, wherever located, who is a citizen or resident of a foreign adversary or a country controlled by a foreign adversary, and is not a United States citizen or permanent resident of the United States;

(3) Any corporation, partnership, association, or other organization with a principal place of business in, headquartered in, incorporated in, or otherwise organized under the laws of a foreign adversary or a country controlled by a foreign adversary; or

(4) Any corporation, partnership, association, or other organization, wherever organized or doing business, that is owned or controlled by a foreign adversary, to include circumstances in which any person identified in paragraphs (1) through (3) of this definition possesses the power, direct or indirect, whether or not exercised, through the ownership of a majority or a dominant minority of the total outstanding voting interest in an entity, board representation, proxy voting, a special share, contractual arrangements, formal or informal arrangements to act in concert, or other means, to determine, direct, or decide important matters affecting an entity.

Secretary means the Secretary of Commerce or the Secretary's designee, including for example the Under Secretary of Commerce for Industry and Security or the Executive Director of the Office of Information and Communications Technology and Services.

* * * * *

United States person means any United States citizen; any permanent resident alien; any entity organized under the laws of the United States or any jurisdiction within the United States (including such entity's foreign branches); or any person in the United States.

* * * * *

■ 6. Amend § 791.3 by revising paragraphs (a)(2), (4) and (b), and removing paragraph (c), to read as follows:

§ 791.3 Scope of Covered ICTS Transactions.

(a) The Secretary may continue review under § 791.103(b) of this part for any ICTS Transaction that:

* * * * *

(2) Involves any property in which any foreign country or a national thereof has any interest of any nature whatsoever, whether direct or indirect (including through an interest in a contract for the provision of the technology or service);

* * * * *

(4) Involves ICTS and software, hardware, or any other product or service integral to one of the following:

(i) Information and communications hardware and software, including

(A) Wireless local area networks;

(B) Mobile networks;

(C) Satellite payloads;

(D) Satellite operations and control;

(E) Internet-enabled sensors, cameras, and any other end-point surveillance or monitoring device, or any device that includes these components such as drones;

(F) Routers, modems, and any other networking devices;

(G) Cable access points;

(H) Wireline access points;

(I) Core networking systems;

(J) Long- and short-haul networks;

(ii) Data hosting, computing or storage, including software, hardware, or any other product or service integral to data hosting or computing services, including software-defined services such as virtual private servers, that uses, processes, or retains, or is expected to use, process, or retain, sensitive personal data of United States persons, including:

(A) Internet hosting services;

(B) Cloud-based or distributed computing and data storage;

(C) Managed services; and

(D) Content delivery services;

(iii) Connected software applications, including software designed primarily to enable connecting with and communicating via the internet, which is accessible through cable, telephone line, wireless, or satellite or other means, that is in use by United States persons at any point over the twelve (12) months preceding an ICTS Transaction, including connected software applications, such as but not limited to, desktop applications, mobile applications, gaming applications, and web-based applications;

(iv) Critical infrastructure, including any subsectors of the chemical, commercial facilities, communications, critical manufacturing, dams, defense industrial base, emergency services, energy, financial services, food and agriculture, government services and facilities, health care and public health, information technology, nuclear reactors, materials, and waste, transportation systems, and water and wastewater systems sectors, and

(v) Critical and emerging technologies, including advanced network sensing and signature management; advanced computing; artificial intelligence; clean energy generation and storage; data privacy, data security, and cybersecurity technologies; highly automated, autonomous, and uncrewed systems and robotics; integrated communication and networking technologies; positioning, navigation, and timing technologies; quantum information and enabling technologies; semiconductors and microelectronics; and biotechnology.

(b) The Secretary will not continue review of an ICTS Transaction under § 791.103 if the Secretary finds that:

(1) The ICTS Transaction involves the acquisition of ICTS items by a United States person as a party to a transaction

authorized under a U.S. government-industrial security program; or

(2) The Committee on Foreign Investment in the United States (CFIUS) is conducting a review, investigation, or assessment, or has concluded action on, the specific ICTS Transaction as a covered transaction under section 721(a)(4) of the Defense Production Act of 1950, as amended, and its implementing regulations.

■ 7. Amend § 791.4 by revising paragraphs (a)(1), (c) introductory text, (c)(2), (c)(3), and (d), and by removing the second parenthetical “(d)” from § 791.4(d) to read as follows:

§ 791.4 Determination of foreign adversaries.

(a) * * *

(1) The People's Republic of China, including the Hong Kong Special Administrative Region and the Macau Special Administrative Region (China);

* * * * *

(c) The Secretary's determination is based on multiple sources, including but not limited to:

* * * * *

(2) The Director of National Intelligence's Worldwide Threat Assessments of the U.S. Intelligence Community;

(3) The National Cyber Strategy of the United States of America; and

* * * * *

(d) The Secretary will periodically review this list in consultation with appropriate agency heads and may add to, subtract from, supplement, or otherwise amend this list. Any amendment to this list will apply to any ICTS Transaction that is initiated, pending, or completed on or after the date that the list is amended.

■ 8. Amend § 791.100 by revising paragraph (a) introductory text, (a)(6), (7), (8), and (9), paragraph (c) introductory text, paragraph (d) introductory text, (d)(5), and (e) to read as follows:

§ 791.100 General.

* * * * *

(a) Consider any and all relevant information held by, or otherwise made available to, the Federal Government that is not otherwise restricted by law for use for this purpose, including:

* * * * *

(6) Information obtained through the authority granted under sections 2(a) and (c) of the Executive Order and IEEPA, as set forth in § 791.101 of this part;

(7) Information provided by any other U.S. Government national security body, in each case only to the extent

necessary for national security purposes, and subject to applicable confidentiality and classification requirements, including the Committee for the Assessment of Foreign Participation in the United States Telecommunications Services Sector and the Federal Acquisitions Security Council and its designated information-sharing bodies;

(8) Information or referrals provided by any other U.S. Government agency, department, or other regulatory body; and

(9) Information provided voluntarily by private industry.

* * * * *

(c) Determine, in consultation with the appropriate agency heads, whether an ICTS Transaction involves ICTS designed, developed, manufactured, or supplied, by persons owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary, and in making a determination, the Department may consider the following:

* * * * *

(d) Determine, in consultation with the appropriate agency heads, whether a Covered ICTS Transaction poses an undue or unacceptable risk, considering the following:

* * * * *

(5) Actual or potential threats to execution of a "National Critical Function" identified by the Department of Homeland Security Cybersecurity and Infrastructure Security Agency;

* * * * *

(e) In the event the Secretary finds that unusual and extraordinary harm to the national security of the United States is likely to occur if all of the procedures specified herein are followed, deviate from these procedures in a manner tailored to protect against that harm.

■ 9. Revise paragraphs (a) and (b) of § 791.101 to read as follows:

§ 791.101 Information to be furnished on demand.

(a) Pursuant to the authority granted to the Secretary under sections 2(a), 2(b), and 2(c) of the Executive Order and IEEPA, the Secretary may require any person to furnish under oath, in the form of reports or otherwise, at any time as may be required by the Secretary, complete information relative to any act or transaction, subject to the provisions of this part. The Secretary may require that such reports include the production of any books, contracts, letters, papers, or other hard copy or electronic documents relating to any such act, transaction, or property, in the custody

or control of the persons required to make such reports. Reports with respect to transactions may be required from before, during, or after such transactions. The Secretary may, through any person or agency, conduct investigations, hold hearings, administer oaths, examine witnesses, receive evidence, take depositions, and require by subpoena the attendance and testimony of witnesses and the production of any books, contracts, letters, papers, and other hard copy or documents relating to any matter under investigation, regardless of whether any report has been required or filed in connection therewith.

(b) For purposes of paragraph (a) of this section, the term "document" includes any written, recorded, or graphic matter or other means of preserving thought or expression (including in electronic format), and all tangible things stored in any medium from which information can be processed, transcribed, or obtained directly or indirectly, including correspondence, memoranda, notes, messages, contemporaneous communications such as text and instant messages, letters, emails, spreadsheets, metadata, contracts, bulletins, diaries, chronological data, minutes, books, reports, examinations, charts, ledgers, books of account, invoices, air waybills, bills of lading, worksheets, receipts, printouts, papers, schedules, affidavits, presentations, transcripts, surveys, graphic representations of any kind, drawings, photographs, images, graphs, video or sound recordings, and motion pictures or other media such as film.

* * * * *

■ 10. Amend § 791.102 by revising the introductory text of paragraph (b), (b)(4) through (6), and adding (b)(7) to read as follows:

§ 791.102 Confidentiality of information.

* * * * *

(b) The Secretary may, subject to appropriate confidentiality and classification requirements, disclose information or documentary materials that are not otherwise publicly or commercially available and referenced in paragraph (a) of this section in the following circumstances:

* * * * *

(4) Pursuant to a request from any domestic governmental entity or any foreign governmental entity of a United States ally or partner, but only to the extent necessary for national security purposes;

(5) Where the parties or a party to a transaction have consented, the

information or documentary material that is not otherwise publicly or commercially available may be disclosed to third parties;

(6) Where the Secretary has determined that at least one Covered ICTS Transaction related to the information or documents presents an undue or unacceptable risk, and disclosure to the public or to affected third parties is necessary to prevent or significantly reduce imminent harm to U.S. national security, or the security and safety of United States persons; and

(7) Any other purpose authorized by law.

* * * * *

■ 11. Revise § 791.103 to read as follows:

§ 791.103 Review of ICTS Transactions.

(a) After considering materials described in § 791.100(a), the Secretary may, at the Secretary's discretion, initiate a review of an ICTS Transaction.

(b) As part of the review, the Secretary will assess whether the transaction:

(1) Constitutes a Covered ICTS Transaction, as described in § 791.3;

(2) Involves ICTS designed, developed, manufactured, or supplied by persons owned by, controlled by, or subject to the jurisdiction or direction of a foreign adversary, as described in § 791.100(c); and

(3) Poses an undue or unacceptable risk as described in §§ 791.100(d) and 791.103(c).

(c) In assessing whether the Covered ICTS Transaction poses an undue or unacceptable risk, the Secretary may evaluate, among other relevant factors, the following criteria:

(1) The nature and characteristics of the ICTS at issue in the Covered ICTS Transaction, including technical capabilities, applications, and market share considerations;

(2) The nature and degree of the ownership, control, direction, or jurisdiction exercised by the foreign adversary or foreign adversary persons over the design, development, manufacture, or supply at issue in the Covered ICTS Transaction, to include:

(i) The ownership, control, or management by persons that support a foreign adversary's military, intelligence, or proliferation activities; and

(ii) The ownership, control, or management by persons involved in malicious cyber-enabled activities;

(3) The statements and actions of the foreign adversary at issue in the Covered ICTS Transaction;

(4) The statements and actions of the persons involved in the design,

development, manufacture, or supply of the ICTS at issue in the Covered ICTS Transaction;

(5) The statements and actions of the parties to the Covered ICTS Transaction;

(6) Whether the Covered ICTS Transaction poses a discrete or persistent threat;

(7) The nature and characteristics of the customer base, business relationships, and operating locations of the parties to the Covered ICTS Transaction;

(8) Whether there is an ability to otherwise mitigate the risks posed by the Covered ICTS Transaction;

(9) The severity of the harm posed by the Covered ICTS Transaction on at least one of the following:

- (i) Health, safety, and security;
- (ii) Critical infrastructure;
- (iii) Sensitive data;
- (iv) The economy;
- (v) Foreign policy;
- (vi) The natural environment; and
- (vii) National Essential Functions (as defined by Federal Continuity Directive-2 (FCD-2));

(10) The likelihood that the Covered ICTS Transaction will result in the threatened harm; and

(11) For ICTS Transactions involving connected software applications:

(i) the number and sensitivity of the users with access to the connected software application;

(ii) the scope and sensitivity of any data collected by the connected software application;

(iii) any use of the connected software application to conduct surveillance that enables espionage, including through a foreign adversary's access to sensitive or confidential government or business information, or sensitive personal data;

(iv) whether there is regular, thorough, and reliable third-party auditing of the connected software application; and

(v) the extent to which identified risks have been or can be mitigated using measures that can be verified by independent third parties.

(d) If the Secretary finds that an ICTS Transaction does not meet the criteria of paragraph (b) of this section:

(1) The transaction shall no longer be under review; and

(2) Future review of the transaction shall not be precluded, where additional information becomes available to the Secretary.

■ 12. Revise § 791.104 to read as follows:

§ 791.104 First interagency notification.

(a) If the Secretary assesses that an ICTS Transaction meets the criteria under § 791.103(b), the Secretary shall

memorialize that assessment, provide the assessment to the appropriate agency heads, and offer the appropriate agency heads twenty-one (21) days to comment in writing on the Secretary's assessment.

(b) If the Secretary does not receive written comments on the assessment from an appropriate agency head within twenty-one (21) days of notification, the Secretary may presume that agency has no comments.

(c) The Secretary may, at the Secretary's discretion, modify or revise the assessment based on comments received from the appropriate agency heads. The Secretary retains discretion to make an Initial Determination, as provided in § 791.105, regardless of the comments received.

■ 13. Revise § 791.105 to read as follows:

§ 791.105 Initial Determination.

(a) If, after notifying the appropriate agency heads as required by § 791.104 and considering any comments received, the Secretary determines that the Covered ICTS Transaction does not meet the criteria set forth in § 791.103:

(1) The transaction shall no longer be under review; and

(2) Future review of the transaction shall not be precluded, where additional information becomes available to the Secretary.

(b) If, after notifying the appropriate agency heads as required by § 791.104 and considering any comments received, the Secretary determines that the Covered ICTS Transaction meets the criteria set forth in § 791.103, the Secretary shall:

(1) Make a written Initial Determination, which shall be dated and signed by the Secretary, that:

(i) Explains why the ICTS Transaction meets the criteria set forth in § 791.103;

(ii) Sets forth whether the Secretary proposes to prohibit the Covered ICTS Transaction or to impose mitigation measures, by which the Covered ICTS Transaction may be permitted; and

(iii) Provides information regarding the factual basis supporting the decision that is set forth pursuant to subparagraph (ii) above;

(2) Provide at least twenty-one (21) calendar days' notice to the appropriate agency heads of the proposed Initial Determination prior to taking any action under 791.105(b)(3); and

(3) Notify a party or the parties to the Covered ICTS Transaction by:

(i) Serving a copy of the Initial Determination to the identified parties to the Covered ICTS Transaction when the Covered ICTS Transaction under review consists of a single transaction or

a set of transactions between a limited number of parties (for example, the sale of ICTS by a company with a foreign nexus to an identified United States person); or

(ii) Serving a copy of the Initial Determination to the person whose ICTS the Secretary determines constitutes the Covered ICTS Transactions under review when the number of U.S. parties or users acquiring, importing, transferring, installing, dealing in, or using the ICTS is unknown or unidentified, or notice to such U.S. parties or users is not feasible or appropriate (for example, when individual consumers purchase the ICTS through an online service or at a retail location).

(c) Notwithstanding the fact that the Initial Determination to prohibit or propose mitigation measures on an ICTS Transaction may, in whole or in part, rely upon classified national security information, or sensitive but unclassified information, the Initial Determination will contain no classified national security information, nor reference thereto, and, at the Secretary's discretion, may not contain controlled unclassified information.

(d) Notwithstanding paragraph (b)(3) of this section, the Secretary may, at the Secretary's discretion, determine to publish any notice of an Initial Determination in the **Federal Register**.

■ 14. Revise § 791.106 to read as follows:

§ 791.106 Recordkeeping requirement.

Upon notification that an ICTS Transaction is under review, such as, though not limited to, through a demand for information or documents related to an ICTS Transaction under § 791.101 or a notification that an Initial Determination concerning an ICTS Transaction has been made, a notified person must immediately take steps to retain any and all records relating to such Transaction and must retain such records for no less than ten (10) years following a Final Determination made under § 791.109 or as otherwise indicated in the Final Determination. If a notified person receives no notification that an Initial Determination concerning an ICTS Transaction has been made within ten (10) years of notification that an ICTS Transaction is under review, then the recordkeeping obligation will extend for ten (10) years following the initial notification of an ICTS Transaction review unless the notified person is informed otherwise by the Secretary.

■ 15. Amend § 791.107 by revising the introductory text, paragraphs (c), (e), (f) to read as follows:

§ 791.107 Procedures governing response and mitigation.

Within 30 days of service of the Secretary's Initial Determination pursuant to § 791.105, a party to a transaction may respond to the Initial Determination or assert that the circumstances resulting in the Initial Determination no longer apply, and thus seek to have the Initial Determination rescinded or mitigated pursuant to the following administrative procedures:

* * * * *

(c) All submissions under this section must be made in writing.

(1) The Secretary may, for good cause, extend the time to provide a written submission pursuant to this section.

(2) Any extensions granted pursuant to this section shall not exceed thirty (30) days.

(3) A written submission to the Secretary pursuant to this section may not exceed fifty (50) pages without approval from the Secretary prior to the expiration of time for a party's response.

(4) A written submission to the Secretary may include business confidential information. Any business confidential information must be clearly and specifically demarcated. Publicly available information should not be marked business confidential.

* * * * *

(e) This rule creates no right in any person to obtain access to information in the possession of the U.S. Government that was considered in making the Initial Determination, to include classified national security information or sensitive but unclassified information; and

(f) If the Department receives no response from the parties within 30 days after service of the Initial Determination to the parties, the Secretary may issue a Final Determination without the need to engage in the consultation process provided in section 791.108 of this rule.

■ 16. Revise § 791.108 to read as follows:

§ 791.108 Interagency consultation on the Final Determination.

(a) Upon receipt of any submission by a party to a transaction under § 791.107, the Secretary shall consider whether and how the information provided—including proposed mitigation measures—affects an Initial Determination.

(b) After considering the effect of any submission by a party to a transaction under § 791.107 consistent with paragraph (a) of this section, the Secretary shall provide notice in writing of the proposed Final Determination

and consult with and seek concurrence from all appropriate agency heads prior to issuing a Final Determination as to whether the Covered ICTS Transaction shall be prohibited, not prohibited, or permitted pursuant to the adoption of negotiated mitigation measures.

(c) If the appropriate agency heads under paragraph (b) of this section concur, the Secretary shall issue a Final Determination pursuant to § 791.109. If an appropriate agency head provides no response within fourteen (14) days of the agency receiving the notice in writing of the proposed Final Determination, the Secretary may presume concurrence. If an agency objects to the Final Determination, such objection must be submitted by the agency's Deputy Secretary or equivalent or higher level within the 14 days.

■ 17. Revise § 791.109 to read as follows:

§ 791.109 Final Determination.

(a) For each Covered ICTS Transaction for which the Secretary issues an Initial Determination, the Secretary shall issue a Final Determination as to whether the Covered ICTS Transaction is:

- (1) Prohibited;
- (2) Not prohibited; or
- (3) Permitted, at the Secretary's

discretion, pursuant to the adoption of mitigation measures.

(b) Unless the Secretary, at the Secretary's sole discretion, determines in writing that additional time is necessary, the Secretary shall issue the Final Determination within 180 days of serving the Initial Determination pursuant to § 791.105(b)(3).

(c) If the Secretary determines that a Covered ICTS Transaction is prohibited, the Secretary shall direct the means that the Secretary assesses to be necessary to address the undue or unacceptable risk posed by the Covered ICTS Transaction.

(d) The Final Determination shall:

- (1) Be written, signed, and dated;
- (2) Describe the Secretary's

determination;

(3) Be unclassified and contain no reference to classified national security information;

(4) Consider and address any information received from a party or parties to the transaction;

(5) Direct, if applicable, the timing and manner of the cessation of the Covered ICTS Transaction;

(6) Explain, if applicable, that a Final Determination that the Covered ICTS Transaction is not prohibited does not preclude the future review of transactions related in any way to the Covered ICTS Transaction;

(7) Include, if applicable, a description of the mitigation measures

agreed upon by the party or parties to the transaction and the Secretary;

(8) State the penalties a party will face if it fails to comply fully with any mitigation agreement or direction, including violations of IEEPA, or other violations of law; and

(9) Include, if applicable, how the Department may transition a mitigation agreement to a prohibition should a party or parties fail to comply with any mitigation agreement or obligations, or violate IEEPA or other law.

(e) The written, signed, and dated Final Determination shall be sent to:

(1) The party or parties to the transaction that are identified in the Final Determination via registered U.S. mail and electronic mail; and

(2) The appropriate agency heads.

(f) The Secretary shall publish a notice of any Final Determination to prohibit an ICTS Transaction in the **Federal Register**. The Secretary shall also publish a notice of Final Determination for any ICTS Transaction for which the Secretary published a notice of an Initial Determination. The Secretary may publish a notice of a Final Determination to mitigate an ICTS Transaction in the **Federal Register**. Any notice of a Final Determination that is published in the **Federal Register** shall omit any confidential business information.

■ 18. Revise § 791.200 to read as follows:

§ 791.200 Penalties.

(a) *Prohibited activities.* (1) No person shall be a party to an ICTS Transaction that is prohibited by a Final Determination issued under this part, unless authorized by the Secretary.

(2) No person shall aid, abet, counsel, command, induce, facilitate, procure, or otherwise engage in conduct with knowledge that such conduct is prohibited by, or contrary to a Final Determination issued under this part, unless authorized by the Secretary.

(3) No person shall be a party to an ICTS Transaction in a manner that is contrary to any direction, regulation, or condition published under this part.

(4) No person shall aid, abet, counsel, command, induce, facilitate, procure, or otherwise engage in conduct with knowledge that such conduct is contrary to the terms of a mitigation agreement under this part.

(5) Any ICTS Transaction that has the purpose of evading or avoiding, causes a violation of, or attempts to violate, any of the prohibitions set forth in this section is prohibited.

(6) Any conspiracy formed to violate any of the prohibitions set forth in this section is prohibited.

(7) Any approval, financing, facilitation, or guarantee by a United States person, wherever located, of an ICTS Transaction by a foreign person where the ICTS Transaction by that foreign person would be prohibited by this order if performed by a United States person or within the United States, is prohibited.

(8) No person may, whether directly or indirectly through any other person, make any false or misleading representation, statement, or certification, or falsify or conceal any material fact, to the Department:

(i) In the course of an ICTS Transaction review, in order to secure a benefit or avoid a prohibition, including in proposing and agreeing to mitigation measures; or

(ii) In connection with the preparation, submission, issuance, use, or maintenance of any report filed or required to be filed pursuant to this part.

(9) Additional requirements:

(i) For purposes of paragraph (a)(8), any representation, statement, or certification made by any person shall be deemed to be continuing in effect until the person notifies the Department in accordance with paragraph (a)(9)(ii).

(ii) Any person who makes a representation, statement, or certification to the Department relating to any ICTS Transaction review shall notify the Department, in writing, of any change of any material fact or intention from that previously represented, stated, or certified, immediately upon receipt of any information that would lead a reasonably prudent person to know that a change of material fact or intention had occurred or may occur in the future.

(b) *Maximum penalties*—(1) *Civil penalty*. A civil penalty not to exceed the amount set forth in Section 206 of IEEPA, 50 U.S.C. 1705, may be imposed on any person who violates, attempts to violate, conspires to violate, or causes any knowing violation of paragraph (a) of this section. IEEPA provides for a maximum civil penalty not to exceed the greater of \$250,000 per violation, subject to inflationary adjustment, or an amount that is twice the amount of the transaction that is the basis of the violation with respect to which the penalty is imposed.

(i) Notice of the penalty, including a written explanation of the penalized conduct specifying the laws and regulations allegedly violated and the amount of the proposed penalty, and notifying the recipient of a right to make a written petition within 30 days as to why a penalty should not be imposed, shall be served on the person.

(ii) The Secretary shall review any presentation and issue a final administrative decision within 30 days of receipt of the petition.

(2) *Criminal penalty*. A person who willfully commits, willfully attempts to commit, or willfully conspires to commit, or aids and abets in the commission of a violation of paragraph (a) of this section shall, upon conviction of a violation of IEEPA, be fined not more than \$1,000,000, or if a natural person, may be imprisoned for not more than 20 years, or both.

(3) Any civil penalties authorized in this section may be recovered in a civil action brought by the United States in U.S. district court.

(c) *Adjustments to penalty amounts*.

(1) The civil penalties provided in IEEPA are subject to adjustment pursuant to the Federal Civil Penalties Inflation Adjustment Act of 1990 (Pub. L. 101–410, as amended, 28 U.S.C. 2461 note).

(2) The criminal penalties provided in IEEPA are subject to adjustment pursuant to 18 U.S.C. 3571.

(d) *Available penalties*. The penalties available under this section are without prejudice to other penalties, civil or criminal, available under law. Attention is directed to 18 U.S.C. 1001, which provides that whoever, in any matter within the jurisdiction of any department or agency in the United States, knowingly and willfully falsifies, conceals, or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious, or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious, or fraudulent statement or entry, shall be fined under title 18, United States Code, or imprisoned not more than 5 years, or both.

Elizabeth L.D. Cannon,

Executive Director, Office of Information and Communications Technology and Services.

BILLING CODE 3510–20–P

COMMODITY FUTURES TRADING COMMISSION

17 CFR Part 40

RIN 3038–AF28

Provisions Common to Registered Entities; Correction

AGENCY: Commodity Futures Trading Commission.

ACTION: Final rule; correction.

SUMMARY: The Commodity Futures Trading Commission (Commission) is

correcting a final rule that appeared in the **Federal Register** on November 7, 2024. The document clarified, simplified and enhanced the utility of certain regulations for registered entities, market participants and the Commission that govern how registered entities submit self-certifications, and requests for approval, of their rules, rule amendments, and new products for trading and clearing, as well as the Commission's review and processing of such submissions.

DATES: Effective December 9, 2024.

FOR FURTHER INFORMATION CONTACT:

Rachel Kaplan, Senior Special Counsel, rkaplan@cftc.gov, 202–418–6233, Steven Benton, Industry Economist, sbenton@cftc.gov, 202–418–5617, and Nancy Markowitz, Deputy Director, nmarkowitz@cftc.gov, 202–418–5453, Division of Market Oversight, and Eileen Chotiner, Senior Compliance Analyst, echotiner@cftc.gov, 202–418–5467, Division of Clearing and Risk, Commodity Futures Trading Commission, Three Lafayette Centre, 1151 21st Street NW, Washington, DC 20581.

SUPPLEMENTARY INFORMATION: In FR Doc. 2024–24388 appearing on page 88594 in the **Federal Register** of Thursday, November 7, 2024, the following corrections are made:

§ 40.2 [Corrected]

■ 1. On page 88623 in the second column, in § 40.2, before the first sentence in paragraph (a) introductory text, add the paragraph heading “*Submission requirements*.”.

§ 40.5 [Corrected]

■ 2. On page 88625 in the first column, in § 40.5, in amendment 9h, the instruction “Revising paragraph (d) introductory text and (d)(1);” is corrected to read “Revising paragraph (d) introductory text and adding new paragraph (d)(1);”

■ 3. On page 88625 in the second column, in § 40.5, in amendment 9m, the instruction “Redesignating paragraphs (f)(1) and (2) as paragraphs (e)(1) and (2) respectively; and” is corrected to read “Redesignating paragraph (f) as paragraph (e) and revising newly redesignated paragraph (e); and”

■ 4. On page 88625 in the second column, in § 40.5, remove amendment 9n.

■ 5. On page 88625 in the third column, in § 40.5, “(c) * * *” is corrected to read “(c) *Commission review*.”.

Dated: December 3, 2024.

Robert Sidman,

Deputy Secretary of the Commission.

BILLING CODE 6351–01–P

DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

19 CFR Chapter I

Termination of Arrival Restrictions Applicable to Flights Carrying Persons Who Have Recently Traveled From or Were Otherwise Present Within Rwanda

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Announcement of termination of arrival restrictions.

SUMMARY: This document announces the decision of the Secretary of Homeland Security to terminate arrival restrictions applicable to flights to the United States carrying persons who have recently traveled from, or were otherwise present within, Rwanda. These restrictions directed such flights to arrive at one of the U.S. airports where the U.S. government had focused public health resources to implement enhanced public health measures.

DATES: The arrival restrictions applicable to flights to the United States carrying persons who have recently traveled from, or were otherwise present within, Rwanda are terminated for flights departing after 11:59 p.m. Eastern Standard Time on December 4, 2024.

FOR FURTHER INFORMATION CONTACT: Stephanie Watson, Office of Field Operations, U.S. Customs and Border Protection at 202–255–7018.

SUPPLEMENTARY INFORMATION:

Background

On October 15, 2024, the Secretary of Homeland Security announced arrival restrictions applicable to flights to the United States carrying persons who have recently traveled from, or were otherwise present within, Rwanda due to an outbreak of Marburg Virus Disease (MVD) in Rwanda. (89 FR 83620). These restrictions directed such flights to arrive at one of the U.S. airports where the U.S. government focused public health resources to implement enhanced public health measures. For purposes of that document, a person had recently traveled from Rwanda if that person had departed from, or was otherwise present within, Rwanda within 21 days of the

date of the person's entry or attempted entry into the United States. Also, for purposes of that document, crew and flights carrying only cargo (*i.e.*, no passengers or non-crew) were excluded from those measures.

The Secretary has decided to terminate the above arrival restrictions. The last unlinked case of MVD was isolated in Rwanda on October 24, 2024, and 42 days (two 21-day incubation periods) will have passed by the time the termination takes effect. Additionally, since October 30, 2024, there have been no new confirmed MVD cases reported in Rwanda, no new chains of transmission, and no new districts reporting local case transmissions. Therefore, arrival restrictions are no longer required for flights to the United States carrying persons who have recently traveled from, or were otherwise present within, Rwanda.

Notice of Termination of Arrival Restrictions Applicable to All Flights Carrying Persons Who Have Recently Traveled From or Were Otherwise Present Within Rwanda

Pursuant to 6 U.S.C. 112(a), 19 U.S.C. 1433(c), and 19 CFR 122.32, for flights departing after 11:59 p.m. Eastern Standard Time on December 4, 2024, I hereby terminate the arrival restrictions applicable to flights to the United States carrying persons who have recently traveled from, or were otherwise present within, Rwanda announced in the Arrival Restrictions document published at 89 FR 83620 (Oct. 17, 2024).

Alejandro N. Mayorkas,

Secretary, U.S. Department of Homeland Security.

[FR Doc. 2024–28582 Filed 12–4–24; 4:15 pm]

BILLING CODE 9111–14–P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

24 CFR Part 5

[Docket No. FR–6464–F–02]

RIN 2501–AE11

Adoption of 2020 Core Based Statistical Area Standards

AGENCY: Office of the Secretary, U.S. Department of Housing and Urban Development (HUD).

ACTION: Final rule.

SUMMARY: This rule adopts the 2020 Core Based Statistical Area (CBSA) standards as determined by the Office of Management and Budget's July 16, 2021,

Federal Register notice for all HUD use of CBSAs. HUD uses CBSAs throughout its programs and is updating the standards to ensure accuracy of data and program administration.

DATES: Effective January 6, 2025.

FOR FURTHER INFORMATION CONTACT: Kurt Usowski, Deputy Assistant Secretary for Economic Affairs, Office of Policy Development and Research (PD&R), Department of Housing and Urban Development, 451 7th St. SW, Washington, DC 20410, telephone number 202–402–5899 (this is not a toll-free number) or via email to Kurt.G.Usowski@hud.gov. HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

SUPPLEMENTARY INFORMATION:

I. Background

In its role as coordinator of the Federal statistical system, the Office of Management and Budget (OMB) establishes and maintains the CBSA program. CBSAs are geographic areas containing a large population center, or urban area, and adjacent communities that have a high degree of integration with that population center measured by commuting ties. OMB maintains CBSAs solely for statistical purposes. Every decade, OMB reviews and updates the Standards for Delineating CBSAs (CBSA standards), which describe the data sources and methods OMB uses to determine which geographic areas are to be designated CBSAs, prior to their application to new decennial census data. OMB updated CBSA standards on July 16, 2021 (86 FR 37770) prior to applying them to 2020 Census data.

The Metropolitan Areas Protection and Standardization Act of 2021, or the MAPS Act, (31 U.S.C. 6102, *et seq.*) prohibits agencies from automatically propagating OMB's CBSA standards for non-statistical use by any domestic assistance program unless the agency determines that the propagation: (1) supports the purpose of the program; and (2) is in the public interest. (31 U.S.C. 6309(a)(2)(A)). Propagation of the CBSA standards for non-statistical use by domestic assistance programs must be done through a notice and comment rulemaking. (31 U.S.C. 6309(a)(2)(B)).

II. The Proposed Rule

On September 6, 2024, HUD published a proposed rule for public comment (89 FR 72766) to add new

subpart M to 24 CFR part 5 adopting the 2020 CBSA standards as determined by OMB in 86 FR 37770 (July 16, 2021). The proposed rule described how HUD programs use CBSAs, as outlined in

Table 1. The proposed rule also described how adoption of the new CBSA standards support the purpose of these programs and is in the public interest.

TABLE 1—HUD USES OF CBSAS

Use	HUD office
Community Development Block Grant Program	Community Planning and Development (CPD).
Community Development Block Grant Disaster Recovery Program	CPD.
Housing Opportunities for Persons with AIDS Program	CPD.
HOME Investment Partnerships (HOME) Program	CPD.
Housing Trust Fund (HTF) Program	CPD.
Continuum of Care	CPD.
Emergency Solutions Grant (ESG)	CPD.
FHA's Title II Program (loan limits)	Housing.
Choice Neighborhoods Initiative	Public and Indian Housing (PIH).
Difficult Development Area (DDA) and Qualified Census Tract (QCT) Designations	PD&R.
Fair Market Rents (FMRs), HUD Area Median Family Incomes (HAMFIs), and Income Limits	PD&R.

III. This Final Rule

After considering comments received from the public, HUD adopts this final rule without changes from the proposed rule. HUD has determined that adoption of the 2020 CBSA standards, as determined by OMB in 86 FR 37770 (July 16, 2021), supports the purpose of HUD's programs and is in the public interest. The updated CBSA standards, and updated CBSA delineations based on the 2020 CBSA standards, will make calculation of Fair Market Rents, Area Median Family Income, and Income Limits more accurate. The accuracy of these program parameters is in the public interest as it most appropriately will direct resources governed by these parameters to recipients in the most appropriate amounts.

The new CBSA standards support HUD's designation of DDAs and QCTs as well as PIH, CPD, and Housing's programs because they more accurately reflect the current housing markets, which have changed significantly since the 2010 census. Furthermore, adopting the new standards will not be disruptive to the programs as program participants are expecting HUD to regularly update the metropolitan area standards and delineations to reflect current market conditions as HUD has done historically.

IV. Public Comments

HUD received three relevant comments in response to the proposed rule. Two comments were from interested individuals and one was from a real estate association. Commenters were generally supportive of the proposed rule. This section includes a summary of the issues raised by commenters.

Policy Suggestions

One commenter urged HUD to minimize disruptions for program participants. To do so, the commenter suggested that HUD adopt a “hold harmless” policy that keeps income limits constant rather than allowing them to decline. Specifically, the commenter noted that the exception should not merge a high-income county with an MSA that has a lower HAMFI but instead allow the high-income county to become its own HUD Metropolitan Fair Market Rent Area (HMFA). It would also hold harmless any county detached from an MSA, meaning that when a relatively lower-income county is detached from an MSA with a higher HAMFI, income limits in the detached county should be kept at the same level as they were when part of the MSA, rather than allowed to decline. The commenter noted that downward changes are difficult for program participants to predict and stated that this exception would avoid disruptive changes. The commenter recommended that this exception be available for all income limits, including Section 8 limits.

Additionally, the commenter asked that HUD allow reasonable “grandfathering” for uses of CBSAs beyond FMR/HAMFI/Income Limits such that any area, property or individual currently receiving assistance, or in the process of applying for assistance, should be grandfathered in for a reasonable period of time, rather than lose eligibility instantly due to the change in geographic definitions.

HUD Response: This rule allows HUD to use CBSA delineations based on OMB's latest standards for CBSA delineation in its program administration. It does not otherwise set

policy for HUD program eligibility such as generally defining the methods by which HUD sets program eligibility income limits derived from the HAMFI or determining program eligibility in cases where income limits decline due to geographic change caused by adopting new CBSA delineations or for other reasons. HUD's FMR, Income Limit and HAMFI policies allow for various exceptions to the CBSA delineations HUD uses in the estimation processes for these program operating parameters. This rule allows HUD to include the latest CBSA delineations in the computation process for FMRs, Income Limits, and HAMFIs, but does not otherwise affect that process or the rules of program administration.

ZIP Codes

One commenter suggested that HUD use a zip-codes based system rather than a county-based system because zip codes are a more concise and accurate measure of populations and will help ensure taxes are going to the intended beneficiaries of these programs. The commenter also noted that there has been a change in commuting habits since 2020 and a decline in urban populations in 2020–2021 which is not reflected in the 2020 census data.

One commenter reflected that FMRs are poor indicators of the housing market and noted the move away from the regional standard to a zip code standard. The commenter asked whether the zip code standard will allow for more resources for enforcement and rent control to be directed towards lower-income areas. The commenter also asked whether tying large areas around a metropolitan area to the metropolitan area would turn the smaller areas into large areas again.

HUD Response: OMB determines the geographic units (counties and county equivalents) that form the basis of CBSAs in the process of setting the standards for CBSA delineation. HUD interprets its statutes and regulations referencing “metropolitan areas” as referring to the metropolitan CBSAs delineated by OMB. Thus, in HUD’s program administration activities based on “metropolitan areas”, HUD is required to use the county-based metropolitan CBSAs delineated by OMB and cannot establish separate metropolitan areas based on ZIP-Codes or other alternative geographic units. Regarding changes in population since 2020, while OMB updates the standards for CBSA delineation approximately every 10 years, OMB generally updates the delineations annually based on changes in the underlying data as measured by the Census Bureau through the American Community Survey.

HUD produces the FMRs to help Public Housing Agencies (PHAs) that administer Housing Choice Vouchers to set payment standards that determine the amount the vouchers pay to participating landlords. Some PHAs in certain FMR areas are required to use “Small Area FMRs” estimated at the ZIP-code level to set all their payment standards, and other PHAs may opt into using Small Area FMRs to set some or all payment standards. Use of Small Area FMRs has no effect on the resources available to the PHAs for voucher administration. FMRs are not a mechanism for rent control, but rather a measure of the 40th percentile rent paid by recent movers into standard quality rental housing located in the applicable area. In estimating FMRs, HUD generally does not add new counties to metropolitan areas for purposes of the overall FMR unless the added county has rental data quality deficiencies.

Fair Market Rent Calculation

One commenter noted that Fair Market Rents are calculated based on home-to-work interactions and asked how far out the standard reaches and if it is calculated on a case-by-case decisions for every metropolitan area.

HUD Response: CBSAs are delineated based on the commuting interchange between counties, and the larger are the counties, the larger is the CBSA. In estimating FMRs, HUD generally does not add new counties to metropolitan areas for purposes of the overall FMR unless the added county has rental data quality deficiencies. HUD may use the full CBSA delineation including newly added counties for some parts of the calculation, such as recent mover adjustments, inflation factors, and trend

factors, but HUD uses the most local data allowed under data quality standards for setting base rents and making other adjustments in the FMR calculation process.

VII. Findings and Certifications

Regulatory Review (Executive Orders 12866, 13563, and 14094)

Pursuant to Executive Order 12866 (Regulatory Planning and Review), a determination must be made whether a regulatory action is significant and therefore, subject to review by the Office of Management and Budget (OMB) in accordance with the requirements of the order. Executive Order 13563 (Improving Regulation and Regulatory Review) emphasizes the importance of quantifying both costs and benefits, reducing costs, harmonizing rules, and promoting flexibility. The order also directs executive agencies to analyze regulations that are “outmoded, ineffective, insufficient, or excessively burdensome, and to modify, streamline, expand, or repeal them in accordance with what has been learned.” Executive Order 13563 further directs that, where relevant, feasible, and consistent with regulatory objectives, and to the extent permitted by law, agencies are to identify and consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public. Executive Order 14094 entitled “Modernizing Regulatory Review” (hereinafter referred to as the “Modernizing E.O.”) amends section 3(f) of Executive Order 12866, among other things.

As discussed above, this rule adopts updated standards for CBSA delineations that HUD programs use for program administrative purposes. It is statistical and administrative in nature with the purpose of maintaining past administrative practices. This rule was determined not to be a “significant regulatory action” as defined in section 3(f) of Executive Order 12866 and is not an economically significant regulatory action.

Unfunded Mandates Reform Act

Title II of the Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) (UMRA) establishes requirements for Federal agencies to assess the effects of their regulatory actions on State, local, and Tribal governments, and on the private sector. This proposed rule does not impose any Federal mandates on any State, local, or Tribal governments, or on the private sector, within the meaning of UMRA.

Environmental Review

This rule establishes discretionary review of loan limits, fair market rent schedules, income limits and exclusions with regard to eligibility for or calculation of HUD housing assistance or rental assistance, and similar rate and cost determinations and related external administrative or fiscal requirements or procedures which do not constitute a development decision that affects the physical condition of specific project areas or building sites. Accordingly, under 24 CFR 50.19 (c)(6), this rule is categorically excluded from environmental review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321).

Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) generally requires an agency to conduct a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements, unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. This final rule adopts updated standards for the delineation of CBSA geographic areas that affected HUD programs use for various administrative purposes. The adoption is statistical and administrative in nature and consistent with longstanding HUD policy and practice. Therefore, this final rule does not have a significant economic impact on a substantial number of small entities.

Executive Order 13132, Federalism

Executive Order 13132 (Federalism) prohibits an agency from publishing any rule that has federalism implications if the rule either: (i) imposes substantial direct compliance costs on State and local governments and is not required by statute, or (ii) preempts State law, unless the agency meets the consultation and funding requirements of section 6 of the Executive order. This final rule does not have federalism implications and does not impose substantial direct compliance costs on State and local governments or preempt State law within the meaning of the Executive order.

List of Subjects in 24 CFR Part 5

Administrative practice and procedure, Aged, Claims, Crime, Government contracts, Grant programs—housing and community development, Individuals with disabilities, Intergovernmental relations, Loan programs—housing and community development, Low and moderate income housing, Mortgage insurance,

Penalties, Pets, Public housing, Rent subsidies, Reporting and recordkeeping requirements, Social security, Unemployment compensation, Wages.

Accordingly, for the reasons stated in the preamble, HUD amends 24 CFR part 5 as follows:

PART 5—GENERAL HUD PROGRAM REQUIREMENTS; WAIVERS

- 1. The authority for part 5 continues to read as follows:

Authority: 12 U.S.C. 1701x; 42 U.S.C. 1437a, 1437c, 1437f, 1437n, 3535(d); 42 U.S.C. 2000bb *et seq.*; 34 U.S.C. 12471 *et seq.*; Sec. 327, Pub. L. 109–115, 119 Stat. 2396; E.O. 13279, 67 FR 77141, 3 CFR, 2002 Comp., p. 258; E.O. 13559, 75 FR 71319, 3 CFR, 2010 Comp., p. 273; E.O. 14015, 86 FR 10007, 3 CFR, 2021 Comp., p. 517.

- 2. Add subpart M, consisting of § 5.3001, to read as follows:

Subpart M—Core Based Statistical Areas

§ 5.3001 Automatic propagation of OMB's Core Based Statistical Area Standards.

When using Core Based Statistical Areas (CBSAs), HUD shall use the 2020 CBSA standards adopted by the Office of Management and Budget and published in the **Federal Register** on July 16, 2021, as well as any subsequent updates to the CBSA delineations based on these standards made by the Office of Management and Budget. Purposes and programs that use the CBSA standards include, but are not limited to:

- (a) The Community Development Block Grant Program (24 CFR part 570);
- (b) The Community Development Block Grant Disaster Recovery funds (applicable appropriations and **Federal Register** notices);
- (c) The Housing Opportunities for Persons with AIDS Program (24 CFR part 574);
- (d) The HOME Investment Partnerships Program (24 CFR part 92);
- (e) The Continuum of Care Program (24 CFR part 578);
- (f) The Emergency Solutions Grants Program (24 CFR part 576);
- (e) The FHA Title II Program (National Housing Act of 1934 Title II);
- (f) The Choice Neighborhoods Initiative Program (42 U.S.C. 1437v, as applied by the applicable annual appropriations act(s); 24 CFR 905.602(d));
- (g) The Housing Trust Fund Program (24 CFR part 93); and
- (h) The calculation of: Fair Market Rents (24 CFR part 888); HUD Area Median Family Income (this part); Income Limits (this part); Difficult

Development Areas; and Qualified Census Tracts.

Damon Smith,
General Counsel.

BILLING CODE 4210–67–P

DEPARTMENT OF THE TREASURY

Alcohol and Tobacco Tax and Trade Bureau

27 CFR Parts 26 and 31

[Docket No. TTB–2024–0006; T.D. TTB–196A; T.D. TTB–196]

RIN 1513–AB93

Technical Corrections to the TTB Regulations; Corrections

AGENCY: Alcohol and Tobacco Tax and Trade Bureau, Treasury.

ACTION: Final rule; Treasury decision; correction.

SUMMARY: The Alcohol and Tobacco Tax and Trade Bureau (TTB) recently published a final rule in the **Federal Register** of November 6, 2024, making technical corrections to certain of its regulations. This document corrects two minor, non-substantive errors in the amendatory instructions in that final rule.

DATES: This final rule correction is effective December 6, 2024.

FOR FURTHER INFORMATION CONTACT: Michael D. Hoover, Regulations and Rulings Division, Alcohol and Tobacco Tax and Trade Bureau, 1310 G Street NW, Box 12, Washington, DC 20005; phone 202–453–1039, ext. 135.

SUPPLEMENTARY INFORMATION: The Alcohol and Tobacco Tax and Trade Bureau (TTB) recently published a final rule making technical corrections to certain of its regulations in 27 CFR chapter I. That final rule appeared in the **Federal Register** of November 6, 2024 (89 FR 87931). This document corrects two non-substantive errors in the amendatory instructions in that final rule. The errors described below were inadvertent, and their correction does not alter the intended meaning of any regulatory section contained in the final rule.

Corrections

In the final rule document numbered FR Doc. 2024–23662 appearing on pages 87931 through 87953 in the **Federal Register** issue of Wednesday, November 6, 2024, make the following corrections:

§ 26.87 [Corrected]

- 1. On page 87944, in amendatory instruction 71, in the table, in the first entry for § 26.87, in the third column, “they shall.” is corrected to read “they shall”.

§ 31.11 [Corrected]

- 2. On page 87946, in amendatory instruction 90, in the table, in the second entry for § 31.11(b), in the second column, “Room 1516” is corrected to read “Suite 8002”.

Signed: December 3, 2024.

Mary G. Ryan,
Administrator.

[Docket Number USCG–2024–1050]

RIN 1625–AA00

Safety Zone; Sandusky Tree Lighting, Sandusky Bay, Sandusky, OH

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone for navigable waters of Sandusky Bay in

vicinity of the Jackson Street Pier in Sandusky, OH. The safety zone is necessary and intended to protect personnel, vessels, and the marine environment from potential hazards associated with firework displays created by the City of Sandusky. Entry of vessels or persons into this zone is prohibited unless specifically authorized by the Captain of the Port (COTP) Detroit, or his designated representative.

DATES: This rule is effective from 5:30 p.m. through 6:30 p.m. on December 14, 2024.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to <https://www.regulations.gov>, type USCG–2024–1050 in the search box and click “Search.” Next, in the Document Type column, select “Supporting & Related Material.”

FOR FURTHER INFORMATION CONTACT: If you have questions about this rule, call or email MST1 Thomas Harp, Waterways Management Division, Marine Safety Unit Toledo, Coast Guard; telephone 419–418–6040, email Thomas.L.Harp@uscg.mil.

SUPPLEMENTARY INFORMATION:

I. Table of Abbreviations

CFR Code of Federal Regulations
DHS Department of Homeland Security
FR Federal Register
NPRM Notice of proposed rulemaking
§ Section
U.S.C. United States Code

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule under the authority in 5 U.S.C. 553(b)(B). This statutory provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” The Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because the event sponsor notified the Coast Guard with insufficient time to publish an NPRM and immediate action is necessary to protect personnel, vessels, and the marine environment on the Sandusky Bay in Sandusky, OH. It is also impracticable and contrary to the public to publish a NPRM because we must establish this safety zone by December 14, 2024.

Also, under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than

30 days after publication in the **Federal Register**. For the same reasons discussed in the preceding paragraph, delaying the effective date of this rule would be impracticable because immediate action is needed to respond to the potential safety hazards associated with a firework display.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70034. The COTP Detroit has determined that potential hazards associated with a firework display will be a safety concern for anyone within a 560-foot radius of the launch site. The likely combination of recreational vessels, darkness punctuated by bright flashes of light, and firework debris falling into the water presents risks of collisions which could result in serious injuries or fatalities. This rule is necessary to protect personnel, vessels, and the marine environment in the navigable waters within the safety zone during the firework display.

IV. Discussion of the Rule

This rule establishes a safety zone from 5:30 p.m. through 6:30 p.m. on December 14, 2024. The safety zone will encompass all U.S. Navigable waters of Sandusky Bay within a 560-foot radius of the firework display launch site located at 41°27′32.27″ N, 82°42′52.15″ W, on the Jackson Street Pier in Sandusky, OH. The duration of the zone is intended to protect personnel, vessels, and the marine environment in these navigable waters during the firework display. Entry into, transiting, or anchoring within the safety zone is prohibited unless authorized by the COTP Detroit or his representative. The COTP Detroit or his designated representative may be contacted via VHF Channel 16 or call 313–568–9560.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. This rule has not been designated a “significant regulatory action,” under section 3(f) of Executive Order 12866, as amended by Executive Order 14094

(Modernizing Regulatory Review). Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB).

This regulatory action determination is based on the size, location, and duration of the safety zone. Vessel traffic will be able to safely transit around this safety zone which would impact a small, designated area of Sandusky Bay for one hour during the evening when vessel traffic is normally low. Moreover, the Coast Guard would issue a Broadcast Notice to Mariners (BNM) via VHF-FM Marine Channel 16 about the zone, and the rule would allow vessels to seek permission to enter the zone.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the safety zone may be small entities, for the reasons stated in section V.A above, this rule will not have a significant economic impact on any vessel owner or operator.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against

small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Directive 023–01, Rev. 1, associated implementing instructions, and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves a safety zone lasting approximately one hour that will prohibit entry within a 560-

foot radius where the firework display will be conducted. It is categorically excluded from further review under paragraph L60(a) of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. A Record of Environmental Consideration supporting this determination is available in the docket. For instructions on locating the docket, see the **ADDRESSES** section of this preamble.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places, or vessels.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 46 U.S.C. 70034, 70051, 70124; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 00170.1, Revision No. 01.3.

■ 2. Add § 165.T09–1050 to read as follows.

§ 165.T09–1050 Sandusky Tree Lighting, Sandusky Bay, Sandusky, OH

(a) *Location.* The following area is a temporary safety zone: all U.S. Navigable waters of Sandusky Bay within a 560-foot radius of the firework launch site located at position 41°27′32.27″ N, 82°42′52.15″ W, on the Jackson Street Pier in Sandusky, OH. All geographic coordinates are North American Datum of 1983 (NAD 83).

(b) *Enforcement period.* This regulation will be enforced from 5:30 p.m. through 6:30 p.m. on December 14, 2024. The COTP Detroit, or a designated representative may suspend enforcement of the safety zone at any time.

(c) *Definitions.* As used in this section, designated representative means a Coast Guard Patrol Commander, including a Coast Guard coxswain, petty officer, or other officer operating a Coast Guard vessel and a Federal, State, and local officer

designated by or assisting the Captain of the Port Detroit (COTP) in the enforcement of the safety zone.

(d) *Regulations.* (1) In accordance with the general regulations in § 165.23, entry into, transiting, or anchoring within the safety zone described in paragraph (a) of this section is prohibited unless authorized by the COTP Detroit or his designated representative.

(2) Vessel operators desiring to enter or operate within the safety zone shall contact the COTP Detroit or his designated representative to obtain permission to do so. Vessel operators given permission to enter or operate in the safety zone must comply with all directions given to them by the COTP Detroit or his designated representative. The COTP Detroit or his designated representative may be contacted via VHF Channel 16.

Dated: November 27, 2024.

Richard P. Armstrong,

Captain, U.S. Coast Guard, Captain of the Port Sector Detroit.

[FR Doc. 2024–28557 Filed 12–5–24; 8:45 am]

BILLING CODE 9110–04–P

LIBRARY OF CONGRESS

Copyright Royalty Board

37 CFR Part 380

[Docket No. 19–CRB–0005–WR (2021–2025)
COLA (2025)]

Cost of Living Adjustment to Royalty Rates for Webcaster Statutory License

AGENCY: Copyright Royalty Board (CRB), Library of Congress.

ACTION: Final rule; cost of living adjustment.

SUMMARY: The Copyright Royalty Judges announce a cost of living adjustment (COLA) in the royalty rates that commercial and noncommercial noninteractive webcasters pay for eligible transmissions pursuant to the statutory licenses for the public performance of and for the making of ephemeral reproductions of sound recordings.

DATES:

Effective date: December 6, 2024.

Applicability dates: These rates are applicable to the period January 1, 2025, through December 31, 2025.

FOR FURTHER INFORMATION CONTACT: Anita Brown, (202) 707–7658, crb@loc.gov.

SUPPLEMENTARY INFORMATION: Sections 112(e) and 114(f) of the Copyright Act, title 17 of the United States Code, create statutory licenses for certain digital performances of sound recordings and the making of ephemeral reproductions to facilitate transmission of those sound recordings. On October 27, 2021, the Copyright Royalty Judges (Judges) adopted final regulations governing the rates and terms of copyright royalty payments under those licenses for the license period 2021–2025 for performances of sound recordings via eligible transmissions by commercial and noncommercial noninteractive webcasters. *See* 86 FR 59452.

Pursuant to those regulations, at least 25 days before January 1 of each year from 2022 to 2025, the Judges shall publish in the **Federal Register** notice of a cost of living adjustment (COLA) applicable to the royalty fees for performances of sound recordings via eligible transmissions by commercial and noncommercial noninteractive webcasters. 37 CFR 380.10.

The adjustment in the royalty fee shall be based on a calculation of the percentage increase in the CPI–U from the CPI–U published in November 2020 (260.229), according to the formula: for subscription performances, $(1 + (C_y - 260.229)/260.229) \times \$0.0026$; for nonsubscription performances, $(1 + (C_y - 260.229)/260.229) \times \$0.0021$; for performances by a noncommercial webcaster in excess of 159,140 ATH per month, $(1 + (C_y - 260.229)/260.229) \times \$0.0021$; where C_y is the CPI–U published by the Secretary of Labor before December 1 of the preceding year. The adjusted rate shall be rounded to the nearest fourth decimal place. 37 CFR 380.10(c). The CPI–U published by the Secretary of Labor from the most recent index published before December 1, 2024, is 315.664.¹ Applying the formula in 37 CFR 380.10(c) and rounding to the nearest fourth decimal place results in an increase for 2025 in the rate for subscription performances and no increase for 2025 in the rates for nonsubscription performances and performances by a noncommercial webcaster in excess of 159,140 ATH per month.

The 2025 rate for eligible transmissions of sound recordings by commercial webcasters is \$0.0032 per

¹ This CPI–U was announced on November 13, 2024, by the Bureau of Labor Statistics in its *Consumer Price Index News Release—Consumer Price Index*, available at <https://www.bls.gov/news.release/cpi.htm> at Table 1.

subscription performance and \$0.0025 per nonsubscription performance.

The 2025 rate for noncommercial webcasters is \$0.0025 per performance for all digital audio transmissions in excess of 159,140 ATH in a month on a channel or station.

As provided in 37 CFR 380.10(d), the royalty fee for making ephemeral recordings under section 112 of the Copyright Act to facilitate digital transmission of sound recordings under section 114 of the Copyright Act is included in the section 114 royalty fee and comprises 5% of the total fee.

List of Subjects in 37 CFR Part 380

Copyright; sound recordings.

Final Regulations

In consideration of the foregoing, the Judges amend part 380 of title 37 of the Code of Federal Regulations as follows:

PART 380—RATES AND TERMS FOR TRANSMISSIONS BY ELIGIBLE NONSUBSCRIPTION SERVICES AND NEW SUBSCRIPTION SERVICES AND FOR THE MAKING OF EPHEMERAL REPRODUCTIONS TO FACILITATE THOSE TRANSMISSIONS

■ 1. The authority citation for part 380 continues to read as follows:

Authority: 17 U.S.C. 112(e), 114(f), 804(b)(3).

■ 2. Section 380.10 is amended by revising paragraph (a) to read as follows:

§ 380.10 Royalty fees for the public performance of sound recordings and the making of ephemeral recordings.

(a) *Royalty fees.* For the year 2025, Licensees must pay royalty fees for all Eligible Transmissions of sound recordings at the following rates:

(1) *Commercial webcasters:* \$0.0032 per Performance for subscription services and \$0.0025 per Performance for nonsubscription services.

(2) *Noncommercial webcasters:* \$1,000 per year for each channel or station and \$0.0025 per Performance for all digital audio transmissions in excess of 159,140 ATH in a month on a channel or station.

* * * * *

Dated: November 22, 2024.

David P. Shaw,

Chief Copyright Royalty Judge.

[FR Doc. 2024–27834 Filed 12–5–24; 8:45 am]

BILLING CODE 1410–72–P

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 52****[EPA–R03–OAR–2024–0152; FRL–11858–02–R3]****Air Plan Approval; Maryland; Determination of Attainment by the Attainment Date for the 2010 1-Hour Primary Sulfur Dioxide National Ambient Air Quality Standard****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to determine that the Anne Arundel and Baltimore County sulfur dioxide (SO₂) nonattainment area attained the 2010 1-hour SO₂ primary national ambient air quality standard (2010 SO₂ NAAQS) by the applicable attainment date of September 12, 2021. This determination is based on certified ambient air quality data from the 2018–2020 monitoring period, relevant modeling analysis, and additional emissions inventory information. This action addresses the EPA's obligation under Clean Air Act (CAA) section 179(c) to determine whether the Anne Arundel and Baltimore County SO₂ nonattainment area (referred to hereafter as the Anne Arundel-Baltimore County Area, or simply the Area) attained the 2010 SO₂ NAAQS by the September 12, 2021 attainment date.

DATES: This final rule is effective on January 6, 2025.

ADDRESSES: EPA has established a docket for this action under Docket ID Number EPA–R03–OAR–2024–0152. All documents in the docket are listed on the www.regulations.gov website. Although listed in the index, some information is not publicly available, e.g., confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through www.regulations.gov, or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information.

FOR FURTHER INFORMATION CONTACT:

Philip McGuire, Planning & Implementation Branch (3AD30), Air & Radiation Division, U.S. Environmental Protection Agency, Region III, 1600 John F Kennedy Boulevard, Philadelphia,

Pennsylvania 19103. The telephone number is (215) 814–2251. Mr. McGuire can also be reached via electronic mail at mcguire.philip@epa.gov.

SUPPLEMENTARY INFORMATION:**I. Background**

On September 6, 2024 (89 FR 72770), the EPA published a notice of proposed rulemaking (NPRM) for the State of Maryland. In the NPRM, the EPA proposed to determine that the Anne Arundel-Baltimore County Area had attained the 2010 1-hour SO₂ primary NAAQS by the applicable attainment date of September 12, 2021. During the comment period for the EPA's NPRM, open from September 6, 2024 to October 7, 2024, the EPA received no comments.

This action addresses the EPA's obligation under CAA section 179(c) to determine whether the Anne Arundel-Baltimore County Area attained the 2010 SO₂ NAAQS by the September 12, 2021 attainment date. Notably, a determination of attainment by the attainment date does not constitute a redesignation of an area to attainment for the 2010 SO₂ NAAQS under section 107(d)(3) of the CAA. The area will remain designated nonattainment for the 2010 SO₂ NAAQS until the state formally requests redesignation of the area to attainment, the EPA takes formal action to determine that the area meets CAA requirements for redesignation, and the EPA approves an accompanying state-submitted maintenance plan that ensures the area will continue to meet the NAAQS for the successive 10-year period.

II. Summary of Determination and EPA Analysis

CAA section 179(c)(1) requires the EPA to “determine, based on the area's air quality as of the attainment date, whether the area attained the standard by that date.” As discussed in the NPRM, the EPA used an integrated analysis based on SO₂ emissions data, ambient air quality monitoring data, and the EPA's 2022 clean data determination modeling analysis (based on 2019–2021 SO₂ emissions) in making this determination of attainment by the attainment date for the Anne-Arundel Baltimore County Area.

The EPA finds that the integrated analysis of multiple types of air-quality related information supports the determination and is consistent with CAA section 179(c)(1)'s direction to determine the area's air quality as of the attainment date. Specifically, reduced SO₂ emissions within the Area from 2012 to 2020, no exceedances of the 2010 1-hour SO₂ NAAQS at monitoring sites within the Area since 2012, and

the EPA's modeling analysis (based on 2019–2021 SO₂ emissions) predicting a maximum design value within the Area that is well below the NAAQS all provide supporting bases for the EPA's determination of attainment by the attainment date. Further details on the EPA's analysis are available in the NPRM related to this action. The comment period for this NPRM ended on October 7, 2024.

III. Final Action

The EPA conducted an analysis, described in detail in the NPRM related to this action, to determine if the Anne Arundel-Baltimore County Area attained the 2010 1-hour SO₂ NAAQS by the September 12, 2021 attainment date. Based on that analysis and the information presented in the NPRM, the EPA is determining that the Anne Arundel-Baltimore County Area attained the 2010 1-hour SO₂ NAAQS by the applicable attainment date of September 12, 2021, consistent with CAA section 179(c)(1).

On September 6, 2024 (89 FR 72770), the EPA published an NPRM proposing to determine that the Anne Arundel-Baltimore County Area attained the NAAQS by the September 12, 2021 attainment date. The EPA sought public comment on the proposed determination and received no comments.

This action does not constitute a redesignation of the Anne Arundel-Baltimore County Area to attainment for the 2010 1-hour SO₂ NAAQS under CAA section 107(d)(3). The classification and designation status in 40 CFR part 81 will remain nonattainment until the state formally requests redesignation of the area to attainment, the EPA takes formal action to determine that the area meets CAA requirements for redesignation under section 107(d)(3)(E), and the EPA approves an accompanying state-submitted maintenance plan pursuant to section 175A that ensures the area will continue to meet the NAAQS for the successive 10-year period.

IV. Statutory and Executive Order Reviews**A. General Requirements**

This action determines an area has attained the NAAQS by the relevant attainment date and does not impose additional or modify existing requirements. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735,

October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);

- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);

- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and

- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act.

In addition, this action does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because it is not approved to apply in Indian country located in the State, and the EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law. Executive Order 12898 (Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, 59 FR 7629, February 16, 1994) directs Federal agencies to identify and address

“disproportionately high and adverse human health or environmental effects” of their actions on minority populations and low-income populations to the greatest extent practicable and permitted by law. The EPA defines environmental justice (EJ) as “the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.” The EPA further defines the term fair treatment to mean that “no group of people should bear a disproportionate burden of environmental harms and risks, including those resulting from the negative environmental consequences of industrial, governmental, and

commercial operations or programs and policies.”

The EPA did not perform an EJ analysis and did not consider EJ in this action. Due to the nature of the action being taken here, this action is expected to have a neutral to positive impact on the air quality of the affected area. Consideration of EJ is not required as part of this action, which finds that a nonattainment area attained the 2010 SO₂ NAAQS by the applicable attainment date, and there is no information in the record inconsistent with the stated goal of E.O. 12898 of achieving environmental justice for people of color, low-income populations, and Indigenous peoples.

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by February 4, 2025. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action, the determination of attainment by the attainment date for the Anne Arundel-Baltimore County SO₂ nonattainment area, may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations,

Reporting and recordkeeping requirements, Sulfur oxides.

Adam Ortiz,

Regional Administrator, Region III.

For the reasons stated in the preamble, the EPA amends 40 CFR part 52 as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart V—Maryland

■ 2. Amend § 52.1082 by adding paragraph (m) to read as follows:

§ 52.1082 Determinations of attainment.

* * * * *

(m) The EPA has determined, as of January 6, 2025, that based on 2018–2020 monitoring data, relevant modeling analysis, and additional emissions inventory information, the Anne Arundel and Baltimore County SO₂ nonattainment area has attained the 2010 1-hour SO₂ primary NAAQS by the applicable attainment date of September 12, 2021.

BILLING CODE 6560–50–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 300

[Docket No. 241129–0306]

RIN 0648–BM70

International Fisheries; Pacific Tuna Fisheries; Fish Aggregating Device Design and Reporting Requirements in the Eastern Pacific Ocean

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS is issuing and modifying regulations under the Tuna Conventions Act (TCA) of 1950, as amended, to implement two Resolutions adopted at the 101st Meeting of the Inter-American Tropical Tuna Commission (IATTC) in August 2023. These Resolutions include Resolution C–23–03 (Amendment to Resolution C–99–07 on Fish Aggregating Devices) and Resolution C–23–04 (On the Design and

Biodegradability of Drifting Fish Aggregating Devices (DFADs) in the IATTC Area of Competence). This final rule modifies regulations for the design of fish aggregating devices (FADs) in the eastern Pacific Ocean (EPO) to require that they be designed with non-entangling and biodegradable materials. The rule also requires that vessel owners and operators collect data related to the recovery, disposal, or recycling of FADs and submit these data to the IATTC, unless the information is already collected and submitted to the IATTC by an observer.

DATES: This rule is effective January 6, 2025.

ADDRESSES: A plain language summary of this rule is available at <https://www.regulations.gov/docket/NOAA-NMFS-2023-0147>.

Copies of supporting documents that were prepared for this rule, including the regulatory impact review (RIR), are available via the Federal e-Rulemaking Portal: <https://www.regulations.gov>, docket NOAA–NMFS–2023–0147, or contact Highly Migratory Species Branch Staff, Karter Harmon, 501 West Ocean Boulevard, Suite 4200, Long Beach, CA 90802, or Karter.Harmon@noaa.gov.

Written comments and recommendations for this information collection should be submitted at the following website: <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by using the search function and entering either the title of the collection or the OMB Control Number 0648–0148.

SUPPLEMENTARY INFORMATION:

Background on the IATTC

The United States is a member of the IATTC, which was established under the 1949 Convention for the Establishment of an Inter-American Tropical Tuna Commission (1949 Convention). In 2003, the IATTC updated the 1949 Convention through the adoption of the Convention for the Strengthening of the IATTC Established by the 1949 Convention between the United States of America and the Republic of Costa Rica (Antigua Convention). The Antigua Convention entered into force in 2010. The United States acceded to the Antigua Convention on February 24, 2016. The full text of the Antigua Convention is available at: <https://www.iatcc.org/>

PDFFiles2/Antigua_Convention_Jun_2003.pdf.

The United States implements binding decisions of the IATTC as domestic regulations under the Tuna Conventions Act of 1950, as amended, 16 U.S.C. 951 *et seq.* (Pub. L. 114–81). The TCA directs the Secretary of Commerce, in consultation with the Secretary of State and, with respect to enforcement measures, the U.S. Coast Guard, to promulgate such regulations as may be necessary to carry out the United States' obligations under the Antigua Convention, including recommendations and decisions adopted by the IATTC. The authority of the Secretary of Commerce to promulgate such regulations has been delegated to NMFS.

IATTC Resolutions on Fish Aggregating Devices

The 101st Meeting of the IATTC was held in Victoria, Canada, in August 2023. At this meeting, the IATTC adopted Resolution C–23–03 (Amendment to Resolution C–99–07 on Fish Aggregating Devices) and Resolution C–23–04 (On the Design and Biodegradability of Drifting Fish Aggregating Devices (DFADs) in the IATTC Area of Competence).

Resolution C–23–03 amends Resolution C–99–07 and continues to recommend that tender vessels operating in support of vessels fishing on FADs in the EPO remain prohibited. The Resolution stipulates that vessels may engage in FAD recovery activities that are limited to the collection of FADs for final disposal, not maintenance or adjustment. The Resolution requires that Members and Cooperating Non-Members report all associated information on any such FAD recovery activities to the IATTC Secretariat. The Resolution encourages the initiation of FAD recovery programs through cooperative initiatives among fishing vessels and other vessels implementing recovery projects in the IATTC Convention Area. These measures are intended to improve FAD management and data collection for FAD-associated fishing sets and to reduce their impacts.

Resolution C–23–04 contains new requirements regarding materials that can be used in FADs that are deployed or redeployed in the IATTC Convention Area. These include biodegradable and non-entangling materials, which would be phased in between 2025 and 2029. Beginning on January 1, 2025, purse seine vessel owners and operators are required to meet non-entangling design requirements for FADs, and the use of mesh nets is prohibited for any part of

a FAD. The Resolution defines “non-entangling FAD” as “a FAD that does not include any netting materials for any part of the FAD including both the surface structure (e.g., raft) and subsurface structure (e.g., tail).” Beginning on January 1, 2026, purse seine vessel owners and operators are required to begin using biodegradable materials in either the surface or subsurface portion of FADs. By January 1, 2029, both the surface and subsurface portion of the FAD must be composed of biodegradable materials. These measures are intended to reduce marine pollution and other impacts associated with non-biodegradable FADs.

NMFS published a proposed rule on July 19, 2024 (89 FR 58698), for public review and comment. The comment period closed on August 19, 2024. The preamble to the proposed rule contains additional background information that is not repeated here.

Final Regulations

This rule is implemented under the TCA (16 U.S.C. 951 *et seq.*) and includes changes to part 300, subpart C of title 50 of the Code of Federal Regulations (CFR). This rule implements the following three provisions in Resolutions C–23–03 and C–23–04:

First, the rule establishes new requirements for vessels that choose to recover FADs in the IATTC Convention Area for the purpose of final disposal. Except for authorized tuna purse seine vessels, vessels engaged in recovery activities may not deploy FADs. Recovered FADs must be taken on board and brought to port for recycling or final disposal. The rule also implements a reporting requirement for information associated with all FADs recovered by vessel owners and operators in the IATTC Convention Area, unless that information is already reported by an observer. These data must be reported to the IATTC scientific staff for analysis using a format and address provided by NMFS. Because these data are routinely collected by observers, this reporting requirement will only apply in situations where a vessel engaged in FAD recovery does not have an observer on board.

Second, beginning on January 1, 2025, U.S. purse seine vessel owners and operators will be required to meet non-entangling design requirements for FADs deployed or redeployed in the IATTC Convention Area. A definition of “non-entangling FAD,” consistent with the definition adopted by the IATTC, is included in the regulations as follows: “Non-entangling FAD means a FAD that does not include any netting materials for any part of the FAD including both

the surface structure (e.g., raft) and subsurface structure (e.g., tail)."

Third, beginning on January 1, 2026, U.S. purse seine vessel owners and operators will be required to meet standards for biodegradable materials in either the surface or subsurface components of FADs in the IATTC Convention Area. A definition of "biodegradable," consistent with the definition adopted by the IATTC, is included in the regulations as follows: "Biodegradable means non-synthetic materials and/or bio-based alternatives that are consistent with approved international standards for materials that are biodegradable in marine environments. The components resulting from the degradation of these materials should not be damaging to the marine and coastal ecosystems or include heavy metals or plastics in their composition. Examples of non-synthetic materials include plant-based materials such as cotton, jute, manila hemp (abaca), bamboo, and natural rubber; and animal-based materials such as leather, wool, and lard. The approved international standards are ASTM D6691, ASTM D7881, and TUV Austria."

By January 1, 2026, FADs must be constructed according to one of three sets of specifications. Under option one, the surface part of the FAD must be made of fully biodegradable materials, except for flotation components, but the subsurface part may contain non-biodegradable materials (e.g., synthetic raffia, metallic frame, plastic floats, nylon ropes). Under option two, the subsurface part of the FAD must be made of fully biodegradable materials, but the surface part and any flotation components may be made of non-biodegradable materials. Under option three, the surface part, except for flotation components, and subsurface part must both be made of fully biodegradable materials. All three options would allow for plastic-based flotation components (e.g., plastic buoys, foam, purse-seine corks). The third option allows an exception for satellite buoys that are attached to FADs to track them, and for nylon ropes, which can be used exclusively to strengthen the structure of the floating or underwater component of the FAD.

By January 1, 2029, all FADs deployed or redeployed in the IATTC Convention Area must be designed and constructed such that the surface part and subsurface part are both made of fully biodegradable materials, except that any flotation component on the surface part may still be made of non-biodegradable materials. The exceptions

for satellite buoys and nylon ropes will continue to apply.

Public Comments and Responses

NMFS received two comments during the 30-day comment period on the proposed rule, which closed on August 19, 2024. One comment was from a member of the general public and was fully supportive of the proposed rule as written. The second comment was from American Tunaboat Association (ATA), which represents U.S. large purse seine vessels in the Pacific Ocean. This comment, while generally supportive, raised two issues with the proposed rule text which are addressed below.

Issue 1: The commenters noted that the length of time needed to comply with the collection of information requirements for the FAD recovery form is likely to be greater than the 5 minutes estimated in the proposed rule.

NMFS Response: NMFS acknowledges the experience of industry participants in providing an estimate of the time burden for filling out forms and reporting information to the IATTC. After considering this public comment, NMFS has updated the estimated average time burden for collection of information associated with this rule from 5 minutes to 15 minutes, if FADs are voluntarily retrieved for disposal. However, as the commenters pointed out, much of the relevant information would already be collected by IATTC observers aboard the U.S. large purse seine vessels and therefore the time burden is unlikely to fall upon vessel owners and operators except when extenuating circumstances preclude the collection of such information by observers.

Issue 2: The commenters noted that the projected impacts on the profitability of the fishery resulting from FAD design requirements in this action are uncertain and may be greater than the estimates offered in the proposed rule. In particular, the commenters stated that the data produced by the IATTC and the International Seafood Sustainability Foundation (ISSF) overestimate the average amount of tuna which can reliably be harvested from biodegradable FADs and underestimate the costs associated with transitioning from traditional to biodegradable FADs.

NMFS Response: NMFS appreciates the perspectives of industry participants regarding the economic burden of transitioning from traditional to biodegradable FADs. NMFS cited the publicly available information from ISSF and the IATTC to estimate costs and harvest potential, but also acknowledges the fishing industry may have additional experiences with

biodegradable FADs. NMFS also acknowledges there may be uncertainty and variation in harvest with biodegradable FADs between vessels as well.

However, the costs associated with the transition to the proposed FAD designs are not expected to reduce profitability or significantly impact the fleet because replacing and redeploying FADs has always been considered routine by large purse seine vessels, regardless of design type. Due to the routine nature of replacement and redeployment of FADs, large purse seine vessels already consider such operating costs. Based on available public information, NMFS does not predict that costs of replacement and redeployment of biodegradable FADs will vary so significantly from current estimates used by large purse seine vessels as to impact profitability. As such, the uncertainty highlighted by the commenter does not alter our determination, pursuant to the Regulatory Flexibility Act, that this action is not expected to have a significant economic impact on a substantial number of small entities.

Changes From the Proposed Rule

The Classification section of this final rule includes an adjustment to the estimated time burden of the collection-of-information requirements, in response to the information submitted by industry participants via public comment. No changes to the regulatory text were made between the proposed and final rule.

Classification

The NMFS Assistant Administrator has determined that this final rule is consistent with the TCA and other applicable laws.

Executive Order 12866

This final rule has been determined to be not significant for purposes of Executive Order 12866.

Paperwork Reduction Act

This final rule contains a collection-of-information requirement subject to review and approval by OMB under the Paperwork Reduction Act (PRA). This rule changes the existing requirements for the collection of information No. 0648–0148 (West Coast Region Pacific Tuna Fisheries Logbook, Fish Aggregating Device Form, and Observer Safety Reporting) by requiring U.S. vessel owners and operators who voluntarily recover FADs for disposal or recycling to report information to the IATTC, unless that information is already collected and submitted to the

IATTC by an observer onboard the vessel. Current FAD reporting requirements under that collection of information would continue to apply. Public reporting burden for reporting on recovered FADs is estimated to average 15 minutes per form, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

This public reporting burden will only be incurred in potential situations where an observer is either not present aboard the vessel, or is unable to collect the relevant information due to extenuating circumstances. Additionally, under existing regulations at 50 CFR 300.22(c), vessel owners and operators that do not have an observer on board are required to report detailed information on any interaction or activity with a deployed FAD, including information about the design of the FAD. The public reporting burden for this existing collection of information for FAD design will not change as a result of this final rule.

We invite the general public and other Federal agencies to comment on proposed and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Written comments and recommendations for this information collection should be submitted at the following website: <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by using the search function and entering either the title of the collection or the OMB Control Number 0648–0148.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA, unless that collection of information displays a currently valid OMB Control Number.

Regulatory Flexibility Act

Pursuant to the Regulatory Flexibility Act, 5 U.S.C. 605(b), the Chief Counsel for Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the Small Business Administration during the proposed rule stage that, for purposes of the Regulatory Flexibility Act, this action would not have a significant economic impact on a substantial number of small entities. The factual basis for the certification was published in the proposed rule and is not repeated here. Information received through public

comment highlights uncertainty in some of the costs which may be incurred by the action. This information does not alter the analysis of the action as described in the proposed rule. Therefore, the initial certification published with the proposed rule—that this rule is not expected to have a significant economic impact on a substantial number of small entities—remains unchanged. As a result, a regulatory flexibility analysis was not required and none was prepared.

Executive Order 13175

NMFS has determined that this action would not have a substantial direct effect on one or more Indian Tribes, on the relationship between the Federal Government and Indian Tribes, or on the distribution of power and responsibilities between the Federal Government and Indian Tribes; therefore, consultation with Tribal officials under Executive Order 13175 is not required, and the requirements of sections (5)(b) and (5)(c) of E.O. 13175 also do not apply. A Tribal summary impact statement under section (5)(b)(2)(B) and section (5)(c)(2)(B) of Executive Order 13175 is not required and has not been prepared.

List of Subjects in 50 CFR Part 300

Administrative practice and procedure, Fish, Fisheries, Fishing, Marine resources, Reporting and recordkeeping requirements, Treaties.

Dated: December 2, 2024.

Samuel D. Rauch, III,
*Deputy Assistant Administrator for
Regulatory Programs, National Marine
Fisheries Service.*

For the reasons set out in the preamble, NMFS amends 50 CFR part 300 as follows:

PART 300—INTERNATIONAL FISHERIES REGULATIONS

Subpart C—Eastern Pacific Tuna Fisheries

■ 1. The authority citation for part 300, subpart C, continues to read as follows:

Authority: 16 U.S.C. 951 *et seq.*

■ 2. Amend § 300.21 by adding definitions, in alphabetical order, for “Biodegradable” and “Non-entangling FAD” to read as follows:

§ 300.21 Definitions.

* * * * *

Biodegradable means non-synthetic materials and/or bio-based alternatives that are consistent with approved international standards for materials that are biodegradable in marine

environments. The components resulting from the degradation of these materials should not be damaging to the marine and coastal ecosystems or include heavy metals or plastics in their composition. Examples of non-synthetic materials include plant-based materials such as cotton, jute, manila hemp (abaca), bamboo, and natural rubber; and animal-based materials such as leather, wool, and lard. The approved international standards are ASTM D6691, ASTM D7881, and TUV Austria.

* * * * *

Non-entangling FAD means a FAD that does not include any netting materials for any part of the FAD including both the surface structure (*e.g.*, raft) and subsurface structure (*e.g.*, tail).

* * * * *

■ 3. Amend § 300.22 by adding paragraph (c)(5) to read as follows:

§ 300.22 Recordkeeping and reporting requirements.

* * * * *

(c) * * *

(5) *Reporting on recovered FADs.* U.S. vessel owners and operators must report information on FADs that are recovered for disposal or recycling to the IATTC, unless that information is already reported to the IATTC by an observer. This information must be reported using a format and address provided by the HMS Branch. The owner and operator must ensure that the form is submitted within 30 days of each recovery to the address specified by the HMS Branch.

* * * * *

■ 4. Amend § 300.24 by adding paragraphs (rr) and (ss) to read as follows:

§ 300.24 Prohibitions.

* * * * *

(rr) Except for tuna purse seine vessels, when recovering FADs, performing maintenance and adjustments on deployed FADs, or deploying a FAD.

(ss) Deploy or redeploy a FAD in the IATTC Convention Area that fails to comply with the FAD design requirements in § 300.28(g) and (h).

■ 5. Amend § 300.28 by:

■ a. Revising the heading to paragraph (f);

■ b. Adding paragraph (f)(3);

■ c. Revising paragraph (g); and

■ d. Adding paragraph (h).

The revisions and additions read as follows:

§ 300.28 FAD restrictions.

* * * * *

(f) *Restrictions on FAD deployments, removals, and recovery.*

* * * * *

(3) U.S. vessel owners and operators may recover FADs for final disposal or recycling. Recovery activities must be limited to the collection of FADs for final disposal or recycling and may not include any type of maintenance or adjustment on deployed FADs.

(g) *Non-entangling FAD materials.* Beginning January 1, 2025, U.S. purse seine vessel owners and operators must ensure that the design and construction of any FAD to be deployed or redeployed (*i.e.*, placed in the water) in the IATTC Convention Area uses only non-entangling FAD materials.

(h) *Biodegradable FAD materials.* In addition to complying with the requirement to use non-entangling materials specified in paragraph (g) of this section, vessel owners and operators must ensure that the design and construction of any FAD to be deployed or redeployed in the IATTC Convention Area meets the following specifications:

(1) Beginning January 1, 2026, all FADs deployed or redeployed in the IATTC Convention Area must be designed and constructed according to one of the following sets of specifications:

(i) The surface part of the FAD must be made of fully biodegradable materials, except for flotation components (*e.g.*, plastic buoys, foam, purse-seine corks), whereas the subsurface part of the FAD may contain non-biodegradable materials (*e.g.*, synthetic raffia, metallic frame, plastic floats, nylon ropes); or

(ii) The subsurface part of the FAD must be made of fully biodegradable materials, whereas the surface part and any flotation components (*e.g.*, plastic buoys, foam, purse-seine corks) of the FAD may contain non-biodegradable materials (*e.g.*, synthetic raffia, metallic frame, plastic floats, nylon ropes); or

(iii) The surface part, except for flotation components (*e.g.*, plastic buoys, foam, purse-seine corks), and subsurface part must be made of fully biodegradable materials. Non-biodegradable materials, in particular nylon ropes, can be used exclusively to strengthen the structure of the floating or underwater component of the FAD.

(2) Beginning January 1, 2029, all FADs deployed or redeployed in the IATTC Convention Area must be made of fully biodegradable materials, except for flotation components (*e.g.*, plastic buoys, foam, purse seine corks), which may be made of non-biodegradable material. Non-biodegradable materials,

in particular nylon ropes, can be used exclusively to strengthen the structure of the floating or underwater component of the FAD.

(3) Restrictions on biodegradable FAD materials set forth in paragraphs (h)(1) and (2) of this section do not apply to satellite buoys that are attached to FADs in order to track them.

[FR Doc. 2024-28466 Filed 12-5-24; 8:45 am]

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 240405-0100; RTID 0648-XE509]

Fisheries of the Northeastern United States; Mackerel, Squid, and Butterfish Fishery; 2024 Commercial Atlantic Mackerel Fishery Closure

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is closing the commercial Atlantic mackerel fishery through December 31, 2024. This closure is required by regulation because NMFS projects that 80 percent of the mackerel domestic annual harvest is harvested. This action is necessary to comply with the regulations implementing the Mackerel, Squid, and Butterfish Fishery Management Plan and is intended to prevent overharvest of Atlantic mackerel.

DATES: Effective 0001 hours (hr) local time, December 6, 2024, through 2400 hr local time on December 31, 2024.

FOR FURTHER INFORMATION CONTACT: Colette Tweeddale, Fishery Management Specialist, 978-281-9335.

SUPPLEMENTARY INFORMATION: The procedures for setting initial annual specifications for the species managed under the Mackerel, Squid, and Butterfish Fishery Management Plan (FMP) are described at 50 CFR 648.22. The regulations at § 648.22(a)(3) require annual catch limits, commercial annual catch targets (including research set-aside, domestic annual harvest (DAH), Tier 3 landings caps, and domestic annual processing), joint venture processing, total allowable levels of foreign fishing, and recreational annual catch targets (including research set-aside) to be specified for the Atlantic mackerel fishery for a period of up to 3 years.

The Regional Administrator monitors mackerel fishery catch based on dealer reports and other available information. When the Regional Administrator projects that 80 percent of the DAH is harvested, the regulations at § 648.24(b)(1)(i) require NMFS to close the commercial mackerel fishery in Federal waters for the remainder of the fishing year. The regulations at § 648.26(a)(2)(i) state that while such a closure is in effect, vessels issued a Tier 1, 2, or 3 limited access mackerel permit are prohibited from taking and retaining, possessing, or landing more than 10,000 lb (4.54 mt) of mackerel per trip at any time, and from landing mackerel more than once per calendar day. Additionally, the regulations at § 648.26(a)(2)(ii) state that while such a closure is in effect, vessels issued an open access mackerel permit are prohibited from taking and retaining, possessing, or landing more than 2,500 lb (1.13 mt) of mackerel per trip at any time, and from landing mackerel more than once per calendar day. The regulations at § 648.24(d) require that upon determining that a closure is necessary, NMFS must: Notify the Executive Directors of the relevant Fishery Management Councils; notify permit holders at least 72 hr before the effective date of the closure; provide adequate notice of the closure to recreational participants in the fishery; and publish notification of the closure in the **Federal Register**.

Based on dealer reports and other available information, the Regional Administrator projects that 100.06 percent of the mackerel DAH was harvested as of November 29, 2024. Therefore, effective 0001 local time on December 6, 2024, limited access mackerel vessels may not take and retain, possess, or land more than 10,000 lb (4.54 mt) of mackerel per trip at any time, and may only land mackerel once per calendar day, through 2400 hr local time on December 31, 2024. Limited access mackerel vessels that enter port before 0001 hr local time on December 6, 2024, may land and sell more than 10,000 lb (4.54 mt) of mackerel from that trip, consistent with possession restrictions at § 648.26(a)(1)(i). Additionally, open access mackerel vessels may not take and retain, possess, or land more than 2,500 lb (1.13 mt) of mackerel per trip at any time, and may only land mackerel once per calendar day, through 2400 hr local time on December 31, 2024. Open access mackerel vessels that enter port before 0001 hr local time on December 6, 2024, may land and sell more than 2,500 lb (1.13 mt) of mackerel

from that trip, consistent with possession restrictions at § 648.26(a)(1)(ii).

Also, effective 0001 hr local time on December 6, 2024, through 2400 hr local time on December 31, 2024, federally permitted dealers may not purchase more than 10,000 lb (4.54 mt) of mackerel from a limited access mackerel vessel unless the vessel enters port before 0001 hr local time on December 6, 2024. Federally permitted dealers may not purchase more than 2,500 lb (1.13 mt) of mackerel from an open access mackerel vessel unless the vessel enters port before 0001 hr local time on December 6, 2024. The possession limits for the mackerel fishery will reset to the amounts outlined at § 648.26(a)(1)(i) and (ii) on January 1, 2025.

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

NMFS finds good cause pursuant to 5 U.S.C. 553(b)(B) to waive prior notice and the opportunity for public comment because it would be contrary to the public interest and impracticable. The mackerel fishery opened for the 2024 fishing year on January 1, 2024. Data and other information indicating that 100 percent of the 2024 mackerel DAH was harvested have only recently become available. Landings data are updated on a weekly basis, and NMFS monitors catch data on a daily basis as catch increases toward the limit. Further, high-volume catch and landings in this fishery increase total catch relative to the DAH quickly. Atlantic mackerel is currently being managed under a rebuilding plan, and exceeding the DAH may harm the stock's rebuilding progress. The regulations at § 648.24(b)(1)(i) require NMFS to implement this action to ensure that mackerel vessels do not

exceed the DAH. If implementation of this action is delayed to solicit prior public comment, the 2024 mackerel DAH may be exceeded, thereby undermining the conservation objectives of the FMP. Furthermore, the public had prior notice and full opportunity to comment on this process when these provisions were put in place. Based on these considerations, NMFS further finds, pursuant to 5 U.S.C. 553(d)(3), good cause to waive the 30-day delayed effectiveness period for the reasons stated above.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: December 3, 2024.

Karen H. Abrams,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510–22–P

Proposed Rules

Federal Register

Vol. 89, No. 235

Friday, December 6, 2024

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

FEDERAL FINANCIAL INSTITUTIONS EXAMINATION COUNCIL

12 CFR Part 1102

[Docket No. AS24–22]

RIN 3139–AA01

Appraisal Subcommittee Enforcement Authority Regarding the Effectiveness of State Appraiser and Appraisal Management Company Regulatory Programs

AGENCY: Appraisal Subcommittee, Federal Financial Institutions Examination Council.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Appraisal Subcommittee (ASC) of the Federal Financial Institutions Examination Council invites comment on a proposed rule to implement a framework to govern the ASC's enforcement authority regarding the effectiveness of Appraiser and Appraisal Management Company (AMC) Programs overseen by State Appraiser Regulatory Agencies. The proposed rule would codify the existing compliance review process with modifications. The proposed rule would require an analysis to assess program effectiveness, outline requirements for maintaining effective programs, and authorize the ASC to bring enforcement actions against such agencies that fail to maintain effective programs.

DATES: Send comments on or before February 4, 2025.

ADDRESSES: Commenters are strongly encouraged to submit comments through the Federal eRulemaking Portal or by email, if possible. You may submit comments, identified by Docket Number AS24–22, by any of the following methods:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for submitting comments.
- *Email:* webmaster@asc.gov. Include the docket number in the subject line of the message.
- *Mail:* Address to Appraisal Subcommittee—FFIEC, Attn: Lori

Schuster, Management and Program Analyst, 1325 G Street NW, Suite 500, Washington, DC 20005.

- *Hand Delivery/Courier:* Address to Appraisal Subcommittee—FFIEC, Attn: Lori Schuster, Management and Program Analyst, 1325 G Street NW, Suite 500, Washington, DC 20005.

Instructions: All submissions must include the agency name and docket number for this document. All comments and any supporting materials or attachments received will be posted without change to <https://www.regulations.gov>, including any business or personal information that you provide, such as name and address information, email addresses, or phone numbers. Commenters should submit only information that the commenter wishes to make available publicly. Please do not enclose any information in your comment or supporting materials that you consider confidential or inappropriate for public disclosure.

Docket: To read comments regarding this proposed rulemaking, go to: <https://www.regulations.gov>, insert docket number AS24–22 in the “Search” box, and follow the prompts. You may also personally inspect comments at the Appraisal Subcommittee's office, 1325 G Street NW, Suite 500, Washington, DC 20005. To make an appointment, please contact Lori Schuster at (202) 595–7578 or lori@asc.gov.

FOR FURTHER INFORMATION CONTACT: Natalie Lutz, Attorney Advisor, 202–792–1217, natalie@asc.gov or Matt Ponzar, General Counsel, 202–595–7577, matt@asc.gov, Appraisal Subcommittee, 1325 G Street NW, Suite 500, Washington, DC 20005. The above phone numbers are not toll-free numbers. Persons with hearing or speech impairments may access these numbers by dialing 7–1–1 to access telecommunications relay services.

SUPPLEMENTARY INFORMATION:

I. Introduction

The following section discusses the proposed rule's objectives, the legal basis for this proposed rule, background information, the reasoning behind issuing this proposed rule, and a summary of the applicable recommendations made by the Appraisal Subcommittee Advisory Committee for the Development of Regulations (ASCAC).

A. Proposed Rule's Objectives

The proposed rule (proposal or proposed rulemaking) is intended to establish an effective and consistent enforcement approach to the Appraisal Subcommittee's (ASC) oversight of State Appraiser Regulatory Agencies.¹ The ASC believes that the proposal would significantly improve its effectiveness in monitoring and bringing enforcement actions against State Appraiser Regulatory Agencies that may not have effective Appraiser and Appraisal Management Company (AMC) Programs. The ASC also believes that the proposed rulemaking would be beneficial in clarifying requirements for State Appraiser Regulatory Agencies to promote the effectiveness of their Appraiser and AMC Programs. Finally, the proposed rule would provide additional transparency to State Appraiser Regulatory Agencies and other stakeholders regarding the ASC's procedures for monitoring Appraiser and AMC Programs and the potential for enforcement actions against State Appraiser Regulatory Agencies. In general, the proposed rule would codify the existing ASC compliance review process consistent with the ASC's current practices and processes for conducting compliance reviews, with some modifications and minor corrections.

B. Statutory Authority

Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 was amended by the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) in 2010 (Title XI).²

Section 1103(a)(1)(A)³ of Title XI requires the ASC to monitor requirements established by State Appraiser Regulatory Agencies for the certification and licensing of individuals qualified to perform appraisals in connection with federally related transactions,⁴ including a code

¹ 12 U.S.C. 3332(a)(5), uses the term “State Appraiser Regulatory Agencies.” As discussed further below, for purposes of the proposed rule, this term is synonymous with “State appraiser certifying and licensing agency” as defined in section 1121(1) of Title XI (12 U.S.C. 3350(1)).

² Public Law 111–203, sec. 1473, 124 Stat. 2190–2199 (2010).

³ 12 U.S.C. 3332(a)(1)(A).

⁴ Federally related transaction refers to any real estate-related financial transaction which: (a) a Federal financial institutions regulatory agency

of professional responsibility. Section 1103(a)(1)(B) also requires the ASC to monitor the requirements established by State Appraiser Regulatory Agencies for the registration and supervision of the operations and activities of AMCs.⁵

Additionally, section 1118(a) of Title XI requires the ASC to monitor State Appraiser Regulatory Agencies to determine whether each State Appraiser Regulatory Agency:

(1) has policies, practices, funding, staffing, and procedures that are consistent with Title XI;

(2) processes complaints and completes investigations in a reasonable time period;

(3) appropriately disciplines sanctioned appraisers and AMCs;

(4) maintains an effective regulatory program; and

(5) reports complaints and disciplinary actions on a timely basis to the national registries of appraisers and AMCs maintained by the ASC.⁶

Section 1118(a) of Title XI further provides that the ASC can impose certain sanctions against a State Appraiser Regulatory Agency that fails to have an effective appraiser regulatory program.⁷ For the purposes of the proposed rule, the term “enforcement actions” would be used instead of “sanctions.” In determining whether a program is effective, the ASC must include an analysis of (1) the licensing and certification of appraisers, (2) the registration of AMCs, (3) the issuance of temporary licenses and certifications for appraisers, (4) the receiving and tracking of submitted complaints against appraisers and AMCs, (5) the investigation of complaints, and (6) enforcement actions against appraisers and AMCs.⁸ Under the proposal, the evaluation criteria are referred to as “program functions.”

Section 1118(a) of Title XI also specifically authorizes the ASC to impose interim actions and suspensions against a State Appraiser Regulatory Agency as an alternative to, or in advance of, the non-recognition of a State Appraiser Regulatory Agency.⁹ Under the proposed rule, these “interim actions and suspensions” would be known as “interim enforcement actions.”

engages in, contracts for, or regulates; and (b) requires the services of an appraiser. See 12 U.S.C. 3350(4).

⁵ 12 U.S.C. 3332(a)(1)(B).

⁶ 12 U.S.C. 3347(a).

⁷ *Id.*

⁸ *Id.* (numbering of the program functions is added for emphasis).

⁹ *Id.*

Consistent with section 1118 of Title XI,¹⁰ the proposal would outline three types of enforcement actions: interim actions, suspensions, and non-recognition. Title XI refers to non-recognition as derecognition.¹¹ Under the proposed rule, the term “non-recognition” would be used instead of “derecognition” to be consistent with subpart B of 12 CFR part 1102, which sets forth the ASC rules of practice and procedure governing non-recognition proceedings for State Appraiser Regulatory Agencies.

Finally, section 1106 of Title XI provides that the ASC has, among other powers, the authority to promulgate regulations regarding certain specified areas, one of which is enforcement.¹² House Report 111–94 indicates that the term “enforcement” covers the actions the ASC may take in evaluating State Appraiser Regulatory Agencies and the gamut of sanctions that the ASC may impose against such agencies.¹³ For purposes of prescribing regulations, the ASC must establish an advisory committee of industry participants, including appraisers, lenders, consumer advocates, real estate agents, and government agencies, and hold meetings as necessary to support the development of regulations.¹⁴

C. Background

Congress enacted Title XI in response to concerns that problematic appraisals played a major role in the savings and loan crisis of the 1980s.¹⁵ The purpose of Title XI is to provide that Federal financial and public policy interests in real estate transactions will be protected by requiring that real estate appraisals utilized in connection with federally related transactions are performed in writing, in accordance with uniform standards, by individuals whose competency has been demonstrated and whose professional conduct will be subject to effective supervision.¹⁶ To help ensure that the purpose of Title XI was carried out, Congress established a regulatory framework to monitor and oversee the real estate appraisal industry, including establishing the ASC.¹⁷

¹⁶ 12 U.S.C. 3331.

¹⁷ The ASC is composed of seven members, each designated by the head of a Federal agency (the Board of Governors of the Federal Reserve System (Board), the Consumer Financial Protection Bureau

Since the enactment of Title XI, one of the ASC’s functions has been to monitor the requirements established by State Appraiser Regulatory Agencies for the certification and licensing of real estate appraisers qualified to perform appraisals in connection with federally related transactions.¹⁸ The monitoring is accomplished through periodic or accelerated compliance reviews of Appraiser Programs of each State¹⁹ to assess whether the program is operating in a manner consistent with Title XI and to assess the implementation of minimum requirements for licensing and certifying appraisers as adopted by the Appraiser Qualifications Board (AQB) of the Appraisal Foundation²⁰ pursuant to section 1116 of Title XI.²¹ The ASC also maintains a national registry of State licensed and certified appraisers eligible to perform appraisals in federally related transactions (Appraiser Registry).²²

In 2010, Title XI was amended by the Dodd-Frank Act.²³ Subsection 1473(f) of the Dodd-Frank Act expanded the ASC’s functions to include monitoring the requirements established by State Appraiser Regulatory Agencies for the registration and supervision of the operations and activities of AMCs.²⁴

(CFPB), the Federal Deposit Insurance Corporation (FDIC), the Office of the Comptroller of the Currency (OCC), the National Credit Union Administration (NCUA), the Department of Housing and Urban Development (HUD), and the Federal Housing Finance Agency (FHFA)). See 12 U.S.C. 3310 and 12 U.S.C. 1708(g)(2).

¹⁸ 12 U.S.C. 3332(a)(1)(A).

¹⁹ All 50 States, the District of Columbia, and four U.S. territories have established Appraiser Programs to ensure the availability of licensed and certified appraisers and effective supervision of their activities. The four territories include Guam, Puerto Rico, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands. American Samoa does not have an Appraiser Program.

²⁰ The Appraiser Qualifications Board of the Appraisal Foundation adopts the “Real Property Appraiser Qualification Criteria” (AQB Criteria), which establishes the minimum education, experience, and examination requirements for the licensure and certification of real property appraisers and minimum requirements for trainee and supervisory appraisers. See AQB Criteria, available at https://www.appraisalfoundation.org/imis/TAF/Standards/Qualification_Criteria/Qualification_Criteria_RP_TAF/AQB_RPAQC.aspx.

²¹ 12 U.S.C. 3345.

²² 12 U.S.C. 3332(a)(3).

²³ See *supra* note 2.

²⁴ Public Law 111–203, sec. 1473(f), 124 Stat. 2191–2192; 12 U.S.C. 3332(a)(1)(B). See *supra* note 13 at 97. Presently, 50 States and the District of Columbia have AMC Programs. Hawaii’s AMC Program sunset on June 30, 2023. However, Hawaii House Bill 2641 was signed into law on June 21, 2024, to reenact the version of the AMC Program that was originally part of the Hawaii Department of Commerce and Consumer Affairs. The Hawaii AMC Program established pursuant to House Bill 2641 commenced on September 1, 2024. American

State Appraiser Regulatory Agencies with an AMC Program are evaluated through periodic or accelerated compliance reviews to assess whether the program is operating in a manner consistent with Title XI and to assess the implementation of the minimum requirements for State registration and supervision of AMCs.²⁵ Subsection 1473(f) also established a parallel Federal system of oversight for an AMC that operates as a subsidiary of a financial institution overseen by a Federal banking regulator.²⁶ These entities are referred to as “federally regulated AMCs” under this proposal. Federally regulated AMCs are not required to register with a State Appraiser Regulatory Agency.²⁷ Finally, subsection 1473(f) required the ASC to maintain a national registry of AMCs that are either registered with and subject to supervision of a State Appraiser Regulatory Agency or operating subsidiaries of a federally regulated financial institution (AMC Registry).²⁸

In addition to authorities related to AMCs, subsection 1473(k) of the Dodd-Frank Act improved the ASC’s ability to oversee State Appraiser Regulatory Agencies in several important ways.²⁹ First, subsection 1473(k) added funding and staffing to the list of criteria against which the ASC must evaluate a State Appraiser Regulatory Agency.³⁰ Second, subsection 1473(k) requires the ASC to evaluate whether a State Appraiser Regulatory Agency processes complaints and completes its investigations in a reasonable time period, whether a State Appraiser Regulatory Agency appropriately disciplines sanctioned appraisers and AMCs, whether a State Appraiser

Regulatory Agency maintains an effective regulatory program, and whether a State Appraiser Regulatory Agency reports complaints and disciplinary actions to the Appraiser and AMC Registries on a timely basis.³¹ Third, subsection 1473(k) permits the ASC to impose interim actions and suspensions against State Appraiser Regulatory Agencies under certain circumstances.³²

Finally, subsection 1473(d) of the Dodd-Frank Act added the authority to promulgate regulations concerning “temporary practice, national registry, information sharing, and enforcement.”³³ If the ASC decides to undertake rulemaking on any of the four areas identified above,³⁴ subsection 1473(d) further requires the ASC to establish an advisory committee of industry participants and hold meetings as necessary to support the development of regulations.³⁵

D. Reasons for Issuing This Proposed Rule

Title XI did not originally provide the ASC with the authority to issue legislative rulemaking, nor the authority to enforce its own standards and pursue incremental improvements in the regulatory performance of State Appraiser Regulatory Agencies through interim actions and suspensions (interim enforcement actions).³⁶

Instead of regulations, the ASC has issued and relied on Policy Statements with respect to monitoring State Appraiser Regulatory Agencies.³⁷ The Policy Statements address the requirements of Title XI and offer guidance to State Appraiser Regulatory Agencies regarding compliance with Title XI and the rules promulgated thereunder.³⁸ Additionally, prior to the Dodd-Frank Act, the only enforcement action that the ASC could take against a State Appraiser Regulatory Agency

was non-recognition, which would prohibit all licensed and certified appraisers from that State from performing appraisals in connection with federally related transactions.³⁹ Non-recognition is a severe enforcement action that could affect the real estate markets and financial institutions within the State. To date, the ASC has not imposed non-recognition against a State Appraiser Regulatory Agency.

As discussed above, the Dodd-Frank Act provided the ASC with additional enforcement authorities to take against State Appraiser Regulatory Agencies, when appropriate, along with related rulemaking authority.⁴⁰ The ASC is now issuing this proposed rule to implement these additional enforcement authorities included in the Dodd-Frank Act.

E. Recommendations by the ASCAC

On February 18, 2014, following the enactment of the Dodd-Frank Act, the ASC established the ASCAC in accordance with the Federal Advisory Committee Act.⁴¹ The purpose of the ASCAC was to provide independent advice and recommendations to the ASC regarding the development of regulations that may be prescribed by the ASC concerning temporary practice, the Appraiser and AMC Registries, information sharing, and enforcement.⁴² The ASCAC was comprised of eighteen members nominated by the ASC Executive Director and approved by the ASC Chairperson in consultation with the ASC Board members.⁴³ The ASCAC met four times: April 16–17, July 22–23, and October 15–16, 2014, and February

³⁹ Public Law 101–73, 103 Stat. 511–519 (1989). See *supra* note 13 at 58.

⁴⁰ See *supra* note 2.

⁴¹ 5 U.S.C. chapter 10. Membership in the ASCAC was determined in accordance with the Amended Balanced Membership Plan dated June 18, 2014. See Balanced Membership Plan, dated February 18, 2014, available at <https://www.asc.gov/sites/default/files/documents/GeneralCorrespondence/Balanced%20Membership%20Plan%20-%20Final%202014.02.12.pdf>. See also Amended Balanced Membership Plan, dated June 18, 2014, available at <https://www.asc.gov/sites/default/files/documents/GeneralCorrespondence/Amended%20Balanced%20Membership%20Plan%202014.06.18.pdf>.

⁴² 12 U.S.C. 3335.

⁴³ See ASCAC Member List, available at <https://www.asc.gov/sites/default/files/2023-03/2014.07.14%20Advisory%20Committee%20Member%20List%20-%20amended%201.21.15.pdf>. The ASCAC members represented a balance of expertise across a range of industry participants and stakeholders as contemplated by section 1106 of Title XI, 12 U.S.C. 3335, including appraisers, AMCs, lenders, consumer advocates, real estate agents, and government agencies. All ASCAC members had experience regarding the appraiser regulatory framework for federally related transactions.

Samoa, Guam, Puerto Rico, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands do not have AMC Programs.

²⁵ The Dodd-Frank Act added section 1124 to Title XI, Appraisal Management Company Minimum Requirements, which required the OCC, Board, FDIC, NCUA, FHFA, and CFPB to establish, by rule, minimum requirements for the registration and supervision of AMCs by State Appraiser Regulatory Agencies that elect to register and supervise AMCs pursuant to Title XI. See 12 U.S.C. 3353(a). The related final rule was published in the *Federal Register* on June 9, 2015, with an effective date of August 10, 2015. See 80 FR 32658 (June 9, 2015).

12–13, 2015.⁴⁴ The ASCAC completed its recommendation report on April 30, 2015,⁴⁵ and presented its recommendations to the ASC on May 13, 2015.⁴⁶ The ASCAC's recommendation report stated that most members believed the ASC “must” codify the ASC Policy Statements through rulemaking.⁴⁷

Given the ASC's intent to promote effective and consistent oversight, the ASC is now prepared to implement its statutory authority to address the effectiveness of Appraiser and AMC Programs through rulemaking. The ASCAC recommendation report covers matters beyond enforcement actions against State Appraiser Regulatory Agencies and discusses the desirability of codifying all the Policy Statements. For this proposed rulemaking, the ASC is responding to only the ASCAC's recommendations that apply to its enforcement authority regarding the effectiveness of Appraiser and AMC Programs administered by State Appraiser Regulatory Agencies and is proposing to codify only portions of such Policy Statements pertaining to such enforcement authorities. The ASC considers the ASCAC's recommendation report regarding these enforcement authorities to be relevant. Some recommendations address ongoing issues and problems that the ASC has continued to face since the report was issued. Many of the report's underlying observations are concerns in the appraiser regulatory framework today. Thus, the ASC has considered the ASCAC's recommendations in developing this proposed rule.

1. ASCAC's Sanction Matrices

The ASCAC developed and recommended three sanction matrices to

be used by the ASC in sanctioning State Appraiser Regulatory Agencies.⁴⁸ The three sanction matrices covered temporary practice, Appraiser and AMC Registries, and enforcement, and proposed twelve potential types of enforcement actions.⁴⁹ However, the ASC proposes not to adopt the three sanction matrices recommended by the ASCAC for the following reasons.

Section 1118(a) of Title XI authorizes the ASC to impose enforcement actions against a State Appraiser Regulatory Agency that fails to have an effective regulatory program and includes six program functions relevant to making this determination.⁵⁰ The six applicable program functions include (1) the licensing and certification of appraisers, (2) the registration of AMCs, (3) the issuance of temporary licenses and certifications for appraisers, (4) the receiving and tracking of submitted complaints against appraisers and AMCs, (5) the investigation of complaints, and (6) enforcement actions against appraisers and AMCs.⁵¹ The ASC believes that the ASCAC-recommended sanction matrices do not incorporate all six applicable program functions, such as the licensing and certification of appraisers and the registration of AMCs, in determining whether an Appraiser or AMC Program is effective in accordance with section 1118(a) of Title XI.⁵² Therefore, the ASC views the matrices as partially incomplete and not effective in implementing all the program functions in section 1118(a).⁵³

2. ASCAC's Method of Addressing Deficiencies

The ASCAC recommended that enforcement actions be brought per individual deficiency against State Appraiser Regulatory Agencies using sanction matrices.⁵⁴ Under this ASCAC recommendation, an enforcement action would be imposed for each deficiency of a State Appraiser Regulatory Agency. For example, under the ASCAC-recommended temporary practice sanction matrix, a State Appraiser Regulatory Agency could receive a warning letter for not issuing temporary licenses or certifications on an assignment basis and could receive a separate suspension for not issuing

temporary licenses or certifications within five business days.

This enforcement approach recommended by the ASCAC would not permit the ASC to deviate from the matrices to consider the appropriate enforcement action based on the underlying facts of each compliance review. The ASC, however, believes that deficiencies should be addressed collectively rather than individually to allow for the ASC to consider significant variations in the underlying facts of each compliance review.

Therefore, under the proposal, the ASC would bring an enforcement action based on the aggregation of deficiencies identified during a compliance review. For example, under the proposed rule, the ASC would impose only one enforcement action against a State Appraiser Regulatory Agency for all deficiencies identified during a compliance review. The number of deficiencies, the State Appraiser Regulatory Agency's response to the preliminary report, and the presence of any relevant mitigating and aggravating factors would guide the ASC's consideration of the appropriate enforcement action.

3. ASCAC's Proposed Enforcement Actions

The ASCAC also recommended twelve potential types of enforcement actions to be incorporated into the three sanction matrices.⁵⁵ The twelve potential types of enforcement actions included: (1) a warning letter, (2) training for State Appraiser Regulatory Agency staff, (3) training for State Appraiser Regulatory Agency board members, (4) consultation with other State authorities, (5) meeting with affected parties, (6) a requirement for a State Appraiser Regulatory Agency to use a disciplinary sanction matrix for complaints, (7) expedited or follow-up reviews, (8) continuous monitoring, (9) interim removal of appraiser(s) from the Appraiser Registry or AMC(s) from the AMC Registry, (10) other removal of appraiser(s) from the Appraiser Registry or AMC(s) from the AMC Registry, (11) interim derecognition, and (12) derecognition.⁵⁶ The proposed rule would directly address three of the ASCAC's recommended enforcement actions: warning letters, suspension (interim derecognition), and non-recognition. The proposed rule would introduce and define a fourth enforcement action: a negotiated agreement.

⁴⁴ See April 16–17, 2014 ASCAC Meeting Minutes, available at <https://asc.gov/sites/default/files/documents/GeneralCorrespondence/April%202014%20ASCAC%20Meeting%20Minutes.pdf>; July 22–23, 2014 ASCAC Meeting Minutes, available at <https://asc.gov/sites/default/files/documents/GeneralCorrespondence/Meeting%20Minutes%20-%20July%202014.pdf>; October 15–16, 2014 ASCAC Meeting Minutes, available at <https://asc.gov/sites/default/files/documents/GeneralCorrespondence/October%202014%20ASCAC%20Meeting%20Minutes.pdf>; and February 12–13, 2015 ASCAC Meeting Minutes, available at <https://asc.gov/sites/default/files/documents/OtherCorrespondence/February%202015%20Advisory%20Committee%20Minutes.pdf>.

⁵² *Id.*

⁵³ *Id.*

⁵⁴ See ASCAC Final Recommendation Report, *supra* note 45 at 26–30.

⁵⁵ *Id.* at 24.

⁵⁶ *Id.*

For the reasons stated below, the ASC is not planning to explicitly include the other nine enforcement actions recommended by the ASCAC. The ASC believes some potential enforcement actions suggested by the ASCAC, such as training requirements for State Appraiser Regulatory Agency staff and board members and the use of a disciplinary sanction matrix for appraiser and AMC complaints,⁵⁷ would be implemented more effectively through a negotiated agreement, as appropriate, rather than as individual enforcement actions. For example, a negotiated agreement could specify terms and conditions for training State Appraiser Regulatory Agency staff and board members based on the deficiencies identified by the ASC.

Additionally, the ASC does not believe there is a need to include other potential enforcement actions recommended by the ASCAC, such as expedited reviews or follow-up reviews, continuous monitoring, and consultation with State officials or other stakeholders,⁵⁸ as explicit enforcement actions in the proposed rule. The ASC plans to codify its existing compliance review process consistent with its current practices and processes for conducting compliance reviews, such as accelerated reviews, follow-up reviews, and additional monitoring. Under the proposed rule, the ASC may conduct accelerated reviews, follow-up reviews within 6–12 months of the previous review, and additional monitoring as part of the compliance review process.⁵⁹ The ASC also currently informally consults with State officials and other stakeholders, when appropriate, to monitor Appraiser and AMC Programs.

With respect to the ASCAC's recommended enforcement actions of interim or other removal of an appraiser from the Appraiser Registry or an AMC from the AMC Registry, section 1118(a) of Title XI provides that the ASC has the authority to remove a State licensed or certified appraiser from the Appraiser Registry or a registered AMC from the AMC Registry on an interim basis, not to exceed 90 days pending State agency action on licensing, certification, registration, and disciplinary proceedings.⁶⁰ After careful

consideration, the ASC is not including in this proposed rulemaking the interim removal of an appraiser from the Appraiser Registry or an AMC from the AMC Registry as a potential enforcement action as suggested by the ASCAC.⁶¹

The scope of this proposed rulemaking is limited to the ASCAC's recommended potential enforcement actions that the ASC may take against a State Appraiser Regulatory Agency after a compliance review rather than actions against individual appraisers or AMCs. Therefore, this proposed rule does not address the ASC's authority under section 1118(a) of Title XI to remove a State licensed or certified appraiser from the Appraiser Registry or a registered AMC from the AMC Registry on an interim basis, not to exceed 90 days, pending State agency action on licensing, certification, registration, and disciplinary proceedings.⁶²

4. Policy Statements 7 and 10 Recommendations

The ASCAC also included specific recommendations related to the Policy Statements. Policy Statements 7 (State Agency Enforcement for Appraiser Programs) and 10 (State Agency Enforcement for AMC Programs) state that, absent special documented circumstances, final administrative decisions by a State Appraiser Regulatory Agency regarding complaints must occur within one year (twelve months) of the complaint filing date.⁶³ The ASCAC recommended clarifying the definition of “complaint filing date”⁶⁴ because States have different interpretations of this term. The ASCAC noted that some States consider the “complaint filing date” to be when the State Appraiser Regulatory Agency receives the original complaint, while others consider it to be when the complaint has been screened and approved for investigation.⁶⁵ To address this confusion, the ASCAC recommended that the term “complaint filing date” be defined as the date the State Appraiser Regulatory Agency receives the original complaint.⁶⁶ The proposed rule avoids using the term “complaint filing date” to prevent

removal on an interim basis, not to exceed 90 days, pending State agency action on licensing, certification, registration, and disciplinary proceedings.

⁶⁵ *Id.* at 14.

⁶⁶ *Id.* at 8 and 14.

confusion. Instead, to implement the ASCAC's recommendation, this proposed rule would specify that State Appraiser Regulatory Agencies must begin the time period for resolving complaints based on the date the complaint was received.

The ASCAC also recommended that “special documented circumstances,” as used in Policy Statement 7, should be more specifically defined.⁶⁷ Under this proposal, “special documented circumstances” would mean well-documented and monitored extenuating circumstances, evaluated by the ASC, that are beyond the control of the State Appraiser Regulatory Agency and result in a complaint processing delay. The ASC proposes not to implement a more specific definition of “special documented circumstances” as recommended by the ASCAC because a broad definition is more appropriate considering the variations in complaint processing among State Appraiser Regulatory Agencies. For example, some State Appraiser Regulatory Agencies may involve the State's Office of Attorney General in investigating complaints, while others may use staff investigators, contractors, or advisory committees. Therefore, the ASC proposes a definition of “special documented circumstances” similar to the one in Policy Statement 7.⁶⁸ The ASCAC recommended providing more examples of what constitutes “special documented circumstances” for resolving complaints within one year (12 months).⁶⁹ Specifically, the ASCAC recommended clarifying the example in Policy Statement 7 that describes those periods when State rules require referral of a complaint to another State entity for review, and the State Appraiser Regulatory Agency is precluded from further processing of the complaint until it is returned.⁷⁰ The ASCAC recommended that the example should be clarified to refer to a period of time when a case is referred to a separate State entity such as the State's Office of Attorney General for prosecution, or to an administrative law judge for a hearing.⁷¹ Another example recommended by the ASCAC was the time gap between the date the complaint was initially received and the receipt of

⁶⁷ *Id.* Policy Statement 7 defines “special documented circumstances” as extenuating circumstances (fully documented) beyond the control of the State Appraiser Regulatory Agency that delays normal processing of a complaint. See Policy Statements, *supra* note 38 at 9155.

⁶⁸ See Policy Statements, *supra* note 38 at 9155 and 9158.

⁶⁹ See ASCAC Final Recommendation Report, *supra* note 45 at 8 and 14.

⁷⁰ *Id.* at 14.

⁷¹ *Id.*

⁵⁷ *Id.*

⁵⁸ *Id.*

⁵⁹ See Policy Statements, *supra* note 38 at 9161. The ASC may conduct accelerated reviews, follow-up reviews, and additional monitoring. A follow-up review focuses on specific areas identified during a previous review and typically occurs within 6–12 months of the previous review.

⁶⁰ 12 U.S.C. 3347(a). Note, as reflected by the statutory text found in section 1118(a) of Title XI, 12 U.S.C. 3347(a), the ASC's authority is limited to

all the necessary information to begin processing it.⁷²

The ASC does not plan to incorporate the examples recommended by the ASCAC in this proposal or in any revisions to the Policy Statements, nor to provide any further examples. The ASC holds the view that there must be a legitimate practical challenge limiting the State Appraiser Regulatory Agency's ability to resolve complaints within one year (12 months) from when the complaint was received, which will be evaluated on a case-by-case basis, and that further examples are, therefore, not necessary.

The ASCAC's last recommendation was to clarify what qualifies as an "investigation" of the merits of a complaint.⁷³ The ASCAC gave two examples from Policy Statement 7 that provide guidance on what qualifies as an "investigation" of the merits of a complaint. Consistent with the ASCAC's first referenced example from Policy Statement 7,⁷⁴ the proposed rule would require State Appraiser Regulatory Agencies to ensure that individuals analyzing complaints are knowledgeable about Title XI, the Uniform Standards of Professional Appraisal Practice (USPAP), and appraisal practices. Under the proposed rule, these individuals must be qualified and their qualifications must be documented, which will be evaluated by the ASC. The proposed rule would have a similar requirement for AMC Programs, where individuals who analyze complaints against AMCs are required to be knowledgeable about Title XI, the AMC Rule,⁷⁵ USPAP, and appraisal practices and their qualifications must be documented, which will be evaluated by the ASC.

The proposed rule would also make some modifications to the ASCAC's second referenced example from Policy Statement 7.⁷⁶ According to Policy Statement 7, State Appraiser Regulatory Agencies must analyze each complaint to determine whether additional violations, especially those relating to USPAP, should be added to the

complaint.⁷⁷ The proposed rule would require State Appraiser Regulatory Agencies to consider whether any potential violations of USPAP should be investigated when examining an appraisal report in connection with a complaint, including complaints based solely on value.⁷⁸

Although the ASCAC interpreted "additional violations" to include violations of Federal and State law,⁷⁹ the proposed rule would only require State Appraiser Regulatory Agencies to consider whether any potential violations of USPAP should be investigated. This is because the ASC is responsible for ensuring that real estate appraisals used in federally related transactions are performed according to USPAP by State licensed and certified appraisers.⁸⁰ However, the ASC encourages State Appraiser Regulatory Agencies to consider whether to investigate any violations of Federal and State law not explicitly alleged in the complaint in accordance with State law or regulations.

The ASCAC also provided examples of how State Appraiser Regulatory Agencies have different definitions of what constitutes an "investigation." For some State Appraiser Regulatory Agencies, the "investigation" may consist simply of the screening of a complaint by a staff member.⁸¹ If the staff member decides that the complaint has no merit or that it needs only a telephone call or letter to the appraiser, it is either not opened or opened and closed immediately.⁸² For other State Appraiser Regulatory Agencies, a full field investigation is conducted on all complaints.⁸³ As a result of these different definitions, it is challenging to establish a standard definition of an investigation because the investigatory process is typically governed by State law or regulation. Additionally, each

investigation is contingent upon the specific facts of the complaint. During a compliance review, the ASC examines a sample of complaint files to assess whether the State Appraiser Regulatory Agency is following the investigatory process governed by State law to ensure timely and effective supervision of appraisers. Therefore, the ASC does not plan to further clarify what qualifies as an "investigation" of the merits of a complaint.

5. ASCAC's Mitigating and Aggravating Factors

The ASCAC also produced a list of mitigating and aggravating factors for the sanction matrices.⁸⁴ The ASCAC defined "a mitigating factor" as any information or evidence regarding the deficiency that might result in a decreased sanction.⁸⁵ The ASCAC defined "an aggravating factor" as any information or evidence regarding the deficiency that might result in an increased sanction.⁸⁶ Except as discussed below, the ASC has separately included, with some modifications, all of the mitigating and aggravating factors recommended by the ASCAC in this proposed rule.

The ASC proposes not to separately include the recommended mitigating and aggravating factors relating to a State Appraiser Regulatory Agency board member involved in a disciplinary decision who had a conflict of interest or bias because the ASC believes such circumstance would be

⁷² *Id.* at 25.

⁷³ *Id.* The mitigating factors recommended by the ASCAC include no prior deficiencies of any type; prior deficiencies of another type that were minor and have been corrected; understanding and acknowledging the deficiency; immediate steps taken to correct the issue; personnel issues such as illness or loss of a key staff member; change in leadership; the State Appraiser Regulatory Agency otherwise has an effective and efficient regulatory program; the occurrence of a natural disaster; and a State Appraiser Regulatory Agency board member who had a conflict of interest was cleared by a State ethics agency before participating in a matter (unless the ASC finds the conflict created a bias that affected the outcome).

⁷⁴ *Id.* The aggravating factors recommended by the ASCAC include a pattern of prior deficiencies of another type that have not been corrected; a pattern of prior deficiencies of the same type; numerous deficiencies of various types; refusal to acknowledge the deficiency; lack of cooperation with the ASC staff; a lack of willingness or lack of efforts to correct deficiencies; deficiencies are material and, if not corrected in a timely manner, will pose a potential risk to the program, licensees, financial institutions or agencies or to the public; submission of false statements or documents, or other deceptive practices; a State Appraiser Regulatory Agency board member involved in a decision who had a conflict of interest or bias that affected the outcome of a matter; other deficiencies in the program that might indicate systemic issues; risk of program failure; and systemic failure to exercise reasonable care toward equitable enforcement.

⁷⁵ See Policy Statements, *supra* note 38 at 9155.

⁷⁶ The ASCAC also recommended that complaints that only relate to value should not be dismissed solely on that basis, and State Appraiser Regulatory Agencies should be obligated to analyze all complaints for USPAP compliance, even if a USPAP violation is not explicitly alleged. See ASCAC Final Recommendation Report, *supra* note 45 at 14. The ASC believes that this proposal would address the ASCAC's recommendations described above. The proposed rule would require State Appraiser Regulatory Agencies to consider whether any potential violations of USPAP should be investigated when examining an appraisal report in connection with a complaint, including complaints based solely on value.

⁷⁷ See ASCAC Final Recommendation Report, *supra* note 45 at 14.

⁷⁸ See, e.g., 12 U.S.C. 3331 and 12 U.S.C. 3332(a)(1)(A).

⁷⁹ See ASCAC Final Recommendation Report, *supra* note 45 at 14.

⁸⁰ *Id.*

⁸¹ *Id.*

⁷² *Id.*

⁷³ *Id.* at 8 and 14–15.

⁷⁴ *Id.* at 14.

⁷⁵ Under the proposed rule, "AMC Rule" means regulations established by the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, and the Federal Housing Finance Agency regarding the minimum requirements for AMCs under section 1124 of Title XI (12 U.S.C. 3353). (12 CFR 34.210 through 34.216; 12 CFR 225.190 through 225.196; 12 CFR 323.8 through 323.14; 12 CFR 1222.20 through 1222.26).

⁷⁶ See ASCAC Final Recommendation Report, *supra* note 45 at 14.

covered under the proposed mitigating or aggravating factor of whether the State Appraiser Regulatory Agency failed to exercise reasonable care in equitable, consistent, and timely enforcement. The ASC also proposes to include other mitigating and aggravating factors, such as the number of State licensed and certified appraisers or registered AMCs under the jurisdiction of a State Appraiser Regulatory Agency and human-made disasters or emergencies or other government-declared orders.

The ASC believes these factors accurately capture the considerations that would allow the ASC to increase or decrease its initial assessment of an Appraiser or AMC Program's level of effectiveness. These factors would give State Appraiser Regulatory Agencies incentives to cooperate with the ASC and timely address any deficiencies while still recognizing that certain situations, outside of a State Appraiser Regulatory Agency's control, such as a natural disaster, can sometimes affect the effectiveness of an Appraiser or AMC Program.

II. Proposed Rule

The ASC is issuing this proposal to implement a framework to govern the ASC's enforcement authority regarding the effectiveness of Appraiser and AMC Programs overseen by State Appraiser Regulatory Agencies. The Dodd-Frank Act strengthened the ASC's oversight of State Appraiser Regulatory Agencies and authorized the ASC to impose interim enforcement actions against State Appraiser Regulatory Agencies before having to impose "non-recognition."

Under this proposal, the ASC would conduct an analysis of the applicable program functions, as required by section 1118(a) of Title XI,⁸⁷ to assess the effectiveness of an Appraiser or AMC Program. The proposed rule would outline the specified requirements for each program function that the ASC will examine for program effectiveness.⁸⁸ Additionally, the proposed rule would require State Appraiser Regulatory Agencies to demonstrate to the ASC's reasonable satisfaction that their Appraiser and AMC Programs are operating consistently with the specified requirements of each program function. If any deficiencies are identified, the ASC would be required to document

them in both the preliminary and final reports.

Under the proposal, the ASC would assess the initial effectiveness of an Appraiser or AMC Program based on the number of deficiencies per program function as identified in the preliminary report. The ASC proposes using the number of deficiencies for the initial assessment of effectiveness because this approach would provide transparency into the ASC's decision-making and help to provide consistent and fair treatment between similarly situated State Appraiser Regulatory Agencies.

The proposed rule would establish four levels of effectiveness: effective, moderately effective, slightly effective, and ineffective, each specifying the allowable number of deficiencies per program function. The effectiveness of Appraiser and AMC Programs would be assessed through the four levels mentioned above, which the ASC plans to incorporate into the ASC's overall rating criteria to emphasize further that a State Appraiser Regulatory Agency is maintaining an effective Appraiser or AMC Program.⁸⁹

Under the proposed rule, the ASC would consider whether the State Appraiser Regulatory Agency's response to the preliminary report and any relevant mitigating and aggravating factors justify an increase or decrease in the level of the regulatory program's effectiveness identified in the preliminary report for the final report.

If a State Appraiser Regulatory Agency fails to have an effective Appraiser or AMC Program, the ASC would have the authority, under the proposed rule, to impose an enforcement action. This approach would enable the ASC to evaluate the underlying facts of each compliance review and take appropriate enforcement action against the State Appraiser Regulatory Agency for not maintaining an effective Appraiser or AMC Program. The proposed rule would set forth four enforcement actions: warning letters, negotiated agreements, suspensions, and non-recognition. This section provides a section-by-section analysis of the proposed rule.

A. Key Definitions

This proposal would define several terms consistent with their use in Title

XI, Federal regulations promulgated thereunder, or the Policy Statements. For example, the proposed rule would include definitions from the AMC Rule in their entirety for the following terms: AMC, appraisal management services, appraiser panel, consumer credit, covered transaction, dwelling, federally regulated AMC, person, and USPAP. Therefore, this section highlights key definitions included in the proposal. *AQB Criteria.* Pursuant to section 1116 of Title XI,⁹⁰ the AQB establishes the minimum requirements for real estate appraisers to obtain a State license or certification as well as "Trainee Appraiser" and "Supervisory Appraiser" requirements. The proposed rule would define "AQB Criteria" as the minimum requirements for the licensure and certification of real estate appraisers and the minimum requirements for trainee and supervisory appraisers established by the AQB. The proposed definition is consistent with section 1116 of Title XI,⁹¹ as well as substantively similar to the AQB's Real Property Appraiser Qualification Criteria, which set forth the minimum education, experience, and examination requirements for real property appraisers.⁹²

Assignment. Section 1106 of Title XI confers rulemaking authority to the ASC in the area of temporary practice.⁹³ For purposes of issuing a temporary license or certification,⁹⁴ the proposal would define "assignment" as one or more real estate appraisals and written appraisal report(s) covered by a single contract. The proposed definition here is intended to be consistent with the use of the term "assignment" in the statutory definition of "AMC" but solely in the context of temporary practice.⁹⁵

⁹⁰ 12 U.S.C. 3345.

⁹¹ *Id.*

⁹² See AQB Criteria, *supra* note 20.

⁹³ 12 U.S.C. 3335.

⁹⁴ The term "license" as defined under the Administrative Procedure Act, 5 U.S.C. 551(8), encompasses a wide range of forms of permission, including agency permits, certificates, approvals, registrations, charters, memberships, statutory exemptions, and others. This definition under the Administrative Procedure Act, 5 U.S.C. 551(8), is consistent with many State Administrative Procedure Acts, such as the State Administrative Procedure Acts of Arizona (Ariz. Rev. Stat. Ann. § 41-1001(13) (2024)), Arkansas (Ark. Code Ann. § 25-15-202(4) (2024)), Colorado (Colo. Rev. Stat. § 24-4-102(7) (2024)), Delaware (Del. Code Ann. § 10102(5) (2023)), District of Columbia (D.C. Code § 2-502(12) (2024)), Indiana (Ind. Code § 4-21.5-1-8 (2024)), Iowa (Iowa Code § 17A.2(6) (2024)), Kansas (Kan. Stat. Ann. § 77-502(c) (2024)), Maine (Me. Rev. Stat. § 5 8002(5) (2023)), and Massachusetts (Mass. Gen. Laws. 30A § 13) (2024)). Furthermore, most State Appraiser Regulatory Agencies issue temporary practice permits.

⁹⁵ 12 U.S.C. 3350(11)(B) (defining AMC as any "external third party . . . [that, in part,] contract[s]

⁸⁷ 12 U.S.C. 3347(a).

⁸⁸ These requirements are currently outlined in the Policy Statements. See Policy Statements, *supra* note 45.

⁸⁹ See Policy Statements, *supra* note 38 at 9160-9161. Currently, the ASC evaluates overall Title XI compliance of a State Appraiser Regulatory Agency's Appraiser or AMC Program by assigning one of five ASC Findings at the end of the compliance review process. ⁸⁹ The ratings, known as ASC Findings, are classified as follows: Excellent, Good, Needs Improvement, Not Satisfactory, or Poor.

Deficiency. A State Appraiser Regulatory Agency would be deemed to have a deficiency if the State Appraiser Regulatory Agency's Appraiser or AMC Program is not in compliance with any specified requirements of the applicable program functions required by section 1118(a) of Title XI.⁹⁶ The ASC would analyze and consider the initial effectiveness of Appraiser or AMC Programs based on the number of deficiencies per program function as identified in the preliminary report to provide for a consistent and transparent enforcement approach. The ASC then would have the option to impose an enforcement action, such as a warning letter that describes the deficiency or deficiencies, or enter into a negotiated agreement with a State Appraiser Regulatory Agency if the agency fails to address the deficiency or deficiencies identified in a previously issued warning letter or the final report indicates that the regulatory program is slightly effective or ineffective.

Final order. The proposed rule would require the ASC to issue a final order to suspend a State Appraiser Regulatory Agency. The proposed definition of "final order" would include findings of fact, conclusions of law, and, if applicable, the terms of the enforcement action imposed against a State Appraiser Regulatory Agency for failing to have an effective Appraiser or AMC Program. A "final order" is one type of document that the ASC is required to make public via computer telecommunications.⁹⁷

Final report. After the State Appraiser Regulatory Agency has had an opportunity to respond to the preliminary report, it is current practice that the ASC prepares and issues a final report on its monitoring findings. The "final report" would, under the proposed rule, include the ASC's final analysis of the regulatory program's effectiveness, identifying any deficiencies. In preparing the final report, the ASC would consider whether the State Appraiser Regulatory Agency's response to the preliminary report and any relevant mitigating or aggravating factors support a change to the level of the regulatory program's effectiveness. A "final report" is considered one type

of record⁹⁸ that must be made publicly available.⁹⁹

Negotiated agreement. The proposal defines "negotiated agreement" to mean a written agreement signed between the ASC and a State Appraiser Regulatory Agency to correct deficiencies that negatively impact the regulatory program's effectiveness. The proposed definition would specify that the agreement may provide that the State Appraiser Regulatory Agency commits to taking a certain action or actions or refraining from a certain action or actions by a specified time. For example, these agreements could require mandatory training of State Appraiser Regulatory Agency staff and/or board members to address certain findings, weaknesses, and deficiencies or submission of a commitment letter or board resolution to take corrective action in response to the State Appraiser Regulatory Agency's deficiencies. A "negotiated agreement" is considered one type of record¹⁰⁰ that must be made publicly available.¹⁰¹

Non-recognition. Section 1118 of Title XI authorizes the ASC to impose non-recognition on a State Appraiser Regulatory Agency.¹⁰² Subpart B of 12 CFR part 1102 prescribes rules of practice and procedure governing non-recognition proceedings under section 1118 of Title XI.¹⁰³ The proposed definition of "non-recognition" reflects the statutory text of section 1118 of Title XI,¹⁰⁴ which states that the ASC and all agencies, instrumentalities, and federally recognized entities under Title XI shall not recognize appraiser certifications and licenses from States whose appraisal policies, practices, funding, staffing, or procedures are found to be inconsistent with Title XI. The proposed rule would define "non-recognition" as the ASC and all agencies, instrumentalities, and federally recognized entities under Title XI shall not recognize or accept appraiser licenses and certifications

issued by a State Appraiser Regulatory Agency whose policies, practices, funding, staffing, or procedures are found to be inconsistent with Title XI and Federal regulations promulgated thereunder. "Non-recognition" is synonymous with "derecognition," which is referenced in section 1118 of Title XI.¹⁰⁵ Under the proposed rule, "non-recognition" would be used instead of "derecognition" to be consistent with the language of subpart B of 12 CFR part 1102.

*Preliminary report.*¹⁰⁶ After the examination of records and interviews with State Appraiser Regulatory Agency representatives, it is the current practice that the ASC provides a staff report or preliminary report to the State Appraiser Regulatory Agency detailing the initial monitoring findings. Under the proposed definition, the preliminary report would also include an initial analysis of the regulatory program's effectiveness, identifying any deficiencies, and the ASC's initial assessment of the level of effectiveness of the regulatory program.

Program functions. As previously discussed, section 1118(a) of Title XI specifies a list of criteria that the ASC must include in its analysis of a regulatory program's effectiveness.¹⁰⁷ The proposal would define "program functions" as those responsibilities of a State Appraiser Regulatory Agency that the ASC will examine and include in its analysis of the effectiveness of a State Appraiser Regulatory Agency's regulatory program consistent with section 1118(a) of Title XI (12 U.S.C. 3347(a)). The proposed rule would outline five program functions for Appraiser Programs that will be considered in the ASC's analysis: (1) licensing and certification of appraisers, (2) issuance of temporary licenses and certifications for appraisers, (3) receiving and tracking of submitted complaints against appraisers, (4) investigation of complaints against appraisers, and (5) enforcement actions against appraisers. For AMC Programs, the proposed rule would outline four program functions that will be considered in the ASC's analysis: (1) registration of AMCs, (2) receiving and tracking of submitted complaints against AMCs, (3) investigation of complaints against AMCs, and (4) enforcement actions against AMCs.

Special documented circumstances. The proposed rule would define

⁹⁸ 12 CFR 1102.301(i). A "record" includes "records, files, documents . . . or any portion thereof, in any form the ASC regularly maintains them."

⁹⁹ 12 CFR 1102.305(a)(2)(i)(D). One type of document that must be made publicly available is a copy of "all records (regardless of form or format), such as correspondence relating to field reviews or other regulatory subjects, released to any person under § 1102.306 [("Procedures for requesting records")] that, because of the nature of their subject matter, the ASC has determined are likely to be subject of subsequent requests." Under this proposal, field reviews are referred to as "compliance reviews."

¹⁰⁰ See *supra* note 98.

¹⁰¹ See *supra* note 99.

¹⁰² 12 U.S.C. 3347.

¹⁰³ *Id.*

¹⁰⁴ *Id.*

¹⁰⁵ *Id.*

¹⁰⁶ Note, section 1104(b) of Title XI, 12 U.S.C. 3333(b), refers to "preliminary State audit reports," which is synonymous with the term "preliminary report" under this proposal.

¹⁰⁷ 12 U.S.C. 3347(a).

with licensed and certified appraisers to perform appraisal assignments").

⁹⁶ 12 U.S.C. 3347(a).

⁹⁷ 12 CFR 1102.305(a)(2)(i)(A).

“special documented circumstances” as well-documented and monitored extenuating circumstances, evaluated by the ASC, that are beyond the control of the State Appraiser Regulatory Agency and result in a complaint processing delay. Special documented circumstances are relevant when considering the effectiveness of State Appraiser Regulatory Agencies’ supervision in resolving complaints filed against trainee appraisers, State licensed appraisers, State certified appraisers, and AMCs within one year from the date the complaint was received.

State Appraiser Regulatory Agency. Section 1103(a)(5) of Title XI uses the term “State Appraiser Regulatory Agencies.”¹⁰⁸ The proposed rule would define “State Appraiser Regulatory Agency” as a State agency that certifies and licenses real estate appraisers and registers and supervises AMCs or otherwise regulates real estate appraisers and AMCs who operate in that State, consistent with section 1121(1) of Title XI (12 U.S.C. 3350(1)). “State Appraiser Regulatory Agency” is synonymous with “State appraiser certifying and licensing agency” as defined in section 1121(1) of Title XI.¹⁰⁹ To the extent that the registration and supervision of AMCs is carried out by a separate and distinct agency or agencies within a State, each such agency is also a State Appraiser Regulatory Agency. For example, the District of Columbia has two separate and distinct agencies that administer the Appraiser and AMC Programs. The Department of Licensing and Consumer Protection administers the Appraiser Program, and the Department of Insurance, Securities and Banking administers the AMC Program. The Department of Licensing and Consumer Protection and the Department of Insurance, Securities and Banking in the District of Columbia would each be considered a State Appraiser Regulatory Agency under the proposed rule, and the ASC would monitor each of their respective regulatory programs.

Suspension. The proposed definition of “suspension” is that the State Appraiser Regulatory Agency would be prohibited from performing certain task(s) as part of the State Appraiser Regulatory Agency’s responsibilities under Title XI for a specified period of time. This definition is consistent with section 1118(a) of Title XI, which authorizes the ASC to impose “interim actions and suspensions,” against a State Appraiser Regulatory Agency as an

alternative to, or in advance of, the non-recognition of a State Appraiser Regulatory Agency.¹¹⁰ Some examples of possible prohibited tasks include adding appraisers to the Appraiser Registry or AMCs to the AMC Registry, renewing licenses or certifications, and issuing temporary licenses or certifications to appraisers. The proposed rule would provide that a suspension would be effective until the ASC lifts the suspension.

Warning letter. Section 1118(a)(4) of Title XI requires the ASC to monitor State Appraiser Regulatory Agencies to determine whether each State Appraiser Regulatory Agency maintains an effective regulatory program.¹¹¹ If a State Appraiser Regulatory Agency fails to have an effective appraiser regulatory program, section 1118(a) authorizes the ASC to impose enforcement actions.¹¹² One example of an enforcement action is a “warning letter,” which the proposed rule would define as a letter issued by the ASC informing a State Appraiser Regulatory Agency of a deficiency or deficiencies relating to its regulatory program. The proposed definition also provides that if the deficiency is not addressed, it could negatively impact the effectiveness of the State Appraiser Regulatory Agency’s regulatory program.

B. Compliance Reviews

One of the ASC’s functions is to monitor State Appraiser Regulatory Agencies’ Appraiser and AMC Programs for compliance with Title XI.¹¹³ Monitoring these programs is accomplished through periodic or accelerated compliance reviews of each State Appraiser Regulatory Agency’s Appraiser and AMC Programs.¹¹⁴ Proposed § 1102.602 would codify the existing compliance review process consistent with the ASC’s current practices and processes for conducting compliance reviews but would propose a few changes that are discussed below.

The ASC is proposing this approach because the ASC has generally found in its supervisory experience that these practices for conducting compliance

reviews are effective and efficient. Currently, the compliance review process is outlined in the Policy Statements.¹¹⁵ The ASC intends to revise the Policy Statements before the proposed implementation period, discussed in section III below, ends. These revisions would address any potential inconsistencies between the Policy Statements and any final rule based on this proposal.

1. Compliance Review Cycles

The proposal would provide that the ASC has two primary review cycles: two-year and one-year. This is the same standard frequency as the ASC’s current practice outlined in the Policy Statements.¹¹⁶ Most State Appraiser Regulatory Agencies are scheduled on a two-year review cycle, but some may be moved to a one-year review cycle if the ASC determines more frequent reviews are needed to ensure that the State Appraiser Regulatory Agency maintains an effective Appraiser or AMC Program. The ASC is proposing this frequency for compliance reviews because, based on its supervisory experience, the ASC has generally found that these two primary review cycles provide sufficient monitoring. The two review cycles would allow for early identification of deficiencies to prevent or minimize their impact on the effectiveness of Appraiser and AMC Programs. Additionally, the ASC has generally found that the two review cycles are not burdensome and do not strain the resources of the ASC or State Appraiser Regulatory Agencies. The proposed rule would also allow the ASC to use alternate compliance review cycles at its sole discretion. This discretion would allow the ASC to monitor the performance and effectiveness of the frequency of compliance reviews. After evaluation, the ASC could, for example, modify the standard frequency of the primary two review cycles to three years and two years.

In addition to the two primary review cycles, the proposal would provide that the ASC may conduct follow-up reviews and additional monitoring. Consistent with the ASC’s current practice, a follow-up review would focus only on specific areas identified during the previous review and would occur within 6 to 12 months of the previous review. Under the proposed rule, the ASC may also conduct accelerated compliance reviews when there are indications that an Appraiser or AMC Program might not be operating

¹¹⁰ 12 U.S.C. 3347(a).

¹¹¹ 12 U.S.C. 3347(a)(4).

¹¹² 12 U.S.C. 3347(a).

¹¹³ 12 U.S.C. 3332(a)(1) and 3347(a)(1)–(5).

¹¹⁴ Compliance reviews are conducted by the ASC, on a periodic or accelerated basis, to determine whether an Appraiser or AMC Program administered by a State Appraiser Regulatory Agency is operating in a manner consistent with Title XI and Federal regulations promulgated thereunder. The proposed rule does not specify that compliance reviews must occur on-site. Instead, the proposed rule would provide flexibility to the ASC to determine the most appropriate means of conducting a compliance review.

¹¹⁵ See Policy Statements, *supra* note 38 at 9160–9161.

¹¹⁶ *Id.*

¹⁰⁸ 12 U.S.C. 3332(a)(5).

¹⁰⁹ 12 U.S.C. 3350(1).

consistently with Title XI or Federal regulations promulgated thereunder. For example, an accelerated compliance review could be warranted when the ASC receives multiple complaints alleging inadequate enforcement by a State Appraiser Regulatory Agency. This is consistent with the ASC's current practice which is to identify potential Title XI compliance concerns before they occur and take appropriate action to prevent the occurrence or minimize the impact on the effectiveness of an Appraiser or AMC Program. The proposed rule would also provide that if a single State Appraiser Regulatory Agency oversees both Appraiser and AMC Programs, the compliance reviews for each regulatory program may have the same or different review cycles. This is also consistent with current practice, which has been proven to be effective based on the ASC's supervisory experience.

2. Compliance Review Process

Paragraph (c) of proposed § 1102.602 would set forth the general process of a compliance review. Similar to current practice, compliance reviews would consist of an examination of records and interviews with State Appraiser Regulatory Agency representatives. After completing the examination, the ASC would prepare a preliminary report that includes the initial monitoring findings, which is consistent with current practice.

However, the preliminary report would, under the proposed rule, include an initial analysis of the effectiveness of the regulatory program, as required in proposed § 1102.603, identifying any deficiencies. The preliminary report would also, under the proposed rule, include the ASC's initial assessment of the level of effectiveness of the regulatory program. This would be a modification of the ASC's current practice; under Policy Statement 12, this analysis of the regulatory program's effectiveness occurs after the ASC concludes the compliance review and issues an overall ASC Finding of Poor.¹¹⁷ The ASC believes that analyzing the effectiveness of the regulatory program earlier during the compliance review process would improve efficiency and streamline the process, so the ASC proposes to utilize this approach instead. Additionally, the proposed rule would include new interim enforcement actions that can be used if the ASC makes the assessment that an Appraiser or AMC Program is not effective. These interim enforcement actions are an additional tool that can be

used in conjunction with more frequent compliance reviews or additional monitoring.

Under the proposed rule, a State Appraiser Regulatory Agency may respond within 60 business days from the date of the preliminary report. This is consistent with the current practice, which has been proven to be effective, based on the ASC's supervisory experience, to give State Appraiser Regulatory Agencies adequate time to consider and respond with any relevant information showing the State Appraiser Regulatory Agency's efforts to remedy any deficiencies. After considering the State Appraiser Regulatory Agency's response along with any mitigating and aggravating factors, the final report would, under the proposed rule, include the final analysis of the effectiveness of the regulatory program, as required in proposed § 1102.603, identifying any deficiencies. The final report would also, under the proposed rule, include the ASC's final assessment of the level of effectiveness of the regulatory program in accordance with paragraph (b)(2) of proposed § 1102.603.

Similar to the current compliance review process, under the proposed rule, State Appraiser Regulatory Agencies would be required to maintain sufficient documentation to demonstrate that their Appraiser and AMC Programs operate consistently with Title XI. ASC staff reviews a representative sampling of documentation in each of the compliance areas to assess the efficiency of the State Appraiser Regulatory Agency's Appraiser or AMC Program. The proposed rule would further provide that documentation must be made available for inspection, as requested by the ASC, including access to the information stored in any electronic system or providing access to the electronic system itself. The electronic access requirement is not included in the Policy Statements, but it is consistent with current ASC practice.

C. Analysis of the Effectiveness of Appraiser and AMC Programs

To determine whether an Appraiser or AMC Program is effective, the amendments to section 1118(a) of Title XI by the Dodd-Frank Act require the ASC to perform an analysis of previously specified key program functions.¹¹⁸ The proposed rule would incorporate the analysis, as required by section 1118(a) of Title XI,¹¹⁹ earlier in the compliance review process and

provide the analysis in the preliminary and final reports. Under paragraph (a) of proposed § 1102.603, the ASC would examine whether the State Appraiser Regulatory Agency is complying with all specified requirements of each program function and, if not, document any identified deficiencies in the preliminary and final reports.

1. Assessment of Program Effectiveness

The deficiencies identified in the preliminary report would serve as the starting point for the ASC's initial assessment of the regulatory program's effectiveness. Under paragraph (b)(1) of proposed § 1102.603, the ASC would assess the regulatory program's initial effectiveness based on the corresponding number of deficiencies per program function identified in the preliminary report. The ASC proposes using the number of deficiencies for the initial assessment of effectiveness because this approach would provide transparency into the ASC's decision-making and help to provide consistent and fair treatment between similarly situated State Appraiser Regulatory Agencies.

Paragraph (b)(1) of proposed § 1102.603 would establish four levels of effectiveness: effective, moderately effective, slightly effective, and ineffective, each specifying the allowable number of deficiencies per program function. The effectiveness of Appraiser and AMC Programs will be assessed through the four levels mentioned above. Currently, the ASC evaluates overall Title XI compliance of a State Appraiser Regulatory Agency's Appraiser or AMC Program by assigning one of five ASC Findings at the end of the compliance review process.¹²⁰ The ratings, known as ASC Findings, are classified as follows: Excellent, Good, Needs Improvement, Not Satisfactory, or Poor.¹²¹ The ASC plans to incorporate the four levels of program effectiveness into the ASC's overall rating criteria of the ASC Findings to emphasize further that a State Appraiser Regulatory Agency is maintaining an effective Appraiser or AMC Program.

The following example illustrates how this approach would work. The ASC might identify three deficiencies under the same program function of licensing and certification of appraisers. The first deficiency could be that the licensing and certification requirements do not meet the minimum requirements in Title XI. The second deficiency could be that the State Appraiser Regulatory

¹²⁰ See Policy Statements, *supra* note 38 at 9160–9161.

¹²¹ *Id.*

¹¹⁸ 12 U.S.C. 3347(a).

¹¹⁹ *Id.*

¹¹⁷ *Id.* at 9159. See also *supra* note 89.

Agency does not have a reciprocity policy. The third deficiency could be that the State Appraiser Regulatory Agency fails to ensure that approved applicants meet the applicable minimum requirements of the AQB Criteria. The initial assessment of the Appraiser Program's level of effectiveness would be deemed "slightly effective" in the preliminary report under proposed § 1102.603(b)(1)(iii)(A) because the ASC found three deficiencies in one program function.

Due to the difference in the number of program functions between Appraiser and AMC Programs, the allowable number of deficiencies per program function for each level of effectiveness would be different for the Appraiser and AMC Programs under the proposed rule. However, this initial assessment would be performed in an equivalent manner for both program types.

Under paragraph (b)(2) of proposed § 1102.603, the ASC would consider whether the State Appraiser Regulatory Agency's response to the preliminary report and any relevant mitigating and aggravating factors in proposed § 1102.604 justify an increase or decrease in the level of the regulatory program's effectiveness for the final report. This analysis would allow the ASC to consider the totality of the circumstances for its final assessment of the regulatory program's level of effectiveness. The ASC has generally found from its supervisory experience that mitigating and aggravating factors could arise in each compliance review because there can be significant variations in the underlying facts of each compliance review. The ASC is proposing this approach because it would allow the ASC flexibility to ensure that the level of effectiveness is truly representative of the State Appraiser Regulatory Agency's regulatory program. If the ASC considers the regulatory program's level of effectiveness to be appropriately mitigated or aggravated, the relevant factors, including a description of how the factors were applied, will be documented in the final report.

2. Program Functions for Appraiser and AMC Programs

Paragraphs (c)(1) and (2) of proposed § 1102.603 would outline the specified requirements for each program function that the ASC will examine to assess the effectiveness of an Appraiser or AMC Program. The ASC proposes these requirements under paragraphs (c)(1) and (2) of proposed § 1102.603 because they are currently included in the Policy Statements and provide guidance to State Appraiser Regulatory Agencies in

complying with Title XI and the rules promulgated thereunder.¹²² The ASC believes that these requirements are fair and manageable because State Appraiser Regulatory Agencies are familiar with these requirements already and have been implementing them. Additionally, the ASC believes this approach should reduce any challenges that State Appraiser Regulatory Agencies may face in implementing any final rule based on this proposal. These requirements under paragraphs (c)(1) and (2) of proposed § 1102.603 are listed below, starting with the Appraiser Program under paragraph (c)(1) of proposed § 1102.603.

3. Specified Requirements for an Appraiser Program

Under paragraph (c)(1) of proposed § 1102.603, a State Appraiser Regulatory Agency must demonstrate to the ASC's reasonable satisfaction that its Appraiser Program is operating consistently with the specified requirements of each program function as listed below.

Paragraph (c)(1)(i) of proposed § 1102.603 would specify eleven requirements for the program function of licensing and certification of appraisers. These eleven requirements are:

(1) the State Appraiser Regulatory Agency's licensing and certification requirements must meet the minimum requirements set forth in section 1116 of Title XI (12 U.S.C. 3345);¹²³

(2) the State Appraiser Regulatory Agency's trainee and supervisory appraiser requirements, if applicable, must meet the minimum requirements set forth in section 1116 of Title XI (12 U.S.C. 3345);¹²⁴

(3) the State Appraiser Regulatory Agency must use the designations for trainee appraisers, State licensed appraisers, and State certified appraisers in accordance with section 1116 of Title XI (12 U.S.C. 3345);¹²⁵

(4) the State Appraiser Regulatory Agency must use permitted scopes of practice for State licensed and certified appraisers in accordance with sections 1113 and 1114 of Title XI (12 U.S.C. 3342 and 3343);¹²⁶

(5) the State Appraiser Regulatory Agency must process applications in a timely, consistent, equitable, and well-documented manner in accordance with Title XI;¹²⁷

¹²² See Policy Statements, *supra* note 38.

¹²³ See Policy Statement 1, *supra* note 38 at 9147–9149.

¹²⁴ *Id.* at 9148–9149.

¹²⁵ *Id.* at 9147–9149.

¹²⁶ *Id.*

¹²⁷ See Policy Statement 4, *supra* note 38 at 9151 and 9153.

(6) the State Appraiser Regulatory Agency must ensure that individuals who process applications are knowledgeable about section 1116 of Title XI (12 U.S.C. 3345) as evaluated by the ASC;¹²⁸

(7) the State Appraiser Regulatory Agency must have a reciprocity policy for issuing a reciprocal license or certification for an individual from another State in accordance with section 1122(b) of Title XI (12 U.S.C. 3351(b));¹²⁹

(8) the State Appraiser Regulatory Agency must ensure that all approved applicants meet the applicable minimum requirements of the AQB Criteria;¹³⁰

(9) the State Appraiser Regulatory Agency must ensure that appraiser education courses are consistent with the AQB Criteria;¹³¹

(10) the State Appraiser Regulatory Agency must obtain and maintain sufficient documentation pertaining to all applications, including initial licenses or certifications, upgrades, renewals, reinstatements, and supervisory approvals, to create a record of facts and determinations and the reasons for those determinations made by the State Appraiser Regulatory Agency;¹³² and

(11) the State Appraiser Regulatory Agency must report appraiser data on the issuance and renewal of licenses and certifications on a timely basis to the Appraiser Registry in accordance with section 1109(a)(2) of Title XI (12 U.S.C. 3338(a)(2)).¹³³

Paragraph (c)(1)(ii) of proposed § 1102.603 would specify nine requirements for the issuance of temporary licenses and certifications for appraisers. These nine requirements are:

(1) the State Appraiser Regulatory Agency must recognize the license or certification of an appraiser issued by another State Appraiser Regulatory Agency on a temporary basis in accordance with section 1122(a)(1) of Title XI (12 U.S.C. 3351(a)(1));¹³⁴

(2) the State Appraiser Regulatory Agency must not impose excessive fees for a temporary license or certification in accordance with section 1122(a)(2) of Title XI (12 U.S.C. 3351(a)(2));¹³⁵

¹²⁸ *Id.* at 9152–9153.

¹²⁹ See Policy Statement 5, *supra* note 38 at 9153–9154.

¹³⁰ See Policy Statements 4 and 6, *supra* note 38 at 9151–9153 and 9154.

¹³¹ See Policy Statement 6, *supra* note 38 at 9154.

¹³² See Policy Statements 4, 5 and 6, *supra* note 38 at 9151–9154.

¹³³ See Policy Statement 3, *supra* note 38 at 9150–9151.

¹³⁴ See Policy Statement 2, *supra* note 38 at 9149.

¹³⁵ *Id.*

(3) the State Appraiser Regulatory Agency must not impose burdensome requirements, as determined by the ASC, for temporary practice in accordance with section 1122(a)(2) of Title XI (12 U.S.C. 3351(a)(2));¹³⁶

(4) the State Appraiser Regulatory Agency must issue temporary licenses or certifications within five business days after receiving a complete application for such issuance in accordance with section 1122(a) of Title XI (12 U.S.C. 3351(a));¹³⁷

(5) the State Appraiser Regulatory Agency must issue temporary licenses or certifications on an assignment basis and must allow for at least one extension through a streamlined process in accordance with section 1122(a) of Title XI (12 U.S.C. 3351(a));¹³⁸

(6) the State Appraiser Regulatory Agency must issue temporary licenses or certifications designating the effective date in accordance with section 1122(a) of Title XI (12 U.S.C. 3351(a));¹³⁹

(7) the State Appraiser Regulatory Agency must track all temporary licenses or certifications using a permit log or system;¹⁴⁰

(8) the State Appraiser Regulatory Agency must supervise all individuals to whom the State Appraiser Regulatory Agency issues a temporary license or certification while performing

assignments in its State, must discipline such individuals, when appropriate, for misconduct or wrongdoing, and must report each disciplinary action to the ASC and other appropriate State Appraiser Regulatory Agencies to ensure effective supervision in accordance with sections 1117, 1118, and 1122(a) of Title XI (12 U.S.C. 3346, 3347, and 3351(a));¹⁴¹ and

(9) the State Appraiser Regulatory Agency must obtain and maintain documentation sufficient to create a record of the basis for the determinations made by the State Appraiser Regulatory Agency in processing and issuing temporary licenses or certifications.¹⁴²

Paragraph (c)(1)(iii) of proposed § 1102.603 would specify two requirements for the program function of receiving and tracking of submitted complaints against appraisers as follows:

(1) the State Appraiser Regulatory Agency must have a system for processing and investigating complaints and sanctioning trainee appraisers, State licensed appraisers, and State certified appraisers in a timely, effective, consistent, equitable, and well-documented manner;¹⁴³ and

(2) the State Appraiser Regulatory Agency must track and monitor all complaints using a complaint log or system.¹⁴⁴

Paragraph (c)(1)(iv) of proposed § 1102.603 would specify five requirements for the program function of investigations of complaints against appraisers. These five requirements are:

(1) the State Appraiser Regulatory Agency must require appraisals to be performed in accordance with the latest version of USPAP in accordance with sections 1101 and 1103(a)(1)(A) of Title XI (12 U.S.C. 3331 and 3332(a)(1)(A));¹⁴⁵

(2) when examining an appraisal report in connection with a complaint, including complaints based solely on value, the State Appraiser Regulatory Agency must consider whether any potential violations of USPAP should be investigated;¹⁴⁶

(3) to ensure effective supervision, the State Appraiser Regulatory Agency must resolve all complaints filed against trainee appraisers, State licensed appraisers, and State certified appraisers within one year (12 months) from the date the complaint was received except

in special documented circumstances;¹⁴⁷

(4) the State Appraiser Regulatory Agency must ensure that individuals who analyze complaints are knowledgeable about Title XI, USPAP, and appraisal practices and must document how such individuals are qualified, which will be evaluated by the ASC;¹⁴⁸ and

(5) the State Appraiser Regulatory Agency must obtain and maintain documentation sufficient to create a record of the facts and determinations made by the State Appraiser Regulatory Agency in processing and investigating a complaint and the reasons for its final disposition.¹⁴⁹

Paragraph (c)(1)(v) of proposed § 1102.603 would specify two requirements for the program function of enforcement actions against appraisers as follows:

(1) the State Appraiser Regulatory Agency must supervise trainee appraisers, State licensed appraisers, and State certified appraisers and must discipline such individuals, when appropriate, for misconduct and wrongdoing;¹⁵⁰ and

(2) the State Appraiser Regulatory Agency must report all disciplinary actions against State licensed and certified appraisers to the ASC within five business days after the disciplinary action is final as determined by State law.¹⁵¹

4. Specified Requirements for an AMC Program

Under paragraph (c)(2) of proposed § 1102.603, a State Appraiser Regulatory Agency must demonstrate to the ASC's reasonable satisfaction that its AMC Program is operating consistently with the specified requirements of each program function as listed below.

Paragraph (c)(2)(i) of proposed § 1102.603 would specify seven requirements for the program function of registration of AMCs. These seven requirements are:

(1) the State Appraiser Regulatory Agency must establish and maintain an

¹⁴⁷ *Id.* The requirement that all complaints be resolved within 12 months was determined based on the ASC's supervisory experience. This timeframe has been in place under Policy Statement 7. The ASC has generally found that the 12-month limit has provided adequate time for State Appraiser Regulatory Agencies to investigate and adjudicate complaints while still ensuring that appraisers are timely disciplined for misconduct or wrongdoing. Maintaining this 12-month requirement would help reduce the burden on State Appraiser Regulatory Agencies.

¹⁴⁸ *Id.* at 9155–9156.

¹⁴⁹ *Id.* at 9155.

¹⁵⁰ *Id.* at 9155–9156.

¹⁵¹ See Policy Statement 3, *supra* note 38 at 9150–9151.

¹³⁶ *Id.*

¹³⁷ *Id.* The requirement for temporary licenses or certifications to be issued within five business days was determined based on the ASC's supervisory experience. This timeframe has been in place under Policy Statement 2, and the ASC has generally found the requirement to be a fair balance. The requirement allows appraisers to quickly obtain temporary licenses or certifications for temporary assignments related to federally related transactions while also giving the State Appraiser Regulatory Agency sufficient time to review and process these temporary practice applications.

¹³⁸ *Id.* Title XI prohibits State Appraiser Regulatory Agencies from imposing excessive fees or burdensome requirements for temporary practice, as determined by the ASC. 12 U.S.C. 3351(a)(2). These practices for issuing temporary licenses or certifications are based on the ASC's supervisory experience and have been in place under Policy Statement 2. The ASC has generally found that when State Appraiser Regulatory Agencies adhere to these practices, it helps to avoid placing burdensome requirements on applicants for temporary practice.

¹³⁹ *Id.* Title XI requires that appraisers obtain a temporary license or certification from the State Appraiser Regulatory Agency in the State where they will temporarily conduct appraisal assignments related to federally related transactions. This requirement for issuing temporary licenses or certifications with an effective date was established based on the ASC's supervisory experience and has been in place under Policy Statement 2. The ASC considers this requirement to be a fair balance between the need for public protection from unauthorized appraisal practices and the necessity for appraisers to be aware of the validity period of their temporary licenses or certifications.

AMC regulatory program with legal authority and mechanisms consistent with Title XI, the AMC Rule, and the AMC Registry Fee Rule;¹⁵²

(2) the State Appraiser Regulatory Agency must impose requirements on AMCs that are consistent with Title XI and the AMC Rule;¹⁵³

(3) the State Appraiser Regulatory Agency must enforce and document ownership limitations for AMCs in a manner consistent with Title XI and the AMC Rule;¹⁵⁴

(4) the State Appraiser Regulatory Agency must process AMC applications in a timely, consistent, equitable, and well-documented manner in accordance with Title XI, the AMC Rule, and the AMC Registry Fee Rule;

(5) the State Appraiser Regulatory Agency must ensure that individuals who process applications are knowledgeable about Title XI and the AMC Rule as evaluated by the ASC;

(6) the State Appraiser Regulatory Agency must obtain and maintain documentation sufficient to create a record of the basis for its determinations for AMC eligibility for the AMC Registry, including the appraiser panel requirements, ownership limitations, and AMC Registry fee collection and submission to the ASC; and

(7) the State Appraiser Regulatory Agency must report AMCs eligible for the AMC Registry on a timely basis in accordance with section 1109(a)(3) of Title XI (12 U.S.C. 3338(a)(3)) and the AMC Registry Fee Rule.¹⁵⁵

Paragraph (c)(2)(ii) of proposed § 1102.603 would specify two requirements for the program function of receiving and tracking of submitted complaints against AMCs as follows:

(1) the State Appraiser Regulatory Agency must have a system for processing and investigating complaints and sanctioning AMCs (other than federally regulated AMCs) in a timely, effective, consistent, equitable, and well-documented manner;¹⁵⁶ and

(2) the State Appraiser Regulatory Agency must track and monitor all complaints against AMCs using a complaint log or system.¹⁵⁷

Paragraph (c)(2)(iii) of proposed § 1102.603 would specify three

requirements for the program function of investigation of complaints against AMCs. These three requirements are:

(1) to ensure effective supervision, the State Appraiser Regulatory Agency must resolve all complaints filed against AMCs (other than federally regulated AMCs) within one year (12 months) from the date the complaint was received except in special documented circumstances;¹⁵⁸

(2) the State Appraiser Regulatory Agency must ensure that individuals who analyze complaints are knowledgeable about Title XI, the AMC Rule, USPAP, and appraisal practices and must document how such individuals are qualified, which will be evaluated by the ASC; and

(3) the State Appraiser Regulatory Agency must obtain and maintain documentation sufficient to create a record of the facts and determinations made by the State Appraiser Regulatory Agency in processing and investigating a complaint and the reasons for its final disposition.¹⁵⁹

Paragraph (c)(2)(iv) of proposed § 1102.603 would specify two requirements for the program function of enforcement actions against AMCs as follows:

(1) the State Appraiser Regulatory Agency must supervise AMCs (other than federally regulated AMCs) and must discipline such entities, when appropriate, for misconduct and wrongdoing;¹⁶⁰ and

(2) the State Appraiser Regulatory Agency must report all disciplinary actions against AMCs (other than federally regulated AMCs) to the ASC within five business days after the disciplinary action is final as determined by State law.¹⁶¹

D. Mitigating and Aggravating Factors

Under proposed § 1102.604, the ASC would consider mitigating and aggravating factors as appropriate in adjusting the ASC's initial assessment of the regulatory program's level of effectiveness identified in the preliminary report for a State Appraiser Regulatory Agency. Proposed § 1102.604

would allow the ASC to increase or decrease its initial assessment of the level of effectiveness depending upon the presence of these individualized factors in this section.

As previously mentioned, the ASC believes it is not feasible to predetermine all the mitigating and aggravating factors that could arise in each compliance review because there can be significant variations in the underlying facts of each compliance review. Therefore, proposed § 1102.604 would include common factors to be considered when adjusting a regulatory program's level of effectiveness. The ASCAC recommended categorizing the factors as either solely mitigating or aggravating. The ASC believes from its supervisory experience that these factors should be classified into categories because they could have different effects depending on the specific circumstances, either mitigating or aggravating. Under proposed § 1102.604, the mitigating and aggravating factors would be classified together into four categories: (1) the nature and extent of the deficiency; (2) prior compliance history by the State Appraiser Regulatory Agency; (3) the structure, stability, and responsiveness of the State Appraiser Regulatory Agency; and (4) other situations or circumstances such as natural or human-made disasters or emergencies or other government-declared orders. The ASC has found in conducting compliance reviews, based on its supervisory experience, that most mitigating and aggravating factors could fit into one of the four categories under proposed § 1102.604.

Except as discussed below, the four categories would encompass almost all of the ASCAC's recommendations regarding mitigating and aggravating factors.¹⁶² Some changes would be made to the wording of certain mitigating and aggravating factors to enhance clarity and style and to avoid duplication. Further, the ASC proposes not to include the recommended mitigating and aggravating factors relating to a State Appraiser Regulatory Agency board member involved in a disciplinary decision who had a conflict of interest or bias because the ASC believes such circumstance would be covered under the proposed mitigating or aggravating factor of whether the State Appraiser Regulatory Agency failed to exercise reasonable care toward equitable, consistent, and timely enforcement.¹⁶³

¹⁵² See Policy Statement 8, *supra* note 38 at 9156–9157. Under the proposed rule, “AMC Registry Fee Rule” means the ASC's regulations on the collection and transmission of AMC Registry fees as codified in subpart E of this part.

¹⁵³ *Id.*

¹⁵⁴ *Id.*

¹⁵⁵ See Policy Statement 9, *supra* note 38 at 9157–9158.

¹⁵⁶ See Policy Statement 10, *supra* note 38 at 9158.

¹⁵⁷ *Id.*

¹⁵⁸ *Id.* The requirement that all complaints be resolved within 12 months was determined based on the ASC's supervisory experience. This timeframe has been in place under Policy Statement 10. The ASC has generally found that the 12-month limit has provided adequate time for State Appraiser Regulatory Agencies to investigate and adjudicate complaints while still ensuring that AMCs are timely disciplined for misconduct or wrongdoing. Maintaining this 12-month requirement would help reduce the burden on State Appraiser Regulatory Agencies.

¹⁵⁹ *Id.*

¹⁶⁰ *Id.*

¹⁶¹ See Policy Statement 9, *supra* note 38 at 9157–9158.

¹⁶² See ASCAC Final Recommendation Report, *supra* note 45 at 25.

¹⁶³ *Id.*

Given the complexity of some events and significant variations in the underlying facts of each compliance review, it is not feasible to predetermine the outcome or the relative weights of potential mitigating and aggravating factors for every compliance review. The presence of mitigating or aggravating factors does not automatically lead to the conclusion that a departure from the ASC's initial assessment of the regulatory program's level of effectiveness identified in the preliminary report is justified. The factors must be weighed against each other and the facts and circumstances of the deficiency itself. The presence of one or more mitigating circumstances, along with one or more aggravating circumstances, may or may not offset each other. Where mitigating factors predominate, the ASC may consider increasing the regulatory program's level of effectiveness. Conversely, where aggravating factors predominate, the ASC may consider decreasing the regulatory program's level of effectiveness.

If the ASC considers the regulatory program's level of effectiveness to be appropriately mitigated or aggravated, the relevant factors, including a description of how the factors were applied, would be documented in the final report.

E. Enforcement Actions

As stated earlier, section 1118(a) of Title XI authorizes the ASC to impose certain specified enforcement actions against a State Appraiser Regulatory Agency that fails to have an effective appraiser regulatory program.¹⁶⁴ Proposed § 1102.605 would specify the enforcement actions that could be taken against State Appraiser Regulatory Agencies to establish an effective and consistent enforcement approach.

1. Interim Enforcement Actions

Section 1118(a) of Title XI specifically authorizes the ASC to impose interim actions and suspensions against a State Appraiser Regulatory Agency as an alternative to, or in advance of, the non-recognition of a State Appraiser Regulatory Agency.¹⁶⁵ Under paragraph (a) of proposed § 1102.605, the ASC would include three types of potential interim enforcement actions against State Appraiser Regulatory Agencies when the final report indicates that the level of the regulatory program is less than effective: warning letters, negotiated agreements, and suspensions.

Paragraph (a)(1) of proposed § 1102.605 would include a warning letter as a potential interim enforcement action against State Appraiser Regulatory Agencies. A warning letter would be the least severe form of an interim enforcement action and would communicate to a State Appraiser Regulatory Agency any deficiencies in its regulatory program. If the deficiencies are not addressed, the regulatory program's effectiveness could be negatively impacted. Under paragraph (a)(1) of proposed § 1102.605, the ASC could consider issuing a warning letter to a State Appraiser Regulatory Agency when the final report indicates that the level of the regulatory program's effectiveness is moderately effective or slightly effective.

The ASC would also include a negotiated agreement, under paragraph (a)(2) of proposed § 1102.605, as a potential interim enforcement action. A negotiated agreement would involve a State Appraiser Regulatory Agency agreeing to address deficiencies that hinder the effectiveness of the regulatory program by taking certain actions or refraining from certain actions within a specified timeframe. For example, a negotiated agreement could involve the State Appraiser Regulatory Agency preparing and submitting compliance plans, approved by the ASC, outlining the corrective actions to be taken, specifying the individuals responsible for the actions, and setting a timeframe for completion. Under paragraph (a)(2) of proposed § 1102.605, a negotiated agreement could be employed when the final report indicates that the regulatory program is slightly effective or ineffective. A negotiated agreement could also be employed, under paragraph (a)(2) of proposed § 1102.605, when the State Appraiser Regulatory Agency fails to rectify the identified deficiencies outlined in a previously issued warning letter. The ASC believes a negotiated agreement would provide the ASC with the flexibility to address and correct deficiencies while working cooperatively with the State Appraiser Regulatory Agency to rectify any deficiencies.

The last potential interim enforcement action included under paragraph (a)(3) of proposed § 1102.605 would be suspension, which would be the most severe form of an interim enforcement action. Under paragraph (a)(3) of proposed § 1102.605, the ASC could potentially prohibit a State Appraiser Regulatory Agency from performing certain task(s) as part of its responsibilities under Title XI for a specified time period. The tasks may

involve, but are not limited to: (1) the addition of State licensed or certified appraisers to the Appraiser Registry or AMCs to the AMC Registry; (2) the issuance of upgrades of individuals' level of licensure or certification to perform appraisals in connection with federally related transactions; (3) renewal of licenses or certifications of State licensed or certified appraisers for the performance of appraisals in connection with federally related transactions; or (4) the issuance of temporary licenses or certifications to individuals who are licensed or certified in another State to perform appraisals in connection with federally related transactions in the suspended State Appraiser Regulatory Agency's State, as set forth in section 1122(a) of Title XI (12 U.S.C. 3351(a)). Under paragraph (a)(3) of proposed § 1102.605, the ASC could apply a suspension when the final report indicates that the regulatory program is ineffective. The ASC could also apply a suspension, under proposed § 1102.605(a)(3), when a State Appraiser Regulatory Agency refuses to enter into a negotiated agreement or a State Appraiser Regulatory Agency fails to meet its obligations under the negotiated agreement. This interim enforcement action is supported by the statutory text found in section 1118(a) of Title XI that the ASC has the authority to impose suspensions of a State Appraiser Regulatory Agency as an alternative to, or in advance of, the non-recognition of a State Appraiser Regulatory Agency.¹⁶⁶ The proposed rule would also provide a cross-reference to the procedures governing suspension proceedings found at proposed § 1102.606.

2. Non-Recognition

As referenced above, prior to the Dodd-Frank Act, Title XI authorized the ASC to take only one enforcement action—non-recognition—against a State Appraiser Regulatory Agency not operating its Appraiser Program in a manner consistent with Title XI.¹⁶⁷ Non-recognition is the most severe enforcement action that the ASC could impose against a State Appraiser Regulatory Agency. As noted in the ASCAC meeting minutes dated April 17, 2014, the ASC should carefully consider the economic impact of non-recognition before imposing such action.¹⁶⁸ To date, the ASC has not imposed non-recognition against a State Appraiser Regulatory Agency.

¹⁶⁶ *Id.*

¹⁶⁷ See *supra* note 39.

¹⁶⁸ See *supra* note 44.

¹⁶⁴ 12 U.S.C. 3347(a).

¹⁶⁵ *Id.*

Under paragraph (b) of proposed § 1102.605, the ASC could impose non-recognition when the ASC issues a written finding under section 1118(b) of Title XI (12 U.S.C. 3347(b)) and a State Appraiser Regulatory Agency fails to comply with the final order of suspension. The ASC could also impose non-recognition under paragraph (b) of proposed § 1102.605 when the ASC issues a written finding pursuant to section 1118(b) of Title XI (12 U.S.C. 3347(b)) and the final report indicates that the regulatory program is ineffective.

F. Procedures Governing Suspension Proceedings

Proposed § 1102.606 would codify, with some modifications and minor non-substantive corrections, the procedures found in Policy Statement 12 for the procedures governing suspension proceedings.¹⁶⁹ Policy Statement 12 states the due process procedures that the ASC must follow to exercise its authority to impose interim sanctions on State Appraiser Regulatory Agencies.¹⁷⁰ Consistent with the ASC's current procedures in Policy Statement 12, the proposal would provide a written notice of intention to suspend that is published in the **Federal Register** and give the State Appraiser Regulatory Agency the opportunity to respond to the notice.¹⁷¹ Under paragraph (a) of proposed § 1102.606, the ASC would issue a written notice of intention (Notice) to suspend the State Appraiser Regulatory Agency, which would be published in the **Federal Register**. Policy Statement 12 states that the ASC would verify the State Appraiser Regulatory Agency's date of receipt of the Notice and publish the Notice in the **Federal Register** along with the State Appraiser Regulatory Agency's date of receipt of the Notice.¹⁷² The ASC recognizes that verifying a State Appraiser Regulatory Agency's date of receipt of the Notice could be problematic if a State Appraiser Regulatory Agency refuses to acknowledge receipt of the Notice. Therefore, paragraph (a)(2) of proposed § 1102.606 would alleviate this potential problem by requiring the ASC to serve notice upon the State Appraiser Regulatory Agency by sending a copy of the Notice to either the last known email or mailing address of the State Appraiser Regulatory Agency's office

and deeming the service complete upon sending.

To ensure timely enforcement decisions, proposed § 1102.606 would modify the procedural timeframes and deadlines applicable to a State Appraiser Regulatory Agency or the ASC in Policy Statement 12¹⁷³ for a suspension proceeding. The ASC believes the procedural timeframes and deadlines in proposed § 1102.606 are reasonable for several reasons. The proposal would permit the State Appraiser Regulatory Agency to receive advance notice of the deficiencies through the issuance of both preliminary and final reports. The proposed timeframes would also allow the State Appraiser Regulatory Agency to have approximately one month for each information-gathering phase of a suspension proceeding, based on an estimated 20 business days in a month. Finally, the proposed rule would authorize the ASC to grant a waiver extending any time limit in connection with a suspension proceeding on its own or for good cause shown.

Furthermore, the ASC believes that timely enforcement decisions will help build and maintain public confidence in the appraiser regulatory framework while promoting transparency and accountability. This approach would also enhance the ASC's reputation by fostering trust and credibility among State Appraiser Regulatory Agencies, appraisers, AMCs, financial institutions, and the public.

Under paragraph (b) of proposed § 1102.606, the State Appraiser Regulatory Agency would have the opportunity to respond to the Notice by submitting a response or a notice not to contest within 20 business days after publication of the Notice in the **Federal Register**. Currently, Policy Statement 12 states the State Appraiser Regulatory Agency may submit a response within 15 business days of receipt of the Notice.¹⁷⁴ The ASC is proposing to extend the response timeframe by an additional five business days, so the State Appraiser Regulatory Agency would effectively have a month to reply to the Notice. Consistent with the ASC's current procedures in Policy Statement 12, the ASC may consider the facts presented in the Notice to be true and issue a final order if a State Appraiser Regulatory Agency does not submit a response or a notice not to contest.¹⁷⁵

Under paragraph (c) of proposed § 1102.606, the State Appraiser Regulatory Agency may file a written

brief, memorandum, or other statement presenting factual data, as well as policy and legal arguments related to the matters outlined in the Notice. This submission, under the proposed rule, must occur within 40 business days following the publication of the Notice in the **Federal Register**. According to Policy Statement 12, the State Appraiser Regulatory Agency may file this documentation within 45 days after the date of receipt by the State Appraiser Regulatory Agency of the Notice as published in the **Federal Register**.¹⁷⁶ The ASC is proposing to shorten the timeframe for the reasons stated above.

The State Appraiser Regulatory Agency could also, under paragraph (d) of proposed § 1102.606, request an oral presentation to further present, emphasize, and clarify the facts, policies, and laws regarding the issues outlined in the Notice. Such a request must be made within 40 business days after publication of the Notice in the **Federal Register**. Policy Statement 12 states that a State Appraiser Regulatory Agency may request an oral presentation 45 business days after the date of receipt by the State Appraiser Regulatory Agency of the Notice as published in the **Federal Register**.¹⁷⁷ The ASC is proposing to shorten the timeframe for the reasons stated above.

Under paragraph (d) of proposed § 1102.606, if a State Appraiser Regulatory Agency requests an oral presentation, the ASC must hear the matter within 20 business days of receiving the request. Policy Statement 12 states the ASC must hear the matter within 45 business days of receiving the request.¹⁷⁸ However, the ASC believes that enforcement decisions should be made expeditiously to ensure the soundness and effectiveness of the appraiser regulatory framework, so the ASC is proposing a shorter 20-day timeframe to hear the oral presentation.

Under paragraph (f) of proposed § 1102.606, the ASC must make a final decision on the matter by issuing a final order, within 80 business days after publication of the Notice in the **Federal Register** or within 100 business days after publication of the Notice in the **Federal Register** if the ASC receives a timely request for an oral presentation. Policy Statement 12 states that the ASC must issue a final order within 90 business days after the date of receipt by the State Appraiser Regulatory Agency of the Notice as published in the **Federal Register** or in the case of oral presentation having been granted,

¹⁶⁹ See Policy Statement 12, *supra* note 38 at 9159–9160.

¹⁷⁰ *Id.*

¹⁷¹ *Id.* at 9159.

¹⁷² *Id.*

¹⁷⁴ *Id.* at 9159.

¹⁷⁵ *Id.*

¹⁷⁶ *Id.*

¹⁷⁷ *Id.*

¹⁷⁸ *Id.*

within 30 days after presentation.¹⁷⁹ However, the ASC believes that enforcement decisions should be made expeditiously to ensure the soundness and effectiveness of the appraiser regulatory framework, so the ASC is proposing a shorter general 80-day timeframe. The ASC also believes a 100-day timeframe in the event of a timely submitted request for an oral presentation is reasonable because the timeframe would allow the ASC additional time to consider the State Appraiser Regulatory Agency's oral presentation in its deliberations.

Finally, paragraph (e)(3) of proposed § 1102.606 would authorize the ASC to grant a waiver extending any time limit in connection with a suspension proceeding if the ASC deems such a waiver to be appropriate. According to Policy Statement 12, the ASC may allow the filing of a response by the State Appraiser Regulatory Agency after the designated deadline for good cause shown.¹⁸⁰ The ASC believes that extending the timeframe for any part of a suspension proceeding—beyond just the State Appraiser Regulatory Agency's response timeframe—is fair and reasonable. The ASC would consider extensions justified in cases that are unanticipated, unforeseeable, and beyond the control of the State Appraiser Regulatory Agency or the ASC.

G. Procedures Governing Non-Recognition Proceedings

Proposed § 1102.607 would cross-reference the existing procedures governing non-recognition proceedings as set forth in subpart B of 12 CFR part 1102 to impose the enforcement action of non-recognition against a State Appraiser Regulatory Agency.

III. Proposed Implementation Period

The ASC proposes a 12-month implementation period from the effective date of any final rule based on this proposal. The ASC understands that, if finalized, the proposed rule would impact the Policy Statements. Accordingly, the ASC plans to revise the Policy Statements to be consistent with any final rule based on this proposal before the expiration of the proposed implementation period. However, during the proposed implementation period, the existing Policy Statements would continue to apply until revised. This compliance period would also give

State Appraiser Regulatory Agencies time to comply with the rule.

IV. Request for Comment

The ASC is requesting comments on all aspects of this proposal. In addition, the ASC requests comments on the following questions:

Question 1. What are the advantages and disadvantages of the ASC's plan to extend the review cycle for Appraiser or AMC Programs overseen by State Appraiser Regulatory Agencies from a two-year cycle to a three-year cycle, particularly for those State Appraiser Regulatory Agencies with an overall ASC Finding of Good or Excellent? What factors should the ASC consider when deciding whether to extend the review cycle to three years for Appraiser or AMC Programs overseen by State Appraiser Regulatory Agencies, particularly when there is an overall ASC Finding of Good or Excellent?

Question 2. Section 1118(a)(2) of Title XI¹⁸¹ requires the ASC to monitor State Appraiser Regulatory Agencies to ensure that the processing of complaints and completing investigations occurs in a reasonable time period. The proposed rule would require that State Appraiser Regulatory Agencies resolve all complaints against appraisers and AMCs within one year (12 months) from the date the complaint is received, except in special documented circumstances. What are the benefits and challenges of the ASC's plan to reduce the complaint resolution timeframe for State Appraiser Regulatory Agencies to a period of time between 8 and 11 months? What factors should the ASC consider when deciding whether to implement this reduction in the complaint resolution timeframe?

Question 3. Are there other mitigating or aggravating factors, such as a legitimate threat to the integrity of the appraiser regulatory framework, intentionally-caused unreasonable delays, or reasonable reliance on competent legal advice, that the ASC should consider when deciding whether to adjust the initial level of effectiveness of Appraiser and AMC Programs as determined by the number of deficiencies identified in the preliminary report?

Question 4. What barriers, if any, might prevent a State Appraiser Regulatory Agency from responding to a written notice of intention to suspend within 20 business days after its

publication in the **Federal Register**? If such barriers exist, what benefits or challenges could arise from extending the response timeframe to a period of time between 30 and 60 business days?

Question 5. What barriers, if any, might prevent a State Appraiser Regulatory Agency from submitting a written brief, memorandum, or other statement within 40 business days after the written notice of intention to suspend is published in the **Federal Register**? If such barriers exist, what benefits or challenges could result from extending the timeframe for filing a written brief, memorandum, or other statement to a period of time between 50 and 100 business days?

Question 6. What barriers, if any, might prevent a State Appraiser Regulatory Agency from requesting an oral presentation within 40 business days after the written notice of intention to suspend is published in the **Federal Register**? If such barriers exist, what benefits or challenges could result from extending the timeframe to a period of time between 50 and 100 business days?

Question 7. What factors should the ASC consider when deciding whether to extend the timeframe for issuing the final order from within 80 business days after the written notice of intention to suspend is published in the **Federal Register**? Additionally, what are the advantages and disadvantages of the ASC's plan to extend this timeframe to a period of time between 90 and 180 business days?

Question 8. What factors should the ASC consider when deciding whether to extend the timeframe for issuing the final order in response to a request for an oral presentation within 100 business days after the written notice of intention to suspend is published in the **Federal Register**? Additionally, what are the advantages and disadvantages of extending this timeframe to a period of time between 120 and 200 business days?

Question 9. What aspects of the proposed rule, if any, will be challenging for State Appraiser Regulatory Agencies to implement within 12 months? To the extent such challenges exist, what benefits or obstacles could result from extending the implementation period to a period of time between 15 and 18 months? What factors should the ASC consider when deciding whether to extend the implementation period to a period of time greater than 12 months?

¹⁷⁹ *Id.* at 9160.

¹⁸⁰ *Id.* at 9159.

¹⁸¹ 12 U.S.C. 3347(a)(2).

Question 10. In addition to providing time for implementation, in what other ways should the ASC facilitate implementation for State Appraiser Regulatory Agencies?

IV. Regulatory Requirements

A. Providing Accountability Through Transparency Act of 2023

The Providing Accountability Through Transparency Act of 2023¹⁸² requires that a notice of proposed rulemaking include the internet address of a summary of not more than 100 words in length of a proposed rule, in plain language, that shall be posted on the internet website under section 206(d) of the E-Government Act of 2002¹⁸³ (commonly known as *regulations.gov*).

The Appraisal Subcommittee (ASC) of the Federal Financial Institutions Examination Council invites comment on a proposed rule to implement a framework to govern the ASC's enforcement authority regarding the effectiveness of Appraiser and Appraisal Management Company (AMC) Programs overseen by State Appraiser Regulatory Agencies. The proposed rule would codify the existing compliance review process with modifications. The proposed rule would require an analysis to assess program effectiveness, outline requirements for maintaining effective programs, and authorize the ASC to bring enforcement actions against such agencies that fail to maintain effective programs. The proposed rule and summary are available at <https://www.regulations.gov>.

B. Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (PRA),¹⁸⁴ and its implementing regulations,¹⁸⁵ the ASC has reviewed this proposed rule and has determined that the information collection required by this proposed rule is exempt from the coverage of the PRA. Each compliance review is an audit dependent on the specific facts involved because each State Appraiser Regulatory Agency has the flexibility to design its Appraiser or AMC Programs to meet its Title XI responsibilities. Each State Appraiser Regulatory Agency may face different legal, fiscal, regulatory, or other factors that can influence its governance structure. Under the proposed rule, the collection of information would occur during the

performance of an audit involving the ASC against specific entities.¹⁸⁶

C. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) generally requires an agency, in connection with a proposed rule, to prepare and make available for public comment an initial regulatory flexibility analysis that describes the impact of a proposed rule on small entities.¹⁸⁷ However, the regulatory flexibility analysis is not required if an agency certifies that the proposed rule would not, if adopted, have a significant economic impact on a substantial number of small entities and publishes its certification and a brief explanatory statement in the **Federal Register** with the proposed rule.¹⁸⁸ For the reasons stated below, the ASC believes that the proposed rule, if adopted, would not have a significant economic impact on a substantial number of small entities.

Title XI requires the ASC to monitor the requirements established by States that (1) license, certify, and supervise appraisers qualified to perform appraisals in connection with federally related transactions and (2) register and supervise the operations and activities of AMCs.¹⁸⁹ The ASC monitors States that have established Appraiser and AMC Programs through periodic or accelerated compliance reviews. Under the proposal, the ASC would conduct an analysis as part of its compliance review process to assess the effectiveness of Appraiser and AMC Programs administered by State Appraiser Regulatory Agencies. The ASC would be authorized to bring an enforcement action against a State Appraiser Regulatory Agency if the agency fails to have an effective Appraiser or AMC Program.

This proposed rule would apply to all States that have established Appraiser and AMC Programs under Title XI. All 50 States and the District of Columbia have Appraiser and AMC Programs.¹⁹⁰ The District of Columbia has two separate and distinct agencies—the Department of Licensing and Consumer Protection and the Department of Insurance, Securities and Banking—that administer the Appraiser and AMC Programs. The Commonwealth of Puerto

Rico, the Commonwealth of the Northern Mariana Islands, Guam, and the U.S. Virgin Islands only have Appraiser Programs and not AMC Programs. American Samoa does not have a regulatory oversight structure for appraisers because real estate can only be inherited.¹⁹¹ As a result, 56 State Appraiser Regulatory Agencies would be subject to this proposed rule.

Given the definition of “small entities” under the RFA,¹⁹² the ASC analyzed the population data from the U.S. Census Bureau¹⁹³ for all 50 States, the District of Columbia, and the Commonwealth of Puerto Rico to determine whether any State Appraiser Regulatory Agencies could be considered “small governmental jurisdictions.” Wyoming was the least populated.¹⁹⁴ Wyoming's population was estimated to be 576,850 on April 1, 2020, and has increased to 584,057 on July 1, 2023.¹⁹⁵ The ASC also analyzed the population data from the Central Intelligence Agency's (CIA) World Factbook website¹⁹⁶ for the U.S. territories of American Samoa,¹⁹⁷ Guam,¹⁹⁸ the Commonwealth of the Northern Mariana Islands,¹⁹⁹ and the U.S. Virgin Islands.²⁰⁰ American Samoa and the Commonwealth of the Northern Mariana Islands were the least populated. According to the CIA's World Factbook website, American Samoa's total population was 43,895, and the Commonwealth of the Northern

¹⁹¹ Government Accountability Office, GAO-03-404, *Regulatory Programs: Opportunities to Enhance Oversight of the Real Estate Appraisal Industry*, at 2 (2003).

¹⁹² The RFA defines “small entities” as small businesses, small not-for-profit organizations, and small government jurisdictions. See 5 U.S.C. 601(6). A “small business” is determined by applying Small Business Administration regulations and referencing the North American Industry Classification System (NAICS) classifications and size standards. See 5 U.S.C. 601(3). A “small organization” is any “not-for-profit enterprise which is independently owned and operated and is not dominant in its field.” See 5 U.S.C. 601(4). A “small governmental jurisdiction” means “governments of a city, county, town, township, village, school district, or special district with a population of less than 50,000.” See 5 U.S.C. 601(5).

¹⁹³ U.S. Census Bureau, Population Division, *Annual Estimates of the Resident Population for the United States, Regions, States, District of Columbia, and Puerto Rico: Apr. 1, 2020, to July 1, 2023 (NST-EST2023-POP)* (December 2023).

¹⁸⁸ *Id.*

¹⁸⁹ See, e.g., 12 U.S.C. 3331, 3332(a)(1), 3346 and 3347(a).

¹⁹⁰ Hawaii's AMC Program sunset on June 30, 2023. However, House Bill 2641 was signed into law on June 21, 2024, to reenact the version of the AMC Program that was originally part of the Hawaii Department of Commerce and Consumer Affairs. The AMC Program established pursuant to House Bill 2641 commenced September 1, 2024.

Mariana Islands' total population was 51,118.²⁰¹ Only American Samoa meets the definition of a "small governmental jurisdiction" under the RFA, with a population of less than 50,000.²⁰² However, American Samoa is not subject to the proposed rule because American Samoa has not established Appraiser and AMC Programs for the reasons stated above.²⁰³ Therefore, an analysis under the RFA is not required because the 56 State Appraiser Regulatory Agencies are not considered small entities²⁰⁴ under RFA.

Any economic impact of the proposed rule, if adopted, on State licensed and certified appraisers and registered AMCs would be indirect because real estate appraisers and AMCs are not subject to the proposed rule. The ASC does not also directly oversee or regulate the 91,670 State licensed and certified real estate appraisers listed on the Appraiser Registry²⁰⁵ reporting from 55 State Appraiser Regulatory Agencies, or 4,943 AMCs listed on the AMC Registry²⁰⁶ reporting from 50 State Appraiser Regulatory Agencies.²⁰⁷ California issues the most licenses and certifications for real estate appraisers (7,803), and the Commonwealth of the Northern Mariana Islands issues the fewest (5).²⁰⁸ As for AMC registrations, Florida registers the most (198), and Kentucky registers the fewest (28).²⁰⁹

Additionally, this proposed rule would not create additional recordkeeping, reporting, and compliance requirements on State licensed and certified appraisers and registered AMCs. Any recordkeeping, reporting, and compliance requirements are imposed by State law, not this proposed rule. The ASC regulates State licensed and certified appraisers and registered AMCs only indirectly by monitoring and enforcing the

requirements and practices of State Appraiser Regulatory Agencies.²¹⁰ In *American Trucking Associations, Inc., v. the United States Environmental Protection Agency*, the United States Court of Appeals stated, "[w]e have consistently interpreted the RFA, [. . .], to impose no obligation upon an agency [']to conduct a small entity impact analysis of effects on entities which it does not regulate.[']"²¹¹ The United States Court of Appeals further stated, "an agency may justify its certification under the RFA upon the [']factual basis['] that the rule does not directly regulate any small entities."²¹²

Based on this analysis, the ASC believes that the proposed rule, if adopted, would not have a significant economic impact on a substantial number of small entities. Therefore, the ASC certifies that the proposed rule, if adopted, would not have a significant economic impact on a substantial number of small entities. Accordingly, an initial regulatory flexibility analysis is not required. The ASC requests comment on all aspects of this analysis.

D. The Unfunded Mandates Reform Act of 1995 Determination

Although the Unfunded Mandates Reform Act of 1995 (UMRA)²¹³ does not apply to independent agencies, the ASC voluntarily analyzed the proposed rule under the factors in the UMRA. Under this analysis, the ASC considered whether the proposed rule includes a Federal mandate that may result in the expenditure by State, local, and Tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any one year (adjusted annually for inflation). For the following reason, the ASC finds that the proposed rule does not trigger the \$100 million UMRA thresholds. First, the costs specifically related to requirements set forth in law are excluded from expenditures under the UMRA. Given that the proposed rule reflects requirements arising from section 1118 of Title XI,²¹⁴ the UMRA cost estimate for the proposal, if implemented, is zero. Second, such

costs to State, local, and Tribal governments may be paid with Federal financial assistance. Section 1109(b)(5) of Title XI²¹⁵ allows the ASC to make grants to State Appraiser Regulatory Agencies to support the efforts of such agencies to comply with Title XI, such as the complaint process, complaint investigations, appraiser enforcement activities, and the submission of data on State licensed and certified appraisers to the Appraiser Registry or AMCs to the AMC Registry. For these reasons, the ASC has determined that this proposed rule will not result in expenditures by State, local, and Tribal governments, or the private sector, of \$100 million or more in any one year. Accordingly, this proposal is not subject to section 202 of the UMRA.

List of Subjects in 12 CFR Part 1102

Administrative practice and procedure, Appraisal management companies, Appraisal management company registry fees, Appraisers, Banks, banking, Enforcement actions, Freedom of information, Investigations, Licensing and registration, Mortgages, Organization and functions (Government agencies), Privacy, Reporting and recordkeeping requirements, and State and local governments.

Authority and Issuance

For the reasons set forth in the preamble, the Federal Financial Institutions Examination Council proposes to amend 12 CFR part 1102 as follows:

PART 1102—APPRAISER REGULATION

■ 1. The authority citation for part 1102 is revised to read as follows:

Authority: 12 U.S.C. 3332, 3335, 3338(a)(4)(B), 3347, 3348(a), 3348(b), 3348(c), 5 U.S.C. 552a, 553(e); E.O. 12600, 52 FR 23781, 3 CFR, 1987 Comp., p. 235.

■ 2. Subpart F to part 1102 is added to read as follows:

Subpart F—Appraisal Subcommittee Enforcement Authority Regarding the Effectiveness of State Appraiser and Appraisal Management Company Regulatory Programs

Sec.

- 1102.600 Authority, purpose, and scope.
- 1102.601 Definitions.
- 1102.602 Compliance reviews.
- 1102.603 Analysis of a regulatory program's effectiveness.
- 1102.604 Mitigating and aggravating factors.
- 1102.605 Enforcement actions.

²¹⁵ 12 U.S.C. 3338(b)(5).

²⁰¹ *Id.*

²⁰² See *supra* note 192.

²⁰³ See *supra* note 191.

²⁰⁴ See *supra* note 192.

²⁰⁵ The actual number of State licensed and certified real appraisers is probably less because it is not uncommon for the same appraiser to hold multiple licenses or certifications from the same State or different States. The total number of State licensed and certified appraisers was current as of November 1, 2024.

²⁰⁶ The actual number of AMCs is probably significantly less because most AMCs are registered in multiple States. The total number of registered AMCs was current as of November 1, 2024.

²⁰⁷ Since Hawaii's AMC Program sunset on June 30, 2023, Hawaii has not submitted data to the AMC Registry. The ASC anticipates that Hawaii will begin collecting registry fees and submitting data to the AMC Registry once Hawaii has completed its implementation phase to re-establish the process for collecting AMC registry fees and submitting data to the AMC Registry.

²⁰⁸ This data was current as of November 1, 2024.

²⁰⁹ *Id.*

²¹⁰ The ASC's authority under 12 U.S.C. 3347(a) regarding the interim removal of an appraiser or AMC from their respective registry is distinguishable because the ASC is only authorized to do so pending State agency action and State Appraiser Regulatory Agencies directly oversee and regulate such appraisers and AMCs. In addition, that authority is outside of the scope of this rulemaking.

²¹¹ *American Trucking Associations, Inc. v. U.S. E.P.A.*, 175 F.3d 1027, 1044 (1999) (quoting *Motor & Equipment Manufacturers Association v. Nichols*, 142 F.3d 449, 467 & n. 18 (1998)).

²¹² *Id.* at 1045.

²¹³ 2 U.S.C. 1532.

²¹⁴ 12 U.S.C. 3347.

1102.606 Procedures governing suspension proceedings.

1102.607 Procedures governing non-recognition proceedings.

§ 1102.600 Authority, purpose, and scope.

(a) *Authority.* This subpart is issued by the Appraisal Subcommittee (ASC) under sections 1103, 1106, and 1118 of Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (Pub. L. 101–73, 103 Stat. 183 (1989)), as amended by the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) (Pub. L. 111–203, 124 Stat. 1376 (2010)), 12 U.S.C. 3332, 3335, and 3347 (Title XI).

(b) *Purpose and scope.* The purpose of this subpart is to implement the ASC's monitoring and enforcement authority pursuant to section 1118 of Title XI (12 U.S.C. 3347) regarding the effectiveness of appraiser and appraisal management company regulatory programs administered by State Appraiser Regulatory Agencies. This subpart applies to all State Appraiser Regulatory Agencies.

§ 1102.601 Definitions.

For the purposes of this subpart:

AMC Registry means the national registry maintained by the ASC of entities that meet the Federal definition of an AMC, as defined in 12 U.S.C. 3350(11), are either registered by a State or are federally regulated AMCs and have paid the annual AMC registry fee.

AMC Registry Fee Rule means the ASC's regulations on the collection and transmission of AMC Registry fees as codified in subpart E of this part.

AMC Rule means regulations established by the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, and the Federal Housing Finance Agency regarding the minimum requirements for AMCs under section 1124 of Title XI (12 U.S.C. 3353). (12 CFR 34.210 through 34.216; 12 CFR 225.190 through 225.196; 12 CFR 323.8 through 323.14; 12 CFR 1222.20 through 1222.26).

Appraisal management company (AMC) means:

(1) A person that:

(i) Provides appraisal management services to creditors or to secondary mortgage market participants, including affiliates as defined in 12 U.S.C. 1841;

(ii) Provides such services in connection with valuing a consumer's principal dwelling as security for a consumer credit transaction or incorporating such transactions into securitizations; and

(iii) Within a given 12-month period, oversees an appraiser panel of more

than 15 State certified or State licensed appraisers in a State or 25 or more State certified or State licensed appraisers in two or more States.

(2) An AMC does not include a department or division of an entity that provides appraisal management services only to that entity.

Appraisal management services mean one or more of the following:

(1) Recruiting, selecting, and retaining appraisers;

(2) Contracting with State certified or State licensed appraisers to perform appraisal assignments;

(3) Managing the process of having an appraisal performed, including providing administrative services such as receiving appraisal orders and appraisal reports, submitting completed appraisal reports to creditors and secondary market participants, collecting fees from creditors and secondary market participants for services provided, and paying appraisers for services performed; and

(4) Reviewing and verifying the work of appraisers.

Appraiser panel means a network, list or roster of licensed or certified appraisers approved by an AMC to perform appraisals as independent contractors for the AMC. Appraisers on an AMC's "appraiser panel" under this subpart include both appraisers accepted by the AMC for consideration for future appraisal assignments in covered transactions or for secondary mortgage market participants in connection with covered transactions and appraisers engaged by the AMC to perform one or more appraisals in covered transactions or for secondary mortgage market participants in connection with covered transactions. An appraiser is an independent contractor for purposes of this subpart if the appraiser is treated as an independent contractor by the AMC for purposes of Federal income taxation.

Appraisal Subcommittee (ASC) means the Appraisal Subcommittee of the Federal Financial Institutions Examination Council established under the Federal Financial Institutions Examination Council Act of 1978 (12 U.S.C. 3301 *et seq.*) as amended by section 1102 of Title XI (12 U.S.C. 3310).

Appraiser Registry means the national registry maintained by the ASC of State licensed and certified appraisers, as defined in 12 U.S.C. 3345, who are eligible to perform appraisals in federally related transactions and have paid the annual appraiser registry fee.

AQB Criteria means the minimum requirements for the licensure and certification of real estate appraisers and

the minimum requirements for trainee and supervisory appraisers established by the Appraiser Qualifications Board of the Appraisal Foundation as contemplated by 12 U.S.C. 3345.

Assignment means, for purposes of this subpart with respect to temporary practice, one or more real estate appraisals and written appraisal report(s) covered by a single contractual agreement.

Consumer credit means credit offered or extended to a consumer primarily for personal, family, or household purposes.

Covered transaction means any consumer credit transaction secured by the consumer's principal dwelling.

Days means business days. The date of the act, event, or default from which the designated period begins to run is omitted, and the last day is included.

Deficiency means the ASC's determination that a State Appraiser Regulatory Agency has not demonstrated to the ASC's reasonable satisfaction that its regulatory program is operating consistently with the specified requirements of a program function as set forth in § 1102.603(c).

Dwelling means:

(1) A residential structure that contains one to four units, whether or not that structure is attached to real property. The term includes an individual condominium unit, cooperative unit, mobile home, and trailer, if it is used as a residence.

(2) A consumer can have only one "principal" dwelling at a time. Thus, a vacation or other second home would not be a principal dwelling. However, if a consumer buys or builds a new dwelling that will become the consumer's principal dwelling within a year or upon the completion of construction, the new dwelling is considered the principal dwelling for purposes of this subpart.

Federally regulated AMC means an AMC that is owned and controlled by an insured depository institution, as defined in 12 U.S.C. 1813 and regulated by the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, or the Federal Deposit Insurance Corporation.

Federally related transaction means any real estate-related financial transaction which:

(1) A Federal financial institutions regulatory agency engages in, contracts for, or regulates; and

(2) Requires the services of an appraiser under the appraisal rules (Title XI, section 1121(4), 12 U.S.C. 3350(4), implemented by the Office of the Comptroller of the Currency: 12 CFR part 34; Federal Reserve Board: 12 CFR

part 225; Federal Deposit Insurance Corporation: 12 CFR part 323; and National Credit Union Administration: 12 CFR part 722).

Final order means an order issued by the ASC that includes findings of fact, conclusions of law, and, if applicable, the terms of a related enforcement action imposed against a State Appraiser Regulatory Agency for failing to have an effective regulatory program.

Final report means a document that records the ASC's final monitoring findings and analysis of the regulatory program's effectiveness, as required in § 1102.603, identifying any deficiencies. The final report also includes the ASC's final assessment of the regulatory program's level of effectiveness, adjusted for the State Appraiser Regulatory Agency's response to the preliminary report and relevant mitigating and aggravating factors in § 1102.604.

Financial institution means an insured depository institution as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813) or an insured credit union as defined in section 101 of the Federal Credit Union Act (12 U.S.C. 1752).

Negotiated agreement means a written agreement signed between the ASC and a State Appraiser Regulatory Agency to correct deficiencies that negatively impact the regulatory program's effectiveness. The agreement may provide that the State Appraiser Regulatory Agency commits to taking a certain action or actions or to refraining from a certain action or actions by a specified time.

Non-recognition means the ASC and all agencies, instrumentalities, and federally recognized entities under Title XI shall not recognize or accept appraiser licenses and certifications issued by a State Appraiser Regulatory Agency whose policies, practices, funding, staffing, or procedures are found to be inconsistent with Title XI and Federal regulations promulgated thereunder. "Non-recognition" is synonymous with "derecognition," which is referenced in section 1118 of Title XI (12 U.S.C. 3347).

Person means a natural person or an organization, including a corporation, partnership, proprietorship, association, cooperative, estate, trust, or government unit.

Preliminary report means a document that records the initial monitoring findings and analysis of the regulatory program's effectiveness, as required in § 1102.603, identifying any deficiencies. The preliminary report also includes the ASC's initial assessment of the program's level of effectiveness.

Program functions mean those responsibilities of a State Appraiser Regulatory Agency that the ASC will examine and include in its analysis of the effectiveness of a State Appraiser Regulatory Agency's regulatory program, consistent with section 1118(a) of Title XI (12 U.S.C. 3347(a)).

(1) There are five program functions for State appraiser regulatory programs:

- (i) Licensing and certification of appraisers;
- (ii) Issuance of temporary licenses and certifications for appraisers;
- (iii) Receiving and tracking of submitted complaints against appraisers;
- (iv) Investigation of complaints against appraisers; and
- (v) Enforcement actions against appraisers.

(2) There are four program functions for State AMC regulatory programs:

- (i) Registration of AMCs;
- (ii) Receiving and tracking of submitted complaints against AMCs;
- (iii) Investigation of complaints against AMCs; and
- (iv) Enforcement actions against AMCs.

Secretary means the Secretary of the ASC under its Rules of Operation.

Special documented circumstances mean well-documented and monitored extenuating circumstances, evaluated by the ASC, that are beyond the control of the State Appraiser Regulatory Agency and result in a complaint processing delay.

State means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, the U.S. Virgin Islands, and American Samoa.

State Appraiser Regulatory Agency means a State agency that certifies and licenses real estate appraisers and registers and supervises AMCs or otherwise regulates real estate appraisers and AMCs who operate in that State consistent with section 1121(1) of Title XI (12 U.S.C. 3350(1)). "State Appraiser Regulatory Agency" is synonymous with "State appraiser certifying and licensing agency" as defined in section 1121(1) of Title XI (12 U.S.C. 3350(1)). To the extent that the registration and supervision of AMCs is carried out by a separate and distinct agency or agencies within a State, each such agency is also a State Appraiser Regulatory Agency.

State certified appraiser means an individual who has satisfied the requirements for certification in a State whose criteria for certification as a real estate appraiser meet or exceed the applicable minimum AQB Criteria as

prescribed in section 1116(a) and (b) of Title XI (12 U.S.C. 3345(a) and (b)).

State licensed appraiser means an individual who has satisfied the requirements for licensing in a State whose criteria for the licensing of a real estate appraiser meet or exceed the applicable minimum AQB Criteria as prescribed in section 1116(c) of Title XI (12 U.S.C. 3345(c)).

Supervisory appraiser means an individual who has satisfied the requirements in a State whose applicable requirements for supervision of a trainee appraiser meet or exceed the applicable minimum AQB Criteria as prescribed in section 1116(e) of Title XI (12 U.S.C. 3345(e)).

Suspension means the State Appraiser Regulatory Agency is prohibited from performing a certain task or certain tasks as part of the State Appraiser Regulatory Agency's responsibilities under Title XI for a specified period of time as stated in the final order. The suspension remains in effect until the suspension is lifted by the ASC. The ASC may lift the suspension on the finding that the terms and conditions of the final order are satisfied.

Trainee appraiser means an individual who has satisfied the requirements in a State whose applicable requirements meet or exceed the applicable minimum AQB Criteria as prescribed in section 1116(e) of Title XI (12 U.S.C. 3345(e)).

Uniform Standards of Professional Appraisal Practice (USPAP) means the appraisal standards promulgated by the Appraisal Standards Board of the Appraisal Foundation.

Warning letter means a letter issued by the ASC informing a State Appraiser Regulatory Agency of a deficiency or deficiencies relating to its regulatory program that, if not addressed, could negatively impact the regulatory program's effectiveness.

§ 1102.602 Compliance reviews.

(a) *Monitoring of State appraiser and AMC regulatory programs.* The ASC shall monitor appraiser and AMC regulatory programs administered by State Appraiser Regulatory Agencies in accordance with sections 1103(a)(1) and 1118(a) of Title XI (12 U.S.C. 3332(a)(1) and 3347(a)).

(b) *Frequency of compliance reviews.* (1) The ASC will conduct compliance reviews on either a two-year cycle or one-year cycle as part of its routine monitoring but may use an alternate review schedule at its sole discretion.

(2) The ASC may conduct follow-up reviews and additional monitoring on specific areas identified during a compliance review. The ASC may

schedule a follow-up review within 6 to 12 months after the previous compliance review or at a time deemed appropriate by the ASC.

(3) The ASC may conduct accelerated compliance reviews when there are indications that a regulatory program might not be operating consistently with Title XI or Federal regulations promulgated thereunder.

(4) When a State Appraiser Regulatory Agency oversees both appraiser and AMC regulatory programs, the ASC may assign each regulatory program the same or different review cycles.

(c) *Performance of compliance reviews.* (1) During compliance reviews, the ASC will examine records and may conduct interviews with State Appraiser Regulatory Agency representatives.

(2) After completing the examination of records and interviews, the ASC will prepare the preliminary report that includes the ASC's initial determination of the level of effectiveness of the regulatory program as outlined in § 1102.603(b).

(3) A State Appraiser Regulatory Agency may respond within 60 days from the date of the preliminary report. The response may include additional documentation showing the State Appraiser Regulatory Agency's efforts to remedy any findings or deficiencies identified in the preliminary report. The ASC may, on its own initiative or for good cause shown, issue a waiver extending the 60-day time limit in connection with a State Appraiser Regulatory Agency's response to the preliminary report under this section.

(4) After receiving the State Appraiser Regulatory Agency's response to the preliminary report, the ASC will prepare a final report that includes the ASC's final determination of the level of effectiveness of the regulatory program as outlined in § 1102.603(b).

(d) *Responsibilities of State Appraiser Regulatory Agencies.* State Appraiser Regulatory Agencies must maintain sufficient documentation to demonstrate that their appraiser and AMC regulatory programs operate consistently with Title XI and Federal regulations promulgated thereunder. Documentation must be made available for inspection, as requested by the ASC, including access to the information stored in any electronic system or providing access to the electronic system itself.

§ 1102.603 Analysis of a regulatory program's effectiveness.

(a) *Analysis of the regulatory program's effectiveness.* The ASC will assess the effectiveness of a regulatory program, as required by section 1118 of Title XI (12 U.S.C. 3347), by conducting

an analysis of the applicable program functions. The ASC will examine whether the State Appraiser Regulatory Agency's regulatory program is operating consistently with the specified requirements of each program function in paragraph (c) of this section. If any deficiencies are found, the ASC will document the deficiencies in both the preliminary and final reports consistent with this subpart.

(b) *Assessment of the regulatory program's effectiveness—(1) Initial assessment of the regulatory program's effectiveness.* The ASC will assess the initial effectiveness of a State appraiser or AMC regulatory program on the basis of the number of deficiencies per program function as identified in the preliminary report as follows:

(i) *Effective regulatory program.* (A) A State appraiser regulatory program is considered "effective" if there is no more than one deficiency in each of not more than two separate program functions.

(B) A State AMC regulatory program is considered "effective" if there is no more than one deficiency in any single program function.

(ii) *Moderately effective regulatory program.* (A) A State appraiser regulatory program is considered "moderately effective" if there is no more than one deficiency in each of not more than three separate program functions or no more than two deficiencies in one program function.

(B) A State AMC regulatory program is considered "moderately effective" if there is no more than one deficiency in each of not more than two separate program functions.

(iii) *Slightly effective regulatory program.* (A) A State appraiser regulatory program is considered "slightly effective" if there is no more than one deficiency in each of not more than four separate program functions, no more than two deficiencies in each of two separate program functions, or no more than three deficiencies in one program function.

(B) A State AMC regulatory program is considered "slightly effective" if there is no more than one deficiency in each of not more than three separate program functions or no more than two deficiencies in one program function.

(iv) *Ineffective regulatory program.* (A) A State appraiser regulatory program is considered "ineffective" if there are one or more deficiencies in each of five separate program functions, two or more deficiencies in each of three or more separate program functions, or four or more deficiencies in one or more program functions.

(B) A State AMC regulatory program is considered "ineffective" if there are one or more deficiencies in each of four separate program functions, two or more deficiencies in each of two or more separate program functions, or three or more deficiencies in one or more program functions.

(2) *Final assessment of the regulatory program's effectiveness.* The ASC will consider whether the State Appraiser Regulatory Agency's response to the preliminary report and any relevant mitigating and aggravating factors in § 1102.604 justify an increase or decrease in the level of the regulatory program's effectiveness for the final report.

(c) *Specified requirements of the applicable program functions for State appraiser and AMC regulatory programs—(1) State appraiser regulatory program.* A State Appraiser Regulatory Agency must demonstrate to the ASC's reasonable satisfaction that its appraiser regulatory program is operating consistently with the specified requirements of each program function:

(i) *Licensing and certification of appraisers.* (A) The State Appraiser Regulatory Agency's licensing and certification requirements must meet the minimum requirements set forth in section 1116 of Title XI (12 U.S.C. 3345).

(B) The State Appraiser Regulatory Agency's trainee and supervisory appraiser requirements, if applicable, must meet the minimum requirements set forth in section 1116 of Title XI (12 U.S.C. 3345).

(C) The State Appraiser Regulatory Agency must use the designations for trainee appraisers, State licensed appraisers, and State certified appraisers in accordance with section 1116 of Title XI (12 U.S.C. 3345).

(D) The State Appraiser Regulatory Agency must use permitted scopes of practice for State licensed and certified appraisers in accordance with sections 1113 and 1114 of Title XI (12 U.S.C. 3342 and 3343).

(E) The State Appraiser Regulatory Agency must process applications in a timely, consistent, equitable, and well-documented manner in accordance with Title XI.

(F) The State Appraiser Regulatory Agency must ensure that individuals who process applications are knowledgeable about section 1116 of Title XI (12 U.S.C. 3345) as evaluated by the ASC.

(G) The State Appraiser Regulatory Agency must have a reciprocity policy for issuing a reciprocal license or certification for an individual from

another State in accordance with section 1122(b) of Title XI (12 U.S.C. 3351(b)).

(H) The State Appraiser Regulatory Agency must ensure that all approved applicants meet the applicable minimum requirements of the AQB Criteria.

(I) The State Appraiser Regulatory Agency must ensure that appraiser education courses are consistent with the AQB Criteria.

(J) The State Appraiser Regulatory Agency must obtain and maintain sufficient documentation pertaining to all applications, including initial licenses or certifications, upgrades, renewals, reinstatements, and supervisory approvals, to create a record of facts and determinations and the reasons for those determinations made by the State Appraiser Regulatory Agency.

(K) The State Appraiser Regulatory Agency must report appraiser data on the issuance and renewal of licenses and certifications on a timely basis to the Appraiser Registry in accordance with section 1109(a)(2) of Title XI (12 U.S.C. 3338(a)(2)).

(ii) *Issuance of temporary licenses and certifications for appraisers.* (A) The State Appraiser Regulatory Agency must recognize the license or certification of an appraiser issued by another State Appraiser Regulatory Agency on a temporary basis in accordance with section 1122(a)(1) of Title XI (12 U.S.C. 3351(a)(1)).

(B) The State Appraiser Regulatory Agency must not impose excessive fees for a temporary license or certification in accordance with section 1122(a)(2) of Title XI (12 U.S.C. 3351(a)(2)).

(C) The State Appraiser Regulatory Agency must not impose burdensome requirements, as determined by the ASC, for temporary practice in accordance with section 1122(a)(2) of Title XI (12 U.S.C. 3351(a)(2)).

(D) The State Appraiser Regulatory Agency must issue temporary licenses or certifications within five days after receiving a complete application for such issuance in accordance with section 1122(a) of Title XI (12 U.S.C. 3351(a)).

(E) The State Appraiser Regulatory Agency must issue temporary licenses or certifications on an assignment basis and must allow for at least one extension through a streamlined process in accordance with section 1122(a) of Title XI (12 U.S.C. 3351(a)).

(F) The State Appraiser Regulatory Agency must issue temporary licenses or certifications designating the effective date in accordance with section 1122(a) of Title XI (12 U.S.C. 3351(a)).

(G) The State Appraiser Regulatory Agency must track all temporary licenses or certifications using a permit log or system.

(H) The State Appraiser Regulatory Agency must supervise all individuals to whom the State Appraiser Regulatory Agency issues a temporary license or certification while performing assignments in its State, must discipline such individuals, when appropriate, for misconduct or wrongdoing, and must report each disciplinary action to the ASC and other appropriate State Appraiser Regulatory Agencies to ensure effective supervision in accordance with sections 1117, 1118, and 1122(a) of Title XI (12 U.S.C. 3346, 3347, and 3351(a)).

(I) The State Appraiser Regulatory Agency must obtain and maintain documentation sufficient to create a record of the basis for the determinations made by the State Appraiser Regulatory Agency in processing and issuing temporary licenses or certifications.

(iii) *Receiving and tracking of submitted complaints against appraisers.* (A) The State Appraiser Regulatory Agency must have a system for processing and investigating complaints and sanctioning trainee appraisers, State licensed appraisers, and State certified appraisers in a timely, effective, consistent, equitable, and well-documented manner.

(B) The State Appraiser Regulatory Agency must track and monitor all complaints using a complaint log or system.

(iv) *Investigation of complaints against appraisers.* (A) The State Appraiser Regulatory Agency must require appraisals to be performed in accordance with the latest version of USPAP in accordance with sections 1101 and 1103(a)(1)(A) of Title XI (12 U.S.C. 3331 and 3332(a)(1)(A)).

(B) When examining an appraisal report in connection with a complaint, including complaints based solely on value, the State Appraiser Regulatory Agency must consider whether any potential violations of USPAP should be investigated.

(C) To ensure effective supervision, the State Appraiser Regulatory Agency must resolve all complaints filed against trainee appraisers, State licensed appraisers, and State certified appraisers within one year (12 months) from the date the complaint was received except in special documented circumstances.

(D) The State Appraiser Regulatory Agency must ensure that individuals who analyze complaints are knowledgeable about Title XI, USPAP, and appraisal practices and must

document how such individuals are qualified, which will be evaluated by the ASC.

(E) The State Appraiser Regulatory Agency must obtain and maintain documentation sufficient to create a record of the facts and determinations made by the State Appraiser Regulatory Agency in processing and investigating a complaint and the reasons for its final disposition.

(v) *Enforcement actions against appraisers.* (A) The State Appraiser Regulatory Agency must supervise trainee appraisers, State licensed appraisers, and State certified appraisers and must discipline such individuals, when appropriate, for misconduct and wrongdoing.

(B) The State Appraiser Regulatory Agency must report all disciplinary actions against State licensed and certified appraisers to the ASC within five days after the disciplinary action is final as determined by State law.

(2) *State AMC regulatory program.* A State Appraiser Regulatory Agency must demonstrate to the ASC's reasonable satisfaction that its AMC regulatory program is operating consistently with the stated requirements of each program function:

(i) *Registration of AMCs.* (A) The State Appraiser Regulatory Agency must establish and maintain an AMC regulatory program with legal authority and mechanisms consistent with Title XI, the AMC Rule, and the AMC Registry Fee Rule.

(B) The State Appraiser Regulatory Agency must impose requirements on AMCs that are consistent with Title XI and the AMC Rule.

(C) The State Appraiser Regulatory Agency must enforce and document ownership limitations for AMCs in a manner consistent with Title XI and the AMC Rule.

(D) The State Appraiser Regulatory Agency must process AMC applications in a timely, consistent, equitable, and well-documented manner in accordance with Title XI, the AMC Rule, and the AMC Registry Fee Rule.

(E) The State Appraiser Regulatory Agency must ensure that individuals who process applications are knowledgeable about Title XI and the AMC Rule as evaluated by the ASC.

(F) The State Appraiser Regulatory Agency must obtain and maintain documentation sufficient to create a record of the basis for its determinations for AMC eligibility for the AMC Registry, including the appraiser panel requirements, ownership limitations, and AMC Registry fee collection and submission to the ASC.

(G) The State Appraiser Regulatory Agency must report AMCs eligible for the AMC Registry on a timely basis to the ASC in accordance with section 1109(a)(3) of Title XI (12 U.S.C. 3338(a)(3)) and the AMC Registry Fee Rule.

(ii) *Receiving and tracking of submitted complaints against AMCs.* (A) The State Appraiser Regulatory Agency must have a system for processing and investigating complaints and sanctioning AMCs (other than federally regulated AMCs) in a timely, effective, consistent, equitable, and well-documented manner.

(B) The State Appraiser Regulatory Agency must track and monitor all complaints against AMCs using a complaint log or system.

(iii) *Investigation of complaints against AMCs.* (A) To ensure effective supervision, the State Appraiser Regulatory Agency must resolve all complaints filed against AMCs (other than federally regulated AMCs) within one year (12 months) from the date the complaint was received except in special documented circumstances.

(B) The State Appraiser Regulatory Agency must ensure that individuals who analyze complaints are knowledgeable about Title XI, the AMC Rule, USPAP, and appraisal practices and must document how such individuals are qualified, which will be evaluated by the ASC.

(C) The State Appraiser Regulatory Agency must obtain and maintain documentation sufficient to create a record of the facts and determinations made by the State Appraiser Regulatory Agency in processing and investigating a complaint and the reasons for its final disposition.

(iv) *Enforcement actions against AMCs.* (A) The State Appraiser Regulatory Agency must supervise AMCs (other than federally regulated AMCs) and must discipline such entities, when appropriate, for misconduct and wrongdoing.

(B) The State Appraiser Regulatory Agency must report all disciplinary actions against AMCs (other than federally regulated AMCs) to the ASC within five days after the disciplinary action is final as determined by State law.

§ 1102.604 Mitigating and aggravating factors.

The ASC will consider the following factors, which may be mitigating or aggravating as appropriate, in adjusting the ASC's initial assessment of the level of effectiveness of the regulatory program identified in the preliminary

report. The mitigating or aggravating factors include:

(a) The nature and extent of the deficiency, which includes:

(1) The type of deficiency;
(2) Whether any deficiencies indicate systemic issues in the regulatory program; and

(3) The severity of the deficiency, and the extent to which the deficiency can be corrected or, if not corrected in a timely manner, whether the deficiency poses a potential risk to the regulatory program, appraisers, AMCs, financial institutions, or the public.

(b) Prior compliance history by the State Appraiser Regulatory Agency, which includes:

(1) Whether the regulatory program has had any prior deficiencies;

(2) Whether the deficiency is the same as or similar to prior deficiencies;

(3) Whether the State Appraiser Regulatory Agency's practices or actions indicate a pattern of similar prior deficiencies or a fundamental failure to understand the risks and controls that underlie a program function; and

(4) Whether, and to what extent, the State Appraiser Regulatory Agency attempted to correct prior deficiencies.

(c) The structure, stability, and responsiveness of the State Appraiser Regulatory Agency, which include:

(1) The level of cooperation with the ASC staff during a compliance review;

(2) The extent of understanding and acknowledgment of the deficiency;

(3) The level of responsiveness and willingness to correct the deficiency;

(4) Whether the regulatory program has undergone significant staffing or leadership changes;

(5) Any submission of false statements or documents, or deceptive practices by the State Appraiser Regulatory Agency;

(6) Whether the State Appraiser Regulatory Agency failed to exercise reasonable care toward equitable, consistent, and timely enforcement; and

(7) The number of State licensed and certified appraisers or registered AMCs under the jurisdiction of the State Appraiser Regulatory Agency; and

(8) The risk of program failure.

(d) Other situations or circumstances may include natural or human-made disasters or emergencies or other government-declared orders.

§ 1102.605 Enforcement actions.

(a) *Interim enforcement actions.* The ASC may undertake an interim enforcement action against a State Appraiser Regulatory Agency that fails to have an effective regulatory program as determined by the ASC as set forth in § 1102.603(b). Interim enforcement actions may consist of the following actions:

(1) *Warning letter.* The ASC may issue a warning letter to a State Appraiser Regulatory Agency when the final report indicates that the regulatory program is moderately effective or slightly effective.

(2) *Negotiated agreement.* The ASC may enter into a negotiated agreement with a State Appraiser Regulatory Agency if the State Appraiser Regulatory Agency fails to address the deficiency or deficiencies identified in a previously issued warning letter, or the final report indicates that the regulatory program is slightly effective or ineffective.

(3) *Suspension.* The ASC may suspend a State Appraiser Regulatory Agency for an interim period, as outlined in the procedures within § 1102.606, if the State Appraiser Regulatory Agency refuses to enter into a negotiated agreement, the State Appraiser Regulatory Agency fails to comply with the terms and conditions of a negotiated agreement, or the final report indicates that the regulatory program is ineffective. The suspension may involve, but is not limited to, the State Appraiser Regulatory Agency's ability to perform one or more of the following tasks:

(i) Addition of State licensed or certified appraisers to the Appraiser Registry or AMCs to the AMC Registry;

(ii) Issuance of upgrades of individuals' level of licensure or certification to perform appraisals in connection with federally related transactions;

(iii) Renewal of licenses or certifications of State licensed or certified appraisers for the performance of appraisals in connection with federally related transactions; or

(iv) Issuance of temporary licenses or certifications to individuals who are licensed or certified in another State to perform appraisals in connection with federally related transactions in the suspended State Appraiser Regulatory Agency's State, as set forth in section 1122(a) of Title XI (12 U.S.C. 3351(a)).

(b) *Non-recognition.* The ASC may undertake non-recognition, as prescribed in the procedures within subpart B of this part, if the ASC issues a written finding pursuant to section 1118(b) of Title XI (12 U.S.C. 3347(b)) that the State Appraiser Regulatory Agency's policies, practices, funding, staffing, or procedures are inconsistent with Title XI and Federal regulations promulgated thereunder and:

(1) a State Appraiser Regulatory Agency fails to comply with a final order of suspension; or

(2) the final report indicates the regulatory program is ineffective.

§ 1102.606 Procedures governing suspension proceedings.

The ASC must adhere to the following procedures to suspend a State Appraiser Regulatory Agency.

(a) *Notice.* (1) The ASC must provide the State Appraiser Regulatory Agency with a written notice of intention to suspend the State Appraiser Regulatory Agency from a task or tasks as provided in § 1102.605(a)(3). The notice must contain the ASC's final report.

(2) The Secretary must publish the notice in the **Federal Register** and must provide notice to the State Appraiser Regulatory Agency by sending a copy to the State Appraiser Regulatory Agency's last known email or mailing address. Service is complete upon sending.

(b) *State Appraiser Regulatory Agency's response.* (1) Within 20 days after publication of the notice in the **Federal Register**, the State Appraiser Regulatory Agency may submit a response or a notice not to contest to the Secretary.

(2) If a State Appraiser Regulatory Agency submits a notice not to contest, the ASC must issue the final order within 80 days after publication of the notice in the **Federal Register** as set forth in paragraph (f) of this section.

(3) If a State Appraiser Regulatory Agency does not submit a response or a notice not to contest within 20 days after publication of the notice in the **Federal Register**, the ASC may consider the facts presented in the notice to be true. The ASC must then issue the final order within 80 days after publication of the notice in the **Federal Register** as set forth in paragraph (f) of this section.

(c) *Briefs, memoranda, and statements.* After (or contemporaneously with) the State Appraiser Regulatory Agency's filing of its response, but in no event more than 40 days after publication of the notice in the **Federal Register**, the State Appraiser Regulatory Agency may file with the Secretary a written brief, memorandum, or other statement

providing factual data and policy and legal arguments regarding the matters set out in the notice.

(d) *Oral presentations to the ASC.* After (or contemporaneously with) the State Appraiser Regulatory Agency's filing of its response, but in no event more than 40 days after publication of the notice in the **Federal Register**, a State Appraiser Regulatory Agency may also request to make an oral presentation to the ASC. If a State Appraiser Regulatory Agency files a request for an oral presentation, the ASC must hear the matter within 20 days after the date the ASC received the request for an oral presentation. An oral presentation is an opportunity for the State Appraiser Regulatory Agency to offer, emphasize, and clarify the facts, policies, and laws concerning the matters set forth in the notice. The State Appraiser Regulatory Agency will make its oral presentation to the ASC on the date and time designated by the ASC. The ASC may ask questions relating to the contents of the notice, the response, the oral presentation, or any written briefs, memoranda, or statements submitted.

(e) *Conduct of suspension proceedings—(1) Written submissions.* All aspects of suspension proceedings will be conducted by written submissions, except for oral presentations allowed under paragraph (d) of this section.

(2) *Rules of evidence.* Except as is otherwise set forth in this section, relevant material and reliable evidence that is not unduly repetitive will be admissible to the fullest extent authorized by the Administrative Procedure Act (5 U.S.C. 551 *et seq.*) and other applicable laws.

(3) *Extensions of time.* The ASC may, on its own initiative or for good cause shown, issue a waiver extending any time limit in connection with a suspension proceeding under this section.

(f) *Decision of the ASC.* Within 80 days after publication of the notice in the **Federal Register**, or, in the case of the ASC's receipt of a timely request for an oral presentation within 100 days after publication of the notice in the **Federal Register**, the ASC must make a final decision on the matter by issuing a final order. The final order will be final and effective upon signature of the ASC Chairperson or their designee. The Secretary must promptly disseminate the final order to the State Appraiser Regulatory Agency and publish the final order in the **Federal Register**.

(g) *Documents and exhibits.* Unless otherwise provided by law, the Secretary must place all documents, papers, and exhibits submitted in connection with the suspension proceeding in the proceeding's file and make them available for public inspection, except those that may be withheld from disclosure under applicable law.

(h) *Opportunity for informal settlement.* The State Appraiser Regulatory Agency may submit written offers or proposals for settlement of the proceeding to the Secretary at any time for consideration by the ASC. This paragraph (h) shall not preclude settlement of any suspension proceeding by the filing of a notice not to contest as provided in paragraph (b)(1) of this section.

§ 1102.607 Procedures governing non-recognition proceedings.

To impose non-recognition against a State Appraiser Regulatory Agency, the ASC must adhere to the procedures governing a non-recognition proceeding, as set forth in subpart B of this part.

By the Appraisal Subcommittee.

Dated: November 21, 2024.

Zixta Martinez,
Chairperson.

BILLING CODE 6700-01-P

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

National Institute of Food and Agriculture

Notice of Intent To Extend and Revise a Previously Approved Information Collection

AGENCY: National Institute of Food and Agriculture, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and Office of Management and Budget (OMB) regulations, this notice announces the National Institute of Food and Agriculture's (NIFA) intention to extend and revise a previously approved information collection, entitled *Organizational Information*.

DATES: Written comments on this notice must be received by February 4, 2025 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: You may submit comments through the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided.

FOR FURTHER INFORMATION CONTACT: Laura Givens, 816-527-5379, Laura.Givens@usda.gov.

SUPPLEMENTARY INFORMATION:

Title of Collection: Organizational Information.

OMB Control Number: 0524-0026.

Expiration Date of Current Approval: 3/31/2025.

Type of Request: Notice of intent to extend for three years and revise a previously approved information collection.

Abstract: NIFA has primary responsibility for providing connection between the Federal and State

components of a broad-based, national agricultural research, extension, and education system. Focused on national issues, its purpose is to represent the Secretary of Agriculture and carry out the intent of Congress by administering capacity and grant funds appropriated for agricultural research, extension, and education. Before awards can be made, certain information is required from applicants to effectively assess the potential recipient's capacity to manage Federal funds.

The Organizational Information Form enables NIFA to determine that the applicants recommended for awards will be responsible recipients of Federal funds.

The information requested from the applicant pertains to the organizational and financial management of the potential grantee. This form and the attached applicant documents provide NIFA with information such as the legal name of the organization; certification that the organization has the legal authority to accept Federal funding; identification and signatures of the organization's key officials; the organization's policies for employee compensation and benefits; evidence of equipment insurance; the organization's policies on subcontracting with other organizations; evidence of the financial condition of the organization; and certification that the organization is not delinquent on Federal taxes. NIFA considers all this information prior to award, to determine the grantee is both managerially and fiscally responsible. This information is submitted to NIFA on a one-time basis and updated accordingly. If material changes occur within the organization, the grantee must submit revised information.

NIFA is proposing to update the form to ensure that it reflects the latest statutory and regulatory requirements, including updates to 2 CFR Part 200—Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. NIFA also proposes to rename the form to the "Organizational Information Form," and update the format of the form itself to improve accessibility.

Estimate of Burden: The total annual estimated burden for this information collection is 945 hours.

Estimated Number of Respondents: 150.

Annual responses: 150.

Average time to complete each response: 6.3 hours.

Burden hours: 945.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request to OMB for approval. All comments will become a matter of public record.

Obtaining a Copy of the Information Collection: A copy of the information collection and related instructions may be obtained free of charge by contacting Laura Givens as directed above.

Done at Washington, DC, this day of October 1, 2024.

Dionne Toombs,

Associate Director for Programs, National Institute of Food and Agriculture, U.S. Department of Agriculture.

BILLING CODE 3410-22-P

CIVIL RIGHTS COLD CASE RECORDS REVIEW BOARD

[Agency Docket Number: CRCCRRB-2025-0004-N]

Notice of Formal Determination on Records Release

AGENCY: Civil Rights Cold Case Records Review Board.

ACTION: Notice.

SUMMARY: The Civil Rights Cold Case Records Review Board received 265 pages of records from the National Archives and Records Administration (NARA), the Department of Justice, and the Federal Bureau of Investigation (FBI) related to four civil rights cold case incidents. The Review Board assigned the unique identifiers 2023-002-007, 2024-003-025, 2024-003-040, and

2024-003-044 to the incidents. The Department of Justice and the FBI proposed postponements of disclosure for records related to incident 2023-002-007. No postponements of disclosure were proposed for records related to the other three incidents. On November 22, 2024, the Review Board determined that 238 pages in full and 27 pages in part should be publicly disclosed in the Civil Rights Cold Case

Records Collection. The Review Board approved 129 postponements proposed by the Department of Justice and the FBI. The Board is still considering 4 postponements proposed by the FBI. By issuing this notice, the Review Board complies with section 7(c)(4) of the Civil Rights Cold Case Records Collection Act of 2018 that requires the Review Board to publish in the **Federal Register** its determinations on the

disclosure or postponement of records in the Collection no more than 14 days after the date of its decision.

CIVIL RIGHTS COLD CASE RECORDS REVIEW BOARD

[Agency Docket Number: CRCCRRB-2025-0005-N]

Notice of Formal Determination on Records Release

AGENCY: Civil Rights Cold Case Records Review Board.

ACTION: Notice.

SUMMARY: The Civil Rights Cold Case Records Review Board received 14 pages of records from the National Archives and Records Administration (NARA) related to a civil rights cold case incident to which the Review Board assigned the unique identifier 2024-003-027. NARA did not propose any postponements of disclosure. On November 1, 2024, the Review Board determined that the records should be publicly disclosed in the Civil Rights Cold Case Records Collection. By issuing this notice, the Review Board complies with section 7(c)(4) of the Civil Rights Cold Case Records Collection Act of 2018 that requires the Review Board to publish in the **Federal Register** its determinations on the disclosure or postponement of records in the Collection no more than 14 days after the date of its decision.

FOR FURTHER INFORMATION CONTACT: Stephannie Oriabure, Chief of Staff, Civil Rights Cold Case Records Review Board, 1800 F Street NW, Washington, DC 20405, (771) 221-0014, info@coldcaserecords.gov.

Authority: Pub. L. 115-426, 132 Stat. 5489 (44 U.S.C. 2107).

Dated: December 3, 2024.

Stephannie Oriabure,
Chief of Staff.

COMMISSION ON CIVIL RIGHTS

Notice of Public Meeting of the New Mexico Advisory Committee;
Correction

AGENCY: Commission on Civil Rights.

ACTION: Notice; update briefing agenda; correction.

SUMMARY: The Commission on Civil Rights published a notice in the **Federal Register** on Friday, November 1, 2024, concerning a briefing of the New Mexico Advisory Committee. The briefing agenda has since changed.

FOR FURTHER INFORMATION CONTACT: Brooke Peery, bpeery@usccr.gov. 202-701-1376.

SUPPLEMENTARY INFORMATION:

Correction

In the **Federal Register** on Friday, November 1, 2024, in FR Document Number 2024-25473, at 87 FR 87327-28, third and first columns, the agenda is corrected to read as follows:

- I. Welcoming Opening Remarks
- II. Panelist Remarks
- III. Committee Q&A
- IV. Public Comment
- V. Business Meeting
- VI. Adjournment

The briefing time will remain the same: 1 p.m.-3 p.m. central time. In addition, the link to join will remain the same: <https://www.zoomgov.com/webinar/register/WN/p0x3OMwRQzGARKrRtkiE0tQ>.

Dated: November 19, 2024.

BILLING CODE P

DEPARTMENT OF COMMERCE

Census Bureau

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Decennial Census Temporary, Intermittent Applicant Information Collection

AGENCY: Census Bureau, Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act (PRA) of 1995, invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment on the proposed new information collection, Decennial Census Temporary, Intermittent Applicant Information Collection, prior to the submission of the information collection request (ICR) to OMB for approval.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before Monday, February 10, 2025.

ADDRESSES: Interested persons are invited to submit written comments by email to FLD.Decennial.Oversight@census.gov. Please reference Decennial Census Temporary, Intermittent Applicant Information Collection, in the subject line of your comments. You may also submit comments, identified by Docket Number USBC-2024-0030, to the Federal e-Rulemaking Portal: <http://www.regulations.gov>. All comments received are part of the public record. No comments will be posted to <http://www.regulations.gov> for public viewing until after the comment period has closed. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information. You may submit attachments to electronic comments in Microsoft Word, Excel, or Adobe PDF file formats.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Anna Parikos, Chief, Decennial Administrative Branch, 301-763-7209,

and *FLD.Decennial.Oversight@census.gov*.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau is implementing an electronic Decennial Census Temporary, Intermittent Applicant Information Collection to gather information from job seekers needed to fill temporary, intermittent Decennial Census Program positions, starting with the 2026 Census Test. Questions used to qualify and select applicants for positions are in the *job application information* section of the collection. This section collects Social Security number, date of birth, contact information, citizenship status, selective service and veteran's preference status and documentation, Federal employment/annuity status, access to transportation, hours of availability and related job experience. The *supplemental voluntary applicant information* section includes questions found on the Equal Employment Opportunity Commission's (EEOC's) common use form 3046-0046, Demographic Information on Applicants for Federal Employment, developed to support EEOC Management Directive (MD) 715-1. The voluntary questions also include recruiting source and education questions to help improve future recruiting efforts.

This collection gathers basic information needed for all temporary, intermittent decennial positions, streamlining the application process for both the applicant and the Census Bureau, by allowing applicants to be considered for several positions with one set of application data. To further evaluate each applicant's fit for positions, after completing the Decennial Census Temporary, Intermittent Applicant Information Collection, applicants will answer position related assessment questions.

The Census Bureau discontinued a similar collection for the Current Surveys, Special Census, and Decennial Census Programs under OMB No. 0607-0139.

II. Method of Collection

Data will be gathered electronically in a system called, Decennial Administrative, Recruiting, Hiring, and Training System (DARHTS). Applicants will visit *census.gov*, click on a link to access the DARHTS, create an account and proceed to complete the *job application information*, the *supplemental voluntary applicant information*, and then the position specific assessment questionnaires. The

DARHTS system will create an electronic PDF output of the *job application information* questions and the applicant respondent's answers as a record. If the applicant respondent makes subsequent changes to their *job application information*, the system will create additional PDF documents for each change submission. Each PDF created will include the OMB clearance number and the expiration date.

The Census Bureau is not including for clearance an online Spanish version of DARHTS or paper versions of the *job application information* or *supplemental voluntary applicant information* for the three-year period covered by this request. The current collection does not require these job application alternatives. Subsequent renewals will include the Spanish and paper versions, when the collection is rolled out to Puerto Rico and remote parts of Alaska.

III. Data

OMB Control Number: 0607-XXXX.
Form Number(s): None.

Type of Review: Regular submission, New Information Collection Request.

Affected Public: Individuals interested in being considered for temporary, intermittent decennial census jobs.

Estimated Number of Respondents: 12,000 over 3 years.

Estimated Time per Response: 20 minutes.

Estimated Total Annual Burden Hours: 1,333 average per year, 4,000 total over 3 years.

Estimated Total Annual Cost to Public: \$0

Respondent's Obligation: Voluntary.
Legal Authority: Title 13, United States Code, Section 23a and 23; EEOC Management Directive (MD) 715-1 and Executive Order 13548.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of

public record. We will include, or summarize, each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Departmental PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510-07-P

DEPARTMENT OF COMMERCE

International Trade Administration

[A-533-930]

Certain High Chrome Cast Iron Grinding Media From India: Preliminary Affirmative Determination of Sales at Less Than Fair Value, Postponement of Final Determination, and Extension of Provisional Measures

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) preliminarily determines that certain high chrome cast iron grinding media (grinding media) from India is being, or is likely to be, sold in the United States at less than fair value (LTFV). The period of investigation (POI) is April 1, 2023, through March 31, 2024. Interested parties are invited to comment on this preliminary determination.

DATES: Applicable December 6, 2024.

FOR FURTHER INFORMATION CONTACT: Charles DeFilippo, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3797.

SUPPLEMENTARY INFORMATION:

Background

This preliminary determination is made in accordance with section 733(b) of the Tariff Act of 1930, as amended (the Act). Commerce initiated this

investigation on May 16, 2024.¹ On July 22, 2024, Commerce tolled certain deadlines in this administrative proceeding by seven days.² On September 10, 2024, Commerce postponed the preliminary determination of this investigation until November 29, 2024.³ For a complete description of the events that followed the initiation of this investigation, *see* the Preliminary Decision Memorandum.⁴

A list of topics included in the Preliminary Decision Memorandum is provided in Appendix II of this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Scope of the Investigation

The product covered by this investigation is grinding media from India. For a complete description of the scope of this investigation, *see* Appendix I.

Scope Comments

In accordance with the *Preamble* to Commerce’s regulations,⁵ the *Initiation*

Notice set aside a period of time for parties to raise issues regarding product coverage (*i.e.*, scope).⁶ Certain interested parties commented on the scope of the investigation as it appeared in the *Initiation Notice*. For a summary of the product coverage comments and rebuttal responses submitted to the record for this preliminary determination, and accompanying discussion and analysis of all comments timely received, *see* the Preliminary Scope Decision Memorandum.⁷ Commerce is not preliminarily modifying the scope language as it appeared in the *Initiation Notice*. *See* the scope in Appendix I to this notice. Pursuant to 19 CFR 351.309(c)(2), interested parties may submit additional comments on the scope of this investigation in scope case briefs, which may be submitted no later than 30 days after the issuance of the Preliminary Scope Decision Memorandum.⁸

Methodology

Commerce is conducting this investigation in accordance with section 731 of the Act. Constructed export prices have been calculated in accordance with section 772(b) of the Act. Normal value is calculated in accordance with section 773 of the Act. For a full description of the methodology underlying the preliminary determination, *see* the Preliminary Decision Memorandum.

All-Others Rate

Sections 733(d)(1)(ii) and 735(c)(5)(A) of the Act provide that in the preliminary determination Commerce shall determine an estimated all-others rate for all exporters and producers not individually examined. This rate shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero and *de minimis* margins, and any margins determined entirely under section 776 of the Act.

Commerce calculated an individual estimated weighted-average dumping margin for AIA Engineering Limited (AIAEL) and its affiliates (collectively, AIA),⁹ the only individually examined exporter/producer¹⁰ in this investigation. Because the only individually calculated dumping margin is not zero, *de minimis*, or based entirely on facts otherwise available, the estimated weighted-average dumping margin calculated for AIA is the margin assigned to all other producers and exporters, pursuant to section 735(c)(5)(A) of the Act.

Preliminary Determination

Commerce preliminarily determines that the following estimated weighted-average dumping margins exist:

Exporter/producer	Estimated weighted-average dumping margin (percent)	Cash deposit rate (adjusted for subsidy offset(s)) (percent) ¹¹
AIA Engineering Limited ¹²	7.18	4.30
All Others	7.18	4.30

¹ See *Certain High Chrome Cast Iron Grinding Media from India: Initiation of Less-Than-Fair-Value Investigation*, 89 FR 45630 (May 23, 2024) (*Initiation Notice*).

² See Memorandum, “Tolling of Deadlines for Antidumping and Countervailing Duty Proceedings,” dated July 22, 2024.

³ See *Certain High Chrome Cast Iron Grinding Media from India: Postponement of Preliminary Determination in the Less-Than-Fair-Value Investigation*, 89 FR 73366 (September 10, 2024).

⁴ See Memorandum, “Decision Memorandum for the Preliminary Affirmative Determination in the Less-Than-Fair-Value Investigation of Certain High Chrome Cast Iron Grinding Media from India,” dated concurrently with, and hereby adopted by, this notice (Preliminary Decision Memorandum).

⁵ See *Antidumping Duties; Countervailing Duties, Final Rule*, 62 FR 27296, 27323 (May 19, 1997) (*Preamble*).

⁶ See *Initiation Notice*, 89 FR at 45631.

⁷ See Memorandum, “Antidumping Duty and Countervailing Duty Investigations of Certain High

Chrome Cast Iron Grinding Media from India: Preliminary Scope Decision Memorandum,” dated concurrently with this preliminary determination (Preliminary Scope Decision Memorandum).

⁸ *Id.*

⁹ See Memorandum, “Preliminary Affiliation and Collapsing Memorandum for AIA Engineering Limited, Welcast Steel Limited, Vega Industries (Middle East) F.Z.C, and Vega Industries Ltd., USA,” dated concurrently with this memorandum (Collapsing Memorandum).

¹⁰ Commerce initially selected both Vega Industries and AIAEL as the two mandatory respondents for this investigation. *See* Respondent Selection Memorandum, dated June 11, 2024. However, AIA requested on behalf of itself and its affiliated companies, including Vega Industries, to submit only one set of responses to Commerce’s investigation. Therefore, AIAEL will have the sole calculated dumping margin in this investigation. For more information, *see* Preliminary Decision Memorandum and Collapsing Memorandum.

¹¹ Adjusted for export subsidies of 2.88 percent (comprised of 1.63 percent for the duty drawback program, 0.07 percent for the status holder incentive scheme, 0.18 percent for the interest equalization scheme, and 1.00 percent for the remission of duties and taxes on export products) for AIA. *See Certain High Chrome Cast Iron Grinding Media from India: Preliminary Affirmative Countervailing Duty Determination, and Alignment of Final Determination with Final Antidumping Duty Determination*, 89 FR 80865 (October 4, 2024), and accompanying Preliminary Decision Memorandum.

¹² Commerce preliminarily determines that AIAEL and Welcast Steel Limited (Welcast) are a single entity. In addition, Commerce preliminarily determines that AIAEL is affiliated with Vega Industries (Middle East) F.Z.C (Vega ME) and Vega Industries Ltd., USA (Vega USA). *See* Preliminary Decision Memorandum and Collapsing Memorandum.

Suspension of Liquidation

In accordance with section 733(d)(2) of the Act, Commerce will direct U.S. Customs and Border Protection (CBP) to suspend liquidation of entries of subject merchandise, as described in Appendix I, entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**. Further, pursuant to section 733(d)(1)(B) of the Act and 19 CFR 351.205(d), Commerce will instruct CBP to require a cash deposit equal to the estimated weighted-average dumping margin or the estimated all-others rate, as follows: (1) the cash deposit rate for the respondents listed above will be equal to the company-specific estimated weighted-average dumping margins determined in this preliminary determination; (2) if the exporter is not a respondent identified above, but the producer is, then the cash deposit rate will be equal to the company-specific estimated weighted-average dumping margin established for that producer of the subject merchandise; and (3) the cash deposit rate for all other producers and exporters will be equal to the all-others estimated weighted-average dumping margin.

Commerce normally adjusts cash deposits for estimated antidumping duties by the amount of export subsidies countervailed in a companion countervailing duty (CVD) proceeding, when CVD provisional measures are in effect. Accordingly, where Commerce preliminarily made an affirmative determination for countervailable export subsidies, Commerce has offset the estimated weighted-average dumping margin by the appropriate CVD rate. Any such adjusted cash deposit rate may be found in the “Preliminary Determination” section above. Should provisional measures in the companion CVD investigation expire prior to the expiration of provisional measures in this LTFV investigation, Commerce will direct CBP to begin collecting estimated antidumping duty cash deposits unadjusted for countervailed export subsidies at the time that the provisional CVD measures expire. These suspension of liquidation instructions will remain in effect until further notice.

Disclosure

Commerce intends to disclose its calculations and analysis performed to interested parties in this preliminary determination within five days of any public announcement or, if there is no public announcement, within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b).

Consistent with 19 CFR 351.224(e), Commerce will analyze and, if appropriate, correct any timely allegations of significant ministerial errors by amending the preliminary determination. However, consistent with 19 CFR 351.224(d), Commerce will not consider incomplete allegations that do not address the significance standard under 19 CFR 351.224(g) following the preliminary determination. Instead, Commerce will address such allegations in the final determination together with issues raised in the case briefs or other written comments.

Verification

As provided in section 782(i)(1) of the Act, Commerce intends to verify the information relied upon in making its final determination.

Public Comment

Case briefs or other written comments may be submitted to the Assistant Secretary for Enforcement and Compliance no later than seven days after the date on which the last verification report is issued in this investigation. Rebuttal briefs, limited to issues raised in the case briefs, may be filed not later than five days after the date for filing case briefs.¹³ Interested parties who submit case briefs or rebuttal briefs in this proceeding must submit: (1) a table of contents listing each issue; and (2) a table of authorities.¹⁴

As provided under 19 CFR 351.309(c)(2) and (d)(2), in prior proceedings we have encouraged interested parties to provide an executive summary of their brief that should be limited to five pages total, including footnotes. In this investigation, we instead request that interested parties provide at the beginning of their briefs a public, executive summary for each issue raised in their briefs.¹⁵ Further, we request that interested parties limit their executive summary of each issue to no more than 450 words, not including citations. We intend to use the executive summaries as the basis of the comment summaries included in the issues and decision memorandum that will accompany the final determination in this investigation. We request that interested parties include footnotes for relevant citations

¹³ See 19 CFR 351.309(d); see also *Administrative Protective Order, Service, and Other Procedures in Antidumping and Countervailing Duty Proceedings*, 88 FR 67069, 67077 (September 29, 2023) (*APO and Service Final Rule*).

¹⁴ See 19 CFR 351.309(c)(2) and (d)(2).

¹⁵ We use the term “issue” here to describe an argument that Commerce would normally address in a comment of the Issues and Decision Memorandum.

in the executive summary of each issue. Note that Commerce has amended certain of its requirements pertaining to the service of documents in 19 CFR 351.303(f).¹⁶

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, limited to issues raised in the case and rebuttal briefs, must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce, within 30 days after the date of publication of this notice. Requests should contain 1) the party’s name, address, and telephone number; 2) the number of participants and whether any participant is a foreign national; and 3) a list of the issues to be discussed. If a request for a hearing is made, Commerce intends to hold the hearing at a time and date to be determined. Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

Postponement of Final Determination and Extension of Provisional Measures

Section 735(a)(2) of the Act provides that a final determination may be postponed until not later than 135 days after the date of the publication of the preliminary determination if, in the event of an affirmative preliminary determination, a request for such postponement is made by exporters who account for a significant proportion of exports of the subject merchandise, or in the event of a negative preliminary determination, a request for such postponement is made by the petitioner. Section 351.210(e)(2) of Commerce’s regulations requires that a request by exporters for postponement of the final determination be accompanied by a request for extension of provisional measures from a four-month period to a period not more than six months in duration.

On October 15, 2024, pursuant to 19 CFR 351.210(e), AIA requested that Commerce postpone the final determination and that provisional measures be extended to a period not to exceed six months.¹⁷ In accordance with section 735(a)(2)(A) of the Act and 19 CFR 351.210(b)(2)(ii), because: (1) the preliminary determination is affirmative; (2) the requesting exporter accounts for a significant proportion of exports of the subject merchandise; and (3) no compelling reasons for denial exist, Commerce is postponing the final determination and extending the provisional measures from a four-month

¹⁶ See *APO and Service Final Rule*.

¹⁷ See AIA’s Letter, “Request to Postpone Final Determination,” dated October 15, 2024.

period to a period not greater than six months. Accordingly, Commerce will make its final determination no later than 135 days after the date of publication of this preliminary determination.

U.S. International Trade Commission (ITC) Notification

In accordance with section 733(f) of the Act, Commerce will notify the ITC of its preliminary determination. If the final determination is affirmative, the ITC will determine before the later of 120 days after the date of this preliminary determination or 45 days after the final determination whether these imports are materially injuring, or threaten material injury to, the U.S. industry.

Notification to Interested Parties

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act, and 19 CFR 351.205(c).

Dated: November 29, 2024.

Steven Presing,

Acting Deputy Assistant Secretary for Policy and Negotiations.

Appendix I

Scope of the Investigation

The scope of this investigation covers chrome cast iron grinding media in spherical (ball) or ovoid shape, with an alloy composition of seven percent or more (≥ 7 percent of total mass) chromium (Cr) content and produced through the casting method, with a nominal diameter of up to 127 millimeters (mm) and tolerance of plus or minus 10 mm. The products covered by the scope are currently classified under Harmonized Tariff Schedule of the United States (HTSUS) subheading 7325.91.0000. This HTSUS subheading is provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

[C–570–177]

Certain Low Speed Personal Transportation Vehicles From the People's Republic of China: Preliminary Affirmative Countervailing Duty Determination, Preliminary Affirmative Determination of Critical Circumstances, in Part, and Alignment of Final Determination With Final Antidumping Duty Determination

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) preliminarily determines that countervailable subsidies are being provided to producers and exporters of certain low speed personal transportation vehicles (LSPTVs) from the People's Republic of China (China). The period of investigation (POI) is January 1, 2023, through December 31, 2023. Interested parties are invited to comment on this preliminary determination.

DATES: Applicable December 6, 2024.

FOR FURTHER INFORMATION CONTACT: Dan Alexander, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–4313.

SUPPLEMENTARY INFORMATION:

Background

This preliminary determination is made in accordance with section 703(b) of the Tariff Act of 1930, as amended (the Act). Commerce published the notice of initiation of this countervailing duty (CVD) investigation on July 16, 2024.¹ On July 25, 2024, Commerce tolled certain deadlines in this administrative proceeding by seven days.² On September 10, 2024, Commerce postponed the preliminary determination until November 25, 2024.³

For a complete description of events that followed the initiation of this investigation, *see* the Preliminary

Decision Memorandum.⁴ A list of topics discussed in the Preliminary Decision Memorandum is included as Appendix II to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Scope of the Investigation

The products covered by this investigation are LSPTVs from China. For a complete description of the scope of this investigation, *see* Appendix I.

Scope Comments

In accordance with the *Preamble* to Commerce's regulations,⁵ in the *Initiation Notice* Commerce set aside a period of time for parties to raise issues regarding product coverage (*i.e.*, scope).⁶ Certain interested parties commented on the scope of the less-than-fair-value (LTFV) and CVD investigations as it appeared in the *Initiation Notice*. Commerce preliminarily determined to modify the scope of this investigation to include one additional Harmonized Tariff Schedule of the United States Subheading (*i.e.* 8703.10.5060). *See* the scope in Appendix I to this notice. Additionally, Commerce is proposing certain modifications to the language of the scope of these LTFV and CVD investigations and invite interested parties to submit comments. For further discussion, *see* the Preliminary Scope Modification Memorandum.⁷

Methodology

Commerce is conducting this investigation in accordance with section 701 of the Act. For each of the subsidy programs found to be countervailable, Commerce preliminarily determines

⁴ *See* Memorandum, "Decision Memorandum for the Preliminary Affirmative Determination of the Countervailing Duty Investigation of Certain Low Speed Personal Transportation Vehicles from the People's Republic of China," dated concurrently with, and hereby adopted by, this notice (Preliminary Decision Memorandum).

⁵ *See* *Antidumping Duties; Countervailing Duties, Final Rule*, 62 FR 27296, 27323 (May 19, 1997) (*Preamble*).

⁶ *See* *Initiation Notice*, 89 FR at 49834.

⁷ *See* Memorandum, "Less-Than-Fair-Value and Countervailing Duty Investigations of Certain Low Speed Personal Transportation Vehicles from the People's Republic of China: Preliminary Scope Modification Memorandum," dated concurrently with this notice (Preliminary Scope Modification Memorandum).

¹ *See* *Certain Low Speed Personal Transportation Vehicles from the People's Republic of China: Initiation of Countervailing Duty Investigation*, 89 FR 73371 (July 16, 2024) (*Initiation Notice*).

² *See* Memorandum, "Tolling of Deadlines for Antidumping and Countervailing Duty Proceedings," dated July 25, 2024.

³ *See* *Certain Low Speed Personal Transportation Vehicles from the People's Republic of China: Postponement of Preliminary Determination in the Countervailing Duty Investigation*, 89 FR 73371 (September 10, 2024).

that there is a subsidy, *i.e.*, a financial contribution by an “authority” that gives rise to a benefit to the recipient, and that the subsidy is specific.⁸ For a full description of the methodology underlying our preliminary determination, *see* the Preliminary Decision Memorandum.

Commerce notes that, in making these findings, it relied, in part, on facts available, and, because it finds that certain respondents and the Government of China did not act to the best of their ability to respond to Commerce’s requests for information, it drew an adverse inference where appropriate in selecting from among the facts otherwise available.⁹ For further information, *see* the “Use of Facts Otherwise Available and Adverse Inferences” section in the Preliminary Decision Memorandum.

Preliminary Affirmative Determination of Critical Circumstances, in Part

In accordance with section 703(e)(1) of the Act, we preliminarily find that critical circumstances exist with respect to imports of subject merchandise from Guangdong Lvtong New Energy Electric Vehicle Technology Co., Ltd. (Lvtong), and the companies who did not respond to our quantity and value (Q&V) questionnaire (*i.e.*, the non-responsive companies).¹⁰ We also preliminarily find that critical circumstances do not exist with respect to imports of subject merchandise from Xiamen Dalle New Energy Automobile Co., Ltd (Xiamen Dalle) and all other producers and/or exporters. For a full discussion of our preliminary critical circumstances determination, *see* the “Preliminary

Critical Circumstances” section of the Preliminary Decision Memorandum.

Alignment

In accordance with section 705(a)(1) of the Act and 19 CFR 351.210(b)(4), Commerce is aligning the final CVD determination in this investigation with the final determination in the concurrent LTFV investigation of LSPTVs from China, based on a request made by the petitioner.¹¹ Consequently, the final CVD determination will be issued on the same date as the final LTFV determination, which is currently scheduled to be issued no later than April 8, 2025, unless postponed.¹²

All-Others Rate

Sections 703(d) and 705(c)(5)(A) of the Act provide that, in the preliminary determination, Commerce shall determine an estimated all-others rate for companies not individually examined. This rate shall be an amount equal to the weighted average of the estimated subsidy rates established for those companies individually examined, excluding any rates that are zero, *de minimis*, or based entirely under section 776 of the Act.

In this investigation, Commerce preliminarily calculated total net subsidy rates for Xiamen Dalle and Lvtong that are not zero, *de minimis*, or based entirely on the facts otherwise available. Because Commerce calculated individual estimated countervailable subsidy rates for Xiamen Dalle and Lvtong that are not zero, *de minimis*, or based entirely on the facts otherwise available, we have preliminarily calculated the all-others rate using a

simple-average of the individual subsidy rates calculated for the examined respondents (*i.e.*, 22.04 percent).¹³

Rate for Non-Responsive Companies

Two potential exporters and/or producers of LSPTVs from China did not respond to Commerce’s Q&V questionnaire.¹⁴ We find that, by not responding to the Q&V questionnaire, these companies withheld requested information and significantly impeded this proceeding. Thus, in reaching our preliminary determination, pursuant to sections 776(a)(2)(A) and (C) of the Act, we are basing the subsidy rate for the non-responsive companies on facts otherwise available.

We further preliminarily determine that an adverse inference is warranted, pursuant to section 776(b) of the Act. By failing to submit responses to Commerce’s Q&V questionnaire, the non-responsive companies did not cooperate to the best of their ability in this investigation. Accordingly, we preliminarily find that an adverse inference is warranted to ensure that the non-responsive companies will not obtain a more favorable result than had they fully complied with our request for information. For more information on the application of adverse facts available to the non-responsive companies, *see* “Use of Facts Otherwise Available and Adverse Inferences” in the Preliminary Determination Memorandum.

Preliminary Determination

Commerce preliminarily determines that the following estimated countervailable subsidy rates exist:

Company	Subsidy rate (percent <i>ad valorem</i>)
Guangdong Lvtong New Energy Electric Vehicle Technology Co., Ltd	22.84
Hebei Machinery Import and Export Co., LTD	* 515.37
Shandong Odes Industry Co. Ltd	* 515.37
Xiamen Dalle New Energy Automobile Co., Ltd	21.23
All Others	22.04

* Rate based on facts available with adverse inferences.

Disclosure

Commerce intends to disclose to interested parties its calculations and analysis performed in connection with this preliminary determination within

five days of its public announcement or, if there is no public announcement, within five days of the date of publication of this notice in the **Federal**

Register, accordance with 19 CFR 351.224(b).

Consistent with 19 CFR 351.224(e), Commerce will analyze and, if appropriate, correct any timely

⁸ See sections 771(5)(B) and (D) of the Act regarding financial contribution; section 771(5)(E) of the Act regarding benefit; and section 771(5A) of the Act regarding specificity.

⁹ See sections 776(a) and (b) of the Act.

¹⁰ The companies that failed to respond to Commerce’s Q&V questionnaire are: (1) Shandong Odes Industry Co. Ltd.; and (2) Hebei Machinery Import and Export Co., Ltd.

¹¹ See Petitioner’s Letter, “Request to Align Countervailing Duty Investigation Final Determination with Antidumping Duty Investigation Final Determination,” dated November 12, 2024.

¹² See *Low Speed Personal Transportation Vehicles from the People’s Republic of China: Postponement of Preliminary Determination in the*

Less-Than-Fair Value Investigation, 89 FR 89591 (November 13, 2024) (*LTFV Postponement*).

¹³ See Memorandum, “Calculation of Subsidy Rate for All Others,” dated concurrently with this notice.

¹⁴ As noted above, these companies are: (1) Shandong Odes Industry Co. Ltd.; and (2) Hebei Machinery Import and Export Co., Ltd.

allegations of significant ministerial errors by amending the preliminary determination. However, consistent with 19 CFR 351.224(d), Commerce will not consider incomplete allegations that do not address the significance standard under 19 CFR 351.224(g) following the preliminary determination. Instead, Commerce will address such allegations in the final determination together with issues raised in the case briefs or other written comments.

Suspension of Liquidation

With the exception of Lvtong and the non-responsive companies, in accordance with section 703(d)(1)(B) and (d)(2) of the Act, Commerce will direct U.S. Customs and Border Protection (CBP) to suspend liquidation of entries of subject merchandise, as described in the scope of the investigation, entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**. Further, pursuant to 19 CFR 351.205(d), Commerce will instruct CBP to require a cash deposit equal to the rates indicated above.

Section 703(e)(2) of the Act provides that, given an affirmative determination of critical circumstances, any suspension of liquidation shall apply to unliquidated entries of merchandise entered, or withdrawn from warehouse, for consumption on or after the later of: (a) the date which is 90 days before the date on which the suspension of liquidation was first ordered; or (b) the date on which notice of initiation of the investigation was published. Commerce preliminarily finds that critical circumstances exist for imports of subject merchandise produced and/or exported by Lvtong and the non-responsive companies (*i.e.*, Shandong Odes Industry Co. Ltd. and Hebei Machinery Import and Export Co., Ltd.). In accordance with section 703(e)(2)(A) of the Act, the suspension of liquidation shall apply to unliquidated entries of merchandise from the exporters/producers identified in this paragraph that were entered, or withdrawn from warehouse, for consumption on or after the date which is 90 days before the publication of this notice.

Verification

As provided in section 782(i)(1) of the Act, Commerce intends to verify the information relied upon in making its final determination.

Public Comment

As discussed above, Commerce is proposing certain modifications to the language of the scope of these LTFV and

CVD investigations and invites interested parties to submit comments. Commerce intends to issue our preliminary decision regarding the proposed scope modifications no later than January 23, 2025, the date of the preliminary determination in the companion LTFV investigation.¹⁵ All interested parties will have the opportunity to submit scope case and rebuttal briefs, and we will establish a briefing schedule to allow interested parties to comment on our preliminary scope decision at that time. For all scope case and rebuttal briefs, parties must file identical documents simultaneously on the records of the ongoing LTFV and CVD investigations of LSPTVs from China. No new factual information or business proprietary information may be included in either scope case or rebuttal briefs.

Case briefs or other written comments regarding non-scope issues may be submitted to the Assistant Secretary for Enforcement and Compliance no later than seven days after the date on which the last verification report is issued in this investigation. Rebuttal briefs, limited to issues raised in the case briefs, may be filed not later than five days after the date for filing case briefs.¹⁶ Interested parties who submit case or rebuttal briefs in this proceeding must submit: (1) a table of contents listing each issue; and (2) a table of authorities.¹⁷

As provided under 19 CFR 351.309(c)(2) and (d)(2), in prior proceedings we have encouraged interested parties to provide an executive summary of their brief that should be limited to five pages total, including footnotes. In this investigation, we instead request that interested parties provide at the beginning of their briefs a public executive summary for each issue raised in their briefs.¹⁸ Further, we request that interested parties limit their public executive summary of each issue to no more than 450 words, not including citations. We intend to use the public executive summaries as the basis of the comment summaries included in the issues and decision memorandum that will accompany the final determination in this investigation. We request that

¹⁵ See *LTFV Postponement*.

¹⁶ See 19 CFR 351.309(d); see also *Administrative Protective Order, Service, and Other Procedures in Antidumping and Countervailing Duty Proceedings*, 88 FR 67069, 67077 (September 29, 2023) (*APO and Service Final Rule*).

¹⁷ See 19 CFR 351.309(c)(2) and (d)(2).

¹⁸ We use the term “issue” here to describe an argument that Commerce would normally address in a comment of the Issues and Decision Memorandum.

interested parties include footnotes for relevant citations in the executive summary of each issue. Note that Commerce has amended certain of its requirements pertaining to the service of documents in 19 CFR 351.303(f).¹⁹

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, limited to issues raised in the case and rebuttal briefs, must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce via ACCESS within 30 days after the date of publication of this notice. Requests should contain (1) the party's name, address, and telephone number; (2) the number of participants and whether any participant is a foreign national; and (3) a list of the issues to be discussed. Oral presentations at the hearing will be limited to issues raised in the briefs. If a request for a hearing is made, parties will be notified of the time and date for the hearing.²⁰ Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

All submissions, including case and rebuttal briefs, as well as hearing requests, should be filed using ACCESS. An electronically-filed document must be received successfully in its entirety by ACCESS by 5:00 p.m. Eastern Time on the established deadline.

U.S. International Trade Commission (ITC) Notification

In accordance with section 703(f) of the Act, Commerce will notify the ITC of its determination. If the final determination is affirmative, the ITC will determine before the later of 120 days after the date of this preliminary determination or 45 days after the final determination whether imports of LSPTVs from China are materially injuring, or threaten material injury to, the U.S. industry.

Notification to Interested Parties

This determination is issued and published in accordance with sections 703(f) and 777(i)(1) of the Act, and 19 CFR 351.205(c).

Dated: November 25, 2024.

Abdelali Elouaradia,

Deputy Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

The merchandise covered by this investigation consists of certain low speed personal transportation vehicles (LSPTV) and

¹⁹ See *APO and Service Final Rule*, 88 FR at 67069.

²⁰ See 19 CFR 351.310(d).

subassemblies thereof, whether finished or unfinished and whether assembled or unassembled, with or without tires, wheels, seats, steering columns and steering wheels, canopies, roofs, or batteries. LSPTVs meeting this description are generally open-air vehicles with a minimum of four wheels, a steering wheel, a traditional side-by-side or in-line row seating arrangement (*i.e.*, non-straddle), foot operated accelerator and brake pedals, and a gross vehicle weight of no greater than 5,500 pounds. The main power source for subject LSPTVs is either an electric motor and battery (including but not limited to lithium-ion batteries, lithium phosphate batteries, lead acid batteries, and absorbed glass mat batteries) or a gas-powered internal combustion engine. Subject LSPTVs may be described as golf carts, golf cars, low speed vehicles, personal transportation vehicles, or light utility vehicles.

LSPTVs subject to this investigation typically have a maximum top nameplate speed of no greater than 25 miles per hour as required by federal, state, and local laws and regulations. Subject LSPTVs with a maximum top nameplate speed greater than 20 miles per hour normally must comply with the U.S. Department of Transportation's Federal Motor Vehicle Safety Standards for Low-Speed Vehicles set forth in 49 CFR 571.500. LSPTVs that otherwise meet the physical description of this scope but are not certified under 49 CFR 571.500 and are not certified under other sections of subpart B of the Federal Motor Vehicle Safety Standards (49 CFR part 571), are not excluded from this investigation. LSPTVs that are certified under both 49 CFR 571.500 and other sections of subpart B of the Federal Motor Vehicle Safety Standards remain subject to the scope of this investigation. Subject LSPTVs that have a maximum top nameplate speed of less than 25 miles per hour may be certified to the SAE International (SAE) standards SAE J2258 and SAE J2358. LSPTVs that have a maximum top nameplate speed of less than 20 miles per hour may also be certified to the Outdoor Power Equipment Institute (OPEI) standards OPEI Z130.1 and OPEI Z135.

An unfinished and/or unassembled LSPTV subject to this investigation covers at a minimum a subassembly, also known as a "rolling chassis," which is typically comprised of, but not limited to, a frame or body with front and/or rear suspension components (such as arms, springs, axles, spindles, and shafts) installed and powertrain components (including either an electric motor or a gas-powered internal combustion engine) installed or ready for installation.

When imported together with a rolling chassis subject to this investigation, other LSPTV components, such as batteries, bumpers, wheel and tire assemblies, cowlings, fenders, grills, kick plates, steering column and steering wheel assemblies, dash assembly, seat assemblies, pedal assemblies, brake assemblies, canopy or roof assemblies, temporary rain enclosures, windshields, mirrors, headlights, taillights, lighting systems, or storage—whether assembled or unassembled, whether as part of a kit or not, and whether or not accompanied by

additional components—constitute part of an unfinished and/or unassembled LSPTV that is subject to this investigation. The inclusion of other products, components, or assemblies not described here does not remove the product from the scope.

Subject LSPTVs and subassemblies are covered by the scope of this investigation whether or not they are accompanied by other parts. This investigation covers all LSPTVs and subassemblies meeting the physical description of the scope, regardless of overall length, width, or height. Individual components that do not comprise a subject LSPTV or subassembly that are entered and sold by themselves are not subject to the investigation, but components entered with a LSPTV or subassembly, whether finished or unfinished and whether assembled or unassembled, are subject merchandise.

LSPTVs and subassemblies subject to this investigation include those that are produced in the subject country whether assembled with other components in the subject country or in a third country. Processing or completion of finished and unfinished LSPTVs and subassemblies either in the subject country or in a third country does not remove the product from the scope.

Specifically excluded from the scope of this investigation are all-terrain vehicles (which typically have straddle seating and are steered by handlebars), multipurpose off-highway utility vehicles (which typically have a maximum top nameplate speed of greater than 25 miles per hour), and recreational off-highway vehicles (which typically have a maximum top nameplate speed of greater than 30 miles per hour). Also excluded from the scope are go-karts, electric scooters, golf trolleys, and mobility aids (which include power wheelchairs and scooters which are used for the express purpose of enabling mobility for a person).

The LSPTVs subject to the investigation are typically classified in the Harmonized Tariff Schedule of the United States (HTSUS) at subheading 8703.10.5030. LSPTVs subject to the investigation may also enter under HTSUS subheading 8703.10.5060 and 8703.90.0100. The LSPTV subassemblies that are subject to the investigation typically enter under HTSUS subheadings 8706.00.1540 and 8707.10.0040. The HTSUS subheadings are provided for convenience and customs purposes only, and the written description of the merchandise subject to the investigation is dispositive.

International Trade Administration

[C–570–089]

Steel Racks and Parts Thereof From the People's Republic of China: Final Results of the Expedited Sunset Review of the Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) finds that revocation of the countervailing duty (CVD) order on steel racks and parts thereof (steel racks) from the People's Republic of China (China) would be likely to lead to continuation or recurrence of countervailable subsidies at the levels indicated in the "Final Results of the Sunset Review" section of this notice.

DATES: Applicable December 6, 2024.

FOR FURTHER INFORMATION CONTACT: Stephanie Trejo, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–4390.

SUPPLEMENTARY INFORMATION:

Background

On September 16, 2019, Commerce published the *Order* on steels racks from China.¹ On August 1, 2024, Commerce published the notice of initiation of the first sunset review of the *Order*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.218(c).² On August 16, 2024, Commerce received a notice of intent to participate in this review from the Coalition for Fair Rack Imports (CFRI), the domestic interested party, within the 15-day deadline specified in 19 CFR 351.218(d)(1)(i).³ CFRI claimed interested party status within the meaning of section 771(9)(E) of the Act

¹ See *Certain Steel Racks and Parts Thereof From the People's Republic of China: Amended Final Affirmative Antidumping Duty Determination and Antidumping Duty Order; and Countervailing Duty Order*, 84 FR 48584 (September 16, 2019) (*Order*).

² See *Initiation of Five-Year (Sunset) Reviews*, 89 FR 62717 (August 1, 2024).

³ See CFRI's Letter, "Notice of Intent to Participate in the First Five-Year Review of the Countervailing Duty Order on Certain Steel Racks and Parts Thereof from the People's Republic of China," dated August 16, 2024.

and 19 CFR 351.102(b)(17) as a trade or business association a majority of whose members manufacture, produce, or wholesale a domestic like product in the United States.⁴

On September 3, 2024, Commerce received an adequate substantive response from CFRI, within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).⁵ Commerce did not receive a substantive response from either the Government of China or any respondent interested party to this proceeding. On September 24, 2024, Commerce notified the U.S. International Trade Commission that it did not receive an adequate substantive response from any respondent interested parties.⁶ As a result, Commerce conducted an expedited (120-day) sunset review of the *Order*, pursuant to section 751(c)(3)(B) of the

Act and 19 CFR 351.218(e)(1)(ii)(B)(2) and (C)(2).

Scope of the Order

The merchandise covered by this *Order* is steel racks. For a complete description of the scope of the *Order*, see the Issues and Decision Memorandum.⁷

Analysis of Comments Received

A complete discussion of all issues raised in this sunset review, including the likelihood of continuation or recurrence of subsidization in the event of revocation of the *Order* and the countervailable subsidy rates likely to prevail if the *Order* were to be revoked, is provided in the Issues and Decision Memorandum. A list of the topics discussed in the Issues and Decision Memorandum is attached as an

appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS), which is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Final Results of Sunset Review

Pursuant to sections 751(c) and 752(b) of the Act, we determine that revocation of the *Order* would be likely to lead to continuation or recurrence of countervailable subsidies at the following net subsidy rates:

Company	Subsidy rate (percent ad valorem)
Designa Inc	102.23
Dongguan Baike Electronic Co., Ltd	102.23
Ezidone Display Corp. Ltd	102.23
Fenghua Huige Metal Products Co., Ltd	102.23
Formost Plastic Metal Works (Jiaxing) Co., Ltd	102.23
Jiangsu Kingmore Storage Equipment Manufacturing Co., Ltd	102.23
Nanjing Dongsheng Shelf Manufacturing Co., Ltd	1.50
Nanjing Huade Storage Equipment Manufacture Co., Ltd	102.23
Ningbo Bocheng Home Products Co., Ltd	102.23
Ningbo Joys Imp. & Exp. Co., Ltd	102.23
Ningbo Li Zhan Import & Export Co	102.23
Qingdao Haineng Hardware Products Co., Ltd	102.23
Qingdao Huatian Hand Truck Co., Ltd	102.23
Qingdao Zeal-Line Stainless Steel Products Co., Ltd	102.23
Seven Seas Furniture Industrial (Xiamen) Co., Ltd	102.23
Shijiazhuang Wells Trading & Mfg. Co., Ltd	102.23
Tangshan Apollo Energy Equipment Company	102.23
All Others	1.50

Administrative Protective Order (APO)

This notice serves as the only reminder to parties subject to an APO of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

First Sunset Review of the Countervailing Duty Order on Steel Racks and Parts Thereof from the People’s Republic of China,” dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

DEPARTMENT OF COMMERCE**International Trade Administration****Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Surveys for User Satisfaction, Impact and Needs**

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on September 10, 2024, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: International Trade Administration, Commerce.

Title: Surveys for User Satisfaction, Impact and Needs.

OMB Control Number: 0625–0275.

Form Number(s): None.

Type of Request: Renewal submission with revision to a currently approved collection.

Number of Respondents: 44,149.

Average Hours per Response: 30 minutes.

Burden Hours: 22,075.

Needs and Uses: The International Trade Administration provides a multitude of international trade related programs to help U.S. businesses. These programs include information products, services, and trade events. To accomplish its mission effectively, ITA needs ongoing feedback on its programs. This information collection instrument allows ITA to solicit customer opinions about their use of and engagement with ITA websites, programs, products, services, and events. To promote optimal use and provide focused and effective improvements to ITA programs, we are requesting approval for this clearance package; including: use of Comment Cards (*i.e.* transactional-based surveys) to collect feedback immediately after ITA assistance is provided to customers; use of annual surveys (*i.e.* relationship-based surveys) to gauge overall satisfaction, impact and needs for customers with ITA assistance provided over a period time. Without this

information, ITA is unable to systematically determine the actual and relative levels of performance for its programs and products/services and to provide clear, actionable insights for managerial intervention. This information will be aggregated as part of ITA's Voice of Customer (VOC) program, an enterprise approach to analyze, report and act on customer feedback captured across key touchpoints. ITA will use this data for continued evaluation and improvement, strategic planning, allocation of resources, stakeholder reporting, and to ultimately improve customer experiences.

Affected Public: Individuals or households; Business or other for-profit organizations, Not-for-profit institutions.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

Legal Authority: 15 U.S.C. 1512 *et seq.* and 15 U.S.C. 171 *et seq.*

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0625–0275.

Sheleen Dumas,

Departmental PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

Certain Steel Racks and Parts Thereof From the People's Republic of China: Final Results of the Expedited First Sunset Review of the Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of this expedited first sunset review, the U.S. Department of Commerce (Commerce) finds that

revocation of the antidumping duty (AD) order on steel racks from the People's Republic of China (China) would likely lead to continuation or recurrence of dumping at the level indicated in the "Final Results of Expedited Sunset Review" section of this notice.

DATES: Applicable December 6, 2024.

FOR FURTHER INFORMATION CONTACT: Howard Smith, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–5193.

SUPPLEMENTARY INFORMATION:**Background**

After Commerce initiated this sunset review¹ of the *Order*,² pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act), domestic interested parties³ timely submitted a notices of intent to participate in the sunset review,⁴ and an adequate substantive response regarding the sunset review.⁵ The domestic interested parties claimed interested party status under section 771(9)(E) of the Act as a trade association of domestic producers of steel racks.⁶ Commerce did not receive a substantive response from any respondent interested party, nor was a hearing requested. Consequently, on September 24, 2024, Commerce notified the U.S. International Trade Commission that it did not receive an adequate substantive response from any respondent interested parties.⁷ As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), Commerce conducted an expedited (120-day) sunset review of the *Order*. The

² See *Certain Steel Racks and Parts Thereof from the People's Republic of China: Amended Final Affirmative Antidumping Duty Determination and Antidumping Duty Order*, 84 FR 48584 (September 16, 2019) (*Order*).

³ The domestic interested parties are part of a coalition, Coalition for Fair Rack Imports ("CFRI"). The members of CFRI are Heartland Steel Products, Speed Rack Products Group, Ltd, Husky Rack and Wire, Steel King Industries Inc., Nucor Warehouse Systems, Tri-Boro Shelving & Partition Corp., Ridg-U-Rack, and UNARCO Material Handling, Inc.

⁴ See Coalition for Fair Rack Imports' Letter, "Notice of Intent to Participate in the First Five-Year Review," dated August 16, 2024, (Domestic Interested Parties' Intent to Participate).

⁵ See Domestic Interested Parties' Letter, "Substantive Response to Notice of Initiation," dated September 3, 2024 (Domestic Interested Parties' Substantive Response).

⁶ See Domestic Interested Parties' Intent to Participate.

⁷ See Commerce's Letter, "Sunset Reviews Initiated on August 1, 2024," dated September 24, 2024; see also 19 CFR 351.218(3)(1)(ii)(C)(1).

deadline for the final results of this expedited sunset review is now November 29, 2024.

Scope of the Order

The merchandise subject to the *Order* is steel racks from China. For a complete description of the scope of the *Order*, see the Issues and Decisions Memorandum.⁸

Analysis of Comments Received

A complete discussion of all issues raised in this sunset review, including the likelihood of continuation or recurrence of dumping and the magnitude of the dumping margin likely to prevail if the *Order* were to be revoked, is provided in the accompanying Issues and Decision Memorandum.⁹ A list of the sections in the Issues and Decision Memorandum is in the appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically *via* Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Final Results of Expedited Sunset Review

Pursuant to sections 751(c)(1) and 752(c)(1) and (3) of the Act, Commerce determines that revocation of the *Order* would likely lead to continuation or recurrence of dumping, and that the magnitude of the dumping margins likely to prevail are weighted-average dumping margins up to 144.50 percent.

Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a). Timely notification of the return or destruction of APO materials or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

⁸ See Memorandum, "Issues and Decision Memorandum for the Final Results of the Expedited Sunset Review of the Antidumping Duty Order on Steel Racks from the People's Republic of China," dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

⁹ *Id.*

Notification to Interested Parties

We are issuing, and publishing notice of, the results of this sunset review in accordance with sections 751(c), 752(c), and 777(i)(1) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2) and 19 CFR 351.221(c)(5)(ii).

Dated: November 29, 2024.

Steven Presing,

Acting Deputy Assistant Secretary for Policy and Negotiations.

BILLING CODE 3510–DS–P

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Proposed Additions and Deletions and Correction

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Proposed additions to and deletions from the Procurement List and correction to previous Notice.

SUMMARY: The Committee is proposing to add service(s) to the Procurement List that will be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities, deletes product(s) and service(s) previously furnished by such agencies and correct a previous Notice.

DATES: Comments must be received on or before: January 05, 2025.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, 355 E Street SW, Suite 325, Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT: For further information or to submit comments contact: Mike Jurkowski, Telephone: (703) 489–1322, or email CMTEFedReg@AbilityOne.gov.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 8503(a)(2) and 41 CFR 51–2.3. Its purpose is to provide interested persons an opportunity to submit comments on the proposed actions.

Additions

In accordance with 41 CFR 51–5.3(b), the Committee intends to add this services requirement to the Procurement List as a mandatory purchase only for the contracting activity and location listed below with the proposed qualified nonprofit agency as the authorized source of supply. Prior to adding the service to the Procurement List, the Committee will consider other pertinent information, including information from Government personnel and relevant comments from interested parties regarding the Committee's intent to geographically limit this services requirement.

If the Committee approves the proposed additions, the entities of the Federal Government identified in this notice will be required to procure the service(s) listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

The following service(s) are proposed for addition to the Procurement List for production by the nonprofit agencies listed:

Service(s)

Service Type: Custodial Service
Mandatory for: US Air Force, Goodfellow AFB, TX
Authorized Source of Supply: Work Services Corporation
Contracting Activity: US Air Force FA3030 17 CONS CC

Deletions

The following product(s) and service(s) are proposed for deletion from the Procurement List:

Product(s)

NSN(s)—Product Name(s):
 7510–01–579–9321—Binder, Removable Slant-D Rings, 100% Recyclable, Turned Edge, Blue, 1½" Capacity, Letter
Authorized Source of Supply: South Texas Lighthouse for the Blind, Corpus Christi, TX
Contracting Activity: GSA/FAS ADMIN SVCS ACQUISITION BR(2, NEW YORK, NY
Contracting Activity: STRATEGIC ACQUISITION CENTER, FREDERICKSBURG, VA

Service(s)

Service Type: Mail and Messenger Service
Mandatory for: US Army, Tobyhanna Army Depot, Tobyhanna, PA; 11 Hap Arnold Boulevard; Tobyhanna, PA
Authorized Source of Supply: The Burnley Workshop of the Poconos, Inc., Stroudsburg, PA
Contracting Activity: DEPT OF THE ARMY, WOML USA DEP TOBYHANNA

Correction

On November 8, 2024 the Committee announced in an initial **Federal Register**

Notice (89 FR 88738) the deletion of the products listed below. That Notice was incorrect, these items will not be deleted from the Procurement List.

NSN(s)—Product Name(s):

8415-01-623-5052—Coat, Army Combat Uniform, Permethrin, Unisex, OCP 2015, XS-XXS

BILLING CODE 6353-01-P

DEPARTMENT OF EDUCATION

[Docket No.: ED-2024-SCC-0120]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Servicemembers Civil Relief Act (SCRA): Interest Rate Limitation Request

AGENCY: Federal Student Aid (FSA), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Department is proposing an extension without change of a currently approved information collection request (ICR).

DATES: Interested persons are invited to submit comments on or before January 6, 2025.

ADDRESSES: Written comments and recommendations for proposed information collection requests should be submitted within 30 days of publication of this notice. Click on this link www.reginfo.gov/public/do/PRAMain to access the site. Find this information collection request (ICR) by selecting “Department of Education” under “Currently Under Review,” then check the “Only Show ICR for Public Comment” checkbox. Reginfo.gov provides two links to view documents related to this information collection request. Information collection forms and instructions may be found by clicking on the “View Information Collection (IC) List” link. Supporting statements and other supporting documentation may be found by clicking on the “View Supporting Statement and Other Documents” link.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Beth Grebeldinger, 202-570-8414.

SUPPLEMENTARY INFORMATION: The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Servicemembers Civil Relief Act (SCRA): Interest Rate Limitation Request.

OMB Control Number: 1845–0135.

Type of Review: An extension without change of a currently approved ICR.

Respondents/Affected Public: Individuals and Households.

Total Estimated Number of Annual Responses: 200.

Total Estimated Number of Annual Burden Hours: 67.

Abstract: The Servicemembers Civil Relief Act (SCRA) provides that those on active-duty military service are entitled to have an interest rate in excess of 6% be capped at 6% for the duration of their qualifying military service. The Department is requesting an extension of the currently approved information collection. These Federal Family Education Loan (FFEL) Program and Direct Loan Program regulations have not changed. The regulations require a loan holder to match its database against the Department of Defense's Defense Manpower Data Center (DMDC) and automatically apply the interest rate limitation, as appropriate, to borrowers under the Servicemembers Civil Relief Act. The form in this collection would only be used in limited cases where the borrower is not found in the Defense Manpower Data Center, or does not have a copy of military orders, but still wishes to receive benefits under the SCRA.

Dated: December 3, 2024.

Kun Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

[FR Doc. 2024–28574 Filed 12–5–24; 8:45 am]

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

Energy Information Administration

Agency Information Collection Proposed Extension

AGENCY: U.S. Energy Information Administration (EIA), Department of Energy (DOE).

ACTION: Notice and request for comments.

SUMMARY: EIA invites public comment on the proposed three-year extension, with changes, to the Generic Clearance for Questionnaire Testing, Evaluation, and Research, as required under the Paperwork Reduction Act of 1995. EIA–882T, *Generic Clearance for*

Questionnaire Testing, Evaluation, and Research, provides EIA with the authority to utilize qualitative and quantitative methodologies to pretest questionnaires and validate the quality of data collected on EIA's surveys. EIA uses EIA–882T to meet its obligation to publish, and otherwise make available independent, high-quality statistical data to federal government agencies, state and local governments, the energy industry, researchers, and the general public.

DATES: EIA must receive all comments on this proposed information collection no later than February 4, 2025. If you anticipate any difficulties in submitting your comments by the deadline, contact the person listed in the **ADDRESSES** section of this notice as soon as possible.

ADDRESSES: You may submit comments, identified by OMB control number 1905–0186, by email at EIA-FRNcomments@eia.gov. Include the OMB control number listed in the subject line of the message.

FOR FURTHER INFORMATION CONTACT: Kenneth Pick, EIA Clearance Officer, at (202) 586–5562.

SUPPLEMENTARY INFORMATION: This information collection request contains:

(1) *OMB No.:* 1905–0186;

(2) *Information Collection Request*

Title: Generic Clearance for Questionnaire Testing, Evaluation, and Research;

(3) *Type of Request:* Three-year extension with changes;

(4) *Purpose:* The U.S. Energy Information Administration (EIA) is requesting a three-year approval from the Office of Management and Budget (OMB) to utilize qualitative and quantitative methodologies to pretest questionnaires and validate the quality of the data that are collected on EIA and DOE survey forms. Through the use of these methodologies, EIA will conduct research studies to improve the quality of energy data being collected, reduce or minimize survey respondent burden, and increase agency efficiency. This authority would also allow EIA to improve data collection in order to meet the needs of EIA's customers while also staying current in the evolving nature of the energy industry.

The specific methods EIA will continue to use for the coverage by this clearance are described below.

Pilot Surveys. Pilot surveys conducted under this clearance will generally be methodological studies and will always employ statistically representative samples. The pilot surveys will replicate all components of the methodological

design, sampling procedures (where possible), and questionnaires of the full-scale survey. Pilot surveys will normally be utilized when EIA undertakes a complete redesign of a particular data collection methodology or when EIA undertakes data collection in new energy areas of the energy sector where data collection would provide utility to EIA.

Cognitive Interviews. Cognitive interviews are typically one-on-one interviews in which the respondent is usually asked to “think aloud” or is asked “retrospective questions” as they answer questions, reads survey materials, defines terminology, or completes other activities as part of a typical survey process. A number of different techniques may be involved including asking respondents what specific words or phrases mean or asking respondents probing questions to determine how they estimate, calculate, or determine specific data elements on a survey. The objectives of these cognitive interviews are to identify problems of ambiguity or misunderstanding, examine the process that respondents follow for reporting information, assess survey respondents' ability to report new information, or identify other difficulties respondents have answering survey questions in order to reduce measurement error from estimates based on a survey.

Respondent Debriefings. Respondent debriefings conducted under this clearance will generally be methodological or cognitive research studies. The debriefing form is administered after a respondent completes a questionnaire either in paper format, electronically, or through personal interviews. The debriefings contain probing questions to determine how respondents interpret the survey questions, how much time and effort was spent completing the questionnaire, and whether they have problems in completing the survey/questionnaire. Respondent debriefings also are useful in determining potential issues with data quality and in estimating respondent burden.

Usability Testing. Usability tests are similar to cognitive interviews in which a respondent is typically asked to “think aloud” or asked “retrospective questions” as they review a survey questionnaire, related materials, or website. The objective of usability testing is to check that respondents can easily and intuitively navigate survey questionnaires, related materials, and websites to submit their data to EIA.

Focus Groups. Focus groups are a qualitative method used early in questionnaire development to gather

information about a topic that can later be used to write survey questions, such as specific terminology, definitions, sensitivity of topics, organizational processes, and burden associated with reporting. Information is collected by a moderator using a guided discussion with small groups of people (e.g., 8–10).

Field Techniques. Field techniques described in survey research and survey methodology literature will be employed as appropriate. These include follow-up probing, memory cue tasks, paraphrasing, confidence rating, response latency measurements, free and dimensional sort classification tasks, and vignette classifications. The objective of all of these techniques is to aid in the development of surveys that work with respondents' thought processes, thus reducing response error and burden. These techniques have also proven useful for studying and revising pre-existing questionnaires.

Behavior Coding. Behavior coding is a quantitative technique in which a standard set of codes is systematically applied to respondent/interviewer interactions in interviewer-administered surveys or respondent/questionnaire interactions in self-administered surveys.

Split Panel Test. Split panel tests refer to controlled experimental testing of alternative hypotheses. Thus, they allow one to choose from among competing questions, questionnaires, definitions, error messages or survey improvement methodologies with greater confidence than any of the other methods. Split panel tests conducted during the fielding of the survey are superior in that they can support both internal validity (controlled comparisons of the variable(s) under investigation) and external validity (represent the population under study). Most of the previously mentioned survey improvement methods can be strengthened when teamed with this method.

(4a) Proposed Changes to Information Collection:

EIA proposes to collect personally identifiable information (PII) only to the extent necessary to recruit participants for questionnaire testing, evaluation, and research. This PII would not be retained, with the exception of information needed to provide remuneration for participants of questionnaire testing, evaluation, and research and conduct associated data analysis.

(5) Annual Estimated Number of Respondents: 7,500;

(6) Annual Estimated Number of Total Responses: 7,500;

(7) Annual Estimated Number of Burden Hours: 7,500;

(8) Annual Estimated Reporting and Recordkeeping Cost Burden: \$683,700 (7,500 annual burden hours multiplied by \$91.16 per hour). EIA estimates that respondents will have no additional costs associated with the surveys other than the burden hours and the maintenance of the information during the normal course of business.

Comments are invited on whether or not: (a) The proposed collection of information is necessary for the proper performance of agency functions, including whether the information will have a practical utility; (b) EIA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used, is accurate; (c) EIA can improve the quality, utility, and clarity of the information it will collect; and (d) EIA can minimize the burden of the collection of information on respondents, such as automated collection techniques or other forms of information technology.

Statutory Authority: 15 U.S.C. 772(b) and 42 U.S.C. 7101 *et seq.*

Signed in Washington, DC, on December 3, 2024.

Samson A. Adeshiyan,

Director, Office of Statistical Methods and Research, U.S. Energy Information Administration.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Combined Notice of Filings

Take notice that the Commission has received the following Natural Gas Pipeline Rate and Refund Report filings:

Filings Instituting Proceedings

Docket Numbers: RP25–251–000.

Applicants: Equitrans, L.P.

Description: § 4(d) Rate Filing: Negotiated Rate Capacity Release Agreements—12/1/2024 to be effective 12/1/2024.

Filed Date: 12/2/24.

Accession Number: 20241202–5022.

Comment Date: 5 p.m. ET 12/16/24.

Docket Numbers: RP25–252–000.

Applicants: Mountain Valley Pipeline, LLC.

Description: § 4(d) Rate Filing: Negotiated Rate Capacity Release Agreements—12/1/2024 to be effective 12/1/2024.

Filed Date: 12/2/24.

Accession Number: 20241202–5075.

Comment Date: 5 p.m. ET 12/16/24.

Any person desiring to intervene, to protest, or to answer a complaint in any of the above proceedings must file in accordance with Rules 211, 214, or 206 of the Commission's Regulations (18 CFR 385.211, 385.214, or 385.206) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

Filings in Existing Proceedings

Docket Numbers: RP24–780–005.

Applicants: Maritimes & Northeast Pipeline, L.L.C.

Description: Compliance filing: Maritimes & Northeast Pipeline, L.L.C. Rate Case Compliance Filing RP24–780 to be effective 12/1/2024.

Filed Date: 11/29/24.

Accession Number: 20241129–5038.

Comment Date: 5 p.m. ET 12/11/24.

Any person desiring to protest in any of the above proceedings must file in accordance with Rule 211 of the Commission's Regulations (18 CFR 385.211) on or before 5:00 p.m. Eastern time on the specified comment date.

The filings are accessible in the Commission's eLibrary system (<https://elibrary.ferc.gov/idmws/search/fercgensearch.asp>) by querying the docket number.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <https://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or OPP@ferc.gov.

Dated: December 2, 2024.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ID–10220–000]

Peters, Scott; Notice of Filing

Take notice that on November 26, 2024, Scott Peters submitted for filing, application for authority to hold interlocking positions, pursuant to section 305(b) of the Federal Power Act, 16 U.S.C. 825d (b) and part 45 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR part 45.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>). From the Commission's Home Page on the internet, this information is available on eLibrary. The full text of this document is available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. To access this document in eLibrary, type the docket number excluding the last three digits of this document in the docket number field.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL25–17–000]

Panther Creek Power Operating, LLC; Notice of Institution of Section 206 Proceeding and Refund Effective Date

On December 2, 2024, the Commission issued an order in Docket No. EL25–17–000, pursuant to section 206 of the Federal Power Act (FPA), 16 U.S.C. 824e, instituting an investigation to determine whether Panther Creek Power Operating, LLC's Rate Schedule is unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful. *Panther Creek Power Operating, LLC*, 189 FERC ¶ 61,158 (2024).

The refund effective date in Docket No. EL25–17–000, established pursuant to section 206(b) of the FPA, will be the date of publication of this notice in the **Federal Register**.

Any interested person desiring to be heard in Docket No. EL25–17–000 must

file a notice of intervention or motion to intervene, as appropriate, with the Federal Energy Regulatory Commission, in accordance with Rule 214 of the Commission's Rules of Practice and Procedure, 18 CFR 385.214 (2024), within 21 days of the date of issuance of the order.

In addition to publishing the full text of this document in the **Federal Register** the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link. BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP25-23-000]

Florida Gas Transmission Company, LLC; Notice of Request Under Blanket Authorization and Establishing Intervention and Protest Deadline

Take notice that on November 22, 2024, Florida Gas Transmission Company, LLC (FGT), 1300 Main St., Houston, Texas 77002, filed in the above referenced docket, a prior notice request pursuant to sections 157.205, 157.208, and 157.216 of the Commission's regulations under the Natural Gas Act (NGA), and FGT's blanket certificate issued in Docket No. CP82-553-000, for authorization to isolate and abandon FGT's existing 6-inch-diameter Lakeland delivery lateral facilities to avoid conflicts with a Florida Department of Transportation (FDOT) planned road improvement project to State Road 33 and the interchange with Interstate 4 (I-4/SR 33 Interchange) in Polk County, Florida (The 6-Inch Lakeland Lateral Abandonment Project). To meet the anticipated FDOT I-4/SR 33 Interchange Road work project schedule, FGT plans to commence Project abandonment activities during January 2025, isolating the Project facilities from FGT's pipeline system, and anticipates that all abandonment activities will be completed on or before February 28, 2025, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<https://www.ferc.gov>). From the Commission's Home Page on the internet, this information is available on eLibrary. The full text of this document is available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. To access this document in eLibrary, type the docket number excluding the last three digits of this document in the docket number field.

User assistance is available for eLibrary and the Commission's website during normal business hours from FERC Online Support at (202) 502-6652 (toll free at 1-866-208-3676) or email at ferconlinesupport@ferc.gov, or the Public Reference Room at (202) 502-8371, TTY (202) 502-8659. Email the Public Reference Room at public.referenceroom@ferc.gov.

Any questions concerning this request should be directed to Blair Lichtenwalter, Sr. Director, Certificates, Florida Gas Transmission Company, LLC, 1300 Main St., Houston, Texas 77210-4967, by phone at (713) 989-2605, or by email at Blair.Lichtenwalter@energytransfer.com.

Public Participation

There are three ways to become involved in the Commission's review of this project: you can file a protest to the project, you can file a motion to intervene in the proceeding, and you can file comments on the project. There is no fee or cost for filing protests, motions to intervene, or comments. The deadline for filing protests, motions to intervene, and comments is 5:00 p.m. Eastern Time on January 31, 2025. How to file protests, motions to intervene, and comments is explained below.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or OPP@ferc.gov.

Protests

Pursuant to section 157.205 of the Commission's regulations under the NGA,¹ any person² or the Commission's staff may file a protest to the request. If no protest is filed within the time allowed or if a protest is filed and then withdrawn within 30 days after the allowed time for filing a protest, the proposed activity shall be deemed to be authorized effective the day after the time allowed for protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request for

¹ 18 CFR 157.205.

² Persons include individuals, organizations, businesses, municipalities, and other entities. 18 CFR 385.102(d).

authorization will be considered by the Commission.

Protests must comply with the requirements specified in section 157.205(e) of the Commission's regulations,³ and must be submitted by the protest deadline, which is January 31, 2025. A protest may also serve as a motion to intervene so long as the protestor states it also seeks to be an intervenor.

Interventions

Any person has the option to file a motion to intervene in this proceeding. Only intervenors have the right to request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

To intervene, you must submit a motion to intervene to the Commission in accordance with Rule 214 of the Commission's Rules of Practice and Procedure⁴ and the regulations under the NGA⁵ by the intervention deadline for the project, which is January 31, 2025. As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as your interest in the proceeding. For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to-intervene.asp>.

All timely, unopposed motions to intervene are automatically granted by operation of Rule 214(c)(1). Motions to intervene that are filed after the intervention deadline are untimely and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules and Regulations. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic) of all documents filed by the applicant and by all other parties.

Comments

Any person wishing to comment on the project may do so. The Commission

considers all comments received about the project in determining the appropriate action to be taken. To ensure that your comments are timely and properly recorded, please submit your comments on or before January 31, 2025. The filing of a comment alone will not serve to make the filer a party to the proceeding. To become a party, you must intervene in the proceeding.

How To File Protests, Interventions, and Comments

There are two ways to submit protests, motions to intervene, and comments. In both instances, please reference the Project docket number CP25–23–000 in your submission.

(1) You may file your protest, motion to intervene, and comments by using the Commission's eFiling feature, which is located on the Commission's website (www.ferc.gov) under the link to Documents and Filings. New eFiling users must first create an account by clicking on "eRegister." You will be asked to select the type of filing you are making; first select "General" and then select "Protest", "Intervention", or "Comment on a Filing"; or⁶

(2) You can file a paper copy of your submission by mailing it to the address below. Your submission must reference the Project docket number CP25–23–000.

To file via USPS: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

To file via any other method: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

The Commission encourages electronic filing of submissions (option 1 above) and has eFiling staff available to assist you at (202) 502–8258 or FercOnlineSupport@ferc.gov.

Protests and motions to intervene must be served on the applicant either by mail at: Blair Lichtenwalter, Sr. Director, Certificates, Florida Gas Transmission Company, LLC, 1300 Main St., Houston, Texas 77210–4967, or by email (with a link to the document) at Blair.Lichtenwalter@energytransfer.com. Any subsequent submissions by an intervenor must be served on the applicant and all other parties to the proceeding. Contact information for parties can be

⁶ Additionally, you may file your comments electronically by using the eComment feature, which is located on the Commission's website at www.ferc.gov under the link to Documents and Filings. Using eComment is an easy method for interested persons to submit brief, text-only comments on a project.

downloaded from the service list at the eService link on FERC Online.

Tracking the Proceeding

Throughout the proceeding, additional information about the project will be available from the Commission's Office of External Affairs, at (866) 208–FERC, or on the FERC website at www.ferc.gov using the "eLibrary" link as described above. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. For more information and to register, go to www.ferc.gov/docs-filing/subscription.asp.

Dated: December 2, 2024.

Debbie-Anne A. Reese,
Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Combined Notice of Filings #1

Take notice that the Commission received the following electric corporate filings:

Docket Numbers: EC25–25–000.

Applicants: Heritage Power, LLC, Blossburg Power, LLC, Brunot Island Power, LLC, Gilbert Power, LLC, Hamilton Power, LLC, Heritage Power Marketing, LLC, Hunterstown Power, LLC, Mountain Power, LLC, New Castle Power, LLC, Niles Power, LLC, Orrtanna Power, LLC, Portland Power, LLC, Sayreville Power, LLC, Shawnee Power, LLC, Shawville Power, LLC, Titus Power, LLC, Tolna Power, LLC, Warren Generation, LLC.

Description: Application for Authorization Under Section 203 of the Federal Power Act of Heritage Power, LLC.

Filed Date: 11/27/24.

Accession Number: 20241127–5351.

Comment Date: 5 p.m. ET 12/18/24.

Take notice that the Commission received the following electric rate filings:

Docket Numbers: ER21–2082–003.

³ 18 CFR 157.205(e).

⁴ 18 CFR 385.214.

⁵ 18 CFR 157.10.

Applicants: Citizens S-Line Transmission LLC.

Description: Compliance filing: Clarification and Request for Expedited Consideration to be effective 12/31/9998.

Filed Date: 12/2/24.

Accession Number: 20241202–5223.

Comment Date: 5 p.m. ET 12/23/24.

Docket Numbers: ER25–599–000.

Applicants: Black Hills Colorado Electric, LLC.

Description: § 205(d) Rate Filing: Re-Filing of Jurisdictional Agreements to be effective 2/1/2025.

Filed Date: 12/2/24.

Accession Number: 20241202–5048.

Comment Date: 5 p.m. ET 12/23/24.

Docket Numbers: ER25–600–000.

Applicants: PJM Interconnection, L.L.C.

Description: § 205(d) Rate Filing: Amendment to ISA, Service Agreement No. 7029; Queue No. AD2–047 to be effective 2/1/2025.

Filed Date: 12/2/24.

Accession Number: 20241202–5054.

Comment Date: 5 p.m. ET 12/23/24.

Docket Numbers: ER25–601–000.

Applicants: Alabama Power Company, Georgia Power Company, Mississippi Power Company.

Description: § 205(d) Rate Filing: Alabama Power Company submits tariff filing per 35.13(a)(2)(iii): West Atlanta Energy Storage LGIA Filing to be effective 11/19/2024.

Filed Date: 12/2/24.

Accession Number: 20241202–5093.

Comment Date: 5 p.m. ET 12/23/24.

Docket Numbers: ER25–602–000.

Applicants: Alabama Power Company, Georgia Power Company, Mississippi Power Company.

Description: § 205(d) Rate Filing: Alabama Power Company submits tariff filing per 35.13(a)(2)(iii): GA Solar 5 (Hickory Solar) Second Amended and Restated LGIA Filing to be effective 11/15/2024.

Filed Date: 12/2/24.

Accession Number: 20241202–5096.

Comment Date: 5 p.m. ET 12/23/24.

Docket Numbers: ER25–603–000.

Applicants: PJM Interconnection, L.L.C.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL25–19–000]

Evergy Kansas Central, Inc., Kansas Central, Inc., Evergy Kansas Central, Inc., Evergy Kansas South, Inc., Southwest Power Pool, Inc., Evergy Metro Inc., Southwest Power Pool, Inc.; Notice of Institution of Section 206 Proceeding and Refund Effective Date

On November 29, 2024, the Commission issued an order in Docket No. EL25–19–000, pursuant to section 206 of the Federal Power Act (FPA), 16 U.S.C. 824e, instituting an investigation to determine whether the depreciation rates proposed by Evergy Kansas Central, Inc., Evergy Kansas South, Inc. and Evergy Metro, Inc. are unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful. *Evergy Kansas Central, Inc.*, 189 FERC ¶ 61,153 (2024).

The refund effective date in Docket No. EL25–19–000 established pursuant to section 206(b) of the FPA, will be the

date of publication of this notice in the **Federal Register**.

Any interested person desiring to be heard in Docket No. EL25–19–000 must file a notice of intervention or motion to intervene, as appropriate, with the Federal Energy Regulatory Commission, in accordance with Rule 214 of the Commission's Rules of Practice and Procedure, 18 CFR 385.214 (2024), within 21 days of the date of issuance of the order.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. From FERC's Home Page on the internet, this information is available on eLibrary. The full text of this document is available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. To access this document in eLibrary, type the docket number excluding the last three digits of this document in the docket number field. User assistance is available for eLibrary and the FERC's website during normal business hours from FERC Online Support at 202–502–6652 (toll free at 1–866–208–3676) or email at ferconlinesupport@ferc.gov, or the Public Reference Room at (202) 502–8371, TTY (202) 502–8659. Email the Public Reference Room at public.referenceroom@ferc.gov.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFile" link at <http://www.ferc.gov>. In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Acting Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Acting Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and

assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or OPP@ferc.gov.

Dated: November 29, 2024.

Debbie-Anne A. Reese,

Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project Nos. 2931–046; 2932–053; 2941–048]

Presumpscot Hydro LLC, Dichotomy Power Maine LLC; Notice of Application for Non-Capacity Amendment of License Accepted for Filing and Soliciting Comments, Motions To Intervene, and Protests

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

a. *Application Type:* Non-capacity Amendment of License.

b. *Project Nos.:* 2931–046, 2932–053, and 2941–048.

c. *Date Filed:* June 30, 2023, and supplemented October 13, 2023, November 6, 2023, March 20, 2024, and July 1, 2024.

d. *Applicant:* Presumpscot Hydro LLC and Dichotomy Power Maine LLC¹ (co-licensees).

e. *Name of Project:* Gambo, Mallison Falls, and Little Falls, respectively.

f. *Location:* The projects are located on the Presumpscot River in Cumberland County, Maine, and do not occupy Federal lands.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791a–825r.

h. *Applicant Contact:* Jonathan DiCesare, 230 Park Avenue, Suite 307, New York, NY 10017, 518–657–9012, info@elevatepower.com.

i. *FERC Contact:* Jeremy Jessup, (202) 502–6779, Jeremy.Jessup@ferc.gov.

j. *Cooperating agencies:* With this notice, the Commission is inviting Federal, State, local, and Tribal agencies with jurisdiction and/or special expertise with respect to environmental issues affected by the proposal, that wish to cooperate in the preparation of any environmental document, if applicable, to follow the instructions for filing such requests described in item k below. Cooperating agencies should note the Commission's policy that agencies that cooperate in the preparation of any environmental document cannot also intervene. See 94 FERC ¶ 61,076 (2001).

k. *Deadline for filing comments, motions to intervene, and protests:* January 2, 2025.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, and protests using

the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <https://www.ferc.gov/docs-filing/ecomment.asp>. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208–3676 (toll free), or (202) 502–8659 (TTY). In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. The first page of any filing should include the docket numbers P–2931–046, P–2932–053, and P–2941–048. Comments emailed to Commission staff are not considered part of the Commission record.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

l. *Description of Request:* The co-licensees propose to: (1) relocate the existing primary transmission line away from property retained by the former licensee within the vicinity of the Gambo Project and (2) affect a new interconnection with the neighboring electric utility. As a part of these modifications to the primary transmission line, the co-licensees propose to remove from the project boundaries for each of the projects the portion of the existing primary transmission line running to the S.D. Warren Paper Mill that would be obsolete upon completion of the new interconnection and to construct a new generator step-up (“GSU”) transformer within the current project boundary of the Mallison Falls Project. The proposed action would have minimal ground disturbance including the installation and removal of transmission lines poles, installation of the foundation for the transformer, and the installation of an approximately 1,400-foot-long underground cable.

¹ On July 8, 2024, and November 14, 2024, the licensee filed a notice that its name changed to Relevate Power Maine LLC.

m. *Locations of the Application*: This filing may be viewed on the Commission's website at <https://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/subscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1-866-208-3676 or email FERCOnlineSupport@ferc.gov, for TTY, call (202) 502-8659. Agencies may obtain copies of the application directly from the applicant.

n. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

o. *Comments, Protests, or Motions to Intervene*: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214, respectively. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

p. *Filing and Service of Documents*: Any filing must (1) bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person commenting, protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis. Any filing made by an intervenor must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 385.2010.

q. The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission

processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or OPP@ferc.gov.

Dated: December 2, 2024.

Debbie-Anne A. Reese,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP25-22-000]

National Fuel Gas Supply Corporation; Notice of Request Under Blanket Authorization and Establishing Intervention and Protest Deadline

Take notice that on November 21, 2024, National Fuel Gas Supply Corporation (National Fuel), 6363 Main Street, Williamsville, New York 14221, filed in the above referenced docket, a prior notice request pursuant to sections 157.205, 157.208, and 157.216 of the Commission's regulations under the Natural Gas Act (NGA) and National Fuel's blanket certificate issued in Docket No. CP83-4-000, for authorization for its Line UNY Westwood 2025 Modernization Project (Project) in Erie County, New York.

Specifically, National Fuel proposes to: (1) replace approximately 3,250 feet of 20-inch-diameter pipeline (Line UNY); (2) install approximately 10,500 feet of 20-inch-diameter pipeline that will be rerouted from the existing Line UNY right-of-way (ROW) to the Line XN ROW; (3) construct a measurement and regulation station (M&R Station); (4) abandon an existing M&R Station by removal; (5) abandon in-place 2.36 miles of 20-inch-diameter pipeline; and (6) install associated appurtenances. National Fuel estimates the cost of the project to be approximately \$14.4 million, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>). From the Commission's Home Page on the internet, this information is available on eLibrary. The full text of this document is

available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. To access this document in eLibrary, type the docket number excluding the last three digits of this document in the docket number field.

User assistance is available for eLibrary and the Commission's website during normal business hours from FERC Online Support at (202) 502-6652 (toll free at 1-866-208-3676) or email at ferconlinesupport@ferc.gov, or the Public Reference Room at (202) 502-8371, TTY (202) 502-8659. Email the Public Reference Room at public.reference@ferc.gov.

Any questions concerning this request should be directed to Meghan Emes, Senior Counsel, National Fuel Gas Supply Corporation, 6363 Main Street, Williamsville, New York 14221, by telephone at (716) 857-7004 or by email at emesm@natfuel.com.

Public Participation

There are three ways to become involved in the Commission's review of this project: you can file a protest to the project, you can file a motion to intervene in the proceeding, and you can file comments on the project. There is no fee or cost for filing protests, motions to intervene, or comments. The deadline for filing protests, motions to intervene, and comments is 5:00 p.m. Eastern Time on January 31, 2025. How to file protests, motions to intervene, and comments is explained below.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or OPP@ferc.gov.

Protests

Pursuant to section 157.205 of the Commission's regulations under the NGA,¹ any person² or the Commission's staff may file a protest to the request. If no protest is filed within the time allowed or if a protest is filed and then withdrawn within 30 days after the allowed time for filing a protest, the

¹ 18 CFR 157.205.

² Persons include individuals, organizations, businesses, municipalities, and other entities. 18 CFR 385.102(d).

proposed activity shall be deemed to be authorized effective the day after the time allowed for protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request for authorization will be considered by the Commission.

Protests must comply with the requirements specified in section 157.205(e) of the Commission's regulations,³ and must be submitted by the protest deadline, which is January 31, 2025. A protest may also serve as a motion to intervene so long as the protestor states it also seeks to be an intervenor.

Interventions

Any person has the option to file a motion to intervene in this proceeding. Only intervenors have the right to request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

To intervene, you must submit a motion to intervene to the Commission in accordance with Rule 214 of the Commission's Rules of Practice and Procedure⁴ and the regulations under the NGA⁵ by the intervention deadline for the project, which is January 31, 2025. As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as your interest in the proceeding. For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to-intervene.asp>.

All timely, unopposed motions to intervene are automatically granted by operation of Rule 214(c)(1). Motions to intervene that are filed after the intervention deadline are untimely and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules and Regulations. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic)

of all documents filed by the applicant and by all other parties.

Comments

Any person wishing to comment on the project may do so. The Commission considers all comments received about the project in determining the appropriate action to be taken. To ensure that your comments are timely and properly recorded, please submit your comments on or before January 31, 2025. The filing of a comment alone will not serve to make the filer a party to the proceeding. To become a party, you must intervene in the proceeding.

How To File Protests, Interventions, and Comments

There are two ways to submit protests, motions to intervene, and comments. In both instances, please reference the Project docket number CP25–22–000 in your submission.

(1) You may file your protest, motion to intervene, and comments by using the Commission's eFiling feature, which is located on the Commission's website (www.ferc.gov) under the link to Documents and Filings. New eFiling users must first create an account by clicking on "eRegister." You will be asked to select the type of filing you are making; first select "General" and then select "Protest", "Intervention", or "Comment on a Filing"; or⁶

(2) You can file a paper copy of your submission by mailing it to the address below. Your submission must reference the Project docket number CP25–22–000.

To file via USPS: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

To file via any other method: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

The Commission encourages electronic filing of submissions (option 1 above) and has eFiling staff available to assist you at (202) 502–8258 or FercOnlineSupport@ferc.gov.

Protests and motions to intervene must be served on the applicant either by mail at: Meghan Emes, Senior Counsel, National Fuel Gas Supply Corporation, 6363 Main Street, Williamsville, New York 14221 or (with a link to the document) by email at

⁶ Additionally, you may file your comments electronically by using the eComment feature, which is located on the Commission's website at www.ferc.gov under the link to Documents and Filings. Using eComment is an easy method for interested persons to submit brief, text-only comments on a project.

emesm@natfuel.com. Any subsequent submissions by an intervenor must be served on the applicant and all other parties to the proceeding. Contact information for parties can be downloaded from the service list at the eService link on FERC Online.

Tracking the Proceeding

Throughout the proceeding, additional information about the project will be available from the Commission's Office of External Affairs, at (866) 208–FERC, or on the FERC website at www.ferc.gov using the "eLibrary" link as described above. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. For more information and to register, go to www.ferc.gov/docs-filing/esubscription.asp.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2024-0058; FRL-11681-10-OCSPP]

Pesticide Product Registration; Receipt of Applications for New Active Ingredients (October 2024)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received applications to register pesticide products containing active ingredients not included in any currently registered pesticide products. Pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is hereby providing notice of receipt and opportunity to comment on these applications.

DATES: Comments must be received on or before January 6, 2025.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2024-0058, through the *Federal eRulemaking Portal* at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting and visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

Madison H. Le, Biopesticides and Pollution Prevention Division (BPPD) (7511M), main telephone number: (202) 566-1400, email address:

BPPDFRNotices@epa.gov; or Charles Smith, Registration Division (RD) (7505T), main telephone number: (202) 566-1030, email address: RDFFRNotices@epa.gov. The mailing address for each contact person is Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001. As part of the mailing address, include the contact person's name, division, and mail code.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](https://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

II. Registration Applications

EPA has received applications to register pesticide products containing

active ingredients not included in any currently registered pesticide products. Pursuant to the provisions of FIFRA section 3(c)(4) (7 U.S.C. 136a(c)(4)), EPA is hereby providing notice of receipt and opportunity to comment on these applications. Notice of receipt of these applications does not imply a decision by the Agency on these applications. For actions being evaluated under EPA's public participation process for registration actions, there will be an additional opportunity for public comment on the proposed decisions. Please see EPA's public participation website for additional information on this process (<https://www.epa.gov/pesticide-registration/public-participation-process-registration-actions>).

Notice of Receipt—New Active Ingredients

1. *EPA Registration Number:* 100-1467, 100-1462, 100-1463, and 100-1465. *Docket ID number:* EPA-HQ-OPP-2024-0415. *Applicant:* Syngenta Crop Protection, LLC, P.O. Box 18300, Greensboro, NC 27419-8300. *Active ingredient:* Bicyclopyrone. *Product type:* Herbicide. *Proposed use:* Bicyclopyrone-resistant soybean. *Contact:* RD.

2. *File Symbol:* 279-OTRI. *Docket ID number:* EPA-HQ-OPP-2024-0486. *Applicant:* FMC Corporation, 2929 Walnut Street, Philadelphia, PA 19104. *Product name:* *Bacillus thuringiensis* strain RTI545 Technical. *Active ingredient:* Insecticide and nematicide—*Bacillus thuringiensis* strain RTI545 at 100%. *Proposed use:* For manufacturing into end-use pesticide products. *Contact:* BPPD.

3. *File Symbol:* 279-OTRT. *Docket ID number:* EPA-HQ-OPP-2024-0486. *Applicant:* FMC Corporation, 2929 Walnut Street, Philadelphia, PA 19104. *Product name:* VHW30-R001. *Active ingredient:* Insecticide and nematicide—*Bacillus thuringiensis* strain RTI545 at 9.59%. *Proposed use:* For use as a commercial and on-farm seed treatment. *Contact:* BPPD.

Authority: 7 U.S.C. 136 *et seq.*

Clean Air Act Operating Permit Program; Order on Petition for Objection to State Operating Permit for Sundance Power Plant

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition.

SUMMARY: The Environmental Protection Agency (EPA) Administrator signed an order dated November 6, 2024, denying a petition dated June 27, 2024, from Sierra Club. The Petition requested that the EPA object to a Clean Air Act (CAA) title V operating permit issued by the Pinal County Air Quality Control District (PACQCD) to the Arizona Public Service Company Sundance Power Plant ("APS Sundance"), an electricity generating station located in Casa Grande, Arizona.

FOR FURTHER INFORMATION CONTACT: Catherine Valladolid, EPA Region 9, (415) 947-4103, valladolid.catherine@epa.gov. The final Order and Petition are available electronically at: <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>.

SUPPLEMENTARY INFORMATION: The EPA received a petition from Sierra Club

dated June 27, 2024, requesting that the EPA object to the issuance of operating permit number V20690.R02, issued by PCAQCD to APS Sundance in Casa Grande, Arizona. On November 6, 2024, the EPA Administrator issued an order denying the petition. The Order explains the basis for the EPA's decision.

Sections 307(b) and 505(b)(2) of the CAA provide that a petitioner may request judicial review of those portions of an order that deny issues in a petition. Any petition for review shall be filed in the United States Court of Appeals for the appropriate circuit no later than February 4, 2025.

Dated: November 26, 2024.

Martha Guzman Aceves

Regional Administrator, Region IX.

BILLING CODE 6560-50-P

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

Agency Information Collection Activities: Existing Collection

AGENCY: Equal Employment Opportunity Commission.

ACTION: Notice of information collection—proposed revision of State and Local Government Information Report (EEO-4).

SUMMARY: In accordance with the Paperwork Reduction Act (PRA), the Equal Employment Opportunity Commission (EEOC or Commission) announces that it has submitted to the Office of Management and Budget (OMB) a request for a three-year PRA approval of revisions to the currently approved State and Local Government Information Report (EEO-4).

DATES: Written comments on this notice must be submitted on or before January 6, 2025.

ADDRESSES: Written comments should be sent within 30 days of publication of this final notice to www.reginfo.gov/public/do/PRAMain. Find this information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Paul Guerino, Director, Data Development and Information Products Division, Office of Enterprise Data and Analytics (OEDA), Equal Employment Opportunity Commission, 131 M Street NE, Washington, DC 20507; (202) 921-2928 (voice), (800) 669-6820 (TTY) or email at OEDA@eoc.gov. Requests for this notice in an alternative format

should be made to the EEOC's Office of Communications and Legislative Affairs at (202) 921-3191 (voice), (800) 669-6820 (TTY), or (844) 234-5122 (ASL Video Phone).

SUPPLEMENTARY INFORMATION: A notice that the EEOC would be submitting this request was published in the **Federal Register** on September 4, 2024, allowing for a 60-day public comment period which ended on November 4, 2024.¹ The EEOC received no comments during the public comment period.²

I. Background

A. The EEO-4 Report

Since 1973, the EEOC has required EEO-4 filers to submit workforce demographic data. All State and local governments that are covered by title VII of the Civil Rights Act of 1964, as amended (title VII)³ and that have 100 or more employees are required to file the workforce demographic data.

B. The 60-Day Notice: Request for Three-Year PRA Approval of Revisions to the EEO-4

Pursuant to the PRA and OMB regulations found at 5 CFR 1320.8(d)(1), the Commission published a Notice in the **Federal Register** on September 4, 2024, soliciting public comments during a 60-day period ("60-day Notice") on the Commission's intent to seek a three-year OMB approval of revisions to the currently approved EEO-4. In particular, in its 60-day Notice, the EEOC sought comments to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the Commission's functions, including whether the information will have practical utility; (2) Evaluate the accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The 60-day Notice comment period ended on November 4, 2024.

Based on data from the most recent EEO-4 data collection reporting year (i.e., 2023), as well as ongoing updates by the EEOC to the EEO-4 frame (i.e., filer roster or master list), the EEOC anticipates the total number of filers submitting an EEO-4 report may increase to 6,607 per biennial collection. Accordingly, the burden estimates in this Notice are based on this revised estimate of the number of filers.

II. The Public Comments on the 60-Day Notice

The 60-day Notice was published in the **Federal Register** on September 4, 2024.⁴ The EEOC received no comments during the public comment period.⁵

III. Commission Decisions and Final EEOC Proposals to OMB

The EEOC Will Seek Three-Year Approval of Revisions to the Currently Approved EEO-4 State and Local Government Information Report

The Commission has decided it will seek a three-year approval by OMB of revisions to the EEO-4 State and Local Government Information Report as described in this Notice.

IV. Formal Paperwork Reduction Act Statement

A. Overview of Information Collection

Collection Title: State and Local Government Information Report (EEO-4).

OMB Number: 3046-0008.

Frequency of Report: Biennial.

Type of Respondent: State and local governments that have 100 or more employees and meet certain criteria.

Description of Affected Public: State and local governments that have 100 or more employees and meet certain criteria.

Reporting Hours: 18,094 hours per biennial collection.

Respondent Burden Hour Cost: \$563,868.27 per biennial collection.

Federal Cost: \$327,440.12 per biennial collection.

Number of Filers: 6,607 per biennial collection.⁶

Number of Responses: 6,607 per biennial collection.

Number of Forms: 1.

Form Number: EEOC Form 164.

Abstract: Section 709(c) of title VII requires employers to make and keep

⁴ Available at <https://www.federalregister.gov/documents/2024/09/04/2024-19743/agency-information-collection-activities-existing-collection>.

⁵ Available at <https://www.regulations.gov/docket/EEOC-2024-0008>.

⁶ This figure is based on the expanded frame of potentially eligible respondents and the response rate for the most recently completed EEO-4 data collection (the 2023 EEO-4 data collection).

¹ See Notice of Information Collection 89 FR 71901 (Sept. 4, 2024) at <https://www.federalregister.gov/documents/2024/09/04/2024-19743/agency-information-collection-activities-existing-collection>.

² Available at <https://www.regulations.gov/docket/EEOC-2024-0008>.

³ 42 U.S.C. 2000e, et seq.

records relevant to the determination of whether unlawful employment practices have been or are being committed, to preserve such records, and to produce reports as the Commission prescribes by regulation or order.⁷ Pursuant to this statutory authority, the EEOC issued regulations prescribing the reporting and related record retention requirements for State and local governments.⁸ The regulations require State and local governments to make or keep all records necessary for completion of an EEO-4 submission and retain those records for three years, and also require EEO-4 filers to retain a copy of each filed EEO-4 report for three years. These recordkeeping requirements are part of standard administrative practices, and as a result, the EEOC believes that any impact on burden would be negligible and nearly impossible to quantify. Additionally, the regulations require State and local governments to file executed copies of the EEO-4 in conformity with the directions set forth in the form and accompanying instructions. Under this authority, State and local governments with 100 or more employees are required to report biennially⁹ the number of individuals they employ by job category and by sex, salary band, and race or ethnicity.

Please note that on March 28, 2024, OMB published revisions, the first since 1997, to its *Statistical Policy Directive No. 15: Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity*. See <https://spd15revision.gov/>. The revisions include, for example, using a single combined race and ethnicity question and adding Middle Eastern or North African (MENA) as a new minimum reporting category. Federal agencies, including the EEOC, are required to bring their data collections into compliance with these standards by March 28, 2029. Because the EEOC's current EEO-4 PRA clearance expires January 31, 2025, the agency is not proposing updates to its collection of race and ethnicity data under this Notice in order to provide filers with sufficient notice of the revised standards

and to give the EEOC sufficient time to implement the revisions across its EEO collections.

The EEOC currently collects EEO-4 data electronically through a web-based data collection application (*i.e.*, portal) referred to as the *EEO-4 Online Filing System (OFS)*.¹⁰ Filers must submit their data electronically to the web-based portal by either manual entry or by uploading a data file. The individual EEO-4 reports are confidential.¹¹ The EEOC uses EEO-4 data to investigate charges of employment discrimination against State and local governments and to publish periodic reports on workforce demographics.¹²

B. Burden Statement

The EEOC's Office of Enterprise Data and Analytics (OEDA) administers the agency's data collections, including the EEO-4. Since OEDA's creation in 2018, the EEOC has undertaken several efforts to modernize the agency's data collections and improve the quality of

data collected. OEDA has also streamlined functions, such as providing additional self-service options, resource materials, and an online support message center.

As part of these ongoing modernization efforts, OEDA has undertaken measures to enhance the agency's existing EEO-4 data frame of potentially eligible filers and make the EEO-4 filing process more user-friendly and less burdensome. By comparing the EEOC's 2023 EEO-4 frame to the U.S. Census Bureau's Census of Governments,¹³ OEDA identified approximately 1,220 additional State and local governments that may be eligible to file during the next biennial data collection. With the addition of these filers to the EEO-4 frame and considering response rates during the 2023 EEO-4 data collection, OEDA now estimates 6,607 potential respondents to the agency's next EEO-4 data collection.¹⁴

Additionally, the EEOC proposes to update the salary bands in the next biennial EEO-4 data collection to keep pace with inflation and account for an increasing portion of employees falling into the highest salary bands. The EEOC reviewed several other Federal data collections of salaries and wages and determined that the Bureau of Labor Statistics' Occupational Employment and Wage Statistics (OEWS)¹⁵ program most closely aligns with the EEO-4. Therefore, the EEOC proposes adopting the OEWS salary bands and will periodically update them as appropriate. The EEOC recognizes there may be a one-time increase in burden as filers need to update their systems to produce reports in the new categories, but this increase is expected to be negligible. The proposed pay bands for the next biennial EEO-4 data collection are listed in the table below.

¹³ The Census of Governments is a three-phased program that collects State and local government data every five years in years ending in "2" and "7." See <https://www.census.gov/newsroom/press-releases/2023/census-of-governments.html>.

¹⁴ This estimate covers State and local governments with 100 or more employees within the 50 United States and the District of Columbia. Please note that 6,607 respondents may ultimately turn out to be an overestimate. Following the initial enhancement of the EEO-4 frame, collection data may yield an unknown number of ineligible filers.

¹⁵ The Occupational Employment and Wage Statistics (OEWS) program produces employment and wage estimates annually for approximately 830 occupations. See <https://www.bls.gov/oes/>.

⁷ 42 U.S.C. 2000e-8(c).

⁸ The regulatory sections covered by this notice are 29 CFR 1602.30 and 1602.32 through 1602.37. The EEOC is responsible for obtaining OMB's PRA approval for the EEO-4 report.

⁹ Beginning in 1993, the EEO-4 report has been collected biennially in odd-numbered years. Prior to 1993, the EEO-4 report was collected annually.

¹⁰ EEO-4 filers may access the OFS through the EEOC's dedicated EEO-4 website at www.eeocdata.org/eeo4.

¹¹ All reports and any information from individual reports are subject to the confidentiality provisions of section 709(e) of title VII of the Civil Rights Act of 1964, 42 U.S.C. 2000e-8(e), as amended (title VII), and may not be made public by the EEOC prior to the institution of any proceeding under title VII involving the EEO-4 data. Any EEOC employee who violates this prohibition may be found guilty of a criminal misdemeanor and could be fined or imprisoned. The confidentiality requirements allow the EEOC to publish only aggregated data, and only in a manner that does not identify any particular filer or reveal any individual employee's personal information. With respect to other Federal agencies with a legitimate law enforcement purpose, the EEOC gives access to information collected under title VII only if the agencies agree in writing to comply with the confidentiality provisions of title VII. In addition, section 709(d) of title VII (42 U.S.C. 2000e-8(d)) provides that the EEOC shall furnish upon request and without cost to State or local civil rights agencies information about employers in their jurisdiction on the condition that they not make it public prior to starting a proceeding under State or local law involving such information. The EEOC shares EEO-4 data with Fair Employment Practices Agencies (FEPAs) pursuant to Worksharing Agreements that impose obligations on the contracted FEPA with respect to confidentiality, privacy, and data security. On a case-by-case basis, the EEOC may share EEO-4 data with a FEPA that does not have a Worksharing Agreement, but only if that FEPA agrees to comply with confidentiality, privacy, and data security obligations similar to those imposed on FEPAs with Worksharing Agreements.

¹² Any reports the EEOC publishes based on EEO-4 data include only aggregated data that protect the confidentiality of each employer's information, as well as the privacy of each employee's personal information.

TABLE 1—UPDATED SALARY BANDS FOR EEO–4

Interval	Wages	
	Annual	Hourly
Range A	Under \$19,240	Under \$9.25.
Range B	19,240 to 24,959	9.25 to 11.99.
Range C	24,960 to 32,239	12.00 to 15.49.
Range D	32,240 to 41,079	15.50 to 19.74.
Range E	41,080 to 53,039	19.75 to 25.49.
Range F	53,040 to 68,119	25.50 to 32.74.
Range G	68,120 to 87,359	32.75 to 41.99.
Range H	87,360 to 112,319	42.00 to 53.99.
Range I	112,320 to 144,559	54.00 to 69.49.
Range J	144,560 to 186,159	69.50 to 89.49.
Range K	186,160 to 239,199	89.50 to 114.99.
Range L	239,200 and over	115.00 and over.

The EEOC has also updated its methodology for calculating the biennial burden of the EEO–4 to better reflect the types of personnel responsible for preparing and filing these reports on behalf of their employers. Based upon job titles provided during the 2023 EEO–4 data collection by individuals completing the report within the *EEO–4 OFS*, the EEOC has identified six specific job categories which account for the largest amount of time spent

biennially on EEO–4 reporting. These job categories include: (1) Human Resource Specialists; (2) Executive-Level Staff; (3) Secretaries and Administrative Assistants; (4) Bookkeeping, Accounting, and Auditing Clerks; (5) Administrative Services and Facilities Managers; and (6) Database Administrators and Architects.¹⁶

Additionally, the *EEO–4 OFS* captures detailed information on when each filer starts and certifies its report. The EEOC

used this information from the most recent EEO–4 data collection to calculate more precise burden hour estimates.¹⁷ In Table 2 below, the estimated average hour burden per report is 2.7 hours. The total estimated biennial respondent burden for all filers is 18,094 hours. The estimated average burden hour cost per report is \$85.34, and the estimated total burden hour cost for all filers per biennial collection is \$563,868.27.

TABLE 2—PROJECTED BURDEN FOR EACH EEO–4 BIENNIAL REPORTING YEAR

[N=6,607]

Staff job category	Percent in job category	Median hourly wage rate	Hours per filer	Total burden hours	Cost per filer	Total burden hour cost
Human Resource Specialists	68.0	\$30.88	2.8	12,575	\$86.46	\$388,309.82
Executive-Level Staff	4.1	48.12	2.6	710	125.11	34,155.58
Secretaries and Administrative Assistants	8.1	21.19	2.4	1,289	50.86	827,309.67
Bookkeeping, Accounting, and Auditing Clerks	8.8	22.05	2.5	1,450	55.13	31,972.50
Administrative Services and Facilities Managers	4.5	48.98	3.4	1,003	166.53	49,126.94
Database Administrators and Architects	0.1	53.91	0.5	3	26.96	134.78
Other ^a	6.3	30.86	2.5	1,065	77.14	32,858.98
Average			2.7		85.34	
Total ^b	100.0			18,094		563,868.27

^a The average hourly wage rate for the “Other” category was derived by taking the weighted mean average of the hourly wage rates of the six BLS job categories listed in the above table.

^b These estimates are based upon filers’ use of the *EEO–4 OFS* to submit reports electronically because paper submissions are no longer accepted. Electronic filing remains the most efficient, accurate, and secure means of reporting for respondents required to submit the EEO–4 report.

Dated: December 2, 2024.

For the Commission.

Charlotte A. Burrows,
Chair.

[FR Doc. 2024–28580 Filed 12–5–24; 8:45 am]

BILLING CODE 6570–01–P

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

Agency Information Collection Activities: Existing Collection

AGENCY: Equal Employment Opportunity Commission.

ACTION: Notice of information collection—proposed revision of Elementary-Secondary Staff Information Report (EEO–5).

SUMMARY: In accordance with the Paperwork Reduction Act (PRA), the Equal Employment Opportunity

¹⁶ Hourly wage rates for these six job categories were obtained from the U.S. Department of Labor’s Bureau of Labor Statistics (BLS) Occupational Outlook Handbook. See <https://www.bls.gov/ooh/>. Please note that the actual job titles reported during

the 2023 EEO–4 data collection were collapsed into these six BLS occupational categories.

¹⁷ The time estimates are based on the average time elapsed among filers who completed their report during the same calendar day within the

EEO–4 OFS. This methodology was chosen because a single-session submission would also approximate the completion time over several, multi-day sessions.

Commission (EEOC or Commission) announces that it has submitted to the Office of Management and Budget (OMB) a request for a three-year PRA approval of revisions to the currently approved Elementary-Secondary Staff Information Report (EEO–5).

DATES: Written comments on this notice must be submitted on or before January 6, 2025.

ADDRESSES: Written comments should be sent within 30 days of publication of this final notice to www.reginfo.gov/public/do/PRAMain. Find this information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Paul Guerino, Director, Data Development and Information Products Division, Office of Enterprise Data and Analytics (OEDA), Equal Employment Opportunity Commission, 131 M Street NE, Washington, DC 20507; (202) 921–2928 (voice), (800) 669–6820 (TTY) or email at OEDA@eoc.gov. Requests for this notice in an alternative format should be made to the EEOC’s Office of Communications and Legislative Affairs at (202) 921–3191 (voice), (800) 669–6820 (TTY), or (844) 234–5122 (ASL Video Phone).

SUPPLEMENTARY INFORMATION: A notice that the EEOC would be submitting this request was published in the **Federal Register** on August 16, 2024, allowing for a 60-day public comment period which ended on October 15, 2024.¹ The EEOC received no comments during the public comment period.²

I. Background

A. The EEO–5 Report

Since 1973, the EEOC has required EEO–5 filers to submit workforce demographic data. All public elementary and secondary school systems and districts that are covered by title VII of the Civil Rights Act of 1964, as amended (title VII)³ and that have 100 or more employees are required to file the workforce demographic data.

B. The 60-Day Notice: Request for Three-Year PRA Approval of Revisions to the EEO–5

Pursuant to the PRA and OMB regulations found at 5 CFR 1320.8(d)(1), the Commission published a Notice in

the **Federal Register** on August 16, 2024, soliciting public comments during a 60-day period (“60-day Notice”) on the Commission’s intent to seek a three-year OMB approval of revisions to the currently approved EEO–5. In particular, in its 60-day Notice, the EEOC sought comments to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the Commission’s functions, including whether the information will have practical utility; (2) Evaluate the accuracy of the Commission’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The 60-day Notice comment period ended on October 15, 2024.

Based on data from the most recent EEO–5 data collection reporting year (i.e., 2022), as well as ongoing updates by the EEOC to the EEO–5 frame (i.e., filer roster or master list), the EEOC anticipates the total number of filers submitting an EEO–5 report may increase to 10,500 per biennial collection. Accordingly, the burden estimates in this Notice are based on this revised estimate of the number of filers.

II. The Public Comments on the 60-Day Notice

The 60-day Notice was published in the **Federal Register** on August 16, 2024.⁴ The EEOC received no comments during the public comment period.⁵

III. Commission Decisions and Final EEOC Proposals to OMB

The EEOC Will Seek Three-Year Approval of Revisions to the Currently Approved EEO–5 Elementary-Secondary Staff Information Report

The Commission has decided it will seek a three-year approval by OMB of revisions to the EEO–5 Elementary-Secondary Staff Information Report as described in this Notice.

IV. Formal Paperwork Reduction Act Statement

A. Overview of Information Collection

Collection Title: Elementary-Secondary Staff Information Report (EEO–5).

OMB Number: 3046–0003.

Frequency of Report: Biennial.

Type of Respondent: Public elementary and secondary school systems and districts that have 100 or more employees and meet certain criteria.

Description of Affected Public: Public elementary and secondary school systems and districts that have 100 or more employees and meet certain criteria.

Reporting Hours: 17,927 hours per biennial collection.

Respondent Burden Hour Cost: \$597,472.29 per biennial collection.

Federal Cost: \$492,635 per biennial collection.

Number of Filers: 10,500 per biennial collection.⁶

Number of Responses: 10,500 per biennial collection.

Number of Forms: 1.

Form Number: EEOC Form 168A.

Abstract: Section 709(c) of title VII requires employers to make and keep records relevant to the determination of whether unlawful employment practices have been or are being committed, to preserve such records, and to produce reports as the Commission prescribes by regulation or order.⁷ Pursuant to this statutory authority, the EEOC issued regulations prescribing the reporting and related record retention requirements for public elementary and secondary school systems and districts.⁸ The regulations require school systems or districts to make or keep all records necessary for completion of an EEO–5 submission and retain those records for three years, and require EEO–5 filers to retain a copy of each filed EEO–5 report for three years. These recordkeeping requirements are part of standard administrative practices, and as a result, the EEOC believes that any impact on burden would be negligible and nearly impossible to quantify. Additionally, the regulations require public elementary and secondary school systems and districts to file executed copies of the EEO–5 in conformity with

¹ See Notice of Information Collection 89 FR 66716 August 16, 2024) at <https://www.federalregister.gov/documents/2024/08/16/2024-18421/agency-information-collection-activities-existing-collection>.

² Available at <https://www.regulations.gov/docket/EEOC-2024-0007>.

³ 42 U.S.C. 2000e, et seq.

⁴ Available at <https://www.federalregister.gov/documents/2024/08/16/2024-18421/agency-information-collection-activities-existing-collection>.

⁵ Available at <https://www.regulations.gov/docket/EEOC-2024-0007>.

⁶ This figure is based on the expanded frame of potentially eligible respondents and the response rate for the most recently completed EEO–5 data collection (the 2022 EEO–5 data collection).

⁷ 42 U.S.C. 2000e–8(c).

⁸ The EEOC’s EEO–5 regulation is at 29 CFR part 1602 Subparts L and M. The EEOC is responsible for obtaining OMB’s PRA approval for the EEO–5 report.

the directions set forth in the form and accompanying instructions. Under this authority, public elementary and secondary school systems and districts with 100 or more employees are required to report biennially⁹ the number of individuals they employ by activity assignment classification (*i.e.*, job category) and by sex and race or ethnicity.

Please note that on March 28, 2024, OMB published revisions, the first since 1997, to its Statistical Policy Directive No. 15: Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity.¹⁰ See <https://spd15revision.gov/>. The revisions include, for example, using a single combined race and ethnicity question and adding Middle Eastern or North African (MENA) as a new minimum reporting category. Federal agencies, including the EEOC, are required to bring their data collections into compliance with these standards by March 28, 2029. Because the EEOC's current EEO-5 PRA clearance expires January 31, 2025, the agency is not proposing updates to its collection of race and ethnicity data under this Notice in order to provide filers with sufficient notice of the revised standards and to give the EEOC sufficient time to implement the revisions across its EEO collections.

These data are currently collected electronically by the EEOC through a web-based data collection application (*i.e.*, portal) referred to as the *EEO-5 Online Filing System (OFS)*.¹⁰ Filers must submit their data electronically to the web-based portal by either manual entry or by uploading a data file. The individual EEO-5 reports are confidential.¹¹ EEO-5 data are used by

the EEOC to investigate charges of employment discrimination against public elementary and secondary school systems and districts and to publish periodic reports on workforce demographics.¹²

B. Burden Statement

The EEOC's Office of Enterprise Data and Analytics (OEDA) administers the agency's data collections, including the EEO-5. Since OEDA's creation in 2018, the EEOC has undertaken several efforts to modernize the agency's data collections and improve the quality of data collected. OEDA has also streamlined functions, such as providing additional self-service options, resource materials, and an online support message center.

As part of these ongoing modernization efforts, OEDA has undertaken measures to enhance the agency's EEO-5 data frame of potentially eligible filers as well as changes that make the EEO-5 filing process more user-friendly and less burdensome. By comparing the EEOC's 2022 EEO-5 frame to the U.S. Department of Education's publicly available Common Core of Data (CCD) database,¹³ OEDA identified approximately 4,000 additional public elementary and secondary school systems and districts that may be eligible to file during the next biennial data collection. With the addition of these filers to the EEO-5 frame and

agencies agree in writing to comply with the confidentiality provisions of title VII. In addition, section 709(d) of title VII (42 U.S.C. 2000e-8(d)) provides that the EEOC shall furnish upon request and without cost to State or local civil rights agencies information about employers in their jurisdiction on the condition that they not make it public prior to starting a proceeding under State or local law involving such information. The EEOC shares EEO-5 data with Fair Employment Practices Agencies (FEPAs) pursuant to Worksharing Agreements that impose obligations on the contracted FEPA with respect to confidentiality, privacy, and data security. On a case-by-case basis, the EEOC may share EEO-5 data with a FEPA that does not have a Worksharing Agreement, but only if that FEPA agrees to comply with confidentiality, privacy, and data security obligations similar to those imposed on FEPAs with Worksharing Agreements.

¹² Any reports the EEOC publishes based on EEO-5 data include only aggregated data that protect the confidentiality of each employer's information, as well as the privacy of each employee's personal information.

¹³ According to the U.S. Department of Education, the CCD is the department's primary database on public elementary and secondary education in the United States. The CCD serves as a "comprehensive, annual, national database" of all public elementary and secondary schools and school districts. See <https://nces.ed.gov/ccd/>.

considering response rates during the 2022 EEO-5 data collection, OEDA now estimates 10,500 potential respondents (a 47% increase) to the agency's next EEO-5 data collection.¹⁴

The EEOC has also updated its methodology for calculating the biennial burden of the EEO-5 to better reflect the types of personnel responsible for preparing and filing these reports on behalf of their employers. Based upon job titles provided during the 2022 EEO-5 data collection by individuals completing the report within the *EEO-5 Online Filing System (OFS)*, the EEOC has identified six specific job categories which account for the largest amount of time spent biennially on EEO-5 reporting. These job categories include: (1) Human Resource Specialists; (2) Executive-Level Staff; (3) Secretaries and Administrative Assistants; (4) Bookkeeping, Accounting, and Auditing Clerks; (5) Administrative Services and Facilities Managers; and (6) Database Administrators and Architects.¹⁵

Additionally, the *EEO-5 OFS* captures detailed information on when each filer starts and certifies its report. The EEOC used this information from the most recent EEO-5 data collection to calculate more precise burden hour estimates.¹⁶ In Table 1 below, the estimated average hour burden per report is 1.7 hours. The total estimated biennial respondent burden for all filers is 17,927 hours. The estimated average burden hour cost per report is \$56.90, and the estimated total burden hour cost for all filers per biennial collection is \$597,472.29.

¹⁴ This estimate covers public elementary and secondary school systems or districts with 100 or more employees within the 50 United States and the District of Columbia as well as the Commonwealth of Puerto Rico, the U.S. Virgin Islands, and the U.S. Possessions of American Samoa, Guam, Northern Mariana Islands, and Wake Island. Please note that 10,500 respondents may ultimately turn out to be an overestimate. Following the initial enhancement of the EEO-5 frame, collection data may yield an unknown number of ineligible filers.

¹⁵ Hourly wage rates for these six job categories were obtained from the U.S. Department of Labor's Bureau of Labor Statistics (BLS) Occupational Outlook Handbook. See <https://www.bls.gov/ooh/>. Please note that the actual job titles reported during the 2022 EEO-5 data collection were collapsed into these six BLS occupational categories.

¹⁶ The time estimates are based on the average time elapsed among filers who completed their reports during the same calendar day within the *EEO-5 OFS*. This methodology was chosen because a single-session submission would also approximate the completion time over several, multi-day sessions.

⁹ Beginning in 1982, the EEO-5 report has been collected biennially in even-numbered years. Prior to 1982, the EEO-5 report was collected annually.

¹⁰ EEO-5 filers may access the *EEO-5 Online Filing System (OFS)* through the EEOC's dedicated EEO-5 website at www.eeocdata.org/eeo5.

¹¹ All reports and any information from individual reports are subject to the confidentiality provisions of Section 709(e) of title VII of the Civil Rights Act of 1964, 42 U.S.C. 2000e-8(e), as amended (title VII) and may not be made public by the EEOC prior to the institution of any proceeding under title VII involving the EEO-5 data. Any EEOC employee who violates this prohibition may be found guilty of a criminal misdemeanor and could be fined or imprisoned. The confidentiality requirements allow the EEOC to publish only aggregated data, and only in a manner that does not identify any particular filer or reveal any individual employee's personal information. With respect to other Federal agencies with a legitimate law enforcement purpose, the EEOC gives access to information collected under title VII only if the

TABLE 1—PROJECTED BURDEN FOR EACH EEO-5 BIENNIAL REPORTING YEAR
[N=10,500]

Staff job category	Percent in job category	Median hourly wage rate	Hours per report	Total burden hours	Cost per report	Total burden hour cost

BILLING CODE 6570–01–P

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

Agency Information Collection Activities: Existing Collection

AGENCY: Equal Employment Opportunity Commission.

ACTION: Notice of information collection—proposed revision of Local Union Report (EEO-3).

SUMMARY: In accordance with the Paperwork Reduction Act (PRA), the Equal Employment Opportunity Commission (EEOC or Commission) announces that it has submitted to the Office of Management and Budget (OMB) a request for a three-year PRA approval of revisions to the currently approved Local Union Report (EEO-3).

DATES: Written comments on this notice must be submitted on or before January 6, 2025.

ADDRESSES: Written comments should be sent within 30 days of publication of this final notice to www.reginfo.gov/public/do/PRAMain. Find this information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Paul Guerino, Director, Data Development and Information Products Division, Office of Enterprise Data and Analytics (OEDA), Equal Employment

Opportunity Commission, 131 M Street NE, Washington, DC 20507; (202) 921–2928 (voice), (800) 669–6820 (TTY) or email at OEDA@eeoc.gov. Requests for this notice in an alternative format should be made to the EEOC’s Office of Communications and Legislative Affairs at (202) 921–3191 (voice), (800) 669–6820 (TTY), or (844) 234–5122 (ASL Video Phone).

SUPPLEMENTARY INFORMATION: A notice that the EEOC would be submitting this request was published in the **Federal Register** on August 16, 2024, allowing for a 60-day public comment period, which ended on October 15, 2024.¹ The EEOC received one non-substantive comment during the public comment period, which was published on the www.regulations.gov website.²

I. Background

A. The EEO-3 Report

Since 1967, the EEOC has required EEO-3 filers to submit workforce demographic data. Every labor organization subject to title VII of the Civil Rights Act of 1964, as amended (title VII)³ is required to file the EEO-3 report, provided it has 100 or more members at any time during the 12 months preceding the due date of the report and is a “local union” (as that term is commonly understood) or an independent or unaffiliated union. Labor organizations required to report are those which perform, in a specific

jurisdiction, the functions ordinarily performed by a local union, whether or not they are so designated.

B. The 60-Day Notice: Request for Three-Year PRA Approval of Revisions to the EEO-3

Pursuant to the PRA and OMB regulations found at 5 CFR 1320.8(d)(1), the Commission published a Notice in the **Federal Register** on August 16, 2024, soliciting public comments during a 60-day period (“60-day Notice”) on the Commission’s intent to seek three-year OMB approval of revisions to the currently approved EEO-3. In particular, in its 60-day Notice, the EEOC sought comments to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the Commission’s functions, including whether the information will have practical utility; (2) Evaluate the accuracy of the Commission’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses). The 60-day Notice comment period ended on October 15, 2024.

Based on data from the most recent EEO-3 data collection reporting year (i.e., 2022), as well as ongoing updates by the EEOC to the EEO-3 frame (i.e., filer roster or master list), the EEOC

¹ See Notice of Information Collection 89 FR 66714 (Aug. 16, 2024) at <https://www.federalregister.gov/documents/2024/08/16/2024-18420/agency-information-collection-activities-existing-collection>.

² Available at <https://www.regulations.gov/document/EEOC-2024-0006-0002>.

³ 42 U.S.C. 2000e, et seq.

anticipates the total number of filers submitting an EEO-3 report may increase to 5,999 per biennial collection. Accordingly, the burden estimates in this Notice are based on this revised estimate of the number of filers.

II. The Public Comments on the 60-Day Notice

The 60-day Notice was published in the **Federal Register** on August 16, 2024.⁴ The EEOC received one non-substantive comment during the public comment period, which was published on the www.regulations.gov website.⁵

III. Commission Decisions and Final EEOC Proposals to OMB

The EEOC Will Seek Three-Year Approval of Revisions to the Currently Approved EEO-3 Local Union Report

After evaluating the one non-substantive comment received from the public during the 60-day comment period, the Commission has decided it will seek a three-year approval by OMB of revisions to the EEO-3 Local Union Report as described in this Notice.

IV. Formal Paperwork Reduction Act Statement

A. Overview of Information Collection

Collection Title: Local Union Report (EEO-3).

OMB Number: 3046-0006.

Frequency of Report: Biennial.

Type of Respondent: Labor organizations with 100 or more members⁶ that are local unions or independent or unaffiliated unions and meet certain criteria.

Description of Affected Public: Labor organizations with 100 or more members⁷ that are local unions or independent or unaffiliated unions and meet certain criteria.

Reporting Hours: 8,922 per biennial collection.

Respondent Burden Hour Cost: \$359,091 per biennial collection.

Federal Cost: \$378,002 per biennial collection.

Number of Filers: 5,999 per biennial collection.⁸

Number of Responses: 5,999 per biennial collection.

Number of Forms: 1.

Form Number: EEOC Form 274.

Abstract: Section 709(c) of title VII requires labor organizations to make and keep records relevant to the determination of whether unlawful employment practices have been or are being committed, to preserve such records, and to produce reports as the Commission prescribes by regulation or order.⁹ Pursuant to this statutory authority, the EEOC issued regulations prescribing the reporting and related record retention requirements for labor organizations.¹⁰ The regulations require every local union to retain the most recent report filed, to make records necessary for completion of the EEO-3, and to preserve them for a year (or if a charge of discrimination is filed, relevant records must be retained until final disposition of the matter). These recordkeeping requirements are part of standard administrative practices, and as a result, the EEOC believes that any impact on burden would be negligible and nearly impossible to quantify. Additionally, the regulations require labor organizations with 100 or more members at any time during the 12 months preceding the due date of the report, and that are a "local union" (as that term is commonly understood)¹¹ or are independent or unaffiliated unions, to file executed copies of the EEO-3 report in conformity with the directions set forth in the form and accompanying instructions. Under this authority, such unions are required to report biennially¹² the number of their members and applicants for membership by sex and race or ethnicity.

Please note that on March 28, 2024, OMB published revisions, the first since 1997, to its Statistical Policy Directive No. 15: Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity." See <https://spd15revision.gov/>. The revisions include, for example, using a single combined race and ethnicity question and adding Middle Eastern or North African (MENA) as a new minimum

reporting category. Federal agencies, including the EEOC, are required to bring their data collections into compliance with these standards by March 28, 2029. Because the EEOC's current EEO-3 PRA clearance expires January 31, 2025, the agency is not proposing updates to its collection of race and ethnicity data under this Notice in order to provide filers with sufficient notice of the revised standards and to give the EEOC sufficient time to implement the revisions across its EEO collections.

These data are currently collected electronically by the EEOC through a web-based data collection application (*i.e.*, portal) referred to as the *EEO-3 Online Filing System (OFS)*.¹³ Filers must submit their data electronically to the web-based portal. The individual EEO-3 reports are confidential.¹⁴ EEO-3 data are used by the EEOC to investigate charges of employment discrimination against local unions and to publish periodic reports on workforce demographics.¹⁵

B. Burden Statement

The EEOC's Office of Enterprise Data and Analytics (OEDA) administers the

¹³ EEO-3 filers may access the *OFS* through the EEOC's dedicated EEO-3 website at www.eeocdata.org/eeo3.

¹⁴ All reports and any information from individual reports are subject to the confidentiality provisions of Section 709(e) of title VII of the Civil Rights Act of 1964, 42 U.S.C. 2000e-8(e), as amended (title VII), and may not be made public by the EEOC prior to the institution of any proceeding under title VII involving the EEO-3 data. Any EEOC employee who violates this prohibition may be found guilty of a criminal misdemeanor and could be fined or imprisoned. The confidentiality requirements allow the EEOC to publish only aggregated data, and only in a manner that does not identify any particular filer or reveal any individual member's personal information. With respect to other Federal agencies with a legitimate law enforcement purpose, the EEOC gives access to information collected under title VII only if the agencies agree in writing to comply with the confidentiality provisions of title VII. In addition, section 709(d) of title VII (42 U.S.C. 2000e-8(d)) provides that the EEOC shall furnish upon request and without cost to State or local civil rights agencies information about employers in their jurisdiction on the condition that they not make it public prior to starting a proceeding under State or local law involving such information. The EEOC shares EEO-3 data with Fair Employment Practices Agencies (FEPAs) pursuant to Worksharing Agreements that impose obligations on the contracted FEPA with respect to confidentiality, privacy, and data security. On a case-by-case basis, the EEOC may share EEO-3 data with a FEPA that does not have a Worksharing Agreement, but only if that FEPA agrees to comply with confidentiality, privacy, and data security obligations similar to those imposed on FEPAs with Worksharing Agreements.

¹⁵ Any reports the EEOC publishes based on EEO-3 data include only aggregated EEO-3 data that protect the confidentiality of each union's information, as well as the privacy of each member's personal information.

⁴ Available at <https://www.federalregister.gov/documents/2024/08/16/2024-18420/agency-information-collection-activities-existing-collection>.

⁵ Available at <https://www.regulations.gov/document/EEOC-2024-0006-0002>.

⁶ Labor organizations required to report are those which perform, in a specific jurisdiction, the functions ordinarily performed by a local union, whether or not they are so designated.

⁷ Labor organizations required to report are those which perform, in a specific jurisdiction, the functions ordinarily performed by a local union, whether or not they are so designated.

⁸ This figure is based on the expanded frame of potentially eligible respondents and the response

rate for the most recently completed EEO-3 data collection (the 2022 EEO-3 data collection).

⁹ 42 U.S.C. 2000e-8(c).

¹⁰ The EEOC's EEO-3 regulation is at 29 CFR part 1602 subparts F and G. The EEOC is responsible for obtaining OMB's PRA approval for the EEO-3 report.

¹¹ Labor organizations required to report are those which perform, in a specific jurisdiction, the functions ordinarily performed by a local union, whether or not they are so designated.

¹² Beginning in 1986, the EEO-3 report has been collected biennially in even-numbered years. Prior to 1986, the EEO-3 report was collected annually.

agency’s data collections, including the EEO–3 data collection. Since OEDA’s creation in 2018, the EEOC has undertaken several efforts to modernize the agency’s data collections and improve the quality of data collected. OEDA also has streamlined functions, such as providing additional self-service options, resource materials, and an online support message center.

As part of these ongoing modernization efforts, and in response to a recent GAO report¹⁶ which recommended that the EEOC improve its approach to routinely identify local unions required to file the EEO–3 report, OEDA has undertaken measures to enhance the agency’s EEO–3 frame (*i.e.*, filer roster or master list) of potentially eligible filers. By comparing the EEOC’s 2022 EEO–3 frame to a list of active unions from the U.S. Department of Labor’s Office of Labor

Management Standards (OLMS) Online Public Disclosure Room (OPDR) database,¹⁷ OEDA identified more than 5,000 local unions that may be eligible to file during the next biennial EEO–3 data collection. With the addition of these unions to the EEO–3 frame and considering response rates during the 2022 EEO–3 data collection, OEDA now estimates 5,999 potential respondents to the agency’s next EEO–3 data collection.¹⁸

The EEOC has also updated its methodology for calculating the biennial burden of the EEO–3 data collection to better reflect the types of personnel responsible for preparing and filing these reports on behalf of their unions. Based upon job titles provided during the 2022 EEO–3 data collection by individuals completing the report within the *OFS*, the EEOC has identified four specific job categories that account

for the largest amount of time spent biennially on EEO–3 reporting. These job categories include: (1) Secretaries and Administrative Assistants; (2) Administrative Services and Facilities Managers; (3) Bookkeeping, Accounting, and Auditing Clerks; and (4) Executive-Level Staff.¹⁹

Additionally, the *OFS* captures detailed information on when each filer starts and certifies their report. The EEOC used this information from the most recent EEO–3 data collection (*i.e.*, 2022) to calculate more precise burden hour estimates.²⁰ As shown in Table 1 below, the estimated average hour burden per report is 1.49 hours. The total estimated biennial respondent burden for all filers is 8,922 hours. The estimated average burden hour cost per report is \$59.90, and the estimated total burden hour cost for all filers per biennial collection is \$359,091.

TABLE 1—PROJECTED BURDEN FOR EACH EEO–3 BIENNIAL REPORTING YEAR
[N = 5,999]

Staff job category	Percent in job category	Median hourly wage rate	Hours per report	Cost per report	Total burden hours	Total burden hour cost
Secretaries and Administrative Assistants	21.4	\$21.19	0.33	\$6.99	1,958	\$41,490
Administrative Services and Facilities Managers	56.5	48.98	0.84	41.14	5,046	247,153
Bookkeeping, Accounting, and Auditing Clerks	5.1	22.05	0.09	1.98	546	12,039
Executive-Level Staff	4.4	48.12	0.06	2.89	365	17,564
Other ^a	12.6	40.56	0.17	6.90	1,007	40,845
Total ^b			1.49	59.90	8,922	359,091

^a The average hourly wage rate for the “Other” category was derived by taking the weighted mean average of the hourly wage rates of the four BLS job categories listed in the above table.
^b These estimates are based upon filers’ use of the *OFS* to submit reports electronically because paper submissions are no longer accepted. Electronic filing remains the most efficient, accurate, and secure means of reporting for respondents required to submit EEO–3 data.

Dated: December 2, 2024.

FARM CREDIT ADMINISTRATION
Sunshine Act Meetings

TIME AND DATE: 10 a.m., Thursday, December 12, 2024.
PLACE: You may observe this meeting in person at 1501 Farm Credit Drive, McLean, Virginia 22102–5090, or virtually. If you would like to observe,

at least 24 hours in advance, visit FCA.gov, select “Newsroom,” then select “Events.” From there, access the linked “Instructions for board meeting visitors” and complete the described registration process.

STATUS: This meeting will be open to the public.

MATTERS TO BE CONSIDERED: The following matters will be considered:

- Approval of Minutes for November 14, 2024
- Quarterly Report on Economic Conditions and Farm Credit System Condition and Performance
- Semiannual Report on Office of Examination Operations

as the Commonwealth of Puerto Rico, the U.S. Virgin Islands, and the U.S. Possessions of American Samoa, Guam, Northern Mariana Islands, and Wake Island. Please note that 5,999 respondents may ultimately turn out to be an overestimate. Following the initial enhancement of the EEO–3 frame, collection data may yield an unknown number of ineligible filers.

¹⁹ Hourly wage rates for these four job categories were obtained from the U.S. Department of Labor’s Bureau of Labor Statistics (BLS) Occupational

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1042; FR ID 266288]

Information Collection Being Reviewed by the Federal Communications Commission**AGENCY:** Federal Communications Commission.**ACTION:** Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before February 4, 2025. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:*OMB Control No.:* 3060–1042.*Title:* Request for Technical Support—Help Request Form.*Form No.:* N/A—Electronic only.*Type of Review:* Extension of currently approved collection.*Respondents:* Individuals or household; business or other for-profit; not-for-profit institutions; and state, local or tribal government.*Number of Respondents and Responses:* 36,300 respondents and 36,300 responses.*Estimated Time per Response:* 0.14 hours.*Frequency of Response:* On occasion reporting requirement and recordkeeping requirement.*Obligation to Respond:* Required to obtain or retain benefits. There is no statutory authority for this information collection. The Commission developed this information collection on its own motion to assist users of the Universal Licensing System (ULS) or other FCC electronic systems.*Total Annual Burden:* 5,082 hours.*Total Annual Cost:* \$609,840.*Needs and Uses:* The FCC maintains internet software used by the public to apply for licenses, participate in auctions for spectrum, and maintain license information. In this mission, FCC has a 'help desk' that answers questions related to these systems as well as resetting and/or issuing user passwords for access to these systems.

The form currently is available on the website <https://esupport.fcc.gov/request.htm> under OMB Control Number 3060–1042. This form will continue to substantially decrease public and staff burden since all the information needed to facilitate a support request will be submitted in a standard format but be available to a wider audience. This eliminates or at least minimizes the need to follow-up with the customers to obtain all the information necessary to respond to their request. This form also helps presort requests into previously defined categories to all staff to respond more quickly.

Federal Communications Commission.

Marlene Dortch,*Secretary.*

SUPPLEMENTARY INFORMATION:*OMB Control Number:* 3060–1207.*Title:* Sections 25.701, Other DBS Public Interest Obligations, and 25.702, Other SDARS Public Interest Obligations.*Form Number:* None.*Type of Review:* Extension of an existing collection.*Respondents:* Business or other for profit entities.*Number of Respondents and Responses:* 3 respondents and 3 responses.

Estimated Hours per Response: 18 hrs.

Frequency of Response: On occasion reporting requirement, Recordkeeping requirement, Third party disclosure requirement.

Total Annual Burden: 54 hours.

Total Annual Cost: \$592.

Obligation to Respond: Required to be obtained or retained for benefits. The statutory authority for this information collection is contained in sections 154, 301, 302, 303, 307, 309, 319, 332, 605, and 721 of the Communications Act of 1934, as amended.

Needs and Uses: In 2012, the Commission replaced the decades-old requirement that commercial and noncommercial television stations maintain public files at their main studios with a requirement to post most of the documents in those files to a central, online public file hosted by the Commission. On January 28, 2016, the Commission adopted a Report and Order (“R&O”) in MB Docket No. 14–127, FCC 16–4, In the Matter of Expansion of Online Public File Obligations to Cable and Satellite TV Operators and Broadcast and Satellite Radio Licensees, expanding the requirement that public inspection files be posted to the FCC-hosted online public file database to satellite TV (also referred to as “Direct Broadcast Satellite” or “DBS”) providers and to satellite radio (also referred to as “satellite Digital Audio Radio Services” or “SDARS”) licensees, among other entities. The Commission stated that its goal is to make information that these entities are already required to make publicly available more accessible while also reducing costs both for the government and the public sector. The Commission took the same general approach to transitioning these entities to the online file that it took with television broadcasters in 2012, tailoring the requirements as necessary to the different services. The Commission also took similar measures to minimize the effort and cost entities must undertake to move their public files online. Specifically, the Commission required entities to upload to the online public file only documents that are not already on file with the Commission or that the Commission maintains in its own database. The Commission also exempted existing political file material from the online file requirement and required that political file documents be uploaded only on a going-forward basis.

The Commission first adopted a public inspection file requirement for broadcasters more than 40 years ago. The public file requirement grew out of Congress’ 1960 amendment of Sections

309 and 311 of the Communications Act of 1934. Finding that Congress, in enacting these provisions, was guarding “the right of the general public to be informed, not merely the rights of those who have special interests,” the Commission adopted the public inspection file requirement to “make information to which the public already has a right more readily available, so that the public will be encouraged to play a more active part in dialogue with broadcast licensees.” The information provided in the public file enables citizens to engage in an informed dialog with their local video provider or to file complaints regarding provider operations. Satellite TV (also known as “Direct Broadcast Satellite” or “DBS”) providers and satellite radio (also referred to as “Satellite Digital Audio Radio Services” or “SDARS”) licensees have public and political file requirements modeled, in large part, on the longstanding broadcast requirements. With respect to DBS providers, the Commission adopted public and political inspection file requirements in 1998 in conjunction with the imposition of certain public interest obligations, including political broadcasting requirements, on those entities. DBS providers were required to “abide by political file obligations similar to those requirements placed on terrestrial broadcasters and cable systems” and were also required to maintain a public file with records relating to other DBS public interest obligations. The Commission imposed equal employment opportunity and political broadcast requirements on SDARS licensees in 1997, noting that the rationale behind imposing these requirements on broadcasters also applies to satellite radio.

The information collection requirements contained in 47 CFR 25.701(d) require each DBS provider to keep and permit public inspection of a complete and orderly record (political file) of all requests for DBS origination time made by or on behalf of candidates for public office, together with an appropriate notation showing the disposition made by the provider of such requests, and the charges made, if any, if the request is granted. The disposition includes the schedule of time purchased, when the spots actually aired, the rates charged, and the classes of time purchased. Also, when free time is provided for use by or on behalf of candidates, a record of the free time provided is to be placed in the political file. All records required to be retained by this section must be placed in the political file as soon as possible and

retained for a period of two years. DBS providers must make available, by fax, email, or by mail upon telephone request, copies of documents in their political files and assist callers by answering questions about the contents of their political files. If a requester prefers access by mail, the DBS provider must pay for postage but may require individuals requesting documents to pay for photocopying. If a DBS provider places its political file on its website, it may refer the public to the website in lieu of mailing copies.

Any material required to be maintained in the political file must be made available to the public by either mailing or website access or both.

The information collection requirements contained in 47 CFR 25.701(d) require DBS providers to place all new political file material required to be retained by this section in the online file hosted by the Commission.

47 CFR 25.701(f)(6) information collection requirements require each DBS provider to maintain a public file containing a complete and orderly record of quarterly measurements of: Channel capacity and yearly average calculations on which it bases its four percent reservation, as well as its responses to any capacity changes; a record of entities to whom noncommercial capacity is being provided, the amount of capacity being provided to each entity, the conditions under which it is being provided and the rates, if any, being paid by the entity; and a record of entities that have requested capacity, disposition of those requests and reasons for the disposition. All records required by this provision must be placed in a file available to the public as soon as possible and be retained for a period of two years.

47 CFR 25.701(f)(6) to require DBS providers to place all public file material required to be retained by this section in the online file hosted by the Commission. Each DBS provider must place in the online file the records required to be placed in the public inspection file by 47 CFR 25.701(e)(commercial limits in children’s programs) and by 47 CFR 25.601 and Part 76, Subpart E (equal employment opportunity requirements) and retain those records for the period required by those rules. In addition, each DBS provider is required to provide a link to the public inspection file hosted on the Commission’s website from the home page of its own website, if the provider has a website, and provide on its website contact information for a representative who can assist any person with disabilities

with issues related to the content of the public files. Each DBS provider is also required to include in the online public file the name, phone number, and email address of the licensee's designated contact for questions about the public file, and include in the online public file the address of the provider's local public file if the provider retains documents in the local public file that are not available in the Commission's online file.

47 CFR 25.702(b) requires each SDARS licensee to maintain a complete and orderly record (political file) of all requests for SDARS origination time made by or on behalf of candidates for public office, together with the disposition made by the provider of such requests, and the charges made, if any, if the request is granted. The disposition must include the schedule of time purchased, when the spots actually aired, the rates charged, and the classes of time purchased. Also, when free time is provided for use by or on behalf of candidates, a record of the free time provided is to be placed in the political file. SDARS licensees are required to place all records required by this section in the political file as soon as possible and retain the record for a period of two years.

The information collection requirements contained in 47 CFR 25.702(c) require each SDARS applicant or licensee to place in the online file hosted by the Commission the records required to be placed in the public inspection file by 47 CFR 25.601 and 73.2080 (equal employment opportunities) and to retain those records for the period required by those rules. Each SDARS licensee must provide a link to the public inspection file hosted on the Commission's website from the home page of its own website, if the licensee has a website, and provide on its website contact information for a representative who can assist any person with disabilities with issues related to the content of the public files. Each SDARS licensee is also required to include in the online public file the name, phone number, and email address of the licensee's designated contact for questions about the public file, and include in the online public file the address of the provider's local public file if the provider retains documents in the local public file that are not available in the Commission's online file.

Federal Communications Commission.

BILLING CODE 6712-01-P

FEDERAL MARITIME COMMISSION

[Docket No. FMC-2024-0022]

Investigation Into Conditions Affecting Shipping in the Foreign Trade and Denial of Entry of Vessels Into Spanish Ports

AGENCY: Federal Maritime Commission.

ACTION: Notice of investigation and request for comments.

SUMMARY: The Federal Maritime Commission has initiated an investigation into reports that the Government of Spain (Spain) is creating conditions unfavorable to shipping in the foreign trade of the United States by denying entry to its ports to certain vessels, including those participating in the Maritime Security Program.

DATES: Submit comments on or before December 26, 2024.

ADDRESSES: You may submit comments, identified by Docket No. FMC-2024-0022, by the following method:

Federal eRulemaking Portal: Your comments must be written and in English. You may submit your comments electronically through the Federal eRulemaking Portal at www.regulations.gov. To submit comments on that site, search for Docket No. FMC-2024-0022 and follow the instructions provided.

FOR FURTHER INFORMATION CONTACT: For questions regarding submitting comments or the treatment of any confidential information, contact David Eng, Secretary; Phone: (202) 523-5725; Email: Secretary@fmc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

On November 19, 2024, the Federal Maritime Commission (Commission) was informed that Spain had denied entry to its ports to at least three vessels, including some that are participants in the United States Maritime Administration's (MARAD) Maritime Security Program (MSP). The Commission is concerned that this apparent policy of denying entry to certain vessels will create conditions unfavorable to shipping in the foreign trade, whether in a particular route or in commerce generally. Chapter 421 of U.S. Code Title 46, section 42101, authorizes the Commission to investigate and, if necessary, adopt regulations to adjust or meet such conditions. Remedies under Chapter 421 include, but are not limited to, refusal of entry to vessels of a country that is named in the Commission's regulations and fines of up to

\$2,304,629 per voyage. 46 U.S.C. 42106(4), 42107(1)(a); 46 CFR part 506.

II. Summary of Investigation

The Commission's statutory authority includes the mandate to monitor and evaluate conditions that affect shipping in the foreign trade of the United States. 46 U.S.C. 42101(a).¹ Chapter 421 encourages the maintenance of a United States merchant marine for the national defense and the development of domestic and foreign commerce. 46 U.S.C. 50101(b). Under a separate statutory provision, the Commission can also investigate whether a foreign government is unduly impairing the access of a vessel documented under the laws of the United States to ocean trade between foreign ports and take any action it finds appropriate to remedy any such violation. 46 U.S.C. 41108(d).

The Commission has consistently held that its powers do not only protect United States flagged shipping, and that foreign governmental actions that are detrimental to third-flag carriers can create conditions unfavorable to shipping in the United States foreign trade within the meaning of Chapter 421. *Petition of Ace Line*, 19 S.R.R. 481, 482 (FMC 1979). In the past, the Commission has investigated port practices in Japan that included restrictive and discriminatory licensing practices and refusals to grant licenses to United States carriers. *Port Restrictions and Requirements in the United States/Japan Trade*, 62 FR 9696, 9699 (March 4, 1997). The Commission has also investigated conditions created in the United States-Korea, United States-Taiwan, and United States-Venezuela trades. See Randy L. Baldemor, Comment *Federal Maritime Commission Sanctions on Japanese Carriers: A Call for Fairer Methods of Resolving Disputes*, 8 Pac. Rim L & Pol'y J. 109, at 116 (1999).

The Commission received information on November 19, 2024, indicating that Spain is denying entry into Spanish ports to certain vessels. Spain appears to have denied docking privileges to the Maersk Denver in early November. *Maersk Line Vessel Diverts to Morocco Due to Allegations in Spain*, The Maritime Executive, November 11, 2024 (available at <https://maritime-executive.com/article/maersk-line-vessel-diverts-to-morocco-due-to>).

¹ The Commission may also investigate whether a foreign government or carrier's practices result in adverse impacts on United States carriers or United States oceanborne trade or creates conditions that do not exist for foreign carriers in the United States under the laws of the United States. 46 U.S. Code, Chapter 423. At this time, the Commission is not initiating an investigation pursuant to Chapter 423.

allegations-in-spain) (last visited November 20, 2024). That vessel was owned and operated by a participant in the MARAD MSP Fleet and the vessel appears to have been receiving a retainer from MARAD in exchange for availability during times of need. See Maritime Security Program | MARAD, (<https://www.maritime.dot.gov/national-security/strategic-sealift/maritime-security-program-msp>) (last visited November 20, 2024). Spain also appears to have denied entry to the Maersk Seletar, another MSP participant vessel, in early November.² Though not a participant in the MSP, another vessel appears to have been refused docking privileges in May. *Spain Denies Port of Call to Ship Carrying Arms to Israel*, The Guardian, May 16, 2024 (available at <https://www.theguardian.com/world/article/2024/may/16/spain-denies-port-of-call-to-ship-carrying-arms-to-israel>) (last accessed November 20, 2024).

MARAD's MSP maintains a fleet of commercially viable, militarily useful merchant ships active in international trade. The MSP fleet is available to support U.S. Department of Defense (DoD) sustainment sealift requirements during times of conflict or in other national emergencies. The program also provides DoD access to MSP participants' global intermodal transportation network of terminals, facilities, logistic management services, and U.S. citizen merchant mariners.

The Commission's statutory purposes include ensuring an efficient, competitive, and economical transportation system in the United States, encouraging the development of an economically sound and efficient liner fleet capable of meeting national security needs and supporting commerce, and promoting the growth and development of United States exports through competitive and efficient carriage of goods by water. 46 U.S.C. 40101. A law or policy by a foreign government that refuses entry to vessels documented under the laws of the United States is inconsistent with the Commission's goal of ensuring access to and supporting the complex and interdependent system for the common carriage of goods by water in foreign commerce. The Commission has therefore determined that it will investigate the apparent decision by Spain to deny entry to vessels participating in MARAD's MSP, as well as its apparent decision to deny entry to other vessels.

At this initial stage of the investigation, the Commission will focus on providing a route for interested parties, including the Government of Spain and common carriers that have been denied entry into Spanish ports, to provide information, perspectives, and proposed solutions.

III. Investigation and Initial Request for Comments

The Commission has determined that the above situation meets the threshold requirements for consideration under the relevant statutory and regulatory authority. See 46 U.S.C. 42101; 46 CFR part 550. The Commission therefore initiates an investigation into whether the situation has created conditions that are unfavorable to shipping in foreign trade, whether in a particular trade or on a particular route or in commerce generally. See 46 U.S.C. 42101(a); 46 CFR 550.301. To that end, the Commission has designated the General Counsel to lead an investigation into the conditions and to prepare a report on the investigation's findings and recommendations for Commission consideration. The Commission has further determined to ask interested persons to submit written comments containing arguments, experiences, and/or data relevant to denials of entry into Spanish ports. In particular, the Commission seeks information about when this has occurred, the vessels that have been denied entry, and any reason or reasons given for the denial.

The Commission's jurisdiction under 46 U.S.C. 42101 is broad, and the agency welcomes comments not only from the Government of Spain, but also from container shipping interests, vessel owners, individuals and groups with relevant information on commercial considerations, and anyone else with relevant information or perspectives on this matter.

As the Commission proceeds with this investigation, it may determine to request additional comment or gather information through other means as authorized under 46 U.S.C. 40104 and 42104, and 46 CFR part 550.

By the Commission.

David Eng,
Secretary.

BILLING CODE 6730-02-P

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

Sunshine Act Meetings

TIME AND DATE: 10 a.m., Tuesday, December 17, 2024.

PLACE: The Richard V. Backley Hearing Room, Room 511, 1331 Pennsylvania Avenue NW, Suite 504 North, Washington, DC 20004 (enter from F Street entrance).

STATUS: Open.

MATTERS TO BE CONSIDERED: The Commission will consider and act upon the following in open session: *Mallery v. El Segundo Coal Co., LLC*, Docket No. CENT 2024-0106. (Issues include whether the Judge erred in finding no adverse action, and whether the Judge erred in issuing show cause orders.)

Any person attending this meeting who requires special accessibility features and/or auxiliary aids, such as sign language interpreters, must inform the Commission in advance of those needs. Subject to 29 CFR 2706.150(a)(3) and 2706.160(d).

CONTACT PERSON FOR MORE INFORMATION: Emogene Johnson (202) 434-9935/(202) 708-9300 for TDD. Relay/1-800-877-8339 for toll free.

Phone Number for Listening to Meeting: 1-(866) 236-7472. Passcode: 678-100.

Authority: 5 U.S.C. 552b.

Dated: December 4, 2024.

Sarah L. Stewart,

Deputy General Counsel.

BILLING CODE 6735-01-P

FEDERAL RESERVE SYSTEM

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Notice, request for comment.

SUMMARY: The Board of Governors of the Federal Reserve System (Board) invites comment on a proposal to extend for three years, without revision, the Application to Become a Savings and Loan Holding Company or to Acquire a Savings Association or Savings and Loan Holding Company (FR LL-10(e); OMB No. 7100-0336).

DATES: Comments must be submitted on or before February 4, 2025.

ADDRESSES: You may submit comments, identified by FR LL-10(e), by any of the following methods:

² See also <https://www.maritime.dot.gov/sites/marad.dot.gov/files/2022-08/MSP%20Fleet%20%208-1-2022.pdf> for a list of vessels participating in the MSP.

- *Agency website:* <https://www.federalreserve.gov/>. Follow the instructions for submitting comments, including attachments. *Preferred method.*

- *Mail:* Ann E. Misback, Secretary, Board of Governors of the Federal Reserve System, 20th Street and Constitution Avenue NW, Washington, DC 20551.

- *Hand Delivery/Courier:* Same as mailing address.

- *Other Means:* publiccomments@frb.gov. You must include the OMB number or the FR number in the subject line of the message.

Comments received are subject to public disclosure. In general, comments received will be made available on the Board's website at <https://www.federalreserve.gov/apps/proposals/> without change and will not be modified to remove personal or business information including confidential, contact, or other identifying information. Comments should not include any information such as confidential information that would be not appropriate for public disclosure. Public comments may also be viewed electronically or in person in Room M-4365A, 2001 C St. NW, Washington, DC 20551, between 9 a.m. and 5 p.m. during Federal business weekdays.

Additionally, commenters may send a copy of their comments to the Office of Management and Budget (OMB) Desk Officer for the Federal Reserve Board, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, 725 17th Street NW, Washington, DC 20503, or by fax to (202) 395-6974.

FOR FURTHER INFORMATION CONTACT: Federal Reserve Board Clearance Officer—Nuha Elmaghrabi—Office of the Chief Data Officer, Board of Governors of the Federal Reserve System, nuha.elmaghrabi@frb.gov, (202) 452-3884.

SUPPLEMENTARY INFORMATION: On June 15, 1984, OMB delegated to the Board authority under the Paperwork Reduction Act (PRA) to approve and assign OMB control numbers to collections of information conducted or sponsored by the Board. In exercising this delegated authority, the Board is directed to take every reasonable step to solicit comment. In determining whether to approve a collection of information, the Board will consider all comments received from the public and other agencies.

During the comment period for this proposal, a copy of the proposed PRA

OMB submission, including the draft reporting form and instructions, supporting statement (which contains more detail about the information collection and burden estimates than this notice), and other documentation, will be made available on the Board's public website at <https://www.federalreserve.gov/apps/reportingforms/home/review> or may be requested from the agency clearance officer, whose name appears above. On the page displayed at the link above, you can find the supporting information by referencing the collection identifier, FR LL-10(e). Final versions of these documents will be made available at <https://www.reginfo.gov/public/do/PRAMain>, if approved.

Request for Comment on Information Collection Proposal

The Board invites public comment on the following information collection, which is being reviewed under authority delegated by the OMB under the PRA. Comments are invited on the following:

- Whether the proposed collection of information is necessary for the proper performance of the Board's functions, including whether the information has practical utility;

- The accuracy of the Board's estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used;

- Ways to enhance the quality, utility, and clarity of the information to be collected;

- Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

- Estimates of capital or startup costs and costs of operation, maintenance, and purchase of services to provide information.

At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the Board should modify the proposal.

Proposal Under OMB Delegated Authority To Extend for Three Years, Without Revision, the Following Information Collection

Collection title: Application to Become a Savings and Loan Holding Company or to Acquire a Savings Association or Savings and Loan Holding Company.

Collection identifier: FR LL-10(e).
OMB control number: 7100-0336.

General description of collection: This information collection must be filed in

connection with certain proposals involving the formation, acquisition, or merger of a savings and loan holding company (SLHC); the acquisition by an SLHC of a savings association or its assets; and the acquisition of control of a savings association by certain individuals associated with an SLHC. The Board requires the submission of this filing from an applicant for regulatory and supervisory purposes and to allow the Board to fulfill its statutory obligations to review these transactions under section 10(e) of the Home Owners' Loan Act (HOLA) (12 U.S.C. 1461 *et seq.*) and the Board's Regulation LL—Savings and Loan Holding Companies (12 CFR 238.11).

Frequency: Event generated.

Respondents: Entities seeking prior approval to become or acquire an SLHC or merge SLHCs; SLHCs seeking to acquire a savings association or all or substantially all of the assets of a savings association or SLHC; and directors or officers of an SLHC, or any individual who owns, controls, or holds the power to vote (or holds proxies representing) more than 25 percent of the voting shares of an SLHC seeking control of any savings association that is not a subsidiary of such SLHC.

Total estimated number of respondents: 7.

Total estimated annual burden hours: 428.

Board of Governors of the Federal Reserve System, December 2, 2024.

Benjamin W. McDonough,

Deputy Secretary and Ombuds of the Board.

In exercising this delegated authority, the Board is directed to take every reasonable step to solicit comment. In determining whether to approve a collection of information, the Board will consider all comments received from the public and other agencies.

During the comment period for this proposal, a copy of the proposed PRA OMB submission, including the draft reporting form and instructions,

supporting statement (which contains more detail about the information collection and burden estimates than this notice), and other documentation, will be made available on the Board's public website at <https://www.federalreserve.gov/apps/reportingforms/home/review> or may be requested from the agency clearance officer, whose name appears above. On the page displayed at the link above, you can find the supporting information by referencing the collection identifier, FR 2510. Final versions of these documents will be made available at <https://www.reginfo.gov/public/do/PRAMain>, if approved.

Request for Comment on Information Collection Proposal

The Board invites public comment on the following information collection, which is being reviewed under authority delegated by the OMB under the PRA. Comments are invited on the following:

- Whether the proposed collection of information is necessary for the proper performance of the Board's functions, including whether the information has practical utility;

- The accuracy of the Board's estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used;

- Ways to enhance the quality, utility, and clarity of the information to be collected;

- Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

- Estimates of capital or startup costs and costs of operation, maintenance, and purchase of services to provide information.

At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the Board should modify the proposal.

Proposal Under OMB Delegated Authority To Extend for Three Years, Without Revision, the Following Information Collection

Collection title: Report of Institution-to-Aggregate Granular Data on Assets and Liabilities on an Immediate Counterparty Basis.

Collection identifier: FR 2510.

OMB control number: 7100-0376.

General description of collection: The FR 2510 collects granular exposure data on the assets, liabilities, and off-balance sheet holdings of certain large banking organizations, providing breakdowns by

country, instrument, currency, maturity, sector, and other factors. The FR 2510 also collects country exposure data on an immediate counterparty basis and detailed information on firms' derivatives exposures. The information collected by the FR 2510 supports the Board's supervision of global systemically important bank holding companies (BHCs) by allowing for a more complete balance sheet analysis of these firms and allows the Board to more closely monitor the systemic impacts of such firms' activities and investments.

The Board makes available on its public website the instructions for the FR 2510, Report of Institution-to-Aggregate Granular Data on Assets and Liabilities on an Immediate Counterparty Basis, which are currently in a two-column format. To improve readability on electronic devices, the Board is considering updating the instructions to a one-column format.

Frequency: Quarterly.

Respondents: Any BHC that is organized under the laws of the United States or any U.S. state and that is identified as a global systemically important BHC under the Board's Regulation Q.

Total estimated number of respondents: 8.

Total estimated annual burden hours: 18,528.

Board of Governors of the Federal Reserve System, December 2, 2024.

Benjamin W. McDonough,

Deputy Secretary and Ombuds of the Board.

SUPPLEMENTARY INFORMATION: On June 15, 1984, OMB delegated to the Board authority under the Paperwork Reduction Act (PRA) to approve and assign OMB control numbers to collections of information conducted or sponsored by the Board. In exercising this delegated authority, the Board is directed to take every reasonable step to solicit comment. In determining whether to approve a collection of information, the Board will consider all comments received from the public and other agencies.

During the comment period for this proposal, a copy of the proposed PRA OMB submission, including the draft reporting form and instructions, supporting statement (which contains more detail about the information collection and burden estimates than this notice), and other documentation, will be made available on the Board's public website at <https://www.federalreserve.gov/apps/reportingforms/home/review> or may be requested from the agency clearance officer, whose name appears above. On the page displayed at the link above, you can find the supporting information by referencing the collection identifier, FR 1413. Final versions of these documents will be made available at <https://www.reginfo.gov/public/do/PRAMain>, if approved.

Request for Comment on Information Collection Proposal

The Board invites public comment on the following information collection, which is being reviewed under authority delegated by the OMB under the PRA. Comments are invited on the following:

a. Whether the proposed collection of information is necessary for the proper performance of the Board's functions, including whether the information has practical utility;

b. The accuracy of the Board's estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected;

d. Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

e. Estimates of capital or startup costs and costs of operation, maintenance, and purchase of services to provide information.

At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the Board should modify the proposal.

Proposal Under OMB Delegated Authority To Implement the Following Information Collection

Collection title: Discrimination Complaint Forms.

Collection identifier: FR 1413.

OMB control number: 7100-NEW.

General description of collection: The FR 1413 consists of two forms: the Pre-Complaint of Discrimination (FR 1413A) and the Formal Complaint of Discrimination (FR 1413B). These forms are used by individuals alleging discrimination by the Board while they were either applying for or had separated from employment with the Board.

Frequency: Event-generated.

Respondents: Individuals.

Total estimated number of respondents: FR 1413A, 1; FR 1413B, 3.

Total estimated annual burden hours: 3.

Board of Governors of the Federal Reserve System, December 2, 2024.

Benjamin W. McDonough,

Deputy Secretary and Ombuds of the Board.

BILLING CODE 6210-01-P

FEDERAL RESERVE SYSTEM

Agency Information Collection Activities: Announcement of Board Approval Under Delegated Authority and Submission to OMB

AGENCY: Board of Governors of the Federal Reserve System.

SUMMARY: The Board of Governors of the Federal Reserve System (Board) is adopting a proposal to extend for three years, with revision, the Structure Reporting and Recordkeeping Requirements for Domestic and Foreign Banking Organizations (FR Y-6, FR Y-7, FR Y-10, and FR Y-10E; OMB No. 7100-0297).

DATES: The revisions for the option of electronic submission and the due date change are effective December 31, 2024; the standard templates is December 31, 2025; and the automation of the FR Y-7 report is December 31, 2026.

FOR FURTHER INFORMATION CONTACT: Federal Reserve Board Clearance Officer—Nuha Elmaghrahi—Office of the Chief Data Officer, Board of Governors of the Federal Reserve System, nuha.elmaghrabi@frb.gov, (202) 452-3884.

Office of Management and Budget (OMB) Desk Officer for the Federal Reserve Board, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, 725 17th Street NW, Washington, DC 20503, or by fax to (202) 395-6974.

SUPPLEMENTARY INFORMATION: On June 15, 1984, OMB delegated to the Board authority under the Paperwork Reduction Act (PRA) to approve and assign OMB control numbers to collections of information conducted or sponsored by the Board. Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. The OMB inventory, as well as copies of the PRA Submission, supporting statements (which contain more detailed information about the information collections and burden estimates than this notice), and approved collection of information instrument(s) are available at <https://www.reginfo.gov/public/do/PRAMain>. These documents are also available on the Federal Reserve Board's public website at <https://www.federalreserve.gov/apps/reportingforms/home/review> or may be requested from the agency clearance officer, whose name appears above. On the page displayed at the link above, you can find the supporting information by referencing the collection identifier,

FR Y-6, FR Y-7, FR Y-10, and FR Y-10E.

Final Approval Under OMB Delegated Authority of the Extension for Three Years, With Revision, of the Following Information Collection

Collection title: Structure Reporting and Recordkeeping Requirements for Domestic and Foreign Banking Organizations.

Collection identifier: FR Y-6, FR Y-7, FR Y-10, and FR Y-10E.

OMB control number: 7100-0297.

General description of collection: This information collection comprises the following four reports:

Annual Report of Holding Companies (FR Y-6), which collects financial and organizational information from holding companies (HCs) and foreign banking organizations (FBOs) that are not "qualifying" FBOs under section 211.23 of the Board's Regulation K—International Banking Operations (12 CFR part 211),

Annual Report of Foreign Banking Organizations (FR Y-7), which collects financial and organizational information from qualifying FBOs,

Report of Changes in Organizational Structure (FR Y-10), which is an event-generated report that captures changes in organizational structure or regulated investments and activities of various Board-supervised entities, and

Supplement to the Report of Changes in Organizational Structure (FR Y-10E), which is a formless supplement to the FR Y-10 that the Board may use to collect additional structural information on an emergency basis.

Frequency: Annual, event-generated.

Respondents: The FR Y-6 panel comprises top-tier bank holding companies (BHCs), savings and loan holding companies (SLHCs), employee stock ownership plans (ESOPs) and employee share ownership trusts (ESOTs) or trusts that are BHCs or SLHCs, securities holding companies, intermediate holding companies (IHCs), and any FBO that does not meet the requirements of and is not treated as a qualifying FBO under Regulation K.

The FR Y-7 panel comprises all qualifying FBOs that engage in banking in the United States, either directly or indirectly.

The FR Y-10 and FR Y-10E panels comprise top-tier BHCs (including ESOPs or ESOTs that are BHCs and financial holding companies); top-tier SLHCs, including ESOPs, ESOTs, or trusts that are SLHCs pursuant to Regulation LL; FBOs; state member banks that are not controlled by an HC; Edge and agreement corporations that are not controlled by a member bank, a

domestic HC, or an FBO; and nationally chartered banks that are not controlled by a BHC or an FBO (with regard to their foreign investments only); and securities holding companies.

Total estimated number of respondents:

FR Y-6—3,760.

FR Y-7—205.

FR Y-10 and FR Y-10E—3,790.

Estimated average hours per response:

Reporting

FR Y-6—2.5.

FR Y-7 Initial—10.10.

FR Y-7 Ongoing—4.63.

FR Y-10—2.5.

FR Y-10E—0.5.

Recordkeeping

FR Y-6—0.5.

FR Y-10—0.5.

Total estimated change in burden:
1,284.

Total estimated annual burden hours:

Reporting

FR Y-6—9,400.

FR Y-7 Initial—2,071.

FR Y-7 Ongoing—949.

FR Y-10—33,153.

FR Y-10E—1,895.

Recordkeeping

FR Y-6—1,880.

FR Y-10—6,631.

Current actions: On March 29, 2024, the Board published a notice in the **Federal Register** (89 FR 22145) requesting public comment for 60 days on the extension, with revision, of the FR Y-6, FR Y-7, FR Y-10, and FR Y-10E reports. The Board proposed to revise the FR Y-7 report by adding an electronic submission option and adding standard templates for reporting (1) financial statements, (2) organizational charts, (3) information about shares and shareholders, (4) a firm's eligibility as a qualified FBO, and (5) a firm's compliance with prudential standards. The proposal would also make minor clarifications and conforming edits to the FR Y-7 forms and instructions. The proposal included no changes to the FR Y-6, FR Y-10, or FR Y-10E. The comment period for this notice expired on May 28, 2024. The Board received one comment letter from an individual.

Detailed Discussion of Public Comments

The commenter remarked that the FR Y-6 allows a bank holding company (BHC) to request confidential treatment regarding insider ownership information and asked that this ability be removed. A reporter may request

confidential treatment for any information submitted on the FR Y-6 that the reporter believes is exempt from disclosure under the Freedom of Information Act (FOIA). The Board may grant a request for confidential treatment if the institution clearly has provided a compelling justification for the request. It is the Board's practice to favor disclosure of principal securities holders' information, but have granted past requests for confidential treatment, consistent with FOIA exemptions, when there was evidence of a well-defined present threat to the liberty or personal security of individuals. For this reason, the Board is maintaining the current process used to fulfill our obligation to consider requests for confidential treatment.

The commenter also noted that individual Federal Reserve districts differ from each other on the ease of public access to FR Y-6 submissions and asks the Board to create a single, publicly accessible, nationwide FR Y-6 database. The Board will take this into consideration during future technology enhancements for the FR Y-6. Additionally, limited structural data from the information collection are published on the National Information Center's public website at <https://www.ffiec.gov/NPW>.

Lastly, the Board will delay the effective dates for the standard templates to December 31, 2025, and the automation changes to December 31, 2026. Delaying these effective dates will allow sufficient time for the development of the necessary technology to support the changes in the proposal. Aside from this change, the Board adopted the extension, with revision, of the FR Y-7 report as originally proposed.

Board of Governors of the Federal Reserve System, December 2, 2024.

Benjamin W. McDonough,

Deputy Secretary and Ombuds of the Board.

BILLING CODE 6210-01-P

FEDERAL RESERVE SYSTEM

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Notice, request for comment.

SUMMARY: The Board of Governors of the Federal Reserve System (Board) invites comment on a proposal to extend for three years, without revision, the

Computer-Security Incident Notification (FR 2231; OMB No. 7100-0384).

DATES: Comments must be submitted on or before February 4, 2025.

ADDRESSES: You may submit comments, identified by FR 2231, by any of the following methods:

- **Agency website:** <https://www.federalreserve.gov/>. Follow the instructions for submitting comments at, including attachments. *Preferred method.*

- **Mail:** Ann E. Misback, Secretary, Board of Governors of the Federal Reserve System, 20th Street and Constitution Avenue NW, Washington, DC 20551.

- **Hand Delivery/Courier:** Same as mailing address.

- **Other Means:** publiccomments@frb.gov. You must include the OMB number or the FR number in the subject line of the message.

Comments received are subject to public disclosure. In general, comments received will be made available on the Board's website at <https://www.federalreserve.gov/apps/proposals/> without change and will not be modified to remove personal or business information including confidential, contact, or other identifying information. Comments should not include any information such as confidential information that would be not appropriate for public disclosure. Public comments may also be viewed electronically or in person in Room M-4365A, 2001 C St. NW, Washington, DC 20551, between 9 a.m. and 5 p.m. during Federal business weekdays.

Additionally, commenters may send a copy of their comments to the Office of Management and Budget (OMB) Desk Officer for the Federal Reserve Board, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, 725 17th Street NW, Washington, DC 20503, or by fax to (202) 395-6974.

FOR FURTHER INFORMATION CONTACT:

Federal Reserve Board Clearance Officer—Nuha Elmaghrabi—Office of the Chief Data Officer, Board of Governors of the Federal Reserve System, nuha.elmaghrabi@frb.gov, (202) 452-3884.

SUPPLEMENTARY INFORMATION: On June 15, 1984, OMB delegated to the Board authority under the Paperwork Reduction Act (PRA) to approve and assign OMB control numbers to collections of information conducted or sponsored by the Board. In exercising this delegated authority, the Board is directed to take every reasonable step to

solicit comment. In determining whether to approve a collection of information, the Board will consider all comments received from the public and other agencies.

During the comment period for this proposal, a copy of the proposed PRA OMB submission, including the draft reporting form and instructions, supporting statement (which contains more detail about the information collection and burden estimates than this notice), and other documentation, will be made available on the Board's public website at <https://www.federalreserve.gov/apps/reportingforms/review> or may be requested from the agency clearance officer, whose name appears above. On the page displayed at the link above, you can find the supporting information by referencing the collection identifier, FR 2231. Final versions of these documents will be made available at <https://www.reginfo.gov/public/do/PRAMain>, if approved.

Request for Comment on Information Collection Proposal

The Board invites public comment on the following information collection, which is being reviewed under authority delegated by the OMB under the PRA. Comments are invited on the following:

a. Whether the proposed collection of information is necessary for the proper performance of the Board's functions, including whether the information has practical utility;

b. The accuracy of the Board's estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected;

d. Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

e. Estimates of capital or startup costs and costs of operation, maintenance, and purchase of services to provide information.

At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the Board should modify the proposal.

Proposal Under OMB Delegated Authority To Extend for Three Years, Without Revision, the Following Information Collection

Collection title: Computer-Security Incident Notification.

Collection identifier: FR 2231.

OMB control number: 7100-0384.

General description of collection: A banking organization is required to notify its primary Federal banking regulator of any "computer-security incident" that rises to the level of a "notification incident," as soon as possible and no later than 36 hours after the banking organization determines that a notification incident has occurred (see 12 CFR 225.301(b)). A bank service provider is required to notify each affected banking organization customer as soon as possible when the bank service provider determines that it has experienced a computer-security incident, that has caused, or is reasonably likely to cause, a material service disruption or degradation for four or more hours.

Frequency: Event generated.

Respondents: U.S. bank holding companies, U.S. savings and loan holding companies, state member banks, U.S. operations of foreign banking organizations, Edge or agreement corporations, and bank service providers.

Total estimated number of respondents: 95.

Total estimated annual burden hours: 285.

Board of Governors of the Federal Reserve System, December 2, 2024.

Benjamin W. McDonough,

Deputy Secretary and Ombuds of the Board.

BILLING CODE 6210-01-P

FEDERAL TRADE COMMISSION

[File No. 241 0082]

Guardian Service Industries, Inc.; Analysis of Agreement Containing Consent Order To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Proposed consent agreement; request for comment.

SUMMARY: The consent agreement in this matter settles alleged violations of Federal law prohibiting unfair methods of competition. The attached Analysis of Proposed Consent Order to Aid Public Comment describes both the allegations in the complaint and the terms of the consent order—embodied in the consent agreement—that would settle these allegations.

DATES: Comments must be received on or before January 6, 2025.

ADDRESSES: Interested parties may file comments online or on paper by following the instructions in the

Request for Comment part of the **SUPPLEMENTARY INFORMATION** section below. Please write: "Guardian; File No. 241 0082" on your comment and file your comment online at <https://www.regulations.gov> by following the instructions on the web-based form. If you prefer to file your comment on paper, please mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW, Mail Stop H-144 (Annex H), Washington, DC 20580.

FOR FURTHER INFORMATION CONTACT: Erik Herron (202-326-3535), Bureau of Competition, Federal Trade Commission, 400 7th Street SW, Washington, DC 20024.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 15 U.S.C. 46(f), and FTC Rule § 2.34, 16 CFR 2.34, notice is hereby given that the above-captioned consent agreement containing a consent order to cease and desist, having been filed with and accepted, subject to final approval, by the Commission, has been placed on the public record for a period of 30 days. The following Analysis of Agreement Containing Consent Order to Aid Public Comment describes the terms of the consent agreement and the allegations in the complaint. An electronic copy of the full text of the consent agreement package can be obtained from the FTC website at this web address: <https://www.ftc.gov/news-events/commission-actions>.

The public is invited to submit comments on this document. For the Commission to consider your comment, we must receive it on or before January 6, 2025. Write "Guardian; File No. 241 0082" on your comment. Your comment—including your name and your State—will be placed on the public record of this proceeding, including, to the extent practicable, on the <https://www.regulations.gov> website.

Because of the agency's heightened security screening, postal mail addressed to the Commission will be delayed. We strongly encourage you to submit your comments online through the <https://www.regulations.gov> website. If you prefer to file your comment on paper, write "Guardian; File No. 241 0082" on your comment and on the envelope, and mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW, Mail Stop H-144 (Annex H), Washington, DC 20580.

Because your comment will be placed on the publicly accessible website at <https://www.regulations.gov>, you are

solely responsible for making sure your comment does not include any sensitive or confidential information. In particular, your comment should not include sensitive personal information, such as your or anyone else's Social Security number; date of birth; driver's license number or other State identification number; or foreign country equivalent; passport number; financial account number; or credit or debit card number. You are also solely responsible for making sure your comment does not include sensitive health information, such as medical records or other individually identifiable health information. In addition, your comment should not include any "trade secret or any commercial or financial information which . . . is privileged or confidential"—as provided by section 6(f) of the FTC Act, 15 U.S.C. 46(f), and FTC Rule § 4.10(a)(2), 16 CFR 4.10(a)(2)—including competitively sensitive information such as costs, sales statistics, inventories, formulas, patterns, devices, manufacturing processes, or customer names.

Comments containing material for which confidential treatment is requested must be filed in paper form, must be clearly labeled "Confidential," and must comply with FTC Rule § 4.9(c). In particular, the written request for confidential treatment that accompanies the comment must include the factual and legal basis for the request and must identify the specific portions of the comment to be withheld from the public record. *See* FTC Rule § 4.9(c). Your comment will be kept confidential only if the General Counsel grants your request in accordance with the law and the public interest. Once your comment has been posted on <https://www.regulations.gov>—as legally required by FTC Rule § 4.9(b)—we cannot redact or remove your comment from that website, unless you submit a confidentiality request that meets the requirements for such treatment under FTC Rule § 4.9(c), and the General Counsel grants that request.

Visit the FTC website at <https://www.ftc.gov> to read this document and the news release describing this matter. The FTC Act and other laws the Commission administers permit the collection of public comments to consider and use in this proceeding, as appropriate. The Commission will consider all timely and responsive public comments it receives on or before January 6, 2025. For information on the Commission's privacy policy, including routine uses permitted by the Privacy Act, see <https://www.ftc.gov/site-information/privacy-policy>.

Analysis of Agreement Containing Consent Order To Aid Public Comment

I. Introduction

The Federal Trade Commission ("Commission") has accepted for public comment, subject to final approval, an Agreement Containing Consent Order ("Consent Agreement") with Guardian Service Industries, Inc. ("Guardian" or "Respondent"). The proposed Decision and Order ("Order"), included in the Consent Agreement and subject to final Commission approval, is designed to remedy the anticompetitive effects that have resulted from Guardian's use of restrictive covenants in some of its contracts with building owners and managers that limit the ability of those building owners and managers to solicit or hire Respondent's employees ("No-Hire Agreements"). The term No-Hire Agreement refers to a term in an agreement between two or more companies that restricts, imposes conditions on, or otherwise limits a company's ability to solicit, recruit, or hire another company's employees, during employment or afterwards, directly or indirectly, including by imposing a fee or damages in connection with such conduct, or that otherwise inhibits competition between companies for each other's employees' services.

The Consent Agreement settles charges that Guardian has engaged in unfair methods of competition in violation of section 5 of the FTC Act, as amended, 15 U.S.C. 45, by entering into No-Hire Agreements with customers. Guardian's No-Hire Agreements constitute unreasonable restraints of trade that are unlawful under section 1 of the Sherman Act, 15 U.S.C. 1, and are thus unfair methods of competition in violation of section 5 of the FTC Act. Independent of the Sherman Act, Guardian's use of the No-Hire Agreements constitutes an unfair method of competition with a tendency or likelihood to harm competition, consumers, and employees in the building services industry, in violation of section 5. The proposed Order has been placed on the public record for 30 days in order to receive comments from interested persons. Comments received during this period will become part of the public record. After 30 days, the Commission will again review the Consent Agreement and the comments received and will decide whether it should withdraw from the Consent Agreement and take appropriate action or make the proposed Order final.

II. The Respondent

Guardian is a privately held business headquartered in New York, NY. Guardian provides facility maintenance services, including janitorial, security, engineering and operations, pest control, lighting and electric, window cleaning, concierge, front desk, and surface restoration services. Guardian employs approximately 2,800 employees throughout the Northeast, New England, and Mid-Atlantic regions. The complaint focuses on Guardian's conduct in New York City and Northern New Jersey.

III. The Complaint

The complaint alleges that Guardian sells building services to building owners and property management companies, primarily consisting of the labor of janitors, security guards, maintenance workers, and concierge desk workers who are directly employed by Guardian. These employees perform their work at residential and commercial buildings in various States, but predominantly in New York City and Northern New Jersey. The complaint also alleges that Guardian and its building owner and property manager customers are direct competitors in labor markets for building services workers. These include the markets for workers to perform concierge, security, janitorial, maintenance, and related services.

As alleged in the complaint, Guardian uses standard-form agreements with some of its customers that include No-Hire Agreements. The No-Hire Agreements restrict the ability of Guardian's customers to (1) directly hire workers employed by Guardian and (2) indirectly hire workers employed by Guardian through a competing building services contractor after the competitor wins the customers' business away from Guardian. These restrictions apply during the term of Guardian's contracts and for six months to one year thereafter. The No-Hire Agreements apply not just to those Guardian employees identified by Guardian and staffed to provide services for a customer, but to all Guardian building services employees.

The complaint alleges that Guardian's No-Hire Agreements are anticompetitive because they are horizontal agreements among competitors not to compete. Guardian and its customer building owners and property managers are competitors for the labor of building services workers like Guardian's employees. The No-Hire Agreements are horizontal agreements that prohibit buildings and property management

companies from hiring building services workers, thereby undermining competition for labor, reducing worker bargaining power, and suppressing wages. For these reasons, the complaint alleges that the No-Hire Agreements constitute unreasonable restraints of trade that are unlawful under section 1 of the Sherman Act, 15 U.S.C. 1, and are thus unfair methods of competition in violation of section 5 of the FTC Act, as amended, 15 U.S.C. 45.

Independent of the Sherman Act, the complaint alleges that Guardian's conduct constitutes an unfair method of competition with a tendency or likelihood to harm competition, consumers, and employees in the building services industry, in violation of section 5 of the FTC Act. According to the complaint, the No-Hire Agreements limit the ability of building owners and managers to hire Guardian's employees. This harms Guardian's employees because it limits their ability to negotiate for higher wages, better benefits, and improved working conditions. Employees may suffer further hardship if the building they work at brings services in-house because the No-Hire Agreements force them to leave their jobs in some circumstances. The complaint further alleges that the No-Hire Agreements harm building owners and managers because they may be foreclosed from bringing services in-house due to the prospect of losing long-serving workers with extensive, building-specific experience.

IV. The Proposed Order

The proposed Order seeks to remedy Guardian's unfair methods of competition. Section II of the proposed Order prohibits Guardian from entering or attempting to enter, maintaining or attempting to maintain, enforcing or attempting to enforce, or threatening to enforce a No-Hire Agreement, or communicating to a customer or any other person that any Guardian Employee is subject to a No-Hire Agreement. Paragraph III.A of the proposed Order requires Guardian to provide written notice to customers that are subject to No-Hire Agreements that (i) the restriction is null and void, and (ii) any customer or a subsequent building services contractor for a customer is no longer subject to the restrictions or penalties related to the No-Hire Agreements in Guardian's contracts. Paragraph III.B of the proposed Order requires Guardian to provide various written notices to employees who are subject to a No-Hire Agreement. Paragraph III.C requires that Guardian post clear and conspicuous notice that employees are not subject to

No-Hire Agreements and may seek or accept a job with the building directly, or any company that wins the building's business. Paragraphs IV.A and IV.B of the proposed Order provide a timeline according to which the obligations enumerated in Section III must be met. Paragraphs IV.C–E set forth Guardian's ongoing compliance obligations.

Other paragraphs contain standard provisions regarding compliance reports, requirements for Guardian to provide notice to the FTC of material changes to its business, and access for the FTC to documents and personnel. The term of the proposed Order is ten years.

The purpose of this analysis is to facilitate public comment on the Consent Agreement and proposed Order to aid the Commission in determining whether it should make the proposed Order final. This analysis is not an official interpretation of the proposed Order and does not modify its terms in any way.

By direction of the Commission, Commissioners Holyoak and Ferguson dissenting.

April J. Tabor,
Secretary.

Dissenting Statement of Commissioner Melissa Holyoak

As I have previously explained,¹ the Commission cannot issue a complaint unless it has reason to believe that the law has been violated.² The same requirement applies equally to complaints headed toward litigation and to complaints that accompany a consent order that simultaneously resolves the matter. Today's Complaint against Guardian Service Industries, Inc. fails to provide sufficient allegations to establish a violation of section 1 of the Sherman Act or a violation of section 5 of the FTC Act. Because the restraint at issue is between a building services contractor and its clients, it would qualify as a vertical restraint, and "nearly every . . . vertical restraint" should be analyzed under the rule of reason.³ Further, this is a novel area, and the *per se* rule "is appropriate only after courts have had considerable experience with the type of restraint at issue, and only if courts can predict with confidence that it would be

invalidated in all or almost all instances under the rule of reason."⁴ Under the rule of reason, "the factfinder weighs all of the circumstances of a case in deciding whether a restrictive practice should be prohibited as imposing an unreasonable restraint on competition."⁵ To do so, the court conducts "an inquiry into market power and market structure designed to assess the combination's actual effect."⁶ Today's Complaint, however, does not plead sufficient facts to make a violation

⁴ *Leegin Creative Leather Prods., Inc. v. PSKS, Inc.*, 551 U.S. 877, 886–87 (2007) (citation omitted). Chair Khan contends that "some no-poach or no-hire provisions may be analyzed as *per se* restraints under Section 1 of the Sherman Act." Statement of Chair Lina M. Khan, In the Matter of Guardian Service Industries, Inc., Matter Number 2410082 (Dec. 3, 2024). First, to be clear, the Complaint in today's action does *not* allege a *per se* violation. Second, the Seventh Circuit case upon which she relies, *Deslandes v. McDonald's USA, LLC*, 81 F.4th 699, 703 (7th Cir. 2023), *cert. denied*, 144 S. Ct. 1057 (2024), does not stand for the proposition that today's conduct, or no-hire and no-poach provisions more generally, should be condemned as *per se* unlawful. To begin with, the no-poach provisions alleged in *Deslandes* were purely horizontal, *see id.* at 703, lacking the vertical component at issue in today's complaint against Guardian. Further, Judge Easterbrook, analyzing a motion for judgment on the pleadings, made clear that the district court had "jettisoned the *per se* rule too early." *Id.* He did not declare that such agreements were *per se* unlawful. In fact, he went on to explain a variety of questions that needed to be considered before such a determination could be made, including, *inter alia*: "So what was the no-poach clause doing? Was it protecting franchises' investments in training, or was it allowing them to appropriate the value of workers' own investments?" *Id.* at 704. He explained that "[t]hese are all potentially complex questions, which cannot be answered by looking at the language of the complaint. They require careful economic analysis. More than that: the classification of a restraint as ancillary is a defense, and complaints need not anticipate and plead around defenses." *Id.* at 705. Such considerations are a far cry from declaring no-poach agreements *per se* unlawful.

⁵ *Leegin*, 551 U.S. at 885; *see also Am. Express Co.*, 585 U.S. at 541.

⁶ *Copperweld Corp. v. Indep. Tube Corp.*, 467 U.S. 752, 768 (1984).

Ferguson, In the Matter of ExxonMobil Corporation, No. 241-0004 (May 2, 2024).

² 15 U.S.C. 45(b).

³ *Ohio v. Am. Express Co.*, 585 U.S. 529, 541 (2018).

under the rule of reason plausible.⁷ For this reason, I dissent.⁸

Dissenting Statement of Commissioner Andrew N. Ferguson

The Commission today issues an administrative complaint and accepts a proposed consent agreement with Guardian Service Industries, Inc. (“Guardian”).¹ Guardian is a building services contractor operating throughout the Northeast, New England, and Mid-Atlantic regions.² It employs about 2,800 workers who provide concierge, security, custodial, maintenance, engineering, and related services at residential and commercial buildings.³ The Complaint alleges that some of Guardian’s contracts with building-management clients contain so called “no-hire” provisions, also sometimes referred to as “no-poach” provisions.⁴

⁷ The Commission’s 2022 Policy Statement states that under section 5 of the FTC Act, “the inquiry will not focus on the ‘rule of reason.’” See Fed. Trade Comm’n, *Policy Statement Regarding the Scope of Unfair Methods of Competition Under Section 5 of the Federal Trade Commission Act*, Comm’n File No. P221202, at 10 (Nov. 10, 2022); *id.* at 2 (“Congress passed the FTC Act to push back against the judiciary’s adoption and use of the open-ended rule of reason for analyzing Sherman Act claims.”). I disagree with this conclusion and the 2022 Policy Statement in general. See Dissenting Statement of Comm’r Christine S. Wilson, *Regarding the Policy Statement Regarding the Scope of Unfair Methods of Competition Under Section 5 of the Federal Trade Commission Act*, Comm’n File No. P221202 (Nov. 10, 2022). Among other problems with the statement, section 5 requires a showing of anticompetitive effects. See *Boise Cascade Corp. v. FTC*, 637 F.2d 573, 579 (9th Cir. 1980); *cf. E.I. du Pont de Nemours & Co. v. FTC*, 729 F.2d 128, 141 (2d Cir. 1984) (rejecting unfair method of competition claim because there was no “causal connection” between the challenged practices and adverse competitive effects); *FTC v. Raladam Co.*, 283 U.S. 643, 647–48 (1931).

⁸ Chair Khan somehow believes that just because she, as one agent of the American government, declares her choices as helpful to “American workers,” that it makes it so. Khan, *supra* note 4. Good intentions do not, however, translate into tangible results. And while her rhetoric may make for good PR, the facts and the law matter. The Chair’s decision to assert that the agreements are *per se* illegal in today’s statement but not in the actual Complaint is just one more example where the public should rely more on the Chair’s revealed preferences than her expressed preferences.

³ AAPC at 1.

⁴ Compl. ¶ 11. No-hire provisions are not non-compete clauses. No-hire provisions are agreements between two or more employers not to recruit, solicit, or hire each other’s employees. Non-compete clauses are agreements between an employer and its employee in which the employee promises not to work for the employer’s competitors after the termination of the employment relationship. No-hire provisions do not fall within the scope of the Commission’s failed Non-Compete Clause Rule. 89 FR 38,342 (May 7, 2024).

As written, these provisions forbid Guardian’s clients from hiring Guardian’s employees directly, or by hiring them from one of Guardian’s competitors.⁵ This restriction applies both during the contract term and for six to twelve months beyond it.⁶

The Commission is wise to focus its resources on protecting competition in labor markets. After all, the antitrust laws protect employees from unlawful restraints of the labor markets as much as they protect any output market.⁷ But, as I have warned before, we must always act within the boundaries Congress has imposed on our authority. For example, while I have no doubt that some noncompete agreements violate the Sherman Act,⁸ the now-enjoined

Shipowners Ass’n*, 272 U.S. 359, 361–65 (1926) (agreement among group of associations that “own[ed], operat[ed], or control[ed] substantially all the merchant vessels . . . [in] the ports of the Pacific Coast” to control employment of seamen violated the Sherman Act); *Todd v. Exxon Corp.*, 275 F.3d 191, 201 (2d Cir. 2001) (addressing labor market and explaining that “[t]he Sherman Act . . . applies . . . to abuse of market power on the buyer side—often taking the form of monopsony or oligopsony. . . . Plaintiff is correct to point out that a horizontal conspiracy among buyers to stifle competition is as unlawful as one among sellers.”); Phillip Areeda & Herbert Hovenkamp, *Antitrust Law* ¶ 352a (rev. ed. 2024) (“employees may challenge antitrust violations that are premised on restraining the employment market.”); *id.* at ¶ 352c (“Antitrust law addresses employer conspiracies controlling employment terms precisely because they tamper with the employment market and thereby impair the opportunities of those who sell their services there. Just as antitrust law seeks to preserve the free market opportunities of buyers and sellers of goods, so also it seeks to do the same for buyers and sellers of employment services.”); see also *Weyerhaeuser Co. v. Ross-Simmons Hardwood Lumber Co., Inc.*, 549 U.S. 312, 322 (2007) (Thomas, J.) (“The kinship between monopoly and monopsony suggests that similar legal standards should apply to claims of monopolization and to claims of monopsonization.” (citing Roger Noll, “Buyer Power” and Economic Policy, 72 *Antitrust L.J.* 589, 591 (2005) (“[A]symmetric treatment of monopoly and monopsony has no basis in economic analysis.”)); *Mandeville Island Farms v. Am. Crystal Sugar Co.*, 334 U.S. 219, 235 (1948) (“It is clear that the agreement is the sort of combination condemned by the [Sherman] Act, even though the price-fixing was by purchasers, and the persons specially injured under the treble damage claim are sellers, not customers and consumers.”).

⁸ See Dissenting Statement of Comm’r Andrew N. Ferguson, Joined by Comm’r Melissa Holyoak, In the Matter of the Non-Compete Clause Rule, Matter No. P201200, at 18 n.142 (June 28, 2024) (hereinafter “Ferguson Non-Compete Dissent”), https://www.ftc.gov/system/files/ftc_gov/pdf/ferguson-noncompete-dissent.pdf (“Noncompete agreements are contracts in restraint of trade, and therefore subject to the rule of reason under section 1 of the Sherman Act and section 5 of the FTC Act. But as is true of all agreements that do not implicate one of the few *per se* rules, whether a given

Non-Compete Clause Rule⁹ wildly exceeded our authority to address noncompete agreements.¹⁰ Today, we again exceed our authority by failing to comply with Congress’s procedural requirements for issuing an administrative complaint. I therefore respectfully dissent.

The Complaint charges that Guardian’s no-hire clauses are unreasonable restraints of trade under section 1 of the Sherman Act,¹¹ and are also therefore unfair methods of competition in violation of section 5 of the Federal Trade Commission Act.¹² The Complaint proceeds on a rule-of-reason theory, rather than a *per se* theory. That choice makes sense. The rule of reason “presumptively applies” to every restraint,¹³ especially when, as

noncompete agreement violates the antitrust laws will turn entirely on the particular circumstances and competitive effects of that agreement.” (internal citations omitted).

Continued

here, the restraint is ancillary to an otherwise lawful and primarily vertical agreement.¹⁴ Under the rule of reason, a restraint violates section 1 if the anticompetitive effects of the restraint outweigh its procompetitive effects.¹⁵ Put slightly differently, the rule of reason forbids restraints for which the procompetitive justifications for the restraint could have been achieved through “less anticompetitive means” than those imposed by the restraint.¹⁶

Here, the Complaint alleges that “[a]ny legitimate objectives of Guardian’s” use of the no-hire provisions “could have been achieved through significantly less restrictive means.”¹⁷ This certainly may be true of some no-hire agreements. And no-hire clauses undoubtedly can have anticompetitive effects.¹⁸ In some circumstances, those anticompetitive effects will outweigh the procompetitive justifications for a no-hire clause.¹⁹

se prohibition a restraint must have ‘manifestly anticompetitive’ effects and ‘lack . . . any redeeming virtue.’” (cleaned up)).

¹⁴ See, e.g., *Aya Healthcare Servs., Inc. v. AMN Healthcare, Inc.*, 9 F.4th 1102, 1109 (9th Cir. 2021) (citing *Rothery Storage & Van Co. v. Atlas Van Lines, Inc.*, 792 F.2d 210, 224 (D.C. Cir. 1986)). The Chair invokes *Deslandes v. McDonald’s USA, LLC* as “affirm[ing]” that “some no-poach or no-hire provisions may be analyzed as *per se* restraints under section 1 of the Sherman Act.” Chair’s Statement at 2 n.6. That is not quite right. *Deslandes* held only that a properly pleaded *per se* claim challenging no-hire clauses could survive a motion to dismiss because “the classification of a restraint as ancillary,” and therefore not subject to the *per se* standard, “is a defense, and complaints need not anticipate and plead around defenses.” 81 F.4th 699, 705 (7th Cir. 2023), *cert. denied*, 144 S. Ct. 1057 (2024). Whether a restraint is ancillary, and therefore subject to the rule of reason, “requires discovery, economic analysis, and potentially a trial.” *Ibid.*

¹⁵ See, e.g., *GTE Sylvania Inc.*, 433 U.S. at 49 & n.15 (citing *Chi. Bd. of Trade v. United States*, 246 U.S. 231, 238 (1918) (Brandeis, J.)); *Atl. Richfield Co. v. USA Petroleum Co.*, 495 U.S. 328, 342 (1990); *Ohio v. Am. Express Co.*, 585 U.S. 529, 541–42 (2018).

¹⁶ *Am. Express Co.*, 585 U.S. at 542; *Alston*, 594 U.S. at 100 (“[A]nticompetitive restraints of trade may wind up flunking the rule of reason to the extent the evidence shows that substantially less restrictive means exist to achieve any proven procompetitive benefits.”).

¹⁷ Compl. ¶ 14. Potential procompetitive justifications, *i.e.*, legitimate objectives, in these circumstances could include Guardian seeking to recoup any costs for the training of and investment in its workers or for screening and background checks to employ these workers, or to protect any relevant trade secrets.

¹⁸ Matthew Gibson, Employer Market Power in Silicon Valley, IZA Discussion Paper No. 14843 (Nov. 2021), <https://docs.iza.org/dp14843.pdf> (comparing workers’ salaries at Silicon Valley firms subject to DOJ’s no-poach investigation to worker salaries at other information-technology firms and concluding that the challenged no-poach agreements reduced salaries at colluding firms by 4.8%).

¹⁹ Cf. *Eichorn v. AT&T Corp.*, 248 F.3d 131 (3d Cir. 2001) (challenged no-hire agreement “not an antitrust violation under the rule of reason” where

When those facts obtain, the no-hire provision violates the Sherman Act.

But we cannot issue a Complaint against a company based solely on a theory about hypothetical effects of no-hire agreements. To lawfully invoke our enforcement authority, we must have a “reason to believe” that Guardian’s no-hire provisions violate section 5, not that no-hire provisions generally could violate section 5.²⁰ The Commission has a “reason to believe” the law has been violated only if it has evidence sufficient to make the “threshold determination that further inquiry is warranted.”²¹ That reason must be “well-grounded” in evidence that the Commission gleaned from its pre-filing investigation.²²

Had the Complaint plausibly alleged anticompetitive effects outweighing procompetitive justifications, I would have voted for it. But the Complaint alleges nothing about the no-hire provisions’ effects. It does not allege direct evidence of anticompetitive effects, or of indirect, economic evidence of anticompetitive effects, like market power and harm to competition. It does not even allege that Guardian has ever tried to enforce any of these agreements, nor does it allege that a single Guardian customer or worker believed Guardian would enforce any of these provisions.²³ Nor have I seen any

the particular provision at issue “did not have a significant anti-competitive effect on the plaintiffs’ ability to seek employment”); *Aya Healthcare Servs.*, 9 F.4th at 1110 (challenged non-solicitation agreement, involving employee outsourcing arrangement between healthcare staffing agencies collaborating to supply traveling nurses, not unlawful under rule of reason where restraint was reasonably necessary to ensure neither would lose personnel during collaboration); *Giordano v. Saks Inc.*, 654 F. Supp. 3d 174, 201 (E.D.N.Y. 2023) (challenged no-poach agreement involving collaborative business arrangement not unlawful under rule of reason where luxury brands agreed not to poach Saks employees who were trained to sell brand products unless current managers consented or the employee had left Saks at least six months prior).

²⁰ 15 U.S.C. 45(b).

²¹ *FTC v. Standard Oil of Cal.*, 449 U.S. 232, 241 (1980); *Boise Cascade Corp. v. FTC*, 498 F. Supp. 772, 779 (D. Del. 1980).

²² *Standard Oil*, 449 U.S. at 246 n.14; see also *AMREP Corp. v. FTC*, 768 F.2d 1171, 1177 (10th Cir. 1985).

²³ The Chair presents this case as a choice between Guardian’s no-hire provisions “remain[ing] in place,” ostensibly presuming anticompetitive effects from their very existence, or continuing the investigation. Chair’s Statement at 2. That is not correct. I have seen no evidence of actual or threatened enforcement of these clauses. And even if Guardian did threaten or attempt to enforce such provisions, I have seen no evidence that such threatened or actual enforcement would violate the antitrust laws—the question before the Commission when deciding whether to issue a Complaint. The Chair’s citation of public comments submitted in response to the Commission’s separate, unrelated Non-Compete Clause Rule, *id.* at 2 n.9, does not

such evidence that goes unmentioned in the Complaint. Indeed, I am at a loss about how my colleagues have formed their reason to believe that Guardian is violating the antitrust laws.

The Commission ought to protect competition in the labor markets, but it cannot bend the law to do so. We must form a “well-grounded reason to believe” that the law has been violated before issuing an administrative complaint. Because we have no evidence of the effects of the no-hire agreements in this case, the Commission should not have issued this Complaint.

I respectfully dissent.

BILLING CODE 6750–01–P

FEDERAL TRADE COMMISSION

[File No. 232 3023]

IntelliVision Technologies Corp.; Analysis of Proposed Consent Order To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Proposed consent agreement; request for comment.

SUMMARY: The consent agreement in this matter settles alleged violations of Federal law prohibiting unfair or deceptive acts or practices. The attached Analysis of Proposed Consent Order to Aid Public Comment describes both the allegations in the complaint and the terms of the consent order—embodied in the consent agreement—that would settle these allegations.

DATES: Comments must be received on or before January 6, 2025.

ADDRESSES: Interested parties may file comments online or on paper by following the instructions in the Request for Comment part of the **SUPPLEMENTARY INFORMATION** section below. Please write “IntelliVision; File No. 232 3023” on your comment and file your comment online at <https://www.regulations.gov> by following the instructions on the web-based form. If you prefer to file your comment on paper, please mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW, Mail Stop H–144 (Annex F), Washington, DC 20580.

change the facts, or lack thereof, in this matter. Moreover, I have no objection to the Commission agreeing not to bring an enforcement action so long as Guardian agrees not to enforce its no-hire provisions—akin to a non-prosecution agreement. But if the Commission invokes its power to issue a complaint, it must comply with the statute giving it that power—including the requirement that we have “reason to believe” that section 5 has been violated.

FOR FURTHER INFORMATION CONTACT:

Robin Rosen Spector (202–326–3740), Attorney, Division of Privacy and Identity Protection, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Avenue NW, Washington, DC 20580.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 15 U.S.C. 46(f), and FTC Rule § 2.34, 16 CFR 2.34, notice is hereby given that the above-captioned consent agreement containing a consent order to cease and desist, having been filed with and accepted, subject to final approval, by the Commission, has been placed on the public record for a period of 30 days. The following Analysis to Aid Public Comment describes the terms of the consent agreement and the allegations in the complaint. An electronic copy of the full text of the consent agreement package can be obtained at <https://www.ftc.gov/news-events/commission-actions>.

You can file a comment online or on paper. For the Commission to consider your comment, we must receive it on or before January 6, 2025. Write “IntelliVision; File No. 232 3023” on your comment. Your comment—including your name and your State—will be placed on the public record of this proceeding, including, to the extent practicable, on the <https://www.regulations.gov> website.

Because of heightened security screening, postal mail addressed to the Commission will be subject to delay. We strongly encourage you to submit your comments online through the <https://www.regulations.gov> website. If you prefer to file your comment on paper, write “IntelliVision; File No. 232 3023” on your comment and on the envelope, and mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW, Mail Stop H–144 (Annex F), Washington, DC 20580.

Because your comment will be placed on the publicly accessible website at <https://www.regulations.gov>, you are solely responsible for making sure your comment does not include any sensitive or confidential information. In particular, your comment should not include sensitive personal information, such as your or anyone else’s Social Security number; date of birth; driver’s license number or other State identification number, or foreign country equivalent; passport number; financial account number; or credit or debit card number. You are also solely responsible for making sure your comment does not include sensitive

health information, such as medical records or other individually identifiable health information. In addition, your comment should not include any “trade secret or any commercial or financial information which . . . is privileged or confidential”—as provided by section 6(f) of the FTC Act, 15 U.S.C. 46(f), and FTC Rule § 4.10(a)(2), 16 CFR 4.10(a)(2)—including competitively sensitive information such as costs, sales statistics, inventories, formulas, patterns, devices, manufacturing processes, or customer names.

Comments containing material for which confidential treatment is requested must be filed in paper form, must be clearly labeled “Confidential,” and must comply with FTC Rule § 4.9(c). In particular, the written request for confidential treatment that accompanies the comment must include the factual and legal basis for the request and must identify the specific portions of the comment to be withheld from the public record. See FTC Rule § 4.9(c). Your comment will be kept confidential only if the General Counsel grants your request in accordance with the law and the public interest. Once your comment has been posted on the <https://www.regulations.gov> website—as legally required by FTC Rule § 4.9(b)—we cannot redact or remove your comment from that website, unless you submit a confidentiality request that meets the requirements for such treatment under FTC Rule § 4.9(c), and the General Counsel grants that request.

Visit the FTC website at <https://www.ftc.gov> to read this document and the news release describing the proposed settlement. The FTC Act and other laws the Commission administers permit the collection of public comments to consider and use in this proceeding, as appropriate. The Commission will consider all timely and responsive public comments it receives on or before January 6, 2025. For information on the Commission’s privacy policy, including routine uses permitted by the Privacy Act, see <https://www.ftc.gov/site-information/privacy-policy>.

Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission (“Commission”) has accepted, subject to final approval, an agreement containing a consent order from IntelliVision Technologies Corp. (“IntelliVision” or “Respondent”). The proposed consent order (“Proposed Order”) has been placed on the public record for 30 days for receipt of public comments from interested persons. Comments received

during this period will become part of the public record. After 30 days, the Commission will again review the agreement, along with the comments received, and will decide whether it should make final the Proposed Order or withdraw from the agreement and take appropriate action.

IntelliVision is a Delaware corporation with its principal place of business in San Jose, California. Respondent advertises and sells an artificial intelligence-based facial recognition software product to original equipment manufacturers, large integrators, and large end users. Respondent’s facial recognition software has been incorporated into two consumer products sold by its parent corporation Nice North America, LLC: the 2GIG Edge, a home security system; and the Elan Intelligent Touch Panel, a smart home touch panel. The software allows consumers to register their face and then scan their face to gain access to the 2GIG Edge home security system. Similarly, the software allows consumers to register their face and then scan their face to gain access to the smart home features of the Elan Intelligent Touch Panel.

The Commission’s proposed three-count complaint alleges that Respondent represented that IntelliVision’s facial recognition software has one of the highest accuracy rates on the market and has been trained on millions of faces. The proposed complaint further alleges that Respondent represented that IntelliVision’s facial recognition software can detect faces of all ethnicities without racial bias, was developed with multi-ethnic and gender datasets to ensure no built-in bias and performs with zero gender or racial bias. In addition, the proposed complaint alleges that IntelliVision claimed its anti-spoofing technology ensures the system cannot be fooled by photo or video images. According to the proposed complaint, these claims are false or misleading or were not substantiated at the time the representations were made, in violation of section 5 of the FTC Act.

The Proposed Order contains injunctive relief designed to prevent Respondent from engaging in the same or similar acts or practices in the future. Provision I prohibits Respondent from making any misrepresentation (1) about the accuracy or efficacy of its Facial Recognition Technology; (2) about the comparative performance of its Facial Recognition Technology with respect to individuals of different genders, ethnicities, and skin tones, or reducing or eliminating differential performance

based on such factors; or (3) about the accuracy or efficacy of its Facial Recognition Technology with respect to detecting spoofing or otherwise determining Liveness. (Facial Recognition Technology and Liveness are defined in the Proposed Order.)

Provision II prohibits Respondent from making any representation about the effectiveness, accuracy, or lack of bias of Facial Recognition Technology, or about the effectiveness of such Facial Recognition Technology at detecting spoofing, unless Respondent possesses and relies upon competent and reliable testing that substantiates the representation at the time the representation is made. For the purposes of this Provision, competent and reliable testing means testing that is based on the expertise of professionals in the relevant area, and that (1) has been conducted and evaluated in an objective manner by qualified persons and (2) is generally accepted by experts in the profession to yield accurate and reliable results. Respondent also must document all such testing including: the dates and results of all tests; the method and methodology used; the source and number of images used; the source and number of different people in the images; whether such testing includes Liveness tests; any technique(s) used to modify the images to create different angles, different lighting conditions or other modifications; demographic information collected on images used in testing if applicable; information about the skin tone collected on images used in testing if applicable; and any information that supports, explains, qualifies, calls into question or contradicts the results. Provision III requires Respondent to obtain and submit acknowledgments of receipt of the Order.

Provisions IV–VI are reporting and compliance provisions, which include recordkeeping requirements and provisions requiring Respondent to provide information or documents necessary for the Commission to monitor compliance. Provision VII states the Proposed Order will remain in effect for 20 years, with certain exceptions.

The purpose of this analysis is to facilitate public comment on the Proposed Order, and it is not intended to constitute an official interpretation of the complaint or Proposed Order, or to modify the Proposed Order's terms in any way.

By direction of the Commission.

April J. Tabor,
Secretary.

Concurring Statement of Commissioner Andrew N. Ferguson

Today, the Commission approves a complaint and settlement against IntelliVision, a developer of facial recognition software.¹ Count I charges IntelliVision with misrepresenting the efficacy of its software. IntelliVision claimed that its software had one of the highest accuracy rates in the world, but in reality it was not even among the top hundred best performing algorithms tested by the National Institute of Standards and Technology.² Count I further accuses IntelliVision of claiming that its software was trained on “millions” of faces, when the software was in fact trained on only 100,000 faces.³ Count III accuses IntelliVision of claiming that its software could not be fooled by photo or video images even though it had insufficient evidence to support that categorical claim.⁴ I support these counts without reservation.

I write briefly to explain why I also support Count II, which accuses IntelliVision of misrepresenting that its software performs with “zero gender or racial bias” when in fact its software exhibits substantially different false-negative and false-positive rates across sex and racial lines.⁵ Treating IntelliVision as having committed a deceptive act or practice in these circumstances could lead one to believe that the Commission is taking the position that to be “unbiased,” a software system must produce equal false-negative and false-positive rates across race and sex groups.

I do not read the complaint that way, and I today do not vote to fix the meaning of “bias.” Statistical disparity in false-positive and false-negative rates is not necessarily the only or best definition of what it means for an automated system to be “biased.” The question is open to philosophical and political dispute. Other definitions might consider the discriminatory intentions of the developers, the developers’ diligence in avoiding artificial disparities while training the automated system, or whether any statistical disparities reflect the underlying realities the system is designed to reflect or epistemological

limitations in that underlying reality that are impossible or uneconomical to overcome. This complaint does not choose from among these competing definitions and considerations.

But IntelliVision used the word “bias.” If it intended to invoke a specific definition of “bias,” it needed to say so. But it did not say so; it instead left the resolution of this ambiguity up to consumers. IntelliVision must therefore bear the burden of substantiating all reasonable interpretations that consumers may have given its claim that its software had “zero gender or racial bias.”⁶ A reasonable consumer could interpret “zero gender or racial bias” in this context to mean equal rates of false positives and false negatives across those lines. I therefore have reason to believe that IntelliVision’s claims were false or unsubstantiated because its software did not have equal false-positive and false-negative rates across those lines.

Pursuant to that understanding, I concur in the filing of the complaint and settlement.

BILLING CODE 6750–01–P

FEDERAL TRADE COMMISSION

[File No. 212 3035]

Gravy Analytics, Inc.; Analysis of Proposed Consent Order to Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Proposed consent agreement; request for comment.

SUMMARY: The consent agreement in this matter settles alleged violations of Federal law prohibiting unfair or deceptive acts or practices. The attached Analysis of Proposed Consent Order to Aid Public Comment describes both the allegations in the complaint and the terms of the consent order—embodied in the consent agreement—that would settle these allegations.

DATES: Comments must be received on or before January 6, 2025.

⁶ FTC Policy Statement on Deception, 103 F.T.C. 174, 178 (1984) (“When a seller’s representation conveys more than one meaning to reasonable consumers, one of which is false, the seller is liable for the misleading interpretation”); FTC Policy Statement Regarding Advertising Substantiation, 104 F.T.C. 839, 840 (1984) (“Although firms are unlikely to possess substantiation for implied claims they do not believe the ad makes, they should generally be aware of reasonable interpretations and will be expected to have prior substantiation for such claims. The Commission will take care to assure that it only challenges reasonable interpretations of advertising claims.”).

ADDRESSES: Interested parties may file comments online or on paper by following the instructions in the Request for Comment part of the **SUPPLEMENTARY INFORMATION** section below. Please write “Gravy Analytics; File No. 212 3035” on your comment and file your comment online at <https://www.regulations.gov> by following the instructions on the web-based form. If you prefer to file your comment on paper, please mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW, Mail Stop H-144 (Annex G), Washington, DC 20580.

FOR FURTHER INFORMATION CONTACT: Jennifer Rimm (202-326-2277), Attorney, Division of Privacy and Identity Protection, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Avenue NW, Washington, DC 20580.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 15 U.S.C. 46(f), and FTC Rule § 2.34, 16 CFR 2.34, notice is hereby given that the above-captioned consent agreement containing a consent order to cease and desist, having been filed with and accepted, subject to final approval, by the Commission, has been placed on the public record for a period of 30 days. The following Analysis to Aid Public Comment describes the terms of the consent agreement and the allegations in the complaint. An electronic copy of the full text of the consent agreement package can be obtained at <https://www.ftc.gov/news-events/commission-actions>.

You can file a comment online or on paper. For the Commission to consider your comment, we must receive it on or before January 6, 2025. Write “Gravy Analytics; File No. 212 3035” on your comment. Your comment—including your name and your State—will be placed on the public record of this proceeding, including, to the extent practicable, on the <https://www.regulations.gov> website.

Because of heightened security screening, postal mail addressed to the Commission will be subject to delay. We strongly encourage you to submit your comments online through the <https://www.regulations.gov> website. If you prefer to file your comment on paper, write “Gravy Analytics; File No. 212 3035” on your comment and on the envelope, and mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW, Mail Stop H-144 (Annex G), Washington, DC 20580.

Because your comment will be placed on the publicly accessible website at <https://www.regulations.gov>, you are solely responsible for making sure your comment does not include any sensitive or confidential information. In particular, your comment should not include sensitive personal information, such as your or anyone else’s Social Security number; date of birth; driver’s license number or other State identification number, or foreign country equivalent; passport number; financial account number; or credit or debit card number. You are also solely responsible for making sure your comment does not include sensitive health information, such as medical records or other individually identifiable health information. In addition, your comment should not include any “trade secret or any commercial or financial information which . . . is privileged or confidential”—as provided by section 6(f) of the FTC Act, 15 U.S.C. 46(f), and FTC Rule § 4.10(a)(2), 16 CFR 4.10(a)(2)—including competitively sensitive information such as costs, sales statistics, inventories, formulas, patterns, devices, manufacturing processes, or customer names.

Comments containing material for which confidential treatment is requested must be filed in paper form, must be clearly labeled “Confidential,” and must comply with FTC Rule § 4.9(c). In particular, the written request for confidential treatment that accompanies the comment must include the factual and legal basis for the request and must identify the specific portions of the comment to be withheld from the public record. See FTC Rule § 4.9(c). Your comment will be kept confidential only if the General Counsel grants your request in accordance with the law and the public interest. Once your comment has been posted on the <https://www.regulations.gov> website—as legally required by FTC Rule § 4.9(b)—we cannot redact or remove your comment from that website, unless you submit a confidentiality request that meets the requirements for such treatment under FTC Rule § 4.9(c), and the General Counsel grants that request.

Visit the FTC website at <https://www.ftc.gov> to read this document and the news release describing the proposed settlement. The FTC Act and other laws the Commission administers permit the collection of public comments to consider and use in this proceeding, as appropriate. The Commission will consider all timely and responsive public comments it receives on or before January 6, 2025. For information on the Commission’s

privacy policy, including routine uses permitted by the Privacy Act, see <https://www.ftc.gov/site-information/privacy-policy>.

Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission (“Commission”) has accepted, subject to final approval, an agreement containing a consent order from Gravy Analytics, Inc. (“Gravy Analytics”) and Venntel, Inc. (“Venntel,” and collectively with Gravy Analytics, “Respondents”). The proposed consent order (“Proposed Order”) has been placed on the public record for 30 days for receipt of public comments from interested persons. Comments received during this period will become part of the public record. After 30 days, the Commission will again review the agreement, along with the comments received, and will decide whether it should make final the Proposed Order or withdraw from the agreement and take appropriate action.

Gravy Analytics and Venntel are Delaware corporations with their headquarters in Virginia. Respondent Venntel is a subsidiary of Gravy Analytics. Gravy Analytics and Venntel are data brokers that collect and sell precise geolocation data about consumers’ mobile devices.

Gravy Analytics does not collect data directly from consumers. Rather, it purchases precise geolocation data and other personal data for its products from other data suppliers, including other data aggregators. Gravy Analytics offers several data products to its customers. These products include transfers of batch location data, consisting of a unique persistent identifier for the mobile device called a Mobile Advertiser ID (“MAID”) and timestamped latitude and longitude coordinates; audience segments, which are groupings of MAIDs that purportedly share similar traits based on the locations or events the mobile devices and MAIDs have visited; and an online application programming interface that, among other things, enables Gravy Analytics’ customers to geofence locations. Gravy Analytics makes its data products available to commercial customers, such as marketers, other data brokers, stores, and other commercial entities.

Venntel obtains mobile location data from Gravy Analytics exclusively. Venntel offers batch transfers of location data and allows customers to geofence specific locations. Venntel also offers its customers access to an online application programming interface through which its customers may search for devices that visited specific

locations, obtain device information about a particular mobile phone, or obtain location data for individual devices. Venntel sells its data products only to public sector customers, such as government contractors.

The Commission's proposed three-count complaint alleges Respondents violated section 5(a) of the FTC Act by (1) unfairly selling sensitive location data and (2) unfairly collecting, using, and transferring consumer location data without consent verification; and that Gravy Analytics violated section 5 of the FTC Act by (3) unfairly selling inferences about consumers' sensitive characteristics derived from location data.

With respect to the first count, the proposed complaint alleges Respondents sold location data associated with persistent identifiers, such as MAIDs, that could be used to track consumers to sensitive locations, such as medical facilities, places of religious worship, places that may be used to infer an LGBTQ+ identification, domestic abuse shelters, and welfare and homeless shelters. For example, by plotting timestamped latitude and longitude coordinates associated with mobile devices using publicly available map programs, it is possible to identify which consumers' mobile devices visited medical facilities and when.

With respect to the second count, the proposed complaint alleges Respondents failed to verify that their data suppliers obtained informed consent from consumers to have the consumers' location data collected, used, and sold. Respondents' primary mechanism for ensuring that consumers have provided appropriate consent is through contractual requirements with their suppliers. However, contractual provisions, without additional safeguards, are insufficient to protect consumers' privacy.

With respect to the third count, the proposed complaint alleges it was an unfair practice for Gravy Analytics to sell inferences about consumers' sensitive characteristics derived from their location data. Gravy Analytics created custom audience segments for customers based, for example, on consumers' attendance at a cancer charity run and based on consumers' church attendance, and has also offered standard audience segments based on medical decisions and political activities.

The proposed complaint alleges that Respondents could have addressed each of these failures by implementing certain safeguards at a reasonable cost and expenditure of resources. The proposed complaint alleges

Respondents' practices caused, or are likely to cause, substantial injury to consumers that is not outweighed by countervailing benefits to consumers or competition and is not reasonably avoidable by consumers themselves. Such practices constitute unfair acts or practices under section 5 of the FTC Act.

The Proposed Order contains injunctive relief designed to prevent Respondents from engaging in the same or similar acts or practices in the future. Part I prohibits Respondents from misrepresenting the extent to which: (1) Respondents review data suppliers' compliance and consent frameworks, consumer disclosures, sample notices, and opt in controls; (2) Respondents collect, maintain, use, disclose, or delete any covered information, and (3) the location data that Respondents collect, use, maintain, or disclose is deidentified.

Part II prohibits Respondents from selling, licensing, transferring, sharing, disclosing, or using sensitive location data in any products or services. Sensitive locations are defined as those locations in the United States associated with (1) medical facilities (*e.g.*, family planning centers, general medical and surgical hospitals, offices of physicians, offices of mental health physicians and practitioners, residential mental health and substance abuse facilities, outpatient mental health and substance abuse centers, outpatient care centers, psychiatric and substance abuse hospitals, and specialty hospitals); (2) religious organizations; (3) correctional facilities; (4) labor union offices; (5) locations of entities held out to the public as predominantly providing education or childcare services to minors; (6) associations held out to the public as predominantly providing services based on racial or ethnic origin; (7) locations held out to the public as providing temporary shelter or social services to homeless, survivors of domestic violence, refugees, or immigrants; or (8) military installations, offices, or buildings. This prohibition does not apply to sensitive location data used to respond to or prevent data security incidents, for national security purposes conducted by Federal agencies or other Federal entities, or for response by a Federal law enforcement agency to an imminent risk of death or serious bodily harm to a person. Part III requires that Respondents implement and maintain a sensitive location data program to develop a comprehensive list of sensitive locations and to prevent the use, sale, license, transfer, sharing, or disclosure of sensitive location data.

Part IV requires that Respondents establish and implement policies, procedures, and technical measures designed to prevent recipients of Respondents' location data from associating consumers with locations predominantly providing services to LGBTQ+ individuals, locations of public gatherings of individuals during social demonstrations, marches, or protests, or using location data to determine the identity or location of an individual's home. Part V requires that Respondents notify the Commission any time Respondents determine that a third party shared Respondents' location data, in violation of a contractual requirement between Respondents and the third party.

Part VI requires that Respondents must not collect, use, maintain, and disclose location data: (1) when consumers have opted-out, or otherwise declined targeted advertising and (2) without a record documenting the consumer's consent obtained prior to the collection of location data. Part VII requires that Respondents implement a supplier assessment program designed to ensure that consumers have provided consent for the collection and use of all data obtained by Respondents that may reveal a consumer's precise location. Under this program, Respondents must conduct initial assessments of all their data suppliers within 30 days of entering into a data sharing agreement, or within 30 days of the initial date of data collection. The program also requires that Respondents confirm that consumers provided consent and create and maintain records of suppliers' assessment responses. Finally, Respondents must cease from using, selling, or disclosing location data for which consumers have not provided consent.

Part VIII requires that Respondents provide a clear and conspicuous means for consumers to request the identity of any entity, business, or individual to whom Respondents know their location data has been sold, transferred, licensed, or otherwise disclosed or a method to delete the consumers' location data from the databases of Respondents' customers. Respondents must also provide written confirmation to consumers that the deletion requests have been sent to Respondents' customers.

Part IX requires that Respondents provide a simple, easily-located means for consumers to withdraw any consent provided and Part X requires that Respondents cease collecting location data within 15 days after Respondents receive notice that the consumer withdraws their consent. Part XI also

requires that Respondents provide a simple, easily-located means for consumers to request that Respondents delete location data that Respondents previously collected and to delete the location data within 30 days of receipt of such request unless a shorter period for deletion is required by law.

Part XII requires that Respondents: (1) document and adhere to a retention schedule for the covered information they collect from consumers, including the purposes for which they collect such information, the specific business needs, and an established timeframe for its deletion, and (2) prior to collecting or using any new type of information related to consumers that was not previously collected, and is not described in its retention schedule, Respondents must update their retention schedules. Part XIII requires that Respondents delete or destroy all historic location data and all data products developed using this data. Respondents have the option to retain historic location data if they have records showing they obtained consent or if they ensure that the historic location data is deidentified or rendered non-sensitive. Respondents must inform all customers that received location data from Respondents within 3 years prior to the issuance date of this Order of the Commission's position that such data should be deleted, deidentified, or rendered non-sensitive. Part XIV requires Respondents to establish and implement, and thereafter maintain, a comprehensive privacy program that protects the privacy of consumers' personal information.

Parts XV–XVIII are reporting and compliance provisions, which include recordkeeping requirements and provisions requiring Respondents to provide information or documents necessary for the Commission to monitor compliance. Part XIX states that the Proposed Order will remain in effect for 20 years, with certain exceptions.

The purpose of this analysis is to facilitate public comment on the Proposed Order, and it is not intended to constitute an official interpretation of the complaint or Proposed Order, or to modify the Proposed Order's terms in any way.

By direction of the Commission,
Commissioner Ferguson dissenting.

April J. Tabor,
Secretary.

Statement of Commissioner Alvaro M. Bedoya Joined by Chair Lina M. Khan and Commissioner Rebecca Kelly Slaughter in Full and Commissioner Melissa Holyoak in Part I

I. The Porous Line Between Government and Private Surveillance

Any first-year constitutional law student will tell you that the distinction between a government agent and private actor is paramount: the Fourth Amendment corrals the former but not the latter. For the people being watched, that line is porous if not irrelevant.

Governments have long relied on private citizens for work that would be impractical or illegal for law enforcement. Elizabeth I prided herself on seeing and hearing all in her realm, famously sitting for one of her final portraits in a gown embroidered with human eyes and ears.¹ Her ministers achieved that surveillance through a much-feared system of agents and spies,² as well as a quieter network of local clergy who tracked the weekly church attendance of converted Catholics and the Separatist Puritans we now know as Pilgrims.³ Her successor, James I, went further, offering bounties to any of his subjects who reported practicing Catholics.⁴

The governor of Plymouth Colony, William Bradford, would later recount what forced him and his fellow migrants to travel, first to the Netherlands and then to the New World. They were “hunted & persecuted on every side,” he

¹ See generally Daniel Fischlin, *Political Allegory, Absolutist Ideology, and the “Rainbow Portrait” of Queen Elizabeth I*, 50 *Renaissance Q.* 170, 175–83 (1997) (reflecting the view that the portrait was intended to convey that “[t]he Queen watches and listens vigilantly, seeing in all perspectives, hearing in all directions”).

² See generally John Coffey, *Persecution and Toleration in Protestant England, 1558–1689* (2000). See also *id.* at 95–96 (describing government agents loitering in St. Paul's courtyard “pretending to be sympathetic” to the Puritans' cause); Stephen Budiansky, *Sir Francis Walsingham*, Britannica, available at <https://www.britannica.com/biography/Francis-Walsingham> (last accessed Nov. 29, 2024).

³ See Act of Uniformity, 1 Eliz. 1, c. 2 (1559) (instituting a 12 shilling fine for absences, “to be levied by the churchwardens of the parish where such offence shall be done”); An Act to retain the Queen's Majesty's Subjects in their due Obedience, 23 Eliz. 1, c. 1 (1580) (raising the fine to 20 pounds); Act Against Puritans, 35 Eliz. 1, c. 1 (1593) (instituting penalties for Puritans who profess allegiance to the Church of England, only to subsequently fail to attend church services).

⁴ See An Act to Prevent and Avoid Dangers which Grow by Popish Recusants, 3 Jas. 1, c. 5 (1605) (immunizing informants and providing them one-third of the money seized from the offending individual).

wrote. While “some were taken & clapt up in prison, others had their houses besett & watcht night and day[.]”⁵

Four-hundred years later, those loose networks of citizen-informants have been succeeded by a digitized, automated, and highly profitable industry of commercial data brokers that “artfully dodge[] privacy laws.”⁶ In 2001, the Electronic Privacy Information Center used the Freedom of Information Act to survey Federal law enforcement agencies' reliance on those firms.⁷ They determined that this network of data brokers allows law enforcement to easily and warrantlessly “download comprehensive dossiers on almost any adult.”⁸ They warned that “[i]f we are ever unfortunate enough to have George Orwell's Big Brother in the United States, it will be made possible by the private sector.”⁹

This complaint and proposed settlement concern two contemporary peers of those data brokers, Gravy Analytics, Inc. and its subsidiary, Venntel, Inc. (“Respondents”). The Commission alleges these companies collect, aggregate, and sell precise geolocation data from roughly one billion mobile devices.¹⁰ According to public reporting, Venntel's customers have included American law enforcement.¹¹

⁵ See William Bradford, Of Plymouth Plantation 6 (c. 1630–1651). Professor Coffey explains that, while Catholics were the focus of government surveillance efforts at the time, Separatist Puritans were also targeted. See Coffey, *supra* note 2, at 103 (“The harsh repression of the Separatists in the 1580s and 90s was . . . out of all proportion to their threat. . . . Separatist congregations were hunted down and incarcerated, their ringleaders put to death.”).

II. The Respondents' Privacy Invasions Clearly Violate Section 5 of the FTC Act

You may not know anything about Gravy Analytics, but Gravy Analytics may know quite a bit about you.

Do you eat breakfast at McDonald's? Do you buy CBD oil? Did you recently buy lingerie? Are you pregnant? Are you a stay-at-home parent? Are you a Republican? A Democrat? Are you in the pews every Sunday in Charlotte? Or Atlanta? Have you recently attended an event for breast cancer? Are you a blue-collar Gen X parent and golf-lover who has recently been looking into Medicare?

These are just a few of the 1,100 labels that the Commission alleges that Gravy Analytics appended to individual consumers so as to sell their bundled data to private companies for targeted advertising—or to better understand the “persona” of any given individual whose data a company has requested.¹² According to our complaint, Respondents actively encouraged their customers to identify individual people using the data they sold.¹³

In the complaint, the Commission alleges that the Respondents' 1) sale of data tying consumers to sensitive locations, (2) collection and use of geolocation data without verifying that it was obtained with consumers' informed consent, and (3) the sale of sensitive inferences about those consumers' “medical conditions, political activities, and religious beliefs,” among other things, constitute unfair trade practices prohibited by section 5 of the Federal Trade Commission Act.

I agree with my colleague Commissioner Holyoak that the specific practices alleged in the complaint meet the threshold for “substantial injury” under section 5.¹⁴ More than a decade ago, the Commission issued a final report offering guidance to businesses on protecting the privacy of American consumers.¹⁵ That report classified “precise geolocation” as a type of “sensitive information,” and urged companies to obtain people's affirmative express consent before collecting it.¹⁶ As the District Court of Idaho affirmed last year, collection and disclosure of precise geolocation is a violation of

privacy—itself an injury.¹⁷ It can further lead to stigma, harassment, and even physical danger.¹⁸

This is the fourth recent Commission action and third settlement brought to stop the nonconsensual collection and sale of geolocation data.¹⁹ In my view, the illegality of this conduct is more than clear.

III. Venntel's Sales of Location Data Undermine Established Fourth Amendment Protections

According to our complaint, Respondent Venntel “markets to its public sector customers that the location data and these enhanced tools can be used for government purposes.”²⁰ Public reporting suggests that these government clients have included Federal law enforcement agencies like the Department of Homeland Security (DHS), the Drug Enforcement Administration (DEA), the Federal Bureau of Investigation (FBI), and the Internal Revenue Service (IRS).²¹ This poses an important question: Can a collection of precise geolocation data that otherwise violates section 5 be cured by a potential future law enforcement use of that data?

I think the answer is “no.” Section 5 makes no mention of such a circumstance, but it does expressly call on the Commission to consider “countervailing benefits to consumers” from the practice in question, and further permits the Commission to weigh “established public policies as evidence to be considered with all other evidence” when declaring a practice unfair.²²

In 1928, Justice Louis Brandeis, one of the architects of this Commission, warned against formalistic interpretations of the Fourth Amendment. “Clauses guaranteeing to

the individual protection against specific abuses of power must have a . . . capacity of adaptation to a changing world,” he wrote.²³ For the last 60 years, since the *Katz* court's declaration that the Fourth Amendment “protects people, not places,” the Supreme Court has more or less heeded that call.²⁴

In *Kyllo*, the Court found that a thermal imaging device that allowed law enforcement to track activities inside a home constituted a search under the Fourth Amendment—even though it involved no trespass into the home.²⁵ In *Riley*, the Court refused to equate the search of someone's cellphone with searches of their purse or wallet or any other physical items people carry.²⁶ Most relevantly, in *Carpenter*, the Court held that citizens have a reasonable expectation of privacy in extended cell-site location records of their movements, irrespective of the fact that the data accessed by the government was disclosed to and held by a commercial third party, and further held that the government must generally obtain a warrant before acquiring such records.²⁷

Look at the cell-site location data in *Carpenter*; look at the data in question here. It's basically the same data. In some ways, the Respondents' data is more invasive.

The cell-site records in *Carpenter* could place an individual “within a wedge-shaped sector ranging from one-eighth to four square miles”;²⁸ Respondents' data locates people down to a meter.²⁹ Cellphone carriers maintain location records for five years, and Federal agents obtained a total of 129 days of geolocation data—although the Court held that accessing just seven days of data constitutes a Fourth Amendment search.³⁰ The Respondents can draw on three years of data, and Venntel offers its clients the ability to “continuously” track a person's phone for 90 days.³¹ The *Carpenter* court warned that cell-site geolocation records

¹⁷ See Order on Motion to Dismiss, *FTC v. Kochava, Inc.*, 2:22-cv-00377-BLW, (D. Idaho May 4, 2023) at 8–10, (“an invasion of privacy may constitute an injury that gives rise to liability under Section 5(a)”) https://www.ftc.gov/system/files/ftc_gov/pdf/71-OpiniononMTD.pdf.

²⁰ Complaint, *supra* note 10.

²¹ See *supra* note 11.

²² 15 U.S.C. 45(n). To be clear, I do not believe that an appeal to public policy is necessary to support this matter. Still, I believe it is useful exercise here, especially when considering the Commission's actions relative to other policy priorities.

²³ *Olmstead v. United States*, 277 U.S. 438, 472 (Brandeis, J., dissenting). The *Olmstead* majority held that a prolonged wiretap did not constitute a search or seizure for the purposes of the Fourth Amendment because the interception occurred along public phone lines leading to the home in question—“[t]here was no entry of the houses or offices of the defendants.” *Id.* at 464.

²⁴ *Katz v. United States*, 389 U.S. 347, 351 (1967).

²⁵ *Kyllo v. United States*, 533 U.S. 67 (2001).

²⁶ *Riley v. California*, 573 U.S. 373 (2014).

²⁷ See *Carpenter v. United States*, 585 U.S. 296, 306–321 (2018).

²⁸ See *Carpenter*, 585 U.S. at 312.

²⁹ Complaint, *supra* note 10, at 2.

³⁰ See *Carpenter*, 585 U.S. at 302 (129 days) & 310 n. 3 (seven days constitutes a Fourth Amendment search).

³¹ Complaint, *supra* note 10, at 3–4.

¹² See Complaint, *supra* note 10, at 9–10.

¹³ *Id.* at 5.

¹⁴ Statement of Commissioner Melissa Holyoak, In the Matter of Gravy Analytics, Inc. & Venntel, Inc. (Dec. 2, 2024).

¹⁵ Fed. Trade Comm'n, Protecting Consumer Privacy in an Era of Rapid Change: Recommendations for Businesses and Policymakers, (2012).

¹⁶ *Id.* at 58.

can reveal a person's "familial, political, professional, and sexual associations"—a phrase that might as well be Respondents' marketing slogan.³²

To make this plain: *Carpenter* said that to get this data, you need a warrant; Venntel lets them get it without a warrant. I cannot see how this is a "countervailing benefit to consumers." It certainly contravenes "established public policy."

Looking beyond *Carpenter*, a panoply of statutes sets out a range of safeguards against the government's untrammeled collection of Americans' sensitive data. The Wiretap Act requires warrants to authorize wiretapping and interception of communications.³³ The Stored Communications Act protects the privacy of subscribers' information held by internet service providers and established procedures for government access by warrant, subpoena, court order, or written consent.³⁴

Both of those laws concern oral or written communications; one may assume that Congress would want to protect this data. Consider that if law enforcement wants YouTube to disclose the name of a single video that I have watched online, Federal statute requires that they get a warrant, grand jury subpoena, or a court order.³⁵ Similarly, the Cable Act provides that cable subscribers' personally identifiable information, such as their viewing habits, cannot be disclosed without their consent, except in the case of a court order.³⁶

³² See *Carpenter*, 585 U.S. at 311 (citing *United States v. Jones*, 565 U.S. 400, 415 (2011) (Sotomayor, J., concurring)). Furthermore, while it may be easier to refrain from using an app than to stop using a smartphone altogether, the complaint makes clear that the customers whose geolocation information has been collected by Venntel have in no way voluntarily "assume[d] the risk" of disclosing their geolocation information in this manner. See *id.* at 315; Complaint, *supra* note 10, at 5–9. In sum, it is easy to agree with my colleague Commissioner Holyoak, who wrote that our enforcement actions protecting precise geolocation "[correlate] with judicial recognition, in other contexts, of how significant such information is." See Concurring Statement of Comm'r Melissa Holyoak, Kochava, Inc., FTC Matter No. X230009, at 2 (July 15, 2024) ("The Commission's effort to protect the privacy of consumers' precise geolocation data in this case correlates to judicial recognition, in other contexts, of how significant such information is."), https://www.ftc.gov/system/files/ftc_gov/pdf/2024-7-15-Commissioner-Holyoak-Statement-re-Kochava-final.pdf.

³³ 18 U.S.C. 2510 through 2522.

³⁴ 18 U.S.C. 2703(d).

³⁵ *Id.* 2710(b)(2)(C). Separately, while it cannot yet constitute "an established public policy," I would be remiss if I did not note that The Fourth Amendment Is Not For Sale Act, which would extend these Fourth Amendment protections to geolocation data held by data brokers, recently passed the House of Representatives. See H.R. 4639, 118th Cong. (2023).

³⁶ 47 U.S.C. 551(c).

Admittedly, there is active debate around whether these statutes impose the correct degree of protection in light of the Fourth Amendment. That said, the correct degree is clearly not zero.

IV. The Proposed Order

Speaking generally, the proposed order prohibits Respondents from disclosing sensitive location data in any of its products or services.³⁷ Sensitive location data includes, *inter alia*, medical facilities, religious buildings, schools and daycares, domestic violence shelters, and military facilities.³⁸ The order also directs Respondents to ensure that their clients do not use their data to track people to political protects, or to locate someone's home.³⁹ The order requires that Respondents not collect any data from consumers that have opted out of targeted advertising via their operating system, and will block them from collecting, using, or disclosing geolocation data without proof that people have agreed to that.⁴⁰

Like the Court in *Carpenter*, the proposed order recognizes that not all government uses of geolocation data are alike.⁴¹ It has exceptions for the disclosure of geolocation data for certain bona fide national security and data security purposes, including countering espionage and disrupting cyber threats from foreign "nation states, terrorists, or their agents or proxies."⁴² It also has exceptions for Federal law enforcement agencies responding "to an imminent risk of death or serious bodily harm to a person."⁴³

Unless one of these special exceptions applies, agencies like DHS, DEA, FBI, and IRS will not be able to use Venntel to warrantlessly track people to church, to the doctor, to school, to protests, or to their homes. And Venntel will soon not be able to trade in any geolocation data without the consent of the people being tracked.

³⁷ See Order, Gravy Analytics, Inc. & Venntel, Inc., FTC Docket No. 2123035 at 5 ("II. Prohibitions on the Use, Sale, or Disclosure of Sensitive Location Data").

³⁸ See *id.* at 4–5.

³⁹ See *id.* at 7–8 ("IV. Other Location Data Obligations").

⁴⁰ See *id.* at 9 ("VI. Limitations on Collection, Use, Maintenance, and Disclosure of Location Data"). These are just a few parts of the order, which includes various other provisions and exceptions.

⁴¹ See *Carpenter*, 585 U.S. at 319.

⁴² Order, *supra* note 37.

⁴³ See *id.* at 4. These should not be understood as "exceptions" to section 5, but rather a recognition that in this specific instance, these order provisions are appropriate.

Concurring Statement of Commissioner Melissa Holyoak Joined in Part by Commissioner Alvaro M. Bedoya (Section I Only)

I support today's settlement with two location data broker companies—Respondents Gravy Analytics, Inc. ("Gravy") and its subsidiary, Venntel, Inc. ("Venntel")—to resolve allegations that Respondents: packaged and sold consumers' precise geolocation data to third parties, revealing consumers' visits to places of worship, medical facilities, and political gatherings (Count I); failed to employ reasonable procedures to verify that geolocation data obtained from third parties had been collected with appropriate consumer consent (Count II); and created and sold "audience segments" based on consumers' religious beliefs, political leanings, and medical conditions that had been derived from precise geolocation data (Count III).¹ Staff are to be commended for their efforts and hard work in resolving this matter.

My statement proceeds in two parts: Section I discusses Respondents' collection and sale of consumers' precise geolocation data to third parties and the alleged direct and cognizable harms resulting from that conduct. Section II outlines my views on the necessity, efficacy, and scope of the Proposed Order's injunctive provisions and my interpretation of Count III of the Complaint.

I. The Alleged Harms From Respondents' Conduct

I start by recounting Respondents' alleged conduct here. The Complaint alleges that Respondents collected and purchased vast amounts of consumers' precise geolocation information from third-party data suppliers and mobile applications.² Through these various suppliers and applications, Respondents claimed to collect, process, and curate over 17 billion signals from approximately a billion mobile devices on a daily basis.³ Respondents allegedly packaged and sold this geolocation data—in both raw and enriched formats—along with other persistent identifiers to different commercial entities and government clients.⁴ The Complaint also alleges that Gravy separately offered commercial entities curated "audience segments" for targeted advertising, sometimes based on consumers' perceived religious beliefs, political leanings, and medical

¹ Compl. ¶¶ 76–81.

² *Id.* ¶¶ 7–9.

³ *Id.* ¶ 9.

⁴ *Id.* ¶¶ 7, 13–22.

conditions derived from insights about their geolocation data.⁵

I am gravely concerned about the potential harms stemming from the sale of consumers' geolocation data,⁶ and in certain instances, these harms may constitute a "substantial injury" under section 5 of the FTC Act.⁷ Here, the Complaint alleges that Respondents' sale of consumers' precise geolocation data in certain circumstances enabled their third-party clients to directly track individual consumers' movements at sensitive "geo-fenced" locations, such as places of worship, medical facilities, and political events, with no guardrails or oversight.⁸ The Complaint further alleges that this practice directly revealed consumers' political, religious, and medical activities, and thus, constitutes a "substantial injury" under section 5.⁹ I agree. As I explained in the *Kochava* action, selling "precise geolocation information revealing political, medical, or religious activities, without consumers' consent to willing purchasers, . . . breaches [consumers'] trust and jeopardizes Americans' freedoms."¹⁰ Thus, under these circumstances, the alleged sale of consumers' precise geolocation information—data obtained from third-party suppliers without consumers' knowledge and appropriate consent—meets the threshold for alleging "substantial injury" under section 5.¹¹

⁵ *Id.* ¶¶ 44–45, 50–53.

⁶ See, e.g., Dhruv Mehrotra & Dell Cameron, *Anyone Can Buy Data Tracking US Soldiers and Spies to Nuclear Vaults and Brothels in Germany*, *Wired* (Nov. 19, 2024) ("Experts caution that foreign governments could use [geolocation] data to identify individuals with access to sensitive areas; terrorists or criminals could decipher when [U.S.] nuclear weapons are least guarded; or spies or nefarious actors could leverage embarrassing information for blackmail."), <https://www.wired.com/story/phone-data-us-soldiers-spies-nuclear-germany/>.

⁷ See Concurring Statement of Comm'r Melissa Holyoak, *Kochava, Inc.*, FTC Matter No. X230009, at 2 (July 15, 2024) ("I agree that the complaint adequately alleges a likelihood of substantial injury, in the revelation of sensitive locations implicating political, medical, and religious activities. The Commission's effort to protect the privacy of consumers' precise geolocation data in this case correlates to judicial recognition, in other contexts, of how significant such information is."), https://www.ftc.gov/system/files/ftc_gov/pdf/2024-7-15-Commissioner-Holyoak-Statement-re-Kochava-final.pdf.

⁸ *Compl.* ¶¶ 11–12, 16, 18–22, 25–26.

⁹ *Id.* ¶¶ 48, 50–53, 56–57, 59.

¹⁰ Holyoak Concurring Statement, *supra* note 7, at 3.

¹¹ The Complaint alleges several secondary (and indirect) harms that may arise from Respondents' conduct, including "stigma, discrimination, physical violence, emotional distress, and other harms." See *Compl.* ¶¶ 60–69. I have concerns about whether certain secondary harms are legally cognizable, and whether we could meet our burden of proof—at summary judgment or trial—that Respondents' practices raised a "significant risk of

In addition, consumers' precise geolocation data can be easily misused by law enforcement to impinge on basic freedoms under the United States Constitution, including Americans' Fourth Amendment rights against wrongful government surveillance.¹² I share Commissioner Bedoya's concerns about this practice and the harms it poses to Americans.¹³ The continued misuse of geolocation data by law enforcement is an ongoing and extant threat to Americans' civil liberties.¹⁴ Moreover, foreign actors can readily purchase precise geolocation data about Americans, including our active-duty military personnel, with no oversight or guardrails, which can pose serious national security and counterintelligence risks.¹⁵

Although I firmly believe that a comprehensive solution for the sale and

concrete harm" to consumers. *Cf. FTC v. Neovi, Inc.*, 604 F.3d 1150, 1157–58 (9th Cir. 2010) ("An act or practice can cause 'substantial injury' by doing a 'small harm to a large number of people, or if it raises a significant risk of concrete harm.'" (citation omitted)); *In re Soc. Media Adolescent Addiction/Pers. Inj. Prod. Liab. Litig.*, No. 4:23-CV-05448-YGR, 2024 WL 4532937, at *29 (N.D. Cal. Oct. 15, 2024) (concluding that the States plausibly alleged a "substantial injury" for Meta's alleged unfair conduct because: (1) "body image and eating disorders" are real medical conditions, (2) "knowingly developing tools that encourage youth addiction 'cannot fairly be classified as either trivial or speculative,'" and (3) the States' allegations present a "substantial risk of imposing at least a 'small harm to a large number of people,' . . . , given these practices are allegedly targeted at all minor users of Facebook and Instagram") (internal citations omitted). I await guidance from future court decisions, including in the Commission's ongoing *Kochava* litigation, about these harms.

¹² Holyoak Concurring Statement, *supra* note 7, at 2–3 (describing how "government officials can purchase precise geolocation data from commercial data brokers in ways that may circumvent Fourth Amendment protections," and how "[t]here are examples of public-private collaboration in other settings, too, suggesting that government and private-sector entities increasingly work together to leverage consumers' private information without compulsory or formal process, such as a warrant") (citations omitted); see also *id.* at 3 n.12 (citing Lee Fang, *FBI Expands Ability to Collect Cellphone Location Data, Monitor Social Media, Recent Contracts Show*, *The Intercept* (June 24, 2020), <https://theintercept.com/2020/06/24/fbi-surveillance-social-mediacellphone-dataminr-venntel/>).

¹³ See Concurring Statement of Comm'r Alvaro Bedoya, *In re Gravy Analytics, Inc.*, FTC Matter No. 2123035, at § III (Dec. 3, 2024).

¹⁴ See, e.g., H.R. Rep. No. 118–459, pt. 1, at 2 (Apr. 15, 2024) ("H.R. 4639, the Fourth Amendment Is Not For Sale Act . . . closes the legal loophole that allows data brokers to sell Americans' personal information to law enforcement, intelligence agencies, and other government agencies without the agency first acquiring a warrant. If the agency were to gather this information itself, it would be required to obtain a warrant, subpoena, or other legal order. By closing this loophole, the bill prevents government agencies from conducting an end-run around the protections of the Fourth Amendment.").

¹⁵ *Supra* note 6.

disclosure of consumers' geolocation information requires Congressional action,¹⁶ the Commission should not shy away from using all available enforcement tools in the interim to address the evolving practices in the location data broker industry. The Commission should also investigate how location data brokers share geolocation data about Americans with foreign or malign actors. And where the facts warrant it, the Commission should consider stronger injunctive remedies in those cases, including restrictions that prevent or impede the sale of geolocation data about Americans, especially our servicemembers and their families, to bad actors overseas.

II. The Proposed Order and Count III of the Complaint

I also write separately today to share my views on the Proposed Order's injunctive provisions and my interpretation of Count III of the Complaint (Unfair Sale of Sensitive Inferences Derived from Consumers' Location Data). To begin with, let me be clear: my vote for today's settlement should not be read as a full-throated endorsement of the Proposed Order in its entirety or every allegation in the Complaint. I have serious concerns about whether the Commission could obtain many of the Proposed Order's injunctive provisions in a contested litigation.¹⁷ Indeed, while the Federal district court in the *Kochava* litigation may address the propriety of various types of injunctive relief from the Proposed Order in the coming months, I will continue to reserve judgment here. I also have questions about the necessity and efficacy of the injunctive provisions found in Sections VI, VII, and IX.¹⁸

¹⁶ See generally H.R. 4639, Fourth Amendment Is Not For Sale Act, § 2 ("A law enforcement agency of a governmental entity and an element of the intelligence community may not obtain from a third party in exchange for anything of value a covered customer or subscriber record or any illegitimately obtained information."); H.R. 815, Public Law 118–50, Division I, Protecting Americans' Data from Foreign Adversaries Act of 2024, § 2 ("It shall be unlawful for a data broker to sell, license, rent, trade, transfer, release, disclose, provide access to, or otherwise make available personally identifiable sensitive data of a United States individual to—(1) any foreign adversary country; or (2) any entity that is controlled by a foreign adversary.").

¹⁷ See, e.g., Dissenting Statement of Comm'r Melissa Holyoak, Joined by Comm'r Andrew N. Ferguson, *In re Rytir, LLC*, FTC Matter No. 2323052, at 1 (Sept. 25, 2024) ("As I have suggested recently in other contexts, the Commission should steer clear of using settlements to advance claims or obtain orders that a court is highly unlikely to credit or grant in litigation."), https://www.ftc.gov/system/files/ftc_gov/pdf/holyoak-rytir-statement.pdf.

¹⁸ For example, these injunctive provisions collectively require Respondents to ensure that consumers have affirmatively consented to all upstream uses of their location data, such as for

which first appeared in the *X-Mode Social* matter before my arrival at the Commission.¹⁹ As we turn the page on the last four years, the Commission should comprehensively examine the utility of the type of injunctive relief found in today's Proposed Order in the future and implement changes where warranted.²⁰

A. Proposed Order

While today's settlement is not perfect by any measure, several provisions in the Proposed Order will mitigate the harms resulting from Respondents' allegedly unlawful practices—*i.e.*, the disclosure of consumers' political, religious, and medical activities. Critically, the Proposed Order will prohibit the unauthorized sale or disclosure of “Sensitive Location Data”—geolocation data associated with military installations and buildings, medical facilities, religious organizations, childcare and education services, and many others—to third

targeted advertising, and provide opt-out mechanisms for consumers to withdraw consent directly with Respondents, even though Respondents “do not collect mobile location data directly from consumers” and consumers “have no interactions with Respondents and have no idea that Respondents have obtained their location data.” Compl. ¶ 8; *see generally* Proposed Decision and Order §§ VI (Limitations on Collection, Use, Maintenance, and Disclosure of Location Data), VII (Supplier Assessment Program), and IX (Withdrawing Consent). I question the efficacy of these provisions given their focus on Respondents, which are upstream from the initial collection of this data from consumers. While ensuring appropriate consent for all upstream uses of consumers' data is laudable goal, the Commission may be better served by focusing injunctive relief on the companies that collect this data in the first instance, not upstream data aggregators like Respondents.

¹⁹ Compare Proposed Decision and Order §§ VI (Limitations on Collection, Use, Maintenance, and Disclosure of Location Data), VII (Supplier Assessment Program), and IX (Withdrawing Consent) with *In re X-Mode Social, Inc. and Outlogic, LLC*, FTC Matter No. 212–3038, Proposed Decision and Order §§ VI–VII, IX (Jan. 9, 2024), https://www.ftc.gov/system/files/ftc_gov/pdf/X-Mode-D%26O.pdf.

²⁰ During the first Trump administration, the Commission held several public hearings on Competition and Consumer Protection in the 21st Century, including to solicit public and industry feedback on improvements to the Commission's data security orders. *See* Hearings on Competition & Consumer Protection in the 21st Century, Fed. Trade Comm'n (2018–19), <https://www.ftc.gov/enforcement-policy/hearings-competition-consumer-protection>. Following these public hearings, the Commission updated its data security orders, and FTC staff explained the key changes in public-facing guidance. *See* Andrew Smith, Former Director of the Bureau of Consumer Protection, *New and Improved FTC Data Security Orders: Better Guidance for Companies, Better Protection for Consumers*, FTC Business Blog (Jan. 6, 2020), <https://www.ftc.gov/business-guidance/blog/2020/01/new-and-improved-ftc-data-security-orders-better-guidance-companies-better-protection-consumers>.

parties.²¹ It also requires Respondents to implement a “Sensitive Data Location” program, as well as prophylactically avoid associating consumers' precise geolocation data with (1) political demonstrations, marches, and protests and (2) residences for individual consumers.²² The Proposed Order further requires Respondents to offer individual consumers the ability to request deletion of their geolocation data in Respondents' datasets.²³

I support Sections II, III, IV, and XI of the Proposed Order since they are directly tied to Respondents' alleged conduct, help mitigate the specific harms from disclosing consumers' political, religious, and medical activities, and properly balance the costs and benefits, as required by section 5 of the FTC Act. But today's settlement also has important limits, particularly with the sale and use of “Sensitive Location Data”. In my view, the Proposed Order strikes the proper balance under our unfairness authority. Permitting the use and disclosure of precise geolocation information to third parties for national security or data security purposes,²⁴ or to prevent imminent risk of death or serious bodily harm,²⁵ presents tangible benefits that appropriately fall within the confines of the Proposed Order's carefully negotiated definitions.

At the same time, the Proposed Order's restrictions on further disclosure of consumers' geolocation data help protect American citizens' constitutional rights under the Fourth Amendment of the United States Constitution. Fourth Amendment rights should not be for sale, under any circumstance. I agree with Commissioner Bedoya on this issue and the importance of the Proposed Order's

restrictions here.²⁶ Constitutionally appropriate process, such as warrants or subpoenas, exists for law enforcement to obtain information it needs, without resorting to purchasing consumers' precise geolocation data from unscrupulous location data brokers to circumvent judicial oversight.²⁷ Nor does the Proposed Order have a deleterious impact on law enforcement efforts. Law enforcement personnel can always avail themselves of the appropriate legal process to obtain such data in a manner that comports with Fourth Amendment requirements.

B. Count III (Unfair Sale of Sensitive Inferences)

The Complaint alleges that Gravy created and sold custom “audience segments” based on consumers' religious beliefs, political leanings, and medical conditions by geo-fencing sensitive locations, such as breast cancer events, specific churches, and “Republican focused political events.”²⁸ The sale of “audience segments” tied to consumers' religious beliefs, political leanings, and medical conditions qualifies as an unfair practice: it “causes or is likely to cause substantial injury” by revealing consumers' political, religious, and medical activities (as discussed *supra* in Section I), consumers cannot reasonably avoid the harm (they are not aware of Respondent and did not consent to the use), and it is not outweighed by any countervailing benefits to consumers or competition.²⁹ For these reasons, I support Count III.

However, my vote today does not entail broader support for the Majority's continued effort to deem targeted advertising an unfair practice under section 5. Nor should my vote be construed as endorsing the Complaint's theory about secondary harm to consumers.³⁰ As I have explained before, we must “tease out the complexity of the privacy debate” and “press for more empirical research” to ground our unfairness analysis.³¹ Our complaints cannot simply rely on politically charged buzzwords. For example, the Complaint here expresses concerns with Gravy's practice of creating general “audience segments”

²¹ Proposed Decision and Order § II; *see also id.* at 2 (Definitions).

²² *See id.* §§ III–IV. Indeed, I believe the Proposed Order's terms will prevent some of the unfortunate public-private partnerships we have seen recently in the context of political activity. *See, e.g.*, Holyoak Concurring Statement, *supra* note 7, at 3 n.13.

²³ Proposed Decision and Order § XI.

²⁴ *See* Proposed Decision and Order at 4 (defining “National Security” to mean “the national defense, foreign intelligence and counterintelligence, international and internal security, and foreign relations[.]” which “includes countering terrorism; combating espionage and economic espionage conducted for the benefit of any foreign government, foreign instrumentality, or foreign agent; enforcing export controls and sanctions; and disrupting cyber threats that are perpetrated by nation states, terrorists, or their agents or proxies”).

²⁵ *Id.* at 4 (defining “Location Data” to exclude data used for “National Security” purposes, “Security Purposes,” and “response by a federal law enforcement agency to an imminent risk of death or serious bodily harm to a person”).

²⁸ Compl. ¶¶ 50–53.

²⁹ *Id.* ¶¶ 56–59.

³⁰ *Id.* ¶¶ 60–69.

³¹ Melissa Holyoak, Remarks at National Advertising Division, *A Path Forward on Privacy, Advertising, and AI*, at 7 (Sept. 17, 2024), https://www.ftc.gov/system/files/ftc_gov/pdf/Holyoak-NAD-Speech-09-17-2024.pdf.

for targeted advertising—e.g., “Sports Betting Enthusiast[s],” “Early Risers,” “Healthy Dads,” “New Parents,” or “Parents with Young Kids”³² But the Complaint fails to confront how these audience segments create a “significant risk of concrete harm” and ignores the potential benefits to consumers and competition. Behaviorally targeted advertising may produce more relevant ads to consumers, reducing their search costs and allowing small businesses and new market entrants to connect with a broader consumer base.³³

Moreover, my vote should not be construed as support for deeming the use of sensitive data or the categorization of sensitive data as unlawful in every circumstance. Consumers may be deceived or harmed where their sensitive data is used without their knowledge or consent, contrary to their reasonable expectations. But context matters. For example, if a consumer searches online for nearby pediatricians close to their home, then serving ads in other contexts for pediatrician offices and groups based on the consumer’s location may be both reasonable and desirable. If a consumer subscribes to a podcast on a certain type of politics, advertisements for other political podcasts may be of interest to that consumer.

We also need to disentangle any objections to the content of an advertisement from the practices of categorization and targeting generally. Take, for example, the practice of categorizing consumers into the ad segment “women over 50 suffering from breast cancer.” An advertiser may use that segment to target ads for well-validated treatments, potentially connecting women with life-saving care. Or an advertiser could use that segment to target ads for bogus treatments. We should not conflate our concern about deceptive advertising (the bogus treatment) with the lawful act of categorizing and targeting based on sensitive data, lest we undermine the ability to connect women with life-saving care. This is just one example of the potentially beneficial or harmful content served to audience segments. Certain types of categorization and targeting may offer similar benefits to consumers and competition, if used properly and in a lawful manner.³⁴

As we consider these types of difficult privacy questions in the future, it is of paramount importance that we challenge only unfair or deceptive conduct, supported by specific facts and empirical research, rather than demonizing the entire digital advertising industry.³⁵ And until Congress acts to address privacy directly through legislation, it is vital we recognize and abide by the limited remit of the Commission’s statutory authority.

Concurring and Dissenting Statement of Commissioner Andrew N. Ferguson

Today the Commission approves complaints against, and proposed consent orders with, Gravy Analytics¹ (“Gravy”)² and Mobilewalla³ for various practices concerning the collection and dissemination of precise location data allegedly constituting unfair or deceptive acts or practices in violation of section 5 of the Federal Trade Commission Act.⁴ Gravy and Mobilewalla are data brokers that aggregate and sell consumer data, including location data.⁵ Gravy and Mobilewalla do not collect the data from consumers.⁶ Those data are collected from applications that consumers use on their smartphones, and Gravy and Mobilewalla purchase or otherwise acquire those data after they are collected.⁷ Gravy and Mobilewalla then sell those data to private firms for advertising, analytics, and other purposes, as well as to the government.⁸

Part I

I concur entirely in two of the counts the Commission brings against both firms, and one that we bring against Mobilewalla alone. These counts are sufficient to justify my vote in favor of

commissioner-holyoak-statement-social-media-6b.pdf.

³⁵ Commissioner Holyoak Remarks, *supra* note 31, at 5–7.

¹ Also named is Venntel, Inc., a wholly-owned subsidiary of Gravy Analytics.

² Complaint, *In re Gravy Analytics* (“Gravy Complaint”).

³ Complaint, *In re Mobilewalla* (“Mobilewalla Complaint”).

⁴ 15 U.S.C. 45.

⁵ Gravy Complaint ¶¶ 7; Mobilewalla Complaint ¶¶ 3, 18.

⁶ Gravy Complaint ¶ 8; Mobilewalla Complaint ¶ 4.

⁷ Gravy Complaint ¶¶ 9–10; Mobilewalla Complaint ¶¶ 4, 5.

⁸ Gravy Complaint ¶¶ 13–21; Mobilewalla Complaint ¶¶ 6, 19, 36. As my colleagues’ statements make clear, the sale of data to the government for law-enforcement, national-security, and immigration-enforcement purposes implicates different constitutional and statutory questions than the sale of those same data to private firms. I take no firm position on those questions except to say that I believe that the restrictions on sale to the government in the Gravy order are lawful.

submitting the complaints and proposed consent orders for public comment. First, the Commission alleges that Gravy and Mobilewalla sell consumers’ precise location data without taking sufficient measures to anonymize the information or filter out sensitive locations.⁹ This type of data—records of a person’s precise physical locations—is inherently intrusive and revealing of people’s most private affairs. The sale of such revealing information that can be linked directly to an individual consumer poses an obvious risk of substantial injury to that consumer.¹⁰ The theft or accidental dissemination of those data would be catastrophic to the consumer. The consumer cannot avoid the injury. Unless the consumer has consented to the sale of intimate data linked directly to him, the sale of the data happens entirely without his knowledge.¹¹ Finally, given that the anonymized data remain valuable to firms for advertising and analytics, the injury that the consumer suffers is not outweighed by any countervailing benefits for the consumer.¹² The sale of non-anonymized, precise location data without first obtaining the meaningfully informed consent of the consumer is therefore an unfair act or practice in violation of section 5.

Second, the Commission accuses both companies of collecting, using, and selling precise location information without sufficiently verifying that the consumers who generated the data consented to the collection of those data by the applications that collected it.¹³ Given that the failure to obtain meaningful consent to the collection of precise location data is widespread, data brokers that purchase sensitive information cannot avoid liability by turning a blind eye to the strong possibility that consumers did not consent to its collection and sale. The sale of precise location data collected without the consumer’s consent poses a similarly unavoidable and substantial risk of injury to the consumer as does the sale of the non-anonymized data. I therefore concur in these counts against Gravy and Mobilewalla.¹⁴

⁹ Gravy Complaint ¶¶ 73–75; Mobilewalla Complaint ¶¶ 66–67.

¹⁰ 15 U.S.C. 45(n); see *FTC v. Kochava, Inc.*, 715 F. Supp. 3d 1319, 1323–24 (D. Idaho 2024).

¹¹ 15 U.S.C. 45(n).

¹² *Ibid.*

¹³ Gravy Complaint ¶¶ 76–78; Mobilewalla Complaint ¶¶ 71–72.

¹⁴ Section 5 does not impose strict liability for the purchase of precise location data collected without the consumer’s consent, nor do I understand the complaints and orders as interpreting section 5 hold data brokers strictly liable for every purchase of precise location data that was collected without the consumer’s consent. Data brokers need only take

³² Compl. ¶¶ 47–49.

³³ See, e.g., Commissioner Holyoak Remarks, *supra* note 31, at 6.

³⁴ See generally Concurring and Dissenting Statement of Comm’r Melissa Holyoak, *Social Media and Video Streaming Services Staff Report*, Matter No. P205402, at 15–18 (Sept. 19, 2024), https://www.ftc.gov/system/files/ftc_gov/pdf/

I further concur in one additional count charged against Mobilewalla alone. The Commission accuses it of having committed an unfair act or practice for its conduct on real-time bidding exchanges (RTBs).¹⁵ An RTB is a marketplace where advertisers bid in real time on the opportunity to show an advertisement to a user as the user is visiting a website or using an application.¹⁶ The auctions take place in the blink of an eye, and the listings on which advertisers bid include information such as the user's mobile advertising ID (MAIDs) and current precise location.¹⁷ Advertisers crave these data because it allows them to maximize the value of each ad impression by displaying the ads only to the users most likely to find the advertisement useful. The Commission accuses Mobilewalla of sitting on the RTBs, submitting bids, collecting the MAIDs and location data for the bids, retaining those data even when it did not win the auction, and combining those data with data acquired from other sources to identify the user represented by the MAID.¹⁸ It aggregated and sold this combined identity and location information to its clients.¹⁹ This alleged practice violated Mobilewalla's legal contracts with the exchanges.²⁰

The violation of a private contract alone is not enough to establish a violation of section 5.²¹ But these agreements protected more than just Mobilewalla's contractual counterparties. They also protected large numbers of consumers from the risk of having their private data aggregated, linked to their identity, and sold without their consent, as Mobilewalla did. Mobilewalla's breach of its contractual obligations therefore exposed consumers to the same substantial risk of injury as collection of their data without consent, was not reasonably avoidable by consumers (as this conduct was far removed from their

knowledge and control), and was not outweighed by any countervailing benefits to consumers. It is therefore in the public interest to hold Mobilewalla liable for this conduct under section 5, as it would be even if no contract governed Mobilewalla's obligations regarding the unconsented collection and retention of these precise location data.²²

Part II

I dissent from the Commission's counts against both firms accusing them of unfairly categorizing consumers based on sensitive characteristics, and of selling those categorizations to third parties.²³ The FTC Act prohibits the collection and subsequent sale of precise location data for which the consumer has not consented to the collection or sale. It further requires data brokers to take reasonable steps to ensure that consumers originally consented to the collection of the data that the data brokers subsequently use and sell. If a company aggregates and categorizes data that were collected without the consumer's consent, and subsequently sells those categorizations, it violates section 5. But it does so only because the data were collected without consent for such use, not because the categories into which it divided the data might be on an indeterminate naughty categories list. The FTC Act imposes consent requirements in certain circumstances. It does not limit how someone who lawfully acquired those data might choose to analyze those data, or the conclusions that one might draw from them.²⁴

Consider an analogous context: the collection of data by private investigators. Private investigators do not violate the law if they follow someone on the public streets to his place of employment, observe him entering a church, observe him attending the meeting of a political

party, or watch him enter a hospital. These are all public acts that people carry out in the sight of their fellow citizens every day. Nor do private investigators violate the law by concluding from their lawful observations that the person works for that company, practices that religion, belongs to that political party, or suffers from an illness. Nor would the law prohibit the private investigator from selling his conclusions to a client. But the law would forbid private investigators from trespassing on the employer's property; from surreptitiously planting cameras inside the church sanctuary to observe the rites; from recording the proceedings of the political meeting without consent; or from extorting hospital staff for information about the person's condition. The law prohibits collecting data in unlawful ways; it does not prohibit drawing whatever conclusions one wants, or selling those conclusions to someone else, so long as the data from which the conclusions were drawn were lawfully obtained.

The same principle should apply to section 5. The added wrinkle is that in the information economy, private data are usually collected in the context of a commercial relationship between the user and the developer of an application or website. Just as we expect a merchant to disclose the material terms of a transaction before collecting payment, we expect that the user of an app or website be informed of how their private information—part, and often all, of the consideration they give in exchange for use of the app or website—will be collected and used, and given a chance to decline the transaction. Commercial fairness might also require more than vague hidden disclosures, especially when the loss of privacy is substantial, as is the case with collection of precise location data and its sale to third parties.

Rather than faulting these companies for disclosing data about users without adequate consent, these counts in the complaints focus instead on the inherent impropriety of categorizing users according to so-called "sensitive characteristics." Perhaps my colleagues are worried that advertisements targeted on the basis of these categories can cause emotional distress—the theory they advanced in the Commission's Social Media 6(b) Report earlier this year.²⁵ But as I argued then, it is folly

reasonable steps to ensure that the data they are acquiring were originally collected with the consumer's consent. Gravy Complaint ¶ 76 (faulting Gravy for not taking "reasonable steps to verify that consumers provide informed consent to Respondents' collection, use, or sale of the data for commercial and government purposes."); Mobilewalla Complaint ¶ 71 (similar).

²⁰ Mobilewalla Complaint ¶ 10.

²¹ See *FTC v. Klesner*, 280 U.S. 19, 28 (1929) (Section 5's requirement that enforcement "would be to the interest of the public" is not satisfied in the case of a purely private dispute, as "the mere fact that it is to the interest of the community that private rights shall be respected is not enough to support a finding of public interest.").

²² See *id.* at 27–28 (explaining that protection of private rights can be incident to the public interest, and that such cases might include those where the conduct threatens the existence of competition, involves the "flagrant oppression of the weak by the strong," or where the aggregate loss is sufficient to make the matter one of public consequence but incapable of vindication by individual private suits).

²³ Gravy Complaint ¶¶ 79–81; Mobilewalla Complaint ¶¶ 68–69.

²⁴ Of course, other laws might prohibit particular uses of data that were collected consistently with the requirements of section 5. Using lawfully obtained data to draw conclusions about a consumer's race alone would not violate section 5, but using those conclusions to make an employment or housing decision, for example, might violate the Civil Rights Act of 1964, 42 U.S.C. 2000e *et seq.*, or the Fair Housing Act, 42 U.S.C. 3601 *et seq.* But merely drawing a conclusion from lawfully obtained data does not violate section 5.

²⁵ FTC, A Look Behind the Screens: Examining the Data Practices of Social Media and Video Streaming Services, An FTC Staff Report, at 44 (Sept. 2024), https://www.ftc.gov/system/files/ftc_gov/pdf/Social-Media-6b-Report-9-11-2024.pdf.

to try to identify which characteristics are sensitive and which are not. “[T]he list of things that can trigger each unique individual’s trauma is endless and would cover every imaginable” advertisement based on every possible categorization, so whatever lines we end up drawing will be “either arbitrary or highly politicized.”²⁶

We can already see this dysfunction in these complaints, which mention as sensitive characteristics race, ethnicity, gender, gender identity, sexual orientation, pregnancy, parenthood, health conditions, religion, and attendance of a political protest, among others.²⁷ While some of these characteristics often entail private facts, others are not usually considered private information. Attending a political protest, for example, is a public act. The public expression of dissatisfaction or support is the point of a protest. Treating attendance at a political protest as uniquely private and sensitive is an oxymoron. Moreover, there are no objective criteria on which to base this list.²⁸ The statute provides no guidance. The list is therefore a purely subjective creation of Commission bureaucrats. And it excludes categories that many would consider deeply private and sensitive.²⁹ And if we did a full accounting of characteristics that someone, somewhere might consider sensitive, no useful categorizations would remain. If what we are worried about is that the generation and sale of these categorizations will be a substitute for the sale of the user data from which they are derived, the correct approach is

to treat conclusions derived from user data as no different than the underlying data. In either case, adequate consent is required for their collection, use, and sale.

Finally, I have doubts about the viability of a final charge levied against Mobilewalla for indefinitely retaining consumer location information.³⁰ It is a truism that data stored indefinitely is at a greater risk of compromise than data stored for a short period of time. But nothing in section 5 forms the basis of standards for data retention. The difficulty is illustrated perfectly by the proposed order we approve today. Rather than impose any particular retention schedule, it merely requires that Mobilewalla:

. . . document, adhere to, and make publicly available . . . a retention schedule . . . setting forth: (1) the purpose or purposes for which each type of Covered Information is collected or used; (2) the specific business needs for retaining each type of Covered Information; and (3) an established timeframe for deletion of each type of Covered Information limited to the time reasonably necessary to fulfill the purpose for which the Covered Information was collected, and in no instance providing for the indefinite retention of any Covered Information . . .³¹

Given that Mobilewalla is in the business of selling user information, and that the marginal cost of data storage is low, the “specific business need” can be nothing more than the possible existence in the future of some buyer willing to pay more than the low cost of storage to acquire the data. I see no reason why Mobilewalla could not set a retention period of many decades based on this reasoning. In fact, while two-year-old location data is intuitively less valuable than one-year-old location data, it is quite plausible that twenty- or thirty-year-old location data is more valuable than location data that is only a few years old, as it may allow advertisers to tap into nostalgic sentiments.

The trouble with both the sensitive-categories count and the data-retention count is that the text of section 5 cannot bear the tremendous weight my colleagues place on it. My colleagues want the FTC Act to be a comprehensive privacy law. But it is not. Comprehensive privacy regulation involves difficult choices and expensive tradeoffs. Congress alone can make those choices and tradeoffs. It did not do so when it adopted the general prohibitions of section 5 nearly nine decades ago. And it has not adopted

comprehensive privacy legislation since then. We must respect that choice.

Until Congress acts, we should vigorously protect Americans’ privacy by enforcing the laws Congress has actually passed. But we must not stray from the bounds of the law. If we do, we will sow uncertainty among legitimate businesses, potentially disrupt the ongoing negotiations in Congress on privacy legislation, and risk damaging losses for the Commission in court.

BILLING CODE 6750–01–P

FEDERAL TRADE COMMISSION

[File No. 202 3196]

Mobilewalla Inc.; Analysis of Proposed Consent Order To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Proposed consent agreement; request for comment.

SUMMARY: The consent agreement in this matter settles alleged violations of Federal law prohibiting unfair or deceptive acts or practices. The attached Analysis of Proposed Consent Order to Aid Public Comment describes both the allegations in the complaint and the terms of the consent order—embodied in the consent agreement—that would settle these allegations.

DATES: Comments must be received on or before January 6, 2025.

ADDRESSES: Interested parties may file comments online or on paper by following the instructions in the Request for Comment part of the **SUPPLEMENTARY INFORMATION** section below. Please write “Mobilewalla; File No. 202 3196” on your comment and file your comment online at <https://www.regulations.gov> by following the instructions on the web-based form. If you prefer to file your comment on paper, please mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW, Mail Stop H–144 (Annex D), Washington, DC 20580.

FOR FURTHER INFORMATION CONTACT: David Walko (202–326–2775), Division of Privacy and Identity Protection, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Avenue NW, Washington, DC 20580.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 15 U.S.C. 46(f), and FTC Rule § 2.34, 16 CFR 2.34, notice is hereby given that the above-captioned consent agreement containing a consent order to cease and desist, having been

²⁶ Concurring and Dissenting Statement of Commissioner Andrew N. Ferguson, *A Look Behind the Screens: Examining the Data Practices of Social Media and Video Streaming Services*, at 5 (Sept. 19, 2024), https://www.ftc.gov/system/files/ftc_gov/pdf/ferguson-statement-social-media-6b.pdf.

²⁷ Mobilewalla Complaint ¶¶ 27–32.

²⁸ See *Kyllo v. United States*, 533 U.S. 27, 38–39 (2001) (rejecting a Fourth Amendment rule that limited thermal-imaging data collection to only “intimate details” because of the impossibility of developing a principled distinction between intimate and nonintimate information).

²⁹ Gun ownership is an example. In many States, citizens are free to own guns without registering them. There is therefore no public record that a person owns a gun. And in constitutional-carry States, a citizen may carry his handgun in concealment without the government’s permission, which means that bearing a firearm outside the home remains a private act. I expect many Americans would be horrified if their sensitive location data were used to place them in a “gun owner” category, and that category were then sold to other firms or to the government—particularly banks have gotten in the habit of ejecting customers who engaged in disfavored activities. Yet gun ownership does not make the Commission’s list. But political protests do. It is hard to see this list as anything other than the product of arbitrary or political decision making.

³⁰ Mobilewalla Complaint ¶¶ 73–74.

³¹ Decision and Order, *In re Mobilewalla, Inc.*, at 13.

filed with and accepted, subject to final approval, by the Commission, has been placed on the public record for a period of 30 days. The following Analysis to Aid Public Comment describes the terms of the consent agreement and the allegations in the complaint. An electronic copy of the full text of the consent agreement package can be obtained at <https://www.ftc.gov/news-events/commission-actions>.

You can file a comment online or on paper. For the Commission to consider your comment, we must receive it on or before January 6, 2025. Write “Mobilewalla; File No. 202 3196” on your comment. Your comment—including your name and your State—will be placed on the public record of this proceeding, including, to the extent practicable, on the <https://www.regulations.gov> website.

Because of heightened security screening, postal mail addressed to the Commission will be subject to delay. We strongly encourage you to submit your comments online through the <https://www.regulations.gov> website. If you prefer to file your comment on paper, write “Mobilewalla; File No. 202 3196” on your comment and on the envelope, and mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW, Mail Stop H-144 (Annex D), Washington, DC 20580.

Because your comment will be placed on the publicly accessible website at <https://www.regulations.gov>, you are solely responsible for making sure your comment does not include any sensitive or confidential information. In particular, your comment should not include sensitive personal information, such as your or anyone else’s Social Security number; date of birth; driver’s license number or other State identification number, or foreign country equivalent; passport number; financial account number; or credit or debit card number. You are also solely responsible for making sure your comment does not include sensitive health information, such as medical records or other individually identifiable health information. In addition, your comment should not include any “trade secret or any commercial or financial information which . . . is privileged or confidential”—as provided by section 6(f) of the FTC Act, 15 U.S.C. 46(f), and FTC Rule § 4.10(a)(2), 16 CFR 4.10(a)(2)—including competitively sensitive information such as costs, sales statistics, inventories, formulas, patterns, devices, manufacturing processes, or customer names.

Comments containing material for which confidential treatment is requested must be filed in paper form, must be clearly labeled “Confidential,” and must comply with FTC Rule § 4.9(c). In particular, the written request for confidential treatment that accompanies the comment must include the factual and legal basis for the request and must identify the specific portions of the comment to be withheld from the public record. See FTC Rule § 4.9(c). Your comment will be kept confidential only if the General Counsel grants your request in accordance with the law and the public interest. Once your comment has been posted on the <https://www.regulations.gov> website—as legally required by FTC Rule § 4.9(b)—we cannot redact or remove your comment from that website, unless you submit a confidentiality request that meets the requirements for such treatment under FTC Rule § 4.9(c), and the General Counsel grants that request.

Visit the FTC website at <https://www.ftc.gov> to read this document and the news release describing the proposed settlement. The FTC Act and other laws the Commission administers permit the collection of public comments to consider and use in this proceeding, as appropriate. The Commission will consider all timely and responsive public comments it receives on or before January 6, 2025. For information on the Commission’s privacy policy, including routine uses permitted by the Privacy Act, see <https://www.ftc.gov/site-information/privacy-policy>.

Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission (“Commission”) has accepted, subject to final approval, an agreement containing a consent order from Mobilewalla Inc. (“Mobilewalla”). The proposed consent order (“Proposed Order”) has been placed on the public record for 30 days for receipt of public comments from interested persons. Comments received during this period will become part of the public record. After 30 days, the Commission will again review the agreement, along with the comments received, and will decide whether it should make final the Proposed Order or withdraw from the agreement and take appropriate action.

Respondent Mobilewalla is a Delaware company with its headquarters in Georgia. Founded in 2008, Mobilewalla is a data broker that aggregates consumer information, including location data, to use and sell for its clients’ purposes, including

marketing, analytics, and non-commercial uses.

Mobilewalla does not collect information directly from consumers. Instead, Mobilewalla purchases consumers’ location data and other personal information, including consumers’ unhashed and hashed phone numbers from third-party data brokers. Mobilewalla has also collected data through real-time bidding (“RTB”) exchanges and other advertising platforms.

When Mobilewalla bid to place an advertisement for its clients through an RTB exchange, Mobilewalla collected and retained the information contained in the bid request, including the device’s mobile advertising identifier (“MAID”), a timestamp, and precise location data, if the consumer had location sharing turned on.

Mobilewalla has sold or licensed raw consumer data, including a device’s latitude and longitude coordinates paired with MAIDs, to its clients. Mobilewalla also analyzes the location data it obtains and, based on the locations and events visited by consumers’ mobile devices, categorizes MAIDs into “audience segments” based on interests or characteristics purportedly revealed by the locations or events. Mobilewalla has offered standard audience segments such as “Music Lovers” but has also created custom audience segments for clients, such as audience segments targeting pregnant women, Hispanic churchgoers, and members of the LGBTQ+ community.

Mobilewalla does not take sufficient steps to verify that consumers consent to its use of their data. Mobilewalla relies on its data suppliers to obtain consumer consent for the collection and use of their data. Mobilewalla’s contracts with its data suppliers include vague provisions requiring the suppliers to comply with applicable law when transferring consumer data to Mobilewalla but does not specifically require consumer consent. In addition, Mobilewalla has minimal procedures to verify whether its suppliers obtained consumer consent. Mobilewalla typically evaluates new data suppliers through a questionnaire and by reviewing the disclosures to consumers from three to five apps from which the supplier collects consumers’ data, even though some suppliers collect consumers’ data from thousands of apps. Mobilewalla does not subsequently or periodically check whether the apps have changed their disclosures.

In addition to failing to take sufficient steps to verify consumer consent,

Mobilewalla has retained the collected data indefinitely—far longer than necessary to accomplish the purpose of collection. This unreasonable retention period, combined with Mobilewalla's comprehensive data collection practices, significantly increases the risk that the sensitive location data would be disclosed or misused, causing harm to consumers.

The Commission's proposed five-count complaint alleges that Mobilewalla violated section 5(a) of the FTC Act by (1) unfairly selling consumers' sensitive location information, (2) unfairly targeting consumers based on sensitive characteristics, (3) unfairly collecting consumers' information from RTB exchanges, (4) unfairly collecting and using consumer location information without consent verification, and (5) unfairly retaining consumer location information.

With respect to the first count, the proposed complaint alleges that Mobilewalla sold consumers sensitive location information associated with unique persistent identifiers that reveal consumers' visits to sensitive locations. With respect to the second count, the proposed complaint alleges Mobilewalla has categorized consumers into audience segments based on sensitive characteristics, such as medical conditions and religious beliefs, derived from location data. Mobilewalla has sold or transferred these audience segments to third parties for marketing and other purposes, including identifying and targeting consumers who participate in political rallies and protests or attempting to identify and target consumers who participate in union organizing.

With respect to the third count, the proposed complaint alleges that Mobilewalla collected consumers' personal information, including location data, from RTB exchanges, when Mobilewalla had no winning bid. With respect to the fourth count, the proposed complaint alleges that Mobilewalla failed to take reasonable steps to verify that consumers consent to Mobilewalla's use of their location data to track them, develop audience segments, target them with advertising, and use and share their location information with clients for commercial, political, law enforcement, and other purposes. Despite collecting data from thousands of apps, Mobilewalla only checked a very small number of apps to determine whether the app disclosed that the app collected location information and shared it with third parties. Mobilewalla also did not periodically check apps' disclosures,

even though many apps change their disclosures over time.

With respect to the fifth count, the proposed complaint alleges that Mobilewalla retained detailed, sensitive information about consumers, including their location data, indefinitely, which is longer than reasonably necessary to fulfill the purpose for which that information was collected. This practice caused substantial injury in the form of a loss of privacy about the day-to-day movements of millions of consumers, including through the use of retroactive geofences, and an increased risk of disclosure and use of such sensitive information.

The proposed complaint alleges that Mobilewalla has caused or is likely to cause substantial injury in the form of loss of privacy about day-to-day movements of consumers and an increased risk of disclosure of such sensitive information. Additionally, with respect to the fourth count, the proposed complaint alleges that Mobilewalla has caused or is likely to cause substantial injury in the form of the chilling of consumers' First Amendment rights and an increased risk of public or harmful disclosure of sensitive information about consumers' private lives, including their fertility choices, religious worship, sexuality, and other such sensitive information.

Summary of Proposed Order With Respondent

The Proposed Order contains injunctive relief designed to prevent Mobilewalla from engaging in the same or similar acts or practices in the future. Geolocation data can vary significantly in its precision. The privacy concerns posed by the proposed complaint relate to more precise location data—that is, location data that could be used to identify specific locations a consumer visits. As a result, the Proposed Order is limited to location data that identifies consumers' locations in a geographic area that is equal to or less than the area of a circle with a radius of 1,850 feet.

Provision I prohibits Mobilewalla from misrepresenting (1) the extent to which it collects, maintains, uses, discloses, or deletes location data, and (2) the extent to which such data is deidentified. Provision II prohibits Mobilewalla from collecting or retaining consumer information that Mobilewalla accesses while participating in RTB exchanges for any other purpose than participating in the auctions that occur on the exchange.

Provision III prohibits Mobilewalla from selling, licensing, transferring, sharing, disclosing, or using sensitive

location data in any products or services.

Sensitive locations are defined as those locations associated with (1) medical facilities (e.g., family planning centers, general medical and surgical hospitals, offices of physicians, offices of mental health physicians and practitioners, residential mental health and substance abuse facilities, outpatient mental health and substance abuse centers, outpatient care centers, psychiatric and substance abuse hospitals, and specialty hospitals); (2) religious organizations; (3) correctional facilities; (4) labor union offices; (5) locations held out to the public as predominantly providing education or childcare services to minors; (6) locations held out to the public as predominantly providing services to LGBTQ+ individuals such as service organizations, bars and nightlife; (7) locations held out to the public as predominantly providing services based on racial or ethnic origin; or (8) locations held out to the public as predominantly providing temporary shelter or social services to homeless, survivors of domestic violence, refugees, or immigrants; (9) locations of public gatherings of individuals during political or social demonstrations, marches, and protests; or (10) military installations, offices, or buildings.

Provision IV requires that Mobilewalla implement and maintain a sensitive location data program to develop a comprehensive list of sensitive locations and to prevent the use, sale, license, transfer, or disclosure of sensitive location data. Provision V prohibits Mobilewalla from selling or disclosing Location Data that may determine the identity or location of an individual's private residence.

Provision VI requires Mobilewalla to implement a Supplier Assessment Program by which they assess their suppliers and help ensure that consumers have provided consent for the collection and use of Location Data obtained by Mobilewalla. Under this program, Mobilewalla must conduct initial assessments of all suppliers within 30 days of entering into a data sharing agreement. The program also requires that Mobilewalla confirm that consumers provide Affirmative Express Consent, if feasible, or confirm that consumers provide specific consent to the collection, use, and sale of their location data. Mobilewalla must also create and maintain records of its Suppliers' assessment responses. Finally, Mobilewalla must cease from using, selling, or disclosing location data for which consumers do not provide consent.

Provision VII requires Mobilewalla to provide a clear and conspicuous means for consumers to request the identities of any third parties to whom Respondent sold or otherwise disclosed their location data during the one-year period preceding the request. Provision VIII requires Mobilewalla to provide a simple, easily-located means for consumers to withdraw any consent provided and Provision IX requires Mobilewalla to delete and cease collecting location data after Mobilewalla receives notice that the consumer has withdrawn their consent. Provision X also requires Mobilewalla to provide a simple, easily-located means for consumers to request that Mobilewalla delete location data that Mobilewalla previously collected and to delete the location data within 30 days of receipt of such request.

Provision XI requires that Mobilewalla (1) document and adhere to a retention schedule for the covered information it collects from consumers, including the purposes for which it collects such information, the specific business needs, and an established timeframe for its deletion, and (2) prior to collecting or using new type of information related to consumers that was not previously collected, and is not described in its retention schedule, update its retention schedule. Provision XII requires Mobilewalla to delete any historic location data and consumers' unhashed and hashed phone numbers in their control and any work product created from this data and to instruct their customers to also delete this information, unless Mobilewalla contains a record in accordance with the Supplier Assessment Program (Provision VI) that consumers consented to the collection, use, and disclosure of their historic location data or the historic location data is deidentified or rendered non-sensitive. Provision XIII requires Mobilewalla to establish and implement, and thereafter maintain, a comprehensive privacy program that protects the privacy of consumers' personal information.

Provisions XIV–XVII are reporting and compliance provisions, which include recordkeeping requirements and provisions requiring Mobilewalla to provide information or documents necessary for the Commission to monitor compliance. Provision XVIII states that the Proposed Order will remain in effect for 20 years, with certain exceptions.

The purpose of this analysis is to facilitate public comment on the Proposed Order, and it is not intended to constitute an official interpretation of the complaint or Proposed Order, or to

modify the Proposed Order's terms in any way.

By direction of the Commission,
Commissioner Holyoak dissenting.

April J. Tabor,
Secretary.

Statement of Chair Lina M. Khan Joined by Commissioner Alvaro M. Bedoya

Last year a new report revealed the relative ease with which foreign adversaries can gather sensitive data on Americans.¹ Foreign states could identify, for example, whether someone has a substance abuse problem, a gambling addiction, or major financial problems—a “torrent of blackmail data” ripe for abuse.² The report noted that people susceptible to this type of surveillance include active military personnel, defense officials, lawmakers, and judges. Beyond government employees, hundreds of millions of Americans are at risk. Precise location data, for example, can be harnessed by managers tracking employees suspected of workplace organizing, law enforcers monitoring protestors who oppose government policies, or stalkers keeping tabs on their victims.

The mechanism for this surveillance is shockingly commonplace: “real-time bidding” (RTB) exchanges, an advertising technology present on a huge swath of websites and apps. RTB exchanges host the online auctions that determine which advertisement gets served to a specific individual on a specific website or app. Because these ads are targeted, RTB technology captures reams of personal data, such as a person's browsing history and their location and movements over time—and then broadcasts this sensitive data to anyone seeking to bid on the ad slot. One report estimates that RTB technologies track and broadcast what every U.S. internet user does every 30 seconds they are online—or 747 times a day on average.³ Strikingly, a firm can capture and retain individuals' web browsing data, location data, and other sensitive details even when it does not

serve any ads to them. As lawmakers have noted, the exposure of this bidstream data creates an “outrageous privacy violation”⁴ as well as a major threat to national security.⁵

Today the FTC is bringing an enforcement action against surveillance practices that illegally harness RTB data—the first time the Commission has taken action against the use of this “bidstream” data. Specifically, our action against Mobilewalla charges that the data broker, among other things, unfairly collected people's sensitive data (including precise location) from real-time bidding exchanges—even when it did not place an ad through the bid.

This conduct was part of a broader set of practices that Mobilewalla undertook to unlawfully collect, sell, and retain sensitive information on millions of Americans. Our investigation uncovered that Mobilewalla gathered large swaths of people's personal information, including location data, and sold “audience segments” that third parties could use to target people based on sensitive characteristics. Mobilewalla's audience segments included, for example, Hispanic churchgoers, pregnant women, members of the LGBTQ+ community, workers participating in union organizing, and people who participate in political rallies. Mobilewalla built these profiles through a variety of mechanisms beyond its use of bidstream data, such as by creating “geo-fences” around places like pregnancy centers, political protests, and state capitols.⁶ Mobilewalla even began collecting people's phone numbers, which, paired with MAIDs, could be used to identify the person frequenting a specific location.

The Commission's complaint charges that Mobilewalla's practices constituted unfair conduct in violation of the FTC Act. Specifically, the complaint alleges that: (1) Mobilewalla's sale of people's sensitive location data is unfair; (2) Mobilewalla's sale and transfer of audience segments based on sensitive characteristics—like their medical conditions, religious beliefs,

⁶ In one instance, one of Mobilewalla's clients used its data to “geo-fence the homes of individuals relevant to a private lawsuit and track where those individuals had traveled to over the preceding two years, including whether they visited federal law enforcement offices.” Complaint, *In re Mobilewalla, Inc.*, FTC File No. 2023196 (Dec. 3, 2024) at ¶ 50.

participation in workplace organizing, or attendance at political protests—is unfair; (3) Mobilewalla’s collection of people’s personal information, including geolocation data, from RTB exchanges even when Mobilewalla had no winning bid is unfair; (4) Mobilewalla’s failure to take reasonable steps to verify that users consent to its use of their location data to surveil them, develop audience segments based on sensitive characteristics, target them with advertising, and disseminate their location data with a host of clients is unfair, and (5) Mobilewalla’s indefinite retention of people’s sensitive location information is unfair.

The Commission’s action against Mobilewalla marks the FTC’s fifth case involving the illegal dissemination of geolocation information—all pursued in the last 28 months.⁷ This steady clip of cases reflects our recognition that location data is among the most sensitive of people’s data, revealing everything from where someone spends the night to what medical services they seek. Indeed, the District of Idaho last year recognized that invasions of privacy can substantially injure Americans, even without a showing of further harm.⁸ And noting that “location records hold for many Americans the ‘privacies of life,’ ” the Supreme Court has held that constitutional safeguards against unchecked government surveillance extend to digital location tracking—even when the data is originally collected by private companies.⁹

Today’s action highlights two areas meriting continued focus for the Commission and policymakers concerned about threats to Americans’ privacy. First, the ease with which real-time bidding technology can be exploited to surveil Americans should raise serious alarm. No real safeguards limit who can access, harness, or retain this data, meaning that the multi-billion-dollar industry built around targeted advertising leaves Americans’ sensitive data shockingly exposed.

Second, this matter further highlights the continued shortcomings of the “notice and consent” paradigm. Most people never interact with Mobilewalla and have no idea that Mobilewalla amasses data detailing their precise location and movements. In theory, Mobilewalla would rely on its data suppliers to obtain consumer consent for the collection and use of their data. But in practice, Mobilewalla has minimal procedures to verify whether its suppliers actually obtained consumer consent—and many disclosures are broad enough to render consent effectively meaningless. In recent years, the Commission’s orders have moved away from remedies and relief premised exclusively on consumer consent—and included greater reliance on presumptive bans and prohibitions.¹⁰ Continuing to ensure our orders reflect the realities of how people engage in today’s economy will be critical for Americans to enjoy real privacy.

I am grateful to the DPIP team for their excellent work on this matter.

Concurring and Dissenting Statement of Commissioner Andrew N. Ferguson

Today the Commission approves complaints against, and proposed consent orders with, Gravy Analytics¹ (“Gravy”)² and Mobilewalla³ for various practices concerning the collection and dissemination of precise location data allegedly constituting unfair or deceptive acts or practices in violation of section 5 of the Federal Trade Commission Act.⁴ Gravy and Mobilewalla are data brokers that aggregate and sell consumer data, including location data.⁵ Gravy and Mobilewalla do not collect the data from consumers.⁶ Those data are collected from applications that consumers use on their smartphones, and Gravy and Mobilewalla purchase or otherwise acquire those data after they are collected.⁷ Gravy and Mobilewalla then sell those data to private firms for advertising, analytics, and other purposes, as well as to the government.⁸

Part I

I concur entirely in two of the counts the Commission brings against both firms, and one that we bring against Mobilewalla alone. These counts are sufficient to justify my vote in favor of submitting the complaints and proposed consent orders for public comment. First, the Commission alleges that Gravy and Mobilewalla sell consumers’ precise location data without taking sufficient measures to anonymize the information or filter out sensitive locations.⁹ This type of data—records of a person’s precise physical locations—is inherently intrusive and revealing of people’s most private affairs. The sale of such revealing information that can be linked directly to an individual consumer poses an obvious risk of

¹ Also named is Venntel, Inc., a wholly-owned subsidiary of Gravy Analytics.

² Complaint, *In re Gravy Analytics* (“Gravy Complaint”).

³ Complaint, *In re Mobilewalla* (“Mobilewalla Complaint”).

⁴ 15 U.S.C. 45.

⁵ Gravy Complaint ¶¶ 7; Mobilewalla Complaint ¶¶ 3, 18.

⁶ Gravy Complaint ¶¶ 8; Mobilewalla Complaint ¶ 4.

⁷ Gravy Complaint ¶¶ 9–10; Mobilewalla Complaint ¶¶ 4, 5.

⁸ Gravy Complaint ¶¶ 13–21; Mobilewalla Complaint ¶¶ 6, 19, 36. As my colleagues’ statements make clear, the sale of data to the government for law-enforcement, national-security, and immigration-enforcement purposes implicates different constitutional and statutory questions than the sale of those same data to private firms. I take no firm position on those questions except to say that I believe that the restrictions on sale to the government in the Gravy order are lawful.

⁹ Gravy Complaint ¶¶ 73–75; Mobilewalla Complaint ¶¶ 66–67.

substantial injury to that consumer.¹⁰ The theft or accidental dissemination of those data would be catastrophic to the consumer. The consumer cannot avoid the injury. Unless the consumer has consented to the sale of intimate data linked directly to him, the sale of the data happens entirely without his knowledge.¹¹ Finally, given that the anonymized data remain valuable to firms for advertising and analytics, the injury that the consumer suffers is not outweighed by any countervailing benefits for the consumer.¹² The sale of non-anonymized, precise location data without first obtaining the meaningfully informed consent of the consumer is therefore an unfair act or practice in violation of section 5.

Second, the Commission accuses both companies of collecting, using, and selling precise location information without sufficiently verifying that the consumers who generated the data consented to the collection of those data by the applications that collected it.¹³ Given that the failure to obtain meaningful consent to the collection of precise location data is widespread, data brokers that purchase sensitive information cannot avoid liability by turning a blind eye to the strong possibility that consumers did not consent to its collection and sale. The sale of precise location data collected without the consumer's consent poses a similarly unavoidable and substantial risk of injury to the consumer as does the sale of the non-anonymized data. I therefore concur in these counts against Gravy and Mobilewalla.¹⁴

I further concur in one additional count charged against Mobilewalla alone. The Commission accuses it of having committed an unfair act or practice for its conduct on real-time bidding exchanges (RTBs).¹⁵ An RTB is a marketplace where advertisers bid in real time on the opportunity to show an

advertisement to a user as the user is visiting a website or using an application.¹⁶ The auctions take place in the blink of an eye, and the listings on which advertisers bid include information such as the user's mobile advertising ID (MAIDs) and current precise location.¹⁷ Advertisers crave these data because it allows them to maximize the value of each ad impression by displaying the ads only to the users most likely to find the advertisement useful. The Commission accuses Mobilewalla of sitting on the RTBs, submitting bids, collecting the MAIDs and location data for the bids, retaining those data even when it did not win the auction, and combining those data with data acquired from other sources to identify the user represented by the MAID.¹⁸ It aggregated and sold this combined identity and location information to its clients.¹⁹ This alleged practice violated Mobilewalla's legal contracts with the exchanges.²⁰

The violation of a private contract alone is not enough to establish a violation of section 5.²¹ But these agreements protected more than just Mobilewalla's contractual counterparties. They also protected large numbers of consumers from the risk of having their private data aggregated, linked to their identity, and sold without their consent, as Mobilewalla did. Mobilewalla's breach of its contractual obligations therefore exposed consumers to the same substantial risk of injury as collection of their data without consent, was not reasonably avoidable by consumers (as this conduct was far removed from their knowledge and control), and was not outweighed by any countervailing benefits to consumers. It is therefore in the public interest to hold Mobilewalla liable for this conduct under section 5, as it would be even if no contract governed Mobilewalla's obligations regarding the unconsented collection and retention of these precise location data.²²

Part II

I dissent from the Commission's counts against both firms accusing them of unfairly categorizing consumers based on sensitive characteristics, and of selling those categorizations to third parties.²³ The FTC Act prohibits the collection and subsequent sale of precise location data for which the consumer has not consented to the collection or sale. It further requires data brokers to take reasonable steps to ensure that consumers originally consented to the collection of the data that the data brokers subsequently use and sell. If a company aggregates and categorizes data that were collected without the consumer's consent, and subsequently sells those categorizations, it violates section 5. But it does so only because the data were collected without consent for such use, not because the categories into which it divided the data might be on an indeterminate naughty categories list. The FTC Act imposes consent requirements in certain circumstances. It does not limit how someone who lawfully acquired those data might choose to analyze those data, or the conclusions that one might draw from them.²⁴

Consider an analogous context: the collection of data by private investigators. Private investigators do not violate the law if they follow someone on the public streets to his place of employment, observe him entering a church, observe him attending the meeting of a political party, or watch him enter a hospital. These are all public acts that people carry out in the sight of their fellow citizens every day. Nor do private investigators violate the law by concluding from their lawful observations that the person works for that company, practices that religion, belongs to that political party, or suffers from an illness. Nor would the law prohibit the private investigator from selling his conclusions to a client. But the law would forbid private investigators from trespassing on the employer's property; from surreptitiously planting cameras inside

incapable of vindication by individual private suits).

²³ Gravy Complaint ¶¶ 79–81; Mobilewalla Complaint ¶¶ 68–69.

²⁴ Of course, other laws might prohibit particular uses of data that were collected consistently with the requirements of section 5. Using lawfully obtained data to draw conclusions about a consumer's race alone would not violate section 5, but using those conclusions to make an employment or housing decision, for example, might violate the Civil Rights Act of 1964, 42 U.S.C. 2000e *et seq.*, or the Fair Housing Act, 42 U.S.C. 3601 *et seq.* But merely drawing a conclusion from lawfully obtained data does not violate section 5.

¹⁰ 15 U.S.C. 45(n); see *FTC v. Kochava, Inc.*, 715 F. Supp. 3d 1319, 1323–24 (D. Idaho 2024).

¹¹ 15 U.S.C. 45(n).

¹² *Ibid.*

¹³ Gravy Complaint ¶¶ 76–78; Mobilewalla Complaint ¶¶ 71–72.

¹⁴ Section 5 does not impose strict liability for the purchase of precise location data collected without the consumer's consent, nor do I understand the complaints and orders as interpreting section 5 to hold data brokers strictly liable for every purchase of precise location data that was collected without the consumer's consent. Data brokers need only take reasonable steps to ensure that the data they are acquiring were originally collected with the consumer's consent. Gravy Complaint ¶ 76 (faulting Gravy for not taking "reasonable steps to verify that consumers provide informed consent to Respondents' collection, use, or sale of the data for commercial and government purposes."); Mobilewalla Complaint ¶ 71 (similar).

¹⁵ Mobilewalla Complaint ¶ 70.

¹⁶ *Id.* ¶ 9.

¹⁷ *Ibid.*

¹⁸ *Id.* ¶¶ 12–15.

¹⁹ *Id.* ¶ 18.

²⁰ Mobilewalla Complaint ¶ 10.

²¹ See *FTC v. Klesner*, 280 U.S. 19, 28 (1929) (Section 5's requirement that enforcement "would be to the interest of the public" is not satisfied in the case of a purely private dispute, as "the mere fact that it is to the interest of the community that private rights shall be respected is not enough to support a finding of public interest.").

²² See *id.* at 27–28 (explaining that protection of private rights can be incident to the public interest, and that such cases might include those where the conduct threatens the existence of competition, involves the "flagrant oppression of the weak by the strong," or where the aggregate loss is sufficient to make the matter one of public consequence but

the church sanctuary to observe the rites; from recording the proceedings of the political meeting without consent; or from extorting hospital staff for information about the person's condition. The law prohibits collecting data in unlawful ways; it does not prohibit drawing whatever conclusions one wants, or selling those conclusions to someone else, so long as the data from which the conclusions were drawn were lawfully obtained.

The same principle should apply to section 5. The added wrinkle is that in the information economy, private data are usually collected in the context of a commercial relationship between the user and the developer of an application or website. Just as we expect a merchant to disclose the material terms of a transaction before collecting payment, we expect that the user of an app or website be informed of how their private information—part, and often all, of the consideration they give in exchange for use of the app or website—will be collected and used, and given a chance to decline the transaction. Commercial fairness might also require more than vague hidden disclosures, especially when the loss of privacy is substantial, as is the case with collection of precise location data and its sale to third parties.

Rather than faulting these companies for disclosing data about users without adequate consent, these counts in the complaints focus instead on the inherent impropriety of categorizing users according to so-called “sensitive characteristics.” Perhaps my colleagues are worried that advertisements targeted on the basis of these categories can cause emotional distress—the theory they advanced in the Commission’s Social Media 6(b) Report earlier this year.²⁵ But as I argued then, it is folly to try to identify which characteristics are sensitive and which are not. “[T]he list of things that can trigger each unique individual’s trauma is endless and would cover every imaginable” advertisement based on every possible categorization, so whatever lines we end up drawing will be “either arbitrary or highly politicized.”²⁶

We can already see this dysfunction in these complaints, which mention as sensitive characteristics race, ethnicity,

gender, gender identity, sexual orientation, pregnancy, parenthood, health conditions, religion, and attendance of a political protest, among others.²⁷ While some of these characteristics often entail private facts, others are not usually considered private information. Attending a political protest, for example, is a public act. The public expression of dissatisfaction or support is the point of a protest. Treating attendance at a political protest as uniquely private and sensitive is an oxymoron. Moreover, there are no objective criteria on which to base this list.²⁸ The statute provides no guidance. The list is therefore a purely subjective creation of Commission bureaucrats. And it excludes categories that many would consider deeply private and sensitive.²⁹ And if we did a full accounting of characteristics that someone, somewhere might consider sensitive, no useful categorizations would remain. If what we are worried about is that the generation and sale of these categorizations will be a substitute for the sale of the user data from which they are derived, the correct approach is to treat conclusions derived from user data as no different than the underlying data. In either case, adequate consent is required for their collection, use, and sale.

Finally, I have doubts about the viability of a final charge levied against Mobilewalla for indefinitely retaining consumer location information.³⁰ It is a truism that data stored indefinitely is at a greater risk of compromise than data stored for a short period of time. But nothing in section 5 forms the basis of standards for data retention. The difficulty is illustrated perfectly by the proposed order we approve today.

²⁷ Mobilewalla Complaint ¶¶ 27–32.

²⁸ See *Kyllo v. United States*, 533 U.S. 27, 38–39 (2001) (rejecting a Fourth Amendment rule that limited thermal-imaging data collection to only “intimate details” because of the impossibility of developing a principled distinction between intimate and nonintimate information).

²⁹ Gun ownership is an example. In many States, citizens are free to own guns without registering them. There is therefore no public record that a person owns a gun. And in constitutional-carry States, a citizen may carry his handgun in concealment without the government’s permission, which means that bearing a firearm outside the home remains a private act. I expect many Americans would be horrified if their sensitive location data were used to place them in a “gun owner” category, and that category were then sold to other firms or to the government—particularly banks have gotten in the habit of ejecting customers who engaged in disfavored activities. Yet gun ownership does not make the Commission’s list. But political protests do. It is hard to see this list as anything other than the product of arbitrary or political decision making.

³⁰ Mobilewalla Complaint ¶¶ 73–74.

Rather than impose any particular retention schedule, it merely requires that Mobilewalla:

. . . document, adhere to, and make publicly available . . . a retention schedule . . . setting forth: (1) the purpose or purposes for which each type of Covered Information is collected or used; (2) the specific business needs for retaining each type of Covered Information; and (3) an established timeframe for deletion of each type of Covered Information limited to the time reasonably necessary to fulfill the purpose for which the Covered Information was collected, and in no instance providing for the indefinite retention of any Covered Information . . .³¹

Given that Mobilewalla is in the business of selling user information, and that the marginal cost of data storage is low, the “specific business need” can be nothing more than the possible existence in the future of some buyer willing to pay more than the low cost of storage to acquire the data. I see no reason why Mobilewalla could not set a retention period of many decades based on this reasoning. In fact, while two-year-old location data is intuitively less valuable than one-year-old location data, it is quite plausible that twenty- or thirty-year-old location data is more valuable than location data that is only a few years old, as it may allow advertisers to tap into nostalgic sentiments.

The trouble with both the sensitive-categories count and the data-retention count is that the text of section 5 cannot bear the tremendous weight my colleagues place on it. My colleagues want the FTC Act to be a comprehensive privacy law. But it is not. Comprehensive privacy regulation involves difficult choices and expensive tradeoffs. Congress alone can make those choices and tradeoffs. It did not do so when it adopted the general prohibitions of section 5 nearly nine decades ago. And it has not adopted comprehensive privacy legislation since then. We must respect that choice.

Until Congress acts, we should vigorously protect Americans’ privacy by enforcing the laws Congress has actually passed. But we must not stray from the bounds of the law. If we do, we will sow uncertainty among legitimate businesses, potentially disrupt the ongoing negotiations in Congress on privacy legislation, and risk damaging losses for the Commission in court.

Dissenting Statement of Commissioner Melissa Holyoak

Since arriving at the Commission, I have supported law enforcement actions against data brokers that sold precise

³¹ Decision and Order, *In re Mobilewalla, Inc.*, at 13.

²⁵ FTC, A Look Behind the Screens: Examining the Data Practices of Social Media and Video Streaming Services, An FTC Staff Report, at 44 (Sept. 2024), https://www.ftc.gov/system/files/ftc_gov/pdf/Social-Media-6b-Report-9-11-2024.pdf.

²⁶ Concurring and Dissenting Statement of Commissioner Andrew N. Ferguson, A Look Behind the Screens: Examining the Data Practices of Social Media and Video Streaming Services, at 5 (Sept. 19, 2024), https://www.ftc.gov/system/files/ftc_gov/pdf/ferguson-statement-social-media-6b.pdf.

geolocation data revealing consumers' religious beliefs, political leanings, and medical conditions.¹ Such enforcement actions have been particularly important where they help preserve Americans' freedoms and are consistent with the FTC Act, such as in a separate case the Commission brings against Gravy Analytics today. But the instant complaint and proposed settlement with Mobilewalla colors well outside the lines of the Commission's authority. Indeed, the Chair is seeking to effectuate legislative and policy goals that rest on novel legal theories well beyond what Congress has authorized. We should not use our enforcement powers this way.² Because core aspects of this case are misguided, I dissent. I briefly explain some of my concerns below. And I anticipate and welcome robust comment on the proposed order before it is finalized.

Several background considerations also inform my approach and dissent in this particular matter. First, this matter uses a settlement to effectuate policy objectives that political leadership at the Commission has sought for years but failed to achieve through regulation.³ No matter how much political pressure Chair Khan and the Bureau Director may feel with the shot-clock running out, the Commission should not use complaints and orders to score political

points that stem from misuse of our statutory authorities. Second and related: Chair Khan's decision to proceed runs directly afoul of recent Congressional oversight from several of the FTC's authorizing Committees that explicitly cautioned against this type of endeavor.⁴ Choosing to proceed undermines our institutional legitimacy and will engender even more distrust from Congress—trust that current leadership at the Commission has repeatedly broken.⁵

With that larger context in mind, I will briefly describe some of my concerns on the merits. According to the Complaint, Mobilewalla has relied primarily on information it collected from real-time bidding exchanges (RTB exchanges) to build its portfolio of consumers' geolocation data.⁶ These exchanges facilitate advertisers' bids to place content in front of specific consumers, whose information has been sent to the exchange to enable the bidding.⁷ Mobilewalla would retain information collected from RTB exchanges, including a consumer's "precise geolocation information, if the consumer had location sharing turned on," even if the bid were unsuccessful.⁸

The Majority erroneously declares Mobilewalla's collection of consumer information from the RTB exchanges is unfair. Specifically, the Complaint alleges that the practice of collecting data was unfair in part because it caused or is likely to cause substantial injury.⁹ But the Complaint's allegations are remarkably sparse when it comes to establishing how the collection itself

caused substantial injury, and its related allegations do not otherwise satisfy what section 5 requires for unfairness.¹⁰ For the Majority, the mere collection of data implausibly "causes or is likely to cause" substantial injury and lacks countervailing benefits that section 5's cost-benefit analysis requires assessing.¹¹ Such a theory of unfairness—assertions about a particular practice without facts alleged reflecting causation of injury to consumers—is contrary to black-letter unfairness law. Of course, none of these observations about the limits of our unfairness authority mean Mobilewalla had clean hands under contract law, where Mobilewalla's agreements with RTB exchanges barred collection and retention of consumer data for unsuccessful bids.¹² But—contrary to what those keeping score may conclude from this case and settlement—a business-to-business breach of contract that may have potential effects on consumers does not automatically give rise to an unfairness claim under section 5.¹³

Count II, for "Unfair Targeting Based on Sensitive Characteristics," is also misguided. The practice this Count alleges is unfair is the "categorization of consumers based on sensitive characteristics derived from location information."¹⁴ But there is nothing intrinsically unfair about such categorization, on its own. Instead, each unfairness claim needs to be assessed in a granular way for both substantial injury and countervailing benefits.¹⁵ For example, and contrary to any lop-sided framing of harms concerning abortion:¹⁶

¹ See, e.g., Concurring Statement of Comm'r Melissa Holyoak, *Kochava, Inc.*, FTC Matter No. X230009 (July 15, 2024), https://www.ftc.gov/system/files/ftc_gov/pdf/2024-7-15-Commissioner-Holyoak-Statement-re-Kochava-final.pdf; Concurring Statement of Comm'r Melissa Holyoak, Joined In Part By Comm'r Alvaro M. Bedoya (Section I Only), *In re Gravy Analytics, Inc.*, FTC Matter No. 2123035 (Dec. 3, 2024).

² Cf., e.g., Dissenting Statement of Comm'r Melissa Holyoak, Joined by Comm'r Andrew N. Ferguson, *In re Rytr, LLC*, FTC Matter No. 2323052, at 1 (Sept. 25, 2024) ("As I have suggested recently in other contexts, the Commission should steer clear of using settlements to advance claims or obtain orders that a court is highly unlikely to credit or grant in litigation. Outside that crucible, the Commission may more readily advance questionable or misguided theories or cases. Nevertheless, private parties track such settlements and, fearing future enforcement, may alter how they act due to a complaint's statement of the alleged facts, its articulation of the law, or how a settlement order constrains a defendant's conduct. In all industries, but especially evolving ones . . . misguided enforcement can harm consumers by stifling innovation and competition. I fear that will happen after today's case, which is another effort by the Majority to misapply the Commission's unfairness authority under section 5 beyond what the text authorizes. Relatedly, I believe the scope of today's settlement is unwarranted based on the facts of this case." (citations omitted)), https://www.ftc.gov/system/files/ftc_gov/pdf/holyoak-rytr-statement.pdf.

³ See Press Release, *FTC Explores Rules Cracking Down on Commercial Surveillance and Lax Data Security Practices* (Aug. 11, 2022), <https://www.ftc.gov/news-events/news/press-releases/2022/08/ftc-explores-rules-cracking-down-commercial-surveillance-lax-data-security-practices>.

⁴ See, e.g., Letter from Senator Ted Cruz, Ranking Member, Committee on Commerce, Science, and Transportation, to Lina Khan, Chairwoman, Fed. Trade Comm'n (Nov. 7, 2024) (cautioning that the FTC should "focus only on matters that are uncontroversial and would be approved unanimously by all Commissioners"); Letter from Representative Jim Jordan, Chairman, Committee on the Judiciary, to Lina Khan, Chair, Fed. Trade Comm'n, at 1 (Nov. 14, 2024) (the "FTC should also cease all partisan activity"); Letter from Representative Cathy McMorris Rodgers, Chair, Committee on Energy and Commerce, to Lina Khan, Chair, Fed. Trade Comm'n (Nov. 6, 2024) ("As a traditional part of the peaceful transfer of power, the FTC should immediately stop work on any partisan or controversial item under consideration . . .").

⁵ Accordingly, this case illustrates how leadership at the Commission has vocally claimed to be acting on consumers' behalf over the past several years, but then—where it has effectively usurped the legislative branch—has actually harmed the Commission's legitimacy and long-term ability to serve the American people.

⁶ See Compl. ¶¶ 9–10.

⁷ *Id.*

⁸ *Id.* ¶¶ 10, 33.

⁹ See *id.* ¶¶ 70–71. The factual predicate appears to be that if the data had never been collected in the first place, consumers could never have been harmed later through its alleged misuse.

¹⁰ See *id.* ¶¶ 7–16, 33–37.

¹¹ See 15 U.S.C. 45(n).

¹² Compl. ¶ 10.

¹³ Accordingly, the Commission should not seek to use a novel section 5 theory to support what looks like a remedy for breach of contract, as it does in Provision II of the Order. See Provision II ("Prohibition on Collection and Retention of Covered Information from Advertising Auctions").

¹⁴ Compl. ¶ 69 (emphasis added).

¹⁵ See, e.g., Concurring Statement, *In re Gravy Analytics*, *supra* note 1, at 6 ("We should not conflate our concern about deceptive advertising (the bogus treatment) with the lawful act of categorizing and targeting based on sensitive data, lest we undermine the ability to connect women with life-saving care." (emphasis added)). To the extent there is harm here, it could of course stem from wrongful disclosure of certain information in certain circumstances—for example, disclosure of location to government agencies circumventing Fourth Amendment protections. But the mere categorization of consumers does not necessarily violate section 5, and it may have significant countervailing benefits.

¹⁶ Cf. Compl. ¶¶ 56–57; see also Compl., *In re Gravy Analytics*, ¶¶ 67–68 (similar allegations); Compl., *Fed. Trade Comm'n v. Kochava, Inc.*, 2:22-cv-00377, ¶¶ 107–08 (D. Idaho, July 15, 2024), ECF No. 86 (similar allegations).

a mother considering her pregnancy may experience significant benefits if data analysis and categorization mean she ultimately receives tailored advertisements from crisis pregnancy centers offering prenatal and postnatal care for her and her child.¹⁷ And a significant benefit would accrue to the unborn child: her survival.¹⁸ Put simply, categorization does not automatically violate section 5. But today's case sends the opposite message.¹⁹

Count V, for "Unfair Retention of Consumer Location Information," also falls short of what Section 5 requires. The Complaint alleges that Mobilewalla "indefinitely retains detailed, sensitive information about consumers' movements, including consumers' location information."²⁰ But there is minimal analysis as to how the practice of indefinite retention lacks potential countervailing benefits.²¹ For example, as the Complaint makes clear, Mobilewalla facilitates advertising and data analytics.²² To the extent Mobilewalla's information enables building and optimizing predictive models, or better tailoring advertisements over time to particular consumers, it seems likely Mobilewalla's indefinite retention of data may mean consumers correspondingly experience higher benefits. We will never know whether the practice has net benefits or not, since the Majority simply ignores that step and summarily condemns the practice.

A final point today, about how my approach in this case relates to my support for *Kochava*, where I concurred in filing a second amended complaint. It is one thing to use our unfairness authority to directly address specific acts or practices of "disclosure" or "the revelation of sensitive locations

implicating political, medical, and religious activities," where there is an appropriate "focus[] on sales of precise geolocation data and related sensitive information,"²³ and where there has been a lack of consumer consent.²⁴ The facts pled in *Kochava* relating to disclosure and sale in that case led me to believe that the particular "act or practice" of selling precise geolocation data had a direct connection—caused or was likely to cause—substantial injury to consumers.²⁵

In contrast, and in focusing on other types of acts or practices—such as the relevant data's collection, its use for categorization, or its indefinite retention—that are analytically removed from and did not themselves necessarily cause any alleged injury based on the facts pled, today's complaint fails to show how these acts or practices themselves satisfy what section 5 requires.²⁶ On their own, the categorization, collection, or indefinite retention could certainly be factual predicates that precede substantial injury. But, at least as pled in this case, such practices themselves lack the causal connection to substantial injury. And, stepping back, there are certainly innocuous or beneficial instances of related data collection, its categorization, and its indefinite retention. Thus, this case's theories go far beyond the rationale that led me to support amending the complaint in *Kochava*.²⁷ In fact, the claims in this case seem designed to lead directly to minimizing access to data, limiting the practice of drawing inferences from it, and setting particular boundaries around data retention. This case's regulatory implications are therefore far broader than those in *Kochava*.

²³ See Concurring Statement, *Kochava*, *supra* note 1, at 2–3.

²⁴ *Id.* at 3.

²⁵ See 15 U.S.C. 45(n); see also Compl., *Fed. Trade Comm'n v. Kochava, Inc.*, *supra* note 16, ¶ 132 (bringing a single count for "Unfair Use and Sale of Sensitive Data," and alleging that Defendants "used and disclosed data" from consumers (emphasis added)). The framing of *Kochava*'s unfairness count resembles the framing of the first count in this Complaint against Mobilewalla, for "unfair sale of sensitive location information," related to how Mobilewalla "sells, licenses, or otherwise transfers precise location information . . . that reveal[s] consumers' visits to sensitive locations." See Compl. ¶¶ 66–67. But this Complaint's misguided use of the Commission's unfairness authority goes well beyond *Kochava*'s sole count.

²⁶ See 15 U.S.C. 45(n).

²⁷ Again, I "support[ed] filing the second amended complaint in *Kochava*" . . . because I agree[d] that the complaint adequately alleg[d] a likelihood of substantial injury in the revelation of sensitive locations implicating political, medical, and religious activities" Concurring Statement, *Kochava*, *supra* note 1, at 2.

Privacy is a vital policy topic. But unless and until the Commission receives new authorities, we must follow the law as Congress actually wrote it, not as some Commissioners or the Bureau Director might amend it if they were elected legislators.²⁸ Robust enforcement consistent with our statutory authorities can have salutary deterrent effects. But robust enforcement that is inconsistent with our statutory authorities can also have profound ramifications on how markets function, and how market actors proceed—including in ways that harm the American people. And it can undermine our legitimacy in the eyes of not just Congress, but the public.²⁹ Privacy's tradeoffs should be resolved by Congress, not unelected Commissioners. I do not believe section 5, as drafted, authorizes us to act as a roving legislator, writing law through complaints and settlement orders drafted to suit our purposes or political expediency. I dissent.

[FR Doc. 2024–28745 Filed 12–5–24; 8:45 am]

BILLING CODE 6750–01–P

DEPARTMENT OF DEFENSE

GENERAL SERVICES ADMINISTRATION

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[OMB Control No. 9000–0007; Docket No. 2024–0053; Sequence No. 19]

Information Collection; Subcontracting Plans

AGENCY: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, and

²⁸ See Concurring Statement, *In re Gravy Analytics*, *supra* note 1, at 6 ("As we consider these type of difficult privacy questions in the future, it is of paramount importance that we challenge only unfair or deceptive conduct, supported by specific facts and empirical research, rather than demonizing the entire digital advertising industry. And until Congress acts to address privacy directly through legislation, it is vital we recognize and abide by the limited remit of the Commission's statutory authority.").

²⁹ It is no coincidence that the number of constitutional challenges questioning our legitimacy has correlated with the Chair's general dismissal of the Commission's basic norms and integrity. See, e.g., Justin Wise, *FTC's Targets Take Cues From High Court in Tests of Agency Power*, Bloomberg Law (Sept. 26, 2024), <https://news.bloomberglaw.com/antitrust/ftcs-targets-take-cues-from-high-court-in-tests-of-agency-power>.

¹⁷ See Concurring Statement, *In re Gravy Analytics*, *supra* note 1, at 6 ("We also need to disentangle any objections to the content of an advertisement from the practices of categorization and targeting generally.").

¹⁸ This example illustrates the fraught nature of the Commission determining on its own—without Congressional authorization—what advertising content is harmful, discriminatory, and so on. Absent clear statutory authority, Commission enforcement on such matters becomes a tool driven by preferences of unelected officials.

¹⁹ Compl. ¶ 69 (alleging "categorization of consumers based on sensitive characteristics for marketing and other purposes is an unfair act or practice").

²⁰ *Id.* ¶ 74.

²¹ We should be considering such potential benefits, however. Cf. Melissa Holyoak, Remarks at National Advertising Division, *A Path Forward on Privacy, Advertising, and AI*, at 6–7, 9 (Sept. 17, 2024), https://www.ftc.gov/system/files/ftc_gov/pdf/Holyoak-NAD-Speech-09-17-2024.pdf.

²² Compl. ¶ 19.

the Office of Management and Budget (OMB) regulations, DoD, GSA, and NASA invite the public to comment on an extension concerning subcontracting plans. DoD, GSA, and NASA invite comments on: whether the proposed collection of information is necessary for the proper performance of the functions of Federal Government acquisitions, including whether the information will have practical utility; the accuracy of the estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology. OMB has approved this information collection for use through May 31, 2025. DoD, GSA, and NASA propose that OMB extend its approval for use for three additional years beyond the current expiration date.

DATES: DoD, GSA, and NASA will consider all comments received by February 4, 2025.

ADDRESSES: DoD, GSA, and NASA invite interested persons to submit comments on this collection through <https://www.regulations.gov> and follow the instructions on the site. This website provides the ability to type short comments directly into the comment field or attach a file for lengthier comments. If there are difficulties submitting comments, contact the GSA Regulatory Secretariat Division at 202–501–4755 or GSARegSec@gsa.gov.

Instructions: All items submitted must cite OMB Control No. 9000–0007, Subcontracting Plans. Comments received generally will be posted without change to <https://www.regulations.gov>, including any personal and/or business confidential information provided. To confirm receipt of your comment(s), please check www.regulations.gov, approximately two-to-three days after submission to verify posting.

FOR FURTHER INFORMATION CONTACT: Zenaida Delgado, Procurement Analyst, at telephone 202–969–7207, or zenaida.delgado@gsa.gov.

SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and Any Associated Form(s)

9000–0007, Subcontracting Plans.

B. Need and Uses

This clearance covers the information that offerors and contractors must submit to comply with the requirements in Federal Acquisition Regulation (FAR)

52.219–9, Small Business Subcontracting Plans, regarding subcontracting plans as follows:

1. Subcontracting plan. In accordance with section 8(d) of the Small Business Act (15 U.S.C. 637(d)), contractors receiving a contract that is expected to exceed, or a contract modification that causes a contract to exceed, \$750,000 (\$1.5 million for construction of a public facility) and has subcontracting possibilities, shall submit an acceptable subcontracting plan that provides maximum practicable opportunities for small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns. Specific elements required to be included in the plan are specified in section 8(d) of the Small Business Act and implemented in FAR subpart 19.7 and the clause at FAR 52.219–9.

2. Summary Subcontract Report (SSR). In conjunction with the subcontracting plan requirements, contractors with subcontracting plans must submit an annual summary of subcontracts awarded as prime and subcontractors for each specific Federal Government agency. Contractors submit the information in an SSR through the Electronic Subcontracting Reporting System (eSRS). This is required for all contractors with subcontracting plans regardless of the type of plan (*i.e.*, commercial or individual).

3. Individual Subcontract Report (ISR). In conjunction with the subcontracting plan requirements, contractors with individual subcontracting plans must submit semi-annual reports of their small business subcontracting progress. Contractors submit the information through eSRS in an ISR, the electronic equivalent of the Standard Form (SF) 294, Subcontracting Report for Individual Contracts. Contracts that are not reported in the Federal Procurement Data System (FPDS) in accordance with FAR 4.606(c)(5) do not submit ISRs in eSRS; they will continue to use the SF 294 to submit the information to the agency.

4. Written explanation for not using a small business subcontractor as specified in the proposal or subcontracting plan. Section 1322 of the Small Business Jobs Act of 2010 (Jobs Act), Public Law 111–240, amends the Small Business Act (15 U.S.C. 637(d)(6)) to require as part of a subcontracting plan that a prime contractor make good faith effort to utilize a small business subcontractor during performance of a contract to the same degree the prime contractor relied on the small business in preparing and submitting its bid or

proposal. If a prime contractor does not utilize a small business subcontractor as described above, the prime contractor is required to explain, in writing, to the contracting officer the reasons why it is unable to do so.

C. Annual Burden

Respondents: 30,365.

Total Annual Responses: 49,296.

Total Burden Hours: 112,704.

Obtaining Copies: Requesters may obtain a copy of the information collection documents from the GSA Regulatory Secretariat Division by calling 202–501–4755 or emailing GSARegSec@gsa.gov. Please cite OMB Control No. 9000–0007, Subcontracting Plans.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Notice of Closed Meeting

Pursuant to 5 U.S.C. 1009(d), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended, and the Determination of the Director, Office of Strategic Business Initiatives, Office of the Chief Operating Officer, Centers for Disease Control and Prevention, pursuant to Public Law 92–463. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Disease, Disability, and Injury Prevention and Control Special Emphasis Panel (SEP)—CE25–028, Effectiveness Research to Prevent Polysubstance-Impaired Driving.

Dates: April 15–16, 2025.

Times: 10 a.m.–5 p.m., EDT.

Place: Web Conference.

Agenda: To review and evaluate grant applications.

For Further Information Contact: Carlisha Gentles, Pharm.D., B.C.P.S.,

C.D.C.E.S., Scientific Review Officer, National Center for Injury Prevention and Control, Centers for Disease Control and Prevention, 4770 Buford Highway NE, Mailstop S106-9, Atlanta, Georgia 30341. Telephone: (770) 488-1504; Email: CGentles@cdc.gov.

The Director, Office of Strategic Business Initiatives, Office of the Chief Operating Officer, Centers for Disease Control and Prevention, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Kalwant Smagh,

Director, Office of Strategic Business Initiatives, Office of the Chief Operating Officer, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-25-1257; Docket No. CDC-2024-0101]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled Assessment of Outcomes Associated with the Preventive Health and Health Services Block Grant (PHHS BG). This data collection allows CDC to describe the improvements achieved by grantees with funding and technical assistance provided by the PHHS BG program.

DATES: CDC must receive written comments on or before February 4, 2025.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2024-0101 by any of the following methods:

- **Federal eRulemaking Portal:** www.regulations.gov. Follow the instructions for submitting comments.
- **Mail:** Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to www.regulations.gov.

Please note: Submit all comments through the Federal eRulemaking portal (www.regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329; Telephone: 404-639-7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and

5. Assess information collection costs.

Proposed Project

Assessment of Outcomes Associated with the Preventive Health and Health Services Block Grant (PHHS BG) (OMB Control No. 0920-1257, Exp. 6/30/2025)—Extension—National Center for STLT Public Health Infrastructure and Workforce (NCSTLTPHIW), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Since 1981, CDC has collected information from grantees under the PHHS Block Grant (PHHS BG) (OMB Control No. 0920-0106). This information collection allows CDC to document and monitor the progress of activities supported with Block Grant funding. In 2019, in response to recommendations from governing and advisory entities, CDC obtained OMB approval for collection of additional information focusing on outcomes of PHHS BG funding (OMB Control No. 0920-1257, Exp. 6/30/2025). CDC requests OMB approval to continue collecting the information needed to assess the outcomes of PHHS Block Grant funding. Findings will be used to: (1) describe the outcomes and achievements of grantees' public health efforts and identify how the use of PHHS Block Grant funds contributed to those results; and (2) help assess how the grant advances work of the public health system and provide evidence to support future budgetary requests. Data will be used to describe the grant as a whole—not individual grantee activities or outcomes.

The data collection instrument will be administered online using Qualtrics®, a web-based data collection instrument. Participants will respond to the instrument from their respective work locations. All Health Departments funded by the PHHS BG will be asked to respond to the data collection instrument, but participation is voluntary. Specific respondents include 61 PHHS BG coordinators, or their designees, across 61 health departments funded under the PHHS BG, acting in their official capacities. These respondents represent 50 states, the District of Columbia, two tribes, five U.S. territories, and three freely associated states.

CDC requests OMB approval for three years and an estimated 46 annual

burden hours. There are no changes to the content of the information collection

instrument or the estimated burden per response.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
PHHS Block Grant Coordinator or Designee.	PHHS Block Grant Assessment	61	1	45/60	46
Total					46

[30Day–25–23FN]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled “Menthol-

Flavored Tobacco Product Policy Evaluation” to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on September 3, 2024 to obtain comments from the public and affected agencies. CDC received two comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

- (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (c) Enhance the quality, utility, and clarity of the information to be collected;
- (d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and
- (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and

instruments, call (404) 639–7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395–5806. Provide written comments within 30 days of notice publication.

Proposed Project

Menthol-Flavored Tobacco Product Policy Evaluation—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Centers for Disease Control and Prevention (CDC) is submitting this New information collection request (ICR) for an evaluation of local policies restricting the sale of menthol-flavored tobacco products (hereafter known as menthol tobacco products). This evaluation will assess the differences in outcomes of interest between cities with policies restricting the sale of menthol tobacco products and cities without these policies. Outcomes of interest include commercial tobacco product use and related behavior, perceived access to menthol tobacco products, and menthol tobacco product-related beliefs and perceptions. This study focuses on

the general population and groups who use commercial menthol tobacco products at higher rates including people who identify as lesbian, gay, bisexual, transgender, queer, or another sexual or gender minority (LGBTQ+) and racial and ethnic minority groups (persons identifying as American Indian or Alaska Native, Asian, Black or African American, Native Hawaiian or Other Pacific Islander, Hispanic or Latino, or biracial). Understanding how policies restricting the sale of menthol tobacco products impact tobacco use, behavior, and attitudes may help to inform public health activities and decisions regarding tobacco control. Although local tobacco policies have been shown to be effective at limiting the availability of policy-restricted products, no study to date has collected this type of web panel and focus group data among disparately affected population groups across jurisdictions after policy implementation. There are no other evaluation data collection efforts conducted on this topic to date, nor does the information to be collected exist in any existing centralized data source. While some questions in the web panel survey were sourced from pre-existing validated survey questions, each data collection tool proposed within this package has been designed to understand the effect of local menthol tobacco sales restriction policies on both the general population and those disproportionately impacted by menthol tobacco product use.

CDC is requesting OMB approval for three years. The total estimated annualized burden is 1,750 hours. There are no costs to respondents other than their time to participate.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Adults in the general population who currently use or formerly used tobacco living in the cities of interest.	Survey Screener Questionnaire	9,800	1	2/60
Adults in the general population who currently use or formerly used tobacco living in the cities of interest.	Community Web-Panel Survey	5,366	1	15/60
Adults in the general population who currently use or formerly used menthol tobacco living in the intervention cities of interest. Racial and ethnic minority adults and LGBTQ+ adults meeting the above criteria identified from the Qualtrics panel.	Focus Group Screener Questionnaire	200	1	2/60
Adults in the general population who currently use or formerly used menthol tobacco living in the intervention cities of interest. Racial and ethnic minority adults and LGBTQ+ adults meeting the above criteria identified from the Qualtrics panel.	Community Focus Group	75	1	1

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS-10398 #84]

Medicaid and Children's Health Insurance Program (CHIP) Generic Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare &
Medicaid Services, Health and Human
Services (HHS).

ACTION: Notice.

SUMMARY: On May 28, 2010, the Office of Management and Budget (OMB) issued Paperwork Reduction Act (PRA) guidance related to the “generic” clearance process. Generally, this is an expedited process by which agencies may obtain OMB’s approval of collection of information requests that are “usually voluntary, low-burden, and uncontroversial collections,” do not raise any substantive or policy issues, and do not require policy or methodological review. The process requires the submission of an overarching plan that defines the scope of the individual collections that would fall under its umbrella. This **Federal Register** notice seeks public comment on one or more of our collection of information requests that we believe are generic and fall within the scope of the umbrella. Interested persons are invited to submit comments regarding our burden estimates or any other aspect of this collection of information, including: the necessity and utility of the proposed information collection for the proper performance of the agency’s functions, the accuracy of the estimated burden, ways to enhance the quality, utility and clarity of the information to be collected, and the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

DATES: Comments must be received by December 20, 2024.

ADDRESSES: When commenting, please reference the applicable form number (CMS-10398 #84) and the OMB control number (0938-1148). To be assured consideration, comments and

recommendations must be submitted in any one of the following ways:

1. *Electronically.* You may send your comments electronically to <http://www.regulations.gov>. Follow the instructions for “Comment or Submission” or “More Search Options” to find the information collection document(s) that are accepting comments.

2. *By regular mail.* You may mail written comments to the following address: CMS, Office of Strategic Operations and Regulatory Affairs, Division of Regulations Development, Attention: CMS-10398 #84/OMB control number: 0938-1148, Room C4-26-05, 7500 Security Boulevard, Baltimore, Maryland 21244-1850.

To obtain copies of a supporting statement and any related forms for the proposed collection(s) summarized in this notice, please access the CMS PRA website by copying and pasting the following web address into your web browser: <https://www.cms.gov/medicare/regulations-guidance/legislation/paperwork-reduction-act-1995/pralisting>.

FOR FURTHER INFORMATION CONTACT: William N. Parham at 410-786-4669.

SUPPLEMENTARY INFORMATION: Following is a summary of the use and burden associated with the subject information collection(s). More detailed information can be found in the collection’s supporting statement and associated materials (see **ADDRESSES**).

Generic Information Collection

1. *Title of Information Collection:* PACE Medicaid Capitation Rate Setting Guide; *Type of Information Collection Request:* New information collection request information request; *Use:* The Program of All-inclusive Care for the Elderly (PACE) is a fully integrated Medicare program and Medicaid state plan option that provides community-based care and services to individuals aged 55 or older who meet a state’s nursing home level of care criteria. PACE organizations must provide all Medicare and Medicaid covered services. The financing of this model is accomplished through prospective capitation of both Medicare and Medicaid payments.

The PACE Medicaid Capitation Rate Setting Guide provides technical assistance to states for their PACE rate setting, and the information to include when submitting rate packages to CMS for review and approval. The guide also includes a template cover sheet to be used by states for their rate package submissions as streamlined submission forms which will improve the efficiency of CMS reviews.

Form Number: CMS-10398 #84 (OMB control number: 0938-1148); *Frequency:* Annual and on occasion; *Affected Public:* State, Local, or Tribal Governments; *Number of Respondents:* 34; *Total Annual Responses:* 34; *Total Annual Hours:* 17. (For policy questions regarding this collection contact: Angela Cimino at 410-786-2638.)

William N. Parham, III,

Director, Division of Information Collections
and Regulatory Impacts, Office of Strategic
Operations and Regulatory Affairs.

BILLING CODE 4120-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS-10767]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare &
Medicaid Services, Health and Human
Services (HHS).

ACTION: Notice.

SUMMARY: The Centers for Medicare & Medicaid Services (CMS) is announcing an opportunity for the public to comment on CMS’ intention to collect information from the public. Under the Paperwork Reduction Act of 1995 (PRA), Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, and to allow a second opportunity for public comment on the notice. Interested persons are invited to send comments regarding the burden estimate or any other aspect of this collection of information, including the necessity and utility of the proposed information collection for the proper performance of the agency’s functions, the accuracy of the estimated burden, ways to enhance the quality, utility, and clarity of the information to be collected, and the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

DATES: Comments on the collection(s) of information must be received by the OMB desk officer by January 6, 2025.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this

notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

To obtain copies of a supporting statement and any related forms for the proposed collection(s) summarized in this notice, please access the CMS PRA website by copying and pasting the following web address into your web browser: <https://www.cms.gov/Regulations-and-Guidance/Legislation/PaperworkReductionActof1995/PRA-Listing>.

FOR FURTHER INFORMATION CONTACT: William Parham at (410) 786–4669.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term “collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal agencies to publish a 30-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment:

1. *Type of Information Collection Request:* Reinstatement without change of a previously approved collection; *Title of Information Collection:* Patient Access through Application Programming Interfaces (API); *Use:* This final rule is the first phase of policies centrally focused on advancing interoperability and patient access to health information using the authority available to the Centers for Medicare & Medicaid Services (CMS). We believe this is an important step in advancing interoperability, putting patients at the center of their health care, and ensuring they have electronic access to their health information. We are committed to working with stakeholders to solve the issue of interoperability and getting patients access to information about their health care, and we are taking an active approach to move participants in the health care market toward interoperability and the secure and

timely exchange of electronic health information by adopting policies for the Medicare and Medicaid programs, the Children’s Health Insurance Program (CHIP), and qualified health plan (QHP) issuers on the individual market Federally-facilitated Exchanges (FfEs). For purposes of this rule, references to QHP issuers on the FfEs excludes issuers offering only stand-alone dental plans (SADPs). Likewise, we are also excluding QHP issuers only offering QHPs in the Federally-facilitated Small Business Health Options Program Exchanges (FF–SHOPS) from the provisions of this rule. This rule requires these impacted payers to maintain and use standards-based APIs to make certain information available to enrollees. CMS regulations at 42 CFR 417.414, 417.416, 422.112(a)(1)(i), and 422.114(a)(3)(ii) require that all Medicare Advantage organizations (MAOs) offering coordinated care plans, network-based private fee-for-service (PFFS) plans, and as well as section 1876 cost organizations, maintain a network of appropriate providers that is sufficient to provide adequate access to covered services to meet the needs of the population served. To enforce this requirement, CMS regulations at § 422.116 outline network adequacy criteria which set forth the minimum number of providers and maximum travel time and distance from enrollees to providers, for required provider specialty types in each county in the United States and its territories. Organizations must be in compliance with the current CMS network adequacy criteria guidance, which is updated and published annually on CMS’s website. This collection of information is essential to appropriate and timely compliance monitoring by CMS, in order to ensure that all active contracts offering network-based plans maintain an adequate network.

This notice originally published on August 22, 2024 (89 FR 67943), but CMS was delayed in submitting it to OMB. For that reason, we are republishing this notice and the associated information collection request will be submitted upon to OMB upon publication of this notice. *Form Number:* CMS–10767 (OMB control number: 0938–1412); *Frequency:* Occasionally; *Affected Public:* Private sector; *Number of Respondents:* 345; *Number of Responses:* 345; *Total Annual Hours:* 589,950. (For policy questions regarding

this collection contact Lorraine Doo at 410–786–6597.)

William N. Parham, III,

Director, Division of Information Collections and Regulatory Impacts, Office of Strategic Operations and Regulatory Affairs.

BILLING CODE 4120–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for Office of Management and Budget Review; Healthy Marriage and Responsible Fatherhood Local Evaluation Final Report (New Collection)

AGENCY: Office of Planning, Research, and Evaluation, Administration for Children and Families, U.S. Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Office of Planning, Research, and Evaluation (OPRE) in the Administration for Children and Families (ACF), U.S. Department of Health and Human Services is requesting approval of the Healthy Marriage and Responsible Fatherhood (HMRF) Final Report Templates. HMRF grant programs are required to submit a final report describing their local evaluation analyses and findings. This request includes guidance for grant recipients in the form of templates. Information will inform technical assistance to support grantees in developing and submitting the final reports to ACF to fulfill a grant requirement.

DATES: *Comments due* January 6, 2025. OMB must decide about the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. You can also obtain copies of the proposed collection of information by emailing OPREinfocollection@acf.hhs.gov.

Identify all requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: Since 2005, Congress has authorized dedicated funding for discretionary awards from ACF's Office of Family Assistance to support HMRF programs. Per the 2020 HMRF Notice of Funding Opportunities issued by ACF, HMRF grant recipients that are carrying out local evaluations are required to submit a final evaluation report to ACF at the end of their grant. The final reports must document the research questions, measures, study design, planned and actual implementation of the program, analytic methods for their evaluation, and evaluation findings.

OPRE is conducting the HMRF Local Evaluation Technical Assistance (LETA)

projects, jointly referred to as the HMRF-LETA projects, to support federally funded programs in evaluating their healthy relationship and family stability services to adult couples, adult individuals, fathers, and youth. As part of the HMRF-LETA project, grant recipients receive technical assistance to support planning and executing a local evaluation and analyzing and reporting local evaluation findings.

The purpose of the current information collection request is to provide standardized report templates and table shells to grant recipients to document their evaluation's analysis and findings. A structured final report template will facilitate grant recipients' efficient and consistent reporting of evaluation findings in their final

reports. The completed draft reports will be reviewed by the HMRF-LETA teams to determine whether the analysis and reports meet standards set by ACF, and to develop recommendations for grant recipients to improve the analysis and reports before final submission to ACF. Grant recipients will finalize and submit their final reports to ACF, as required. This request includes the time to develop and submit the reports.

Respondents: The respondents are HMRF grant recipients conducting a local evaluation. There are currently 79 grant recipients conducting local evaluations: 50 evaluations using descriptive designs ("descriptive evaluations") and 29 evaluations using impact designs ("impact evaluations").

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents (total over request period)	Number of responses per respondent (total over request period)	Avg. burden per response (in hours)	Total/annual burden (in hours)
Descriptive Evaluation Final Report Template	50	1	40	2,000
Impact Evaluation Final Report Template	29	1	30	870
Impact Evaluation Final Report Table Shells	29	1	10	290

Estimated Total Annual Burden Hours: 3,160.

Authority: 42 U.S.C. 603(a)(2).

Mary C. Jones,

ACF/OPRE Certifying Officer.

[FR Doc. 2024-28555 Filed 12-5-24; 8:45 am]

BILLING CODE 4184-73-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA-2024-D-2033]

Expedited Program for Serious Conditions—Accelerated Approval of Drugs and Biologics; Draft Guidance for Industry; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of availability.

SUMMARY: The Food and Drug Administration (FDA or Agency) is announcing the availability of a draft guidance for industry entitled "Expedited Program for Serious Conditions—Accelerated Approval of Drugs and Biologics." Accelerated approval is one of FDA's expedited programs intended to facilitate and expedite development and review of certain drugs and biological products for serious or life-threatening conditions.

This guidance provides information on FDA's policies and procedures for the accelerated approval program, including discussions of which products may be candidates for accelerated approval, the standards for granting accelerated approval, and the procedures for withdrawing accelerated approval. When finalized, this draft guidance will replace the accelerated approval-related content in the final guidance for industry entitled "Expedited Programs for Serious Conditions—Drugs and Biologics" issued on May 30, 2014 (the 2014 final guidance). Additional programs to expedite product development are covered in the 2014 final guidance as well as other guidances.

DATES: Submit either electronic or written comments on the draft guidance by February 4, 2025, to ensure that the Agency considers your comment on this draft guidance before it begins work on the final version of the guidance.

ADDRESSES: You may submit comments on any guidance at any time as follows:

Electronic Submissions

Submit electronic comments in the following way:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for submitting comments. Comments submitted electronically,

including attachments, to <https://www.regulations.gov> will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else's Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on <https://www.regulations.gov>.

- If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission and in the manner detailed (see "Written/Paper Submissions" and "Instructions").

Written/Paper Submissions

Submit written/paper submissions as follows:

- *Mail/Hand Delivery/Courier (for written/paper submissions):* Dockets Management Staff (HFA-305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.
- For written/paper comments submitted to the Dockets Management Staff, FDA will post your comment, as

well as any attachments, except for information submitted, marked and identified, as confidential, if submitted as detailed in “Instructions.”

Instructions: All submissions received must include the Docket No. FDA–2024–D–2033 for “Expedited Program for Serious Conditions—Accelerated Approval of Drugs and Biologics.” Received comments will be placed in the docket and, except for those submitted as “Confidential Submissions,” publicly viewable at <https://www.regulations.gov> or at the Dockets Management Staff between 9 a.m. and 4 p.m., Monday through Friday, 240–402–7500.

- **Confidential Submissions**—To submit a comment with confidential information that you do not wish to be made publicly available, submit your comments only as a written/paper submission. You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states “THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION.” The Agency will review this copy, including the claimed confidential information, in its consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on <https://www.regulations.gov>. Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as “confidential.” Any information marked as “confidential” will not be disclosed except in accordance with 21 CFR 10.20 and other applicable disclosure law. For more information about FDA’s posting of comments to public dockets, see 80 FR 56469, September 18, 2015, or access the information at: <https://www.govinfo.gov/content/pkg/FR-2015-09-18/pdf/2015-23389.pdf>.

Docket: For access to the docket to read background documents or the electronic and written/paper comments received, go to <https://www.regulations.gov> and insert the docket number, found in brackets in the heading of this document, into the “Search” box and follow the prompts and/or go to the Dockets Management Staff, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852, 240–402–7500.

You may submit comments on any guidance at any time (see 21 CFR 10.115(g)(5)).

Submit written requests for single copies of the draft guidance to the

Division of Drug Information, Center for Drug Evaluation and Research, Food and Drug Administration, 10001 New Hampshire Ave., Hillandale Building, 4th Floor, Silver Spring, MD 20993–0002; or the Office of Communication, Outreach and Development, Center for Biologics Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 71, Rm. 3128, Silver Spring, MD 20993–0002. Send one self-addressed adhesive label to assist that office in processing your requests. See the **SUPPLEMENTARY INFORMATION** section for electronic access to the draft guidance document.

FOR FURTHER INFORMATION CONTACT: Dat Doan, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 51, Rm. 3334, Silver Spring, MD 20993–0002, 240–402–8926 or 301–796–2500, dat.doan@fda.hhs.gov; James Myers, Center for Biologics Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 71, Rm. 7301, Silver Spring, MD 20993–0002, 240–402–7911; or Paul Kluetz, Oncology Center of Excellence, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 22, Rm. 2223, Silver Spring, MD 20993, 301–796–9567, Paul.Kluetz@fda.hhs.gov.

SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a draft guidance for industry entitled “Expedited Program for Serious Conditions—Accelerated Approval of Drugs and Biologics.” Accelerated approval allows drugs for serious conditions that fill an unmet medical need to be approved based on a surrogate endpoint or an intermediate clinical endpoint that is reasonably likely to predict an effect on irreversible morbidity or mortality or other clinical benefit. Accelerated approval is one of FDA’s expedited programs intended to facilitate and expedite development and review of new drugs to address an unmet medical need in the treatment of a serious or life-threatening condition.

In 1992, FDA issued accelerated approval regulations. In 1997, Congress codified the accelerated approval program in the Food and Drug Administration Modernization Act of 1997 (Pub. L. 105–115), adding section 506 to the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 356). In 2012, Congress amended section 506 of the FD&C Act via the Food and Drug Administration Safety and Innovation Act (Pub. L. 112–144) to provide that FDA should consider the “severity, rarity, or prevalence of the

condition and the availability or lack of alternative treatments.” In 2014, FDA issued a final guidance for industry entitled “Expedited Programs for Serious Conditions—Drugs and Biologics,” which provides information on FDA’s policies and procedures for four expedited programs (fast track designation, breakthrough therapy designation, accelerated approval, and priority review designation), as well as threshold criteria applicable to concluding that a drug is a candidate for these expedited programs.

Section 506(c) of the FD&C Act was most recently amended by the Consolidated Appropriations Act, 2023 (Pub. L. 117–328), which granted FDA additional authorities and imposed on FDA additional obligations regarding the accelerated approval pathway. Among other revisions, section 3210 of the Consolidated Appropriations Act, 2023 requires FDA to set forth conditions, not later than the date of accelerated approval, for confirmatory trials, which “may include enrollment targets, the study protocol, and milestones, including the target date of study completion.” Congress also revised the provisions in section 506(c) of the FD&C Act related to the expedited withdrawal of approval of a product approved under accelerated approval, including by adding new procedures for expedited withdrawal. Section V of this draft guidance describes these recently added procedures for the expedited withdrawal of approval of a product approved under accelerated approval.

This draft guidance addresses the accelerated approval process, including granting accelerated approval (e.g., discussion of endpoints, evidentiary criteria, confirmatory trials and other conditions of accelerated approval), and withdrawal of accelerated approval. Changes from the 2014 final guidance include early consultation on novel endpoints, timely conduct of confirmatory trials, other aspects of confirmatory trials, and the expedited withdrawal of accelerated approval. Other changes include a revised title and editorial changes for clarity, as well as updated references and contact information for FDA. When finalized, this guidance will replace the accelerated approval-related content contained in the 2014 final guidance issued on May 30, 2014 (79 FR 31117).

Additionally, via the Consolidated Appropriations Act, 2023, Congress gave FDA the authority to require, as appropriate, that a confirmatory trial be underway prior to accelerated approval or within a specified time period after the date of accelerated approval. The

Agency intends to address this authority in a separate guidance.

This draft guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA on "Expedited Program for Serious Conditions—Accelerated Approval of Drugs and Biologics." It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Paperwork Reduction Act of 1995

Under the Paperwork Reduction Act of 1995 (the PRA) (44 U.S.C. 3501–3521), Federal Agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. This draft guidance contains proposed collections of information including information submitted to FDA in support of maintaining an accelerated approval. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes Agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal Agencies to publish a 60-day notice in the **Federal Register** soliciting public comment on each proposed collection of information before submitting the collection to OMB for approval. To comply with this requirement, FDA will publish a 60-day notice on the proposed collections of information in this draft guidance in a separate issue of the **Federal Register**. This notice will encompass the collection of information discussed in the guidance relating to expedited procedures for the withdrawal of accelerated approval of drugs and biologics. Those procedures include the sponsor's submission of their objections to withdrawal as well as their supporting data and evidence. This collection of information is not included in any currently approved information collection.

This draft guidance also refers to previously approved FDA collections of information. The collections of information in 21 CFR parts 10, 12–16, and 19 pertaining to administrative practice and procedures have been approved under OMB control number 0910–0191. The collections of information in 21 CFR part 312 relating to clinical trials associated with accelerated approval pathways have been approved under OMB control number 0910–0014. The collections of

information in 21 CFR part 314 relating to the submission of new drug applications, including accelerated approval of new drugs for serious or life-threatening conditions, have been approved under OMB control number 0910–0001. The collections of information in 21 CFR part 601 relating to the submission of biologics license applications have been approved under OMB control number 0910–0338. The collections of information pertaining to expedited programs for serious conditions for drugs and biologics and breakthrough therapy-designation for drugs and biologics have been approved under OMB control number 0910–0765.

III. Electronic Access

Persons with access to the internet may obtain the draft guidance at <https://www.fda.gov/drugs/guidance-compliance-regulatory-information/guidances-drugs>, <https://www.fda.gov/vaccines-blood-biologics/guidance-compliance-regulatory-information-biologics/biologics-guidances>, <https://www.fda.gov/regulatory-information/search-fda-guidance-documents>, or <https://www.regulations.gov>.

Dated: November 27, 2024.

P. Ritu Nalubola,

Associate Commissioner for Policy.

[FR Doc. 2024–28392 Filed 12–5–24; 8:45 am]

BILLING CODE 4164–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Public Comment Request: Request for Information Regarding HRSA Sickle Cell Disease Programs

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services.

ACTION: Notice of request for public comment.

SUMMARY: HRSA's Maternal and Child Health Bureau Sickle Cell Disease (SCD) Programs are requesting input from the public to inform future SCD program development.

DATES: Submit comments no later than January 6, 2025.

ADDRESSES: Submit electronic comments to scdprograms@hrsa.gov. Please submit your response only one time.

FOR FURTHER INFORMATION CONTACT: Oriana Sanchez, Public Health Analyst, Maternal and Child Health Bureau, HRSA, 5600 Fishers Lane, Rockville,

Maryland 20857; scdprograms@hrsa.gov or call (347) 415–1458.

SUPPLEMENTARY INFORMATION: SCD is a group of inherited red blood cell disorders affecting an estimated 100,000 individuals in the United States. The Centers for Disease Control and Prevention report that SCD is a lifelong condition disproportionately affecting Black (1 of every 365 births) and Hispanic Americans (1 of every 16,300 births) with cases also occurring in individuals of Mediterranean, Middle Eastern, and Asian descent. SCD causes the body to produce red blood cells that are crescent shaped which impedes blood flow and cause anemia, severe pain, organ damage and other complications. Without access to comprehensive and routine services, life expectancy is greatly reduced for individuals with SCD. HRSA currently funds a portfolio of three coordinated programs with several recipients to improve outcomes of individuals with SCD and their families: the SCD Newborn Screening Follow-up Program (authorized by 42 U.S.C. 701(a)(2) (sec. 501(a)(2) of the Social Security Act)) funds 25 community-based organizations, the SCD Treatment Demonstration Program (authorized by 42 U.S.C. 300b–5(b) (sec. 1106(b) of the Public Health Service Act)) funds five regional organizations, and one Hemoglobinopathies National Coordinating Center (authorized by 42 U.S.C. 300b–5(b) (sec. 1106(b) of the Public Health Service Act)).

Together the programs strengthen the SCD system of care and support by (1) educating patients, families, and clinicians to improve knowledge and capacities; (2) linking individuals and families to evidence-based care; and (3) fostering partnerships between clinicians, community organizations, and other stakeholders to improve the ability to deliver coordinated, comprehensive care across the lifespan. HRSA's SCD portfolio seeks to support and strengthen regional networks of SCD care, education, and social services across the United States. More information about the HRSA SCD programs is available online at: <https://mchb.hrsa.gov/programs-impact/programs/sickle-cell>.

Responses

HRSA is seeking responses that address the following questions. A response to each question is not required. When drafting responses, highlight strategies that HRSA should consider or prioritize to meet the needs of individuals with SCD and their families within the United States.

1. What are the best ways to improve the *quality of life* of individuals living with SCD?

2. What strategies or best practices are needed to ensure individuals with SCD receive *comprehensive evidence-based health care*? If possible, describe different strategies needed for children and for adults in both healthcare (e.g., clinics, hospitals) and non-healthcare settings (e.g., education, housing, transportation).

3. What are the barriers to ensuring infants identified with SCD through *newborn screening* are receiving appropriate follow-up care? What strategies or practices best address these barriers?

4. What are the barriers to successful *transition from pediatric to adult* serving systems? What strategies are available for individuals with SCD to receive evidence-based, comprehensive care as they transition into adulthood (e.g., in clinics, hospitals)? What strategies or programs (e.g., community health worker programs) have successfully transitioned individuals with SCD in non-health settings (e.g., education, employment, and living situations)?

5. What are the challenges to improving the *systems of care* that support individuals with SCD and their families across the lifespan more broadly? Please share strategies that can bridge the gaps between systems that address healthcare (e.g., clinics, hospitals) and systems that address social determinants of health (e.g., education, housing, transportation)?

Respondents can also provide additional comments or recommendations that are not specifically linked to the questions above. All responses may, but are not required to, identify the individual's name, address, email, telephone number, professional or organizational affiliation, background or area of expertise (e.g., program participant, family member, clinician, public health worker, researcher, HRSA SCD grantee), and topic/subject matter. Information obtained as a result of this request for information (RFI) may be used by HRSA for program planning. Comments in

response to this RFI may be made publicly available, so respondents should bear this in mind when making comments. HRSA will not respond to any individual comments.

Special Note to Commenters

Whenever possible, respondents are asked to draw their responses from objective, empirical, and actionable evidence and to cite this evidence within their responses. The information obtained through this RFI may help inform the next iteration of the HRSA SCD portfolio of investments. This RFI is issued solely for information and planning purposes; it does not constitute a Request for Proposal, applications, proposal abstracts, or quotations. This RFI does not commit the U.S. Government to contract for any supplies or services or make a grant or cooperative agreement award. Further, HRSA is not seeking proposals through this RFI and will not accept unsolicited proposals. HRSA will not respond to questions about the policy issues raised in this RFI. Responders are advised that the U.S. Government will not pay for any information or administrative costs incurred in response to this RFI; all costs associated with responding to this RFI will be solely at the interested party's expense. Not responding to this RFI does not preclude participation in any future procurement or program, if conducted.

Maria G. Button,
Director, Executive Secretariat.

BILLING CODE 4165-15-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Strategic Preparedness and Response

Request for Information on Hospital Preparedness Program Funding Formula

AGENCY: Administration for Strategic Preparedness and Response (ASPR), U.S. Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: In accordance with section 319C-2 of the Public Health Service (PHS) Act, the Administration for Strategic Preparedness and Response (ASPR) distributes Hospital Preparedness Program (HPP) cooperative agreement funding to recipients using a statutorily required formula. ASPR is seeking comment on the risk component of the HPP funding formula to inform potential future changes to the formula.

DATES: Comments on this notice must be received by December 20, 2024. ASPR will not reply individually to responders but will consider all comments submitted by the deadline.

ADDRESSES: Please submit all responses to the following email address: HPP@hhs.gov.

FOR FURTHER INFORMATION CONTACT: Jennifer Hannah, Director, Office of Health Care Readiness (OHCR) via Jennifer.Hannah@hhs.gov or call: 202-245-0722.

SUPPLEMENTARY INFORMATION: HPP is a cooperative agreement program that, through its support for health care coalitions, prepares the nation's health care delivery system to save lives during emergencies that exceed the day-to-day capacity of health care and emergency response systems. HPP is the primary source of federal funding for health care preparedness and response. HPP provides funding to 62 recipients, including the governments of all 50 states, eight U.S. territories and freely associated states, the District of Columbia, Chicago, New York City, and Los Angeles County. For the purposes of this Request for Information (RFI), "the health care delivery system" refers to all organizations and persons whose mission is to promote, restore, optimize, or maintain health.

Section 319C-2 of the PHS Act requires ASPR to distribute HPP funding based on the following factors: a required base amount determined by the HHS Secretary, a required adjustment based on population, and an amount based on significant unmet need and degree of risk.

1. Threat, or the likelihood of a particular threat event occurring, quantified by the number of events occurring within a recipient's jurisdiction (e.g., the "flood" threat parameter is comprised of the number of flooding events occurring within a recipient's jurisdiction).

2. Vulnerability, or a community's or communities' access to health care services and surge capacity (or lack thereof), quantified by proportion-based public health metrics (e.g., the "health care access" vulnerability parameter is comprised of the number of staffed hospital beds per capita by recipient).

3. Consequence, or the potential negative impacts associated with a particular threat/hazard occurring, quantified by the historic number of casualties per event associated with each threat/hazard (e.g., the "flood" consequence parameter captures the expected number of casualties associated with a flooding event).

Information Requested

Please reference the tables found at <https://aspr.hhs.gov/HealthCareReadiness/HPP/Pages/rfi.aspx> to answer the following questions.

(1) What, if any, feedback do you have regarding the current datasets? For example, are there any current datasets you recommend retiring? Please specify why and if you would recommend any replacements.

(2) What, if any, additional datasets would you recommend including in the risk calculation? Please specify the data source and associated risk subcomponent (i.e., threat, vulnerability, consequence). You may recommend adding one of the "potential datasets" included in the tables found at <https://aspr.hhs.gov/HealthCareReadiness/HPP/Pages/rfi.aspx> and/or suggest new datasets for consideration.

(3) What, if any, additional considerations would you recommend including in the calculation of risk (e.g., threats that are not included in the current datasets)? Please also include datasets that can be used to measure these factors.

You may address as many or as few questions as you choose. You may provide additional feedback relevant to the HPP funding formula. When responding, please identify the corresponding question. Datasets used for the risk calculation must be national in scope and either publicly available or readily available to the federal government.

This RFI is for planning purposes only and should not be construed as a policy, solicitation for applications, or as an obligation on the part of the government to provide support for any ideas in response to it. ASPR will use the information submitted in response to this RFI at its discretion and will not provide comments to any of your submissions. The government is under

no obligation to acknowledge receipt of the information received or provide feedback with respect to any information submitted. No proprietary, classified, confidential, or sensitive information should be included in a response. The contents of all submissions may be made available to the public in the future. Submitted materials should therefore be publicly available or be able to be made public.

The Administrator and Assistant Secretary for Preparedness and Response of ASPR, Dawn O'Connell, having reviewed and approved this document, authorizes Adam DeVore, who is the Federal Register liaison, to electronically sign this document for purposes of publication in the **Federal Register**.

Adam DeVore,

Federal Register Liaison, Administration for Strategic Preparedness and Response.

BILLING CODE 4150-37-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these documents, email the SAMHSA Reports Clearance Officer at samhsapra@samhsa.hhs.gov.

Project: SAMHSA Unified Client-Level Performance Reporting Tool (SUPRT)—(OMB No. 0930-NEW)

SAMHSA is the agency within the U.S. Department of Health and Human Services that leads public health efforts to advance the behavioral health of the nation. SAMHSA is seeking approval for the new SAMHSA Unified Performance Reporting Tool (SUPRT) which will (1) combine and align the existing client-level performance instrument for the SAMHSA Center for Substance Abuse Treatment (CSAT) and National Outcomes Measures (NOMS) instrument for the SAMHSA Center for Mental Health Services (CMHS), and (2) create a two-component tool that will allow for a client (or caregiver) self-administered questionnaire (called SAMHSA Unified Performance Reporting Tool (SUPRT)—C: Client or Caregiver Form or 'SUPRT-C') and a grantee completion of administrative data (called SAMHSA Unified Performance Reporting Tool (SUPRT)—A: Administrative Report or 'SUPRT-A'). The revisions also allow for the client portion to move from interviewer-administered to self-administered with the aim of potentially reducing burden and increasing reporting accuracy.

SUPRT will allow SAMHSA to (1) continue to meet Government Performance and Results Modernization Act (GPRAMA) of 2010 reporting requirements; (2) reduce the scope and associated burden of questions requiring responses directly from clients; (3) standardize questions across programs wherever possible; and, (4) elicit programmatic information that will help to assess the impact of discretionary grant programs on the achievement of SAMHSA's 2023-2026 Strategic Priority Area goals and objectives.

Furthermore, this effort is designed to align performance reporting requirements with other parts of the Federal Statistical System. For example,

to the extent possible, SAMHSA aims to align with measurement indicators used by the Centers for Medicare & Medicaid Services; the Centers for Disease Control and Prevention; the U.S. Census Bureau; and the Office of Management and Budget. For instance, the race and ethnicity question is aligned with the Office of Management and Budget's race and ethnicity standards.

Currently, over 7,500 grantees across a range of prevention, harm reduction, treatment, and recovery support discretionary grant programs have reported program performance data into SAMHSA's Performance Accountability and Reporting System (SPARS) that serves as a central data repository. SPARS functions as a performance management system that captures information on the substance use and mental health services delivered via the range of SAMHSA's discretionary grants.

The new SUPRT tool reflects diverse feedback SAMHSA obtained through multiple listening sessions conducted with key stakeholders, in addition to extensive deliberations conducted by different working groups within SAMHSA. Accordingly, SUPRT aligns with some prior questions and deletes other questions from the client-level performance reporting tools currently in use. SUPRT also incorporates select new

measures/questions into a multi-component client-level tool. SAMHSA will provide guidance about these changes, specifying which items grantees can complete using administrative data and which can be self-administered to clients. This new SUPRT will reduce client reporting burden and is projected to enhance the accuracy of the collected performance data.

SAMHSA will use the data collected through the new SUPRT for annual reporting required by GPRAMA, grantee monitoring, and continuous improvement of its discretionary grant programs. The SUPRT will also align with, and strengthen, SAMHSA's complementary evaluation activities of its discretionary grant programs providing client services.

The information collected through this process will allow SAMHSA to (1) monitor and report on implementation and overall performance of the associated grant programs; (2) advance SAMHSA's proposed performance goals; and (3) assess the accountability and performance of its discretionary grant programs, focused on efforts that promote mental health, prevent substance use, and provide treatments and supports to foster recovery.

The first component of SUPRT, the SUPRT-C, is to be completed by clients or caregivers. SUPRT-C is composed of

(1) standardized questions about demographic information (asked directly of clients at baseline only); (2) social determinants of health (asked directly of clients at baseline and at 3 or 6 months post baseline reassessment); and, (3) recovery, quality of life, and client goal measures as impacted by services received (asked of clients at baseline and reassessment during the client's first year of treatment, then annually). Therefore, not all questions are asked of each respondent (child/adult) or at each information collection period (*e.g.*, baseline, reassessment, annual).

The second component of SUPRT, SUPRT-A, is to be completed by grantees. SUPRT-A consists of a streamlined set of questions describing clients' behavioral health history, screening and diagnosis items, and services provided to clients. SUPRT-A is collected from client-records kept by the grantee, for example in paper or electronic health records (EHRs). Grantees may need to adjust their record keeping, intake or behavioral health history taking to ensure that they are able to complete the SUPRT-A. Question(s) about services provided to the client will only be required at reassessment and annually.

The chart below summarizes the annualized burden for this project.

SAMHSA tool	Included domains	Number of respondents	Responses per respondent	Total responses	Hours per response	Total hour burden	Hourly cost	Total cost
Client-level baseline assessment—SUPRT-C Adult.	Demographics, SDOH, Core Outcomes of Recovery, Goals.	488,775	1	488,775	0.250	122,194	\$28.9	\$3,530,177

Written comments and recommendations concerning the

proposed information collection should be sent by January 6, 2025 to the

SAMHSA Desk Officer at the Office of Information and Regulatory Affairs,

Office of Management and Budget (OMB). To ensure timely receipt of comments, and to avoid potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov. Although commenters are encouraged to send their comments via email, commenters may also fax their comments to 202-395-7285. Commenters may also mail them to: Office of Management and Budget, Office of Information and Regulatory Affairs, New Executive Office Building, Room 10102, Washington, DC 20503.

Alicia Broadus,

Public Health Advisor.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Internal Agency Docket No. FEMA-4712-DR; Docket ID FEMA-2024-0001]

Tennessee; Amendment No. 3 to Notice of a Major Disaster Declaration

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster declaration for the State of Tennessee (FEMA-4712-DR), dated May 17, 2023, and related determinations.

DATES: This change occurred on October 7, 2024.

FOR FURTHER INFORMATION CONTACT:

Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646-2833.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Darryl L. Dragoo, of FEMA is appointed to act as the Federal Coordinating Officer for this disaster.

This action terminates the appointment of Leda M. Khoury as Federal Coordinating Officer for this disaster.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling;

97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Federal Emergency Management Agency

[Internal Agency Docket No. FEMA-3617-EM; Docket ID FEMA-2024-0001]

North Carolina; Emergency and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of an emergency for the State of North Carolina (FEMA-3617-EM), dated September 26, 2024, and related determinations.

DATES: The declaration was issued September 26, 2024.

FOR FURTHER INFORMATION CONTACT:

Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646-2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 26, 2024, the President issued an emergency declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the Stafford Act), as follows:

I have determined that the emergency conditions in certain areas of the State of North Carolina resulting from Hurricane Helene beginning on September 25, 2024, and continuing, are of sufficient severity and magnitude to warrant an emergency declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* ("the Stafford Act"). Therefore, I declare that such an emergency exists in the State of North Carolina.

You are authorized to provide appropriate assistance for required emergency measures,

authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, and to lessen or avert the threat of a catastrophe in the designated areas. Specifically, you are authorized to provide emergency protective measures (Category B), including direct Federal assistance in selected areas; emergency protective measures (Category B), limited to direct Federal assistance and reimbursement for mass care including evacuation and shelter support in selected areas; and emergency protective measures (Category B), limited to direct Federal assistance in selected areas.

Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance will be limited to 75 percent of the total eligible costs. In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal emergency assistance and administrative expenses.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, Department of Homeland Security, under Executive Order 12148, as amended, E. Craig Levy, Sr., of FEMA is appointed to act as the Federal Coordinating Officer for this declared emergency.

The following areas of the State of North Carolina have been designated as adversely affected by this declared emergency:

Buncombe, Burke, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, Macon, Madison, McDowell, Mitchell, Polk, Rutherford, Swain, Transylvania, and Yancey Counties and the Eastern Band of Cherokee Indians for emergency protective measures (Category B), including direct federal assistance under the Public Assistance program.

Alexander, Alleghany, Ashe, Avery, Caldwell, Catawba, Cleveland, Gaston, Iredell, Lincoln, Watauga, and Wilkes Counties for emergency protective measures (Category B), limited to direct Federal assistance and reimbursement for mass care including evacuation and shelter support under the Public Assistance program.

Alamance, Anson, Beaufort, Bertie, Bladen, Brunswick, Cabarrus, Camden, Carteret, Caswell, Chatham, Chowan, Columbus, Craven, Cumberland, Currituck, Dare, Davidson, Davie, Duplin, Durham, Edgecombe, Forsyth, Franklin, Gates, Granville, Greene, Guilford, Halifax, Harnett, Hertford, Hoke, Hyde, Johnston, Jones, Lee, Lenoir, Martin, Mecklenburg, Montgomery, Moore, Nash, New Hanover, Northampton, Onslow, Orange, Pamlico, Pasquotank, Pender, Perquimans, Person, Pitt, Randolph, Richmond, Robeson, Rockingham, Rowan, Sampson, Scotland, Stanly, Stokes, Surry, Tyrrell, Union, Vance, Wake, Warren,

Washington, Wayne, Wilson, and Yadkin Counties for emergency protective measures (Category B), limited to direct federal assistance under the Public Assistance program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Internal Agency Docket No. FEMA–4834–DR; Docket ID FEMA–2024–0001]

Florida; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Florida (FEMA–4834–DR), dated October 11, 2024, and related determinations.

DATES: The declaration was issued October 11, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated October 11, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of Florida resulting from Hurricane Milton beginning on October 5, 2024, and continuing, is of sufficient

severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of Florida.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance and assistance for debris removal and emergency protective measures (Categories A and B), including direct Federal assistance, under the Public Assistance program in the designated areas, Hazard Mitigation throughout the State, and any other forms of assistance under the Stafford Act that you deem appropriate subject to completion of Preliminary Damage Assessments.

Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Hazard Mitigation and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs. Federal funds provided under the Stafford Act for Public Assistance also will be limited to 75 percent of the total eligible costs, with the exception of projects that meet the eligibility criteria for a higher Federal cost-sharing percentage in FEMA’s Public Assistance Mitigation Cost Share Incentives Policy. For a 90-day period of the State’s choosing within the first 120 days from the start of the incident period, you are authorized to fund assistance for debris removal and emergency protective measures, including direct Federal assistance, at 100 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, John E. Brogan, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of Florida have been designated as adversely affected by this major disaster:

Brevard, Charlotte, Citrus, Clay, Collier, DeSoto, Duval, Flagler, Glades, Hardee, Hendry, Hernando, Highlands, Hillsborough, Indian River, Lake, Lee, Manatee, Marion, Martin, Okeechobee, Orange, Osceola, Palm Beach, Pasco, Pinellas, Polk, Putnam, Sarasota, Seminole, St. Johns, St. Lucie, Sumter, and Volusia Counties and the Miccosukee Tribe of Indians of Florida for Individual Assistance.

Brevard, Charlotte, Citrus, Clay, Collier, DeSoto, Duval, Flagler, Glades, Hardee, Hendry, Hernando, Highlands, Hillsborough, Indian River, Lake, Lee, Manatee, Marion, Martin, Okeechobee, Orange, Osceola, Palm Beach, Pasco, Pinellas, Polk, Putnam, Sarasota, Seminole, St. Johns, St. Lucie, Sumter, and Volusia Counties and the Miccosukee Tribe of Indians of Florida for debris removal and emergency protective measures (Categories A and B), including direct federal assistance, under the Public Assistance program.

All areas within the State of Florida are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Federal Emergency Management Agency

[Internal Agency Docket No. FEMA–4825–DR; Docket ID FEMA–2024–0001]

New York; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of New York (FEMA–4825–DR), dated September 24, 2024, and related determinations.

DATES: The declaration was issued September 24, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 24, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of New York resulting from the remnants of Tropical Storm Debby during the period of August 8 to August 10, 2024, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of New York.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Public Assistance in the designated areas and Hazard Mitigation throughout the State. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance and Hazard Mitigation will

be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Lai Sun Yee, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of New York have been designated as adversely affected by this major disaster:

Allegany, Broome, Delaware, Essex, Franklin, Jefferson, Ontario, Steuben, St. Lawrence, and Yates Counties for Public Assistance.

All areas within the State of New York are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

New York; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of New York

(FEMA–4839–DR), dated October 21, 2024, and related determinations.

DATES: The declaration was issued October 21, 2024.

FOR FURTHER INFORMATION CONTACT:

Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated October 21, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of New York resulting from a severe storm and flooding during the period of August 18 to August 19, 2024, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of New York.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Public Assistance in the designated areas and Hazard Mitigation throughout the State. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance and Hazard Mitigation will be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Lai Sun Yee, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of New York have been designated as adversely affected by this major disaster:

Lewis, Oswego, and Suffolk Counties for Public Assistance.

All areas within the State of New York are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to

Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

[Internal Agency Docket No. FEMA–4833–DR; Docket ID FEMA–2024–0001]

San Carlos Apache Tribe; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the San Carlos Apache Tribe (FEMA–4833–DR), dated October 4, 2024, and related determinations.

DATES: The declaration was issued October 4, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated October 4, 2024 the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage to the lands associated with the San Apache Tribe resulting from the Watch Fire during the period of July 10 to July 17, 2024, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists for the San Carlos Apache Tribe.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance, Public Assistance, and Hazard

Mitigation for the San Carlos Apache Tribe. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Hazard Mitigation and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs. Federal funds provided under the Stafford Act for Public Assistance also will be limited to 75 percent of the total eligible costs, with the exception of projects that meet the eligibility criteria for a higher Federal cost-sharing percentage in FEMA’s Public Assistance Mitigation Cost Share Incentives Policy.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Benigno Bern Ruiz, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas have been designated as adversely affected by this major disaster:

San Carlos Apache Tribe for Individual Assistance.

San Carlos Apache Tribe for Public Assistance.

The San Carlos Apache Tribe is eligible to apply for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

[Internal Agency Docket No. FEMA–4831–DR; Docket ID FEMA–2024–0001]

Virginia; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the Commonwealth of Virginia (FEMA–4831–DR), dated October 1, 2024, and related determinations.

DATES: The declaration was issued October 1, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated October 1, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the Commonwealth of Virginia resulting from Tropical Storm Helene beginning on September 25, 2024, and continuing, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the Commonwealth of Virginia.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance and assistance for debris removal and emergency protective measures (Categories A and B), including direct Federal assistance, under the Public Assistance program in the designated areas, Hazard Mitigation throughout the State, and any other forms of assistance under the Stafford Act that you deem appropriate subject to completion of Preliminary Damage Assessments.

Consistent with the requirement that Federal assistance is supplemental, any Federal funds provided under the Stafford Act for Hazard Mitigation and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs. Federal funds provided under the Stafford

Act for Public Assistance also will be limited to 75 percent of the total eligible costs, with the exception of projects that meet the eligibility criteria for a higher Federal cost-sharing percentage in FEMA's Public Assistance Mitigation Cost Share Incentives Policy.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Timothy S. Pheil, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the Commonwealth of Virginia have been designated as adversely affected by this major disaster:

Giles, Grayson, Smyth, Tazewell, Washington, and Wythe Counties and the independent city of Galax for Individual Assistance.

Bedford, Bland, Buchanan, Carroll, Craig, Dickenson, Giles, Grayson, Montgomery, Pittsylvania, Pulaski, Russell, Scott, Smyth, Tazewell, Washington, Wise, and Wythe Counties and the independent cities of Bristol, Covington, Danville, Galax, Norton, and Radford for debris removal and emergency protective measures (Categories A and B), including direct federal assistance under the Public Assistance program.

All areas within the Commonwealth of Virginia are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

[Internal Agency Docket No. FEMA–4828–DR; Docket ID FEMA–2024–0001]

Florida; Amendment No. 9 to Notice of a Major Disaster Declaration

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster declaration for the State of Florida (FEMA–4828–DR), dated September 28, 2024, and related determinations.

DATES: This amendment was issued October 2, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated October 2, 2024, the President amended the cost-sharing arrangements regarding Federal funds provided under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), in a letter to Deanne Criswell, Administrator, Federal Emergency Management Agency, Department of Homeland Security, under Executive Order 12148, as follows:

I have determined that the damage in certain areas of the State of Florida resulting from Hurricane Helene beginning on September 23, 2024, and continuing, is of sufficient severity and magnitude that special cost-sharing arrangements are warranted regarding Federal funds provided under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”).

Therefore, I amend my declaration of September 28, 2024, to authorize Federal funds for debris removal and emergency protective measures, including direct Federal assistance at 100 percent of the total eligible costs for a period of 90 days of the State’s choosing within the first 120 days from the start of the incident period.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—

DATES: The declaration was issued September 16, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 16, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of Louisiana resulting from Hurricane Francine during the period of September 9 to September 12, 2024, is of sufficient severity and magnitude to

warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of Louisiana.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance and assistance for debris removal and emergency protective measures (Categories A and B), including direct Federal assistance, under the Public Assistance program in the designated areas, Hazard Mitigation throughout the State, and any other forms of assistance under the Stafford Act that you deem appropriate subject to completion of Preliminary Damage Assessments.

Consistent with the requirement that Federal assistance is supplemental, any Federal funds provided under the Stafford Act for Public Assistance, Hazard Mitigation, and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Sandra L. Eslinger, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of Louisiana have been designated as adversely affected by this major disaster:

Ascension, Assumption, Lafourche, St. Charles, St. James, St. John the Baptist, St. Mary, and Terrebonne Parishes for Individual Assistance.

Ascension, Assumption, Lafourche, St. Charles, St. James, St. John the Baptist, St. Mary, and Terrebonne Parishes for debris removal and emergency protective measures (Categories A and B), including direct federal assistance under the Public Assistance program.

All areas within the State of Louisiana are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant;

97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Deanne Criswell,

Administrator, Federal Emergency Management Agency.

[Internal Agency Docket No. FEMA–4819–DR; Docket ID FEMA–2024–0001]

Illinois; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Illinois (FEMA–4819–DR), dated September 20, 2024, and related determinations.

DATES: The declaration was issued September 20, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 20, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of Illinois resulting from severe storms, tornadoes, straight-line winds, and flooding during the period of July 13 to July 16, 2024, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of Illinois.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance in the designated areas and

Hazard Mitigation throughout the State. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Hazard Mitigation and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, Department of Homeland Security, under Executive Order 12148, as amended, Darrin Ricketts, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of Illinois have been designated as adversely affected by this major disaster:

Cook, Fulton, Henry, St. Clair, Washington, Will, and Winnebago Counties for Individual Assistance.

All areas within the State of Illinois are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Tennessee; Emergency and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of an emergency for the State of Tennessee (FEMA–3620–EM), dated September 27, 2024, and related determinations.

DATES: The declaration was issued September 27, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street, SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 27, 2024, the President issued an emergency declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121–5207 (the Stafford Act), as follows:

I have determined that the emergency conditions in certain areas of the State of Tennessee resulting from Tropical Storm Helene beginning on September 26, 2024, and continuing, are of sufficient severity and magnitude to warrant an emergency declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (“the Stafford Act”). Therefore, I declare that such an emergency exists in the State of Tennessee.

You are authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, and to lessen or avert the threat of a catastrophe in the designated areas. Specifically, you are authorized to provide emergency protective measures (Category B), including direct Federal assistance, in selected areas and emergency protective measures (Category B), limited to direct Federal assistance and reimbursement for mass care including evacuation and shelter support, in selected areas.

Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance will be limited to 75 percent of the total eligible costs. In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal emergency assistance and administrative expenses.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, Department of Homeland Security, under Executive Order 12148, as amended, Darryl L. Dragoo, of FEMA is appointed to act as the Federal Coordinating Officer for this declared emergency.

The following areas of the State of Tennessee have been designated as adversely affected by this declared emergency:

Carter, Johnson, and Unicoi Counties for emergency protective measures (Category B), including direct Federal assistance under the Public Assistance program. Cocke, Hawkins, and Washington Counties for emergency protective measures (Category B), limited to direct federal assistance and reimbursement for mass care including evacuation and shelter support under the Public Assistance program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

[Internal Agency Docket No. FEMA–3619–EM; Docket ID FEMA–2024–0001]

South Carolina; Emergency and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of an emergency for the State of South Carolina (FEMA–3619–EM), dated September 26, 2024, and related determinations.

DATES: The declaration was issued September 26, 2024.

FOR FURTHER INFORMATION CONTACT:

Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 26, 2024, the President issued an emergency declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121–5207 (the Stafford Act), as follows:

I have determined that the emergency conditions in certain areas of the State of South Carolina resulting from Hurricane Helene beginning on September 25, 2024, and continuing, are of sufficient severity and magnitude to warrant an emergency declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (“the Stafford Act”). Therefore, I declare that such an emergency exists in the State of South Carolina.

You are authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, and to lessen or avert the threat of a catastrophe in the designated areas. Specifically, you are authorized to provide emergency protective measures (Category B), including direct Federal assistance in selected areas; emergency protective measures (Category B), limited to direct Federal assistance and reimbursement for mass care including evacuation and shelter support in selected areas; and emergency protective measures (Category B), limited to direct Federal assistance in selected areas.

Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance will be limited to 75 percent of the total eligible costs. In order to provide Federal assistance, you are hereby

authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal emergency assistance and administrative expenses.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, Department of Homeland Security, under Executive Order 12148, as amended, Brett H. Howard, of FEMA is appointed to act as the Federal Coordinating Officer for this declared emergency.

The following areas of the State of South Carolina have been designated as adversely affected by this declared emergency:

Abbeville, Anderson, Cherokee, Greenville, Laurens, Oconee, Pickens, and Spartanburg Counties for emergency protective measures (Category B), including direct federal assistance under the Public Assistance program.

Aiken, Allendale, Bamberg, Barnwell, Beaufort, Calhoun, Chester, Colleton, Edgefield, Fairfield, Greenwood, Hampton, Jasper, Kershaw, Lancaster, Lexington, McCormick, Newberry, Orangeburg, Richland, Saluda, Sumter, Union, and York Counties for emergency protective measures (Category B), limited to direct Federal assistance and reimbursement for mass care including evacuation and shelter support under the Public Assistance program.

Berkeley, Charleston, Chesterfield, Clarendon, Darlington, Dillon, Dorchester, Florence, Georgetown, Horry, Lee, Marion, Marlboro, and Williamsburg Counties for emergency protective measures (Category B), limited to direct Federal assistance under the Public Assistance program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Florida; Emergency and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of an emergency for the State of Florida (FEMA–3622–EM), dated October 7, 2024, and related determinations.

DATES: The declaration was issued October 7, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated October 7, 2024, the President issued an emergency declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121–5207 (the Stafford Act), as follows:

I have determined that the emergency conditions in certain areas of the State of Florida resulting from Hurricane Milton beginning on October 5, 2024, and continuing, are of sufficient severity and magnitude to warrant an emergency declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (“the Stafford Act”). Therefore, I declare that such an emergency exists in the State of Florida.

You are authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, and to lessen or avert the threat of a catastrophe in the designated areas. Specifically, you are authorized to provide emergency protective measures (Category B), including direct Federal assistance in selected areas and emergency protective measures (Category B), limited to direct Federal assistance in selected areas.

Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance will be limited to 75 percent of the total eligible costs. In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal emergency assistance and administrative expenses.

Further, you are authorized to make changes to this declaration for the approved

assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, Department of Homeland Security, under Executive Order 12148, as amended, John E. Brogan, of FEMA is appointed to act as the Federal Coordinating Officer for this declared emergency.

The following areas of the State of Florida have been designated as adversely affected by this declared emergency:

Brevard, Broward, Charlotte, Citrus, Collier, Desoto, Dixie, Flagler, Glades, Hardee, Hendry, Hernando, Highlands, Hillsborough, Indian River, Lake, Lee, Levy, Manatee, Marion, Martin, Miami-Dade, Monroe, Okeechobee, Orange, Osceola, Palm Beach, Pasco, Pinellas, Polk, Putnam, Sarasota, Seminole, St. Johns, St. Lucie, Sumter, and Volusia Counties for emergency protective measures (Category B), including direct Federal assistance under the Public Assistance program.

Alachua, Baker, Bradford, Clay, Columbia, Duval, Gilchrist, Hamilton, Lafayette, Madison, Nassau, Suwannee, Taylor, and Union Counties for emergency protective measures (Category B), limited to direct Federal assistance under the Public Assistance program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Nebraska; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Nebraska (FEMA-4838-DR), dated October 21, 2024, and related determinations.

DATES: The declaration was issued October 21, 2024.

FOR FURTHER INFORMATION CONTACT:

Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646-2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated October 21, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the "Stafford Act"), as follows:

I have determined that the damage in certain areas of the State of Nebraska resulting from severe storms, straight-line winds, tornadoes, and flooding on July 31, 2024, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the "Stafford Act"). Therefore, I declare that such a major disaster exists in the State of Nebraska.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Public Assistance in the designated areas and Hazard Mitigation throughout the State. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance and Hazard Mitigation will be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Andrew P. Meyer, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of Nebraska have been designated as adversely affected by this major disaster:

Cass, Douglas, Lancaster, Sarpy, and Saunders Counties for Public Assistance.

All areas within the State of Nebraska are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora

Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households in Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

[Docket ID FEMA-2024-0002; Internal Agency Docket No. FEMA-B-2474]

Changes in Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: This notice lists communities where the addition or modification of Base Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, or the regulatory floodway (hereinafter referred to as flood hazard determinations), as shown on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports, prepared by the Federal Emergency Management Agency (FEMA) for each community, is appropriate because of new scientific or technical data. The FIRM, and where applicable, portions of the FIS report, have been revised to reflect these flood hazard determinations through issuance of a Letter of Map Revision (LOMR), in accordance with Federal Regulations. The currently effective community number is shown in the table below and must be used for all new policies and renewals.

DATES: These flood hazard determinations will be finalized on the dates listed in the table below and revise the FIRM panels and FIS report in effect prior to this determination for the listed communities.

From the date of the second publication of notification of these changes in a newspaper of local circulation, any person has 90 days in which to request through the community that the Deputy Associate Administrator for Insurance and Mitigation reconsider the changes. The flood hazard determination information may be changed during the 90-day period.

ADDRESSES: The affected communities are listed in the table below. Revised flood hazard information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

Submit comments and/or appeals to the Chief Executive Officer of the community as listed in the table below.

FOR FURTHER INFORMATION CONTACT: Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbibit@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The specific flood hazard determinations are not described for each community in this notice. However, the online location and local community map repository address where the flood hazard determination information is available for inspection is provided.

Any request for reconsideration of flood hazard determinations must be submitted to the Chief Executive Officer of the community as listed in the table below.

The modifications are made pursuant to section 201 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required.

They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. The

flood hazard determinations are in accordance with 44 CFR 65.4.

The affected communities are listed in the following table. Flood hazard determination information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are

accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

[Internal Agency Docket No. FEMA–4822–DR; Docket ID FEMA–2024–0001]

Nebraska; Major Disaster and Related Determinations**AGENCY:** Federal Emergency Management Agency, DHS.**ACTION:** Notice.**SUMMARY:** This is a notice of the Presidential declaration of a major disaster for the State of Nebraska (FEMA–4822–DR), dated September 24, 2024, and related determinations.**DATES:** The declaration was issued September 24, 2024.**FOR FURTHER INFORMATION CONTACT:** Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.**SUPPLEMENTARY INFORMATION:** Notice is hereby given that, in a letter dated September 24, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency

Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of Nebraska resulting from severe storms, straight-line winds, tornadoes, and flooding during the period of June 20 to July 8, 2024, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of Nebraska.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Public Assistance in the designated areas and Hazard Mitigation throughout the State. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance and Hazard Mitigation will be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Andrew P. Meyer, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of Nebraska have been designated as adversely affected by this major disaster:

Boyd, Clay, Dakota, Dawson, Douglas, Fillmore, Holt, Howard, Lincoln, McPherson, Nance, Nemaha, Saunders, Scotts Bluff, Thomas, and Washington Counties for Public Assistance.

All areas within the State of Nebraska are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance

(Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

[Internal Agency Docket No. FEMA–4818–DR; Docket ID FEMA–2024–0001]

Saint Regis Mohawk Tribe; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the Saint Regis Mohawk Tribe (FEMA–4818–DR), dated September 20, 2024, and related determinations.

DATES: The declaration was issued September 20, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 20, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage to the lands associated with the Saint Regis Mohawk Tribe resulting from a severe storm and flooding during the period of August 8 to August 10, 2024, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists for the Saint Regis Mohawk Tribe.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Public Assistance and Hazard Mitigation for the Saint Regis Mohawk Tribe. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance and Hazard Mitigation will be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Catharine O. Fan, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas have been designated as adversely affected by this major disaster:

The Saint Regis Mohawk Tribe for Public Assistance.

The Saint Regis Mohawk Tribe is eligible to apply for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

[Internal Agency Docket No. FEMA–4824–DR; Docket ID FEMA–2024–0001]

Kansas; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Kansas (FEMA–4824–DR), dated September 24, 2024, and related determinations.

DATES: The declaration was issued September 24, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 24, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of Kansas resulting from severe storms, straight-line winds, tornadoes, and flooding during the period of June 26 to July 7, 2024, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of Kansas.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Public Assistance in the designated areas and Hazard Mitigation throughout the State. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance and Hazard Mitigation will be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Andrew P. Meyer, of FEMA is appointed to act as the

Federal Coordinating Officer for this major disaster.

The following areas of the State of Kansas have been designated as adversely affected by this major disaster:

Chase, Clark, Comanche, Doniphan, Finney, Geary, Gray, Greeley, Hamilton, Kearny, Meade, Scott, Thomas, and Wabaunsee Counties for Public Assistance.

All areas within the State of Kansas are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

South Carolina; Amendment No. 11 to Notice of a Major Disaster Declaration

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster declaration for the State of South Carolina (FEMA–4829–DR), dated September 29, 2024, and related determinations.

DATES: This amendment was issued November 7, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: The notice of a major disaster declaration for the State of South Carolina is hereby amended to include the following area among those areas determined to have

been adversely affected by the event declared a major disaster by the President in his declaration of September 29, 2024.

Beaufort County for Public Assistance, including direct Federal assistance (already designated for Individual Assistance).

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Federal Emergency Management Agency

[Internal Agency Docket No. FEMA–4829–DR; Docket ID FEMA–2024–0001]

South Carolina; Amendment No. 9 to Notice of a Major Disaster Declaration

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster declaration for the State of South Carolina (FEMA–4829–DR), dated September 29, 2024, and related determinations.

DATES: This amendment was issued October 4, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated October 4, 2024, the President amended the cost-sharing arrangements regarding Federal funds provided under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), in a letter to Deanne Criswell, Administrator, Federal Emergency Management Agency, Department of Homeland Security, under Executive Order 12148, as follows:

I have determined that the damage in certain areas of the State of South Carolina

resulting from Hurricane Helene beginning on September 25, 2024, and continuing, is of sufficient severity and magnitude that special cost-sharing arrangements are warranted regarding Federal funds provided under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”).

Therefore, I amend my declaration of September 29, 2024, to authorize Federal funds for debris removal and emergency protective measures, including direct Federal assistance, at 100 percent of the total eligible costs for a period of 90 days of the State’s choosing within the first 120 days from the start of the incident period.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

BILLING CODE 9111–23–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA–2024–0002]

Final Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: Flood hazard determinations, which may include additions or modifications of Base Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, or regulatory floodways on the Flood Insurance Rate Maps (FIRMs) and where applicable, in the supporting Flood Insurance Study (FIS) reports have been made final for the communities listed in the table below. The FIRM and FIS report are the basis of the floodplain management measures that a community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the Federal Emergency Management Agency’s

(FEMA’s) National Flood Insurance Program (NFIP).

DATES: The date of April 9, 2025 has been established for the FIRM and, where applicable, the supporting FIS report showing the new or modified flood hazard information for each community.

ADDRESSES: The FIRM, and if applicable, the FIS report containing the final flood hazard information for each community is available for inspection at the respective Community Map Repository address listed in the tables below and will be available online through the FEMA Map Service Center at <https://msc.fema.gov> by the date indicated above.

FOR FURTHER INFORMATION CONTACT: Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646–7659, or (email) patrick.sacbibit@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the new or modified flood hazard information for each community listed. Notification of these changes has been published in newspapers of local circulation and 90 days have elapsed since that publication. The Deputy Associate Administrator for Insurance and Mitigation has resolved any appeals resulting from this notification.

This final notice is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the new or revised FIRM and FIS report available at the address cited below for each community or online through the FEMA Map Service Center at <https://msc.fema.gov>.

The flood hazard determinations are made final in the watersheds and/or communities listed in the table below. (Catalog of Federal Domestic Assistance No. 97.022, “Flood Insurance.”)

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Internal Agency Docket No. FEMA–3615–EM; Docket ID FEMA–2024–0001]

Florida; Emergency and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.
ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of an emergency for the State of Florida (FEMA–3615–EM), dated September 24, 2024, and related determinations.

DATES: The declaration was issued September 24, 2024.

FOR FURTHER INFORMATION CONTACT:
Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 24, 2024, the President issued an emergency declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121–5207 (the Stafford Act), as follows:

I have determined that the emergency conditions in certain areas of the State of Florida resulting from Tropical Storm Helene beginning on September 23, 2024, and continuing, are of sufficient severity and magnitude to warrant an emergency declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (“the Stafford Act”). Therefore, I declare that such an emergency exists in the State of Florida.

You are authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, and to lessen or avert the threat of a catastrophe in the designated areas. Specifically, you are authorized to provide emergency protective measures (Category B), limited to direct Federal assistance and reimbursement for mass care including evacuation and shelter support in selected areas and emergency protective measures (Category B), limited to direct Federal assistance in the other designated areas.

Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance will be limited to 75 percent of the total eligible costs. In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal emergency assistance and administrative expenses.

Further, you are authorized to make changes to this declaration for the approved

assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, Department of Homeland Security, under Executive Order 12148, as amended, John E. Brogan, of FEMA is appointed to act as the Federal Coordinating Officer for this declared emergency.

The following areas of the State of Florida have been designated as adversely affected by this declared emergency:

Bay, Calhoun, Charlotte, Citrus, Collier, Dixie, Franklin, Gadsden, Gilchrist, Gulf, Hernando, Hillsborough, Jackson, Jefferson, Lafayette, Lee, Leon, Levy, Liberty, Madison, Manatee, Monroe, Pasco, Pinellas, Sarasota, Suwannee, Taylor, and Wakulla Counties for emergency protective measures (Category B), limited to direct Federal assistance and reimbursement for mass care including evacuation and shelter support under the Public Assistance program.

Alachua, Bradford, Columbia, Escambia, Hamilton, Holmes, Marion, Okaloosa, Santa Rosa, Sumter, Union, Walton, and Washington Counties for emergency protective measures (Category B), limited to direct Federal assistance under the Public Assistance program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Deanne Criswell,
Administrator, Federal Emergency Management Agency.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Internal Agency Docket No. FEMA–3613–EM; Docket ID FEMA–2024–0001]

New York; Emergency and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of an emergency for the State of New York (FEMA–3613–EM), dated August 25, 2024, and related determinations.

DATES: The declaration was issued August 25, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated August 25, 2024, the President issued an emergency declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121–5207 (the Stafford Act), as follows:

I have determined that the emergency conditions in certain areas of the State of New York resulting from a severe storm and flooding during the period of August 18 to August 19, 2024, are of sufficient severity and magnitude to warrant an emergency declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (“the Stafford Act”). Therefore, I declare that such an emergency exists in the State of New York.

You are authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, and to lessen or avert the threat of a catastrophe in the designated areas. Specifically, you are authorized to provide emergency protective measures (Category B), limited to direct Federal assistance, under the Public Assistance program.

Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance will be limited to 75 percent of the total eligible costs. In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal emergency assistance and administrative expenses.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, Department of Homeland Security, under Executive Order 12148, as amended, Lai Sun Yee, of FEMA is appointed to act as the Federal Coordinating Officer for this declared emergency.

The following areas of the State of New York have been designated as adversely affected by this declared emergency:

Suffolk County for emergency protective measures (Category B), limited to direct Federal assistance under the Public Assistance program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Internal Agency Docket No. FEMA–4828–DR; Docket ID FEMA–2024–0001]

Florida; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Florida (FEMA–4828–DR), dated September 28, 2024, and related determinations.

DATES: The declaration was issued September 28, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 28, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of Florida resulting from Hurricane Helene beginning on September 23, 2024, and continuing, is of

sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of Florida.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance and assistance for debris removal and emergency protective measures (Categories A and B), including direct Federal assistance, under the Public Assistance program in the designated areas, Hazard Mitigation throughout the State, and any other forms of assistance under the Stafford Act that you deem appropriate subject to completion of Preliminary Damage Assessments.

Consistent with the requirement that Federal assistance is supplemental, any Federal funds provided under the Stafford Act for Hazard Mitigation and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs. Federal funds provided under the Stafford Act for Public Assistance also will be limited to 75 percent of the total eligible costs, with the exception of projects that meet the eligibility criteria for a higher Federal cost-sharing percentage in FEMA’s Public Assistance Mitigation Cost Share Incentives Policy.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, John E. Brogan, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of Florida have been designated as adversely affected by this major disaster:

Charlotte, Citrus, Dixie, Franklin, Hernando, Hillsborough, Jefferson, Lafayette, Lee, Levy, Madison, Manatee, Pasco, Pinellas, Sarasota, Taylor, and Wakulla Counties for Individual Assistance.

Charlotte, Citrus, Dixie, Franklin, Hernando, Hillsborough, Jefferson, Lafayette, Lee, Levy, Madison, Manatee, Pasco, Pinellas, Sarasota, Taylor, and Wakulla Counties for debris removal and emergency protective measures (Categories A and B), including direct Federal assistance, under the Public Assistance program.

All areas within the State of Florida are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Georgia; Emergency and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of an emergency for the State of Georgia (FEMA–3616–EM), dated September 26, 2024, and related determinations.

DATES: The declaration was issued September 26, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 26, 2024, the President issued an emergency declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121–5207 (the Stafford Act), as follows:

I have determined that the emergency conditions in certain areas of the State of Georgia resulting from Hurricane Helene beginning on September 24, 2024, and continuing, are of sufficient severity and magnitude to warrant an emergency declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (“the Stafford

Act”). Therefore, I declare that such an emergency exists in the State of Georgia.

You are authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, and to lessen or avert the threat of a catastrophe in the designated areas. Specifically, you are authorized to provide emergency protective measures (Category B), including direct Federal assistance in selected areas; emergency protective measures (Category B), limited to direct Federal assistance and reimbursement for mass care including evacuation and shelter support in selected areas; and emergency protective measures (Category B), limited to direct Federal assistance in selected areas.

Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance will be limited to 75 percent of the total eligible costs. In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal emergency assistance and administrative expenses.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, Department of Homeland Security, under Executive Order 12148, as amended, Kevin A. Wallace, Sr., of FEMA is appointed to act as the Federal Coordinating Officer for this declared emergency.

The following areas of the State of Georgia have been designated as adversely affected by this declared emergency:

Atkinson, Baker, Banks, Ben Hill, Berrien, Brooks, Calhoun, Cherokee, Clay, Clinch, Coffee, Colquitt, Cook, Crisp, Dawson, Decatur, Dooly, Dougherty, Early, Echols, Fannin, Forsyth, Franklin, Gilmer, Grady, Habersham, Hall, Irwin, Jackson, Lanier, Lee, Lowndes, Lumpkin, Macon, Miller, Mitchell, Pickens, Pulaski, Quitman, Rabun, Randolph, Schley, Seminole, Stephens, Stewart, Sumter, Terrell, Thomas, Tift, Towns, Turner, Union, Webster, White, Wilcox, and Worth Counties for emergency protective measures (Category B), including direct federal assistance under the Public Assistance program.

Appling, Bacon, Baldwin, Barrow, Bartow, Bibb, Bleckley, Brantley, Burke, Butts, Camden, Carroll, Catoosa, Charlton, Chattahoochee, Chattooga, Clarke, Clayton, Cobb, Columbia, Coweta, Crawford, Dade, DeKalb, Dodge, Douglas, Elbert, Emanuel, Fayette, Floyd, Fulton, Glascock, Glynn, Gordon, Greene, Gwinnett, Hancock, Haralson, Harris, Hart, Heard, Henry, Houston, Jasper, Jeff Davis, Jefferson, Jenkins, Johnson, Jones, Lamar, Laurens, Lincoln, Madison, Marion, McDuffie, Meriwether, Monroe, Montgomery, Morgan, Murray, Muscogee, Newton, Oconee, Oglethorpe,

Paulding, Peach, Pierce, Pike, Polk, Putnam, Richmond, Rockdale, Screven, Spalding, Talbot, Taliaferro, Taylor, Telfair, Toombs, Treutlen, Troup, Twiggs, Upson, Walker, Walton, Ware, Warren, Washington, Wayne, Wheeler, Whitfield, Wilkes, and Wilkinson for emergency protective measures (Category B), limited to direct federal assistance and reimbursement for mass care including evacuation and shelter support under the Public Assistance program.

Bryan, Bulloch, Candler, Chatham, Effingham, Evans, Liberty, Long, McIntosh, Tattnall Counties for emergency protective measures (Category B), limited to direct federal assistance under the Public Assistance program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Internal Agency Docket No. FEMA–4821–DR; Docket ID FEMA–2024–0001]

Georgia; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Georgia (FEMA–4821–DR), dated September 24, 2024, and related determinations.

DATES: The declaration was issued September 24, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 24, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of Georgia resulting from Tropical Storm Debby during the period of August 4 to August 20, 2024, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of Georgia.

In order to provide Federal assistance, you are hereby authorized to allocate from funds

available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance and Public Assistance in the designated areas and Hazard Mitigation throughout the State. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance, Hazard Mitigation, and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Kevin A. Wallace, Sr., of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of Georgia have been designated as adversely affected by this major disaster:

Bryan, Bulloch, Chatham, Effingham, Evans, Liberty, Long, and Screven Counties for Individual Assistance.

Appling, Atkinson, Bacon, Berrien, Brantley, Brooks, Bryan, Bulloch, Burke, Camden, Candler, Charlton, Chatham, Clinch, Coffee, Colquitt, Cook, Echols, Effingham, Evans, Jeff Davis, Jenkins, Lanier, Long, Lowndes, McIntosh, Pierce, Screven, Tattnall, Thomas, Tift, Toombs, Ware, and Wayne Counties for Public Assistance.

All areas within the State of Georgia are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance

(Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Connecticut; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Connecticut (FEMA–4820–DR), dated September 20, 2024, and related determinations.

DATES: The declaration was issued September 20, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 20, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of Connecticut resulting from a severe storm, flooding, landslides, and mudslides during the period of August 18 to August 19, 2024, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of Connecticut.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance in the designated areas and Hazard Mitigation throughout the State. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act Hazard Mitigation and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Robert V. Fogel, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of Connecticut have been designated as adversely affected by this major disaster:

Fairfield, Litchfield, and New Haven Counties for Individual Assistance.

All areas within the State of Connecticut are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

[Internal Agency Docket No. FEMA–4823–DR; Docket ID FEMA–2024–0001]

Confederated Tribes and Bands of the Yakama Nation; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major

disaster for the Confederated Tribes and Bands of the Yakama Nation (FEMA–4823–DR), dated September 24, 2024, and related determinations.

DATES: The declaration was issued September 24, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 24, 2024 the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage to the lands associated with the Confederated Tribes and Bands of the Yakama Nation resulting from wildfires during the period of June 22 to July 8, 2024, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists for the Confederated Tribes and Bands of the Yakama Nation.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance, Public Assistance, and Hazard Mitigation for the Confederated Tribes and Bands of the Yakama Nation. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance, Hazard Mitigation, and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Tonia Pence, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas have been designated as adversely affected by this major disaster:

The Confederated Tribes and Bands of the Yakama Nation for Individual Assistance.

The Confederated Tribes and Bands of the Yakama Nation for Public Assistance.

The Confederated Tribes and Bands of the Yakama Nation is eligible to apply for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Vermont; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Vermont (FEMA–4826–DR), dated September 26, 2024, and related determinations.

DATES: The declaration was issued September 26, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 26, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of Vermont resulting from severe storms, flooding, landslides, and

mudslides during the period of July 29 to July 31, 2024, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of Vermont.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance and Public Assistance in the designated areas and Hazard Mitigation throughout the State. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance, Hazard Mitigation, and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, William F. Roy, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of Vermont have been designated as adversely affected by this major disaster:

Caledonia, Essex, and Orleans Counties for Individual Assistance.

Caledonia, Essex, and Orleans Counties for Public Assistance.

All areas within the State of Vermont are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance

(Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

[Internal Agency Docket No. FEMA–4830–DR; Docket ID FEMA–2024–0001]

Georgia; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Georgia (FEMA–4830–DR), dated September 30, 2024, and related determinations.

DATES: The declaration was issued September 30, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 30, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of Georgia resulting from Hurricane Helene beginning on September 24, 2024, and continuing, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of Georgia.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance and assistance for debris removal and emergency protective measures (Categories A and B), including direct Federal assistance, under the Public Assistance program in the designated areas, Hazard Mitigation throughout the State, and any other forms of assistance under the Stafford Act that you deem appropriate subject to completion of Preliminary Damage Assessments.

Consistent with the requirement that Federal assistance is supplemental, any Federal funds provided under the Stafford Act for Hazard Mitigation and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs. Federal funds provided under the Stafford Act for Public Assistance also will be limited to 75 percent of the total eligible costs, with the exception of projects that meet the eligibility criteria for a higher Federal cost-sharing percentage in FEMA’s Public Assistance Mitigation Cost Share Incentives Policy.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Kevin A. Wallace, Sr., of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of Georgia have been designated as adversely affected by this major disaster:

Appling, Brooks, Coffee, Columbia, Jefferson, Liberty, Lowndes, Pierce, Richmond, Tattnall, and Toombs Counties for Individual Assistance.

Appling, Brooks, Coffee, Columbia, Jefferson, Liberty, Lowndes, Pierce, Richmond, Tattnall, and Toombs Counties for debris removal and emergency protective measures (Categories A and B), including direct federal assistance under the Public Assistance program.

All areas within the State of Georgia are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance

(Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, David Miller Jr., of FEMA is appointed to act as the Federal Coordinating Officer for this disaster. This action terminates the appointment of Lai Sun Yee as Federal Coordinating Officer for this disaster. The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance	DEPARTMENT OF HOMELAND SECURITY Federal Emergency Management Agency [Internal Agency Docket No. FEMA–3621–EM; Docket ID FEMA–2024–0001] Virginia; Emergency and Related Determinations AGENCY: Federal Emergency Management Agency, DHS. ACTION: Notice. SUMMARY: This is a notice of the Presidential declaration of an emergency for the Commonwealth of Virginia (FEMA–3621–EM), dated September 29, 2024, and related determinations. DATES: The declaration was issued September 29, 2024. FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833. SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 29, 2024, the President issued an emergency declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121–5207 (the Stafford Act), as follows: I have determined that the emergency conditions in certain areas of the Commonwealth of Virginia resulting from Post-Tropical Cyclone Helene beginning on September 25, 2024, and continuing, are of sufficient severity and magnitude to warrant an emergency declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 <i>et seq.</i> (“the Stafford Act”). Therefore, I declare that such an emergency exists in the Commonwealth of Virginia. You are authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, and to lessen or avert the threat of a catastrophe in the designated areas. Specifically, you are authorized to provide assistance for emergency protective measures (Category B), limited to direct Federal assistance, under the Public Assistance program. Consistent with the requirement that Federal assistance be supplemental, any

Federal funds provided under the Stafford Act for Public Assistance will be limited to 75 percent of the total eligible costs. In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal emergency assistance and administrative expenses.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, Department of Homeland Security, under Executive Order 12148, as amended, Timothy S. Pheil, of FEMA is appointed to act as the Federal Coordinating Officer for this declared emergency.

The following areas of the Commonwealth of Virginia have been designated as adversely affected by this declared emergency:

Grayson, Smyth, Tazewell, Washington, Wise, and Wythe Counties and the independent City of Galax for emergency protective measures (Category B), limited to direct Federal assistance under the Public Assistance program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

[Internal Agency Docket No. FEMA–4837–DR; Docket ID FEMA–2024–0001]

North Carolina; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of North Carolina (FEMA–4837–DR), dated October 19, 2024, and related determinations.

DATES: The declaration was issued October 19, 2024.

FOR FURTHER INFORMATION CONTACT:

Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated October 19, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of North Carolina resulting from Potential Tropical Cyclone Eight during the period of September 16 to September 20, 2024, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of North Carolina.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Public Assistance in the designated areas and Hazard Mitigation throughout the State. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Hazard Mitigation will be limited to 75 percent of the total eligible costs. Federal funds provided under the Stafford Act for Public Assistance also will be limited to 75 percent of the total eligible costs, with the exception of projects that meet the eligibility criteria for a higher Federal cost-sharing percentage in FEMA’s Public Assistance Mitigation Cost Share Incentives Policy.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, E. Craig Levy, Sr., of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of North Carolina have been designated as adversely affected by this major disaster:

Brunswick, Carteret, New Hanover, and Onslow Counties for Public Assistance.

All areas within the State of North Carolina are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling;

97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Alaska; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Alaska (FEMA–4836–DR), dated October 16, 2024, and related determinations.

DATES: The declaration was issued October 16, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated October 16, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of Alaska resulting from flooding during the period of August 5 to August 6, 2024, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of Alaska.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance and Public Assistance in the designated areas and Hazard Mitigation throughout the State. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Hazard Mitigation and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs. Federal funds provided under the Stafford Act for Public Assistance also will be limited to 75 percent of the total eligible costs, with the exception of projects that meet the eligibility criteria for a higher Federal cost-sharing percentage in FEMA’s Public Assistance Mitigation Cost Share Incentives Policy.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Lance E. Davis, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of Alaska have been designated as adversely affected by this major disaster:

City and Borough of Juneau for Individual Assistance.

City and Borough of Juneau for Public Assistance.

All areas within the State of Alaska are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Tennessee; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Tennessee (FEMA–4832–DR), dated October 2, 2024, and related determinations.

DATES: The declaration was issued October 2, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated October 2, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of Tennessee resulting from Tropical Storm Helene beginning on September 26, 2024, and continuing, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of Tennessee.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance and assistance for debris removal and emergency protective measures (Categories A and B), including direct Federal assistance, under the Public Assistance program in the designated areas, Hazard Mitigation throughout the State, and any other forms of assistance under the Stafford Act that you deem appropriate subject to completion of Preliminary Damage Assessments.

Consistent with the requirement that Federal assistance is supplemental, any Federal funds provided under the Stafford Act for Hazard Mitigation and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs. Federal funds provided under the Stafford Act for Public Assistance also will be limited to 75 percent of the total eligible costs, with the exception of projects that meet the

eligibility criteria for a higher Federal cost-sharing percentage in FEMA's Public Assistance Mitigation Cost Share Incentives Policy. For a 45-day period of the State's choosing within the first 120 days from the start of the incident period, you are authorized to fund assistance for debris removal and emergency protective measures, including direct Federal assistance, at 100 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Darryl L. Dragoo, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of Tennessee have been designated as adversely affected by this major disaster:

Carter, Cocke, Greene, Hamblen, Hawkins, Johnson, Unicoi, and Washington Counties for Individual Assistance.

Carter, Cocke, Greene, Hamblen, Hawkins, Johnson, Unicoi, and Washington Counties for debris removal and emergency protective measures (Categories A and B), including direct federal assistance under the Public Assistance program.

All areas within the State of Tennessee are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Federal Emergency Management Agency

[Internal Agency Docket No. FEMA–4827–DR; Docket ID FEMA–2024–0001]

North Carolina; Amendment No. 4 to Notice of a Major Disaster Declaration

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster declaration for the State of North Carolina (FEMA–4827–DR), dated September 28, 2024, and related determinations.

DATES: This amendment was issued October 2, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated October 2, 2024, the President amended the cost-sharing arrangements regarding Federal funds provided under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), in a letter to Deanne Criswell, Administrator, Federal Emergency Management Agency, Department of Homeland Security, under Executive Order 12148, as follows:

I have determined that the damage in certain areas of the State of North Carolina resulting from Tropical Storm Helene beginning on September 25, 2024, and continuing, is of sufficient severity and magnitude that special cost-sharing arrangements are warranted regarding Federal funds provided under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”).

Therefore, I amend my declaration of September 28, 2024, to authorize Federal funds for debris removal and emergency protective measures, including direct Federal assistance at 100 percent of the total eligible costs for 180 days from the start of the incident period.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

North Carolina; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of North Carolina (FEMA–4827–DR), dated September 28, 2024, and related determinations.

DATES: The declaration was issued September 28, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 28, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of North Carolina resulting from Tropical Storm Helene beginning on September 25, 2024, and continuing, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of North Carolina.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance and assistance for debris removal and emergency protective measures (Categories A and B), including direct Federal assistance, under the Public Assistance program in the designated areas, Hazard Mitigation throughout the State, and any other forms of assistance under the Stafford Act that you deem appropriate subject to completion of Preliminary Damage Assessments.

Consistent with the requirement that Federal assistance is supplemental, any Federal funds provided under the Stafford Act for Hazard Mitigation and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs. Federal funds provided under the Stafford Act for Public Assistance also will be limited to 75 percent of the total eligible costs, with the exception of projects that meet the eligibility criteria for a higher Federal cost-sharing percentage in FEMA’s Public Assistance Mitigation Cost Share Incentives Policy.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Thomas J. McCool, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of North Carolina have been designated as adversely affected by this major disaster:

Alexander, Alleghany, Ashe, Avery, Buncombe, Burke, Caldwell, Catawba, Clay,

Cleveland, Gaston, Haywood, Henderson, Jackson, Lincoln, Macon, Madison, McDowell, Mitchell, Polk, Rutherford, Transylvania, Watauga, Wilkes, and Yancey Counties and the Eastern Band of Cherokee Indians for Individual Assistance.

Alexander, Alleghany, Ashe, Avery, Buncombe, Burke, Caldwell, Catawba, Clay, Cleveland, Gaston, Haywood, Henderson, Jackson, Lincoln, Macon, Madison, McDowell, Mitchell, Polk, Rutherford, Transylvania, Watauga, Wilkes, and Yancey Counties and the Eastern Band of Cherokee Indians for debris removal and emergency protective measures (Categories A and B), including direct federal assistance under the Public Assistance program.

All areas within the State of North Carolina are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Deanne Criswell,

Administrator, Federal Emergency Management Agency.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Internal Agency Docket No. FEMA–3618–EM; Docket ID FEMA–2024–0001]

Alabama; Emergency and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of an emergency for the State of Alabama (FEMA–3618–EM), dated September 26, 2024, and related determinations.

DATES: The declaration was issued September 26, 2024.

FOR FURTHER INFORMATION CONTACT:

Dean Webster, Office of Response and Recovery, Federal Emergency

Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 26, 2024, the President issued an emergency declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121–5207 (the Stafford Act), as follows:

I have determined that the emergency conditions in certain areas of the State of Alabama resulting from Hurricane Helene beginning on September 22, 2024, and continuing, are of sufficient severity and magnitude to warrant an emergency declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (“the Stafford Act”). Therefore, I declare that such an emergency exists in the State of Alabama.

You are authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, and to lessen or avert the threat of a catastrophe in the designated areas. Specifically, you are authorized to provide emergency protective measures (Category B), including direct Federal assistance, in selected areas; emergency protective measures (Category B), limited to direct Federal assistance and reimbursement for mass care including evacuation and shelter support, in selected areas; and emergency protective measures (Category B), limited to direct Federal assistance, in selected areas.

Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance will be limited to 75 percent of the total eligible costs. In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal emergency assistance and administrative expenses.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, Department of Homeland Security, under Executive Order 12148, as amended, Keith Denning, of FEMA is appointed to act as the Federal Coordinating Officer for this declared emergency.

The following areas of the State of Alabama have been designated as adversely affected by this declared emergency:

Houston County for emergency protective measures (Category B), including direct Federal assistance under the Public Assistance program.

Barbour, Bullock, Calhoun, Chambers, Cherokee, Clay, Cleburne, Coffee, Covington, Crenshaw, Dale, DeKalb, Etowah, Geneva,

Henry, Jackson, Lauderdale, Lee, Limestone, Macon, Madison, Marshall, Morgan, Randolph, Russell, and Tallapoosa Counties for emergency protective measures (Category B), limited to direct federal assistance and reimbursement for mass care including evacuation and shelter support under the Public Assistance program.

Baldwin, Butler, Clarke, Conecuh, Escambia, Mobile, Monroe, and Washington Counties for emergency protective measures (Category B), limited to direct federal assistance under the Public Assistance program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Deanne Criswell,

Administrator, Federal Emergency Management Agency.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Internal Agency Docket No. FEMA–4829–DR; Docket ID FEMA–2024–0001]

South Carolina; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of South Carolina (FEMA–4829–DR), dated September 29, 2024, and related determinations.

DATES: The declaration was issued September 29, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646–2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 29, 2024, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), as follows:

I have determined that the damage in certain areas of the State of South Carolina resulting from Hurricane Helene beginning on September 25, 2024, and continuing, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”). Therefore, I declare that such a major disaster exists in the State of South Carolina.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance and assistance for debris removal and emergency protective measures

(Categories A and B), including direct Federal assistance, under the Public Assistance program in the designated areas, Hazard Mitigation throughout the State, and any other forms of assistance under the Stafford Act that you deem appropriate subject to completion of Preliminary Damage Assessments.

Consistent with the requirement that Federal assistance is supplemental, any Federal funds provided under the Stafford Act for Hazard Mitigation and Other Needs Assistance under section 408 will be limited to 75 percent of the total eligible costs. Federal funds provided under the Stafford Act for Public Assistance also will be limited to 75 percent of the total eligible costs, with the exception of projects that meet the eligibility criteria for a higher Federal cost-sharing percentage in FEMA's Public Assistance Mitigation Cost Share Incentives Policy.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Brett H. Howard, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of South Carolina have been designated as adversely affected by this major disaster:

Aiken, Anderson, Bamberg, Barnwell, Cherokee, Greenville, Greenwood, Lexington, Newberry, Oconee, Pickens, Saluda, and Spartanburg Counties for Individual Assistance.

Aiken, Anderson, Bamberg, Barnwell, Cherokee, Greenville, Greenwood, Newberry, Oconee, Pickens, Saluda, and Spartanburg Counties for debris removal and emergency protective measures (Categories A and B), including direct federal assistance under the Public Assistance program.

All areas within the State of South Carolina are eligible for assistance under the Hazard Mitigation Grant Program.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially

Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

**DEPARTMENT OF HOMELAND
SECURITY****Federal Emergency Management
Agency**

[Docket ID FEMA–2024–0002; Internal Agency Docket No. FEMA–B–2476]

**Changes in Flood Hazard
Determinations**

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: This notice lists communities where the addition or modification of Base Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, or the regulatory floodway (hereinafter referred to as flood hazard determinations), as shown on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports, prepared by the Federal Emergency Management Agency (FEMA) for each community, is appropriate because of new scientific or technical data. The FIRM, and where applicable, portions of the FIS report, have been revised to reflect these flood hazard determinations through issuance of a Letter of Map Revision (LOMR), in accordance with Federal Regulations. The currently effective community number is shown in the table below and must be used for all new policies and renewals.

DATES: These flood hazard determinations will be finalized on the dates listed in the table below and revise the FIRM panels and FIS report in effect prior to this determination for the listed communities.

From the date of the second publication of notification of these changes in a newspaper of local circulation, any person has 90 days in which to request through the community that the Deputy Associate Administrator for Insurance and Mitigation reconsider the changes. The flood hazard determination information may be changed during the 90-day period.

ADDRESSES: The affected communities are listed in the table below. Revised flood hazard information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA

Map Service Center at <https://msc.fema.gov> for comparison.

Submit comments and/or appeals to the Chief Executive Officer of the community as listed in the table below.

FOR FURTHER INFORMATION CONTACT: Rick Sacbibt, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646–7659, or (email) patrick.sacbibt@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The specific flood hazard determinations are not described for each community in this notice. However, the online location and local community map repository address where the flood hazard determination information is available for inspection is provided.

Any request for reconsideration of flood hazard determinations must be submitted to the Chief Executive Officer of the community as listed in the table below.

The modifications are made pursuant to section 201 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. The flood hazard determinations are in accordance with 44 CFR 65.4.

The affected communities are listed in the following table. Flood hazard determination information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA

Map Service Center at <https://msc.fema.gov> for comparison.

BILLING CODE 9110-12-P

DEPARTMENT OF HOMELAND SECURITY**Federal Emergency Management Agency****[Internal Agency Docket No. FEMA-4831-DR; Docket ID FEMA-2024-0001]****Virginia; Amendment No. 5 to Notice of a Major Disaster Declaration****AGENCY:** Federal Emergency Management Agency, DHS.**ACTION:** Notice.

SUMMARY: This notice amends the notice of a major disaster declaration for the Commonwealth of Virginia (FEMA-4831-DR), dated October 1, 2024, and related determinations.

DATES: This amendment was issued October 4, 2024.

FOR FURTHER INFORMATION CONTACT: Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646-2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated October 4, 2024, the President amended the cost-sharing arrangements regarding Federal funds provided under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the "Stafford Act"), in a letter to

Deanne Criswell, Administrator, Federal Emergency Management Agency, Department of Homeland Security, under Executive Order 12148, as follows:

I have determined that the damage in certain areas of the Commonwealth of Virginia resulting from Tropical Storm Helene beginning on September 25, 2024, and continuing, is of sufficient severity and magnitude that special cost-sharing arrangements are warranted regarding Federal funds provided under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the "Stafford Act").

Therefore, I amend my declaration of October 1, 2024, to authorize Federal funds for debris removal and emergency protective measures, including direct Federal assistance at 100 percent of the total eligible costs for a period of 90 days of the Commonwealth's choosing within the first 120 days from the start of the incident period.

(The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance

(Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.)

Deanne Criswell,
Administrator, Federal Emergency Management Agency.

BILLING CODE 9111–23–P

DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

Revision of Agency Information Collection Activity Under OMB Review: Federal Flight Deck Officer Program

AGENCY: Transportation Security Administration, DHS.

ACTION: 30-day notice.

SUMMARY: This notice announces that the Transportation Security Administration (TSA) has forwarded the Information Collection Request (ICR), Office of Management and Budget (OMB) control number 1652–0011, abstracted below to OMB for review and approval of a revision of the currently approved collection under the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. The collection requires interested volunteers to fill out an application to determine their suitability for participating in the Federal Flight Deck Officer (FFDO) Program, and deputized FFDOs to submit written reports of certain prescribed incidents.

DATES: Send your comments by January 6, 2025. A comment to OMB is most effective if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” and by using the find function.

FOR FURTHER INFORMATION CONTACT: Christina A. Walsh, TSA PRA Officer Information Technology, TSA–11, Transportation Security Administration, 6595 Springfield Center Drive,

Springfield, VA 20598–6011; telephone (571) 227–2062; email TSAPRA@tsa.dhs.gov.

SUPPLEMENTARY INFORMATION: TSA published a **Federal Register** notice, with a 60-day comment period soliciting comments, of the following collection of information on September 27, 2024, 89 FR79304. TSA did not receive any comments on the notice.

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <https://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

Title: Federal Flight Deck Officer Program.

Type of Request: Revision of a currently approved collection.

OMB Control Number: 1652–0011.

Forms(s): N/A.

Affected Public: Volunteer pilots, flight engineers, and navigators.

Abstract: The FFDO Program enables TSA to screen, select, train, deputize, and supervise qualified pilots, flight engineers, and navigators who voluntarily agree to defend the flight decks of commercial passenger and all-cargo airliners against acts of criminal violence or air piracy. Information collected as the result of this proposal is used to assess the eligibility and suitability of prospective and current FFDOs, to ensure the readiness of every FFDO, to administer the program, and for security purposes. The program also includes the requirement for FFDOs to report prescribed incidents to TSA.

These reportable incidents include, but are not limited to, the discharge or drawing of a weapon, any attacks or attempted attacks on the flight deck, and the loss or damage of any weapon/ammunition. TSA is revising the collection by discontinuing the TSA verbal interview and enabling online submission of answers to certification questions.

Estimated Annual Respondents: 1,700.

Estimated Annual Burden Hours: 1,700.

Dated: December 2, 2024.

Christina A. Walsh,

TSA Paperwork Reduction Act Officer, Information Technology.

BILLING CODE 9110–05–P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–7080–N–54]

30-Day Notice of Proposed Information Collection: Local Appeals to Single-Family Mortgage Limits; OMB Control No.: 2502–0302

AGENCY: Office of Policy Development and Research, Chief Data Officer, HUD.

ACTION: Notice

SUMMARY: HUD is seeking approval from the Office of Management and Budget (OMB) for the information collection described below. In accordance with the Paperwork Reduction Act, HUD is requesting comment from all interested parties on the proposed collection of information. The purpose of this notice is to allow for an additional 30 days of public comment.

DATES: *Comments Due Date:* January 6, 2025.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Interested persons are also invited to submit comments regarding this proposal and comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Colette Pollard, Reports Management Officer, REE, Department of Housing and Urban Development, 451 7th Street, SW, Room 8210, Washington, DC 20410–5000;

email PaperworkReductionActOffice@hud.gov.

FOR FURTHER INFORMATION CONTACT:

Colette Pollard, Reports Management Officer, REE, Department of Housing and Urban Development, 7th Street SW, Room 8210, Washington, DC 20410; email Colette.Pollard@hud.gov or telephone (202) 402–3400. This is not a toll-free number. HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on June 3, 2024 at 89 FR 47584.

A. Overview of Information Collection

Title of Information Collection: Local Appeals to Single-Family Mortgage Limits.

OMB Approval Number: 2502–0302.

Type of Request: Extension.

Form Number: N/A.

Description of the need for the information and proposed use: Any interested party may submit a request for the mortgage limits to be increased in a particular area if they believe that the present limit does not accurately reflect the higher sales prices in that area. Any request for an increase must be accompanied by sufficient housing sales price data to justify higher limits.

This allows HUD the opportunity to examine additional data to confirm or adjust the set loan limit for a particular area.

Respondents: Business and other for-profit.

Estimated Number of Respondents: 1.

Estimated Number of Responses: 1.

Frequency of Response: 1.

Average Hours per Response: 7.

Total Estimated Burdens: 7.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the

proper performance of the functions of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

(5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

HUD encourages interested parties to submit comments in response to these questions.

C. Authority

Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-7086-N-31]

60-Day Notice of Proposed Information Collection: Management Review of Multifamily Housing Projects; OMB Control No.: 2502-0178

AGENCY: Office of the Assistant
Secretary for Housing—Federal Housing
Commissioner, HUD.

ACTION: Notice.

SUMMARY: HUD is seeking approval from the Office of Management and Budget (OMB) for the information collection described below. In accordance with the Paperwork Reduction Act, HUD is requesting comment from all interested parties on the proposed collection of information. The purpose of this notice is to allow for 60 days of public comment.

DATES: *Comments Due Date:* February 4, 2025.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal.

Written comments and recommendations for the proposed information collection can be sent

within 60 days of publication of this notice to www.regulations.gov. Interested persons are also invited to submit comments regarding this proposal by name and/or OMB Control Number and can be sent to: Colette Pollard, Reports Management Officer, REE, Department of Housing and Urban Development, 451 7th Street SW, Room 8210, Washington, DC 20410-5000; telephone (202) 402-3400. (this is not a toll-free number) or email at Colette.Pollard@hud.gov, for a copy of the proposed forms or other available information.

FOR FURTHER INFORMATION CONTACT:

Colette Pollard, Reports Management Officer, REE, Department of Housing and Urban Development, 451 7th Street SW, Washington, DC 20410; email Colette.Pollard@hud.gov or telephone (202) 402-3400. This is not a toll-free number. HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech and communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Management Review for Multifamily Housing Projects.

OMB Approval Number: 2502-0178.

Type of Request: Revision of a currently approved collection.

Form Number: HUD-9834.

Description of the need for the information collection and proposed use: This information collection is used by HUD, by Mortgagees and by Contract Administrators (CAs) to evaluate the quality of project management; determine the causes of project problems; devise corrective actions to stabilize projects and prevent defaults; and to ensure that fraud, waste and mismanagement are not problems for the community. The information collected also supports enforcement actions when owners fail to implement corrective actions.

Respondents: Business or other for-profit.

Estimated Number of Respondents: 27,127.

Estimated Number of Responses: 27,127.

Frequency of Response: Varies.
Average Hours per Response: 8.33
Total Estimated Burden: 27,127.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

C. Authority

Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. chapter 35.

Public Meeting of the Advisory Board of Exceptional Children

AGENCY: Bureau of Indian Affairs,
Interior

ACTION: Notice of Meeting.

SUMMARY: The Bureau of Indian Education (BIE) is announcing that the Advisory Board for Exceptional Children will hold a two day in-person and online meeting. The purpose of the meeting is to meet the mandates of the Individuals with Disabilities Education Act of 2004 (IDEA) for Indian children with disabilities.

DATES: The BIE Advisory Board meeting will be held Thursday, January 16, 2025, from 8 a.m. to 4 p.m. MST, and Friday,

January 17, 2025, from 8 a.m. to 4 p.m. MST.

ADDRESSES: This onsite meeting location will be at the National Indian Programs Training Center (NIPTC), 1011 Indian School Rd. NW, Suite 254, Albuquerque, NM 87104. To attend virtually, participants may use this link to register: <https://www.zoomgov.com/meeting/register/vJltfumuqzMvElVjV-NK1xkRF77kIX1hDKI>. Attendees register once and can attend one or both meeting events. After registering, you will receive a confirmation email containing information about joining the meeting.

Comments: Public comments can be emailed to the DFO at Jennifer.davis@bie.edu; or faxed to (602) 265–0293 Attention: Jennifer Davis, DFO; or mailed or hand delivered to the Bureau of Indian Education, Attention: Jennifer Davis, DFO, 2600 N Central Ave., 12th floor, Suite 250, Phoenix, AZ 85004.

FOR FURTHER INFORMATION CONTACT: Jennifer Davis, Designated Federal Officer, Bureau of Indian Education, 2600 N. Central Ave., 12th floor, Suite 250, Phoenix, AZ 85004, Jennifer.Davis@bie.edu, or mobile phone (202) 860–7845.

SUPPLEMENTARY INFORMATION: In accordance with the Federal Advisory Committee Act (5 U.S.C. Ch. 10), the BIE is announcing the Advisory Board will hold its next meeting in-person and online. The Advisory Board was established under the Individuals with Disabilities Act of 2004 (20 U.S.C. 1400 *et seq.*) to advise the Secretary of the Interior, through the Assistant Secretary-Indian Affairs, on the needs of Indian children with disabilities. All meetings, including virtual sessions, are open to the public in their entirety.

Meeting Agenda Items

The following agenda items will be for January 16–17, 2025, meeting:

- A Panel Discussion: Early Childhood Transition; and A Panel Discussion: Secondary Transition.
- A Panel Discussion with Transition Specialist (Pre-Kindergarten through grade 12), to include Early Childhood Transition and Secondary Transition.
- BIE Special Education Program—Transition Updates
- BIE Behavior Wellness Program—Updates and overview about the program.
- The Committee will work on and finalize the next meeting agenda and logistics steps each meeting day.
- Public Commenting Sessions will be opened any time throughout both meeting days to encourage public input. Public comments can be provided verbally via webinar or in writing using

the chat box. Please use the online access codes as listed below.

○ Public comments can also be emailed to the DFO at Jennifer.Davis@bie.edu; or faxed to (602) 265–0293 Attention: Jennifer Davis, DFO; or mailed or hand delivered to the Bureau of Indian Education, Attention: Jennifer Davis, DFO, 2600 N Central Ave., 12th Floor, Suite 250, Phoenix, Arizona 85004.

Accessibility Request

Please make requests in advance for sign language interpreter services, assistive listening devices, language translation services, or other reasonable accommodations. Please contact the person listed in the section **FOR FURTHER INFORMATION CONTACT** at least seven (7) business days prior to the meeting to give the Department of the Interior sufficient time to process your request. All reasonable accommodation requests are managed on a case-by-case basis.

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

Authority: 5 U.S.C. Ch. 10.

Bryan Newland,

Assistant Secretary—Indian Affairs.

Bureau of Land Management

[BLM_ID_FRN]

Filing of Plats of Survey: Idaho

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of official filing of plats of surveys.

SUMMARY: The plats and/or field notes of the survey of the following described lands are scheduled to be officially filed in the Bureau of Land Management, Idaho State Office, Boise, Idaho, 30 days from the date of this publication. The surveys were conducted to meet administrative needs of various Federal agencies.

ADDRESSES: A copy of the survey record may be obtained from the Public Room at the Bureau of Land Management, Idaho State Office, 1387 S. Vinnell Way, Boise, Idaho 83709, upon required payment.

FOR FURTHER INFORMATION CONTACT:

Daniel S. Young, Branch of Cadastral Survey, Bureau of Land Management, 1387 South Vinnell Way, Boise, Idaho 83709–1657; (208) 373–3994; email: dsyoung@blm.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 7–1–1 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION:

Boise Meridian, Idaho

- T. 32 N., R. 3 E., Sections 14, 22, 24, 25, 27, 28, and 33, accepted September 27, 2024.
- T. 34 N., R. 3 E., Section 26, accepted September 18, 2024.
- T. 34 N., R. 2 E., Sections 1, 2, 10, 13, 15, and 24, accepted September 12, 2024.
- T. 3 S., R. 2 W., Sections 3, 4, 33, and 34, accepted September 17, 2024.
- T. 32 N., R. 4 E., Sections 30 and 31, accepted September 19, 2024.
- T. 35 N., R. 3 E., Sections 7, 30, 31, and 32, accepted November 15, 2024.
- T. 31 N., R. 3 E., Sections 11, 13, and 24, accepted November 18, 2024.

The plat, in one sheet, incorporating the field notes of the dependent resurvey of portions of the south and east boundaries, and a portion of the subdivisional lines, and the subdivision of sections 14, 22, 24, 25, 27, 28, and 33, T. 32 N., R. 3 E., Boise Meridian, Idaho, Group Number 1526, accepted September 27, 2024.

The plat, in one sheet, incorporating the field notes of the corrective dependent resurvey of a portion of the subdivisional lines, and the dependent resurvey of a portion of the subdivisional lines, the 1891 right bank meanders of the Clearwater River in section 26, and boundaries of Mineral Survey Number 2936, and the subdivision of section 26, T. 34 N., R. 3 E., Boise Meridian, Idaho, Group Number 1470, accepted September 18, 2024.

The plat, in one sheet, incorporating the field notes of the corrective dependent resurvey of a portion of the subdivisional lines and a portion of the subdivision of section 24, and the dependent resurvey of portions of the north and east boundaries, a portion of the subdivisional lines, and the original 1897 meanders of the Clearwater River in section 1, and the subdivision of sections 1, 2, 10, 13, and 15, T. 34 N., R. 2 E., Boise Meridian, Idaho, Group Number 1491, accepted September 12, 2024.

The field notes of the remonumentation of the corner of sections 3, 4, 33, and 34, on the south boundary of T. 3 S., R. 2 W, Boise Meridian, Idaho, Group Number 1500, accepted September 17, 2024.

The plat, in one sheet, incorporating the field notes of the dependent resurvey of portions of the south and west boundaries, and a portion of the subdivisional lines, and the subdivision of sections 30 and 31, Township 32 North, Range 4 East, Boise Meridian, Idaho, Group Number 1506, accepted September 19, 2024.

The plat, in two sheets, incorporating the field notes of the dependent resurvey of a portion of the East Boundary of the Nez Perce Indian Reservation, a portion of the south and west boundaries, and a portion of the subdivisional lines, and the subdivision of sections 7, 30, 31, and 32, Township 35 North, Range 3 East, Boise Meridian, Idaho, Group Number 1533, accepted November 15, 2024.

The plat, in one sheet, incorporating the field notes of the dependent resurvey of a portion of the South Boundary of the Nez Perce Indian Reservation, a portion of the east boundary, and a portion of the subdivisional lines, and the subdivision of sections 11, 13, and 24, Township 31 North, Range 3 East, Boise Meridian, Idaho Group Number 1514, accepted November 18, 2024.

A person or party who wishes to protest one or more plats of survey identified above must file a written notice of protest with the Chief Cadastral Surveyor for Idaho, BLM within 30 calendar days from the date of this publication at the address listed in the **ADDRESSES** section of this notice. The protest must identify the plat(s) of survey that the person or party wishes to protest and contain all reasons and evidence in support of the protest. A protest is considered filed on the date it is received by the Chief Cadastral Surveyor for Idaho during regular business hours; if received after regular business hours, a protest will be considered filed the next business day.

Before including your address, phone number, email address, or other personal identifying information in a protest, you should be aware that the documents you submit, including your personal identifying information, may be made publicly available in their entirety at any time. While you can ask us to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

(Authority: 43 U.S.C., Chapter 3)

Michael L. Hart,

Chief Cadastral Surveyor for Idaho.

BILLING CODE 4331–19–P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[Docket No. BOEM–2024–0054]

Notice of Availability of a Record of Decision for Expected Wind Energy Development in the New York Bight

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of availability; record of decision.

SUMMARY: The Bureau of Ocean Energy Management (BOEM) announces the availability of the record of decision (ROD) based on the final programmatic environmental impact statement (PEIS) that analyzed the potential impacts of wind energy development in six lease areas of the New York (NY) Bight. The ROD outlines BOEM's decision to identify certain avoidance, minimization, mitigation, and monitoring (AMMM) measures that BOEM plans to apply as conditions of approval for activities proposed by NY Bight lessees in their construction and operations plans (COPs). This ROD concludes the programmatic National Environmental Policy Act (NEPA) process for the six NY Bight lease areas. **ADDRESSES:** The ROD and associated information are available on the NY Bight website at: <https://www.boem.gov/renewable-energy/state-activities/new-york-bight>.

FOR FURTHER INFORMATION CONTACT: Jill Lewandowski, BOEM Office of Environmental Programs, 45600 Woodland Road, VAM–OEP, Sterling, Virginia 20166, (703) 787–1703 or jill.lewandowski@boem.gov.

SUPPLEMENTARY INFORMATION: The Proposed Action for the final PEIS was the identification of specific AMMM measures at the programmatic stage that could avoid, minimize, mitigate, or monitor impacts. The final PEIS analyzed the potential impacts of development in the NY Bight area and how those impacts can be avoided, minimized, or mitigated by AMMM measures. The Proposed Action does not itself require any actions by BOEM or lessees. A notice of availability for the final PEIS was published in the **Federal Register** on October 25, 2024 at 89 FR 85233.

Each lease holder is likely to submit at least one COP, as required under 30 CFR 585.600(a). The programmatic analysis in the final PEIS follows the execution of the six NY Bight leases and precedes the environmental analysis of the COPs. The PEIS serves as a first-tier document that the second-tier project-specific environmental analysis of each COP may tier from or incorporate by reference (40 CFR 1501.11–12).

This ROD identifies 58 AMMM measures that BOEM plans to apply as conditions of approval for activities proposed by the lessees in their COPs submitted for the six NY Bight lease areas. The subsequent project-specific NEPA analyses and consultations could also incorporate revised, additional, or different AMMM measures as needed.

After carefully considering public comments on the draft PEIS and the alternatives described and analyzed in the final PEIS, DOI selected Sub-alternative C1: Identification of AMMM Measures at the Programmatic Stage: Previously Applied Measures. This is the Preferred Alternative identified in the final PEIS. The AMMM measures are included in appendix B of the ROD, which is available at: <https://www.boem.gov/renewable-energy/state-activities/new-york-bight>.

Authority: National Environmental Policy Act of 1969, as amended, (42 U.S.C. 4321 *et seq.*); 40 CFR 1505.2.

Karen Baker,

*Chief, Office of Renewable Energy Programs
Bureau of Ocean Energy Management.*

Number 1029–0043]

Submission to the Office of Management and Budget for Review and Approval; Bond and Insurance Requirements for Surface Coal Mining and Reclamation Operations Under Regulatory Programs

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Notice of Information Collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the Office of Surface Mining Reclamation and Enforcement (OSMRE),

are proposing to renew an information collection.

DATES: Interested persons are invited to submit comments on or before February 4, 2025.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to Mark Gehlhar, Office of Surface Mining Reclamation and Enforcement, 1849 C Street NW, Room 1544–MIB, Washington, DC 20240, or by email to mgehlhar@osmre.gov. Please reference OMB Control Number 1029–0043 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Mark Gehlhar by email at mgehlhar@osmre.gov, or by telephone at 202–208–2716. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) is the collection necessary to the proper functions of the agency; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the agency enhance the quality, utility, and clarity of the information to be collected; and (5) how might the agency minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before

including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The regulations at 30 CFR part 800 primarily implement § 509 of the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act), which requires that people planning to conduct surface coal mining operations first post a performance bond to guarantee fulfillment of all reclamation obligations under the approved permit. The regulations also establish bond release requirements and procedures consistent with § 519 of the Act, liability insurance requirements pursuant to § 507(f) of the Act, and procedures for bond forfeiture should the permittee default on reclamation obligations.

Title of Collection: Bond and Insurance Requirements for Surface Coal Mining and Reclamation Operations under Regulatory Programs.
OMB Control Number: 1029–0043.

Form Number: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Businesses and state governments.

Total Estimated Number of Annual Respondents: 3,375.

Total Estimated Number of Annual Responses: 8,158.

Estimated Completion Time per Response: Varies from 2 hours to 35 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 66,440.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: One time.

Total Estimated Annual Nonhour Burden Cost: \$521,735.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Mark J. Gehlhar,

*Information Collection Clearance Officer,
Office of Surface Mining Reclamation and Enforcement.*

While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: Section 408 of the Surface Mining Control and Reclamation Act of 1977 authorizes Federal, State, and Tribal governments to reclaim private lands and allows for the establishment of procedures for the recovery of the cost of reclamation activities on privately owned lands. These procedures are intended to ensure that governments have sufficient capability to file liens so that certain landowners will not receive a windfall from reclamation.

Title of Collection: Reclamation on Private Lands.

OMB Control Number: 1029–0057.

Form Number: None.

Type of Review: Extension of a currently approved collection.

Notice of Availability of the Draft Supplemental Environmental Impact Statement Federal Mining Plan Modification for Federal Coal Lease MTM 082186 at the Rosebud Mine Area F; Rosebud Mine Area F Mining Plan Modification SEIS

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Notice of availability of the draft supplemental environmental impact statement.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSMRE) has prepared a Draft Supplemental Environmental Impact Statement (Draft SEIS) for the Federal Mining Plan Modification for Federal Coal Lease MTM 082186 at the Rosebud Mine Area F (Project), located in Treasure and Rosebud Counties, Montana. The proposed action would allow for continued mining operations in the Area F permit area, resulting in an estimated disturbance of up to 4,288

acres and the extraction of approximately 71.3 million tons of coal. The Draft SEIS was prepared in response to deficiencies identified by the United States District Court for the District of Montana in the 2018 Western Energy Area F Final Environmental Impact Statement. OSMRE invites public comments on the Draft SEIS during a 45-day public comment period, with a public meeting to be held to gather additional input.

DATES: OSMRE requests comments concerning the analyses in the Draft SEIS. All comments must be received by January 21, 2025. The public meeting will be held at the City of Colstrip City Hall, City Council Chambers, Colstrip Municipal Building located at 12 Cherry Street, Colstrip, Montana from 4:30 to 7:30 p.m. MST on January 8, 2025.

ADDRESSES: You may submit comments related to the Project by any of the following methods:

Email: rosebudmineareaofseis@erresources.com.

Be sure to send emails with the subject line: ATTN: Rosebud Mine Area F Mining Plan Modification SEIS.

Mail: ATTN: Rosebud Mine Area F Mining Plan Modification SEIS, C/O: Roberta Martínez Hernández, OSMRE Regions 5, 7-11, P.O. Box 25065, Denver, CO 80225-0065.

FOR FURTHER INFORMATION CONTACT:

Roberta Martínez Hernández, Project Coordinator by telephone: 303-236-4705, email at rmartinezhernandez@osmre.gov, or at the address provided in the **ADDRESSES** section.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: OSMRE has prepared a Draft SEIS for the Rosebud Mine Area F Project for inclusion in its mining plan decision document, which will also include a recommendation from OSMRE to the Assistant Secretary for Land and Minerals Management (ASLM) of the Department of the Interior on whether to approve, disapprove, or conditionally approve the Federal mining plan modification. This recommendation is made in accordance with 30 Code of Federal Regulations (CFR) 746.13. The Project involves Federal coal leased under MTM 082186 and, therefore, requires approval from the ASLM under the Mineral Leasing Act of 1920.

OSMRE initially published an EIS for Rosebud Area F in November 2018. That EIS was challenged, and the United States District Court for the District of

Montana held in *Montana Environmental Information Center v. Haaland*, No. CV 19-130-BLG-SPW (D. Mont. 2022) that the EIS failed to analyze a reasonable range of alternatives, failed to provide high-quality accurate scientific analysis on the economic costs of greenhouse gas emissions from Area F, and did not take a hard look at cumulative impacts on surface water. The Draft SEIS updates and expands on the environmental analysis in the 2018 EIS and provides the additional impacts analysis identified as deficient by the district court.

The Rosebud Mine is operated by Westmoreland Rosebud Mining LLC under Permit C2011003F, issued by the Montana Department of Environmental Quality (DEQ), in accordance with its State mine permit. As proposed, the Project would result in 4,288 acres of surface disturbance and recovery of 71.3 million tons of coal.

Purpose and Need for the Proposed Action

OSMRE's purpose in preparing the Draft SEIS is to fully analyze the environmental impacts associated with the proposed Federal mining plan modification for Rosebud Mine Area F. This analysis specifically addresses the deficiencies identified by the United States District Court for the District of Montana so that OSMRE can make an informed recommendation to the ASLM to approve, disapprove, or conditionally approve the proposed Federal mining plan modification for Rosebud Mine Area F. Westmoreland Rosebud Mining LLC, the current operator, will not be allowed to continue mining or recover the remaining Federal coal in Area F unless OSMRE completes its National Environmental Policy Act (NEPA) analysis and the ASLM approves the Federal mining plan modification.

Proposed Project

The proposed Project would result in 4,288 acres of surface disturbance and the recovery of 71.3 million tons of coal in the Rosebud Mine Area F.

Summary of Expected Impacts

Reasonably foreseeable effects of mining Federal coal have been evaluated for the following resources in the Draft SEIS:

- Air quality (measured as concentration of criteria air pollutants regulated under the National Ambient Air Quality Standards, Hazardous Air Pollutants, and Air Quality Related Values such as visibility (haze) and atmospheric deposition)

- Climate and climate change (emissions of greenhouse gases are quantified and analyzed as they relate to climate change, measured in terms of carbon dioxide equivalent for both 20-year and 100-year global warming potentials and characterized using the social cost of greenhouse gases)
- Surface water and groundwater quality and quantity
- Socioeconomic effects, including changes to State and local taxes, royalties, fees, lease bids, bonuses, payroll benefits, and effects on environmental justice populations
- Federally listed threatened and endangered species and their critical habitats
- Geology
- Soils
- Cultural resources
- Visual resources
- Wildlife
- Public health and safety
- Vegetation
- Wetlands and riparian zones
- Paleontology
- Access and transportation
- Solid and hazardous waste
- Noise
- Land use

Anticipated Permits and Authorizations

ASLM approval, disapproval, or approval with conditions of the Federal mining plan modification is required under the Mineral Leasing Act of 1920.

Public Comment Period

This Notice of Availability initiates the comment period, which allows OSMRE to gather input on the analyses included in the Draft SEIS. In addition to this notice and OSMRE's website at <https://www.osmre.gov/laws-and-regulations/nepa/projects>, interested stakeholders, agencies, and tribes will be notified of the 45-day comment period via mailed letters, and the OSMRE Office of Communications will coordinate a press release.

All public comments must be submitted by email or by hard copy mail to the address listed under **ADDRESSES**. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made public at any time. While you may request in your comment to withhold your personal identifying information from public review, OSMRE cannot guarantee that this will occur.

The Project web page will include the description of the Project as submitted by Westmoreland Rosebud Mining LLC, a map of the proposed mining plan, and

information about how to submit public comments on issues or concerns related to the Project that are analyzed in the NEPA document.

OSMRE will review public comments and prepare formal responses to all substantive comments. OSMRE will make revisions as needed based on input from the public while preparing the Final SEIS.

Lead and Cooperating Agencies

OSMRE is the lead agency for the Draft SEIS. The Bureau of Land Management is a cooperating agency on the OSMRE Draft SEIS.

Decision Maker

The ASLM is the decision maker for the Draft SEIS.

Nature of Decision To Be Made

Informed by the NEPA analysis, OSMRE will make a recommendation to the ASLM about the Federal mining plan modification associated with development of the Rosebud Mine Area F. The ASLM will use OSMRE's recommendation to decide if the new Federal mining plan modification is approved, disapproved, or approved with conditions. OSMRE's recommendation to the ASLM is based, at a minimum, on the documentation specified at 30 CFR 746.13.

David Berry,

Regional Director, OSMRE Regions 5, 7–11.

BILLING CODE 4310–05-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337–TA–1415]

Certain Pre-Stretched Synthetic Braiding Hair and Packaging Therefor; Notice of a Commission Determination Not To Review Initial Determination Granting Complainant's Motion To Amend the Complaint and Notice of Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review an initial determination (“ID”) (Order No. 15) issued by the presiding chief administrative law judge (“CALJ”) granting complainant JBS Hair, Inc.’s (“JBS Hair”) motion for leave to amend the complaint and notice of investigation to add JMS Trading Corp. (“JMS Trading”) of Buena Park, CA as

a respondent to this investigation and to make several ministerial updates to the complaint.

FOR FURTHER INFORMATION CONTACT: Paul Lall, Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 205–2043. Copies of non-confidential documents filed in connection with this investigation may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>. For help accessing EDIS, please email EDIS3Help@usitc.gov. General information concerning the Commission may also be obtained by accessing its internet server at <https://www.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal, telephone (202) 205–1810.

SUPPLEMENTARY INFORMATION: On September 4, 2024, the Commission instituted this investigation based on a complaint filed by JBS Hair of Atlanta, GA. 89 FR 73123–24 (Sept. 9, 2024). The complaint alleges violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain pre-stretched synthetic braiding hair and packaging therefor by reason of the infringement of certain claims of U.S. Patent Nos. 10,786,026 (“the ‘026 patent”); 10,945,478 (“the ‘478 patent”); and 10,980,301 (“the ‘301 patent”). The Commission's notice of investigation (“NOI”) named the following respondents: (1) Sun Taiyang Co., Ltd. d/b/a Outre® of Moonachie, NJ; (2) Beauty Elements Corporation d/b/a Bijouz® of Miami Gardens, FL; (3) Hair Zone, Inc. d/b/a Sensationnel® of Moonachie, NJ; (4) Beauty Essence, Inc. d/b/a Supreme™ Hair US of Moonachie, NJ; (5) SLI Production Corp. d/b/a It's a Wig! of Moonachie, NJ; (6) Royal Imex, Inc. d/b/a Zury® Hollywood of Santa Fe Springs, CA; (7) GS Imports, Inc. d/b/a Golden State Imports, Inc.' of Paramount, CA; (8) Eve Hair, Inc. of Lakewood, CA; (9) Kum Kang Trading USA, Inc. d/b/a BNGHAIR of Paramount, CA (“Kum Kang”); (10) Midway International, Inc. d/b/a BOBBI BOSS of Cerritos, CA; (11) Mayde Beauty Inc. of Port Washington, NY; (12) Hair Plus Trading Co., Inc. d/b/a Femi Collection of Suwanee, GA; (13) Optimum Solution Group LLC d/b/a Oh Yes Hair of Duluth, GA; (14) Choix International, Inc. of Norcross, GA; (15) Twin Peak International, Inc. d/b/a Dejavu Hair of Atlanta, GA; (16) Loc N

Products, LLC of Atlanta, Georgia; (17) Crown Pacific Group Inc. of Doraville, GA; (18) Vivace, Inc. d/b/a Dae Do Inc. of Levittown, NY; (19) A-Hair Import Inc. of Norcross, GA; (20) Chade Fashions, Inc. of Niles, IL; (21) Mink Hair, Ltd. d/b/a Sensual® Collection of Wayne, NJ (“Mink Hair”); (22) Mane Concept Inc. of Moonachie, NJ; (23) Oradell International Corp. d/b/a MOTOWN TRESS of Manalapan, NJ (“Oradell”); (24) Beauty Plus Trading Co., Inc. d/b/a Janet Collection™ of Moonachie, NJ; (25) Model Model Hair Fashion, Inc. of Port Washington, NY; (26) New Jigu Trading Corp. d/b/a Harlem 125® of Port Washington, NY; (27) Shake N Go Fashion, Inc. of Port Washington, NY; (28) Amekor Industries, Inc. d/b/a Vivica A. Fox® Hair Collection of Conshohocken, PA; (29) I & I Hair Corp. of Dallas, TX (“I & I Hair”); (30) Zugoo Import Inc. of Norcross, GA. *Id.* The Office of Unfair Import Investigations (“OUII”) was also named as a party in this investigation. *Id.* at 73124.

On October 8, 2024, JBS Hair moved for leave to amend the complaint and notice of investigation to add JMS Trading as a respondent to this investigation and to make several ministerial updates to the complaint. *Id.* at 1. JBS Hair’s motion attached a “proposed amendment adding Respondent JMS Trading” and a redline showing the changes to the current complaint. On October 18, 2024, OUII filed a response in support of the motion. *Id.* On the same day, a number of respondents filed a response stating that they “do not oppose the addition of JMS Trading provided that . . . the target date and procedural schedule are extended by an amount of time equal to the time that elapses between the institution of this Investigation and the ultimate addition of JMS Trading.” *Id.* at 2.

On November 4, 2024, the presiding CALJ issued the subject ID (Order No. 15), pursuant to Commission Rule 210.14(b) (19 CFR 210.14(b)), granting Complainants’ motion to amend the complaint and NOI as requested. The ID finds that the amendments “will not prejudice respondents, the proposed respondent, Staff, or the public interest,” and that “JBS Hair has shown good cause to amend the complaint and notice of investigation to add allegations that JMS Trading has violated section 337.” *Id.* at 4. The ID also finds that “there is good cause to make the ministerial updates to the complaint that JBS Hair proposes.” *Id.* The CALJ denied the respondents’ request to extend the target date and procedural schedule.

No party filed a petition for review of the subject ID.

The Commission has determined not to review the subject ID (Order No. 15).

The Commission vote for this determination took place on December 2, 2024.

The authority for the Commission’s determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in part 210 of the Commission’s Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: December 2, 2024.

Lisa Barton,

Secretary to the Commission.

BILLING CODE 7020–02–P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731–TA–1658 (Final)]

Truck and Bus Tires From Thailand

Determination

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is materially injured by reason of imports of truck and bus tires from Thailand, provided for in subheadings 4011.20.10 and 4011.20.50 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce (“Commerce”) to be sold in the United States at less than fair value (“LTFV”).^{2,3}

Background

The Commission instituted this investigation effective October 17, 2023, following receipt of a petition filed with the Commission and Commerce by the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL–CIO, CLC, Pittsburgh, Pennsylvania. The Commission scheduled the final phase of the investigation following notification of a preliminary determination by Commerce that imports of truck and bus tires from

¹ The record is defined in § 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).

² 89 FR 83636 (October 17, 2024).

³ The Commission also finds that imports subject to Commerce’s affirmative critical circumstances determination are not likely to undermine seriously the remedial effect of the antidumping duty order on Thailand.

Thailand were being sold at LTFV within the meaning of § 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the final phase of the Commission’s investigation and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of June 12, 2024 (89 FR 49903). The Commission conducted its hearing on October 15, 2024. All persons who requested the opportunity were permitted to participate.

The Commission made this determination pursuant to § 735(b) of the Act (19 U.S.C. 1673d(b)). It completed and filed its determination in this investigation on December 2, 2024. The views of the Commission are contained in USITC Publication 5562 (December 2024), entitled *Truck and Bus Tires from Thailand: Investigation No. 731–TA–1658 (Final)*.

By order of the Commission.

Issued: December 2, 2024.

Lisa Barton,

Secretary to the Commission.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. DEA–1466]

Bulk Manufacturer of Controlled Substances Application: Kinetochem LLC

AGENCY: Drug Enforcement Administration, Justice.

ACTION: Notice of application.

SUMMARY: Kinetochem LLC has applied to be registered as a bulk manufacturer of basic class(es) of controlled substance(s). Refer to **SUPPLEMENTARY INFORMATION** listed below for further drug information.

DATES: Registered bulk manufacturers of the affected basic class(es), and applicants, therefore, may submit electronic comments on or objections to the issuance of the proposed registration on or before February 4, 2025. Such persons may also file a written request for a hearing on the application on or before February 4, 2025.

ADDRESSES: The Drug Enforcement Administration requires that all comments be submitted electronically through the Federal eRulemaking Portal, which provides the ability to type short comments directly into the comment

field on the web page or attach a file for lengthier comments. Please go to <https://www.regulations.gov> and follow the online instructions at that site for submitting comments. Upon submission of your comment, you will receive a Comment Tracking Number. Please be aware that submitted comments are not instantaneously available for public view on <https://www.regulations.gov>. If you have received a Comment Tracking Number, your comment has been successfully submitted and there is no need to resubmit the same comment.

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 1301.33(a), this is notice that on November 5, 2024, Kinetochem LLC, 96 Market Street, Suite 102, Georgetown, Texas 78626–3618, applied to be registered as a bulk manufacturer of the following basic class(es) of controlled substance(s):

Controlled substance	Drug code	Schedule
Marihuana	7360	I
Tetrahydrocannabinols.	7370	I
Psilocybin	7437	I
Psilocyn	7438	I

The company plans to bulk manufacture the listed controlled substances as Active Pharmaceutical Ingredients to its customers as well as for research and clinical trials. In reference to drug codes 7360 (Marihuana), and 7370 (Tetrahydrocannabinols) the company plans to bulk manufacture these drug codes as synthetic. No other activities for these drug codes are authorized for this registration.

BILLING CODE P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

On December 2, 2024, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Western District of Missouri in the lawsuit entitled *United States of America v. BCP Ingredients, Inc.* Civ. No. 3:24–cv–5094 (W.D. Mo.).

The Complaint seeks injunctive relief and civil penalties for alleged violations of section 112(r) of the Federal Clean Air Act (“CAA”), 42 U.S.C. 7412(r)(7), and its implementing regulations set forth at 40 CFR part 68, resulting from a release of ethylene oxide (“EtO”) at a chemical manufacturing and repackaging facility owned and operated by BCP Ingredients, Inc. (“BCP”) in Verona, Missouri. Under the proposed Consent Decree resolving these alleged violations, BCP will pay a civil penalty of \$300,000 to the United States, install an additional state-of-the-art EtO scrubber to reduce EtO emissions at its facility, and share a copy of its final audit completion report from a 2022 third party audit. BCP also will be required to perform three Supplemental Environmental Projects totaling \$350,000: (1) donation of two vehicles to a local healthcare provider to provide mobile health services to communities near BCP's facility; (2) provision of at least 1,000 medical visits to be administered by the same local healthcare provider using the vehicles BCP will donate for the first SEP; and (3) donation of emergency response equipment to a fire department near BCP's facility.

The publication of this notice opens a period for public comment on the proposed Consent Decree. Comments

should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States of America v. BCP Ingredients, Inc.* Civ. No. 3:24-cv-5094 (W.D. Mo.), D.J. Ref. No. 90-5-2-1-12805. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

To submit comments:	Send them to:
By email	pubcomment-ees.enrd@usdoj.gov .
By mail	Assistant Attorney General, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

During the public comment period, the consent decree may be examined and downloaded at this Justice Department website: <https://www.justice.gov/enrd/consent-decrees>. If you require assistance accessing the consent decree, you may request assistance by email or mail to the addresses provided above for submitting comments.

Kathryn C. Macdonald,
Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-15-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act and Formerly Utilized Sites Remedial Action Program

On December 2, 2024, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Eastern District of Missouri in the lawsuit entitled *United States v. Cotter Corporation (N.S.L.) and Norfolk Southern Railway Company*, Civil Action No. 24-cv-1593. The United States filed this lawsuit under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and the Formerly Utilized Sites Remedial Action Program (FUSRAP) for response costs incurred, and to be incurred, by the United States Army Corps of Engineers (the Corps) and Department of Defense for their removing contamination from uranium ore or residue processing materials at certain portions of the North St. Louis

County Superfund Site in Missouri. Under the proposed Consent Decree, Cotter Corporation, Norfolk Southern Railway Company, and the United States will pay a combined total of nearly \$164,000,000 in past and future response costs for costs associated with the above activities. In return, the proposed Consent Decree provides Cotter, Norfolk Southern, and the United States with a covenant not to sue or take administrative action under section 107(a) of CERCLA for any costs associated with the above activities at the North St. Louis County Site, as well as contribution protection under section 113(f)(2) of CERCLA. The publication of this notice opens a period for public comment on the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Cotter Corporation (N.S.L.) and Norfolk Southern Railway Company*, D.J. Ref. No. 90-11-2-08259/3. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

To submit comments:	Send them to:
By e-mail	pubcomment-ees.enrd@usdoj.gov .
By mail	Assistant Attorney General, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

During the public comment period, the proposed Consent Decree may be examined and downloaded at this Justice Department website: <https://www.justice.gov/enrd/consent-decrees>. If you require assistance accessing the proposed Consent Decree, you may request assistance by email or by mail to the addresses provided above for submitting comments.

Kathryn C. Macdonald,
Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-15-P

DEPARTMENT OF JUSTICE

Bureau of Prisons

Annual Determination of Average Cost of Incarceration Fee (COIF)
AGENCY: Bureau of Prisons, Justice.
ACTION: Notice.

SUMMARY: Pursuant to regulations, the Bureau of Prisons publishes the Fiscal Year (FY) 2023 Cost of Incarceration Fee (COIF) for Federal inmates.
DATES: December 6, 2024.
ADDRESSES: Office of General Counsel, Federal Bureau of Prisons, 320 First Street NW, Washington, DC 20534.
FOR FURTHER INFORMATION CONTACT: Daniel J. Crooks III, Assistant General Counsel/Rules Administrator, Federal Bureau of Prisons, at the address above or at (202) 353-4885.
SUPPLEMENTARY INFORMATION: Title 28 of the Code of Federal Regulations, part 505, allows for assessment of a fee to cover the average cost of incarceration for Federal inmates. We calculate the cost of incarceration fee (COIF) by dividing the number representing the Bureau of Prisons (Bureau) facilities' monetary obligation (excluding activation costs) by the number of inmate-days incurred for the fiscal year, and then by multiplying the quotient by the number of days in the fiscal year. Based on FY 2023 data, the average annual COIF for a Federal inmate housed in a Bureau or non-Bureau facility in FY 2023 was \$44,090 (\$120.80 per day). The average annual COIF for a Federal inmate housed in a Residential Reentry Center for FY 2023 was \$41,437 (\$113.53 per day). (Please note: There were 365 days in FY 2023.)
James Wills,
Assistant Director/General Counsel, Federal Bureau of Prisons.

DEPARTMENT OF LABOR

Mine Safety and Health Administration
Petition for Modification of Application of Existing Mandatory Safety Standards

AGENCY: Mine Safety and Health Administration, Labor.
ACTION: Notice.
SUMMARY: This notice is a summary of a petition for modification submitted to the Mine Safety and Health Administration (MSHA) by Peabody Midwest Mining, LLC.
DATES: All comments on the petition must be received by MSHA's Office of Standards, Regulations, and Variances on or before January 6, 2025.
ADDRESSES: You may submit comments identified by Docket No. MSHA-2024-0089 by any of the following methods:
1. *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the

instructions for submitting comments for MSHA–2024–0089.

2. Fax: 202–693–9441.

3. Email: petitioncomments@dol.gov.

4. Regular Mail or Hand Delivery:

MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, 4th Floor West, Arlington, Virginia 22202–5452.

Attention: S. Aromie Noe, Director, Office of Standards, Regulations, and Variances. Persons delivering documents are required to check in at the receptionist's desk, 4th Floor West. Individuals may inspect copies of the petition and comments during normal business hours at the address listed above. Before visiting MSHA in person, call 202–693–9455 to make an appointment.

FOR FURTHER INFORMATION CONTACT: S. Aromie Noe, Office of Standards, Regulations, and Variances at 202–693–9440 (voice), Petitionsformodification@dol.gov (email), or 202–693–9441 (fax). [These are not toll-free numbers.]

SUPPLEMENTARY INFORMATION: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and Title 30 of the Code of Federal Regulations (CFR) part 44 govern the application, processing, and disposition of petitions for modification.

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. The application of such standard to such mine will result in a diminution of safety to the miners in such mine.

In addition, sections 44.10 and 44.11 of 30 CFR establish the requirements for filing petitions for modification.

II. Petition for Modification

Docket Number: M–2024–063–C.

Petitioner: Peabody Midwest Mining LLC, CR 725 East, Francisco, Indiana 47699. 62237.

Mine: Francisco Underground Pit, MSHA ID No. 12–02295, located in Gibson County, Indiana.

Regulation Affected: 30 CFR 75.500(d), Permissible electric equipment.

Modification Request: The petitioner requests a modification of 30 CFR

75.500(d) to permit an alternative method of compliance to permit the use of battery-powered non-permissible radios used in or inby the last open crosscut.

The petitioner states that:

(a) Peabody previously filed a petition for modification of 30 CFR 75.500(d) on July 12, 2023 (Docket Number M–2023–024–C), but the Proposed Decision and Order (PDO) was denied by MSHA on June 4, 2024.

(b) Peabody currently uses Motorola and Kenwood permissible radios in its underground mine to communicate between miners. Such communication facilitates movement of equipment, assignment of necessary work as well as communication with the surface control room.

(c) The mines also use wired communication systems and the communication and tracking systems required in the mine's Emergency Response Plan. Such communication facilitates efficiency and safety. It occurs along the face areas and in other areas covered by this standard. It facilitates communication in case of emergencies such as injuries both on the section and to the surface.

(d) Motorola and Kenwood have discontinued the manufacture and sale of MSHA-approved permissible radios. Such radios were the only permissible radios available for the underground coal mine industry. The notices (see Exhibits 1 and 2) indicated that for a period of time the radios were sold out of stock but that ceased as indicated in the notes. Peabody is not aware of any other radio which is economically feasible.

(e) Peabody seeks modification of 30 CFR 75.500(d) as it applies to use of low voltage battery-powered non-permissible radios. It intends to use the following equipment:

(1) Motorola R–7 Portable Two-Way Radio (see Exhibits 3 and 4). Other intrinsically safe portable radios may subsequently be used if approved in advance by the MSHA District Manager.

(f) Peabody mines utilize the continuous miner method of mining. Some sections utilize two continuous miners and use of the radios permits coordination of the coal haulers and between the two continuous miners.

(g) Effective communication is critical to the safety of the miners at the mine. It reduces the potential for collisions and pedestrian accidents and facilitates communication in an emergency.

(h) The alternative method proposed in the petition will at all times guarantee no less than the same measure of protection afforded by the standard.

The petitioner proposes the following alternative method:

(a) Non-permissible intrinsically safe radios to be used include the Motorola R–7 Portable Two-Way Radio (HAZ LOC certified by UL standards ANSI/TIA 4950).

(b) All such radios shall be rated IP 66 or higher.

(c) All non-permissible radios shall be examined by a qualified person as defined in 30 CFR 75.153 prior to use to ensure the equipment is being maintained in a safe operating condition. These examinations results shall be recorded in the weekly examination book and shall be made available to MSHA and the miners at the mine.

(d) A qualified person as defined in 30 CFR 75.151 shall continuously monitor for methane immediately before and during the use of non-permissible radios.

(e) Non-permissible radios shall not be used if methane is detected in concentrations at or above one percent. When one percent or more methane is detected while the non-permissible radios are being used, the radios shall be de-energized immediately by turning them off and withdrawn from the area.

(f) All hand-held methane detectors shall be MSHA approved and maintained in permissible and proper operating condition as defined in 30 CFR 75.320. Each miner using a radio shall be trained in the use of handheld methane detectors.

(g) All radios shall be used in accordance with the safe use procedures recommended by the manufacturer.

(h) Personnel who use non-permissible radios shall be properly trained to recognize the hazards and limitations associated with use of the equipment.

(i) The radio battery is designed to last more than the length of a shift. The radio shall not be charged underground and shall be charged on the surface in accordance with the procedure for other battery-operated devices such as methane detectors.

(j) The operator shall post the PDO granted by MSHA in unobstructed locations on the bulletin boards and/or in other conspicuous places where notices to miners are ordinarily posted, at all the mines for which the PDO granted by MSHA applies, for a period of not less than 60 consecutive days and a copy shall be made available to all miners' representatives.

(k) The proposed radios shall be available for inspection and testing during MSHA's investigation. As other radios are acquired, if the petition is granted, such radios shall be made

available for MSHA inspection. The radios shall be made available for MSHA testing during the investigation.

(l) The Motorola radio is rated IP 66 and IP 68. It is powered by a lithium cell.

(m) The miners at Francisco Underground Pit are not currently represented by a labor organization and this petition is posted at the mine.

In support of the proposed alternative method, the petitioner has also submitted manufacturer product specification sheets for MSHA-approved permissible radios indicating they are no longer available and manufacturer product specification sheets for the proposed Motorola R-7 Portable Two-Way Radio.

The petitioner asserts that the alternative method in the petition will at all times guarantee no less than the same measure of protection afforded to the miners by the standard.

Song-ae Aromie Noe,

Director, Office of Standards, Regulations, and Variances.

SUPPLEMENTARY INFORMATION: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and Title 30 of the Code of Federal Regulations (CFR) part 44 govern the application, processing, and disposition of petitions for modification.

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. The application of such standard to such mine will result in a diminution of safety to the miners in such mine.

In addition, sections 44.10 and 44.11 of 30 CFR establish the requirements for filing petitions for modification.

II. Petition for Modification

Docket Number: M-2024-065-C.

Petitioner: Peabody Midwest Mining LLC, CR 725 East, Francisco, Indiana 47699. 62237.

Mine: Francisco Underground Pit, MSHA ID No. 12-02295, located in Gibson County, Indiana.

Regulation Affected: 30 CFR 75.1002(a), Permissible electric equipment.

Modification Request: The petitioner requests a modification of 30 CFR 75.1002(a) to permit an alternative method of compliance to permit the use of battery-powered non-permissible radios within 150 feet of pillar workings or longwall faces.

The petitioner states that:

(a) Peabody previously filed a petition for modification of 30 CFR 75.1002(a) on July 12, 2023 (Docket Number M-2023-022-C), but the Proposed Decision and Order (PDO) was denied by MSHA on June 4, 2024.

(b) Peabody currently uses Motorola and Kenwood permissible radios in its underground mine to communicate between miners. Such communication facilitates movement of equipment, assignment of necessary work as well as communication with the surface control room.

(c) The mines also use wired communication systems and the communication and tracking systems required in the mine's Emergency Response Plan. Such communication facilitates efficiency and safety. It occurs along the face areas and in other areas covered by this standard. It facilitates communication in case of emergencies such as injuries both on the section and to the surface.

(d) Motorola and Kenwood have discontinued the manufacture and sale of MSHA-approved permissible radios. Such radios were the only permissible radios available for the underground coal mine industry. The notices (see Exhibits 1 and 2) indicated that for a period of time the radios were sold out of stock but that ceased as indicated in the notes. Peabody is not aware of any other radio which is economically feasible.

(e) Peabody seeks modification of 30 CFR 75.1002(a) as it applies to use of low voltage battery-powered non-permissible radios. It intends to use the following equipment:

(1) Motorola R-7 Portable Two-Way Radio (see Exhibits 3 and 4). Other intrinsically safe portable radios may subsequently be used if approved in advance by the MSHA District Manager.

(f) Peabody mines utilize the continuous miner method of mining. Some sections utilize two continuous miners and use of the radios permits coordination of the coal haulers and between the two continuous miners.

(g) Effective communication is critical to the safety of the miners at the mine. It reduces the potential for collisions and pedestrian accidents and facilitates communication in an emergency.

(h) The alternative method proposed in the petition will at all times guarantee no less than the same measure of protection afforded by the standard.

The petitioner proposes the following alternative method:

(a) Non-permissible intrinsically safe radios to be used include the Motorola R-7 Portable Two-Way Radio (HAZ LOC certified by UL standards ANSI/TIA 4950).

(b) All such radios shall be rated IP 66 or higher.

(c) All non-permissible radios shall be examined by a qualified person as defined in 30 CFR 75.153 prior to use to ensure the equipment is being

maintained in a safe operating condition. These examinations results shall be recorded in the weekly examination book and shall be made available to MSHA and the miners at the mine.

(d) A qualified person as defined in 30 CFR 75.151 shall continuously monitor for methane immediately before and during the use of non-permissible radios.

(e) Non-permissible radios shall not be used if methane is detected in concentrations at or above one percent. When one percent or more methane is detected while the non-permissible radios are being used, the radios shall be de-energized immediately by turning them off and withdrawn from the area.

(f) All hand-held methane detectors shall be MSHA approved and maintained in permissible and proper operating condition as defined in 30 CFR 75.320. Each miner using a radio shall be trained in the use of handheld methane detectors.

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. The application of such standard to such mine will result in a diminution of safety to the miners in such mine.

In addition, sections 44.10 and 44.11 of 30 CFR establish the requirements for filing petitions for modification.

II. Petition for Modification

Docket Number: M-2024-064-C.

Petitioner: Peabody Midwest Mining LLC, CR 725 East, Francisco, Indiana 47699. 62237.

Mine: Francisco Underground Pit, MSHA ID No. 12-02295, located in Gibson County, Indiana.

Regulation Affected: 30 CFR 75.507-1(a), Permissible electric equipment.

Modification Request: The petitioner requests a modification of 30 CFR 75.507-1(a) to permit an alternative method of compliance to permit the use of battery-powered non-permissible radios used in the return airways.

The petitioner states that:

(a) Peabody previously filed a petition for modification of 30 CFR 75.507-1(a) on July 12, 2023 (Docket Number M-2023-023-C), but the Proposed Decision and Order (PDO) was denied by MSHA on June 4, 2024.

(b) Peabody currently uses Motorola and Kenwood permissible radios in its underground mine to communicate between miners. Such communication facilitates movement of equipment, assignment of necessary work as well as communication with the surface control room.

(c) The mines also use wired communication systems and the communication and tracking systems required in the mine's Emergency Response Plan. Such communication facilitates efficiency and safety. It occurs

along the face areas and in other areas covered by this standard. It facilitates communication in case of emergencies such as injuries both on the section and to the surface.

(d) Motorola and Kenwood have discontinued the manufacture and sale of MSHA-approved permissible radios. Such radios were the only permissible radios available for the underground coal mine industry. The notices (see Exhibits 1 and 2) indicated that for a period of time the radios were sold out of stock but that ceased as indicated in the notes. Peabody is not aware of any other radio which is economically feasible.

(e) Peabody seeks modification of 30 CFR 75.507–1(a) as it applies to use of low voltage battery-powered non-permissible radios. It intends to use the following equipment:

(1) Motorola R–7 Portable Two-Way Radio (see Exhibits 3 and 4). Other intrinsically safe portable radios may subsequently be used if approved in advance by the MSHA District Manager.

(f) Peabody mines utilize the continuous miner method of mining. Some sections utilize two continuous miners and use of the radios permits coordination of the coal haulers and between the two continuous miners.

(g) Effective communication is critical to the safety of the miners at the mine. It reduces the potential for collisions and pedestrian accidents and facilitates communication in an emergency.

(h) The alternative method proposed in the petition will at all times guarantee no less than the same measure of protection afforded by the standard.

The petitioner proposes the following alternative method:

(a) Non-permissible intrinsically safe radios to be used include the Motorola R–7 Portable Two-Way Radio (HAZ LOC certified by UL standards ANSI/TIA 4950).

(b) All such radios shall be rated IP 66 or higher.

(c) All non-permissible radios shall be examined by a qualified person as defined in 30 CFR 75.153 prior to use to ensure the equipment is being maintained in a safe operating condition. These examinations results shall be recorded in the weekly examination book and shall be made available to MSHA and the miners at the mine.

(d) A qualified person as defined in 30 CFR 75.151 shall continuously monitor for methane immediately before and during the use of non-permissible radios.

(e) Non-permissible radios shall not be used if methane is detected in concentrations at or above one percent.

When one percent or more methane is detected while the non-permissible radios are being used, the radios shall be de-energized immediately by turning them off and withdrawn from the area.

(f) All hand-held methane detectors shall be MSHA approved and maintained in permissible and proper operating condition as defined in 30 CFR 75.320. Each miner using a radio shall be trained in the use of handheld methane detectors.

(g) All radios shall be used in accordance with the safe use procedures recommended by the manufacturer.

(h) Personnel who use non-permissible radios shall be properly trained to recognize the hazards and limitations associated with use of the equipment.

(i) The radio battery is designed to last more than the length of a shift. The radio shall not be charged underground and shall be charged on the surface in accordance with the procedure for other battery-operated devices such as methane detectors.

(j) The operator shall post the PDO granted by MSHA in unobstructed locations on the bulletin boards and/or in other conspicuous places where notices to miners are ordinarily posted, at all the mines for which the PDO granted by MSHA applies, for a period of not less than 60 consecutive days and a copy shall be made available to all miners' representatives.

(k) The proposed radios shall be available for inspection and testing during MSHA's investigation. As other radios are acquired, if the petition is granted, such radios shall be made available for MSHA inspection. The radios shall be made available for MSHA testing during the investigation.

(l) The Motorola radio is rated IP 66 and IP 68. It is powered by a lithium cell.

(m) The miners at Francisco Underground Pit are not currently represented by a labor organization and this petition is posted at the mine.

In support of the proposed alternative method, the petitioner has also submitted manufacturer product specification sheets for MSHA-approved permissible radios indicating they are no longer available and manufacturer product specification sheets for the proposed Motorola R–7 Portable Two-Way Radio.

The petitioner asserts that the alternative method in the petition will at all times guarantee no less than the

same measure of protection afforded to the miners by the standard.

NATIONAL SCIENCE FOUNDATION

Sunshine Act Meetings

The National Science Board hereby gives notice of the scheduling of a teleconference of the National Science Board/National Science Foundation Commission on Merit Review (MRX) for the transaction of National Science Board business pursuant to the NSF Act and the Government in the Sunshine Act.

TIME AND DATE: The MRX meeting is scheduled for Wednesday, December 11, 2024, from 4:00 p.m.–4:30 p.m. Eastern.

PLACE: This meeting will be via videoconference through the National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314.

STATUS: Closed.

MATTERS TO BE CONSIDERED: The agenda is: Commission Chair's remarks about the agenda; Discussion of final guidance; Vote for approval of final guidance; and Commission Chair's closing remarks.

CONTACT PERSON FOR MORE INFORMATION:

Point of contact for this meeting is: Chris Blair, cblair@nsf.gov, 703/292–7000. Meeting information and updates may be found at www.nsf.gov/nsb.

Ann E. Bushmiller,
Senior Counsel to the National Science Board.

NEIGHBORHOOD REINVESTMENT CORPORATION

Sunshine Act Meetings

TIME AND DATE: 2:00 p.m., Thursday, December 19, 2024.

PLACE: via ZOOM.

STATUS: Parts of this meeting will be open to the public. The rest of the meeting will be closed to the public.

MATTERS TO BE CONSIDERED: Regular Board of Directors meeting.

The General Counsel of the Corporation has certified that in her opinion, one or more of the exemptions set forth in the Government in the Sunshine Act, 5 U.S.C. 552b(c)(2) permit closure of the following portion(s) of this meeting:

- Executive (Closed) Session

Agenda

- I. Call to Order
- II. Sunshine Act Approval of Executive (Closed) Session
- III. Executive Session: CEO Report
- IV. Executive Session: CFO Report
- V. Executive Session: General Counsel Report
- VI. Executive Session: CIO Report
- VII. Executive Session: Community Advisory Council/External Committees
- VIII. Executive Session: Officer Performance Metrics
- IX. Action Item: Approval of Meeting Minutes for August 13 Audit Committee Meeting, August 15 Regular Board Meeting, September 30 Special Board Meeting, October 16 Special Board Meeting, October 17 Regular Board Meeting, and November 7 Audit Committee Meeting
- X. Action Item: Approval of 2024 Delegation of Authority Revision
- XI. Action Item: Approval of Revision to the Corporate Bylaw—Tenure Protection of Chief Audit Executive Position
- XII. Action Item: Approval of FY2025–2027 Strategic Plan
- XIII. Discussion Item: November 7 Audit Committee Meeting Report
- XIV. Discussion Item: FY2025 Corporate Scorecard
- XV. Discussion Item: Management Program Background and Updates
 - a. 2025 Board Calendar
 - b. 2025 Board Agenda Planner
 - c. CFO Report
 - i. Financials (through 9/30/24)
 - ii. Single Invoice Approvals \$100K and Over
 - iii. Vendor Payments \$350K and Over
 - iv. Exceptions
 - d. Programs Dashboard
 - e. Housing Stability Counseling Program (HSCP)

PORTIONS OPEN TO THE PUBLIC:
Everything except the Executive (Closed) Session.

PORTIONS CLOSED TO THE PUBLIC:

AGENCY: Nuclear Regulatory Commission.

ACTION: Public meetings and request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment draft Supplement 15, Second Renewal, to the Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants, NUREG–1437, regarding the subsequent renewal of Renewed Facility Operating License No. NPF–12 for an additional 20 years for Virgil C. Summer Nuclear Station, Unit 1 (V.C. Summer). The V.C. Summer site is located in Fairfield County, South Carolina. Possible alternatives to the proposed action of subsequent license renewal for V.C. Summer include the no-action alternative and reasonable replacement power alternatives.

DATES: The NRC will hold a virtual public meeting on December 17, 2024, at 1 p.m. eastern time (ET), and an in-person public meeting on January 9, 2025, at 6 p.m. ET. The public meeting details can be found on the NRC's Public Meeting Schedule at <https://www.nrc.gov/pmns/mtg>. Members of the public are invited to submit comments by January 21, 2025. Comments received after that date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before that date.

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic comment submission through the Federal rulemaking website:

- *Federal rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2023–0152. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301–415–0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION**

CONTACT section of this document.

- *Email:* Comments may be submitted to the NRC electronically using the email address: SummerEnvironmental@nrc.gov.

- *Mail comments to:* Office of Administration, Mail Stop: TWFN–7–A60M, U.S. Nuclear Regulatory

Commission, Washington, DC 20555–0001, ATTN: Program Management, Announcements and Editing Staff.

For additional direction on obtaining information and submitting comments, see “Obtaining Information and Submitting Comments” in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Kim Conway, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–1335; email: Kimberly.Conway@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2023–0152 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2023–0152.
- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to PDR.Resource@nrc.gov. Draft Supplement 15, Second Renewal, to the GEIS for License Renewal of Nuclear Plants, NUREG–1437, is available in ADAMS under Accession No. ML24330A271.

- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov, or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. ET, Monday through Friday, excluding Federal holidays.

- *Public Library:* A copy of draft Supplement 15, Second Renewal, to the GEIS for License Renewal of Nuclear Plants, NUREG–1437, regarding the proposed subsequent renewal of Renewed Facility Operating License No. NPF–12 for an additional 20 years for V.C. Summer will be available for public review at the Fairfield County

Library, 300 West Washington St.,
Winnsboro, SC 29180.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2023-0152 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

The NRC is issuing for public comment draft Supplement 15, Second Renewal, to the GEIS for License Renewal of Nuclear Plants, NUREG-1437, regarding the subsequent renewal of Renewed Facility Operating License No. NPF-12 for an additional 20 years for V.C. Summer. Draft Supplement 15, Second Renewal, to the GEIS includes the NRC staff's evaluation of the environmental impacts of the proposed action and alternatives to the proposed action.

The NRC staff's preliminary recommendation is that the adverse environmental impacts of subsequent license renewal for V.C. Summer are not so great that preserving the option of subsequent license renewal for energy-planning decision-makers would be unreasonable.

Dated: December 2, 2024.

For the Nuclear Regulatory Commission.

Theodore Smith,

Acting Deputy Director, Division of Rulemaking, Environmental, and Financial Support, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2024-0094]

Information Collection: Physical Protection of Plants and Materials

AGENCY: Nuclear Regulatory Commission.

ACTION: Renewal of existing information collection; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) invites public comment on the renewal of Office of Management and Budget (OMB) approval for an existing collection of information. The information collection is entitled, "Physical Protection of Plants and Materials."

DATES: Submit comments by February 4, 2025. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic comment submission through the Federal rulemaking website:

- *Federal rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2024-0094. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301-415-0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the "For Further Information Contact" section of this document.

- *Mail comments to:* David Cullison, Office of the Chief Information Officer, Mail Stop: T-6 A10M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

For additional direction on obtaining information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: Infocollects.Resource@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2024-0094 when contacting the NRC about the availability of information for this

action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2024-0094.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. The supporting statement and burden spreadsheet are available in ADAMS under Accession Nos. (ML24206A179 and ML24206A181).

- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

- *NRC's Clearance Officer:* A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC's Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: Infocollects.Resource@nrc.gov.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2024-0094, in your comment submission.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment

submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized as follows.

1. *The title of the information collection:* Physical Protection of Plants and Materials.
2. *OMB approval number:* 3150–0002.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* Once for the initial submittal of Cyber Security Plans, Physical Security Plans, Safeguards Contingency Plans, and Security Training and Qualification Plans and then on occasion when changes are made. Required reports are submitted and evaluated as events occur.

6. *Who will be required or asked to respond:* Nuclear power reactor licensees licensed under parts 50 or 52 of title 10 of the *Code of Federal Regulations* (10 CFR), who possess, use, import, export, transport, or deliver to a carrier for transport, special nuclear material; actively decommissioning reactor licensees; Category I, Category II and Category III fuel facilities; nonpower reactors (research and test reactors); and other entities who mark and handle Safeguards Information.

7. *The estimated number of annual responses:* 135,164.

8. *The estimated number of annual respondents:* 205.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 478,028 (25,885 reporting + 428,564 recordkeeping + 23,579 third-party disclosure).

10. *Abstract:* The NRC regulations in 10 CFR part 73 prescribe requirements to establish and maintain a physical protection system and security organization with capabilities for protection of: (1) Special Nuclear Material (SNM) at fixed sites, (2) SNM in transit, and (3) plants in which SNM is used. 10 CFR part 73 contains reporting and recordkeeping requirements which are necessary to help ensure that an adequate level of protection is provided for nuclear facilities and nuclear material, such as: development and maintenance of security documents including a physical

security plan, a training and qualification plan, a safeguards contingency plan, a cyber security plan, and security implementing procedures; notifications to the NRC regarding safeguards and cyber security events; notifications to State governors and Tribes regarding shipments of irradiated reactor fuel; and requirements for conducting criminal history records checks of individuals granted unescorted access to a nuclear power facility, a non-power reactor, or access to Safeguards Information. The objective is to ensure that activities involving SNM are consistent with interests of common defense and security and that these activities do not constitute an unreasonable risk to public health and safety. The information in the reports and records submitted by licensees is used by the NRC staff to ensure that the health and safety of the public and the environment are protected, and licensee possession and use of SNM is in compliance with license and regulatory requirements.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility? Please explain your answer.
2. Is the estimate of the burden of the information collection accurate? Please explain your answer.
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: December 3, 2024.

For the Nuclear Regulatory Commission.

David Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

[FR Doc. 2024–28733 Filed 12–5–24; 8:45 am]

BILLING CODE 7590–01–P

PEACE CORPS

Information Collection Request; Submission for OMB Review

AGENCY: Peace Corps.

ACTION: 30-Day notice and request for comments.

SUMMARY: The Peace Corps will be submitting the following information collection request to the Office of Management and Budget (OMB) for

review and approval. The purpose of this notice is to allow 30 days for public comment in the **Federal Register** preceding submission to OMB. We are conducting this process in accordance with the Paperwork Reduction Act of 1995.

DATES: Submit comments on or before January 6, 2025.

ADDRESSES: Comments should be addressed to James Olin, FOIA/Privacy Act Officer. James Olin can be contacted by email at pcf@peacecorps.gov or by telephone at (202) 692–2507. Email comments must be made in text and not in attachments.

FOR FURTHER INFORMATION CONTACT:

James Olin, Peace Corps, at pcf@peacecorps.gov or by telephone at (202) 692–2507.

SUPPLEMENTARY INFORMATION:

Title: Supplemental Intelligence Background Questions.

OMB Control Number: 0420–pending.

Type of Request: New information collection.

Affected Public: Individuals or households.

Respondents Obligation to Reply:

Required to obtain or retain benefits.

Burden to the Public:

- a. *Number of respondents:* 100.
- b. *Frequency of response:* One time.
- c. *Completion time:* 10 minutes.
- d. *Annual burden hours:* 16.67 hours.

General Description of Collection: The Peace Corps uses the Intelligence Background Questionnaire to determine what kind of intelligence connection an applicant or an applicant's relative might have and how close an applicant and a relative with an intelligence connection are. This form is a supplement to the Intelligence Background Questionnaire (OMB Control Number 0420–0551) which requires additional information to determine whether the intelligence connection is substantial enough to prevent the person from being employed at the Peace Corps or being a Volunteer for the Peace Corps permanently or for a set period of time from the last intelligence connection. If an applicant disagrees with the Peace Corps' determination, he or she may appeal the determination to the Director of the Peace Corps.

Request for Comment: Peace Corps invites comments on whether the proposed collection of information is necessary for proper performance of the functions of the Peace Corps, including whether the information will have practical use; the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the information

to be collected; and, ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

This notice is issued in Washington, DC, on December 3, 2024.

James Olin,

FOIA/Privacy Act Officer.

New Postal Products

AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: The Commission is noticing a recent Postal Service filing for the Commission's consideration concerning a negotiated service agreement. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

DATES: *Comments are due:* December 9, 2024.

ADDRESSES: Submit comments electronically via the Commission's Filing Online system at <http://www.prc.gov>. Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

FOR FURTHER INFORMATION CONTACT: David A. Trissell, General Counsel, at 202-789-6820.

SUPPLEMENTARY INFORMATION:

Table of Contents

- I. Introduction
- II. Public Proceeding(s)
- III. Summary Proceeding(s)

I. Introduction

Pursuant to 39 CFR 3041.405, the Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to Competitive negotiated service

agreement(s). The request(s) may propose the addition of a negotiated service agreement from the Competitive product list or the modification of an existing product currently appearing on the Competitive product list.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3011.301.¹

Section II identifies the docket number(s) associated with each Postal Service request, if any, that will be reviewed in a public proceeding as defined by 39 CFR 3010.101(p), the title of each such request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each such request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 and 39 CFR 3000.114 (Public Representative). Section II also establishes comment deadline(s) pertaining to each such request.

The Commission invites comments on whether the Postal Service's request(s) identified in Section II, if any, are consistent with the policies of title 39. Applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3035, and 39 CFR part 3041. Comment deadline(s) for each such request, if any, appear in Section II.

Section III identifies the docket number(s) associated with each Postal Service request, if any, to add a standardized distinct product to the Competitive product list or to amend a standardized distinct product, the title of each such request, the request's acceptance date, and the authority cited by the Postal Service for each request. Standardized distinct products are negotiated service agreements that are variations of one or more Competitive products, and for which financial models, minimum rates, and classification criteria have undergone advance Commission review. See 39 CFR 3041.110(n); 39 CFR 3041.205(a). Such requests are reviewed in summary proceedings pursuant to 39 CFR 3041.325(c)(2) and 39 CFR 3041.505(f)(1). Pursuant to 39 CFR 3041.405(c)-(d), the Commission does not appoint a Public Representative or

request public comment in proceedings to review such requests.

II. Public Proceeding(s)

1. *Docket No(s).*: MC2025-520 and K2025-518; *Filing Title:* USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 812 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date:* November 27, 2024; *Filing Authority:* 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative:* Gregory Stanton; *Comments Due:* December 9, 2024.

2. *Docket No(s).*: MC2025-521 and K2025-519; *Filing Title:* USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 813 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date:* November 27, 2024; *Filing Authority:* 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative:* Gregory Stanton; *Comments Due:* December 9, 2024.

3. *Docket No(s).*: MC2025-522 and K2025-520; *Filing Title:* USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 814 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date:* November 27, 2024; *Filing Authority:* 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative:* Jennaca Upperman; *Comments Due:* December 9, 2024.

4. *Docket No(s).*: MC2025-523 and K2025-521; *Filing Title:* USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 815 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date:* November 27, 2024; *Filing Authority:* 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative:* Jennaca Upperman; *Comments Due:* December 9, 2024.

5. *Docket No(s).*: MC2025-524 and K2025-522; *Filing Title:* USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 816 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date:* November 27, 2024; *Filing Authority:* 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative:* Maxine Bradley; *Comments Due:* December 9, 2024.

6. *Docket No(s).*: MC2025-526 and K2025-524; *Filing Title:* USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 818 to the Competitive Product

¹ See Docket No. RM2018-3, Order Adopting Final Rules Relating to Non-Public Information, June 27, 2018, Attachment A at 19-22 (Order No. 4679).

List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 27, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Jennaca Upperman; *Comments Due*: December 9, 2024.

7. *Docket No(s)*: MC2025–528 and K2025–526; *Filing Title*: USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 820 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 27, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Maxine Bradley; *Comments Due*: December 9, 2024.

8. *Docket No(s)*: MC2025–529 and K2025–527; *Filing Title*: USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 821 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 27, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Maxine Bradley; *Comments Due*: December 9, 2024.

9. *Docket No(s)*: MC2025–530 and K2025–528; *Filing Title*: USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 822 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 27, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Jennaca Upperman; *Comments Due*: December 9, 2024.

10. *Docket No(s)*: MC2025–531 and K2025–529; *Filing Title*: USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 823 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 27, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Gregory Stanton; *Comments Due*: December 9, 2024.

New Postal Products

AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: The Commission is noticing a recent Postal Service filing for the Commission's consideration concerning a negotiated service agreement. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

DATES: *Comments are due:* December 9, 2024.

ADDRESSES: Submit comments electronically via the Commission's Filing Online system at <https://www.prc.gov>. Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

FOR FURTHER INFORMATION CONTACT: David A. Trissell, General Counsel, at 202–789–6820.

SUPPLEMENTARY INFORMATION:

Table of Contents

- I. Introduction
- II. Public Proceeding(s)
- III. Summary Proceeding(s)

I. Introduction

Pursuant to 39 CFR 3041.405, the Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to Competitive negotiated service agreement(s). The request(s) may propose the addition of a negotiated service agreement from the Competitive product list or the modification of an existing product currently appearing on the Competitive product list.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<https://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3011.301.¹

Section II identifies the docket number(s) associated with each Postal Service request, if any, that will be reviewed in a public proceeding as defined by 39 CFR 3010.101(p), the title of each such request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each such request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 and 39 CFR 3000.114 (Public Representative). Section II also establishes comment deadline(s) pertaining to each such request.

The Commission invites comments on whether the Postal Service's request(s) identified in Section II, if any, are consistent with the policies of title 39. Applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3035, and 39 CFR part 3041. Comment deadline(s) for each such request, if any, appear in Section II.

Section III identifies the docket number(s) associated with each Postal Service request, if any, to add a standardized distinct product to the Competitive product list or to amend a standardized distinct product, the title of each such request, the request's acceptance date, and the authority cited by the Postal Service for each request. Standardized distinct products are negotiated service agreements that are variations of one or more Competitive products, and for which financial models, minimum rates, and classification criteria have undergone advance Commission review. See 39 CFR 3041.110(n); 39 CFR 3041.205(a). Such requests are reviewed in summary proceedings pursuant to 39 CFR 3041.325(c)(2) and 39 CFR 3041.505(f)(1). Pursuant to 39 CFR 3041.405(c)–(d), the Commission does not appoint a Public Representative or request public comment in proceedings to review such requests.

II. Public Proceeding(s)

1. *Docket No(s).*: MC2025–527 and K2025–525; *Filing Title*: USPS Request to Add Priority Mail Express, Priority

Mail & USPS Ground Advantage Contract 819 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 29, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Christopher Mohr; *Comments Due*: December 9, 2024.

2. *Docket No(s).*: MC2025–532 and K2025–530; *Filing Title*: USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 824 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 29, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Almaroof Agoro; *Comments Due*: December 9, 2024.

3. *Docket No(s).*: MC2025–533 and K2025–531; *Filing Title*: USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 825 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 29, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Almaroof Agoro; *Comments Due*: December 9, 2024.

4. *Docket No(s).*: MC2025–535 and K2025–533; *Filing Title*: USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 827 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 29, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Almaroof Agoro; *Comments Due*: December 9, 2024.

5. *Docket No(s).*: MC2025–538 and K2025–536; *Filing Title*: USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 830 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 29, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Maxine Bradley; *Comments Due*: December 9, 2024.

6. *Docket No(s).*: MC2025–539 and K2025–537; *Filing Title*: USPS Request to Add Priority Mail & USPS Ground Advantage Contract 488 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 29, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Gregory Stanton; *Comments Due*: December 9, 2024.

7. *Docket No(s).*: MC2025–540 and K2025–538; *Filing Title*: USPS Request to Add Priority Mail & USPS Ground Advantage Contract 489 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 29, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Maxine Bradley; *Comments Due*: December 9, 2024.

8. *Docket No(s).*: MC2025–541 and K2025–539; *Filing Title*: USPS Request to Add Priority Mail & USPS Ground Advantage Contract 490 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 29, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Maxine Bradley; *Comments Due*: December 9, 2024.

9. *Docket No(s).*: MC2025–548 and K2025–546; *Filing Title*: USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 836 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 29, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Almaroof Agoro; *Comments Due*: December 9, 2024.

10. *Docket No(s).*: MC2025–549 and K2025–547; *Filing Title*: USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 837 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 29, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Gregory Stanton; *Comments Due*: December 9, 2024.

11. *Docket No(s).*: MC2025–550 and K2025–548; *Filing Title*: USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 838 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 29, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*: Gregory Stanton; *Comments Due*: December 9, 2024.

12. *Docket No(s).*: MC2025–551 and K2025–549; *Filing Title*: USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 839 to the Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date*: November 29, 2024; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3035.105, and 39 CFR 3041.310; *Public Representative*:

BILLING CODE 7710–FW–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–101786; File No. SR–BX–2024–052]

Self-Regulatory Organizations; Nasdaq BX, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Establish Fees for Its Expanded Co-Location Services

December 2, 2024.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on November

21, 2024, Nasdaq BX, Inc. (“BX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to establish fees for its expanded co-location services, as described further below.

The text of the proposed rule change is available on the Exchange’s website at <https://listingcenter.nasdaq.com/rulebook/bx/rules>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange filed a proposal to expand its co-location services by offering new cabinet, power, and power distribution unit options in the Exchange’s expanded data center.³ As described in that filing, the Exchange’s current data center (“NY11”) in Carteret, NJ is undergoing an expansion (“NY11–4”) in response to demand for power and cabinets. The purpose of this proposed rule change is to establish fees for the expanded co-location services. Specifically, the Exchange proposes to establish (i) a monthly fee for Ultra High Density Cabinets, (ii) an installation fee for cabinets in NY11–4, (iii) fees for power installation in NY11–4, and (iv)

fees for power distribution unit options in NY11–4.

Ultra High Density Cabinet

Currently, co-location customers have the option of obtaining cabinets of various sizes and power densities. Co-location customers may obtain a Half Cabinet,⁴ a Low Density Cabinet with power density less than or equal to 2.88 kilowatts (“kW”), a Medium Density Cabinet with power density greater than 2.88 kW and less than or equal to 5 kW, a Medium-High Density Cabinet with power density greater than 5 kW and less than or equal to 7 kW, a High Density Cabinet with power density greater than 7 kW and less than 10 kW, and a Super High Density Cabinet with power density greater than 10 kW and less than or equal to 17.3 kW.

The Exchange filed a proposal to introduce a new cabinet choice in NY11–4, an “Ultra High Density Cabinet,” with power density greater than 10 kW and less than or equal to 15 kW.⁵ The Ultra High Density Cabinet option will only be offered in NY11–4 because of the power configuration necessary for such cabinets, which is not possible or available in other portions of the data center due to different power distribution.⁶ In addition to the Ultra High Density Cabinet, the Exchange will offer the other, existing cabinet options in NY11–4, with the exception of the Low Density Cabinet and Half Cabinet due to a lack of demand for such cabinets. The ongoing monthly fees for the Super High Density Cabinet, High Density Cabinet, Medium-High Density Cabinet, and Medium Density Cabinet are the same in NY11 and NY11–4 and the Exchange is not proposing to modify such fees.

The Exchange proposes to establish an ongoing monthly fee of \$7,230 for the Ultra High Density Cabinets. To effectuate this change, the Exchange proposes to add the \$7,230 ongoing monthly fee for Ultra High Density Cabinets to its fee schedule in General 8, Section 1(a). The Exchange notes that the proposed fee amount falls between the \$4,748 ongoing monthly fee charged for High Density Cabinets and the \$8,440 ongoing monthly fee charged for Super High Density Cabinets. Furthermore, the proposed fee is consistent with the existing ongoing monthly cabinet fees on a per kW basis.

⁴ Half cabinets are not available to new subscribers. *See* General 8, Section 1(a).

⁵ *Supra* note 4 [sic].

⁶ Because of the addition of the Ultra High Density Cabinet option in NY11–4, the Super High Density Cabinet in NY11–4 will have power density greater than 15 kW and less than or equal to 17.3 kW.

³ *See* Securities Exchange Act Release No. 34–100558 (July 18, 2024) [sic] Securities Exchange Act Release No. 34–101073 (September 5, 2024), 89 FR 77926 (September 24, 2024) (SR–BX–2024–035).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

The existing monthly cabinet fees range from approximately \$475 per kW to \$916 per kW, while the proposed ongoing monthly cabinet fee for the Ultra High Density Cabinet ranges from approximately \$482 per kW (at the high end of the power density range for Ultra High Density Cabinets) to \$723 per kW (at the low end of the power density range for Ultra High Density Cabinets). Lastly, Nasdaq notes that the proposed fee for the Ultra High Density Cabinet accounts for the cost of the cabinet and is actually lower than the cost to Nasdaq of procuring it from its vendor, Wise Components.

Installation Fee for Cabinets in NY11–4

The Exchange proposes to establish a cabinet installation fee of \$5,940 for all cabinets in NY11–4. To effectuate this change, the Exchange proposes to add the proposed \$5,940 installation fee to its fee schedule in General 8, Section 1(a) for Super High Density Cabinets, Ultra High Density Cabinets, High Density Cabinets, Medium-High Density Cabinets, and Medium Density Cabinets in NY11–4. In the existing data halls, customers may bring their own cabinets or use Exchange-provided cabinets. In NY11–4, because of the cooling system (hot aisle containment),⁷ all cabinets must be uniform and therefore, the Exchange will provide all cabinets, the cost of which is included in the \$5,940 installation fee.⁸ The cabinets in NY11–4 include certain features not included in cabinets provided by the Exchange in the existing data halls. Specifically, the cabinets in NY11–4 include uniform, wider cabinets (32" W x 48" D x 91" H), cable management, and a rear split door and combo lock. In addition, the proposed installation fee of \$5,940 is comparable to fees charged for similar products.⁹ It largely reflects a pass-through to customers of costs charged by Nasdaq's vendor, Equinix, for installation as well as a small mark-up to cover Nasdaq's administrative costs, which is comparable to its mark-up on existing installations.

Installation Fee for Cabinet Power in NY11–4

The cabinet power options for NY11–4 include: Phase 1 20 amp 240 volt, Phase 1 32 amp 240 volt, Phase 1 40

amp 240 volt, Phase 3 20 amp 415 volt, and Phase 3 32 amp 415 volt. These cabinet power options are specific to NY11–4 and one of these options must be selected for cabinets in NY11–4. The Exchange proposes to establish an installation fee of \$3,600 for Phase 1 cabinet power options in NY11–4 and an installation fee of \$4,560 for Phase 3 cabinet power options in NY11–4. To effectuate this change, the Exchange proposes to add the proposed fees to its fee schedule in General 8, Section 1(c). The Exchange also proposes not to charge an ongoing monthly fee for the cabinet power options in NY11–4 and update the fee schedule accordingly. For NY11–4, the data center operator is bringing in these higher voltage power options and is likely to experience increased power distribution efficiencies across the data center. The proposed power installation fees are higher in NY11–4 as compared to the existing data halls as the installation of the higher voltage power options costs more to the Exchange and is considered a premium product due to anticipated operational efficiencies.¹⁰ Moreover, the higher fee largely reflects a pass-through to customers of the costs charged by Nasdaq's vendor, Equinix, for installation, as well as a small mark-up to cover Nasdaq's administrative costs. As between the Phase 1 and Phase 3 power options, the Phase 3 options provide a more efficient power source.

Fees for Power Distribution Unit Options

The Exchange will offer power distribution units ("PDUs")¹¹ in NY11–4 as a convenience to customers. Rather than sourcing PDUs on a customer-by-customer basis, as the Exchange does for customers in NY11, the Exchange will offer Phase 1 and Phase 3¹² power distribution units in NY11–4. The Exchange proposes to establish a fee of \$4,100 for a Phase 1 PDU and \$5,260 for a Phase 3 PDU. This service is optional and customers may choose to provide

their own PDUs appropriate for their power installation choices. The Exchange notes that, as part of such proposed fees, the Exchange would provide a primary and redundant PDU. As such, the proposed PDU fees covers a pair of PDUs. In addition, customers utilizing a Phase 1 or Phase 3 PDU provided by the Exchange have the ability to upgrade or downgrade between amperage levels without replacing the PDU, by a simple upgrade of the facility cord and a receptacle update.¹³ A PDU replacement is required when switching between phases/voltage.

The Exchange will also offer a switch monitored PDU add on in NY11–4, which would allow customers to connect remotely to their PDU and control the power sockets. With the switch monitored PDU option, customers would be able to power cycle or shut off power remotely. The Exchange proposes to establish a \$2,000 fee for the switch monitored PDU option. This option is optional as well and customers may choose to provide their own switch monitored PDU, if desired.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁴ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,¹⁵ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that the proposal to establish a monthly fee for Ultra High Density Cabinets, an installation fee for cabinets in NY11–4, installation fees for power installation in NY11–4, and fees for power distribution unit options in NY11–4 is reasonable. First, the Exchange's proposal to establish a \$7,230 ongoing monthly fee for Ultra High Density Cabinets in NY11–4 is reasonable because it is comparable to the Exchange's current ongoing monthly fees for cabinets. The proposed fee amount falls between the \$4,748 ongoing monthly fee charged for High Density Cabinets and the \$8,440 ongoing monthly fee charged for Super High Density Cabinets. Furthermore, the

¹⁰ Benefits include future proofing the data hall to allow for increasing power density in the future, requiring less whips to deliver the same amount of amperage, less circuits need to be installed to reach the same power supply, and safety improvements.

¹¹ PDUs are devices fitted with multiple outputs designed to distribute electric power. The standardized PDUs would only be offered for NY11–4.

¹² Phase 1 PDUs are compatible with the following power options: Phase 1 20 amp 240 volt, Phase 1 32 amp 240 volt, and Phase 1 40 amp 240 volt. Phase 3 PDUs are compatible with the following power options: Phase 3 20 amp 415 volt and Phase 3 32 amp 415 volt. Phase 1 and Phase 3 are available in NY11 and NY11–4. Phase 3 PDUs provide greater power density than Phase 1 PDUs by delivering power over three wires as opposed to one wire.

¹³ This functionality may be available with customer-provided PDUs as well and depends on the PDU provided by the customer.

¹⁴ 15 U.S.C. 78f(b).

¹⁵ 15 U.S.C. 78f(b)(4) and (5).

⁷ The existing data halls utilize cold aisle containment to manage temperatures. Hot aisle containment is a more effective way to manage heat in the data center.

⁸ In contrast, to the extent customers provide their own cabinets in NY11, there is an additional out-of-pocket cost for such cabinets.

⁹ For example, NYSE charges an initial \$5,000 fee for dedicated cabinets. See https://www.nyse.com/publicdocs/Wireless_Connectivity_Fees_and_Charges.pdf.

proposed fee is consistent with the existing ongoing monthly cabinet fees on a per kW basis. The existing monthly cabinet fees range from approximately \$475 per kW to \$916 per kW, while the proposed ongoing monthly cabinet fee for the Ultra High Density Cabinet ranges from approximately \$482 per kW (at the high end of the power density range for Ultra High Density Cabinets) to \$723 per kW (at the low end of the power density range for Ultra High Density Cabinets). Lastly, Nasdaq notes that the proposed fee for the Ultra High Density Cabinet accounts for the cost of the cabinet and is actually lower than the cost to Nasdaq of procuring it from its vendor, Wise Components. Second, the Exchange believes that the proposed cabinet installation fee of \$5,940 is reasonable as compared to the installation fees in NY11 (of \$3,693–\$4,748) because the proposed installation fee includes the cabinet itself, which includes certain enhanced features in NY11–4, including uniform, wider cabinets (32" W x 48" D x 91" H), cable management, and a rear split door and combo lock. In contrast, in NY11, customers may choose to provide their own cabinets, incurring an additional cost. Furthermore, the proposed installation fee is comparable to the rate charged by NYSE for a similar product, as described above. Lastly, the installation fee largely reflects a pass-through to customers of costs charged by Nasdaq's vendor, Equinix, for installation as well as a small mark-up to cover Nasdaq's administrative costs, which is comparable to its mark-up on existing installations. Third, the Exchange believes that the power installation fees of \$3,600 for Phase 1 power options and \$4,560 for Phase 3 power options in NY11–4 are reasonable. As compared to power installation fees in NY11, the proposed rates for NY11–4 are higher because the Exchange will incur increased costs for installation of the higher voltage power options. In addition, the higher voltage power options will provide operational efficiencies for the data hall, as discussed above,¹⁶ warranting a higher fee. Moreover, the higher fee largely reflects a pass-through to customers of the costs charged by Nasdaq's vendor, Equinix, for installation, as well as a small mark-up to cover Nasdaq's administrative costs. Finally, the Exchange believes that the proposed fees for PDUs and the PDU add on are reasonable because such fees are consistent with market rates. Furthermore, the Exchange is providing the PDU options as a convenience to

customers. No customer is required to purchase any PDU options from the Exchange. Customers may choose to provide their own PDUs and PDU add ons.

The Exchange believes substitutable products and services are available to market participants, including, among other things, other equities and options exchanges that a market participant may connect to in lieu of the Exchange,¹⁷ connectivity to the Exchange via a third-party reseller of connectivity, and/or trading of equities or options products within markets which do not require connectivity to the Exchange, such as the Over-the-Counter (OTC) markets. Market participants that wish to connect to the Exchange will continue to choose the method of connectivity based on their specific needs. Market participants that wish to connect to the Exchange but want to avoid or mitigate the effect of these proposed fees can choose to connect to the Exchange through a vendor.

In summary, the proposal represents an equitable allocation of reasonable dues, fees and other charges because customers have choices in how they connect to the Exchange, the proposed monthly fee for Ultra High Density Cabinets is comparable to current fees charged by the Exchange for other cabinets, the Exchange will provide uniform cabinets in NY11–4 with special features, the proposed cabinet installation fee is consistent with that of comparable products offered by other providers, the Exchange will incur increased costs for new power installation in NY11–4, higher voltage power options will provide operational efficiencies for the data hall, and PDU options are provided as a convenience to customers and customers may choose to provide their own PDUs.

The Exchange believes that the proposed fee changes are not unfairly discriminatory because the cabinet, power, and PDU fees for NY11–4 are

¹⁷ There are currently 16 registered equities exchanges that trade equities and 17 exchanges offering options trading services. No single equities exchange has more than 20% of the market share. See Cboe Global Markets, U.S. Equities Market Volume Summary, Month-to-Date (Last updated July 3, 2024), available at https://www.cboe.com/us/equities/market_statistics/. No single options exchange trades more than 15% of the options market by volume and only one of the 17 options exchanges has a market share over 10 percent. See Nasdaq, Options Market Statistics (Last updated July 3, 2024), available at <https://www.nasdaqtrader.com/Trader.aspx?id=OptionsVolumeSummary>. This broad dispersion of market share demonstrates that market participants can and do exercise choice in trading venues. Further, low barriers to entry mean that new exchanges may rapidly enter the market and offer additional substitute platforms to further compete with the Exchange and the products it offers.

available to and assessed uniformly across all market participants. In addition, all customers have the choice of whether and how to connect to the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

Nothing in the proposal burdens inter-market competition because approval of the proposal does not impose any burden on the ability of other exchanges to compete. The Exchange operates in a highly competitive market in which market participants can determine whether or not to connect to the Exchange based on the value received compared to the cost of doing so. Indeed, market participants have numerous alternative exchanges that they may participate on and direct their order flow, as well as off-exchange venues, where competitive products are available for trading.

Nothing in the proposal burdens intra-market competition because the Ultra High Density Cabinets, cabinet power options, and PDU optionality in NY11–4 are available to any customer under the same fees as any other customer, and any customer that wishes to order cabinets, power and PDUs in NY11–4 can do so on a non-discriminatory basis.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹⁸

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

¹⁸ 15 U.S.C. 78s(b)(3)(A)(ii).

¹⁶ *Supra* note 11 [sic].

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-BX-2024-052 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to file number SR-BX-2024-052. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-BX-2024-052 and should be submitted on or before December 27, 2024.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁹

Sherry R. Haywood,
Assistant Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-101787; File No. SR-MRX-2024-44]

Self-Regulatory Organizations; Nasdaq MRX, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Establish Fees for Its Expanded Co-Location Services

December 2, 2024.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 18, 2024, Nasdaq MRX, LLC ("MRX" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to establish fees for its expanded co-location services, as described further below.

The text of the proposed rule change is available on the Exchange's website at <https://listingcenter.nasdaq.com/rulebook/mrx/rules>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

¹⁹ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange filed a proposal to expand its co-location services by offering new cabinet, power, and power distribution unit options in the Exchange's expanded data center.³ As described in that filing, the Exchange's current data center ("NY11") in Carteret, NJ is undergoing an expansion ("NY11-4") in response to demand for power and cabinets. The purpose of this proposed rule change is to establish fees for the expanded co-location services. Specifically, the Exchange proposes to establish (i) a monthly fee for Ultra High Density Cabinets, (ii) an installation fee for cabinets in NY11-4, (iii) fees for power installation in NY11-4, and (iv) fees for power distribution unit options in NY11-4.

Ultra High Density Cabinet

Currently, co-location customers have the option of obtaining cabinets of various sizes and power densities. Co-location customers may obtain a Half Cabinet,⁴ a Low Density Cabinet with power density less than or equal to 2.88 kilowatts ("kW"), a Medium Density Cabinet with power density greater than 2.88 kW and less than or equal to 5 kW, a Medium-High Density Cabinet with power density greater than 5 kW and less than or equal to 7 kW, a High Density Cabinet with power density greater than 7 kW and less than 10 kW, and a Super High Density Cabinet with power density greater than 10 kW and less than or equal to 17.3 kW.

The Exchange filed a proposal to introduce a new cabinet choice in NY11-4, an "Ultra High Density Cabinet," with power density greater than 10 kW and less than or equal to 15 kW.⁵ The Ultra High Density Cabinet option will only be offered in NY11-4 because of the power configuration necessary for such cabinets, which is not possible or available in other portions of the data center due to different power distribution.⁶ In addition to the Ultra High Density Cabinet, the Exchange will offer the other, existing cabinet options in NY11-

³ Securities Exchange Act Release No. 34-101077 (September 5, 2024), 89 FR 77904 (September 24, 2024) (SR-MRX-2024-36).

⁴ Half cabinets are not available to new subscribers. See General 8, Section 1(a).

⁵ *Supra* note 3.

⁶ Because of the addition of the Ultra High Density Cabinet option in NY11-4, the Super High Density Cabinet in NY11-4 will have power density greater than 15 kW and less than or equal to 17.3 kW.

4, with the exception of the Low Density Cabinet and Half Cabinet due to a lack of demand for such cabinets. The ongoing monthly fees for the Super High Density Cabinet, High Density Cabinet, Medium-High Density Cabinet, and Medium Density Cabinet are the same in NY11 and NY11-4 and the Exchange is not proposing to modify such fees.

The Exchange proposes to establish an ongoing monthly fee of \$7,230 for the Ultra High Density Cabinets. To effectuate this change, the Exchange proposes to add the \$7,230 ongoing monthly fee for Ultra High Density Cabinets to its fee schedule in General 8, Section 1(a). The Exchange notes that the proposed fee amount falls between the \$4,748 ongoing monthly fee charged for High Density Cabinets and the \$8,440 ongoing monthly fee charged for Super High Density Cabinets. Furthermore, the proposed fee is consistent with the existing ongoing monthly cabinet fees on a per kW basis. The existing monthly cabinet fees range from approximately \$475 per kW to \$916 per kW, while the proposed ongoing monthly cabinet fee for the Ultra High Density Cabinet ranges from approximately \$482 per kW (at the high end of the power density range for Ultra High Density Cabinets) to \$723 per kW (at the low end of the power density range for Ultra High Density Cabinets). Lastly, Nasdaq notes that the proposed fee for the Ultra High Density Cabinet accounts for the cost of the cabinet and is actually lower than the cost to Nasdaq of procuring it from its vendor, Wise Components.

Installation Fee for Cabinets in NY11-4

The Exchange proposes to establish a cabinet installation fee of \$5,940 for all cabinets in NY11-4. To effectuate this change, the Exchange proposes to add the proposed \$5,940 installation fee to its fee schedule in General 8, Section 1(a) for Super High Density Cabinets, Ultra High Density Cabinets, High Density Cabinets, Medium-High Density Cabinets, and Medium Density Cabinets in NY11-4. In the existing data halls, customers may bring their own cabinets or use Exchange-provided cabinets. In NY11-4, because of the cooling system (hot aisle containment),⁷ all cabinets must be uniform and therefore, the Exchange will provide all cabinets, the cost of which is included in the \$5,940 installation fee.⁸ The cabinets in NY11-

4 include certain features not included in cabinets provided by the Exchange in the existing data halls. Specifically, the cabinets in NY11-4 include uniform, wider cabinets (32" W x 48" D x 91" H), cable management, and a rear split door and combo lock. In addition, the proposed installation fee of \$5,940 is comparable to fees charged for similar products.⁹ It largely reflects a pass-through to customers of costs charged by Nasdaq's vendor, Equinix, for installation as well as a small mark-up to cover Nasdaq's administrative costs, which is comparable to its mark-up on existing installations.

Installation Fee for Cabinet Power in NY11-4

The cabinet power options for NY11-4 include: Phase 1 20 amp 240 volt, Phase 1 32 amp 240 volt, Phase 1 40 amp 240 volt, Phase 3 20 amp 415 volt, and Phase 3 32 amp 415 volt. These cabinet power options are specific to NY11-4 and one of these options must be selected for cabinets in NY11-4. The Exchange proposes to establish an installation fee of \$3,600 for Phase 1 cabinet power options in NY11-4 and an installation fee of \$4,560 for Phase 3 cabinet power options in NY11-4. To effectuate this change, the Exchange proposes to add the proposed fees to its fee schedule in General 8, Section 1(c). The Exchange also proposes not to charge an ongoing monthly fee for the cabinet power options in NY11-4 and update the fee schedule accordingly. For NY11-4, the data center operator is bringing in these higher voltage power options and is likely to experience increased power distribution efficiencies across the data center. The proposed power installation fees are higher in NY11-4 as compared to the existing data halls as the installation of the higher voltage power options costs more to the Exchange and is considered a premium product due to anticipated operational efficiencies.¹⁰ Moreover, the higher fee largely reflects a pass-through to customers of the costs charged by Nasdaq's vendor, Equinix, for installation, as well as a small mark-up to cover Nasdaq's administrative costs. As between the Phase 1 and Phase 3 power options, the Phase 3 options provide a more efficient power source.

⁹ For example, NYSE charges an initial \$5,000 fee for dedicated cabinets. See https://www.nyse.com/publicdocs/Wireless_Connectivity_Fees_and_Charges.pdf.

¹⁰ Benefits include future proofing the data hall to allow for increasing power density in the future, requiring less whips to deliver the same amount of amperage, less circuits need to be installed to reach the same power supply, and safety improvements.

Fees for Power Distribution Unit Options

The Exchange will offer power distribution units ("PDUs")¹¹ in NY11-4 as a convenience to customers. Rather than sourcing PDUs on a customer-by-customer basis, as the Exchange does for customers in NY11, the Exchange will offer Phase 1 and Phase 3¹² power distribution units in NY11-4. The Exchange proposes to establish a fee of \$4,100 for a Phase 1 PDU and \$5,260 for a Phase 3 PDU. This service is optional and customers may choose to provide their own PDUs appropriate for their power installation choices. The Exchange notes that, as part of such proposed fees, the Exchange would provide a primary and redundant PDU. As such, the proposed PDU fees covers a pair of PDUs. In addition, customers utilizing a Phase 1 or Phase 3 PDU provided by the Exchange have the ability to upgrade or downgrade between amperage levels without replacing the PDU, by a simple upgrade of the facility cord and a receptacle update.¹³ A PDU replacement is required when switching between phases/voltage.

The Exchange will also offer a switch monitored PDU add on in NY11-4, which would allow customers to connect remotely to their PDU and control the power sockets. With the switch monitored PDU option, customers would be able to power cycle or shut off power remotely. The Exchange proposes to establish a \$2,000 fee for the switch monitored PDU option. This option is optional as well and customers may choose to provide their own switch monitored PDU, if desired.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁴ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,¹⁵ in particular, in that it

¹¹ PDUs are devices fitted with multiple outputs designed to distribute electric power. The standardized PDUs would only be offered for NY11-4.

¹² Phase 1 PDUs are compatible with the following power options: Phase 1 20 amp 240 volt, Phase 1 32 amp 240 volt, and Phase 1 40 amp 240 volt. Phase 3 PDUs are compatible with the following power options: Phase 3 20 amp 415 volt and Phase 3 32 amp 415 volt. Phase 1 and Phase 3 are available in NY11 and NY11-4. Phase 3 PDUs provide greater power density than Phase 1 PDUs by delivering power over three wires as opposed to one wire.

¹³ This functionality may be available with customer-provided PDUs as well and depends on the PDU provided by the customer.

¹⁴ 15 U.S.C. 78f(b).

¹⁵ 15 U.S.C. 78f(b)(4) and (5).

⁷ The existing data halls utilize cold aisle containment to manage temperatures. Hot aisle containment is a more effective way to manage heat in the data center.

⁸ In contrast, to the extent customers provide their own cabinets in NY11, there is an additional out-of-pocket cost for such cabinets.

provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that the proposal to establish a monthly fee for Ultra High Density Cabinets, an installation fee for cabinets in NY11–4, installation fees for power installation in NY11–4, and fees for power distribution unit options in NY11–4 is reasonable. First, the Exchange's proposal to establish a \$7,230 ongoing monthly fee for Ultra High Density Cabinets in NY11–4 is reasonable because it is comparable to the Exchange's current ongoing monthly fees for cabinets. The proposed fee amount falls between the \$4,748 ongoing monthly fee charged for High Density Cabinets and the \$8,440 ongoing monthly fee charged for Super High Density Cabinets. Furthermore, the proposed fee is consistent with the existing ongoing monthly cabinet fees on a per kW basis. The existing monthly cabinet fees range from approximately \$475 per kW to \$916 per kW, while the proposed ongoing monthly cabinet fee for the Ultra High Density Cabinet ranges from approximately \$482 per kW (at the high end of the power density range for Ultra High Density Cabinets) to \$723 per kW (at the low end of the power density range for Ultra High Density Cabinets). Lastly, Nasdaq notes that the proposed fee for the Ultra High Density Cabinet accounts for the cost of the cabinet and is actually lower than the cost to Nasdaq of procuring it from its vendor, Wise Components. Second, the Exchange believes that the proposed cabinet installation fee of \$5,940 is reasonable as compared to the installation fees in NY11 (of \$3,693–\$4,748) because the proposed installation fee includes the cabinet itself, which includes certain enhanced features in NY11–4, including uniform, wider cabinets (32" W x 48" D x 91" H), cable management, and a rear split door and combo lock. In contrast, in NY11, customers may choose to provide their own cabinets, incurring an additional cost. Furthermore, the proposed installation fee is comparable to the rate charged by NYSE for a similar product, as described above. Lastly, the installation fee largely reflects a pass-through to customers of costs charged by Nasdaq's vendor, Equinix, for installation as well as a small mark-up to cover Nasdaq's administrative costs, which is comparable to its mark-up on existing installations. Third, the

Exchange believes that the power installation fees of \$3,600 for Phase 1 power options and \$4,560 for Phase 3 power options in NY11–4 are reasonable. As compared to power installation fees in NY11, the proposed rates for NY11–4 are higher because the Exchange will incur increased costs for installation of the higher voltage power options. In addition, the higher voltage power options will provide operational efficiencies for the data hall, as discussed above,¹⁶ warranting a higher fee. Moreover, the higher fee largely reflects a pass-through to customers of the costs charged by Nasdaq's vendor, Equinix, for installation, as well as a small mark-up to cover Nasdaq's administrative costs. Finally, the Exchange believes that the proposed fees for PDUs and the PDU add on are reasonable because such fees are consistent with market rates. Furthermore, the Exchange is providing the PDU options as a convenience to customers. No customer is required to purchase any PDU options from the Exchange. Customers may choose to provide their own PDUs and PDU add ons.

The Exchange believes substitutable products and services are available to market participants, including, among other things, other options exchanges that a market participant may connect to in lieu of the Exchange,¹⁷ connectivity to the Exchange via a third-party reseller of connectivity, and/or trading of options products within markets which do not require connectivity to the Exchange, such as the Over-the-Counter (OTC) markets. Market participants that wish to connect to the Exchange will continue to choose the method of connectivity based on their specific needs. Market participants that wish to connect to the Exchange but want to avoid or mitigate the effect of these proposed fees can choose to connect to the Exchange through a vendor.

In summary, the proposal represents an equitable allocation of reasonable dues, fees and other charges because customers have choices in how they connect to the Exchange, the proposed

monthly fee for Ultra High Density Cabinets is comparable to current fees charged by the Exchange for other cabinets, the Exchange will provide uniform cabinets in NY11–4 with special features, the proposed cabinet installation fee is consistent with that of comparable products offered by other providers, the Exchange will incur increased costs for new power installation in NY11–4, higher voltage power options will provide operational efficiencies for the data hall, and PDU options are provided as a convenience to customers and customers may choose to provide their own PDUs.

The Exchange believes that the proposed fee changes are not unfairly discriminatory because the cabinet, power, and PDU fees for NY11–4 are available to and assessed uniformly across all market participants. In addition, all customers have the choice of whether and how to connect to the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

Nothing in the proposal burdens inter-market competition because approval of the proposal does not impose any burden on the ability of other exchanges to compete. The Exchange operates in a highly competitive market in which market participants can determine whether or not to connect to the Exchange based on the value received compared to the cost of doing so. Indeed, market participants have numerous alternative exchanges that they may participate on and direct their order flow, as well as off-exchange venues, where competitive products are available for trading.

Nothing in the proposal burdens intra-market competition because the Ultra High Density Cabinets, cabinet power options, and PDU optionality in NY11–4 are available to any customer under the same fees as any other customer, and any customer that wishes to order cabinets, power and PDUs in NY11–4 can do so on a non-discriminatory basis.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

¹⁶ *Supra* note 10.

¹⁷ There are currently 17 exchanges offering options trading services. No single options exchange trades more than 15% of the options market by volume and only one of the 17 options exchanges has a market share over 10 percent. See Nasdaq, Options Market Statistics (Last updated July 3, 2024), available at <https://www.nasdaqtrader.com/Trader.aspx?id=OptionsVolumeSummary>. This broad dispersion of market share demonstrates that market participants can and do exercise choice in trading venues. Further, low barriers to entry mean that new exchanges may rapidly enter the market and offer additional substitute platforms to further compete with the Exchange and the products it offers.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹⁸ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-MRX-2024-44 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.
- All submissions should refer to file number SR-MRX-2024-44. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE,

Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-MRX-2024-44 and should be submitted on or before December 27, 2024.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁹

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-101788; File No. SR-ISE-2024-53]

Self-Regulatory Organizations; Nasdaq ISE, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Establish Fees for Its Expanded Co-Location Services

December 2, 2024.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 18, 2024, Nasdaq ISE, LLC ("ISE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to establish fees for its expanded co-location services. The text of the proposed rule change is available on the Exchange's website at <https://listingcenter.nasdaq.com/rulebook/ise/rules>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

¹⁹ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange filed a proposal to expand its co-location services by offering new cabinet, power, and power distribution unit options in the Exchange's expanded data center.³ As described in that filing, the Exchange's current data center ("NY11") in Carteret, NJ is undergoing an expansion ("NY11-4") in response to demand for power and cabinets. The purpose of this proposed rule change is to establish fees for the expanded co-location services. Specifically, the Exchange proposes to establish (i) a monthly fee for Ultra High Density Cabinets, (ii) an installation fee for cabinets in NY11-4, (iii) fees for power installation in NY11-4, and (iv) fees for power distribution unit options in NY11-4.

Ultra High Density Cabinet

Currently, co-location customers have the option of obtaining cabinets of various sizes and power densities. Co-location customers may obtain a Half Cabinet,⁴ a Low Density Cabinet with power density less than or equal to 2.88 kilowatts ("kW"), a Medium Density Cabinet with power density greater than 2.88 kW and less than or equal to 5 kW, a Medium-High Density Cabinet with power density greater than 5 kW and less than or equal to 7 kW, a High Density Cabinet with power density greater than 7 kW and less than 10 kW, and a Super High Density Cabinet with power density greater than 10 kW and less than or equal to 17.3 kW.

The Exchange filed a proposal to introduce a new cabinet choice in NY11-4, an "Ultra High Density

³ See Securities Exchange Act Release No. 34-101076 (September 5, 2024), 89 FR 77951 (September 24, 2024) (SR-ISE-2024-45).

⁴ Half cabinets are not available to new subscribers. See General 8, Section 1(a).

¹⁸ 15 U.S.C. 78s(b)(3)(A)(ii).

Cabinet,” with power density greater than 10 kW and less than or equal to 15 kW.⁵ The Ultra High Density Cabinet option will only be offered in NY11–4 because of the power configuration necessary for such cabinets, which is not possible or available in other portions of the data center due to different power distribution.⁶ In addition to the Ultra High Density Cabinet, the Exchange will offer the other, existing cabinet options in NY11–4, with the exception of the Low Density Cabinet and Half Cabinet due to a lack of demand for such cabinets. The ongoing monthly fees for the Super High Density Cabinet, High Density Cabinet, Medium-High Density Cabinet, and Medium Density Cabinet are the same in NY11 and NY11–4 and the Exchange is not proposing to modify such fees.

The Exchange proposes to establish an ongoing monthly fee of \$7,230 for the Ultra High Density Cabinets. To effectuate this change, the Exchange proposes to add the \$7,230 ongoing monthly fee for Ultra High Density Cabinets to its fee schedule in General 8, Section 1(a). The Exchange notes that the proposed fee amount falls between the \$4,748 ongoing monthly fee charged for High Density Cabinets and the \$8,440 ongoing monthly fee charged for Super High Density Cabinets. Furthermore, the proposed fee is consistent with the existing ongoing monthly cabinet fees on a per kW basis. The existing monthly cabinet fees range from approximately \$475 per kW to \$916 per kW, while the proposed ongoing monthly cabinet fee for the Ultra High Density Cabinet ranges from approximately \$482 per kW (at the high end of the power density range for Ultra High Density Cabinets) to \$723 per kW (at the low end of the power density range for Ultra High Density Cabinets). Lastly, Nasdaq notes that the proposed fee for the Ultra High Density Cabinet accounts for the cost of the cabinet and is actually lower than the cost to Nasdaq of procuring it from its vendor, Wise Components.

Installation Fee for Cabinets in NY11–4

The Exchange proposes to establish a cabinet installation fee of \$5,940 for all cabinets in NY11–4. To effectuate this change, the Exchange proposes to add the proposed \$5,940 installation fee to its fee schedule in General 8, Section 1(a) for Super High Density Cabinets, Ultra High Density Cabinets, High

Density Cabinets, Medium-High Density Cabinets, and Medium Density Cabinets in NY11–4. In the existing data halls, customers may bring their own cabinets or use Exchange-provided cabinets. In NY11–4, because of the cooling system (hot aisle containment),⁷ all cabinets must be uniform and therefore, the Exchange will provide all cabinets, the cost of which is included in the \$5,940 installation fee.⁸ The cabinets in NY11–4 include certain features not included in cabinets provided by the Exchange in the existing data halls. Specifically, the cabinets in NY11–4 include uniform, wider cabinets (32” W x 48” D x 91” H), cable management, and a rear split door and combo lock. In addition, the proposed installation fee of \$5,940 is comparable to fees charged for similar products.⁹ It largely reflects a pass-through to customers of costs charged by Nasdaq’s vendor, Equinix, for installation as well as a small mark-up to cover Nasdaq’s administrative costs, which is comparable to its mark-up on existing installations.

Installation Fee for Cabinet Power in NY11–4

The cabinet power options for NY11–4 include: Phase 1 20 amp 240 volt, Phase 1 32 amp 240 volt, Phase 1 40 amp 240 volt, Phase 3 20 amp 415 volt, and Phase 3 32 amp 415 volt. These cabinet power options are specific to NY11–4 and one of these options must be selected for cabinets in NY11–4. The Exchange proposes to establish an installation fee of \$3,600 for Phase 1 cabinet power options in NY11–4 and an installation fee of \$4,560 for Phase 3 cabinet power options in NY11–4. To effectuate this change, the Exchange proposes to add the proposed fees to its fee schedule in General 8, Section 1(c). The Exchange also proposes not to charge an ongoing monthly fee for the cabinet power options in NY11–4 and update the fee schedule accordingly. For NY11–4, the data center operator is bringing in these higher voltage power options and is likely to experience increased power distribution efficiencies across the data center. The proposed power installation fees are higher in NY11–4 as compared to the existing data halls as the installation of the higher voltage power options costs

more to the Exchange and is considered a premium product due to anticipated operational efficiencies.¹⁰ Moreover, the higher fee largely reflects a pass-through to customers of the costs charged by Nasdaq’s vendor, Equinix, for installation, as well as a small mark-up to cover Nasdaq’s administrative costs. As between the Phase 1 and Phase 3 power options, the Phase 3 options provide a more efficient power source.

Fees for Power Distribution Unit Options

The Exchange will offer power distribution units (“PDUs”) ¹¹ in NY11–4 as a convenience to customers. Rather than sourcing PDUs on a customer-by-customer basis, as the Exchange does for customers in NY11, the Exchange will offer Phase 1 and Phase 3 ¹² power distribution units in NY11–4. The Exchange proposes to establish a fee of \$4,100 for a Phase 1 PDU and \$5,260 for a Phase 3 PDU. This service is optional and customers may choose to provide their own PDUs appropriate for their power installation choices. The Exchange notes that, as part of such proposed fees, the Exchange would provide a primary and redundant PDU. As such, the proposed PDU fees covers a pair of PDUs. In addition, customers utilizing a Phase 1 or Phase 3 PDU provided by the Exchange have the ability to upgrade or downgrade between amperage levels without replacing the PDU, by a simple upgrade of the facility cord and a receptacle update.¹³ A PDU replacement is required when switching between phases/voltage.

The Exchange will also offer a switch monitored PDU add on in NY11–4, which would allow customers to connect remotely to their PDU and control the power sockets. With the switch monitored PDU option, customers would be able to power cycle or shut off power remotely. The

¹⁰ Benefits include future proofing the data hall to allow for increasing power density in the future, requiring less whips to deliver the same amount of amperage, less circuits need to be installed to reach the same power supply, and safety improvements.

¹¹ PDUs are devices fitted with multiple outputs designed to distribute electric power. The standardized PDUs would only be offered for NY11–4.

¹² Phase 1 PDUs are compatible with the following power options: Phase 1 20 amp 240 volt, Phase 1 32 amp 240 volt, and Phase 1 40 amp 240 volt. Phase 3 PDUs are compatible with the following power options: Phase 3 20 amp 415 volt and Phase 3 32 amp 415 volt. Phase 1 and Phase 3 are available in NY11 and NY11–4. Phase 3 PDUs provide greater power density than Phase 1 PDUs by delivering power over three wires as opposed to one wire.

¹³ This functionality may be available with customer-provided PDUs as well and depends on the PDU provided by the customer.

⁵ *Supra* note 3.

⁶ Because of the addition of the Ultra High Density Cabinet option in NY11–4, the Super High Density Cabinet in NY11–4 will have power density greater than 15 kW and less than or equal to 17.3 kW.

⁷ The existing data halls utilize cold aisle containment to manage temperatures. Hot aisle containment is a more effective way to manage heat in the data center.

⁸ In contrast, to the extent customers provide their own cabinets in NY11, there is an additional out-of-pocket cost for such cabinets.

⁹ For example, NYSE charges an initial \$5,000 fee for dedicated cabinets. See https://www.nyse.com/publicdocs/Wireless_Connectivity_Fees_and_Charges.pdf.

Exchange proposes to establish a \$2,000 fee for the switch monitored PDU option. This option is optional as well and customers may choose to provide their own switch monitored PDU, if desired.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁴ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,¹⁵ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that the proposal to establish a monthly fee for Ultra High Density Cabinets, an installation fee for cabinets in NY11–4, installation fees for power installation in NY11–4, and fees for power distribution unit options in NY11–4 is reasonable. First, the Exchange's proposal to establish a \$7,230 ongoing monthly fee for Ultra High Density Cabinets in NY11–4 is reasonable because it is comparable to the Exchange's current ongoing monthly fees for cabinets. The proposed fee amount falls between the \$4,748 ongoing monthly fee charged for High Density Cabinets and the \$8,440 ongoing monthly fee charged for Super High Density Cabinets. Furthermore, the proposed fee is consistent with the existing ongoing monthly cabinet fees on a per kW basis. The existing monthly cabinet fees range from approximately \$475 per kW to \$916 per kW, while the proposed ongoing monthly cabinet fee for the Ultra High Density Cabinet ranges from approximately \$482 per kW (at the high end of the power density range for Ultra High Density Cabinets) to \$723 per kW (at the low end of the power density range for Ultra High Density Cabinets). Lastly, Nasdaq notes that the proposed fee for the Ultra High Density Cabinet accounts for the cost of the cabinet and is actually lower than the cost to Nasdaq of procuring it from its vendor, Wise Components. Second, the Exchange believes that the proposed cabinet installation fee of \$5,940 is reasonable as compared to the installation fees in NY11 (of \$3,693–\$4,748) because the proposed installation fee includes the cabinet itself, which includes certain enhanced features in NY11–4, including uniform, wider cabinets (32" W x 48" D x 91" H),

cable management, and a rear split door and combo lock. In contrast, in NY11, customers may choose to provide their own cabinets, incurring an additional cost. Furthermore, the proposed installation fee is comparable to the rate charged by NYSE for a similar product, as described above. Lastly, the installation fee largely reflects a pass-through to customers of costs charged by Nasdaq's vendor, Equinix, for installation as well as a small mark-up to cover Nasdaq's administrative costs, which is comparable to its mark-up on existing installations. Third, the Exchange believes that the power installation fees of \$3,600 for Phase 1 power options and \$4,560 for Phase 3 power options in NY11–4 are reasonable. As compared to power installation fees in NY11, the proposed rates for NY11–4 are higher because the Exchange will incur increased costs for installation of the higher voltage power options. In addition, the higher voltage power options will provide operational efficiencies for the data hall, as discussed above,¹⁶ warranting a higher fee. Moreover, the higher fee largely reflects a pass-through to customers of the costs charged by Nasdaq's vendor, Equinix, for installation, as well as a small mark-up to cover Nasdaq's administrative costs. Finally, the Exchange believes that the proposed fees for PDUs and the PDU add on are reasonable because such fees are consistent with market rates. Furthermore, the Exchange is providing the PDU options as a convenience to customers. No customer is required to purchase any PDU options from the Exchange. Customers may choose to provide their own PDUs and PDU add ons.

The Exchange believes substitutable products and services are available to market participants, including, among other things, other options exchanges that a market participant may connect to in lieu of the Exchange,¹⁷ connectivity to the Exchange via a third-party reseller of connectivity, and/or trading of options products within markets which do not require connectivity to the

Exchange, such as the Over-the-Counter (OTC) markets. Market participants that wish to connect to the Exchange will continue to choose the method of connectivity based on their specific needs. Market participants that wish to connect to the Exchange but want to avoid or mitigate the effect of these proposed fees can choose to connect to the Exchange through a vendor.

In summary, the proposal represents an equitable allocation of reasonable dues, fees and other charges because customers have choices in how they connect to the Exchange, the proposed monthly fee for Ultra High Density Cabinets is comparable to current fees charged by the Exchange for other cabinets, the Exchange will provide uniform cabinets in NY11–4 with special features, the proposed cabinet installation fee is consistent with that of comparable products offered by other providers, the Exchange will incur increased costs for new power installation in NY11–4, higher voltage power options will provide operational efficiencies for the data hall, and PDU options are provided as a convenience to customers and customers may choose to provide their own PDUs.

The Exchange believes that the proposed fee changes are not unfairly discriminatory because the cabinet, power, and PDU fees for NY11–4 are available to and assessed uniformly across all market participants. In addition, all customers have the choice of whether and how to connect to the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

Nothing in the proposal burdens inter-market competition because approval of the proposal does not impose any burden on the ability of other exchanges to compete. The Exchange operates in a highly competitive market in which market participants can determine whether or not to connect to the Exchange based on the value received compared to the cost of doing so. Indeed, market participants have numerous alternative exchanges that they may participate on and direct their order flow, as well as off-exchange venues, where competitive products are available for trading.

Nothing in the proposal burdens intra-market competition because the Ultra High Density Cabinets, cabinet power options, and PDU optionality in NY11–4 are available to any customer

¹⁴ 15 U.S.C. 78f(b).

¹⁵ 15 U.S.C. 78f(b)(4) and (5).

¹⁶ *Supra* note 10.

¹⁷ There are currently 17 exchanges offering options trading services. No single options exchange trades more than 15% of the options market by volume and only one of the 17 options exchanges has a market share over 10 percent. See Nasdaq, Options Market Statistics (Last updated July 3, 2024), available at <https://www.nasdaqtrader.com/Trader.aspx?id=OptionsVolumeSummary>. This broad dispersion of market share demonstrates that market participants can and do exercise choice in trading venues. Further, low barriers to entry mean that new exchanges may rapidly enter the market and offer additional substitute platforms to further compete with the Exchange and the products it offers.

under the same fees as any other customer, and any customer that wishes to order cabinets, power and PDUs in NY11-4 can do so on a non-discriminatory basis.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹⁸ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-ISE-2024-53 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090. All submissions should refer to file number SR-ISE-2024-53. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements

with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-ISE-2024-53 and should be submitted on or before December 27, 2024.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁹

Sherry R. Haywood,

Assistant Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-101777; File No. 10-242]

In the Matter of the Application of 24X National Exchange LLC for Registration as a National Securities Exchange; Findings, Opinion, and Order of the Commission

November 27, 2024.

I. Introduction and Procedural History

On February 6, 2024, 24X National Exchange LLC ("24X" or "Exchange") filed with the Securities and Exchange Commission ("Commission") a Form 1 application under the Securities Exchange Act of 1934 ("Exchange Act") seeking registration as a national securities exchange under section 6 of the Exchange Act.¹ Notice of the application was published for comment in the **Federal Register** on March 4,

2024.² The Commission received five comments on the Notice³ and a letter responding to the comments from 24X.⁴ On May 31, 2024, the Commission instituted proceedings pursuant to section 19(a)(1)(B) of the Exchange Act⁵ to determine whether to grant or deny 24X's application for registration as a national securities exchange under section 6 of the Exchange Act (the "OIP").⁶ After issuance of the OIP, the Commission received six comment letters⁷ and a letter responding to the comments from 24X.⁸ On August 21, 2024, 24X filed an amendment to its Form 1 application ("Amendment No. 1"),⁹ which was published for comment in the **Federal Register** on September 3, 2024.¹⁰ On August 30, 2024, the Commission extended, pursuant to section 19(a)(1)(B) of the Exchange

² See Securities Exchange Act Release No. 99614 (Feb. 27, 2024), 89 FR 15621 (Mar. 4, 2024) ("Notice").

³ See letters from James J. Angel, Ph.D., CFP, CFA, Associate Professor of Finance, Georgetown University, McDonough School of Business, dated Apr. 5, 2024 ("Angel Letter I") and dated May 13, 2024 ("Angel Letter II"); Stan Sater, Senior Legal Counsel, Polygon.io, Inc., dated Apr. 25, 2024 ("Polygon Letter"); Andrew Glover, University of Washington and Ed deHaan, Professor of Accounting, Stanford University, dated Apr. 22, 2024 ("Glover and deHaan Letter"); Eun Ah Choi, Senior Vice President, Nasdaq, Inc., dated Apr. 25, 2024 ("Nasdaq Letter"). The public comment file for 24X's Form 1 (File No. 10-242) is available on the Commission's website at: <https://www.sec.gov/comments/10-242/10-242.htm>.

¹⁸ 15 U.S.C. 78s(b)(3)(A)(ii).

Act,¹¹ the time period for granting or denying 24X's Form 1 application for an additional 90 days, until November 29, 2024.¹² After issuance of Amendment No. 1, the Commission received three comment letters¹³ and a letter responding to the comments from 24X.¹⁴ On October 23, 2024, 24X filed a second amendment to its Form 1 application ("Amendment No. 2"),¹⁵ which was published for comment in the **Federal Register** on October 30, 2024.¹⁶ After issuance of Amendment No. 2, the Commission received two comment letters¹⁷ and a letter responding to the comments from 24X.¹⁸

The Commission has reviewed 24X's Form 1 application, as amended, together with the comment letters received, in order to make a determination whether to grant such registration. For the reasons set forth below and based on the representations set forth in 24X's Form 1 application, as amended, this order grants 24X's Form 1 application, as amended, for registration as a national securities exchange.

II. Statutory Standards

Pursuant to sections 6(b) and 19(a) of the Exchange Act,¹⁹ the Commission shall by order grant an application for registration as a national securities exchange if the Commission finds, among other things, that the proposed exchange is so organized and has the capacity to carry out the purposes of the

Exchange Act and can comply, and can enforce compliance by its members and persons associated with its members, with the provisions of the Exchange Act, the rules and regulations thereunder, and the rules of the exchange.²⁰

As discussed in greater detail below, the Commission finds that 24X's application, as amended, for registration as a national securities exchange meets the requirements of the Exchange Act and the rules and regulations thereunder. Further, the Commission finds that the proposed rules of 24X are consistent with section 6 of the Exchange Act in that, among other things, they are designed to: (1) assure fair representation of the exchange's members in the selection of its directors and administration of its affairs and provide that, among other things, one or more directors shall be representative of investors and not be associated with the exchange, or with a broker or dealer;²¹ (2) prevent fraudulent and manipulative acts and practices, promote just and equitable principles of trade, foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, and remove impediments to and perfect the mechanisms of a free and open market and a national market system;²² (3) not permit unfair discrimination between customers, issuers, or dealers;²³ and (4) protect investors and the public interest.²⁴ The Commission also finds that the proposed rules of 24X are consistent with section 11A of the Exchange Act.²⁵ Finally, the Commission finds that 24X's proposed rules do not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Exchange Act.²⁶

III. Discussion

A. Ownership and Governance of 24X

24X is a Delaware limited liability company,²⁷ which is wholly-owned by its sole member, 24X US Holdings LLC ("24X US"), which also is a Delaware limited liability company.²⁸ 24X US, in turn, is wholly-owned by 24X Bermuda Holdings LLC ("24X Bermuda"), which is a limited liability company formed

under the laws of Bermuda.²⁹ 24X US will be managed by, and all decisions regarding 24X US will be made by, 24X Bermuda.³⁰ Generally, the members of 24X Bermuda include holders of "Preferred Units,"³¹ "Common Units"³² and "Non-Voting Units."³³ Common Units and Preferred Units except Series Seed-2 Units have general voting power, and are defined as "Voting Units."³⁴ Each Voting Unit has one vote.³⁵

1. 24X Board of Directors

24X proposed that its business and affairs as a national securities exchange will be managed by a Board³⁶ comprised of a minimum of seven Directors³⁷ ("24X Board").³⁸ The 24X Board will consist of:

(A) one Director who is the Chief Executive Officer of the Exchange and who shall be deemed to be an Industry Director;³⁹

(B) Non-Industry Directors,⁴⁰ including at least one (1) Independent Director,⁴¹ the number of which shall equal or exceed the sum of the number of Industry Directors and Member Representative Directors;⁴²

²⁹ See Certificate of Formation of 24X Bermuda Holdings LLC.

³⁰ See Second Amended and Restated Limited Liability Company Agreement of 24X US Holdings LLC ("24X US LLC Agreement"), Section VI(a).

³¹ "Preferred Units" means "Series A Units and the Series Seed Units." See Third Amended and Restated Limited Liability Company Agreement of 24X Bermuda LLC ("24X Bermuda LLC Agreement"), Article 1, 1.45. See also *id.* at Article 1, 1.55 and 1.60 defining Series A Units and Series Seed Units.

³² "Common Units" means "[u]nits of common membership interests of the Company, or any other ownership interests of the Company into which such units are reclassified, reconstituted or exchanged." See *id.* at Article 1, 1.16.

³³ "Non-Voting Units" means "units of non-voting membership interests of the Company, or any other ownership interests of the Company into which such units are reclassified, reconstituted or exchanged." See *id.* at Article 1, 1.38. A description of the members of 24X Bermuda and their respective ownership levels is set forth in Exhibit K. See also *infra* section III.B.1.

³⁴ See 24X Bermuda LLC Agreement, Article 1, 1.75. See also *id.* at Article 1, Section 1.64 defining Series Seed-2 Units.

³⁵ See 24X Bermuda LLC Agreement, Article 1, 1.75.

²⁸ See Certificate of Formation of 24X US Holdings LLC.

(C) Member Representative Directors, the number of which must be at least twenty percent of the 24X Board;⁴³ and

(D) at least one of the Non-Industry Directors shall be representative of issuers and investors and not associated with an Exchange Member, a broker, or a dealer.⁴⁴

The first annual meeting of 24X will be held within 90 days after the Commission grants 24X's exchange registration.⁴⁵

In addition, 24X US will appoint the initial Nominating Committee and Member Nominating Committee, consistent with each committee's compositional requirements, to nominate candidates for election to the 24X Board.⁴⁶ The Nominating Committee and Member Nominating Committee, after completion of their respective duties for nominating directors for election to the 24X Board for that year, will recommend candidates to serve on the succeeding year's Nominating Committee or Member Nominating Committee, as applicable.⁴⁷ Exchange Members⁴⁸ will have rights to nominate and elect additional candidates for the Member Nominating Committee pursuant to a petition process.⁴⁹

The Nominating Committee will nominate candidates for election to the 24X Board.⁵⁰ For the Member Representative Director positions, the Member Nominating Committee, composed solely of Member Representative Committee or Panel Members,⁵¹ shall consult with the Nominating Committee and the Chairman of the 24X Board and solicit

comments from Exchange Members for the purpose of approving and submitting names of candidates for election to the position of Member Representative Director.⁵² If no candidates are nominated pursuant to a petition process, then the initial nominees approved and submitted by the Member Nominating Committee will be nominated as Member Representative Directors by the Nominating Committee.⁵³ If a petition process produces additional candidates, then the candidates nominated pursuant to the petition process, together with those nominated by the Member Nominating Committee, will be presented to Exchange Members for election to determine the final designees for any open Member Representative Director positions.⁵⁴ In the event of a contested election, the candidates who receive the most votes will be selected as the Member Representative Director designees by the Member Nominating Committee.⁵⁵

The 24X governance provisions are consistent with the Exchange Act. In particular, the requirement that the number of Member Representative Directors must be at least 20% of the 24X Board and the means by which they will be chosen by Exchange Members provides for the fair representation of members in the selection of directors and the administration of 24X and therefore are consistent with section 6(b)(3) of the Exchange Act.⁵⁶ This requirement helps to ensure that members of an exchange have a voice in an exchange's self-regulatory program, and that an exchange is administered in a way that is equitable to all those who trade on its market or through its facilities.⁵⁷

In addition, the requirements that the number of Non-Industry Directors equal or exceed the sum of the number of Industry Directors and Member Representative Directors, that at least one Non-Industry Director shall also qualify as an Independent Director, and that at least one of the Non-Industry Directors shall be representative of issuers and investors and not associated with an Exchange Member, a broker, or a dealer on the 24X Board satisfy the requirements in section 6(b)(3) of the Exchange Act,⁵⁸ which requires in part that one or more directors be representative of issuers and investors and not be associated with a member of the exchange, or with a broker or dealer. The Commission previously has stated that the inclusion of public, non-industry representatives on exchange oversight bodies is an important mechanism to support an exchange's ability to protect the public interest.⁵⁹ Further, the presence of public, non-industry representatives can help to ensure that no single group of market participants has the ability to systematically disadvantage other market participants through the exchange governance process. Public directors can provide unbiased perspectives, which may enhance the ability of the 24X Board to address issues in a non-discriminatory fashion and foster the integrity of the Exchange.

2. Exchange Committees

24X has proposed to establish several named committees of the 24X Board, including an Appeals Committee⁶⁰ and a Regulatory Oversight Committee,⁶¹ as well as the Nominating Committee and Member Nominating Committee, discussed above.⁶² The Appeals

⁴³ See *id.*, at Article VI, Section 6.1(c)(1)(B)(2). If twenty percent of the Directors then serving on the 24X Board is not a whole number, such minimum number of Member Representative Directors shall be rounded up to the next whole number. *Id.*

⁴⁴ See *id.*, at Article VI, Section 6.1(c)(1)(B)(3).
⁴⁵ See 24X LLC Agreement, Article III, Section 3.4(a).

⁴⁶ See 24X LLC Agreement, Article VI, Section 6.2(g)(ii).

⁴⁷ *Id.*

⁴⁸ "Exchange Member" means "any registered broker or dealer that has been admitted to membership in the national securities exchange operated by the Company. An Exchange Member is not a member of the Company by reason of being an Exchange Member. An Exchange Member will have the status of a 'member' of the Exchange as that term is defined in Section 3(a)(3) of the Exchange Act." See 24X LLC Agreement, Article I, (o).

⁴⁹ See 24X LLC Agreement, Article VI, Section 6.1(d)(iii).

⁵⁰ See 24X LLC Agreement, Article VI, Section 6.1(d)(i).

⁵¹ "Member Representative Committee or Panel Members" means a member of any Committee or hearing panel who is an officer, director, employee or agent of an Exchange Member that does not own, directly or indirectly, any Units. See 24X LLC Agreement, Article I (aa).

⁵² See 24X LLC Agreement, Article VI, Section 6.1(d)(ii).

⁵³ See 24X LLC Agreement, Article VI, Section 6.1(d)(v).

⁵⁴ *Id.*

⁵⁵ See 24X LLC Agreement, Article VI, Section 6.1(d)(vi).

⁵⁶ 15 U.S.C. 78f(b)(3).

⁵⁷ See, e.g., Securities Exchange Act Release Nos. 100539 (July 15, 2024), 89 FR 58848 (July 19, 2024) (File No. 10-240) (order granting registration of MIA Exchange, LLC) ("Sapphire Order"); 88806 (May 4, 2020), 85 FR 27451 (May 8, 2020) (File No. 10-237) (order granting registration of MEMX LLC ("MEMX Exchange")) ("MEMX Order"); 85828 (May 10, 2019), 84 FR 21841 (May 15, 2019) (File No. 10-234) (order granting registration of Long Term Stock Exchange, Inc. ("LTSE Exchange")) ("LTSE Order"); 79543 (Dec. 13, 2016), 81 FR 92901, 92903 (Dec. 20, 2016) (File No. 10-227) (order granting registration of MIA Exchange, LLC) ("MIA Exchange Order"); 68341 (Dec. 3, 2012), 77 FR 73065, 73067 (Dec. 7, 2012) (File No. 10-207) (order granting the registration of Miami International Securities Exchange, LLC ("MIA Exchange")) ("MIA Exchange Order"); 58375 (Aug. 18, 2008), 73 FR 49498, 49501 (Aug. 21, 2008) (File No. 10-182) (order granting

the registration of BATS Exchange, Inc.) ("BATS Order"); 53128 (Jan. 13, 2006), 71 FR 3550, 3553 (Jan. 23, 2006) (File No. 10-131) (granting the exchange registration of Nasdaq Stock Market, Inc.) ("Nasdaq Order").

⁵⁸ 15 U.S.C. 78f(b)(3).

⁵⁹ See, e.g., Sapphire Order, *supra* note 57, at 58850; MEMX Order, *supra* note 57, at 27452; LTSE Order, *supra* note 57, at 21843; MIA Exchange Order, *supra* note 57, at 92903; MIA Exchange Order, *supra* note 57, at 73067; BATS Order, *supra* note 57, at 49501; Nasdaq Order, *supra* note 57, at 3553.

⁶⁰ See 24X LLC Agreement, Article VI, Section 6.2(f). The Appeals Committee will preside over all appeals related to disciplinary and adverse action determinations in accordance with 24X rules. *Id.*

⁶¹ See 24X LLC Agreement, Article VI, Section 6.2(h). The Regulatory Oversight Committee will be responsible for overseeing the adequacy and effectiveness of the Exchange's regulatory and self-regulatory organization responsibilities, assessing the Exchange's regulatory performance, and assisting the 24X Board and Committees in reviewing the regulatory plan and the overall effectiveness of the Exchange's regulatory functions. *Id.* See also *infra* section III.B.3.

⁶² The 24X Board could also establish additional committees. See 24X LLC Agreement, Article VI,

Committee will consist of two Independent Directors and one Member Representative Director.⁶³ Each member of the Regulatory Oversight Committee must be an Independent Director.⁶⁴

The named committees that 24X proposed, which are similar to the named committees maintained by other exchanges,⁶⁵ are designed to help enable the Exchange to carry out its responsibilities under the Exchange Act and are consistent with the Exchange Act, including section 6(b)(1), which requires, in part, an exchange to be so organized and have the capacity to carry out the purposes of the Exchange Act.⁶⁶

The Commission received one comment on Exhibit J of 24X's Form 1.⁶⁷ Regarding the proposed 24X Board and committees, this commenter stated that filling in the charts set forth in Exhibit J of 24X's Form 1 with "TBD" and "TO BE PROVIDED" "does not provide the Commission with sufficient information with which to assess compliance with the law or Commission Rules."⁶⁸ The commenter further stated that "[t]he Exchange failed to provide the names, classifications, terms, and types of businesses of the persons to fill the required roles. The point of the chart is to have those boxes filled in. They are 'to be provided' now—not in the future. What would be the basis for the Commission's approval?"⁶⁹ 24X stated that it has not commenced operations and that "[o]nce directors and committee members are determined," 24X will update its Form 1 as required under Rule 6a–2 under the Exchange Act.⁷⁰

Exhibit J requires certain information for officers, governors, members of all standing committees, or persons performing similar functions, who "presently hold or have held their offices or positions during the previous year."⁷¹ Exhibit J of 24X's Form 1

application indicates that Dmitri Galinov will be the "Industry/Chief Executive Officer" of 24X. Exhibit J also lists Dmitri Galinov as the Head of Equities for 24X, and other officers of 24X including David Sassoon as General Counsel; Jeremy Sanchez as Chief Regulatory Officer; and Jason Woerz as Chief Operating Officer.

24X has not yet commenced operations, and therefore, the nomination and election processes to fill the rest of 24X's Board and committees, as set forth in the 24X LLC Agreement, have not been initiated. Upon approval of 24X's Form 1 application, however, 24X US, as the sole owner of 24X, is required to elect only those persons to the 24X Board and committees that meet the stated compositional requirements set forth in the 24X LLC Agreement, and pursuant to Rule 6a–2 of the Exchange Act, 24X must file an amendment to its Form 1 providing the name, classification, term, and type of business of each person who will be on the 24X Board and 24X committees within 10 days after 24X US elects such persons to the 24X Board, or the Chairman of the 24X Board appoints individuals to the various 24X committees.⁷² The information provided by 24X in Exhibit J is consistent with the requirements of the form and the Exchange Act.

B. 24X Bermuda and Regulation of the Exchange

When 24X commences operations as a national securities exchange, it will have all of the attendant regulatory obligations under the Exchange Act. In particular, 24X will be responsible for the operation and regulation of its trading system and the regulation of its members. Certain provisions in both the 24X and 24X Bermuda governing documents are designed to facilitate the ability of 24X to fulfill its regulatory obligations and to help facilitate Commission oversight of 24X. The discussion below summarizes some of these key provisions.⁷³

1. Ownership Structure; Ownership and Voting Limitations

As stated above, 24X will be owned indirectly by 24X Bermuda. The 24X Bermuda LLC Agreement includes

primarily engaged (*e.g.*, floor broker, specialist, odd lot dealer, etc.).

⁷² See 17 CFR 240.6a–2. See also 24X LLC Agreement, Article VI, Section 6.2(b)(i).

⁷³ Because 24X US is the sole member of 24X (*see* 24X LLC Agreement), and 24X Bermuda is the sole member of 24X US (*see* 24X US LLC Agreement) and thus indirectly wholly owns and controls 24X, for purposes of this Order, the Commission bases its findings on provisions in the 24X Bermuda LLC Agreement, as the ultimate owner of 24X.

restrictions on the ability to own and vote units representing a fractional part of the interest in 24X Bermuda ("Units").⁷⁴ These limitations are designed to prevent any party to the 24X Bermuda LLC Agreement from exercising undue control over the operation of the Exchange and to ensure that the Exchange and the Commission are able to carry out their regulatory obligations under the Exchange Act.⁷⁵

In particular, for so long as 24X Bermuda shall control, directly or indirectly, 24X, no Person,⁷⁶ either alone or together with its Related Persons,⁷⁷ will be permitted to own,

⁷⁴ "Unit" means "(i) any Common Units (including Profits Units), Non-Voting Units or Preferred Units purchased or otherwise acquired by any Member; (ii) any equity securities issued or issuable directly or indirectly with respect to any of the foregoing Units by way of Unit distribution or split or in connection with a combination of Units, recapitalization, merger, consolidation or other reorganization; and (iii) any other units of any class or series of ownership interests of the Company held by a Member, including with respect to Convertible Securities or Options." See 24X Bermuda LLC Agreement, Article 1, 1.72

⁷⁵ These provisions are consistent with ownership and voting limits approved by the Commission for other SROs. See, *e.g.*, Sapphire Order, MEMX Order, LTSE Order, MIAx PEARL Order, MIAx Order, and BATS Order *supra* note 57; IEX Order, *supra* note 65, *see also* Securities Exchange Release Nos. 6068 (Feb. 4, 2016) (File No. 10–221) (order granting exchange registration of ISE Mercury, LLC) ("ISE Mercury Order"); 70050 (July 26, 2013), 78 FR 46622, 46624 (Aug. 1, 2013) (File No. 10–209) (order granting the exchange registration of ISE Gemini, LLC) ("ISE Gemini Order"); 62158 (May 24, 2010), 75 FR 30082 (May 28, 2010) (CBOE–2008–88) (Cboe demutualization order); 53963 (June 8, 2006), 71 FR 34660 (June 15, 2006) (SR–NSX–2006–03) (NSX demutualization order); 51149 (Feb. 8, 2005), 70 FR 7531 (Feb. 14, 2005) (SR–CHX–2004–26) (CHX demutualization order); 49098 (Jan. 16, 2004), 69 FR 3974 (Jan. 27, 2004) (SR–Phlx–2003–73) (Phlx demutualization order).

⁷⁶ "Person" means "any individual, partnership, joint venture, company, limited liability company, trust, or other association or entity." See 24X Bermuda LLC Agreement, Article 1, 1.41.

⁷⁷ "Related Persons" means "[with] respect to any Person: (a) any 'affiliate' of such Person (as such term is defined in Rule 12b–2 under the Exchange Act); (b) any other Person with which such first Person has any agreement, arrangement or understanding (whether or not in writing) to act together for the purpose of acquiring, voting, holding or disposing of Units; (c) in the case of a Person that is a company, corporation or similar entity, any executive officer (as defined under Rule 3b–7 under the Exchange Act) or director of such Person and, in the case of a Person that is a partnership or limited liability company, any general partner, managing member or manager of such Person, as applicable; (d) in the case of any Person that is a registered broker or dealer that has been admitted to membership in the national securities exchange known as 24X National Exchange, any Person that is associated with such member (as determined using the definition of 'person associated with a member' as defined under Section 3(a)(21) of the Exchange Act); (e) in the case of a Person that is a natural person and member of 24X National Exchange, any broker or dealer that is also a member of 24X National Exchange with which such Person is associated; (f) in the case of

⁶⁶ 15 U.S.C. 78f(b)(1).

⁶⁷ See Healthy Markets Letter at 2–6.

⁶⁸ *Id.* at 5.

⁶⁹ *Id.* at 5.

⁷⁰ See 24X Letter II at 16–17.

⁷¹ For any individual that presently holds or has held their offices or positions during the previous year, Exhibit J requires their name, title, dates of commencement and termination of term of office or position, and type of business in which each is

directly or indirectly, of record or beneficially, more than 40% of the then issued and outstanding Units.⁷⁸ A more restrictive condition will apply to Exchange Members, who either alone or together with their Related Persons, will be prohibited from owning, directly or indirectly, of record or beneficially, more than 20% of the then issued and outstanding Units.⁷⁹ If any party to the 24X Bermuda LLC Agreement purports to transfer⁸⁰ any Units in violation of these ownership limits, 24X Bermuda will be required (to the extent funds are legally available) to redeem the Units in excess of the applicable ownership limit.⁸¹

a Person that is a natural person, any relative or spouse of such Person, or any relative of such spouse who has the same home as such Person or who is a manager or officer of the Company, any subsidiary of the Company, or any of the Company's parent companies; (g) in the case of a Person that is an executive officer (as defined under Rule 3b-7 under the Exchange Act) or a director of a company, corporation or similar entity, such company, corporation or entity, as applicable; or (h) in the case of a Person that is a general partner, managing member or manager of a partnership or limited liability company, such partnership or limited liability company, as applicable." See 24X Bermuda LLC Agreement, Article 1, 1.49.

⁷⁸ See 24X Bermuda LLC Agreement, Article 9, Section 9.2(a)(i). There are limited exceptions to these prohibitions. See *infra* notes 84–85 and accompanying text.

⁷⁹ See 24X Bermuda LLC Agreement, Article 9, Section 9.2(a)(ii). This restriction on ownership by Exchange Members cannot be waived. See *id.* at Article 9, Section 9.2(b)(ii).

⁸⁰ "Transfer" means "any sale, transfer, conveyance, exchange, pledge, gift, donation, assignment, or other disposition of Units, whether voluntary or involuntary, and whether during the lifetime of the Person involved or upon or after his death, including, but not limited to, any disposition by operation of law, by court order, by judicial process, or by foreclosure, levy, or attachment. 'Transfer' when used as a verb shall have a correlative meaning. 'Transferor' and 'Transferee' mean a Person who makes or receives a Transfer, respectively." See 24X Bermuda LLC Agreement, Article 1, Section 1.71. See also *id.* at Article 9, Section 9.2(f)(i).

⁸¹ See 24X Bermuda LLC Agreement, Article 9, Section 9.2(f)(iii). The price of the redeemed Units or Unit Equivalents is also prescribed in the 24X Bermuda LLC Agreement. See *id.* The number of Units or Unit Equivalents to be redeemed is to be calculated after taking into account that the redeemed Units or Unit Equivalents will become treasury shares and will no longer be deemed to be outstanding. See *id.* It is further provided in the 24X Bermuda LLC Agreement that any Units or Unit Equivalents that have been called for redemption may not be deemed outstanding Units or Unit Equivalents if a sum sufficient to redeem the Units or Unit Equivalents has been irrevocably deposited or set aside to pay the redemption price. From and after the redemption date (unless 24X Bermuda defaults in providing funds for the payment of the redemption price), the redeemed Units or Unit Equivalents that have been redeemed will become treasury shares, and all rights of the holder of the redeemed Units or Unit Equivalents in 24X Bermuda (except the right to receive from 24X Bermuda the redemption price against delivery to 24X Bermuda of evidence of ownership of the shares) will cease. See *id.* In addition, in the event that any redemption has resulted in any person

In addition, no Person, alone or together with its Related Persons, may, directly, indirectly, or pursuant to any voting trust, agreement, plan or other arrangement, vote or cause the voting of Units or give any consent or proxy with respect to Units representing more than 20% of the voting power of the then issued and outstanding Units ("Voting Limitation").⁸² Further, no Person, either alone or together with its Related Persons, under circumstances that would result in the Units that are subject to such agreement, plan, or other arrangement not being voted on any matter or matters or any proxy relating thereto being withheld, where the effect of such agreement, plan, or other arrangement would be to enable any Person, either alone or together with its Related Persons, to vote, possess the right to vote, or cause the voting of Units that would represent more than 20% of such voting power.⁸³

The 24X Bermuda Board of Managers will be permitted to waive the 40% ownership limitation and the 20% Voting Limitation pursuant to a resolution duly adopted by the 24X Bermuda Board of Managers if it makes certain determinations.⁸⁴ Any such waiver will not be effective unless and until approved by the Commission.⁸⁵

Any Person that proposes to own Units in excess of the 40% ownership limitation, or to vote or grant any

owning such number of Units or Unit Equivalents that is in violation of the ownership limits, 24X Bermuda will be required to redeem those Units or Unit Equivalents pursuant to the limitation provisions. See *id.*

⁸² See 24X Bermuda LLC Agreement, Article 9, Section 9.2(a)(iii).

⁸³ See *id.*

⁸⁴ See 24X Bermuda LLC Agreement, Article 9, Section 9.2(b)(ii). See also *supra* note 79 (concerning the inability to waive restrictions for Exchange Members). The required determinations are that such waiver will not impair the ability of the Exchange to carry out its functions and responsibilities as an "exchange" under the Exchange Act and the rules and regulations promulgated thereunder; that such waiver is otherwise in the best interests of 24X Bermuda, its members, and the Exchange; that such waiver will not impair the ability of the Commission to enforce the Exchange Act and the rules and regulations promulgated thereunder; and that such Person and its Related Persons are not subject to any applicable "statutory disqualification" within the meaning of Section 3(a)(39) of the Exchange Act. See *id.* See also 24X US LLC Agreement, Section III(b)(ii)(B). These provisions are consistent with ownership and voting limits approved by the Commission for other SROs. See, e.g., Sapphire Order, MEMX Order, LTSE Order, MIAx PEARL Order, MIAx Order, and BATS Order, *supra* note 57, IEX Order, *supra* note 65, ISE Mercury Order and ISE Gemini Order, *supra* note 75; and Securities Exchange Act Release No. 61698 (Mar. 12, 2010), 75 FR 13151 (Mar. 18, 2010) (File Nos. 10–194 and 10–196) (order approving DirectEdge exchanges) ("DirectEdge Exchanges Order").

⁸⁵ See 24X Bermuda LLC Agreement, Article 9, Section 9.2(b)(ii).

proxies or consents with respect to Units constituting more than 20% of the voting power of the then outstanding Units, will be required to deliver written notice to the 24X Bermuda Board of Managers of its intention.⁸⁶ The notice must be delivered to the 24X Bermuda Board of Managers not less than 45 days (or any shorter period to which the Board of Managers expressly consents) before the proposed ownership of such Units or the proposed vote.⁸⁷

The 24X Bermuda LLC Agreement also contains provisions that are designed to further safeguard the ownership limitation and Voting Limitation described above or are otherwise related to direct and indirect changes in control. Specifically, any Person that, either alone or together with its Related Persons beneficially owns, directly or indirectly (whether by acquisition or a change in the number of Units outstanding), of record or beneficially 5% or more of the then outstanding Units will be required to notify the 24X Bermuda Board of Managers in writing of such ownership.⁸⁸ Thereafter, such persons will be required to update 24X Bermuda of any increase or decrease of 1% or more in their previously reported ownership percentage.⁸⁹

The 24X LLC Agreement does not include change of control provisions that are similar to those in the 24X Bermuda LLC Agreement and the 24X US LLC Agreement because the 24X LLC Agreement instead explicitly identifies its sole owner as 24X US, and in turn the 24X US LLC Agreement explicitly identifies 24X Bermuda as its sole owner.⁹⁰ Thus, any changes in the ownership of 24X would require the 24X LLC Agreement to be amended. Any amendment to the 24X LLC Agreement, including to ownership of

⁸⁶ See 24X Bermuda LLC Agreement, Article 9, Section 9.2(d).

⁸⁷ See *id.*

⁸⁸ See 24X Bermuda LLC Agreement, Article 9, Section 9.2(e)(i). The notice will require the Person's full legal name; the Person's title or status and the date on which such title or status was acquired; the Person's and its Related Person's approximate ownership interest in 24X Bermuda; and whether the person has power, directly or indirectly, to direct the management or policies of 24X Bermuda, whether through ownership of securities, by contract or otherwise. See *id.*

⁸⁹ See 24X Bermuda LLC Agreement, Article 9, Section 9.2(e)(ii). Changes of less than 1% must also be reported to 24X Bermuda if they result in such Person crossing a 20% or 40% ownership threshold. See *id.* In addition, the Exchange's rules also impose limits on affiliation between the Exchange and a Member of the Exchange. See 24X Rule 2.10 (No Affiliation between Exchange and any Member).

⁹⁰ See 24X LLC Agreement (introductory text) and Second Amended and Restated Limited Liability Company Agreement of 24X US (introductory text).

24X, would constitute a proposed rule change under section 19(b) of the Exchange Act⁹¹ and Rule 19b-4⁹² thereunder that will be required to be filed with, or filed with and approved by, the Commission.⁹³ Moreover, pursuant to the 24X LLC Agreement, any transfer of limited liability company interests of 24X will be subject to prior approval by the Commission pursuant to the rule filing procedure under section 19 of the Exchange Act.⁹⁴

Although 24X Bermuda is not directly responsible for regulation, its activities with respect to the operation of 24X must be consistent with, and must not interfere with, the self-regulatory obligations of 24X.⁹⁵ As described above, the provisions applicable to changes in control of 24X Bermuda (through changes in ownership of Units in 24X Bermuda) as well as the Voting Limitation imposed on owners of 24X Bermuda who also are Exchange Members, are designed to help prevent any owner of 24X Bermuda from exercising undue influence or control, either direct or indirect, over the operation of the Exchange and to help ensure that the Exchange retains a sufficient degree of independence to effectively carry out its regulatory obligations under the Exchange Act.

In addition, these limitations are designed to address the conflicts of interests that might result from a member of a national securities exchange owning interests in the exchange. As the Commission has stated in the past, an exchange member's ownership interest in an entity that controls an exchange could become so large as to cast doubt on whether the exchange may fairly and objectively exercise its self-regulatory responsibilities with respect to such member.⁹⁶ An exchange member that is a controlling shareholder of an exchange could seek to exercise that controlling influence by directing the exchange to refrain from, or the exchange may hesitate to, diligently monitor and conduct surveillance of the member's conduct or diligently enforce the exchange's rules and the federal securities laws with respect to conduct by the member that violates such

provisions. As such, these requirements are designed to minimize the potential that a person or entity can improperly interfere with or restrict the ability of the Exchange to effectively carry out its regulatory oversight responsibilities under the Exchange Act.

The Commission received one comment addressing the governance structure proposed by 24X.⁹⁷ This commenter stated 24X's ownership and voting structure "facially violate Commission Rules and the law."⁹⁸ According to this commenter "[24X] asserts that if the Commission approves its application, it has internal company documents that promise (to itself) that it will come into compliance with the law and Commission Rules within nine months of the approval. It is unclear whether or how this promise for future compliance would be enforceable, much less by whom."⁹⁹

In response to the commenter's concern about 24X's ownership and voting structure, 24X explained that "although the Exchange Act does not set forth any specific ownership and voting limitations applicable to exchanges, the Commission typically has expected exchanges to include in their governing documents certain limitations on ownership and voting. 24X's application includes each of these typical limitations on ownership and voting."¹⁰⁰ 24X stated that "[t]he only exception to such limitations is a request for a very brief, temporary exemption from certain ownership and voting limitation[s]."¹⁰¹

24X's and 24X Bermuda's proposed governance provisions are consistent with the Exchange Act, including section 6(b)(1), which requires, in part, an exchange to be so organized and have the capacity to carry out the purposes of the Exchange Act.¹⁰² In particular, these requirements are designed to minimize the potential that a person could improperly interfere with or restrict the ability of the Commission or 24X to effectively carry out their regulatory oversight responsibilities under the Exchange Act.

24X has proposed ownership and voting limitations in Article 9, Section 9.2 of the 24X Bermuda LLC Agreement that are consistent with the ownership and voting limitations in place across all other national securities exchanges,¹⁰³ and thus are designed to enable 24X to

meet its obligations under the Exchange Act.

a. Temporary Exemption

24X proposes that Dmitri Galinov and his Related Persons¹⁰⁴ have a temporary exemption from the ownership limitation set forth in Section 9.2 of the 24X Bermuda LLC Agreement until nine (9) months after the Commission grants 24X's application for registration as a national securities exchange or until 24X commences operation, if later than nine (9) months.¹⁰⁵ Further, 24X proposes in the 24X Bermuda LLC Agreement that if Dmitri Galinov and his Related Persons do not comply with the ownership limitation in Section 9.2 of the 24X Bermuda LLC Agreement within the applicable time period, then 24X Bermuda shall redeem all of the Units the holding of which by Dmitri Galinov and/or his Related Persons results in a violation of Section 9.2 for a price per Unit, as applicable, equal to the lesser of (a) book value or (b) Fair Market Value of such Units.¹⁰⁶ 24X also proposes that Dmitri Galinov and his Related Persons shall have a temporary exemption from the Voting Limitation set forth in Section 9.2 of the 24X Bermuda LLC Agreement until nine (9) months after the Commission grants 24X's application for registration as a national securities exchange or until 24X commences operation, if later than nine (9) months, but only with respect to any vote regarding any merger, consolidation or dissolution of the 24X Bermuda or any sale of all or substantially all of the assets of the 24X Bermuda.¹⁰⁷

Exhibit K of 24X's Form 1 application provides that "Dmitri Galinov owns 7,000,000 Common Units and 179,215 Seed-3 Preferred Units, for a total of 7,179,215 Units for all classes outstanding,"¹⁰⁸ and that "Dmitri Galinov is a Related Person of KNG CAPITAL LLC, Tanya Nazarov-Kenneally, and Vladimir Nazarov. KNG CAPITAL LLC owns 320,616 Seed-1 Preferred Units, which represents 1.85% of all classes of outstanding Units.

¹⁰⁴ See *infra* notes 108–110 and accompanying text for a description of the Related Persons of Dmitri Galinov.

¹⁰⁵ See 24X Bermuda LLC Agreement, Article 9, Section 9.2(g)(i). While 24X Bermuda LLC Agreement, Article 9, Section 9.2(a)(ii) sets forth an ownership restriction that applies to 24X Exchange Members, this provision does not apply to Mr. Galinov; the ownership limitation that does apply to Dmitri Galinov and his Related Persons is set forth in 24X Bermuda LLC Agreement, Article 9, Section 9.2(a)(i).

¹⁰⁶ See 24X Bermuda LLC Agreement, Article 9, Section 9.2(g)(i).

¹⁰⁷ See 24X Bermuda LLC Agreement, Article 9, Section 9.2(g)(ii).

¹⁰⁸ See Exhibit K, footnote 2.

⁹⁸ *Id.* at 2.

⁹⁹ *Id.*

¹⁰⁰ 24X Letter II at 16.

¹⁰¹ *Id.* See also *infra* section III.B.1.a.

¹⁰² 15 U.S.C. 78f(b)(1).

¹⁰³ See *supra* note 75.

Tanya Nazarov-Kenneally owns 1794 Seed-3 Preferred Units, which represents 0.01% of all classes of outstanding Units. Vladimir Nazarov owns 7176 Seed-3 Preferred Units, which represents 0.04% of all classes of outstanding Units.”¹⁰⁹ Accordingly, Exhibit K states that “on an aggregate basis, Dmitri Galinov, together with his Related Persons, owns 43.29% of the Units of all classes of outstanding Units.”¹¹⁰

In a letter, 24X stated that the temporary exemption would provide it with a brief period to bring its ownership and voting structure in line with the ownership and voting restrictions upon SEC approval.¹¹¹ 24X also stated that the Commission had granted “prior exchange applications with such limited exceptions to the ownership and voting restrictions.”¹¹²

The Commission finds that the limited temporary exemption in Article 9, Section 9.2(g) of the 24X Bermuda LLC Agreement from the ownership limitation and Voting Limitation set forth in Article 9, Section 9.2 of the 24X Bermuda LLC Agreement for Dmitri Galinov and his Related Persons is consistent with the Exchange Act. As discussed above, the ownership limitation and Voting limitation are designed to prevent any party from exercising undue control over the operation of the 24X and ensure that 24X is able to carry out its regulatory obligations under the Exchange Act. The exemption is designed to prevent Dmitri Galinov and his Related Persons from exercising undue control over 24X and minimize the possibility that 24X’s ability to carry out its self-regulatory responsibilities under the Exchange Act could be impaired. Specifically, the exemption is for a defined period of time that is based on 24X’s approval as a national securities exchange or commencement of its exchange operations. Thus, the exemption is designed to ensure that once 24X is a self-regulatory organization (“SRO”), the exemption will terminate within a specified period of time. In addition, the exemption from the Voting Limitation applies only with respect to the limited situations involving any merger, consolidation or dissolution of the 24X Bermuda or any sale of all or substantially all of the assets of the 24X Bermuda that will not permit undue control over 24X or impair the

regulatory responsibilities of 24X. The temporary exemption is designed to afford Dmitri Galinov and his Related Persons the ability to protect the investment they have already made in the establishment of 24X that is over the current ownership limitation, represented by 24X to be 3.29% of the Units of all outstanding Units.¹¹³

As part of its Form 1 application, 24X also has included in the 24X Bermuda LLC Agreement a representation that 24X Bermuda will redeem all of the Units the holding of which by Dmitri Galinov and/or his Related Persons results in a violation of the applicable 40% ownership limitation for a price per Unit, as applicable, equal to the lesser of (a) book value or (b) Fair Market Value of such Units. The 24X Bermuda LLC Agreement further provides that such redemption shall occur nine (9) months after the date of approval by the Commission of 24X’s Form 1 application or until commencement of the operation of 24X, if later than nine (9) months. Thus, in response to the commenter, 24X has established a mechanism to ensure compliance with the ownership limitation and Voting Limitation set forth in the 24X Bermuda LLC Agreement upon expiration of the stated time period. 24X Bermuda’s Managers and officers must comply with the federal securities laws and the rules and regulations promulgated thereunder and are deemed to agree to cooperate with the Commission and 24X in respect of the Commission’s oversight responsibilities regarding 24X and the self-regulatory functions and responsibilities of 24X.¹¹⁴ Therefore, should there be a need to pursue enforcement of the redemption requirement required of 24X Bermuda, 24X Bermuda’s Managers and officers must comply with the obligation and must cooperate with those efforts by the Commission and 24X to ensure that

such redemption occurs. Finally, should 24X Bermuda not redeem the Units owned by Dmitri Galinov and his Related Persons within the specified time period, the Commission may take action against 24X under section 19(h) of the Exchange Act.¹¹⁵

2. Regulatory Independence and Oversight

Although 24X Bermuda will not itself carry out regulatory functions, its activities with respect to the operation of 24X must be consistent with, and must not interfere with, 24X’s self-regulatory obligations. In this regard, 24X and 24X Bermuda propose to adopt certain provisions in their respective governing documents that are designed to help maintain the independence of the regulatory functions of 24X. These proposed provisions are substantially similar to those included in the governing documents of other exchanges that recently have been granted registration.¹¹⁶ Specifically:

- the managers, officers, employees, and agents of 24X Bermuda must give due regard to the preservation of the independence of the self-regulatory function of 24X and to its obligations to investors and the general public and must not take actions which would interfere with the effectuation of decisions by the Exchange Board relating to its regulatory functions (including disciplinary matters) or which would interfere with 24X’s ability to carry out its responsibilities under the Exchange Act.¹¹⁷

¹¹⁵ See *infra* Section III.B.2.

¹¹⁶ See, e.g., Sapphire Order, MEMX Order, LTSE Order, MIA Order, *supra* note 57, IEX Order, *supra* note 65; and DirectEdge Exchanges Order, *supra* note 84.

¹¹⁷ See 24X Bermuda LLC Agreement, Article 3, Section 3.4(a). Similarly, Article VI, Section 6.1(a)(ii) of the 24X LLC Agreement requires the Exchange Board and each Director, when managing the business and affairs of 24X, to consider the requirements of Section 6(b) of the Exchange Act and requires each Director, officer, or employee of 24X to comply with the federal securities laws and regulations thereunder and cooperate with the Commission, and 24X pursuant to its regulatory authority. Article VI, Section 6.1(a)(iii) of the 24X LLC Agreement also requires the Exchange Board, when evaluating any proposal to take into account all factors that the Exchange Board deems relevant, including, without limitation, to the extent deemed relevant: the potential impact on the integrity, continuity and stability of the national securities exchange operated by 24X and the other operations of 24X, on the ability to prevent fraudulent and manipulative acts and practices, and on investors and the public, and whether such proposal would promote just and equitable principles of trade, foster cooperation and coordination with Persons engaged in regulating, clearing, settling, processing information with respect to and facilitating transactions in securities or assist in the removal of impediments to or perfection of the mechanisms for a free and open market and a national market system.

¹¹³ See Exhibit K, footnote 2. The Commission has approved other temporary exemptions from the ownership or voting limitations included in the governance documents of owners of a national securities exchange. See Securities Exchange Act Release No. 49067 (Jan. 13, 2004), 69 FR 2761 (Jan. 20, 2004) (order granting approval to a proposed rule change by the Boston Stock Exchange Inc. Relating to the LLC Operating Agreement of the Proposed New Exchange Facility to be Operated by the Boston Options Exchange Group LLC)(approval of an exemption from a voting limitation for a period of 10 years for an owner of the BOX facility). See also Securities Exchange Act Release No. 42455 (Feb. 24, 2000), 65 FR 11388 (Mar. 2, 2000) (File No. 10–127) (order granting registration of the International Securities Exchange LLC)(approval of an exemption from an ownership limitation for period of 10 years for certain founders of the exchange).

¹¹⁴ See 24X Bermuda LLC Agreement, Article 3, Section 3.4(b).

¹⁰⁹ *Id.*

¹¹⁰ *Id.*

¹¹¹ See 24X Letter II at 16.

¹¹² *Id.* 24X cited Securities Exchange Act Release No. 42455 (Feb. 24, 2000) as support for its statement.

• 24X Bermuda must comply with the federal securities laws and the rules and regulations promulgated thereunder, and must cooperate with the Commission, 24X, Financial Industry Regulatory Authority, Inc. (“FINRA”), and any other SRO of which any routing broker for 24X is a member, pursuant to and to the extent of their respective regulatory authority.¹¹⁸ In addition, 24X Bermuda’s managers, officers, employees, and agents must comply with the federal securities laws and the rules and regulations promulgated thereunder and are deemed to agree to cooperate with: (1) the Commission and 24X in respect of the Commission’s oversight responsibilities regarding 24X and the self-regulatory functions and responsibilities of 24X; and (2) FINRA, any other SROs of which any routing broker of 24X is a member, and any routing broker of 24X in respect of FINRA’s and any such other SRO’s oversight responsibilities regarding any routing broker of 24X, as applicable.¹¹⁹ 24X Bermuda shall take reasonable steps necessary to cause its managers, officers, employees and agents to so cooperate.¹²⁰

• 24X Bermuda, and its managers, officers, employees, and agents must submit to the jurisdiction of the U.S. federal courts, the Commission, and 24X, for purposes of any suit, action or proceeding pursuant to the U.S. federal securities laws, and the rules and regulations thereunder, arising out of, or relating to, 24X activities.¹²¹

• All books and records of 24X reflecting confidential information pertaining to the self-regulatory function of 24X (including but not limited to disciplinary matters, trading data, trading practices, and audit information) must be retained in confidence by 24X and its personnel, including its Directors, officers, employees, and agents, and will not be used by 24X for any non-regulatory purposes and shall not be made available to any person (including, without limitation, any Exchange Member) other than personnel of the SEC, and those personnel of 24X, members of Committees, members of the 24X Board, hearing officers and other agents of 24X to the extent necessary or appropriate to properly discharge the self-regulatory responsibilities of 24X.¹²² Similar provisions apply to 24X

Bermuda and its personnel, managers, officers, employees, and agents.¹²³

• The books and records of 24X and 24X Bermuda must be maintained in the United States¹²⁴ and, to the extent they are related to the operation or administration of 24X, 24X Bermuda’s books and records will be subject at all times to inspection and copying by the Commission and 24X.¹²⁵

• Furthermore, to the extent 24X Bermuda’s corporate, financial and similar records, reports and documents, including all financial statements, books and records and minutes of proceedings, are related to the activities of 24X, such corporate, financial and similar records, reports and documents, including all financial statements, books and records and minutes of proceedings, as well as premises, managers, officers, employees and agents of 24X Bermuda shall be deemed to be the corporate, financial and similar records, reports and documents, including all financial statements, books and records and minutes of proceedings, as well as premises, managers, officers, employees or agents, as applicable, of 24X for the purposes of, and subject to oversight pursuant to, the Exchange Act.¹²⁶

• 24X Bermuda will take reasonable steps necessary to cause its manager, officers, employees, and agents, prior to accepting a position as a manager, officer, employee or agent (as applicable) with 24X Bermuda to consent in writing to the applicability of provisions regarding non-interference, confidentiality, books and records, compliance and cooperation, jurisdiction, and regulatory obligations,

¹²³ The 24X Bermuda LLC Agreement provides that all books and records of 24X reflecting confidential information pertaining to the self-regulatory function of 24X that come into the possession of 24X Bermuda, and the information contained in those books and records, will be subject to confidentiality restrictions and will not be used for any non-regulatory purposes. See 24X Bermuda LLC Agreement, Article 12, Section 12.2(c). The 24X and 24X Bermuda governing documents acknowledge that requirements to keep such information confidential shall not limit or impede the rights of the Commission to access and examine such information or limit the ability of Directors, Officers, employees, or agents of 24X to disclose such information to the Commission, or the manager, officers, employees or agents of 24X Bermuda to disclose such information to the Commission or 24X. See 24X LLC Agreement, Article IX, Section 9.2 and 24X Bermuda LLC Agreement, Article 12, Section 12.2(c).

¹²⁴ See 24X LLC Agreement, Article IX, Section 9.2; and 24X Bermuda LLC Agreement, Article 12, Section 12.2(b).

¹²⁵ See 24X Bermuda LLC Agreement, Article 12, Section 12.2(b).

¹²⁶ See 24X Bermuda LLC Agreement, Article 12, Section 12.2(a).

with respect to their activities related to 24X.¹²⁷

• The 24X Bermuda LLC Agreement requires that, so long as 24X Bermuda controls 24X, any changes to that document must be submitted to the Exchange Board for approval, and, if such change is required to be filed with the Commission pursuant to section 19(b) of the Exchange Act and the rules and regulations thereunder, such change shall not be effective until filed with and effective by operation of law, or filed with, and approved by, the Commission.¹²⁸

The provisions discussed in this section, which are designed to help ensure the independence of 24X’s regulatory function and facilitate the ability of 24X to carry out its regulatory responsibilities under, and operate in a manner consistent with, the Exchange Act, are appropriate and consistent with the requirements of the Exchange Act, particularly with Section 6(b)(1), which requires, in part, an exchange to be so organized and have the capacity to carry out the purposes of the Exchange Act.¹²⁹

Further, section 19(h)(1) of the Exchange Act¹³⁰ provides the Commission with the authority “to suspend for a period not exceeding twelve months or revoke the registration of [an SRO], or to censure or impose limitations upon the activities, functions, and operations of [an SRO], if [the Commission] finds, on the record after notice and opportunity for hearing, that [the SRO] has violated or is unable to comply with any provision of the Exchange Act, the rules or regulations thereunder, or its own rules or without reasonable justification or excuse has failed to enforce compliance . . .” with any such provision by its members (including associated persons thereof). If the Commission were to find, or become aware of, through staff review and inspection or otherwise, facts indicating any violations of the Exchange Act, including without limitation sections 6(b)(1) and 19(g)(1),¹³¹ these matters could provide the basis for a disciplinary proceeding under section 19(h)(1) of the Exchange Act.¹³²

Even in the absence of the governance provisions described above, under section 20(a) of the Exchange Act,¹³³ any person with a controlling interest in 24X would be jointly and severally

liable with and to the same extent that 24X is liable under any provision of the Exchange Act, unless the controlling person acted in good faith and did not directly or indirectly induce the act or acts constituting the violation or cause of action. In addition, section 20(e) of the Exchange Act¹³⁴ creates aiding and abetting liability for any person who knowingly provides substantial assistance to another person in violation of any provision of the Exchange Act or rule thereunder. Further, section 21C of the Exchange Act¹³⁵ authorizes the Commission to enter a cease-and-desist order against any person who has been “a cause of” a violation of any provision of the Exchange Act through an act or omission that the person knew or should have known would contribute to the violation. These provisions are applicable to 24X Bermuda.

3. Regulatory Oversight Committee

The regulatory operations of 24X will be monitored by the Regulatory Oversight Committee of the Exchange Board. As mentioned above, the Regulatory Oversight Committee will consist only of Independent Directors.¹³⁶ The Regulatory Oversight Committee will be responsible for overseeing the adequacy and effectiveness of 24X’s regulatory and SRO responsibilities, assessing 24X’s regulatory performance, and assisting the 24X Board (and committees of the 24X Board) in reviewing 24X’s regulatory plan and the overall effectiveness of 24X’s regulatory functions.¹³⁷

Further, the Chief Regulatory Officer (“CRO”) of 24X will have general supervision over 24X’s regulatory operations, including responsibility for overseeing 24X’s surveillance, examination, and enforcement functions and for administering any regulatory services agreements with another SRO to which 24X is a party.¹³⁸ The Regulatory Oversight Committee, in consultation with the Chief Executive Officer of 24X, will be responsible for establishing the goals, assessing the performance, and fixing the compensation of the CRO and for recommending personnel actions involving the CRO and senior regulatory personnel.¹³⁹

C. Regulatory Funding and Services

As a prerequisite for the Commission’s granting of an exchange’s application for registration, an exchange must be organized and have the capacity to carry out the purposes of the Exchange Act.¹⁴⁰ Specifically, an exchange must be able to enforce compliance by its members, and persons associated with its members, with the federal securities laws and rules thereunder and the rules of the exchange.¹⁴¹ The discussion below summarizes how 24X proposes to conduct and structure its regulatory operations.

1. Regulatory Funding

To help ensure that 24X has and will continue to have adequate funding to be able to meet its responsibilities under the Exchange Act, 24X stated that, if the Commission approves 24X’s application for registration as a national securities exchange, 24X Bermuda, through 24X US, will allocate sufficient assets to 24X to enable the Exchange’s operation.¹⁴² Specifically, 24X stated that 24X Bermuda shall make prior to the launch of the Exchange a cash contribution of \$5 million (in addition to any previously provided in-kind contributions, such as legal, regulatory, and infrastructure-related services) to 24X US. In turn, 24X US will make a corresponding cash contribution of \$5 million (in addition to any previously provided in-kind contributions, such as legal, regulatory, and infrastructure-related services) to the Exchange. The Exchange represented that such cash and in-kind contributions will be adequate to operate the Exchange, including the regulation of the Exchange.¹⁴³

24X also represented that there will be a written agreement among 24X Bermuda, 24X US and 24X that requires 24X Bermuda and 24X US to provide adequate funding for the Exchange’s operations, including the regulation of the Exchange.¹⁴⁴ Further, 24X stated that the agreement will provide that 24X will receive all fees, including regulatory fees and trading fees payable

responsibility for the role or function of the CRO, including implementation of the budget for the regulatory function or regulatory personnel matters, the Regulatory Oversight Committee shall take all steps reasonably necessary to ensure that the Chief Executive Officer does not compromise the regulatory autonomy and independence of the Chief Regulatory Officer or the regulatory function. See 24X LLC Agreement, Article VI, Section 6.2(h)(4).

¹⁴⁰ See 15 U.S.C. 78f(b)(1).

¹⁴¹ See *id.* See also Section 19(g) of the Exchange Act, 15 U.S.C. 78s(g).

¹⁴² See Form 1, Exhibit I.

¹⁴³ See *id.*

¹⁴⁴ See *id.*

by the Exchange’s members as well as any funds received from any market data fees and tape revenue. In addition, the agreement will provide that 24X Bermuda and 24X US will reimburse 24X for its costs and expenses to the extent that 24X’s assets are insufficient to meet its costs and expenses.

Further, the 24X LLC Agreement requires that any Regulatory Funds received by 24X shall not be used for non-regulatory purposes or distributed, advanced or allocated to any Company Member,¹⁴⁵ but rather, shall be applied to fund regulatory operations of the 24X (including surveillance and enforcement activities), or, as the case may be, shall be used to pay restitution and disgorgement of funds intended for customers.¹⁴⁶ Excess non-regulatory funds, as solely determined by the 24X, will be remitted to 24X US in accordance with the 24X LLC Agreement.¹⁴⁷

One commenter stated that 24X did not provide audited financial statements.¹⁴⁸ 24X stated that it believed that it complied with the requirements of Exhibit I regarding financial statements because while 24X has been formed it has not commenced operations and does not have audited financial statements for any fiscal year.¹⁴⁹ 24X also stated that the approach it has taken with regard to Exhibit I is consistent with prior exchange applications that have been approved by the SEC based on the same provided information.¹⁵⁰

The 24X Form 1 provides the Commission with information necessary to make a finding that 24X will operate consistent with its obligations under the Exchange Act.¹⁵¹ 24X has filed financial information about how it intends to fund its operations and has filed financial information in Exhibit D about its owners, 24X Bermuda and 24X US.

¹⁴⁵ Under the 24X LLC Agreement, the Company Member is 24X US.

¹⁴⁶ See 24X LLC Agreement, Article XI, Section 11.4(b). “Regulatory Funds” in the 24X LLC Agreement means “fees, fines or penalties derived from the regulatory operations of the Company. “Regulatory Funds” shall not be construed to include revenues derived from listing fees, market data revenues, transaction revenues, or any other aspect of the commercial operations of the Company, even if a portion of such revenues are used to pay costs associated with the regulatory operations of the Company.” Article I, II of the 24X LLC Agreement. This definition is consistent with the rules of other SROs. See, e.g., LTSE Bylaws, Article I(bb); Amended and Restated By-Laws of MIA Exchange, Article 1(II); By-Laws of NASDAQ PHILX LLC, Article I(ii); By-Laws of NASDAQ BX, Inc., Article I(ii). See also 24X Rule 15.2.

¹³⁵ 15 U.S.C. 78u–3.

¹³⁶ See *supra* note 61 and accompanying text.

¹³⁷ See 24X LLC Agreement, Article VI, Section 6.2(h)(i).

¹³⁸ See 24X LLC Agreement, Article VIII, Section 8.5.

¹³⁹ See 24X LLC Agreement, Article VI, Section 6.2(h)(iii). To the extent that the Chief Executive Officer of 24X has any indirect supervisory

Exhibit I of Form 1 requires that the applicant submit “[f]or the latest fiscal year of the applicant, audited financial statements which are prepared in accordance with, or in the case of a foreign applicant, reconciled with, United States generally accepted accounting principles, and are covered by a report prepared by an independent public accountant.”¹⁵² 24X has not provided audited financial statements nor the report prepared by an independent public accountant because, as it stated in the Form 1, the “Exchange has been formed but has not commenced operations and does not yet have audited financial statements for any fiscal year.”¹⁵³ As stated in the instructions for Form 1, “Form 1 is designed to enable the Commission to determine whether an exchange applying for registration is in compliance with the provisions of sections 6¹⁵⁴ and 19¹⁵⁵ of the Exchange Act.”¹⁵⁶ In this case, the applicant exchange has no past operations or activity. Moreover, the Commission has approved prior Form 1 applications with similar circumstances.¹⁵⁷ In addition, pursuant to Rule 6a–2(b)(1) of the Exchange Act,¹⁵⁸ as a registered national securities exchange, 24X must file an amendment to its Form 1 application. Exhibits D and I must be filed on or before June 30 of each year and include audited financial information as of the end of the latest fiscal year of the Exchange; thus, the Commission and the public will be informed of 24X’s financial activity going forward.¹⁵⁹

2. Regulatory Contract With FINRA

Although 24X will be an SRO with all of the attendant regulatory obligations under the Exchange Act, it has represented to the Commission that it intends to enter into a regulatory services agreement (“RSA”) with

FINRA, under which FINRA as a regulatory services provider will perform certain regulatory functions on 24X’s behalf.¹⁶⁰ Specifically, 24X expects that such services will include the performance of investigation, disciplinary, and hearing services.¹⁶¹ Notwithstanding the RSA, 24X will retain legal responsibility for the regulation of its members and its market and the performance of FINRA as its regulatory services provider. Because 24X anticipates entering into an RSA with FINRA, it has not made provisions to fulfill the regulatory services that will be undertaken by FINRA. Accordingly, the Commission is conditioning the operation of 24X on a final RSA that specifies the services that will be provided to 24X.

It is consistent with the Exchange Act for 24X to contract with FINRA to perform certain examination, enforcement, and disciplinary functions.¹⁶² These functions are fundamental elements of a regulatory program and constitute core self-regulatory functions. FINRA has the expertise and experience to perform these functions for 24X.¹⁶³ However, 24X, unless relieved by the Commission of its responsibility, bears the self-regulatory responsibilities and primary liability for self-regulatory failures, not the SRO retained to perform regulatory functions on 24X’s behalf.¹⁶⁴ In performing these regulatory functions, however, FINRA may nonetheless bear liability for causing or aiding and abetting the failure of 24X to perform its regulatory functions.¹⁶⁵ Accordingly, although FINRA will not act on its own behalf under its SRO responsibilities in carrying out these regulatory services for 24X, FINRA may have secondary liability if, for example, the Commission finds that the contracted functions are

being performed so inadequately as to cause a violation of the federal securities laws or rules thereunder by 24X.¹⁶⁶

3. Rule 17d–2 Agreements

Section 19(g)(1) of the Exchange Act,¹⁶⁷ among other things, requires every SRO registered as either a national securities exchange or national securities association to comply with the Exchange Act, the rules and regulations thereunder, and the SRO’s own rules, and, absent reasonable justification or excuse, enforce compliance by its members and persons associated with its members.¹⁶⁸ Rule 17d–2 of the Exchange Act permits SROs to propose joint plans to allocate regulatory responsibilities amongst themselves for their common rules with respect to their common members.¹⁶⁹ These agreements, which must be filed with and declared effective by the Commission, generally cover areas where each SRO’s rules substantively overlap, including such regulatory functions as personnel registration and sales practices. For example, the Commission declared effective a plan to allocate regulatory responsibilities between FINRA and LTSE pursuant to which FINRA assumes examination and enforcement responsibility for broker-dealers that are members of both FINRA and LTSE with respect to the rules of LTSE that are substantially similar to the applicable rules of FINRA, as well as certain specified provisions of the federal securities laws.¹⁷⁰

¹⁶⁶ See, e.g., MEMX Order, *supra* note 57; LTSE Order, *supra* note 57; IEX Order, *supra* note 65; and Nasdaq Order, *supra* note 57.

¹⁶⁷ 15 U.S.C. 78s(g)(1).

¹⁶⁸ 15 U.S.C. 78q(d) and 15 U.S.C. 78s(g)(2), respectively.

¹⁶⁹ See 15 U.S.C. 78q(d)(1) and 17 CFR 240.17d–2. Section 17(d)(1) of the Exchange Act allows the Commission to relieve an SRO of certain responsibilities with respect to members of the SRO who are also members of another SRO (“common members”). Specifically, Section 17(d)(1) allows the Commission to relieve an SRO of its responsibilities to: (i) receive regulatory reports from such members; (ii) examine such members for compliance with the Exchange Act and the rules and regulations thereunder, and the rules of the SRO; or (iii) carry out other specified regulatory responsibilities with respect to such members.

¹⁷⁰ See Securities Exchange Act Release No. 86587 (Aug. 7, 2019), 84 FR 39883 (Aug. 12, 2019) (File No. 4–747). See also, e.g., Securities Exchange Act Release Nos. 83696 (July 24, 2018), 83 FR 35682 (July 27, 2018) (FINRA/MIAX Exchange/MIAX PEARL); 77321 (Mar. 8, 2016), 81 FR 13434 (Mar. 14, 2016) (File No. 4–697) (FINRA/ISE Mercury, LLC); 73641 (Nov. 19, 2014), 79 FR 70230 (Nov. 25, 2014) (File No. 4–678) (FINRA/MIAX Exchange); 70053 (July 26, 2013), 78 FR 46656 (Aug. 1, 2013) (File No. 4–663) (FINRA/Topaz Exchange n/k/a ISE Gemini, LLC); 59218 (Jan. 8, 2009), 74 FR 2143 (Jan. 14, 2009) (File No. 4–575) (FINRA/Boston Stock Exchange, Inc. (“BSE”)); 58818 (Oct. 20, 2008), 73

¹⁵⁷ See e.g., Exhibit I for MIAX Sapphire, LLC Form 1 Application and Exhibits, available at <https://www.sec.gov/files/rules/other/2023/exhibit-i.pdf> (stating that applicant MIAX Sapphire, LLC has been formed but has not commenced operations and does not yet have audited financial statements for any fiscal year); Exhibit I for MEMX LLC Form 1 Application and Exhibits, available at <https://www.sec.gov/files/rules/other/2019/memx/exhibit-i.pdf> (stating that applicant MEMX LLC has been formed but has not commenced operations and so does not yet have audited financial statements for any fiscal year).

¹⁵⁸ 17 CFR 240.6a–2(b)(1).

¹⁵⁹ Form 1 filings are made available to the public. See Securities Exchange Act Release No. 97182 (Mar. 22, 2023), 88 FR 23920, 23928 (Apr. 18, 2023).

¹⁶⁰ See Form 1, Exhibit L. See also 24X Rules 9.8 and 13.7.

¹⁶¹ See Form 1, Exhibit L.

¹⁶² For example, LTSE, MEMX Exchange, IEX, MIAX Exchange, MIAX PEARL, LLC, Nasdaq MRX, LLC, Cboe EDGA Exchange, Inc., Cboe EDGX Exchange, Inc. (“Cboe EDGX”), and Cboe BZX Exchange, Inc. (“Cboe BZX”) have entered into RSAs with FINRA.

¹⁶³ See, e.g., MEMX Order, *supra* note 57; LTSE Order, *supra* note 57; IEX Order, *supra* note 65; DirectEdge Exchanges Order, *supra* note 84; Nasdaq Order, *supra* note 57. The Commission is not approving the RSA or any of its specific terms.

¹⁶⁴ See 15 U.S.C. 78s(g)(1).

¹⁶⁵ For example, if failings by FINRA have the effect of leaving 24X in violation of any aspect of 24X’s self-regulatory obligations, 24X would bear direct liability for the violation, while FINRA may bear liability for causing or aiding and abetting the violation. See, e.g., MEMX Order, *supra* note 57; LTSE Order, *supra* note 57; IEX Order, *supra* note 65; Nasdaq Order, *supra* note 57; BATS Order, *supra* note 57; DirectEdge Exchanges Order, *supra* note 84.

A Rule 17d-2 plan that is declared effective by the Commission relieves the specified SRO of those regulatory responsibilities allocated by the plan to another SRO.¹⁷¹ 24X has represented to the Commission that it will join all applicable plans, including Rule 17d-2 plans for the allocation of regulatory responsibilities.¹⁷² Similar to other exchanges, the Commission understands from 24X that it will enter into a bilateral Rule 17d-2 agreement covering common members of 24X and FINRA. This agreement will allocate to FINRA regulatory responsibility, with respect to common members, for specified regulatory and enforcement matters arising out of specified common rules and specified provisions of the Exchange Act and the rules and regulations thereunder. In addition, the Commission is conditioning operation of 24X as an exchange on 24X first joining the applicable multilateral Rule 17d-2 plans, including the multi-party Rule 17d-2 plan for the allocation of regulatory responsibilities with respect to certain Regulation NMS and Consolidated Audit Trail Rules and the multi-party Rule 17d-2 plan for the surveillance, investigation, and enforcement of common insider trading rules.¹⁷³

Because 24X anticipates entering into these Rule 17d-2 agreements, it has not made provision to fulfill the regulatory obligations that will be undertaken by FINRA and other SROs under these agreements with respect to common members.¹⁷⁴ Accordingly, the Commission is conditioning the operation of 24X on approval by the

Commission of a Rule 17d-2 agreement that allocates the above specified matters to FINRA, and the approval of an amendment to the existing multi-party Rule 17d-2 plans specified above to add 24X as a party.

D. 24X Trading System

1. Overview of Trading System¹⁷⁵

24X proposes to operate a fully automated electronic trading platform¹⁷⁶ for the trading of listed NMS stocks¹⁷⁷ pursuant to unlisted trading privileges (“UTP”)¹⁷⁸ 23 hours per day,¹⁷⁹ five (5) days per week, subject to certain trading pauses, as provided in the 24X rules.¹⁸⁰ Similar to other U.S. national securities exchanges, 24X will operate three different trading sessions that span from 4 a.m. to 7 p.m. on each U.S. Business Day:¹⁸¹ (1) a “Core Market Session” between 9:30 a.m. and 4 p.m.,¹⁸² (2) a “Pre-Market Session” between 4 a.m. and 9:30 a.m.,¹⁸³ and (3) a “Post-Market Session” between 4 p.m. and 7 p.m.¹⁸⁴ 24X also will operate a fourth trading session, the 24X Market Session,¹⁸⁵ which, as

¹⁷⁵ A more detailed description of the manner of operation of 24X’s trading system can be found in Form 1, Exhibit E. The proposed rulebook for 24X can be found in Exhibit B to 24X’s Form 1, and the governing documents for 24X, 24X US and 24X Bermuda can be found in Form 1, Exhibit A and Exhibit C. A complete set of forms concerning membership and access can be found in Form 1, Exhibit F.

¹⁷⁶ See Form 1, Exhibit E. See also 24X Rule 11.9(b).

¹⁷⁷ See 17 CFR 242.600(b)(55) (defining “NMS Stock”).

¹⁷⁸ See 24X Rule 14.1.

¹⁷⁹ As discussed below, 24X will pause trading from 7 p.m. until 8 p.m. Monday, Tuesday, Wednesday, and Thursday nights. See 24X Rule 11.15(c)(2). Unless otherwise noted, all times referred to in this order are Eastern Time (“ET”).

¹⁸⁰ See, e.g., 24X Rule 11.15(c); Form 1, Exhibit E-1 at 4. See also *infra* notes 329–338 (discussing 24X’s trading pauses).

¹⁸¹ See 24X Rule 1.5(l) defining “U.S. Business Day.” In addition, 24X proposes, among others, the following terms: “24X Trading Day” (see 24X Rule 1.5(b)); “Exchange Trading Hours other than the 24X Market Session” (see 24X Rule 1.5(r)); “Extended Hours Trading” (see 24X Rule 1.5(s)); “Regular Trading Hours” (see 24X Rule 1.5(dd)). 24X Rule 1.5(s) defines “Extended Hours Trading” as “trading during the Pre-Market Session, Post-Market Session and 24X Market Session.”

¹⁸² See 24X Rule 1.5(l) defining the “Core Market Session.”

¹⁸³ See 24X Rule 1.5(z) defining the “Pre-Market Session.” See, e.g., NYSE Arca, Inc., Cboe EDGX Exchange, Inc., The Nasdaq Stock Market LLC.

¹⁸⁴ See 24X Rule 1.5(y) defining the “Post-Market Session.” See, also e.g., NYSE Arca, Inc., NYSE American LLC, NYSE Chicago, Inc., NYSE National, Inc., Cboe BZX Exchange, Inc., Cboe BYX Exchange, Inc., Cboe EDGA Exchange, Inc., Cboe EDGX Exchange, Inc., The Nasdaq Stock Market LLC. These national securities exchanges operate post-market sessions until 8 p.m. As discussed above, 24X will end its Post-Market Session at 7 p.m.

¹⁸⁵ See 24X Rule 1.5(c) defining the “24X Market Session.”

discussed in greater detail below,¹⁸⁶ will operate between 8 p.m. and 4 a.m. Sunday, Monday, Tuesday, Wednesday, and Thursday nights that precede a U.S. Business Day.¹⁸⁷

24X will not maintain a physical trading floor.¹⁸⁸ One commenter stated that the Form 1 was unclear about 24X’s physical locations.¹⁸⁹ 24X responded that it “clearly” provided information on the Form 1 execution page as well as Exhibit E.¹⁹⁰ Specifically, 24X stated that its primary address is in Connecticut and that the Exchange will operate out of a third-party data center in New Jersey, with a secondary site located in Illinois.¹⁹¹ Further, 24X stated that 24X personnel will operate out of its New York office as well as its Connecticut office.¹⁹²

The Form 1 and exhibits provide information about the location of 24X Systems and personnel. The Form 1 Execution Page states that 24X’s primary address is in Stamford, Connecticut. Exhibit E states that 24X will operate out of data centers in New Jersey and Illinois and that its personnel will operate out of offices in Connecticut and New York. Exhibit E-1 states that 24X’s trading platform will be located in the Equinix data center in New Jersey (NY4) and that its secondary back-up data center will be located in Chicago, Illinois (CH4).¹⁹³ 24X has provided information about the location of its platform and its personnel.

Only broker-dealer members of 24X and entities that enter into market access arrangements with members (collectively “Users”¹⁹⁴) will have access to the 24X System,¹⁹⁵ and only Authorized Traders¹⁹⁶ may obtain access to the 24X System on behalf of Users.¹⁹⁷ Liquidity will be derived from quotes and orders to buy and sell

¹⁸⁶ See *infra* section III.D.2.

¹⁸⁷ See 24X Rule 1.5(c). 24X initially proposed to operate the 24X Market Session on weekends and holidays as well as overnight. In Amendment No. 2, 24X revised the 24X Rule 1.5(c) definition of 24X Market Session to include only overnight hours, as discussed above, and to remove its proposal to provide trading on weekends and holidays.

¹⁸⁸ See Form 1, Exhibit E-1 at 2.

¹⁸⁹ See Healthy Markets Letter at 6.

¹⁹⁰ See 24X Letter II at 17.

¹⁹¹ *Id.* See also Form 1, Execution Page (listing Stamford, Connecticut as its primary address); Form 1, Exhibit E (describing the locations of its Systems and personnel); Form 1, Exhibit E-1 (describing the locations of the trading Systems).

¹⁹² See 24X Letter II at 17; see also Form 1, Exhibit E.

¹⁹³ See also Form 1, Exhibit E.

¹⁹⁴ See 24X Rule 1.5(mm) defining “User.”

¹⁹⁵ To obtain authorized access to the 24X System, each User must enter into a User Agreement with 24X. See 24X Rule 11.3(a). See also 24X Rule 1.5(hh) defining “System.”

¹⁹⁶ See 24X Rule 1.5(g).

¹⁹⁷ See 24X Rule 11.4.

FR 63752 (Oct. 27, 2008) (File No. 4-569) (FINRA/BATS Exchange, Inc.); 55755 (May 14, 2007), 72 FR 28087 (May 18, 2007) (File No. 4-536) (National Association of Securities Dealers, Inc. (“NASD”) n/k/a FINRA) and Chicago Board of Options Exchange, Inc. concerning the CBOE Stock Exchange, LLC); 55367 (Feb. 27, 2007), 72 FR 9983 (Mar. 6, 2007) (File No. 4-529) (NASD/International Securities Exchange, LLC); 54136 (July 12, 2006), 71 FR 40759 (July 18, 2006) (File No. 4-517) (NASD/Nasdaq).

¹⁷¹ See *supra* notes 169–170 and accompanying text.

¹⁷² See Form 1, Exhibit E.

¹⁷³ See Securities Exchange Act Release Nos. 88366 (Mar. 12, 2020), 85 FR 15238 (Mar. 17, 2020) (File No. 4-618) (order approving and declaring effective a proposed amendment to the multi-party Rule 17d-2 plan relating to covered Regulation NMS and Consolidated Audit Trail Rules); 86542 (Aug. 1, 2019), 84 FR 38679 (Aug. 7, 2019) (File No. 4-566) (notice of filing and order approving and declaring effective an amendment to the multi-party Rule 17d-2 plan relating to the surveillance, investigation, and enforcement of insider trading rules).

¹⁷⁴ For common members, the regulatory obligations will be covered by the Rule 17d-2 agreements, and for 24X Exchange Members that are not also members of FINRA, the regulatory obligations will be covered by the RSA.

submitted to 24X electronically by Exchange Members.¹⁹⁸ 24X proposes to operate a fully automated electronic limit order book with a continuous matching function¹⁹⁹ and orders resting on the book would be ranked and executed in price/time priority.²⁰⁰

24X proposes certain rules to govern trading during Exchange Trading Hours other than the 24X Market Session,²⁰¹ while other rules and requirements would apply exclusively to trading during the 24X Market Session.²⁰² For example, 24X proposes to accept Market Orders,²⁰³ Limit Orders²⁰⁴ and Pegged Orders²⁰⁵ with various modifiers and time-in-force instructions, although subject to certain limitations²⁰⁶ during various trading sessions.²⁰⁷ Specifically, Market Orders would be accepted only during the Core Market Session; Pegged Orders would be accepted only during the Pre-Market Session, the Core Market Session, and the Post-Market Session; and Limit Orders would be accepted

during all sessions.²⁰⁸ Further, pursuant to 24X Rule 11.16, Market Orders and Pegged Orders are not eligible for execution during the 24X Market Session. Orders may be submitted in round lots, odd lots, or mixed lots.²⁰⁹ 24X will permit orders to be entered, canceled, modified, executed on or routed away from 24X during the Pre-Market Session, the Core Market Session, and the Post-Market Session.²¹⁰ 24X would also permit orders to be entered, canceled, modified or executed on the Exchange during the 24X Market Session.²¹¹

With respect to the price of executions that would occur on the Exchange,²¹² the 24X rules are designed to comply with short sale price test restriction under Rule 201 of Regulation SHO,²¹³ the order protection requirements of Rule 611 of Regulation NMS,²¹⁴ and the National Market System Plan to Address Extraordinary Market Volatility pursuant to Rule 608 of Regulation NMS (“LULD Plan”).²¹⁵ 24X will permit the use of self-trade protection (“STP”) modifiers to prevent an incoming order from executing against a resting order originating from the same market participant.²¹⁶

In addition, 24X will permit firms to register as Market Makers with affirmative and negative market making obligations.²¹⁷ In particular, Market Makers will be required to maintain continuous two-sided quotes of at least 100 shares only during Regular Trading Hours.²¹⁸ While Market Makers would have no such obligations during the Pre-Market, Post-Market or 24X Market Sessions, 24X’s proposed rules relating to Market Makers are similar to the rules

of other national securities exchanges, which do not extend Market Maker obligations to extended hours trading sessions.²¹⁹

In its Form 1, 24X stated that it will join and participate in any applicable national market system plan that other national securities exchanges and/or market centers have joined, including, for example, the three Equity Data Plans²²⁰ that currently govern the collection, consolidation, processing, and dissemination of core data.²²¹ 24X further states that it would “likewise join all other applicable Plans as deemed necessary and in the interest of its Users.”²²²

One commenter stated that the Exchange proposal was “somewhat vague” with regard to transaction fees and that 24X “should give a range of where fees will land compared to other exchanges.”²²³ 24X responded that its approach to fees is “typical for exchange applications” and that Exhibit E states that it “intends to establish a Fee Schedule setting forth all applicable transaction and other fees . . . close to launch of the Exchange” so that the fees reflect the “competitive landscape at that time.”²²⁴

Form 1 requires an applicant to provide a description of proposed fees.²²⁵ In its Exhibit E, 24X described its proposed fees, including transaction fees, membership fees, regulatory charges, permit application fees, market

¹⁹⁸ 24X proposes to have one class of membership open to registered broker-dealers. See 24X Rule 2.3 (stating, in part, that “any registered broker or dealer that is and remains a member of a national securities association registered under Section 15A(a) of the Exchange Act or a member of another national securities exchange registered under Section 6(a) of the Exchange Act or any person associated with such a registered broker or dealer shall be eligible to be, and to remain, a Member”).

¹⁹⁹ See Form 1, Exhibit E–1 at 2.

²⁰⁰ See 24X Rule 11.8(a) and 24X Rule 11.9(a)(4).

²⁰¹ See 24X Rule 11.1(a).

²⁰² See 24X Rule 11.16(a) (stating, “[e]xcept as explicitly set forth herein, each of the rules and requirements set forth in this Chapter 11 applies to trading activity during the 24X Market Session.”). The 24X rules make specific provisions for the 24X Market Session with respect to, for example, matters such as order types permitted. See, e.g., Exhibit E–1 to 24X’s Form 1; 24X Rule 11.7.

²⁰³ 24X defines the term “Market Order,” in part, as “[a]n order to buy or sell a stated amount of a security that is to be executed at the NBBO or better when the order reaches the Exchange.” See 24X Rule 11.7(a).

²⁰⁴ 24X defines the term “Limit Order” as “[a]n order to buy or sell a stated amount of a security at a specified price or better. A marketable Limit Order is a Limit Order to buy (sell) at or above (below) the lowest (highest) Protected Offer (Protected Bid) for the security.” See 24X Rule 11.7(b).

²⁰⁵ 24X defines the term “Pegged Order,” in part, as “[a] User may indicate to peg an order to a reference price, including an instruction of Primary Peg (the NBB for buy orders and NBO for sell orders, with or without offsets) or an instruction of Midpoint Peg (the midpoint of the NBBO). The System’s calculation of the NBBO would not take into account any Pegged Orders that are resting on the 24X Book. A new timestamp is created for a Pegged Order each time it is automatically re-priced.” See 24X Rule 11.7(c).

²⁰⁶ See 24X Rule 11.7 (describing, among other things, order types eligible for the various 24X trading sessions). See also Form 1, Exhibit E–1 at 7.

²⁰⁷ See, e.g., 24X Rule 11.7; Form 1, Exhibit B.

²⁰⁸ See 24X Rule 11.7(a)(4) for Market Orders, 24X Rule 11.7(c)(4) for Pegged Orders, and 24X Rule 11.7(b) for Limit Orders.

²⁰⁹ See 24X Rule 11.6(q). See also Form 1, Exhibit E–1 at 5.

²¹⁰ See 24X Rule 11.1(b).

²¹¹ See 24X Rule 11.1(c) (providing, in part, that “to the extent that other Trading Centers are open during the 24X Market Session, orders may be routed away to such Trading Centers during the 24X Market Session”).

²¹² As discussed above, certain rules govern trading during Exchange Trading Hours other than the 24X Market Session, while other rules and requirements apply exclusively to trading during the 24X Market Session. See *supra* note 201 and accompanying text. See also 24X Rule 11.1(a).

²¹³ See 24X Rule 11.9(a)(1). See also 24X Rule 11.9(a)(5), 24X Rule 11.23, and 24X Rule 13.2. See also *supra* section III.D.2.f.

²¹⁴ See 24X Rule 11.9(a)(2).

²¹⁵ See 24X Rule 11.9(a)(3). See also section III.D.2.b.

²¹⁶ See 24X Rule 11.9(d).

²¹⁷ See 24X Rules 11.17 through 11.20.

²¹⁸ See 24X Rule 11.20(a)(1). The term “Regular Trading Hours” is defined as “the time between 9:30 a.m. and 4:00 p.m. Eastern Time each U.S. Business Day.” See 24X Rule 1.5(dd).

²¹⁹ See, e.g., MEMX Exchange Rules 11.17 through 11.20; Cboe EDGX Rules 11.17 through 11.20.

²²⁰ The three equity data plans that currently govern the collection, consolidation, processing, and dissemination of national market system data by the exclusive Securities Information Processors (“SIPs”) are (1) the Consolidated Tape Association Plan (“CTA Plan”), (2) the Consolidated Quotation Plan (“CQ Plan”), and (3) the Joint Self-Regulatory Organization Plan Governing the Collection, Consolidation, and Dissemination of Quotation and Transaction Information for Nasdaq-Listed Securities Traded on Exchanges on an Unlisted Trading Privileges Basis (“UTP Plan”) (collectively, the “Equity Data Plans”). See also 24X Rule 1.5(o).

²²¹ See Form 1, Exhibit E. See also 24X Rule 11.11 (providing, in part, that 24X will report executions to the appropriate consolidated transaction reporting system “to the extent required by the Exchange Act and the rules and regulations thereunder.”). See also *infra* section III.D.2.a.i. (discussing the availability of the Equity Data Plans during the 24X Market Session).

²²² See Form 1, Exhibit E (stating, “including, but not limited to, the NMS Plan to Address Extraordinary Market Volatility (“Limit Up-Limit Down Plan”), the NMS Plan Governing the Consolidated Audit Trail (the ‘CAT NMS Plan’), the NMS Plan for the Selection and Reservation of Securities Symbols, and the 17d–2 Plans for Allocation of Regulatory Responsibilities”).

²²³ See Montone Letter at 9.

²²⁴ See 24X Letter II at 15.

²²⁵ See Form 1, Exhibit E (requiring a description of the manner of operation of the System and that the description should include proposed fees).

data fees, co-location fees, connectivity fees, and bandwidth fees.²²⁶ Further, 24X Rule 15.1, which establishes the Exchange's authority to impose fees, dues, assessments and other charges that 24X may prescribe, lists the following fees that 24X will impose: "membership dues, transaction fees, communication and technology fees, regulatory charges, listing fees, and other fees and charges as the Exchange may determine."²²⁷ 24X also stated that it intends to establish a fee schedule that sets forth all fees, and that the actual fee amounts and types will be determined at a time closer to launch.²²⁸

24X's Form 1 satisfies the requirements of the Form 1 as it describes the fees that 24X may prescribe. However, any fees, dues or other charges that 24X intends to assess must be filed as a proposed rule change pursuant to section 19(b) of the Exchange Act²²⁹ and Rule 19b-4 thereunder.²³⁰ Exchange fees are subject to the requirements of the Exchange Act, including sections 6(b)(4) and 6(b)(5).²³¹

2. 24X Market Session

As discussed above, 24X will operate the 24X Market Session, a fourth trading session that will extend the hours of exchange trading for NMS stocks beyond the existing extended hours sessions.²³² In Amendment No. 2, 24X modified its original proposal for the 24X Market Session to include overnight trading only on certain nights of the week—Sunday through Thursday—that precede a U.S. Business Day.²³³ As discussed above,²³⁴ while several exchanges offer a pre-market trading session that may start as early as 4 a.m. on each U.S. Business Day, and most exchanges offer a post-close trading session that ends at 8 p.m. on each U.S. Business Day, 24X's model, as amended, will expand exchange trading hours such that trading on 24X will be conducted on a largely continuous basis during the week subject to a daily one hour trading pause.²³⁵ 24X will operate the 24X Market Session, as amended, in a manner that is consistent with current

extended hours sessions.²³⁶ Further, as discussed below, 24X will require that 24X Members make disclosures to their customers concerning risks associated with trading during Extended Hours Trading, and has included tailored disclosures that 24X Members must provide to their customers to reflect the potential risks associated with the 24X Market Session, as amended.²³⁷

The Commission received several comment letters about the proposed operation of the 24X Market Session, which, as initially proposed, would have operated 8 p.m. until 4 a.m. during every U.S. Business Day as well as most of the day on weekends and holidays, subject to proposed trading pauses. Some commenters supported the originally proposed expansion of trading hours.²³⁸ For instance, two commenters stated that the originally proposed 24X Market Session would bring the "current practice of trading 24/7 onto a lit exchange"²³⁹ and that the market should be left to decide whether this is a valuable endeavor.²⁴⁰ One commenter stated that 24-hour trading already occurs and that "it is better that it be on a national securities exchange with higher regulatory protections afforded by an exchange."²⁴¹

One commenter stated that its recent research "implies that 23/7 trading will likely improve the market's allocative efficiency relative to the traditional 6.5/5 trading schedule."²⁴² This commenter stated that their research studied welfare, measured by the allocative efficiency of the market, in equilibria of two market designs: one with a daily closure, and another in which closure is eliminated. According to the commenter, the research showed that "as long as there is a closure for some time, most of the benefits of a market closure are accrued."²⁴³ Thus, the

²³⁶ For example, 24X will not accept Market Orders or Pegged Orders in the 24X Market Session and 24X will utilize the same clearly erroneous execution rules that apply on other venues that have extended hours sessions.

²³⁷ See 24X Rule 3.21. See also *infra* section III.D.2.e.

²³⁸ See, e.g., Polygon Letter; DriveWealth Letter; Angel Letter I; Angel Letter II; Montone Letter.

²³⁹ See Polygon Letter at 5. See also DriveWealth Letter at 1.

²⁴⁰ See Polygon Letter at 5. See also Angel Letter I.

²⁴¹ See Angel Letter I at 2.

²⁴² See Blonien and Ober Letter at 1.

²⁴³ According to the commenter, in the model, a market closure not only concentrates liquidity throughout the day but also helps coordinate liquidity, especially towards the end of the trading. Moreover, the commenters state that the cost of a closure, that a traders' positions may deviate far from their desired positions, is, according to the commenter, outweighed by its benefits. See Blonien and Ober Letter at 1.

commenter stated that it is likely that 24X's proposed 23/7 exchange will maintain the welfare benefits of a market closure, reduce the costs of a prolonged closure, and enhance allocative efficiency.²⁴⁴

Several commenters raised concerns about the original proposed expansion of trading hours. For instance, two commenters stated that the proposal would harm retail investors due to low volumes and wide spreads during the extended trading hours and a lack of liquidity would result in a wealth transfer from investors to professionals.²⁴⁵ Another commenter stated that although 24X suggests that retail investors would welcome 24-hour exchange trading, the demand for investors for overnight and weekend trading seems speculative because no information has been provided about the number of such investors or the relevance of the potential benefit.²⁴⁶ Another commenter stated that investor demand should be considered to assess whether the expansion of trading hours would justify the market-wide costs.²⁴⁷

One commenter suggested a "cautious approach to expanding hours" because its research indicated "negative consequences for retail investment."²⁴⁸ Another commenter, however, stated that the research cited did not examine overnight trading or expansion of trading hours but instead examined time zone differences.²⁴⁹ This commenter stated 24-hour trading "is already here on automated trading systems, so rejecting the 24X application would not restrict retail access to overnight trading at all."²⁵⁰

With respect to the commenter's concern about retail investor participation in the 24X Market Session,²⁵¹ 24X stated that, as discussed below, the Commission has historically allowed retail participation in expanded trading hours with appropriate disclosures.²⁵² In Amendment No. 1, 24X amended its 24X Rule 3.21 to

²⁴⁴ See Blonien and Ober Letter at 1. The commenter stated that these findings are based on a model of large and homogeneous traders, and that heterogeneous groups of traders, such as retail investors, market makers, and informed traders, may have asymmetric responses to market closures of differing lengths. See *id.*

²³² See 24X Rule 11.2(a); see also section III.D.2.d. (discussing securities eligible for trading during the 24X Market Session). See also *supra* notes 183 and 184 (describing the existing exchanges' extended hours sessions).

²³³ See 24X Rule 1.5(c).

²³⁴ See *supra* notes 183 and 184 and accompanying text.

²³⁵ See 24X Rule 11.15(c). See also *infra* section III.D.2.c.

provide additional disclosures designed to address the potential risks of the 24X Market Session.²⁵³ 24X stated, in response to commenters questioning whether additional trading hours would benefit investors, that “there is substantial interest in expanded trading hours” and that the markets should be able to determine whether the 24X proposal will be successful.²⁵⁴ 24X also stated that its amended rules for the 24X Market Session are a more incremental approach that will address the cost concerns raised by some commenters because it eliminates the potential costs related to weekend and holiday trading.²⁵⁵ 24X further stated that it did not believe that “costs related to innovation should be the basis for the Commission to determine that an exchange application does not comply with the Exchange Act.”²⁵⁶ 24X also stated that the markets will determine whether “its innovative proposal” is successful.²⁵⁷

As discussed further below, the Commission finds that the 24X rules for the 24X Market Session, as amended, are consistent with the Exchange Act. Specifically, the 24X Market Session rules are modeled on the rules of national securities exchanges that currently operate trading sessions during extended hours and are designed to address the potential differences in trading compared to Regular Trading Hours.²⁵⁸ For example, during the 24X Market Session, the only order type that may be submitted is a Limit Order, which requires market participants to set the prices at which they are willing to trade. Accepting only Limit Orders during extended hours sessions can help to address the potential risks that there may be wider spreads,²⁵⁹ or that prices may be affected by new announcements made by issuers.²⁶⁰ Other exchanges allow the submission

of only limit orders during extended hours sessions.²⁶¹

In addition, 24X Members are required to provide disclosures to customers that will provide information about potential risks of trading in extended hours, including the 24X Market Session. These disclosures are consistent with the rules of other SROs, which require customers to be provided with disclosures regarding the potential risks of extended hours trading.²⁶² While two commenters stated that investors would be harmed by low liquidity, low volumes and wider spreads, these potential risks are included in the disclosures that must be provided to customers by 24X Members.²⁶³ Investors are provided information about these potential risks and are able to decide whether to participate in extended hours sessions, including the 24X Market Session.

Further, the 24X Market Session will overlap with the extended hours trading that currently occurs in the over-the-counter (“OTC”) market.²⁶⁴

Accordingly, while the 24X Market Session represents a new trading session for exchange trading, market participants, including retail investors, are already able to trade during the times covered by the 24X Market Session. While commenters stated that investor demand should be considered to assess whether the expansion of trading hours would justify market-wide costs, the Commission is required to consider a Form 1 application for consistency with statutory standards.²⁶⁵ For the reasons discussed herein, the Commission has determined that the 24X Form 1 is consistent with the Exchange Act and the rules thereunder.

Finally, pursuant to this Form 1, as amended, 24X will not commence

operation of the 24X Market Session prior to filing a proposed rule change. Specifically, 24X Rule 1.5(c) requires 24X, prior to commencing operations during the 24X Market Session, to file a proposed rule change, pursuant to section 19(b) of the Exchange Act and the rules thereunder, to amend its rules confirming that 24X is able to comply with its obligations under the Exchange Act during the 24X Market Session and that the Equity Data Plans are prepared to collect, consolidate, process and disseminate quotation and transaction information at all times during the 24X Market Session (“24X Market Session Proposed Rule Change”). As discussed below, the 24X Market Session Proposed Rule Change must be filed with the Commission and approved, or otherwise become effective pursuant to Exchange Act section 19(b), before 24X can provide trading during the 24X Market Session.²⁶⁶ In the 24X Market Session Proposed Rule Change, 24X must confirm that it is able to comply with its obligations under the Exchange Act during the 24X Market Session and that the Equity Data Plans are prepared to collect, consolidate, process and disseminate quotation and transaction information at all times during the 24X Market Session that is equivalent to the mechanism established for Exchange Trading Hours other than the 24X Market Session.²⁶⁷ The 24X rule requiring the operation of the Equity Data Plans during the 24X Market Session is designed to ensure that consolidated quotation and transaction data are provided in a manner that is consistent with the existing extended hours sessions on exchanges.²⁶⁸ Accordingly, 24X rules are designed to prevent fraudulent and manipulative acts and practices, promote just and equitable principles of trade, foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to and facilitating transactions in NMS stocks, and perfect the mechanism of a free and open market and a national market system.²⁶⁹ 24X rules are also designed to protect

²⁵³ As discussed above, in Amendment No. 2, 24X scaled back the hours of operation of the 24X Market Session to 8 p.m. to 4 a.m. Sunday, Monday, Tuesday, Wednesday, and Thursday nights, so long as the next trading day is a U.S. Business Day. See *supra* note 233 and accompanying text. As part of Amendment No. 2, 24X also revised the disclosures that must be provided by 24X Members to their customers to reflect the revised operating hours of the 24X Market Session. See *infra* section III.D.2.e.

²⁵⁴ See 24X Letter III at 5. See also 24X Letter IV at 6 (stating that “the number of market participants interested in overnight trading continues to grow.”).

²⁵⁵ See 24X Letter III at 2.

²⁵⁶ See 24X Letter III at 2.

²⁵⁷ See 24X Letter IV at 6.

²⁵⁸ See *supra* notes 183–184 and accompanying text.

²⁵⁹ See 24X Rule 3.21(f).

²⁶⁰ See 24X Rule 3.21(e).

²⁶¹ See e.g., NYSEArca Rule 7.34–E(d) (stating that only limit orders are eligible to participate in the Early Trading Session and Late Trading Session).

²⁶² See e.g., NYSEArca Rule 7.34–E(d)(3); Nasdaq Rule Equity 2, Section 20; MEMX Exchange Rule 3.21; FINRA Rule 2265.

²⁶³ See 24X Rule 3.21(a) (describing the risk of lower liquidity); 24X Rule 3.21(f) (describing the risk of wider spreads).

²⁶⁴ See e.g., Blue Ocean ATS, LLC (“BOATS”). The operating hours for BOATS occur from 8 p.m. to 4 a.m. on days with the NYSE Trade Reporting Facility is open for trade reporting. See Form ATS–N, available at sec.gov/Archives/edgar/data/1795131/000153949723000091/xslATS-N_X01/primary_doc.xml.

²⁶⁵ In a letter to the Commission, 24X stated that investor demand for overnight trading is growing and provided details of other market participants that have recently expressed interest in expanding the hours of trading on an exchange. See 24X Letter IV at 6 (citing a proposal by NYSE Arca to expand its trading hours and a notice by Schwab announcing an expansion to 24-hour trading for certain stocks).

²⁶⁶ See 24X Rule 1.5(c) and 24X Rule 11.16. 24X may begin operations of its other trading sessions once the conditions discussed below have been satisfied.

²⁶⁷ See 24X Rule 1.5(c).

²⁶⁸ As discussed above, the 24X will not start operating the 24X Market Session unless the Equity Data Plans have established a mechanism to collect, consolidate, process and disseminate quotation and transaction information at all times during the 24X Market Session that is equivalent to the mechanism established for Exchange Trading Hours other than the 24X Market Session, among other things. See 24X Rule 1.5(c).

²⁶⁹ 15 U.S.C. 78f(b)(5).

investors and the public interest.²⁷⁰ The 24X rules governing the 24X Market Session will expand the hours of trading available on a national securities exchange, and such trading will be transparent because trading will not occur unless the Equity Data Plans are able to collect, consolidate, process and disseminate consolidated quotation and transaction data during the 24X Market Session (*i.e.*, between 8 p.m. and 4 a.m. Sunday, Monday, Tuesday, Wednesday, and Thursday nights that precede a U.S. Business Day).²⁷¹ The 24X rules for the 24X Market Session will foster competition by introducing another trading venue during these trading hours.²⁷² Finally, the 24X rules for the 24X Market Session are designed to provide additional investor protections.²⁷³

a. Effect of 24X Market Session on Market Structure

Several commenters raised questions about the potential impact of the 24X Market Session, as originally proposed, on current market structure because it would greatly expand exchange trading hours. Several commenters stated that the Commission should consider roundtable discussions about the market structure implications of 24-hour trading.²⁷⁴ One commenter stated that the 24X proposal “has serious implications for the regulatory, technological, and operational underpinnings of the equity securities markets and will result in significant costs for the industry.”²⁷⁵ Another commenter stated that the 24X Market Session, as originally proposed, is “incompatible” with current market structure and that a broader Commission engagement, outside of an exchange application, is needed to determine how U.S. equity market structure would be affected.²⁷⁶ This

commenter further stated that the 24X Market Session as originally proposed “could exacerbate a two-tiered system of regulation between core and extended trading hours” because certain Exchange Act rules apply only during Regular Trading Hours²⁷⁷ and could make compliance with best execution obligations more challenging.²⁷⁸ Another commenter stated that the 24X Market Session, as originally proposed “[r]aises significant, insufficiently addressed market policy concerns,”²⁷⁹ while another stated that the proposal represents the “first occurrence of a national securities exchange that utilizes unlisted trading privileges to operate outside the trading hours of the primary listing exchanges.”²⁸⁰

24X stated that “in today’s market, the regulatory requirements vary depending on the trading session” with greater protections required during Regular Trading Hours.²⁸¹ 24X stated that the Commission has allowed extended trading hours on other exchanges and the same rationale should be applied in this instance because the 24X rules for the 24X Market Session raise “no new issues.”²⁸² In response to the comment

about trading NMS stocks pursuant to UTP outside of the hours of the primary listing exchanges, 24X stated that it would “coordinate with the primary listing markets with regard to their regulatory roles related to their listed companies (*e.g.*, trading halts).”²⁸³ Further, 24X stated that 24X Rule 11.15(c)(5) requires 24X to halt trading if the primary listing exchange determines to halt trading.²⁸⁴ In response to comments about industry roundtables, 24X stated that “its exchange application has been subject to public comment by the industry and others . . . in accordance with the requirements of the Exchange Act.”²⁸⁵ 24X further stated that amending the rules governing the 24X Market Session to eliminate trading on weekends and holidays in response to comments is a “significant adaption.”²⁸⁶

The 24X rules for the 24X Market Session have been amended to increase transparency and enhance customer risk disclosures such that it will operate in a manner that is consistent with the regulatory framework of the extended hours sessions of other national securities exchanges.²⁸⁷ As discussed throughout this order, the 24X Market Session, as amended, will operate with rules that are designed to protect investors consistent with the requirements of the federal securities laws and the rules and regulations thereunder.

Several commenters suggested that a broader study of expanded hours trading should be conducted prior to Commission action on the 24X exchange application.²⁸⁸ The continuing evolution of the equities market, including increasing investor interest in extended hours trading, may warrant consideration of the existing regulatory scheme that applies to expanded hours trading sessions. The Commission continually monitors the national market system and the operation of the Federal securities laws, and the Commission, consistent with its oversight of the national market system, will continue to monitor the developments of extended hours trading. However, the monitoring of new market developments does not foreclose Commission action on the 24X Form 1, which, for reasons discussed throughout, satisfies the requirements of the Exchange Act.

Act Release No. 96494 (Dec. 14, 2022), 87 FR 80266 (Dec. 29, 2022). After submission of the comment letter, the Commission adopted amendments to Regulation NMS on Sept. 18, 2024. See Securities Exchange Act Release No. 101070 (Sept. 18, 2024), 89 FR 81620 (Oct. 8, 2024) (“2024 Regulation NMS Adopting Release”). The commenter also asked questions about proposed Regulation Best Execution, Securities Exchange Act Release No. 96496 (Dec. 14, 2022), 88 FR 5540 (Jan. 27, 2023); and the proposed Order Competition Rule, Securities Exchange Act Release No. 96495 (Dec. 14, 2022), 88 FR 128 (Jan. 3, 2023). 24X stated that “addressing how such proposals may relate to 24X’s exchange application are outside of the scope of consideration of whether 24X’s exchange application complies with the requirements of the Exchange Act.” See 24X Letter II at 19. Proposed Regulation Best Execution and the proposed Order Competition Rule remain proposals. The commenter submitted a second letter requesting confirmation about the application of aspects of the 2024 Regulation NMS Adopting Release during the 24X Market Session. See SIFMA Letter II at 13. The questions posed by the commenter are addressed within the 2024 Regulation NMS Adopting Release and existing rules and regulations. The 2024 Regulation NMS Adopting Release, as well as the definitions included in Rule 600 of Regulation NMS and the specific rules under Regulation NMS, define the application of the rules during different trading sessions.

²⁷⁷ For example, the commenter stated that certain aspects of Regulation NMS only apply during Regular Trading Hours, such as Rule 611 of Regulation NMS, and that certain definitions in Rule 600 of Regulation NMS specify Regular Trading Hours, such as “covered order.” See SIFMA Letter I at 4.

²⁷⁵ See FIA PTG Letter at 1, 2; FIA PTG Letter II at 1.

²⁷⁶ See SIFMA Letter at 4–5 (stating that the Commission must consider a number of factors, including the public interests involved, the effect on exchange competition dynamics, interaction with existing and proposed regulations, and whether a fair and orderly market is possible where potentially different rules would apply to exchanges based on the hours they operate). This commenter also stated that the Commission must consider how the 24X Form 1 would interact with “outstanding equity market structure proposals.” See SIFMA Letter at 6–7. The commenter asked interpretative questions about the proposal to amend Regulation NMS. See Securities Exchange

Further, the 24X Form 1 has been subject to the relevant notice and comment requirements. Public comment on the application has been solicited four separate times—with the publication of the Notice, the OIP, Amendment No. 1, and Amendment No. 2. The public, including market participants, have been afforded adequate opportunity for comment, and interested persons have taken the opportunity to provide written data, views, and arguments concerning this application which has yielded a robust analysis of the relevant issues.²⁸⁹ 24X has responded, by amending its Form 1, in part, to address the various concerns raised by certain commenters. Notably, 24X has narrowed its hours of operation, added rules to increase operational transparency and relevant customer risk disclosures, and amended certain proposed rules to conform with the existing regulatory framework for extended hours trading of other national securities exchanges. In addition, as has been discussed throughout this order, the expansion of trading hours initially proposed by 24X is not entirely novel as off-exchange trading currently occurs during those hours. Accordingly, issues related to the 24X Market Session have been raised, analyzed, and addressed, and Commission action on the 24X Form 1 should not be delayed by, and is not dependent on, a broader study of equity market structure.

While there will be costs to the industry related to implementing the expansion of exchange trading hours, the record does not support a denial of the 24X Form 1 application as inconsistent with the Exchange Act. The operation of the 24X Market Session will not commence until the conditions outlined in this order have been met.²⁹⁰

i. Equity Data Plans

The Equity Data Plans do not operate during the time period that will cover the 24X Market Session, as amended. Several commenters raised concerns about the lack of consolidated data during the 24X Market Session, as originally proposed.²⁹¹ One commenter stated that the 24X trading sessions should align with the operational hours

of the Equity Data Plans.²⁹² Another commenter stated that if 24X was approved without extending the exclusive SIP hours, quotes and trades would not be publicly disseminated in real time and that the delay would be inconsistent with the national market system and significantly reduce market transparency.²⁹³ One commenter stated, in response to the 24X Market Session as originally proposed, that moving to 24-hour on-exchange trading requires deliberate consideration of the market-wide implications of such a move, including the cost and complexity of overhauling the market-wide infrastructure to allow for the publication of quote and trade data by the exclusive SIPs during the proposed overnight and weekend sessions, as measured against its potential benefits.²⁹⁴ The commenter stated that changing exclusive SIP operations to accommodate the original proposal would amount to a huge undertaking, and that the costs and timeline associated with these changes have not been determined.²⁹⁵ Moreover, the commenter stated that 24X has neither acknowledged responsibility for funding these changes, nor provided information on its ability to do so.²⁹⁶ The commenter further stated that the exclusive SIPs would likely incur substantial increased ongoing costs to maintain the originally proposed extended hours, and that neither these costs, which the commenter stated would likely be borne by all exclusive SIP subscribers regardless of whether they participate in overnight or weekend trading, nor their potential benefits, have been determined.²⁹⁷

In Amendment No. 2, in response to commenters' concerns about the operation of the 24X Market Session during time periods when the Equity Data Plans are not in operation,²⁹⁸ 24X modified its Rule 1.5(c) and Rule 11.16

to require the concurrent operation of the Equity Data Plans before the operation of the 24X Market Session commences, and that 24X file the 24X Market Session Proposed Rule Change that would serve to provide notice to the Commission and the public of 24X's intention to commence operation of the 24X Market Session. Specifically, 24X Rule 1.5(c) states that 24X will not start operating the 24X Market Session unless the Equity Data Plans "(1) have established a mechanism to collect, consolidate, process and disseminate quotation and transaction information at all times during the 24X Market Session that is equivalent to the mechanism established for Exchange Trading Hours other than the 24X Market Session," and (2) the Equity Data Plans have notified 24X of their readiness.²⁹⁹

24X Rule 1.5(c) requires 24X, prior to commencing the 24X Market Session, to file the 24X Market Session Proposed Rule Change, pursuant to section 19(b) of the Exchange Act and the rules thereunder. The 24X Market Session Proposed Rule Change must be filed with the SEC within 18 months of the SEC's approval of 24X's application for registration as a national securities exchange. If the 24X Market Session Proposed Rule Change is not filed within 18 months of the SEC's approval of 24X's application for registration as a national securities exchange, the Exchange will promptly file a proposed rule change to remove the rules that apply to the 24X Market Session. In addition, 24X Rule 11.16 states that, "24X will not commence operations of the 24X Market Session until a proposed rule change as required under 24X Rule 1.5(c) has been approved, or has otherwise become effective, under section 19(b) of the Exchange Act and the rules thereunder."³⁰⁰

24X responded to commenters' concerns about costs by stating that it recognized that innovations, such as the introduction of the 24X Market Session, "may involve additional costs" but that increased costs should not "be the basis for the Commission to determine that an exchange application does not comply with the Exchange Act."³⁰¹ 24X stated that market participants "are already trading overnight on ATSs or

²⁹⁵ See IEX Letter at 2. See also FIA PTG Letter at 2; FIA PTG Letter II at 3.

²⁹⁶ See IEX Letter at 2.

²⁹⁷ See IEX Letter at 2; FIA PTG Letter II at 3.

²⁹⁸ See SIFMA Letter at 3; FIA PTG Letter at 2; Nasdaq Letter at 3; Healthy Markets Letter at 10–11; but see Polygon Letter at 2–5 (stating that Commission should approve 24X and force the adoption of the competing consolidator model to allow for the dissemination of market data in real time). 24X stated that it has "fully addressed" commenter concerns about trading in the 24X Market Session occurring outside of the operating hours of the Equity Data Plans by the changes proposed in Amendment No. 2. See 24X Letter IV at 4–5.

²⁹⁹ See 24X Rule 1.5(c).

³⁰⁰ The approval of 24X's application to register as a national securities exchange is separate and distinct from Commission consideration of any future amendments to the Equity Data Plans or proposed rule changes filed by 24X. As a matter of course, the Commission will consider any future amendments to the Equity Data Plans and any proposed rule changes filed by 24X upon filing, pursuant to the applicable statutory provisions and rules.

³⁰¹ See 24X Letter II at 16.

²⁸⁹ 15 U.S.C 78s(a).

²⁹⁰ See *infra* section V.

²⁹¹ See Polygon Letter; Nasdaq Letter, Montone Letter, IEX Letter, SIFMA Letter. Several commenters also stated that there should be a consideration of off-exchange trade reporting to the Equity Data Plans. See Nasdaq Letter at 3, SIFMA Letter at 3, DriveWealth Letter at 2, FIA PTG Letter at 2. The Commission agrees and believes that the Equity Data Plans and FINRA should consider accommodating real-time OTC trade reporting.

otherwise” and that new costs for exchange trading would be “incremental.”³⁰² 24X also stated that broker-dealers can decide whether to participate in the 24X Market Session.³⁰³ Finally, 24X stated with regard to the expansion of the exclusive SIPs’ hours that the Equity Data Plans have a process for determining the cost for new participants and for changes.³⁰⁴

The Commission agrees with commenters regarding consolidated quotation and transaction information during the 24X Market Session. Pursuant to its amended Form 1, 24X will not operate during the 24X Market Session until the Equity Data Plans are able to collect, consolidate, process and disseminate quotation and transaction information at all times during the session. The 24X rules for the 24X Market Session, as amended, are consistent with sections 6(b)(5) and 11A of the Exchange Act.³⁰⁵

24X Rules 1.5(c) and 11.16 provide that 24X will submit a proposed rule change within 18 months of the Commission’s approval of 24X’s application to operate as a national securities exchange with regard to the operation of the 24X Market Session. These provisions relating to the force and effect of the 24X Market Session rules set forth in 24X Rule 11.16 help to balance the interest in providing the time needed for 24X to be able to comply with 24X Rule 1.5(c) with the interest in ensuring that the rules of an Exchange are effective and can be enforced by the Exchange.

The requirement contained in its rules that the 24X Market Session will not begin operation until the 24X Market Session Proposed Rule Change is approved or otherwise has become effective will enhance transparency during the 24X Market Session and promote the goals of the national market system. Specifically, the Commission finds that the 24X rules for the 24X Market Session, as amended, are consistent with section 11A(a)(1)(C) of the Exchange Act, in which Congress found that it is in the public interest and appropriate for the protection of investors and the maintenance of fair and orderly markets to assure the availability to brokers, dealers, and investors of information with respect to quotations for and transactions in securities, and to assure the practicability of brokers executing

investors’ orders in the best market.³⁰⁶ The requirement ensuring that 24X will not commence operation of its 24X Market Session until the availability of the concurrent operation of the Equity Data Plans accomplishes Exchange Act objectives by ensuring that there is transparency during these new, extended trading hours through the communication of quotations and transactions to market participants and investors.

Finally, one commenter stated that the Market Data Infrastructure (“MDI”) Rules³⁰⁷ should be implemented because competing consolidators would not be “time-bound” and would collect, consolidate and disseminate data “in real-time 24/7.”³⁰⁸ The MDI Rules continue to be implemented, however, the MDI Rules will not be implemented before action is required on the 24X Form 1.³⁰⁹

b. Volatility Moderators in the 24X Market Session

24X initially proposed to implement unique “24X Price Bands” to moderate risk and volatility during the 24X Market Session.³¹⁰ Several commenters questioned the use of the proposed volatility moderators.³¹¹ In particular, one commenter asked why the proposed 24X Price Bands differed from the existing Limit up-Limit down bands and stated that the proposed 24X Price Bands were “different from price bands used by ATSS that operate outside of core trading hours,”³¹² while another commenter stated there was no basis to justify the 24X Price Bands.³¹³ Another commenter, however, stated that the proposed 24X Price Bands “should be sufficient to prevent erroneous trades.”³¹⁴

³⁰⁶ 15 U.S.C. 78k–1(a)(1)(C).

³⁰⁷ Securities Exchange Act Release No. 90610 (Dec. 11, 2020), 86 FR 18596 (Apr. 9, 2021) (“MDI Rules Adopting Release”).

³⁰⁸ See Polygon Letter at 4.

³⁰⁹ See 2024 Regulation NMS Adopting Release, *supra* note 276.

³¹⁰ See, e.g., Proposed 24X Rule 11.15(a); Form 1, Exhibit E–1. As initially proposed, a 24X Price Band would be calculated for each relevant security by multiplying the “Reference Price,” as specified in 24X Rule 11.15(a)(2), by the applicable “Percentage Parameter,” set out in 24X Rule 11.15(a)(1). Under Rule 11.15(a)(1) as initially proposed, this figure (rounded to the nearest \$0.01) would then be added to the Reference Price to calculate the “Upper 24X Price Band” and subtracted from the Reference Price to calculate the “Lower 24X Price Band” and no trades would be allowed outside the 24X Price Bands. Proposed 24X Rule 11.15(a)(1).

³¹² See SIFMA Letter at 6.

³¹³ See Healthy Markets Letter at 8.

³¹⁴ See Angel Letter I at 3. See also Montone Letter at 7.

24X proposed in Amendment No. 1 to remove proposed 24X Rule 11.15(a) from its rules, which removed all references to the proposed 24X Price Bands.³¹⁵ In its letter responding to comments on the OIP, 24X stated that it “would rely upon its clearly erroneous rule, [p]roposed 24X Rule 11.14, to address volatility and risk during the 24X Market Session.”³¹⁶ 24X stated that it would also “provide other additional protections to investors to address potential volatility and risk during the 24X Market Session. For example, under Proposed 24X Rule 11.7(a)(4), 24X would not allow the use of market orders during the 24X Market Session.”³¹⁷ As a result, 24X stated that its rules designed “to address potential volatility in both regular and extended hours trading” are the same as those previously approved by the Commission for other exchanges.³¹⁸

One commenter stated that given the significance of displayed quotations and transaction prices to stock valuations, many trading firms and other participants will need to monitor the prices published during overnight and weekend hours, regardless of whether they trade during those hours and that “SIP subscribers” would experience “costs.”³¹⁹ This commenter also stated that “[t]his is particularly the case” because 24X does not include volatility limits other than those that exist under its clearly erroneous execution rule.³²⁰ Another commenter opposed 24X’s plan to rely on its clearly erroneous execution rules instead of price bands, as initially proposed.³²¹ This commenter stated that the Commission should consider “whether the regulatory framework and market functionality are in place to support 24x7 trading (including, for example, whether extending the LULD plan to cover non-core hours is appropriate).”³²²

³¹⁵ See 24X Letter II at 5–6; Amendment No. 1; 24X Rule 11.15(a) (now Reserved).

³¹⁶ See 24X Letter II at 6. In Amendment No. 1, 24X further proposed to make a conforming change to its clearly erroneous rule, 24X Rule 11.14, by deleting subparagraph (d)(4) regarding calculation of the reference price when the 24X Price Bands would have been in effect during the 24X Market Session.

³¹⁷ See 24X Letter II at 6.

³¹⁸ See 24X Letter II at 6.

³¹⁹ See IEX Letter at 2.

³²⁰ See IEX Letter at 2.

³²¹ See FIA PTG Letter II at 3 (stating, “[p]rice bands serve as an important investor protection, particularly during periods of extreme volatility, whereas busting trades under an Exchange’s clearly erroneous rules can give rise to increased risks and uncertainty.”).

³⁰⁵ 15 U.S.C. 78f(b)(5) and 15 U.S.C. 78k–1.

24X's proposed use of its clearly erroneous execution rule during the 24X Market Session addresses commenters' concerns about its initially proposed 24X Price Bands. The use of clearly erroneous execution rules in the 24X Market Session, instead of the unique, market-specific 24X Price Bands, will help to ensure there is a consistent, market-wide regulatory approach across the extended hours trading sessions of all national securities exchanges.³²³ Accordingly, 24X Rule 11.14 is designed to facilitate transactions in securities and remove impediments to and perfect the mechanism of a free and open market and a national market system, consistent with section 6(b)(5) of the Exchange Act.

While one commenter suggested that "SIP subscribers" may experience increased costs due to the need to monitor prices during the 24X Market Session, the commenter did not provide information as to how this differs from other extended hour trading sessions and the commenter was commenting on the 24X Market Session as originally proposed. As amended by Amendment No. 2, the 24X Market Session would cover hours that are currently available for OTC trading and 24X may not begin operating its 24X Market Session at least until the Equity Data Plans are able to collect, process, consolidate and disseminate quotation and transaction data during the 24X Market Session,³²⁴ which will help to facilitate monitoring of price valuations. Further, as stated above, the use of clearly erroneous execution rules in extended hours sessions is consistent with the regulatory framework applied to other national securities exchanges.³²⁵

c. Trading Halts and Pauses

24X proposed rules governing trading halts and pauses for technology updates and regulatory purposes. As originally proposed, 24X Rules 11.15(c)(1), (c)(2), (c)(3), (c)(4) and (c)(5) would have paused trading for: (i) three hours each Saturday morning, from 8 a.m. until 11 a.m.; (ii) an hour at 7 p.m. daily; (iii) industry-wide testing; (iv) technological or other purposes; and (v) material corporate actions with respect to a particular security during the 24X Market Session, respectively. In Amendment No. 2, 24X deleted 24X Rules 11.15(c)(1) and 11.15(c)(3) and

amended 24X Rule 11.15(c)(2), all to reflect the amended hours for the 24X Market Session. Pursuant to 24X Rule 11.15(c), 24X will pause trading on Monday, Tuesday, Wednesday and Thursday at 7 p.m.,³²⁶ during the 24X Market Session at such other times that the Exchange determines is necessary for technological or other purposes,³²⁷ and if the primary listing exchange determines to halt trading or delay the start of trading in one of its listed securities.³²⁸

With respect to regulatory halts, several commenters questioned how market surveillance and trading halts, including regulatory trading halts, would be handled in the 24X Market Session.³²⁹ Specifically, one commenter stated that 24X's proposal raised a series of surveillance questions, including (i) how 24X will manage real-time surveillance during the 24X Market Session, (ii) how the existing surveillance, trading halt, and trade review infrastructure—one in which primary listing markets perform real-time surveillance of securities listed on their markets and implement trading halts and pauses for those securities during their hours of operation—will intersect with the proposed 24X Market Session, including how 24X would coordinate with other exchanges, and (iii) the impact that such trading will have on investors, listed companies, and other market participants.³³⁰ Similarly, other commenters expressed concerns about regulatory halts, including possible unanticipated or unintended effects on primary listing markets and issuers.³³¹ One of these commenters stated that the expanded trading hours would interfere with exclusive SIPs' "periodic testing and maintenance, which currently occur at times when the exchanges are closed."³³² Another commenter generally supported the proposed trading halts but recommended that 24X "revisit trading halts around key disclosures from companies" if "they find they can

adequately secure the markets around the key disclosure periods."³³³

In response to commenters' concerns about regulatory halts,³³⁴ 24X stated that it intends to surveil all of its trading sessions, including the 24X Market Session, in the same manner.³³⁵ 24X stated that it will coordinate with the primary listing markets to halt trading in a security when the primary listing market halts trading in the security.³³⁶ In addition, in Amendment No. 1, 24X proposed to revise its trading halt rules related to the primary listing market to clarify that Rule 11.15(c)(5) will apply during all of its trading sessions.³³⁷ Specifically, 24X proposed to add language to 24X Rule 11.15(c)(5) that if trading in a security is halted by the primary listing market before the 24X Market Session and continuing into the 24X Market Session, the Exchange will halt trading in the security until trading resumes on the primary listing market for the security.³³⁸

24X's rules, as amended, governing trading halts related to corporate news and announcements will track the trading halts imposed by the primary listing markets. To the extent that material corporate news is released during the 24X Market Session and the primary listing market does not impose trading halts, the requirements of 24X Rule 3.21(e)³³⁹ and 24X Rule 3.21(i)³⁴⁰ that disclosures be provided to investors relating to the risks associated with news announcements and the additional risks of trading in the 24X Market Session, respectively, will help to ensure that market participants, including investors, are informed about the potential risks associated with trading during that time period. 24X's rules governing trading pauses, coupled with its Rule 3.21,³⁴¹ are consistent with the Exchange Act and, in particular, the section 6(b)(5) requirement that an exchange's rules be designed to promote

³²⁵ See *supra* note 323.

just and equitable principles of trade, remove impediments to and perfect the mechanisms of a free and open market and a national market system, and protect investors and the public interest.

Regarding technology halts, one commenter on the 24X Market Session, as originally proposed, stated that testing for the exclusive SIP of the UTP Plan currently occurs at times which would overlap “with a portion of the 24X Market Session, and 24X has not explained how it will operate during the overlapping time.”³⁴² In Amendment No. 2, 24X has amended the 24X rules for the 24X Market Session to exclude trading on weekends. This amendment addresses concerns about conflicts with industry-wide testing, “which currently occur[s] at times when the exchanges are closed.” The trading pauses provided in 24X Rule 11.15(c), as amended³⁴³ should be sufficient to permit 24X to address the technical implications of a 23-hour trading day and will facilitate industry-wide testing, and internal market testing and systems updates and improvements.

d. Securities Eligible for Trading During the 24X Market Session

In its initial Form 1, 24X proposed to limit the securities that would be available for trading during the 24X Market Session. Specifically, proposed 24X Rule 11.2 specified that any class of securities listed or admitted to unlisted trading privileges on the Exchange would be eligible to be traded during the Pre-Market Session, Core Market Session and Post-Market Session, while in the 24X Market Session, trading would be limited to any security in the Nasdaq-100 Index, S&P 500 Index, Russell 2000 Index and the top 50 exchange-traded funds by average daily volume during a given month, as determined by the Exchange. Proposed 24X Rule 11.2 also included a notice provision for securities that might be added to, or removed from, being eligible to trade during the 24X Market Session. Finally, proposed 24X Rule 11.2 initially would have allowed Exchange members to request that securities be made eligible for trading during the 24X Market Session.³⁴⁴

One commenter stated that the proposal was “wise in limiting the trading to certain well-known NMS stocks.”³⁴⁵ Another commenter stated that 24X did not adequately justify its proposal to limit the securities eligible for trading in the 24X Market Session.³⁴⁶ Another commenter stated that 24X should provide more transparency about the proposed notice of securities that would be available to trade because the commenter stated that a “lack of timely information” about the securities available to trade “runs the risk of material trading risks, including higher volatility and lower liquidity.”³⁴⁷

In Amendment No. 1, 24X amended 24X Rule 11.2 to remove the limit on the securities eligible for trading during the 24X Market Session. As amended, 24X Rule 11.2 will allow any securities listed or admitted to trading pursuant to UTP to be eligible to trade on 24X. In other words, 24X Rule 11.2 was amended to make the eligibility requirements for the trading of securities during the 24X Market Session the same as the other three market sessions (*i.e.*, Pre-Market Session, Core Market Session and Post-Market Session). According to 24X, expanding the securities eligible to trade during the 24X Market Session will allow 24X Members and their customers to manage their security lists, and ensure continuity of eligible securities across trading sessions, which will reduce potential trading complexities and investor inquiries about eligible securities.³⁴⁸ 24X also stated that expanding the securities eligible to trade will allow it to compete with ATSS and other markets that operate in the overnight hours.³⁴⁹ Finally, 24X stated that the amended rule will prevent the exclusion of securities that may be

funds will be handled in terms of listing and pricing.” Montone Letter at 8. As discussed above, 24X will not be a listing market. *See* 24X Rule 14.1. The commenter also stated that mutual funds may need to be priced at a different time of day if trading evolved into a 23-hour format. *See* Montone Letter at 8. In response, 24X stated, and the Commission agrees, that “the determination of how and when pricing decisions for mutual funds would be made by the mutual funds in accordance with relevant legal requirements, not by 24X.” 24X Letter II at 19. 24X further stated, and the Commission agrees, that the “24X Market Session does not present new issues regarding the timing of the pricing of mutual funds” because “trading already takes place on exchange today during pre-market sessions and post-market sessions (including overnight in the OTC market)” and “mutual funds have already faced such timing decisions.” *Id.*

³⁴⁵ *See* Montone Letter at 6.

³⁴⁶ *See* SIFMA Letter at 8.

³⁴⁷ *See* Nasdaq Letter at 3. *See also* SIFMA Letter at 8; Healthy Markets Letter at 10.

³⁴⁸ *See* 24X Letter II at 11.

³⁴⁹ *See id.*

appropriate for trading in the 24X Market Session, such as international ETFs.³⁵⁰

24X Rule 11.2 as amended, is consistent with section 6(b)(5) of the Exchange Act in that it will promote just and equitable principles of trade, facilitate transactions in NMS stocks, remove impediments to, and facilitate transactions in NMS stocks and remove impediments to and perfect the mechanism of a free and open market and a national market system. While one commenter supported limiting the securities eligible for trading in the 24X Market Session,³⁵¹ 24X’s market structure choice not to limit the securities eligible for trading in the 24X Market Session will reduce the complexity of the 24X market structure, compared to the original proposal, by allowing securities to be eligible continuously throughout the four 24X trading sessions. In addition, 24X Members and their customers will have control over the trading strategies they may choose to implement. Finally, expanding the number of securities that are eligible to be traded during the 24X Market Session should help to promote competition between trading venues that may be operating during the times covered by the 24X Market Session, which will ultimately benefit investors.

e. Customer Disclosures Pertaining to Extended Hours Trading, Including the 24X Market Session

24X proposed to require that 24X Members make certain disclosures to investors concerning risks associated with trading during Extended Hours Trading.³⁵² In 24X Rule 3.21, 24X proposed to require the same disclosures as those required by other SROs relating to extended hours trading.³⁵³ Specifically, SRO rules require firms to provide disclosures to customers that extended hours trading “involves material trading risks, including the possibility of lower liquidity, high volatility, changing prices, unlinked markets, an exaggerated effect from news announcements, wider spreads.”³⁵⁴

While one commenter stated, in response to a question posed by the Commission in the OIP, that the proposed disclosures would be

³⁵⁰ *See id.*

³⁵¹ *See supra* note 345 and accompanying text.

³⁵² *See* 24X Rule 3.21.

³⁵³ *See, e.g.*, MEMX Exchange Rule 3.21; Cboe EDGX Rule 3.21; NYSE Arca Rule 7.34–E(d)(3); Nasdaq Section 20; FINRA Rule 2265.

³⁵⁴ *See* 24X Rule 3.21. *See also, e.g.*, MEMX Exchange Rule 3.21, Cboe EDGX Rule 3.21, NYSE Arca Rule 7.34–E(d)(3), Nasdaq, Equity 2, Section 20; FINRA Rule 2265.

³⁴² *See* Nasdaq Letter at 4; *see also* SIFMA Letter at 8.

³⁴³ As discussed above, 24X proposed in Amendment No. 2 to limit the hours of operation of the 24X Market Session and, because the 24X Market Session will not operate on Saturdays, 24X further proposed in Amendment No. 2 to remove 24X Rule 11.15(c)(1) to delete the proposed Saturday morning trading pauses.

³⁴⁴ One commenter stated that proposed 24X Rule 11.2 describes how exchange-traded funds will be “addressed in terms of listing,” but that “24X should give a similar explanation of how mutual

sufficient to highlight the unique risks posed to investors during the 24X Market Session, as originally proposed,³⁵⁵ others disagreed.³⁵⁶ One of these commenters stated that existing customer disclosures would not provide the necessary protection for investors given the heightened risks associated with the 24X Market Session.³⁵⁷ Similarly, another commenter stated that it cannot “comprehend how any disclosure that would be sufficiently short and clear to be comprehensible would adequately capture the sheer volume of potential new risks or regulatory gaps in which such trading would occur.”³⁵⁸

In response, 24X stated that it agreed with commenters that it is appropriate to require customer disclosures relating to the “heightened” risks inherent in Extended Hours Trading.³⁵⁹ In Amendment No. 1, 24X proposed “expanded” investor disclosures relating to additional potential risks of its 24X Market Session.³⁶⁰ Specifically, the new paragraph (i) added to 24X Rule 3.21 will highlight the following additional potential risks related to trading during the 24X Market Session, including the risks that: (1) the primary listing markets may not be open; (2) consolidated market data may not be available; (3) there may be limited or different regulatory protections during the 24X Market Session; (4) there may be limited trading alternatives during the 24X Market Session; (5) with near continuous trading, there may be greater risk related to system maintenance, testing and pauses and resumption in trading; and (6) the 24X Market Session is novel and may present additional unforeseen risks in addition to those discussed above.³⁶¹ In Amendment No. 2, 24X amended 24X Rule 3.21 to remove the disclosure related to the risk that consolidated data may not be available because pursuant to amended 24X Rule 1.5(c), 24X will not begin operation of its 24X Market Session unless the exclusive SIPs are able to concurrently collect, consolidate, process and disseminate consolidated data.³⁶² Thus, the proposed disclosure

stating the risk that there might not be information disseminated by the exclusive SIPs during the 24X Market Session is no longer necessary.

The expanded proposed customer disclosures set forth in 24X Rule 3.21, as amended, should address commenters’ concerns because these disclosures will provide investors with important information that should help to inform their decisions as to whether trading during extended hours, including the 24X Market Session, is suitable for them. In addition, the expanded customer disclosures set forth in 24X Rule 3.21, as amended, are consistent with the Exchange Act and, in particular, the section 6(b)(5) requirement that an exchange’s rules be designed to promote just and equitable principles of trade, remove impediments to and perfect the mechanisms of a free and open market and a national market system, and protect investors and the public interest. The disclosures will help provide notice to market participants, including investors, about the specific risks associated with Extended Hours Trading.

f. Other Comments

24X proposed 24X Rule 11.12 related to the clearance and settlement of trades. Under this rule, 24X will require that all transactions through the facilities of the Exchange be automatically cleared and settled through a registered clearing agency using a continuous net settlement system when the continuous net settlement system is open. When the continuous net settlement system is closed, 24X will require trades to be processed for clearing and settlement as soon as the relevant clearing agency reopens the continuous net settlement system.

One commenter questioned the settlement cycle of trades in the context of the 24X Market Session, as originally proposed.³⁶³ The commenter stated that a trade executed at 11:59 p.m. would settle the next day and a trade that executed just two minutes later, at 12:01 a.m., would not settle until the following day (assuming consecutive

settlement dates).³⁶⁴ The commenter also stated that the 24X Market Session, as originally proposed, raises additional operational and risk management questions related to the clearance and settlement processes for trades that occur overnight and on non-business days operated by registered clearing agencies, including the National Securities Clearing Corporation (“NSCC”).³⁶⁵ In its second letter, the commenter stated that all default risks and related clearance, settlement, payment and delivery risks would be borne by broker-dealers until trades were transferred to DTCC for novation, which would impose significant counterparty risk on broker-dealers.³⁶⁶ The commenter stated that retail investors “would be unaware” that trades executed during the 24X Market Session would be excluded from the NSCC and DTCC’s real-time guarantee model.³⁶⁷ The commenter stated that delays in reporting overnight trades to NSCC also impact margin requirements, including margin calculations.³⁶⁸

24X responded that the commenter’s concerns related to the clearance and settlement of trades “have long existed and are contemplated within existing NSCC/DTCC rules.”³⁶⁹ 24X also stated that it understood, from the DTCC, that the operational and clearance and settlement risks related to its proposed overnight and weekend trading are manageable using existing risk management rules and protocols,³⁷⁰ and that “DTCC plans to implement additional changes to its processes going forward to further narrow the risks presented by extended trading hours.”³⁷¹ Further, 24X stated that trades occurring within a matter of

³⁶⁴ See SIFMA Letter at 8.

³⁶⁵ *Id.* The Depository Trust and Clearing Corporation (“DTCC”) is the holding company for the three registered clearing agencies, including NSCC and the Depository Trust Company (“DTC”), each of which provides clearance and settlement services for U.S. equities. The commenter further questioned whether the NSCC (1) would require an additional deposit to support overnight activity; (2) would process trades that occur on Saturday on the following Monday or Tuesday; (3) require Monday morning stock loan delivery or margin calls for weekend trades. The commenter also questioned whether clearing firms would be able to opt-out of clearing extended hours (pre-, post-, and overnight) activity. *Id.* These interpretative questions about NSCC rules should be directed to the NSCC, an SRO. As discussed throughout, trading of NMS stocks occurs overnight in the OTC market on ATSs. The commenter did not detail how the 24X proposal, as amended, raises new or novel concerns as compared to existing overnight trading sessions.

³⁶⁷ See *id.*

³⁶⁸ See SIFMA Letter II at 6.

³⁶⁹ See 24X Letter II at 17.

³⁷⁰ See 24X Letter II at 18.

³⁷¹ See 24X Letter IV at 5.

³⁵⁵ See Montone Letter at 6 (further stating, “[a]ny person looking to trade during the 24X Market Session will be aware of the numerous risks they face in trading during this period.”).

³⁵⁶ See SIFMA Letter at 4; Healthy Markets Letter at 9.

³⁵⁷ See SIFMA Letter at 4.

³⁵⁸ See Healthy Markets Letter at 9.

³⁵⁹ See 24X Letter II at 2.

³⁶⁰ See 24X Rule 3.21(i).

³⁶¹ *Id.*

³⁶² See 24X Rule 1.5(c). Under the rule, 24X will not operate the 24X Market Session until the 24X Market Session Proposed Rule Change has been approved or has otherwise become effective.

³⁶³ See SIFMA Letter at 8. Specifically, the commenter stated that for certain transactions on Fridays, Saturdays, Sundays, and holidays, the day after the trade might not be a business day and thus the settlement periods would be longer than T+1. As noted above, in Amendment No. 2, 24X amended the 24X rules for the 24X Market Session so that 24X will not offer trading on weekends and holidays. The commenter submitted a second comment that raised questions about clearance and settlement of trades in the amended 24X Market Session, as well as the 24X Market Session as originally proposed. See SIFMA Letter II.

minutes that could settle on different days is a “natural outgrowth” of the T+1 settlement process because there must be a time that delineates the end of a trading day.³⁷² Finally, 24X stated that, “as with overnight trading on ATSS today, broker-dealers concerned about potential operational and clearance and settlement risks related to such trading are not required to trade in the 24X Market Session.”³⁷³

The 24X rules related to clearance and settlement of transactions on 24X are consistent with the requirements of section 6(b)(5) of the Exchange Act that provides, among other things, that the rules of an exchange must foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities.³⁷⁴ Further, the Commission concludes that while risk cannot be eliminated, it can be appropriately managed as it relates to: (1) the proposed operation of the 24X Market Session and (2) the ability of the relevant clearing agencies for equities, NSCC and the DTC, to address any potential credit, market, and liquidity risks associated with trades submitted by the Exchange. While one commenter submitted several interpretative questions related to how clearance and settlement of trades will occur during the 24X Market Session, the commenter did not explain how the clearance and settlement of 24X Market Session trades would be different from trades that occur in the overnight sessions in the OTC market.³⁷⁵ Further, the commenter stated that broker-dealers will carry all default risks and related clearance, settlement, payment and delivery risks until trades are reported. Broker-dealers may assess the risks and benefits of participating in the 24X Market Session. Although a commenter stated that investors would be unaware of the risks held by broker-dealers, 24X Rule 3.21(g) requires disclosure of the risk that certain financial market infrastructure, including “the relevant clearing agency” and “certain other providers of settlement services,” may be closed for business during the Extended Hours Trading sessions. Finally, the concerns of certain commenters about weekend trading are no longer relevant because

24X has amended its rules to eliminate weekend trading.

24X proposed several rules that are reasonably designed to ensure compliance with Regulation SHO. 24X Rule 11.9(a)(1) requires the execution price of an order with short sale instruction to be above the current national best bid if a short sale price test restriction under Rule 201 is in effect, unless the order is marked short exempt; and 24X Rule 11.9(a)(5) requires all orders to sell short to include a short sale instruction. 24X Rule 11.23 relates to Short Sale Circuit Breakers and sets forth that once a Short Sale Circuit Breaker pursuant to Rule 201 of Regulation SHO has been triggered during Regular Trading Hours, the price test restriction of Rule 201 will be in place for the applicable covered security for the remainder of the trading day on which the Short Sale Circuit Breaker is triggered, through the next U.S. Business Day after the trading day on which the Short Sale Circuit Breaker is triggered, and until 4 a.m. on the U.S. Business Day after the next U.S. Business Day after the trading day on which the Short Sale Circuit Breaker is triggered, unless the listing market for the covered security provides a notification via the exclusive SIPs indicating that the price test restriction is no longer in effect at a time earlier than 4 a.m. on the U.S. Business Day after the next U.S. Business Day after the trading day on which the Short Sale Circuit Breaker is triggered. 24X Rule 13.2 requires borrowing and deliveries to be effected in accordance with Rule 203 of Regulation SHO and provides that the 24X incorporates by reference Rules 200 and 203 of Regulation SHO.

One commenter questioned how would compliance with the circuit breaker requirements set forth in Rule 201(b)(1)(ii) of Regulation SHO be achieved if the exclusive SIPs were not in operation during the 24X Market Session.³⁷⁶ The commenter also stated that the close-out requirement for the failure to deliver, set forth in Rule 204 of Regulation SHO, could be delayed due to the extension of trading hours to non-business days.³⁷⁷ 24X responded that it would comply with Rule 201 of Regulation SHO whenever it is deemed to apply.³⁷⁸

The 24X rules are consistent with the Exchange Act as they incorporate Regulation SHO requirements. Accordingly, 24X rules are consistent with section 6(b)(5) of the Exchange Act because they are designed to prevent

fraudulent and manipulative acts and practices and promote just and equitable principles of trade. Further, in response to commenter’s concerns about potential delays in the close out requirement due to the initially proposed 24X Market Session operating during non-business days,³⁷⁹ the 24X Market Session, as amended, will not provide for trading on non-U.S. Business Days. In response to the question raised by the commenter about compliance with the circuit breaker requirements if the exclusive SIPs were not in operation, in Amendment No. 2, 24X amended the rules governing the 24X Market Session so that 24X will not commence operations of the 24X Market Session until the Equity Data Plans are able to collect, consolidate, process and disseminate consolidated data during the 24X Market Session designated hours.³⁸⁰

24X proposed 24X Rule 11.13 governing 24X’s limitation of liability arising from use of Exchange systems or facilities.³⁸¹ Two commenters commented on 24X’s rule.³⁸² One commenter stated that 24X failed to appropriately justify its proposed limitation of liability.³⁸³ This commenter stated that 24X’s limitation of liability provision is modeled on a similar provision adopted in 2005 and that subsequent significant equity market structure changes have rendered the proposed provision inadequate, particularly given the 24X Market Session, as originally proposed.³⁸⁴ One of these commenters further stated that 24X provides no support for the Commission to find the limitation of liability provisions consistent with the Exchange Act or the public interest, and that “[a]n even greater level of scrutiny regarding the proposed 24X limitation of liability is warranted due to the additional operational risks associated with operating a near 24x7 market center.”³⁸⁵ The other commenter stated that “[n]otably, 24X intends to operate for significantly more trading hours and trading days than other national securities exchanges, and it has not explained why the liability caps

³⁷⁹ See *supra* notes 376–377 and accompanying text.

³⁷⁴ 15 U.S.C. 78f(b)(5).

³⁷⁵ As discussed above, the 24X Market Session will not operate until the 24X Market Session Proposed Rule Change has been approved or otherwise become effective. Market participants should direct their interpretative questions about the rules of other SROs, including NSCC or DTC, to those SROs.

³⁷⁶ See SIFMA Letter at 5.

³⁷⁷ See *id.*

³⁷⁸ See 24X Letter II at 14.

included in its proposed rule are reasonable or appropriately tailored to address the risk of system errors or malfunctions on its market across these longer periods.”³⁸⁶

In response to the commenter's concerns, 24X stated that it believes that the 24X rule complies with the Exchange Act.³⁸⁷ 24X continued that other exchanges operate pursuant to the “same rule” and that “there is no basis for reaching a different conclusion in the context of 24X's Form 1 application.”³⁸⁸ 24X also stated that “the liability caps were not established based on the number of trading hours on the exchange.”³⁸⁹

The limitation of liability provisions of 24X Rule 11.13 are consistent with the Exchange Act requirement that the rules of an exchange be designed to promote just and equitable principles of trade and not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Exchange Act.³⁹⁰ 24X Rule 11.13 is substantively similar to other exchanges' limitation of liability provisions previously approved by the Commission and applicable to other exchanges that have extended hours trading sessions.³⁹¹ In addition, with respect to the commenters' statements that greater exchange liability would be appropriate given the “additional operational risks associated with operating a near 24x7 market center,” 24X will be required to comply with its obligations under the Exchange Act during all hours that it is operating. While 24X has more hours of operations as compared to other exchanges, 24X will have SRO obligations during the 24X Market Session as it does during its other trading sessions. Further, as discussed below, 24X will be an SCI entity that must comply with Regulation SCI.³⁹² While commenters submitted comments on the 24X Form 1, both commenters stated that the limitation of liability caps on all exchanges should be reevaluated. As stated above, the Commission, consistent with its oversight of the national market system, will continue to monitor the national market system. However, the monitoring of market developments does not foreclose Commission action on the 24X Form 1, which for reasons discussed

throughout, satisfies the requirements of the Exchange Act.

One commenter requested interpretative guidance on the application of Commission Rule 605 and Rule 610(d) and FINRA Rule 5320.08 to the proposed 24X trading sessions (*i.e.*, Pre-Market Session, Post-Market Session, 24X Market Session and Core Market Session).³⁹³ These rules are clear as to their application during different sessions and the commenter did not state why the 24X Form 1 raised unique interpretative questions compared to the extended hours sessions on other national securities exchanges that have operated for several years.

E. Technology Agreement With MEMX Technology

1. Delivery, Licenses and Services Agreement (“DLSA”)

The Exchange will utilize trading technology and systems (collectively, the “Technology and System”) developed by MEMX Technologies, LLC (“MEMX Technologies”),³⁹⁴ a subsidiary of MEMX Holdings LLC, and provided to the Exchange pursuant to a DLSA between MEMX Technologies and the Exchange.³⁹⁵ Specifically, pursuant to the DLSA, MEMX Technologies will provide technology support services to 24X, which will include “(1) the development and testing of software and hardware necessary to operate the matching engine and connectivity to other exchanges via a third-party routing broker(s) and third party-developed functions (including clearing, custody, and client connectivity), (2) the

provision of technical support in order for the Exchange to operate and monitor the Exchange; and (3) the provision of ongoing system availability commitments, updates, fixes, and technology support.”³⁹⁶ MEMX Technologies will support intra-day compliance monitoring by 24X and provide timely reporting to 24X of any potential Regulation SCI events or other operational issues with the System.³⁹⁷

All services provided to the Exchange by MEMX Technologies will be based upon requirements and instructions determined by the Exchange.³⁹⁸ Although MEMX Technologies would provide the technology support services, 24X will be responsible for operating and monitoring its Exchange-related Technology and System and administering the rules of the Exchange and other rules and regulations applicable to the Exchange.³⁹⁹ To ensure logical and physical separation from MEMX Technologies and its affiliates, the Technology and System will operate a separate instance of MEMX Technologies' core matching engine technology and software, utilizing separate servers from the MEMX Exchange system and separate connections for 24X Members to connect to 24X.⁴⁰⁰ Under the terms of the DLSA, 24X may request MEMX Technologies to develop and implement (for a fee to be determined by the parties) technology changes that change the operation of the 24X Technology and System. 24X is not obligated to agree to, accept, or adopt changes to the Technology and System that are not essential to the operation of its instance of the Technology and System.⁴⁰¹ Additionally, 24X stated that the “trading platforms operated by MEMX Technologies (including 24X National Exchange, LLC, MEMX Exchange, and any other exchanges or trading platforms operated by MEMX Technologies) currently are and will be segregated to ensure that 24X is not deemed to be a facility of MEMX Exchange.”⁴⁰² MEMX Technologies will not use or disclose information or data (i) about or originating with 24X in its dealings with MEMX Exchange or any other platform or (ii) about or originating with MEMX Exchange or any other platform in its dealing with 24X.⁴⁰³

³⁸⁷ See 24X Letter III at 5.

³⁸⁸ *Id.*

³⁸⁹ See 24X Letter IV at 5.

³⁹⁰ 15 U.S.C. 78f(b)(5) and (8).

³⁹¹ See *e.g.*, MEMX Exchange Rule 11.14; LTSE Exchange Rule 11.260.

³⁹² See section III.E.2.

³⁹³ See SIFMA Letter II at 13. This commenter posed a number of questions that were interpretive in nature or technical and related to implementation of extended hours trading. As discussed throughout, there are existing extended hours trading sessions on other exchanges and the rules that are applicable during extended hours sessions are clear. The commenter stated that a broader consideration of extended hours trading in the national market system should be conducted. See *supra* section III.D.2.a (discussing comments requesting a roundtable or broader consideration of extended hours trading). As discussed above, the Commission continues to monitor the national market system, including the expansion of trading hours in the equity market.

³⁹⁴ 24X does not own the Technology and System but states that it has obtained all necessary licenses and authorizations from MEMX Technologies in order for 24X and its Members and Users to fully utilize the Technology and System. See Form 1, Exhibit E.

³⁹⁵ See Form 1, Exhibit E. Among other things, the DLSA sets forth a multi-year term with automatic renewal provisions that requires MEMX Technologies to deliver the Technology and System and run industry connectivity testing and other functional-based testing. See *id.* The DLSA also provides for transition services to the extent either party decides to terminate the arrangement. See *id.*

³⁹⁶ See Form 1, Exhibit C.

³⁹⁷ See *id.*

³⁹⁸ See *id.*

³⁹⁹ See *id.*

⁴⁰⁰ See Form 1, Exhibit E.

⁴⁰¹ See *id.*

⁴⁰² See Form 1, Exhibit C.

⁴⁰³ See *id.*

One commenter stated that the proposal by 24X to outsource its technology needs, along with the maintenance and remediation of technology issues, to MEMX Technologies “is distinct from the existing common practice of exchanges and other venues to outsource discrete technology elements to individual vendors based on the expertise provide by each vendor, subject to oversight of the vendors by the exchange as required by Regulation SCI.”⁴⁰⁴ The commenter further stated that other “existing examples do not involve exclusive reliance on a single technology provider (affiliated with one exchange) for multiple U.S. registered exchange[s].”⁴⁰⁵

This commenter’s statements were disputed by another commenter, who stated that “having a common technology platform underlying multiple registered exchanges is hardly a new phenomenon. Of the sixteen currently licensed U.S. equities exchanges, twelve are operated by just three exchange groups that each operate several independently-registered exchanges using a common technology platform.”⁴⁰⁶ The commenter further stated that use of vendors “allows competitors of all sorts to focus on their core business, whether that’s facilitating the move to a 24-hour trading model, . . . or in attracting listings from corporate issuers.”⁴⁰⁷ 24X responded that “the use of a common technology platform for multiple registered exchanges is a common practice. 24X understands that three existing exchange groups operate several independently-registered national securities exchanges using a common technology platform.”⁴⁰⁸ The Commission agrees that the outsourcing of an exchange’s technology platform to another entity is not novel.⁴⁰⁹

Two commenters stated that there should be greater clarification on the relationship between 24X and MEMX Technologies.⁴¹⁰ A third commenter expressed concerns about the proposed agreement between 24X and MEMX Technologies.⁴¹¹ One of these commenters stated that the Exchange would be heavily dependent on MEMX Technologies, and asked whether MEMX Technologies would be more properly viewed as an owner or control person for its technology needs.⁴¹² As the Commission stated above, MEMX Technologies is a vendor that will provide technology support services to 24X, to meet requirements established by 24X; MEMX Technologies has no ownership interest in 24X.⁴¹³ The ultimate responsibility for regulatory compliance with the Exchange Act and rules thereunder falls on 24X as the SRO. Nor will MEMX Technologies be able to assert control over 24X regarding operation of the Technology and System. Under the terms of the DLSA, as described in the Form 1, 24X is not obligated to agree to, accept, or adopt changes to the Technology and System that are not essential to the operation of its instance of the Technology and System.⁴¹⁴

Another commenter stated that the “exclusive reliance on a single vendor raises questions about the availability of resources by [MEMX Technologies] to fill that role.”⁴¹⁵ Similarly, one commenter asked for clarification as to

Commission’s order addresses the pertinent legal questions and concludes that this arrangement [between LTSE and MEMX Technologies] “is consistent with the Exchange Act.” See MEMX Letter at 5. 24X agreed with this commenter’s statement. See 24X Letter IV at 3.

⁴¹⁰ See Healthy Markets Letter at 9–10; Montone Letter at 5.

⁴¹¹ See IEX Letter.

⁴¹² See Healthy Markets Letter at 9. The commenter also stated that the arrangement between 24X and MEMX Technologies “would need to be public, so that the Commission and public could assess the conflicts of interests and risks posed by it to the operations of 24X.” Healthy Markets Letter at 10. A description of the DLSA and its terms may be found in 24X’s Form 1 at Exhibits C and E and have been subject to notice and public comment. Exhibits C and E to the Form 1 do not require these contracts to be filed. See Exhibit C (requiring, among other things, information relating to any entity with whom the applicant has a contractual or other arrangement relating to the operation of an electronic trading system to be used to effect transactions on the exchange) and Exhibit E (requiring a description of the operation of the exchange). These exhibits provide sufficient information to assess the proposed arrangement.

⁴¹³ See Form 1, Exhibit C.

⁴¹⁴ See Form 1, Exhibit E.

⁴¹⁵ See IEX Letter at 2. Although MEMX Technologies will develop and maintain the Technology and System pursuant to the DLSA, it is 24X market operations staff that will be responsible for the daily operations of 24X’s market. See Form 1, Exhibit E.

whether MEMX Technologies “has the staff and infrastructure to facilitate 23-hour continuous trading”⁴¹⁶ and stated that there should be “a detailed reassurance that the technology underlying the exchange will not breakdown due to a high user rate and further if the technology does fail, what the procedures will be to protect the exchange while also safeguarding investors information and portfolios.”⁴¹⁷ 24X in response stated that the technology it will utilize “has a proven track record for resiliency, a track record that should give the SEC and market participants comfort regarding the reliability of 24X’s market offering.”⁴¹⁸

Another of the commenters stated that 24X’s potential use of MEMX Technologies for operational support raises conflicts concerns and that the Form 1 “contains little if any information about management of conflicts more generally.”⁴¹⁹ This commenter stated that there are no statements or information about the “nature and extent” of the segregation between 24X and MEMX Technologies or the “financial terms of 24X’s agreement with [MEMX Technologies] and about what type of separation may exist between [MEMX Technologies] and MEMX.”⁴²⁰ The commenter further stated that its concerns “may be magnified to the extent that other exchanges propose to make use of this same exclusive ‘white label’ technology solution by the same vendor to meet their technology needs, as has been widely reported. Under that construction, [MEMX Technologies] would appear to be performing in effect a technology utility function for multiple regulated exchanges, but it

⁴¹⁶ Montone Letter at 5. One commenter asked whether in the event of a potentially serious cyber breach of its systems, 24X would “be in a position to promptly identify such a breach if it is entirely reliant on a third party for security and other technology” and, once aware, what assistance it would “require from its supplier to be able to respond in a timely way that protects exchange systems and user information.” See Healthy Markets Letter at 9. The Commission reiterates that the ultimate responsibility for regulatory compliance with the Exchange Act and rules thereunder falls on 24X and should 24X require, the DLSA provides that 24X may request technology changes from MEMX Technologies to change the operation of the System. See Form 1, Exhibit E.

⁴¹⁷ See Montone Letter at 5.

⁴¹⁸ 24X Letter III at 4. 24X also agreed with a commenter that stated that “the strength of MEMX’s technology platform is the primary reason that 24X, LTSE, and several other trading venues have contracted with MEMX Technologies to power their trading systems. MEMX has shown that its technology platform is robust and resilient day in and day out for the past four years.” See 24X Letter IV at 2–3 (quoting from MEMX Letter at 2).

⁴¹⁹ See IEX Letter at 2–3.

⁴²⁰ See IEX Letter at 3.

⁴⁰⁴ See IEX Letter at 2.

⁴⁰⁵ See IEX Letter at 3.

⁴⁰⁶ See MEMX Letter at 2. The commenter further stated, that as an example, “Nasdaq technology is also used to operate at least one ATS that is meets the volume threshold for compliance with Regulation SCI; the securities information processor (“SIP”) for Tape C stocks; and two of three trade reporting facilities (“TRFs”).” 24X agreed with this statement. See 24X Letter IV at 2–3.

⁴⁰⁷ See MEMX Letter at 4.

⁴⁰⁸ See 24X Letter III at 4.

⁴⁰⁹ See Securities Exchange Act Release No. 100783 (Aug. 20, 2024), 89 FR 68481 (Aug. 26, 2024) (SR-LTSE-2024-03) (“LTSE—MEMX Technologies Approval Order”) (approval of proposed rule change by the Long-Term Stock Exchange to transition from its current trading platform to a new trading platform that uses technology provided by MEMX Technologies). One commenter had stated that arguments regarding the use of MEMX’s technology have been substantively addressed by the Commission in the LTSE—MEMX Technologies Approval Order and that “the

would not be a regulated entity itself, and the Commission would have limited ability to evaluate, and no ability to control, how it performs that critical function.”⁴²¹

24X, not MEMX Technologies, has regulatory responsibility over the 24X System, and therefore 24X as a SRO is fully responsible for discharging its obligations as a registered national securities exchange. The Commission disagrees with the commenter that the Form 1 contains little information about these matters.⁴²² 24X has provided sufficient detail in the Form 1 regarding the relationship between 24X and MEMX Technologies.⁴²³ MEMX Technologies will not use or disclose information or data (i) about or originating with 24X in its dealings with MEMX Exchange or any other platform or (ii) about or originating with the MEMX Exchange or any other platform in its dealings with 24X.⁴²⁴ Also, the DLSA, among other things, enforces logical and physical separation from MEMX Technologies and its affiliates in that the Technology and System will operate a separate instance of MEMX Technologies’ core matching engine technology and software, utilizing separate servers from MEMX Exchange system and separate connections for Members to connect to 24X.⁴²⁵ Further, 24X will interact with the MEMX Exchange, including MEMX Exchange’s routing broker-dealer, on the same arms-length commercial terms as 24X interacts with other registered national securities exchanges and their routing broker-dealers.⁴²⁶ Membership in the MEMX Exchange will not confer any advantages when trading on 24X (or vice versa), such as faster connections, lower fees, or preferential treatment of orders on the 24X System.⁴²⁷ Membership in the MEMX Exchange will also not be a requirement for membership in or connection to 24X (or vice versa).⁴²⁸

After consideration of the disclosures 24X made in its Form 1 application and review of the comments, the Commission finds that 24X’s proposal to utilize technology provided and maintained by MEMX Technologies is consistent with the Exchange Act, in particular with section 6(b)(1) of the Exchange Act,⁴²⁹ which requires an

exchange to be so organized and have the capacity to carry out the purposes of the Exchange Act and to comply and enforce compliance by its members and persons associated with its members with the Exchange Act and the rules thereunder. The arrangement between 24X and MEMX Technologies, as described in the 24X Form 1, will enable the Exchange to utilize trading platform technology that is already in use with an experienced operator.⁴³⁰ However, the terms of the DLSA between 24X and MEMX Technologies, as described in the Form 1, are reasonably designed not to confer upon either MEMX Exchange or 24X Members any advantages when trading on 24X, or vice versa, such as faster connections, lower fees, or preferential treatment of orders on the 24X System.⁴³¹ Further, as described in the Form 1, the DLSA will not include the technology or systems to route orders to the MEMX Exchange or any other exchange.⁴³² 24X will retain responsibility for overseeing the daily market operations of its trading system; MEMX Technologies will be responsible for performing all necessary maintenance and remediation of problems relating to the logical and physical infrastructure, in accordance with the DLSA.⁴³³ Therefore, 24X will be capable of exercising sufficient control over the operation of its Technology and System, and will be sufficiently independent from MEMX Technologies, to enable 24X to comply with the requirements under the Exchange Act and the rules thereunder.

The provisions of the DLSA described above demonstrate that the support services provided by MEMX Technology are adequate to enable 24X to meet its self-regulatory obligations. In order for 24X to perform its regulatory obligations, the DLSA provides 24X with enumerated audit rights to review books and records of MEMX Technologies related to the provision of services under the DLSA, and the ability either to produce itself, or direct MEMX Technologies to produce, MEMX Technologies documents and information related to the operation of the Technology and System to the Commission or other regulators or parties upon request, subject to appropriate due process.⁴³⁴

Finally, 24X will have regulatory responsibility for its trading Technology and System and will be responsible to fully discharge its obligations as a national securities exchange. 24X will also be responsible for its market and cross-market surveillance through the RSA, described above,⁴³⁵ and maintain its independent regulatory function to oversee the RSA and will not rely on or utilize MEMX Exchange or its personnel to fulfill any aspect of those obligations on 24X’s behalf.

2. Regulation SCI

As a registered national securities exchange, 24X will be an “SCI entity” responsible for compliance with the requirements of Regulation Systems Compliance and Integrity (“Regulation SCI”).⁴³⁶ Regulation SCI requires SCI entities to establish written policies and procedures reasonably designed to ensure that their applicable systems have levels of capacity, integrity, resiliency, availability, and security adequate to maintain their operational capability and promote the maintenance of fair and orderly markets, and that they operate in a manner that complies with the Exchange Act.⁴³⁷ In addition, Regulation SCI requires SCI entities to take corrective action with respect to SCI events (defined to include systems disruptions, systems compliance issues, and systems intrusions), notify the Commission of such events, and disseminate information about certain SCI events to affected members or participants (and, for certain major SCI events, to all members or participants of the SCI entity).⁴³⁸ Moreover, Regulation SCI requires SCI entities to conduct a review of their systems by objective personnel at least annually, submit quarterly reports regarding completed, ongoing, and planned material changes to their SCI systems to the Commission,⁴³⁹ and maintain certain books and records.⁴⁴⁰ It also requires SCI entities to mandate participation by designated members or participants in scheduled testing of the operation of their business continuity and disaster recovery plans, including backup systems, and to coordinate such testing

⁴³⁰ See e.g., LTSE—MEMX Technologies Approval Order, *supra* note 409.

⁴³¹ See Form 1, Exhibit E.

⁴³² 24X may automatically route orders to other exchanges through the use of one or more routing brokers that are not affiliated with 24X. See Form 1, Exhibit E. See also 24X Rules 2.11 and 11.10.

⁴³³ See Form 1, Exhibit E.

⁴³⁴ See *id.*

⁴³⁵ See *supra* section III.C.2. (discussing 24X’s RSA with FINRA).

⁴³⁶ See Securities Exchange Act Release No. 73639 (Nov. 19, 2014), 79 FR 72252 (Dec. 5, 2014) (“Regulation SCI 2014 Adopting Release”).

⁴³⁷ See 17 CFR 242.1001.

⁴³⁸ See 17 CFR 242.1002. See also 17 CFR 242.1000 and 17 CFR 242.1006.

⁴³⁹ See 17 CFR 242.1003. See also 17 CFR 242.1000.

⁴⁴⁰ See 17 CFR 242.1005. See also 17 CFR 242.1007.

on an industry- or sector-wide basis with other SCI entities.⁴⁴¹

Regulation SCI applies to an SCI entity's "SCI systems," which are systems that directly support any one of six key securities market functions—trading, clearance and settlement, order routing, market data, market regulation, and market surveillance ("SCI systems"). Regulation SCI also applies to "indirect SCI systems," which are any systems that, if breached, are likely to pose a security threat to SCI systems. Further, certain SCI systems that are "critical SCI systems" are held to certain heightened requirements under Regulation SCI.⁴⁴²

The Exchange has obtained commitments from MEMX Technologies in connection with the Exchange's engagement of MEMX Technologies to develop, license, and operate the Technology and System on behalf of the Exchange to, among other things, address how this arrangement is consistent with the requirements of Regulation SCI.⁴⁴³ The Exchange acknowledges that as the SCI entity contracting with MEMX Technologies to provide software and hardware to operate both SCI systems and indirect SCI systems, 24X will have full responsibility for ensuring that it is in compliance with all aspects of Regulation SCI, including the requirements for its backup and recovery capabilities.⁴⁴⁴ In addition, the DLSA includes commitments from MEMX Technologies as developer, licensor, and operator of the Technology and System to cooperate with the Exchange and provide the Exchange with the information and access that the Exchange reasonably believes will allow the Exchange to satisfy its obligations under Regulation SCI.⁴⁴⁵

One commenter stated that it does "not see how 24X would be able to comply with Regulation SCI when it would not be in control of its own systems. . . . The introduction of another essential business partner creates previously unprecedented conflicts of interest for a registered exchange and complications for ownership and governance."⁴⁴⁶ Contrary to the commenter's statements, Regulation SCI contemplates the possibility of an SCI entity's SCI systems and indirect SCI systems being operated on its behalf by another

entity.⁴⁴⁷ In fact, because SCI entities engage in outsourcing to varying degrees, the Commission stated when it adopted Regulation SCI, "if an SCI entity determines to utilize a third party for an applicable system, it is responsible for having in place processes and requirements to ensure that it is able to satisfy the requirements of Regulation SCI for systems operated on behalf of the SCI entity by a third party."⁴⁴⁸

Another commenter questioned how exchanges that are operating Regulation SCI systems "in production mode at all hours" would be able to comply with Regulation SCI, including requirements for systems testing.⁴⁴⁹ In its response, 24X set forth a description of how its policies and procedures comply with the requirements of Regulation SCI.⁴⁵⁰ The periodic capacity stress testing, testing of system changes and testing in conjunction with the annual SCI review will be coordinated by 24X technology operations with MEMX Technologies personnel, and that vulnerability and threat testing will be coordinated by 24X with an outside vendor who will perform the tests, and with MEMX Technologies personnel as necessary.⁴⁵¹ Finally, as discussed above, in Amendment No. 2, 24X has modified the 24X Market System so that trading will not occur on weekends. Accordingly, the concerns raised about systems testing when Regulation SCI systems would be "in production mode

at all hours" are no longer germane. Based on the statements 24X has made in the Form 1, as amended, and 24X's response to commenters with respect to its obligations under Regulation SCI, as well as the provisions in the DLSA as described by 24X in the Form 1, 24X's proposal regarding the engagement of a third party to develop, license, and operate the Technology and System is designed to support the Exchange's ability to comply with its regulatory obligations under Regulation SCI.

F. Discipline and Oversight of Members

As stated above, one prerequisite for the Commission's grant of an exchange's application for registration is that a proposed exchange must be so organized and have the capacity to be able to carry out the purposes of the Exchange Act.⁴⁵² Specifically, an exchange must be able to enforce compliance by its members and persons associated with its members with the federal securities laws and rules thereunder and the rules of the exchange.⁴⁵³ Pursuant to an RSA with FINRA, FINRA will perform many of the initial disciplinary processes on behalf of 24X.⁴⁵⁴ For example, FINRA will investigate potential securities laws violations, issue complaints, and conduct hearings pursuant to 24X rules. Appeals from disciplinary decisions will be heard by the 24X Appeals Committee,⁴⁵⁵ and the 24X Appeals Committee's decision shall be final.⁴⁵⁶ In addition, the 24X Board on its own initiative may order review of a disciplinary decision.⁴⁵⁷

The 24X LLC Agreement and 24X rules provide that the Exchange has disciplinary jurisdiction over its Members⁴⁵⁸ so that it can enforce its Members' compliance with its rules and the federal securities laws and rules.⁴⁵⁹ The Exchange's rules also permit 24X to sanction Members for violations of its rules and violations of the federal securities laws and rules by, among other things, expelling or suspending Members, limiting Members' activities, functions, or operations, fining or censuring Members, or suspending or barring a person from being associated

⁴⁴⁷ See, e.g., Rule 1000 (definitions of SCI systems, critical SCI systems and indirect SCI systems, each of which contains "any. . . systems of, or operated by or on behalf of. . ."). See also Regulation SCI 2014 Adopting Release, *supra* note 436 at 72276 (discussing the utilization of third parties by SCI entities for applicable systems).

⁴⁴⁸ See *id.* ("The Commission agrees with the comment that an SCI entity should be responsible for managing its relationship with third parties operating systems on behalf of the SCI entity through due diligence, contract terms, and monitoring of third party performance. However, the Commission believes that these methods may not be sufficient in all cases to ensure that the requirements of Regulation SCI are met for SCI systems operated by third parties. . . . Instead, if an SCI entity determines to utilize a third party for an applicable system, it is responsible for having in place processes and requirements to ensure that it is able to satisfy the requirements of Regulation SCI for systems operated on behalf of the SCI entity by a third party. The Commission believes that it would be appropriate for an SCI entity to evaluate the challenges associated with oversight of third-party vendors that provide or support its applicable systems subject to Regulation SCI. If an SCI entity is uncertain of its ability to manage a third-party relationship (whether through due diligence, contract terms, monitoring, or other methods) to satisfy the requirements of Regulation SCI, then it would need to reassess its decision to outsource the applicable system to such third party.")

⁴⁴⁹ See SIFMA Letter at 8.

⁴⁵⁰ See 24X Letter II at 5.

⁴⁵¹ See *id.*

⁴⁵² See 15 U.S.C. 78f(b)(1).

⁴⁵³ See *id.*

⁴⁵⁴ See *supra* notes 119–120 and accompanying text. See also 24X Rule 9.8 (stating that 24X and FINRA are parties to a regulatory services agreement, pursuant to which FINRA will perform certain functions described in Chapter 9 on behalf of 24X).

⁴⁵⁵ See 24X Rule 8.10(b).

⁴⁵⁶ See *id.*

⁴⁵⁸ See *supra* note 48.

⁴⁵⁹ See generally 24X LLC Agreement, Article XI and 24X Rules Chapters 7 and 8.

⁴⁴¹ See 17 CFR 242.1004.

⁴⁴² See 17 CFR 242.1000 (definitions of "SCI systems," "indirect SCI systems," and "critical SCI systems").

⁴⁴³ See Form 1, Exhibit E.

⁴⁴⁴ See *id.*

⁴⁴⁵ See *id.*

⁴⁴⁶ See Healthy Markets Letter at 9.

with a Member, or any other fitting sanction.⁴⁶⁰ 24X's rules also provide for the imposition of fines for certain minor rule violations in lieu of commencing disciplinary proceedings.⁴⁶¹

Accordingly, as a condition to the operation of 24X, a Minor Rule Violation Plan ("MRVP") filed by 24X under Exchange Act Rule 19d-1(c)(2) must be declared effective by the Commission.⁴⁶²

The Commission finds that the 24X LLC Agreement and 24X rules concerning its disciplinary and oversight programs are consistent with the requirements of sections 6(b)(6) and 6(b)(7) of the Exchange Act⁴⁶³ in that they provide fair procedures for the disciplining of members and persons associated with members. The Commission further finds that the rules of 24X provide it with the ability to comply, and with the ability to enforce compliance by its Members and persons associated with its Members, with the provisions of the Exchange Act, the rules and regulations thereunder, and the rules of 24X.⁴⁶⁴

G. Trading on 24X Pursuant to Unlisted Trading Privileges

24X does not intend to be a primary listing market for securities.⁴⁶⁵ Accordingly, 24X has not proposed rules that would allow it to primarily list any securities at this time. Instead, 24X has proposed to trade securities pursuant to UTP. 24X Rule 14.1 establishes the Exchange's authority to trade securities on a UTP basis. 24X Rule 14.1(a) provides that 24X may extend UTP to any security that is an NMS stock that is listed on another national securities exchange or with respect to which UTP may otherwise be extended in accordance with section 12(f) of the Exchange Act.⁴⁶⁶ 24X Rule 14.1(a) further provides that any such security would be subject to all 24X rules applicable to trading on 24X, unless otherwise noted.

24X Rule 14.1(b) establishes additional rules for trading of UTP Exchange Traded Products, which are defined in 24X Rule 1.5(nn).⁴⁶⁷ 24X

Rule 14.1(b) provides that 24X will distribute an information circular prior to the commencement of trading in a UTP Exchange Traded Product that generally would include the same information as the information circular provided by the listing exchange, including (a) the special risks of trading the Exchange Traded Product, (b) the Exchange's rules that would apply to the Exchange Traded Product, and (c) information about the dissemination of value of the underlying assets or indices. 24X Rule 14.1(b)(2) establishes certain requirements for Members that have customers that trade UTP Exchange Traded Products.⁴⁶⁸ 24X Rule 14.1(b)(4) also establishes certain requirements for any Member registered as a Market Maker in a UTP Exchange Traded Product that derives its value from one or more currencies, commodities, or derivatives based on one or more currencies or commodities, or is based on a basket or index composed of currencies or commodities. 24X Rule 14.1(b)(5) provides that the Exchange's surveillance procedures for Exchange Traded Products traded on the Exchange pursuant to UTP would be similar to the procedures used for equity securities traded on the Exchange and would incorporate and rely upon existing Exchange surveillance systems.

The Commission finds that the Exchange's proposed approach to the trading of securities on a UTP basis, as set forth in 24X Rule 14.1, is consistent with section 12(f) of the Exchange Act and Rule 12f-5 thereunder.⁴⁶⁹ Rule 12f-5 under the Exchange Act requires an exchange that extends unlisted trading privileges to securities to have in effect a rule or rules providing for transactions in the class or type of security to which

linked securities, currency-linked securities, fixed-income index-linked securities, futures linked securities, multifactor-index-linked securities, trust certificates, currency and index warrants, portfolio depository receipts, trust issued receipts, commodity-based trust shares, currency trust shares, commodity index trust shares, commodity futures trust shares, partnership units, paired trust shares, trust units, managed fund shares, and managed trust securities."

⁴⁶⁸ 24X Rule 14.1(b)(2)(A) states that 24X Rule 14.1(b)(2) applies to UTP Exchange Traded Products that are the subject of an order by the Commission exempting the series from certain prospectus delivery requirements under Section 24(d) of the Investment Company Act of 1940 and are not otherwise subject to prospectus delivery requirements under the Securities Act of 1933. 24X Rule 14.1(b)(2)(B) requires members to provide a written description of the terms and characteristics of UTP Exchange Traded Products to purchasers of such securities, not later than the time of confirmation of the first transaction, and with any sales materials relating to UTP Exchange Traded Products. 24X Rule 14.1(b)(2)(C) requires members to provide a prospectus to a customer requesting a prospectus.

⁴⁶⁹ 15 U.S.C. 78l(f); 17 CFR 240.12f-5.

the exchange extends unlisted trading privileges.⁴⁷⁰ 24X Rule 14.1 includes a provision that any security traded UTP on the Exchange "shall be subject to all Exchange rules applicable to trading on the Exchange, unless otherwise noted."⁴⁷¹ The provisions in 24X Rule 14.1 are substantively the same as the existing rules of the MEMX Exchange.⁴⁷² Accordingly, pursuant to section 12(f) of the Exchange Act and Rule 12f-5 thereunder, 24X will be permitted to extend unlisted trading privileges to securities of the same class, subject to the trading rules of the Exchange.

H. Section 11(a) of the Exchange Act

Section 11(a)(1) of the Exchange Act⁴⁷³ prohibits a member of a national securities exchange from effecting transactions on that exchange for its own account, the account of an associated person, or an account over which it or its associated person exercises investment discretion (collectively, "covered accounts") unless an exception applies. Rule 11a2-2(T) under the Exchange Act,⁴⁷⁴ known as the "effect versus execute" rule, provides exchange members with an exemption from the section 11(a)(1) prohibition. Rule 11a2-2(T) permits an exchange member, subject to certain conditions, to effect transactions for covered accounts by arranging for an unaffiliated member to execute transactions on the exchange. To comply with Rule 11a2-2(T)'s conditions, a member: (i) must transmit the order from off the exchange floor; (ii) may not participate in the execution of the transaction once it has been transmitted to the member performing the execution;⁴⁷⁵ (iii) may not be affiliated with the executing member; and (iv) with respect to an account over which the member or an associated person has investment discretion, neither the member nor its associated person may retain any compensation in connection with effecting the transaction except as provided in the Rule.

In a letter to the Commission, 24X requested that the Commission concur with 24X's conclusion that 24X

⁴⁷⁰ See 17 CFR 240.12f-5. See also Securities Exchange Act Release No. 35737 (Apr. 21, 1995), 60 FR 20891 (Apr. 28, 1995) (File No. S7-4-95) (adopting Rule 12f-5 under the Exchange Act).

⁴⁷¹ See 24X Rule 14.1(a).

⁴⁷² See MEMX Exchange Rule 14.1.

⁴⁷³ 15 U.S.C. 78k(a)(1).

⁴⁷⁴ 17 CFR 240.11a2-2(T).

⁴⁷⁵ This prohibition also applies to associated persons. Rule 11a2-2(T)(a)(2)(iii), 17 CFR 240.11a2-2(T)(a)(2)(iii). The member may, however, participate in clearing and settling the transaction. Rule 11a2-2(T)(b)(3), 17 CFR 240.11a2-2(T)(b)(3).

⁴⁶⁰ See 24X Rule 8.1(a).

⁴⁶¹ See 24X Rule 8.15.

⁴⁶² 17 CFR 240.19d-1(c)(2).

⁴⁶³ 15 U.S.C. 78f(b)(6) and (b)(7).

⁴⁶⁴ See 15 U.S.C. 78f(b)(1).

⁴⁶⁵ See Form 1, Exhibit H.

⁴⁶⁶ 15 U.S.C. 78l(f).

⁴⁶⁷ Pursuant to 24X Rule 1.5(nn), the term "UTP Exchange Traded Products" means "derivative securities products that are not listed on the Exchange but that trade on the Exchange pursuant to unlisted trading privileges, including the following: equity linked notes, investment company units, index-linked exchangeable notes, equity gold shares, equity index-linked securities, commodity-

Members that enter orders into the 24X trading system satisfy the conditions of Rule 11a2-2(T).⁴⁷⁶ For the reasons set forth below, 24X Members entering orders into the 24X trading system could satisfy the requirements of Rule 11a2-2(T).

Rule 11a2-2(T)'s first condition is that orders for covered accounts be transmitted from off the exchange floor. In the context of automated trading systems, the Commission has found that the off-floor transmission condition is met if a covered account order is transmitted from a remote location directly to an exchange's floor by electronic means.⁴⁷⁷ 24X represents that 24X does not have a physical trading floor, and the 24X trading system will receive orders from members electronically through remote terminals or computer-to-computer interfaces.⁴⁷⁸ The 24X trading system satisfies this off-floor transmission condition.

The second condition requires that the member and any associated person not participate in the execution of its order after the order has been transmitted. 24X represents that at no time following the submission of an order is a member or an associated person of the member able to acquire control or influence over the result or timing of the order's execution.⁴⁷⁹ According to 24X, the execution of a member's order is determined solely by

what quotes and orders are present in the system at the time the member submits the order, and the order priority based on the 24X rules.⁴⁸⁰ Accordingly, a 24X member and its associated persons do not participate in the execution of an order submitted to the 24X trading system.⁴⁸¹

The third condition states that the order be executed by an exchange member who is unaffiliated with the member initiating the order. The Commission has stated that this condition is satisfied when automated exchange facilities, such as the 24X trading system, are used, as long as the design of these systems ensures that members do not possess any special or unique trading advantages in handling their orders after transmitting them to the exchange.⁴⁸² 24X represents that the design of the 24X trading system ensures that no member has any special or unique trading advantage in the handling of its orders after transmitting its orders to 24X.⁴⁸³ Based on 24X's representation, the 24X trading system satisfies this condition.

Fourth, in the case of a transaction effected for an account with respect to which the initiating member or an associated person thereof exercises investment discretion, neither the initiating member nor any associated person thereof may retain any compensation in connection with effecting the transaction, unless the person authorized to transact business for the account has expressly provided otherwise by written contract that refers to section 11(a) of the Exchange Act and Rule 11a2-2(T) thereunder.⁴⁸⁴ 24X

members trading for covered accounts over which they exercise investment discretion must comply with this condition in order to rely on the rule's exemption.⁴⁸⁵

IV. Exemption from Section 19(b) of the Exchange Act With Regard to FINRA Rules Incorporated by Reference

24X proposes to incorporate by reference certain FINRA rules as 24X rules.⁴⁸⁶ Thus, for those 24X rules, Exchange Members will comply with the 24X rule by complying with the FINRA rule referenced therein. In connection with its proposal to incorporate FINRA rules by reference, 24X requests, pursuant to Rule 240.0-12,⁴⁸⁷ an exemption under Section 36 of the Exchange Act from the rule filing requirements of section 19(b) of the Exchange Act for changes to those 24X rules that are effected solely by virtue of a change to a cross-referenced FINRA rule.⁴⁸⁸ 24X represents in its letter that, as a condition to the exemption, it will provide written notice to its Members whenever a proposed rule change to a FINRA rule that is incorporated by reference is proposed and whenever any such proposed change is approved by the Commission or otherwise becomes effective.⁴⁸⁹

member or any associated person thereof in connection with effecting transactions for the account during the period covered by the statement. See 17 CFR 240.11a2-2(T)(d). See also 1978 Release, *supra* note 479 (stating "[t]he contractual and disclosure requirements are designed to assure that accounts electing to permit transaction-related compensation do so only after deciding that such arrangements are suitable to their interests").

⁴⁸⁵ 24X represents that it will advise its membership through the issuance of an Information Circular that those Members trading for covered accounts over which they exercise investment discretion must comply with this condition in order to rely on the rule's exemption. See 24X 11(a) Letter, *supra* note 476, at 4.

⁴⁸⁶ See letter from David Sassoon, General Counsel, 24X, to Vanessa Countryman, Secretary, Commission, dated Feb. 6, 2024 ("24X Exemption Request Letter"). 24X proposes to incorporate by reference the following FINRA rules: (1) FINRA Rule 2210 (Communications with the Public); via 24X Rule 3.5 (Communications with the Public); (2) the definition of a research report in FINRA Rule 2241, via 24X Rule 3.13(b)(3); (3) the 12000 and 13000 Series of the FINRA Manual (Code of Arbitration Procedures for Customer Disputes and Code of Arbitration Procedures for Industry Disputes), via 24X Rules 9.1, 9.2, 9.4, 9.5 and 9.8; (4) FINRA Rule 2268 (Requirements When Using Pre-dispute Arbitration Agreements for Customer Accounts), via 24X Rule 9.3 (Pre-dispute Arbitration Agreements); (5) the 14000 Series of the FINRA Manual (Code of Mediation Procedures), via 24X Rule 9.7 (Mediation); and (6) FINRA Rule 5270 (Frontrunning of Block Transactions), via 24X Rule 12.14 (Frontrunning of Block Transactions).

⁴⁸⁷ See 17 CFR 240.0-12.

⁴⁸⁸ See 24X Exemption Request Letter, *supra* note 486.

⁴⁸⁹ See 24X Exemption Request Letter, *supra* note 486. 24X will provide such notice through a posting on the same website location where 24X posts its

⁴⁷⁶ See letter from David Sassoon, General Counsel, 24X, to Vanessa Countryman, Secretary, Commission, dated Feb. 6, 2024 ("24X 11(a) Letter").

⁴⁷⁷ See, e.g., Nasdaq Order, *supra* note 57; Securities Exchange Act Release Nos. 61419 (Jan. 26, 2010), 75 FR 5157 (Feb. 1, 2010) (SR-BATS-2009-031) (approving BATS options trading); 59154 (Dec. 23, 2008), 73 FR 80468 (Dec. 31, 2008) (SR-BSE-2008-48) (approving equity securities listing and trading on BSE); 57478 (Mar. 12, 2008), 73 FR 14521 (Mar. 18, 2008) (SR-NASDAQ-2007-004 and SR-NASDAQ-2007-080) (approving Nasdaq Options Market options trading); 29237 (May 24, 1991), 56 FR 24853 (May 31, 1991) (SR-NYSE-90-52 and SR-NYSE-90-53) (approving NYSE's Off-Hours Trading Facility); and 15533 (Jan. 29, 1979), 44 FR 6084 (Jan. 31, 1979) ("1979 Release").

⁴⁷⁸ See 24X 11(a) Letter, *supra* note 476 at 2.

⁴⁷⁹ See *id.* at 3. 24X states that a member may cancel or modify the order, or modify the instructions for executing the order, after the order has been transmitted, provided that such cancellations or modifications are transmitted from off an exchange floor. The Commission has stated that the non-participation condition is satisfied under such circumstances so long as such modifications or cancellations are also transmitted from off the floor. See Securities Exchange Act Release No. 14563 (Mar. 14, 1978), 43 FR 11542 (Mar. 17, 1978) ("1978 Release") (stating that the "non-participation requirement does not prevent initiating members from canceling or modifying orders (or the instructions pursuant to which the initiating member wishes orders to be executed) after the orders have been transmitted to the executing member, provided that any such instructions are also transmitted from off the floor").

⁴⁸⁰ See 24X 11(a) Letter, *supra* note 476, at 3.

⁴⁸¹ See, e.g., BATS Order, *supra* note 57, at 49505; DirectEdge Exchanges Order, *supra* note 84, at 13164.

⁴⁸² See, e.g., BATS Order, *supra* note 57 at 49505; DirectEdge Exchanges Order, *supra* note 84, at 13164. In considering the operation of automated execution systems operated by an exchange, the Commission stated that, while there is not an independent executing exchange member, the execution of an order is automatic once it has been transmitted into the system. Because the design of these systems ensures that members do not possess any special or unique trading advantages in handling their orders after transmitting them to the exchange, the Commission has stated that executions obtained through these systems satisfy the independent execution condition of Rule 11a2-2(T). See 1979 Release, *supra* note 477.

⁴⁸³ See 24X 11(a) Letter, *supra* note 476, at 3.

⁴⁸⁴ See, e.g., BATS Order, *supra* note 57, at 49505; DirectEdge Exchanges Order, *supra* note 84, at 13164. In addition, Rule 11a2-2(T)(d) requires a member or associated person authorized by written contract to retain compensation, in connection with effecting transactions for covered accounts over which such member or associated persons thereof exercises investment discretion, to furnish at least annually to the person authorized to transact business for the account a statement setting forth the total amount of compensation retained by the

Using its authority under section 36 of the Exchange Act,⁴⁹⁰ the Commission is hereby granting 24X's request for an exemption, pursuant to section 36 of the Exchange Act, from the rule filing requirements of section 19(b) of the Exchange Act with respect to the rules that 24X proposes to incorporate by reference.⁴⁹¹ This exemption is conditioned upon 24X providing written notice to its Members whenever FINRA proposes to change a rule that 24X has incorporated by reference. This exemption is appropriate, in the public interest and consistent with the protection of investors because it will promote more efficient use of Commission and SRO resources by avoiding duplicative rule filings based on simultaneous changes to identical rules of more than one SRO.

V. Conclusion

It is ordered that the application of 24X for registration as a national securities exchange be, and it hereby is, granted.

It is furthered ordered that operation of 24X is conditioned on the satisfaction of the requirements below:

A. Participation in National Market System Plans. 24X must join the Consolidated Tape Association Plan, the Consolidated Quotation Plan, and the Nasdaq UTP Plan (or any successors thereto); the National Market System Plan Establishing Procedures Under Rule 605 of Regulation NMS; the Regulation NMS Plan to Address Extraordinary Market Volatility; the Plan for the Selection and Reservation of Securities Symbols; and the National Market System Plan Governing the Consolidated Audit Trail.

B. Intermarket Surveillance Group. 24X must join the Intermarket Surveillance Group.

C. Minor Rule Violation Plan. A Minor Rule Violation Plan filed by 24X

own rule filings pursuant to Rule 19b-4 under the Exchange Act, within the required time frame. The website posting will include a link to the location on the FINRA website where FINRA's proposed rule change is posted. *See id.*

⁴⁹⁰ 15 U.S.C. 78mm.

⁴⁹¹ The Commission previously exempted other exchanges from the requirement to file proposed rule changes under Section 19(b) of the Exchange Act. *See, e.g.,* IEX Order, *supra* note 65; ISE Mercury Order, *supra* note 75; Securities Exchange Act Release No. 68341 (Dec. 3, 2012), 77 FR 73065, 73067 (Dec. 7, 2012) (File No. 10-207) (order granting the registration of Miami International Securities Exchange, LLC ("MIAX Exchange")) ("MIAX Order"); Securities Exchange Act Release No. 79543 (Dec. 13, 2016), 81 FR 92901, 92903 (Dec. 20, 2016) (File No. 10-227) (order granting registration of MIAX PEARL, LLC ("MIAX PEARL Order")), BATS Order, *supra* note 57; DirectEdge Exchanges Order, *supra* note 84.

under Rule 19d-1(c)(2)⁴⁹² must be declared effective by the Commission.

D. Rule 17d-2 Agreement. An agreement pursuant to Rule 17d-2⁴⁹³ that allocates regulatory responsibility for those matters specified above⁴⁹⁴ must be declared effective by the Commission, or 24X must demonstrate that it independently has the ability to fulfill all of its regulatory obligations.

E. Participation in Multi-Party Rule 17d-2 Plans. 24X must become a party to the multi-party Rule 17d-2 agreement concerning the surveillance, investigation, and enforcement of common insider trading rules and the agreement concerning certain Regulation NMS and Consolidated Audit Trail rules.

F. RSA. 24X must finalize the provisions of the RSA with its regulatory services provider, as described above,⁴⁹⁵ that will specify the 24X and Commission rules for which the regulatory services provider will provide certain regulatory functions, or 24X must demonstrate that it independently has the ability to fulfill all of its regulatory obligations.

It is further ordered, pursuant to section 36 of the Exchange Act,⁴⁹⁶ that 24X shall be exempted from the rule filing requirements of section 19(b) of the Exchange Act with respect to the FINRA rules that 24X proposes to incorporate by reference into its rules, subject to the conditions specified in this Order.

By the Commission.

Stephanie J. Fouse,

Assistant Secretary.

⁴⁹⁵ *See supra* section III.C.2. (discussing 24X's RSA with FINRA).

⁴⁹⁶ 15 U.S.C. 78mm.

("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 18, 2024, The Nasdaq Stock Market LLC ("Nasdaq" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to a proposal to establish fees for its expanded co-location services, as described further below.

The text of the proposed rule change is available on the Exchange's website at <https://listingcenter.nasdaq.com/rulebook/nasdaq/rules>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange filed a proposal to expand its co-location services by offering new cabinet, power, and power distribution unit options in the Exchange's expanded data center.³ As described in that filing, the Exchange's current data center ("NY11") in Carteret, NJ is undergoing an expansion ("NY11-4") in response to demand for power and cabinets. The purpose of this proposed rule change is to establish fees for the expanded co-location services. Specifically, the Exchange proposes to establish (i) a monthly fee for Ultra High

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ *See* Securities Exchange Act Release No. 34-101078 (September 5, 2024), 89 FR 77937 (September 24, 2024) (SR-NASDAQ-2024-054).

Density Cabinets, (ii) an installation fee for cabinets in NY11–4, (iii) fees for power installation in NY11–4, and (iv) fees for power distribution unit options in NY11–4.

Ultra High Density Cabinet

Currently, co-location customers have the option of obtaining cabinets of various sizes and power densities. Co-location customers may obtain a Half Cabinet,⁴ a Low Density Cabinet with power density less than or equal to 2.88 kilowatts (“kW”), a Medium Density Cabinet with power density greater than 2.88 kW and less than or equal to 5 kW, a Medium-High Density Cabinet with power density greater than 5 kW and less than or equal to 7 kW, a High Density Cabinet with power density greater than 7 kW and less than 10 kW, and a Super High Density Cabinet with power density greater than 10 kW and less than or equal to 17.3 kW.

The Exchange filed a proposal to introduce a new cabinet choice in NY11–4, an “Ultra High Density Cabinet,” with power density greater than 10 kW and less than or equal to 15 kW.⁵ The Ultra High Density Cabinet option will only be offered in NY11–4 because of the power configuration necessary for such cabinets, which is not possible or available in other portions of the data center due to different power distribution.⁶ In addition to the Ultra High Density Cabinet, the Exchange will offer the other, existing cabinet options in NY11–4, with the exception of the Low Density Cabinet and Half Cabinet due to a lack of demand for such cabinets. The ongoing monthly fees for the Super High Density Cabinet, High Density Cabinet, Medium-High Density Cabinet, and Medium Density Cabinet are the same in NY11 and NY11–4 and the Exchange is not proposing to modify such fees.

The Exchange proposes to establish an ongoing monthly fee of \$7,230 for the Ultra High Density Cabinets. To effectuate this change, the Exchange proposes to add the \$7,230 ongoing monthly fee for Ultra High Density Cabinets to its fee schedule in General 8, Section 1(a). The Exchange notes that the proposed fee amount falls between the \$4,748 ongoing monthly fee charged for High Density Cabinets and the \$8,440 ongoing monthly fee charged for Super High Density Cabinets.

Furthermore, the proposed fee is consistent with the existing ongoing monthly cabinet fees on a per kW basis. The existing monthly cabinet fees range from approximately \$475 per kW to \$916 per kW, while the proposed ongoing monthly cabinet fee for the Ultra High Density Cabinet ranges from approximately \$482 per kW (at the high end of the power density range for Ultra High Density Cabinets) to \$723 per kW (at the low end of the power density range for Ultra High Density Cabinets). Lastly, Nasdaq notes that the proposed fee for the Ultra High Density Cabinet accounts for the cost of the cabinet and is actually lower than the cost to Nasdaq of procuring it from its vendor, Wise Components.

Installation Fee for Cabinets in NY11–4

The Exchange proposes to establish a cabinet installation fee of \$5,940 for all cabinets in NY11–4. To effectuate this change, the Exchange proposes to add the proposed \$5,940 installation fee to its fee schedule in General 8, Section 1(a) for Super High Density Cabinets, Ultra High Density Cabinets, High Density Cabinets, Medium-High Density Cabinets, and Medium Density Cabinets in NY11–4. In the existing data halls, customers may bring their own cabinets or use Exchange-provided cabinets. In NY11–4, because of the cooling system (hot aisle containment),⁷ all cabinets must be uniform and therefore, the Exchange will provide all cabinets, the cost of which is included in the \$5,940 installation fee.⁸ The cabinets in NY11–4 include certain features not included in cabinets provided by the Exchange in the existing data halls. Specifically, the cabinets in NY11–4 include uniform, wider cabinets (32” W x 48” D x 91” H), cable management, and a rear split door and combo lock. In addition, the proposed installation fee of \$5,940 is comparable to fees charged for similar products.⁹ It largely reflects a pass-through to customers of costs charged by Nasdaq’s vendor, Equinix, for installation as well as a small mark-up to cover Nasdaq’s administrative costs, which is comparable to its mark-up on existing installations.

⁷ The existing data halls utilize cold aisle containment to manage temperatures. Hot aisle containment is a more effective way to manage heat in the data center.

⁸ In contrast, to the extent customers provide their own cabinets in NY11, there is an additional out-of-pocket cost for such cabinets.

⁹ For example, NYSE charges an initial \$5,000 fee for dedicated cabinets. See https://www.nyse.com/publicdocs/Wireless_Connectivity_Fees_and_Charges.pdf.

Installation Fee for Cabinet Power in NY11–4

The cabinet power options for NY11–4 include: Phase 1 20 amp 240 volt, Phase 1 32 amp 240 volt, Phase 1 40 amp 240 volt, Phase 3 20 amp 415 volt, and Phase 3 32 amp 415 volt. These cabinet power options are specific to NY11–4 and one of these options must be selected for cabinets in NY11–4. The Exchange proposes to establish an installation fee of \$3,600 for Phase 1 cabinet power options in NY11–4 and an installation fee of \$4,560 for Phase 3 cabinet power options in NY11–4. To effectuate this change, the Exchange proposes to add the proposed fees to its fee schedule in General 8, Section 1(c). The Exchange also proposes not to charge an ongoing monthly fee for the cabinet power options in NY11–4 and update the fee schedule accordingly. For NY11–4, the data center operator is bringing in these higher voltage power options and is likely to experience increased power distribution efficiencies across the data center. The proposed power installation fees are higher in NY11–4 as compared to the existing data halls as the installation of the higher voltage power options costs more to the Exchange and is considered a premium product due to anticipated operational efficiencies.¹⁰ Moreover, the higher fee largely reflects a pass-through to customers of the costs charged by Nasdaq’s vendor, Equinix, for installation, as well as a small mark-up to cover Nasdaq’s administrative costs. As between the Phase 1 and Phase 3 power options, the Phase 3 options provide a more efficient power source.

Fees for Power Distribution Unit Options

The Exchange will offer power distribution units (“PDUs”) ¹¹ in NY11–4 as a convenience to customers. Rather than sourcing PDUs on a customer-by-customer basis, as the Exchange does for customers in NY11, the Exchange will offer Phase 1 and Phase 3 ¹² power

¹⁰ Benefits include future proofing the data hall to allow for increasing power density in the future, requiring less whips to deliver the same amount of amperage, less circuits need to be installed to reach the same power supply, and safety improvements.

¹¹ PDUs are devices fitted with multiple outputs designed to distribute electric power. The standardized PDUs would only be offered for NY11–4.

¹² Phase 1 PDUs are compatible with the following power options: Phase 1 20 amp 240 volt, Phase 1 32 amp 240 volt, and Phase 1 40 amp 240 volt. Phase 3 PDUs are compatible with the following power options: Phase 3 20 amp 415 volt and Phase 3 32 amp 415 volt. Phase 1 and Phase 3 are available in NY11 and NY11–4. Phase 3 PDUs provide greater power density than Phase 1 PDUs by delivering power over three wires as opposed to one wire.

⁴ Half cabinets are not available to new subscribers. See General 8, Section 1(a).

⁵ *Supra* note 3.

⁶ Because of the addition of the Ultra High Density Cabinet option in NY11–4, the Super High Density Cabinet in NY11–4 will have power density greater than 15 kW and less than or equal to 17.3 kW.

distribution units in NY11–4. The Exchange proposes to establish a fee of \$4,100 for a Phase 1 PDU and \$5,260 for a Phase 3 PDU. This service is optional and customers may choose to provide their own PDUs appropriate for their power installation choices. The Exchange notes that, as part of such proposed fees, the Exchange would provide a primary and redundant PDU. As such, the proposed PDU fees covers a pair of PDUs. In addition, customers utilizing a Phase 1 or Phase 3 PDU provided by the Exchange have the ability to upgrade or downgrade between amperage levels without replacing the PDU, by a simple upgrade of the facility cord and a receptacle update.¹³ A PDU replacement is required when switching between phases/voltage.

The Exchange will also offer a switch monitored PDU add on in NY11–4, which would allow customers to connect remotely to their PDU and control the power sockets. With the switch monitored PDU option, customers would be able to power cycle or shut off power remotely. The Exchange proposes to establish a \$2,000 fee for the switch monitored PDU option. This option is optional as well and customers may choose to provide their own switch monitored PDU, if desired.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁴ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,¹⁵ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that the proposal to establish a monthly fee for Ultra High Density Cabinets, an installation fee for cabinets in NY11–4, installation fees for power installation in NY11–4, and fees for power distribution unit options in NY11–4 is reasonable. First, the Exchange's proposal to establish a \$7,230 ongoing monthly fee for Ultra High Density Cabinets in NY11–4 is reasonable because it is comparable to the Exchange's current ongoing monthly fees for cabinets. The proposed fee

amount falls between the \$4,748 ongoing monthly fee charged for High Density Cabinets and the \$8,440 ongoing monthly fee charged for Super High Density Cabinets. Furthermore, the proposed fee is consistent with the existing ongoing monthly cabinet fees on a per kW basis. The existing monthly cabinet fees range from approximately \$475 per kW to \$916 per kW, while the proposed ongoing monthly cabinet fee for the Ultra High Density Cabinet ranges from approximately \$482 per kW (at the high end of the power density range for Ultra High Density Cabinets) to \$723 per kW (at the low end of the power density range for Ultra High Density Cabinets). Lastly, Nasdaq notes that the proposed fee for the Ultra High Density Cabinet accounts for the cost of the cabinet and is actually lower than the cost to Nasdaq of procuring it from its vendor, Wise Components. Second, the Exchange believes that the proposed cabinet installation fee of \$5,940 is reasonable as compared to the installation fees in NY11 (of \$3,693–\$4,748) because the proposed installation fee includes the cabinet itself, which includes certain enhanced features in NY11–4, including uniform, wider cabinets (32" W x 48" D x 91" H), cable management, and a rear split door and combo lock. In contrast, in NY11, customers may choose to provide their own cabinets, incurring an additional cost. Furthermore, the proposed installation fee is comparable to the rate charged by NYSE for a similar product, as described above. Lastly, the installation fee largely reflects a pass-through to customers of costs charged by Nasdaq's vendor, Equinix, for installation as well as a small mark-up to cover Nasdaq's administrative costs, which is comparable to its mark-up on existing installations. Third, the Exchange believes that the power installation fees of \$3,600 for Phase 1 power options and \$4,560 for Phase 3 power options in NY11–4 are reasonable. As compared to power installation fees in NY11, the proposed rates for NY11–4 are higher because the Exchange will incur increased costs for installation of the higher voltage power options. In addition, the higher voltage power options will provide operational efficiencies for the data hall, as discussed above,¹⁶ warranting a higher fee. Moreover, the higher fee largely reflects a pass-through to customers of the costs charged by Nasdaq's vendor, Equinix, for installation, as well as a small mark-up to cover Nasdaq's administrative costs. Finally, the Exchange believes that the proposed

fees for PDUs and the PDU add on are reasonable because such fees are consistent with market rates. Furthermore, the Exchange is providing the PDU options as a convenience to customers. No customer is required to purchase any PDU options from the Exchange. Customers may choose to provide their own PDUs and PDU add ons.

The Exchange believes substitutable products and services are available to market participants, including, among other things, other equities and options exchanges that a market participant may connect to in lieu of the Exchange,¹⁷ connectivity to the Exchange via a third-party reseller of connectivity, and/or trading of equities or options products within markets which do not require connectivity to the Exchange, such as the Over-the-Counter (OTC) markets. Market participants that wish to connect to the Exchange will continue to choose the method of connectivity based on their specific needs. Market participants that wish to connect to the Exchange but want to avoid or mitigate the effect of these proposed fees can choose to connect to the Exchange through a vendor.

In summary, the proposal represents an equitable allocation of reasonable dues, fees and other charges because customers have choices in how they connect to the Exchange, the proposed monthly fee for Ultra High Density Cabinets is comparable to current fees charged by the Exchange for other cabinets, the Exchange will provide uniform cabinets in NY11–4 with special features, the proposed cabinet installation fee is consistent with that of comparable products offered by other providers, the Exchange will incur increased costs for new power installation in NY11–4, higher voltage power options will provide operational efficiencies for the data hall, and PDU options are provided as a convenience

¹⁷ There are currently 16 registered equities exchanges that trade equities and 17 exchanges offering options trading services. No single equities exchange has more than 20% of the market share. See Cboe Global Markets, U.S. Equities Market Volume Summary, Month-to-Date (Last updated July 3, 2024), available at https://www.cboe.com/us/equities/market_statistics/. No single options exchange trades more than 15% of the options market by volume and only one of the 17 options exchanges has a market share over 10 percent. See Nasdaq, Options Market Statistics (Last updated July 3, 2024), available at <https://www.nasdaqtrader.com/Trader.aspx?id=OptionsVolumeSummary>. This broad dispersion of market share demonstrates that market participants can and do exercise choice in trading venues. Further, low barriers to entry mean that new exchanges may rapidly enter the market and offer additional substitute platforms to further compete with the Exchange and the products it offers.

¹³ This functionality may be available with customer-provided PDUs as well and depends on the PDU provided by the customer.

¹⁴ 15 U.S.C. 78f(b).

¹⁵ 15 U.S.C. 78f(b)(4) and (5).

¹⁶ *Supra* note 10.

to customers and customers may choose to provide their own PDUs.

The Exchange believes that the proposed fee changes are not unfairly discriminatory because the cabinet, power, and PDU fees for NY11–4 are available to and assessed uniformly across all market participants. In addition, all customers have the choice of whether and how to connect to the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

Nothing in the proposal burdens inter-market competition because approval of the proposal does not impose any burden on the ability of other exchanges to compete. The Exchange operates in a highly competitive market in which market participants can determine whether or not to connect to the Exchange based on the value received compared to the cost of doing so. Indeed, market participants have numerous alternative exchanges that they may participate on and direct their order flow, as well as off-exchange venues, where competitive products are available for trading.

Nothing in the proposal burdens intra-market competition because the Ultra High Density Cabinets, cabinet power options, and PDU optionality in NY11–4 are available to any customer under the same fees as any other customer, and any customer that wishes to order cabinets, power and PDUs in NY11–4 can do so on a non-discriminatory basis.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹⁸

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in

furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR–NASDAQ–2024–071 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.
- All submissions should refer to file number SR–NASDAQ–2024–071. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–NASDAQ–2024–071 and should be submitted on or before December 27, 2024.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁹

Sherry R. Haywood,
Assistant Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–101785; File No. SR–Phlx–2024–62]

Self-Regulatory Organizations; Nasdaq PHLX LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Establish Fees for Its Expanded Co-Location Services

December 2, 2024.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on November 21, 2024, Nasdaq PHLX LLC (“Phlx” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to establish fees for its expanded co-location services, as described further below.

The text of the proposed rule change is available on the Exchange's website at <https://listingcenter.nasdaq.com/rulebook/bx/rules>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

¹⁹ 17 CFR 200.30–3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

¹⁸ 15 U.S.C. 78s(b)(3)(A)(ii).

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange filed a proposal to expand its co-location services by offering new cabinet, power, and power distribution unit options in the Exchange's expanded data center.³ As described in that filing, the Exchange's current data center ("NY11") in Carteret, NJ is undergoing an expansion ("NY11-4") in response to demand for power and cabinets. The purpose of this proposed rule change is to establish fees for the expanded co-location services. Specifically, the Exchange proposes to establish (i) a monthly fee for Ultra High Density Cabinets, (ii) an installation fee for cabinets in NY11-4, (iii) fees for power installation in NY11-4, and (iv) fees for power distribution unit options in NY11-4.

Ultra High Density Cabinet

Currently, co-location customers have the option of obtaining cabinets of various sizes and power densities. Co-location customers may obtain a Half Cabinet,⁴ a Low Density Cabinet with power density less than or equal to 2.88 kilowatts ("kW"), a Medium Density Cabinet with power density greater than 2.88 kW and less than or equal to 5 kW, a Medium-High Density Cabinet with power density greater than 5 kW and less than or equal to 7 kW, a High Density Cabinet with power density greater than 7 kW and less than 10 kW, and a Super High Density Cabinet with power density greater than 10 kW and less than or equal to 17.3 kW.

The Exchange filed a proposal to introduce a new cabinet choice in NY11-4, an "Ultra High Density Cabinet," with power density greater than 10 kW and less than or equal to 15 kW.⁵ The Ultra High Density Cabinet option will only be offered in NY11-4 because of the power configuration necessary for such cabinets, which is not possible or available in other portions of the data center due to different power distribution.⁶ In addition to the Ultra High Density Cabinet, the Exchange will offer the other, existing cabinet options in NY11-

4, with the exception of the Low Density Cabinet and Half Cabinet due to a lack of demand for such cabinets. The ongoing monthly fees for the Super High Density Cabinet, High Density Cabinet, Medium-High Density Cabinet, and Medium Density Cabinet are the same in NY11 and NY11-4 and the Exchange is not proposing to modify such fees.

The Exchange proposes to establish an ongoing monthly fee of \$7,230 for the Ultra High Density Cabinets. To effectuate this change, the Exchange proposes to add the \$7,230 ongoing monthly fee for Ultra High Density Cabinets to its fee schedule in General 8, Section 1(a). The Exchange notes that the proposed fee amount falls between the \$4,748 ongoing monthly fee charged for High Density Cabinets and the \$8,440 ongoing monthly fee charged for Super High Density Cabinets. Furthermore, the proposed fee is consistent with the existing ongoing monthly cabinet fees on a per kW basis. The existing monthly cabinet fees range from approximately \$475 per kW to \$916 per kW, while the proposed ongoing monthly cabinet fee for the Ultra High Density Cabinet ranges from approximately \$482 per kW (at the high end of the power density range for Ultra High Density Cabinets) to \$723 per kW (at the low end of the power density range for Ultra High Density Cabinets). Lastly, Nasdaq notes that the proposed fee for the Ultra High Density Cabinet accounts for the cost of the cabinet and is actually lower than the cost to Nasdaq of procuring it from its vendor, Wise Components.

Installation Fee for Cabinets in NY11-4

The Exchange proposes to establish a cabinet installation fee of \$5,940 for all cabinets in NY11-4. To effectuate this change, the Exchange proposes to add the proposed \$5,940 installation fee to its fee schedule in General 8, Section 1(a) for Super High Density Cabinets, Ultra High Density Cabinets, High Density Cabinets, Medium-High Density Cabinets, and Medium Density Cabinets in NY11-4. In the existing data halls, customers may bring their own cabinets or use Exchange-provided cabinets. In NY11-4, because of the cooling system (hot aisle containment),⁷ all cabinets must be uniform and therefore, the Exchange will provide all cabinets, the cost of which is included in the \$5,940 installation fee.⁸ The cabinets in NY11-

4 include certain features not included in cabinets provided by the Exchange in the existing data halls. Specifically, the cabinets in NY11-4 include uniform, wider cabinets (32" W x 48" D x 91" H), cable management, and a rear split door and combo lock. In addition, the proposed installation fee of \$5,940 is comparable to fees charged for similar products.⁹ It largely reflects a pass-through to customers of costs charged by Nasdaq's vendor, Equinix, for installation as well as a small mark-up to cover Nasdaq's administrative costs, which is comparable to its mark-up on existing installations.

Installation Fee for Cabinet Power in NY11-4

The cabinet power options for NY11-4 include: Phase 1 20 amp 240 volt, Phase 1 32 amp 240 volt, Phase 1 40 amp 240 volt, Phase 3 20 amp 415 volt, and Phase 3 32 amp 415 volt. These cabinet power options are specific to NY11-4 and one of these options must be selected for cabinets in NY11-4. The Exchange proposes to establish an installation fee of \$3,600 for Phase 1 cabinet power options in NY11-4 and an installation fee of \$4,560 for Phase 3 cabinet power options in NY11-4. To effectuate this change, the Exchange proposes to add the proposed fees to its fee schedule in General 8, Section 1(c). The Exchange also proposes not to charge an ongoing monthly fee for the cabinet power options in NY11-4 and update the fee schedule accordingly. For NY11-4, the data center operator is bringing in these higher voltage power options and is likely to experience increased power distribution efficiencies across the data center. The proposed power installation fees are higher in NY11-4 as compared to the existing data halls as the installation of the higher voltage power options costs more to the Exchange and is considered a premium product due to anticipated operational efficiencies.¹⁰ Moreover, the higher fee largely reflects a pass-through to customers of the costs charged by Nasdaq's vendor, Equinix, for installation, as well as a small mark-up to cover Nasdaq's administrative costs. As between the Phase 1 and Phase 3 power options, the Phase 3 options provide a more efficient power source.

³ See Securities Exchange Act Release No. 34-101079 (September 5, 2024), 89 FR 77931 (September 24, 2024) (SR-PHLX-2024-47).

⁴ Half cabinets are not available to new subscribers. See General 8, Section 1(a).

⁵ *Supra* note 4 [sic].

⁶ Because of the addition of the Ultra High Density Cabinet option in NY11-4, the Super High Density Cabinet in NY11-4 will have power density greater than 15 kW and less than or equal to 17.3 kW.

⁷ The existing data halls utilize cold aisle containment to manage temperatures. Hot aisle containment is a more effective way to manage heat in the data center.

⁸ In contrast, to the extent customers provide their own cabinets in NY11, there is an additional out-of-pocket cost for such cabinets.

⁹ For example, NYSE charges an initial \$5,000 fee for dedicated cabinets. See https://www.nyse.com/publicdocs/Wireless_Connectivity_Fees_and_Charges.pdf.

¹⁰ Benefits include future proofing the data hall to allow for increasing power density in the future, requiring less whips to deliver the same amount of amperage, less circuits need to be installed to reach the same power supply, and safety improvements.

Fees for Power Distribution Unit Options

The Exchange will offer power distribution units (“PDUs”) ¹¹ in NY11–4 as a convenience to customers. Rather than sourcing PDUs on a customer-by-customer basis, as the Exchange does for customers in NY11, the Exchange will offer Phase 1 and Phase 3 ¹² power distribution units in NY11–4. The Exchange proposes to establish a fee of \$4,100 for a Phase 1 PDU and \$5,260 for a Phase 3 PDU. This service is optional and customers may choose to provide their own PDUs appropriate for their power installation choices. The Exchange notes that, as part of such proposed fees, the Exchange would provide a primary and redundant PDU. As such, the proposed PDU fees covers a pair of PDUs. In addition, customers utilizing a Phase 1 or Phase 3 PDU provided by the Exchange have the ability to upgrade or downgrade between amperage levels without replacing the PDU, by a simple upgrade of the facility cord and a receptacle update.¹³ A PDU replacement is required when switching between phases/voltage.

The Exchange will also offer a switch monitored PDU add on in NY11–4, which would allow customers to connect remotely to their PDU and control the power sockets. With the switch monitored PDU option, customers would be able to power cycle or shut off power remotely. The Exchange proposes to establish a \$2,000 fee for the switch monitored PDU option. This option is optional as well and customers may choose to provide their own switch monitored PDU, if desired.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁴ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,¹⁵ in particular, in that it provides for the equitable allocation of

reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that the proposal to establish a monthly fee for Ultra High Density Cabinets, an installation fee for cabinets in NY11–4, installation fees for power installation in NY11–4, and fees for power distribution unit options in NY11–4 is reasonable. First, the Exchange’s proposal to establish a \$7,230 ongoing monthly fee for Ultra High Density Cabinets in NY11–4 is reasonable because it is comparable to the Exchange’s current ongoing monthly fees for cabinets. The proposed fee amount falls between the \$4,748 ongoing monthly fee charged for High Density Cabinets and the \$8,440 ongoing monthly fee charged for Super High Density Cabinets. Furthermore, the proposed fee is consistent with the existing ongoing monthly cabinet fees on a per kW basis. The existing monthly cabinet fees range from approximately \$475 per kW to \$916 per kW, while the proposed ongoing monthly cabinet fee for the Ultra High Density Cabinet ranges from approximately \$482 per kW (at the high end of the power density range for Ultra High Density Cabinets) to \$723 per kW (at the low end of the power density range for Ultra High Density Cabinets). Lastly, Nasdaq notes that the proposed fee for the Ultra High Density Cabinet accounts for the cost of the cabinet and is actually lower than the cost to Nasdaq of procuring it from its vendor, Wise Components. Second, the Exchange believes that the proposed cabinet installation fee of \$5,940 is reasonable as compared to the installation fees in NY11 (of \$3,693–\$4,748) because the proposed installation fee includes the cabinet itself, which includes certain enhanced features in NY11–4, including uniform, wider cabinets (32” W x 48” D x 91” H), cable management, and a rear split door and combo lock. In contrast, in NY11, customers may choose to provide their own cabinets, incurring an additional cost. Furthermore, the proposed installation fee is comparable to the rate charged by NYSE for a similar product, as described above. Lastly, the installation fee largely reflects a pass-through to customers of costs charged by Nasdaq’s vendor, Equinix, for installation as well as a small mark-up to cover Nasdaq’s administrative costs, which is comparable to its mark-up on existing installations. Third, the Exchange believes that the power

installation fees of \$3,600 for Phase 1 power options and \$4,560 for Phase 3 power options in NY11–4 are reasonable. As compared to power installation fees in NY11, the proposed rates for NY11–4 are higher because the Exchange will incur increased costs for installation of the higher voltage power options. In addition, the higher voltage power options will provide operational efficiencies for the data hall, as discussed above,¹⁶ warranting a higher fee. Moreover, the higher fee largely reflects a pass-through to customers of the costs charged by Nasdaq’s vendor, Equinix, for installation, as well as a small mark-up to cover Nasdaq’s administrative costs. Finally, the Exchange believes that the proposed fees for PDUs and the PDU add on are reasonable because such fees are consistent with market rates. Furthermore, the Exchange is providing the PDU options as a convenience to customers. No customer is required to purchase any PDU options from the Exchange. Customers may choose to provide their own PDUs and PDU add ons.

The Exchange believes substitutable products and services are available to market participants, including, among other things, other equities and options exchanges that a market participant may connect to in lieu of the Exchange,¹⁷ connectivity to the Exchange via a third-party reseller of connectivity, and/or trading of equities or options products within markets which do not require connectivity to the Exchange, such as the Over-the-Counter (OTC) markets. Market participants that wish to connect to the Exchange will continue to choose the method of connectivity based on their specific needs. Market participants that wish to connect to the Exchange but want to avoid or mitigate the effect of these proposed fees can choose to

¹⁶ *Supra* note 11.

¹⁷ There are currently 16 registered equities exchanges that trade equities and 17 exchanges offering options trading services. No single equities exchange has more than 20% of the market share. See Cboe Global Markets, U.S. Equities Market Volume Summary, Month-to-Date (Last updated July 3, 2024), available at https://www.cboe.com/us/equities/market_statistics/. No single options exchange trades more than 15% of the options market by volume and only one of the 17 options exchanges has a market share over 10 percent. See Nasdaq, Options Market Statistics (Last updated July 3, 2024), available at <https://www.nasdaqtrader.com/Trader.aspx?id=OptionsVolumeSummary>. This broad dispersion of market share demonstrates that market participants can and do exercise choice in trading venues. Further, low barriers to entry mean that new exchanges may rapidly enter the market and offer additional substitute platforms to further compete with the Exchange and the products it offers.

¹¹ PDUs are devices fitted with multiple outputs designed to distribute electric power. The standardized PDUs would only be offered for NY11–4.

¹² Phase 1 PDUs are compatible with the following power options: Phase 1 20 amp 240 volt, Phase 1 32 amp 240 volt, and Phase 1 40 amp 240 volt. Phase 3 PDUs are compatible with the following power options: Phase 3 20 amp 415 volt and Phase 3 32 amp 415 volt. Phase 1 and Phase 3 are available in NY11 and NY11–4. Phase 3 PDUs provide greater power density than Phase 1 PDUs by delivering power over three wires as opposed to one wire.

¹³ This functionality may be available with customer-provided PDUs as well and depends on the PDU provided by the customer.

¹⁴ 15 U.S.C. 78f(b).

¹⁵ 15 U.S.C. 78f(b)(4) and (5).

connect to the Exchange through a vendor.

In summary, the proposal represents an equitable allocation of reasonable dues, fees and other charges because customers have choices in how they connect to the Exchange, the proposed monthly fee for Ultra High Density Cabinets is comparable to current fees charged by the Exchange for other cabinets, the Exchange will provide uniform cabinets in NY11–4 with special features, the proposed cabinet installation fee is consistent with that of comparable products offered by other providers, the Exchange will incur increased costs for new power installation in NY11–4, higher voltage power options will provide operational efficiencies for the data hall, and PDU options are provided as a convenience to customers and customers may choose to provide their own PDUs.

The Exchange believes that the proposed fee changes are not unfairly discriminatory because the cabinet, power, and PDU fees for NY11–4 are available to and assessed uniformly across all market participants. In addition, all customers have the choice of whether and how to connect to the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

Nothing in the proposal burdens inter-market competition because approval of the proposal does not impose any burden on the ability of other exchanges to compete. The Exchange operates in a highly competitive market in which market participants can determine whether or not to connect to the Exchange based on the value received compared to the cost of doing so. Indeed, market participants have numerous alternative exchanges that they may participate on and direct their order flow, as well as off-exchange venues, where competitive products are available for trading.

Nothing in the proposal burdens intra-market competition because the Ultra High Density Cabinets, cabinet power options, and PDU optionality in NY11–4 are available to any customer under the same fees as any other customer, and any customer that wishes to order cabinets, power and PDUs in NY11–4 can do so on a non-discriminatory basis.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹⁸

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-Phlx–2024–62 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090. All submissions should refer to file number SR-Phlx–2024–62. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than

those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-Phlx–2024–62 and should be submitted on or before December 27, 2024.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁹

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–101782; File No. SR–IEX–2024–27]

Self-Regulatory Organizations; Investors Exchange LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Provide that DEEP+ Data Will Be Included in the Exchange's HIST Data Product

December 2, 2024.

Pursuant to Section 19(b)(1) ¹ of the Securities Exchange Act of 1934 (the “Act”) ² and Rule 19b–4 thereunder,³ notice is hereby given that, on November 27, 2024, the Investors Exchange LLC (“IEX” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

¹⁹ 17 CFR 200.30–3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b–4.

¹⁸ 15 U.S.C. 78s(b)(3)(A)(ii).

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Pursuant to the provisions of Section 19(b)(1) under the Act,⁴ and Rule 19b-4 thereunder,⁵ the Exchange is filing with the Commission a proposed rule change to provide that DEEP+ data will be included in its HIST⁶ Data Product. The Exchange has designated this rule change as “non-controversial” under Section 19(b)(3)(A) of the Act⁷ and provided the Commission with the notice required by Rule 19b-4(f)(6) thereunder.⁸

The text of the proposed rule change is available at the Exchange's website at www.iextrading.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is making this filing to provide that DEEP+ data will be included in its HIST Data Product.

IEX introduced HIST in 2017.⁹ HIST is “a data product that offers historical data.”¹⁰ At the time IEX introduced HIST, the Exchange offered two real-time data products: TOPS,¹¹ an uncompressed data feed that offers aggregated top of book quotations for all displayed orders resting on the Order Book; and DEEP,¹² an uncompressed data feed that provides aggregated depth of book quotations for all displayed

orders resting on the Order Book at each price level.¹³ Thus, in the 2017 filing to adopt HIST, IEX described HIST as including “the same substantive data that is provided in real time via TOPS and DEEP on a T+1 basis via the Exchange's public website, free of charge.”¹⁴

IEX recently filed an immediately effective rule change proposal to introduce a new data product, DEEP+, which will disseminate, on a real-time basis, order-by-order information for all displayed orders resting on the Order Book for securities traded on IEX and execution information (*i.e.*, last sale information) for executions on the Exchange.¹⁵ While DEEP+ and DEEP will both provide information about all displayed orders resting on the IEX Order Book (and last sale information), DEEP+ will provide information about each displayed resting order, while DEEP will continue to provide information about the total volume of displayed interest resting at any price.¹⁶ IEX plans to introduce DEEP+ on December 9, 2024.¹⁷

While IEX Rule 11.330(a)(5), which describes HIST, is not specific as to which historical data is included therein, IEX's 2017 rule filing adopting HIST provided that TOPS and DEEP data would be included, as noted above. Accordingly, the Exchange is making this rule filing to provide that HIST will also include DEEP+ data. IEX is not proposing to modify the language in Rule 11.330(a)(5) which will continue to state: “HIST. Historical Data is a data product that offers historical data.” IEX notes that other exchanges that offer an historical data product do not provide specificity on which of their market data products are included in their historical data products.¹⁸

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with

Section 6(b) of the Act,¹⁹ in general, and furthers the objectives of Section 6(b)(5),²⁰ in particular, in that it would remove impediments to and perfect the mechanism of a free and open market and a national market system because it is designed to add the same substantive data that IEX will provide in real-time via the new DEEP+ data product to HIST, thereby providing additional transparency regarding historical IEX displayed orders to Members²¹ and other users of IEX data products.

As discussed in the Purpose section, IEX publishes the HIST file, which contains the same substantive data that is provided in real-time via TOPS and DEEP, to its website after the close of trading, where it is offered free of charge. Adding DEEP+ data to HIST is fully consistent with this approach. Further, other exchanges offer depth of book data in their historical data products in a comparable manner.²² Therefore, the Exchange does not believe that this proposed rule change raises any new or novel issues not already considered by the Commission.

IEX also believes that the proposed rule change is nondiscriminatory since all Members and other market participants will be able to access DEEP+ data through HIST.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. As described in the Purpose and Statutory Basis sections, this rule filing merely proposes to add to its HIST data product the substantive data that will be provided in real-time via the new DEEP+ market data product, which will provide enhanced transparency to Members and other users of IEX data products regarding historical displayed orders on IEX.

With regard to intra-market competition, the proposed rule change will apply equally to all Members and other market participants on a fair, impartial and nondiscriminatory basis without imposing any new burdens. Access to HIST is optional and will be available to all Members and market participants in the same manner.

With regard to inter-market competition, other exchanges are free to adopt similar data products subject to

the SEC rule filing process, and others have done so.²³

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has designated this rule filing as non-controversial under Section 19(b)(3)(A)²⁴ of the Act and Rule 19b-4(f)(6)²⁵ thereunder. Because the proposed rule change does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act²⁶ and Rule 19b-4(f)(6) thereunder.²⁷

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act²⁸ normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)(iii)²⁹ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may be operative concurrent with IEX's planned implementation of DEEP+ on December 9, 2024. The Commission believes that the proposed rule change raises no novel issues and that waiver of the operative delay is consistent with the protection of investors and the public interest. Therefore, the Commission hereby waives the operative delay and designates the proposal operative upon filing.³⁰

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)³¹ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-IEX-2024-27 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.
- All submissions should refer to file number SR-IEX-2024-27. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing will also be available for inspection and copying at the principal office of the

Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-IEX-2024-27 and should be submitted on or before December 27, 2024.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.³²

Sherry R. Haywood,
Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-101792; File No. SR-OCC-2024-015]

Self-Regulatory Organizations; The Options Clearing Corporation; Order Granting Approval of Proposed Rule Change by The Options Clearing Corporation Concerning Modifications to Its Governance Documents To Align With Recently Adopted SEC Governance Rules

December 2, 2024.

I. Introduction

On October 21, 2024, The Options Clearing Corporation ("OCC") filed with the Securities and Exchange Commission ("Commission" or "SEC"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act" or "Exchange Act"),¹ and Rule 19b-4 thereunder,² a proposed rule change (the "Proposed Rule Change") to amend its governance documents as part of an effort to achieve compliance with recently adopted governance requirements³ and to make changes identified during OCC's annual review process. The Proposed Rule Change was published for comment in the **Federal Register** on October 31, 2024.⁴ The Commission has not received any comments on the Proposed Rule Change. For the reasons discussed

²³ See *supra* note 18.

²⁵ 17 CFR 240.19b-4(f)(6).

²⁶ 15 U.S.C. 78s(b)(3)(A).

²⁷ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

²⁸ 17 CFR 240.19b-4(f)(6).

²⁹ 17 CFR 240.19b-4(f)(6)(iii).

³⁰ For purposes only of waiving the 30-day operative delay, the Commission has also considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

³¹ 15 U.S.C. 78s(b)(2)(B).

⁴ Securities Exchange Act Release No. 101444 (October 25, 2024), 89 FR 86868 (October 31, 2024) (File No. SR-OCC-2024-015) ("Notice").

below, the Commission is approving the Proposed Rule Change.

II. Description of the Proposed Rule Change

OCC is registered with the Commission as a clearing agency for the purpose of clearing standardized equity options. The Proposed Rule Change amends OCC's Board of Directors Charter and Corporate Governance Principles ("Board Charter"), Governance and Nominating Committee ("GNC") Charter, Risk Committee Charter, Technology Committee Charter, Compensation and Performance Committee ("CPC") Charter, Regulatory Committee Charter, Audit Committee Charter, Fitness Standards, Third-Party Risk Management Framework, and Article III of OCC's By-Laws (together, "governance documents"). OCC proposes such amendments in response to the new governance rules that apply to OCC.⁵ Specifically, OCC proposes changes to require that a majority of the Board and any Board-level committee are independent directors; establish policies and procedures to identify, mitigate, or eliminate conflicts of interest; and establish policies and procedures for monitoring and managing risks relating to third-party providers of core services. The amendments also make other conforming changes and typographical corrections.

A. Board Charter and By-Laws

OCC proposes to amend the Board Charter to provide that a majority of the Board and all Board-level committees be independent directors.⁶ As a conforming change, OCC would also remove references in the current Board Charter indicating that only the Audit Committee must be comprised of independent directors.

OCC proposes adding to the Board's mission an oversight role for service providers that provide core services to OCC. The oversight would be accomplished by overseeing senior management's review, risk assessment, and approval of agreements for service providers of core services, and by reviewing senior management's policies and procedures that govern relationships and manage risks for service providers of core services. The amendments to the Board Charter also would require the Board to evaluate

certain of senior management's actions related to such service providers, including senior management's efforts to monitor identified material issues with, document weaknesses or deficiencies of, and remedy significant deterioration in performance of such service providers.

The proposed changes to the Board Charter would remove statements indicating that a substantial portion of directors must be independent "of OCC and OCC's management," and instead state that the Board's policy is to require that a majority of directors be independent at all times. The proposed changes would also clarify the role of the GNC in selecting Exchange Directors, including a requirement that the GNC have a written evaluation process for Exchange Directors, and that the GNC will evaluate each Exchange Director before that director is elected by the Equity Exchange at each annual meeting of stockholders.

OCC proposes adding the word "additional" before "independence" to describe independence criteria for the Audit Committee. The amendments would also detail specific requirements the Board would use to determine whether an individual director meets the definition of Public Director in the Board Charter and Article III of the By-Laws. Further proposed amendments to the Board Charter would require the Board to have at least five directors who are not an associated person or employee of an entity or entity affiliate that is registered or exempt from registration with the Commission or Commodity Futures Trading Commission. The current requirement that a Public Director must not be affiliated with any national securities exchange or association, designated contract market, futures commission merchant, or broker or dealer in securities would be removed.

Finally, OCC proposes amending Article III, Section A of the By-Laws to require the GNC to nominate for Public Director a non-associated person or employee of an entity or entity affiliate that is registered or exempt from registration with the Commission or Commodity Futures Trading Commission before each annual meeting of stockholders where a Public Director is elected.

B. GNC Charter

OCC proposes amending the GNC Charter to provide that at least a majority of the Committee must be comprised of independent directors. The proposed changes also require the Chair to be a Public Director who is also an independent director. Under the

amendments, the GNC would be required to assist the Board in overseeing OCC's corporate governance processes, including evaluating Board candidates, to more closely align existing practice with rule text. This evaluation would include a new written process and a packet of materials containing background and other relevant information for all Board candidates. In addition, as part of the written evaluation process, the GNC would be required to identify, screen, and review individuals qualified to serve as Directors, and to document the outcome of the written evaluation process once completed.

OCC also proposes eliminating from the GNC Charter the terms "Member Directors" and "Public Directors" and instead using the term "Directors." Under the amendments, the GNC would be required to specify fitness standards for serving as a director that are documented in writing and approved by the Board. When evaluating director nominees, the GNC would be required to consider the views of other stakeholders who may be affected by the decisions of the Board, other than owners and Clearing Members. Finally, the GNC would be required to review and advise the board on whether directors are independent, and annually recommend for Board approval the appointment of directors to Board committees and assignment of Committee Chairs.

C. Risk Committee Charter

The proposed amendments to the Risk Committee Charter would require the GNC and the Board, in making their nominations, to take into consideration a broad array of market participants on risk management issues. The proposed amendments would also amend the Risk Committee Charter to provide that at least a majority of the Committee must be comprised of independent directors. Finally, the Risk Committee would be required to provide risk assessments to the Board for any service providers of core services.

D. Technology Committee Charter

OCC proposes amending the Technology Committee Charter to provide that at least a majority of the Technology Committee must be comprised of independent directors.

E. Compensation and Performance Committee ("CPC") Charter

OCC proposes amending the CPC Charter to provide that at least a majority of the Committee must be comprised of independent directors. In addition, OCC proposes expanding the

⁵ See SEC Adopting Release.

⁶ Under the amendments, such independence would need to meet the definition of that term in, and be determined in accordance with the requirements of, Rule 17Ad-25(a) under the Exchange Act. See Notice, 89 FR at 86869; Exhibit A (Board Charter) to File No. SR-OCC-2024-015.

description of the role of the CPC in overseeing OCC's human resources programs and requiring the CPC to oversee the development of human resources programs and policies, including talent acquisition, compensation performance management, diversity, equity, and inclusion programs, training and development, benefits, and succession planning for critical roles.

F. Regulatory Committee Charter

OCC proposes amending the Regulatory Committee Charter to provide that at least a majority of the Committee must be comprised of independent directors. The Regulatory Committee Charter also would be amended to correct minor grammatical errors identified in OCC's annual review.

G. Audit Committee Charter

OCC proposes amending the Audit Committee Charter to provide that at least a majority of the Audit Committee must be comprised of independent directors.

H. Fitness Standards

OCC proposes amending its Fitness Standards to specify that, when considering nominees for election or appointment to the Board, the GNC must consider whether the individual would help demonstrate that the Board has diverse skills, knowledge, and experience and whether the individual understands and considers the views of stakeholders who may be affected by Board decisions other than OCC's owners and Clearing Members.

OCC also proposes amending its Fitness Standards to align with the proposed changes to the description of Public Director and the proposed changes in OCC's Board Charter and By-Laws. Specifically, the proposed amendments would replace current language in the Fitness Standards prohibiting a director from having an affiliation with any national securities exchange, national securities association, designated contract market, futures commission merchant, or broker-dealer in securities with language precluding the director from being an associated person or employee of an exempt or registered entity or affiliate of the Commission or Commodity Futures Trading Commission, as described above. OCC also proposes adding that this requirement will not prevent a person from serving as a Public Director solely based on some other relationship with an entity described in the previous sentence.

I. Third-Party Risk Management Framework

OCC proposes amending its Third-Party Risk Management Framework to require enhanced lifecycle management by OCC's management and Board for third-party service providers of core services. The amendments would require OCC's Management Committee, as part of the process for onboarding a service provider of core services, to evaluate and document risks related to the service agreement with the service provider, assess the risks, and submit its findings to the Board for review and approval prior to onboarding. OCC's Management Committee also would be required to conduct and report to the Board its evaluation of ongoing monitoring for service providers of core services. In addition, the Management Committee would be required to monitor service provider performance and: (i) remedy significant deterioration in services; (ii) address changing risks or material issues; or (iii) assess and document weaknesses or deficiencies if the risks or material issues cannot be remedied. The Management Committee would be required to report to the Board any action taken by senior management to remedy significant deterioration in performance of the service provider for core services or address material issues with the service provider for core services, or to assess and document deficiencies that cannot be remedied.

Under the Proposed Rule Change, the Third-Party Risk Management Framework would be amended to provide that each OCC staff working group responsible for identifying and escalating risks throughout the third-party relationship lifecycle will have a chair and designated Management Committee member responsible for identifying matters to be escalated to the Management Committee. The proposed changes would also add a definition of "Service Provider for Core Services" as a service provider for core services that directly supports the delivery of clearance or settlement functionality or any other material purpose on an ongoing basis to OCC's business through a written agreement.

In Section I, Executive Summary, the description of Exchange-related risks would be broadened from those arising from "Exchanges" to those arising from "Exchange Relationships." This definition would be moved from a footnote to section V, Definitions.

In Section II, Risk Identification, OCC proposes expanding the definitions of both Information Technology and Security risks and Legal and Regulatory risks to include when third-parties are

unable to safeguard OCC's systems and data. The proposed changes would also add as specifically identified Legal and Regulatory risks: (i) when a third-party fails to fulfill its obligations to OCC; (ii) when OCC fails to fulfill its obligations to a third-party; and (iii) when a third-party fails to comply with regulatory standards and protocols.

In Section III, Relationship Lifecycle, OCC proposes changing the header to read "Third-Party Relationship Cycle," and adding the language "in compliance with agreement terms" to clarify current risk management responsibilities relating to third-party off-boarding about off-boarding third-parties.

In Section IV, Third-Party Relationship Management, the proposed changes would broaden the header from "Exchanges" to "Exchange Relationships," as noted above. As part of OCC's current on-boarding process, OCC staff is required to present a summary of due diligence and on-boarding activities to OCC's Board. Under the Proposed Rule Change, OCC staff would present such summaries to the Management Committee as well as a summary of legal documents and requirements to the Board of Directors. OCC proposes inserting language to require the escalation of identified legal risks to the Legal Department. Further, OCC proposes replacing "OCC Officer" with "authorized signatories" to define who would be responsible for executing agreements that address control and business requirements. OCC proposes removing language from the Off-Boarding section to avoid the implication that OCC is authorized to limit connectivity with an Exchange only in the context of off-boarding an exchange. The Vendors section would be amended to require Information Technology personnel to review requests for on-boarding new technology vendors and verify that the vendors meet enterprise requirements. The Framework would be amended to clarify that agreements with vendors are required to be negotiated through the process outlined in OCC's Legal Services Policy. Lastly, references that Third-Party Risk Management personnel monitor vendors throughout the Section IV would be eliminated because it is the vendor relationship managers who are responsible for monitoring vendors; Third-Party Risk Management personnel gather information and escalate if necessary.

In Definitions, Section V, the definition of "Watch Level" would be amended to add "risk management" to a list of events requiring a risk response.

Finally, OCC proposes combining the Exchange Working Group and Vendor

Risk Working Group to create the Exchange and Vendor Working Group throughout the Third-Party Risk Management Framework. OCC also proposes making non-substantive conforming changes throughout for consistency.

III. Discussion and Commission Findings

Section 19(b)(2)(C) of the Act requires the Commission to approve a proposed rule change of a self-regulatory organization if it finds that the Proposed Rule Change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the organization.⁷ Under the Commission's Rules of Practice, the "burden to demonstrate that a proposed rule change is consistent with the Exchange Act and the rules and regulations issued thereunder . . . is on the self-regulatory organization ['SRO'] that proposed the rule change."⁸

The description of a proposed rule change, its purpose and operation, its effect, and a legal analysis of its consistency with applicable requirements must all be sufficiently detailed and specific to support an affirmative Commission finding,⁹ and any failure of an SRO to provide this information may result in the Commission not having a sufficient basis to make an affirmative finding that a proposed rule change is consistent with the Exchange Act and the applicable rules and regulations.¹⁰ Moreover, "unquestioning reliance" on an SRO's representations in a proposed rule change is not sufficient to justify Commission approval of a proposed rule change.¹¹

After carefully considering the Proposed Rule Change, the Commission finds that the Proposed Rule Change is consistent with the requirements of the Exchange Act and the rules and regulations thereunder applicable to OCC. More specifically, for the reasons given below, the Commission finds that the Proposed Rule Change is consistent with Section 17A(b)(3)(A) and (F) of the Act¹² and Rules 17Ad-22(e)(2) and 17Ad-25 thereunder.¹³

A. Consistency With Section 17A(b)(3) of the Act

Section 17A(b)(3) of the Act requires, among other things, that OCC be so organized and has the capacity to be able to comply with the provisions of the Act and the rules and regulations thereunder,¹⁴ and that OCC's rules be designed to foster cooperation and coordination with persons engaged in the clearance and settlement of securities transactions.¹⁵ Based on review of the record, and for the reasons discussed below,¹⁶ OCC's changes are consistent with OCC being so organized and having the capacity to comply with the provisions of the Act and the rules and regulations thereunder and with fostering cooperation and coordination with persons engaged in the clearance and settlement of securities transactions. Accordingly, the Proposed Rule Change is consistent with the requirements of Sections 17A(b)(3)(A) and (F) of the Act.¹⁷

B. Consistency With Rule 17Ad-22(e)(2) Under the Act

Rule 17Ad-22(e)(2) requires covered clearing agencies to, among other things, provide for governance arrangements that are clear and transparent,¹⁸ establish that the board of directors and senior management have appropriate experience and skills to discharge their duties and responsibilities,¹⁹ and specify clear and direct lines of responsibility.²⁰ In adopting Rule 17Ad-22(e)(2), the Commission provided guidance that a covered clearing agency generally should consider in establishing and maintaining policies and procedures, including, in part, whether the board of directors contains suitable members with the appropriate skills and incentives to fulfill the board's multiple roles, and whether the board of directors should include non-executive board members.²¹

OCC's proposed changes would strengthen OCC's written fitness standards for board nominees. Strengthening the criteria by which OCC evaluates both directors and nominees would help OCC review each nominee

in the broader context of the diversity of skills, knowledge, experience, and perspectives of the Board. Additionally, the proposed changes would insert independence requirements across OCC's governance documents (*e.g.*, Board and Board committee charters). An increased focus on director independence would help ensure that the members of OCC's board of directors have the appropriate incentives to fulfill the Board's roles. As a result, the proposed changes to fitness standards and as well as the broader changes across the governing documents are consistent with ensuring that OCC's board of directors contains members with the appropriate skills and incentives to discharge their duties.

The proposed changes further detail the lines of responsibility for management of third-party providers of core services. For example, the amendments to the Third-Party Risk Management Framework described above would require the Management Committee to evaluate and document risks for on-boarding, ongoing monitoring, and off-boarding and submit those findings to the Board for review and approval. Moreover, the proposed changes described above detail how each working group will have a chair and designated member responsible for identifying matters for escalation to the Management Committee. Separately, the proposed changes more clearly articulate certain reporting and escalation lines such as the escalating legal risks related to Exchange Relationships to OCC's Legal Department, Information Technology's role in on-boarding new vendors, and consolidation of certain working groups. Taken together, these procedures establish clear and direct lines of responsibility.

As described above, OCC proposes several changes to improve the clarity of its governance arrangements. For example, the proposed changes to the CPC Charter would, consistent with current practice, expand the description of the CPC's oversight role with regard to human resources at OCC. Similarly, OCC proposes to broaden the relationships contemplated in the Third-Party Risk Management Framework by replacing the references to "Exchanges" with references to "Exchange Relationships," and to clarify the who can execute legal agreements by replacing a reference to "OCC Officers" with a reference to "authorized signatories." Separately, the proposed changes would clarify the situations in which OCC can limit connectivity with an Exchange and that

risk management issues may be a basis for Watch Level-related responses.

Based on the foregoing, the Proposed Rule Change is consistent with the requirements of Rule 17Ad-22(e)(2) under the Act.²²

C. Consistency With Rule 17Ad-25 Under the Act

Rule 17Ad-25 requires, among other things, that covered clearing agencies establish: requirements that a majority of the board of directors²³ and any committee²⁴ with Board authority be independent directors²⁵; a nominating committee, written evaluation process, fitness standards, and evaluation of the independence of nominees and directors²⁶; and policies and procedures requiring that senior management evaluate and document risks and whether the risks can be managed for service providers of core services.²⁷

The changes described above require that OCC's Board, and each committee with Board authority be composed of a majority of independent directors, and that such independence is determined in accordance with Rule 17Ad-25. The proposed changes also contemplate a written processes for nominating, evaluating, and electing directors.

The proposed changes revise the Board Charter and Third-Party Risk Management Framework to require that senior management review, approve, monitor, and remediate risks with service providers of core services.²⁸ The proposed amendments also require that senior management perform ongoing monitoring of relationships with service providers of core services, and document whether the risks can be remedied, and to inform the Board of their evaluation. Further, the proposed changes articulate the Board's role in oversight of the management of service providers of core services through the reporting required of the Management Committee.

Based on the foregoing, the Proposed Rule Change is consistent with the requirements of Rule 17Ad-25 under the Act.²⁹

IV. Conclusion

On the basis of the foregoing, the Commission finds that the Proposed Rule Change is consistent with the

requirements of the Act, and in particular, Sections 17A(b)(3)(A) and (F) of the Act³⁰ and Rules 17Ad-22(e)(2) and 17Ad-25.³¹

It is Therefore Ordered pursuant to Section 19(b)(2) of the Act that the Proposed Rule Change (SR-OCC-2024-015) be, and hereby is, approved.³²

For the Commission by the Division of Trading and Markets, pursuant to delegated authority.³³

Sherry R. Haywood,
Assistant Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-101780; File No. SR-OCC-2024-016]

Self-Regulatory Organizations; The Options Clearing Corporation; Notice of Filing of Proposed Rule Change by The Options Clearing Corporation Concerning Enhancements to the System for Theoretical Analysis and Numerical Simulations ("STANS") and OCC's Comprehensive Stress Testing ("CST") Methodology, To Better Capture the Risks Associated With Short-Dated Options

December 2, 2024.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Exchange Act" or "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 22, 2024, The Options Clearing Corporation ("OCC") filed with the Securities and Exchange Commission ("SEC") the proposed rule change as described in Items I, II, and III below, which Items have been prepared primarily by OCC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Clearing Agency's Statement of the Terms of Substance of the Proposed Rule Change

This proposed rule change Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 ("Exchange Act" or "Act"),³ and Rule

19b-4 thereunder,⁴ The Options Clearing Corporation ("OCC") is filing with the Securities and Exchange Commission ("Commission") a proposed rule change in connection with enhancements to the modeling approach for implied volatility components within OCC's margin methodology, the System for Theoretical Analysis and Numerical Simulations ("STANS") and OCC's Comprehensive Stress Testing ("CST") methodology, to better capture the risks associated with short-dated options. Specifically, this proposed rule change would, as described below: (1) align the day-count convention between option price smoothing and implied volatility scenario generation, and (2) extend the term structure of the implied volatility shocks to cover implied volatility risk associated with options of less than one-month expiration.

The proposed changes to OCC's STANS Methodology Description⁵ and Comprehensive Stress Testing & Clearing Fund Methodology, and Liquidity Risk Management Description⁶ ("CST Methodology Description") are contained in Exhibits 5A and 5B, to File No. SR-OCC-2024-016, respectively. Material proposed to be added is marked by underlining and material proposed to be deleted is marked with strikethrough text. Within the documents, new, revised, and deleted text related to the proposed rule change have been incorporated in section 2.1.3 (Implied Volatilities Scenarios) and 2.1.4 (S&P 500 Implied Volatilities Scenarios) of the STANS Methodology Description and section 3.3.2 (Volatility Shock Model) of the

⁴ 17 CFR 240.19b-4.

⁵ OCC has filed the STANS Methodology Description and amendments thereto with the Commission. See Exchange Act Release Nos. 100528 (July 15, 2024), 89 FR 58836 (July 19, 2024) (SR-OCC-2024-008); 98101 (Aug. 10, 2023), 88 FR 55775 (Aug. 16, 2023) (SR-OCC-2022-012); 95319 (July 19, 2022), 87 FR 44167 (July 25, 2022) (SR-OCC-2022-001); 93371 (Oct. 18, 2021), 86 FR 58704 (Oct. 22, 2021) (SR-OCC-2021-011); 91833 (May 10, 2021), 86 FR 26586 (May 14, 2021) (SR-OCC-2021-005); 91079 (Feb. 8, 2021), 86 FR 9410 (Feb. 12, 2021) (SR-OCC-2020-016). OCC makes its STANS Methodology Description available to Clearing Members. An overview of the STANS methodology is on OCC's public website: <https://www.theocc.com/Risk-Management/Margin-Methodology>.

⁶ OCC has filed the CST Methodology Description and amendments thereto with the Commission. See Exchange Act Release Nos. 100455 (July 2, 2024), 89 FR 56452 (July 9, 2024) (SR-OCC-2024-006); 90827 (Dec. 30, 2020), 86 FR 659 (Jan. 6, 2021) (SR-OCC-2020-015); 89014 (June 4, 2020), 85 FR 35446 (June 10, 2020) (SR-OCC-2020-003); 87718 (Dec. 11, 2019), 84 FR 68992 (Dec. 17, 2019) (SR-OCC-2019-010); 87717 (Dec. 11, 2019), 84 FR 68985 (Dec. 17, 2019) (SR-OCC-2019-009); 83735 (July 27, 2018), 83 FR 37855 (Aug. 2, 2018) (SR-OCC-2018-008).

CST Methodology Description. The proposed rule change does not require any changes to the text of OCC's By-Laws or Rules. All terms with initial capitalization that are not otherwise defined herein have the same meaning as set forth in the OCC By-Laws and Rules.⁷

II. Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, OCC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. OCC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements.

(A) Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

OCC is the sole clearing agency for standardized equity options listed on national securities exchanges registered with the Commission. In its role as a clearing agency, OCC acts as a central counterparty ("CCP"), guarantying all contracts it clears. That is, OCC becomes the buyer to every seller and the seller to every buyer, which exposes OCC to risk because OCC is obligated to perform even when one of its members defaults. These risks include: (i) credit risk, which is the risk that OCC would not maintain sufficient financial resources to cover exposures; and (ii) liquidity risk, which is the risk that OCC would not have sufficient liquid resources to meet payment obligations when due.

OCC manages its credit and liquidity risks through various safeguards to ensure that it has sufficient financial resources in both form and amount in the event of a Clearing Member failure. To begin with, OCC periodically collects margin collateral from its Clearing Members, which is designed to cover the credit exposures they individually present to OCC with a high degree of confidence. OCC also maintains a Clearing Fund, which is a mutualized pool of financial resources to which each Clearing Member is required to contribute to ensure that OCC maintains sufficient qualifying liquid resources to manage its liquidity risk, and to address the tail risk that the margin collateral OCC collects from each Clearing Member might be insufficient to cover

OCC's credit exposure to a defaulting member in extreme but plausible market conditions. In general, OCC performs daily stress testing of its financial resources using scenarios designed to assess whether the resources collected are adequate and inform the size of OCC's financial resources ("Sizing Scenarios") and measure the potential exposures Clearing Members may present to OCC to determine whether calls for additional collateral in either margin or in the Clearing Fund would be needed ("Sufficiency Scenarios"). Clearing Member margin amounts are collected based on calculations obtained from STANS, while Clearing Fund contributions are default scenario-based amounts generated by the CST methodology.

Clearing Member portfolios contain a mix of products and positions in options of various tenors, as well as other cleared positions (e.g., futures, stock loans) and collateral (e.g., valued securities, delivery obligations, US treasuries, Canadian Government bonds, and cash). Over the past several years, the options markets in particular have experienced a significant increase in the trading of short-dated options ("SDOs"), which refer to option contracts with a maturity of less than or equal to one month to expiration.⁸ However, the increase in the volume of SDO trading and the larger concentration of SDO positions held from hedging and speculation activities present unique challenges to the risk management framework.

For these reasons, OCC carried out a study to examine the specific risks posed by SDOs (the "Study")⁹ including risks posed by the increase to volatility due to the feedback between options and equity hedging activity. OCC also analyzed the valuation of SDOs and option scenario pricing in OCC's 2-day margin period of risk ("MPOR")¹⁰ and assessed the margin risk of portfolios dominated by SDOs through sensitivity analysis of realized P&L and risk coverage metrics. OCC concluded from the Study that valuation of SDOs and options scenario pricing in the 2-day MPOR was in general reasonable, but that opportunities exist to improve model performance for Clearing Member portfolios dominated

by SDOs. Moreover, a reasonableness analysis of the mark-to-market pricing and theoretical price simulation of SDOs in the MPOR indicated that certain existing margin model assumptions having a direct impact on SDO risk coverage needed further enhancement and update.

Specifically, the Study referred to a difference between option price smoothing¹¹ that uses calendar day convention, and implied volatility¹² simulation that uses trading day convention. The usage of two day count conventions¹³ results in differences in implied volatility, especially when non-trading days make up a large portion of the time-to-expiration (e.g., on Fridays for options that expire the following Monday). In this regard, SDOs are far more sensitive to differences in day-count convention than contracts with longer expiries. In addition, OCC's model for simulating the theoretical prices assumes that the implied volatility shocks of the one-month tenor ("1M") are sufficient to cover the implied volatility changes for SDO tenors.¹⁴ However, empirical results indicate that the implied volatility changes from SDOs can be much larger than those for options with one month to expiration.¹⁵

OCC proposes to improve the theoretical price simulation of SDOs and enhance the modeling of the implied volatility risk associated with SDOs by: (1) aligning the day-count convention used between option price smoothing and its models for simulating implied volatility, and (2) extending the term structure¹⁶ to cover implied volatility risk associated with options expiring in less than one-month. The

¹¹ The smoothing algorithm is the process that OCC uses to estimate fair values for plain vanilla listed options based on closing bid and ask price quotes. See Exchange Act Release No. 86731 (Aug. 22, 2019), 84 FR 45188, 45189 (Aug. 28, 2019) (File No. SR-OCC-2019-005).

¹² Generally speaking, the implied volatility of an option is a measure of the expected future volatility of the option's underlying security at expiration, which is reflected in the current option premium in the market.

¹³ The term "day count convention" refers to a standardized methodology for calculating the number of days between two dates. Both calendar and business day conventions are used by OCC in STANS and CST calculations.

¹⁴ The "tenor" of an option is the amount of time remaining to its expiration or maturity.

¹⁵ OCC has observed that the day-over-day at the money implied volatility changes for the 1W tenor are approximately twice that of the 1M tenor on certain risk factors such as SPX, RUT, QQQ, AAPL, TSLA.

¹⁶ The "term structure" of implied volatility is the curve that depicts the relationship between the implied volatilities of options with different expiration (or maturity) dates on the same underlying. Expiration and maturity are used interchangeably but reflect the same meaning.

⁷ OCC's By-Laws and Rules can be found on OCC's public website: <https://www.theocc.com/Company-Information/Documents-and-Archives/By-Laws-and-Rules>.

⁸ See, e.g., Choe, *The Rise of SPX & ODTE Options* (July 27, 2023), available at <https://go.cboe.com/1/77532/2023-07-27/jfc83k>.

⁹ OCC has included the Study as confidential Exhibit 3A to File No. SR-OCC-2024-016.

¹⁰ OCC collects its credit resources with an assumption of a two-day MPOR (i.e., two days after the last good margin collection) and potential liquidity obligations are evaluated using the same concept and assuming the liquidation processes details in OCC's Default Management Policy.

proposed changes will be introduced to the Implied Volatilities Scenarios Model and S&P 500 Implied Volatility Simulation Model in STANS and the Volatility Shock component in CST. The impact of the proposed enhancements on Clearing Member margin and on CST is presented further below.

1. Purpose

Background

OCC's risk framework includes its STANS methodology used to calculate Clearing Member margin amounts, and its CST methodology used to stress test Clearing Member portfolios in order to determine the appropriate size of the Clearing Fund and allocate portions to Clearing Members commensurate with the risk they present to OCC.

STANS Overview

STANS is OCC's proprietary risk management system for calculating Clearing Member margin requirements. The STANS methodology utilizes large-scale Monte Carlo simulations to forecast price and volatility movements in determining a Clearing Member's margin requirement.¹⁷ OCC uses a smoothing algorithm to generate theoretical prices and volatilities for option contracts based on the fair value for plain vanilla listed options from closing bid and ask price quotes.¹⁸ OCC does this by first filtering out certain poor-quality quotes on contracts based on certain conditions and estimates the forward prices of the securities underlying these options. OCC then generates the theoretical option prices based on the filtered bid and ask quotes and constructs a volatility surface¹⁹ using the smoothed prices to approximate option contract prices. The output of the Smoothing Algorithm, consisting of various theoretical option contract prices and volatilities, is then used downstream as a starting point to simulate variations in implied volatility for option contracts.

Using the Black-Scholes options pricing model, the implied volatility is the standard deviation of the underlying asset price necessary to arrive at the market price of an option of a given strike, time to maturity, underlying asset price and the current discount interest rate. In effect, the implied volatility is responsible for that portion of the

premium that cannot be explained by the current intrinsic value of the option (*i.e.*, the difference between the price of the underlying and the exercise price of the option), discounted to reflect its time value. OCC considers variations in implied volatility within STANS to ensure that the anticipated cost of liquidating options positions in an account recognizes the possibility that the implied volatility could change during the two-business day liquidation time horizon and lead to corresponding changes in the market prices of the options. Specifically, OCC models variations in implied volatility using its (1) Implied Volatilities Scenarios Model for non-S&P 500 based products, and (2) S&P 500 Implied Volatility Simulation Model for products in the S&P 500 group.²⁰

Implied Volatilities Scenarios Model

Using its current Implied Volatilities Scenarios Model, OCC models the variations in implied volatility used to re-price non-S&P 500 based options within STANS. Variations in implied volatility are modeled through a volatility surface by incorporating certain risk factors (*i.e.*, implied volatility pivot points) based on a range of tenors and option deltas²¹ into the models in STANS. These implied volatility pivot points consist of three tenors of one month, three months and one year, and three deltas of 0.25, 0.5, and 0.75, resulting in nine implied volatility risk factors.²² These pivot points are chosen such that their combination allows the model to capture changes in level, skew (*i.e.*, strike price), convexity, and term structure of the implied volatility surface.²³

The Implied Volatility Scenarios Model has certain limitations related to SDOs. First, the underlying prices and implied volatilities generated from the Smoothing Algorithm, which are an input to the Implied Volatility Scenarios Model, are generated using a calendar day convention, which is not consistent with the trading day convention used in the calibration of the model parameters. The misalignment in day-count conventions may result in over- or under-estimation of option prices based on the implied volatility scenarios. SDOs are more sensitive to day-count

convention alignment than contracts with longer expirations due to the proportionally larger difference in time to expiry between the trading day convention and calendar day convention for shorter dated tenors.

Second, the model imposes a flat term structure on SDOs, which forces the use of the implied volatility shock from the 1M tenor on all option contracts expiring in less than one month. Because the term structure for the Implied Volatilities Scenarios Model starts at the 1M tenor, the current model is not consistent with the observed dynamics of the underlying assets and the implied volatility surface for SDOs. This may lead to inadequate coverage for portfolios with concentrations in SDOs.

S&P 500 Implied Volatility Simulation Model

OCC uses the S&P 500 Implied Volatility Simulation Model for the S&P 500 product group.²⁴ The purpose of the S&P 500 Implied Volatility Simulation Model is to establish a consistent and robust framework for implied volatility simulation and provide natural offsets for volatility products with similar characteristics to S&P 500 implied volatility. The output of the S&P 500 Implied Volatility Simulation Model is used by OCC's options pricing model, as well as the Volatility Index Futures Model. The S&P 500 Implied Volatility Simulation Model is a Monte Carlo simulation model that captures the risk dynamics in the S&P 500 implied volatility surface utilizing standardized log-moneyness²⁵ and a fixed number of key tenors as well as skew to generate an S&P 500 1M at-the-money ("ATM") risk factor.²⁶ OCC then uses the generated implied volatility scenarios to produce option prices in margin estimation and stress testing.²⁷

The S&P 500 Implied Volatility Simulation Model has certain limitations related to SDOs. Like the Implied Volatilities Scenarios Model discussed above, the S&P 500 Implied Volatility Simulation Model uses a trading day convention in the calibration of the model, which is not consistent with the calendar day convention used in the generation of the input from the Smoothing Algorithm. As for the Implied Volatilities Scenarios Model, this misalignment may result in

¹⁷ See OCC Rule 601.

¹⁸ See Exchange Act Release No. 86731 (Aug. 22, 2019), 84 FR 45188 (Aug. 28, 2019) (SR-OCC-2019-005).

¹⁹ The "volatility surface" refers to a three-dimensional plot of the implied volatilities of the various options on the same stock reflecting time to maturity, and different strike prices for the option.

²⁰ See generally Exchange Act Release No. 95319, *supra* note 3, at 44168–69.

²¹ The "delta" of an option represents the sensitivity of the option price with respect to the price of the underlying security.

²² See Exchange Act Release No. 94165 (Feb. 7, 2022), 87 FR 8072, 8073 (Feb. 11, 2022) (SR-OCC-2022-001).

²³ *Id.*

²⁴ See generally Exchange Act Release No. 95319, *supra* note 3, at 44168–69.

²⁵ The term "moneyness" of an option refers to the relationship between the strike price and the price of the option underlying.

²⁶ See Exchange Act Release No. 94165, *supra* note 20, at 8075.

²⁷ *Id.*

over- or under-estimation of option prices, particularly for SDOs. Second, the S&P 500 Implied Volatility Simulation Model uses a fixed number of key tenors beginning with the 1M tenor. Because the term structure for the S&P 500 Implied Volatility Simulation Model starts at the 1M tenor, the current model is not consistent with the observed dynamics of the underlying assets and the implied volatility surface for SDOs, which may lead to inadequate coverage for portfolios with concentrations in SDOs.

CST Overview

As described in the CST Methodology Description, OCC uses CST to analyze the adequacy of its financial resources in extreme but plausible scenarios. It enables OCC to better manage its risks by promoting OCC's ability to thoroughly monitor its potential exposure under varied sets of stressed market scenarios and provides it with the ability to review the sufficiency of its financial resources. Moreover, the methodology includes stress tests designed to size and monitor the sufficiency of both prefunded credit and liquidity resources. OCC relies upon a set of stress scenarios constructed pursuant to the CST Methodology Description, including both Sizing and Sufficiency scenarios.

CST is a scenario-based, one-factor risk model with four principal elements.²⁸ First, a set of risk drivers is selected based on the portfolio exposures of all Clearing Members in the aggregate.²⁹ Second, each individual underlying security from the portfolio of a Clearing Member is mapped to a key risk driver, to estimate the sensitivity for the beta³⁰ of the security with respect to the corresponding risk driver.³¹ Third, stress scenarios are generated by assigning a stress shock to each of the risk drivers, which drives the shock of an individual underlying security.³² Fourth, the aggregate risk exposure or shortfall of each portfolio is generated for each stress scenario for each Clearing Member and the Clearing Member Group level.³³ The CST methodology consists of several component models, including the Volatility Shocks, the VIX

Futures Prices Shocks, and Idiosyncratic Scenarios models.

Volatility Shocks

The Volatility Shocks model component of the CST methodology provides a method to generate implied volatility in a stress scenario for all individual option products that are cleared by OCC.³⁴ This model component is used to shock any option product cleared by OCC. Shocked implied volatility is needed at the product, expiration, and strike level to evaluate individual option implied volatilities in stressed market conditions, which is then used to determine options prices and calculate the profit and loss of Clearing Member accounts in stress scenarios. For all systemic stress scenarios,³⁵ the Cboe Volatility Index ("VIX") is used as the main risk driver in determining shocked implied volatility.³⁶

Two methods are used to generate strike-level shocked implied volatility from VIX shocks: (1) an approach for equity products, including equity ETFs, indexes and futures that have the S&P 500 Index ("SPX") as the risk driver; and (2) an approach used for options on all risk factors that do not have SPX as a risk driver. The term structure of SPX-driven implied volatilities is based on volatility betas versus VIX, while a standardized log-moneyness metric is used to model the implied volatility curves.³⁷ For non-SPX driven risk factors, the implied volatility shocks are based on historical volatility beta regressed directly against the VIX.³⁸

The Volatility Shocks component of CST has certain limitations related to SDOs. First, like the STANS models discussed above, the Volatility Shocks component uses a trading day convention in the calibration of model parameters, which is not consistent with the calendar day convention used by the Smoothing Algorithm. As discussed above, this misalignment may result in over- or under-estimation of option prices, particularly for SDOs. Second, Volatility Shock imposes a flat term structure for SDOs when calculating shocked implied volatility, which is not consistent with the observed dynamics of the underlying assets and the implied volatility surface for SDOs. These

limitations may result in inadequate shocks for SDOs.

VIX Futures Price Shocks

The VIX is an index for measuring implied volatility based on options on the SPX with approximately 30 days to expiration. OCC derives VIX futures prices shocks from SPX volatility betas and VIX index shocks using the VIX Futures Price Shocks component of CST.³⁹ The term structure of the VIX futures prices shocks is modeled from that of the SPX ATM implied volatility shocks. OCC first determines the term structure of the SPX volatility beta, by running regression of the 2-day returns of SPX ATM implied volatility with respect to the 2-day returns of the VIX index for different expirations, ranging from 1M to twelve months ("12M").⁴⁰ Through linear interpolation on the term structure curve of SPX volatility beta OCC determines the volatility beta at the VIX futures expiration and 30 days after, which are the basis to calculate VIX futures price shocks. As a final step a constraint is then applied to ensure that the VIX futures price shocks do not exceed the VIX index shock.

Like the Volatility Shocks model, the VIX Futures Price Shocks component imposes a flat term structure for SDOs when calculating shocked implied volatility, which is not consistent with the observed dynamics of the underlying assets and the implied volatility surface for SDOs. This limitation of the VIX Futures Price Shocks model may result in inadequate shocks for SDOs.⁴¹

Idiosyncratic Scenarios

OCC uses Idiosyncratic Scenarios to generate and capture the risk from extreme non-systemic events that may impact OCC's financial resources.⁴² Specifically, OCC captures the risk of extreme non-systemic market moves on single name equity securities (non-ETF, non-Index) through individual up and down shocks (assuming all other products are unchanged). Single-name equities are classified into large and small capitalization (cap) for the price shocks. Four types of idiosyncratic moves are constructed based on the

²⁸ See Exchange Act Release No. 83406 (Jun 11, 2018), 83 FR 28018, 28022 (June 15, 2018) (SR-OCC-2018-008).

²⁹ *Id.*

³⁰ The "beta" of a security is the sensitivity of the price of the security relative to the price of the security.

³² *Id.*

³³ *Id.*

³⁴ See generally *id.* at 28023.

³⁵ The term "systemic stress scenarios" are scenarios designed to capture risk to OCC in an extreme event impacting all positions driven by risk drivers.

³⁶ Exchange Act Release No. 83406, *supra* note 26, at 28023.

³⁷ *Id.*

³⁸ *Id.*

³⁹ See Exchange Act Release No. 87386 (Oct. 23, 2019), 84 FR 57911, 57913-14 (Oct. 29, 2019) (SR-OCC-2019-009).

⁴⁰ See *id.* at 57916 n. 29 and accompanying text.

⁴¹ Unlike the other model discussed herein, the VIX Futures Price Shocks model uses the SPX volatility beta with extended tenors less than 1 month from the Volatility Shocks model component and Dynamic VIX Calibration model component as inputs, and day-count convention alignment is not within the scope for this model component.

⁴² See generally Exchange Act Release No. 87386, *supra* note 37, at 57913.

market capitalization and direction of the price shock: large cap up, large cap down, small cap up and small cap down.⁴³ A fixed price shock for each of the four scenarios is calibrated from historical price return data such that probability of idiosyncratic moves is comparable to systemic scenarios and probability in all four scenarios is approximately equal. Based on price shocks, ATM implied volatility shocks are calibrated for each of the four scenarios.⁴⁴

The Idiosyncratic Scenarios component of CST shares the limitations related to SDOs discussed above with respect to the other models. Specifically, the Idiosyncratic Scenarios component uses a trading day convention in the calibration of model parameters, which is not consistent with the Smoothing Algorithm's calendar day convention. As discussed above, this misalignment may result in over- or under-estimation of option prices, particularly for SDOs. Second, like the Volatility Shocks model, Idiosyncratic Scenarios imposes a flat term structure for SDOs when calculating shocked implied volatility, which is not consistent with the observed dynamics of the underlying assets and the implied volatility surface for SDOs. These limitations may result in inadequate shocks for SDOs.

Proposed Change

OCC proposes to capture the risks associated with SDOs by applying enhancements to the implied volatility modeling approach to: (1) align the day-count convention between option price smoothing and implied volatility scenario generation, and (2) extend the term structure to cover implied volatility risk associated with options with less than one month to expiration. These enhancements will be implemented for model components in STANS and CST.

Day-Count Convention Alignment

At present, the implied volatility output from smoothing, determined using a calendar day convention, is directly applied in the initial implied volatility scenarios in STANS and CST. However, the calibration of the parameters used in implied volatility scenarios uses a trading day convention, which is also used to model forecasted variance as well as the shocks in CST. OCC proposes to align the day-count convention to be consistent between calibration and price smoothing in both STANS and CST.

In STANS, OCC proposes to align the day-count convention between price smoothing and its model components used for forecasting changes in implied volatility through amendments to the sections of the STANS Methodology Description that address the Implied Volatilities Scenarios Model and the S&P 500 Implied Volatility Simulation Model.⁴⁵ For the Implied Volatilities Scenarios Model (pivot-based), implied volatility levels would be initially converted into trading day convention before application of pivot scenario shocks. The shocked implied volatility scenarios would then be converted back to calendar day convention before being used to calculate shocked option price scenarios. For the S&P 500 Implied Volatility Simulation Model, the process for generating the shocked implied volatility scenarios for listed tenors would convert the initial implied volatility from using calendar day convention to using trading day convention followed by generation of the ATM implied volatility log-return scenarios for listed tenors. The skew shock scenarios would be generated next, followed by the shocked implied volatility scenarios. The outputs of the shocked implied volatility scenarios would then be converted back to calendar day convention before calculating the theoretical option price scenarios. These conversion steps taken together would then align the day-count convention used in both option price smoothing and implied volatility simulations.

Similarly, OCC would align the day-count convention of the Implied Volatility Shocks in CST through conversion of the initial volatility surface from the output of the Smoothing Algorithm to business day convention before application of any volatility shocks.⁴⁶ After the volatility shock is applied, the shocked implied volatility would then be scaled back to calendar day convention, before being used downstream for option pricing in CST. These changes would be reflected in amendments to the CST Methodology Description's section that addresses the Volatility Shock Model. With respect to the Idiosyncratic Scenarios, the CST methodology already provides that after calculating the shocked ATM volatility,

the shocked implied volatility for all the strikes in the expiration follows the same methodology as for the Volatility Shock Model.

Extension of the Term Structure

At present, the STANS Implied Volatilities Scenarios model uses a flat term structure for options with listed tenors that are shorter than one month, which means that the implied volatility shock is derived from the 1M key tenor or pivot. OCC proposes to change the Implied Volatility Scenarios term structure for the implied volatility simulation of all non-SPX related risk factors, such that for points with shorter than one month to maturity, a squared-root decay is applied with respect to one month to expiration up to a predetermined shortest time to maturity. For the S&P 500 Implied Volatility Simulation Model term structure and SPX related risk factors, the applicable sections of the STANS Methodology Description would be updated to provide for a shorter key tenor than the current 1M time to maturity.

With respect to the CST Volatility Shocks model, which uses the volatility beta from the 1M tenor for SDOs, OCC proposes to extend the volatility beta approach to cover constant maturity tenors of less than one-month expiration by adding constant maturity tenors at the 1-week ("1W") and 2-week ("2W") key points of the term structure. Similarly, for the VIX Futures Price Shocks model, OCC proposes that the volatility beta for listed tenors that are less than the 1W tenor and down to the 3-day ("3D") tenor would be linearly interpolated from the 1W tenor and 2W tenor volatility betas, *i.e.*, the 1W and 2W tenor expirations would be added as inputs to the term structure of SPX volatility betas. As for Idiosyncratic Scenarios, the term structure would be extended from 1M down to the 1W tenor and 2W tenor. These changes would be applied to the section of the CST Methodology Description that addresses the Volatility Shock Model, the same methodology for which also applies to the Idiosyncratic Scenarios Models as described above. In addition, this change would also apply to the VIX Futures Price Shock Model because the Volatility Shock Model's method is incorporated by reference in the section that describes the volatility beta shocks applied to volatility instruments.

OCC also proposes to update the day count to the more precise value of 365.25 within the CST Methodology Description when referring to calendar days in a year and also when used in a formula. This amendment to the CST Methodology Description conforms with

⁴⁵ OCC would also make conforming changes to the whitepapers for these models. OCC has provided updates to its STANS whitepapers for the impacted models in confidential Exhibit 3B and 3C to File No. SR-OCC-2024-016.

⁴⁶ OCC would also make conforming changes to the whitepapers for these models. OCC has provided updates to its CST whitepapers for the impacted models in confidential Exhibit 3D and 3F to File No. SR-OCC-2024-016.

⁴⁴ *Id.*

how the system was designed to be consistent with the day-count convention specified in the STANS Methodology Description. Since the CST system already uses a 365.25 day count convention, the proposed change to correct the documentation would have no impact on stress test results. Additionally, OCC plans to make several other minor non-substantial typographical changes throughout the document.

In addition, OCC proposes to further revise the relevant sections of the STANS Methodology Description concerning the S&P 500 Implied Volatility Simulation model to eliminate redundant and duplicative information. Specifically, OCC proposes to remove sections related to the generation of the simulation of certain shocks that are duplicative of information covered in the STANS Methodology Description's discussion of the theory and specifications for that model. The sections related to the simulation of the shocked implied volatility scenarios would be amended to instead refer to those previous sections, which would be updated to reflect the two changes proposed herein.

Impact Analysis

OCC has reviewed the potential impact of the proposed changes on margin across all Clearing Member tier accounts over a 15-month period, between July 2023 and September 2024. OCC observed that the proposed enhancements would lead to an average daily total margin⁴⁷ increase of 0.58% (approximately \$0.2 billion, calculated based on the average daily margin of nearly \$38 billion) across all accounts and activity dates, with the daily total margins falling in a narrow range between the largest decrease of 0.81% (approximately \$0.3 billion) to the largest increase of 3.21% (approximately \$1.1 billion). The results further demonstrated that the SDO enhancements had a larger measurable impact for accounts with high concentrations of short-dated options.

OCC also reviewed the potential impact on CST for the proposed model enhancements based on backtesting results over the same time period. OCC observed that the proposed changes had a relatively small impact on the Cover 1 and Cover 2 shortfalls used in Sufficiency and Sizing Scenarios for the leading Clearing Member Groups. The impact varied among Clearing Members, influenced by factors such as portfolio size, product diversity within those

portfolios, and the concentration of SDO positions. Smaller Clearing Members with a high concentration of SDO positions experienced relatively more meaningful impacts.

With respect to Sizing Scenarios impacts, OCC observed a decrease in the average Cover 2 shortfall for the 1-in-80-Year Rally Scenario of 0.1% (approximately \$12.7 million) with the daily variation falling in a narrow range between the largest decrease of 3.18% to the largest increase of 0.53%. For the Cover 2 shortfall on the 1-in-80-Year Decline Scenario OCC observed an average decrease of 0.47% (approximately \$65 million) with the daily variation falling in a narrow range between the largest decrease of 3.17% to the largest increase of 1.16%.

Similarly, regarding Sufficiency Scenarios impacts, OCC observed a decrease in the average Cover 1 shortfall for the 1987 Crash Scenario of 0.39% (approximately \$37 million) with the daily variation falling in the range between the largest daily decrease of 3.15% and largest daily increase of 1.97%. For the Largest Rally from 2008 Sufficiency Scenario, the daily average Cover 2 Shortfall increased by around 0.22%, which is about \$16 million. The shortfall ranged between a decrease of \$208 million and an increase of \$116 million, which is about a decrease of 3.54% to an increase of 1.90%. For the Largest Rally from 2008—Historical Beta Sufficiency Scenario,⁴⁸ the daily average Cover 2 Shortfall decreased by around 0.1%, which is about \$7 million. The shortfall ranged between a decrease of \$196 million and an increase of \$143 million, which is about a decrease of 1.93% to an increase of 1.41%.

Overall, OCC observed a reduction to the Clearing Fund size of around 0.14% (approximately \$14 million) based on the changes in Cover 2 shortfalls in Sizing Scenarios. OCC believes that such changes to margin and Cover 1 Sufficiency Scenarios and Cover 2 Sizing Scenarios are commensurate with the risks presented by Clearing Members SDO trading activities.

Implementation and Timeframe

The proposed margin model and CST methodology changes will be integrated into OCC's current production system, and implemented within 180 days after the date that OCC receives all necessary regulatory approvals for the proposed changes. OCC will announce the implementation date of the proposed changes by an Information

Memorandum posted to its public website at least 2 weeks prior to implementation.

2. Statutory Basis

OCC believes the proposed rule change is consistent with Section 17A of the Exchange Act⁴⁹ and Rules 17Ad-22(e)(6)⁵⁰ and (e)(7)⁵¹ thereunder. Section 17A(b)(3)(F) of the Act⁵² requires, among other things, that the rules of a clearing agency be designed to promote the prompt and accurate clearance and settlement of securities transactions, and in general, to protect investors and the public interest. As described above, OCC could be exposed to increased credit and liquidity risk if the margin and Clearing Fund models do not adequately capture changes to the dynamic behavior of the implied volatility associated with portfolios dominated by SDO positions. As discussed above, OCC believes the proposed enhancements improve the model performance for portfolios with high SDO concentration. The output of these models would be used by OCC to calculate margin and Clearing Fund requirements designed to limit its credit and liquidity exposures to participants and ensure that OCC is able to continue the prompt and accurate clearance and settlement of its cleared products. The collection of margin and Clearing Fund helps to protect investors and the public interest by ensuring OCC has sufficient resources to manage a potential Clearing Member default that may otherwise impose unexpected costs on non-defaulting Clearing Members and, ultimately, their customers. For these reasons, OCC believes the proposed changes are designed to promote the prompt and accurate clearance and settlement of securities transactions, and, thereby, to protect investors and the public interest in accordance with Section 17A(b)(3)(F) of the Exchange Act.⁵³

OCC also believes that the proposed changes are consistent with Rule 17Ad-22(e)(6).⁵⁴ In particular, paragraphs (i), (iii), and (v) of Rule 17Ad-22(e)(6)⁵⁵ require a covered clearing agency that provides central counterparty services to establish, implement, maintain and enforce written policies and procedures reasonably designed to cover its credit exposures to its participants by establishing a risk-based margin system

⁴⁷ Margin is calculated as the sum of requirement shortfall and stress test add-on charge.

⁴⁸ OCC notes that backtesting data for this scenario is limited due to its recent deployment and use in production.

⁴⁹ 15 U.S.C. 78q-1.

⁵⁰ 17 CFR 240.17Ad-22(e)(6).

⁵¹ 17 CFR 240.17Ad-22(e)(7).

⁵² 15 U.S.C. 78q-1(b)(3)(F).

that (1) considers, and produces margin levels commensurate with, the risks and particular attributes of each relevant product, portfolio, and market; (2) calculates margin sufficient to cover its potential future exposure to participants in the interval between the last margin collection and the close out of positions following a participant default; and (3) uses an appropriate method for measuring credit exposure that accounts for relevant product risk factors and portfolio effects across products. As noted above, OCC's current models in STANS may not adequately capture the implied volatility behaviors associated with SDO in portfolios that may be dominated by SDO positions, which could result in inadequate margin requirements. As described in detail above, OCC believes that aligning the day count convention and extending the term structure in OCC's margin system to take into consideration SDO specific attributes, are appropriate methods to enable OCC to measure SDO credit exposure and produce margin requirements commensurate with the risks presented by SDO trading activities, and as designed enables OCC to calculate margin sufficient to cover SDO exposure from Clearing Member accounts with high concentrations of short-dated options. The proposed changes are designed to enhance model outputs to produce margin requirements that are commensurate with the risks presented by portfolios containing SDO positions. As a result, OCC believes that the proposed changes are reasonably designed to calculate margin commensurate with risks and particular attributes of SDO and sufficient to cover its potential future exposure to participants in the interval between the last margin collection and the close out of positions following a participant default, and uses an appropriate method to measure credit exposures that accounts for the relevant SDO product risk factors in a manner consistent with Rules 17Ad-22(e)(6)(i), (iii) and (v).⁵⁶

(B) Clearing Agency's Statement on Burden on Competition

Section 17A(b)(3)(I) requires that the rules of a clearing agency do not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.⁵⁷ The proposed alignment of the calendar convention between price smoothing and model calibration, and the extension of the term structure for implied volatility and volatility shocks, would be used by OCC to manage its

credit and liquidity risk across all Clearing Members. Accordingly, OCC does not believe that the proposed rule change would unfairly hinder access to OCC's services.

While the proposed rule change may impact different accounts to a greater or lesser degree depending on the composition of SDO positions in each account, OCC does not believe that the proposed rule change would impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Exchange Act. As discussed above, OCC is obligated under the Exchange Act and the regulations thereunder to establish, implement, maintain and enforce written policies and procedures reasonably designed to cover its credit exposures to its participants by establishing a risk-based margin system that, among other things, considers, and produces margin levels commensurate with the risks and particular attributes of each relevant product, portfolio, and market.⁵⁸ Overall, the impact analysis indicates there are significant improvements in performance and margin coverage for SDOs from the proposed model enhancements.

Moreover, while the composition of SDOs within Clearing Member portfolios may drive margin and scenario charges that may be higher or lower than under the current regime, nevertheless OCC believes that margin coverage improvements occur with the adoption of the proposed enhancements. These enhanced model components would utilize a more consistent approach to calendar conventions, while the term structure is also extended to account for SDO tenors, which directly address certain limitations within the current implementation of STANS and CST models. In addition, the proposed model enhancements are expected to produce margin requirements that are more commensurate to the risks generated from holding SDO positions within Clearing Member portfolios, and therefore consistent with OCC's obligations under the Exchange Act and regulations thereunder. Accordingly, OCC believes that the proposed rule change would not impose any burden or impact on competition not necessary or appropriate in furtherance of the purposes of the Exchange Act.

(C) Clearing Agency's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were not, and are not, intended to be solicited with respect to the proposed change and none have been received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the selfregulatory organization consents, the Commission will:

(A) by order approve or disapprove such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

The proposal shall not take effect until all regulatory actions required with respect to the proposal are completed.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules-regulations/self-regulatory-organization-rulemaking>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-OCC-2024-016 on the subject line.

Paper Comments

- Send paper comments in triplicate to Vanessa Countryman, Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to file number SR-OCC-2024-016. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule

⁵⁶ *Id.*

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-101789; File No. SR-MIAX-2024-41]

Self-Regulatory Organizations; Miami International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule

December 2, 2024.

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 19, 2024, Miami International Securities Exchange, LLC ("MIAX" or "Exchange") filed with the Securities and Exchange Commission ("Commission") a proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit

comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the MIAX Options Exchange Fee Schedule ("Fee Schedule") to (1) update the Exchange's email domain; and (2) delete all references and transaction fees and rebates for mini-options.

The text of the proposed rule change is available on the Exchange's website at <https://www.miaxglobal.com/markets/us-options/miax-options/rule-filings>, at MIAX's principal office, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the Fee Schedule to (1) update the Exchange's email domain; and (2) delete all references and transaction fees and rebates for mini-options.

Proposal To Amend the Footnote Definition of "Affiliate" in Section 1)a)i of the Fee Schedule

The Exchange proposes to amend the MIAX email domain in footnote #1 of the Members and Their Affiliates In Priority Customer Rebate Program Volume Tier 3 or Higher table in Section 1)a)i of the Fee Schedule.

Currently, footnote #1 in the Fee Schedule provides, in relevant part, that ". . . A MIAX Market Maker appoints an EEM and an EEM appoints a MIAX Market Maker, for the purposes of the Fee Schedule, by each completing and sending an executed Volume Aggregation Request Form by email to membership@miaxoptions.com no later than 2 business days prior to the first business day of the month in which the designation is to become effective . . . " MIAX started using the new domain

([@miaxglobal.com](mailto:membership@miaxglobal.com)), instead of the old domain ([@miaxoptions.com](mailto:membership@miaxoptions.com)), and all firms are required to include the new domain ([@miaxglobal.com](mailto:membership@miaxglobal.com)) as of June 1, 2023.³ The Exchange now proposes to replace the old email domain (membership@miaxoptions.com) with the new email domain (membership@miaxglobal.com) in footnote #1 in the Fee Schedule. Accordingly, with the proposed changes, footnote #1 will read as follows:
