The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁷⁵ and paragraph (f) of Rule 19b–4¹⁷⁶ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-CboeEDGX–2026–029 on the subject line.

Paper Comments

• Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090. All submissions should refer to file number SR–CboeEDGX–2026–029. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–CboeEDGX–2026–029 and should be submitted on or before June 2, 2026.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁷⁷

Stephanie J. Fouse,

Assistant Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–105391; File No. SR–MIAX–2026–17]

Self-Regulatory Organizations; Miami International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to Amend the Fee Schedule To Establish Fees for Industry Members Related To Reasonably Budgeted CAT Costs of the National Market System Plan Governing the Consolidated Audit Trail for the Period From May 1, 2026 Through December 31, 2026

May 7, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on April 23, 2026, Miami International Securities Exchange, LLC (“MIAX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) a proposed rule change as described in

Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend the MIAX Options Exchange Fee Schedule (the “Fee Schedule”) to establish fees for Industry Members³ related to reasonably budgeted CAT costs of the National Market System Plan Governing the Consolidated Audit Trail (the “CAT NMS Plan” or “Plan”) for the period from May 1, 2026 through December 31, 2026. These fees would be payable to Consolidated Audit Trail, LLC (“CAT LLC” or the “Company”) and referred to as CAT Fee 2026–1, and would be described in a section of the Exchange's fee schedule entitled “Consolidated Audit Trail Funding Fees.” The fee rate for CAT Fee 2026–1 would be \$0.000001 per executed equivalent share. CAT Executing Brokers will receive their first monthly invoice for CAT Fee 2026–1 in June 2026 calculated based on their transactions as CAT Executing Brokers for the Buyer (“CEBB”) and/or CAT Executing Brokers for the Seller (“CEBS”) in May 2026. As described further below, CAT Fee 2026–1 is anticipated to be in place for eight months, and is anticipated to recover approximately two-thirds of the costs set forth in the reasonably budgeted CAT costs for 2026.

The text of the proposed rule change is available on the Exchange's website at <https://www.miaxglobal.com/markets/us-options/all-options-exchanges/rule-filings> and at MIAX's principal office.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set

forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On July 11, 2012, the Commission adopted Rule 613 of Regulation NMS, which required the self-regulatory organizations (“SROs”) to submit a national market system (“NMS”) plan to create, implement and maintain a consolidated audit trail that would capture customer and order event information for orders in NMS securities across all markets, from the time of order inception through routing, cancellation, modification or execution.⁴ On November 15, 2016, the Commission approved the CAT NMS Plan.⁵ Under the CAT NMS Plan, the Operating Committee has the discretion to establish funding for CAT LLC to operate the CAT, including establishing fees for Industry Members to be assessed by CAT LLC that would be implemented on behalf of CAT LLC by the Participants.⁶ The Operating Committee adopted a revised funding model to fund the CAT (“CAT Funding Model”). On March 16, 2026, the Commission approved the CAT Funding Model after concluding that the model satisfied the requirements of Section 11A of the Exchange Act and Rule 608 thereunder.⁷

The CAT Funding Model provides a framework for the recovery of the costs to create, develop and maintain the CAT, including providing a method for allocating costs to fund the CAT among Participants and Industry Members. The CAT Funding Model establishes two categories of fees: (1) CAT fees assessed by CAT LLC and payable by certain Industry Members to recover a portion of historical CAT costs previously paid by the Participants (“Historical CAT Assessment” fees); and (2) CAT fees assessed by CAT LLC and payable by Participants and Industry Members to

² 17 CFR 240.19b–4.

³ An “Industry Member” is defined as “a member of a national securities exchange or a member of a national securities association.” See Exchange Rule 1701(u). See also Section 1.1 of the CAT NMS Plan. Unless otherwise specified, capitalized terms used in this rule filing are defined as set forth in the CAT NMS Plan and/or the CAT Compliance Rule. See Exchange Rule 1701.

fund prospective CAT costs (“CAT Fees”).⁸

Under the CAT Funding Model, Participants, CEBBs and CEBSSs are subject to fees designed to cover the ongoing budgeted costs of the CAT, as determined by the Operating Committee. “The Operating Committee will establish fees (“CAT Fees”) to be payable by Participants and Industry Members with regard to CAT costs not previously paid by the Participants (“Prospective CAT Costs”).”⁹ In establishing a CAT Fee, the Operating Committee will calculate a “Fee Rate” for the relevant period. Then, for each month in which a CAT Fee is in effect, each CEBB and CEBSS would be required to pay the fee for each transaction in Eligible Securities executed by the CEBB or CEBSS from the prior month as set forth in CAT Data, where the fee for each transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Fee Rate.

The CAT Fees to be paid by CEBBs and CEBSSs are designed to contribute toward the recovery of two-thirds of the budgeted CAT costs for the relevant period.¹⁰ The CAT Funding Model is designed to require that the Participants contribute to the recovery of the remaining one-third of the budgeted CAT costs.¹¹ Participants would be subject to the same Fee Rate as CEBBs and CEBSSs.¹² While CAT Fees charged to Industry Members become effective in accordance with the requirements of Section 19(b) of the Exchange Act,¹³ CAT fees charged to Participants are implemented via an approval of the

CAT fees by the Operating Committee in accordance with the requirements of the CAT NMS Plan.¹⁴ Accordingly, this filing does not address Participant CAT fees as they are described in the CAT NMS Plan.¹⁵

CAT LLC proposes to charge CEBBs and CEBSSs (as described in more detail below) CAT Fee 2026–1 to recover the reasonably budgeted CAT costs for the period from May 1, 2026 through December 31, 2026 in accordance with the CAT Funding Model. To implement this fee on behalf of CAT LLC, the CAT NMS Plan requires the Participants to “file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves, and such fees shall be labeled as ‘Consolidated Audit Trail Funding Fees.’”¹⁶ The Plan further states that “[o]nce the Operating Committee has approved such Fee Rate, the Participants shall be required to file with the SEC pursuant to Section 19(b) of the Exchange Act CAT Fees to be charged to Industry Members calculated using such Fee Rate.”¹⁷ Accordingly, the purpose of this filing is to implement a CAT Fee on behalf of CAT LLC for Industry Members, referred to as CAT Fee 2026–1, in accordance with the CAT NMS Plan.

(1) CAT Executing Brokers

CAT Fee 2026–1 will be charged to each CEBB and CEBSS for each applicable transaction in Eligible Securities.¹⁸ The CAT NMS Plan defines a “CAT Executing Broker” to mean: (a) with respect to a transaction in an Eligible Security that is executed on an

exchange, the Industry Member identified as the Industry Member responsible for the order on the buy-side of the transaction and the Industry Member responsible for the sell-side of the transaction in the equity order trade event and option trade event in the CAT Data submitted to the CAT by the relevant exchange pursuant to the Participant Technical Specifications; and (b) with respect to a transaction in an Eligible Security that is executed otherwise than on an exchange and required to be reported to an equity trade reporting facility of a registered national securities association, the Industry Member identified as the executing broker and the Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event in the CAT Data submitted to the CAT by FINRA pursuant to the Participant Technical Specifications; provided, however, in those circumstances where there is a non-Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event or no contra-side executing broker is identified in the TRF/ORF/ADF transaction data event, then the Industry Member identified as the executing broker in the TRF/ORF/ADF transaction data event would be treated as CAT Executing Broker for the Buyer and for the Seller.¹⁹

The following fields of the Participant Technical Specifications indicate the CAT Executing Brokers for the transactions executed on an exchange:

EQUITY ORDER TRADE (EOT)²⁰

No.	Field name	Data type	Description	Include key
12.n.8/13.n.8	member	Member Alias	The identifier for the member firm that is responsible for the order on this side of the trade. Not required if there is no order for the side as indicated by the NOBUYID/ NOSELLID instruction.	C

⁸ Under the CAT Funding Model, the Operating Committee may establish CAT Fees related to CAT costs going forward. Section 11.3(a) of the CAT NMS Plan. This filing only establishes CAT Fee 2026–1 related to reasonably budgeted CAT costs for the period from May 1, 2026 through December 31, 2026 as described herein; it does not address any other potential CAT Fees related to CAT costs. Any such other CAT Fee will be subject to a separate fee filing. In addition, under the CAT Funding Model, the Operating Committee may establish one or more Historical CAT Assessments. Section 11.3(b) of the CAT NMS Plan. This filing does not address any Historical CAT Assessments.

⁹ Section 11.3(a) of the CAT NMS Plan.

¹⁰ Section 11.3(a)(iii)(A) of the CAT NMS Plan.

¹¹ Section 11.3(a)(ii)(A) of the CAT NMS Plan.

¹² Section 11.3(a)(ii) of the CAT NMS Plan.

¹³ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹⁴ CAT Funding Model Approval Order at 13448.

¹⁵ See Section 11.3(a)(ii) and Appendix B of the CAT NMS Plan.

¹⁶ Section 11.1(b) of the CAT NMS Plan.

¹⁷ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹⁸ In its approval of the CAT Funding Model, the Commission determined that charging CAT fees to CAT Executing Brokers was appropriate. In reaching this conclusion, the Commission noted that the use of CAT Executing Brokers is appropriate because the CAT Funding Model is based upon the calculation of *executed* equivalent shares, and, therefore, charging CAT Executing Brokers would reflect their executing role in each transaction. Furthermore, the Commission noted that, because CAT Executing Brokers are already identified in transaction reports from the exchanges

and FINRA’s equity trade reporting facilities recorded in CAT Data, charging CAT Executing Brokers could streamline the billing process. CAT Funding Model Approval Order at 13413.

¹⁹ Section 1.1 of the CAT NMS Plan. In its approval order for the CAT Funding Model, the Commission “recognize[d] that Industry Members may pass-through CAT fees for customer executed volume.” See CAT Funding Model Approval Order at 13424.

²⁰ See Table 23, Section 4.7 (Order Trade Event) of the CAT Reporting Technical Specifications for Plan Participants, Version 4.2.0-r2 (Feb. 24, 2026), https://www.catnmsplan.com/sites/default/files/2026-02/02.24.2026-CAT_Reporting_Technical_Specifications_for_Participants_4.2.0-r2.pdf (“CAT Reporting Technical Specifications for Plan Participants”).

28	contraExecutingMpid	Member Alias	MPID of the contra-side executing party.	C

(2) Calculation of Fee Rate 2026–1

The Operating Committee determined the Fee Rate to be used in calculating CAT Fee 2026–1 (“Fee Rate 2026–1”) by dividing the reasonably budgeted CAT costs (“Budgeted CAT Costs 2026–1”) for the period from May 1, 2026 through December 31, 2026 (“CAT Fee 2026–1 Period”) by the reasonably projected total executed share volume of all transactions in Eligible Securities for the eight-month recovery period, as discussed in detail below.²³ Based on this calculation, the Operating Committee has determined that Fee Rate 2026–1 would be \$0.000003799483243631228 per executed equivalent share. This rate is then divided by three and rounded to determine the fee rate of \$0.000001 per executed equivalent share that will be assessed to CEBBs and CEBSSs, as also discussed in detail below.

(A) CAT Fee 2026–1 Period

CAT LLC proposes to implement CAT Fee 2026–1. CAT LLC proposes to commence CAT Fee 2026–1 during the year, rather than at the beginning of the year. Accordingly, CAT Fee 2026–1 “would be calculated as described in paragraph (II)” of Section 11.3(a)(i)(A) of

the CAT NMS Plan,²⁴ which states that “[d]uring each year, the Operating Committee will calculate a new Fee Rate by dividing the reasonably budgeted CAT costs for the remainder of the year by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the remainder of the year.”²⁵ For CAT Fee 2026–1, the reasonably budgeted CAT costs for “the remainder of the year” are the reasonably budgeted CAT costs from May 1, 2026 through December 31, 2026 as set forth in the updated annual budget for 2026 for CAT LLC approved by the Operating Committee on March 31, 2026 (“Updated 2026 CAT Budget”).²⁶

(B) Executed Equivalent Shares for Transactions in Eligible Securities

Under the CAT NMS Plan, for purposes of calculating CAT Fees, executed equivalent shares in a transaction in Eligible Securities will be reasonably counted as follows: (1) each executed share for a transaction in NMS Stocks will be counted as one executed equivalent share; (2) each executed contract for a transaction in Listed Options will be counted based on the multiplier applicable to the specific Listed Options (*i.e.*, 100 executed

equivalent shares or such other applicable multiplier); and (3) each executed share for a transaction in OTC Equity Securities will be counted as 0.01 executed equivalent share.²⁷

(C) Budgeted CAT Costs 2026–1

The CAT NMS Plan states that “[t]he budgeted CAT costs for the year shall be comprised of all reasonable fees, costs and expenses reasonably budgeted to be incurred by or for the Company in connection with the development, implementation and operation of the CAT as set forth in the annual operating budget approved by the Operating Committee pursuant to Section 11.1(a) of the CAT NMS Plan, or as adjusted during the year by the Operating Committee.”²⁸ Section 11.1(a) of the CAT NMS Plan describes the requirement for the

Operating Committee to approve an operating budget for CAT LLC on an annual basis. It requires the budget to “include the projected costs of the Company, including the costs of developing and operating the CAT for the upcoming year, and the sources of all revenues to cover such costs, as well as the funding of any reserve that the Operating Committee reasonably deems

²¹ See Table 52, Section 5.2.5.1 (Simple Option Trade Event) of the CAT Reporting Technical Specifications for Plan Participants.

²² See Table 62, Section 6.1 (TRF/ORF/ADF Transaction Data Event) of the CAT Reporting Technical Specifications for Plan Participants.

²³ Section 11.3(a)(i) of the CAT NMS Plan.

²⁴ Section 11.3(a)(i)(A)(IV) of the CAT NMS Plan.

²⁵ Section 11.3(a)(i)(A)(II) of the CAT NMS Plan.

²⁶ The Updated 2026 CAT Budget is available on the CAT website (<https://www.catnmsplan.com/sites/default/files/2026-04/03.31.26-CAT-2026-Budget.pdf>).

²⁷ Section 11.3(a)(i)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission concluded that “the use of executed equivalent share volume provides an appropriate basis for the calculation of CAT fees.” CAT Funding Model Approval Order at 13413.

²⁸ Section 11.3(a)(i)(C) of the CAT NMS Plan.

appropriate for the prudent operation of the Company.” Section 11.1(a)(i) of the CAT NMS Plan further states that: [w]ithout limiting the foregoing, the reasonably budgeted CAT costs shall include technology (including cloud hosting services, operating fees, CAIS operating fees, change request fees and capitalized developed technology costs), legal, consulting, insurance, professional and administration, and public relations costs, a reserve and such other cost categories as reasonably determined by the Operating Committee to be included in the budget.

In accordance with the requirements under the CAT NMS Plan, the Operating Committee approved an annual budget for 2026 for CAT LLC (“Original 2026 CAT Budget”) on December 11, 2025.²⁹ On March 31, 2026, the Operating Committee approved an updated budget for 2026, referred to as the Updated 2026 CAT Budget. The Updated 2026 CAT Budget includes actual costs for each category for January and February 2026, with updated estimated costs for the remainder of the year. The updated

costs for May through December as included in the Updated 2026 CAT Budget (*i.e.*, Budgeted CAT Costs 2026–1) are the costs used in calculating CAT Fee 2026–1.³⁰ The 2026 CAT budgets, both the Original 2026 CAT Budget and the Updated 2026 CAT Budget, were prepared on the accrual basis of accounting.³¹

As described in detail below, the Budgeted CAT Costs 2026–1 would be \$15,149,648. CEBBs collectively will be responsible for one-third of the Budgeted CAT Costs 2026–1 (which is \$5,049,882.67), and CEBBs collectively will be responsible for one-third of the Budgeted CAT Costs 2026–1 (which is \$5,049,882.67).

The following describes in detail the Budgeted CAT Costs 2026–1 for CAT Fee 2026–1. The following cost details are provided in accordance with the requirement in the CAT NMS Plan to provide in the fee filing the following: the budget for the upcoming year (or remainder of the year, as applicable), including a brief description of each line item in the budget, including (1)

technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration, and (6) public relations costs, a reserve and/or such other categories as reasonably determined by the Operating Committee to be included in the budget, and the reason for changes in each such line item from the prior CAT fee filing.³²

Each of the costs described below is reasonable, appropriate and necessary for the creation, implementation and maintenance of CAT.

The following table breaks down the Budgeted CAT Costs 2026–1 into the categories set forth in Section 11.3(a)(iii)(B) of the CAT NMS Plan.³³ The Budgeted CAT Costs 2026–1 reflect the costs for May through December as included in the Updated 2026 CAT Budget. The Budgeted CAT Costs 2026–1 are the costs used in calculating CAT Fee 2026–1.

BUDGETED CAT COSTS 2026–1

Budget category	Budgeted CAT costs 2026–1 ^b (<i>i.e.</i> , costs for May–December 2026)
Capitalized Developed Technology Costs ^a	^c \$3,450,000
Technology Costs	83,737,680
Cloud Hosting Services	^d 49,866,667
Operating Fees	^e 19,691,953
CAIS Operating Fees	^f 14,179,060
Change Request Fees	^g 0
Legal	^h 5,670,452
Consulting	ⁱ 1,025,957
Insurance	^j 852,768
Professional and administration	^k 749,151
Public relations	^l 0
Interest Income	^m (\$1,453,382)
Total Costs	94,032,626
Reserve (25% of Total Costs)	23,508,157
Total Costs and Reserve	117,540,783
Use of Existing Reserve	ⁿ (102,391,135)
Total Budgeted CAT Costs 2026–1	15,149,648

^a The non-cash amortization of these capitalized developed technology costs to be incurred during the CAT Fee 2026–1 Period have been appropriately excluded from the above table.³⁴

^b Budgeted CAT Costs 2026–1 described in this table of costs were determined based on an analysis of a variety of factors, including historical costs/invoices, estimated costs from respective vendors/service providers, contractual terms with vendors/service providers, anticipated service levels and needs, and discussions with vendors and Participants.

^c This cost number for capitalized developed technology costs reflects (1) capitalized developed technology costs of \$3,450,000 for May, \$0 for June and \$0 for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget; and (2) \$0 for the Software License Fee 2026 for the second, third, and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: (\$3,450,000 + \$0 + \$0 + \$0) + (\$0 + \$0 + \$0) = \$3,450,000.

²⁹ The Original 2026 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-12/12.08.25-CAT-LLC-2026-Financial_and_Operating_Budget.pdf).

³⁰ The version of the Updated 2026 CAT Budget set forth on the CAT website is presented on a quarterly basis, but is prepared based on more granular detail. The costs for May and June are estimated based on two-thirds of costs for Q2 where the budgeted monthly amounts are consistent. For those cases in which the costs for a category vary

from month to month in Q2, the specific budgeted amounts for May and June are noted.

³¹ CAT budgets for periods prior to 2025 were prepared on the cash basis of accounting, as such budgets were primarily used to determine the dollar amount of promissory notes from the Participants that were required to fund the ongoing operations of the CAT. Commencing in 2025, with the contemplated recovery of costs from Industry Members and the Participants via CAT Fees, the Original 2025 CAT Budget was prepared on the

accrual basis of accounting to properly match projected revenues with estimated expenses incurred. A cash basis budget reflects expenditures when paid, while an accrual basis budget reflects expenditures when incurred. In moving from a cash basis budget to an accrual basis budget, there is no double counting of expenses.

³² Section 11.3(a)(iii)(B) of the CAT NMS Plan.

³³ Note that costs and related cost calculations provided in this filing may reflect minor variations from the budgeted costs due to rounding.

^d This cost number for cloud hosting services reflects two-thirds of the cloud hosting services costs for the second quarter and the cloud hosting services for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$18,700,000) + \$18,700,000 + \$18,700,000 = \$49,866,667$.

^e This cost number for operating fees reflects (1) two-thirds of the Non-CAIS fixed operating fees for the second quarter and the Non-CAIS fixed operating fees for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget and (2) two-thirds of the market data vendor fees for the second quarter and the market data vendor fees for the third and fourth quarter of 2026 as included in the Updated 2026 CAT Budget: $((\frac{2}{3} \times \$7,191,853) + \$7,191,853 + \$7,191,853) + ((\frac{2}{3} \times \$192,630) + \$192,630 + \$192,630) = \$19,691,953$.

^f This cost number for CAIS operating fees reflects two-thirds of the CAIS fixed operating fees for the second quarter and the CAIS fixed operating fees for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$5,317,147) + \$5,317,147 + \$5,317,147 = \$14,179,060$.

^g This \$0 cost number for change requests reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

^h This cost number for legal services reflects two-thirds of the legal costs for the second quarter and the legal costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

ⁱ This cost number for consulting services reflects two-thirds of the consulting costs for the second quarter and the consulting costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$384,734) + \$384,734 + \$384,734 = \$1,025,957$.

^j This cost number for insurance reflects two-thirds of the insurance costs for the second quarter and the insurance costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$300,977) + \$321,042 + \$331,074 = \$852,768$.

^k This cost number for professional and administration services reflects two-thirds of the professional and administration costs for the second quarter and the professional and administration costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$280,932) + \$280,932 + \$280,932 = \$749,151$.

^l This \$0 cost number of change requests reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

^m This interest income reflects interest income (net of bank fees) of \$517,208 for May and June and interest income (net of bank fees) for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $\$517,208 + \$571,010 + \$365,164 = \$1,453,382$. Note that interest income for May and June 2026 of \$517,208 is slightly less than two-thirds of \$809,598 (which is \$539,732) for the second quarter as the amount of interest income varies from month to month.

ⁿ This amount for the use of the existing reserve is calculated by subtracting from the Accrued Liquidity Reserve Balance as of the Beginning of the Year in the Updated 2026 CAT Budget the 25% Incremental Liquidity Reserve Accrued during 2026 for the first quarter and for April of 2026 as included in the Updated 2026 CAT Budget: $\$155,403,378 - (\$41,800,153 + \$11,212,091) = \$102,391,135$. Note that the 25% Incremental Liquidity Reserve Accrued during 2026 for April 2026 of \$11,212,091 is slightly more than one-third of \$33,366,432 (which is \$11,122,144) for the second quarter as the amount of the 25% Incremental Liquidity Reserve Accrued during 2026 varies from month to month.

To the extent that CAT LLC enters into notes with Participants or others to pay costs incurred during the period in which CAT Fee 2026–1 is in effect, CAT LLC will use the proceeds from CAT Fee 2026–1 and the related Participant CAT fees to repay such notes.

The following table compares the annual budgeted CAT costs as set forth in the updated annual CAT budget for

2025 approved by the Operating Committee in May 2025 (“May Updated 2025 CAT Budget”),³⁵ the updated annual CAT budget for 2025 approved by the Operating Committee in November 2025 (“November Updated 2025 CAT Budget”),³⁶ the Original 2026 CAT Budget and the Updated 2026 CAT Budget, and is provided for

informational purposes. In each case, the costs provided reflect the costs for the entire year for each of the budgets; this differs from the above chart which focuses on budgeted costs for the period from May 1, 2026 through December 31, 2026, which, as noted, are the costs that are used in the calculation of the fee rate in this fee filing.

COMPARISON OF FULL YEAR BUDGETED COSTS

Budget Category	Full year of 2025 budgeted CAT costs from updated 2025 CAT budget (May 2025)	Full year of 2025 budgeted CAT costs from updated 2025 budget (Nov. 2025)	Full year of 2026 budgeted CAT costs from original 2026 CAT budget	Full year of 2026 budgeted CAT costs from updated 2026 CAT budget
Capitalized Developed Technology Costs ^a	\$4,871,962	\$5,163,991	\$8,228,827	\$8,378,964
Technology Costs	211,548,472	173,091,660	137,514,003	128,643,476
Cloud Hosting Services	159,230,937	122,084,811	81,900,006	77,529,362
Operating Fees ^b	30,817,686	29,932,001	34,345,413	29,845,524
CAIS Operating Fees	20,749,848	20,749,848	21,268,584	21,268,590
Change Request Fees	750,000	325,000	0	0
Legal	7,370,002	7,312,547	8,485,000	8,939,184
Consulting	1,749,998	1,750,000	1,550,000	1,550,000
Insurance	1,594,452	1,368,750	1,505,625	1,254,070
Professional and administration	1,193,090	1,392,679	1,145,500	1,085,500
Public relations	6,575	6,575	0	0
Interest Income	0	(2,510,223)	(1,995,958)	(2,806,325)
Total Annual CAT Costs^c	228,334,551	187,575,979	156,432,998	147,044,869

^a This cost number is calculated by adding together the Capitalized Developed Technology Costs and the Software License Fee for each budget.

^b This cost number is calculated by adding together the Operating fees, the Cyber Insurance Premium Adjustment (if any) and market data vendor fees (if any separate fees) for each budget.

^c This total cost number does not include an amount for a reserve.

³⁴ With respect to certain costs that were “appropriately excluded,” such excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already been otherwise reflected in the filing, their inclusion would double count the capitalized

technology costs. In addition, amortization is a non-cash expense.

³⁵ The May Updated 2025 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-05/05.19.25-CAT-LLC-2025-Financial_and_Operating-Budget.pdf).

³⁶ The November Updated 2025 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-12/12.22.25_CAT-LLC-2025-Finacial_and_Operating-Budget.pdf).

In addition, the following table compares the budgeted costs for January and February 2026 that were used in drafting the Original 2026 CAT Budget with the actual costs for January and February 2026 that were used in

drafting the Updated 2026 CAT Budget. The Original 2026 CAT Budget includes budgeted costs for January and February 2026, whereas the Updated 2026 CAT Budget includes actual costs for January and February 2026. The variance from

the budgeted costs for January and February 2026 to the actual costs for January and February 2026 are used in this filing in supporting the reasonableness of the estimates for each category of costs.

COMPARISON OF BUDGETED AND ACTUAL COSTS FOR JANUARY & FEBRUARY 2026

Budget category	Budgeted costs for January & February 2026 (as used in drafting the original 2026 CAT budget)	Actual costs for January & February 2026 (as used in drafting the updated 2026 CAT budget)	Variance from budgeted costs for January & February 2026 to actual costs for January & February of 2026
Capitalized Developed Technology Costs ^a	\$671,472	\$4,145,430	Increase by \$3,473,958. ^b
Technology Costs	25,894,000	21,501,183	
Cloud Hosting Services	17,200,000	12,829,362	Decrease by \$4,370,638. ^c
Operating Fees	5,149,236	5,127,057	Decrease by \$22,179.
CAIS Operating Fees	3,544,764	3,544,764	No change.
Change Request Fees	0	0	No change.
Legal	1,424,166	1,838,617	Increase by \$414,451. ^d
Consulting	258,334	267,554	Increase by \$9,220.
Insurance	250,938	200,652	Decrease by \$50,286.
Professional and administration	190,916	149,061	Decrease by \$41,855.
Public relations	0	0	No change.
Interest Income	(758,343)	(757,527)	Decrease by \$816.
Total	27,931,483	27,344,970	Decrease by \$586,513

^a This cost number for capitalized developed technology costs is calculated by adding together the capitalized developed technology costs and the software license fee for each budget.

^b The variance for capitalized developed technology costs is the result of costs related to the software license fee in accordance with the Plan Processor Agreement with FCAT.

^c This variance is attributable to lower than forecasted market volumes and the impact of lower processing costs due to shutting down certain functionalities.

^d The variance in legal costs is attributable to unanticipated issues that required additional legal efforts on behalf of CAT LLC that developed after the budget was created.

(i) Technology Costs—Cloud Hosting Services

(a) Description of Cloud Hosting Services Costs

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the cloud hosting services costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$49,866,667 in technology costs for cloud hosting services for the CAT Fee 2026–1 Period. The technology costs for cloud hosting services represent costs reasonably budgeted to be incurred for services provided by the cloud services provider for the CAT, Amazon Web Services, Inc. (“AWS”) during the CAT Fee 2026–1 Period.

In the agreement between CAT LLC and the Plan Processor for the CAT (“Plan Processor Agreement”), FINRA CAT, LLC (“FCAT”), AWS was named as the subcontractor to provide cloud hosting services. Under the Plan Processor Agreement, CAT LLC is required to pay FCAT the fees incurred by the Plan Processor for cloud hosting services provided by AWS as FCAT’s

subcontractor on a monthly basis for the cloud hosting services, and FCAT, in turn, pays such fees to AWS. The fees for cloud hosting services were negotiated by FCAT on an arm’s length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the expected volume of data, the breadth of services provided and market rates for similar services. Services provided by AWS include storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as well as various environments for CAT, such as development, performance testing, test, and production environments. FCAT utilizes such cloud hosting services for a broad array of services for the CAT, such as data ingestion, data management, and analytic tools for the CAT. AWS performs cloud hosting services for both the CAT transaction database as well as the Reference Database (previously referred to as the Customer and Account

Information System, or “CAIS”).³⁷ It is anticipated that such cloud hosting services will continue during the CAT Fee 2026–1 Period.

The cost for AWS cloud services for the CAT is a function of the volume of CAT Data, largely as a result of the processing and storage of the CAT Data.³⁸ The greater the amount of CAT Data, the greater the cost of AWS services to CAT LLC. During the CAT Fee 2026–1 Period, it is expected that AWS would provide cloud hosting services for volumes of CAT Data far in excess of the volume predictions set

³⁷ On January 13, 2026, the SEC approved an amendment to the CAT NMS Plan relating to the Customer and Account Information System (referred to as “CAIS”). Effective with this amendment, CAIS has been renamed as the “Reference Database.” Securities Exchange Act Rel. No. 104586 (Jan. 13, 2026), 91 FR 2164 (Jan. 16, 2026) (“CAIS Amendment”). The SEC subsequently approved another amendment to the CAT NMS Plan to implement various cost savings measures that made further changes to the Reference Database. Securities Exchange Act Rel. No. 105107 (Mar. 27, 2026), 91 FR 16284 (Mar. 27, 2026) (“Cost Savings Amendment”).

³⁸ In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. For further discussion of the effect of processing timelines on cloud hosting costs, see Section 3(b)(2)(A)(i) below.

forth in the CAT NMS Plan. The CAT NMS Plan states, when all CAT Reporters are submitting their data to the CAT, it “must be sized to receive[,] process and load more than 58 billion records per day,”³⁹ and that “[i]t is expected that the Central Repository will grow to more than 29 petabytes of raw, uncompressed data.”⁴⁰ In contrast with those estimates, the Q3 2025 data volumes averaged 792 billion events per day. The highest peak data volume to date of 1.45 trillion events was recorded on April 7, 2025. The top five peak days were recorded in April 2025.

CAT LLC estimates that the budget for cloud hosting services costs during the CAT Fee 2026–1 Period will be approximately \$49,866,667.⁴¹ The budget for cloud hosting services costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the cloud hosting services costs for the second quarter and the cloud hosting services for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget.⁴²

CAT LLC estimated the budget for the cost for cloud hosting services for the CAT Fee 2026–1 Period based on an assumption of 35% annual year-over-year volume growth for the transaction database and an assumption of 5% annual year-over-year volume growth for the Reference Database. CAT LLC determined these growth assumptions in coordination with FCAT.⁴³

This process for estimating the budget for cloud hosting services costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the cloud hosting services costs for the Original 2026 CAT Budget.

The Original 2026 CAT Budget estimated a budget for cloud hosting services of \$17,200,000 for January and February 2026. The actual costs for cloud hosting services for January and February 2026, which are set forth in

the Updated 2026 CAT Budget, were \$12,829,362. Therefore, the variance between budgeted and actual cloud hosting services costs for January and February 2026 was an approximate decrease of \$4,370,638 as a result of lower volumes and a change in functionality.⁴⁴ Accordingly, CAT LLC believes that the process for estimating the budgeted cloud hosting services costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for cloud hosting services costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the cloud hosting services costs from the Original 2026 Budget.⁴⁵ Specifically, the following describes the differences in the costs for cloud hosting services included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for cloud hosting services included in the Original 2026 CAT Budget were \$81,900,006, and the annual 2026 budgeted costs for cloud hosting services included in the Updated 2026 CAT Budget are \$77,529,362. Accordingly, budgeted annual costs for cloud hosting services decreased by \$4,370,644 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 5% reduction in cloud hosting services costs for the full year of 2026.⁴⁶ The budgeted decrease in costs for cloud hosting services reflects lower costs for January and February 2026 due to lower than forecasted market volumes in January and the impact of lower processing costs due to shutting down certain functionalities.

(ii) Technology Costs—Operating Fees

(a) Description of Operating Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the operating fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$19,691,953 in technology costs for operating fees for the CAT Fee 2026–1 Period. Operating fees are those fees paid by CAT LLC to FCAT as the Plan Processor to operate and maintain the CAT and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management as required by the CAT NMS Plan. Operating fees also include market data provider costs, as discussed below.

Plan Processor: FCAT. Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT a negotiated monthly fixed price for the operation of the CAT. This fixed price contract was negotiated on an arm’s length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity. It is anticipated that FCAT will provide a variety of services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Provide the CAT-related functions and services as the Plan Processor as required by SEC Rule 613 and the CAT NMS Plan in connection with the operation and maintenance of the CAT;
- Address compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provide support to the Operating Committee, the Compliance Subcommittee and CAT working groups;
- Assist with interpretive efforts, exemptive requests and amendments regarding the CAT NMS Plan;
- Oversee the security of the CAT;
- Monitor the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provide support to subcontractors under the Plan Processor Agreement;
- Provide support in discussions with the Participants and the SEC and its staff;

³⁹ Section 1.3 of Appendix D of the CAT NMS Plan, n.262.

⁴⁰ Section 1.3 of Appendix D of the CAT NMS Plan.

⁴¹ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁴² This calculation is $(\frac{2}{3} \times \$18,700,000) + \$18,700,000 + \$18,700,000 = \$49,866,667$.

⁴³ Note that these growth rates are based on events processed and stored in the CAT. Executed transactions are a small subset of such events. As a result, the number of transactions in the CAT, and, hence, the number of executed equivalent shares, is not directly correlated with the number of events processed in the CAT or the costs of cloud hosting services for the CAT. Accordingly, the number of executed equivalent shares may stay relatively constant from year to year while the number of events processed and stored in the CAT may grow significantly.

⁴⁴ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁴⁵ The last Prospective CAT Fee, CAT Fee 2025–2, was implemented pursuant to the prior CAT funding model. Moreover, the final invoice for CAT Fee 2025–2 was sent in December 2025, and, therefore, there is a six-month gap between the final invoice for CAT Fee 2025–2 and the first invoice for CAT Fee 2026–1, which would be in June 2026. Accordingly, this filing describes the changes in the cloud hosting services costs from the Original 2026 Budget.

⁴⁶ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

- Operate the FINRA CAT Helpdesk;
- Facilitate communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;

- Administer the CAT website and all of its content;

- Maintain cyber security insurance related to the CAT;

- Assist with billing, collection and other CAT fee-related activity; and

- Provide technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

CAT LLC calculated the budget for the FCAT technology costs for operating fees for the CAT Fee 2026–1 Period based on the recurring monthly operating fees under the Plan Processor Agreement.

Market Data Provider: Algoseek. It is anticipated that the operating fees costs for the CAT Fee 2026–1 Period will include costs related to the receipt of certain market data for the CAT pursuant to an agreement between FCAT and Algoseek, LLC (“Algoseek”). CAT LLC determined that Algoseek would provide market data that included data elements set forth in Section 6.5(a)(ii) of the CAT NMS Plan, and that the fees were reasonable and in line with market rates for the market data received. All costs under the contract would be treated as a direct pass through cost to CAT LLC. CAT LLC estimated the budget for the costs for Algoseek for the CAT Fee 2026–1 Period based on the monthly rate set forth in the agreement between Algoseek and FCAT.

Operating Fee Estimates. CAT LLC estimates that the budget for operating fees during the CAT Fee 2026–1 Period will be approximately \$19,691,953.⁴⁷ The budget for operating fees during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding (1) two-thirds of the Non-CAIS fixed operating fees for the second quarter and the Non-CAIS fixed operating fees for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget and (2) two-thirds of the market data vendor fees for the second quarter and the market data vendor fees for the third and fourth quarter of 2026 included in the Updated 2026 CAT Budget.⁴⁸

As discussed above, CAT LLC estimated the budget for the operating

fees during the CAT Fee 2026–1 Period based on monthly rates set forth in the Plan Processor Agreement and the agreement with Algoseek. CAT LLC also recognized that the operating fees are generally consistent throughout the year. This process for estimating the budget for the operating fees for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the operating fees for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for operating fees of \$5,149,236 for January and February 2026, and the actual costs for operating fees for January and February 2026 were \$5,127,057. Therefore, the variance between budgeted and actual operating fees for this period was small—\$22,179.⁴⁹ Accordingly, CAT LLC believes that the process for estimating the budgeted operating fees for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for operating fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the operating fees from the Original 2026 Budget. Specifically, the following describes the differences in the costs for operating fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for operating fees included in the Original 2026 CAT Budget were \$34,345,413, and the annual 2026 budgeted costs for operating fees included in the Updated 2026 CAT Budget are \$29,845,524. Accordingly, budgeted annual costs for operating fees decreased by \$4,499,889 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 13% reduction in operating fees for the full year of 2026.⁵⁰ The budgeted decrease in costs for operating fees reflects the proposed amendments to the Plan Processor Agreement related to the recent cost savings amendments to the CAT NMS Plan.⁵¹

⁴⁹ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁵⁰ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁵¹ See CAIS Amendment and Cost Savings Amendment.

(iii) Technology Costs—CAIS Operating Fees

(a) Description of CAIS Operating Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the CAIS operating fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$14,179,060 in technology costs for CAIS operating fees for the CAT Fee 2026–1 Period. CAIS operating fees represent the fees paid to FCAT for services provided with regard to the operation and maintenance of the Reference Database (previously referred to as CAIS), and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. The CAT is required under the CAT NMS Plan to capture and store Reference Data in the Reference Database and to create a CAT-Customer-ID for each Customer.⁵²

During the CAT Fee 2026–1 Period, it is anticipated that FCAT will provide services related to the Reference Database. Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT for services related to the Reference Database provided by FCAT on a monthly basis. CAT LLC negotiated the fees for FCAT’s services related to the Reference Database on an arm’s length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors, including the services to be provided and market rates for similar types of activity. During the CAT Fee 2026–1 Period, it is anticipated that FCAT will continue to provide services relating to the ongoing operation, maintenance and support of the Reference Database.

CAT LLC estimates that the budget for CAIS operating fees during the CAT Fee 2026–1 Period will be approximately \$14,179,060.⁵³ The budget for CAIS operating fees during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the CAIS fixed operating fees for the second quarter and the CAIS fixed operating

⁵² See Section 9 of Appendix D of the CAT NMS Plan.

⁵³ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁴⁷ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁴⁸ This calculation is $((\frac{2}{3} \times \$7,191,853) + \$7,191,853 + \$7,191,853) + ((\frac{2}{3} \times \$192,630) + \$192,630 + \$192,630) = \$19,691,953$.

fees for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁵⁴

CAT LLC calculated the budget for FCAT's services related to the Reference Database for the CAT Fee 2026–1 Period based on the recurring monthly CAIS operating fees under the Plan Processor Agreement. This process for estimating the budget for the CAIS operating fees for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the CAIS operating fees for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget of \$3,544,764 for CAIS operating fees for January and February of 2026. The actual costs for CAIS operating fees for January and February of 2026, which are included in the Updated 2026 CAT Budget, were \$3,544,764. There was no variance between budgeted and actual CAIS operating fees for the first two months of 2026.⁵⁵ Accordingly, CAT LLC believes that the process for estimating the budgeted CAIS operating fees for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for CAIS operating fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the CAIS operating fees from the Original 2026 Budget. Specifically, the following describes the differences in the costs for CAIS operating fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

CAIS operating fees are based on a recurring monthly rate payable to FCAT and are unchanged from the Original 2026 CAT Budget to the Updated 2026 CAT Budget. The annual 2026 budgeted costs for CAIS operating fees included in the Original 2026 CAT Budget were \$21,268,584, and the annual 2026 budgeted costs for CAIS operating fees included in the Updated 2026 CAT Budget are \$21,268,590.⁵⁶ Accordingly, the budgeted annual costs for CAIS operating fees are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(iv) Technology Costs—Change Request Fees

(a) Description of Change Request Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the change request fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$0 in technology costs for change request fees for the CAT Fee 2026–1 Period. The technology costs related to change request fees include costs related to certain modifications, upgrades or other changes to the CAT.

Change requests are standard practice and necessary to reflect operational changes, including changes related to new market developments, such as new market participants. In general, if CAT LLC determines that a modification, upgrade or other changes to the functionality or service is necessary and appropriate, CAT LLC will submit a request for such a change to the Plan Processor. The Plan Processor will then respond to the request with a proposal for implementing the change, including the cost (if any) of such a change. CAT LLC then determines whether to approve the proposed change.

The change request budget line is established to include expected costs to be incurred in which the nature of the costs (*i.e.*, capitalization versus expensing) have not yet been determined. Upon the incurrence of such costs, the final determination of capitalization versus expensing is determined and then such costs are reclassified from the change request line to the appropriate technology cost line item.

CAT LLC estimates that the budget for change requests during the CAT Fee 2026–1 Period will be approximately \$0.⁵⁷ The budget for change requests during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. This \$0 cost number for change request fees reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

CAT LLC estimated the budget for the potential change requests for the CAT Fee 2026–1 Period based on, among other things, a review of past change requests and potential future change request needs, as well as discussions with FCAT. This process for estimating the budget for the change requests for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated

the change requests cost for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a change request budget of \$0 for January and February of 2026. The actual costs for change requests for January and February of 2026, which are set forth in the Updated 2026 CAT Budget, were \$0. There was no variance between budgeted and actual change request costs for January and February of 2026.⁵⁸ Accordingly, CAT LLC believes that the process for estimating the budgeted change request costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for change request fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the change request fees from the Original 2026 Budget. Specifically, the following describes the differences (if any) in the costs for change request fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for change requests included in the Original 2026 CAT Budget were \$0, and the annual 2026 budgeted costs for change requests included in the Updated 2026 CAT Budget are \$0.⁵⁹ Accordingly, budgeted annual costs for change requests are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(v) Technology Costs—Capitalized Developed Technology Costs

(a) Description of Capitalized Developed Technology Costs

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the capitalized developed technology costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes \$3,450,000 in technology costs for capitalized developed technology costs for the CAT Fee 2026–1 Period. This category of costs includes the budget for capitalizable application development costs incurred in the development of the CAT. It is anticipated that such costs will include

⁵⁴ This calculation is $(\frac{2}{3} \times \$5,317,147) + \$5,317,147 = \$14,179,060$.

⁵⁵ See chart entitled "Comparison of Budgeted and Actual Costs for January & February 2026" in Section 3(a)(2)(C) above.

⁵⁶ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

⁵⁷ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

⁵⁸ See chart entitled "Comparison of Budgeted and Actual Costs for January & February 2026" in Section 3(a)(2)(C) above.

⁵⁹ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

certain costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT, as well as costs related to a set of technology changes to be implemented by FCAT related to the cost savings amendments⁶⁰ and the move to 23x5 trading.

CAT LLC estimates that the budget for capitalized developed technology costs during the CAT Fee 2026–1 Period will be approximately \$3,450,000.⁶¹ The budget for capitalized developed technology costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding (1) capitalized developed technology costs of \$3,450,000 for May, \$0 for June and \$0 for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget; and (2) \$0 for the Software License Fee 2026 for the second, third, and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁶²

CAT LLC estimated the budget for capitalized developed technology costs for the CAT Fee 2026–1 Period based on an analysis of a variety of factors, including information related to potential technology costs and related contractual and Plan requirements, and discussions with FCAT regarding such potential technology costs. This process for estimating the budget for capitalized developed technology costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the capitalized developed technology costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for capitalized developed technology costs of \$671,472 for January and February 2026, and the actual costs for capitalized developed technology costs for January and February 2026 were \$4,145,430.⁶³ The variance of \$3,473,958 for January and February 2026 is the result of costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT. Accordingly, CAT LLC believes that the process for estimating the budgeted capitalized developed technology costs for the CAT Fee 2026–1 Period is reasonable.

⁶⁰ See CAIS Amendment and Cost Savings Amendment.

⁶¹ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁶² This calculation is $(\$3,450,000 + \$0 + \$0 + \$0) + (\$0 + \$0 + \$0) = \$3,450,000$. Note that the \$4,178,964 cost for the software license fee was not included in the CAT Fee 2026–1 Period.

⁶³ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for capitalized developed technology costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the capitalized developed technology costs from the Original 2026 Budget. Specifically, the following describes the differences in the costs for capitalized developed technology costs as included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budget for capitalized developed technology costs included in the Original 2026 CAT Budget was \$8,228,827, and the annual 2026 budget for capitalized developed technology costs included in the Updated 2026 CAT Budget are \$8,378,964.⁶⁴ Accordingly, the annual budget for capitalized developed technology costs increased by \$150,137 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 2% increase in the capitalized developed technology costs for the full year of 2026. This budgeted increase in the annual budget for capitalized developed technology costs was the result of costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT.

(vi) Legal Costs

(a) Description of Legal Costs

Section 11.3(a)(iii)(B)(B)(2) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the legal costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes \$5,670,452 in legal costs for the CAT Fee 2026–1 Period. This category of costs represents budgeted costs for legal services for this period. CAT LLC anticipates that it will receive legal services from two law firms, Wilmer Cutler Pickering Hale and Dorr LLP (“WilmerHale”) and Jenner & Block LLP (“Jenner”), during the CAT Fee 2026–1 Period.

Law Firm: WilmerHale. It is anticipated that legal costs during the CAT Fee 2026–1 Period will include costs related to the legal services performed by WilmerHale. CAT LLC anticipates that it will continue to

⁶⁴ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

employ WilmerHale during the CAT Fee 2026–1 Period based on, among other things, their expertise, long history with the project and recognition that the hourly fee rates for this law firm are anticipated to be in line with market rates for specialized legal expertise. WilmerHale’s billing rates are negotiated on an annual basis and are determined with reference to the rates charged by other leading law firms for similar work. The Participants assess WilmerHale’s performance and review prospective budgets and staffing plans submitted by WilmerHale on an annual basis. The legal fees will be paid by CAT LLC to WilmerHale.

During the CAT Fee 2026–1 Period, it is anticipated that WilmerHale will provide legal services related to the following:

- Assist with CAT fee filings and related funding issues;
- Draft exemptive requests from CAT NMS Plan requirements and/or proposed amendments to the CAT NMS Plan;
- Provide legal guidance with respect to interpretations of CAT NMS Plan requirements;
- Provide legal support for the Operating Committee, Compliance Subcommittee, working groups and Leadership Team;
- Draft SRO rule filings related to the CAT Compliance Rule;
- Manage corporate governance matters, including supporting Operating Committee meetings and preparing resolutions and consents;
- Assist with communications with the industry, including CAT Alerts and presentations;
- Provide guidance regarding the confidentiality of CAT Data;
- Assist with cost management analyses and proposals;
- Assist with commercial contract-related matters, including change orders and amendments, Plan Processor Agreement items, and subcontract matters;
- Provide support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues;
- Provide legal guidance with respect to the CAT budgets;
- Provide background assistance to other counsel for CAT matters;
- Assist with legal responses related to third-party data requests; and
- Provide legal support regarding CAT policies and procedures.

CAT LLC estimated the budget for the legal costs for WilmerHale for the CAT Fee 2026–1 Period through an analysis of a variety of factors, including WilmerHale fee rates, historical legal

fees, and information related to pending legal issues and potential future legal issues.

Law Firm: Jenner. It is anticipated that legal costs during the CAT Fee 2026–1 Period will include costs related to the legal services performed by Jenner. CAT LLC anticipates that it will continue to employ Jenner during the CAT Fee 2026–1 Period based on, among other things, their expertise, history with the project and recognition that their hourly fee rates are in line with market rates for specialized legal expertise. The legal fees will be paid by CAT LLC to Jenner.

During the CAT Fee 2026–1 Period, it is anticipated that Jenner will continue to provide legal assistance to CAT LLC regarding certain litigation matters, including: (1) CAT LLC's defense against a lawsuit filed in the Western District of Texas against the SEC Chair, the SEC and CAT LLC challenging the validity of Rule 613 and the CAT and alleging various constitutional, statutory, and common law claims;⁶⁵ (2) CAT LLC's intervention in a lawsuit in the Eleventh Circuit filed by various parties against the SEC challenging the SEC's approval of the CAT Funding Model;⁶⁶ and (3) a lawsuit in the Eleventh Circuit filed by Citadel Securities LLC seeking review of the SEC's May 20, 2024 order⁶⁷ granting the Participants temporary conditional exemptive relief related to the reporting of bids and/or offers made in response to a request for quote or other form of solicitation response provided in standard electronic format that is not immediately actionable.⁶⁸ Litigation involving CAT LLC is an expense of operating the CAT, and, therefore, is appropriately an obligation of both Participants and Industry Members under the CAT Funding Model. Jenner also will continue to provide legal counseling to CAT LLC related to the above-listed litigation and other litigation risk.

CAT LLC estimated the budget for the legal costs for Jenner for the CAT Fee 2026–1 Period through an analysis of a variety of factors, including Jenner's fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues.

Legal Cost Estimates. CAT LLC estimates that the budget for legal services during the CAT Fee 2026–1 Period will be approximately

\$5,670,452.⁶⁹ The budget for legal services during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding budgeted costs for two-thirds of the legal costs for the second quarter and the legal costs for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁷⁰

CAT LLC estimated the budget for the legal services for the CAT Fee 2026–1 Period based on an analysis of a variety of factors, including law firm fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues. This process for estimating the budget for the legal services for CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the legal cost for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for legal costs of \$1,424,166 for January and February of 2026. The actual costs for legal services for January and February 2026, which are included in the Updated 2026 Budget, were \$1,838,617.⁷¹ The increase of \$414,451 was due to unanticipated issues that required additional legal efforts on behalf of CAT LLC that developed after the budget was created. Such additional costs were primarily due to additional legal work related to litigation matters as well as regulatory and corporate legal matters. Accordingly, CAT LLC believes that the process for estimating the budgeted legal costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for legal costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the legal costs from the Original 2026 Budget. Specifically, the following describes the differences in the legal costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted legal costs included in the Original 2026 CAT Budget were \$8,485,000, and the annual 2026 budgeted legal costs included in the Updated 2026 CAT Budget are

\$8,939,184.⁷² Accordingly, the annual budget for legal costs increased by \$454,184 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 5% increase in the legal costs for the full year of 2026. This budgeted increase in the legal costs in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to an anticipated increase in legal costs related to litigation matters as well as regulatory and corporate legal matters.

(vii) Consulting Costs

(a) Description of Consulting Costs

Section 11.3(a)(iii)(B)(B)(3) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the consulting costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$1,025,957 in consulting costs for the CAT Fee 2026–1 Period. The consulting costs represent the fees estimated to be paid to the consulting firm Deloitte & Touche LLP ("Deloitte") as project manager during the CAT Fee 2026–1 Period. The services provided by Deloitte to the CAT include advisory services related to the operation of the CAT, and meeting facilitation and communications coordination, vendor support and financial analyses. In addition, the consulting costs include the compensation for the Chair of the CAT Operating Committee.

It is anticipated that the costs for CAT during the CAT Fee 2026–1 Period will include costs related to consulting services performed by Deloitte. CAT LLC anticipates that it will continue to employ Deloitte during the CAT Fee 2026–1 Period based on, among other things, their expertise, long history with the project, and the recognition that it is anticipated that the consulting fees will remain in line with market rates for this type of specialized consulting work. Deloitte's fee rates are negotiated on an annual basis. CAT LLC assesses Deloitte's performance and reviews prospective budgets and staffing plans submitted by Deloitte on an annual basis. The consulting fees will be paid by CAT LLC to Deloitte.

It is anticipated that Deloitte will provide a variety of consulting services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Implement program operations for the CAT project;
- Provide support to the Operating Committee, the Chair of the Operating

⁶⁵ *Davidson et al. v. Atkins et al.*, Case No. 6:24-cv-197 (W.D. Tex.).

⁶⁶ *Am. Sec. Ass'n v. SEC*, Case No. 26–10936 (11th Cir.).

⁶⁷ Securities Exchange Act Rel. No. 100181 (May 20, 2024), 89 FR 45715 (May 23, 2024).

⁶⁸ *Citadel Securities v. SEC*, Case No. 24–12300 (11th Cir.).

⁶⁹ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

⁷⁰ This calculation is $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

⁷¹ See chart entitled "Comparison of Budgeted and Actual Costs for January & February 2026" in Section 3(a)(2)(C) above.

⁷² See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;

- Assist with cost and funding matters for the CAT, including assistance with loans and the CAT bank account for CAT funding;
- Provide support for updating the SEC on the progress of the development of the CAT; and
- Provide support for third party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

In addition, the consulting costs include the compensation for the Chair of the CAT Operating Committee, which is paid by CAT LLC.

CAT LLC estimates that the budget for consulting costs during the CAT Fee 2026–1 Period will be approximately \$1,025,957.⁷³ The budget for consulting costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the consulting costs for the second quarter and the consulting costs for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁷⁴

CAT LLC estimates the budget for the consulting costs for Deloitte for the CAT Fee 2026–1 Period based on the current statement of work with Deloitte, which took into consideration past consulting costs, potential future consulting needs, the proposed rates and other contractual issues, and discussions with Deloitte, as well as the compensation arrangement for the Chair. This process for estimating the budget for consulting costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the consulting costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for consulting services of \$258,334 for January and February 2026, and the actual costs for consulting services for January and February 2026, which are included in the Updated 2026 CAT Budget, were \$267,554.⁷⁵ Therefore, the variance between budgeted and actual consulting costs for January and February was approximately 4%. Accordingly, CAT LLC believes that the process for estimating the budgeted

consulting costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for consulting costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the consulting costs from the Original 2026 Budget. Specifically, the following describes the differences (if any) in the consulting costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budget for consulting costs included in the Original 2026 CAT Budget was \$1,550,000, and the annual 2026 budget for consulting costs included in the Updated 2026 CAT Budget is \$1,550,000.⁷⁶ Accordingly, the annual budget for consulting costs has not changed from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026.

(viii) Insurance Costs

(a) Description of Insurance Costs

Section 11.3(a)(iii)(B)(B)(4) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the insurance costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$852,768 in insurance costs for the CAT Fee 2026–1 Period.⁷⁷ The insurance costs represent the costs to be incurred for insurance for the CAT during the CAT Fee 2026–1 Period.

It is anticipated that the insurance costs for CAT during the CAT Fee 2026–1 Period will include costs related to cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance brokered by USI Insurance Services LLC ("USI"). Such policies are standard for corporate entities, and cyber security liability insurance is important for the CAT System. CAT LLC anticipates that it will continue to maintain this insurance during the CAT Fee 2026–1 Period, and notes that the annual premiums for these policies were competitive for the coverage provided. CAT LLC estimated the budget for the insurance costs for

the CAT Fee 2026–1 Period based on the insurance estimate from USI for 2026. The annual premiums would be paid by CAT LLC to USI.

The budgeted insurance costs for the CAT Fee 2026–1 Period are based on an insurance cost estimate from USI for 2026. Accordingly, CAT LLC believes that the process for estimating the budgeted insurance costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for insurance costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the insurance costs from the Original 2026 Budget. Specifically, the following describes the differences in the insurance costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted insurance costs included in the Original 2026 CAT Budget were \$1,505,625, and the annual 2026 budgeted insurance costs included in the Updated 2026 CAT Budget are \$1,254,070.⁷⁸ Accordingly, the annual budget for insurance costs decreased by \$251,555 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 16% decrease in the insurance costs for the full year of 2026. This budgeted decrease in the insurance costs in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to an anticipated decrease in insurance premiums.

(ix) Professional and Administration Costs

(a) Description of Professional and Administration Costs

Section 11.3(a)(iii)(B)(B)(5) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the professional and administration costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$749,151 in professional and administration costs for the CAT Fee 2026–1 Period. In adopting the CAT NMS Plan, the Commission amended the Plan to add a requirement that CAT LLC's financial statements be prepared in compliance with GAAP, audited by an independent

⁷³ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

⁷⁴ This calculation is $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

⁷⁵ See chart entitled "Comparison of Budgeted and Actual Costs for January & February 2026" in Section 3(a)(2)(C) above.

⁷⁶ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

⁷⁷ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

⁷⁸ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

public accounting firm, and made publicly available.⁷⁹ The professional and administration costs would include costs related to accounting and accounting advisory services to support the operating and financial functions of CAT, financial statement audit services by an independent accounting firm, preparation of tax returns, and various cash management and treasury functions. The professional and administration costs represent the fees to be paid to Anchin, Block & Anchin (“Anchin”) and Grant Thornton LLP (“Grant Thornton”) for financial services during the CAT Fee 2026–1 Period.

Financial Advisory Firm: Anchin. It is anticipated that the professional and administration costs for the CAT Fee 2026–1 Period will include costs related to financial advisory services performed by Anchin. CAT LLC anticipates that it will continue to employ Anchin during the CAT Fee 2026–1 Period based on, among other things, the firm’s relevant expertise and fees, which are anticipated to remain in line with market rates for these financial advisory services. The fees for these services will be paid by CAT LLC to Anchin.

It is anticipated that Anchin will provide a variety of services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Update and maintain internal controls;
- Provide cash management and treasury functions;
- Facilitate bill payments to vendors;
- Facilitate repayments of promissory notes to Participants;
- Provide monthly bookkeeping;
- Review vendor invoices and documentation in support of cash disbursements;
- Review documentation to ensure that repayments of promissory notes to Participants are in accordance with established policies and procedures;
- Provide accounting research and consultations on various accounting, financial reporting and tax matters;
- Address not-for-profit tax and accounting considerations;
- Prepare tax returns;
- Address various accounting, financial reporting and operating inquiries from Participants;
- Develop and maintain annual and interim operating and financial budgets, including budget to actual and budget to budget fluctuation analyses;
- Support compliance with the CAT NMS Plan;
- Work with and provide support to the Operating Committee, Leadership Team and various CAT working groups;

- Prepare monthly, quarterly and annual financial statements;
- Review and reconcile the monthly FINRA CAT reports/analyses related to billings, collections, outstanding accounts receivable and cash account;
- Perform certain verification, completeness, and validation testing related to the monthly FINRA CAT reports/analyses related to billings;
- Support the annual financial statement audits by an independent auditor;
- Review historical costs from inception;
- Provide accounting and financial information in support of SEC filings; and
- Perform additional ad hoc accounting and financial advisory services, as requested by CAT LLC.

CAT LLC estimated the annual budget for the costs for Anchin based on historical costs adjusted for cost of living rate increases, and projected incremental advisory and support services.

Accounting Firm: Grant Thornton. It is anticipated that the professional and administration costs for the CAT Fee 2026–1 Period will include costs related to accounting services performed by Grant Thornton. CAT LLC anticipates that it will continue to employ Grant Thornton during the CAT Fee 2026–1 Period based on, among other things, the firm’s relevant expertise and fees, which are anticipated to remain in line with market rates for these financial advisory services. It is anticipated that Grant Thornton will continue to be engaged as an independent accounting firm to complete the audit of CAT LLC’s financial statements, in accordance with the requirements of the CAT NMS Plan. The fees for these services will be paid by CAT LLC to Grant Thornton. CAT LLC estimated the budget for the accounting costs for Grant Thornton for the CAT Fee 2026–1 Period based on the anticipated hourly rates and the anticipated services plus an administrative fee.

Professional and Administration Cost Estimates. CAT LLC estimates that the budget for professional and administration services during the CAT Fee 2026–1 Period will be approximately \$749,151.⁸⁰ The budget for professional and administration services during the CAT Fee 2026–1 Period is based on the Updated 2026 CAT Budget. CAT LLC estimated the budget for the professional and administration costs for the CAT Fee 2026–1 Period based on a review of past

professional and administration costs, potential future professional and administration needs, the proposed rates and other contractual issues, as well as discussions with Anchin and Grant Thornton. This process for estimating the budget for the professional and administration costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the professional and administration costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for professional and administration costs of \$190,916 for January and February 2026, and the actual costs for professional and administration services for January and February 2026, which are set forth in the Updated 2026 Budget, were \$149,061.⁸¹ The decrease of \$41,855 was due to a lower than expected professional and administration services costs and to the movement of bank fees from the professional and administration category to the interest income category. Accordingly, CAT LLC believes that the process for estimating the budgeted professional and administration costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for professional and administration costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the professional and administration costs from the Original 2026 Budget. Specifically, the following describes the differences in the professional and administration costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted professional and administration costs as included in the Original 2026 CAT Budget were \$1,145,500, and the annual 2026 budgeted professional and administration costs included in the Updated 2026 CAT Budget are \$1,085,500.⁸² Accordingly, the budgeted annual costs for professional and administration services decreased by \$60,000 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026. This budgeted decrease in the professional

⁸¹ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁸² See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁷⁹ Section 9.2 of the CAT NMS Plan.

⁸⁰ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

and administration costs in the Updated 2026 CAT Budget from the Original 2026 Budget was due to the movement of bank fees from the professional and administration category to the interest income category, and not a change in costs related to Anchin and Grant Thornton services.

(x) Public Relations Costs

(a) Description of Public Relations Costs

Section 11.3(a)(iii)(B)(B)(6) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the public relations costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$0 in public relations costs for the CAT Fee 2026–1 Period. The public relations costs would represent the fees paid to a public relations firm for professional communications services to CAT, including media relations consulting, strategy and execution. Because CAT LLC anticipates that it will not engage a public relations firm for the CAT Fee Period 2026–1, the budget for public relations costs for this period is \$0.⁸³

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for public relations costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the public relations costs from the Original 2026 Budget. Specifically, the following describes the differences (if any) in public relations costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual budgeted public relations costs for 2026 included in the Original 2026 CAT Budget were \$0, and the annual budgeted public relations costs for 2026 included in the Updated 2026 CAT Budget are \$0.⁸⁴ Accordingly, the annual budgeted public relations costs for 2026 are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(xi) Interest Income

(a) Description of Interest Income

Section 11.1(a) of the CAT NMS Plan requires the CAT budget to include “the

sources of all revenues to cover costs.” Accordingly, the Updated 2026 CAT Budget includes a line item for interest income. Specifically, the Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$1,453,382 in interest income for the CAT Fee 2026–1 Period.⁸⁵ Interest income represents the interest earned on the surplus reserve and other funds held by CAT LLC. Such income would be used to reduce the amount to be collected to fund the CAT.

CAT LLC estimates the budget for the interest income for the CAT Fee 2026–1 Period based on the estimate of the funds held by CAT LLC and the expected interest rates on such funds. The Original 2026 CAT Budget estimated interest income of \$758,343 for January and February 2026, and the actual interest income for January and February 2026, which are included in the Updated 2026 CAT Budget, were \$757,527.⁸⁶ As mentioned above, bank fees were moved from the professional and administration category in the Original 2026 CAT Budget to the interest income category in the Updated 2026 CAT Budget. Accordingly, the interest income amount for the Updated 2026 CAT Budget was net of \$10,000 in bank fees. Therefore, the variance between budgeted and actual interest income (aside from bank fees) for January and February 2026 was approximately \$10,000. Accordingly, CAT LLC believes that the process for estimating the budgeted interest income for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in each line item from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in interest income from the Original 2026 CAT Budget. Specifically, the following describes the differences in the interest income included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted interest income as included in the Original 2026 CAT Budget was \$1,995,958, and the annual 2026 budgeted interest income included in the Updated 2026 CAT

Budget is \$2,806,325.⁸⁷ Accordingly, the budgeted interest income (not including bank fees) increased by \$810,367 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 40% increase in the interest income for the full year of 2026. This budgeted increase in the interest income in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to higher than expected cash balances being maintained after the approval of the Original 2026 Budget.

(xii) Reserve

(a) Description of Reserve

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the reserve costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes a reserve amount for 2026. Section 11.1(a)(i) of the CAT NMS Plan states that the budget shall include a reserve. Section 11.1(a)(ii) of the CAT NMS Plan further describes the reserve as follows:

For the reserve referenced in paragraph (a)(i) of this Section, the budget will include an amount reasonably necessary to allow the Company to maintain a reserve of not more than 25% of the annual budget. To the extent collected CAT fees exceed CAT costs, including the reserve of 25% of the annual budget, such surplus shall be used to offset future fees. For the avoidance of doubt, the Company will only include an amount for the reserve in the annual budget if the Company does not have a sufficient reserve (which shall be up to but not more than 25% of the annual budget). For the avoidance of doubt, the calculation of the amount of the reserve would exclude the amount of the reserve from the budget.

CAT LLC determined to maintain a reserve in the amount of 25% of the total expenses set forth in the Updated 2026 CAT Budget (which does not include the reserve amount). Accordingly, the total 25% reserve of \$23,508,157 was calculated by multiplying the total expenses set forth in the Updated 2026 CAT Budget (other than the reserve) by 25%.⁸⁸

The Updated 2026 CAT Budget estimates that CAT LLC will have \$102,391,135 in reserve as of the

⁸³ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸⁴ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁵ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸⁶ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁸⁷ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁸ The reserve was calculated by multiplying \$94,032,626 by 25%, which equals approximately \$23,508,157.

beginning of the CAT Fee Period 2026–1. Such reserve is related, in part, to (i) the collection of CAT fees in excess of the budgeted CAT costs in light of the greater actual executed equivalent share volume than the projected executed equivalent share volume for prior CAT Fees, and (ii) a reduction in anticipated budgeted costs associated with the implementation of certain cost savings measures. This reserve balance of \$102,391,135 would be used to offset a portion of CAT costs for CAT Fee Period 2026–1, thereby reducing the fee rate to be paid for CAT Fee 2026–1.

Specifically, the total costs (including the 25% reserve) for CAT Fee 2026–1 of \$117,540,783 would be reduced by the \$102,391,135 in reserve. Therefore, the Total Budgeted CAT Costs 2026–1 would be \$15,149,648.

Accordingly, the fee rate for CAT Fee 2026–1 is calculated based on this reduced amount of \$15,149,648, resulting in a fee rate of \$0.000001 per executed equivalent share. If the fee rate for CAT Fee 2026–1 were calculated solely based on the reasonably budgeted costs for CAT for May–December 2026, excluding the reduction in that amount due to the surplus reserve offset, the fee rate would be the higher rate of \$0.000010.⁸⁹

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for a reserve from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in reserve from the Original 2026 CAT Budget. Specifically, the following describes the differences in the reserve included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The accrued liquidity reserve balance at the beginning of the year included in the Original 2026 CAT Budget was \$119,128,336. The Original 2026 CAT Budget contemplated using the reserve to pay CAT bills throughout the year as no CAT fee was in effect. The accrued liquidity reserve balance at the beginning of the year included in the Updated 2026 CAT Budget was \$155,403,378. The increase in the accrued liquidity reserve balance at the beginning of the year from the Original 2026 CAT Budget to the Updated 2026 CAT Budget reflected the additional CAT Fees that had been received after the approval of the Original 2026 CAT Budget. In addition, the Updated 2026

CAT Budget not only reflected the use of the surplus reserve to pay CAT bills but also the accrual of additional reserve to establish a 25% reserve through CAT Fee 2026–1. Accordingly, the estimated liquidity reserve balance increased from a deficit of \$37,304,661 included in the Original 2026 CAT Budget to a reserve balance of \$23,508,157 included in the Updated 2026 CAT Budget for the full year of 2026.

(D) Projected Total Executed Equivalent Share Volume

The calculation of Fee Rate 2026–1 also requires the determination of the projected total executed equivalent share volume of transactions in Eligible Securities for the CAT Fee 2026–1 Period. Under the CAT NMS Plan, the Operating Committee is required to “reasonably determine the projected total executed equivalent share volume of all transactions in Eligible Securities for each relevant period based on the executed equivalent share volume of all transactions in Eligible Securities for the prior twelve months.”⁹⁰ The Operating Committee is required to base its projection on the prior twelve months, but it may use its discretion to analyze the likely volume for the upcoming year. Such discretion would allow the Operating Committee to use its judgment when estimating projected total executed equivalent share volume if the volume over the prior twelve months was unusual or otherwise unfit to serve as the basis of a future volume estimate.⁹¹

The total executed equivalent share volume of transactions in Eligible Securities for the 12-month period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. The Operating Committee has determined to calculate the projected total executed equivalent share volume for the eight-month recovery period for CAT Fee 2026–1 by multiplying by 8/12ths the executed equivalent share volume for the 12-month period from March 2025 through February 2026. The Operating Committee determined that such an approach was reasonable as the CAT’s annual executed equivalent share volume has increased from prior years (*e.g.*, the executed equivalent share volume for 2024 was 4,295,884,600,069.41), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level. Accordingly, the projected total executed equivalent

share volume for the eight-month period for CAT Fee 2026–1 is projected to be 3,987,291,699,573.66 executed equivalent shares.⁹²

The projected total executed equivalent share volume of all transactions in Eligible Securities for the eight-month recovery period for CAT Fee 2026–1 and a description of the calculation of the projection is provided in this filing in accordance with the requirement in the CAT NMS Plan to provide such information in a fee filing for a CAT Fee.⁹³

(E) Fee Rate 2026–1

Fee Rate 2026–1 would be calculated by dividing the Budgeted CAT Costs 2026–1 by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the eight-month recovery period for CAT Fee 2026–1, as described in detail above.⁹⁴ Specifically, Fee Rate 2026–1 would be calculated by dividing \$15,149,648 by 3,987,291,699,573.66 executed equivalent shares. As a result, Fee Rate 2026–1 would be \$0.000003799483243631228 per executed equivalent share. Fee Rate 2026–1 is provided in this filing in accordance with the requirement in the CAT NMS Plan to provide the Fee Rate in a fee filing for a CAT Fee.⁹⁵

Fee Rate 2026–1 would be used to calculate the fee rate to be paid by CEBBs and CEBBs for CAT Fee 2026–1. Such fee rate is calculated by multiplying Fee Rate 2026–1 of \$0.000003799483243631228 by one-third, and rounding the result to six decimal places.⁹⁶ Accordingly, the fee rate to be paid by CEBBs and CEBBs for CAT Fee 2026–1 would be \$0.000001 per executed equivalent share.

(3) Monthly Fees

CEBBs and CEBBs would be required to pay fees for CAT Fee 2026–1 on a monthly basis for eight months, from July 2026 until January 2027. A CEBB’s

⁹² This projection was calculated by multiplying 5,980,937,549,360.49 executed equivalent shares by 8/12ths.

⁹³ Section 11.3(a)(iii)(B) of the CAT NMS Plan.

⁹⁴ In approving the CAT Funding Model, the Commission stated that “[t]he manner in which the Fee Rate for Prospective CAT Costs will be calculated (*i.e.*, by dividing the CAT costs reasonably budgeted for the upcoming year by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the year) is appropriate.” CAT Funding Model Approval Order at 13435.

⁹⁵ See Section 11.3(a)(iii)(B)(A) of the CAT NMS Plan.

⁹⁶ This fee rate of \$0.000001 is calculated by multiplying the Fee Rate of \$0.000003799483243631228 by one-third and rounding this result (which equals \$0.000001266494414543743) to 6 decimal places.

⁸⁹ See CAT Fee Alert 2026–1 (Apr. 1, 2026).

⁹⁰ Section 11.3(a)(i)(D) of the CAT NMS Plan.

⁹¹ CAT Funding Model Approval Order at 13452.

or CEBS's fee for each month would be calculated based on the transactions in Eligible Securities executed by the CEBB or CEBS from the prior month.⁹⁷ Proposed paragraph (a)(vi)(A) of the fee schedule would state that each CAT Executing Broker would receive its first invoice for CAT Fee 2026–1 in June 2026, and would receive an invoice for CAT Fee 2026–1 each month thereafter until January 2027. Proposed paragraph (a)(vi)(B) of the fee schedule would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis.” In addition, paragraph (b)(1) of the fee schedule states that each CEBB and CEBS is required to pay its CAT fees “each month.”

(4) Consolidated Audit Trail Funding Fees

To implement CAT Fee 2026–1, the Exchange proposes to add a new paragraph to the “Consolidated Audit Trail Funding Fees” section of the Exchange’s fee schedule, to include the proposed paragraphs described below.

(A) Fee Schedule for CAT Fee 2026–1

The CAT NMS Plan states that:

Each Industry Member that is the CAT Executing Broker for the buyer in a transaction in Eligible Securities (“CAT Executing Broker for the Buyer” or “CEBB”) and each Industry Member that is the CAT Executing Broker for the seller in a transaction in Eligible Securities (“CAT Executing Broker for the Seller” or “CEBS”) will be required to pay a CAT Fee for each such transaction in Eligible Securities in the prior month based on CAT Data. The CEBB’s CAT Fee or CEBS’s CAT Fee (as applicable) for each transaction in Eligible Securities will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Fee Rate reasonably determined pursuant to paragraph (a)(i) of this Section 11.3.⁹⁸

Accordingly, based on the factors discussed above, the Exchange proposes to add paragraph (a)(vi) to the Consolidated Audit Trail Funding Fees section of its fee schedule. Proposed paragraph (a)(vi) would state the following:

(A) Each CAT Executing Broker shall receive its first invoice for CAT Fee 2026–1 in June 2026, which shall set forth the CAT Fee 2026–1 fees calculated based on transactions in May 2026, and shall receive an invoice for

CAT Fee 2026–1 for each month thereafter until January 2027.

(B) Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis. Each month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (“CEBB”) and/or the CAT Executing Broker for the Seller (“CEBS”) (as applicable) from the prior month as set forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000001 per executed equivalent share.

(C) Notwithstanding the last invoice date of January 2027 for CAT Fee 2026–1 in paragraph (vi)(A), CAT Fee 2026–1 shall continue in effect after January 2027, with each CAT Executing Broker receiving an invoice for CAT Fee 2026–1 each month, until a new subsequent CAT Fee is in effect with regard to Industry Members in accordance with Section 19(b) of the Exchange Act. Consolidated Audit Trail, LLC will provide notice when CAT Fee 2026–1 will no longer be in effect.

(D) Each CAT Executing Broker shall be required to pay each invoice for CAT Fee 2026–1 in accordance with paragraph (b).

As noted in the Plan amendment for the CAT Funding Model, “[a]s a practical matter, the fee filing would provide the exact fee per executed equivalent share to be paid for the CAT Fees, by multiplying the Fee Rate by one-third and describing the relevant number of decimal places for the fee.”⁹⁹ Accordingly, proposed paragraph (a)(vi)(B) of the fee schedule would set forth a fee rate of \$0.000001 per executed equivalent share. This fee rate is calculated by multiplying Fee Rate 2026–1 of \$0.000003799483243631228 by one-third, and rounding the result to six decimal places.¹⁰⁰ The Operating Committee determined to use six decimal places to balance the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.

The proposed language in paragraph (a)(vi)(A) of the fee schedule would describe when CAT Executing Brokers would receive their first monthly

invoice for CAT Fee 2026–1.

Specifically, CAT Executing Brokers would receive their first monthly invoice for CAT Fee 2026–1 in June 2026 and the fees set forth in that invoice would be calculated based on transactions executed in May 2026. The payment for the first invoice would be required within 30 days after the receipt of the first invoice (unless a longer period is indicated), as described in paragraph (b)(2) of the fee schedule.

Proposed paragraph (a)(vi)(A) of the fee schedule also would describe the monthly cadence of the invoices for CAT Fee 2026–1. Specifically, after the first invoices are provided to CAT Executing Brokers in June 2026, invoices will be sent to CAT Executing Brokers each month thereafter until January 2027.

Proposed paragraph (a)(vi)(B) of the fee schedule would describe the invoices for CAT Fee 2026–1. Proposed paragraph (a)(vi)(B) of the fee schedule would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis.” Proposed paragraph (a)(vi)(B) of the fee schedule also would describe the fees to be set forth in the invoices for CAT Fee 2026–1. Specifically, it would state that “[e]ach month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (“CEBB”) and/or the CAT Executing Broker for the Seller (“CEBS”) (as applicable) from the prior month as set forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000001 per executed equivalent share.”

Since CAT Fee 2026–1 is a monthly fee based on actual transaction volume from the prior month, CAT Fee 2026–1 may collect more or less than two-thirds of the Budgeted CAT Costs 2026–1. To the extent that CAT Fee 2026–1 collects more than two-thirds of the Budgeted CAT Costs 2026–1, any excess money collected will be used to offset future fees and/or to fund the reserve for the CAT. To the extent that CAT Fee 2026–1 collects less than two-thirds of the Budgeted CAT Costs 2026–1, the budget for the CAT in the ensuing months will reflect such shortfall.

Furthermore, proposed paragraph (a)(vi)(C) of the fee schedule would describe how long CAT Fee 2026–1 would remain in effect. It would state that “[n]otwithstanding the last invoice date of January 2027 for CAT Fee 2026–1 in paragraph (vi)(A), CAT Fee 2026–

⁹⁹ CAT Funding Model Approval Order at 13445, n.677.

¹⁰⁰ This fee rate of \$0.000001 is calculated by multiplying the Fee Rate of \$0.000003799483243631228 by one-third, and rounding this result (which equals \$0.000001266494414543743) to 6 decimal places.

⁹⁷ See proposed paragraph (a)(vi)(B) of the fee schedule.

⁹⁸ Section 11.3(a)(iii)(A) of the CAT NMS Plan.

1 shall continue in effect after January 2027, with each CAT Executing Broker receiving an invoice for CAT Fee 2026–1 each month, until a new subsequent CAT Fee is in effect with regard to Industry Members in accordance with Section 19(b) of the Exchange Act. Consolidated Audit Trail, LLC will provide notice when CAT Fee 2026–1 will no longer be in effect.”

Finally, proposed paragraph (a)(vi)(D) of the fee schedule would set forth the requirement for the CAT Executing Brokers to pay the invoices for CAT Fee 2026–1. It would state that “[e]ach CAT Executing Broker shall be required to pay each invoice for CAT Fee 2026–1 in accordance with paragraph (b).”

(B) Manner of Payment

Paragraph (b)(1) of the “Consolidated Audit Trail Funding Fees” section of the fee schedule describes the manner of payment of Industry Member CAT fees. It states that “[e]ach CAT Executing Broker shall pay its CAT fees as required pursuant to paragraph (a) each month to the Consolidated Audit Trail, LLC in the manner prescribed by the Consolidated Audit Trail, LLC.” The CAT NMS Plan requires the Operating Committee to establish a system for the collection of CAT fees.¹⁰¹ The Plan Processor has established a billing system for CAT fees.¹⁰² Accordingly, CAT Executing Brokers would be required to pay CAT Fee 2026–1 in accordance with such system.

(C) Failure To Pay CAT Fees

The CAT NMS Plan further states that:

Participants shall require each Industry Member to pay all applicable fees authorized under this Article XI within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If an Industry Member fails to pay any such fee when due (as determined in accordance with the preceding sentence), such Industry Member shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of: (a) the Prime Rate plus 300 basis points; or (b) the maximum rate permitted by applicable law.¹⁰³

Paragraph (b)(2) of the fee schedule states that:

Each CAT Executing Broker shall pay the CAT fees required pursuant to paragraph (a) within thirty days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If a CAT Executing Broker fails to pay any such CAT fee when due, such CAT Executing Broker shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of (i) the Prime Rate plus 300 basis points, or (ii) the maximum rate permitted by applicable law.

The requirements of paragraph (b)(2) would apply to CAT Fee 2026–1.

(5) CAT Fee Details

The CAT NMS Plan states that:

Details regarding the calculation of a Participant or CAT Executing Broker's CAT Fees will be provided upon request to such Participant or CAT Executing Broker. At a minimum, such details would include each Participant or CAT Executing Broker's executed equivalent share volume and corresponding fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.¹⁰⁴

Such information would provide CEBBs and CEBSS with the ability to understand the details regarding the calculation of their CAT Fee.¹⁰⁵ CAT LLC will provide CAT Executing Brokers with these details regarding the calculation of their CAT Fees on their monthly invoice for the CAT Fees.

In addition, CAT LLC will make certain aggregate statistics regarding CAT Fees publicly available. Specifically, the CAT NMS Plan states that, “[f]or each CAT Fee, at a minimum, CAT LLC will make publicly available the aggregate executed equivalent share volume and corresponding aggregate fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side

transactions.”¹⁰⁶ Such aggregate statistics will be available on the CAT website.

Furthermore, CAT LLC will make publicly available on the CAT website the total amount invoiced each month that CAT Fee 2026–1 is in effect as well as the total amount invoiced for CAT Fee 2026–1 for all months since its commencement. CAT LLC also will make publicly available on the CAT website the total costs to be collected from Industry Members for CAT Fee 2026–1.

(6) Financial Accountability Milestones

The CAT NMS Plan states that “[n]o Participant will make a filing with the SEC pursuant to Section 19(b) of the Exchange Act regarding any CAT Fee related to Prospective CAT Costs until the Financial Accountability Milestone related to Period 4 described in Section 11.6 has been satisfied.”¹⁰⁷ Under Section 1.1 of the CAT NMS Plan, a Financial Accountability Milestone is considered complete as of the date identified in the Participants' Quarterly Progress Reports. As indicated by the Participants' Quarterly Progress Report for the second and third quarter of 2024,¹⁰⁸ the Financial Accountability Milestone related to Period 4 was satisfied on July 15, 2024. In addition, the satisfaction of the Financial Accountability Milestone related to Period 4 was described in detail in the fee filing for the first Prospective CAT Fee, CAT Fee 2024–1.¹⁰⁹

(7) Participant Invoices

While CAT Fees charged to Industry Members become effective in accordance with the requirements of Section 19(b) of the Exchange Act,¹¹⁰ CAT fees charged to Participants are implemented via an approval of the CAT fees by the Operating Committee in accordance with the requirements of the

¹⁰⁶ Section 11.3(a)(iv)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission stated that “[t]he publication of the aggregate executed equivalent share volume and aggregate fee is appropriate because it would allow Participants and CAT Executing Brokers a high-level validation of executed volume and fees.” CAT Funding Model Approval Order at 13454.

¹⁰⁹ See Securities Exchange Act Rel. No. 100827 (August 27, 2024), 89 FR 71472 (September 3, 2024) (SR-MIAX-2024-33) (Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Establish Fees for Industry Members Related to Reasonably Budgeted Costs of the National Market System Plan Governing the Consolidated Audit Trail for the Period From July 16, 2024 Through December 31, 2024).

¹¹⁰ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹⁰¹ Section 11.4 of the CAT NMS Plan.

¹⁰² The billing process and system are described in CAT Alert 2023–02 as well as in the CAT FAQs related to the billing of CAT fees, the Industry Member CAT Reporter Portal User Guide, the FCAT Industry Member Onboarding Guide, the FCAT Connectivity Supplement for Industry Members and the CAT Billing Webinars (dated Sept. 28, 2023 and Nov. 7, 2023), each available on the CAT website.

¹⁰³ Section 11.4 of the CAT NMS Plan.

¹⁰⁴ Section 11.3(a)(iv)(A) of the CAT NMS Plan.

¹⁰⁵ In approving the CAT Funding Model, the Commission stated that, “[i]n the Commission's view, providing CAT Execut[ing] Brokers information regarding the calculation of their CAT Fees will aid in transparency and permit CAT Execut[ing] Brokers to confirm the accuracy of their invoices for CAT Fees.” CAT Funding Model Approval Order at 13454.

CAT NMS Plan.¹¹¹ On March 31, 2026, the Operating Committee approved the Participant fee related to CAT Fee 2026–1. Specifically, pursuant to the requirements of CAT NMS Plan,¹¹² each Participant would be required to pay a CAT fee calculated using the fee rate of \$0.000001 per executed equivalent share, which is the same fee rate that applies to CEBBs and CEBSSs. Like CEBBs and CEBSSs, each Participant would be invoiced such CAT fees on a monthly basis for eight months, from June 2026 until January 2027, and each Participant’s fee for each month would be calculated based on the transactions in Eligible Securities executed on the applicable exchange (for the Participant exchanges) or otherwise than on an exchange (for FINRA) in the prior month. Accordingly, each Participant will receive its first invoice in June 2026, and would receive an invoice each month thereafter until January 2027. Like with the CAT Fee 2026–1 applicable to CEBBs and CEBSSs as described in proposed paragraph (a)(vi)(C) of the fee schedule, notwithstanding the last invoice date of January 2027, Participants will continue to receive invoices for this fee each month until a new subsequent CAT Fee is in effect with regard to Industry Members. Furthermore, Section 11.4 of the CAT NMS Plan states that each Participant is required to pay such invoices as required by Section 3.7(b) of the CAT NMS Plan. Section 3.7(b) states, in part, that

[e]ach Participant shall pay all fees or other amounts required to be paid under this Agreement within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated) (the “Payment Date”). The Participant shall pay interest on the outstanding balance from the Payment Date until such fee or amount is paid at a per annum rate equal to the lesser of: (i) Prime Rate plus 300 basis points; or (ii) the maximum rate permitted by applicable law.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the requirements of the Exchange Act. The Exchange believes that the proposed rule change is consistent with Section 6(b)(5) of the Act,¹¹³ which requires, among other things, that the Exchange’s rules must be designed to prevent fraudulent and manipulative acts and

practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest, and not designed to permit unfair discrimination between customers, issuers, brokers and dealers. The Exchange also believes that the proposed rule change is consistent with the provisions of Section 6(b)(4) of the Act,¹¹⁴ because it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers. The Exchange further believes that the proposed rule change is consistent with Section 6(b)(8) of the Act, which requires that the Exchange’s rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. These provisions also require that the Exchange be “so organized and [have] the capacity to be able to carry out the purposes” of the Act and “to comply, and . . . to enforce compliance by its members and persons associated with its members,” with the provisions of the Exchange Act.¹¹⁵ Accordingly, a reasonable reading of the Act indicates that it intended that regulatory funding be sufficient to permit an exchange to fulfill its statutory responsibility under the Act, and contemplated that such funding would be achieved through equitable assessments on the members, issuers, and other users of an exchange’s facilities.

The Exchange believes that this proposal is consistent with the Act because it implements provisions of the Plan and is designed to assist the Exchange in meeting regulatory obligations pursuant to the Plan. In approving the Plan, the SEC noted that the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹¹⁶ To the extent that this proposal implements the Plan and applies specific requirements to Industry Members, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Act.

The Exchange believes that the proposed fees to be paid by the CEBBs

and CEBSSs are reasonable, equitably allocated and not unfairly discriminatory. First, the CAT Fee 2026–1 fees to be collected are directly associated with the budgeted costs of establishing and maintaining the CAT, where such costs include Plan Processor costs and costs related to technology, legal, consulting, insurance, and professional and administration costs.

The proposed CAT Fee 2026–1 fees would be charged to Industry Members in support of the maintenance of a consolidated audit trail for regulatory purposes. The proposed fees, therefore, are consistent with the Commission’s view that regulatory fees be used for regulatory purposes and not to support the Exchange’s business operations. The proposed fees would not cover Exchange services unrelated to the CAT. In addition, any surplus would be used as a reserve to offset future fees. Given the direct relationship between CAT fees and CAT costs, the Exchange believes that the proposed fees are reasonable, equitable and not unfairly discriminatory.

As further discussed below, the SEC approved the CAT Funding Model, finding it was reasonable and that it equitably allocates fees among Participants and Industry Members. The Exchange believes that the proposed fees adopted pursuant to the CAT Funding Model approved by the SEC are reasonable, equitably allocated and not unfairly discriminatory.

(1) Implementation of CAT Funding Model in CAT NMS Plan

Section 11.1(b) of the CAT NMS Plan states that “[t]he Participants shall file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves.” Per Section 11.1(b) of the CAT NMS Plan, the Exchange has filed this fee filing to implement the Industry Member CAT fees included in the CAT Funding Model. The Exchange believes that this proposal is consistent with the Exchange Act because it is consistent with, and implements, the CAT Funding Model in the CAT NMS Plan, and is designed to assist the Exchange and its Industry Members in meeting regulatory obligations pursuant to the CAT NMS Plan. In approving the CAT NMS Plan, the SEC noted that the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the

¹¹¹ CAT Funding Model Approval Order at 13448.

¹¹³ 15 U.S.C. 78f(b)(6).

¹¹⁴ 15 U.S.C. 78f(b)(4).

¹¹⁵ See 15 U.S.C. 78f(b)(1).

¹¹⁶ CAT NMS Plan Approval Order at 84697.

Act.”¹¹⁷ Similarly, in approving the CAT Funding Model, the SEC concluded that the CAT Funding Model met this standard.¹¹⁸ As this proposal implements the Plan and the CAT Funding Model described therein, and applies specific requirements to Industry Members in compliance with the Plan, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Exchange Act.

(2) Calculation of Fee Rate for CAT Fee 2026–1 Is Reasonable

The SEC has determined that the CAT Funding Model satisfies the requirements of the Exchange Act. Specifically, the SEC has concluded that the method for determining CAT Fees as set forth in Section 11.3 of the CAT NMS Plan, including the formula for calculating the Fee Rate, the identification of the parties responsible for payment and the transactions subject to the fee rate for CAT Fees, satisfies the Exchange Act.¹¹⁹ In each respect, as discussed above, CAT Fee 2026–1 is calculated, and would be applied, in accordance with the requirements applicable to CAT Fees as set forth in the CAT NMS Plan. Furthermore, as discussed below, the Exchange believes that each of the figures for the variables in the SEC-approved formula for calculating the fee rate for CAT Fee 2026–1 is reasonable and consistent with the Exchange Act. The calculation of Fee Rate 2026–1 for CAT Fee 2026–1 requires the figures for Budgeted CAT Costs 2026–1, the executed equivalent share volume for the prior twelve months, the determination of the CAT Fee 2026–1 Period, and the projection of the executed equivalent share volume for the CAT Fee 2026–1 Period. Each of these variables is reasonable and satisfies the Exchange Act, as discussed throughout this filing.

(A) Budgeted CAT Costs 2026–1

The formula for calculating a Fee Rate requires the amount of Budgeted CAT Costs to be recovered. Specifically, Section 11.3(a)(iii)(B) of the CAT NMS Plan requires a fee filing to provide: the budget for the upcoming year (or remainder of the year, as applicable), including a brief description of each line item in the budget, including (1) the technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees, and capitalized developed technology costs,

(2) legal, (3) consulting, (4) insurance, (5) professional and administration, and (6) public relations costs, a reserve and/or such other categories as reasonably determined by the Operating Committee to be included in the budget, and the reason for changes in each such line item from the prior CAT fee filing.

In accordance with this requirement, the Exchange has set forth the amount and type of Budgeted CAT Costs 2026–1 for each of these categories above.

Section 11.3(a)(iii)(B) of the CAT NMS Plan also requires that the fee filing provide “sufficient detail to demonstrate that the budget for the upcoming year, or part of year, as applicable, is reasonable and appropriate.” As discussed below, the Exchange believes that the budget for the CAT Fee 2026–1 Period is “reasonable and appropriate.” Each of the costs included in CAT Fee 2026–1 is reasonable and appropriate because the costs are consistent with standard industry practice, based on the need to comply with the requirements of the CAT NMS Plan, incurred subject to negotiations performed on an arm’s length basis, and/or is consistent with the needs of any legal entity, particularly one with no employees.

(i) Technology: Cloud Hosting Services

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover budgeted costs related to cloud hosting services as a part of CAT Fees.¹²⁰ CAT LLC determined that the budgeted costs related to cloud hosting services described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. As described above, the cloud hosting services costs reflect, among other things, the breadth of the CAT cloud activities, data volumes far in excess of the original volume estimates, the need for specialized cloud services given the volume and unique nature of the CAT, the processing time requirements of the Plan, and regular efforts to seek to minimize costs where permissible under the Plan. CAT LLC determined that use of cloud hosting services is necessary for implementation of the CAT, particularly given the substantial data volumes associated with the CAT, and that the fees for cloud hosting services negotiated by FCAT were reasonable, taking into consideration a variety of factors, including the expected volume of data and the breadth of services provided and market rates for similar

services.¹²¹ Indeed, the actual costs of the CAT are far in excess of the original estimated costs of the CAT due to various factors, including the higher volumes and greater complexity of the CAT than anticipated when Rule 613 was originally adopted.

To comply with the requirements of the Plan, the breadth of the cloud activities related to the CAT is substantial. The cloud services not only include the production environment for the CAT, but they also include two industry testing environments, support environments for quality assurance and stress testing and disaster recovery capabilities. Moreover, the cloud storage costs are driven by the requirements of the Plan, which requires the storage of multiple versions of the data, from the original submitted version of the data through various processing steps, to the final version of the data.

Data volume is a significant driver of costs for cloud hosting services. When the Commission adopted the CAT NMS Plan in 2016, it estimated that the CAT would need to receive 58 billion records per day¹²² and that annual operating costs for the CAT would range from \$36.5 million to \$55 million.¹²³ In contrast to the 2016 projections, the actual daily Q3 2025 data volumes averaged 792 billion events per day.

In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. Although CAT LLC has proactively sought to manage cloud hosting costs while complying with the Plan, including through requests to the Commission for exemptive relief and amendments to the CAT NMS Plan to reduce costs, stringent CAT NMS Plan requirements do not allow for any material flexibility in cloud architecture design choices, processing timelines (e.g., the use of non-peak processing windows), or lower-cost storage tiers. As a result, the required CAT processing timelines contribute to the cloud hosting costs of the CAT.

The costs for cloud hosting services also reflect the need for specialized cloud hosting services given the data volume and unique processing needs of the CAT. The data volume as well as the data processing needs of the CAT necessitate the use of cloud hosting services. The equipment, power and services required for an on-premises data model, the alternative to cloud

¹²⁰ Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan.

¹²¹ For a discussion of the amount and type of cloud hosting services fees, see Section 3(a)(2)(C)(i) above.

¹²² Section 1.3 of Appendix D of the CAT NMS Plan at n.262.

¹²³ CAT NMS Plan Approval Order at 84801.

hosting services, would be cost prohibitive. Moreover, as CAT was being developed, there were limited cloud hosting providers that could satisfy all the necessary CAT requirements, including the operational and security criteria. Over time, more providers offering cloud hosting services that would satisfy these criteria have entered the market. CAT LLC will continue to evaluate alternative cloud hosting services, recognizing that the time and cost to move to an alternative cloud provider would be substantial.

The reasonableness of the cloud hosting services costs is further supported by key cost discipline mechanisms for the CAT—a cost-based funding structure, cost transparency, cost management efforts (including regular efforts to lower compute and storage costs where permitted by the Plan) and oversight. Together, these mechanisms help ensure the ongoing reasonableness of the CAT's costs and the level of fees assessed to support those costs.¹²⁴

(ii) Technology: Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to operating fees as a part of CAT Fees.¹²⁵ CAT LLC determined that the budgeted costs related to operating fees described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1.

The operating fees would include the negotiated fees paid by CAT LLC to the Plan Processor to operate and maintain the system for order-related information and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the selection of FCAT as the Plan Processor was reasonable and appropriate given its expertise with securities regulatory reporting, after a process of considering other potential candidates.¹²⁶ CAT LLC also determined that the fixed price contract, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, was reasonable and appropriate, taking into consideration a variety of factors,

including the breadth of services provided and market rates for similar types of activity.¹²⁷ The services to be performed by FCAT for CAT Fee 2026–1 Period and the budgeted costs related to such services are described above.¹²⁸

The operating costs also include costs related to the receipt of market data. CAT LLC anticipates receiving certain market data from Algoseek during the CAT Fee 2026–1 Period. CAT LLC anticipates that Algoseek will provide data as set forth in the SIP Data requirements of the CAT NMS Plan and that the fees are reasonable and in line with market rates for market data received.¹²⁹

(iii) Technology: CAIS Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to CAIS operating fees as a part of CAT Fees.¹³⁰ CAT LLC determined that the budgeted costs related to CAIS operating fees described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. The CAIS operating fees would include the fees paid to the Plan Processor to operate and maintain the Reference Database and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the fees for FCAT's services related to the Reference Database, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors, including the services to be provided and market rates for similar types of activity, are reasonable and appropriate.¹³¹ The services to be performed by FCAT for the CAT Fee 2026–1 Period and the budgeted costs for such services are described above.¹³²

(iv) Technology: Change Request Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to change request fees as a part of CAT Fees.¹³³ CAT LLC determined that the budgeted costs related to change request

fees described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. It is common practice to utilize a change request process to address evolving needs in technology projects. This is particularly true for a project like CAT that is the first of its kind, both in substance and in scale. The substance and costs of each of the change requests are evaluated by the Operating Committee and approved in accordance with the requirements for Operating Committee meetings. In each case, CAT LLC forecasts that the change requests will be necessary to implement the CAT. As described above,¹³⁴ CAT LLC determined that it was reasonable not to include any change request fees in the Budgeted CAT Costs 2026–1.

(v) Capitalized Developed Technology Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to capitalized developed technology costs as a part of CAT Fees.¹³⁵ In general, capitalized developed technology costs would include costs related to, for example, certain development costs, costs related to certain modifications, upgrades and other changes to the CAT and license fees. The amount and type of budgeted capitalized developed technology costs for the CAT Fee 2026–1 Period, which relate to the software license fee and technology changes to be implemented by FCAT, are described in more detail above.¹³⁶

(vi) Legal

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to legal fees as a part of CAT Fees.¹³⁷ CAT LLC determined that the budgeted legal costs described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. Given the unique nature of the CAT, the number of parties involved with the CAT (including, for example, the SEC, Participants, Industry Members, and vendors) and the many regulatory, contractual and other issues associated with the CAT, the scope of the necessary legal services is substantial. CAT LLC determined that the scope of the proposed legal services is necessary to implement and maintain the CAT and that the legal rates reflect the specialized services necessary for such

¹²⁴ See Securities Exchange Act Rel. No. 97151 (Mar. 15, 2023), 88 FR 17086, 17117 (Mar. 21, 2023) (describing key cost discipline mechanisms for the CAT).

¹³⁶ See Section 3(a)(2)(C)(v) above.

¹³⁷ Section 11.3(a)(iii)(B)(B)(2) of the CAT NMS Plan.

a project. CAT LLC determined to hire and continue to use each law firm based on a variety of factors, including their relevant expertise and fees. In each case, CAT LLC determined that the fee rates were in line with market rates for specialized legal expertise. In addition, CAT LLC determined that the budgeted costs for the legal projects were appropriate given the breadth of the services provided. The services to be performed by each law firm for the CAT Fee 2026–1 Period and the budgeted costs related to such services are described above.¹³⁸

(vii) Consulting

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted consulting costs as a part of CAT Fees.¹³⁹ CAT LLC determined that the budgeted consulting costs described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. Because there are no CAT employees¹⁴⁰ and because of the significant number of issues associated with the CAT, the consultants are budgeted to provide assistance in the management of various CAT matters and the processes related to such matters.¹⁴¹ CAT LLC determined the budgeted consulting costs were appropriate, as the consulting services were to be provided at reasonable market rates that were comparable to the rates charged by other consulting firms for similar work. Moreover, the total budgeted costs for such consulting services were appropriate in light of the breadth of services provided by Deloitte. The services budgeted to be performed by Deloitte and the budgeted costs related to such services are described above.¹⁴²

(viii) Insurance

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted insurance costs as a part of CAT Fees.¹⁴³ CAT LLC determined that the budgeted insurance costs described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. CAT LLC determined that it is

common practice to have directors' and officers' liability insurance, and errors and omissions liability insurance. CAT LLC further determined that it was important to have cyber security insurance given the nature of the CAT, and such a decision is consistent with the CAT NMS Plan, which states that the cyber incident response plan may include "[i]nsurance against security breaches."¹⁴⁴ As discussed above,¹⁴⁵ CAT LLC determined that the budgeted insurance costs were appropriate given its prior experience with this market and an analysis of the alternative insurance offerings. Based on this analysis, CAT LLC determined that the selected insurance policies provided appropriate coverage at reasonable market rates.¹⁴⁶

(ix) Professional and Administration

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted professional and administration costs as a part of CAT Fees.¹⁴⁷ CAT LLC determined that the budgeted professional and administration costs described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. Because there are no CAT employees, all required accounting, financial, tax, cash management and treasury functions for CAT LLC have been outsourced at market rates. In addition, the required annual financial statement audit of CAT LLC is included in professional and administration costs, which costs are also at market rates. The services performed by Anchin and Grant Thornton and the costs related to such services are described above.¹⁴⁸

CAT LLC anticipates continuing to make use of Anchin, a financial advisory firm, to assist with financial matters for the CAT. CAT LLC determined that the budgeted costs for Anchin were appropriate, as the financial advisory services were to be provided at reasonable market rates that were comparable to the rates charged by other such firms for similar work. Moreover, the total budgeted costs for such financial advisory services were appropriate in light of the breadth of services provided by Anchin. The services budgeted to be performed by Anchin and the budgeted costs related to such services are described above.¹⁴⁹

CAT LLC anticipates continuing to make use of Grant Thornton, an independent accounting firm, to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. CAT LLC determined that the budgeted costs for Grant Thornton were appropriate, as the accounting services were to be provided at reasonable market rates that were comparable to the rates charged by other such firms for similar work. Moreover, the total budgeted costs for such accounting services were appropriate in light of the breadth of services provided by Grant Thornton. The services budgeted to be performed by Grant Thornton and the budgeted costs related to such services are described above.¹⁵⁰

(x) Public Relations Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted public relations costs as a part of CAT Fees.¹⁵¹ However, as described above,¹⁵² CAT LLC determined not to include any public relations costs in Budgeted CAT Costs 2026–1. CAT LLC determined that it was reasonable not to include any public relations costs in the Budgeted CAT Costs 2026–1.

(xi) Interest Income

Section 11.1(a) of the CAT NMS Plan requires the CAT budget to include "the sources of all revenues to cover costs." Accordingly, the Updated 2026 CAT Budget includes a line item for interest income. Specifically, the Updated 2026 CAT Budget includes \$1,453,382 in interest income for the CAT Fee 2026–1 Period.¹⁵³ CAT LLC determined that using interest income to reduce the amount to be collected via CAT Fees is reasonable and should be included as a part of the Budgeted CAT Costs 2026–1.

(xii) Reserve

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted reserve costs as a part of CAT Fees.¹⁵⁴ CAT LLC determined that the reserve in the amount of 25% of the Updated 2026 CAT Budget (other than the reserve) complies with the requirements of the CAT NMS Plan related to a reserve, is a reasonable amount, and, therefore,

¹³⁸ See Section 3(a)(2)(C)(vi) above.

¹³⁹ Section 11.3(a)(iii)(B)(3) of the CAT NMS Plan.

¹⁴⁰ As stated in the filing of the proposed CAT NMS Plan, "[i]t is the intent of the Participants that the Company have no employees." Securities Exchange Act Rel. No. 77724 (Apr. 27, 2016), 81 FR 30614, 30621 (May 17, 2016).

¹⁴¹ CAT LLC uses certain third parties to perform tasks that may be performed by administrators for other NMS Plans. See, e.g., CTA Plan and CQ Plan.

¹⁵⁰ *Id.*

¹⁵¹ Section 11.3(a)(iii)(B)(6) of the CAT NMS Plan.

¹⁵² See Section 3(a)(2)(C)(x) above.

¹⁵³ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

¹⁵⁴ Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan.

should be included as a part of the Updated 2026 CAT Budget.

In its approval order for the CAT Funding Model, the Commission stated that it would be appropriate for the annual operating budget for the CAT to “include a reserve of not more than 25% of the annual budget.”¹⁵⁵ In making this statement, the Commission noted the following:

Because the CAT is a critical regulatory tool/system, the CAT needs to have a stable funding source to build financial stability to support the Company as a going concern. Funding for the CAT, as noted in Section 11.1(b), is the responsibility of the Participants and the industry. Because CAT fees are charged based on the budget, which is based on anticipated volume, it is appropriate to have a reserve on hand to prevent a shortfall in the event there is an unexpectedly high volume in a given year. A reserve would help to assure that the CAT has sufficient resources to cover costs should there be unanticipated costs or costs that are higher than expected.¹⁵⁶

The SEC also recognized that a reserve would help address the difficulty in predicting certain variable CAT costs, like trading volume.¹⁵⁷ The SEC also recognized that CAT fees will be collected approximately three months after trading activity on which a CAT fee is based, or 25% of the year, and that the reserve would be available to address funding needs related to this three-month delay.¹⁵⁸ The inclusion of the proposed reserve in the Updated 2026 CAT Budget would provide each of these benefits to the CAT. The reserve is discussed further above.¹⁵⁹

As discussed further below,¹⁶⁰ however, a surplus reserve balance in excess of the budgeted 25% reserve has been collected as of the beginning of the year of 2026. Accordingly, the Updated 2026 CAT Budget indicates that this surplus would be used to offset a portion of CAT costs for the CAT Fee 2026–1 Period, thereby reducing the fee rate for CAT Fee 2026–1 (\$0.000001 per executed equivalent share). If the fee rate for CAT Fee 2026–1 were calculated solely based on the reasonably budgeted costs for CAT for May–December 2026, excluding the reduction in that amount due to the surplus reserve offset, the fee rate would be \$0.000010 per executed equivalent share.

(B) Reconciliation of Budget to the Collected Fees

The CAT NMS Plan also requires fee filings for Prospective CAT Fees to include “a discussion of how the budget is reconciled to the collected fees.”¹⁶¹ As discussed above,¹⁶² this reserve balance of \$102,391,135 collected via prior CAT Fees would be used to offset a portion of CAT costs for CAT Fee Period 2026–1, thereby reducing the fee rate to be paid for CAT Fee 2026–1. Specifically, the total costs (including the 25% reserve) for CAT Fee 2026–1 of \$117,540,783 would be reduced by the \$102,391,135 in reserve. Therefore, the Total Budgeted CAT Costs 2026–1 would be \$15,149,648. Such surplus reserve balance would be used to reduce the fee rate for CAT Fee 2026–1 (\$0.000001 per executed equivalent share).

(C) Total Executed Equivalent Share Volume for the Prior 12 Months

The total executed equivalent share volume of transactions in Eligible Securities for the period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. CAT LLC determined the total executed equivalent share volume for the prior twelve months by counting executed equivalent shares in the same manner as it counts executed equivalent shares for CAT billing purposes.¹⁶³

(D) Projected Executed Equivalent Share Volume for the CAT Fee 2026–1 Period

CAT LLC has determined that the projected total executed equivalent share volume for the eight months of the CAT Fee 2026–1 Period by multiplying by 8/12ths the executed equivalent share volume for the prior twelve months: 8/12 times 5,980,937,549,360.49 executed equivalent shares.¹⁶⁴ The Operating Committee determined that such an approach was reasonable as the CAT’s annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.41), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level.

(E) Actual Fee Rate for CAT Fee 2026–1

(i) Decimal Places

As noted in the approval order for the CAT Funding Model, as a practical matter, the fee filing for a CAT Fee would provide the exact fee per executed equivalent share to be paid for each CAT Fee, by multiplying the Fee Rate by one-third and describing the relevant number of decimal places for the fee rate.¹⁶⁵ Accordingly, proposed paragraph (a)(vi)(B) of the fee schedule would set forth a fee rate of \$0.000001 per executed equivalent share. This fee rate is calculated by multiplying Fee Rate 2026–1 by one-third and rounding the result to six decimal places. CAT LLC determined that the use of six decimal places is reasonable as it balances the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.¹⁶⁶

(ii) Reasonable Fee Level

The Exchange believes that charging CAT Fee 2026–1 with a fee rate of \$0.000001 per executed equivalent share is reasonable because it provides for a revenue stream for the Company that is aligned with the Budgeted CAT Costs 2026–1. Moreover, the Exchange believes that the level of the fee rate is reasonable, as it is less than CAT Fee 2025–2 and is comparable to other transaction-based fees, including fees assessed pursuant to Section 31.¹⁶⁷ As a result, the magnitude of CAT Fee 2026–1 is small, and therefore will mitigate any potential adverse economic effects or inefficiencies.¹⁶⁸

(3) CAT Fee 2026–1 Provides for an Equitable Allocation of Fees

CAT Fee 2026–1 provides for an equitable allocation of fees, as it equitably allocates CAT costs between and among the Participants and Industry Members. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfied the requirements of the Exchange Act, including the formula for calculating CAT Fees as well as the Industry Members to be charged the CAT Fees.¹⁶⁹ In approving the CAT Funding Model, the SEC stated that “[t]he Participants have sufficiently

¹⁶⁷ For example, as the SEC noted in the CAT Funding Model Approval Order, recent Section 31 fees ranged from \$0.00007 per share to \$0.00072 per share. CAT Funding Model Approval Order at 13469.

¹⁶⁸ *Id.*

¹⁶⁹ See Section 11.3(a) of the CAT NMS Plan.

demonstrated that the proposed allocation of fees is appropriate and meets the Rule 608(b) approval standard.”¹⁷⁰ Accordingly, the CAT Funding Model sets forth the requirements for allocating fees related to Budgeted CAT Costs among Participants and Industry Members, and the fee filings for CAT Fees must comply with those requirements.

CAT Fee 2026–1 provides for an equitable allocation of fees as it complies with the requirements regarding the calculation of CAT Fees as set forth in the CAT NMS Plan. For example, as described above, the calculation of CAT Fee 2026–1 complies with the formula set forth in Section 11.3(a) of the CAT NMS Plan. In addition, CAT Fee 2026–1 would be charged to CEBBs and CEBBs in accordance with Section 11.3(a) of the CAT NMS Plan. Furthermore, the Participants would be charged for their designated share of the Budgeted CAT Costs 2026–1 through a fee implemented via the CAT NMS Plan, which would have the same fee rate as CAT Fee 2026–1.

In addition, as discussed above, each of the inputs into the calculation of CAT Fee 2026–1—the Budgeted CAT Costs 2026–1, the count for the executed equivalent share volume for the prior 12 months, and the projected executed equivalent share volume for the CAT Fee 2026–1 Period—is reasonable. Moreover, these inputs lead to a reasonable fee rate for CAT Fee 2026–1 that is lower than other fee rates for transaction-based fees. A reasonable fee rate allocated in accordance with the requirements of the CAT Funding Model provides for an equitable allocation of fees.

(4) CAT Fee 2026–1 Is Not Unfairly Discriminatory

CAT Fee 2026–1 is not an unfairly discriminatory fee. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfies the requirements of the Exchange Act. In reaching this conclusion, the SEC analyzed the potential effect of CAT Fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. CAT Fee

2026–1 complies with the requirements regarding the calculation of CAT Fees as set forth in the CAT NMS Plan. In addition, as discussed above, each of the inputs into the calculation of CAT Fee 2026–1 and the resulting fee rate for CAT Fee 2026–1 is reasonable. Therefore, CAT Fee 2026–1 does not impose an unfairly discriminatory fee on Industry Members.

The Exchange believes the proposed fees established pursuant to the CAT Funding Model promote just and equitable principles of trade, and, in general, protect investors and the public interest, and are provided in a transparent manner and with specificity in the fee schedule. The Exchange also believes that the proposed fees are reasonable because they would provide ease of calculation, ease of billing and other administrative functions, and predictability of a fee based on fixed rate per executed equivalent share. Such factors are crucial to estimating a reliable revenue stream for CAT LLC and for permitting Exchange members to reasonably predict their payment obligations for budgeting purposes.

B. Self-Regulatory Organization's Statement on Burden on Competition

Section 6(b)(8) of the Act¹⁷¹ requires that the Exchange's rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that CAT Fee 2026–1 implements provisions of the CAT NMS Plan that were approved by the Commission and is designed to assist the Exchange in meeting its regulatory obligations pursuant to the Plan.

In addition, all Participants (including exchanges and FINRA) are proposing to introduce CAT Fee 2026–1 on behalf of CAT LLC to implement the requirements of the CAT NMS Plan. Therefore, this is not a competitive fee filing, and, therefore, it does not raise competition issues between and among the Participants.

Furthermore, in approving the CAT Funding Model, the SEC analyzed the potential competitive impact of the CAT Funding Model, including competitive issues related to market services, trading services and regulatory services, efficiency concerns, and capital formation.¹⁷² The SEC also analyzed the

potential effect of CAT fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. Based on this analysis, the SEC approved the CAT Funding Model as compliant with the Exchange Act. CAT Fee 2026–1 is calculated and implemented in accordance with the CAT Funding Model as approved by the SEC.

As discussed above, each of the inputs into the calculation of CAT Fee 2026–1 is reasonable and the resulting fee rate for CAT Fee 2026–1 calculated in accordance with the CAT Funding Model is reasonable. Therefore, CAT Fee 2026–1 would not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act,¹⁷³ and Rule 19b–4(f)(2)¹⁷⁴ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

¹⁷¹ 15 U.S.C. 78f(b)(8).

¹⁷² CAT Funding Model Approval Order at 13457–81.

¹⁷³ 15 U.S.C. 78s(b)(3)(A)(ii).

¹⁷⁴ 17 CFR 240.19b–4(f)(2).

¹⁷⁰ CAT Funding Model Approval Order at 13412.

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-MIAX-2026-17 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to file number SR-MIAX-2026-17. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-MIAX-2026-17 and should be submitted on or before June 2, 2026.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁷⁵

Stephanie J. Fouse,
Assistant Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-105396; File No. SR-IEX-2026-11]

Self-Regulatory Organizations; Investors Exchange LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Establish Fees for Industry Members Related to Reasonably Budgeted Costs of the National Market System Plan Governing the Consolidated Audit Trail for the Period From May 1, 2026 Through December 31, 2026

May 7, 2026.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934

(“Act”),² and Rule 19b-4 thereunder,³ notice is hereby given that, on April 23, 2026, the Investors Exchange LLC (“IEX” or the “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Pursuant to the provisions of Section 19(b)(1) of the Act,⁴ the Exchange is filing with the Commission a proposed rule change to establish fees for Industry Members⁵ related to reasonably budgeted CAT costs of the National Market System Plan Governing the Consolidated Audit Trail (the “CAT NMS Plan” or “Plan”) for the period from May 1, 2026 through December 31, 2026. These fees would be payable to Consolidated Audit Trail, LLC (“CAT LLC” or the “Company”) and referred to as CAT Fee 2026-1, and would be described in a section of the Exchange's fee schedule entitled “Consolidated Audit Trail Funding Fees.” The fee rate for CAT Fee 2026-1 would be \$0.000001 per executed equivalent share. CAT Executing Brokers will receive their first monthly invoice for CAT Fee 2026-1 in June 2026 calculated based on their transactions as CAT Executing Brokers for the Buyer (“CEBB”) and/or CAT Executing Brokers for the Seller (“CEBS”) in May 2026. As described further below, CAT Fee 2026-1 is anticipated to be in place for eight months and is anticipated to recover approximately two-thirds of the costs set forth in the reasonably budgeted CAT costs for 2026.

The text of the proposed rule change is available at the Exchange's website at <https://www.iexexchange.io/resources/regulation/rule-filings> and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

On July 11, 2012, the Commission adopted Rule 613 of Regulation NMS, which required the self-regulatory organizations (“SROs”) to submit a national market system (“NMS”) plan to create, implement and maintain a consolidated audit trail that would capture customer and order event information for orders in NMS securities across all markets, from the time of order inception through routing, cancellation, modification or execution.⁶ On November 15, 2016, the Commission approved the CAT NMS Plan.⁷ Under the CAT NMS Plan, the Operating Committee has the discretion to establish funding for CAT LLC to operate the CAT, including establishing fees for Industry Members to be assessed by CAT LLC that would be implemented on behalf of CAT LLC by the Participants.⁸ The Operating Committee adopted a revised funding model to fund the CAT (“CAT Funding Model”). On March 16, 2026, the Commission approved the CAT Funding Model after concluding that the model satisfied the requirements of Section 11A of the Exchange Act and Rule 608 thereunder.⁹

The CAT Funding Model provides a framework for the recovery of the costs to create, develop and maintain the CAT, including providing a method for

⁴ 15 U.S.C. 78s(b)(1).

⁵ An “Industry Member” is defined as “a member of a national securities exchange or a member of a national securities association.” See IEX Rule 11.610(u); see also Section 1.1 of the CAT NMS Plan. Unless otherwise specified, capitalized terms used in this rule filing are defined as set forth in the CAT NMS Plan and/or the CAT Compliance Rule. See IEX Rule 11.610.

allocating costs to fund the CAT among Participants and Industry Members. The CAT Funding Model establishes two categories of fees: (1) CAT fees assessed by CAT LLC and payable by certain Industry Members to recover a portion of historical CAT costs previously paid by the Participants (“Historical CAT Assessment” fees); and (2) CAT fees assessed by CAT LLC and payable by Participants and Industry Members to fund prospective CAT costs (“CAT Fees”).¹⁰

Under the CAT Funding Model, Participants, CEBBs and CEBSs are subject to fees designed to cover the ongoing budgeted costs of the CAT, as determined by the Operating Committee. “The Operating Committee will establish fees (‘CAT Fees’) to be payable by Participants and Industry Members with regard to CAT costs not previously paid by the Participants (‘Prospective CAT Costs’).”¹¹ In establishing a CAT Fee, the Operating Committee will calculate a “Fee Rate” for the relevant period. Then, for each month in which a CAT Fee is in effect, each CEBB and CEBS would be required to pay the fee for each transaction in Eligible Securities executed by the CEBB or CEBS from the prior month as set forth in CAT Data, where the fee for each transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Fee Rate.

The CAT Fees to be paid by CEBBs and CEBSs are designed to contribute toward the recovery of two-thirds of the budgeted CAT costs for the relevant period.¹² The CAT Funding Model is designed to require that the Participants contribute to the recovery of the remaining one-third of the budgeted

CAT costs.¹³ Participants would be subject to the same Fee Rate as CEBBs and CEBSs.¹⁴ While CAT Fees charged to Industry Members become effective in accordance with the requirements of Section 19(b) of the Exchange Act,¹⁵ CAT fees charged to Participants are implemented via an approval of the CAT fees by the Operating Committee in accordance with the requirements of the CAT NMS Plan.¹⁶ Accordingly, this filing does not address Participant CAT fees as they are described in the CAT NMS Plan.¹⁷

CAT LLC proposes to charge CEBBs and CEBSs (as described in more detail below) CAT Fee 2026–1 to recover the reasonably budgeted CAT costs for the period from May 1, 2026 through December 31, 2026 in accordance with the CAT Funding Model. To implement this fee on behalf of CAT LLC, the CAT NMS Plan requires the Participants to “file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves, and such fees shall be labeled as ‘Consolidated Audit Trail Funding Fees.’”¹⁸ The Plan further states that “[o]nce the Operating Committee has approved such Fee Rate, the Participants shall be required to file with the SEC pursuant to Section 19(b) of the Exchange Act CAT Fees to be charged to Industry Members calculated using such Fee Rate.”¹⁹ Accordingly, the purpose of this filing is to implement a CAT Fee on behalf of CAT LLC for Industry Members, referred to as CAT Fee 2026–1, in accordance with the CAT NMS Plan.

(1) CAT Executing Brokers

CAT Fee 2026–1 will be charged to each CEBB and CEBS for each applicable transaction in Eligible Securities.²⁰ The CAT NMS Plan defines a “CAT Executing Broker” to mean:

¹³ Section 11.3(a)(ii)(A) of the CAT NMS Plan.

¹⁴ Section 11.3(a)(ii) of the CAT NMS Plan.

¹⁵ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹⁶ CAT Funding Model Approval Order at 13448.

¹⁷ See Section 11.3(a)(ii) and Appendix B of the CAT NMS Plan.

¹⁸ Section 11.1(b) of the CAT NMS Plan.

¹⁹ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

²⁰ In its approval of the CAT Funding Model, the Commission determined that charging CAT fees to CAT Executing Brokers was appropriate. In

(a) with respect to a transaction in an Eligible Security that is executed on an exchange, the Industry Member identified as the Industry Member responsible for the order on the buy-side of the transaction and the Industry Member responsible for the sell-side of the transaction in the equity order trade event and option trade event in the CAT Data submitted to the CAT by the relevant exchange pursuant to the Participant Technical Specifications; and (b) with respect to a transaction in an Eligible Security that is executed otherwise than on an exchange and required to be reported to an equity trade reporting facility of a registered national securities association, the Industry Member identified as the executing broker and the Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event in the CAT Data submitted to the CAT by FINRA pursuant to the Participant Technical Specifications; provided, however, in those circumstances where there is a non-Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event or no contra-side executing broker is identified in the TRF/ORF/ADF transaction data event, then the Industry Member identified as the executing broker in the TRF/ORF/ADF transaction data event would be treated as CAT Executing Broker for the Buyer and for the Seller.²¹

The following fields of the Participant Technical Specifications indicate the CAT Executing Brokers for the transactions executed on an exchange:

reaching this conclusion, the Commission noted that the use of CAT Executing Brokers is appropriate because the CAT Funding Model is based upon the calculation of *executed* equivalent shares, and, therefore, charging CAT Executing Brokers would reflect their executing role in each transaction. Furthermore, the Commission noted that, because CAT Executing Brokers are already identified in transaction reports from the exchanges and FINRA’s equity trade reporting facilities recorded in CAT Data, charging CAT Executing Brokers could streamline the billing process. CAT Funding Model Approval Order at 13413.

²¹ Section 1.1 of the CAT NMS Plan. In its approval order for the CAT Funding Model, the Commission “recognize[d] that Industry Members may pass-through CAT fees for customer executed volume.” See CAT Funding Model Approval Order at 13424.

¹⁰ Under the CAT Funding Model, the Operating Committee may establish CAT Fees related to CAT costs going forward. Section 11.3(a) of the CAT NMS Plan. This filing only establishes CAT Fee 2026–1 related to reasonably budgeted CAT costs for the period from May 1, 2026 through December 31, 2026 as described herein; it does not address any other potential CAT Fees related to CAT costs. Any such other CAT Fee will be subject to a separate fee filing. In addition, under the CAT Funding Model, the Operating Committee may establish one or more Historical CAT Assessments. Section 11.3(b) of the CAT NMS Plan. This filing does not address any Historical CAT Assessments.

¹¹ Section 11.3(a) of the CAT NMS Plan.

¹² Section 11.3(a)(iii)(A) of the CAT NMS Plan.

EQUITY ORDER TRADE (EOT)²²

No.	Field name	Data type	Description	Include key

26	reportingExecutingMpid	Member Alias	MPID of the executing party	R
28	contraExecutingMpid	Member Alias	MPID of the contra-side executing party ..	C

(2) Calculation of Fee Rate 2026–1

The Operating Committee determined the Fee Rate to be used in calculating CAT Fee 2026–1 (“Fee Rate 2026–1”) by dividing the reasonably budgeted CAT costs (“Budgeted CAT Costs 2026–1”) for the period from May 1, 2026 through December 31, 2026 (“CAT Fee 2026–1 Period”) by the reasonably projected total executed share volume of all transactions in Eligible Securities for the eight-month recovery period, as discussed in detail below.²⁵ Based on this calculation, the Operating Committee has determined that Fee Rate 2026–1 would be \$0.000003799483243631228 per executed equivalent share. This rate is then divided by three and rounded to determine the fee rate of \$0.000001 per executed equivalent share that will be assessed to CEBBs and CEBSSs, as also discussed in detail below.

(A) CAT Fee 2026–1 Period

CAT LLC proposes to implement CAT Fee 2026–1. CAT LLC proposes to commence CAT Fee 2026–1 during the year, rather than at the beginning of the year. Accordingly, CAT Fee 2026–1 “would be calculated as described in paragraph (II)” of Section 11.3(a)(i)(A) of the CAT NMS Plan,²⁶ which states that “[d]uring each year, the Operating Committee will calculate a new Fee Rate by dividing the reasonably budgeted CAT costs for the remainder of the year by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the remainder of the year.”²⁷ For CAT Fee 2026–1, the reasonably budgeted CAT costs for “the remainder of the year” are the reasonably budgeted CAT costs from May 1, 2026 through December 31, 2026 as set forth in the updated annual budget for 2026 for CAT LLC approved by the Operating Committee on March

31, 2026 (“Updated 2026 CAT Budget”).²⁸

(B) Executed Equivalent Shares for Transactions in Eligible Securities

Under the CAT NMS Plan, for purposes of calculating CAT Fees, executed equivalent shares in a transaction in Eligible Securities will be reasonably counted as follows: (1) each executed share for a transaction in NMS Stocks will be counted as one executed equivalent share; (2) each executed contract for a transaction in Listed Options will be counted based on the multiplier applicable to the specific Listed Options (*i.e.*, 100 executed equivalent shares or such other applicable multiplier); and (3) each executed share for a transaction in OTC Equity Securities will be counted as 0.01 executed equivalent share.²⁹

²² See Table 23, Section 4.7 (Order Trade Event) of the CAT Reporting Technical Specifications for Plan Participants, Version 4.2.0-r2 (Feb. 24, 2026), https://www.catnmsplan.com/sites/default/files/2026-02/02.24.2026-CAT_Reporting_Technical_Specifications_for_Participants_4.2.0-r2.pdf (“CAT Reporting Technical Specifications for Plan Participants”).

²³ See Table 52, Section 5.2.5.1 (Simple Option Trade Event) of the CAT Reporting Technical Specifications for Plan Participants.

²⁴ See Table 62, Section 6.1 (TRF/ORF/ADF Transaction Data Event) of the CAT Reporting Technical Specifications for Plan Participants.

²⁵ Section 11.3(a)(i) of the CAT NMS Plan.

²⁶ Section 11.3(a)(i)(A)(IV) of the CAT NMS Plan.

²⁷ Section 11.3(a)(i)(A)(II) of the CAT NMS Plan.

²⁸ The Updated 2026 CAT Budget is available on the CAT website (<https://www.catnmsplan.com/sites/default/files/2026-04/03.31.26-CAT-2026-Budget.pdf>).

²⁹ Section 11.3(a)(i)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission concluded that “the use of executed equivalent share volume provides an appropriate basis for the calculation of CAT fees.” CAT Funding Model Approval Order at 13413.

(C) Budgeted CAT Costs 2026–1

The CAT NMS Plan states that “[t]he budgeted CAT costs for the year shall be comprised of all reasonable fees, costs and expenses reasonably budgeted to be incurred by or for the Company in connection with the development, implementation and operation of the CAT as set forth in the annual operating budget approved by the Operating Committee pursuant to Section 11.1(a) of the CAT NMS Plan, or as adjusted during the year by the Operating Committee.”³⁰ Section 11.1(a) of the CAT NMS Plan describes the requirement for the

Operating Committee to approve an operating budget for CAT LLC on an annual basis. It requires the budget to “include the projected costs of the Company, including the costs of developing and operating the CAT for the upcoming year, and the sources of all revenues to cover such costs, as well as the funding of any reserve that the Operating Committee reasonably deems appropriate for the prudent operation of the Company.” Section 11.1(a)(i) of the CAT NMS Plan further states that: [w]ithout limiting the foregoing, the reasonably budgeted CAT costs shall include technology (including cloud hosting services, operating fees, CAIS operating fees, change request fees and capitalized developed technology costs), legal, consulting, insurance,

professional and administration, and public relations costs, a reserve and such other cost categories as reasonably determined by the Operating Committee to be included in the budget.

In accordance with the requirements under the CAT NMS Plan, the Operating Committee approved an annual budget for 2026 for CAT LLC (“Original 2026 CAT Budget”) on December 11, 2025.³¹ On March 31, 2026, the Operating Committee approved an updated budget for 2026, referred to as the Updated 2026 CAT Budget. The Updated 2026 CAT Budget includes actual costs for each category for January and February 2026, with updated estimated costs for the remainder of the year. The updated costs for May through December as included in the Updated 2026 CAT Budget (*i.e.*, Budgeted CAT Costs 2026–1) are the costs used in calculating CAT Fee 2026–1.³² The 2026 CAT budgets, both the Original 2026 CAT Budget and the Updated 2026 CAT Budget, were prepared on the accrual basis of accounting.³³

As described in detail below, the Budgeted CAT Costs 2026–1 would be \$15,149,648. CEBBs collectively will be responsible for one-third of the Budgeted CAT Costs 2026–1 (which is \$5,049,882.67), and CEBBs collectively will be responsible for one-third of the Budgeted CAT Costs 2026–1 (which is \$5,049,882.67).

The following describes in detail the Budgeted CAT Costs 2026–1 for CAT Fee 2026–1. The following cost details are provided in accordance with the requirement in the CAT NMS Plan to provide in the fee filing the following: the budget for the upcoming year (or remainder of the year, as applicable), including a brief description of each line item in the budget, including (1) technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration, and (6) public relations costs, a reserve and/or such other categories as reasonably determined by the Operating Committee to be included in the budget, and the reason for changes in each such line item from the prior CAT fee filing.³⁴

Each of the costs described below is reasonable, appropriate and necessary for the creation, implementation and maintenance of CAT.

The following table breaks down the Budgeted CAT Costs 2026–1 into the categories set forth in Section 11.3(a)(iii)(B) of the CAT NMS Plan.³⁵ The Budgeted CAT Costs 2026–1 reflect the costs for May through December as included in the Updated 2026 CAT Budget. The Budgeted CAT Costs 2026–1 are the costs used in calculating CAT Fee 2026–1.

BUDGETED CAT COSTS 2026–1

Budget category	Budgeted CAT costs 2026–1 ^b (<i>i.e.</i> , costs for May–December 2026)
Capitalized Developed Technology Costs ^a	^c \$3,450,000
Technology Costs	83,737,680
Cloud Hosting Services	^d 49,866,667
Operating Fees	^e 19,691,953
CAIS Operating Fees	^f 14,179,060
Change Request Fees	^g 0
Legal	^h 5,670,452
Consulting	ⁱ 1,025,957
Insurance	^j 852,768
Professional and administration	^k 749,151
Public relations	^l 0
Interest Income	^m (1,453,382)
Total Costs	94,032,626
Reserve (25% of Total Costs)	23,508,157
Total Costs and Reserve	117,540,783

³⁰ Section 11.3(a)(i)(C) of the CAT NMS Plan.

³¹ The Original 2026 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-12/12.08.25-CAT-LLC-2026-Financial_and_Operating_Budget.pdf).

³² The version of the Updated 2026 CAT Budget set forth on the CAT website is presented on a quarterly basis, but is prepared based on more granular detail. The costs for May and June are estimated based on two-thirds of costs for Q2 where the budgeted monthly amounts are consistent. For

those cases in which the costs for a category vary from month to month in Q2, the specific budgeted amounts for May and June are noted.

³³ CAT budgets for periods prior to 2025 were prepared on the cash basis of accounting, as such budgets were primarily used to determine the dollar amount of promissory notes from the Participants that were required to fund the ongoing operations of the CAT. Commencing in 2025, with the contemplated recovery of costs from Industry Members and the Participants via CAT Fees, the Original 2025 CAT Budget was prepared on the

accrual basis of accounting to properly match projected revenues with estimated expenses incurred. A cash basis budget reflects expenditures when paid, while an accrual basis budget reflects expenditures when incurred. In moving from a cash basis budget to an accrual basis budget, there is no double counting of expenses.

³⁴ Section 11.3(a)(iii)(B) of the CAT NMS Plan.

³⁵ Note that costs and related cost calculations provided in this filing may reflect minor variations from the budgeted costs due to rounding.

BUDGETED CAT COSTS 2026–1—Continued

Budget category	Budgeted CAT costs 2026–1 ^b (i.e., costs for May–December 2026)
Use of Existing Reserve	ⁿ (102,391,135)
Total Budgeted CAT Costs 2026–1	15,149,648

^a The non-cash amortization of these capitalized developed technology costs to be incurred during the CAT Fee 2026–1 Period have been appropriately excluded from the above table.

^b Budgeted CAT Costs 2026–1 described in this table of costs were determined based on an analysis of a variety of factors, including historical costs/invoices, estimated costs from respective vendors/service providers, contractual terms with vendors/service providers, anticipated service levels and needs, and discussions with vendors and Participants.

^c This cost number for capitalized developed technology costs reflects (1) capitalized developed technology costs of \$3,450,000 for May, \$0 for June and \$0 for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget; and (2) \$0 for the Software License Fee 2026 for the second, third, and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: (\$3,450,000 + \$0 + \$0 + \$0) + (\$0 + \$0 + \$0) = \$3,450,000.

^d This cost number for cloud hosting services reflects two-thirds of the cloud hosting services costs for the second quarter and the cloud hosting services for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(2/3 \times \$18,700,000) + \$18,700,000 + \$18,700,000 = \$49,866,667$.

^e This cost number for operating fees reflects (1) two-thirds of the Non-CAIS fixed operating fees for the second quarter and the Non-CAIS fixed operating fees for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget and (2) two-thirds of the market data vendor fees for the second quarter and the market data vendor fees for the third and fourth quarter of 2026 as included in the Updated 2026 CAT Budget: $((2/3 \times \$7,191,853) + \$7,191,853 + \$7,191,853) + ((2/3 \times \$192,630) + \$192,630 + \$192,630) = \$19,691,953$.

^f This cost number for CAIS operating fees reflects two-thirds of the CAIS fixed operating fees for the second quarter and the CAIS fixed operating fees for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(2/3 \times \$5,317,147) + \$5,317,147 + \$5,317,147 = \$14,179,060$.

^g This \$0 cost number for change requests reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

^h This cost number for legal services reflects two-thirds of the legal costs for the second quarter and the legal costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(2/3 \times \$2,145,170) + \$2,145,170 + \$2,145,170 = \$5,670,452$.

ⁱ This cost number for consulting services reflects two-thirds of the consulting costs for the second quarter and the consulting costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(2/3 \times \$384,734) + \$384,734 + \$384,734 = \$1,025,957$.

^j This cost number for insurance reflects two-thirds of the insurance costs for the second quarter and the insurance costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(2/3 \times \$300,977) + \$321,042 + \$331,074 = \$852,768$.

^k This cost number for professional and administration services reflects two-thirds of the professional and administration costs for the second quarter and the professional and administration costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(2/3 \times \$280,932) + \$280,932 + \$280,932 = \$749,151$.

^l This \$0 cost number of change requests reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

^m This interest income reflects interest income (net of bank fees) of \$517,208 for May and June and interest income (net of bank fees) for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $\$517,208 + \$571,010 + \$365,164 = \$1,453,382$. Note that interest income for May and June 2026 of \$517,208 is slightly less than two-thirds of \$809,598 (which is \$539,732) for the second quarter as the amount of interest income varies from month to month.

ⁿ This amount for the use of the existing reserve is calculated by subtracting from the Accrued Liquidity Reserve Balance as of the Beginning of the Year in the Updated 2026 CAT Budget the 25% Incremental Liquidity Reserve Accrued during 2026 for the first quarter and for April of 2026 as included in the Updated 2026 CAT Budget: $\$155,403,378 - (\$41,800,153 + \$11,212,091) = \$102,391,135$. Note that the 25% Incremental Liquidity Reserved Accrued during 2026 for April 2026 of \$11,212,091 is slightly more than one-third of \$33,366,432 (which is \$11,122,144) for the second quarter as the amount of the 25% Incremental Liquidity Reserved Accrued during 2026 varies from month to month.

To the extent that CAT LLC enters into notes with Participants or others to pay costs incurred during the period in which CAT Fee 2026–1 is in effect, CAT LLC will use the proceeds from CAT Fee 2026–1 and the related Participant CAT fees to repay such notes.

The following table compares the annual budgeted CAT costs as set forth in the updated annual CAT budget for

2025 approved by the Operating Committee in May 2025 (“May Updated 2025 CAT Budget”),³⁷ the updated annual CAT budget for 2025 approved by the Operating Committee in November 2025 (“November Updated 2025 CAT Budget”),³⁸ the Original 2026 CAT Budget and the Updated 2026 CAT Budget, and is provided for

informational purposes. In each case, the costs provided reflect the costs for the entire year for each of the budgets; this differs from the above chart which focuses on budgeted costs for the period from May 1, 2026 through December 31, 2026, which, as noted, are the costs that are used in the calculation of the fee rate in this fee filing.

COMPARISON OF FULL YEAR BUDGETED COSTS

Budget Category	Full year of 2025 budgeted CAT costs from updated 2025 CAT budget (May 2025)	Full year of 2025 budgeted CAT costs from updated 2025 budget (Nov. 2025)	Full year of 2026 budgeted CAT costs from original 2026 CAT budget	Full year of 2026 budgeted CAT costs from updated 2026 CAT budget
Capitalized Developed Technology Costs ^a	\$4,871,962	\$5,163,991	\$8,228,827	\$8,378,964
Technology Costs	211,548,472	173,091,660	137,514,003	128,643,476

³⁶ With respect to certain costs that were “appropriately excluded,” such excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already been otherwise reflected in the filing, their inclusion would double count the capitalized

technology costs. In addition, amortization is a non-cash expense.

³⁷ The May Updated 2025 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-05/05.19.25-CAT-LLC-2025-Financial_and_Operating-Budget.pdf).

³⁸ The November Updated 2025 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-12/12.22.25_CAT-LLC-2025-Finacial_and_Operating-Budget.pdf).

COMPARISON OF FULL YEAR BUDGETED COSTS—Continued

Budget Category	Full year of 2025 budgeted CAT costs from updated 2025 CAT budget (May 2025)	Full year of 2025 budgeted CAT costs from updated 2025 budget (Nov. 2025)	Full year of 2026 budgeted CAT costs from original 2026 CAT budget	Full year of 2026 budgeted CAT costs from updated 2026 CAT budget
Cloud Hosting Services	159,230,937	122,084,811	81,900,006	77,529,362
Operating Fees ^b	30,817,686	29,932,001	34,345,413	29,845,524
CAIS Operating Fees	20,749,848	20,749,848	21,268,584	21,268,590
Change Request Fees	750,000	325,000	0	0
Legal	7,370,002	7,312,547	8,485,000	8,939,184
Consulting	1,749,998	1,750,000	1,550,000	1,550,000
Insurance	1,594,452	1,368,750	1,505,625	1,254,070
Professional and administration	1,193,090	1,392,679	1,145,500	1,085,500
Public relations	6,575	6,575	0	0
Interest Income	0	(2,510,223)	(1,995,958)	(2,806,325)
Total Annual CAT Costs^c	228,334,551	187,575,979	156,432,998	147,044,869

^a This cost number is calculated by adding together the Capitalized Developed Technology Costs and the Software License Fee for each budget.

^b This cost number is calculated by adding together the Operating fees, the Cyber Insurance Premium Adjustment (if any) and market data vendor fees (if any separate fees) for each budget.

^c This total cost number does not include an amount for a reserve.

In addition, the following table compares the budgeted costs for January and February 2026 that were used in drafting the Original 2026 CAT Budget with the actual costs for January and February 2026 that were used in

drafting the Updated 2026 CAT Budget. The Original 2026 CAT Budget includes budgeted costs for January and February 2026, whereas the Updated 2026 CAT Budget includes actual costs for January and February 2026. The variance from

the budgeted costs for January and February 2026 to the actual costs for January and February 2026 are used in this filing in supporting the reasonableness of the estimates for each category of costs.

COMPARISON OF BUDGETED AND ACTUAL COSTS FOR JANUARY & FEBRUARY 2026

Budget category	Budgeted costs for January & February 2026 (as used in drafting the original 2026 CAT budget)	Actual costs for January & February 2026 (as used in drafting the updated 2026 CAT budget)	Variance from budgeted costs for January & February 2026 to actual costs for January & February of 2026
Capitalized Developed Technology Costs ^a	\$671,472	\$4,145,430	Increase by \$3,473,958. ^b
Technology Costs	25,894,000	21,501,183	
Cloud Hosting Services	17,200,000	12,829,362	Decrease by 4,370,638. ^c
Operating Fees	5,149,236	5,127,057	Decrease by 22,179.
CAIS Operating Fees	3,544,764	3,544,764	No change.
Change Request Fees	0	0	No change.
Legal	1,424,166	1,838,617	Increase by 414,451. ^d
Consulting	258,334	267,554	Increase by 9,220.
Insurance	250,938	200,652	Decrease by 50,286.
Professional and administration	190,916	149,061	Decrease by 41,855.
Public relations	0	0	No change.
Interest Income	(758,343)	(757,527)	Decrease by 816.
Total	27,931,483	27,344,970	Decrease by 586,513.

^a This cost number for capitalized developed technology costs is calculated by adding together the capitalized developed technology costs and the software license fee for each budget.

^b The variance for capitalized developed technology costs is the result of costs related to the software license fee in accordance with the Plan Processor Agreement with FCAT.

^c This variance is attributable to lower than forecasted market volumes and the impact of lower processing costs due to shutting down certain functionalities.

^d The variance in legal costs is attributable to unanticipated issues that required additional legal efforts on behalf of CAT LLC that developed after the budget was created.

(i) Technology Costs—Cloud Hosting Services

(a) Description of Cloud Hosting Services Costs

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a

Prospective CAT Fee to provide a brief description of the cloud hosting services costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included 49,866,667 in technology

costs for cloud hosting services for the CAT Fee 2026–1 Period. The technology costs for cloud hosting services represent costs reasonably budgeted to be incurred for services provided by the cloud services provider for the CAT,

Amazon Web Services, Inc. (“AWS”) during the CAT Fee 2026–1 Period.

In the agreement between CAT LLC and the Plan Processor for the CAT (“Plan Processor Agreement”), FINRA CAT, LLC (“FCAT”), AWS was named as the subcontractor to provide cloud hosting services. Under the Plan Processor Agreement, CAT LLC is required to pay FCAT the fees incurred by the Plan Processor for cloud hosting services provided by AWS as FCAT’s subcontractor on a monthly basis for the cloud hosting services, and FCAT, in turn, pays such fees to AWS. The fees for cloud hosting services were negotiated by FCAT on an arm’s length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the expected volume of data, the breadth of services provided and market rates for similar services. Services provided by AWS include storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as well as various environments for CAT, such as development, performance testing, test, and production environments. FCAT utilizes such cloud hosting services for a broad array of services for the CAT, such as data ingestion, data management, and analytic tools for the CAT. AWS performs cloud hosting services for both the CAT transaction database as well as the Reference Database (previously referred to as the Customer and Account Information System, or “CAIS”).³⁹ It is anticipated that such cloud hosting services will continue during the CAT Fee 2026–1 Period.

The cost for AWS cloud services for the CAT is a function of the volume of CAT Data, largely as a result of the processing and storage of the CAT Data.⁴⁰ The greater the amount of CAT Data, the greater the cost of AWS

services to CAT LLC. During the CAT Fee 2026–1 Period, it is expected that AWS would provide cloud hosting services for volumes of CAT Data far in excess of the volume predictions set forth in the CAT NMS Plan. The CAT NMS Plan states, when all CAT Reporters are submitting their data to the CAT, it “must be sized to receive[,] process and load more than 58 billion records per day,”⁴¹ and that “[i]t is expected that the Central Repository will grow to more than 29 petabytes of raw, uncompressed data.”⁴² In contrast with those estimates, the Q3 2025 data volumes averaged 792 billion events per day. The highest peak data volume to date of 1.45 trillion events was recorded on April 7, 2025. The top five peak days were recorded in April 2025.

CAT LLC estimates that the budget for cloud hosting services costs during the CAT Fee 2026–1 Period will be approximately 49,866,667.⁴³ The budget for cloud hosting services costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the cloud hosting services costs for the second quarter and the cloud hosting services for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget.⁴⁴

CAT LLC estimated the budget for the cost for cloud hosting services for the CAT Fee 2026–1 Period based on an assumption of 35% annual year-over-year volume growth for the transaction database and an assumption of 5% annual year-over-year volume growth for the Reference Database. CAT LLC determined these growth assumptions in coordination with FCAT.⁴⁵

This process for estimating the budget for cloud hosting services costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the cloud hosting services costs for the Original 2026 CAT Budget.

The Original 2026 CAT Budget estimated a budget for cloud hosting services of \$17,200,000 for January and February 2026. The actual costs for cloud hosting services for January and February 2026, which are set forth in the Updated 2026 CAT Budget, were \$12,829,362. Therefore, the variance between budgeted and actual cloud hosting services costs for January and February 2026 was an approximate decrease of \$4,370,638 as a result of lower volumes and a change in functionality.⁴⁶ Accordingly, CAT LLC believes that the process for estimating the budgeted cloud hosting services costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for cloud hosting services costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the cloud hosting services costs from the Original 2026 Budget.⁴⁷ Specifically, the following describes the differences in the costs for cloud hosting services included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for cloud hosting services included in the Original 2026 CAT Budget were \$81,900,006, and the annual 2026 budgeted costs for cloud hosting services included in the Updated 2026 CAT Budget are \$77,529,362. Accordingly, budgeted annual costs for cloud hosting services decreased by \$4,370,644 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 5% reduction in cloud hosting services costs for the full year of 2026.⁴⁸ The budgeted decrease in costs for cloud hosting services reflects lower costs for January and February 2026 due to lower than forecasted market volumes in January and the impact of lower

³⁹ On January 13, 2026, the SEC approved an amendment to the CAT NMS Plan relating to the Customer and Account Information System (referred to as “CAIS”). Effective with this amendment, CAIS has been renamed as the “Reference Database.” Securities Exchange Act Rel. No. 104586 (Jan. 13, 2026), 91 FR 2164 (Jan. 16, 2026) (“CAIS Amendment”). The SEC subsequently approved another amendment to the CAT NMS Plan to implement various cost savings measures that made further changes to the Reference Database. Securities Exchange Act Rel. No. 105107 (Mar. 27, 2026), 91 FR 16284 (Mar. 27, 2026) (“Cost Savings Amendment”).

⁴⁰ In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. For further discussion of the effect of processing timelines on cloud hosting costs, see Section 3(b)(2)(A)(i) below.

⁴¹ Section 1.3 of Appendix D of the CAT NMS Plan, n.262.

⁴² Section 1.3 of Appendix D of the CAT NMS Plan.

⁴³ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁴⁴ This calculation is $(\frac{2}{3} \times 18,700,000) + 18,700,000 + 18,700,000 = 49,866,667$.

⁴⁵ Note that these growth rates are based on events processed and stored in the CAT. Executed transactions are a small subset of such events. As a result, the number of transactions in the CAT, and, hence, the number of executed equivalent shares, is not directly correlated with the number of events processed in the CAT or the costs of cloud hosting services for the CAT. Accordingly, the number of executed equivalent shares may stay relatively constant from year to year while the number of events processed and stored in the CAT may grow significantly.

⁴⁶ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁴⁷ The last Prospective CAT Fee, CAT Fee 2025–2, was implemented pursuant to the prior CAT funding model. Moreover, the final invoice for CAT Fee 2025–2 was sent in December 2025, and, therefore, there is a six-month gap between the final invoice for CAT Fee 2025–2 and the first invoice for CAT Fee 2026–1, which would be in June 2026. Accordingly, this filing describes the changes in the cloud hosting services costs from the Original 2026 Budget.

⁴⁸ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

processing costs due to shutting down certain functionalities.

(ii) Technology Costs—Operating Fees

(a) Description of Operating Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the operating fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$19,691,953 in technology costs for operating fees for the CAT Fee 2026–1 Period. Operating fees are those fees paid by CAT LLC to FCAT as the Plan Processor to operate and maintain the CAT and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management as required by the CAT NMS Plan. Operating fees also include market data provider costs, as discussed below.

Plan Processor: FCAT. Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT a negotiated monthly fixed price for the operation of the CAT. This fixed price contract was negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity. It is anticipated that FCAT will provide a variety of services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Provide the CAT-related functions and services as the Plan Processor as required by SEC Rule 613 and the CAT NMS Plan in connection with the operation and maintenance of the CAT;
- Address compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provide support to the Operating Committee, the Compliance Subcommittee and CAT working groups;
- Assist with interpretive efforts, exemptive requests and amendments regarding the CAT NMS Plan;
- Oversee the security of the CAT;
- Monitor the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provide support to subcontractors under the Plan Processor Agreement;

- Provide support in discussions with the Participants and the SEC and its staff;

- Operate the FINRA CAT Helpdesk;
- Facilitate communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administer the CAT website and all of its content;
- Maintain cyber security insurance related to the CAT;
- Assist with billing, collection and other CAT fee-related activity; and
- Provide technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

CAT LLC calculated the budget for the FCAT technology costs for operating fees for the CAT Fee 2026–1 Period based on the recurring monthly operating fees under the Plan Processor Agreement.

Market Data Provider: Algoseek. It is anticipated that the operating fees costs for the CAT Fee 2026–1 Period will include costs related to the receipt of certain market data for the CAT pursuant to an agreement between FCAT and Algoseek, LLC (“Algoseek”). CAT LLC determined that Algoseek would provide market data that included data elements set forth in Section 6.5(a)(ii) of the CAT NMS Plan, and that the fees were reasonable and in line with market rates for the market data received. All costs under the contract would be treated as a direct pass through cost to CAT LLC. CAT LLC estimated the budget for the costs for Algoseek for the CAT Fee 2026–1 Period based on the monthly rate set forth in the agreement between Algoseek and FCAT.

Operating Fee Estimates. CAT LLC estimates that the budget for operating fees during the CAT Fee 2026–1 Period will be approximately \$19,691,953.⁴⁹ The budget for operating fees during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding (1) two-thirds of the Non-CAIS fixed operating fees for the second quarter and the Non-CAIS fixed operating fees for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget and (2) two-thirds of the market data vendor fees for the second quarter and the market data vendor fees for the third and fourth

quarter of 2026 included in the Updated 2026 CAT Budget.⁵⁰

As discussed above, CAT LLC estimated the budget for the operating fees during the CAT Fee 2026–1 Period based on monthly rates set forth in the Plan Processor Agreement and the agreement with Algoseek. CAT LLC also recognized that the operating fees are generally consistent throughout the year. This process for estimating the budget for the operating fees for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the operating fees for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for operating fees of \$5,149,236 for January and February 2026, and the actual costs for operating fees for January and February 2026 were \$5,127,057. Therefore, the variance between budgeted and actual operating fees for this period was small—\$22,179.⁵¹ Accordingly, CAT LLC believes that the process for estimating the budgeted operating fees for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for operating fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the operating fees from the Original 2026 Budget. Specifically, the following describes the differences in the costs for operating fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for operating fees included in the Original 2026 CAT Budget were \$34,345,413, and the annual 2026 budgeted costs for operating fees included in the Updated 2026 CAT Budget are \$29,845,524. Accordingly, budgeted annual costs for operating fees decreased by \$4,499,889 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 13% reduction in operating fees for the full year of 2026.⁵² The budgeted decrease in costs for operating fees reflects the proposed amendments to the Plan Processor Agreement related to the recent cost

⁵⁰ This calculation is $((\frac{2}{3} \times \$7,191,853) + \$7,191,853 + \$7,191,853) + ((\frac{2}{3} \times \$192,630) + \$192,630 + \$192,630) = \$19,691,953$.

⁵¹ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁵² See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁴⁹ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

savings amendments to the CAT NMS Plan.⁵³

(iii) Technology Costs—CAIS Operating Fees

(a) Description of CAIS Operating Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the CAIS operating fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$14,179,060 in technology costs for CAIS operating fees for the CAT Fee 2026–1 Period. CAIS operating fees represent the fees paid to FCAT for services provided with regard to the operation and maintenance of the Reference Database (previously referred to as CAIS), and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (*e.g.*, management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. The CAT is required under the CAT NMS Plan to capture and store Reference Data in the Reference Database and to create a CAT-Customer-ID for each Customer.⁵⁴

During the CAT Fee 2026–1 Period, it is anticipated that FCAT will provide services related to the Reference Database. Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT for services related to the Reference Database provided by FCAT on a monthly basis. CAT LLC negotiated the fees for FCAT's services related to the Reference Database on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors, including the services to be provided and market rates for similar types of activity. During the CAT Fee 2026–1 Period, it is anticipated that FCAT will continue to provide services relating to the ongoing operation, maintenance and support of the Reference Database.

CAT LLC estimates that the budget for CAIS operating fees during the CAT Fee 2026–1 Period will be approximately \$14,179,060.⁵⁵ The budget for CAIS operating fees during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget.

Specifically, this estimate was calculated by adding two-thirds of the CAIS fixed operating fees for the second quarter and the CAIS fixed operating fees for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁵⁶

CAT LLC calculated the budget for FCAT's services related to the Reference Database for the CAT Fee 2026–1 Period based on the recurring monthly CAIS operating fees under the Plan Processor Agreement. This process for estimating the budget for the CAIS operating fees for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the CAIS operating fees for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget of \$3,544,764 for CAIS operating fees for January and February of 2026. The actual costs for CAIS operating fees for January and February of 2026, which are included in the Updated 2026 CAT Budget, were \$3,544,764. There was no variance between budgeted and actual CAIS operating fees for the first two months of 2026.⁵⁷ Accordingly, CAT LLC believes that the process for estimating the budgeted CAIS operating fees for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for CAIS operating fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the CAIS operating fees from the Original 2026 Budget. Specifically, the following describes the differences in the costs for CAIS operating fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

CAIS operating fees are based on a recurring monthly rate payable to FCAT and are unchanged from the Original 2026 CAT Budget to the Updated 2026 CAT Budget. The annual 2026 budgeted costs for CAIS operating fees included in the Original 2026 CAT Budget were \$21,268,584, and the annual 2026 budgeted costs for CAIS operating fees included in the Updated 2026 CAT Budget are \$21,268,590.⁵⁸ Accordingly, the budgeted annual costs for CAIS operating fees are the same for both the

Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(iv) Technology Costs—Change Request Fees

(a) Description of Change Request Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the change request fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$0 in technology costs for change request fees for the CAT Fee 2026–1 Period. The technology costs related to change request fees include costs related to certain modifications, upgrades or other changes to the CAT.

Change requests are standard practice and necessary to reflect operational changes, including changes related to new market developments, such as new market participants. In general, if CAT LLC determines that a modification, upgrade or other changes to the functionality or service is necessary and appropriate, CAT LLC will submit a request for such a change to the Plan Processor. The Plan Processor will then respond to the request with a proposal for implementing the change, including the cost (if any) of such a change. CAT LLC then determines whether to approve the proposed change.

The change request budget line is established to include expected costs to be incurred in which the nature of the costs (*i.e.*, capitalization versus expensing) have not yet been determined. Upon the incurrence of such costs, the final determination of capitalization versus expensing is determined and then such costs are reclassified from the change request line to the appropriate technology cost line item.

CAT LLC estimates that the budget for change requests during the CAT Fee 2026–1 Period will be approximately \$0.⁵⁹ The budget for change requests during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. This \$0 cost number for change request fees reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

CAT LLC estimated the budget for the potential change requests for the CAT Fee 2026–1 Period based on, among other things, a review of past change requests and potential future change request needs, as well as discussions with FCAT. This process for estimating the budget for the change requests for

⁵³ See CAIS Amendment and Cost Savings Amendment.

⁵⁴ See Section 9 of Appendix D of the CAT NMS Plan.

⁵⁵ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

⁵⁶ This calculation is $(\frac{2}{3} \times \$5,317,147) + \$5,317,147 = \$14,179,060$.

⁵⁷ See chart entitled "Comparison of Budgeted and Actual Costs for January & February 2026" in Section 3(a)(2)(C) above.

⁵⁸ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

⁵⁹ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the change requests cost for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a change request budget of \$0 for January and February of 2026. The actual costs for change requests for January and February of 2026, which are set forth in the Updated 2026 CAT Budget, were \$0. There was no variance between budgeted and actual change request costs for January and February of 2026.⁶⁰ Accordingly, CAT LLC believes that the process for estimating the budgeted change request costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for change request fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the change request fees from the Original 2026 Budget. Specifically, the following describes the differences (if any) in the costs for change request fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for change requests included in the Original 2026 CAT Budget were \$0, and the annual 2026 budgeted costs for change requests included in the Updated 2026 CAT Budget are \$0.⁶¹ Accordingly, budgeted annual costs for change requests are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(v) Technology Costs—Capitalized Developed Technology Costs

(a) Description of Capitalized Developed Technology Costs

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the capitalized developed technology costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes \$3,450,000 in technology costs for capitalized developed technology costs for the CAT Fee 2026–1 Period. This category of costs includes the budget for capitalizable application development costs incurred in the

development of the CAT. It is anticipated that such costs will include certain costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT, as well as costs related to a set of technology changes to be implemented by FCAT related to the cost savings amendments⁶² and the move to 23x5 trading.

CAT LLC estimates that the budget for capitalized developed technology costs during the CAT Fee 2026–1 Period will be approximately \$3,450,000.⁶³ The budget for capitalized developed technology costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding (1) capitalized developed technology costs of \$3,450,000 for May, \$0 for June and \$0 for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget; and (2) \$0 for the Software License Fee 2026 for the second, third, and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁶⁴

CAT LLC estimated the budget for capitalized developed technology costs for the CAT Fee 2026–1 Period based on an analysis of a variety of factors, including information related to potential technology costs and related contractual and Plan requirements, and discussions with FCAT regarding such potential technology costs. This process for estimating the budget for capitalized developed technology costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the capitalized developed technology costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for capitalized developed technology costs of \$671,472 for January and February 2026, and the actual costs for capitalized developed technology costs for January and February 2026 were \$4,145,430.⁶⁵ The variance of \$3,473,958 for January and February 2026 is the result of costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT. Accordingly, CAT LLC believes that the process for estimating the budgeted capitalized developed technology costs

for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for capitalized developed technology costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the capitalized developed technology costs from the Original 2026 Budget. Specifically, the following describes the differences in the costs for capitalized developed technology costs as included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budget for capitalized developed technology costs included in the Original 2026 CAT Budget was \$8,228,827, and the annual 2026 budget for capitalized developed technology costs included in the Updated 2026 CAT Budget are \$8,378,964.⁶⁶ Accordingly, the annual budget for capitalized developed technology costs increased by \$150,137 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 2% increase in the capitalized developed technology costs for the full year of 2026. This budgeted increase in the annual budget for capitalized developed technology costs was the result of costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT.

(vi) Legal Costs

(a) Description of Legal Costs

Section 11.3(a)(iii)(B)(B)(2) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the legal costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes \$5,670,452 in legal costs for the CAT Fee 2026–1 Period. This category of costs represents budgeted costs for legal services for this period. CAT LLC anticipates that it will receive legal services from two law firms, Wilmer Cutler Pickering Hale and Dorr LLP (“WilmerHale”) and Jenner & Block LLP (“Jenner”), during the CAT Fee 2026–1 Period.

Law Firm: WilmerHale. It is anticipated that legal costs during the CAT Fee 2026–1 Period will include costs related to the legal services

⁶⁰ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶¹ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁶² See CAIS Amendment and Cost Savings Amendment.

⁶³ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁶⁴ This calculation is $(\$3,450,000 + \$0 + \$0 + \$0) + (\$0 + \$0 + \$0) = \$3,450,000$. Note that the \$4,178,964 cost for the software license fee was not included in the CAT Fee 2026–1 Period.

⁶⁵ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶⁶ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

performed by WilmerHale. CAT LLC anticipates that it will continue to employ WilmerHale during the CAT Fee 2026–1 Period based on, among other things, their expertise, long history with the project and recognition that the hourly fee rates for this law firm are anticipated to be in line with market rates for specialized legal expertise. WilmerHale's billing rates are negotiated on an annual basis and are determined with reference to the rates charged by other leading law firms for similar work. The Participants assess WilmerHale's performance and review prospective budgets and staffing plans submitted by WilmerHale on an annual basis. The legal fees will be paid by CAT LLC to WilmerHale.

During the CAT Fee 2026–1 Period, it is anticipated that WilmerHale will provide legal services related to the following:

- Assist with CAT fee filings and related funding issues;
- Draft exemptive requests from CAT NMS Plan requirements and/or proposed amendments to the CAT NMS Plan;
- Provide legal guidance with respect to interpretations of CAT NMS Plan requirements;
- Provide legal support for the Operating Committee, Compliance Subcommittee, working groups and Leadership Team;
- Draft SRO rule filings related to the CAT Compliance Rule;
- Manage corporate governance matters, including supporting Operating Committee meetings and preparing resolutions and consents;
- Assist with communications with the industry, including CAT Alerts and presentations;
- Provide guidance regarding the confidentiality of CAT Data;
- Assist with cost management analyses and proposals;
- Assist with commercial contract-related matters, including change orders and amendments, Plan Processor Agreement items, and subcontract matters;
- Provide support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues;
- Provide legal guidance with respect to the CAT budgets;
- Provide background assistance to other counsel for CAT matters;
- Assist with legal responses related to third-party data requests; and
- Provide legal support regarding CAT policies and procedures.

CAT LLC estimated the budget for the legal costs for WilmerHale for the CAT Fee 2026–1 Period through an analysis

of a variety of factors, including WilmerHale fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues.

Law Firm: Jenner. It is anticipated that legal costs during the CAT Fee 2026–1 Period will include costs related to the legal services performed by Jenner. CAT LLC anticipates that it will continue to employ Jenner during the CAT Fee 2026–1 Period based on, among other things, their expertise, history with the project and recognition that their hourly fee rates are in line with market rates for specialized legal expertise. The legal fees will be paid by CAT LLC to Jenner.

During the CAT Fee 2026–1 Period, it is anticipated that Jenner will continue to provide legal assistance to CAT LLC regarding certain litigation matters, including: (1) CAT LLC's defense against a lawsuit filed in the Western District of Texas against the SEC Chair, the SEC and CAT LLC challenging the validity of Rule 613 and the CAT and alleging various constitutional, statutory, and common law claims;⁶⁷ (2) CAT LLC's intervention in a lawsuit in the Eleventh Circuit filed by various parties against the SEC challenging the SEC's approval of the CAT Funding Model;⁶⁸ and (3) a lawsuit in the Eleventh Circuit filed by Citadel Securities LLC seeking review of the SEC's May 20, 2024 order⁶⁹ granting the Participants temporary conditional exemptive relief related to the reporting of bids and/or offers made in response to a request for quote or other form of solicitation response provided in standard electronic format that is not immediately actionable.⁷⁰ Litigation involving CAT LLC is an expense of operating the CAT, and, therefore, is appropriately an obligation of both Participants and Industry Members under the CAT Funding Model. Jenner also will continue to provide legal counseling to CAT LLC related to the above-listed litigation and other litigation risk.

CAT LLC estimated the budget for the legal costs for Jenner for the CAT Fee 2026–1 Period through an analysis of a variety of factors, including Jenner's fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues.

Legal Cost Estimates. CAT LLC estimates that the budget for legal

services during the CAT Fee 2026–1 Period will be approximately \$5,670,452.⁷¹ The budget for legal services during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding budgeted costs for two-thirds of the legal costs for the second quarter and the legal costs for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁷²

CAT LLC estimated the budget for the legal services for the CAT Fee 2026–1 Period based on an analysis of a variety of factors, including law firm fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues. This process for estimating the budget for the legal services for CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the legal cost for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for legal costs of \$1,424,166 for January and February of 2026. The actual costs for legal services for January and February 2026, which are included in the Updated 2026 Budget, were \$1,838,617.⁷³ The increase of \$414,451 was due to unanticipated issues that required additional legal efforts on behalf of CAT LLC that developed after the budget was created. Such additional costs were primarily due to additional legal work related to litigation matters as well as regulatory and corporate legal matters. Accordingly, CAT LLC believes that the process for estimating the budgeted legal costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for legal costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the legal costs from the Original 2026 Budget. Specifically, the following describes the differences in the legal costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted legal costs included in the Original 2026 CAT Budget were \$8,485,000, and the annual 2026 budgeted legal costs included in

⁶⁷ *Davidson et al. v. Atkins et al.*, Case No. 6:24-cv-197 (W.D. Tex.).

⁶⁸ *Am. Sec. Ass'n v. SEC*, Case No. 26–10936 (11th Cir.).

⁶⁹ Securities Exchange Act Rel. No. 100181 (May 20, 2024), 89 FR 45715 (May 23, 2024).

⁷⁰ *Citadel Securities v. SEC*, Case No. 24–12300 (11th Cir.).

⁷¹ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

⁷² This calculation is $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

⁷³ See chart entitled "Comparison of Budgeted and Actual Costs for January & February 2026" in Section 3(a)(2)(C) above.

the Updated 2026 CAT Budget are \$8,939,184.⁷⁴ Accordingly, the annual budget for legal costs increased by \$454,184 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 5% increase in the legal costs for the full year of 2026. This budgeted increase in the legal costs in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to an anticipated increase in legal costs related to litigation matters as well as regulatory and corporate legal matters.

(vii) Consulting Costs

(a) Description of Consulting Costs

Section 11.3(a)(iii)(B)(B)(3) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the consulting costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$1,025,957 in consulting costs for the CAT Fee 2026–1 Period. The consulting costs represent the fees estimated to be paid to the consulting firm Deloitte & Touche LLP (“Deloitte”) as project manager during the CAT Fee 2026–1 Period. The services provided by Deloitte to the CAT include advisory services related to the operation of the CAT, and meeting facilitation and communications coordination, vendor support and financial analyses. In addition, the consulting costs include the compensation for the Chair of the CAT Operating Committee.

It is anticipated that the costs for CAT during the CAT Fee 2026–1 Period will include costs related to consulting services performed by Deloitte. CAT LLC anticipates that it will continue to employ Deloitte during the CAT Fee 2026–1 Period based on, among other things, their expertise, long history with the project, and the recognition that it is anticipated that the consulting fees will remain in line with market rates for this type of specialized consulting work. Deloitte’s fee rates are negotiated on an annual basis. CAT LLC assesses Deloitte’s performance and reviews prospective budgets and staffing plans submitted by Deloitte on an annual basis. The consulting fees will be paid by CAT LLC to Deloitte.

It is anticipated that Deloitte will provide a variety of consulting services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Implement program operations for the CAT project;

- Provide support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;

- Assist with cost and funding matters for the CAT, including assistance with loans and the CAT bank account for CAT funding;

- Provide support for updating the SEC on the progress of the development of the CAT; and

- Provide support for third party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

In addition, the consulting costs include the compensation for the Chair of the CAT Operating Committee, which is paid by CAT LLC.

CAT LLC estimates that the budget for consulting costs during the CAT Fee 2026–1 Period will be approximately \$1,025,957.⁷⁵ The budget for consulting costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the consulting costs for the second quarter and the consulting costs for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁷⁶

CAT LLC estimates the budget for the consulting costs for Deloitte for the CAT Fee 2026–1 Period based on the current statement of work with Deloitte, which took into consideration past consulting costs, potential future consulting needs, the proposed rates and other contractual issues, and discussions with Deloitte, as well as the compensation arrangement for the Chair. This process for estimating the budget for consulting costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the consulting costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for consulting services of \$258,334 for January and February 2026, and the actual costs for consulting services for January and February 2026, which are included in the Updated 2026 CAT Budget, were \$267,554.⁷⁷ Therefore, the variance between budgeted and actual consulting costs for January and February was approximately 4%. Accordingly, CAT LLC believes that the process for estimating the budgeted

consulting costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes from Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for consulting costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the consulting costs from the Original 2026 Budget. Specifically, the following describes the differences (if any) in the consulting costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budget for consulting costs included in the Original 2026 CAT Budget was \$1,550,000, and the annual 2026 budget for consulting costs included in the Updated 2026 CAT Budget is \$1,550,000.⁷⁸ Accordingly, the annual budget for consulting costs has not changed from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026.

(viii) Insurance Costs

(a) Description of Insurance Costs

Section 11.3(a)(iii)(B)(B)(4) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the insurance costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$852,768 in insurance costs for the CAT Fee 2026–1 Period.⁷⁹ The insurance costs represent the costs to be incurred for insurance for the CAT during the CAT Fee 2026–1 Period.

It is anticipated that the insurance costs for CAT during the CAT Fee 2026–1 Period will include costs related to cyber security liability insurance, directors’ and officers’ liability insurance, and errors and omissions liability insurance brokered by USI Insurance Services LLC (“USI”). Such policies are standard for corporate entities, and cyber security liability insurance is important for the CAT System. CAT LLC anticipates that it will continue to maintain this insurance during the CAT Fee 2026–1 Period, and notes that the annual premiums for these policies were competitive for the coverage provided. CAT LLC estimated the budget for the insurance costs for

⁷⁵ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷⁶ This calculation is $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

⁷⁷ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁷⁸ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁷⁹ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷⁴ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

the CAT Fee 2026–1 Period based on the insurance estimate from USI for 2026. The annual premiums would be paid by CAT LLC to USI.

The budgeted insurance costs for the CAT Fee 2026–1 Period are based on an insurance cost estimate from USI for 2026. Accordingly, CAT LLC believes that the process for estimating the budgeted insurance costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for insurance costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the insurance costs from the Original 2026 Budget. Specifically, the following describes the differences in the insurance costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted insurance costs included in the Original 2026 CAT Budget were \$1,505,625, and the annual 2026 budgeted insurance costs included in the Updated 2026 CAT Budget are \$1,254,070.⁸⁰ Accordingly, the annual budget for insurance costs decreased by \$251,555 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 16% decrease in the insurance costs for the full year of 2026. This budgeted decrease in the insurance costs in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to an anticipated decrease in insurance premiums.

(ix) Professional and Administration Costs

(a) Description of Professional and Administration Costs

Section 11.3(a)(iii)(B)(B)(5) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the professional and administration costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$749,151 in professional and administration costs for the CAT Fee 2026–1 Period. In adopting the CAT NMS Plan, the Commission amended the Plan to add a requirement that CAT LLC's financial statements be prepared in compliance with GAAP, audited by an independent

public accounting firm, and made publicly available.⁸¹ The professional and administration costs would include costs related to accounting and accounting advisory services to support the operating and financial functions of CAT, financial statement audit services by an independent accounting firm, preparation of tax returns, and various cash management and treasury functions. The professional and administration costs represent the fees to be paid to Anchin, Block & Anchin ("Anchin") and Grant Thornton LLP ("Grant Thornton") for financial services during the CAT Fee 2026–1 Period.

Financial Advisory Firm: Anchin. It is anticipated that the professional and administration costs for the CAT Fee 2026–1 Period will include costs related to financial advisory services performed by Anchin. CAT LLC anticipates that it will continue to employ Anchin during the CAT Fee 2026–1 Period based on, among other things, the firm's relevant expertise and fees, which are anticipated to remain in line with market rates for these financial advisory services. The fees for these services will be paid by CAT LLC to Anchin.

It is anticipated that Anchin will provide a variety of services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Update and maintain internal controls;
- Provide cash management and treasury functions;
- Facilitate bill payments to vendors;
- Facilitate repayments of promissory notes to Participants;
- Provide monthly bookkeeping;
- Review vendor invoices and documentation in support of cash disbursements;
- Review documentation to ensure that repayments of promissory notes to Participants are in accordance with established policies and procedures;
- Provide accounting research and consultations on various accounting, financial reporting and tax matters;
- Address not-for-profit tax and accounting considerations;
- Prepare tax returns;
- Address various accounting, financial reporting and operating inquiries from Participants;
- Develop and maintain annual and interim operating and financial budgets, including budget to actual and budget to budget fluctuation analyses;
- Support compliance with the CAT NMS Plan;
- Work with and provide support to the Operating Committee, Leadership Team and various CAT working groups;

- Prepare monthly, quarterly and annual financial statements;
- Review and reconcile the monthly FINRA CAT reports/analyses related to billings, collections, outstanding accounts receivable and cash account;
- Perform certain verification, completeness, and validation testing related to the monthly FINRA CAT reports/analyses related to billings;
- Support the annual financial statement audits by an independent auditor;

- Review historical costs from inception;
- Provide accounting and financial information in support of SEC filings; and

- Perform additional ad hoc accounting and financial advisory services, as requested by CAT LLC.

CAT LLC estimated the annual budget for the costs for Anchin based on historical costs adjusted for cost of living rate increases, and projected incremental advisory and support services.

Accounting Firm: Grant Thornton. It is anticipated that the professional and administration costs for the CAT Fee 2026–1 Period will include costs related to accounting services performed by Grant Thornton. CAT LLC anticipates that it will continue to employ Grant Thornton during the CAT Fee 2026–1 Period based on, among other things, the firm's relevant expertise and fees, which are anticipated to remain in line with market rates for these financial advisory services. It is anticipated that Grant Thornton will continue to be engaged as an independent accounting firm to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. The fees for these services will be paid by CAT LLC to Grant Thornton. CAT LLC estimated the budget for the accounting costs for Grant Thornton for the CAT Fee 2026–1 Period based on the anticipated hourly rates and the anticipated services plus an administrative fee.

Professional and Administration Cost Estimates. CAT LLC estimates that the budget for professional and administration services during the CAT Fee 2026–1 Period will be approximately \$749,151.⁸² The budget for professional and administration services during the CAT Fee 2026–1 Period is based on the Updated 2026 CAT Budget. CAT LLC estimated the budget for the professional and administration costs for the CAT Fee 2026–1 Period based on a review of past

⁸⁰ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

⁸¹ Section 9.2 of the CAT NMS Plan.

⁸² See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

professional and administration costs, potential future professional and administration needs, the proposed rates and other contractual issues, as well as discussions with Anchin and Grant Thornton. This process for estimating the budget for the professional and administration costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the professional and administration costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for professional and administration costs of \$190,916 for January and February 2026, and the actual costs for professional and administration services for January and February 2026, which are set forth in the Updated 2026 Budget, were \$149,061.⁸³ The decrease of \$41,855 was due to a lower than expected professional and administration services costs and to the movement of bank fees from the professional and administration category to the interest income category. Accordingly, CAT LLC believes that the process for estimating the budgeted professional and administration costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for professional and administration costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the professional and administration costs from the Original 2026 Budget. Specifically, the following describes the differences in the professional and administration costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted professional and administration costs as included in the Original 2026 CAT Budget were \$1,145,500, and the annual 2026 budgeted professional and administration costs included in the Updated 2026 CAT Budget are \$1,085,500.⁸⁴ Accordingly, the budgeted annual costs for professional and administration services decreased by \$60,000 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026. This budgeted decrease in the professional

and administration costs in the Updated 2026 CAT Budget from the Original 2026 Budget was due to the movement of bank fees from the professional and administration category to the interest income category, and not a change in costs related to Anchin and Grant Thornton services.

(x) Public Relations Costs

(a) Description of Public Relations Costs

Section 11.3(a)(iii)(B)(B)(6) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the public relations costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$0 in public relations costs for the CAT Fee 2026–1 Period. The public relations costs would represent the fees paid to a public relations firm for professional communications services to CAT, including media relations consulting, strategy and execution. Because CAT LLC anticipates that it will not engage a public relations firm for the CAT Fee Period 2026–1, the budget for public relations costs for this period is \$0.⁸⁵

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for public relations costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the public relations costs from the Original 2026 Budget. Specifically, the following describes the differences (if any) in public relations costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual budgeted public relations costs for 2026 included in the Original 2026 CAT Budget were \$0, and the annual budgeted public relations costs for 2026 included in the Updated 2026 CAT Budget are \$0.⁸⁶ Accordingly, the annual budgeted public relations costs for 2026 are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(xi) Interest Income

(a) Description of Interest Income

Section 11.1(a) of the CAT NMS Plan requires the CAT budget to include “the

sources of all revenues to cover costs.” Accordingly, the Updated 2026 CAT Budget includes a line item for interest income. Specifically, the Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$1,453,382 in interest income for the CAT Fee 2026–1 Period.⁸⁷ Interest income represents the interest earned on the surplus reserve and other funds held by CAT LLC. Such income would be used to reduce the amount to be collected to fund the CAT.

CAT LLC estimates the budget for the interest income for the CAT Fee 2026–1 Period based on the estimate of the funds held by CAT LLC and the expected interest rates on such funds. The Original 2026 CAT Budget estimated interest income of \$758,343 for January and February 2026, and the actual interest income for January and February 2026, which are included in the Updated 2026 CAT Budget, were \$757,527.⁸⁸ As mentioned above, bank fees were moved from the professional and administration category in the Original 2026 CAT Budget to the interest income category in the Updated 2026 CAT Budget. Accordingly, the interest income amount for the Updated 2026 CAT Budget was net of \$10,000 in bank fees. Therefore, the variance between budgeted and actual interest income (aside from bank fees) for January and February 2026 was approximately \$10,000. Accordingly, CAT LLC believes that the process for estimating the budgeted interest income for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in each line item from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in interest income from the Original 2026 CAT Budget. Specifically, the following describes the differences in the interest income included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted interest income as included in the Original 2026 CAT Budget was \$1,995,958, and the annual 2026 budgeted interest income included in the Updated 2026 CAT

⁸³ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁸⁴ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁵ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸⁶ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁷ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸⁸ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

Budget is \$2,806,325.⁸⁹ Accordingly, the budgeted interest income (not including bank fees) increased by \$810,367 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 40% increase in the interest income for the full year of 2026. This budgeted increase in the interest income in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to higher than expected cash balances being maintained after the approval of the Original 2026 Budget.

(xii) Reserve

(a) Description of Reserve

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the reserve costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes a reserve amount for 2026. Section 11.1(a)(i) of the CAT NMS Plan states that the budget shall include a reserve. Section 11.1(a)(ii) of the CAT NMS Plan further describes the reserve as follows:

For the reserve referenced in paragraph (a)(i) of this Section, the budget will include an amount reasonably necessary to allow the Company to maintain a reserve of not more than 25% of the annual budget. To the extent collected CAT fees exceed CAT costs, including the reserve of 25% of the annual budget, such surplus shall be used to offset future fees. For the avoidance of doubt, the Company will only include an amount for the reserve in the annual budget if the Company does not have a sufficient reserve (which shall be up to but not more than 25% of the annual budget). For the avoidance of doubt, the calculation of the amount of the reserve would exclude the amount of the reserve from the budget.

CAT LLC determined to maintain a reserve in the amount of 25% of the total expenses set forth in the Updated 2026 CAT Budget (which does not include the reserve amount). Accordingly, the total 25% reserve of \$23,508,157 was calculated by multiplying the total expenses set forth in the Updated 2026 CAT Budget (other than the reserve) by 25%.⁹⁰

The Updated 2026 CAT Budget estimates that CAT LLC will have \$102,391,135 in reserve as of the

beginning of the CAT Fee Period 2026–1. Such reserve is related, in part, to (i) the collection of CAT fees in excess of the budgeted CAT costs in light of the greater actual executed equivalent share volume than the projected executed equivalent share volume for prior CAT Fees, and (ii) a reduction in anticipated budgeted costs associated with the implementation of certain cost savings measures. This reserve balance of \$102,391,135 would be used to offset a portion of CAT costs for CAT Fee Period 2026–1, thereby reducing the fee rate to be paid for CAT Fee 2026–1.

Specifically, the total costs (including the 25% reserve) for CAT Fee 2026–1 of \$117,540,783 would be reduced by the \$102,391,135 in reserve. Therefore, the Total Budgeted CAT Costs 2026–1 would be \$15,149,648.

Accordingly, the fee rate for CAT Fee 2026–1 is calculated based on this reduced amount of \$15,149,648, resulting in a fee rate of \$0.000001 per executed equivalent share. If the fee rate for CAT Fee 2026–1 were calculated solely based on the reasonably budgeted costs for CAT for May–December 2026, excluding the reduction in that amount due to the surplus reserve offset, the fee rate would be the higher rate of \$0.000010.⁹¹

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for a reserve from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in reserve from the Original 2026 CAT Budget. Specifically, the following describes the differences in the reserve included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The accrued liquidity reserve balance at the beginning of the year included in the Original 2026 CAT Budget was \$119,128,336. The Original 2026 CAT Budget contemplated using the reserve to pay CAT bills throughout the year as no CAT fee was in effect. The accrued liquidity reserve balance at the beginning of the year included in the Updated 2026 CAT Budget was \$155,403,378. The increase in the accrued liquidity reserve balance at the beginning of the year from the Original 2026 CAT Budget to the Updated 2026 CAT Budget reflected the additional CAT Fees that had been received after the approval of the Original 2026 CAT Budget. In addition, the Updated 2026

CAT Budget not only reflected the use of the surplus reserve to pay CAT bills but also the accrual of additional reserve to establish a 25% reserve through CAT Fee 2026–1. Accordingly, the estimated liquidity reserve balance increased from a deficit of \$37,304,661 included in the Original 2026 CAT Budget to a reserve balance of \$23,508,157 included in the Updated 2026 CAT Budget for the full year of 2026.

(D) Projected Total Executed Equivalent Share Volume

The calculation of Fee Rate 2026–1 also requires the determination of the projected total executed equivalent share volume of transactions in Eligible Securities for the CAT Fee 2026–1 Period. Under the CAT NMS Plan, the Operating Committee is required to “reasonably determine the projected total executed equivalent share volume of all transactions in Eligible Securities for each relevant period based on the executed equivalent share volume of all transactions in Eligible Securities for the prior twelve months.”⁹² The Operating Committee is required to base its projection on the prior twelve months, but it may use its discretion to analyze the likely volume for the upcoming year. Such discretion would allow the Operating Committee to use its judgment when estimating projected total executed equivalent share volume if the volume over the prior twelve months was unusual or otherwise unfit to serve as the basis of a future volume estimate.⁹³

The total executed equivalent share volume of transactions in Eligible Securities for the 12-month period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. The Operating Committee has determined to calculate the projected total executed equivalent share volume for the eight-month recovery period for CAT Fee 2026–1 by multiplying by 8/12ths the executed equivalent share volume for the 12-month period from March 2025 through February 2026. The Operating Committee determined that such an approach was reasonable as the CAT’s annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.41), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level. Accordingly, the projected total executed equivalent

⁸⁹ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁹⁰ The reserve was calculated by multiplying \$94,032,626 by 25%, which equals approximately \$23,508,157.

⁹¹ See CAT Fee Alert 2026–1 (Apr. 1, 2026).

⁹² Section 11.3(a)(i)(D) of the CAT NMS Plan.

⁹³ CAT Funding Model Approval Order at 13452.

share volume for the eight-month period for CAT Fee 2026–1 is projected to be 3,987,291,699,573.66 executed equivalent shares.⁹⁴

The projected total executed equivalent share volume of all transactions in Eligible Securities for the eight-month recovery period for CAT Fee 2026–1 and a description of the calculation of the projection is provided in this filing in accordance with the requirement in the CAT NMS Plan to provide such information in a fee filing for a CAT Fee.⁹⁵

(E) Fee Rate 2026–1

Fee Rate 2026–1 would be calculated by dividing the Budgeted CAT Costs 2026–1 by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the eight-month recovery period for CAT Fee 2026–1, as described in detail above.⁹⁶ Specifically, Fee Rate 2026–1 would be calculated by dividing \$15,149,648 by 3,987,291,699,573.66 executed equivalent shares. As a result, Fee Rate 2026–1 would be \$0.000003799483243631228 per executed equivalent share. Fee Rate 2026–1 is provided in this filing in accordance with the requirement in the CAT NMS Plan to provide the Fee Rate in a fee filing for a CAT Fee.⁹⁷

Fee Rate 2026–1 would be used to calculate the fee rate to be paid by CEBBs and CEBs for CAT Fee 2026–1. Such fee rate is calculated by multiplying Fee Rate 2026–1 of \$0.000003799483243631228 by one-third, and rounding the result to six decimal places.⁹⁸ Accordingly, the fee rate to be paid by CEBBs and CEBs for CAT Fee 2026–1 would be \$0.000001 per executed equivalent share.

(3) Monthly Fees

CEBBs and CEBs would be required to pay fees for CAT Fee 2026–1 on a monthly basis for eight months, from July 2026 until January 2027. A CEBB's

or CEBs's fee for each month would be calculated based on the transactions in Eligible Securities executed by the CEBB or CEBs from the prior month.⁹⁹ Proposed paragraph (a)(6)(A) of the Consolidated Audit Trail Funding Fees section of the fee schedule would state that each CAT Executing Broker would receive its first invoice for CAT Fee 2026–1 in June 2026, and would receive an invoice for CAT Fee 2026–1 each month thereafter until January 2027. Proposed paragraph (a)(6)(B) of the fee schedule would state that "Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis." In addition, paragraph (b)(1) of the Consolidated Audit Trail Funding Fees section of the fee schedule states that each CEBB and CEBs is required to pay its CAT fees "each month."

(4) Consolidated Audit Trail Funding Fees

To implement CAT Fee 2026–1, the Exchange proposes to add a new paragraph to the "Consolidated Audit Trail Funding Fees" section of the Exchange's fee schedule, to include the proposed paragraphs described below.

(A) Fee Schedule for CAT Fee 2026–1

The CAT NMS Plan states that: Each Industry Member that is the CAT Executing Broker for the buyer in a transaction in Eligible Securities ("CAT Executing Broker for the Buyer" or "CEBB") and each Industry Member that is the CAT Executing Broker for the seller in a transaction in Eligible Securities ("CAT Executing Broker for the Seller" or "CEBS") will be required to pay a CAT Fee for each such transaction in Eligible Securities in the prior month based on CAT Data. The CEBB's CAT Fee or CEBs's CAT Fee (as applicable) for each transaction in Eligible Securities will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Fee Rate reasonably determined pursuant to paragraph (a)(i) of this Section 11.3.¹⁰⁰

Accordingly, based on the factors discussed above, the Exchange proposes to add paragraph (a)(6) to the Consolidated Audit Trail Funding Fees section of its fee schedule. Proposed paragraph (a)(6) would state the following:

(A) Each CAT Executing Broker shall receive its first invoice for CAT Fee 2026–1 in June 2026, which shall set forth the CAT Fee 2026–1 fees

calculated based on transactions in May 2026, and shall receive an invoice for CAT Fee 2026–1 for each month thereafter until January 2027.

(B) Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis. Each month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer ("CEBB") and/or the CAT Executing Broker for the Seller ("CEBS") (as applicable) from the prior month as set forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000001 per executed equivalent share.

(C) Notwithstanding the last invoice date of January 2027 for CAT Fee 2026–1 in paragraph 6(A), CAT Fee 2026–1 shall continue in effect after January 2027, with each CAT Executing Broker receiving an invoice for CAT Fee 2026–1 each month, until a new subsequent CAT Fee is in effect with regard to Industry Members in accordance with Section 19(b) of the Exchange Act. Consolidated Audit Trail, LLC will provide notice when CAT Fee 2026–1 will no longer be in effect.

(D) Each CAT Executing Broker shall be required to pay each invoice for CAT Fee 2026–1 in accordance with paragraph (b).

As noted in the Plan amendment for the CAT Funding Model, "[a]s a practical matter, the fee filing would provide the exact fee per executed equivalent share to be paid for the CAT Fees, by multiplying the Fee Rate by one-third and describing the relevant number of decimal places for the fee."¹⁰¹ Accordingly, proposed paragraph (a)(6)(B) of the Consolidated Audit Trail Funding Fees section of the fee schedule would set forth a fee rate of \$0.000001 per executed equivalent share. This fee rate is calculated by multiplying Fee Rate 2026–1 of \$0.000003799483243631228 by one-third, and rounding the result to six decimal places.¹⁰² The Operating Committee determined to use six decimal places to balance the accuracy of the calculation with the potential systems and other impracticalities of

⁹⁴ This projection was calculated by multiplying 5,980,937,549,360.49 executed equivalent shares by 8/12ths.

⁹⁵ Section 11.3(a)(iii)(B) of the CAT NMS Plan.

⁹⁶ In approving the CAT Funding Model, the Commission stated that "[t]he manner in which the Fee Rate for Prospective CAT Costs will be calculated (i.e., by dividing the CAT costs reasonably budgeted for the upcoming year by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the year) is appropriate." CAT Funding Model Approval Order at 13435.

⁹⁷ See Section 11.3(a)(iii)(B)(A) of the CAT NMS Plan.

⁹⁸ This fee rate of \$0.000001 is calculated by multiplying the Fee Rate of \$0.000003799483243631228 by one-third and rounding this result (which equals \$0.000001266494414543743) to 6 decimal places.

⁹⁹ See proposed paragraph (a)(6)(B) of the fee schedule.

¹⁰⁰ Section 11.3(a)(iii)(A) of the CAT NMS Plan.

¹⁰¹ CAT Funding Model Approval Order at 13445, n.677.

¹⁰² This fee rate of \$0.000001 is calculated by multiplying the Fee Rate of \$0.000003799483243631228 by one-third, and rounding this result (which equals \$0.000001266494414543743) to 6 decimal places.

using additional decimal places in the calculation.

The proposed language in paragraph (a)(6)(A) of the Consolidated Audit Trail Funding Fees section of the fee schedule would describe when CAT Executing Brokers would receive their first monthly invoice for CAT Fee 2026–1. Specifically, CAT Executing Brokers would receive their first monthly invoice for CAT Fee 2026–1 in June 2026 and the fees set forth in that invoice would be calculated based on transactions executed in May 2026. The payment for the first invoice would be required within 30 days after the receipt of the first invoice (unless a longer period is indicated), as described in paragraph (b)(2) of the Consolidated Audit Trail Funding Fees section of the fee schedule.

Proposed paragraph (a)(6)(A) of the Consolidated Audit Trail Funding Fees section of the fee schedule also would describe the monthly cadence of the invoices for CAT Fee 2026–1. Specifically, after the first invoices are provided to CAT Executing Brokers in June 2026, invoices will be sent to CAT Executing Brokers each month thereafter until January 2027.

Proposed paragraph (a)(6)(B) of the Consolidated Audit Trail Funding Fees section of the fee schedule would describe the invoices for CAT Fee 2026–1. Proposed paragraph (a)(6)(B) of the fee schedule would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis.” Proposed paragraph (a)(6)(B) of the Consolidated Audit Trail Funding Fees section of the fee schedule also would describe the fees to be set forth in the invoices for CAT Fee 2026–1. Specifically, it would state that “[e]ach month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (‘CEBB’) and/or the CAT Executing Broker for the Seller (‘CEBS’) (as applicable) from the prior month as set forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000001 per executed equivalent share.”

Since CAT Fee 2026–1 is a monthly fee based on actual transaction volume from the prior month, CAT Fee 2026–1 may collect more or less than two-thirds of the Budgeted CAT Costs 2026–1. To the extent that CAT Fee 2026–1 collects more than two-thirds of the Budgeted CAT Costs 2026–1, any excess money collected will be used to offset future

fees and/or to fund the reserve for the CAT. To the extent that CAT Fee 2026–1 collects less than two-thirds of the Budgeted CAT Costs 2026–1, the budget for the CAT in the ensuing months will reflect such shortfall.

Furthermore, proposed paragraph (a)(6)(C) of the Consolidated Audit Trail Funding Fees section of the fee schedule would describe how long CAT Fee 2026–1 would remain in effect. It would state that “[n]otwithstanding the last invoice date of January 2027 for CAT Fee 2026–1 in paragraph 6(A), CAT Fee 2026–1 shall continue in effect after January 2027, with each CAT Executing Broker receiving an invoice for CAT Fee 2026–1 each month, until a new subsequent CAT Fee is in effect with regard to Industry Members in accordance with Section 19(b) of the Exchange Act. Consolidated Audit Trail, LLC will provide notice when CAT Fee 2026–1 will no longer be in effect.”

Finally, proposed paragraph (a)(6)(D) of the Consolidated Audit Trail Funding Fees section of the fee schedule would set forth the requirement for the CAT Executing Brokers to pay the invoices for CAT Fee 2026–1. It would state that “[e]ach CAT Executing Broker shall be required to pay each invoice for CAT Fee 2026–1 in accordance with paragraph (b).”

(B) Manner of Payment

Paragraph (b)(1) of the “Consolidated Audit Trail Funding Fees” section of the fee schedule describes the manner of payment of Industry Member CAT fees. It states that “[e]ach CAT Executing Broker shall pay its CAT fees as required pursuant to paragraph (a) each month to the Consolidated Audit Trail, LLC in the manner prescribed by the Consolidated Audit Trail, LLC.” The CAT NMS Plan requires the Operating Committee to establish a system for the collection of CAT fees.¹⁰³ The Plan Processor has established a billing system for CAT fees.¹⁰⁴ Accordingly, CAT Executing Brokers would be required to pay CAT Fee 2026–1 in accordance with such system.

(C) Failure To Pay CAT Fees

The CAT NMS Plan further states that:

Participants shall require each Industry Member to pay all applicable

fees authorized under this Article XI within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If an Industry Member fails to pay any such fee when due (as determined in accordance with the preceding sentence), such Industry Member shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of: (a) the Prime Rate plus 300 basis points; or (b) the maximum rate permitted by applicable law.¹⁰⁵

Paragraph (b)(2) of the fee schedule states that:

Each CAT Executing Broker shall pay the CAT fees required pursuant to paragraph (a) within thirty days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If a CAT Executing Broker fails to pay any such CAT fee when due, such CAT Executing Broker shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of (i) the Prime Rate plus 300 basis points, or (ii) the maximum rate permitted by applicable law.

The requirements of paragraph (b)(2) would apply to CAT Fee 2026–1.

(5) CAT Fee Details

The CAT NMS Plan states that:

Details regarding the calculation of a Participant or CAT Executing Broker's CAT Fees will be provided upon request to such Participant or CAT Executing Broker. At a minimum, such details would include each Participant or CAT Executing Broker's executed equivalent share volume and corresponding fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.¹⁰⁶

Such information would provide CEBBs and CEBSs with the ability to understand the details regarding the calculation of their CAT Fee.¹⁰⁷ CAT LLC will provide CAT Executing Brokers with these details regarding the

¹⁰⁵ Section 11.4 of the CAT NMS Plan.

¹⁰⁶ Section 11.3(a)(iv)(A) of the CAT NMS Plan.

¹⁰⁷ In approving the CAT Funding Model, the Commission stated that, “[i]n the Commission's view, providing CAT Execut[ing] Brokers information regarding the calculation of their CAT Fees will aid in transparency and permit CAT Execut[ing] Brokers to confirm the accuracy of their invoices for CAT Fees.” CAT Funding Model Approval Order at 13454.

¹⁰³ Section 11.4 of the CAT NMS Plan.

¹⁰⁴ The billing process and system are described in CAT Alert 2023–02 as well as in the CAT FAQs related to the billing of CAT fees, the Industry Member CAT Reporter Portal User Guide, the FCAT Industry Member Onboarding Guide, the FCAT Connectivity Supplement for Industry Members and the CAT Billing Webinars (dated Sept. 28, 2023 and Nov. 7, 2023), each available on the CAT website.

calculation of their CAT Fees on their monthly invoice for the CAT Fees.

In addition, CAT LLC will make certain aggregate statistics regarding CAT Fees publicly available. Specifically, the CAT NMS Plan states that, “[f]or each CAT Fee, at a minimum, CAT LLC will make publicly available the aggregate executed equivalent share volume and corresponding aggregate fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.”¹⁰⁸ Such aggregate statistics will be available on the CAT website.

Furthermore, CAT LLC will make publicly available on the CAT website the total amount invoiced each month that CAT Fee 2026–1 is in effect as well as the total amount invoiced for CAT Fee 2026–1 for all months since its commencement. CAT LLC also will make publicly available on the CAT website the total costs to be collected from Industry Members for CAT Fee 2026–1.

(6) Financial Accountability Milestones

The CAT NMS Plan states that “[n]o Participant will make a filing with the SEC pursuant to Section 19(b) of the Exchange Act regarding any CAT Fee related to Prospective CAT Costs until the Financial Accountability Milestone related to Period 4 described in Section 11.6 has been satisfied.”¹⁰⁹ Under Section 1.1 of the CAT NMS Plan, a Financial Accountability Milestone is considered complete as of the date identified in the Participants’ Quarterly Progress Reports. As indicated by the Participants’ Quarterly Progress Report for the second and third quarter of 2024,¹¹⁰ the Financial Accountability Milestone related to Period 4 was satisfied on July 15, 2024. In addition, the satisfaction of the Financial Accountability Milestone related to Period 4 was described in detail in the fee filing for the first Prospective CAT Fee, CAT Fee 2024–1.¹¹¹

¹⁰⁸ Section 11.3(a)(iv)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission stated that “[t]he publication of the aggregate executed equivalent share volume and aggregate fee is appropriate because it would allow Participants and CAT Executing Brokers a high-level validation of executed volume and fees.” CAT Funding Model Approval Order at 13454.

¹⁰⁹ Section 11.3(a)(iii)(C) of the CAT NMS Plan. ¹¹⁰ Q2 & Q3 2024 Quarterly Progress Report (July 29, 2024).

¹¹¹ See Securities Exchange Act Rel. No. 100834 (August 27, 2024), 89 FR 71747 (September 3, 2024) (SR-IEEX-2024-14).

(7) Participant Invoices

While CAT Fees charged to Industry Members become effective in accordance with the requirements of Section 19(b) of the Exchange Act,¹¹² CAT fees charged to Participants are implemented via an approval of the CAT fees by the Operating Committee in accordance with the requirements of the CAT NMS Plan.¹¹³ On March 31, 2026, the Operating Committee approved the Participant fee related to CAT Fee 2026–1. Specifically, pursuant to the requirements of CAT NMS Plan,¹¹⁴ each Participant would be required to pay a CAT fee calculated using the fee rate of \$0.000001 per executed equivalent share, which is the same fee rate that applies to CEBBs and CEBSSs. Like CEBBs and CEBSSs, each Participant would be invoiced such CAT fees on a monthly basis for eight months, from June 2026 until January 2027, and each Participant’s fee for each month would be calculated based on the transactions in Eligible Securities executed on the applicable exchange (for the Participant exchanges) or otherwise than on an exchange (for FINRA) in the prior month. Accordingly, each Participant will receive its first invoice in June 2026, and would receive an invoice each month thereafter until January 2027. Like with the CAT Fee 2026–1 applicable to CEBBs and CEBSSs as described in proposed paragraph (a)(6)(C) of the fee schedule, notwithstanding the last invoice date of January 2027, Participants will continue to receive invoices for this fee each month until a new subsequent CAT Fee is in effect with regard to Industry Members. Furthermore, Section 11.4 of the CAT NMS Plan states that each Participant is required to pay such invoices as required by Section 3.7(b) of the CAT NMS Plan. Section 3.7(b) states, in part, that

[e]ach Participant shall pay all fees or other amounts required to be paid under this Agreement within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated) (the “Payment Date”). The Participant shall pay interest on the outstanding balance from the Payment Date until such fee or amount is paid at a per annum rate equal to the lesser of: (i) Prime Rate plus 300 basis points; or (ii) the maximum rate permitted by applicable law.

¹¹² Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹¹³ CAT Funding Model Approval Order at 13448.

¹¹⁴ See Section 11.3(a)(ii) and Appendix B of the CAT NMS Plan.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the requirements of the Exchange Act. The Exchange believes that the proposed rule change is consistent with Section 6(b)(5) of the Act,¹¹⁵ which requires, among other things, that the Exchange’s rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest, and not designed to permit unfair discrimination between customers, issuers, brokers and dealers. The Exchange also believes that the proposed rule change is consistent with the provisions of Section 6(b)(4) of the Act,¹¹⁶ because it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers. The Exchange further believes that the proposed rule change is consistent with Section 6(b)(8) of the Act,¹¹⁷ which requires that the Exchange’s rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. These provisions also require that the Exchange be “so organized and [have] the capacity to be able to carry out the purposes” of the Act and “to comply, and . . . to enforce compliance by its members and persons associated with its members,” with the provisions of the Exchange Act.¹¹⁸ Accordingly, a reasonable reading of the Act indicates that it intended that regulatory funding be sufficient to permit an exchange to fulfill its statutory responsibility under the Act, and contemplated that such funding would be achieved through equitable assessments on the members, issuers, and other users of an exchange’s facilities.

The Exchange believes that this proposal is consistent with the Act because it implements provisions of the Plan and is designed to assist the Exchange in meeting regulatory obligations pursuant to the Plan. In approving the Plan, the SEC noted that the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system,

¹¹⁵ 15 U.S.C. 78f(b)(5).

¹¹⁶ 15 U.S.C. 78f(b)(4).

¹¹⁷ 15 U.S.C. 78f(b)(8).

¹¹⁸ See 15 U.S.C. 78f(b)(1).

or is otherwise in furtherance of the purposes of the Act.”¹¹⁹ To the extent that this proposal implements the Plan and applies specific requirements to Industry Members, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Act.

The Exchange believes that the proposed fees to be paid by the CEBBs and CEBs are reasonable, equitably allocated and not unfairly discriminatory. First, the CAT Fee 2026–1 fees to be collected are directly associated with the budgeted costs of establishing and maintaining the CAT, where such costs include Plan Processor costs and costs related to technology, legal, consulting, insurance, and professional and administration costs.

The proposed CAT Fee 2026–1 fees would be charged to Industry Members in support of the maintenance of a consolidated audit trail for regulatory purposes. The proposed fees, therefore, are consistent with the Commission’s view that regulatory fees be used for regulatory purposes and not to support the Exchange’s business operations. The proposed fees would not cover Exchange services unrelated to the CAT. In addition, any surplus would be used as a reserve to offset future fees. Given the direct relationship between CAT fees and CAT costs, the Exchange believes that the proposed fees are reasonable, equitable and not unfairly discriminatory.

As further discussed below, the SEC approved the CAT Funding Model, finding it was reasonable and that it equitably allocates fees among Participants and Industry Members. The Exchange believes that the proposed fees adopted pursuant to the CAT Funding Model approved by the SEC are reasonable, equitably allocated and not unfairly discriminatory.

(1) Implementation of CAT Funding Model in CAT NMS Plan

Section 11.1(b) of the CAT NMS Plan states that “[t]he Participants shall file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves.” Per Section 11.1(b) of the CAT NMS Plan, the Exchange has filed this fee filing to implement the Industry Member CAT fees included in the CAT Funding Model. The Exchange believes that this proposal is consistent with the Exchange Act because it is consistent with, and implements, the CAT Funding Model in the CAT NMS Plan, and is designed to assist the Exchange and its

Industry Members in meeting regulatory obligations pursuant to the CAT NMS Plan. In approving the CAT NMS Plan, the SEC noted that the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹²⁰ Similarly, in approving the CAT Funding Model, the SEC concluded that the CAT Funding Model met this standard.¹²¹ As this proposal implements the Plan and the CAT Funding Model described therein, and applies specific requirements to Industry Members in compliance with the Plan, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Exchange Act.

(2) Calculation of Fee Rate for CAT Fee 2026–1 Is Reasonable

The SEC has determined that the CAT Funding Model satisfies the requirements of the Exchange Act. Specifically, the SEC has concluded that the method for determining CAT Fees as set forth in Section 11.3 of the CAT NMS Plan, including the formula for calculating the Fee Rate, the identification of the parties responsible for payment and the transactions subject to the fee rate for CAT Fees, satisfies the Exchange Act.¹²² In each respect, as discussed above, CAT Fee 2026–1 is calculated, and would be applied, in accordance with the requirements applicable to CAT Fees as set forth in the CAT NMS Plan. Furthermore, as discussed below, the Exchange believes that each of the figures for the variables in the SEC-approved formula for calculating the fee rate for CAT Fee 2026–1 is reasonable and consistent with the Exchange Act. The calculation of Fee Rate 2026–1 for CAT Fee 2026–1 requires the figures for Budgeted CAT Costs 2026–1, the executed equivalent share volume for the prior twelve months, the determination of the CAT Fee 2026–1 Period, and the projection of the executed equivalent share volume for the CAT Fee 2026–1 Period. Each of these variables is reasonable and satisfies the Exchange Act, as discussed throughout this filing.

(A) Budgeted CAT Costs 2026–1

The formula for calculating a Fee Rate requires the amount of Budgeted CAT

Costs to be recovered. Specifically, Section 11.3(a)(iii)(B) of the CAT NMS Plan requires a fee filing to provide: the budget for the upcoming year (or remainder of the year, as applicable), including a brief description of each line item in the budget, including (1) the technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees, and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration, and (6) public relations costs, a reserve and/or such other categories as reasonably determined by the Operating Committee to be included in the budget, and the reason for changes in each such line item from the prior CAT fee filing.

In accordance with this requirement, the Exchange has set forth the amount and type of Budgeted CAT Costs 2026–1 for each of these categories above.

Section 11.3(a)(iii)(B) of the CAT NMS Plan also requires that the fee filing provide “sufficient detail to demonstrate that the budget for the upcoming year, or part of year, as applicable, is reasonable and appropriate.” As discussed below, the Exchange believes that the budget for the CAT Fee 2026–1 Period is “reasonable and appropriate.” Each of the costs included in CAT Fee 2026–1 is reasonable and appropriate because the costs are consistent with standard industry practice, based on the need to comply with the requirements of the CAT NMS Plan, incurred subject to negotiations performed on an arm’s length basis, and/or is consistent with the needs of any legal entity, particularly one with no employees.

(i) Technology: Cloud Hosting Services

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover budgeted costs related to cloud hosting services as a part of CAT Fees.¹²³ CAT LLC determined that the budgeted costs related to cloud hosting services described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. As described above, the cloud hosting services costs reflect, among other things, the breadth of the CAT cloud activities, data volumes far in excess of the original volume estimates, the need for specialized cloud services given the volume and unique nature of the CAT, the processing time requirements of the Plan, and regular efforts to seek to minimize costs where permissible under the Plan. CAT LLC determined that use

¹¹⁹ CAT NMS Plan Approval Order at 84697.

¹²⁰ *Id.*

¹²¹ CAT Funding Model Approval Order at 13481.

¹²² *Id.*

¹²³ Section 11.3(a)(iii)(B)(1) of the CAT NMS Plan.

of cloud hosting services is necessary for implementation of the CAT, particularly given the substantial data volumes associated with the CAT, and that the fees for cloud hosting services negotiated by FCAT were reasonable, taking into consideration a variety of factors, including the expected volume of data and the breadth of services provided and market rates for similar services.¹²⁴ Indeed, the actual costs of the CAT are far in excess of the original estimated costs of the CAT due to various factors, including the higher volumes and greater complexity of the CAT than anticipated when Rule 613 was originally adopted.

To comply with the requirements of the Plan, the breadth of the cloud activities related to the CAT is substantial. The cloud services not only include the production environment for the CAT, but they also include two industry testing environments, support environments for quality assurance and stress testing and disaster recovery capabilities. Moreover, the cloud storage costs are driven by the requirements of the Plan, which requires the storage of multiple versions of the data, from the original submitted version of the data through various processing steps, to the final version of the data.

Data volume is a significant driver of costs for cloud hosting services. When the Commission adopted the CAT NMS Plan in 2016, it estimated that the CAT would need to receive 58 billion records per day¹²⁵ and that annual operating costs for the CAT would range from \$36.5 million to \$55 million.¹²⁶ In contrast to the 2016 projections, the actual daily Q3 2025 data volumes averaged 792 billion events per day.

In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. Although CAT LLC has proactively sought to manage cloud hosting costs while complying with the Plan, including through requests to the Commission for exemptive relief and amendments to the CAT NMS Plan to reduce costs, stringent CAT NMS Plan requirements do not allow for any material flexibility in cloud architecture design choices, processing timelines (e.g., the use of non-peak processing windows), or lower-cost storage tiers. As a result, the required CAT processing timelines contribute to the cloud hosting costs of the CAT.

The costs for cloud hosting services also reflect the need for specialized cloud hosting services given the data volume and unique processing needs of the CAT. The data volume as well as the data processing needs of the CAT necessitate the use of cloud hosting services. The equipment, power and services required for an on-premises data model, the alternative to cloud hosting services, would be cost prohibitive. Moreover, as CAT was being developed, there were limited cloud hosting providers that could satisfy all the necessary CAT requirements, including the operational and security criteria. Over time, more providers offering cloud hosting services that would satisfy these criteria have entered the market. CAT LLC will continue to evaluate alternative cloud hosting services, recognizing that the time and cost to move to an alternative cloud provider would be substantial.

The reasonableness of the cloud hosting services costs is further supported by key cost discipline mechanisms for the CAT—a cost-based funding structure, cost transparency, cost management efforts (including regular efforts to lower compute and storage costs where permitted by the Plan) and oversight. Together, these mechanisms help ensure the ongoing reasonableness of the CAT's costs and the level of fees assessed to support those costs.¹²⁷

(ii) Technology: Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to operating fees as a part of CAT Fees.¹²⁸ CAT LLC determined that the budgeted costs related to operating fees described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1.

The operating fees would include the negotiated fees paid by CAT LLC to the Plan Processor to operate and maintain the system for order-related information and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the selection of FCAT as the Plan Processor was reasonable and appropriate given its expertise with securities regulatory reporting, after a

process of considering other potential candidates.¹²⁹ CAT LLC also determined that the fixed price contract, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, was reasonable and appropriate, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity.¹³⁰ The services to be performed by FCAT for CAT Fee 2026–1 Period and the budgeted costs related to such services are described above.¹³¹

The operating costs also include costs related to the receipt of market data. CAT LLC anticipates receiving certain market data from Algoseek during the CAT Fee 2026–1 Period. CAT LLC anticipates that Algoseek will provide data as set forth in the SIP Data requirements of the CAT NMS Plan and that the fees are reasonable and in line with market rates for market data received.¹³²

(iii) Technology: CAIS Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to CAIS operating fees as a part of CAT Fees.¹³³ CAT LLC determined that the budgeted costs related to CAIS operating fees described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. The CAIS operating fees would include the fees paid to the Plan Processor to operate and maintain the Reference Database and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the fees for FCAT's services related to the Reference Database, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors, including the services to be provided and market rates for similar types of activity, are reasonable and appropriate.¹³⁴ The services to be performed by FCAT for the CAT Fee

¹²⁴ For a discussion of the amount and type of cloud hosting services fees, see Section 3(a)(2)(C)(i) above.

2026–1 Period and the budgeted costs for such services are described above.¹³⁵

(iv) Technology: Change Request Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to change request fees as a part of CAT Fees.¹³⁶ CAT LLC determined that the budgeted costs related to change request fees described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. It is common practice to utilize a change request process to address evolving needs in technology projects. This is particularly true for a project like CAT that is the first of its kind, both in substance and in scale. The substance and costs of each of the change requests are evaluated by the Operating Committee and approved in accordance with the requirements for Operating Committee meetings. In each case, CAT LLC forecasts that the change requests will be necessary to implement the CAT. As described above,¹³⁷ CAT LLC determined that it was reasonable not to include any change request fees in the Budgeted CAT Costs 2026–1.

(v) Capitalized Developed Technology Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to capitalized developed technology costs as a part of CAT Fees.¹³⁸ In general, capitalized developed technology costs would include costs related to, for example, certain development costs, costs related to certain modifications, upgrades and other changes to the CAT and license fees. The amount and type of budgeted capitalized developed technology costs for the CAT Fee 2026–1 Period, which relate to the software license fee and technology changes to be implemented by FCAT, are described in more detail above.¹³⁹

(vi) Legal

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to legal fees as a part of CAT Fees.¹⁴⁰ CAT LLC determined that the budgeted legal costs described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. Given the

unique nature of the CAT, the number of parties involved with the CAT (including, for example, the SEC, Participants, Industry Members, and vendors) and the many regulatory, contractual and other issues associated with the CAT, the scope of the necessary legal services is substantial. CAT LLC determined that the scope of the proposed legal services is necessary to implement and maintain the CAT and that the legal rates reflect the specialized services necessary for such a project. CAT LLC determined to hire and continue to use each law firm based on a variety of factors, including their relevant expertise and fees. In each case, CAT LLC determined that the fee rates were in line with market rates for specialized legal expertise. In addition, CAT LLC determined that the budgeted costs for the legal projects were appropriate given the breadth of the services provided. The services to be performed by each law firm for the CAT Fee 2026–1 Period and the budgeted costs related to such services are described above.¹⁴¹

(vii) Consulting

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted consulting costs as a part of CAT Fees.¹⁴² CAT LLC determined that the budgeted consulting costs described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. Because there are no CAT employees¹⁴³ and because of the significant number of issues associated with the CAT, the consultants are budgeted to provide assistance in the management of various CAT matters and the processes related to such matters.¹⁴⁴ CAT LLC determined the budgeted consulting costs were appropriate, as the consulting services were to be provided at reasonable market rates that were comparable to the rates charged by other consulting firms for similar work. Moreover, the total budgeted costs for such consulting services were appropriate in light of the breadth of services provided by Deloitte. The services budgeted to be performed by Deloitte and the budgeted costs related to such services are described above.¹⁴⁵

(viii) Insurance

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted insurance costs as a part of CAT Fees.¹⁴⁶ CAT LLC determined that the budgeted insurance costs described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. CAT LLC determined that it is common practice to have directors' and officers' liability insurance, and errors and omissions liability insurance. CAT LLC further determined that it was important to have cyber security insurance given the nature of the CAT, and such a decision is consistent with the CAT NMS Plan, which states that the cyber incident response plan may include "[i]nsurance against security breaches."¹⁴⁷ As discussed above,¹⁴⁸ CAT LLC determined that the budgeted insurance costs were appropriate given its prior experience with this market and an analysis of the alternative insurance offerings. Based on this analysis, CAT LLC determined that the selected insurance policies provided appropriate coverage at reasonable market rates.¹⁴⁹

(ix) Professional and Administration

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted professional and administration costs as a part of CAT Fees.¹⁵⁰ CAT LLC determined that the budgeted professional and administration costs described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. Because there are no CAT employees, all required accounting, financial, tax, cash management and treasury functions for CAT LLC have been outsourced at market rates. In addition, the required annual financial statement audit of CAT LLC is included in professional and administration costs, which costs are also at market rates. The services performed by Anchin and Grant Thornton and the costs related to such services are described above.¹⁵¹

CAT LLC anticipates continuing to make use of Anchin, a financial advisory firm, to assist with financial matters for the CAT. CAT LLC determined that the budgeted costs for Anchin were appropriate, as the

¹⁵¹ See Section 3(a)(2)(C)(ix) above.

financial advisory services were to be provided at reasonable market rates that were comparable to the rates charged by other such firms for similar work. Moreover, the total budgeted costs for such financial advisory services were appropriate in light of the breadth of services provided by Anchin. The services budgeted to be performed by Anchin and the budgeted costs related to such services are described above.¹⁵²

CAT LLC anticipates continuing to make use of Grant Thornton, an independent accounting firm, to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. CAT LLC determined that the budgeted costs for Grant Thornton were appropriate, as the accounting services were to be provided at reasonable market rates that were comparable to the rates charged by other such firms for similar work. Moreover, the total budgeted costs for such accounting services were appropriate in light of the breadth of services provided by Grant Thornton. The services budgeted to be performed by Grant Thornton and the budgeted costs related to such services are described above.¹⁵³

(x) Public Relations Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted public relations costs as a part of CAT Fees.¹⁵⁴ However, as described above,¹⁵⁵ CAT LLC determined not to include any public relations costs in Budgeted CAT Costs 2026–1. CAT LLC determined that it was reasonable not to include any public relations costs in the Budgeted CAT Costs 2026–1.

(xi) Interest Income

Section 11.1(a) of the CAT NMS Plan requires the CAT budget to include “the sources of all revenues to cover costs.” Accordingly, the Updated 2026 CAT Budget includes a line item for interest income. Specifically, the Updated 2026 CAT Budget includes \$1,453,382 in interest income for the CAT Fee 2026–1 Period.¹⁵⁶ CAT LLC determined that using interest income to reduce the amount to be collected via CAT Fees is reasonable and should be included as a part of the Budgeted CAT Costs 2026–1.

(xii) Reserve

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted reserve costs as a part of CAT Fees.¹⁵⁷ CAT LLC determined that the reserve in the amount of 25% of the Updated 2026 CAT Budget (other than the reserve) complies with the requirements of the CAT NMS Plan related to a reserve, is a reasonable amount, and, therefore, should be included as a part of the Updated 2026 CAT Budget.

In its approval order for the CAT Funding Model, the Commission stated that it would be appropriate for the annual operating budget for the CAT to “include a reserve of not more than 25% of the annual budget.”¹⁵⁸ In making this statement, the Commission noted the following:

Because the CAT is a critical regulatory tool/system, the CAT needs to have a stable funding source to build financial stability to support the Company as a going concern. Funding for the CAT, as noted in Section 11.1(b), is the responsibility of the Participants and the industry. Because CAT fees are charged based on the budget, which is based on anticipated volume, it is appropriate to have a reserve on hand to prevent a shortfall in the event there is an unexpectedly high volume in a given year. A reserve would help to assure that the CAT has sufficient resources to cover costs should there be unanticipated costs or costs that are higher than expected.¹⁵⁹

The SEC also recognized that a reserve would help address the difficulty in predicting certain variable CAT costs, like trading volume.¹⁶⁰ The SEC also recognized that CAT fees will be collected approximately three months after trading activity on which a CAT fee is based, or 25% of the year, and that the reserve would be available to address funding needs related to this three-month delay.¹⁶¹ The inclusion of the proposed reserve in the Updated 2026 CAT Budget would provide each of these benefits to the CAT. The reserve is discussed further above.¹⁶²

As discussed further below,¹⁶³ however, a surplus reserve balance in excess of the budgeted 25% reserve has been collected as of the beginning of the year of 2026. Accordingly, the Updated 2026 CAT Budget indicates that this

surplus would be used to offset a portion of CAT costs for the CAT Fee 2026–1 Period, thereby reducing the fee rate for CAT Fee 2026–1 (\$0.000001 per executed equivalent share). If the fee rate for CAT Fee 2026–1 were calculated solely based on the reasonably budgeted costs for CAT for May–December 2026, excluding the reduction in that amount due to the surplus reserve offset, the fee rate would be \$0.000010 per executed equivalent share.

(B) Reconciliation of Budget to the Collected Fees

The CAT NMS Plan also requires fee filings for Prospective CAT Fees to include “a discussion of how the budget is reconciled to the collected fees.”¹⁶⁴ As discussed above,¹⁶⁵ this reserve balance of \$102,391,135 collected via prior CAT Fees would be used to offset a portion of CAT costs for CAT Fee Period 2026–1, thereby reducing the fee rate to be paid for CAT Fee 2026–1. Specifically, the total costs (including the 25% reserve) for CAT Fee 2026–1 of \$117,540,783 would be reduced by the \$102,391,135 in reserve. Therefore, the Total Budgeted CAT Costs 2026–1 would be \$15,149,648. Such surplus reserve balance would be used to reduce the fee rate for CAT Fee 2026–1 (\$0.000001 per executed equivalent share).

(C) Total Executed Equivalent Share Volume for the Prior 12 Months

The total executed equivalent share volume of transactions in Eligible Securities for the period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. CAT LLC determined the total executed equivalent share volume for the prior twelve months by counting executed equivalent shares in the same manner as it counts executed equivalent shares for CAT billing purposes.¹⁶⁶

(D) Projected Executed Equivalent Share Volume for the CAT Fee 2026–1 Period

CAT LLC has determined the projected total executed equivalent share volume for the eight months of the CAT Fee 2026–1 Period by multiplying by 8/12ths the executed equivalent share volume for the prior twelve months: 8/12 times 5,980,937,549,360.49 executed equivalent shares.¹⁶⁷ The Operating Committee determined that such an approach was reasonable as the CAT's

¹⁶⁷ *Id.*

annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.41), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level.

(E) Actual Fee Rate for CAT Fee 2026–1

(i) Decimal Places

As noted in the approval order for the CAT Funding Model, as a practical matter, the fee filing for a CAT Fee would provide the exact fee per executed equivalent share to be paid for each CAT Fee, by multiplying the Fee Rate by one-third and describing the relevant number of decimal places for the fee rate.¹⁶⁸ Accordingly, proposed paragraph (a)(6)(B) of the fee schedule would set forth a fee rate of \$0.000001 per executed equivalent share. This fee rate is calculated by multiplying Fee Rate 2026–1 by one-third and rounding the result to six decimal places. CAT LLC determined that the use of six decimal places is reasonable as it balances the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.¹⁶⁹

(ii) Reasonable Fee Level

The Exchange believes that charging CAT Fee 2026–1 with a fee rate of \$0.000001 per executed equivalent share is reasonable because it provides for a revenue stream for the Company that is aligned with the Budgeted CAT Costs 2026–1. Moreover, the Exchange believes that the level of the fee rate is reasonable, as it is less than CAT Fee 2025–2 and is comparable to other transaction-based fees, including fees assessed pursuant to Section 31.¹⁷⁰ As a result, the magnitude of CAT Fee 2026–1 is small, and therefore will mitigate any potential adverse economic effects or inefficiencies.¹⁷¹

(3) CAT Fee 2026–1 Provides for an Equitable Allocation of Fees

CAT Fee 2026–1 provides for an equitable allocation of fees, as it equitably allocates CAT costs between and among the Participants and Industry Members. The SEC approved

the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfied the requirements of the Exchange Act, including the formula for calculating CAT Fees as well as the Industry Members to be charged the CAT Fees.¹⁷² In approving the CAT Funding Model, the SEC stated that “[t]he Participants have sufficiently demonstrated that the proposed allocation of fees is appropriate and meets the Rule 608(b) approval standard.”¹⁷³ Accordingly, the CAT Funding Model sets forth the requirements for allocating fees related to Budgeted CAT Costs among Participants and Industry Members, and the fee filings for CAT Fees must comply with those requirements.

CAT Fee 2026–1 provides for an equitable allocation of fees as it complies with the requirements regarding the calculation of CAT Fees as set forth in the CAT NMS Plan. For example, as described above, the calculation of CAT Fee 2026–1 complies with the formula set forth in Section 11.3(a) of the CAT NMS Plan. In addition, CAT Fee 2026–1 would be charged to CEBBs and CEBBs in accordance with Section 11.3(a) of the CAT NMS Plan. Furthermore, the Participants would be charged for their designated share of the Budgeted CAT Costs 2026–1 through a fee implemented via the CAT NMS Plan, which would have the same fee rate as CAT Fee 2026–1.

In addition, as discussed above, each of the inputs into the calculation of CAT Fee 2026–1—the Budgeted CAT Costs 2026–1, the count for the executed equivalent share volume for the prior 12 months, and the projected executed equivalent share volume for the CAT Fee 2026–1 Period—is reasonable. Moreover, these inputs lead to a reasonable fee rate for CAT Fee 2026–1 that is lower than other fee rates for transaction-based fees. A reasonable fee rate allocated in accordance with the requirements of the CAT Funding Model provides for an equitable allocation of fees.

(4) CAT Fee 2026–1 Is Not Unfairly Discriminatory

CAT Fee 2026–1 is not an unfairly discriminatory fee. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfies the requirements of the Exchange Act. In reaching this conclusion, the SEC analyzed the potential effect of CAT Fees calculated pursuant to the CAT Funding Model on

affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. CAT Fee 2026–1 complies with the requirements regarding the calculation of CAT Fees as set forth in the CAT NMS Plan. In addition, as discussed above, each of the inputs into the calculation of CAT Fee 2026–1 and the resulting fee rate for CAT Fee 2026–1 is reasonable. Therefore, CAT Fee 2026–1 does not impose an unfairly discriminatory fee on Industry Members.

The Exchange believes the proposed fees established pursuant to the CAT Funding Model promote just and equitable principles of trade, and, in general, protect investors and the public interest, and are provided in a transparent manner and with specificity in the fee schedule. The Exchange also believes that the proposed fees are reasonable because they would provide ease of calculation, ease of billing and other administrative functions, and predictability of a fee based on fixed rate per executed equivalent share. Such factors are crucial to estimating a reliable revenue stream for CAT LLC and for permitting Exchange members to reasonably predict their payment obligations for budgeting purposes.

B. Self-Regulatory Organization's Statement on Burden on Competition

Section 6(b)(8) of the Act¹⁷⁴ requires that the Exchange's rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that CAT Fee 2026–1 implements provisions of the CAT NMS Plan that were approved by the Commission and is designed to assist the Exchange in meeting its regulatory obligations pursuant to the Plan.

In addition, all Participants (including exchanges and FINRA) are proposing to introduce CAT Fee 2026–1 on behalf of CAT LLC to implement the requirements of the CAT NMS Plan. Therefore, this is not a competitive fee filing, and, therefore, it does not raise competition issues between and among the Participants.

¹⁶⁸ CAT Funding Model Approval Order at 13445, n.677.

¹⁶⁹ See Section 3(a)(5)(A) above.

¹⁷⁰ For example, as the SEC noted in the CAT Funding Model Approval Order, recent Section 31 fees ranged from \$0.00007 per share to \$0.00072 per share. CAT Funding Model Approval Order at 13469.

¹⁷¹ *Id.*

¹⁷² See Section 11.3(a) of the CAT NMS Plan.

¹⁷³ CAT Funding Model Approval Order at 13412.

¹⁷⁴ 15 U.S.C. 78f(b)(8).

Furthermore, in approving the CAT Funding Model, the SEC analyzed the potential competitive impact of the CAT Funding Model, including competitive issues related to market services, trading services and regulatory services, efficiency concerns, and capital formation.¹⁷⁵ The SEC also analyzed the potential effect of CAT fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. Based on this analysis, the SEC approved the CAT Funding Model as compliant with the Exchange Act. CAT Fee 2026–1 is calculated and implemented in accordance with the CAT Funding Model as approved by the SEC.

As discussed above, each of the inputs into the calculation of CAT Fee 2026–1 is reasonable and the resulting fee rate for CAT Fee 2026–1 calculated in accordance with the CAT Funding Model is reasonable. Therefore, CAT Fee 2026–1 would not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Not applicable.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii)¹⁷⁶ of the Act.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)¹⁷⁷ of the Act to determine whether the proposed rule

change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-IEX-2026-11 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to file number SR-IEX-2026-11. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-IEX-2026-11 and should be submitted on or before June 2, 2026.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁷⁸

Stephanie J. Fouse,
Assistant Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-105399; File No. SR-CboeBZX-2026-035]

Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Establish Fees for Industry Members Related to Reasonably Budgeted CAT Costs of the National Market System Plan Governing the Consolidated Audit Trail for the Period From May 1, 2026 Through December 31, 2026

May 7, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on April 23, 2026, Cboe BZX Exchange, Inc. (the "Exchange" or "BZX") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe BZX Exchange, Inc. (the "Exchange" or "BZX") proposes to amend its "Consolidated Audit Trail Funding Fees"³ fee schedule to establish fees for Industry Members⁴ related to reasonably budgeted CAT costs of the National Market System Plan Governing the Consolidated Audit Trail (the "CAT NMS Plan" or "Plan") for the period from May 1, 2026 through December 31, 2026. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Commission's website (<https://www.sec.gov/rules/sro.shtml>), the Exchange's website (<https://www.cboe.com/us/equities/>

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ The Exchange and each of its affiliated exchanges (Cboe BYX Exchange, Inc., Cboe C2 Exchange, Cboe Exchange Inc., Cboe EDGA Exchange, Inc., and Cboe EDGX Exchange, Inc.) are filing to make the same amendment to the "Consolidated Audit Trail Funding Fees" fee schedule.

⁴ An "Industry Member" is defined as "a member of a national securities exchange or a member of a national securities association." See Exchange Rule 4.5(u); see also Section 1.1 of the CAT NMS Plan. Unless otherwise specified, capitalized terms used in this rule filing are defined as set forth in the CAT NMS Plan and/or the CAT Compliance Rule. See Exchange Rules 4.5-4.17.

regulation/rule_filings/bzx/), and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On July 11, 2012, the Commission adopted Rule 613 of Regulation NMS, which required the self-regulatory organizations ("SROs") to submit a national market system ("NMS") plan to create, implement and maintain a consolidated audit trail that would capture customer and order event information for orders in NMS securities across all markets, from the time of order inception through routing, cancellation, modification or execution.⁵ On November 15, 2016, the Commission approved the CAT NMS Plan.⁶ Under the CAT NMS Plan, the Operating Committee has the discretion to establish funding for CAT LLC to operate the CAT, including establishing fees for Industry Members to be assessed by CAT LLC that would be implemented on behalf of CAT LLC by the Participants.⁷ The Operating Committee adopted a revised funding model to fund the CAT ("CAT Funding Model"). On March 16, 2026, the Commission approved the CAT Funding Model after concluding that the model satisfied the requirements of Section 11A of the Exchange Act and Rule 608 thereunder.⁸

The CAT Funding Model provides a framework for the recovery of the costs

to create, develop and maintain the CAT, including providing a method for allocating costs to fund the CAT among Participants and Industry Members. The CAT Funding Model establishes two categories of fees: (1) CAT fees assessed by CAT LLC and payable by certain Industry Members to recover a portion of historical CAT costs previously paid by the Participants ("Historical CAT Assessment" fees); and (2) CAT fees assessed by CAT LLC and payable by Participants and Industry Members to fund prospective CAT costs ("CAT Fees").⁹

Under the CAT Funding Model, Participants, CEBBs and CEBSSs are subject to fees designed to cover the ongoing budgeted costs of the CAT, as determined by the Operating Committee. "The Operating Committee will establish fees ('CAT Fees') to be payable by Participants and Industry Members with regard to CAT costs not previously paid by the Participants ('Prospective CAT Costs')." ¹⁰ In establishing a CAT Fee, the Operating Committee will calculate a "Fee Rate" for the relevant period. Then, for each month in which a CAT Fee is in effect, each CEBB and CEBSS would be required to pay the fee for each transaction in Eligible Securities executed by the CEBB or CEBSS from the prior month as set forth in CAT Data, where the fee for each transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Fee Rate.

The CAT Fees to be paid by CEBBs and CEBSSs are designed to contribute toward the recovery of two-thirds of the budgeted CAT costs for the relevant period.¹¹ The CAT Funding Model is designed to require that the Participants contribute to the recovery of the remaining one-third of the budgeted CAT costs.¹² Participants would be subject to the same Fee Rate as CEBBs and CEBSSs.¹³ While CAT Fees charged to Industry Members become effective in accordance with the requirements of

Section 19(b) of the Exchange Act,¹⁴ CAT fees charged to Participants are implemented via an approval of the CAT fees by the Operating Committee in accordance with the requirements of the CAT NMS Plan.¹⁵ Accordingly, this filing does not address Participant CAT fees as they are described in the CAT NMS Plan.¹⁶

CAT LLC proposes to charge CEBBs and CEBSSs (as described in more detail below) CAT Fee 2026–1 to recover the reasonably budgeted CAT costs for the period from May 1, 2026 through December 31, 2026 in accordance with the CAT Funding Model. To implement this fee on behalf of CAT LLC, the CAT NMS Plan requires the Participants to "file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves, and such fees shall be labeled as 'Consolidated Audit Trail Funding Fees.'" ¹⁷ The Plan further states that "[o]nce the Operating Committee has approved such Fee Rate, the Participants shall be required to file with the SEC pursuant to Section 19(b) of the Exchange Act CAT Fees to be charged to Industry Members calculated using such Fee Rate." ¹⁸ Accordingly, the purpose of this filing is to implement a CAT Fee on behalf of CAT LLC for Industry Members, referred to as CAT Fee 2026–1, in accordance with the CAT NMS Plan.

(1) CAT Executing Brokers

CAT Fee 2026–1 will be charged to each CEBB and CEBSS for each applicable transaction in Eligible Securities.¹⁹ The CAT NMS Plan defines a "CAT Executing Broker" to mean: (a) with respect to a transaction in an Eligible Security that is executed on an exchange, the Industry Member identified as the Industry Member responsible for the order on the buy-side of the transaction and the Industry

¹⁴ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹⁵ CAT Funding Model Approval Order at 13448.

¹⁶ See Section 11.3(a)(ii) and Appendix B of the CAT NMS Plan.

¹⁷ Section 11.1(b) of the CAT NMS Plan.

¹⁸ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹⁹ In its approval of the CAT Funding Model, the Commission determined that charging CAT fees to CAT Executing Brokers was appropriate. In reaching this conclusion, the Commission noted that the use of CAT Executing Brokers is appropriate because the CAT Funding Model is based upon the calculation of *executed* equivalent shares, and, therefore, charging CAT Executing Brokers would reflect their executing role in each transaction. Furthermore, the Commission noted that, because CAT Executing Brokers are already identified in transaction reports from the exchanges and FINRA's equity trade reporting facilities recorded in CAT Data, charging CAT Executing Brokers could streamline the billing process. CAT Funding Model Approval Order at 13413.

⁸ Securities Exchange Act Rel. No. 105003 (Mar. 16, 2026), 91 FR 13410 (Mar. 19, 2026) ("CAT Funding Model Approval Order").

This CAT Funding Model replaced the prior funding model that was approved by the Commission on September 6, 2023. Securities Exchange Act Release No. 98290 (Sept. 6, 2023), 88 FR 62628 (Sept. 12, 2023).

⁹ Under the CAT Funding Model, the Operating Committee may establish CAT Fees related to CAT costs going forward. Section 11.3(a) of the CAT NMS Plan. This filing only establishes CAT Fee 2026–1 related to reasonably budgeted CAT costs for the period from May 1, 2026 through December 31, 2026 as described herein; it does not address any other potential CAT Fees related to CAT costs. Any such other CAT Fee will be subject to a separate fee filing. In addition, under the CAT Funding Model, the Operating Committee may establish one or more Historical CAT Assessments. Section 11.3(b) of the CAT NMS Plan. This filing does not address any Historical CAT Assessments.

¹⁰ Section 11.3(a) of the CAT NMS Plan.

¹¹ Section 11.3(a)(iii)(A) of the CAT NMS Plan.

¹² Section 11.3(a)(ii)(A) of the CAT NMS Plan.

¹³ Section 11.3(a)(ii) of the CAT NMS Plan.

Member responsible for the sell-side of the transaction in the equity order trade event and option trade event in the CAT Data submitted to the CAT by the relevant exchange pursuant to the Participant Technical Specifications; and (b) with respect to a transaction in an Eligible Security that is executed otherwise than on an exchange and required to be reported to an equity trade reporting facility of a registered national securities association, the

Industry Member identified as the executing broker and the Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event in the CAT Data submitted to the CAT by FINRA pursuant to the Participant Technical Specifications; provided, however, in those circumstances where there is a non-Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event or no

contra-side executing broker is identified in the TRF/ORF/ADF transaction data event, then the Industry Member identified as the executing broker in the TRF/ORF/ADF transaction data event would be treated as CAT Executing Broker for the Buyer and for the Seller.²⁰

The following fields of the Participant Technical Specifications indicate the CAT Executing Brokers for the transactions executed on an exchange:

EQUITY ORDER TRADE (EOT)²¹

No.	Field name	Data type	Description	Include key
12.n.8/ 13.n.8	member	Member Alias	The identifier for the member firm that is responsible for the order on this side of the trade. Not required if there is no order for the side as indicated by the NOBUYID/NOSELLID instruction. This must be provided if orderID is provided.	C

OPTION TRADE (OT)²²

No.	Field name	Data type	Description	Include key
16.n.13/ 17.n.13	member	Member Alias	The identifier for the member firm that is responsible for the order.	R

In addition, the following fields of the Participant Technical Specifications would indicate the CAT Executing

Brokers for the transactions executed otherwise than on an exchange:

TRF/ORF/ADF TRANSACTION DATA EVENT (TRF)²³

No.	Field name	Data type	Description	Include key
26	reportingExecutingMpid	Member Alias	MPID of the executing party	R
28	contraExecutingMpid	Member Alias	MPID of the contra-side executing party	C

(2) Calculation of Fee Rate 2026–1

The Operating Committee determined the Fee Rate to be used in calculating CAT Fee 2026–1 (“Fee Rate 2026–1”) by dividing the reasonably budgeted CAT costs (“Budgeted CAT Costs 2026–1”) for the period from May 1, 2026 through December 31, 2026 (“CAT Fee 2026–1 Period”) by the reasonably projected total executed share volume of all transactions in Eligible Securities for the eight-month recovery period, as discussed in detail below.²⁴ Based on

this calculation, the Operating Committee has determined that Fee Rate 2026–1 would be \$0.000003799483243631228 per executed equivalent share. This rate is then divided by three and rounded to determine the fee rate of \$0.000001 per executed equivalent share that will be assessed to CEBBs and CEBSSs, as also discussed in detail below.

(A) CAT Fee 2026–1 Period

CAT LLC proposes to implement CAT Fee 2026–1. CAT LLC proposes to

commence CAT Fee 2026–1 during the year, rather than at the beginning of the year. Accordingly, CAT Fee 2026–1 “would be calculated as described in paragraph (II)” of Section 11.3(a)(i)(A) of the CAT NMS Plan,²⁵ which states that “[d]uring each year, the Operating Committee will calculate a new Fee Rate by dividing the reasonably budgeted CAT costs for the remainder of the year by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the

²⁰ Section 1.1 of the CAT NMS Plan. Note that CEBBs and CEBSSs may, but are not required to, pass-through their CAT Fees to their clients, who may, in turn, pass their fees to their clients until they are imposed ultimately on the account that executed the transaction. See CAT Funding Model Approval Order at 13424.

²¹ See Table 23, Section 4.7 (Order Trade Event) of the CAT Reporting Technical Specifications for Plan Participants, Version 4.1.1 r1 (Apr. 14, 2025), https://www.catnmsplan.com/sites/default/files/2025-04/04.14.2025_CAT_Reporting_Technical_Specifications_for_Participants_4.1.1-r1.pdf (“CAT Reporting Technical Specifications for Plan Participants”).

²² See Table 51, Section 5.2.5.1 (Simple Option Trade Event) of the CAT Reporting Technical Specifications for Plan Participants.

²³ See Table 61, Section 6.1 (TRF/ORF/ADF Transaction Data Event) of the CAT Reporting Technical Specifications for Plan Participants.

²⁴ Section 11.3(a)(i) of the CAT NMS Plan.

²⁵ Section 11.3(a)(i)(A)(IV) of the CAT NMS Plan.

remainder of the year.”²⁶ For CAT Fee 2026–1, the reasonably budgeted CAT costs for “the remainder of the year” are the reasonably budgeted CAT costs from May 1, 2026 through December 31, 2026 as set forth in the updated annual budget for 2026 for CAT LLC approved by the Operating Committee on March 31, 2026 (“Updated 2026 CAT Budget”).²⁷

(B) Executed Equivalent Shares for Transactions in Eligible Securities

Under the CAT NMS Plan, for purposes of calculating CAT Fees, executed equivalent shares in a transaction in Eligible Securities will be reasonably counted as follows: (1) each executed share for a transaction in NMS Stocks will be counted as one executed equivalent share; (2) each executed contract for a transaction in Listed Options will be counted based on the multiplier applicable to the specific Listed Options (*i.e.*, 100 executed equivalent shares or such other applicable multiplier); and (3) each executed share for a transaction in OTC Equity Securities will be counted as 0.01 executed equivalent share.²⁸

(C) Budgeted CAT Costs 2026–1

The CAT NMS Plan states that “[t]he budgeted CAT costs for the year shall be comprised of all reasonable fees, costs and expenses reasonably budgeted to be incurred by or for the Company in connection with the development, implementation and operation of the CAT as set forth in the annual operating budget approved by the Operating Committee pursuant to Section 11.1(a) of the CAT NMS Plan, or as adjusted during the year by the Operating Committee.”²⁹ Section 11.1(a) of the CAT NMS Plan describes the requirement for the Operating Committee to approve an operating

budget for CAT LLC on an annual basis. It requires the budget to “include the projected costs of the Company, including the costs of developing and operating the CAT for the upcoming year, and the sources of all revenues to cover such costs, as well as the funding of any reserve that the Operating Committee reasonably deems appropriate for the prudent operation of the Company.” Section 11.1(a)(i) of the CAT NMS Plan further states that:

[w]ithout limiting the foregoing, the reasonably budgeted CAT costs shall include technology (including cloud hosting services, operating fees, CAIS operating fees, change request fees and capitalized developed technology costs), legal, consulting, insurance, professional and administration, and public relations costs, a reserve and such other cost categories as reasonably determined by the Operating Committee to be included in the budget.

In accordance with the requirements under the CAT NMS Plan, the Operating Committee approved an annual budget for 2026 for CAT LLC (“Original 2026 CAT Budget”) on December 11, 2025.³⁰ On March 31, 2026, the Operating Committee approved an updated budget for 2026, referred to as the Updated 2026 CAT Budget. The Updated 2026 CAT Budget includes actual costs for each category for January and February 2026, with updated estimated costs for the remainder of the year. The updated costs for May through December as included in the Updated 2026 CAT Budget (*i.e.*, Budgeted CAT Costs 2026–1) are the costs used in calculating CAT Fee 2026–1.³¹ The 2026 CAT budgets, both the Original 2026 CAT Budget and the Updated 2026 CAT Budget, were

prepared on the accrual basis of accounting.³²

As described in detail below, the Budgeted CAT Costs 2026–1 would be \$15,149,648. CEBBs collectively will be responsible for one-third of the Budgeted CAT Costs 2026–1 (which is \$5,049,882.67), and CEBBs collectively will be responsible for one-third of the Budgeted CAT Costs 2026–1 (which is \$5,049,882.67).

The following describes in detail the Budgeted CAT Costs 2026–1 for CAT Fee 2026–1. The following cost details are provided in accordance with the requirement in the CAT NMS Plan to provide in the fee filing the following: the budget for the upcoming year (or remainder of the year, as applicable), including a brief description of each line item in the budget, including (1) technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration, and (6) public relations costs, a reserve and/or such other categories as reasonably determined by the Operating Committee to be included in the budget, and the reason for changes in each such line item from the prior CAT fee filing.³³

Each of the costs described below is reasonable, appropriate and necessary for the creation, implementation and maintenance of CAT.

The following table breaks down the Budgeted CAT Costs 2026–1 into the categories set forth in Section 11.3(a)(iii)(B) of the CAT NMS Plan.³⁴ The Budgeted CAT Costs 2026–1 reflect the costs for May through December as included in the Updated 2026 CAT Budget. The Budgeted CAT Costs 2026–1 are the costs used in calculating CAT Fee 2026–1.

BUDGETED CAT COSTS 2026–1

Budget category	Budgeted CAT costs 2026–1 ^b (<i>i.e.</i> , costs for May–December 2026)
Capitalized Developed Technology Costs ^a	°\$3,450,000
Technology Costs:	83,737,680

²⁶ Section 11.3(a)(i)(A)(II) of the CAT NMS Plan.

²⁷ The Updated 2026 CAT Budget is available on the CAT website (<https://www.catnmsplan.com/sites/default/files/2026-04/03.31.26-CAT-2026-Budget.pdf>).

²⁸ Section 11.3(a)(i)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission concluded that “the use of executed equivalent share volume provides an appropriate basis for the calculation of CAT fees.” CAT Funding Model Approval Order at 13413.

²⁹ Section 11.3(a)(i)(C) of the CAT NMS Plan.

³⁰ The Original 2026 CAT Budget is available on the CAT website (<https://www.catnmsplan.com/>

[sites/default/files/2025-12/12.08.25-CAT-LLC-2026-Financial_and_Operating_Budget.pdf](https://www.catnmsplan.com/sites/default/files/2025-12/12.08.25-CAT-LLC-2026-Financial_and_Operating_Budget.pdf)).

³¹ The version of the Updated 2026 CAT Budget set forth on the CAT website is presented on a quarterly basis, but is prepared based on more granular detail. The costs for May and June are estimated based on two-thirds of costs for Q2 where the budgeted monthly amounts are consistent. For those cases in which the costs for a category vary from month to month in Q2, the specific budgeted amounts for May and June are noted.

³² CAT budgets for periods prior to 2025 were prepared on the cash basis of accounting, as such budgets were primarily used to determine the dollar amount of promissory notes from the Participants that were required to fund the ongoing operations

of the CAT. Commencing in 2025, with the contemplated recovery of costs from Industry Members and the Participants via CAT Fees, the Original 2025 CAT Budget was prepared on the accrual basis of accounting to properly match projected revenues with estimated expenses incurred. A cash basis budget reflects expenditures when paid, while an accrual basis budget reflects expenditures when incurred. In moving from a cash basis budget to an accrual basis budget, there is no double counting of expenses.

³³ Section 11.3(a)(iii)(B) of the CAT NMS Plan.

³⁴ Note that costs and related cost calculations provided in this filing may reflect minor variations from the budgeted costs due to rounding.

BUDGETED CAT COSTS 2026–1—Continued

Budget category	Budgeted CAT costs 2026–1 ^b (i.e., costs for May–December 2026)
Cloud Hosting Services	^d 49,866,667
Operating Fees	^e 19,691,953
CAIS Operating Fees	^f 14,179,060
Change Request Fees	^g 0
Legal	^h 5,670,452
Consulting	ⁱ 1,025,957
Insurance	^j 852,768
Professional and administration	^k 749,151
Public relations	^l 0
Interest Income	^m (1,453,382)
Total Costs	94,032,626
Reserve (25% of Total Costs)	23,508,157
Total Costs and Reserve	117,540,783
Use of Existing Reserve	ⁿ (102,391,135)
Total Budgeted CAT Costs 2026–1	15,149,648

^a The non-cash amortization of these capitalized developed technology costs to be incurred during the CAT Fee 2026–1 Period have been appropriately excluded from the above table.³⁵

^b Budgeted CAT Costs 2026–1 described in this table of costs were determined based on an analysis of a variety of factors, including historical costs/invoices, estimated costs from respective vendors/service providers, contractual terms with vendors/service providers, anticipated service levels and needs, and discussions with vendors and Participants.

^c This cost number for capitalized developed technology costs reflects (1) capitalized developed technology costs of \$3,450,000 for May, \$0 for June and \$0 for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget; and (2) \$0 for the Software License Fee 2026 for the second, third, and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\$3,450,000 + \$0 + \$0 + \$0) + (\$0 + \$0 + \$0) = \$3,450,000$.

^d This cost number for cloud hosting services reflects two-thirds of the cloud hosting services costs for the second quarter and the cloud hosting services for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$18,700,000) + \$18,700,000 + \$18,700,000 = \$49,866,667$.

^e This cost number for operating fees reflects (1) two-thirds of the Non-CAIS fixed operating fees for the second quarter and the Non-CAIS fixed operating fees for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget and (2) two-thirds of the market data vendor fees for the second quarter and the market data vendor fees for the third and fourth quarter of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$7,191,853) + \$7,191,853 + \$7,191,853 + (\frac{2}{3} \times \$192,630) + \$192,630 + \$192,630 = \$19,691,953$.

^f This cost number for CAIS operating fees reflects two-thirds of the CAIS fixed operating fees for the second quarter and the CAIS fixed operating fees for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$5,317,147) + \$5,317,147 + \$5,317,147 = \$14,179,060$.

^g This \$0 cost number for change requests reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

^h This cost number for legal services reflects two-thirds of the legal costs for the second quarter and the legal costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

ⁱ This cost number for consulting services reflects two-thirds of the consulting costs for the second quarter and the consulting costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$384,734) + \$384,734 + \$384,734 = \$1,025,957$.

^j This cost number for insurance reflects two-thirds of the insurance costs for the second quarter and the insurance costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$300,977) + \$321,042 + \$331,074 = \$852,768$.

^k This cost number for professional and administration services reflects two-thirds of the professional and administration costs for the second quarter and the professional and administration costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$280,932) + \$280,932 + \$280,932 = \$749,151$.

^l This \$0 cost number of change requests reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

^m This interest income reflects interest income (net of bank fees) of \$517,208 for May and June and interest income (net of bank fees) for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $\$517,208 + \$571,010 + \$365,164 = \$1,453,382$. Note that interest income for May and June 2026 of \$517,208 is slightly less than two-thirds of \$809,598 (which is \$539,732) for the second quarter as the amount of interest income varies from month to month.

ⁿ This amount for the use of the existing reserve is calculated by subtracting from the Accrued Liquidity Reserve Balance as of the Beginning of the Year in the Updated 2026 CAT Budget the 25% Incremental Liquidity Reserve Accrued during 2026 for the first quarter and for April of 2026 as included in the Updated 2026 CAT Budget: $\$155,403,378 - (\$41,800,153 + \$11,212,091) = \$102,391,135$. Note that the 25% Incremental Liquidity Reserved Accrued during 2026 for April 2026 of \$11,212,091 is slightly more than one-third of \$33,366,432 (which is \$11,122,144) for the second quarter as the amount of the 25% Incremental Liquidity Reserved Accrued during 2026 varies from month to month.

To the extent that CAT LLC enters into notes with Participants or others to pay costs incurred during the period in which CAT Fee 2026–1 is in effect, CAT LLC will use the proceeds from CAT Fee 2026–1 and the related Participant CAT fees to repay such notes.

The following table compares the annual budgeted CAT costs as set forth

in the updated annual CAT budget for 2025 approved by the Operating Committee in May 2025 (“May Updated 2025 CAT Budget”),³⁶ the updated annual CAT budget for 2025 approved

been otherwise reflected in the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

³⁶ The May Updated 2025 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-05/05.19.25-CAT-LLC-2025-Financial_and_Operating-Budget.pdf).

by the Operating Committee in November 2025 (“November Updated 2025 CAT Budget”),³⁷ the Original 2026 CAT Budget and the Updated 2026 CAT Budget, and is provided for informational purposes. In each case, the costs provided reflect the costs for the entire year for each of the budgets; this differs from the above chart which

³⁷ The November Updated 2025 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-12/12.22.25-CAT-LLC-2025-Financial_and_Operating-Budget.pdf).

³⁵ With respect to certain costs that were “appropriately excluded,” such excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already

focuses on budgeted costs for the period from May 1, 2026 through December 31, 2026, which, as noted, are the costs that are used in the calculation of the fee rate in this fee filing.

COMPARISON OF FULL YEAR BUDGETED COSTS

Budget category	Full year of 2025 budgeted CAT costs from updated 2025 CAT budget (May 2025)	Full year of 2025 budgeted CAT costs from updated 2025 budget (Nov. 2025)	Full year of 2026 budgeted CAT costs from original 2026 CAT budget	Full year of 2026 budgeted CAT costs from updated 2026 CAT budget
Capitalized Developed Technology Costs ^a	\$4,871,962	\$5,163,991	\$8,228,827	\$8,378,964
Technology Costs	211,548,472	173,091,660	137,514,003	128,643,476
Cloud Hosting Services	159,230,937	122,084,811	81,900,006	77,529,362
Operating Fees ^b	30,817,686	29,932,001	34,345,413	29,845,524
CAIS Operating Fees	20,749,848	20,749,848	21,268,584	21,268,590
Change Request Fees	750,000	325,000	0	0
Legal	7,370,002	7,312,547	8,485,000	8,939,184
Consulting	1,749,998	1,750,000	1,550,000	1,550,000
Insurance	1,594,452	1,368,750	1,505,625	1,254,070
Professional and administration	1,193,090	1,392,679	1,145,500	1,085,500
Public relations	6,575	6,575	0	0
Interest Income	0	(2,510,223)	(1,995,958)	(2,806,325)
Total Annual CAT Costs ^c	228,334,551	187,575,979	156,432,998	147,044,869

^a This cost number is calculated by adding together the Capitalized Developed Technology Costs and the Software License Fee for each budget.

^b This cost number is calculated by adding together the Operating fees, the Cyber Insurance Premium Adjustment (if any) and market data vendor fees (if any separate fees) for each budget.

^c This total cost number does not include an amount for a reserve.

In addition, the following table compares the budgeted costs for January and February 2026 that were used in drafting the Original 2026 CAT Budget with the actual costs for January and February 2026 that were used in

drafting the Updated 2026 CAT Budget. The Original 2026 CAT Budget includes budgeted costs for January and February 2026, whereas the Updated 2026 CAT Budget includes actual costs for January and February 2026. The variance from

the budgeted costs for January and February 2026 to the actual costs for January and February 2026 are used in this filing in supporting the reasonableness of the estimates for each category of costs.

COMPARISON OF BUDGETED AND ACTUAL COSTS FOR JANUARY & FEBRUARY 2026

Budget category	Budgeted costs for January & February 2026 (as used in drafting the original 2026 CAT budget)	Actual costs for January & February 2026 (as used in drafting the updated 2026 CAT budget)	Variance from budgeted costs for January & February 2026 to actual costs for January & February of 2026
Capitalized Developed Technology Costs ^a	\$671,472	\$4,145,430	Increase by \$3,473,958. ^b
Technology Costs:	25,894,000	21,501,183	
Cloud Hosting Services	17,200,000	12,829,362	Decrease by 4,370,638. ^c
Operating Fees	5,149,236	5,127,057	Decrease by 22,179.
CAIS Operating Fees	3,544,764	3,544,764	No change.
Change Request Fees	0	0	No change.
Legal	1,424,166	1,838,617	Increase by 414,451. ^d
Consulting	258,334	267,554	Increase by 9,220.
Insurance	250,938	200,652	Decrease by 50,286.
Professional and administration	190,916	149,061	Decrease by 41,855.
Public relations	0	0	No change.
Interest Income	(758,343)	(757,527)	Decrease by 816.
Total	27,931,483	27,344,970	Decrease by 586,513.

^a This cost number for capitalized developed technology costs is calculated by adding together the capitalized developed technology costs and the software license fee for each budget.

^b The variance for capitalized developed technology costs is the result of costs related to the software license fee in accordance with the Plan Processor Agreement with FCAT.

^c This variance is attributable to lower than forecasted market volumes and the impact of lower processing costs due to shutting down certain functionalities.

^d The variance in legal costs is attributable to unanticipated issues that required additional legal efforts on behalf of CAT LLC that developed after the budget was created.

(i) Technology Costs—Cloud Hosting Services

(a) Description of Cloud Hosting Services Costs

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the cloud hosting services costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$49,866,667 in technology costs for cloud hosting services for the CAT Fee 2026–1 Period. The technology costs for cloud hosting services represent costs reasonably budgeted to be incurred for services provided by the cloud services provider for the CAT, Amazon Web Services, Inc. (“AWS”) during the CAT Fee 2026–1 Period.

In the agreement between CAT LLC and the Plan Processor for the CAT (“Plan Processor Agreement”), FINRA CAT, LLC (“FCAT”), AWS was named as the subcontractor to provide cloud hosting services. Under the Plan Processor Agreement, CAT LLC is required to pay FCAT the fees incurred by the Plan Processor for cloud hosting services provided by AWS as FCAT’s subcontractor on a monthly basis for the cloud hosting services, and FCAT, in turn, pays such fees to AWS. The fees for cloud hosting services were negotiated by FCAT on an arm’s length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the expected volume of data, the breadth of services provided and market rates for similar services. Services provided by AWS include storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as well as various environments for CAT, such as development, performance testing, test, and production environments. FCAT utilizes such cloud hosting services for a broad array of services for the CAT, such as data ingestion, data management, and analytic tools for the CAT. AWS performs cloud hosting services for both the CAT transaction database as well as the Reference Database (previously referred to as the Customer and Account Information System, or “CAIS”).³⁸ It is anticipated that such cloud hosting

services will continue during the CAT Fee 2026–1 Period.

The cost for AWS cloud services for the CAT is a function of the volume of CAT Data, largely as a result of the processing and storage of the CAT Data.³⁹ The greater the amount of CAT Data, the greater the cost of AWS services to CAT LLC. During the CAT Fee 2026–1 Period, it is expected that AWS would provide cloud hosting services for volumes of CAT Data far in excess of the volume predictions set forth in the CAT NMS Plan. The CAT NMS Plan states, when all CAT Reporters are submitting their data to the CAT, it “must be sized to receive[,] process and load more than 58 billion records per day,”⁴⁰ and that “[i]t is expected that the Central Repository will grow to more than 29 petabytes of raw, uncompressed data.”⁴¹ In contrast with those estimates, the Q3 2025 data volumes averaged 792 billion events per day. The highest peak data volume to date of 1.45 trillion events was recorded on April 7, 2025. The top five peak days were recorded in April 2025.

CAT LLC estimates that the budget for cloud hosting services costs during the CAT Fee 2026–1 Period will be approximately \$49,866,667.⁴² The budget for cloud hosting services costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the cloud hosting services costs for the second quarter and the cloud hosting services for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget.⁴³

CAT LLC estimated the budget for the cost for cloud hosting services for the CAT Fee 2026–1 Period based on an assumption of 35% annual year-over-year volume growth for the transaction database and an assumption of 5% annual year-over-year volume growth

for the Reference Database. CAT LLC determined these growth assumptions in coordination with FCAT.⁴⁴

This process for estimating the budget for cloud hosting services costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the cloud hosting services costs for the Original 2026 CAT Budget.

The Original 2026 CAT Budget estimated a budget for cloud hosting services of \$17,200,000 for January and February 2026. The actual costs for cloud hosting services for January and February 2026, which are set forth in the Updated 2026 CAT Budget, were \$12,829,362. Therefore, the variance between budgeted and actual cloud hosting services costs for January and February 2026 was an approximate decrease of \$4,370,638 as a result of lower volumes and a change in functionality.⁴⁵ Accordingly, CAT LLC believes that the process for estimating the budgeted cloud hosting services costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for cloud hosting services costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the cloud hosting services costs from the Original 2026 Budget.⁴⁶ Specifically, the following describes the differences in the costs for cloud hosting services included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for cloud hosting services included in the

⁴⁴ Note that these growth rates are based on events processed and stored in the CAT. Executed transactions are a small subset of such events. As a result, the number of transactions in the CAT, and, hence, the number of executed equivalent shares, is not directly correlated with the number of events processed in the CAT or the costs of cloud hosting services for the CAT. Accordingly, the number of executed equivalent shares may stay relatively constant from year to year while the number of events processed and stored in the CAT may grow significantly.

⁴⁵ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁴⁶ The last Prospective CAT Fee, CAT Fee 2025–2, was implemented pursuant to the prior CAT funding model. Moreover, the final invoice for CAT Fee 2025–2 was sent in December 2025, and, therefore, there is a six-month gap between the final invoice for CAT Fee 2025–2 and the first invoice for CAT Fee 2026–1, which would be in June 2026. Accordingly, this filing describes the changes in the cloud hosting services costs from the Original 2026 Budget.

No. 104586 (Jan. 13, 2026), 91 FR 2164 (Jan. 16, 2026) (“CAIS Amendment”). The SEC subsequently approved another amendment to the CAT NMS Plan to implement various cost savings measures that made further changes to the Reference Database. Securities Exchange Act Rel. No. 105107 (Mar. 27, 2026), 91 FR 16284 (Mar. 27, 2026) (“Cost Savings Amendment”).

³⁹ In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. For further discussion of the effect of processing timelines on cloud hosting costs, see Section 3(b)(2)(A)(i) below.

⁴⁰ Section 1.3 of Appendix D of the CAT NMS Plan, n.262.

⁴¹ Section 1.3 of Appendix D of the CAT NMS Plan.

⁴² See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁴³ This calculation is $(\frac{2}{3} \times \$18,700,000) + \$18,700,000 + \$18,700,000 = \$49,866,667$.

³⁸ On January 13, 2026, the SEC approved an amendment to the CAT NMS Plan relating to the Customer and Account Information System (referred to as “CAIS”). Effective with this amendment, CAIS has been renamed as the “Reference Database.” Securities Exchange Act Rel.

Original 2026 CAT Budget were \$81,900,006, and the annual 2026 budgeted costs for cloud hosting services included in the Updated 2026 CAT Budget are \$77,529,362. Accordingly, budgeted annual costs for cloud hosting services decreased by \$4,370,644 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 5% reduction in cloud hosting services costs for the full year of 2026.⁴⁷ The budgeted decrease in costs for cloud hosting services reflects lower costs for January and February 2026 due to lower than forecasted market volumes in January and the impact of lower processing costs due to shutting down certain functionalities.

(ii) Technology Costs—Operating Fees

(a) Description of Operating Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the operating fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$19,691,953 in technology costs for operating fees for the CAT Fee 2026–1 Period. Operating fees are those fees paid by CAT LLC to FCAT as the Plan Processor to operate and maintain the CAT and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management as required by the CAT NMS Plan. Operating fees also include market data provider costs, as discussed below.

Plan Processor: FCAT. Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT a negotiated monthly fixed price for the operation of the CAT. This fixed price contract was negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity. It is anticipated that FCAT will provide a variety of services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Provide the CAT-related functions and services as the Plan Processor as required by SEC Rule 613 and the CAT

NMS Plan in connection with the operation and maintenance of the CAT;

- Address compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provide support to the Operating Committee, the Compliance Subcommittee and CAT working groups;
- Assist with interpretive efforts, exemptive requests and amendments regarding the CAT NMS Plan;
- Oversee the security of the CAT;
- Monitor the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provide support to subcontractors under the Plan Processor Agreement;
- Provide support in discussions with the Participants and the SEC and its staff;
- Operate the FINRA CAT Helpdesk;
- Facilitate communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administer the CAT website and all of its content;
- Maintain cyber security insurance related to the CAT;
- Assist with billing, collection and other CAT fee-related activity; and
- Provide technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

CAT LLC calculated the budget for the FCAT technology costs for operating fees for the CAT Fee 2026–1 Period based on the recurring monthly operating fees under the Plan Processor Agreement.

Market Data Provider: Algoseek. It is anticipated that the operating fees costs for the CAT Fee 2026–1 Period will include costs related to the receipt of certain market data for the CAT pursuant to an agreement between FCAT and Algoseek, LLC (“Algoseek”). CAT LLC determined that Algoseek would provide market data that included data elements set forth in Section 6.5(a)(ii) of the CAT NMS Plan, and that the fees were reasonable and in line with market rates for the market data received. All costs under the contract would be treated as a direct pass through cost to CAT LLC. CAT LLC estimated the budget for the costs for Algoseek for the CAT Fee 2026–1 Period based on the monthly rate set forth in the agreement between Algoseek and FCAT.

Operating Fee Estimates. CAT LLC estimates that the budget for operating fees during the CAT Fee 2026–1 Period

will be approximately \$19,691,953.⁴⁸ The budget for operating fees during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding (1) two-thirds of the Non-CAIS fixed operating fees for the second quarter and the Non-CAIS fixed operating fees for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget and (2) two-thirds of the market data vendor fees for the second quarter and the market data vendor fees for the third and fourth quarter of 2026 included in the Updated 2026 CAT Budget.⁴⁹

As discussed above, CAT LLC estimated the budget for the operating fees during the CAT Fee 2026–1 Period based on monthly rates set forth in the Plan Processor Agreement and the agreement with Algoseek. CAT LLC also recognized that the operating fees are generally consistent throughout the year. This process for estimating the budget for the operating fees for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the operating fees for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for operating fees of \$5,149,236 for January and February 2026, and the actual costs for operating fees for January and February 2026 were \$5,127,057. Therefore, the variance between budgeted and actual operating fees for this period was small—\$22,179.⁵⁰ Accordingly, CAT LLC believes that the process for estimating the budgeted operating fees for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for operating fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the operating fees from the Original 2026 Budget. Specifically, the following describes the differences in the costs for operating fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for operating fees included in the Original

⁴⁸ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁴⁹ This calculation is $((\frac{2}{3} \times \$7,191,853) + \$7,191,853 + \$7,191,853) + ((\frac{2}{3} \times \$192,630) + \$192,630 + \$192,630) = \$19,691,953$.

⁵⁰ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁴⁷ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

2026 CAT Budget were \$34,345,413, and the annual 2026 budgeted costs for operating fees included in the Updated 2026 CAT Budget are \$29,845,524. Accordingly, budgeted annual costs for operating fees decreased by \$4,499,889 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 13% reduction in operating fees for the full year of 2026.⁵¹ The budgeted decrease in costs for operating fees reflects the proposed amendments to the Plan Processor Agreement related to the recent cost savings amendments to the CAT NMS Plan.⁵²

(iii) Technology Costs—CAIS Operating Fees

(a) Description of CAIS Operating Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the CAIS operating fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$14,179,060 in technology costs for CAIS operating fees for the CAT Fee 2026–1 Period. CAIS operating fees represent the fees paid to FCAT for services provided with regard to the operation and maintenance of the Reference Database (previously referred to as CAIS), and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. The CAT is required under the CAT NMS Plan to capture and store Reference Data in the Reference Database and to create a CAT-Customer-ID for each Customer.⁵³

During the CAT Fee 2026–1 Period, it is anticipated that FCAT will provide services related to the Reference Database. Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT for services related to the Reference Database provided by FCAT on a monthly basis. CAT LLC negotiated the fees for FCAT's services related to the Reference Database on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors,

including the services to be provided and market rates for similar types of activity. During the CAT Fee 2026–1 Period, it is anticipated that FCAT will continue to provide services relating to the ongoing operation, maintenance and support of the Reference Database.

CAT LLC estimates that the budget for CAIS operating fees during the CAT Fee 2026–1 Period will be approximately \$14,179,060.⁵⁴ The budget for CAIS operating fees during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the CAIS fixed operating fees for the second quarter and the CAIS fixed operating fees for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁵⁵

CAT LLC calculated the budget for FCAT's services related to the Reference Database for the CAT Fee 2026–1 Period based on the recurring monthly CAIS operating fees under the Plan Processor Agreement. This process for estimating the budget for the CAIS operating fees for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the CAIS operating fees for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget of \$3,544,764 for CAIS operating fees for January and February of 2026. The actual costs for CAIS operating fees for January and February of 2026, which are included in the Updated 2026 CAT Budget, were \$3,544,764. There was no variance between budgeted and actual CAIS operating fees for the first two months of 2026.⁵⁶ Accordingly, CAT LLC believes that the process for estimating the budgeted CAIS operating fees for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for CAIS operating fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the CAIS operating fees from the Original 2026 Budget. Specifically, the following describes the differences in the costs for CAIS operating fees included in the Original 2026 CAT

Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

CAIS operating fees are based on a recurring monthly rate payable to FCAT and are unchanged from the Original 2026 CAT Budget to the Updated 2026 CAT Budget. The annual 2026 budgeted costs for CAIS operating fees included in the Original 2026 CAT Budget were \$21,268,584, and the annual 2026 budgeted costs for CAIS operating fees included in the Updated 2026 CAT Budget are \$21,268,590.⁵⁷ Accordingly, the budgeted annual costs for CAIS operating fees are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(iv) Technology Costs—Change Request Fees

(a) Description of Change Request Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the change request fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$0 in technology costs for change request fees for the CAT Fee 2026–1 Period. The technology costs related to change request fees include costs related to certain modifications, upgrades or other changes to the CAT.

Change requests are standard practice and necessary to reflect operational changes, including changes related to new market developments, such as new market participants. In general, if CAT LLC determines that a modification, upgrade or other changes to the functionality or service is necessary and appropriate, CAT LLC will submit a request for such a change to the Plan Processor. The Plan Processor will then respond to the request with a proposal for implementing the change, including the cost (if any) of such a change. CAT LLC then determines whether to approve the proposed change.

The change request budget line is established to include expected costs to be incurred in which the nature of the costs (i.e., capitalization versus expensing) have not yet been determined. Upon the incurrence of such costs, the final determination of capitalization versus expensing is determined and then such costs are reclassified from the change request line to the appropriate technology cost line item.

CAT LLC estimates that the budget for change requests during the CAT Fee 2026–1 Period will be approximately

⁵¹ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

⁵² See CAIS Amendment and Cost Savings Amendment.

⁵³ See Section 9 of Appendix D of the CAT NMS Plan.

⁵⁴ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

⁵⁵ This calculation is $(\frac{2}{3} \times \$5,317,147) + \$5,317,147 + \$5,317,147 = \$14,179,060$.

⁵⁶ See chart entitled "Comparison of Budgeted and Actual Costs for January & February 2026" in Section 3(a)(2)(C) above.

⁵⁷ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

\$0.⁵⁸ The budget for change requests during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. This \$0 cost number for change request fees reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

CAT LLC estimated the budget for the potential change requests for the CAT Fee 2026–1 Period based on, among other things, a review of past change requests and potential future change request needs, as well as discussions with FCAT. This process for estimating the budget for the change requests for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the change requests cost for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a change request budget of \$0 for January and February of 2026. The actual costs for change requests for January and February of 2026, which are set forth in the Updated 2026 CAT Budget, were \$0. There was no variance between budgeted and actual change request costs for January and February of 2026.⁵⁹ Accordingly, CAT LLC believes that the process for estimating the budgeted change request costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for change request fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the change request fees from the Original 2026 Budget. Specifically, the following describes the differences (if any) in the costs for change request fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for change requests included in the Original 2026 CAT Budget were \$0, and the annual 2026 budgeted costs for change requests included in the Updated 2026 CAT Budget are \$0.⁶⁰ Accordingly, budgeted annual costs for change requests are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(v) Technology Costs—Capitalized Developed Technology Costs

(a) Description of Capitalized Developed Technology Costs

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the capitalized developed technology costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes \$3,450,000 in technology costs for capitalized developed technology costs for the CAT Fee 2026–1 Period. This category of costs includes the budget for capitalizable application development costs incurred in the development of the CAT. It is anticipated that such costs will include certain costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT, as well as costs related to a set of technology changes to be implemented by FCAT related to the cost savings amendments⁶¹ and the move to 23x5 trading.

CAT LLC estimates that the budget for capitalized developed technology costs during the CAT Fee 2026–1 Period will be approximately \$3,450,000.⁶² The budget for capitalized developed technology costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding (1) capitalized developed technology costs of \$3,450,000 for May, \$0 for June and \$0 for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget; and (2) \$0 for the Software License Fee 2026 for the second, third, and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁶³

CAT LLC estimated the budget for capitalized developed technology costs for the CAT Fee 2026–1 Period based on an analysis of a variety of factors, including information related to potential technology costs and related contractual and Plan requirements, and discussions with FCAT regarding such potential technology costs. This process for estimating the budget for capitalized developed technology costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the capitalized developed technology costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for capitalized developed

technology costs of \$671,472 for January and February 2026, and the actual costs for capitalized developed technology costs for January and February 2026 were \$4,145,430.⁶⁴ The variance of \$3,473,958 for January and February 2026 is the result of costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT. Accordingly, CAT LLC believes that the process for estimating the budgeted capitalized developed technology costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for capitalized developed technology costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the capitalized developed technology costs from the Original 2026 Budget. Specifically, the following describes the differences in the costs for capitalized developed technology costs as included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budget for capitalized developed technology costs included in the Original 2026 CAT Budget was \$8,228,827, and the annual 2026 budget for capitalized developed technology costs included in the Updated 2026 CAT Budget are \$8,378,964.⁶⁵ Accordingly, the annual budget for capitalized developed technology costs increased by \$150,137 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 2% increase in the capitalized developed technology costs for the full year of 2026. This budgeted increase in the annual budget for capitalized developed technology costs was the result of costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT.

(vi) Legal Costs

(a) Description of Legal Costs

Section 11.3(a)(iii)(B)(B)(2) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the legal costs set forth in the budget. The Operating Committee

⁵⁸ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁵⁹ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶⁰ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁶¹ See CAIS Amendment and Cost Savings Amendment.

⁶² See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁶³ This calculation is $(\$3,450,000 + \$0 + \$0 + \$0) + (\$0 + \$0 + \$0) = \$3,450,000$. Note that the \$4,178,964 cost for the software license fee was not included in the CAT Fee 2026–1 Period.

⁶⁴ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶⁵ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes \$5,670,452 in legal costs for the CAT Fee 2026–1 Period. This category of costs represents budgeted costs for legal services for this period. CAT LLC anticipates that it will receive legal services from two law firms, Wilmer Cutler Pickering Hale and Dorr LLP (“WilmerHale”) and Jenner & Block LLP (“Jenner”), during the CAT Fee 2026–1 Period.

Law Firm: WilmerHale. It is anticipated that legal costs during the CAT Fee 2026–1 Period will include costs related to the legal services performed by WilmerHale. CAT LLC anticipates that it will continue to employ WilmerHale during the CAT Fee 2026–1 Period based on, among other things, their expertise, long history with the project and recognition that the hourly fee rates for this law firm are anticipated to be in line with market rates for specialized legal expertise. WilmerHale’s billing rates are negotiated on an annual basis and are determined with reference to the rates charged by other leading law firms for similar work. The Participants assess WilmerHale’s performance and review prospective budgets and staffing plans submitted by WilmerHale on an annual basis. The legal fees will be paid by CAT LLC to WilmerHale.

During the CAT Fee 2026–1 Period, it is anticipated that WilmerHale will provide legal services related to the following:

- Assist with CAT fee filings and related funding issues;
- Draft exemptive requests from CAT NMS Plan requirements and/or proposed amendments to the CAT NMS Plan;
- Provide legal guidance with respect to interpretations of CAT NMS Plan requirements;
- Provide legal support for the Operating Committee, Compliance Subcommittee, working groups and Leadership Team;
- Draft SRO rule filings related to the CAT Compliance Rule;
- Manage corporate governance matters, including supporting Operating Committee meetings and preparing resolutions and consents;
- Assist with communications with the industry, including CAT Alerts and presentations;
- Provide guidance regarding the confidentiality of CAT Data;
- Assist with cost management analyses and proposals;
- Assist with commercial contract-related matters, including change orders and amendments, Plan Processor

Agreement items, and subcontract matters;

- Provide support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues;
- Provide legal guidance with respect to the CAT budgets;
- Provide background assistance to other counsel for CAT matters;
- Assist with legal responses related to third-party data requests; and
- Provide legal support regarding CAT policies and procedures.

CAT LLC estimated the budget for the legal costs for WilmerHale for the CAT Fee 2026–1 Period through an analysis of a variety of factors, including WilmerHale fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues.

Law Firm: Jenner. It is anticipated that legal costs during the CAT Fee 2026–1 Period will include costs related to the legal services performed by Jenner. CAT LLC anticipates that it will continue to employ Jenner during the CAT Fee 2026–1 Period based on, among other things, their expertise, history with the project and recognition that their hourly fee rates are in line with market rates for specialized legal expertise. The legal fees will be paid by CAT LLC to Jenner.

During the CAT Fee 2026–1 Period, it is anticipated that Jenner will continue to provide legal assistance to CAT LLC regarding certain litigation matters, including: (1) CAT LLC’s defense against a lawsuit filed in the Western District of Texas against the SEC Chair, the SEC and CAT LLC challenging the validity of Rule 613 and the CAT and alleging various constitutional, statutory, and common law claims;⁶⁶ (2) CAT LLC’s intervention in a lawsuit in the Eleventh Circuit filed by various parties against the SEC challenging the SEC’s approval of the CAT Funding Model;⁶⁷ and (3) a lawsuit in the Eleventh Circuit filed by Citadel Securities LLC seeking review of the SEC’s May 20, 2024 order⁶⁸ granting the Participants temporary conditional exemptive relief related to the reporting of bids and/or offers made in response to a request for quote or other form of solicitation response provided in standard electronic format that is not immediately actionable.⁶⁹ Litigation involving CAT LLC is an expense of

operating the CAT, and, therefore, is appropriately an obligation of both Participants and Industry Members under the CAT Funding Model. Jenner also will continue to provide legal counseling to CAT LLC related to the above-listed litigation and other litigation risk.

CAT LLC estimated the budget for the legal costs for Jenner for the CAT Fee 2026–1 Period through an analysis of a variety of factors, including Jenner’s fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues.

Legal Cost Estimates. CAT LLC estimates that the budget for legal services during the CAT Fee 2026–1 Period will be approximately \$5,670,452.⁷⁰ The budget for legal services during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding budgeted costs for two-thirds of the legal costs for the second quarter and the legal costs for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁷¹

CAT LLC estimated the budget for the legal services for the CAT Fee 2026–1 Period based on an analysis of a variety of factors, including law firm fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues. This process for estimating the budget for the legal services for CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the legal cost for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for legal costs of \$1,424,166 for January and February of 2026. The actual costs for legal services for January and February 2026, which are included in the Updated 2026 Budget, were \$1,838,617.⁷² The increase of \$414,451 was due to unanticipated issues that required additional legal efforts on behalf of CAT LLC that developed after the budget was created. Such additional costs were primarily due to additional legal work related to litigation matters as well as regulatory and corporate legal matters. Accordingly, CAT LLC believes that the process for estimating the budgeted legal costs for the CAT Fee 2026–1 Period is reasonable.

⁶⁶ *Davidson et al. v. Atkins et al.*, Case No. 6:24–cv–197 (W.D. Tex.).

⁶⁷ *Am. Sec. Ass’n v. SEC*, Case No. 26–10936 (11th Cir.).

⁶⁸ Securities Exchange Act Rel. No. 100181 (May 20, 2024), 89 FR 45715 (May 23, 2024).

⁶⁹ *Citadel Securities v. SEC*, Case No. 24–12300 (11th Cir.).

⁷⁰ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷¹ This calculation is $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

⁷² See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for legal costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the legal costs from the Original 2026 Budget. Specifically, the following describes the differences in the legal costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted legal costs included in the Original 2026 CAT Budget were \$8,485,000, and the annual 2026 budgeted legal costs included in the Updated 2026 CAT Budget are \$8,939,184.⁷³ Accordingly, the annual budget for legal costs increased by \$454,184 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 5% increase in the legal costs for the full year of 2026. This budgeted increase in the legal costs in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to an anticipated increase in legal costs related to litigation matters as well as regulatory and corporate legal matters.

(vii) Consulting Costs

(a) Description of Consulting Costs

Section 11.3(a)(iii)(B)(B)(3) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the consulting costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$1,025,957 in consulting costs for the CAT Fee 2026–1 Period. The consulting costs represent the fees estimated to be paid to the consulting firm Deloitte & Touche LLP (“Deloitte”) as project manager during the CAT Fee 2026–1 Period. The services provided by Deloitte to the CAT include advisory services related to the operation of the CAT, and meeting facilitation and communications coordination, vendor support and financial analyses. In addition, the consulting costs include the compensation for the Chair of the CAT Operating Committee.

It is anticipated that the costs for CAT during the CAT Fee 2026–1 Period will include costs related to consulting services performed by Deloitte. CAT LLC anticipates that it will continue to employ Deloitte during the CAT Fee

2026–1 Period based on, among other things, their expertise, long history with the project, and the recognition that it is anticipated that the consulting fees will remain in line with market rates for this type of specialized consulting work. Deloitte’s fee rates are negotiated on an annual basis. CAT LLC assesses Deloitte’s performance and reviews prospective budgets and staffing plans submitted by Deloitte on an annual basis. The consulting fees will be paid by CAT LLC to Deloitte.

It is anticipated that Deloitte will provide a variety of consulting services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Implement program operations for the CAT project;
- Provide support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;
- Assist with cost and funding matters for the CAT, including assistance with loans and the CAT bank account for CAT funding;
- Provide support for updating the SEC on the progress of the development of the CAT; and
- Provide support for third party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

In addition, the consulting costs include the compensation for the Chair of the CAT Operating Committee, which is paid by CAT LLC.

CAT LLC estimates that the budget for consulting costs during the CAT Fee 2026–1 Period will be approximately \$1,025,957.⁷⁴ The budget for consulting costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the consulting costs for the second quarter and the consulting costs for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁷⁵

CAT LLC estimates the budget for the consulting costs for Deloitte for the CAT Fee 2026–1 Period based on the current statement of work with Deloitte, which took into consideration past consulting costs, potential future consulting needs, the proposed rates and other contractual issues, and discussions with Deloitte, as well as the compensation arrangement for the Chair. This process for

estimating the budget for consulting costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the consulting costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for consulting services of \$258,334 for January and February 2026, and the actual costs for consulting services for January and February 2026, which are included in the Updated 2026 CAT Budget, were \$267,554.⁷⁶ Therefore, the variance between budgeted and actual consulting costs for January and February was approximately 4%. Accordingly, CAT LLC believes that the process for estimating the budgeted consulting costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for consulting costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the consulting costs from the Original 2026 Budget. Specifically, the following describes the differences (if any) in the consulting costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budget for consulting costs included in the Original 2026 CAT Budget was \$1,550,000, and the annual 2026 budget for consulting costs included in the Updated 2026 CAT Budget is \$1,550,000.⁷⁷ Accordingly, the annual budget for consulting costs has not changed from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026.

(viii) Insurance Costs

(a) Description of Insurance Costs

Section 11.3(a)(iii)(B)(B)(4) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the insurance costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$852,768 in insurance costs for the CAT Fee 2026–1 Period.⁷⁸ The insurance costs represent the costs to be

⁷⁶ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁷⁷ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁷⁸ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷³ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁷⁴ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷⁵ This calculation is $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

incurred for insurance for the CAT during the CAT Fee 2026–1 Period.

It is anticipated that the insurance costs for CAT during the CAT Fee 2026–1 Period will include costs related to cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance brokered by USI Insurance Services LLC ("USI"). Such policies are standard for corporate entities, and cyber security liability insurance is important for the CAT System. CAT LLC anticipates that it will continue to maintain this insurance during the CAT Fee 2026–1 Period, and notes that the annual premiums for these policies were competitive for the coverage provided. CAT LLC estimated the budget for the insurance costs for the CAT Fee 2026–1 Period based on the insurance estimate from USI for 2026. The annual premiums would be paid by CAT LLC to USI.

The budgeted insurance costs for the CAT Fee 2026–1 Period are based on an insurance cost estimate from USI for 2026. Accordingly, CAT LLC believes that the process for estimating the budgeted insurance costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for insurance costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the insurance costs from the Original 2026 Budget. Specifically, the following describes the differences in the insurance costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted insurance costs included in the Original 2026 CAT Budget were \$1,505,625, and the annual 2026 budgeted insurance costs included in the Updated 2026 CAT Budget are \$1,254,070.⁷⁹ Accordingly, the annual budget for insurance costs decreased by \$251,555 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 16% decrease in the insurance costs for the full year of 2026. This budgeted decrease in the insurance costs in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to an anticipated decrease in insurance premiums.

(ix) Professional and Administration Costs

(a) Description of Professional and Administration Costs

Section 11.3(a)(iii)(B)(B)(5) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the professional and administration costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$749,151 in professional and administration costs for the CAT Fee 2026–1 Period. In adopting the CAT NMS Plan, the Commission amended the Plan to add a requirement that CAT LLC's financial statements be prepared in compliance with GAAP, audited by an independent public accounting firm, and made publicly available.⁸⁰ The professional and administration costs would include costs related to accounting and accounting advisory services to support the operating and financial functions of CAT, financial statement audit services by an independent accounting firm, preparation of tax returns, and various cash management and treasury functions. The professional and administration costs represent the fees to be paid to Anchin, Block & Anchin ("Anchin") and Grant Thornton LLP ("Grant Thornton") for financial services during the CAT Fee 2026–1 Period.

Financial Advisory Firm: Anchin. It is anticipated that the professional and administration costs for the CAT Fee 2026–1 Period will include costs related to financial advisory services performed by Anchin. CAT LLC anticipates that it will continue to employ Anchin during the CAT Fee 2026–1 Period based on, among other things, the firm's relevant expertise and fees, which are anticipated to remain in line with market rates for these financial advisory services. The fees for these services will be paid by CAT LLC to Anchin.

It is anticipated that Anchin will provide a variety of services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Update and maintain internal controls;
- Provide cash management and treasury functions;
- Facilitate bill payments to vendors;
- Facilitate repayments of promissory notes to Participants;
- Provide monthly bookkeeping;
- Review vendor invoices and documentation in support of cash disbursements;

- Review documentation to ensure that repayments of promissory notes to Participants are in accordance with established policies and procedures;
- Provide accounting research and consultations on various accounting, financial reporting and tax matters;
- Address not-for-profit tax and accounting considerations;
- Prepare tax returns;
- Address various accounting, financial reporting and operating inquiries from Participants;
- Develop and maintain annual and interim operating and financial budgets, including budget to actual and budget to budget fluctuation analyses;
- Support compliance with the CAT NMS Plan;
- Work with and provide support to the Operating Committee, Leadership Team and various CAT working groups;
- Prepare monthly, quarterly and annual financial statements;
- Review and reconcile the monthly FINRA CAT reports/analyses related to billings, collections, outstanding accounts receivable and cash account;
- Perform certain verification, completeness, and validation testing related to the monthly FINRA CAT reports/analyses related to billings;
- Support the annual financial statement audits by an independent auditor;
- Review historical costs from inception;
- Provide accounting and financial information in support of SEC filings; and
- Perform additional ad hoc accounting and financial advisory services, as requested by CAT LLC.

CAT LLC estimated the annual budget for the costs for Anchin based on historical costs adjusted for cost of living rate increases, and projected incremental advisory and support services.

Accounting Firm: Grant Thornton. It is anticipated that the professional and administration costs for the CAT Fee 2026–1 Period will include costs related to accounting services performed by Grant Thornton. CAT LLC anticipates that it will continue to employ Grant Thornton during the CAT Fee 2026–1 Period based on, among other things, the firm's relevant expertise and fees, which are anticipated to remain in line with market rates for these financial advisory services. It is anticipated that Grant Thornton will continue to be engaged as an independent accounting firm to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. The fees for these services will be paid by CAT LLC to Grant Thornton. CAT

⁷⁹ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

⁸⁰ Section 9.2 of the CAT NMS Plan.

LLC estimated the budget for the accounting costs for Grant Thornton for the CAT Fee 2026–1 Period based on the anticipated hourly rates and the anticipated services plus an administrative fee.

Professional and Administration Cost Estimates. CAT LLC estimates that the budget for professional and administration services during the CAT Fee 2026–1 Period will be approximately \$749,151.⁸¹ The budget for professional and administration services during the CAT Fee 2026–1 Period is based on the Updated 2026 CAT Budget. CAT LLC estimated the budget for the professional and administration costs for the CAT Fee 2026–1 Period based on a review of past professional and administration costs, potential future professional and administration needs, the proposed rates and other contractual issues, as well as discussions with Anchin and Grant Thornton. This process for estimating the budget for the professional and administration costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the professional and administration costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for professional and administration costs of \$190,916 for January and February 2026, and the actual costs for professional and administration services for January and February 2026, which are set forth in the Updated 2026 Budget, were \$149,061.⁸² The decrease of \$41,855 was due to a lower than expected professional and administration services costs and to the movement of bank fees from the professional and administration category to the interest income category. Accordingly, CAT LLC believes that the process for estimating the budgeted professional and administration costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for professional and administration costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the professional and administration costs from the Original 2026 Budget. Specifically, the following describes the

differences in the professional and administration costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted professional and administration costs as included in the Original 2026 CAT Budget were \$1,145,500, and the annual 2026 budgeted professional and administration costs included in the Updated 2026 CAT Budget are \$1,085,500.⁸³ Accordingly, the budgeted annual costs for professional and administration services decreased by \$60,000 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026. This budgeted decrease in the professional and administration costs in the Updated 2026 CAT Budget from the Original 2026 Budget was due to the movement of bank fees from the professional and administration category to the interest income category, and not a change in costs related to Anchin and Grant Thornton services.

(x) Public Relations Costs

(a) Description of Public Relations Costs

Section 11.3(a)(iii)(B)(B)(6) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the public relations costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$0 in public relations costs for the CAT Fee 2026–1 Period. The public relations costs would represent the fees paid to a public relations firm for professional communications services to CAT, including media relations consulting, strategy and execution. Because CAT LLC anticipates that it will not engage a public relations firm for the CAT Fee Period 2026–1, the budget for public relations costs for this period is \$0.⁸⁴

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for public relations costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the public relations costs from the Original 2026 Budget. Specifically, the following describes the differences (if any) in

public relations costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual budgeted public relations costs for 2026 included in the Original 2026 CAT Budget were \$0, and the annual budgeted public relations costs for 2026 included in the Updated 2026 CAT Budget are \$0.⁸⁵ Accordingly, the annual budgeted public relations costs for 2026 are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(xi) Interest Income

(a) Description of Interest Income

Section 11.1(a) of the CAT NMS Plan requires the CAT budget to include “the sources of all revenues to cover costs.” Accordingly, the Updated 2026 CAT Budget includes a line item for interest income. Specifically, the Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$1,453,382 in interest income for the CAT Fee 2026–1 Period.⁸⁶ Interest income represents the interest earned on the surplus reserve and other funds held by CAT LLC. Such income would be used to reduce the amount to be collected to fund the CAT.

CAT LLC estimates the budget for the interest income for the CAT Fee 2026–1 Period based on the estimate of the funds held by CAT LLC and the expected interest rates on such funds. The Original 2026 CAT Budget estimated interest income of \$758,343 for January and February 2026, and the actual interest income for January and February 2026, which are included in the Updated 2026 CAT Budget, were \$757,527.⁸⁷ As mentioned above, bank fees were moved from the professional and administration category in the Original 2026 CAT Budget to the interest income category in the Updated 2026 CAT Budget. Accordingly, the interest income amount for the Updated 2026 CAT Budget was net of \$10,000 in bank fees. Therefore, the variance between budgeted and actual interest income (aside from bank fees) for January and February 2026 was approximately \$10,000. Accordingly, CAT LLC believes that the process for estimating the budgeted interest income for the CAT Fee 2026–1 Period is reasonable.

⁸¹ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸² See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁸³ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁴ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸⁵ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁶ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸⁷ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in each line item from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in interest income from the Original 2026 CAT Budget. Specifically, the following describes the differences in the interest income included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted interest income as included in the Original 2026 CAT Budget was \$1,995,958, and the annual 2026 budgeted interest income included in the Updated 2026 CAT Budget is \$2,806,325.⁸⁸ Accordingly, the budgeted interest income (not including bank fees) increased by \$810,367 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 40% increase in the interest income for the full year of 2026. This budgeted increase in the interest income in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to higher than expected cash balances being maintained after the approval of the Original 2026 Budget.

(x) Reserve

(a) Description of Reserve

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the reserve costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes a reserve amount for 2026. Section 11.1(a)(i) of the CAT NMS Plan states that the budget shall include a reserve. Section 11.1(a)(ii) of the CAT NMS Plan further describes the reserve as follows:

For the reserve referenced in paragraph (a)(i) of this Section, the budget will include an amount reasonably necessary to allow the Company to maintain a reserve of not more than 25% of the annual budget. To the extent collected CAT fees exceed CAT costs, including the reserve of 25% of the annual budget, such surplus shall be used to offset future fees. For the avoidance of doubt, the Company will only include an amount for the reserve in the annual budget if the Company does not have a sufficient reserve

(which shall be up to but not more than 25% of the annual budget). For the avoidance of doubt, the calculation of the amount of the reserve would exclude the amount of the reserve from the budget.

CAT LLC determined to maintain a reserve in the amount of 25% of the total expenses set forth in the Updated 2026 CAT Budget (which does not include the reserve amount). Accordingly, the total 25% reserve of \$23,508,157 was calculated by multiplying the total expenses set forth in the Updated 2026 CAT Budget (other than the reserve) by 25%.⁸⁹

The Updated 2026 CAT Budget estimates that CAT LLC will have \$102,391,135 in reserve as of the beginning of the CAT Fee Period 2026–1. Such reserve is related, in part, to (i) the collection of CAT fees in excess of the budgeted CAT costs in light of the greater actual executed equivalent share volume than the projected executed equivalent share volume for prior CAT Fees, and (ii) a reduction in anticipated budgeted costs associated with the implementation of certain cost savings measures. This reserve balance of \$102,391,135 would be used to offset a portion of CAT costs for CAT Fee Period 2026–1, thereby reducing the fee rate to be paid for CAT Fee 2026–1. Specifically, the total costs (including the 25% reserve) for CAT Fee 2026–1 of \$117,540,783 would be reduced by the \$102,391,135 in reserve. Therefore, the Total Budgeted CAT Costs 2026–1 would be \$15,149,648.

Accordingly, the fee rate for CAT Fee 2026–1 is calculated based on this reduced amount of \$15,149,648, resulting in a fee rate of \$0.000001 per executed equivalent share. If the fee rate for CAT Fee 2026–1 were calculated solely based on the reasonably budgeted costs for CAT for May–December 2026, excluding the reduction in that amount due to the surplus reserve offset, the fee rate would be the higher rate of \$0.000010.⁹⁰

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for a reserve from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in reserve from the Original 2026 CAT Budget. Specifically, the following

describes the differences in the reserve included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The accrued liquidity reserve balance at the beginning of the year included in the Original 2026 CAT Budget was \$119,128,336. The Original 2026 CAT Budget contemplated using the reserve to pay CAT bills throughout the year as no CAT fee was in effect. The accrued liquidity reserve balance at the beginning of the year included in the Updated 2026 CAT Budget was \$155,403,378. The increase in the accrued liquidity reserve balance at the beginning of the year from the Original 2026 CAT Budget to the Updated 2026 CAT Budget reflected the additional CAT Fees that had been received after the approval of the Original 2026 CAT Budget. In addition, the Updated 2026 CAT Budget not only reflected the use of the surplus reserve to pay CAT bills but also the accrual of additional reserve to establish a 25% reserve through CAT Fee 2026–1. Accordingly, the estimated liquidity reserve balance increased from a deficit of \$37,304,661 included in the Original 2026 CAT Budget to a reserve balance of \$23,508,157 included in the Updated 2026 CAT Budget for the full year of 2026.

(D) Projected Total Executed Equivalent Share Volume

The calculation of Fee Rate 2026–1 also requires the determination of the projected total executed equivalent share volume of transactions in Eligible Securities for the CAT Fee 2026–1 Period. Under the CAT NMS Plan, the Operating Committee is required to “reasonably determine the projected total executed equivalent share volume of all transactions in Eligible Securities for each relevant period based on the executed equivalent share volume of all transactions in Eligible Securities for the prior twelve months.”⁹¹ The Operating Committee is required to base its projection on the prior twelve months, but it may use its discretion to analyze the likely volume for the upcoming year. Such discretion would allow the Operating Committee to use its judgment when estimating projected total executed equivalent share volume if the volume over the prior twelve months was unusual or otherwise unfit to serve as the basis of a future volume estimate.⁹²

The total executed equivalent share volume of transactions in Eligible Securities for the 12-month period from March 2025 through February 2026 was

⁸⁸ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁹ The reserve was calculated by multiplying \$94,032,626 by 25%, which equals approximately \$23,508,157.

⁹⁰ See CAT Fee Alert 2026–1 (Apr. 1, 2026).

⁹¹ Section 11.3(a)(i)(D) of the CAT NMS Plan.

⁹² CAT Funding Model Approval Order at 13452.

5,980,937,549,360.49 executed equivalent shares. The Operating Committee has determined to calculate the projected total executed equivalent share volume for the eight-month recovery period for CAT Fee 2026–1 by multiplying by 8/12ths the executed equivalent share volume for the 12-month period from March 2025 through February 2026. The Operating Committee determined that such an approach was reasonable as the CAT’s annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.41), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level. Accordingly, the projected total executed equivalent share volume for the eight-month period for CAT Fee 2026–1 is projected to be 3,987,291,699,573.66 executed equivalent shares.⁹³

The projected total executed equivalent share volume of all transactions in Eligible Securities for the eight-month recovery period for CAT Fee 2026–1 and a description of the calculation of the projection is provided in this filing in accordance with the requirement in the CAT NMS Plan to provide such information in a fee filing for a CAT Fee.⁹⁴

(E) Fee Rate 2026–1

Fee Rate 2026–1 would be calculated by dividing the Budgeted CAT Costs 2026–1 by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the eight-month recovery period for CAT Fee 2026–1, as described in detail above.⁹⁵ Specifically, Fee Rate 2026–1 would be calculated by dividing \$15,149,648 by 3,987,291,699,573.66 executed equivalent shares. As a result, Fee Rate 2026–1 would be \$0.000003799483243631228 per executed equivalent share. Fee Rate 2026–1 is provided in this filing in accordance with the requirement in the

CAT NMS Plan to provide the Fee Rate in a fee filing for a CAT Fee.⁹⁶

Fee Rate 2026–1 would be used to calculate the fee rate to be paid by CEBBs and CEBs for CAT Fee 2026–1. Such fee rate is calculated by multiplying Fee Rate 2026–1 of \$0.000003799483243631228 by one-third, and rounding the result to six decimal places.⁹⁷ Accordingly, the fee rate to be paid by CEBBs and CEBs for CAT Fee 2026–1 would be \$0.000001 per executed equivalent share.

(3) Monthly Fees

CEBBs and CEBs would be required to pay fees for CAT Fee 2026–1 on a monthly basis for eight months, from July 2026 until January 2027. A CEBB’s or CEBs’s fee for each month would be calculated based on the transactions in Eligible Securities executed by the CEBB or CEBs from the prior month.⁹⁸ Proposed paragraph (a)(6)(A) of the fee schedule would state that each CAT Executing Broker would receive its first invoice for CAT Fee 2026–1 in June 2026, and would receive an invoice for CAT Fee 2026–1 each month thereafter until January 2027. Proposed paragraph (a)(6)(B) of the fee schedule would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis.” In addition, paragraph (b)(1) of the fee schedule states that each CEBB and CEBs is required to pay its CAT fees “each month.”

(4) Consolidated Audit Trail Funding Fees

To implement CAT Fee 2026–1, the Exchange proposes to add a new paragraph to the “Consolidated Audit Trail Funding Fees” section of the Exchange’s fee schedule, to include the proposed paragraphs described below.

(A) Fee Schedule for CAT Fee 2026–1

The CAT NMS Plan states that: Each Industry Member that is the CAT Executing Broker for the buyer in a transaction in Eligible Securities (“CAT Executing Broker for the Buyer” or “CEBB”) and each Industry Member that is the CAT Executing Broker for the seller in a transaction in Eligible Securities (“CAT Executing Broker for the Seller” or “CEBS”) will be required

to pay a CAT Fee for each such transaction in Eligible Securities in the prior month based on CAT Data. The CEBB’s CAT Fee or CEBs’s CAT Fee (as applicable) for each transaction in Eligible Securities will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Fee Rate reasonably determined pursuant to paragraph (a)(i) of this Section 11.3.⁹⁹

Accordingly, based on the factors discussed above, the Exchange proposes to add paragraph (a)(6) to the Consolidated Audit Trail Funding Fees section of its fee schedule. Proposed paragraph (a)(6) would state the following:

(A) Each CAT Executing Broker shall receive its first invoice for CAT Fee 2026–1 in June 2026, which shall set forth the CAT Fee 2026–1 fees calculated based on transactions in May 2026, and shall receive an invoice for CAT Fee 2026–1 for each month thereafter until January 2027.

(B) Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis. Each month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (“CEBB”) and/or the CAT Executing Broker for the Seller (“CEBS”) (as applicable) from the prior month as set forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000001 per executed equivalent share.

(C) Notwithstanding the last invoice date of January 2027 for CAT Fee 2026–1 in paragraph 6(A), CAT Fee 2026–1 shall continue in effect after January 2027, with each CAT Executing Broker receiving an invoice for CAT Fee 2026–1 each month, until a new subsequent CAT Fee is in effect with regard to Industry Members in accordance with Section 19(b) of the Exchange Act. Consolidated Audit Trail, LLC will provide notice when CAT Fee 2026–1 will no longer be in effect.

(D) Each CAT Executing Broker shall be required to pay each invoice for CAT Fee 2026–1 in accordance with paragraph (b).

As noted in the Plan amendment for the CAT Funding Model, “[a]s a practical matter, the fee filing would provide the exact fee per executed equivalent share to be paid for the CAT Fees, by multiplying the Fee Rate by one-third and describing the relevant

⁹³ This projection was calculated by multiplying 5,980,937,549,360.49 executed equivalent shares by 8/12ths.

⁹⁴ Section 11.3(a)(iii)(B) of the CAT NMS Plan.

⁹⁵ In approving the CAT Funding Model, the Commission stated that “[t]he manner in which the Fee Rate for Prospective CAT Costs will be calculated (*i.e.*, by dividing the CAT costs reasonably budgeted for the upcoming year by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the year) is appropriate.” CAT Funding Model Approval Order at 13435.

⁹⁶ See Section 11.3(a)(iii)(B)(A) of the CAT NMS Plan.

⁹⁷ This fee rate of \$0.000001 is calculated by multiplying the Fee Rate of \$0.000003799483243631228 by one-third and rounding this result (which equals \$0.000001266494414543743) to 6 decimal places.

⁹⁸ See proposed paragraph (a)(6)(B) of the fee schedule.

⁹⁹ Section 11.3(a)(iii)(A) of the CAT NMS Plan.

number of decimal places for the fee.”¹⁰⁰ Accordingly, proposed paragraph (a)(6)(B) of the fee schedule would set forth a fee rate of \$0.000001 per executed equivalent share. This fee rate is calculated by multiplying Fee Rate 2026–1 of \$0.000003799483243631228 by one-third, and rounding the result to six decimal places.¹⁰¹ The Operating Committee determined to use six decimal places to balance the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.

The proposed language in paragraph (a)(6)(A) of the fee schedule would describe when CAT Executing Brokers would receive their first monthly invoice for CAT Fee 2026–1. Specifically, CAT Executing Brokers would receive their first monthly invoice for CAT Fee 2026–1 in June 2026 and the fees set forth in that invoice would be calculated based on transactions executed in May 2026. The payment for the first invoice would be required within 30 days after the receipt of the first invoice (unless a longer period is indicated), as described in paragraph (b)(2) of the fee schedule.

Proposed paragraph (a)(6)(A) of the fee schedule also would describe the monthly cadence of the invoices for CAT Fee 2026–1. Specifically, after the first invoices are provided to CAT Executing Brokers in June 2026, invoices will be sent to CAT Executing Brokers each month thereafter until January 2027.

Proposed paragraph (a)(6)(B) of the fee schedule would describe the invoices for CAT Fee 2026–1. Proposed paragraph (a)(6)(B) of the fee schedule would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis.” Proposed paragraph (a)(6)(B) of the fee schedule also would describe the fees to be set forth in the invoices for CAT Fee 2026–1. Specifically, it would state that “[e]ach month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (‘CEBB’) and/or the CAT Executing Broker for the Seller (‘CEBS’) (as applicable) from the prior month as set forth in CAT Data. The fee for each such

transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000001 per executed equivalent share.”

Since CAT Fee 2026–1 is a monthly fee based on actual transaction volume from the prior month, CAT Fee 2026–1 may collect more or less than two-thirds of the Budgeted CAT Costs 2026–1. To the extent that CAT Fee 2026–1 collects more than two-thirds of the Budgeted CAT Costs 2026–1, any excess money collected will be used to offset future fees and/or to fund the reserve for the CAT. To the extent that CAT Fee 2026–1 collects less than two-thirds of the Budgeted CAT Costs 2026–1, the budget for the CAT in the ensuing months will reflect such shortfall.

Furthermore, proposed paragraph (a)(6)(C) of the fee schedule would describe how long CAT Fee 2026–1 would remain in effect. It would state that “[n]otwithstanding the last invoice date of January 2027 for CAT Fee 2026–1 in paragraph 6(A), CAT Fee 2026–1 shall continue in effect after January 2027, with each CAT Executing Broker receiving an invoice for CAT Fee 2026–1 each month, until a new subsequent CAT Fee is in effect with regard to Industry Members in accordance with Section 19(b) of the Exchange Act. Consolidated Audit Trail, LLC will provide notice when CAT Fee 2026–1 will no longer be in effect.”

Finally, proposed paragraph (a)(6)(D) of the fee schedule would set forth the requirement for the CAT Executing Brokers to pay the invoices for CAT Fee 2026–1. It would state that “[e]ach CAT Executing Broker shall be required to pay each invoice for CAT Fee 2026–1 in accordance with paragraph (b).”

(B) Manner of Payment

Paragraph (b)(1) of the “Consolidated Audit Trail Funding Fees” section of the fee schedule describes the manner of payment of Industry Member CAT fees. It states that “[e]ach CAT Executing Broker shall pay its CAT fees as required pursuant to paragraph (a) each month to the Consolidated Audit Trail, LLC in the manner prescribed by the Consolidated Audit Trail, LLC.” The CAT NMS Plan requires the Operating Committee to establish a system for the collection of CAT fees.¹⁰² The Plan Processor has established a billing system for CAT fees.¹⁰³ Accordingly, CAT Executing Brokers would be

required to pay CAT Fee 2026–1 in accordance with such system.

(C) Failure To Pay CAT Fees

The CAT NMS Plan further states that:

Participants shall require each Industry Member to pay all applicable fees authorized under this Article XI within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If an Industry Member fails to pay any such fee when due (as determined in accordance with the preceding sentence), such Industry Member shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of: (a) the Prime Rate plus 300 basis points; or (b) the maximum rate permitted by applicable law.¹⁰⁴

Paragraph (b)(2) of the fee schedule states that:

Each CAT Executing Broker shall pay the CAT fees required pursuant to paragraph (a) within thirty days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If a CAT Executing Broker fails to pay any such CAT fee when due, such CAT Executing Broker shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of (i) the Prime Rate plus 300 basis points, or (ii) the maximum rate permitted by applicable law.

The requirements of paragraph (b)(2) would apply to CAT Fee 2026–1.

(5) CAT Fee Details

The CAT NMS Plan states that:

Details regarding the calculation of a Participant or CAT Executing Broker’s CAT Fees will be provided upon request to such Participant or CAT Executing Broker. At a minimum, such details would include each Participant or CAT Executing Broker’s executed equivalent share volume and corresponding fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.¹⁰⁵

Such information would provide CEBBs and CEBSs with the ability to understand the details regarding the

¹⁰⁰ CAT Funding Model Approval Order at 13445, n.677.

¹⁰¹ This fee rate of \$0.000001 is calculated by multiplying the Fee Rate of \$0.000003799483243631228 by one-third, and rounding this result (which equals \$0.000001266494414543743) to 6 decimal places.

¹⁰² Section 11.4 of the CAT NMS Plan.

¹⁰³ The billing process and system are described in CAT Alert 2023–02 as well as in the CAT FAQs related to the billing of CAT fees, the Industry Member CAT Reporter Portal User Guide, the FCAT Industry Member Onboarding Guide, the FCAT

Connectivity Supplement for Industry Members and the CAT Billing Webinars (dated Sept. 28, 2023 and Nov. 7, 2023), each available on the CAT website.

¹⁰⁴ Section 11.4 of the CAT NMS Plan.

¹⁰⁵ Section 11.3(a)(iv)(A) of the CAT NMS Plan.

calculation of their CAT Fee.¹⁰⁶ CAT LLC will provide CAT Executing Brokers with these details regarding the calculation of their CAT Fees on their monthly invoice for the CAT Fees.

In addition, CAT LLC will make certain aggregate statistics regarding CAT Fees publicly available. Specifically, the CAT NMS Plan states that, “[f]or each CAT Fee, at a minimum, CAT LLC will make publicly available the aggregate executed equivalent share volume and corresponding aggregate fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.”¹⁰⁷ Such aggregate statistics will be available on the CAT website.

Furthermore, CAT LLC will make publicly available on the CAT website the total amount invoiced each month that CAT Fee 2026–1 is in effect as well as the total amount invoiced for CAT Fee 2026–1 for all months since its commencement. CAT LLC also will make publicly available on the CAT website the total costs to be collected from Industry Members for CAT Fee 2026–1.

(6) Financial Accountability Milestones

The CAT NMS Plan states that “[n]o Participant will make a filing with the SEC pursuant to Section 19(b) of the Exchange Act regarding any CAT Fee related to Prospective CAT Costs until the Financial Accountability Milestone related to Period 4 described in Section 11.6 has been satisfied.”¹⁰⁸ Under Section 1.1 of the CAT NMS Plan, a Financial Accountability Milestone is considered complete as of the date identified in the Participants’ Quarterly Progress Reports. As indicated by the Participants’ Quarterly Progress Report for the second and third quarter of

2024,¹⁰⁹ the Financial Accountability Milestone related to Period 4 was satisfied on July 15, 2024. In addition, the satisfaction of the Financial Accountability Milestone related to Period 4 was described in detail in the fee filing for the first Prospective CAT Fee, CAT Fee 2024–1.¹¹⁰

(7) Participant Invoices

While CAT Fees charged to Industry Members become effective in accordance with the requirements of Section 19(b) of the Exchange Act,¹¹¹ CAT fees charged to Participants are implemented via an approval of the CAT fees by the Operating Committee in accordance with the requirements of the CAT NMS Plan.¹¹² On March 31, 2026, the Operating Committee approved the Participant fee related to CAT Fee 2026–1. Specifically, pursuant to the requirements of CAT NMS Plan,¹¹³ each Participant would be required to pay a CAT fee calculated using the fee rate of \$0.000001 per executed equivalent share, which is the same fee rate that applies to CEBBs and CEBSSs. Like CEBBs and CEBSSs, each Participant would be invoiced such CAT fees on a monthly basis for eight months, from June 2026 until January 2027, and each Participant’s fee for each month would be calculated based on the transactions in Eligible Securities executed on the applicable exchange (for the Participant exchanges) or otherwise than on an exchange (for FINRA) in the prior month. Accordingly, each Participant will receive its first invoice in June 2026, and would receive an invoice each month thereafter until January 2027. Like with the CAT Fee 2026–1 applicable to CEBBs and CEBSSs as described in proposed paragraph (a)(6)(C) of the fee schedule, notwithstanding the last invoice date of January 2027, Participants will continue to receive invoices for this fee each month until a new subsequent CAT Fee is in effect with regard to Industry Members. Furthermore, Section 11.4 of the CAT NMS Plan states that each Participant is required to pay such invoices as required by Section 3.7(b) of the CAT NMS Plan. Section 3.7(b) states, in part, that

[e]ach Participant shall pay all fees or other amounts required to be paid under this Agreement within thirty (30) days

after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated) (the “Payment Date”). The Participant shall pay interest on the outstanding balance from the Payment Date until such fee or amount is paid at a per annum rate equal to the lesser of: (i) Prime Rate plus 300 basis points; or (ii) the maximum rate permitted by applicable law.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the requirements of the Exchange Act. The Exchange believes that the proposed rule change is consistent with Section 6(b)(5) of the Act,¹¹⁴ which requires, among other things, that the Exchange’s rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest, and not designed to permit unfair discrimination between customers, issuers, brokers and dealers. The Exchange also believes that the proposed rule change is consistent with the provisions of Section 6(b)(4) of the Act,¹¹⁵ because it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using its facilities. The Exchange further believes that the proposed rule change is consistent with Section 6(b)(8) of the Act,¹¹⁶ which requires that the Exchange’s rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. These provisions also require that the Exchange be “so organized and [have] the capacity to be able to carry out the purposes” of the Act and “to comply, and . . . to enforce compliance by its members and persons associated with its members,” with the provisions of the Exchange Act.¹¹⁷ Accordingly, a reasonable reading of the Act indicates that it intended that regulatory funding be sufficient to permit an exchange to fulfill its statutory responsibility under the Act, and contemplated that such funding would be achieved through equitable assessments on the members, issuers, and other users of an exchange’s facilities.

The Exchange believes that this proposal is consistent with the Act because it implements provisions of the Plan and is designed to assist the

¹⁰⁶ In approving the CAT Funding Model, the Commission stated that, “[i]n the Commission’s view, providing CAT Execut[ing] Brokers information regarding the calculation of their CAT Fees will aid in transparency and permit CAT Execut[ing] Brokers to confirm the accuracy of their invoices for CAT Fees.” CAT Funding Model Approval Order at 62667.

¹⁰⁷ Section 11.3(a)(iv)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission stated that “[t]he publication of the aggregate executed equivalent share volume and aggregate fee is appropriate because it would allow Participants and CAT Executing Brokers a high-level validation of executed volume and fees.” CAT Funding Model Approval Order at 13454.

¹⁰⁸ Section 11.3(a)(iii)(C) of the CAT NMS Plan.

Exchange in meeting regulatory obligations pursuant to the Plan. In approving the Plan, the SEC noted that the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹¹⁸ To the extent that this proposal implements the Plan and applies specific requirements to Industry Members, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Act.

The Exchange believes that the proposed fees to be paid by the CEBBs and CEBBs are reasonable, equitably allocated and not unfairly discriminatory. First, the CAT Fee 2026–1 fees to be collected are directly associated with the budgeted costs of establishing and maintaining the CAT, where such costs include Plan Processor costs and costs related to technology, legal, consulting, insurance, and professional and administration costs.

The proposed CAT Fee 2026–1 fees would be charged to Industry Members in support of the maintenance of a consolidated audit trail for regulatory purposes. The proposed fees, therefore, are consistent with the Commission’s view that regulatory fees be used for regulatory purposes and not to support the Exchange’s business operations. The proposed fees would not cover Exchange services unrelated to the CAT. In addition, any surplus would be used as a reserve to offset future fees. Given the direct relationship between CAT fees and CAT costs, the Exchange believes that the proposed fees are reasonable, equitable and not unfairly discriminatory.

As further discussed below, the SEC approved the CAT Funding Model, finding it was reasonable and that it equitably allocates fees among Participants and Industry Members. The Exchange believes that the proposed fees adopted pursuant to the CAT Funding Model approved by the SEC are reasonable, equitably allocated and not unfairly discriminatory.

(1) Implementation of CAT Funding Model in CAT NMS Plan

Section 11.1(b) of the CAT NMS Plan states that “[t]he Participants shall file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves.” Per Section 11.1(b) of the

CAT NMS Plan, the Exchange has filed this fee filing to implement the Industry Member CAT fees included in the CAT Funding Model. The Exchange believes that this proposal is consistent with the Exchange Act because it is consistent with, and implements, the CAT Funding Model in the CAT NMS Plan, and is designed to assist the Exchange and its Industry Members in meeting regulatory obligations pursuant to the CAT NMS Plan. In approving the CAT NMS Plan, the SEC noted that the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹¹⁹ Similarly, in approving the CAT Funding Model, the SEC concluded that the CAT Funding Model met this standard.¹²⁰ As this proposal implements the Plan and the CAT Funding Model described therein, and applies specific requirements to Industry Members in compliance with the Plan, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Exchange Act.

(2) Calculation of Fee Rate for CAT Fee 2026–1 Is Reasonable

The SEC has determined that the CAT Funding Model satisfies the requirements of the Exchange Act. Specifically, the SEC has concluded that the method for determining CAT Fees as set forth in Section 11.3 of the CAT NMS Plan, including the formula for calculating the Fee Rate, the identification of the parties responsible for payment and the transactions subject to the fee rate for CAT Fees, satisfies the Exchange Act.¹²¹ In each respect, as discussed above, CAT Fee 2026–1 is calculated, and would be applied, in accordance with the requirements applicable to CAT Fees as set forth in the CAT NMS Plan. Furthermore, as discussed below, the Exchange believes that each of the figures for the variables in the SEC-approved formula for calculating the fee rate for CAT Fee 2026–1 is reasonable and consistent with the Exchange Act. The calculation of Fee Rate 2026–1 for CAT Fee 2026–1 requires the figures for Budgeted CAT Costs 2026–1, the executed equivalent share volume for the prior twelve months, the determination of the CAT Fee 2026–1 Period, and the projection of

the executed equivalent share volume for the CAT Fee 2026–1 Period. Each of these variables is reasonable and satisfies the Exchange Act, as discussed throughout this filing.

(A) Budgeted CAT Costs 2026–1

The formula for calculating a Fee Rate requires the amount of Budgeted CAT Costs to be recovered. Specifically, Section 11.3(a)(iii)(B) of the CAT NMS Plan requires a fee filing to provide: the budget for the upcoming year (or remainder of the year, as applicable), including a brief description of each line item in the budget, including (1) the technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees, and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration, and (6) public relations costs, a reserve and/or such other categories as reasonably determined by the Operating Committee to be included in the budget, and the reason for changes in each such line item from the prior CAT fee filing.

In accordance with this requirement, the Exchange has set forth the amount and type of Budgeted CAT Costs 2026–1 for each of these categories above.

Section 11.3(a)(iii)(B) of the CAT NMS Plan also requires that the fee filing provide “sufficient detail to demonstrate that the budget for the upcoming year, or part of year, as applicable, is reasonable and appropriate.” As discussed below, the Exchange believes that the budget for the CAT Fee 2026–1 Period is “reasonable and appropriate.” Each of the costs included in CAT Fee 2026–1 is reasonable and appropriate because the costs are consistent with standard industry practice, based on the need to comply with the requirements of the CAT NMS Plan, incurred subject to negotiations performed on an arm’s length basis, and/or is consistent with the needs of any legal entity, particularly one with no employees.

(i) Technology: Cloud Hosting Services

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover budgeted costs related to cloud hosting services as a part of CAT Fees.¹²² CAT LLC determined that the budgeted costs related to cloud hosting services described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. As described above, the cloud hosting services costs reflect, among other

¹¹⁹ *Id.*

¹²⁰ CAT Funding Model Approval Order at 13481.

¹²¹ *Id.*

¹²² Section 11.3(a)(iii)(B)(1) of the CAT NMS Plan.

¹¹⁸ CAT NMS Plan Approval Order at 84697.

things, the breadth of the CAT cloud activities, data volumes far in excess of the original volume estimates, the need for specialized cloud services given the volume and unique nature of the CAT, the processing time requirements of the Plan, and regular efforts to seek to minimize costs where permissible under the Plan. CAT LLC determined that use of cloud hosting services is necessary for implementation of the CAT, particularly given the substantial data volumes associated with the CAT, and that the fees for cloud hosting services negotiated by FCAT were reasonable, taking into consideration a variety of factors, including the expected volume of data and the breadth of services provided and market rates for similar services.¹²³ Indeed, the actual costs of the CAT are far in excess of the original estimated costs of the CAT due to various factors, including the higher volumes and greater complexity of the CAT than anticipated when Rule 613 was originally adopted.

To comply with the requirements of the Plan, the breadth of the cloud activities related to the CAT is substantial. The cloud services not only include the production environment for the CAT, but they also include two industry testing environments, support environments for quality assurance and stress testing and disaster recovery capabilities. Moreover, the cloud storage costs are driven by the requirements of the Plan, which requires the storage of multiple versions of the data, from the original submitted version of the data through various processing steps, to the final version of the data.

Data volume is a significant driver of costs for cloud hosting services. When the Commission adopted the CAT NMS Plan in 2016, it estimated that the CAT would need to receive 58 billion records per day¹²⁴ and that annual operating costs for the CAT would range from \$36.5 million to \$55 million.¹²⁵ In contrast to the 2016 projections, the actual daily Q3 2025 data volumes averaged 792 billion events per day.

In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. Although CAT LLC has proactively sought to manage cloud hosting costs while complying with the Plan, including through requests to the Commission for exemptive relief and amendments to the CAT NMS Plan to

reduce costs, stringent CAT NMS Plan requirements do not allow for any material flexibility in cloud architecture design choices, processing timelines (e.g., the use of non-peak processing windows), or lower-cost storage tiers. As a result, the required CAT processing timelines contribute to the cloud hosting costs of the CAT.

The costs for cloud hosting services also reflect the need for specialized cloud hosting services given the data volume and unique processing needs of the CAT. The data volume as well as the data processing needs of the CAT necessitate the use of cloud hosting services. The equipment, power and services required for an on-premises data model, the alternative to cloud hosting services, would be cost prohibitive. Moreover, as CAT was being developed, there were limited cloud hosting providers that could satisfy all the necessary CAT requirements, including the operational and security criteria. Over time, more providers offering cloud hosting services that would satisfy these criteria have entered the market. CAT LLC will continue to evaluate alternative cloud hosting services, recognizing that the time and cost to move to an alternative cloud provider would be substantial.

The reasonableness of the cloud hosting services costs is further supported by key cost discipline mechanisms for the CAT—a cost-based funding structure, cost transparency, cost management efforts (including regular efforts to lower compute and storage costs where permitted by the Plan) and oversight. Together, these mechanisms help ensure the ongoing reasonableness of the CAT's costs and the level of fees assessed to support those costs.¹²⁶

(ii) Technology: Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to operating fees as a part of CAT Fees.¹²⁷ CAT LLC determined that the budgeted costs related to operating fees described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1.

The operating fees would include the negotiated fees paid by CAT LLC to the Plan Processor to operate and maintain the system for order-related information and to perform business operations related to the system, including

compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the selection of FCAT as the Plan Processor was reasonable and appropriate given its expertise with securities regulatory reporting, after a process of considering other potential candidates.¹²⁸ CAT LLC also determined that the fixed price contract, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, was reasonable and appropriate, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity.¹²⁹ The services to be performed by FCAT for CAT Fee 2026–1 Period and the budgeted costs related to such services are described above.¹³⁰

The operating costs also include costs related to the receipt of market data. CAT LLC anticipates receiving certain market data from Algoseek during the CAT Fee 2026–1 Period. CAT LLC anticipates that Algoseek will provide data as set forth in the SIP Data requirements of the CAT NMS Plan and that the fees are reasonable and in line with market rates for market data received.¹³¹

(iii) Technology: CAIS Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to CAIS operating fees as a part of CAT Fees.¹³² CAT LLC determined that the budgeted costs related to CAIS operating fees described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. The CAIS operating fees would include the fees paid to the Plan Processor to operate and maintain the Reference Database and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the fees for FCAT's services related to the Reference Database, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS

¹²³ For a discussion of the amount and type of cloud hosting services fees, see Section 3(a)(2)(C)(i) above.

¹³¹ *Id.*

¹³² Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan.

Plan, taking into consideration a variety of factors, including the services to be provided and market rates for similar types of activity, are reasonable and appropriate.¹³³ The services to be performed by FCAT for the CAT Fee 2026–1 Period and the budgeted costs for such services are described above.¹³⁴

(iv) Technology: Change Request Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to change request fees as a part of CAT Fees.¹³⁵ CAT LLC determined that the budgeted costs related to change request fees described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. It is common practice to utilize a change request process to address evolving needs in technology projects. This is particularly true for a project like CAT that is the first of its kind, both in substance and in scale. The substance and costs of each of the change requests are evaluated by the Operating Committee and approved in accordance with the requirements for Operating Committee meetings. In each case, CAT LLC forecasts that the change requests will be necessary to implement the CAT. As described above,¹³⁶ CAT LLC determined that it was reasonable not to include any change request fees in the Budgeted CAT Costs 2026–1.

(v) Capitalized Developed Technology Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to capitalized developed technology costs as a part of CAT Fees.¹³⁷ In general, capitalized developed technology costs would include costs related to, for example, certain development costs, costs related to certain modifications, upgrades and other changes to the CAT and license fees. The amount and type of budgeted capitalized developed technology costs for the CAT Fee 2026–1 Period, which relate to the software license fee and technology changes to be implemented by FCAT, are described in more detail above.¹³⁸

(vi) Legal

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to legal

fees as a part of CAT Fees.¹³⁹ CAT LLC determined that the budgeted legal costs described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. Given the unique nature of the CAT, the number of parties involved with the CAT (including, for example, the SEC, Participants, Industry Members, and vendors) and the many regulatory, contractual and other issues associated with the CAT, the scope of the necessary legal services is substantial. CAT LLC determined that the scope of the proposed legal services is necessary to implement and maintain the CAT and that the legal rates reflect the specialized services necessary for such a project. CAT LLC determined to hire and continue to use each law firm based on a variety of factors, including their relevant expertise and fees. In each case, CAT LLC determined that the fee rates were in line with market rates for specialized legal expertise. In addition, CAT LLC determined that the budgeted costs for the legal projects were appropriate given the breadth of the services provided. The services to be performed by each law firm for the CAT Fee 2026–1 Period and the budgeted costs related to such services are described above.¹⁴⁰

(vii) Consulting

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted consulting costs as a part of CAT Fees.¹⁴¹ CAT LLC determined that the budgeted consulting costs described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. Because there are no CAT employees¹⁴² and because of the significant number of issues associated with the CAT, the consultants are budgeted to provide assistance in the management of various CAT matters and the processes related to such matters.¹⁴³ CAT LLC determined the budgeted consulting costs were appropriate, as the consulting services were to be provided at reasonable market rates that were comparable to the rates charged by other consulting firms for similar work. Moreover, the total budgeted costs for such consulting

services were appropriate in light of the breadth of services provided by Deloitte. The services budgeted to be performed by Deloitte and the budgeted costs related to such services are described above.¹⁴⁴

(viii) Insurance

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted insurance costs as a part of CAT Fees.¹⁴⁵ CAT LLC determined that the budgeted insurance costs described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. CAT LLC determined that it is common practice to have directors' and officers' liability insurance, and errors and omissions liability insurance. CAT LLC further determined that it was important to have cyber security insurance given the nature of the CAT, and such a decision is consistent with the CAT NMS Plan, which states that the cyber incident response plan may include "[i]nsurance against security breaches."¹⁴⁶ As discussed above,¹⁴⁷ CAT LLC determined that the budgeted insurance costs were appropriate given its prior experience with this market and an analysis of the alternative insurance offerings. Based on this analysis, CAT LLC determined that the selected insurance policies provided appropriate coverage at reasonable market rates.¹⁴⁸

(ix) Professional and Administration

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted professional and administration costs as a part of CAT Fees.¹⁴⁹ CAT LLC determined that the budgeted professional and administration costs described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. Because there are no CAT employees, all required accounting, financial, tax, cash management and treasury functions for CAT LLC have been outsourced at market rates. In addition, the required annual financial statement audit of CAT LLC is included in professional and administration costs, which costs are also at market rates. The services performed by Anchin and Grant Thornton and the costs

related to such services are described above.¹⁵⁰

CAT LLC anticipates continuing to make use of Anchin, a financial advisory firm, to assist with financial matters for the CAT. CAT LLC determined that the budgeted costs for Anchin were appropriate, as the financial advisory services were to be provided at reasonable market rates that were comparable to the rates charged by other such firms for similar work. Moreover, the total budgeted costs for such financial advisory services were appropriate in light of the breadth of services provided by Anchin. The services budgeted to be performed by Anchin and the budgeted costs related to such services are described above.¹⁵¹

CAT LLC anticipates continuing to make use of Grant Thornton, an independent accounting firm, to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. CAT LLC determined that the budgeted costs for Grant Thornton were appropriate, as the accounting services were to be provided at reasonable market rates that were comparable to the rates charged by other such firms for similar work. Moreover, the total budgeted costs for such accounting services were appropriate in light of the breadth of services provided by Grant Thornton. The services budgeted to be performed by Grant Thornton and the budgeted costs related to such services are described above.¹⁵²

(x) Public Relations Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted public relations costs as a part of CAT Fees.¹⁵³ However, as described above,¹⁵⁴ CAT LLC determined not to include any public relations costs in Budgeted CAT Costs 2026–1. CAT LLC determined that it was reasonable not to include any public relations costs in the Budgeted CAT Costs 2026–1.

(xi) Interest Income

Section 11.1(a) of the CAT NMS Plan requires the CAT budget to include “the sources of all revenues to cover costs.” Accordingly, the Updated 2026 CAT Budget includes a line item for interest income. Specifically, the Updated 2026 CAT Budget includes \$1,453,382 in interest income for the CAT Fee 2026–

1 Period.¹⁵⁵ CAT LLC determined that using interest income to reduce the amount to be collected via CAT Fees is reasonable and should be included as a part of the Budgeted CAT Costs 2026–1.

(x) Reserve

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted reserve costs as a part of CAT Fees.¹⁵⁶ CAT LLC determined that the reserve in the amount of 25% of the Updated 2026 CAT Budget (other than the reserve) complies with the requirements of the CAT NMS Plan related to a reserve, is a reasonable amount, and, therefore, should be included as a part of the Updated 2026 CAT Budget.

In its approval order for the CAT Funding Model, the Commission stated that it would be appropriate for the annual operating budget for the CAT to “include a reserve of not more than 25% of the annual budget.”¹⁵⁷ In making this statement, the Commission noted the following:

Because the CAT is a critical regulatory tool/system, the CAT needs to have a stable funding source to build financial stability to support the Company as a going concern. Funding for the CAT, as noted in Section 11.1(b), is the responsibility of the Participants and the industry. Because CAT fees are charged based on the budget, which is based on anticipated volume, it is reasonable to have a reserve on hand to prevent a shortfall in the event there is an unexpectedly high volume in a given year. A reserve would help to assure that the CAT has sufficient resources to cover costs should there be unanticipated costs or costs that are higher than expected.¹⁵⁸

The SEC also recognized that a reserve would help address the difficulty in predicting certain variable CAT costs, like trading volume.¹⁵⁹ The SEC also recognized that CAT fees will be collected approximately three months after trading activity on which a CAT fee is based, or 25% of the year, and that the reserve would be available to address funding needs related to this three-month delay.¹⁶⁰ The inclusion of the proposed reserve in the Updated 2026 CAT Budget would provide each

of these benefits to the CAT. The reserve is discussed further above.¹⁶¹

As discussed further below,¹⁶² however, a surplus reserve balance in excess of the budgeted 25% reserve has been collected as of the beginning of the year of 2026. Accordingly, the Updated 2026 CAT Budget indicates that this surplus would be used to offset a portion of CAT costs for the CAT Fee 2026–1 Period, thereby reducing the fee rate for CAT Fee 2026–1 (\$0.000001 per executed equivalent share). If the fee rate for CAT Fee 2026–1 were calculated solely based on the reasonably budgeted costs for CAT for May–December 2026, excluding the reduction in that amount due to the surplus reserve offset, the fee rate would be \$0.000010 per executed equivalent share.

(B) Reconciliation of Budget to the Collected Fees

The CAT NMS Plan also requires fee filings for Prospective CAT Fees to include “a discussion of how the budget is reconciled to the collected fees.”¹⁶³ As discussed above,¹⁶⁴ this reserve balance of \$102,391,135 collected via prior CAT Fees would be used to offset a portion of CAT costs for CAT Fee Period 2026–1, thereby reducing the fee rate to be paid for CAT Fee 2026–1. Specifically, the total costs (including the 25% reserve) for CAT Fee 2026–1 of \$117,540,783 would be reduced by the \$102,391,135 in reserve. Therefore, the Total Budgeted CAT Costs 2026–1 would be \$15,149,648. Such surplus reserve balance would be used to reduce the fee rate for CAT Fee 2026–1 (\$0.000001 per executed equivalent share).

(C) Total Executed Equivalent Share Volume for the Prior 12 Months

The total executed equivalent share volume of transactions in Eligible Securities for the period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. CAT LLC determined the total executed equivalent share volume for the prior twelve months by counting executed equivalent shares in the same manner as it counts executed equivalent shares for CAT billing purposes.¹⁶⁵

(D) Projected Executed Equivalent Share Volume for the CAT Fee 2026–1 Period

CAT LLC has determined that the projected total executed equivalent

¹⁵⁵ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

¹⁵⁴ See Section 3(a)(2)(C)(x) above.

share volume for the eight months of the CAT Fee 2026–1 Period by multiplying by 8/12ths the executed equivalent share volume for the prior twelve months: 8/12 times

5,980,937,549,360.49 executed equivalent shares.¹⁶⁶ The Operating Committee determined that such an approach was reasonable as the CAT's annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.41), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level.

(E) Actual Fee Rate for CAT Fee 2026–1

(i) Decimal Places

As noted in the approval order for the CAT Funding Model, as a practical matter, the fee filing for a CAT Fee would provide the exact fee per executed equivalent share to be paid for each CAT Fee, by multiplying the Fee Rate by one-third and describing the relevant number of decimal places for the fee rate.¹⁶⁷ Accordingly, proposed paragraph (a)(6)(B) of the fee schedule would set forth a fee rate of \$0.000001 per executed equivalent share. This fee rate is calculated by multiplying Fee Rate 2026–1 by one-third and rounding the result to six decimal places. CAT LLC determined that the use of six decimal places is reasonable as it balances the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.¹⁶⁸

(ii) Reasonable Fee Level

The Exchange believes that charging CAT Fee 2026–1 with a fee rate of \$0.000001 per executed equivalent share is reasonable because it provides for a revenue stream for the Company that is aligned with the Budgeted CAT Costs 2026–1. Moreover, the Exchange believes that the level of the fee rate is reasonable, as it is less than CAT Fee 2025–2 and is comparable to other transaction-based fees, including fees assessed pursuant to Section 31.¹⁶⁹ As a result, the magnitude of CAT Fee 2026–1 is small, and therefore will

mitigate any potential adverse economic effects or inefficiencies.¹⁷⁰

(3) CAT Fee 2026–1 Provides for an Equitable Allocation of Fees

CAT Fee 2026–1 provides for an equitable allocation of fees, as it equitably allocates CAT costs between and among the Participants and Industry Members. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfied the requirements of the Exchange Act, including the formula for calculating CAT Fees as well as the Industry Members to be charged the CAT Fees.¹⁷¹ In approving the CAT Funding Model, the SEC stated that “[t]he Participants have sufficiently demonstrated that the proposed allocation of fees is appropriate and meets the Rule 608(b) approval standard.”¹⁷² Accordingly, the CAT Funding Model sets forth the requirements for allocating fees related to Budgeted CAT Costs among Participants and Industry Members, and the fee filings for CAT Fees must comply with those requirements.

CAT Fee 2026–1 provides for an equitable allocation of fees as it complies with the requirements regarding the calculation of CAT Fees as set forth in the CAT NMS Plan. For example, as described above, the calculation of CAT Fee 2026–1 complies with the formula set forth in Section 11.3(a) of the CAT NMS Plan. In addition, CAT Fee 2026–1 would be charged to CEBBs and CEBBs in accordance with Section 11.3(a) of the CAT NMS Plan. Furthermore, the Participants would be charged for their designated share of the Budgeted CAT Costs 2026–1 through a fee implemented via the CAT NMS Plan, which would have the same fee rate as CAT Fee 2026–1.

In addition, as discussed above, each of the inputs into the calculation of CAT Fee 2026–1—the Budgeted CAT Costs 2026–1, the count for the executed equivalent share volume for the prior 12 months, and the projected executed equivalent share volume for the CAT Fee 2026–1 Period—is reasonable. Moreover, these inputs lead to a reasonable fee rate for CAT Fee 2026–1 that is lower than other fee rates for transaction-based fees. A reasonable fee rate allocated in accordance with the requirements of the CAT Funding Model provides for an equitable allocation of fees.

(4) CAT Fee 2026–1 Is Not Unfairly Discriminatory

CAT Fee 2026–1 is not an unfairly discriminatory fee. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfies the requirements of the Exchange Act. In reaching this conclusion, the SEC analyzed the potential effect of CAT Fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. CAT Fee 2026–1 complies with the requirements regarding the calculation of CAT Fees as set forth in the CAT NMS Plan. In addition, as discussed above, each of the inputs into the calculation of CAT Fee 2026–1 and the resulting fee rate for CAT Fee 2026–1 is reasonable. Therefore, CAT Fee 2026–1 does not impose an unfairly discriminatory fee on Industry Members.

The Exchange believes the proposed fees established pursuant to the CAT Funding Model promote just and equitable principles of trade, and, in general, protect investors and the public interest, and are provided in a transparent manner and with specificity in the fee schedule. The Exchange also believes that the proposed fees are reasonable because they would provide ease of calculation, ease of billing and other administrative functions, and predictability of a fee based on fixed rate per executed equivalent share. Such factors are crucial to estimating a reliable revenue stream for CAT LLC and for permitting Exchange members to reasonably predict their payment obligations for budgeting purposes.

B. Self-Regulatory Organization's Statement on Burden on Competition

Section 6(b)(8) of the Act¹⁷³ requires that the Exchange's rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that CAT Fee 2026–1 implements provisions of the CAT NMS Plan that were approved by the

¹⁶⁶ *Id.*

¹⁶⁷ CAT Funding Model Approval Order at 13445, n.677.

¹⁶⁸ See Section 3(a)(5)(A) above.

¹⁶⁹ For example, as the SEC noted in the CAT Funding Model Approval Order, recent Section 31 fees ranged from \$0.00007 per share to \$0.00072 per share. CAT Funding Model Approval Order at 13469.

¹⁷⁰ *Id.*

¹⁷¹ See Section 11.3(a) of the CAT NMS Plan.

¹⁷² CAT Funding Model Approval Order at 13412.

¹⁷³ 15 U.S.C. 78f(b)(8).

Commission and is designed to assist the Exchange in meeting its regulatory obligations pursuant to the Plan.

In addition, all Participants (including exchanges and FINRA) are proposing to introduce CAT Fee 2026–1 on behalf of CAT LLC to implement the requirements of the CAT NMS Plan. Therefore, this is not a competitive fee filing, and, therefore, it does not raise competition issues between and among the Participants.

Furthermore, in approving the CAT Funding Model, the SEC analyzed the potential competitive impact of the CAT Funding Model, including competitive issues related to market services, trading services and regulatory services, efficiency concerns, and capital formation.¹⁷⁴ The SEC also analyzed the potential effect of CAT fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. Based on this analysis, the SEC approved the CAT Funding Model as compliant with the Exchange Act. CAT Fee 2026–1 is calculated and implemented in accordance with the CAT Funding Model as approved by the SEC.

As discussed above, each of the inputs into the calculation of CAT Fee 2026–1 is reasonable and the resulting fee rate for CAT Fee 2026–1 calculated in accordance with the CAT Funding Model is reasonable. Therefore, CAT Fee 2026–1 would not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Not applicable.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁷⁵ and paragraph (f) of Rule 19b–4¹⁷⁶ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission

summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR–CboeBZX–2026–035 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–CboeBZX–2026–035. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–CboeBZX–2026–035 and should be submitted on or before June 2, 2026.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁷⁷

Stephanie J. Fouse,
Assistant Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–105402; File No. SR–CBOE–2026–041]

Self-Regulatory Organizations; Cboe Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Establish Fees for Industry Members Related to Reasonably Budgeted CAT Costs of the National Market System Plan Governing the Consolidated Audit Trail for the Period From May 1, 2026 Through December 31, 2026

May 7, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on April 24, 2026, Cboe Exchange, Inc. (the “Exchange” or “Cboe Options”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe Exchange, Inc. (the “Exchange” or “Cboe Options”) proposes to amend its “Consolidated Audit Trail Funding Fees”³ fee schedule to establish fees for Industry Members⁴ related to reasonably budgeted CAT costs of the National Market System Plan Governing the Consolidated Audit Trail (the “CAT NMS Plan” or “Plan”) for the period from May 1, 2026 through December 31, 2026. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Commission's website (<https://www.sec.gov/rules/sro.shtml>), the Exchange's website (<https://www.cboe.com/us/options/>

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

³ The Exchange and each of its affiliated exchanges (Cboe BYX Exchange, Inc., Cboe BZX Exchange, Inc., Cboe C2 Exchange, Inc., Cboe EDGA Exchange, Inc., and Cboe EDGX Exchange, Inc.) are filing to make the same amendment to the “Consolidated Audit Trail Funding Fees” fee schedule.

⁴ An “Industry Member” is defined as “a member of a national securities exchange or a member of a national securities association.” See Exchange Rule 7.20(u); see also Section 1.1 of the CAT NMS Plan. Unless otherwise specified, capitalized terms used in this rule filing are defined as set forth in the CAT NMS Plan and/or the CAT Compliance Rule. See Chapter 7, Section B of the Exchange's Rulebook.

regulation/rule_filings/bzx/), and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On July 11, 2012, the Commission adopted Rule 613 of Regulation NMS, which required the self-regulatory organizations ("SROs") to submit a national market system ("NMS") plan to create, implement and maintain a consolidated audit trail that would capture customer and order event information for orders in NMS securities across all markets, from the time of order inception through routing, cancellation, modification or execution.⁵ On November 15, 2016, the Commission approved the CAT NMS Plan.⁶ Under the CAT NMS Plan, the Operating Committee has the discretion to establish funding for CAT LLC to operate the CAT, including establishing fees for Industry Members to be assessed by CAT LLC that would be implemented on behalf of CAT LLC by the Participants.⁷ The Operating Committee adopted a revised funding model to fund the CAT ("CAT Funding Model"). On March 16, 2026, the Commission approved the CAT Funding Model after concluding that the model satisfied the requirements of Section 11A of the Exchange Act and Rule 608 thereunder.⁸

The CAT Funding Model provides a framework for the recovery of the costs

to create, develop and maintain the CAT, including providing a method for allocating costs to fund the CAT among Participants and Industry Members. The CAT Funding Model establishes two categories of fees: (1) CAT fees assessed by CAT LLC and payable by certain Industry Members to recover a portion of historical CAT costs previously paid by the Participants ("Historical CAT Assessment" fees); and (2) CAT fees assessed by CAT LLC and payable by Participants and Industry Members to fund prospective CAT costs ("CAT Fees").⁹

Under the CAT Funding Model, Participants, CEBBs and CEBSs are subject to fees designed to cover the ongoing budgeted costs of the CAT, as determined by the Operating Committee. "The Operating Committee will establish fees ('CAT Fees') to be payable by Participants and Industry Members with regard to CAT costs not previously paid by the Participants ('Prospective CAT Costs')." ¹⁰ In establishing a CAT Fee, the Operating Committee will calculate a "Fee Rate" for the relevant period. Then, for each month in which a CAT Fee is in effect, each CEBB and CEBS would be required to pay the fee for each transaction in Eligible Securities executed by the CEBB or CEBS from the prior month as set forth in CAT Data, where the fee for each transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Fee Rate.

The CAT Fees to be paid by CEBBs and CEBSs are designed to contribute toward the recovery of two-thirds of the budgeted CAT costs for the relevant period.¹¹ The CAT Funding Model is designed to require that the Participants contribute to the recovery of the remaining one-third of the budgeted CAT costs.¹² Participants would be subject to the same Fee Rate as CEBBs and CEBSs.¹³ While CAT Fees charged to Industry Members become effective in accordance with the requirements of

Section 19(b) of the Exchange Act,¹⁴ CAT fees charged to Participants are implemented via an approval of the CAT fees by the Operating Committee in accordance with the requirements of the CAT NMS Plan.¹⁵ Accordingly, this filing does not address Participant CAT fees as they are described in the CAT NMS Plan.¹⁶

CAT LLC proposes to charge CEBBs and CEBSs (as described in more detail below) CAT Fee 2026–1 to recover the reasonably budgeted CAT costs for the period from May 1, 2026 through December 31, 2026 in accordance with the CAT Funding Model. To implement this fee on behalf of CAT LLC, the CAT NMS Plan requires the Participants to "file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves, and such fees shall be labeled as 'Consolidated Audit Trail Funding Fees.'" ¹⁷ The Plan further states that "[o]nce the Operating Committee has approved such Fee Rate, the Participants shall be required to file with the SEC pursuant to Section 19(b) of the Exchange Act CAT Fees to be charged to Industry Members calculated using such Fee Rate." ¹⁸ Accordingly, the purpose of this filing is to implement a CAT Fee on behalf of CAT LLC for Industry Members, referred to as CAT Fee 2026–1, in accordance with the CAT NMS Plan.

(1) CAT Executing Brokers

CAT Fee 2026–1 will be charged to each CEBB and CEBS for each applicable transaction in Eligible Securities.¹⁹ The CAT NMS Plan defines a "CAT Executing Broker" to mean: (a) with respect to a transaction in an Eligible Security that is executed on an exchange, the Industry Member identified as the Industry Member responsible for the order on the buy-side of the transaction and the Industry

¹⁴ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹⁵ CAT Funding Model Approval Order at 13448.

¹⁶ See Section 11.3(a)(ii) and Appendix B of the CAT NMS Plan.

¹⁷ Section 11.1(b) of the CAT NMS Plan.

¹⁸ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹⁹ In its approval of the CAT Funding Model, the Commission determined that charging CAT fees to CAT Executing Brokers was appropriate. In reaching this conclusion, the Commission noted that the use of CAT Executing Brokers is appropriate because the CAT Funding Model is based upon the calculation of *executed* equivalent shares, and, therefore, charging CAT Executing Brokers would reflect their executing role in each transaction. Furthermore, the Commission noted that, because CAT Executing Brokers are already identified in transaction reports from the exchanges and FINRA's equity trade reporting facilities recorded in CAT Data, charging CAT Executing Brokers could streamline the billing process. CAT Funding Model Approval Order at 13413.

No.	Field name	Data type	Description	Include key
26	reportingExecutingMpid	Member Alias	MPID of the executing party	R
28	contraExecutingMpid	Member Alias	MPID of the contra-side executing party ..	C

(2) Calculation of Fee Rate 2026–1

The Operating Committee determined the Fee Rate to be used in calculating CAT Fee 2026–1 (“Fee Rate 2026–1”) by dividing the reasonably budgeted CAT costs (“Budgeted CAT Costs 2026–1”) for the period from May 1, 2026 through December 31, 2026 (“CAT Fee 2026–1 Period”) by the reasonably projected total executed share volume of all transactions in Eligible Securities for the eight-month recovery period, as

discussed in detail below.²⁴ Based on this calculation, the Operating Committee has determined that Fee Rate 2026–1 would be \$0.000003799483243631228 per executed equivalent share. This rate is then divided by three and rounded to determine the fee rate of \$0.000001 per executed equivalent share that will be assessed to CEBBs and CEBSSs, as also discussed in detail below.

(A) CAT Fee 2026–1 Period

CAT LLC proposes to implement CAT Fee 2026–1. CAT LLC proposes to commence CAT Fee 2026–1 during the year, rather than at the beginning of the year. Accordingly, CAT Fee 2026–1 “would be calculated as described in paragraph (II)” of Section 11.3(a)(i)(A) of the CAT NMS Plan,²⁵ which states that “[d]uring each year, the Operating Committee will calculate a new Fee Rate by dividing the reasonably budgeted

²⁰ Section 1.1 of the CAT NMS Plan. Note that CEBBs and CEBSSs may, but are not required to, pass-through their CAT Fees to their clients, who may, in turn, pass their fees to their clients until they are imposed ultimately on the account that executed the transaction. See CAT Funding Model Approval Order at 13424.

²¹ See Table 23, Section 4.7 (Order Trade Event) of the CAT Reporting Technical Specifications for

Plan Participants, Version 4.1.1 r1 (Apr. 14, 2025), https://www.catnmsplan.com/sites/default/files/2025-04/04.14.2025_CAT_Reporting_Technical_Specifications_for_Participants_4.1.1-r1.pdf (“CAT Reporting Technical Specifications for Plan Participants”).

²³ See Table 61, Section 6.1 (TRF/ORF/ADF Transaction Data Event) of the CAT Reporting Technical Specifications for Plan Participants.

²⁴ Section 11.3(a)(i) of the CAT NMS Plan.

²⁵ Section 11.3(a)(i)(A)(IV) of the CAT NMS Plan.

CAT costs for the remainder of the year by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the remainder of the year.”²⁶ For CAT Fee 2026–1, the reasonably budgeted CAT costs for “the remainder of the year” are the reasonably budgeted CAT costs from May 1, 2026 through December 31, 2026 as set forth in the updated annual budget for 2026 for CAT LLC approved by the Operating Committee on March 31, 2026 (“Updated 2026 CAT Budget”).²⁷

(B) Executed Equivalent Shares for Transactions in Eligible Securities

Under the CAT NMS Plan, for purposes of calculating CAT Fees, executed equivalent shares in a transaction in Eligible Securities will be reasonably counted as follows: (1) each executed share for a transaction in NMS Stocks will be counted as one executed equivalent share; (2) each executed contract for a transaction in Listed Options will be counted based on the multiplier applicable to the specific Listed Options (*i.e.*, 100 executed equivalent shares or such other applicable multiplier); and (3) each executed share for a transaction in OTC Equity Securities will be counted as 0.01 executed equivalent share.²⁸

(C) Budgeted CAT Costs 2026–1

The CAT NMS Plan states that “[t]he budgeted CAT costs for the year shall be comprised of all reasonable fees, costs and expenses reasonably budgeted to be incurred by or for the Company in connection with the development, implementation and operation of the CAT as set forth in the annual operating budget approved by the Operating Committee pursuant to Section 11.1(a) of the CAT NMS Plan, or as adjusted during the year by the Operating

Committee.”²⁹ Section 11.1(a) of the CAT NMS Plan describes the requirement for the Operating Committee to approve an operating budget for CAT LLC on an annual basis. It requires the budget to “include the projected costs of the Company, including the costs of developing and operating the CAT for the upcoming year, and the sources of all revenues to cover such costs, as well as the funding of any reserve that the Operating Committee reasonably deems appropriate for the prudent operation of the Company.” Section 11.1(a)(i) of the CAT NMS Plan further states that: [w]ithout limiting the foregoing, the reasonably budgeted CAT costs shall include technology (including cloud hosting services, operating fees, CAIS operating fees, change request fees and capitalized developed technology costs), legal, consulting, insurance, professional and administration, and public relations costs, a reserve and such other cost categories as reasonably determined by the Operating Committee to be included in the budget.

In accordance with the requirements under the CAT NMS Plan, the Operating Committee approved an annual budget for 2026 for CAT LLC (“Original 2026 CAT Budget”) on December 11, 2025.³⁰ On March 31, 2026, the Operating Committee approved an updated budget for 2026, referred to as the Updated 2026 CAT Budget. The Updated 2026 CAT Budget includes actual costs for each category for January and February 2026, with updated estimated costs for the remainder of the year. The updated costs for May through December as included in the Updated 2026 CAT Budget (*i.e.*, Budgeted CAT Costs 2026–1) are the costs used in calculating CAT Fee 2026–1.³¹ The 2026 CAT budgets, both the Original 2026 CAT Budget and the Updated 2026 CAT Budget, were

prepared on the accrual basis of accounting.³²

As described in detail below, the Budgeted CAT Costs 2026–1 would be \$15,149,648. CEBBs collectively will be responsible for one-third of the Budgeted CAT Costs 2026–1 (which is \$5,049,882.67), and CEBBs collectively will be responsible for one-third of the Budgeted CAT Costs 2026–1 (which is \$5,049,882.67).

The following describes in detail the Budgeted CAT Costs 2026–1 for CAT Fee 2026–1. The following cost details are provided in accordance with the requirement in the CAT NMS Plan to provide in the fee filing the following: the budget for the upcoming year (or remainder of the year, as applicable), including a brief description of each line item in the budget, including (1) technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration, and (6) public relations costs, a reserve and/or such other categories as reasonably determined by the Operating Committee to be included in the budget, and the reason for changes in each such line item from the prior CAT fee filing.³³

Each of the costs described below is reasonable, appropriate and necessary for the creation, implementation and maintenance of CAT.

The following table breaks down the Budgeted CAT Costs 2026–1 into the categories set forth in Section 11.3(a)(iii)(B) of the CAT NMS Plan.³⁴ The Budgeted CAT Costs 2026–1 reflect the costs for May through December as included in the Updated 2026 CAT Budget. The Budgeted CAT Costs 2026–1 are the costs used in calculating CAT Fee 2026–1.

BUDGETED CAT COSTS 2026–1

Budget category	Budgeted CAT costs 2026–1 ^b (<i>i.e.</i> , costs for May–December 2026)
Capitalized Developed Technology Costs ^a	¢\$3,450,000

²⁶ Section 11.3(a)(i)(A)(II) of the CAT NMS Plan.

²⁷ The Updated 2026 CAT Budget is available on the CAT website (<https://www.catnmsplan.com/sites/default/files/2026-04/03.31.26-CAT-2026-Budget.pdf>).

²⁸ Section 11.3(a)(i)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission concluded that “the use of executed equivalent share volume provides an appropriate basis for the calculation of CAT fees.” CAT Funding Model Approval Order at 13413.

²⁹ Section 11.3(a)(i)(C) of the CAT NMS Plan.

³⁰ The Original 2026 CAT Budget is available on the CAT website (<https://www.catnmsplan.com/>

[sites/default/files/2025-12/12.08.25-CAT-LLC-2026-Financial_and_Operating_Budget.pdf](https://www.catnmsplan.com/sites/default/files/2025-12/12.08.25-CAT-LLC-2026-Financial_and_Operating_Budget.pdf)).

³¹ The version of the Updated 2026 CAT Budget set forth on the CAT website is presented on a quarterly basis, but is prepared based on more granular detail. The costs for May and June are estimated based on two-thirds of costs for Q2 where the budgeted monthly amounts are consistent. For those cases in which the costs for a category vary from month to month in Q2, the specific budgeted amounts for May and June are noted.

³² CAT budgets for periods prior to 2025 were prepared on the cash basis of accounting, as such budgets were primarily used to determine the dollar amount of promissory notes from the Participants that were required to fund the ongoing operations

of the CAT. Commencing in 2025, with the contemplated recovery of costs from Industry Members and the Participants via CAT Fees, the Original 2025 CAT Budget was prepared on the accrual basis of accounting to properly match projected revenues with estimated expenses incurred. A cash basis budget reflects expenditures when paid, while an accrual basis budget reflects expenditures when incurred. In moving from a cash basis budget to an accrual basis budget, there is no double counting of expenses.

³³ Section 11.3(a)(iii)(B) of the CAT NMS Plan.

³⁴ Note that costs and related cost calculations provided in this filing may reflect minor variations from the budgeted costs due to rounding.

BUDGETED CAT COSTS 2026–1—Continued

Budget category	Budgeted CAT costs 2026–1 ^b (i.e., costs for May–December 2026)
Technology Costs	83,737,680
Cloud Hosting Services	^d 49,866,667
Operating Fees	^e 19,691,953
CAIS Operating Fees	^f 14,179,060
Change Request Fees	^g 0
Legal	^h 5,670,452
Consulting	ⁱ 1,025,957
Insurance	^j 852,768
Professional and administration	^k 749,151
Public relations	^l 0
Interest Income	^m (1,453,382)
Total Costs	94,032,626
Reserve (25% of Total Costs)	23,508,157
Total Costs and Reserve	117,540,783
Use of Existing Reserve	ⁿ (102,391,135)
Total Budgeted CAT Costs 2026–1	15,149,648

^a The non-cash amortization of these capitalized developed technology costs to be incurred during the CAT Fee 2026–1 Period have been appropriately excluded from the above table.³⁵

^b Budgeted CAT Costs 2026–1 described in this table of costs were determined based on an analysis of a variety of factors, including historical costs/invoices, estimated costs from respective vendors/service providers, contractual terms with vendors/service providers, anticipated service levels and needs, and discussions with vendors and Participants.

^c This cost number for capitalized developed technology costs reflects (1) capitalized developed technology costs of \$3,450,000 for May, \$0 for June and \$0 for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget; and (2) \$0 for the Software License Fee 2026 for the second, third, and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: (\$3,450,000 + \$0 + \$0 + \$0) + (\$0 + \$0 + \$0) = \$3,450,000.

^d This cost number for cloud hosting services reflects two-thirds of the cloud hosting services costs for the second quarter and the cloud hosting services for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: ($\frac{2}{3} \times \$18,700,000$) + \$18,700,000 + \$18,700,000 = \$49,866,667.

^e This cost number for operating fees reflects (1) two-thirds of the Non-CAIS fixed operating fees for the second quarter and the Non-CAIS fixed operating fees for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget and (2) two-thirds of the market data vendor fees for the second quarter and the market data vendor fees for the third and fourth quarter of 2026 as included in the Updated 2026 CAT Budget: ($\frac{2}{3} \times \$7,191,853$) + \$7,191,853 + \$7,191,853 + ($\frac{2}{3} \times \$192,630$) + \$192,630 + \$192,630 = \$19,691,953.

^f This cost number for CAIS operating fees reflects two-thirds of the CAIS fixed operating fees for the second quarter and the CAIS fixed operating fees for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: ($\frac{2}{3} \times \$5,317,147$) + \$5,317,147 + \$5,317,147 = \$14,179,060.

^g This \$0 cost number for change requests reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

^h This cost number for legal services reflects two-thirds of the legal costs for the second quarter and the legal costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: ($\frac{2}{3} \times \$2,125,170$) + \$2,125,170 + \$2,125,170 = \$5,670,452.

ⁱ This cost number for consulting services reflects two-thirds of the consulting costs for the second quarter and the consulting costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: ($\frac{2}{3} \times \$384,734$) + \$384,734 + \$384,734 = \$1,025,957.

^j This cost number for insurance reflects two-thirds of the insurance costs for the second quarter and the insurance costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: ($\frac{2}{3} \times \$300,977$) + \$321,042 + \$331,074 = \$852,768.

^k This cost number for professional and administration services reflects two-thirds of the professional and administration costs for the second quarter and the professional and administration costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: ($\frac{2}{3} \times \$280,932$) + \$280,932 + \$280,932 = \$749,151.

^l This \$0 cost number of change requests reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

^m This interest income reflects interest income (net of bank fees) of \$517,208 for May and June and interest income (net of bank fees) for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: \$517,208 + \$571,010 + \$365,164 = \$1,453,382. Note that interest income for May and June 2026 of \$517,208 is slightly less than two-thirds of \$809,598 (which is \$539,732) for the second quarter as the amount of interest income varies from month to month.

ⁿ This amount for the use of the existing reserve is calculated by subtracting from the Accrued Liquidity Reserve Balance as of the Beginning of the Year in the Updated 2026 CAT Budget the 25% Incremental Liquidity Reserve Accrued during 2026 for the first quarter and for April of 2026 as included in the Updated 2026 CAT Budget: \$155,403,378 – (\$41,800,153 + \$11,212,091) = \$102,391,135. Note that the 25% Incremental Liquidity Reserved Accrued during 2026 for April 2026 of \$11,212,091 is slightly more than one-third of \$33,366,432 (which is \$11,122,144) for the second quarter as the amount of the 25% Incremental Liquidity Reserved Accrued during 2026 varies from month to month.

To the extent that CAT LLC enters into notes with Participants or others to pay costs incurred during the period in which CAT Fee 2026–1 is in effect, CAT

LLC will use the proceeds from CAT Fee 2026–1 and the related Participant CAT fees to repay such notes.

The following table compares the annual budgeted CAT costs as set forth in the updated annual CAT budget for 2025 approved by the Operating Committee in May 2025 (“May Updated 2025 CAT Budget”),³⁶ the updated

annual CAT budget for 2025 approved by the Operating Committee in November 2025 (“November Updated 2025 CAT Budget”),³⁷ the Original 2026 CAT Budget and the Updated 2026 CAT Budget, and is provided for

05.19.25-CAT-LLC-2025-Financial_and_Operating-Budget.pdf).

³⁷ The November Updated 2025 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-12/12.22.25_CAT-LLC-2025-Financial_and_Operating-Budget.pdf).

³⁵ With respect to certain costs that were “appropriately excluded,” such excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already been otherwise reflected in the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

³⁶ The May Updated 2025 CAT Budget is available on the CAT website (<https://www.catnmsplan.com/sites/default/files/2025-05/>

informational purposes. In each case, the costs provided reflect the costs for the entire year for each of the budgets;

this differs from the above chart which focuses on budgeted costs for the period from May 1, 2026 through December 31,

2026, which, as noted, are the costs that are used in the calculation of the fee rate in this fee filing.

COMPARISON OF FULL YEAR BUDGETED COSTS

Budget category	Full year of 2025 budgeted CAT costs from updated 2025 CAT budget (May 2025)	Full year of 2025 budgeted CAT costs from updated 2025 budget (Nov. 2025)	Full year of 2026 budgeted CAT costs from original 2026 CAT budget	Full year of 2026 budgeted CAT costs from updated 2026 CAT budget
Capitalized Developed Technology Costs ^a	\$4,871,962	\$5,163,991	\$8,228,827	\$8,378,964
Technology Costs	211,548,472	173,091,660	137,514,003	128,643,476
Cloud Hosting Services	159,230,937	122,084,811	81,900,006	77,529,362
Operating Fees ^b	30,817,686	29,932,001	34,345,413	29,845,524
CAIS Operating Fees	20,749,848	20,749,848	21,268,584	21,268,590
Change Request Fees	750,000	325,000	0	0
Legal	7,370,002	7,312,547	8,485,000	8,939,184
Consulting	1,749,998	1,750,000	1,550,000	1,550,000
Insurance	1,594,452	1,368,750	1,505,625	1,254,070
Professional and administration	1,193,090	1,392,679	1,145,500	1,085,500
Public relations	6,575	6,575	0	0
Interest Income	0	(2,510,223)	(1,995,958)	(2,806,325)
Total Annual CAT Costs ^c	228,334,551	187,575,979	156,432,998	147,044,869

^a This cost number is calculated by adding together the Capitalized Developed Technology Costs and the Software License Fee for each budget.

^b This cost number is calculated by adding together the Operating fees, the Cyber Insurance Premium Adjustment (if any) and market data vendor fees (if any separate fees) for each budget.

^c This total cost number does not include an amount for a reserve.

In addition, the following table compares the budgeted costs for January and February 2026 that were used in drafting the Original 2026 CAT Budget with the actual costs for January and February 2026 that were used in

drafting the Updated 2026 CAT Budget. The Original 2026 CAT Budget includes budgeted costs for January and February 2026, whereas the Updated 2026 CAT Budget includes actual costs for January and February 2026. The variance from

the budgeted costs for January and February 2026 to the actual costs for January and February 2026 are used in this filing in supporting the reasonableness of the estimates for each category of costs.

COMPARISON OF BUDGETED AND ACTUAL COSTS FOR JANUARY & FEBRUARY 2026

Budget category	Budgeted costs for January & February 2026 (as used in drafting the original 2026 CAT budget)	Actual costs for January & February 2026 (as used in drafting the updated 2026 CAT budget)	Variance from budgeted costs for January & February 2026 to actual costs for January & February of 2026
Capitalized Developed Technology Costs ^a	\$671,472	\$4,145,430	Increase by \$3,473,958. ^b
Technology Costs	25,894,000	21,501,183	
Cloud Hosting Services	17,200,000	12,829,362	Decrease by \$4,370,638. ^c
Operating Fees	5,149,236	5,127,057	Decrease by \$22,179.
CAIS Operating Fees	3,544,764	3,544,764	No change.
Change Request Fees	0	0	No change.
Legal	1,424,166	1,838,617	Increase by \$414,451. ^d
Consulting	258,334	267,554	Increase by \$9,220.
Insurance	250,938	200,652	Decrease by \$50,286.
Professional and administration	190,916	149,061	Decrease by \$41,855.
Public relations	0	0	No change.
Interest Income	(758,343)	(757,527)	Decrease by \$816.
Total	27,931,483	27,344,970	Decrease by \$586,513.

^a This cost number for capitalized developed technology costs is calculated by adding together the capitalized developed technology costs and the software license fee for each budget.

^b The variance for capitalized developed technology costs is the result of costs related to the software license fee in accordance with the Plan Processor Agreement with FCAT.

^c This variance is attributable to lower than forecasted market volumes and the impact of lower processing costs due to shutting down certain functionalities.

^d The variance in legal costs is attributable to unanticipated issues that required additional legal efforts on behalf of CAT LLC that developed after the budget was created.

(i) Technology Costs—Cloud Hosting Services

(a) Description of Cloud Hosting Services Costs

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the cloud hosting services costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$49,866,667 in technology costs for cloud hosting services for the CAT Fee 2026–1 Period. The technology costs for cloud hosting services represent costs reasonably budgeted to be incurred for services provided by the cloud services provider for the CAT, Amazon Web Services, Inc. (“AWS”) during the CAT Fee 2026–1 Period.

In the agreement between CAT LLC and the Plan Processor for the CAT (“Plan Processor Agreement”), FINRA CAT, LLC (“FCAT”), AWS was named as the subcontractor to provide cloud hosting services. Under the Plan Processor Agreement, CAT LLC is required to pay FCAT the fees incurred by the Plan Processor for cloud hosting services provided by AWS as FCAT’s subcontractor on a monthly basis for the cloud hosting services, and FCAT, in turn, pays such fees to AWS. The fees for cloud hosting services were negotiated by FCAT on an arm’s length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the expected volume of data, the breadth of services provided and market rates for similar services. Services provided by AWS include storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as well as various environments for CAT, such as development, performance testing, test, and production environments. FCAT utilizes such cloud hosting services for a broad array of services for the CAT, such as data ingestion, data management, and analytic tools for the CAT. AWS performs cloud hosting services for both the CAT transaction database as well as the Reference Database (previously referred to as the Customer and Account Information System, or “CAIS”).³⁸ It is

anticipated that such cloud hosting services will continue during the CAT Fee 2026–1 Period.

The cost for AWS cloud services for the CAT is a function of the volume of CAT Data, largely as a result of the processing and storage of the CAT Data.³⁹ The greater the amount of CAT Data, the greater the cost of AWS services to CAT LLC. During the CAT Fee 2026–1 Period, it is expected that AWS would provide cloud hosting services for volumes of CAT Data far in excess of the volume predictions set forth in the CAT NMS Plan. The CAT NMS Plan states, when all CAT Reporters are submitting their data to the CAT, it “must be sized to receive[,] process and load more than 58 billion records per day,”⁴⁰ and that “[i]t is expected that the Central Repository will grow to more than 29 petabytes of raw, uncompressed data.”⁴¹ In contrast with those estimates, the Q3 2025 data volumes averaged 792 billion events per day. The highest peak data volume to date of 1.45 trillion events was recorded on April 7, 2025. The top five peak days were recorded in April 2025.

CAT LLC estimates that the budget for cloud hosting services costs during the CAT Fee 2026–1 Period will be approximately \$49,866,667.⁴² The budget for cloud hosting services costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the cloud hosting services costs for the second quarter and the cloud hosting services for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget.⁴³

CAT LLC estimated the budget for the cost for cloud hosting services for the CAT Fee 2026–1 Period based on an assumption of 35% annual year-over-year volume growth for the transaction database and an assumption of 5% annual year-over-year volume growth

2026) (“CAIS Amendment”). The SEC subsequently approved another amendment to the CAT NMS Plan to implement various cost savings measures that made further changes to the Reference Database. Securities Exchange Act Rel. No. 105107 (Mar. 27, 2026), 91 FR 16284 (Mar. 27, 2026) (“Cost Savings Amendment”).

³⁹ In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. For further discussion of the effect of processing timelines on cloud hosting costs, see Section 3(b)(2)(A)(i) below.

⁴⁰ Section 1.3 of Appendix D of the CAT NMS Plan, n.262.

⁴¹ Section 1.3 of Appendix D of the CAT NMS Plan.

⁴² See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁴³ This calculation is $(\frac{2}{3} \times \$18,700,000) + \$18,700,000 + \$18,700,000 = \$49,866,667$.

for the Reference Database. CAT LLC determined these growth assumptions in coordination with FCAT.⁴⁴

This process for estimating the budget for cloud hosting services costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the cloud hosting services costs for the Original 2026 CAT Budget.

The Original 2026 CAT Budget estimated a budget for cloud hosting services of \$17,200,000 for January and February 2026. The actual costs for cloud hosting services for January and February 2026, which are set forth in the Updated 2026 CAT Budget, were \$12,829,362. Therefore, the variance between budgeted and actual cloud hosting services costs for January and February 2026 was an approximate decrease of \$4,370,638 as a result of lower volumes and a change in functionality.⁴⁵ Accordingly, CAT LLC believes that the process for estimating the budgeted cloud hosting services costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for cloud hosting services costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the cloud hosting services costs from the Original 2026 Budget.⁴⁶ Specifically, the following describes the differences in the costs for cloud hosting services included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for cloud hosting services included in the

⁴⁴ Note that these growth rates are based on events processed and stored in the CAT. Executed transactions are a small subset of such events. As a result, the number of transactions in the CAT, and, hence, the number of executed equivalent shares, is not directly correlated with the number of events processed in the CAT or the costs of cloud hosting services for the CAT. Accordingly, the number of executed equivalent shares may stay relatively constant from year to year while the number of events processed and stored in the CAT may grow significantly.

⁴⁵ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁴⁶ The last Prospective CAT Fee, CAT Fee 2025–2, was implemented pursuant to the prior CAT funding model. Moreover, the final invoice for CAT Fee 2025–2 was sent in December 2025, and, therefore, there is a six-month gap between the final invoice for CAT Fee 2025–2 and the first invoice for CAT Fee 2026–1, which would be in June 2026. Accordingly, this filing describes the changes in the cloud hosting services costs from the Original 2026 Budget.

³⁸ On January 13, 2026, the SEC approved an amendment to the CAT NMS Plan relating to the Customer and Account Information System (referred to as “CAIS”). Effective with this amendment, CAIS has been renamed as the “Reference Database.” Securities Exchange Act Rel. No. 104586 (Jan. 13, 2026), 91 FR 2164 (Jan. 16,

Original 2026 CAT Budget were \$81,900,006, and the annual 2026 budgeted costs for cloud hosting services included in the Updated 2026 CAT Budget are \$77,529,362. Accordingly, budgeted annual costs for cloud hosting services decreased by \$4,370,644 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 5% reduction in cloud hosting services costs for the full year of 2026.⁴⁷ The budgeted decrease in costs for cloud hosting services reflects lower costs for January and February 2026 due to lower than forecasted market volumes in January and the impact of lower processing costs due to shutting down certain functionalities.

(ii) Technology Costs—Operating Fees

(a) Description of Operating Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the operating fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$19,691,953 in technology costs for operating fees for the CAT Fee 2026–1 Period. Operating fees are those fees paid by CAT LLC to FCAT as the Plan Processor to operate and maintain the CAT and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management as required by the CAT NMS Plan. Operating fees also include market data provider costs, as discussed below.

Plan Processor: FCAT. Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT a negotiated monthly fixed price for the operation of the CAT. This fixed price contract was negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity. It is anticipated that FCAT will provide a variety of services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Provide the CAT-related functions and services as the Plan Processor as required by SEC Rule 613 and the CAT

NMS Plan in connection with the operation and maintenance of the CAT;

- Address compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provide support to the Operating Committee, the Compliance Subcommittee and CAT working groups;
- Assist with interpretive efforts, exemptive requests and amendments regarding the CAT NMS Plan;
- Oversee the security of the CAT;
- Monitor the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provide support to subcontractors under the Plan Processor Agreement;
- Provide support in discussions with the Participants and the SEC and its staff;
- Operate the FINRA CAT Helpdesk;
- Facilitate communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administer the CAT website and all of its content;
- Maintain cyber security insurance related to the CAT;
- Assist with billing, collection and other CAT fee-related activity; and
- Provide technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

CAT LLC calculated the budget for the FCAT technology costs for operating fees for the CAT Fee 2026–1 Period based on the recurring monthly operating fees under the Plan Processor Agreement.

Market Data Provider: Algoseek. It is anticipated that the operating fees costs for the CAT Fee 2026–1 Period will include costs related to the receipt of certain market data for the CAT pursuant to an agreement between FCAT and Algoseek, LLC (“Algoseek”). CAT LLC determined that Algoseek would provide market data that included data elements set forth in Section 6.5(a)(ii) of the CAT NMS Plan, and that the fees were reasonable and in line with market rates for the market data received. All costs under the contract would be treated as a direct pass through cost to CAT LLC. CAT LLC estimated the budget for the costs for Algoseek for the CAT Fee 2026–1 Period based on the monthly rate set forth in the agreement between Algoseek and FCAT.

Operating Fee Estimates. CAT LLC estimates that the budget for operating fees during the CAT Fee 2026–1 Period

will be approximately \$19,691,953.⁴⁸ The budget for operating fees during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding (1) two-thirds of the Non-CAIS fixed operating fees for the second quarter and the Non-CAIS fixed operating fees for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget and (2) two-thirds of the market data vendor fees for the second quarter and the market data vendor fees for the third and fourth quarter of 2026 included in the Updated 2026 CAT Budget.⁴⁹

As discussed above, CAT LLC estimated the budget for the operating fees during the CAT Fee 2026–1 Period based on monthly rates set forth in the Plan Processor Agreement and the agreement with Algoseek. CAT LLC also recognized that the operating fees are generally consistent throughout the year. This process for estimating the budget for the operating fees for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the operating fees for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for operating fees of \$5,149,236 for January and February 2026, and the actual costs for operating fees for January and February 2026 were \$5,127,057. Therefore, the variance between budgeted and actual operating fees for this period was small—\$22,179.⁵⁰ Accordingly, CAT LLC believes that the process for estimating the budgeted operating fees for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for operating fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the operating fees from the Original 2026 Budget. Specifically, the following describes the differences in the costs for operating fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for operating fees included in the Original

⁴⁸ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁴⁹ This calculation is $(\frac{2}{3} \times \$7,191,853) + \$7,191,853 + \$7,191,853 + (\frac{2}{3} \times \$192,630) + \$192,630 + \$192,630 = \$19,691,953$.

⁵⁰ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁴⁷ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

2026 CAT Budget were \$34,345,413, and the annual 2026 budgeted costs for operating fees included in the Updated 2026 CAT Budget are \$29,845,524. Accordingly, budgeted annual costs for operating fees decreased by \$4,499,889 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 13% reduction in operating fees for the full year of 2026.⁵¹ The budgeted decrease in costs for operating fees reflects the proposed amendments to the Plan Processor Agreement related to the recent cost savings amendments to the CAT NMS Plan.⁵²

(iii) Technology Costs—CAIS Operating Fees

(a) Description of CAIS Operating Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the CAIS operating fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$14,179,060 in technology costs for CAIS operating fees for the CAT Fee 2026–1 Period. CAIS operating fees represent the fees paid to FCAT for services provided with regard to the operation and maintenance of the Reference Database (previously referred to as CAIS), and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. The CAT is required under the CAT NMS Plan to capture and store Reference Data in the Reference Database and to create a CAT-Customer-ID for each Customer.⁵³

During the CAT Fee 2026–1 Period, it is anticipated that FCAT will provide services related to the Reference Database. Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT for services related to the Reference Database provided by FCAT on a monthly basis. CAT LLC negotiated the fees for FCAT's services related to the Reference Database on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors,

including the services to be provided and market rates for similar types of activity. During the CAT Fee 2026–1 Period, it is anticipated that FCAT will continue to provide services relating to the ongoing operation, maintenance and support of the Reference Database.

CAT LLC estimates that the budget for CAIS operating fees during the CAT Fee 2026–1 Period will be approximately \$14,179,060.⁵⁴ The budget for CAIS operating fees during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the CAIS fixed operating fees for the second quarter and the CAIS fixed operating fees for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁵⁵

CAT LLC calculated the budget for FCAT's services related to the Reference Database for the CAT Fee 2026–1 Period based on the recurring monthly CAIS operating fees under the Plan Processor Agreement. This process for estimating the budget for the CAIS operating fees for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the CAIS operating fees for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget of \$3,544,764 for CAIS operating fees for January and February of 2026. The actual costs for CAIS operating fees for January and February of 2026, which are included in the Updated 2026 CAT Budget, were \$3,544,764. There was no variance between budgeted and actual CAIS operating fees for the first two months of 2026.⁵⁶ Accordingly, CAT LLC believes that the process for estimating the budgeted CAIS operating fees for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for CAIS operating fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the CAIS operating fees from the Original 2026 Budget. Specifically, the following describes the differences in the costs for CAIS operating fees included in the Original 2026 CAT

Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

CAIS operating fees are based on a recurring monthly rate payable to FCAT and are unchanged from the Original 2026 CAT Budget to the Updated 2026 CAT Budget. The annual 2026 budgeted costs for CAIS operating fees included in the Original 2026 CAT Budget were \$21,268,584, and the annual 2026 budgeted costs for CAIS operating fees included in the Updated 2026 CAT Budget are \$21,268,590.⁵⁷ Accordingly, the budgeted annual costs for CAIS operating fees are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(iv) Technology Costs—Change Request Fees

(a) Description of Change Request Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the change request fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$0 in technology costs for change request fees for the CAT Fee 2026–1 Period. The technology costs related to change request fees include costs related to certain modifications, upgrades or other changes to the CAT.

Change requests are standard practice and necessary to reflect operational changes, including changes related to new market developments, such as new market participants. In general, if CAT LLC determines that a modification, upgrade or other changes to the functionality or service is necessary and appropriate, CAT LLC will submit a request for such a change to the Plan Processor. The Plan Processor will then respond to the request with a proposal for implementing the change, including the cost (if any) of such a change. CAT LLC then determines whether to approve the proposed change.

The change request budget line is established to include expected costs to be incurred in which the nature of the costs (i.e., capitalization versus expensing) have not yet been determined. Upon the incurrence of such costs, the final determination of capitalization versus expensing is determined and then such costs are reclassified from the change request line to the appropriate technology cost line item.

CAT LLC estimates that the budget for change requests during the CAT Fee 2026–1 Period will be approximately

⁵¹ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

⁵² See CAIS Amendment and Cost Savings Amendment.

⁵³ See Section 9 of Appendix D of the CAT NMS Plan.

⁵⁴ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

⁵⁵ This calculation is $(\frac{2}{3} \times \$5,317,147) + \$5,317,147 + \$5,317,147 = \$14,179,060$.

⁵⁶ See chart entitled "Comparison of Budgeted and Actual Costs for January & February 2026" in Section 3(a)(2)(C) above.

⁵⁷ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

\$0.⁵⁸ The budget for change requests during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. This \$0 cost number for change request fees reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

CAT LLC estimated the budget for the potential change requests for the CAT Fee 2026–1 Period based on, among other things, a review of past change requests and potential future change request needs, as well as discussions with FCAT. This process for estimating the budget for the change requests for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the change requests cost for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a change request budget of \$0 for January and February of 2026. The actual costs for change requests for January and February of 2026, which are set forth in the Updated 2026 CAT Budget, were \$0. There was no variance between budgeted and actual change request costs for January and February of 2026.⁵⁹ Accordingly, CAT LLC believes that the process for estimating the budgeted change request costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for change request fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the change request fees from the Original 2026 Budget. Specifically, the following describes the differences (if any) in the costs for change request fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for change requests included in the Original 2026 CAT Budget were \$0, and the annual 2026 budgeted costs for change requests included in the Updated 2026 CAT Budget are \$0.⁶⁰ Accordingly, budgeted annual costs for change requests are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(v) Technology Costs—Capitalized Developed Technology Costs

(a) Description of Capitalized Developed Technology Costs

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the capitalized developed technology costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes \$3,450,000 in technology costs for capitalized developed technology costs for the CAT Fee 2026–1 Period. This category of costs includes the budget for capitalizable application development costs incurred in the development of the CAT. It is anticipated that such costs will include certain costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT, as well as costs related to a set of technology changes to be implemented by FCAT related to the cost savings amendments⁶¹ and the move to 23x5 trading.

CAT LLC estimates that the budget for capitalized developed technology costs during the CAT Fee 2026–1 Period will be approximately \$3,450,000.⁶² The budget for capitalized developed technology costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding (1) capitalized developed technology costs of \$3,450,000 for May, \$0 for June and \$0 for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget; and (2) \$0 for the Software License Fee 2026 for the second, third, and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁶³

CAT LLC estimated the budget for capitalized developed technology costs for the CAT Fee 2026–1 Period based on an analysis of a variety of factors, including information related to potential technology costs and related contractual and Plan requirements, and discussions with FCAT regarding such potential technology costs. This process for estimating the budget for capitalized developed technology costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the capitalized developed technology costs

for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for capitalized developed technology costs of \$671,472 for January and February 2026, and the actual costs for capitalized developed technology costs for January and February 2026 were \$4,145,430.⁶⁴ The variance of \$3,473,958 for January and February 2026 is the result of costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT. Accordingly, CAT LLC believes that the process for estimating the budgeted capitalized developed technology costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for capitalized developed technology costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the capitalized developed technology costs from the Original 2026 Budget. Specifically, the following describes the differences in the costs for capitalized developed technology costs as included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budget for capitalized developed technology costs included in the Original 2026 CAT Budget was \$8,228,827, and the annual 2026 budget for capitalized developed technology costs included in the Updated 2026 CAT Budget are \$8,378,964.⁶⁵ Accordingly, the annual budget for capitalized developed technology costs increased by \$150,137 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 2% increase in the capitalized developed technology costs for the full year of 2026. This budgeted increase in the annual budget for capitalized developed technology costs was the result of costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT.

(vi) Legal Costs

(a) Description of Legal Costs

Section 11.3(a)(iii)(B)(B)(2) of the CAT NMS Plan requires the fee filing for a

⁵⁸ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁵⁹ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶⁰ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁶¹ See CAIS Amendment and Cost Savings Amendment.

⁶² See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁶³ This calculation is $(\$3,450,000 + \$0 + \$0 + \$0) + (\$0 + \$0 + \$0) = \$3,450,000$. Note that the \$4,178,964 cost for the software license fee was not included in the CAT Fee 2026–1 Period.

⁶⁴ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶⁵ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

Prospective CAT Fee to provide a brief description of the legal costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes \$5,670,452 in legal costs for the CAT Fee 2026–1 Period. This category of costs represents budgeted costs for legal services for this period. CAT LLC anticipates that it will receive legal services from two law firms, Wilmer Cutler Pickering Hale and Dorr LLP (“WilmerHale”) and Jenner & Block LLP (“Jenner”), during the CAT Fee 2026–1 Period.

Law Firm: WilmerHale. It is anticipated that legal costs during the CAT Fee 2026–1 Period will include costs related to the legal services performed by WilmerHale. CAT LLC anticipates that it will continue to employ WilmerHale during the CAT Fee 2026–1 Period based on, among other things, their expertise, long history with the project and recognition that the hourly fee rates for this law firm are anticipated to be in line with market rates for specialized legal expertise. WilmerHale’s billing rates are negotiated on an annual basis and are determined with reference to the rates charged by other leading law firms for similar work. The Participants assess WilmerHale’s performance and review prospective budgets and staffing plans submitted by WilmerHale on an annual basis. The legal fees will be paid by CAT LLC to WilmerHale.

During the CAT Fee 2026–1 Period, it is anticipated that WilmerHale will provide legal services related to the following:

- Assist with CAT fee filings and related funding issues;
- Draft exemptive requests from CAT NMS Plan requirements and/or proposed amendments to the CAT NMS Plan;
- Provide legal guidance with respect to interpretations of CAT NMS Plan requirements;
- Provide legal support for the Operating Committee, Compliance Subcommittee, working groups and Leadership Team;
- Draft SRO rule filings related to the CAT Compliance Rule;
- Manage corporate governance matters, including supporting Operating Committee meetings and preparing resolutions and consents;
- Assist with communications with the industry, including CAT Alerts and presentations;
- Provide guidance regarding the confidentiality of CAT Data;
- Assist with cost management analyses and proposals;

- Assist with commercial contract-related matters, including change orders and amendments, Plan Processor Agreement items, and subcontract matters;

- Provide support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues;
- Provide legal guidance with respect to the CAT budgets;
- Provide background assistance to other counsel for CAT matters;
- Assist with legal responses related to third-party data requests; and
- Provide legal support regarding CAT policies and procedures.

CAT LLC estimated the budget for the legal costs for WilmerHale for the CAT Fee 2026–1 Period through an analysis of a variety of factors, including WilmerHale fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues.

Law Firm: Jenner. It is anticipated that legal costs during the CAT Fee 2026–1 Period will include costs related to the legal services performed by Jenner. CAT LLC anticipates that it will continue to employ Jenner during the CAT Fee 2026–1 Period based on, among other things, their expertise, history with the project and recognition that their hourly fee rates are in line with market rates for specialized legal expertise. The legal fees will be paid by CAT LLC to Jenner.

During the CAT Fee 2026–1 Period, it is anticipated that Jenner will continue to provide legal assistance to CAT LLC regarding certain litigation matters, including: (1) CAT LLC’s defense against a lawsuit filed in the Western District of Texas against the SEC Chair, the SEC and CAT LLC challenging the validity of Rule 613 and the CAT and alleging various constitutional, statutory, and common law claims;⁶⁶ (2) CAT LLC’s intervention in a lawsuit in the Eleventh Circuit filed by various parties against the SEC challenging the SEC’s approval of the CAT Funding Model;⁶⁷ and (3) a lawsuit in the Eleventh Circuit filed by Citadel Securities LLC seeking review of the SEC’s May 20, 2024 order⁶⁸ granting the Participants temporary conditional exemptive relief related to the reporting of bids and/or offers made in response to a request for quote or other form of solicitation response provided in standard electronic format that is not

immediately actionable.⁶⁹ Litigation involving CAT LLC is an expense of operating the CAT, and, therefore, is appropriately an obligation of both Participants and Industry Members under the CAT Funding Model. Jenner also will continue to provide legal counseling to CAT LLC related to the above-listed litigation and other litigation risk.

CAT LLC estimated the budget for the legal costs for Jenner for the CAT Fee 2026–1 Period through an analysis of a variety of factors, including Jenner’s fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues.

Legal Cost Estimates. CAT LLC estimates that the budget for legal services during the CAT Fee 2026–1 Period will be approximately \$5,670,452.⁷⁰ The budget for legal services during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding budgeted costs for two-thirds of the legal costs for the second quarter and the legal costs for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁷¹

CAT LLC estimated the budget for the legal services for the CAT Fee 2026–1 Period based on an analysis of a variety of factors, including law firm fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues. This process for estimating the budget for the legal services for CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the legal cost for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for legal costs of \$1,424,166 for January and February of 2026. The actual costs for legal services for January and February 2026, which are included in the Updated 2026 Budget, were \$1,838,617.⁷² The increase of \$414,451 was due to unanticipated issues that required additional legal efforts on behalf of CAT LLC that developed after the budget was created. Such additional costs were primarily due to additional legal work related to litigation matters as well as regulatory and corporate legal matters. Accordingly, CAT LLC believes that the process for estimating the

⁶⁹ *Citadel Securities v. SEC*, Case No. 24–12300 (11th Cir.).

⁷⁰ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷¹ This calculation is $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

⁷² See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶⁶ *Davidson et al. v. Atkins et al.*, Case No. 6:24–cv–197 (W.D. Tex.).

⁶⁷ *Am. Sec. Ass’n v. SEC*, Case No. 26–10936 (11th Cir.).

⁶⁸ Securities Exchange Act Rel. No. 100181 (May 20, 2024), 89 FR 45715 (May 23, 2024).

budgeted legal costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for legal costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the legal costs from the Original 2026 Budget. Specifically, the following describes the differences in the legal costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted legal costs included in the Original 2026 CAT Budget were \$8,485,000, and the annual 2026 budgeted legal costs included in the Updated 2026 CAT Budget are \$8,939,184.⁷³ Accordingly, the annual budget for legal costs increased by \$454,184 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 5% increase in the legal costs for the full year of 2026. This budgeted increase in the legal costs in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to an anticipated increase in legal costs related to litigation matters as well as regulatory and corporate legal matters.

(vii) Consulting Costs

(a) Description of Consulting Costs

Section 11.3(a)(iii)(B)(B)(3) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the consulting costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$1,025,957 in consulting costs for the CAT Fee 2026–1 Period. The consulting costs represent the fees estimated to be paid to the consulting firm Deloitte & Touche LLP (“Deloitte”) as project manager during the CAT Fee 2026–1 Period. The services provided by Deloitte to the CAT include advisory services related to the operation of the CAT, and meeting facilitation and communications coordination, vendor support and financial analyses. In addition, the consulting costs include the compensation for the Chair of the CAT Operating Committee.

It is anticipated that the costs for CAT during the CAT Fee 2026–1 Period will include costs related to consulting services performed by Deloitte. CAT

LLC anticipates that it will continue to employ Deloitte during the CAT Fee 2026–1 Period based on, among other things, their expertise, long history with the project, and the recognition that it is anticipated that the consulting fees will remain in line with market rates for this type of specialized consulting work. Deloitte’s fee rates are negotiated on an annual basis. CAT LLC assesses Deloitte’s performance and reviews prospective budgets and staffing plans submitted by Deloitte on an annual basis. The consulting fees will be paid by CAT LLC to Deloitte.

It is anticipated that Deloitte will provide a variety of consulting services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Implement program operations for the CAT project;
- Provide support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;
- Assist with cost and funding matters for the CAT, including assistance with loans and the CAT bank account for CAT funding;
- Provide support for updating the SEC on the progress of the development of the CAT; and
- Provide support for third party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

In addition, the consulting costs include the compensation for the Chair of the CAT Operating Committee, which is paid by CAT LLC.

CAT LLC estimates that the budget for consulting costs during the CAT Fee 2026–1 Period will be approximately \$1,025,957.⁷⁴ The budget for consulting costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the consulting costs for the second quarter and the consulting costs for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁷⁵

CAT LLC estimates the budget for the consulting costs for Deloitte for the CAT Fee 2026–1 Period based on the current statement of work with Deloitte, which took into consideration past consulting costs, potential future consulting needs, the proposed rates and other contractual issues, and discussions with Deloitte, as

well as the compensation arrangement for the Chair. This process for estimating the budget for consulting costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the consulting costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for consulting services of \$258,334 for January and February 2026, and the actual costs for consulting services for January and February 2026, which are included in the Updated 2026 CAT Budget, were \$267,554.⁷⁶ Therefore, the variance between budgeted and actual consulting costs for January and February was approximately 4%. Accordingly, CAT LLC believes that the process for estimating the budgeted consulting costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for consulting costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the consulting costs from the Original 2026 Budget. Specifically, the following describes the differences (if any) in the consulting costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budget for consulting costs included in the Original 2026 CAT Budget was \$1,550,000, and the annual 2026 budget for consulting costs included in the Updated 2026 CAT Budget is \$1,550,000.⁷⁷ Accordingly, the annual budget for consulting costs has not changed from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026.

(viii) Insurance Costs

(a) Description of Insurance Costs

Section 11.3(a)(iii)(B)(B)(4) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the insurance costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$852,768 in insurance costs for

⁷³ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁷⁴ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷⁵ This calculation is $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

⁷⁶ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁷⁷ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

the CAT Fee 2026–1 Period.⁷⁸ The insurance costs represent the costs to be incurred for insurance for the CAT during the CAT Fee 2026–1 Period.

It is anticipated that the insurance costs for CAT during the CAT Fee 2026–1 Period will include costs related to cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance brokered by USI Insurance Services LLC ("USI"). Such policies are standard for corporate entities, and cyber security liability insurance is important for the CAT System. CAT LLC anticipates that it will continue to maintain this insurance during the CAT Fee 2026–1 Period, and notes that the annual premiums for these policies were competitive for the coverage provided. CAT LLC estimated the budget for the insurance costs for the CAT Fee 2026–1 Period based on the insurance estimate from USI for 2026. The annual premiums would be paid by CAT LLC to USI.

The budgeted insurance costs for the CAT Fee 2026–1 Period are based on an insurance cost estimate from USI for 2026. Accordingly, CAT LLC believes that the process for estimating the budgeted insurance costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for insurance costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the insurance costs from the Original 2026 Budget. Specifically, the following describes the differences in the insurance costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted insurance costs included in the Original 2026 CAT Budget were \$1,505,625, and the annual 2026 budgeted insurance costs included in the Updated 2026 CAT Budget are \$1,254,070.⁷⁹ Accordingly, the annual budget for insurance costs decreased by \$251,555 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 16% decrease in the insurance costs for the full year of 2026. This budgeted decrease in the insurance costs in the Updated 2026 CAT Budget

from the Original 2026 Budget was primarily due to an anticipated decrease in insurance premiums.

(ix) Professional and Administration Costs

(a) Description of Professional and Administration Costs

Section 11.3(a)(iii)(B)(B)(5) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the professional and administration costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$749,151 in professional and administration costs for the CAT Fee 2026–1 Period. In adopting the CAT NMS Plan, the Commission amended the Plan to add a requirement that CAT LLC's financial statements be prepared in compliance with GAAP, audited by an independent public accounting firm, and made publicly available.⁸⁰ The professional and administration costs would include costs related to accounting and accounting advisory services to support the operating and financial functions of CAT, financial statement audit services by an independent accounting firm, preparation of tax returns, and various cash management and treasury functions. The professional and administration costs represent the fees to be paid to Anchin, Block & Anchin ("Anchin") and Grant Thornton LLP ("Grant Thornton") for financial services during the CAT Fee 2026–1 Period.

Financial Advisory Firm: Anchin. It is anticipated that the professional and administration costs for the CAT Fee 2026–1 Period will include costs related to financial advisory services performed by Anchin. CAT LLC anticipates that it will continue to employ Anchin during the CAT Fee 2026–1 Period based on, among other things, the firm's relevant expertise and fees, which are anticipated to remain in line with market rates for these financial advisory services. The fees for these services will be paid by CAT LLC to Anchin.

It is anticipated that Anchin will provide a variety of services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Update and maintain internal controls;
- Provide cash management and treasury functions;
- Facilitate bill payments to vendors;
- Facilitate repayments of promissory notes to Participants;

- Provide monthly bookkeeping;
- Review vendor invoices and documentation in support of cash disbursements;
- Review documentation to ensure that repayments of promissory notes to Participants are in accordance with established policies and procedures;
- Provide accounting research and consultations on various accounting, financial reporting and tax matters;
- Address not-for-profit tax and accounting considerations;
- Prepare tax returns;
- Address various accounting, financial reporting and operating inquiries from Participants;
- Develop and maintain annual and interim operating and financial budgets, including budget to actual and budget to budget fluctuation analyses;
- Support compliance with the CAT NMS Plan;
- Work with and provide support to the Operating Committee, Leadership Team and various CAT working groups;
- Prepare monthly, quarterly and annual financial statements;
- Review and reconcile the monthly FINRA CAT reports/analyses related to billings, collections, outstanding accounts receivable and cash account;
- Perform certain verification, completeness, and validation testing related to the monthly FINRA CAT reports/analyses related to billings;
- Support the annual financial statement audits by an independent auditor;
- Review historical costs from inception;
- Provide accounting and financial information in support of SEC filings; and
- Perform additional ad hoc accounting and financial advisory services, as requested by CAT LLC.

CAT LLC estimated the annual budget for the costs for Anchin based on historical costs adjusted for cost of living rate increases, and projected incremental advisory and support services.

Accounting Firm: Grant Thornton. It is anticipated that the professional and administration costs for the CAT Fee 2026–1 Period will include costs related to accounting services performed by Grant Thornton. CAT LLC anticipates that it will continue to employ Grant Thornton during the CAT Fee 2026–1 Period based on, among other things, the firm's relevant expertise and fees, which are anticipated to remain in line with market rates for these financial advisory services. It is anticipated that Grant Thornton will continue to be engaged as an independent accounting firm to complete the audit of CAT LLC's

⁷⁸ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

⁷⁹ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

⁸⁰ Section 9.2 of the CAT NMS Plan.

financial statements, in accordance with the requirements of the CAT NMS Plan. The fees for these services will be paid by CAT LLC to Grant Thornton. CAT LLC estimated the budget for the accounting costs for Grant Thornton for the CAT Fee 2026–1 Period based on the anticipated hourly rates and the anticipated services plus an administrative fee.

Professional and Administration Cost Estimates. CAT LLC estimates that the budget for professional and administration services during the CAT Fee 2026–1 Period will be approximately \$749,151.⁸¹ The budget for professional and administration services during the CAT Fee 2026–1 Period is based on the Updated 2026 CAT Budget. CAT LLC estimated the budget for the professional and administration costs for the CAT Fee 2026–1 Period based on a review of past professional and administration costs, potential future professional and administration needs, the proposed rates and other contractual issues, as well as discussions with Anchin and Grant Thornton. This process for estimating the budget for the professional and administration costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the professional and administration costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for professional and administration costs of \$190,916 for January and February 2026, and the actual costs for professional and administration services for January and February 2026, which are set forth in the Updated 2026 Budget, were \$149,061.⁸² The decrease of \$41,855 was due to a lower than expected professional and administration services costs and to the movement of bank fees from the professional and administration category to the interest income category. Accordingly, CAT LLC believes that the process for estimating the budgeted professional and administration costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for professional and administration costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this

filing describes the changes in the professional and administration costs from the Original 2026 Budget. Specifically, the following describes the differences in the professional and administration costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted professional and administration costs as included in the Original 2026 CAT Budget were \$1,145,500, and the annual 2026 budgeted professional and administration costs included in the Updated 2026 CAT Budget are \$1,085,500.⁸³ Accordingly, the budgeted annual costs for professional and administration services decreased by \$60,000 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026. This budgeted decrease in the professional and administration costs in the Updated 2026 CAT Budget from the Original 2026 Budget was due to the movement of bank fees from the professional and administration category to the interest income category, and not a change in costs related to Anchin and Grant Thornton services.

(x) Public Relations Costs

(a) Description of Public Relations Costs

Section 11.3(a)(iii)(B)(B)(6) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the public relations costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$0 in public relations costs for the CAT Fee 2026–1 Period. The public relations costs would represent the fees paid to a public relations firm for professional communications services to CAT, including media relations consulting, strategy and execution. Because CAT LLC anticipates that it will not engage a public relations firm for the CAT Fee Period 2026–1, the budget for public relations costs for this period is \$0.⁸⁴

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for public relations costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing

describes the changes in the public relations costs from the Original 2026 Budget. Specifically, the following describes the differences (if any) in public relations costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual budgeted public relations costs for 2026 included in the Original 2026 CAT Budget were \$0, and the annual budgeted public relations costs for 2026 included in the Updated 2026 CAT Budget are \$0.⁸⁵ Accordingly, the annual budgeted public relations costs for 2026 are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(xi) Interest Income

(a) Description of Interest Income

Section 11.1(a) of the CAT NMS Plan requires the CAT budget to include “the sources of all revenues to cover costs.” Accordingly, the Updated 2026 CAT Budget includes a line item for interest income. Specifically, the Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$1,453,382 in interest income for the CAT Fee 2026–1 Period.⁸⁶ Interest income represents the interest earned on the surplus reserve and other funds held by CAT LLC. Such income would be used to reduce the amount to be collected to fund the CAT.

CAT LLC estimates the budget for the interest income for the CAT Fee 2026–1 Period based on the estimate of the funds held by CAT LLC and the expected interest rates on such funds. The Original 2026 CAT Budget estimated interest income of \$758,343 for January and February 2026, and the actual interest income for January and February 2026, which are included in the Updated 2026 CAT Budget, were \$757,527.⁸⁷ As mentioned above, bank fees were moved from the professional and administration category in the Original 2026 CAT Budget to the interest income category in the Updated 2026 CAT Budget. Accordingly, the interest income amount for the Updated 2026 CAT Budget was net of \$10,000 in bank fees. Therefore, the variance between budgeted and actual interest income (aside from bank fees) for January and February 2026 was approximately \$10,000. Accordingly,

⁸¹ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸² See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁸³ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁴ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸⁵ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁶ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸⁷ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

CAT LLC believes that the process for estimating the budgeted interest income for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in each line item from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in interest income from the Original 2026 CAT Budget. Specifically, the following describes the differences in the interest income included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted interest income as included in the Original 2026 CAT Budget was \$1,995,958, and the annual 2026 budgeted interest income included in the Updated 2026 CAT Budget is \$2,806,325.⁸⁸ Accordingly, the budgeted interest income (not including bank fees) increased by \$810,367 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 40% increase in the interest income for the full year of 2026. This budgeted increase in the interest income in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to higher than expected cash balances being maintained after the approval of the Original 2026 Budget.

(x) Reserve

(a) Description of Reserve

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the reserve costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes a reserve amount for 2026. Section 11.1(a)(i) of the CAT NMS Plan states that the budget shall include a reserve. Section 11.1(a)(ii) of the CAT NMS Plan further describes the reserve as follows:

For the reserve referenced in paragraph (a)(i) of this Section, the budget will include an amount reasonably necessary to allow the Company to maintain a reserve of not more than 25% of the annual budget. To the extent collected CAT fees exceed CAT costs, including the reserve of 25% of the annual budget, such surplus shall be used to offset future fees. For the

avoidance of doubt, the Company will only include an amount for the reserve in the annual budget if the Company does not have a sufficient reserve (which shall be up to but not more than 25% of the annual budget). For the avoidance of doubt, the calculation of the amount of the reserve would exclude the amount of the reserve from the budget.

CAT LLC determined to maintain a reserve in the amount of 25% of the total expenses set forth in the Updated 2026 CAT Budget (which does not include the reserve amount). Accordingly, the total 25% reserve of \$23,508,157 was calculated by multiplying the total expenses set forth in the Updated 2026 CAT Budget (other than the reserve) by 25%.⁸⁹

The Updated 2026 CAT Budget estimates that CAT LLC will have \$102,391,135 in reserve as of the beginning of the CAT Fee Period 2026–1. Such reserve is related, in part, to (i) the collection of CAT fees in excess of the budgeted CAT costs in light of the greater actual executed equivalent share volume than the projected executed equivalent share volume for prior CAT Fees, and (ii) a reduction in anticipated budgeted costs associated with the implementation of certain cost savings measures. This reserve balance of \$102,391,135 would be used to offset a portion of CAT costs for CAT Fee Period 2026–1, thereby reducing the fee rate to be paid for CAT Fee 2026–1. Specifically, the total costs (including the 25% reserve) for CAT Fee 2026–1 of \$117,540,783 would be reduced by the \$102,391,135 in reserve. Therefore, the Total Budgeted CAT Costs 2026–1 would be \$15,149,648.

Accordingly, the fee rate for CAT Fee 2026–1 is calculated based on this reduced amount of \$15,149,648, resulting in a fee rate of \$0.000001 per executed equivalent share. If the fee rate for CAT Fee 2026–1 were calculated solely based on the reasonably budgeted costs for CAT for May–December 2026, excluding the reduction in that amount due to the surplus reserve offset, the fee rate would be the higher rate of \$0.000010.⁹⁰

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for a reserve from the prior CAT Fee filing. As this is the first Prospective CAT Fee

filing under this CAT Funding Model, this filing describes the changes in reserve from the Original 2026 CAT Budget. Specifically, the following describes the differences in the reserve included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The accrued liquidity reserve balance at the beginning of the year included in the Original 2026 CAT Budget was \$119,128,336. The Original 2026 CAT Budget contemplated using the reserve to pay CAT bills throughout the year as no CAT fee was in effect. The accrued liquidity reserve balance at the beginning of the year included in the Updated 2026 CAT Budget was \$155,403,378. The increase in the accrued liquidity reserve balance at the beginning of the year from the Original 2026 CAT Budget to the Updated 2026 CAT Budget reflected the additional CAT Fees that had been received after the approval of the Original 2026 CAT Budget. In addition, the Updated 2026 CAT Budget not only reflected the use of the surplus reserve to pay CAT bills but also the accrual of additional reserve to establish a 25% reserve through CAT Fee 2026–1. Accordingly, the estimated liquidity reserve balance increased from a deficit of \$37,304,661 included in the Original 2026 CAT Budget to a reserve balance of \$23,508,157 included in the Updated 2026 CAT Budget for the full year of 2026.

(D) Projected Total Executed Equivalent Share Volume

The calculation of Fee Rate 2026–1 also requires the determination of the projected total executed equivalent share volume of transactions in Eligible Securities for the CAT Fee 2026–1 Period. Under the CAT NMS Plan, the Operating Committee is required to “reasonably determine the projected total executed equivalent share volume of all transactions in Eligible Securities for each relevant period based on the executed equivalent share volume of all transactions in Eligible Securities for the prior twelve months.”⁹¹ The Operating Committee is required to base its projection on the prior twelve months, but it may use its discretion to analyze the likely volume for the upcoming year. Such discretion would allow the Operating Committee to use its judgment when estimating projected total executed equivalent share volume if the volume over the prior twelve months was unusual or otherwise unfit to serve as the basis of a future volume estimate.⁹²

⁸⁸ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁹ The reserve was calculated by multiplying \$94,032,626 by 25%, which equals approximately \$23,508,157.

⁹⁰ See CAT Fee Alert 2026–1 (Apr. 1, 2026).

⁹¹ Section 11.3(a)(i)(D) of the CAT NMS Plan.

⁹² CAT Funding Model Approval Order at 13452.

The total executed equivalent share volume of transactions in Eligible Securities for the 12-month period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. The Operating Committee has determined to calculate the projected total executed equivalent share volume for the eight-month recovery period for CAT Fee 2026–1 by multiplying by 8/12ths the executed equivalent share volume for the 12-month period from March 2025 through February 2026. The Operating Committee determined that such an approach was reasonable as the CAT's annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.41), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level. Accordingly, the projected total executed equivalent share volume for the eight-month period for CAT Fee 2026–1 is projected to be 3,987,291,699,573.66 executed equivalent shares.⁹³

The projected total executed equivalent share volume of all transactions in Eligible Securities for the eight-month recovery period for CAT Fee 2026–1 and a description of the calculation of the projection is provided in this filing in accordance with the requirement in the CAT NMS Plan to provide such information in a fee filing for a CAT Fee.⁹⁴

(E) Fee Rate 2026–1

Fee Rate 2026–1 would be calculated by dividing the Budgeted CAT Costs 2026–1 by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the eight-month recovery period for CAT Fee 2026–1, as described in detail above.⁹⁵ Specifically, Fee Rate 2026–1 would be calculated by dividing \$15,149,648 by 3,987,291,699,573.66 executed equivalent shares. As a result, Fee Rate 2026–1 would be \$0.000003799483243631228 per executed equivalent share. Fee Rate 2026–1 is provided in this filing in

accordance with the requirement in the CAT NMS Plan to provide the Fee Rate in a fee filing for a CAT Fee.⁹⁶

Fee Rate 2026–1 would be used to calculate the fee rate to be paid by CEBBs and CEBBs for CAT Fee 2026–1. Such fee rate is calculated by multiplying Fee Rate 2026–1 of \$0.000003799483243631228 by one-third, and rounding the result to six decimal places.⁹⁷ Accordingly, the fee rate to be paid by CEBBs and CEBBs for CAT Fee 2026–1 would be \$0.000001 per executed equivalent share.

(3) Monthly Fees

CEBBs and CEBBs would be required to pay fees for CAT Fee 2026–1 on a monthly basis for eight months, from July 2026 until January 2027. A CEBB's or CEBB's fee for each month would be calculated based on the transactions in Eligible Securities executed by the CEBB or CEBB from the prior month.⁹⁸ Proposed paragraph (a)(6)(A) of the fee schedule would state that each CAT Executing Broker would receive its first invoice for CAT Fee 2026–1 in June 2026, and would receive an invoice for CAT Fee 2026–1 each month thereafter until January 2027. Proposed paragraph (a)(6)(B) of the fee schedule would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis.” In addition, paragraph (b)(1) of the fee schedule states that each CEBB and CEBB is required to pay its CAT fees “each month.”

(4) Consolidated Audit Trail Funding Fees

To implement CAT Fee 2026–1, the Exchange proposes to add a new paragraph to the “Consolidated Audit Trail Funding Fees” section of the Exchange's fee schedule, to include the proposed paragraphs described below.

(A) Fee Schedule for CAT Fee 2026–1

The CAT NMS Plan states that: Each Industry Member that is the CAT Executing Broker for the buyer in a transaction in Eligible Securities (“CAT Executing Broker for the Buyer” or “CEBB”) and each Industry Member that is the CAT Executing Broker for the seller in a transaction in Eligible Securities (“CAT Executing Broker for

the Seller” or “CEBS”) will be required to pay a CAT Fee for each such transaction in Eligible Securities in the prior month based on CAT Data. The CEBB's CAT Fee or CEBS's CAT Fee (as applicable) for each transaction in Eligible Securities will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Fee Rate reasonably determined pursuant to paragraph (a)(i) of this Section 11.3.⁹⁹

Accordingly, based on the factors discussed above, the Exchange proposes to add paragraph (a)(6) to the Consolidated Audit Trail Funding Fees section of its fee schedule. Proposed paragraph (a)(6) would state the following:

(A) Each CAT Executing Broker shall receive its first invoice for CAT Fee 2026–1 in June 2026, which shall set forth the CAT Fee 2026–1 fees calculated based on transactions in May 2026, and shall receive an invoice for CAT Fee 2026–1 for each month thereafter until January 2027.

(B) Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis. Each month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (“CEBB”) and/or the CAT Executing Broker for the Seller (“CEBS”) (as applicable) from the prior month as set forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000001 per executed equivalent share.

(C) Notwithstanding the last invoice date of January 2027 for CAT Fee 2026–1 in paragraph 6(A), CAT Fee 2026–1 shall continue in effect after January 2027, with each CAT Executing Broker receiving an invoice for CAT Fee 2026–1 each month, until a new subsequent CAT Fee is in effect with regard to Industry Members in accordance with Section 19(b) of the Exchange Act. Consolidated Audit Trail, LLC will provide notice when CAT Fee 2026–1 will no longer be in effect.

(D) Each CAT Executing Broker shall be required to pay each invoice for CAT Fee 2026–1 in accordance with paragraph (b).

As noted in the Plan amendment for the CAT Funding Model, “[a]s a practical matter, the fee filing would provide the exact fee per executed equivalent share to be paid for the CAT Fees, by multiplying the Fee Rate by

⁹³ This projection was calculated by multiplying 5,980,937,549,360.49 executed equivalent shares by 8/12ths.

⁹⁴ Section 11.3(a)(iii)(B) of the CAT NMS Plan.

⁹⁵ In approving the CAT Funding Model, the Commission stated that “[t]he manner in which the Fee Rate for Prospective CAT Costs will be calculated (*i.e.*, by dividing the CAT costs reasonably budgeted for the upcoming year by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the year) is appropriate.” CAT Funding Model Approval Order at 13435.

⁹⁶ See Section 11.3(a)(iii)(B)(A) of the CAT NMS Plan.

⁹⁷ This fee rate of \$0.000001 is calculated by multiplying the Fee Rate of \$0.000003799483243631228 by one-third and rounding this result (which equals \$0.000001266494414543743) to 6 decimal places.

⁹⁸ See proposed paragraph (a)(6)(B) of the fee schedule.

⁹⁹ Section 11.3(a)(iii)(A) of the CAT NMS Plan.

one-third and describing the relevant number of decimal places for the fee.”¹⁰⁰ Accordingly, proposed paragraph (a)(6)(B) of the fee schedule would set forth a fee rate of \$0.000001 per executed equivalent share. This fee rate is calculated by multiplying Fee Rate 2026–1 of \$0.000003799483243631228 by one-third, and rounding the result to six decimal places.¹⁰¹ The Operating Committee determined to use six decimal places to balance the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.

The proposed language in paragraph (a)(6)(A) of the fee schedule would describe when CAT Executing Brokers would receive their first monthly invoice for CAT Fee 2026–1. Specifically, CAT Executing Brokers would receive their first monthly invoice for CAT Fee 2026–1 in June 2026 and the fees set forth in that invoice would be calculated based on transactions executed in May 2026. The payment for the first invoice would be required within 30 days after the receipt of the first invoice (unless a longer period is indicated), as described in paragraph (b)(2) of the fee schedule.

Proposed paragraph (a)(6)(A) of the fee schedule also would describe the monthly cadence of the invoices for CAT Fee 2026–1. Specifically, after the first invoices are provided to CAT Executing Brokers in June 2026, invoices will be sent to CAT Executing Brokers each month thereafter until January 2027.

Proposed paragraph (a)(6)(B) of the fee schedule would describe the invoices for CAT Fee 2026–1. Proposed paragraph (a)(6)(B) of the fee schedule would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis.” Proposed paragraph (a)(6)(B) of the fee schedule also would describe the fees to be set forth in the invoices for CAT Fee 2026–1. Specifically, it would state that “[e]ach month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (‘CEBB’) and/or the CAT Executing Broker for the Seller (‘CEBS’) (as applicable) from the prior month as set

forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000001 per executed equivalent share.”

Since CAT Fee 2026–1 is a monthly fee based on actual transaction volume from the prior month, CAT Fee 2026–1 may collect more or less than two-thirds of the Budgeted CAT Costs 2026–1. To the extent that CAT Fee 2026–1 collects more than two-thirds of the Budgeted CAT Costs 2026–1, any excess money collected will be used to offset future fees and/or to fund the reserve for the CAT. To the extent that CAT Fee 2026–1 collects less than two-thirds of the Budgeted CAT Costs 2026–1, the budget for the CAT in the ensuing months will reflect such shortfall.

Furthermore, proposed paragraph (a)(6)(C) of the fee schedule would describe how long CAT Fee 2026–1 would remain in effect. It would state that “[n]otwithstanding the last invoice date of January 2027 for CAT Fee 2026–1 in paragraph 6(A), CAT Fee 2026–1 shall continue in effect after January 2027, with each CAT Executing Broker receiving an invoice for CAT Fee 2026–1 each month, until a new subsequent CAT Fee is in effect with regard to Industry Members in accordance with Section 19(b) of the Exchange Act. Consolidated Audit Trail, LLC will provide notice when CAT Fee 2026–1 will no longer be in effect.”

Finally, proposed paragraph (a)(6)(D) of the fee schedule would set forth the requirement for the CAT Executing Brokers to pay the invoices for CAT Fee 2026–1. It would state that “[e]ach CAT Executing Broker shall be required to pay each invoice for CAT Fee 2026–1 in accordance with paragraph (b).”

(B) Manner of Payment

Paragraph (b)(1) of the “Consolidated Audit Trail Funding Fees” section of the fee schedule describes the manner of payment of Industry Member CAT fees. It states that “[e]ach CAT Executing Broker shall pay its CAT fees as required pursuant to paragraph (a) each month to the Consolidated Audit Trail, LLC in the manner prescribed by the Consolidated Audit Trail, LLC.” The CAT NMS Plan requires the Operating Committee to establish a system for the collection of CAT fees.¹⁰² The Plan Processor has established a billing system for CAT fees.¹⁰³ Accordingly,

CAT Executing Brokers would be required to pay CAT Fee 2026–1 in accordance with such system.

(C) Failure To Pay CAT Fees

The CAT NMS Plan further states that:

Participants shall require each Industry Member to pay all applicable fees authorized under this Article XI within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If an Industry Member fails to pay any such fee when due (as determined in accordance with the preceding sentence), such Industry Member shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of: (a) the Prime Rate plus 300 basis points; or (b) the maximum rate permitted by applicable law.¹⁰⁴

Paragraph (b)(2) of the fee schedule states that:

Each CAT Executing Broker shall pay the CAT fees required pursuant to paragraph (a) within thirty days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If a CAT Executing Broker fails to pay any such CAT fee when due, such CAT Executing Broker shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of (i) the Prime Rate plus 300 basis points, or (ii) the maximum rate permitted by applicable law.

The requirements of paragraph (b)(2) would apply to CAT Fee 2026–1.

(5) CAT Fee Details

The CAT NMS Plan states that: Details regarding the calculation of a Participant or CAT Executing Broker’s CAT Fees will be provided upon request to such Participant or CAT Executing Broker. At a minimum, such details would include each Participant or CAT Executing Broker’s executed equivalent share volume and corresponding fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.¹⁰⁵

Such information would provide CEBBs and CEBSs with the ability to understand the details regarding the

¹⁰⁰ CAT Funding Model Approval Order at 13445, n.677.

¹⁰¹ This fee rate of \$0.000001 is calculated by multiplying the Fee Rate of \$0.000003799483243631228 by one-third, and rounding this result (which equals \$0.000001266494414543743) to 6 decimal places.

¹⁰² Section 11.4 of the CAT NMS Plan.

¹⁰³ The billing process and system are described in CAT Alert 2023–02 as well as in the CAT FAQs related to the billing of CAT fees, the Industry Member CAT Reporter Portal User Guide, the FCAT Industry Member Onboarding Guide, the FCAT

Connectivity Supplement for Industry Members and the CAT Billing Webinars (dated Sept. 28, 2023 and Nov. 7, 2023), each available on the CAT website.

¹⁰⁴ Section 11.4 of the CAT NMS Plan.

¹⁰⁵ Section 11.3(a)(iv)(A) of the CAT NMS Plan.

calculation of their CAT Fee.¹⁰⁶ CAT LLC will provide CAT Executing Brokers with these details regarding the calculation of their CAT Fees on their monthly invoice for the CAT Fees.

In addition, CAT LLC will make certain aggregate statistics regarding CAT Fees publicly available. Specifically, the CAT NMS Plan states that, “[f]or each CAT Fee, at a minimum, CAT LLC will make publicly available the aggregate executed equivalent share volume and corresponding aggregate fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.”¹⁰⁷ Such aggregate statistics will be available on the CAT website.

Furthermore, CAT LLC will make publicly available on the CAT website the total amount invoiced each month that CAT Fee 2026–1 is in effect as well as the total amount invoiced for CAT Fee 2026–1 for all months since its commencement. CAT LLC also will make publicly available on the CAT website the total costs to be collected from Industry Members for CAT Fee 2026–1.

(6) Financial Accountability Milestones

The CAT NMS Plan states that “[n]o Participant will make a filing with the SEC pursuant to Section 19(b) of the Exchange Act regarding any CAT Fee related to Prospective CAT Costs until the Financial Accountability Milestone related to Period 4 described in Section 11.6 has been satisfied.”¹⁰⁸ Under Section 1.1 of the CAT NMS Plan, a Financial Accountability Milestone is considered complete as of the date identified in the Participants’ Quarterly Progress Reports. As indicated by the Participants’ Quarterly Progress Report for the second and third quarter of 2024,¹⁰⁹ the Financial Accountability

Milestone related to Period 4 was satisfied on July 15, 2024. In addition, the satisfaction of the Financial Accountability Milestone related to Period 4 was described in detail in the fee filing for the first Prospective CAT Fee, CAT Fee 2024–1.¹¹⁰

(7) Participant Invoices

While CAT Fees charged to Industry Members become effective in accordance with the requirements of Section 19(b) of the Exchange Act,¹¹¹ CAT fees charged to Participants are implemented via an approval of the CAT fees by the Operating Committee in accordance with the requirements of the CAT NMS Plan.¹¹² On March 31, 2026, the Operating Committee approved the Participant fee related to CAT Fee 2026–1. Specifically, pursuant to the requirements of CAT NMS Plan,¹¹³ each Participant would be required to pay a CAT fee calculated using the fee rate of \$0.000001 per executed equivalent share, which is the same fee rate that applies to CEBBs and CEBSSs. Like CEBBs and CEBSSs, each Participant would be invoiced such CAT fees on a monthly basis for eight months, from June 2026 until January 2027, and each Participant’s fee for each month would be calculated based on the transactions in Eligible Securities executed on the applicable exchange (for the Participant exchanges) or otherwise than on an exchange (for FINRA) in the prior month. Accordingly, each Participant will receive its first invoice in June 2026, and would receive an invoice each month thereafter until January 2027. Like with the CAT Fee 2026–1 applicable to CEBBs and CEBSSs as described in proposed paragraph (a)(6)(C) of the fee schedule, notwithstanding the last invoice date of January 2027, Participants will continue to receive invoices for this fee each month until a new subsequent CAT Fee is in effect with regard to Industry Members. Furthermore, Section 11.4 of the CAT NMS Plan states that each Participant is required to pay such invoices as required by Section 3.7(b) of the CAT NMS Plan. Section 3.7(b) states, in part, that

[e]ach Participant shall pay all fees or other amounts required to be paid under this Agreement within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise

indicated) (the “Payment Date”). The Participant shall pay interest on the outstanding balance from the Payment Date until such fee or amount is paid at a per annum rate equal to the lesser of: (i) Prime Rate plus 300 basis points; or (ii) the maximum rate permitted by applicable law.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the requirements of the Exchange Act. The Exchange believes that the proposed rule change is consistent with Section 6(b)(5) of the Act,¹¹⁴ which requires, among other things, that the Exchange’s rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest, and not designed to permit unfair discrimination between customers, issuers, brokers and dealers. The Exchange also believes that the proposed rule change is consistent with the provisions of Section 6(b)(4) of the Act,¹¹⁵ because it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using its facilities. The Exchange further believes that the proposed rule change is consistent with Section 6(b)(8) of the Act,¹¹⁶ which requires that the Exchange’s rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. These provisions also require that the Exchange be “so organized and [have] the capacity to be able to carry out the purposes” of the Act and “to comply, and . . . to enforce compliance by its members and persons associated with its members,” with the provisions of the Exchange Act.¹¹⁷ Accordingly, a reasonable reading of the Act indicates that it intended that regulatory funding be sufficient to permit an exchange to fulfill its statutory responsibility under the Act, and contemplated that such funding would be achieved through equitable assessments on the members, issuers, and other users of an exchange’s facilities.

The Exchange believes that this proposal is consistent with the Act because it implements provisions of the Plan and is designed to assist the Exchange in meeting regulatory obligations pursuant to the Plan. In approving the Plan, the SEC noted that

¹⁰⁶ In approving the CAT Funding Model, the Commission stated that, “[i]n the Commission’s view, providing CAT Execut[ing] Brokers information regarding the calculation of their CAT Fees will aid in transparency and permit CAT Execut[ing] Brokers to confirm the accuracy of their invoices for CAT Fees.” CAT Funding Model Approval Order at 62667.

¹⁰⁷ Section 11.3(a)(iv)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission stated that “[t]he publication of the aggregate executed equivalent share volume and aggregate fee is appropriate because it would allow Participants and CAT Executing Brokers a high-level validation of executed volume and fees.” CAT Funding Model Approval Order at 13454.

¹⁰⁸ Section 11.3(a)(iii)(C) of the CAT NMS Plan.

¹⁰⁹ Q2 & Q3 2024 Quarterly Progress Report (July 29, 2024).

¹¹⁰ See Securities Exchange Act Rel. No. 100831 (August 27, 2024), 89 FR 71570 (September 3, 2024) (SR-CBOE–2024–037).

¹¹¹ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹¹² CAT Funding Model Approval Order at 13448.

¹¹³ See Section 11.3(a)(ii) and Appendix B of the CAT NMS Plan.

¹¹⁴ 15 U.S.C. 78f(b)(6).

¹¹⁵ 15 U.S.C. 78f(b)(4).

¹¹⁶ 15 U.S.C. 78f(b)(8).

¹¹⁷ See 15 U.S.C. 78f(b)(1).

the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹¹⁸ To the extent that this proposal implements the Plan and applies specific requirements to Industry Members, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Act.

The Exchange believes that the proposed fees to be paid by the CEBBs and CEBs are reasonable, equitably allocated and not unfairly discriminatory. First, the CAT Fee 2026–1 fees to be collected are directly associated with the budgeted costs of establishing and maintaining the CAT, where such costs include Plan Processor costs and costs related to technology, legal, consulting, insurance, and professional and administration costs.

The proposed CAT Fee 2026–1 fees would be charged to Industry Members in support of the maintenance of a consolidated audit trail for regulatory purposes. The proposed fees, therefore, are consistent with the Commission’s view that regulatory fees be used for regulatory purposes and not to support the Exchange’s business operations. The proposed fees would not cover Exchange services unrelated to the CAT. In addition, any surplus would be used as a reserve to offset future fees. Given the direct relationship between CAT fees and CAT costs, the Exchange believes that the proposed fees are reasonable, equitable and not unfairly discriminatory.

As further discussed below, the SEC approved the CAT Funding Model, finding it was reasonable and that it equitably allocates fees among Participants and Industry Members. The Exchange believes that the proposed fees adopted pursuant to the CAT Funding Model approved by the SEC are reasonable, equitably allocated and not unfairly discriminatory.

(1) Implementation of CAT Funding Model in CAT NMS Plan

Section 11.1(b) of the CAT NMS Plan states that “[t]he Participants shall file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves.” Per Section 11.1(b) of the CAT NMS Plan, the Exchange has filed this fee filing to implement the Industry Member CAT fees included in the CAT

Funding Model. The Exchange believes that this proposal is consistent with the Exchange Act because it is consistent with, and implements, the CAT Funding Model in the CAT NMS Plan, and is designed to assist the Exchange and its Industry Members in meeting regulatory obligations pursuant to the CAT NMS Plan. In approving the CAT NMS Plan, the SEC noted that the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹¹⁹ Similarly, in approving the CAT Funding Model, the SEC concluded that the CAT Funding Model met this standard.¹²⁰ As this proposal implements the Plan and the CAT Funding Model described therein, and applies specific requirements to Industry Members in compliance with the Plan, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Exchange Act.

(2) Calculation of Fee Rate for CAT Fee 2026–1 Is Reasonable

The SEC has determined that the CAT Funding Model satisfies the requirements of the Exchange Act. Specifically, the SEC has concluded that the method for determining CAT Fees as set forth in Section 11.3 of the CAT NMS Plan, including the formula for calculating the Fee Rate, the identification of the parties responsible for payment and the transactions subject to the fee rate for CAT Fees, satisfies the Exchange Act.¹²¹ In each respect, as discussed above, CAT Fee 2026–1 is calculated, and would be applied, in accordance with the requirements applicable to CAT Fees as set forth in the CAT NMS Plan. Furthermore, as discussed below, the Exchange believes that each of the figures for the variables in the SEC-approved formula for calculating the fee rate for CAT Fee 2026–1 is reasonable and consistent with the Exchange Act. The calculation of Fee Rate 2026–1 for CAT Fee 2026–1 requires the figures for Budgeted CAT Costs 2026–1, the executed equivalent share volume for the prior twelve months, the determination of the CAT Fee 2026–1 Period, and the projection of the executed equivalent share volume for the CAT Fee 2026–1 Period. Each of these variables is reasonable and

satisfies the Exchange Act, as discussed throughout this filing.

(A) Budgeted CAT Costs 2026–1

The formula for calculating a Fee Rate requires the amount of Budgeted CAT Costs to be recovered. Specifically, Section 11.3(a)(iii)(B) of the CAT NMS Plan requires a fee filing to provide: the budget for the upcoming year (or remainder of the year, as applicable), including a brief description of each line item in the budget, including (1) the technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees, and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration, and (6) public relations costs, a reserve and/or such other categories as reasonably determined by the Operating Committee to be included in the budget, and the reason for changes in each such line item from the prior CAT fee filing.

In accordance with this requirement, the Exchange has set forth the amount and type of Budgeted CAT Costs 2026–1 for each of these categories above.

Section 11.3(a)(iii)(B) of the CAT NMS Plan also requires that the fee filing provide “sufficient detail to demonstrate that the budget for the upcoming year, or part of year, as applicable, is reasonable and appropriate.” As discussed below, the Exchange believes that the budget for the CAT Fee 2026–1 Period is “reasonable and appropriate.” Each of the costs included in CAT Fee 2026–1 is reasonable and appropriate because the costs are consistent with standard industry practice, based on the need to comply with the requirements of the CAT NMS Plan, incurred subject to negotiations performed on an arm’s length basis, and/or is consistent with the needs of any legal entity, particularly one with no employees.

(i) Technology: Cloud Hosting Services

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover budgeted costs related to cloud hosting services as a part of CAT Fees.¹²² CAT LLC determined that the budgeted costs related to cloud hosting services described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. As described above, the cloud hosting services costs reflect, among other things, the breadth of the CAT cloud activities, data volumes far in excess of the original volume estimates, the need

¹¹⁹ *Id.*

¹²⁰ CAT Funding Model Approval Order at 13481.

¹²¹ *Id.*

¹²² Section 11.3(a)(iii)(B)(1) of the CAT NMS Plan.

¹¹⁸ CAT NMS Plan Approval Order at 84697.

for specialized cloud services given the volume and unique nature of the CAT, the processing time requirements of the Plan, and regular efforts to seek to minimize costs where permissible under the Plan. CAT LLC determined that use of cloud hosting services is necessary for implementation of the CAT, particularly given the substantial data volumes associated with the CAT, and that the fees for cloud hosting services negotiated by FCAT were reasonable, taking into consideration a variety of factors, including the expected volume of data and the breadth of services provided and market rates for similar services.¹²³ Indeed, the actual costs of the CAT are far in excess of the original estimated costs of the CAT due to various factors, including the higher volumes and greater complexity of the CAT than anticipated when Rule 613 was originally adopted.

To comply with the requirements of the Plan, the breadth of the cloud activities related to the CAT is substantial. The cloud services not only include the production environment for the CAT, but they also include two industry testing environments, support environments for quality assurance and stress testing and disaster recovery capabilities. Moreover, the cloud storage costs are driven by the requirements of the Plan, which requires the storage of multiple versions of the data, from the original submitted version of the data through various processing steps, to the final version of the data.

Data volume is a significant driver of costs for cloud hosting services. When the Commission adopted the CAT NMS Plan in 2016, it estimated that the CAT would need to receive 58 billion records per day¹²⁴ and that annual operating costs for the CAT would range from \$36.5 million to \$55 million.¹²⁵ In contrast to the 2016 projections, the actual daily Q3 2025 data volumes averaged 792 billion events per day.

In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. Although CAT LLC has proactively sought to manage cloud hosting costs while complying with the Plan, including through requests to the Commission for exemptive relief and amendments to the CAT NMS Plan to reduce costs, stringent CAT NMS Plan requirements do not allow for any material flexibility in cloud architecture

design choices, processing timelines (e.g., the use of non-peak processing windows), or lower-cost storage tiers. As a result, the required CAT processing timelines contribute to the cloud hosting costs of the CAT.

The costs for cloud hosting services also reflect the need for specialized cloud hosting services given the data volume and unique processing needs of the CAT. The data volume as well as the data processing needs of the CAT necessitate the use of cloud hosting services. The equipment, power and services required for an on-premises data model, the alternative to cloud hosting services, would be cost prohibitive. Moreover, as CAT was being developed, there were limited cloud hosting providers that could satisfy all the necessary CAT requirements, including the operational and security criteria. Over time, more providers offering cloud hosting services that would satisfy these criteria have entered the market. CAT LLC will continue to evaluate alternative cloud hosting services, recognizing that the time and cost to move to an alternative cloud provider would be substantial.

The reasonableness of the cloud hosting services costs is further supported by key cost discipline mechanisms for the CAT—a cost-based funding structure, cost transparency, cost management efforts (including regular efforts to lower compute and storage costs where permitted by the Plan) and oversight. Together, these mechanisms help ensure the ongoing reasonableness of the CAT's costs and the level of fees assessed to support those costs.¹²⁶

(ii) Technology: Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to operating fees as a part of CAT Fees.¹²⁷ CAT LLC determined that the budgeted costs related to operating fees described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1.

The operating fees would include the negotiated fees paid by CAT LLC to the Plan Processor to operate and maintain the system for order-related information and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT

Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the selection of FCAT as the Plan Processor was reasonable and appropriate given its expertise with securities regulatory reporting, after a process of considering other potential candidates.¹²⁸ CAT LLC also determined that the fixed price contract, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, was reasonable and appropriate, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity.¹²⁹ The services to be performed by FCAT for CAT Fee 2026–1 Period and the budgeted costs related to such services are described above.¹³⁰

The operating costs also include costs related to the receipt of market data. CAT LLC anticipates receiving certain market data from Algoseek during the CAT Fee 2026–1 Period. CAT LLC anticipates that Algoseek will provide data as set forth in the SIP Data requirements of the CAT NMS Plan and that the fees are reasonable and in line with market rates for market data received.¹³¹

(iii) Technology: CAIS Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to CAIS operating fees as a part of CAT Fees.¹³² CAT LLC determined that the budgeted costs related to CAIS operating fees described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. The CAIS operating fees would include the fees paid to the Plan Processor to operate and maintain the Reference Database and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the fees for FCAT's services related to the Reference Database, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors, including the services to be provided and market rates for similar

¹²³ For a discussion of the amount and type of cloud hosting services fees, see Section 3(a)(2)(C)(i) above.

types of activity, are reasonable and appropriate.¹³³ The services to be performed by FCAT for the CAT Fee 2026–1 Period and the budgeted costs for such services are described above.¹³⁴

(iv) Technology: Change Request Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to change request fees as a part of CAT Fees.¹³⁵ CAT LLC determined that the budgeted costs related to change request fees described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. It is common practice to utilize a change request process to address evolving needs in technology projects. This is particularly true for a project like CAT that is the first of its kind, both in substance and in scale. The substance and costs of each of the change requests are evaluated by the Operating Committee and approved in accordance with the requirements for Operating Committee meetings. In each case, CAT LLC forecasts that the change requests will be necessary to implement the CAT. As described above,¹³⁶ CAT LLC determined that it was reasonable not to include any change request fees in the Budgeted CAT Costs 2026–1.

(v) Capitalized Developed Technology Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to capitalized developed technology costs as a part of CAT Fees.¹³⁷ In general, capitalized developed technology costs would include costs related to, for example, certain development costs, costs related to certain modifications, upgrades and other changes to the CAT and license fees. The amount and type of budgeted capitalized developed technology costs for the CAT Fee 2026–1 Period, which relate to the software license fee and technology changes to be implemented by FCAT, are described in more detail above.¹³⁸

(vi) Legal

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to legal fees as a part of CAT Fees.¹³⁹ CAT LLC

determined that the budgeted legal costs described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. Given the unique nature of the CAT, the number of parties involved with the CAT (including, for example, the SEC, Participants, Industry Members, and vendors) and the many regulatory, contractual and other issues associated with the CAT, the scope of the necessary legal services is substantial. CAT LLC determined that the scope of the proposed legal services is necessary to implement and maintain the CAT and that the legal rates reflect the specialized services necessary for such a project. CAT LLC determined to hire and continue to use each law firm based on a variety of factors, including their relevant expertise and fees. In each case, CAT LLC determined that the fee rates were in line with market rates for specialized legal expertise. In addition, CAT LLC determined that the budgeted costs for the legal projects were appropriate given the breadth of the services provided. The services to be performed by each law firm for the CAT Fee 2026–1 Period and the budgeted costs related to such services are described above.¹⁴⁰

(vii) Consulting

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted consulting costs as a part of CAT Fees.¹⁴¹ CAT LLC determined that the budgeted consulting costs described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. Because there are no CAT employees¹⁴² and because of the significant number of issues associated with the CAT, the consultants are budgeted to provide assistance in the management of various CAT matters and the processes related to such matters.¹⁴³ CAT LLC determined the budgeted consulting costs were appropriate, as the consulting services were to be provided at reasonable market rates that were comparable to the rates charged by other consulting firms for similar work. Moreover, the total budgeted costs for such consulting services were appropriate in light of the breadth of services provided by Deloitte. The services budgeted to be performed

by Deloitte and the budgeted costs related to such services are described above.¹⁴⁴

(viii) Insurance

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted insurance costs as a part of CAT Fees.¹⁴⁵ CAT LLC determined that the budgeted insurance costs described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. CAT LLC determined that it is common practice to have directors' and officers' liability insurance, and errors and omissions liability insurance. CAT LLC further determined that it was important to have cyber security insurance given the nature of the CAT, and such a decision is consistent with the CAT NMS Plan, which states that the cyber incident response plan may include "[i]nsurance against security breaches."¹⁴⁶ As discussed above,¹⁴⁷ CAT LLC determined that the budgeted insurance costs were appropriate given its prior experience with this market and an analysis of the alternative insurance offerings. Based on this analysis, CAT LLC determined that the selected insurance policies provided appropriate coverage at reasonable market rates.¹⁴⁸

(ix) Professional and Administration

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted professional and administration costs as a part of CAT Fees.¹⁴⁹ CAT LLC determined that the budgeted professional and administration costs described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. Because there are no CAT employees, all required accounting, financial, tax, cash management and treasury functions for CAT LLC have been outsourced at market rates. In addition, the required annual financial statement audit of CAT LLC is included in professional and administration costs, which costs are also at market rates. The services performed by Anchin and Grant Thornton and the costs related to such services are described above.¹⁵⁰

¹⁵⁰ See Section 3(a)(2)(C)(ix) above.

CAT LLC anticipates continuing to make use of Anchin, a financial advisory firm, to assist with financial matters for the CAT. CAT LLC determined that the budgeted costs for Anchin were appropriate, as the financial advisory services were to be provided at reasonable market rates that were comparable to the rates charged by other such firms for similar work. Moreover, the total budgeted costs for such financial advisory services were appropriate in light of the breadth of services provided by Anchin. The services budgeted to be performed by Anchin and the budgeted costs related to such services are described above.¹⁵¹

CAT LLC anticipates continuing to make use of Grant Thornton, an independent accounting firm, to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. CAT LLC determined that the budgeted costs for Grant Thornton were appropriate, as the accounting services were to be provided at reasonable market rates that were comparable to the rates charged by other such firms for similar work. Moreover, the total budgeted costs for such accounting services were appropriate in light of the breadth of services provided by Grant Thornton. The services budgeted to be performed by Grant Thornton and the budgeted costs related to such services are described above.¹⁵²

(x) Public Relations Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted public relations costs as a part of CAT Fees.¹⁵³ However, as described above,¹⁵⁴ CAT LLC determined not to include any public relations costs in Budgeted CAT Costs 2026–1. CAT LLC determined that it was reasonable not to include any public relations costs in the Budgeted CAT Costs 2026–1.

(xi) Interest Income

Section 11.1(a) of the CAT NMS Plan requires the CAT budget to include “the sources of all revenues to cover costs.” Accordingly, the Updated 2026 CAT Budget includes a line item for interest income. Specifically, the Updated 2026 CAT Budget includes \$1,453,382 in interest income for the CAT Fee 2026–1 Period.¹⁵⁵ CAT LLC determined that using interest income to reduce the

amount to be collected via CAT Fees is reasonable and should be included as a part of the Budgeted CAT Costs 2026–1.

(x) Reserve

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted reserve costs as a part of CAT Fees.¹⁵⁶ CAT LLC determined that the reserve in the amount of 25% of the Updated 2026 CAT Budget (other than the reserve) complies with the requirements of the CAT NMS Plan related to a reserve, is a reasonable amount, and, therefore, should be included as a part of the Updated 2026 CAT Budget.

In its approval order for the CAT Funding Model, the Commission stated that it would be appropriate for the annual operating budget for the CAT to “include a reserve of not more than 25% of the annual budget.”¹⁵⁷ In making this statement, the Commission noted the following:

Because the CAT is a critical regulatory tool/system, the CAT needs to have a stable funding source to build financial stability to support the Company as a going concern. Funding for the CAT, as noted in Section 11.1(b), is the responsibility of the Participants and the industry. Because CAT fees are charged based on the budget, which is based on anticipated volume, it is reasonable to have a reserve on hand to prevent a shortfall in the event there is an unexpectedly high volume in a given year. A reserve would help to assure that the CAT has sufficient resources to cover costs should there be unanticipated costs or costs that are higher than expected.¹⁵⁸

The SEC also recognized that a reserve would help address the difficulty in predicting certain variable CAT costs, like trading volume.¹⁵⁹ The SEC also recognized that CAT fees will be collected approximately three months after trading activity on which a CAT fee is based, or 25% of the year, and that the reserve would be available to address funding needs related to this three-month delay.¹⁶⁰ The inclusion of the proposed reserve in the Updated 2026 CAT Budget would provide each of these benefits to the CAT. The reserve is discussed further above.¹⁶¹

As discussed further below,¹⁶² however, a surplus reserve balance in

excess of the budgeted 25% reserve has been collected as of the beginning of the year of 2026. Accordingly, the Updated 2026 CAT Budget indicates that this surplus would be used to offset a portion of CAT costs for the CAT Fee 2026–1 Period, thereby reducing the fee rate for CAT Fee 2026–1 (\$0.000001 per executed equivalent share). If the fee rate for CAT Fee 2026–1 were calculated solely based on the reasonably budgeted costs for CAT for May–December 2026, excluding the reduction in that amount due to the surplus reserve offset, the fee rate would be \$0.000010 per executed equivalent share.

(B) Reconciliation of Budget to the Collected Fees

The CAT NMS Plan also requires fee filings for Prospective CAT Fees to include “a discussion of how the budget is reconciled to the collected fees.”¹⁶³ As discussed above,¹⁶⁴ this reserve balance of \$102,391,135 collected via prior CAT Fees would be used to offset a portion of CAT costs for CAT Fee Period 2026–1, thereby reducing the fee rate to be paid for CAT Fee 2026–1. Specifically, the total costs (including the 25% reserve) for CAT Fee 2026–1 of \$117,540,783 would be reduced by the \$102,391,135 in reserve. Therefore, the Total Budgeted CAT Costs 2026–1 would be \$15,149,648. Such surplus reserve balance would be used to reduce the fee rate for CAT Fee 2026–1 (\$0.000001 per executed equivalent share).

(C) Total Executed Equivalent Share Volume for the Prior 12 Months

The total executed equivalent share volume of transactions in Eligible Securities for the period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. CAT LLC determined the total executed equivalent share volume for the prior twelve months by counting executed equivalent shares in the same manner as it counts executed equivalent shares for CAT billing purposes.¹⁶⁵

(D) Projected Executed Equivalent Share Volume for the CAT Fee 2026–1 Period

CAT LLC has determined that the projected total executed equivalent share volume for the eight months of the CAT Fee 2026–1 Period by multiplying by 8/12ths the executed equivalent share volume for the prior twelve months: 8/12 times

¹⁵⁸ *Id.*

¹⁵⁹ *Id.*

¹⁶⁰ *Id.*

¹⁶¹ See Section 3(a)(2)(C)(xii) above.

¹⁶² See Section 3(b)(2)(B) below.

5,980,937,549,360.49 executed equivalent shares.¹⁶⁶ The Operating Committee determined that such an approach was reasonable as the CAT's annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.41), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level.

(E) Actual Fee Rate for CAT Fee 2026–1

(i) Decimal Places

As noted in the approval order for the CAT Funding Model, as a practical matter, the fee filing for a CAT Fee would provide the exact fee per executed equivalent share to be paid for each CAT Fee, by multiplying the Fee Rate by one-third and describing the relevant number of decimal places for the fee rate.¹⁶⁷ Accordingly, proposed paragraph (a)(6)(B) of the fee schedule would set forth a fee rate of \$0.000001 per executed equivalent share. This fee rate is calculated by multiplying Fee Rate 2026–1 by one-third and rounding the result to six decimal places. CAT LLC determined that the use of six decimal places is reasonable as it balances the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.¹⁶⁸

(ii) Reasonable Fee Level

The Exchange believes that charging CAT Fee 2026–1 with a fee rate of \$0.000001 per executed equivalent share is reasonable because it provides for a revenue stream for the Company that is aligned with the Budgeted CAT Costs 2026–1. Moreover, the Exchange believes that the level of the fee rate is reasonable, as it is less than CAT Fee 2025–2 and is comparable to other transaction-based fees, including fees assessed pursuant to Section 31.¹⁶⁹ As a result, the magnitude of CAT Fee 2026–1 is small, and therefore will mitigate any potential adverse economic effects or inefficiencies.¹⁷⁰

(3) CAT Fee 2026–1 Provides for an Equitable Allocation of Fees

CAT Fee 2026–1 provides for an equitable allocation of fees, as it equitably allocates CAT costs between and among the Participants and Industry Members. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfied the requirements of the Exchange Act, including the formula for calculating CAT Fees as well as the Industry Members to be charged the CAT Fees.¹⁷¹ In approving the CAT Funding Model, the SEC stated that “[t]he Participants have sufficiently demonstrated that the proposed allocation of fees is appropriate and meets the Rule 608(b) approval standard.”¹⁷² Accordingly, the CAT Funding Model sets forth the requirements for allocating fees related to Budgeted CAT Costs among Participants and Industry Members, and the fee filings for CAT Fees must comply with those requirements.

CAT Fee 2026–1 provides for an equitable allocation of fees as it complies with the requirements regarding the calculation of CAT Fees as set forth in the CAT NMS Plan. For example, as described above, the calculation of CAT Fee 2026–1 complies with the formula set forth in Section 11.3(a) of the CAT NMS Plan. In addition, CAT Fee 2026–1 would be charged to CEBBs and CEBBs in accordance with Section 11.3(a) of the CAT NMS Plan. Furthermore, the Participants would be charged for their designated share of the Budgeted CAT Costs 2026–1 through a fee implemented via the CAT NMS Plan, which would have the same fee rate as CAT Fee 2026–1.

In addition, as discussed above, each of the inputs into the calculation of CAT Fee 2026–1—the Budgeted CAT Costs 2026–1, the count for the executed equivalent share volume for the prior 12 months, and the projected executed equivalent share volume for the CAT Fee 2026–1 Period—is reasonable. Moreover, these inputs lead to a reasonable fee rate for CAT Fee 2026–1 that is lower than other fee rates for transaction-based fees. A reasonable fee rate allocated in accordance with the requirements of the CAT Funding Model provides for an equitable allocation of fees.

(4) CAT Fee 2026–1 Is Not Unfairly Discriminatory

CAT Fee 2026–1 is not an unfairly discriminatory fee. The SEC approved

the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfies the requirements of the Exchange Act. In reaching this conclusion, the SEC analyzed the potential effect of CAT Fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. CAT Fee 2026–1 complies with the requirements regarding the calculation of CAT Fees as set forth in the CAT NMS Plan. In addition, as discussed above, each of the inputs into the calculation of CAT Fee 2026–1 and the resulting fee rate for CAT Fee 2026–1 is reasonable. Therefore, CAT Fee 2026–1 does not impose an unfairly discriminatory fee on Industry Members.

The Exchange believes the proposed fees established pursuant to the CAT Funding Model promote just and equitable principles of trade, and, in general, protect investors and the public interest, and are provided in a transparent manner and with specificity in the fee schedule. The Exchange also believes that the proposed fees are reasonable because they would provide ease of calculation, ease of billing and other administrative functions, and predictability of a fee based on fixed rate per executed equivalent share. Such factors are crucial to estimating a reliable revenue stream for CAT LLC and for permitting Exchange members to reasonably predict their payment obligations for budgeting purposes.

B. Self-Regulatory Organization's Statement on Burden on Competition

Section 6(b)(8) of the Act¹⁷³ requires that the Exchange's rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that CAT Fee 2026–1 implements provisions of the CAT NMS Plan that were approved by the Commission and is designed to assist the Exchange in meeting its regulatory obligations pursuant to the Plan.

In addition, all Participants (including exchanges and FINRA) are proposing to

¹⁶⁶ *Id.*

¹⁶⁷ CAT Funding Model Approval Order at 13445, n.677.

¹⁶⁸ See Section 3(a)(5)(A) above.

¹⁶⁹ For example, as the SEC noted in the CAT Funding Model Approval Order, recent Section 31 fees ranged from \$0.00007 per share to \$0.00072 per share. CAT Funding Model Approval Order at 13469.

¹⁷⁰ *Id.*

¹⁷¹ See Section 11.3(a) of the CAT NMS Plan.

¹⁷² CAT Funding Model Approval Order at 13412.

¹⁷³ 15 U.S.C. 78f(b)(8).

introduce CAT Fee 2026–1 on behalf of CAT LLC to implement the requirements of the CAT NMS Plan. Therefore, this is not a competitive fee filing, and, therefore, it does not raise competition issues between and among the Participants.

Furthermore, in approving the CAT Funding Model, the SEC analyzed the potential competitive impact of the CAT Funding Model, including competitive issues related to market services, trading services and regulatory services, efficiency concerns, and capital formation.¹⁷⁴ The SEC also analyzed the potential effect of CAT fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. Based on this analysis, the SEC approved the CAT Funding Model as compliant with the Exchange Act. CAT Fee 2026–1 is calculated and implemented in accordance with the CAT Funding Model as approved by the SEC.

As discussed above, each of the inputs into the calculation of CAT Fee 2026–1 is reasonable and the resulting fee rate for CAT Fee 2026–1 calculated in accordance with the CAT Funding Model is reasonable. Therefore, CAT Fee 2026–1 would not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Not applicable.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁷⁵ and paragraph (f) of Rule 19b–4¹⁷⁶ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors,

or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR–CBOE–2026–041 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–CBOE–2026–041. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–CBOE–2026–041 and should be submitted on or before June 2, 2026.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁷⁷

Stephanie J. Fouse,
Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–105414; File No. SR–DTC–2026–006]

Self-Regulatory Organizations; The Depository Trust Company; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Align the Notice Period for Missed Transfer Adjustments in the Distributions Service Guide

May 7, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b–4 thereunder,² notice is hereby given that on May 6, 2026, The Depository Trust Company (“DTC”)³ filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II and III below, which Items have been prepared by the clearing agency. DTC filed the proposed rule change pursuant to Section 19(b)(3)(A) of the Act⁴ and Rule 19b–4(f)(4) thereunder.⁵ The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Clearing Agency's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change consists of amendments to the Distributions Service Guide⁶ to (i) align the notice period for missed transfer adjustments with the notice periods for other adjustments resulting from changes to rates, record dates or payable dates, and (ii) relocate the guidance regarding missed transfer adjustments to a different section in the Distributions Service Guide so that it appears alongside other adjustment-related provisions.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

³ Capitalized terms not defined herein shall have the meaning assigned to such terms in the Rules, By-Laws and Organization Certificate of DTC (“DTC Rules”), available at www.dtcc.com/-/media/Files/Downloads/legal/rules/dtc_rules.pdf.

⁴ 15 U.S.C. 78s(b)(3)(A).

⁵ 17 CFR 240.19b–4(f)(4).

⁶ Available at www.dtcc.com/-/media/Files/Downloads/legal/service-guides/Service-Guide-Distributions.pdf. The Distributions Service Guide is a Procedure of DTC. Pursuant to the DTC Rules, the term “Procedures” means the Procedures, service guides, and regulations of DTC adopted pursuant to Rule 27 (Procedures), as amended from time to time. Rule 1 (Definitions; Governing Law), Section 1, *supra* note 3. DTC's Procedures are filed with the Commission. They are binding on DTC and each Participant in the same manner as they are bound by the DTC Rules. Rule 27, *supra* note 3.

¹⁷⁷ 17 CFR 200.30–3(a)(12).

II. Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the clearing agency included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The clearing agency has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

(A) Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

DTC proposes to amend the Distributions Service Guide to (i) align the notice period for missed transfer adjustments with the notice periods for other adjustments resulting from changes to rates, record dates or payable dates, and (ii) relocate the guidance regarding missed transfer adjustments to a different section in the Distributions Service Guide so that it appears alongside other adjustment-related provisions.

Background

In order for DTC to clear, settle and, in general, service securities it holds on behalf of its Participants, ownership of the securities must be in the name of DTC's nominee, Cede & Co. Therefore, when DTC receives DTC-eligible securities for deposit at DTC from a Participant, it forwards them to the issuer's transfer agent to request ownership be transferred from the current owner to Cede & Co. At times, these requests are made on or near the record date of a corporate action event for the issuance, with the expectation that the ownership transfer is completed by the record date.

In such instances, DTC proactively monitors whether ownership transfers have been completed. If the transfer is not completed by the record date (a "Missed Transfer"), DTC would adjust the Participant's record date position so that the corporate action event is properly credited or allocated to the Participant via DTC and not to an account outside of DTC.⁷

Missed Transfers

Missed Transfer adjustments are one of two adjustment types described in the Distributions Service Guide. The other

adjustment type consists of post-allocation adjustments to correct a rate, record date, or payable date.⁸ While both adjustment types are subject to a notice periods, the Missed Transfer periods do not align with the periods applicable to the other adjustment type.

Currently, if a Missed Transfer is identified within 30 days of the original allocation, DTC sends notice of a claim (*i.e.*, a debit from the Participant's account) to Participants three days before processing the related charge to the Participant's account.⁹ If a Missed Transfer is identified more than 30 days after the original allocation, DTC sends notice of a claim (*i.e.*, a debit from the Participant's account) to Participants five days before processing the related charge to the Participant's account.¹⁰

The proposed rule change would revise the Missed Transfer notice periods to align with the other adjustment periods. Specifically, DTC would change the notice period from three days to one day for Missed Transfers identified within 30 days of the original allocation, and from five days to three days for Missed Transfers identified more than 30 days after the original allocation.

As revised, Missed Transfer adjustments would follow the same notice period as other adjustments in the Distributions Service Guide: one day for adjustments identified within 30 days of the original allocation and three days for adjustments identified more than 30 days after the original allocation.¹¹

Relocation of Missed Transfer Notice Period Guidance

In addition to aligning the notice periods, the proposed rule change would relocate the Missed Transfer notice period guidance from the section regarding Interim Accounting to the section regarding Adjustments, so that all adjustment periods would appear in one place.

2. Statutory Basis

Section 17A(b)(3)(F) of the Act requires, in part, that the DTC Rules be designed to promote the prompt and accurate clearance and settlement of securities transactions and to protect investors and the public interest.¹² DTC believes the proposed rule change is

consistent with Section 17A(b)(3)(F) of the Act.

This proposed rule change is intended to provide Participants with more consistent, standardized guidance regarding adjustment notice periods for DTC's Distributions Service. By aligning the notice periods applicable to Missed Transfer adjustments with the notice periods for other charge-backs, DTC would apply a uniform timetable across adjustment types. Uniform periods would improve operational efficiency and predictability for Participants and DTC, help ensure timely processing of adjustments, and help reduce the risk of processing errors associated with differing notice periods. Further, by relocating the notice period guidance for Missed Transfers so that it appears alongside the other adjustment guidance, Participants will more easily locate the information because it will be in one place. Therefore, DTC believes that the proposed rule change would help promote the prompt and accurate clearance and settlement of securities transactions and protect investors and the public interest, consistent with Section 17A(b)(3)(F) of the Act, cited above.

(B) Clearing Agency's Statement on Burden on Competition

DTC does not believe that the proposed rule change would impose a burden or otherwise have a significant impact on competition as it is only a conforming change to promote uniformity and predictability with respect to adjustment notice periods in the Distributions Service Guide. Uniformity ensures that the same requirements would apply for all related adjustments equally, while predictability, both in the periods and in location, ensures that all Participants can easily find and apply the guidance. Finally, the proposal would not introduce a new or unique cost or change for Participants. For these reasons, DTC believes the proposed rule change would not impose any burden on competition.

(C) Clearing Agency's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

DTC has not received or solicited any written comments relating to this proposal. If any written comments are received, DTC will amend this filing to publicly file such comments as an Exhibit 2 to this filing, as required by Form 19b-4 and the General Instructions thereto.

Persons submitting comments are cautioned that, according to Section IV

(Solicitation of Comments) of the Exhibit 1A in the General Instructions to Form 19b-4, the Commission does not edit personal identifying information from comment submissions.

Commenters should submit only information that they wish to make available publicly, including their name, email address, and any other identifying information.

All prospective commenters should follow the Commission's instructions on how to submit comments, available at www.sec.gov/rules-regulations/how-submit-comment. General questions regarding the rule filing process or logistical questions regarding this filing should be directed to the Main Office of the SEC's Division of Trading and Markets at tradingandmarkets@sec.gov or 202-551-5777.

DTC reserves the right to not respond to any comments received.

III. Date of Effectiveness of the Proposed Rule Change, and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)¹³ of the Act and paragraph (f) of Rule 19b-4 thereunder.¹⁴ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (www.sec.gov/rules/sro.shtml); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-DTC-2026-006 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549.

All submissions should refer to File Number SR-DTC-2026-006. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (www.sec.gov/rules/sro.shtml). Copies of the filing will be available for inspection and copying at the principal office of DTC and on DTCC's website (www.dtcc.com/legal/sec-rule-filings). Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to File Number SR-DTC-2026-006 and should be submitted on or before June 2, 2026.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁵

Stephanie J. Fouse,
Assistant Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-105395; File No. SR-NYSETEX-2026-11]

Self-Regulatory Organizations; NYSE Texas, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend the Fee Schedule of NYSE Texas, Inc. To Establish Fees for Industry Members Related to Reasonably Budgeted CAT Costs of the National Market System Plan Governing the Consolidated Audit Trail for the Period From May 1, 2026 Through December 31, 2026

May 7, 2026.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 ("Act"),² and Rule 19b-4 thereunder,³ notice is hereby given that, on April 23, 2026, the NYSE Texas, Inc. ("NYSE Texas" or the "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The

Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the Fee Schedule of NYSE Texas, Inc. ("Fee Schedule") to establish fees for Industry Members⁴ related to reasonably budgeted CAT costs of the National Market System Plan Governing the Consolidated Audit Trail (the "CAT NMS Plan" or "Plan") for the period from May 1, 2026 through December 31, 2026. These fees would be payable to Consolidated Audit Trail, LLC ("CAT LLC" or the "Company") and referred to as CAT Fee 2026-1, and would be described in a section of the Exchange's fee schedule entitled "Consolidated Audit Trail Funding Fees." The fee rate for CAT Fee 2026-1 would be \$0.000001 per executed equivalent share. CAT Executing Brokers will receive their first monthly invoice for CAT Fee 2026-1 in June 2026 calculated based on their transactions as CAT Executing Brokers for the Buyer ("CEBB") and/or CAT Executing Brokers for the Seller ("CEBS") in May 2026. As described further below, CAT Fee 2026-1 is anticipated to be in place for eight months, and is anticipated to recover approximately two-thirds of the costs set forth in the reasonably budgeted CAT costs for 2026. The proposed rule change is available on the Exchange's website at www.nyse.com and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

⁴ An "Industry Member" is defined as "a member of a national securities exchange or a member of a national securities association." See NYSE Texas Rule 6.6810(u). See also Section 1.1 of the CAT NMS Plan. Unless otherwise specified, capitalized terms used in this rule filing are defined as set forth in the CAT NMS Plan and/or the CAT Compliance Rule. See NYSE Texas Rule 6.6810.

³ 17 CFR 240.19b-4.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

On July 11, 2012, the Commission adopted Rule 613 of Regulation NMS, which required the self-regulatory organizations ("SROs") to submit a national market system ("NMS") plan to create, implement and maintain a consolidated audit trail that would capture customer and order event information for orders in NMS securities across all markets, from the time of order inception through routing, cancellation, modification or execution.⁵ On November 15, 2016, the Commission approved the CAT NMS Plan.⁶ Under the CAT NMS Plan, the Operating Committee has the discretion to establish funding for CAT LLC to operate the CAT, including establishing fees for Industry Members to be assessed by CAT LLC that would be implemented on behalf of CAT LLC by the Participants.⁷ The Operating Committee adopted a revised funding model to fund the CAT ("CAT Funding Model"). On March 16, 2026, the Commission approved the CAT Funding Model after concluding that the model satisfied the requirements of Section 11A of the Exchange Act and Rule 608 thereunder.⁸

The CAT Funding Model provides a framework for the recovery of the costs to create, develop and maintain the CAT, including providing a method for allocating costs to fund the CAT among Participants and Industry Members. The CAT Funding Model establishes two categories of fees: (1) CAT fees assessed by CAT LLC and payable by certain Industry Members to recover a portion of historical CAT costs previously paid by the Participants ("Historical CAT Assessment" fees); and (2) CAT fees assessed by CAT LLC and payable by Participants and Industry Members to fund prospective CAT costs ("CAT Fees").⁹

Under the CAT Funding Model, Participants, CEBBs and CEBs are subject to fees designed to cover the ongoing budgeted costs of the CAT, as determined by the Operating Committee. "The Operating Committee will establish fees ('CAT Fees') to be payable by Participants and Industry Members with regard to CAT costs not previously paid by the Participants ('Prospective CAT Costs')." ¹⁰ In establishing a CAT Fee, the Operating Committee will calculate a "Fee Rate" for the relevant period. Then, for each month in which a CAT Fee is in effect, each CEBB and CEB would be required to pay the fee for each transaction in Eligible Securities executed by the CEBB or CEBs from the prior month as set forth in CAT Data, where the fee for each transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Fee Rate.

The CAT Fees to be paid by CEBBs and CEBs are designed to contribute toward the recovery of two-thirds of the budgeted CAT costs for the relevant period.¹¹ The CAT Funding Model is designed to require that the Participants contribute to the recovery of the remaining one-third of the budgeted CAT costs.¹² Participants would be subject to the same Fee Rate as CEBBs and CEBs.¹³ While CAT Fees charged to Industry Members become effective in accordance with the requirements of Section 19(b) of the Exchange Act,¹⁴ CAT fees charged to Participants are implemented via an approval of the CAT fees by the Operating Committee in accordance with the requirements of the CAT NMS Plan.¹⁵ Accordingly, this filing does not address Participant CAT fees as they are described in the CAT NMS Plan.¹⁶

CAT LLC proposes to charge CEBBs and CEBs (as described in more detail below) CAT Fee 2026–1 to recover the reasonably budgeted CAT costs for the period from May 1, 2026 through December 31, 2026 in accordance with the CAT Funding Model. To implement

this fee on behalf of CAT LLC, the CAT NMS Plan requires the Participants to "file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves, and such fees shall be labeled as 'Consolidated Audit Trail Funding Fees.'" ¹⁷ The Plan further states that "[o]nce the Operating Committee has approved such Fee Rate, the Participants shall be required to file with the SEC pursuant to Section 19(b) of the Exchange Act CAT Fees to be charged to Industry Members calculated using such Fee Rate." ¹⁸ Accordingly, the purpose of this filing is to implement a CAT Fee on behalf of CAT LLC for Industry Members, referred to as CAT Fee 2026–1, in accordance with the CAT NMS Plan.

(1) CAT Executing Brokers

CAT Fee 2026–1 will be charged to each CEBB and CEBs for each applicable transaction in Eligible Securities.¹⁹ The CAT NMS Plan defines a "CAT Executing Broker" to mean: (a) with respect to a transaction in an Eligible Security that is executed on an exchange, the Industry Member identified as the Industry Member responsible for the order on the buy-side of the transaction and the Industry Member responsible for the sell-side of the transaction in the equity order trade event and option trade event in the CAT Data submitted to the CAT by the relevant exchange pursuant to the Participant Technical Specifications; and (b) with respect to a transaction in an Eligible Security that is executed otherwise than on an exchange and required to be reported to an equity trade reporting facility of a registered national securities association, the Industry Member identified as the executing broker and the Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event in the CAT Data submitted to the CAT by FINRA pursuant to the Participant Technical Specifications; provided, however, in

⁵ Securities Exchange Act Rel. No. 67457 (July 18, 2012), 77 FR 45722 (Aug. 1, 2012).

⁶ Securities Exchange Act Rel. No. 79318 (Nov. 15, 2016), 81 FR 84696 (Nov. 23, 2016) ("CAT NMS Plan Approval Order").

⁷ Section 11.1(b) of the CAT NMS Plan.

⁸ Securities Exchange Act Rel. No. 105003 (Mar. 16, 2026), 91 FR 13410 (Mar. 19, 2026) ("CAT Funding Model Approval Order"). This CAT Funding Model replaced the prior funding model that was approved by the Commission on September 6, 2023. Securities Exchange Act Rel. No. 98290 (Sept. 6, 2023), 88 FR 62628 (Sept. 12, 2023).

⁹ Under the CAT Funding Model, the Operating Committee may establish CAT Fees related to CAT costs going forward. Section 11.3(a) of the CAT NMS Plan. This filing only establishes CAT Fee 2026–1 related to reasonably budgeted CAT costs

for the period from May 1, 2026 through December 31, 2026 as described herein; it does not address any other potential CAT Fees related to CAT costs. Any such other CAT Fee will be subject to a separate fee filing. In addition, under the CAT Funding Model, the Operating Committee may establish one or more Historical CAT Assessments. Section 11.3(b) of the CAT NMS Plan. This filing does not address any Historical CAT Assessments.

¹⁰ Section 11.3(a) of the CAT NMS Plan.

¹¹ Section 11.3(a)(iii)(A) of the CAT NMS Plan.

¹² Section 11.3(a)(ii)(A) of the CAT NMS Plan.

¹³ Section 11.3(a)(ii) of the CAT NMS Plan.

¹⁴ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹⁵ CAT Funding Model Approval Order at 13448.

¹⁶ See Section 11.3(a)(ii) and Appendix B of the CAT NMS Plan.

¹⁷ Section 11.1(b) of the CAT NMS Plan.

¹⁸ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹⁹ In its approval of the CAT Funding Model, the Commission determined that charging CAT fees to CAT Executing Brokers was appropriate. In reaching this conclusion, the Commission noted that the use of CAT Executing Brokers is appropriate because the CAT Funding Model is based upon the calculation of *executed* equivalent shares, and, therefore, charging CAT Executing Brokers would reflect their executing role in each transaction. Furthermore, the Commission noted that, because CAT Executing Brokers are already identified in transaction reports from the exchanges and FINRA's equity trade reporting facilities recorded in CAT Data, charging CAT Executing Brokers could streamline the billing process. CAT Funding Model Approval Order at 13413.

those circumstances where there is a non-Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event or no contra-side executing broker is identified in the TRF/ORF/ADF

transaction data event, then the Industry Member identified as the executing broker in the TRF/ORF/ADF transaction data event would be treated as CAT Executing Broker for the Buyer and for the Seller.²⁰

The following fields of the Participant Technical Specifications indicate the CAT Executing Brokers for the transactions executed on an exchange:

EQUITY ORDER TRADE (EOT)²¹

No.	Field name	Data type	Description	Include key
12.n.8/ 13.n.8	member	Member Alias	The identifier for the member firm that is responsible for the order on this side of the trade. Not required if there is no order for the side as indicated by the NOBUYID/NOSELLID instruction. This must be provided if orderID is provided.	C

OPTION TRADE (OT)²²

No.	Field name	Data type	Description	Include key
16.n.13/ 17.n.13	member	Member Alias	The identifier for the member firm that is responsible for the order.	R

In addition, the following fields of the Participant Technical Specifications would indicate the CAT Executing

Brokers for the transactions executed otherwise than on an exchange:

TRF/ORF/ADF TRANSACTION DATA EVENT (TRF)²³

No.	Field name	Data type	Description	Include key
26	reportingExecutingMpid	Member Alias	MPID of the executing party	R
28	contraExecutingMpid	Member Alias	MPID of the contra-side executing party	C

(2) Calculation of Fee Rate 2026–1

The Operating Committee determined the Fee Rate to be used in calculating CAT Fee 2026–1 (“Fee Rate 2026–1”) by dividing the reasonably budgeted CAT costs (“Budgeted CAT Costs 2026–1”) for the period from May 1, 2026 through December 31, 2026 (“CAT Fee 2026–1 Period”) by the reasonably projected total executed share volume of all transactions in Eligible Securities for the eight-month recovery period, as discussed in detail below.²⁴ Based on this calculation, the Operating Committee has determined that Fee Rate 2026–1 would be \$0.000003799483243631228 per executed equivalent share. This rate is

then divided by three and rounded to determine the fee rate of \$0.000001 per executed equivalent share that will be assessed to CEBBs and CEBSSs, as also discussed in detail below.

(A) CAT Fee 2026–1 Period

CAT LLC proposes to implement CAT Fee 2026–1. CAT LLC proposes to commence CAT Fee 2026–1 during the year, rather than at the beginning of the year. Accordingly, CAT Fee 2026–1 “would be calculated as described in paragraph (II)” of Section 11.3(a)(i)(A) of the CAT NMS Plan,²⁵ which states that “[d]uring each year, the Operating Committee will calculate a new Fee Rate by dividing the reasonably budgeted CAT costs for the remainder of the year

by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the remainder of the year.”²⁶ For CAT Fee 2026–1, the reasonably budgeted CAT costs for “the remainder of the year” are the reasonably budgeted CAT costs from May 1, 2026 through December 31, 2026 as set forth in the updated annual budget for 2026 for CAT LLC approved by the Operating Committee on March 31, 2026 (“Updated 2026 CAT Budget”).²⁷

(B) Executed Equivalent Shares for Transactions in Eligible Securities

Under the CAT NMS Plan, for purposes of calculating CAT Fees, executed equivalent shares in a

²⁰ Section 1.1 of the CAT NMS Plan. In its approval order for the CAT Funding Model, the Commission “recognize[d] that Industry Members may pass-through CAT fees for customer executed volume.” See CAT Funding Model Approval Order at 13424.

²¹ See Table 23, Section 4.7 (Order Trade Event) of the CAT Reporting Technical Specifications for Plan Participants, Version 4.2.0-r2 (Feb. 24, 2026), <https://www.catnmsplan.com/sites/default/files/>

2026-02/02.24.2026-CAT_Reporting_Technical_Specifications_for_Participants_4.2.0-r2.pdf (“CAT Reporting Technical Specifications for Plan Participants”).

²² See Table 52, Section 5.2.5.1 (Simple Option Trade Event) of the CAT Reporting Technical Specifications for Plan Participants.

²³ See Table 62, Section 6.1 (TRF/ORF/ADF Transaction Data Event) of the CAT Reporting Technical Specifications for Plan Participants.

²⁴ Section 11.3(a)(i) of the CAT NMS Plan.

²⁵ Section 11.3(a)(i)(A)(IV) of the CAT NMS Plan.

²⁶ Section 11.3(a)(i)(A)(II) of the CAT NMS Plan.

²⁷ The Updated 2026 CAT Budget is available on the CAT website (<https://www.catnmsplan.com/sites/default/files/2026-04/03.31.26-CAT-2026-Budget.pdf>).

transaction in Eligible Securities will be reasonably counted as follows: (1) each executed share for a transaction in NMS Stocks will be counted as one executed equivalent share; (2) each executed contract for a transaction in Listed Options will be counted based on the multiplier applicable to the specific Listed Options (*i.e.*, 100 executed equivalent shares or such other applicable multiplier); and (3) each executed share for a transaction in OTC Equity Securities will be counted as 0.01 executed equivalent share.²⁸

(C) Budgeted CAT Costs 2026–1

The CAT NMS Plan states that “[t]he budgeted CAT costs for the year shall be comprised of all reasonable fees, costs and expenses reasonably budgeted to be incurred by or for the Company in connection with the development, implementation and operation of the CAT as set forth in the annual operating budget approved by the Operating Committee pursuant to Section 11.1(a) of the CAT NMS Plan, or as adjusted during the year by the Operating Committee.”²⁹ Section 11.1(a) of the CAT NMS Plan describes the requirement for the

Operating Committee to approve an operating budget for CAT LLC on an annual basis. It requires the budget to “include the projected costs of the Company, including the costs of developing and operating the CAT for the upcoming year, and the sources of all revenues to cover such costs, as well as the funding of any reserve that the Operating Committee reasonably deems

appropriate for the prudent operation of the Company.” Section 11.1(a)(i) of the CAT NMS Plan further states that: [w]ithout limiting the foregoing, the reasonably budgeted CAT costs shall include technology (including cloud hosting services, operating fees, CAIS operating fees, change request fees and capitalized developed technology costs), legal, consulting, insurance, professional and administration, and public relations costs, a reserve and such other cost categories as reasonably determined by the Operating Committee to be included in the budget.

In accordance with the requirements under the CAT NMS Plan, the Operating Committee approved an annual budget for 2026 for CAT LLC (“Original 2026 CAT Budget”) on December 11, 2025.³⁰ On March 31, 2026, the Operating Committee approved an updated budget for 2026, referred to as the Updated 2026 CAT Budget. The Updated 2026 CAT Budget includes actual costs for each category for January and February 2026, with updated estimated costs for the remainder of the year. The updated costs for May through December as included in the Updated 2026 CAT Budget (*i.e.*, Budgeted CAT Costs 2026–1) are the costs used in calculating CAT Fee 2026–1.³¹ The 2026 CAT budgets, both the Original 2026 CAT Budget and the Updated 2026 CAT Budget, were prepared on the accrual basis of accounting.³²

As described in detail below, the Budgeted CAT Costs 2026–1 would be \$15,149,648. CEBBs collectively will be responsible for one-third of the

Budgeted CAT Costs 2026–1 (which is \$5,049,882.67), and CEBBs collectively will be responsible for one-third of the Budgeted CAT Costs 2026–1 (which is \$5,049,882.67).

The following describes in detail the Budgeted CAT Costs 2026–1 for CAT Fee 2026–1. The following cost details are provided in accordance with the requirement in the CAT NMS Plan to provide in the fee filing the following: the budget for the upcoming year (or remainder of the year, as applicable), including a brief description of each line item in the budget, including (1) technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration, and (6) public relations costs, a reserve and/or such other categories as reasonably determined by the Operating Committee to be included in the budget, and the reason for changes in each such line item from the prior CAT fee filing.³³

Each of the costs described below is reasonable, appropriate and necessary for the creation, implementation and maintenance of CAT.

The following table breaks down the Budgeted CAT Costs 2026–1 into the categories set forth in Section 11.3(a)(iii)(B) of the CAT NMS Plan.³⁴ The Budgeted CAT Costs 2026–1 reflect the costs for May through December as included in the Updated 2026 CAT Budget. The Budgeted CAT Costs 2026–1 are the costs used in calculating CAT Fee 2026–1.

BUDGETED CAT COSTS 2026–1

Budget category	Budgeted CAT costs 2026–1 ^b (<i>i.e.</i> , costs for May–December 2026)
Capitalized Developed Technology Costs ^a	^c \$3,450,000
Technology Costs	83,737,680
Cloud Hosting Services	^d 49,866,667
Operating Fees	^e 19,691,953
CAIS Operating Fees	^f 14,179,060
Change Request Fees	^g 0
Legal	^h 5,670,452
Consulting	ⁱ 1,025,957
Insurance	^j 852,768
Professional and administration	^k 749,151

²⁸ Section 11.3(a)(i)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission concluded that “the use of executed equivalent share volume provides an appropriate basis for the calculation of CAT fees.” CAT Funding Model Approval Order at 13413.

²⁹ Section 11.3(a)(i)(C) of the CAT NMS Plan.

³⁰ The Original 2026 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-12/12.08.25-CAT-LLC-2026-Financial_and_Operating_Budget.pdf).

³¹ The version of the Updated 2026 CAT Budget set forth on the CAT website is presented on a

quarterly basis, but is prepared based on more granular detail. The costs for May and June are estimated based on two-thirds of costs for Q2 where the budgeted monthly amounts are consistent. For those cases in which the costs for a category vary from month to month in Q2, the specific budgeted amounts for May and June are noted.

³² CAT budgets for periods prior to 2025 were prepared on the cash basis of accounting, as such budgets were primarily used to determine the dollar amount of promissory notes from the Participants that were required to fund the ongoing operations of the CAT. Commencing in 2025, with the contemplated recovery of costs from Industry

Members and the Participants via CAT Fees, the Original 2025 CAT Budget was prepared on the accrual basis of accounting to properly match projected revenues with estimated expenses incurred. A cash basis budget reflects expenditures when paid, while an accrual basis budget reflects expenditures when incurred. In moving from a cash basis budget to an accrual basis budget, there is no double counting of expenses.

³³ Section 11.3(a)(iii)(B) of the CAT NMS Plan.

³⁴ Note that costs and related cost calculations provided in this filing may reflect minor variations from the budgeted costs due to rounding.

BUDGETED CAT COSTS 2026–1—Continued

Budget category	Budgeted CAT costs 2026–1 ^b (i.e., costs for May–December 2026)
Public relations	¹⁰ 0
Interest Income	^m (1,453,382)
Total Costs	94,032,626
Reserve (25% of Total Costs)	23,508,157
Total Costs and Reserve	117,540,783
Use of Existing Reserve	ⁿ (102,391,135)
Total Budgeted CAT Costs 2026–1	15,149,648

^a The non-cash amortization of these capitalized developed technology costs to be incurred during the CAT Fee 2026–1 Period have been appropriately excluded from the above table.³⁵

^b Budgeted CAT Costs 2026–1 described in this table of costs were determined based on an analysis of a variety of factors, including historical costs/invoices, estimated costs from respective vendors/service providers, contractual terms with vendors/service providers, anticipated service levels and needs, and discussions with vendors and Participants.

^c This cost number for capitalized developed technology costs reflects (1) capitalized developed technology costs of \$3,450,000 for May, \$0 for June and \$0 for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget; and (2) \$0 for the Software License Fee 2026 for the second, third, and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\$3,450,000 + \$0 + \$0 + \$0) + (\$0 + \$0 + \$0) = \$3,450,000$.

^d This cost number for cloud hosting services reflects two-thirds of the cloud hosting services costs for the second quarter and the cloud hosting services for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$18,700,000) + \$18,700,000 + \$18,700,000 = \$49,866,667$.

^e This cost number for operating fees reflects (1) two-thirds of the Non-CAIS fixed operating fees for the second quarter and the Non-CAIS fixed operating fees for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget and (2) two-thirds of the market data vendor fees for the second quarter and the market data vendor fees for the third and fourth quarter of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$7,191,853) + \$7,191,853 + \$7,191,853 + (\frac{2}{3} \times \$192,630) + \$192,630 + \$192,630 = \$19,691,953$.

^f This cost number for CAIS operating fees reflects two-thirds of the CAIS fixed operating fees for the second quarter and the CAIS fixed operating fees for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$5,317,147) + \$5,317,147 + \$5,317,147 = \$14,179,060$.

^g This \$0 cost number for change requests reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

^h This cost number for legal services reflects two-thirds of the legal costs for the second quarter and the legal costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

ⁱ This cost number for consulting services reflects two-thirds of the consulting costs for the second quarter and the consulting costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$384,734) + \$384,734 + \$384,734 = \$1,025,957$.

^j This cost number for insurance reflects two-thirds of the insurance costs for the second quarter and the insurance costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$300,977) + \$321,042 + \$331,074 = \$852,768$.

^k This cost number for professional and administration services reflects two-thirds of the professional and administration costs for the second quarter and the professional and administration costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$280,932) + \$280,932 + \$280,932 = \$749,151$.

^l This \$0 cost number of change requests reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

^m This interest income reflects interest income (net of bank fees) of \$517,208 for May and June and interest income (net of bank fees) for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $\$517,208 + \$571,010 + \$365,164 = \$1,453,382$. Note that interest income for May and June 2026 of \$517,208 is slightly less than two-thirds of \$809,598 (which is \$539,732) for the second quarter as the amount of interest income varies from month to month.

ⁿ This amount for the use of the existing reserve is calculated by subtracting from the Accrued Liquidity Reserve Balance as of the Beginning of the Year in the Updated 2026 CAT Budget the 25% Incremental Liquidity Reserve Accrued during 2026 for the first quarter and for April of 2026 as included in the Updated 2026 CAT Budget: $\$155,403,378 - (\$41,800,153 + \$11,212,091) = \$102,391,135$. Note that the 25% Incremental Liquidity Reserved Accrued during 2026 for April 2026 of \$11,212,091 is slightly more than one-third of \$33,366,432 (which is \$11,122,144) for the second quarter as the amount of the 25% Incremental Liquidity Reserved Accrued during 2026 varies from month to month.

To the extent that CAT LLC enters into notes with Participants or others to pay costs incurred during the period in which CAT Fee 2026–1 is in effect, CAT LLC will use the proceeds from CAT Fee 2026–1 and the related Participant CAT fees to repay such notes.

The following table compares the annual budgeted CAT costs as set forth in the updated annual CAT budget for

2025 approved by the Operating Committee in May 2025 (“May Updated 2025 CAT Budget”),³⁶ the updated annual CAT budget for 2025 approved by the Operating Committee in November 2025 (“November Updated 2025 CAT Budget”),³⁷ the Original 2026 CAT Budget and the Updated 2026 CAT Budget, and is provided for

informational purposes. In each case, the costs provided reflect the costs for the entire year for each of the budgets; this differs from the above chart which focuses on budgeted costs for the period from May 1, 2026 through December 31, 2026, which, as noted, are the costs that are used in the calculation of the fee rate in this fee filing.

³⁵ With respect to certain costs that were “appropriately excluded,” such excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already been otherwise reflected in the filing, their inclusion would double count the capitalized

technology costs. In addition, amortization is a non-cash expense.

³⁶ The May Updated 2025 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-05/05.19.25-CAT-LLC-2025-Financial_and_Operating-Budget.pdf).

³⁷ The November Updated 2025 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-12/12.22.25_CAT-LLC-2025-Finacial_and_Operating-Budget.pdf).

COMPARISON OF FULL YEAR BUDGETED COSTS

Budget category	Full year of 2025 budgeted CAT costs from updated 2025 CAT budget (May 2025)	Full year of 2025 budgeted CAT costs from updated 2025 CAT budget (Nov. 2025)	Full year of 2026 budgeted CAT costs from original 2026 CAT budget	Full year of 2026 budgeted CAT costs from updated 2026 CAT budget
Capitalized Developed Technology Costs ^a	\$4,871,962	\$5,163,991	\$8,228,827	\$8,378,964
Technology Costs	211,548,472	173,091,660	137,514,003	128,643,476
Cloud Hosting Services	159,230,937	122,084,811	81,900,006	77,529,362
Operating Fees ^b	30,817,686	29,932,001	34,345,413	29,845,524
CAIS Operating Fees	20,749,848	20,749,848	21,268,584	21,268,590
Change Request Fees	750,000	325,000	0	0
Legal	7,370,002	7,312,547	8,485,000	8,939,184
Consulting	1,749,998	1,750,000	1,550,000	1,550,000
Insurance	1,594,452	1,368,750	1,505,625	1,254,070
Professional and administration	1,193,090	1,392,679	1,145,500	1,085,500
Public relations	6,575	6,575	0	0
Interest Income	0	(2,510,223)	(1,995,958)	(2,806,325)
Total Annual CAT Costs ^c	228,334,551	187,575,979	156,432,998	147,044,869

^a This cost number is calculated by adding together the Capitalized Developed Technology Costs and the Software License Fee for each budget.

^b This cost number is calculated by adding together the Operating fees, the Cyber Insurance Premium Adjustment (if any) and market data vendor fees (if any separate fees) for each budget.

^c This total cost number does not include an amount for a reserve.

In addition, the following table compares the budgeted costs for January and February 2026 that were used in drafting the Original 2026 CAT Budget with the actual costs for January and February 2026 that were used in

drafting the Updated 2026 CAT Budget. The Original 2026 CAT Budget includes budgeted costs for January and February 2026, whereas the Updated 2026 CAT Budget includes actual costs for January and February 2026. The variance from

the budgeted costs for January and February 2026 to the actual costs for January and February 2026 are used in this filing in supporting the reasonableness of the estimates for each category of costs.

COMPARISON OF BUDGETED AND ACTUAL COSTS FOR JANUARY & FEBRUARY 2026

Budget category	Budgeted Costs for January & February 2026 (as used in drafting the original 2026 CAT budget)	Actual Costs for January & February 2026 (as used in drafting the updated 2026 CAT budget)	Variance from budgeted costs for January & February 2026 to actual costs for January & February of 2026
Capitalized Developed Technology Costs ^a	\$671,472	\$4,145,430	Increase by \$3,473,958. ^b
Technology Costs:	25,894,000	21,501,183	
Cloud Hosting Services	17,200,000	12,829,362	Decrease by \$4,370,638. ^c
Operating Fees	5,149,236	5,127,057	Decrease by \$22,179.
CAIS Operating Fees	3,544,764	3,544,764	No change.
Change Request Fees	0	0	No change.
Legal	1,424,166	1,838,617	Increase by \$414,451. ^d
Consulting	258,334	267,554	Increase by \$9,220.
Insurance	250,938	200,652	Decrease by \$50,286.
Professional and administration	190,916	149,061	Decrease by \$41,855.
Public relations	0	0	No change.
Interest Income	(758,343)	(757,527)	Decrease by \$816.
Total	27,931,483	27,344,970	Decrease by \$586,513.

^a This cost number for capitalized developed technology costs is calculated by adding together the capitalized developed technology costs and the software license fee for each budget.

^b The variance for capitalized developed technology costs is the result of costs related to the software license fee in accordance with the Plan Processor Agreement with FCAT.

^c This variance is attributable to lower than forecasted market volumes and the impact of lower processing costs due to shutting down certain functionalities.

^d The variance in legal costs is attributable to unanticipated issues that required additional legal efforts on behalf of CAT LLC that developed after the budget was created.

(i) Technology Costs—Cloud Hosting Services

(a) Description of Cloud Hosting Services Costs

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the cloud hosting services costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$49,866,667 in technology costs for cloud hosting services for the CAT Fee 2026–1 Period. The technology costs for cloud hosting services represent costs reasonably budgeted to be incurred for services provided by the cloud services provider for the CAT, Amazon Web Services, Inc. (“AWS”) during the CAT Fee 2026–1 Period.

In the agreement between CAT LLC and the Plan Processor for the CAT (“Plan Processor Agreement”), FINRA CAT, LLC (“FCAT”), AWS was named as the subcontractor to provide cloud hosting services. Under the Plan Processor Agreement, CAT LLC is required to pay FCAT the fees incurred by the Plan Processor for cloud hosting services provided by AWS as FCAT’s subcontractor on a monthly basis for the cloud hosting services, and FCAT, in turn, pays such fees to AWS. The fees for cloud hosting services were negotiated by FCAT on an arm’s length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the expected volume of data, the breadth of services provided and market rates for similar services. Services provided by AWS include storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as well as various environments for CAT, such as development, performance testing, test, and production environments. FCAT utilizes such cloud hosting services for a broad array of services for the CAT, such as data ingestion, data management, and analytic tools for the CAT. AWS performs cloud hosting services for both the CAT transaction database as well as the Reference Database (previously referred to as the Customer and Account Information System, or “CAIS”).³⁸ It is

anticipated that such cloud hosting services will continue during the CAT Fee 2026–1 Period.

The cost for AWS cloud services for the CAT is a function of the volume of CAT Data, largely as a result of the processing and storage of the CAT Data.³⁹ The greater the amount of CAT Data, the greater the cost of AWS services to CAT LLC. During the CAT Fee 2026–1 Period, it is expected that AWS would provide cloud hosting services for volumes of CAT Data far in excess of the volume predictions set forth in the CAT NMS Plan. The CAT NMS Plan states, when all CAT Reporters are submitting their data to the CAT, it “must be sized to receive[,] process and load more than 58 billion records per day,”⁴⁰ and that “[i]t is expected that the Central Repository will grow to more than 29 petabytes of raw, uncompressed data.”⁴¹ In contrast with those estimates, the Q3 2025 data volumes averaged 792 billion events per day. The highest peak data volume to date of 1.45 trillion events was recorded on April 7, 2025. The top five peak days were recorded in April 2025.

CAT LLC estimates that the budget for cloud hosting services costs during the CAT Fee 2026–1 Period will be approximately \$49,866,667.⁴² The budget for cloud hosting services costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the cloud hosting services costs for the second quarter and the cloud hosting services for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget.⁴³

CAT LLC estimated the budget for the cost for cloud hosting services for the CAT Fee 2026–1 Period based on an assumption of 35% annual year-over-year volume growth for the transaction database and an assumption of 5% annual year-over-year volume growth

2026) (“CAIS Amendment”). The SEC subsequently approved another amendment to the CAT NMS Plan to implement various cost savings measures that made further changes to the Reference Database. Securities Exchange Act Rel. No. 105107 (Mar. 27, 2026), 91 FR 16284 (Mar. 27, 2026) (“Cost Savings Amendment”).

³⁹ In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. For further discussion of the effect of processing timelines on cloud hosting costs, see Section 3(b)(2)(A)(i) below.

⁴⁰ Section 1.3 of Appendix D of the CAT NMS Plan, n.262.

⁴¹ Section 1.3 of Appendix D of the CAT NMS Plan.

⁴² See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁴³ This calculation is $(\frac{2}{3} \times \$18,700,000) + \$18,700,000 + \$18,700,000 = \$49,866,667$.

for the Reference Database. CAT LLC determined these growth assumptions in coordination with FCAT.⁴⁴

This process for estimating the budget for cloud hosting services costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the cloud hosting services costs for the Original 2026 CAT Budget.

The Original 2026 CAT Budget estimated a budget for cloud hosting services of \$17,200,000 for January and February 2026. The actual costs for cloud hosting services for January and February 2026, which are set forth in the Updated 2026 CAT Budget, were \$12,829,362. Therefore, the variance between budgeted and actual cloud hosting services costs for January and February 2026 was an approximate decrease of \$4,370,638 as a result of lower volumes and a change in functionality.⁴⁵ Accordingly, CAT LLC believes that the process for estimating the budgeted cloud hosting services costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for cloud hosting services costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the cloud hosting services costs from the Original 2026 Budget.⁴⁶ Specifically, the following describes the differences in the costs for cloud hosting services included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for cloud hosting services included in the

⁴⁴ Note that these growth rates are based on events processed and stored in the CAT. Executed transactions are a small subset of such events. As a result, the number of transactions in the CAT, and, hence, the number of executed equivalent shares, is not directly correlated with the number of events processed in the CAT or the costs of cloud hosting services for the CAT. Accordingly, the number of executed equivalent shares may stay relatively constant from year to year while the number of events processed and stored in the CAT may grow significantly.

⁴⁵ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁴⁶ The last Prospective CAT Fee, CAT Fee 2025–2, was implemented pursuant to the prior CAT funding model. Moreover, the final invoice for CAT Fee 2025–2 was sent in December 2025, and, therefore, there is a six-month gap between the final invoice for CAT Fee 2025–2 and the first invoice for CAT Fee 2026–1, which would be in June 2026. Accordingly, this filing describes the changes in the cloud hosting services costs from the Original 2026 Budget.

³⁸ On January 13, 2026, the SEC approved an amendment to the CAT NMS Plan relating to the Customer and Account Information System (referred to as “CAIS”). Effective with this amendment, CAIS has been renamed as the “Reference Database.” Securities Exchange Act Rel. No. 104586 (Jan. 13, 2026), 91 FR 2164 (Jan. 16,

Original 2026 CAT Budget were \$81,900,006, and the annual 2026 budgeted costs for cloud hosting services included in the Updated 2026 CAT Budget are \$77,529,362. Accordingly, budgeted annual costs for cloud hosting services decreased by \$4,370,644 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 5% reduction in cloud hosting services costs for the full year of 2026.⁴⁷ The budgeted decrease in costs for cloud hosting services reflects lower costs for January and February 2026 due to lower than forecasted market volumes in January and the impact of lower processing costs due to shutting down certain functionalities.

(ii) Technology Costs—Operating Fees

(a) Description of Operating Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the operating fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$19,691,953 in technology costs for operating fees for the CAT Fee 2026–1 Period. Operating fees are those fees paid by CAT LLC to FCAT as the Plan Processor to operate and maintain the CAT and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management as required by the CAT NMS Plan. Operating fees also include market data provider costs, as discussed below.

Plan Processor: FCAT. Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT a negotiated monthly fixed price for the operation of the CAT. This fixed price contract was negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity. It is anticipated that FCAT will provide a variety of services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Provide the CAT-related functions and services as the Plan Processor as required by SEC Rule 613 and the CAT

NMS Plan in connection with the operation and maintenance of the CAT;

- Address compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provide support to the Operating Committee, the Compliance Subcommittee and CAT working groups;
- Assist with interpretive efforts, exemptive requests and amendments regarding the CAT NMS Plan;
- Oversee the security of the CAT;
- Monitor the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provide support to subcontractors under the Plan Processor Agreement;
- Provide support in discussions with the Participants and the SEC and its staff;
- Operate the FINRA CAT Helpdesk;
- Facilitate communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administer the CAT website and all of its content;
- Maintain cyber security insurance related to the CAT;
- Assist with billing, collection and other CAT fee-related activity; and
- Provide technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

CAT LLC calculated the budget for the FCAT technology costs for operating fees for the CAT Fee 2026–1 Period based on the recurring monthly operating fees under the Plan Processor Agreement.

Market Data Provider: Algoseek. It is anticipated that the operating fees costs for the CAT Fee 2026–1 Period will include costs related to the receipt of certain market data for the CAT pursuant to an agreement between FCAT and Algoseek, LLC (“Algoseek”). CAT LLC determined that Algoseek would provide market data that included data elements set forth in Section 6.5(a)(ii) of the CAT NMS Plan, and that the fees were reasonable and in line with market rates for the market data received. All costs under the contract would be treated as a direct pass through cost to CAT LLC. CAT LLC estimated the budget for the costs for Algoseek for the CAT Fee 2026–1 Period based on the monthly rate set forth in the agreement between Algoseek and FCAT.

Operating Fee Estimates. CAT LLC estimates that the budget for operating fees during the CAT Fee 2026–1 Period

will be approximately \$19,691,953.⁴⁸ The budget for operating fees during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding (1) two-thirds of the Non-CAIS fixed operating fees for the second quarter and the Non-CAIS fixed operating fees for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget and (2) two-thirds of the market data vendor fees for the second quarter and the market data vendor fees for the third and fourth quarter of 2026 included in the Updated 2026 CAT Budget.⁴⁹

As discussed above, CAT LLC estimated the budget for the operating fees during the CAT Fee 2026–1 Period based on monthly rates set forth in the Plan Processor Agreement and the agreement with Algoseek. CAT LLC also recognized that the operating fees are generally consistent throughout the year. This process for estimating the budget for the operating fees for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the operating fees for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for operating fees of \$5,149,236 for January and February 2026, and the actual costs for operating fees for January and February 2026 were \$5,127,057. Therefore, the variance between budgeted and actual operating fees for this period was small—\$22,179.⁵⁰ Accordingly, CAT LLC believes that the process for estimating the budgeted operating fees for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for operating fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the operating fees from the Original 2026 Budget. Specifically, the following describes the differences in the costs for operating fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for operating fees included in the Original

⁴⁸ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁴⁹ This calculation is $((\frac{2}{3} \times \$7,191,853) + \$7,191,853 + \$7,191,853) + ((\frac{2}{3} \times \$192,630) + \$192,630 + \$192,630) = \$19,691,953$.

⁵⁰ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁴⁷ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

2026 CAT Budget were \$34,345,413, and the annual 2026 budgeted costs for operating fees included in the Updated 2026 CAT Budget are \$29,845,524. Accordingly, budgeted annual costs for operating fees decreased by \$4,499,889 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 13% reduction in operating fees for the full year of 2026.⁵¹ The budgeted decrease in costs for operating fees reflects the proposed amendments to the Plan Processor Agreement related to the recent cost savings amendments to the CAT NMS Plan.⁵²

(iii) Technology Costs—CAIS Operating Fees

(a) Description of CAIS Operating Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the CAIS operating fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$14,179,060 in technology costs for CAIS operating fees for the CAT Fee 2026–1 Period. CAIS operating fees represent the fees paid to FCAT for services provided with regard to the operation and maintenance of the Reference Database (previously referred to as CAIS), and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. The CAT is required under the CAT NMS Plan to capture and store Reference Data in the Reference Database and to create a CAT-Customer-ID for each Customer.⁵³

During the CAT Fee 2026–1 Period, it is anticipated that FCAT will provide services related to the Reference Database. Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT for services related to the Reference Database provided by FCAT on a monthly basis. CAT LLC negotiated the fees for FCAT's services related to the Reference Database on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors,

including the services to be provided and market rates for similar types of activity. During the CAT Fee 2026–1 Period, it is anticipated that FCAT will continue to provide services relating to the ongoing operation, maintenance and support of the Reference Database.

CAT LLC estimates that the budget for CAIS operating fees during the CAT Fee 2026–1 Period will be approximately \$14,179,060.⁵⁴ The budget for CAIS operating fees during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the CAIS fixed operating fees for the second quarter and the CAIS fixed operating fees for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁵⁵

CAT LLC calculated the budget for FCAT's services related to the Reference Database for the CAT Fee 2026–1 Period based on the recurring monthly CAIS operating fees under the Plan Processor Agreement. This process for estimating the budget for the CAIS operating fees for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the CAIS operating fees for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget of \$3,544,764 for CAIS operating fees for January and February of 2026. The actual costs for CAIS operating fees for January and February of 2026, which are included in the Updated 2026 CAT Budget, were \$3,544,764. There was no variance between budgeted and actual CAIS operating fees for the first two months of 2026.⁵⁶ Accordingly, CAT LLC believes that the process for estimating the budgeted CAIS operating fees for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for CAIS operating fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the CAIS operating fees from the Original 2026 Budget. Specifically, the following describes the differences in the costs for CAIS operating fees included in the Original 2026 CAT

Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

CAIS operating fees are based on a recurring monthly rate payable to FCAT and are unchanged from the Original 2026 CAT Budget to the Updated 2026 CAT Budget. The annual 2026 budgeted costs for CAIS operating fees included in the Original 2026 CAT Budget were \$21,268,584, and the annual 2026 budgeted costs for CAIS operating fees included in the Updated 2026 CAT Budget are \$21,268,590.⁵⁷ Accordingly, the budgeted annual costs for CAIS operating fees are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(iv) Technology Costs—Change Request Fees

(a) Description of Change Request Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the change request fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$0 in technology costs for change request fees for the CAT Fee 2026–1 Period. The technology costs related to change request fees include costs related to certain modifications, upgrades or other changes to the CAT.

Change requests are standard practice and necessary to reflect operational changes, including changes related to new market developments, such as new market participants. In general, if CAT LLC determines that a modification, upgrade or other changes to the functionality or service is necessary and appropriate, CAT LLC will submit a request for such a change to the Plan Processor. The Plan Processor will then respond to the request with a proposal for implementing the change, including the cost (if any) of such a change. CAT LLC then determines whether to approve the proposed change.

The change request budget line is established to include expected costs to be incurred in which the nature of the costs (i.e., capitalization versus expensing) have not yet been determined. Upon the incurrence of such costs, the final determination of capitalization versus expensing is determined and then such costs are reclassified from the change request line to the appropriate technology cost line item.

CAT LLC estimates that the budget for change requests during the CAT Fee 2026–1 Period will be approximately

⁵¹ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

⁵² See CAIS Amendment and Cost Savings Amendment.

⁵³ See Section 9 of Appendix D of the CAT NMS Plan.

⁵⁴ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

⁵⁵ This calculation is $(\frac{2}{3} \times \$5,317,147) + \$5,317,147 + \$5,317,147 = \$14,179,060$.

⁵⁶ See chart entitled "Comparison of Budgeted and Actual Costs for January & February 2026" in Section 3(a)(2)(C) above.

⁵⁷ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

\$0.⁵⁸ The budget for change requests during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. This \$0 cost number for change request fees reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

CAT LLC estimated the budget for the potential change requests for the CAT Fee 2026–1 Period based on, among other things, a review of past change requests and potential future change request needs, as well as discussions with FCAT. This process for estimating the budget for the change requests for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the change requests cost for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a change request budget of \$0 for January and February of 2026. The actual costs for change requests for January and February of 2026, which are set forth in the Updated 2026 CAT Budget, were \$0. There was no variance between budgeted and actual change request costs for January and February of 2026.⁵⁹ Accordingly, CAT LLC believes that the process for estimating the budgeted change request costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for change request fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the change request fees from the Original 2026 Budget. Specifically, the following describes the differences (if any) in the costs for change request fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for change requests included in the Original 2026 CAT Budget were \$0, and the annual 2026 budgeted costs for change requests included in the Updated 2026 CAT Budget are \$0.⁶⁰ Accordingly, budgeted annual costs for change requests are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(v) Technology Costs—Capitalized Developed Technology Costs

(a) Description of Capitalized Developed Technology Costs

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the capitalized developed technology costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes \$3,450,000 in technology costs for capitalized developed technology costs for the CAT Fee 2026–1 Period. This category of costs includes the budget for capitalizable application development costs incurred in the development of the CAT. It is anticipated that such costs will include certain costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT, as well as costs related to a set of technology changes to be implemented by FCAT related to the cost savings amendments⁶¹ and the move to 23 × 5 trading.

CAT LLC estimates that the budget for capitalized developed technology costs during the CAT Fee 2026–1 Period will be approximately \$3,450,000.⁶² The budget for capitalized developed technology costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding (1) capitalized developed technology costs of \$3,450,000 for May, \$0 for June and \$0 for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget; and (2) \$0 for the Software License Fee 2026 for the second, third, and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁶³

CAT LLC estimated the budget for capitalized developed technology costs for the CAT Fee 2026–1 Period based on an analysis of a variety of factors, including information related to potential technology costs and related contractual and Plan requirements, and discussions with FCAT regarding such potential technology costs. This process for estimating the budget for capitalized developed technology costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the capitalized developed technology costs for the Original 2026 CAT Budget. The

Original 2026 CAT Budget estimated a budget for capitalized developed technology costs of \$671,472 for January and February 2026, and the actual costs for capitalized developed technology costs for January and February 2026 were \$4,145,430.⁶⁴ The variance of \$3,473,958 for January and February 2026 is the result of costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT. Accordingly, CAT LLC believes that the process for estimating the budgeted capitalized developed technology costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for capitalized developed technology costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the capitalized developed technology costs from the Original 2026 Budget. Specifically, the following describes the differences in the costs for capitalized developed technology costs as included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budget for capitalized developed technology costs included in the Original 2026 CAT Budget was \$8,228,827, and the annual 2026 budget for capitalized developed technology costs included in the Updated 2026 CAT Budget are \$8,378,964.⁶⁵ Accordingly, the annual budget for capitalized developed technology costs increased by \$150,137 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 2% increase in the capitalized developed technology costs for the full year of 2026. This budgeted increase in the annual budget for capitalized developed technology costs was the result of costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT.

(vi) Legal Costs

(a) Description of Legal Costs

Section 11.3(a)(iii)(B)(B)(2) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief

⁵⁸ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁵⁹ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶⁰ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁶¹ See CAIS Amendment and Cost Savings Amendment.

⁶² See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁶³ This calculation is $(\$3,450,000 + \$0 + \$0 + \$0) + (\$0 + \$0 + \$0) = \$3,450,000$. Note that the \$4,178,964 cost for the software license fee was not included in the CAT Fee 2026–1 Period.

⁶⁴ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶⁵ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

description of the legal costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes \$5,670,452 in legal costs for the CAT Fee 2026–1 Period. This category of costs represents budgeted costs for legal services for this period. CAT LLC anticipates that it will receive legal services from two law firms, Wilmer Cutler Pickering Hale and Dorr LLP (“WilmerHale”) and Jenner & Block LLP (“Jenner”), during the CAT Fee 2026–1 Period.

Law Firm: WilmerHale. It is anticipated that legal costs during the CAT Fee 2026–1 Period will include costs related to the legal services performed by WilmerHale. CAT LLC anticipates that it will continue to employ WilmerHale during the CAT Fee 2026–1 Period based on, among other things, their expertise, long history with the project and recognition that the hourly fee rates for this law firm are anticipated to be in line with market rates for specialized legal expertise. WilmerHale’s billing rates are negotiated on an annual basis and are determined with reference to the rates charged by other leading law firms for similar work. The Participants assess WilmerHale’s performance and review prospective budgets and staffing plans submitted by WilmerHale on an annual basis. The legal fees will be paid by CAT LLC to WilmerHale.

During the CAT Fee 2026–1 Period, it is anticipated that WilmerHale will provide legal services related to the following:

- Assist with CAT fee filings and related funding issues;
- Draft exemptive requests from CAT NMS Plan requirements and/or proposed amendments to the CAT NMS Plan;
- Provide legal guidance with respect to interpretations of CAT NMS Plan requirements;
- Provide legal support for the Operating Committee, Compliance Subcommittee, working groups and Leadership Team;
- Draft SRO rule filings related to the CAT Compliance Rule;
- Manage corporate governance matters, including supporting Operating Committee meetings and preparing resolutions and consents;
- Assist with communications with the industry, including CAT Alerts and presentations;
- Provide guidance regarding the confidentiality of CAT Data;
- Assist with cost management analyses and proposals;
- Assist with commercial contract-related matters, including change orders

and amendments, Plan Processor Agreement items, and subcontract matters;

- Provide support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues;
- Provide legal guidance with respect to the CAT budgets;
- Provide background assistance to other counsel for CAT matters;
- Assist with legal responses related to third-party data requests; and
- Provide legal support regarding CAT policies and procedures.

CAT LLC estimated the budget for the legal costs for WilmerHale for the CAT Fee 2026–1 Period through an analysis of a variety of factors, including WilmerHale fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues.

Law Firm: Jenner. It is anticipated that legal costs during the CAT Fee 2026–1 Period will include costs related to the legal services performed by Jenner. CAT LLC anticipates that it will continue to employ Jenner during the CAT Fee 2026–1 Period based on, among other things, their expertise, history with the project and recognition that their hourly fee rates are in line with market rates for specialized legal expertise. The legal fees will be paid by CAT LLC to Jenner.

During the CAT Fee 2026–1 Period, it is anticipated that Jenner will continue to provide legal assistance to CAT LLC regarding certain litigation matters, including: (1) CAT LLC’s defense against a lawsuit filed in the Western District of Texas against the SEC Chair, the SEC and CAT LLC challenging the validity of Rule 613 and the CAT and alleging various constitutional, statutory, and common law claims;⁶⁶ (2) CAT LLC’s intervention in a lawsuit in the Eleventh Circuit filed by various parties against the SEC challenging the SEC’s approval of the CAT Funding Model;⁶⁷ and (3) a lawsuit in the Eleventh Circuit filed by Citadel Securities LLC seeking review of the SEC’s May 20, 2024 order⁶⁸ granting the Participants temporary conditional exemptive relief related to the reporting of bids and/or offers made in response to a request for quote or other form of solicitation response provided in standard electronic format that is not immediately actionable.⁶⁹ Litigation

⁶⁶ *Davidson et al. v. Atkins et al.*, Case No. 6:24–cv–197 (W.D. Tex.).

⁶⁷ *Am. Sec. Ass’n v. SEC*, Case No. 26–10936 (11th Cir.).

⁶⁸ Securities Exchange Act Rel. No. 100181 (May 20, 2024), 89 FR 45715 (May 23, 2024).

⁶⁹ *Citadel Securities v. SEC*, Case No. 24–12300 (11th Cir.).

involving CAT LLC is an expense of operating the CAT, and, therefore, is appropriately an obligation of both Participants and Industry Members under the CAT Funding Model. Jenner also will continue to provide legal counseling to CAT LLC related to the above-listed litigation and other litigation risk.

CAT LLC estimated the budget for the legal costs for Jenner for the CAT Fee 2026–1 Period through an analysis of a variety of factors, including Jenner’s fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues.

Legal Cost Estimates. CAT LLC estimates that the budget for legal services during the CAT Fee 2026–1 Period will be approximately \$5,670,452.⁷⁰ The budget for legal services during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding budgeted costs for two-thirds of the legal costs for the second quarter and the legal costs for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁷¹

CAT LLC estimated the budget for the legal services for the CAT Fee 2026–1 Period based on an analysis of a variety of factors, including law firm fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues. This process for estimating the budget for the legal services for CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the legal cost for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for legal costs of \$1,424,166 for January and February of 2026. The actual costs for legal services for January and February 2026, which are included in the Updated 2026 Budget, were \$1,838,617.⁷² The increase of \$414,451 was due to unanticipated issues that required additional legal efforts on behalf of CAT LLC that developed after the budget was created. Such additional costs were primarily due to additional legal work related to litigation matters as well as regulatory and corporate legal matters. Accordingly, CAT LLC believes that the process for estimating the budgeted legal costs for the CAT Fee 2026–1 Period is reasonable.

⁷⁰ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷¹ This calculation is $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

⁷² See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for legal costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the legal costs from the Original 2026 Budget. Specifically, the following describes the differences in the legal costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted legal costs included in the Original 2026 CAT Budget were \$8,485,000, and the annual 2026 budgeted legal costs included in the Updated 2026 CAT Budget are \$8,939,184.⁷³ Accordingly, the annual budget for legal costs increased by \$454,184 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 5% increase in the legal costs for the full year of 2026. This budgeted increase in the legal costs in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to an anticipated increase in legal costs related to litigation matters as well as regulatory and corporate legal matters.

(vii) Consulting Costs

(a) Description of Consulting Costs

Section 11.3(a)(iii)(B)(B)(3) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the consulting costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$1,025,957 in consulting costs for the CAT Fee 2026–1 Period. The consulting costs represent the fees estimated to be paid to the consulting firm Deloitte & Touche LLP (“Deloitte”) as project manager during the CAT Fee 2026–1 Period. The services provided by Deloitte to the CAT include advisory services related to the operation of the CAT, and meeting facilitation and communications coordination, vendor support and financial analyses. In addition, the consulting costs include the compensation for the Chair of the CAT Operating Committee.

It is anticipated that the costs for CAT during the CAT Fee 2026–1 Period will include costs related to consulting services performed by Deloitte. CAT LLC anticipates that it will continue to employ Deloitte during the CAT Fee

2026–1 Period based on, among other things, their expertise, long history with the project, and the recognition that it is anticipated that the consulting fees will remain in line with market rates for this type of specialized consulting work. Deloitte’s fee rates are negotiated on an annual basis. CAT LLC assesses Deloitte’s performance and reviews prospective budgets and staffing plans submitted by Deloitte on an annual basis. The consulting fees will be paid by CAT LLC to Deloitte.

It is anticipated that Deloitte will provide a variety of consulting services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Implement program operations for the CAT project;
- Provide support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;
- Assist with cost and funding matters for the CAT, including assistance with loans and the CAT bank account for CAT funding;
- Provide support for updating the SEC on the progress of the development of the CAT; and
- Provide support for third party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

In addition, the consulting costs include the compensation for the Chair of the CAT Operating Committee, which is paid by CAT LLC.

CAT LLC estimates that the budget for consulting costs during the CAT Fee 2026–1 Period will be approximately \$1,025,957.⁷⁴ The budget for consulting costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the consulting costs for the second quarter and the consulting costs for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁷⁵

CAT LLC estimates the budget for the consulting costs for Deloitte for the CAT Fee 2026–1 Period based on the current statement of work with Deloitte, which took into consideration past consulting costs, potential future consulting needs, the proposed rates and other contractual issues, and discussions with Deloitte, as well as the compensation arrangement for the Chair. This process for

estimating the budget for consulting costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the consulting costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for consulting services of \$258,334 for January and February 2026, and the actual costs for consulting services for January and February 2026, which are included in the Updated 2026 CAT Budget, were \$267,554.⁷⁶ Therefore, the variance between budgeted and actual consulting costs for January and February was approximately 4%. Accordingly, CAT LLC believes that the process for estimating the budgeted consulting costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for consulting costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the consulting costs from the Original 2026 Budget. Specifically, the following describes the differences (if any) in the consulting costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budget for consulting costs included in the Original 2026 CAT Budget was \$1,550,000, and the annual 2026 budget for consulting costs included in the Updated 2026 CAT Budget is \$1,550,000.⁷⁷ Accordingly, the annual budget for consulting costs has not changed from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026.

(viii) Insurance Costs

(a) Description of Insurance Costs

Section 11.3(a)(iii)(B)(B)(4) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the insurance costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$852,768 in insurance costs for the CAT Fee 2026–1 Period.⁷⁸ The insurance costs represent the costs to be

⁷⁶ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁷⁷ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁷⁸ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷³ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁷⁴ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷⁵ This calculation is $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

incurred for insurance for the CAT during the CAT Fee 2026–1 Period.

It is anticipated that the insurance costs for CAT during the CAT Fee 2026–1 Period will include costs related to cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance brokered by USI Insurance Services LLC ("USI"). Such policies are standard for corporate entities, and cyber security liability insurance is important for the CAT System. CAT LLC anticipates that it will continue to maintain this insurance during the CAT Fee 2026–1 Period, and notes that the annual premiums for these policies were competitive for the coverage provided. CAT LLC estimated the budget for the insurance costs for the CAT Fee 2026–1 Period based on the insurance estimate from USI for 2026. The annual premiums would be paid by CAT LLC to USI.

The budgeted insurance costs for the CAT Fee 2026–1 Period are based on an insurance cost estimate from USI for 2026. Accordingly, CAT LLC believes that the process for estimating the budgeted insurance costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for insurance costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the insurance costs from the Original 2026 Budget. Specifically, the following describes the differences in the insurance costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted insurance costs included in the Original 2026 CAT Budget were \$1,505,625, and the annual 2026 budgeted insurance costs included in the Updated 2026 CAT Budget are \$1,254,070.⁷⁹ Accordingly, the annual budget for insurance costs decreased by \$251,555 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 16% decrease in the insurance costs for the full year of 2026. This budgeted decrease in the insurance costs in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to an anticipated decrease in insurance premiums.

(ix) Professional and Administration Costs

(a) Description of Professional and Administration Costs

Section 11.3(a)(iii)(B)(B)(5) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the professional and administration costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$749,151 in professional and administration costs for the CAT Fee 2026–1 Period. In adopting the CAT NMS Plan, the Commission amended the Plan to add a requirement that CAT LLC's financial statements be prepared in compliance with GAAP, audited by an independent public accounting firm, and made publicly available.⁸⁰ The professional and administration costs would include costs related to accounting and accounting advisory services to support the operating and financial functions of CAT, financial statement audit services by an independent accounting firm, preparation of tax returns, and various cash management and treasury functions. The professional and administration costs represent the fees to be paid to Anchin, Block & Anchin ("Anchin") and Grant Thornton LLP ("Grant Thornton") for financial services during the CAT Fee 2026–1 Period.

Financial Advisory Firm: Anchin. It is anticipated that the professional and administration costs for the CAT Fee 2026–1 Period will include costs related to financial advisory services performed by Anchin. CAT LLC anticipates that it will continue to employ Anchin during the CAT Fee 2026–1 Period based on, among other things, the firm's relevant expertise and fees, which are anticipated to remain in line with market rates for these financial advisory services. The fees for these services will be paid by CAT LLC to Anchin.

It is anticipated that Anchin will provide a variety of services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Update and maintain internal controls;
- Provide cash management and treasury functions;
- Facilitate bill payments to vendors;
- Facilitate repayments of promissory notes to Participants;
- Provide monthly bookkeeping;
- Review vendor invoices and documentation in support of cash disbursements;

- Review documentation to ensure that repayments of promissory notes to Participants are in accordance with established policies and procedures;
- Provide accounting research and consultations on various accounting, financial reporting and tax matters;
- Address not-for-profit tax and accounting considerations;
- Prepare tax returns;
- Address various accounting, financial reporting and operating inquiries from Participants;
- Develop and maintain annual and interim operating and financial budgets, including budget to actual and budget to budget fluctuation analyses;
- Support compliance with the CAT NMS Plan;
- Work with and provide support to the Operating Committee, Leadership Team and various CAT working groups;
- Prepare monthly, quarterly and annual financial statements;
- Review and reconcile the monthly FINRA CAT reports/analyses related to billings, collections, outstanding accounts receivable and cash account;
- Perform certain verification, completeness, and validation testing related to the monthly FINRA CAT reports/analyses related to billings;
- Support the annual financial statement audits by an independent auditor;
- Review historical costs from inception;
- Provide accounting and financial information in support of SEC filings; and
- Perform additional ad hoc accounting and financial advisory services, as requested by CAT LLC.

CAT LLC estimated the annual budget for the costs for Anchin based on historical costs adjusted for cost of living rate increases, and projected incremental advisory and support services.

Accounting Firm: Grant Thornton. It is anticipated that the professional and administration costs for the CAT Fee 2026–1 Period will include costs related to accounting services performed by Grant Thornton. CAT LLC anticipates that it will continue to employ Grant Thornton during the CAT Fee 2026–1 Period based on, among other things, the firm's relevant expertise and fees, which are anticipated to remain in line with market rates for these financial advisory services. It is anticipated that Grant Thornton will continue to be engaged as an independent accounting firm to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. The fees for these services will be paid by CAT LLC to Grant Thornton. CAT

⁷⁹ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

⁸⁰ Section 9.2 of the CAT NMS Plan.

LLC estimated the budget for the accounting costs for Grant Thornton for the CAT Fee 2026–1 Period based on the anticipated hourly rates and the anticipated services plus an administrative fee.

Professional and Administration Cost Estimates. CAT LLC estimates that the budget for professional and administration services during the CAT Fee 2026–1 Period will be approximately \$749,151.⁸¹ The budget for professional and administration services during the CAT Fee 2026–1 Period is based on the Updated 2026 CAT Budget. CAT LLC estimated the budget for the professional and administration costs for the CAT Fee 2026–1 Period based on a review of past professional and administration costs, potential future professional and administration needs, the proposed rates and other contractual issues, as well as discussions with Anchin and Grant Thornton. This process for estimating the budget for the professional and administration costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the professional and administration costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for professional and administration costs of \$190,916 for January and February 2026, and the actual costs for professional and administration services for January and February 2026, which are set forth in the Updated 2026 Budget, were \$149,061.⁸² The decrease of \$41,855 was due to a lower than expected professional and administration services costs and to the movement of bank fees from the professional and administration category to the interest income category. Accordingly, CAT LLC believes that the process for estimating the budgeted professional and administration costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for professional and administration costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the professional and administration costs from the Original 2026 Budget. Specifically, the following describes the

differences in the professional and administration costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted professional and administration costs as included in the Original 2026 CAT Budget were \$1,145,500, and the annual 2026 budgeted professional and administration costs included in the Updated 2026 CAT Budget are \$1,085,500.⁸³ Accordingly, the budgeted annual costs for professional and administration services decreased by \$60,000 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026. This budgeted decrease in the professional and administration costs in the Updated 2026 CAT Budget from the Original 2026 Budget was due to the movement of bank fees from the professional and administration category to the interest income category, and not a change in costs related to Anchin and Grant Thornton services.

(x) Public Relations Costs

(a) Description of Public Relations Costs

Section 11.3(a)(iii)(B)(B)(6) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the public relations costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$0 in public relations costs for the CAT Fee 2026–1 Period. The public relations costs would represent the fees paid to a public relations firm for professional communications services to CAT, including media relations consulting, strategy and execution. Because CAT LLC anticipates that it will not engage a public relations firm for the CAT Fee Period 2026–1, the budget for public relations costs for this period is \$0.⁸⁴

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for public relations costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the public relations costs from the Original 2026 Budget. Specifically, the following describes the differences (if any) in

public relations costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual budgeted public relations costs for 2026 included in the Original 2026 CAT Budget were \$0, and the annual budgeted public relations costs for 2026 included in the Updated 2026 CAT Budget are \$0.⁸⁵ Accordingly, the annual budgeted public relations costs for 2026 are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(xi) Interest Income

(a) Description of Interest Income

Section 11.1(a) of the CAT NMS Plan requires the CAT budget to include “the sources of all revenues to cover costs.” Accordingly, the Updated 2026 CAT Budget includes a line item for interest income. Specifically, the Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$1,453,382 in interest income for the CAT Fee 2026–1 Period.⁸⁶ Interest income represents the interest earned on the surplus reserve and other funds held by CAT LLC. Such income would be used to reduce the amount to be collected to fund the CAT.

CAT LLC estimates the budget for the interest income for the CAT Fee 2026–1 Period based on the estimate of the funds held by CAT LLC and the expected interest rates on such funds. The Original 2026 CAT Budget estimated interest income of \$758,343 for January and February 2026, and the actual interest income for January and February 2026, which are included in the Updated 2026 CAT Budget, were \$757,527.⁸⁷ As mentioned above, bank fees were moved from the professional and administration category in the Original 2026 CAT Budget to the interest income category in the Updated 2026 CAT Budget. Accordingly, the interest income amount for the Updated 2026 CAT Budget was net of \$10,000 in bank fees. Therefore, the variance between budgeted and actual interest income (aside from bank fees) for January and February 2026 was approximately \$10,000. Accordingly, CAT LLC believes that the process for estimating the budgeted interest income for the CAT Fee 2026–1 Period is reasonable.

⁸⁵ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁶ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸⁷ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁸¹ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸² See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁸³ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁴ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in each line item from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in interest income from the Original 2026 CAT Budget. Specifically, the following describes the differences in the interest income included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted interest income as included in the Original 2026 CAT Budget was \$1,995,958, and the annual 2026 budgeted interest income included in the Updated 2026 CAT Budget is \$2,806,325.⁸⁸ Accordingly, the budgeted interest income (not including bank fees) increased by \$810,367 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 40% increase in the interest income for the full year of 2026. This budgeted increase in the interest income in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to higher than expected cash balances being maintained after the approval of the Original 2026 Budget.

(xii) Reserve

(a) Description of Reserve

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the reserve costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes a reserve amount for 2026. Section 11.1(a)(i) of the CAT NMS Plan states that the budget shall include a reserve. Section 11.1(a)(ii) of the CAT NMS Plan further describes the reserve as follows:

For the reserve referenced in paragraph (a)(i) of this Section, the budget will include an amount reasonably necessary to allow the Company to maintain a reserve of not more than 25% of the annual budget. To the extent collected CAT fees exceed CAT costs, including the reserve of 25% of the annual budget, such surplus shall be used to offset future fees. For the avoidance of doubt, the Company will only include an amount for the reserve in the annual budget if the Company does not have a sufficient reserve

(which shall be up to but not more than 25% of the annual budget). For the avoidance of doubt, the calculation of the amount of the reserve would exclude the amount of the reserve from the budget.

CAT LLC determined to maintain a reserve in the amount of 25% of the total expenses set forth in the Updated 2026 CAT Budget (which does not include the reserve amount). Accordingly, the total 25% reserve of \$23,508,157 was calculated by multiplying the total expenses set forth in the Updated 2026 CAT Budget (other than the reserve) by 25%.⁸⁹

The Updated 2026 CAT Budget estimates that CAT LLC will have \$102,391,135 in reserve as of the beginning of the CAT Fee Period 2026–1. Such reserve is related, in part, to (i) the collection of CAT fees in excess of the budgeted CAT costs in light of the greater actual executed equivalent share volume than the projected executed equivalent share volume for prior CAT Fees, and (ii) a reduction in anticipated budgeted costs associated with the implementation of certain cost savings measures. This reserve balance of \$102,391,135 would be used to offset a portion of CAT costs for CAT Fee Period 2026–1, thereby reducing the fee rate to be paid for CAT Fee 2026–1. Specifically, the total costs (including the 25% reserve) for CAT Fee 2026–1 of \$117,540,783 would be reduced by the \$102,391,135 in reserve. Therefore, the Total Budgeted CAT Costs 2026–1 would be \$15,149,648.

Accordingly, the fee rate for CAT Fee 2026–1 is calculated based on this reduced amount of \$15,149,648, resulting in a fee rate of \$0.000001 per executed equivalent share. If the fee rate for CAT Fee 2026–1 were calculated solely based on the reasonably budgeted costs for CAT for May–December 2026, excluding the reduction in that amount due to the surplus reserve offset, the fee rate would be the higher rate of \$0.000010.⁹⁰

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for a reserve from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in reserve from the Original 2026 CAT Budget. Specifically, the following

describes the differences in the reserve included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The accrued liquidity reserve balance at the beginning of the year included in the Original 2026 CAT Budget was \$119,128,336. The Original 2026 CAT Budget contemplated using the reserve to pay CAT bills throughout the year as no CAT fee was in effect. The accrued liquidity reserve balance at the beginning of the year included in the Updated 2026 CAT Budget was \$155,403,378. The increase in the accrued liquidity reserve balance at the beginning of the year from the Original 2026 CAT Budget to the Updated 2026 CAT Budget reflected the additional CAT Fees that had been received after the approval of the Original 2026 CAT Budget. In addition, the Updated 2026 CAT Budget not only reflected the use of the surplus reserve to pay CAT bills but also the accrual of additional reserve to establish a 25% reserve through CAT Fee 2026–1. Accordingly, the estimated liquidity reserve balance increased from a deficit of \$37,304,661 included in the Original 2026 CAT Budget to a reserve balance of \$23,508,157 included in the Updated 2026 CAT Budget for the full year of 2026.

(D) Projected Total Executed Equivalent Share Volume

The calculation of Fee Rate 2026–1 also requires the determination of the projected total executed equivalent share volume of transactions in Eligible Securities for the CAT Fee 2026–1 Period. Under the CAT NMS Plan, the Operating Committee is required to “reasonably determine the projected total executed equivalent share volume of all transactions in Eligible Securities for each relevant period based on the executed equivalent share volume of all transactions in Eligible Securities for the prior twelve months.”⁹¹ The Operating Committee is required to base its projection on the prior twelve months, but it may use its discretion to analyze the likely volume for the upcoming year. Such discretion would allow the Operating Committee to use its judgment when estimating projected total executed equivalent share volume if the volume over the prior twelve months was unusual or otherwise unfit to serve as the basis of a future volume estimate.⁹²

The total executed equivalent share volume of transactions in Eligible Securities for the 12-month period from March 2025 through February 2026 was

⁸⁸ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁹ The reserve was calculated by multiplying \$94,032,626 by 25%, which equals approximately \$23,508,157.

⁹⁰ See CAT Fee Alert 2026–1 (Apr. 1, 2026).

⁹¹ Section 11.3(a)(i)(D) of the CAT NMS Plan.

⁹² CAT Funding Model Approval Order at 13452.

5,980,937,549,360.49 executed equivalent shares. The Operating Committee has determined to calculate the projected total executed equivalent share volume for the eight-month recovery period for CAT Fee 2026–1 by multiplying by 8/12ths the executed equivalent share volume for the 12-month period from March 2025 through February 2026. The Operating Committee determined that such an approach was reasonable as the CAT’s annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.41), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level. Accordingly, the projected total executed equivalent share volume for the eight-month period for CAT Fee 2026–1 is projected to be 3,987,291,699,573.66 executed equivalent shares.⁹³

The projected total executed equivalent share volume of all transactions in Eligible Securities for the eight-month recovery period for CAT Fee 2026–1 and a description of the calculation of the projection is provided in this filing in accordance with the requirement in the CAT NMS Plan to provide such information in a fee filing for a CAT Fee.⁹⁴

(E) Fee Rate 2026–1

Fee Rate 2026–1 would be calculated by dividing the Budgeted CAT Costs 2026–1 by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the eight-month recovery period for CAT Fee 2026–1, as described in detail above.⁹⁵ Specifically, Fee Rate 2026–1 would be calculated by dividing \$15,149,648 by 3,987,291,699,573.66 executed equivalent shares. As a result, Fee Rate 2026–1 would be \$0.000003799483243631228 per executed equivalent share. Fee Rate 2026–1 is provided in this filing in accordance with the requirement in the

CAT NMS Plan to provide the Fee Rate in a fee filing for a CAT Fee.⁹⁶

Fee Rate 2026–1 would be used to calculate the fee rate to be paid by CEBBs and CEBs for CAT Fee 2026–1. Such fee rate is calculated by multiplying Fee Rate 2026–1 of \$0.000003799483243631228 by one-third, and rounding the result to six decimal places.⁹⁷ Accordingly, the fee rate to be paid by CEBBs and CEBs for CAT Fee 2026–1 would be \$0.000001 per executed equivalent share.

(3) Monthly Fees

CEBBs and CEBs would be required to pay fees for CAT Fee 2026–1 on a monthly basis for eight months, from July 2026 until January 2027. A CEBB’s or CEBs’s fee for each month would be calculated based on the transactions in Eligible Securities executed by the CEBB or CEBs from the prior month.⁹⁸ Proposed paragraph (a)(6)(A) of the fee schedule would state that each CAT Executing Broker would receive its first invoice for CAT Fee 2026–1 in June 2026, and would receive an invoice for CAT Fee 2026–1 each month thereafter until January 2027. Proposed paragraph (a)(6)(B) of the fee schedule would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis.” In addition, paragraph (b)(1) of the fee schedule states that each CEBB and CEBs is required to pay its CAT fees “each month.”

(4) Consolidated Audit Trail Funding Fees

To implement CAT Fee 2026–1, the Exchange proposes to add a new paragraph to the “Consolidated Audit Trail Funding Fees” section of the Exchange’s fee schedule, to include the proposed paragraphs described below.

(A) Fee Schedule for CAT Fee 2026–1

The CAT NMS Plan states that: Each Industry Member that is the CAT Executing Broker for the buyer in a transaction in Eligible Securities (“CAT Executing Broker for the Buyer” or “CEBB”) and each Industry Member that is the CAT Executing Broker for the seller in a transaction in Eligible Securities (“CAT Executing Broker for the Seller” or “CEBS”) will be required

to pay a CAT Fee for each such transaction in Eligible Securities in the prior month based on CAT Data. The CEBB’s CAT Fee or CEBs’s CAT Fee (as applicable) for each transaction in Eligible Securities will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Fee Rate reasonably determined pursuant to paragraph (a)(i) of this Section 11.3.⁹⁹

Accordingly, based on the factors discussed above, the Exchange proposes to add paragraph (a)(6) to the Consolidated Audit Trail Funding Fees section of its fee schedule. Proposed paragraph (a)(6) would state the following:

(A) Each CAT Executing Broker shall receive its first invoice for CAT Fee 2026–1 in June 2026, which shall set forth the CAT Fee 2026–1 fees calculated based on transactions in May 2026, and shall receive an invoice for CAT Fee 2026–1 for each month thereafter until January 2027.

(B) Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis. Each month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (“CEBB”) and/or the CAT Executing Broker for the Seller (“CEBS”) (as applicable) from the prior month as set forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000001 per executed equivalent share.

(C) Notwithstanding the last invoice date of January 2027 for CAT Fee 2026–1 in paragraph 6(A), CAT Fee 2026–1 shall continue in effect after January 2027, with each CAT Executing Broker receiving an invoice for CAT Fee 2026–1 each month, until a new subsequent CAT Fee is in effect with regard to Industry Members in accordance with Section 19(b) of the Exchange Act. Consolidated Audit Trail, LLC will provide notice when CAT Fee 2026–1 will no longer be in effect.

(D) Each CAT Executing Broker shall be required to pay each invoice for CAT Fee 2026–1 in accordance with paragraph (b).

As noted in the Plan amendment for the CAT Funding Model, “[a]s a practical matter, the fee filing would provide the exact fee per executed equivalent share to be paid for the CAT Fees, by multiplying the Fee Rate by one-third and describing the relevant

⁹³ This projection was calculated by multiplying 5,980,937,549,360.49 executed equivalent shares by 8/12ths.

⁹⁴ Section 11.3(a)(iii)(B) of the CAT NMS Plan.

⁹⁵ In approving the CAT Funding Model, the Commission stated that “[t]he manner in which the Fee Rate for Prospective CAT Costs will be calculated (*i.e.*, by dividing the CAT costs reasonably budgeted for the upcoming year by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the year) is appropriate.” CAT Funding Model Approval Order at 13435.

⁹⁶ See Section 11.3(a)(iii)(B)(A) of the CAT NMS Plan.

⁹⁷ This fee rate of \$0.000001 is calculated by multiplying the Fee Rate of \$0.000003799483243631228 by one-third and rounding this result (which equals \$0.000001266494414543743) to 6 decimal places.

⁹⁸ See proposed paragraph (a)(6)(B) of the fee schedule.

⁹⁹ Section 11.3(a)(iii)(A) of the CAT NMS Plan.

number of decimal places for the fee.”¹⁰⁰ Accordingly, proposed paragraph (a)(6)(B) of the fee schedule would set forth a fee rate of \$0.000001 per executed equivalent share. This fee rate is calculated by multiplying Fee Rate 2026–1 of \$0.000003799483243631228 by one-third, and rounding the result to six decimal places.¹⁰¹ The Operating Committee determined to use six decimal places to balance the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.

The proposed language in paragraph (a)(6)(A) of the fee schedule would describe when CAT Executing Brokers would receive their first monthly invoice for CAT Fee 2026–1. Specifically, CAT Executing Brokers would receive their first monthly invoice for CAT Fee 2026–1 in June 2026 and the fees set forth in that invoice would be calculated based on transactions executed in May 2026. The payment for the first invoice would be required within 30 days after the receipt of the first invoice (unless a longer period is indicated), as described in paragraph (b)(2) of the fee schedule.

Proposed paragraph (a)(6)(A) of the fee schedule also would describe the monthly cadence of the invoices for CAT Fee 2026–1. Specifically, after the first invoices are provided to CAT Executing Brokers in June 2026, invoices will be sent to CAT Executing Brokers each month thereafter until January 2027.

Proposed paragraph (a)(6)(B) of the fee schedule would describe the invoices for CAT Fee 2026–1. Proposed paragraph (a)(6)(B) of the fee schedule would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis.” Proposed paragraph (a)(6)(B) of the fee schedule also would describe the fees to be set forth in the invoices for CAT Fee 2026–1. Specifically, it would state that “[e]ach month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (‘CEBB’) and/or the CAT Executing Broker for the Seller (‘CEBS’) (as applicable) from the prior month as set forth in CAT Data. The fee for each such

transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000001 per executed equivalent share.”

Since CAT Fee 2026–1 is a monthly fee based on actual transaction volume from the prior month, CAT Fee 2026–1 may collect more or less than two-thirds of the Budgeted CAT Costs 2026–1. To the extent that CAT Fee 2026–1 collects more than two-thirds of the Budgeted CAT Costs 2026–1, any excess money collected will be used to offset future fees and/or to fund the reserve for the CAT. To the extent that CAT Fee 2026–1 collects less than two-thirds of the Budgeted CAT Costs 2026–1, the budget for the CAT in the ensuing months will reflect such shortfall.

Furthermore, proposed paragraph (a)(6)(C) of the fee schedule would describe how long CAT Fee 2026–1 would remain in effect. It would state that “[n]otwithstanding the last invoice date of January 2027 for CAT Fee 2026–1 in paragraph 6(A), CAT Fee 2026–1 shall continue in effect after January 2027, with each CAT Executing Broker receiving an invoice for CAT Fee 2026–1 each month, until a new subsequent CAT Fee is in effect with regard to Industry Members in accordance with Section 19(b) of the Exchange Act. Consolidated Audit Trail, LLC will provide notice when CAT Fee 2026–1 will no longer be in effect.”

Finally, proposed paragraph (a)(6)(D) of the fee schedule would set forth the requirement for the CAT Executing Brokers to pay the invoices for CAT Fee 2026–1. It would state that “[e]ach CAT Executing Broker shall be required to pay each invoice for CAT Fee 2026–1 in accordance with paragraph (b).”

(B) Manner of Payment

Paragraph (b)(1) of the “Consolidated Audit Trail Funding Fees” section of the fee schedule describes the manner of payment of Industry Member CAT fees. It states that “[e]ach CAT Executing Broker shall pay its CAT fees as required pursuant to paragraph (a) each month to the Consolidated Audit Trail, LLC in the manner prescribed by the Consolidated Audit Trail, LLC.” The CAT NMS Plan requires the Operating Committee to establish a system for the collection of CAT fees.¹⁰² The Plan Processor has established a billing system for CAT fees.¹⁰³ Accordingly,

CAT Executing Brokers would be required to pay CAT Fee 2026–1 in accordance with such system.

(C) Failure To Pay CAT Fees

The CAT NMS Plan further states that:

Participants shall require each Industry Member to pay all applicable fees authorized under this Article XI within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If an Industry Member fails to pay any such fee when due (as determined in accordance with the preceding sentence), such Industry Member shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of: (a) the Prime Rate plus 300 basis points; or (b) the maximum rate permitted by applicable law.¹⁰⁴

Paragraph (b)(2) of the fee schedule states that:

Each CAT Executing Broker shall pay the CAT fees required pursuant to paragraph (a) within thirty days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If a CAT Executing Broker fails to pay any such CAT fee when due, such CAT Executing Broker shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of (i) the Prime Rate plus 300 basis points, or (ii) the maximum rate permitted by applicable law.

The requirements of paragraph (b)(2) would apply to CAT Fee 2026–1.

(5) CAT Fee Details

The CAT NMS Plan states that:

Details regarding the calculation of a Participant or CAT Executing Broker's CAT Fees will be provided upon request to such Participant or CAT Executing Broker. At a minimum, such details would include each Participant or CAT Executing Broker's executed equivalent share volume and corresponding fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.¹⁰⁵

Such information would provide CEBBs and CEBSs with the ability to understand the details regarding the

¹⁰⁰ CAT Funding Model Approval Order at 13445, n.677.

¹⁰¹ This fee rate of \$0.000001 is calculated by multiplying the Fee Rate of \$0.000003799483243631228 by one-third, and rounding this result (which equals \$0.000001266494414543743) to 6 decimal places.

¹⁰² Section 11.4 of the CAT NMS Plan.

¹⁰³ The billing process and system are described in CAT Alert 2023–02 as well as in the CAT FAQs related to the billing of CAT fees, the Industry Member CAT Reporter Portal User Guide, the FCAT Industry Member Onboarding Guide, the FCAT Connectivity Supplement for Industry Members and

the CAT Billing Webinars (dated Sept. 28, 2023 and Nov. 7, 2023), each available on the CAT website.

¹⁰⁴ Section 11.4 of the CAT NMS Plan.

¹⁰⁵ Section 11.3(a)(iv)(A) of the CAT NMS Plan.

calculation of their CAT Fee.¹⁰⁶ CAT LLC will provide CAT Executing Brokers with these details regarding the calculation of their CAT Fees on their monthly invoice for the CAT Fees.

In addition, CAT LLC will make certain aggregate statistics regarding CAT Fees publicly available. Specifically, the CAT NMS Plan states that, “[f]or each CAT Fee, at a minimum, CAT LLC will make publicly available the aggregate executed equivalent share volume and corresponding aggregate fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.”¹⁰⁷ Such aggregate statistics will be available on the CAT website.

Furthermore, CAT LLC will make publicly available on the CAT website the total amount invoiced each month that CAT Fee 2026–1 is in effect as well as the total amount invoiced for CAT Fee 2026–1 for all months since its commencement. CAT LLC also will make publicly available on the CAT website the total costs to be collected from Industry Members for CAT Fee 2026–1.

(6) Financial Accountability Milestones

The CAT NMS Plan states that “[n]o Participant will make a filing with the SEC pursuant to Section 19(b) of the Exchange Act regarding any CAT Fee related to Prospective CAT Costs until the Financial Accountability Milestone related to Period 4 described in Section 11.6 has been satisfied.”¹⁰⁸ Under Section 1.1 of the CAT NMS Plan, a Financial Accountability Milestone is considered complete as of the date identified in the Participants’ Quarterly Progress Reports. As indicated by the Participants’ Quarterly Progress Report for the second and third quarter of 2024,¹⁰⁹ the Financial Accountability

Milestone related to Period 4 was satisfied on July 15, 2024. In addition, the satisfaction of the Financial Accountability Milestone related to Period 4 was described in detail in the fee filing for the first Prospective CAT Fee, CAT Fee 2024–1.¹¹⁰

(7) Participant Invoices

While CAT Fees charged to Industry Members become effective in accordance with the requirements of Section 19(b) of the Exchange Act,¹¹¹ CAT fees charged to Participants are implemented via an approval of the CAT fees by the Operating Committee in accordance with the requirements of the CAT NMS Plan.¹¹² On March 31, 2026, the Operating Committee approved the Participant fee related to CAT Fee 2026–1. Specifically, pursuant to the requirements of CAT NMS Plan,¹¹³ each Participant would be required to pay a CAT fee calculated using the fee rate of \$0.000001 per executed equivalent share, which is the same fee rate that applies to CEBBs and CEBSSs. Like CEBBs and CEBSSs, each Participant would be invoiced such CAT fees on a monthly basis for eight months, from June 2026 until January 2027, and each Participant’s fee for each month would be calculated based on the transactions in Eligible Securities executed on the applicable exchange (for the Participant exchanges) or otherwise than on an exchange (for FINRA) in the prior month. Accordingly, each Participant will receive its first invoice in June 2026, and would receive an invoice each month thereafter until January 2027. Like with the CAT Fee 2026–1 applicable to CEBBs and CEBSSs as described in proposed paragraph (a)(6)(C) of the fee schedule, notwithstanding the last invoice date of January 2027, Participants will continue to receive invoices for this fee each month until a new subsequent CAT Fee is in effect with regard to Industry Members. Furthermore, Section 11.4 of the CAT NMS Plan states that each Participant is required to pay such invoices as required by Section 3.7(b) of the CAT NMS Plan. Section 3.7(b) states, in part, that [e]ach Participant shall pay all fees or other amounts required to be paid under this Agreement within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise

indicated) (the “Payment Date”). The Participant shall pay interest on the outstanding balance from the Payment Date until such fee or amount is paid at a per annum rate equal to the lesser of: (i) Prime Rate plus 300 basis points; or (ii) the maximum rate permitted by applicable law.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the requirements of the Exchange Act. The Exchange believes that the proposed rule change is consistent with Section 6(b)(5) of the Act,¹¹⁴ which requires, among other things, that the Exchange’s rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest, and not designed to permit unfair discrimination between customers, issuers, brokers and dealers. The Exchange also believes that the proposed rule change is consistent with the provisions of Section 6(b)(4) of the Act,¹¹⁵ because it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers. The Exchange further believes that the proposed rule change is consistent with Section 6(b)(8) of the Act,¹¹⁶ which requires that the Exchange’s rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. These provisions also require that the Exchange be “so organized and [have] the capacity to be able to carry out the purposes” of the Act and “to comply, and . . . to enforce compliance by its members and persons associated with its members,” with the provisions of the Exchange Act.¹¹⁷ Accordingly, a reasonable reading of the Act indicates that it intended that regulatory funding be sufficient to permit an exchange to fulfill its statutory responsibility under the Act, and contemplated that such funding would be achieved through equitable assessments on the members, issuers, and other users of an exchange’s facilities.

The Exchange believes that this proposal is consistent with the Act because it implements provisions of the Plan and is designed to assist the

¹⁰⁶ In approving the CAT Funding Model, the Commission stated that, “[i]n the Commission’s view, providing CAT Execut[ing] Brokers information regarding the calculation of their CAT Fees will aid in transparency and permit CAT Execut[ing] Brokers to confirm the accuracy of their invoices for CAT Fees.” CAT Funding Model Approval Order at 13454.

¹⁰⁷ Section 11.3(a)(iv)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission stated that “[t]he publication of the aggregate executed equivalent share volume and aggregate fee is appropriate because it would allow Participants and CAT Executing Brokers a high-level validation of executed volume and fees.” CAT Funding Model Approval Order at 13454.

¹⁰⁸ Section 11.3(a)(iii)(C) of the CAT NMS Plan.

Exchange in meeting regulatory obligations pursuant to the Plan. In approving the Plan, the SEC noted that the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹¹⁸ To the extent that this proposal implements the Plan and applies specific requirements to Industry Members, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Act.

The Exchange believes that the proposed fees to be paid by the CEBBs and CEBBs are reasonable, equitably allocated and not unfairly discriminatory. First, the CAT Fee 2026–1 fees to be collected are directly associated with the budgeted costs of establishing and maintaining the CAT, where such costs include Plan Processor costs and costs related to technology, legal, consulting, insurance, and professional and administration costs.

The proposed CAT Fee 2026–1 fees would be charged to Industry Members in support of the maintenance of a consolidated audit trail for regulatory purposes. The proposed fees, therefore, are consistent with the Commission’s view that regulatory fees be used for regulatory purposes and not to support the Exchange’s business operations. The proposed fees would not cover Exchange services unrelated to the CAT. In addition, any surplus would be used as a reserve to offset future fees. Given the direct relationship between CAT fees and CAT costs, the Exchange believes that the proposed fees are reasonable, equitable and not unfairly discriminatory.

As further discussed below, the SEC approved the CAT Funding Model, finding it was reasonable and that it equitably allocates fees among Participants and Industry Members. The Exchange believes that the proposed fees adopted pursuant to the CAT Funding Model approved by the SEC are reasonable, equitably allocated and not unfairly discriminatory.

(1) Implementation of CAT Funding Model in CAT NMS Plan

Section 11.1(b) of the CAT NMS Plan states that “[t]he Participants shall file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves.” Per Section 11.1(b) of the

CAT NMS Plan, the Exchange has filed this fee filing to implement the Industry Member CAT fees included in the CAT Funding Model. The Exchange believes that this proposal is consistent with the Exchange Act because it is consistent with, and implements, the CAT Funding Model in the CAT NMS Plan, and is designed to assist the Exchange and its Industry Members in meeting regulatory obligations pursuant to the CAT NMS Plan. In approving the CAT NMS Plan, the SEC noted that the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹¹⁹ Similarly, in approving the CAT Funding Model, the SEC concluded that the CAT Funding Model met this standard.¹²⁰ As this proposal implements the Plan and the CAT Funding Model described therein, and applies specific requirements to Industry Members in compliance with the Plan, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Exchange Act.

(2) Calculation of Fee Rate for CAT Fee 2026–1 Is Reasonable

The SEC has determined that the CAT Funding Model satisfies the requirements of the Exchange Act. Specifically, the SEC has concluded that the method for determining CAT Fees as set forth in Section 11.3 of the CAT NMS Plan, including the formula for calculating the Fee Rate, the identification of the parties responsible for payment and the transactions subject to the fee rate for CAT Fees, satisfies the Exchange Act.¹²¹ In each respect, as discussed above, CAT Fee 2026–1 is calculated, and would be applied, in accordance with the requirements applicable to CAT Fees as set forth in the CAT NMS Plan. Furthermore, as discussed below, the Exchange believes that each of the figures for the variables in the SEC-approved formula for calculating the fee rate for CAT Fee 2026–1 is reasonable and consistent with the Exchange Act. The calculation of Fee Rate 2026–1 for CAT Fee 2026–1 requires the figures for Budgeted CAT Costs 2026–1, the executed equivalent share volume for the prior twelve months, the determination of the CAT Fee 2026–1 Period, and the projection of

the executed equivalent share volume for the CAT Fee 2026–1 Period. Each of these variables is reasonable and satisfies the Exchange Act, as discussed throughout this filing.

(A) Budgeted CAT Costs 2026–1

The formula for calculating a Fee Rate requires the amount of Budgeted CAT Costs to be recovered. Specifically, Section 11.3(a)(iii)(B) of the CAT NMS Plan requires a fee filing to provide: the budget for the upcoming year (or remainder of the year, as applicable), including a brief description of each line item in the budget, including (1) the technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees, and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration, and (6) public relations costs, a reserve and/or such other categories as reasonably determined by the Operating Committee to be included in the budget, and the reason for changes in each such line item from the prior CAT fee filing.

In accordance with this requirement, the Exchange has set forth the amount and type of Budgeted CAT Costs 2026–1 for each of these categories above.

Section 11.3(a)(iii)(B) of the CAT NMS Plan also requires that the fee filing provide “sufficient detail to demonstrate that the budget for the upcoming year, or part of year, as applicable, is reasonable and appropriate.” As discussed below, the Exchange believes that the budget for the CAT Fee 2026–1 Period is “reasonable and appropriate.” Each of the costs included in CAT Fee 2026–1 is reasonable and appropriate because the costs are consistent with standard industry practice, based on the need to comply with the requirements of the CAT NMS Plan, incurred subject to negotiations performed on an arm’s length basis, and/or is consistent with the needs of any legal entity, particularly one with no employees.

(i) Technology: Cloud Hosting Services

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover budgeted costs related to cloud hosting services as a part of CAT Fees.¹²² CAT LLC determined that the budgeted costs related to cloud hosting services described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. As described above, the cloud hosting services costs reflect, among other

¹¹⁹ *Id.*

¹²⁰ CAT Funding Model Approval Order at 13481.

¹²¹ *Id.*

¹²² Section 11.3(a)(iii)(B)(1) of the CAT NMS Plan.

¹¹⁸ CAT NMS Plan Approval Order at 84697.

things, the breadth of the CAT cloud activities, data volumes far in excess of the original volume estimates, the need for specialized cloud services given the volume and unique nature of the CAT, the processing time requirements of the Plan, and regular efforts to seek to minimize costs where permissible under the Plan. CAT LLC determined that use of cloud hosting services is necessary for implementation of the CAT, particularly given the substantial data volumes associated with the CAT, and that the fees for cloud hosting services negotiated by FCAT were reasonable, taking into consideration a variety of factors, including the expected volume of data and the breadth of services provided and market rates for similar services.¹²³ Indeed, the actual costs of the CAT are far in excess of the original estimated costs of the CAT due to various factors, including the higher volumes and greater complexity of the CAT than anticipated when Rule 613 was originally adopted.

To comply with the requirements of the Plan, the breadth of the cloud activities related to the CAT is substantial. The cloud services not only include the production environment for the CAT, but they also include two industry testing environments, support environments for quality assurance and stress testing and disaster recovery capabilities. Moreover, the cloud storage costs are driven by the requirements of the Plan, which requires the storage of multiple versions of the data, from the original submitted version of the data through various processing steps, to the final version of the data.

Data volume is a significant driver of costs for cloud hosting services. When the Commission adopted the CAT NMS Plan in 2016, it estimated that the CAT would need to receive 58 billion records per day¹²⁴ and that annual operating costs for the CAT would range from \$36.5 million to \$55 million.¹²⁵ In contrast to the 2016 projections, the actual daily Q3 2025 data volumes averaged 792 billion events per day.

In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. Although CAT LLC has proactively sought to manage cloud hosting costs while complying with the Plan, including through requests to the Commission for exemptive relief and amendments to the CAT NMS Plan to

reduce costs, stringent CAT NMS Plan requirements do not allow for any material flexibility in cloud architecture design choices, processing timelines (e.g., the use of non-peak processing windows), or lower-cost storage tiers. As a result, the required CAT processing timelines contribute to the cloud hosting costs of the CAT.

The costs for cloud hosting services also reflect the need for specialized cloud hosting services given the data volume and unique processing needs of the CAT. The data volume as well as the data processing needs of the CAT necessitate the use of cloud hosting services. The equipment, power and services required for an on-premises data model, the alternative to cloud hosting services, would be cost prohibitive. Moreover, as CAT was being developed, there were limited cloud hosting providers that could satisfy all the necessary CAT requirements, including the operational and security criteria. Over time, more providers offering cloud hosting services that would satisfy these criteria have entered the market. CAT LLC will continue to evaluate alternative cloud hosting services, recognizing that the time and cost to move to an alternative cloud provider would be substantial.

The reasonableness of the cloud hosting services costs is further supported by key cost discipline mechanisms for the CAT—a cost-based funding structure, cost transparency, cost management efforts (including regular efforts to lower compute and storage costs where permitted by the Plan) and oversight. Together, these mechanisms help ensure the ongoing reasonableness of the CAT's costs and the level of fees assessed to support those costs.¹²⁶

(ii) Technology: Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to operating fees as a part of CAT Fees.¹²⁷ CAT LLC determined that the budgeted costs related to operating fees described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1.

The operating fees would include the negotiated fees paid by CAT LLC to the Plan Processor to operate and maintain the system for order-related information and to perform business operations related to the system, including

compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the selection of FCAT as the Plan Processor was reasonable and appropriate given its expertise with securities regulatory reporting, after a process of considering other potential candidates.¹²⁸ CAT LLC also determined that the fixed price contract, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, was reasonable and appropriate, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity.¹²⁹ The services to be performed by FCAT for CAT Fee 2026–1 Period and the budgeted costs related to such services are described above.¹³⁰

The operating costs also include costs related to the receipt of market data. CAT LLC anticipates receiving certain market data from Algoseek during the CAT Fee 2026–1 Period. CAT LLC anticipates that Algoseek will provide data as set forth in the SIP Data requirements of the CAT NMS Plan and that the fees are reasonable and in line with market rates for market data received.¹³¹

(iii) Technology: CAIS Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to CAIS operating fees as a part of CAT Fees.¹³² CAT LLC determined that the budgeted costs related to CAIS operating fees described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. The CAIS operating fees would include the fees paid to the Plan Processor to operate and maintain the Reference Database and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the fees for FCAT's services related to the Reference Database, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS

Plan, taking into consideration a variety of factors, including the services to be provided and market rates for similar types of activity, are reasonable and appropriate.¹³³ The services to be performed by FCAT for the CAT Fee 2026–1 Period and the budgeted costs for such services are described above.¹³⁴

(iv) Technology: Change Request Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to change request fees as a part of CAT Fees.¹³⁵ CAT LLC determined that the budgeted costs related to change request fees described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. It is common practice to utilize a change request process to address evolving needs in technology projects. This is particularly true for a project like CAT that is the first of its kind, both in substance and in scale. The substance and costs of each of the change requests are evaluated by the Operating Committee and approved in accordance with the requirements for Operating Committee meetings. In each case, CAT LLC forecasts that the change requests will be necessary to implement the CAT. As described above,¹³⁶ CAT LLC determined that it was reasonable not to include any change request fees in the Budgeted CAT Costs 2026–1.

(v) Capitalized Developed Technology Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to capitalized developed technology costs as a part of CAT Fees.¹³⁷ In general, capitalized developed technology costs would include costs related to, for example, certain development costs, costs related to certain modifications, upgrades and other changes to the CAT and license fees. The amount and type of budgeted capitalized developed technology costs for the CAT Fee 2026–1 Period, which relate to the software license fee and technology changes to be implemented by FCAT, are described in more detail above.¹³⁸

(vi) Legal

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to legal

fees as a part of CAT Fees.¹³⁹ CAT LLC determined that the budgeted legal costs described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. Given the unique nature of the CAT, the number of parties involved with the CAT (including, for example, the SEC, Participants, Industry Members, and vendors) and the many regulatory, contractual and other issues associated with the CAT, the scope of the necessary legal services is substantial. CAT LLC determined that the scope of the proposed legal services is necessary to implement and maintain the CAT and that the legal rates reflect the specialized services necessary for such a project. CAT LLC determined to hire and continue to use each law firm based on a variety of factors, including their relevant expertise and fees. In each case, CAT LLC determined that the fee rates were in line with market rates for specialized legal expertise. In addition, CAT LLC determined that the budgeted costs for the legal projects were appropriate given the breadth of the services provided. The services to be performed by each law firm for the CAT Fee 2026–1 Period and the budgeted costs related to such services are described above.¹⁴⁰

(vii) Consulting

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted consulting costs as a part of CAT Fees.¹⁴¹ CAT LLC determined that the budgeted consulting costs described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. Because there are no CAT employees¹⁴² and because of the significant number of issues associated with the CAT, the consultants are budgeted to provide assistance in the management of various CAT matters and the processes related to such matters.¹⁴³ CAT LLC determined the budgeted consulting costs were appropriate, as the consulting services were to be provided at reasonable market rates that were comparable to the rates charged by other consulting firms for similar work. Moreover, the total budgeted costs for such consulting

services were appropriate in light of the breadth of services provided by Deloitte. The services budgeted to be performed by Deloitte and the budgeted costs related to such services are described above.¹⁴⁴

(viii) Insurance

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted insurance costs as a part of CAT Fees.¹⁴⁵ CAT LLC determined that the budgeted insurance costs described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. CAT LLC determined that it is common practice to have directors' and officers' liability insurance, and errors and omissions liability insurance. CAT LLC further determined that it was important to have cyber security insurance given the nature of the CAT, and such a decision is consistent with the CAT NMS Plan, which states that the cyber incident response plan may include "[i]nsurance against security breaches."¹⁴⁶ As discussed above,¹⁴⁷ CAT LLC determined that the budgeted insurance costs were appropriate given its prior experience with this market and an analysis of the alternative insurance offerings. Based on this analysis, CAT LLC determined that the selected insurance policies provided appropriate coverage at reasonable market rates.¹⁴⁸

(ix) Professional and Administration

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted professional and administration costs as a part of CAT Fees.¹⁴⁹ CAT LLC determined that the budgeted professional and administration costs described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. Because there are no CAT employees, all required accounting, financial, tax, cash management and treasury functions for CAT LLC have been outsourced at market rates. In addition, the required annual financial statement audit of CAT LLC is included in professional and administration costs, which costs are also at market rates. The services performed by Anchin and Grant Thornton and the costs

related to such services are described above.¹⁵⁰

CAT LLC anticipates continuing to make use of Anchin, a financial advisory firm, to assist with financial matters for the CAT. CAT LLC determined that the budgeted costs for Anchin were appropriate, as the financial advisory services were to be provided at reasonable market rates that were comparable to the rates charged by other such firms for similar work. Moreover, the total budgeted costs for such financial advisory services were appropriate in light of the breadth of services provided by Anchin. The services budgeted to be performed by Anchin and the budgeted costs related to such services are described above.¹⁵¹

CAT LLC anticipates continuing to make use of Grant Thornton, an independent accounting firm, to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. CAT LLC determined that the budgeted costs for Grant Thornton were appropriate, as the accounting services were to be provided at reasonable market rates that were comparable to the rates charged by other such firms for similar work. Moreover, the total budgeted costs for such accounting services were appropriate in light of the breadth of services provided by Grant Thornton. The services budgeted to be performed by Grant Thornton and the budgeted costs related to such services are described above.¹⁵²

(x) Public Relations Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted public relations costs as a part of CAT Fees.¹⁵³ However, as described above,¹⁵⁴ CAT LLC determined not to include any public relations costs in Budgeted CAT Costs 2026–1. CAT LLC determined that it was reasonable not to include any public relations costs in the Budgeted CAT Costs 2026–1.

(xi) Interest Income

Section 11.1(a) of the CAT NMS Plan requires the CAT budget to include “the sources of all revenues to cover costs.” Accordingly, the Updated 2026 CAT Budget includes a line item for interest income. Specifically, the Updated 2026 CAT Budget includes \$1,453,382 in interest income for the CAT Fee 2026–

1 Period.¹⁵⁵ CAT LLC determined that using interest income to reduce the amount to be collected via CAT Fees is reasonable and should be included as a part of the Budgeted CAT Costs 2026–1.

(xii) Reserve

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted reserve costs as a part of CAT Fees.¹⁵⁶ CAT LLC determined that the reserve in the amount of 25% of the Updated 2026 CAT Budget (other than the reserve) complies with the requirements of the CAT NMS Plan related to a reserve, is a reasonable amount, and, therefore, should be included as a part of the Updated 2026 CAT Budget.

In its approval order for the CAT Funding Model, the Commission stated that it would be appropriate for the annual operating budget for the CAT to “include a reserve of not more than 25% of the annual budget.”¹⁵⁷ In making this statement, the Commission noted the following:

Because the CAT is a critical regulatory tool/system, the CAT needs to have a stable funding source to build financial stability to support the Company as a going concern. Funding for the CAT, as noted in Section 11.1(b), is the responsibility of the Participants and the industry. Because CAT fees are charged based on the budget, which is based on anticipated volume, it is appropriate to have a reserve on hand to prevent a shortfall in the event there is an unexpectedly high volume in a given year. A reserve would help to assure that the CAT has sufficient resources to cover costs should there be unanticipated costs or costs that are higher than expected.¹⁵⁸

The SEC also recognized that a reserve would help address the difficulty in predicting certain variable CAT costs, like trading volume.¹⁵⁹ The SEC also recognized that CAT fees will be collected approximately three months after trading activity on which a CAT fee is based, or 25% of the year, and that the reserve would be available to address funding needs related to this three-month delay.¹⁶⁰ The inclusion of the proposed reserve in the Updated 2026 CAT Budget would provide each

of these benefits to the CAT. The reserve is discussed further above.¹⁶¹

As discussed further below,¹⁶² however, a surplus reserve balance in excess of the budgeted 25% reserve has been collected as of the beginning of the year of 2026. Accordingly, the Updated 2026 CAT Budget indicates that this surplus would be used to offset a portion of CAT costs for the CAT Fee 2026–1 Period, thereby reducing the fee rate for CAT Fee 2026–1 (\$0.000001 per executed equivalent share). If the fee rate for CAT Fee 2026–1 were calculated solely based on the reasonably budgeted costs for CAT for May–December 2026, excluding the reduction in that amount due to the surplus reserve offset, the fee rate would be \$0.000010 per executed equivalent share.

(B) Reconciliation of Budget to the Collected Fees

The CAT NMS Plan also requires fee filings for Prospective CAT Fees to include “a discussion of how the budget is reconciled to the collected fees.”¹⁶³ As discussed above,¹⁶⁴ this reserve balance of \$102,391,135 collected via prior CAT Fees would be used to offset a portion of CAT costs for CAT Fee Period 2026–1, thereby reducing the fee rate to be paid for CAT Fee 2026–1. Specifically, the total costs (including the 25% reserve) for CAT Fee 2026–1 of \$117,540,783 would be reduced by the \$102,391,135 in reserve. Therefore, the Total Budgeted CAT Costs 2026–1 would be \$15,149,648. Such surplus reserve balance would be used to reduce the fee rate for CAT Fee 2026–1 (\$0.000001 per executed equivalent share).

(C) Total Executed Equivalent Share Volume for the Prior 12 Months

The total executed equivalent share volume of transactions in Eligible Securities for the period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. CAT LLC determined the total executed equivalent share volume for the prior twelve months by counting executed equivalent shares in the same manner as it counts executed equivalent shares for CAT billing purposes.¹⁶⁵

(D) Projected Executed Equivalent Share Volume for the CAT Fee 2026–1 Period

CAT LLC has determined that the projected total executed equivalent

¹⁵⁵ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

¹⁵⁶ Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan.

¹⁵⁷ CAT Funding Model Approval Order at 13444.

¹⁵² *Id.*

¹⁵³ Section 11.3(a)(iii)(B)(B)(6) of the CAT NMS Plan.

¹⁵⁴ See Section 3(a)(2)(C)(x) above.

share volume for the eight months of the CAT Fee 2026–1 Period by multiplying by 8/12ths the executed equivalent share volume for the prior twelve months: 8/12 times

5,980,937,549,360.49 executed equivalent shares.¹⁶⁶ The Operating Committee determined that such an approach was reasonable as the CAT's annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.41), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level.

(E) Actual Fee Rate for CAT Fee 2026–1

(i) Decimal Places

As noted in the approval order for the CAT Funding Model, as a practical matter, the fee filing for a CAT Fee would provide the exact fee per executed equivalent share to be paid for each CAT Fee, by multiplying the Fee Rate by one-third and describing the relevant number of decimal places for the fee rate.¹⁶⁷ Accordingly, proposed paragraph (a)(6)(B) of the fee schedule would set forth a fee rate of \$0.000001 per executed equivalent share. This fee rate is calculated by multiplying Fee Rate 2026–1 by one-third and rounding the result to six decimal places. CAT LLC determined that the use of six decimal places is reasonable as it balances the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.¹⁶⁸

(ii) Reasonable Fee Level

The Exchange believes that charging CAT Fee 2026–1 with a fee rate of \$0.000001 per executed equivalent share is reasonable because it provides for a revenue stream for the Company that is aligned with the Budgeted CAT Costs 2026–1. Moreover, the Exchange believes that the level of the fee rate is reasonable, as it is less than CAT Fee 2025–2 and is comparable to other transaction-based fees, including fees assessed pursuant to Section 31.¹⁶⁹ As a result, the magnitude of CAT Fee 2026–1 is small, and therefore will

mitigate any potential adverse economic effects or inefficiencies.¹⁷⁰

(3) CAT Fee 2026–1 Provides for an Equitable Allocation of Fees

CAT Fee 2026–1 provides for an equitable allocation of fees, as it equitably allocates CAT costs between and among the Participants and Industry Members. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfied the requirements of the Exchange Act, including the formula for calculating CAT Fees as well as the Industry Members to be charged the CAT Fees.¹⁷¹ In approving the CAT Funding Model, the SEC stated that “[t]he Participants have sufficiently demonstrated that the proposed allocation of fees is appropriate and meets the Rule 608(b) approval standard.”¹⁷² Accordingly, the CAT Funding Model sets forth the requirements for allocating fees related to Budgeted CAT Costs among Participants and Industry Members, and the fee filings for CAT Fees must comply with those requirements.

CAT Fee 2026–1 provides for an equitable allocation of fees as it complies with the requirements regarding the calculation of CAT Fees as set forth in the CAT NMS Plan. For example, as described above, the calculation of CAT Fee 2026–1 complies with the formula set forth in Section 11.3(a) of the CAT NMS Plan. In addition, CAT Fee 2026–1 would be charged to CEBBs and CEBBs in accordance with Section 11.3(a) of the CAT NMS Plan. Furthermore, the Participants would be charged for their designated share of the Budgeted CAT Costs 2026–1 through a fee implemented via the CAT NMS Plan, which would have the same fee rate as CAT Fee 2026–1.

In addition, as discussed above, each of the inputs into the calculation of CAT Fee 2026–1—the Budgeted CAT Costs 2026–1, the count for the executed equivalent share volume for the prior 12 months, and the projected executed equivalent share volume for the CAT Fee 2026–1 Period—is reasonable. Moreover, these inputs lead to a reasonable fee rate for CAT Fee 2026–1 that is lower than other fee rates for transaction-based fees. A reasonable fee rate allocated in accordance with the requirements of the CAT Funding Model provides for an equitable allocation of fees.

(4) CAT Fee 2026–1 Is Not Unfairly Discriminatory

CAT Fee 2026–1 is not an unfairly discriminatory fee. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfies the requirements of the Exchange Act. In reaching this conclusion, the SEC analyzed the potential effect of CAT Fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. CAT Fee 2026–1 complies with the requirements regarding the calculation of CAT Fees as set forth in the CAT NMS Plan. In addition, as discussed above, each of the inputs into the calculation of CAT Fee 2026–1 and the resulting fee rate for CAT Fee 2026–1 is reasonable. Therefore, CAT Fee 2026–1 does not impose an unfairly discriminatory fee on Industry Members.

The Exchange believes the proposed fees established pursuant to the CAT Funding Model promote just and equitable principles of trade, and, in general, protect investors and the public interest, and are provided in a transparent manner and with specificity in the fee schedule. The Exchange also believes that the proposed fees are reasonable because they would provide ease of calculation, ease of billing and other administrative functions, and predictability of a fee based on fixed rate per executed equivalent share. Such factors are crucial to estimating a reliable revenue stream for CAT LLC and for permitting Exchange members to reasonably predict their payment obligations for budgeting purposes.

B. Self-Regulatory Organization's Statement on Burden on Competition

Section 6(b)(8) of the Act¹⁷³ requires that the Exchange's rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that CAT Fee 2026–1 implements provisions of the CAT NMS Plan that were approved by the

¹⁶⁶ *Id.*

¹⁶⁷ CAT Funding Model Approval Order at 13445, n.677.

¹⁶⁸ See Section 3(a)(5)(A) above.

¹⁶⁹ For example, as the SEC noted in the CAT Funding Model Approval Order, recent Section 31 fees ranged from \$0.00007 per share to \$0.00072 per share. CAT Funding Model Approval Order at 13469.

¹⁷⁰ *Id.*

¹⁷¹ See Section 11.3(a) of the CAT NMS Plan.

¹⁷² CAT Funding Model Approval Order at 13412.

¹⁷³ 15 U.S.C. 78f(b)(8).

Commission and is designed to assist the Exchange in meeting its regulatory obligations pursuant to the Plan.

In addition, all Participants (including exchanges and FINRA) are proposing to introduce CAT Fee 2026–1 on behalf of CAT LLC to implement the requirements of the CAT NMS Plan. Therefore, this is not a competitive fee filing, and, therefore, it does not raise competition issues between and among the Participants.

Furthermore, in approving the CAT Funding Model, the SEC analyzed the potential competitive impact of the CAT Funding Model, including competitive issues related to market services, trading services and regulatory services, efficiency concerns, and capital formation.¹⁷⁴ The SEC also analyzed the potential effect of CAT fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. Based on this analysis, the SEC approved the CAT Funding Model as compliant with the Exchange Act. CAT Fee 2026–1 is calculated and implemented in accordance with the CAT Funding Model as approved by the SEC.

As discussed above, each of the inputs into the calculation of CAT Fee 2026–1 is reasonable and the resulting fee rate for CAT Fee 2026–1 calculated in accordance with the CAT Funding Model is reasonable. Therefore, CAT Fee 2026–1 would not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Pursuant to Section 19(b)(3)(A)(ii) of the Act,¹⁷⁵ and Rule 19b–4(f)(2) thereunder,¹⁷⁶ the Exchange has designated this proposal as establishing

or changing a due, fee, or other charge imposed on any person, whether or not the person is a member of the self-regulatory organization, which renders the proposed rule change effective upon filing. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR–NYSETEX–2026–11 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090. All submissions should refer to file number SR–NYSETEX–2026–11. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–NYSETEX–2026–11 and should be submitted on or before June 2, 2026.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁷⁷

Stephanie J. Fouse,
Assistant Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–105401; File No. SR–C2–2026–010]

Self-Regulatory Organizations; Cboe C2 Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Establish Fees for Industry Members Related to Reasonably Budgeted CAT Costs of the National Market System Plan Governing the Consolidated Audit Trail for the Period From May 1, 2026 Through December 31, 2026

May 7, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on April 24, 2026, Cboe C2 Exchange, Inc. (the “Exchange” or “C2”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe C2 Exchange, Inc. (the “Exchange” or “C2”) proposes to amend its “Consolidated Audit Trail Funding Fees”³ fee schedule to establish fees for Industry Members⁴ related to reasonably budgeted CAT costs of the National Market System Plan Governing the Consolidated Audit Trail (the “CAT NMS Plan” or “Plan”) for the period from May 1, 2026 through December 31, 2026. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Commission's website (<https://www.sec.gov/rules/sro.shtml>), the Exchange's website (https://www.cboe.com/us/options/regulation/rule_filings/bzx/), and at the principal office of the Exchange.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

³ The Exchange and each of its affiliated exchanges (Cboe BYX Exchange, Inc., Cboe BZX Exchange, Cboe Exchange Inc., Cboe EDGA Exchange, Inc., and Cboe EDGX Exchange, Inc.) are filing to make the same amendment to the “Consolidated Audit Trail Funding Fees” fee schedule.

⁴ An “Industry Member” is defined as “a member of a national securities exchange or a member of a national securities association.” See Exchange Rule 7.20(u); see also Section 1.1 of the CAT NMS Plan. Unless otherwise specified, capitalized terms used in this rule filing are defined as set forth in the CAT NMS Plan and/or the CAT Compliance Rule. See Chapter 7, Section B of the Exchange's Rulebook.

¹⁷⁷ 17 CFR 200.30–3(a)(12).

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On July 11, 2012, the Commission adopted Rule 613 of Regulation NMS, which required the self-regulatory organizations ("SROs") to submit a national market system ("NMS") plan to create, implement and maintain a consolidated audit trail that would capture customer and order event information for orders in NMS securities across all markets, from the time of order inception through routing, cancellation, modification or execution.⁵ On November 15, 2016, the Commission approved the CAT NMS Plan.⁶ Under the CAT NMS Plan, the Operating Committee has the discretion to establish funding for CAT LLC to operate the CAT, including establishing fees for Industry Members to be assessed by CAT LLC that would be implemented on behalf of CAT LLC by the Participants.⁷ The Operating Committee adopted a revised funding model to fund the CAT ("CAT Funding Model"). On March 16, 2026, the Commission approved the CAT Funding Model after concluding that the model satisfied the requirements of Section 11A of the Exchange Act and Rule 608 thereunder.⁸

The CAT Funding Model provides a framework for the recovery of the costs to create, develop and maintain the CAT, including providing a method for

allocating costs to fund the CAT among Participants and Industry Members. The CAT Funding Model establishes two categories of fees: (1) CAT fees assessed by CAT LLC and payable by certain Industry Members to recover a portion of historical CAT costs previously paid by the Participants ("Historical CAT Assessment" fees); and (2) CAT fees assessed by CAT LLC and payable by Participants and Industry Members to fund prospective CAT costs ("CAT Fees").⁹

Under the CAT Funding Model, Participants, CEBBs and CEBs are subject to fees designed to cover the ongoing budgeted costs of the CAT, as determined by the Operating Committee. "The Operating Committee will establish fees ('CAT Fees') to be payable by Participants and Industry Members with regard to CAT costs not previously paid by the Participants ('Prospective CAT Costs')." ¹⁰ In establishing a CAT Fee, the Operating Committee will calculate a "Fee Rate" for the relevant period. Then, for each month in which a CAT Fee is in effect, each CEBB and CEB would be required to pay the fee for each transaction in Eligible Securities executed by the CEBB or CEBs from the prior month as set forth in CAT Data, where the fee for each transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Fee Rate.

The CAT Fees to be paid by CEBBs and CEBs are designed to contribute toward the recovery of two-thirds of the budgeted CAT costs for the relevant period.¹¹ The CAT Funding Model is designed to require that the Participants contribute to the recovery of the remaining one-third of the budgeted CAT costs.¹² Participants would be subject to the same Fee Rate as CEBBs and CEBs.¹³ While CAT Fees charged to Industry Members become effective in accordance with the requirements of Section 19(b) of the Exchange Act,¹⁴ CAT fees charged to Participants are

implemented via an approval of the CAT fees by the Operating Committee in accordance with the requirements of the CAT NMS Plan.¹⁵ Accordingly, this filing does not address Participant CAT fees as they are described in the CAT NMS Plan.¹⁶

CAT LLC proposes to charge CEBBs and CEBs (as described in more detail below) CAT Fee 2026–1 to recover the reasonably budgeted CAT costs for the period from May 1, 2026 through December 31, 2026 in accordance with the CAT Funding Model. To implement this fee on behalf of CAT LLC, the CAT NMS Plan requires the Participants to "file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves, and such fees shall be labeled as 'Consolidated Audit Trail Funding Fees.'" ¹⁷ The Plan further states that "[o]nce the Operating Committee has approved such Fee Rate, the Participants shall be required to file with the SEC pursuant to Section 19(b) of the Exchange Act CAT Fees to be charged to Industry Members calculated using such Fee Rate." ¹⁸ Accordingly, the purpose of this filing is to implement a CAT Fee on behalf of CAT LLC for Industry Members, referred to as CAT Fee 2026–1, in accordance with the CAT NMS Plan.

(1) CAT Executing Brokers

CAT Fee 2026–1 will be charged to each CEBB and CEBs for each applicable transaction in Eligible Securities.¹⁹ The CAT NMS Plan defines a "CAT Executing Broker" to mean: (a) with respect to a transaction in an Eligible Security that is executed on an exchange, the Industry Member identified as the Industry Member responsible for the order on the buy-side of the transaction and the Industry Member responsible for the sell-side of the transaction in the equity order trade event and option trade event in the CAT

¹⁵ CAT Funding Model Approval Order at 13448.

¹⁶ See Section 11.3(a)(ii) and Appendix B of the CAT NMS Plan.

¹⁷ Section 11.1(b) of the CAT NMS Plan.

¹⁸ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹⁹ In its approval of the CAT Funding Model, the Commission determined that charging CAT fees to CAT Executing Brokers was appropriate. In reaching this conclusion, the Commission noted that the use of CAT Executing Brokers is appropriate because the CAT Funding Model is based upon the calculation of *executed* equivalent shares, and, therefore, charging CAT Executing Brokers would reflect their executing role in each transaction. Furthermore, the Commission noted that, because CAT Executing Brokers are already identified in transaction reports from the exchanges and FINRA's equity trade reporting facilities recorded in CAT Data, charging CAT Executing Brokers could streamline the billing process. CAT Funding Model Approval Order at 13413.

⁸ Securities Exchange Act Rel. No. 105003 (Mar. 16, 2026), 91 FR 13410 (Mar. 19, 2026) ("CAT Funding Model Approval Order"). This CAT Funding Model replaced the prior funding model that was approved by the Commission on September 6, 2023. Securities Exchange Act Release No. 98290 (Sept. 6, 2023), 88 FR 62628 (Sept. 12, 2023).

⁹ Under the CAT Funding Model, the Operating Committee may establish CAT Fees related to CAT costs going forward. Section 11.3(a) of the CAT NMS Plan. This filing only establishes CAT Fee 2026–1 related to reasonably budgeted CAT costs for the period from May 1, 2026 through December 31, 2026 as described herein; it does not address any other potential CAT Fees related to CAT costs. Any such other CAT Fee will be subject to a separate fee filing. In addition, under the CAT Funding Model, the Operating Committee may establish one or more Historical CAT Assessments. Section 11.3(b) of the CAT NMS Plan. This filing does not address any Historical CAT Assessments.

¹⁰ Section 11.3(a) of the CAT NMS Plan.

¹¹ Section 11.3(a)(iii)(A) of the CAT NMS Plan.

¹² Section 11.3(a)(ii)(A) of the CAT NMS Plan.

¹³ Section 11.3(a)(i) of the CAT NMS Plan.

¹⁴ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

Data submitted to the CAT by the relevant exchange pursuant to the Participant Technical Specifications; and (b) with respect to a transaction in an Eligible Security that is executed otherwise than on an exchange and required to be reported to an equity trade reporting facility of a registered national securities association, the Industry Member identified as the executing broker and the Industry

Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event in the CAT Data submitted to the CAT by FINRA pursuant to the Participant Technical Specifications; provided, however, in those circumstances where there is a non-Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event or no contra-side executing broker is

identified in the TRF/ORF/ADF transaction data event, then the Industry Member identified as the executing broker in the TRF/ORF/ADF transaction data event would be treated as CAT Executing Broker for the Buyer and for the Seller.²⁰

The following fields of the Participant Technical Specifications indicate the CAT Executing Brokers for the transactions executed on an exchange:

EQUITY ORDER TRADE (EOT)²¹

No.	Field name	Data type	Description	Include key
12.n.8/13.n.8	member	Member Alias	The identifier for the member firm that is responsible for the order on this side of the trade. Not required if there is no order for the side as indicated by the NOBUYID/NOSELLID instruction. This must be provided if orderID is provided.	C

OPTION TRADE (OT)²²

No.	Field name	Data type	Description	Include key
16.n.13/17.n.13	member	Member Alias	The identifier for the member firm that is responsible for the order.	R

In addition, the following fields of the Participant Technical Specifications would indicate the CAT Executing

Brokers for the transactions executed otherwise than on an exchange:

TRF/ORF/ADF TRANSACTION DATA EVENT (TRF)²³

No.	Field name	Data type	Description	Include key
26	reportingExecutingMpid	Member Alias	MPID of the executing party	R
28	contraExecutingMpid	Member Alias	MPID of the contra-side executing party	C

(2) Calculation of Fee Rate 2026–1

The Operating Committee determined the Fee Rate to be used in calculating CAT Fee 2026–1 (“Fee Rate 2026–1”) by dividing the reasonably budgeted CAT costs (“Budgeted CAT Costs 2026–1”) for the period from May 1, 2026 through December 31, 2026 (“CAT Fee 2026–1 Period”) by the reasonably projected total executed share volume of all transactions in Eligible Securities for the eight-month recovery period, as discussed in detail below.²⁴ Based on this calculation, the Operating

Committee has determined that Fee Rate 2026–1 would be \$0.000003799483243631228 per executed equivalent share. This rate is then divided by three and rounded to determine the fee rate of \$0.000001 per executed equivalent share that will be assessed to CEBBs and CEBSSs, as also discussed in detail below.

(A) CAT Fee 2026–1 Period

CAT LLC proposes to implement CAT Fee 2026–1. CAT LLC proposes to commence CAT Fee 2026–1 during the

year, rather than at the beginning of the year. Accordingly, CAT Fee 2026–1 “would be calculated as described in paragraph (II)” of Section 11.3(a)(i)(A) of the CAT NMS Plan,²⁵ which states that “[d]uring each year, the Operating Committee will calculate a new Fee Rate by dividing the reasonably budgeted CAT costs for the remainder of the year by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the remainder of the year.”²⁶ For CAT Fee 2026–1, the reasonably budgeted CAT

²⁰ Section 1.1 of the CAT NMS Plan. Note that CEBBs and CEBSSs may, but are not required to, pass-through their CAT Fees to their clients, who may, in turn, pass their fees to their clients until they are imposed ultimately on the account that executed the transaction. See CAT Funding Model Approval Order at 13424.

²¹ See Table 23, Section 4.7 (Order Trade Event) of the CAT Reporting Technical Specifications for

Plan Participants, Version 4.1.1 r1 (Apr. 14, 2025), https://www.catnmsplan.com/sites/default/files/2025-04/04.14.2025_CAT_Reporting_Technical_Specifications_for_Participants_4.1.1-r1.pdf (“CAT Reporting Technical Specifications for Plan Participants”).

²² See Table 51, Section 5.2.5.1 (Simple Option Trade Event) of the CAT Reporting Technical Specifications for Plan Participants.

²³ See Table 61, Section 6.1 (TRF/ORF/ADF Transaction Data Event) of the CAT Reporting Technical Specifications for Plan Participants.

²⁴ Section 11.3(a)(i) of the CAT NMS Plan.

²⁵ Section 11.3(a)(i)(A)(IV) of the CAT NMS Plan.

²⁶ Section 11.3(a)(i)(A)(II) of the CAT NMS Plan.

costs for “the remainder of the year” are the reasonably budgeted CAT costs from May 1, 2026 through December 31, 2026 as set forth in the updated annual budget for 2026 for CAT LLC approved by the Operating Committee on March 31, 2026 (“Updated 2026 CAT Budget”).²⁷

(B) Executed Equivalent Shares for Transactions in Eligible Securities

Under the CAT NMS Plan, for purposes of calculating CAT Fees, executed equivalent shares in a transaction in Eligible Securities will be reasonably counted as follows: (1) each executed share for a transaction in NMS Stocks will be counted as one executed equivalent share; (2) each executed contract for a transaction in Listed Options will be counted based on the multiplier applicable to the specific Listed Options (*i.e.*, 100 executed equivalent shares or such other applicable multiplier); and (3) each executed share for a transaction in OTC Equity Securities will be counted as 0.01 executed equivalent share.²⁸

(C) Budgeted CAT Costs 2026–1

The CAT NMS Plan states that “[t]he budgeted CAT costs for the year shall be comprised of all reasonable fees, costs and expenses reasonably budgeted to be incurred by or for the Company in connection with the development, implementation and operation of the CAT as set forth in the annual operating budget approved by the Operating Committee pursuant to Section 11.1(a) of the CAT NMS Plan, or as adjusted during the year by the Operating Committee.”²⁹ Section 11.1(a) of the CAT NMS Plan describes the requirement for the Operating Committee to approve an operating budget for CAT LLC on an annual basis. It requires the budget to “include the projected costs of the Company,

including the costs of developing and operating the CAT for the upcoming year, and the sources of all revenues to cover such costs, as well as the funding of any reserve that the Operating Committee reasonably deems appropriate for the prudent operation of the Company.” Section 11.1(a)(i) of the CAT NMS Plan further states that:

[w]ithout limiting the foregoing, the reasonably budgeted CAT costs shall include technology (including cloud hosting services, operating fees, CAIS operating fees, change request fees and capitalized developed technology costs), legal, consulting, insurance, professional and administration, and public relations costs, a reserve and such other cost categories as reasonably determined by the Operating Committee to be included in the budget.

In accordance with the requirements under the CAT NMS Plan, the Operating Committee approved an annual budget for 2026 for CAT LLC (“Original 2026 CAT Budget”) on December 11, 2025.³⁰ On March 31, 2026, the Operating Committee approved an updated budget for 2026, referred to as the Updated 2026 CAT Budget. The Updated 2026 CAT Budget includes actual costs for each category for January and February 2026, with updated estimated costs for the remainder of the year. The updated costs for May through December as included in the Updated 2026 CAT Budget (*i.e.*, Budgeted CAT Costs 2026–1) are the costs used in calculating CAT Fee 2026–1.³¹ The 2026 CAT budgets, both the Original 2026 CAT Budget and the Updated 2026 CAT Budget, were prepared on the accrual basis of accounting.³²

³⁰ The Original 2026 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-12/12.08.25-CAT-LLC-2026-Financial_and_Operating_Budget.pdf).

³¹ The version of the Updated 2026 CAT Budget set forth on the CAT website is presented on a quarterly basis, but is prepared based on more granular detail. The costs for May and June are estimated based on two-thirds of costs for Q2 where the budgeted monthly amounts are consistent. For those cases in which the costs for a category vary from month to month in Q2, the specific budgeted amounts for May and June are noted.

³² CAT budgets for periods prior to 2025 were prepared on the cash basis of accounting, as such budgets were primarily used to determine the dollar amount of promissory notes from the Participants that were required to fund the ongoing operations

As described in detail below, the Budgeted CAT Costs 2026–1 would be \$15,149,648. CEBBs collectively will be responsible for one-third of the Budgeted CAT Costs 2026–1 (which is \$5,049,882.67), and CEBBs collectively will be responsible for one-third of the Budgeted CAT Costs 2026–1 (which is \$5,049,882.67).

The following describes in detail the Budgeted CAT Costs 2026–1 for CAT Fee 2026–1. The following cost details are provided in accordance with the requirement in the CAT NMS Plan to provide in the fee filing the following: the budget for the upcoming year (or remainder of the year, as applicable), including a brief description of each line item in the budget, including (1) technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration, and (6) public relations costs, a reserve and/or such other categories as reasonably determined by the Operating Committee to be included in the budget, and the reason for changes in each such line item from the prior CAT fee filing.³³

Each of the costs described below is reasonable, appropriate and necessary for the creation, implementation and maintenance of CAT.

The following table breaks down the Budgeted CAT Costs 2026–1 into the categories set forth in Section 11.3(a)(iii)(B) of the CAT NMS Plan.³⁴ The Budgeted CAT Costs 2026–1 reflect the costs for May through December as included in the Updated 2026 CAT Budget. The Budgeted CAT Costs 2026–1 are the costs used in calculating CAT Fee 2026–1.

of the CAT. Commencing in 2025, with the contemplated recovery of costs from Industry Members and the Participants via CAT Fees, the Original 2025 CAT Budget was prepared on the accrual basis of accounting to properly match projected revenues with estimated expenses incurred. A cash basis budget reflects expenditures when paid, while an accrual basis budget reflects expenditures when incurred. In moving from a cash basis budget to an accrual basis budget, there is no double counting of expenses.

³³ Section 11.3(a)(iii)(B) of the CAT NMS Plan.

³⁴ Note that costs and related cost calculations provided in this filing may reflect minor variations from the budgeted costs due to rounding.

²⁷ The Updated 2026 CAT Budget is available on the CAT website (<https://www.catnmsplan.com/sites/default/files/2026-04/03.31.26-CAT-2026-Budget.pdf>).

²⁸ Section 11.3(a)(i)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission concluded that “the use of executed equivalent share volume provides an appropriate basis for the calculation of CAT fees.” CAT Funding Model Approval Order at 13413.

²⁹ Section 11.3(a)(i)(C) of the CAT NMS Plan.

BUDGETED CAT COSTS 2026–1

Public relations	^l 0
Interest Income	^m (1,453,382)
Total Costs	94,032,626
Reserve (25% of Total Costs)	23,508,157
Total Costs and Reserve	117,540,783
Use of Existing Reserve	ⁿ (102,391,135)
Total Budgeted CAT Costs 2026–1	15,149,648

^a The non-cash amortization of these capitalized developed technology costs to be incurred during the CAT Fee 2026–1 Period have been appropriately excluded from the above table.³⁵

^b Budgeted CAT Costs 2026–1 described in this table of costs were determined based on an analysis of a variety of factors, including historical costs/invoices, estimated costs from respective vendors/service providers, contractual terms with vendors/service providers, anticipated service levels and needs, and discussions with vendors and Participants.

^c This cost number for capitalized developed technology costs reflects (1) capitalized developed technology costs of \$3,450,000 for May, \$0 for June and \$0 for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget; and (2) \$0 for the Software License Fee 2026 for the second, third, and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\$3,450,000 + \$0 + \$0 + \$0) + (\$0 + \$0 + \$0) = \$3,450,000$.

^d This cost number for cloud hosting services reflects two-thirds of the cloud hosting services costs for the second quarter and the cloud hosting services for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$18,700,000) + \$18,700,000 + \$18,700,000 = \$49,866,667$.

^e This cost number for operating fees reflects (1) two-thirds of the Non-CAIS fixed operating fees for the second quarter and the Non-CAIS fixed operating fees for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget and (2) two-thirds of the market data vendor fees for the second quarter and the market data vendor fees for the third and fourth quarter of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$7,191,853) + \$7,191,853 + \$7,191,853 + (\frac{2}{3} \times \$192,630) + \$192,630 + \$192,630 = \$19,691,953$.

^f This cost number for CAIS operating fees reflects two-thirds of the CAIS fixed operating fees for the second quarter and the CAIS fixed operating fees for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$5,317,147) + \$5,317,147 + \$5,317,147 = \$14,179,060$.

^g This \$0 cost number for change requests reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

^h This cost number for legal services reflects two-thirds of the legal costs for the second quarter and the legal costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

ⁱ This cost number for consulting services reflects two-thirds of the consulting costs for the second quarter and the consulting costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$384,734) + \$384,734 + \$384,734 = \$1,025,957$.

^j This cost number for insurance reflects two-thirds of the insurance costs for the second quarter and the insurance costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$300,977) + \$321,042 + \$331,074 = \$852,768$.

^k This cost number for professional and administration services reflects two-thirds of the professional and administration costs for the second quarter and the professional and administration costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$280,932) + \$280,932 + \$280,932 = \$749,151$.

^l This \$0 cost number of change requests reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

^m This interest income reflects interest income (net of bank fees) of \$517,208 for May and June and interest income (net of bank fees) for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $\$517,208 + \$571,010 + \$365,164 = \$1,453,382$. Note that interest income for May and June 2026 of \$517,208 is slightly less than two-thirds of \$809,598 (which is \$539,732) for the second quarter as the amount of interest income varies from month to month.

ⁿ This amount for the use of the existing reserve is calculated by subtracting from the Accrued Liquidity Reserve Balance as of the Beginning of the Year in the Updated 2026 CAT Budget the 25% Incremental Liquidity Reserve Accrued during 2026 for the first quarter and for April of 2026 as included in the Updated 2026 CAT Budget: $\$155,403,378 - (\$41,800,153 + \$11,212,091) = \$102,391,135$. Note that the 25% Incremental Liquidity Reserved Accrued during 2026 for April 2026 of \$11,212,091 is slightly more than one-third of \$33,366,432 (which is \$11,122,144) for the second quarter as the amount of the 25% Incremental Liquidity Reserved Accrued during 2026 varies from month to month.

To the extent that CAT LLC enters into notes with Participants or others to pay costs incurred during the period in which CAT Fee 2026–1 is in effect, CAT

LLC will use the proceeds from CAT Fee 2026–1 and the related Participant CAT fees to repay such notes.

The following table compares the annual budgeted CAT costs as set forth in the updated annual CAT budget for 2025 approved by the Operating Committee in May 2025 (“May Updated 2025 CAT Budget”),³⁶ the updated

annual CAT budget for 2025 approved by the Operating Committee in November 2025 (“November Updated 2025 CAT Budget”),³⁷ the Original 2026

www.catnmsplan.com/sites/default/files/2025-05/05.19.25-CAT-LLC-2025-Financial_and_Operating-Budget.pdf.

³⁷ The November Updated 2025 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-12/12.22.25_CAT-LLC-2025-Finacial_and_Operating-Budget.pdf).

³⁵ With respect to certain costs that were “appropriately excluded,” such excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already been otherwise reflected in the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

³⁶ The May Updated 2025 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-05/05.19.25-CAT-LLC-2025-Financial_and_Operating-Budget.pdf).

CAT Budget and the Updated 2026 CAT Budget, and is provided for informational purposes. In each case, the costs provided reflect the costs for

the entire year for each of the budgets; this differs from the above chart which focuses on budgeted costs for the period from May 1, 2026 through December 31,

2026, which, as noted, are the costs that are used in the calculation of the fee rate in this fee filing.

COMPARISON OF FULL YEAR BUDGETED COSTS

Budget category	Full year of 2025 budgeted CAT costs from updated 2025 CAT budget (May 2025)	Full year of 2025 budgeted CAT costs from updated 2025 budget (Nov. 2025)	Full year of 2026 budgeted CAT costs from original 2026 CAT budget	Full year of 2026 budgeted CAT costs from updated 2026 CAT budget
Capitalized Developed Technology Costs ^a	\$4,871,962	\$5,163,991	\$8,228,827	\$8,378,964
Technology Costs	211,548,472	173,091,660	137,514,003	128,643,476
Cloud Hosting Services	159,230,937	122,084,811	81,900,006	77,529,362
Operating Fees ^b	30,817,686	29,932,001	34,345,413	29,845,524
CAIS Operating Fees	20,749,848	20,749,848	21,268,584	21,268,590
Change Request Fees	750,000	325,000	0	0
Legal	7,370,002	7,312,547	8,485,000	8,939,184
Consulting	1,749,998	1,750,000	1,550,000	1,550,000
Insurance	1,594,452	1,368,750	1,505,625	1,254,070
Professional and administration	1,193,090	1,392,679	1,145,500	1,085,500

Interest Income	0	(2,510,223)	(1,995,958)	(2,806,325)
Total Annual CAT Costs ^c	228,334,551	187,575,979	156,432,998	147,044,869

^a This cost number is calculated by adding together the Capitalized Developed Technology Costs and the Software License Fee for each budget.

^b This cost number is calculated by adding together the Operating fees, the Cyber Insurance Premium Adjustment (if any) and market data vendor fees (if any separate fees) for each budget.

^c This total cost number does not include an amount for a reserve.

In addition, the following table compares the budgeted costs for January and February 2026 that were used in drafting the Original 2026 CAT Budget with the actual costs for January and February 2026 that were used in

drafting the Updated 2026 CAT Budget. The Original 2026 CAT Budget includes budgeted costs for January and February 2026, whereas the Updated 2026 CAT Budget includes actual costs for January and February 2026. The variance from

the budgeted costs for January and February 2026 to the actual costs for January and February 2026 are used in this filing in supporting the reasonableness of the estimates for each category of costs.

COMPARISON OF BUDGETED AND ACTUAL COSTS FOR JANUARY & FEBRUARY 2026

Budget category	Budgeted costs for January & February 2026 (as used in drafting the original 2026 CAT budget)	Actual costs for January & February 2026 (as used in drafting the updated 2026 CAT budget)	Variance from budgeted costs for January & February 2026 to actual costs for January & February of 2026
Capitalized Developed Technology Costs ^a	\$671,472	\$4,145,430	Increase by \$3,473,958. ^b
Technology Costs	25,894,000	21,501,183	
Cloud Hosting Services	17,200,000	12,829,362	Decrease by \$4,370,638. ^c
Operating Fees	5,149,236	5,127,057	Decrease by \$22,179.
CAIS Operating Fees	3,544,764	3,544,764	No change.
Change Request Fees	0	0	No change.
Legal	1,424,166	1,838,617	Increase by \$414,451. ^d
Consulting	258,334	267,554	Increase by \$9,220.
Insurance	250,938	200,652	Decrease by \$50,286.
Professional and administration	190,916	149,061	Decrease by \$41,855.
Public relations	0	0	No change.
Interest Income	(758,343)	(757,527)	Decrease by \$816.
Total	27,931,483	27,344,970	Decrease by \$586,513.

^a This cost number for capitalized developed technology costs is calculated by adding together the capitalized developed technology costs and the software license fee for each budget.

^b The variance for capitalized developed technology costs is the result of costs related to the software license fee in accordance with the Plan Processor Agreement with FCAT.

^c This variance is attributable to lower than forecasted market volumes and the impact of lower processing costs due to shutting down certain functionalities.

^d The variance in legal costs is attributable to unanticipated issues that required additional legal efforts on behalf of CAT LLC that developed after the budget was created.

(i) Technology Costs—Cloud Hosting Services

(a) Description of Cloud Hosting Services Costs

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the cloud hosting services costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$49,866,667 in technology costs for cloud hosting services for the CAT Fee 2026–1 Period. The technology costs for cloud hosting services represent costs reasonably budgeted to be incurred for services provided by the cloud services provider for the CAT, Amazon Web Services, Inc. (“AWS”) during the CAT Fee 2026–1 Period.

In the agreement between CAT LLC and the Plan Processor for the CAT (“Plan Processor Agreement”), FINRA CAT, LLC (“FCAT”), AWS was named as the subcontractor to provide cloud hosting services. Under the Plan Processor Agreement, CAT LLC is required to pay FCAT the fees incurred by the Plan Processor for cloud hosting services provided by AWS as FCAT’s subcontractor on a monthly basis for the cloud hosting services, and FCAT, in turn, pays such fees to AWS. The fees for cloud hosting services were negotiated by FCAT on an arm’s length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the expected volume of data, the breadth of services provided and market rates for similar services. Services provided by AWS include storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as well as various environments for CAT, such as development, performance testing, test, and production environments. FCAT utilizes such cloud hosting services for a broad array of services for the CAT, such as data ingestion, data management, and analytic tools for the CAT. AWS performs cloud hosting services for both the CAT transaction database as well as the Reference Database (previously referred to as the Customer and Account Information System, or “CAIS”).³⁸ It is

anticipated that such cloud hosting services will continue during the CAT Fee 2026–1 Period.

The cost for AWS cloud services for the CAT is a function of the volume of CAT Data, largely as a result of the processing and storage of the CAT Data.³⁹ The greater the amount of CAT Data, the greater the cost of AWS services to CAT LLC. During the CAT Fee 2026–1 Period, it is expected that AWS would provide cloud hosting services for volumes of CAT Data far in excess of the volume predictions set forth in the CAT NMS Plan. The CAT NMS Plan states, when all CAT Reporters are submitting their data to the CAT, it “must be sized to receive[,] process and load more than 58 billion records per day,”⁴⁰ and that “[i]t is expected that the Central Repository will grow to more than 29 petabytes of raw, uncompressed data.”⁴¹ In contrast with those estimates, the Q3 2025 data volumes averaged 792 billion events per day. The highest peak data volume to date of 1.45 trillion events was recorded on April 7, 2025. The top five peak days were recorded in April 2025.

CAT LLC estimates that the budget for cloud hosting services costs during the CAT Fee 2026–1 Period will be approximately \$49,866,667.⁴² The budget for cloud hosting services costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the cloud hosting services costs for the second quarter and the cloud hosting services for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget.⁴³

CAT LLC estimated the budget for the cost for cloud hosting services for the CAT Fee 2026–1 Period based on an assumption of 35% annual year-over-year volume growth for the transaction database and an assumption of 5% annual year-over-year volume growth

2026) (“CAIS Amendment”). The SEC subsequently approved another amendment to the CAT NMS Plan to implement various cost savings measures that made further changes to the Reference Database. Securities Exchange Act Rel. No. 105107 (Mar. 27, 2026), 91 FR 16284 (Mar. 27, 2026) (“Cost Savings Amendment”).

³⁹ In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. For further discussion of the effect of processing timelines on cloud hosting costs, see Section 3(b)(2)(A)(i) below.

⁴⁰ Section 1.3 of Appendix D of the CAT NMS Plan, n.262.

⁴¹ Section 1.3 of Appendix D of the CAT NMS Plan.

⁴² See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁴³ This calculation is $(\frac{2}{3} \times \$18,700,000) + \$18,700,000 + \$18,700,000 = \$49,866,667$.

for the Reference Database. CAT LLC determined these growth assumptions in coordination with FCAT.⁴⁴

This process for estimating the budget for cloud hosting services costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the cloud hosting services costs for the Original 2026 CAT Budget.

The Original 2026 CAT Budget estimated a budget for cloud hosting services of \$17,200,000 for January and February 2026. The actual costs for cloud hosting services for January and February 2026, which are set forth in the Updated 2026 CAT Budget, were \$12,829,362. Therefore, the variance between budgeted and actual cloud hosting services costs for January and February 2026 was an approximate decrease of \$4,370,638 as a result of lower volumes and a change in functionality.⁴⁵ Accordingly, CAT LLC believes that the process for estimating the budgeted cloud hosting services costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for cloud hosting services costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the cloud hosting services costs from the Original 2026 Budget.⁴⁶ Specifically, the following describes the differences in the costs for cloud hosting services included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for cloud hosting services included in the

⁴⁴ Note that these growth rates are based on events processed and stored in the CAT. Executed transactions are a small subset of such events. As a result, the number of transactions in the CAT, and, hence, the number of executed equivalent shares, is not directly correlated with the number of events processed in the CAT or the costs of cloud hosting services for the CAT. Accordingly, the number of executed equivalent shares may stay relatively constant from year to year while the number of events processed and stored in the CAT may grow significantly.

⁴⁵ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁴⁶ The last Prospective CAT Fee, CAT Fee 2025–2, was implemented pursuant to the prior CAT funding model. Moreover, the final invoice for CAT Fee 2025–2 was sent in December 2025, and, therefore, there is a six-month gap between the final invoice for CAT Fee 2025–2 and the first invoice for CAT Fee 2026–1, which would be in June 2026. Accordingly, this filing describes the changes in the cloud hosting services costs from the Original 2026 Budget.

³⁸ On January 13, 2026, the SEC approved an amendment to the CAT NMS Plan relating to the Customer and Account Information System (referred to as “CAIS”). Effective with this amendment, CAIS has been renamed as the “Reference Database.” Securities Exchange Act Rel. No. 104586 (Jan. 13, 2026), 91 FR 2164 (Jan. 16,

Original 2026 CAT Budget were \$81,900,006, and the annual 2026 budgeted costs for cloud hosting services included in the Updated 2026 CAT Budget are \$77,529,362. Accordingly, budgeted annual costs for cloud hosting services decreased by \$4,370,644 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 5% reduction in cloud hosting services costs for the full year of 2026.⁴⁷ The budgeted decrease in costs for cloud hosting services reflects lower costs for January and February 2026 due to lower than forecasted market volumes in January and the impact of lower processing costs due to shutting down certain functionalities.

(ii) Technology Costs—Operating Fees

(a) Description of Operating Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the operating fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$19,691,953 in technology costs for operating fees for the CAT Fee 2026–1 Period. Operating fees are those fees paid by CAT LLC to FCAT as the Plan Processor to operate and maintain the CAT and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management as required by the CAT NMS Plan. Operating fees also include market data provider costs, as discussed below.

Plan Processor: FCAT. Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT a negotiated monthly fixed price for the operation of the CAT. This fixed price contract was negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity. It is anticipated that FCAT will provide a variety of services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Provide the CAT-related functions and services as the Plan Processor as required by SEC Rule 613 and the CAT

NMS Plan in connection with the operation and maintenance of the CAT;

- Address compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provide support to the Operating Committee, the Compliance Subcommittee and CAT working groups;
- Assist with interpretive efforts, exemptive requests and amendments regarding the CAT NMS Plan;
- Oversee the security of the CAT;
- Monitor the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provide support to subcontractors under the Plan Processor Agreement;
- Provide support in discussions with the Participants and the SEC and its staff;
- Operate the FINRA CAT Helpdesk;
- Facilitate communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administer the CAT website and all of its content;
- Maintain cyber security insurance related to the CAT;
- Assist with billing, collection and other CAT fee-related activity; and
- Provide technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

CAT LLC calculated the budget for the FCAT technology costs for operating fees for the CAT Fee 2026–1 Period based on the recurring monthly operating fees under the Plan Processor Agreement.

Market Data Provider: Algoseek. It is anticipated that the operating fees costs for the CAT Fee 2026–1 Period will include costs related to the receipt of certain market data for the CAT pursuant to an agreement between FCAT and Algoseek, LLC (“Algoseek”). CAT LLC determined that Algoseek would provide market data that included data elements set forth in Section 6.5(a)(ii) of the CAT NMS Plan, and that the fees were reasonable and in line with market rates for the market data received. All costs under the contract would be treated as a direct pass through cost to CAT LLC. CAT LLC estimated the budget for the costs for Algoseek for the CAT Fee 2026–1 Period based on the monthly rate set forth in the agreement between Algoseek and FCAT.

Operating Fee Estimates. CAT LLC estimates that the budget for operating fees during the CAT Fee 2026–1 Period

will be approximately \$19,691,953.⁴⁸ The budget for operating fees during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding (1) two-thirds of the Non-CAIS fixed operating fees for the second quarter and the Non-CAIS fixed operating fees for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget and (2) two-thirds of the market data vendor fees for the second quarter and the market data vendor fees for the third and fourth quarter of 2026 included in the Updated 2026 CAT Budget.⁴⁹

As discussed above, CAT LLC estimated the budget for the operating fees during the CAT Fee 2026–1 Period based on monthly rates set forth in the Plan Processor Agreement and the agreement with Algoseek. CAT LLC also recognized that the operating fees are generally consistent throughout the year. This process for estimating the budget for the operating fees for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the operating fees for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for operating fees of \$5,149,236 for January and February 2026, and the actual costs for operating fees for January and February 2026 were \$5,127,057. Therefore, the variance between budgeted and actual operating fees for this period was small—\$22,179.⁵⁰ Accordingly, CAT LLC believes that the process for estimating the budgeted operating fees for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for operating fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the operating fees from the Original 2026 Budget. Specifically, the following describes the differences in the costs for operating fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for operating fees included in the Original

⁴⁸ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁴⁹ This calculation is $((\frac{2}{3} \times \$7,191,853) + \$7,191,853 + \$7,191,853) + ((\frac{2}{3} \times \$192,630) + \$192,630 + \$192,630) = \$19,691,953$.

⁵⁰ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁴⁷ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

2026 CAT Budget were \$34,345,413, and the annual 2026 budgeted costs for operating fees included in the Updated 2026 CAT Budget are \$29,845,524. Accordingly, budgeted annual costs for operating fees decreased by \$4,499,889 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 13% reduction in operating fees for the full year of 2026.⁵¹ The budgeted decrease in costs for operating fees reflects the proposed amendments to the Plan Processor Agreement related to the recent cost savings amendments to the CAT NMS Plan.⁵²

(iii) Technology Costs—CAIS Operating Fees

(a) Description of CAIS Operating Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the CAIS operating fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$14,179,060 in technology costs for CAIS operating fees for the CAT Fee 2026–1 Period. CAIS operating fees represent the fees paid to FCAT for services provided with regard to the operation and maintenance of the Reference Database (previously referred to as CAIS), and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. The CAT is required under the CAT NMS Plan to capture and store Reference Data in the Reference Database and to create a CAT-Customer-ID for each Customer.⁵³

During the CAT Fee 2026–1 Period, it is anticipated that FCAT will provide services related to the Reference Database. Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT for services related to the Reference Database provided by FCAT on a monthly basis. CAT LLC negotiated the fees for FCAT's services related to the Reference Database on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors,

including the services to be provided and market rates for similar types of activity. During the CAT Fee 2026–1 Period, it is anticipated that FCAT will continue to provide services relating to the ongoing operation, maintenance and support of the Reference Database.

CAT LLC estimates that the budget for CAIS operating fees during the CAT Fee 2026–1 Period will be approximately \$14,179,060.⁵⁴ The budget for CAIS operating fees during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the CAIS fixed operating fees for the second quarter and the CAIS fixed operating fees for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁵⁵

CAT LLC calculated the budget for FCAT's services related to the Reference Database for the CAT Fee 2026–1 Period based on the recurring monthly CAIS operating fees under the Plan Processor Agreement. This process for estimating the budget for the CAIS operating fees for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the CAIS operating fees for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget of \$3,544,764 for CAIS operating fees for January and February of 2026. The actual costs for CAIS operating fees for January and February of 2026, which are included in the Updated 2026 CAT Budget, were \$3,544,764. There was no variance between budgeted and actual CAIS operating fees for the first two months of 2026.⁵⁶ Accordingly, CAT LLC believes that the process for estimating the budgeted CAIS operating fees for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for CAIS operating fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the CAIS operating fees from the Original 2026 Budget. Specifically, the following describes the differences in the costs for CAIS operating fees included in the Original 2026 CAT

Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

CAIS operating fees are based on a recurring monthly rate payable to FCAT and are unchanged from the Original 2026 CAT Budget to the Updated 2026 CAT Budget. The annual 2026 budgeted costs for CAIS operating fees included in the Original 2026 CAT Budget were \$21,268,584, and the annual 2026 budgeted costs for CAIS operating fees included in the Updated 2026 CAT Budget are \$21,268,590.⁵⁷ Accordingly, the budgeted annual costs for CAIS operating fees are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(iv) Technology Costs—Change Request Fees

(a) Description of Change Request Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the change request fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$0 in technology costs for change request fees for the CAT Fee 2026–1 Period. The technology costs related to change request fees include costs related to certain modifications, upgrades or other changes to the CAT.

Change requests are standard practice and necessary to reflect operational changes, including changes related to new market developments, such as new market participants. In general, if CAT LLC determines that a modification, upgrade or other changes to the functionality or service is necessary and appropriate, CAT LLC will submit a request for such a change to the Plan Processor. The Plan Processor will then respond to the request with a proposal for implementing the change, including the cost (if any) of such a change. CAT LLC then determines whether to approve the proposed change.

The change request budget line is established to include expected costs to be incurred in which the nature of the costs (i.e., capitalization versus expensing) have not yet been determined. Upon the incurrence of such costs, the final determination of capitalization versus expensing is determined and then such costs are reclassified from the change request line to the appropriate technology cost line item.

CAT LLC estimates that the budget for change requests during the CAT Fee 2026–1 Period will be approximately

⁵¹ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

⁵² See CAIS Amendment and Cost Savings Amendment.

⁵³ See Section 9 of Appendix D of the CAT NMS Plan.

⁵⁴ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

⁵⁵ This calculation is $(\frac{2}{3} \times \$5,317,147) + \$5,317,147 + \$5,317,147 = \$14,179,060$.

⁵⁶ See chart entitled "Comparison of Budgeted and Actual Costs for January & February 2026" in Section 3(a)(2)(C) above.

⁵⁷ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

\$0.⁵⁸ The budget for change requests during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. This \$0 cost number for change request fees reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

CAT LLC estimated the budget for the potential change requests for the CAT Fee 2026–1 Period based on, among other things, a review of past change requests and potential future change request needs, as well as discussions with FCAT. This process for estimating the budget for the change requests for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the change requests cost for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a change request budget of \$0 for January and February of 2026. The actual costs for change requests for January and February of 2026, which are set forth in the Updated 2026 CAT Budget, were \$0. There was no variance between budgeted and actual change request costs for January and February of 2026.⁵⁹ Accordingly, CAT LLC believes that the process for estimating the budgeted change request costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for change request fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the change request fees from the Original 2026 Budget. Specifically, the following describes the differences (if any) in the costs for change request fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for change requests included in the Original 2026 CAT Budget were \$0, and the annual 2026 budgeted costs for change requests included in the Updated 2026 CAT Budget are \$0.⁶⁰ Accordingly, budgeted annual costs for change requests are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(v) Technology Costs—Capitalized Developed Technology Costs

(a) Description of Capitalized Developed Technology Costs

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the capitalized developed technology costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes \$3,450,000 in technology costs for capitalized developed technology costs for the CAT Fee 2026–1 Period. This category of costs includes the budget for capitalizable application development costs incurred in the development of the CAT. It is anticipated that such costs will include certain costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT, as well as costs related to a set of technology changes to be implemented by FCAT related to the cost savings amendments⁶¹ and the move to 23x5 trading.

CAT LLC estimates that the budget for capitalized developed technology costs during the CAT Fee 2026–1 Period will be approximately \$3,450,000.⁶² The budget for capitalized developed technology costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding (1) capitalized developed technology costs of \$3,450,000 for May, \$0 for June and \$0 for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget; and (2) \$0 for the Software License Fee 2026 for the second, third, and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁶³

CAT LLC estimated the budget for capitalized developed technology costs for the CAT Fee 2026–1 Period based on an analysis of a variety of factors, including information related to potential technology costs and related contractual and Plan requirements, and discussions with FCAT regarding such potential technology costs. This process for estimating the budget for capitalized developed technology costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the capitalized developed technology costs

for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for capitalized developed technology costs of \$671,472 for January and February 2026, and the actual costs for capitalized developed technology costs for January and February 2026 were \$4,145,430.⁶⁴ The variance of \$3,473,958 for January and February 2026 is the result of costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT. Accordingly, CAT LLC believes that the process for estimating the budgeted capitalized developed technology costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for capitalized developed technology costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the capitalized developed technology costs from the Original 2026 Budget. Specifically, the following describes the differences in the costs for capitalized developed technology costs as included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budget for capitalized developed technology costs included in the Original 2026 CAT Budget was \$8,228,827, and the annual 2026 budget for capitalized developed technology costs included in the Updated 2026 CAT Budget are \$8,378,964.⁶⁵ Accordingly, the annual budget for capitalized developed technology costs increased by \$150,137 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 2% increase in the capitalized developed technology costs for the full year of 2026. This budgeted increase in the annual budget for capitalized developed technology costs was the result of costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT.

(vi) Legal Costs

(a) Description of Legal Costs

Section 11.3(a)(iii)(B)(B)(2) of the CAT NMS Plan requires the fee filing for a

⁵⁸ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁵⁹ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶⁰ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁶¹ See CAIS Amendment and Cost Savings Amendment.

⁶² See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁶³ This calculation is $(\$3,450,000 + \$0 + \$0 + \$0) + (\$0 + \$0 + \$0) = \$3,450,000$. Note that the \$4,178,964 cost for the software license fee was not included in the CAT Fee 2026–1 Period.

⁶⁴ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶⁵ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

Prospective CAT Fee to provide a brief description of the legal costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes \$5,670,452 in legal costs for the CAT Fee 2026–1 Period. This category of costs represents budgeted costs for legal services for this period. CAT LLC anticipates that it will receive legal services from two law firms, Wilmer Cutler Pickering Hale and Dorr LLP (“WilmerHale”) and Jenner & Block LLP (“Jenner”), during the CAT Fee 2026–1 Period.

Law Firm: WilmerHale. It is anticipated that legal costs during the CAT Fee 2026–1 Period will include costs related to the legal services performed by WilmerHale. CAT LLC anticipates that it will continue to employ WilmerHale during the CAT Fee 2026–1 Period based on, among other things, their expertise, long history with the project and recognition that the hourly fee rates for this law firm are anticipated to be in line with market rates for specialized legal expertise. WilmerHale’s billing rates are negotiated on an annual basis and are determined with reference to the rates charged by other leading law firms for similar work. The Participants assess WilmerHale’s performance and review prospective budgets and staffing plans submitted by WilmerHale on an annual basis. The legal fees will be paid by CAT LLC to WilmerHale.

During the CAT Fee 2026–1 Period, it is anticipated that WilmerHale will provide legal services related to the following:

- Assist with CAT fee filings and related funding issues;
- Draft exemptive requests from CAT NMS Plan requirements and/or proposed amendments to the CAT NMS Plan;
- Provide legal guidance with respect to interpretations of CAT NMS Plan requirements;
- Provide legal support for the Operating Committee, Compliance Subcommittee, working groups and Leadership Team;
- Draft SRO rule filings related to the CAT Compliance Rule;
- Manage corporate governance matters, including supporting Operating Committee meetings and preparing resolutions and consents;
- Assist with communications with the industry, including CAT Alerts and presentations;
- Provide guidance regarding the confidentiality of CAT Data;
- Assist with cost management analyses and proposals;

- Assist with commercial contract-related matters, including change orders and amendments, Plan Processor Agreement items, and subcontract matters;

- Provide support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues;
- Provide legal guidance with respect to the CAT budgets;
- Provide background assistance to other counsel for CAT matters;
- Assist with legal responses related to third-party data requests; and
- Provide legal support regarding CAT policies and procedures.

CAT LLC estimated the budget for the legal costs for WilmerHale for the CAT Fee 2026–1 Period through an analysis of a variety of factors, including WilmerHale fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues.

Law Firm: Jenner. It is anticipated that legal costs during the CAT Fee 2026–1 Period will include costs related to the legal services performed by Jenner. CAT LLC anticipates that it will continue to employ Jenner during the CAT Fee 2026–1 Period based on, among other things, their expertise, history with the project and recognition that their hourly fee rates are in line with market rates for specialized legal expertise. The legal fees will be paid by CAT LLC to Jenner.

During the CAT Fee 2026–1 Period, it is anticipated that Jenner will continue to provide legal assistance to CAT LLC regarding certain litigation matters, including: (1) CAT LLC’s defense against a lawsuit filed in the Western District of Texas against the SEC Chair, the SEC and CAT LLC challenging the validity of Rule 613 and the CAT and alleging various constitutional, statutory, and common law claims;⁶⁶ (2) CAT LLC’s intervention in a lawsuit in the Eleventh Circuit filed by various parties against the SEC challenging the SEC’s approval of the CAT Funding Model;⁶⁷ and (3) a lawsuit in the Eleventh Circuit filed by Citadel Securities LLC seeking review of the SEC’s May 20, 2024 order⁶⁸ granting the Participants temporary conditional exemptive relief related to the reporting of bids and/or offers made in response to a request for quote or other form of solicitation response provided in standard electronic format that is not

immediately actionable.⁶⁹ Litigation involving CAT LLC is an expense of operating the CAT, and, therefore, is appropriately an obligation of both Participants and Industry Members under the CAT Funding Model. Jenner also will continue to provide legal counseling to CAT LLC related to the above-listed litigation and other litigation risk.

CAT LLC estimated the budget for the legal costs for Jenner for the CAT Fee 2026–1 Period through an analysis of a variety of factors, including Jenner’s fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues.

Legal Cost Estimates. CAT LLC estimates that the budget for legal services during the CAT Fee 2026–1 Period will be approximately \$5,670,452.⁷⁰ The budget for legal services during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding budgeted costs for two-thirds of the legal costs for the second quarter and the legal costs for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁷¹

CAT LLC estimated the budget for the legal services for the CAT Fee 2026–1 Period based on an analysis of a variety of factors, including law firm fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues. This process for estimating the budget for the legal services for CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the legal cost for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for legal costs of \$1,424,166 for January and February of 2026. The actual costs for legal services for January and February 2026, which are included in the Updated 2026 Budget, were \$1,838,617.⁷² The increase of \$414,451 was due to unanticipated issues that required additional legal efforts on behalf of CAT LLC that developed after the budget was created. Such additional costs were primarily due to additional legal work related to litigation matters as well as regulatory and corporate legal matters. Accordingly, CAT LLC believes that the process for estimating the

⁶⁹ *Citadel Securities v. SEC*, Case No. 24–12300 (11th Cir.).

⁷⁰ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷¹ This calculation is $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

⁷² See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶⁶ *Davidson et al. v. Atkins et al.*, Case No. 6:24–cv–197 (W.D. Tex.).

⁶⁷ *Am. Sec. Ass’n v. SEC*, Case No. 26–10936 (11th Cir.).

⁶⁸ Securities Exchange Act Rel. No. 100181 (May 20, 2024), 89 FR 45715 (May 23, 2024).

budgeted legal costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for legal costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the legal costs from the Original 2026 Budget. Specifically, the following describes the differences in the legal costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted legal costs included in the Original 2026 CAT Budget were \$8,485,000, and the annual 2026 budgeted legal costs included in the Updated 2026 CAT Budget are \$8,939,184.⁷³ Accordingly, the annual budget for legal costs increased by \$454,184 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 5% increase in the legal costs for the full year of 2026. This budgeted increase in the legal costs in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to an anticipated increase in legal costs related to litigation matters as well as regulatory and corporate legal matters.

(vii) Consulting Costs

(a) Description of Consulting Costs

Section 11.3(a)(iii)(B)(B)(3) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the consulting costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$1,025,957 in consulting costs for the CAT Fee 2026–1 Period. The consulting costs represent the fees estimated to be paid to the consulting firm Deloitte & Touche LLP (“Deloitte”) as project manager during the CAT Fee 2026–1 Period. The services provided by Deloitte to the CAT include advisory services related to the operation of the CAT, and meeting facilitation and communications coordination, vendor support and financial analyses. In addition, the consulting costs include the compensation for the Chair of the CAT Operating Committee.

It is anticipated that the costs for CAT during the CAT Fee 2026–1 Period will include costs related to consulting services performed by Deloitte. CAT

LLC anticipates that it will continue to employ Deloitte during the CAT Fee 2026–1 Period based on, among other things, their expertise, long history with the project, and the recognition that it is anticipated that the consulting fees will remain in line with market rates for this type of specialized consulting work. Deloitte’s fee rates are negotiated on an annual basis. CAT LLC assesses Deloitte’s performance and reviews prospective budgets and staffing plans submitted by Deloitte on an annual basis. The consulting fees will be paid by CAT LLC to Deloitte.

It is anticipated that Deloitte will provide a variety of consulting services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Implement program operations for the CAT project;
- Provide support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;
- Assist with cost and funding matters for the CAT, including assistance with loans and the CAT bank account for CAT funding;
- Provide support for updating the SEC on the progress of the development of the CAT; and
- Provide support for third party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

In addition, the consulting costs include the compensation for the Chair of the CAT Operating Committee, which is paid by CAT LLC.

CAT LLC estimates that the budget for consulting costs during the CAT Fee 2026–1 Period will be approximately \$1,025,957.⁷⁴ The budget for consulting costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the consulting costs for the second quarter and the consulting costs for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁷⁵

CAT LLC estimates the budget for the consulting costs for Deloitte for the CAT Fee 2026–1 Period based on the current statement of work with Deloitte, which took into consideration past consulting costs, potential future consulting needs, the proposed rates and other contractual issues, and discussions with Deloitte, as

well as the compensation arrangement for the Chair. This process for estimating the budget for consulting costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the consulting costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for consulting services of \$258,334 for January and February 2026, and the actual costs for consulting services for January and February 2026, which are included in the Updated 2026 CAT Budget, were \$267,554.⁷⁶ Therefore, the variance between budgeted and actual consulting costs for January and February was approximately 4%. Accordingly, CAT LLC believes that the process for estimating the budgeted consulting costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for consulting costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the consulting costs from the Original 2026 Budget. Specifically, the following describes the differences (if any) in the consulting costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budget for consulting costs included in the Original 2026 CAT Budget was \$1,550,000, and the annual 2026 budget for consulting costs included in the Updated 2026 CAT Budget is \$1,550,000.⁷⁷ Accordingly, the annual budget for consulting costs has not changed from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026.

(viii) Insurance Costs

(a) Description of Insurance Costs

Section 11.3(a)(iii)(B)(B)(4) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the insurance costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$852,768 in insurance costs for

⁷³ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁷⁴ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷⁵ This calculation is $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

⁷⁶ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁷⁷ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

the CAT Fee 2026–1 Period.⁷⁸ The insurance costs represent the costs to be incurred for insurance for the CAT during the CAT Fee 2026–1 Period.

It is anticipated that the insurance costs for CAT during the CAT Fee 2026–1 Period will include costs related to cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance brokered by USI Insurance Services LLC ("USI"). Such policies are standard for corporate entities, and cyber security liability insurance is important for the CAT System. CAT LLC anticipates that it will continue to maintain this insurance during the CAT Fee 2026–1 Period, and notes that the annual premiums for these policies were competitive for the coverage provided. CAT LLC estimated the budget for the insurance costs for the CAT Fee 2026–1 Period based on the insurance estimate from USI for 2026. The annual premiums would be paid by CAT LLC to USI.

The budgeted insurance costs for the CAT Fee 2026–1 Period are based on an insurance cost estimate from USI for 2026. Accordingly, CAT LLC believes that the process for estimating the budgeted insurance costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for insurance costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the insurance costs from the Original 2026 Budget. Specifically, the following describes the differences in the insurance costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted insurance costs included in the Original 2026 CAT Budget were \$1,505,625, and the annual 2026 budgeted insurance costs included in the Updated 2026 CAT Budget are \$1,254,070.⁷⁹ Accordingly, the annual budget for insurance costs decreased by \$251,555 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 16% decrease in the insurance costs for the full year of 2026. This budgeted decrease in the insurance costs in the Updated 2026 CAT Budget

from the Original 2026 Budget was primarily due to an anticipated decrease in insurance premiums.

(ix) Professional and Administration Costs

(a) Description of Professional and Administration Costs

Section 11.3(a)(iii)(B)(B)(5) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the professional and administration costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$749,151 in professional and administration costs for the CAT Fee 2026–1 Period. In adopting the CAT NMS Plan, the Commission amended the Plan to add a requirement that CAT LLC's financial statements be prepared in compliance with GAAP, audited by an independent public accounting firm, and made publicly available.⁸⁰ The professional and administration costs would include costs related to accounting and accounting advisory services to support the operating and financial functions of CAT, financial statement audit services by an independent accounting firm, preparation of tax returns, and various cash management and treasury functions. The professional and administration costs represent the fees to be paid to Anchin, Block & Anchin ("Anchin") and Grant Thornton LLP ("Grant Thornton") for financial services during the CAT Fee 2026–1 Period.

Financial Advisory Firm: Anchin. It is anticipated that the professional and administration costs for the CAT Fee 2026–1 Period will include costs related to financial advisory services performed by Anchin. CAT LLC anticipates that it will continue to employ Anchin during the CAT Fee 2026–1 Period based on, among other things, the firm's relevant expertise and fees, which are anticipated to remain in line with market rates for these financial advisory services. The fees for these services will be paid by CAT LLC to Anchin.

It is anticipated that Anchin will provide a variety of services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Update and maintain internal controls;
- Provide cash management and treasury functions;
- Facilitate bill payments to vendors;
- Facilitate repayments of promissory notes to Participants;

- Provide monthly bookkeeping;
- Review vendor invoices and documentation in support of cash disbursements;
- Review documentation to ensure that repayments of promissory notes to Participants are in accordance with established policies and procedures;
- Provide accounting research and consultations on various accounting, financial reporting and tax matters;
- Address not-for-profit tax and accounting considerations;
- Prepare tax returns;
- Address various accounting, financial reporting and operating inquiries from Participants;
- Develop and maintain annual and interim operating and financial budgets, including budget to actual and budget to budget fluctuation analyses;
- Support compliance with the CAT NMS Plan;
- Work with and provide support to the Operating Committee, Leadership Team and various CAT working groups;
- Prepare monthly, quarterly and annual financial statements;
- Review and reconcile the monthly FINRA CAT reports/analyses related to billings, collections, outstanding accounts receivable and cash account;
- Perform certain verification, completeness, and validation testing related to the monthly FINRA CAT reports/analyses related to billings;
- Support the annual financial statement audits by an independent auditor;
- Review historical costs from inception;
- Provide accounting and financial information in support of SEC filings; and
- Perform additional ad hoc accounting and financial advisory services, as requested by CAT LLC.

CAT LLC estimated the annual budget for the costs for Anchin based on historical costs adjusted for cost of living rate increases, and projected incremental advisory and support services.

Accounting Firm: Grant Thornton. It is anticipated that the professional and administration costs for the CAT Fee 2026–1 Period will include costs related to accounting services performed by Grant Thornton. CAT LLC anticipates that it will continue to employ Grant Thornton during the CAT Fee 2026–1 Period based on, among other things, the firm's relevant expertise and fees, which are anticipated to remain in line with market rates for these financial advisory services. It is anticipated that Grant Thornton will continue to be engaged as an independent accounting firm to complete the audit of CAT LLC's

⁷⁸ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

⁷⁹ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

⁸⁰ Section 9.2 of the CAT NMS Plan.

financial statements, in accordance with the requirements of the CAT NMS Plan. The fees for these services will be paid by CAT LLC to Grant Thornton. CAT LLC estimated the budget for the accounting costs for Grant Thornton for the CAT Fee 2026–1 Period based on the anticipated hourly rates and the anticipated services plus an administrative fee.

Professional and Administration Cost Estimates. CAT LLC estimates that the budget for professional and administration services during the CAT Fee 2026–1 Period will be approximately \$749,151.⁸¹ The budget for professional and administration services during the CAT Fee 2026–1 Period is based on the Updated 2026 CAT Budget. CAT LLC estimated the budget for the professional and administration costs for the CAT Fee 2026–1 Period based on a review of past professional and administration costs, potential future professional and administration needs, the proposed rates and other contractual issues, as well as discussions with Anchin and Grant Thornton. This process for estimating the budget for the professional and administration costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the professional and administration costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for professional and administration costs of \$190,916 for January and February 2026, and the actual costs for professional and administration services for January and February 2026, which are set forth in the Updated 2026 Budget, were \$149,061.⁸² The decrease of \$41,855 was due to a lower than expected professional and administration services costs and to the movement of bank fees from the professional and administration category to the interest income category. Accordingly, CAT LLC believes that the process for estimating the budgeted professional and administration costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for professional and administration costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this

filing describes the changes in the professional and administration costs from the Original 2026 Budget. Specifically, the following describes the differences in the professional and administration costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted professional and administration costs as included in the Original 2026 CAT Budget were \$1,145,500, and the annual 2026 budgeted professional and administration costs included in the Updated 2026 CAT Budget are \$1,085,500.⁸³ Accordingly, the budgeted annual costs for professional and administration services decreased by \$60,000 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026. This budgeted decrease in the professional and administration costs in the Updated 2026 CAT Budget from the Original 2026 Budget was due to the movement of bank fees from the professional and administration category to the interest income category, and not a change in costs related to Anchin and Grant Thornton services.

(x) Public Relations Costs

(a) Description of Public Relations Costs

Section 11.3(a)(iii)(B)(B)(6) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the public relations costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$0 in public relations costs for the CAT Fee 2026–1 Period. The public relations costs would represent the fees paid to a public relations firm for professional communications services to CAT, including media relations consulting, strategy and execution. Because CAT LLC anticipates that it will not engage a public relations firm for the CAT Fee Period 2026–1, the budget for public relations costs for this period is \$0.⁸⁴

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for public relations costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing

describes the changes in the public relations costs from the Original 2026 Budget. Specifically, the following describes the differences (if any) in public relations costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual budgeted public relations costs for 2026 included in the Original 2026 CAT Budget were \$0, and the annual budgeted public relations costs for 2026 included in the Updated 2026 CAT Budget are \$0.⁸⁵ Accordingly, the annual budgeted public relations costs for 2026 are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(xi) Interest Income

(a) Description of Interest Income

Section 11.1(a) of the CAT NMS Plan requires the CAT budget to include “the sources of all revenues to cover costs.” Accordingly, the Updated 2026 CAT Budget includes a line item for interest income. Specifically, the Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$1,453,382 in interest income for the CAT Fee 2026–1 Period.⁸⁶ Interest income represents the interest earned on the surplus reserve and other funds held by CAT LLC. Such income would be used to reduce the amount to be collected to fund the CAT.

CAT LLC estimates the budget for the interest income for the CAT Fee 2026–1 Period based on the estimate of the funds held by CAT LLC and the expected interest rates on such funds. The Original 2026 CAT Budget estimated interest income of \$758,343 for January and February 2026, and the actual interest income for January and February 2026, which are included in the Updated 2026 CAT Budget, were \$757,527.⁸⁷ As mentioned above, bank fees were moved from the professional and administration category in the Original 2026 CAT Budget to the interest income category in the Updated 2026 CAT Budget. Accordingly, the interest income amount for the Updated 2026 CAT Budget was net of \$10,000 in bank fees. Therefore, the variance between budgeted and actual interest income (aside from bank fees) for January and February 2026 was approximately \$10,000. Accordingly,

⁸⁵ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁶ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸⁷ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁸¹ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸² See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁸³ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁴ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

CAT LLC believes that the process for estimating the budgeted interest income for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in each line item from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in interest income from the Original 2026 CAT Budget. Specifically, the following describes the differences in the interest income included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted interest income as included in the Original 2026 CAT Budget was \$1,995,958, and the annual 2026 budgeted interest income included in the Updated 2026 CAT Budget is \$2,806,325.⁸⁸ Accordingly, the budgeted interest income (not including bank fees) increased by \$810,367 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 40% increase in the interest income for the full year of 2026. This budgeted increase in the interest income in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to higher than expected cash balances being maintained after the approval of the Original 2026 Budget.

(x) Reserve

(a) Description of Reserve

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the reserve costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes a reserve amount for 2026. Section 11.1(a)(i) of the CAT NMS Plan states that the budget shall include a reserve. Section 11.1(a)(ii) of the CAT NMS Plan further describes the reserve as follows:

For the reserve referenced in paragraph (a)(i) of this Section, the budget will include an amount reasonably necessary to allow the Company to maintain a reserve of not more than 25% of the annual budget. To the extent collected CAT fees exceed CAT costs, including the reserve of 25% of the annual budget, such surplus shall be used to offset future fees. For the

avoidance of doubt, the Company will only include an amount for the reserve in the annual budget if the Company does not have a sufficient reserve (which shall be up to but not more than 25% of the annual budget). For the avoidance of doubt, the calculation of the amount of the reserve would exclude the amount of the reserve from the budget.

CAT LLC determined to maintain a reserve in the amount of 25% of the total expenses set forth in the Updated 2026 CAT Budget (which does not include the reserve amount). Accordingly, the total 25% reserve of \$23,508,157 was calculated by multiplying the total expenses set forth in the Updated 2026 CAT Budget (other than the reserve) by 25%.⁸⁹

The Updated 2026 CAT Budget estimates that CAT LLC will have \$102,391,135 in reserve as of the beginning of the CAT Fee Period 2026–1. Such reserve is related, in part, to (i) the collection of CAT fees in excess of the budgeted CAT costs in light of the greater actual executed equivalent share volume than the projected executed equivalent share volume for prior CAT Fees, and (ii) a reduction in anticipated budgeted costs associated with the implementation of certain cost savings measures. This reserve balance of \$102,391,135 would be used to offset a portion of CAT costs for CAT Fee Period 2026–1, thereby reducing the fee rate to be paid for CAT Fee 2026–1. Specifically, the total costs (including the 25% reserve) for CAT Fee 2026–1 of \$117,540,783 would be reduced by the \$102,391,135 in reserve. Therefore, the Total Budgeted CAT Costs 2026–1 would be \$15,149,648.

Accordingly, the fee rate for CAT Fee 2026–1 is calculated based on this reduced amount of \$15,149,648, resulting in a fee rate of \$0.000001 per executed equivalent share. If the fee rate for CAT Fee 2026–1 were calculated solely based on the reasonably budgeted costs for CAT for May–December 2026, excluding the reduction in that amount due to the surplus reserve offset, the fee rate would be the higher rate of \$0.000010.⁹⁰

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for a reserve from the prior CAT Fee filing. As this is the first Prospective CAT Fee

filing under this CAT Funding Model, this filing describes the changes in reserve from the Original 2026 CAT Budget. Specifically, the following describes the differences in the reserve included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The accrued liquidity reserve balance at the beginning of the year included in the Original 2026 CAT Budget was \$119,128,336. The Original 2026 CAT Budget contemplated using the reserve to pay CAT bills throughout the year as no CAT fee was in effect. The accrued liquidity reserve balance at the beginning of the year included in the Updated 2026 CAT Budget was \$155,403,378. The increase in the accrued liquidity reserve balance at the beginning of the year from the Original 2026 CAT Budget to the Updated 2026 CAT Budget reflected the additional CAT Fees that had been received after the approval of the Original 2026 CAT Budget. In addition, the Updated 2026 CAT Budget not only reflected the use of the surplus reserve to pay CAT bills but also the accrual of additional reserve to establish a 25% reserve through CAT Fee 2026–1. Accordingly, the estimated liquidity reserve balance increased from a deficit of \$37,304,661 included in the Original 2026 CAT Budget to a reserve balance of \$23,508,157 included in the Updated 2026 CAT Budget for the full year of 2026.

(D) Projected Total Executed Equivalent Share Volume

The calculation of Fee Rate 2026–1 also requires the determination of the projected total executed equivalent share volume of transactions in Eligible Securities for the CAT Fee 2026–1 Period. Under the CAT NMS Plan, the Operating Committee is required to “reasonably determine the projected total executed equivalent share volume of all transactions in Eligible Securities for each relevant period based on the executed equivalent share volume of all transactions in Eligible Securities for the prior twelve months.”⁹¹ The Operating Committee is required to base its projection on the prior twelve months, but it may use its discretion to analyze the likely volume for the upcoming year. Such discretion would allow the Operating Committee to use its judgment when estimating projected total executed equivalent share volume if the volume over the prior twelve months was unusual or otherwise unfit to serve as the basis of a future volume estimate.⁹²

⁸⁸ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁹ The reserve was calculated by multiplying \$94,032,626 by 25%, which equals approximately \$23,508,157.

⁹⁰ See CAT Fee Alert 2026–1 (Apr. 1, 2026).

⁹¹ Section 11.3(a)(i)(D) of the CAT NMS Plan.

⁹² CAT Funding Model Approval Order at 13452.

The total executed equivalent share volume of transactions in Eligible Securities for the 12-month period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. The Operating Committee has determined to calculate the projected total executed equivalent share volume for the eight-month recovery period for CAT Fee 2026–1 by multiplying by 8/12ths the executed equivalent share volume for the 12-month period from March 2025 through February 2026. The Operating Committee determined that such an approach was reasonable as the CAT’s annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.41), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level. Accordingly, the projected total executed equivalent share volume for the eight-month period for CAT Fee 2026–1 is projected to be 3,987,291,699,573.66 executed equivalent shares.⁹³

The projected total executed equivalent share volume of all transactions in Eligible Securities for the eight-month recovery period for CAT Fee 2026–1 and a description of the calculation of the projection is provided in this filing in accordance with the requirement in the CAT NMS Plan to provide such information in a fee filing for a CAT Fee.⁹⁴

(E) Fee Rate 2026–1

Fee Rate 2026–1 would be calculated by dividing the Budgeted CAT Costs 2026–1 by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the eight-month recovery period for CAT Fee 2026–1, as described in detail above.⁹⁵ Specifically, Fee Rate 2026–1 would be calculated by dividing \$15,149,648 by 3,987,291,699,573.66 executed equivalent shares. As a result, Fee Rate 2026–1 would be \$0.000003799483243631228 per executed equivalent share. Fee Rate 2026–1 is provided in this filing in

accordance with the requirement in the CAT NMS Plan to provide the Fee Rate in a fee filing for a CAT Fee.⁹⁶

Fee Rate 2026–1 would be used to calculate the fee rate to be paid by CEBBs and CEBBs for CAT Fee 2026–1. Such fee rate is calculated by multiplying Fee Rate 2026–1 of \$0.000003799483243631228 by one-third, and rounding the result to six decimal places.⁹⁷ Accordingly, the fee rate to be paid by CEBBs and CEBBs for CAT Fee 2026–1 would be \$0.000001 per executed equivalent share.

(3) Monthly Fees

CEBBs and CEBBs would be required to pay fees for CAT Fee 2026–1 on a monthly basis for eight months, from July 2026 until January 2027. A CEBB’s or CEBB’s fee for each month would be calculated based on the transactions in Eligible Securities executed by the CEBB or CEBB from the prior month.⁹⁸ Proposed paragraph (a)(6)(A) of the fee schedule would state that each CAT Executing Broker would receive its first invoice for CAT Fee 2026–1 in June 2026, and would receive an invoice for CAT Fee 2026–1 each month thereafter until January 2027. Proposed paragraph (a)(6)(B) of the fee schedule would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis.” In addition, paragraph (b)(1) of the fee schedule states that each CEBB and CEBB is required to pay its CAT fees “each month.”

(4) Consolidated Audit Trail Funding Fees

To implement CAT Fee 2026–1, the Exchange proposes to add a new paragraph to the “Consolidated Audit Trail Funding Fees” section of the Exchange’s fee schedule, to include the proposed paragraphs described below.

(A) Fee Schedule for CAT Fee 2026–1

The CAT NMS Plan states that: Each Industry Member that is the CAT Executing Broker for the buyer in a transaction in Eligible Securities (“CAT Executing Broker for the Buyer” or “CEBB”) and each Industry Member that is the CAT Executing Broker for the seller in a transaction in Eligible Securities (“CAT Executing Broker for

the Seller” or “CEBS”) will be required to pay a CAT Fee for each such transaction in Eligible Securities in the prior month based on CAT Data. The CEBB’s CAT Fee or CEBS’s CAT Fee (as applicable) for each transaction in Eligible Securities will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Fee Rate reasonably determined pursuant to paragraph (a)(i) of this Section 11.3.⁹⁹

Accordingly, based on the factors discussed above, the Exchange proposes to add paragraph (a)(6) to the Consolidated Audit Trail Funding Fees section of its fee schedule. Proposed paragraph (a)(6) would state the following:

(A) Each CAT Executing Broker shall receive its first invoice for CAT Fee 2026–1 in June 2026, which shall set forth the CAT Fee 2026–1 fees calculated based on transactions in May 2026, and shall receive an invoice for CAT Fee 2026–1 for each month thereafter until January 2027.

(B) Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis. Each month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (“CEBB”) and/or the CAT Executing Broker for the Seller (“CEBS”) (as applicable) from the prior month as set forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000001 per executed equivalent share.

(C) Notwithstanding the last invoice date of January 2027 for CAT Fee 2026–1 in paragraph 6(A), CAT Fee 2026–1 shall continue in effect after January 2027, with each CAT Executing Broker receiving an invoice for CAT Fee 2026–1 each month, until a new subsequent CAT Fee is in effect with regard to Industry Members in accordance with Section 19(b) of the Exchange Act. Consolidated Audit Trail, LLC will provide notice when CAT Fee 2026–1 will no longer be in effect.

(D) Each CAT Executing Broker shall be required to pay each invoice for CAT Fee 2026–1 in accordance with paragraph (b).

As noted in the Plan amendment for the CAT Funding Model, “[a]s a practical matter, the fee filing would provide the exact fee per executed equivalent share to be paid for the CAT Fees, by multiplying the Fee Rate by

⁹³ This projection was calculated by multiplying 5,980,937,549,360.49 executed equivalent shares by 8/12ths.

⁹⁴ Section 11.3(a)(iii)(B) of the CAT NMS Plan.

⁹⁵ In approving the CAT Funding Model, the Commission stated that “[t]he manner in which the Fee Rate for Prospective CAT Costs will be calculated (*i.e.*, by dividing the CAT costs reasonably budgeted for the upcoming year by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the year) is appropriate.” CAT Funding Model Approval Order at 13435.

⁹⁶ See Section 11.3(a)(iii)(B)(A) of the CAT NMS Plan.

⁹⁷ This fee rate of \$0.000001 is calculated by multiplying the Fee Rate of \$0.000003799483243631228 by one-third and rounding this result (which equals \$0.000001266494414543743) to 6 decimal places.

⁹⁸ See proposed paragraph (a)(6)(B) of the fee schedule.

⁹⁹ Section 11.3(a)(iii)(A) of the CAT NMS Plan.

one-third and describing the relevant number of decimal places for the fee.”¹⁰⁰ Accordingly, proposed paragraph (a)(6)(B) of the fee schedule would set forth a fee rate of \$0.000001 per executed equivalent share. This fee rate is calculated by multiplying Fee Rate 2026–1 of \$0.000003799483243631228 by one-third, and rounding the result to six decimal places.¹⁰¹ The Operating Committee determined to use six decimal places to balance the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.

The proposed language in paragraph (a)(6)(A) of the fee schedule would describe when CAT Executing Brokers would receive their first monthly invoice for CAT Fee 2026–1. Specifically, CAT Executing Brokers would receive their first monthly invoice for CAT Fee 2026–1 in June 2026 and the fees set forth in that invoice would be calculated based on transactions executed in May 2026. The payment for the first invoice would be required within 30 days after the receipt of the first invoice (unless a longer period is indicated), as described in paragraph (b)(2) of the fee schedule.

Proposed paragraph (a)(6)(A) of the fee schedule also would describe the monthly cadence of the invoices for CAT Fee 2026–1. Specifically, after the first invoices are provided to CAT Executing Brokers in June 2026, invoices will be sent to CAT Executing Brokers each month thereafter until January 2027.

Proposed paragraph (a)(6)(B) of the fee schedule would describe the invoices for CAT Fee 2026–1. Proposed paragraph (a)(6)(B) of the fee schedule would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis.” Proposed paragraph (a)(6)(B) of the fee schedule also would describe the fees to be set forth in the invoices for CAT Fee 2026–1. Specifically, it would state that “[e]ach month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (‘CEBB’) and/or the CAT Executing Broker for the Seller (‘CEBS’) (as applicable) from the prior month as set

forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000001 per executed equivalent share.”

Since CAT Fee 2026–1 is a monthly fee based on actual transaction volume from the prior month, CAT Fee 2026–1 may collect more or less than two-thirds of the Budgeted CAT Costs 2026–1. To the extent that CAT Fee 2026–1 collects more than two-thirds of the Budgeted CAT Costs 2026–1, any excess money collected will be used to offset future fees and/or to fund the reserve for the CAT. To the extent that CAT Fee 2026–1 collects less than two-thirds of the Budgeted CAT Costs 2026–1, the budget for the CAT in the ensuing months will reflect such shortfall.

Furthermore, proposed paragraph (a)(6)(C) of the fee schedule would describe how long CAT Fee 2026–1 would remain in effect. It would state that “[n]otwithstanding the last invoice date of January 2027 for CAT Fee 2026–1 in paragraph 6(A), CAT Fee 2026–1 shall continue in effect after January 2027, with each CAT Executing Broker receiving an invoice for CAT Fee 2026–1 each month, until a new subsequent CAT Fee is in effect with regard to Industry Members in accordance with Section 19(b) of the Exchange Act. Consolidated Audit Trail, LLC will provide notice when CAT Fee 2026–1 will no longer be in effect.”

Finally, proposed paragraph (a)(6)(D) of the fee schedule would set forth the requirement for the CAT Executing Brokers to pay the invoices for CAT Fee 2026–1. It would state that “[e]ach CAT Executing Broker shall be required to pay each invoice for CAT Fee 2026–1 in accordance with paragraph (b).”

(B) Manner of Payment

Paragraph (b)(1) of the “Consolidated Audit Trail Funding Fees” section of the fee schedule describes the manner of payment of Industry Member CAT fees. It states that “[e]ach CAT Executing Broker shall pay its CAT fees as required pursuant to paragraph (a) each month to the Consolidated Audit Trail, LLC in the manner prescribed by the Consolidated Audit Trail, LLC.” The CAT NMS Plan requires the Operating Committee to establish a system for the collection of CAT fees.¹⁰² The Plan Processor has established a billing system for CAT fees.¹⁰³ Accordingly,

CAT Executing Brokers would be required to pay CAT Fee 2026–1 in accordance with such system.

(C) Failure To Pay CAT Fees

The CAT NMS Plan further states that:

Participants shall require each Industry Member to pay all applicable fees authorized under this Article XI within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If an Industry Member fails to pay any such fee when due (as determined in accordance with the preceding sentence), such Industry Member shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of: (a) the Prime Rate plus 300 basis points; or (b) the maximum rate permitted by applicable law.¹⁰⁴

Paragraph (b)(2) of the fee schedule states that:

Each CAT Executing Broker shall pay the CAT fees required pursuant to paragraph (a) within thirty days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If a CAT Executing Broker fails to pay any such CAT fee when due, such CAT Executing Broker shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of (i) the Prime Rate plus 300 basis points, or (ii) the maximum rate permitted by applicable law.

The requirements of paragraph (b)(2) would apply to CAT Fee 2026–1.

(5) CAT Fee Details

The CAT NMS Plan states that: Details regarding the calculation of a Participant or CAT Executing Broker’s CAT Fees will be provided upon request to such Participant or CAT Executing Broker. At a minimum, such details would include each Participant or CAT Executing Broker’s executed equivalent share volume and corresponding fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.¹⁰⁵

Such information would provide CEBBs and CEBSs with the ability to understand the details regarding the

¹⁰⁰ CAT Funding Model Approval Order at 13445, n.677.

¹⁰¹ This fee rate of \$0.000001 is calculated by multiplying the Fee Rate of \$0.000003799483243631228 by one-third, and rounding this result (which equals \$0.000001266494414543743) to 6 decimal places.

¹⁰² Section 11.4 of the CAT NMS Plan.

¹⁰³ The billing process and system are described in CAT Alert 2023–02 as well as in the CAT FAQs related to the billing of CAT fees, the Industry Member CAT Reporter Portal User Guide, the FCAT Industry Member Onboarding Guide, the FCAT

Connectivity Supplement for Industry Members and the CAT Billing Webinars (dated Sept. 28, 2023 and Nov. 7, 2023), each available on the CAT website.

¹⁰⁴ Section 11.4 of the CAT NMS Plan.

¹⁰⁵ Section 11.3(a)(iv)(A) of the CAT NMS Plan.

calculation of their CAT Fee.¹⁰⁶ CAT LLC will provide CAT Executing Brokers with these details regarding the calculation of their CAT Fees on their monthly invoice for the CAT Fees.

In addition, CAT LLC will make certain aggregate statistics regarding CAT Fees publicly available. Specifically, the CAT NMS Plan states that, “[f]or each CAT Fee, at a minimum, CAT LLC will make publicly available the aggregate executed equivalent share volume and corresponding aggregate fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.”¹⁰⁷ Such aggregate statistics will be available on the CAT website.

Furthermore, CAT LLC will make publicly available on the CAT website the total amount invoiced each month that CAT Fee 2026–1 is in effect as well as the total amount invoiced for CAT Fee 2026–1 for all months since its commencement. CAT LLC also will make publicly available on the CAT website the total costs to be collected from Industry Members for CAT Fee 2026–1.

(6) Financial Accountability Milestones

The CAT NMS Plan states that “[n]o Participant will make a filing with the SEC pursuant to Section 19(b) of the Exchange Act regarding any CAT Fee related to Prospective CAT Costs until the Financial Accountability Milestone related to Period 4 described in Section 11.6 has been satisfied.”¹⁰⁸ Under Section 1.1 of the CAT NMS Plan, a Financial Accountability Milestone is considered complete as of the date identified in the Participants’ Quarterly Progress Reports. As indicated by the Participants’ Quarterly Progress Report for the second and third quarter of 2024,¹⁰⁹ the Financial Accountability

Milestone related to Period 4 was satisfied on July 15, 2024. In addition, the satisfaction of the Financial Accountability Milestone related to Period 4 was described in detail in the fee filing for the first Prospective CAT Fee, CAT Fee 2024–1.¹¹⁰

(7) Participant Invoices

While CAT Fees charged to Industry Members become effective in accordance with the requirements of Section 19(b) of the Exchange Act,¹¹¹ CAT fees charged to Participants are implemented via an approval of the CAT fees by the Operating Committee in accordance with the requirements of the CAT NMS Plan.¹¹² On March 31, 2026, the Operating Committee approved the Participant fee related to CAT Fee 2026–1. Specifically, pursuant to the requirements of CAT NMS Plan,¹¹³ each Participant would be required to pay a CAT fee calculated using the fee rate of \$0.000001 per executed equivalent share, which is the same fee rate that applies to CEBBs and CEBSSs. Like CEBBs and CEBSSs, each Participant would be invoiced such CAT fees on a monthly basis for eight months, from June 2026 until January 2027, and each Participant’s fee for each month would be calculated based on the transactions in Eligible Securities executed on the applicable exchange (for the Participant exchanges) or otherwise than on an exchange (for FINRA) in the prior month. Accordingly, each Participant will receive its first invoice in June 2026, and would receive an invoice each month thereafter until January 2027. Like with the CAT Fee 2026–1 applicable to CEBBs and CEBSSs as described in proposed paragraph (a)(6)(C) of the fee schedule, notwithstanding the last invoice date of January 2027, Participants will continue to receive invoices for this fee each month until a new subsequent CAT Fee is in effect with regard to Industry Members. Furthermore, Section 11.4 of the CAT NMS Plan states that each Participant is required to pay such invoices as required by Section 3.7(b) of the CAT NMS Plan. Section 3.7(b) states, in part, that

[e]ach Participant shall pay all fees or other amounts required to be paid under this Agreement within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless

a longer payment period is otherwise indicated) (the “Payment Date”). The Participant shall pay interest on the outstanding balance from the Payment Date until such fee or amount is paid at a per annum rate equal to the lesser of: (i) Prime Rate plus 300 basis points; or (ii) the maximum rate permitted by applicable law.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the requirements of the Exchange Act. The Exchange believes that the proposed rule change is consistent with Section 6(b)(5) of the Act,¹¹⁴ which requires, among other things, that the Exchange’s rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest, and not designed to permit unfair discrimination between customers, issuers, brokers and dealers. The Exchange also believes that the proposed rule change is consistent with the provisions of Section 6(b)(4) of the Act,¹¹⁵ because it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using its facilities. The Exchange further believes that the proposed rule change is consistent with Section 6(b)(8) of the Act,¹¹⁶ which requires that the Exchange’s rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. These provisions also require that the Exchange be “so organized and [have] the capacity to be able to carry out the purposes” of the Act and “to comply, and . . . to enforce compliance by its members and persons associated with its members,” with the provisions of the Exchange Act.¹¹⁷ Accordingly, a reasonable reading of the Act indicates that it intended that regulatory funding be sufficient to permit an exchange to fulfill its statutory responsibility under the Act, and contemplated that such funding would be achieved through equitable assessments on the members, issuers, and other users of an exchange’s facilities.

The Exchange believes that this proposal is consistent with the Act because it implements provisions of the Plan and is designed to assist the Exchange in meeting regulatory obligations pursuant to the Plan. In

¹⁰⁶ In approving the CAT Funding Model, the Commission stated that, “[i]n the Commission’s view, providing CAT Execut[ing] Brokers information regarding the calculation of their CAT Fees will aid in transparency and permit CAT Execut[ing] Brokers to confirm the accuracy of their invoices for CAT Fees.” CAT Funding Model Approval Order at 62667.

¹⁰⁷ Section 11.3(a)(iv)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission stated that “[t]he publication of the aggregate executed equivalent share volume and aggregate fee is appropriate because it would allow Participants and CAT Executing Brokers a high-level validation of executed volume and fees.” CAT Funding Model Approval Order at 13454.

¹⁰⁸ Section 11.3(a)(iii)(C) of the CAT NMS Plan.

¹⁰⁹ Q2 & Q3 2024 Quarterly Progress Report (July 29, 2024).

¹¹⁰ See Securities Exchange Act Release No. 100830 (August 27, 2024), 89 FR 71501 (September 3, 2024) (SR–C2–2024–013) (“Fee Filing for CAT Fee 2024–1”).

¹¹¹ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹¹² CAT Funding Model Approval Order at 13448.

¹¹⁴ 15 U.S.C. 78f(b)(6).

¹¹⁵ 15 U.S.C. 78f(b)(4).

¹¹⁶ 15 U.S.C. 78f(b)(8).

¹¹⁷ See 15 U.S.C. 78f(b)(1).

approving the Plan, the SEC noted that the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹¹⁸ To the extent that this proposal implements the Plan and applies specific requirements to Industry Members, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Act.

The Exchange believes that the proposed fees to be paid by the CEBBs and CEBs are reasonable, equitably allocated and not unfairly discriminatory. First, the CAT Fee 2026–1 fees to be collected are directly associated with the budgeted costs of establishing and maintaining the CAT, where such costs include Plan Processor costs and costs related to technology, legal, consulting, insurance, and professional and administration costs.

The proposed CAT Fee 2026–1 fees would be charged to Industry Members in support of the maintenance of a consolidated audit trail for regulatory purposes. The proposed fees, therefore, are consistent with the Commission’s view that regulatory fees be used for regulatory purposes and not to support the Exchange’s business operations. The proposed fees would not cover Exchange services unrelated to the CAT. In addition, any surplus would be used as a reserve to offset future fees. Given the direct relationship between CAT fees and CAT costs, the Exchange believes that the proposed fees are reasonable, equitable and not unfairly discriminatory.

As further discussed below, the SEC approved the CAT Funding Model, finding it was reasonable and that it equitably allocates fees among Participants and Industry Members. The Exchange believes that the proposed fees adopted pursuant to the CAT Funding Model approved by the SEC are reasonable, equitably allocated and not unfairly discriminatory.

(1) Implementation of CAT Funding Model in CAT NMS Plan

Section 11.1(b) of the CAT NMS Plan states that “[t]he Participants shall file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves.” Per Section 11.1(b) of the CAT NMS Plan, the Exchange has filed this fee filing to implement the Industry

Member CAT fees included in the CAT Funding Model. The Exchange believes that this proposal is consistent with the Exchange Act because it is consistent with, and implements, the CAT Funding Model in the CAT NMS Plan, and is designed to assist the Exchange and its Industry Members in meeting regulatory obligations pursuant to the CAT NMS Plan. In approving the CAT NMS Plan, the SEC noted that the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹¹⁹ Similarly, in approving the CAT Funding Model, the SEC concluded that the CAT Funding Model met this standard.¹²⁰ As this proposal implements the Plan and the CAT Funding Model described therein, and applies specific requirements to Industry Members in compliance with the Plan, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Exchange Act.

(2) Calculation of Fee Rate for CAT Fee 2026–1 Is Reasonable

The SEC has determined that the CAT Funding Model satisfies the requirements of the Exchange Act. Specifically, the SEC has concluded that the method for determining CAT Fees as set forth in Section 11.3 of the CAT NMS Plan, including the formula for calculating the Fee Rate, the identification of the parties responsible for payment and the transactions subject to the fee rate for CAT Fees, satisfies the Exchange Act.¹²¹ In each respect, as discussed above, CAT Fee 2026–1 is calculated, and would be applied, in accordance with the requirements applicable to CAT Fees as set forth in the CAT NMS Plan. Furthermore, as discussed below, the Exchange believes that each of the figures for the variables in the SEC-approved formula for calculating the fee rate for CAT Fee 2026–1 is reasonable and consistent with the Exchange Act. The calculation of Fee Rate 2026–1 for CAT Fee 2026–1 requires the figures for Budgeted CAT Costs 2026–1, the executed equivalent share volume for the prior twelve months, the determination of the CAT Fee 2026–1 Period, and the projection of the executed equivalent share volume for the CAT Fee 2026–1 Period. Each of

these variables is reasonable and satisfies the Exchange Act, as discussed throughout this filing.

(A) Budgeted CAT Costs 2026–1

The formula for calculating a Fee Rate requires the amount of Budgeted CAT Costs to be recovered. Specifically, Section 11.3(a)(iii)(B) of the CAT NMS Plan requires a fee filing to provide: the budget for the upcoming year (or remainder of the year, as applicable), including a brief description of each line item in the budget, including (1) the technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees, and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration, and (6) public relations costs, a reserve and/or such other categories as reasonably determined by the Operating Committee to be included in the budget, and the reason for changes in each such line item from the prior CAT fee filing.

In accordance with this requirement, the Exchange has set forth the amount and type of Budgeted CAT Costs 2026–1 for each of these categories above.

Section 11.3(a)(iii)(B) of the CAT NMS Plan also requires that the fee filing provide “sufficient detail to demonstrate that the budget for the upcoming year, or part of year, as applicable, is reasonable and appropriate.” As discussed below, the Exchange believes that the budget for the CAT Fee 2026–1 Period is “reasonable and appropriate.” Each of the costs included in CAT Fee 2026–1 is reasonable and appropriate because the costs are consistent with standard industry practice, based on the need to comply with the requirements of the CAT NMS Plan, incurred subject to negotiations performed on an arm’s length basis, and/or is consistent with the needs of any legal entity, particularly one with no employees.

(i) Technology: Cloud Hosting Services

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover budgeted costs related to cloud hosting services as a part of CAT Fees.¹²² CAT LLC determined that the budgeted costs related to cloud hosting services described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. As described above, the cloud hosting services costs reflect, among other things, the breadth of the CAT cloud activities, data volumes far in excess of

¹¹⁹ *Id.*

¹²⁰ CAT Funding Model Approval Order at 13481.

¹²¹ *Id.*

¹²² Section 11.3(a)(iii)(B)(1) of the CAT NMS Plan.

¹¹⁸ CAT NMS Plan Approval Order at 84697.

the original volume estimates, the need for specialized cloud services given the volume and unique nature of the CAT, the processing time requirements of the Plan, and regular efforts to seek to minimize costs where permissible under the Plan. CAT LLC determined that use of cloud hosting services is necessary for implementation of the CAT, particularly given the substantial data volumes associated with the CAT, and that the fees for cloud hosting services negotiated by FCAT were reasonable, taking into consideration a variety of factors, including the expected volume of data and the breadth of services provided and market rates for similar services.¹²³ Indeed, the actual costs of the CAT are far in excess of the original estimated costs of the CAT due to various factors, including the higher volumes and greater complexity of the CAT than anticipated when Rule 613 was originally adopted.

To comply with the requirements of the Plan, the breadth of the cloud activities related to the CAT is substantial. The cloud services not only include the production environment for the CAT, but they also include two industry testing environments, support environments for quality assurance and stress testing and disaster recovery capabilities. Moreover, the cloud storage costs are driven by the requirements of the Plan, which requires the storage of multiple versions of the data, from the original submitted version of the data through various processing steps, to the final version of the data.

Data volume is a significant driver of costs for cloud hosting services. When the Commission adopted the CAT NMS Plan in 2016, it estimated that the CAT would need to receive 58 billion records per day¹²⁴ and that annual operating costs for the CAT would range from \$36.5 million to \$55 million.¹²⁵ In contrast to the 2016 projections, the actual daily Q3 2025 data volumes averaged 792 billion events per day.

In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. Although CAT LLC has proactively sought to manage cloud hosting costs while complying with the Plan, including through requests to the Commission for exemptive relief and amendments to the CAT NMS Plan to reduce costs, stringent CAT NMS Plan requirements do not allow for any

material flexibility in cloud architecture design choices, processing timelines (e.g., the use of non-peak processing windows), or lower-cost storage tiers. As a result, the required CAT processing timelines contribute to the cloud hosting costs of the CAT.

The costs for cloud hosting services also reflect the need for specialized cloud hosting services given the data volume and unique processing needs of the CAT. The data volume as well as the data processing needs of the CAT necessitate the use of cloud hosting services. The equipment, power and services required for an on-premises data model, the alternative to cloud hosting services, would be cost prohibitive. Moreover, as CAT was being developed, there were limited cloud hosting providers that could satisfy all the necessary CAT requirements, including the operational and security criteria. Over time, more providers offering cloud hosting services that would satisfy these criteria have entered the market. CAT LLC will continue to evaluate alternative cloud hosting services, recognizing that the time and cost to move to an alternative cloud provider would be substantial.

The reasonableness of the cloud hosting services costs is further supported by key cost discipline mechanisms for the CAT—a cost-based funding structure, cost transparency, cost management efforts (including regular efforts to lower compute and storage costs where permitted by the Plan) and oversight. Together, these mechanisms help ensure the ongoing reasonableness of the CAT's costs and the level of fees assessed to support those costs.¹²⁶

(ii) Technology: Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to operating fees as a part of CAT Fees.¹²⁷ CAT LLC determined that the budgeted costs related to operating fees described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1.

The operating fees would include the negotiated fees paid by CAT LLC to the Plan Processor to operate and maintain the system for order-related information and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g.,

management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the selection of FCAT as the Plan Processor was reasonable and appropriate given its expertise with securities regulatory reporting, after a process of considering other potential candidates.¹²⁸ CAT LLC also determined that the fixed price contract, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, was reasonable and appropriate, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity.¹²⁹ The services to be performed by FCAT for CAT Fee 2026–1 Period and the budgeted costs related to such services are described above.¹³⁰

The operating costs also include costs related to the receipt of market data. CAT LLC anticipates receiving certain market data from Algoseek during the CAT Fee 2026–1 Period. CAT LLC anticipates that Algoseek will provide data as set forth in the SIP Data requirements of the CAT NMS Plan and that the fees are reasonable and in line with market rates for market data received.¹³¹

(iii) Technology: CAIS Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to CAIS operating fees as a part of CAT Fees.¹³² CAT LLC determined that the budgeted costs related to CAIS operating fees described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. The CAIS operating fees would include the fees paid to the Plan Processor to operate and maintain the Reference Database and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the fees for FCAT's services related to the Reference Database, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors, including the services to be

¹²³ For a discussion of the amount and type of cloud hosting services fees, see Section 3(a)(2)(C)(i) above.

provided and market rates for similar types of activity, are reasonable and appropriate.¹³³ The services to be performed by FCAT for the CAT Fee 2026–1 Period and the budgeted costs for such services are described above.¹³⁴

(iv) Technology: Change Request Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to change request fees as a part of CAT Fees.¹³⁵ CAT LLC determined that the budgeted costs related to change request fees described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. It is common practice to utilize a change request process to address evolving needs in technology projects. This is particularly true for a project like CAT that is the first of its kind, both in substance and in scale. The substance and costs of each of the change requests are evaluated by the Operating Committee and approved in accordance with the requirements for Operating Committee meetings. In each case, CAT LLC forecasts that the change requests will be necessary to implement the CAT. As described above,¹³⁶ CAT LLC determined that it was reasonable not to include any change request fees in the Budgeted CAT Costs 2026–1.

(v) Capitalized Developed Technology Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to capitalized developed technology costs as a part of CAT Fees.¹³⁷ In general, capitalized developed technology costs would include costs related to, for example, certain development costs, costs related to certain modifications, upgrades and other changes to the CAT and license fees. The amount and type of budgeted capitalized developed technology costs for the CAT Fee 2026–1 Period, which relate to the software license fee and technology changes to be implemented by FCAT, are described in more detail above.¹³⁸

(vi) Legal

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to legal

fees as a part of CAT Fees.¹³⁹ CAT LLC determined that the budgeted legal costs described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. Given the unique nature of the CAT, the number of parties involved with the CAT (including, for example, the SEC, Participants, Industry Members, and vendors) and the many regulatory, contractual and other issues associated with the CAT, the scope of the necessary legal services is substantial. CAT LLC determined that the scope of the proposed legal services is necessary to implement and maintain the CAT and that the legal rates reflect the specialized services necessary for such a project. CAT LLC determined to hire and continue to use each law firm based on a variety of factors, including their relevant expertise and fees. In each case, CAT LLC determined that the fee rates were in line with market rates for specialized legal expertise. In addition, CAT LLC determined that the budgeted costs for the legal projects were appropriate given the breadth of the services provided. The services to be performed by each law firm for the CAT Fee 2026–1 Period and the budgeted costs related to such services are described above.¹⁴⁰

(vii) Consulting

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted consulting costs as a part of CAT Fees.¹⁴¹ CAT LLC determined that the budgeted consulting costs described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. Because there are no CAT employees¹⁴² and because of the significant number of issues associated with the CAT, the consultants are budgeted to provide assistance in the management of various CAT matters and the processes related to such matters.¹⁴³ CAT LLC determined the budgeted consulting costs were appropriate, as the consulting services were to be provided at reasonable market rates that were comparable to the rates charged by other consulting firms for similar work. Moreover, the total budgeted costs for such consulting

services were appropriate in light of the breadth of services provided by Deloitte. The services budgeted to be performed by Deloitte and the budgeted costs related to such services are described above.¹⁴⁴

(viii) Insurance

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted insurance costs as a part of CAT Fees.¹⁴⁵ CAT LLC determined that the budgeted insurance costs described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. CAT LLC determined that it is common practice to have directors' and officers' liability insurance, and errors and omissions liability insurance. CAT LLC further determined that it was important to have cyber security insurance given the nature of the CAT, and such a decision is consistent with the CAT NMS Plan, which states that the cyber incident response plan may include "[i]nsurance against security breaches."¹⁴⁶ As discussed above,¹⁴⁷ CAT LLC determined that the budgeted insurance costs were appropriate given its prior experience with this market and an analysis of the alternative insurance offerings. Based on this analysis, CAT LLC determined that the selected insurance policies provided appropriate coverage at reasonable market rates.¹⁴⁸

(ix) Professional and Administration

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted professional and administration costs as a part of CAT Fees.¹⁴⁹ CAT LLC determined that the budgeted professional and administration costs described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. Because there are no CAT employees, all required accounting, financial, tax, cash management and treasury functions for CAT LLC have been outsourced at market rates. In addition, the required annual financial statement audit of CAT LLC is included in professional and administration costs, which costs are also at market rates. The services performed by Anchin and Grant Thornton and the costs

¹³⁸ See Section 3(a)(2)(C)(v) above.

related to such services are described above.¹⁵⁰

CAT LLC anticipates continuing to make use of Anchin, a financial advisory firm, to assist with financial matters for the CAT. CAT LLC determined that the budgeted costs for Anchin were appropriate, as the financial advisory services were to be provided at reasonable market rates that were comparable to the rates charged by other such firms for similar work. Moreover, the total budgeted costs for such financial advisory services were appropriate in light of the breadth of services provided by Anchin. The services budgeted to be performed by Anchin and the budgeted costs related to such services are described above.¹⁵¹

CAT LLC anticipates continuing to make use of Grant Thornton, an independent accounting firm, to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. CAT LLC determined that the budgeted costs for Grant Thornton were appropriate, as the accounting services were to be provided at reasonable market rates that were comparable to the rates charged by other such firms for similar work. Moreover, the total budgeted costs for such accounting services were appropriate in light of the breadth of services provided by Grant Thornton. The services budgeted to be performed by Grant Thornton and the budgeted costs related to such services are described above.¹⁵²

(x) Public Relations Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted public relations costs as a part of CAT Fees.¹⁵³ However, as described above,¹⁵⁴ CAT LLC determined not to include any public relations costs in Budgeted CAT Costs 2026–1. CAT LLC determined that it was reasonable not to include any public relations costs in the Budgeted CAT Costs 2026–1.

(xi) Interest Income

Section 11.1(a) of the CAT NMS Plan requires the CAT budget to include “the sources of all revenues to cover costs.” Accordingly, the Updated 2026 CAT Budget includes a line item for interest income. Specifically, the Updated 2026 CAT Budget includes \$1,453,382 in interest income for the CAT Fee 2026–

1 Period.¹⁵⁵ CAT LLC determined that using interest income to reduce the amount to be collected via CAT Fees is reasonable and should be included as a part of the Budgeted CAT Costs 2026–1.

(x) Reserve

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted reserve costs as a part of CAT Fees.¹⁵⁶ CAT LLC determined that the reserve in the amount of 25% of the Updated 2026 CAT Budget (other than the reserve) complies with the requirements of the CAT NMS Plan related to a reserve, is a reasonable amount, and, therefore, should be included as a part of the Updated 2026 CAT Budget.

In its approval order for the CAT Funding Model, the Commission stated that it would be appropriate for the annual operating budget for the CAT to “include a reserve of not more than 25% of the annual budget.”¹⁵⁷ In making this statement, the Commission noted the following:

Because the CAT is a critical regulatory tool/system, the CAT needs to have a stable funding source to build financial stability to support the Company as a going concern. Funding for the CAT, as noted in Section 11.1(b), is the responsibility of the Participants and the industry. Because CAT fees are charged based on the budget, which is based on anticipated volume, it is reasonable to have a reserve on hand to prevent a shortfall in the event there is an unexpectedly high volume in a given year. A reserve would help to assure that the CAT has sufficient resources to cover costs should there be unanticipated costs or costs that are higher than expected.¹⁵⁸

The SEC also recognized that a reserve would help address the difficulty in predicting certain variable CAT costs, like trading volume.¹⁵⁹ The SEC also recognized that CAT fees will be collected approximately three months after trading activity on which a CAT fee is based, or 25% of the year, and that the reserve would be available to address funding needs related to this three-month delay.¹⁶⁰ The inclusion of the proposed reserve in the Updated 2026 CAT Budget would provide each

of these benefits to the CAT. The reserve is discussed further above.¹⁶¹

As discussed further below,¹⁶² however, a surplus reserve balance in excess of the budgeted 25% reserve has been collected as of the beginning of the year of 2026. Accordingly, the Updated 2026 CAT Budget indicates that this surplus would be used to offset a portion of CAT costs for the CAT Fee 2026–1 Period, thereby reducing the fee rate for CAT Fee 2026–1 (\$0.000001 per executed equivalent share). If the fee rate for CAT Fee 2026–1 were calculated solely based on the reasonably budgeted costs for CAT for May–December 2026, excluding the reduction in that amount due to the surplus reserve offset, the fee rate would be \$0.000010 per executed equivalent share.

(B) Reconciliation of Budget to the Collected Fees

The CAT NMS Plan also requires fee filings for Prospective CAT Fees to include “a discussion of how the budget is reconciled to the collected fees.”¹⁶³ As discussed above,¹⁶⁴ this reserve balance of \$102,391,135 collected via prior CAT Fees would be used to offset a portion of CAT costs for CAT Fee Period 2026–1, thereby reducing the fee rate to be paid for CAT Fee 2026–1. Specifically, the total costs (including the 25% reserve) for CAT Fee 2026–1 of \$117,540,783 would be reduced by the \$102,391,135 in reserve. Therefore, the Total Budgeted CAT Costs 2026–1 would be \$15,149,648. Such surplus reserve balance would be used to reduce the fee rate for CAT Fee 2026–1 (\$0.000001 per executed equivalent share).

(C) Total Executed Equivalent Share Volume for the Prior 12 Months

The total executed equivalent share volume of transactions in Eligible Securities for the period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. CAT LLC determined the total executed equivalent share volume for the prior twelve months by counting executed equivalent shares in the same manner as it counts executed equivalent shares for CAT billing purposes.¹⁶⁵

(D) Projected Executed Equivalent Share Volume for the CAT Fee 2026–1 Period

CAT LLC has determined that the projected total executed equivalent

¹⁶⁵ See Section 3(a)(2)(D) above.

share volume for the eight months of the CAT Fee 2026–1 Period by multiplying by 8/12ths the executed equivalent share volume for the prior twelve months: 8/12 times

5,980,937,549,360.49 executed equivalent shares.¹⁶⁶ The Operating Committee determined that such an approach was reasonable as the CAT's annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.41), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level.

(E) Actual Fee Rate for CAT Fee 2026–1

(i) Decimal Places

As noted in the approval order for the CAT Funding Model, as a practical matter, the fee filing for a CAT Fee would provide the exact fee per executed equivalent share to be paid for each CAT Fee, by multiplying the Fee Rate by one-third and describing the relevant number of decimal places for the fee rate.¹⁶⁷ Accordingly, proposed paragraph (a)(6)(B) of the fee schedule would set forth a fee rate of \$0.000001 per executed equivalent share. This fee rate is calculated by multiplying Fee Rate 2026–1 by one-third and rounding the result to six decimal places. CAT LLC determined that the use of six decimal places is reasonable as it balances the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.¹⁶⁸

(ii) Reasonable Fee Level

The Exchange believes that charging CAT Fee 2026–1 with a fee rate of \$0.000001 per executed equivalent share is reasonable because it provides for a revenue stream for the Company that is aligned with the Budgeted CAT Costs 2026–1. Moreover, the Exchange believes that the level of the fee rate is reasonable, as it is less than CAT Fee 2025–2 and is comparable to other transaction-based fees, including fees assessed pursuant to Section 31.¹⁶⁹ As a result, the magnitude of CAT Fee 2026–1 is small, and therefore will

mitigate any potential adverse economic effects or inefficiencies.¹⁷⁰

(3) CAT Fee 2026–1 Provides for an Equitable Allocation of Fees

CAT Fee 2026–1 provides for an equitable allocation of fees, as it equitably allocates CAT costs between and among the Participants and Industry Members. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfied the requirements of the Exchange Act, including the formula for calculating CAT Fees as well as the Industry Members to be charged the CAT Fees.¹⁷¹ In approving the CAT Funding Model, the SEC stated that “[t]he Participants have sufficiently demonstrated that the proposed allocation of fees is appropriate and meets the Rule 608(b) approval standard.”¹⁷² Accordingly, the CAT Funding Model sets forth the requirements for allocating fees related to Budgeted CAT Costs among Participants and Industry Members, and the fee filings for CAT Fees must comply with those requirements.

CAT Fee 2026–1 provides for an equitable allocation of fees as it complies with the requirements regarding the calculation of CAT Fees as set forth in the CAT NMS Plan. For example, as described above, the calculation of CAT Fee 2026–1 complies with the formula set forth in Section 11.3(a) of the CAT NMS Plan. In addition, CAT Fee 2026–1 would be charged to CEBBs and CEBBs in accordance with Section 11.3(a) of the CAT NMS Plan. Furthermore, the Participants would be charged for their designated share of the Budgeted CAT Costs 2026–1 through a fee implemented via the CAT NMS Plan, which would have the same fee rate as CAT Fee 2026–1.

In addition, as discussed above, each of the inputs into the calculation of CAT Fee 2026–1—the Budgeted CAT Costs 2026–1, the count for the executed equivalent share volume for the prior 12 months, and the projected executed equivalent share volume for the CAT Fee 2026–1 Period—is reasonable. Moreover, these inputs lead to a reasonable fee rate for CAT Fee 2026–1 that is lower than other fee rates for transaction-based fees. A reasonable fee rate allocated in accordance with the requirements of the CAT Funding Model provides for an equitable allocation of fees.

(4) CAT Fee 2026–1 Is Not Unfairly Discriminatory

CAT Fee 2026–1 is not an unfairly discriminatory fee. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfies the requirements of the Exchange Act. In reaching this conclusion, the SEC analyzed the potential effect of CAT Fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. CAT Fee 2026–1 complies with the requirements regarding the calculation of CAT Fees as set forth in the CAT NMS Plan. In addition, as discussed above, each of the inputs into the calculation of CAT Fee 2026–1 and the resulting fee rate for CAT Fee 2026–1 is reasonable. Therefore, CAT Fee 2026–1 does not impose an unfairly discriminatory fee on Industry Members.

The Exchange believes the proposed fees established pursuant to the CAT Funding Model promote just and equitable principles of trade, and, in general, protect investors and the public interest, and are provided in a transparent manner and with specificity in the fee schedule. The Exchange also believes that the proposed fees are reasonable because they would provide ease of calculation, ease of billing and other administrative functions, and predictability of a fee based on fixed rate per executed equivalent share. Such factors are crucial to estimating a reliable revenue stream for CAT LLC and for permitting Exchange members to reasonably predict their payment obligations for budgeting purposes.

B. Self-Regulatory Organization's Statement on Burden on Competition

Section 6(b)(8) of the Act¹⁷³ requires that the Exchange's rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that CAT Fee 2026–1 implements provisions of the CAT NMS Plan that were approved by the

¹⁶⁶ *Id.*

¹⁶⁷ CAT Funding Model Approval Order at 13445, n.677.

¹⁶⁸ See Section 3(a)(5)(A) above.

¹⁶⁹ For example, as the SEC noted in the CAT Funding Model Approval Order, recent Section 31 fees ranged from \$0.00007 per share to \$0.00072 per share. CAT Funding Model Approval Order at 13469.

¹⁷⁰ *Id.*

¹⁷¹ See Section 11.3(a) of the CAT NMS Plan.

¹⁷² CAT Funding Model Approval Order at 13412.

¹⁷³ 15 U.S.C. 78f(b)(8).

Commission and is designed to assist the Exchange in meeting its regulatory obligations pursuant to the Plan.

In addition, all Participants (including exchanges and FINRA) are proposing to introduce CAT Fee 2026–1 on behalf of CAT LLC to implement the requirements of the CAT NMS Plan. Therefore, this is not a competitive fee filing, and, therefore, it does not raise competition issues between and among the Participants.

Furthermore, in approving the CAT Funding Model, the SEC analyzed the potential competitive impact of the CAT Funding Model, including competitive issues related to market services, trading services and regulatory services, efficiency concerns, and capital formation.¹⁷⁴ The SEC also analyzed the potential effect of CAT fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. Based on this analysis, the SEC approved the CAT Funding Model as compliant with the Exchange Act. CAT Fee 2026–1 is calculated and implemented in accordance with the CAT Funding Model as approved by the SEC.

As discussed above, each of the inputs into the calculation of CAT Fee 2026–1 is reasonable and the resulting fee rate for CAT Fee 2026–1 calculated in accordance with the CAT Funding Model is reasonable. Therefore, CAT Fee 2026–1 would not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Not applicable.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁷⁵ and paragraph (f) of Rule 19b–4¹⁷⁶ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission

summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR–C2–2026–010 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–C2–2026–010. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–C2–2026–010 and should be submitted on or before June 2, 2026.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁷⁷

Stephanie J. Fouse,
Assistant Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–105400; File No. SR–CboeBYX–2026–015]

Self-Regulatory Organizations; Cboe BYX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Establish Fees for Industry Members Related to Reasonably Budgeted CAT Costs of the National Market System Plan Governing the Consolidated Audit Trail for the Period From May 1, 2026 Through December 31, 2026

May 7, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on April 24, 2026, Cboe BYX Exchange, Inc. (the “Exchange” or “BYX”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe BYX Exchange, Inc. (the “Exchange” or “BYX”) proposes to amend its “Consolidated Audit Trail Funding Fees”³ fee schedule to establish fees for Industry Members⁴ related to reasonably budgeted CAT costs of the National Market System Plan Governing the Consolidated Audit Trail (the “CAT NMS Plan” or “Plan”) for the period from May 1, 2026 through December 31, 2026. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Commission's website (<https://www.sec.gov/rules/sro.shtml>), the Exchange's website (<https://www.cboe.com/us/equities/>

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

³ The Exchange and each of its affiliated exchanges (Cboe BZX Exchange, Inc., Cboe C2 Exchange, Cboe Exchange Inc., Cboe EDGA Exchange, Inc., and Cboe EDGX Exchange, Inc.) are filing to make the same amendment to the “Consolidated Audit Trail Funding Fees” fee schedule.

⁴ An “Industry Member” is defined as “a member of a national securities exchange or a member of a national securities association.” See Exchange Rule 4.5(u); see also Section 1.1 of the CAT NMS Plan. Unless otherwise specified, capitalized terms used in this rule filing are defined as set forth in the CAT NMS Plan and/or the CAT Compliance Rule. See Exchange Rules 4.5–4.17.

regulation/rule_filings/bzx/), and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On July 11, 2012, the Commission adopted Rule 613 of Regulation NMS, which required the self-regulatory organizations ("SROs") to submit a national market system ("NMS") plan to create, implement and maintain a consolidated audit trail that would capture customer and order event information for orders in NMS securities across all markets, from the time of order inception through routing, cancellation, modification or execution.⁵ On November 15, 2016, the Commission approved the CAT NMS Plan.⁶ Under the CAT NMS Plan, the Operating Committee has the discretion to establish funding for CAT LLC to operate the CAT, including establishing fees for Industry Members to be assessed by CAT LLC that would be implemented on behalf of CAT LLC by the Participants.⁷ The Operating Committee adopted a revised funding model to fund the CAT ("CAT Funding Model"). On March 16, 2026, the Commission approved the CAT Funding Model after concluding that the model satisfied the requirements of Section 11A of the Exchange Act and Rule 608 thereunder.⁸

The CAT Funding Model provides a framework for the recovery of the costs

to create, develop and maintain the CAT, including providing a method for allocating costs to fund the CAT among Participants and Industry Members. The CAT Funding Model establishes two categories of fees: (1) CAT fees assessed by CAT LLC and payable by certain Industry Members to recover a portion of historical CAT costs previously paid by the Participants ("Historical CAT Assessment" fees); and (2) CAT fees assessed by CAT LLC and payable by Participants and Industry Members to fund prospective CAT costs ("CAT Fees").⁹

Under the CAT Funding Model, Participants, CEBBs and CEBSSs are subject to fees designed to cover the ongoing budgeted costs of the CAT, as determined by the Operating Committee. "The Operating Committee will establish fees ('CAT Fees') to be payable by Participants and Industry Members with regard to CAT costs not previously paid by the Participants ('Prospective CAT Costs')." ¹⁰ In establishing a CAT Fee, the Operating Committee will calculate a "Fee Rate" for the relevant period. Then, for each month in which a CAT Fee is in effect, each CEBB and CEBSS would be required to pay the fee for each transaction in Eligible Securities executed by the CEBB or CEBSS from the prior month as set forth in CAT Data, where the fee for each transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Fee Rate.

The CAT Fees to be paid by CEBBs and CEBSSs are designed to contribute toward the recovery of two-thirds of the budgeted CAT costs for the relevant period.¹¹ The CAT Funding Model is designed to require that the Participants contribute to the recovery of the remaining one-third of the budgeted CAT costs.¹² Participants would be subject to the same Fee Rate as CEBBs and CEBSSs.¹³ While CAT Fees charged to Industry Members become effective in accordance with the requirements of

Section 19(b) of the Exchange Act,¹⁴ CAT fees charged to Participants are implemented via an approval of the CAT fees by the Operating Committee in accordance with the requirements of the CAT NMS Plan.¹⁵ Accordingly, this filing does not address Participant CAT fees as they are described in the CAT NMS Plan.¹⁶

CAT LLC proposes to charge CEBBs and CEBSSs (as described in more detail below) CAT Fee 2026–1 to recover the reasonably budgeted CAT costs for the period from May 1, 2026 through December 31, 2026 in accordance with the CAT Funding Model. To implement this fee on behalf of CAT LLC, the CAT NMS Plan requires the Participants to "file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves, and such fees shall be labeled as 'Consolidated Audit Trail Funding Fees.'" ¹⁷ The Plan further states that "[o]nce the Operating Committee has approved such Fee Rate, the Participants shall be required to file with the SEC pursuant to Section 19(b) of the Exchange Act CAT Fees to be charged to Industry Members calculated using such Fee Rate." ¹⁸ Accordingly, the purpose of this filing is to implement a CAT Fee on behalf of CAT LLC for Industry Members, referred to as CAT Fee 2026–1, in accordance with the CAT NMS Plan.

(1) CAT Executing Brokers

CAT Fee 2026–1 will be charged to each CEBB and CEBSS for each applicable transaction in Eligible Securities.¹⁹ The CAT NMS Plan defines a "CAT Executing Broker" to mean: (a) with respect to a transaction in an Eligible Security that is executed on an exchange, the Industry Member identified as the Industry Member responsible for the order on the buy-side of the transaction and the Industry

¹⁴ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹⁵ CAT Funding Model Approval Order at 13448.

¹⁶ See Section 11.3(a)(ii) and Appendix B of the CAT NMS Plan.

¹⁷ Section 11.1(b) of the CAT NMS Plan.

¹⁸ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹⁹ In its approval of the CAT Funding Model, the Commission determined that charging CAT fees to CAT Executing Brokers was appropriate. In reaching this conclusion, the Commission noted that the use of CAT Executing Brokers is appropriate because the CAT Funding Model is based upon the calculation of *executed* equivalent shares, and, therefore, charging CAT Executing Brokers would reflect their executing role in each transaction. Furthermore, the Commission noted that, because CAT Executing Brokers are already identified in transaction reports from the exchanges and FINRA's equity trade reporting facilities recorded in CAT Data, charging CAT Executing Brokers could streamline the billing process. CAT Funding Model Approval Order at 13413.

⁸ Securities Exchange Act Rel. No. 105003 (Mar. 16, 2026), 91 FR 13410 (Mar. 19, 2026) ("CAT Funding Model Approval Order").

This CAT Funding Model replaced the prior funding model that was approved by the Commission on September 6, 2023. Securities Exchange Act Release No. 98290 (Sept. 6, 2023), 88 FR 62628 (Sept. 12, 2023).

⁹ Under the CAT Funding Model, the Operating Committee may establish CAT Fees related to CAT costs going forward. Section 11.3(a) of the CAT NMS Plan. This filing only establishes CAT Fee 2026–1 related to reasonably budgeted CAT costs for the period from May 1, 2026 through December 31, 2026 as described herein; it does not address any other potential CAT Fees related to CAT costs. Any such other CAT Fee will be subject to a separate fee filing. In addition, under the CAT Funding Model, the Operating Committee may establish one or more Historical CAT Assessments. Section 11.3(b) of the CAT NMS Plan. This filing does not address any Historical CAT Assessments.

¹⁰ Section 11.3(a) of the CAT NMS Plan.

¹¹ Section 11.3(a)(iii)(A) of the CAT NMS Plan.

¹² Section 11.3(a)(ii)(A) of the CAT NMS Plan.

¹³ Section 11.3(a)(ii) of the CAT NMS Plan.

Member responsible for the sell-side of the transaction in the equity order trade event and option trade event in the CAT Data submitted to the CAT by the relevant exchange pursuant to the Participant Technical Specifications; and (b) with respect to a transaction in an Eligible Security that is executed otherwise than on an exchange and required to be reported to an equity trade reporting facility of a registered national securities association, the

Industry Member identified as the executing broker and the Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event in the CAT Data submitted to the CAT by FINRA pursuant to the Participant Technical Specifications; provided, however, in those circumstances where there is a non-Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event or no

contra-side executing broker is identified in the TRF/ORF/ADF transaction data event, then the Industry Member identified as the executing broker in the TRF/ORF/ADF transaction data event would be treated as CAT Executing Broker for the Buyer and for the Seller.²⁰

The following fields of the Participant Technical Specifications indicate the CAT Executing Brokers for the transactions executed on an exchange:

EQUITY ORDER TRADE (EOT)²¹

No.	Field name	Data type	Description	Include key
12.n.8/13.n.8	member	Member Alias	The identifier for the member firm that is responsible for the order on this side of the trade. Not required if there is no order for the side as indicated by the NOBUYID/ NOSELLID instruction. This must be provided if orderID is provided.	C

OPTION TRADE (OT)²²

No.	Field name	Data type	Description	Include key
16.n.13/17.n.13	member	Member Alias	The identifier for the member firm that is responsible for the order.	R

In addition, the following fields of the Participant Technical Specifications would indicate the CAT Executing

Brokers for the transactions executed otherwise than on an exchange:

TRF/ORF/ADF TRANSACTION DATA EVENT (TRF)²³

No.	Field name	Data type	Description	Include key
26	reportingExecutingMpid	Member Alias	MPID of the executing party	R
28	contraExecutingMpid	Member Alias	MPID of the contra-side executing party.	C

(2) Calculation of Fee Rate 2026–1

The Operating Committee determined the Fee Rate to be used in calculating CAT Fee 2026–1 (“Fee Rate 2026–1”) by dividing the reasonably budgeted CAT costs (“Budgeted CAT Costs 2026–1”) for the period from May 1, 2026 through December 31, 2026 (“CAT Fee 2026–1 Period”) by the reasonably projected total executed share volume of all transactions in Eligible Securities for the eight-month recovery period, as

discussed in detail below.²⁴ Based on this calculation, the Operating Committee has determined that Fee Rate 2026–1 would be \$0.000003799483243631228 per executed equivalent share. This rate is then divided by three and rounded to determine the fee rate of \$0.000001 per executed equivalent share that will be assessed to CEBBs and CEBSSs, as also discussed in detail below.

²⁰ Section 1.1 of the CAT NMS Plan. Note that CEBBs and CEBSSs may, but are not required to, pass-through their CAT Fees to their clients, who may, in turn, pass their fees to their clients until they are imposed ultimately on the account that executed the transaction. See CAT Funding Model Approval Order at 13424.

²¹ See Table 23, Section 4.7 (Order Trade Event) of the CAT Reporting Technical Specifications for Plan Participants, Version 4.1.1 r1 (Apr. 14, 2025), https://www.catnmsplan.com/sites/default/files/2025-04/04.14.2025_CAT_Reporting_Technical_Specifications_for_Participants_4.1.1-r1.pdf (“CAT Reporting Technical Specifications for Plan Participants”).

(A) CAT Fee 2026–1 Period

CAT LLC proposes to implement CAT Fee 2026–1. CAT LLC proposes to commence CAT Fee 2026–1 during the year, rather than at the beginning of the year. Accordingly, CAT Fee 2026–1 “would be calculated as described in paragraph (II)” of Section 11.3(a)(i)(A) of the CAT NMS Plan,²⁵ which states that “[d]uring each year, the Operating Committee will calculate a new Fee Rate by dividing the reasonably budgeted

²² See Table 51, Section 5.2.5.1 (Simple Option Trade Event) of the CAT Reporting Technical Specifications for Plan Participants.

²³ See Table 61, Section 6.1 (TRF/ORF/ADF Transaction Data Event) of the CAT Reporting Technical Specifications for Plan Participants.

²⁴ Section 11.3(a)(i) of the CAT NMS Plan.

²⁵ Section 11.3(a)(i)(A)(IV) of the CAT NMS Plan.

CAT costs for the remainder of the year by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the remainder of the year.”²⁶ For CAT Fee 2026–1, the reasonably budgeted CAT costs for “the remainder of the year” are the reasonably budgeted CAT costs from May 1, 2026 through December 31, 2026 as set forth in the updated annual budget for 2026 for CAT LLC approved by the Operating Committee on March 31, 2026 (“Updated 2026 CAT Budget”).²⁷

(B) Executed Equivalent Shares for Transactions in Eligible Securities

Under the CAT NMS Plan, for purposes of calculating CAT Fees, executed equivalent shares in a transaction in Eligible Securities will be reasonably counted as follows: (1) each executed share for a transaction in NMS Stocks will be counted as one executed equivalent share; (2) each executed contract for a transaction in Listed Options will be counted based on the multiplier applicable to the specific Listed Options (*i.e.*, 100 executed equivalent shares or such other applicable multiplier); and (3) each executed share for a transaction in OTC Equity Securities will be counted as 0.01 executed equivalent share.²⁸

(C) Budgeted CAT Costs 2026–1

The CAT NMS Plan states that “[t]he budgeted CAT costs for the year shall be comprised of all reasonable fees, costs and expenses reasonably budgeted to be incurred by or for the Company in connection with the development, implementation and operation of the CAT as set forth in the annual operating budget approved by the Operating Committee pursuant to Section 11.1(a) of the CAT NMS Plan, or as adjusted during the year by the Operating

Committee.”²⁹ Section 11.1(a) of the CAT NMS Plan describes the requirement for the Operating Committee to approve an operating budget for CAT LLC on an annual basis. It requires the budget to “include the projected costs of the Company, including the costs of developing and operating the CAT for the upcoming year, and the sources of all revenues to cover such costs, as well as the funding of any reserve that the Operating Committee reasonably deems appropriate for the prudent operation of the Company.” Section 11.1(a)(i) of the CAT NMS Plan further states that: [w]ithout limiting the foregoing, the reasonably budgeted CAT costs shall include technology (including cloud hosting services, operating fees, CAIS operating fees, change request fees and capitalized developed technology costs), legal, consulting, insurance, professional and administration, and public relations costs, a reserve and such other cost categories as reasonably determined by the Operating Committee to be included in the budget.

In accordance with the requirements under the CAT NMS Plan, the Operating Committee approved an annual budget for 2026 for CAT LLC (“Original 2026 CAT Budget”) on December 11, 2025.³⁰ On March 31, 2026, the Operating Committee approved an updated budget for 2026, referred to as the Updated 2026 CAT Budget. The Updated 2026 CAT Budget includes actual costs for each category for January and February 2026, with updated estimated costs for the remainder of the year. The updated costs for May through December as included in the Updated 2026 CAT Budget (*i.e.*, Budgeted CAT Costs 2026–1) are the costs used in calculating CAT Fee 2026–1.³¹ The 2026 CAT budgets, both the Original 2026 CAT Budget and the Updated 2026 CAT Budget, were

prepared on the accrual basis of accounting.³²

As described in detail below, the Budgeted CAT Costs 2026–1 would be \$15,149,648. CEBBs collectively will be responsible for one-third of the Budgeted CAT Costs 2026–1 (which is \$5,049,882.67), and CEBBs collectively will be responsible for one-third of the Budgeted CAT Costs 2026–1 (which is \$5,049,882.67).

The following describes in detail the Budgeted CAT Costs 2026–1 for CAT Fee 2026–1. The following cost details are provided in accordance with the requirement in the CAT NMS Plan to provide in the fee filing the following: the budget for the upcoming year (or remainder of the year, as applicable), including a brief description of each line item in the budget, including (1) technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration, and (6) public relations costs, a reserve and/or such other categories as reasonably determined by the Operating Committee to be included in the budget, and the reason for changes in each such line item from the prior CAT fee filing.³³

Each of the costs described below is reasonable, appropriate and necessary for the creation, implementation and maintenance of CAT.

The following table breaks down the Budgeted CAT Costs 2026–1 into the categories set forth in Section 11.3(a)(iii)(B) of the CAT NMS Plan.³⁴ The Budgeted CAT Costs 2026–1 reflect the costs for May through December as included in the Updated 2026 CAT Budget. The Budgeted CAT Costs 2026–1 are the costs used in calculating CAT Fee 2026–1.

BUDGETED CAT COSTS 2026–1

Budget category	Budgeted CAT costs 2026–1 ^b (<i>i.e.</i> , costs for May–December 2026)
Capitalized Developed Technology Costs ^a	¢\$3,450,000

²⁶ Section 11.3(a)(i)(A)(II) of the CAT NMS Plan.

²⁷ The Updated 2026 CAT Budget is available on the CAT website (<https://www.catnmsplan.com/sites/default/files/2026-04/03.31.26-CAT-2026-Budget.pdf>).

²⁸ Section 11.3(a)(i)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission concluded that “the use of executed equivalent share volume provides an appropriate basis for the calculation of CAT fees.” CAT Funding Model Approval Order at 13413.

²⁹ Section 11.3(a)(i)(C) of the CAT NMS Plan.

³⁰ The Original 2026 CAT Budget is available on the CAT website (<https://www.catnmsplan.com/>

[sites/default/files/2025-12/12.08.25-CAT-LLC-2026-Financial_and_Operating_Budget.pdf](https://www.catnmsplan.com/sites/default/files/2025-12/12.08.25-CAT-LLC-2026-Financial_and_Operating_Budget.pdf)).

³¹ The version of the Updated 2026 CAT Budget set forth on the CAT website is presented on a quarterly basis, but is prepared based on more granular detail. The costs for May and June are estimated based on two-thirds of costs for Q2 where the budgeted monthly amounts are consistent. For those cases in which the costs for a category vary from month to month in Q2, the specific budgeted amounts for May and June are noted.

³² CAT budgets for periods prior to 2025 were prepared on the cash basis of accounting, as such budgets were primarily used to determine the dollar amount of promissory notes from the Participants that were required to fund the ongoing operations

of the CAT. Commencing in 2025, with the contemplated recovery of costs from Industry Members and the Participants via CAT Fees, the Original 2025 CAT Budget was prepared on the accrual basis of accounting to properly match projected revenues with estimated expenses incurred. A cash basis budget reflects expenditures when paid, while an accrual basis budget reflects expenditures when incurred. In moving from a cash basis budget to an accrual basis budget, there is no double counting of expenses.

³³ Section 11.3(a)(iii)(B) of the CAT NMS Plan.

³⁴ Note that costs and related cost calculations provided in this filing may reflect minor variations from the budgeted costs due to rounding.

BUDGETED CAT COSTS 2026–1—Continued

Budget category	Budgeted CAT costs 2026–1 ^b (i.e., costs for May–December 2026)
Technology Costs	83,737,680
Cloud Hosting Services	^d 49,866,667
Operating Fees	^e 19,691,953
CAIS Operating Fees	^f 14,179,060
Change Request Fees	^g 0
Legal	^h 5,670,452
Consulting	ⁱ 1,025,957
Insurance	^j 852,768
Professional and administration	^k 749,151
Public relations	^l 0
Interest Income	^m (1,453,382)
Total Costs	94,032,626
Reserve (25% of Total Costs)	23,508,157
Total Costs and Reserve	117,540,783
Use of Existing Reserve	ⁿ (102,391,135)
Total Budgeted CAT Costs 2026–1	15,149,648

^a The non-cash amortization of these capitalized developed technology costs to be incurred during the CAT Fee 2026–1 Period have been appropriately excluded from the above table.³⁵

^b Budgeted CAT Costs 2026–1 described in this table of costs were determined based on an analysis of a variety of factors, including historical costs/invoices, estimated costs from respective vendors/service providers, contractual terms with vendors/service providers, anticipated service levels and needs, and discussions with vendors and Participants.

^c This cost number for capitalized developed technology costs reflects (1) capitalized developed technology costs of \$3,450,000 for May, \$0 for June and \$0 for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget; and (2) \$0 for the Software License Fee 2026 for the second, third, and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\$3,450,000 + \$0 + \$0 + \$0) + (\$0 + \$0 + \$0) = \$3,450,000$.

^d This cost number for cloud hosting services reflects two-thirds of the cloud hosting services costs for the second quarter and the cloud hosting services for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$18,700,000) + \$18,700,000 + \$18,700,000 = \$49,866,667$.

^e This cost number for operating fees reflects (1) two-thirds of the Non-CAIS fixed operating fees for the second quarter and the Non-CAIS fixed operating fees for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget and (2) two-thirds of the market data vendor fees for the second quarter and the market data vendor fees for the third and fourth quarter of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$7,191,853) + \$7,191,853 + \$7,191,853 + (\frac{2}{3} \times \$192,630) + \$192,630 + \$192,630 = \$19,691,953$.

^f This cost number for CAIS operating fees reflects two-thirds of the CAIS fixed operating fees for the second quarter and the CAIS fixed operating fees for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$5,317,147) + \$5,317,147 + \$5,317,147 = \$14,179,060$.

^g This \$0 cost number for change requests reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

^h This cost number for legal services reflects two-thirds of the legal costs for the second quarter and the legal costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$2,125,170) + \$2,125,170 + \$2,125,170 = \$5,670,452$.

ⁱ This cost number for consulting services reflects two-thirds of the consulting costs for the second quarter and the consulting costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$384,734) + \$384,734 + \$384,734 = \$1,025,957$.

^j This cost number for insurance reflects two-thirds of the insurance costs for the second quarter and the insurance costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$300,977) + \$321,042 + \$331,074 = \$852,768$.

^k This cost number for professional and administration services reflects two-thirds of the professional and administration costs for the second quarter and the professional and administration costs for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $(\frac{2}{3} \times \$280,932) + \$280,932 + \$280,932 = \$749,151$.

^l This \$0 cost number of change requests reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

^m This interest income reflects interest income (net of bank fees) of \$517,208 for May and June and interest income (net of bank fees) for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget: $\$517,208 + \$571,010 + \$365,164 = \$1,453,382$. Note that interest income for May and June 2026 of \$517,208 is slightly less than two-thirds of \$809,598 (which is \$539,732) for the second quarter as the amount of interest income varies from month to month.

ⁿ This amount for the use of the existing reserve is calculated by subtracting from the Accrued Liquidity Reserve Balance as of the Beginning of the Year in the Updated 2026 CAT Budget the 25% Incremental Liquidity Reserve Accrued during 2026 for the first quarter and for April of 2026 as included in the Updated 2026 CAT Budget: $\$155,403,378 - (\$41,800,153 + \$11,212,091) = \$102,391,135$. Note that the 25% Incremental Liquidity Reserved Accrued during 2026 for April 2026 of \$11,212,091 is slightly more than one-third of \$33,366,432 (which is \$11,122,144) for the second quarter as the amount of the 25% Incremental Liquidity Reserved Accrued during 2026 varies from month to month.

To the extent that CAT LLC enters into notes with Participants or others to pay costs incurred during the period in which CAT Fee 2026–1 is in effect, CAT

LLC will use the proceeds from CAT Fee 2026–1 and the related Participant CAT fees to repay such notes.

The following table compares the annual budgeted CAT costs as set forth in the updated annual CAT budget for 2025 approved by the Operating Committee in May 2025 (“May Updated 2025 CAT Budget”),³⁶ the updated

annual CAT budget for 2025 approved by the Operating Committee in November 2025 (“November Updated 2025 CAT Budget”),³⁷ the Original 2026 CAT Budget and the Updated 2026 CAT Budget, and is provided for

05.19.25-CAT-LLC-2025-Financial_and_Operating-Budget.pdf).

³⁷ The November Updated 2025 CAT Budget is available on the CAT website (https://www.catnmsplan.com/sites/default/files/2025-12/12.22.25_CAT-LLC-2025-Financial_and_Operating-Budget.pdf).

³⁵ With respect to certain costs that were “appropriately excluded,” such excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already been otherwise reflected in the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

³⁶ The May Updated 2025 CAT Budget is available on the CAT website (<https://www.catnmsplan.com/sites/default/files/2025-05/>

informational purposes. In each case, the costs provided reflect the costs for the entire year for each of the budgets;

this differs from the above chart which focuses on budgeted costs for the period from May 1, 2026 through December 31,

2026, which, as noted, are the costs that are used in the calculation of the fee rate in this fee filing.

COMPARISON OF FULL YEAR BUDGETED COSTS

Budget category	Full year of 2025 budgeted CAT costs from updated 2025 CAT budget (May 2025)	Full year of 2025 budgeted CAT costs from updated 2025 budget (Nov. 2025)	Full year of 2026 budgeted CAT costs from original 2026 CAT budget	Full year of 2026 budgeted CAT costs from updated 2026 CAT budget
Capitalized Developed Technology Costs ^a	\$4,871,962	\$5,163,991	\$8,228,827	\$8,378,964
Technology Costs	211,548,472	173,091,660	137,514,003	128,643,476
Cloud Hosting Services	159,230,937	122,084,811	81,900,006	77,529,362
Operating Fees ^b	30,817,686	29,932,001	34,345,413	29,845,524
CAIS Operating Fees	20,749,848	20,749,848	21,268,584	21,268,590
Change Request Fees	750,000	325,000	0	0
Legal	7,370,002	7,312,547	8,485,000	8,939,184
Consulting	1,749,998	1,750,000	1,550,000	1,550,000
Insurance	1,594,452	1,368,750	1,505,625	1,254,070
Professional and administration	1,193,090	1,392,679	1,145,500	1,085,500
Public relations	6,575	6,575	0	0
Interest Income	0	(2,510,223)	(1,995,958)	(2,806,325)
Total Annual CAT Costs ^c	228,334,551	187,575,979	156,432,998	147,044,869

^a This cost number is calculated by adding together the Capitalized Developed Technology Costs and the Software License Fee for each budget.

^b This cost number is calculated by adding together the Operating fees, the Cyber Insurance Premium Adjustment (if any) and market data vendor fees (if any separate fees) for each budget.

^c This total cost number does not include an amount for a reserve.

In addition, the following table compares the budgeted costs for January and February 2026 that were used in drafting the Original 2026 CAT Budget with the actual costs for January and February 2026 that were used in

drafting the Updated 2026 CAT Budget. The Original 2026 CAT Budget includes budgeted costs for January and February 2026, whereas the Updated 2026 CAT Budget includes actual costs for January and February 2026. The variance from

the budgeted costs for January and February 2026 to the actual costs for January and February 2026 are used in this filing in supporting the reasonableness of the estimates for each category of costs.

COMPARISON OF BUDGETED AND ACTUAL COSTS FOR JANUARY & FEBRUARY 2026

Budget category	Budgeted costs for January & February 2026 (as used in drafting the original 2026 CAT budget)	Actual costs for January & February 2026 (as used in drafting the updated 2026 CAT budget)	Variance from budgeted costs for January & February 2026 to actual costs for January & February of 2026
Capitalized Developed Technology Costs ^a	\$671,472	\$4,145,430	Increase by \$3,473,958. ^b
Technology Costs	25,894,000	21,501,183	
Cloud Hosting Services	17,200,000	12,829,362	Decrease by \$4,370,638. ^c
Operating Fees	5,149,236	5,127,057	Decrease by \$22,179.
CAIS Operating Fees	3,544,764	3,544,764	No change.
Change Request Fees	0	0	No change.
Legal	1,424,166	1,838,617	Increase by \$414,451. ^d
Consulting	258,334	267,554	Increase by \$9,220.
Insurance	250,938	200,652	Decrease by \$50,286.
Professional and administration	190,916	149,061	Decrease by \$41,855.
Public relations	0	0	No change.
Interest Income	(758,343)	(757,527)	Decrease by \$816.
Total	27,931,483	27,344,970	Decrease by \$586,513.

^a This cost number for capitalized developed technology costs is calculated by adding together the capitalized developed technology costs and the software license fee for each budget.

^b The variance for capitalized developed technology costs is the result of costs related to the software license fee in accordance with the Plan Processor Agreement with FCAT.

^c This variance is attributable to lower than forecasted market volumes and the impact of lower processing costs due to shutting down certain functionalities.

^d The variance in legal costs is attributable to unanticipated issues that required additional legal efforts on behalf of CAT LLC that developed after the budget was created.

(i) Technology Costs—Cloud Hosting Services

(a) Description of Cloud Hosting Services Costs

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the cloud hosting services costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included 49,866,667 in technology costs for cloud hosting services for the CAT Fee 2026–1 Period. The technology costs for cloud hosting services represent costs reasonably budgeted to be incurred for services provided by the cloud services provider for the CAT, Amazon Web Services, Inc. (“AWS”) during the CAT Fee 2026–1 Period.

In the agreement between CAT LLC and the Plan Processor for the CAT (“Plan Processor Agreement”), FINRA CAT, LLC (“FCAT”), AWS was named as the subcontractor to provide cloud hosting services. Under the Plan Processor Agreement, CAT LLC is required to pay FCAT the fees incurred by the Plan Processor for cloud hosting services provided by AWS as FCAT’s subcontractor on a monthly basis for the cloud hosting services, and FCAT, in turn, pays such fees to AWS. The fees for cloud hosting services were negotiated by FCAT on an arm’s length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the expected volume of data, the breadth of services provided and market rates for similar services. Services provided by AWS include storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as well as various environments for CAT, such as development, performance testing, test, and production environments. FCAT utilizes such cloud hosting services for a broad array of services for the CAT, such as data ingestion, data management, and analytic tools for the CAT. AWS performs cloud hosting services for both the CAT transaction database as well as the Reference Database (previously referred to as the Customer and Account Information System, or “CAIS”).³⁸ It is

anticipated that such cloud hosting services will continue during the CAT Fee 2026–1 Period.

The cost for AWS cloud services for the CAT is a function of the volume of CAT Data, largely as a result of the processing and storage of the CAT Data.³⁹ The greater the amount of CAT Data, the greater the cost of AWS services to CAT LLC. During the CAT Fee 2026–1 Period, it is expected that AWS would provide cloud hosting services for volumes of CAT Data far in excess of the volume predictions set forth in the CAT NMS Plan. The CAT NMS Plan states, when all CAT Reporters are submitting their data to the CAT, it “must be sized to receive[,] process and load more than 58 billion records per day,”⁴⁰ and that “[i]t is expected that the Central Repository will grow to more than 29 petabytes of raw, uncompressed data.”⁴¹ In contrast with those estimates, the Q3 2025 data volumes averaged 792 billion events per day. The highest peak data volume to date of 1.45 trillion events was recorded on April 7, 2025. The top five peak days were recorded in April 2025.

CAT LLC estimates that the budget for cloud hosting services costs during the CAT Fee 2026–1 Period will be approximately \$49,866,667.⁴² The budget for cloud hosting services costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the cloud hosting services costs for the second quarter and the cloud hosting services for the third and fourth quarters of 2026 as included in the Updated 2026 CAT Budget.⁴³

CAT LLC estimated the budget for the cost for cloud hosting services for the CAT Fee 2026–1 Period based on an assumption of 35% annual year-over-year volume growth for the transaction database and an assumption of 5% annual year-over-year volume growth

2026) (“CAIS Amendment”). The SEC subsequently approved another amendment to the CAT NMS Plan to implement various cost savings measures that made further changes to the Reference Database. Securities Exchange Act Rel. No. 105107 (Mar. 27, 2026), 91 FR 16284 (Mar. 27, 2026) (“Cost Savings Amendment”).

³⁹ In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. For further discussion of the effect of processing timelines on cloud hosting costs, see Section 3(b)(2)(A)(i) below.

⁴⁰ Section 1.3 of Appendix D of the CAT NMS Plan, n.262.

⁴¹ Section 1.3 of Appendix D of the CAT NMS Plan.

⁴² See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁴³ This calculation is $(\frac{2}{3} \times \$18,700,000) + \$18,700,000 + \$18,700,000 = \$49,866,667$.

for the Reference Database. CAT LLC determined these growth assumptions in coordination with FCAT.⁴⁴

This process for estimating the budget for cloud hosting services costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the cloud hosting services costs for the Original 2026 CAT Budget.

The Original 2026 CAT Budget estimated a budget for cloud hosting services of \$17,200,000 for January and February 2026. The actual costs for cloud hosting services for January and February 2026, which are set forth in the Updated 2026 CAT Budget, were \$12,829,362. Therefore, the variance between budgeted and actual cloud hosting services costs for January and February 2026 was an approximate decrease of \$4,370,638 as a result of lower volumes and a change in functionality.⁴⁵ Accordingly, CAT LLC believes that the process for estimating the budgeted cloud hosting services costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for cloud hosting services costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the cloud hosting services costs from the Original 2026 Budget.⁴⁶ Specifically, the following describes the differences in the costs for cloud hosting services included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for cloud hosting services included in the

⁴⁴ Note that these growth rates are based on events processed and stored in the CAT. Executed transactions are a small subset of such events. As a result, the number of transactions in the CAT, and, hence, the number of executed equivalent shares, is not directly correlated with the number of events processed in the CAT or the costs of cloud hosting services for the CAT. Accordingly, the number of executed equivalent shares may stay relatively constant from year to year while the number of events processed and stored in the CAT may grow significantly.

⁴⁵ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁴⁶ The last Prospective CAT Fee, CAT Fee 2025–2, was implemented pursuant to the prior CAT funding model. Moreover, the final invoice for CAT Fee 2025–2 was sent in December 2025, and, therefore, there is a six-month gap between the final invoice for CAT Fee 2025–2 and the first invoice for CAT Fee 2026–1, which would be in June 2026. Accordingly, this filing describes the changes in the cloud hosting services costs from the Original 2026 Budget.

³⁸ On January 13, 2026, the SEC approved an amendment to the CAT NMS Plan relating to the Customer and Account Information System (referred to as “CAIS”). Effective with this amendment, CAIS has been renamed as the “Reference Database.” Securities Exchange Act Rel. No. 104586 (Jan. 13, 2026), 91 FR 2164 (Jan. 16,

Original 2026 CAT Budget were \$81,900,006, and the annual 2026 budgeted costs for cloud hosting services included in the Updated 2026 CAT Budget are \$77,529,362. Accordingly, budgeted annual costs for cloud hosting services decreased by \$4,370,644 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 5% reduction in cloud hosting services costs for the full year of 2026.⁴⁷ The budgeted decrease in costs for cloud hosting services reflects lower costs for January and February 2026 due to lower than forecasted market volumes in January and the impact of lower processing costs due to shutting down certain functionalities.

(ii) Technology Costs—Operating Fees

(a) Description of Operating Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the operating fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$19,691,953 in technology costs for operating fees for the CAT Fee 2026–1 Period. Operating fees are those fees paid by CAT LLC to FCAT as the Plan Processor to operate and maintain the CAT and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management as required by the CAT NMS Plan. Operating fees also include market data provider costs, as discussed below.

Plan Processor: FCAT. Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT a negotiated monthly fixed price for the operation of the CAT. This fixed price contract was negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity. It is anticipated that FCAT will provide a variety of services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Provide the CAT-related functions and services as the Plan Processor as required by SEC Rule 613 and the CAT

NMS Plan in connection with the operation and maintenance of the CAT;

- Address compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provide support to the Operating Committee, the Compliance Subcommittee and CAT working groups;
- Assist with interpretive efforts, exemptive requests and amendments regarding the CAT NMS Plan;
- Oversee the security of the CAT;
- Monitor the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provide support to subcontractors under the Plan Processor Agreement;
- Provide support in discussions with the Participants and the SEC and its staff;
- Operate the FINRA CAT Helpdesk;
- Facilitate communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administer the CAT website and all of its content;
- Maintain cyber security insurance related to the CAT;
- Assist with billing, collection and other CAT fee-related activity; and
- Provide technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

CAT LLC calculated the budget for the FCAT technology costs for operating fees for the CAT Fee 2026–1 Period based on the recurring monthly operating fees under the Plan Processor Agreement.

Market Data Provider: Algoseek. It is anticipated that the operating fees costs for the CAT Fee 2026–1 Period will include costs related to the receipt of certain market data for the CAT pursuant to an agreement between FCAT and Algoseek, LLC (“Algoseek”). CAT LLC determined that Algoseek would provide market data that included data elements set forth in Section 6.5(a)(ii) of the CAT NMS Plan, and that the fees were reasonable and in line with market rates for the market data received. All costs under the contract would be treated as a direct pass through cost to CAT LLC. CAT LLC estimated the budget for the costs for Algoseek for the CAT Fee 2026–1 Period based on the monthly rate set forth in the agreement between Algoseek and FCAT.

Operating Fee Estimates. CAT LLC estimates that the budget for operating fees during the CAT Fee 2026–1 Period

will be approximately \$19,691,953.⁴⁸ The budget for operating fees during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding (1) two-thirds of the Non-CAIS fixed operating fees for the second quarter and the Non-CAIS fixed operating fees for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget and (2) two-thirds of the market data vendor fees for the second quarter and the market data vendor fees for the third and fourth quarter of 2026 included in the Updated 2026 CAT Budget.⁴⁹

As discussed above, CAT LLC estimated the budget for the operating fees during the CAT Fee 2026–1 Period based on monthly rates set forth in the Plan Processor Agreement and the agreement with Algoseek. CAT LLC also recognized that the operating fees are generally consistent throughout the year. This process for estimating the budget for the operating fees for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the operating fees for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for operating fees of \$5,149,236 for January and February 2026, and the actual costs for operating fees for January and February 2026 were \$5,127,057. Therefore, the variance between budgeted and actual operating fees for this period was small—\$22,179.⁵⁰ Accordingly, CAT LLC believes that the process for estimating the budgeted operating fees for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for operating fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the operating fees from the Original 2026 Budget. Specifically, the following describes the differences in the costs for operating fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for operating fees included in the Original

⁴⁸ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁴⁹ This calculation is $((\frac{2}{3} \times \$7,191,853) + \$7,191,853 + \$7,191,853) + ((\frac{2}{3} \times \$192,630) + \$192,630 + \$192,630) = \$19,691,953$.

⁵⁰ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁴⁷ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

2026 CAT Budget were \$34,345,413, and the annual 2026 budgeted costs for operating fees included in the Updated 2026 CAT Budget are \$29,845,524. Accordingly, budgeted annual costs for operating fees decreased by \$4,499,889 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 13% reduction in operating fees for the full year of 2026.⁵¹ The budgeted decrease in costs for operating fees reflects the proposed amendments to the Plan Processor Agreement related to the recent cost savings amendments to the CAT NMS Plan.⁵²

(iii) Technology Costs—CAIS Operating Fees

(a) Description of CAIS Operating Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the CAIS operating fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$14,179,060 in technology costs for CAIS operating fees for the CAT Fee 2026–1 Period. CAIS operating fees represent the fees paid to FCAT for services provided with regard to the operation and maintenance of the Reference Database (previously referred to as CAIS), and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. The CAT is required under the CAT NMS Plan to capture and store Reference Data in the Reference Database and to create a CAT-Customer-ID for each Customer.⁵³

During the CAT Fee 2026–1 Period, it is anticipated that FCAT will provide services related to the Reference Database. Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT for services related to the Reference Database provided by FCAT on a monthly basis. CAT LLC negotiated the fees for FCAT's services related to the Reference Database on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors,

including the services to be provided and market rates for similar types of activity. During the CAT Fee 2026–1 Period, it is anticipated that FCAT will continue to provide services relating to the ongoing operation, maintenance and support of the Reference Database.

CAT LLC estimates that the budget for CAIS operating fees during the CAT Fee 2026–1 Period will be approximately \$14,179,060.⁵⁴ The budget for CAIS operating fees during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the CAIS fixed operating fees for the second quarter and the CAIS fixed operating fees for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁵⁵

CAT LLC calculated the budget for FCAT's services related to the Reference Database for the CAT Fee 2026–1 Period based on the recurring monthly CAIS operating fees under the Plan Processor Agreement. This process for estimating the budget for the CAIS operating fees for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the CAIS operating fees for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget of \$3,544,764 for CAIS operating fees for January and February of 2026. The actual costs for CAIS operating fees for January and February of 2026, which are included in the Updated 2026 CAT Budget, were \$3,544,764. There was no variance between budgeted and actual CAIS operating fees for the first two months of 2026.⁵⁶ Accordingly, CAT LLC believes that the process for estimating the budgeted CAIS operating fees for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for CAIS operating fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the CAIS operating fees from the Original 2026 Budget. Specifically, the following describes the differences in the costs for CAIS operating fees included in the Original 2026 CAT

Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

CAIS operating fees are based on a recurring monthly rate payable to FCAT and are unchanged from the Original 2026 CAT Budget to the Updated 2026 CAT Budget. The annual 2026 budgeted costs for CAIS operating fees included in the Original 2026 CAT Budget were \$21,268,584, and the annual 2026 budgeted costs for CAIS operating fees included in the Updated 2026 CAT Budget are \$21,268,590.⁵⁷ Accordingly, the budgeted annual costs for CAIS operating fees are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(iv) Technology Costs—Change Request Fees

(a) Description of Change Request Fees

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the change request fees set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$0 in technology costs for change request fees for the CAT Fee 2026–1 Period. The technology costs related to change request fees include costs related to certain modifications, upgrades or other changes to the CAT.

Change requests are standard practice and necessary to reflect operational changes, including changes related to new market developments, such as new market participants. In general, if CAT LLC determines that a modification, upgrade or other changes to the functionality or service is necessary and appropriate, CAT LLC will submit a request for such a change to the Plan Processor. The Plan Processor will then respond to the request with a proposal for implementing the change, including the cost (if any) of such a change. CAT LLC then determines whether to approve the proposed change.

The change request budget line is established to include expected costs to be incurred in which the nature of the costs (i.e., capitalization versus expensing) have not yet been determined. Upon the incurrence of such costs, the final determination of capitalization versus expensing is determined and then such costs are reclassified from the change request line to the appropriate technology cost line item.

CAT LLC estimates that the budget for change requests during the CAT Fee 2026–1 Period will be approximately

⁵¹ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

⁵² See CAIS Amendment and Cost Savings Amendment.

⁵³ See Section 9 of Appendix D of the CAT NMS Plan.

⁵⁴ See chart entitled "Budgeted CAT Costs 2026–1" in Section 3(a)(2)(C) above.

⁵⁵ This calculation is $(\frac{2}{3} \times \$5,317,147) + \$5,317,147 + \$5,317,147 = \$14,179,060$.

⁵⁶ See chart entitled "Comparison of Budgeted and Actual Costs for January & February 2026" in Section 3(a)(2)(C) above.

⁵⁷ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

\$0.⁵⁸ The budget for change requests during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. This \$0 cost number for change request fees reflects the fact that there were no change request fees set forth in the Updated 2026 CAT Budget.

CAT LLC estimated the budget for the potential change requests for the CAT Fee 2026–1 Period based on, among other things, a review of past change requests and potential future change request needs, as well as discussions with FCAT. This process for estimating the budget for the change requests for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the change requests cost for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a change request budget of \$0 for January and February of 2026. The actual costs for change requests for January and February of 2026, which are set forth in the Updated 2026 CAT Budget, were \$0. There was no variance between budgeted and actual change request costs for January and February of 2026.⁵⁹ Accordingly, CAT LLC believes that the process for estimating the budgeted change request costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for change request fees from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the change request fees from the Original 2026 Budget. Specifically, the following describes the differences (if any) in the costs for change request fees included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted costs for change requests included in the Original 2026 CAT Budget were \$0, and the annual 2026 budgeted costs for change requests included in the Updated 2026 CAT Budget are \$0.⁶⁰ Accordingly, budgeted annual costs for change requests are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(v) Technology Costs—Capitalized Developed Technology Costs

(a) Description of Capitalized Developed Technology Costs

Section 11.3(a)(iii)(B)(B)(1) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the capitalized developed technology costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes \$3,450,000 in technology costs for capitalized developed technology costs for the CAT Fee 2026–1 Period. This category of costs includes the budget for capitalizable application development costs incurred in the development of the CAT. It is anticipated that such costs will include certain costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT, as well as costs related to a set of technology changes to be implemented by FCAT related to the cost savings amendments⁶¹ and the move to 23x5 trading.

CAT LLC estimates that the budget for capitalized developed technology costs during the CAT Fee 2026–1 Period will be approximately \$3,450,000.⁶² The budget for capitalized developed technology costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding (1) capitalized developed technology costs of \$3,450,000 for May, \$0 for June and \$0 for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget; and (2) \$0 for the Software License Fee 2026 for the second, third, and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁶³

CAT LLC estimated the budget for capitalized developed technology costs for the CAT Fee 2026–1 Period based on an analysis of a variety of factors, including information related to potential technology costs and related contractual and Plan requirements, and discussions with FCAT regarding such potential technology costs. This process for estimating the budget for capitalized developed technology costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the capitalized developed technology costs

for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for capitalized developed technology costs of \$671,472 for January and February 2026, and the actual costs for capitalized developed technology costs for January and February 2026 were \$4,145,430.⁶⁴ The variance of \$3,473,958 for January and February 2026 is the result of costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT. Accordingly, CAT LLC believes that the process for estimating the budgeted capitalized developed technology costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for capitalized developed technology costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the capitalized developed technology costs from the Original 2026 Budget. Specifically, the following describes the differences in the costs for capitalized developed technology costs as included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budget for capitalized developed technology costs included in the Original 2026 CAT Budget was \$8,228,827, and the annual 2026 budget for capitalized developed technology costs included in the Updated 2026 CAT Budget are \$8,378,964.⁶⁵ Accordingly, the annual budget for capitalized developed technology costs increased by \$150,137 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget, which is an approximate 2% increase in the capitalized developed technology costs for the full year of 2026. This budgeted increase in the annual budget for capitalized developed technology costs was the result of costs related to the software license fee for the Reference Database in accordance with the Plan Processor Agreement with FCAT.

(vi) Legal Costs

(a) Description of Legal Costs

Section 11.3(a)(iii)(B)(B)(2) of the CAT NMS Plan requires the fee filing for a

⁵⁸ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁵⁹ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶⁰ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁶¹ See CAIS Amendment and Cost Savings Amendment.

⁶² See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁶³ This calculation is $(\$3,450,000 + \$0 + \$0 + \$0) + (\$0 + \$0 + \$0) = \$3,450,000$. Note that the \$4,178,964 cost for the software license fee was not included in the CAT Fee 2026–1 Period.

⁶⁴ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶⁵ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

Prospective CAT Fee to provide a brief description of the legal costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes \$5,670,452 in legal costs for the CAT Fee 2026–1 Period. This category of costs represents budgeted costs for legal services for this period. CAT LLC anticipates that it will receive legal services from two law firms, Wilmer Cutler Pickering Hale and Dorr LLP (“WilmerHale”) and Jenner & Block LLP (“Jenner”), during the CAT Fee 2026–1 Period.

Law Firm: WilmerHale. It is anticipated that legal costs during the CAT Fee 2026–1 Period will include costs related to the legal services performed by WilmerHale. CAT LLC anticipates that it will continue to employ WilmerHale during the CAT Fee 2026–1 Period based on, among other things, their expertise, long history with the project and recognition that the hourly fee rates for this law firm are anticipated to be in line with market rates for specialized legal expertise. WilmerHale’s billing rates are negotiated on an annual basis and are determined with reference to the rates charged by other leading law firms for similar work. The Participants assess WilmerHale’s performance and review prospective budgets and staffing plans submitted by WilmerHale on an annual basis. The legal fees will be paid by CAT LLC to WilmerHale.

During the CAT Fee 2026–1 Period, it is anticipated that WilmerHale will provide legal services related to the following:

- Assist with CAT fee filings and related funding issues;
- Draft exemptive requests from CAT NMS Plan requirements and/or proposed amendments to the CAT NMS Plan;
- Provide legal guidance with respect to interpretations of CAT NMS Plan requirements;
- Provide legal support for the Operating Committee, Compliance Subcommittee, working groups and Leadership Team;
- Draft SRO rule filings related to the CAT Compliance Rule;
- Manage corporate governance matters, including supporting Operating Committee meetings and preparing resolutions and consents;
- Assist with communications with the industry, including CAT Alerts and presentations;
- Provide guidance regarding the confidentiality of CAT Data;
- Assist with cost management analyses and proposals;

- Assist with commercial contract-related matters, including change orders and amendments, Plan Processor Agreement items, and subcontract matters;

- Provide support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues;
- Provide legal guidance with respect to the CAT budgets;
- Provide background assistance to other counsel for CAT matters;
- Assist with legal responses related to third-party data requests; and
- Provide legal support regarding CAT policies and procedures.

CAT LLC estimated the budget for the legal costs for WilmerHale for the CAT Fee 2026–1 Period through an analysis of a variety of factors, including WilmerHale fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues.

Law Firm: Jenner. It is anticipated that legal costs during the CAT Fee 2026–1 Period will include costs related to the legal services performed by Jenner. CAT LLC anticipates that it will continue to employ Jenner during the CAT Fee 2026–1 Period based on, among other things, their expertise, history with the project and recognition that their hourly fee rates are in line with market rates for specialized legal expertise. The legal fees will be paid by CAT LLC to Jenner.

During the CAT Fee 2026–1 Period, it is anticipated that Jenner will continue to provide legal assistance to CAT LLC regarding certain litigation matters, including: (1) CAT LLC’s defense against a lawsuit filed in the Western District of Texas against the SEC Chair, the SEC and CAT LLC challenging the validity of Rule 613 and the CAT and alleging various constitutional, statutory, and common law claims;⁶⁶ (2) CAT LLC’s intervention in a lawsuit in the Eleventh Circuit filed by various parties against the SEC challenging the SEC’s approval of the CAT Funding Model;⁶⁷ and (3) a lawsuit in the Eleventh Circuit filed by Citadel Securities LLC seeking review of the SEC’s May 20, 2024 order⁶⁸ granting the Participants temporary conditional exemptive relief related to the reporting of bids and/or offers made in response to a request for quote or other form of solicitation response provided in standard electronic format that is not

immediately actionable.⁶⁹ Litigation involving CAT LLC is an expense of operating the CAT, and, therefore, is appropriately an obligation of both Participants and Industry Members under the CAT Funding Model. Jenner also will continue to provide legal counseling to CAT LLC related to the above-listed litigation and other litigation risk.

CAT LLC estimated the budget for the legal costs for Jenner for the CAT Fee 2026–1 Period through an analysis of a variety of factors, including Jenner’s fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues.

Legal Cost Estimates. CAT LLC estimates that the budget for legal services during the CAT Fee 2026–1 Period will be approximately \$5,670,452.⁷⁰ The budget for legal services during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding budgeted costs for two-thirds of the legal costs for the second quarter and the legal costs for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁷¹

CAT LLC estimated the budget for the legal services for the CAT Fee 2026–1 Period based on an analysis of a variety of factors, including law firm fee rates, historical legal fees, and information related to pending legal issues and potential future legal issues. This process for estimating the budget for the legal services for CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the legal cost for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for legal costs of \$1,424,166 for January and February of 2026. The actual costs for legal services for January and February 2026, which are included in the Updated 2026 Budget, were \$1,838,617.⁷² The increase of \$414,451 was due to unanticipated issues that required additional legal efforts on behalf of CAT LLC that developed after the budget was created. Such additional costs were primarily due to additional legal work related to litigation matters as well as regulatory and corporate legal matters. Accordingly, CAT LLC believes that the process for estimating the

⁶⁹ *Citadel Securities v. SEC*, Case No. 24–12300 (11th Cir.).

⁷⁰ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷¹ This calculation is $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

⁷² See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁶⁶ *Davidson et al. v. Atkins et al.*, Case No. 6:24–cv–197 (W.D. Tex.).

⁶⁷ *Am. Sec. Ass’n v. SEC*, Case No. 26–10936 (11th Cir.).

⁶⁸ Securities Exchange Act Rel. No. 100181 (May 20, 2024), 89 FR 45715 (May 23, 2024).

budgeted legal costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for legal costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the legal costs from the Original 2026 Budget. Specifically, the following describes the differences in the legal costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted legal costs included in the Original 2026 CAT Budget were \$8,485,000, and the annual 2026 budgeted legal costs included in the Updated 2026 CAT Budget are \$8,939,184.⁷³ Accordingly, the annual budget for legal costs increased by \$454,184 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 5% increase in the legal costs for the full year of 2026. This budgeted increase in the legal costs in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to an anticipated increase in legal costs related to litigation matters as well as regulatory and corporate legal matters.

(vii) Consulting Costs

(a) Description of Consulting Costs

Section 11.3(a)(iii)(B)(B)(3) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the consulting costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$1,025,957 in consulting costs for the CAT Fee 2026–1 Period. The consulting costs represent the fees estimated to be paid to the consulting firm Deloitte & Touche LLP (“Deloitte”) as project manager during the CAT Fee 2026–1 Period. The services provided by Deloitte to the CAT include advisory services related to the operation of the CAT, and meeting facilitation and communications coordination, vendor support and financial analyses. In addition, the consulting costs include the compensation for the Chair of the CAT Operating Committee.

It is anticipated that the costs for CAT during the CAT Fee 2026–1 Period will include costs related to consulting services performed by Deloitte. CAT

LLC anticipates that it will continue to employ Deloitte during the CAT Fee 2026–1 Period based on, among other things, their expertise, long history with the project, and the recognition that it is anticipated that the consulting fees will remain in line with market rates for this type of specialized consulting work. Deloitte’s fee rates are negotiated on an annual basis. CAT LLC assesses Deloitte’s performance and reviews prospective budgets and staffing plans submitted by Deloitte on an annual basis. The consulting fees will be paid by CAT LLC to Deloitte.

It is anticipated that Deloitte will provide a variety of consulting services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Implement program operations for the CAT project;
- Provide support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;
- Assist with cost and funding matters for the CAT, including assistance with loans and the CAT bank account for CAT funding;
- Provide support for updating the SEC on the progress of the development of the CAT; and
- Provide support for third party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

In addition, the consulting costs include the compensation for the Chair of the CAT Operating Committee, which is paid by CAT LLC.

CAT LLC estimates that the budget for consulting costs during the CAT Fee 2026–1 Period will be approximately \$1,025,957.⁷⁴ The budget for consulting costs during the CAT Fee 2026–1 Period is calculated based on the Updated 2026 CAT Budget. Specifically, this estimate was calculated by adding two-thirds of the consulting costs for the second quarter and the consulting costs for the third and fourth quarters of 2026 included in the Updated 2026 CAT Budget.⁷⁵

CAT LLC estimates the budget for the consulting costs for Deloitte for the CAT Fee 2026–1 Period based on the current statement of work with Deloitte, which took into consideration past consulting costs, potential future consulting needs, the proposed rates and other contractual issues, and discussions with Deloitte, as

well as the compensation arrangement for the Chair. This process for estimating the budget for consulting costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the consulting costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for consulting services of \$258,334 for January and February 2026, and the actual costs for consulting services for January and February 2026, which are included in the Updated 2026 CAT Budget, were \$267,554.⁷⁶ Therefore, the variance between budgeted and actual consulting costs for January and February was approximately 4%. Accordingly, CAT LLC believes that the process for estimating the budgeted consulting costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for consulting costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the consulting costs from the Original 2026 Budget. Specifically, the following describes the differences (if any) in the consulting costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budget for consulting costs included in the Original 2026 CAT Budget was \$1,550,000, and the annual 2026 budget for consulting costs included in the Updated 2026 CAT Budget is \$1,550,000.⁷⁷ Accordingly, the annual budget for consulting costs has not changed from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026.

(viii) Insurance Costs

(a) Description of Insurance Costs

Section 11.3(a)(iii)(B)(B)(4) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the insurance costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$852,768 in insurance costs for the CAT Fee 2026–1 Period.⁷⁸ The

⁷⁶ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁷⁷ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁷⁸ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷³ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁷⁴ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁷⁵ This calculation is $(\frac{2}{3} \times \$2,145,170) + \$2,125,170 + \$2,115,170 = \$5,670,452$.

insurance costs represent the costs to be incurred for insurance for the CAT during the CAT Fee 2026–1 Period.

It is anticipated that the insurance costs for CAT during the CAT Fee 2026–1 Period will include costs related to cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance brokered by USI Insurance Services LLC ("USI"). Such policies are standard for corporate entities, and cyber security liability insurance is important for the CAT System. CAT LLC anticipates that it will continue to maintain this insurance during the CAT Fee 2026–1 Period, and notes that the annual premiums for these policies were competitive for the coverage provided. CAT LLC estimated the budget for the insurance costs for the CAT Fee 2026–1 Period based on the insurance estimate from USI for 2026. The annual premiums would be paid by CAT LLC to USI.

The budgeted insurance costs for the CAT Fee 2026–1 Period are based on an insurance cost estimate from USI for 2026. Accordingly, CAT LLC believes that the process for estimating the budgeted insurance costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for insurance costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the insurance costs from the Original 2026 Budget. Specifically, the following describes the differences in the insurance costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted insurance costs included in the Original 2026 CAT Budget were \$1,505,625, and the annual 2026 budgeted insurance costs included in the Updated 2026 CAT Budget are \$1,254,070.⁷⁹ Accordingly, the annual budget for insurance costs decreased by \$251,555 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 16% decrease in the insurance costs for the full year of 2026. This budgeted decrease in the insurance costs in the Updated 2026 CAT Budget from the Original 2026 Budget was

primarily due to an anticipated decrease in insurance premiums.

(ix) Professional and Administration Costs

(a) Description of Professional and Administration Costs

Section 11.3(a)(iii)(B)(B)(5) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the professional and administration costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$749,151 in professional and administration costs for the CAT Fee 2026–1 Period. In adopting the CAT NMS Plan, the Commission amended the Plan to add a requirement that CAT LLC's financial statements be prepared in compliance with GAAP, audited by an independent public accounting firm, and made publicly available.⁸⁰ The professional and administration costs would include costs related to accounting and accounting advisory services to support the operating and financial functions of CAT, financial statement audit services by an independent accounting firm, preparation of tax returns, and various cash management and treasury functions. The professional and administration costs represent the fees to be paid to Anchin, Block & Anchin ("Anchin") and Grant Thornton LLP ("Grant Thornton") for financial services during the CAT Fee 2026–1 Period.

Financial Advisory Firm: Anchin. It is anticipated that the professional and administration costs for the CAT Fee 2026–1 Period will include costs related to financial advisory services performed by Anchin. CAT LLC anticipates that it will continue to employ Anchin during the CAT Fee 2026–1 Period based on, among other things, the firm's relevant expertise and fees, which are anticipated to remain in line with market rates for these financial advisory services. The fees for these services will be paid by CAT LLC to Anchin.

It is anticipated that Anchin will provide a variety of services to the CAT during the CAT Fee 2026–1 Period, including the following:

- Update and maintain internal controls;
- Provide cash management and treasury functions;
- Facilitate bill payments to vendors;
- Facilitate repayments of promissory notes to Participants;
- Provide monthly bookkeeping;

- Review vendor invoices and documentation in support of cash disbursements;

- Review documentation to ensure that repayments of promissory notes to Participants are in accordance with established policies and procedures;

- Provide accounting research and consultations on various accounting, financial reporting and tax matters;

- Address not-for-profit tax and accounting considerations;

- Prepare tax returns;

- Address various accounting, financial reporting and operating inquiries from Participants;

- Develop and maintain annual and interim operating and financial budgets, including budget to actual and budget to budget fluctuation analyses;

- Support compliance with the CAT NMS Plan;

- Work with and provide support to the Operating Committee, Leadership Team and various CAT working groups;

- Prepare monthly, quarterly and annual financial statements;

- Review and reconcile the monthly FINRA CAT reports/analyses related to billings, collections, outstanding accounts receivable and cash account;

- Perform certain verification, completeness, and validation testing related to the monthly FINRA CAT reports/analyses related to billings;

- Support the annual financial statement audits by an independent auditor;

- Review historical costs from inception;

- Provide accounting and financial information in support of SEC filings; and

- Perform additional ad hoc accounting and financial advisory services, as requested by CAT LLC.

CAT LLC estimated the annual budget for the costs for Anchin based on historical costs adjusted for cost of living rate increases, and projected incremental advisory and support services.

Accounting Firm: Grant Thornton. It is anticipated that the professional and administration costs for the CAT Fee 2026–1 Period will include costs related to accounting services performed by Grant Thornton. CAT LLC anticipates that it will continue to employ Grant Thornton during the CAT Fee 2026–1 Period based on, among other things, the firm's relevant expertise and fees, which are anticipated to remain in line with market rates for these financial advisory services. It is anticipated that Grant Thornton will continue to be engaged as an independent accounting firm to complete the audit of CAT LLC's financial statements, in accordance with

⁷⁹ See chart entitled "Comparison of Full Year Budgeted Costs" in Section 3(a)(2)(C) above.

⁸⁰ Section 9.2 of the CAT NMS Plan.

the requirements of the CAT NMS Plan. The fees for these services will be paid by CAT LLC to Grant Thornton. CAT LLC estimated the budget for the accounting costs for Grant Thornton for the CAT Fee 2026–1 Period based on the anticipated hourly rates and the anticipated services plus an administrative fee.

Professional and Administration Cost Estimates. CAT LLC estimates that the budget for professional and administration services during the CAT Fee 2026–1 Period will be approximately \$749,151.⁸¹ The budget for professional and administration services during the CAT Fee 2026–1 Period is based on the Updated 2026 CAT Budget. CAT LLC estimated the budget for the professional and administration costs for the CAT Fee 2026–1 Period based on a review of past professional and administration costs, potential future professional and administration needs, the proposed rates and other contractual issues, as well as discussions with Anchin and Grant Thornton. This process for estimating the budget for the professional and administration costs for the CAT Fee 2026–1 Period is the same process by which CAT LLC estimated the professional and administration costs for the Original 2026 CAT Budget. The Original 2026 CAT Budget estimated a budget for professional and administration costs of \$190,916 for January and February 2026, and the actual costs for professional and administration services for January and February 2026, which are set forth in the Updated 2026 Budget, were \$149,061.⁸² The decrease of \$41,855 was due to a lower than expected professional and administration services costs and to the movement of bank fees from the professional and administration category to the interest income category. Accordingly, CAT LLC believes that the process for estimating the budgeted professional and administration costs for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for professional and administration costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the

professional and administration costs from the Original 2026 Budget. Specifically, the following describes the differences in the professional and administration costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted professional and administration costs as included in the Original 2026 CAT Budget were \$1,145,500, and the annual 2026 budgeted professional and administration costs included in the Updated 2026 CAT Budget are \$1,085,500.⁸³ Accordingly, the budgeted annual costs for professional and administration services decreased by \$60,000 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026. This budgeted decrease in the professional and administration costs in the Updated 2026 CAT Budget from the Original 2026 Budget was due to the movement of bank fees from the professional and administration category to the interest income category, and not a change in costs related to Anchin and Grant Thornton services.

(x) Public Relations Costs

(a) Description of Public Relations Costs

Section 11.3(a)(iii)(B)(B)(6) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the public relations costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$0 in public relations costs for the CAT Fee 2026–1 Period. The public relations costs would represent the fees paid to a public relations firm for professional communications services to CAT, including media relations consulting, strategy and execution. Because CAT LLC anticipates that it will not engage a public relations firm for the CAT Fee Period 2026–1, the budget for public relations costs for this period is \$0.⁸⁴

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for public relations costs from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in the public

relations costs from the Original 2026 Budget. Specifically, the following describes the differences (if any) in public relations costs included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual budgeted public relations costs for 2026 included in the Original 2026 CAT Budget were \$0, and the annual budgeted public relations costs for 2026 included in the Updated 2026 CAT Budget are \$0.⁸⁵ Accordingly, the annual budgeted public relations costs for 2026 are the same for both the Original 2026 CAT Budget and the Updated 2026 CAT Budget.

(xi) Interest Income

(a) Description of Interest Income

Section 11.1(a) of the CAT NMS Plan requires the CAT budget to include “the sources of all revenues to cover costs.” Accordingly, the Updated 2026 CAT Budget includes a line item for interest income. Specifically, the Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that included \$1,453,382 in interest income for the CAT Fee 2026–1 Period.⁸⁶ Interest income represents the interest earned on the surplus reserve and other funds held by CAT LLC. Such income would be used to reduce the amount to be collected to fund the CAT.

CAT LLC estimates the budget for the interest income for the CAT Fee 2026–1 Period based on the estimate of the funds held by CAT LLC and the expected interest rates on such funds. The Original 2026 CAT Budget estimated interest income of \$758,343 for January and February 2026, and the actual interest income for January and February 2026, which are included in the Updated 2026 CAT Budget, were \$757,527.⁸⁷ As mentioned above, bank fees were moved from the professional and administration category in the Original 2026 CAT Budget to the interest income category in the Updated 2026 CAT Budget. Accordingly, the interest income amount for the Updated 2026 CAT Budget was net of \$10,000 in bank fees. Therefore, the variance between budgeted and actual interest income (aside from bank fees) for January and February 2026 was approximately \$10,000. Accordingly, CAT LLC believes that the process for

⁸¹ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸² See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

⁸³ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁴ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸⁵ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁶ See chart entitled “Budgeted CAT Costs 2026–1” in Section 3(a)(2)(C) above.

⁸⁷ See chart entitled “Comparison of Budgeted and Actual Costs for January & February 2026” in Section 3(a)(2)(C) above.

estimating the budgeted interest income for the CAT Fee 2026–1 Period is reasonable.

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in each line item from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model, this filing describes the changes in interest income from the Original 2026 CAT Budget. Specifically, the following describes the differences in the interest income included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The annual 2026 budgeted interest income as included in the Original 2026 CAT Budget was \$1,995,958, and the annual 2026 budgeted interest income included in the Updated 2026 CAT Budget is \$2,806,325.⁸⁸ Accordingly, the budgeted interest income (not including bank fees) increased by \$810,367 from the Original 2026 CAT Budget to the Updated 2026 CAT Budget for the full year of 2026, which is an approximate 40% increase in the interest income for the full year of 2026. This budgeted increase in the interest income in the Updated 2026 CAT Budget from the Original 2026 Budget was primarily due to higher than expected cash balances being maintained after the approval of the Original 2026 Budget.

(x) Reserve

(a) Description of Reserve

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to provide a brief description of the reserve costs set forth in the budget. The Operating Committee approved an operating budget for the CAT pursuant to Section 11.1(a) of the CAT NMS Plan that includes a reserve amount for 2026. Section 11.1(a)(i) of the CAT NMS Plan states that the budget shall include a reserve. Section 11.1(a)(ii) of the CAT NMS Plan further describes the reserve as follows:

For the reserve referenced in paragraph (a)(i) of this Section, the budget will include an amount reasonably necessary to allow the Company to maintain a reserve of not more than 25% of the annual budget. To the extent collected CAT fees exceed CAT costs, including the reserve of 25% of the annual budget, such surplus shall be used to offset future fees. For the avoidance of doubt, the Company will

only include an amount for the reserve in the annual budget if the Company does not have a sufficient reserve (which shall be up to but not more than 25% of the annual budget). For the avoidance of doubt, the calculation of the amount of the reserve would exclude the amount of the reserve from the budget.

CAT LLC determined to maintain a reserve in the amount of 25% of the total expenses set forth in the Updated 2026 CAT Budget (which does not include the reserve amount). Accordingly, the total 25% reserve of \$23,508,157 was calculated by multiplying the total expenses set forth in the Updated 2026 CAT Budget (other than the reserve) by 25%.⁸⁹

The Updated 2026 CAT Budget estimates that CAT LLC will have \$102,391,135 in reserve as of the beginning of the CAT Fee Period 2026–1. Such reserve is related, in part, to (i) the collection of CAT fees in excess of the budgeted CAT costs in light of the greater actual executed equivalent share volume than the projected executed equivalent share volume for prior CAT Fees, and (ii) a reduction in anticipated budgeted costs associated with the implementation of certain cost savings measures. This reserve balance of \$102,391,135 would be used to offset a portion of CAT costs for CAT Fee Period 2026–1, thereby reducing the fee rate to be paid for CAT Fee 2026–1. Specifically, the total costs (including the 25% reserve) for CAT Fee 2026–1 of \$117,540,783 would be reduced by the \$102,391,135 in reserve. Therefore, the Total Budgeted CAT Costs 2026–1 would be \$15,149,648.

Accordingly, the fee rate for CAT Fee 2026–1 is calculated based on this reduced amount of \$15,149,648, resulting in a fee rate of \$0.000001 per executed equivalent share. If the fee rate for CAT Fee 2026–1 were calculated solely based on the reasonably budgeted costs for CAT for May–December 2026, excluding the reduction in that amount due to the surplus reserve offset, the fee rate would be the higher rate of \$0.000010.⁹⁰

(b) Changes From Prior Fee Filing

Section 11.3(a)(iii)(B)(B) of the CAT NMS Plan requires the fee filing for a Prospective CAT Fee to describe the reason for changes in the line item for a reserve from the prior CAT Fee filing. As this is the first Prospective CAT Fee filing under this CAT Funding Model,

this filing describes the changes in reserve from the Original 2026 CAT Budget. Specifically, the following describes the differences in the reserve included in the Original 2026 CAT Budget versus the Updated 2026 CAT Budget, and the reasons for any changes.

The accrued liquidity reserve balance at the beginning of the year included in the Original 2026 CAT Budget was \$119,128,336. The Original 2026 CAT Budget contemplated using the reserve to pay CAT bills throughout the year as no CAT fee was in effect. The accrued liquidity reserve balance at the beginning of the year included in the Updated 2026 CAT Budget was \$155,403,378. The increase in the accrued liquidity reserve balance at the beginning of the year from the Original 2026 CAT Budget to the Updated 2026 CAT Budget reflected the additional CAT Fees that had been received after the approval of the Original 2026 CAT Budget. In addition, the Updated 2026 CAT Budget not only reflected the use of the surplus reserve to pay CAT bills but also the accrual of additional reserve to establish a 25% reserve through CAT Fee 2026–1. Accordingly, the estimated liquidity reserve balance increased from a deficit of \$37,304,661 included in the Original 2026 CAT Budget to a reserve balance of \$23,508,157 included in the Updated 2026 CAT Budget for the full year of 2026.

(D) Projected Total Executed Equivalent Share Volume

The calculation of Fee Rate 2026–1 also requires the determination of the projected total executed equivalent share volume of transactions in Eligible Securities for the CAT Fee 2026–1 Period. Under the CAT NMS Plan, the Operating Committee is required to “reasonably determine the projected total executed equivalent share volume of all transactions in Eligible Securities for each relevant period based on the executed equivalent share volume of all transactions in Eligible Securities for the prior twelve months.”⁹¹ The Operating Committee is required to base its projection on the prior twelve months, but it may use its discretion to analyze the likely volume for the upcoming year. Such discretion would allow the Operating Committee to use its judgment when estimating projected total executed equivalent share volume if the volume over the prior twelve months was unusual or otherwise unfit to serve as the basis of a future volume estimate.⁹²

⁸⁸ See chart entitled “Comparison of Full Year Budgeted Costs” in Section 3(a)(2)(C) above.

⁸⁹ The reserve was calculated by multiplying \$94,032,626 by 25%, which equals approximately \$23,508,157.

⁹⁰ See CAT Fee Alert 2026–1 (Apr. 1, 2026).

⁹¹ Section 11.3(a)(i)(D) of the CAT NMS Plan.

⁹² CAT Funding Model Approval Order at 13452.

The total executed equivalent share volume of transactions in Eligible Securities for the 12-month period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. The Operating Committee has determined to calculate the projected total executed equivalent share volume for the eight-month recovery period for CAT Fee 2026–1 by multiplying by 8/12ths the executed equivalent share volume for the 12-month period from March 2025 through February 2026. The Operating Committee determined that such an approach was reasonable as the CAT's annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.41), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level. Accordingly, the projected total executed equivalent share volume for the eight-month period for CAT Fee 2026–1 is projected to be 3,987,291,699,573.66 executed equivalent shares.⁹³

The projected total executed equivalent share volume of all transactions in Eligible Securities for the eight-month recovery period for CAT Fee 2026–1 and a description of the calculation of the projection is provided in this filing in accordance with the requirement in the CAT NMS Plan to provide such information in a fee filing for a CAT Fee.⁹⁴

(E) Fee Rate 2026–1

Fee Rate 2026–1 would be calculated by dividing the Budgeted CAT Costs 2026–1 by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the eight-month recovery period for CAT Fee 2026–1, as described in detail above.⁹⁵ Specifically, Fee Rate 2026–1 would be calculated by dividing \$15,149,648 by 3,987,291,699,573.66 executed equivalent shares. As a result, Fee Rate 2026–1 would be \$0.000003799483243631228 per executed equivalent share. Fee Rate 2026–1 is provided in this filing in

accordance with the requirement in the CAT NMS Plan to provide the Fee Rate in a fee filing for a CAT Fee.⁹⁶

Fee Rate 2026–1 would be used to calculate the fee rate to be paid by CEBBs and CEBBs for CAT Fee 2026–1. Such fee rate is calculated by multiplying Fee Rate 2026–1 of \$0.000003799483243631228 by one-third, and rounding the result to six decimal places.⁹⁷ Accordingly, the fee rate to be paid by CEBBs and CEBBs for CAT Fee 2026–1 would be \$0.000001 per executed equivalent share.

(3) Monthly Fees

CEBBs and CEBBs would be required to pay fees for CAT Fee 2026–1 on a monthly basis for eight months, from July 2026 until January 2027. A CEBB's or CEBB's fee for each month would be calculated based on the transactions in Eligible Securities executed by the CEBB or CEBB from the prior month.⁹⁸ Proposed paragraph (a)(6)(A) of the fee schedule would state that each CAT Executing Broker would receive its first invoice for CAT Fee 2026–1 in June 2026, and would receive an invoice for CAT Fee 2026–1 each month thereafter until January 2027. Proposed paragraph (a)(6)(B) of the fee schedule would state that "Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis." In addition, paragraph (b)(1) of the fee schedule states that each CEBB and CEBB is required to pay its CAT fees "each month."

(4) Consolidated Audit Trail Funding Fees

To implement CAT Fee 2026–1, the Exchange proposes to add a new paragraph to the "Consolidated Audit Trail Funding Fees" section of the Exchange's fee schedule, to include the proposed paragraphs described below.

(A) Fee Schedule for CAT Fee 2026–1

The CAT NMS Plan states that: Each Industry Member that is the CAT Executing Broker for the buyer in a transaction in Eligible Securities ("CAT Executing Broker for the Buyer" or "CEBB") and each Industry Member that is the CAT Executing Broker for the seller in a transaction in Eligible Securities ("CAT Executing Broker for

the Seller" or "CEBS") will be required to pay a CAT Fee for each such transaction in Eligible Securities in the prior month based on CAT Data. The CEBB's CAT Fee or CEBS's CAT Fee (as applicable) for each transaction in Eligible Securities will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Fee Rate reasonably determined pursuant to paragraph (a)(i) of this Section 11.3.⁹⁹

Accordingly, based on the factors discussed above, the Exchange proposes to add paragraph (a)(6) to the Consolidated Audit Trail Funding Fees section of its fee schedule. Proposed paragraph (a)(6) would state the following:

(A) Each CAT Executing Broker shall receive its first invoice for CAT Fee 2026–1 in June 2026, which shall set forth the CAT Fee 2026–1 fees calculated based on transactions in May 2026, and shall receive an invoice for CAT Fee 2026–1 for each month thereafter until January 2027.

(B) Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis. Each month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer ("CEBB") and/or the CAT Executing Broker for the Seller ("CEBS") (as applicable) from the prior month as set forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000001 per executed equivalent share.

(C) Notwithstanding the last invoice date of January 2027 for CAT Fee 2026–1 in paragraph 6(A), CAT Fee 2026–1 shall continue in effect after January 2027, with each CAT Executing Broker receiving an invoice for CAT Fee 2026–1 each month, until a new subsequent CAT Fee is in effect with regard to Industry Members in accordance with Section 19(b) of the Exchange Act. Consolidated Audit Trail, LLC will provide notice when CAT Fee 2026–1 will no longer be in effect.

(D) Each CAT Executing Broker shall be required to pay each invoice for CAT Fee 2026–1 in accordance with paragraph (b).

As noted in the Plan amendment for the CAT Funding Model, "[a]s a practical matter, the fee filing would provide the exact fee per executed equivalent share to be paid for the CAT Fees, by multiplying the Fee Rate by

⁹³ This projection was calculated by multiplying 5,980,937,549,360.49 executed equivalent shares by 8/12ths.

⁹⁴ Section 11.3(a)(iii)(B) of the CAT NMS Plan.

⁹⁵ In approving the CAT Funding Model, the Commission stated that "[t]he manner in which the Fee Rate for Prospective CAT Costs will be calculated (i.e., by dividing the CAT costs reasonably budgeted for the upcoming year by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for the year) is appropriate." CAT Funding Model Approval Order at 13435.

⁹⁶ See Section 11.3(a)(iii)(B)(A) of the CAT NMS Plan.

⁹⁷ This fee rate of \$0.000001 is calculated by multiplying the Fee Rate of \$0.000003799483243631228 by one-third and rounding this result (which equals \$0.000001266494414543743) to 6 decimal places.

⁹⁸ See proposed paragraph (a)(6)(B) of the fee schedule.

⁹⁹ Section 11.3(a)(iii)(A) of the CAT NMS Plan.

one-third and describing the relevant number of decimal places for the fee.”¹⁰⁰ Accordingly, proposed paragraph (a)(6)(B) of the fee schedule would set forth a fee rate of \$0.000001 per executed equivalent share. This fee rate is calculated by multiplying Fee Rate 2026–1 of \$0.000003799483243631228 by one-third, and rounding the result to six decimal places.¹⁰¹ The Operating Committee determined to use six decimal places to balance the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.

The proposed language in paragraph (a)(6)(A) of the fee schedule would describe when CAT Executing Brokers would receive their first monthly invoice for CAT Fee 2026–1. Specifically, CAT Executing Brokers would receive their first monthly invoice for CAT Fee 2026–1 in June 2026 and the fees set forth in that invoice would be calculated based on transactions executed in May 2026. The payment for the first invoice would be required within 30 days after the receipt of the first invoice (unless a longer period is indicated), as described in paragraph (b)(2) of the fee schedule.

Proposed paragraph (a)(6)(A) of the fee schedule also would describe the monthly cadence of the invoices for CAT Fee 2026–1. Specifically, after the first invoices are provided to CAT Executing Brokers in June 2026, invoices will be sent to CAT Executing Brokers each month thereafter until January 2027.

Proposed paragraph (a)(6)(B) of the fee schedule would describe the invoices for CAT Fee 2026–1. Proposed paragraph (a)(6)(B) of the fee schedule would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for CAT Fee 2026–1 on a monthly basis.” Proposed paragraph (a)(6)(B) of the fee schedule also would describe the fees to be set forth in the invoices for CAT Fee 2026–1. Specifically, it would state that “[e]ach month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (‘CEBB’) and/or the CAT Executing Broker for the Seller (‘CEBS’) (as applicable) from the prior month as set

forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000001 per executed equivalent share.”

Since CAT Fee 2026–1 is a monthly fee based on actual transaction volume from the prior month, CAT Fee 2026–1 may collect more or less than two-thirds of the Budgeted CAT Costs 2026–1. To the extent that CAT Fee 2026–1 collects more than two-thirds of the Budgeted CAT Costs 2026–1, any excess money collected will be used to offset future fees and/or to fund the reserve for the CAT. To the extent that CAT Fee 2026–1 collects less than two-thirds of the Budgeted CAT Costs 2026–1, the budget for the CAT in the ensuing months will reflect such shortfall.

Furthermore, proposed paragraph (a)(6)(C) of the fee schedule would describe how long CAT Fee 2026–1 would remain in effect. It would state that “[n]otwithstanding the last invoice date of January 2027 for CAT Fee 2026–1 in paragraph 6(A), CAT Fee 2026–1 shall continue in effect after January 2027, with each CAT Executing Broker receiving an invoice for CAT Fee 2026–1 each month, until a new subsequent CAT Fee is in effect with regard to Industry Members in accordance with Section 19(b) of the Exchange Act. Consolidated Audit Trail, LLC will provide notice when CAT Fee 2026–1 will no longer be in effect.”

Finally, proposed paragraph (a)(6)(D) of the fee schedule would set forth the requirement for the CAT Executing Brokers to pay the invoices for CAT Fee 2026–1. It would state that “[e]ach CAT Executing Broker shall be required to pay each invoice for CAT Fee 2026–1 in accordance with paragraph (b).”

(B) Manner of Payment

Paragraph (b)(1) of the “Consolidated Audit Trail Funding Fees” section of the fee schedule describes the manner of payment of Industry Member CAT fees. It states that “[e]ach CAT Executing Broker shall pay its CAT fees as required pursuant to paragraph (a) each month to the Consolidated Audit Trail, LLC in the manner prescribed by the Consolidated Audit Trail, LLC.” The CAT NMS Plan requires the Operating Committee to establish a system for the collection of CAT fees.¹⁰² The Plan Processor has established a billing system for CAT fees.¹⁰³ Accordingly,

CAT Executing Brokers would be required to pay CAT Fee 2026–1 in accordance with such system.

(C) Failure to Pay CAT Fees

The CAT NMS Plan further states that:

Participants shall require each Industry Member to pay all applicable fees authorized under this Article XI within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If an Industry Member fails to pay any such fee when due (as determined in accordance with the preceding sentence), such Industry Member shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of: (a) the Prime Rate plus 300 basis points; or (b) the maximum rate permitted by applicable law.¹⁰⁴

Paragraph (b)(2) of the fee schedule states that:

Each CAT Executing Broker shall pay the CAT fees required pursuant to paragraph (a) within thirty days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If a CAT Executing Broker fails to pay any such CAT fee when due, such CAT Executing Broker shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of (i) the Prime Rate plus 300 basis points, or (ii) the maximum rate permitted by applicable law.

The requirements of paragraph (b)(2) would apply to CAT Fee 2026–1.

(5) CAT Fee Details

The CAT NMS Plan states that:

Details regarding the calculation of a Participant or CAT Executing Broker’s CAT Fees will be provided upon request to such Participant or CAT Executing Broker. At a minimum, such details would include each Participant or CAT Executing Broker’s executed equivalent share volume and corresponding fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.¹⁰⁵

Such information would provide CEBBs and CEBSs with the ability to understand the details regarding the

¹⁰⁰ CAT Funding Model Approval Order at 13445, n.677.

¹⁰¹ This fee rate of \$0.000001 is calculated by multiplying the Fee Rate of \$0.000003799483243631228 by one-third, and rounding this result (which equals \$0.000001266494414543743) to 6 decimal places.

¹⁰² Section 11.4 of the CAT NMS Plan.

¹⁰³ The billing process and system are described in CAT Alert 2023–02 as well as in the CAT FAQs related to the billing of CAT fees, the Industry Member CAT Reporter Portal User Guide, the FCAT Industry Member Onboarding Guide, the FCAT

Connectivity Supplement for Industry Members and the CAT Billing Webinars (dated Sept. 28, 2023 and Nov. 7, 2023), each available on the CAT website.

¹⁰⁴ Section 11.4 of the CAT NMS Plan.

¹⁰⁵ Section 11.3(a)(iv)(A) of the CAT NMS Plan.

calculation of their CAT Fee.¹⁰⁶ CAT LLC will provide CAT Executing Brokers with these details regarding the calculation of their CAT Fees on their monthly invoice for the CAT Fees.

In addition, CAT LLC will make certain aggregate statistics regarding CAT Fees publicly available. Specifically, the CAT NMS Plan states that, “[f]or each CAT Fee, at a minimum, CAT LLC will make publicly available the aggregate executed equivalent share volume and corresponding aggregate fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.”¹⁰⁷ Such aggregate statistics will be available on the CAT website.

Furthermore, CAT LLC will make publicly available on the CAT website the total amount invoiced each month that CAT Fee 2026–1 is in effect as well as the total amount invoiced for CAT Fee 2026–1 for all months since its commencement. CAT LLC also will make publicly available on the CAT website the total costs to be collected from Industry Members for CAT Fee 2026–1.

(6) Financial Accountability Milestones

The CAT NMS Plan states that “[n]o Participant will make a filing with the SEC pursuant to Section 19(b) of the Exchange Act regarding any CAT Fee related to Prospective CAT Costs until the Financial Accountability Milestone related to Period 4 described in Section 11.6 has been satisfied.”¹⁰⁸ Under Section 1.1 of the CAT NMS Plan, a Financial Accountability Milestone is considered complete as of the date identified in the Participants’ Quarterly Progress Reports. As indicated by the Participants’ Quarterly Progress Report for the second and third quarter of 2024,¹⁰⁹ the Financial Accountability

Milestone related to Period 4 was satisfied on July 15, 2024. In addition, the satisfaction of the Financial Accountability Milestone related to Period 4 was described in detail in the fee filing for the first Prospective CAT Fee, CAT Fee 2024–1.¹¹⁰

(7) Participant Invoices

While CAT Fees charged to Industry Members become effective in accordance with the requirements of Section 19(b) of the Exchange Act,¹¹¹ CAT fees charged to Participants are implemented via an approval of the CAT fees by the Operating Committee in accordance with the requirements of the CAT NMS Plan.¹¹² On March 31, 2026, the Operating Committee approved the Participant fee related to CAT Fee 2026–1. Specifically, pursuant to the requirements of CAT NMS Plan,¹¹³ each Participant would be required to pay a CAT fee calculated using the fee rate of \$0.000001 per executed equivalent share, which is the same fee rate that applies to CEBBs and CEBSSs. Like CEBBs and CEBSSs, each Participant would be invoiced such CAT fees on a monthly basis for eight months, from June 2026 until January 2027, and each Participant’s fee for each month would be calculated based on the transactions in Eligible Securities executed on the applicable exchange (for the Participant exchanges) or otherwise than on an exchange (for FINRA) in the prior month. Accordingly, each Participant will receive its first invoice in June 2026, and would receive an invoice each month thereafter until January 2027. Like with the CAT Fee 2026–1 applicable to CEBBs and CEBSSs as described in proposed paragraph (a)(6)(C) of the fee schedule, notwithstanding the last invoice date of January 2027, Participants will continue to receive invoices for this fee each month until a new subsequent CAT Fee is in effect with regard to Industry Members. Furthermore, Section 11.4 of the CAT NMS Plan states that each Participant is required to pay such invoices as required by Section 3.7(b) of the CAT NMS Plan. Section 3.7(b) states, in part, that

[e]ach Participant shall pay all fees or other amounts required to be paid under this Agreement within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise

indicated) (the “Payment Date”). The Participant shall pay interest on the outstanding balance from the Payment Date until such fee or amount is paid at a per annum rate equal to the lesser of: (i) Prime Rate plus 300 basis points; or (ii) the maximum rate permitted by applicable law.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the requirements of the Exchange Act. The Exchange believes that the proposed rule change is consistent with Section 6(b)(5) of the Act,¹¹⁴ which requires, among other things, that the Exchange’s rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest, and not designed to permit unfair discrimination between customers, issuers, brokers and dealers. The Exchange also believes that the proposed rule change is consistent with the provisions of Section 6(b)(4) of the Act,¹¹⁵ because it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using its facilities. The Exchange further believes that the proposed rule change is consistent with Section 6(b)(8) of the Act,¹¹⁶ which requires that the Exchange’s rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. These provisions also require that the Exchange be “so organized and [have] the capacity to be able to carry out the purposes” of the Act and “to comply, and . . . to enforce compliance by its members and persons associated with its members,” with the provisions of the Exchange Act.¹¹⁷ Accordingly, a reasonable reading of the Act indicates that it intended that regulatory funding be sufficient to permit an exchange to fulfill its statutory responsibility under the Act, and contemplated that such funding would be achieved through equitable assessments on the members, issuers, and other users of an exchange’s facilities.

The Exchange believes that this proposal is consistent with the Act because it implements provisions of the Plan and is designed to assist the Exchange in meeting regulatory obligations pursuant to the Plan. In approving the Plan, the SEC noted that

¹⁰⁶ In approving the CAT Funding Model, the Commission stated that, “[i]n the Commission’s view, providing CAT Execut[ing] Brokers information regarding the calculation of their CAT Fees will aid in transparency and permit CAT Execut[ing] Brokers to confirm the accuracy of their invoices for CAT Fees.” CAT Funding Model Approval Order at 62667.

¹⁰⁷ Section 11.3(a)(iv)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission stated that “[t]he publication of the aggregate executed equivalent share volume and aggregate fee is appropriate because it would allow Participants and CAT Executing Brokers a high-level validation of executed volume and fees.” CAT Funding Model Approval Order at 13454.

¹⁰⁸ Section 11.3(a)(iii)(C) of the CAT NMS Plan.

¹⁰⁹ Q2 & Q3 2024 Quarterly Progress Report (July 29, 2024).

¹¹⁰ See Securities Exchange Act Release No. 100833 (August 27, 2024), 89 FR 71650 (September 3, 2024) (SR–CboeBYX–2024–029).

¹¹¹ Section 11.3(a)(i)(A)(I) of the CAT NMS Plan.

¹¹² CAT Funding Model Approval Order at 13448.

¹¹³ See Section 11.3(a)(ii) and Appendix B of the CAT NMS Plan.

¹¹⁴ 15 U.S.C. 78f(b)(6).

¹¹⁵ 15 U.S.C. 78f(b)(4).

¹¹⁶ 15 U.S.C. 78f(b)(8).

¹¹⁷ See 15 U.S.C. 78f(b)(1).

the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹¹⁸ To the extent that this proposal implements the Plan and applies specific requirements to Industry Members, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Act.

The Exchange believes that the proposed fees to be paid by the CEBBs and CEBs are reasonable, equitably allocated and not unfairly discriminatory. First, the CAT Fee 2026–1 fees to be collected are directly associated with the budgeted costs of establishing and maintaining the CAT, where such costs include Plan Processor costs and costs related to technology, legal, consulting, insurance, and professional and administration costs.

The proposed CAT Fee 2026–1 fees would be charged to Industry Members in support of the maintenance of a consolidated audit trail for regulatory purposes. The proposed fees, therefore, are consistent with the Commission’s view that regulatory fees be used for regulatory purposes and not to support the Exchange’s business operations. The proposed fees would not cover Exchange services unrelated to the CAT. In addition, any surplus would be used as a reserve to offset future fees. Given the direct relationship between CAT fees and CAT costs, the Exchange believes that the proposed fees are reasonable, equitable and not unfairly discriminatory.

As further discussed below, the SEC approved the CAT Funding Model, finding it was reasonable and that it equitably allocates fees among Participants and Industry Members. The Exchange believes that the proposed fees adopted pursuant to the CAT Funding Model approved by the SEC are reasonable, equitably allocated and not unfairly discriminatory.

(1) Implementation of CAT Funding Model in CAT NMS Plan

Section 11.1(b) of the CAT NMS Plan states that “[t]he Participants shall file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves.” Per Section 11.1(b) of the CAT NMS Plan, the Exchange has filed this fee filing to implement the Industry Member CAT fees included in the CAT

Funding Model. The Exchange believes that this proposal is consistent with the Exchange Act because it is consistent with, and implements, the CAT Funding Model in the CAT NMS Plan, and is designed to assist the Exchange and its Industry Members in meeting regulatory obligations pursuant to the CAT NMS Plan. In approving the CAT NMS Plan, the SEC noted that the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹¹⁹ Similarly, in approving the CAT Funding Model, the SEC concluded that the CAT Funding Model met this standard.¹²⁰ As this proposal implements the Plan and the CAT Funding Model described therein, and applies specific requirements to Industry Members in compliance with the Plan, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Exchange Act.

(2) Calculation of Fee Rate for CAT Fee 2026–1 Is Reasonable

The SEC has determined that the CAT Funding Model satisfies the requirements of the Exchange Act. Specifically, the SEC has concluded that the method for determining CAT Fees as set forth in Section 11.3 of the CAT NMS Plan, including the formula for calculating the Fee Rate, the identification of the parties responsible for payment and the transactions subject to the fee rate for CAT Fees, satisfies the Exchange Act.¹²¹ In each respect, as discussed above, CAT Fee 2026–1 is calculated, and would be applied, in accordance with the requirements applicable to CAT Fees as set forth in the CAT NMS Plan. Furthermore, as discussed below, the Exchange believes that each of the figures for the variables in the SEC-approved formula for calculating the fee rate for CAT Fee 2026–1 is reasonable and consistent with the Exchange Act. The calculation of Fee Rate 2026–1 for CAT Fee 2026–1 requires the figures for Budgeted CAT Costs 2026–1, the executed equivalent share volume for the prior twelve months, the determination of the CAT Fee 2026–1 Period, and the projection of the executed equivalent share volume for the CAT Fee 2026–1 Period. Each of these variables is reasonable and

satisfies the Exchange Act, as discussed throughout this filing.

(A) Budgeted CAT Costs 2026–1

The formula for calculating a Fee Rate requires the amount of Budgeted CAT Costs to be recovered. Specifically, Section 11.3(a)(iii)(B) of the CAT NMS Plan requires a fee filing to provide: the budget for the upcoming year (or remainder of the year, as applicable), including a brief description of each line item in the budget, including (1) the technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees, and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration, and (6) public relations costs, a reserve and/or such other categories as reasonably determined by the Operating Committee to be included in the budget, and the reason for changes in each such line item from the prior CAT fee filing.

In accordance with this requirement, the Exchange has set forth the amount and type of Budgeted CAT Costs 2026–1 for each of these categories above.

Section 11.3(a)(iii)(B) of the CAT NMS Plan also requires that the fee filing provide “sufficient detail to demonstrate that the budget for the upcoming year, or part of year, as applicable, is reasonable and appropriate.” As discussed below, the Exchange believes that the budget for the CAT Fee 2026–1 Period is “reasonable and appropriate.” Each of the costs included in CAT Fee 2026–1 is reasonable and appropriate because the costs are consistent with standard industry practice, based on the need to comply with the requirements of the CAT NMS Plan, incurred subject to negotiations performed on an arm’s length basis, and/or is consistent with the needs of any legal entity, particularly one with no employees.

(i) Technology: Cloud Hosting Services

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover budgeted costs related to cloud hosting services as a part of CAT Fees.¹²² CAT LLC determined that the budgeted costs related to cloud hosting services described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. As described above, the cloud hosting services costs reflect, among other things, the breadth of the CAT cloud activities, data volumes far in excess of the original volume estimates, the need

¹¹⁹ *Id.*

¹²⁰ CAT Funding Model Approval Order at 13481.

¹²¹ *Id.*

¹²² Section 11.3(a)(iii)(B)(1) of the CAT NMS Plan.

¹¹⁸ CAT NMS Plan Approval Order at 84697.

for specialized cloud services given the volume and unique nature of the CAT, the processing time requirements of the Plan, and regular efforts to seek to minimize costs where permissible under the Plan. CAT LLC determined that use of cloud hosting services is necessary for implementation of the CAT, particularly given the substantial data volumes associated with the CAT, and that the fees for cloud hosting services negotiated by FCAT were reasonable, taking into consideration a variety of factors, including the expected volume of data and the breadth of services provided and market rates for similar services.¹²³ Indeed, the actual costs of the CAT are far in excess of the original estimated costs of the CAT due to various factors, including the higher volumes and greater complexity of the CAT than anticipated when Rule 613 was originally adopted.

To comply with the requirements of the Plan, the breadth of the cloud activities related to the CAT is substantial. The cloud services not only include the production environment for the CAT, but they also include two industry testing environments, support environments for quality assurance and stress testing and disaster recovery capabilities. Moreover, the cloud storage costs are driven by the requirements of the Plan, which requires the storage of multiple versions of the data, from the original submitted version of the data through various processing steps, to the final version of the data.

Data volume is a significant driver of costs for cloud hosting services. When the Commission adopted the CAT NMS Plan in 2016, it estimated that the CAT would need to receive 58 billion records per day¹²⁴ and that annual operating costs for the CAT would range from \$36.5 million to \$55 million.¹²⁵ In contrast to the 2016 projections, the actual daily Q3 2025 data volumes averaged 792 billion events per day.

In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. Although CAT LLC has proactively sought to manage cloud hosting costs while complying with the Plan, including through requests to the Commission for exemptive relief and amendments to the CAT NMS Plan to reduce costs, stringent CAT NMS Plan requirements do not allow for any material flexibility in cloud architecture

design choices, processing timelines (e.g., the use of non-peak processing windows), or lower-cost storage tiers. As a result, the required CAT processing timelines contribute to the cloud hosting costs of the CAT.

The costs for cloud hosting services also reflect the need for specialized cloud hosting services given the data volume and unique processing needs of the CAT. The data volume as well as the data processing needs of the CAT necessitate the use of cloud hosting services. The equipment, power and services required for an on-premises data model, the alternative to cloud hosting services, would be cost prohibitive. Moreover, as CAT was being developed, there were limited cloud hosting providers that could satisfy all the necessary CAT requirements, including the operational and security criteria. Over time, more providers offering cloud hosting services that would satisfy these criteria have entered the market. CAT LLC will continue to evaluate alternative cloud hosting services, recognizing that the time and cost to move to an alternative cloud provider would be substantial.

The reasonableness of the cloud hosting services costs is further supported by key cost discipline mechanisms for the CAT—a cost-based funding structure, cost transparency, cost management efforts (including regular efforts to lower compute and storage costs where permitted by the Plan) and oversight. Together, these mechanisms help ensure the ongoing reasonableness of the CAT's costs and the level of fees assessed to support those costs.¹²⁶

(ii) Technology: Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to operating fees as a part of CAT Fees.¹²⁷ CAT LLC determined that the budgeted costs related to operating fees described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1.

The operating fees would include the negotiated fees paid by CAT LLC to the Plan Processor to operate and maintain the system for order-related information and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT

Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the selection of FCAT as the Plan Processor was reasonable and appropriate given its expertise with securities regulatory reporting, after a process of considering other potential candidates.¹²⁸ CAT LLC also determined that the fixed price contract, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, was reasonable and appropriate, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity.¹²⁹ The services to be performed by FCAT for CAT Fee 2026–1 Period and the budgeted costs related to such services are described above.¹³⁰

The operating costs also include costs related to the receipt of market data. CAT LLC anticipates receiving certain market data from Algoseek during the CAT Fee 2026–1 Period. CAT LLC anticipates that Algoseek will provide data as set forth in the SIP Data requirements of the CAT NMS Plan and that the fees are reasonable and in line with market rates for market data received.¹³¹

(iii) Technology: CAIS Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to CAIS operating fees as a part of CAT Fees.¹³² CAT LLC determined that the budgeted costs related to CAIS operating fees described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. The CAIS operating fees would include the fees paid to the Plan Processor to operate and maintain the Reference Database and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the fees for FCAT's services related to the Reference Database, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors, including the services to be provided and market rates for similar

¹²³ For a discussion of the amount and type of cloud hosting services fees, see Section 3(a)(2)(C)(i) above.

types of activity, are reasonable and appropriate.¹³³ The services to be performed by FCAT for the CAT Fee 2026–1 Period and the budgeted costs for such services are described above.¹³⁴

(iv) Technology: Change Request Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to change request fees as a part of CAT Fees.¹³⁵ CAT LLC determined that the budgeted costs related to change request fees described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. It is common practice to utilize a change request process to address evolving needs in technology projects. This is particularly true for a project like CAT that is the first of its kind, both in substance and in scale. The substance and costs of each of the change requests are evaluated by the Operating Committee and approved in accordance with the requirements for Operating Committee meetings. In each case, CAT LLC forecasts that the change requests will be necessary to implement the CAT. As described above,¹³⁶ CAT LLC determined that it was reasonable not to include any change request fees in the Budgeted CAT Costs 2026–1.

(v) Capitalized Developed Technology Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to capitalized developed technology costs as a part of CAT Fees.¹³⁷ In general, capitalized developed technology costs would include costs related to, for example, certain development costs, costs related to certain modifications, upgrades and other changes to the CAT and license fees. The amount and type of budgeted capitalized developed technology costs for the CAT Fee 2026–1 Period, which relate to the software license fee and technology changes to be implemented by FCAT, are described in more detail above.¹³⁸

(vi) Legal

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted costs related to legal fees as a part of CAT Fees.¹³⁹ CAT LLC

determined that the budgeted legal costs described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. Given the unique nature of the CAT, the number of parties involved with the CAT (including, for example, the SEC, Participants, Industry Members, and vendors) and the many regulatory, contractual and other issues associated with the CAT, the scope of the necessary legal services is substantial. CAT LLC determined that the scope of the proposed legal services is necessary to implement and maintain the CAT and that the legal rates reflect the specialized services necessary for such a project. CAT LLC determined to hire and continue to use each law firm based on a variety of factors, including their relevant expertise and fees. In each case, CAT LLC determined that the fee rates were in line with market rates for specialized legal expertise. In addition, CAT LLC determined that the budgeted costs for the legal projects were appropriate given the breadth of the services provided. The services to be performed by each law firm for the CAT Fee 2026–1 Period and the budgeted costs related to such services are described above.¹⁴⁰

(vii) Consulting

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted consulting costs as a part of CAT Fees.¹⁴¹ CAT LLC determined that the budgeted consulting costs described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. Because there are no CAT employees¹⁴² and because of the significant number of issues associated with the CAT, the consultants are budgeted to provide assistance in the management of various CAT matters and the processes related to such matters.¹⁴³ CAT LLC determined the budgeted consulting costs were appropriate, as the consulting services were to be provided at reasonable market rates that were comparable to the rates charged by other consulting firms for similar work. Moreover, the total budgeted costs for such consulting services were appropriate in light of the breadth of services provided by Deloitte. The services budgeted to be performed

by Deloitte and the budgeted costs related to such services are described above.¹⁴⁴

(viii) Insurance

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted insurance costs as a part of CAT Fees.¹⁴⁵ CAT LLC determined that the budgeted insurance costs described in this filing are reasonable and should be included as a part of the Budgeted CAT Costs 2026–1. CAT LLC determined that it is common practice to have directors' and officers' liability insurance, and errors and omissions liability insurance. CAT LLC further determined that it was important to have cyber security insurance given the nature of the CAT, and such a decision is consistent with the CAT NMS Plan, which states that the cyber incident response plan may include "[i]nsurance against security breaches."¹⁴⁶ As discussed above,¹⁴⁷ CAT LLC determined that the budgeted insurance costs were appropriate given its prior experience with this market and an analysis of the alternative insurance offerings. Based on this analysis, CAT LLC determined that the selected insurance policies provided appropriate coverage at reasonable market rates.¹⁴⁸

(ix) Professional and Administration

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted professional and administration costs as a part of CAT Fees.¹⁴⁹ CAT LLC determined that the budgeted professional and administration costs described in this filing are reasonable and should be included as a part of Budgeted CAT Costs 2026–1. Because there are no CAT employees, all required accounting, financial, tax, cash management and treasury functions for CAT LLC have been outsourced at market rates. In addition, the required annual financial statement audit of CAT LLC is included in professional and administration costs, which costs are also at market rates. The services performed by Anchin and Grant Thornton and the costs related to such services are described above.¹⁵⁰

¹⁴⁹ Section 11.3(a)(iii)(B)(B)(5) of the CAT NMS Plan.

¹⁵⁰ See Section 3(a)(2)(C)(ix) above.

CAT LLC anticipates continuing to make use of Anchin, a financial advisory firm, to assist with financial matters for the CAT. CAT LLC determined that the budgeted costs for Anchin were appropriate, as the financial advisory services were to be provided at reasonable market rates that were comparable to the rates charged by other such firms for similar work. Moreover, the total budgeted costs for such financial advisory services were appropriate in light of the breadth of services provided by Anchin. The services budgeted to be performed by Anchin and the budgeted costs related to such services are described above.¹⁵¹

CAT LLC anticipates continuing to make use of Grant Thornton, an independent accounting firm, to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. CAT LLC determined that the budgeted costs for Grant Thornton were appropriate, as the accounting services were to be provided at reasonable market rates that were comparable to the rates charged by other such firms for similar work. Moreover, the total budgeted costs for such accounting services were appropriate in light of the breadth of services provided by Grant Thornton. The services budgeted to be performed by Grant Thornton and the budgeted costs related to such services are described above.¹⁵²

(x) Public Relations Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted public relations costs as a part of CAT Fees.¹⁵³ However, as described above,¹⁵⁴ CAT LLC determined not to include any public relations costs in Budgeted CAT Costs 2026–1. CAT LLC determined that it was reasonable not to include any public relations costs in the Budgeted CAT Costs 2026–1.

(xi) Interest Income

Section 11.1(a) of the CAT NMS Plan requires the CAT budget to include “the sources of all revenues to cover costs.” Accordingly, the Updated 2026 CAT Budget includes a line item for interest income. Specifically, the Updated 2026 CAT Budget includes \$1,453,382 in interest income for the CAT Fee 2026–1 Period.¹⁵⁵ CAT LLC determined that using interest income to reduce the

amount to be collected via CAT Fees is reasonable and should be included as a part of the Budgeted CAT Costs 2026–1.

(x) Reserve

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover budgeted reserve costs as a part of CAT Fees.¹⁵⁶ CAT LLC determined that the reserve in the amount of 25% of the Updated 2026 CAT Budget (other than the reserve) complies with the requirements of the CAT NMS Plan related to a reserve, is a reasonable amount, and, therefore, should be included as a part of the Updated 2026 CAT Budget.

In its approval order for the CAT Funding Model, the Commission stated that it would be appropriate for the annual operating budget for the CAT to “include a reserve of not more than 25% of the annual budget.”¹⁵⁷ In making this statement, the Commission noted the following:

Because the CAT is a critical regulatory tool/system, the CAT needs to have a stable funding source to build financial stability to support the Company as a going concern. Funding for the CAT, as noted in Section 11.1(b), is the responsibility of the Participants and the industry. Because CAT fees are charged based on the budget, which is based on anticipated volume, it is reasonable to have a reserve on hand to prevent a shortfall in the event there is an unexpectedly high volume in a given year. A reserve would help to assure that the CAT has sufficient resources to cover costs should there be unanticipated costs or costs that are higher than expected.¹⁵⁸

The SEC also recognized that a reserve would help address the difficulty in predicting certain variable CAT costs, like trading volume.¹⁵⁹ The SEC also recognized that CAT fees will be collected approximately three months after trading activity on which a CAT fee is based, or 25% of the year, and that the reserve would be available to address funding needs related to this three-month delay.¹⁶⁰ The inclusion of the proposed reserve in the Updated 2026 CAT Budget would provide each of these benefits to the CAT. The reserve is discussed further above.¹⁶¹

As discussed further below,¹⁶² however, a surplus reserve balance in

excess of the budgeted 25% reserve has been collected as of the beginning of the year of 2026. Accordingly, the Updated 2026 CAT Budget indicates that this surplus would be used to offset a portion of CAT costs for the CAT Fee 2026–1 Period, thereby reducing the fee rate for CAT Fee 2026–1 (\$0.000001 per executed equivalent share). If the fee rate for CAT Fee 2026–1 were calculated solely based on the reasonably budgeted costs for CAT for May–December 2026, excluding the reduction in that amount due to the surplus reserve offset, the fee rate would be \$0.000010 per executed equivalent share.

(B) Reconciliation of Budget to the Collected Fees

The CAT NMS Plan also requires fee filings for Prospective CAT Fees to include “a discussion of how the budget is reconciled to the collected fees.”¹⁶³ As discussed above,¹⁶⁴ this reserve balance of \$102,391,135 collected via prior CAT Fees would be used to offset a portion of CAT costs for CAT Fee Period 2026–1, thereby reducing the fee rate to be paid for CAT Fee 2026–1. Specifically, the total costs (including the 25% reserve) for CAT Fee 2026–1 of \$117,540,783 would be reduced by the \$102,391,135 in reserve. Therefore, the Total Budgeted CAT Costs 2026–1 would be \$15,149,648. Such surplus reserve balance would be used to reduce the fee rate for CAT Fee 2026–1 (\$0.000001 per executed equivalent share).

(C) Total Executed Equivalent Share Volume for the Prior 12 Months

The total executed equivalent share volume of transactions in Eligible Securities for the period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. CAT LLC determined the total executed equivalent share volume for the prior twelve months by counting executed equivalent shares in the same manner as it counts executed equivalent shares for CAT billing purposes.¹⁶⁵

(D) Projected Executed Equivalent Share Volume for the CAT Fee 2026–1 Period

CAT LLC has determined that the projected total executed equivalent share volume for the eight months of the CAT Fee 2026–1 Period by multiplying by 8/12ths the executed equivalent share volume for the prior twelve months: 8/12 times

¹⁶² See Section 3(b)(2)(B) below.

5,980,937,549,360.49 executed equivalent shares.¹⁶⁶ The Operating Committee determined that such an approach was reasonable as the CAT's annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.41), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level.

(E) Actual Fee Rate for CAT Fee 2026–1

(i) Decimal Places

As noted in the approval order for the CAT Funding Model, as a practical matter, the fee filing for a CAT Fee would provide the exact fee per executed equivalent share to be paid for each CAT Fee, by multiplying the Fee Rate by one-third and describing the relevant number of decimal places for the fee rate.¹⁶⁷ Accordingly, proposed paragraph (a)(6)(B) of the fee schedule would set forth a fee rate of \$0.000001 per executed equivalent share. This fee rate is calculated by multiplying Fee Rate 2026–1 by one-third and rounding the result to six decimal places. CAT LLC determined that the use of six decimal places is reasonable as it balances the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.¹⁶⁸

(ii) Reasonable Fee Level

The Exchange believes that charging CAT Fee 2026–1 with a fee rate of \$0.000001 per executed equivalent share is reasonable because it provides for a revenue stream for the Company that is aligned with the Budgeted CAT Costs 2026–1. Moreover, the Exchange believes that the level of the fee rate is reasonable, as it is less than CAT Fee 2025–2 and is comparable to other transaction-based fees, including fees assessed pursuant to Section 31.¹⁶⁹ As a result, the magnitude of CAT Fee 2026–1 is small, and therefore will *COM007*mitigate any potential adverse economic effects or inefficiencies.¹⁷⁰

(3) CAT Fee 2026–1 Provides for an Equitable Allocation of Fees

CAT Fee 2026–1 provides for an equitable allocation of fees, as it equitably allocates CAT costs between and among the Participants and Industry Members. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfied the requirements of the Exchange Act, including the formula for calculating CAT Fees as well as the Industry Members to be charged the CAT Fees.¹⁷¹ In approving the CAT Funding Model, the SEC stated that “[t]he Participants have sufficiently demonstrated that the proposed allocation of fees is appropriate and meets the Rule 608(b) approval standard.”¹⁷² Accordingly, the CAT Funding Model sets forth the requirements for allocating fees related to Budgeted CAT Costs among Participants and Industry Members, and the fee filings for CAT Fees must comply with those requirements.

CAT Fee 2026–1 provides for an equitable allocation of fees as it complies with the requirements regarding the calculation of CAT Fees as set forth in the CAT NMS Plan. For example, as described above, the calculation of CAT Fee 2026–1 complies with the formula set forth in Section 11.3(a) of the CAT NMS Plan. In addition, CAT Fee 2026–1 would be charged to CEBBs and CEBBS in accordance with Section 11.3(a) of the CAT NMS Plan. Furthermore, the Participants would be charged for their designated share of the Budgeted CAT Costs 2026–1 through a fee implemented via the CAT NMS Plan, which would have the same fee rate as CAT Fee 2026–1.

In addition, as discussed above, each of the inputs into the calculation of CAT Fee 2026–1—the Budgeted CAT Costs 2026–1, the count for the executed equivalent share volume for the prior 12 months, and the projected executed equivalent share volume for the CAT Fee 2026–1 Period—is reasonable. Moreover, these inputs lead to a reasonable fee rate for CAT Fee 2026–1 that is lower than other fee rates for transaction-based fees. A reasonable fee rate allocated in accordance with the requirements of the CAT Funding Model provides for an equitable allocation of fees.

(4) CAT Fee 2026–1 Is Not Unfairly Discriminatory

CAT Fee 2026–1 is not an unfairly discriminatory fee. The SEC approved

the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfies the requirements of the Exchange Act. In reaching this conclusion, the SEC analyzed the potential effect of CAT Fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. CAT Fee 2026–1 complies with the requirements regarding the calculation of CAT Fees as set forth in the CAT NMS Plan. In addition, as discussed above, each of the inputs into the calculation of CAT Fee 2026–1 and the resulting fee rate for CAT Fee 2026–1 is reasonable. Therefore, CAT Fee 2026–1 does not impose an unfairly discriminatory fee on Industry Members.

The Exchange believes the proposed fees established pursuant to the CAT Funding Model promote just and equitable principles of trade, and, in general, protect investors and the public interest, and are provided in a transparent manner and with specificity in the fee schedule. The Exchange also believes that the proposed fees are reasonable because they would provide ease of calculation, ease of billing and other administrative functions, and predictability of a fee based on fixed rate per executed equivalent share. Such factors are crucial to estimating a reliable revenue stream for CAT LLC and for permitting Exchange members to reasonably predict their payment obligations for budgeting purposes.

B. Self-Regulatory Organization's Statement on Burden on Competition

Section 6(b)(8) of the Act¹⁷³ requires that the Exchange's rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that CAT Fee 2026–1 implements provisions of the CAT NMS Plan that were approved by the Commission and is designed to assist the Exchange in meeting its regulatory obligations pursuant to the Plan.

In addition, all Participants (including exchanges and FINRA) are proposing to

¹⁶⁶ *Id.*

¹⁶⁷ CAT Funding Model Approval Order at 13445, n.677.

¹⁶⁸ See Section 3(a)(5)(A) above.

¹⁶⁹ For example, as the SEC noted in the CAT Funding Model Approval Order, recent Section 31 fees ranged from \$0.00007 per share to \$0.00072 per share. CAT Funding Model Approval Order at 13469.

¹⁷⁰ *Id.*

¹⁷¹ See Section 11.3(a) of the CAT NMS Plan.

¹⁷² CAT Funding Model Approval Order at 13412.

¹⁷³ 15 U.S.C. 78f(b)(8).

introduce CAT Fee 2026–1 on behalf of CAT LLC to implement the requirements of the CAT NMS Plan. Therefore, this is not a competitive fee filing, and, therefore, it does not raise competition issues between and among the Participants.

Furthermore, in approving the CAT Funding Model, the SEC analyzed the potential competitive impact of the CAT Funding Model, including competitive issues related to market services, trading services and regulatory services, efficiency concerns, and capital formation.¹⁷⁴ The SEC also analyzed the potential effect of CAT fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. Based on this analysis, the SEC approved the CAT Funding Model as compliant with the Exchange Act. CAT Fee 2026–1 is calculated and implemented in accordance with the CAT Funding Model as approved by the SEC.

As discussed above, each of the inputs into the calculation of CAT Fee 2026–1 is reasonable and the resulting fee rate for CAT Fee 2026–1 calculated in accordance with the CAT Funding Model is reasonable. Therefore, CAT Fee 2026–1 would not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Not applicable.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁷⁵ and paragraph (f) of Rule 19b–4¹⁷⁶ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors,

or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR–CboeBYX–2026–015 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–CboeBYX–2026–015. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–CboeBYX–2026–015 and should be submitted on or before June 2, 2026.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁷⁷

Stephanie J. Fouse,

Assistant Secretary.

BILLING CODE 8011–01–P

SMALL BUSINESS ADMINISTRATION

[Disaster Declaration #21581 and #21582; TEXAS Disaster Number TX–20081]

Administrative Declaration of a Disaster for the State of Texas

AGENCY: U.S. Small Business Administration.

ACTION: Notice.

SUMMARY: This is notice of an Administrative declaration of a disaster for the state of Texas dated May 7, 2026.

Incident: Severe Storms and Tornadoes.

DATES: Issued on May 7, 2026.

Incident Period: April 24, 2026 through May 1, 2026.

Physical Loan Application Deadline Date: July 6, 2026.

Economic Injury (EIDL) Loan Application Deadline Date: February 8, 2027.

ADDRESSES: Visit the MySBA Loan Portal at <https://lending.sba.gov> to apply for a disaster assistance loan.

FOR FURTHER INFORMATION CONTACT: Jennifer Talarico, Office of Disaster Recovery and Resilience, U.S. Small Business Administration, 409 3rd Street SW, Suite 6050, Washington, DC 20416, (202) 205–6734.

SUPPLEMENTARY INFORMATION: Notice is hereby given as a result of the Administrator's disaster declaration, applications for disaster loans may be submitted online using the MySBA Loan Portal <https://lending.sba.gov> or in person at other locally announced locations. For further assistance please contact the SBA disaster assistance customer service center by email at disastercustomerservice@sba.gov or by phone at 1–800–659–2955. If you are deaf, hard of hearing, or have a speech disability, please dial 7–1–1 to access telecommunications relay services.

The following areas have been determined to be adversely affected by the disaster:

Primary Counties: Parker, Wise.

Contiguous Counties:

Texas: Cooke, Denton, Hood, Jack, Johnson, Montague, Palo Pinto, Tarrant.

The Interest Rates are:

	Percent
<i>For Physical Damage:</i>	
Homeowners with Credit Available Elsewhere	5.750
Homeowners without Credit Available Elsewhere	2.875
Businesses with Credit Available Elsewhere	8.000
Businesses without Credit Available Elsewhere	4.000

¹⁷⁴ CAT Funding Model Approval Order at 13457–81.

¹⁷⁵ 15 U.S.C. 78s(b)(3)(A).

¹⁷⁶ 17 CFR 240.19b–4(f).

¹⁷⁷ 17 CFR 200.30–3(a)(12).

	Percent
Private Non-Profit Organizations with Credit Available Elsewhere	3.625
Private Non-Profit Organizations without Credit Available Elsewhere	3.625
<i>For Economy Injury:</i>	
Business and Small Agricultural Cooperatives without Credit Available Elsewhere	4.000
Private Non-Profit Organizations without Credit Available Elsewhere	3.625

The number assigned to this disaster for physical damage is 21581C and for economic injury is 215820.

The state which received an SBA Administrative declaration is Texas.

(Catalog of Federal Domestic Assistance Number 59008)

(Authority: 13 CFR 123.3(b).)

James Stallings,

Associate Administrator, Office of Disaster Recovery & Resilience.

BILLING CODE 8026-09-P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2026-0050]

Qualification of Drivers; Exemption Applications; Hearing

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), Department of Transportation (DOT).

ACTION: Notice of applications for exemption; request for comments.

SUMMARY: FMCSA announces receipt of applications from 11 individuals for an exemption from the hearing requirement in the Federal Motor Carrier Safety Regulations (FMCSRs) to operate a commercial motor vehicle (CMV) in interstate commerce. If granted, the exemptions would enable these hard of hearing and deaf individuals to operate CMVs in interstate commerce.

DATES: Comments must be received on or before June 11, 2026.

ADDRESSES: You may submit comments identified by Docket No. FMCSA-2026-0050 using any of the following methods:

- *Federal eRulemaking Portal:* Go to www.regulations.gov, insert the docket number (FMCSA-2026-0050) in the keyword box and click "Search." Next, choose the only notice listed, and click on the "Comment" button. Follow the

online instructions for submitting comments.

- *Mail:* Dockets Operations, U.S. Department of Transportation, 1200 New Jersey Avenue SE, W58-213, Washington, DC 20590-0001.

- *Hand Delivery or Courier:* Dockets Operations, U.S. Department of Transportation, 1200 New Jersey Avenue SE, W58-213, Washington, DC 20590-0001, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

- *Fax:* (202) 493-2251.

To avoid duplication, please use only one of these four methods. See the "Public Participation" portion of the **SUPPLEMENTARY INFORMATION** section for instructions on submitting comments.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, FMCSA, DOT, 1200 New Jersey Avenue SE, Washington, DC 20590-0001; (202) 366-4001; fmcamedical@dot.gov. Office hours are 8:30 a.m. to 5 p.m. ET Monday through Friday, except Federal holidays. If you have questions regarding viewing or submitting material to the docket, contact Dockets Operations, (202) 366-9826.

SUPPLEMENTARY INFORMATION:

I. Public Participation

A. Submitting Comments

If you submit a comment, please include the docket number for this notice (FMCSA-2026-0050), indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so that FMCSA can contact you if there are questions regarding your submission.

To submit your comment online, go to <https://www.regulations.gov/docket/FMCSA-2026-0050>. Next, choose the only notice listed, click the "Comment" button, and type your comment into the text box on the following screen. Choose whether you are submitting your comment as an individual or on behalf of a third party and then submit.

If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. FMCSA will consider all comments and material received during the comment period.

B. Confidential Business Information (CBI)

CBI is commercial or financial information that is both customarily and actually treated as private by its owner. Under the Freedom of Information Act (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to the notice contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to the notice, it is important that you clearly designate the submitted comments as CBI. Please mark each page of your submission that constitutes CBI as "PROPIN" to indicate it contains proprietary information. FMCSA will treat such marked submissions as confidential under the Freedom of Information Act, and they will not be placed in the public docket of the notice. Submissions containing CBI should be sent to Brian Dahlin, Chief, Regulatory Evaluation Division, Office of Policy, FMCSA, 1200 New Jersey Avenue SE, Washington, DC 20590-0001 or via email at brian.g.dahlin@dot.gov. At this time, you need not send a duplicate hardcopy of your electronic CBI submissions to FMCSA headquarters. Any comments FMCSA receives not specifically designated as CBI will be placed in the public docket for this notice.

C. Viewing Comments

To view comments, go to www.regulations.gov, insert the docket number (FMCSA-2026-0050) in the keyword box and click "Search." Next, choose the only notice listed, and click "Browse Comments." If you do not have access to the internet, you may view the docket online by visiting Dockets Operations in room W58-213 of the DOT West Building, 1200 New Jersey Avenue SE, Washington, DC 20590-0001, between 9 a.m. and 5 p.m. ET Monday through Friday, except Federal holidays. To be sure someone is there to help you, please call (202) 366-9317 or (202) 366-9826 before visiting Dockets Operations.

D. Privacy Act

In accordance with 49 U.S.C. 31315(b)(6), DOT solicits comments from the public on the exemption request. DOT posts these comments, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice DOT/ALL-14 FDMS (Federal Docket Management System), which can be reviewed under the "Department Wide System of

Records Notices” link at <https://www.transportation.gov/individuals/privacy/privacy-act-system-records-notices>. The comments are posted without edit and are searchable by the name of the submitter.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315(b) to grant exemptions from the FMCSRs. FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including the applicant's safety analysis. The Agency must provide an opportunity for public comment on the request.

The Agency reviews the application, safety analyses, and public comments submitted and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved absent such exemption, pursuant to the standard set forth in 49 U.S.C. 31315(b)(1). The Agency must publish its decision in the **Federal Register** (49 CFR 381.315(b)). If granted, the notice will identify the regulatory provision from which the applicant will be exempt, the effective period, and all terms and conditions of the exemption (49 CFR 381.315(c)(1)). If the exemption is denied, the notice will explain the reason for the denial (49 CFR 381.315(c)(2)). The exemption may be renewed (49 CFR 381.300(b)). FMCSA grants medical exemptions from the FMCSRs for a 2-year period to align with the maximum duration of a driver's medical certification.

III. Background

The physical qualification standard for drivers regarding hearing, found in 49 CFR 391.41(b)(11), states that a person is physically qualified to drive a CMV if that person first perceives a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5—1951.

This standard was adopted in 1970 and was revised in 1971 to allow drivers to be qualified under this standard while wearing a hearing aid (35 FR 6458, 6463 (Apr. 22, 1970) and 36 FR 12857 (July 8, 1971)). In 2008, FMCSA published Evidence Report, “Executive

Summary on Hearing, Vestibular Function and Commercial Motor Driving Safety.”¹ The evidence report reached two conclusions regarding the matter of hearing loss and CMV driver safety: (1) no studies that examined the relationship between hearing loss and crash risk exclusively among CMV drivers were identified; and (2) evidence from studies of the private driver's license holder population does not support the contention that individuals with hearing impairment are at an increased risk for a crash.

On February 1, 2013, FMCSA began granting exemptions, on a case-by-case basis, to individual drivers from the physical qualification standard regarding hearing in 49 CFR 391.41(b)(11) (78 FR 7479 (Feb. 1, 2013)). The Agency considers relevant scientific information and literature, the 2008 Evidence Report, “Executive Summary on Hearing, Vestibular Function and Commercial Motor Driving Safety,” any public comments received, and each individual's driving record in deciding whether to grant the exemption.

The 11 individuals listed in this notice have requested an exemption from the hearing standard in 49 CFR 391.41(b)(11). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by statute.

IV. Qualifications of Applicants

Kenneth Arrington

Mr. Arrington, 35, holds a class C driver's license in Texas.

Randy Bayley

Mr. Bayley, 31, holds a class D driver's license in New York.

Jerrod Cunningham

Mr. Cunningham, 34, holds a class E driver's license in Florida.

Tyler Dilks

Mr. Dilks, 36, holds a class C driver's license in Maryland.

Samuel Fewel

Mr. Fewel, 36, holds a class D driver's license in Oklahoma.

Derek Ghiotti

Mr. Ghiotti, 56, holds a class C driver's license in Oregon.

Rodolfo Gonzalez

Mr. Gonzalez, 34, holds a class C driver's license in Texas.

¹ <https://www.fmcsa.dot.gov/regulations/medical/hearing-vestibular-function-and-commercial-motor-vehicle-driver-safety-executive>.

Albert Herr

Mr. Herr, 77, holds a class A commercial driver's license (CDL) in Pennsylvania.

Kevin Luttrell

Mr. Luttrell, 30, holds a class F driver's license in Missouri.

Manuel Rivero Ninacevich

Mr. Rivero Ninacevich, 36, holds a class E driver's license in Florida.

Ricardo Rojo

Mr. Rojo, 41, holds a class C driver's license in California.

V. Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315(b), FMCSA requests public comment from all interested persons on the exemption applications described in this notice. FMCSA will consider all comments received before the close of business on the closing date indicated under the **DATES** section of the notice.

Larry W. Minor,

Associate Administrator for Policy.

BILLING CODE 4910–EX–P

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

Hazardous Materials: Notice of Actions on Special Permits

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: Notice of actions on special permit applications.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, special permits from the Department of Transportation's Hazardous Material Regulations, notice is hereby given that the Office of Hazardous Materials Safety has granted or denied the application described herein.

DATES: Comments must be received on or before June 11, 2026.

ADDRESSES: Record Center, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, Washington, DC 20590.

Comments should refer to the application number and be submitted in triplicate. If confirmation of receipt of comments is desired, include a self-addressed stamped postcard showing the special permit number.

FOR FURTHER INFORMATION CONTACT: Donald Burger, Director, Office of

Hazardous Materials Safety Special Permits Program, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, East Building, PHH-6, 1200 New Jersey Avenue Southeast, Washington, DC 20590-0001, (202) 366-4535.

SUPPLEMENTARY INFORMATION: Copies of the applications are available for inspection in the Records Center, East Building, PHH-6, 1200 New Jersey Avenue Southeast, Washington DC.

This notice of receipt of applications for special permit is published in accordance with part 107 of the Federal

hazardous materials transportation law (49 U.S.C. 5117(b); 49 CFR 1.53(b)).

Issued in Washington, DC, on May 6, 2026.

Donald P. Burger,

Director, Special Permits Program.

Application No.	Applicant	Regulation(s) affected	Nature of the special permits thereof
Special Permits Data—Granted			
8757-M	Milton Roy, LLC	173.201(c), 173.202(c), 173.203(c), 173.302a(a)(1), 173.304a(a)(1), 180.205.	To modify the special permit to authorize the current revision number for the packaging drawings including a new lower service pressure.
14267-M	United States Department of Energy.	173.417(a), 173.211, 173.244	To modify the special permit to authorize an additional maximum quantity of other fissile radionuclides.
20646-M	Omni Tanker Pty. Ltd.	107.503(b), 107.503(c), 172.102(c)(3), 172.102(c)(7)(ii), 178.274(b), 178.274(c), 178.274(d).	To modify the special permit to authorize additional packaging construction specifications and additional hazardous materials.
20902-M	Eastern Upper Peninsula Transportation Authority.	176.164(e)	To modify the special permit to authorize additional hazardous material.
21691-N	Amtrol-Alfa, Metalomecânica, S.A.	173.304a	To authorize the manufacture, mark, sale and use of a non-DOT specification refillable welded steel cylinder for the transportation in commerce of the hazardous materials authorized by this special permit.
21784-M	Daicel Safety Systems (Jiangsu) Co., Ltd.	173.301(a), 178.65(c)(3), 173.302(a)(1).	To modify the special permit to authorize an additional airbag inflator.
22008-M	Beta Technologies, Inc.	172.101(j)	To modify the special permit to increase the authorized mass of the battery and to remove the CX300 reference.
22042-N	Jaguar Land Rover Limited	172.102(c)(2)	To authorize the transportation in commerce of lithium-ion batteries that exceed 35 kg net weight aboard cargo-only aircraft.
22106-N	Veolia ES Technical Solutions, LLC.	173.21(b), 173.51(a), 173.54(a), 173.56(b).	To authorize the one-time, one-way transportation of a forbidden explosive for disposal.
22137-N	Daicel Safety Systems Europe Sp. z o. o.	173.301(a)(1), 173.302(a)(1), 178.65(c)(3).	To authorize the manufacture, mark, sale, and use of non-DOT specification cylinders (pressure vessels) for use as components of automobile vehicle safety systems.
22149-N	Apex Technology, Inc.	173.185(a)(1), 173.301(f)(1)	To authorize the one-time, one-way transportation in commerce of non-DOT specification composite over-wrapped pressure vessels (COPV) that are not equipped with a pressure relief device and non-specification packagings (service manifold tube assembly) both containing Division 2.2 gases and are integrated into a spacecraft (i.e., the primary structure and core subsystem).
22152-N	Greif Packaging LLC	172.203(a), 172.301(c), 178.601(e) ..	To authorize the manufacture, mark, sale and use of UN 1A1 and 1A2 steel drums, which are subject to alternate testing procedures.
22155-N	Spire Missouri Inc.	171.8, 173.242(c), 177.834(h), 180.605(d).	To authorize the transportation in commerce of UN3336, mercaptans, liquid, flammable, n.o.s. or mercaptan mixture, liquid, flammable, n.o.s. within non-specification non-bulk and bulk packagings permanently attached to trailers.
22161-N	North Coast Container, LLC	172.203(a), 172.301(c), 178.601(e) ..	To authorize UN 1A1 and UN 1A2 steel drums that have had an alternative periodic retest performed to be used for the transportation in commerce of the hazardous materials identified in the special permit.
22199-N	Li-S Energy Limited	173.185(a)(1)	To authorize the transportation in commerce of low production lithium metal sulfur cells that have not been demonstrated by testing to pass all required tests as specified in the in the UN Manual of Tests and Criteria.
22231-N	Benelux Imaging B.V.	172.101, 172.301(c), 173.232(h)(2) ..	To authorize the transportation in commerce of magnetic resonance imaging (MRI) equipment (classified as UN3538) via cargo-only aircraft.
22253-N	MacDonald, Dettwiler and Associates Ltd.	173.301(f), 173.302a(a)	To authorize the transportation in commerce of non-DOT specification cylinders installed in a satellite.
22256-N	Brenntag Mid-South, Inc.	173.24(c)	To authorize the transportation in commerce of unauthorized packaging containing solid sodium hydroxide.

Application No.	Applicant	Regulation(s) affected	Nature of the special permits thereof
22277-N	Michigan State Police	173.315(j)(1)	To authorize the transportation of multiple propane tanks, with varying amounts of propane in them, recovered from Michigan waterways due to severe statewide flooding.
Special Permits Data—Denied			
14867-M	GTM Manufacturing, LLC	173.302(a)(1), 173.304(a)	To modify the special permit to authorize extending the service life of the cylinders beyond 15 years.
21354-M	Resonac America, Inc.	171.23(a)(1), 171.23(a)(3)	To modify the special permit to authorize the cylinders to remain in service beyond five years.
22039-N	U.S. Bureau of Customs and Border Protection.	172.300, 172.400, 173.25, 175.75	To authorize the shipment of radiation detection survey meters, manufactured under DOT-SP 13187, containing Division 2.2 compressed gases in the passenger compartment of commercial aircraft.
22082-N	W. A. Murphy, Inc.	177.835(c), 177.835(d), 177.848(e), 177.848(f).	To authorize the transportation in commerce of hazardous materials contained in a multi-purpose bulk truck (MBT) in combination with a pup trailer carrying additional blasting agents or emulsion.
22163-N	Critical Mineral Recovery, Inc.	173.185(b)(1), 173.185(f)	To authorize the transportation of fully deactivated, damaged lithium-ion cells without inner packaging as specified by 49 CFR §§ 173.185(b) and 173.185(f).
22237-N	American Mobile Research, Inc.	173.201, 173.302, 173.304	To authorize the transportation in commerce of certain hazardous materials in non-DOT specification packaging.
Special Permits Data—Withdrawn			
22243-N	Atlantic Energy Partners ND LLC.	173.35	To authorize the transportation of non-DOT specification intermediate bulk containers (IBC's) mounted on flat-bed trucks and trailers, with loading and unloading operations conducted via electrical pumping systems.
22254-N	Space Exploration Technologies Corp.	173.185(e)(7)	To authorize the transportation in commerce of custom designed prototype lithium batteries from select vendors overseas.
22257-N	Guidance Air Service, LLC ..	172.101(j)(2), 172.200, 172.301(c), 175.75.	To authorize the transportation in commerce of certain hazardous materials to remote areas of the United States by 14 CFR Part 133 cargo-only rotorcraft external load operations.

DEPARTMENT OF TRANSPORTATION**Pipeline and Hazardous Materials Safety Administration****Hazardous Materials: Notice of Applications for Modification to Special Permits**

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: List of applications for modification of special permits.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, special permits from the Department of Transportation's Hazardous Material Regulations, notice is hereby given that the Office of Hazardous Materials Safety

has received the application described herein.

DATES: Comments must be received on or before May 27, 2026.

ADDRESSES: Record Center, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, Washington, DC 20590.

Comments should refer to the application number and be submitted in triplicate. If confirmation of receipt of comment(s) is desired, include a self-addressed stamped postcard showing the special permit number.

FOR FURTHER INFORMATION CONTACT: Donald Burger, Director, Office of Hazardous Materials Safety Special Permits Program, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, East Building, PHH-6, 1200 New Jersey Avenue Southeast, Washington, DC 20590-0001, (202) 366-4535.

SUPPLEMENTARY INFORMATION: Each mode of transportation for which a particular special permit is requested is indicated by a number in the "Nature of Application" portion of the table below as follows: (1) Motor vehicle, (2) Rail freight, (3) Cargo vessel, (4) Cargo aircraft only, (5) Passenger-carrying aircraft.

Copies of the applications are available for inspection in the Records Center, East Building, PHH-6, 1200 New Jersey Avenue Southeast, Washington, DC or at <http://regulations.gov>.

This notice of receipt of applications for special permit is published in accordance with part 107 of the Federal hazardous materials transportation law (49 U.S.C. 5117(b); 49 CFR 1.53(b)).

Issued in Washington, DC, on May 6, 2026.

Donald P. Burger,
Director, Special Permits Program.

SPECIAL PERMITS DATA

Application No.	Applicant	Regulation(s) affected	Nature of the special permits thereof
4661-M	Albemarle U.S. Inc	180.205(b), 180.205(c), 180.205(f), 180.205(g), 180.209(a), 180.213.	To modify the special permit to remove provisions that are not applicable. (modes 1, 2, 3).
14784-M	Weldship LLC	180.209(a), 180.209(b)	To modify the special permit to authorize an additional hazardous material. (modes 1, 2, 3).
15660-M	Versum Materials US, LLC ..	180.209(a), 180.209(b), 180.209(b)(1)(iv).	To modify the special permit to clarify the requalification marking requirements. (modes 1, 2, 3, 4, 5).
16413-M	Amazon.com, Inc	173.159a(c)(2), 173.185(c)(1)(iii), 173.185(c)(1)(iv), 173.185(c)(3), 172.300(a), 172.301(c), 172.315, 173.25(a), 173.150(b), 173.151(b), 173.152(b), 173.153(b), 173.154(b), 173.155(b), 173.306(a), 173.309(d).	To modify the special permit to authorize additional hazardous materials eligible to be shipped as limited quantities by special permit. (modes 1, 2).
20274-M	Bollore Logistics USA Inc	172.101(j), 172.300, 172.400, 173.301, 173.302a(a)(1), 173.304a(a)(2).	To modify the special permit to authorize additional hazardous materials, additional modes of transportation and to update the company name and information. (modes 1, 4).
20275-M	Helicopter Applicators, Inc ...	172.101(j)(1), 172.200, 172.300, 172.400, 175.1.	To modify the special permit to authorize additional hazardous materials. (mode 4).
20396-M	Hexagon Digital Wave LLC	180.205(g)	To modify the special permit to authorize additional packagings designed and homologated to UN/ISO 11515 and DOT-SP 20425. (modes 1, 2, 3).
21074-M	Zhejiang Meenyu Can Industry Co., Ltd.	173.304(a), 173.304(d)	To modify the special permit to authorize an additional inner metal container. (modes 1, 2, 3).
21354-M	Resonac America, Inc	171.23(a)(1), 171.23(a)(3)	To modify the special permit to authorize the export of full cylinders under limited circumstances. (modes 1, 3).
21739-M	G-Shang Metal Corporation	173.301b(a)	To modify the special permit to authorize an additional packaging design. (modes 1, 2, 3, 4, 5).
21890-M	Blue Origin, LLC	173.301(f)(1), 173.302(a)(1), 173.302(b).	To modify the special permit to authorize non-DOT specification cylinders. (modes 1, 3).
21999-M	City of Phoenix	173.220(b)(4)(iii)	To modify the special permit to authorize additional hazardous materials. (modes 1, 4, 5).
22025-M	Bhiwadi Cylinders Private Limited.	173.304(d), 178.33d-2	To modify the special permit to authorize an additional inner receptacle design.
22042-M	Jaguar Land Rover Limited	172.101(j)	To modify the special permit to authorize an additional battery design. (modes 1, 4).
22064-M	Daicel Safety Systems (Thailand) Company Limited.	173.301(a)(1), 173.302(a)(1), 178.65(c)(3).	To modify the special to authorize the transportation of a pressure vessel via cargo vessel. (modes 1, 2, 3, 4).
22087-M	Zipline International Inc	173.1, 173.24, 173.24a, 173.27, 173.159, 173.159a, 173.167, 173.185(c).	To modify the special permit to allow deliveries of hazardous materials from businesses to businesses. (mode 4).
22124-M	Sig Sauer Inc	172.101(i)(3), 172.300, 173.62(c)	To modify the special permit to authorize an additional location and two-way transit. (mode 1).

SPECIAL PERMITS DATA

Application No.	Applicant	Regulation(s) affected	Nature of the Special Permits thereof
22234-N	The Battery Network Inc	173.185(f)	To authorize the one-way transportation of damaged lithium-ion battery modules for disposal and or recycling in UN specification packagings containing more than one battery module per package. (mode 1).
22246-N	Western Digital Technologies, Inc.	172.203(k), 172.301(b), 173.232(f) ...	To authorize the transportation in commerce of certain hazardous material in non-DOT specification packaging. (modes 1, 4).
22251-N	Cirba Solutions Services US, LLC.	49 CFR Part 172 Subparts C-H, 173.185(f)(1).	To authorize the manufacture, mark, sale, and use, of specially designed packagings for the transportation in commerce of damaged, defective, or recalled lithium-ion batteries using alternative hazard communication and alternative training. (modes 1, 2, 5).
22255-N	Our Next Energy Inc	172.101(j)	To authorize the transportation in commerce of lithium-ion batteries that exceed 35 kg net weight aboard cargo-only aircraft. (mode 4).
22258-N	Veolia ES Technical Solutions, LLC.	173.21(b), 173.51, 173.54(a), 173.56(b).	To authorize one-time, one-way transportation of an unapproved fire extinguisher ball for disposal. (mode 1).
22260-N	Trinity Industries, Inc	172.203(a), 173.244(a)(2), 173.314(c).	To authorize the re-stenciling of DOT 105J600W as DOT 105H600W permitting their continued TIH/PIH service for a 50-year lifespan provided they meet the design requirements. (mode 2).
22264-N	Union Pacific Railroad Company.	174.26(b), 174.28(a)	To authorize the transportation in commerce of hazardous materials by rail utilizing a near real-time off-train electronic consist technology. (mode 2).
22265-N	Cedar River Railroad Company.	174.26(b), 174.28(a)	To authorize the transportation in commerce of rail freight during temporary cellular service interruptions that delay electronic updating of train consist information. (mode 2).
22266-N	Grand Trunk Western Railroad Company.	174.26(b), 174.28(a)	To authorize the transportation in commerce of rail freight during temporary cellular service interruptions that delay electronic updating of train consist information. (mode 2)..
22267-N	Iowa Northern Railway Company.	174.26(b), 174.28(a)	To authorize the transportation in commerce of rail freight during temporary cellular service interruptions that delay electronic updating of train consist information. (mode 2).
22268-N	Illinois Central Railroad Company.	174.26(b), 174.28(a)	To authorize the transportation in commerce of rail freight during temporary cellular service interruptions that delay electronic updating of train consist information. (mode 2).
22269-N	Wisconsin Central Ltd	174.26(b), 174.28(a)	To authorize the transportation in commerce of rail freight during temporary cellular service interruptions that delay electronic updating of train consist information. (mode 2).
22271-N	Compagnie Des Chemins De Fer Nationaux Du Canada.	174.26(b), 174.28(a)	To authorize the transportation in commerce of rail freight during temporary cellular service interruptions that delay electronic updating of train consist information. (mode 2).
22272-N	Chicago, Central & Pacific Railroad Company.	174.26(b), 174.28(a)	To authorize the transportation in commerce of rail freight during temporary cellular service interruptions that delay electronic updating of train consist information. (mode 2).
22273-N	Bessemer and Lake Erie Railroad Company.	174.26(b), 174.28(a)	To authorize the transportation in commerce of rail freight during temporary cellular service interruptions that delay electronic updating of train consist information. (mode 2).
22274-N	BNSF Railway Company	174.26(b), 174.28(a)	To authorize the transportation in commerce of rail freight during temporary cellular service interruptions that delay electronic updating of train consist information. (mode 2).
22275-N	Anduril Industries, Inc	172.101(j), 173.185(a)	To authorize the transportation in commerce of a prototype lithium-ion battery pack exceeding 35 kilograms by cargo-only aircraft. (mode 4).
22279-N	Arkedge Space Inc	173.185(a)	To authorize transportation in commerce of a prototype lithium-ion battery by cargo-only aircraft. (mode 4).

SPECIAL PERMITS DATA—Continued

Application No.	Applicant	Regulation(s) affected	Nature of the Special Permits thereof
22280–N	Impulse Space, Inc	173.301(f), 173.304a(a)(1)	To authorize the transportation in commerce of non-DOT specification Composite Overwrapped Pressure Vessels (COPVs) that are not equipped with pressure relief devices for use within a spacecraft propulsion system. (mode 1).
22281–N	Mott Corporation	172.101(j), 173.2, 173.212, 173.241, 176.83.	To authorize the transportation in commerce of certain Division 4.2 solid materials in non-DOT specification gas purification equipment. (modes 1, 2, 3, 4).
22282–N	Cirba Solutions Services US, LLC.	172.102(b)(1), 172.200, 172.300, 172.400, 172.500, 172.600, 172.700(a), 173.159a(c)(2), 173.185(c)(1)(v).	To authorize the manufacture, mark, sale and use of non-DOT specification packaging for the transportation in commerce of end-of-life lithium-ion cells and batteries and lithium metal cells and batteries and those contained in and packed with equipment for recycling, reuse, refurbishment, repurposing or evaluation. (modes 1, 2, 3, 5).

BILLING CODE 4910–60–P

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Agency Information Collection Activities; Comment Request on Reporting Requirements for Recipients of Points Paid on Residential Mortgages and Mortgage Interest Statement.

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice of information collection; request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the IRS is inviting comments on the information collection request outlined in this notice.

DATES: Written comments should be received on or before July 13, 2026 to be assured of consideration.

ADDRESSES: Direct all written comments to Andres Garcia, Internal Revenue Service, Room 6526, 1111 Constitution Avenue NW, Washington, DC 20224, or by email to pra.comments@irs.gov. Include “OMB Control No. 1545–1380” in the subject line of the message.

FOR FURTHER INFORMATION CONTACT: View the latest drafts of the tax forms related to the information collection listed in this notice at <https://www.irs.gov/draft-tax-forms>. Requests for additional information or copies of this collection should be directed to Jason Schoonmaker, (801) 620–6008.

SUPPLEMENTARY INFORMATION: The IRS, in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an

opportunity to comment on proposed, revised, and continuing collections of information. This helps the IRS assess the impact and minimize the burden of its information collection requirements. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record, and viewable on relevant websites. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information.

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Title: Reporting Requirements for Recipients of Points Paid on Residential Mortgages and Mortgage Interest Statement.

OMB Control Number: 1545–1380.

Form Number: 1098.

Regulation Project Number: TD 8191 as amended by TD 8507, TD 8571, TD 8734, and TD 9849.

Abstract: Internal Revenue Code (IRC) section 6050H provides that an information return must be made by any person who is engaged in a trade or business and who, during that trade or business, receives from any individual

\$600 or more of interest on any mortgage in a calendar year. Any person required to make an information return under IRC section 6050H also must furnish a statement to the payor of record on or before January 31 of the year following the calendar year in which the interest was received. Form 1098, Mortgage Interest Statement, is used to report mortgage interest (including points) received during the year.

Current Actions: There is no change to the previously approved information collection.

Type of Review: Extension of a currently approved collection.

Affected Public: Business or other for-profit organizations.

Estimated Number of Responses: 75,912,060.

Estimated Time per Response: 15 minutes.

Estimated Total Annual Burden Hours: 18,946,931.

Dated: May 8, 2026.

Jason M. Schoonmaker,
Tax Analyst.

View the latest drafts of the tax forms related to the information collection listed in this notice at <https://www.irs.gov/draft-tax-forms>. Requests for additional information or copies of this collection should be directed to Jason Schoonmaker, (801) 620-6008.

SUPPLEMENTARY INFORMATION: The IRS, in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the IRS assess the impact and minimize the burden of its information collection requirements. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record, and viewable on relevant websites. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Title: Notice of Recapture Event for New Markets Credit.

OMB Control Number: 1545-2066.

Form Number: 8874-B.

Abstract: Community Development Entities (CDEs) must provide notification to any taxpayer holder of a qualified equity investment (including prior holders) that a recapture event has occurred. This form is used to make the

notification as required under Regulations section 1.45D-1(g)(2)(i)(B).

Current Actions: There is no change to the previously approved information collection.

Type of Review: Extension of a currently approved collection.

Affected Public: Individuals or households.

Estimated Number of Responses: 500.

Estimated Time per Response: 5 hours 30 minutes.

Estimated Total Annual Burden Hours: 2,755.

Dated: May 8, 2026.

DEPARTMENT OF THE TREASURY**Agency Information Collection Activities; Submission for OMB Review; Comment Request; Opportunity Zones Nomination Tool**

AGENCY: Departmental Offices, U.S. Department of the Treasury.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Department of the Treasury will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The public is invited to submit comments on this request.

DATES: Comments should be received on or before June 11, 2026 to be assured of consideration.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Copies of the submissions may be obtained from Spencer W. Clark by emailing PRA@treasury.gov, calling (202) 927–5331, or viewing the entire information collection request at www.reginfo.gov.

SUPPLEMENTARY INFORMATION:

Community Development Institutions Fund (CDFI)

1. *Title:* Opportunity Zones Nomination Tool.

OMB Control Number: 1559–0049.

Type of Request: Reinstatement with change of a previously approved collection.

Description: The Tax Cuts and Jobs Act of 2017 (TCJA; Pub. L. 115–97) created a tax incentive for investors who reinvest eligible capital gains into Qualified Opportunity Funds (QOFs) that in turn deploy these resources into certain distressed census tracts in the 50 states, U.S. Territories, and the District of Columbia (collectively, “States”) which may be designated as Qualified Opportunity Zones (QOZs). A QOF is an investment vehicle that is organized as a corporation or partnership for the purpose of investing in QOZ property (other than another QOF). QOZs are certain low-income community (LIC) eligible census tracts nominated by the States, and certified and designated by the Secretary of the Treasury (Secretary). Taxpayers who invest in a QOZ can receive certain tax benefits for their investments as an incentive to improve economic growth and job creation in underserved communities. Section 70421 of the One Big Beautiful Bill Act (OBBBA, Pub. L. 119–21), signed into law on July 4, 2025, made the QOZ incentives permanent and, pertinent to this collection of information, established new dates by which eligible census tracts may be nominated as a QOZ by the Chief Executive Officer (CEO) of a State. The

designation period for the first set of new QOZs will begin on July 1, 2026, with additional rounds of designations to follow every ten years thereafter. Newly approved designations will become effective as of January 1, 2027, and will remain in effect for a similar ten-year period. To take advantage of this incentive, State CEOs must nominate eligible census tracts for designation as a QOZ during a 90-day period, subject to a single 30-day extension period, beginning on July 1, 2026. The Secretary certifies such nominations and designates the eligible census tract as a QOZ within 30 days of receiving notice from the CEO that the State has made its nomination. In response to these statutory requirements, the CDFI Fund will reinstate the OZ Nomination Tool, which will assist the Secretary in the certification and designation process.

Form: Opportunity Zone Nomination Tool.

Affected Public: State, Local and Tribal Governments.

Estimated Number of Respondents: 56.

Frequency of Response: Once.

Estimated Total Number of Annual Responses: 56.

Estimated Time per Response: 1 Hour.

Estimated Total Annual Burden Hours: 56.

Securities and Exchange Commission

Self-Regulatory Organizations; Investors Exchange LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Establish Fees for Industry Members Related to Certain Historical Costs of the National Market System Plan Governing the Consolidated Audit Trail Incurred Prior to January 1, 2022; Notice

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–105407; File No. SR–IEX–2026–12]

Self-Regulatory Organizations; Investors Exchange LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Establish Fees for Industry Members Related to Certain Historical Costs of the National Market System Plan Governing the Consolidated Audit Trail Incurred Prior to January 1, 2022

May 7, 2026.

Pursuant to Section 19(b)(1) under the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on April 24, 2026, the Investors Exchange LLC (“IEX” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of the Substance of the Proposed Rule Change

(a) Pursuant to the provisions of Section 19(b)(1) of the Act,³ the Exchange is filing with the Commission a proposed rule change to establish fees for Industry Members⁴ related to certain historical costs of the National Market System Plan Governing the Consolidated Audit Trail (the “CAT NMS Plan” or “Plan”) incurred prior to January 1, 2022 that were not previously invoiced via Historical CAT Assessment 1. Industry Members were previously invoiced for \$173,075,024 of the \$212,039,879.34 of Historical CAT Costs 1 via Historical CAT Assessment 1. Historical CAT Assessment 1 is no longer in effect. Historical CAT Assessment 1A is being established to collect the remaining \$38,964,855.34 of Historical CAT Costs 1. These fees would be payable to Consolidated Audit Trail, LLC (“CAT LLC” or “the

Company”)⁵ and referred to as Historical CAT Assessment 1A, and would be described in a section of the Exchange’s fee schedule entitled “Consolidated Audit Trail Funding Fees.” The fee rate for Historical CAT Assessment 1A will be \$0.000002 per executed equivalent share. CAT Executing Brokers will receive their first monthly invoice for Historical CAT Assessment 1A in June 2026 calculated based on their transactions as CAT Executing Brokers for the Buyer (“CEBB”) and/or CAT Executing Brokers for the Seller (“CEBS”) in May 2026.

The text of the proposed rule change is available at the Exchange’s website at <https://www.iexexchange.io/resources/regulation/rule-filings> and at the principal office of the Exchange.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On July 11, 2012, the Commission adopted Rule 613 of Regulation NMS, which required the self-regulatory organizations (“SROs”) to submit a national market system (“NMS”) plan to create, implement and maintain a consolidated audit trail that would capture customer and order event information for orders in NMS securities across all markets, from the time of order inception through routing, cancellation, modification or execution.⁶ On November 15, 2016, the Commission approved the CAT NMS Plan.⁷ Under the CAT NMS Plan, the Operating Committee has the discretion

to establish funding for CAT LLC to operate the CAT, including establishing fees for Industry Members to be assessed by CAT LLC that would be implemented on behalf of CAT LLC by the Participants.⁸ On September 5, 2025, CAT LLC proposed a revised funding model to fund the CAT (“CAT Funding Model”).⁹ On March 16, 2026, the Commission approved the CAT Funding Model, after concluding that the model satisfied the requirements of Section 11A of the Exchange Act and Rule 608 thereunder.¹⁰

The CAT Funding Model provides a framework for the recovery of the costs to create, develop and maintain the CAT, including providing a method for allocating costs to fund the CAT among Participants and Industry Members. The CAT Funding Model establishes two categories of fees: (1) CAT fees assessed by CAT LLC and payable by certain Industry Members to recover a portion of historical CAT costs previously paid by the Participants (“Historical CAT Assessment” fees); and (2) CAT fees assessed by CAT LLC and payable by Participants and Industry Members to fund prospective CAT costs (“Prospective CAT Costs” fees).¹¹

Under the CAT Funding Model, “[t]he Operating Committee will establish one or more fees (each a ‘Historical CAT Assessment’) to be payable by Industry Members with regard to CAT costs previously paid by the Participants (‘Past CAT Costs’).”¹² In establishing a Historical CAT Assessment, the Operating Committee will determine a “Historical Recovery Period” and calculate a “Historical Fee Rate” for that Historical Recovery Period. Then, for each month in which a Historical CAT Assessment is in effect, each CEBB and

⁸ Section 11.1(b) of the CAT NMS Plan.

⁹ Securities Exchange Act Rel. No. 103960 (Sept. 12, 2025), 90 FR 44910 (Sept. 17, 2025).

¹⁰ Securities Exchange Act Rel. No. 105003 (Mar. 16, 2026), 91 FR 13410 (Mar. 29, 2026) (“CAT Funding Model Approval Order”). This CAT Funding Model replaced the prior funding model that was approved by the Commission on September 6, 2023. Securities Exchange Act Rel. No. 98290 (Sept. 6, 2023), 88 FR 62628 (Sept. 12, 2023).

¹¹ Under the CAT Funding Model, the Operating Committee may establish one or more Historical CAT Assessments. Section 11.3(b) of the CAT NMS Plan. This filing only establishes Historical CAT Assessment 1A related to certain Historical CAT Costs as described herein; it does not address any other potential Historical CAT Assessment related to other Historical CAT Costs. In addition, under the CAT Funding Model, the Operating Committee also may establish CAT Fees related to CAT costs going forward. Section 11.3(a) of the CAT NMS Plan. This filing does not address any potential CAT Fees related to CAT costs going forward. Any such other fee for any other Historical CAT Assessment or CAT Fee for Prospective CAT Costs will be subject to a separate fee filing.

¹² Section 11.3(b) of the CAT NMS Plan.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

³ 15 U.S.C. 78s(b)(1).

⁴ An “Industry Member” is defined as “a member of a national securities exchange or a member of a national securities association.” See IEX Rule 11.610(u); see also Section 1.1 of the CAT NMS Plan. Unless otherwise specified, capitalized terms used in this rule filing are defined as set forth in the CAT NMS Plan and/or the CAT Compliance Rule. See IEX Rule 11.610.

⁵ The term “CAT LLC” may be used to refer to Consolidated Audit Trail, LLC or CAT NMS, LLC, depending on the context.

⁶ Securities Exchange Act Rel. No. 67457 (July 18, 2012), 77 FR 45721 (Aug. 1, 2012) (“Rule 613 Adopting Release”).

⁷ Securities Exchange Act Rel. No. 79318 (Nov. 15, 2016), 81 FR 84696 (Nov. 23, 2016) (“CAT NMS Plan Approval Order”).

CEBS would be required to pay the fee—the Historical CAT Assessment—for each transaction in Eligible Securities executed by the CEBB or CEBS from the prior month as set forth in CAT Data, where the Historical CAT Assessment for each transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Historical Fee Rate.¹³

Each Historical CAT Assessment to be paid by CEBBs and CEBSs is designed to contribute toward the recovery of two-thirds of the Historical CAT Costs. Because the Participants previously have paid Past CAT Costs via loans to the Company, the Participants would not be required to pay any Historical CAT Assessment. In lieu of a Historical CAT Assessment, the Participants' one-third share of Historical CAT Costs will be paid by the cancellation of loans made by the Participants to the Company on a pro rata basis based on the outstanding loan amounts due under the loans, instead of through the payment of a CAT fee.¹⁴ In addition, the Participants also will be 100% responsible for certain Excluded Costs (as discussed below).

CAT LLC proposes to charge CEBBs and CEBSs (as described in more detail below) Historical CAT Assessment 1A to recover certain historical CAT costs incurred prior to January 1, 2022, in accordance with the CAT Funding Model. To implement this fee on behalf of CAT LLC, the CAT NMS Plan requires the Participants to “file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves, and such fees shall be labeled

as ‘Consolidated Audit Trail Funding Fees.’”¹⁵ The Plan further states that “Participants will be required to file with the SEC pursuant to Section 19(b) of the Exchange Act a filing for each Historical CAT Assessment.”¹⁶ Accordingly, the purpose of this filing is to implement a Historical CAT Assessment on behalf of CAT LLC for Industry Members, referred to as Historical CAT Assessment 1A, in accordance with the CAT NMS Plan.¹⁷

The Exchange, along with the other Participants in the CAT, previously filed a fee filing to implement Historical CAT Assessment 1.¹⁸ Based on the fee filing for Historical CAT Assessment 1, Historical CAT Assessment 1 was expected to be in effect from the first invoice in November 2024 until \$212,039,879.34 (two-thirds of Historical CAT Costs 1) was invoiced to CAT Executing Brokers collectively.¹⁹ However, Historical CAT Assessment 1 ceased before the entire amount was invoiced.²⁰ The last invoice for Historical CAT Assessment 1 was provided on December 2025, after only \$173,075,024 of the total \$212,039,879.34 had been invoiced to Industry Members.²¹ Accordingly, \$38,964,855.34 of Historical CAT Costs 1 has not been invoiced. Historical CAT Assessment 1A would seek to recover this outstanding amount of Historical CAT Costs 1 that has not been invoiced.

(1) CAT Executing Brokers

Historical CAT Assessment 1A will be charged to each CEBB and CEBS for each applicable transaction in Eligible Securities.²² The CAT NMS Plan defines a “CAT Executing Broker” to mean:

(a) with respect to a transaction in an Eligible Security that is executed on an exchange, the Industry Member identified as the Industry Member responsible for the order on the buy-side of the transaction and the Industry Member responsible for the sell-side of the transaction in the equity order trade event and option trade event in the CAT Data submitted to the CAT by the relevant exchange pursuant to the Participant Technical Specifications; and (b) with respect to a transaction in an Eligible Security that is executed otherwise than on an exchange and required to be reported to an equity trade reporting facility of a registered national securities association, the Industry Member identified as the executing broker and the Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event in the CAT Data submitted to the CAT by FINRA pursuant to the Participant Technical Specifications; provided, however, in those circumstances where there is a non-Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event or no contra-side executing broker is identified in the TRF/ORF/ADF transaction data event, then the Industry Member identified as the executing broker in the TRF/ORF/ADF transaction data event would be treated as CAT Executing Broker for the Buyer and for the Seller.²³

The following fields of the Participant Technical Specifications indicate the CAT Executing Brokers for the transactions executed on an exchange.

EQUITY ORDER TRADE (EOT)²⁴

No.	Field name	Data type	Description	Include key
12. n. 8/13. n. 8	member	Member Alias	The identifier for the member firm that is responsible for the order on this side of the trade.	C

¹³ In approving the CAT Funding Model, the Commission stated that, “[i]n the Commission’s view, the proposed recovery of the Past CAT Costs via the Historical CAT Assessment is appropriate.” CAT Funding Model Approval Order at 13450.

¹⁴ Section 11.3(b)(ii) of the CAT NMS Plan.

¹⁵ Section 11.1(b) of the CAT NMS Plan.

¹⁶ Section 11.3(b)(iii)(B)(I) of the CAT NMS Plan.

¹⁷ Note that there may be one or more Historical CAT Assessments. Section 11.3(b) of the CAT NMS Plan.

¹⁸ Securities Exchange Act Rel. No. 100945 (Sept. 5, 2024), 89 FR 74000 (Sept. 11, 2024) (SR-IEX–2024–15).

¹⁹ See IEX Fee Schedule—Consolidated Audit Trail Funding Fees (a)(1).

²⁰ In response to the Eleventh Circuit’s decision vacating the prior CAT NMS Plan funding model, the last invoices for Historical CAT Assessment 1 were sent in December 2025 based on November 2025 transactions. See *American Securities Association v. SEC*, No. 23–13396 (11th Cir. July 25, 2025).

²¹ CAT Fee Alert 2025–4 (Nov. 25, 2025).

²² In its approval order for the CAT Funding Model, the Commission determined that charging CAT fees to CAT Executing Brokers was appropriate. In reaching this conclusion the Commission noted that the use of CAT Executing Brokers is appropriate because the CAT Funding Model is based upon the calculation of *executed* equivalent shares, and, therefore, charging CAT

Executing Brokers would reflect their executing role in each transaction. Furthermore, the Commission noted that, because CAT Executing Brokers are already identified in transaction reports from the exchanges and FINRA’s equity trade reporting facilities recorded in CAT Data, charging CAT Executing Brokers could streamline the billing process. CAT Funding Model Approval Order at 13413.

²³ Section 1.1 of the CAT NMS Plan. In its approval order for the CAT Funding Model, the Commission “recognize[d] that Industry Members may pass-through CAT fees for customer executed volume.” See CAT Funding Model Approval Order at 13424.

EQUITY ORDER TRADE (EOT)²⁴—Continued

No.	Field name	Data type	Description	Include key
			Not required if there is no order for the side as indicated by the NOBUYID/NOSELLID instruction. This must be provided if orderID is provided.

In addition, the following fields of the Participant Technical Specifications would indicate the CAT Executing Brokers for the transactions executed otherwise than on an exchange.

TRF/ORF/ADF TRANSACTION DATA EVENT (TRF)²⁶

No.	Field name	Data type	Description	Include key
26	reportingExecutingMpid	Member Alias	MPID of the executing party	R
28	contraExecutingMpid	Member Alias	MPID of the contra-side executing party	C

(2) Calculation of Fee Rate for Historical CAT Assessment 1A

The Operating Committee determined the fee rate to be used in calculating Historical CAT Assessment 1A based on the Historical CAT Costs for Historical CAT Assessment 1A and the projected total executed share volume of all transactions in Eligible Securities for the Historical Recovery Period for Historical CAT Assessment 1A (“Historical Recovery Period 1A”), as discussed in detail below. Based on this calculation, the Operating Committee has determined that the fee rate for Historical CAT Assessment 1A would be \$0.000002, as discussed in detail below.

(A) Executed Equivalent Shares for Transactions in Eligible Securities

Under the CAT NMS Plan, for purposes of calculating each Historical CAT Assessment, executed equivalent shares in a transaction in Eligible Securities will be reasonably counted as follows: (1) each executed share for a transaction in NMS Stocks will be

counted as one executed equivalent share; (2) each executed contract for a transaction in Listed Options will be counted based on the multiplier applicable to the specific Listed Options (*i.e.*, 100 executed equivalent shares or such other applicable multiplier); and (3) each executed share for a transaction in OTC Equity Securities shall be counted as 0.01 executed equivalent share.²⁷

(B) Historical CAT Costs

The CAT NMS Plan states that “[t]he Operating Committee will reasonably determine the Historical CAT Costs sought to be recovered by each Historical CAT Assessment, where the Historical CAT Costs will be Past CAT Costs minus Past CAT Costs reasonably excluded from Historical CAT Costs by the Operating Committee. Each Historical CAT Assessment will seek to recover from CAT Executing Brokers two-thirds of Historical CAT Costs incurred during the period covered by the Historical CAT Assessment.”²⁸ Historical CAT Assessment 1, the

original Historical CAT Assessment, was implemented to recover \$212,039,879.34 of Historical CAT Costs 1 from CEBBs and CEBSS collectively.²⁹ As described in the fee filings for Historical CAT Assessment 1, Historical CAT Costs 1 of \$212,039,879.34 includes Past CAT Costs of \$401,312,909 minus certain Excluded Costs of \$83,253,090. As described in the filing for Historical CAT Assessment 1, Participants collectively will remain responsible for one-third of Historical CAT Costs 1 (which is \$106,019,939.67), plus the Excluded Costs of \$83,253,090. Accordingly, CEBBs collectively will be responsible for one-third of Historical CAT Costs 1 (which is \$106,019,939.67), and CEBSS collectively will be responsible for one-third of Historical CAT Costs 1 (which is \$106,019,939.67), for a total of \$212,039,879.34. CEBBs and CEBSS collectively have been invoiced for \$173,075,024 of the \$212,039,879.34 of Historical CAT Costs 1 via Historical CAT Assessment 1. Accordingly, Historical CAT Assessment 1A would charge CEBBs

share volume as the basis for determining and allocating CAT costs during the two-year interim period is appropriate and consistent with the funding principles of the CAT NMS Plan.” CAT Funding Model Approval Order at 13427.

²⁸ Section 11.3(b)(i)(C) of the CAT NMS Plan.

²⁹ See Securities Exchange Act Rel. No. 100945 (Sept. 5, 2024), 89 FR 74000 (Sept. 11, 2024) (SR–IEX–2024–15).

²⁴ See Table 23, Section 4.7 (Order Trade Event) of the CAT Reporting Technical Specifications for Plan Participants, Version 4.2.0-r2 (Feb. 24, 2026), https://www.catnmsplan.com/sites/default/files/2026-02/02.24.2026-CAT_Reporting_Technical_Specifications_for_Participants_4.2.0-r2.pdf (“CAT Reporting Technical Specifications for Plan Participants”).

²⁵ See Table 52, Section 5.2.5.1 (Simple Option Trade Event) of the CAT Reporting Technical Specifications for Plan Participants.

²⁶ See Table 62, Section 6.1 (TRF/ORF/ADF Transaction Data Event) of the CAT Reporting Technical Specifications for Plan Participants.

²⁷ Section 11.3(a)(i)(B) and 11.3(b)(i)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission concluded that “in the Commission’s view, the use of executed equivalent

and CEBBs collectively for the remaining \$38,964,855.34 of Historical CAT Costs 1 that was not invoiced to CEBBs and CEBBs via Historical CAT Assessment 1. Historical CAT Assessment 1A will be designed to recover the remaining \$38,964,855.34 of Historical CAT Costs 1 from CEBBs and CEBBs collectively, with CEBBs collectively responsible for \$19,482,427.67 and CEBBs collectively responsible for \$19,482,427.67.

(i) Historical CAT Costs 1

The following describes in detail Historical CAT Costs 1 with regard to four separate historical time periods as well as Past CAT Costs excluded from Historical CAT Costs 1 (“Excluded Costs”). The following cost details are provided in accordance with the requirement in the CAT NMS Plan to

provide in the fee filing “a brief description of the amount and type of Historical CAT Costs, including (1) the technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees, and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration and (6) public relations costs.”³⁰ Each of the costs described below are reasonable, appropriate and necessary for the creation, implementation and maintenance of CAT. These Historical CAT Costs 1 are the same as described in the fee filing for Historical CAT Assessment 1.³¹

(a) Historical CAT Costs Incurred Prior to June 22, 2020 (Pre-FAM Costs)

Historical CAT Costs 1 would include costs incurred by CAT prior to June 22,

2020 (“Pre-FAM Period”) and already funded by the Participants, excluding Excluded Costs (described further below). Historical CAT Costs 1 would include costs for the Pre-FAM Period of \$124,290,730. The Participants would remain responsible for one-third of this cost (which they have previously paid) (\$41,430,243.33), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$41,430,243.33) and CEBBs paying one-third (\$41,430,243.33). These costs do not include Excluded Costs, as discussed further below. The following table breaks down Historical CAT Costs 1 for the Pre-FAM Period into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

Operating expense	Historical CAT costs 1 for Pre-FAM Period (Prior to June 22, 2020) **
Capitalized Developed Technology Costs *	\$51,847,150
Technology Costs	33,568,579
Cloud Hosting Services	10,268,840
Operating Fees	21,085,485
CAIS Operating Fees	2,072,908
Change Request Fees	141,346
Legal	19,674,463
Consulting	17,013,414
Insurance	880,419
Professional and administration	1,082,036
Public relations	224,669
Total Operating Expenses	124,290,730

* The non-cash amortization of these capitalized developed technology costs of \$2,115,545 incurred during the period prior to June 22, 2020 have been appropriately excluded from the above table.³²

** The costs described in this table of costs for the Pre-FAM Period were calculated based upon CAT LLC’s review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website. In addition, in accordance with Section 6.6(a)(i) of the CAT NMS Plan, in 2018 CAT LLC provided the SEC with “an independent audit of fees, costs, and expenses incurred by the Participants on behalf of the Company prior to the Effective Date of the Plan that will be publicly available.” The audit is available on the CAT website.

The Pre-FAM Period includes a broad range of CAT-related activity from 2012 through June 22, 2020, including the evaluation of the requirements of SEC Rule 613, the development of the CAT NMS Plan, the evaluation and selection of the initial and successor Plan Processors, the commencement of the creation and implementation of the CAT to comply with Rule 613 and the CAT NMS Plan, including technical specifications for transaction reporting and regulatory access, and related technology and the commencement of reporting to the CAT. The following describes the costs for each of the categories for the Pre-FAM Period.

(I) Technology Costs—Cloud Hosting Services

The \$10,268,840 in technology costs for cloud hosting services represent costs incurred for services provided by the cloud services provider for the CAT, Amazon Web Services, Inc. (“AWS”), during the Pre-FAM Period.

As part of its proposal for acting as the successor Plan Processor for the CAT, FCAT selected AWS as a subcontractor to provide cloud hosting services. In 2019, after reviewing the capabilities of other cloud services providers, FCAT determined that AWS was the only cloud services provider at that time sufficiently mature and

capable of providing the full suite of necessary cloud services for the CAT, including, for example, the security, resiliency and complexity necessary for the CAT computing requirements. The use of cloud hosting services is standard for this type of high-volume data activity and reasonable and necessary for implementation of the CAT, particularly given the substantial data volumes associated with the CAT.

Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT the fees incurred by the Plan Processor for cloud hosting services provided by AWS as FCAT’s subcontractor on a monthly basis for the

³⁰ Section 11.3(b)(iii)(B)(II)(B) of the CAT NMS Plan.

³¹ See Securities Exchange Act Rel. No. 100945 (Sept. 5, 2024), 89 FR 74000 (Sept. 11, 2024) (SR-IEX-2024-15).

³² With respect to certain costs that were “appropriately excluded,” such excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already

been otherwise reflected in the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

cloud hosting services, and FCAT, in turn, pays such fees to AWS. The fees for cloud hosting services were negotiated by FCAT on an arm's length basis with the goals of managing cost and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the expected volume of data, the breadth of services provided and market rates for similar services. The fees for cloud hosting services during the Pre-FAM Period were paid to FCAT by CAT NMS, LLC³³ and subsequently Consolidated Audit Trail, LLC (as previously noted, both entities are referred to generally as "CAT LLC"),³⁴ and FCAT, in turn, paid AWS. CAT LLC was funded via loan contributions by the Participants.³⁵

AWS was engaged by FCAT to provide a broad array of cloud hosting

services for the CAT, including data ingestion, data management, and analytic tools. Services provided by AWS include storage services, databases, compute services and other services (such as networking, management tools and DevOps tools). AWS also was engaged to provide various environments for CAT, such as development, performance testing, test and production environments.

The cost for AWS services for the CAT is a function of the volume of CAT Data. The greater the amount of CAT Data, the greater the cost of AWS services to the CAT. During the Pre-FAM Period from the engagement of AWS in February 2019 through June 2020, AWS provided cloud hosting services for volumes of CAT Data far in excess of the volume predictions set forth in the CAT NMS Plan. The CAT

NMS Plan states, when all CAT Reporters are submitting their data to the CAT, it "must be sized to receive[,] process and load more than 58 billion records per day,"³⁶ and that "[i]t is expected that the Central Repository will grow to more than 29 petabytes of raw, uncompressed data."³⁷ However, the volume of CAT Data for the Pre-FAM Period was far in excess of these predicted levels. By the end of this period, data submitted to the CAT included options and equities Participant Data,³⁸ Phase 2a and Phase 2b Industry Member Data³⁹ (including certain linkages), as well as SIP Data,⁴⁰ reference data and other types of Other Data.⁴¹ The following chart provides data regarding the average daily volume, cumulative total events, total compute hours and storage footprint of the CAT during the Pre-FAM Period.⁴²

	Date range: 3/29/19 to 4/12/20 *	Date range: 4/13/20 to 6/21/20 **
Average Daily Volume in Billions:		
Participant—Equities	5	5
Participant—Options	80	981
Industry Member—Equities		3
Industry Member—Options		0.04
SIP—Options & Equities	64	70
Average Total Daily Volume	149	166
Cumulative Total Events for the Period	3,890	4,990
Total Compute Hours for the Period	*** N/A	5,663,247
Storage Footprint at End of Period (Petabytes)	30.57	47.96

* The Participant Equities in RSA format.

** Start of Industry Member reporting on 4/13/2020

*** Note that, although there were compute hours during this period, data related to such compute hours are no longer available in current data.

(II) Technology Costs—Operating Fees

The \$21,085,485 in technology costs related to operating fees represent costs incurred with regard to activities of FCAT as the Plan Processor. Operating fees are those fees paid by CAT LLC to FCAT as the Plan Processor to operate and maintain the CAT and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website

and webinars) and program management as required by the CAT NMS Plan.

FCAT was selected to assume the role of the successor Plan Processor. Prior to this selection, the Participants engaged in discussions with two prior Bidders⁴³ for the successor Plan Processor role. The Operating Committee formed a Selection Subcommittee in accordance with Section 4.12 of the CAT NMS Plan to evaluate and review Bids and to make a recommendation to the Operating

Committee with respect to the selection of the successor Plan Processor. In an April 9, 2019 letter to the Commission, the Participants described the reasons for its selection of the successor Plan Processor:

The Selection Subcommittee considered factors including, but not limited to, the following, in recommending FINRA to the Operating Committee as the successor Plan Processor:

³³ CAT NMS, LLC was formed by FINRA and the U.S. national securities exchanges to implement the requirements of SEC Rule 613 under the Exchange Act. SEC Rule 613 required the SROs to jointly submit to the SEC the CAT NMS Plan to create, implement and maintain the CAT. The SEC approved the CAT NMS Plan on November 15, 2016. CAT NMS Plan Approval Order.

³⁴ On August 29, 2019, the Participants formed a new Delaware limited liability company named Consolidated Audit Trail, LLC for the purpose of conducting activities related to the CAT from and after the effectiveness of the proposed amendment

of the CAT NMS Plan to replace CAT NMS, LLC. See Securities Exchange Act Rel. No. 87149 (Sept. 27, 2019), 84 FR 52905 (Oct. 3, 2019).

³⁵ For each of the costs paid by CAT NMS, LLC and Consolidated Audit Trail, LLC as discussed throughout this filing, CAT NMS, LLC and Consolidated Audit Trail, LLC paid these costs via loan contributions by the Participants to CAT NMS, LLC and Consolidated Audit Trail, LLC, respectively.

³⁶ Appendix D-4 of the CAT NMS Plan at n.262.

³⁷ Appendix D-5 of the CAT NMS Plan.

³⁸ See Section 6.3(d) of the CAT NMS Plan.

³⁹ See Securities Exchange Rel. No. 88702 (Apr. 20, 2020), 85 FR 23075 (Apr. 24, 2020) ("Phased Reporting Exemptive Relief Order") for a description of Phase 2a and Phase 2b Industry Member Data.

⁴⁰ See Section 6.5(a)(ii) of the CAT NMS Plan.

⁴¹ See Appendix C-109 of the CAT NMS Plan.

⁴² Note that the volume data described in this table does not include CAIS data.

⁴³ The term "Bidder" is defined in Section 1.1 of the CAT NMS Plan.

a. FINRA's specialized technical expertise and capabilities in the area of broker-dealer technology;

b. The need to appoint a successor Plan Processor with specialized expertise to develop, implement, and maintain the CAT System in accordance with the CAT NMS Plan and SEC Rule 613;

c. FINRA's detailed proposal in response to CATLLC's recent inquiries; and

d. FINRA's data query and analytics systems demonstration to the Participants.

Based on these and other factors, the Selection Subcommittee determined that FINRA was the most appropriate Bidder to become the successor Plan Processor.⁴⁴

On February 26, 2019, the Operating Committee (with FINRA recusing itself) voted to select FINRA as the successor Plan Processor pursuant to Section 6.1(t) of the CAT NMS Plan.⁴⁵ On March 29, 2019, CAT LLC and FCAT (a wholly owned subsidiary of FINRA) entered into a Plan Processor Agreement pursuant to which FCAT would perform the functions and duties of the Plan Processor contemplated by the CAT NMS Plan, including the management and operation of the CAT.

Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT a negotiated monthly fixed price for the operation of the CAT. This fixed price contract was negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity. The operating fees during the Pre-FAM Period were paid to FCAT by CAT LLC.

From March 29, 2019 (the commencement of the Plan Processor Agreement with FCAT) through June 22, 2020 (the end of the Pre-FAM Period), the Plan Processor's activities with respect to the CAT included the following:

- Commenced user acceptance testing with market data provided by Exegy Incorporated ("Exegy"), a market data provider;⁴⁶
- Published Technical Specifications and related reporting scenarios

documents for Phase 2a, 2b and 2c reporting for Industry Members, after substantial engagement with SEC staff, Industry Members and Participants on the Technical Specifications;

- Facilitated testing for Phase 2a and 2b reporting for Industry Members;
- Began developing Technical Specifications and related reporting scenarios documents for Phase 2d reporting for Industry Members, after substantial engagement with SEC staff, Industry Members and Participants on the Technical Specifications;
- Published Central Repository Access Technical Specifications, and provided regulator access to test data from Industry Members;
- Facilitated Participant exchanges that support options market makers sending Quote Sent Time to the CAT;
- Facilitated the introduction of OPRA and Options NBBO Other Data to CAT;
- Addressed compliance items, including drafting CAT policies and procedures, and addressing requirements under Regulation SCI;
- Provided support to the Operating Committee, the Compliance Subcommittee and CAT working groups;
- Assisted with interpretive efforts and exemptive requests regarding the CAT NMS Plan;
- Oversaw the security of the CAT;
- Monitored the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provided support to subcontractors under the Plan Processor Agreement;
- Provided support in discussions with Participants, the SEC and its staff;
- Operated the FINRA CAT Helpdesk, which is the primary source for answers to questions about CAT, including questions regarding: clock synchronization, firm reporting responsibilities, interpretive questions, technical specifications for reporting to CAT and more;
- Facilitated communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administered the CAT website and all of its content;⁴⁷ and
- Provided technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

(III) Technology Costs—CAIS Operating Fees

The \$2,072,908 in technology costs related to CAIS operating fees represent the fees paid for FCAT's subcontractor charged with the development and operation of CAT's Customer and Account Information System ("CAIS"). The CAT is required under the CAT NMS Plan to capture and store Customer Identifying Information and Customer Account Information in a database separate from the transactional database and to create a CAT-Customer-ID for each Customer.

During the Pre-FAM Period, the CAIS-related services were provided by the Plan Processor through the Plan Processor's subcontractor, Kingland Systems Incorporated ("Kingland"). Kingland had experience operating in the securities regulatory technology space, and as a part of its proposal for acting as the Plan Processor for the CAT, FCAT selected Kingland as a subcontractor to provide certain CAIS-related services.

Under the Plan Processor Agreement with FCAT, CAT LLC was required to pay to the Plan Processor the fees incurred by FCAT for CAIS-related services provided by FCAT through Kingland on a monthly basis. FCAT negotiated the fees for Kingland's CAIS-related services on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors, including the services to be provided and market rates for similar types of activity. The fees for CAIS-related services during the Pre-FAM Period were paid by CAT LLC to FCAT. FCAT, in turn, paid Kingland.

During the Pre-FAM Period, Kingland began development of the CAIS Technical Specifications and the building of CAIS. In addition, Kingland also worked on the build related to the CCID Alternative, an alternative approach to customer information that was not included in the CAT NMS Plan as originally adopted.⁴⁸ Furthermore, Kingland also worked on the acceleration of the reporting of large trader identifiers ("LTID") earlier than originally contemplated during this period, in accordance with exemptive relief granted by the SEC.⁴⁹

⁴⁴ Letter from Michael J. Simon, Chair, CAT NMS, LLC Operating Committee, to Brent J. Fields, Secretary, SEC (Apr. 9, 2019), <https://www.sec.gov/divisions/marketreg/rule613-info-notice-of-plan-processor-selection-040919.pdf>.

⁴⁵ *Id.*

⁴⁶ The use of Exegy to provide market data, including the costs and market data provided, is discussed below in Section 3(a)(2)(B)(a)(IX).

⁴⁷ The CAT website is <https://www.catnmsplan.com>.

⁴⁸ For a discussion of the CCID Alternative, see Securities Exchange Act Rel. No. 88393 (Mar. 17, 2020), 85 FR 16152 (Mar. 20, 2020).

⁴⁹ Phased Reporting Exemptive Relief Order at 23079–80.

(IV) Technology Costs—Change Request Fees

The technology costs related to change request fees include costs related to certain modifications, upgrades or other changes to the CAT. Change requests are standard practice and necessary to reflect operational changes, including changes related to new market developments, such as new market participants. In general, if CAT LLC determines that a modification, upgrade or other change to the functionality or service is necessary and appropriate, CAT LLC will submit a request for such a change to the Plan Processor. The Plan Processor will then respond to the request with a proposal for implementing the change, including the cost (if any) of such a change. CAT LLC then determines whether to approve the proposed change. The change request costs were paid by CAT LLC to FCAT. During the Pre-FAM Period, CAT LLC incurred costs of \$141,346 related to change requests implemented by FCAT. Such change requests related to a development fee regarding the OPRA and SIP data feeds, and the reprocessing of certain exchange data.⁵⁰

(V) Technology Costs—Capitalized Developed Technology Costs

This category of costs includes capitalizable application development costs incurred in the development of the CAT. The capitalized developed technology costs for the Pre-FAM Period of \$51,847,150 relate to technology provided by the Initial Plan Processor and the successor Plan Processor.

Initial Plan Processor: Thesys CAT, LLC. The capitalized developed technology costs related to the Initial Plan Processor include costs incurred with regard to testing for Participant reporting, Participant reporting to the CAT, a security assessment of the CAT, and the development of the billing function for the CAT.

On January 17, 2017, the Selection Committee of the CAT NMS Plan selected the Initial Plan Processor, Thesys Technologies, LLC, for the CAT NMS Plan pursuant to Article V of the CAT NMS Plan.⁵¹ The Participants utilized a request for proposal (“RFP”) to seek proposals to build and operate the CAT, receiving a number of proposals in response to the RFP. The Participants carefully reviewed and

considered each of the proposals, including holding in-person meetings with each of the Bidders. After several rounds of review, the Participants selected the Initial Plan Processor in accordance with the CAT NMS Plan, taking into consideration that the Initial Plan Processor had experience operating in the securities regulatory technology space, among other considerations. On April 6, 2017, CAT LLC entered into an agreement with Thesys CAT LLC (“Thesys CAT”), a Thesys affiliate, to perform the functions and duties of the Plan Processor contemplated by the CAT NMS Plan, including the management and operation of the CAT. Under the agreement, CAT LLC would pay Thesys CAT a negotiated, fixed price fee for its role as the Initial Plan Processor. Effective January 30, 2019, the Plan Processor Agreement with Thesys CAT was terminated, and FCAT was subsequently selected as the successor Plan Processor.

From January 17, 2017 through January 30, 2019, the time in which Thesys CAT was engaged for the CAT, but excluding the period from November 15, 2017 through January 30, 2019, the Initial Plan Processor engaged in various activities with respect to the CAT, including preparing iterative drafts of Participant Technical Specifications, Industry Member Technical Specifications and the Central Repository Access Technical Specifications. In addition, Thesys CAT also developed CAT technology, addressed compliance items, including drafting CAT policies and procedures, addressing Regulation SCI requirements, establishing a CAT Compliance Officer and a Chief Information Security Officer, addressed security-related matters for the CAT, and worked towards the initiation of Participant reporting per the Participant Technical Specifications.

Successor Plan Processor: FCAT. The capitalized developed technology costs related to FCAT include: (1) development costs incurred during the application development stage to meet various agreed-upon milestones regarding the CAT, including the completion of go-live functionality related to options ingestion and validation, equities regulatory services agreement query tool updates and unlinked options data query, options linkages release, Industry Member Phase 2a file submission and data integrity (including error corrections), and Industry Member testing, including reporting relationships, ATS order type management, basic reporting statistics, SFTP data integrity feedback and error correction; (2) costs related to certain

modifications, upgrades, or other changes to the CAT that were not contemplated by the agreement between CAT LLC and the Plan Processor, including a one-time development fee for a secure analytics workspace, a one-time development fee for an Industry Member connectivity solution, and a one-time development fee for the acceleration of multi-factor authentication; (3) CAIS implementation fees; and (4) license fees.

(VI) Legal Costs

The legal costs of \$19,674,463 represent the fees paid for legal services provided by two law firms, Wilmer Cutler Pickering Hale and Dorr LLP (“WilmerHale”) and Pillsbury Winthrop Shaw Pittman LLP (“Pillsbury”), during the Pre-FAM Period. The legal costs exclude those costs incurred from November 15, 2017 through November 15, 2018.

Law Firm: WilmerHale. Following the adoption of Rule 613, the Participants determined it was necessary to engage external legal counsel to advise the Participants with respect to corporate and regulatory legal matters related to the CAT, including drafting and developing the CAT NMS Plan. The Participants considered a variety of factors in their analysis of prospective law firms, including (1) the firm’s qualifications, resources and expertise; (2) the firm’s relevant experience and understanding of the regulatory matters raised by the CAT and in advising on matters of similar scope; (3) the composition of the legal team; and (4) professional fees. Following a series of interviews, the Participants acting as a consortium determined that WilmerHale was well qualified given the balance of these considerations and engaged WilmerHale in February 2013.

WilmerHale’s billing rates are negotiated on an annual basis and are determined with reference to the rates charged by other leading law firms for similar work. The Participants assess WilmerHale’s performance and review prospective budgets and staffing plans submitted by WilmerHale on an annual basis. WilmerHale’s compensation arrangements are reasonable and appropriate, and in line with the rates charged by other leading law firms for similar work.

The legal costs for WilmerHale during the Pre-FAM Period included costs incurred from 2013 until June 22, 2020 to address corporate and regulatory legal matters related to the CAT. The legal fees for this law firm during the period from February 2013 until the formation of the CAT NMS, LLC on November 15,

⁵⁰ Note that CAT LLC also has incurred costs related to specific Industry Members (e.g., reprocessing costs related to Industry Member reporting errors).

⁵¹ Letter from the Participants to Brent J. Fields, Secretary, SEC (Jan. 18, 2017), <https://www.sec.gov/divisions/marketreg/rule613-info-notice-of-plan-processor-selection.pdf>.

2016 were paid directly by the exchanges and FINRA to WilmerHale. After the formation of CAT NMS LLC, the legal fees were paid by CAT LLC to WilmerHale.

After WilmerHale was engaged in 2013 through the end of the Pre-FAM Period on June 22, 2020 (excluding the legal costs from November 15, 2017 through November 15, 2018), WilmerHale provided legal assistance to the CAT on a variety of matters, including with regard to the following:

- Analyzed various legal matters associated with the Selection Plan, and drafted an amendment to the Selection Plan;
- Assisted with the RFP and bidding process for the CAT Plan Processor;
- Analyzed legal matters related to the Development Advisory Group (“DAG”);
- Drafted the CAT NMS Plan, analyzed various items related to the CAT NMS Plan, and responded to comment letters on CAT NMS Plan;
- Provided legal support for the formation of the legal entity, the governance of the CAT, including governance support prior to the adoption of the CAT NMS Plan, which involved support for the full committee of exchanges and FINRA as well as subcommittees of this group (e.g., Joint Subcommittee Group, Technical, Industry Outreach, Cost and Funding and Other Products) and the DAG, governance support during the transition to the new governance structure under the CAT NMS Plan, and governance support after the adoption of the CAT NMS Plan, which involved support for the Operating Committee, Advisory Committee, Compliance Subcommittee and CAT working groups;
- Assisted with the development of the CAT funding model and drafted related amendments of the CAT NMS Plan and related filings;
- Negotiated and drafted the plan processor agreements with the Initial Plan Processor and the successor Plan Processor;
- Provided assistance with compliance with Regulation SCI;
- Assisted with clock synchronization study;
- Provided assistance with respect to the establishment of CAT security;
- Drafted exemptive requests from CAT NMS Plan requirements, including with regard to options market maker quotes, Customer IDs, CAT Reporter IDs, linking allocations to executions, CAT reporting timeline, FDIDs, customer and account information, timestamp granularity, small industry members, data facility reporting and linkage,

allocation reports, SRO-assigned market participant identifiers and cancelled trade indicators, thereby seeking to implement changes that would be cost effective and benefit Industry Members and Participants;

- Assisted with the Implementation Plan required pursuant to Section 6.6(c)(i) of the CAT NMS Plan;
- Provided advice regarding CAT policies and procedures;
- Analyzed the SEC’s amendment of the CAT NMS Plan regarding financial accountability;
- Provided interpretations of and related to the CAT NMS Plan;
- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues; and
- Assisted with third-party vendor agreements.

Law Firm: Pillsbury. The legal costs for CAT during the Pre-FAM Period include costs related to the legal services performed by Pillsbury. The Participants interviewed this law firm as well as other potential law firms to provide legal assistance regarding certain liability matters. After considering a variety of factors in its analysis, including the relevant expertise and fees of the firm, CAT LLC determined to hire Pillsbury in April 2019. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees were paid by CAT LLC to Pillsbury. The legal costs for Pillsbury during the Pre-FAM Period included costs incurred from April 2019 until June 22, 2020 to address legal matters regarding the agreements between CAT Reporters and CAT LLC concerning certain terms associated with CAT Reporting (the “Reporter Agreement”). During that period, Pillsbury advised CAT LLC regarding applicable legal matters, participated in negotiations between the Participants and Industry Members, participated in meetings with senior SEC staff, the Chairman, and Commissioners, represented CAT LLC and the Participants in an SEC administrative proceeding, and drafted a proposed amendment to the CAT NMS Plan regarding liability matters. Liability issues related to the CAT are important matters that needed to be resolved and clarified. CAT LLC’s efforts to seek such resolution and clarity work to the benefit of Participants, Industry Members and other market participants. Moreover, litigation involving CAT LLC is an expense of operating the CAT, and, therefore, is appropriately an obligation of both Participants and Industry

Members under the CAT Funding Model.

(VII) Consulting Costs

The consulting costs of \$17,013,414 represent the fees paid to the consulting firm Deloitte & Touche LLP (“Deloitte”) as project manager during the Pre-FAM Period, from October 2012 until June 22, 2020. These consulting costs include costs for advisory services related to the operation of the CAT, and meeting facilitation and communications coordination, vendor support and financial analyses.

To help facilitate project management given the unprecedented complexity and scope of the CAT project, the Participants determined it was necessary to engage a consulting firm to assist with the CAT project in 2012, following the adoption of Rule 613. A variety of factors were considered in the analysis of prospective consulting firms, including (1) the firm’s qualifications, resources, and expertise; (2) the firm’s relevant experience and understanding of the regulatory issues raised by the CAT and in coordinating matters of similar scope; (3) the composition of the consulting team; and (4) professional fees. Following a series of interviews, the exchanges and FINRA as a consortium determined that Deloitte was well qualified given the balance of these considerations and engaged Deloitte on October 1, 2012.

Deloitte’s fee rates are negotiated on an annual basis and are in line with market rates for this type of specialized consulting work. CAT LLC assesses Deloitte’s performance and reviews prospective budgets and staffing plans submitted by Deloitte on an annual basis. Deloitte’s compensation arrangements are reasonable and appropriate, and in line with the rates charged by other leading consulting firms for similar work.

The consulting costs for CAT during the period from 2012 until the formation of the CAT NMS, LLC were paid directly by the Participants to Deloitte. After the formation of CAT NMS, LLC, the consulting fees were paid by CAT LLC to Deloitte. CAT LLC reviewed the consulting fees each month and approved the invoices.

After Deloitte was hired in 2012 through the end of the Pre-FAM Period on June 22, 2020 (excluding the consulting costs from November 15, 2017 through November 15, 2018), Deloitte provided a variety of consulting services, including the following:

- Established and implemented program operations for the CAT project, including the program management office and workstream design;

- Assisted with the Plan Processor selection process, including but not limited to, the development of the RFP and the bidder evaluation process, and facilitation and consolidation of the Participant's independent reviews;
- Assisted with the development and drafting of the CAT NMS Plan, including conducting cost-benefit studies, analyzing OATS and CAT requirements, and drafting appendices to the Plan;
- Assisted with cost and funding-related activities for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;
- Provided governance support to the CAT, including governance support prior to the adoption of the CAT NMS Plan, which involved support for the full committee of exchanges and FINRA as well as subcommittees of this group (e.g., Joint Subcommittee Group, Technical, Industry Outreach, Cost and Funding and Other Products) and the DAG, governance support during the transition to the new governance structure under the CAT NMS Plan and governance support after the adoption of the CAT NMS Plan, which involved support for the Operating Committee, Advisory Committee, Compliance Subcommittee and CAT working groups;
- Provided support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;
- Assisted with industry outreach and communications regarding the CAT, including assistance with industry outreach events, the development of the CAT website, frequently asked questions, and coordinating with the CAT LLC's public relations firm;
- Provided support for updating the SEC on the progress of the development of the CAT;
- Provided active planning and coordination with and support for the Initial Plan Processor with regard to the development of the CAT, and reported to the Participants on the progress;
- Coordinated efforts regarding the selection of the successor Plan Processor;
- Assisted with the transition from the Initial Plan Processor to the successor Plan Processor, including support for the Operating Committee and successor Plan Processor for the new role; and
- Provided support for third-party vendors for the CAT, including FCAT,

Anchin and the law firms engaged by CAT LLC.

(VIII) Insurance

The insurance costs of \$880,419 represent the cost incurred for insurance for CAT during the Pre-FAM Period. Commencing in 2020, CAT LLC performed an evaluation of various potential alternatives for CAT insurance policies, which included engaging in discussions with different insurance companies and conducting cost comparisons of various alternative approaches to insurance. Based on an analysis of a variety of factors, including coverage and premiums, CAT LLC determined to purchase cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance from USI Insurance Services LLC ("USI"). Such policies are standard for corporate entities, and cyber security liability insurance is important for the CAT System. The annual premiums for these policies were competitive for the coverage provided. The annual premiums were paid by CAT LLC to USI.

(IX) Professional and Administration Costs

In adopting the CAT NMS Plan, the Commission amended the Plan to add a requirement that CAT LLC's financial statements be prepared in compliance with GAAP, audited by an independent public accounting firm, and made publicly available.⁵² The professional and administration costs include costs related to accounting and accounting advisory services to support the operating and financial functions of CAT, financial statement audit services by an independent accounting firm, preparation of tax returns, and various cash management and treasury functions. In addition, professional and administration costs for the Pre-FAM Period include costs related to the receipt of market data and a security assessment. The costs for these professional and administration services were \$1,082,036 for the Pre-FAM Period.

Financial Advisory Firm: Anchin Accountants & Advisors ("Anchin"). CAT LLC determined to hire a financial advisory firm, Anchin, to assist with financial matters for the CAT in April 2018. CAT LLC interviewed Anchin as well as other potential financial advisory firms to assist with the CAT project, considering a variety of factors in its analysis, including the firm's relevant expertise and fees. The hourly

fee rates for this firm were in line with market rates for these financial advisory services. The fees for these services were paid by CAT LLC to Anchin.

After Anchin was hired in April 2018 through the end of the Pre-FAM Period on June 22, 2020 (excluding the period from April 2018 through November 15, 2018), Anchin provided a variety of services, including the following:

- Developed, updated and maintained internal controls;
- Provided cash management and treasury functions;
- Facilitated bill payments;
- Provided monthly bookkeeping;
- Reviewed vendor invoices and documentation in support of cash disbursements;
- Provided accounting research and consultations on various accounting, financial reporting and tax matters;
- Addressed not-for-profit tax and accounting considerations;
- Prepared tax returns;
- Addressed various accounting, financial and operating inquiries from Participants;
- Developed and maintained quarterly and annual operating and financial budgets, including budget to actual fluctuation analyses;
- Addressed accounting and financial reporting matters relating to the transition from CAT NMS, LLC to Consolidated Audit Trail, LLC, including supporting the dissolution of CAT NMS, LLC;
- Supported compliance with the CAT NMS Plan;
- Worked with and provided support to the Operating Committee and various CAT working groups;
- Prepared monthly, quarterly and annual financial statements;
- Supported the annual financial statement audits by an independent auditor;
- Reviewed historical costs from inception; and
- Provided accounting and financial information in support of SEC filings.

Accounting Firm: Grant Thornton LLP ("Grant Thornton"). In February 2020, CAT LLC determined to engage an independent accounting firm, Grant Thornton, to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. CAT LLC interviewed this firm as well as another potential accounting firm to audit CAT LLC's financial statements, considering a variety of factors in its analysis, including the relevant expertise and fees of each of the firms. CAT LLC determined that Grant Thornton was well-qualified for the proposed role given the balance of these

⁵² Section 9.2 of the CAT NMS Plan.

considerations. Grant Thornton's fixed fee rate compensation arrangement was reasonable and appropriate, and in line with the market rates charged for these types of accounting services. The fees for these services were paid by CAT LLC to Grant Thornton.

Market Data Provider: Exegy. The professional and administrative costs for the Pre-FAM Period included costs related to the receipt of certain market data for the CAT pursuant to an agreement with the CAT LLC, and then with FCAT. Exegy provided SIP Data required by the CAT NMS Plan.

After performing an analysis of the available market data vendors to confirm that the data provided met the SIP Data requirements of the CAT NMS Plan and comparing the costs of the vendors providing the required SIP Data, CAT LLC determined to purchase market data from Exegy from July 2018 through March 2019. CAT LLC determined that, unlike certain other vendors, Exegy provided market data that included all data elements required by the CAT NMS Plan.⁵³ In addition, the fees were reasonable and in line with market rates for the market data received. Accordingly, the professional and administrative costs for the Pre-FAM Period include the Exegy costs from November 2018 through March 2019. The cost of the market data was reasonable for the market data received. The fees for the market data were paid directly by CAT LLC to Exegy.

Upon the termination of the contract between CAT LLC and Exegy, FCAT entered into a contract with Exegy to purchase the required market data from Exegy in July 2019. All costs under the contract were treated as a direct pass through cost to CAT LLC. Therefore, the fees for the market data were paid by CAT LLC to FCAT, who, in turn, paid Exegy for the market data.

Security Assessment: RSM US LLP ("RSM"). The operating costs for the Pre-FAM Period include costs related to a third party security assessment of the CAT performed by RSM. The assessment was designed to verify and validate the effective design, implementation, and operation of the controls specified by NIST Special Publication 800-53, Revision 4 and related standards and guidelines. Such a security assessment is in line with industry practice and important given the data included in the CAT. CAT LLC

determined to engage RSM to perform the security assessment, after considering a variety of factors in its analysis, including the firm's relevant expertise and fees. The fees were reasonable and in line with market rates for such an assessment. RSM performed the assessment from October 2018 through December 2018. Accordingly, the costs for the Pre-FAM Period include the costs incurred in November and December 2018. The cost for the security assessment were paid directly to RSM by CAT LLC.

(X) Public Relations Costs

The public relations costs of \$224,669 represent the fees paid to public relations firms during the Pre-FAM Period for professional communications services to CAT, including media relations consulting, strategy and execution. By engaging a public relations firm, CAT LLC was better positioned to understand and address CAT matters to the benefit of all market participants. Specifically, the public relations firms provided services related to communications with the public regarding the CAT, including monitoring developments related to the CAT (e.g., congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating communications to the public regarding such developments as well as reporting on developments related to the CAT (e.g., amendments to the CAT NMS Plan). Public relations services were important for various reasons, including monitoring comments made by market participants about CAT and understanding issues related to the CAT discussed on the public record.

The services performed by each of the public relations firms were comparable. The fees for such services were reasonable and in line with market rates. Only one public relations firm was engaged at a time; the three firms were engaged sequentially as the primary public relations contact moved among the three firms during this time period.

Public Relations Firm: Peppercomm, Inc. ("Peppercomm"). The national securities exchanges and FINRA, acting as a consortium, determined to hire the public relations firm Peppercomm in October 2014 and continued to engage this firm through September 2017. The exchanges and FINRA made this

engagement decision after considering a variety of factors in its analysis, including the firm's relevant expertise and fees. The fee rates for this public relations firm were negotiated on an arm's length basis and were in line with market rates for these types of services. The public relations costs during the period from October 2014 until the formation of the CAT NMS, LLC were paid directly by the exchanges and FINRA to the public relations firm. After the formation of CAT NMS, LLC, the consulting fees were paid by CAT LLC.

Public Relations Firm: Sloane & Company ("Sloane"). CAT LLC determined to hire a new public relations firm, Sloane, in March 2018, based on, among other things, their expertise and the primary contact's history with the project. The fee rates for this public relations firm were in line with market rates for these types of services. The fees during the Pre-FAM Period were paid by CAT LLC to Sloane. CAT LLC continued the engagement with Sloane until February 2020.

Public Relations Firm: Peak Strategies. CAT LLC determined to hire a new public relations firm, Peak Strategies, in March 2020, based on, among other things, their expertise and the primary contact's history with the project. The fee rates for this public relations firm were in line with market rates for these types of services. The fees during the Pre-FAM Period were paid by CAT LLC to Peak Strategies.

(b) Historical CAT Costs Incurred in Financial Accountability Milestone Period 1

Historical CAT Costs 1 would include costs incurred by CAT and already funded by the Participants during Period 1 of the Financial Accountability Milestones ("FAM Period 1"),⁵⁴ which covers the period from June 22, 2020—July 31, 2020. Historical CAT Costs 1 would include costs for FAM Period 1 of \$6,377,343. The Participants would remain responsible for one-third of this cost (which they have previously paid) (\$2,125,781), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$2,125,781) and CEBBs paying one-third (\$2,125,781). The following table breaks down Historical CAT Costs 1 for FAM Period 1 into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

⁵³ See Section 6.5(a)(ii) of the CAT NMS Plan.

⁵⁴ Section 11.6(a)(i)(A) of the CAT NMS Plan.

Operating expense	Historical CAT costs for FAM Period 1 **
Capitalized Developed Technology Costs *	\$1,684,870
Technology Costs	3,996,800
Cloud Hosting Services	2,642,122
Operating Fees	1,099,680
CAIS Operating Fees	254,998
Change Request Fees	-
Legal	481,687
Consulting	137,209
Insurance	-
Professional and administration	69,077
Public relations	7,700
Total Operating Expenses	6,377,343

The non-cash amortization of these capitalized developed technology costs of \$362,121 incurred during FAM Period 1 have been appropriately excluded from the above table.⁵⁵

** The costs described in this table of costs for FAM Period 1 were calculated based upon CAT LLC's review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website.

By the completion of FAM Period 1, CAT LLC was required to implement the reporting by Industry Members (excluding Small Industry Members that are not OATS reporters) of equities transaction data and options transaction data, excluding Customer Account Information, Customer-ID and Customer Identifying Information.⁵⁶ CAT LLC completed the requirements of FAM Period 1 by July 31, 2020. The following describes the costs for each of the categories for FAM Period 1.

(I) Technology Costs—Cloud Hosting Services

CAT LLC continued to utilize AWS in FAM Period 1 to provide a broad array of cloud hosting services for the CAT, including data ingestion, data management, and analytic tools. AWS

continued to provide storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as well as various environments for CAT, such as development, performance testing, test, and production environments, during the FAM 1 Period. Accordingly, the \$2,642,122 in technology costs for cloud hosting services represent costs incurred for services provided by AWS, as the cloud services provider, during FAM Period 1. The fee arrangement for AWS described above with regard to the Pre-FAM Period continued in place during FAM Period 1 pursuant to the Plan Processor Agreement. Moreover, CAT LLC continued to believe that AWS's maturity in the cloud services space as well as the significant cost and time

necessary to move the CAT to a different cloud services provider supported the continued engagement of AWS.

The cost for AWS cloud services for the CAT continued to be a function of the volume of CAT Data. During the FAM 1 Period, the volume of CAT Data continued to far exceed the original predictions for the CAT as set forth in the CAT NMS Plan. During this period, data submitted to the CAT included options and equities Participant Data, Phase 2a and Phase 2b Industry Member Data (including certain linkages) as well as SIP Data, reference data and other types of Other Data. The following chart provides data regarding the average daily volume, cumulative total events, total compute hours and storage footprint of the CAT during FAM Period 1.⁵⁷

	Date range: 6/22/20–7/31/20
Average Daily Volume in Billions:	
Participant—Equities	6
Participant—Options	103
Industry Member—Equities	7
Industry Member—Options	0.31
SIP—Options & Equities	74
Average Total Daily Volume	185
Cumulative Total Events for the Period	5,190
Total Compute Hours for the Period	2,612,082
Storage Footprint at End of Period (Petabytes)	57.47

(II) Technology Costs—Operating Fees

Pursuant to the Plan Processor Agreement discussed above, FCAT continued in its role as the Plan Processor for the CAT during FAM

Period 1. Accordingly, the \$1,099,680 in technology costs for operating fees represent costs incurred for the services provided by FCAT under the Plan Processor Agreement during FAM

Period 1. The fee arrangement for FCAT described above with regard to the Pre-FAM Period continued in place during FAM Period 1 pursuant to the Plan Processor Agreement. During FAM

⁵⁵ As discussed above, with respect to certain costs that were "appropriately excluded," such excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As

such costs have already been otherwise reflected in the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

⁵⁶ See definition of "Initial Industry Member Core Equity and Options Reporting" in Section 1.1 of the CAT NMS Plan.

⁵⁷ Note that the volume data described in this table does not include CAIS data.

Period 1, FCAT's activities with respect to the CAT included the following:

- Published iterative drafts of draft Technical Specifications for Phase 2d, after substantial engagement with SEC staff, Industry Members and Participants on the Technical Specifications;
- Published iterative drafts of CAIS Technical Specifications, after substantial engagement with SEC staff, Industry Members and Participants on the Technical Specifications;
- Facilitated Industry Member reporting of Quote Sent Time on Options Market Maker quotes;
- Addressed compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provided support to the Operating Committee, the Compliance Subcommittee and CAT working groups;
- Assisted with interpretive efforts and exemptive requests regarding the CAT NMS Plan;
- Oversaw the security of the CAT;
- Monitored the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provided support to subcontractors under the Plan Processor Agreement;
- Provided support in discussions with Participants and the SEC and its staff;
- Operated the FINRA CAT Helpdesk;
- Facilitated communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administered the CAT website and all of its content; and
- Provided technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

(III) Technology Costs—CAIS Operating Fees

Pursuant to the Plan Processor Agreement discussed above, Kingland continued in its role as a subcontractor for the development and implementation of CAIS during FAM Period 1. Accordingly, the \$254,998 in technology costs for CAIS operating fees represent costs incurred for services provided by Kingland during FAM Period 1. The fee arrangement for Kingland described above with regard to the Pre-FAM Period continued in place during FAM Period 1 pursuant to the Plan Processor Agreement. During FAM Period 1, Kingland continued the development of the CAIS Technical Specifications and building of CAIS. In addition, Kingland continued to work

on the CAIS Technical Specifications and build related to CCID Alternative, as well as the acceleration of the reporting of LTIDs.

(IV) Technology Costs—Change Request Fees

CAT LLC did not incur costs related to change requests during FAM Period 1.

(V) Technology Costs—Capitalized Developed Technology Costs

Capitalized developed technology costs for FAM Period 1 of \$1,684,870 include capitalizable application development costs incurred in the development of the CAT by FCAT. Such costs include: (1) costs related to certain modifications, upgrades, or other changes to the CAT that were not contemplated by the agreement between CAT LLC and the Plan Processor, including separate production and industry test entitlements, and reprocessing of exchange event timestamps; (2) implementation fees; and (3) license fees.

(VI) Legal Costs

The legal costs of \$481,687 represent the fees paid for legal services provided by two law firms, WilmerHale and Pillsbury during FAM Period 1.

Law Firm: WilmerHale. CAT LLC continued to employ WilmerHale during FAM Period 1 based on, among other things, their expertise and long history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 1 were paid by CAT LLC to WilmerHale. During FAM Period 1, WilmerHale provided legal assistance to the CAT including with regard to the following:

- Assisted with the development of the CAT funding model and drafted related amendments and fee filings;
- Drafted exemptive requests from CAT NMS Plan requirements regarding, for example, verbal activity, options market maker quote sent time, TRF linkages, and allocations;
- Provided interpretations related to CAT NMS Plan requirements, including the Financial Accountability Milestone amendment;
- Assisted with compliance with Regulation SCI;
- Provided support for the Operating Committee, Compliance Subcommittee, working groups and Leadership Team, including with regard to meetings with the SEC staff;
- Assisted with the drafting of the Implementation Plan required pursuant

to Section 6.6(c)(i) of the CAT NMS Plan;

- Assisted with communications and presentations for the industry regarding CAIS;
- Drafted SRO rule filings related to the CAT Compliance Rule;
- Provided support for Compliance Subcommittee, including with regard to responses to OCIE examinations and the annual assessment;
- Provided guidance regarding CAT technical specifications;
- Assisted with third-party vendor agreements; and
- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues.

Law Firm: Pillsbury. CAT LLC continued to employ Pillsbury during FAM Period 1 based on, among other things, their expertise and history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 1 were paid by CAT LLC to Pillsbury. During FAM Period 1, Pillsbury provided legal assistance to the CAT regarding the CAT Reporter Agreement. During that period, Pillsbury advised CAT LLC regarding applicable legal matters and drafted a proposed amendment to the CAT NMS Plan regarding liability matters. Liability issues related to the CAT are important matters that needed to be resolved and clarified. CAT LLC's efforts to seek such resolution and clarity work to the benefit of Participants, Industry Members and other market participants.

(VII) Consulting Costs

The consulting costs of \$137,209 represent the fees paid to Deloitte as project manager during FAM Period 1. CAT LLC continued to employ Deloitte during FAM Period 1 based on, among other things, their expertise and cumulative experience with the CAT. The fee rates for Deloitte during FAM Period 1 were negotiated and in line with market rates for this type of specialized consulting work. The consulting fees during FAM Period 1 were paid by CAT LLC to the consulting firm. CAT LLC reviewed the consulting fees each month and approved the invoices. During FAM Period 1, Deloitte's CAT-related activities included the following:

- Implemented program operations for the CAT project;
- Provided support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings

and communications, and interfacing with law firms and the SEC;

- Assisted with cost and funding matters for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;
- Provided support for updating the SEC on the progress of the development of the CAT;
- Assisted with the transition from the Initial Plan Processor to the successor Plan Processor; and
- Provided support for third-party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

(VIII) Insurance

Although insurance was in effect during FAM Period 1, CAT LLC did not incur costs related to insurance during FAM Period 1.

(IX) Professional and Administration Costs

Financial Advisory Firm: Anchin. The professional and administration costs of \$69,077 represent the fees paid to Anchin during FAM Period 1. CAT LLC continued to employ Anchin during FAM Period 1 based on, among other things, their expertise and history with the project. The hourly fee rates for this firm were in line with market rates for these type of financial advisory services. The fees for these services during FAM Period 1 were paid by CAT LLC to Anchin. During FAM Period 1, Anchin provided a variety of services, including the following:

- Maintained internal controls;
- Provided cash management and treasury functions;
- Facilitated bill payments;

- Provided monthly bookkeeping;
- Reviewed vendor invoices and documentation in support of cash disbursements;
- Provided accounting research and consultations on various accounting, financial reporting and tax matters;
- Addressed various accounting, financial reporting and operating inquiries from Participants;
- Developed and maintained quarterly and annual operating and financial budgets, including budget to actual fluctuation analyses;
- Supported compliance with the CAT NMS Plan;
- Worked with and provided support to the Operating Committee and various CAT working groups; and
- Prepared monthly and quarterly financial statements.

(X) Public Relations Costs

The public relations costs of \$7,700 represent the fees paid to Peak Strategies during FAM Period 1. CAT LLC continued to employ Peak Strategies during FAM Period 1 based on, among other things, their expertise and history with the project. The fee rates for this firm were reasonable and in line with market rates for these types of services. The fees for these services during FAM Period 1 were paid by CAT LLC to Peak Strategies. During FAM Period 1, Peak Strategies continued to provide professional communications services to CAT LLC, including media relations consulting, strategy and execution. Specifically, the public relations firm provided services related to communications with the public regarding the CAT, including monitoring developments related to the CAT (e.g., congressional efforts, public

comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating communications to the public regarding such developments as well as reporting on developments related to the CAT (e.g., amendments to the CAT NMS Plan). As discussed above, such public relations services were important for various reasons, including monitoring comments made by market participants about the CAT and understanding issues related to the CAT discussed on the public record. By engaging a public relations firm, CAT LLC was better positioned to understand and address CAT matters to the benefit of all market participants.

(c) Historical CAT Costs Incurred in Financial Accountability Milestone Period 2

Historical CAT Costs 1 would include costs incurred by CAT LLC and already funded by Participants during Period 2 of the Financial Accountability Milestones ("FAM Period 2"),⁵⁸ which covers the period from August 1, 2020–December 31, 2020. Historical CAT Costs 1 would include costs for FAM Period 2 of \$42,976,478. The Participants would remain responsible for one-third of this cost (which they have previously paid) (\$14,325,493), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$14,325,493) and CEBBs paying one-third (\$14,325,493). The following table breaks down Historical CAT Costs 1 for FAM Period 2 into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

Operating expense	Historical CAT costs for FAM Period 2**
Capitalized Developed Technology Costs:thnsp;*	\$6,761,094
Technology Costs	31,460,033
Cloud Hosting Services	20,709,212
Operating Fees	9,108,700
CAIS Operating Fees	1,590,298
Change Request Fees	51,823
Legal	2,766,644
Consulting	532,146
Insurance	976,098
Professional and administration	438,523
Public relations	41,940
Total Operating Expenses	42,976,478

*The non-cash amortization of these capitalized developed technology costs of \$1,892,505 incurred during FAM Period 2 have been appropriately excluded from the above table.⁵⁹

** The costs described in this table of costs for FAM Period 2 were calculated based upon CAT LLC's review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website.

⁵⁸ Section 11.6(a)(i)(B) of the CAT NMS Plan.

⁵⁹ As discussed above, with respect to certain costs that were "appropriately excluded," such excluded costs relate to the amortization of

capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already been otherwise reflected in the filing, their inclusion would double count the

capitalized technology costs. In addition, amortization is a non-cash expense.

By the completion of FAM Period 2, CAT LLC was required to implement the following with regard to the CAT:

(a) Industry Member reporting (excluding reporting by Small Industry Members that are not OATS reporters) for equities transactions, excluding Customer Account Information, CustomerID, and Customer Identifying Information, is developed, tested, and implemented at a 5% Error Rate or less and with sufficient intra-firm linkage, inter-firm linkage, national securities exchange linkage, and trade reporting facilities linkage to permit the Participants and the Commission to analyze the full lifecycle of an order across the national market system, excluding linkage of representative orders, from order origination through order execution or order cancellation; and (b) the query tool functionality required by Section 6.10(c)(i)(A) and Appendix D, Sections 8.1.1–8.1.3 and Section 8.2.1 incorporates the Industry Member equities transaction data

described in condition (a) and is available to the Participants and to the Commission.⁶⁰

CAT LLC completed the requirements of FAM Period 2 by December 31, 2020. The following describes the costs for each of the categories for FAM Period 2.

(I) Technology Costs—Cloud Hosting Services

CAT LLC continued to utilize AWS in FAM Period 2 to provide a broad array of cloud hosting services for the CAT, including data ingestion, data management, and analytic tools. AWS continued to provide storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as well as various environments for CAT, such as development, performance testing, test, and production environments, during the FAM 2 Period. Accordingly, the \$20,709,212 in technology costs for cloud hosting services represent costs incurred for services provided by AWS, as the cloud

services provider, during FAM Period 2. The fee arrangement for AWS described above with regard to the Pre-FAM Period and FAM Period 1 continued in place during FAM Period 2 pursuant to the Plan Processor Agreement.

The cost for AWS cloud services for the CAT continued to be a function of the volume of CAT Data. During the FAM 2 Period, the volume of CAT Data continued to far exceed the original predictions for the CAT as set forth in the CAT NMS Plan. During this period, data submitted to the CAT included options and equities Participant Data, Phase 2a and Phase 2b Industry Member Data (including certain linkages) as well as SIP Data, and Other Data, including reference data. In addition, Industry Members began reporting LTID account information. The following chart provides data regarding the average daily volume, cumulative total events, total compute hours and storage footprint of the CAT during FAM Period 2.⁶¹

	Date range: 8/1/20—12/31/20
Average Daily Volume in Billions:	
Participant—Equities	6
Participant—Options	116
Industry Member—Equities	11
Industry Member—Options	0.98
SIP—Options & Equities	80
Average Total Daily Volume	282
Cumulative Total Events for the Period	2,170
Total Compute Hours for the Period	15,660,392
Storage Footprint at End of Period (Petabytes)	114.59

(II) Technology Costs—Operating Fees

Pursuant to the Plan Processor Agreement discussed above, FCAT continued in its role as the Plan Processor for the CAT during FAM Period 2. Accordingly, the \$9,108,700 in technology costs for operating fees represent costs incurred for the services provided by FCAT under the Plan Processor Agreement during FAM Period 2. The fee arrangement for FCAT described above with regard to the Pre-FAM Period and FAM Period 1 continued in place during FAM Period 2 pursuant to the Plan Processor Agreement. During FAM Period 2, FCAT's activities with respect to the CAT included publishing the Technical Specifications for Phase 2d and overseeing the reporting of firm to firm and intrafirm linkages by Industry

Members. In addition, FCAT also continued to engage in the following activities during FAM Period 2:

- Addressed compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provided support to the Operating Committee, Compliance Subcommittee and CAT working groups;
- Assisted with interpretive efforts and exemptive requests regarding the CAT NMS Plan;
- Oversaw the development and implementation of the security of the CAT;
- Monitored the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provided support to subcontractors under the Plan Processor Agreement;

- Provided support in discussions with the Participants and the SEC and its staff;
- Operated the FINRA CAT Helpdesk;
- Facilitated communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administered the CAT website and all of its content; and
- Provided technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

(III) Technology Costs—CAIS Operating Fees

Pursuant to the Plan Processor Agreement discussed above, Kingland continued in its role as a subcontractor for the development and

⁶⁰ See definition of “Full Implementation of Core Equity Reporting Requirements” in Section 1.1 of the CAT NMS Plan.

⁶¹ Note that the volume data described in this table does not include CAIS data.

implementation of CAIS during FAM Period 2. Accordingly, the \$1,590,298 in technology costs for CAIS operating fees represent costs incurred for services provided by Kingland during FAM Period 2. The fee arrangement for Kingland described above with regard to the Pre-FAM Period and FAM Period 1 continued in place during FAM Period 2 pursuant to the Plan Processor Agreement. During FAM Period 2, Kingland continued the development of the CAIS Technical Specifications and building of CAIS. In addition, Kingland continued to work on the CAIS Technical Specifications and build related to the CCID Alternative, as well as the acceleration of the reporting of LTIDs.

(IV) Technology Costs—Change Request Fees

During FAM Period 2, CAT LLC engaged FCAT to pursue certain change requests in accordance with the Plan Processor Agreement. The change request costs were paid by CAT LLC to FCAT. Specifically, during FAM Period 2, CAT incurred costs of \$51,823 related to a change request regarding the addition of functionality for exchange Participants to report rejected messages to the CAT.

(V) Technology Costs—Capitalized Developed Technology Costs

Capitalized developed technology costs for FAM Period 2 of \$6,761,094 include capitalizable application development costs incurred in the development of the CAT by FCAT. Such costs include (1) development costs incurred during the application development stage to meet various agreed-upon milestones regarding the CAT, as defined in the agreement between CAT LLC and the Plan Processor; (2) costs related to certain modifications, upgrades, or other changes to the CAT that were not contemplated by the agreement between CAT LLC and the Plan Processor, including costs related to separate production and industry test entitlements, market maker reference data, and back-processing of exchange exception logic; (3) implementation fees; and (4) license fees.

(VI) Legal Costs

The legal costs of \$2,766,644 represent the fees paid for legal services provided by two law firms, WilmerHale and Pillsbury during FAM Period 2.

Law Firm: WilmerHale. CAT LLC continued to employ WilmerHale during FAM Period 2 based on, among other things, their expertise and long history with the project. The hourly fee

rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 2 were paid by CAT LLC to WilmerHale. During FAM Period 2, the legal assistance provided by WilmerHale included providing legal advice regarding the following:

- Assisted with the development of the CAT funding model and drafting related amendments and rule filings;
- Drafted exemptive requests from CAT NMS Plan requirements regarding, for example, allocations, exchange activity, OTQT, initial data validation, error corrections and recordkeeping;
- Provided interpretations related to CAT NMS Plan requirements, including with regard to the Financial Accountability Milestone amendment, FAQs and technical specifications;
- Provided support for the Operating Committee, Compliance Subcommittees, working groups and Leadership Team, including with regard to meetings with the SEC staff;
- Assisted with the Implementation Plan and Quarterly Progress Reports required pursuant to Section 6.6 of the CAT NMS Plan;
- Drafted SRO rule filings related to the CAT Compliance Rule;
- Provided support for the Compliance Subcommittee, including with regard to responses to OCIE examinations and the annual assessment;
- Provided guidance regarding the SEC's proposed security amendments to the CAT NMS Plan;
- Provided guidance regarding SRO rule filings for the retirement of systems;
- Provided legal support for Operating Committee meetings, including drafting resolutions and other materials and voting advice;
- Assisted with third-party vendor agreements (e.g., with regard to Anchin, Grant Thornton and insurance policies);
- Assisted with change requests; and
- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues.

Law Firm: Pillsbury. CAT LLC continued to employ Pillsbury during FAM Period 2 based on, among other things, their expertise and history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 2 were paid by CAT LLC to Pillsbury. During FAM Period 2, Pillsbury provided legal assistance to the CAT regarding the CAT Reporter Agreement. During that period, Pillsbury advised CAT LLC regarding applicable legal matters and drafted and filed a proposed amendment to the CAT

NMS Plan regarding liability matters. As discussed above, liability issues related to the CAT are important matters that needed to be resolved and clarified. CAT LLC's efforts to seek such resolution and clarity work to the benefit of Participants, Industry Members and other market participants.

(VII) Consulting Costs

The consulting costs of \$532,146 represent the fees paid to Deloitte as project manager during FAM Period 2. CAT LLC continued to employ Deloitte during FAM Period 2 based on, among other things, their expertise and long history with the project. The fee rates for Deloitte during FAM Period 2 were negotiated and in line with market rates for this type of specialized consulting work. The consulting fees during FAM Period 2 were paid to Deloitte by CAT LLC. CAT LLC reviewed the consulting fees each month and approved the invoices. During FAM Period 2, Deloitte's CAT-related activities included the following:

- Implemented program operations for the CAT project;
- Provided support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;
- Assisted with cost and funding matters for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;
- Provided support for updating the SEC on the progress of the development of the CAT; and
- Provided support for third-party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

(VIII) Insurance

The insurance costs of \$976,098 represent the fees paid for insurance during FAM Period 2. CAT LLC continued to maintain cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance offered by USI. After engaging in a process for renewing the coverage, CAT LLC determined to purchase these insurance policies from USI. The annual premiums for these policies were competitive for the coverage provided. The annual premiums were paid by CAT LLC to USI.

(IX) Professional and Administration Costs

The professional and administration costs of \$438,523 represent the fees paid to Anchin and Grant Thornton for financial services provided during FAM Period 2.

Financial Advisory Firm: Anchin.

CAT LLC continued to engage Anchin during FAM Period 2 based on, among other things, their expertise and history with the project. The hourly fee rates for this firm were in line with market rates for these types of financial advisory services. The fees for these services during FAM Period 2 were paid by CAT LLC to Anchin. During FAM Period 2, Anchin provided a variety of services, including the following:

- Updated and maintained internal controls;
- Provided cash management and treasury functions;
- Facilitated bill payments;
- Provided monthly bookkeeping;
- Reviewed vendor invoices and documentation in support of cash disbursements;
- Provided accounting research and consultations on various accounting, financial reporting and tax matters;
- Addressed not-for-profit tax and accounting considerations;
- Prepared tax returns;
- Addressed various accounting, financial reporting and operating inquiries from the Participants;
- Developed and maintained quarterly and annual operating and financial budgets, including budget to actual fluctuation analyses;
- Supported compliance with the CAT NMS Plan;
- Worked with and provided support to the Operating Committee and various CAT working groups;

- Prepared monthly, quarterly and annual financial statements;
- Supported the annual financial statement audit by an independent auditor; and
- Reviewed historical costs from inception.

Accounting Firm: Grant Thornton.

CAT LLC continued to employ the accounting firm Grant Thornton during FAM Period 2 based on, among other things, its expertise and cumulative knowledge of CAT LLC. CAT LLC continued to believe that Grant Thornton was well qualified for its role and its fee rates were in line with market rates for these accounting services. The fees for these services during FAM Period 2 were paid by CAT LLC to Grant Thornton. During FAM Period 2, Grant Thornton performed a financial statement audit for CAT LLC as an independent accounting firm.

(X) Public Relations Costs

The public relations costs of \$41,940 represent the fees paid to Peak Strategies during FAM Period 2. CAT LLC continued to employ Peak Strategies during FAM Period 2 based on, among other things, their expertise and history with the project. The fee rates for this firm were in line with market rates for these types of services. The fees for these services during FAM Period 2 were paid by CAT LLC to Peak Strategies. During FAM Period 2, Peak Strategies continued to provide professional communications services to CAT, including media relations consulting, strategy and execution. Specifically, the public relations firm provided services related to communications with the public regarding the CAT, including monitoring developments related to the

CAT (e.g., congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating communications to the public regarding such developments as well as reporting on developments related to the CAT (e.g., amendments to the CAT NMS Plan). As discussed above, such public relations services were important for various reasons, including monitoring comments made by market participants about the CAT and understanding issues related to the CAT discussed on the public record. By engaging a public relations firm, CAT LLC was better positioned to understand and address CAT matters to the benefit of all market participants.

(d) Historical CAT Costs Incurred in Financial Accountability Milestone Period 3

Historical CAT Costs 1 would include costs incurred by CAT and already funded by the Participants during Period 3 of the Financial Accountability Milestones ("FAM Period 3"),⁶² which covers the period from January 1, 2021–December 31, 2021. Historical CAT Costs 1 would include costs for FAM Period 3 of \$144,415,268. The Participants would remain responsible for one-third of this cost (which they have previously paid) (\$48,138,423), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$48,138,423) and CEBBs paying one-third (\$48,138,423). The following table breaks down Historical CAT Costs 1 for FAM Period 3 into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

Operating expense	Historical CAT costs for FAM Period 3**
Capitalized Developed Technology Costs *	\$10,763,372
Technology Costs	123,639,402
Cloud Hosting Services	94,574,759
Operating Fees	23,106,091
CAIS Operating Fees	5,562,383
Change Request Fees	396,169
Legal	6,333,248
Consulting	1,408,209
Insurance	1,582,714
Professional and administration	595,923
Public relations	92,400
Total Operating Expenses	144,415,268

* The non-cash amortization of these capitalized developed technology costs of \$5,108,044 incurred during FAM Period 3 have been appropriately excluded from the above table.⁶³

⁶² Section 11.6(a)(i)(C) of the CAT NMS Plan.

⁶³ As discussed above, with respect to certain costs that were "appropriately excluded," such

excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already been otherwise reflected in

the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

** The costs described in this table of costs for FAM Period 3 were calculated based upon CAT LLC's review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website.

By the completion of FAM Period 3, CAT LLC was required to implement the following requirements with regard to the CAT:

(a) reporting to the Order Audit Trail System ("OATS") is no longer required for new orders; (b) Industry Member reporting for equities transactions and simple electronic options transactions, excluding Customer Account Information, Customer-ID, and Customer Identifying Information, with sufficient intra-firm linkage, inter-firm linkage, national securities exchange linkage, trade reporting facilities linkage, and representative order linkages (including any equities allocation information provided in an Allocation Report) to permit the Participants and the Commission to analyze the full lifecycle of an order across the national market system, from order origination through order execution or order cancellation, is developed, tested, and implemented at a 5% Error Rate or less; (c) Industry Member reporting for manual options transactions and complex options transactions, excluding Customer Account Information, Customer-ID, and Customer Identifying Information, with all required linkages to permit the

Participants and the Commission to analyze the full lifecycle of an order across the national market system, from order origination through order execution or order cancellation, including any options allocation information provided in an Allocation Report, is developed, tested, and fully implemented; (d) the query tool functionality required by Section 6.10(c)(i)(A) and Appendix D, Sections 8.1.1–8.1.3, Section 8.2.1, and Section 8.5 incorporates the data described in conditions (b)–(c) and is available to the Participants and to the Commission; and (e) the requirements of Section 6.10(a) are met.⁶⁴

CAT LLC completed the requirements of FAM Period 3 by December 31, 2021. The following describes the costs for each of the categories for FAM Period 3.

(I) Technology Costs—Cloud Hosting Services

CAT LLC continued to utilize AWS in FAM Period 3 to provide a broad array of cloud hosting services for the CAT, including data ingestion, data management, and analytic tools. AWS continued to provide storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as

well as various environments for CAT, such as development, performance testing, test, and production environments, during the FAM 3 Period. Accordingly, the \$94,574,759 in technology costs for cloud hosting services represents costs incurred for services provided by AWS, as the cloud services provider, during FAM Period 3. The fee arrangement for AWS described above for the earlier periods continued in place during FAM Period 3 pursuant to the Plan Processor Agreement.

The cost for AWS cloud services for the CAT continued to be a function of the volume of CAT Data. During FAM Period 3, the volume of CAT Data continued to far exceed the original predictions for the CAT as set forth in the CAT NMS Plan. During this period, data submitted to the CAT included options and equities Participant Data, Phase 2a, Phase 2b, Phase 2c and Phase 2d Industry Member Data (including certain linkages), SIP Data, Other Data, including reference data, and LTID account information. The following chart provides data regarding the average daily volume, cumulative total events, total compute hours and storage footprint of the CAT during FAM Period 3.⁶⁵

	Date range: 1/1/21 to 4/25/21	Date range: 4/26/21/ to 12/31/21 *
Average Daily Volume in Billions:		
Participant—Equities	9	9
Participant—Options	135	136
Industry Member—Equities	20	19
Industry Member—Options	2	2
SIP—Options & Equities	129	137
Average Total Daily Volume	297	304
Cumulative Total Events for the Period	7,480	5,310
Total Compute Hours for the Period	15,860,304	33,487,318
Storage Footprint at End of Period (Petabytes)	180.22	284.62

* Start of Participant Equities in CAT format and SIP Equities on 4/26/21.

(II) Technology Costs—Operating Fees

Pursuant to the Plan Processor Agreement discussed above, FCAT continued in its role as the Plan Processor for the CAT during FAM Period 3. Accordingly, the \$23,106,091 in technology costs for operating fees represent costs incurred for the services provided by FCAT under the Plan Processor Agreement during FAM Period 3. The fee arrangement for FCAT

described above with regard to the prior Periods continued in place during FAM Period 3 pursuant to the Plan Processor Agreement. During FAM Period 3, FCAT's activities with respect to the CAT included the following:

- Facilitated Phase 2c and Phase 2d testing for Industry Members;
- Oversaw creation of linkages of the lifecycle of order events based on the received data through Phase 2d;

- Addressed compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;

- Provided support to the Operating Committee, the Compliance Subcommittee and CAT working groups;

- Assisted with interpretive efforts and exemptive requests regarding the CAT NMS Plan;

⁶⁴ See definition of "Full Availability and Regulatory Utilization of Transactional Database Functionality" in Section 1.1 of the CAT NMS Plan.

⁶⁵ Note that the volume data described in this table does not include CAIS data.

- Oversaw the security of the CAT;
- Monitored the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provided support to subcontractors under the Plan Processor Agreement;
- Provided support in discussions with the Participants and the SEC and its staff;
- Operated the FINRA CAT Helpdesk;
- Facilitated communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administered the CAT website and all of its content; and
- Provided technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

(III) Technology Costs—CAIS Operating Fees

Pursuant to the Plan Processor Agreement with FCAT discussed above, Kingland continued in its role as a subcontractor for the development and implementation of CAIS during FAM Period 3. Accordingly, the \$5,562,383 in technology costs for CAIS operating fees represents costs incurred for services provided by Kingland during FAM Period 3. The fee arrangement for Kingland described above with regard to the prior Periods continued in place during FAM Period 3 pursuant to the Plan Processor Agreement. During FAM Period 3, Kingland continued the development of the CAIS Technical Specifications and building of CAIS. In addition, Kingland continued to work on the CAIS Technical Specifications and build related to the CCID Alternative, as well as the acceleration of the reporting of LTIDs. The full CAIS Technical Specifications were published during FAM Period 3.

(IV) Technology Costs—Change Request Fees

During FAM Period 3, CAT LLC engaged FCAT to pursue certain change requests in accordance with the Plan Processor Agreement. The change request costs were paid by CAT LLC to FCAT. Specifically, during FAM Period 3, CAT incurred costs of \$396,169 related to change requests, including the following: (1) the addition of functionality for exchange Participants to report rejected messages to the CAT; (2) the migration of MIRS query engine to AWS to reduce operational costs and increase resiliency; and (3) updating the Participant Technical Specifications to allow for two-sided Participant option quote reporting.

(V) Technology Costs—Capitalized Developed Technology Costs

Capitalized developed technology costs for FAM Period 3 of \$10,763,372 include capitalizable application development costs incurred in the development of the CAT by FCAT. Such costs include (1) development costs incurred during the application development stage to meet various agreed-upon milestones regarding the CAT, as defined in the agreement between CAT LLC and the Plan Processor, including the transition from equity data received by FINRA pursuant to various regulatory services agreements between FINRA and Participant exchanges to the equity CAT Data, and the completion of the Industry Member Phase 2d options manual and complex orders go-live requirements; (2) costs related to certain modifications, upgrades, or other changes to the CAT that were not contemplated by the agreement between CAT LLC and the Plan Processor, including costs related to off-exchange volume concentration, Participant 24-hour trading and an external metastore; (3) implementation fees; and (4) license fees.

(VI) Legal Costs

The legal costs of \$6,333,248 represent the fees paid for legal services provided by three law firms, WilmerHale, Pillsbury and Covington & Burling LLP (“Covington”) during FAM Period 3.

Law Firm: WilmerHale. CAT LLC continued to employ WilmerHale during FAM Period 3 based on, among other things, their expertise and long history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 3 were paid by CAT LLC to WilmerHale. During FAM Period 3, the legal assistance provided by WilmerHale included providing legal advice regarding the following:

- Assisted with the development of the CAT funding model and drafting related amendments and rule filings;
- Drafted exemptive requests from CAT NMS Plan requirements, including, for example, verbal activity regarding Phase 2c cutover, error reports, error corrections, Phase 2d Reporting, unique Order-ID on internal route events, reporting addresses, recordkeeping, and unique CCID for foreign customers;
- Provided interpretations related to CAT NMS Plan requirements, including with regard to the Financial Accountability Milestone amendment, FAQs, CAIS requirements, ADF, and technical specifications;

- Provided support for the Operating Committee, Compliance Subcommittee, working groups and Leadership Team, including with regard to meetings with the SEC staff;

- Assisted with the Implementation Plan and Quarterly Progress Reports required pursuant to Section 6.6(c) of the CAT NMS Plan;

- Drafted SRO rule filings related to the CAT Compliance Rule;

- Provided support for the Compliance Subcommittee, including with regard to responses to OCIE examinations and the annual assessment;

- Provided guidance regarding the SEC’s proposed security amendments to the CAT NMS Plan;

- Provided guidance regarding SRO rule filings for the retirement of systems;

- Provided legal support for Operating Committee meetings, including drafting resolutions and other materials and voting advice;

- Provided assistance with change requests;

- Provided guidance and regulatory support for litigation regarding the response to the SEC’s exemptive orders;

- Assisted with communications with the industry, including CAT Alerts and presentations;

- Provided guidance regarding the confidentiality of CAT Data, including third-party information requests;

- Assisted with cost management analysis and proposals; and

- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues.

Law Firm: Pillsbury. CAT LLC continued to employ Pillsbury during FAM Period 3 based on, among other things, their expertise and history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 3 were paid by CAT LLC to Pillsbury. During FAM Period 3, Pillsbury provided legal assistance to the CAT regarding the CAT Reporter Agreement. During this period, Pillsbury advised CAT LLC regarding applicable legal matters, reviewed and responded to comment letters regarding the proposed Plan amendment, participated in meetings with senior SEC staff, responded to comments submitted following the SEC’s April 6, 2021 order instituting proceedings,⁶⁶ and assessed legal matters regarding the

⁶⁶ Securities Exchange Act Rel. No. 91487 (Apr. 6, 2021), 86 FR 19054 (Apr. 12, 2021).

SEC's October 29, 2021 order denying the proposed Plan amendment.⁶⁷

Law Firm: Covington. CAT LLC hired Covington for litigation with the SEC regarding certain exemptive orders related to the CAT, including orders issued in December 2020.⁶⁸ CAT LLC interviewed this law firm as well as other potential law firms, considering a variety of factors in its analysis for choosing legal assistance, including the relevant expertise and fees of the potential lawyers. CAT LLC approved the engagement of Covington in January 2021. The fee rates for this law firm, which were calculated based on hourly rates, were in line with market rates for specialized services. The legal fees for FAM Period 3 for this firm were paid by CAT LLC to Covington.

After Covington was hired in 2021 through the end of 2021, the firm provided legal assistance regarding the litigation with the SEC regarding the 2020 Orders. These services included researching, drafting, and filing motions to stay the 2020 orders and related materials in proceedings before the SEC, as well as researching, drafting, and filing petitions for judicial review of the 2020 Orders in proceedings before the U.S. Court of Appeals for the D.C. Circuit. Covington oversaw ongoing litigation proceedings on these matters, and also supported WilmerHale with respect to settlement negotiations with the SEC staff regarding the 2020 Orders.

In addition to these services, CAT LLC engaged Covington in November 2021 to provide assistance with respect to the SEC's disapproval of CAT NMS Plan amendments concerning a proposed limitation on liability in the event of a data breach or similar event. Covington provided advice concerning CAT's response to the SEC's disapproval order. This work accounted for a minority of Covington's fees in 2021.⁶⁹

(VII) Consulting Costs

The consulting costs of \$1,408,209 represent the fees paid to Deloitte as project manager during FAM Period 3. CAT LLC continued to employ Deloitte during FAM Period 3 based on, among

other things, their expertise and long history with the project. The fee rates for Deloitte during FAM Period 3 were negotiated and in line with market rates for this type of specialized consulting work. The consulting fees during FAM Period 3 were paid to Deloitte by CAT LLC. CAT LLC reviewed the consulting fees each month and approved the invoices. During FAM Period 3, Deloitte's CAT-related activities included the following:

- Implemented program operations for the CAT project;
- Provided support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;
- Assisted with cost and funding matters for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;
- Provided support for updating the SEC on the progress of the development of the CAT; and
- Provided support for third-party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

(VIII) Insurance

The insurance costs of \$1,582,714 represent the fees paid for insurance during FAM Period 3. CAT LLC continued to maintain cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance offered by USI. After engaging in a process for renewing the coverage, CAT LLC determined to purchase these insurance policies from USI. The annual premiums for these policies were competitive for the coverage provided. The annual premiums were paid by CAT LLC to USI.

(IX) Professional and Administration Costs

The professional and administration costs of \$595,923 represent the fees paid to Anchin and Grant Thornton for financial services during FAM Period 3.

Financial Advisory Firm: Anchin. CAT LLC continued to employ Anchin during FAM Period 3 based on, among other things, their expertise and history with the project. The hourly fee rates for this firm were in line with market rates for these financial advisory services. The fees for these services during FAM Period 3 were paid by CAT LLC to Anchin. During FAM Period 3, Anchin provided a variety of services, including the following:

- Updated and maintained internal controls;
- Provided cash management and treasury functions;
- Facilitated bill payments;
- Provided monthly bookkeeping;
- Reviewed vendor invoices and documentation in support of cash disbursements;
- Provided accounting research and consultations on various accounting, financial reporting and tax matters;
- Addressed not-for-profit tax and accounting considerations;
- Prepared tax returns;
- Addressed various accounting, financial reporting and operating inquiries from Participants;
- Developed and maintained quarterly and annual operating and financial budgets, including budget to actual fluctuation analyses;
- Supported compliance with the CAT NMS Plan;
- Worked with and provided support to the Operating Committee and various CAT working groups;
- Prepared monthly, quarterly and annual financial statements;
- Supported the annual financial statement audits by an independent auditor;
- Reviewed historical costs from inception; and
- Provided accounting and financial information in support of SEC filings.

Accounting Firm: Grant Thornton. CAT LLC continued to employ the accounting firm Grant Thornton during FAM Period 3 based on, among other things, their expertise and cumulative knowledge of CAT LLC. CAT LLC determined that Grant Thornton was well qualified for its role and that its fixed fee rates were in line with market rates for these accountant services. The fees for these services during FAM Period 3 were paid by CAT LLC to Grant Thornton. During FAM Period 3, Grant Thornton provided audited financial statements for CAT LLC.

(X) Public Relations Costs

The public relations costs of \$92,400 represent the fees paid to Peak Strategies during FAM Period 3. CAT LLC continued to employ Peak Strategies during FAM Period 3 based on, among other things, their expertise and history with the project. The fee rates for this firm were in line with market rates for these types of services. The fees for these services during FAM Period 3 were paid by CAT LLC to Peak Strategies. During FAM Period 3, Peak Strategies continued to provide professional communications services to CAT, including media relations consulting, strategy and execution.

⁶⁷ Securities Exchange Act Rel. No. 93484 (Oct. 29, 2021), 86 FR 60933 (Nov. 4, 2021).

⁶⁸ See Securities Exchange Act Rel. No. 90688 (Dec. 16, 2020), 85 FR 83634 (Dec. 22, 2020); and Securities Exchange Act Rel. No. 90689 (Dec. 16, 2020), 85 FR 83667 (Dec. 22, 2020) (collectively, the "2020 Orders").

⁶⁹ As discussed above with regard to Pillsbury's work on liability matters, liability issues related to the CAT are important matters that needed to be resolved and clarified. CAT LLC's efforts to seek such resolution and clarity work to the benefit of Participants, Industry Members and other market participants. Moreover, such activity is a necessary part of the operation of the CAT.

Specifically, the public relations firm provided services related to communications with the public regarding the CAT, including monitoring developments related to the CAT (e.g., congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating communications to the public regarding such developments as well as reporting on developments related to the CAT (e.g., amendments to the CAT NMS Plan). As discussed above, such public relations services were important for various reasons, including monitoring comments made by market participants about the CAT and understanding issues related to the CAT discussed on the public record. By engaging a public relations firm, CAT LLC was better positioned to understand and address CAT matters to the benefit of all market participants.

(e) Excluded Costs

Historical CAT Costs 1 would not include three categories of CAT costs ("Excluded Costs"): (1) \$14,749,362 of costs related to the termination of the relationship with the Initial Plan Processor; (2) \$48,874,937, which are all CAT costs incurred from November 15, 2017 through November 15, 2018; and (3) \$19,628,791, which are costs paid to the Initial Plan Processor from November 16, 2018 through February 2019 when the relationship with the Initial Plan Processor was concluded. The Participants would remain responsible for 100% of these costs, which total \$83,253,090. CAT LLC determined to exclude these Excluded Costs from Historical CAT Costs 1 because these costs relate to the delay in the start of reporting to the CAT and the conclusion of the relationship with the Initial Plan Processor.⁷⁰

(I) Costs Related to Conclusion of Relationship With Initial Plan Processor

First, Historical CAT Costs 1 would not include \$14,749,362 of costs related

to the conclusion of the relationship with the Initial Plan Processor. Such costs include costs related to the American Arbitration Association, the legal assistance of Pillsbury with regard to the arbitration with the Initial Plan Processor, and the settlement costs related to the arbitration with the Initial Plan Processor. The Participants would remain responsible for 100% of these \$14,749,362 in costs.

(II) Costs Incurred From November 15, 2017 Through November 15, 2018

Second, Historical CAT Costs 1 would not include all CAT costs incurred from November 15, 2017 through November 15, 2018. CAT LLC determined to exclude all costs during this one-year period of \$48,874,937 from fees charged to Industry Members due to the delay in the start of reporting to the CAT. The Participants would remain responsible for 100% of these \$48,874,937 in costs. The following table breaks down these costs into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

Operating expense	Excluded costs for November 15, 2017–November 15, 2018*
Capitalized Developed Technology Costs	\$37,852,083
<i>Technology Costs:</i>	
Cloud Hosting Services	
Operating Fees	
CAIS Operating Fees	
Change Request Fees	
Legal	6,143,278
Consulting	4,452,106
Insurance	
Professional and administration	340,145
Public relations	87,325
Total Operating Expenses	48,874,937

*The costs described in this table of Excluded Costs were calculated based upon CAT LLC's review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website.

The following provides additional detail regarding the Excluded Costs.

(a) Technology Costs—Cloud Hosting Services, Operating Fees, CAIS Operating Fees and Change Request Fees

CAT LLC did not incur technology costs related to the categories of cloud hosting services, operating fees, CAIS operating fees or change requests during the period from November 15, 2017 through November 15, 2018.

(b) Technology Costs—Capitalized Developed Technology Costs

Capitalized developed technology costs for the period from November 15, 2017 through November 15, 2018 include capitalizable application development costs of \$37,852,083 incurred in the development of the CAT by the Initial Plan Processor. Such costs include development costs incurred during the application development stage to meet various agreed-upon milestones regarding the CAT, as defined in the agreement between CAT LLC and the Initial Plan Processor. Such costs include costs related to Industry

Member technical specifications for orders and transactions, the system security plan, testing and production for Participant CAT reporting, third-party security assessment and response, query portal, onboarding of the Chief Information Security Officer, and ingestion of FINRA TRF data and FINRA data related to halts and corporate actions.

(c) Legal Costs

The legal costs of \$6,143,278 represent the fees paid to WilmerHale for legal services from November 15, 2017 through November 15, 2018. During this period, WilmerHale

⁷⁰In approving the CAT Funding Model, the Commission states that "the proposed exclusion of the excluded costs from Past CAT Costs is appropriate in the Commission's view because it

would not require all costs incurred by the Participants to be recovered from Industry Members through the Historical CAT Assessment, specifically excluding those costs related to the delay in the

start of reporting to the CAT and costs related to the conclusion of the relationship with the Initial Plan Processor." CAT Funding Model Approval Order at 13450.

provided legal assistance to the CAT, including with regard to the following:

- Provided legal support for the governance of the CAT, including governance support for the Operating Committee, Advisory Committee, Compliance Subcommittee, and CAT working groups;
- Assisted with the development of the CAT funding model and drafted related amendments of the CAT NMS Plan;
- Provided assistance related to CAT security;
- Drafted exemptive requests, including requests related to PII;
- Assisted with the Implementation Plan required pursuant to Section 6.6(c)(i) of the CAT NMS Plan;
- Provided interpretations of and related to the CAT NMS Plan;
- Provided advice with regard to regulator access to the CAT;
- Assisted with the Plan Processor transition;
- Provided assistance regarding communications with the industry regarding the CAT;
- Provided advice regarding Customer Account Information and PII;
- Provided support for litigation related to SEC exemptive orders; and
- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretative and implementation issues.

(d) Consulting Costs

The consulting costs of \$4,452,106 represent the fees paid to Deloitte for their role as project manager for the CAT from November 15, 2017 through November 15, 2018. During this period, Deloitte engaged in the following activities with respect to the CAT:

- Implemented program operations for the CAT project;
- Provided governance support to the Operating Committee, including support for Subcommittees and working groups of the Operating Committee (e.g., Compliance Subcommittee, Cost and Funding Working Group, Technical Working Group, Industry Outreach Working Group, Security Working Group and Steering Committee);
- Assisted with cost and funding issues for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;
- Provided support for updating the SEC on the progress of the development of the CAT; and
- Provided active planning and coordination with and support for the Initial Plan Processor with regard to the development of the CAT, and reported to the Participants on the progress.

(e) Insurance

CAT LLC did not incur costs related to insurance during the period from November 15, 2017 through November 15, 2018.

(f) Professional and Administration Costs

The professional and administration costs of \$340,145 represent the fees paid to Anchin, Exegy and RSM from November 15, 2017 through November 15, 2018.

Financial Advisory Firm: Anchin.

From the commencement of its engagement in April 2018 through November 15, 2018, Anchin engaged in the following activities with respect to the CAT:

- Developed, updated and maintained internal controls;
- Provided cash management and treasury functions;
- Facilitated bill payments;
- Provided monthly bookkeeping;
- Reviewed vendor invoices and documentation in support of cash disbursements;
- Provided accounting research and consultations on various accounting, financial reporting and tax matters;
- Addressed not-for-profit tax and accounting considerations;
- Prepared tax returns;
- Addressed various accounting, financial reporting and operating inquiries from Participants;
- Developed and maintained quarterly and annual operating and financial budgets, including budget to actual fluctuation analyses;
- Addressed accounting and financial matters relating to the transition from CAT NMS, LLC to Consolidated Audit Trail, LLC, including supporting the dissolution of CAT NMS, LLC;
- Supported compliance with the CAT NMS Plan;
- Worked with and provided support to the Operating Committee and various CAT working groups;
- Prepared monthly, quarterly and annual financial statements;
- Supported the annual financial statement audits by an independent auditor;
- Reviewed historical costs from inception; and
- Provided accounting and financial information in support of SEC filings.

Market Data Provider: Exegy. From July 2018 through November 15, 2018, CAT LLC purchased market data from Exegy (as described in more detail above).

Security Assessment: RSM. From October 2018 through November 15, 2018, CAT LLC incurred costs for RSM's

performance of a security assessment (as described in more detail above).

(g) Public Relations Costs

The public relations costs of \$87,325 represent the fees paid to Sloane from November 15, 2017 through November 15, 2018. From the commencement of its engagement in March 2018 through November 15, 2018, Sloane provided professional communications services to CAT, including media relations consulting, strategy and execution. Specifically, Sloane provided services related to communications with the public regarding the CAT, including monitoring developments related to the CAT (e.g., congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating communications to the public regarding such developments as well as reporting on developments related to the CAT (e.g., amendments to the CAT NMS Plan).

(III) Costs Paid to Initial Plan Processor From November 16, 2018 Through February 2019

Third, Historical CAT Costs 1 would not include the \$19,628,791 in costs paid to the Initial Plan Processor from November 16, 2018 through February 2019 when CAT LLC's relationship with the Initial Plan Processor concluded. CAT LLC determined that Historical CAT Costs 1 would not include any fees paid to the Initial Plan Processor after November 15, 2017,⁷¹ which was the date by which Participants were required to begin reporting to the CAT.⁷² As discussed above, the Participants determined that Historical CAT Costs 1 would not include all CAT costs incurred from November 15, 2017 through November 15, 2018, which includes \$37,852,083 in Initial Plan Processor costs incurred from November 15, 2017 through November 15, 2018 (as well as other CAT costs during this period). The remaining Initial Plan Processor costs incurred after November 15, 2018 are the \$19,628,791 in costs for the period from November 16, 2018 through February 2019 incurred in the development of the CAT by the Initial Plan Processor, as well as a transition

⁷¹ As discussed below, CAT LLC believes that it is appropriate to recover costs related to the services performed by the Initial Plan Processor prior to November 15, 2017. See Section 3(a)(10)(E) below.

⁷² The SEC approved the CAT NMS Plan on November 15, 2016, and Participant reporting was required to begin on the first anniversary of this date, November 15, 2017. See Section 6.3 of the CAT NMS Plan and CAT NMS Plan Approval Order.

fee for the transition from the Initial Plan Processor to the successor Plan Processor. The Participants would remain responsible for 100% of these \$19,628,791 in costs.

(ii) Previously Invoiced Costs for Historical CAT Costs 1

CEBBs and CEBs collectively have been invoiced for \$173,075,024 of the \$212,039,879.34 of Historical CAT Costs 1 via Historical CAT Assessment 1, where \$86,537,512 was invoiced collectively to CEBBs and \$86,537,512 was invoiced collectively to CEBs. Accordingly, Historical CAT Assessment 1A would seek to recover the remaining \$38,964,855.34 of Historical CAT Costs 1 collectively from CEBBs and CEBs, where CEBBs collectively will be responsible for \$19,482,427.67, and CEBs collectively will be responsible for \$19,482,427.67.

(C) Historical Recovery Period 1A

Under the CAT NMS Plan, the Operating Committee is required to reasonably establish the length of the Historical Recovery Period used in calculating each Historical Fee Rate based upon the amount of the Historical CAT Costs to be recovered by the Historical CAT Assessment, and to describe the reasons for its length.⁷³ The Historical Recovery Period used in calculating the Historical Fee Rate may not be less than 24 months or more than five years.⁷⁴ The Operating Committee has determined to establish a Historical Recovery Period 1A of 24 months for Historical CAT Assessment 1A.

The Operating Committee determined that the length of Historical Recovery Period 1A appropriately weighs the need for a reasonable Historical Fee Rate 1A that spreads the Historical CAT Costs over an appropriate amount of time and the need to repay the loans to the Participants in a timely fashion. The Operating Committee determined that 24 months for Historical Recovery Period 1A would establish a fee rate that is lower than other transaction-based fees, including fees assessed pursuant to Section 31.⁷⁵ In addition, in establishing a Historical Recovery Period of 24

months, the Operating Committee recognized that the total costs for Historical CAT Assessment 1A were less than the total costs for 2022 and 2023,⁷⁶ and therefore it would be reasonable and appropriate to recover costs subject to this filing over an approximate two-year period.⁷⁷

The length of the Historical Recovery Period 1A and the reasons for its length are provided in this filing in accordance with the requirement in the CAT NMS Plan to provide such information in a fee filing for a Historical CAT Assessment.⁷⁸

(D) Projected Total Executed Equivalent Share Volume

The calculation of the fee rate for Historical CAT Assessment 1A also requires the determination of the projected total executed equivalent share volume of transactions in Eligible Securities for Historical Recovery Period 1A. Under the CAT NMS Plan, the Operating Committee is required to “reasonably determine the projected total executed equivalent share volume of all transactions in Eligible Securities for each Historical Recovery Period based on the executed equivalent share volume of all transactions in Eligible Securities for the prior twelve months.”⁷⁹ The Operating Committee is required to base its projection on the prior twelve months, but it may use its discretion to analyze the likely volume for the upcoming year. Such discretion would allow the Operating Committee to use its judgment when estimating projected total executed equivalent share volume if the volume over the prior twelve months was unusual or otherwise unfit to serve as the basis of a future volume estimate.⁸⁰

The total executed equivalent share volume of transactions in Eligible Securities for the 12-month period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. The Operating Committee has determined to calculate the projected total executed equivalent share volume for the 24 months of Historical Recovery Period 1A by doubling the executed equivalent share volume for the prior 12 months. The Operating Committee determined that

such an approach was reasonable as the CAT's annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.4), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level. Accordingly, the projected total executed equivalent share volume for Historical Recovery Period 1A is projected to be 11,961,875,098,720.98 executed equivalent shares.⁸¹

The projected total executed equivalent share volume of all transactions in Eligible Securities for Historical Recovery Period 1A and a description of the calculation of the projection is provided in this filing in accordance with the requirement in the CAT NMS Plan to provide such information in a fee filing for a Historical CAT Assessment.⁸²

(E) Fee Rate for Historical CAT Assessment 1A

The fee rate for Historical CAT Assessment 1A would be calculated by dividing the total amount of costs to be recovered by Historical CAT Assessment 1A by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for Historical Recovery Period 1A, and dividing by 2. Specifically, the fee rate for Historical CAT Assessment 1A would be calculated by dividing \$38,964,855.34 by 11,961,875,098,720.98, and then dividing by 2, which equals \$0.00000162871017371542 per executed equivalent shares. Rounding this to six decimal places results in a fee rate of \$0.000002 per executed equivalent share.⁸³ This fee rate is provided in this filing in accordance with the requirement in the CAT NMS Plan to provide the Historical Fee Rate in a fee filing for a Historical CAT Assessment.⁸⁴

⁸¹ This projection was calculated by multiplying 5,980,937,549,360.49 executed equivalent shares by two.

⁸² Section 11.3(b)(iii)(B)(II)(D) of the CAT NMS Plan.

⁸³ As the SEC noted in approving the CAT Funding Model, the fee filing would provide the exact fee per executed equivalent share and describe the relevant number of decimal places for the fee rate. CAT Funding Model Approval Order at 13445, n.677. The Operating Committee determined to use six decimal places to balance the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.

⁸⁴ Section 11.3(b)(iii)(B)(II)(A) of the CAT NMS Plan.

⁷³ Section 11.3(b)(i)(D)(I) and Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

⁷⁴ Section 11.3(b)(i)(D)(I) of the CAT NMS Plan. In the CAT Funding Model Approval Order, the SEC stated that “[i]n the Commission’s view, it is appropriate for the Operating Committee to establish the length of the Historical Recovery Period to be no less than 24 months and no more than five years.” CAT Funding Model Approval Order at 13451.

⁷⁵ For example, as the SEC noted in the CAT Funding Model Approval Order, recent Section 31 fees ranged from \$0.00007 per share to \$0.00072 per share. CAT Funding Model at 13469.

⁷⁶ The total CAT costs for 2022 were approximately \$186 million and the total CAT costs for 2023 were approximately \$233 million.

⁷⁷ Note that the proposed 24-month recovery period also recognizes the prohibition on the collection of Historical CAT Assessments after March 31, 2028 as set forth in Section 11.3(f) of the CAT NMS Plan.

⁷⁸ Section 11.3(b)(iii)(B)(II)(C) of the CAT NMS Plan.

⁷⁹ Section 11.3(b)(i)(E) of the CAT NMS Plan.

⁸⁰ CAT Funding Model Approval Order at 13452.

(3) Past CAT Costs and Participants

Participants would not be required to pay any fees associated with Historical CAT Assessment 1A as the Participants previously have paid all Past CAT Costs. The CAT NMS Plan explains that:

Because Participants previously have paid Past CAT Costs via loans to the Company, Participants would not be required to pay any Historical CAT Assessment. In lieu of a Historical CAT Assessment, the Participants' one-third share of Historical CAT Costs and such other additional Past CAT Costs as reasonably determined by the Operating Committee will be paid by the cancellation of loans made to the Company on a pro rata basis based on the outstanding loan amounts due under the loans.⁸⁵

The CAT NMS Plan further states that "Historical CAT Assessments are designed to recover two-thirds of the Historical CAT Costs."⁸⁶

(4) Monthly Fees

CEBBs and CEBSs would be required to pay fees for Historical CAT Assessment 1A on a monthly basis for the period in which Historical CAT Assessment 1A is in effect.⁸⁷ A CEBB or CEBS's fee for each month would be calculated based on the transactions in Eligible Securities executed by the CEBB or CEBS from the prior month.⁸⁸ Proposed paragraph (a)(2)(A) of the Consolidated Audit Trail Funding Fees section of the fee schedule would state that each CAT Executing Broker would receive its first invoice in June 2026, and "would receive an invoice each month thereafter in which Historical CAT Assessment 1A is in effect." Proposed paragraph (a)(2)(B) of the Consolidated Audit Trail Funding Fees section of the fee schedule would state that "Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for Historical CAT Assessment 1A on a monthly basis." In addition, paragraph (b)(1) of the Consolidated Audit Trail Funding Fees section of the fee schedule states that each CEBB and CEBS is required to pay its CAT fees "each month."

(5) Actual Recovery Period for Historical CAT Assessment 1A

The CAT NMS Plan states that, "[n]otwithstanding the length of the Historical Recovery Period used in calculating the Historical Fee Rate, each Historical CAT Assessment calculated using the Historical Fee Rate will remain in effect until all Historical CAT Costs for the Historical CAT Assessment are collected."⁸⁹ Accordingly, Historical CAT Assessment 1A will remain in effect until the remaining \$38,964,855.34 of Historical CAT Costs 1 have been collected.⁹⁰ The actual recovery period for Historical CAT Assessment 1A may be shorter or longer than Historical Recovery Period 1A depending on the actual executed equivalent share volumes during the time that Historical CAT Assessment 1A is in effect and subject to any time limitation in the CAT NMS Plan.⁹¹

(6) Consolidated Audit Trail Funding Fees

To implement Historical CAT Assessment 1A, a new section would be added to the Exchange's fee schedule for "Consolidated Audit Trail Funding Fees", and it would include the proposed paragraphs described below.

(A) Fee Schedule for Historical CAT Assessment 1A

The CAT NMS Plan states that: Each month in which a Historical CAT Assessment is in effect, each CEBB and each CEBS shall pay a fee for each transaction in Eligible Securities executed by the CEBB or CEBS from the prior month as set forth in CAT Data, where the Historical CAT Assessment for each transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Historical Fee Rate reasonably determined pursuant to paragraph (b)(i) of this Section 11.3.⁹²

Accordingly, based on the factors discussed above, the Exchange proposes to add paragraph (a)(2) to the Consolidated Audit Trail Funding Fees section of its fee schedule. Proposed paragraph (a)(2) would state the following:

(A) Each CAT Executing Broker shall receive its first invoice for Historical

CAT Assessment 1A in June 2026, which shall set forth the Historical CAT Assessment 1A fees calculated based on transactions in May 2026, and shall receive an invoice for Historical CAT Assessment 1A for each month thereafter in which Historical CAT Assessment 1A is in effect.

(B) Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for Historical CAT Assessment 1A on a monthly basis. Each month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer ("CEBB") and/or the CAT Executing Broker for the Seller ("CEBS") (as applicable) from the prior month as set forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000002 per executed equivalent share.

(C) Historical CAT Assessment 1A will remain in effect until \$38,964,855.34 is collected from CAT Executing Brokers collectively, which is estimated to be approximately two years, but could be for a longer or shorter period of time. Consolidated Audit Trail, LLC will provide notice when Historical CAT Assessment 1A will no longer be in effect.

(D) Each CAT Executing Broker shall be required to pay each invoice for Historical CAT Assessment 1A in accordance with paragraph (b).

Proposed paragraph (a)(2)(B) of the Consolidated Audit Trail Funding Fees section of the fee schedule would set forth the fee rate of \$0.000002 per executed equivalent share for Historical CAT Assessment 1A, which is calculated as discussed above.

The proposed language in paragraph (a)(2)(B) of the Consolidated Audit Trail Funding Fees section of the fee schedule would describe when CAT Executing Brokers would receive their first monthly invoice for Historical CAT Assessment 1A. Specifically, CAT Executing Brokers would receive their first monthly invoice for Historical CAT Assessment 1A in June 2026 and the fees set forth in that invoice would be calculated based on transactions executed in the prior month, that is, transactions executed in May 2026. The payment for the first invoice would be required within 30 days after the receipt of the first invoice (unless a longer period is indicated), as described in paragraph (b)(2) of the Consolidated Audit Trail Funding Fees section of the fee schedule.

⁸⁵ Section 11.3(b)(ii) of the CAT NMS Plan.

⁸⁶ *Id.* In approving the CAT Funding Model, the Commission stated that the proposed allocation of the Historical CAT Assessment solely to CEBSs and CEBBs is appropriate. The Historical CAT Assessment will still be divided into thirds, as the Participants' one-third share of Historical CAT Costs will be paid by the cancellation of loans made to the Company. CAT Funding Model Approval Order at 13453.

⁸⁷ See Section 11.3(b)(iii)(A) of the CAT NMS Plan.

⁸⁸ See proposed paragraph (a)(2)(B) of the fee schedule.

⁸⁹ Section 11.3(b)(i)(D)(II) of the CAT NMS Plan.

⁹⁰ In approving the CAT Funding Model, the Commission stated that, "[i]n the Commission's view, it is appropriate for Industry Members to be charged a Historical CAT Assessment until all Historical CAT Costs for the Historical CAT Assessment are collected." CAT Funding Model Approval Order at 13452.

⁹¹ Section 11.3(f) of the CAT NMS Plan would prohibit the billing of Historical CAT Assessments after March 31, 2028.

⁹² Section 11.3(b)(iii)(A) of the CAT NMS Plan.

Proposed paragraph (a)(2)(A) of the Consolidated Audit Trail Funding Fees section of the fee schedule also would describe the monthly cadence of the invoices for Historical CAT Assessment 1A. Specifically, after the first invoices are provided to CAT Executing Brokers in June 2026, invoices will be sent to CAT Executing Brokers each month thereafter while Historical CAT Assessment 1A is in effect.

Proposed paragraph (a)(2)(B) of the Consolidated Audit Trail Funding Fees section of the fee schedule would describe the invoices for Historical CAT Assessment 1A. Proposed paragraph (a)(2)(B) would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for Historical CAT Assessment 1A on a monthly basis.” Proposed paragraph (a)(2)(B) also would describe the fees to be set forth in the invoices for Historical CAT Assessment 1A. Specifically, it would state that “[e]ach month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (“CEBB”) and/or the CAT Executing Broker for the Seller (“CEBS”) (as applicable) from the prior month as set forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000002 per executed equivalent share.”

Furthermore, proposed paragraph (a)(2)(C) of the Consolidated Audit Trail Funding Fees section of the fee schedule would describe how long Historical CAT Assessment 1A would remain in effect. It would state that “Historical CAT Assessment 1A will remain in effect until \$38,964,855.34 is collected from CAT Executing Brokers collectively, which is estimated to be approximately two years, but could be for a longer or shorter period of time.” This proposed paragraph would further state that “Consolidated Audit Trail, LLC will provide notice when Historical CAT Assessment 1A will no longer be in effect.”

Historical CAT Assessment 1A will be assessed for all transactions executed in each month through the end of the month in which \$38,964,855.34 is assessed, and then CAT LLC will provide notice that Historical CAT Assessment 1A is no longer in effect. Since Historical CAT Assessment 1A is a monthly fee based on transaction volume from the prior month, Historical CAT Assessment 1A may collect more than \$38,964,855.34. To the extent that occurs, any excess money collected during the final month in which

Historical CAT Assessment 1A is in effect will be used to offset future fees and/or to fund the reserve for the CAT.

Finally, proposed paragraph (a)(2)(D) of the Consolidated Audit Trail Funding Fees section of the fee schedule sets forth the requirement for the CAT Executing Brokers to pay the invoices for Historical CAT Assessment 1A. It would state that “[e]ach CAT Executing Broker shall be required to pay each invoice for Historical CAT Assessment 1A in accordance with paragraph (b).”

(B) Manner of Payment

Paragraph (b)(1) of the “Consolidated Audit Trail Funding Fees” section of its fee schedule describes the manner of payment of Industry Member CAT fees. Paragraph (b)(1) states that “[e]ach CAT Executing Broker shall pay its CAT fees as required pursuant to paragraph (a) each month to the Consolidated Audit Trail, LLC in the manner prescribed by the Consolidated Audit Trail, LLC.” The CAT NMS Plan requires the Operating Committee to establish a system for the collection of CAT fees.⁹³ The Plan Processor has established a billing system for CAT fees.⁹⁴ Therefore, the Exchange proposes to require CAT Executing Brokers to pay Historical CAT Assessment 1A in accordance with such system.

(C) Failure To Pay CAT Fees

The CAT NMS Plan further states that:

Participants shall require each Industry Member to pay all applicable fees authorized under this Article XI within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If an Industry Member fails to pay any such fee when due (as determined in accordance with the preceding sentence), such Industry Member shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of: (a) the Prime Rate plus 300 basis points; or (b) the maximum rate permitted by applicable law.⁹⁵

Accordingly, the Exchange previously has added this requirement to the Exchange’s fee schedule. Specifically, paragraph (b)(2) of the Consolidated

Audit Trail Funding Fees section of the fee schedule states:

Each CAT Executing Broker shall pay the CAT fees required pursuant to paragraph (a) within thirty days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If a CAT Executing Broker fails to pay any such CAT fee when due, such CAT Executing Broker shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of (i) the Prime Rate plus 300 basis points, or (ii) the maximum rate permitted by applicable law.

The requirements of paragraph (b)(2) would apply to Historical CAT Assessment 1A.

(7) Historical CAT Assessment Details

The CAT NMS Plan states that:

Details regarding the calculation of a CAT Executing Broker’s Historical CAT Assessment will be provided upon request to such CAT Executing Broker. At a minimum, such details would include each CAT Executing Broker’s executed equivalent share volume and corresponding fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.⁹⁶

Such information would provide CEBBs and CEBSSs with the ability to understand the details regarding the calculation of their Historical CAT Assessment.⁹⁷ CAT LLC will provide CAT Executing Brokers with these details regarding the calculation of their Historical CAT Assessments on their monthly invoice for the Historical CAT Assessment.

In addition, CAT LLC will make certain aggregate statistics regarding Historical CAT Assessments publicly available. Specifically, the CAT NMS Plan states that, “[f]or each Historical CAT Assessment, at a minimum, CAT LLC will make publicly available the aggregate executed equivalent share volume and corresponding aggregate fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise on

⁹³ Section 11.4 of the CAT NMS Plan.

⁹⁴ The billing process and system are described in CAT Alert 2023–02 as well as the CAT FAQs related to the billing of CAT fees, the Industry Member CAT Reporter Portal User Guide, the FCAT Industry Member Onboarding Guide, the FCAT Connectivity Supplement for Industry Members and the CAT Billing Webinars (dated Sept. 28, 2023, and Nov. 7, 2023), each available on the CAT website.

⁹⁵ Section 11.4 of the CAT NMS Plan.

⁹⁶ Section 11.3(a)(iv)(A) of the CAT NMS Plan.

⁹⁷ In approving the CAT Funding Model, the Commission stated that, “[i]n the Commission’s view, providing CAT Execut[ing] Brokers information regarding the calculation of their CAT Fees will aid in transparency and permit CAT Execut[ing] Brokers to confirm the accuracy of their invoices for CAT Fees.” CAT Funding Model Approval Order at 13454.

an exchange, and (3) by buy-side transactions and sell-side transactions.”⁹⁸ Such aggregate statistics will be available on the CAT website.

Furthermore, CAT LLC will make publicly available on the CAT website the total amount invoiced each month that Historical CAT Assessment 1A is in effect as well as the total amount invoiced for Historical CAT Assessment 1A for all months since its commencement. CAT LLC also will make publicly available on the CAT website the total costs to be collected from Industry Members for Historical CAT Assessment 1A. By reviewing statistics regarding how much has been invoiced and how much remains to be invoiced for Historical CAT Assessment 1A, Industry Members would have sufficient information to reasonably track how much longer Historical CAT Assessment 1A is likely to be in place.

(8) Billing Implementation

To date, CAT LLC, via FCAT, has billed Industry Members for Historical CAT Assessment 1 and certain Prospective CAT Fees. Industry Members will be billed for Historical CAT Assessment 1A via the same processes established for Historical CAT Assessment 1 and the Prospective CAT Fees. Accordingly, Industry Members have substantial experience with the CAT billing processes.

(9) Financial Accountability Milestones

The CAT NMS Plan states that “[n]o Participant will make a filing with the SEC pursuant to Section 19(b) of the Exchange Act regarding any Historical CAT Assessment until any applicable Financial Accountability Milestone described in Section 11.6 has been satisfied.”⁹⁹ The CAT NMS Plan further states that “in all filings submitted by the Participants to the Commission under Section 19(b) of the Exchange Act, to establish or implement Post-Amendment Industry Member Fees pursuant to this Article, . . . the Participants shall clearly indicate whether such fees are related to Post-Amendment Expenses incurred during Period 1, Period 2, Period 3, or Period 4.”¹⁰⁰ As discussed in detail below, all applicable Financial Accountability

Milestones for Historical CAT Assessment 1A—that is, Period 1, Period 2 and Period 3 of the Financial Accountability Milestones—have been satisfied. Furthermore, as discussed below, this filing clearly indicates that Historical CAT Assessment 1A relates to Post-Amendment Expenses incurred during Periods 1, 2 and 3 of the Financial Accountability Milestones.

(A) Period 1 of the Financial Accountability Milestones

In accordance with Section 11.6(b) of the CAT NMS Plan, Historical CAT Assessment 1A seeks to recover costs that are related to “all fees, costs, and expenses (including legal and consulting fees, costs, and expenses) incurred by or for the Company in connection with the development, implementation and operation of the CAT from the effective date of [Section 11.6 of the CAT NMS Plan] until such time as Full Implementation of CAT NMS Plan Requirements has been achieved”¹⁰¹ (“Post-Amendment Expenses”) incurred during FAM Period 1. FAM Period 1 began on June 22, 2020, the effective date of Section 11.6 of the CAT NMS Plan, and concluded on July 31, 2020, the date of Initial Industry Member Core Equity and Options Reporting. Section 1.1 of the CAT NMS Plan defines “Initial Industry Member Core Equity and Options Reporting” as:

The reporting by Industry Members (excluding Small Industry Members that are not OATS reporters) of both: (a) equities transaction data, excluding Customer Account Information, Customer-ID, and Customer Identifying Information; and (b) options transaction data, excluding Customer Account Information, Customer-ID and Customer Identifying Information.

Under Section 1.1 of the CAT NMS Plan, this Financial Accountability Milestone is considered complete as of the date identified in the Participants’ Quarterly Progress Reports.¹⁰² As indicated by the Participants’ Quarterly Progress Report for the third quarter of 2020,¹⁰³ Initial Industry Member Core Equity and Option Reporting was completed on schedule on July 22, 2020, which is prior to the July 31, 2020 deadline.

Under the FAM Period 1 requirement of Initial Industry Member Core Equity and Options Reporting, Industry

Members—excluding Small Industry Members that are not OATS reporters—were required to report two categories of data to the CAT: equities transaction data and options transaction data (both excluding Customer Account Information, Customer-ID, and Customer Identifying Information) by July 31, 2020. Pursuant to exemptive relief provided by the Commission, the Commission authorized the Participants’ Compliance Rules to allow core equity reporting for Industry Members (Phase 2a) to begin on June 22, 2020 and core options reporting for Industry Members (Phase 2b) to begin on July 20, 2020.¹⁰⁴

In adopting the FAMs, the Commission stated that the equities transaction reporting required for FAM Period 1 “is consistent with the functionality that the Participants describe on the CAT NMS Plan website as ‘Production Go-Live for Equities 2a file submission and data integrity validations.’”¹⁰⁵ The Phase 2a Industry Member Data is described in detail in the SEC’s Phased Reporting Exemptive Relief Order, and includes the following data related to Eligible Securities that are equities:

- All events and scenarios covered by OATS, which includes information related to the receipt or origination of orders, order transmittal, and order modifications, cancellations and executions;
- Reportable Events for: (1) proprietary orders, including market maker orders, for Eligible Securities that are equities; (2) electronic quotes in listed equity Eligible Securities (*i.e.*, NMS stocks) sent to a national securities exchange or FINRA’s Alternative Display Facility (“ADF”); (3) electronic quotes in unlisted Eligible Securities (*i.e.*, OTC Equity Securities) received by an Industry Member operating an interdealer quotation system (“IDQS”); and (4) electronic quotes in unlisted Eligible Securities sent to an IDQS or

⁹⁸ Section 11.3(a)(iv)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission stated that “[t]he publication of the aggregate executed equivalent share volume and aggregate fee is appropriate because it would allow Participants and CAT Executing Brokers a high-level validation of executed volume and fees.” CAT Funding Model Approval Order at 13454.

⁹⁹ Section 11.3(b)(iii)(B)(III) of the CAT NMS Plan.

¹⁰⁰ Section 11.6(b) of the CAT NMS Plan.

¹⁰¹ Section 11.6 of the CAT NMS Plan.

¹⁰² The Quarterly Progress Reports are available at <https://www.catnmsplan.com/implementation-plan>.

¹⁰³ See Q3 2020 Quarterly Progress Report (Oct. 30, 2020) and Updated Q3 2020 Quarterly Progress Report (Jan. 29, 2021).

¹⁰⁴ See Phased Reporting Exemptive Relief Order. Under the CAT NMS Plan as adopted, the Participants were required, through their Compliance Rules, to require their Large Industry Members to commence reporting Industry Member Data to the Central Repository by November 15, 2018, and to require their Small Industry Members to commence reporting Industry Member Data to the Central Repository by November 15, 2019. Sections 6.7(a)(v) and (vi) of the CAT NMS Plan. The SEC granted exemptive relief from these provisions of the CAT NMS Plan to allow for the phased implementation of Industry Member reporting via five phases addressing the reporting requirements for Phase 2a Industry Member Data, Phase 2b Industry Member Data, Phase 2c Industry Member Data, Phase 2d Industry Member Data and Phase 2e Industry Member Data.

¹⁰⁵ Securities Exchange Act Rel. No. 88890 (May 15, 2020), 85 FR 31322, 31330 n.97 (May 22, 2020) (“FAM Adopting Release”).

other quotation system not operated by a Participant or Industry Member;

- Firm Designated IDs (“FDIDs”), which Industry Members must report to the CAT as required by Sections 6.3(d)(i)(A) and 6.4(d)(ii)(C) of the CAT NMS Plan;

- Industry Members would be required to report all street side representative orders, including both agency and proprietary orders and mark such orders as representative orders, except in certain limited exceptions as described in the Industry Member Technical Specifications;

- The link between the street side representative order and the order being represented when: (1) the representative order was originated specifically to represent a single order received either from a customer or another broker-dealer; and (2) there is (a) an existing direct electronic link in the Industry Member’s system between the order being represented and the representative order and (b) any resulting executions are immediately and automatically applied to the represented order in the Industry Member’s system;

- Manual and Electronic Capture Time for Manual Order Events;

- Special handling instructions for the original receipt or origination of an order during Phase 2a; and

- When routing an order, whether the order was routed as an intermarket sweep order (“ISO”).

In Phase 2a, Industry Members were not required to report modifications of a previously routed order in certain limited instances, nor were they required to report a cancellation of an order received from a Customer after the order has been executed.¹⁰⁶

The Quarterly Progress Report for the third quarter of 2020 states that “Interim Step: Production Go-Live for Equities 2a file submission and data integrity validation (Large Industry Members and Small OATS Reporters)” was completed on June 22, 2020. Accordingly, the FAM Period 1 requirement of reporting by Industry Members (excluding Small Industry Members that are not OATS reporters) of “equities transaction data, excluding Customer Account Information, Customer-ID, and Customer Identifying Information” was completed on June 22, 2020.

In adopting the FAMs, the Commission stated that the options transaction reporting required for FAM Period 1 is “consistent with the functionality that the Participants describe on the CAT NMS Plan website as ‘Production Go-Live for Options 2b

file submission and data integrity validations.’”¹⁰⁷ The Phase 2b Industry Member Data is described in detail in the SEC’s Phased Reporting Exemptive Relief Order, and includes the Industry Member Data related to Eligible Securities that are options and related to simple electronic option orders, excluding electronic paired option orders. A simple electronic option order is an order to buy or sell a single option that is not related to or dependent on any other transaction for pricing and timing of execution that is either received or routed electronically by an Industry Member.

Electronic receipt of an order is defined as the initial receipt of an order by an Industry Member in electronic form in standard format directly into an order handling or execution system. Electronic routing of an order is the routing of an order via electronic medium in standard format from one Industry Member’s order handling or execution system to an exchange or another Industry Member. An electronic paired option order is an electronic option order that contains both the buy and sell side that is routed to another Industry Member or exchange for crossing and/or price improvement as a single transaction on an exchange. Responses to auctions of simple orders and paired simple orders would be reportable in Phase 2b. Furthermore, combined orders in options would be treated in Phase 2b in the same way as equity representative orders are treated in Phase 2a. A combined order would mean, as permitted by SRO rules, a single, simple order in Listed Options created by combining individual, simple orders in Listed Options from a customer with the same exchange origin code before routing to an exchange. During Phase 2b, the single combined order sent to an exchange must be reported and marked as a combined order, but the linkage to the underlying orders is not required to be reported until Phase 2d.¹⁰⁸

The Quarterly Progress Report for the third quarter of 2020 states that “Interim Step: Production Go-Live for Options 2b file submission and data integrity validations” was completed on July 20, 2020. Accordingly, the FAM Period 1 requirement of reporting by Industry Members (excluding Small Industry Members that are not OATS reporters) of “options transaction data, excluding Customer Account Information, Customer-ID and Customer Identifying

Information” was completed on July 20, 2020.

As discussed above, the remaining Historical CAT Costs 1 to be recovered via Historical CAT Assessment 1A would include fees, costs and expenses incurred by or for the Company in connection with the development, implementation and operation of the CAT during the period from June 22, 2020 through July 31, 2020. The total costs for this period, as discussed above, are \$6,377,343. Participants would remain responsible for one-third of this cost (which they have previously paid), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$2,125,781) and CEBBs paying one-third (\$2,125,781) through Historical CAT Assessment 1 and Historical CAT Assessment 1A.

(B) Period 2 of the Financial Accountability Milestones

Historical CAT Assessment 1A seeks to recover costs that are related to Post-Amendment Expenses incurred during FAM Period 2. FAM Period 2 began on August 1, 2020, and concluded on December 31, 2020, the date of the Full Implementation of Core Equity Reporting. Section 1.1 of the CAT NMS Plan defines “Full Implementation of Core Equity Reporting” as:

the point at which: (a) Industry Member reporting (excluding reporting by Small Industry Members that are not OATS reporters) for equities transactions, excluding Customer Account Information, Customer-ID, and Customer Identifying Information, is developed, tested, and implemented at a 5% Error Rate or less and with sufficient intra-firm linkage, inter-firm linkage, national securities exchange linkage, and trade reporting facilities linkage to permit the Participants and the Commission to analyze the full lifecycle of an order across the national market system, excluding linkage of representative orders, from order origination through order execution or order cancellation; and (b) the query tool functionality required by Section 6.10(c)(i)(A) and Appendix D, Sections 8.1.1–8.1.3 and Section 8.2.1 incorporates the Industry Member equities transaction data described in condition (a) and is available to the Participants and to the Commission. This Financial Accountability Milestone shall be considered complete as of the date identified in a Quarterly Progress Report meeting the requirements of Section 6.6(c).

Under Section 1.1 of the CAT NMS Plan, this Financial Accountability Milestone is considered complete as of

¹⁰⁶ Phased Reporting Exemptive Relief Order at 23076–78.

¹⁰⁷ FAM Adopting Release at 31330, n.98.

¹⁰⁸ Phased Reporting Exemptive Relief Order at 23078.

the date identified in the Participants' Quarterly Progress Reports. As indicated by the Participants' Quarterly Progress Report for the fourth quarter of 2020,¹⁰⁹ Full Implementation of Core Equity Reporting was completed on schedule by December 31, 2020.

Specifically, the Full Implementation of Core Equity Reporting requires the satisfaction of two prongs. The first prong requires Participants to have fully implemented the first phase of equities transaction reporting for Industry Members (excluding Small Industry Members that are not OATS reporters) at an Error Rate of less than 5%. In addition, equities transaction data produced by the CAT at this stage must also be sufficiently interlinked so as to permit full analysis of an order's lifecycle across the national market, excluding full linkage of representative orders. As CAT LLC reported on its Quarterly Progress Reports, Phase 2a was fully implemented as of October 26, 2020, including intra-firm, inter-firm, national securities exchange, and trade reporting facilities linkages.¹¹⁰ In addition to the reporting of Phase 2a Industry Member Data as described above with regard to FAM Period 1, the following linkage data was added to the CAT as described in the Quarterly Progress Reports for the third and fourth quarter of 2020:

- "Production Go-Live for Equities 2a Intrafirm Linkage validations" was completed on 7/27/2020;¹¹¹
- "Production Go-Live for Firm to Firm Linkage validations for Equities 2a (Large Industry Members and Small OATS Reporters)" was completed on October 26, 2020; and
- "Production Go-Live for Equities 2a Exchange and TRF Linkage validations (Large Industry Members and Small OATS Reporters)" was completed on October 26, 2020.

Furthermore, as CAT LLC reported on its Quarterly Progress Report for the fourth quarter of 2020, the average overall error rate for Phase 2a Industry Member Data was less than 5% as of December 31, 2020. The average overall error rate was calculated by dividing the compliance errors by processed records.

The second prong of this FAM requires that the equities transaction data collected by the CAT at this stage be made available to regulators through two basic query tools required by the CAT NMS Plan—a targeted query tool

that will enable regulators to retrieve data via an online query screen with a variety of predefined selection criteria, and a user-defined direct query tool that will provide regulators with the ability to query data using all available attributes and data sources.¹¹² As CAT LLC reported on its Quarterly Progress Reports, the query tool functionality incorporating the data from Phase 2a was available to the Participants and the Commission as of December 31, 2020.¹¹³

The Commission has determined that the Participants have sufficiently complied with the conditions set forth in the 2020 Orders and with the technical requirements for Quarterly Progress Reports set forth in Section 6.6(c) of the CAT NMS Plan for purposes of determining compliance with this FAM.¹¹⁴

As discussed above, the remaining Historical CAT Costs 1 to be recovered via Historical CAT Assessment 1A would include fees, costs and expenses incurred by or for the Company in connection with the development, implementation and operation of the CAT during the period from August 1, 2020 through December 31, 2020. The total costs for this period, as discussed above, are \$42,976,478. Participants would remain responsible for one-third of this cost (which they have previously paid), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$14,325,492.70) and CEBs paying one-third (\$14,325,492.70) through Historical CAT Assessment 1 and Historical CAT Assessment 1A.

(C) Period 3 of the Financial Accountability Milestones

Historical CAT Assessment 1A seeks to recover costs that are related to Post-Amendment Expenses incurred during FAM Period 3. FAM Period 3 began on January 1, 2021, and concluded on December 31, 2021, the date of the Full Availability and Regulatory Utilization of Transactional Database Functionality.

¹¹² At the time of this FAM, Section 6.10(c)(i)(A) of the CAT NMS Plan required the Plan Processor to "provide Participants and the SEC with access to all CAT Data stored in the Central Repository" via an "online targeted query tool," and Appendix D, Sections 8.1.1–8.1.3 of the CAT NMS Plan described the required functionality associated with this regulatory tool. Appendix D, Section 8.2.1 describes the required functionality associated with a user-defined direct query tool that will "deliver large sets of data that can then be used in internal surveillance or market analysis applications."

¹¹³ See Q3 2020 Quarterly Progress Report (Oct. 30, 2020); Updated Q3 2020 Quarterly Progress Report (Jan. 29, 2021); and Q4 2020 Quarterly Progress Report (Jan. 29, 2021).

¹¹⁴ Securities Exchange Act Rel. No. 98848 (Nov. 2, 2023), 88 FR 77128, 77129 n.13 (Nov. 8, 2023) ("Settlement Exemptive Order").

Section 1.1 of the CAT NMS Plan defines "Full Availability and Regulatory Utilization of Transactional Database Functionality" as:

the point at which: (a) reporting to the Order Audit Trail System ("OATS") is no longer required for new orders; (b) Industry Member reporting for equities transactions and simple electronic options transactions, excluding Customer Account Information, Customer-ID, and Customer Identifying Information, with sufficient intra-firm linkage, inter-firm linkage, national securities exchange linkage, trade reporting facilities linkage, and representative order linkages (including any equities allocation information provided in an Allocation Report) to permit the Participants and the Commission to analyze the full lifecycle of an order across the national market system, from order origination through order execution or order cancellation, is developed, tested, and implemented at a 5% Error Rate or less; (c) Industry Member reporting for manual options transactions and complex options transactions, excluding Customer Account Information, Customer-ID, and Customer Identifying Information, with all required linkages to permit the Participants and the Commission to analyze the full lifecycle of an order across the national market system, from order origination through order execution or order cancellation, including any options allocation information provided in an Allocation Report, is developed, tested, and fully implemented; (d) the query tool functionality required by Section 6.10(c)(i)(A) and Appendix D, Sections 8.1.1–8.1.3, Section 8.2.1, and Section 8.5 incorporates the data described in conditions (b)–(c) and is available to the Participants and to the Commission; and (e) the requirements of Section 6.10(a) are met. This Financial Accountability Milestone shall be considered complete as of the date identified in a Quarterly Progress Report meeting the requirements of Section 6.6(c).

Under Section 1.1 of the CAT NMS Plan, this Financial Accountability Milestone is considered complete as of the date identified in the Participants' Quarterly Progress Reports. As indicated by the Participants' Quarterly Progress Report for the fourth quarter of 2021,¹¹⁵ Full Availability and Regulatory Utilization of Transactional Database Functionality was completed on schedule by December 31, 2021.

Specifically, the "Full Availability and Regulatory Utilization of

¹¹⁵ Q4 2021 Quarterly Progress Report (Jan. 17, 2022).

¹⁰⁹ Q4 2020 Quarterly Progress Report (Jan. 29, 2021).

¹¹⁰ For a description of the requirements of Phases 2a, see Phased Reporting Exemptive Relief Order.

¹¹¹ Q3 2020 Quarterly Progress Report (Oct. 20, 2021).

Transactional Database Functionality” requires the satisfaction of five prongs. The first prong requires that reporting to the Order Audit Trail System (“OATS”) is no longer required for new orders. As CAT LLC reported on its Quarterly Progress Report for the fourth quarter of 2021,¹¹⁶ FINRA retired OATS effective September 1, 2021.¹¹⁷ Accordingly, after the retirement of OATS, reporting to OATS was no longer required.

In addition to Phase 2a and Phase 2b Industry Member Data, the second and third prongs of “Full Availability and Regulatory Utilization of Transactional Database Functionality” require Industry Member reporting of Phase 2c Industry Member Data and Phase 2d Industry Member Data. The Phase 2c Industry Member Data is described in detail in the SEC’s Phased Reporting Exemptive Relief Order. That Order states that “Phase 2c Industry Member Data” is Industry Member Data related to Eligible Securities that are equities other than Phase 2a Industry Member Data, Phase 2d Industry Member Data, or Phase 2e Industry Member Data. Specifically, the Phase 2c Industry Member Data includes Industry Member Data that is related to Eligible Securities that are equities and that is related to: (1) Allocation Reports as required to be recorded and reported to the Central Repository pursuant to Section 6.4(d)(ii)(A)(1) of the CAT NMS Plan; (2) quotes in unlisted Eligible Securities sent to an IDQS operated by a CAT Reporter (reportable by the Industry Member sending the quotes) (except for quotes reportable in Phase 2d, as discussed below); (3) electronic quotes in listed equity Eligible Securities (*i.e.*, NMS stocks) that are not sent to a national securities exchange or FINRA’s Alternative Display Facility; (4) reporting changes to client instructions regarding modifications to algorithms; (5) marking as a representative order any order originated to work a customer order in price guarantee scenarios, such as a guaranteed VWAP; (6) flagging rejected external routes to indicate a route was not accepted by the receiving destination; (7) linkage of duplicate electronic messages related to a Manual Order Event between the electronic event and the original manual route; (8) special handling instructions on order route reports (other than the ISO, which is required to be reported in Phase 2a); (9) quote identifier on trade events; (10) reporting of LTIDs (if applicable) for accounts with Reportable Events that are reportable to CAT as of and

including Phase 2c; (11) reporting of date account opened or Account Effective Date (as applicable) for accounts and reporting of a flag indicating the Firm Designated ID type as account or relationship; (12) order effective time for orders that are received by an Industry Member and do not become effective until a later time; (13) the modification or cancellation of an internal route of an order; and (14) linkages to the customer orders(s) being represented for representative order scenarios, including agency average price trades, net trades, aggregated orders, and disconnected Order Management System (“OMS”)—Execution Management System (“EMS”) scenarios, as required in the Industry Member Technical Specifications.¹¹⁸

Phase 2c Industry Member Data also includes electronic quotes that are provided by or received in a CAT Reporter’s order/quote handling or execution systems in Eligible Securities that are equities and are provided by an Industry Member to other market participants off a national securities exchange under the following conditions: (1) an equity bid or offer is displayed publicly or has been communicated (a) for listed securities to the ADF operated by FINRA; or (b) for unlisted equity securities to an “interdealer quotation system,” as defined in FINRA Rule 6420(c); or (2) an equity bid or offer which is accessible electronically by customers or other market participants and is immediately actionable for execution or routing; *i.e.*, no further manual or electronic action is required by the responder providing the quote in order to execute or cause a trade to be executed). With respect to OTC Equity Securities, OTC Equity Securities quotes sent by an Industry Member to an IDQS operated by an Industry Member CAT Reporter (other than such an IDQS that does not match and execute orders) are reportable by the Industry Member sending them in Phase 2c. Accordingly, any response to a request for quote or other form of solicitation response provided in a standard electronic format (*e.g.*, FIX) that meets this quote definition (*i.e.*, an equity bid or offer which is accessible electronically by customers or other market participants and is immediately actionable for execution or routing) would be reportable in Phase 2c.¹¹⁹

The Phase 2d Industry Member Data is described in detail in the SEC’s Phased Reporting Exemptive Relief Order. “Phase 2d Industry Member

Data” is Industry Member Data that is related to Eligible Securities that are options other than Phase 2b Industry Member Data, Industry Member Data that is related to Eligible Securities that are equities other than Phase 2a Industry Member Data or Phase 2c Industry Member Data, and Industry Member Data other than Phase 2e Industry Member Data. Phase 2d Industry Member Data includes with respect to the Eligible Securities that are options: (1) simple manual orders; (2) electronic and manual paired orders; (3) all complex orders with linkages to all CAT-reportable legs; (4) LTIDs (if applicable) for accounts with Reportable Events for Phase 2d; (5) date account opened or Account Effective Date (as applicable) for accounts with an LTID and flag indicating the Firm Designated ID type as account or relationship for such accounts; (6) Allocation Reports as required to be recorded and reported to the Central Repository pursuant to Section 6.4(d)(ii)(A)(1) of the CAT NMS Plan; (7) the modification or cancellation of an internal route of an order; and (8) linkage between a combined order and the original customer orders. Phase 2d Industry Member Data also would include electronic quotes that are provided by or received in a CAT Reporter’s order/quote handling or execution systems in Eligible Securities that are options and are provided by an Industry Member to other market participants off a national securities exchange under the following conditions: a listed option bid or offer which is accessible electronically by customers or other market participants and is immediately actionable (*i.e.*, no further action is required by the responder providing the quote in order to execute or cause a trade to be executed). Accordingly, any response to a request for quote or other form of solicitation response provided in standard electronic format (*e.g.*, FIX) that meets this definition is reportable in Phase 2d for options.¹²⁰

Phase 2d Industry Member Data also includes with respect to Eligible Securities that are options or equities (1) receipt time of cancellation and modification instructions through Order Cancel Request and Order Modification Request events; (2) modifications of previously routed orders in certain instances; and (3) OTC Equity Securities quotes sent by an Industry Member to an IDQS operated by an Industry Member CAT Reporter that does not match and execute orders. In addition, subject to any exemptive or other relief, Phase 2d Industry Member Data will

¹¹⁶ *Id.*

¹¹⁸ Phase Reporting Exemptive Relief Order at 23078–79.

¹¹⁹ *Id.* at 23079.

¹²⁰ *Id.*

include verbal or manual quotes on an exchange floor or in the over-the-counter market, where verbal quotes and manual quotes are defined as bids or offers in Eligible Securities provided verbally or that are provided or received other than via a CAT Reporter's order handling and execution system (*e.g.*, quotations provided via email or instant messaging).¹²¹

The Quarterly Progress Report for the fourth quarter of 2021 states that "Phase 2a was fully implemented as of October 26, 2020;" "Phase 2b was fully implemented as of January 4, 2021;" "Phase 2c was implemented as of April 26, 2021;" and "Phase 2d was fully implemented as of December 13, 2021."¹²² The Quarterly Progress Reports for 2021 provide additional detail regarding the implementation of these steps including the following:

- "Production Go-Live for Equities 2c reporting requirements (Large Industry Members)" was completed on April 26, 2021;
- "LTID Account Information Reporting Go-Live for Phases 2a, 2b and 2c (Large Industry Members)" was completed on April 26, 2021;
- "FCAT Plan Processor creates linkages of the lifecycle of order events based on the received data through Phase 2d Production Go-Live for Options 2d reporting requirements (Large Industry Members)" was completed on December 13, 2021;
- "Production Go-Live for Options 2d reporting requirements (Large Industry Members)" was completed on December 13, 2021;
- "Production Go-Live for Options 2b reporting requirements (Small OATS Reporters and Small Non-OATS Reporters)" was completed on December 13, 2021;
- "Production Go-Live for Equities 2c reporting requirements (Small OATS Reporters and Small Non-OATS Reporters)" was completed on December 13, 2021;
- "Production Go-Live for Options 2d reporting requirements (Small OATS Reporters and Small Non-OATS Reporters)" was completed on December 13, 2021;
- "LTID Account Information Reporting Go-Live for Phases 2d (Large Industry Members)" was completed on December 13, 2021; and
- "LTID Account Information Reporting Go-Live for Phases 2a, 2b, 2c

and 2d (Small Industry Members)" was completed on December 13, 2021.¹²³

The third prong of "Full Availability and Regulatory Utilization of Transactional Database Functionality" also imposes an Error Rate requirement of 5% or less. The Quarterly Progress Report for the fourth quarter of 2021 states the average overall error rate was less than 5% as of December 31, 2021. The average overall error rate was calculated by dividing the compliance errors by processed records.

The fourth prong of "Full Availability and Regulatory Utilization of Transactional Database Functionality" requires that the data collected by the CAT at this stage be made available to regulators through an online targeted query tool and a user-defined direct query tool. As CAT LLC reported on its Quarterly Progress Report for the fourth quarter of 2021, the query tool functionality incorporating the data from Phases 2a, 2b, 2c and 2d was available to the Participants and to the Commission as of December 31, 2021.¹²⁴

The fifth prong requires the requirements of Section 6.10(a) of the CAT NMS Plan to have been met. Section 6.10(a) of the CAT NMS Plan requires the Participants to use the tools described in Appendix D to "develop and implement a surveillance system, or enhance existing surveillance systems, reasonably designed to make use of the consolidated information contained in the Central Repository." The Exchange implemented a surveillance system, or enhanced existing surveillance systems, reasonably designed to make use of the consolidated information contained in the Central Repository as of December 31, 2021 in accordance with Section 6.10(a) of the CAT NMS Plan.¹²⁵

The Commission has determined that the Participants have sufficiently complied with the conditions set forth in the 2020 Orders and with the technical requirements for Quarterly Progress Reports set forth in Section 6.6(c) of the CAT NMS Plan for purposes of determining compliance with this FAM.¹²⁶

As discussed above, the remaining Historical CAT Costs 1 to be recovered via Historical CAT Assessment 1A would include fees, costs and expenses

incurred by or for the Company in connection with the development, implementation and operation of the CAT during the period from January 1, 2021 through December 31, 2021. The total costs for this period, as discussed above, are \$144,415,268. Participants would remain responsible for one-third of this cost (which they have previously paid), and Industry Members would be responsible for the remain two-thirds, with CEBBs paying one-third (\$48,138,422.70) and CEBBs paying one-third (\$48,138,422.70) through Historical CAT Assessment 1 and Historical CAT Assessment 1A.

(D) Additional Considerations Related to the Financial Accountability Milestones

As discussed above, CAT LLC has satisfied the Financial Accountability Milestones ("FAMs") for Periods 1 through 3.¹²⁷ As discussed below, none of the circumstances related to NIA Electronic RFQ Responses, the 2023 Verbal Quotes Exemption, the November 2023 Order, or Executing Broker reporting, affect the conclusion that the FAMs for Periods 1 through 3 were satisfied in a timely fashion.

(i) NIA Electronic RFQ Responses

CAT LLC does not believe that the exemptive relief relating to the reporting of electronic responses for quotes ("RFQs") that are not immediately actionable ("NIA Electronic RFQ Responses") affect the conclusion that FAMs 1 through 3 have been satisfied. The only reason CAT LLC pursued this relief is because certain Industry Members introduced concerns that NIA Electronic RFQ Responses could be considered "orders" reportable pursuant to Rule 613(j)(8) and some Industry Members were not prepared to report such orders to CAT. Thus, the relief was requested on behalf of Industry Members. CAT LLC itself has not taken any position on whether NIA Electronic RFQ Responses are "orders," as the definition of "order" is an SEC rule and the trading processes for NIA Electronic RFQ Responses are the Industry Members', not those of the Participants or CAT LLC. Accordingly, CAT LLC stated in its letter that "Industry Members must determine whether trading interest falls within the definition of an 'order' for CAT

¹²³ See Q2 2021 Quarterly Progress Report (July 27, 2021); and Q4 2021 Quarterly Progress Report (Jan. 17, 2022).

¹²⁴ See Q4 2021 Quarterly Progress Report (Jan. 17, 2022).

¹²⁵ See Q1 2021 Quarterly Progress Report (Apr. 30, 2021); Q2 2021 Quarterly Progress Report (July 27, 2021); Q3 2021 Quarterly Progress Report (Nov. 1, 2021); and Q4 2021 Quarterly Progress Report (Jan. 17, 2022).

¹²⁶ Settlement Exemptive Order at 77129 n.13.

¹²⁷ In May 2020, the Commission adopted amendments to the CAT NMS Plan that establish four Financial Accountability Milestones and set target deadlines by which these milestones must be achieved. These amendments also reduce the amount of any fees, costs, and expenses that may be recovered from Industry Members if the Participants fail to meet the target deadlines. FAM Adopting Release.

¹²¹ *Id.* at 23079–80.

¹²² See Q4 2021 Quarterly Progress Report (Jan. 17, 2022).

purposes. To the extent an NIA Electronic RFQ Response is not considered an “order” as defined in Rule 613(j)(8) and the CAT NMS Plan, it would not be reportable to CAT.”¹²⁸

Only “orders” as defined in SEC Rule 613(j)(8) are reportable to CAT. There is no agreement across the industry or among regulators as to whether NIA Electronic RFQ Responses are “orders” reportable to CAT. Certain Industry Members have raised the question as to whether NIA Electronic RFQ Responses are orders, but others have argued that they are not orders under Rule 613(j)(8).¹²⁹ Indeed, members of the Advisory Committee, which CAT LLC relies upon for guidance with regard to Industry Member issues, have not had a definitive view on whether NIA Electronic RFQ Responses are orders. As Rule 613(j)(8) is an SEC rule, CAT LLC believes that only the SEC can provide a definitive determination as to if, and under what circumstances, an NIA Electronic RFQ Response is considered an “order” reportable to CAT. The issue has persisted for some time. As a result, CAT LLC filed an exemptive request regarding NIA Electronic RFQ Responses for clarity on the interpretive issue. As recently as April 2024, Industry Members have re-raised this issue stating that the SEC agrees that it must provide additional guidance on this interpretive issue to resolve the CAT reporting issue for NIA Electronic RFQ Responses:

As further discussed in the prior FIF letters, even if the Commission had the legal authority to require the reporting of NIA RFQ responses to CAT without an amendment to Rule 613, the Commission has not provided guidance to industry members as to the conditions under which NIA RFQ responses would be reportable to CAT. In subsequent discussions with industry members, Commission representatives have agreed that, prior to NIA RFQ responses being reportable to CAT, it would be necessary for the Commission to provide further guidance to industry members as to the conditions under which NIA RFQ responses would be reportable to CAT.¹³⁰

On May 20, 2024, the Commission granted CAT LLC’s request for exemptive relief from certain CAT reporting requirements pertaining to

NIA Electronic RFQ Responses to the extent such responses are considered “orders” reportable pursuant to Rule 613(j)(8).¹³¹ The Commission, however, did not provide additional guidance regarding the conditions under which NIA Electronic RFQ Responses would be reportable to CAT. The Commission stated in its exemptive order that “[t]o the extent that the Participants are availing themselves of exemptive relief from a CAT NMS Plan requirement, such requirement shall not be included in the requirements for the Financial Accountability Milestones, provided that any conditions of the exemption are satisfied.”¹³²

When the Commission proposed the FAMs, the Participants expressed concern that, “by conditioning the ability of CAT LLC and the Participants to collect Post-Amendment Industry Member Fees on factors dependent on the efforts of Industry Members, the Commission’s proposals inadvertently establish a perverse incentive for Industry Members to devote less than maximum efforts to comply with their obligations related to the CAT as they will pay less fees in such instances.”¹³³ The Participants further warned that “Industry Members may request or require unanticipated reporting delays to address Industry Member implementation issues or concerns,” but that, “[f]aced with financial penalties for missed deadlines, the Participants may not be able to fully address legitimate industry concerns or accommodate requests for delays with respect to future deadlines.”¹³⁴ CAT LLC has engaged in good faith to help address NIA Electronic RFQ Responses and other concerns relevant to the ability of Industry Members to meet their CAT reporting obligations. CAT LLC should not be penalized financially for seeking in good faith to resolve a difficult interpretive issue for the benefit of Industry Members.

(ii) 2023 Verbal Quotes Exemption

CAT LLC does not believe that the Commission’s May 19, 2023 order granting temporary exemptive relief relating to certain verbal floor activity and unstructured verbal and electronic upstairs activity (the “2023 Verbal Quotes Exemption”) affects the conclusion that FAMs 1 through 3 have been satisfied. The 2023 Verbal Quotes

Exemption, which was issued on May 19, 2023, is not relevant for purposes of FAM Periods 1 through 3, which only cover the period through December 31, 2021. The relevant exemption for this time period is the Commission’s November 12, 2020 order, which granted relief for the same activity through July 31, 2023 (the “2020 Verbal Quotes Order”).¹³⁵ The Commission has stated that, “to the extent that the Participants are availing themselves of exemptive relief from a CAT NMS Plan requirement, such requirement shall not be included in the requirements for a Financial Accountability Milestone, provided that the conditions of the exemption are satisfied.”¹³⁶ Here, the 2020 Verbal Quotes Order was in effect and the conditions of the exemption were satisfied as of December 31, 2021, and therefore may be relied upon for purposes of determining compliance with FAM Periods 1 through 3.¹³⁷

(iii) November 2023 Order

CAT LLC does not believe that the Commission’s November 2, 2023 order granting relief from certain CAT NMS Plan requirements (the “November 2023 Order”) affects the conclusion that FAMs 1 through 3 have been satisfied. The November 2023 Order is not relevant for purposes of FAM Periods 1 through 3, which only cover the period through December 31, 2021. As described in the November 2023 Order, the relevant exemptive orders for this time period were issued on December 16, 2020, which also states that “the Commission has determined that the Participants have sufficiently complied with the conditions set forth in the prior Orders and with the technical requirements for Quarterly Progress Reports set forth in section 6.6(c) of the CAT NMS Plan, including for purposes

¹³⁵ Securities Exchange Act Rel. No. 90405, 85 FR 73544 (Nov. 18, 2020) (the “2020 Verbal Quotes Exemption”).

¹³⁶ See, e.g., Securities Exchange Act Rel. No. 89051 (June 11, 2020), 85 FR 36631, 36633 (June 17, 2020). The straightforward reading of the Commission’s statement is that compliance with the conditions of an exemption will be measured as of the deadline for a particular FAM Period.

¹³⁷ As a condition to the 2020 Verbal Quotes Exemption, the Commission required that the Participants provide a written status update on the reporting of these quotes and orders by July 31, 2022, including the estimated costs of reporting these quotes and orders and an implementation plan for the reporting of these quotes and orders. As noted, the 2020 Verbal Quotes Order was in effect and the conditions of the exemption were satisfied as of December 31, 2021, and therefore may be relied upon for purposes of determining compliance with FAM Periods 1 through 3. In any event, on June 3, 2022, the Participants provided the required written status update. See Letter from Michael Simon, CAT NMS Plan Operating Committee Chair, to Vanessa Countryman, Secretary, Commission (June 3, 2022).

¹²⁸ See Letter from Brandon Becker, Chair, CAT NMS Plan Operating Committee to Vanessa Countryman, Secretary, Commission (Feb. 13, 2024) at 2.

¹²⁹ See, e.g., Letter from Howard Meyerson, Managing Director, FIF, to Sai Rao, Counsel for Trading and Markets, Office of the Chair (Apr. 25, 2024).

¹³⁰ *Id.*

¹³¹ Securities Exchange Act Rel. No. 100181 (May 20, 2024), 89 FR 45715 (May 23, 2024).

¹³² *Id.* at n.11.

¹³³ See Letter from Michael Simon, CAT NMS Plan Operating Committee Chair, to Vanessa Countryman, Secretary, Commission at 9 (Oct. 28, 2019).

¹³⁴ *Id.* at 10.

of determining compliance with any applicable Financial Accountability Milestones.”¹³⁸ The November 2023 Exemption Order is consistent with the Commission’s repeated statements in the FAM adopting release that it would have “authority to grant exemptive relief from any requirement associated with a particular Financial Accountability Milestone,” citing Section 36 of the Exchange Act and Rule 608.¹³⁹ Similarly, the CAT NMS Plan expressly contemplates the Commission’s ability to grant exemptive relief from any CAT NMS Plan requirement.¹⁴⁰

(iv) Executing Broker Reporting

CAT LLC also completed the requirements of FAM Period 2, including the required linkages, by December 31, 2020. Although Participant exchanges may report the Executing Broker to CAT differently in certain situations, these reporting differences are irrelevant for linkage purposes as the fields used for CAT Executing Broker are not used for linkage.

(10) Additional Support for Reasonableness of Historical CAT Costs

The CAT Funding Model approved by the Commission permits the recovery of reasonable costs in each of the categories of CAT costs sought to be recovered via Historical CAT Assessment 1A.¹⁴¹ As described in detail above and in further detail below, the CAT costs to be recovered for each category are reasonable. The following discusses in further detail how each of the following costs are reasonable: (1)

costs incurred prior to the effective date of the CAT NMS Plan; (2) cloud hosting services costs; (3) costs related to funding model filings; (4) costs related to litigation with the SEC regarding the CAT NMS Plan; (5) costs related to the Initial Plan Processor; (6) CAIS implementation costs; (7) public relations costs; (8) legal costs related to the limitation of liability provision in the CAT Reporter agreements; and (9) costs for the Chair of CAT Operating Committee. As discussed in detail below, each of these costs is reasonable and should be recoverable in accordance with the CAT Funding Model.

(A) Costs Incurred Prior to the Effective Date of CAT NMS Plan

CAT LLC believes that it is reasonable to seek recovery of costs incurred prior to when the CAT NMS Plan became effective in November 2016, such as legal and consulting fees incurred to create the CAT NMS Plan. Rule 613 specifically mandates that the CAT be created, implemented and maintained, and further provides that the CAT NMS Plan include a proposed allocation of estimated costs to fund the creation, implementation and maintenance of the CAT among the Participants (referred to as “plan sponsors”), and between the Participants and Industry Members (referred to as “members of the plan sponsors”).¹⁴² Consistent with Rule 613, the CAT NMS Plan, as approved by the Commission, specifically authorizes charging Industry Members fees for costs reasonably incurred prior to the date of the approval of the CAT NMS Plan by the Commission in November 2016, including legal and consulting costs. Section 11.1(c) of the CAT NMS Plan states that:

[i]n determining fees on Participants and Industry Members the Operating Committee shall take into account fees, costs and expenses (including legal and consulting fees and expenses) reasonably incurred by Participants on behalf of the Company prior to the Effective Date in connection with the creation and implementation of the CAT.

Accordingly, the CAT NMS Plan specifically permits the recovery of costs, including legal and consulting costs, reasonably incurred prior to November 2016 in connection with the creation and implementation of the CAT.

Furthermore, the costs incurred to create and implement the CAT prior to the effective date of the CAT NMS Plan

(“Pre-Formation Costs”) were reasonable both in scope and amount, in accordance with the requirements of Section 11.1(c) of the CAT NMS Plan. During the four-year period from 2012 to 2016, a total of \$13,842,881 in Pre-Formation Costs were incurred. This is an average of approximately \$3.5 million per year over this period. The Pre-Formation Costs fell into three categories: legal costs, consulting costs and public relations costs. This includes legal costs of \$3,196,434; consulting costs of \$10,589,273; and public relations costs of \$57,174. The legal, consulting and public relations services were performed by WilmerHale, Deloitte and Peppercomm, respectively. The selection considerations and fees for these three firms are described in detail above and are described further below. The Pre-Formation Costs are direct costs of CAT, which have been funded entirely by the Participants through non-interest-bearing notes. The Pre-Formation Costs do not include the significant costs incurred by each of the individual Participants in responding to the adoption of Rule 613.

The Pre-Formation Costs are reasonable and appropriate as they reflect the extensive efforts that were necessary to create the CAT NMS Plan as mandated after the SEC’s adoption of Rule 613. As described in more detail below, these efforts included, among other things, developing a plan for selecting the Plan Processor, soliciting and evaluating bids, engaging a diverse set of market participants and the SEC in the development of the Plan, interacting with the SEC in their oversight of the development of the Plan, and seeking appropriate exemptive relief to address areas of concern in Rule 613.¹⁴³

(i) Request for Proposal (“RFP”)

The Participants determined to utilize an RFP to ensure that potential alternative solutions for creating the Plan could be presented and considered, and that a detailed and meaningful cost-benefit analysis could be performed. The SEC supported the use of an RFP, and approved its use as it is described in extensive detail in the CAT NMS Plan.¹⁴⁴

¹⁴³ The Participants described in detail the process for drafting the CAT NMS Plan in its original filing of the CAT NMS Plan. See Letter from Mike Simon, on behalf of the Participants of the CAT NMS Plan, to Brent J. Fields, Secretary, Commission (Sept. 30, 2014). A non-exclusive list of filings and activities associated with CAT, including certain pre-2016 filings, are available on the SEC’s website: <https://www.sec.gov/divisions/marketreg/rule613-info>.

¹⁴⁴ See detailed discussion of RFP questions in Appendix C of the CAT NMS Plan, and

¹³⁸ *Id.* at 77129 n.12.

¹³⁹ FAM Adopting Release at 31335 (May 22, 2020). Section 36 of the Exchange Act grants the Commission the authority to “conditionally or unconditionally exempt any person, security, or transaction . . . from any provision or provisions of [the Exchange Act] or of any rule or regulation thereunder, to the extent that such exemption is necessary or appropriate in the public interest, and is consistent with the protection of investors.” 15 U.S.C. 78mm(a)(1). Under Rule 608(e) of Regulation NMS, the Commission may “exempt from [Rule 608], either unconditionally or on specified terms and conditions, any self-regulatory organization, member thereof, or specified security, if the Commission determines that such exemption is consistent with the public interest, the protection of investors, the maintenance of fair and orderly markets and the removal of impediments to, and perfection of the mechanism of, a national market system.” 17 CFR 242.608(e).

¹⁴⁰ Section 12.3 of the CAT NMS Plan (“[T]o the extent the SEC grants exemptive relief applicable to any provision of this Agreement, Participants and Industry Members shall be entitled to comply with such provision pursuant to the terms of the exemptive relief so granted at the time such relief is granted irrespective of whether this Agreement has been amended.”).

¹⁴¹ See Sections 11.1(a)(i) and 11.3(b)(iii)(B)(III) of the CAT NMS Plan.

¹⁴² See, e.g., Rule 613(a)(1)(vii)(D) of the CAT NMS Plan.

In the context of the SEC's adoption of Rule 613, commenters urged the Commission to utilize an RFP process to assist in the planning and design of the NMS plan.¹⁴⁵ Specifically, the Commission explained:

In this regard, several commenters suggested that the Commission undergo a RFP or request for information ("RFI") process to create and implement a consolidated audit trail. Specifically, FIF urged the Commission to perform a RFP process "to determine the best technical solution for developing a consolidated audit trail." FIF suggested that the Commission "should outline a set of goals and guiding principles they are striving to achieve as part of the adopted CAT filing and leave the determination of data elements and other technical requirements to [an] industry working group." Similarly, Direct Edge suggested that Commission staff should form and engage in a working group to develop an RFP for publication by the Commission. DirectEdge explained that an RFP process would facilitate the identification of the costs and benefits of the audit trail, as well as the consideration of a wider range of technological solutions. Further, commenters, including Broadridge Financial Solutions, Inc., a technology provider, also requested more specific information about the audit trail system to better assess the Commission's initial cost estimates and to determine the best approach to the consolidated audit trail.¹⁴⁶

In response to these comments, the Commission modified Rule 613 to require the Participants to address certain important considerations regarding the features and details of the NMS plan and to extend the timeframe for submission of the CAT NMS Plan by the Participants from the 90 days as originally proposed to 270 days, in part, to accommodate a process that would address these considerations.¹⁴⁷ As the SEC noted, "[i]n light of the numerous specific requirements of Rule 613, the Participants concluded that publication of a request for proposal ('RFP') was necessary to ensure that potential alternative solutions to creating the consolidated audit trail can be presented and considered by the Participants and that a detailed and meaningful cost/benefit analysis can be

performed, both of which are required considerations to be addressed in the CAT NMS Plan."¹⁴⁸

The SEC specifically recognized that the Participants planned to use an RFP when it approved the Selection Plan, and stated that the RFP was a reasonable approach.¹⁴⁹ As the SEC described in its approval order for the Selection Plan, "[t]he Participants filed the [Selection] Plan to govern how the SROs will proceed with formulating and submitting the CAT NMS Plan—and, as part of that process, how to review, evaluate, and narrow down the bids submitted in response to the RFP ('Bids')—and ultimately choosing the plan processor that will build, operate, and maintain the consolidated audit trail ('Plan Processor')."¹⁵⁰ After evaluating the Selection Plan, including the use of an RFP process, the Commission stated that it "believes the [Selection] Plan is reasonably designed to govern the process by which the SROs will formulate and submit the CAT NMS Plan, including the review, evaluation, and narrowing down of Bids in response to the RFP, and ultimately choosing the Plan Processor that will build, operate, and maintain the consolidated audit trail."¹⁵¹

On February 26, 2013, the Participants published an RFP soliciting bids from parties interested in serving as the plan processor for the CAT. Initially, 31 firms submitted intentions to bid. In the following months, the Participants engaged with potential bidders with respect to, among other things, the selection process, selection criteria, and potential bidders' questions and concerns. On March 21, 2014, the Participants received ten bids in response to the RFP.

(ii) Selection Plan

On September 4, 2013, the Participants filed with the Commission a national market system plan to govern the process for Participant review of the bids submitted in response to the RFP, the procedures for evaluating the bids, and, ultimately, selection of the plan processor (the "Selection Plan").¹⁵² The Commission approved the Selection Plan as filed on February 21, 2014.¹⁵³ In approving the Selection Plan, the Commission concluded that "it is reasonably designed to achieve its

objective of facilitating the development of the CAT NMS Plan and the selection of the Plan Processor."¹⁵⁴

The Selection Plan divided the review and evaluation of bids, and the selection of the plan processor, into various stages. Specifically, pursuant to the Selection Plan, a selection committee reviewed all bids and determined which bids contained sufficient information to allow the Participants to meaningfully assess and evaluate the bids. The ten submitted bids were deemed "Qualified Bids," and so passed to the next stage, in which each bidder presented its bids to the Participants on a confidential basis. On July 1, 2014, after conducting careful analysis and comparison of the bids, the Selection Committee voted and selected a shortlist of six eligible bidders. The Selection Committee determined which shortlisted bidders would be provided the opportunity to revise their bids. After the Selection Committee assessed and evaluated the revised bids, the Selection Committee selected the plan processor via two rounds of voting by the Participants, as described in the Selection Plan.

The Selection Plan established an Operating Committee responsible for formulating, drafting, and filing with the Commission the CAT NMS Plan and for ensuring that the Participants' joint obligations under Rule 613 were met in a timely and efficient manner. In formulating the CAT NMS Plan, the Participants also engaged multiple persons across a wide range of roles and expertise, engaged the consulting firm Deloitte as project manager, and engaged the law firm WilmerHale to serve as legal counsel in drafting the Plan. Within this structure, the Participants focused on, among other things, comparative analyses of the proposed technologies and operating models, development of funding models to support the building and operation of the CAT, and detailed review of governance considerations. Given the complexity and scope of developing the CAT NMS Plan, these efforts were extensive.

When it approved the CAT NMS Plan in 2016, the Commission reiterated its belief that the Selection Plan remains a "reasonable approach," that "the competitive bidding process to select the Plan Processor is a reasonable and effective way to choose a Plan Processor," and that "the process set forth in the Selection Plan should be permitted to continue":

In approving the Selection Plan, the Commission stated that the Selection Plan is reasonably designed to achieve

incorporation of RFP requirements in Appendix D at D–2.

¹⁴⁵ For example, in its comments on proposed Rule 613, FIF suggested "that the SROs should select the processor through a 'request for proposal.'" Rule 613 Adopting Release at 45785.

¹⁴⁶ Rule 613 Adopting Release at 45738–39.

¹⁵³ See Selection Plan Approval Order.

¹⁵⁴ Selection Plan Approval Order at 11160.

its objective of facilitating the development of the CAT NMS Plan and the selection of the Plan Processor. The Commission also found that the Selection Plan is reasonably designed to govern the process by which the SROs will formulate and submit the CAT NMS Plan, including the review, evaluation, and narrowing down of Bids in response to the RFP, and ultimately choosing the Plan Processor that will build, operate, and maintain the consolidated audit trail. The Commission believes that the process set out in the Selection Plan for selecting a Plan Processor remains a reasonable approach, which will facilitate the selection of Plan Processor through a fair, transparent and competitive process and that no modifications to the Selection Plan are required to meet the approval standard In response to the comment that offered support for a specific Bidder, the Commission agrees with the Participants that the competitive bidding process to select the Plan Processor is a reasonable and effective way to choose a Plan Processor and thus believes that the process set forth in the Selection Plan should be permitted to continue.¹⁵⁵

(iii) Engagement With Market Participants and SEC

During the process of developing the CAT NMS Plan, the Participants engaged in extensive and meaningful dialogue with market participants and the SEC. To this end, the Participants created a website to update the public on the progress of the CAT NMS Plan, published a request for comment on multiple issues related to the Plan, held multiple public events to inform the industry of the progress of the CAT and to address inquiries, and formed, and later expanded, a DAG to solicit more input from a representative industry group.¹⁵⁶

The DAG included representatives of Participants and Industry Members and conducted meetings to discuss, among other things, technical and operational aspects the Participants were considering for the Plan. The Participants issued press releases soliciting participants for the DAG, and a wide spectrum of firms was deliberately chosen to provide insight from various industry segments affected by CAT. The DAG meetings included discussions of topics such as option market maker quote reporting, requirements for capturing Customer

IDs, timestamps and clock synchronization, reporting requirements for order handling scenarios, costs and funding, error handling and corrections, and potential elimination of systems made redundant by the CAT. From the inception of the DAG through September 2014, the DAG participated in 36 meetings, as well as a variety of DAG subcommittee meetings.

(iv) Request for Exemption From Certain Requirements Under Rule 613

Following multiple discussions between the Participants and both the DAG and the bidders, as well as among the Participants themselves, the Participants recognized that some provisions of Rule 613 would not permit certain solutions to be included in the Plan that the Participants, in coordination with the DAG, determined advisable to effectuate the most efficient and cost-effective CAT. Specifically, “the SROs reached the conclusion that additional flexibility in certain of the minimum requirements specified in Rule 613 would allow them to propose a more efficient and cost-effective approach without adversely affecting the reliability or accuracy of CAT Data, or its security and confidentiality.”¹⁵⁷ Consequently, the Participants submitted a request for exemptive relief from certain provisions of Rule 613 regarding: (1) options market maker quotes; (2) Customer-IDs; (3) CAT-Reporter-IDs; (4) CAT-Order-IDs on allocation reports; and (5) timestamp granularity.¹⁵⁸ The Participants filed two supplements to the request for exemptive relief.¹⁵⁹

After reviewing the exemptive request, the Commission determined that it was appropriate in the public interest and consistent with the protection of investors to grant the requested exemptive relief.¹⁶⁰ In granting the exemptive relief, the Commission stated:

[T]he Commission is persuaded to provide flexibility in the discrete areas discussed in the Exemption Request so that the alternative approaches can be included in the CAT NMS Plan and subject to notice and comment. Doing so could allow for more efficient and cost-effective approaches than otherwise

would be permitted. The Commission at this stage is not deciding whether the proposed approaches detailed below are more efficient or effective than those in Rule 613. However, the Commission believes the proposed approaches should be within the permissible range of alternatives available to the SROs.¹⁶¹

The Commission further stated that the requested exemptive relief is consistent with the protection of investors. The Commission noted that:

Doing so will provide the public an opportunity to consider and comment on whether these proposed alternative approaches would indeed be more efficient and cost-effective than those otherwise required by Rule 613, and whether such approaches would adversely affect the reliability or accuracy of CAT Data or otherwise undermine the goals of Rule 613. Moreover, if—as the SROs represent—efficiency gains and cost savings would result from including the proposed approaches in the CAT NMS Plan without adverse effects, then the resultant benefits could potentially flow to investors (e.g., lower broker-dealer reporting costs resulting in fewer costs passed on to Customers).¹⁶²

The Participants incorporated the exemptive relief into the proposed CAT NMS Plan, which was noticed for comment, and the Commission ultimately approved the CAT NMS Plan with the more efficient and cost-effective alternative approaches described in the exemptive relief. Accordingly, the Participants believe that the costs incurred in developing the exemptive request were critical to the creation of a better CAT than was originally contemplated by Rule 613, and therefore should be recoverable as part of Historical CAT Assessment 1A.

(v) Request for Extensions for Filing the CAT NMS Plan

Rule 613(a)(1) under Regulation NMS required the Participants to jointly file the CAT NMS Plan on or before April 28, 2013, less than a year after the adoption of Rule 613. In recognition of the complexity of the project to create the CAT NMS Plan as well as industry interest in limiting or eliminating certain requirements of Rule 613 (e.g., addressing the reporting of options market maker quotes), the Participants requested two extensions of the deadline to file the CAT NMS Plan. The Participants described the need for additional time as follows:

The SROs stated in their Request Letter that they do not believe that the

¹⁵⁷ Securities Exchange Rel. No. 77265 (Mar. 1, 2016), 81 FR 11856 (Mar. 7, 2016) (“2016 Exemptive Order”).

¹⁵⁸ Letter from Robert Colby, FINRA, on behalf of the SROs, to Brent J. Fields, Secretary, Commission (Jan. 30, 2015).

¹⁵⁹ See Letter from Robert Colby, FINRA, on behalf of the SROs, to Brent J. Fields, Secretary, Commission (Apr. 3, 2015); Letter from the SROs to Brent J. Fields, Secretary, Commission (Sept. 2, 2015).

¹⁶⁰ See 2016 Exemptive Order.

¹⁶¹ *Id.* at 11857.

¹⁶² *Id.*

¹⁵⁵ See CAT NMS Plan Approval Order at 84737.

¹⁵⁶ See Section D(11) of Appendix C of the CAT NMS Plan.

270-day time period provided for in Rule 613(a)(1) provides sufficient time for the development of the RFP, formulation and submission of bids, and review and evaluation of such bids. The SROs also stated that they believe additional time beyond the 270 days provided for in Rule 613(a)(1) is necessary in order to provide sufficient time for effective consultation with and input from the industry and the public on the proposed solution chosen by the SROs for the creation of the consolidated audit trail at the conclusion of the RFP process and the NMS plan itself.¹⁶³

In recognition of the need for additional time to refine the technical description of and requirements for the CAT and to allow for additional evaluation of the proposed cost and funding considerations, the SEC granted two extensions of this deadline.¹⁶⁴ The SEC determined that both extensions were appropriate, in the public interest, and consistent with the protection of investors.¹⁶⁵ In reaching this conclusion, the Commission stated that “it understands that the creation of a consolidated audit trail is a significant undertaking and that a proposed NMS plan must include detailed information and discussion about many things.”¹⁶⁶ The SEC also noted the following:

This additional time to complete the RFP process should allow the SROs to engage in a more thoughtful and comprehensive process for the development of an NMS plan. In this regard, the Commission notes that the additional time to solicit comment from the industry and the public at certain key points in the development of the NMS plan could identify issues that can be resolved earlier in the development of the consolidated audit trail and prior to filing the NMS plan with the Commission.¹⁶⁷

Given the Commission’s recognition of the reasonableness and value of the extension of the deadline to file the CAT NMS Plan, the Participants believe that the costs incurred in developing the extension request were important to the process of developing the CAT NMS Plan, and therefore should be recoverable as part of Historical CAT Assessment 1A.

(vi) Submission and Approval of the CAT NMS Plan

After extensive analyses and discussions with the DAG, bidders, market participants and the SEC staff, the Participants finalized the draft of the CAT NMS Plan and filed the CAT NMS Plan with the SEC on September 30, 2014. Following additional discussions, the Participants filed several amendments to the CAT NMS Plan during 2015 and 2016. With these additional changes, the SEC published the CAT NMS Plan for notice and comment in May 2016.¹⁶⁸ Following the comment period, the SEC approved the Plan in November 2016.¹⁶⁹

(vii) Legal Costs Incurred Prior to the Effective Date of the CAT NMS Plan

The Pre-Formation Costs include legal costs of \$3,196,434. The legal services were performed by WilmerHale. The selection considerations and fees for WilmerHale were described in detail above. Prior to the creation of CAT LLC, WilmerHale was engaged to represent the consortium of SROs, not the individual Participants. For administrative purposes, FINRA agreed to receive such legal bills, although such costs were shared among the Participants. Therefore, the legal costs incurred with respect to WilmerHale do not include legal costs incurred by the individual Participants. These pre-formation legal costs are described in detail above and are further described below:

- Analyzed various legal matters associated with the Selection Plan and drafted an amendment to Selection Plan;
- Assisted with the RFP and bidding process for the CAT Plan Processor;
- Analyzed legal matters related to the DAG;
- Drafted the CAT NMS Plan, analyzed various items related to the CAT NMS Plan, and responded to comment letters on the CAT NMS Plan;
- Provided legal support for the formation of the legal entity, the governance of the CAT, including governance support prior to the adoption of the CAT NMS Plan, which involved support for the full committee of exchanges and FINRA as well as subcommittees of this group (e.g., Joint Subcommittee Group, Technical, Industry Outreach, Cost and Funding, and Other Products) and the DAG, and governance support during the transition to the new governance structure under the CAT NMS Plan;

- Drafted exemptive requests;
- Provided interpretations related to the CAT NMS Plan;
- Provided support with regard to discussions among the exchanges, FINRA and other third parties, such as Deloitte;
- Provided tax advice with regard to CAT’s status as a tax-exempt organization; and
- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues.

(viii) Consulting Costs Incurred Prior to the Effective Date of the CAT NMS Plan

The Pre-Formation Costs include consulting costs of \$10,589,273. The consulting services were performed by Deloitte. The selection considerations and fees for Deloitte were described in detail above. Prior to the creation of CAT LLC, for administrative purposes, Deloitte was engaged by FINRA to provide consulting services related to CAT, but the costs were shared by the consortium of SROs per agreement. Therefore, the consulting costs incurred with respect to Deloitte do not include consulting costs incurred by the individual Participants. The pre-formation consulting costs include the following:

- Established and implemented program operations for the CAT project, including the program management office and workstream design;
- Assisted with the Plan Processor selection process, including but not limited to, the development of the RFP and the bidder evaluation process, and facilitation and consolidation of the Participants’ independent reviews;
- Assisted with the development and drafting of the CAT NMS Plan, including conducting cost-benefit studies, reviewing technical requirements of other NMS plans, analyzing OATS and CAT requirements, and drafting appendices to the Plan;
- Provided governance support to the CAT, including governance support prior to the adoption of the CAT NMS Plan, which involved support for the full committee of exchanges and FINRA as well as subcommittees of this group (e.g., Joint Subcommittee Group, Technical, Industry Outreach, Cost and Funding, and Other Products) and the DAG;
- Provided support for updating the SEC on the progress of the development of the CAT;
- Provided support for industry outreach sessions, including with regard to program design and agenda

¹⁶³ Securities Exchange Act Rel. No. 69060 (Mar. 7, 2013), 78 FR 15771, 15772 (Mar. 12, 2013) (“March 2013 Exemptive Order”).

¹⁶⁴ See March 2013 Exemptive Order; Securities Exchange Act Rel. No. 71018 (Dec. 6, 2013), 78 FR 75669 (Dec. 12, 2013) (“December 2013 Exemptive Order”).

¹⁶⁵ March 2013 Exemptive Order at 15772; December 2013 Exemptive Order at 75670.

¹⁶⁶ March 2013 Exemptive Order at 15772.

¹⁶⁷ *Id.* at 15773.

¹⁶⁸ See Securities Exchange Act Rel. No. 77724 (Apr. 27, 2016), 81 FR 30614 (May 17, 2016).

¹⁶⁹ See CAT NMS Plan Approval Order.

development, program support and logistics and coordination; and

- Provided support in fact finding, drafting content and meeting coordination for WilmerHale with regard to the CAT and the development of the CAT NMS Plan.

Such Pre-Formation Costs did not include costs related to the Chair of the CAT NMS Plan Operating Committee, as the CAT NMS Plan had not yet been adopted.

(ix) Public Relations Costs Incurred Prior to the Effective Date of the CAT NMS Plan

The Pre-Formation Costs include public relations costs of \$57,174. The public relations services were performed by Peppercomm. The selection considerations and fees for Peppercomm are described in detail above. The costs related to Peppercomm were shared among the SROs. Therefore, the public relations costs do not include public relations costs incurred by the individual Participants. The pre-formation public relations costs include services related to communications with the public regarding the CAT, including monitoring developments related to the CAT (e.g., congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating communications to the public regarding such developments as well as reporting on developments related to the CAT.

(B) Cloud Hosting Services

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover reasonable costs related to cloud hosting services as a part of Historical CAT Assessments. CAT LLC believes that the costs related to cloud hosting services described in detail above are reasonable and appropriate given the strict data processing timelines and storage requirements imposed by the Commission-approved CAT NMS Plan and should be recoverable as a part of Historical CAT Assessment 1A.

(i) Reasonableness of AWS Costs Given the Requirements of the CAT NMS Plan

CAT LLC believes that the costs for the cloud hosting services are reasonable, both in terms of the level of the fees paid by CAT LLC for cloud hosting services provided by AWS and the scope of the services performed by AWS for CAT LLC. CAT LLC believes that both the scope and amount of the costs for cloud hosting services are reasonable given the current requirements of the CAT NMS Plan

adopted pursuant to Rule 613, including the strict data processing timeline, storage and other technical requirements under the Commission-approved CAT NMS Plan.

CAT LLC believes that the level of fees for the cloud hosting services is reasonable, taking into consideration a variety of factors, including the expected volume of data and the breadth of services provided and market rates for similar services.

CAT LLC also believes that the scope of services provided by AWS for the CAT are appropriate given the current requirements of the Commission-approved CAT NMS Plan. As described above, the cloud hosting services costs reflect a variety of factors including, among other things:

- *Breadth of Cloud Activities.* AWS was engaged by FCAT, the Plan Processor, to provide a broad range of services to the CAT, including data ingestion, data management, and analytic tools. Services provided by AWS necessary to the CAT include storage services, databases, compute services, and other services (such as networking, management tools and development operations (“DevOps”) tools). AWS also was engaged to provide the various environments for CAT, such as the development, performance testing, test and production environments, which are required by the CAT NMS Plan.

- *High Data Volume.* The cost for AWS services for the CAT is a function of the volume of CAT Data. While it is not linear, the greater the amount of CAT Data, the greater the cost of AWS services to the CAT. The data volume handled by AWS now far exceeds the original volume estimates for the CAT.

- *Plan Requirements.* The cost for AWS services also reflects the technical requirements necessary to meet the stringent performance and other requirements for processing CAT Data. These Plan-dictated processing timelines, storage, testing, security and other technical requirements are significant drivers of AWS costs.

- *Cost Avoidance Efforts.* CAT LLC and FCAT have engaged in ongoing efforts to seek to avoid and minimize AWS costs where permissible under the Plan. Accordingly, these cost avoidance efforts have limited the extent of AWS costs.

In addition, various requirements of the CAT NMS Plan adopted pursuant to Rule 613 contribute to the significant cloud hosting services costs, and that various Plan requirements could be amended or removed without affecting the regulatory purpose of the CAT. Indeed, CAT LLC has repeatedly sought

exemptive relief and filed amendments to the CAT NMS Plan, and has even filed suit against the Commission, to seek to revise or eliminate certain costly requirements related to the CAT. However, despite these efforts, absent the Commission granting exemptive relief or approving cost savings amendments to the CAT NMS Plan, CAT LLC, the Participants and Industry Members are all required to comply with such requirements.

(ii) Effect of CAT Design on CAT Costs

(a) Efficient CAT Design

CAT is reasonably designed to efficiently and effectively utilize cloud computing and storage services, given the requirements of the Commission-approved CAT NMS Plan, including requirements related to security, operational reliance and quality assurance, and maintainability.

The Plan Processor uses state-of-the-art software that meets the strict security standards of the CAT NMS Plan. CAT utilizes a big data processing framework that is extensively used by large data processing companies, such as Apple, Meta, Netflix, IBM and Google. As such, it has substantial commercial support and support in the open-source community. It is also well suited for use with regard to iterative types of algorithms and query functions and analytics that the CAT requires, and it provides the heightened security necessary for the CAT.

The development and implementation of the design of CAT is not and has not been static. CAT LLC and the Plan Processor are always evaluating new innovations and service offerings from AWS and other providers to seek to maximize efficiency and cost avoidance while still satisfying the requirements of the CAT NMS Plan. These efforts have led to substantial savings to date. The cloud hosting costs for 2023 were less than the cloud hosting costs for 2022 by \$8 million despite processing seven trillion more events in 2023 due to the efficiency and cost avoidance efforts for cloud hosting services. For example, when AWS introduced new storage options, FCAT adopted the cost-efficient new storage option after establishing that the new offering would satisfy the security and other standards of the CAT NMS Plan. This change led to millions of dollars of savings in storage costs. Similarly, when AWS introduced a new compute processor, FCAT adopted this new compute processor, which led to millions of dollars in savings in compute costs. However, in other cases, new cloud technology developments could not be implemented in CAT

because they would not satisfy the security or other requirements of the CAT NMS Plan.

When evaluating the design of the CAT, it must be kept in mind that the CAT is not a typical commercial technology project. The ability to make use of technology approaches that may lead to cost avoidance is also subject to the restrictive requirements of the CAT NMS Plan, such as processing timeframes, requirements for retention of data versions, query requirements, and security standards. Because such requirements are set forth in the CAT NMS Plan, any modification of such requirements are subject to the time-consuming process of amending the CAT NMS Plan or seeking an exemption from the relevant requirement. For example, CAT LLC recently has filed an amendment to address several of these expensive Plan requirements.¹⁷⁰

(b) CAT Was Designed To Minimize Industry Member Effort

The CAT System also was designed to minimize the extent to which Industry Members would need to alter their systems to report to CAT. During the design process, Industry Member groups argued that it would make more sense financially for the CAT to accommodate differences in industry systems, than for all Industry Members to change their systems. Moreover, such design choices would facilitate consistency, uniformity and accuracy in reporting. Requiring the CAT to make such accommodations may increase CAT costs while accommodating CAT Reporters.

Based on the requirements in the CAT NMS Plan and/or in response to industry requests for functionality to be embedded with the Plan Processor to streamline or limit Industry Member system changes, the CAT has been designed to limit the effect on Industry Members. The following provides examples of such accommodations:

- *Industry Member Reporting.* In light of the complexity of Industry Member market activity, the CAT's order reporting and linkage scenarios document for Industry Members is over 800 pages in length, addressing nearly 200 scenarios.¹⁷¹ The Industry Member Technical Specifications allow for dozens of specific event types, which drive complexity for the Plan Processor,

but streamline reporting for Industry Members. Furthermore, the Plan Processor greatly expanded Industry Member linkage requirements to support, among other things, child events and supplemental events, allowing for "stateless as-you-go" and "batch end-of-day" reporting when all data is available. Accordingly, CAT takes on the significant cost and effort of providing the required linkages between CAT events; correspondingly, Industry Members are not required to perform this costly task.

- *File Submission Process.* The CAT was designed to accommodate the varying needs of CAT Reporters with regard to the file submission process. For example, in a 2018 letter, FIF stated that "[t]he SFTP-based submission process is cumbersome, exposes industry members to unnecessary complexity, and puts the burden of support on the CAT Reporter rather than imbedding more functionality into the Plan Processor."¹⁷² Currently, FCAT provides two mechanisms for submitting files: SFTP via a private network, and the Web via Reporter Web Portal.

- *Error Corrections.* The industry also emphasized the need for the CAT to provide error correction tools and functionalities to identify, rectify and re-submit corrections within the required timeframe. For example, FIF stated in a 2018 letter the following:

To be clear, if OATS-like error correction tools are not made available on Day 1, hundreds of firms will be required to create and test their own tools or obtain vendor alternatives prior to the CAT Go-Live Date. Proprietary tools will require additional system builds, access to and ingestion of CAT data to perform system validation, and testing which will further stress the limited number of subject matter experts ("SMEs") dedicated to the implementation of CAT reporting. Should this occur, inevitably firms (especially small firms who lack the necessary IT staff to write code and develop proprietary systems), may be put in the position of passing onto investors the cost required to build hundreds of redundant systems.¹⁷³

CAT provides various tools to help Industry Members identify and rectify errors.

- *Data Ingestion Format.* The industry also recommended that CAT adopt a flexible input format that provides an option for Industry

Members to submit data in formats that are already in use to reduce costs and potential reporting errors. For example, FIF argued the following:

FIF CAT WG is not proposing a specific format; rather, we are proposing flexibility of input formats which includes support of existing formats (e.g., OATS, FIX) as well as a baseline specification where all fields are defined, and normalized. The input formats must be clearly and thoroughly defined in Technical Specifications, including FAQs.

Mandating a uniform format for reporting data to the CAT simplifies the task for the Central Repository of consolidating/storing data, but it puts the burden on each CAT Reporter to accurately translate their current (e.g., OATS) reporting information into a uniform CAT interface. However, that is likely to yield more errors because it is very dependent on accurate, complete and timely information (Technical Specifications, FAQs, meta-data, competent CAT help desk) available to CAT Reporters, availability of sophisticated CAT test tools to validate interface protocols, and the skill levels of the estimated 300+ unique CAT Reporters/Submitters during Phase 1 of CAT. Concentrating the responsibility of data conversions with the Central Repository is a reasonable trade-off that should yield fewer errors, and greater accuracy.¹⁷⁴

CAT provides such a flexible input format.

(c) Effect of Initial Plan Processor Design

The costs for cloud hosting services are appropriate and have not been adversely affected by the original design and approaches of the Initial Plan Processor. FCAT's design costs are the result of the requirements of the Commission-approved CAT NMS Plan.

When FCAT took over as the Plan Processor from Thesys, it utilized certain aspects of the technical specifications created by Thesys in its design. However, FCAT has not maintained aspects of the original design that would not be appropriate for the CAT. FCAT revised and enhanced the original technical specifications of the CAT System to increase its efficiency and efficacy, and to ensure its compliance with the CAT NMS Plan. For example, the Initial Plan Processor's approach utilized many more fields than FCAT's approach, which relies on additional linkages. With the additional

¹⁷⁰ See, e.g., Securities Exchange Act Rel. No. 99938 (Apr. 10, 2024), 89 FR 26983 (Apr. 16, 2024); Letter from Brandon Becker, CAT NMS Plan Operating Committee Chair, to Vanessa Countryman, Secretary, Commission (Mar. 27, 2024) (proposing amendments to the CAT NMS Plan for \$23 million in annual savings).

¹⁷¹ See CAT Industry Member Reporting Scenarios v.4.10 (Oct. 21, 2022).

¹⁷² Letter from Janet Early, FIF, to Thesys CAT (Mar. 29, 2018).

¹⁷³ Letter from Christopher Bok, FIF, to Jay Clayton, Chair, Commission at 4 (Dec. 11, 2018).

¹⁷⁴ Letter from Mary Lou Von Kaenel, Managing Director, FIF, to Brent Fields, Secretary, Commission at 92 (July 18, 2016), <https://www.sec.gov/comments/4-698/4698-13.pdf>.

linkages, the CAT System takes on more of the CAT-related burdens than the Industry Members. Such an approach serves to facilitate consistency, uniformity and accuracy in reporting.

Moreover, FCAT did not utilize the system built by the Initial Plan Processor; it rebuilt the CAT System based on revised technical specifications. For example, the Initial Plan Processor used an on-premises processing approach which was not geared toward the huge amounts of data stored in the CAT, while FCAT adopted a cloud-based solution in response to such data demands.

Furthermore, given the very short timeframe to develop the CAT System and the prior optimization of certain query tools (e.g., Diver) for regulatory use with significant amounts of data, FCAT determined to rely upon certain existing FINRA tools and adapt them for use with the CAT.

(iii) Consideration of AWS Alternatives

CAT LLC continues to support the selection of AWS as the cloud hosting services provider for CAT given the compliance, operational, and security requirements of the CAT. Independent analyses confirm these conclusions, noting that “AWS is an excellent choice for either strategic or tactical use and recommends considering AWS for almost all cloud IaaS or IaaS+PaaS scenarios.”¹⁷⁵ AWS provides the following benefits to CAT, among others:

- *Broad Suitability.* AWS has a long track record of successfully serving cloud customers with mission-critical projects.

- *Proven Scalability.* AWS has demonstrated that it is capable of building and delivering services on a large scale.

- *Track Record of Innovation.* AWS continues to rapidly innovate, both in terms of new domains of capability and at a fundamental level, thereby facilitating innovation for its customers.

- *Resiliency/Dependability.* Another benefit of AWS is its resiliency; it has a strong track record of stable services. As noted in a review of cloud service providers, “[c]ustomers like to have a broad set of options for resilience and for their cloud providers to have a strong track record of stable services (continuously available, without operational quirks). Only AWS fulfills both desires.”¹⁷⁶

- *Technical and Customer Support.* AWS consistently provides high-quality technical and customer support and engagement. Given the size, scope and regulatory importance of CAT, customer support and engagement that CAT has with the highest levels of AWS are very important to the success of the CAT.

- *Scale.* AWS is capable of supporting large-scale solutions, which is critical given the size and magnitude of the CAT.

- *Security.* AWS provides the security features necessary for the CAT.

In addition, the nature of the CAT, including the amount of data it must process and the size of its data footprint, does not allow for a multi-cloud solution as this would be cost prohibitive and greatly increase the security boundary and associated risk profile of the CAT. For example, a multi-cloud hosting option would increase costs, complexity, and risk for operations with regard to, for example, DevOps, production support, and networking. Similarly, with regard to security, a multi-cloud solution would increase risk, including with regard to the need for data transfers between cloud providers and the expansion of the security boundary. With regard to labor, a multi-cloud solution would lose economies of scale due to the need to support unique cloud requirements. Accordingly, the use of a single-cloud solution continues to provide advantages with regard to cost, complexity, and risk. Indeed, “[t]he best practice is to focus on a single primary strategic provider.”¹⁷⁷

Furthermore, if another cloud service provider were determined to be a better match for the CAT at some future date, switching cloud service providers would be a very significant, expensive and time-consuming effort. Such an effort would likely be a 10-to-15-year commitment at a substantial expense. Such a move would require the replication or redesign of the underlying cloud environments (e.g., organizational setup, identify management, accounts, environments, DevOps tooling like release management/config management/network management), as the new provider likely would not have the same infrastructure and software. Once that process has been completed, an exabyte of CAT data would need to be securely migrated to the new platform.

(C) Funding Model Filings

CAT LLC believes that the recovery of costs related to the development of the funding model is appropriate, and that

the amount and scope of such costs, as described above, are reasonable.

Funding the CAT is a critical aspect of Rule 613 and the CAT NMS Plan. Article XI of the CAT NMS Plan describes in detail the requirements for funding the CAT, and the Participants are required to comply with and enforce compliance with the funding requirements of the CAT NMS Plan, just as with other aspects of the Plan. Accordingly, the development and implementation of a funding model for the CAT is as much a part of the requirements of the CAT NMS Plan as the development and operation of the CAT System. CAT LLC sees no reason to distinguish the efforts to develop a funding model from, for example, efforts to develop the CAT System, in seeking to recover reasonable CAT costs.

Moreover, in approving the CAT Funding Model, the Commission recognized that it is appropriate to recover reasonable costs for legal services as a part of Historical CAT Assessments. As approved by the SEC, the CAT NMS Plan states that “the reasonably budgeted CAT costs shall include . . . legal costs.”¹⁷⁸ In addition, the CAT NMS Plan also requires Participants to include in their fee filings “a brief description of the amount and type of the Historical CAT Costs, including . . . legal . . . costs.”¹⁷⁹ In keeping with these provisions, this filing provides a brief description of reasonably budgeted legal costs above. These legal costs include costs related to the development of the CAT Funding Model.

In addition, the legal costs incurred for the assistance in developing the CAT Funding Model are reasonable in both amount and scope and should be recoverable as a part of Historical CAT Assessment 1A. As described above, the specialized services were performed by experienced counsel at negotiated rates for such services that reflect both the extent of the services and market rates. Moreover, the scope of the legal costs associated with the development of the funding model reflect the complexity of the task in satisfying the detailed requirements of the CAT NMS Plan, the standards of the Exchange Act, and the many perspectives of the different market constituents potentially affected by or interested in the funding model, including Industry Members, Participants and investors. The many and varied comments by market participants on CAT funding over the

¹⁷⁶ Strategic Cloud Assessment Article.

¹⁷⁷ *Id.*

¹⁷⁸ Section 11.1(a)(i) of the CAT NMS Plan.

¹⁷⁹ Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

years demonstrate the complexity of the task.

(D) Costs Related to Litigation With the SEC

CAT LLC believes that the recovery of legal costs related to the litigation with the SEC regarding the CAT NMS Plan is appropriate, and that the amount and scope of such costs, as described above, are reasonable.

As a preliminary matter, as discussed above, the Commission recognized that it is appropriate to recover reasonable costs for legal services as a part of Historical CAT Assessments.¹⁸⁰ Moreover, CAT LLC initiated such litigation, and incurred the related legal costs, because it was critical to address the Commission's interpretations of the CAT NMS Plan. Among other things, such interpretations threatened to impose unnecessary costs on the CAT, which would be borne by the Participants and Industry Members. Indeed, in response to the litigation, the Commission provided exemptive relief that allowed alternative, more cost-effective approaches to the implementation of the CAT. Specifically, in the 2023 exemptive order, the Commission stated:

The conditional exemptive relief in this Order allows for the implementation of alternative regulatory solutions that continue to advance the regulatory goals that Rule 613 and the CAT NMS Plan were intended to promote, while reducing the implementation and operational costs, burdens, and/or difficulties that would otherwise be incurred by the Participants and Industry Members that must fund the CAT.¹⁸¹

CAT LLC believes it is reasonable and appropriate to incur costs to limit the need to incur even greater costs due to certain interpretations of the Plan.

In addition, the legal costs incurred during the litigation are reasonable in both amount and scope and should be recoverable as a part of Historical CAT Assessment 1A. As described above, the specialized services were performed by experienced counsel at market rates for such services. As such, the legal costs related to this litigation incurred during the period covered by Historical CAT Assessment 1A were reasonable.

Finally, Industry Members will directly benefit from the result of the litigation because it has addressed CAT NMS Plan requirements that would have imposed significantly greater costs on the CAT. Accordingly, it is

reasonable and appropriate that the costs of such litigation be included in Historical CAT Costs 1.

(E) Costs Related to the Initial Plan Processor

CAT LLC believes that it is appropriate to recover costs related to the services performed by the Initial Plan Processor prior to November 15, 2017, which was the date by which Participants were required to begin reporting to the CAT, due to the delay in the commencement of reporting to the CAT. As discussed above, the Participants determined to exclude all CAT costs incurred from November 15, 2017 through November 15, 2018, which includes \$37,852,083 in Thesys costs incurred from November 15, 2017 through November 15, 2018 (as well as other CAT costs during this period). The remaining Thesys costs incurred after November 15, 2018 are the \$19,628,791 in capitalized developed technology costs for the period from November 16, 2018 through February 2019 incurred in the development of the CAT by the Initial Plan Processor, as well as a transition fee for the transition from the Initial Plan Processor to the successor Plan Processor. The Participants would remain responsible for 100% of these \$19,628,791 in costs.

CAT LLC believes that it is appropriate to recover costs related to the services performed by the Initial Plan Processor prior to November 15, 2017. CAT LLC notes that the development and implementation of the CAT System, while unprecedented in scope and design, is like any other large and innovative technology project in that, inevitably, there were adjustments and refinements in the technical approach as the project developed, even with substantial planning efforts and oversight prior to the build. This is even more likely when the project faces a very tight implementation schedule, such as the one imposed by the Commission in Rule 613 and the CAT NMS Plan. However, an adjusted approach does not mean that the funds were not valid expenditures and should not be recovered.

The reasonableness of Thesys costs should be evaluated by the Commission as of the time they were incurred, not in hindsight. As detailed above, the Commission concluded in 2016 that "the competitive bidding process to select the Plan Processor is a reasonable and effective way to choose a Plan Processor," and that "the process set forth in the Selection Plan should be permitted to continue."¹⁸² Following

this process, the Participants notified the Commission of the selection of Thesys as the Initial Plan Processor on January 17, 2017.¹⁸³ At the time, neither the Commission nor the industry argued that the selection of the Initial Plan Processor was unreasonable or otherwise inconsistent with the CAT NMS Plan, nor did they predict the selection would result in unanticipated delays in the implementation of the CAT System. On the contrary, on April 4, 2017, the President of SIFMA wrote that "SIFMA looks forward to commencing work with the SROs and Thesys."¹⁸⁴

As noted in the CAT Funding Model Approval Order, the Commission recognized that "[t]he CAT NMS Plan contemplates that the costs of the CAT are to be allocated between the Participants and Industry Members."¹⁸⁵ If the CAT Funding Model had existed on Day 1, the risk of any unanticipated costs or challenges associated with the Initial Plan Processor would have been fairly and reasonably shared among the Participants and Industry Members on an ongoing basis. Given that the Commission concluded in 2012 that the costs of the CAT would be shared by the Participants and Industry Members, it is not fair or reasonable to determine in hindsight that all of the risk involved in developing the CAT should be allocated entirely to the Participants.

(F) CAIS Implementation Costs

CAT LLC believes that the recovery of CAIS-related costs is appropriate, and that the amount and scope of such costs, as described above, are reasonable, and that the reasonableness of historical costs should be evaluated by the Commission as of the time they were incurred, not in hindsight.

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover reasonable CAIS operating costs as a part of Historical CAT Assessments. As approved by the SEC, the CAT NMS Plan states that "the reasonably budgeted CAT costs shall include . . . CAIS operating fees."¹⁸⁶ In addition, the CAT NMS Plan also requires Participants to include in their fee filings "a brief description of the amount and type of the Historical CAT

¹⁸³ Letter from the Participants to Brent J. Fields, Secretary, SEC (Jan. 18, 2017), <https://www.sec.gov/divisions/marketregrule613-info-notice-of-plan-processor-selection.pdf>.

¹⁸⁴ Letter from Kenneth E. Bentsen, Jr., SIFMA, to Participants re: Selection of Thesys as CAT Processor (Apr. 4, 2017), <https://www.sifma.org/wp-content/uploads/2017/05/SIFMA-Submits-Comment-Letter-to-SRO-on-the-selection-of-Thesys-as-the-CAT-Processor.pdf>.

¹⁸¹ Settlement Exemptive Order at 77129–30.

¹⁸² CAT NMS Plan Approval Order at 84737.

Costs, including . . . CAIS operating fees.”¹⁸⁷ In keeping with these provisions, this filing provides a brief description of reasonably budgeted CAIS operating fees.

In addition, CAT LLC determined that the CAIS operating fees described above are reasonable in both amount and scope and should be recoverable as a part of Historical CAT Assessment 1A. The “CAIS Operating Costs” for Historical CAT Costs 1 total \$9,480,587, with Pre-FAM costs of \$2,072,908, FAM 1 costs of \$254,998, FAM 2 costs of \$1,590,298, and FAM 3 costs of \$5,562,383. As described above, the CAIS operating fees were incurred with regard to two categories of CAIS-related efforts: (1) the acceleration of the reporting of LTIDs; and (2) the development of the CAIS Technical Specifications and the building of CAIS. These two categories of costs are discussed in more detail below.

(i) LTID Reporting

During the period covered by Historical CAT Assessment 1A, the CAIS operating costs included costs related to the acceleration of the reporting of LTIDs earlier than originally contemplated during this period at the request of the SEC and in accordance with exemptive relief granted by the SEC.¹⁸⁸ As the SEC approved in this exemptive relief, the Participants proposed “to require the reporting of LTIDs to the CAT in Phases 2c and 2d, instead of with the rest of Customer Account Information in Phase 2e, which potentially could result in an earlier elimination of broker-dealer recordkeeping, reporting and monitoring requirements of the Large Trader Rule.”¹⁸⁹ To implement the reporting of LTIDs to the CAT, the following steps were taken during the period covered by Historical CAT Assessment 1A:

- After FCAT developed the LTID Technical Specifications, the LTID Technical Specifications were published on January 31, 2020, with additional updates provided to the LTID Technical Specifications through April 2021.¹⁹⁰
- The LTID account information testing environment opened on August 24, 2020.

- The LTID account information reporting production environment opened on December 14, 2020.
- CAT Reporters were required to request their production readiness certification for account information related to LTIDs by the deadline of April 9, 2021.
- The LTID account information reporting for Phases 2a, 2b and 2c for Large Industry Members went live on April 26, 2021.
- The LTID account information reporting for Phases 2d for Large Industry Members went live on December 13, 2021.
- The LTID account information reporting for Phases 2a, 2b, 2c and 2d for Small Industry Members went live on April 26, 2021.

Throughout this project, FCAT and CAT LLC worked closely with the industry on LTID and CAIS reporting. Between December 2019 and December 2021, at least 57 checkpoint calls, webinars, and technical working group meetings with industry representatives were hosted to address issues and to educate CAT Reporters regarding LTID and CAIS reporting.¹⁹¹

The LTID reporting project was successfully completed in a timely fashion, and the fees related to the project were reasonable. Accordingly, CAT LLC appropriately seeks to recover such costs via Historical CAT Assessment 1A.

(ii) CAIS Reporting

During the period covered by Historical CAT Assessment 1A, FCAT began the development of the full CAIS Technical Specifications and the building of CAIS. The CAIS Technical Specifications were developed during this period as follows:

- Iterative drafts of the CAIS Technical Specifications were published on June 30, 2020, December 1, 2020, and January 1, 2021.¹⁹²
 - The full, final CAIS Technical Specifications were published on January 29, 2021.
 - Updated versions of the CAIS Technical Specifications were published throughout 2021.¹⁹³
- As discussed above, FCAT and CAT LLC frequently engaged with the industry regarding the development of

CAIS, hosting regular checkpoint calls, webinars, and technical working group meetings with industry representatives to address any issues, including addressing the interplay between Industry Members’ existing customer systems and CAIS, and to educate CAT Reporters regarding LTID and CAIS reporting. Such engagement was critical to the CAIS development process as the CAIS project was unprecedented in terms of its content, scope and complexity.

During this period, FCAT also commenced the building of the CAIS system in accordance with the CAIS Technical Specifications during the period covered by Historical CAT Assessment 1A. The CAIS system was ready for industry testing shortly after the end of this period in January 2022.

The CAIS Technical Specifications and the CAIS system, as developed during this period, continue to be used. Industry Members have been required to report, and have continuously reported, required data to CAIS on a daily basis since November 7, 2022, consistent with interim reporting obligations. The CAIS system accepts and validates the CAIS data submitted by Industry Members and provides Industry Members with initial feedback on data errors. In light of the unprecedented nature of the CAIS system, certain changes to the system, such as changes related to error corrections and the CAIS regulatory portal, were necessary to finalize CAIS reporting. FCAT worked to address these remaining issues,¹⁹⁴ and, as of May 31, 2024, FCAT indicated that it had achieved the final CAIS reporting milestone. Accordingly, CAT LLC appropriately seeks to recover CAIS operating costs via Historical CAT Assessment 1A.

(G) Public Relations Costs

CAT LLC believes that the recovery of public relations costs is appropriate and that the amount and scope of such costs, as described above, are reasonable.

The Commission has long recognized that external public relations costs are reasonably associated with creating, implementing and maintaining the CAT. In the CAT NMS Plan Approval Order, the Commission estimated that the Participants had collectively spent approximately \$2,400,000 in preparation of the CAT NMS Plan on external public relations, legal, and consulting costs, and estimated that the Participants would continue to incur

¹⁸⁷ Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

¹⁸⁸ See Phased Reporting Exemptive Relief Order at 23079–80.

¹⁸⁹ *Id.* at 23078–79, n.70.

¹⁹⁰ The LTID Technical Specifications, including original drafts and updated versions, are available on the Industry Member Specifications page of the CAT website (<https://www.catnmsplan.com/specifications/im>).

¹⁹¹ Such contact points with the industry are described in detail on the Events web page of the CAT website (<https://www.catnmsplan.com/events>).

¹⁹² The CAIS Technical Specifications, including original drafts and updated versions, are available on the Industry Member Specifications page of the CAT website (<https://www.catnmsplan.com/specifications/im>).

¹⁹³ Six updated versions of the CAIS Technical Specifications were published during 2021, in March, May, June, August, October and December.

¹⁹⁴ See, e.g., CAT Q4 2023 Quarterly Progress Report (Jan. 30, 2024) (<https://www.catnmsplan.com/sites/default/files/2024-01/CAT-Q4-2023-QPR.pdf>).

external public relations costs associated with maintaining the CAT upon approval of the CAT NMS Plan.¹⁹⁵

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover reasonable costs for public relations services as a part of Historical CAT Assessments. As approved by the SEC, the CAT NMS Plan states that “the reasonably budgeted CAT costs shall include . . . public relations costs.”¹⁹⁶ In addition, the CAT NMS Plan also requires Participants to include in their fee filings “a brief description of the amount and type of the Historical CAT Costs, including . . . public relations costs.”¹⁹⁷ In keeping with these provisions, a brief description of reasonable public relations costs are described above.

In addition, CAT LLC determined that the public relations costs described above are reasonable in both amount and scope and should be recoverable as a part of Historical CAT Assessment 1A. The services performed by the public relations firms through 2021 were limited in scope to assist CAT LLC, which has no employees of its own, to be better positioned to understand and address CAT matters to the benefit of all market participants and to communicate on important CAT topics with the public. In addition, the costs for these services were appropriately limited. During the 10-year period covered by Historical CAT Assessment 1A, the average cost per year for these services was approximately \$36,000.

(H) Legal Costs Related to the Limitation of Liability Provision in CAT Reporter Agreements

CAT LLC believes that the recovery of legal costs related to the limitation of liability provision, including costs related to the proceedings before the SEC and costs related to the proposed amendment to the Consolidated Audit Trail Reporter Agreement and the Consolidated Audit Trail Reporting Agent Agreement (the “Reporting Agreements”) is appropriate and that the amount and scope of such costs as described above are reasonable.

As a preliminary matter, as discussed above, the Commission recognized that it is appropriate to recover reasonable costs for legal services as a part of Historical CAT Assessments.¹⁹⁸ In addition, CAT LLC determined that the legal costs incurred for the assistance

with regard to the limitation of liability provisions are reasonable in both amount and scope and should be recoverable as a part of Historical CAT Assessment 1A.

Moreover, it is critical that CAT LLC, which has no employees of its own, have the ability to fund a legal defense in litigation and other legal proceedings against it. In response to CAT LLC requiring Industry Members to agree to the limitation of liability provision to submit data to the CAT, SIFMA filed an application for review of actions taken by CAT LLC and the Participants pursuant to Sections 19(d) and 19(f) of the Exchange Act. Contemporaneously with the filing of this proceeding, SIFMA moved for a stay of the requirement that Industry Members sign a Reporter Agreement, or in the alternative, asked the Commission to further delay the launch of CAT reporting on June 22, 2020. CAT LLC must have the resources to defend itself from litigious actions by others, like these.

Although a limitation of liability provision ultimately was not adopted as proposed, it was a reasonable provision to propose for the CAT Reporter Agreements, given that such provisions are in accordance with industry norms. Limitations of liability are ubiquitous within the securities industry and have long governed the economic relationships between self-regulatory organizations and the entities that they regulate. For example, U.S. securities exchanges have adopted rules to limit their liability for losses that Industry Members incur through their use of exchange facilities.¹⁹⁹ Similarly, FINRA’s former order audit trail, OATS, which has functioned as an integrated audit trail of order, quote, and trade data for equity securities, required FINRA members to acknowledge an agreement that includes a limitation of liability provision.²⁰⁰ In addition, such a provision was intended to ensure the financial stability of the CAT. Accordingly, it was reasonable for CAT LLC to propose the use of such a provision.²⁰¹

¹⁹⁹ See, e.g., NASDAQ Equities Rule 4626.

²⁰⁰ FINRA Rule 1013(a)(1)(R) requires all applicants for FINRA Membership to acknowledge the FINRA Entitlement Program Agreement and Terms of Use, which applies to OATS. Industry Members click to indicate that they agree to its terms—including its limitation of liability provision—every time they access FINRA’s OATS system to report trade information (*i.e.*, repeatedly over the course of a trading day for many Industry Members).

²⁰¹ See Letter from Michael Simon, Chair, CAT Operating Committee, to Vanessa Countryman, Secretary, Commission (Dec. 18, 2020).

Furthermore, as described above, the specialized services were performed by experienced counsel at market rates for such services. Accordingly, the legal costs for the efforts related to the limitation of liability provision were reasonable.

(I) Costs for the Chair of the CAT Operating Committee

CAT LLC believes that the recovery of consulting costs related to the Chair of the CAT Operating Committee is appropriate and that the amount and scope of such costs are reasonable.

As a preliminary matter, the selection of the Chair of the Operating Committee complies with the requirements of Section 4.2 of the CAT NMS Plan. The initial Chair that served during the period covered by Historical CAT Assessment 1A was designated by a Participant as the Participant’s alternate voting member. Accordingly, the Chair is a representative of the Participants, as required by the CAT NMS Plan.

In addition, in approving the CAT Funding Model, the Commission recognized that it is appropriate to recover reasonable costs for consulting as a part of Historical CAT Assessments. As approved by the SEC, the CAT NMS Plan states that “the reasonably budgeted CAT costs shall include . . . consulting . . .” costs.²⁰² In addition, the CAT NMS Plan also requires Participants to include in their fee filings “a brief description of the amount and type of the Historical CAT Costs, including . . . consulting”²⁰³ costs. In keeping with these provisions, a brief description of reasonable consulting costs is included in this filing, and such reasonable consulting costs include the costs related to the Chair position.

The Participants determined that the position of the Chair was a critical role for the implementation of the CAT, and an independent Chair would appropriately consider and address the views of each of the Participants. The Participants also determined that it was important to have a Chair with a strong background regarding issues related to the regulatory obligations of self-regulatory organizations, including their obligations under national market system plans. The compensation paid to the Chair is appropriate for a person with such background and skills. The average annual amount paid to the Chair from 2017 through the end of FAM 3 was \$292,733.30. Separate from the Chair, CAT LLC relies upon a

Leadership Team of representatives of the SROs to oversee the day-to-day implementation of the CAT NMS Plan. CAT LLC does not compensate any member of the Leadership Team.

(11) Fee Implementation Assistance for Industry Members

(A) Reconciliation of CAT Invoices

(i) Reconciliation of CAT Invoices to Underlying Trades Provided by CAT

CAT LLC understands that there are three types of reconciliation processes related to the invoices:

- *Reconciliation of CAT Invoices to Underlying Trades:* Reconciling the CAT invoice amount to the underlying trades provided by CAT;

- *Matching Trades to Books and Records:* Providing the means to match the underlying trades provided by CAT with CAT invoices to other books and records independently maintained by individual CAT Reporters (e.g., exchange trade journals/acknowledgements) and data sources of self-regulatory organizations independent of CAT; and

- *Order Originator Identification:* Providing the ability to identify the order originator for the underlying trades provided by CAT with CAT invoices, which would facilitate firms' ability to pass through CAT Fees to their customers.

As discussed further below, CAT LLC only considers the first type of process to be a "reconciliation" and the only type of process that is required under the CAT NMS Plan. CAT LLC provides the means to reconcile the CAT invoice amount to the underlying trades provided by CAT.

The CAT NMS Plan does not require CAT LLC to facilitate the second type of process: matching underlying trades for a CAT invoice with a firm's internal books and records. CAT LLC has access only to the underlying trades provided by CAT; it does not have access to a firm's internal books and records. Although beyond the requirements of the CAT NMS Plan and involving firm specific considerations, CAT LLC voluntarily has provided guidance and processes to assist CAT Reporters in their efforts to match the underlying trades with their own books and records.

The CAT NMS Plan also does not require CAT LLC to provide the ability to identify the order originator for the underlying trades for the CAT invoices. Accordingly, the billing guidance and processes do not provide CAT Reporters with the ability to identify the order originator for the underlying trades provided by CAT with CAT invoices.

CAT LLC has been working closely with CAT Reporters to explain its billing approach and to address any outstanding billing questions. But, it should not be lost that CAT LLC provides information sufficient to allow CAT Reporters to reconcile CAT invoice amounts with the underlying trades provided by CAT LLC.

(ii) Match the Underlying Trades Provided by CAT With CAT Invoices to Firms' Internal Books and Records Independent of CAT

The CAT NMS Plan does not require CAT LLC to facilitate the matching of underlying trades for a CAT invoice with a firm's internal books and records, which may consist of trading data from various sources external to CAT. Although beyond the requirements of the CAT NMS Plan and involving firm specific considerations, CAT LLC voluntarily has provided guidance and processes to assist CAT Reporters in their efforts to match the underlying trades with their own books and records.

In this regard, it is important to recognize that CAT LLC has developed a billing approach that greatly improves upon existing billing practices for similar regulatory fees (e.g., fees related to Section 31). Accordingly, with the additional information voluntarily provided by CAT LLC, CAT Reporters generally will have sufficient information to match their underlying trades provided by CAT with their own internal books and records that are independent of CAT or to SRO data that is independent of CAT data. However, CAT LLC emphasizes that providing such additional information is not required by the CAT NMS Plan.

To facilitate the introduction of CAT fees, CAT LLC has worked with FCAT to develop an approach to CAT billing that is consistent with existing billing constructs used with regard to Section 31-related sales values fees, subject to certain enhancements. Under this billing approach, FCAT is providing additional linkage elements, not necessarily provided in the Section 31-sales value fee context, to facilitate CAT Reporters' ability to match the underlying trades provided by CAT with their internal books and records and to reduce the complexity of that process. Specifically, FCAT is providing various key elements of the trade itself, such as the tradeID and branch sequence,²⁰⁴ to CAT Reporters in the

trade billing details provided with their CAT invoices ("Additional Trade Details"). As a result, CAT Reporters now have numerous alternative methods for matching a trade with their internal books and records where they previously did not have such matching methods in other fee contexts.

With the Additional Trade Details, CAT LLC and FCAT believe that the overwhelming majority of underlying trades provided by CAT bills can be matched with a CAT Reporter's internal books and records. CAT LLC recognizes that there may be certain cases in which such matching is more difficult given various firm-specific considerations, but believes that such instances are significantly more limited than with regard to the SRO fees charged in relation to Section 31.²⁰⁵ By providing Additional Trade Details that are not available in other fee contexts, FCAT enhances the Industry Members' ability to match the underlying trades provided with CAT invoices with books and records and SRO data, both of which are independent of CAT data.

(iii) CAT LLC is Not Required To Facilitate CAT Reporters' Ability To Pass Through Fees to Their Customers

Similar to other regulatory fees, the CAT NMS Plan does not address the manner or extent to which CAT Executing Brokers may seek to pass any CAT fees on to their customers, nor does it impose any obligation on CAT LLC or the Plan Processor to facilitate firms' ability to do so. Accordingly, Historical CAT Assessment 1A does not address the process by which any CAT Reporters may pass through the fee to their customers. Likewise, the CAT billing approach provided by the Plan Processor is designed to address the needs of CAT Reporters with regard to the reconciliation of CAT invoices with the underlying trades provided by CAT LLC with the invoices; they are not designed to address issues related to any pass-through fees. Accordingly,

Billing Scenarios, Version 1.0 (Nov. 30, 2023) (<https://www.catnmsplan.com/sites/default/files/2024-01/01.12.2024-CAT-Billing-Scenarios-v1.0.pdf>).

²⁰⁵ For years, broker-dealers have faced similar reconciliation issues with regard to SRO fees related to Section 31. Broker-dealers have responded to this issue in the Section 31 context by exercising their discretion as to whether and the manner and extent to which they pass on those fees (e.g., by rounding up its fees to the nearest cent, or decide to charge for, or not charge for, certain transactions, or assess a specific fee or incorporate the costs into other fee programs). See, e.g., Securities Exchange Act Rel. No. 49928 (June 28, 2004), 69 FR 41060, 41072 (July 7, 2004) (noting that broker-dealers may "over-collect" Section 31-related fees charged to their clients due to rounding practices, and double-counting with regard to certain transactions).

²⁰⁴ See CAT Technical Specifications for Billing Trade Details; Trade Details Schema (<https://catnmsplan.com/sites/default/files/2024-02/02.05.24-Billing-Trade-Details-Schema.json>); CAT

facilitating CAT Reporters' ability to pass through fees to their clients is outside the scope of this fee filing. Nevertheless, as described below, CAT LLC and the Plan Processor have expended significant efforts to provide technical assistance to Industry Members regarding the implementation of Historical CAT Assessment 1A, including providing Additional Trade Details that provide significant details about each underlying trade.

(a) Originating Brokers Versus Executing Brokers

In its approval of the CAT Funding Model, the Commission approved charging CAT fees to the CAT Executing Broker, rather than the originating broker. This fee filing must comply with the requirements of the CAT Funding Model, and, therefore, charges the Historical CAT Assessment 1A to CAT Executing Brokers.

Moreover, charging originating brokers would introduce significant complexity to the billing process from the CAT's perspective, and would increase the costs of implementing CAT fees. Charging the CAT Executing Broker is simple and straightforward, and leverages a one-to-one relationship between billable events (trades) and billable parties, similar to other transaction-based fees. In contrast, for a single trade event, there may be many originating brokers, and each trade must be broken down on a pro-rata basis, to account for one or more layers of aggregation, disaggregation, and representation of the underlying orders. While CAT is indeed designed to capture and unwind complex aggregation scenarios, the data and linkages are structured to facilitate regulatory use, and not a billing mechanism that assesses fees on a distinct set of executed trades; it is not simply a matter of using existing CAT linkages. Furthermore, charging originating brokers would implicate issues related to lifecycle linkage rates, and issues related to corrections, cancellations and allocations, while charging CAT Executing Brokers would avoid such issues.

(b) Identification of Order Originator for Underlying Trades

As noted, the CAT NMS Plan does not address the manner or extent to which CAT Executing Brokers may seek to pass any CAT Fees on to their customers, nor does it impose any obligation on CAT LLC or the Plan Processor to facilitate firms' ability to do so. Nevertheless, the Additional Trade Details provided with regard to the underlying trades on CAT invoices may assist with this process.

Like with Section 31-related sales value fees, however, it is not always possible to trace every fee on a transaction back to the originating party. Industry Members have faced these issues under Section 31-related sales values fees for many years.²⁰⁶ However, with the Additional Trade Details provided under the CAT billing approach, in many cases, CAT Reporters will be able to identify the order originator for the underlying trades provided by CAT with CAT invoices. In some cases, CAT LLC believes that certain issues related to certain types of market activity may implicate CAT Reporters' ability to identify the order originator for a limited set of underlying trades for the CAT invoices. Although CAT LLC does not believe that it is required to address these issues, CAT LLC and FCAT have been carefully researching and analyzing these types of issues as they are identified, and have been working voluntarily to assist CAT Reporters with these issues as necessary and when possible. In addition, CAT LLC intends to continue to provide CAT Reporters with billing guidance through FAQs, CAT Alerts and Helpdesk responses to address outstanding billing questions.

(B) Significant Technical Assistance

CAT LLC has worked with FCAT to provide significant technical assistance to Industry Members to allow the Industry Members to understand how Historical CAT Assessments will be implemented and billed, including webinars, CAT alerts, mock invoices, and responses to questions posed to the FCAT Help Desk.

- *Technical Specifications and Scenarios.* CAT LLC has provided detailed technical documentation for CAT billing, including (1) technical specifications, which describe the CAT Billing Trade Details Files associated with monthly CAT invoices, including detailed information about data elements and file formats as well as access instructions, network and transport options;²⁰⁷ (2) trade details

schemas;²⁰⁸ and (3) CAT billing scenarios.²⁰⁹

- *Industry Webinars.* CAT LLC has hosted two industry webinars specifically dedicated to CAT billing. The first webinar, hosted on September 28, 2023, discussed the operational implementation of the CAT Reporter billing process.²¹⁰ The second webinar, hosted on November 7, 2023, provided (1) a demonstration of the CAT Reporter Portal and how to access CAT billing documents, including CAT invoices; and (2) additional information on underlying trade details in relation to the CAT Reporter billing process and an overview of the CAT Contact Management System.²¹¹ 485 participants and 394 participants attended the two webinars, respectively.

- *CAT Alert.* CAT LLC has published a detailed CAT Alert that describes how FCAT, as the Plan Processor acting on behalf of CAT LLC, will calculate applicable fees, issue invoices to and collect payment from CAT Executing Brokers.²¹²

- *Frequently Asked Questions (FAQs).* CAT LLC also has continued to engage with the industry on billing issues by making responses to billing FAQs available on the CAT website. The FAQs address a broad range of frequently asked questions, including, for example, which Industry Members will receive invoices, how fees are calculated, when and how fees are required to be paid, how to access invoices, and how to update the billing contact. To date, responses to 31 FAQs are available on the CAT website, and CAT LLC will provide additional responses to FAQs as warranted.²¹³

- *Substantial Past Experience with CAT Billing Processes.* To date, CAT LLC, via FCAT, has billed Industry Members for Historical CAT Assessment 1 and certain Prospective CAT Fees. Industry Members will be billed for

Historical CAT Assessment 1A via the same processes established for Historical CAT Assessment 1 and the Prospective CAT Fees. Accordingly, Industry Members have substantial experience with the CAT billing processes.

- *Help Desk Assistance.* CAT LLC also provides detailed, individualized assistance to Industry Members regarding CAT fees and the billing process through the FCAT Help Desk.²¹⁴ For example, the Help Desk assisted with 406 cases related to the billing of CAT fees from July 2023 through March 2024.

By providing such detailed and sustained assistance to Industry Members regarding CAT fees and billing, CAT LLC has successfully addressed questions raised by Industry Members regarding the CAT fees and billing processes.

(C) Notice to Industry Members

In keeping with past practice, CAT LLC provided notice of the proposed Historical CAT Assessment 1A via CAT Fee Alert on April 1, 2026,²¹⁵ one month prior to the effective date of Historical CAT Assessment 1A on May 1, 2026. Such notice provides Industry Members with sufficient time to address any technological or other requirements necessary for implementing Historical CAT Assessment 1A.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the requirements of the Exchange Act. The Exchange believes that the proposed rule change is consistent with Section 6(b)(5) of the Act²¹⁶, which requires, among other things, that the Exchange's rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest, and not designed to permit unfair discrimination between customers, issuers, brokers and dealers. The Exchange also believes that the proposed rule change is consistent with the provisions of Section 6(b)(4) of the Act,²¹⁷ because it provides for the equitable allocation of reasonable dues,

fees and other charges among members and issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers. The Exchange further believes that the proposed rule change is consistent with Section 6(b)(8) of the Act²¹⁸, which requires that the Exchange's rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. These provisions also require that the Exchange be "so organized and [have] the capacity to be able to carry out the purposes" of the Act and "to comply, and . . . to enforce compliance by its members and persons associated with its members," with the provisions of the Exchange Act.²¹⁹ Accordingly, a reasonable reading of the Act indicates that it intended that regulatory funding be sufficient to permit an exchange to fulfill its statutory responsibility under the Act, and contemplated that such funding would be achieved through equitable assessments on the members, issuers, and other users of an exchange's facilities.

The Exchange believes that this proposal is consistent with the Act because it implements provisions of the Plan and is designed to assist the Exchange in meeting regulatory obligations pursuant to the Plan. In approving the Plan, the SEC noted that the Plan "is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act."²²⁰ To the extent that this proposal implements the Plan and applies specific requirements to Industry Members, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Act.

The Exchange believes that the proposed fees paid by the CEBBs and CEBs are reasonable, equitably allocated and not unfairly discriminatory. First, the Historical CAT Assessment 1A fees to be collected are directly associated with the costs of establishing and maintaining the CAT, where such costs include Plan Processor costs and costs related to technology, legal, consulting, insurance, professional and administration, and public relations costs. The Exchange has

already incurred such development and implementation costs and the proposed Historical CAT Assessment 1A fees, therefore, would allow the Exchange to collect certain of such costs in a fair and reasonable manner from Industry Members, as contemplated by the CAT NMS Plan.

The proposed Historical CAT Assessment 1A fees would be charged to Industry Members in support of the maintenance of a consolidated audit trail for regulatory purposes. The proposed fees, therefore, are consistent with the Commission's view that regulatory fees be used for regulatory purposes and not to support the Exchange's business operations. The proposed fees would not cover Exchange services unrelated to the CAT. In addition, any surplus would be used as a reserve to offset future fees. Given the direct relationship between CAT fees and CAT costs, the Exchange believes that the proposed fees are reasonable, equitable and not unfairly discriminatory.

As further discussed below, the SEC approved the CAT Funding Model, finding it was reasonable and that it equitably allocates fees among Participants and Industry Members. The Exchange believes that the proposed fees adopted pursuant to the CAT Funding Model approved by the SEC are reasonable, equitably allocated and not unfairly discriminatory.

(1) Implementation of CAT Funding Model in CAT NMS Plan

Section 11.1(b) of the CAT NMS Plan states that "[t]he Participants shall file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves." Per Section 11.1(b) of the CAT NMS Plan, the Exchange has filed this fee filing to implement the Industry Member CAT fees included in the CAT Funding Model. The Exchange believes that this proposal is consistent with the Exchange Act because it is consistent with, and implements, the CAT Funding Model in the CAT NMS Plan, and is designed to assist the Exchange and its Industry Members in meeting regulatory obligations pursuant to the CAT NMS Plan. In approving the CAT NMS Plan, the SEC noted that the Plan "is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act."²²¹ Similarly, in approving the

²¹⁴ The CAT NMS Plan requires that the Plan Processor "staff a CAT help desk, as described in Appendix D, CAT Help Desk, to provide technical expertise." Section 6.10(c)(vi) of the CAT NMS Plan. See also Section 10.3 of Appendix D of the CAT NMS Plan for a description of the Plan requirements for the CAT Help Desk.

²¹⁵ CAT Fee Alert 2026-1 (Apr. 1, 2026) (<https://www.catnmsplan.com/sites/default/files/2026-04/04.01.26-CAT-Fee-Alert-2026-1.pdf>).

²¹⁶ 15 U.S.C. 78f(b)(5).

²¹⁷ 15 U.S.C. 78f(b)(4).

²¹⁸ 15 U.S.C. 78f(b)(8).

²¹⁹ See Section 6(b)(1) of the Exchange Act.

²²⁰ CAT NMS Plan Approval Order at 84697.

²²¹ CAT NMS Plan Approval Order at 84696.

CAT Funding Model, the SEC concluded that the CAT Funding Model met this standard.²²² As this proposal implements the Plan and the CAT Funding Model described therein, and applies specific requirements to Industry Members in compliance with the Plan, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Exchange Act.

(2) Calculation of Fee Rate for Historical CAT Assessment 1A is Reasonable

The SEC has determined that the CAT Funding Model is reasonable and satisfies the requirements of the Exchange Act. Specifically, the SEC has concluded that the method for determining Historical CAT Assessments as set forth in Section 11.3 of the CAT NMS Plan, including the formula for calculating the Historical Fee Rate, the identification of the parties responsible for payment and the transactions subject to the fee rate for the Historical CAT Assessment, is reasonable and satisfies the Exchange Act.²²³ In each respect, as discussed above, Historical CAT Assessment 1A is calculated, and would be applied, in accordance with the requirements applicable to Historical CAT Assessments as set forth in the CAT NMS Plan. Furthermore, as discussed below, the Exchange believes that each of the figures for the variables in the SEC-approved formula for calculating the fee rate for Historical CAT Assessment 1A is reasonable and consistent with the Exchange Act. Calculation of the fee rate for Historical CAT Assessment 1A requires the figures for the Historical CAT Costs 1, the executed equivalent share volume for the prior twelve months, the determination of Historical Recovery Period 1A, and the projection of the executed equivalent share volume for Historical Recovery Period 1A. Each of these variables is reasonable and satisfies the Exchange Act, as discussed throughout this filing.

(A) Historical CAT Costs 1

The formula for calculating a Historical Fee Rate requires the amount of Historical CAT Costs to be recovered. Specifically, Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan requires a fee filing to provide:

a brief description of the amount and type of the Historical CAT Costs, including (1) the technology line items of cloud hosting services, operating fees,

CAIS operating fees, change request fees, and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration and (6) public relations costs.

In accordance with this requirement, the Exchange has set forth the amount and type of Historical CAT Costs 1 for each of these categories of costs above.

Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan also requires that the fee filing provide “sufficient detail to demonstrate that the Historical CAT Costs are reasonable and appropriate.” As discussed below, the Exchange believes that the amounts set forth in this filing for each of these cost categories is “reasonable and appropriate.” Each of the costs included in Historical CAT Costs 1 are reasonable and appropriate because the costs are consistent with standard industry practice, based on the need to comply with the requirements of the CAT NMS Plan, incurred subject to negotiations performed on an arm’s length basis, and/or are consistent with the needs of any legal entity, particularly one with no employees.

(i) Technology: Cloud Hosting Services

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover costs related to cloud hosting services as a part of Historical CAT Assessments.²²⁴ CAT LLC determined that the costs related to cloud hosting services described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. As described above, the cloud hosting services costs reflect, among other things, the breadth of the CAT cloud activities, data volume far in excess of the original volume estimates, the need for specialized cloud services given the volume and unique nature of the CAT, the processing time requirements of the Plan, and regular efforts to seek to minimize costs where permissible under the Plan. CAT LLC determined that use of cloud hosting services is necessary for implementation of the CAT, particularly given the substantial data volumes associated with the CAT, and that the fees for cloud hosting services negotiated by FCAT were reasonable, taking into consideration a variety of factors, including the expected volume of data and the breadth of services provided and market rates for similar services.²²⁵

Indeed, the actual costs of the CAT are far in excess of the original estimated costs of the CAT due to various factors, including the higher volumes and greater complexity of the CAT than anticipated when Rule 613 was originally adopted.

To comply with the requirements of the Plan, the breadth of the cloud activities related to the CAT is substantial. The cloud services not only include the production environment for the CAT, but they also include two industry testing environments, support environments for quality assurance and stress testing and disaster recovery capabilities. Moreover, the cloud storage costs are driven by the requirements of the Plan, which requires the storage of multiple versions of the data, from the original submitted version of the data through various processing steps, to the final version of the data.

Data volume is a significant driver of costs for cloud hosting services. When the Commission adopted the CAT NMS Plan in 2016, it estimated that the CAT would need to receive 58 billion records per day²²⁶ and that annual operating costs for the CAT would range from \$36.5 million to \$55 million.²²⁷ Through 2021, the actual data volumes have been five times that original estimate. The data volumes for each period are set forth in detail above.²²⁸

In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. Although CAT LLC has proactively sought to manage cloud hosting costs while complying with the Plan, including through requests to the Commission for exemptive relief and an amendment to the CAT NMS Plan, stringent CAT NMS Plan requirements do not allow for any material flexibility in cloud architecture design choices, processing timelines (e.g., the use of non-peak processing windows), or lower-cost storage tiers. As a result, the required CAT processing timelines contribute to the cloud hosting costs of the CAT.

The costs for cloud hosting services also reflect the need for specialized cloud hosting services given the data volume and unique processing needs of the CAT. The data volume as well as the data processing needs of the CAT necessitate the use of cloud hosting services. The equipment, power and services required for an on-premises

²²⁴ Section 11.3(b)(iii)(B)(II)(B)(1) of the CAT NMS Plan.

²²⁵ For a discussion of the amount and type of cloud hosting services fees, see Sections 3(a)(2)(B)(i)(a)(I), 3(a)(2)(B)(i)(b)(I), 3(a)(2)(B)(i)(c)(I) and 3(a)(2)(B)(i)(d)(I) above.

²²⁶ Appendix D–4 of the CAT NMS Plan at n.262.

²²⁷ CAT NMS Plan Approval Order at 84801.

²²⁸ See Sections 3(a)(2)(B)(i)(a)(I), 3(a)(2)(B)(i)(b)(I), 3(a)(2)(B)(i)(c)(I) and 3(a)(2)(B)(i)(d)(I) above.

²²² CAT Funding Model Approval Order at 13481.

²²³ *Id.*

data model, the alternative to cloud hosting services, would be cost prohibitive. Moreover, as CAT was being developed, there were limited cloud hosting providers that could satisfy all the necessary CAT requirements, including the operational and security criteria. Over time more providers offering cloud hosting services that would satisfy these criteria have entered the market. CAT LLC will continue to evaluate alternative cloud hosting services, recognizing that the time and cost to move to an alternative cloud provider would be substantial.

The reasonableness of the cloud hosting services costs is further supported by key cost discipline mechanisms for the CAT—a cost-based funding structure, cost transparency, cost management efforts (including regular efforts to lower compute and storage costs where permitted by the Plan) and oversight. Together, these mechanisms help ensure the ongoing reasonableness of the CAT's costs and the level of fees assessed to support those costs.²²⁹

(ii) Technology: Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover costs related to operating fees as a part of Historical CAT Assessments.²³⁰ CAT LLC determined that the costs related to operating fees described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. The operating fees include the negotiated fees paid by CAT LLC to the Plan Processor to operate and maintain the system for order-related information and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (*e.g.*, management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the selection of FCAT as the Plan Processor was reasonable and appropriate given its expertise with securities regulatory reporting, after a process of considering other potential candidates.²³¹ CAT LLC also determined that the fixed price contract, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, was reasonable and appropriate, taking

into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity.²³² The services performed by FCAT for each period and the costs related to such services are described above.²³³

(iii) Technology: CAIS Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover costs related to CAIS operating fees as a part of Historical CAT Assessments.²³⁴ CAT LLC determined that the costs related to CAIS operating fees described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. The CAIS operating fees include the fees paid to the Plan Processor to operate and maintain CAIS and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (*e.g.*, management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the FCAT-negotiated fees for Kingland's CAIS-related services, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors, including the services to be provided and market rates for similar types of activity, were reasonable and appropriate.²³⁵ The services performed by Kingland for each period and the costs for each period are described above.²³⁶

(iv) Technology: Change Request Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover costs related to change request fees as a part of Historical CAT Assessments.²³⁷ CAT LLC determined that the costs related to change request fees described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. It is common practice to utilize a change request process to address evolving needs in technology projects. This is particularly true for a project like CAT that is the first of its kind, both in

substance and in scale. The substance and costs of each of the change requests are evaluated by the Operating Committee, and approved in accordance with the requirements for Operating Committee meetings. In each case, CAT LLC determined that the change requests were necessary to implement the CAT. As described above, the change requests cover various technology changes, including, for example, changes related to CAT reporting, data feeds and exchange functionality. CAT LLC also determined that the costs for each change request were appropriate for the relevant technology change. A description of the change requests for each FAM Period and their total costs is described above.²³⁸ As noted above, the total costs for change requests through FAM Period 3 represent a small percentage of Historical CAT Costs 1—that is, 0.25% of Historical CAT Costs 1.

(v) Capitalized Developed Technology Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover costs related to capitalized developed technology costs as a part of Historical CAT Assessments.²³⁹ Capitalized developed technology costs include costs related to certain development costs, costs related to certain modifications, upgrades and other changes to the CAT, CAIS implementation fees and license fees. The amount and type of costs for each period are described in more detail above.²⁴⁰ CAT LLC determined that these costs are reasonable and should be included as a part of Historical CAT Costs 1.

These costs involve the activity of both the Initial Plan Processor and FCAT, as the successor Plan Processor.²⁴¹ With regard to the Initial Plan Processor, the Participants utilized an RFP to seek proposals to build and operate the CAT, receiving a number of proposals in response to the RFP. The Participants carefully reviewed and considered each of the proposals, including holding in-person meetings with each of the Bidders. After several rounds of review, the Participants selected the Initial Plan Processor in accordance with the CAT NMS Plan. CAT LLC entered into an agreement

²²⁹ See Securities Exchange Act Rel. No. 97151 (Mar. 15, 2023), 88 FR 17086, 17117 (Mar. 21, 2023) (describing key cost discipline mechanisms for the CAT).

²³⁰ Section 11.3(b)(iii)(B)(II)(B)(1) of the CAT NMS Plan.

²³¹ See Section 3(a)(2)(B)(i)(a)(II) above.

²³² See Sections 3(a)(2)(B)(i)(a)(III), 3(a)(2)(B)(i)(b)(III), 3(a)(2)(B)(i)(c)(III) and 3(a)(2)(B)(i)(d)(III) above.

²³³ *Id.*

²³⁴ Section 11.3(b)(iii)(B)(II)(B)(1) of the CAT NMS Plan.

²³⁵ See Sections 3(a)(2)(B)(i)(a)(III), 3(a)(2)(B)(i)(b)(III), 3(a)(2)(B)(i)(c)(III) and 3(a)(2)(B)(i)(d)(III) above.

²³⁶ *Id.*

²³⁷ Section 11.3(b)(iii)(B)(II)(B)(1) of the CAT NMS Plan.

²³⁸ See Sections 3(a)(2)(B)(i)(a)(IV), 3(a)(2)(B)(i)(b)(IV), 3(a)(2)(B)(i)(c)(IV) and 3(a)(2)(B)(i)(d)(IV) above.

²³⁹ Section 11.3(b)(iii)(B)(II)(B)(1) of the CAT NMS Plan.

²⁴⁰ See Sections 3(a)(2)(B)(i)(a)(V), 3(a)(2)(B)(i)(b)(V), 3(a)(2)(B)(i)(c)(V) and 3(a)(2)(B)(i)(d)(V) above.

²⁴¹ *Id.*

with the Initial Plan Processor in which CAT LLC would pay the Initial Plan Processor a negotiated, fixed price fee.²⁴² In addition, as described above, CAT LLC determined that it is was appropriate to enter into an agreement with FCAT as the successor Plan Processor.²⁴³

(vi) Legal

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover costs related to legal fees as a part of Historical CAT Assessments.²⁴⁴ CAT LLC determined that the legal costs described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. Given the unique nature of the CAT, the number of parties involved with the CAT (including, for example, the SEC, Participants, Industry Members, and vendors) and the many regulatory issues associated with the CAT, the scope of the necessary legal services is substantial. CAT LLC determined that the scope of the legal services is necessary to implement and maintain the CAT and that the legal rates reflect the specialized services necessary for such a project. When hiring each law firm for a CAT project, CAT LLC interviewed multiple firms, and determined to hire each firm based on a variety of factors, including the relevant expertise and fees. In each case, CAT LLC determined that the hourly fee rates were in line with market rates for the specialized legal expertise. In addition, CAT LLC determined that the total costs incurred for each CAT project were appropriate given the breadth of services provided. The services performed by each law firm for each period and the costs related to such services are described above.²⁴⁵

(vii) Consulting

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover consulting costs as a part of Historical CAT Assessments.²⁴⁶ CAT LLC determined that the consulting costs described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. Because there are no CAT employees²⁴⁷ and

because of the significant number of issues associated with the CAT, the consultants provided assistance in the management of various CAT matters and the processes related to such matters.²⁴⁸ CAT LLC considered a variety of factors in choosing a consulting firm and determined to select Deloitte after an interview process.²⁴⁹ CAT LLC also determined that the consulting services were provided at reasonable market rates, as the fees were negotiated annually and comparable to the rates charged by other consulting firms for similar work.²⁵⁰ Moreover, the total costs for such consulting services were appropriate in light of the breadth of services provided by Deloitte. The services performed by Deloitte and the costs related to such services are described above.²⁵¹

(viii) Insurance

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover insurance costs as a part of Historical CAT Assessments.²⁵² CAT LLC determined that the insurance costs described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. CAT LLC determined that it is common practice to have directors' and officers' liability insurance, and errors and omissions liability insurance. CAT LLC further determined that it was important to have cyber security insurance given the nature of the CAT, and such a decision is consistent with the CAT NMS Plan, which states that the cyber incident response plan may include "[i]nsurance against security breaches."²⁵³ In selecting the insurance providers for these policies, CAT LLC engaged in an evaluation of alternative insurers, including a comparison of the pricing offered by the alternative insurers.²⁵⁴ Based on this analysis, CAT LLC determined that the selected insurance policies provided appropriate coverage at reasonable market rates.²⁵⁵

Exchange Act Rel. No. 77724 (Apr. 27, 2016), 81 FR 30614, 30621 (May 17, 2016).

²⁴⁸ CAT LLC uses certain third parties to perform tasks that may be performed by administrators for other NMS Plans. See, e.g., CTA Plan and CQ Plan.

²⁴⁹ See Section 3(a)(2)(B)(i)(a)(VII) above.

²⁵⁰ See Sections 3(a)(2)(B)(i)(a)(VII), 3(a)(2)(B)(i)(b)(VII), 3(a)(2)(B)(i)(c)(VII) and 3(a)(2)(B)(i)(d)(VII) above.

²⁵⁵ *Id.*

(ix) Professional and Administration

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover professional and administration costs as a part of Historical CAT Assessments.²⁵⁶ CAT LLC determined that the professional and administration costs described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. Because there are no CAT employees, all required accounting, financial, tax, cash management and treasury functions for CAT LLC have been outsourced at market rates. In addition, the required annual financial statement audit of CAT LLC is included in professional and administration costs, which costs are also at market rates.

CAT LLC determined to hire a financial advisory firm, Anchin, to assist with financial matters for the CAT. CAT LLC interviewed Anchin as well as other potential financial advisory firms to assist with the CAT project, considering a variety of factors in its analysis, including the firm's relevant expertise and fees.²⁵⁷ The hourly fee rates for this firm were in line with market rates for the financial advisory services provided.²⁵⁸ Moreover, the total costs for such financial advisory services was appropriate in light of the breadth of services provided by Anchin. The services performed by Anchin and the costs related to such services are described above.²⁵⁹

CAT LLC also determined to engage an independent accounting firm, Grant Thornton, to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. CAT LLC interviewed this firm as well as another potential accounting firm to audit CAT LLC's financial statements, considering a variety of factors in its analysis, including the relevant expertise and fees of each of the firms. CAT LLC determined that Grant Thornton was well-qualified for the role given the balance of these considerations.²⁶⁰ Grant Thornton's fixed fee rate compensation arrangement was reasonable and appropriate, and in line with the market rates charged for these

²⁵⁶ Section 11.3(b)(iii)(B)(II)(B)(5) of the CAT NMS Plan.

²⁵⁷ See Section 3(a)(2)(B)(i)(a)(IX) above.

²⁵⁸ See Sections 3(a)(2)(B)(i)(a)(IX), 3(a)(2)(B)(i)(b)(IX), 3(a)(2)(B)(i)(c)(IX) and 3(a)(2)(B)(i)(d)(IX) above.

²⁵⁹ *Id.*

²⁶⁰ See Section 3(a)(2)(B)(i)(a)(IX) above.

²⁴² See Section 3(a)(2)(B)(i)(a)(V) above.

²⁴³ See Section 3(a)(2)(B)(i)(a)(II) above.

²⁴⁴ Section 11.3(b)(iii)(B)(II)(B)(2) of the CAT NMS Plan.

²⁴⁵ See Sections 3(a)(2)(B)(i)(a)(VI), 3(a)(2)(B)(i)(b)(VI), 3(a)(2)(B)(i)(c)(VI) and 3(a)(2)(B)(i)(d)(VI) above.

²⁴⁶ Section 11.3(b)(iii)(B)(II)(B)(3) of the CAT NMS Plan.

²⁴⁷ As stated in the filing of the proposed CAT NMS Plan, "[i]t is the intent of the Participants that the Company have no employees." Securities

types of accounting services.²⁶¹ Moreover, the total costs for such financial advisory services was appropriate in light of the breadth of services provided by Grant Thornton. The services performed by Grant Thornton and the costs related to such services are described above.²⁶²

The professional and administrative costs also include costs related to the receipt of certain market data from Exegy. After performing an analysis of the available market data vendors to confirm that the data provided met the SIP Data requirements of the CAT NMS Plan and comparing the costs of the vendors providing the required SIP Data, CAT LLC determined to purchase market data from Exegy. Exegy provided the data elements required by the CAT NMS Plan, and the fees were reasonable and in line with market rates for the market data received.²⁶³

The professional and administrative costs also include costs related to a third party security assessment of the CAT performed by RSM. The assessment was designed to verify and validate the effective design, implementation and operation of the controls specified by NIST Special Publication 800–53, Revision 4 and related standards and guidelines. Such a security assessment is in line with industry practice and important given the data included in the CAT. CAT LLC determined to engage RSM to perform the security assessment, after considering a variety of factors in its analysis, including the firm's relevant expertise and fees. The fees were reasonable and in line with market rates for such an assessment.²⁶⁴

(x) Public Relations Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover public relations costs as a part of Historical CAT Assessments.²⁶⁵ CAT LLC determined that the public relations costs described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. CAT LLC determined that the types of public relations services utilized were beneficial to the CAT and market participants more generally. Public relations services were important for various reasons, including monitoring comments made by market participants about CAT and understanding issues related to the CAT discussed on the

public record.²⁶⁶ By engaging a public relations firm, CAT LLC was better positioned to understand and address CAT issues to the benefit of all market participants.²⁶⁷ Moreover, CAT LLC determined that the rates charged for such services were in line with market rates.²⁶⁸ As noted above, the total public relations costs through FAM Period 3 represent a small percentage of Historical CAT Costs 1—that is, 0.1% of Historical CAT Costs 1.

(B) Total Executed Equivalent Share Volume for the Prior 12 Months

The total executed equivalent share volume of transactions in Eligible Securities for the 12-month period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. CAT LLC determined the total executed equivalent share volume for the prior twelve months by counting executed equivalent shares in the same manner as it will count executed equivalent shares for CAT billing purposes.

(C) Historical Recovery Period 1A

CAT LLC has determined to establish a Historical Recovery Period of 24 months for Historical CAT Assessment 1A and that such length is reasonable. CAT LLC determined that the length of Historical Recovery Period 1A appropriately weighs the need for a reasonable fee rate for Historical CAT Assessment 1A that spreads the Historical CAT Costs over an appropriate amount of time and the need to repay the loans notes to the Participants in a timely fashion. CAT LLC determined that 24 months for Historical Recovery Period 1A would establish a fee rate that is lower than other transaction-based fees, including fees assessed pursuant to Section 31.²⁶⁹ In addition, in establishing a Historical Recovery Period of 24 months, CAT LLC recognized that the total cost for Historical CAT Assessment 1A was less than the total costs for 2022 and 2023, and therefore it would be appropriate to recover those costs in two years.

(D) Projected Executed Equivalent Share Volume for Historical Recovery Period 1A

CAT LLC has determined to calculate the projected total executed equivalent

share volume for the 24 months of Historical Recovery Period 1A by doubling the executed equivalent share volume for the prior 12 months. The Operating Committee determined that such an approach was reasonable as the CAT's annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.4) and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level. Accordingly, the projected total executed equivalent share volume for Historical Recovery Period 1A is projected to be 11,961,875,098,720.98 executed equivalent shares.²⁷⁰

(E) Actual Fee Rate for Historical CAT Assessment 1A

(i) Decimal Places

As noted in the Plan amendment for the CAT Funding Model, as a practical matter, the fee filing for a Historical CAT Assessment would provide the exact fee per executed equivalent share to be paid for each Historical CAT Assessment, and describe the relevant number of decimal places for the fee rate.²⁷¹ Accordingly, proposed paragraph (a)(2)(B) of the fee schedule would set forth a fee rate of \$0.000002 per executed equivalent share. CAT LLC determined that the use of six decimal places is reasonable as it balances the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.

(ii) Reasonable Fee Level

The Exchange believes that imposing Historical CAT Assessment 1A with a fee rate of \$0.000002 per executed equivalent share is reasonable because it provides for a revenue stream for the Company that is aligned with the remaining Historical CAT Costs 1 and such costs would be spread out over an appropriate recovery period, as discussed above. Moreover, the Exchange believes that the level of the fee rate is reasonable, as it is comparable to other transaction-based fees. Indeed, Historical CAT Assessment 1A is significantly lower than fees assessed pursuant to Section 31 (e.g., \$0.00007 per share to \$0.00072 per share),²⁷² and, as a result, the magnitude of Historical

²⁶¹ See Sections 3(a)(2)(B)(i)(a)(IX), 3(a)(2)(B)(i)(b)(IX), 3(a)(2)(B)(i)(c)(IX) and 3(a)(2)(B)(i)(d)(IX) above.

²⁶² *Id.*

²⁶³ See Section 3(a)(2)(B)(i)(a)(IX) above.

²⁶⁴ *Id.*

²⁶⁵ Section 11.3(b)(iii)(B)(II)(B)(6) of the CAT NMS Plan.

²⁶⁶ See Section 3(a)(2)(B)(i)(a)(X) above.

²⁶⁷ See Sections 3(a)(2)(B)(i)(a)(X), 3(a)(2)(B)(i)(b)(X), 3(a)(2)(B)(i)(c)(X) and 3(a)(2)(B)(i)(d)(X) above.

²⁶⁸ *Id.*

²⁶⁹ As the SEC noted in the CAT Funding Model Approval Order, recent Section 31 fees ranged from \$0.00007 per share to \$0.00072 per share. CAT Funding Model Approval Order at 13469.

²⁷⁰ This projection was calculated by multiplying 5,980,937,549,360.49 executed equivalent shares by two.

²⁷¹ CAT Funding Model Approval Order at 13445, n.677.

²⁷² *Id.* at 13469.

CAT Assessment 1A is small, and therefore will mitigate any potential adverse economic effects or inefficiencies. Furthermore, the reasonable fee rate for Historical CAT Assessment 1A further supports CAT LLC's decision to seek to recover the costs described herein.

(3) Historical CAT Assessment 1A Provides for an Equitable Allocation of Fees

Historical CAT Assessment 1A provides for an equitable allocation of fees, as it equitably allocates CAT costs between and among the Participants and Industry Members. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfied the requirements of the Exchange Act, including the formula for calculating Historical CAT Assessments as well as the Industry Members to be charged the Historical CAT Assessments.²⁷³ In approving the CAT Funding Model, the SEC stated that “[t]he Participants have sufficiently demonstrated that the proposed allocation of fees is appropriate.”²⁷⁴ Accordingly, the CAT Funding Model sets forth the requirements for allocating fees related to Historical CAT Costs among Participants and Industry Members, and the fee filings for Historical CAT Assessments must comply with those requirements.

Historical CAT Assessment 1A provides for an equitable allocation of fees as it complies with the requirements regarding the calculation of Historical CAT Assessments as set forth in the CAT NMS Plan. For example, as described above, the calculation of Historical CAT Assessment 1A complies with the formula set forth in Section 11.3(b) of the CAT NMS Plan. In addition, Historical CAT Assessment 1A would be charged to CEBBs and CEBs in accordance with Section 11.3(b) of the CAT NMS Plan. Furthermore, the Participants would continue to remain responsible for their designated share of Past CAT Costs through the cancellation of loans made by the Participants to CAT LLC.

In addition, as discussed above, each of the inputs into the calculation of Historical CAT Assessment 1A—Historical CAT Costs 1 (including Excluded Costs) and the exclusion of costs previously invoiced via Historical CAT Assessment 1, the count for the executed equivalent share volume for the prior 12 months, the length of the Historical Recovery Period, and the

projected executed equivalent share volume for the Historical Recovery Period—are reasonable. Moreover, these inputs lead to a reasonable fee rate for Historical CAT Assessment 1A that is lower than other fee rates for transaction-based fees. A reasonable fee rate allocated in accordance with the requirements of the CAT Funding Model provides for an equitable allocation of fees.

(4) Historical CAT Assessment 1A Is Not Unfairly Discriminatory

Historical CAT Assessment 1A is not an unfairly discriminatory fee. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfied the requirements of the Exchange Act. In reaching this conclusion, the SEC analyzed the potential effect of Historical CAT Assessments calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. Historical CAT Assessment 1A complies with the requirements regarding the calculation of Historical CAT Assessments as set forth in the CAT NMS Plan. In addition, as discussed above, each of the inputs into the calculation of Historical CAT Assessment 1A and the resulting fee rate for Historical CAT Assessment 1A is reasonable. Therefore, Historical CAT Assessment 1A does not impose an unfairly discriminatory fee on Industry Members.

Finally, the Exchange believes the proposed fees established pursuant to the CAT Funding Model promote just and equitable principles of trade, and, in general, protect investors and the public interest, and are provided in a transparent manner and specificity in the fee schedule. The Exchange also believes that the proposed fees are reasonable because they would provide ease of calculation, ease of billing and other administrative functions, and predictability of a fee based on fixed rate per executed equivalent share. Such factors are crucial to estimating a reliable revenue stream for CAT LLC and for permitting Exchange members to reasonably predict their payment obligations for budgeting purposes.

B. Self-Regulatory Organization's Statement on Burden on Competition

Section 6(b)(8) of the Act²⁷⁵ requires that the Exchange's rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that Historical CAT Assessment 1A implements provisions of the CAT NMS Plan that were approved by the Commission and is designed to assist the Exchange in meeting its regulatory obligations pursuant to the Plan.

In addition, all Participants (including exchanges and FINRA) are proposing to introduce Historical CAT Assessment 1A on behalf of CAT LLC to implement the requirements of the CAT NMS Plan. Therefore, this is not a competitive fee filing, and, therefore, it does not raise competition issues between and among the Participants.

Furthermore, in approving the CAT Funding Model, the SEC analyzed the potential competitive impact of the CAT Funding Model, including competitive issues related to market services, trading services and regulatory services, efficiency concerns, and capital formation.²⁷⁶ The SEC also analyzed the potential effect of CAT fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. Based on this analysis, the SEC approved the CAT Funding Model as compliant with the Exchange Act. Historical CAT Assessment 1A is calculated and implemented in accordance with the CAT Funding Model as approved by the SEC.

As discussed above, each of the inputs into the calculation of Historical CAT Assessment 1A is reasonable and the resulting fee rate for Historical CAT Assessment 1A calculated in accordance with the CAT Funding Model is reasonable. Therefore, Historical CAT Assessment 1A would not impose any burden on competition that is not

²⁷³ See Section 11.3(b) of the CAT NMS Plan.

²⁷⁴ CAT Funding Model Approval Order at 13412.

²⁷⁵ 15 U.S.C. 78f(b)(8).

necessary or appropriate in furtherance of the purpose of the Exchange Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Not applicable.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) ²⁷⁷ of the Act.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B) ²⁷⁸ of the Act

to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-IEX-2026-12 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to file number SR-IEX-2026-12. This file number should be included on the subject line if email is used. To help the

Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection.

All submissions should refer to file number SR-IEX-2026-12 and should be submitted on or before June 2, 2026.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.²⁷⁹

Stephanie J. Fouse,

Assistant Secretary.

Securities and Exchange Commission

Self-Regulatory Organizations; NYSE National, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend the NYSE National Schedule of Fees and Rebates To Establish Fees for Industry Members Related to Certain Historical Costs of the National Market System Plan Governing the Consolidated Audit Trail; Notice

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–105408; File No. SR–NYSENAT–2026–07]

Self-Regulatory Organizations; NYSE National, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend the NYSE National Schedule of Fees and Rebates To Establish Fees for Industry Members Related to Certain Historical Costs of the National Market System Plan Governing the Consolidated Audit Trail

May 7, 2026.

Pursuant to Section 19(b)(1) ¹ of the Securities Exchange Act of 1934 (“Act”) ² and Rule 19b–4 thereunder, ³ notice is hereby given that, on April 23, 2026, NYSE National, Inc. (“NYSE National” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the NYSE National Schedule of Fees and Rebates (“Fee Schedule”) to establish fees for Industry Members ⁴ related to certain historical costs of the National Market System Plan Governing the Consolidated Audit Trail (the “CAT NMS Plan” or “Plan”) incurred prior to January 1, 2022 that were not previously invoiced via Historical CAT Assessment 1. Industry Members were previously invoiced for \$173,075,024 of the \$212,039,879.34 of Historical CAT Costs 1 via Historical CAT Assessment 1. Historical CAT Assessment 1 is no longer in effect. Historical CAT Assessment 1A is being established to collect the remaining \$38,964,855.34 of Historical CAT Costs 1. These fees would be payable to Consolidated Audit Trail, LLC (“CAT LLC” or “the

Company”) ⁵ and referred to as Historical CAT Assessment 1A, and would be described in a section of the Exchange’s fee schedule entitled “Consolidated Audit Trail Funding Fees.” The fee rate for Historical CAT Assessment 1A will be \$0.000002 per executed equivalent share. CAT Executing Brokers will receive their first monthly invoice for Historical CAT Assessment 1A in June 2026 calculated based on their transactions as CAT Executing Brokers for the Buyer (“CEBB”) and/or CAT Executing Brokers for the Seller (“CEBS”) in May 2026. The proposed rule change is available on the Exchange’s website at www.nyse.com and at the principal office of the Exchange.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

On July 11, 2012, the Commission adopted Rule 613 of Regulation NMS, which required the self-regulatory organizations (“SROs”) to submit a national market system (“NMS”) plan to create, implement and maintain a consolidated audit trail that would capture customer and order event information for orders in NMS securities across all markets, from the time of order inception through routing, cancellation, modification or execution. ⁶ On November 15, 2016, the Commission approved the CAT NMS Plan. ⁷ Under the CAT NMS Plan, the Operating Committee has the discretion to establish funding for CAT LLC to operate the CAT, including establishing

fees for Industry Members to be assessed by CAT LLC that would be implemented on behalf of CAT LLC by the Participants. ⁸ On September 5, 2025, CAT LLC proposed a revised funding model to fund the CAT (“CAT Funding Model”). ⁹ On March 16, 2026, the Commission approved the CAT Funding Model, after concluding that the model satisfied the requirements of Section 11A of the Exchange Act and Rule 608 thereunder. ¹⁰

The CAT Funding Model provides a framework for the recovery of the costs to create, develop and maintain the CAT, including providing a method for allocating costs to fund the CAT among Participants and Industry Members. The CAT Funding Model establishes two categories of fees: (1) CAT fees assessed by CAT LLC and payable by certain Industry Members to recover a portion of historical CAT costs previously paid by the Participants (“Historical CAT Assessment” fees); and (2) CAT fees assessed by CAT LLC and payable by Participants and Industry Members to fund prospective CAT costs (“Prospective CAT Costs” fees). ¹¹

Under the CAT Funding Model, “[t]he Operating Committee will establish one or more fees (each a ‘Historical CAT Assessment’) to be payable by Industry Members with regard to CAT costs previously paid by the Participants (‘Past CAT Costs’).” ¹² In establishing a Historical CAT Assessment, the Operating Committee will determine a “Historical Recovery Period” and calculate a “Historical Fee Rate” for that Historical Recovery Period. Then, for each month in which a Historical CAT Assessment is in effect, each CEBB and CEBS would be required to pay the fee—the Historical CAT Assessment—

⁸ Section 11.1(b) of the CAT NMS Plan.

⁹ Securities Exchange Act Rel. No. 103960 (Sept. 12, 2025), 90 FR 44910 (Sept. 17, 2025).

¹⁰ Securities Exchange Act Rel. No. 105003 (Mar. 16, 2026), 91 FR 13410 (Mar. 29, 2026) (“CAT Funding Model Approval Order”). This CAT Funding Model replaced the prior funding model that was approved by the Commission on September 6, 2023. Securities Exchange Act Rel. No. 98290 (Sept. 6, 2023), 88 FR 62628 (Sept. 12, 2023).

¹¹ Under the CAT Funding Model, the Operating Committee may establish one or more Historical CAT Assessments. Section 11.3(b) of the CAT NMS Plan. This filing only establishes Historical CAT Assessment 1A related to certain Historical CAT Costs as described herein; it does not address any other potential Historical CAT Assessment related to other Historical CAT Costs. In addition, under the CAT Funding Model, the Operating Committee also may establish CAT Fees related to CAT costs going forward. Section 11.3(a) of the CAT NMS Plan. This filing does not address any potential CAT Fees related to CAT costs going forward. Any such other fee for any other Historical CAT Assessment or CAT Fee for Prospective CAT Costs will be subject to a separate fee filing.

¹² Section 11.3(b) of the CAT NMS Plan.

⁴ An “Industry Member” is defined as “a member of a national securities exchange or a member of a national securities association.” See NYSE National Rule 6.6810(u). See also Section 1.1 of the CAT NMS Plan. Unless otherwise specified, capitalized terms used in this rule filing are defined as set forth in the CAT NMS Plan and/or the CAT Compliance Rule. See NYSE National Rule 6.6810.

⁵ The term “CAT LLC” may be used to refer to Consolidated Audit Trail, LLC or CAT NMS, LLC, depending on the context.

⁶ Securities Exchange Act Rel. No. 67457 (July 18, 2012), 77 FR 45721 (Aug. 1, 2012) (“Rule 613 Adopting Release”).

⁷ Securities Exchange Act Rel. No. 79318 (Nov. 15, 2016), 81 FR 84696 (Nov. 23, 2016) (“CAT NMS Plan Approval Order”).

for each transaction in Eligible Securities executed by the CEBB or CEBS from the prior month as set forth in CAT Data, where the Historical CAT Assessment for each transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Historical Fee Rate.¹³

Each Historical CAT Assessment to be paid by CEBBs and CEBSs is designed to contribute toward the recovery of two-thirds of the Historical CAT Costs. Because the Participants previously have paid Past CAT Costs via loans to the Company, the Participants would not be required to pay any Historical CAT Assessment. In lieu of a Historical CAT Assessment, the Participants' one-third share of Historical CAT Costs will be paid by the cancellation of loans made by the Participants to the Company on a pro rata basis based on the outstanding loan amounts due under the loans, instead of through the payment of a CAT fee.¹⁴ In addition, the Participants also will be 100% responsible for certain Excluded Costs (as discussed below).

CAT LLC proposes to charge CEBBs and CEBSs (as described in more detail below) Historical CAT Assessment 1A to recover certain historical CAT costs incurred prior to January 1, 2022, in accordance with the CAT Funding Model. To implement this fee on behalf of CAT LLC, the CAT NMS Plan requires the Participants to "file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves, and such fees shall be labeled as 'Consolidated Audit Trail Funding

Fees.'" ¹⁵ The Plan further states that "Participants will be required to file with the SEC pursuant to Section 19(b) of the Exchange Act a filing for each Historical CAT Assessment."¹⁶ Accordingly, the purpose of this filing is to implement a Historical CAT Assessment on behalf of CAT LLC for Industry Members, referred to as Historical CAT Assessment 1A, in accordance with the CAT NMS Plan.¹⁷

The Exchange, along with the other Participants in the CAT, previously filed a fee filing to implement Historical CAT Assessment 1.¹⁸ Based on the fee filing for Historical CAT Assessment 1, Historical CAT Assessment 1 was expected to be in effect from the first invoice in November 2024 until \$212,039,879.34 (two-thirds of Historical CAT Costs 1) was invoiced to CAT Executing Brokers collectively.¹⁹ However, Historical CAT Assessment 1 ceased before the entire amount was invoiced.²⁰ The last invoice for Historical CAT Assessment 1 was provided on December 2025, after only \$173,075,024 of the total \$212,039,879.34 had been invoiced to Industry Members.²¹ Accordingly, \$38,964,855.34 of Historical CAT Costs 1 has not been invoiced. Historical CAT Assessment 1A would seek to recover this outstanding amount of Historical CAT Costs 1 that has not been invoiced.

(1) CAT Executing Brokers

Historical CAT Assessment 1A will be charged to each CEBB and CEBS for each applicable transaction in Eligible Securities.²² The CAT NMS Plan defines a "CAT Executing Broker" to mean:

(a) with respect to a transaction in an Eligible Security that is executed on an exchange, the Industry Member identified as the Industry Member responsible for the order on the buy-side of the transaction and the Industry Member responsible for the sell-side of the transaction in the equity order trade event and option trade event in the CAT Data submitted to the CAT by the relevant exchange pursuant to the Participant Technical Specifications; and (b) with respect to a transaction in an Eligible Security that is executed otherwise than on an exchange and required to be reported to an equity trade reporting facility of a registered national securities association, the Industry Member identified as the executing broker and the Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event in the CAT Data submitted to the CAT by FINRA pursuant to the Participant Technical Specifications; provided, however, in those circumstances where there is a non-Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event or no contra-side executing broker is identified in the TRF/ORF/ADF transaction data event, then the Industry Member identified as the executing broker in the TRF/ORF/ADF transaction data event would be treated as CAT Executing Broker for the Buyer and for the Seller.²³

The following fields of the Participant Technical Specifications indicate the CAT Executing Brokers for the transactions executed on an exchange.

EQUITY ORDER TRADE (EOT)²⁴

No.	Field name	Data type	Description	Include key
12.n.8/13.n.8	member	Member Alias	The identifier for the member firm that is responsible for the order on this side of the trade.	C

¹³ In approving the CAT Funding Model, the Commission stated that, "[i]n the Commission's view, the proposed recovery of the Past CAT Costs via the Historical CAT Assessment is appropriate." CAT Funding Model Approval Order at 13450.

¹⁴ Section 11.3(b)(ii) of the CAT NMS Plan.

¹⁵ Section 11.1(b) of the CAT NMS Plan.

¹⁶ Section 11.3(b)(iii)(B)(I) of the CAT NMS Plan.

¹⁷ Note that there may be one or more Historical CAT Assessments. Section 11.3(b) of the CAT NMS Plan.

¹⁸ See Securities Exchange Act Release No. 101090 (September 18, 2024), 89 FR 78664 (September 25, 2024) (SR-NYSENAT-2024-25).

¹⁹ See Fee Schedule, paragraph (a)(1)(C) of Consolidated Audit Trail Funding Fees.

²⁰ In response to the Eleventh Circuit's decision vacating the prior CAT NMS Plan funding model,

the last invoices for Historical CAT Assessment 1 were sent in December 2025 based on November 2025 transactions. See *American Securities Association v. SEC*, No. 23-13396 (11th Cir. July 25, 2025).

²¹ CAT Fee Alert 2025-4 (Nov. 25, 2025).

²² In its approval order for the CAT Funding Model, the Commission determined that charging CAT fees to CAT Executing Brokers was appropriate. In reaching this conclusion the Commission noted that the use of CAT Executing Brokers is appropriate because the CAT Funding Model is based upon the calculation of *executed* equivalent shares, and, therefore, charging CAT Executing Brokers would reflect their executing role in each transaction. Furthermore, the Commission noted that, because CAT Executing Brokers are already identified in transaction reports from the exchanges and FINRA's equity trade reporting

facilities recorded in CAT Data, charging CAT Executing Brokers could streamline the billing process. CAT Funding Model Approval Order at 13413.

²³ Section 1.1 of the CAT NMS Plan. In its approval order for the CAT Funding Model, the Commission "recognize[d] that Industry Members may pass-through CAT fees for customer executed volume." See CAT Funding Model Approval Order at 13424.

28	contraExecutingMpid	Member Alias	MPID of the contra-side executing party	C

(2) Calculation of Fee Rate for Historical CAT Assessment 1A

The Operating Committee determined the fee rate to be used in calculating Historical CAT Assessment 1A based on the Historical CAT Costs for Historical CAT Assessment 1A and the projected total executed share volume of all transactions in Eligible Securities for the Historical Recovery Period for Historical CAT Assessment 1A (“Historical Recovery Period 1A”), as discussed in detail below. Based on this calculation, the Operating Committee has determined that the fee rate for Historical CAT Assessment 1A would be \$0.000002, as discussed in detail below.

(A) Executed Equivalent Shares for Transactions in Eligible Securities

Under the CAT NMS Plan, for purposes of calculating each Historical CAT Assessment, executed equivalent shares in a transaction in Eligible Securities will be reasonably counted as follows: (1) each executed share for a transaction in NMS Stocks will be counted as one executed equivalent share; (2) each executed contract for a

transaction in Listed Options will be counted based on the multiplier applicable to the specific Listed Options (*i.e.*, 100 executed equivalent shares or such other applicable multiplier); and (3) each executed share for a transaction in OTC Equity Securities shall be counted as 0.01 executed equivalent share.²⁷

(B) Historical CAT Costs

The CAT NMS Plan states that “[t]he Operating Committee will reasonably determine the Historical CAT Costs sought to be recovered by each Historical CAT Assessment, where the Historical CAT Costs will be Past CAT Costs minus Past CAT Costs reasonably excluded from Historical CAT Costs by the Operating Committee. Each Historical CAT Assessment will seek to recover from CAT Executing Brokers two-thirds of Historical CAT Costs incurred during the period covered by the Historical CAT Assessment.”²⁸ Historical CAT Assessment 1, the original Historical CAT Assessment, was implemented to recover \$212,039,879.34 of Historical CAT Costs 1 from CEBBs and CEBBs collectively.²⁹ As described in the fee filings for

Historical CAT Assessment 1, Historical CAT Costs 1 of \$212,039,879.34 includes Past CAT Costs of \$401,312,909 minus certain Excluded Costs of \$83,253,090. As described in the filing for Historical CAT Assessment 1, Participants collectively will remain responsible for one-third of Historical CAT Costs 1 (which is \$106,019,939.67), plus the Excluded Costs of \$83,253,090. Accordingly, CEBBs collectively will be responsible for one-third of Historical CAT Costs 1 (which is \$106,019,939.67), and CEBBs collectively will be responsible for one-third of Historical CAT Costs 1 (which is \$106,019,939.67), for a total of \$212,039,879.34. CEBBs and CEBBs collectively have been invoiced for \$173,075,024 of the \$212,039,879.34 of Historical CAT Costs 1 via Historical CAT Assessment 1. Accordingly, Historical CAT Assessment 1A would charge CEBBs and CEBBs collectively for the remaining \$38,964,855.34 of Historical CAT Costs 1 that was not invoiced to CEBBs and CEBBs via Historical CAT Assessment 1. Historical CAT Assessment 1A will be designed to recover the remaining \$38,964,855.34 of Historical CAT Costs 1 from CEBBs and

²⁵ See Table 52, Section 5.2.5.1 (Simple Option Trade Event) of the CAT Reporting Technical Specifications for Plan Participants.

²⁶ See Table 62, Section 6.1 (TRF/ORF/ADF Transaction Data Event) of the CAT Reporting Technical Specifications for Plan Participants.

²⁷ Section 11.3(a)(i)(B) and 11.3(b)(i)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission concluded that “in the Commission’s view, the use of executed equivalent share volume as the basis for determining and allocating CAT costs during the two-year interim period is appropriate and consistent with the

funding principles of the CAT NMS Plan.” CAT Funding Model Approval Order at 13427.

²⁸ Section 11.3(b)(i)(C) of the CAT NMS Plan.

²⁹ See Securities Exchange Act Release No. 101090 (September 18, 2024), 89 FR 78664 (September 25, 2024) (SR-NYSENAT-2024-25).

CEBSs collectively, with CEBBs collectively responsible for \$19,482,427.67 and CEBBs collectively responsible for \$19,482,427.67.

(i) Historical CAT Costs 1

The following describes in detail Historical CAT Costs 1 with regard to four separate historical time periods as well as Past CAT Costs excluded from Historical CAT Costs 1 (“Excluded Costs”). The following cost details are provided in accordance with the requirement in the CAT NMS Plan to provide in the fee filing “a brief description of the amount and type of Historical CAT Costs, including (1) the technology line items of cloud hosting services, operating fees, CAIS operating

fees, change request fees, and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration and (6) public relations costs.”³⁰ Each of the costs described below are reasonable, appropriate and necessary for the creation, implementation and maintenance of CAT. These Historical CAT Costs 1 are the same as described in the fee filing for Historical CAT Assessment 1.³¹

(a) Historical CAT Costs Incurred Prior to June 22, 2020 (Pre-FAM Costs)

Historical CAT Costs 1 would include costs incurred by CAT prior to June 22, 2020 (“Pre-FAM Period”) and already funded by the Participants, excluding

Excluded Costs (described further below). Historical CAT Costs 1 would include costs for the Pre-FAM Period of \$124,290,730. The Participants would remain responsible for one-third of this cost (which they have previously paid) (\$41,430,243.33), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$41,430,243.33) and CEBBs paying one-third (\$41,430,243.33). These costs do not include Excluded Costs, as discussed further below. The following table breaks down Historical CAT Costs 1 for the Pre-FAM Period into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

Operating expense	Historical CAT costs 1 for Pre-FAM Period (Prior to June 22, 2020) **
Capitalized Developed Technology Costs *	\$51,847,150
Technology Costs:	33,568,579
Cloud Hosting Services	10,268,840
Operating Fees	21,085,485
CAIS Operating Fees	2,072,908
Change Request Fees	141,346
Legal	19,674,463
Consulting	17,013,414
Insurance	880,419
Professional and administration	1,082,036
Public relations	224,669
Total Operating Expenses	124,290,730

* The non-cash amortization of these capitalized developed technology costs of \$2,115,545 incurred during the period prior to June 22, 2020 have been appropriately excluded from the above table.³²

** The costs described in this table of costs for the Pre-FAM Period were calculated based upon CAT LLC's review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website. In addition, in accordance with Section 6.6(a)(i) of the CAT NMS Plan, in 2018 CAT LLC provided the SEC with “an independent audit of fees, costs, and expenses incurred by the Participants on behalf of the Company prior to the Effective Date of the Plan that will be publicly available.” The audit is available on the CAT website.

The Pre-FAM Period includes a broad range of CAT-related activity from 2012 through June 22, 2020, including the evaluation of the requirements of SEC Rule 613, the development of the CAT NMS Plan, the evaluation and selection of the initial and successor Plan Processors, the commencement of the creation and implementation of the CAT to comply with Rule 613 and the CAT NMS Plan, including technical specifications for transaction reporting and regulatory access, and related technology and the commencement of reporting to the CAT. The following describes the costs for each of the categories for the Pre-FAM Period.

(I) Technology Costs—Cloud Hosting Services

The \$10,268,840 in technology costs for cloud hosting services represent costs incurred for services provided by the cloud services provider for the CAT, Amazon Web Services, Inc. (“AWS”), during the Pre-FAM Period.

As part of its proposal for acting as the successor Plan Processor for the CAT, FCAT selected AWS as a subcontractor to provide cloud hosting services. In 2019, after reviewing the capabilities of other cloud services providers, FCAT determined that AWS was the only cloud services provider at that time sufficiently mature and capable of providing the full suite of necessary cloud services for the CAT, including, for example, the security,

resiliency and complexity necessary for the CAT computing requirements. The use of cloud hosting services is standard for this type of high-volume data activity and reasonable and necessary for implementation of the CAT, particularly given the substantial data volumes associated with the CAT.

Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT the fees incurred by the Plan Processor for cloud hosting services provided by AWS as FCAT's subcontractor on a monthly basis for the cloud hosting services, and FCAT, in turn, pays such fees to AWS. The fees for cloud hosting services were negotiated by FCAT on an arm's length basis with the goals of managing cost and receiving services required to

³⁰ Section 11.3(b)(iii)(B)(II)(B) of the CAT NMS Plan.

³¹ See Securities Exchange Act Release No. 101090 (September 18, 2024), 89 FR 78664 (September 25, 2024) (SR-NYSENAT-2024-25).

³² With respect to certain costs that were “appropriately excluded,” such excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already

been otherwise reflected in the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the expected volume of data, the breadth of services provided and market rates for similar services. The fees for cloud hosting services during the Pre-FAM Period were paid to FCAT by CAT NMS, LLC³³ and subsequently Consolidated Audit Trail, LLC (as previously noted, both entities are referred to generally as “CAT LLC”),³⁴ and FCAT, in turn, paid AWS. CAT LLC was funded via loan contributions by the Participants.³⁵

AWS was engaged by FCAT to provide a broad array of cloud hosting services for the CAT, including data ingestion, data management, and analytic tools. Services provided by AWS include storage services,

databases, compute services and other services (such as networking, management tools and DevOps tools). AWS also was engaged to provide various environments for CAT, such as development, performance testing, test and production environments.

The cost for AWS services for the CAT is a function of the volume of CAT Data. The greater the amount of CAT Data, the greater the cost of AWS services to the CAT. During the Pre-FAM Period from the engagement of AWS in February 2019 through June 2020, AWS provided cloud hosting services for volumes of CAT Data far in excess of the volume predictions set forth in the CAT NMS Plan. The CAT NMS Plan states, when all CAT Reporters are submitting their data to

the CAT, it “must be sized to receive[,] process and load more than 58 billion records per day,”³⁶ and that “[i]t is expected that the Central Repository will grow to more than 29 petabytes of raw, uncompressed data.”³⁷ However, the volume of CAT Data for the Pre-FAM Period was far in excess of these predicted levels. By the end of this period, data submitted to the CAT included options and equities Participant Data,³⁸ Phase 2a and Phase 2b Industry Member Data³⁹ (including certain linkages), as well as SIP Data,⁴⁰ reference data and other types of Other Data.⁴¹ The following chart provides data regarding the average daily volume, cumulative total events, total compute hours and storage footprint of the CAT during the Pre-FAM Period.⁴²

	Date range: 3/29/19 to 4/12/20 *	Date range: 4/13/20 to 6/21/20 **
Average Daily Volume in Billions:		
Participant—Equities	5	5
Participant—Options	80	981
Industry Member—Equities		3
Industry Member—Options		0.04
SIP—Options & Equities	64	70
Average Total Daily Volume	149	166
Cumulative Total Events for the Period	3,890	4,990
Total Compute Hours for the Period	*** N/A	5,663,247
Storage Footprint at End of Period (Petabytes)	30.57	47.96

** The Participant Equities in RSA format.

** Start of Industry Member reporting on 4/13/2020.

*** Note that, although there were compute hours during this period, data related to such compute hours are no longer available in current data.

(II) Technology Costs—Operating Fees

The \$21,085,485 in technology costs related to operating fees represent costs incurred with regard to activities of FCAT as the Plan Processor. Operating fees are those fees paid by CAT LLC to FCAT as the Plan Processor to operate and maintain the CAT and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (e.g., management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management as required by the CAT NMS Plan.

FCAT was selected to assume the role of the successor Plan Processor. Prior to this selection, the Participants engaged in discussions with two prior Bidders⁴³ for the successor Plan Processor role. The Operating Committee formed a Selection Subcommittee in accordance with Section 4.12 of the CAT NMS Plan to evaluate and review Bids and to make a recommendation to the Operating Committee with respect to the selection of the successor Plan Processor. In an April 9, 2019 letter to the Commission, the Participants described the reasons for its selection of the successor Plan Processor:

The Selection Subcommittee considered factors including, but not limited to, the following, in recommending FINRA to the Operating Committee as the successor Plan Processor:

a. FINRA’s specialized technical expertise and capabilities in the area of broker-dealer technology;

b. The need to appoint a successor Plan Processor with specialized expertise to develop, implement, and maintain the CAT System in accordance with the CAT NMS Plan and SEC Rule 613;

³³ CAT NMS, LLC was formed by FINRA and the U.S. national securities exchanges to implement the requirements of SEC Rule 613 under the Exchange Act. SEC Rule 613 required the SROs to jointly submit to the SEC the CAT NMS Plan to create, implement and maintain the CAT. The SEC approved the CAT NMS Plan on November 15, 2016. CAT NMS Plan Approval Order.

³⁴ On August 29, 2019, the Participants formed a new Delaware limited liability company named Consolidated Audit Trail, LLC for the purpose of conducting activities related to the CAT from and after the effectiveness of the proposed amendment

of the CAT NMS Plan to replace CAT NMS, LLC. See Securities Exchange Act Rel. No. 87149 (Sept. 27, 2019), 84 FR 52905 (Oct. 3, 2019).

³⁵ For each of the costs paid by CAT NMS, LLC and Consolidated Audit Trail, LLC as discussed throughout this filing, CAT NMS, LLC and Consolidated Audit Trail, LLC paid these costs via loan contributions by the Participants to CAT NMS, LLC and Consolidated Audit Trail, LLC, respectively.

³⁶ Appendix D–4 of the CAT NMS Plan at n.262.

³⁷ Appendix D–5 of the CAT NMS Plan.

³⁸ See Section 6.3(d) of the CAT NMS Plan.

³⁹ See Securities Exchange Rel. No. 88702 (Apr. 20, 2020), 85 FR 23075 (Apr. 24, 2020) (“Phased Reporting Exemptive Relief Order”) for a description of Phase 2a and Phase 2b Industry Member Data.

⁴⁰ See Section 6.5(a)(ii) of the CAT NMS Plan.

⁴¹ See Appendix C–109 of the CAT NMS Plan.

⁴² Note that the volume data described in this table does not include CAIS data.

⁴³ The term “Bidder” is defined in Section 1.1 of the CAT NMS Plan.

c. FINRA's detailed proposal in response to CATLLC's recent inquiries; and

d. FINRA's data query and analytics systems demonstration to the Participants.

Based on these and other factors, the Selection Subcommittee determined that FINRA was the most appropriate Bidder to become the successor Plan Processor.⁴⁴

On February 26, 2019, the Operating Committee (with FINRA recusing itself) voted to select FINRA as the successor Plan Processor pursuant to Section 6.1(t) of the CAT NMS Plan.⁴⁵ On March 29, 2019, CAT LLC and FCAT (a wholly owned subsidiary of FINRA) entered into a Plan Processor Agreement pursuant to which FCAT would perform the functions and duties of the Plan Processor contemplated by the CAT NMS Plan, including the management and operation of the CAT.

Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT a negotiated monthly fixed price for the operation of the CAT. This fixed price contract was negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity. The operating fees during the Pre-FAM Period were paid to FCAT by CAT LLC.

From March 29, 2019 (the commencement of the Plan Processor Agreement with FCAT) through June 22, 2020 (the end of the Pre-FAM Period), the Plan Processor's activities with respect to the CAT included the following:

- Commenced user acceptance testing with market data provided by Exegy Incorporated ("Exegy"), a market data provider;⁴⁶
- Published Technical Specifications and related reporting scenarios documents for Phase 2a, 2b and 2c reporting for Industry Members, after substantial engagement with SEC staff, Industry Members and Participants on the Technical Specifications;
- Facilitated testing for Phase 2a and 2b reporting for Industry Members;
- Began developing Technical Specifications and related reporting

scenarios documents for Phase 2d reporting for Industry Members, after substantial engagement with SEC staff, Industry Members and Participants on the Technical Specifications;

- Published Central Repository Access Technical Specifications, and provided regulator access to test data from Industry Members;
- Facilitated Participant exchanges that support options market makers sending Quote Sent Time to the CAT;
- Facilitated the introduction of OPRA and Options NBBO Other Data to CAT;
- Addressed compliance items, including drafting CAT policies and procedures, and addressing requirements under Regulation SCI;
- Provided support to the Operating Committee, the Compliance Subcommittee and CAT working groups;
- Assisted with interpretive efforts and exemptive requests regarding the CAT NMS Plan;
- Oversaw the security of the CAT;
- Monitored the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provided support to subcontractors under the Plan Processor Agreement;
- Provided support in discussions with Participants, the SEC and its staff;
- Operated the FINRA CAT Helpdesk, which is the primary source for answers to questions about CAT, including questions regarding: clock synchronization, firm reporting responsibilities, interpretive questions, technical specifications for reporting to CAT and more;
- Facilitated communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administered the CAT website and all of its content;⁴⁷ and
- Provided technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

(III) Technology Costs—CAIS Operating Fees

The \$2,072,908 in technology costs related to CAIS operating fees represent the fees paid for FCAT's subcontractor charged with the development and operation of CAT's Customer and Account Information System ("CAIS"). The CAT is required under the CAT NMS Plan to capture and store Customer Identifying Information and

Customer Account Information in a database separate from the transactional database and to create a CAT-Customer-ID for each Customer.

During the Pre-FAM Period, the CAIS-related services were provided by the Plan Processor through the Plan Processor's subcontractor, Kingland Systems Incorporation ("Kingland"). Kingland had experience operating in the securities regulatory technology space, and as a part of its proposal for acting as the Plan Processor for the CAT, FCAT selected Kingland as a subcontractor to provide certain CAIS-related services.

Under the Plan Processor Agreement with FCAT, CAT LLC was required to pay to the Plan Processor the fees incurred by FCAT for CAIS-related services provided by FCAT through Kingland on a monthly basis. FCAT negotiated the fees for Kingland's CAIS-related services on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors, including the services to be provided and market rates for similar types of activity. The fees for CAIS-related services during the Pre-FAM Period were paid by CAT LLC to FCAT. FCAT, in turn, paid Kingland.

During the Pre-FAM Period, Kingland began development of the CAIS Technical Specifications and the building of CAIS. In addition, Kingland also worked on the build related to the CCID Alternative, an alternative approach to customer information that was not included in the CAT NMS Plan as originally adopted.⁴⁸ Furthermore, Kingland also worked on the acceleration of the reporting of large trader identifiers ("LTID") earlier than originally contemplated during this period, in accordance with exemptive relief granted by the SEC.⁴⁹

(IV) Technology Costs—Change Request Fees

The technology costs related to change request fees include costs related to certain modifications, upgrades or other changes to the CAT. Change requests are standard practice and necessary to reflect operational changes, including changes related to new market developments, such as new market participants. In general, if CAT LLC determines that a modification, upgrade or other change to the functionality or service is necessary and appropriate,

⁴⁴ Letter from Michael J. Simon, Chair, CAT NMS, LLC Operating Committee, to Brent J. Fields, Secretary, SEC (Apr. 9, 2019), <https://www.sec.gov/divisions/marketreg/rule613-info-notice-of-plan-processor-selection-040919.pdf>.

⁴⁵ *Id.*

⁴⁶ The use of Exegy to provide market data, including the costs and market data provided, is discussed below in Section 3(a)(2)(B)(a)(IX).

⁴⁷ The CAT website is <https://www.catnmsplan.com>.

⁴⁸ For a discussion of the CCID Alternative, see Securities Exchange Act Rel. No. 88393 (Mar. 17, 2020), 85 FR 16152 (Mar. 20, 2020).

⁴⁹ Phased Reporting Exemptive Relief Order at 23079–80.

CAT LLC will submit a request for such a change to the Plan Processor. The Plan Processor will then respond to the request with a proposal for implementing the change, including the cost (if any) of such a change. CAT LLC then determines whether to approve the proposed change. The change request costs were paid by CAT LLC to FCAT. During the Pre-FAM Period, CAT LLC incurred costs of \$141,346 related to change requests implemented by FCAT. Such change requests related to a development fee regarding the OPRA and SIP data feeds, and the reprocessing of certain exchange data.⁵⁰

(V) Technology Costs—Capitalized Developed Technology Costs

This category of costs includes capitalizable application development costs incurred in the development of the CAT. The capitalized developed technology costs for the Pre-FAM Period of \$51,847,150 relate to technology provided by the Initial Plan Processor and the successor Plan Processor.

Initial Plan Processor: Thesys CAT, LLC. The capitalized developed technology costs related to the Initial Plan Processor include costs incurred with regard to testing for Participant reporting, Participant reporting to the CAT, a security assessment of the CAT, and the development of the billing function for the CAT.

On January 17, 2017, the Selection Committee of the CAT NMS Plan selected the Initial Plan Processor, Thesys Technologies, LLC, for the CAT NMS Plan pursuant to Article V of the CAT NMS Plan.⁵¹ The Participants utilized a request for proposal (“RFP”) to seek proposals to build and operate the CAT, receiving a number of proposals in response to the RFP. The Participants carefully reviewed and considered each of the proposals, including holding in-person meetings with each of the Bidders. After several rounds of review, the Participants selected the Initial Plan Processor in accordance with the CAT NMS Plan, taking into consideration that the Initial Plan Processor had experience operating in the securities regulatory technology space, among other considerations. On April 6, 2017, CAT LLC entered into an agreement with Thesys CAT LLC (“Thesys CAT”), a Thesys affiliate, to perform the functions and duties of the

Plan Processor contemplated by the CAT NMS Plan, including the management and operation of the CAT. Under the agreement, CAT LLC would pay Thesys CAT a negotiated, fixed price fee for its role as the Initial Plan Processor. Effective January 30, 2019, the Plan Processor Agreement with Thesys CAT was terminated, and FCAT was subsequently selected as the successor Plan Processor.

From January 17, 2017 through January 30, 2019, the time in which Thesys CAT was engaged for the CAT, but excluding the period from November 15, 2017 through January 30, 2019, the Initial Plan Processor engaged in various activities with respect to the CAT, including preparing iterative drafts of Participant Technical Specifications, Industry Member Technical Specifications and the Central Repository Access Technical Specifications. In addition, Thesys CAT also developed CAT technology, addressed compliance items, including drafting CAT policies and procedures, addressing Regulation SCI requirements, establishing a CAT Compliance Officer and a Chief Information Security Officer, addressed security-related matters for the CAT, and worked towards the initiation of Participant reporting per the Participant Technical Specifications.

Successor Plan Processor: FCAT. The capitalized developed technology costs related to FCAT include: (1) development costs incurred during the application development stage to meet various agreed-upon milestones regarding the CAT, including the completion of go-live functionality related to options ingestion and validation, equities regulatory services agreement query tool updates and unlinked options data query, options linkages release, Industry Member Phase 2a file submission and data integrity (including error corrections), and Industry Member testing, including reporting relationships, ATS order type management, basic reporting statistics, SFTP data integrity feedback and error correction; (2) costs related to certain modifications, upgrades, or other changes to the CAT that were not contemplated by the agreement between CAT LLC and the Plan Processor, including a one-time development fee for a secure analytics workspace, a one-time development fee for an Industry Member connectivity solution, and a one-time development fee for the acceleration of multi-factor authentication; (3) CAIS implementation fees; and (4) license fees.

(VI) Legal Costs

The legal costs of \$19,674,463 represent the fees paid for legal services provided by two law firms, Wilmer Cutler Pickering Hale and Dorr LLP (“WilmerHale”) and Pillsbury Winthrop Shaw Pittman LLP (“Pillsbury”), during the Pre-FAM Period. The legal costs exclude those costs incurred from November 15, 2017 through November 15, 2018.

Law Firm: WilmerHale. Following the adoption of Rule 613, the Participants determined it was necessary to engage external legal counsel to advise the Participants with respect to corporate and regulatory legal matters related to the CAT, including drafting and developing the CAT NMS Plan. The Participants considered a variety of factors in their analysis of prospective law firms, including (1) the firm’s qualifications, resources and expertise; (2) the firm’s relevant experience and understanding of the regulatory matters raised by the CAT and in advising on matters of similar scope; (3) the composition of the legal team; and (4) professional fees. Following a series of interviews, the Participants acting as a consortium determined that WilmerHale was well qualified given the balance of these considerations and engaged WilmerHale in February 2013.

WilmerHale’s billing rates are negotiated on an annual basis and are determined with reference to the rates charged by other leading law firms for similar work. The Participants assess WilmerHale’s performance and review prospective budgets and staffing plans submitted by WilmerHale on an annual basis. WilmerHale’s compensation arrangements are reasonable and appropriate, and in line with the rates charged by other leading law firms for similar work.

The legal costs for WilmerHale during the Pre-FAM Period included costs incurred from 2013 until June 22, 2020 to address corporate and regulatory legal matters related to the CAT. The legal fees for this law firm during the period from February 2013 until the formation of the CAT NMS, LLC on November 15, 2016 were paid directly by the exchanges and FINRA to WilmerHale. After the formation of CAT NMS LLC, the legal fees were paid by CAT LLC to WilmerHale.

After WilmerHale was engaged in 2013 through the end of the Pre-FAM Period on June 22, 2020 (excluding the legal costs from November 15, 2017 through November 15, 2018), WilmerHale provided legal assistance to the CAT on a variety of matters, including with regard to the following:

⁵⁰ Note that CAT LLC also has incurred costs related to specific Industry Members (e.g., reprocessing costs related to Industry Member reporting errors).

⁵¹ Letter from the Participants to Brent J. Fields, Secretary, SEC (Jan. 18, 2017), <https://www.sec.gov/divisions/marketreg/rule613-info-notice-of-plan-processor-selection.pdf>.

- Analyzed various legal matters associated with the Selection Plan, and drafted an amendment to the Selection Plan;
- Assisted with the RFP and bidding process for the CAT Plan Processor;
- Analyzed legal matters related to the Development Advisory Group (“DAG”);
- Drafted the CAT NMS Plan, analyzed various items related to the CAT NMS Plan, and responded to comment letters on CAT NMS Plan;
- Provided legal support for the formation of the legal entity, the governance of the CAT, including governance support prior to the adoption of the CAT NMS Plan, which involved support for the full committee of exchanges and FINRA as well as subcommittees of this group (e.g., Joint Subcommittee Group, Technical, Industry Outreach, Cost and Funding and Other Products) and the DAG, governance support during the transition to the new governance structure under the CAT NMS Plan, and governance support after the adoption of the CAT NMS Plan, which involved support for the Operating Committee, Advisory Committee, Compliance Subcommittee and CAT working groups;
- Assisted with the development of the CAT funding model and drafted related amendments of the CAT NMS Plan and related filings;
- Negotiated and drafted the plan processor agreements with the Initial Plan Processor and the successor Plan Processor;
- Provided assistance with compliance with Regulation SCI;
- Assisted with clock synchronization study;
- Provided assistance with respect to the establishment of CAT security;
- Drafted exemptive requests from CAT NMS Plan requirements, including with regard to options market maker quotes, Customer IDs, CAT Reporter IDs, linking allocations to executions, CAT reporting timeline, FDIDs, customer and account information, timestamp granularity, small industry members, data facility reporting and linkage, allocation reports, SRO-assigned market participant identifiers and cancelled trade indicators, thereby seeking to implement changes that would be cost effective and benefit Industry Members and Participants;
- Assisted with the Implementation Plan required pursuant to Section 6.6(c)(i) of the CAT NMS Plan;
- Provided advice regarding CAT policies and procedures;

- Analyzed the SEC’s amendment of the CAT NMS Plan regarding financial accountability;
- Provided interpretations of and related to the CAT NMS Plan;
- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues; and
- Assisted with third-party vendor agreements.

Law Firm: Pillsbury. The legal costs for CAT during the Pre-FAM Period include costs related to the legal services performed by Pillsbury. The Participants interviewed this law firm as well as other potential law firms to provide legal assistance regarding certain liability matters. After considering a variety of factors in its analysis, including the relevant expertise and fees of the firm, CAT LLC determined to hire Pillsbury in April 2019. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees were paid by CAT LLC to Pillsbury. The legal costs for Pillsbury during the Pre-FAM Period included costs incurred from April 2019 until June 22, 2020 to address legal matters regarding the agreements between CAT Reporters and CAT LLC concerning certain terms associated with CAT Reporting (the “Reporter Agreement”). During that period, Pillsbury advised CAT LLC regarding applicable legal matters, participated in negotiations between the Participants and Industry Members, participated in meetings with senior SEC staff, the Chairman, and Commissioners, represented CAT LLC and the Participants in an SEC administrative proceeding, and drafted a proposed amendment to the CAT NMS Plan regarding liability matters. Liability issues related to the CAT are important matters that needed to be resolved and clarified. CAT LLC’s efforts to seek such resolution and clarity work to the benefit of Participants, Industry Members and other market participants. Moreover, litigation involving CAT LLC is an expense of operating the CAT, and, therefore, is appropriately an obligation of both Participants and Industry Members under the CAT Funding Model.

(VII) Consulting Costs

The consulting costs of \$17,013,414 represent the fees paid to the consulting firm Deloitte & Touche LLP (“Deloitte”) as project manager during the Pre-FAM Period, from October 2012 until June 22, 2020. These consulting costs include costs for advisory services related to the operation of the CAT, and meeting

facilitation and communications coordination, vendor support and financial analyses.

To help facilitate project management given the unprecedented complexity and scope of the CAT project, the Participants determined it was necessary to engage a consulting firm to assist with the CAT project in 2012, following the adoption of Rule 613. A variety of factors were considered in the analysis of prospective consulting firms, including (1) the firm’s qualifications, resources, and expertise; (2) the firm’s relevant experience and understanding of the regulatory issues raised by the CAT and in coordinating matters of similar scope; (3) the composition of the consulting team; and (4) professional fees. Following a series of interviews, the exchanges and FINRA as a consortium determined that Deloitte was well qualified given the balance of these considerations and engaged Deloitte on October 1, 2012.

Deloitte’s fee rates are negotiated on an annual basis and are in line with market rates for this type of specialized consulting work. CAT LLC assesses Deloitte’s performance and reviews prospective budgets and staffing plans submitted by Deloitte on an annual basis. Deloitte’s compensation arrangements are reasonable and appropriate, and in line with the rates charged by other leading consulting firms for similar work.

The consulting costs for CAT during the period from 2012 until the formation of the CAT NMS, LLC were paid directly by the Participants to Deloitte. After the formation of CAT NMS, LLC, the consulting fees were paid by CAT LLC to Deloitte. CAT LLC reviewed the consulting fees each month and approved the invoices.

After Deloitte was hired in 2012 through the end of the Pre-FAM Period on June 22, 2020 (excluding the consulting costs from November 15, 2017 through November 15, 2018), Deloitte provided a variety of consulting services, including the following:

- Established and implemented program operations for the CAT project, including the program management office and workstream design;
- Assisted with the Plan Processor selection process, including but not limited to, the development of the RFP and the bidder evaluation process, and facilitation and consolidation of the Participant’s independent reviews;
- Assisted with the development and drafting of the CAT NMS Plan, including conducting cost-benefit studies, analyzing OATS and CAT requirements, and drafting appendices to the Plan;

- Assisted with cost and funding-related activities for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;

- Provided governance support to the CAT, including governance support prior to the adoption of the CAT NMS Plan, which involved support for the full committee of exchanges and FINRA as well as subcommittees of this group (e.g., Joint Subcommittee Group, Technical, Industry Outreach, Cost and Funding and Other Products) and the DAG, governance support during the transition to the new governance structure under the CAT NMS Plan and governance support after the adoption of the CAT NMS Plan, which involved support for the Operating Committee, Advisory Committee, Compliance Subcommittee and CAT working groups;

- Provided support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;

- Assisted with industry outreach and communications regarding the CAT, including assistance with industry outreach events, the development of the CAT website, frequently asked questions, and coordinating with the CAT LLC's public relations firm;

- Provided support for updating the SEC on the progress of the development of the CAT;

- Provided active planning and coordination with and support for the Initial Plan Processor with regard to the development of the CAT, and reported to the Participants on the progress;

- Coordinated efforts regarding the selection of the successor Plan Processor;

- Assisted with the transition from the Initial Plan Processor to the successor Plan Processor, including support for the Operating Committee and successor Plan Processor for the new role; and

- Provided support for third-party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

(VIII) Insurance

The insurance costs of \$880,419 represent the cost incurred for insurance for CAT during the Pre-FAM Period. Commencing in 2020, CAT LLC performed an evaluation of various potential alternatives for CAT insurance policies, which included engaging in discussions with different insurance companies and conducting cost

comparisons of various alternative approaches to insurance. Based on an analysis of a variety of factors, including coverage and premiums, CAT LLC determined to purchase cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance from USI Insurance Services LLC ("USI"). Such policies are standard for corporate entities, and cyber security liability insurance is important for the CAT System. The annual premiums for these policies were competitive for the coverage provided. The annual premiums were paid by CAT LLC to USI.

(IX) Professional and Administration Costs

In adopting the CAT NMS Plan, the Commission amended the Plan to add a requirement that CAT LLC's financial statements be prepared in compliance with GAAP, audited by an independent public accounting firm, and made publicly available.⁵² The professional and administration costs include costs related to accounting and accounting advisory services to support the operating and financial functions of CAT, financial statement audit services by an independent accounting firm, preparation of tax returns, and various cash management and treasury functions. In addition, professional and administration costs for the Pre-FAM Period include costs related to the receipt of market data and a security assessment. The costs for these professional and administration services were \$1,082,036 for the Pre-FAM Period.

Financial Advisory Firm: Anchin Accountants & Advisors ("Anchin"). CAT LLC determined to hire a financial advisory firm, Anchin, to assist with financial matters for the CAT in April 2018. CAT LLC interviewed Anchin as well as other potential financial advisory firms to assist with the CAT project, considering a variety of factors in its analysis, including the firm's relevant expertise and fees. The hourly fee rates for this firm were in line with market rates for these financial advisory services. The fees for these services were paid by CAT LLC to Anchin.

After Anchin was hired in April 2018 through the end of the Pre-FAM Period on June 22, 2020 (excluding the period from April 2018 through November 15, 2018), Anchin provided a variety of services, including the following:

- Developed, updated and maintained internal controls;

- Provided cash management and treasury functions;

- Facilitated bill payments;
- Provided monthly bookkeeping;
- Reviewed vendor invoices and documentation in support of cash disbursements;

- Provided accounting research and consultations on various accounting, financial reporting and tax matters;

- Addressed not-for-profit tax and accounting considerations;

- Prepared tax returns;

- Addressed various accounting, financial and operating inquiries from Participants;

- Developed and maintained quarterly and annual operating and financial budgets, including budget to actual fluctuation analyses;

- Addressed accounting and financial reporting matters relating to the transition from CAT NMS, LLC to Consolidated Audit Trail, LLC, including supporting the dissolution of CAT NMS, LLC;

- Supported compliance with the CAT NMS Plan;

- Worked with and provided support to the Operating Committee and various CAT working groups;

- Prepared monthly, quarterly and annual financial statements;

- Supported the annual financial statement audits by an independent auditor;

- Reviewed historical costs from inception; and

- Provided accounting and financial information in support of SEC filings.

Accounting Firm: Grant Thornton LLP ("Grant Thornton"). In February 2020, CAT LLC determined to engage an independent accounting firm, Grant Thornton, to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. CAT LLC interviewed this firm as well as another potential accounting firm to audit CAT LLC's financial statements, considering a variety of factors in its analysis, including the relevant expertise and fees of each of the firms. CAT LLC determined that Grant Thornton was well-qualified for the proposed role given the balance of these considerations. Grant Thornton's fixed fee rate compensation arrangement was reasonable and appropriate, and in line with the market rates charged for these types of accounting services. The fees for these services were paid by CAT LLC to Grant Thornton.

Market Data Provider: Exegy. The professional and administrative costs for the Pre-FAM Period included costs related to the receipt of certain market data for the CAT pursuant to an

⁵² Section 9.2 of the CAT NMS Plan.

agreement with the CAT LLC, and then with FCAT. Exegy provided SIP Data required by the CAT NMS Plan.

After performing an analysis of the available market data vendors to confirm that the data provided met the SIP Data requirements of the CAT NMS Plan and comparing the costs of the vendors providing the required SIP Data, CAT LLC determined to purchase market data from Exegy from July 2018 through March 2019. CAT LLC determined that, unlike certain other vendors, Exegy provided market data that included all data elements required by the CAT NMS Plan.⁵³ In addition, the fees were reasonable and in line with market rates for the market data received. Accordingly, the professional and administrative costs for the Pre-FAM Period include the Exegy costs from November 2018 through March 2019. The cost of the market data was reasonable for the market data received. The fees for the market data were paid directly by CAT LLC to Exegy.

Upon the termination of the contract between CAT LLC and Exegy, FCAT entered into a contract with Exegy to purchase the required market data from Exegy in July 2019. All costs under the contract were treated as a direct pass through cost to CAT LLC. Therefore, the fees for the market data were paid by CAT LLC to FCAT, who, in turn, paid Exegy for the market data.

Security Assessment: RSM US LLP (“RSM”). The operating costs for the Pre-FAM Period include costs related to a third party security assessment of the CAT performed by RSM. The assessment was designed to verify and validate the effective design, implementation, and operation of the controls specified by NIST Special Publication 800–53, Revision 4 and related standards and guidelines. Such a security assessment is in line with industry practice and important given the data included in the CAT. CAT LLC determined to engage RSM to perform the security assessment, after considering a variety of factors in its analysis, including the firm’s relevant expertise and fees. The fees were reasonable and in line with market rates for such an assessment. RSM performed the assessment from October 2018 through December 2018. Accordingly,

the costs for the Pre-FAM Period include the costs incurred in November and December 2018. The cost for the security assessment were paid directly to RSM by CAT LLC.

(X) Public Relations Costs

The public relations costs of \$224,669 represent the fees paid to public relations firms during the Pre-FAM Period for professional communications services to CAT, including media relations consulting, strategy and execution. By engaging a public relations firm, CAT LLC was better positioned to understand and address CAT matters to the benefit of all market participants. Specifically, the public relations firms provided services related to communications with the public regarding the CAT, including monitoring developments related to the CAT (e.g., congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating communications to the public regarding such developments as well as reporting on developments related to the CAT (e.g., amendments to the CAT NMS Plan). Public relations services were important for various reasons, including monitoring comments made by market participants about CAT and understanding issues related to the CAT discussed on the public record.

The services performed by each of the public relations firms were comparable. The fees for such services were reasonable and in line with market rates. Only one public relations firm was engaged at a time; the three firms were engaged sequentially as the primary public relations contact moved among the three firms during this time period.

Public Relations Firm: Peppercomm, Inc. (“Peppercomm”). The national securities exchanges and FINRA, acting as a consortium, determined to hire the public relations firm Peppercomm in October 2014 and continued to engage this firm through September 2017. The exchanges and FINRA made this engagement decision after considering a variety of factors in its analysis, including the firm’s relevant expertise and fees. The fee rates for this public

relations firm were negotiated on an arm’s length basis and were in line with market rates for these types of services. The public relations costs during the period from October 2014 until the formation of the CAT NMS, LLC were paid directly by the exchanges and FINRA to the public relations firm. After the formation of CAT NMS, LLC, the consulting fees were paid by CAT LLC.

Public Relations Firm: Sloane & Company (“Sloane”). CAT LLC determined to hire a new public relations firm, Sloane, in March 2018, based on, among other things, their expertise and the primary contact’s history with the project. The fee rates for this public relations firm were in line with market rates for these types of services. The fees during the Pre-FAM Period were paid by CAT LLC to Sloane. CAT LLC continued the engagement with Sloane until February 2020.

Public Relations Firm: Peak Strategies. CAT LLC determined to hire a new public relations firm, Peak Strategies, in March 2020, based on, among other things, their expertise and the primary contact’s history with the project. The fee rates for this public relations firm were in line with market rates for these types of services. The fees during the Pre-FAM Period were paid by CAT LLC to Peak Strategies.

(b) Historical CAT Costs Incurred in Financial Accountability Milestone Period 1

Historical CAT Costs 1 would include costs incurred by CAT and already funded by the Participants during Period 1 of the Financial Accountability Milestones (“FAM Period 1”),⁵⁴ which covers the period from June 22, 2020–July 31, 2020. Historical CAT Costs 1 would include costs for FAM Period 1 of \$6,377,343. The Participants would remain responsible for one-third of this cost (which they have previously paid) (\$2,125,781), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$2,125,781) and CEBBs paying one-third (\$2,125,781). The following table breaks down Historical CAT Costs 1 for FAM Period 1 into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

Operating expense	Historical CAT costs for FAM Period 1 **
Capitalized Developed Technology Costs *	\$1,684,870
Technology Costs	3,996,800
Cloud Hosting Services	2,642,122
Operating Fees	1,099,680

⁵³ See Section 6.5(a)(ii) of the CAT NMS Plan.

⁵⁴ Section 11.6(a)(i)(A) of the CAT NMS Plan.

Operating expense	Historical CAT costs for FAM Period 1 **
CAIS Operating Fees	254,998
Change Request Fees	
Legal	481,687
Consulting	137,209
Insurance	
Professional and administration	69,077
Public relations	7,700
Total Operating Expenses	6,377,343

* The non-cash amortization of these capitalized developed technology costs of \$362,121 incurred during FAM Period 1 have been appropriately excluded from the above table.⁵⁵

** The costs described in this table of costs for FAM Period 1 were calculated based upon CAT LLC's review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website.

By the completion of FAM Period 1, CAT LLC was required to implement the reporting by Industry Members (excluding Small Industry Members that are not OATS reporters) of equities transaction data and options transaction data, excluding Customer Account Information, Customer-ID and Customer Identifying Information.⁵⁶ CAT LLC completed the requirements of FAM Period 1 by July 31, 2020. The following describes the costs for each of the categories for FAM Period 1.

(I) Technology Costs—Cloud Hosting Services

CAT LLC continued to utilize AWS in FAM Period 1 to provide a broad array of cloud hosting services for the CAT, including data ingestion, data management, and analytic tools. AWS

continued to provide storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as well as various environments for CAT, such as development, performance testing, test, and production environments, during the FAM 1 Period. Accordingly, the \$2,642,122 in technology costs for cloud hosting services represent costs incurred for services provided by AWS, as the cloud services provider, during FAM Period 1. The fee arrangement for AWS described above with regard to the Pre-FAM Period continued in place during FAM Period 1 pursuant to the Plan Processor Agreement. Moreover, CAT LLC continued to believe that AWS's maturity in the cloud services space as well as the significant cost and time

necessary to move the CAT to a different cloud services provider supported the continued engagement of AWS.

The cost for AWS cloud services for the CAT continued to be a function of the volume of CAT Data. During the FAM 1 Period, the volume of CAT Data continued to far exceed the original predictions for the CAT as set forth in the CAT NMS Plan. During this period, data submitted to the CAT included options and equities Participant Data, Phase 2a and Phase 2b Industry Member Data (including certain linkages) as well as SIP Data, reference data and other types of Other Data. The following chart provides data regarding the average daily volume, cumulative total events, total compute hours and storage footprint of the CAT during FAM Period 1.⁵⁷

	Date range: 6/22/20–7/31/20
Average Daily Volume in Billions:	
Participant—Equities	6
Participant—Options	103
Industry Member—Equities	7
Industry Member—Options	0.31
SIP—Options & Equities	74
Average Total Daily Volume	185
Cumulative Total Events for the Period	5,190
Total Compute Hours for the Period	2,612,082
Storage Footprint at End of Period (Petabytes)	57.47

(II) Technology Costs—Operating Fees

Pursuant to the Plan Processor Agreement discussed above, FCAT continued in its role as the Plan Processor for the CAT during FAM Period 1. Accordingly, the \$1,099,680 in technology costs for operating fees represent costs incurred for the services

provided by FCAT under the Plan Processor Agreement during FAM Period 1. The fee arrangement for FCAT described above with regard to the Pre-FAM Period continued in place during FAM Period 1 pursuant to the Plan Processor Agreement. During FAM

Period 1, FCAT's activities with respect to the CAT included the following:

- Published iterative drafts of draft Technical Specifications for Phase 2d, after substantial engagement with SEC staff, Industry Members and Participants on the Technical Specifications;
- Published iterative drafts of CAIS Technical Specifications, after

⁵⁵ As discussed above, with respect to certain costs that were "appropriately excluded," such excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As

such costs have already been otherwise reflected in the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

⁵⁶ See definition of "Initial Industry Member Core Equity and Options Reporting" in Section 1.1 of the CAT NMS Plan.

⁵⁷ Note that the volume data described in this table does not include CAIS data.

substantial engagement with SEC staff, Industry Members and Participants on the Technical Specifications;

- Facilitated Industry Member reporting of Quote Sent Time on Options Market Maker quotes;
- Addressed compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provided support to the Operating Committee, the Compliance Subcommittee and CAT working groups;
- Assisted with interpretive efforts and exemptive requests regarding the CAT NMS Plan;
- Oversaw the security of the CAT;
- Monitored the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provided support to subcontractors under the Plan Processor Agreement;
- Provided support in discussions with Participants and the SEC and its staff;
- Operated the FINRA CAT Helpdesk;
- Facilitated communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administered the CAT website and all of its content; and
- Provided technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

(III) Technology Costs—CAIS Operating Fees

Pursuant to the Plan Processor Agreement discussed above, Kingland continued in its role as a subcontractor for the development and implementation of CAIS during FAM Period 1. Accordingly, the \$254,998 in technology costs for CAIS operating fees represent costs incurred for services provided by Kingland during FAM Period 1. The fee arrangement for Kingland described above with regard to the Pre-FAM Period continued in place during FAM Period 1 pursuant to the Plan Processor Agreement. During FAM Period 1, Kingland continued the development of the CAIS Technical Specifications and building of CAIS. In addition, Kingland continued to work on the CAIS Technical Specifications and build related to CCID Alternative, as well as the acceleration of the reporting of LTIDs.

(IV) Technology Costs—Change Request Fees

CAT LLC did not incur costs related to change requests during FAM Period 1.

(V) Technology Costs—Capitalized Developed Technology Costs

Capitalized developed technology costs for FAM Period 1 of \$1,684,870 include capitalizable application development costs incurred in the development of the CAT by FCAT. Such costs include: (1) costs related to certain modifications, upgrades, or other changes to the CAT that were not contemplated by the agreement between CAT LLC and the Plan Processor, including separate production and industry test entitlements, and reprocessing of exchange event timestamps; (2) implementation fees; and (3) license fees.

(VI) Legal Costs

The legal costs of \$481,687 represent the fees paid for legal services provided by two law firms, WilmerHale and Pillsbury during FAM Period 1.

Law Firm: WilmerHale. CAT LLC continued to employ WilmerHale during FAM Period 1 based on, among other things, their expertise and long history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 1 were paid by CAT LLC to WilmerHale. During FAM Period 1, WilmerHale provided legal assistance to the CAT including with regard to the following:

- Assisted with the development of the CAT funding model and drafted related amendments and fee filings;
- Drafted exemptive requests from CAT NMS Plan requirements regarding, for example, verbal activity, options market maker quote sent time, TRF linkages, and allocations;
- Provided interpretations related to CAT NMS Plan requirements, including the Financial Accountability Milestone amendment;
- Assisted with compliance with Regulation SCI;
- Provided support for the Operating Committee, Compliance Subcommittee, working groups and Leadership Team, including with regard to meetings with the SEC staff;
- Assisted with the drafting of the Implementation Plan required pursuant to Section 6.6(c)(i) of the CAT NMS Plan;
- Assisted with communications and presentations for the industry regarding CAIS;
- Drafted SRO rule filings related to the CAT Compliance Rule;
- Provided support for Compliance Subcommittee, including with regard to responses to OCIE examinations and the annual assessment;

- Provided guidance regarding CAT technical specifications;

- Assisted with third-party vendor agreements; and

- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues.

Law Firm: Pillsbury. CAT LLC continued to employ Pillsbury during FAM Period 1 based on, among other things, their expertise and history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 1 were paid by CAT LLC to Pillsbury. During FAM Period 1, Pillsbury provided legal assistance to the CAT regarding the CAT Reporter Agreement. During that period, Pillsbury advised CAT LLC regarding applicable legal matters and drafted a proposed amendment to the CAT NMS Plan regarding liability matters. Liability issues related to the CAT are important matters that needed to be resolved and clarified. CAT LLC's efforts to seek such resolution and clarity work to the benefit of Participants, Industry Members and other market participants.

(VII) Consulting Costs

The consulting costs of \$137,209 represent the fees paid to Deloitte as project manager during FAM Period 1. CAT LLC continued to employ Deloitte during FAM Period 1 based on, among other things, their expertise and cumulative experience with the CAT. The fee rates for Deloitte during FAM Period 1 were negotiated and in line with market rates for this type of specialized consulting work. The consulting fees during FAM Period 1 were paid by CAT LLC to the consulting firm. CAT LLC reviewed the consulting fees each month and approved the invoices. During FAM Period 1, Deloitte's CAT-related activities included the following:

- Implemented program operations for the CAT project;
- Provided support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;
- Assisted with cost and funding matters for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;
- Provided support for updating the SEC on the progress of the development of the CAT;

- Assisted with the transition from the Initial Plan Processor to the successor Plan Processor; and
- Provided support for third-party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

(VIII) Insurance

Although insurance was in effect during FAM Period 1, CAT LLC did not incur costs related to insurance during FAM Period 1.

(IX) Professional and Administration Costs

Financial Advisory Firm: Anchin. The professional and administration costs of \$69,077 represent the fees paid to Anchin during FAM Period 1. CAT LLC continued to employ Anchin during FAM Period 1 based on, among other things, their expertise and history with the project. The hourly fee rates for this firm were in line with market rates for these type of financial advisory services. The fees for these services during FAM Period 1 were paid by CAT LLC to Anchin. During FAM Period 1, Anchin provided a variety of services, including the following:

- Maintained internal controls;
- Provided cash management and treasury functions;
- Facilitated bill payments;
- Provided monthly bookkeeping;
- Reviewed vendor invoices and documentation in support of cash disbursements;
- Provided accounting research and consultations on various accounting, financial reporting and tax matters;

- Addressed various accounting, financial reporting and operating inquiries from Participants;
- Developed and maintained quarterly and annual operating and financial budgets, including budget to actual fluctuation analyses;
- Supported compliance with the CAT NMS Plan;
- Worked with and provided support to the Operating Committee and various CAT working groups; and
- Prepared monthly and quarterly financial statements.

(X) Public Relations Costs

The public relations costs of \$7,700 represent the fees paid to Peak Strategies during FAM Period 1. CAT LLC continued to employ Peak Strategies during FAM Period 1 based on, among other things, their expertise and history with the project. The fee rates for this firm were reasonable and in line with market rates for these types of services. The fees for these services during FAM Period 1 were paid by CAT LLC to Peak Strategies. During FAM Period 1, Peak Strategies continued to provide professional communications services to CAT LLC, including media relations consulting, strategy and execution. Specifically, the public relations firm provided services related to communications with the public regarding the CAT, including monitoring developments related to the CAT (*e.g.*, congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating

communications to the public regarding such developments as well as reporting on developments related to the CAT (*e.g.*, amendments to the CAT NMS Plan). As discussed above, such public relations services were important for various reasons, including monitoring comments made by market participants about the CAT and understanding issues related to the CAT discussed on the public record. By engaging a public relations firm, CAT LLC was better positioned to understand and address CAT matters to the benefit of all market participants.

(c) Historical CAT Costs Incurred in Financial Accountability Milestone Period 2

Historical CAT Costs 1 would include costs incurred by CAT LLC and already funded by Participants during Period 2 of the Financial Accountability Milestones ("FAM Period 2"),⁵⁸ which covers the period from August 1, 2020—December 31, 2020. Historical CAT Costs 1 would include costs for FAM Period 2 of \$42,976,478. The Participants would remain responsible for one-third of this cost (which they have previously paid) (\$14,325,493), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$14,325,493) and CEBBs paying one-third (\$14,325,493). The following table breaks down Historical CAT Costs 1 for FAM Period 2 into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

Operating expense	Historical CAT costs for FAM Period 2**
Capitalized Developed Technology Costs *	\$6,761,094
Technology Costs	31,460,033
Cloud Hosting Services	20,709,212
Operating Fees	9,108,700
CAIS Operating Fees	1,590,298
Change Request Fees	51,823
Legal	2,766,644
Consulting	532,146
Insurance	976,098
Professional and administration	438,523
Public relations	41,940
Total Operating Expenses	42,976,478

* The non-cash amortization of these capitalized developed technology costs of \$1,892,505 incurred during FAM Period 2 have been appropriately excluded from the above table.⁵⁹

** The costs described in this table of costs for FAM Period 2 were calculated based upon CAT LLC's review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website.

⁵⁸ Section 11.6(a)(i)(B) of the CAT NMS Plan.

⁵⁹ As discussed above, with respect to certain costs that were "appropriately excluded," such

excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already been otherwise reflected in

the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

By the completion of FAM Period 2, CAT LLC was required to implement the following with regard to the CAT:

(a) Industry Member reporting (excluding reporting by Small Industry Members that are not OATS reporters) for equities transactions, excluding Customer Account Information, CustomerID, and Customer Identifying Information, is developed, tested, and implemented at a 5% Error Rate or less and with sufficient intra-firm linkage, inter-firm linkage, national securities exchange linkage, and trade reporting facilities linkage to permit the Participants and the Commission to analyze the full lifecycle of an order across the national market system, excluding linkage of representative orders, from order origination through order execution or order cancellation; and (b) the query tool functionality required by Section 6.10(c)(i)(A) and Appendix D, Sections 8.1.1–8.1.3 and Section 8.2.1 incorporates the Industry Member equities transaction data

described in condition (a) and is available to the Participants and to the Commission.⁶⁰

CAT LLC completed the requirements of FAM Period 2 by December 31, 2020. The following describes the costs for each of the categories for FAM Period 2.

(I) Technology Costs—Cloud Hosting Services

CAT LLC continued to utilize AWS in FAM Period 2 to provide a broad array of cloud hosting services for the CAT, including data ingestion, data management, and analytic tools. AWS continued to provide storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as well as various environments for CAT, such as development, performance testing, test, and production environments, during the FAM 2 Period. Accordingly, the \$20,709,212 in technology costs for cloud hosting services represent costs incurred for services provided by AWS, as the cloud

services provider, during FAM Period 2. The fee arrangement for AWS described above with regard to the Pre-FAM Period and FAM Period 1 continued in place during FAM Period 2 pursuant to the Plan Processor Agreement.

The cost for AWS cloud services for the CAT continued to be a function of the volume of CAT Data. During the FAM 2 Period, the volume of CAT Data continued to far exceed the original predictions for the CAT as set forth in the CAT NMS Plan. During this period, data submitted to the CAT included options and equities Participant Data, Phase 2a and Phase 2b Industry Member Data (including certain linkages) as well as SIP Data, and Other Data, including reference data. In addition, Industry Members began reporting LTID account information. The following chart provides data regarding the average daily volume, cumulative total events, total compute hours and storage footprint of the CAT during FAM Period 2.⁶¹

Date range: 8/1/20–12/31/20	
Average Daily Volume in Billions:	
Participant—Equities	6
Participant—Options	116
Industry Member—Equities	11
Industry Member—Options	0.98
SIP—Options & Equities	80
Average Total Daily Volume	282
Cumulative Total Events for the Period	2,170
Total Compute Hours for the Period	15,660,392
Storage Footprint at End of Period (Petabytes)	114.59

(II) Technology Costs—Operating Fees

Pursuant to the Plan Processor Agreement discussed above, FCAT continued in its role as the Plan Processor for the CAT during FAM Period 2. Accordingly, the \$9,108,700 in technology costs for operating fees represent costs incurred for the services provided by FCAT under the Plan Processor Agreement during FAM Period 2. The fee arrangement for FCAT described above with regard to the Pre-FAM Period and FAM Period 1 continued in place during FAM Period 2 pursuant to the Plan Processor Agreement. During FAM Period 2, FCAT's activities with respect to the CAT included publishing the Technical Specifications for Phase 2d and overseeing the reporting of firm to firm and intrafirm linkages by Industry

Members. In addition, FCAT also continued to engage in the following activities during FAM Period 2:

- Addressed compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provided support to the Operating Committee, Compliance Subcommittee and CAT working groups;
- Assisted with interpretive efforts and exemptive requests regarding the CAT NMS Plan;
- Oversaw the development and implementation of the security of the CAT;
- Monitored the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provided support to subcontractors under the Plan Processor Agreement;

- Provided support in discussions with the Participants and the SEC and its staff;
- Operated the FINRA CAT Helpdesk;
- Facilitated communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administered the CAT website and all of its content; and
- Provided technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

(III) Technology Costs—CAIS Operating Fees

Pursuant to the Plan Processor Agreement discussed above, Kingland continued in its role as a subcontractor for the development and

⁶⁰ See definition of “Full Implementation of Core Equity Reporting Requirements” in Section 1.1 of the CAT NMS Plan.

⁶¹ Note that the volume data described in this table does not include CAIS data.

implementation of CAIS during FAM Period 2. Accordingly, the \$1,590,298 in technology costs for CAIS operating fees represent costs incurred for services provided by Kingland during FAM Period 2. The fee arrangement for Kingland described above with regard to the Pre-FAM Period and FAM Period 1 continued in place during FAM Period 2 pursuant to the Plan Processor Agreement. During FAM Period 2, Kingland continued the development of the CAIS Technical Specifications and building of CAIS. In addition, Kingland continued to work on the CAIS Technical Specifications and build related to the CCID Alternative, as well as the acceleration of the reporting of LTIDs.

(IV) Technology Costs—Change Request Fees

During FAM Period 2, CAT LLC engaged FCAT to pursue certain change requests in accordance with the Plan Processor Agreement. The change request costs were paid by CAT LLC to FCAT. Specifically, during FAM Period 2, CAT incurred costs of \$51,823 related to a change request regarding the addition of functionality for exchange Participants to report rejected messages to the CAT.

(V) Technology Costs—Capitalized Developed Technology Costs

Capitalized developed technology costs for FAM Period 2 of \$6,761,094 include capitalizable application development costs incurred in the development of the CAT by FCAT. Such costs include (1) development costs incurred during the application development stage to meet various agreed-upon milestones regarding the CAT, as defined in the agreement between CAT LLC and the Plan Processor; (2) costs related to certain modifications, upgrades, or other changes to the CAT that were not contemplated by the agreement between CAT LLC and the Plan Processor, including costs related to separate production and industry test entitlements, market maker reference data, and back-processing of exchange exception logic; (3) implementation fees; and (4) license fees.

(VI) Legal Costs

The legal costs of \$2,766,644 represent the fees paid for legal services provided by two law firms, WilmerHale and Pillsbury during FAM Period 2.

Law Firm: WilmerHale. CAT LLC continued to employ WilmerHale during FAM Period 2 based on, among other things, their expertise and long history with the project. The hourly fee

rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 2 were paid by CAT LLC to WilmerHale. During FAM Period 2, the legal assistance provided by WilmerHale included providing legal advice regarding the following:

- Assisted with the development of the CAT funding model and drafting related amendments and rule filings;
- Drafted exemptive requests from CAT NMS Plan requirements regarding, for example, allocations, exchange activity, OTQT, initial data validation, error corrections and recordkeeping;
- Provided interpretations related to CAT NMS Plan requirements, including with regard to the Financial Accountability Milestone amendment, FAQs and technical specifications;
- Provided support for the Operating Committee, Compliance Subcommittees, working groups and Leadership Team, including with regard to meetings with the SEC staff;
- Assisted with the Implementation Plan and Quarterly Progress Reports required pursuant to Section 6.6 of the CAT NMS Plan;
- Drafted SRO rule filings related to the CAT Compliance Rule;
- Provided support for the Compliance Subcommittee, including with regard to responses to OCIE examinations and the annual assessment;
- Provided guidance regarding the SEC's proposed security amendments to the CAT NMS Plan;
- Provided guidance regarding SRO rule filings for the retirement of systems;
- Provided legal support for Operating Committee meetings, including drafting resolutions and other materials and voting advice;
- Assisted with third-party vendor agreements (e.g., with regard to Anchin, Grant Thornton and insurance policies);
- Assisted with change requests; and
- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues.

Law Firm: Pillsbury. CAT LLC continued to employ Pillsbury during FAM Period 2 based on, among other things, their expertise and history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 2 were paid by CAT LLC to Pillsbury. During FAM Period 2, Pillsbury provided legal assistance to the CAT regarding the CAT Reporter Agreement. During that period, Pillsbury advised CAT LLC regarding applicable legal matters and drafted and filed a proposed amendment to the CAT

NMS Plan regarding liability matters. As discussed above, liability issues related to the CAT are important matters that needed to be resolved and clarified. CAT LLC's efforts to seek such resolution and clarity work to the benefit of Participants, Industry Members and other market participants.

(VII) Consulting Costs

The consulting costs of \$532,146 represent the fees paid to Deloitte as project manager during FAM Period 2. CAT LLC continued to employ Deloitte during FAM Period 2 based on, among other things, their expertise and long history with the project. The fee rates for Deloitte during FAM Period 2 were negotiated and in line with market rates for this type of specialized consulting work. The consulting fees during FAM Period 2 were paid to Deloitte by CAT LLC. CAT LLC reviewed the consulting fees each month and approved the invoices. During FAM Period 2, Deloitte's CAT-related activities included the following:

- Implemented program operations for the CAT project;
- Provided support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;
- Assisted with cost and funding matters for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;
- Provided support for updating the SEC on the progress of the development of the CAT; and
- Provided support for third-party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

(VIII) Insurance

The insurance costs of \$976,098 represent the fees paid for insurance during FAM Period 2. CAT LLC continued to maintain cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance offered by USI. After engaging in a process for renewing the coverage, CAT LLC determined to purchase these insurance policies from USI. The annual premiums for these policies were competitive for the coverage provided. The annual premiums were paid by CAT LLC to USI.

(IX) Professional and Administration Costs

The professional and administration costs of \$438,523 represent the fees paid to Anchin and Grant Thornton for financial services provided during FAM Period 2.

Financial Advisory Firm: Anchin.

CAT LLC continued to engage Anchin during FAM Period 2 based on, among other things, their expertise and history with the project. The hourly fee rates for this firm were in line with market rates for these types of financial advisory services. The fees for these services during FAM Period 2 were paid by CAT LLC to Anchin. During FAM Period 2, Anchin provided a variety of services, including the following:

- Updated and maintained internal controls;
- Provided cash management and treasury functions;
- Facilitated bill payments;
- Provided monthly bookkeeping;
- Reviewed vendor invoices and documentation in support of cash disbursements;
- Provided accounting research and consultations on various accounting, financial reporting and tax matters;
- Addressed not-for-profit tax and accounting considerations;
- Prepared tax returns;
- Addressed various accounting, financial reporting and operating inquiries from the Participants;
- Developed and maintained quarterly and annual operating and financial budgets, including budget to actual fluctuation analyses;
- Supported compliance with the CAT NMS Plan;
- Worked with and provided support to the Operating Committee and various CAT working groups;

- Prepared monthly, quarterly and annual financial statements;
- Supported the annual financial statement audit by an independent auditor; and
- Reviewed historical costs from inception.

Accounting Firm: Grant Thornton.

CAT LLC continued to employ the accounting firm Grant Thornton during FAM Period 2 based on, among other things, its expertise and cumulative knowledge of CAT LLC. CAT LLC continued to believe that Grant Thornton was well qualified for its role and its fee rates were in line with market rates for these accounting services. The fees for these services during FAM Period 2 were paid by CAT LLC to Grant Thornton. During FAM Period 2, Grant Thornton performed a financial statement audit for CAT LLC as an independent accounting firm.

(X) Public Relations Costs

The public relations costs of \$41,940 represent the fees paid to Peak Strategies during FAM Period 2. CAT LLC continued to employ Peak Strategies during FAM Period 2 based on, among other things, their expertise and history with the project. The fee rates for this firm were in line with market rates for these types of services. The fees for these services during FAM Period 2 were paid by CAT LLC to Peak Strategies. During FAM Period 2, Peak Strategies continued to provide professional communications services to CAT, including media relations consulting, strategy and execution. Specifically, the public relations firm provided services related to communications with the public regarding the CAT, including monitoring developments related to the

CAT (e.g., congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating communications to the public regarding such developments as well as reporting on developments related to the CAT (e.g., amendments to the CAT NMS Plan). As discussed above, such public relations services were important for various reasons, including monitoring comments made by market participants about the CAT and understanding issues related to the CAT discussed on the public record. By engaging a public relations firm, CAT LLC was better positioned to understand and address CAT matters to the benefit of all market participants.

(d) Historical CAT Costs Incurred in Financial Accountability Milestone Period 3

Historical CAT Costs 1 would include costs incurred by CAT and already funded by the Participants during Period 3 of the Financial Accountability Milestones ("FAM Period 3"),⁶² which covers the period from January 1, 2021—December 31, 2021. Historical CAT Costs 1 would include costs for FAM Period 3 of \$144,415,268. The Participants would remain responsible for one-third of this cost (which they have previously paid) (\$48,138,423), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$48,138,423) and CEBBs paying one-third (\$48,138,423). The following table breaks down Historical CAT Costs 1 for FAM Period 3 into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

Operating expense	Historical CAT costs for FAM Period 3 **
Capitalized Developed Technology Costs *	\$10,763,372
Technology Costs	123,639,402
Cloud Hosting Services	94,574,759
Operating Fees	23,106,091
CAIS Operating Fees	5,562,383
Change Request Fees	396,169
Legal	6,333,248
Consulting	1,408,209
Insurance	1,582,714
Professional and administration	595,923
Public relations	92,400
Total Operating Expenses	144,415,268

* The non-cash amortization of these capitalized developed technology costs of \$5,108,044 incurred during FAM Period 3 have been appropriately excluded from the above table.⁶³

** The costs described in this table of costs for FAM Period 3 were calculated based upon CAT LLC's review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website.

⁶² Section 11.6(a)(i)(C) of the CAT NMS Plan.

⁶³ As discussed above, with respect to certain costs that were "appropriately excluded," such

excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already been otherwise reflected in

the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

By the completion of FAM Period 3, CAT LLC was required to implement the following requirements with regard to the CAT:

(a) reporting to the Order Audit Trail System (“OATS”) is no longer required for new orders; (b) Industry Member reporting for equities transactions and simple electronic options transactions, excluding Customer Account Information, Customer-ID, and Customer Identifying Information, with sufficient intra-firm linkage, inter-firm linkage, national securities exchange linkage, trade reporting facilities linkage, and representative order linkages (including any equities allocation information provided in an Allocation Report) to permit the Participants and the Commission to analyze the full lifecycle of an order across the national market system, from order origination through order execution or order cancellation, is developed, tested, and implemented at a 5% Error Rate or less; (c) Industry Member reporting for manual options transactions and complex options transactions, excluding Customer Account Information, Customer-ID, and Customer Identifying Information, with all required linkages to permit the

Participants and the Commission to analyze the full lifecycle of an order across the national market system, from order origination through order execution or order cancellation, including any options allocation information provided in an Allocation Report, is developed, tested, and fully implemented; (d) the query tool functionality required by Section 6.10(c)(i)(A) and Appendix D, Sections 8.1.1–8.1.3, Section 8.2.1, and Section 8.5 incorporates the data described in conditions (b)–(c) and is available to the Participants and to the Commission; and (e) the requirements of Section 6.10(a) are met.⁶⁴

CAT LLC completed the requirements of FAM Period 3 by December 31, 2021. The following describes the costs for each of the categories for FAM Period 3.

(I) Technology Costs—Cloud Hosting Services

CAT LLC continued to utilize AWS in FAM Period 3 to provide a broad array of cloud hosting services for the CAT, including data ingestion, data management, and analytic tools. AWS continued to provide storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as

well as various environments for CAT, such as development, performance testing, test, and production environments, during the FAM 3 Period. Accordingly, the \$94,574,759 in technology costs for cloud hosting services represents costs incurred for services provided by AWS, as the cloud services provider, during FAM Period 3. The fee arrangement for AWS described above for the earlier periods continued in place during FAM Period 3 pursuant to the Plan Processor Agreement.

The cost for AWS cloud services for the CAT continued to be a function of the volume of CAT Data. During FAM Period 3, the volume of CAT Data continued to far exceed the original predictions for the CAT as set forth in the CAT NMS Plan. During this period, data submitted to the CAT included options and equities Participant Data, Phase 2a, Phase 2b, Phase 2c and Phase 2d Industry Member Data (including certain linkages), SIP Data, Other Data, including reference data, and LTID account information. The following chart provides data regarding the average daily volume, cumulative total events, total compute hours and storage footprint of the CAT during FAM Period 3.⁶⁵

	Date Range: 1/1/21 to 4/25/21	Date Range: 4/26/21 to 12/31/21 *
Average Daily Volume in Billions:		
Participant—Equities	9	9
Participant—Options	135	136
Industry Member—Equities	20	19
Industry Member—Options	2	2
SIP—Options & Equities	129	137
Average Total Daily Volume	297	304
Cumulative Total Events for the Period	7,480	5,310
Total Compute Hours for the Period	15,860,304	33,487,318
Storage Footprint at End of Period (Petabytes)	180.22	284.62

* Start of Participant Equities in CAT format and SIP Equities on 4/26/21.

(II) Technology Costs—Operating Fees

Pursuant to the Plan Processor Agreement discussed above, FCAT continued in its role as the Plan Processor for the CAT during FAM Period 3. Accordingly, the \$23,106,091 in technology costs for operating fees represent costs incurred for the services provided by FCAT under the Plan Processor Agreement during FAM Period 3. The fee arrangement for FCAT described above with regard to the prior Periods continued in place during FAM Period 3 pursuant to the Plan Processor

Agreement. During FAM Period 3, FCAT’s activities with respect to the CAT included the following:

- Facilitated Phase 2c and Phase 2d testing for Industry Members;
- Oversaw creation of linkages of the lifecycle of order events based on the received data through Phase 2d;
- Addressed compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provided support to the Operating Committee, the Compliance

Subcommittee and CAT working groups;

- Assisted with interpretive efforts and exemptive requests regarding the CAT NMS Plan;
- Oversaw the security of the CAT;
- Monitored the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provided support to subcontractors under the Plan Processor Agreement;
- Provided support in discussions with the Participants and the SEC and its staff;

⁶⁴ See definition of “Full Availability and Regulatory Utilization of Transactional Database Functionality” in Section 1.1 of the CAT NMS Plan.

⁶⁵ Note that the volume data described in this table does not include CAIS data.

- Operated the FINRA CAT Helpdesk;
- Facilitated communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;

- Administered the CAT website and all of its content; and

- Provided technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

(III) Technology Costs—CAIS Operating Fees

Pursuant to the Plan Processor Agreement with FCAT discussed above, Kingland continued in its role as a subcontractor for the development and implementation of CAIS during FAM Period 3. Accordingly, the \$5,562,383 in technology costs for CAIS operating fees represents costs incurred for services provided by Kingland during FAM Period 3. The fee arrangement for Kingland described above with regard to the prior Periods continued in place during FAM Period 3 pursuant to the Plan Processor Agreement. During FAM Period 3, Kingland continued the development of the CAIS Technical Specifications and building of CAIS. In addition, Kingland continued to work on the CAIS Technical Specifications and build related to the CCID Alternative, as well as the acceleration of the reporting of LTIDs. The full CAIS Technical Specifications were published during FAM Period 3.

(IV) Technology Costs—Change Request Fees

During FAM Period 3, CAT LLC engaged FCAT to pursue certain change requests in accordance with the Plan Processor Agreement. The change request costs were paid by CAT LLC to FCAT. Specifically, during FAM Period 3, CAT incurred costs of \$396,169 related to change requests, including the following: (1) the addition of functionality for exchange Participants to report rejected messages to the CAT; (2) the migration of MIRS query engine to AWS to reduce operational costs and increase resiliency; and (3) updating the Participant Technical Specifications to allow for two-sided Participant option quote reporting.

(V) Technology Costs—Capitalized Developed Technology Costs

Capitalized developed technology costs for FAM Period 3 of \$10,763,372 include capitalizable application development costs incurred in the development of the CAT by FCAT. Such costs include (1) development costs incurred during the application

development stage to meet various agreed-upon milestones regarding the CAT, as defined in the agreement between CAT LLC and the Plan Processor, including the transition from equity data received by FINRA pursuant to various regulatory services agreements between FINRA and Participant exchanges to the equity CAT Data, and the completion of the Industry Member Phase 2d options manual and complex orders go-live requirements; (2) costs related to certain modifications, upgrades, or other changes to the CAT that were not contemplated by the agreement between CAT LLC and the Plan Processor, including costs related to off-exchange volume concentration, Participant 24-hour trading and an external metastore; (3) implementation fees; and (4) license fees.

(VI) Legal Costs

The legal costs of \$6,333,248 represent the fees paid for legal services provided by three law firms, WilmerHale, Pillsbury and Covington & Burling LLP (“Covington”) during FAM Period 3.

Law Firm: WilmerHale. CAT LLC continued to employ WilmerHale during FAM Period 3 based on, among other things, their expertise and long history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 3 were paid by CAT LLC to WilmerHale. During FAM Period 3, the legal assistance provided by WilmerHale included providing legal advice regarding the following:

- Assisted with the development of the CAT funding model and drafting related amendments and rule filings;
- Drafted exemptive requests from CAT NMS Plan requirements, including, for example, verbal activity regarding Phase 2c cutover, error reports, error corrections, Phase 2d Reporting, unique Order-ID on internal route events, reporting addresses, recordkeeping, and unique CCID for foreign customers;

- Provided interpretations related to CAT NMS Plan requirements, including with regard to the Financial Accountability Milestone amendment, FAQs, CAIS requirements, ADF, and technical specifications;

- Provided support for the Operating Committee, Compliance Subcommittee, working groups and Leadership Team, including with regard to meetings with the SEC staff;

- Assisted with the Implementation Plan and Quarterly Progress Reports required pursuant to Section 6.6(c) of the CAT NMS Plan;

- Drafted SRO rule filings related to the CAT Compliance Rule;

- Provided support for the Compliance Subcommittee, including with regard to responses to OCIE examinations and the annual assessment;

- Provided guidance regarding the SEC’s proposed security amendments to the CAT NMS Plan;

- Provided guidance regarding SRO rule filings for the retirement of systems;

- Provided legal support for Operating Committee meetings, including drafting resolutions and other materials and voting advice;

- Provided assistance with change requests;

- Provided guidance and regulatory support for litigation regarding the response to the SEC’s exemptive orders;

- Assisted with communications with the industry, including CAT Alerts and presentations;

- Provided guidance regarding the confidentiality of CAT Data, including third-party information requests;

- Assisted with cost management analysis and proposals; and

- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues.

Law Firm: Pillsbury. CAT LLC continued to employ Pillsbury during FAM Period 3 based on, among other things, their expertise and history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 3 were paid by CAT LLC to Pillsbury. During FAM Period 3, Pillsbury provided legal assistance to the CAT regarding the CAT Reporter Agreement. During this period, Pillsbury advised CAT LLC regarding applicable legal matters, reviewed and responded to comment letters regarding the proposed Plan amendment, participated in meetings with senior SEC staff, responded to comments submitted following the SEC’s April 6, 2021 order instituting proceedings,⁶⁶ and assessed legal matters regarding the SEC’s October 29, 2021 order denying the proposed Plan amendment.⁶⁷

Law Firm: Covington. CAT LLC hired Covington for litigation with the SEC regarding certain exemptive orders related to the CAT, including orders issued in December 2020.⁶⁸ CAT LLC

⁶⁶ Securities Exchange Act Rel. No. 91487 (Apr. 6, 2021), 86 FR 19054 (Apr. 12, 2021).

⁶⁷ Securities Exchange Act Rel. No. 93484 (Oct. 29, 2021), 86 FR 60933 (Nov. 4, 2021).

⁶⁸ See Securities Exchange Act Rel. No. 90688 (Dec. 16, 2020), 85 FR 83634 (Dec. 22, 2020); and Securities Exchange Act Rel. No. 90689 (Dec. 16,

interviewed this law firm as well as other potential law firms, considering a variety of factors in its analysis for choosing legal assistance, including the relevant expertise and fees of the potential lawyers. CAT LLC approved the engagement of Covington in January 2021. The fee rates for this law firm, which were calculated based on hourly rates, were in line with market rates for specialized services. The legal fees for FAM Period 3 for this firm were paid by CAT LLC to Covington.

After Covington was hired in 2021 through the end of 2021, the firm provided legal assistance regarding the litigation with the SEC regarding the 2020 Orders. These services included researching, drafting, and filing motions to stay the 2020 orders and related materials in proceedings before the SEC, as well as researching, drafting, and filing petitions for judicial review of the 2020 Orders in proceedings before the U.S. Court of Appeals for the D.C. Circuit. Covington oversaw ongoing litigation proceedings on these matters, and also supported WilmerHale with respect to settlement negotiations with the SEC staff regarding the 2020 Orders.

In addition to these services, CAT LLC engaged Covington in November 2021 to provide assistance with respect to the SEC's disapproval of CAT NMS Plan amendments concerning a proposed limitation on liability in the event of a data breach or similar event. Covington provided advice concerning CAT's response to the SEC's disapproval order. This work accounted for a minority of Covington's fees in 2021.⁶⁹

(VII) Consulting Costs

The consulting costs of \$1,408,209 represent the fees paid to Deloitte as project manager during FAM Period 3. CAT LLC continued to employ Deloitte during FAM Period 3 based on, among other things, their expertise and long history with the project. The fee rates for Deloitte during FAM Period 3 were negotiated and in line with market rates for this type of specialized consulting work. The consulting fees during FAM Period 3 were paid to Deloitte by CAT LLC. CAT LLC reviewed the consulting fees each month and approved the invoices. During FAM Period 3, Deloitte's CAT-related activities included the following:

- Implemented program operations for the CAT project;
- Provided support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;
- Assisted with cost and funding matters for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;
- Provided support for updating the SEC on the progress of the development of the CAT; and
- Provided support for third-party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

(VIII) Insurance

The insurance costs of \$1,582,714 represent the fees paid for insurance during FAM Period 3. CAT LLC continued to maintain cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance offered by USI. After engaging in a process for renewing the coverage, CAT LLC determined to purchase these insurance policies from USI. The annual premiums for these policies were competitive for the coverage provided. The annual premiums were paid by CAT LLC to USI.

(IX) Professional and Administration Costs

The professional and administration costs of \$595,923 represent the fees paid to Anchin and Grant Thornton for financial services during FAM Period 3.

Financial Advisory Firm: Anchin. CAT LLC continued to employ Anchin during FAM Period 3 based on, among other things, their expertise and history with the project. The hourly fee rates for this firm were in line with market rates for these financial advisory services. The fees for these services during FAM Period 3 were paid by CAT LLC to Anchin. During FAM Period 3, Anchin provided a variety of services, including the following:

- Updated and maintained internal controls;
- Provided cash management and treasury functions;
- Facilitated bill payments;
- Provided monthly bookkeeping;
- Reviewed vendor invoices and documentation in support of cash disbursements;
- Provided accounting research and consultations on various accounting, financial reporting and tax matters;

- Addressed not-for-profit tax and accounting considerations;
- Prepared tax returns;
- Addressed various accounting, financial reporting and operating inquiries from Participants;
- Developed and maintained quarterly and annual operating and financial budgets, including budget to actual fluctuation analyses;
- Supported compliance with the CAT NMS Plan;
- Worked with and provided support to the Operating Committee and various CAT working groups;
- Prepared monthly, quarterly and annual financial statements;
- Supported the annual financial statement audits by an independent auditor;
- Reviewed historical costs from inception; and
- Provided accounting and financial information in support of SEC filings.

Accounting Firm: Grant Thornton. CAT LLC continued to employ the accounting firm Grant Thornton during FAM Period 3 based on, among other things, their expertise and cumulative knowledge of CAT LLC. CAT LLC determined that Grant Thornton was well qualified for its role and that its fixed fee rates were in line with market rates for these accountant services. The fees for these services during FAM Period 3 were paid by CAT LLC to Grant Thornton. During FAM Period 3, Grant Thornton provided audited financial statements for CAT LLC.

(X) Public Relations Costs

The public relations costs of \$92,400 represent the fees paid to Peak Strategies during FAM Period 3. CAT LLC continued to employ Peak Strategies during FAM Period 3 based on, among other things, their expertise and history with the project. The fee rates for this firm were in line with market rates for these types of services. The fees for these services during FAM Period 3 were paid by CAT LLC to Peak Strategies. During FAM Period 3, Peak Strategies continued to provide professional communications services to CAT, including media relations consulting, strategy and execution. Specifically, the public relations firm provided services related to communications with the public regarding the CAT, including monitoring developments related to the CAT (e.g., congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating communications to the public regarding such developments as well as reporting

2020), 85 FR 83667 (Dec. 22, 2020) (collectively, the "2020 Orders").

⁶⁹ As discussed above with regard to Pillsbury's work on liability matters, liability issues related to the CAT are important matters that needed to be resolved and clarified. CAT LLC's efforts to seek such resolution and clarity work to the benefit of Participants, Industry Members and other market participants. Moreover, such activity is a necessary part of the operation of the CAT.

on developments related to the CAT (e.g., amendments to the CAT NMS Plan). As discussed above, such public relations services were important for various reasons, including monitoring comments made by market participants about the CAT and understanding issues related to the CAT discussed on the public record. By engaging a public relations firm, CAT LLC was better positioned to understand and address CAT matters to the benefit of all market participants.

(e) Excluded Costs

Historical CAT Costs 1 would not include three categories of CAT costs ("Excluded Costs"): (1) \$14,749,362 of costs related to the termination of the relationship with the Initial Plan Processor; (2) \$48,874,937, which are all CAT costs incurred from November 15, 2017 through November 15, 2018; and (3) \$19,628,791, which are costs paid to

the Initial Plan Processor from November 16, 2018 through February 2019 when the relationship with the Initial Plan Processor was concluded. The Participants would remain responsible for 100% of these costs, which total \$83,253,090. CAT LLC determined to exclude these Excluded Costs from Historical CAT Costs 1 because these costs relate to the delay in the start of reporting to the CAT and the conclusion of the relationship with the Initial Plan Processor.⁷⁰

(I) Costs Related to Conclusion of Relationship With Initial Plan Processor

First, Historical CAT Costs 1 would not include \$14,749,362 of costs related to the conclusion of the relationship with the Initial Plan Processor. Such costs include costs related to the American Arbitration Association, the legal assistance of Pillsbury with regard to the arbitration with the Initial Plan

Processor, and the settlement costs related to the arbitration with the Initial Plan Processor. The Participants would remain responsible for 100% of these \$14,749,362 in costs.

(II) Costs Incurred From November 15, 2017 Through November 15, 2018

Second, Historical CAT Costs 1 would not include all CAT costs incurred from November 15, 2017 through November 15, 2018. CAT LLC determined to exclude all costs during this one-year period of \$48,874,937 from fees charged to Industry Members due to the delay in the start of reporting to the CAT. The Participants would remain responsible for 100% of these \$48,874,937 in costs. The following table breaks down these costs into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

Operating expense	Excluded costs for November 15, 2017– November 15, 2018 *
Capitalized Developed Technology Costs	\$37,852,083
<i>Technology Costs:</i>	
Cloud Hosting Services	
Operating Fees	
CAIS Operating Fees	
Change Request Fees	
Legal	6,143,278
Consulting	4,452,106
Insurance	
Professional and administration	340,145
Public relations	87,325
Total Operating Expenses	48,874,937

* The costs described in this table of Excluded Costs were calculated based upon CAT LLC's review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website.

The following provides additional detail regarding the Excluded Costs.

(a) Technology Costs—Cloud Hosting Services, Operating Fees, CAIS Operating Fees and Change Request Fees

CAT LLC did not incur technology costs related to the categories of cloud hosting services, operating fees, CAIS operating fees or change requests during the period from November 15, 2017 through November 15, 2018.

(b) Technology Costs—Capitalized Developed Technology Costs

Capitalized developed technology costs for the period from November 15, 2017 through November 15, 2018 include capitalizable application development costs of \$37,852,083

incurred in the development of the CAT by the Initial Plan Processor. Such costs include development costs incurred during the application development stage to meet various agreed-upon milestones regarding the CAT, as defined in the agreement between CAT LLC and the Initial Plan Processor. Such costs include costs related to Industry Member technical specifications for orders and transactions, the system security plan, testing and production for Participant CAT reporting, third-party security assessment and response, query portal, onboarding of the Chief Information Security Officer, and ingestion of FINRA TRF data and FINRA data related to halts and corporate actions.

(c) Legal Costs

The legal costs of \$6,143,278 represent the fees paid to WilmerHale for legal services from November 15, 2017 through November 15, 2018. During this period, WilmerHale provided legal assistance to the CAT including with regard to the following:

- Provided legal support for the governance of the CAT, including governance support for the Operating Committee, Advisory Committee, Compliance Subcommittee, and CAT working groups;
- Assisted with the development of the CAT funding model and drafted related amendments of the CAT NMS Plan;
- Provided assistance related to CAT security;

⁷⁰ In approving the CAT Funding Model, the Commission states that "the proposed exclusion of the excluded costs from Past CAT Costs is appropriate in the Commission's view because it

would not require all costs incurred by the Participants to be recovered from Industry Members through the Historical CAT Assessment, specifically excluding those costs related to the delay in the

start of reporting to the CAT and costs related to the conclusion of the relationship with the Initial Plan Processor." CAT Funding Model Approval Order at 13450.

- Drafted exemptive requests, including requests related to PII;
- Assisted with the Implementation Plan required pursuant to Section 6.6(c)(i) of the CAT NMS Plan;
- Provided interpretations of and related to the CAT NMS Plan;
- Provided advice with regard to regulator access to the CAT;
- Assisted with the Plan Processor transition;
- Provided assistance regarding communications with the industry regarding the CAT;
- Provided advice regarding Customer Account Information and PII;
- Provided support for litigation related to SEC exemptive orders; and
- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretative and implementation issues.

(d) Consulting Costs

The consulting costs of \$4,452,106 represent the fees paid to Deloitte for their role as project manager for the CAT from November 15, 2017 through November 15, 2018. During this period, Deloitte engaged in the following activities with respect to the CAT:

- Implemented program operations for the CAT project;
- Provided governance support to the Operating Committee, including support for Subcommittees and working groups of the Operating Committee (e.g., Compliance Subcommittee, Cost and Funding Working Group, Technical Working Group, Industry Outreach Working Group, Security Working Group and Steering Committee);
- Assisted with cost and funding issues for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;
- Provided support for updating the SEC on the progress of the development of the CAT; and
- Provided active planning and coordination with and support for the Initial Plan Processor with regard to the development of the CAT, and reported to the Participants on the progress.

(e) Insurance

CAT LLC did not incur costs related to insurance during the period from November 15, 2017 through November 15, 2018.

(f) Professional and Administration Costs

The professional and administration costs of \$340,145 represent the fees paid to Anchin, Exegy and RSM from November 15, 2017 through November 15, 2018.

Financial Advisory Firm: Anchin. From the commencement of its engagement in April 2018 through November 15, 2018, Anchin engaged in the following activities with respect to the CAT:

- Developed, updated and maintained internal controls;
- Provided cash management and treasury functions;
- Facilitated bill payments;
- Provided monthly bookkeeping;
- Reviewed vendor invoices and documentation in support of cash disbursements;
- Provided accounting research and consultations on various accounting, financial reporting and tax matters;
- Addressed not-for-profit tax and accounting considerations;
- Prepared tax returns;
- Addressed various accounting, financial reporting and operating inquiries from Participants;
- Developed and maintained quarterly and annual operating and financial budgets, including budget to actual fluctuation analyses;
- Addressed accounting and financial matters relating to the transition from CAT NMS, LLC to Consolidated Audit Trail, LLC, including supporting the dissolution of CAT NMS, LLC;
- Supported compliance with the CAT NMS Plan;
- Worked with and provided support to the Operating Committee and various CAT working groups;
- Prepared monthly, quarterly and annual financial statements;
- Supported the annual financial statement audits by an independent auditor;
- Reviewed historical costs from inception; and
- Provided accounting and financial information in support of SEC filings.

Market Data Provider: Exegy. From July 2018 through November 15, 2018, CAT LLC purchased market data from Exegy (as described in more detail above).

Security Assessment: RSM. From October 2018 through November 15, 2018, CAT LLC incurred costs for RSM's performance of a security assessment (as described in more detail above).

(g) Public Relations Costs

The public relations costs of \$87,325 represent the fees paid to Sloane from November 15, 2017 through November 15, 2018. From the commencement of its engagement in March 2018 through November 15, 2018, Sloane provided professional communications services to CAT, including media relations consulting, strategy and execution. Specifically, Sloane provided services

related to communications with the public regarding the CAT, including monitoring developments related to the CAT (e.g., congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating communications to the public regarding such developments as well as reporting on developments related to the CAT (e.g., amendments to the CAT NMS Plan).

(III) Costs Paid to Initial Plan Processor From November 16, 2018 Through February 2019

Third, Historical CAT Costs 1 would not include the \$19,628,791 in costs paid to the Initial Plan Processor from November 16, 2018 through February 2019 when CAT LLC's relationship with the Initial Plan Processor concluded. CAT LLC determined that Historical CAT Costs 1 would not include any fees paid to the Initial Plan Processor after November 15, 2017,⁷¹ which was the date by which Participants were required to begin reporting to the CAT.⁷² As discussed above, the Participants determined that Historical CAT Costs 1 would not include all CAT costs incurred from November 15, 2017 through November 15, 2018, which includes \$37,852,083 in Initial Plan Processor costs incurred from November 15, 2017 through November 15, 2018 (as well as other CAT costs during this period). The remaining Initial Plan Processor costs incurred after November 15, 2018 are the \$19,628,791 in costs for the period from November 16, 2018 through February 2019 incurred in the development of the CAT by the Initial Plan Processor, as well as a transition fee for the transition from the Initial Plan Processor to the successor Plan Processor. The Participants would remain responsible for 100% of these \$19,628,791 in costs.

(ii) Previously Invoiced Costs for Historical CAT Costs 1

CEBBs and CEBBs collectively have been invoiced for \$173,075,024 of the \$212,039,879.34 of Historical CAT Costs 1 via Historical CAT Assessment 1, where \$86,537,512 was invoiced collectively to CEBBs and \$86,537,512

⁷¹ As discussed below, CAT LLC believes that it is appropriate to recover costs related to the services performed by the Initial Plan Processor prior to November 15, 2017. See Section 3(a)(10)(E) below.

⁷² The SEC approved the CAT NMS Plan on November 15, 2016, and Participant reporting was required to begin on the first anniversary of this date, November 15, 2017. See Section 6.3 of the CAT NMS Plan and CAT NMS Plan Approval Order.

was invoiced collectively to CEBBs. Accordingly, Historical CAT Assessment 1A would seek to recover the remaining \$38,964,855.34 of Historical CAT Costs 1 collectively from CEBBs and CEBBs, where CEBBs collectively will be responsible for \$19,482,427.67, and CEBBs collectively will be responsible for \$19,482,427.67.

(C) Historical Recovery Period 1A

Under the CAT NMS Plan, the Operating Committee is required to reasonably establish the length of the Historical Recovery Period used in calculating each Historical Fee Rate based upon the amount of the Historical CAT Costs to be recovered by the Historical CAT Assessment, and to describe the reasons for its length.⁷³ The Historical Recovery Period used in calculating the Historical Fee Rate may not be less than 24 months or more than five years.⁷⁴ The Operating Committee has determined to establish a Historical Recovery Period 1A of 24 months for Historical CAT Assessment 1A.

The Operating Committee determined that the length of Historical Recovery Period 1A appropriately weighs the need for a reasonable Historical Fee Rate 1A that spreads the Historical CAT Costs over an appropriate amount of time and the need to repay the loans to the Participants in a timely fashion. The Operating Committee determined that 24 months for Historical Recovery Period 1A would establish a fee rate that is lower than other transaction-based fees, including fees assessed pursuant to Section 31.⁷⁵ In addition, in establishing a Historical Recovery Period of 24 months, the Operating Committee recognized that the total costs for Historical CAT Assessment 1A were less than the total costs for 2022 and 2023,⁷⁶ and therefore it would be reasonable and appropriate to recover costs subject to this filing over an approximate two-year period.⁷⁷

⁷³ Section 11.3(b)(i)(D)(I) and Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

⁷⁴ Section 11.3(b)(i)(D)(I) of the CAT NMS Plan. In the CAT Funding Model Approval Order, the SEC stated that “[i]n the Commission’s view, it is appropriate for the Operating Committee to establish the length of the Historical Recovery Period to be no less than 24 months and no more than five years.” CAT Funding Model Approval Order at 13451.

⁷⁵ For example, as the SEC noted in the CAT Funding Model Approval Order, recent Section 31 fees ranged from \$0.00007 per share to \$0.00072 per share. CAT Funding Model at 13469.

⁷⁶ The total CAT costs for 2022 were approximately \$186 million and the total CAT costs for 2023 were approximately \$233 million.

⁷⁷ Note that the proposed 24-month recovery period also recognizes the prohibition on the collection of Historical CAT Assessments after March 31, 2028 as set forth in Section 11.3(f) of the CAT NMS Plan.

The length of the Historical Recovery Period 1A and the reasons for its length are provided in this filing in accordance with the requirement in the CAT NMS Plan to provide such information in a fee filing for a Historical CAT Assessment.⁷⁸

(D) Projected Total Executed Equivalent Share Volume

The calculation of the fee rate for Historical CAT Assessment 1A also requires the determination of the projected total executed equivalent share volume of transactions in Eligible Securities for Historical Recovery Period 1A. Under the CAT NMS Plan, the Operating Committee is required to “reasonably determine the projected total executed equivalent share volume of all transactions in Eligible Securities for each Historical Recovery Period based on the executed equivalent share volume of all transactions in Eligible Securities for the prior twelve months.”⁷⁹ The Operating Committee is required to base its projection on the prior twelve months, but it may use its discretion to analyze the likely volume for the upcoming year. Such discretion would allow the Operating Committee to use its judgment when estimating projected total executed equivalent share volume if the volume over the prior twelve months was unusual or otherwise unfit to serve as the basis of a future volume estimate.⁸⁰

The total executed equivalent share volume of transactions in Eligible Securities for the 12-month period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. The Operating Committee has determined to calculate the projected total executed equivalent share volume for the 24 months of Historical Recovery Period 1A by doubling the executed equivalent share volume for the prior 12 months. The Operating Committee determined that such an approach was reasonable as the CAT’s annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.4), and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level. Accordingly, the projected total executed equivalent share volume for Historical Recovery Period 1A is projected to be

⁷⁸ Section 11.3(b)(iii)(B)(II)(C) of the CAT NMS Plan.

⁷⁹ Section 11.3(b)(i)(E) of the CAT NMS Plan.

⁸⁰ CAT Funding Model Approval Order at 13452.

11,961,875,098,720.98 executed equivalent shares.⁸¹

The projected total executed equivalent share volume of all transactions in Eligible Securities for Historical Recovery Period 1A and a description of the calculation of the projection is provided in this filing in accordance with the requirement in the CAT NMS Plan to provide such information in a fee filing for a Historical CAT Assessment.⁸²

(E) Fee Rate for Historical CAT Assessment 1A

The fee rate for Historical CAT Assessment 1A would be calculated by dividing the total amount of costs to be recovered by Historical CAT Assessment 1A by the reasonably projected total executed equivalent share volume of all transactions in Eligible Securities for Historical Recovery Period 1A, and dividing by 2. Specifically, the fee rate for Historical CAT Assessment 1A would be calculated by dividing \$38,964,855.34 by 11,961,875,098,720.98, and then dividing by 2, which equals \$0.00000162871017371542 per executed equivalent shares. Rounding this to six decimal places results in a fee rate of \$0.000002 per executed equivalent share.⁸³ This fee rate is provided in this filing in accordance with the requirement in the CAT NMS Plan to provide the Historical Fee Rate in a fee filing for a Historical CAT Assessment.⁸⁴

(3) Past CAT Costs and Participants

Participants would not be required to pay any fees associated with Historical CAT Assessment 1A as the Participants previously have paid all Past CAT Costs. The CAT NMS Plan explains that:

Because Participants previously have paid Past CAT Costs via loans to the Company, Participants would not be required to pay any Historical CAT Assessment. In lieu of a Historical CAT Assessment, the Participants’ one-third share of Historical CAT Costs and such other additional Past CAT Costs as

⁸¹ This projection was calculated by multiplying 5,980,937,549,360.49 executed equivalent shares by two.

⁸² Section 11.3(b)(iii)(B)(II)(D) of the CAT NMS Plan.

⁸³ As the SEC noted in approving the CAT Funding Model, the fee filing would provide the exact fee per executed equivalent share and describe the relevant number of decimal places for the fee rate. CAT Funding Model Approval Order at 13445, n.677. The Operating Committee determined to use six decimal places to balance the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.

⁸⁴ Section 11.3(b)(iii)(B)(II)(A) of the CAT NMS Plan.

reasonably determined by the Operating Committee will be paid by the cancellation of loans made to the Company on a pro rata basis based on the outstanding loan amounts due under the loans.⁸⁵

The CAT NMS Plan further states that “Historical CAT Assessments are designed to recover two-thirds of the Historical CAT Costs.”⁸⁶

(4) Monthly Fees

CEBBs and CEBSs would be required to pay fees for Historical CAT Assessment 1A on a monthly basis for the period in which Historical CAT Assessment 1A is in effect.⁸⁷ A CEBB or CEBS’s fee for each month would be calculated based on the transactions in Eligible Securities executed by the CEBB or CEBS from the prior month.⁸⁸ Proposed paragraph (a)(2)(A) of the fee schedule would state that each CAT Executing Broker would receive its first invoice in June 2026, and “would receive an invoice each month thereafter in which Historical CAT Assessment 1A is in effect.” Proposed paragraph (a)(2)(B) of the fee schedule would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for Historical CAT Assessment 1A on a monthly basis.” In addition, paragraph (b)(1) of the fee schedule states that each CEBB and CEBS is required to pay its CAT fees “each month.”

(5) Actual Recovery Period for Historical CAT Assessment 1A

The CAT NMS Plan states that, “[n]otwithstanding the length of the Historical Recovery Period used in calculating the Historical Fee Rate, each Historical CAT Assessment calculated using the Historical Fee Rate will remain in effect until all Historical CAT Costs for the Historical CAT Assessment are collected.”⁸⁹ Accordingly, Historical CAT Assessment 1A will remain in effect until the remaining \$38,964,855.34 of Historical CAT Costs 1 have been collected.⁹⁰ The actual

recovery period for Historical CAT Assessment 1A may be shorter or longer than Historical Recovery Period 1A depending on the actual executed equivalent share volumes during the time that Historical CAT Assessment 1A is in effect and subject to any time limitation in the CAT NMS Plan.⁹¹

(6) Consolidated Audit Trail Funding Fees

To implement Historical CAT Assessment 1A, a new section would be added to the Exchange’s fee schedule for “Consolidated Audit Trail Funding Fees”, and it would include the proposed paragraphs described below.

(A) Fee Schedule for Historical CAT Assessment 1A

The CAT NMS Plan states that: Each month in which a Historical CAT Assessment is in effect, each CEBB and each CEBS shall pay a fee for each transaction in Eligible Securities executed by the CEBB or CEBS from the prior month as set forth in CAT Data, where the Historical CAT Assessment for each transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Historical Fee Rate reasonably determined pursuant to paragraph (b)(i) of this Section 11.3.⁹²

Accordingly, based on the factors discussed above, the Exchange proposes to add paragraph (a)(2) to the Consolidated Audit Trail Funding Fees section of its fee schedule. Proposed paragraph (a)(2) would state the following:

(A) Each CAT Executing Broker shall receive its first invoice for Historical CAT Assessment 1A in June 2026, which shall set forth the Historical CAT Assessment 1A fees calculated based on transactions in May 2026, and shall receive an invoice for Historical CAT Assessment 1A for each month thereafter in which Historical CAT Assessment 1A is in effect.

(B) Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for Historical CAT Assessment 1A on a monthly basis. Each month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (“CEBB”) and/or the CAT Executing

Broker for the Seller (“CEBS”) (as applicable) from the prior month as set forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000002 per executed equivalent share.

(C) Historical CAT Assessment 1A will remain in effect until \$38,964,855.34 is collected from CAT Executing Brokers collectively, which is estimated to be approximately two years, but could be for a longer or shorter period of time. Consolidated Audit Trail, LLC will provide notice when Historical CAT Assessment 1A will no longer be in effect.

(D) Each CAT Executing Broker shall be required to pay each invoice for Historical CAT Assessment 1A in accordance with paragraph (b).

Proposed paragraph (a)(2)(B) of the fee schedule would set forth the fee rate of \$0.000002 per executed equivalent share for Historical CAT Assessment 1A, which is calculated as discussed above.

The proposed language in paragraph (a)(2)(B) of the fee schedule would describe when CAT Executing Brokers would receive their first monthly invoice for Historical CAT Assessment 1A. Specifically, CAT Executing Brokers would receive their first monthly invoice for Historical CAT Assessment 1A in June 2026 and the fees set forth in that invoice would be calculated based on transactions executed in the prior month, that is, transactions executed in May 2026. The payment for the first invoice would be required within 30 days after the receipt of the first invoice (unless a longer period is indicated), as described in paragraph (b)(2) of the fee schedule.

Proposed paragraph (a)(2)(A) of the fee schedule also would describe the monthly cadence of the invoices for Historical CAT Assessment 1A. Specifically, after the first invoices are provided to CAT Executing Brokers in June 2026, invoices will be sent to CAT Executing Brokers each month thereafter while Historical CAT Assessment 1A is in effect.

Proposed paragraph (a)(2)(B) of the fee schedule would describe the invoices for Historical CAT Assessment 1A. Proposed paragraph (a)(2)(B) of the fee schedule would state that “Consolidated Audit Trail, LLC shall provide each CAT Executing Broker with an invoice for Historical CAT Assessment 1A on a monthly basis.” Proposed paragraph (a)(2)(B) of the fee schedule also would describe the fees to be set forth in the invoices for Historical CAT Assessment 1A. Specifically, it would state that

⁸⁵ Section 11.3(b)(ii) of the CAT NMS Plan.

⁸⁶ *Id.* In approving the CAT Funding Model, the Commission stated that the proposed allocation of the Historical CAT Assessment solely to CEBSs and CEBBs is appropriate. The Historical CAT Assessment will still be divided into thirds, as the Participants’ one-third share of Historical CAT Costs will be paid by the cancellation of loans made to the Company. CAT Funding Model Approval Order at 13453.

⁸⁷ See Section 11.3(b)(iii)(A) of the CAT NMS Plan.

⁸⁸ See proposed paragraph (a)(2)(B) of the fee schedule.

⁸⁹ Section 11.3(b)(i)(D)(II) of the CAT NMS Plan.

⁹⁰ In approving the CAT Funding Model, the Commission stated that, “[i]n the Commission’s view, it is appropriate for Industry Members to be

charged a Historical CAT Assessment until all Historical CAT Costs for the Historical CAT Assessment are collected.” CAT Funding Model Approval Order at 13452.

⁹¹ Section 11.3(f) of the CAT NMS Plan would prohibit the billing of Historical CAT Assessments after March 31, 2028.

⁹² Section 11.3(b)(iii)(A) of the CAT NMS Plan.

“[e]ach month, such invoices shall set forth a fee for each transaction in Eligible Securities executed by the CAT Executing Broker in its capacity as a CAT Executing Broker for the Buyer (“CEBB”) and/or the CAT Executing Broker for the Seller (“CEBS”) (as applicable) from the prior month as set forth in CAT Data. The fee for each such transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by the fee rate of \$0.000002 per executed equivalent share.”

Furthermore, proposed paragraph (a)(2)(C) of the fee schedule would describe how long Historical CAT Assessment 1A would remain in effect. It would state that “Historical CAT Assessment 1A will remain in effect until \$38,964,855.34 is collected from CAT Executing Brokers collectively, which is estimated to be approximately two years, but could be for a longer or shorter period of time.” This proposed paragraph would further state that “Consolidated Audit Trail, LLC will provide notice when Historical CAT Assessment 1A will no longer be in effect.”

Historical CAT Assessment 1A will be assessed for all transactions executed in each month through the end of the month in which \$38,964,855.34 is assessed, and then CAT LLC will provide notice that Historical CAT Assessment 1A is no longer in effect. Since Historical CAT Assessment 1A is a monthly fee based on transaction volume from the prior month, Historical CAT Assessment 1A may collect more than \$38,964,855.34. To the extent that occurs, any excess money collected during the final month in which Historical CAT Assessment 1A is in effect will be used to offset future fees and/or to fund the reserve for the CAT.

Finally, proposed paragraph (a)(2)(D) of the fee schedule sets forth the requirement for the CAT Executing Brokers to pay the invoices for Historical CAT Assessment 1A. It would state that “[e]ach CAT Executing Broker shall be required to pay each invoice for Historical CAT Assessment 1A in accordance with paragraph (b).”

(B) Manner of Payment

Paragraph (b)(1) of the “Consolidated Audit Trail Funding Fees” section of its fee schedule describes the manner of payment of Industry Member CAT fees. Paragraph (b)(1) states that “[e]ach CAT Executing Broker shall pay its CAT fees as required pursuant to paragraph (a) each month to the Consolidated Audit Trail, LLC in the manner prescribed by the Consolidated Audit Trail, LLC.” The CAT NMS Plan requires the Operating

Committee to establish a system for the collection of CAT fees.⁹³ The Plan Processor has established a billing system for CAT fees.⁹⁴ Therefore, the Exchange proposes to require CAT Executing Brokers to pay Historical CAT Assessment 1A in accordance with such system.

(C) Failure To Pay CAT Fees

The CAT NMS Plan further states that:

Participants shall require each Industry Member to pay all applicable fees authorized under this Article XI within thirty (30) days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If an Industry Member fails to pay any such fee when due (as determined in accordance with the preceding sentence), such Industry Member shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of: (a) the Prime Rate plus 300 basis points; or (b) the maximum rate permitted by applicable law.⁹⁵

Accordingly, the Exchange previously has added this requirement to the Exchange’s fee schedule. Specifically, paragraph (b)(2) of the fee schedule states:

Each CAT Executing Broker shall pay the CAT fees required pursuant to paragraph (a) within thirty days after receipt of an invoice or other notice indicating payment is due (unless a longer payment period is otherwise indicated). If a CAT Executing Broker fails to pay any such CAT fee when due, such CAT Executing Broker shall pay interest on the outstanding balance from such due date until such fee is paid at a per annum rate equal to the lesser of (i) the Prime Rate plus 300 basis points, or (ii) the maximum rate permitted by applicable law.

The requirements of paragraph (b)(2) would apply to Historical CAT Assessment 1A.

(7) Historical CAT Assessment Details

The CAT NMS Plan states that:

Details regarding the calculation of a CAT Executing Broker’s Historical CAT Assessment will be provided upon request to such CAT Executing Broker.

⁹³ Section 11.4 of the CAT NMS Plan.

⁹⁴ The billing process and system are described in CAT Alert 2023–02 as well as the CAT FAQs related to the billing of CAT fees, the Industry Member CAT Reporter Portal User Guide, the FCAT Industry Member Onboarding Guide, the FCAT Connectivity Supplement for Industry Members and the CAT Billing Webinars (dated Sept. 28, 2023, and Nov. 7, 2023), each available on the CAT website.

⁹⁵ Section 11.4 of the CAT NMS Plan.

At a minimum, such details would include each CAT Executing Broker’s executed equivalent share volume and corresponding fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise than on an exchange, and (3) by buy-side transactions and sell-side transactions.⁹⁶

Such information would provide CEBBs and CEBSs with the ability to understand the details regarding the calculation of their Historical CAT Assessment.⁹⁷ CAT LLC will provide CAT Executing Brokers with these details regarding the calculation of their Historical CAT Assessments on their monthly invoice for the Historical CAT Assessment.

In addition, CAT LLC will make certain aggregate statistics regarding Historical CAT Assessments publicly available. Specifically, the CAT NMS Plan states that, “[f]or each Historical CAT Assessment, at a minimum, CAT LLC will make publicly available the aggregate executed equivalent share volume and corresponding aggregate fee by (1) Listed Options, NMS Stocks and OTC Equity Securities, (2) by transactions executed on each exchange and transactions executed otherwise on an exchange, and (3) by buy-side transactions and sell-side transactions.”⁹⁸ Such aggregate statistics will be available on the CAT website.

Furthermore, CAT LLC will make publicly available on the CAT website the total amount invoiced each month that Historical CAT Assessment 1A is in effect as well as the total amount invoiced for Historical CAT Assessment 1A for all months since its commencement. CAT LLC also will make publicly available on the CAT website the total costs to be collected from Industry Members for Historical CAT Assessment 1A. By reviewing statistics regarding how much has been invoiced and how much remains to be invoiced for Historical CAT Assessment 1A, Industry Members would have

⁹⁶ Section 11.3(a)(iv)(A) of the CAT NMS Plan.

⁹⁷ In approving the CAT Funding Model, the Commission stated that, “[i]n the Commission’s view, providing CAT Execut[ing] Brokers information regarding the calculation of their CAT Fees will aid in transparency and permit CAT Execut[ing] Brokers to confirm the accuracy of their invoices for CAT Fees.” CAT Funding Model Approval Order at 13454.

⁹⁸ Section 11.3(a)(iv)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission stated that “[t]he publication of the aggregate executed equivalent share volume and aggregate fee is appropriate because it would allow Participants and CAT Executing Brokers a high-level validation of executed volume and fees.” CAT Funding Model Approval Order at 13454.

sufficient information to reasonably track how much longer Historical CAT Assessment 1A is likely to be in place.

(8) Billing Implementation

To date, CAT LLC, via FCAT, has billed Industry Members for Historical CAT Assessment 1 and certain Prospective CAT Fees. Industry Members will be billed for Historical CAT Assessment 1A via the same processes established for Historical CAT Assessment 1 and the Prospective CAT Fees. Accordingly, Industry Members have substantial experience with the CAT billing processes.

(9) Financial Accountability Milestones

The CAT NMS Plan states that “[n]o Participant will make a filing with the SEC pursuant to Section 19(b) of the Exchange Act regarding any Historical CAT Assessment until any applicable Financial Accountability Milestone described in Section 11.6 has been satisfied.”⁹⁹ The CAT NMS Plan further states that “in all filings submitted by the Participants to the Commission under Section 19(b) of the Exchange Act, to establish or implement Post-Amendment Industry Member Fees pursuant to this Article, . . . the Participants shall clearly indicate whether such fees are related to Post-Amendment Expenses incurred during Period 1, Period 2, Period 3, or Period 4.”¹⁰⁰ As discussed in detail below, all applicable Financial Accountability Milestones for Historical CAT Assessment 1A—that is, Period 1, Period 2 and Period 3 of the Financial Accountability Milestones—have been satisfied. Furthermore, as discussed below, this filing clearly indicates that Historical CAT Assessment 1A relates to Post-Amendment Expenses incurred during Periods 1, 2 and 3 of the Financial Accountability Milestones.

(A) Period 1 of the Financial Accountability Milestones

In accordance with Section 11.6(b) of the CAT NMS Plan, Historical CAT Assessment 1A seeks to recover costs that are related to “all fees, costs, and expenses (including legal and consulting fees, costs, and expenses) incurred by or for the Company in connection with the development, implementation and operation of the CAT from the effective date of [Section 11.6 of the CAT NMS Plan] until such time as Full Implementation of CAT NMS Plan Requirements has been

achieved”¹⁰¹ (“Post-Amendment Expenses”) incurred during FAM Period 1. FAM Period 1 began on June 22, 2020, the effective date of Section 11.6 of the CAT NMS Plan, and concluded on July 31, 2020, the date of Initial Industry Member Core Equity and Options Reporting. Section 1.1 of the CAT NMS Plan defines “Initial Industry Member Core Equity and Options Reporting” as:

The reporting by Industry Members (excluding Small Industry Members that are not OATS reporters) of both: (a) equities transaction data, excluding Customer Account Information, Customer-ID, and Customer Identifying Information; and (b) options transaction data, excluding Customer Account Information, Customer-ID and Customer Identifying Information.

Under Section 1.1 of the CAT NMS Plan, this Financial Accountability Milestone is considered complete as of the date identified in the Participants’ Quarterly Progress Reports.¹⁰² As indicated by the Participants’ Quarterly Progress Report for the third quarter of 2020,¹⁰³ Initial Industry Member Core Equity and Option Reporting was completed on schedule on July 22, 2020, which is prior to the July 31, 2020 deadline.

Under the FAM Period 1 requirement of Initial Industry Member Core Equity and Options Reporting, Industry Members—excluding Small Industry Members that are not OATS reporters—were required to report two categories of data to the CAT: equities transaction data and options transaction data (both excluding Customer Account Information, Customer-ID, and Customer Identifying Information) by July 31, 2020. Pursuant to exemptive relief provided by the Commission, the Commission authorized the Participants’ Compliance Rules to allow core equity reporting for Industry Members (Phase 2a) to begin on June 22, 2020 and core options reporting for Industry Members (Phase 2b) to begin on July 20, 2020.¹⁰⁴

¹⁰¹ Section 11.6 of the CAT NMS Plan.

¹⁰² The Quarterly Progress Reports are available at <https://www.catnmsplan.com/implementation-plan>.

¹⁰³ See Q3 2020 Quarterly Progress Report (Oct. 30, 2020) and Updated Q3 2020 Quarterly Progress Report (Jan. 29, 2021).

¹⁰⁴ See Phased Reporting Exemptive Relief Order. Under the CAT NMS Plan as adopted, the Participants were required, through their Compliance Rules, to require their Large Industry Members to commence reporting Industry Member Data to the Central Repository by November 15, 2018, and to require their Small Industry Members to commence reporting Industry Member Data to the Central Repository by November 15, 2019. Sections 6.7(a)(v) and (vi) of the CAT NMS Plan. The SEC granted exemptive relief from these

In adopting the FAMs, the Commission stated that the equities transaction reporting required for FAM Period 1 “is consistent with the functionality that the Participants describe on the CAT NMS Plan website as ‘Production Go-Live for Equities 2a file submission and data integrity validations.’”¹⁰⁵ The Phase 2a Industry Member Data is described in detail in the SEC’s Phased Reporting Exemptive Relief Order, and includes the following data related to Eligible Securities that are equities:

- All events and scenarios covered by OATS, which includes information related to the receipt or origination of orders, order transmittal, and order modifications, cancellations and executions;

- Reportable Events for: (1) proprietary orders, including market maker orders, for Eligible Securities that are equities; (2) electronic quotes in listed equity Eligible Securities (*i.e.*, NMS stocks) sent to a national securities exchange or FINRA’s Alternative Display Facility (“ADF”); (3) electronic quotes in unlisted Eligible Securities (*i.e.*, OTC Equity Securities) received by an Industry Member operating an interdealer quotation system (“IDQS”); and (4) electronic quotes in unlisted Eligible Securities sent to an IDQS or other quotation system not operated by a Participant or Industry Member;

- Firm Designated IDs (“FDIDs”), which Industry Members must report to the CAT as required by Sections 6.3(d)(i)(A) and 6.4(d)(ii)(C) of the CAT NMS Plan;

- Industry Members would be required to report all street side representative orders, including both agency and proprietary orders and mark such orders as representative orders, except in certain limited exceptions as described in the Industry Member Technical Specifications;

- The link between the street side representative order and the order being represented when: (1) the representative order was originated specifically to represent a single order received either from a customer or another broker-dealer; and (2) there is (a) an existing direct electronic link in the Industry Member’s system between the order being represented and the representative

provisions of the CAT NMS Plan to allow for the phased implementation of Industry Member reporting via five phases addressing the reporting requirements for Phase 2a Industry Member Data, Phase 2b Industry Member Data, Phase 2c Industry Member Data, Phase 2d Industry Member Data and Phase 2e Industry Member Data.

¹⁰⁵ Securities Exchange Act Rel. No. 88890 (May 15, 2020), 85 FR 31322, 31330 n.97 (May 22, 2020) (“FAM Adopting Release”).

⁹⁹ Section 11.3(b)(iii)(B)(III) of the CAT NMS Plan.

¹⁰⁰ Section 11.6(b) of the CAT NMS Plan.

order and (b) any resulting executions are immediately and automatically applied to the represented order in the Industry Member's system;

- Manual and Electronic Capture Time for Manual Order Events;
- Special handling instructions for the original receipt or origination of an order during Phase 2a; and
- When routing an order, whether the order was routed as an intermarket sweep order ("ISO").

In Phase 2a, Industry Members were not required to report modifications of a previously routed order in certain limited instances, nor were they required to report a cancellation of an order received from a Customer after the order has been executed.¹⁰⁶

The Quarterly Progress Report for the third quarter of 2020 states that "Interim Step: Production Go-Live for Equities 2a file submission and data integrity validation (Large Industry Members and Small OATS Reporters)" was completed on June 22, 2020. Accordingly, the FAM Period 1 requirement of reporting by Industry Members (excluding Small Industry Members that are not OATS reporters) of "equities transaction data, excluding Customer Account Information, Customer-ID, and Customer Identifying Information" was completed on June 22, 2020.

In adopting the FAMs, the Commission stated that the options transaction reporting required for FAM Period 1 is "consistent with the functionality that the Participants describe on the CAT NMS Plan website as 'Production Go-Live for Options 2b file submission and data integrity validations.'" ¹⁰⁷ The Phase 2b Industry Member Data is described in detail in the SEC's Phased Reporting Exemptive Relief Order, and includes the Industry Member Data related to Eligible Securities that are options and related to simple electronic option orders, excluding electronic paired option orders. A simple electronic option order is an order to buy or sell a single option that is not related to or dependent on any other transaction for pricing and timing of execution that is either received or routed electronically by an Industry Member. Electronic receipt of an order is defined as the initial receipt of an order by an Industry Member in electronic form in standard format directly into an order handling or execution system. Electronic routing of an order is the routing of an order via electronic medium in standard format from one Industry Member's order

handling or execution system to an exchange or another Industry Member. An electronic paired option order is an electronic option order that contains both the buy and sell side that is routed to another Industry Member or exchange for crossing and/or price improvement as a single transaction on an exchange. Responses to auctions of simple orders and paired simple orders would be reportable in Phase 2b. Furthermore, combined orders in options would be treated in Phase 2b in the same way as equity representative orders are treated in Phase 2a. A combined order would mean, as permitted by SRO rules, a single, simple order in Listed Options created by combining individual, simple orders in Listed Options from a customer with the same exchange origin code before routing to an exchange. During Phase 2b, the single combined order sent to an exchange must be reported and marked as a combined order, but the linkage to the underlying orders is not required to be reported until Phase 2d.¹⁰⁸

The Quarterly Progress Report for the third quarter of 2020 states that "Interim Step: Production Go-Live for Options 2b file submission and data integrity validations" was completed on July 20, 2020. Accordingly, the FAM Period 1 requirement of reporting by Industry Members (excluding Small Industry Members that are not OATS reporters) of "options transaction data, excluding Customer Account Information, Customer-ID and Customer Identifying Information" was completed on July 20, 2020.

As discussed above, the remaining Historical CAT Costs 1 to be recovered via Historical CAT Assessment 1A would include fees, costs and expenses incurred by or for the Company in connection with the development, implementation and operation of the CAT during the period from June 22, 2020 through July 31, 2020. The total costs for this period, as discussed above, are \$6,377,343. Participants would remain responsible for one-third of this cost (which they have previously paid), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$2,125,781) and CEBBs paying one-third (\$2,125,781) through Historical CAT Assessment 1 and Historical CAT Assessment 1A.

(B) Period 2 of the Financial Accountability Milestones

Historical CAT Assessment 1A seeks to recover costs that are related to Post-

Amendment Expenses incurred during FAM Period 2. FAM Period 2 began on August 1, 2020, and concluded on December 31, 2020, the date of the Full Implementation of Core Equity Reporting. Section 1.1 of the CAT NMS Plan defines "Full Implementation of Core Equity Reporting" as: the point at which: (a) Industry Member reporting (excluding reporting by Small Industry Members that are not OATS reporters) for equities transactions, excluding Customer Account Information, Customer-ID, and Customer Identifying Information, is developed, tested, and implemented at a 5% Error Rate or less and with sufficient intra-firm linkage, inter-firm linkage, national securities exchange linkage, and trade reporting facilities linkage to permit the Participants and the Commission to analyze the full lifecycle of an order across the national market system, excluding linkage of representative orders, from order origination through order execution or order cancellation; and (b) the query tool functionality required by Section 6.10(c)(i)(A) and Appendix D, Sections 8.1.1–8.1.3 and Section 8.2.1 incorporates the Industry Member equities transaction data described in condition (a) and is available to the Participants and to the Commission. This Financial Accountability Milestone shall be considered complete as of the date identified in a Quarterly Progress Report meeting the requirements of Section 6.6(c).

Under Section 1.1 of the CAT NMS Plan, this Financial Accountability Milestone is considered complete as of the date identified in the Participants' Quarterly Progress Reports. As indicated by the Participants' Quarterly Progress Report for the fourth quarter of 2020,¹⁰⁹ Full Implementation of Core Equity Reporting was completed on schedule by December 31, 2020.

Specifically, the Full Implementation of Core Equity Reporting requires the satisfaction of two prongs. The first prong requires Participants to have fully implemented the first phase of equities transaction reporting for Industry Members (excluding Small Industry Members that are not OATS reporters) at an Error Rate of less than 5%. In addition, equities transaction data produced by the CAT at this stage must also be sufficiently interlinked so as to permit full analysis of an order's lifecycle across the national market, excluding full linkage of representative orders. As CAT LLC reported on its Quarterly Progress Reports, Phase 2a

¹⁰⁶ Phased Reporting Exemptive Relief Order at 23076–78.

¹⁰⁷ FAM Adopting Release at 31330, n.98.

¹⁰⁸ Phased Reporting Exemptive Relief Order at 23078.

¹⁰⁹ Q4 2020 Quarterly Progress Report (Jan. 29, 2021).

was fully implemented as of October 26, 2020, including intra-firm, inter-firm, national securities exchange, and trade reporting facilities linkages.¹¹⁰ In addition to the reporting of Phase 2a Industry Member Data as described above with regard to FAM Period 1, the following linkage data was added to the CAT as described in the Quarterly Progress Reports for the third and fourth quarter of 2020:

- “Production Go-Live for Equities 2a Intrafirm Linkage validations” was completed on 7/27/2020;¹¹¹
- “Production Go-Live for Firm to Firm Linkage validations for Equities 2a (Large Industry Members and Small OATS Reporters)” was completed on October 26, 2020; and
- “Production Go-Live for Equities 2a Exchange and TRF Linkage validations (Large Industry Members and Small OATS Reporters)” was completed on October 26, 2020.

Furthermore, as CAT LLC reported on its Quarterly Progress Report for the fourth quarter of 2020, the average overall error rate for Phase 2a Industry Member Data was less than 5% as of December 31, 2020. The average overall error rate was calculated by dividing the compliance errors by processed records.

The second prong of this FAM requires that the equities transaction data collected by the CAT at this stage be made available to regulators through two basic query tools required by the CAT NMS Plan—a targeted query tool that will enable regulators to retrieve data via an online query screen with a variety of predefined selection criteria, and a user-defined direct query tool that will provide regulators with the ability to query data using all available attributes and data sources.¹¹² As CAT LLC reported on its Quarterly Progress Reports, the query tool functionality incorporating the data from Phase 2a was available to the Participants and the Commission as of December 31, 2020.¹¹³

¹¹⁰ For a description of the requirements of Phases 2a, see Phased Reporting Exemptive Relief Order.

¹¹¹ Q3 2020 Quarterly Progress Report (Oct. 20, 2021).

¹¹² At the time of this FAM, Section 6.10(c)(i)(A) of the CAT NMS Plan required the Plan Processor to “provide Participants and the SEC with access to all CAT Data stored in the Central Repository” via an “online targeted query tool,” and Appendix D, Sections 8.1.1–8.1.3 of the CAT NMS Plan described the required functionality associated with this regulatory tool. Appendix D, Section 8.2.1 describes the required functionality associated with a user-defined direct query tool that will “deliver large sets of data that can then be used in internal surveillance or market analysis applications.”

¹¹³ See Q3 2020 Quarterly Progress Report (Oct. 30, 2020); Updated Q3 2020 Quarterly Progress Report (Jan. 29, 2021); and Q4 2020 Quarterly Progress Report (Jan. 29, 2021).

The Commission has determined that the Participants have sufficiently complied with the conditions set forth in the 2020 Orders and with the technical requirements for Quarterly Progress Reports set forth in Section 6.6(c) of the CAT NMS Plan for purposes of determining compliance with this FAM.¹¹⁴

As discussed above, the remaining Historical CAT Costs 1 to be recovered via Historical CAT Assessment 1A would include fees, costs and expenses incurred by or for the Company in connection with the development, implementation and operation of the CAT during the period from August 1, 2020 through December 31, 2020. The total costs for this period, as discussed above, are \$42,976,478. Participants would remain responsible for one-third of this cost (which they have previously paid), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$14,325,492.70) and CEBSSs paying one-third (\$14,325,492.70) through Historical CAT Assessment 1 and Historical CAT Assessment 1A.

(C) Period 3 of the Financial Accountability Milestones

Historical CAT Assessment 1A seeks to recover costs that are related to Post-Amendment Expenses incurred during FAM Period 3. FAM Period 3 began on January 1, 2021, and concluded on December 31, 2021, the date of the Full Availability and Regulatory Utilization of Transactional Database Functionality. Section 1.1 of the CAT NMS Plan defines “Full Availability and Regulatory Utilization of Transactional Database Functionality” as:

the point at which: (a) reporting to the Order Audit Trail System (“OATS”) is no longer required for new orders; (b) Industry Member reporting for equities transactions and simple electronic options transactions, excluding Customer Account Information, Customer-ID, and Customer Identifying Information, with sufficient intra-firm linkage, inter-firm linkage, national securities exchange linkage, trade reporting facilities linkage, and representative order linkages (including any equities allocation information provided in an Allocation Report) to permit the Participants and the Commission to analyze the full lifecycle of an order across the national market system, from order origination through order execution or order cancellation, is developed, tested, and implemented at

a 5% Error Rate or less; (c) Industry Member reporting for manual options transactions and complex options transactions, excluding Customer Account Information, Customer-ID, and Customer Identifying Information, with all required linkages to permit the Participants and the Commission to analyze the full lifecycle of an order across the national market system, from order origination through order execution or order cancellation, including any options allocation information provided in an Allocation Report, is developed, tested, and fully implemented; (d) the query tool functionality required by Section 6.10(c)(i)(A) and Appendix D, Sections 8.1.1–8.1.3, Section 8.2.1, and Section 8.5 incorporates the data described in conditions (b)–(c) and is available to the Participants and to the Commission; and (e) the requirements of Section 6.10(a) are met. This Financial Accountability Milestone shall be considered complete as of the date identified in a Quarterly Progress Report meeting the requirements of Section 6.6(c).

Under Section 1.1 of the CAT NMS Plan, this Financial Accountability Milestone is considered complete as of the date identified in the Participants’ Quarterly Progress Reports. As indicated by the Participants’ Quarterly Progress Report for the fourth quarter of 2021,¹¹⁵ Full Availability and Regulatory Utilization of Transactional Database Functionality was completed on schedule by December 31, 2021.

Specifically, the “Full Availability and Regulatory Utilization of Transactional Database Functionality” requires the satisfaction of five prongs. The first prong requires that reporting to the Order Audit Trail System (“OATS”) is no longer required for new orders. As CAT LLC reported on its Quarterly Progress Report for the fourth quarter of 2021,¹¹⁶ FINRA retired OATS effective September 1, 2021.¹¹⁷ Accordingly, after the retirement of OATS, reporting to OATS was no longer required.

In addition to Phase 2a and Phase 2b Industry Member Data, the second and third prongs of “Full Availability and Regulatory Utilization of Transactional Database Functionality” require Industry Member reporting of Phase 2c Industry Member Data and Phase 2d Industry Member Data. The Phase 2c Industry Member Data is described in detail in the SEC’s Phased Reporting Exemptive Relief Order. That Order

¹¹⁷ Securities Exchange Act Rel. No. 92239 (June 23, 2021), 86 FR 34293 (June 29, 2021).

¹¹⁴ Securities Exchange Act Rel. No. 98848 (Nov. 2, 2023), 88 FR 77128, 77129 n.13 (Nov. 8, 2023) (“Settlement Exemptive Order”).

states that “Phase 2c Industry Member Data” is Industry Member Data related to Eligible Securities that are equities other than Phase 2a Industry Member Data, Phase 2d Industry Member Data, or Phase 2e Industry Member Data. Specifically, the Phase 2c Industry Member Data includes Industry Member Data that is related to Eligible Securities that are equities and that is related to: (1) Allocation Reports as required to be recorded and reported to the Central Repository pursuant to Section 6.4(d)(ii)(A)(1) of the CAT NMS Plan; (2) quotes in unlisted Eligible Securities sent to an IDQS operated by a CAT Reporter (reportable by the Industry Member sending the quotes) (except for quotes reportable in Phase 2d, as discussed below); (3) electronic quotes in listed equity Eligible Securities (*i.e.*, NMS stocks) that are not sent to a national securities exchange or FINRA’s Alternative Display Facility; (4) reporting changes to client instructions regarding modifications to algorithms; (5) marking as a representative order any order originated to work a customer order in price guarantee scenarios, such as a guaranteed VWAP; (6) flagging rejected external routes to indicate a route was not accepted by the receiving destination; (7) linkage of duplicate electronic messages related to a Manual Order Event between the electronic event and the original manual route; (8) special handling instructions on order route reports (other than the ISO, which is required to be reported in Phase 2a); (9) quote identifier on trade events; (10) reporting of LTIDs (if applicable) for accounts with Reportable Events that are reportable to CAT as of and including Phase 2c; (11) reporting of date account opened or Account Effective Date (as applicable) for accounts and reporting of a flag indicating the Firm Designated ID type as account or relationship; (12) order effective time for orders that are received by an Industry Member and do not become effective until a later time; (13) the modification or cancellation of an internal route of an order; and (14) linkages to the customer order(s) being represented for representative order scenarios, including agency average price trades, net trades, aggregated orders, and disconnected Order Management System (“OMS”)—Execution Management System (“EMS”) scenarios, as required in the Industry Member Technical Specifications.¹¹⁸

Phase 2c Industry Member Data also includes electronic quotes that are provided by or received in a CAT

Reporter’s order/quote handling or execution systems in Eligible Securities that are equities and are provided by an Industry Member to other market participants off a national securities exchange under the following conditions: (1) an equity bid or offer is displayed publicly or has been communicated (a) for listed securities to the ADF operated by FINRA; or (b) for unlisted equity securities to an “interdealer quotation system,” as defined in FINRA Rule 6420(c); or (2) an equity bid or offer which is accessible electronically by customers or other market participants and is immediately actionable for execution or routing; *i.e.*, no further manual or electronic action is required by the responder providing the quote in order to execute or cause a trade to be executed). With respect to OTC Equity Securities, OTC Equity Securities quotes sent by an Industry Member to an IDQS operated by an Industry Member CAT Reporter (other than such an IDQS that does not match and execute orders) are reportable by the Industry Member sending them in Phase 2c. Accordingly, any response to a request for quote or other form of solicitation response provided in a standard electronic format (*e.g.*, FIX) that meets this quote definition (*i.e.*, an equity bid or offer which is accessible electronically by customers or other market participants and is immediately actionable for execution or routing) would be reportable in Phase 2c.¹¹⁹

The Phase 2d Industry Member Data is described in detail in the SEC’s Phased Reporting Exemptive Relief Order. “Phase 2d Industry Member Data” is Industry Member Data that is related to Eligible Securities that are options other than Phase 2b Industry Member Data, Industry Member Data that is related to Eligible Securities that are equities other than Phase 2a Industry Member Data or Phase 2c Industry Member Data, and Industry Member Data other than Phase 2e Industry Member Data. Phase 2d Industry Member Data includes with respect to the Eligible Securities that are options: (1) simple manual orders; (2) electronic and manual paired orders; (3) all complex orders with linkages to all CAT-reportable legs; (4) LTIDs (if applicable) for accounts with Reportable Events for Phase 2d; (5) date account opened or Account Effective Date (as applicable) for accounts with an LTID and flag indicating the Firm Designated ID type as account or relationship for such accounts; (6) Allocation Reports as required to be recorded and reported to the Central Repository pursuant to

Section 6.4(d)(ii)(A)(1) of the CAT NMS Plan; (7) the modification or cancellation of an internal route of an order; and (8) linkage between a combined order and the original customer orders. Phase 2d Industry Member Data also would include electronic quotes that are provided by or received in a CAT Reporter’s order/quote handling or execution systems in Eligible Securities that are options and are provided by an Industry Member to other market participants off a national securities exchange under the following conditions: a listed option bid or offer which is accessible electronically by customers or other market participants and is immediately actionable (*i.e.*, no further action is required by the responder providing the quote in order to execute or cause a trade to be executed). Accordingly, any response to a request for quote or other form of solicitation response provided in standard electronic format (*e.g.*, FIX) that meets this definition is reportable in Phase 2d for options.¹²⁰

Phase 2d Industry Member Data also includes with respect to Eligible Securities that are options or equities (1) receipt time of cancellation and modification instructions through Order Cancel Request and Order Modification Request events; (2) modifications of previously routed orders in certain instances; and (3) OTC Equity Securities quotes sent by an Industry Member to an IDQS operated by an Industry Member CAT Reporter that does not match and execute orders. In addition, subject to any exemptive or other relief, Phase 2d Industry Member Data will include verbal or manual quotes on an exchange floor or in the over-the-counter market, where verbal quotes and manual quotes are defined as bids or offers in Eligible Securities provided verbally or that are provided or received other than via a CAT Reporter’s order handling and execution system (*e.g.*, quotations provided via email or instant messaging).¹²¹

The Quarterly Progress Report for the fourth quarter of 2021 states that “Phase 2a was fully implemented as of October 26, 2020;” “Phase 2b was fully implemented as of January 4, 2021;” “Phase 2c was implemented as of April 26, 2021;” and “Phase 2d was fully implemented as of December 13, 2021.”¹²² The Quarterly Progress Reports for 2021 provide additional

¹¹⁸ Phase Reporting Exemptive Relief Order at 23078–79.

¹¹⁹ *Id.* at 23079.

detail regarding the implementation of these steps including the following:

- “Production Go-Live for Equities 2c reporting requirements (Large Industry Members)” was completed on April 26, 2021;

- “LTID Account Information Reporting Go-Live for Phases 2a, 2b and 2c (Large Industry Members)” was completed on April 26, 2021;

- “FCAT Plan Processor creates linkages of the lifecycle of order events based on the received data through Phase 2d Production Go-Live for Options 2d reporting requirements (Large Industry Members)” was completed on December 13, 2021;

- “Production Go-Live for Options 2d reporting requirements (Large Industry Members)” was completed on December 13, 2021;

- “Production Go-Live for Options 2b reporting requirements (Small OATS Reporters and Small Non-OATS Reporters)” was completed on December 13, 2021;

- “Production Go-Live for Equities 2c reporting requirements (Small OATS Reporters and Small Non-OATS Reporters)” was completed on December 13, 2021;

- “Production Go-Live for Options 2d reporting requirements (Small OATS Reporters and Small Non-OATS Reporters)” was completed on December 13, 2021;

- “LTID Account Information Reporting Go-Live for Phases 2d (Large Industry Members)” was completed on December 13, 2021; and

- “LTID Account Information Reporting Go-Live for Phases 2a, 2b, 2c and 2d (Small Industry Members)” was completed on December 13, 2021.¹²³

The third prong of “Full Availability and Regulatory Utilization of Transactional Database Functionality” also imposes an Error Rate requirement of 5% or less. The Quarterly Progress Report for the fourth quarter of 2021 states the average overall error rate was less than 5% as of December 31, 2021. The average overall error rate was calculated by dividing the compliance errors by processed records.

The fourth prong of “Full Availability and Regulatory Utilization of Transactional Database Functionality” requires that the data collected by the CAT at this stage be made available to regulators through an online targeted query tool and a user-defined direct query tool. As CAT LLC reported on its Quarterly Progress Report for the fourth quarter of 2021, the query tool

functionality incorporating the data from Phases 2a, 2b, 2c and 2d was available to the Participants and to the Commission as of December 31, 2021.¹²⁴

The fifth prong requires the requirements of Section 6.10(a) of the CAT NMS Plan to have been met. Section 6.10(a) of the CAT NMS Plan requires the Participants to use the tools described in Appendix D to “develop and implement a surveillance system, or enhance existing surveillance systems, reasonably designed to make use of the consolidated information contained in the Central Repository.” The Exchange implemented a surveillance system, or enhanced existing surveillance systems, reasonably designed to make use of the consolidated information contained in the Central Repository as of December 31, 2021 in accordance with Section 6.10(a) of the CAT NMS Plan.¹²⁵

The Commission has determined that the Participants have sufficiently complied with the conditions set forth in the 2020 Orders and with the technical requirements for Quarterly Progress Reports set forth in Section 6.6(c) of the CAT NMS Plan for purposes of determining compliance with this FAM.¹²⁶

As discussed above, the remaining Historical CAT Costs 1 to be recovered via Historical CAT Assessment 1A would include fees, costs and expenses incurred by or for the Company in connection with the development, implementation and operation of the CAT during the period from January 1, 2021 through December 31, 2021. The total costs for this period, as discussed above, are \$144,415,268. Participants would remain responsible for one-third of this cost (which they have previously paid), and Industry Members would be responsible for the remain two-thirds, with CEBBs paying one-third (\$48,138,422.70) and CEBBs paying one-third (\$48,138,422.70) through Historical CAT Assessment 1 and Historical CAT Assessment 1A.

(D) Additional Considerations Related to the Financial Accountability Milestones

As discussed above, CAT LLC has satisfied the Financial Accountability Milestones (“FAMs”) for Periods 1 through 3.¹²⁷ As discussed below, none

¹²⁴ See Q4 2021 Quarterly Progress Report (Jan. 17, 2022).

¹²⁵ See Q1 2021 Quarterly Progress Report (Apr. 30, 2021); Q2 2021 Quarterly Progress Report (July 27, 2021); Q3 2021 Quarterly Progress Report (Nov. 1, 2021); and Q4 2021 Quarterly Progress Report (Jan. 17, 2022).

¹²⁶ Settlement Exemptive Order at 77129 n.13.

¹²⁷ In May 2020, the Commission adopted amendments to the CAT NMS Plan that establish

of the circumstances related to NIA Electronic RFQ Responses, the 2023 Verbal Quotes Exemption, the November 2023 Order, or Executing Broker reporting, affect the conclusion that the FAMs for Periods 1 through 3 were satisfied in a timely fashion.

(i) NIA Electronic RFQ Responses

CAT LLC does not believe that the exemptive relief relating to the reporting of electronic responses for quotes (“RFQs”) that are not immediately actionable (“NIA Electronic RFQ Responses”) affect the conclusion that FAMs 1 through 3 have been satisfied. The only reason CAT LLC pursued this relief is because certain Industry Members introduced concerns that NIA Electronic RFQ Responses could be considered “orders” reportable pursuant to Rule 613(j)(8) and some Industry Members were not prepared to report such orders to CAT. Thus, the relief was requested on behalf of Industry Members. CAT LLC itself has not taken any position on whether NIA Electronic RFQ Responses are “orders,” as the definition of “order” is an SEC rule and the trading processes for NIA Electronic RFQ Responses are the Industry Members’, not those of the Participants or CAT LLC. Accordingly, CAT LLC stated in its letter that “Industry Members must determine whether trading interest falls within the definition of an ‘order’ for CAT purposes. To the extent an NIA Electronic RFQ Response is not considered an ‘order’ as defined in Rule 613(j)(8) and the CAT NMS Plan, it would not be reportable to CAT.”¹²⁸

Only “orders” as defined in SEC Rule 613(j)(8) are reportable to CAT. There is no agreement across the industry or among regulators as to whether NIA Electronic RFQ Responses are “orders” reportable to CAT. Certain Industry Members have raised the question as to whether NIA Electronic RFQ Responses are orders, but others have argued that they are not orders under Rule 613(j)(8).¹²⁹ Indeed, members of the Advisory Committee, which CAT LLC relies upon for guidance with regard to

four Financial Accountability Milestones and set target deadlines by which these milestones must be achieved. These amendments also reduce the amount of any fees, costs, and expenses that may be recovered from Industry Members if the Participants fail to meet the target deadlines. FAM Adopting Release.

¹²⁸ See Letter from Brandon Becker, Chair, CAT NMS Plan Operating Committee to Vanessa Countryman, Secretary, Commission (Feb. 13, 2024) at 2.

¹²⁹ See, e.g., Letter from Howard Meyerson, Managing Director, FIF, to Sai Rao, Counsel for Trading and Markets, Office of the Chair (Apr. 25, 2024).

¹²³ See Q2 2021 Quarterly Progress Report (July 27, 2021); and Q4 2021 Quarterly Progress Report (Jan. 17, 2022).

Industry Member issues, have not had a definitive view on whether NIA Electronic RFQ Responses are orders. As Rule 613(j)(8) is an SEC rule, CAT LLC believes that only the SEC can provide a definitive determination as to if, and under what circumstances, an NIA Electronic RFQ Response is considered an “order” reportable to CAT. The issue has persisted for some time. As a result, CAT LLC filed an exemptive request regarding NIA Electronic RFQ Responses for clarity on the interpretive issue. As recently as April 2024, Industry Members have re-raised this issue stating that the SEC agrees that it must provide additional guidance on this interpretive issue to resolve the CAT reporting issue for NIA Electronic RFQ Responses:

As further discussed in the prior FIF letters, even if the Commission had the legal authority to require the reporting of NIA RFQ responses to CAT without an amendment to Rule 613, the Commission has not provided guidance to industry members as to the conditions under which NIA RFQ responses would be reportable to CAT. In subsequent discussions with industry members, Commission representatives have agreed that, prior to NIA RFQ responses being reportable to CAT, it would be necessary for the Commission to provide further guidance to industry members as to the conditions under which NIA RFQ responses would be reportable to CAT.¹³⁰

On May 20, 2024, the Commission granted CAT LLC’s request for exemptive relief from certain CAT reporting requirements pertaining to NIA Electronic RFQ Responses to the extent such responses are considered “orders” reportable pursuant to Rule 613(j)(8).¹³¹ The Commission, however, did not provide additional guidance regarding the conditions under which NIA Electronic RFQ Responses would be reportable to CAT. The Commission stated in its exemptive order that “[t]o the extent that the Participants are availing themselves of exemptive relief from a CAT NMS Plan requirement, such requirement shall not be included in the requirements for the Financial Accountability Milestones, provided that any conditions of the exemption are satisfied.”¹³²

When the Commission proposed the FAMs, the Participants expressed concern that, “by conditioning the ability of CAT LLC and the Participants to collect Post-Amendment Industry

Member Fees on factors dependent on the efforts of Industry Members, the Commission’s proposals inadvertently establish a perverse incentive for Industry Members to devote less than maximum efforts to comply with their obligations related to the CAT as they will pay less fees in such instances.”¹³³ The Participants further warned that “Industry Members may request or require unanticipated reporting delays to address Industry Member implementation issues or concerns,” but that, “[f]aced with financial penalties for missed deadlines, the Participants may not be able to fully address legitimate industry concerns or accommodate requests for delays with respect to future deadlines.”¹³⁴ CAT LLC has engaged in good faith to help address NIA Electronic RFQ Responses and other concerns relevant to the ability of Industry Members to meet their CAT reporting obligations. CAT LLC should not be penalized financially for seeking in good faith to resolve a difficult interpretive issue for the benefit of Industry Members.

(ii) 2023 Verbal Quotes Exemption

CAT LLC does not believe that the Commission’s May 19, 2023 order granting temporary exemptive relief relating to certain verbal floor activity and unstructured verbal and electronic upstairs activity (the “2023 Verbal Quotes Exemption”) affects the conclusion that FAMs 1 through 3 have been satisfied. The 2023 Verbal Quotes Exemption, which was issued on May 19, 2023, is not relevant for purposes of FAM Periods 1 through 3, which only cover the period through December 31, 2021. The relevant exemption for this time period is the Commission’s November 12, 2020 order, which granted relief for the same activity through July 31, 2023 (the “2020 Verbal Quotes Order”).¹³⁵ The Commission has stated that, “to the extent that the Participants are availing themselves of exemptive relief from a CAT NMS Plan requirement, such requirement shall not be included in the requirements for a Financial Accountability Milestone, provided that the conditions of the exemption are satisfied.”¹³⁶ Here, the

2020 Verbal Quotes Order was in effect and the conditions of the exemption were satisfied as of December 31, 2021, and therefore may be relied upon for purposes of determining compliance with FAM Periods 1 through 3.¹³⁷

(iii) November 2023 Order

CAT LLC does not believe that the Commission’s November 2, 2023 order granting relief from certain CAT NMS Plan requirements (the “November 2023 Order”) affects the conclusion that FAMs 1 through 3 have been satisfied. The November 2023 Order is not relevant for purposes of FAM Periods 1 through 3, which only cover the period through December 31, 2021. As described in the November 2023 Order, the relevant exemptive orders for this time period were issued on December 16, 2020, which also states that “the Commission has determined that the Participants have sufficiently complied with the conditions set forth in the prior Orders and with the technical requirements for Quarterly Progress Reports set forth in section 6.6(c) of the CAT NMS Plan, including for purposes of determining compliance with any applicable Financial Accountability Milestones.”¹³⁸ The November 2023 Exemption Order is consistent with the Commission’s repeated statements in the FAM adopting release that it would have “authority to grant exemptive relief from any requirement associated with a particular Financial Accountability Milestone,” citing Section 36 of the Exchange Act and Rule 608.¹³⁹ Similarly, the CAT NMS Plan

conditions of an exemption will be measured as of the deadline for a particular FAM Period.

¹³⁷ As a condition to the 2020 Verbal Quotes Exemption, the Commission required that the Participants provide a written status update on the reporting of these quotes and orders by July 31, 2022, including the estimated costs of reporting these quotes and orders and an implementation plan for the reporting of these quotes and orders. As noted, the 2020 Verbal Quotes Order was in effect and the conditions of the exemption were satisfied as of December 31, 2021, and therefore may be relied upon for purposes of determining compliance with FAM Periods 1 through 3. In any event, on June 3, 2022, the Participants provided the required written status update. See Letter from Michael Simon, CAT NMS Plan Operating Committee Chair, to Vanessa Countryman, Secretary, Commission (June 3, 2022).

¹³⁸ *Id.* at 77129 n.12.

¹³⁹ FAM Adopting Release at 31335 (May 22, 2020). Section 36 of the Exchange Act grants the Commission the authority to “conditionally or unconditionally exempt any person, security, or transaction . . . from any provision or provisions of [the Exchange Act] or of any rule or regulation thereunder, to the extent that such exemption is necessary or appropriate in the public interest, and is consistent with the protection of investors.” 15 U.S.C. 78mm(a)(1). Under Rule 608(e) of Regulation NMS, the Commission may “exempt from [Rule 608], either unconditionally or on specified terms

¹³⁵ Securities Exchange Act Rel. No. 90405, 85 FR 73544 (Nov. 18, 2020) (the “2020 Verbal Quotes Exemption”).

¹³⁶ See, e.g., Securities Exchange Act Rel. No. 89051 (June 11, 2020), 85 FR 36631, 36633 (June 17, 2020). The straightforward reading of the Commission’s statement is that compliance with the

expressly contemplates the Commission's ability to grant exemptive relief from any CAT NMS Plan requirement.¹⁴⁰

(iv) Executing Broker Reporting

CAT LLC also completed the requirements of FAM Period 2, including the required linkages, by December 31, 2020. Although Participant exchanges may report the Executing Broker to CAT differently in certain situations, these reporting differences are irrelevant for linkage purposes as the fields used for CAT Executing Broker are not used for linkage.

(10) Additional Support for Reasonableness of Historical CAT Costs

The CAT Funding Model approved by the Commission permits the recovery of reasonable costs in each of the categories of CAT costs sought to be recovered via Historical CAT Assessment 1A.¹⁴¹ As described in detail above and in further detail below, the CAT costs to be recovered for each category are reasonable. The following discusses in further detail how each of the following costs are reasonable: (1) costs incurred prior to the effective date of the CAT NMS Plan; (2) cloud hosting services costs; (3) costs related to funding model filings; (4) costs related to litigation with the SEC regarding the CAT NMS Plan; (5) costs related to the Initial Plan Processor; (6) CAIS implementation costs; (7) public relations costs; (8) legal costs related to the limitation of liability provision in the CAT Reporter agreements; and (9) costs for the Chair of CAT Operating Committee. As discussed in detail below, each of these costs is reasonable and should be recoverable in accordance with the CAT Funding Model.

(A) Costs Incurred Prior to the Effective Date of CAT NMS Plan

CAT LLC believes that it is reasonable to seek recovery of costs incurred prior

and conditions, any self-regulatory organization, member thereof, or specified security, if the Commission determines that such exemption is consistent with the public interest, the protection of investors, the maintenance of fair and orderly markets and the removal of impediments to, and perfection of the mechanism of, a national market system." 17 CFR 242.608(e).

¹⁴⁰ Section 12.3 of the CAT NMS Plan ("[T]o the extent the SEC grants exemptive relief applicable to any provision of this Agreement, Participants and Industry Members shall be entitled to comply with such provision pursuant to the terms of the exemptive relief so granted at the time such relief is granted irrespective of whether this Agreement has been amended.")

¹⁴¹ See Sections 11.1(a)(i) and 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

to when the CAT NMS Plan became effective in November 2016, such as legal and consulting fees incurred to create the CAT NMS Plan. Rule 613 specifically mandates that the CAT be created, implemented and maintained, and further provides that the CAT NMS Plan include a proposed allocation of estimated costs to fund the creation, implementation and maintenance of the CAT among the Participants (referred to as "plan sponsors"), and between the Participants and Industry Members (referred to as "members of the plan sponsors").¹⁴² Consistent with Rule 613, the CAT NMS Plan, as approved by the Commission, specifically authorizes charging Industry Members fees for costs reasonably incurred prior to the date of the approval of the CAT NMS Plan by the Commission in November 2016, including legal and consulting costs. Section 11.1(c) of the CAT NMS Plan states that:

[i]n determining fees on Participants and Industry Members the Operating Committee shall take into account fees, costs and expenses (including legal and consulting fees and expenses) reasonably incurred by Participants on behalf of the Company prior to the Effective Date in connection with the creation and implementation of the CAT.

Accordingly, the CAT NMS Plan specifically permits the recovery of costs, including legal and consulting costs, reasonably incurred prior to November 2016 in connection with the creation and implementation of the CAT.

Furthermore, the costs incurred to create and implement the CAT prior to the effective date of the CAT NMS Plan ("Pre-Formation Costs") were reasonable both in scope and amount, in accordance with the requirements of Section 11.1(c) of the CAT NMS Plan. During the four-year period from 2012 to 2016, a total of \$13,842,881 in Pre-Formation Costs were incurred. This is an average of approximately \$3.5 million per year over this period. The Pre-Formation Costs fell into three categories: legal costs, consulting costs and public relations costs. This includes legal costs of \$3,196,434; consulting costs of \$10,589,273; and public relations costs of \$57,174. The legal, consulting and public relations services were performed by WilmerHale, Deloitte and Peppercomm, respectively. The selection considerations and fees for these three firms are described in detail above and are described further below. The Pre-Formation Costs are direct costs

¹⁴² See, e.g., Rule 613(a)(1)(vii)(D) of the CAT NMS Plan.

of CAT, which have been funded entirely by the Participants through non-interest-bearing notes. The Pre-Formation Costs do not include the significant costs incurred by each of the individual Participants in responding to the adoption of Rule 613.

The Pre-Formation Costs are reasonable and appropriate as they reflect the extensive efforts that were necessary to create the CAT NMS Plan as mandated after the SEC's adoption of Rule 613. As described in more detail below, these efforts included, among other things, developing a plan for selecting the Plan Processor, soliciting and evaluating bids, engaging a diverse set of market participants and the SEC in the development of the Plan, interacting with the SEC in their oversight of the development of the Plan, and seeking appropriate exemptive relief to address areas of concern in Rule 613.¹⁴³

(i) Request for Proposal ("RFP")

The Participants determined to utilize an RFP to ensure that potential alternative solutions for creating the Plan could be presented and considered, and that a detailed and meaningful cost-benefit analysis could be performed. The SEC supported the use of an RFP, and approved its use as it is described in extensive detail in the CAT NMS Plan.¹⁴⁴

In the context of the SEC's adoption of Rule 613, commenters urged the Commission to utilize an RFP process to assist in the planning and design of the NMS plan.¹⁴⁵ Specifically, the Commission explained:

In this regard, several commenters suggested that the Commission undergo a RFP or request for information ("RFI") process to create and implement a consolidated audit trail. Specifically, FIF urged the Commission to perform a RFP process "to determine the best technical solution for developing a consolidated audit trail." FIF suggested that the Commission "should outline a set of goals and guiding principles they

¹⁴³ The Participants described in detail the process for drafting the CAT NMS Plan in its original filing of the CAT NMS Plan. See Letter from Mike Simon, on behalf of the Participants of the CAT NMS Plan, to Brent J. Fields, Secretary, Commission (Sept. 30, 2014). A non-exclusive list of filings and activities associated with CAT, including certain pre-2016 filings, are available on the SEC's website: <https://www.sec.gov/divisions/marketreg/rule613-info>.

¹⁴⁴ See detailed discussion of RFP questions in Appendix C of the CAT NMS Plan, and incorporation of RFP requirements in Appendix D at D-2.

¹⁴⁵ For example, in its comments on proposed Rule 613, FIF suggested "that the SROs should select the processor through a 'request for proposal.'" Rule 613 Adopting Release at 45785.

are striving to achieve as part of the adopted CAT filing and leave the determination of data elements and other technical requirements to [an] industry working group.” Similarly, Direct Edge suggested that Commission staff should form and engage in a working group to develop an RFP for publication by the Commission. DirectEdge explained that an RFP process would facilitate the identification of the costs and benefits of the audit trail, as well as the consideration of a wider range of technological solutions. Further, commenters, including Broadridge Financial Solutions, Inc., a technology provider, also requested more specific information about the audit trail system to better assess the Commission’s initial cost estimates and to determine the best approach to the consolidated audit trail.¹⁴⁶

In response to these comments, the Commission modified Rule 613 to require the Participants to address certain important considerations regarding the features and details of the NMS plan and to extend the timeframe for submission of the CAT NMS Plan by the Participants from the 90 days as originally proposed to 270 days, in part, to accommodate a process that would address these considerations.¹⁴⁷ As the SEC noted, “[i]n light of the numerous specific requirements of Rule 613, the Participants concluded that publication of a request for proposal (‘RFP’) was necessary to ensure that potential alternative solutions to creating the consolidated audit trail can be presented and considered by the Participants and that a detailed and meaningful cost/benefit analysis can be performed, both of which are required considerations to be addressed in the CAT NMS Plan.”¹⁴⁸

The SEC specifically recognized that the Participants planned to use an RFP when it approved the Selection Plan, and stated that the RFP was a reasonable approach.¹⁴⁹ As the SEC described in its approval order for the Selection Plan, “[t]he Participants filed the [Selection] Plan to govern how the SROs will proceed with formulating and submitting the CAT NMS Plan—and, as part of that process, how to review, evaluate, and narrow down the bids submitted in response to the RFP (‘Bids’)—and ultimately choosing the plan processor that will build, operate,

and maintain the consolidated audit trail (‘Plan Processor’).”¹⁵⁰ After evaluating the Selection Plan, including the use of an RFP process, the Commission stated that it “believes the [Selection] Plan is reasonably designed to govern the process by which the SROs will formulate and submit the CAT NMS Plan, including the review, evaluation, and narrowing down of Bids in response to the RFP, and ultimately choosing the Plan Processor that will build, operate, and maintain the consolidated audit trail.”¹⁵¹

On February 26, 2013, the Participants published an RFP soliciting bids from parties interested in serving as the plan processor for the CAT. Initially, 31 firms submitted intentions to bid. In the following months, the Participants engaged with potential bidders with respect to, among other things, the selection process, selection criteria, and potential bidders’ questions and concerns. On March 21, 2014, the Participants received ten bids in response to the RFP.

(ii) Selection Plan

On September 4, 2013, the Participants filed with the Commission a national market system plan to govern the process for Participant review of the bids submitted in response to the RFP, the procedures for evaluating the bids, and, ultimately, selection of the plan processor (the “Selection Plan”).¹⁵² The Commission approved the Selection Plan as filed on February 21, 2014.¹⁵³ In approving the Selection Plan, the Commission concluded that “it is reasonably designed to achieve its objective of facilitating the development of the CAT NMS Plan and the selection of the Plan Processor.”¹⁵⁴

The Selection Plan divided the review and evaluation of bids, and the selection of the plan processor, into various stages. Specifically, pursuant to the Selection Plan, a selection committee reviewed all bids and determined which bids contained sufficient information to allow the Participants to meaningfully assess and evaluate the bids. The ten submitted bids were deemed “Qualified Bids,” and so passed to the next stage, in which each bidder presented its bids to the Participants on a confidential basis. On July 1, 2014, after conducting careful analysis and comparison of the bids, the Selection Committee voted and selected a shortlist of six eligible

bidders. The Selection Committee determined which shortlisted bidders would be provided the opportunity to revise their bids. After the Selection Committee assessed and evaluated the revised bids, the Selection Committee selected the plan processor via two rounds of voting by the Participants, as described in the Selection Plan.

The Selection Plan established an Operating Committee responsible for formulating, drafting, and filing with the Commission the CAT NMS Plan and for ensuring that the Participants’ joint obligations under Rule 613 were met in a timely and efficient manner. In formulating the CAT NMS Plan, the Participants also engaged multiple persons across a wide range of roles and expertise, engaged the consulting firm Deloitte as project manager, and engaged the law firm WilmerHale to serve as legal counsel in drafting the Plan. Within this structure, the Participants focused on, among other things, comparative analyses of the proposed technologies and operating models, development of funding models to support the building and operation of the CAT, and detailed review of governance considerations. Given the complexity and scope of developing the CAT NMS Plan, these efforts were extensive.

When it approved the CAT NMS Plan in 2016, the Commission reiterated its belief that the Selection Plan remains a “reasonable approach,” that “the competitive bidding process to select the Plan Processor is a reasonable and effective way to choose a Plan Processor,” and that “the process set forth in the Selection Plan should be permitted to continue”:

In approving the Selection Plan, the Commission stated that the Selection Plan is reasonably designed to achieve its objective of facilitating the development of the CAT NMS Plan and the selection of the Plan Processor. The Commission also found that the Selection Plan is reasonably designed to govern the process by which the SROs will formulate and submit the CAT NMS Plan, including the review, evaluation, and narrowing down of Bids in response to the RFP, and ultimately choosing the Plan Processor that will build, operate, and maintain the consolidated audit trail. The Commission believes that the process set out in the Selection Plan for selecting a Plan Processor remains a reasonable approach, which will facilitate the selection of Plan Processor through a fair, transparent and competitive process and that no modifications to the Selection Plan are required to meet the approval

standard. . . . In response to the comment that offered support for a specific Bidder, the Commission agrees with the Participants that the competitive bidding process to select the Plan Processor is a reasonable and effective way to choose a Plan Processor and thus believes that the process set forth in the Selection Plan should be permitted to continue.¹⁵⁵

(iii) Engagement With Market Participants and SEC

During the process of developing the CAT NMS Plan, the Participants engaged in extensive and meaningful dialogue with market participants and the SEC. To this end, the Participants created a website to update the public on the progress of the CAT NMS Plan, published a request for comment on multiple issues related to the Plan, held multiple public events to inform the industry of the progress of the CAT and to address inquiries, and formed, and later expanded, a DAG to solicit more input from a representative industry group.¹⁵⁶

The DAG included representatives of Participants and Industry Members and conducted meetings to discuss, among other things, technical and operational aspects the Participants were considering for the Plan. The Participants issued press releases soliciting participants for the DAG, and a wide spectrum of firms was deliberately chosen to provide insight from various industry segments affected by CAT. The DAG meetings included discussions of topics such as option market maker quote reporting, requirements for capturing Customer IDs, timestamps and clock synchronization, reporting requirements for order handling scenarios, costs and funding, error handling and corrections, and potential elimination of systems made redundant by the CAT. From the inception of the DAG through September 2014, the DAG participated in 36 meetings, as well as a variety of DAG subcommittee meetings.

(iv) Request for Exemption From Certain Requirements Under Rule 613

Following multiple discussions between the Participants and both the DAG and the bidders, as well as among the Participants themselves, the Participants recognized that some provisions of Rule 613 would not permit certain solutions to be included in the Plan that the Participants, in coordination with the DAG, determined

advisable to effectuate the most efficient and cost-effective CAT. Specifically, “the SROs reached the conclusion that additional flexibility in certain of the minimum requirements specified in Rule 613 would allow them to propose a more efficient and cost-effective approach without adversely affecting the reliability or accuracy of CAT Data, or its security and confidentiality.”¹⁵⁷ Consequently, the Participants submitted a request for exemptive relief from certain provisions of Rule 613 regarding: (1) options market maker quotes; (2) Customer-IDs; (3) CAT-Reporter-IDs; (4) CAT-Order-IDs on allocation reports; and (5) timestamp granularity.¹⁵⁸ The Participants filed two supplements to the request for exemptive relief.¹⁵⁹

After reviewing the exemptive request, the Commission determined that it was appropriate in the public interest and consistent with the protection of investors to grant the requested exemptive relief.¹⁶⁰ In granting the exemptive relief, the Commission stated:

[T]he Commission is persuaded to provide flexibility in the discrete areas discussed in the Exemption Request so that the alternative approaches can be included in the CAT NMS Plan and subject to notice and comment. Doing so could allow for more efficient and cost-effective approaches than otherwise would be permitted. The Commission at this stage is not deciding whether the proposed approaches detailed below are more efficient or effective than those in Rule 613. However, the Commission believes the proposed approaches should be within the permissible range of alternatives available to the SROs.¹⁶¹

The Commission further stated that the requested exemptive relief is consistent with the protection of investors. The Commission noted that:

Doing so will provide the public an opportunity to consider and comment on whether these proposed alternative approaches would indeed be more efficient and cost-effective than those otherwise required by Rule 613, and whether such approaches would adversely affect the reliability or accuracy of CAT Data or otherwise

undermine the goals of Rule 613. Moreover, if—as the SROs represent—efficiency gains and cost savings would result from including the proposed approaches in the CAT NMS Plan without adverse effects, then the resultant benefits could potentially flow to investors (e.g., lower broker-dealer reporting costs resulting in fewer costs passed on to Customers).¹⁶²

The Participants incorporated the exemptive relief into the proposed CAT NMS Plan, which was noticed for comment, and the Commission ultimately approved the CAT NMS Plan with the more efficient and cost-effective alternative approaches described in the exemptive relief. Accordingly, the Participants believe that the costs incurred in developing the exemptive request were critical to the creation of a better CAT than was originally contemplated by Rule 613, and therefore should be recoverable as part of Historical CAT Assessment 1A.

(v) Request for Extensions for Filing the CAT NMS Plan

Rule 613(a)(1) under Regulation NMS required the Participants to jointly file the CAT NMS Plan on or before April 28, 2013, less than a year after the adoption of Rule 613. In recognition of the complexity of the project to create the CAT NMS Plan as well as industry interest in limiting or eliminating certain requirements of Rule 613 (e.g., addressing the reporting of options market maker quotes), the Participants requested two extensions of the deadline to file the CAT NMS Plan. The Participants described the need for additional time as follows:

The SROs stated in their Request Letter that they do not believe that the 270-day time period provided for in Rule 613(a)(1) provides sufficient time for the development of the RFP, formulation and submission of bids, and review and evaluation of such bids. The SROs also stated that they believe additional time beyond the 270 days provided for in Rule 613(a)(1) is necessary in order to provide sufficient time for effective consultation with and input from the industry and the public on the proposed solution chosen by the SROs for the creation of the consolidated audit trail at the conclusion of the RFP process and the NMS plan itself.¹⁶³

In recognition of the need for additional time to refine the technical description of and requirements for the

¹⁶² *Id.*

¹⁶³ Securities Exchange Act Rel. No. 69060 (Mar. 7, 2013), 78 FR 15771, 15772 (Mar. 12, 2013) (“March 2013 Exemptive Order”).

¹⁵⁵ See CAT NMS Plan Approval Order at 84737.

¹⁵⁶ See Section D(11) of Appendix C of the CAT NMS Plan.

CAT and to allow for additional evaluation of the proposed cost and funding considerations, the SEC granted two extensions of this deadline.¹⁶⁴ The SEC determined that both extensions were appropriate, in the public interest, and consistent with the protection of investors.¹⁶⁵ In reaching this conclusion, the Commission stated that “it understands that the creation of a consolidated audit trail is a significant undertaking and that a proposed NMS plan must include detailed information and discussion about many things.”¹⁶⁶ The SEC also noted the following:

This additional time to complete the RFP process should allow the SROs to engage in a more thoughtful and comprehensive process for the development of an NMS plan. In this regard, the Commission notes that the additional time to solicit comment from the industry and the public at certain key points in the development of the NMS plan could identify issues that can be resolved earlier in the development of the consolidated audit trail and prior to filing the NMS plan with the Commission.¹⁶⁷

Given the Commission’s recognition of the reasonableness and value of the extension of the deadline to file the CAT NMS Plan, the Participants believe that the costs incurred in developing the extension request were important to the process of developing the CAT NMS Plan, and therefore should be recoverable as part of Historical CAT Assessment 1A.

(vi) Submission and Approval of the CAT NMS Plan

After extensive analyses and discussions with the DAG, bidders, market participants and the SEC staff, the Participants finalized the draft of the CAT NMS Plan and filed the CAT NMS Plan with the SEC on September 30, 2014. Following additional discussions, the Participants filed several amendments to the CAT NMS Plan during 2015 and 2016. With these additional changes, the SEC published the CAT NMS Plan for notice and comment in May 2016.¹⁶⁸ Following the comment period, the SEC approved the Plan in November 2016.¹⁶⁹

(vii) Legal Costs Incurred Prior to the Effective Date of the CAT NMS Plan

The Pre-Formation Costs include legal costs of \$3,196,434. The legal services were performed by WilmerHale. The selection considerations and fees for WilmerHale were described in detail above. Prior to the creation of CAT LLC, WilmerHale was engaged to represent the consortium of SROs, not the individual Participants. For administrative purposes, FINRA agreed to receive such legal bills, although such costs were shared among the Participants. Therefore, the legal costs incurred with respect to WilmerHale do not include legal costs incurred by the individual Participants. These pre-formation legal costs are described in detail above and are further described below:

- Analyzed various legal matters associated with the Selection Plan and drafted an amendment to Selection Plan;
- Assisted with the RFP and bidding process for the CAT Plan Processor;
- Analyzed legal matters related to the DAG;
- Drafted the CAT NMS Plan, analyzed various items related to the CAT NMS Plan, and responded to comment letters on the CAT NMS Plan;
- Provided legal support for the formation of the legal entity, the governance of the CAT, including governance support prior to the adoption of the CAT NMS Plan, which involved support for the full committee of exchanges and FINRA as well as subcommittees of this group (e.g., Joint Subcommittee Group, Technical, Industry Outreach, Cost and Funding, and Other Products) and the DAG, and governance support during the transition to the new governance structure under the CAT NMS Plan;
- Drafted exemptive requests;
- Provided interpretations related to the CAT NMS Plan;
- Provided support with regard to discussions among the exchanges, FINRA and other third parties, such as Deloitte;
- Provided tax advice with regard to CAT’s status as a tax-exempt organization; and
- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues.

(viii) Consulting Costs Incurred Prior to the Effective Date of the CAT NMS Plan

The Pre-Formation Costs include consulting costs of \$10,589,273. The consulting services were performed by Deloitte. The selection considerations

and fees for Deloitte were described in detail above. Prior to the creation of CAT LLC, for administrative purposes, Deloitte was engaged by FINRA to provide consulting services related to CAT, but the costs were shared by the consortium of SROs per agreement. Therefore, the consulting costs incurred with respect to Deloitte do not include consulting costs incurred by the individual Participants. The pre-formation consulting costs include the following:

- Established and implemented program operations for the CAT project, including the program management office and workstream design;
- Assisted with the Plan Processor selection process, including but not limited to, the development of the RFP and the bidder evaluation process, and facilitation and consolidation of the Participants’ independent reviews;
- Assisted with the development and drafting of the CAT NMS Plan, including conducting cost-benefit studies, reviewing technical requirements of other NMS plans, analyzing OATS and CAT requirements, and drafting appendices to the Plan;
- Provided governance support to the CAT, including governance support prior to the adoption of the CAT NMS Plan, which involved support for the full committee of exchanges and FINRA as well as subcommittees of this group (e.g., Joint Subcommittee Group, Technical, Industry Outreach, Cost and Funding, and Other Products) and the DAG;
- Provided support for updating the SEC on the progress of the development of the CAT;
- Provided support for industry outreach sessions, including with regard to program design and agenda development, program support and logistics and coordination; and
- Provided support in fact finding, drafting content and meeting coordination for WilmerHale with regard to the CAT and the development of the CAT NMS Plan.

Such Pre-Formation Costs did not include costs related to the Chair of the CAT NMS Plan Operating Committee, as the CAT NMS Plan had not yet been adopted.

(ix) Public Relations Costs Incurred Prior to the Effective Date of the CAT NMS Plan

The Pre-Formation Costs include public relations costs of \$57,174. The public relations services were performed by Peppercomm. The selection considerations and fees for Peppercomm are described in detail above. The costs related to Peppercomm

¹⁶⁴ See March 2013 Exemptive Order; Securities Exchange Act Rel. No. 71018 (Dec. 6, 2013), 78 FR 75669 (Dec. 12, 2013) (“December 2013 Exemptive Order”).

¹⁶⁵ March 2013 Exemptive Order at 15772; December 2013 Exemptive Order at 75670.

¹⁶⁶ March 2013 Exemptive Order at 15772.

¹⁶⁷ *Id.* at 15773.

¹⁶⁸ See Securities Exchange Act Rel. No. 77724 (Apr. 27, 2016), 81 FR 30614 (May 17, 2016).

¹⁶⁹ See CAT NMS Plan Approval Order.

were shared among the SROs. Therefore, the public relations costs do not include public relations costs incurred by the individual Participants. The pre-formation public relations costs include services related to communications with the public regarding the CAT, including monitoring developments related to the CAT (e.g., congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating communications to the public regarding such developments as well as reporting on developments related to the CAT.

(B) Cloud Hosting Services

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover reasonable costs related to cloud hosting services as a part of Historical CAT Assessments. CAT LLC believes that the costs related to cloud hosting services described in detail above are reasonable and appropriate given the strict data processing timelines and storage requirements imposed by the Commission-approved CAT NMS Plan and should be recoverable as a part of Historical CAT Assessment 1A.

(i) Reasonableness of AWS Costs Given the Requirements of the CAT NMS Plan

CAT LLC believes that the costs for the cloud hosting services are reasonable, both in terms of the level of the fees paid by CAT LLC for cloud hosting services provided by AWS and the scope of the services performed by AWS for CAT LLC. CAT LLC believes that both the scope and amount of the costs for cloud hosting services are reasonable given the current requirements of the CAT NMS Plan adopted pursuant to Rule 613, including the strict data processing timeline, storage and other technical requirements under the Commission-approved CAT NMS Plan.

CAT LLC believes that the level of fees for the cloud hosting services is reasonable, taking into consideration a variety of factors, including the expected volume of data and the breadth of services provided and market rates for similar services.

CAT LLC also believes that the scope of services provided by AWS for the CAT are appropriate given the current requirements of the Commission-approved CAT NMS Plan. As described above, the cloud hosting services costs reflect a variety of factors including, among other things:

- *Breadth of Cloud Activities.* AWS was engaged by FCAT, the Plan Processor, to provide a broad range of

services to the CAT, including data ingestion, data management, and analytic tools. Services provided by AWS necessary to the CAT include storage services, databases, compute services, and other services (such as networking, management tools and development operations (“DevOps”) tools). AWS also was engaged to provide the various environments for CAT, such as the development, performance testing, test and production environments, which are required by the CAT NMS Plan.

- *High Data Volume.* The cost for AWS services for the CAT is a function of the volume of CAT Data. While it is not linear, the greater the amount of CAT Data, the greater the cost of AWS services to the CAT. The data volume handled by AWS now far exceeds the original volume estimates for the CAT.

- *Plan Requirements.* The cost for AWS services also reflects the technical requirements necessary to meet the stringent performance and other requirements for processing CAT Data. These Plan-dictated processing timelines, storage, testing, security and other technical requirements are significant drivers of AWS costs.

- *Cost Avoidance Efforts.* CAT LLC and FCAT have engaged in ongoing efforts to seek to avoid and minimize AWS costs where permissible under the Plan. Accordingly, these cost avoidance efforts have limited the extent of AWS costs.

In addition, various requirements of the CAT NMS Plan adopted pursuant to Rule 613 contribute to the significant cloud hosting services costs, and that various Plan requirements could be amended or removed without affecting the regulatory purpose of the CAT. Indeed, CAT LLC has repeatedly sought exemptive relief and filed amendments to the CAT NMS Plan, and has even filed suit against the Commission, to seek to revise or eliminate certain costly requirements related to the CAT. However, despite these efforts, absent the Commission granting exemptive relief or approving cost savings amendments to the CAT NMS Plan, CAT LLC, the Participants and Industry Members are all required to comply with such requirements.

(ii) Effect of CAT Design on CAT Costs

(a) Efficient CAT Design

CAT is reasonably designed to efficiently and effectively utilize cloud computing and storage services, given the requirements of the Commission-approved CAT NMS Plan, including requirements related to security,

operational reliance and quality assurance, and maintainability.

The Plan Processor uses state-of-the-art software that meets the strict security standards of the CAT NMS Plan. CAT utilizes a big data processing framework that is extensively used by large data processing companies, such as Apple, Meta, Netflix, IBM and Google. As such, it has substantial commercial support and support in the open-source community. It is also well suited for use with regard to iterative types of algorithms and query functions and analytics that the CAT requires, and it provides the heightened security necessary for the CAT.

The development and implementation of the design of CAT is not and has not been static. CAT LLC and the Plan Processor are always evaluating new innovations and service offerings from AWS and other providers to seek to maximize efficiency and cost avoidance while still satisfying the requirements of the CAT NMS Plan. These efforts have led to substantial savings to date. The cloud hosting costs for 2023 were less than the cloud hosting costs for 2022 by \$8 million despite processing seven trillion more events in 2023 due to the efficiency and cost avoidance efforts for cloud hosting services. For example, when AWS introduced new storage options, FCAT adopted the cost-efficient new storage option after establishing that the new offering would satisfy the security and other standards of the CAT NMS Plan. This change led to millions of dollars of savings in storage costs. Similarly, when AWS introduced a new compute processor, FCAT adopted this new compute processor, which led to millions of dollars in savings in compute costs. However, in other cases, new cloud technology developments could not be implemented in CAT because they would not satisfy the security or other requirements of the CAT NMS Plan.

When evaluating the design of the CAT, it must be kept in mind that the CAT is not a typical commercial technology project. The ability to make use of technology approaches that may lead to cost avoidance is also subject to the restrictive requirements of the CAT NMS Plan, such as processing timeframes, requirements for retention of data versions, query requirements, and security standards. Because such requirements are set forth in the CAT NMS Plan, any modification of such requirements are subject to the time-consuming process of amending the CAT NMS Plan or seeking an exemption from the relevant requirement. For example, CAT LLC recently has filed an

amendment to address several of these expensive Plan requirements.¹⁷⁰

(b) CAT Was Designed To Minimize Industry Member Effort

The CAT System also was designed to minimize the extent to which Industry Members would need to alter their systems to report to CAT. During the design process, Industry Member groups argued that it would make more sense financially for the CAT to accommodate differences in industry systems, than for all Industry Members to change their systems. Moreover, such design choices would facilitate consistency, uniformity and accuracy in reporting. Requiring the CAT to make such accommodations may increase CAT costs while accommodating CAT Reporters.

Based on the requirements in the CAT NMS Plan and/or in response to industry requests for functionality to be embedded with the Plan Processor to streamline or limit Industry Member system changes, the CAT has been designed to limit the effect on Industry Members. The following provides examples of such accommodations:

- *Industry Member Reporting.* In light of the complexity of Industry Member market activity, the CAT's order reporting and linkage scenarios document for Industry Members is over 800 pages in length, addressing nearly 200 scenarios.¹⁷¹ The Industry Member Technical Specifications allow for dozens of specific event types, which drive complexity for the Plan Processor, but streamline reporting for Industry Members. Furthermore, the Plan Processor greatly expanded Industry Member linkage requirements to support, among other things, child events and supplemental events, allowing for "stateless as-you-go" and "batch end-of-day" reporting when all data is available. Accordingly, CAT takes on the significant cost and effort of providing the required linkages between CAT events; correspondingly, Industry Members are not required to perform this costly task.

- *File Submission Process.* The CAT was designed to accommodate the varying needs of CAT Reporters with regard to the file submission process. For example, in a 2018 letter, FIF stated that "[t]he SFTP-based submission process is cumbersome, exposes

industry members to unnecessary complexity, and puts the burden of support on the CAT Reporter rather than imbedding more functionality into the Plan Processor."¹⁷² Currently, FCAT provides two mechanisms for submitting files: SFTP via a private network, and the Web via Reporter Web Portal.

- *Error Corrections.* The industry also emphasized the need for the CAT to provide error correction tools and functionalities to identify, rectify and re-submit corrections within the required timeframe. For example, FIF stated in a 2018 letter the following:

To be clear, if OATS-like error correction tools are not made available on Day 1, hundreds of firms will be required to create and test their own tools or obtain vendor alternatives prior to the CAT Go-Live Date. Proprietary tools will require additional system builds, access to and ingestion of CAT data to perform system validation, and testing which will further stress the limited number of subject matter experts ("SMEs") dedicated to the implementation of CAT reporting. Should this occur, inevitably firms (especially small firms who lack the necessary IT staff to write code and develop proprietary systems), may be put in the position of passing onto investors the cost required to build hundreds of redundant systems.¹⁷³

CAT provides various tools to help Industry Members identify and rectify errors.

- *Data Ingestion Format.* The industry also recommended that CAT adopt a flexible input format that provides an option for Industry Members to submit data in formats that are already in use to reduce costs and potential reporting errors. For example, FIF argued the following:

FIF CAT WG is not proposing a specific format; rather, we are proposing flexibility of input formats which includes support of existing formats (e.g., OATS, FIX) as well as a baseline specification where all fields are defined, and normalized. The input formats must be clearly and thoroughly defined in Technical Specifications, including FAQs.

Mandating a uniform format for reporting data to the CAT simplifies the task for the Central Repository of consolidating/storing data, but it puts the burden on each CAT Reporter to accurately translate their current (e.g., OATS) reporting information into a

uniform CAT interface. However, that is likely to yield more errors because it is very dependent on accurate, complete and timely information (Technical Specifications, FAQs, meta-data, competent CAT help desk) available to CAT Reporters, availability of sophisticated CAT test tools to validate interface protocols, and the skill levels of the estimated 300+ unique CAT Reporters/Submitters during Phase 1 of CAT. Concentrating the responsibility of data conversions with the Central Repository is a reasonable trade-off that should yield fewer errors, and greater accuracy.¹⁷⁴

CAT provides such a flexible input format.

(c) Effect of Initial Plan Processor Design

The costs for cloud hosting services are appropriate and have not been adversely affected by the original design and approaches of the Initial Plan Processor. FCAT's design costs are the result of the requirements of the Commission-approved CAT NMS Plan.

When FCAT took over as the Plan Processor from Thesys, it utilized certain aspects of the technical specifications created by Thesys in its design. However, FCAT has not maintained aspects of the original design that would not be appropriate for the CAT. FCAT revised and enhanced the original technical specifications of the CAT System to increase its efficiency and efficacy, and to ensure its compliance with the CAT NMS Plan. For example, the Initial Plan Processor's approach utilized many more fields than FCAT's approach, which relies on additional linkages. With the additional linkages, the CAT System takes on more of the CAT-related burdens than the Industry Members. Such an approach serves to facilitate consistency, uniformity and accuracy in reporting.

Moreover, FCAT did not utilize the system built by the Initial Plan Processor; it rebuilt the CAT System based on revised technical specifications. For example, the Initial Plan Processor used an on-premises processing approach which was not geared toward the huge amounts of data stored in the CAT, while FCAT adopted a cloud-based solution in response to such data demands.

Furthermore, given the very short timeframe to develop the CAT System and the prior optimization of certain query tools (e.g., Diver) for regulatory use with significant amounts of data,

¹⁷⁰ See, e.g., Securities Exchange Act Rel. No. 99938 (Apr. 10, 2024), 89 FR 26983 (Apr. 16, 2024); Letter from Brandon Becker, CAT NMS Plan Operating Committee Chair, to Vanessa Countryman, Secretary, Commission (Mar. 27, 2024) (proposing amendments to the CAT NMS Plan for \$23 million in annual savings).

¹⁷¹ See CAT Industry Member Reporting Scenarios v.4.10 (Oct. 21, 2022).

¹⁷² Letter from Janet Early, FIF, to Thesys CAT (Mar. 29, 2018).

¹⁷³ Letter from Christopher Bok, FIF, to Jay Clayton, Chair, Commission at 4 (Dec. 11, 2018).

¹⁷⁴ Letter from Mary Lou Von Kaenel, Managing Director, FIF, to Brent Fields, Secretary, Commission at 92 (July 18, 2016), <https://www.sec.gov/comments/4-698/4698-13.pdf>.

FCAT determined to rely upon certain existing FINRA tools and adapt them for use with the CAT.

(iii) Consideration of AWS Alternatives

CAT LLC continues to support the selection of AWS as the cloud hosting services provider for CAT given the compliance, operational, and security requirements of the CAT. Independent analyses confirm these conclusions, noting that “AWS is an excellent choice for either strategic or tactical use and recommends considering AWS for almost all cloud IaaS or IaaS+PaaS scenarios.”¹⁷⁵ AWS provides the following benefits to CAT, among others:

- *Broad Suitability.* AWS has a long track record of successfully serving cloud customers with mission-critical projects.

- *Proven Scalability.* AWS has demonstrated that it is capable of building and delivering services on a large scale.

- *Track Record of Innovation.* AWS continues to rapidly innovate, both in terms of new domains of capability and at a fundamental level, thereby facilitating innovation for its customers.

- *Resiliency/Dependability.* Another benefit of AWS is its resiliency; it has a strong track record of stable services. As noted in a review of cloud service providers, “[c]ustomers like to have a broad set of options for resiliency and for their cloud providers to have a strong track record of stable services (continuously available, without operational quirks). Only AWS fulfills both desires.”¹⁷⁶

- *Technical and Customer Support.* AWS consistently provides high-quality technical and customer support and engagement. Given the size, scope and regulatory importance of CAT, customer support and engagement that CAT has with the highest levels of AWS are very important to the success of the CAT.

- *Scale.* AWS is capable of supporting large-scale solutions, which is critical given the size and magnitude of the CAT.

- *Security.* AWS provides the security features necessary for the CAT.

In addition, the nature of the CAT, including the amount of data it must process and the size of its data footprint, does not allow for a multi-cloud solution as this would be cost prohibitive and greatly increase the security boundary and associated risk profile of the CAT. For example, a

multi-cloud hosting option would increase costs, complexity, and risk for operations with regard to, for example, DevOps, production support, and networking. Similarly, with regard to security, a multi-cloud solution would increase risk, including with regard to the need for data transfers between cloud providers and the expansion of the security boundary. With regard to labor, a multi-cloud solution would lose economies of scale due to the need to support unique cloud requirements. Accordingly, the use of a single-cloud solution continues to provide advantages with regard to cost, complexity, and risk. Indeed, “[t]he best practice is to focus on a single primary strategic provider.”¹⁷⁷

Furthermore, if another cloud service provider were determined to be a better match for the CAT at some future date, switching cloud service providers would be a very significant, expensive and time-consuming effort. Such an effort would likely be a 10-to-15-year commitment at a substantial expense. Such a move would require the replication or redesign of the underlying cloud environments (e.g., organizational setup, identity management, accounts, environments, DevOps tooling like release management/config management/network management), as the new provider likely would not have the same infrastructure and software. Once that process has been completed, an exabyte of CAT data would need to be securely migrated to the new platform.

(C) Funding Model Filings

CAT LLC believes that the recovery of costs related to the development of the funding model is appropriate, and that the amount and scope of such costs, as described above, are reasonable.

Funding the CAT is a critical aspect of Rule 613 and the CAT NMS Plan. Article XI of the CAT NMS Plan describes in detail the requirements for funding the CAT, and the Participants are required to comply with and enforce compliance with the funding requirements of the CAT NMS Plan, just as with other aspects of the Plan. Accordingly, the development and implementation of a funding model for the CAT is as much a part of the requirements of the CAT NMS Plan as the development and operation of the CAT System. CAT LLC sees no reason to distinguish the efforts to develop a funding model from, for example, efforts to develop the CAT System, in seeking to recover reasonable CAT costs.

Moreover, in approving the CAT Funding Model, the Commission recognized that it is appropriate to recover reasonable costs for legal services as a part of Historical CAT Assessments. As approved by the SEC, the CAT NMS Plan states that “the reasonably budgeted CAT costs shall include . . . legal costs.”¹⁷⁸ In addition, the CAT NMS Plan also requires Participants to include in their fee filings “a brief description of the amount and type of the Historical CAT Costs, including . . . legal . . . costs.”¹⁷⁹ In keeping with these provisions, this filing provides a brief description of reasonably budgeted legal costs above. These legal costs include costs related to the development of the CAT Funding Model.

In addition, the legal costs incurred for the assistance in developing the CAT Funding Model are reasonable in both amount and scope and should be recoverable as a part of Historical CAT Assessment 1A. As described above, the specialized services were performed by experienced counsel at negotiated rates for such services that reflect both the extent of the services and market rates. Moreover, the scope of the legal costs associated with the development of the funding model reflect the complexity of the task in satisfying the detailed requirements of the CAT NMS Plan, the standards of the Exchange Act, and the many perspectives of the different market constituents potentially affected by or interested in the funding model, including Industry Members, Participants and investors. The many and varied comments by market participants on CAT funding over the years demonstrate the complexity of the task.

(D) Costs Related to Litigation With the SEC

CAT LLC believes that the recovery of legal costs related to the litigation with the SEC regarding the CAT NMS Plan is appropriate, and that the amount and scope of such costs, as described above, are reasonable.

As a preliminary matter, as discussed above, the Commission recognized that it is appropriate to recover reasonable costs for legal services as a part of Historical CAT Assessments.¹⁸⁰ Moreover, CAT LLC initiated such litigation, and incurred the related legal costs, because it was critical to address the Commission’s interpretations of the

¹⁷⁵ See, e.g., Lydia Leong and Adrian Wong, Solution Comparison for Strategic Cloud Integrated IaaS and PaaS Providers (July 28, 2023) (“Strategic Cloud Assessment Article”).

¹⁷⁶ Strategic Cloud Assessment Article.

¹⁷⁷ *Id.*

¹⁷⁸ Section 11.1(a)(i) of the CAT NMS Plan.

¹⁷⁹ Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

¹⁸⁰ See Sections 11.1(a)(i) and 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

CAT NMS Plan. Among other things, such interpretations threatened to impose unnecessary costs on the CAT, which would be borne by the Participants and Industry Members. Indeed, in response to the litigation, the Commission provided exemptive relief that allowed alternative, more cost-effective approaches to the implementation of the CAT. Specifically, in the 2023 exemptive order, the Commission stated:

The conditional exemptive relief in this Order allows for the implementation of alternative regulatory solutions that continue to advance the regulatory goals that Rule 613 and the CAT NMS Plan were intended to promote, while reducing the implementation and operational costs, burdens, and/or difficulties that would otherwise be incurred by the Participants and Industry Members that must fund the CAT.¹⁸¹

CAT LLC believes it is reasonable and appropriate to incur costs to limit the need to incur even greater costs due to certain interpretations of the Plan.

In addition, the legal costs incurred during the litigation are reasonable in both amount and scope and should be recoverable as a part of Historical CAT Assessment 1A. As described above, the specialized services were performed by experienced counsel at market rates for such services. As such, the legal costs related to this litigation incurred during the period covered by Historical CAT Assessment 1A were reasonable.

Finally, Industry Members will directly benefit from the result of the litigation because it has addressed CAT NMS Plan requirements that would have imposed significantly greater costs on the CAT. Accordingly, it is reasonable and appropriate that the costs of such litigation be included in Historical CAT Costs 1.

(E) Costs Related to the Initial Plan Processor

CAT LLC believes that it is appropriate to recover costs related to the services performed by the Initial Plan Processor prior to November 15, 2017, which was the date by which Participants were required to begin reporting to the CAT, due to the delay in the commencement of reporting to the CAT. As discussed above, the Participants determined to exclude all CAT costs incurred from November 15, 2017 through November 15, 2018, which includes \$37,852,083 in Thesis costs incurred from November 15, 2017 through November 15, 2018 (as well as other CAT costs during this period). The

remaining Thesis costs incurred after November 15, 2018 are the \$19,628,791 in capitalized developed technology costs for the period from November 16, 2018 through February 2019 incurred in the development of the CAT by the Initial Plan Processor, as well as a transition fee for the transition from the Initial Plan Processor to the successor Plan Processor. The Participants would remain responsible for 100% of these \$19,628,791 in costs.

CAT LLC believes that it is appropriate to recover costs related to the services performed by the Initial Plan Processor prior to November 15, 2017. CAT LLC notes that the development and implementation of the CAT System, while unprecedented in scope and design, is like any other large and innovative technology project in that, inevitably, there were adjustments and refinements in the technical approach as the project developed, even with substantial planning efforts and oversight prior to the build. This is even more likely when the project faces a very tight implementation schedule, such as the one imposed by the Commission in Rule 613 and the CAT NMS Plan. However, an adjusted approach does not mean that the funds were not valid expenditures and should not be recovered.

The reasonableness of Thesis costs should be evaluated by the Commission as of the time they were incurred, not in hindsight. As detailed above, the Commission concluded in 2016 that “the competitive bidding process to select the Plan Processor is a reasonable and effective way to choose a Plan Processor,” and that “the process set forth in the Selection Plan should be permitted to continue.”¹⁸² Following this process, the Participants notified the Commission of the selection of Thesis as the Initial Plan Processor on January 17, 2017.¹⁸³ At the time, neither the Commission nor the industry argued that the selection of the Initial Plan Processor was unreasonable or otherwise inconsistent with the CAT NMS Plan, nor did they predict the selection would result in unanticipated delays in the implementation of the CAT System. On the contrary, on April 4, 2017, the President of SIFMA wrote that “SIFMA looks forward to commencing work with the SROs and Thesis.”¹⁸⁴

¹⁸² CAT NMS Plan Approval Order at 84737.

¹⁸³ Letter from the Participants to Brent J. Fields, Secretary, SEC (Jan. 18, 2017), <https://www.sec.gov/divisions/marketregrule613-info-notice-of-plan-processor-selection.pdf>.

¹⁸⁴ Letter from Kenneth E. Bentsen, Jr., SIFMA, to Participants re: Selection of Thesis as CAT Processor (Apr. 4, 2017), [https://www.sifma.org/wp-](https://www.sifma.org/wp-content/uploads/2017/05/SIFMA-Submits-Comment-Letter-to-SRO-on-the-selection-of-Thesis-as-the-CAT-Processor.pdf)

As noted in the CAT Funding Model Approval Order, the Commission recognized that “[t]he CAT NMS Plan contemplates that the costs of the CAT are to be allocated between the Participants and Industry Members.”¹⁸⁵ If the CAT Funding Model had existed on Day 1, the risk of any unanticipated costs or challenges associated with the Initial Plan Processor would have been fairly and reasonably shared among the Participants and Industry Members on an ongoing basis. Given that the Commission concluded in 2012 that the costs of the CAT would be shared by the Participants and Industry Members, it is not fair or reasonable to determine in hindsight that all of the risk involved in developing the CAT should be allocated entirely to the Participants.

(F) CAIS Implementation Costs

CAT LLC believes that the recovery of CAIS-related costs is appropriate, and that the amount and scope of such costs, as described above, are reasonable, and that the reasonableness of historical costs should be evaluated by the Commission as of the time they were incurred, not in hindsight.

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover reasonable CAIS operating costs as a part of Historical CAT Assessments. As approved by the SEC, the CAT NMS Plan states that “the reasonably budgeted CAT costs shall include . . . CAIS operating fees.”¹⁸⁶ In addition, the CAT NMS Plan also requires Participants to include in their fee filings “a brief description of the amount and type of the Historical CAT Costs, including . . . CAIS operating fees.”¹⁸⁷ In keeping with these provisions, this filing provides a brief description of reasonably budgeted CAIS operating fees.

In addition, CAT LLC determined that the CAIS operating fees described above are reasonable in both amount and scope and should be recoverable as a part of Historical CAT Assessment 1A. The “CAIS Operating Costs” for Historical CAT Costs 1 total \$9,480,587, with Pre-FAM costs of \$2,072,908, FAM 1 costs of \$254,998, FAM 2 costs of \$1,590,298, and FAM 3 costs of \$5,562,383. As described above, the CAIS operating fees were incurred with regard to two categories of CAIS-related efforts: (1) the acceleration of the reporting of LTIDs; and (2) the

[content/uploads/2017/05/SIFMA-Submits-Comment-Letter-to-SRO-on-the-selection-of-Thesis-as-the-CAT-Processor.pdf](https://www.sifma.org/wp-content/uploads/2017/05/SIFMA-Submits-Comment-Letter-to-SRO-on-the-selection-of-Thesis-as-the-CAT-Processor.pdf).

¹⁸⁷ Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

¹⁸¹ Settlement Exemptive Order at 77129–30.

development of the CAIS Technical Specifications and the building of CAIS. These two categories of costs are discussed in more detail below.

(i) LTID Reporting

During the period covered by Historical CAT Assessment 1A, the CAIS operating costs included costs related to the acceleration of the reporting of LTIDs earlier than originally contemplated during this period at the request of the SEC and in accordance with exemptive relief granted by the SEC.¹⁸⁸ As the SEC approved in this exemptive relief, the Participants proposed “to require the reporting of LTIDs to the CAT in Phases 2c and 2d, instead of with the rest of Customer Account Information in Phase 2e, which potentially could result in an earlier elimination of broker-dealer recordkeeping, reporting and monitoring requirements of the Large Trader Rule.”¹⁸⁹ To implement the reporting of LTIDs to the CAT, the following steps were taken during the period covered by Historical CAT Assessment 1A:

- After FCAT developed the LTID Technical Specifications, the LTID Technical Specifications were published on January 31, 2020, with additional updates provided to the LTID Technical Specifications through April 2021.¹⁹⁰
- The LTID account information testing environment opened on August 24, 2020.
- The LTID account information reporting production environment opened on December 14, 2020.
- CAT Reporters were required to request their production readiness certification for account information related to LTIDs by the deadline of April 9, 2021.
- The LTID account information reporting for Phases 2a, 2b and 2c for Large Industry Members went live on April 26, 2021.
- The LTID account information reporting for Phases 2d for Large Industry Members went live on December 13, 2021.
- The LTID account information reporting for Phases 2a, 2b, 2c and 2d for Small Industry Members went live on April 26, 2021.

Throughout this project, FCAT and CAT LLC worked closely with the

industry on LTID and CAIS reporting. Between December 2019 and December 2021, at least 57 checkpoint calls, webinars, and technical working group meetings with industry representatives were hosted to address issues and to educate CAT Reporters regarding LTID and CAIS reporting.¹⁹¹

The LTID reporting project was successfully completed in a timely fashion, and the fees related to the project were reasonable. Accordingly, CAT LLC appropriately seeks to recover such costs via Historical CAT Assessment 1A.

(ii) CAIS Reporting

During the period covered by Historical CAT Assessment 1A, FCAT began the development of the full CAIS Technical Specifications and the building of CAIS. The CAIS Technical Specifications were developed during this period as follows:

- Iterative drafts of the CAIS Technical Specifications were published on June 30, 2020, December 1, 2020, and January 1, 2021.¹⁹²
 - The full, final CAIS Technical Specifications were published on January 29, 2021.
 - Updated versions of the CAIS Technical Specifications were published throughout 2021.¹⁹³
- As discussed above, FCAT and CAT LLC frequently engaged with the industry regarding the development of CAIS, hosting regular checkpoint calls, webinars, and technical working group meetings with industry representatives to address any issues, including addressing the interplay between Industry Members’ existing customer systems and CAIS, and to educate CAT Reporters regarding LTID and CAIS reporting. Such engagement was critical to the CAIS development process as the CAIS project was unprecedented in terms of its content, scope and complexity.

During this period, FCAT also commenced the building of the CAIS system in accordance with the CAIS Technical Specifications during the period covered by Historical CAT Assessment 1A. The CAIS system was ready for industry testing shortly after the end of this period in January 2022.

The CAIS Technical Specifications and the CAIS system, as developed during this period, continue to be used. Industry Members have been required to report, and have continuously reported, required data to CAIS on a daily basis since November 7, 2022, consistent with interim reporting obligations. The CAIS system accepts and validates the CAIS data submitted by Industry Members and provides Industry Members with initial feedback on data errors. In light of the unprecedented nature of the CAIS system, certain changes to the system, such as changes related to error corrections and the CAIS regulatory portal, were necessary to finalize CAIS reporting. FCAT worked to address these remaining issues,¹⁹⁴ and, as of May 31, 2024, FCAT indicated that it had achieved the final CAIS reporting milestone. Accordingly, CAT LLC appropriately seeks to recover CAIS operating costs via Historical CAT Assessment 1A.

(G) Public Relations Costs

CAT LLC believes that the recovery of public relations costs is appropriate and that the amount and scope of such costs, as described above, are reasonable.

The Commission has long recognized that external public relations costs are reasonably associated with creating, implementing and maintaining the CAT. In the CAT NMS Plan Approval Order, the Commission estimated that the Participants had collectively spent approximately \$2,400,000 in preparation of the CAT NMS Plan on external public relations, legal, and consulting costs, and estimated that the Participants would continue to incur external public relations costs associated with maintaining the CAT upon approval of the CAT NMS Plan.¹⁹⁵

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover reasonable costs for public relations services as a part of Historical CAT Assessments. As approved by the SEC, the CAT NMS Plan states that “the reasonably budgeted CAT costs shall include . . . public relations costs.”¹⁹⁶ In addition, the CAT NMS Plan also requires Participants to include in their fee filings “a brief description of the amount and type of the Historical CAT Costs, including . . . public relations costs.”¹⁹⁷ In keeping with these

¹⁸⁸ See Phased Reporting Exemptive Relief Order at 23079–80.

¹⁸⁹ *Id.* at 23078–79, n.70.

¹⁹⁰ The LTID Technical Specifications, including original drafts and updated versions, are available on the Industry Member Specifications page of the CAT website (<https://www.catnmsplan.com/specifications/im>).

¹⁹¹ Such contact points with the industry are described in detail on the Events web page of the CAT website (<https://www.catnmsplan.com/events>).

¹⁹² The CAIS Technical Specifications, including original drafts and updated versions, are available on the Industry Member Specifications page of the CAT website (<https://www.catnmsplan.com/specifications/im>).

¹⁹³ Six updated versions of the CAIS Technical Specifications were published during 2021, in March, May, June, August, October and December.

¹⁹⁴ See, e.g., CAT Q4 2023 Quarterly Progress Report (Jan. 30, 2024) (<https://www.catnmsplan.com/sites/default/files/2024-01/CAT-Q4-2023-QPR.pdf>).

¹⁹⁵ CAT NMS Plan Approval Order at 84917–18.

¹⁹⁶ Section 11.1(a)(i) of the CAT NMS Plan.

¹⁹⁷ Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

provisions, a brief description of reasonable public relations costs are described above.

In addition, CAT LLC determined that the public relations costs described above are reasonable in both amount and scope and should be recoverable as a part of Historical CAT Assessment 1A. The services performed by the public relations firms through 2021 were limited in scope to assist CAT LLC, which has no employees of its own, to be better positioned to understand and address CAT matters to the benefit of all market participants and to communicate on important CAT topics with the public. In addition, the costs for these services were appropriately limited. During the 10-year period covered by Historical CAT Assessment 1A, the average cost per year for these services was approximately \$36,000.

(H) Legal Costs Related to the Limitation of Liability Provision in CAT Reporter Agreements

CAT LLC believes that the recovery of legal costs related to the limitation of liability provision, including costs related to the proceedings before the SEC and costs related to the proposed amendment to the Consolidated Audit Trail Reporter Agreement and the Consolidated Audit Trail Reporting Agent Agreement (the “Reporting Agreements”) is appropriate and that the amount and scope of such costs as described above are reasonable.

As a preliminary matter, as discussed above, the Commission recognized that it is appropriate to recover reasonable costs for legal services as a part of Historical CAT Assessments.¹⁹⁸ In addition, CAT LLC determined that the legal costs incurred for the assistance with regard to the limitation of liability provisions are reasonable in both amount and scope and should be recoverable as a part of Historical CAT Assessment 1A.

Moreover, it is critical that CAT LLC, which has no employees of its own, have the ability to fund a legal defense in litigation and other legal proceedings against it. In response to CAT LLC requiring Industry Members to agree to the limitation of liability provision to submit data to the CAT, SIFMA filed an application for review of actions taken by CAT LLC and the Participants pursuant to Sections 19(d) and 19(f) of the Exchange Act. Contemporaneously with the filing of this proceeding, SIFMA moved for a stay of the requirement that Industry Members sign a Reporter Agreement, or in the

alternative, asked the Commission to further delay the launch of CAT reporting on June 22, 2020. CAT LLC must have the resources to defend itself from litigious actions by others, like these.

Although a limitation of liability provision ultimately was not adopted as proposed, it was a reasonable provision to propose for the CAT Reporter Agreements, given that such provisions are in accordance with industry norms. Limitations of liability are ubiquitous within the securities industry and have long governed the economic relationships between self-regulatory organizations and the entities that they regulate. For example, U.S. securities exchanges have adopted rules to limit their liability for losses that Industry Members incur through their use of exchange facilities.¹⁹⁹ Similarly, FINRA’s former order audit trail, OATS, which has functioned as an integrated audit trail of order, quote, and trade data for equity securities, required FINRA members to acknowledge an agreement that includes a limitation of liability provision.²⁰⁰ In addition, such a provision was intended to ensure the financial stability of the CAT. Accordingly, it was reasonable for CAT LLC to propose the use of such a provision.²⁰¹

Furthermore, as described above, the specialized services were performed by experienced counsel at market rates for such services. Accordingly, the legal costs for the efforts related to the limitation of liability provision were reasonable.

(I) Costs for the Chair of the CAT Operating Committee

CAT LLC believes that the recovery of consulting costs related to the Chair of the CAT Operating Committee is appropriate and that the amount and scope of such costs are reasonable.

As a preliminary matter, the selection of the Chair of the Operating Committee complies with the requirements of Section 4.2 of the CAT NMS Plan. The initial Chair that served during the period covered by Historical CAT Assessment 1A was designated by a

Participant as the Participant’s alternate voting member. Accordingly, the Chair is a representative of the Participants, as required by the CAT NMS Plan.

In addition, in approving the CAT Funding Model, the Commission recognized that it is appropriate to recover reasonable costs for consulting as a part of Historical CAT Assessments. As approved by the SEC, the CAT NMS Plan states that “the reasonably budgeted CAT costs shall include . . . consulting . . .” costs.²⁰² In addition, the CAT NMS Plan also requires Participants to include in their fee filings “a brief description of the amount and type of the Historical CAT Costs, including . . . consulting”²⁰³ costs. In keeping with these provisions, a brief description of reasonable consulting costs is included in this filing, and such reasonable consulting costs include the costs related to the Chair position.

The Participants determined that the position of the Chair was a critical role for the implementation of the CAT, and an independent Chair would appropriately consider and address the views of each of the Participants. The Participants also determined that it was important to have a Chair with a strong background regarding issues related to the regulatory obligations of self-regulatory organizations, including their obligations under national market system plans. The compensation paid to the Chair is appropriate for a person with such background and skills. The average annual amount paid to the Chair from 2017 through the end of FAM 3 was \$292,733.30. Separate from the Chair, CAT LLC relies upon a Leadership Team of representatives of the SROs to oversee the day-to-day implementation of the CAT NMS Plan. CAT LLC does not compensate any member of the Leadership Team.

(11) Fee Implementation Assistance for Industry Members

(A) Reconciliation of CAT Invoices

(i) Reconciliation of CAT Invoices to Underlying Trades Provided by CAT

CAT LLC understands that there are three types of reconciliation processes related to the invoices:

- *Reconciliation of CAT Invoices to Underlying Trades:* Reconciling the CAT invoice amount to the underlying trades provided by CAT;
- *Matching Trades to Books and Records:* Providing the means to match the underlying trades provided by CAT

²⁰² Section 11.1(a)(i) of the CAT NMS Plan.

²⁰³ Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

¹⁹⁹ See, e.g., NASDAQ Equities Rule 4626.

²⁰⁰ FINRA Rule 1013(a)(1)(R) requires all applicants for FINRA Membership to acknowledge the FINRA Entitlement Program Agreement and Terms of Use, which applies to OATS. Industry Members click to indicate that they agree to its terms—including its limitation of liability provision—every time they access FINRA’s OATS system to report trade information (*i.e.*, repeatedly over the course of a trading day for many Industry Members).

²⁰¹ See Letter from Michael Simon, Chair, CAT Operating Committee, to Vanessa Countryman, Secretary, Commission (Dec. 18, 2020).

¹⁹⁸ See Sections 11.1(a)(i) and 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

with CAT invoices to other books and records independently maintained by individual CAT Reporters (e.g., exchange trade journals/acknowledgements) and data sources of self-regulatory organizations independent of CAT; and

- *Order Originator Identification:* Providing the ability to identify the order originator for the underlying trades provided by CAT with CAT invoices, which would facilitate firms' ability to pass through CAT Fees to their customers.

As discussed further below, CAT LLC only considers the first type of process to be a "reconciliation" and the only type of process that is required under the CAT NMS Plan. CAT LLC provides the means to reconcile the CAT invoice amount to the underlying trades provided by CAT.

The CAT NMS Plan does not require CAT LLC to facilitate the second type of process: matching underlying trades for a CAT invoice with a firm's internal books and records. CAT LLC has access only to the underlying trades provided by CAT; it does not have access to a firm's internal books and records. Although beyond the requirements of the CAT NMS Plan and involving firm specific considerations, CAT LLC voluntarily has provided guidance and processes to assist CAT Reporters in their efforts to match the underlying trades with their own books and records.

The CAT NMS Plan also does not require CAT LLC to provide the ability to identify the order originator for the underlying trades for the CAT invoices. Accordingly, the billing guidance and processes do not provide CAT Reporters with the ability to identify the order originator for the underlying trades provided by CAT with CAT invoices. CAT LLC has been working closely with CAT Reporters to explain its billing approach and to address any outstanding billing questions. But, it should not be lost that CAT LLC provides information sufficient to allow CAT Reporters to reconcile CAT invoice amounts with the underlying trades provided by CAT LLC.

(ii) Match the Underlying Trades Provided by CAT with CAT Invoices to Firms' Internal Books and Records Independent of CAT

The CAT NMS Plan does not require CAT LLC to facilitate the matching of underlying trades for a CAT invoice with a firm's internal books and records, which may consist of trading data from various sources external to CAT. Although beyond the requirements of the CAT NMS Plan and involving firm

specific considerations, CAT LLC voluntarily has provided guidance and processes to assist CAT Reporters in their efforts to match the underlying trades with their own books and records.

In this regard, it is important to recognize that CAT LLC has developed a billing approach that greatly improves upon existing billing practices for similar regulatory fees (e.g., fees related to Section 31). Accordingly, with the additional information voluntarily provided by CAT LLC, CAT Reporters generally will have sufficient information to match their underlying trades provided by CAT with their own internal books and records that are independent of CAT or to SRO data that is independent of CAT data. However, CAT LLC emphasizes that providing such additional information is not required by the CAT NMS Plan.

To facilitate the introduction of CAT fees, CAT LLC has worked with FCAT to develop an approach to CAT billing that is consistent with existing billing constructs used with regard to Section 31-related sales values fees, subject to certain enhancements. Under this billing approach, FCAT is providing additional linkage elements, not necessarily provided in the Section 31-sales value fee context, to facilitate CAT Reporters' ability to match the underlying trades provided by CAT with their internal books and records and to reduce the complexity of that process. Specifically, FCAT is providing various key elements of the trade itself, such as the tradeID and branch sequence,²⁰⁴ to CAT Reporters in the trade billing details provided with their CAT invoices ("Additional Trade Details"). As a result, CAT Reporters now have numerous alternative methods for matching a trade with their internal books and records where they previously did not have such matching methods in other fee contexts.

With the Additional Trade Details, CAT LLC and FCAT believe that the overwhelming majority of underlying trades provided by CAT bills can be matched with a CAT Reporter's internal books and records. CAT LLC recognizes that there may be certain cases in which such matching is more difficult given various firm-specific considerations, but believes that such instances are significantly more limited than with

regard to the SRO fees charged in relation to Section 31.²⁰⁵ By providing Additional Trade Details that are not available in other fee contexts, FCAT enhances the Industry Members' ability to match the underlying trades provided with CAT invoices with books and records and SRO data, both of which are independent of CAT data.

(iii) CAT LLC is Not Required to Facilitate CAT Reporters' Ability to Pass Through Fees to Their Customers

Similar to other regulatory fees, the CAT NMS Plan does not address the manner or extent to which CAT Executing Brokers may seek to pass any CAT fees on to their customers, nor does it impose any obligation on CAT LLC or the Plan Processor to facilitate firms' ability to do so. Accordingly, Historical CAT Assessment 1A does not address the process by which any CAT Reporters may pass through the fee to their customers. Likewise, the CAT billing approach provided by the Plan Processor is designed to address the needs of CAT Reporters with regard to the reconciliation of CAT invoices with the underlying trades provided by CAT LLC with the invoices; they are not designed to address issues related to any pass-through fees. Accordingly, facilitating CAT Reporters' ability to pass through fees to their clients is outside the scope of this fee filing. Nevertheless, as described below, CAT LLC and the Plan Processor have expended significant efforts to provide technical assistance to Industry Members regarding the implementation of Historical CAT Assessment 1A, including providing Additional Trade Details that provide significant details about each underlying trade.

(a) *Originating Brokers Versus Executing Brokers*

In its approval of the CAT Funding Model, the Commission approved charging CAT fees to the CAT Executing Broker, rather than the originating broker. This fee filing must comply with the requirements of the CAT Funding Model, and, therefore, charges the

²⁰⁴ See CAT Technical Specifications for Billing Trade Details; Trade Details Schema (<https://catnmsplan.com/sites/default/files/2024-02/02.05.24-Billing-Trade-Details-Schema.json>); CAT Billing Scenarios, Version 1.0 (Nov. 30, 2023) (<https://www.catnmsplan.com/sites/default/files/2024-01/01.12.2024-CAT-Billing-Scenarios-v1.0.pdf>).

²⁰⁵ For years, broker-dealers have faced similar reconciliation issues with regard to SRO fees related to Section 31. Broker-dealers have responded to this issue in the Section 31 context by exercising their discretion as to whether and the manner and extent to which they pass on those fees (e.g., by rounding up its fees to the nearest cent, or decide to charge for, or not charge for, certain transactions, or assess a specific fee or incorporate the costs into other fee programs). See, e.g., Securities Exchange Act Rel. No. 49928 (June 28, 2004), 69 FR 41060, 41072 (July 7, 2004) (noting that broker-dealers may "over-collect" Section 31-related fees charged to their clients due to rounding practices, and double-counting with regard to certain transactions).

Historical CAT Assessment 1A to CAT Executing Brokers.

Moreover, charging originating brokers would introduce significant complexity to the billing process from the CAT's perspective, and would increase the costs of implementing CAT fees. Charging the CAT Executing Broker is simple and straightforward, and leverages a one-to-one relationship between billable events (trades) and billable parties, similar to other transaction-based fees. In contrast, for a single trade event, there may be many originating brokers, and each trade must be broken down on a pro-rata basis, to account for one or more layers of aggregation, disaggregation, and representation of the underlying orders. While CAT is indeed designed to capture and unwind complex aggregation scenarios, the data and linkages are structured to facilitate regulatory use, and not a billing mechanism that assesses fees on a distinct set of executed trades; it is not simply a matter of using existing CAT linkages. Furthermore, charging originating brokers would implicate issues related to lifecycle linkage rates, and issues related to corrections, cancellations and allocations, while charging CAT Executing Brokers would avoid such issues.

(b) Identification of Order Originator for Underlying Trades

As noted, the CAT NMS Plan does not address the manner or extent to which CAT Executing Brokers may seek to pass any CAT Fees on to their customers, nor does it impose any obligation on CAT LLC or the Plan Processor to facilitate firms' ability to do so. Nevertheless, the Additional Trade Details provided with regard to the underlying trades on CAT invoices may assist with this process. Like with Section 31-related sales value fees, however, it is not always possible to trace every fee on a transaction back to the originating party. Industry Members have faced these issues under Section 31-related sales values fees for many years.²⁰⁶ However, with the Additional Trade Details provided under the CAT billing approach, in

many cases, CAT Reporters will be able to identify the order originator for the underlying trades provided by CAT with CAT invoices. In some cases, CAT LLC believes that certain issues related to certain types of market activity may implicate CAT Reporters' ability to identify the order originator for a limited set of underlying trades for the CAT invoices. Although CAT LLC does not believe that it is required to address these issues, CAT LLC and FCAT have been carefully researching and analyzing these types of issues as they are identified, and have been working voluntarily to assist CAT Reporters with these issues as necessary and when possible. In addition, CAT LLC intends to continue to provide CAT Reporters with billing guidance through FAQs, CAT Alerts and Helpdesk responses to address outstanding billing questions.

(B) Significant Technical Assistance

CAT LLC has worked with FCAT to provide significant technical assistance to Industry Members to allow the Industry Members to understand how Historical CAT Assessments will be implemented and billed, including webinars, CAT alerts, mock invoices, and responses to questions posed to the FCAT Help Desk.

- *Technical Specifications and Scenarios.* CAT LLC has provided detailed technical documentation for CAT billing, including (1) technical specifications, which describe the CAT Billing Trade Details Files associated with monthly CAT invoices, including detailed information about data elements and file formats as well as access instructions, network and transport options;²⁰⁷ (2) trade details schemas;²⁰⁸ and (3) CAT billing scenarios.²⁰⁹

- *Industry Webinars.* CAT LLC has hosted two industry webinars specifically dedicated to CAT billing. The first webinar, hosted on September 28, 2023, discussed the operational implementation of the CAT Reporter billing process.²¹⁰ The second webinar, hosted on November 7, 2023, provided (1) a demonstration of the CAT Reporter

Portal and how to access CAT billing documents, including CAT invoices; and (2) additional information on underlying trade details in relation to the CAT Reporter billing process and an overview of the CAT Contact Management System.²¹¹ 485 participants and 394 participants attended the two webinars, respectively.

- *CAT Alert.* CAT LLC has published a detailed CAT Alert that describes how FCAT, as the Plan Processor acting on behalf of CAT LLC, will calculate applicable fees, issue invoices to and collect payment from CAT Executing Brokers.²¹²

- *Frequently Asked Questions (FAQs).* CAT LLC also has continued to engage with the industry on billing issues by making responses to billing FAQs available on the CAT website. The FAQs address a broad range of frequently asked questions, including, for example, which Industry Members will receive invoices, how fees are calculated, when and how fees are required to be paid, how to access invoices, and how to update the billing contact. To date, responses to 31 FAQs are available on the CAT website, and CAT LLC will provide additional responses to FAQs as warranted.²¹³

- *Substantial Past Experience with CAT Billing Processes.* To date, CAT LLC, via FCAT, has billed Industry Members for Historical CAT Assessment 1 and certain Prospective CAT Fees. Industry Members will be billed for Historical CAT Assessment 1A via the same processes established for Historical CAT Assessment 1 and the Prospective CAT Fees. Accordingly, Industry Members have substantial experience with the CAT billing processes.

- *Help Desk Assistance.* CAT LLC also provides detailed, individualized assistance to Industry Members regarding CAT fees and the billing process through the FCAT Help Desk.²¹⁴ For example, the Help Desk assisted with 406 cases related to the billing of

²⁰⁶ "FINRA charges a Regulatory Transaction Fee ("RTF") to industry members to reimburse FINRA for the Section 31 fees that FINRA pays to the Commission. FINRA does not currently provide industry members with the data that industry members require for proper reconciliation of RTF fees. This has been a major problem for the industry for many years." See also Section 10.3 of Appendix D of the CAT NMS Plan for a description of the Plan requirements for the CAT Help Desk.

CAT fees from July 2023 through March 2024.

By providing such detailed and sustained assistance to Industry Members regarding CAT fees and billing, CAT LLC has successfully addressed questions raised by Industry Members regarding the CAT fees and billing processes.

(C) Notice to Industry Members

In keeping with past practice, CAT LLC provided notice of the proposed Historical CAT Assessment 1A via CAT Fee Alert on April 1, 2026,²¹⁵ one month prior to the effective date of Historical CAT Assessment 1A on May 1, 2026. Such notice provides Industry Members with sufficient time to address any technological or other requirements necessary for implementing Historical CAT Assessment 1A.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the requirements of the Exchange Act. The Exchange believes that the proposed rule change is consistent with Section 6(b)(5) of the Act,²¹⁶ which requires, among other things, that the Exchange's rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest, and not designed to permit unfair discrimination between customers, issuers, brokers and dealers. The Exchange also believes that the proposed rule change is consistent with the provisions of Section 6(b)(4) of the Act,²¹⁷ because it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers. The Exchange further believes that the proposed rule change is consistent with Section 6(b)(8) of the Act,²¹⁸ which requires that the Exchange's rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. These provisions also require that the Exchange be "so organized and [have] the capacity to be able to carry out the purposes" of the Act and "to comply, and . . . to enforce compliance by its members and persons associated with its members," with the

provisions of the Exchange Act.²¹⁹ Accordingly, a reasonable reading of the Act indicates that it intended that regulatory funding be sufficient to permit an exchange to fulfill its statutory responsibility under the Act, and contemplated that such funding would be achieved through equitable assessments on the members, issuers, and other users of an exchange's facilities.

The Exchange believes that this proposal is consistent with the Act because it implements provisions of the Plan and is designed to assist the Exchange in meeting regulatory obligations pursuant to the Plan. In approving the Plan, the SEC noted that the Plan "is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act."²²⁰ To the extent that this proposal implements the Plan and applies specific requirements to Industry Members, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Act.

The Exchange believes that the proposed fees paid by the CEBBs and CEBSs are reasonable, equitably allocated and not unfairly discriminatory. First, the Historical CAT Assessment 1 fees to be collected are directly associated with the costs of establishing and maintaining the CAT, where such costs include Plan Processor costs and costs related to technology, legal, consulting, insurance, professional and administration, and public relations costs. The Exchange has already incurred such development and implementation costs and the proposed Historical CAT Assessment 1 fees, therefore, would allow the Exchange to collect certain of such costs in a fair and reasonable manner from Industry Members, as contemplated by the CAT NMS Plan.

The proposed Historical CAT Assessment 1A fees would be charged to Industry Members in support of the maintenance of a consolidated audit trail for regulatory purposes. The proposed fees, therefore, are consistent with the Commission's view that regulatory fees be used for regulatory purposes and not to support the Exchange's business operations. The proposed fees would not cover Exchange services unrelated to the CAT.

In addition, any surplus would be used as a reserve to offset future fees. Given the direct relationship between CAT fees and CAT costs, the Exchange believes that the proposed fees are reasonable, equitable and not unfairly discriminatory.

As further discussed below, the SEC approved the CAT Funding Model, finding it was reasonable and that it equitably allocates fees among Participants and Industry Members. The Exchange believes that the proposed fees adopted pursuant to the CAT Funding Model approved by the SEC are reasonable, equitably allocated and not unfairly discriminatory.

(1) Implementation of CAT Funding Model in CAT NMS Plan

Section 11.1(b) of the CAT NMS Plan states that "[t]he Participants shall file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves." Per Section 11.1(b) of the CAT NMS Plan, the Exchange has filed this fee filing to implement the Industry Member CAT fees included in the CAT Funding Model. The Exchange believes that this proposal is consistent with the Exchange Act because it is consistent with, and implements, the CAT Funding Model in the CAT NMS Plan, and is designed to assist the Exchange and its Industry Members in meeting regulatory obligations pursuant to the CAT NMS Plan. In approving the CAT NMS Plan, the SEC noted that the Plan "is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act."²²¹ Similarly, in approving the CAT Funding Model, the SEC concluded that the CAT Funding Model met this standard.²²² As this proposal implements the Plan and the CAT Funding Model described therein, and applies specific requirements to Industry Members in compliance with the Plan, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Exchange Act.

(2) Calculation of Fee Rate for Historical CAT Assessment 1A is Reasonable

The SEC has determined that the CAT Funding Model is reasonable and satisfies the requirements of the Exchange Act. Specifically, the SEC has

²¹⁵ CAT Fee Alert 2026-1 (Apr. 1, 2026) (<https://www.catnmsplan.com/sites/default/files/2026-04/04.01.26-CAT-Fee-Alert-2026-1.pdf>).

²¹⁶ 15 U.S.C. 78f(b)(6).

²¹⁷ 15 U.S.C. 78f(b)(4).

²¹⁸ 15 U.S.C. 78f(b)(8).

²¹⁹ See Section 6(b)(1) of the Exchange Act.

²²⁰ CAT NMS Plan Approval Order at 84697.

²²¹ CAT NMS Plan Approval Order at 84696.

²²² CAT Funding Model Approval Order at 62686.

concluded that the method for determining Historical CAT Assessments as set forth in Section 11.3 of the CAT NMS Plan, including the formula for calculating the Historical Fee Rate, the identification of the parties responsible for payment and the transactions subject to the fee rate for the Historical CAT Assessment, is reasonable and satisfies the Exchange Act.²²³ In each respect, as discussed above, Historical CAT Assessment 1A is calculated, and would be applied, in accordance with the requirements applicable to Historical CAT Assessments as set forth in the CAT NMS Plan. Furthermore, as discussed below, the Exchange believes that each of the figures for the variables in the SEC-approved formula for calculating the fee rate for Historical CAT Assessment 1A is reasonable and consistent with the Exchange Act. Calculation of the Historical Fee Rate for Historical CAT Assessment 1A requires the figures for the Historical CAT Costs 1, the executed equivalent share volume for the prior twelve months, the determination of Historical Recovery Period 1A, and the projection of the executed equivalent share volume for Historical Recovery Period 1A. Each of these variables is reasonable and satisfies the Exchange Act, as discussed throughout this filing.

(A) Historical CAT Costs 1

The formula for calculating a Historical Fee Rate requires the amount of Historical CAT Costs to be recovered. Specifically, Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan requires a fee filing to provide:

a brief description of the amount and type of the Historical CAT Costs, including (1) the technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees, and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration and (6) public relations costs.

In accordance with this requirement, the Exchange has set forth the amount and type of Historical CAT Costs 1 for each of these categories of costs above.

Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan also requires that the fee filing provide “sufficient detail to demonstrate that the Historical CAT Costs are reasonable and appropriate.” As discussed below, the Exchange believes that the amounts set forth in this filing for each of these cost categories is “reasonable and appropriate.” Each of the costs included

in Historical CAT Costs 1 are reasonable and appropriate because the costs are consistent with standard industry practice, based on the need to comply with the requirements of the CAT NMS Plan, incurred subject to negotiations performed on an arm’s length basis, and/or are consistent with the needs of any legal entity, particularly one with no employees.

(i) Technology: Cloud Hosting Services

In approving the CAT Funding Model, the Commission recognized that it is appropriate to recover costs related to cloud hosting services as a part of Historical CAT Assessments.²²⁴ CAT LLC determined that the costs related to cloud hosting services described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. As described above, the cloud hosting services costs reflect, among other things, the breadth of the CAT cloud activities, data volume far in excess of the original volume estimates, the need for specialized cloud services given the volume and unique nature of the CAT, the processing time requirements of the Plan, and regular efforts to seek to minimize costs where permissible under the Plan. CAT LLC determined that use of cloud hosting services is necessary for implementation of the CAT, particularly given the substantial data volumes associated with the CAT, and that the fees for cloud hosting services negotiated by FCAT were reasonable, taking into consideration a variety of factors, including the expected volume of data and the breadth of services provided and market rates for similar services.²²⁵ Indeed, the actual costs of the CAT are far in excess of the original estimated costs of the CAT due to various factors, including the higher volumes and greater complexity of the CAT than anticipated when Rule 613 was originally adopted.

To comply with the requirements of the Plan, the breadth of the cloud activities related to the CAT is substantial. The cloud services not only include the production environment for the CAT, but they also include two industry testing environments, support environments for quality assurance and stress testing and disaster recovery capabilities. Moreover, the cloud storage costs are driven by the requirements of the Plan, which requires the storage of multiple versions of the data, from the

original submitted version of the data through various processing steps, to the final version of the data.

Data volume is a significant driver of costs for cloud hosting services. When the Commission adopted the CAT NMS Plan in 2016, it estimated that the CAT would need to receive 58 billion records per day²²⁶ and that annual operating costs for the CAT would range from \$36.5 million to \$55 million.²²⁷ Through 2021, the actual data volumes have been five times that original estimate. The data volumes for each period are set forth in detail above.²²⁸

In addition to the effect of the data volume on the cloud hosting costs, the processing timelines set forth in the Plan contribute to the cloud hosting costs. Although CAT LLC has proactively sought to manage cloud hosting costs while complying with the Plan, including through requests to the Commission for exemptive relief and an amendment to the CAT NMS Plan, stringent CAT NMS Plan requirements do not allow for any material flexibility in cloud architecture design choices, processing timelines (e.g., the use of non-peak processing windows), or lower-cost storage tiers. As a result, the required CAT processing timelines contribute to the cloud hosting costs of the CAT.

The costs for cloud hosting services also reflect the need for specialized cloud hosting services given the data volume and unique processing needs of the CAT. The data volume as well as the data processing needs of the CAT necessitate the use of cloud hosting services. The equipment, power and services required for an on-premises data model, the alternative to cloud hosting services, would be cost prohibitive. Moreover, as CAT was being developed, there were limited cloud hosting providers that could satisfy all the necessary CAT requirements, including the operational and security criteria. Over time more providers offering cloud hosting services that would satisfy these criteria have entered the market. CAT LLC will continue to evaluate alternative cloud hosting services, recognizing that the time and cost to move to an alternative cloud provider would be substantial.

The reasonableness of the cloud hosting services costs is further supported by key cost discipline mechanisms for the CAT—a cost-based funding structure, cost transparency, cost management efforts (including

²²⁴ Section 11.3(b)(iii)(B)(II)(B)(1) of the CAT NMS Plan.

²²⁵ For a discussion of the amount and type of cloud hosting services fees, see Sections 3(a)(2)(B)(i)(a), 3(a)(2)(B)(ii)(a), 3(a)(2)(B)(iii)(a) and 3(a)(2)(B)(iv)(A) above.

²²⁶ Appendix D–4 of the CAT NMS Plan at n.262.

²²⁷ CAT NMS Plan Approval Order at 84801.

²²⁸ See Sections 3(a)(2)(B)(i)(a), 3(a)(2)(B)(ii)(a), 3(a)(2)(B)(iii)(a) and 3(a)(2)(B)(iv)(A) above.

²²³ *Id.* at 62662–63.

regular efforts to lower compute and storage costs where permitted by the Plan) and oversight. Together, these mechanisms help ensure the ongoing reasonableness of the CAT's costs and the level of fees assessed to support those costs.²²⁹

(ii) Technology: Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover costs related to operating fees as a part of Historical CAT Assessments.²³⁰ CAT LLC determined that the costs related to operating fees described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. The operating fees include the negotiated fees paid by CAT LLC to the Plan Processor to operate and maintain the system for order-related information and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (*e.g.*, management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the selection of FCAT as the Plan Processor was reasonable and appropriate given its expertise with securities regulatory reporting, after a process of considering other potential candidates.²³¹ CAT LLC also determined that the fixed price contract, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, was reasonable and appropriate, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity.²³² The services performed by FCAT for each period and the costs related to such services are described above.²³³

(iii) Technology: CAIS Operating Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover costs related to CAIS operating fees as a part of Historical CAT Assessments.²³⁴ CAT LLC determined that the costs related to CAIS operating fees described in this filing are reasonable and should be

included as a part of Historical CAT Costs 1. The CAIS operating fees include the fees paid to the Plan Processor to operate and maintain CAIS and to perform the business operations related to the system, including compliance, security, testing, training, communications with the industry (*e.g.*, management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program management. CAT LLC determined that the FCAT-negotiated fees for Kingland's CAIS-related services, negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors, including the services to be provided and market rates for similar types of activity, were reasonable and appropriate.²³⁵ The services performed by Kingland for each period and the costs for each period are described above.²³⁶

(iv) Technology: Change Request Fees

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover costs related to change request fees as a part of Historical CAT Assessments.²³⁷ CAT LLC determined that the costs related to change request fees described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. It is common practice to utilize a change request process to address evolving needs in technology projects. This is particularly true for a project like CAT that is the first of its kind, both in substance and in scale. The substance and costs of each of the change requests are evaluated by the Operating Committee, and approved in accordance with the requirements for Operating Committee meetings. In each case, CAT LLC determined that the change requests were necessary to implement the CAT. As described above, the change requests cover various technology changes, including, for example, changes related to CAT reporting, data feeds and exchange functionality. CAT LLC also determined that the costs for each change request were appropriate for the relevant technology change. A description of the change requests for each FAM Period and their total costs is described above.²³⁸ As noted above, the total costs for change requests through FAM Period

3 represent a small percentage of Historical CAT Costs 1—that is, 0.25% of Historical CAT Costs 1.

(v) Capitalized Developed Technology Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover costs related to capitalized developed technology costs as a part of Historical CAT Assessments.²³⁹ Capitalized developed technology costs include costs related to certain development costs, costs related to certain modifications, upgrades and other changes to the CAT, CAIS implementation fees and license fees. The amount and type of costs for each period are described in more detail above.²⁴⁰ CAT LLC determined that these costs are reasonable and should be included as a part of Historical CAT Costs 1.

These costs involve the activity of both the Initial Plan Processor and FCAT, as the successor Plan Processor.²⁴¹ With regard to the Initial Plan Processor, the Participants utilized an RFP to seek proposals to build and operate the CAT, receiving a number of proposals in response to the RFP. The Participants carefully reviewed and considered each of the proposals, including holding in-person meetings with each of the Bidders. After several rounds of review, the Participants selected the Initial Plan Processor in accordance with the CAT NMS Plan. CAT LLC entered into an agreement with the Initial Plan Processor in which CAT LLC would pay the Initial Plan Processor a negotiated, fixed price fee.²⁴² In addition, as described above, CAT LLC determined that it was appropriate to enter into an agreement with FCAT as the successor Plan Processor.²⁴³

(vi) Legal

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover costs related to legal fees as a part of Historical CAT Assessments.²⁴⁴ CAT LLC determined that the legal costs described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. Given the unique nature of the CAT, the number of parties involved with the CAT (including, for example, the SEC,

²²⁹ See Securities Exchange Act Rel. No. 97151 (Mar. 15, 2023), 88 FR 17086, 17117 (Mar. 21, 2023) (describing key cost discipline mechanisms for the CAT).

²³⁰ Section 11.3(b)(iii)(B)(II)(B)(1) of the CAT NMS Plan.

²³¹ See Section 3(a)(2)(B)(i)(b) above.

²³² See Sections 3(a)(2)(B)(i)(b), 3(a)(2)(B)(ii)(b), 3(a)(2)(B)(iii)(b) and 3(a)(2)(B)(iv)(b) above.

²³³ *Id.*

²³⁴ Section 11.3(b)(iii)(B)(II)(B)(1) of the CAT NMS Plan.

²³⁵ See Sections 3(a)(2)(B)(i)(c), 3(a)(2)(B)(ii)(c), 3(a)(2)(B)(iii)(c) and 3(a)(2)(B)(iv)(c) above.

²³⁶ *Id.*

²³⁷ Section 11.3(b)(iii)(B)(II)(B)(1) of the CAT NMS Plan.

²³⁸ See Sections 3(a)(2)(B)(i)(d), 3(a)(2)(B)(ii)(d), 3(a)(2)(B)(iii)(d) and 3(a)(2)(B)(iv)(d) above.

²³⁹ Section 11.3(b)(iii)(B)(II)(B)(1) of the CAT NMS Plan.

²⁴⁰ See Sections 3(a)(2)(B)(i)(e), 3(a)(2)(B)(ii)(e), 3(a)(2)(B)(iii)(e) and 3(a)(2)(B)(iv)(e) above.

²⁴¹ *Id.*

²⁴² See Section 3(a)(2)(B)(i)(e) above.

²⁴³ See Section 3(a)(2)(B)(i)(b) above.

²⁴⁴ Section 11.3(b)(iii)(B)(II)(B)(2) of the CAT NMS Plan.

Participants, Industry Members, and vendors) and the many regulatory issues associated with the CAT, the scope of the necessary legal services is substantial. CAT LLC determined that the scope of the legal services is necessary to implement and maintain the CAT and that the legal rates reflect the specialized services necessary for such a project. When hiring each law firm for a CAT project, CAT LLC interviewed multiple firms, and determined to hire each firm based on a variety of factors, including the relevant expertise and fees. In each case, CAT LLC determined that the hourly fee rates were in line with market rates for the specialized legal expertise. In addition, CAT LLC determined that the total costs incurred for each CAT project were appropriate given the breadth of services provided. The services performed by each law firm for each period and the costs related to such services are described above.²⁴⁵

(vii) Consulting

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover consulting costs as a part of Historical CAT Assessments.²⁴⁶ CAT LLC determined that the consulting costs described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. Because there are no CAT employees²⁴⁷ and because of the significant number of issues associated with the CAT, the consultants provided assistance in the management of various CAT matters and the processes related to such matters.²⁴⁸ CAT LLC considered a variety of factors in choosing a consulting firm and determined to select Deloitte after an interview process.²⁴⁹ CAT LLC also determined that the consulting services were provided at reasonable market rates, as the fees were negotiated annually and comparable to the rates charged by other consulting firms for similar work.²⁵⁰ Moreover, the total costs for such consulting services were appropriate in light of the breadth of services provided by Deloitte. The services performed by Deloitte and the

costs related to such services are described above.²⁵¹

(viii) Insurance

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover insurance costs as a part of Historical CAT Assessments.²⁵² CAT LLC determined that the insurance costs described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. CAT LLC determined that it is common practice to have directors' and officers' liability insurance, and errors and omissions liability insurance. CAT LLC further determined that it was important to have cyber security insurance given the nature of the CAT, and such a decision is consistent with the CAT NMS Plan, which states that the cyber incident response plan may include "[i]nsurance against security breaches."²⁵³ In selecting the insurance providers for these policies, CAT LLC engaged in an evaluation of alternative insurers, including a comparison of the pricing offered by the alternative insurers.²⁵⁴ Based on this analysis, CAT LLC determined that the selected insurance policies provided appropriate coverage at reasonable market rates.²⁵⁵

(ix) Professional and Administration

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover professional and administration costs as a part of Historical CAT Assessments.²⁵⁶ CAT LLC determined that the professional and administration costs described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. Because there are no CAT employees, all required accounting, financial, tax, cash management and treasury functions for CAT LLC have been outsourced at market rates. In addition, the required annual financial statement audit of CAT LLC is included in professional and administration costs, which costs are also at market rates.

CAT LLC determined to hire a financial advisory firm, Anchin, to assist with financial matters for the CAT. CAT LLC interviewed Anchin as well as other potential financial advisory firms to assist with the CAT

project, considering a variety of factors in its analysis, including the firm's relevant expertise and fees.²⁵⁷ The hourly fee rates for this firm were in line with market rates for the financial advisory services provided.²⁵⁸ Moreover, the total costs for such financial advisory services was appropriate in light of the breadth of services provided by Anchin. The services performed by Anchin and the costs related to such services are described above.²⁵⁹

CAT LLC also determined to engage an independent accounting firm, Grant Thornton, to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. CAT LLC interviewed this firm as well as another potential accounting firm to audit CAT LLC's financial statements, considering a variety of factors in its analysis, including the relevant expertise and fees of each of the firms. CAT LLC determined that Grant Thornton was well-qualified for the role given the balance[sic] of these considerations.²⁶⁰ Grant Thornton's fixed fee rate compensation arrangement was reasonable and appropriate, and in line with the market rates charged for these types of accounting services.²⁶¹ Moreover, the total costs for such financial advisory services was appropriate in light of the breadth of services provided by Grant Thornton. The services performed by Grant Thornton and the costs related to such services are described above.²⁶²

The professional and administrative costs also include costs related to the receipt of certain market data from Exegy. After performing an analysis of the available market data vendors to confirm that the data provided met the SIP Data requirements of the CAT NMS Plan and comparing the costs of the vendors providing the required SIP Data, CAT LLC determined to purchase market data from Exegy. Exegy provided the data elements required by the CAT NMS Plan, and the fees were reasonable and in line with market rates for the market data received.²⁶³

The professional and administrative costs also include costs related to a third party security assessment of the CAT performed by RSM. The assessment was designed to verify and validate the

²⁴⁵ See Sections 3(a)(2)(B)(i)(f), 3(a)(2)(B)(ii)(f), 3(a)(2)(B)(iii)(f) and 3(a)(2)(B)(iv)(f) above.

²⁴⁶ Section 11.3(b)(iii)(B)(II)(B)(3) of the CAT NMS Plan.

²⁴⁷ As stated in the filing of the proposed CAT NMS Plan, "[i]t is the intent of the Participants that the Company have no employees." Securities Exchange Act Rel. No. 77724 (Apr. 27, 2016), 81 FR 30614, 30621 (May 17, 2016).

²⁴⁸ CAT LLC uses certain third parties to perform tasks that may be performed by administrators for other NMS Plans. See, e.g., CTA Plan and CQ Plan.

²⁴⁹ See Section 3(a)(2)(B)(i)(g) above.

²⁵⁰ See Sections 3(a)(2)(B)(i)(g), 3(a)(2)(B)(ii)(g), 3(a)(2)(B)(iii)(g) and 3(a)(2)(B)(iv)(g) above.

²⁶² *Id.*

²⁶³ See Section 3(a)(2)(B)(i)(i) above.

effective design, implementation and operation of the controls specified by NIST Special Publication 800–53, Revision 4 and related standards and guidelines. Such a security assessment is in line with industry practice and important given the data included in the CAT. CAT LLC determined to engage RSM to perform the security assessment, after considering a variety of factors in its analysis, including the firm's relevant expertise and fees. The fees were reasonable and in line with market rates for such an assessment.²⁶⁴

(x) Public Relations Costs

In approving the CAT Funding Model, the SEC recognized that it is appropriate to recover public relations costs as a part of Historical CAT Assessments.²⁶⁵ CAT LLC determined that the public relations costs described in this filing are reasonable and should be included as a part of Historical CAT Costs 1. CAT LLC determined that the types of public relations services utilized were beneficial to the CAT and market participants more generally. Public relations services were important for various reasons, including monitoring comments made by market participants about CAT and understanding issues related to the CAT discussed on the public record.²⁶⁶ By engaging a public relations firm, CAT LLC was better positioned to understand and address CAT issues to the benefit of all market participants.²⁶⁷ Moreover, CAT LLC determined that the rates charged for such services were in line with market rates.²⁶⁸ As noted above, the total public relations costs through FAM Period 3 represent a small percentage of Historical CAT Costs 1—that is, 0.1% of Historical CAT Costs 1.

(B) Total Executed Equivalent Share Volume for the Prior 12 Months

The total executed equivalent share volume of transactions in Eligible Securities for the 12-month period from March 2025 through February 2026 was 5,980,937,549,360.49 executed equivalent shares. CAT LLC determined the total executed equivalent share volume for the prior twelve months by counting executed equivalent shares in the same manner as it will count executed equivalent shares for CAT billing purposes.

(C) Historical Recovery Period 1A

CAT LLC has determined to establish a Historical Recovery Period of 24 months for Historical CAT Assessment 1A and that such length is reasonable. CAT LLC determined that the length of Historical Recovery Period 1A appropriately weighs the need for a reasonable fee rate for Historical CAT Assessment 1A that spreads the Historical CAT Costs over an appropriate amount of time and the need to repay the loans notes to the Participants in a timely fashion. CAT LLC determined that 24 months for Historical Recovery Period 1A would establish a fee rate that is lower than other transaction-based fees, including fees assessed pursuant to Section 31.²⁶⁹ In addition, in establishing a Historical Recovery Period of 24 months, CAT LLC recognized that the total cost for Historical CAT Assessment 1A was less than the total costs for 2022 and 2023, and therefore it would be appropriate to recover those costs in two years.

(D) Projected Executed Equivalent Share Volume for Historical Recovery Period 1A

CAT LLC has determined to calculate the projected total executed equivalent share volume for the 24 months of Historical Recovery Period 1A by doubling the executed equivalent share volume for the prior 12 months. The Operating Committee determined that such an approach was reasonable as the CAT's annual executed equivalent share volume has increased from prior years (e.g., the executed equivalent share volume for 2024 was 4,295,884,600,069.4) and the Operating Committee believes that it is reasonable to conclude that the annual executed equivalent share volume will remain at the higher level. Accordingly, the projected total executed equivalent share volume for Historical Recovery Period 1A is projected to be 11,961,875,098,720.98 executed equivalent shares.²⁷⁰

(E) Actual Fee Rate for Historical CAT Assessment 1A

(i) Decimal Places

As noted in the Plan amendment for the CAT Funding Model, as a practical matter, the fee filing for a Historical CAT Assessment would provide the exact fee per executed equivalent share

to be paid for each Historical CAT Assessment, and describe the relevant number of decimal places for the fee rate.²⁷¹ Accordingly, proposed paragraph (a)(2)(B) of the fee schedule would set forth a fee rate of \$0.000002 per executed equivalent share. CAT LLC determined that the use of six decimal places is reasonable as it balances the accuracy of the calculation with the potential systems and other impracticalities of using additional decimal places in the calculation.

(ii) Reasonable Fee Level

The Exchange believes that imposing Historical CAT Assessment 1A with a fee rate of \$0.000002 per executed equivalent share is reasonable because it provides for a revenue stream for the Company that is aligned with the remaining Historical CAT Costs 1 and such costs would be spread out over an appropriate recovery period, as discussed above. Moreover, the Exchange believes that the level of the fee rate is reasonable, as it is comparable to other transaction-based fees. Indeed, Historical CAT Assessment 1A is significantly lower than fees assessed pursuant to Section 31 (e.g., \$0.00007 per share to \$0.00072 per share),²⁷² and, as a result, the magnitude of Historical CAT Assessment 1A is small, and therefore will mitigate any potential adverse economic effects or inefficiencies. Furthermore, the reasonable fee rate for Historical CAT Assessment 1A further supports CAT LLC's decision to seek to recover the costs described hererin.

(3) Historical CAT Assessment 1A Provides for an Equitable Allocation of Fees

Historical CAT Assessment 1A provides for an equitable allocation of fees, as it equitably allocates CAT costs between and among the Participants and Industry Members. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfied the requirements of the Exchange Act, including the formula for calculating Historical CAT Assessments as well as the Industry Members to be charged the Historical CAT Assessments.²⁷³ In approving the CAT Funding Model, the SEC stated that “[t]he Participants have sufficiently demonstrated that the proposed allocation of fees is appropriate.”²⁷⁴ Accordingly, the CAT Funding Model

²⁶⁴ *Id.*

²⁶⁶ See Section 3(a)(2)(B)(i)(j) above.

²⁶⁷ See Sections 3(a)(2)(B)(i)(j), 3(a)(2)(B)(ii)(j), 3(a)(2)(B)(iii)(j) and 3(a)(2)(B)(iv)(j) above.

²⁶⁸ *Id.*

²⁶⁹ As the SEC noted in the CAT Funding Model Approval Order, recent Section 31 fees ranged from \$0.00007 per share to \$0.00072 per share. CAT Funding Model Approval Order at 13469.

²⁷⁰ This projection was calculated by multiplying 5,980,937,549,360.49 executed equivalent shares by two.

²⁷¹ CAT Funding Model Approval Order at 13445, n.677.

²⁷² *Id.* at 13469.

²⁷³ See Section 11.3(b) of the CAT NMS Plan.

²⁷⁴ CAT Funding Model Approval Order at 13412.

sets forth the requirements for allocating fees related to Historical CAT Costs among Participants and Industry Members, and the fee filings for Historical CAT Assessments must comply with those requirements.

Historical CAT Assessment 1A provides for an equitable allocation of fees as it complies with the requirements regarding the calculation of Historical CAT Assessments as set forth in the CAT NMS Plan. For example, as described above, the calculation of Historical CAT Assessment 1A complies with the formula set forth in Section 11.3(b) of the CAT NMS Plan. In addition, Historical CAT Assessment 1A would be charged to CEBBs and CEBs in accordance with Section 11.3(b) of the CAT NMS Plan. Furthermore, the Participants would continue to remain responsible for their designated share of Past CAT Costs through the cancellation of loans made by the Participants to CAT LLC.

In addition, as discussed above, each of the inputs into the calculation of Historical CAT Assessment 1A—Historical CAT Costs 1 (including Excluded Costs) and the exclusion of costs previously invoiced via Historical CAT Assessment 1, the count for the executed equivalent share volume for the prior 12 months, the length of the Historical Recovery Period, and the projected executed equivalent share volume for the Historical Recovery Period—are reasonable. Moreover, these inputs lead to a reasonable fee rate for Historical CAT Assessment 1A that is lower than other fee rates for transaction-based fees. A reasonable fee rate allocated in accordance with the requirements of the CAT Funding Model provides for an equitable allocation of fees.

(4) Historical CAT Assessment 1A Is Not Unfairly Discriminatory

Historical CAT Assessment 1A is not an unfairly discriminatory fee. The SEC approved the CAT Funding Model, finding that each aspect of the CAT Funding Model satisfied the requirements of the Exchange Act. In reaching this conclusion, the SEC analyzed the potential effect of Historical CAT Assessments calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and

options, among other things. Historical CAT Assessment 1A complies with the requirements regarding the calculation of Historical CAT Assessments as set forth in the CAT NMS Plan. In addition, as discussed above, each of the inputs into the calculation of Historical CAT Assessment 1A and the resulting fee rate for Historical CAT Assessment 1A is reasonable. Therefore, Historical CAT Assessment 1A does not impose an unfairly discriminatory fee on Industry Members.

Finally, the Exchange believes the proposed fees established pursuant to the CAT Funding Model promote just and equitable principles of trade, and, in general, protect investors and the public interest, and are provided in a transparent manner and specificity in the fee schedule. The Exchange also believes that the proposed fees are reasonable because they would provide ease of calculation, ease of billing and other administrative functions, and predictability of a fee based on fixed rate per executed equivalent share. Such factors are crucial to estimating a reliable revenue stream for CAT LLC and for permitting Exchange members to reasonably predict their payment obligations for budgeting purposes.

B. Self-Regulatory Organization's Statement on Burden on Competition

Section 6(b)(8) of the Act²⁷⁵ requires that the Exchange's rules not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act. The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that Historical CAT Assessment 1A implements provisions of the CAT NMS Plan that were approved by the Commission and is designed to assist the Exchange in meeting its regulatory obligations pursuant to the Plan.

In addition, all Participants (including exchanges and FINRA) are proposing to introduce Historical CAT Assessment 1A on behalf of CAT LLC to implement the requirements of the CAT NMS Plan. Therefore, this is not a competitive fee filing, and, therefore, it does not raise competition issues between and among the Participants.

Furthermore, in approving the CAT Funding Model, the SEC analyzed the potential competitive impact of the CAT Funding Model, including competitive issues related to market services, trading services and regulatory services,

efficiency concerns, and capital formation.²⁷⁶ The SEC also analyzed the potential effect of CAT fees calculated pursuant to the CAT Funding Model on affected categories of market participants, including Participants (including exchanges and FINRA), Industry Members (including subcategories of Industry Members, such as alternative trading systems, CAT Executing Brokers and market makers), and investors generally, and considered market effects related to equities and options, among other things. Based on this analysis, the SEC approved the CAT Funding Model as compliant with the Exchange Act. Historical CAT Assessment 1A is calculated and implemented in accordance with the CAT Funding Model as approved by the SEC.

As discussed above, each of the inputs into the calculation of Historical CAT Assessment 1A is reasonable and the resulting fee rate for Historical CAT Assessment 1A calculated in accordance with the CAT Funding Model is reasonable. Therefore, Historical CAT Assessment 1A would not impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Exchange Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Exchange Act²⁷⁷ and Rule 19b-4(f)(2) thereunder,²⁷⁸ because it establishes or changes a due, or fee.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend the rule change if it appears to the Commission that the action is necessary or appropriate in the public interest, for the protection of investors, or would otherwise further the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-NYSENAT-2026-07 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to file number SR-NYSENAT-2026-07. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should

submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-NYSENAT-2026-07 and should be submitted on or before June 2, 2026.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.²⁷⁹

Stephanie J. Fouse,

Assistant Secretary.

No. 91

May 12, 2026

Part IV

Securities and Exchange Commission

Self-Regulatory Organizations; Miami International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend the Fee Schedule To Establish Fees for Industry Members Related to Certain Historical Costs of the National Market System Plan Governing the Consolidated Audit Trail; Notice

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–105409; File No. SR–MIAX–2026–16]

Self-Regulatory Organizations; Miami International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend the Fee Schedule To Establish Fees for Industry Members Related to Certain Historical Costs of the National Market System Plan Governing the Consolidated Audit Trail

May 7, 2026.

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”) ¹ and Rule 19b–4 thereunder,² notice is hereby given that on April 23, 2026, Miami International Securities Exchange, LLC (“MIAX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend the MIAX Options Exchange Fee Schedule (the “Fee Schedule”) to establish fees for Industry Members ³ related to certain historical costs of the National Market System Plan Governing the Consolidated Audit Trail (the “CAT NMS Plan” or “Plan”) incurred prior to January 1, 2022 that were not previously invoiced via Historical CAT Assessment 1. Industry Members were previously invoiced for \$173,075,024 of the \$212,039,879.34 of Historical CAT Costs 1 via Historical CAT Assessment 1. Historical CAT Assessment 1 is no longer in effect. Historical CAT Assessment 1A is being established to collect the remaining \$38,964,855.34 of Historical CAT Costs 1. These fees would be payable to Consolidated Audit Trail, LLC (“CAT LLC” or “the

Company”) ⁴ and referred to as Historical CAT Assessment 1A, and would be described in a section of the Exchange’s fee schedule entitled “Consolidated Audit Trail Funding Fees.” The fee rate for Historical CAT Assessment 1A will be \$0.000002 per executed equivalent share. CAT Executing Brokers will receive their first monthly invoice for Historical CAT Assessment 1A in June 2026 calculated based on their transactions as CAT Executing Brokers for the Buyer (“CEBB”) and/or CAT Executing Brokers for the Seller (“CEBS”) in May 2026.

The text of the proposed rule change is available on the Exchange’s website at <https://www.miaxglobal.com/markets/us-options/all-options-exchanges/rule-filings> and at MIAX’s principal office.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On July 11, 2012, the Commission adopted Rule 613 of Regulation NMS, which required the self-regulatory organizations (“SROs”) to submit a national market system (“NMS”) plan to create, implement and maintain a consolidated audit trail that would capture customer and order event information for orders in NMS securities across all markets, from the time of order inception through routing, cancellation, modification or execution.⁵ On November 15, 2016, the Commission approved the CAT NMS Plan.⁶ Under the CAT NMS Plan, the Operating Committee has the discretion

to establish funding for CAT LLC to operate the CAT, including establishing fees for Industry Members to be assessed by CAT LLC that would be implemented on behalf of CAT LLC by the Participants.⁷ On September 5, 2025, CAT LLC proposed a revised funding model to fund the CAT (“CAT Funding Model”).⁸ On March 16, 2026, the Commission approved the CAT Funding Model, after concluding that the model satisfied the requirements of Section 11A of the Exchange Act and Rule 608 thereunder.⁹

The CAT Funding Model provides a framework for the recovery of the costs to create, develop and maintain the CAT, including providing a method for allocating costs to fund the CAT among Participants and Industry Members. The CAT Funding Model establishes two categories of fees: (1) CAT fees assessed by CAT LLC and payable by certain Industry Members to recover a portion of historical CAT costs previously paid by the Participants (“Historical CAT Assessment” fees); and (2) CAT fees assessed by CAT LLC and payable by Participants and Industry Members to fund prospective CAT costs (“Prospective CAT Costs” fees).¹⁰

Under the CAT Funding Model, “[t]he Operating Committee will establish one or more fees (each a ‘Historical CAT Assessment’) to be payable by Industry Members with regard to CAT costs previously paid by the Participants (‘Past CAT Costs’).” ¹¹ In establishing a Historical CAT Assessment, the Operating Committee will determine a “Historical Recovery Period” and calculate a “Historical Fee Rate” for that Historical Recovery Period. Then, for each month in which a Historical CAT Assessment is in effect, each CEBB and

⁷ Section 11.1(b) of the CAT NMS Plan.

⁸ Securities Exchange Act Rel. No. 103960 (Sept. 12, 2025), 90 FR 44910 (Sept. 17, 2025).

⁹ Securities Exchange Act Rel. No. 105003 (Mar. 16, 2026), 91 FR 13410 (Mar. 29, 2026) (“CAT Funding Model Approval Order”). This CAT Funding Model replaced the prior funding model that was approved by the Commission on September 6, 2023. Securities Exchange Act Rel. No. 98290 (Sept. 6, 2023), 88 FR 62628 (Sept. 12, 2023).

¹⁰ Under the CAT Funding Model, the Operating Committee may establish one or more Historical CAT Assessments. Section 11.3(b) of the CAT NMS Plan. This filing only establishes Historical CAT Assessment 1A related to certain Historical CAT Costs as described herein; it does not address any other potential Historical CAT Assessment related to other Historical CAT Costs. In addition, under the CAT Funding Model, the Operating Committee also may establish CAT Fees related to CAT costs going forward. Section 11.3(a) of the CAT NMS Plan. This filing does not address any potential CAT Fees related to CAT costs going forward. Any such other fee for any other Historical CAT Assessment or CAT Fee for Prospective CAT Costs will be subject to a separate fee filing.

¹¹ Section 11.3(b) of the CAT NMS Plan.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

³ An “Industry Member” is defined as “a member of a national securities exchange or a member of a national securities association.” See Exchange Rule 1701(u). See also Section 1.1 of the CAT NMS Plan. Unless otherwise specified, capitalized terms used in this rule filing are defined as set forth in the CAT NMS Plan and/or the CAT Compliance Rule. See Exchange Rule 1701.

⁴ The term “CAT LLC” may be used to refer to Consolidated Audit Trail, LLC or CAT NMS, LLC, depending on the context.

⁵ Securities Exchange Act Rel. No. 67457 (July 18, 2012), 77 FR 45721 (Aug. 1, 2012) (“Rule 613 Adopting Release”).

⁶ Securities Exchange Act Rel. No. 79318 (Nov. 15, 2016), 81 FR 84696 (Nov. 23, 2016) (“CAT NMS Plan Approval Order”).

CEBS would be required to pay the fee—the Historical CAT Assessment—for each transaction in Eligible Securities executed by the CEBB or CEBS from the prior month as set forth in CAT Data, where the Historical CAT Assessment for each transaction will be calculated by multiplying the number of executed equivalent shares in the transaction by one-third and by the Historical Fee Rate.¹²

Each Historical CAT Assessment to be paid by CEBBs and CEBSs is designed to contribute toward the recovery of two-thirds of the Historical CAT Costs. Because the Participants previously have paid Past CAT Costs via loans to the Company, the Participants would not be required to pay any Historical CAT Assessment. In lieu of a Historical CAT Assessment, the Participants' one-third share of Historical CAT Costs will be paid by the cancellation of loans made by the Participants to the Company on a pro rata basis based on the outstanding loan amounts due under the loans, instead of through the payment of a CAT fee.¹³ In addition, the Participants also will be 100% responsible for certain Excluded Costs (as discussed below).

CAT LLC proposes to charge CEBBs and CEBSs (as described in more detail below) Historical CAT Assessment 1A to recover certain historical CAT costs incurred prior to January 1, 2022, in accordance with the CAT Funding Model. To implement this fee on behalf of CAT LLC, the CAT NMS Plan requires the Participants to “file with the SEC under Section 19(b) of the Exchange Act any such fees on Industry Members that the Operating Committee approves, and such fees shall be labeled

as ‘Consolidated Audit Trail Funding Fees.’”¹⁴ The Plan further states that “Participants will be required to file with the SEC pursuant to Section 19(b) of the Exchange Act a filing for each Historical CAT Assessment.”¹⁵ Accordingly, the purpose of this filing is to implement a Historical CAT Assessment on behalf of CAT LLC for Industry Members, referred to as Historical CAT Assessment 1A, in accordance with the CAT NMS Plan.¹⁶

The Exchange, along with the other Participants in the CAT, previously filed a fee filing to implement Historical CAT Assessment 1.¹⁷ Based on the fee filing for Historical CAT Assessment 1, Historical CAT Assessment 1 was expected to be in effect from the first invoice in November 2024 until \$212,039,879.34 (two-thirds of Historical CAT Costs 1) was invoiced to CAT Executing Brokers collectively.¹⁸ However, Historical CAT Assessment 1 ceased before the entire amount was invoiced.¹⁹ The last invoice for Historical CAT Assessment 1 was provided on December 2025, after only \$173,075,024 of the total \$212,039,879.34 had been invoiced to Industry Members.²⁰ Accordingly, \$38,964,855.34 of Historical CAT Costs 1 has not been invoiced. Historical CAT Assessment 1A would seek to recover this outstanding amount of Historical CAT Costs 1 that has not been invoiced.

(1) CAT Executing Brokers

Historical CAT Assessment 1A will be charged to each CEBB and CEBS for each applicable transaction in Eligible Securities.²¹ The CAT NMS Plan defines a “CAT Executing Broker” to mean:

(a) with respect to a transaction in an Eligible Security that is executed on an exchange, the Industry Member identified as the Industry Member responsible for the order on the buy-side of the transaction and the Industry Member responsible for the sell-side of the transaction in the equity order trade event and option trade event in the CAT Data submitted to the CAT by the relevant exchange pursuant to the Participant Technical Specifications; and (b) with respect to a transaction in an Eligible Security that is executed otherwise than on an exchange and required to be reported to an equity trade reporting facility of a registered national securities association, the Industry Member identified as the executing broker and the Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event in the CAT Data submitted to the CAT by FINRA pursuant to the Participant Technical Specifications; provided, however, in those circumstances where there is a non-Industry Member identified as the contra-side executing broker in the TRF/ORF/ADF transaction data event or no contra-side executing broker is identified in the TRF/ORF/ADF transaction data event, then the Industry Member identified as the executing broker in the TRF/ORF/ADF transaction data event would be treated as CAT Executing Broker for the Buyer and for the Seller.²²

The following fields of the Participant Technical Specifications indicate the CAT Executing Brokers for the transactions executed on an exchange.

EQUITY ORDER TRADE (EOT)²³

¹⁸ Securities Exchange Act Rel. No. 100827 (August 19, 2024), 89 FR 71472 (September 03, 2024) (SR-MIAX-2024-33).

¹⁹ In response to the Eleventh Circuit’s decision vacating the prior CAT NMS Plan funding model,

the last invoices for Historical CAT Assessment 1 were sent in December 2025 based on November 2025 transactions. *See American Securities Association v. SEC*, No. 23–13396 (11th Cir. July 25, 2025).

²⁰ CAT Fee Alert 2025–4 (Nov. 25, 2025).

²¹ In its approval order for the CAT Funding Model, the Commission determined that charging CAT fees to CAT Executing Brokers was appropriate. In reaching this conclusion the Commission noted that the use of CAT Executing Brokers is appropriate because the CAT Funding Model is based upon the calculation of *executed* equivalent shares, and, therefore, charging CAT Executing Brokers would reflect their executing role in each transaction. Furthermore, the Commission noted that, because CAT Executing Brokers are already identified in transaction reports from the exchanges and FINRA’s equity trade reporting

facilities recorded in CAT Data, charging CAT Executing Brokers could streamline the billing process. CAT Funding Model Approval Order at 13413.

²² Section 1.1 of the CAT NMS Plan. In its approval order for the CAT Funding Model, the Commission “recognize[d] that Industry Members may pass-through CAT fees for customer executed volume.” *See* CAT Funding Model Approval Order at 13424.

(2) Calculation of Fee Rate for Historical CAT Assessment 1A

The Operating Committee determined the fee rate to be used in calculating Historical CAT Assessment 1A based on the Historical CAT Costs for Historical CAT Assessment 1A and the projected total executed share volume of all transactions in Eligible Securities for the Historical Recovery Period for Historical CAT Assessment 1A (“Historical Recovery Period 1A”), as discussed in detail below. Based on this calculation, the Operating Committee has determined that the fee rate for Historical CAT Assessment 1A would be \$0.000002, as discussed in detail below.

(A) Executed Equivalent Shares for Transactions in Eligible Securities

Under the CAT NMS Plan, for purposes of calculating each Historical CAT Assessment, executed equivalent shares in a transaction in Eligible Securities will be reasonably counted as follows: (1) each executed share for a transaction in NMS Stocks will be counted as one executed equivalent

share; (2) each executed contract for a transaction in Listed Options will be counted based on the multiplier applicable to the specific Listed Options (*i.e.*, 100 executed equivalent shares or such other applicable multiplier); and (3) each executed share for a transaction in OTC Equity Securities shall be counted as 0.01 executed equivalent share.²⁶

(B) Historical CAT Costs

The CAT NMS Plan states that “[t]he Operating Committee will reasonably determine the Historical CAT Costs sought to be recovered by each Historical CAT Assessment, where the Historical CAT Costs will be Past CAT Costs minus Past CAT Costs reasonably excluded from Historical CAT Costs by the Operating Committee. Each Historical CAT Assessment will seek to recover from CAT Executing Brokers two-thirds of Historical CAT Costs incurred during the period covered by the Historical CAT Assessment.”²⁷ Historical CAT Assessment 1, the original Historical CAT Assessment, was implemented to recover \$212,039,879.34 of Historical CAT Costs

1 from CEBBs and CEBSSs collectively.²⁸ As described in the fee filings for Historical CAT Assessment 1, Historical CAT Costs 1 of \$212,039,879.34 includes Past CAT Costs of \$401,312,909 minus certain Excluded Costs of \$83,253,090. As described in the filing for Historical CAT Assessment 1, Participants collectively will remain responsible for one-third of Historical CAT Costs 1 (which is \$106,019,939.67), plus the Excluded Costs of \$83,253,090. Accordingly, CEBBs collectively will be responsible for one-third of Historical CAT Costs 1 (which is \$106,019,939.67), and CEBSSs collectively will be responsible for one-third of Historical CAT Costs 1 (which is \$106,019,939.67), for a total of \$212,039,879.34. CEBBs and CEBSSs collectively have been invoiced for \$173,075,024 of the \$212,039,879.34 of Historical CAT Costs 1 via Historical CAT Assessment 1. Accordingly, Historical CAT Assessment 1A would charge CEBBs and CEBSSs collectively for the remaining \$38,964,855.34 of Historical CAT Costs 1 that was not invoiced to CEBBs and CEBSSs via Historical CAT Assessment 1. Historical CAT

²⁴ See Table 52, Section 5.2.5.1 (Simple Option Trade Event) of the CAT Reporting Technical Specifications for Plan Participants.

²⁵ See Table 62, Section 6.1 (TRF/ORF/ADF Transaction Data Event) of the CAT Reporting Technical Specifications for Plan Participants.

²⁶ Section 11.3(a)(i)(B) and 11.3(b)(i)(B) of the CAT NMS Plan. In approving the CAT Funding Model, the Commission concluded that “in the Commission’s view, the use of executed equivalent share volume as the basis for determining and allocating CAT costs during the two-year interim period is appropriate and consistent with the

funding principles of the CAT NMS Plan.” CAT Funding Model Approval Order at 13427.

²⁷ Section 11.3(b)(i)(C) of the CAT NMS Plan.

²⁸ Securities Exchange Act Rel. No. 100948 (August 23, 2024), 89 FR 74630 (September 12, 2024) (SR-MIAX-2024-34).

Assessment 1A will be designed to recover the remaining \$38,964,855.34 of Historical CAT Costs 1 from CEBBs and CEBBs collectively, with CEBBs collectively responsible for \$19,482,427.67 and CEBBs collectively responsible for \$19,482,427.67.

(i) Historical CAT Costs 1

The following describes in detail Historical CAT Costs 1 with regard to four separate historical time periods as well as Past CAT Costs excluded from Historical CAT Costs 1 (“Excluded Costs”). The following cost details are provided in accordance with the requirement in the CAT NMS Plan to provide in the fee filing “a brief description of the amount and type of Historical CAT Costs, including (1) the

technology line items of cloud hosting services, operating fees, CAIS operating fees, change request fees, and capitalized developed technology costs, (2) legal, (3) consulting, (4) insurance, (5) professional and administration and (6) public relations costs.”²⁹ Each of the costs described below are reasonable, appropriate and necessary for the creation, implementation and maintenance of CAT. These Historical CAT Costs 1 are the same as described in the fee filing for Historical CAT Assessment 1.³⁰

(a) Historical CAT Costs Incurred Prior to June 22, 2020 (Pre-FAM Costs)

Historical CAT Costs 1 would include costs incurred by CAT prior to June 22, 2020 (“Pre-FAM Period”) and already

funded by the Participants, excluding Excluded Costs (described further below). Historical CAT Costs 1 would include costs for the Pre-FAM Period of \$124,290,730. The Participants would remain responsible for one-third of this cost (which they have previously paid) (\$41,430,243.33), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$41,430,243.33) and CEBBs paying one-third (\$41,430,243.33). These costs do not include Excluded Costs, as discussed further below. The following table breaks down Historical CAT Costs 1 for the Pre-FAM Period into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

Operating expense	Historical CAT costs 1 for Pre-FAM period (prior to June 22, 2020) **
Capitalized Developed Technology Costs *	\$51,847,150
<i>Technology Costs</i>	33,568,579
Cloud Hosting Services	10,268,840
Operating Fees	21,085,485
CAIS Operating Fees	2,072,908
Change Request Fees	141,346
Legal	19,674,463
Consulting	17,013,414
Insurance	880,419
Professional and administration	1,082,036
Public relations	224,669
Total Operating Expenses	124,290,730

* The non-cash amortization of these capitalized developed technology costs of \$2,115,545 incurred during the period prior to June 22, 2020 have been appropriately excluded from the above table.³¹

** The costs described in this table of costs for the Pre-FAM Period were calculated based upon CAT LLC’s review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website. In addition, in accordance with Section 6.6(a)(i) of the CAT NMS Plan, in 2018 CAT LLC provided the SEC with “an independent audit of fees, costs, and expenses incurred by the Participants on behalf of the Company prior to the Effective Date of the Plan that will be publicly available.” The audit is available on the CAT website.

The Pre-FAM Period includes a broad range of CAT-related activity from 2012 through June 22, 2020, including the evaluation of the requirements of SEC Rule 613, the development of the CAT NMS Plan, the evaluation and selection of the initial and successor Plan Processors, the commencement of the creation and implementation of the CAT to comply with Rule 613 and the CAT NMS Plan, including technical specifications for transaction reporting and regulatory access, and related technology and the commencement of reporting to the CAT. The following describes the costs for each of the categories for the Pre-FAM Period.

(I) Technology Costs—Cloud Hosting Services

The \$10,268,840 in technology costs for cloud hosting services represent costs incurred for services provided by the cloud services provider for the CAT, Amazon Web Services, Inc. (“AWS”), during the Pre-FAM Period.

As part of its proposal for acting as the successor Plan Processor for the CAT, FCAT selected AWS as a subcontractor to provide cloud hosting services. In 2019, after reviewing the capabilities of other cloud services providers, FCAT determined that AWS was the only cloud services provider at that time sufficiently mature and capable of providing the full suite of necessary cloud services for the CAT,

including, for example, the security, resiliency and complexity necessary for the CAT computing requirements. The use of cloud hosting services is standard for this type of high-volume data activity and reasonable and necessary for implementation of the CAT, particularly given the substantial data volumes associated with the CAT.

Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT the fees incurred by the Plan Processor for cloud hosting services provided by AWS as FCAT’s subcontractor on a monthly basis for the cloud hosting services, and FCAT, in turn, pays such fees to AWS. The fees for cloud hosting services were negotiated by FCAT on an arm’s length

²⁹ Section 11.3(b)(iii)(B)(II)(B) of the CAT NMS Plan.

³⁰ Securities Exchange Act Rel. No. 100948 (August 23, 2024), 89 FR 74630 (September 12, 2024) (SR-MIAX-2024-34).

³¹ With respect to certain costs that were “appropriately excluded,” such excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already

been otherwise reflected in the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

basis with the goals of managing cost and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the expected volume of data, the breadth of services provided and market rates for similar services. The fees for cloud hosting services during the Pre-FAM Period were paid to FCAT by CAT NMS, LLC³² and subsequently Consolidated Audit Trail, LLC (as previously noted, both entities are referred to generally as “CAT LLC”),³³ and FCAT, in turn, paid AWS. CAT LLC was funded via loan contributions by the Participants.³⁴

AWS was engaged by FCAT to provide a broad array of cloud hosting services for the CAT, including data ingestion, data management, and analytic tools. Services provided by

AWS include storage services, databases, compute services and other services (such as networking, management tools and DevOps tools). AWS also was engaged to provide various environments for CAT, such as development, performance testing, test and production environments.

The cost for AWS services for the CAT is a function of the volume of CAT Data. The greater the amount of CAT Data, the greater the cost of AWS services to the CAT. During the Pre-FAM Period from the engagement of AWS in February 2019 through June 2020, AWS provided cloud hosting services for volumes of CAT Data far in excess of the volume predictions set forth in the CAT NMS Plan. The CAT NMS Plan states, when all CAT Reporters are submitting their data to

the CAT, it “must be sized to receive[,] process and load more than 58 billion records per day,”³⁵ and that “[i]t is expected that the Central Repository will grow to more than 29 petabytes of raw, uncompressed data.”³⁶ However, the volume of CAT Data for the Pre-FAM Period was far in excess of these predicted levels. By the end of this period, data submitted to the CAT included options and equities Participant Data,³⁷ Phase 2a and Phase 2b Industry Member Data³⁸ (including certain linkages), as well as SIP Data,³⁹ reference data and other types of Other Data.⁴⁰ The following chart provides data regarding the average daily volume, cumulative total events, total compute hours and storage footprint of the CAT during the Pre-FAM Period.⁴¹

	Date range: 3/29/19 to 4/12/20 *	Date range: 4/13/20 to 6/21/20 **
Average Daily Volume in Billions:		
Participant—Equities	5	5
Participant—Options	80	981
Industry Member—Equities		3
Industry Member—Options		0.04
SIP—Options & Equities	64	70
Average Total Daily Volume	149	166
Cumulative Total Events for the Period	3,890	4,990
Total Compute Hours for the Period	*** N/A	5,663,247
Storage Footprint at End of Period (Petabytes)	30.57	47.96

* The Participant Equities in RSA format.

** Start of Industry Member reporting on 4/13/2020.

*** Note that, although there were compute hours during this period, data related to such compute hours are no longer available in current data.

(II) Technology Costs—Operating Fees

The \$21,085,485 in technology costs related to operating fees represent costs incurred with regard to activities of FCAT as the Plan Processor. Operating fees are those fees paid by CAT LLC to FCAT as the Plan Processor to operate and maintain the CAT and to perform business operations related to the system, including compliance, security, testing, training, communications with the industry (*e.g.*, management of the FINRA CAT Helpdesk, FAQs, website and webinars) and program

management as required by the CAT NMS Plan.

FCAT was selected to assume the role of the successor Plan Processor. Prior to this selection, the Participants engaged in discussions with two prior Bidders⁴² for the successor Plan Processor role. The Operating Committee formed a Selection Subcommittee in accordance with Section 4.12 of the CAT NMS Plan to evaluate and review Bids and to make a recommendation to the Operating Committee with respect to the selection of the successor Plan Processor. In an April 9, 2019 letter to the Commission, the Participants described the reasons

for its selection of the successor Plan Processor:

The Selection Subcommittee considered factors including, but not limited to, the following, in recommending FINRA to the Operating Committee as the successor Plan Processor:

a. FINRA’s specialized technical expertise and capabilities in the area of broker-dealer technology;

b. The need to appoint a successor Plan Processor with specialized expertise to develop, implement, and maintain the CAT System in accordance

³² CAT NMS, LLC was formed by FINRA and the U.S. national securities exchanges to implement the requirements of SEC Rule 613 under the Exchange Act. SEC Rule 613 required the SROs to jointly submit to the SEC the CAT NMS Plan to create, implement and maintain the CAT. The SEC approved the CAT NMS Plan on November 15, 2016. CAT NMS Plan Approval Order.

³³ On August 29, 2019, the Participants formed a new Delaware limited liability company named Consolidated Audit Trail, LLC for the purpose of conducting activities related to the CAT from and after the effectiveness of the proposed amendment

of the CAT NMS Plan to replace CAT NMS, LLC. See Securities Exchange Act Rel. No. 87149 (Sept. 27, 2019), 84 FR 52905 (Oct. 3, 2019).

³⁴ For each of the costs paid by CAT NMS, LLC and Consolidated Audit Trail, LLC as discussed throughout this filing, CAT NMS, LLC and Consolidated Audit Trail, LLC paid these costs via loan contributions by the Participants to CAT NMS, LLC and Consolidated Audit Trail, LLC, respectively.

³⁵ Appendix D–4 of the CAT NMS Plan at n.262.

³⁶ Appendix D–5 of the CAT NMS Plan.

³⁷ See Section 6.3(d) of the CAT NMS Plan.

³⁸ See Securities Exchange Rel. No. 88702 (Apr. 20, 2020), 85 FR 23075 (Apr. 24, 2020) (“Phased Reporting Exemptive Relief Order”) for a description of Phase 2a and Phase 2b Industry Member Data.

³⁹ See Section 6.5(a)(ii) of the CAT NMS Plan.

⁴⁰ See Appendix C–109 of the CAT NMS Plan.

⁴¹ Note that the volume data described in this table does not include CAIS data.

⁴² The term “Bidder” is defined in Section 1.1 of the CAT NMS Plan.

with the CAT NMS Plan and SEC Rule 613;

c. FINRA's detailed proposal in response to CATLLC's recent inquiries; and

d. FINRA's data query and analytics systems demonstration to the Participants.

Based on these and other factors, the Selection Subcommittee determined that FINRA was the most appropriate Bidder to become the successor Plan Processor.⁴³

On February 26, 2019, the Operating Committee (with FINRA recusing itself) voted to select FINRA as the successor Plan Processor pursuant to Section 6.1(t) of the CAT NMS Plan.⁴⁴ On March 29, 2019, CAT LLC and FCAT (a wholly owned subsidiary of FINRA) entered into a Plan Processor Agreement pursuant to which FCAT would perform the functions and duties of the Plan Processor contemplated by the CAT NMS Plan, including the management and operation of the CAT.

Under the Plan Processor Agreement with FCAT, CAT LLC is required to pay FCAT a negotiated monthly fixed price for the operation of the CAT. This fixed price contract was negotiated on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan and Rule 613, taking into consideration a variety of factors, including the breadth of services provided and market rates for similar types of activity. The operating fees during the Pre-FAM Period were paid to FCAT by CAT LLC.

From March 29, 2019 (the commencement of the Plan Processor Agreement with FCAT) through June 22, 2020 (the end of the Pre-FAM Period), the Plan Processor's activities with respect to the CAT included the following:

- Commenced user acceptance testing with market data provided by Exegy Incorporated ("Exegy"), a market data provider;⁴⁵
- Published Technical Specifications and related reporting scenarios documents for Phase 2a, 2b and 2c reporting for Industry Members, after substantial engagement with SEC staff, Industry Members and Participants on the Technical Specifications;
- Facilitated testing for Phase 2a and 2b reporting for Industry Members;

- Began developing Technical Specifications and related reporting scenarios documents for Phase 2d reporting for Industry Members, after substantial engagement with SEC staff, Industry Members and Participants on the Technical Specifications;
- Published Central Repository Access Technical Specifications, and provided regulator access to test data from Industry Members;
- Facilitated Participant exchanges that support options market makers sending Quote Sent Time to the CAT;
- Facilitated the introduction of OPRA and Options NBBO Other Data to CAT;
- Addressed compliance items, including drafting CAT policies and procedures, and addressing requirements under Regulation SCI;
- Provided support to the Operating Committee, the Compliance Subcommittee and CAT working groups;
- Assisted with interpretive efforts and exemptive requests regarding the CAT NMS Plan;
- Oversaw the security of the CAT;
- Monitored the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provided support to subcontractors under the Plan Processor Agreement;
- Provided support in discussions with Participants, the SEC and its staff;
- Operated the FINRA CAT Helpdesk, which is the primary source for answers to questions about CAT, including questions regarding: clock synchronization, firm reporting responsibilities, interpretive questions, technical specifications for reporting to CAT and more;
- Facilitated communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administered the CAT website and all of its content;⁴⁶ and
- Provided technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

(III) Technology Costs—CAIS Operating Fees

The \$2,072,908 in technology costs related to CAIS operating fees represent the fees paid for FCAT's subcontractor charged with the development and operation of CAT's Customer and Account Information System ("CAIS"). The CAT is required under the CAT

NMS Plan to capture and store Customer Identifying Information and Customer Account Information in a database separate from the transactional database and to create a CAT-Customer-ID for each Customer.

During the Pre-FAM Period, the CAIS-related services were provided by the Plan Processor through the Plan Processor's subcontractor, Kingland Systems Incorporated ("Kingland"). Kingland had experience operating in the securities regulatory technology space, and as a part of its proposal for acting as the Plan Processor for the CAT, FCAT selected Kingland as a subcontractor to provide certain CAIS-related services.

Under the Plan Processor Agreement with FCAT, CAT LLC was required to pay to the Plan Processor the fees incurred by FCAT for CAIS-related services provided by FCAT through Kingland on a monthly basis. FCAT negotiated the fees for Kingland's CAIS-related services on an arm's length basis with the goals of managing costs and receiving services required to comply with the CAT NMS Plan, taking into consideration a variety of factors, including the services to be provided and market rates for similar types of activity. The fees for CAIS-related services during the Pre-FAM Period were paid by CAT LLC to FCAT. FCAT, in turn, paid Kingland.

During the Pre-FAM Period, Kingland began development of the CAIS Technical Specifications and the building of CAIS. In addition, Kingland also worked on the build related to the CCID Alternative, an alternative approach to customer information that was not included in the CAT NMS Plan as originally adopted.⁴⁷ Furthermore, Kingland also worked on the acceleration of the reporting of large trader identifiers ("LTID") earlier than originally contemplated during this period, in accordance with exemptive relief granted by the SEC.⁴⁸

(IV) Technology Costs—Change Request Fees

The technology costs related to change request fees include costs related to certain modifications, upgrades or other changes to the CAT. Change requests are standard practice and necessary to reflect operational changes, including changes related to new market developments, such as new market participants. In general, if CAT LLC determines that a modification, upgrade

⁴³ Letter from Michael J. Simon, Chair, CAT NMS, LLC Operating Committee, to Brent J. Fields, Secretary, SEC (Apr. 9, 2019), <https://www.sec.gov/divisions/marketreg/rule613-info-notice-of-plan-processor-selection-040919.pdf>.

⁴⁴ *Id.*

⁴⁵ The use of Exegy to provide market data, including the costs and market data provided, is discussed below in Section 3(a)(2)(B)(a)(IX).

⁴⁶ The CAT website is <https://www.catnmsplan.com>.

⁴⁷ For a discussion of the CCID Alternative, see Securities Exchange Act Rel. No. 88393 (Mar. 17, 2020), 85 FR 16152 (Mar. 20, 2020).

⁴⁸ Phased Reporting Exemptive Relief Order at 23079–80.

or other change to the functionality or service is necessary and appropriate, CAT LLC will submit a request for such a change to the Plan Processor. The Plan Processor will then respond to the request with a proposal for implementing the change, including the cost (if any) of such a change. CAT LLC then determines whether to approve the proposed change. The change request costs were paid by CAT LLC to FCAT. During the Pre-FAM Period, CAT LLC incurred costs of \$141,346 related to change requests implemented by FCAT. Such change requests related to a development fee regarding the OPRA and SIP data feeds, and the reprocessing of certain exchange data.⁴⁹

(V) Technology Costs—Capitalized Developed Technology Costs

This category of costs includes capitalizable application development costs incurred in the development of the CAT. The capitalized developed technology costs for the Pre-FAM Period of \$51,847,150 relate to technology provided by the Initial Plan Processor and the successor Plan Processor.

Initial Plan Processor: Thesys CAT, LLC. The capitalized developed technology costs related to the Initial Plan Processor include costs incurred with regard to testing for Participant reporting, Participant reporting to the CAT, a security assessment of the CAT, and the development of the billing function for the CAT.

On January 17, 2017, the Selection Committee of the CAT NMS Plan selected the Initial Plan Processor, Thesys Technologies, LLC, for the CAT NMS Plan pursuant to Article V of the CAT NMS Plan.⁵⁰ The Participants utilized a request for proposal (“RFP”) to seek proposals to build and operate the CAT, receiving a number of proposals in response to the RFP. The Participants carefully reviewed and considered each of the proposals, including holding in-person meetings with each of the Bidders. After several rounds of review, the Participants selected the Initial Plan Processor in accordance with the CAT NMS Plan, taking into consideration that the Initial Plan Processor had experience operating in the securities regulatory technology space, among other considerations. On April 6, 2017, CAT LLC entered into an agreement with Thesys CAT LLC

(“Thesys CAT”), a Thesys affiliate, to perform the functions and duties of the Plan Processor contemplated by the CAT NMS Plan, including the management and operation of the CAT. Under the agreement, CAT LLC would pay Thesys CAT a negotiated, fixed price fee for its role as the Initial Plan Processor. Effective January 30, 2019, the Plan Processor Agreement with Thesys CAT was terminated, and FCAT was subsequently selected as the successor Plan Processor.

From January 17, 2017 through January 30, 2019, the time in which Thesys CAT was engaged for the CAT, but excluding the period from November 15, 2017 through January 30, 2019, the Initial Plan Processor engaged in various activities with respect to the CAT, including preparing iterative drafts of Participant Technical Specifications, Industry Member Technical Specifications and the Central Repository Access Technical Specifications. In addition, Thesys CAT also developed CAT technology, addressed compliance items, including drafting CAT policies and procedures, addressing Regulation SCI requirements, establishing a CAT Compliance Officer and a Chief Information Security Officer, addressed security-related matters for the CAT, and worked towards the initiation of Participant reporting per the Participant Technical Specifications.

Successor Plan Processor: FCAT. The capitalized developed technology costs related to FCAT include: (1) development costs incurred during the application development stage to meet various agreed-upon milestones regarding the CAT, including the completion of go-live functionality related to options ingestion and validation, equities regulatory services agreement query tool updates and unlinked options data query, options linkages release, Industry Member Phase 2a file submission and data integrity (including error corrections), and Industry Member testing, including reporting relationships, ATS order type management, basic reporting statistics, SFTP data integrity feedback and error correction; (2) costs related to certain modifications, upgrades, or other changes to the CAT that were not contemplated by the agreement between CAT LLC and the Plan Processor, including a one-time development fee for a secure analytics workspace, a one-time development fee for an Industry Member connectivity solution, and a one-time development fee for the acceleration of multi-factor authentication; (3) CAIS

implementation fees; and (4) license fees.

(VI) Legal Costs

The legal costs of \$19,674,463 represent the fees paid for legal services provided by two law firms, Wilmer Cutler Pickering Hale and Dorr LLP (“WilmerHale”) and Pillsbury Winthrop Shaw Pittman LLP (“Pillsbury”), during the Pre-FAM Period. The legal costs exclude those costs incurred from November 15, 2017 through November 15, 2018.

Law Firm: WilmerHale. Following the adoption of Rule 613, the Participants determined it was necessary to engage external legal counsel to advise the Participants with respect to corporate and regulatory legal matters related to the CAT, including drafting and developing the CAT NMS Plan. The Participants considered a variety of factors in their analysis of prospective law firms, including (1) the firm’s qualifications, resources and expertise; (2) the firm’s relevant experience and understanding of the regulatory matters raised by the CAT and in advising on matters of similar scope; (3) the composition of the legal team; and (4) professional fees. Following a series of interviews, the Participants acting as a consortium determined that WilmerHale was well qualified given the balance of these considerations and engaged WilmerHale in February 2013.

WilmerHale’s billing rates are negotiated on an annual basis and are determined with reference to the rates charged by other leading law firms for similar work. The Participants assess WilmerHale’s performance and review prospective budgets and staffing plans submitted by WilmerHale on an annual basis. WilmerHale’s compensation arrangements are reasonable and appropriate, and in line with the rates charged by other leading law firms for similar work.

The legal costs for WilmerHale during the Pre-FAM Period included costs incurred from 2013 until June 22, 2020 to address corporate and regulatory legal matters related to the CAT. The legal fees for this law firm during the period from February 2013 until the formation of the CAT NMS, LLC on November 15, 2016 were paid directly by the exchanges and FINRA to WilmerHale. After the formation of CAT NMS LLC, the legal fees were paid by CAT LLC to WilmerHale.

After WilmerHale was engaged in 2013 through the end of the Pre-FAM Period on June 22, 2020 (excluding the legal costs from November 15, 2017 through November 15, 2018), WilmerHale provided legal assistance to

⁴⁹ Note that CAT LLC also has incurred costs related to specific Industry Members (e.g., reprocessing costs related to Industry Member reporting errors).

⁵⁰ Letter from the Participants to Brent J. Fields, Secretary, SEC (Jan. 18, 2017), <https://www.sec.gov/divisions/marketreg/rule613-info-notice-of-plan-processor-selection.pdf>.

the CAT on a variety of matters, including with regard to the following:

- Analyzed various legal matters associated with the Selection Plan, and drafted an amendment to the Selection Plan;
- Assisted with the RFP and bidding process for the CAT Plan Processor;
- Analyzed legal matters related to the Development Advisory Group (“DAG”);
- Drafted the CAT NMS Plan, analyzed various items related to the CAT NMS Plan, and responded to comment letters on CAT NMS Plan;
- Provided legal support for the formation of the legal entity, the governance of the CAT, including governance support prior to the adoption of the CAT NMS Plan, which involved support for the full committee of exchanges and FINRA as well as subcommittees of this group (e.g., Joint Subcommittee Group, Technical, Industry Outreach, Cost and Funding and Other Products) and the DAG, governance support during the transition to the new governance structure under the CAT NMS Plan, and governance support after the adoption of the CAT NMS Plan, which involved support for the Operating Committee, Advisory Committee, Compliance Subcommittee and CAT working groups;
- Assisted with the development of the CAT funding model and drafted related amendments of the CAT NMS Plan and related filings;
- Negotiated and drafted the plan processor agreements with the Initial Plan Processor and the successor Plan Processor;
- Provided assistance with compliance with Regulation SCI;
- Assisted with clock synchronization study;
- Provided assistance with respect to the establishment of CAT security;
- Drafted exemptive requests from CAT NMS Plan requirements, including with regard to options market maker quotes, Customer IDs, CAT Reporter IDs, linking allocations to executions, CAT reporting timeline, FDIDs, customer and account information, timestamp granularity, small industry members, data facility reporting and linkage, allocation reports, SRO-assigned market participant identifiers and cancelled trade indicators, thereby seeking to implement changes that would be cost effective and benefit Industry Members and Participants;
- Assisted with the Implementation Plan required pursuant to Section 6.6(c)(i) of the CAT NMS Plan;
- Provided advice regarding CAT policies and procedures;

- Analyzed the SEC’s amendment of the CAT NMS Plan regarding financial accountability;
- Provided interpretations of and related to the CAT NMS Plan;
- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues; and
- Assisted with third-party vendor agreements.

Law Firm: Pillsbury. The legal costs for CAT during the Pre-FAM Period include costs related to the legal services performed by Pillsbury. The Participants interviewed this law firm as well as other potential law firms to provide legal assistance regarding certain liability matters. After considering a variety of factors in its analysis, including the relevant expertise and fees of the firm, CAT LLC determined to hire Pillsbury in April 2019. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees were paid by CAT LLC to Pillsbury. The legal costs for Pillsbury during the Pre-FAM Period included costs incurred from April 2019 until June 22, 2020 to address legal matters regarding the agreements between CAT Reporters and CAT LLC concerning certain terms associated with CAT Reporting (the “Reporter Agreement”). During that period, Pillsbury advised CAT LLC regarding applicable legal matters, participated in negotiations between the Participants and Industry Members, participated in meetings with senior SEC staff, the Chairman, and Commissioners, represented CAT LLC and the Participants in an SEC administrative proceeding, and drafted a proposed amendment to the CAT NMS Plan regarding liability matters. Liability issues related to the CAT are important matters that needed to be resolved and clarified. CAT LLC’s efforts to seek such resolution and clarity work to the benefit of Participants, Industry Members and other market participants. Moreover, litigation involving CAT LLC is an expense of operating the CAT, and, therefore, is appropriately an obligation of both Participants and Industry Members under the CAT Funding Model.

(VII) Consulting Costs

The consulting costs of \$17,013,414 represent the fees paid to the consulting firm Deloitte & Touche LLP (“Deloitte”) as project manager during the Pre-FAM Period, from October 2012 until June 22, 2020. These consulting costs include costs for advisory services related to the operation of the CAT, and meeting

facilitation and communications coordination, vendor support and financial analyses.

To help facilitate project management given the unprecedented complexity and scope of the CAT project, the Participants determined it was necessary to engage a consulting firm to assist with the CAT project in 2012, following the adoption of Rule 613. A variety of factors were considered in the analysis of prospective consulting firms, including (1) the firm’s qualifications, resources, and expertise; (2) the firm’s relevant experience and understanding of the regulatory issues raised by the CAT and in coordinating matters of similar scope; (3) the composition of the consulting team; and (4) professional fees. Following a series of interviews, the exchanges and FINRA as a consortium determined that Deloitte was well qualified given the balance of these considerations and engaged Deloitte on October 1, 2012.

Deloitte’s fee rates are negotiated on an annual basis and are in line with market rates for this type of specialized consulting work. CAT LLC assesses Deloitte’s performance and reviews prospective budgets and staffing plans submitted by Deloitte on an annual basis. Deloitte’s compensation arrangements are reasonable and appropriate, and in line with the rates charged by other leading consulting firms for similar work.

The consulting costs for CAT during the period from 2012 until the formation of the CAT NMS, LLC were paid directly by the Participants to Deloitte. After the formation of CAT NMS, LLC, the consulting fees were paid by CAT LLC to Deloitte. CAT LLC reviewed the consulting fees each month and approved the invoices.

After Deloitte was hired in 2012 through the end of the Pre-FAM Period on June 22, 2020 (excluding the consulting costs from November 15, 2017 through November 15, 2018), Deloitte provided a variety of consulting services, including the following:

- Established and implemented program operations for the CAT project, including the program management office and workstream design;
- Assisted with the Plan Processor selection process, including but not limited to, the development of the RFP and the bidder evaluation process, and facilitation and consolidation of the Participant’s independent reviews;
- Assisted with the development and drafting of the CAT NMS Plan, including conducting cost-benefit studies, analyzing OATS and CAT requirements, and drafting appendices to the Plan;

- Assisted with cost and funding-related activities for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;

- Provided governance support to the CAT, including governance support prior to the adoption of the CAT NMS Plan, which involved support for the full committee of exchanges and FINRA as well as subcommittees of this group (e.g., Joint Subcommittee Group, Technical, Industry Outreach, Cost and Funding and Other Products) and the DAG, governance support during the transition to the new governance structure under the CAT NMS Plan and governance support after the adoption of the CAT NMS Plan, which involved support for the Operating Committee, Advisory Committee, Compliance Subcommittee and CAT working groups;

- Provided support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;

- Assisted with industry outreach and communications regarding the CAT, including assistance with industry outreach events, the development of the CAT website, frequently asked questions, and coordinating with the CAT LLC's public relations firm;

- Provided support for updating the SEC on the progress of the development of the CAT;

- Provided active planning and coordination with and support for the Initial Plan Processor with regard to the development of the CAT, and reported to the Participants on the progress;

- Coordinated efforts regarding the selection of the successor Plan Processor;

- Assisted with the transition from the Initial Plan Processor to the successor Plan Processor, including support for the Operating Committee and successor Plan Processor for the new role; and

- Provided support for third-party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

(VIII) Insurance

The insurance costs of \$880,419 represent the cost incurred for insurance for CAT during the Pre-FAM Period. Commencing in 2020, CAT LLC performed an evaluation of various potential alternatives for CAT insurance policies, which included engaging in discussions with different insurance companies and conducting cost

comparisons of various alternative approaches to insurance. Based on an analysis of a variety of factors, including coverage and premiums, CAT LLC determined to purchase cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance from USI Insurance Services LLC ("USI"). Such policies are standard for corporate entities, and cyber security liability insurance is important for the CAT System. The annual premiums for these policies were competitive for the coverage provided. The annual premiums were paid by CAT LLC to USI.

(IX) Professional and Administration Costs

In adopting the CAT NMS Plan, the Commission amended the Plan to add a requirement that CAT LLC's financial statements be prepared in compliance with GAAP, audited by an independent public accounting firm, and made publicly available.⁵¹ The professional and administration costs include costs related to accounting and accounting advisory services to support the operating and financial functions of CAT, financial statement audit services by an independent accounting firm, preparation of tax returns, and various cash management and treasury functions. In addition, professional and administration costs for the Pre-FAM Period include costs related to the receipt of market data and a security assessment. The costs for these professional and administration services were \$1,082,036 for the Pre-FAM Period.

Financial Advisory Firm: Anchin Accountants & Advisors ("Anchin"). CAT LLC determined to hire a financial advisory firm, Anchin, to assist with financial matters for the CAT in April 2018. CAT LLC interviewed Anchin as well as other potential financial advisory firms to assist with the CAT project, considering a variety of factors in its analysis, including the firm's relevant expertise and fees. The hourly fee rates for this firm were in line with market rates for these financial advisory services. The fees for these services were paid by CAT LLC to Anchin.

After Anchin was hired in April 2018 through the end of the Pre-FAM Period on June 22, 2020 (excluding the period from April 2018 through November 15, 2018), Anchin provided a variety of services, including the following:

- Developed, updated and maintained internal controls;

- Provided cash management and treasury functions;

- Facilitated bill payments;
- Provided monthly bookkeeping;
- Reviewed vendor invoices and documentation in support of cash disbursements;

- Provided accounting research and consultations on various accounting, financial reporting and tax matters;

- Addressed not-for-profit tax and accounting considerations;

- Prepared tax returns;

- Addressed various accounting, financial and operating inquiries from Participants;

- Developed and maintained quarterly and annual operating and financial budgets, including budget to actual fluctuation analyses;

- Addressed accounting and financial reporting matters relating to the transition from CAT NMS, LLC to Consolidated Audit Trail, LLC, including supporting the dissolution of CAT NMS, LLC;

- Supported compliance with the CAT NMS Plan;

- Worked with and provided support to the Operating Committee and various CAT working groups;

- Prepared monthly, quarterly and annual financial statements;

- Supported the annual financial statement audits by an independent auditor;

- Reviewed historical costs from inception; and

- Provided accounting and financial information in support of SEC filings.

Accounting Firm: Grant Thornton LLP ("Grant Thornton"). In February 2020, CAT LLC determined to engage an independent accounting firm, Grant Thornton, to complete the audit of CAT LLC's financial statements, in accordance with the requirements of the CAT NMS Plan. CAT LLC interviewed this firm as well as another potential accounting firm to audit CAT LLC's financial statements, considering a variety of factors in its analysis, including the relevant expertise and fees of each of the firms. CAT LLC determined that Grant Thornton was well-qualified for the proposed role given the balance of these considerations. Grant Thornton's fixed fee rate compensation arrangement was reasonable and appropriate, and in line with the market rates charged for these types of accounting services. The fees for these services were paid by CAT LLC to Grant Thornton.

Market Data Provider: Exegy. The professional and administrative costs for the Pre-FAM Period included costs related to the receipt of certain market data for the CAT pursuant to an

⁵¹ Section 9.2 of the CAT NMS Plan.

agreement with the CAT LLC, and then with FCAT. Exegy provided SIP Data required by the CAT NMS Plan.

After performing an analysis of the available market data vendors to confirm that the data provided met the SIP Data requirements of the CAT NMS Plan and comparing the costs of the vendors providing the required SIP Data, CAT LLC determined to purchase market data from Exegy from July 2018 through March 2019. CAT LLC determined that, unlike certain other vendors, Exegy provided market data that included all data elements required by the CAT NMS Plan.⁵² In addition, the fees were reasonable and in line with market rates for the market data received. Accordingly, the professional and administrative costs for the Pre-FAM Period include the Exegy costs from November 2018 through March 2019. The cost of the market data was reasonable for the market data received. The fees for the market data were paid directly by CAT LLC to Exegy.

Upon the termination of the contract between CAT LLC and Exegy, FCAT entered into a contract with Exegy to purchase the required market data from Exegy in July 2019. All costs under the contract were treated as a direct pass through cost to CAT LLC. Therefore, the fees for the market data were paid by CAT LLC to FCAT, who, in turn, paid Exegy for the market data.

Security Assessment: RSM US LLP (“RSM”). The operating costs for the Pre-FAM Period include costs related to a third party security assessment of the CAT performed by RSM. The assessment was designed to verify and validate the effective design, implementation, and operation of the controls specified by NIST Special Publication 800–53, Revision 4 and related standards and guidelines. Such a security assessment is in line with industry practice and important given the data included in the CAT. CAT LLC determined to engage RSM to perform the security assessment, after considering a variety of factors in its analysis, including the firm’s relevant expertise and fees. The fees were reasonable and in line with market rates for such an assessment. RSM performed the assessment from October 2018 through December 2018. Accordingly,

the costs for the Pre-FAM Period include the costs incurred in November and December 2018. The cost for the security assessment were paid directly to RSM by CAT LLC.

(X) Public Relations Costs

The public relations costs of \$224,669 represent the fees paid to public relations firms during the Pre-FAM Period for professional communications services to CAT, including media relations consulting, strategy and execution. By engaging a public relations firm, CAT LLC was better positioned to understand and address CAT matters to the benefit of all market participants. Specifically, the public relations firms provided services related to communications with the public regarding the CAT, including monitoring developments related to the CAT (e.g., congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating communications to the public regarding such developments as well as reporting on developments related to the CAT (e.g., amendments to the CAT NMS Plan). Public relations services were important for various reasons, including monitoring comments made by market participants about CAT and understanding issues related to the CAT discussed on the public record.

The services performed by each of the public relations firms were comparable. The fees for such services were reasonable and in line with market rates. Only one public relations firm was engaged at a time; the three firms were engaged sequentially as the primary public relations contact moved among the three firms during this time period.

Public Relations Firm: Peppercomm, Inc. (“Peppercomm”). The national securities exchanges and FINRA, acting as a consortium, determined to hire the public relations firm Peppercomm in October 2014 and continued to engage this firm through September 2017. The exchanges and FINRA made this engagement decision after considering a variety of factors in its analysis, including the firm’s relevant expertise and fees. The fee rates for this public

relations firm were negotiated on an arm’s length basis and were in line with market rates for these types of services. The public relations costs during the period from October 2014 until the formation of the CAT NMS, LLC were paid directly by the exchanges and FINRA to the public relations firm. After the formation of CAT NMS, LLC, the consulting fees were paid by CAT LLC.

Public Relations Firm: Sloane & Company (“Sloane”). CAT LLC determined to hire a new public relations firm, Sloane, in March 2018, based on, among other things, their expertise and the primary contact’s history with the project. The fee rates for this public relations firm were in line with market rates for these types of services. The fees during the Pre-FAM Period were paid by CAT LLC to Sloane. CAT LLC continued the engagement with Sloane until February 2020.

Public Relations Firm: Peak Strategies. CAT LLC determined to hire a new public relations firm, Peak Strategies, in March 2020, based on, among other things, their expertise and the primary contact’s history with the project. The fee rates for this public relations firm were in line with market rates for these types of services. The fees during the Pre-FAM Period were paid by CAT LLC to Peak Strategies.

(b) Historical CAT Costs Incurred in Financial Accountability Milestone Period 1

Historical CAT Costs 1 would include costs incurred by CAT and already funded by the Participants during Period 1 of the Financial Accountability Milestones (“FAM Period 1”),⁵³ which covers the period from June 22, 2020—July 31, 2020. Historical CAT Costs 1 would include costs for FAM Period 1 of \$6,377,343. The Participants would remain responsible for one-third of this cost (which they have previously paid) (\$2,125,781), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$2,125,781) and CEBBs paying one-third (\$2,125,781). The following table breaks down Historical CAT Costs 1 for FAM Period 1 into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

Operating expense	Historical CAT costs for FAM period 1 **
Capitalized Developed Technology Costs *	\$1,684,870
Technology Costs	3,996,800
Cloud Hosting Services	2,642,122
Operating Fees	1,099,680

⁵² See Section 6.5(a)(ii) of the CAT NMS Plan.

⁵³ Section 11.6(a)(i)(A) of the CAT NMS Plan.

Operating expense	Historical CAT costs for FAM period 1 **
CAIS Operating Fees	254,998
Change Request Fees	
Legal	481,687
Consulting	137,209
Insurance	
Professional and administration	69,077
Public relations	7,700
Total Operating Expenses	6,377,343

* The non-cash amortization of these capitalized developed technology costs of \$362,121 incurred during FAM Period 1 have been appropriately excluded from the above table.⁵⁴

** The costs described in this table of costs for FAM Period 1 were calculated based upon CAT LLC's review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website.

By the completion of FAM Period 1, CAT LLC was required to implement the reporting by Industry Members (excluding Small Industry Members that are not OATS reporters) of equities transaction data and options transaction data, excluding Customer Account Information, Customer-ID and Customer Identifying Information.⁵⁵ CAT LLC completed the requirements of FAM Period 1 by July 31, 2020. The following describes the costs for each of the categories for FAM Period 1.

(I) Technology Costs—Cloud Hosting Services

CAT LLC continued to utilize AWS in FAM Period 1 to provide a broad array of cloud hosting services for the CAT, including data ingestion, data management, and analytic tools. AWS

continued to provide storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as well as various environments for CAT, such as development, performance testing, test, and production environments, during the FAM 1 Period. Accordingly, the \$2,642,122 in technology costs for cloud hosting services represent costs incurred for services provided by AWS, as the cloud services provider, during FAM Period 1. The fee arrangement for AWS described above with regard to the Pre-FAM Period continued in place during FAM Period 1 pursuant to the Plan Processor Agreement. Moreover, CAT LLC continued to believe that AWS's maturity in the cloud services space as well as the significant cost and time

necessary to move the CAT to a different cloud services provider supported the continued engagement of AWS.

The cost for AWS cloud services for the CAT continued to be a function of the volume of CAT Data. During the FAM 1 Period, the volume of CAT Data continued to far exceed the original predictions for the CAT as set forth in the CAT NMS Plan. During this period, data submitted to the CAT included options and equities Participant Data, Phase 2a and Phase 2b Industry Member Data (including certain linkages) as well as SIP Data, reference data and other types of Other Data. The following chart provides data regarding the average daily volume, cumulative total events, total compute hours and storage footprint of the CAT during FAM Period 1.⁵⁶

	Date Range: 6/22/20–7/31/20
Average Daily Volume in Billions:	
Participant—Equities	6
Participant—Options	103
Industry Member—Equities	7
Industry Member—Options	0.31
SIP—Options & Equities	74
Average Total Daily Volume	185
Cumulative Total Events for the Period	5,190
Total Compute Hours for the Period	2,612,082
Storage Footprint at End of Period (Petabytes)	57.47

(II) Technology Costs—Operating Fees

Pursuant to the Plan Processor Agreement discussed above, FCAT continued in its role as the Plan Processor for the CAT during FAM Period 1. Accordingly, the \$1,099,680 in technology costs for operating fees represent costs incurred for the services

provided by FCAT under the Plan Processor Agreement during FAM Period 1. The fee arrangement for FCAT described above with regard to the Pre-FAM Period continued in place during FAM Period 1 pursuant to the Plan Processor Agreement. During FAM Period 1, FCAT's activities with respect to the CAT included the following:

- Published iterative drafts of draft Technical Specifications for Phase 2d, after substantial engagement with SEC staff, Industry Members and Participants on the Technical Specifications;
- Published iterative drafts of CAIS Technical Specifications, after substantial engagement with SEC staff,

⁵⁴ As discussed above, with respect to certain costs that were "appropriately excluded," such excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As

such costs have already been otherwise reflected in the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

⁵⁵ See definition of "Initial Industry Member Core Equity and Options Reporting" in Section 1.1 of the CAT NMS Plan.

⁵⁶ Note that the volume data described in this table does not include CAIS data.

Industry Members and Participants on the Technical Specifications;

- Facilitated Industry Member reporting of Quote Sent Time on Options Market Maker quotes;
- Addressed compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provided support to the Operating Committee, the Compliance Subcommittee and CAT working groups;

- Assisted with interpretive efforts and exemptive requests regarding the CAT NMS Plan;

- Oversaw the security of the CAT;
- Monitored the operation of the CAT, including with regard to Participant and Industry Member reporting;

- Provided support to subcontractors under the Plan Processor Agreement;
- Provided support in discussions with Participants and the SEC and its staff;
- Operated the FINRA CAT Helpdesk;
- Facilitated communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;

- Administered the CAT website and all of its content; and
- Provided technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

(III) Technology Costs—CAIS Operating Fees

Pursuant to the Plan Processor Agreement discussed above, Kingland continued in its role as a subcontractor for the development and implementation of CAIS during FAM Period 1. Accordingly, the \$254,998 in technology costs for CAIS operating fees represent costs incurred for services provided by Kingland during FAM Period 1. The fee arrangement for Kingland described above with regard to the Pre-FAM Period continued in place during FAM Period 1 pursuant to the Plan Processor Agreement. During FAM Period 1, Kingland continued the development of the CAIS Technical Specifications and building of CAIS. In addition, Kingland continued to work on the CAIS Technical Specifications and build related to CCID Alternative, as well as the acceleration of the reporting of LTIDs.

(IV) Technology Costs—Change Request Fees

CAT LLC did not incur costs related to change requests during FAM Period 1.

(V) Technology Costs—Capitalized Developed Technology Costs

Capitalized developed technology costs for FAM Period 1 of \$1,684,870 include capitalizable application development costs incurred in the development of the CAT by FCAT. Such costs include: (1) costs related to certain modifications, upgrades, or other changes to the CAT that were not contemplated by the agreement between CAT LLC and the Plan Processor, including separate production and industry test entitlements, and reprocessing of exchange event timestamps; (2) implementation fees; and (3) license fees.

(VI) Legal Costs

The legal costs of \$481,687 represent the fees paid for legal services provided by two law firms, WilmerHale and Pillsbury during FAM Period 1.

Law Firm: WilmerHale. CAT LLC continued to employ WilmerHale during FAM Period 1 based on, among other things, their expertise and long history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 1 were paid by CAT LLC to WilmerHale. During FAM Period 1, WilmerHale provided legal assistance to the CAT including with regard to the following:

- Assisted with the development of the CAT funding model and drafted related amendments and fee filings;
- Drafted exemptive requests from CAT NMS Plan requirements regarding, for example, verbal activity, options market maker quote sent time, TRF linkages, and allocations;
- Provided interpretations related to CAT NMS Plan requirements, including the Financial Accountability Milestone amendment;
- Assisted with compliance with Regulation SCI;
- Provided support for the Operating Committee, Compliance Subcommittee, working groups and Leadership Team, including with regard to meetings with the SEC staff;
- Assisted with the drafting of the Implementation Plan required pursuant to Section 6.6(c)(i) of the CAT NMS Plan;
- Assisted with communications and presentations for the industry regarding CAIS;
- Drafted SRO rule filings related to the CAT Compliance Rule;
- Provided support for Compliance Subcommittee, including with regard to responses to OCIE examinations and the annual assessment;

- Provided guidance regarding CAT technical specifications;

- Assisted with third-party vendor agreements; and

- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues.

Law Firm: Pillsbury. CAT LLC continued to employ Pillsbury during FAM Period 1 based on, among other things, their expertise and history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 1 were paid by CAT LLC to Pillsbury. During FAM Period 1, Pillsbury provided legal assistance to the CAT regarding the CAT Reporter Agreement. During that period, Pillsbury advised CAT LLC regarding applicable legal matters and drafted a proposed amendment to the CAT NMS Plan regarding liability matters. Liability issues related to the CAT are important matters that needed to be resolved and clarified. CAT LLC's efforts to seek such resolution and clarity work to the benefit of Participants, Industry Members and other market participants.

(VII) Consulting Costs

The consulting costs of \$137,209 represent the fees paid to Deloitte as project manager during FAM Period 1. CAT LLC continued to employ Deloitte during FAM Period 1 based on, among other things, their expertise and cumulative experience with the CAT. The fee rates for Deloitte during FAM Period 1 were negotiated and in line with market rates for this type of specialized consulting work. The consulting fees during FAM Period 1 were paid by CAT LLC to the consulting firm. CAT LLC reviewed the consulting fees each month and approved the invoices. During FAM Period 1, Deloitte's CAT-related activities included the following:

- Implemented program operations for the CAT project;
- Provided support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;
- Assisted with cost and funding matters for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;
- Provided support for updating the SEC on the progress of the development of the CAT;

- Assisted with the transition from the Initial Plan Processor to the successor Plan Processor; and
- Provided support for third-party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

(VIII) Insurance

Although insurance was in effect during FAM Period 1, CAT LLC did not incur costs related to insurance during FAM Period 1.

(IX) Professional and Administration Costs

Financial Advisory Firm: Anchin. The professional and administration costs of \$69,077 represent the fees paid to Anchin during FAM Period 1. CAT LLC continued to employ Anchin during FAM Period 1 based on, among other things, their expertise and history with the project. The hourly fee rates for this firm were in line with market rates for these type of financial advisory services. The fees for these services during FAM Period 1 were paid by CAT LLC to Anchin. During FAM Period 1, Anchin provided a variety of services, including the following:

- Maintained internal controls;
- Provided cash management and treasury functions;
- Facilitated bill payments;
- Provided monthly bookkeeping;
- Reviewed vendor invoices and documentation in support of cash disbursements;
- Provided accounting research and consultations on various accounting, financial reporting and tax matters;

- Addressed various accounting, financial reporting and operating inquiries from Participants;
- Developed and maintained quarterly and annual operating and financial budgets, including budget to actual fluctuation analyses;
- Supported compliance with the CAT NMS Plan;
- Worked with and provided support to the Operating Committee and various CAT working groups; and
- Prepared monthly and quarterly financial statements.

(X) Public Relations Costs

The public relations costs of \$7,700 represent the fees paid to Peak Strategies during FAM Period 1. CAT LLC continued to employ Peak Strategies during FAM Period 1 based on, among other things, their expertise and history with the project. The fee rates for this firm were reasonable and in line with market rates for these types of services. The fees for these services during FAM Period 1 were paid by CAT LLC to Peak Strategies. During FAM Period 1, Peak Strategies continued to provide professional communications services to CAT LLC, including media relations consulting, strategy and execution. Specifically, the public relations firm provided services related to communications with the public regarding the CAT, including monitoring developments related to the CAT (*e.g.*, congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating

communications to the public regarding such developments as well as reporting on developments related to the CAT (*e.g.*, amendments to the CAT NMS Plan). As discussed above, such public relations services were important for various reasons, including monitoring comments made by market participants about the CAT and understanding issues related to the CAT discussed on the public record. By engaging a public relations firm, CAT LLC was better positioned to understand and address CAT matters to the benefit of all market participants.

(c) Historical CAT Costs Incurred in Financial Accountability Milestone Period 2

Historical CAT Costs 1 would include costs incurred by CAT LLC and already funded by Participants during Period 2 of the Financial Accountability Milestones ("FAM Period 2"),⁵⁷ which covers the period from August 1, 2020—December 31, 2020. Historical CAT Costs 1 would include costs for FAM Period 2 of \$42,976,478. The Participants would remain responsible for one-third of this cost (which they have previously paid) (\$14,325,493), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$14,325,493) and CEBBs paying one-third (\$14,325,493). The following table breaks down Historical CAT Costs 1 for FAM Period 2 into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

Operating expense	Historical CAT costs for FAM Period 2 **
Capitalized Developed Technology Costs *	\$6,761,094
<i>Technology Costs</i>	\$31,460,033
Cloud Hosting Services	\$20,709,212
Operating Fees	\$9,108,700
CAIS Operating Fees	\$1,590,298
Change Request Fees	\$51,823
Legal	\$2,766,644
Consulting	\$532,146
Insurance	\$976,098
Professional and administration	\$438,523
Public relations	\$41,940
Total Operating Expenses	\$42,976,478

* The non-cash amortization of these capitalized developed technology costs of \$1,892,505 incurred during FAM Period 2 have been appropriately excluded from the above table.⁵⁸

** The costs described in this table of costs for FAM Period 2 were calculated based upon CAT LLC's review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website.

⁵⁷ Section 11.6(a)(i)(B) of the CAT NMS Plan.

⁵⁸ As discussed above, with respect to certain costs that were "appropriately excluded," such

excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already been otherwise reflected in

the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

By the completion of FAM Period 2, CAT LLC was required to implement the following with regard to the CAT:

(a) Industry Member reporting (excluding reporting by Small Industry Members that are not OATS reporters) for equities transactions, excluding Customer Account Information, CustomerID, and Customer Identifying Information, is developed, tested, and implemented at a 5% Error Rate or less and with sufficient intra-firm linkage, inter-firm linkage, national securities exchange linkage, and trade reporting facilities linkage to permit the Participants and the Commission to analyze the full lifecycle of an order across the national market system, excluding linkage of representative orders, from order origination through order execution or order cancellation; and (b) the query tool functionality required by Section 6.10(c)(i)(A) and Appendix D, Sections 8.1.1–8.1.3 and Section 8.2.1 incorporates the Industry Member equities transaction data

described in condition (a) and is available to the Participants and to the Commission.⁵⁹

CAT LLC completed the requirements of FAM Period 2 by December 31, 2020. The following describes the costs for each of the categories for FAM Period 2.

(I) Technology Costs—Cloud Hosting Services

CAT LLC continued to utilize AWS in FAM Period 2 to provide a broad array of cloud hosting services for the CAT, including data ingestion, data management, and analytic tools. AWS continued to provide storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as well as various environments for CAT, such as development, performance testing, test, and production environments, during the FAM 2 Period. Accordingly, the \$20,709,212 in technology costs for cloud hosting services represent costs incurred for services provided by AWS, as the cloud

services provider, during FAM Period 2. The fee arrangement for AWS described above with regard to the Pre-FAM Period and FAM Period 1 continued in place during FAM Period 2 pursuant to the Plan Processor Agreement.

The cost for AWS cloud services for the CAT continued to be a function of the volume of CAT Data. During the FAM 2 Period, the volume of CAT Data continued to far exceed the original predictions for the CAT as set forth in the CAT NMS Plan. During this period, data submitted to the CAT included options and equities Participant Data, Phase 2a and Phase 2b Industry Member Data (including certain linkages) as well as SIP Data, and Other Data, including reference data. In addition, Industry Members began reporting LTID account information. The following chart provides data regarding the average daily volume, cumulative total events, total compute hours and storage footprint of the CAT during FAM Period 2.⁶⁰

	Date range: 8/1/20–12/31/20
Average Daily Volume in Billions:	
Participant—Equities	6
Participant—Options	116
Industry Member—Equities	11
Industry Member—Options	0.98
SIP—Options & Equities	80
Average Total Daily Volume	282
Cumulative Total Events for the Period	2,170
Total Compute Hours for the Period	15,660,392
Storage Footprint at End of Period (Petabytes)	114.59

(II) Technology Costs—Operating Fees

Pursuant to the Plan Processor Agreement discussed above, FCAT continued in its role as the Plan Processor for the CAT during FAM Period 2. Accordingly, the \$9,108,700 in technology costs for operating fees represent costs incurred for the services provided by FCAT under the Plan Processor Agreement during FAM Period 2. The fee arrangement for FCAT described above with regard to the Pre-FAM Period and FAM Period 1 continued in place during FAM Period 2 pursuant to the Plan Processor Agreement. During FAM Period 2, FCAT's activities with respect to the CAT included publishing the Technical Specifications for Phase 2d and overseeing the reporting of firm to firm and intrafirm linkages by Industry

Members. In addition, FCAT also continued to engage in the following activities during FAM Period 2:

- Addressed compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provided support to the Operating Committee, Compliance Subcommittee and CAT working groups;
- Assisted with interpretive efforts and exemptive requests regarding the CAT NMS Plan;
- Oversaw the development and implementation of the security of the CAT;
- Monitored the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provided support to subcontractors under the Plan Processor Agreement;

- Provided support in discussions with the Participants and the SEC and its staff;
- Operated the FINRA CAT Helpdesk;
- Facilitated communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administered the CAT website and all of its content; and
- Provided technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

(III) Technology Costs—CAIS Operating Fees

Pursuant to the Plan Processor Agreement discussed above, Kingland continued in its role as a subcontractor for the development and

⁵⁹ See definition of “Full Implementation of Core Equity Reporting Requirements” in Section 1.1 of the CAT NMS Plan.

⁶⁰ Note that the volume data described in this table does not include CAIS data.

implementation of CAIS during FAM Period 2. Accordingly, the \$1,590,298 in technology costs for CAIS operating fees represent costs incurred for services provided by Kingland during FAM Period 2. The fee arrangement for Kingland described above with regard to the Pre-FAM Period and FAM Period 1 continued in place during FAM Period 2 pursuant to the Plan Processor Agreement. During FAM Period 2, Kingland continued the development of the CAIS Technical Specifications and building of CAIS. In addition, Kingland continued to work on the CAIS Technical Specifications and build related to the CCID Alternative, as well as the acceleration of the reporting of LTIDs.

(IV) Technology Costs—Change Request Fees

During FAM Period 2, CAT LLC engaged FCAT to pursue certain change requests in accordance with the Plan Processor Agreement. The change request costs were paid by CAT LLC to FCAT. Specifically, during FAM Period 2, CAT incurred costs of \$51,823 related to a change request regarding the addition of functionality for exchange Participants to report rejected messages to the CAT.

(V) Technology Costs—Capitalized Developed Technology Costs

Capitalized developed technology costs for FAM Period 2 of \$6,761,094 include capitalizable application development costs incurred in the development of the CAT by FCAT. Such costs include (1) development costs incurred during the application development stage to meet various agreed-upon milestones regarding the CAT, as defined in the agreement between CAT LLC and the Plan Processor; (2) costs related to certain modifications, upgrades, or other changes to the CAT that were not contemplated by the agreement between CAT LLC and the Plan Processor, including costs related to separate production and industry test entitlements, market maker reference data, and back-processing of exchange exception logic; (3) implementation fees; and (4) license fees.

(VI) Legal Costs

The legal costs of \$2,766,644 represent the fees paid for legal services provided by two law firms, WilmerHale and Pillsbury during FAM Period 2.

Law Firm: WilmerHale. CAT LLC continued to employ WilmerHale during FAM Period 2 based on, among other things, their expertise and long history with the project. The hourly fee

rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 2 were paid by CAT LLC to WilmerHale. During FAM Period 2, the legal assistance provided by WilmerHale included providing legal advice regarding the following:

- Assisted with the development of the CAT funding model and drafting related amendments and rule filings;
- Drafted exemptive requests from CAT NMS Plan requirements regarding, for example, allocations, exchange activity, OTQT, initial data validation, error corrections and recordkeeping;
- Provided interpretations related to CAT NMS Plan requirements, including with regard to the Financial Accountability Milestone amendment, FAQs and technical specifications;
- Provided support for the Operating Committee, Compliance Subcommittees, working groups and Leadership Team, including with regard to meetings with the SEC staff;
- Assisted with the Implementation Plan and Quarterly Progress Reports required pursuant to Section 6.6 of the CAT NMS Plan;
- Drafted SRO rule filings related to the CAT Compliance Rule;
- Provided support for the Compliance Subcommittee, including with regard to responses to OCIE examinations and the annual assessment;
- Provided guidance regarding the SEC's proposed security amendments to the CAT NMS Plan;
- Provided guidance regarding SRO rule filings for the retirement of systems;
- Provided legal support for Operating Committee meetings, including drafting resolutions and other materials and voting advice;
- Assisted with third-party vendor agreements (e.g., with regard to Anchin, Grant Thornton and insurance policies);
- Assisted with change requests; and
- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues.

Law Firm: Pillsbury. CAT LLC continued to employ Pillsbury during FAM Period 2 based on, among other things, their expertise and history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 2 were paid by CAT LLC to Pillsbury. During FAM Period 2, Pillsbury provided legal assistance to the CAT regarding the CAT Reporter Agreement. During that period, Pillsbury advised CAT LLC regarding applicable legal matters and drafted and filed a proposed amendment to the CAT

NMS Plan regarding liability matters. As discussed above, liability issues related to the CAT are important matters that needed to be resolved and clarified. CAT LLC's efforts to seek such resolution and clarity work to the benefit of Participants, Industry Members and other market participants.

(VII) Consulting Costs

The consulting costs of \$532,146 represent the fees paid to Deloitte as project manager during FAM Period 2. CAT LLC continued to employ Deloitte during FAM Period 2 based on, among other things, their expertise and long history with the project. The fee rates for Deloitte during FAM Period 2 were negotiated and in line with market rates for this type of specialized consulting work. The consulting fees during FAM Period 2 were paid to Deloitte by CAT LLC. CAT LLC reviewed the consulting fees each month and approved the invoices. During FAM Period 2, Deloitte's CAT-related activities included the following:

- Implemented program operations for the CAT project;
- Provided support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;
- Assisted with cost and funding matters for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;
- Provided support for updating the SEC on the progress of the development of the CAT; and
- Provided support for third-party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

(VIII) Insurance

The insurance costs of \$976,098 represent the fees paid for insurance during FAM Period 2. CAT LLC continued to maintain cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance offered by USI. After engaging in a process for renewing the coverage, CAT LLC determined to purchase these insurance policies from USI. The annual premiums for these policies were competitive for the coverage provided. The annual premiums were paid by CAT LLC to USI.

(IX) Professional and Administration Costs

The professional and administration costs of \$438,523 represent the fees paid to Anchin and Grant Thornton for financial services provided during FAM Period 2.

Financial Advisory Firm: Anchin.

CAT LLC continued to engage Anchin during FAM Period 2 based on, among other things, their expertise and history with the project. The hourly fee rates for this firm were in line with market rates for these types of financial advisory services. The fees for these services during FAM Period 2 were paid by CAT LLC to Anchin. During FAM Period 2, Anchin provided a variety of services, including the following:

- Updated and maintained internal controls;
- Provided cash management and treasury functions;
- Facilitated bill payments;
- Provided monthly bookkeeping;
- Reviewed vendor invoices and documentation in support of cash disbursements;
- Provided accounting research and consultations on various accounting, financial reporting and tax matters;
- Addressed not-for-profit tax and accounting considerations;
- Prepared tax returns;
- Addressed various accounting, financial reporting and operating inquiries from the Participants;
- Developed and maintained quarterly and annual operating and financial budgets, including budget to actual fluctuation analyses;
- Supported compliance with the CAT NMS Plan;
- Worked with and provided support to the Operating Committee and various CAT working groups;

- Prepared monthly, quarterly and annual financial statements;
- Supported the annual financial statement audit by an independent auditor; and
- Reviewed historical costs from inception.

Accounting Firm: Grant Thornton.

CAT LLC continued to employ the accounting firm Grant Thornton during FAM Period 2 based on, among other things, its expertise and cumulative knowledge of CAT LLC. CAT LLC continued to believe that Grant Thornton was well qualified for its role and its fee rates were in line with market rates for these accounting services. The fees for these services during FAM Period 2 were paid by CAT LLC to Grant Thornton. During FAM Period 2, Grant Thornton performed a financial statement audit for CAT LLC as an independent accounting firm.

(X) Public Relations Costs

The public relations costs of \$41,940 represent the fees paid to Peak Strategies during FAM Period 2. CAT LLC continued to employ Peak Strategies during FAM Period 2 based on, among other things, their expertise and history with the project. The fee rates for this firm were in line with market rates for these types of services. The fees for these services during FAM Period 2 were paid by CAT LLC to Peak Strategies. During FAM Period 2, Peak Strategies continued to provide professional communications services to CAT, including media relations consulting, strategy and execution. Specifically, the public relations firm provided services related to communications with the public regarding the CAT, including monitoring developments related to the

CAT (e.g., congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating communications to the public regarding such developments as well as reporting on developments related to the CAT (e.g., amendments to the CAT NMS Plan). As discussed above, such public relations services were important for various reasons, including monitoring comments made by market participants about the CAT and understanding issues related to the CAT discussed on the public record. By engaging a public relations firm, CAT LLC was better positioned to understand and address CAT matters to the benefit of all market participants.

(d) Historical CAT Costs Incurred in Financial Accountability Milestone Period 3

Historical CAT Costs 1 would include costs incurred by CAT and already funded by the Participants during Period 3 of the Financial Accountability Milestones ("FAM Period 3"),⁶¹ which covers the period from January 1, 2021—December 31, 2021. Historical CAT Costs 1 would include costs for FAM Period 3 of \$144,415,268. The Participants would remain responsible for one-third of this cost (which they have previously paid) (\$48,138,423), and Industry Members would be responsible for the remaining two-thirds, with CEBBs paying one-third (\$48,138,423) and CEBBs paying one-third (\$48,138,423). The following table breaks down Historical CAT Costs 1 for FAM Period 3 into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

Operating expense	Historical CAT costs for FAM period 3**
Capitalized Developed Technology Costs *	\$10,763,372
Technology Costs	123,639,402
Cloud Hosting Services	94,574,759
Operating Fees	23,106,091
CAIS Operating Fees	5,562,383
Change Request Fees	396,169
Legal	6,333,248
Consulting	1,408,209
Insurance	1,582,714
Professional and administration	595,923
Public relations	92,400
Total Operating Expenses	144,415,268

* The non-cash amortization of these capitalized developed technology costs of \$5,108,044 incurred during FAM Period 3 have been appropriately excluded from the above table.⁶²

** The costs described in this table of costs for FAM Period 3 were calculated based upon CAT LLC's review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website.

⁶¹ Section 11.6(a)(i)(C) of the CAT NMS Plan.

⁶² As discussed above, with respect to certain costs that were "appropriately excluded," such

excluded costs relate to the amortization of capitalized technology costs, which are amortized over the life of the Plan Processor Agreement. As such costs have already been otherwise reflected in

the filing, their inclusion would double count the capitalized technology costs. In addition, amortization is a non-cash expense.

By the completion of FAM Period 3, CAT LLC was required to implement the following requirements with regard to the CAT:

(a) reporting to the Order Audit Trail System (“OATS”) is no longer required for new orders; (b) Industry Member reporting for equities transactions and simple electronic options transactions, excluding Customer Account Information, Customer-ID, and Customer Identifying Information, with sufficient intra-firm linkage, inter-firm linkage, national securities exchange linkage, trade reporting facilities linkage, and representative order linkages (including any equities allocation information provided in an Allocation Report) to permit the Participants and the Commission to analyze the full lifecycle of an order across the national market system, from order origination through order execution or order cancellation, is developed, tested, and implemented at a 5% Error Rate or less; (c) Industry Member reporting for manual options transactions and complex options transactions, excluding Customer Account Information, Customer-ID, and Customer Identifying Information, with all required linkages to permit the

Participants and the Commission to analyze the full lifecycle of an order across the national market system, from order origination through order execution or order cancellation, including any options allocation information provided in an Allocation Report, is developed, tested, and fully implemented; (d) the query tool functionality required by Section 6.10(c)(i)(A) and Appendix D, Sections 8.1.1–8.1.3, Section 8.2.1, and Section 8.5 incorporates the data described in conditions (b)–(c) and is available to the Participants and to the Commission; and (e) the requirements of Section 6.10(a) are met.⁶³

CAT LLC completed the requirements of FAM Period 3 by December 31, 2021. The following describes the costs for each of the categories for FAM Period 3.

(I) Technology Costs—Cloud Hosting Services

CAT LLC continued to utilize AWS in FAM Period 3 to provide a broad array of cloud hosting services for the CAT, including data ingestion, data management, and analytic tools. AWS continued to provide storage services, databases, compute services and other services (such as networking, management tools and DevOps tools), as

well as various environments for CAT, such as development, performance testing, test, and production environments, during the FAM 3 Period. Accordingly, the \$94,574,759 in technology costs for cloud hosting services represents costs incurred for services provided by AWS, as the cloud services provider, during FAM Period 3. The fee arrangement for AWS described above for the earlier periods continued in place during FAM Period 3 pursuant to the Plan Processor Agreement.

The cost for AWS cloud services for the CAT continued to be a function of the volume of CAT Data. During FAM Period 3, the volume of CAT Data continued to far exceed the original predictions for the CAT as set forth in the CAT NMS Plan. During this period, data submitted to the CAT included options and equities Participant Data, Phase 2a, Phase 2b, Phase 2c and Phase 2d Industry Member Data (including certain linkages), SIP Data, Other Data, including reference data, and LTID account information. The following chart provides data regarding the average daily volume, cumulative total events, total compute hours and storage footprint of the CAT during FAM Period 3.⁶⁴

	Date range: 1/1/21 to 4/25/21	Date range: 4/26/21 to 12/31/21 *
Average Daily Volume in Billions:		
Participant—Equities	9	9
Participant—Options	135	136
Industry Member—Equities	20	19
Industry Member—Options	2	2
SIP—Options & Equities	129	137
Average Total Daily Volume	297	304
Cumulative Total Events for the Period	7,480	5,310
Total Compute Hours for the Period	15,860,304	33,487,318
Storage Footprint at End of Period (Petabytes)	180.22	284.62

* Start of Participant Equities in CAT format and SIP Equities on 4/26/21.

(II) Technology Costs—Operating Fees

Pursuant to the Plan Processor Agreement discussed above, FCAT continued in its role as the Plan Processor for the CAT during FAM Period 3. Accordingly, the \$23,106,091 in technology costs for operating fees represent costs incurred for the services provided by FCAT under the Plan Processor Agreement during FAM Period 3. The fee arrangement for FCAT described above with regard to the prior Periods continued in place during FAM Period 3 pursuant to the Plan Processor

Agreement. During FAM Period 3, FCAT’s activities with respect to the CAT included the following:

- Facilitated Phase 2c and Phase 2d testing for Industry Members;
- Oversaw creation of linkages of the lifecycle of order events based on the received data through Phase 2d;
- Addressed compliance items, including drafting CAT policies and procedures, and addressing Regulation SCI requirements;
- Provided support to the Operating Committee, the Compliance

Subcommittee and CAT working groups;

- Assisted with interpretive efforts and exemptive requests regarding the CAT NMS Plan;
- Oversaw the security of the CAT;
- Monitored the operation of the CAT, including with regard to Participant and Industry Member reporting;
- Provided support to subcontractors under the Plan Processor Agreement;
- Provided support in discussions with the Participants and the SEC and its staff;

⁶³ See definition of “Full Availability and Regulatory Utilization of Transactional Database Functionality” in Section 1.1 of the CAT NMS Plan.

⁶⁴ Note that the volume data described in this table does not include CAIS data.

- Operated the FINRA CAT Helpdesk;
- Facilitated communications with the industry, including via FAQs, CAT Alerts, meetings, presentations and webinars;
- Administered the CAT website and all of its content; and
- Provided technical support and assistance with connectivity, data access, and user support, including the use of CAT Data and query tools, for Participants and the SEC staff.

(III) Technology Costs—CAIS Operating Fees

Pursuant to the Plan Processor Agreement with FCAT discussed above, Kingland continued in its role as a subcontractor for the development and implementation of CAIS during FAM Period 3. Accordingly, the \$5,562,383 in technology costs for CAIS operating fees represents costs incurred for services provided by Kingland during FAM Period 3. The fee arrangement for Kingland described above with regard to the prior Periods continued in place during FAM Period 3 pursuant to the Plan Processor Agreement. During FAM Period 3, Kingland continued the development of the CAIS Technical Specifications and building of CAIS. In addition, Kingland continued to work on the CAIS Technical Specifications and build related to the CCID Alternative, as well as the acceleration of the reporting of LTIDs. The full CAIS Technical Specifications were published during FAM Period 3.

(IV) Technology Costs—Change Request Fees

During FAM Period 3, CAT LLC engaged FCAT to pursue certain change requests in accordance with the Plan Processor Agreement. The change request costs were paid by CAT LLC to FCAT. Specifically, during FAM Period 3, CAT incurred costs of \$396,169 related to change requests, including the following: (1) the addition of functionality for exchange Participants to report rejected messages to the CAT; (2) the migration of MIRS query engine to AWS to reduce operational costs and increase resiliency; and (3) updating the Participant Technical Specifications to allow for two-sided Participant option quote reporting.

(V) Technology Costs—Capitalized Developed Technology Costs

Capitalized developed technology costs for FAM Period 3 of \$10,763,372 include capitalizable application development costs incurred in the development of the CAT by FCAT. Such costs include (1) development costs incurred during the application

development stage to meet various agreed-upon milestones regarding the CAT, as defined in the agreement between CAT LLC and the Plan Processor, including the transition from equity data received by FINRA pursuant to various regulatory services agreements between FINRA and Participant exchanges to the equity CAT Data, and the completion of the Industry Member Phase 2d options manual and complex orders go-live requirements; (2) costs related to certain modifications, upgrades, or other changes to the CAT that were not contemplated by the agreement between CAT LLC and the Plan Processor, including costs related to off-exchange volume concentration, Participant 24-hour trading and an external metastore; (3) implementation fees; and (4) license fees.

(VI) Legal Costs

The legal costs of \$6,333,248 represent the fees paid for legal services provided by three law firms, WilmerHale, Pillsbury and Covington & Burling LLP (“Covington”) during FAM Period 3.

Law Firm: WilmerHale. CAT LLC continued to employ WilmerHale during FAM Period 3 based on, among other things, their expertise and long history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 3 were paid by CAT LLC to WilmerHale. During FAM Period 3, the legal assistance provided by WilmerHale included providing legal advice regarding the following:

- Assisted with the development of the CAT funding model and drafting related amendments and rule filings;
- Drafted exemptive requests from CAT NMS Plan requirements, including, for example, verbal activity regarding Phase 2c cutover, error reports, error corrections, Phase 2d Reporting, unique Order-ID on internal route events, reporting addresses, recordkeeping, and unique CCID for foreign customers;
- Provided interpretations related to CAT NMS Plan requirements, including with regard to the Financial Accountability Milestone amendment, FAQs, CAIS requirements, ADF, and technical specifications;
- Provided support for the Operating Committee, Compliance Subcommittee, working groups and Leadership Team, including with regard to meetings with the SEC staff;
- Assisted with the Implementation Plan and Quarterly Progress Reports required pursuant to Section 6.6(c) of the CAT NMS Plan;

- Drafted SRO rule filings related to the CAT Compliance Rule;
- Provided support for the Compliance Subcommittee, including with regard to responses to OCIE examinations and the annual assessment;
- Provided guidance regarding the SEC’s proposed security amendments to the CAT NMS Plan;
- Provided guidance regarding SRO rule filings for the retirement of systems;
- Provided legal support for Operating Committee meetings, including drafting resolutions and other materials and voting advice;
- Provided assistance with change requests;
- Provided guidance and regulatory support for litigation regarding the response to the SEC’s exemptive orders;
- Assisted with communications with the industry, including CAT Alerts and presentations;
- Provided guidance regarding the confidentiality of CAT Data, including third-party information requests;
- Assisted with cost management analysis and proposals; and
- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretive and implementation issues.

Law Firm: Pillsbury. CAT LLC continued to employ Pillsbury during FAM Period 3 based on, among other things, their expertise and history with the project. The hourly fee rates for this law firm were in line with market rates for specialized legal expertise. The legal fees during FAM Period 3 were paid by CAT LLC to Pillsbury. During FAM Period 3, Pillsbury provided legal assistance to the CAT regarding the CAT Reporter Agreement. During this period, Pillsbury advised CAT LLC regarding applicable legal matters, reviewed and responded to comment letters regarding the proposed Plan amendment, participated in meetings with senior SEC staff, responded to comments submitted following the SEC’s April 6, 2021 order instituting proceedings,⁶⁵ and assessed legal matters regarding the SEC’s October 29, 2021 order denying the proposed Plan amendment.⁶⁶

Law Firm: Covington. CAT LLC hired Covington for litigation with the SEC regarding certain exemptive orders related to the CAT, including orders issued in December 2020.⁶⁷ CAT LLC

⁶⁵ Securities Exchange Act Rel. No. 91487 (Apr. 6, 2021), 86 FR 19054 (Apr. 12, 2021).

⁶⁶ Securities Exchange Act Rel. No. 93484 (Oct. 29, 2021), 86 FR 60933 (Nov. 4, 2021).

⁶⁷ See Securities Exchange Act Rel. No. 90688 (Dec. 16, 2020), 85 FR 83634 (Dec. 22, 2020); and Securities Exchange Act Rel. No. 90689 (Dec. 16,

interviewed this law firm as well as other potential law firms, considering a variety of factors in its analysis for choosing legal assistance, including the relevant expertise and fees of the potential lawyers. CAT LLC approved the engagement of Covington in January 2021. The fee rates for this law firm, which were calculated based on hourly rates, were in line with market rates for specialized services. The legal fees for FAM Period 3 for this firm were paid by CAT LLC to Covington.

After Covington was hired in 2021 through the end of 2021, the firm provided legal assistance regarding the litigation with the SEC regarding the 2020 Orders. These services included researching, drafting, and filing motions to stay the 2020 orders and related materials in proceedings before the SEC, as well as researching, drafting, and filing petitions for judicial review of the 2020 Orders in proceedings before the U.S. Court of Appeals for the D.C. Circuit. Covington oversaw ongoing litigation proceedings on these matters, and also supported WilmerHale with respect to settlement negotiations with the SEC staff regarding the 2020 Orders.

In addition to these services, CAT LLC engaged Covington in November 2021 to provide assistance with respect to the SEC's disapproval of CAT NMS Plan amendments concerning a proposed limitation on liability in the event of a data breach or similar event. Covington provided advice concerning CAT's response to the SEC's disapproval order. This work accounted for a minority of Covington's fees in 2021.⁶⁸

(VII) Consulting Costs

The consulting costs of \$1,408,209 represent the fees paid to Deloitte as project manager during FAM Period 3. CAT LLC continued to employ Deloitte during FAM Period 3 based on, among other things, their expertise and long history with the project. The fee rates for Deloitte during FAM Period 3 were negotiated and in line with market rates for this type of specialized consulting work. The consulting fees during FAM Period 3 were paid to Deloitte by CAT LLC. CAT LLC reviewed the consulting fees each month and approved the invoices. During FAM Period 3, Deloitte's CAT-related activities included the following:

- Implemented program operations for the CAT project;
- Provided support to the Operating Committee, the Chair of the Operating Committee and the Leadership Team, including project management support, coordination and planning for meetings and communications, and interfacing with law firms and the SEC;
- Assisted with cost and funding matters for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;
- Provided support for updating the SEC on the progress of the development of the CAT; and
- Provided support for third-party vendors for the CAT, including FCAT, Anchin and the law firms engaged by CAT LLC.

(VIII) Insurance

The insurance costs of \$1,582,714 represent the fees paid for insurance during FAM Period 3. CAT LLC continued to maintain cyber security liability insurance, directors' and officers' liability insurance, and errors and omissions liability insurance offered by USI. After engaging in a process for renewing the coverage, CAT LLC determined to purchase these insurance policies from USI. The annual premiums for these policies were competitive for the coverage provided. The annual premiums were paid by CAT LLC to USI.

(IX) Professional and Administration Costs

The professional and administration costs of \$595,923 represent the fees paid to Anchin and Grant Thornton for financial services during FAM Period 3.

Financial Advisory Firm: Anchin. CAT LLC continued to employ Anchin during FAM Period 3 based on, among other things, their expertise and history with the project. The hourly fee rates for this firm were in line with market rates for these financial advisory services. The fees for these services during FAM Period 3 were paid by CAT LLC to Anchin. During FAM Period 3, Anchin provided a variety of services, including the following:

- Updated and maintained internal controls;
- Provided cash management and treasury functions;
- Facilitated bill payments;
- Provided monthly bookkeeping;
- Reviewed vendor invoices and documentation in support of cash disbursements;
- Provided accounting research and consultations on various accounting, financial reporting and tax matters;

- Addressed not-for-profit tax and accounting considerations;
- Prepared tax returns;
- Addressed various accounting, financial reporting and operating inquiries from Participants;
- Developed and maintained quarterly and annual operating and financial budgets, including budget to actual fluctuation analyses;
- Supported compliance with the CAT NMS Plan;
- Worked with and provided support to the Operating Committee and various CAT working groups;
- Prepared monthly, quarterly and annual financial statements;
- Supported the annual financial statement audits by an independent auditor;
- Reviewed historical costs from inception; and
- Provided accounting and financial information in support of SEC filings.

Accounting Firm: Grant Thornton. CAT LLC continued to employ the accounting firm Grant Thornton during FAM Period 3 based on, among other things, their expertise and cumulative knowledge of CAT LLC. CAT LLC determined that Grant Thornton was well qualified for its role and that its fixed fee rates were in line with market rates for these accountant services. The fees for these services during FAM Period 3 were paid by CAT LLC to Grant Thornton. During FAM Period 3, Grant Thornton provided audited financial statements for CAT LLC.

(X) Public Relations Costs

The public relations costs of \$92,400 represent the fees paid to Peak Strategies during FAM Period 3. CAT LLC continued to employ Peak Strategies during FAM Period 3 based on, among other things, their expertise and history with the project. The fee rates for this firm were in line with market rates for these types of services. The fees for these services during FAM Period 3 were paid by CAT LLC to Peak Strategies. During FAM Period 3, Peak Strategies continued to provide professional communications services to CAT, including media relations consulting, strategy and execution. Specifically, the public relations firm provided services related to communications with the public regarding the CAT, including monitoring developments related to the CAT (e.g., congressional efforts, public comments and reaction to proposals, press coverage of the CAT), reporting such developments to CAT LLC, and drafting and disseminating communications to the public regarding such developments as well as reporting

2020), 85 FR 83667 (Dec. 22, 2020) (collectively, the "2020 Orders").

⁶⁸ As discussed above with regard to Pillsbury's work on liability matters, liability issues related to the CAT are important matters that needed to be resolved and clarified. CAT LLC's efforts to seek such resolution and clarity work to the benefit of Participants, Industry Members and other market participants. Moreover, such activity is a necessary part of the operation of the CAT.

on developments related to the CAT (e.g., amendments to the CAT NMS Plan). As discussed above, such public relations services were important for various reasons, including monitoring comments made by market participants about the CAT and understanding issues related to the CAT discussed on the public record. By engaging a public relations firm, CAT LLC was better positioned to understand and address CAT matters to the benefit of all market participants.

(e) Excluded Costs

Historical CAT Costs 1 would not include three categories of CAT costs ("Excluded Costs"): (1) \$14,749,362 of costs related to the termination of the relationship with the Initial Plan Processor; (2) \$48,874,937, which are all CAT costs incurred from November 15, 2017 through November 15, 2018; and (3) \$19,628,791, which are costs paid to

the Initial Plan Processor from November 16, 2018 through February 2019 when the relationship with the Initial Plan Processor was concluded. The Participants would remain responsible for 100% of these costs, which total \$83,253,090. CAT LLC determined to exclude these Excluded Costs from Historical CAT Costs 1 because these costs relate to the delay in the start of reporting to the CAT and the conclusion of the relationship with the Initial Plan Processor.⁶⁹

(I) Costs Related to Conclusion of Relationship With Initial Plan Processor

First, Historical CAT Costs 1 would not include \$14,749,362 of costs related to the conclusion of the relationship with the Initial Plan Processor. Such costs include costs related to the American Arbitration Association, the legal assistance of Pillsbury with regard to the arbitration with the Initial Plan

Processor, and the settlement costs related to the arbitration with the Initial Plan Processor. The Participants would remain responsible for 100% of these \$14,749,362 in costs.

(II) Costs Incurred From November 15, 2017 Through November 15, 2018

Second, Historical CAT Costs 1 would not include all CAT costs incurred from November 15, 2017 through November 15, 2018. CAT LLC determined to exclude all costs during this one-year period of \$48,874,937 from fees charged to Industry Members due to the delay in the start of reporting to the CAT. The Participants would remain responsible for 100% of these \$48,874,937 in costs. The following table breaks down these costs into the categories set forth in Section 11.3(b)(iii)(B)(II) of the CAT NMS Plan.

Operating expense	Excluded costs for November 15, 2017–November 15, 2018 *
Capitalized Developed Technology Costs	\$37,852,083
<i>Technology Costs:</i>	
Cloud Hosting Services	
Operating Fees	
CAIS Operating Fees	
Change Request Fees	
Legal	6,143,278
Consulting	4,452,106
Insurance	
Professional and administration	340,145
Public relations	87,325
Total Operating Expenses	48,874,937

* The costs described in this table of Excluded Costs were calculated based upon CAT LLC's review of applicable bills and invoices and related financial statements. CAT LLC financial statements are available on the CAT website.

The following provides additional detail regarding the Excluded Costs.

(a) Technology Costs—Cloud Hosting Services, Operating Fees, CAIS Operating Fees and Change Request Fees

CAT LLC did not incur technology costs related to the categories of cloud hosting services, operating fees, CAIS operating fees or change requests during the period from November 15, 2017 through November 15, 2018.

(b) Technology Costs—Capitalized Developed Technology Costs

Capitalized developed technology costs for the period from November 15, 2017 through November 15, 2018 include capitalizable application development costs of \$37,852,083

incurred in the development of the CAT by the Initial Plan Processor. Such costs include development costs incurred during the application development stage to meet various agreed-upon milestones regarding the CAT, as defined in the agreement between CAT LLC and the Initial Plan Processor. Such costs include costs related to Industry Member technical specifications for orders and transactions, the system security plan, testing and production for Participant CAT reporting, third-party security assessment and response, query portal, onboarding of the Chief Information Security Officer, and ingestion of FINRA TRF data and FINRA data related to halts and corporate actions.

(c) Legal Costs

The legal costs of \$6,143,278 represent the fees paid to WilmerHale for legal services from November 15, 2017 through November 15, 2018. During this period, WilmerHale provided legal assistance to the CAT, including with regard to the following:

- Provided legal support for the governance of the CAT, including governance support for the Operating Committee, Advisory Committee, Compliance Subcommittee, and CAT working groups;
- Assisted with the development of the CAT funding model and drafted related amendments of the CAT NMS Plan;
- Provided assistance related to CAT security;

⁶⁹In approving the CAT Funding Model, the Commission states that "the proposed exclusion of the excluded costs from Past CAT Costs is appropriate in the Commission's view because it

would not require all costs incurred by the Participants to be recovered from Industry Members through the Historical CAT Assessment, specifically excluding those costs related to the delay in the

start of reporting to the CAT and costs related to the conclusion of the relationship with the Initial Plan Processor." CAT Funding Model Approval Order at 13450.

- Drafted exemptive requests, including requests related to PII;
- Assisted with the Implementation Plan required pursuant to Section 6.6(c)(i) of the CAT NMS Plan;
- Provided interpretations of and related to the CAT NMS Plan;
- Provided advice with regard to regulator access to the CAT;
- Assisted with the Plan Processor transition;
- Provided assistance regarding communications with the industry regarding the CAT;
- Provided advice regarding Customer Account Information and PII;
- Provided support for litigation related to SEC exemptive orders; and
- Provided support with regard to discussions with the SEC and its staff, including with respect to addressing interpretative and implementation issues.

(d) Consulting Costs

The consulting costs of \$4,452,106 represent the fees paid to Deloitte for their role as project manager for the CAT from November 15, 2017 through November 15, 2018. During this period, Deloitte engaged in the following activities with respect to the CAT:

- Implemented program operations for the CAT project;
- Provided governance support to the Operating Committee, including support for Subcommittees and working groups of the Operating Committee (e.g., Compliance Subcommittee, Cost and Funding Working Group, Technical Working Group, Industry Outreach Working Group, Security Working Group and Steering Committee);
- Assisted with cost and funding issues for the CAT, including the development of the CAT funding model and assistance with loans and the CAT bank account for CAT funding;
- Provided support for updating the SEC on the progress of the development of the CAT; and
- Provided active planning and coordination with and support for the Initial Plan Processor with regard to the development of the CAT, and reported to the Participants on the progress.

(e) Insurance
